## NICARAGUA FAVORED

ISTHMIAN CANAL COMMISSION DECIDES AGAINST PANAMA.

REPORT IS SENT TO CONGRESS

ESTIMATED COST OF CONSTRUCTION IS \$189,864,062.

Practically Entire Time of Senate Is Devoted to Introduction of Bills and Resolutions—Many Touch on Anarchy.

Washington, Dec. 4.—The report of the Isthmian Canal commission was sent to congress today. The commission favors the Nicaragua route and makes an estimate of the construction of a canal through Nicaragua. The estimated cost of the Panama route is \$104,233,358, but the report says, it would cost \$109,141,000 to obtain the Panama concession.

Value of Work Done. The commission values the work done at \$400,000,000. The report says the Panama route is feasible as the sea is on a level with the canal, while the Nicaragua route must be by locks, but Lake Nicaragua will furnish an inexhaustible supply of water for the canal. The Nicaragua route has no natural harbors at either end, but satisfactory harbors may be constructed.

Harbors already exist at each end of the Panama route, but considerable work must be done at the entrance of the harbor on the Atlantic side. With an adequate force and plant the commission estimate the Nicaragua canal can be completed in six years, exclusive of two years for preparation. Ten years is estimated to complete the Panama route.

The total length of the Nicaragua route is 185.66 miles and the Panama route 49.09. The estimated cost of operating and maintaining the Nicaragua canal annually is \$1,350,000 greater than the Panama canal.

Many Bills Introduced.

Practically the entire time of the senate today was devoted to the introduction of bills and resolutions. Two of these measures, relating to the suppression of anarchy and dealing with anarchists, were allowed to lie on the table so that their authors, Senators McComas of Maryland and Vest of Missouri, may bring them to the early attention of the senate. The Isthmian Canal report was transmitted to the senate by the president and several bills providing for the construction of the waterway, one by Senator Morgan of Alabama, who has led the movement for the canal in the past, were presented.

The Vest resolution directs the judiciary committee to inquire if congress has the power to legislate the punishment of anarchists who attempt to assassinate the president; if not, if it is expedient to amend the constitution to permit such legislation; also to inquire into the advisability of establishing a penal colony to which shall be deported, after conviction, every anarchist holding the doctrine that all governments should be destroyed by the assassination of their chief rulers.

Punishment of Anarchists.

Senator McComas' resolution declares that congress has the power and should by law provide: That any person or persons who willfully kill, or attempt to kill, the president or vice president, or both, or any officer upon whom the powers and duties of the president may devolve under the legislation and laws, shall be punished with death, the federal courts to have jurisdiction in such offenses; also for the exclusion and deportation of alien anarchists. Also that congress shall support the executive department in procuring an amendment to all extradition treaties similar to the provision in our convention with Belgium for the extradition of criminal anarchists.

Senator Hoar introduced a bill, which provides that any person who shall willfully kill or cause the death of the president of the United States, or any officer thereof, or who shall willfully kill or cause the death of a ruler or chief magistrate of any foreign country, shall be punished with death; also that an attempt to commit such murder shall be punished with death; for conspiring or advising the killing of the officers named above punishment by imprisonment not exceeding twenty years. The parties conspiring as aforesaid may be convicted separately, even though other parties in the conspiracy are not indicted or convicted. Whoever aids in the escape from punishment of any person guilty of the foregoing offenses will be deemed an accomplice after the fact and punished as if a principal.

Burrows Introduces Bill.

There was a flood of executive communications, mainly formal. The president transmitted the new Hay-Pauncefote treaty for the isthmian canal. Senator Burrows introduced a bill "to provide for the exclusion of the deportation of alien anarchists."

Senator Morgan introduced a bill on the construction of the Nicaraguan canal, appropriating the sum necessary to complete the project.

Senator Perkins' bill on the same subject provides for the perpetual lease by the United States of the right of way across Nicaragua and Costa Rica, and confers the military police and sanitary police control of the canal route by the United States. It makes appropriations of \$120,000,000, of which \$12,000,000 is to be expended annually.

When Senator Hoar sought to advance the consideration of certain pen-

sion-bills Senator Morgan of Alabama objected, remarking:

"There is too much slack on pensions. I would like to tighten it up a little." Senator Lodge introduced a bill providing that the tariff passed by Philip- pines commission Sept. 17, 1901, and approved in full force and effect. This covers goods going into the islands. Senator Lodge also introduced a bill providing for the removal of the ten years' limitation on the Chinese exclusion act, thus leaving the provisions of the Geary act in force.

A large number of other bills were introduced.

Allison Names Committee.

Senator Allison today named the following committee, in accordance with the resolution of the Republican caucus, to select the Republican membership of the committees of the senate: Senators Platt of Connecticut; McMillan of Michigan; Proctor of Vermont; Perkins of California; Nelson of Minnesota; Warren of Wyoming; Fairbanks of Indiana; Keane of New Jersey; McComas of Maryland.

MEANS TWO-CENT FARES.

Michigan Central to Reorganize Under State General Railroad Law.

Detroit, Dec. 4.—At a meeting of the stockholders today of the Michigan Central it was decided to reorganize under the state general railroad law. This means a rate of fare of two cents per mile on the main line of the road, the law providing that roads of the earning capacity of the Michigan Central cannot charge over two cents per mile.

## DUEL WITH KNIVES ENTIRE CREW LOST

TWO NEW YORK NEGROES FIGHT OUT GRUDGE.

LOCK THEMSELVES IN A ROOM

UPROAR AND CRIES AND SCREAMS OF FIGHTERS HEARD.

When Police Break Down Door Both Are Found Lying on Floor Unconscious—Negro Stabs Woman Thirty Times.

New York, Dec. 5.—George Harris and Richard York, negroes, met tonight in Harris' room and fought out a grudge with knives. They were alone and before the beginning of the duel locked the door. The lamp was soon extinguished and the fight continued for fifteen minutes in the dark. The tenement in which Harris roomed contained a hundred negroes, who heard the uproar and the cries and screams of the fighters, but none dared to break in until both men were heard to fall and only groans could be heard.

Bodies Slashed With Cuts.

The police broke open the door. The furniture was wrecked and on the floor lay Harris, unconscious and with a dirk sticking in his breast. His face, body and clothes were slashed with cuts. Anthony had as many cuts but none were serious. Harris is believed to be fatally wounded. Anthony was locked up. James Smith, a prominent New York lawyer, Maud Thompson tonight thirty times. She is dying at a hospital and he is under arrest. Hundreds of negroes chased and fired many shots at Smith in an attempt to kill him as he ran through the streets.

Defended Himself from Attack.

Washington, Dec. 4.—While defending himself from attack by a party of young men for the alleged insult of a young woman at Oak Grove, Va., Herbert Marks, a prominent New York lawyer, shot and killed W. P. Taylor and fatally wounded William Heffin and J. Q. Stiff. Another of the attacking party, H. W. Thompson, has been missing since the tragedy. A coroner's jury exonerated Marks.

Race Riot in Alabama.

Andalusia, Ala., Dec. 4.—Word has just been reached here that a race riot followed the killing of Fate Atkinson and J. W. Duffey by a negro at Opp this evening. The two negroes had been found dead and several more were wounded. The officers there have wired here for the sheriff and bloodhounds. A posse was organized here to go to Opp at once.

Boy Kills Companion.

Cincinnati, Dec. 4.—While returning from school at noon today Joseph Creelman, eight years old, was stabbed to death by Eddie Armines, aged eleven. The boys had quarreled at school and it was renewed later, resulting in murder. Armines was arrested.

Shot Wife and Son.

Weir City, Kas., Dec. 4.—Romaine Taubaux, a Frenchman, while intoxicated tonight, shot and fatally wounded his wife and son, Giraud Taubaux, and seriously wounded two other sons, at his home in this city.

RIOTS IN MISSOURI.

Company of State Militia Is Called to the Scene.

Rich Hill, Mo., Dec. 4.—Two small riots here today between striking miners and deputy sheriffs resulted in the serious wounding of four men. Sheriff Joe T. Smith of Butler, Mo., was seriously injured by a shot from a slingshot. Walter Valentine, a deputy sheriff, shot two miners and was himself shot. Company B, National guard, has been called out and will arrive here early tomorrow morning. About 400 miners are out.

SALSBUARY IS GUILTY.

Superior Jury in Grand Rapids Bribery Case Renders Verdict.

Grand Rapids, Mich., Dec. 4.—The superior jury in the bribery case against City Attorney Lant K. Salisbury returned a verdict of guilty today. Salisbury was indicted last summer on a charge of accepting a bribe of \$75,000 for his assistance in pushing through a deal by which the city of Grand Rapids was to award eastern capitalists \$4,000,000 on a contract for furnishing the city with water from Lake Michigan.

TEN TERRIBLY BURNED.

Miners Narrowly Escape Death in an Explosion.

Springfield, Ill., Dec. 4.—Ten men, who narrowly escaped death in an explosion in a coal mine here tonight, were all frightfully burned about the face and hands. The accident occurred at the mine of the Lincoln Park Coal Mining company just as the men were leaving the mine. The accident was due to a dust explosion, caused by the firing of a heavy blast, and occurred 600 feet from the mouth of the mine.

WABASH TO BLAME.

Coroner's Jury Says Railroad and Trainmen Are Responsible for Wreck.

Adrian, Mich., Dec. 4.—The coroner's jury today found that the disastrous collision on the Wabash near Seneca last Wednesday night, between trains 13 and 4 was caused by the negligence of the Wabash Railroad company and the trainmen of train No. 4.

## BRITISH SHIP NELSON TURNS TURTLE AND SINKS.

DISASTER OCCURS DURING GALE ON OREGON COAST.

STEAMER CLARA BROWN GOES ASHORE NEAR SEATTLE AND PASSENGERS MAKE WAY ASHORE THROUGH SURF—STORMS REPORTED ELSEWHERE.

ASTORIA, ORE., DEC. 4.—The British ship Nelson turned turtle during the storm last night and sank with her crew of twenty-eight men.

The Nelson left Astoria Nov. 25, Monday night she was back at the river's mouth and yesterday was reported to have shifted her cargo. She had a bad list to starboard and could go on only one tack. Yesterday afternoon the tug Tatoosh picked up the Nelson, passing a hawser, and started off to shore with the ship. It was the intention of Captain Bailey of the Tatoosh to remain with the ship during the night.

Broke Away from Tug.

The gale that raged was too severe for the vessel to withstand and during the height of the gale she broke away from the tug and then turned turtle, sinking at once. In the darkness it was impossible for the tug to render assistance to the members of the crew, who were carried down, and all perished. The Nelson carried a crew of twenty-eight all told, and was an old wooden vessel.

The following is a partial list of the crew: Captain Perriam; First Mate W. A. Strachan; Second Mate J. J. Tilsley; Seamen Vickmars, M. Peterson, Lars Peterson, D. Best, A. Johnson, J. Jensen, F. Larson, J. Torell and John Mealey, St. Joseph, N. B.; J. Erickson, J. Burch and E. Sheehan, Queenstown; Apprentices W. Terry and J. Beste.

May Not Be Lost.

Later—The fate of the British ship Nelson, reported early today as having turned turtle last night and gone to the bottom, cannot be known until tomorrow. By that time she will probably be sighted, if still afloat. If tugs, which will institute a search, fail to find her, she will doubtless be given up as lost. The tugboat people think she is safe, but there is cause for the gravest fear.

Snow Storms Reported.

Omaha, Dec. 4.—A snow storm is general throughout Nebraska, Western Iowa and a part of South Dakota. It began here at 4 o'clock and two inches have fallen, with prospects that it will continue for the greater of tonight.

Topeka, Dec. 4.—Kansas is receiving a heavy snow storm tonight, which covers the entire eastern half of the state. If the snow proves as heavy as expected, it will be of great benefit in giving a much needed supply of moisture.

Big Stern Wheeler.

Seattle, Wash., Dec. 4.—The steamer Clara Brown, one of the largest stern wheelers on the sound, was driven ashore at Alki Point last night during the gale, which raged all night. The passengers jumped overboard and made their way ashore through the surf.

FOUND TWELVE BRUISES.

Washington Physicians Testify to Condition of Mrs. Bonine's Person.

Washington, Dec. 4.—The defense in the case of Mrs. Bonine introduced today the testimony of several Washington physicians, including the jail physician, regarding the bruises and abrasions on Mrs. Bonine's person, and also the state of her health at the time of the tragedy. Dr. H. D. Frye said that he had found twelve such bruises.

## REPORT OF GAGE

SECRETARY OF TREASURY ISSUES ANNUAL STATEMENT.

BIG INCREASE IN REVENUE

NEARLY \$140,000,000 IS EXPENDED FOR PENSIONS.

Available Cash Balance in Treasury Over \$171,000,000—Coinage of Mints and Estimated Production of Gold and Silver.

Washington, D. C., Dec. 4.—The report of Secretary of the Treasury T. J. Gage for the fiscal year ending June 30, 1901, shows that the revenues of the government from all sources for the year were \$699,316,530.92 and the expenditures \$621,589,546.54. Of the latter amount \$139,323,621.99 was expended for the postal service. Compared with the fiscal year 1900 the receipts were increased \$29,721,029.74 and there was an increase of \$22,253,561.44 in the expenditures. The revenues of the government for the current fiscal year are estimated at \$688,633,942.00 and the expenditures \$688,633,942.00.

Reserve and Trust Funds.

The reserve fund and the trust fund have been maintained. The redemptions of United States notes have been each day adjusted by exchange for gold, so that the full sum of \$150,000,000 has been kept unchanged in coin and bullion. Two features are marked in the currency—first, the growing use of gold, and, second, the constant addition to the small denominations of paper. The gold, including certificates, in circulation, which was 32.8 per cent of the total circulation on July 1, 1897, was 39.5 per cent on July 1, 1900, 40.2 per cent on July 1, 1901, and 40.8 per cent on Oct. 1, 1901. The average denomination of notes and certificates issued by the treasury, which was \$6.34 in the fiscal year 1900, fell to \$4.46 in 1901.

The number of pieces of government paper issued rose from 78,132,776, representing \$495,545,000, in 1900, to 91,291,031, of which the face value was \$407,102,000, in 1901. In the first quarter of 1901, 21,443,469 pieces issued, representing \$100,834,000, while in the like period of 1902 the issues were 26,603,799, of the face value of \$110,400,000, and the average worth was \$4.152.

The available cash balance in the treasury Nov. 15, 1901, was \$171,017,610.89.

Coinage of the Mints.

The coinage of the mints during the fiscal year amounted to 176,999,132 pieces, of a value of \$136,340,781.58. Of this, \$99,065,715 was gold, \$24,298,850 was silver dollars, \$10,966,648.50 was subsidiary silver, and \$2,009,568.08 minor coin. There were also coined at the Philadelphia mint 225,000 gold pieces, of the value of \$349,014.42, for the government of Costa Rica.

The total earnings of the mint service, including seigniorage on silver dollars, subsidiary silver coin, and minor coin, exceeded the expenditures by \$10,410,383.49.

The estimated production of gold in the United States in the calendar year 1900 was 3,829,897 fine ounces, of the value of \$79,171,000. The estimated production of silver in the United States in the same year was 57,647,000 ounces, of the approximate commercial value of \$35,741,140.

The estimated production of gold in the world in the calendar year 1900 was 12,457,287 fine ounces, of the value of \$257,514,700. The estimated production of silver in the world in the calendar year 1900 was 178,796,796 fine ounces, of the approximate commercial value of \$110,854,900.

Consumption of Gold.

The industrial consumption of gold in the United States in the calendar year is estimated to have been \$16,067,500, and in the world approximately \$75,900. To meet the constantly increasing demands of the public for United States notes and silver certificates, it has been necessary to increase the daily output of the bureau from 72,000 sheets of notes and silver certificates to 112,000; and it will be necessary to further increase it to 126,000 sheets as soon as the facilities for finishing these notes and certificates in the issue division of the treasurer's office will permit. The increase from 72,000 to 112,000 sheets daily raised the aggregate delivery from 21,250,000, upon which appropriations for the bureau for the fiscal year were made, to 30,450,000 sheets, and the increase to 126,000 sheets will further increase this aggregate to 34,704,000. This shows an increase of 13,454,000. Each of these sheets requires two plate printings. It is the most expensive work executed by the bureau.

During the fiscal year 411 banks, with aggregate capital of \$20,517,000, were organized; thirty-seven, with capital of \$8,970,000, placed in voluntary liquidation, and twelve, with capital of \$1,800,000, placed in charge of receivers. Subsequent to the close of the year one of the twelve associations was placed in a solvent condition and permitted to resume.

Capital Stock of Banks.

The authorized capital stock of the banks in existence on June 30, 1900, was \$627,503,095. In addition to the capital of banks organized during the year, old associations increased their stock to the extent of \$12,921,800. The national bank capital stock account was reduced during the year to the extent of \$13,275,300, of which \$2,780,000 represented reduction of the stock of existing banks and \$10,495,000 the closing of

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.50 Per year, by mail, \$15.00

It is the persons who don't do their own thinking who are surest of their opinions. A man who tries to think out conclusions for himself is pretty certain to be oppressed by doubts that those who adopt other people's views unquestioningly never know.

The military authorities at Manila have found it necessary to expel all the agents there of English houses and also from the islands of Sama and Lyrie, because these have persisted in traffic with the insurgent natives.

Steel cars are coming more into use on our railways. The Baltimore & Ohio railroad has recently placed an order for 5,000 of them with a Pittsburg car building concern, and the Pennsylvania railroad is about to procure an equal number for use on its lines.

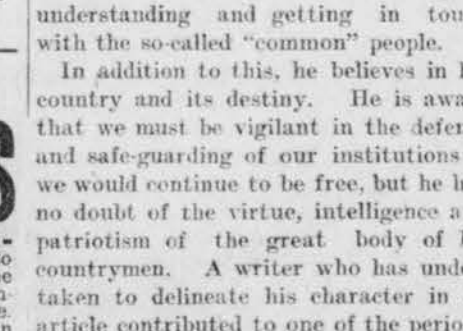

Representatives of the beet sugar industry are to have a conference at Washington next week to consider ways and means for influencing congress not to "let down the bars" so as to permit Cuban sugar to enter this country more freely.

Germany's proposed tariff doesn't find favor with the people of that country. It contemplates an increase in the load of indirect taxation they are carrying which would burden them almost beyond the limit of endurance.

Germany's proposed tariff doesn't find favor with the people of that country. It contemplates an increase in the load of indirect taxation they are carrying which would burden them almost beyond the limit of endurance.

Believes in the People. Like the great Lincoln, President Roosevelt has profound faith in the people who work. His sympathies are actively and strongly with the toilers of the land and he wants to see them given every opportunity to obtain some enjoyment out of life, as well as increased facilities for improving their condition.

"Lydia E. Pinkham's Vegetable Compound cured me and made me well, and that is why I gladly write you this, and gladly thank you; six bottles was all I took, together with your Pills. My headache and backache and kidney trouble went, never to return; the burning sensation I had left altogether; my general health was so improved I felt as young and light and happy as at twenty." - Mrs. Louise M. Gibson, 4813 Langley Ave., Chicago, Ill. - \$5000 forfeit if above testimonial is not genuine.

OLD DOMINION MINE. N. L. Amster Says Property Is Better Than Ever Before in History.

Work out in their own way the results they aim to achieve. It is President Roosevelt's good fortune that he reached the place he is now filling without the assistance of the politicians of his party.

COPPER COUNTRY NEWS

THE COPPER CONDITIONS. A Boston Paper on the Difficulties of the Amalgamated.

In an editorial article considering the copper situation the Boston Herald of Monday said concerning the predicament in which Amalgamated finds itself: "The condition of the copper market and the shares of the copper mining companies are both interesting as speculative problems. Certain great financial forces are at work endeavoring to control the copper market of the world. It is believed that they do not represent, either directly or indirectly, half of the productive capacity of the world."

Taking the expressions of representatives of the South American republics in the Pan-American congress as indicating the sentiment of their people, the feeling toward the United States now existing in these countries is exceedingly friendly. At a banquet the other night, the delegates seem to be doing a good deal of banqueting, one of them, Martin Garcia Merou, an Argentine delegate, paid this country and its people a very graceful compliment, which is quite good enough to deserve reproduction. Alluding to the cordial relations existing between the United States and the sister republics south, he said: "I have had the pleasure of living in the United States and nobody has a greater admiration than I, nor a better feeling and more grateful regard, for the many virtues of the American nation; for the sense of justice of the American statesmen, for the high ideals of the American people, or for the sincerity of its friendship toward sister nations of Central and South America. The noble words of that great American diplomat, Mr. Hay, have reached us, conveying to all the Latin American countries today represented in Mexico assurances of the interest, the government and the people of the United States take in our prosperity and welfare and the absolute unselfishness of its policy in regard to us, and we all know that these sentiments are real; that those declarations are sincere as they come from the government and the men who have always stood by their pledges."

THEIR OCCUPATION GONE. The Chicago Chronicle estimates at not less than 100,000 the number of freight and traveling agents of the big railways who will be thrown out of employment on account of changes in methods of railway management effected latterly by which the struggle for business between competing systems is done away with.

Operation of the railroads of the country, especially those east of Chicago, has been placed on a basis that renders it unnecessary for them to bother about getting business. They work together so harmoniously that competition has ceased, hence there is no occasion to employ solicitors. This is very nice for the roads, but it is pretty rough on the men who will lose positions for which their training and experience have especially fitted them, and may have some difficulty in adapting themselves to work with which they are not familiar.

Operation of the railroads of the country, especially those east of Chicago, has been placed on a basis that renders it unnecessary for them to bother about getting business. They work together so harmoniously that competition has ceased, hence there is no occasion to employ solicitors. This is very nice for the roads, but it is pretty rough on the men who will lose positions for which their training and experience have especially fitted them, and may have some difficulty in adapting themselves to work with which they are not familiar.

KIDNEY TROUBLES.

Mrs. Louise M. Gibson Says That This Fatal Disease is Easily Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I felt very discouraged two years ago, I had suffered so long with kidney troubles and other complications, and had taken so much medicine without relief that I began to think there was no hope for me. Life looked so good to me, but what is life without health? I wanted to be well."

"Lydia E. Pinkham's Vegetable Compound cured me and made me well, and that is why I gladly write you this, and gladly thank you; six bottles was all I took, together with your Pills. My headache and backache and kidney trouble went, never to return; the burning sensation I had left altogether; my general health was so improved I felt as young and light and happy as at twenty." - Mrs. Louise M. Gibson, 4813 Langley Ave., Chicago, Ill. - \$5000 forfeit if above testimonial is not genuine.

The noble words of that great American diplomat, Mr. Hay, have reached us, conveying to all the Latin American countries today represented in Mexico assurances of the interest, the government and the people of the United States take in our prosperity and welfare and the absolute unselfishness of its policy in regard to us, and we all know that these sentiments are real; that those declarations are sincere as they come from the government and the men who have always stood by their pledges."

THEIR OCCUPATION GONE. The Chicago Chronicle estimates at not less than 100,000 the number of freight and traveling agents of the big railways who will be thrown out of employment on account of changes in methods of railway management effected latterly by which the struggle for business between competing systems is done away with.

Operation of the railroads of the country, especially those east of Chicago, has been placed on a basis that renders it unnecessary for them to bother about getting business. They work together so harmoniously that competition has ceased, hence there is no occasion to employ solicitors. This is very nice for the roads, but it is pretty rough on the men who will lose positions for which their training and experience have especially fitted them, and may have some difficulty in adapting themselves to work with which they are not familiar.

BATTLE ROYAL IS ON.

Boston Man Gives His Opinion as to Amalgamated Matter.

A good deal of mystery surrounds the fluctuations of the copper market. Wise speculators shake their heads, as if they knew more than they will tell; and when they are asked where they have nothing more tangible than speculations as to what it all means. C. W. Barron, of Boston, makes a statement which has at least a plausible sound, and it commands interest. According to his view a battle royal is being fought between two great money interests of the world—the Rothschilds and the Standard Oil company, and the Rothschilds. Mr. Barron's authority may be questioned, but he speaks confidently.

These two interests, he says, have met in three battles. The first was a fight for the control of the world's petroleum interest. The result was a draw in which the territory was divided, the Rothschilds having a large part of the old world territory in their control. Then came a scheme apparently started in a spirit of mischief by the Standard Oil company for the purpose of embarrassing the Rothschilds. This was a battle over Spanish securities forced by the Standard Oil company in European markets, while the war was in progress. In this it is said the Rothschilds were squeezed for several hundred millions. The Rothschilds represent the largest incoming copper production in the world. The Amalgamated Copper company, when at full production represents one-sixth of the world's production. With its allies it represents one-third. The danger that threatened the Amalgamated was that its rivals would discover that they could ignore its supply altogether, and before the company could unload its metal the price might suddenly tumble to twelve cents and cause a loss of millions. By limiting production and shutting down the mines when the demand for copper is strong all the world over, the Amalgamated is able to prevent a sudden sag. By acting in conjunction with other large producers the Amalgamated can at least partially block any effort to bear copper prices, and if any material decline is brought about the short supply and widening demand will act as a corrective. This is said to be the secret of the Amalgamated manipulations.

COPPER COUNTRY NEWS

THE COPPER CONDITIONS. A Boston Paper on the Difficulties of the Amalgamated.

In an editorial article considering the copper situation the Boston Herald of Monday said concerning the predicament in which Amalgamated finds itself: "The condition of the copper market and the shares of the copper mining companies are both interesting as speculative problems. Certain great financial forces are at work endeavoring to control the copper market of the world. It is believed that they do not represent, either directly or indirectly, half of the productive capacity of the world."

Taking the expressions of representatives of the South American republics in the Pan-American congress as indicating the sentiment of their people, the feeling toward the United States now existing in these countries is exceedingly friendly. At a banquet the other night, the delegates seem to be doing a good deal of banqueting, one of them, Martin Garcia Merou, an Argentine delegate, paid this country and its people a very graceful compliment, which is quite good enough to deserve reproduction. Alluding to the cordial relations existing between the United States and the sister republics south, he said: "I have had the pleasure of living in the United States and nobody has a greater admiration than I, nor a better feeling and more grateful regard, for the many virtues of the American nation; for the sense of justice of the American statesmen, for the high ideals of the American people, or for the sincerity of its friendship toward sister nations of Central and South America. The noble words of that great American diplomat, Mr. Hay, have reached us, conveying to all the Latin American countries today represented in Mexico assurances of the interest, the government and the people of the United States take in our prosperity and welfare and the absolute unselfishness of its policy in regard to us, and we all know that these sentiments are real; that those declarations are sincere as they come from the government and the men who have always stood by their pledges."

THEIR OCCUPATION GONE. MASS AND ADVENTURE.

As to the rumored general consolidation of the Mass and Adventure mining properties nothing definite can be stated at the present time, but interests friendly to both properties consider such a proposition probable and logical. The Mass mining property is located between the two halves of the Adventure property and a consolidation would be advantageous in many ways. The Mass is now running one head of stamps and will start another head soon. Three heads would handle the output from both mines and would result in economy of operation. The Mass is working all size of its lodes at present, but the Adventure's workings are less extensive and the latter has no mill. A combination of the two properties with a mill working three heads of stamps would, it is believed, put the whole proposition at once on a dividend-paying basis. Each property has a capital stock of \$2,500,000, par value \$25 per share.

HOW'S THIS? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Props., Toledo, O. We, the undersigned, have known E. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligation made by their firm. Hall's Family Pills are the best.

NOTICE TO TAXPAYERS. City Treasurer's Office. Marquette, Mich., Dec. 2, 1901. Notice is hereby given that the general tax roll of the city of Marquette, with all regular taxes, state, county and municipal for the year 1901, spread thereon, has been deposited with me and is now in my office at all on said roll, and that the amount of taxes therein assessed and specified are due, and may be paid to me at any time up to and including the 28th day of February, 1902. On all taxes paid to me on or before Jan. 9, 1902 a collection fee of one per centum will be charged and all on said taxes paid to me on and after Jan. 10, 1902 a collection fee of four per centum will be charged. AUGUST MACHTS, (12-2-2w) Treasurer.

Tender Feet Omega Oil

People with tender, sore, itching, tired, swollen feet ought to know that there is no excuse for them at all. They can rub Omega Oil on the feet each night for a week or so, and then they won't suffer any more. Omega Oil is now used by the very best foot doctors in New York, and they say it is just wonderful how the Oil takes the pain out of the feet. Bathe the feet in warm water, wipe dry, and then rub on the Oil. This treatment is particularly recommended to men and women who have to stand up or walk a good deal. Farmers, clerks, mechanics or women who do housework will find Omega Oil the best foot cure they ever tried.

### Copper Country Department

(Additional Copper County on Page 2.)

#### HOUGHTON TO HAVE THEATRE.

Modern and Elaborate Play House to Be Erected.

Houghton does not propose to be outdone in any way by her bustling neighbor across the lake, and the recent announcement, to the effect that Hancock was to have a new opera house, has brought to light the fact that the erection of a playhouse in Houghton has been talked of for some time.

The Mining Journal yesterday was reliably informed that it has practically been settled for a month that Houghton is to have a modern and elaborate theatre. The question of the time has been considered and although nothing definite is being said about that part of the proposition it is almost certain that the structure will go up next spring.

The Mining Journal's informant, an influential Houghton citizen, and one who is interested in the plan, said yesterday that there was no question but that Houghton would have a very fine opera house. "Houghton is a hustling little town," he said, "and is known as such all over the Northwest, East and West. A few years ago a number of citizens realized that the town was minus a few of the conveniences it should have and that has preyed upon our minds. The new Douglas House was a result and the new opera house will be another. At present several sites are in mind and no particular preference has as yet been shown. There will be no trouble about a location. There are plenty of good ones although a good, big stiff price will have to be paid for any of them."

The gentleman went on at some length to discuss the proposed Kerredge theatre at Hancock and although the newspapers have been filled with opera house news from Hancock he was inclined to think that the articles had been shaded to suit the reporters' opinions. Even at this stage of the game, when Mr. Kerredge has gone so far as to advertise for bids for the excavation work, intending to make a start this winter, he said he believed the opera house plan yet had a chance of falling through.

The site for Hancock's proposed theatre is a good one he thought but then locations in the business heart of any town are very desirable and to quote his own words, he said, "I believe you will see the Hancock theatre turn into a co-operative store or something of the sort. It makes no difference to us whether Hancock has a theatre or not. We will have one, also, and although I do not think two theatres will pay as well from a financial point of view, Houghton is determined at any rate to build one to be dropped."

The gentleman intimated that the theatre would have stores and offices in the downstairs apartments. Speaking of attractions he thought there would be no difficulty about securing plenty of them. Houghton is known by all show managers and theatre bookers as a great show town.

each place there will be a fine theatre, in which big companies can play. With theatres at both Hancock and Houghton, Portage Lake people will not want for good attractions. It is likely both opera houses will be building at about the same time.

#### MEMOIR IS SHORT.

Editor of Copperdome Morning Paper Makes Unusual Statement.

The Houghton Mining Gazette in its Wednesday's issue says editorially: "The Mining Gazette presents to its readers this morning the first message of President Roosevelt in full and in doing so makes a new record for the upper peninsula as it is the first time, so far as our memory serves us, that a president's message has been published in full in an upper peninsula paper on the morning after its delivery when it was necessary to set every word of it in the office of that paper."

The Gazette's memory, as usual, is short. It was painful to note the expression of its editor's face when The Mining Journal reached him yesterday and he saw that "next morning" take wings and fly into airy nothingness. His whiskers grew a shade lighter when he picked up other upper Michigan papers and found the message of President Roosevelt printed in full. As a matter of fact the message was printed in several afternoon dailies in the upper peninsula the evening before it appeared in the Gazette, and these dailies make no pretensions at being especially enterprising. It is also a fact that the official communication of the chief executive of the United States has been printed in full by The Mining Journal in former years.

Before blowing his horn after this perhaps it would be better for the editor of the Gazette to investigate thoroughly and thereby avoid appearing ridiculous in the eyes of the readers of his paper.

#### HOCKEY CLUB OFFICERS.

Organization Is Perfected in Houghton and Contests Will Be Arranged.

At a meeting of the hockey players held at the Northwestern road's commercial office in Houghton on Tuesday night an organization was perfected.

Dr. J. L. Gibson was re-elected captain and C. E. Webb, manager. The other officers are: John J. Case, honorary president; John Harris, president; J. R. Deo, R. V. Holder, W. D. Calverly, W. Frank James and C. A. Wright, vice presidents; John Ruhl, secretary and treasurer; M. C. Getchell, Dr. R. B. Harkness, Dr. Gibson and S. E. Webb were selected as a committee to arrange for contests.

It is very likely Calumet will have a team this year and some talk of an organization is being heard. Last year the Calumets were a formidable aggregation. Lake Linden is scheduled to organize soon.

#### GYMNASTICS FOR LADIES.

Class Numbering About Twenty-Five Is Organized in Houghton.

Several prominent Houghton ladies are agitating the organization of a class to take gymnastic work in the gymnasium at the high school under the tutelage of Professor George Williams. It is likely the class will soon be ready for the work and present indications are that it will number at least twenty-five.

A three-months course, with two lessons a week, is proposed. The application for the use of the gymnasium for two evenings in each week has already been made to the school board and it is understood permission has been given.

Some new apparatus has been received at the "gym." A spring board on the grasshopper pattern is being installed and some buttons for the sharp ends of the fencing foils have been received so that work in fencing may be started in earnest. During the winter a plunge bath and several shower baths will be put in.

#### SAYS HE WAS TORTURED.

"I suffered such pain from corns I could hardly walk," writes H. Robinson, Hillsborough, Ills., "but Bucklen's Arnica Salve completely cured them." Acts like magic on sprains, bruises, cuts, sores, scalds, burns, boils, ulcers. Perfect healer of skin diseases and piles. Cure guaranteed by Stafford. 25c.

**Will C. Brown,**  
Resident Manager, Marquette, Mich.  
Correspondence Solicited.

#### TWO CAGES RUINED.

Cables Break in Red Jacket Shaft but No One Is Injured.

The cable of one of cages in the Red Jacket shaft of the Calumet & Hecla mine broke in the boiler house about noon today and produced a commotion, frightening employees in the vicinity. Fortunately no one was injured and the hoisting engines were not seriously damaged. Both cages dropped to the bottom of the shaft. The rods were torn and destroyed in one compartment of the shaft from the fifty-seventh level down. Both cages were ruined.

#### TO RETIRE FROM BUSINESS.

Graham Pope of Houghton to Close General Store in Spring.

Graham Pope, a veteran merchant of Houghton, announces that he will retire from business in the spring. It is not an advertising scheme to inveigle customers to take advantage of "closing out rates" or anything of the sort. Mr. Pope means business. Houghton people have known for some time past that Mr. Pope intended to retire from his general store business and consequently are not surprised at the final announcement. The stock has been gradually reduced and only those things for which there is always a demand were replaced.

The store is the oldest in the copper country and Mr. Pope has been the proprietor of the establishment since 1878. Previous to that time the business was owned and conducted by Sheldon & Co., R. Sheldon, the father of Congressman Sheldon, being the senior member of the firm.

Mr. Pope will retire to private life, having laid away enough of this world's goods to warrant such action.

#### MAKES A CORRECTION.

Supt. Griffin Says Young Men Do Not Attend Girls' Basketball Games.

The Mining Journal in receipt of the following communication from Superintendent J. S. Griffin, of the Houghton schools:

"The account of the Houghton high school girls' basketball episode in your today's columns is a very clever piece of sensational gossip, and on the whole as faithful to facts as any is used to expect in such cases. The only correction I consider it worth while to make is the girls had been in the habit of bringing their escorts with them to these Friday evening practices, and the implication that it was only on account of the unrefined presence of one of the members of the board that the said escorts were so summarily ejected on the evening in question. In simple justice to the young ladies will you please say to your readers for me that this statement and its imputations undeserved by the young ladies. No young man had ever been present at any of the preceding practices.

Very truly yours,  
J. S. GRIFFIN, Supt.  
Houghton, Mich., Dec. 3, 1901."

#### FOR ELECTRIC SYSTEM.

Machinery to Be Installed at Once in Quincy Mine.

W. H. McCann of Chicago, an engineer in the employ of the General Electric company of Schenectady, N. Y., has arrived in Hancock to take charge of installing the machinery for the electrical system of tramming to be used in the forty-sixth and forty-ninth levels of No. 6 shaft at the Quincy mine. It is expected the electric locomotives will be started next week and they will be given a thorough test this week.

The plan of the machine, which will operate two of the General Electric company's locomotives, consists of a motor generator on a thirty-horse power induction motor, driving a twenty k. v. direct current machine, running at the rate of 900 revolutions per minute at a pressure of 230 volts. One of the locomotives will operate 4,300 feet underground and the other 4,700 feet.

The Peninsula Electric Light & Power company of Houghton will furnish the power. Each locomotive weighs 5,500 pounds and has a draw bar pull on a level track of 700 pounds. The maximum momentary starting effort is 750 pounds and the speed six miles an hour.

#### MRS. ALLEN DEAD.

Mrs. Joseph Allen, an old resident of Lake Linden, died Tuesday evening after a long illness. She was seventy-eight years of age and had resided in Copperdome since 1867. She is survived by five children. The funeral will be held Sunday afternoon from the Lake Linden Methodist church with interment in Forest Hill cemetery, Houghton.

#### WILL RELEASE SCOW.

Work of Recovering Powell & Mitchell's Craft to Commence at Once.

A. E. Powell, of the firm of Powell & Mitchell, general contractors, of Marquette, arrived in Hancock yesterday to make arrangements to begin the work of recovering the firm's lost scow and machinery which broke away during heavy weather on the big lake white being towed to Marquette several weeks ago. The scow lies on the rocks about 1,000 yards west of the canal entrance. The tug Wars, the Mars part of next week, the steamer Argo of the Booth line will arrive at Hancock on its last trip from Duluth the latter part of the present week. Both the latter have done a good business during the summer and will be in commission again next season. Both the Booth and White line people, it is said, expect to put at least one new steamer each on the Duluth-Port Arthur and Portage Lake run next summer.

The steamer Bradshaw, of the White line, will make one more trip to Portage Lake from Duluth this season. It is due to arrive at Hancock next week. The steamer Argo of the Booth line will arrive at Hancock on its last trip from Duluth the latter part of the present week. Both the latter have done a good business during the summer and will be in commission again next season. Both the Booth and White line people, it is said, expect to put at least one new steamer each on the Duluth-Port Arthur and Portage Lake run next summer.

#### AUDITORS ARE APPOINTED.

A meeting of the Building & Loan association, of Hancock, was held in its offices over the First National bank Tuesday afternoon and important business transacted. James Hoar of Lake Linden, Angus McDonald of Hancock, and J. J. Sullivan of Calumet were appointed auditors for the ensuing quarter. The secretary was authorized to issue 3,500 shares of regular stock and 1,000 shares of prepaid dividend stock, on which a 5 per cent. dividend will be paid quarterly. The association loaned \$20,000 in November.

#### FOUGHT ONCE IN HOUGHTON.

"Jack" Hammond of the Soo and "Billy" Moore of Syracuse, N. Y., fought a ten-round draw at the Soo Monday night. It is to have been the greatest fight ever pulled off at that place. Hammond was challenged by "Jack" Crawford of London, Ont., for a finish fight for \$500.

Hammond will be remembered by copper country sports as he fought a splendid battle with "Jack" Beausolte of Chicago at Houghton during the street fight. He is known to be a fearless and game fighter.

#### INSTALLING MACHINERY.

Part of the machinery for the Calumet & Hecla company's new saw mill at the head of Torch Lake has been installed and the balance will be placed in position as soon as possible. The entire outfit is on the ground. The boiler and engine were formerly utilized at the mine to lower and hoist the men in one of the shafts.

#### PAY FOR FIREMEN.

A meeting of the Red Jacket fire department will be held at the fire hall this evening. The men will receive their semi-annual pay and an election of officers for the ensuing year will be held. Several candidates it is said, are out for each of the offices and the selection promises to be interesting.

#### LAKE LINDEN CITY HALL.

L. F. Ursin, the Calumet contractor, who is building the new city hall at Lake Linden, states that the work will be completed some time in February. The roof is on and it is now being covered with slate. The tower will run up thirty feet above the eaves of the roof.

#### WHERE TO STOP WHEN IN DETROIT.

Hotel Metropole, Woodward Ave., opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50

#### AN EVANGELIST'S STORY.

"I suffered for years with a bronchial trouble and tried various remedies but did not obtain permanent relief until I commenced using One Minute Cough Cure," writes Rev. James Kirkman, evangelist of Belle River, Ill. One Minute Cough Cure affords immediate relief for coughs, colds and all throat and lung troubles. For croup it is unequalled. Absolutely safe. Never fails and a favorite with the children. Stafford Drug Co., H. N. Meloche, Ishpeming.

## We Invite the Attention

of the public to our new and greatly improved restaurant service. . . .

## BOARD OF TRADE CAFE,

HOUGHTON, MICH.

**WAS BADLY SQUEEZED.**  
Henry Laughlin of Hancock, while assisting in loading a heavy boiler on a car in the yards of the Lake Superior Iron & Metal company yesterday morning, fell between the boiler and car and was badly squeezed. No bones were broken. He was injured internally and although his condition is serious it is thought he will recover.

#### Y. M. C. A. SOCIAL EVENT.

A "stag" party is arranged for Saturday evening at the Calumet Y. M. C. A. rooms. A program in which athletic events will be a feature is being prepared and also a musical program. The association's male quartet will sing. Light refreshments will be served. Members and their friends are invited.

#### BOWLING ALLEYS TO OPEN.

Houghton's new bowling alleys will be opened tonight for the first time. The management has been hard at work for the last two weeks installing the double alleys and now have things in shape for the game. There will likely be a considerable gathering at the alleys tonight and contests will be arranged.

#### COPPERDOME BREVITIES.

The copper country branch office of The Mining Journal is located in Room 3, second floor of the Deo Postoffice building, Houghton. All having business with the paper are cordially invited to call. Telephone No. 376.

Horace J. Stevens, of Houghton, returned from Chicago yesterday.

A meeting of Hancock lodge, Knights of Pythias, was held last evening. Officers were elected.

Miss Florence Maxwell, of Hancock, has taken a position in A. M. York's store at that place.

The examination of William Sleeman, the alleged swindler who was arrested recently, will be held in Judge Finn's court, Hancock, Friday.

"The Village Parson" will be presented at the Houghton Army Opera House tonight. A Calumet & Hecla orchestra will furnish music.

The contract for the excavation for the new Kerredge theatre at Hancock has been let to S. M. Bates at \$450. The work will start this morning.

N. S. Bray, of Laurium, is Matthias Sailer's successor as a member of the Laurium council. He was appointed at the meeting held Tuesday evening.

Hebard & Sons, of Pequaing, will put in over a million feet of logs along the Misery river this winter. William Bandin will be in charge of the camps. A large number of men will be employed.

Otto Borsen, the Hancock jeweler, has been appointed watch inspector for the Mineral Range and Hancock & Calumet roads by the company. Employees are required to have their time pieces inspected at stated periods.

The plant on the Franklin sands, erected during the summer to rework the old Franklin copper sands, has closed down for the winter. It is not known what results were obtained from the workings or whether the plant will be operated next summer.

HOUGHTON, MICH.

MANY VIEW STOCK

GREAT CROWDS GATHER AT INTERNATIONAL EXPOSITION.

SEVERAL GOVERNORS PRESENT

AGRICULTURAL COLLEGE STUDENTS FORM ORGANIZATION.

Inter-Collegiate Stock Judging Contest a Feature—Convention Pleased That Man Who Understands Cattle Is President.

Chicago, Dec. 5.—The fifth day of the International Live Stock exposition attracted the greatest crowd that ever assembled at the Chicago stock yards...

Steer Sold at Auction.—An interesting incident of the day was the selling at auction of the Hereford steer, Wood's Principal, to which the championship of the show was awarded yesterday.

Nineteen classes of the live stock were judged. Each class was judged by a special judge after the students had judged them, and the students' judgment will be compared with that of the judges.

At a combination sale of Aberdeen Angus breeding stock this afternoon ninety-seven cattle sold at an average of \$344 per head.

Lament McKinley's Death.—The convention today adopted resolutions voicing its satisfaction in the fact that a man who understands cattle interests sits in the president's chair at Washington.

Another BIG GIFT.—Andrew Carnegie to Give Money for Benefit of Aged Telegraphers.

New York, Dec. 4.—Andrew Carnegie has under consideration the gift of a new sum of money to be used for the benefit of aged telegraphers in this section of the country.

APPEAL FOR BOERS.—Springfield, Ill., Dec. 4.—Governor Yates tonight issued a proclamation calling attention to the destitute and helpless condition of Boer women, children and other non-combatants confined in British military camps in South Africa.

TODAY'S WEATHER.—Washington, Dec. 4.—The following is the weather bureau's forecast for Upper Michigan: Snow Thursday and probably Friday; warmer Thursday; fresh southwesterly winds.

Doctors Consult your doctor. If he says, "Take Ayer's Cherry Pectoral for your cough," then do as he says. If he tells you not to take it, then don't take it. He knows. Leave it with him. We are willing. Physicians have been our friends for 60 years.

**DANCE TONIGHT.**  
Royal Neighbors Will Entertain Friends at Fraternity Hall.  
A jolly good time will be had tonight at Fraternity Hall, the occasion being a social dance given under auspices of the Royal Neighbors. A large number of tickets, at 25 cents each, have been sold, and for that reason a good attendance is assured in advance. The music will be furnished by the Ideal orchestra, and Joseph Hogan will do the prompting. Supper at a reasonable price will be served in the hall. The public is invited.  
**COPPERS DULL AND SOFT.**  
Amalgamated Is Stronger but the Boston Stocks Fall to Follow.

Amalgamated ruled stronger yesterday and left off with a net advance. The New York market also closed firmer, with the price changes on the side of gains, but little was doing in the Boston stocks and the tone throughout the day was rather soft. The hope of better things is still voiced by the brokers, and with that speculators must rest content until activity and strength again characterize the trading.  
Views of the Brokers.  
Hayden, Stone & Co. wired the Laidley Commission company:  
"There was nothing new on Amalgamated today, but a little profit-taking was in progress in Copper Range and Baltic now that the deal has been definitely announced. Copper Range gets one and one-half shares and Baltic one share in exchange, while the stockholders have the right to subscribe for 35,000 shares at 40. This right at the minute appears to have a small value, but the rest of the copper is inclined to be dull and rather soft. We think Mohawk at 38 is worth more than Baltic at 44, and Wolverine at 57 with only 60,000 shares is equally cheap. Adventure at 20 should be a fair speculative purchase as soon as this Amalgamated fracas is over. Osceola is destined to be third biggest mine at the Lake and around 85 should be bought confidently."  
Paine, Webber & Co. said: "It is now generally admitted that no sales of copper have been made by anyone below about 16 1/2 cents. There are fewer buyers than there were a few days ago, and those who remain bears are losing courage. Barring some unexpected happening, the coppers should have a good recovery. It may take a long time to revive public confidence in the market, but in the meantime the best of the Lake coppers should sell higher."  
Of the Wall street stocks, Walker Bros. said: "The market today was generally steady and inclined to be strong. There was little going on at the opening, but later the market rallied, the developed strength and New York Central and Pennsylvania were well bought. Manhattan was heavily bought and with short covering made a good gain. There have been several pools working in it lately. Amalgamated, after a weak opening, advanced and had a better tone. The market continued steady until the close, which was generally supported, and the general list made gains for the day. The talk is rather bullish."

**Chicago Markets Stronger.**  
A. R. Jones & Co. said of the Chicago grain markets:  
"Wheat again had a bull market of the rankest kind. It looked reasonable to expect a small break this morning, but the flood of buying orders prohibited anything of that sort. The pit shows all the earmarks of an old time bull market, and no matter how you figure it, wheat is still relatively far too high. Speculation has not run to such a high pitch for a year and all are concentrated in one grain. Foreigners are buying even at this advance. There is a full heat of steam on and there is one thing to do-go up with the market and don't haggle over fractions. Corn fooled the trade, too. Yesterday's bulge looked much better covering, but this morning it developed that a remarkably big cash business was done yesterday and this started prices up again. Corn will probably sell a good deal higher but seems beyond the reach of the general public."

**A WOMAN'S AWFUL PERIL.**  
"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. L. B. Hunt of Lime Ridge, Wis., from her doctor after her young child to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach, Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite. Try it. Only 50 cts. Guaranteed. For sale by Stafford.

**HANSEN'S CELEBRATED FURS.**  
The best line of the most fashionable furs will be displayed at the Marquette Hotel, Thursday, Dec. 5. It will pay you to investigate. (12-4-11)

Sault Ste. Marie, Dec. 4.—(Special.)—Up—Yosemite, 2 a. m.; Nicholas, 1:30 p. m.; Howard, 5:30 p. m.  
**CITY BREVITIES.**  
Weather forecast: Partly cloudy, with snow flurries and warmer; variable winds, shifting to southeast, increasing in force.  
Yesterday's temperature: 7 a. m., 17 degrees; 12 noon, 20 degrees; 7 p. m., 17 degrees; maximum, 21 degrees; minimum, 17 degrees.  
Tim Nester of Munising is in the city.  
Officers will be elected this afternoon at the regular meeting of Busy Queen hive, No. 558, L. O. T. M.  
Edward Hamman, late of The Mining Journal, has taken a reportorial position with the Minneapolis Tribune.  
At its meeting to be held this evening, the A. O. U. W. lodge will elect the officers who are to serve for the ensuing year.  
A "badger fight" took place at the Clinton last evening in the presence of about fifty interested spectators. There were three victims.  
Superior hive of the Ladies of the Maccabees will meet this afternoon at 2 o'clock. Election of officers is the special order on the program.  
Busy Queen hive will meet this afternoon in the A. O. U. W. hall for the purpose of disposing of the quilt that was not called for at the ladies' last meeting.  
F. M. Goodwin and bride have arrived from Baltimore after an extensive wedding trip. Mr. Goodwin is a special agent of the land office, with headquarters here.  
A scow was being loaded with baled hay yesterday near the No. 4 ore dock. It is for the Big Bay lumber operators and will be towed to its destination by the tug Theora.  
The ten-cent tea held Tuesday afternoon in the A. O. U. W. Hall by the ladies' society of the Brotherhood of Locomotive Firemen was a social and financial success. The attendance was large.  
Marriage licenses have been issued to Theodor Olsson and Christie Olsson of Marquette, Johannes Palojarvi and Serafia Lehtinen of Ishpeming and Gust Anderson and Mrs. Randi Hammer of Ishpeming.  
M. P. Manhard has just issued an extremely pretty calendar for the coming year. It bears a handsome lithograph of the Dear River Falls, the picture having been made from a photograph taken by Ransom Manhard during the summer.  
The weatherboard deck left for down the lakes yesterday afternoon, the seas having gone down and the wind shifting around so it blew offshore. The boats went out in a bunch; some of them had been waiting for over a week to get away.  
Their many friends will be interested to learn that Mr. and Mrs. Alfred Kildner, with their sons, Homer H. and Alfred Vincent, sailed from Boston Nov. 27 for Naples via the Dominion line steamship Commonwealth. They will spend the winter abroad.  
At the fair recently held by the ladies of St. Mary's Catholic church at Iron Mountain, one of the articles disposed of was a beautiful piece of Tattlenbug lace made by Mrs. Vera Hanu, formerly of this city. Seventy dollars were realized on it, the lace going to Rev. Father Kraker.  
The Singer Manufacturing company's local manager, A. S. Cameron, calls attention, in his advertisement in another column, to the advisability of giving useful presents at Christmas. He can furnish one of the most useful articles for a house at a very reasonable price—a Singer sewing machine.  
Mechanical Engineer Bice of Marquette, a member of the staff of State Railroad Commissioner Osborn, represented that department at the inquest into the recent wreck on the Washish. Mr. Bice will make a thorough investigation of the train order system used by the road, with a view to suggesting improvements.  
The tug Bobebel went down to the stranded schooner Smeaton yesterday with some additional outfit belonging to Captain Reid, the wrecker. It is understood the air compressor has already been started. Should the plan of thus forcing out the water be successful in lifting the vessel, the tugs will again try to pull her into deep water.  
Erick Johnson, the contractor, has practically completed his work on the new Lake Shore boulevard. This consisted of grading and grubbing an eighty-foot strip running from the foot of Hewitt avenue to the Penic Rocks, near the site of the proposed summer hotel. To drain the road, tile piping has been laid by the contractor.  
The production of "The Village Parson" at the opera house next Saturday evening, promises to be one of the best plays ever seen here. The piece has made a most pronounced success in all the cities visited, and has received high praise. "The Village Parson" is a play of the most interesting kind, depicting human emotions and sympathies, holding the closest attention of the audience. The scenery is new, bright and correct. The representative says that special pains have been exercised in selecting the players, each member having been chosen carefully to bring about a finished performance.  
They can't help it; crabbed old bachelors and disappointed girls over 30 need Rocky Mountain Tea; carries them back to childhood's happy home. 35c. Stafford Drug Co.

**SMOKERS!**

**CITY BREVITIES.**  
Weather forecast: Partly cloudy, with snow flurries and warmer; variable winds, shifting to southeast, increasing in force.  
Yesterday's temperature: 7 a. m., 17 degrees; 12 noon, 20 degrees; 7 p. m., 17 degrees; maximum, 21 degrees; minimum, 17 degrees.  
Tim Nester of Munising is in the city.  
Officers will be elected this afternoon at the regular meeting of Busy Queen hive, No. 558, L. O. T. M.  
Edward Hamman, late of The Mining Journal, has taken a reportorial position with the Minneapolis Tribune.  
At its meeting to be held this evening, the A. O. U. W. lodge will elect the officers who are to serve for the ensuing year.  
A "badger fight" took place at the Clinton last evening in the presence of about fifty interested spectators. There were three victims.  
Superior hive of the Ladies of the Maccabees will meet this afternoon at 2 o'clock. Election of officers is the special order on the program.  
Busy Queen hive will meet this afternoon in the A. O. U. W. hall for the purpose of disposing of the quilt that was not called for at the ladies' last meeting.  
F. M. Goodwin and bride have arrived from Baltimore after an extensive wedding trip. Mr. Goodwin is a special agent of the land office, with headquarters here.  
A scow was being loaded with baled hay yesterday near the No. 4 ore dock. It is for the Big Bay lumber operators and will be towed to its destination by the tug Theora.  
The ten-cent tea held Tuesday afternoon in the A. O. U. W. Hall by the ladies' society of the Brotherhood of Locomotive Firemen was a social and financial success. The attendance was large.  
Marriage licenses have been issued to Theodor Olsson and Christie Olsson of Marquette, Johannes Palojarvi and Serafia Lehtinen of Ishpeming and Gust Anderson and Mrs. Randi Hammer of Ishpeming.  
M. P. Manhard has just issued an extremely pretty calendar for the coming year. It bears a handsome lithograph of the Dear River Falls, the picture having been made from a photograph taken by Ransom Manhard during the summer.  
The weatherboard deck left for down the lakes yesterday afternoon, the seas having gone down and the wind shifting around so it blew offshore. The boats went out in a bunch; some of them had been waiting for over a week to get away.  
Their many friends will be interested to learn that Mr. and Mrs. Alfred Kildner, with their sons, Homer H. and Alfred Vincent, sailed from Boston Nov. 27 for Naples via the Dominion line steamship Commonwealth. They will spend the winter abroad.  
At the fair recently held by the ladies of St. Mary's Catholic church at Iron Mountain, one of the articles disposed of was a beautiful piece of Tattlenbug lace made by Mrs. Vera Hanu, formerly of this city. Seventy dollars were realized on it, the lace going to Rev. Father Kraker.  
The Singer Manufacturing company's local manager, A. S. Cameron, calls attention, in his advertisement in another column, to the advisability of giving useful presents at Christmas. He can furnish one of the most useful articles for a house at a very reasonable price—a Singer sewing machine.  
Mechanical Engineer Bice of Marquette, a member of the staff of State Railroad Commissioner Osborn, represented that department at the inquest into the recent wreck on the Washish. Mr. Bice will make a thorough investigation of the train order system used by the road, with a view to suggesting improvements.  
The tug Bobebel went down to the stranded schooner Smeaton yesterday with some additional outfit belonging to Captain Reid, the wrecker. It is understood the air compressor has already been started. Should the plan of thus forcing out the water be successful in lifting the vessel, the tugs will again try to pull her into deep water.  
Erick Johnson, the contractor, has practically completed his work on the new Lake Shore boulevard. This consisted of grading and grubbing an eighty-foot strip running from the foot of Hewitt avenue to the Penic Rocks, near the site of the proposed summer hotel. To drain the road, tile piping has been laid by the contractor.  
The production of "The Village Parson" at the opera house next Saturday evening, promises to be one of the best plays ever seen here. The piece has made a most pronounced success in all the cities visited, and has received high praise. "The Village Parson" is a play of the most interesting kind, depicting human emotions and sympathies, holding the closest attention of the audience. The scenery is new, bright and correct. The representative says that special pains have been exercised in selecting the players, each member having been chosen carefully to bring about a finished performance.  
They can't help it; crabbed old bachelors and disappointed girls over 30 need Rocky Mountain Tea; carries them back to childhood's happy home. 35c. Stafford Drug Co.

### POWDER WORKS GO UP.

Packing House of Anthony Powder Co. Wrecked and Two Men Killed.

The people of Ishpeeming and Neganawau were startled yesterday afternoon at 4 o'clock by the noise of an explosion when the packing house at the Anthony Powder company's works, located between the two cities, was blown up. Many windows were shattered in the business portion of Ishpeeming, as well as at other places. Within a minute or so after the explosion hundreds of persons were on the run toward the works. Teams were driven down in haste and the wildest kind of excitement prevailed for a time.

Two of the workmen were killed, their bodies being torn to atoms. The victims are John Nelson and Simon Shively. The head of one of the men was picked up about two hundred feet from the building.

The structure burned to the ground. Some of the buildings near the packing house were badly scorched by the force of the explosion. The engine house was almost completely wrecked. Reuben Smith, a lad about seventeen years of age, was in the engine house when the explosion occurred. He escaped with but a slight scalp wound. Two other lads, Ned Wallenstine and Victor Nelson, both about the same age as Smith, also got away unhurt.

No one can tell just what caused the disaster, but it is supposed that the glycerine got a jar of some sort as the men were engaged in filling the cans. There was about a ton and a half of giant powder in the building and it all went off.

No attempt was made to put out the fire, as it was not any too safe to go near it, owing to explosives being stored in the buildings near by.

The home of Charles Irtaska, night watchman at the works, was badly wrecked. None of the inmates sustained an injury, but it didn't take them long to get away from the place after the packing house went up.

Manager D. McVichie of the Anthony Powder company was on his way home from Palmer when the mishap occurred. He saw the smoke rise and knew at once what had happened. Mr. McVichie was about the first to arrive at the scene, and he at once put men at work tearing down the structures near the wrecked packing house to keep the fire from reaching them.

Richard Moody and the driver of the delivery team, were at one of the warehouses near the tracks, nearly half a mile distant from the scene of the explosion, unloading goods and they escaped unhurt. They were at the packing house a short time before.

A new packing house will be built at once and the damaged buildings will be repaired.

Both victims of the explosion were married. Nelson leaves a widow and five children. He was about forty-five years of age and had worked for the company about three years. Shively was employed as a teamster at the works. He was about twenty-four years of age and leaves a widow and one child. He had been a resident of this city about a year.

The last previous explosion at the works occurred nine years ago. It was not attended by any fatalities. Some twenty years ago, before the concern came under the management of its present owners, an explosion took place in which four men were killed.

### PLEASING ENTERTAINMENT.

The Sons of St. George society at the Winthrop location entertained a number of its friends Tuesday evening. The newly elected officers were installed and a pleasing musical and literary program was rendered. The meeting took place at the school house and the room was packed.

The Superior quartet, Messrs. Williams, Bettson, Rigstedt and Kernole, also John C. Rule, of this city, assisted with the program. Captain John Tribblecock of the Winthrop presidet over the meeting and gave a very interesting talk on the aims and objects of the society.

### CUT PRICE ON CANDY.

Sam Apostle, proprietor of the Greek candy kitchen, announces a reduction in the price of candy for the holidays. Mr. Apostle manufactures most of his candies and is prepared to sell at very reasonable figures. He requests church people and others who will have the management of socials, etc., in hand to bear in mind that he can save them some money. His advertisement in this issue speaks for itself.

### BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at The Stafford Drug Company.

We intend to go after the holiday trade in earnest. It will pay you to see our novelties and learn our prices. Finnish Mercantile Association. (10-25-17)

### REPAIR YOUR SLEIGHS.

I am now prepared to do repairing of all kinds, including sleighs, cutters, wagons, etc., in connection with my horse shoeing business. Sleighs and cutters for sale.

A. H. FORDYCE,  
Bank Caterer, Ishpeeming,  
(11-28-17)

### TRIED TO BACK DOWN.

Kalamazoo Team Attempted to Wiggle Out of Game With Ishpeeming.

It would seem from the fact that the management of the Kalamazoo High school football eleven tried all sorts of tricks to get out of playing the Ishpeeming team at Ann Arbor on Saturday next that they are just a little afraid of the honors will again come to the town of hematite. The game will be played, however, and the Ishpeeming team takes its departure for the lower peninsula this morning, as announced in yesterday's issue.

Superintendent Mayne has kept the press waiting all this week in an attempt to bring the Celery City team to time. He got a message on Tuesday advising him that the Kalamazoo eleven refused to play on the ground that the expense of bringing the team to Ann Arbor is too great. Mr. Mayne immediately wired back that the Ishpeeming would pay the expense of the Kalamazoo team. This rather took the wind out of the lower peninsula fellows, but not until four o'clock yesterday was it certain that the team would leave this morning.

The parties who have the management of the game had wired yesterday that it would be impossible to guarantee the expenses of the teams, and that \$100 for each team, with a certain percentage of the receipts, was the best they could do. Mr. Mayne considered this another attempt to wiggle out of the game, and he immediately answered his acceptance of the offer. At 4 o'clock another telegram came advising him that the game would be played and that the contest was now being advertised.

It is likely that this is the last year Ishpeeming will have any dickerings with the lower peninsula teams. If it should happen that there are any more championship games to be played by the local team the lower peninsula will not be considered at all. It was understood on the outset that the entire expense of the upper peninsula champions would be paid by the lower peninsula people. The attempt of the men at the head of the affair to break their agreement does not seem very well for them.

Mr. Mayne has been advised on pretty good authority that the lower peninsula fellows do not care to have anything to do with Ishpeeming this year, as the reports they have heard from here make them fear they will not be in it. Of course the Ishpeeming boys are not figuring on a snap game, but on the other hand it would not surprise them if they are defeated, considering the odds against them in weight.

### MOUNTAIN VIEW GOLD CO.

J. N. Esselstyn Gives Facts That Will Interest Many in This County.

A letter was received recently from J. N. Esselstyn, formerly mining engineer for the Cleveland-Cliffs Iron company, but now of Baker City, Oregon, by whom of course the Ishpeeming boys are not retained some facts about the Mountain View Gold Company which will be of interest to its many stockholders in this county. The Mining Journal publishes the following extract:

"I cannot say I am disappointed in the Mountain View, although there are some features about this property that are not what they appeared to be when we first started to develop the same. My only disappointment is that I have not \$25,000 to spend on the property this year, instead of \$100,000. I suppose you have seen the quarterly report submitted to the board of directors, a copy of which was mailed for the benefit of the Lake Superior stockholders. I do not remember the figures in this report, but I will say that up to the present we have drifted one hundred feet north and south on the vein and have in sight over \$600,000. We have stopped work on the south drift for two reasons: First, because I deem it advisable to make a special effort in driving No. 2 tunnel as rapidly as possible, and in this way find out what the vein is 120 feet below the level of No. 1 tunnel. The other reason for stopping the drift is that an effort is being made to float the claim south of us in the east, all on the strength of development work on the Mountain View.

"Since the bond was taken on that property our vein has taken a decided turn, and if it continues its course they will never strike it on their property. For this reason I do not propose to give them the benefit of any development work we may do. Regarding the width of the vein and the veins, I will state we have places in the vein at present between six and seven feet from wall to wall; also the average value for 100 feet on the south drift is between \$27 and \$28 a ton.

### SAW DEATH NEAR.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma and all Throat and Lung diseases. 50c and \$1.00 at Stafford's. Trial bottles free.

We have just added a complete line of skirts and other things suited for a holiday gift. We will surely please you as to price, quality, etc. Finnish Mercantile Association. (10-25-17)

### "MEDITERRANEAN ILLUSTRATED."

Commonwealth, the largest ship to enter the Mediterranean. Soldings January 4-14, February 12-26. Send four cents to T. H. Larke, General Northwest-ern Agent, Dominion Line, 127 Guaranty Bldg., Minneapolis, Minn., for a copy of this dainty brochure. (12-2-17)

Educate Your Bowels With Cascarets. Candy Cathartic. Cure constipation forever. 50c. Do. If C. C. C. talk, druggists refund money.

### GREAT DRAMATIC SUCCESS.

One of the present successes in a dramatic way is the new and beautiful melodrama entitled "The Village Parson" which will be presented at the opera house, Friday evening, Dec. 6. The play deals with the affections of the heart and the cardinal virtue of truth, and strongly portrays intense human emotions and arouses keen interest. The piece has been likened to that successful drama "Human Hearts," but from a literary standpoint, is considered a bit superior in characterization. Splendid scenic environment is used and a full acting company has been entrusted with the various roles. The reserved seat tickets are now on sale at Tillson's drug store.

### A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded. The Stafford Drug Co., Desjardins Pharmacy, "The People's Drug Store." (11-16-01)

Women love a clear, healthy complexion. Pure blood makes it. Burdock Blood Bitters makes pure blood.

### HEALTH AND BEAUTY.

Poor complexion is usually the result of torpid liver or irregularity of the bowels. DeWitt's Little Early Risers stimulate the liver. Promote regular action of the bowels. Never distress. Stafford Drug Co.; H. N. Meloche, Ishpeeming.

IN BUSINESS AGAIN.

John Hogberg Has Returned to Engage in Business Here.

John Hogberg, who has been on the Mesa for the past few months, has returned to Negaunee. He informed The Mining Journal representative yesterday that he intends to again start in business here, occupying his own block on Iron street.

It is Hogberg's intention to get four or five of his countrymen interested in the enterprise with him, forming a stock company. He says a bakery will be opened and a stock of groceries will be carried. It is possible that a line of clothing and dry goods will also be put in. That matter, however, will not be decided until plans have been perfected for the opening.

Mr. Hogberg conducted a bakery and grocery business here for twelve years, prior to selling out less than two years ago. At one time he controlled a big trade. It is expected that with several prominent Finnish citizens interested with Hogberg quite an extensive business will be done.

The building has been occupied the greater part of the time since Mr. Hogberg sold out. The bakery is well equipped and the location is all that could be desired.

ANNUAL CONCERT.

Old Negaunee City Band Will Give Its Entertainment New Year's Night.

The Old Negaunee City band is preparing to give an entertainment at McDonald's Opera House on New Year's night. This will be the organization's annual entertainment and it is certain that there will be a large crowd out to it. The concert will be given under the direction of Professor F. C. Curran, which is sufficient guarantee that the program rendered will be up to the standard.

The old City band is still under the leadership of Professor John Blackwell who has been at its head for many years past. The professor reports that the band is now in good shape and that practice meetings are held at regular intervals.

AN OYSTER SUPPER.

The members of the local branch of the National Protective Legion will give an oyster supper Thursday evening of this week at the Ancient Order of United Workmen's hall. The ladies will also serve tea, coffee and cake during the evening. A musical and literary program will be rendered and a good time is promised all who attend. The admission will be twenty-five cents for adults and ten for children. All will be made welcome.

NEW MINISTER ARRIVES.

Rev. Rungquist, the new pastor of the Swedish Mission church here, arrived in the city Tuesday evening. He hailed from Norway, where he has been in charge of the Swedish Mission congregation for some time past. A number of the local parishioners met the reverend gentleman at the depot and escorted him to his new home. Rev. Rungquist comes from the Menominee range town highly recommended.

LOCAL LAONICS.

C. E. Mason is spending a few days at Ironwood on a business mission.

John Nesbitt spent yesterday visiting towns in the western end of the county. Not a few Negaunee speculators are making "go-go" eyes at the quotation sheets these days.

New officers were chosen by the local branch of the Masons at the regular meeting last evening.

P. B. Kirkwood and wife left yesterday for Chicago, where they will spend a week or more visiting relatives.

Peter Trudell, Jr., left yesterday for the Menominee range towns in the interest of the house he represents.

A number of Negaunee people are planning on taking in the production of "The Village Parson" at Ishpeming tomorrow evening.

Dr. Seapy, late of the Cook county hospital, Chicago, has been engaged by Dr. J. H. Hudson as his assistant. He arrived in the city early in the week.

Mr. and Mrs. J. K. Brown and their son Russell, of Hancock, spent Sunday in Negaunee, visiting Rev. Gilchrist, pastor of the Mitchell Methodist church, and family.

A regular monthly meeting of the city council will be held this evening. It is expected that the session will be an interesting one as considerable business will be presented.

Mrs. C. L. Kuhlman who recently returned from the sanitarium at Battle Creek, is getting along very nicely. She is reported as feeling much better than when she arrived home about about two weeks ago.

James Letcher, who has instructed the City Orchestra band here for the past few months, will leave today for South Dakota, where he has been offered a good position. Mr. Letcher is one of the best band men in this section and the members of the local organization regret to see him leave.

The Woodmen's camp of this city did not elect officers at the regular meeting Tuesday evening as intended. Some of the officers were unable to be present on account of other business and the election was postponed until the next regular meeting. Meanwhile arrangements will be made for a smoker to follow the business session.

Unimpeachable—If you were to see the unequalled volume of unimpeachable testimony in favor of Hood's Sarsaparilla, you would upbraid yourself for so long delaying to take this effective medicine for that blood disease from which you are suffering.

Eczema, scald head, hives, itchiness of the skin of any sort instantly relieved. Permanently cured. Doan's Ointment. At any drug store.

WILL MEET NEXT TUESDAY.

Tournament Committee Decides to Call the Fire Department Together.

A special meeting of the Negaunee fire department will be held next Tuesday evening, when plans for next year's tournament, which takes place in this city, will be discussed. The committee named some weeks ago by the department to devise plans for the big meeting held a session Tuesday evening. It was then decided that it will be well to call the whole department together with a view to enlarging the arrangements committee and taking other steps for pushing the affair along.

It is intended to request a number of the leading citizens to co-operate with the department's committee in carrying out the plans to be outlined at the meeting next week. A number of the citizens have manifested much interest in the proposed tournament and the firemen have every assurance that there will be many aside from the firemen who will take an active part in tournament affairs.

THE FIRST IRONCLAD.

According to records recently discovered, the first ironclad was built in the sixteenth century. In the present century people are trying this medicine and that one in the hope of finding a cure for indigestion, dyspepsia, flatulency, biliousness and malaria. There is only one medicine to cure these, and that is Hostetter's Stomach Bitters. Try it and you will be convinced. It is for sale by all druggists. Apply to any of them for a copy of Hostetter's Illustrated Almanac for 1902. It is a free publication and contains much valuable information that may be useful to you during the entire year, also many amusing anecdotes, statistics and testimonials as to the efficacy of the Bitters. It is printed in seven different languages. Don't fail to get a copy.

Additional Ishpeming

ISHPEMING IN BRIEF.

The Ishpeming office of The Mining Journal is now located in the Dundon block, room 6, second floor. Patrons of the paper are invited to call there.

P. P. Chase was a visitor in the city yesterday.

Mrs. William Russell of Beacon, was an Ishpeming visitor yesterday.

H. F. Heyn has transacted business in the copper country this week.

Mayor W. H. Johnston was a business visitor at Marquette yesterday.

Captain Arthur Buzzo was over from Crystal Falls on a business mission Tuesday.

A social given at the town hall on Saturday evening of last week by the Republic league of the Methodist church drew out a large attendance and all present had a good time.

William Hocking, who has been J. A. Kingsted's delivery man for some years past, has taken a place in one of the engine houses at the mine. William's brother, Homer, succeeds him.

J. Keenan of Escanaba is filling Nick Debeck's place as conductor on the Chicago & Northwestern train which makes Republic a stop.

Mr. Debeck is ill and confined to his home at Escanaba.

Perrault & McDonald, who have operated a shingle mill near here for some time past, recently dissolved partnership. Mr. Perrault will conduct the plant on his own account for the present.

There was a turkey shoot out near the river, a short distance from town, last Sunday. A number went out and tried their luck. Some returned with birds, while others came back empty handed.

The new diamond drill which was ordered some time ago for the Braith exploration on Section 18 arrived last Saturday. It is said that the drill is the largest and most powerful in this section.

Miss Cordelia Laroux, who is attending the Normal at Marquette, spent her Thanksgiving vacation at her home here. Miss Mabel Hubbard of Newberry, who is also a student at the Normal, came up with Miss Laroux.

Jake Schalten has suspended logging operations in the woods out from here. After getting his camps established he found that there would be no money in the business this season on account of the long haul to the river.

The Chicago, Milwaukee & St. Paul Railway company's agent at Floodwood is down with smallpox. The report came about twenty days ago. The deer carcasses had been held at the station on account of the agent's illness, is untrue.

The members of the local Degree of Honor lodge conducted a very successful social at the town hall last Friday evening. The entertainment provided was all that could be desired. There was a large attendance and all had a jolly time.

The Misses Louise Kennedy and Lizzie (O'Brien) of Ishpeming attended the party given here Thanksgiving night under direction of some of the boys of the village. It has been many months since a more successful function has taken place in Republic.

An Indiana man was brought to Republic last week to answer to the charge of violating the game laws. He was hunting in this county and the game warden at Iron Mountain got evidence that he had killed more than three deer. It cost the stranger \$40 to settle the case.

There was quite a rumpus at "Pork City" Thanksgiving day. The man from town who attempted to "clean out" a whole family got the worst of the deal. He returned home considerably used up and was later arrested. It cost him in the neighborhood of \$50 to settle with the man and woman he assaulted.

In the hall at the fire department's headquarters is a chart that was recently made by Tommy Chenail, clerk in

of Mrs. Otto Eger vs. Rev. Frank Gustafson, which was given a hearing in the probate court on Monday.

The Ladies' Aid society of the Division street Methodist church gave a social yesterday afternoon at the home of Stephen Collick. The attendance was quite large. The ladies are meeting at regular intervals and the money realized from the small admission charged is being placed in the building fund.

Mrs. James Trebilcock and family are moving from the residence they have occupied for some years past on South Pine street to their own dwelling, formerly the Rutenberg house, on North Third street. C. E. Hendricks will take the place the Trebilcocks are vacating and Captain John Hodgson of the Lake Superior Hematite mine will move to Mr. Hendricks's house.

Miss Laurretta Jones, youngest daughter of John Jones and wife, was tendered a social surprise Tuesday evening by a number of her young friends. It was the anniversary of her fourteenth birthday. The early hours of the evening were spent in sleighing and later games and other diversions were the order at the house. A delicious spread was provided by Mrs. Jones.

FOOD CHANGED TO POISON.

Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Biliousness, Sick Headache, Fevers, All Liver, Kidney and Bowel troubles. Only 25c at Stafford's.

Republic.

Mrs. William O'Brien has been on the sick list the past few days.

Mrs. Carl Peterson has visited friends at Marinette during the past week or so.

Mrs. Martin Suneson of Wyandott is here visiting relatives. She formerly resided in Republic.

Postmaster E. E. Erickson is receiving cash donations to the McKinley memorial monument fund.

W. H. Scott and E. H. Coroles, representatives of the Chicago Tribune, spent Monday in Republic.

Dr. A. Deadman, John H. Quinn and Iver Lehtinen were Ishpeming visitors in Republic on Monday last.

B. Levine's clerks enjoyed a sleigh ride Thanksgiving afternoon, spending several hours very pleasantly.

Ernest Carlson recently had a good offer to engage in diamond drill work in Africa. He has not yet decided to leave Republic.

Louis Laforias has had considerable trouble with the machinery at his saw mill the past week or so, and as a result very little sawing has been done.

Mrs. All Hocking has been ill and confined to the bed the past few days. Her mother, Mrs. A. Newcombe, came up from Negaunee on Tuesday to attend her.

A social given at the town hall on Saturday evening of last week by the Republic league of the Methodist church drew out a large attendance and all present had a good time.

William Hocking, who has been J. A. Kingsted's delivery man for some years past, has taken a place in one of the engine houses at the mine. William's brother, Homer, succeeds him.

### DAVEY IS GUILTY

BARBER JAILED AT ISHPEMING TO GO TO THE PEN.

JURY DOES ITS WORK QUICKLY

BRINGS IN VERDICT WITHIN THIRTY-FIVE MINUTES.

John Malmsten, Charged With Embellishment, Changes His Plea from Not Guilty to Guilty, and Jurors Are Discharged.

It took a jury in the circuit court but thirty-five minutes yesterday to find Alfred Davey guilty of the crime of rape. Sentence will be pronounced by Judge Stone later in the week.

The trial, which had been started Tuesday afternoon, was resumed at the opening of the session yesterday morning with a good-sized attendance of spectators present. The defense had five or six witnesses on hand to testify, but they were not called, the defendant alone taking the stand. For the prosecution, there were eight or nine witnesses. The taking of testimony was concluded about 2 o'clock, and the court allowed each side an hour in which to present their case to the jury. Neither attorney, however, took more than three-quarters of an hour in summing up and after the judge's charge the jury retired at 3:45, coming in at 4:20 with the verdict. During the morning, John Malmsten, charged with embellishment, appeared in court and changed his plea from not guilty to guilty. Malmsten was in charge of a photograph gallery at Ishpeming for Werner, and was accused of having appropriated some of the receipts to his own use.

With the Davey case settled, the work of the jurors, all of whom had been retained from the regular panel, came to an end and they were discharged. No particular case is on call for today.

#### MARQUETTE MEN PROMOTERS.

Messrs. Kaufman Interested in Railroad and Ferry Line.

The following—from the Manistowic Courier—will be of interest to Marquette people:

"The Traverse City, Leelanaw & Manistowic Railway company, of which The Courier made mention last week, has been organized and the articles of association have been filed at Lansing. The capital stock is \$500,000 and the principal incorporators are the Messrs. Kaufman of Marquette and the Methuens of Grand Rapids. A letter from Northport to The Courier states that work on the line will be commenced at once.

"The company will build a steam railroad from Traverse City to Northport, a distance of thirty miles, and from the latter port it is proposed to run a ferry to Manistowic. R. K. Methuen, one of the principal incorporators of the company, is secretary of the Grand Rapids & Indiana railway and the Messrs. Kaufman of Marquette are well known capitalists and largely interested in the upper peninsula.

"The new line will open up a fruit-raising and agricultural section second to none in the state, and it is predicted that a good business will be done from the start. The road will furnish new markets to the farmers of the Leelanaw peninsula, and for that reason \$30,000 have been donated by the three townships the road will traverse, to aid in the construction work.

#### MAYOR MANGUM'S ADVICE.

Head of Marquette's City Government Is Interviewed at Menominee.

Says the Menominee Evening Herald in its issue of Monday last:

John D. Mangum, mayor of Marquette, was in this city the latter part of Thanksgiving week visiting friends. He said to the Herald man:

"Marquette is steadily growing and improving. The new blast furnace will help us materially and the starting up of the Dead River mill plant will be good for everybody. Then we have a new railroad building."

"These matters were handled largely through our business men's association, just what you need in Menominee now. Let the outside world know that you are in the running. Your city has a future but your people and your capital must be wide awake and continually looking up, not down. When you succeed in getting a line of winter boats in here you will have something to talk about and to which to call attention."

Mr. Mangum said that politically all was quiet on the Potomac but 1902 promised much of activity in state and congressional matters in the upper peninsula.

#### AT AGE OF SEVENTY-SIX.

R. G. Holmes, a Pioneer Resident, Dies After Painful Illness.

R. G. Holmes, an old resident of Marquette, died yesterday morning after a painful illness. He was aged seventy-six. He leaves a wife and seven children, these later being Mrs. J. A. Gilbert, of Calumet, H. J. Holmes, Mrs. F. O. Carter, Mrs. Kuhn of Calumet, and Mildred, Bessie, and James. The funeral arrangements will be announced later.

#### LAWYERS WILL DINE.

Bar Association Selects Dec. 23 as the Date of Its Annual Banquet.

The annual meeting of the Marquette Bar association was held Tuesday morning immediately after the reading of the calendar at the opening of the circuit court. There was a good attendance. Hon. D. H. Ball was elected president and County Clerk Wm. A. Ross secretary. It was decided to hold a banquet this year, this annual function having been passed over last year because many of the attorneys were absent at the time selected for the affair. The arrangements for the spread were put into the hands of A. E. Miller, as a committee of one, and that gentleman has been busy since, in which the banquet will be held and attend to all other details. The night of Monday, the 23d inst., was chosen as the date.

#### TO SIX WEEKS.

Summer Term at the Normal School Is Shortened.

The state board of education has decided to shorten the summer term for the Northern Normal at Marquette, as well as for the schools at Ypsilanti and Mount Pleasant, from twelve weeks to six weeks, for the reason that the general demand among those who take summer normal work is for a short course. Two sets of courses will be offered, one for those wishing simply a review of the subject, with no credit, and the other in which for daily two-hour recitation regular twelve weeks credit will be given.

A. Bettes, representative of the Detroit Construction company, whose wife and daughter are at the dormitory of the Normal, is enthusiastic over the conduct of affairs at the school. He said to The Mining Journal yesterday: "In my opinion, no state institution provides better for the physical, mental and moral development of students than does the Normal here, under its present supervision. The faculty members are persons of large intellectual calibre; they are young and energetic and they instruct under up-to-date methods." Mr. Bettes' daughter is attending the school and is progressing splendidly with her studies.

#### BOB SHIELDS POTENTATE.

Nobles of the Mystic Shrine Elect Officers for the Coming Year.

At the annual meeting of Ahmed temple, Ancient Arabia Order Nobles of the Mystic Shrine, held at Masonic Hall last evening, the following officers were elected for the coming year:

Illustrious Potentate—Robert H. Shields, Houghton.

Chief Rabbi—Francis M. Moore, Marquette.

Assistant Rabbi—Oram B. Fuller, Ford River.

High Priest and Prophet—William McLeod, Marquette.

Oriental Guide—J. K. Nevins, Ironwood.

Treasurer—William B. McCombs, Marquette.

Recorder—Leroy M. Spencer, Marquette.

First Ceremonial Master—F. S. Dunlap, Marquette.

Second Ceremonial Master—Elmer E. Wentz, Marquette.

Director—Will C. Brown, Marquette.

Assistant Director—S. S. Ormsbee, Marquette.

Marshal—John S. Bradford, Ishpeming.

Captain of the Guard—Louis Pendill, Marquette.

Outside Guard—Henry J. Hopkins, Marquette.

Alechemist—Alex P. Simpson, Marquette.

Representatives to Imperial Council—Robert H. Shields, Leroy M. Spencer and Francis M. Moore. This convention is to be held at San Francisco.

The next ceremonial session of the temple will be held on Friday, Feb. 21, 1902.

#### CARP RIVER BRIDGE.

It is not unlikely that the county board will be asked to make an appropriation of \$1,000 to aid in the construction of the steel bridge it is proposed shall span the Carp river on the road leading to Sands. The entire question, including the preparation of plans and specifications, has been left to the street committee of the common council with power to act. The supervisors recently offered to donate \$400, providing the bridge were built of steel, with stone abutments, but as this sum will fall considerably short of the cost it is felt that were the matter presented to the county board in that light, the supervisors might consent to increasing the appropriation.

#### EXCURSION TO CANADA.

The South Shore road is announcing its annual winter excursions to Canada, and from the number of inquiries that have recently been made at the local ticket office the indications are that there will be the usual large number to take advantage of the low rate. The tickets will be on sale Dec. 12, 13, 14 and 15 and will be accepted for the return trip until Jan. 7, 1902. A rate of one fare for the round trip has been secured, and it will be possible to go either via Sault Ste. Marie or Mackinac City—via the Canadian Pacific or the Michigan Central.

### BREAKWATER WORK

APPROPRIATION OF \$45,000 RECOMMENDED FOR MARQUETTE.

IN SECRETARY GAGE'S ESTIMATES

IS FOR THE PURPOSE OF CONTINUING IMPROVEMENTS.

Movement to Secure Funds for Work in Presque Isle Harbor Also Reported on Foot—Grand Marais Down for \$70,000.

Secretary of the Treasury Gage, in his estimate of appropriations just submitted to congress, includes \$45,000 for Marquette. The money is for the purpose of continuing improvements, or in other words of continuing the breakwater project, on which no work was done last summer because of the failure of the river and harbor bill. It is likely, however, that this sum will not be all that will be granted for expenditure here, as an effort is to be made, it is understood, to secure an appropriation for the harbor at Presque Isle. Other estimates by the secretary are:

For the establishment of a light and fog signal station on the Rock of Ages, at the western end of Isle Royale, \$125,000.

For light and fog signal station at or near Crisp's Point, Lake Superior, \$18,000.

Eagle River light station, Michigan, moving the light from Eagle River to Sand Hills, \$25,000. This light has outlived its usefulness. If moved to Sand Hills it would be of great service as a coast light.

Tender for St. Mary's river, Michigan, construction of a steam tender for use in St. Mary's river and adjacent waters, Michigan, \$75,000.

For completing improvements from Keweenaw Bay to Lake Superior, \$145,000.

For continuing improvements at Grand Marais, \$70,000.

For maintenance of harbor at Ontonagon, \$5,000.

For continuing improvement of Portage lake, \$59,000.

#### TO SEARCH LAKE SHORE.

John Oudette and Sons to Go Up the Beach After Hudson Wreckage.

As a result of Coroner Cray's suggestion that it might be advisable to search the beach up the shore for wreckage on bodies from the steamer Hudson, lost with all hands off Keweenaw point a few months ago, the local agents of the Western Transit line, F. B. Spear & Sons, have been instructed by General Manager Douglass to send out a searching party and have already concluded the arrangements.

The lake shore in the prescribed district will be carefully looked over by John Oudette and two sons, who have been secured to make the trip. The start will be made from Sauk's Head, and from that point the beach will be patrolled for a distance of nearly fifty miles to Huron Bay. The men will take a row boat with them, instead of a larger craft, so that if caught in a storm they will have no trouble in landing and drawing the boat up on the shore out of harm's way.

A tent, provisions and other supplies will be taken along as the party will be compelled to camp out practically the entire distance in the sparsely settled country which will be traveled. It is expected the journey will consume about ten days' time, though this will depend to a great extent on the weather experienced.

The start of the expedition was to have been made a few days ago, but was postponed because of the heavy sea and snow.

#### ANOTHER NEW BOAT.

Lake Michigan & Lake Superior Furling on Building.

F. B. Spear & Sons, the local agents of the Lake Michigan & Lake Superior Transportation company, have received advices from the office in Chicago that another boat is to be built for the Duluth, Marquette and Chicago trade. The company has not yet awarded the contract for the boat, but it is expected it will do so in a few days. The boat will be a large passenger and freight steamer which can carry a hundred passengers, and with a gross tonnage of about 1,500. The business the past year has been the heaviest in the history of the company.

#### FOR SALE.

Ten tons of loose hay; also a new milch cow. Telephone Theobald's Cash Grocery, Superior street, for prices. Bell phone 849. (12-5-14)

#### NOTICE.
