GOVERNOR SHAW OF IOWA ACCEPTS TREASURY PORTFOLIO.

TRANSFER TO BE MADE NEXT MONTH

RETIRING SECRETARY AWAITS PLEASURE OF SUCCESSOR.

There Will Be No Changes in the Agriculture Offices, Secretary Wilson of Iowa Continuing to Retain His Portfolio.

Washington, Dec. 25.—It was announced authoritatively this evening that Governor Shaw of Iowa would be appointed secretary of the treasury to succeed Secretary Gage. There will be no change in the offices of agriculture, Secretary Wilson of Iowa continuing to retain his portfolio.

The date of the transfer of the treasury department will depend on the mutual convenience of the outgoing and incoming secretaries, Secretary Gage having signified an entire willingness to remain at the head of his department until such time as it may be agreeable to his successor to take hold. It is supposed, however, Governor Shaw will be inducted into the new office some time in January.

Iowans Are Pleased.

It has been known for two or three days that Governor Shaw was slated for the appointment to succeed Secretary Gage, but it was not until today that the Iowa executive accepted the tender made to him.

The definite announcement of Governor Shaw's selection for the position of secretary of the treasury gave the greatest gratification to Iowan residents here. They regard him as a man well equipped for the place, and feel confident that the appointment will give general satisfaction. Secretary Wilson voiced these sentiments when asked about Governor Shaw tonight, and added that the governor was better known to the people east of the Mississippi river than any man in private life west of the Mississippi on questions of finance.

Shaw a Successful Banker.

Senator Dooliver of Iowa, whose relations with Governor Shaw have been close, his selection for the treasury portfolio gave the greatest pleasure.

"The governor," he said, "has demonstrated by speeches delivered before chambers of commerce and banking associations in every important city in the United States his profound knowledge of the subject that belongs to banking and currency systems. He is not only a student on these questions but has been for many years a successful banker. In selecting him the president undoubtedly acted in a great measure upon his personal familiarity with Governor Shaw's abilities in dealing with special subjects that belong to the treasury department. His appointment will be especially gratifying to the great business and commercial interests of the United States."

No Formal Offer Made.

Des Moines, Dec. 25.—Governor Shaw was seen again tonight with regard to his appointment as secretary of the treasury. He still declined to talk at length about the matter, merely reiterating that the president had confidentially asked him to accept the position if he would accept it, but up to the present time no formal tender of the position has been made. However, from the tone of the dispatches from Washington he assumed that the president will appoint him, and that to all intents and purposes the matter has been fully settled.

The governor's term as chief executive of Iowa will not expire until Jan. 16, when Governor-Elect Cummings will be inaugurated. The legislature convenes Jan. 13, and Governor Shaw will be very busy in the interim with the preparation of his annual message, so that if the appointment by the president is made Governor Shaw will hardly be able to take up the duties of secretary of the treasury before the twentieth of January, and possibly later.

Want Wilson to Stay.

The people of Iowa are greatly elated at Governor Shaw's prospective entry into the president's cabinet, but would regret very much to have Secretary of Agriculture Wilson retire in consequence, and no one would regret this more than Governor Shaw. With Senator Allison as senate leader, Representative Henderson as speaker of the house, and with the prospect now of two members in the cabinet, the state is undoubtedly greatly honored and largely influential in national affairs.

Resolutions Endorsing Choice.

Quincy, Ill., Dec. 25.—The Quincy chamber of commerce assembled today and passed resolutions endorsing the choice of Governor Shaw for secretary of the treasury.

KILLED BY A TRAIN.

Baltimore, Dec. 25.—Mrs. Lucy M. Brass and her four-year-old daughter were killed tonight by a Baltimore & Ohio train while the mother was attempting to rescue her daughter from an approaching train.

TODAY'S WEATHER.

Washington, Dec. 25.—The following is the weather bureau's forecast for Upper Michigan: Cloudy Thursday and Friday; rain Friday along the lake shore; fresh southwest winds, becoming southeast.

**NEW PROTOCOL SIGNED.**

Conflict Between Chili and Argentina Now at An End.

Buenos Ayres, via Galveston, Dec. 25.—The protocol between Chili and Argentina has been signed.

The governor officially confirms the statement that the new agreement has been signed, putting an end to the conflict between the two nations.

A dispatch from Santiago de Chili says that after a fresh conference held this evening between President Riesco, the foreign minister at Yanez, and Senor Portela, the Argentina minister, the new agreement was signed, the latest modifications to the former proposals being accepted.

**PROPHECY IS REALIZED.**

English Newspaper Admits United States is First in Commerce.

London, Dec. 25.—The Daily News this morning in an editorial discussion of William T. Stead's pamphlet on "Americanization of the World" admits that Gladstone's prophecy that the United States would replace Great Britain as the premier commercial nation has been, in the whole, realized, but declares it to be utterly impossible that Great Britain, as Stead extravagantly suggests, could ever enter an American union except after a series of disasters rendering square existence impossible.

The paper confesses the enormous influence which the United States wields over the British colonies, and that the majority of Irishmen would vote for a federation with the United States. The article further says it would be interesting to see what might happen if the United States should adopt their protectionist policy and offer to Jamaica, Cayman and Australia an immediate bill of admission on reciprocal terms to their vast markets.

**ON THE WAR PATH**

**PAWNEE INDIANS IN OKLAHOMA ARE ACTING IN A THREATENING MANNER.**

Guthrie, Okla., Dec. 25.—The Pawnee Indians are on the war path. An immense buffalo herd was so injured in transferring it from the Santa Fe stock yards to Pawnee Bill's ranch south of the town that he had to be killed. The meal was given by Major Lillie to the Indians for a buffalo dance. The Indians have been dancing and pow-wowing ever since.

Buffalo Herds Coming Back.

They claim that vast herds of buffalo are coming back to this country and many Indians have notified white lessees to vacate their ranches at once as they wish to lay the fences low so the buffalo will have full sway of the country. White people in remote parts of the reservation are coming in to Pawnee and report the Indians are acting in a threatening manner towards them. Pawnee Bill has placed mounted guards around his buffalo ranch as the Indians are camping in the timber west of there and in sight of the herd, and from their suspicious actions he thinks they intend to liberate the herd and perhaps kill them.

The United States Indian agent at that point has been notified and has made a report to the commissioner of Indian affairs at Washington.

Whites Must Vacate Claims.

United States Indian Agent Balliett, of the Kiowa and Comanche tribes, is sending out notices to all persons who have staked mining claims in Indian allotments, that they must vacate at once or they will be ejected from Fort Sill. The action is based upon the opinion of the attorney general, approved by Secretary Hitchcock, and sent to the agent under a recent date, prohibiting miners from filing on Indian allotments.

Acting on an order received from the secretary of the interior, government officials have stopped all building and improvement operations at McAlester, until a schedule of values of all the property has been prepared by the town site committee. A former survey schedule has been found to be false.

**ELEVEN BALLS IN BODY.**

New York Farmer is Killed by Unknown Men.

Hudson, N. Y., Dec. 25.—Peter A. Hallenback, a well-known farmer, was shot and killed last night at his home near Greenport. Eleven shots were fired and all took effect. Three men were seen later driving toward Catskill station and it was supposed Hallenback had been shot by robbers. This afternoon four men were arrested at Kinderhook on suspicion. They are Barton, Willis and Fred VanWormer. The fourth man is Harvey Bruce, a cousin of the Van Wormers.

**SHE PREFERRED DEATH.**

Detroit Girl Takes Poison While Waiting for Patrol Wagon.

Detroit, Mich., Dec. 25.—Nettie Hoese, aged sixteen, drank the contents of a bottle of strychnine today while standing at a patrol box with an officer who had taken her from a saloon. She died a short time later.

**TRAINING SHIP SAILS.**

Prairie Will Go to Point Off North Coast of Venezuela.

Washington, Dec. 25.—The navy department received a telegram today announcing that the training ship Prairie will leave Tomkinsville at daylight for Hampton Roads, whence she will proceed direct to Port Spain on Trinidad island just off the north coast of Venezuela.

**GENERAL ALGER DOING WELL.**

Most Critical Stage After Sunday's Operation is Passed.

Detroit, Dec. 25.—Tonight Dr. C. J. Jennings, who is attending General Alger, said to the Associated Press: "You may announce that General Alger has safely passed the first and most critical stage after the operation performed on him last Sunday. Of course there will be a possibility of dangerous developments for at least another week, but we do not expect any."

For the first time since the operation all the members of the family today were admitted to the general's room. The general was very bright and cheerful throughout the day.

**ACTION CAUSES COMMENT.**

Hon. John Barrett's Departure From Mexico Not Understood.

Mexico City, Dec. 25.—El Tiempo, a clerical organ, says that diplomatic circles and politicians are commenting on the return to the United States of Hon. John Barrett, especially when the Pan-American conference had just begun the discussion of important and fundamental questions.

El Tiempo says it is now coming to be believed that at Washington there is discontent over the fact that the Latin nations do not show docility in accepting the leadership of the United States.

**EIGHT MAY BE DROWNED.**

It Is Thought the Schooner Parkhurst Has Gone to the Bottom.

Gloucester, Mass., Dec. 25.—Eight men are believed to have lost their lives in the probable foundering of the schooner Eliza H. Parkhurst of this port, which was posted today by the owners as missing. It is believed the vessel was lost in the gale of Nov. 25.

**WEALTH OF ALBERT NOBEL, DISCOVERER OF DYNAMITE, TO BENEFIT MANKIND.**

Washington, Dec. 25.—United States Minister Thomas has reported to the state department that events of unusual importance and interest took place Dec. 10 at Stockholm and Christians in connection with the first award of the Nobel prizes. Alfred Noble, the discoverer of dynamite, who died five years ago, left substantially the whole of his vast fortune for the benefit of mankind, and in his will directed it to be divided into prizes, without regard to nationality. These prizes consisted of five allotments, each of more than \$400,000. The awards were as follows:

In physics, to Wilhelm Conrad Roentgen, professor at the University of Munich, and discoverer of the Roentgen rays; in chemistry, to Jacobus Henricus Van Hoff, professor at the University of Berlin; in medicine, to Emil Von Behring, professor at Halle, and discoverer of diptheria serum; in literature, to Sully Prudhomme, a member of the French academy. In the works of peace prizes were divided between Frederick Passy, national economist of France, and Henri Dunant, of Switzerland, the leading spirit in bringing about the Geneva convention and in instituting the societies of the Red Cross.

**NEW FOREST RESERVE.**

One Will Be Made in the States of Idaho and Montana.

Kalispel, Mont., Dec. 25.—The register and receiver of the Kalispel land office has received a letter from the interior department instructing the withdrawal of all lands from the settlement in Montana north and west of the Kootenai river. The order will involve over 1,000,000 acres of land in this country, besides taking from the state of Idaho over 275,000 acres, which, when surveyed and completed, will be made into a new forest reserve to be known as the Kootenai forest reserve of Idaho and Montana.

**THREE WERE ASPHYXIATED.**

Two Men and a Woman Found in Wealthy Grocer's House.

Fort Wayne, Ind., Dec. 25.—George Schaffer, aged sixty-five, a wealthy retired grocer, Anna James and Henry Anderson were asphyxiated at Schaffer's home. Schaffer and the woman are dead and Anderson was dying when found this morning. The house was tightly locked, the chimney flue was obstructed with soot and burned gas filled the house.

**REVOLVER WAS LOADED.**

Young Boy Accidentally Kills His Thirteen-Year-Old Playmate.

Metropolis, Ill., Dec. 25.—Herbert Bush, aged thirteen, a son of Postmaster Bush of Brookport, was shot and perhaps fatally injured today as a result of Christmas festivities. A playmate playfully pointed a loaded revolver at Bush and pulled the trigger, thinking the weapon contained blank cartridges.

**SEWER PIPE MEN COMBINE.**

Pittsburg, Dec. 25.—Manufacturers of sewer pipe have, within the past week, perfected an arrangement which will place the entire trade of the United States in the hands of a set of dealers, who will be recognized as manufacturers. Agencies are to be established throughout the country. The price list will be uniform all over the country and will be regulated by the manufacturers, who have formed a general association and will hold meetings at regular intervals. All the plants in the country except two are in the agreement.

**FOUR BURN TO DEATH**

**BIG STEAMER DESTROYED BY FIRE AT MEMPHIS.**

**PASSENGERS WERE ASLEEP**

**ONE WOMAN MEETS DEATH IN TRYING TO SAVE BABY.**

Fire Spread With Such Rapidity That Vessel Was a Mass of Flames When Department Arrived—Loss \$200,000—Other Fires.

Memphis, Dec. 25.—The steamer Sun, employed in Memphis and Fulton trade, burned to the water's edge early this morning. Four lives were lost. The dead are:

D. N. Rainey, Mrs. D. N. Rainey, Mrs. G. M. Timbs and the infant child of G. M. Timbs.

The fire was discovered at 4 o'clock a. m. and spread with such rapidity that the steamer was a mass of flames when the department responded to the alarm. About fifteen passengers were asleep on the steamer when the fire broke out. Among these were Mr. and Mrs. Timbs and baby, Mrs. Timbs sister, Miss Josie Hammers, and Mr. and Mrs. Rainey. Miss Hammers was sleeping with her sister and the baby in a state room and when awakened by the smoke she aroused her sister and started toward an exit. Her sister, however, went back for the baby and before she could return the hurricane deck gave way and all escapes were cut off. Miss Hammers was able to escape without injury.

**TRIED TO REACH WIFE.**

Mr. Timbs was in another state room, and until the collapse of the roof came, tried by every means to reach his wife. Mr. and Mrs. Rainey had a state room, and although it was thought that all the passengers on the boat had been aroused, nothing was heard from them until their charred remains were discovered.

When the first body was taken out Timbs identified it as that of his wife by a ring on a finger. The body was horribly burned. The body of the baby has not been found and it is thought it lies among the ruins in the hull.

The steamer and cargo were valued at \$200,000.

**Million Dollar Mexican Fire.**

Mexico City, Dec. 25.—Word reaches here from Merida, Yucatan, that a great fire has been raging at Progreso, starting in the warehouses of Eshamove Brothers, and spreading to the warehouse of Gabriel Escalante and the consignment department of the Merida railway. Some 10,000 bales of henequen were exposed to the flames and it is believed much of it has been destroyed. The loss is estimated at \$1,000,000.

**Baby Was Forgotten.**

Philadelphia, Dec. 25.—As a result of a fire at the home of James H. Connelly tonight, Mary, aged four, was burned to death and the parents were seriously injured by jumping from the window. The little one was forgotten in the excitement.

**Three Fremmen Injured.**

Rochester, N. Y., Dec. 25.—The large factory of the Graham Machine company burned this morning. Three firemen were injured by falling walls. The loss is about \$100,000.

**Big Furniture House Burns.**

Shreveport, La., Dec. 25.—Fire at midnight destroyed Jackson Bros. furniture establishment, involving a loss of \$75,000.

**COLORED BOY KILLS FATHER.**

Youth Shoots One of His Parents to Protect the Other.

Brazil, Ind., Dec. 25.—In defending his mother from an assault by her drunken husband, Theodore Watkins, colored, aged eighteen, shot and killed his father tonight at his home here. Richard Watkins was chasing his wife with a hatchet when the boy seized a revolver and shot him. Young Watkins is greatly affected over the killing, but says he was justified in shooting to save his mother.

**FIRST CHRISTIAN DAILY.**

Newspaper to be Established in Tokio, Japan, by a Native.

St. Joseph, Mo., Dec. 25.—The first Christian daily newspaper in the world is to be established in Tokio, Japan, by a native, U. Kow, who is now in this country making purchases of materials for equipping such a plant. He has concluded negotiations for a part of the newspaper property in this city and will buy the balance in Chicago.

**IRISH LAND BILL.**

London, Dec. 25.—The Daily News gives it as a rumor that the government is preparing an Irish land bill providing an equivalent to a compulsory purchase. It is believed the measure provides that a tenant may buy at seventeen and a half and land sold at twenty year's purchase, the state providing for the payment of the three year's difference.

**ATE POISONED BEEF.**

Cheverne, Wyo., Dec. 25.—Eighty members of Company "F," Eighteenth infantry, were poisoned while eating breakfast this morning and for a time half of them were in danger of death. The post surgeon administered an antidote, which relieved them. The surgeon thinks the poison was in the beef.

BIG DEAL IN PINE

30,000,000 FEET ON DEAD RIVER SOLD FOR \$175,000.

ALL TO BE SAWED HERE

LOGGING OPERATIONS WILL BEGIN IN THE SPRING.

Mill at North Marquette to Be Started Up in March With a Force of 100 Men and Run Steadily for Some Years to Come.

After negotiations lasting several weeks, one of the largest timber deals in the history of the upper peninsula has just been closed here.

The fact that the timber has just passed into new hands is particularly interesting to Marquette people, since the lands involved are located not a great many miles from the city, but that the pine is to be sawed here is a matter that should be pleasing.

Will Take Two Years to Log It. By the time camps could be established and the many other necessary details attended to, it is likely that the spring break-up would seriously hamper logging operations, and for that reason it is not the intention of the new owners of the pine to commence the work of cutting it this winter.

Already a contract has been entered into with the South Arm Lumber company whereby the timber is to be cut and hauled to the mill at North Marquette. On being cut the logs will be hauled along Dead river and later floated down that stream to the hoist.

Mill to Start in the Spring. Although a start on the sawing of the Kibby & White timber cannot be made until late next summer or early in the fall, nevertheless the mill at Dead river will begin operations in the spring-in March, it is expected.

To Put in Shingle Machines. In addition to somewhat improving the present equipment of the mill, it is announced that the South Arm people have decided to install a new outfit for the manufacture of shingles.

A WOMAN'S AWFUL PERIL. "There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt of Lime Ridge, Wis.

Independent of the two cuts of pine aggregating about 40,000,000 feet, that are to be brought here for sawing into lumber, negotiations are on foot which if successful will still further prolong the operation of the Dead river mill by three or four years.

this time, but its magnitude can be realized when it is said considerably over a hundred million feet of pine is involved in the transaction.

That the Dead river plant is shortly to resume operations with a good-sized force of men, and with prospects of a continuance of those conditions for some years to come, ought to be good cause for congratulation.

It is stated that the policy of the South Arm company will be as far as possible, to ship its lumber by rail. In many respects the disposal of the product by carload lots—for which, by the way, there is a growing demand—is much more advantageous than sales by the cargo, and it is already certain that much of the company's output will go to New England by railroad freight.

TWELFTH ANNUAL Banquet of the Marquette County Bar Association Last Night.

The twelfth annual banquet of the Marquette County Bar association, although not as largely attended as some held in former years, will go down in the history of the organization as one of the most elaborate and enjoyable.

Blue Points Celery Sherry Green Turtle Soup Salted Almonds Olives Frog's Legs, Sauce Tartare Shoe String Potatoes Sauterne Braized Fillet de Veau, aux Champignons French Peas White Seal "A little more than a little is by much too much." Roman Punch Roast Mallard Duck, Chasseur Sauce Candied Sweet Potatoes Walnut Salad Club House and Romaine Cheese Bent's Biscuits Cafe Noir

The wants of the inner man catered to, the intellectual portion of the function held sway until the merry party dispersed with regret early this morning. The speech-making—the windy side of the law, as the printed program put it—was in charge of M. J. Sherwood, as toastmaster, and was carried out along the lines of the following formal program, with several additions in the way of informal toasts:

"THE WINDY SIDE OF THE LAW." "Here will be an abusing of God's patience And the King's English." "Quips and sentences and these paper bullets of the brain." Toastmaster, M. J. Sherwood. ("A very valiant trencherman.") "Some of us will smart for it."

The Public Domain. Rush Culver "Now would I give a thousand furloings of sea for an acre of barren ground." H. O. Young "Not the King's crown, nor the deputed sword, The Marshal's truncheon, nor the Judge's robe." "Zounds! I was never so bethumped with words." "The iron tongue of midnight hath told twelve."

The menu cards were somewhat of a novelty, as concerns design and the subject matter. They were neatly gotten up and tastily printed, and will no doubt be cherished as mementos of the happy occasion. In form, the card represented a book, the front of the cover of which, in addition to announcing the nature of the function, contained these apt quotations: "We few, we happy few, we band of brothers"; "Our stern alarms changed to merry meetings," and "We have some salt of our youth in us." The reverse side of the cover contained a list of the officers of the association. The menu proper and the program of toasts were printed on green bark in the shape of a leaf inserted in the cover, the whole making a souvenir well worthy of preservation.

A WOMAN'S AWFUL PERIL. "There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt of Lime Ridge, Wis. from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and self jaundice.

There will be turkeys at the Grand saloon tonight and tomorrow night. Special reductions on all Furs, and Fur garments at Van Alsty's today and tomorrow. (12-23-24)

MIDNIGHT MASS.

Will Be Celebrated by Bishop Eis at St. Peter's Cathedral.

As is customary on Christmas, there will be special services at St. Peter's cathedral, beginning at midnight to-night. The first service will be pontifical high mass, celebrated by Bishop Eis. Following this, mass will be said at 7 o'clock, 7:30, 9 and 10:15.

Other Christmas Services. The Christmas services at St. Paul's church will consist of the celebration of holy communion at 7 o'clock a. m., and again at 8. At 10:30 there will be a full choral celebration, with special music by the choir.

A special Christmas service will be held in the German Lutheran church, Rev. C. Aeppler, pastor, at 3 o'clock Wednesday afternoon. Beginning at 6:30 in the evening an entertainment will be given by the Sunday school. The program will consist of singing and recitations, while a Christmas tree will be provided for the little ones.

COPPERS DULL, INACTIVE.

Speculation at Boston Shifts to a Waiting Game.

Referring to the copper stock market, Paue, Webber & Co. yesterday said: "It is claimed that the Amalgamated company has not sold a pound of copper since the price was cut below 16 cents. So far as can be learned, the independent producers are making no sales at current prices. The reason is partly that sellers are insisting practically on cash for their metal and the manufacturers are not prepared to trade on this basis. For the time being the copper industry is practically tied up and the prospect is that nothing but advancing prices for copper will untie it. If the metal goes up, copper stocks will be pretty sure to go up too."

Hayden, Stone & Co. wired the Laidley Commission company: "All the coppers are dull and inactive. It is a waiting market, so to speak. Watch developments awhile and see where the next move is coming from."

Chicago Grains. A. R. Jones & Co. of Chicago wired the Laidley Commission company: "Wheat started rather easy, inclined to feel the unsympathetic cables. The trade was slow the first hour, but in the last part of the session shorts scrambled to cover. Instead of a big increase in the visible, there was half a million decrease and St. Louis reported the sales of wheat to millers the largest for some time. No one expected this bulge, the best reason why they got short, and the bulge resulted. Buy wheat, but the weak spots; take profits on these bulges. "Corn followed wheat, but in itself looked weak enough to break seriously. The market was a very small one the outside buying was limited on the prospective heavier movement, and holders were ready to take profits on every firm spot. There's not much in corn now; it's good for the long pull, but wheat is too attractive and offers better chances for quick and good profits."

REAL ESTATE TRANSFERS.

Since the last report, the following real estate transfers have been filed at the office of the register of deeds: Pioneer Iron company to Charles Kruse—Lot 8, Block 33, Negaunee. Charles Kruse to August Kruse—Same as above.

UNIFORMS ORDERED.

Several Marquette Lodges to Be in County Indoor Ball League.

The prospects now are very bright for the organization of a county indoor baseball league, the clubs comprising which are to be composed of members of the various fraternal orders. Already the Beavers, Workmen and Macabees of this city have formed nines and lodges of other orders have under consideration the plan of also getting into the game. Up the road the sentiment is reported to be likewise favorable to the launching of the proposed league, and several clubs are said to be in progress of organization. The local nines have ordered their uniforms, and the players are already getting into trim. As far as the Beavers are concerned, the lodge has among its members a number of fast ball players, some of whom belonged to the old Rivals and others to the last city team, and the boys are going after the county championship with a vim. The city team also promises to be heard from. Daily practice is being had and the club is rapidly rounding into shape so that before long it will be in the field for challenges and with good prospects of holding up its end with the Soo, copper country or any other of the peninsula aggregations. The game this season is also very popular with the high school students, and for several weeks the girls and boys, using the rink on alternate afternoons, have been indulging in the sport. The regular city team and the fraternal aggregations will inaugurate the playing season shortly after New Year's.

## WILL SUCCEED GAGE

GOVERNOR SHAW OF IOWA ACCEPTS TREASURY PORTFOLIO.

TRANSFER TO BE MADE NEXT MONTH

RETIRING SECRETARY AWAITS PLEASURE OF SUCCESSOR.

There Will Be No Changes in the Agriculture Offices, Secretary Wilson of Iowa Continuing to Retain His Portfolio.

Washington, Dec. 25.—It was announced authoritatively this evening that Governor Shaw of Iowa will be appointed secretary of the treasury to succeed Secretary Gage. There will be no change in the offices of agriculture, Secretary Wilson of Iowa continuing to retain his portfolio.

The date of the transfer of the treasury department will depend on the mutual convenience of the outgoing and incoming secretaries, Secretary Gage having signified an entire willingness to remain at the head of his department until such time as it may be agreeable to his successor to take hold. It is supposed, however, Governor Shaw will be inducted into the new office some time in January.

Iowans Are Pleased.

It has been known for two or three days that Governor Shaw was slated for the appointment to succeed Secretary Gage, but it was not until today that the Iowa executive accepted the tender made to him.

The definite announcement of Governor Shaw's selection for the position of secretary of the treasury gave the greatest gratification to Iowa residents here. They regard him as a man well equipped for the place, and feel confident that the appointment will give general satisfaction. Secretary Wilson, voiced these sentiments when asked about Governor Shaw tonight, and added that the governor was better known to the people east of the Mississippi river than any man in private life west of the Mississippi on questions of finance.

Shaw a Successful Banker.

To Senator Dolliver of Iowa, whose relations with Governor Shaw have been close, his selection for the treasury portfolio gave the greatest pleasure. "The governor," he said, "has demonstrated by speeches delivered before chambers of commerce and banking associations in every important city in the United States his profound knowledge of the theory and mechanism of our banking and currency system. He is not only a student on these questions but has been for many years a successful banker. In selecting him the president undoubtedly acted in a great measure upon his personal familiarity with Governor Shaw's abilities in dealing with special subjects that belong to the treasury department. His appointment will be especially gratifying to the great business and commercial interests of the United States."

No Formal Offer Made.

Des Moines, Dec. 25.—Governor Shaw was seen again tonight with regard to his appointment as secretary of the treasury. He still declined to talk at length about the matter, merely reiterating that the president had confidentially asked him if he would accept the position if it were tendered. He replied that he would accept, but up to the present time no formal tender of the position has been made. However, from the tone of the dispatches from Washington he assumed that the president will appoint him, and that to all intents and purposes the matter has been fully settled.

The governor's term as chief executive of Iowa will not expire until Jan. 16, when Governor-Elect Cummings will be inaugurated. The legislature convenes Jan. 13, and Governor Shaw will be very busy in the interim with the preparation of his annual message, so that if the appointment by the president is made Governor Shaw will hardly be able to take up the duties of secretary of the treasury before the twentieth of January, and possibly later.

Want Wilson to Stay.

The people of Iowa are greatly elated at Governor Shaw's prospective entry into the president's cabinet, but would regret very much to have Secretary of Agriculture Wilson retire in consequence, and no one would regret this more than Governor Shaw. With Senator Allison as senate leader, Representative Henderson as speaker of the house, and with the prospect now of two members in the cabinet, the state is undoubtedly greatly honored and largely influential in national affairs.

Resolutions Endorsing Choice.

Quincy, Ill., Dec. 25.—The Quincy chamber of commerce assembled today and passed resolutions endorsing the choice of Governor Shaw for secretary of the treasury.

KILLED BY A TRAIN.

Baltimore, Dec. 25.—Mrs. Lucy M. Brass and her four-year-old daughter were killed tonight by a Baltimore & Ohio train while the mother was attempting to rescue her daughter from an approaching train.

TODAY'S WEATHER.

Washington, Dec. 25.—The following is the weather bureau's forecast for Upper Michigan: Cloudy Thursday and Friday; rain Friday along the lake shore; fresh southwest winds, becoming southeast.

## NEW PROTOCOL SIGNED.

Conflict Between Chile and Argentina Now at An End.

Buenos Ayres, via Galveston, Dec. 25.—The new protocol between Chile and Argentina has been signed. The governor officially confirms the statement that the new agreement has been signed, putting an end to the conflict between the two nations.

PROPHECY IS REALIZED.

English Newspaper Admits United States is First in Commerce.

London, Dec. 25.—The Daily News this morning in an editorial discussion of William T. Stead's pamphlet on "Americanization of the World" admits Gladstone's prophecy that the United States would replace Great Britain as the premier commercial nation has been, on the whole, realized, but declares it to be utterly impossible that Great Britain, as Stead extravagantly suggests, could ever enter an American union except after a series of disasters rendering square existence impossible.

The paper confesses the enormous influence which the United States wields over the British colonies, and that the majority of Irishmen would vote for a federation with the United States. The article further says it would be interesting to see what would happen if the United States should drop their protectionist policy and offer to Jamaica, Canada or even Australia an immense bribe of admission on reciprocal terms to their vast markets.

## ON THE WAR PATH

PAWNEE INDIANS IN OKLAHOMA ARE ACTING IN A THREATENING MANNER.

Guthrie, Okla., Dec. 25.—The Pawnee Indians are on the war path. An immense buffalo herd was so injured in transferring it from the Santa Fe stock yards to Pawnee Bill's ranch south of the town that he had to be killed. The meal was given by Major Lillie to the Indians for a buffalo dance. The Indians have been dancing and pawing ever since.

## Buffalo Herds Coming Back.

They claim that vast herds of buffalo are coming back to this country and many Indians have notified white settlers to vacate their ranches at once as they wish to lay the fences low so the buffalo will have full sway of the country. White people in remote parts of the reservation are coming in to Pawnee and report the Indians are acting in a threatening manner towards them. Pawnee Bill has placed mounted guards around his buffalo ranch as the Indians are camping in the timber west of there and in sight of the herd, and from their suspicious actions he thinks they intend to liberate the herd and perhaps kill them.

The United States Indian agent at that point has been notified and has made a report to the commissioner of Indian affairs at Washington.

## Whites Must Vacate Claims.

United States Indian Agent Ballew, of the Kiowa and Comanche tribes is sending out notices to all persons who have staked mining claims in Indian allotments, that they must vacate at once or they will be ejected from Fort Sill. The action is based upon the opinion of the attorney general, approved by Secretary Hitchcock and sent to the agent under a recent date, prohibiting miners from filing on Indian allotments.

Acting on an order received from the secretary of the interior, government officials have stopped all building and improvement operations at McAlester, until a schedule of values of all the property has been prepared by the town site committee. A former survey schedule has been found to be false.

## ELEVEN BALLS IN BODY.

New York Farmer is Killed by Unknown Men.

Hudson, N. Y., Dec. 25.—Peter A. Hallock, a well-known farmer, was shot and killed last night at his home near Greenport. Eleven shots were fired and all took effect. Three men were seen later driving toward Catskill station and it was supposed Hallock had been shot by robbers. This afternoon four men were arrested at Kinderhook on suspicion. They are Barton, Willis and Fred VanWormer. The fourth man is Harvey Bruce, a cousin of the Van Wormers.

## SHE PREFERRED DEATH.

Detroit Girl Takes Poison While Waiting for Patrol Wagon.

Detroit, Mich., Dec. 25.—Nettie Hoese, aged sixteen, drank the contents of a bottle of strychnine today while standing at a patrol box with an officer who had taken her from a saloon. She died a short time later.

## TRAINING SHIP SAILS.

Prairie Will Go to Point Off North Coast of Venezuela.

Washington, Dec. 25.—The navy department received a telegram today announcing that the training ship Prairie will leave Tomkinsville at daylight for Hampton Roads, whence she will proceed direct to Port Spain on Trinidad island just off the north coast of Venezuela.

## GENERAL ALGER DOING WELL.

Most Critical Stage After Sunday's Operation is Passed.

Detroit, Dec. 25.—Tonight Dr. C. J. Jennings, who is attending General Alger, said to the Associated Press: "You may announce that General Alger has safely passed the first and most critical stage after the operation performed on him last Sunday. Of course there will be a possibility of dangerous developments for at least another week, but we do not expect any."

ACTION CAUSES COMMENT.

Hon. John Barrett's Departure From Mexico Not Understood.

Mexico City, Dec. 25.—El Tiempo, a clerical organ, says that diplomatic circles and politicians are commenting on the return to the United States of Hon. John Barrett, especially when the Pan-American conference had just begun the discussion of important and fundamental questions.

El Tiempo says it is now coming to be believed that at Washington there is discontent over the fact that the Latin nations do not show docility in accepting the leadership of the United States.

## EIGHT MAY BE DROWNED.

It Is Thought the Schooner Parkhurst Has Gone to the Bottom.

Gloucester, Mass., Dec. 25.—Eight men are believed to have lost their lives in the probable foundering of the schooner Eliza H. Parkhurst of this port, which was posted today by the owners as missing. It is believed the vessel was lost in the gale of Nov. 25.

## WEALTH OF ALBERT NOBEL, DISCOVERER OF DYNAMITE, TO BENEFIT MANKIND.

Washington, Dec. 25.—United States Minister Thomas has reported to the state department that events of unusual importance and interest took place Dec. 10 at Stockholm and Christiania in connection with the first award of the Nobel prizes. Alfred Nobel, the discoverer of dynamite, who died five years ago, left substantially the whole of his vast fortune for the benefit of mankind, and in his will directed it to be divided into prizes, to be awarded to nationality. These prizes consisted of five allotments, each of more than \$40,000. The awards were as follows:

In physics, to Wilhelm Conrad Roentgen, professor at the University of Munich, and discoverer of the Roentgen rays; in chemistry, to Jacobus Henricus Van Hoff, professor at the University of Berlin; in medicine, to Emil Von Behring, professor at Halle, and discoverer of the diphtheria serum; in literature, to Sully-Prudhomme, a member of the French academy. In the works of peace, prizes were divided between Frederic Passy, national economist of France, and Henri Dunant, of Switzerland, the leading spirit in bringing about the Geneva convention and in instituting the societies of the Red Cross.

## NEW FOREST RESERVE.

One Will Be Made in the States of Idaho and Montana.

Kalispel, Mont., Dec. 25.—The register and receiver of the Kalispel land office has received a letter from the interior department instructing the withdrawal of all lands from the settlement in Montana north and west of the Kootenai river. The order will involve over 1,000,000 acres of land in this country, besides taking from the state of Idaho over 275,000 acres, which, when surveyed and completed, will be made into a new forest reserve to be known as the Kootenai forest reserve of Idaho and Montana.

## THREE WERE ASPHYXIATED.

Two Men and a Woman Found in Wealthy Grocer's House.

Fort Wayne, Ind., Dec. 25.—George Schaffer, aged sixty-five, a wealthy retired grocer, Anna James and Henry Anderson were asphyxiated at Schaffer's home. Schaffer and the woman are dead and Anderson was dying when found this morning. The house was tightly locked, the chimney flue was obstructed with soot and burned gas filled the house.

## REVOLVER WAS LOADED.

Young Boy Accidentally Kills His Thirteen-Year-Old Playmate.

Metropolis, Ill., Dec. 25.—Herbert Rush, aged thirteen, a son of Postmaster East of Brookport, was shot and perhaps fatally injured today as a result of Christmas festivities. A playmate playfully pointed a loaded revolver at Rush and pulled the trigger, thinking the weapon contained blank cartridges.

## SEWER PIPE MEN COMBINE.

Pittsburg, Dec. 25.—Manufacturers of sewer pipe have, within the past week, perfected an arrangement which will place the entire trade of the United States in the hands of a set of dealers, who will be recognized as manufacturers. Agents are to be established throughout the country. The price list will be uniform all over the country and will be regulated by the manufacturers, who have formed a general association and will hold meetings at regular intervals. All the plants in the country except two are in the agreement.

## FOUR BURN TO DEATH

BIG STEAMER DESTROYED BY FIRE AT MEMPHIS.

PASSENGERS WERE ASLEEP

ONE WOMAN MEETS DEATH IN TRYING TO SAVE BABY.

Fire Spread With Such Rapidity That Vessel Was a Mass of Flames When Department Arrived—Loss \$20,000—Other Fires.

Memphis, Dec. 25.—The steamer Sun, employed in Memphis and Fulton trade, burned to the water's edge early this morning. Four lives were lost. The dead are:

D. N. Rainey, Mrs. D. N. Rainey, Mrs. G. M. Timbs and the infant child of G. M. Timbs.

The fire was discovered at 4 o'clock a. m. and spread with such rapidity that the steamer was a mass of flames when the department responded to the alarm. About fifteen passengers were asleep on the steamer when the fire broke out. Among these were Mr. and Mrs. Timbs and baby, Mrs. Timbs' sister, Miss Josie Hammers, and Mr. and Mrs. Rainey. Miss Hammers was sleeping with her sister and the baby in a state room, and when awakened by the smoke she aroused her sister and started toward an exit. Her sister, however, went back for the baby and before she could return the hurricane deck gave way and all escapes were cut off. Miss Hammers was able to escape without injury.

Tried to Reach Wife.

Mr. Timbs was in another state room, and until the collapse of the roof came, tried by every means to reach his wife. Mr. and Mrs. Rainey had a state room, and although it was thought that all the passengers on the boat had been aroused, nothing was heard from them until their charred remains were discovered.

When the first body was taken cut Timbs identified it as that of his wife by a ring on a finger. The body was horribly burned. The body of the baby has not been found and it is thought it lies among the ruins in the hull. The steamer and cargo were valued at \$20,000.

## Million Dollar Mexican Fire.

Mexico City, Dec. 25.—Word reaches here from Merida, Yucatan, that a great fire has been raging at Progreso, starting in the warehouses of Eschauer Brothers, and spreading to the warehouse of Gabriel Escalante and the consignment department of the Merida railway. Some 10,000 bales of henequen were exposed to the flames and it is believed much of it has been destroyed. The loss is estimated at \$1,000,000.

## Baby Was Forgotten.

Philadelphia, Dec. 25.—As a result of a fire at the home of James H. Connelly tonight, Mary, aged four, was burned to death and the parents were seriously injured by jumping from the window. The little one was forgotten in the excitement.

## Three Firemen Injured.

Rochester, N. Y., Dec. 25.—The large factory of the Graham Machine company burned this morning. Three firemen were injured by falling walls. The loss is about \$100,000.

## Big Furniture House Burns.

Shreveport, La., Dec. 25.—Fire at midnight destroyed Jackson Bros. furniture establishment, involving a loss of \$75,000.

## COLORED BOY KILLS FATHER.

Youth Shoots One of His Parents to Protect the Other.

Brazil, Ind., Dec. 25.—In defending his mother from an assault by her drunken husband, Theodore Watkins, colored, aged eighteen, shot and killed his father tonight at his home here. Richard Watkins was chasing his wife with a hatchet when the boy seized a revolver and shot him. Young Watkins is greatly affected over the tragedy, but says he was justified in shooting to save his mother.

## FIRST CHRISTIAN DAILY.

Newspaper to be Established in Tokio, Japan, by a Native.

St. Joseph, Mo., Dec. 25.—The first Christian daily newspaper in the world is to be established in Tokio, Japan, by a native, U. Kow, who is now in this country making purchases of materials for equipping such a plant. He has concluded negotiations for a part of the newspaper property in this city and will buy the balance in Chicago.

## IRISH LAND BILL.

London, Dec. 25.—The Daily News gives it as a rumor that the government is preparing an Irish land bill providing an equivalent to a compulsory purchase. It is believed the measure provides that a tenant may buy at seventeen and a half years' purchase, and a landlord sell at twenty years' purchase, the state providing for the payment of the three year's difference.

## ATE POISONED BEEF.

Cheveruse, Wis., Dec. 25.—Eighty members of Company "F" Eighteenth infantry, were poisoned while eating breakfast this morning and for a time half of them were in danger of death. The post surgeon administered an antidote, which relieved them. The surgeon thinks the poison was in the beef.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to Upper Peninsula interests.

Gen. Miles discovered that the Schley court of inquiry business was loaded. Maybe his experience with it will cure of his habit of fooling with things that he should let alone.

The man who irreverently went up against President Roosevelt while the latter was out walking with a small party of his friends a few evenings since wasn't an anarchist.

Our government is to have a bunch of warships in Venezuelan waters when the German squadron arrives there to enforce the payment of the claims of German subjects against Venezuela.

Copper literature is much in demand these days, and quite opportunely George L. Walker of Boston has issued in pamphlet form a write-up of "The Copper Mines of the Southwest."

There is a bill to be introduced in congress raising the salary of the vice president from \$8,000 a year to \$15,000.

Very general regret is felt over the retirement from the cabinet of Secretary Gage of the treasury department.

Amalgamated copper interests which really know the situation insist that the dividend recently declared is commensurate with the company's earning capacity under present trade conditions.

Copper Country Department

TO RECOVER BODIES. NEW LIFE SAVING STATION. Endeavor Will Be Made to Raise Remains of Drowned Michigan Boys.

Captain T. H. McCormack, of the life saving station at the canal, which elapsed about three weeks ago for the season, went to Michigan Tuesday evening to confer with Marcus Levin in regard to recovering the bodies of Mr. Levin's two sons, who were drowned in Lake Michigan on Nov. 3, and also the remains of the two sons of Oscar Curison, who were drowned at the same time.

After many attempts had been made by local people at Michigamme to recover the bodies Mr. Levin appealed to the life saving department at Washington in the hopes that either Captain McCormack of Houghton or Captain Cleary of the Marquette station would be sent to render assistance. Mr. Levin was informed that the department would be unable to spare either of the two men although they were willing to go. Now that both are at liberty they are allowed to consult with Mr. Levin, and Captain McCormack went to Michigamme for that purpose. He informed a representative of The Mining Journal Tuesday evening that it would be useless to try to recover the bodies before spring unless their exact location was known. He did not know at that time whether Mr. Levin knew the place where the boys were drowned. If he did it was the captain's plan to cut holes through the ice and after seeing the bodies with a marine telescope, to bring them to the surface by an apparatus made for that purpose and which has never been known to fail. In the event that Mr. Levin did not know the location of the bodies, the captain stated that he would wait until spring. It is very likely the latter will be the case and in the spring the search will be continued. The captain is then sure of locating the bodies.

Yesterday Captain McCormack was in Marquette conferring with Captain Cleary in relation to the mission. Should the ice in Lake Michigan thaw before either the Houghton or Marquette stations are opened in the spring both Captains McCormack and Cleary will take the work of locating and recovering the bodies. Their plans are to use a marine telescope, which is no more nor less than a plain window glass fitted into a hole in the bottom of a boat, and through which the bottom of a lake, no matter how deep the water, can be seen by throwing a cloth over the head so that the light is shut out. The entire surface of the lake which is about eight miles long and seven wide will be covered in this manner and after the bodies are located the apparatus mentioned above will be used to bring them to the surface. This consists of a long hemp rope to which is attached a weight to sink it. At the end of the rope is a small ring from which three fine chains five or six inches long are strung. To the end of each chain is a small hook, and a button hook. This apparatus is sunk directly over a body and no matter where the hooks take hold, or whether one, two or three of them are brought into play, the body can easily be raised. A cork float is attached to the rope directly above the ring tends to keep the chains and hooks apart. Captain McCormack is sure that he and Captain Cleary will recover the bodies.

The story of the drowning of the four boys is well known to the readers of The Mining Journal. For several weeks after the unfortunate occurrence many attempts to recover the bodies by means of grappling hooks were made but without any success. Captain McCormack is of the opinion that grappling is useless in that lake and that other means will have to be used before the remains of the four boys are found.

CORTOPASSI IN JAIL. Crazy Italian Who Has Been Missing for Several Weeks is Captured. Under Sheriff Beck returned to the jail Tuesday afternoon after a hard trip to the Arcadian with Cortopassi, the Italian who is crazy and who has been missing from his boarding house at the Franklin Junior location, for several weeks. The officer captured his man at the farm of Jacob Koutta, about three miles past the Arcadian, where he has been in hiding for some time. Koutta said he was afraid of Cortopassi and did not dare to leave the house to warn the authorities that the man was there, and it was not until Monday afternoon that Koutta had a chance to inform passing farmers of Cortopassi's hiding place. Under Sheriff Beck was notified and he got the fellow without much difficulty. He will have an examination as to his sanity soon and will likely be sent to Newberry.

COPPER BUBBLE HAS BURST.

Combine Postponed Inevitable as Long as Possible but Explosion Finally Came. The Detroit Free Press, in speaking editorially of the "squeeze" in coppers says: "The usefulness of publicity in dealing with the large corporations is usually shown by the copper mines. It is by the directors of the Amalgamated company. Although the statement is ex parte, and everything that could be concealed has been concealed, the information given to the public, when added to certain information the public already had, eliminates the so-called 'squeeze' from the Amalgamated 'squeeze'."

NO HOCKEY AT DULUTH. In speaking of the hockey situation in Duluth the Duluth Herald says: "Hockey teams from Michigan, Wisconsin and Canadian towns have been flooding Duluth with challenges. It seems that the sport is again in the ascendency in every northwestern city, town and village except Duluth."

The game was killed here with the passing of the Union rink, as there is not now a covered rink in the city suitable for hockey. The open rinks are too cold for spectators. However, there is a challenge in this office from the Portage Lake hockey team of Houghton, Mich. for any team in Duluth that may care to accept it.

FINNISH GLEE CLUB CONCERT. A concert will be given by the Hancock Finnish Glee club at St. Patrick's hall, Hancock, Sunday evening. A fine program is being prepared for the occasion. A play will be presented in connection, thus making the evening's entertainment even more interesting. The piece is entitled "Harjangerin Harjulla." Moving pictures will also be shown, including twenty scenes from Finland.

STEWART FOR CLUB. W. Littledale, of Houghton, has been appointed steward of the Houghton club and will take charge of the club's headquarters after the first of the year. The apartments are about ready for the members. Mr. Littledale came to Houghton several months ago as a golf instructor for the Onigaming club and will take that position again in the spring.

WILL STUDY ABROAD. Dr. C. J. Sorsen, of Calumet, will leave Calumet about the first of the year to take a nine months' post graduate course of study. He will study in the Johns Hopkins university in Baltimore and also in New York, Berlin, and Vienna. He will return to Calumet next fall to resume his practice.

LOST BOTH GAMES. The Hancock Y. M. C. A. basketball team lost both games played Friday and Saturday nights at Duluth and West Superior by close scores. The first game was with the Duluth Y. M. C. A. team and the second with the Normal school team.

OIL AS FUEL FOR LOCOMOTIVES. One of the railroads on the Pacific coast has been experimenting with oil as fuel for their locomotives in place of coal, and if it proves a success will be adopted. While there may be some doubt as to the success of this new fuel, there is none concerning the curative value of Hostetter's Stomach Bitters. It has been given a thorough trial during the past fifty years and has never disappointed any sufferer from dyspepsia, indigestion, constipation or biliousness. It has given a fair trial. What it has done for others in the past it will certainly do for you now. Try a bottle and you will be convinced. The genuine has our Private Die Stamp over the neck of the bottle.

SAW DEATH NEAR. "It often made my heart ache," writes L. C. Overstreet, of Erie, Penn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with Consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma and all Throat and Lung diseases. 50c and \$1.00 at Stafford's. Trial bottles free.

Dr. Wood's Norway Pine Syrup seems especially adapted to the needs of the children. Pleasant to take; nothing in its influence; it is the remedy of all remedies for every form of throat and lung disease.

Champion.

John Larson is up from Escanaba to spend Christmas with his folks. George Frei and family spent Christmas with relatives in Marquette. John Danielson did business in the copper country early in the week.

John Thomas, who was injured in the mine here a few weeks ago, is able to be around again. Miss D. B. McNevin got home Saturday from Sparta, Minn., where she is teaching school.

A. H. Fisk returned the latter part of last week from a visit to his old home in the east. Forty-five men came in from the camps near here Saturday to remain until after Christmas.

The employees of the Mitchell-Gibson mine were paid last Saturday for work performed in November. G. A. Lindstrom has been entertaining his patrons with a graphophone during the past week or so.

The Donoghue & Bean camps have been paying \$1 per bushel for potatoes for their camp during the past week. Harris Levine spent the early part of the week in Champion. He disposed of considerable jewelry in the village.

The Misses Nellie and Eva Ripelle are down from Calumet on a visit to relatives. They will remain here a week or more. The Fitch children, Lillian, Maud and Cecil, returned Monday from school to remain at home during the holiday vacation.

Oscar Huber was laid up the latter part of last week as a result of an injury to one of his legs, caused by a log striking it. Miss Ethel Gibson has gone to Milwaukee on a visit to her sister, Mrs. A. T. Castler, who has not been well for some time past.

The Misses Lizzie Gill, Bessie Trevall and Mary Curtis returned home the latter part of last week from the Normal at Marquette. A few Champion people took advantage of the reduced rate of fare to the copper country and spent Christmas with friends up there.

Mrs. M. C. Quinn, who was quite ill for a week or so, is convalescent, news her many friends in the county will receive with no little satisfaction. Clement, Emma and Alice Quinn came home last week from school. They arrived a week earlier than intended on account of the illness of their mother.

The hop to be given on New Year's night at the town hall under the management of some of the young men of the village promises to draw out a good crowd of dancers. Good music will be procured from Ishpeping and all will be made welcome.

Charles Lavine got home Monday evening from Chicago where he spent the past three weeks. One day last week he bought a span of nice horses for his father's lively business. The shaft at the Champion Iron company's East mine is now down about 100 feet and is still in ore. It is likely that drifting will be started soon with a view to determining the length and yield of the deposit.

The exercises at the school here were well attended by parents and others last Friday afternoon. Two trees, with good things for the little ones, were provided in the lower grade rooms. The exercises were very much enjoyed.

At the last regular meeting of the local camp of the Modern Woodmen of America the following officers were chosen for the ensuing year: Venerable colonel, William Villeneuve; worthy advisor, George Huber, Jr.; clerk, Archie Abbott; banker, W. J. McNevin; escort, Joseph Marchant; managers, T. H. Wallace and George Huber, Jr.; physician, G. D. Beech. The installation will take place at the first meeting in January.

The Champion Iron company's boarding house near the Co-operative store is now heated by steam from the main engine house at the mine. The bath tubs are also supplied with warm water. With these improvements the house is now well equipped. Indeed it is a model boarding house. Frank Johnson, the new proprietor, has had several years' experience in the boarding house business and his wife is also familiar with hotel work. They can accommodate more boarders than they now have and are also prepared to take care of transients.

Samuel Parkyus, a well known resident of Champion, died Friday last as a result of injuries received the previous day at the mine here. The nature of the accident was given in a previous issue of this paper. The deceased was forty-three years of age, married, and is survived by his widow and three step-children, two sons and one daughter. One son and the daughter are residents of Ely, Minn., and were present at the funeral. The other son is in the west. The funeral took place Sunday afternoon with religious services at the Methodist church.

The local trial of Red Men is growing rapidly in membership. At the regular meeting last week seven new members were initiated. The candidates were Fred Sleeman, Josiah Carne, Fritchof Palm, Will Toms, Will and John Maker and Fred Larson. At the conclusion of the meeting the members enjoyed a smoker. A big time has been planned for New Year's night, when the families of all the members, with a limited number of invited friends, will assemble to listen to a program to consist of speeches, musical numbers, recitations, etc. Following the entertainment a lunch will be served. It is expected that at least two hundred persons will be present to enjoy the festivities.

MANY MADE HAPPY

CHRISTMAS IS ENJOYED BY THOUSANDS OF THE POOR.

WORK OF THE SALVATION ARMY

ORGANIZATION SERVES DINNER TO 3,000 IN NEW YORK.

Baskets Containing Complete Dinners Are Also Distributed—How the Day Was Observed Abroad.

New York, Dec. 25.—Public and private charity gave happiness to the thousands of persons in this city today, while in the outlying districts, where the wealthy have their country seats, the poor were better cared for and made happier than ever before.

The feature of the day was the organized work of the salvation army. By means of a fund raised by that organization, 3,000 people sat down this evening to a substantial dinner in Madison Square Garden, while earlier in the day, 3,400 baskets, each containing a complete dinner, were distributed at the garden. These baskets are estimated to have collected food for 20,000 persons.

At the Bowers mission nearly 10,000 were fed. Various other organizations supplied all the applicants with clothing and with toys for the children.

All churches held special services. The day is believed to have been a record-breaker in the way of charitable work.

Americans Observe Day in Paris.

Paris, Dec. 25.—The weather today was fine and the boulevards were thronged all day long by animated crowds of promenaders visiting the toy fair. American children in Paris were benefited by the kindness of Mr. and Mrs. Michael DeYoung of San Francisco, who gave a fete this afternoon in their apartments at the Continental Hotel.

Immense Christmas trees, laden with glittering toys, had been erected in the rooms. United States Ambassador Porter, Mrs. Porter, Consul General Cowdy and Mrs. Cowdy were present at the distribution of gifts and a constant stream of children left the hotel, carrying armfuls of toys which the DeYongs had bought especially from America.

Queen Remembers the Sick.

London, Dec. 25.—Christmas in London was fairly fine. King Edward, with Princess Victoria, attended the service this morning at the Chapel Royal in St. James palace, and later dined quietly with the Duke and Duchess of Connaught at Clarence House.

CHRISTMAS AT WASHINGTON.

President and Family Lunch With Commander and Mrs. Cowles.

Washington, Dec. 25.—Washington has seldom celebrated Christmas more quietly than today. The departments were all closed, the chief officials generally spending the day with their respective families.

The president, Mrs. Roosevelt and the children of the household, Robert Ferguson and another friend, took luncheon with Commander and Mrs. Cowles at the latter's residence. The party remained at the house several hours and then the male members went for a horseback ride in the outskirts of the city.

Tonight there was quite a gathering at a family dinner which included the presidential household, Commander and Mrs. Cowles and other guests. The dinner was followed by a musical performance in honor of Theodore Roosevelt. The evening was closed with a ball, in which about twenty couples finished Christmas night.

Washington, Dec. 25.—A. G. Spalding left here this evening for South Carolina, but before leaving gave out a statement in answer to the communication given out by Andrew Freedman's attorney regarding Spalding's announcement that he would not act further as president-secretary-treasurer of the National Baseball league. Spalding says in part: "Freedman's attorney is at perfect liberty to make any deduction from that letter he pleases, but it speaks for itself. The quotation that this New York attorney makes from my letter is as misleading as everything else what Freedman has done since this baseball controversy commenced. If he preceded

RIOT IS CAUSED BY BOYS

WHITE YOUTHS STONE TWO COLORED GIRLS IN HARLEM.

Negros Are Driven to Their Tenements Under a Shower of Stones and Open Fire From the Windows, Injuring Four.

New York, Dec. 25.—A race skirmish between whites and blacks in Harlem today developed to serious proportions and kept the police busy for a time. The negroes, a hundred strong, were armed with revolvers and clubs, while equally as many whites used stones as weapons. The negroes had the advantage but were driven back into their tenements by the police, after they had charged on the whites with pistols and razors. Fifteen negroes were arrested. Four whites, including a policeman, were badly shot or cut.

The rioting began when some white boys stoned two colored girls, whereupon a dozen negroes seized the white boys and beat them. The boys, when released told their story to the white men in the vicinity and an organized attack was made on the negroes, who were driven back to their tenements under a shower of stones. The confusion increased when the white men began to bombard the tenements with stones and other missiles, and the negroes fired from the windows into the crowd. The rioting continued until about 10 o'clock, when the police, using their knives and clubs freely.

At this point a squad of policemen arrived on the scene and with drawn clubs stopped the rioting, chasing the negroes into their homes.

IN THE TELEPHONE INDUSTRY.

Amount Invested in the United States Nearly Half a Billion Dollars.

New York, Dec. 25.—In the current issue of the Electrical Review of New York contains a study of the present telephone situation in which it is shown that the amount invested in the telephone industry in the United States is nearly \$500,000,000. This estimate includes both the lines and instruments of the American Telephone and Telegraph company, generally called the Bell company, and of the independent or independent companies. A table is published showing that all the states of the union, with the exception of Nevada, Rhode Island and Utah, are provided with telephone exchanges, the total number of exchanges of this character being 2,811 and the number of telephones connected to them being 7,057,177.

The largest extension of the independent telephone business is in the state of Ohio, which has 226 exchanges and 155,664 independent telephones. In order, Indiana and Pennsylvania come next, having, respectively, 192 and 198 exchanges and 88,609 and 64,604 telephones, respectively. The total capital invested in the independent telephone business, including toll lines and manufacturing establishments, is estimated at \$125,000,000 to \$150,000,000. The Bell interests are shown to have an invested capital of \$320,000,000. These interests operate 1,500 exchanges, to which are connected 1,080,000 telephones.

UNITED STATES STEEL CORPORATION ADOPTS CIVIL SERVICE SYSTEM.

Chicago, Dec. 25.—The United States Steel corporation has just adopted a civil service reform system for the 2,000 employes on its lake steamers which is destined to have a far reaching effect in preventing labor troubles in the future. Every man employed on the ships will be entered on the lists and a careful record of his work will be kept. Promotion will be made on merit as indicated in this record. Every boat is to have its place and promotions will be from one to the other with wages to correspond.

MERIT TO BE REWARDED.

United States Steel Corporation Adopts Civil Service System.

The steel corporation goes further than this and at the outset of the new system will at an early date announce handsome sums which will go to the captains and chief engineers, making them to that extent stockholders in the company. Promotions will be from ship to ship as indicated in the classified list.

While the dividends on the past season's work will be confined this time to the captains and chief engineers, it is said that the list of those who are to receive extra money for faithful service will be widely extended as the plan is worked out, and in time it is hoped that nearly, if not all, of the employes will receive a handsome Christmas present, if their work on the civil service books of the Pittsburgh Steamship company, the lakeers in the Steel corporation shows that they have merited it.

SPARKS FROM THE WIRES.

Chicago, Dec. 25.—Dunlap Smith, a leading financier and real estate dealer of this city, died today from pneumonia.

Kansas City, Dec. 25.—Jack Beauchotte of Chicago and Jack Graham of Indianapolis boxed ten rounds to a draw at Convention hall tonight.

AN EXCELLENT COMBINATION.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

WRECKED TRAIN BURNS.

Akron, O., Dec. 25.—D. P. Wheeler, cashier of the Citizens' National bank, was found dead today in front of the bank vault. He was killed by an electric shock through handling the socket of an incandescent lamp and opening the vault door at the same time, thus forming the fatal current.

KILLED BY ELECTRICITY.

Dallas, Tex., Dec. 25.—A Missouri, Kansas & Texas north bound passenger train was wrecked and almost completely burned six miles south of here at midnight. Three trainmen were injured and the passengers were shaken up but none were seriously hurt.

ASKS FORMAL OPINION.

Historian MacLay Lays Case Before Civil Service Authorities.

New York, Dec. 25.—When seen at his home and informed of his dismissal from his position in the navy yard by the president, Edgar Stanton MacLay said: "I have written the civil service authorities at Washington asking for a formal opinion on this subject. I shall be guided in my actions by the advice received from this source."

New York, Dec. 25.—Yesterday's aggregate dealings were slightly in excess of those of Monday principally by reason of the continued active speculation before the fall in Sugar. Dealings in the general market were in the hands of professional traders and a small part of the day's operations originated outside of the board room. The late recovery of prices after a steady downward tendency in the early part of the day was sufficient but the professional stamp was upon the day's market. Sugar closed at 16 1/2 representing a net loss of 3/8. Amalgamated Copper here resisted the general weakness of the market and rose at one time to 1 1/2 over last night, closing with a net gain of 1/8. The earlier rates for call money proved to be the highest and those who held out for higher rates, found themselves with funds unplaced. The offerings of this residue carried the rate down below 6 per cent. in the afternoon and was an effective factor in driving the shorts to cover. The bears however, showed a natural inclination to gather in their profit before Christmas. The market was a rebuff to the only day season throughout. The closing was fairly steady at the rally, and with the earlier losses mostly reduced to a fraction.

Closing prices of stocks are reported by Paine, Webber & Co. as follows: Union Pacific, 89; N.Y. Cent., 105 1/2; Pfd., 107; Southern Ry., 92; Mo. Pacific, 103; Alton, 102; Manhatan, 102; Sugar, 16 1/2; C & O, 46 1/2; Rock Island, 150; So. SEAMLESS.

The proposed church directory of St. Joseph and St. Ann's parishes at Escanaba will be published early in January, says the Iron Port, notwithstanding the fact that the promoter, one McGraw, has disappeared without completing the work. McGraw came to Escanaba about two months ago for the purpose of interesting the pastors of the Catholic churches in a directory, and after producing flattering letters of recommendation from priests at Iron Mountain and elsewhere was given permission to proceed with the work. McGraw solicited the business men of the city for advertising space, collecting in advance, and agreeing to call later for the "ad." The smooth young man in order to inspire confidence asked that all checks be drawn in favor of the priest of St. Ann's, and then giving assurance to that reverend gentleman that the copy was in the printer's hands he experienced no difficulty in receiving the cash, leaving only enough to liquidate the bill of printer when the work should have been satisfactorily performed, and with this he took his departure. But the printer to whom the contract was awarded had received nothing from McGraw, and now the completion of the work necessarily falls upon the pastors, who feel themselves in honor bound to perform the work with as little further delay as possible.

DEATH AMID FLAMES.

The development and growth of the upper peninsula has not been doubted, but the figures showing the increase of population during the past ten years causes pleasant surprise. In 1890 this peninsula had a population of only 180,523, while the present population is given at 261,392, a gain of 80,779 for the intervening period. There are thirty-three towns of over 1,000 and under 3,000 inhabitants, and eighteen towns, or cities, of over 8,000 inhabitants, and five cities of over 10,000 inhabitants.

MINERAL RANGE RAILROAD.

Change of Time in Effect Nov. 24, 1901.

A movement is under way at Escanaba, to establish an institute for the cure of rupture, and it is safe to assert that the project will reach a successful culmination within the ensuing fortnight. It is proposed to organize a stock company with a capital stock of \$16,000, of which amount over \$8,000 has already been subscribed. The method to be employed is one of the most successful known to the medical profession, and the proposed company will have the exclusive right for its use in the upper peninsula.

LAKE SHORE DIVISION.

There has been much speculation at Crystal Falls over the report from Lansing of the incorporation of the Milwaukee Land company, of Crystal Falls, with a capital stock of \$100,000. It develops that the company is an Iowa concern and has simply been licensed to do business in Michigan. Albert L. Flewelling is the Michigan director and the headquarters of the concern in this state will be in his office. The company owns considerable land in the state, among other holdings being the townsite of Channing in Dickinson county, a place which some day promises to be a great railroad center.

Partial records just compiled show that the slaughter of deer the past season was the greatest in the history of Iron county. A total of 131—eighty-eight bucks and forty-three does—were killed by fifty-three hunters in the Deer River country alone, the figures being secured from logging operators who hauled the game bagged by the different

WALL STREET STOCKS.

Tuesday's Market Was a Reflection of the Holiday Season.

New York, Dec. 25.—Yesterday's aggregate dealings were slightly in excess of those of Monday principally by reason of the continued active speculation before the fall in Sugar. Dealings in the general market were in the hands of professional traders and a small part of the day's operations originated outside of the board room. The late recovery of prices after a steady downward tendency in the early part of the day was sufficient but the professional stamp was upon the day's market. Sugar closed at 16 1/2 representing a net loss of 3/8. Amalgamated Copper here resisted the general weakness of the market and rose at one time to 1 1/2 over last night, closing with a net gain of 1/8. The earlier rates for call money proved to be the highest and those who held out for higher rates, found themselves with funds unplaced. The offerings of this residue carried the rate down below 6 per cent. in the afternoon and was an effective factor in driving the shorts to cover. The bears however, showed a natural inclination to gather in their profit before Christmas. The market was a rebuff to the only day season throughout. The closing was fairly steady at the rally, and with the earlier losses mostly reduced to a fraction.

OPPOSE NATIONAL PARK.

Cross Lake, Minn., Dec. 25.—The village council has appropriated \$500 to send a delegation to Washington to oppose the creation of a national park in northern Minnesota. The people here want the Chippewa reservation opened to settlement.

SEAMLESS.

The proposed church directory of St. Joseph and St. Ann's parishes at Escanaba will be published early in January, says the Iron Port, notwithstanding the fact that the promoter, one McGraw, has disappeared without completing the work. McGraw came to Escanaba about two months ago for the purpose of interesting the pastors of the Catholic churches in a directory, and after producing flattering letters of recommendation from priests at Iron Mountain and elsewhere was given permission to proceed with the work. McGraw solicited the business men of the city for advertising space, collecting in advance, and agreeing to call later for the "ad." The smooth young man in order to inspire confidence asked that all checks be drawn in favor of the priest of St. Ann's, and then giving assurance to that reverend gentleman that the copy was in the printer's hands he experienced no difficulty in receiving the cash, leaving only enough to liquidate the bill of printer when the work should have been satisfactorily performed, and with this he took his departure. But the printer to whom the contract was awarded had received nothing from McGraw, and now the completion of the work necessarily falls upon the pastors, who feel themselves in honor bound to perform the work with as little further delay as possible.

NEVER IMITATED IN QUALITY.

AN EXCELLENT COMBINATION. The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

WRECKED TRAIN BURNS. Akron, O., Dec. 25.—D. P. Wheeler, cashier of the Citizens' National bank, was found dead today in front of the bank vault. He was killed by an electric shock through handling the socket of an incandescent lamp and opening the vault door at the same time, thus forming the fatal current.

KILLED BY ELECTRICITY. Dallas, Tex., Dec. 25.—A Missouri, Kansas & Texas north bound passenger train was wrecked and almost completely burned six miles south of here at midnight. Three trainmen were injured and the passengers were shaken up but none were seriously hurt.

FOOD CHANGED TO POISON. Putrefying food in the ostestines produced effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Biliousness, Sick Headache, Fevers, all Liver, Bowel and Biliary troubles. Only 25c at Stafford's.

CLEVELAND IS IMPROVING. Princeton, N. J., Dec. 25.—Ex-President Cleveland's condition was, if anything, more favorable today. He showed a greater disposition to move about, and while he did not attempt to come down stairs and take part in the children's Christmas, he showed considerable interest in the gifts.

MACCABEE FIGHT. HOTTEST ONE IN ORDER'S HISTORY SLATED FOR THE MARQUETTE CONVENTION.

Major N. S. Boynton, founder of the Maccabees, is formally organizing a ticket to run for the state Maccabee offices on an expansion platform.

Dr. Slenor of Jackson is making a fight for medical examiner, to succeed Dr. Fraser; A. M. Slay of the Boynton forces is slated for great record keeper to succeed Thomas Watson; W. R. Kendrick of Saginaw will fight for the position of lieutenant commander.

"There can no longer be any doubt that the Maccabees will contribute to the hilarity of nations for some months to come. Major Boynton, arrayed in war paint and feathers, is already on the trail and his enemies began their war dance in this month's Michigan Maccabee. The fight is really for the control of the organization, the offices and emblems and will be waged in the picture gallery of the Maccabee hall.

"The major has already addressed many meetings about the state and has met with a very cordial reception. We know this because the major says so himself, and then we have seen it in the newspapers along with his picture and other things. From other sources we learn that the upper peninsula Maccabees are solid for Boynton and that Marquette will give him a rousing reception when the great camp meets.

"The major wound up a lively week in Detroit, Saturday night, when 1,500 Maccabees cheered him to the echo and declared for expansion without a dissenting voice. The Michigan Maccabee, the official organ, was denounced and 'Tom' and 'Jerry' were advised to get in out of the rain. The reason for the swipe at the official organ lay in the fact that it toasted Boynton to a turn and ridiculed his 'expansion' hobby.

"At present Boynton is strong in the running and several laps in the lead and no one need be surprised if he polishes off his enemies next June and once more becomes the dispenser of official pap."

LADY MACCABEE WAR. Supreme Hive and the Michigan Great Hive Lock Horns

A war recalling the rivalry existing between the state and national bodies of the male branch of the same order, has been declared between the officers of the supreme hive of the Ladies of the Maccabees and the officers of the great hive of Michigan of the same order.

"Lately the great hive has decided to extend its territory and also to go into other states for the organization of subordinate branches. Its retaliation for a similar action on the part of the supreme hive in working in this state. The supreme hive insists that it goes outside of Michigan, and the great hive claims that the supreme hive is invading its territory."

Mrs. Lillian M. Hollister, of Detroit, who is the supreme commander and head of the supreme hive, is being carried out of an unbecoming atmosphere by recently resigning and returning to her home at Detroit.

For the above occasions the D. S. S. & A. R'y. will sell tickets between all local points at greatly reduced rates. Tickets will be on sale Dec. 23rd, 24th, 25th, 30th and 31st, and Jan. 1st, and will be good for return passage until Jan. 3rd, 1902.

CITY BRIEVITIES. Today's weather: Partly cloudy with probably rain or snow flurries; moderate temperature.

Wes Hall spent his Christmas in the copper country. Born to Mr. and Mrs. G. M. Wills, on the 24th, a daughter.

Mr. and Mrs. Thomas Scadden are home from Milwaukee. Tom Kilby, now a resident of the Soo, spent his Christmas here.

O. F. Brown of Calumet visited with his parents here yesterday. Albert Jacobs is down from Hancock for a few days at his old home.

Ed. Maney of Duluth helped to observe Christmas at his old Marquette home. Mrs. L. S. Humes and son Harold are here from Duluth until after Sunday.

Tom Tracey is down from Keweenaw Bay for a short stay at his home here. John Harland left last evening for Waukesha, Wis., called there by the serious illness of his father.

Anna Carlson of Dexter, of Ely township, was on Tuesday adjudged insane and taken to the asylum at Newberry. The First National bank of Marquette has been designated as a depository for federal funds to an amount not exceeding \$50,000.

Mr. and Mrs. G. A. Ritchie have been down from the copper country for a couple of days, guests of Mrs. Ritchie's mother, Mrs. Anna McKee.

The dancing party announced to take place this evening at Fraternity Hall has been indefinitely postponed because of the sad death of Miss Inogene Watson.

Grand jury met on Tuesday adjourned until Saturday, Jan. 4, when it will be open for one day. The Negaunee "race-track" case has been argued and submitted.

Fred Denkers is so elated over the business he has enjoyed during the Christmas trade that last evening he remembered the Mining Journal force with a box of choice cigars.

J. C. Fitzgerald and wife of Chicago and W. T. Fitzgerald and wife of Peshigo were Christmas guests at the old home here. The former couple left on their return last evening; the latter leave today.

The Duluth contractors who are to construct the high school and manual training buildings are preparing for an early start on the stone work. Material is being hauled to the ground, and masons are advertised for.

A peddler named Hoffenberg was arrested Tuesday for being minus the proper license. He was taken before Justice Donovan and fined, warnings having had no effect in causing him to obey the law as far as paying for the privilege of peddling is concerned.

The Soo-News Record wants a United States court room provided in its new government building sure. Where is it to get its United States court? Marquette is, of course, the place to go to want the sessions of the court for this division of the western district removed to a place so far to one side as the Soo--Houghton Gazette.

The calendars issued by local business houses this season are generally much prettier in design than those of a year ago. Among this class is the picture calendar issued by the Marquette County Savings bank. The picture represents the "Shipping of Copper Sings." We're being the artist, and the design is novel in being of the raised, or chemigraph, work. The calendars took so well that they caused a veritable "run" on the bank and it was found necessary to send for more.

One of the prettiest calendars ever distributed here is that issued for 1902 by the Marquette County Savings bank. The picture represents the "Shipping of Copper Sings." We're being the artist, and the design is novel in being of the raised, or chemigraph, work.

### BRADT ADVANCED

WILL HAVE GENERAL SUPERVISION OF MINING PROPERTIES.

FOR THE SOO'S BIG SYNDICATE

TERRITORY EXTENDS FROM SUDBURY, ONT., TO MICHIGAN.

Captain Arthur Buzzo and Frank U. Nelson, Well Known Mining Men Go to Helen Mine, Michigan District, Under Mr. Bradt.

Eugene F. Bradt, one of the best known mining men in the Lake Superior district, takes a big step upward in his chosen profession. From superintendent of Marquette and Menominee range mining affairs for the Algoma Commercial company and the Lake Superior Power company (known as the Clergue syndicate) of Sault Ste. Marie, he advances to the position of general superintendent of the concern's mines and mining explorations. This takes in the Michigan extensive mining interests in the Michipicoten district, the nickel mining properties at Sudbury, Ont., and the explorations on the Marquette and Menominee ranges. The mining interests of the syndicate have become so extensive that the officials found the services of a general superintendent imperatively necessary. Mr. Bradt has been with the concern ever since the middle of last July and his work has been such as to commend itself to the management.

Captain Arthur Buzzo, who has been in charge of Clear, Clinch & Co.'s interests on the Crystal Falls range for some time past, has resigned to take the superintendency of the Helen mine, owned by the Clergue syndicate. Up to the short time ago Mr. Buzzo spent much of his time at the Columbia mine, but after the company disposed of that property he pushed the exploratory work on the range and also superintended operations at the Fossdale mine, Humboldt, which is owned by the same company. Mr. Buzzo was at the Salisbury mine, this city, for some years, and is a very capable man.

Frank U. Nelson, also an old Ishpeiming boy, has given up the position he has held for some time past with the Verona Mining company at Verona on the Menominee range, and will accompany Captain Buzzo to the Helen mine, where he will take an important position.

Will Develop Great Mines.

Before accepting his new position Mr. Bradt visited the syndicate's different mining properties. He found that its mineral interests are quite in keeping with its railroad, steamboat, water power and mill enterprises, which are doing so much for the American and Canadian Soos. The company owns the Algoma Central railroad being extended from Sault Ste. Marie to the Michipicoten district. The branch road extending from the mines to the Michipicoten harbor, some twenty miles or so in length, is also the property of this wealthy concern. The line of boats owned by it represents several million dollars in value and the water power being developed and mills in course of erection at the Soos also represent an enormous sum.

The Helen mine is the syndicate's largest iron property. It was opened about two years ago and there are at present in the neighborhood of five hundred men employed there. Up to this time the property has been worked on contract, but on the first of the year contracts expire and the syndicate will operate it independently. It is an open pit proposition at present, but some underground work will be done later. It is likely that Captain Buzzo will make some radical changes in the system of mining heretofore in vogue there. During the season of 1900 about 5,500 tons of ore were shipped from the Helen, but last season in the neighborhood of 230,000 tons were mined and sent forward. It is expected that at least three times as great a tonnage as was mined last season will be taken out during the coming year. The ore is similar in many respects to that produced on the Lake Superior ranges. During the two seasons past the ore has not been graded, all classes being mixed together, but next season Captain Buzzo will separate the different grades. The average percentage of the mixed ore was about 60 in iron, making it a good non-Bessemer.

Diamond Drill Contracts Let.

The syndicate owns two other properties in the Michipicoten district which give promise of developing into good mines. They are known as the Josephine and the Francis, Cole & McDonald, the well known diamond drill contractors, who have had drills in operation on the lands under option by the syndicate on this and the Menominee ranges, have taken a contract to explore at the Josephine. Mr. McDonald, brother of the contractor, who recently had charge of the drill work at the Barasa mine, Negaunee, will look after the drilling in the Michipicoten district. He is now getting his drills ready for shipment and the men who will go up with him will be on the ground ready to begin drilling soon after the first of the year. Mr. Bradt believes that the Josephine will develop into a great property.

Railroad Will be Finished Soon.

The Michipicoten branch of the Algoma Central will be completed to the Helen mine soon after the opening of the shipping season next spring. About eighty miles of the line is completed and over twenty more miles is ready for the steel.

The railroad opens a great pulp wood territory. The greater part of the timber between the Soo and the Michipicoten

ten district is owned by the syndicate and it is intended that much of it shall be consumed in the mills being constructed at the Soo. Then there are the blast furnaces and the steel mill. With these in operation considerable of the ore will be consumed at the Canadian Soo.

The company employs a large number of men in the different branches of its enterprises. Many more workmen will be given places next season than were employed last year. In the main office of the syndicate alone there are something like 150 hands employed.

The nickel properties in the Sudbury district will prove winners for the syndicate, though they are not yet in an advanced stage of development. The nickel mines will receive considerable attention next summer. Sudbury has the richest nickel properties in the world. The syndicate also owns some gold properties, though these have not been developed to any extent up to this time.

A Mystery Cleared Up.

During the five months Mr. Bradt has conducted operations on the Marquette and Menominee ranges his work has been enveloped in mystery. It was not known to anyone up here except Mr. Bradt, and perhaps a couple of his workmen, who he was working for. That was kept a secret. Indications gave unmistakable evidence, however, that he was employed by a strong concern.

Mr. Bradt informs The Mining Journal that the exploratory work will be continued on both ranges uninterrupted. Captain T. J. McKusker, who has been in charge of the work out from Republic, will have general supervision on both ranges under Mr. Bradt. The latter expects to visit the scene of operations at least once a month, and twice, if possible. About fifty men are now employed at three places. One crew is near the Dexter mine; another is on Section 18, near Channing, and the third is at work down near Iron Mountain.

The exploratory work conducted up to this time gives the operators some encouragement and it is the management's intention to continue it for at least several months. It is believed that workable deposits of ore will yet be discovered and the syndicate is satisfied to expend a reasonable sum in the exploration of the tracts under option. Quite a large acreage of mineral land is held by it and if workable deposits are short time ago Mr. Buzzo spent much of his time at the Columbia mine, but after the company disposed of that property he pushed the exploratory work on the range and also superintended operations at the Fossdale mine, Humboldt, which is owned by the same company. Mr. Buzzo was at the Salisbury mine, this city, for some years, and is a very capable man.

SUCCESSFUL TO INJURIES.

Thomas Teare, Who Fell Away in Fossdale Mine Shaft, Died Monday.

Thomas Teare, whose injury at the Fossdale mine was mentioned in Monday's Mining Journal, died this night at the Ishpeiming hospital. The fracture of his skull is what caused his death. He never regained consciousness from the time he was hurt Friday night until he died.

The deceased was a well known and highly respected citizen of Ishpeiming for about fourteen years before he moved to Humboldt to take a place at the Fossdale. He worked at the Lake Angeline and other mines of the city and was a skillful miner.

First Service Held.

The carpenters, bricklayers and others employed about Grace church have done energetic work during the past week with a view to getting the guild hall in shape for the Christmas service. The steam heating apparatus was put in operation Saturday and the plastering was completed Monday. On Tuesday afternoon the first service took place there. It was a children's service and there were very few of the little ones of the congregation who were not present. The first religious service was conducted there yesterday morning at 9 o'clock. The guild hall is about as large as the auditorium of the old church. It is intended that the regular services shall be held in the hall until the church is ready for use. The interior of the church will not be completed for a month or more yet.

BENEFIT ENTERTAINMENT

Negaunee Dramatic Club Will Give One for the Hawkins' Family.

The Negaunee Dramatic club will give an entertainment in the near future and the entire proceeds, less expenses, will be given to the family of the late Thomas Hawkins, who was killed a short time ago at the Negaunee mine, while assisting in the removal of a boiler. The nature of the entertainment will be determined at a meeting of the club to be held tomorrow evening.

It is generally known that the family of the deceased was not left in the best of circumstances and the charitable inclined people of the city have in different ways assisted the widow and children since the death of the husband. The poor woman has nine little children and not one of them is old enough to earn a dollar to assist in the support of the family.

The members of the Dramatic club will be commencing their charitable work and it is certain that the opera house will not be large enough to accommodate all who will turn out to the benefit entertainment.

Some weeks ago it was announced that a play would be produced by the members of the club after the holiday season and that the proceeds would go to the club itself. It was also stated that the club had been engaged in charitable work for a number of years past and that its members had never given a performance for their own benefit. They were frequently money out on account of necessary purchases to complete their stage outfits. The sad case of Mrs. Hawkins and her little ones appealed so strongly to the big-hearted members that they decided to give the entertainment for her benefit instead of their own.

It is not certain that a play will be produced at the proposed benefit, though one will doubtless be put on later in the winter if not on a date to be selected soon. It is probably that a musical and literary entertainment will be decided on at the meeting tomorrow night, and if it is considered advisable a hop will be given to follow. In the event of a play being produced later some other disposition than that mentioned will be made of the proceeds, but it is understood that Mrs. Hawkins shall get every dollar taken in at the first entertainment.

THE BAND CONCERT.

The members of the Negaunee City band are working diligently in preparation for the concert to be given at McDonald's opera house on New Year's night. The program is now in preparation and it will be completed within the next few days. F. C. Curran is assisting the band with the program, and he will preside at the piano during the concert.

Do You Want To Be Strong?

We Have Poof at Hand that Vinol is all that is Claimed For It.

A good many of us have to go "to the city" to get certain things. We will save our friends and customers the trouble of a trip, at least so far as buying Vinol is concerned.

It is one of the greatest tonic rebuilders that has ever been brought to our attention. Large quantities of it are sold in all of the large cities of our state and elsewhere. Now we have been appointed sole agents for this place.

Vinol is better than cod liver oil for everything for which this greasy mixture was prescribed.

The following from Chillicothe, Ohio, written by Mr. George Burgoon, who says: "My wife was very much run down in flesh and strength. Commenced taking VINOL and she felt the beneficial results of it before the first bottle was gone. She took four bottles in all and received wonderful benefit. Her strength returned and she gained materially in weight. I am happy to state that she is now in perfect health and we give VINOL the entire credit for this happy result."

Won't you please call on us and let us tell you how VINOL does good or let us send you a book that tells all about it. We sell Vinol under a guarantee that if it doesn't help you we will return your money.

The admission price will be twenty-five cents, which will include the hop to be given at the conclusion of the entertainment. Reserved seats tickets will be ten cents extra and these can be procured in advance at Perkins' drug store.

A HEAVY BUSINESS.

Companies Handling Express Matter Making New Records.

The agents of the express companies doing business in this county report that at no previous time during the year they have held their present positions had the volume of business been so great as it was during this holiday season. So far as can be judged, the same is true of other sections of the county. Express messengers on the trains say they never before experienced anything like the rush of work they have had for nearly a week past. Extra cars have been necessary in some sections and at nearly every office in the United States additional men have been put on to assist in handling the business incident to Christmas.

A great deal of express matter has been handled in Negaunee and Ishpeming during the past week. At times it has been next to impossible to get into the office of Agent Houle of the American Express company here, so crowded has the place been with packages.

In both cities the employees of the express companies worked all Sunday delivering packages received that day and preparing for the large consignment sure to come the following day. At Ishpeming the boys at the American Express office worked the greater part of Monday night. The rush continued until late yesterday.

An extra team has been on the pony express route between Ishpeming and Marquette. Very large loads were handled both ways during the past three or four days.

The American company is distributing something like \$100,000 in cash to its employees in the shape of Christmas gifts. Only those employed on a salary and working exclusively for the company at present. The agents and others working on a commission basis are not included.

When you want fresh fruit or vegetables remember that Geo. Haupt carries a full line. I now have watercress, oyster plant, radishes, celery, parsley, cucumbers, lettuce, sweet potatoes, bananas, oranges, apples and other fruits. Both telephones. (12-7-21w) GEO. HAUPT.

TURKEY DINNER IN DOUBT.

Tuesday morning not a few Negaunee people gave up hope of getting turkeys for their Christmas dinner, but later in the day the dealers received poultry that should have reached here three days before.

There was a shortage all through the county and the railway station agents had no small task answering calls from business people who were endeavoring to chase down the supplies they had ordered. Poultry shipped from Wisconsin points a week before Christmas did not get here until Tuesday noon and it would not have arrived then had it not been brought up from Escanaba by special train.

THE SKI RACES TODAY.

A Large Crowd Will Be Out to Witness the Long Distance Run.

It is expected that there will be nine contestants in the long distance race to take place this afternoon under direction of the local ski club. Six had entered their names with the secretary before six o'clock Tuesday evening and as at least three more of the skiers were expected to come in the entries were left open until today. Those who entered were Carl Thompson, Harold Frosvig, Tom Thompson, Thomas Lokken, Olof Holmoe and Ole Sundlie.

The race will start promptly at 1:30 o'clock from the city building. The participants will be started two minutes apart and each skist will be privileged to select its own course until the bridge which spans Carp river at Deer Lake is reached. It is believed that by starting the contestants separately better time will be made. Each rider will exert himself to overtake the man ahead of him. If all went off together it is likely that they would remain in a crowd until the city is reached on the return trip. The course to be taken was outlined some days ago. It is understood that all must return by Main street, coming down Strawberry hill. It is thought that the riders can get over the course in a little over an hour.

George A. Newett and E. W. Canning will act as starters. John W. Jochem, Lars Hoyseth, A. Halter, Ben Jalonds and Albert Aas will keep the time. The judges will be named today.

ELECTED NEW OFFICERS.

At the last regular meeting of the Women's Court of the Catholic Order of Foresters the following officers were elected for the ensuing year: Chief ranger, Mrs. J. J. Kiefer; vice-chief ranger, Mrs. P. McDonald; recorder, Miss Minnie Dompierre; financial secretary, Miss Mayme Connell; treasurer, Mrs. Joseph Gunville; trustees, Mesdames Joseph Malloney, Timothy Hughes and P. Gleason; conductors, Miss Nellie Maloney and Mrs. Michael Gaspen, secretary, Adelle Pappas and Mrs. E. Maney. The installation will take place on the third Wednesday evening in January.

INJURED AT MASS CITY.

Harry White, a young man about twenty years of age, who left Ishpeming some months ago for Mass City, was injured in a mine up there a short time ago, and now lies in a critical condition at the Ishpeming hospital. He was brought down from the Ontonagon range on Monday. He has two brothers, Richard and Joseph White, living in this city. Harry is quite well known in Ishpeming, as he lived here some time before going to the copper district.

ISHPEMING IN BRIEF.

El Johnson is down from the Mesabi range on a visit to his people.

William Herd and his family spent Christmas with relatives at Ontonagon.

Mrs. Arthur Hodgkins and daughter are visiting friends in the copper country.

M. J. O'Brien came up from Sault Ste. Marie to spend Christmas with his people here.

James Rule went to the copper country Tuesday on a visit to friends during Christmas.

Mrs. Jennie Sullivan got home Tuesday from West Superior and will visit her people here during the holiday season.

The two-year-old daughter of Matt Besamaki died Tuesday morning. The funeral took place on the afternoon of the same day.

The infant daughter of Malaki Koronen of 723 Seventh street, died Tuesday morning. The funeral took place this afternoon.

Albert Proulx and his children spent Christmas with Cleo, Meuller and family at Ontonagon. They will be away a week or more.

Samuel Byrne, Jr., of Houghton, spent Christmas with his wife's people here. Mrs. Byrne will remain some days yet on account of her mother's illness.

The regular meeting of the local lodge of the Ladies' auxiliary to the A. O. U. was postponed last evening until some evening to be named by the president.

Hall & Moss are distributing some very pretty calendars among their patrons. The design on the card is artistic and one that all lovers of a nice picture will preserve.

The Ishpeming City band concert will take place this evening at the opera house. The advance sale of reserved seats indicates that there will be a large attendance.

M. F. Lynch, for several years manager of the Western Union Telegraph company's business here, is visiting his family in Ishpeming. He is now located near Denver, Colo.

A. W. Myers came up from Milwaukee Saturday to assist the employees at the store here during the holiday rush. He left for the Cream City Tuesday evening and was at home on Christmas day.

Lame Shoulders Omega Oil

A person with lame shoulders comes pretty near being helpless. A lameness in the arms or leg or back is just about as bad. Some men have to stop work while suffering in this way, but a woman usually has so much to do around the house that she just has to keep going as best she can. The best remedy for lameness is rest, and a cure is reached quicker when the lame spot is bathed and rubbed freely with Omega Oil. It is an oily

liniment of a green color, and is so much better than other liniments, and so different in all ways, that you should never lose time fooling with something else. All good druggists sell Omega Oil, but if you happen to go where it is not on sale, please tell the druggist he ought to get a supply of his wholesaler. If you want any pain or ache to be quickly cured, Omega Oil is the remedy that will do the work. 50c. a bottle.

NEW PASSENGER STATION 300N TO GO INTO SERVICE.

HANDSOME INSIDE AND OUT

INTERIOR ELABORATELY FINISHED AND WELL ARRANGED.

Down Stairs Given Over Almost Entirely to One Large Waiting Room, While Second Story is Occupied by Offices.

It is the expectation and hope of General Manager Fitch that the South Shore will open its handsome new passenger station on New Year's day, or very shortly thereafter.

Cost About \$25,000.

Once the transformation is made, it will be like one from a hovel to a palace, so great is the contrast between the old and the new structures.

Offices on Second Floor.

The second story is given over entirely to the accommodation of the departments of the general superintendent, assistant superintendent, train dispatcher and purchasing agent.

One Large Waiting Room.

With the exception of the ticket office, baggage room, ladies' waiting room and lavatories, the entire down stairs is given over to one large waiting room.

wants in this line attended to. It is alongside the baggage room, on the way that the stairs leading to the second story are located, the stairs consisting of two flights, running respectively from either side of the building.

Material Much Delayed.

The work in progress is the decorating of the big waiting room, and the painters are now drawing this to a close.

When the snow disappears in the spring, a start is to be made in the transformation of the ground at the station.

An innovation in connection with the station is the fact that the passenger cars lying in the yards are heated from the depot steam plant.

Days of Old Depot Numbered.

Exactly what will be the fate of the old depot, has not yet been determined.

The new station is in full keeping with the fair name of "Queen City of the Lakes," and in it every citizen will take justifiable pride.

LIKE MARQUETTE PLAN.

Movement at the Soo to Shut Out the Itinerant Dealers.

A movement has been started at the Soo to form a merchants' protective association.

The association, says the News-Tribune, will begin to take tangible form soon after the holidays and a meeting will shortly be called for the purpose of interesting the merchants.

COPPER STOCKS IMPROVE.

Buying Orders and No Pressure to Sell a Feature of the Market.

Hayden, Stone & Co., telegraphing to the Laidley Commission company, said of Tuesday's copper market:

"Some people think this break in Sugar is to facilitate the purchasing of a line of Amalgamated. At any rate, the advance in Amalgamated on small trading has led to limited buying of the other coppers.

"Of the Wall street stocks, Walker Bros. said: Sugar was today again the weak feature and it sold down sharply and took with it the rest of the market.
