BILL FOR REPEAL OF WAR TAXES

END OF WHAT PROMISED TO BE AN EXCITING CONTEST.

Representative H. C. Smith Introduces a Bill In Line With Sentiment of Michigan Delegation to Protect the Beet Sugar Industry.

Washington, Feb. 17.—The unexpected appened in the house today when the bill for the repeal of the war revenue taxes was passed unanimously without a word of debate. This action was the outcome of a challenge thrown down by Representative Richardson of Tennessee the minority leader, after the adoption by a strict party vote of a special order or the consideration of the bill, which all opportunity to offer amendments exept such as had been agreed upon by the ways and means committee.

Stormy Debate Took Place.

The adoption of the rule had been prereded by a stormy debate, in the course | 050 was paid at a sale in this city. Representative Babeock said he suported the program on the ground that the issue presented for the repeal of the war revenue taxes should not be complicated with other matters. At the same time he gave notice that he should press his own bill at the first opportunity.

120 Representative Richardson, to em phasize the fact that debate on the bill could accomplish nothing, and that deliberation upon it would be fruitless. asked for unanimous consent that the bill be placed upon its passage. Not an objection was voiced and a vote was taken forthwith. Every vote, 278 in number, was cast in the affimative and thus quietly and unanimously came an end of what at one time had promised to be one of the most exciting contests of the session.

Sharp Exchange of Words.

Speaker Henderson and Representative Richardson had a sharp exchange al strike to a vote of the various labor during the discussion on the rule governing the debate on the war revenue bill over a point of order, which the speaker sustained. The speaker said hat a similar ruling had been made by peakers Reed and Crisp, and during the city was on the verge of a name ist congress by himself.

"But subsequent to Speaker Crisp's ruling Speaker Reed reversed the rul ing," said Richardson

"I sustain the ruling of Speaker Crisp," returned Henderson, smiling, Richardson appealed from the decision but the appeal was laid on the table by a vote of 165 to 125. The rule was then adopted by a vote of 158 to 120. Richardson then sprang a surprise b isking for the "unanimous consent that the bill be put upon its passage now.' (Applause on both sides).

With Saturday came the close of the life of the industrial commission, created several years ago by act of congress and charged with the task of investigat ing industrial conditions and reporting the result of its researches to the body that called it into being. The commis sion lived its life out to the last day, and has submitted a set of columinous Send 21 one-cent stamps for the book in and practically worthless reports, which will be filed away, but not for "future reference," as nothing more will be heard of them. The work of the commission cost the country a large amount of money and is utterly valueless, but its members had a nice, easy job while it lasted, so the act of congress which created it was not entirely a piece of useless labor. The only trouble with our government is that it isn't strong enough and rich enough to take care of all the people as well as it does of a favored few who manage to acquire special claims on the party in power and know how to urge them.

CLEWS IS OPTIMISTIC.

For some considerable time past Henry Clews, the Wall street banker, has inclined to the belief that values would have to find a lower level before there could be any marked improvement in the market for speculative securities. But in his weekly letter of Saturday analyzing the business situation with reference to stock market movements, he abandons his former attitude and takes a decidedly optimistic view of the outlook. He backs his new position with statements of fact that cannot be successfully challenged, and his presentation of the market situation is so eneouraging to those who have been hoping for an upward turn without much months to sustain them that it is given for their benefit:

There is every evidence of strong in side support being given the market and prices have shown greater strength in consequence. For weeks past it has been an open secret that the big leaders were committed to the bull side of the market, and were simply awaiting favorable conditions for assuming the initiamore favorable to their operations than Receives deposits in sums from \$1 upward. at any time since last summer's adall had their effect in checking speculation on the stock exchange. Such a series of heavy disasters in ordinary times would have precipitated a panic of the sharpest character; that they did not do so is emphatic proof of the general soundness of the financial situation. These difficulties have imposed a test to the market that leaves it in a much stronger position than would have been the case had the rise gone on without interruption. I was among those who would have liked to have seen prices touch a lower level in order to broaden the market and invite fresh buying. This, however, it persistently refused to do. A good deal of quiet liquidation has taken place since last July, which has been very painful to over-enthusiastic operators for the rise, but leaves the sitnation under stronger and better control. Weak holders have been pretty thoroughly eliminated and the stubborn resistance to bear attacks has complete ly suppressed all aggressiveness from that quarter. The technical situation therefore lends itself readily to upward

RED BLOOD

Pure Blood the Greatest Necessity of Life.

We Know Vinol To Be A Wonderful Blood Enricher.

You can't have a healthy house witha clogged up sewer. The blood is the flushing fluid of the system. When it is impure it ceases to carry off other impurities from the vital organs. What is worse it imparts its

own poisons to the lungs, the kidneys, the liver, etc. Those with rich pure blood know no ill health.

In all of our experience we have never met anything better than Vinol for thoroughly purifying and enriching the blood. Vinol contains in a highly concentrated state just the elements that are needed to enable the blood to take from the stomach those properties it needs for enriching itself and reconstructing the body. It also enables the blood to get rid of the impurities it absorbs from the different vital organs in its circulatory action.

Are you neglecting your health? THE PENALTY OF NEGLECT

IS THE SAME AS THE WAGES OF SIN. SMITH'S GREEN MOUNTAIN RENOVATOR SHOULD BE TAKEN PROMPTLY BY EVERY SUFFERER.

If you are merely existing, we want to have a few earnest words with you.

The numbers of people who really live is small compared with the vast number that merely exist.

Some people seem to think that if they feel able to get around and attend to their usual duties they ought to be thankful. As a matter of fact, it is the solemn duty of everybody to be entirely well-to feel the blood of health dancing in the veins and the vigor of perfect strength in every member of the body. Such a happy condition is possible only when every organ is doing its work properly and there is a consequent harmony of all the functions and a full supply of pure blood.

Any piece of mechanism, particularly one so delicate as the human body, will surely get clogged up at times and thrown completely out of gear.

a You know very well what the symptoms are. You know, too, that troubles of the liver, kidneys and stomach are responsible for your condition. You know you need cleaning out and fixing up generally. Smith's Green Mountain Renovator is what you need. It will do the work better, quicker and keep you well longer than anything else.

This celebrated remedy is made solely of roots and herbs and is, therefore, perfectly harmless. It is the great body-builder of all medicines. Those who use it have strong nerves and muscles and never have to take any other kind of medicine.

In Vermont, where it comes from, it has been everybody's medicine for a quarter of a century, although never advertised until it was bought by its present owners and placed on the general market through agents.

Its former makers were satisfied with the steady custom of Vermonters—with the fact that no other medicine could take its place with those who knew its merits.

" I am telling all my friends about SMITH'S GREEN MOUNTAIN RENOVATOR. It has certainly done wonders for me. I have been completely run down, nervous and weak, besides suffering with a sore on my ankle-the result of impure blood, I am on my fourth bottle and feel like a new woman, and my ankle is healing finely. I know that the Renovator will do as much for others as for me, and I recommend it strongly to all who are weak and sick.

" MRS. C. REESE, 19 Park St., Norwalk, Conn."

Everybody is invited to try this medicine at our risk. Give it a trial and note the results. If you are not benefited, you can have your money back.

FOUR OF A KIND.

Quartet of Traveling Men Give the City | Declares That He Is Out of the Race

Iron street was the scene last Friday morning of a little comedy which amused the early risers among the busiless men on that street not a little. When the 7:35 train from Marquette arrived at the South Shore depot, four traveling men, all in the same line of trade alighted and started down town. They have all made this territory beore, and were personally well acquainted, and as they left the train in comoany they realized that there was to be scramble for business.

Following the maxim that it is always well to know what your opponent is do-ing, they "hooked on" to one another and traveled down the street in the

warmest apparent friendship.

When they reached Wasmuth's "refreshment parlor," they decided to have
a "smile." One, however, demurred. and he remarked:

"You fellows can suit yourselves, but am going up to the Breitung and get this time."

The other three went into Wasmuth's and ordered a drink. Believing that he fourth man was safely lodged at he Breitung for at least thirty minutes they devoted their attention to outwiting one another. Each one was deter rined not to allow the other two to et away to work for trade until he was too well "enthused" with "hard tuff" to be a formidable antagonist, so e after another bought for the trio. Meanwhile the fourth man had has-

ned to the hotel, registered, and imediately started down the street. While his companions were buying frinks for each other, and each was trying to empty his glass into the cuspi-dors without the others detecting the trick, he was hastening from store to store and rounding up all the trade he ould while the coast was clear.

It was not long, however, before the ther three broke away from their musement, and when they discovered that the fourth man had been at work or some time they set in to make up for lost opportunities. Into one store and out again, only to dive into another with desperate haste, the four knights of the grip hustled along the street, while a few of the business men who were "on" stood on the store steps and watched the game with smiles, and ocasional laughter, as one of the quartet would manage to head another off by a nose in getting into a new place.

Doubtless the order books of the four tell how they came out, but none of them were willing to impart the information. They were good natured throughout, just the same, and when they went out of town three of the four went together and were apparently the best of

KELLY'S LADY MINSTRELS.

Negaunee was billed yesterday for the appearance of Kelly's Lady Minstrel as been playing to excellent business wherever it has appeared, and that it presents a refined performance, with new jokes, lots of fun, a host of pretty girls and comedians whose humor is refined and amusing. Kelly's Minstrels is not a burlesque troupe, such as appears to audiences of "men only," but a company of ladies and gentlemen who give an entertainment of refinement, in no manner objectionable to ladies and children Fun there is in generous measure, but nothing vulgar or approaching vulgarity s permitted on the program. The comany should play to excellent busines Friday evening, and if the past record s maintained McDonald's Opera House will be filled to its capacity

RETAIL CLERKS ORGANIZE.

Success marked the meeting last evenng for the organization of the new Re ail Clerks' union, and the new organiation was launched with a large membership. Miss Emma Lamphere of Galesburg, Ill., had charge of the work, assisted by Ed C. Thomas of Ishpeming. deputy state organizer. The meeting was attended by a number of members of the Ishpeming Retail Clerks' union, who came over by sleigh. After the neeting there was a social session, and refreshments were served to all under the auspices of a committee of the Negaunee clerks, and the ladies on the ommittee acquitted themselves of their ask most creditably. The new union pes to succeed, and starts out with oright prospects. The first task will be to carry the early closing movement to a successful issue, which the members elieve they will be able to do.

"All of three days have passed since session of only about half an hour, dur- way from Marquette to the city at the quette, and bear out its statement nade recently, that General Manager Fitch was simply having fun with the Duluth newspaper gang, we state here ositively that upon the occasion of Emmet H. Scott's visit to Marquette. toward the end of January, the South Shore signed a new lease for a year of its general offices in the Nester block, Marquette, owned by Morrison & Scott ion, the "Michigan Topics" writer of of LaPorte, Ind. The lease was effect tive about February 1st and effectually disposes of the question of any immeliate change in the location of the headquarters of the South Shore road, at which the people of the entire upper peninsula will feel deeply gratified."

The fact that the lease had been igned was made known by Mr. Scott at the time of his visit and came to the ettention of The Mining Journal. The natter was not published, however, despite that the report was current in everal quarters, because it would have violated a confidence which the Gazette article has now dispelled. It should be added that were The Mining Journal to take cognizance of all the various stories many an article of interest, if not true. It prefers to wait, however, until Mr. ment to make and will confine itself to the republication of the various reports gaining currency in the outside press.

U. W. and Hotel Teams to Play Third Game of the Schedule.

This evening at the Casino rink the seball teams of the Workmen and the Jucen Cit, Hotel will meet in the third game of the city league schedu Neither of the clubs has yet won a conest, having been pitted against the strong Maccabee and Beaver aggregaions, and thus now stand tied for last place. For that reason it would appear that the chances of victory are well balanced, but as since its last appearance the A. O. U. W. team has undergone a complete reorganization and the players on the hotel nine have been shifted about, the "fans" are somewhat at sea as to just what the result will There is no question that each of the teams has been bettered in consequence of the changes, and the game this evening should be interesting. It will be commenced at 8:30 o'clock.
