BATTLEFIELDS FOR PARK.

Washington, Feb. 20.-A committee called on the president today and urged that the grounds covered by the battles of Fredericksburg be made a national park. The president expressed the view that the great historic battlefields should belong to the nation and he was in hearty accord with the project.

Colds

You first take cold, then you cough. Then you have a doctor. He says it's bronchitis, and he orders Ayer's Cherry Pectoral. It is his favorite prescription for colds and coughs. If he knows of anything better, tell him to give it to you.

"I had a very severe cough for many weeks. Nothing relieved me until I tried Ayer's Cherry Pectoral. This rapidly and entirely cured me."

Startling Report by Superintendent of Kokomo, Ind., Schools.

Kokomo, Ind., Feb. 20.-Professo Ogg, superintendent of the Kokomo schools report to the board of education that out of 1,300 boys in the city schools 40 are addicted to the cigarette habit, and are in consequence two years behind the non-smokers in their studies Of the effect on their studies and con luct Professor Ogg in his report says: "These various reports include nearl 1,300 boys from the first grade through the high school. Over one-third of these admit they do smoke or have smoked Those who belong to the class of smokers average one year older than those who do not smoke. Taking those who are habitual smokers the difference in age is two years, making them two years behind the non-users in their studies. "But there are other losses besides that of progress. In the teachers' reports are annotation marks of 'self-control, poor,' 'inattentive and untrustworthy, 'bad memory,' 'lazy, very dull,' 'no concentration' 'vacant stare,' etc. "We now propose to invoke the law. We have a good anti-cigarette law. The law is adequate it enforced. From this date teachers will report whatever will aid in enforcing the law. We will contest for the salvation of the boys, and tobacco dealers selling to boys under sixteen will be promptly dealt with from this date.'

I have eaten heartily at each meal since, and not only feel stronger, but have made a substantial gain in weight."-W. F. SEARLE, 12 Pierpont Street, Peabody, Mass.

Mrs. S. C. Berry says Vinol is a Great Remedy.

"I was taken with the Grippe one year ago last March, but the cough never left me. I was all run down and did not care for anything or to live. Had two hemorrhages and others slight, but having read what Vinol had done for others I also tried it. I was surprised to notice a change so soon, but it is true. I have taken nearly four bottles and shall get more to take for a while longer. I am not the same person that I was when I began taking Vinol. It surely is a great remedy. It has done so much for me, both for throat and lung trouble, that I wish every one with such trouble would give it a fair trial."-Mrs. S. C. BERRY, High Street, Farm Hill, Middletown, Conn.

PROSPERITY IN SIGHT.

There are multiplying indications that Negaunce is on the threshold of an era of prosperity which will exceed any-

thing the city has yet known. The key to the present situation in Negaunee is the fact that new mining properties which will employ a very large additional force of miners are being opened up, and that these are nearing the productive stage, when they will become potent factors in swelling the population and business of the city. Everyone posted as to the situation said George Maas, the well known min-knows that a critical situation now ng man, yesterday:

"Shrewd investors in Negaunce today are not looking for mining property in which to place their money, but are quietly picking up the residence propies that come upon the market. The reason for this is that careful observers have knowledge of the conditions effort will be made to place Anthony in I have outlined, and believe that residence property in this city is a giltdged investment.

The city is limited in the direction in which it can expand. The development of the Maas mine will make it impossible to build up a desirable residence district in that direction. The fact that ore exists in that locality shuts off expansion at that point. That leaves two courses open-one to build up toward Ishpeming, another to utilize the property on the opposite side of the railway tracks. Much of the latter property is owned by Mr. Breitung of Marquette.

"The result is that what vacant property there is in the city will become very much more valuable, and people who have purchased such property during the dull period the iron country has passed through will find that they have nade money by their investment.' Other solid business men of Negaunee

who have the credit of being sagacious ons similar to that of Mr. Maas, and are backing these views by the investment of money in residence property. It s a well known fact that residence property in Negaunee has not had to for purchasers latterly. There have been a number of transfers recenty at prices that indicate that values are about to take an upward turn Good judges of realty values predict that there will be a marked enhancement in the real estate prices here with n a year. The business men of the ity naturally regard all these evidences of approaching prosperity with supreme satisfaction, and will be prepared to eap their share of benefit from it.

AFTER BABY COMES.

The Disappointments of a Weak Mother.

After the baby's coming the weak mother often has her first great disapointment in not being able to nurse her child. Perhaps she is not strong enough to sustain more than her own life during the days of slow convalescence. Perhaps there is a lack of the secretions which make the baby's food. In any case she feels robbed of half the joy of her maternity because she cannot nurse her And she envies the healthy woman who cares for it and who permits the mother to occasionally see and caress her own baby. If women would consider the matter they could hardly expect to be strong after the baby's coming if they were weak before. The woman who suffers during the prenatal period-who is nervous and sleepless and without appetite, is exhausting her

vitality before the hour of her trial, and

when that time comes her very weakness

increases her sufferings and prolongs

them. It is no wonder, if, after the baby

weeks after I was delirious. My friends

did not know whether I would live or

die. The doctor in attendance did not

give much encouragement, and said that

if I did get well I would never live

through another such period. When I

consulted you in April, 1899, I was in

poor health; had been sick all winter,

and to add to my trouble, was on the

road to what the doctor said would end my days. I was almost discouraged;

did not expect any help, but thought the end was only a matter of time, and—oh!

my two poor, little, motherless children.

Vanburen, Aroostook Co., Maine.

happy motherhood is good health.

"It was in this condition that I began the use of your valuable medicine. On receipt of your letter of April 6th my husband purchased six bottles and I used it as you directed. When you wrote me words of encouragement on April 27th I had received no benefit from the medicine, but determined as a last resort to give it a fair trial. I am now taking the thirteenth and last bottle. I have a lovely baby girl three weeks old that weighed 111/2 pounds at birth. My baby and I are enjoying perfect health, thanks to your wonderful medicines, to which I believe I owe my life. I cannot find words to express my gratitude to you, and I hope you may long be spared to perform the good work in which you are now engaged." MOTHERS PONDER THIS!

It is not you only who suffer when you are weak during the term of maternity, but your child must suffer also. It can have only what strength you can give. Your nervousness, fretfulness and fear-fulness will leave a life-long impress upon your child, and while you in a few months will recover from the effects of the trial you have undergone, the baby's whole life will reflect the

influence of those months of maternal misery.

If you can be a strong, healthy mother by any means, you owe it to your child to use those means at any cost. It is a matter of record that thousands of women to whom maternity was a menace and a misery have been made healthy, happy mothers by the use of Dr. Pierce's Pavorite Prescription, which gives abundant baby's advent practically

"I cannot say too much for Dr. Pierce's Favorite S. E. Rose, of Big Otter, Clay Co., West Va. "I feel it my duty to say to all women who are suffering from female troubles that it is the best medicine on earth that they can use. I cannot praise it too highly for the good it has done me. I am the mother of five

children, and have been as high as eight days in the doctor's hands, and never less than two days at any time until the last. Then I had used two bottles of Dr. Pierce's Favorite Prescription and was only two hours in the hands of the doctor."

REALLY WONDERFUL RESULTS. Read the letter of Mrs. Rose carefully and you will realize why she cannot praise "Favorite Prescription" too highly. The difference between one hundred and ninety-two hours suffering reduced to two hours by the use of "Favorite Prescription" explains her gratitude, but cannot express it. It takes a woman and a mother to understand all that can be possible in one hundred and ninetytwo hours of suffering at maternity.

Dr. Pierce's Favorite Prescription not only gives the mother strength in the period of waiting, but it cures or pre-vents nausea, and makes the baby's advent practically painless. It is the best tonic and nervine for nursing mothers. It promotes the secretion of an abundance of nourishment for the child while giving strength to the mother. All alcoholic and stimulating medicines are particularly dangerous to nursing mothers, or in the period of convalesence which follows the baby's birth. vorite Prescription" contains no alcohol, and is entirely free from opium, cocaine and all other narcotics. It is a real nerve-feeding, body-building medicine. FREE TO MOTHERS.

Dr. Pierce's Common Sense Medical Adviser, the best modern medical work, is sent free on receipt of stamps to pay expense of mailing only. Send thirty-one one-cent stamps for the cloth-bound volume, or only twenty-one stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

PETER WHITE CONSENTS TO BE A CANDIDATE.

SATISFACTION EXPRESSED IN ALL QUARTERS.

Generally Believed There Will Be No Opposition and That the Signal Honor of Unanimous Nomination Will Be Conferred.

will be accorded the signal honor of a unanimous nomination.

Among the citizens generally there was but fitting that Mr. White should be tendered the highest place in the gift of the municipality, and that aside fron. being "Marquette's first citizen," be its executive head This sentiment crystalized until finally the gentleman was a few days ago waited upon by a delegation of prominent residents and at their earnest solicitation consented with the mayoralty

It was fairly well known about the tion, and in all quarters the news was received with elation. In fact, the unifrom opinion expressed to The Mining Journal was that in view of the superior merits of Mr. White and in consideration of his great services in furtherance of the interests of the community there would be no opposition and that he would be the nominee, not of any particular faction but of the entire rank and file of the electors as a body.

There is no question that Mr. White is extremely popular with all classes, and that any opposition would count but little against him, but it is gratifying to note—as far as The Mining Journal could ascertain yesterday-that it is the general sentiment the romination be made a unanimous one. in no quarter could there be gleaned a manifestation of any intention of placing an opposition candidate in the field, and all the talk concerning the probable can-didacy of other gentlemen, heard before the news of Mr. White's determination
