"BARBARA FRIETCHIE" TONIGHT.
Attraction One of the Best in the Theatrical Line This Season.

The attraction at the opera house this evening will be one about the merits of which there is no room for doubt, as the play, "Barbara Frietchie," was one of Charles Frohman's greatest successes of the past two seasons, running for more than six months at the Criterion theatre, New York, and for more than 100 nights at the Academy of Music in the same city. Clyde Fitch, the author of the play, is indebted only to the well known poem for the name of his heroine, and the single incident of the flag. He has made Barbara a young girl and built around her an entirely original story which gives a delightful frame to the heart story of the young Southern girl, whose love leads, like Juliet's, to an ending that is exquisitely pathetic and whose tragedy is as logical in its sequence and as remorseless and irresistible in its sweep as that of a Greek classic. So strongly did the play impress Clement Scott, the noted English critic and playwright, who was in New York last season, that he described it as "an American Romeo and Juliet." Miss

"NEVER! DO YOU HEAR ME? GIVE HIM HIS ANSWER, BARBARA"

Frances Gaunt will be the Barbara in the local presentation and she will be assisted by a thoroughly capable company, which includes many well known and experienced players. The entire scenic production used in New York, with its realistic Southern pictures and correct historical costumes, will be exhibited here.

DR. GEORGE G. BARNETT.

Is Active in Interesting the Public in Accurate Registration of Births.

The Mining Journal visited the Ishpeming hospital Saturday afternoon during a conversation with Dr. George G. Barnett found that he is very much interested in the subject of the adoption of laws for the more accurate registration of births throughout the state.

The Michigan Bulletin of Vital Statistics claims that not over sixty per cent of the births occurring in Michigan are registered properly.

There was no record of his birth in this city but fortunately the officials were able to trace the date of his birth from other sources.

It seems that Hon. E. N. Dingley of Kalamazoo introduced a bill in the legislature amending the present law so as to require each birth to be registered as soon as it occurred.

It is interesting to note that when Dr. Barnett was health officer of Ishpeming he was the means of causing an ordinance to be passed by the common council requiring the immediate registration of each birth.

The doctor's interest in the registration laws of other states and he has gathered considerable information on the subject which is of much value.

Ishpeming Hospital. Ishpeming, Mich., October 30, 1901.

Dear Doctor—I presume I am not introducing a new subject when I speak of the very urgent necessity for a law requiring the complete and official record of all births in our state.

It should be just as complete and imperative as the law relative to deaths. What can we as individual physicians and good citizens do to forward this matter?

Very truly yours, GEORGE G. BARNETT.

MUST FILE A BOND

COUNCIL GETS AFTER THE MARQUETTE GAS COMPANY.

LAYING OF MAINS ILLEGAL

FRANCHISE EXPIRED TEN YEARS AGO AND NEVER RENEWED.

Ordinance Distinctly States That Permission to Tear Up Streets Must Be Obtained from Aldermen, and This Has Not Been Done.

The council paid its respects to the gas company last evening, and as a result the company must forthwith file a satisfactory bond or the work it is now doing in the streets will be promptly stopped.

The matter was brought to the attention of the council by Alderman Shea, who wanted to know under what authority the work now in progress was being done.

In answer to Alderman Shea, it was stated that according to the city charter the street commissioner had full power to permit the work to proceed, and as he had given his consent the council could do nothing.

However, the assertion that the company was acting fully within its rights, since it had the permission of the street commissioner, was reiterated, and this led to an examination by nearly every alderman present of the ordinance under provisions of which it was said the company was extending its mains.

The ordinance as read by Alderman Donoran, and interpreted by that gentleman, provides that the company in order to do work of the kind which is developed as Alderman Ward had stated, the work being done was clearly in violation of the city statutes.

The upshot of the deliberations was that it was decided the marshal serve notice that the work be stopped until the company came before the council and obtained its permission.

THIRTY-FIVE THOUSAND TONS.

Still That Amount of Ore to Be Shipped from Presque Isle Dock.

Ore shipments from this port this season are rapidly drawing to a close, and the chances are that early next week will witness the departure of the last boat.

Much better progress in loading the carriers has been made during the past few days, frozen ore not giving much trouble, and as a result what looked like a bad blockade has to a great extent been modified.

It is estimated that about thirty-five thousand tons of ore are still to be shipped to the lower lakes from the dock at Presque Isle.

There are still five boats due to arrive here for ore, and it is said one or two are bringing up coal.

The craft to clear with ore yesterday were the Oceanic, for Tonawanda, and the Andaste and the Cherokee and Chipewa, for Ashtabula.

FREIGHT CAR DERAILED.

Trivial Mishap Caused Wild Stories of Wreck of Passenger Train.

Reports of the wreck of the west-bound passenger train at a point down the line to the east of here were circulated yesterday afternoon.

Investigation developed the fact that the reports, as usual, were wildly exaggerated, and that the mishap was of comparatively trivial nature.

Passenger train No. 1, due here at 2:50 p. m., was to the east of the scene of the mishap, and of course could not get by until the track was cleared.

To accommodate the passengers at this end of the line, the South Shore officials sent out a train as the regular west-bound passenger a little after three in the afternoon, the train taking the place of No. 1, which went to the yards on its arrival in Marquette.

COPPERS STILL DEPRESSED.

Hold Up Fairly Well Although Lower Prices Are Registered.

Tom Lawson's circular did not have much effect on Amalgamated yesterday. It did cause some short covering in the early hours of the trading and the stock got up near to 77, but the price after that gradually sank and left off at 73 1/2.

The limit of the decline in stocks has not been reached, while a cheery development of the day was the big recovery in the price of copper at London, even though it did not have any appreciable effect on speculation.

As Noted by the Brokers.

Hayden, Stone & Co. wired the Laidley Commission company: "Amalgamated is still the feature and, in spite of Mr. Lawson's latest effusion, the stock does not hold its advance."

The rest of the coppers are naturally beginning to feel the depression, and though still inactive they are somewhat lower. It is quite surprising how they hold with all this bearish talk."

Paine, Webber & Co. said: "The whole market has been under the hammer again today and more gold has been engaged for export. In spite of all this, the home coppers are holding firm, apparently waiting for the last bear gun to be fired."

Of the Wall street stocks, Walker Bros. said: "The market today opened barely steady and there was liquidation throughout the entire day."

The feature of the London copper market yesterday was a still recovery in the price of the metal. The opening quotations were £50, 15s for spot and £59, 5s for futures.

A New York dispatch to Paine, Webber & Co. was advised by the Boston office: "We mail you today advance sheets of the circular to be sent out to shareholders of the Copper Range and Baltic in the matter of the consolidation. We think the purchase of both stocks can be made now to good advantage."

At London yesterday the visible supply of copper on Dec. 1 was reported at 20,577 tons, an increase of 219 tons since Nov. 15.

The feature of the London copper market yesterday was a still recovery in the price of the metal. The opening quotations were £50, 15s for spot and £59, 5s for futures.

A New York dispatch to Paine, Webber & Co. was advised by the Boston office: "The story on the board is that Fields has covered his shorts in Amalgamated and is going long of the stock."

Wheat Strong; Corn Weak.

A. B. Jones & Co. said of the Chicago grain markets: "Increased speculation is still the feature in wheat, accounting for an advance of 1 1/2 over Saturday's close."

The fact that expected rains over the winter wheat belt did not come helped the situation wonderfully and brought such a rush of general buying orders that the prices were marked up very easily notwithstanding heavy profit-taking by holders.

It does not act that way, and as speculation has largely left this pit lower prices may soon be seen."
