PRESCRIPTIONS..... NEVER ALTERED.

It does not make any difference what your physician prescribes, if you will bring the prescription to The People's Drug Store you get exactly what is specified. There is never a thought in our mind of substituting, or altering the prescription in any way whatsoever. We know that the doctor has a reason for prescribing just what he does, and we follow the prescription exactly.

In fact, we believe that the work of the physician is often defeated, and the patient made to suffer, because a mania for cheapness leads some druggists to substitute drugs of inferior quality for those prescribed. We invite you to bring prescriptions here. Our prices are always close.

ON SCHLEY VERDICT

PRESIDENT VIRTUALLY UPHOLDS DECREE OF COURT.

TAKES MIDDLE GROUND, HOWEVER HIS VIEWS ON APPEAL SMACK OF A COMPROMISE.

Nothing Done in Battle That Warranted Any Unusual Reward for Either Admiral—Brooklyn's "Loop" a Bad Move.

Washington, Feb. 19.—The president today made public his views on the Schley appeal. He is satisfied that on the whole the court of inquiry did substantial justice. He should have specifically condemned the failure to enforce an efficient night blockade at Santiago while Schley was in command, but on the other hand, says the president, "I feel there is reasonable doubt whether he did not move his squadron with sufficient expedition from port to port."

"The court is unanimous in condemning the retrograde movement and disobedience of orders and the misstatement of facts. The majority of these actions occurred five weeks before the battle, and if Schley is censurable he should not have been left second in command under Sampson. His offenses were in effect condoned when he was not called to account for them. Sampson's allusion to his reprehensible conduct" was in the report after the fight. If Schley is guilty, Sampson should not have left him as senior officer of the squadron. Schley (Sampson) steamed away on a proper errand of communication with Shafter.

Court Acted With Propriety.

"Regarding the battle, the points are which was in command and which is entitled to credit. The court, while it could have considered both questions, acted with entire propriety in not expressing an opinion on these points. It is a point upon which Schley in his appeal lays the most stress. Five-sixths of the appeal is devoted to this question of command and credit. It is in effect an appeal from the action of President McKinley three years ago when he sent in recommendations for the promotion of various officers connected with the Santiago campaign, basing these recommendations upon the estimates of credit to which the officers were respectively entitled.

"What I have to decide, therefore, is whether or not President McKinley did an injustice in the matter. This necessitates a comparison of actions of the different commanders engaged. The exhaustive official reports of the action leave little to be brought out anew; but as the question of Sampson's right to be considered in chief command, which was determined in his favor by President McKinley and later by the court of claims, has never hitherto been officially raised, I deemed it best to secure the statements of commanders of the five ships (other than the Brooklyn and New York) which were actively engaged in the fight."

The president then cites the statements of the various commanders; also Admiral Philips' magazine article on the fight. These are substantially the same as were published during the hearing before the court of inquiry.

Question of Command.

"The question of command is in this case," says the president, "nominal and technical. Sampson's ship was seen at the outset of the fight by all the others except the Brooklyn. Sampson was actually under the fire of the forts and himself fired at the close of the action. But during the action not a single order was received from him by any of the ships engaged. The battle was fought on the standing orders of Sampson as to what should be done. The enemy's ships attempted to come out. Until the close of the first portion of the fight at the mouth of the harbor, and until after Schley had made his loop and the Spanish ships were fleeing to the westward, not another American ship noticed the signal from Schley when the western pursuit was begun; the Oregon only noticed and repeated one of his signals of command. The captain of the Oregon regarded him as in command but did not, in any shape or way, execute any movement or any action of any kind whatsoever in accordance with any orders from Schley.

"Technically Sampson commanded the fleet, and Schley the western division, but after the battle began there was not a movement of any kind made on any ship in obedience to the orders either of Schley or of Sampson. The credit to which each of the two is entitled rests on matters apart from the claim of nominal command over the squadron; for so far as the actual fight is concerned neither one nor the other in fact exercised any command. Sampson was hardly more than technically in the fight. His real claim for credit rests upon his work as commander-in-chief; upon the excellence of the blockade; upon the preparation of the squadron; upon the arrangement of the ships around the harbor, and the standing orders in accordance with which they instantly moved to attack the Spaniards when the latter appeared. For all these the credit is his.

Brooklyn's Part in Fight.

"Schley is rightly entitled—as is Captain Cook—to the credit of what the Brooklyn did in the fight. On the whole she did well, but I agree with the unanimous finding of the three admirals of

(Continued on Page Four.)

ATTACK ON CASTRO EXPECTED.

Governor of Panama Fears No Trouble From Insurgents by Sea.

Panama, Feb. 19.—Two deserters from the forces under the command of the liberal general Herrera succeeded in arriving here yesterday and bring valuable news to the government.

The deserters were formerly government soldiers who were made prisoners at Tumaaco last year and who embraced the first opportunity for leaving their captors. They verify the report previously circulated that the liberal gunboat Padilla is unable to maneuver on account of the shots received from the government gunboat Boyaca in an engagement of Agua Dulce, Feb. 12. They also say the Boyaca was prevented from further attacking the Padilla by the use of strong liberal batteries placed in the advantageous position on the shore.

As the governor of Panama fears no trouble from the insurgents by sea, he is sending reinforcements to General Castro, who, it is believed, will be attacked by the liberals this week.

Senor Abadia Mendez, formerly minister of foreign affairs at Bogota, said today to the Associated Press that the government, having pacified most of the republic, intends actively to end the revolution on the isthmus, where it is sending 2000 more soldiers. Senor Mendez predicts a second "Palo Negro" in the liberal camp in a former revolution, the insurgent forces were routed by the government.

SAW WILL UNSIGNED.

Valet Jones Gives Important Evidence in Patrick Trial.

New York, Feb. 19.—Charles F. Jones was the star witness in the Patrick trial again today because of the fact that he was the "closest person to Millionaire Rice" in the latter days of his life and that he can time estimate it was he who killed the millionaire by administering chloroform at, as he said, the instigation of Patrick.

It was late in the afternoon when Jones touched upon what the state seemed to think very important evidence. It was when Jones testified that he had in 1900—the so-called Patrick trial—previously testified that Morris Meyer and David L. Short had been introduced into the Rice house to make out certain papers. Short acting as notary for Meyer, Jones now swore Patrick told him that when he (Jones) first saw it the will was unsigned. Then he swore that the only law business Patrick ever did for Rice was to pass on the correctness of some document of Rice's and that at Jones' request, he swore that to his knowledge Rice had never signed the will in his lifetime.

It was on June 30, 1900, he had sworn this will in Patrick's office two weeks before Rice died and it was assigned then. Rice died Sept. 25, 1900.

On the point of Patrick's alleged preparation to remove any obstacles to the will, Jones said Patrick explained that the legacies under the will were designed to remove the possibility of such opposition, and that Patrick had gone over each paragraph of it with the witnesses.

CUBA'S NEEDS DISCUSSED.

Resolution Endorsing Reduction in Existing Duties Adopted.

New York, Feb. 19.—Cuba's needs and what this country should do to prosper the people whose freedom it accomplished, were set forth tonight at a meeting in Carnegie Hall by prominent speakers of both parties.

Resolutions were adopted endorsing a reduction of at least 50 per cent. in existing duties on Cuban products in return for equal concessions on the part of Cuba on products imported from this country.

General Steward L. Woodford, who was ambassador to Spain before the war, presided. The speakers included Edward M. Shepard, Edward Lauterbach and W. Bourke Cockran.

ARBITRATORS IN SESSION.

First Meeting of Committee of Thirty-Six Held in New York.

New York, Feb. 19.—The first meeting of the arbitration committee of thirty-six, appointed through the National Civic Federation to arbitrate the labor troubles, was held today with Senator Hanna in the chair. The meeting was an executive session. Nearly all the members of the committee were present. The object of the gathering was to receive the report on the working plan by which strikes, lock-outs and other forms of disputes between capitalists and workmen, may be dealt with.

BOOKMAKERS ARE TRICKED.

Error Made by Ticker Is Not Corrected for Fifteen Minutes.

Chicago, Feb. 19.—Men here who made bets on the New Orleans races are said to have been tricked out of \$20,000 to \$30,000, it is reported. Modern, the winner of the fourth race and the event was won by Frank Rice. Modern being unplaced. The correction was not made for fifteen minutes. In the meantime the bets on Modern had been paid. When Rice was shown to be the winner the books had to pay again.

GUILTY OF MURDER.

Mount Airy, Ia., Feb. 19.—The jury in the Hunter murder case today returned a verdict of guilty in the second degree. Hunter shot Homer Holland, the champion college athlete of Iowa, Nov. 9 in a quarrel over money lost at gambling.

VALUABLE TROTTER SOLD.

Toledo, O., Feb. 19.—J. T. Barber and R. E. Messenger today sold Susie J. a trotter with a mark of 2:10 1/4, to Malcolm Forbes of Boston, for \$8,925.

BURROWS ON TARIFF

MICHIGAN SENATOR TALKS ON PHILIPPINE BILL.

UPHOLDS GOVERNMENT'S POLICY

SENATOR MONEY SPEAKS STRONGLY AGAINST MEASURE.

Issue Raised by Representative Wheeler Comes In for More Attention and Is Feature of the Session in the House.

Washington, Feb. 19.—The senate continued the consideration of the Philippine tariff bill today, the main speeches being made by Senator Burrows of Michigan, for the bill, and Senator Money of Mississippi, against it, although Senators Mitchell of Oregon, Foraker of Ohio, Mallory of Florida and Tillman of South Carolina all took more or less part in the general debate on the subject.

Several Lively Exchanges.

Senator Burrows maintained that congress was dealing with the question as it was today and not with any reference to what took place in the past or might take place in the future. He maintained that United States occupancy of the islands was with due regard to international obligations.

Senator Mallory spoke particularly in favor of his amendment to that portion of the bill relating to the navigation laws, and said it was necessary in the interest of American shipping.

Senator Money maintained it was not so much a question of what could be done with Filipinos as it was to legislate in the interests of our own people. There were several rather lively exchanges between Senator Foraker and the opposition senators during the debate.

INDIAN APPROPRIATION BILL.

Again today the general debate on the Indian appropriation bill in the house was devoted almost entirely to extraneous topics. As on yesterday, the issue raised by Representative Wheeler of Kentucky a few days ago came in for considerable attention and was the feature of the session.

Representative Brownwell of Ohio (Republican), Kern of Illinois (Democrat), and Fleming of Georgia (Democrat) added their views on the subject, but it was Representative Boutelle of Illinois (Republican) who entertained the house the most. He was well fortified with material and with exceeding good temper and a trenchant display of wit he traced the history of what Representative Wheeler had called "truculent sycophancy," as he said, from the day when the first of the Democratic presidents purchased a bogus coat of arms, to the entertainment of Queen Liliuokalani by the last Democratic president. He finally dismissed the whole subject by saying it should be accepted abroad as one of the "erratic and sporadic phases of American humor."

HAMILTON ON TRUSTS.

Representative Hamilton of Michigan (Republican) entertained the proceedings with an entertaining speech on trusts. Other speakers were Representatives Little of Arkansas, who discussed conditions in the Indian territory; Corliss of Michigan, who spoke on the Pacific cable; Stephens of Texas, on statehood for Oklahoma; Sulzer of New York, on increased pay for letter carriers; Fitzgerald of New York, on the education of Indians; Jackson of Kansas, on the election of senators by the people, and Newlands of Nevada, on the bill to redeem silver dollars in gold.

RETAILERS TURNED DOWN.

Northwestern Lumbermen Given a Severe Jolt by Mississippi Association.

Minneapolis, Feb. 19.—Overtures from the Northwestern Retail Lumbermen's association were given a severe jolt by the Mississippi Valley Lumbermen's association today and as a result the retailers, for a strict reinforcement of the agreement between the two associations, and the suggestion that a joint committee be appointed for the adjustment of differences, were both turned down. The manufacturers are willing to remit 10 per cent to the retailers in towns where there are no lumber yards, but they refuse to discriminate against small dealers outside the association.

The principal feature of the new constitution is an amendment providing for the assessment of manufacturers on the amount of lumber manufactured at the mills rather than on the amount of the sales.

With a few exceptions the old officials and members of the committee were continued in office. The officers are:

President, Sumner T. McKnight, Minneapolis; first vice president, R. L. McCormick, Hayward, Wis.; second vice president, L. C. Colman, La Crosse, Wis.; treasurer, H. C. Akeley, Minneapolis; J. E. Rhodes was re-elected secretary by the board of directors.

LOSS ON SANITARIUM.

Battle Creek, Mich., Feb. 19.—Revised estimates today place the loss on the building in yesterday's fire, which destroyed the Adventist sanitarium, at \$400,000; insurance \$150,000. The estimated losses to patients and guests in personal effects and jewelry was \$500,000.

MILLIONS IN BIG COMBINE.

Pittsburg, Feb. 19.—The Post publishes plans of a rumored consolidation of Pennsylvania, Ohio, West Virginia and Illinois coal interests, at a capitalization of \$30,000,000, a rail combine at \$4,000,000, and other corporations in a merged total of \$250,000,000.

REIGN OF TERROR PREVAILS.

Many Are Killed and Wounded in Riots at Barcelona.

Madrid, Feb. 19.—A reign of terror prevails in Barcelona. The striking printers threaten death to any of their comrades daring to resume work. There are many cases where armed strikers concealed themselves and "sniped" the troops.

At Sanmartin the strikers fired from the rooftops. The troops thereupon fired at the balconies, killing a woman and a child. In one conflict in the center of the town five men were killed and three wounded. The owner of a factory was stabbed and killed by the strikers. It is alleged that already 200 persons have been killed and 100 wounded in Barcelona, but the authorities conceal the real figures.

The strikers assemble on railroad bridges and fusillade trains with stones. They threaten to use dynamite unless the railroads stop running their trains.

OCEAN LINERS IN RACE.

Contest Between Campania, St. Louis and Kron Prinz Wilhelm.

London, Tuesday, Feb. 20.—The Mail asserts that the Cunard liner Campania and the American liner St. Louis are racing the North German Lloyd steamer Kron Prinz Wilhelm, with Prince Henry on board, in an international contest to New York. The Campania left Queenstown Feb. 16 at 6:45 p. m., the St. Louis left Cherbourg Feb. 15 at 5:25 p. m., and the Kron Prinz Wilhelm sailed from the same port at 1 p. m. on Feb. 16. To equal the best previous westward records the Campania should arrive at Sandy Hook at 11:16 p. m., Feb. 21, the St. Louis at 2:20 p. m., Feb. 22, and the Kron Prinz Wilhelm at 7:45 a. m., Feb. 22.

MISS STONE IS NOT FREE.

Reports as to Release of Missionaries Without Foundation.

Constantinople, Feb. 19.—The reports of the release of Miss Stone are absolutely without foundation, although her liberation is expected momentarily.

Washington, Feb. 19.—The state department's advice concerning Miss Stone indicate that the Paris publication to the effect that she was set at liberty is, to say the least, premature. It is rather, however, from the reports of the United States diplomatic agents, that the woman is likely to be released very soon.

SAYS TREATY IS UNJUST.

President of Spanish Council Objects to Friendship Agreement.

Madrid, Feb. 19.—In the senate today Senor Sagasta, president of the council, referring to the negotiating of the treaty of friendship with the United States, said it was unjust that Americans should be able to become landed proprietors in Spain while Spaniards were excluded from the same privileges in the United States.

Senor De Equizur, vice president of the senate, pointed out that all treaties required ratification by the chamber, in which statement Sagasta concurred.

BANKERS MAKE STATEMENT.

Everett-Moore Committee Announces Sale of Traction Lines.

Cleveland, Feb. 19.—An official announcement was made by the bankers' committee of the Everett-Moore syndicate today concerning the sale of the Akron-Akron and Canton-Massillon urban and inter-urban traction lines. The loan has been formally closed and the properties will be transferred to Tucker Anthony & Co., of Boston within a few days. The transaction involves \$2,500,000.

KILLED BY FALLING WALL.

Two Firemen Meet Death in Fire at Milwaukee.

Milwaukee, Feb. 19.—Two firemen are dead and two seriously injured, the result of the falling of a wall of the plant of the George H. Smith Steel Casting company, which burned tonight. The loss is \$100,000, partly insured. The dead are: Christ Matteson, Truck No. 2; Edward W. Kinsella, pipeman, Engine No. 3.

The injured: Max Belsky, leg broken; Joseph Kenney, eye broken.

INSURGENT BAND SURRENDERS.

Filipinos in Batangas Province Virtually Starved Into Submission.

Manila, Feb. 19.—What is believed to have been the largest existing band of insurgents in Batangas province surrendered yesterday to Lieutenant Charles D. Rhodes, of the sixth cavalry, at Barin. Major Amoranto, two captains, six lieutenants and ninety-eight Filipino soldiers gave themselves up. They were virtually starved into surrender.

TAYLOR TRIAL NEARING END.

Case in Connection With Water Scandal May Go to Jury Saturday.

Grand Rapids, Mich., Feb. 19.—The prosecution rested its case this afternoon in the trial of Henry Taylor, the astute capitalist charged with conspiracy to bribe in connection with the recent water scandal here. The defense rested without offering a witness. The case will probably go to the jury Saturday afternoon.

Grand Rapids, Mich., Feb. 19.—The prosecution rested its case this afternoon in the trial of Henry Taylor, the astute capitalist charged with conspiracy to bribe in connection with the recent water scandal here. The defense rested without offering a witness. The case will probably go to the jury Saturday afternoon.

Family cares and duties do not weigh down the well woman, and the children are never in her way. But when the womanly health fails, and there is a constant struggle with weakness and pain, household duties are a burden almost past bearing, and children are a ceaseless annoyance and worry.

Weak women are made strong and sick women are made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries disagreeable humors, heals inflammation and ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter free. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I had been ailing some time, troubled with female weakness," writes Mrs. Wm. H. Johnson, of Avondale, Chester Co., Pa. "Every month I would have to lie on my back. I tried many different medicines and nothing gave me relief until I began Dr. Pierce's medicines, using two bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery.' These medicines have cured me. When I began your treatment I was not able to do very much, but now I do the work for my family and feel better to-day than I have for a year. I thank you, doctor, from the bottom of my heart, for well do I know that you are the one who cured me."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Dr. Pierce's Pleasant Pellets are the best laxative for family use.

CHARTER N. J. 390.

First National Bank Of Marquette, Mich.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00. Per year, by mail, \$6.00.

MARQUETTE, MICH., FEB. 20.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

WHY ALL THIS AGITATION?

We are yet a good way off in point of time from the state convention which will name the candidates for state officers whom the Republican voters of Michigan will be asked to support in the next state election. The administration now in power is doing its work smoothly. The men composing it are attending faithfully to their duties. No great interest of the commonwealth is suffering because of lack of capacity or inattention to duty on their part.

Yet there is a desire manifested in some quarters to open the campaign for the gubernatorial nomination untimely, the object of this being plainly the retirement of Governor Bliss at the close of the term he is now serving.

What is the necessity for urging this question of the governorship on the attention of the voters so persistently at this early day? Governor Bliss may have made some mistakes, but on the whole his administration has been fairly satisfactory to the people of the state. It cannot be said of him that he is stiff-necked and opinionated, or that he is endeavoring to force the party to adopt faddish policies of which he has become enamored. He may be open to criticism for errors of judgment, but when we have had a governor who was able to please all the people all the time? Would it not be "good politics" to postpone until a more fitting time, when the people will naturally interest themselves in a consideration of the candidates for state officers, discussion of his claims on the party and fitness for the office to which they elected him in the fall of 1900? The voters are not in the mood to fix their minds on political problems now. Why keep urging them to take these up prematurely, and thus force on the party ahead of the proper time a controversy that should not be made unnecessarily protracted and bitter?

We make space for the appended article on this subject which recently appeared in the Bellevue Gazette, the tone and temper of which we are inclined to approve, though The Mining Journal is not committed to the candidacy for a second term of Governor Bliss. This paper holds, however, that the governor is entitled to fair play and fair treatment from the party that two years ago regarded him as being quite fit to be governor and asked the people of Michigan to elect him to that position on the strength of the endorsement it gave him by the action of its state convention. Taking note of the attacks now being made on him, the Bellevue paper says, with force and point: "Looking at the matter from a perfectly unprejudiced and unbiased standpoint, we are convinced that the attacks upon the administration of Governor Bliss are exceeding ill-timed and wholly unwarranted, and can do nothing else than work great and lasting injury to the party."

We want it very distinctly understood that the editor of this paper has no political axes to grind, nor is he even craving the job of turning grindstone. He seeks no further political honors, but does desire political harmony, unless there is a valid cause for ignoring party precedents and smothering the ties that have bound us together.

We are astonished, to say the least, that such solid papers as the Jackson Citizen should endeavor to furnish shot and shell for the enemy, after Editor O'Donnell has been so many times honored by his party. We are likewise grieved politically to see the course Marshall Cook, of the Hastings Banner, a member of the state central committee, and a man of (heretofore) solid sense and judgment. He should certainly counsel concord instead of conflict. When it comes to Editor Reid, of the Allegan Gazette, we should be almost disappointed if he didn't criticize any administration. We verily believe Brother Reid will want to move a change in the administration of affairs in the New Jerusalem, when he sees fit to quit this mortal coil. There are a few other smaller fish who are trying to lash the political sea, but so far as can be observed they are only wearing out their fins.

Now let us look at the facts. Governor Bliss did not sign the mortgage tax bill, owing to the legal complications it would invite. He didn't sign a few private appropriation bills, as he didn't want to establish an example of small leaks in the treasury. He refuses to call a special session of the legislature to enact a primary election law that the same set of law-makers refused to pass at a previous session. And we are right here to say the great mass of the people of all parties honor his good sense. These are about the only things there is any kick about, except that our business executive is not a polished platform orator. Right here let us inquire how many public speeches has Senator McMillan made during his splendid career, and is there any one of the governor's defamers who will question the senator's ability as a statesman?

Michigan has prospered and her treasury is plenteous under the present order of things. The state has been orderly from Houghton to Monroe, there has been no conspiracy to defraud the people, and the governor's appointees have all discharged their duties in a faithful and efficient manner.

It is a nice thing to be the ally of a great world power, but little Japan may yet discover that she was better off

alone than as an ally of a nation with so many quarrels on her hands as Great Britain manages to keep in stock.

WESTERN IRON CONSUMPTION.

Noting that another iron furnace is to go in this year at Chicago, Iron and Steel, published in that city, finds in the fact evidence of the steady growth of pig iron consumption in the west. The new furnace will be built by parties not allied with the owners of steel mills, that paper goes on to say, hence its product will be foundry and not Bessemer iron. Its construction would not have been undertaken were it not that, looking a great way ahead, there seemed to be an assured market for the 100,000 tons of metal which the furnace will annually produce. In large measure this assurance comes from the growth of western foundries, a growth in numbers, but more noticeable still a growth in the melting capacities of the old foundries. A pig iron seller who supplies regularly from year to year a number of foundrymen readily perceives during the past three years the large increase in the quantity of iron which these customers are consuming.

Perhaps another reason for the construction of this new furnace is that the steel requirements of the Chicago district have so increased during the past three years that in order to obtain their pig iron material the steel mills have been obliged to encroach upon the producing capacity which has heretofore been devoted to foundry and malleable grades. This condition had become very acute during the past several months on account of the coke famine and melters of malleable and foundry irons have been seriously inconvenienced. Eastern and southern sources furnish a partial supply for this deficit, but so low are pig iron stocks throughout the country and so active the general demand that supplies, additional to the large quantities of southern and eastern irons already sold in this market, were not readily forthcoming.

The important thing is the steady growth of the metal industry in the west, a growth that is only partially evidenced in the increased production of iron in this region.

A Salvation army worker, Blanche Cox, was sent to the house of correction by a Detroit justice Monday for preaching the gospel of Christ, as she understands and believes it, on the streets of that city. If there is a city in the union where the teachings of that gospel needs to be dinned into the ears of the people at all times and in all places that city is Detroit. It didn't take the Salvation army missionary so long to get into jail there as it did the late political boss, Andrews. But, then, it will not take her so long to get out.

The friends of Andrews, the Detroit bank wrecker, have abandoned attempting to bail him out of jail, and the prospect is that he will remain in durance until the case against him is tried. Not a very pleasant thing for Andrews, but he isn't the only person in Detroit who has reason to rue the day he came to that city and started out to make himself the biggest man in it.

It is said that the Republican leaders are considering the advisability of using the speech of Wheeler, the "Kentucky Bourbon," as a campaign document. Democratic speeches have served the Republicans as ammunition in many a campaign, but there was never one delivered more adapted to their needs than that of the Kentucky statesman.

It has got to such a pass between the British and German ambassadors at Washington that they barely salute one another when they meet. Miss Columbia has need to be careful when ardent suitors for her favor are brought to that state of mind through their rivalry.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY, Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

CHILD WORTH MILLIONS. "My child is worth millions to me," says Mrs. Mary Bird of Harrisburg, Pa. "I would have lost her by croup had I not purchased a bottle of One Minute Cough Cure." One Minute Cough Cure is sure cure for coughs, croup and throat and lung troubles. An absolutely safe cure which acts immediately. The youngest child can take it with safety. They all like the taste and remember how often it helped them. The Stafford Drug Co., H. N. Meloche Co., Ishpeming.

COPPER COUNTRY NEWS (Additional)

ACTIVITY AT THE PHOENIX.

Mine Will Enter Producing List of Lake Mines This Year.

In many quarters, the fact that the Phoenix will take a place among the list of regular producing mines within six months will be an agreeable surprise. The greatest activity is in evidence in getting its equipment ready for production. The company will not wait until its new mill is erected to start production, as arrangements have already been concluded by the terms of which temporary possession of the old Wolverine stamp mill together with the locomotive and rolling stock, will be turned over to the Phoenix as soon as the Wolverine starts stamping rock at its new mill. In the meantime the Phoenix people are by no means idle, but on the other hand, are likely to operate their new mill about Jan. 1.

The mill site is cleared off, and next week ground will be broken for the foundation walls. The building will be provided with one head, capable of treating 500 tons of rock every twenty-four hours. The equipment will include eight Overstrom concentrators. A large force is engaged in constructing the railroads, which will be about two and a half miles in length, with a maximum grade of two per cent. A better idea of the grade is given from that but 18,000 yards of dirt will have to be excavated.

At the west vein shaft, drifting south is under way at the third, fourth, fifth and sixth levels. At the sixth, which is the bottom level, the lode is the best yet developed; it is five feet wide and carries good copper. Drifts have been extended over 200 feet south at the fourth and fifth levels since the present company took hold of the property. Preparations are being made to drift south from a winze located 800 feet north of the hoisting shaft. The third and fourth levels now offer about 1,100 feet of new stopping ground. The vein rock is soft and easily treated. Regular shipments of mass copper are being made.

At the St. Clair branch, work is being rushed on the new incline shaft, which is being sunk at an angle of 32 degrees. The old workings will be encountered at the fourth level, about 700 feet north of the old vertical shaft. Below the fourth level in the old shaft, a great deal of ground is being opened, while sinking to the eighth level is under way.

The method of handling rock at the Phoenix will differ materially from the custom of the Lake mines. To begin with, there will not be a rock house at either shaft. The rock will be crushed at the mill, after which it will pass to the head through an automatic feed. The mine employs 130 men, and is numbered among the Stanton group.—Hancock Evening Journal.

Copper Gossip.

"Trimountain Mike" was still hanging on yesterday when Trimountain soared to 98. His friends all advised him to sell but Mike was obstinate. He is one of the very few in the copper country who own Trimountain stock. He got it when the price was low.

It is believed that the six Osceola heads now in commission should do as well as the eight Quincy heads in operation. Quincy's production, however, will likely be larger than the Osceola's this year but it is generally conceded that the Osceola will become the greater producer after this year.

The Mass company will not erect a smelting plant nor a plant to separate the silver contained in its ores until the mine has been fully developed and is a big producer. Next month the second head of stamps at the Mass mill will be in operation. The mine will then ship 700 tons of rock daily to the mill, insuring a monthly product of at least 200 tons of mineral.

HANCOCK TO PLAY OSCEOLA.

The Hancock indoor baseball team will play the strong Osceola team at St. Patrick's hall, Hancock, Saturday evening. The Osceola's are playing good ball this season and have defeated the Lake Linden "Buffalos" and the Calumet Rivals. The members of the Hancock team deny that they ever had any aspirations to the championship of the county. The boys are satisfied that they played a good game with Houghton Tuesday evening, Houghton earning but three of the eight runs. The Hancock team is to be strengthened by several changes.

ORGANIZER TO AID CLERKS.

Miss Emma Lamphere of Galesburg, Ill., general organizer of Retail Clerks' unions for the American Federation of Labor, arrived in Hancock yesterday morning to aid the local union in its work. She will address a gathering of clerks in their new hall in the Scott block at Hancock this evening. Miss Lamphere has a good reputation as a speaker and will suggest lines which the clerks may follow to advantage. She has been engaged in the same work at Chicago for some time but recently has been at Marquette, Negaunee and Ishpeming.

THEATRE PROMOTERS MEET.

Those interested in the Houghton theatre project held a meeting Tuesday evening. Canvassing and building committees were appointed. The members of the building committee are J. P. Jackson, Graham Pope and R. M. Edwards. A meeting of that committee was called for last evening to go over the plans and specifications for the new house. It is understood that most of the money necessary to build the theatre has already been pledged and that the canvassing committee was merely appointed to cinch the subscriptions.

BUCKLEN'S ARNICA SALVE.

Has world-wide fame for marvelous cures. It surpasses any other salve, lotion, ointment or balm for Cuts, Corns, Burns, Boils, Sores, Felons, Ulcers, Tetter, Salt Rheum, Fever Sores, Chapped Hands, Skin Eruptions, Infallible for Piles. Cure guaranteed. Only 25c at Stafford's.

ADVANCE ANNOUNCEMENT

THE PUBLISHERS OF THE MINING JOURNAL

Will within a few days offer a new lot of CASH PRIZES in a

NEW PUZZLECONTEST.

THE PRIZES WILL BE

FREE TO SUBSCRIBERS

to The Mining Journal. The amount of money will be several times larger than that given in last summer's contest, and the number of prizes greater. The scope of the distribution will be as broad as the publishers can make it.

Watch for Future Announcements.

This prize contest will be entered into with the object of bringing about a still closer affiliation between the publishers of this paper and its subscribers, at the same time distributing to the winners very acceptable cash prizes.

SKI JUMPING SATURDAY.

Arrangements Made for a Test of the Skill of Local Experts.

Arrangements have been practically completed for a ski jumping contest between the local jumpers, to be held here next Saturday afternoon at 2:30 o'clock. The contest will be under the auspices of the Ishpeming Ski club, and \$100 will be distributed in prizes. It is probable that four prizes, of \$50, \$25, \$15 and \$10 in cash, will be given. Local skilists to the number of fifteen or more will enter, and the event is expected to attract an immense crowd of ski enthusiasts.

In order that the jumping contest and the long distance ski race may not interfere, the management of the Finnish Athletic club has agreed to start the latter event at 1 o'clock, instead of 2, as originally planned. It is believed that this change will allow sufficient time for the finish of the ski race to enable those who wish to witness both events to do so.

It was not until yesterday that it was finally decided to hold the contest. Word had been received early in the week that the copper country people were arranging to have the local ski club make a trip up there next Saturday. After some correspondence with the Houghton people it was decided that it would be better not to arrange for the copper country trip until later. The Chicago Hockey club will be at Houghton next Saturday, and it was feared that this would detract from the interest in the ski jumping contest.

Exciting Contest Expected.

An exciting contest is expected next Saturday, and if the conditions are favorable the management of the ski club believes that some of the local records will be broken. The local jumpers have been improving very rapidly in the recent practice work, and have steadily increased the distance covered in jumps. It is believed that Gustav Bye will have recovered sufficiently by Saturday to participate, and it is freely predicted that eighty feet may be the new record of the Ishpeming slide on that day.

The management has decided to charge \$1 for seats upon the new grand stand recently erected at the home of the club, and it was feared that this will be cheerfully paid because of the fact that the size of the prizes offered insures that the jumpers will do their best, not only for the sake of the money reward, but also because of the honor which will accrue to those who excel in this contest, the first formal one of the year.

Ribbons will be printed, instead of tickets, and those who purchase the ribbons will be entitled to admission to the grand stand or to the grounds, according to the color of the ribbons given them.

The money realized from the sale of tickets to the ground and grand stand will be devoted to the creation of a fund for the erection of a new club house for the ski club. It is planned to erect a club house somewhere within a mile or two miles of the city, at an expense not to exceed \$500, and in proximity to some hill which will afford a good slide for the members of the club. In summer the club house will be used for picnic purposes.

Copper Country Trip Later.

It is probable that the local skilists will go to the copper country at a later date, and one week from Saturday is the date now being talked of. In addition, the local enthusiasts have not given up the holding of a general jumping contest in Ishpeming some time this winter. Such a contest will certainly be held, when the outside ski jumpers will be asked to come, and a prize list will be presented which will insure the presence of the best jumpers of the north-west.

Everything looks bright for the ski race around the Cliff's next Saturday. As stated, the race will be started at 1 o'clock instead of 2, but otherwise there has been no change in the program. The expert local riders are practicing almost daily now, and while they are keeping their records very secret, it is known that some of them are showing remarkable speed.

Last Sunday Andrew Lind went out on the course two miles to meet a bunch of the fast riders who had started to make the circuit of the course. He met the crowd two miles out, and after asking them how they found the road, he swung in behind them for the return, two miles to the city. Mr. Lind is considered a very fair rider, and he had traveled but two miles while the others had been around the Cliff's ten miles where they met him. Despite this, Lind was astonished to find that he was unable to keep up with the racers, and they left him well to the rear before the end of the run was reached.

Should the conditions be favorable for ski racing, there will be a great contest, and some very fast time will certainly be made. Mr. Lind says that he was astonished at the showing made by the local riders Sunday, and that the race will be the greatest affair of the kind which has ever been held in the upper peninsula.

The Ishpeming Ski club has decided to change the day for the club runs, which have been held weekly for some time past. Formerly they were held on

Exciting Contest Expected.

An exciting contest is expected next Saturday, and if the conditions are favorable the management of the ski club believes that some of the local records will be broken. The local jumpers have been improving very rapidly in the recent practice work, and have steadily increased the distance covered in jumps. It is believed that Gustav Bye will have recovered sufficiently by Saturday to participate, and it is freely predicted that eighty feet may be the new record of the Ishpeming slide on that day.

DON'T LIVE TOGETHER.

Constipation and health never go together. DeWitt's Little Early Risers promote action of the bowels without griping or distress. Live safe, sure, gentle, thorough. Purely vegetable. The Stafford Drug Co., H. N. Meloche Co., Ishpeming.

OLD SOLDIERS ARE THANKFUL.

They Appreciate the Benefit Tendered by the Ishpeming Light Guards.

Ishpeming, Mich., Feb. 18, 1902.

To The Ishpeming Light Guards:

Gentlemen—At our last regular meeting it was voted unanimously to give you our heartfelt thanks—also that our action be published in the city papers—for your successful efforts in our behalf in the production of "The Confederate Spy," and especially for the generous, whole-hearted way in which you carried it out from start to finish.

Our thanks are also due to those outside your ranks who gave assistance.

In one sense we wonder how it is possible that young men of the present day remember with such good will the actions of days that have long passed into history. We feel quite safe in the assertion that scarcely a member, if one, in your ranks had seen the light of day forty years ago. What does it all mean?

We old veterans of that past are not as individuals cutting any very great swath in connection with the push and intense activities of the present day; therefore, there is nothing that appeals very strongly to you in our present relations to the community. What is it, then? Simply this: We believe you have just recognized the significant fact that sacrifice actually made in the interest of a true principle, is always an appeal—and a permanent one—to the kindly and better nature of humanity.

The old soldiers of '61-'65 are passing away at the rate of 30,000 a year; but each of us, as we approach the moment when we are to see the last of earth carry to least one bright spot in our memories that we were a part of the great force that prevented the disruption of our union.

Generous impulses like those you have just shown are healthy signs in the midst of the rush and roar and absorption in purely material interests which now so prevail. Keep them alive young men; they will do you good. Again we thank you.

A. C. WEAD, Commanding Chas. H. Town Post, No. 8, G. A. R., Department of Michigan.

T. M. DAY, Adjutant.

ALLEN-CRAIG NUPTIALS.

Union of Rev. M. M. Allen and Miss Craig Was a Notable Society Event.

The Kentucky Advocate, of Danville, Ky., had the following on the marriage of Rev. M. M. Allen of this city and Miss Lettie Cowan Craig:

"The marriage of Rev. M. Marshall Allen and Miss Lettie Cowan Craig was celebrated Tuesday morning at eleven o'clock at 'Waveland,' the home of the bride's parents, Mr. and Mrs. John J. Craig, near this city. The beautiful ceremony was pronounced by the bride's uncle, Dr. Owsley Goodloe, assisted by Dr. R. G. Ramsay. After a few strains of the bridal chorus from Lohengrin had been played by John Zeigler, the bride, preceded by her sister, Miss Betsey Craig, the maid of honor, and her little niece, Louise Irvine, the flower bearer, entered the parlors on the arm of her father and was met by the groom and his best man, Rev. Alex. Irvine, under the arch separating the rooms. The little ribbon boys, Master John Craig Irvine and Merman Allen, assumed their places, the former at the side of the bride, and the latter beside the groom, and the ceremony was then impressively and beautifully pronounced by the officiating ministers.

"The bride wore a handsome reception gown of blue crepe de chene and pink lace, and her bouquet was of bride's roses. The gown of the maid of honor, Miss Lettie Craig, was of fawn crepe de chene, and the little flower bearer, Miss Louise Irvine, was daintily dressed in pink, each carrying bunches of pink roses. The home was prettily decorated in Southern smiles, and white carnations, and the bride's table, which was very beautiful, was all in red and green. A mound of red tulips ornamented the center and at each of the twelve plates was a silver candlestick trimmed with red ribbons, cut into the shape of the center of the decorations, also held candles. Klein, the famous Louisville caterer, served the breakfast, carrying out the color scheme, red, in the ties, which were in the form of tulips, and artistically hand-painted, designed and executed by Miss Josephine Engleman. The gifts were beautiful and desirable and will be a fit setting for their new home in the Northwest, Ishpeming, Mich., where Mr. Allen pastor of a prosperous Presbyterian church. Mr. and Mrs. Allen, immediately after the wedding for Chicago, stopping there a few days before proceeding to Ishpeming. The marriage was witnessed by only relatives and near friends of the families. Among the out-of-town guests were Mr. and Mrs. W. P. Baker and Mrs. Alvin, of Lincolnville; Rev. Alex. Irvine, Mrs. Irvine and their children, of Bedford, Ind.; Mr. and Mrs. James Benton of Winchester; Mrs. Ella Brainerd, of Lincoln, Ill., and Rev. F. J. Check, D.D., of Paris."

A "STRENUOUS" PASTOR.

An Owsosso dispatch appearing in one of the Detroit papers gives this information about a pastor who once occupied the pulpit of an Ishpeming church:

"Rev. J. P. Varner, pastor of the First Methodist church of this city, has been offered the position of superintendent of all the Methodist churches in Wyoming. He will accept, if his pulpit in this city can be filled. The new position will open up a fine field of work. Mr. Varner formerly preached at Laramie, and he loves the strenuous life of the west. The saloonkeepers of Owsosso will rejoice at his departure, as his strenuousness in the last three years has caused them considerable worry and cost them some money."

While here Rev. Varner attempted a line of reform work which brought him into antagonism with a good many of the people of the city, and because of his peculiar propensity became a target for numerous warm roasts in the Iron Ore. It can hardly be said that he was a popular pastor in Ishpeming, but he was an earnest, if not a sagacious, worker in the cause of compulsory temperance. If he retains his penchant for seeking trouble, as would appear from the dispatch above given, the wild and woolly west offers him an alluring field.

MEETING WAS ADJOURNED.

Peter White of Marquette came up to Ishpeming yesterday to attend the stockholders' meeting of the Lake Superior Iron Company. The meeting was postponed to the 20th, as a majority of the stock was not represented. The postponed meeting will be held on April 23.

A CARD.

Neckwear and Dress Trimmings.

They are the Latest.

J. SELLWOOD & CO.

KELLEY'S FEMALE MINSTRELS.

Will Give Entertaining Performance Monday Evening.

Next Monday evening will be devoted to minstrelsy at the opera house. Thos. P. Kelley's Big Lady Minstrels is an organization of singers, dancers and sketch teams, giving an up-to-date minstrel performance, and one of the most enjoyable evenings of laughable amusement of any minstrel company traveling. They already enjoy a great deal of popularity, and will no doubt be welcomed by a large audience, and after being seen here will number among their friends the theatre-goers of Ishpeming. The Cleveland Plain Dealer, in speaking of this excellent company and its performance, says:

"Thos. P. Kelley's big novelty show, the famous Lady Minstrels, made their initial appearance last night in Cleveland at the Avenue theatre, and caught on with the large audience from the start. As the name indicates, the show is a big novelty, and a relief to theatre-goers, as it contains all new and clever features. The costumes worn by the ladies were stunning, the comedians were unusually clever, while every feature on the bill is clean, refined and up to the minute. It is a very large, clever company, and will no doubt have a record-breaking week."

Reserved seats are now on sale.

MY DIVIDEND PLAN

Is to Divide the Profit With the Customers.

My experience is worth money to the buyers. A long and successful career in the dry goods and clothing lines enables me to do my own buying and I don't have to expend money for experienced help. Money talks and that is the reason why I can buy goods as cheap as any one in the city. I buy large quantities for cash, and sell for cash in all departments. I am looking out for your trade and make lower prices than any other merchant in Ishpeming to get it, which I am bound to do as my prices will some day bring you in my store. Am positive my goods will satisfy anyone. Remember, I can save you a big dividend on the goods you buy of me.

Sore Throat

Omega Oil No mother ought ever to go to bed without Omega Oil in the house. Night is the time when a Sore Throat becomes worse. No one seems to know why this should be, but it is a fact that you well know. As soon as a child complains of Sore Throat, rub the throat and chest with Omega Oil, and you ought to put some of the Oil on a piece of flannel, and bind it on the throat over night. This may be the means of saving the child's life.

Negaunee and Vicinity.

(Subscribers to The Mining Journal will please remember that carrier boys are not allowed to receive money on subscription account.)

MAY RAZE A LANDMARK.

Rumor That Negaunee Concentrating Plant May Be Torn Down.

That ancient landmark, the Negaunee Concentrating works, is to be torn down next spring, according to reports.

Manager Samuel Mitchell of the Jackson Mining company, which owns the building, stated yesterday that he had heard nothing of such a purpose, and that he believes the old building will not be demolished until the company finds use for the timber.

There is a large amount of valuable timber in the structure, some of the beams used in its construction being 18 by 18 inches. At present prices this timber is very valuable.

The building was erected in 1881 by the Negaunee Concentrating company, which was organized with eastern capital. The object of the company was to treat mixed ore, separating the ore from the rock and obtaining a marketable product. It proved a financial failure, and was only operated for about two years, after which it was abandoned. It came into the possession of the Jackson Mining company through the non-payment of royalties.

It is said that the plan upon which the company operated was originated with an eastern man, who believed that there was a fortune in the process. Practical experience demonstrated the error of the theory, and the promoters are said to have sunk an enormous sum in the enterprise. Some place the loss as high as \$400,000 or \$500,000.

The structure is a familiar sight to passengers on the railroad or electric cars between Ishpeming and Negaunee, and should it be razed it would be missed by those who have been accustomed to see it whenever they passed between the two cities.

OVER \$1,000 IS PLEDGED.

Generous Response to Requests for Money to Repair Episcopal Church.

Liberal members of the Episcopal church and other public-spirited citizens have already pledged over \$1,000 toward the repairs and improvements which Bishop Williams is planning for the church edifice. More subscriptions are coming in, and it looks very much as if Bishop Williams will be able to eventually place the church building in the best of condition, and carry out the entire program of improvements which he originally planned. Indescribable efforts are already being made to secure estimates on some of the work, and in a short time those in charge will have accurate information regarding the probable cost of the various improvements contemplated. Possibly none of those planned will be more appreciated than the projected betterment of the heating plant, and this is one of the proposed improvements that will be certain to receive attention.

WILL ATTEND UNIVERSITY.

Will Yates, son of T. C. Yates, of the First National bank, is thinking of entering the Wisconsin state university at Madison next fall to take a course in electrical engineering.

He will be graduated from the Negaunee High school next June, and the other plan will not be given more than tentative attention until after his graduation. It is said by Will's friends, however, that he has a predilection for study along the line of electrical work, and that his desire to take up electrical engineering is no surprise.

Mr. Yates has been south on a business trip to Chicago, and just returned home yesterday morning. While at Chicago he took the opportunity to enjoy a short visit with his sister at Madison. While in the Wisconsin capital he met some of the university people, and was well pleased with the impression which he received of the Wisconsin institution.

New radishes, lettuce, beet greens, parsley, water cress received from the grower every day. Also a full line of fruits and vegetables at George Haupt's grocery. Both phones. (12-7-11)

WORK FOR NEW MEMBERS.

Special efforts are to be made to increase the membership of the local lodge of the Royal Arcanum. Deputy Grand Regent J. R. Eckstein of Jackson arrived in the city Tuesday, and will remain here several days canvassing for

new members, and it is expected that a large class of candidates will be initiated within the next few weeks. The lodge is taking great interest in the work, and the members are earnestly seconding the efforts of Mr. Eckstein by sending personal work in the same direction. When the initiation of the candidates secured by Mr. Eckstein takes place, the lodge will celebrate the occasion by a banquet and a general social time.

KIRKPATRICK FUNERAL TODAY.

Will Be Largely Attended by Residents of This County.

Arrangements have been made to hold the funeral services for the late Joseph Kirkpatrick this afternoon at the Presbyterian church.

It was at first thought that the remains would be taken to Pittsburg and the funeral held there, but the members of the family decided to hold the services here. The interment will also be in Negaunee.

All the children have arrived with the exception of Will Kirkpatrick, who would be unable to reach here from his home in Pittsburg before next Monday. No little difficulty was experienced in reaching Clark Kirkpatrick, who had gone up to Kirby's camp on the Yellow Dog river the day before his father died. One team was sent after him from Negaunee, but after reaching a point within ten miles of where he was it was found impossible to proceed farther because of the deep snow and the condition of the road. A second team was then dispatched by another road from Marquette, which succeeded in getting through and bringing Mr. Kirkpatrick home.

The first services this afternoon will be at 1 o'clock at the residence at Palmer, and the services at the church will be at 2 o'clock.

The last of the children to reach Negaunee was Mrs. Ben Patterson of Cleveland, who arrived yesterday morning with her husband. A sad feature of the event is the fact that Mrs. Patterson had made all preparations to pay her parents a visit, and had her father lived but a few days longer she would have seen him before his death.

The funeral will be very largely attended, both by residents of Negaunee and Ishpeming. There will also be a number present from other points. Mr. Kirkpatrick was a man well beloved by many, and his numerous acts of kindness and charitable deeds were so prominent a portion of his life as were his successful business ventures and shrewd managerial ability.

Bellevue farm butter and pasteurized cream always on hand at Haupt's. Both telephones. (1-15-11)

BILLIARD TABLE BACK AGAIN.

Billiards will once more be a popular pastime with the members of the Negaunee club, the table and billiard balls belonging to the club having been returned. The balls have been turned down true, while new cushions have been put on the rails of the table. A new cue for the table was also sent, and this was put on by A. R. Orr. Mr. Orr has also been engaged in putting new tips on some of the cues and placing them in first class trim otherwise. The outfit will not be used for several days yet, because it is necessary for the balls to have a short time to "season" after turning down, before being used again in use. It is probable that the members of the club will revive the discontinued billiard tournament, or else start a new one, as soon as the outfit can be used again.

Heppner's ice cream in all flavors, also Heppner's cakes and bread fresh every day and delivered to all parts of Negaunee. George Haupt, either phone. (12-7-11)

MINING EXPERT IN THE CITY.

W. J. Rattle, the well known mining expert of Cleveland, Ohio, is in the city on business, and is stopping at the Breitung. Mr. Rattle formerly resided in Negaunee, and has many friends here.

Regarding the business which brings him into the iron country Mr. Rattle would say nothing, but admitted that he is here to attend to some important matters. He will be in Negaunee for several days. It is believed that Mr. Rattle has been called here by one of the mining companies which is developing new propositions, with a view to securing information that will assist in giving direction to the work.

CARD OF THANKS.

We desire through The Mining Journal to express our appreciation of the kindnesses extended to us during our recent bereavement. We wish particularly to thank the members of English Oak lodge, Sons of St. George of Negaunee, also the many friends who in various ways rendered assistance and extended sympathy.

Mrs. Joseph Cornish and Family.

LOCAL LACONICS.

Dr. B. J. Miller has been ill for several days with an attack of the grip.

The men employed in the Queen mines will receive their pay today.

Dr. C. W. Sheldon returned yesterday morning, after an absence of about a week.

George Otis, representing the Boston News Bureau, was at the Breitung yesterday.

Several members of the local lodge of the Royal Arcanum will attend the meeting of Ishpeming lodge this evening. Miss Minnie Rasmussen, who has been visiting her parents for a few days, returned to her school at Appleton, Wis., yesterday morning.

Mrs. Susan Geraghty has sold her residence to William Jurry of the Swanzy mine. She will return to England, starting from here next Saturday if the transfer of the property can be completed in time. Her son-in-law, who recently arrived here from South Africa,

will accompany her, and it is probable that her sons will also go back to England at the same time. They were employed at the Negaunee mine.

Seats are selling well for the performance of Kelly's Lady Minstrels Tuesday night. The company is composed of pretty girls, and has been playing to big business.

Miss Mamie Barth of Escanaba, who has been visiting her uncle, G. J. Jackson, went to Marquette last evening to visit another uncle in that city for several days. She will probably return to Negaunee Saturday.

There will be a large number of Negaunee people at the ski race and ski jumping contest at Ishpeming next Saturday afternoon. Supt. Harvey Pearce of the electric road is making preparations to handle the crowd which will go to the ski club's slide.

A friend of Fred Lavigne has received a letter from him stating that his health has improved since he went to Escanaba, and that he is getting along well. Mr. Lavigne went to his parents' home in Escanaba about a week ago for a month's rest because of ill health.

Two sisters of Peter Cole, who has been ill for some weeks, arrived yesterday from Green Bay, bringing with them Dr. Minahan of that city, one of the best known physicians of northeastern Wisconsin. Mr. Cole's condition does not improve, and his sisters will probably remain here to take care of him for the time being.

Street car arrangements for the Royal Arcanum members who desire to go to Ishpeming this evening have been completed whereby they will be able to go and come in the electric cars without inconvenience. The 8:30 car, from Negaunee, which usually stops at the car barns, will run through to Ishpeming this evening. Returning, the last car from Ishpeming, which usually starts from the Ishpeming depot at 11:18, will be held until the meeting is finished.

A NOTICE TO MY CUSTOMERS.

Heppner's pure ice cream and homemade bread and cake will be on sale at George J. Haupt's grocery store, who will act as my sole agent from now on in your city. John W. Deschaine, Proprietor. (2-20-11)

Humors come to the surface in the spring as in no other season. They don't run themselves all off that way, however, but mostly remain in the system. Hood's Sarsaparilla removes them, wards off danger, makes good health sure.

Carpenter & Skiles bread and cakes fresh every day from Milwaukee at Geo. Haupt's. Both telephones. (1-15-11)

HAS MANY VIRTUES.

For cuts, burns and bruises De Witt's Witch Hazel Salve is unequalled. Draws out the fire, stops the pain, soon heals the wound. Beware of dangerous counterfeits. Sure cure for piles. The Standard Drug Co., H. N. Meloche Co., Ishpeming.

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. No. 25c. If C. C. fail, druggists refund money.

A CHANCE IN A LIFE TIME

to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it.

Fifty Thousand Dollars

in development on the ledge and a complete five stamp mill, with all other necessary machinery ready to run.

The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c per share, capital stock 1,000,000 shares (par value \$1.00) each, fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth par inside of six months. This is the best investment for the money that has ever been offered to the investing public.

Do not lose this opportunity. It will never come again. For further particulars, prospectus, report on mine, reference, etc., address,

OZARK GOLD MINING & MILLING CO.,
MOSCOW, IDAHO.

GREAT DEVELOPMENT

In Florence—The Splendid Showing of the Banner and Ozark Has Stimulated All Other Mining Enterprises.

J. N. Taylor, United States Mineral Surveyor, has just come down from Florence and reports great activity in the camp and that there is more development going on at the present time than there has ever been before in central Idaho.

In an interview with The Star reporter, Mr. Taylor said: "The Banner is working sixty men in getting their mine ready to start as soon as the hundred ton mill they are putting in is completed. This property has developed into a great mine, I believe the largest free milling gold mine in the Northwest. They have twenty-seven feet of \$14.00 ore in one drift, and twenty-three feet of \$66.00 ore in another drift. This property was bought by a New York syndicate composed of Henry Clews, Arbuckle Bros., and others a short time ago for two hundred thousand dollars, and the value of the property today is hard to estimate as they have a million dollars worth of ore blocked out.

The Ozark mine lying north of the Banner is also drifting on a twenty-four foot ledge on the 100 foot level, and there is no question but that it will develop into a great mine, as it has the richest ore in the camp and has a greater showing as far as developed than the Banner. They expect to get the mill now on the property started by the first of March and add stamps enough as soon as the roads will permit in the spring to make their capacity 100 tons per day, and with these two big mines with others that are getting ready to start, the people of Florence are looking for a great boom in the spring. The town of Florence is full of mining men looking for bonds on property where the owners are not able to do the necessary development work to put the property on a paying basis but as usual the prospectors' idea since the development of the Banner and Ozark is such that they are hard to deal with in the way of price, but the people who are looking for the property have made liberal offers since the Banner and Ozark started, and I am satisfied will pick up most of the best properties between now and spring."

THEIR MECCA HERE

SHRINERS WILL GATHER IN MARQUETTE TOMORROW.

IS THE MID-WINTER PILGRIMAGE

THREE HUNDRED OR MORE NOBLES ARE COMING.

Caravan of Nobles Which Will Cross Burning Sands Will Be Largest in Temple's History—Novel Circular.

Marquette will be the Mecca tomorrow of several hundred Shriners, who will gather here from all sections of the peninsula to participate in the mid-winter pilgrimage and... The meeting will be a special ceremonial session, authorized by Imperial Potentate Shaffer of Philadelphia, and in announcing the event to the members of Ahmed temple illustrious Potentate Robert Shields of Houghton has issued a circular in the form of a newspaper, well written and witty, a copy of which was kindly furnished The Mining Journal yesterday.

The Call to Arms. "It having become a well established custom for the nobles of Ahmed temple, Ancient Arabic Order Nobles of the Mystic Shrine, oasis of Marquette, desert of Michigan, to make two pilgrimages to Mecca yearly, you are hereby informed and advised that, proper dispensation having been granted, the caravan is now being formed for the mid-winter pilgrimage, which has been set for Friday, February 21st, 1902.

The date has been happily fixed for Feb. 21. The next day being Washington's Birthday, both nobles and novices will have ample time to cool off and rest. The nobles will kindly mention this fact to the novices and also assure them that if they will cool off, we'll do the rest.

"Found in the Sands." Under the above heading, The Shriner publishes the paragraphs: "Looks as if several weddings are on the tapis. Watch for the next issue of The Shriner for particulars."

Traditional Banquet. The banquet at this session is going to be a "hummer," the bill of fare being, in part, below.

Beef and Cabbage, Irish Stew, Westchester Sauce, Fresh Salt, Sinkers, Fine Coconut Shell, Pepper, Chicago and Boston Limited—i. e. Pork and Beans, Chand.

Flamingo's eye brows stewed in tar, Cribbed Rhinoceros, Kosherwurst with guttled balls, Steak from that Mantanzas Mule, Bobble and Squeak from Hold England, Bug Hash, a la Delmonico, Yucca and Trout Cutlets with Saurkraut, Canada Thistle Salad, Cornel

COPPER STOCKS GAIN MORE. Boston Market Appears to Be Gradually on the Mend.

Writing from Boston yesterday concerning the copper stock market, James Webber & Co., says: "The market advances in Centennial and Timonitum indicates an improving sentiment in the copper. It looks as though this good feeling would continue to grow. There can be little question that the situation turned the corner when the accumulation of metal in the hands of Amalgamated was taken by consumers, though the improvement may be slow.

Hayden, Stone & Co. wired the Laidley Commission company: "The local coppers had considerable more life today in spite of Amalgamated. The fire works continued in Timonitum, it advancing to 98, in the hands of Amalgamated advanced to 119; and so, while we feel it is selling for much more than its present condition and development warrant, we particularly advise no short sales on comparative merits.

Grain Markets Lower. W. H. Laidley & Co., said of the Chicago market: "Wheat opened lower, on the cables, and continued very dull with a lower tendency, closing about 1/4 under last night's figures. The receipts here were comparatively light, although somewhat over the estimates. The primary receipts and shipments compare very favorably with last year.

Wall Street Turns Strong. Dick Bros., in a dispatch to Paine, Webber & Co., said of the Wall street stocks: "Stocks were irregular during the greater part of the day, but were very strong in the last hour. Heavy buying closed the leading stocks strong. There was a disposition to discount a favorable decision in the Northern Securities case on Monday.

ORE CARRYING RATES. Vessel Owners in the Lead in the Battle With the Shippers. The battle over season carrying charges on iron ore has been on for a little more than a week. Up to date the vesselmen have scored all the points, and are confident that they will be able to force all the shippers into line.

It is estimated that the steel corporation will ship about 13,000,000 tons during the coming season, and it would hardly be good business for the most a third of their total movement. Whatever the big concern does along that line, it is good betting that none of the other shippers will take such chances.

Letters from King and Kaiser. The Shriner tells of the history of the order, gives a list of the officers and members of Ahmed temple, publishes witty letters relating to tomorrow's session over the signatures of King Edward, Kaiser Wilhelm, Paul Kruger, J. Pierpont Morgan, General Miles and several prominent Shriners, and contains other matter of interest to members. The issue is well worthy of preservation as a souvenir.

Pure Ice cream made from pasteurized sweet cream always on hand at Heppner's.

all the shippers will move more or less than they did in 1901, and it is known that one firm has sold 1,200,000 tons more or than it shipped last year. Vesselmen are banking on a movement of 24,000,000 tons, and wagers have been made that the shipments will exceed 23,000,000 tons.

Crystal Falls Mining Man Acquitted on the Charge of Manslaughter. A telephone message from Crystal Falls last evening conveyed the news that Captain Samuel Bennett, who has been on trial there for three days on the charge of manslaughter, had been acquitted, the jury upholding the claim of self-defense.

Marquette Team Won. Maccabees Victorious in Last Night's B-I-L Game at Calumet. In a ten-inning contest, the Marquette Maccabees team won the game with the B-I-Ls at Calumet last evening by the score of 19 to 18.

OF INTEREST TO BOAT MEN. New Quality of Fusible Plug New Required by the Government. In accordance with the rules recently adopted by the supervising inspectors, it is now required that at the time of inspection the boilers of every steamboat must be equipped with new fusible plugs that are stamped with the name of the manufacturer.
