FIRE FIEND RAGES

DISASTROUS WORK OF FLAMES AT WATERBURY, CONN.

LOSS ESTIMATED AT TWO MILLIONS

LARGE PART OF BUSINESS SECTION OF CITY WIPED OUT.

Neighboring Cities Send Fire Engines—Militia Called Out to Preserve Order—Two Deaths Are Reported—Origin of Fire Unknown.

Waterbury, Conn., Feb. 2.—The most disastrous fire in the history of Waterbury broke out shortly before 6:30 this evening and at 10:15 was not under control. A large section of the business part of the city is already wiped out. It is estimated the loss already is considerably more than \$1,000,000, and before the fire is controlled that figure may be doubled. The origin of the conflagration is not known. The fire was not discovered until it had gained tremendous headway.

At 6:16 p. m. A. L. Lyall, E. T. Croker and E. K. Burnham were in their store. When they left there was no sign even of smoke on the main floor. Fifteen minutes later flames burst with great force from the windows of the third floor and almost simultaneously from the basement.

Brisk Wind Blowing. The wind at first was shifting, but settled toward the east and carried destruction with it.

The first building to catch from the Reid & Hughes Co. store was the Salvation army barracks. A moment or two later the flames leaped back to the eastward across Bank street and wiped out the Ryan & Fitzmaurice block, Cannon & Webster's drug store, Davis' cigar store and J. B. Mulling's & Sons' store. It burned rapidly through to South Main street and jumped across, shrieking buildings like paper. At the same time the flames caught the Masonic temple and traveled from the main floor to the building to the rear of the Franklin House on Grand street, and the entire block, including the Waterbury American office, was in ruins before midnight.

The militia was called out to preserve order. There was serious talk of blowing up buildings to prevent a spread of the flames.

The fire was partially under control by 10:30 o'clock. It was checked on South Main street and the indications were that it would content itself on the center street with the burning of the long block that contained the Franklin House and American office. The first Baptist church opposite the latter was endangered but was not burning at a late hour tonight.

Fire Breaks Out Again. Waterbury, Conn., Monday, Feb. 3.—12:30 a. m.—Shortly after midnight the fire, which had seemed under control, attacked the buildings on the south side of Bank street and again raged furiously.

It is now thought \$2,000,000 will be a conservative estimate of the loss. A special train with fire engines from New Haven has arrived.

Two deaths were said to have been caused by the fire. Help has arrived from Hartford, New Haven, Bridgeport and Naugatuck, but the combined efforts of the fire fighters seem unable to subdue the flames.

Thieves Get In Their Work. When the outside firemen arrived the blaze was wiping out the business portion of the city, all the fire being confined to that section, though the residential portion was in danger by the sparks driven by the fierce wind.

In the panic there were rumors of accidents and fatalities, but at the Waterbury hospital at 1 o'clock it was said none had been reported there. At that hour the fire was still burning, though it appeared abating.

A conservative estimate now places the loss at \$2,000,000. It was reported numerous thieves were operating in houses whose occupants had left them to view the blaze. A number of arrests were made.

Fire Under Control. The fire at 2:30 was under control. The flames are not out, though it is believed they can be confined within the area already burned.

VISIT JACKSON'S TOMB. Admiral and Mrs. Schley Pay Respects to Dead President.

Nashville, Feb. 2.—Admiral and Mrs. Schley braved the cold today and visited the tomb of Andrew Jackson. After visiting the tomb they attended services at the old brick church where Jackson worshipped.

TARIFF BILL THIS WEEK.

Senate to Divide Time Between Philippine Hearings and Salary Bill.

Washington, Feb. 2.—The senate will divide its time this week between the Philippine tariff bill and the bill increasing the salaries of the members of the federal judiciary. The salary bill will be considered for an hour each morning until disposed of, while the Philippine bill will continue to have the right of way after 2 o'clock each day. Monday Senator Hale of Iowa will report the urgent deficiency bill and ask to have it considered Tuesday.

This promises to be an interesting week in the house. The oleomargarine bill will probably be disposed of Tuesday. The bill for the repeal of the war revenue taxes will follow. While both sides unanimously favor the repeal, it is the intention of the Democrats to open up the whole tariff question during the debate. The question of Cuban reciprocity is likely to be debated at length.

The majority and minority reports on the bill reducing the war revenue taxes are practically completed, the purpose being to report the bill to the house tomorrow. The majority report was forwarded in Chairman Payne's recent statement when the bill was agreed upon. The minority will concur with the majority in supporting the tax reduction, and will discuss the general subject of the tariff revision.

NEGRO KILLS POLICEMAN.

Officers Keep World-Be Lynchers at Bay With Revolvers.

Chester, Pa., Feb. 2.—Policeman Mark Allen was shot and killed last night by Albert West, a negro whom he had arrested for quarrelling with a colored woman. The negro shot Allen in the leg and as he fell fired two shots into his body, death resulting shortly after. West escaped but was captured at Darby.

When the officers arrived with the prisoner they were met by 2,000 people bent on lynching him. The negro was hustled into the city hall and the crowd rushed around to a rear court yard. The gate was barred, but it was torn down and the mob rushed in with yells of "lynch him." Officers with drawn revolvers held the crowd, which sullenly retired. An extra guard was placed about the jail.

SAFELY LANDED IN JAIL.

Wyoming Man Charged With Murder Kept Under a Heavy Guard.

Casper, Wyo., Feb. 2.—Charles Woodward was safely landed in jail today. There was much excitement but no attempt at violence. The jail was heavily guarded as many believed an attempt would be made at lynching.

Woodward denied he was implicated in the murder of Ricker, and said he did not know about it until he was placed under arrest. The sheriff stated he had confessed to two parties, with whom he had become intimate shortly before his arrest.

Woodward is twenty-eight years of age and was born in Dixon, Ill.

MAY HAVE DIED IN STORM.

Prominent Utah Man Has Been Missing for a Week.

Richfield, Utah, Feb. 2.—William Harkins, formerly one of the best known railroad contractors in this section, has been missing from his home in Kimberley, Utah, since last Sunday, and it is believed he perished in the terrific snow storm prevailing in the gold mountain district. He left Kimberley a week ago to visit a mine four miles distant and has not been seen or heard of since. Searching parties discovered a snow slide which occurred in the path Harkins had taken, and it is believed he was caught and buried.

HANDS AND FEET FROZEN.

"Young Griffo" Found in Vacant Lot in Chicago Nearly Dead.

Chicago, Feb. 2.—Albert Griffiths, the Australian prize fighter, best known as "Young Griffo," was found today nearly frozen to death in a vacant lot. Both his hands and feet were frozen and surgeons are of the opinion that amputation of the hands will be necessary. Of late years Griffo has been leading a fast life and was penniless.

GOES INTO PRIVATE LIFE.

William C. Whitney, ex-Secretary of State, Gives Up Business.

New York, Feb. 2.—William C. Whitney, a financier and ex-secretary of the navy, after about twenty-five years of far-reaching activity in the world of affairs, has decided to retire from business life, making the announcement himself tonight.

TO BLAME FOR RATE CUTTING.

Interstate Commerce Commission Responsible for Act It Condemns.

Louisville, Ky., Feb. 2.—Vice President Hines of the Louisville & Nashville railroad, has issued a pamphlet in which he contends that the interstate commerce commission is itself to blame for the rate cutting which it condemns in its last annual report. He alleges the commission has failed to enforce laws governing rates, and that it has ample power to enforce its decisions.

NEWSPAPER MAN DIES.

Chicago, Feb. 2.—Cornelius M. Leek, one of the best known newspaper men in Illinois, died today aged fifty-three. For the last thirty years he has been identified with the Bloomington Press, and for half that time was editor of the Sunday Eve. For many years he contributed political articles to metropolitan journals, and his writings were extensively quoted.

WOMAN IS BLAMED

PASTOR HOLDS MRS. SOFFEL RESPONSIBLE FOR BIDDLE AFFAIR.

TWO MEN INTENDED TO SUICIDE

AUTOPSY SHOWS THAT ONE SUCCEEDED IN DOING SO.

Body of Jack Shows Nine Wounds, While That of Ed Has But Two—Both Say They Were Wrongly Accused of Many Crimes.

Butler, Pa., Feb. 2.—Great crowds anxious to see the Biddles, who died yesterday, surrounded the jail all day, but every one, even the reporters, were excluded. The coroner's jury returned a verdict that Ed Biddle shot himself, while Jack was killed by an officer. The autopsy bore out the statements that the Biddles intended to kill themselves rather than be captured, and that Ed succeeded, while Jack failed, though his life was forfeited.

Jack has nine wounds, any one of which would have proved fatal. Only two wounds were found on Ed, the fatal one being inflicted by himself. The bodies will be taken to Pittsburgh tomorrow. The officers who made the capture have agreed to divide the \$5,000 reward equally among themselves.

PASTORS REFER TO CAPTURE.

The pastors of nearly all of the churches here took occasion today to refer to the sensational capture.

Rev. Father Walsh, rector of St. Paul's Roman Catholic church, who ministered to the Biddles in their dying hours, spoke touchingly of the members of his parish. Father Walsh said at his residence:

"While ministering to them, almost every hour after they were brought to jail here, they often would talk to me of how they were wrongly accused of crimes. They denied positively that they killed Grover Kahney in Mount Washington and Ed told me in the most emphatic terms that he did not shoot Detective Fitzgerald."

WORST CRIME OF CENTURY.

Rev. Wett, of St. Mark's Evangelical Lutheran church, spoke at length of the criminal history of Butler county for the past few days. He criticized severely Mrs. Soffel, whom he held responsible for the whole affair. He said: "The blindness and infatuation of this woman in leaving her beloved husband and helpless little children for a gang of desperadoes is the worst criminal act thus far in the history of the twentieth century."

HUNDREDS VIEW BODIES.

At 6 o'clock this evening the bodies of the Biddles were removed to one of the hallways of the sheriff's dwelling, and the public was given an opportunity for looking at the two notorious criminals. Hundreds viewed the bodies, a large proportion being women.

Mrs. Soffel's condition tonight was not considered favorable.

MICHIGAN RAILROAD LAWS.

Some Changes Recommended by State Commissioner Osborn.

Lansing, Mich., Feb. 2.—Commenting on the important mergings of railroad properties during the last year, Railroad Commissioner Osborn, in his annual report, just issued, asserts that legitimate reasons for the government ownership of roads have been put forward and that the idea has grown.

The wreck on the Wabash near Adrian has prompted the commissioner to make several recommendations for the prevention of disaster in the future. The present system of train despatching does not meet the requirements of modern railway travel, he says, and the failure of the signal system to keep pace with other features of rapid railway growth is commented upon. The German method of signaling, outlined by Chief Dispatcher Miller of the Burlington, is commended. The commissioner says that the practice of using light passenger coaches cannot go into disuse too rapidly, and all railroads should as soon as possible operate only the strongest and heaviest and best possible cars.

The necessity for state supervision of electric railways and the need of more competent and responsible trainmen are urged, and it is recommended that Michigan pass a law requiring the proper warning of live-stock cars. The legislature is requested to consider a law limiting the capitalization of new railroads.

DIAMOND THIEF CONFESSES.

Glenview, Mont., Feb. 2.—Jerry McCarty, under arrest for the theft of diamonds from a Minneapolis traveling man, confessed today, and under his direction the officers found the jewelry hidden at Terry.

DECAPITATED HIS WIFE.

Cadiz, O., Feb. 2.—John S. Oveski, a Slav miner, murdered his wife last night by severing her head with an ax. He held the excited neighbors at bay until he was taken into custody by the sheriff.

ASK TITLE FOR PRIEST.

Niles, Mich., Feb. 2.—The Catholic clergy of Michigan and Indiana have petitioned the pope to confer the title of "Monsignor" on Rev. Rashesewicz of Otis, Ind., the oldest priest in Indiana.

AWAIT ACTION OF CONGRESS.

Manila Interested as to What Will Be Done Concerning the Philippines.

Manila, Feb. 2.—The city is intensely interested as to what congress will do concerning the Philippines. Some think life and property are unsafe outside of the towns, while others ridicule such ideas.

Criticism of the statement of Governor Taft that 15,000 men would be sufficient to garrison the islands in a year are plentiful, yet the majority of the business men say Governor Taft is right on one condition, that being that congress acts for the benefit of the Philippines.

Captain Green, president of the American chamber of commerce here, believes that Governor Taft's forecast can be realized if congress will arrange to open the country to mining and homestead laws, and open and enlarge the forestry reserves.

General Bell, commanding the troops in Batangas and Laguna, considers there is every prospect for a final termination of the insurrection in these provinces. Surrenders of men and rifles occur daily.

OVER ONE HUNDRED DEAD.

Mine Disaster at Hondo, Mex., Fully as Serious as at First Reported.

San Antonio, Tex., Feb. 2.—The latest information from Hondo, Mex., regarding the mine explosion shows it to have been fully as serious as was first reported. There was a total of 106 men in the mine and all are dead. The majority of the victims are Mexicans and Chinamen as there were very few Americans at work. Every mule was killed. The work of clearing away the wreck in order to get the bodies is being rushed, but there is no hope that any of the men will be rescued alive.

The explosion occurred in shaft No. 6 and was occasioned by striking a gas pocket. The names of none of the victims have been learned here.

WILL APPROACH BRITAIN AGAIN.

Holland Intends to Remodel Offer Concerning Peace in South Africa.

London, Feb. 2.—The Hague correspondent of the Mail says that Holland intends to remodel the offer concerning peace in South Africa and to renew the diplomatic representations to Great Britain. Dr. Kuyper, the Dutch premier, the correspondent says, has a strong continental backing.

"The British minister had an interview with Dr. Von Lynden, the Dutch minister of foreign affairs, Saturday, writes the Brussels correspondent of the Post, and intimated that Great Britain would never negotiate with Kruger or Leyds."

LAND CONTROVERSY ADJUSTED.

Iron Range Railroad Gives Up Swamp Grants and Will Select Others.

Duluth, Minn., Feb. 2.—The long drawn out controversy between Minnesota and Duluth and the Iron Range Railroad company over a swamp land grant involving 45,079 acres of land that includes three valuable iron mines, has finally been satisfactorily adjusted. In effect the company releases all state institution lands and will select other swamp land in lieu of them within six months.

CHARGED WITH SWINDLING.

J. B. Agnew Said to Have Eaten Several Hundred Physicians.

Chicago, Feb. 2.—James B. Agnew is under arrest here charged with swindling several hundred physicians in Illinois, Iowa, Michigan, Minnesota and Wisconsin out of small sums. He is charged with having fraudulently obtained cash subscriptions to a Chicago medical publication with which he had no business connections. He came to Chicago from New York.

ARE WANTED FOR MURDER.

Two Men Are Captured in Pennsylvania in a Nearly Starved Condition.

Brookwayville, Pa., Feb. 2.—Half naked and nearly starved, Thomas Madalena and Bennie Poli, wanted for the murder of James Heckin at Shammut Jan. 28, were captured in the woods near Crenshaw last night. They tell a pitiable tale of starvation and suffering. They declared last night that they had had nothing to eat for four days and were nearly famished.

CHESS CONGRESS OPENS.

International Tournament Starts Off With Twenty-Two Contestants.

Monte Carlo, Feb. 2.—The international chess congress opened this morning when rules were adopted to govern the tournament. The committee announced the names of twenty-two contestants. The Americans are H. N. Pillsbury, F. J. Marshall and W. N. Napier.

HENRY GOES TO KIEL.

Prince May Not Return to Berlin Before Sailing for America.

Berlin, Feb. 2.—Prince Henry left here this morning for Kiel. United States Ambassador White came to the railroad station officially to bid farewell to the prince, who will probably not return to Berlin before sailing for America.

ZELAYA IS INAUGURATED.

President of Nicaragua Enters Upon His Third Term.

Managua, Nicaragua, Feb. 2.—J. Santos Zelaya was today inaugurated president of Nicaragua for the third term. In his address Zelaya referred hopefully to the prospects for the construction of the Nicaraguan canal and to the benefits Nicaragua would derive therefrom.

SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition... Scott's Emulsion is a name that has value.

Send for our free book and write our physicians about your case. We make no charge for this service.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00. Per year, by mail, \$10.00.

MARQUETTE, MICH., FEB. 3.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

It is reported that J. Pierpont Morgan is trying to effect a copper combination to work on the same lines as his big Steel Corporation.

Much as it may be deplored on general grounds, it is a bit comforting to see the grave and reverend senators let their angry passions rise occasionally.

It goes to prove that, clothed as they usually are in a dignity that inspires awe, the senators are, after all, men of flesh and blood just like the rest of us.

If the voters of the Republican party in Michigan could in some manner serve notice on all the aspirants for the gubernatorial nomination that the candidate who seeks to buy it this year will be put under the ban of their deep displeasure.

It is announced that the coming mid-winter meeting of the Lake Superior Press association will be held on the 10th of March, at Escanaba.

Those gatherings of the members of the association are not only pleasant but of great value in the discussions of matters bearing on the publishing and printing business which take place during the session.

It is more than hinted that if congress does not grant such trade concessions to Cuba as will give her industries a chance to live our government will be asked by the Cuban people to annex the island in order that they may obtain the privilege of unrestricted trade with the United States.

Scrofula

This root of many evils—Glandular tumors, abscesses, pimples that on other cutaneous eruptions, sore ears, inflamed eyelids, rickets, dyspepsia, catarrh, readiness to catch cold and inability to get rid of it easily, paleness, nervousness and other ailments including the consumptive tendency.

Can be completely and permanently removed, no matter how young or old the sufferer.

Hood's Sarsaparilla was given the daughter of Silas Verwoy, Wawarsing, N. Y., who had broken out with scrofula sores all over her face and head.

Promises to cure and keeps the promise. Ask your druggist for it today and accept no substitute.

A REMARKABLE STREAM.

One of the most remarkable streams in the United States is Deschutes river of central Oregon. Almost all rivers have wide extremes in the volume of their flow, running at flood in the spring and low or even dry in the summer months.

But Deschutes river widely differs from this rule, and is notable for its remarkably steady flow throughout the entire year.

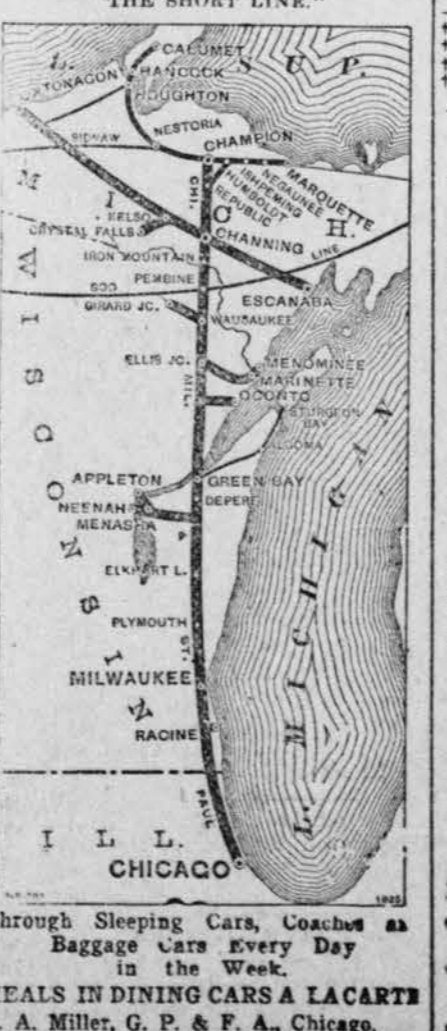

Measurements taken over a series of years by the United States geological survey have shown that the river discharges an almost uniform volume of about 6,000 cubic feet per second, and that the spring and winter flow is very little more than this and the summer very little less.

An explanation for the strange behavior of this river is sought in the character of the country through which it and its tributaries flow. The whole region in former ages was widely overrun by a succession of great lava flows which are found to be separated by other layers of sand and gravel. It is thought that the rain, instead of rushing at once to the river, sinks into the porous and porous soil into which the surface of the lava has disintegrated, and gradually percolating down to and into the rock layers, slowly flows along them to the deep caverns, which the streams have cut in the lavas.

This quality of steadiness of flow is of the greatest value to Deschutes river, and will make its water powers, of which a number are notable, and its water supply much sought after when enterprise and population are ready to use them.

SOO TEAM WAS DEFEATED. Portage Lake Hockey Seven Too Much for the Canadians.

The Canadian Soo team, one of the best in Canada, was defeated by the Portage Lake hockey seven at the Palace rink, Hancock, Saturday night. The score was 5 to 1.

SALOON MEN ARRESTED. Warrants Are Sworn Out on Complaint of Rev. William B. Coombe.

Sheriff Wills on Saturday arrested three Calumet saloon keepers on the complaint of Rev. William B. Coombe, the pastor of the Calumet M. E. church.

FRENCH CANADIANS MEET. Grand Reunion of Societies in Copperdom Held at Hancock.

Last evening at Germania hall, Hancock, a reunion of the French-Canadian societies of the county was held.

STATISTICS OF VESSELS. Report of Capt. D. D. Gaillard, of U. S. Engineers, for Year 1901.

The commercial statistics for the Portage Lake Ship canal for the season of navigation of 1901, just issued by Captain D. D. Gaillard, of the United States engineers at Duluth, show that the number of vessels passing through the canal, bound up, were 1,717; net tonnage, 1,230,149 tons; freight, 1,144,568 tons; passengers, 18,000.

CHARGES ARE WITHDRAWN. The charges against Stenrobovich, treasurer of the Calumet Croitians' Benevolent society, who was arrested for alleged embezzlement of the organization's funds, have been withdrawn.

NO CHANGE IN RATES. It is now deemed certain that there will be no change to speak of in insurance rates or insurance policies on standard steel and wooden ships during the coming season.

COPPERDOM BREVITIES. A postponed meeting of the Twin City Clerks' union will be held in the Hancock city hall tonight.

TO DISCUSS THEATRE PROJECT. A meeting of those interested in the Houghton opera house project will be held tonight when some definite action in regard to building the theater in the spring will be taken.

WHITESIDE AT CALUMET. Walker Whiteside, starring as Prince Victor in Shipman Brothers' elaborate production of "Heart and Sword," will be seen at the Calumet theatre tonight.

SCALES TOO LIBERAL. Some weeks ago A. Overstad, a grain buyer of Hancock, complained to the railway and warehouse commission at St. Paul that wheat, which he had shipped to Minneapolis and Duluth, was short about 1,000 bushels.

THE STATE'S WAR CLAIMS. Twenty thousand more of Michigan's Spanish war claim has been reported favorably by the quartermaster general at Washington, but further explanation of some of the vouchers is needed.

PLANS FOR TERRACING HILL. The plan drawings for the terracing of the Quincy hill to the north of Hancock are nearing completion.

BUCKLE'S ARNICA SALVE. Has world-wide fame for marvelous cures. It surpasses any other salve, lotion, ointment or balm for Cuts, Corns, Burns, Boils, Sores, Felons, Ulcers, Tetter, Salt Rheum, Fever Sores, Chapped Hands, Skin Eruptions; Infallible for Piles. Cure guaranteed. Only 25c at Stafford's.

CHURCH NEARLY COMPLETED. With the exception of building the tower and steeple the exterior work on the new St. Ignace's church at Houghton is practically finished.

DON'T LIVE TOGETHER. Constipation and health never go together. DeWitt's Little Early Risers promote easy action of the bowels without gripping or distress.

Continued Advance Predicted. Demand for Lake Copper Is Strong and It Is Said There Is None for Sale.

A. B. Turner & Bro., Boston brokers, have issued a circular letter which has the following to say regarding the copper situation: "The cloud of gloom that enshrouded the copper situation when we issued our special circular, two weeks ago, has been dispelled in a much shorter time than we had anticipated."

Lower Michigan. A stock company has been formed at Jackson to build a \$200,000 hotel. The greater part of the stock has already been subscribed and options have been secured on property adjoining the city park, on West Main street.

Copper Gossip. The structural steel for the frame of the new electrical power house under construction at the Calumet & Hecla company's Lake Linden stamp mill is up and the men in the employ of the Boston Bridge company which had the contract have returned to Boston.

HIBERNIAN RIFLES REORGANIZED. The old Hibernian Rifles of Calumet have been reorganized. The company has been out of existence for two or three years but previous to that year of prominent in local military affairs.

TALES OF PRINCE HENRY. Though owing to the accident of birth a younger son, it was the fate of Prince Henry of Prussia to play a comparatively obscure part in the history of his country compared with his brother William, who has escaped the fierce light that beams about a throne and secured an affection in the hearts of his countrymen that no other prince had not been his as a first born.

Send for free circular and testimonials.

A CARELESS MOTHER.

"I'd like to know what some women are thinking about," remarked a Detroit woman the other day. "Yesterday I saw a woman crossing the street near the city hall, leading a child about three years old, and the way that baby was being treated made my blood boil. The wind was blowing fiercely, one of those biting winds that cut to the very quick, and yet that child's stockings were down over its shoes, and as it had on no underwear, the poor little legs were exposed, bare and cold, to the weather. The woman, who I think was its mother, dragged it along as fast as she could walk, and when it couldn't keep up with her, she fairly lifted it from the ground by one arm and pushed it along with its feet scarcely touching the pavement. I consider such treatment criminal, and I wish that woman could be recommended to the society for cruelty to children. Any woman who has no more care than that for a child has no business to ever be a mother."

HAPPINESS OR MISERY

Which? It depends upon the nerves. If they be sound and strong, you are healthy and vigorous. Your mind is clear, and you are happy. But if they be weak, you are nervous and miserable. Your mind is uneasy, and you suffer all the tortures of a doomed, nerve-starved man.

PHYSICIANS HAVE TROUBLE.

As a rule you can never take a woman at her word. A Louisville woman and her husband went east for recuperation. It was their intention to interview a leading physician before they came back in order to get his opinion of the wife's health. She had been far from well, and finally concluded nothing would satisfy her but the verdict of this medical celebrity.

TALES OF PRINCE HENRY.

Though owing to the accident of birth a younger son, it was the fate of Prince Henry of Prussia to play a comparatively obscure part in the history of his country compared with his brother William, who has escaped the fierce light that beams about a throne and secured an affection in the hearts of his countrymen that no other prince had not been his as a first born.

Applications will be made to list these securities on the Baltimore Stock Exchange.

Ishpeming and its Environs.

THE SKI TOURNAMENT.
A Large Crowd Gathered Yesterday Afternoon to Witness the Sport.

That skiing is growing in favor in Ishpeming was manifested yesterday afternoon, when a large number of men, women and children left their comfortable firesides and went down to the big hill north of the East New York mine to witness the pumping contest held under direction of the Ishpeming Ski club. It was a chilly day for the spectators, but all remained until the best of the jumping was over. The sport began soon after 2 o'clock and on account of the splendorous weather the course had been used a great deal during the past month and the surface was quite hard; so hard indeed that it was necessary to place soft snow in places where the riders were liable to fall. The contestants did their work fearlessly and all were anxious to make good records. The best jumper in the contest had been promised a free trip to Red Wing, Minn., provided an invitation comes from the riders there to attend one. In case the local men do not go to Red Wing it will doubtless be an account of the splendorous weather. There has been very little snow there up to this time, though there is more on the ground since the storm of last week than at any time previously this winter.

A number of the local riders are developing a keen interest in the sport. The Minnesota skis—a hard, chase for the honors in case they come together this winter. In yesterday's contest the riders were at a great disadvantage on account of the strong, cold wind which came from the north. At times when they were in the air the wind would take the skis off their feet. Several times the boys were unable to land the skis properly, and sustained falls. The records were considerably better than those made by the winners of the contests in last winter's tournament, when the Minnesota riders were here. The best jump yesterday was over five feet, though the rider who made it did not keep his feet. The best jump without a fall was sixty-two feet. Some of the boys have done better than this in their practice work this winter, though, everything considered, yesterday's records would be hard to beat.

A. W. MYERS & CO.'S NEW BLOCK.
Its Construction Will Be Started Early in the Spring.

A. W. Myers, who has been in the city the past two weeks or so assisting with the inventory of the stock at the store of A. W. Myers & Co., states that the construction of the firm's new block will be started early in the spring, likely about April. Shaver & Son have been awarded the contract and it is understood that they will begin work on the block as soon as they return from the Mesaba range, where they are erecting a couple of buildings for the Interstate Mining company. Mr. Myers expressed the hope that the contractors might be able to make an early start, as the extra space that the new block will afford is much needed.

The foundation of the block was completed last fall. It was the firm's original intention to build then, but it was so late when the foundation was finished that it was decided to defer building until spring. The block will be well suited to the needs of the firm. The additional space, including the basement and store room, will be ample to meet all requirements.

WILL REPEAT THE PLAY.
Those who were not afforded an opportunity of witnessing the production of "The Confederate Spy" at the opera house on Thursday evening of last week, will be able to see it next Thursday evening, as the young people who put it on have consented to repeat the performance. A number of requests to have the play repeated have been made and this is why the members of the Ishpeming Light Guards decided to produce it again.

At a meeting of the company yesterday it was decided to reduce the price of admission for Thursday night to fifteen cents for children and twenty-five and thirty-five for adults. The latter price will be for reserved seats, which can be had at Tillson's Wednesday morning. The City Band orchestra will be present again to furnish the music and a number of specialties will be given by members of the company and others. The play will doubtless draw another large house, as all who witnessed the first production were well pleased with it.

THE MIDWINTER CLUB'S PARTY.

About sixty couples attended the second dancing party of the Midwinter club's series Friday night at the Anderson hall. Nearly all the members of the club were in attendance and the function was fully as enjoyable as the one held during the holiday season. Those present from outside were Al K. Sedgwick of Ironwood; A. W. Myers of Milwaukee; Oscar B. Warren and wife, Mrs. Mark Elliott, Walter Uzizker and Ben Vallet of Palmer. The Trombly orchestra furnished excellent music. The next hop of the series will be given on the first Thursday after Lent.

"I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this Remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by The Stafford Drug Co., Ishpeming.

HOTEL PROPERTY FOR SALE!
The Cardfield House, Ishpeming, is offered for sale. The property is in a desirable one and is in first class condition. For particulars apply to HANS GUNDERSON, Ishpeming.

Do you want overalls? We have the best. They are Oshkosh makes, etc. Closing brand. Selling at rock bottom prices. Finnish Mercantile association.

WILL RETURN TO AFRICA.

John Nolan Does Not Dislike the Country and Has Done Well There.

John Nolan, ex-police officer of Ishpeming, who arrived in the city one day last week, intends to return to West Africa to resume his position with the Sullivan Machinery company of Chicago. John left Africa early in December on a two-months' leave of absence. From the day he arrived in England up to the present he has made good use of his time. He has visited many places of interest across the water and has also taken in sights new to him in this country. He will leave this week for a few days' visit with relatives at the head of the lakes, though he will return to Ishpeming before again taking his departure for West Africa.

Mr. Nolan is endeavoring to induce two or three young men of his city to accompany him to the west coast of Africa. He has considerable work there for experienced diamond drill men. Nolan states that there are at present about thirty-five drills working over there and more are going in right along. The most of the drills are under control of the Sullivan Machinery company, though others are being put into the hands of the drill men to do good work in that country, as the rock is much softer than that found on this peninsula. The holes are bored rapidly and some are put to a depth of 3,000 feet and over.

Nolan reports that a majority of the drill men in West Africa hail from the Lake Superior iron region. At the time he left there were among them fifteen who were former residents of Ishpeming. The Hemetite City boys are doing well and nearly all of them will return with considerable cash in their pockets. According to Nolan the Americans must take good care of themselves on the coast; they are a little over three hundred miles from the equator and it is very warm there. It rains much of the time during nine months in the year, but it is invariably a warm rain. The temperature is very high at times and the boys are obliged to wear the thinnest kind of garments. All protect their heads and backs with cloth extended from broad brimmed hats. Once the sun strikes a person's spine he is done for. One of the drill men from the Lake Superior district was overcome by the heat and he has been out of his mind since. He is now in a Chicago hospital, but Nolan says he will soon be removed to an asylum.

SKI ORDERS NUMEROUS.

Harold Trosvig is receiving many orders for skis. Two men have been kept busy for the past few weeks on this work alone. Orders are coming from different places in the upper peninsula, including the copper country. Ishpeming is naturally a warm region and many skis are being made by Trosvig and others for local parties. Maple, birch, white oak and ash are used in them.

ISHPEMING IN BRIEF.

Captain Thomas Walters and wife are spending a few days in Chicago and other cities.

George Ruez and his sister Alma, who spent the past week with friends at Oconto, Wis., returned Saturday.

John Muffler has been in Chicago on a business mission since Friday. He is expected back today or tomorrow.

Otto Eger and C. B. Conway spent Saturday and Sunday at F. W. Read & Co.'s lumber camps west of Michigan.

Mrs. M. F. Lynch and Miss Etta Daniels are demonstrating Carpenter-Cook Co.'s coffee at E. A. Johnson's store this week.

Julius Ropes and family have moved into the Anderson dwelling on Ridge street, recently vacated by D. D. Mayne and family.

Austin Larson, son of William Larson, the Green Bay commission merchant, spent the latter part of last week in the city. He was here in the interest of his father.

Members of the Ladies' Auxiliary to the Ancient Order of Hibernians enjoyed a turkey supper Saturday evening. The feast was served at the convent hall at the conclusion of a meeting of the society.

Trombly's complete orchestra will be present at the hop to take place Wednesday night. This will be the last hop the orchestra will give before Lent. The usual lesson will be given between 8 and 9 o'clock.

John Dillon returned Friday from a ten days' visit to Duluth. John formerly lived at the head of the lakes. He had not been there in nearly twenty years. The city has undergone so many changes that it does not look like the same place.

Posters advertising the big hall to be given in this city next Monday night under auspices of the local lodge of the Brotherhood of Railway Trainmen have been distributed about the county. A large number of dancers is expected to attend from the cities and towns in the county.

Painters and paper hangers finished decorating the interior of P. H. Dahoe's liquor store and bar room on Saturday. The place is now quite attractive. The work was done with good taste and Mr. Donahoe has reason to feel satisfied with the improvements made. C. Olsen, local painter, did the job.

WORKING OVERTIME.

Eight hour laws are ignored by those tireless, little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing Indigestion, Biliousness, Constipation, Sick Headache and all Stomach, Liver and Bowel troubles. Easy, pleasant, safe, sure. Only 25c at Stafford's drug store.

Rare bargains in winter goods of all kinds, including skirts, jackets, shirt waists, blankets, comforters, etc. Closing brand. Selling at rock bottom prices. Finnish Mercantile association.

FACTS ABOUT TREES.

Why a Certain Companionship Exists Among Them.

In almost every region certain kinds of trees are found together. This is due to a similarity of preferences in regard to soil, heat, moisture and light. Two trees adapted to the same conditions will thrive best in the same situation. The white ash and black walnut are good examples. Having similar preferences, they have almost identical ranges and are very generally associated. There is also another reason why trees accompany one another. A tree may so influence its surroundings as to make them favorable to another tree, where otherwise they would be unfavorable. As an example of such influence, the chestnut on sterile, sandy plains in portions of New England forms a much-branched tree, which shades the ground and keeps it moist and cool. Such conditions are favorable to the germination of the white pine in that region; consequently it is found coming up abundantly beneath the chestnut, but not so abundantly on the open, unprotected ground.

A change in the surroundings of a tree always modifies its habit of growth. If the change is toward more favorable surroundings the result is seen in increased vigor, rate of growth and size; if toward unfavorable surroundings, the reverse will be true. The stately tulip tree of the Carolinas is said to be a mere shrub in Florida. The reason is that there it is out of its range of adaptation. The white elm, which grows with tall and vase-like form in New England, in the semi-arid parts of Kansas and Oklahoma is low and spreading like an apple tree. Nor is the only variable character. On the western elm the leaves are fewer in number, smaller, thicker and much rougher than on the New England tree. In other parts of the tree there are differences of the same kind, though they are not so noticeable as those in the form and foliage. These variations have resulted from the differences in soil and climatic conditions to which the tree has been subjected.

The difference in form between two trees of the same kind in different localities has come about through gradual divergence of characteristics. To a certain degree changes of this kind can be brought about in practice. When a gradual change is made in the surroundings of a tree a corresponding change takes place in the tree itself. Thus if stock of the New England elm be slowly moved westward through many generations, it will gradually change in form and other characteristics to be like the western tree; and it must be assumed that this change is necessary to enable it to live under its new conditions.

Sudden changes in the surroundings of a tree frequently cause its death, because it cannot quickly change itself to meet the requirements of its new conditions. The New England elm moved at once to the semi-arid west is likely to die, because it is not adapted to the conditions of soil, light, heat and moisture of northern Indiana. There are occasional knolls which show sturdy thrifty oaks of moisture-loving kinds. Now that the marshes have been drained the drying out of the soil has caused the oaks to die. The change was too sudden. Suddenness and intensity of change often account for the failure of trees to thrive when moved away from the region to which they became adapted. This is also why eastern trees so often die when moved to the west. This is why nursery stock grown near by can be more safely planted than that grown in a distant region. It is a practical matter, and should be generally understood.—Farmers' Bulletin.

FICTION IN MARKET QUOTATIONS.

The latest form of the "American poet" so say veracious London correspondents is the invasion of the English markets by popular American novels. The next thing, of course, will be a reputation on the Strand of the scenes of a year ago, when Throgmorton street was jammed early in the morning with investors and brokers eager to buy American stocks. The only difference will be the commodity dealt in. We shall be told—in special cable dispatches to the Evening Post—that "Macmillan was caught 100,000 copies short on the 'Octopus,' contracted for immediate delivery; that agents skinned the provincial bookshops, and pushed them out by special trains; that, in spite of every effort to fill orders, the price jumped from \$1.50 to \$2.25; and that to pull out, Macmillan unloaded 200,000 of the 'Helmet of Navarre' at a sacrifice and hammered the price of that book down to 80c. Notwithstanding a savage bear attack on 'Eben Holden'—from the interests backing 'To Have and to Hold'—the price was well sustained all day, and at the close of business fell off only two points. The bull movement for the 'Ruling Passion' forced the quotations up seven points, and the wilder excitement, but, fortunately, most of the heavy operators were able to cover their margins—though one well known book-seller slaughtered all his holdings of Cable's 'Cavalier' in order to do so. The opening of the market tomorrow is awaited with feverish anxiety."—New York Evening Post.

AN ESTIMATE OF CLEVELAND.

Cleveland, as a statesman, will be remembered as the man who stopped things. He checked abuses, he prevented bad men from accomplishing their schemes; he warded off impending calamity. He reduced revenues and saved taxes; he stayed the ebullient tide of public credit; he throttled anarchy; he stopped foreign aggrandizement on the American continent. Always he was the safety-valve. He brought no new doctrine to the people; he had no theory of government—merely a deal of duty for the hour. He founded no institutions; in the political life of his time he constructed nothing. As a statesman he will be remembered as one who every hour of the working day did what he thought was exactly right, and who never attempted to guide the current of the public business, but always to see that the business was wisely and honestly done. He was a modest, industrious public servant who lived so close to the motto, "A public office is a public trust," that people came to believe that he intended it—which he did not. He never injected himself nor his ambi-

THE MASQUERADE BALL.

It Brought Out a Large Crowd Friday Night.

The annual masquerade ball of the German Aid society at McDonald's opera house last Friday night was a financial and social success. Although the attendance was large there was not as many maskers as have attended these balls in previous years.

The music furnished by the Negaunee Orchestra band was all that could be desired. It was after 4 o'clock when the musicians rendered their last selection and the merry dancers dispersed.

TEAMS FOR LUMBER WOODS.

Mike Ryan, walking boss for the Silverthorn Lumber company, and McDonoghue & Beauchamp, jobbers, who are operating in the woods near Champion, spent some time in Negaunee the latter part of last week.

ATTACKED BY VICIOUS DOG.

Mrs. A. Kattus, a resident of this city, was attacked Friday by a vicious dog while walking along Ridge street. She had been visiting a friend on the street and was on her way home when the dog attacked her.

A COLONIAL SUPPER.

The ladies of the Presbyterian church congregation who will serve a supper at some vacant store room on Iron street on the evening of Washington's birthday announce that the spread will be prepared in colonial style.

SOMETHING THAT WILL DO YOU GOOD.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds and that alarming complaint, croup.

FIREMEN ENTERTAIN TONIGHT.

The Musical Program Will Be a Strong Feature of the Function.

The members of No. 2 Hose company of the Negaunee fire department, with friends who have been invited to attend the function at the hose house this evening, look forward to the event with no little pleasure.

The musical and literary program to be rendered will be the main feature of the entertainment provided. A number of the firemen will be heard in songs, speeches and dialect impersonations.

HAD TO CONQUER OR DIE.

"I was just about gone," writes Mrs. Rosa Richardson, of Laurel Springs, N. C., "I had consumption so bad that the best doctors said I could not live more than a month, but I began to use Dr. King's New Discovery and was wholly cured by seven bottles and am now stout and well."

LOCAL LACONICS.

J. D. Campbell spent Sunday with his family in Negaunee. William Wollner of Marquette was in the city Saturday visiting friends.

Miss Minnie Raasmussen is at Appleton, Wis., taking a three-months course at an art school. Martin Ryan, passenger conductor on the South Shore line, was in the city Friday on a visit to his parents.

Able Levine returned Saturday morning from Chicago, where he spent last week purchasing new spring goods for Levine Bros. store here.

F. D. Davis, county commissioner of schools, conducted Teachers' examinations in Islepening Saturday morning and at Marquette in the afternoon. Christ White, traveling salesman for Edson Moore, wholesale clothesman, was in the city Saturday calling on his patrons.

M. Meyre is the proprietor of the clothing store soon to be opened in Charley Johnson's new building on Iron street. Mr. Meyre hails from Chicago. He intends to remain here permanently. Jacob Davidson came down from Republic Saturday. He intends to leave in a week or so for Mt. Clemens, where he will receive treatment and rest for a couple of weeks.

The fire department at Mass City has made application for membership in the Upper Peninsula Firemen's association. The same will be accepted by the executive committee and it is assumed that the Mass City firemen will enter a team in the contests here next August.

J. W. Elliott is handling a combination billiard and pool table that is quite unique. One of these can be set on any dining room table. The tables are in big demand in the larger cities. They are well constructed and provided with beds, cues, etc., for use as the larger tables. One of the tables will be displayed in the window of Mr. Elliott's store some time this week.

Some of the wholesale houses here which a short time ago sent tickets for the Easter Monday ball to be given here for the purpose of increasing the tournament fund have already remitted for them. It looks as though the wholesale people will contribute their share toward assisting the firemen and citizens of Negaunee in making the big meeting a success in every way.

THE MODERN WAY.

Commends itself to the well-informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches, etc., for some of the most pleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs. Made by California Fig Syrup Co.

A THOUSAND DOLLARS THROWN AWAY.

Mr. W. W. Baker of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, until a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would advise any afflicted to try it." Sold by People's Drug Store.

Dyspepsia—bane of human existence. Burdock Blood Bitters cures it promptly, permanently. Regulates and tones the stomach.

Upper Peninsula.

There were only five divorces granted in Iron county last year, though there were nine petitions pending Jan. 1, 1901. During the year there were six bills filed, which leaves ten still pending.

Eighty-one marriage licenses were issued in Iron county during the year 1901. The number stands out boldly as evidence of the unprecedented prosperity of the residents of the little county.

The first crossing over the ice on the bay from Menominee will be tried today. The stage will start its initial trip of the season and no difficulty is expected as the present cold weather has probably made the ice plenty solid enough to bear the weight of a team.

Two young men with handkerchiefs over their faces entered Bioux & Co.'s grocery store at Escanaba a few evenings ago while Mr. Rioux was at supper, and after frightening the boy who was left in charge of the store, proceeded to rob the till of between \$5 and \$6.

A gang of fakirs has been skillfully "working" the people of Stephenson and other small towns in Menominee county. One of them got from house to house selling silk dress skirt patterns. A day or two after the first gang has gotten away with the money another gang comes along, claiming to be detectives, and that the goods were stolen.

Menominee fishermen have commenced their winter fishing in earnest. The ice has become quite solid, and after the present cold spell will be of sufficient thickness to bear up the weight of a team. The stage will probably soon start on its winter trips across the bay and within a short time travel from Door county will be in full swing.

Last week at Escanaba a man by the name of George Bourasa entered Ole Gangstad's saloon in company with Hattie O'Donnell, a notorious street walker. They remained there for some time and when Bourasa got away he found that he had parted with his worldly possessions to the extent of \$105 in lawful United States currency.

Wakfield, a small town six miles east of Bessemer, was visited with a very destructive fire a few nights ago which threatened at one time to wipe the town off the map. At about 2 o'clock fire was discovered in a general store owned by Alexander A. Nelson and the flames spread until it looked as if the whole business part of the town would be consumed.

The gurgling gush of running beer, the popping of corks, the clinking of glasses, the merriment, the song, and the bartender's gentle "what's yours, sir" have become so indigenous to Escanaba as to seem almost a part of it. Such sounds as these have for years greeted the ears of peccators passing saloons at any hour of the day or night, week days and Sundays.

The Inward Effects of humors are worse than the outward. They endanger the whole system. Hood's Sarsaparilla eradicates all humors, cures all the great alternative and tonic, whose merit has been everywhere established.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. Sold by People's Drug Store.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. Sold by People's Drug Store.

and Rapid River, which places were recently visited by Sheriff Roberts. Just now long the saloon keepers will be made to comply rigidly with the requirements of the law, remains to be seen. There is no doubt that many of them are perfectly satisfied. It's no snap running a saloon twenty-four hours every day.

The annual meeting of the stockholders and directors of the Kirby Carpenter company was held a few days since at the offices of the company at Chicago, and a dividend paid and officers elected. The dividend was the last of that of 1901 making in all, for that year, \$1,000,000. The other half was paid last August.

A heifer belonging to John Uren, an Iron Mountain drayman, was running at large one day last week and while wandering about in search of food came to the St. George's hospital. The animal seemed to have been possessed with the appetite of a Billy goat and when it found some wearing apparel belonging to one of the nurses at the hospital, hanging on the clothes line, it immediately set to work to devour it.

Advices from Washington contain the announcement that Hon. Henry W. Seymour of the Soo is using his best endeavors to have the east portion of the old Fort Brady reservation set apart as a site for the Carnegie library, and that he is making some progress.

During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm.

There is Only One Instance where you can afford to turn your back on a good thing; and that is upon a REX POROUS PLASTER.

In fact any ache or any pain. There is no excuse for your going around with a wry face and a continuous complaint, just because you have a crick in your back. Put a REX Porous Plaster over the pain, and life will be sweeter thereafter. The attachment will be mutual.

J. M. PERKINS. NEGAUNEE, MICH. Agents for the Celebrated "Stras" IMPERIAL AND LA VENGIA CIGARS.

DEPOSIT IS RICH.

BIG STRIKE MADE AT THE DANIELS PROPERTY.

IN THE SAUK'S HEAD REGION

MINERAL CARRIES COPPER, SILVER AND GOLD.

Appears Vast in Extent, Assays \$25 to the Ton and Surprises Experts Who Investigate—Meeting Called for Tonight.

The developments of the past few months appear to indicate that the "Sank's head range" is destined to become a notable source of copper production. The red metal has been found to exist in considerable abundance, the quality is materially richer than the average and at least one property bids fair to be added to the list of producers within the not distant future.

This property is the one at which Captain Daniels has been quietly conducting exploratory operations at times during the past three years. He has met with disappointments and has been hampered by lack of funds, but through all he has persevered, firm in his belief that the metal existed there in paying quantities, and now it would seem that his hopes are to be realized. The work accomplished has progressed far enough so that it can now be publicly announced that a rich copper deposit underlies that particular tract of land and extends for several miles through the range, the vein having been traced for that distance.

In contrast to the copper mined in Houghton and Ontonagon counties, the mineral found in the Sauk's Head region is in the shape of ore—like the deposits in Montana and other Western states—and so well argued with metal as to be surprising. One assay—made from a sample taken from the outcrop—showed copper to the amount of twenty-four per cent., but it is not in this richness but in the quality of the vein matter itself that the captain and his associates pin their faith. In fact, they would be satisfied—and a valuable mine is assured—should the ore from the lode run even half of the value shown by the assay.

The property where the exploratory work has been in progress and which is held under option by Captain Daniels, is located about eighteen miles from this city and just back of Sauk's Head. It comprises 400 acres in Section 30, Town 50, Range 26, and figuring one way is a mile in extent. The vein extends through the property, with a dip of about forty-five degrees.

The discovery of an outcropping carrying considerable copper led Captain

Daniels to believe three years ago that the metal existed in quantities sufficient to make a paying mine. Test pits were sunk, the copper formation was traced for a quarter of a mile and finally it was decided to commence the sinking of a shaft. The location chosen was at the foot of a hill, under which the lead indicated the vein dipped.

Struck a Month Ago.

The shaft, twelve by eight feet in dimensions, was driven down and along the dip of the formation through the outcrop, which proved to be twelve feet in thickness. Eighteen feet of trap rock were then cut through and, finally, on Christmas eve, the vein itself was encountered at a depth of thirty feet. The fact that the vein had been struck, however, was not divulged except to a few associates of the captain, it being decided to quietly continue the work with an idea of somewhat determining the extent of the deposit before the information was made public.

Since then the shaft has been put down for a distance of three feet into the vein and is still bottomed in the ore, and although the hanging has been located there is no indication of the foot wall. The width of the vein, of course, is known to be at least twelve feet, but how much more—whether twenty-five or fifty—is still a point to be determined. The captain is not disposed as yet to make an estimate as to the extent of the deposit, but judging from all indications it is a big one and one that eventually will mean much for city and the Sauk's Head region.

Assays Show Up Rich.

Several samples of the ore picked haphazardly from the vein matter hoisted to the surface were a few days since sent to Chemist F. D. Tower, of the laboratory department of the Pioneer Iron company, operator of the Carp river furnace, for analysis, and the result was flattering in the extreme. The material was not only found to contain copper, but gold and silver as well. The assay showed:

Copper—Seven and eight-tenths per cent.
Gold—One dollar and seventy-nine cents' worth to the ton of 2,000 pounds.
Silver—Three ounces to the ton, or in value about \$1.70.

This gives an aggregate mineral value of between \$23 and \$24 to the ton of ore, although samples from the outcropping—gray ore, carrying "peacock copper"—assayed 24 per cent. copper, with traces of gold and silver.

Experts Surprised at Showing.
A number of mining experts from the copper country and Ishpeming have recently visited the property, and have made a thorough examination of the ore and the formation. Each of their reports has been highly favorable and have so strengthened the confidence of Captain Daniels and his associates that a meeting of those business men and others who have subscribed funds to the prosecution of the work has been called for this evening. It will be held at the office of D. W. Powell, in the Harlow block, commencing at 7:30 o'clock, and it is the hope that the attendance will be large.

It is the feeling that the deposit has been determined to be sufficiently great in extent to be developed, and it is with this in view that the conference has been

called. The developments are deemed to have reached a stage where the property is no longer a prospect and where it is desirable that some definite steps be taken which shall have as their object mining operations on a rather extensive scale, and along this line the deliberations of the meeting will be centered.

Great Mineral Possibilities.

The Mining Journal is informed by Captain Daniels and associates that indications of copper have been found, and in some localities the vein has been traced, all through the Sauk's Head range. They believe that section of the country rich in mineral possibilities, the development of which cannot but help to be a big thing both for the city and the district adjacent to the range. From the outlook at the Daniels property it would appear that their belief is well founded, and it is to be hoped that the funds necessary to the opening of the mine will be obtained. The stock promises to become valuable and the investment a good one.

E. B. HOWARD IS DEPUTY.

Gad Smith Assumes the Duties of Collector of Customs.

On Saturday, Gad Smith assumed the duties of collector of customs for this—The Superior—district, succeeding Hon. John Q. Adams of Negaunee. The new official has appointed Colonel E. B. Howard, formerly of Ishpeming but recently a resident of Lansing, to the position of deputy collector, and this gentleman, too, took the reins on Saturday, succeeding George Tucker. Mr. Thell continues, as before, in charge of the marine branch of the department and in which work he has become an expert. His retention will be popular.

Mr. Howard, as well as Mr. Smith, is no stranger to the office. He served as deputy collector under C. Y. Osborn, on the death of his superior he filled out the unexpired term. He will be a valued assistant to Mr. Smith and his appointment will be received with general satisfaction. A week ago yesterday Mr. Howard was bereaved, his wife dying at Ypsilanti after but a brief illness, and with the congratulations over his new appointment, sympathy in his great loss will be intermingled.

FOR STOMACH TROUBLES.

"I have taken a great many different medicines for stomach trouble and constipation," says Mrs. S. Geiger of Dunkerton, Iowa, "but never had as good results from any as from Chamberlain's Stomach & Liver Tablets." For sale by The Stafford Drug Co.

Wrinkles are smoothed away by its healing touch. Brain tired and depressed people will find a cure in Rocky Mountain Tea. 35 cts. Stafford Drug Co.

Foley's Honey and Tar cures the cough caused by attack of la grippe. It heals the lungs. Sold by People's Drug Store.

OLD BROCTON WINE.

Can be procured at Stafford Drug Co's store. (10-19-11)

LIGHTS CHEAPER NOW.

Cut Rates in Effect on Gas and Electric Illumination.

The reduced, experimental rate made by the electric light commission for lights burned at residences went into effect Saturday and will be continued for the balance of the month at least. The change is a uniform one of seven cents per thousand kilowatts. Under the old arrangement, a scale ranging from ten cents to five was in force, the charge to consumers depending on the amount of current used, as follows: Fifty thousand kilowatts or under per month, ten cents; from 50,000 to 75,000, nine cents; from 75,000 to 100,000, eight cents; from 100,000 to 125,000, seven cents; from 125,000 to 150,000, six cents, and all over 150,000 five cents.

A glance at the records shows that the great bulk of the consumers have been paying at the rate of ten cents and many others at nine and ten, leaving but very few of the patrons of the municipal plant who have had the advantage of the five, six and seven-cent charges. To strike an average showing the extent of the reduction under these conditions, is rather a hard proposition without going into all the figures in detail, but it is safe to say that it is about twenty-five per cent—probably a little more.

Of course, under the new plan the largest consumers will this month pay somewhat more for their lights, while the cost to those not using as much of the current will be a very material cut—thirty per cent where ten cents have been the rate; and nine-tenths of the patrons of the plant have been paying at that scale. These can now afford to burn 30 per cent more light during the month without an increase being shown in their bills.

New Gas Charges.

The cut rates made by the gas company are also in effect this month—in fact, they have been ever since the last readings of the meters were taken, which task was started about a week ago and was practically finished Saturday. Two dollars per thousand cubic feet, with a discount of two cents per hundred feet if the bills were paid before the 10th day of the next succeeding month, have been the old rate. This figured up, providing the bills were settled promptly, \$1.80 per thousand both for illuminating and fuel purposes. The new charge is, for gas for lighting purposes, \$1.60, and for gas used for fuel, \$1.35, both rates being subject to a discount of 10 cents per thousand feet under the old conditions, making the net charges \$1.50 and \$1.25, respectively.

Where patrons have gas ranges installed, or in other houses where considerable gas is used for cooking or heating purposes, separate meters will be set in place at the company's expense, discretion as to this being left in all cases with Superintendent Hill. In houses where "hot plates" are in service and where, in the opinion of the management, the consumption of gas for fuel is so small that it does not really call for the company going to the expense of supplying the separate meters, patrons will be able to have the advantage of the cheaper rate by paying for the piping and its installation at the actual cost to the company.

DEPOSITING BY MAIL.

Send your deposits by Bank draft or check or by postal or express order.

Should this be your first deposit, we will send you a pass-book by return mail. We will also send you full information concerning future deposits and withdrawals.
