#### PRESCRIPTIONS..... **NEVER ALTERED.**

\ It does not make any difference what your physician prescribes, if you will bring the prescription to The People's Drug Store you get exactly what is specified. There is never a thought in our our mind of substituting, or altering the prescription in any way whatsoever. We know that the doctor has a reason for prescribing just what he does, and we fellow the

prescription exactly. In fact, we believe that the work of the physician is often defeated, and the patient made to suffer, because a mania for cheapness leads some druggists to substitute drugs of inferior quality for those prescribed We invite you to bring prescriptions here. Our prices are always close.

# BAD BLOOD.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that initate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally nsed in this class of diseases cover up For a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion

when such remedies are relied on. Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring cruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benecelebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by
the time the first bottle was finished the eruption
began to disappear. A dozen bottles cured her
completely and left her skin perfectly smooth,
the is now seventeen years old, and not a sign of
the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable. Bad blood makes bad complexions.

purifies and invigo-rates the old and makes new, rich blood body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body. If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge what-EWET FOR THIS SERVICE.

Noting that Prince Henry smoke igarettes, the Detroit Tribune wants to know if that won't "jar our governor? Not while he is out of range of the moke, and the prince doesn't contemolate invading Michigan.

It is lucky for Tillman and McLaurin that Roosevelt is president of the United States instead of president of the senate at this particular time. If he were filling the place Senator Frye is rattling about in the South Carolina senators would not be let down so easily as it ow appears probable they will be, in onsequence of Frye's lack of nerve.

The Boston News Bureau thinks Ton Lawson has boosted Trimountain a good ere understands that perfectly, but as Lawson and his associates must take all they make in order to hold it up we don't see that outsiders stand in any danger of getting hurt unless they are rash enough to sell short or buy for an investment. The News Bureau may disover in time that there are some bad men whom it is hard to put down and

By royal command, Prince Henry will isit Canada after he has completed the First National Bank round of American cities down on his itinerary. This is to placate the British people, who are feeling somewhat nettled, it is said, on account of the pal pable bid for the friendship of the Unit ed States the German emperor is making through the visit to this country of his brother. We hope the prince will enjoy the rest his visit to Canada will give him, which should be grateful after the demands made on him by the tumultuous welcome he is called on to endure in this country.

Governor Van Sant of Minnesota has not bettered his chances of succeeding himself by calling the legislature of his state together in special session. The revised tax code submitted by the state tax commission met with disaster in the assembly this week. The session is marked by bitter wrangling and promses to fail in accomplishing any good. Already the members are talking of adourning it and throwing the governor Transacts a General Banking Business and his recommendations in the air. His experience should convince our Gover-Bliss that he escaped a pitfall duy for him by his enemies when he refused to convene the legislature of this state in extra session at their suggestion.

> In view of the condition of the copper market, it seems strange that one of the things apprehended in the iron and steel business is a "runaway marsumption and eventually bring about a hurtful reaction. The Steel corporation and other large producers are exerting themselves to prevent this, but the demand is so strong and insistent that prices down. An advance in copper arisng from inability of producers to meet the demand for that metal would have a cheering affect on both operators of the mines and holders of shares in them just

> > ENGLISH LABOR UNIONS.

The decadence of England as a manu facturing nation, in contrast with the rapid advance of the United States in that respect, has been charged to the profess to have studied the subject that he English trade unions have adopted country, imposing a heavy handicap on their employers in that and other ways and that this has given American manufacturers an advantage of which they have been quick to take advange.

But this is only one side of the case A representative of the English workingmen in a recent s eech alluded to his charge against organized labor in England, and replied to it by saying hat if the British manufacturers desire o have more efficient labor they must as American employers do, pay wage that will enable their men to have three and bloaters and hovels to live in." In other words, the British workman must be as well fed and well housed as is the American artisan as a first step toward having his efficiency brought up to the provided for it is useless to demand of ple's Drug Store. him a larger per capita product of the

work of his hands. We incline to the belief that the point is well taken. A badly fed and wretchedly housed workingman cannot be made efficient until the conditions which impair his energy and destroy his ambition are bettered. The American workingman is efficient because he lives well and comfortably, as a rule, and also has with him the stimulus of hope, for he knows that by frugality, industry and Hoos's Pills

from reaching the highest station if he s fitted for it by natural talent and is prepared to make the struggle to win it.

The boy who works for hire may become the head of the government who directs the affairs of a great nation, and beween the lowest station and the highst there is an infinity of opportunity had earned the proud title of the libor advancement within reach of the ca- erator? That enlightened and magnanpuble and persistent. This the British imous citizen whom France still mourns? vorkingman is denied by reason of the lass distinctions which obtain in that country, and the want of it undoubtedly goes far to explain his inferiority to the ly have excited the animosity of a de-American craftsman.

McKinley a Typical American.

"The life of William McKinley was, from his birth to his death, typically American. There is no environment, should say, anywhere else in the world which could produce just such a character. He was born into that way of life which elsewhere is called the middle class, but which in this country is so origin and we are immensely indebted nearly universal as to make of other upon which we have drawn without He was neither rich nor poor-neither stint. Prince Henry had the right to proud nor humble; he knew no hunger, he was not sure of satisfying, no luxury look for a warm welcome from us for which could enervate mind or body. His these reasons, and many others that parents were sober, God-fearing people; up in the company of boys like himself; wholesome, honest, self respecting. They him should be gratifying to all Ameri looked down on nobody, they never felt n the admirable school readers of fifty from the past. They read in their world's progress, in which they were eager to take part, and of the sins and wrongs of civilization, with which they burned to do battle. It was a serious and thoughtful time. The boys of that nen: be strong

e anything else.

"Following the natural bent of his nind, he devoted himself to questions of finance and revenue, to the essentials of the national housekeeping. He took

made governor of Ohio and two years | People's Drug Store.

later he was re-elected, each time by najorities unhoped for and overwhelm He came to fill a space in the pubic eye which obscured a great portion of the field of vision. In two national conventions, the presidency seemed within his reach. But he had gone there in the interests of others and his honor tone and gesture there was no denying His hour was not yet come.

"There was, however, no long delay He became, from year to year, the most prominent politician and orator in the country. Passionately devoted to the principles of the party, he was always ready to do anything, to go anywhere o proclaim its ideas and to support its andidate. For several months before much to do with crippling the power of nor age, nor youth, nor conscience, nor in 1896, it was evident to all who had eyes to see that Mr. McKinley was the holding all the larger opportunities in this baleful evil-for most of the Other names were mentioned, of the life as the heritage of a favored class, wretches whose crimes have so shocked highest rank in ability, character and whose spendthrift extravagance is im-posed on labor as a burden, has had unlettered, who have gone from the com-powerful combination, but the nominamore. And that cannot be changed mon schools, through murder to the tion of McKinley as against the field was inevitable. "The campaign he made will be al-

rays memorable in our political annals. Confronted by Difficult Situation.

"When he came to the presidency he nfronted a situation of the utmost lifficulty, which might well have appalled a man of less serene and tranquil self confidence. A man either weak or rash, either irresolute or headstrong, might have brought ruin on himself and incalculable harm to the country. believe that the verdict of history will be that he met all the grave questions with perfect valor and inconquerable hearty welcome accorded the prince and in court, the unwholsome sympathy of ability; that in grappling with them he rose to the full height of a great occasion in a manner which rebounded to the lasting benefit of the country and o his own immortal honor.

"In dealing with foreign powers, he tation of a growing tendency toward this presence to suggest the details of will take rank with the greatest of our malignant. That task may safely be he had little special knowledge before left to the skill and patienec of the na- coming to the presidency. But his martional congress, which has never been velous adaptability was in nothing more remarkable than in the firm grasp h immediately displayed in international receiving and entertaining Prince of these three murdered comrades of relations. By patience, by firmness, by Henry. The respect paid him is an of yours—all of whose voices still haunt sheer reasonableness, he improved our understanding with all the great powers of the world, and rightfully gained the ple, whom he in a sense represents, and struse and painful problem, which has blessing which belonged to the peace

"But the achievements of the nation in war and diplomacy are thrown in the shade by the vast economical developments which took place during Mr. Mc Kinley's administration. The most extravagant promises made by the canguine McKinley advocated five years ago are left out of sight by the sober facts The 'debtor nation' has become the chief 'creditor nation.' I will not waste your time by explaining that I do not invoke for any man the credit of the vast results. The captain can not claim that it is he who drives the mighty steamship over the tumbling billows of the trackless deep; but praise is justly due him if he has made the best of her tremendous powers, if he might be cited, and it has been given intelligent and upright; without preten- has read aright the currents of the sea him with right good will. > oney that would be lost. MAP OF "GREATER HANCOCK."

One Is Completed Showing Proposed Annexations to Village. Engineer Stockley, of Hancock, completed a new map of "Greater Hancock" yesterday morning. It includes the territory which it is proposed to annex to the village, a matter which the council

now has under consideration. The new additions are the Franklin and Quincy locations, Quincy hillside, all of Condon's three additions in West Hancock, also Anthony's three additions, and the Grove and Sullivan additions. The territory embraced just doubles Hancock's present area. There is but little doubt that annexation of the surounding additions will shortly follow. The people living in those districts are very desirous of being admitted to the village and have already petitioned the been taken by the council as it wished informed what they may expect if the road from Houghton to Calumet should to ascertain what stand the Quincy Mining company, which owns a considerable

part of the additions mentioned, would ake on the question of annexation. Secretary-Treasurer Todd, of the Quincy, is now at the Quincy and he has efinite action regarding the proposed

The village will have control of the oad leading from Hancock to the county bridge when the new territory is taken in and it means that the highway will be kept in good condition.

I saw Doan's Kidney that of London, Liverpool and New more than 400,000,000,000 feet of lum-

What the West Includes.

"Arbitrary though it be, I assume for the convenience of the hour and for the which I here represent. Michigan, Indiana, Missouri, Oklahoma, Indian Territory and all west of these

ve are consuming an ever increasing proportion of our agricultural products and exporting an ever increasing proportion of our manufactured products. Let every industry be encouraged. Let every enterprise be fostered, let every interest be conserved, then shall we grow SECRETARY SHAW DISCUSSES great and symmetrical, and, growing great, shall preserve our industrial and commercial independence and thus be-come an ever increasing blessing to the world

"The West not only grows food products, but her people have become no mean competitors in their preparation. Minneapolis alone manufactures 16,000, 000 barrels of flour per annum, a car-MEETING FAVORS PROPOSED DE- load (60,000 pounds) every ten minutes, day and night, 365 days in the year.

Feeds Armies of Europe. "A branch factory in a prairie town of Iowa, of less than 4,000 population produces 6,000,000 cans of condensed milk per annum, while the parent plant in Wisconsin makes more than double this amount; a portion of which helps to feed the standing armies of Europe and to supply the beligerants in South Africa. The Elgin Butter company con-Washington, Feb. 27—Although White House officials are now non-committal on the subject, there is reason to believe that no response whatever is likely to be made to the letter of Lieutenant with the letter of Lieute with much attention, it being one of the quarter million pounds, (125 tons) of fostering that other nations afford, first public speeches made by him since butter, and 3,000,000 pounds (more than 100 carloads) of poultry. Another firm John W. Ela of Chicago spoke upon in the same state marketed, in a single "The League," describing at length the year, 1,500,000 dozen eggs, sending them objects which the league sought to at- to the Atlantic, the Gulf, and the Pacific Coast, while a third firm ships dressed poultry, not by carload only, but by trainload.

#### Product of Packing Houses.

"The product of packing houses wes of the Missouri river sells on the market for an amount in excess of the postal receipts of the United States, while a single institution, engaged in the prep year more than 10,000 carloads, 900 tons per day, of manufactured products in adountry, has been so far obliterated dition to its meats. The packing houses gross income than all the custom houses United States, while the live animals sold on a square mile of ground within resent pays more for live animals to the officers' salaries by all the railroads in

#### Gold In California.

"California is known as a gold prolucing state, and she well deserves her most enviable reputation, for her mines have yielded to date in excess of \$1.250 -000,000, but her orchards and vineyards are now a close second. California pro duced in 1900, 250,000,000 pounds of cured fruits, and 7,000,000 cases of lemons and oranges. Her farms respended with 32,000,000 bushels of wheat, 25,000,000 pounds of butter, 5,000,000 pounds of cheese and 11,000,000 pounds of hops. She manufactured 65,-000,000 rounds of sugar and sent through the Golden Gate more than 1,000,000 barrels of flour, and exported \$15,000,000 worth of other agricultural products, while her forests yielded 500,-000,000 feet of lumber. Washington has a fame world wide

for her fisheries; and her forests cut 1,000,000,000 feet of lumber, and 3,000,-000,000. Her manufactures including nia, Oregon and Washington estimate ber yet standing in their forests, 100,-000,000,000 more than government exports estimate in all the territory of the United States outside that portion

Three Big Lumber States.

"Michigan, Wisconsin and Minnesota and all north and west of Texas. It have more than a national reputation ought not to be necessary to quote the for their lumber interests, and this is lungs. Take Dr. Wood's Norway Pine Remember the name Doan's and take record to sustain the proposition, well deserved; yet the mines of these Syrup while yet there is time. Though the record does sustain it, that three western states produce 75 per cent

of the nation's output of iron ore, more than all the German empire and about the same as Great Britain and France

"Colorado produces nearly 40 per cent of our gold and more than 40 per cent of our silver. Not one per cent of the precious metal is found outside the limts of the territory assigned me to repre-

"Montana has produced during the ast five years, more than 40 per cent of our annual product of copper. I count myself fortunate, therefore, in being permitted to speak for 99 per cent of the sold and the silver and the copper; per cent of the zinc, 75 per cent of the ron, all the lead, all the nickel and all the quicksilver, an aggregate or more than \$250,000,000 worth of metallic minerals per annum, nearly 80 per cent of the nation's output.

#### Production of Grain.

"While it is true, as I have stated, that the production of grain within the territory I represent has not increased is rapidly as her population, it is an enencouraging fact that her manufactures, her commerce, and her banking facilities have increased more rapidly than in the nation at large. The United States increased her manufactured products 70 per cent between 1880 and 1890. but the states for which I speak increased theirs 112 per cent during the same period. This country now manufactures \$13000,000,000, an amount in excess of the output from all the factories and all the shops of Great Britain and Germany combined by more than 3,000,000,000 This enormous showing records an increase of 40 per cent in the last decade but the territory I have defined made an increase in the same period of 45 per

"In 1892, for the first time in our his tory, in the national banks within the grain growing states, exceeded the value of wheat and corn sold from the farm. Now, individual deposits in the same class of banks exceed by 100 per cent the value of these cereals disposed of by the producers thereof. Manifestly the banks of the eastern metropolis holds more western money than they have on deposit in western banks, but it is equally true that the East has contributed generally to western industries and en terprises. Another evidence that our ountry is too small, our people too few. and have too much in common to permit even imaginary lines to divide our com mercial and industrial interests.

Easy to Predict Great Things. "It is easy to predict great things It would be indeed a pleasant pastime to picture the states that now produce the iron, manfacturing the same; the states that cut the lumber, consuming it; and the states that grow the wool, having as they do the purest water for its cleansing, coal in abundance, and power in literal torrents, weaving the finest cloth, as well as flannels, for the clothing of a hundred million of our own people and for the comfort of many nations beyond. But I am not so much interested in the particular location where this work shall be done, as I am in the inauguration of such means and policies as shall open the way for yet increased American activities. Pacific ocean is ours, and the Gulf is American ships will carry the product of our fields, and our factories beneath all our factories beneath all spear.

Our folds, and our factories beneath all spear.

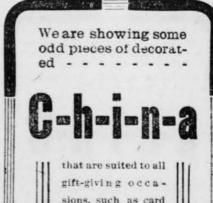

Our folds, and our factories beneath all spear.

Our folds, and our factories beneath all spear. skies and into all parts, and America will become the workshop of the world, FOR SALE-Choice building lots in Nester where he who seeks to sell his labor shall find abundant market, thereby contributing to the comfort and the con entment of all."

Garfield on Consular Service. The last regular speech of the evening

vas "The University in the Commercial World. A telegram was received from Presi lent Roosevelt regretting his inability

to attend and conveying cordial greet ings and best wishes for success. A resolution was adopted declaring hat it was the sense of the meeting that the business and labor interests of the country would be best served by the early passage of the department or ommerce bill by the house during the present session of congress, and the orsnization of the department as soon hereafter as conditions will permit.

GREAT DEVELOPMENT

Surveyor, has just come down from and are historically correct. The scen-Florence and reports great activity in ery is special for every act and many the camp and that there is more development going on at the present time than there has ever been before in cen-

In an interview with The Star re porter, Mr. Taylor said: "The Banner oped into a great mine, I believe the largest free milling gold mine in the vere also delivered by M. ty-three feet of \$66.00 ore in another and Amy Teavey rendered pleasing solos drift. This property was bought by a and a chorus of high school pupils was MISS KATHRYN PURNELL drift. This property was bought by a and a chorus of high school pupil heard in a couple of selections. sand dollars, and the value of the property today is hard to estimate as they have a million dollars worth of ore will open with a musical program.

"The Ozark mine lying north of the Banner is also drifting on a twentyfour foot ledge on the 100 foot level, SEATS NOW SELLING AT and there is no question but that it will develop into a great mine, as it has the Marie. richest ore in the camp and has a greater showing as far as developed than the Banner. They expect to get business to his partner, John L. Carlson. the mill new on the property started and will devote all his time to the manby the first of March and add stamps nough as soon as the roads will permit in the spring to make their capacity 100 tons per day, and with these two big mines with others that are getting ready to start, the people of Florence are looking for a great boom in Order by 'phone or otherwise. the spring. The total of bonds are wondering who will head the Citithe spring. The town of Florence is on property where the owners are not zen's ticket. The name of John P. T, SIMONS, Agent able to do the necessary development Outhwaite is the latest mentioned. Mr. work to put the property on a paying Outhwaite has been mentioned for the basis but as usual the prospectors' idea mayoralty nearly every year since he since the development of the Banner

### Ishpeming and its Environs.

ELKS PLAN BIG TRIP.

Arrangements Already Under Way for Ishpeming Woman Asphyxiated in the Attending This Year's Reunion.

aan of Escanaba, E. B. Daly, traveling agent for the Chicago & Northwestern this city, was asphyxiated in the Keller coming summer. At a meeting held railway system, and B. H. Bullard, trav- Hotel, New York city. fuesday night, last Sunday a team was organized and eling passenger agent of the Union Facilite railway, were visitors in Ishpeming Wednesday. Their mission here was to no details were given. It is assumed, it includes several of last year's nine, as the legram Wednesday afternoon, but it is assumed, it is assumed, it is assumed, it is assumed, it is a same of the Fly ladge. nterest local members of the Elks lodge however, that she blew out the gas intuiting the next annual reunion of the so-stead of turning it off. stead of turning it off. n the next annual reunion of the soriety, to be held at Salt Lake City. Utah, Aug. 12, 13 and 14.

The Elks at Escanaba are quite cuhusiastic over the proposed trip and it said that a large number of the antdered herd at that place will arrange to the Teutonic. She was accompanied field. A manager has not yet been chostake it. The Sandy City men would be bound for the old country. It is not choice for the position, but the "Deacopper districts in securing a special likely that the men were in New York con" has not yet decided to shoulder the train, all going together. Each lodge at the time of her death, as they did responsibility of directing the team. ould secure a car of its own for the exclusive use of members and friends. Messrs, Bullard and Daley were here to ussure the local Elks that the best of commodations would be given them in ase arrangements to travel over the

oads they represent were consummated The plan is to leave here Saturda; vening, traveling via the Chicago & Northwestern line as far as Chicago here the Union Pacific will be taken or the remainder of the trip. On the eturn trip the Elks will travel over e Rio Grande, with the privilege of iving three days for stop-overs at Dener and other western points of intert. It will take twelve days in all to e the journey going and returning There would be no extended stopthe way out and the Elks from this ion would arrive in Salt Lake City Tuesday morning at 8:45 o'clock.

The railway officials figure that the ound trip fare will be less than \$45. This is certainly a reasonable rate when the distance to be traveled is taken into count. The exact rate to be charged rom this section has not yet been fixed. though the railway men said they felt certain it would be about the figure

The visitors talked with a number of e members of the local lodge and they met several who are planning on tak ing the trip. They desire to have the matter brought before the lodges of this ection as soon as possible, with a view o formulating some plan for bringing representatives of the different lodges ogether. It is likely committees wil appointed by the several lodges of his section and a meeting will be held at ome central point for a discussion e he Escanaba men's proposition. Mr lates suggested Ishpeming as a desirable place for a meeting of the committee presenting the different lodges,

"A KING'S RIVAL."

Griffith's Appearance Here Will be a Noted Theatrical Event.

Mr. John Griffith will appear here nex Monday evening in "A King's Rival" the new play in which he and his company are making such a hit. It is the ad of the theatrical season, and one of Mr. Griffith's company eaded by the most charming actress Miss Kathryn Purnell, whose perform ance of "Marguerite" in Faust has rau'ded her as one of the most promising In Florence-The Splendid Showing of our young actresses. She plays the Gypsie Girl in "A King's Rival" and her performance of it is said to be far bet ter than was even her "Marguerite. Mr. Griffith has filled his company with J. N. Taylor, United States Mineral gaged for their respective parts.

electrical effects are carried by the ompany.

### KIDNEY DISEASE.

Its Insidious Progress and Sudden Termination.

Not long ago a man who had made a success in business bought a country place and retired from active commercial life. By all outward appearances he was a healthy man. He entered upon the life of his country home with great zest, engaging himself in the culture and care of flowers and enjoying the pleasures of out door life to the full. One day they found him unconscious on the lawn. The family believed he must have been the victim of tramps. The doctor came but could not rouse him from his stupor. When the autopsy was made it showed that death was the result of kidney disease long neglected. This is a true story. The facts are

given as the newspapers told them. different doctors treated her but none only the names are suppressed. It is a did her any good," until she consulted

story that in one way or another is being repeated every day, the victims being men and women who suffer from "kidney trouble" and neglect it.

It is the office of kidneys to filter the blood and remove from it those foreign matters which if retained in the blood corrupt and poison it. The principles so eliminated by the kidneys are constantly being produced in the tissues of the body. The kidneys are therefore ceaselessly active and care for an enormous quantity of blood. When by reason of disease the activity of the kidneys is impaired, or when they are overtaxed by being required to eliminate from the blood an undue quantity of corrupting substances, thrown into the blood as a result of disease of the stomach and other organs of digestion and nutrition; then it is that the poisonous deposits first begin to col-lect in the blood, and breed deadly consequences. The accumulation of the poison is slow, and the physical changes which accompany the poisoning of the system are slow also, and this makes the great danger of the disease. Many times the victim of kidney disease does not awaken to danger before the entire system is poisoned, and the struggle for life s desperate and doubtful.

ACT AT ONCE. Prompt action cannot be too strongly urged upon those who have even the slightest symptoms of "kidney trouble." The timely use of Dr. Pierce's Golden Medical Discovery will save both suffering and expense.

"For a long time I was suffering and was hardly able to get about," writes Mr. Andrew J. Jennings, of Thomas, Tucker Co., W. Va., Box 194. "Was bothered with kidney trouble and my whole system was out of order; had no appetite. A friend of mine told me to try Dr. Pierce's Golden Medical Discovery. I did so and the first bottle restored my appetite. I took six bottles of 'Golden Medical Discovery' and some of the 'Pleasant Pellets' and feel like a new person. Think there is no better medicine and I heartily recommend these

medicines to every one whose suffering is of the nature that mine was." The symptoms of kidney disease are

many and so variable that it is almost impossible to describe them all. In general the indications of kidney disease are pain in the back and loins, change in the urinary excretion, a depressed feeling with lassitude or weakness; ir regular heart beat; hot and dry skin, deranged digestion, variable appetite, urinary incontinence, puffiness about the eyes, swelling of the ankles or in different parts of the body. These symptoms will not be present in any one case,

DON'T TAKE CHANCES.

that it is no uncommon thing for the sufferer for the wrong disease. Such was the case probably with Mrs. Hayter, whose letter is given below. "Several should get together and decide to sub-different doctors treated her but none mit a proposition of some sort to the

Dr. Pierce: "I had been sick for more than a year with kidney trouble," writes Mrs. Lucy Hayter, of Jacksboro, Jack County, Texas. "Several different doctors treated me, but none did me any good. One doctor said I never could be cured, that I had Bright's disease. I suffered nearly death at times; had spells the doctor called spasms. Was bed-fast most of the time for six months. My mother begged me to try Dr. Pierce's Golden Medcal Discovery. With but little hope I wrote to Dr. Pierce and he said he could cure me. I began to take his Golden Medical Discovery, and although I had given up to

die I began to improve from the start, and by the time I had taken twenty-two bottles I was entirely cured. I thank God for the 'Golden Medical Discovery.' I weigh more than ever before in my life and I am entirely well."

Dr. Pierce invites any person who suffers from disease in chronic form to con- osition in behalf of his city. sult him by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y. A great many people, who, like Mrs. Hayter, have written to Dr. Pierce "with but little here" have like here programmed. hope," have like her been perfectly and permanently cured by his treatment. FREE ANALYSIS.

An analysis of the urine will be made the nature of the disease when accompanied with a full statement of symptoms. Do not neglect this opportunity to obtain a specialist's opinion on your condition absolutely without fee or charge, together with a free uninary analysis. If you are sick consult Dr. Pierce, by letter, without

It is to be remembered that Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, cleanses the blood of waste substances and so removes one of the causes which conduce

medicine. There are cures behind every claim made for the "Discovery" which no "just as good" medicine can show.

ty will stand as good a chance as any the other places bidding for the intitution and he thinks the people here board. The home will be a good thing for the city that captures it.

While Negaunee is far from being centrally located, there is no telling what might come up to bring it this way. Some of the lower peninsula cities are determined to put up a warm fight for the institution and this may result in throwing it to some city in this part of the state. Mr. Jackson believes Negaunee has at least a fighting chance of get ing the home, and as it will cost noth g to submit a proposition he thinks teps to that end should be taken. Ne mee could easily offer a desirable site or the home. Other cities that are sceking to secure it will at least do that mich, while some may come for an rith an offer of a site free and a cash

The home will be established on a airly large scale, as it is pretty generally understood among the members of ie society throughout the state that here are quite a number of old and disoled members of the order who will ish to avail themselves of the advanges it will offer.

A meeting of the board of control has en called for the 10th of next month at Grand Rapids. Mr. Jackson will be attendance and he would be pleased go down prepared to submit a prop-

The president of the board has already received propositions from six cities in the lower peninsula. These are Grand Rapids, Kalamazoo, Flint, Man istee, Onion Lake and Paw Paw. The contest for the home threatens to be quite spirited, though the board of control will not decide where to locate it at the meeting next month. The grand lodge will pass finally on that, but it is free of charge. This often determines likely that the place recommended by the board will be the one chosen. The board is in no special hurry to dispose of the matter, as it is determined to se be held a short time before the next James O'Neil and his company. grand lodge session.

#### CHAMPION CHIPS.

Jake Davidson and family have be gun keeping house on the second floor of Harry Davidson's block. M. Belhumer finished harvesting ic one day this week. He did the cutting for all the local business men.

The Champion House has been pro vided with a Marquette county tele phone. The office is now supplied with the 'phones of both companies.

Charles E. Mills, late of Clyde, in the lower peninsula, has taken the night operator's desk at the South Shore depot here, succeeding F. Anderson, who resigned a short time age.

The soft weather of the past two weeks has almost completely destroyed the roads in the woods out from here The nights have not been cold enough to admit of the making of ice roads. Re-Everything absolutely pure and whole ports from the camps during the week are to the effect that very small loads Negaunee,

Sleeplessness

are caused by a run down system and poor blood food taken is not digested, because the nerves of the stomach are not supplied with enough rich blood to make them work-Vinol will correct both.

How Vinol Made H. L. Stearns Rest Well.

"H. L. STEARNS, General Clerk of Police Court, bought Vinol for his wife, baby girl and himself, and he said he never saw anything act so quickly. The little girl got so she would not eat, but he says now he can't get enough for her. He also says he was troubled with sleeplessness, which Vinol entirely corrected."

Vinol Cured Mrs. Hutchings of Stomach Trouble.

"My wife and I can both testify to the splendid qualities of Vinol. I bought a bottle for my wife who has been troubled for years with stomach trouble. I had not much faith in any medicine, we had tried so many, but was induced to try Vinol by hearing so much of its wonderful powers. The first bottle almost completely cured my wife's stomach trouble. I tried some for myself, being all run down and worn out. The result was a complete surprise, for I am now well and strong. Vinol is certainly all that is claimed for it."- FLOYD HUTCHINGS. Wheeling Avenue, Muncie, Ind.

When we talk of Vinol we know of what we speak and will refund your money if you are not satisfied.

THE STAFFORD DRUG CO., Marquette. KIRKWOOD & O'DONAGHUE, Negaunee.

are being hauled these days. The roads are so soft that it is impossible to get over them with any degree of satisfaction. Loads that one team can haul with ease when the roads are good could not be handled this week with

place. The trip was very much enjoved by the Championites.

Dr. C. M. Owen has established a dental office at Champion, being located in Mr. Wallace's building. He can be found there on Mondays, Tuesday and Wednesdays. The doctor will be at his Re public office the last half of the week.

The Beacon House, under the management of Will Villneuve, is doing a nice business, Indeed it has been some year since the bostelry has been as liberally patronized by the traveling public. All the rooms allotted to steady boarders are occupied and a few rooms are also taken in the annex.

"I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this Remedy.-Mrs. J. A. Moore, North Star, Mich. For sale by The Stafford

#### JURY DISCHARGED.

Civil Cases for Decision by Judge Stone Only Remain on the Docket.

Yesterday the trial of the last of the jury cases was concluded in the circuit court, and the jurors were discharged from service. The cases remaining are with a little profit-taking in Copper eivil proceedings which will be argued Range. Mohawk's merit is being appre before the court, and as there are many of them and knotty problems to solve it The rest of the list is quiet and unis likely the term will not come to a conclusion for ten days or two weeks

In the case of Merritt White vs. Francis W. Sambrook, the jury found in fayor of the defendant, upholding a chat- sold out on the rally have been waiting tel mortgage lien for a 875 on a feam for a reaction on which to buy, but if of horses. The case was a very compli- the prices continue to hold firm tomorcated one, involving also an \$86 claim row they will be likely to give the copfor rent of the team, and the verdict pers another lift from the present level, structing them to visit the upper penin-

judgment of \$11,174 against Powell & looking for another rally that will carry Mitchell, but in reality the claim was the prices higher than the ast one did, not contested. The defendants have a certain sum of money due them from work done on contract in Canada, in excess of the claims they owe as result of the work, and the present litigation served as the vehicle for the securing of an extension of time on the note held by the powder company.

The case on call for today is that of Frank B. Spear vs. the Davis Mining better buying by commission houses company. A. B. Eldredge appears for the plaintiff and J. C. Wood for the de-

#### "MONTE CRISTO" WELL RECEIVED. James O'Neill at the Head of an Exceptionally Strong Company.

Actor James O'Neill and "Monte Cristo" were well received at the theatre last evening. The house was packed, the stirring seenes of Dumas' romance were greeted with approval akin to en- better offerings were not verified." thusiasm and the audience apparently was inclined to endorse the popular de-cree which has doomed Mr. O'Neill to play "Monte Cristo" until his career before the foot-lights comes to a close. Of Mr. O'Neill's talent and dramatic power, there seems to be no room for criticism and, indeed, with the place in his profession won years ago it would be rather late in the day now to attempt it. His Dantes is portraved with the artistic touch and vigor which characterized it in the earlier years of the actor's 000 of gold was shipped and more may career, and if he has lost enthusiasm or fire in the part with the passing of time it was not indicated last evening., Inrole in the stirring play was practically the same artistic success as of old, but it was after the first act that his work was best and in the initial scene the hand of time was noticeable.

gested itself that, like Joseph Jefferson in Rip. Mr. O'Neill aims to perpetuate "Monte Cristo" in the person of his son. The talented Frederick de Belleville, in the difficult characterization of Nirtier, and Selene Johnson, as Mercedes, give the parts a finished portraval, and Miss Virginia Keating, the young lady of Menominee who assumed the role of Mme. Danglars, appeared to pleasing advantage. Warren Conlan was excellent as the prefect, Villeforte: Joseph Slaytor made a good Danglars, and Mrs. Kate Fletcher, as Carconte, the inn-keeper's wife, proved one of the best members of Mr. O'Neill's splendid support

There was much interest in the presence

of James O'Neill, Jr., in the cast, and it

was gratifying to note that the young

man gives evidence of possessing talent

like his great father, for the belief sug-

ing company. The piece was given a fine scenie investiture, the ballroom and forest scene in particular pleasing, and on the whole the play accorded as much satisfaction as any of the high-class attractions which have held the boards here.

#### RUMORED LEASE.

It is rumored that the secondfloor of Washington and Main-has been leased by the Cleveland-Cliff's company and will be occupied by the general offices of the & Southeastern and Munising roads and by the clerical force of the Pioneer Iron company, the subsidiary corporation which will operate the new furnace and which controls the Carp river plant.

#### DEATH OF MRS. CLARK.

Mrs. John Clark died at her hon at the powder mill location last evening She had been failing for some time and tern will be put on. the death was not entirely unexpected For years she had been a resident of this section and her passing away will be deeply mourned by a wide circle.

Makes children eat, sleep and grow; Makes mother strong and vigorous. Makes a healthy family. That's what Rocky Mountain Tea does. 35 ets. Stafford Drug Co.

#### COPPER STOCKS QUIET.

Little Trading but the Prices Hold Remarkably Firm.

Hayden, Stone & Co. yesterday ad ised the Laidley Commission company s follows concerning the Boston market: "Coppers were very quiet today ciated, and it is being quietly bought

Paine. Webber & Co. said: "The coppers have been quiet today, but in view of the recent advance the prices have held remarkably firm. Traders who Compared with most stocks on the New

Grains Strong and Higher. W. H. Laidley & Co. said of the Chi-

ago grain markets: "The wheat market was inclined to weakness early today, on larger Northwest receipts and rains in the Southwest, but it strengthened later with corn and on damage reports. There was fair buyer. The market looks strong

"The pit crowd sold corn late, causing ome reaction, but it closed strong and righer. The market was quite broad There was considerable done in cash and Boston reported 130 loads for export at 55 cents over our May price, The Southwestern markets were higher, and this induced buying. The reports of

#### Wall Street Dull but Firm.

Dick Brose, in a dispatch to Paine, Webber & Co., said of the New York stocks: "The market has been dull and generally firm, with the specialties as the features. Evansville & Terre Haute idvanced sharply in expectation of favorable dividend news. The tractions vere strong, particularly B. R. T., in good buying of Norfolk & Western, C & O. and Pennsylvania. In all, \$3,500, go on Saturday. There was very little news to advance prices. The United States Steel stocks were well bought deed, his rendition of the central and B. R. T. was in big demand in the tral House at any time for the next loan crowd, lending flat.

#### PARDON BOARD SESSIONS.

The session of the pardon board at he prison yesterday was confined to hearing the statements of convicts who lesire freedom from their present life behind the bars. The men heard were Betzler, Edward Huntley, Wm. Miller, Edward O'Hearn, Isaac Snow, Charles Roht, Weaver, August Wolf and Giacomi Visconte. No consideration was given any of the applications, that being a for three or four days longer will hit natter to be taken up later. This morning another session will be held at blow that it will not recover from this which it is probable that several other season. orisoners will be accorded the privilege of reciting their stories, and it may be that some of the petitions will be acted on. The menibers of the board leave on the afternoon train for lower Michi- the camps have been closed down entire

#### ANOTHER MUNISING CAUCUS.

Munising, though noted for the torrid haracter of its elections, promises to citness the hottest campaign this spring n its history. The result of the recent depublican caucus is not accepted by me of the leaders as indicative of the vishes of the party, it being alleged that Democratic votes helped to name the the Bacon block-Front street, between ticket, and another convention has been alled to nominate a "Straight Republi can" ticket. It will meet this vening. The call is signed by H. B. Lake Superior & Ishpeming, Marquette Freeman, A. E. Stockwell and G. A. Trueman, committee.

#### NEW SLEEPERS MARCH 10.

It is announced that the St. Paul road vill, beginning on March 10, run its own leeping cars between Milwaukee and with great caution. Marquette, the contract with the Pullman company expiring on that date. Handsome new ears of the latest pat-

It is expected a wide circle of friends. The family resident Lake Michigamme ice for its own The quality is the finest and the price is

The Marquette Ice company, which made its cut in the vicinity of Dead river, succeeded in completing its harvest before the weather took a change to the more torrid temperature, and has ts big ice house well filled.

#### RECRUITING STATIONS OPENED.

War Department Orders a Thorough Canvass of the Upper Peninsula.

The recruiting officer at Milwaukee. Wis., Captain Frank B. McCoy, has reived orders from the war department e open sub-recruiting stations in the northern peninsula and to make a thorough canvass of all the larger towns, such as Marquette, Ishpeming, Iron Mountain and Escanaba. In accord (Hardware company, is back from a trip ance with these instructions, orders have been issued to Captain C. H. Arnold, Jr., and Private Charles A. Norman, insula, it being left to Captain Arnold to The Ontario Powder Works secured a York list, the coppers look low. We are complete all arrangements for canvass ing the district with a view or securing recruits; in fact, to make this a baner trip as far as collistments are con-The stay of the captain and Private Norman is to be thirty days at larger towns. Appicants will have a chance for the

ext month to be examined at the designated doctors' offices in the various localities. For Marquette, the station will be at Dr. Youngquist's office and the than for some time. Outsiders are get- doctor will gladly furnish any informating into the market again. The cables tion desired. Captain Arnold will be in sympathized partly, and St. Louis was Marquette from time to time as the enlistments warrant. No more minors will be enlisted and all applicants must prove to the captain or the doctor's satisfaction that they are twenty-one year old or over, and also give good refrences regarding their moral and menal training. The enlistments will take in all branches of the army, and will also include special enlistments for Philippine service and for the field artillery now tationed at Fort Sheridan, Ill. In ases where young men reside in outlyng districts and cannot visit the doc tor's office and if they are certain re arding their physical condition, by criting to Captain Arnold, care of Dr. E. Cruse, Iron Mountain, he will visit them for the purpose of enlisting the ap-

The captain hopes to duplicate, if not ured in Marquette a year ago, there aving been twenty-nine enlistments lso twenty rejections during the month of March, 1901. Private Norman is at present in Marquette, attending to the dvertising and can be seen at the Centhirty days.

#### BAD FOR LOGGERS.

Spell of Warm Weather Will Materially Curtail the Cut.

The feeling is strong among the lum ber manufacturers at the head of the John R. Franks, Ezia M. Bliss, Joseph lake that the present spell of warm weather has materially curtailed the log cut of the Northwest for the season of a thousand feet in length. Dolph, Francis Avery, Leslie Moffat, 1902. To what extent is not yet avail able in figures, but it is claimed that a ontinuance of the present mild weather he Lake Superior logging industry a

Already the firms that are getting out logs in the pine district tributary to the Duluth mills are receiving discourag ng reports from their camps. Some of y by the thaw that has taken away all he snow and ruined the ice roads, while a few camps are worrying along by vorking the teams and men at night when there is a temporary freezing of he roads.

One prominent logger said that no natter if the weather is cold from this veek on to the late spring, some of the vork very close to their cut. Those operators that have from 3,000,000 to 4,000,000 feet cut ahead are worrying he most. It is said that the present spell of weather will scare the operators n some portions of the district so much that they will cease all sawing for thi

The more optimistic of the lumbermer believe that there will still be plenty of cold weather before the general break-up for spring, but even these concede that the work will be conducted from now or

### SHORT-SIGHTED POLICY.

Stand of the Steel Trust on Ore Carrying Rates Is Scored.

In the battle between the big steel ompanies and vesselmen over carrying harges on iron ore for the coming seaen, sentiment in Chicago is entirely on the side of the vesselmen, even in the iron and steel trade. The efforts of the steel trust to break down freight rates ome at a time when it is paying enornous dividends from its profits on the ron ore which the vessels carry. There

SOMETHING THAT WILL DO YOU GOOD.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds and that alarming complaint, croup. refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) PALACE MEAT MARKET.

# Seidenfeld's.

<del>\*\*\*\*\*\*\*\*\*\*\*\*\*\*</del>

Spring is almost here: it is now just around the corner, and with the coming of this beautiful season we have prepared ourselves better than ever before to supply the people of Marquette and adjoining counties with their merchandise. Every incoming train brings us case after case of new up-to-date merchanise

#### DRESS GOODS.

During the past week we have received more than 100 pieces of wool dress goods. They comprise the popular fabrics for spring wear and are culled from the products of the best manufacturers in both hemispheres. When out do not fail to give our dress goods department an inspection if you are intending to buy.

#### LACE CURTAINS.

"Lace curtains by the thousand" is the common expression used by those who have been shown the mammeth stock we have just received for our spring trade and we wish to say, right here, that never in the history of our curtain business, have there been offered such good valves for so little money.

#### CLOTHING DEPARTMENT.

Men, boys and children will have satisfactory clothing if they will buy it from us. We pride ourselves in up-to-date, ready-to-wear clothing. Sweat-shop goods nave no part in the making up of our stock. Everything of the best. We buy on the plan that there is nothing too good to wear, and there is nothing so worthless as shoddy. You can depend upon buying the best of goods when you patronise

### SHOE DEPARTMENT.

Once a customer of our Shoe department, always a customer. Our shoe business is transacted on the same basis as our dress goods business, hence, the wonderful increase in this department. We sell shoes to wear; we sell shoes to fit and we sell shoes made of the best leather. No shoddy or cheap workmanship goes into a single pair of shoes bought at our store.

If You Buy it at D. Seidenfeld's it's Good.
