PRESCRIPTIONS.... NEVER ALTERED.

It does not make any difference what your physician prescribes, if you will bring the prescription to The People's Drug Store you get exactly what is specified. There is never a thought in our mind of substituting, or altering the prescription in any way whatsoever. We know that the doctor has a reason for prescribing just what he does, and we follow the prescription exactly.

In fact, we believe that the work of the physician is often defeated, and the patient made to suffer, because a mania for cheapness leads some druggists to substitute drugs of inferior quality for those prescribed. We invite you to bring prescriptions here. Our prices are always close.

HENRY IN CHICAGO

WINDY CITY GIVES PRINCE A ROYAL WELCOME.

THOUSANDS PACK THE STREETS

ELECTRICAL DISPLAYS ARE NOVEL AND ELABORATE.

Banquet at Auditorium Is Followed by Festival at Armory and Evening Is Concluded With a Brilliant Ball.

Chicago, March 3.—A glare of red fire that could be seen for miles, the blaze of hundreds of torches, the sparkle of myriads of electric lights, and the cheers of thousands of people made up the first taste of Chicago's hospitality that was given Prince Henry upon his arrival at this city this evening.

His train arrived at 6:30, and after he had been formally welcomed by Mayor Harrison and the members of the general reception committee, Prince Henry rode through streets packed with a dense multitude, whose cheers compelled the distinguished visitor to bow continually to the right and left.

Streets Thronged to Utmost.

The prince arrived in the city at a time when the streets are thronged to the utmost, it being the hour when thousands of people were leaving their places of business for the day, and of these people it seemed that nearly everyone walked over to Jackson boulevard to await the arrival of the prince.

For the entire distance the sidewalks were solidly massed with people so closely packed that it was with the greatest difficulty that the line of policemen drawn up in front of the curb could restrain the people from crowding over into the street and encroaching upon the line of carriages. The people were willing enough to stand behind the officers, but the trouble was that there was not enough standing room for them all.

No more flattering welcome could have been extended any visitor, and it came not so much from the officials of the city as from its citizens. Every building along the line of his route, from the depot to the Auditorium Hotel, was gaily decked with bunting, the prevailing colors being American and German flags intermingled with the black eagle of Prussia over all. Many buildings had upon their fronts elaborate devices made up of hundreds of electric lights.

"Welcomes" by the Dozen.

There were "welcomes" by the dozen; there were eagles and flags, and there were strings of gay colored lights almost without number. No hint of the electric light decorations was given the prince until after his carriage had rolled over the Jackson boulevard bridge and was descending gently the slope that leads toward Michigan avenue. Then almost in the same second the lights were turned on, and what had been but one second before a lane between dark, towering buildings, was an avenue of dazzling light.

Torch bearers, who were German veteran soldiers, lit torches at almost the same instant, and from end to end of the boulevard between the bridges on Michigan avenue, two-thirds of a mile away, there was an instantaneous blaze of red fire from both sides of the street.

For thirty minutes before the time set for the arrival of the train every passenger leading to the depot was lined with policemen elbow to elbow and officers guarded every point from the rear platform of the train to the line of carriages.

Prince Meets Chicagoans.

The German ambassador, Baron Von Holleben, was the first to alight and was greeted by Dr. Walter Wever, the German consul at Chicago. Dr. Wever was presented to the prince by Baron Von Holleben and Dr. Wever presented the prince to Mayor Harrison. The mayor extended greetings on behalf of the city, the prince replying, "I thank you." The members of the council committee, the prince's suite and others were introduced.

As the party appeared the great throng broke into cheers, and between the long lines of blue coats the prince passed to his carriage, a cavalry escort wheeled into line and the drive to the hotel was begun.

As the visitors passed through, the various streets they were everywhere greeted by enthusiastic crowds.

The feature of the procession was the large number of German veterans, who went fairly wild in their efforts to show their devotion to the prince. They carried torches, falling in line as the carriages passed, and escorted the visitors to the hotel.

At the door of the hotel the prince was met by the banquet committee, and immediately escorted to the banquet room. As he entered, escorted by the mayor and others, he was received with cheers, responding with smiles and bows.

Banquet at the Auditorium.

There were nine tables at the banquet, and including the prince and his suite 157 people were seated.

A. J. Eddy, at the conclusion of the dinner rose and said: "I have the honor of proposing the health of the president of the United States."

The toast being drunk standing, while the band played "The Star Spangled Banner," Mr. Eddy proposed "The Health of His Majesty, the Emperor of Germany."

(Continued on Page Four.)

GUIRIA IS BOMBARDED.

Matos Revolutionists Effect Landing of Insurgent Forces.

Port of Spain, Trinidad, B. W. I., March 3.—The steamer Liberator, now operating in the interests of the Matos revolution against President Castro of Venezuela, yesterday bombarded the port of Guiria for the purpose of protecting the landing of the insurgent forces there.

Details of this action cannot be obtained, but it is believed here that the government came out second best. This belief arises from the fact that there is a panic at Guirapao, where measures of defense are being adopted.

The government forces at Guirapao are actively engaged in placing a battery on a hill which dominates the anchorage. The guns of this battery have been taken from a Venezuelan gunboat.

EQUITY BILL AGAINST MERGER.

Document Will Be Completed the Latter Part of the Week.

Washington, March 3.—The bill in equity against the Northern Securities company, J. Pierpont Morgan, James J. Hill and others, to prevent the merger of the Northern Pacific and Great Northern and other northwestern railroads, is nearing completion and it is the present intention to have it ready to pass by the end of the present week.

The bill will be printed here and made public as soon as it has been filed. In just what court action will be begun is not yet definitely determined upon, but it is believed the bill will be filed in the United States circuit court at Minneapolis.

RACE MAY BE ARRANGED.

Lipton Will Permit Use of Shamrock II Under Certain Conditions.

New York, March 3.—C. W. Post, who offered to charter Shamrock II in order to race against Columbia, Shamrock to have an American and Columbia an English crew, has received a letter from Sir Thomas Lipton in which he agrees to permit the use of his yacht for the race with Columbia provided both crews are American. This does not meet with the plan to test the relative merits of crews of the two nations, and a representative will be sent to London and endeavor to arrange matters with Lipton.

PONTIFICAL JUBILEE.

Principal Ceremony Carried Over in the Presence of the Pope.

Rome, March 3.—The principal ceremony in celebration of the pontifical jubilee was carried out with extraordinary pomp at St. Peter's cathedral today in the presence of the pope, members of the pontifical court and foreign missions. It is estimated the assemblage numbered 50,000 persons. His Holiness did not participate in the service beyond pronouncing the benediction.

OUTBREAK IN COLOMBIA.

Government Forces Triumph Over Revolutionists in Severe Fight.

Washington, March 3.—Reports received here indicate that there has been a revolutionary outbreak in Colombia near the capital and severe fighting in the immediate neighborhood of Bogota. It is asserted the government forces have triumphed and the revolutionists were driven into the mountains with a heavy loss.

BRITISH VESSEL MAY BE LOST.

Steamer Tiber Thought to Have Foundered With Crew.

Halifax, N. S., March 3.—The British steamer Tiber of Lunenburg, C. B., for Halifax, is thought to have foundered with her captain and crew of twenty men. Tonight the owners of the steamer received word from Goldboro, Gushoro county, that life-boys bearing the name "Tiber" had been found there.

TURKEY DENIES LIABILITY.

Porte Repudiates Responsibility Regarding Capture of Miss Stone.

Constantinople, March 3.—United States Minister John A. Leishman has presented a note to the porte regarding the capture of Miss Stone by brigands demanding the punishment of the guilty parties. The porte repudiates the responsibility and denies all liability.

MICHIGAN POSTMASTERS.

Washington, March 3.—The president today nominated the following Michigan postmasters: George A. Hillon, Fremont; Fred A. Atuity, Grand Haven; Hugh B. Laing, Gladstone; Richard B. Laing, Houghton; Willard Harwood, Tawas City; Kimball E. Smith, Ionia; Ramsay Arthur, Schoolcraft; George W. Lask, West Bay City.

ST. PAUL ARRIVES IN PORT.

Port Townsend, Wash., March 3.—The American ship St. Paul, long overdue from Manila, arrived today. The St. Paul sailed 100 days ago and when not becalmed was driven off her course by adverse winds.

ENGINE BOILER BLOWS UP.

Los Angeles, Cal., March 3.—An engine on a Southern Pacific train blew up near Guadalajara this evening. Brake man Keshaw and Fireman Dugan were killed. Others were seriously hurt.

MIC'S STONE WILL LECTURE.

Indianapolis, March 3.—It is announced tonight that Miss Stone has contracted to lecture before the Clau-tanqua societies of this country next summer.

WILL LIVE IN PEACE

UNITED STATES AND GERMANY BOUND TO BE FRIENDLY.

OPINION OF COUNT VON BUELOW

NO POLITICAL OBJECT IN PRINCE HENRY'S VISIT.

Hospitable and Brilliant Reception of Kaiser's Brother Viewed With the Liveliest Satisfaction by the Germans.

Berlin, March 3.—In the reichstag today Herr Hasse (liberal) expressed his pleasure that the visit of Prince Henry to the United States had frustrated the designs of Great Britain against the German-American understanding. Herr Graebner (social democrat) ridiculed the idea of any advantage arising from Prince Henry's visit. Chancellor Von Buelow regretted the remarks of the last speaker, especially in view of the splendid welcome Prince Henry is receiving from the American people. This remark was greeted with applause from all sections of the house.

To Uphold Good Relations.

Continuing the chancellor said that the journey of the emperor's brother had no political object save the natural one of upholding the traditional good relations between Prussia, Germany and the United States, which had existed since the days of the great Frederick and the great Washington.

"Both nations," said Chancellor Von Buelow, "have every reason for mutual esteem. They have no occasion whatever to besmirch one another or dispute with one another. They have every interest for living in peace and friendship, based upon complete reciprocity, even in the most remote future."

Political Ways Do Not Cross.

"My eye perceives no point where the political ways of the German and American people cross. I made this statement in this house some three years ago. I was then under the impression I was in sympathy with the great majority of this house. Of this I am now convinced. I am not saying this for Germany alone, but also for abroad. I am further convinced that I also agree with the great majority of this house when I recognize that the German people have viewed with lively satisfaction the hospitable, chivalrous and brilliant reception which the American nation has accorded the brother of the German emperor."

No Interference in South Africa.

Count Von Buelow also assured the reichstag in a somewhat lengthy speech that there was not the slightest likelihood nor desirability of Germany taking any steps to interfere in the course of affairs in South Africa. Such a course, said the speaker, was not in accord with German interests and policy. If the government listened to Herr Gradnauer and his adherents, he continued, it would have to intervene, not only in South Africa but in Armenia, the Philippine islands and Finland.

COMMERCIAL INSOLVENCIES.

Dun's Report for February Shows the Total Number to Be 1,104.

New York, March 3.—The commercial insolvencies in February, according to the report of Dun, were 1,104, with an aggregate indebtedness of \$11,292,929. In the same month last year there were 1,024 defaults, amounting to \$11,257,211. The moderate increase in number is mainly due to misfortune at the South, where bankruptcies were numerous in general stores, although the amount of money involved was not large.

Manufacturing failures during February were 238 in number and \$4,915,045 in amount, compared with 212 last year for \$4,398,741.

In the class covering banks and trust companies, only three failures were reported during February, involving \$148,000, compared with seven last year for \$412,132.

Canadian failures during February were 124, with liabilities of \$1,094,774, of which 67 were in manufacturing for \$36,800, and 107 in trading for \$800,974, while of the other commercial insolvencies there were two owing \$157,000.

BODY FOUND IN RESERVOIR.

Traverse City, Mich., March 3.—For-dinand DeRouin, an Escanaba patient in the Northern Michigan Insane Asylum, disappeared Nov. 3 last and nothing was heard of him until today when his body was discovered floating in a reservoir at the rear of the asylum.

ILLINOIS BANK CLOSES.

Elkhart, Ill., March 3.—The bank of Elkhart failed to open its doors for business this morning following an investigation by the bank examiners. The deposits are \$80,000 and the exact amount of the shortage is not known. President Taylor states a statement fully cover the liabilities.

PYTHIANS ARE PROSPERING.

Indianapolis, March 3.—The board of control of the employment rank of the Knights of Pythias issued a statement today showing that on July 1, 1901, the unpaid accounts amounted to \$569,500, and at the end of December they had been reduced to \$248,500.

FILIPINOS ARE ROUTED.

Constabulary of Morong Encounters Eighty Armed Insurgents.

Manila, March 3.—Twenty-five members of the constabulary of Morong, ten miles from Manila, encountered eighty armed insurgents today. The former fled, after expending all their ammunition. Eleven of the constabulary are unaccounted for and it is believed they were killed or captured.

No War in Philippines.

New York, March 3.—General Funston, in an interview with the Herald, says there is no more war in the Philippines than in Kentucky. Assassins lurk in the cane and kill defenseless men, but there are no soldiers in the field to fight the American troops. He thinks that half of the troops might be brought home now, and half the remainder at the end of another year.

TRIED TO REACH PRINCE.

Discharged United States Soldier Creates Excitement at Auditorium.

Chicago, March 3.—Some excitement was caused tonight by the determined effort of George F. Howe to reach Prince Henry at the door of the Auditorium. Howe is a discharged United States soldier who served in China and the Philippines. At the police station he declined any desire or intention to harm the prince, but he wanted to present him with letters of recommendation and a letter asking permission to return to England on the same ship the prince will make his return voyage. No weapon of any kind was found upon him. Stories of an attempt to shoot the prince grew out of this incident.

DEPLORE HONOR SHOWN PRINCE.

Ten Thousand Poles in Chicago Hold a Secret Meeting.

Chicago, March 3.—While Prince Henry was receiving the plaudits and homage of the thousands gathered in the Auditorium and First regiment armory, over 10,000 Poles met in secret session throughout the city tonight and deplored the honor shown the German emperor's brother.

The meetings were under the auspices of the Polish National Alliance and were the climax of a series that have been held since the first announcement that Emperor William was to send his brother as his personal representative to America.

FOUGHT DUEL WITH SWORDS.

Members of Buda Pest House of Representatives Have a Fierce Encounter.

Buda Pest, Hungary, March 3.—Count Stefan Tisza and M. Radovsky, both members of the house of representatives, fought a duel with swords today. M. Radovsky was severely wounded in the arm after an unusually fierce encounter. The duel was the outcome of an exchange of vituperations in the diet. The combatants refused to be reconciled after the fight.

DECIDES AGAINST DETROIT.

Supreme Court Holds Three-Cent Fare Ordinance Is Irregular.

Washington, March 3.—In a decision rendered in the United States supreme court today it was held that the ordinance enacted by the city government of Detroit, Mich., arbitrarily reducing street car fares to three cents, is irregular and without binding effect. The decision is based upon the fact that previous ordinances have been passed fixing street car fares at five cents.

KITCHENER SENDS DETAILS.

British Casualties at Vondopon Were 632 Killed, Wounded and Prisoners.

London, March 3.—Lord Kitchener sends details today of the disaster to the escort of a convoy of empty wagons at Vondopon, Transvaal colony, Feb. 23. The British casualties in killed, wounded and prisoners were 632. In addition the Boers captured two guns.

INJUSTICE TO CLERKS.

President D Approves Civil Service Provisions in Census Bureau Bill.

Washington, March 3.—The president disapproves the civil service provision for a permanent census bureau bill which extends the rules to 1,700 clerks now employed in the census office. He considers it an injustice to those who have passed the examination.

SHELDING MAKES DENIAL.

Bishop of Peoria Not a Candidate for Rector of Catholic University.

Peoria, Ill., March 3.—St. Rev. John Lancaster Shelding, bishop of Peoria, emphatically denied today that he was a candidate for rector of the Catholic university at Washington. The bishop characterized the rumors as absurd and asserts he does not want the position.

BOTH EYES DESTROYED.

Guthrie, Okla., March 3.—Edward Agnew of St. Louis, construction contractor on the Choctaw railroad here, lost both eyes and was otherwise dangerously injured today by the premature explosion of some dynamite in excavating a right of way.

EIGHT BUILDINGS BURNED.

Standish, Mich., March 3.—Fire which started in the Standish house today burned eight business houses before it was brought under control. The loss is \$50,000.

ROOSEVELT TO VISIT EXPO.

Washington, March 3.—The president today informed the committee from Charleston, who called upon him, that he will visit the exposition in that city.

HANDICAPPED.

The man who started to run a race in chains and fetters would be visibly handicapped. No one would expect him to succeed. The man who runs the race of life when his digestive and nutritive organs are diseased is equally handicapped.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. When this is done food is perfectly digested and assimilated and the body receives strength in the only way in which strength can be given—by the nutrition derived from digested and assimilated food.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good." Dr. Pierce's Common Sense Medical Adviser, sent free on receipt of stamps to cover expense of mailing only.

BAD BLOOD

CHARACTERS do all claimed for them and are a truly wonderful medicine. I have often used them for a medicine to take and as I have found it in Canada. Since taking them, my liver has been purified and my complexion has improved wonderfully and I feel much better in every way.

Placeant, Palatable, Potent, Taste Good. Do Good. Never Sickens, Weakens, or Grips. No. 20, 100, 500. CURE CONSTIPATION. Solely Sold by C. H. HOOD & CO., New York, N. Y.

DAILY MINING JOURNAL.

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MAIQUETTE, MICH., MARCH 4.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

John F. Bible of Ionia says he is willing to run for governor on the Democratic ticket this year. If the party is willing to take him. But it won't be. His name kills his chances of being looked on with favor by the Democracy of Michigan.

In a test case brought to test the validity of one of Superior's numerous bond issues Judge Vinji has decided that an issue of \$600,000 under the charter of 1880 is void, for the reason that it was a general issue and that no provision was made for the payment of the face value of the bonds or interest on them.

Marshall Field, of Chicago, is said to be one of the richest of the multi-millionaires in this country. He has factories in England, Ireland, Scotland, France, Italy, Spain, Germany, Austria, Russia, China, Japan, India, Australia and South America.

There is a connection between the slot machine and the machine political in Philadelphia, it appears. An exchange says the earnings of the slot machines in that city amount to \$2,500,000 annually and that the owners are so well entrenched behind the authorities that every effort to drive them out has failed.

An industry that has been forging to the front rapidly of late years is the manufacture of cement. An article in the Cement and Engineering News gives facts showing the extent to which the material is now entering into construction work that are surprising to those who have not kept track of its increasing use in the preparation of foundations for the better class of buildings and other structures where solidity and durability are desired.

Tillman insists on being regarded as a gentleman, though conducting himself after the fashion of a rowdy with tireless frequency. There was a time when congress was dominated in both branches by "gentlemen" of his stripe, but the American people are not particularly proud of the record made by the men who then dominated in the government.

A fairy story in one of the Detroit papers represents the Bliss forces as being so rattled by the doubt of their ability to pull off a second term for the governor that they are now figuring on throwing their strength to Horton to prevent Stearns from getting the nomination.

The new French postage stamps represent a young woman resting her hand on a tablet which bears the words "The rights of man." This has suggested a clever notion to Mme. Hubertine Auclert, a Frenchwoman who favors equal rights.

stamps for use in their correspondence. Carrie Nation, with an uplifted hatchet in her right hand, would make a fine vignette for a similar stamp issued in the interest of "the rights of women" in America.

STOCK MARKET POINTERS.

In his weekly circular letter on stock market features Henry Crows, the Wall Street banker and broker, gives this presentation of the conditions as they exist at present: Stocks appear to be very firmly held by the big interests which have persistently protected the market against all attacks for months past.

HE WASN'T FORGOTTEN.

The mid-winter meeting of the Lake Superior Press association took place yesterday at Escanaba, and brought out a good attendance. The editor of The Mining Journal counted on being present as much could be, but had the ill-luck to be laid up and unable to do so.

MICHIGAN AND SUGAR BEETS.

Leo M. Geismar, superintendent of the state experimental farm at Chatham, writes to the Mining News that in his opinion Governor Bliss should be warmly commended for the pains he is taking to foster and protect the sugar beet industry.

THAT NEW DAILY.

Quite naturally, the publishers of The Mining Journal have not been called in to the confidence of the persons who are said to have in view establishing an evening daily paper at Marquette, and are therefore unable to give the project such mention as its importance would entitle it to.

Headache

Biliousness, sour stomach, constipation and all liver ills are cured by Hood's Pills. The stand taken by the United States Steel Corporation and M. A. Hanna & Co. with reference to contracts for the movement of iron ore by lake during the coming season of navigation leaves unsettled as yet the question of rates on a very large amount of ore that must

be moved by vessels other than those controlled by ore interests, says the Marine Review.

These two large concerns are still holding out for a rate of 75 cents from the head of Lake Superior, and the past week has brought no indication of a change in their position. In the meantime a little more ore is being covered by other shippers, so that in all nearly 4,000,000 tons of vessel capacity has been engaged at 80 cents from the head of Lake Superior, 70 cents from Marquette, and 60 cents from Escanaba.

The large interests that are endeavoring to establish a 75-cent rate admit that their claim for a rate lower than last year is not based upon conditions surrounding the iron and steel industry. They say there is no sentiment in the stand they have taken any more than there was sentiment in the action of the vessel owners, who last year advanced the rate on ore from 80 cents to 81.25—some of it on ore that had been sold on a cost basis generally low.

Lower Michigan.

John E. Foote, superintendent of the tailor shop of the Jackson state prison for six years, has been appointed private secretary to Warden Vincent, in place of Wylis P. Hawley, resigned.

Mrs. William Tough of Bay City, died Saturday morning from injuries received in a fall from a staircase when she fell down stairs. She was 75 years of age and had lived in Bay City a quarter of a century.

Wm. L. Stubbberg of Brighton saw what he thought was a revenue stamp off a cigar box lying in the mud, but he picked it up, scraped the mud off, and discovered that it was a roll of greenbacks containing \$100.

A stranger has been working school officers in Cambria and Wright townships, Hillsdale county, on the old, old chart game. Receipts turn up as promises are made.

The seven-year-old daughter of Henry Chamberlain was bitten Friday by a dog which, it is feared, was mad. The child was playing on the walk when the dog jumped and bit her on the hip, thrusting its fangs deep in the flesh.

Assistant Secretary-Treasurer Spaulding has made a final ruling that the fine of \$25 upon the tug Doribus shall stand. The Doribus was the tug that made the raid on the illegal fishermen off St. Joseph, with Game Warden Brewster on board.

James White, employed at the Wenona coal mine in Bay county, was caught under a mass of falling slate Saturday morning and so terribly crushed that he died before the fallen rock could be removed.

Valuable property along the St. Joseph river is in great danger of destruction by the greatest flood of ice in the river ever known. It is expected to break loose at any moment.

Mrs. Josephine Gardner Goodale, wife of Geo. P. Goodale, dramatic editor of The Detroit Free Press, died of heart failure Saturday morning at the family home in Detroit.

Mrs. Josephine Gardner Goodale, wife of Geo. P. Goodale, dramatic editor of The Detroit Free Press, died of heart failure Saturday morning at the family home in Detroit.

You Can't Feel Sick

UNLESS YOU ARE SICK, AND YOU CAN'T BE SICK IF YOU TAKE PROPER CARE OF YOURSELF.

Proper care demands Smith's Green Mountain Renovator.

Taking proper care of yourself simply means keeping the blood pure and the stomach, liver and kidneys working along in their regular, normal way. If you neglect yourself when you see you are not exactly right, your blood gets full of the impurities which would otherwise pass out of your system, and there is trouble in store for you.

You ought to follow the sensible example of the sons and daughters of Vermont! At home they take Smith's Green Mountain Renovator—and have been taking it for many years. When they go away, they send back home for it. They don't run any risks—they know it will cure them. They won't have to send back home any longer.

People with money have taken hold of this medicine and are introducing it everywhere through agents who they know will give it to the people in the same condition it comes to them and not attempt to substitute other things for it.

We have the sole agency here, and we want you to try it. If it doesn't give you prompt and sure relief, you can just come in and tell us and get all your money back.

Stafford Drug Co.

family all at once. Minnie was often questioned regarding the accuracy of this statement, but declared that it was true, and the records of the births could be found at his old home in Huron county. All of these children, however, died in infancy.

The common council at Homer has decided to submit to the people at the spring election a proposition to bond the village for \$20,000 for a system of water works. Whether it is to be a bona fide water works plant, or is only a scheme to evade the law prohibiting the issuing of bonds to raise money for bonuses for factories is not stated.

Two smooth strangers fleeced Goldberg's department store at Monroe out of \$10.50 in cash and \$18.50 worth of shoes and clothing last week. They entered the store one afternoon and selected goods which were laid aside for them. Later they returned and presented a bogus check for \$35 on the First National bank of Monroe, signed with the name of O. B. Tracy, bridge contractor.

The goods and cash for the balance of the check were delivered to the windlers and thus far the police have been unable to locate them.

Attorney C. W. Hendryx of Niles has levied upon Richard Kennedy's valuable resort at Barron lake to satisfy the judgment for \$1,500 recently obtained by Mr. Kennedy's father in the famous \$10,000 damage suit that was tried at the last term of the Cass county circuit court.

The elder Kennedy claiming that his son caused him, while perfectly sane, to be shut up in an insane asylum. In connection with this judgment and levy some sensational developments have arisen.

Since the rendering of the \$1,500 judgment, Richard Kennedy is said to have mortgaged the Barron Lake property for \$5,200. Attorney Hendryx maintains that about half of this is fraudulent and he will endeavor to knock the mortgage out.

COUNTY BRIDGE HEARING.
County and Railroads Object to Having Draw Widened.

The hearing in the county bridge condemnation proceedings was called to order at 10 o'clock yesterday morning in the government engineers' office at Houghton by Captain G. G. Gaillard, who is in charge of the Lake Superior district with headquarters at Duluth. Those present were Allan F. Rees, representing the interests of Houghton county in the present matter; A. B. Eldredge, for the Mineral Range road and the D. S. S. & A. Railway company; R. T. McKeever, general manager of the Copper Range road, for the Copper Range; A. J. Otterson, agent of the Union Transit company at Portage Lake, and J. C. Thompson, local agent for the Western Transit and Anchor lines. Messrs. Otterson and Thompson were present merely as interested spectators.

The hearing was called to receive protest against the building of a new draw and complaints against the present one. The war department considers the opening in the draw now in use on the county bridge over Portage Lake between Houghton and Hancock too narrow, and called the hearing which is authorized by Section 18, act of March 3, 1899. The same act gives the secretary of war power to act in cases where there are obstructions to navigation and to remove the same if found objectionable after due consideration.

Mr. Eldredge, as spokesman for the county and the railroad companies which are using the draw in common and which would have to bear the expense of a new draw were one built, stated that the hearing provided for by the act of March 3, 1899, is one before the secretary of war and not before a chief of engineers, as is contemplated. He may be given them at some day in the future, at which they may make such allegations and furnish such proof as they may be advised is necessary. This objection to the hearing was formally filed. Some surprise was caused by the contention that the hearing should be conducted by the secretary of war and not by Captain Gaillard. The captain stated afterwards that all he had to do was to take down the protests in writing and forward them to the secretary of war and he would do the rest. The secretary is virtually conducting the hearing. None of the others present had anything further to say in the morning and an adjournment was taken at 2 o'clock in the afternoon when formal protests in writing against a new draw were to be filed by the county and railroad companies.

That action for a new draw will be bitterly contested by the county and railroad companies was plainly apparent. Mr. Rees stated after the morning session that the county would oppose the building of the new draw. The county caused plans for a new draw to be sent to the war department last year and they were approved by the secretary on Jan. 7, 1901. The county now opposes the new draw.

The resolution to the present draw are well known. Vessels have already filed protests to the effect that the openings in the draw are too narrow. In 1897 and 1898 the draw was rebuilt by the Mineral Range Railroad company at a cost of about \$200,000.

At the afternoon session Mr. Eldredge, for the Mineral Range Railroad company, read a written protest against the widening of the draw which was to the effect that the present structure is permanent and sufficient for the public and the government at present and for many years to come; that if conditions of navigation have not changed since the draw was rebuilt the secretary of war should not cause the Mineral Range company to lose the benefit of its investment in its record to show it is an unreasonable structure. Mr. Rees also read objections to a new draw which in brief were about the same as offered by the Mineral Range company. A similar protest was presented by Mr. McKeever of the Copper Range.

The expense a new draw would incur was the principal contention in all three objections. It is claimed that the expense would be too great for the people of the county to bear and also for the Mineral Range and Copper Range companies, which are and have been under much expense from recent construction work. A final objection for all three parties, read by Mr. Rees, was to the effect that the county and railroad companies were not advised as to what made the complaints against the present draw and what the objections are, and that the hearing was not one as required by the statutes, no change being given the county and railroad companies to answer the complaints.

Mr. Eldredge contended that if the hearing was to decide the question of a new draw the decision ought to be in favor of the county and railroad companies as no causes, but only a few suggestions, were offered at the hearing why the openings in the draw should be widened. It is generally understood, however, that vesselsmen have already forwarded their complaints, which will be taken into consideration by the secretary of war.

BOOTH LINE MAKES PLANS.
Three Trips a Week to the Copper Country Arranged for the Argo.

H. H. Brigham, traffic manager of the Booth line, was in Duluth last week, and with the local officials completed the details for the operation of the steamers Argo and America, the coming season. The latter boat is now at Grand Haven undergoing repairs and alterations that will make her one of the finest boats on fresh water.

The Booth company will make five Royalas three times a week with the America, and between June 15 and September 15 will touch at both ends of the island and Port Arthur every trip. The Argo is to make three trips a week also between Duluth and the copper country, and the Hunter will continue a regular service by running between Houghton and Port Arthur, connecting with the America at Port Arthur and the Argo at Houghton.

COPPERDOM BREVITIES.
H. F. Fay of the Fay group of mines is in the copper country. During January there were sixty-two deaths reported for Houghton county. A regular meeting of the county board will be held one week from today. Nilsson will give a skating exhibition at the Superior ice rink, Laurium, this evening.

A regular meeting of Lillian tent, K. O. T. M., South Lake Linden, will be held this evening. The Dittler bowling alleys at Hancock will be ready for the game the latter part of this week. The Calumet Light Guard indoor baseball team will soon go to Marquette for games with the Macabees and Leavers. A skating party will be given by the Quincy band at the Palace ice rink, Hancock, this evening. Music will be furnished by the full band.

What promises to be an interesting indoor baseball game will be played at the Osceola hall next Monday evening by teams of mariners and single men. W. H. Urttler of Hancock recently sold 100 acres of timber land on the South range to the Champion people. The timber will be cut for mine purposes it is said. R. W. Montgomery, formerly a student at the Michigan College of Mines, is now employed by the Copper Range road as a draughtsman on its staff of engineers.

L. L. Distel, until recently a driver for the Western Express company at Houghton, is now a messenger running between the Soo and Peabine on the Soo road. The several inches of snow which fell Friday and Saturday has helped loggers generally in the country. During the warm spell last week several camps broke up for the season. The skating party to be given by the Houghton Light Infantry at the Palace ice rink, Hancock, Thursday evening will be the last of the season. Music will be furnished by the Calumet & Hecla band.

A game of indoor baseball will be played this evening at the Houghton armory between the engineers and captains of the Licensed Tugmen's Protective association. The proceeds will be given to the Good Will fund. Great interest is being taken in the coming concert to be given by Sousa's band at the Calumet theatre on the afternoon and evening of March 15. Large delegations from Portage Lake will attend both entertainments. Calumet's Finnish daily, Paivalehti, has been considerably enlarged owing to increased advertising patronage. The paper is largely read by the English population of the upper peninsula and from all accounts is a good sheet.

The Fuel & Supply Co., of Hancock, intends to increase its storage capacity for coal in the spring and to continue work for installing fuel from vessels. A larger amount of fuel than ever will be handled this year by the firm. Needham's laundry at Houghton has a great plan for supplying copper country officials with towels which it is carrying out with success. For only ten cents a week the laundry brings a clean towel around every morning and takes the dirty one away. Frank Prescott and Gordon Wood, who have been attending the Michigan College of Mines, have also positions with the Northern Pacific road and it is said will be employed with a party which will explore for ore along the company's line. The boys have gone to St. Paul.

Treasurer Healy of Portage township collected \$75,000 out of \$78,000 this year. Two years ago the amount spread on the tax rolls was \$47,000 and all but \$800 was collected last year, but considering the increase in the assessed valuation the amount delinquent this year is small in comparison. **HOW'S THIS?**
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. West & Tribble, Wholesale Druggists, Toledo, O. Knickerbocker, Kimball & Marvin, Wholesale Druggists, Toledo, O. possible, and it is expected to go into commission in about sixty days. The South Range copper will get no such lift as Trimountain has had. And their best friends do not want it. There are plenty of people, however, who believe that the stock of the new Consolidated Copper Range company will touch seventy before April 1.—Boston Journal.

Reports from the Lake just at hand indicate more interest throughout the district in copper than has been shown in a year past. The Lake was badly hurt by the Amalgamated collapse, but it is now well recovered therefrom.—Boston Journal. It is understood that some of the largest stockholders of the Osceola are arranging for a protest at the annual meeting of the company against the recent heavy sales of copper through the United States Selling company at eleven cents. It is expected the second head of the Mass mill will go into commission this week. The Wolverine produced 245 tons, 300 pounds in February.

OUR BLEACHED INDIANS.
Aborigines Slowly Fading Into a Race of Half-Breeds.
Until the government began to take an accurate census of Indians it was the common opinion that the red men were rapidly disappearing owing to their tendency to consumption and to the frequent epidemics of smallpox among them. In spite of the contrary revelations of the census bureau there is authority for the statement that the red men are in fact in course of extinction. According to scientists, Indians of pure blood are comparatively few, even the Chippewas, who cling to the traditional dress of the savage, being all lightened from a sixth to a fourth by the admixture of white blood. The same is true in the same degree of the Sioux and Pottawatomee families, although the Sioux continue to pose as typical red men. According to Professor Wilson, of Toronto, not a single pure blood Indian remains in some of the Canadian bands. In Minnesota there are thousands of aborigines of mixed blood who are no longer classed as Indians, but as whites. In every center of Indian population, and especially in the Indian Territory, the marriage of white men to Indian women has become common, being stimulated by the consideration that the husband gets the wife's share in any division of Indian money for the sale of lands, etc. From this it must appear that in directing the Indians to have their hair cut, abandon their face paint, moccasins and other articles of Indian wear, the commissioner at Washington will insure less hardship on most of the nation's wards than is popularly supposed. There is reason to think that the adoption of the white man's dress by the Indians may check the inter-marriage system, which is bleaching out the race. Indian women, with their dumpy forms and their lack of a cultivated taste, will be less attractive in the garb of frontier white women than in the characteristic native dress. The order will, however, lead to the adoption of white customs if it shall be enforced. A man in a ready-made suit of clothes such as the Indians have been directed to wear would be too absurd in a ghost dance or it a dog

SHIPPING BILL UP

MEASURE TO PROVIDE OCEAN MAIL SERVICE DISCUSSED.

SENATOR FRYE OPENS IN SUPPORT

RURAL FREE DELIVERY BILL TAKEN UP IN HOUSE.

Sub-Committee of Committee on Inter-Oceanic Canals Come to an Agreement Regarding the Panama Offer.

Washington, March 3.—The senate today began the consideration of what is popularly known as the shipping bill—a measure to provide for an ocean mail service between the United States and foreign ports and common defense; to promote commerce and to encourage deep sea fisheries.

Senator Frye of Maine, chairman of the committee on commerce, made the opening statement in support of the bill. He occupied the floor nearly two hours. The policy of protection, which had been applied, he said, to American industries with such beneficial results, had not been applied to the shipping industry. The result of this short-sighted policy had been the decadence of the American merchant marine and the consequent humiliation of Americans engaged in the shipping industry.

Senator Frye's address was largely technical but this argument was listened to with close attention by the senators on both sides of the chamber.

Prior to the consideration of the shipping bill many minor measures were passed.

Rural Free Delivery.

The house today began the consideration of the bill to classify the rural free delivery service and place carriers under the contract system. Only two speeches were delivered today. Representative Loud of California, chairman of the committee on postoffice and post roads, made the opening argument in favor of the bill, speaking for two and a half hours. Representative Swanson of Virginia led the opposition. The debate was interrupted before the closing of the session by the presentation of the conference report upon the Philippine tariff bill. Representative Payne, the majority leader, declined to allow the minority more than thirty minutes in which to discuss the report, and this offer was rejected.

Filibuster followed and the house adjourned after the previous question of the adoption of the report had been ordered.

Cuban Relief Question.

The Republican members of the house, who met in conference again tonight, to consider the Cuban relief question, after three hours of fruitless discussion adjourned until Thursday without action.

W. Fordney of Michigan and Mr. Morris of Minnesota, who oppose a direct tariff concession and espouse a plan giving a rebate direct to the Cuban sugar planters, held the floor throughout the evening. Much feeling was manifested. Political disaster to the Republican party in the beet sugar states is predicted if the tariff on sugar was lowered for the benefit of Cubans when another solution was open.

Inter-Oceanic Canals.

The sub-committee of the committee on inter-oceanic canals today agreed to recommend to the full committee that the leading canal project, the Panama offer, be accepted. This sub-committee consists of Senators Morgan, Mitchell, Kittredge, Pritchard, Foster, (La.), and Turner. Senator Pritchard was not at the meeting today while Senator Kittredge said he reserved the right to make a minority report to the full committee. The other four members united in the recommendation.

POPULISTS TO STAND ALONE.

Memphis, March 3.—J. A. Parker, chairman of the national committee of the middle-of-the-road Populists, said in an interview today that there would be no more fusion between Democrats and Populists. He said the Democrats are getting farther and farther away from the last two platforms and are abandoning all the principles cherished by the Populists.

JAMES FERGUS DYING.

Leviaton, Mont., March 3.—James Fergus, a pioneer of Wisconsin, Minnesota and Montana, is dying and relatives have been summoned. He founded Fergus Falls, Minn., and when in the legislature of this state presented a bill for the creation of Fergus county, named in his honor. He was a member of the state's first constitutional convention.

Pure Blood

We wish you would ask your doctor what makes you so nervous, why you are so easily tired, and what makes your digestion so weak. See if he doesn't say, "Impure blood." He will probably speak about Ayer's Sarsaparilla, too.

"For two years I suffered greatly from dyspepsia and depression of spirits. I then tried Ayer's Sarsaparilla, and in one week I was a new man."

John McDonald, Philadelphia, Pa.
All druggists. J. C. AYER CO., Lowell, Mass.

FOUGHT A DRAW.

Yanger-Broad Contest at Chicago Fias from the Onset.

(Chicago, March 3.—Benny Yanger of Chicago and Kid Broad of Cleveland fought six rounds to a draw tonight. Yanger was in trouble during the last round and the referee's decision was hissed. The fight was fast from the outset.

Sanchez Is Worst.

Milwaukee, March 3.—Danny Duane of New York got a decision over Emf Sanchez of Cuba tonight.

In a preliminary Jack Carner of Chicago knocked out Buddy Brown of Chicago in the second round.

Kid Memphis of Chicago won from Shorty Ryan of Chicago in six rounds, and Billy Moore of Grand Rapids, Mich., got the decision over Bub Palmer of Chicago in six rounds.

O'Brien Back from England.

Philadelphia, March 3.—"Philadelphia" Jack O'Brien made his first appearance in America tonight since his recent successful tour of England, where he defeated all comers in the middle and heavyweight class.

He met Andy Walsh of Brooklyn, who was clearly outclassed. Early in the third round O'Brien had Walsh in such a helpless condition that the referee stopped the fight.

Was English Championship.

London, March 3.—At Whitechapel tonight "Sandy" Ferguson of Boston easily defeated "Ben" Taylor of London in a ten-round contest for the heavyweight championship of England and £150.

MIDDIES TO HAVE FINE HOME.

New Naval Academy Building at Annapolis Will Cost \$9,000,000.

Annapolis, Md., March 3.—Uncle Sam's naval cadets are soon to have probably the finest home in the United States. At present the group of buildings constituting the naval academy is what was disreputable, just as the West point buildings are said to be. The reason is that the whole set of structures is practically made up of extensions to the old Fort Severn, where the school was first established by Secretary of the Navy George Bancroft in 1845. They are sadly lacking in such modern equipments as are now considered as numbered among the necessities of life. They are dreary, draughty and uncomfortable in winter and summer, despite their scenic beauty, and the buildings were sadly needed long before the foundation was laid.

The new buildings will constitute the finest marine college in the world. When finished they will represent an expenditure by the government of \$9,000,000. Already buildings have been constructed by a firm of Philadelphia contractors at a cost of \$3,000,000, and there are no finer structures in the country. The new armory is a superb building, admirably adapted to the purpose, and the building in which the cadets will be housed is well under way. It will accommodate 600 students.

The new academy will be equipped in the most thorough and approved manner and will be far superior to the academy at West Point, even when the proposed improvements are made there. The only structures that will be retained are old Fort Severn and Governor's Mansion, a handsome and commodious house of colonial style, which has been celebrated in song and story. The building commands an excellent view of the beautiful Severn river, the Chesapeake bay in the distance and the splendid hills of Maryland.

TYPES OF SCHOOL GIRLS.

The Little Mother, the Unconscious Beauty and the Studious One.

A woman who has passed years as a principal of a large girls' school, who has had a profound study of her charges, said the other day:

"When you see a cluster of school girls, do you ever think of the types they represent? Now, one of the most interesting types is the little mother. Something of the maternal instinct is irrepresible in this girl's heart. She makes favorites among the smallest of her companions, and the distant home is still remembered with the old dolls on which she lavished her love in nursery days. One has great faith in the happy future of this simple, tender type of school girl.

"And then there is another type," the principal went on, "There is the unconscious school girl beauty, and she is a veritable vision of delight. Of course there are schools where coquetry is learned side by side with grammar, and where the passions of grown-up people begin to spoil the happy air of childhood. But that is a sad mistake.

"The slightest beauty of her girl. This little maiden is just at the meeting of the brook and river. Her fingers are pinky, but her face would pass for one of Reynolds' angels. Three or four summers more and the pair of blue eyes will find out their power. At present she will thank you for an apple, and when she smiles it would be profanation to tell her of her loveliness.

"Another type of school girl," continued the principal admiringly, "is the studious girl. She is usually highly nervous and sensitive, and she works from an instinctive earnestness of character. It is well to persuade her that the bright Yarn-Yarn is also to be admired, for the studious little maiden requires twice as much recreation as her lazy companions, and the teacher should see to it that she gets it.

"If managed properly and directed wisely, the quiet, studious girl will grow up very happy, into a bright and radiant character, fruitful of humor and gaiety. The secret of the change will be in this: That the girl does with all her heart whatever she turns to, and as girlhood develops into womanhood she will discover that it is worth while to laugh with one's whole heart, as well as to work, and the strong, nervous character will have the energy left upon the discovery."—New York Tribune.

TODAY'S WEATHER.

Washington, March 3.—The following is the weather bureau's forecast for Up- per Michigan: Generally fair Tuesday and Wednesday; fresh northwest to north winds.

RELIEF IS IN SIGHT

RIVERS IN THE EAST ARE NOW FALLING RAPIDLY.

DANGER IS NOT OVER, HOWEVER

SUSQUEHANNA STILL ABOVE THE HIGH WATER MARK.

Bridges Are Menaced and Other Property Along the River Is in Danger—People Move to High Ground.

Susquehanna, Pa., March 2.—The Susquehanna river, which rose fourteen inches on Saturday, fell seven inches last night, but is tonight still above the high water mark, menacing bridges and other property along the river. Household effects, livestock and grain have been moved to high ground.

Ice Gorges in Hudson.

Hudson, N. Y., March 3.—The high water in the Hudson river and the forming of ice gorges above the city, south of Albany, has stopped railroad traffic on the New York Central & Hudson River road.

Passengers on the Empire State Express were badly frightened, being compelled to remain in cars several hours during the night, the ice battering the cars, while the water was up to the seats. They were finally rescued by rowboats and placed in a relief train which was sent here.

Six Men Swept Away.

Passaic, N. J., March 3.—Six lives are known to have been lost in the flood last night. A bridge in Bergen county went out, carrying with it six men, whose identity is unknown. The men were on the bridge watching the flood when the structure started in the middle and went down the stream in fragments.

Houses Filled With Debris.

Wilkesbarre, Pa., March 3.—The Susquehanna is falling rapidly and the worst is over. It will be several days before hundreds of houses will be tenanted as they are filled with mud and debris. By the flooding of the mines in the Wyoming valley 25,000 miners are idle.

Big Damage at Harrisburg.

Harrisburg, Pa., March 3.—The Susquehanna has been at flood height longer than ever known here and Harrisburg has suffered great damage. Tonight the waters are receding at Sunbury, Milton and Williamsport, but there was a great flood reported at Wilkesbarre.

Cold Weather a Help.

Cincinnati, March 3.—The fears of a disastrous flood here were dispelled today by the timely drop of the temperature, which checked the inflowing streams.

BURIED CITIES OF TURKESTAN.

Discoveries by Dr. Stein in the West Part of the Chinese Empire.

Dr. M. Stein, the German explorer, has been emulating the archaeological achievements of Dr. Sven Hedin, the Swedish savant, in the discovery of evidences of ancient civilization in the deserts of central Asia. The interesting discoveries of Dr. Stein are several hundred miles west of those which Dr. Hedin has made. He found in Chinese Turkestan whole towns that had been covered up by drifting sands. Some of them evidently date from about the beginning of the Christian era, while others must have been buried far more than 2,000 years ago. The relics unearthed in the younger of these towns were essentially Indian and Buddhist, which is not remarkable, as their position is not far from the Indian border, in a region that undoubtedly was subject to the influence of the Indian peoples.

In one place Dr. Stein found a house that was quite well preserved and in which some official must have lived. A number of documents, neatly written on wooden tablets, were discovered. They were carefully tied in packages, and the dry sand had preserved the tablets wonderfully well. The ink was quite black, and the strings wrapped around the packages seemed as fresh and new as though they had only been used for a few weeks. The writing was in Indian script, which has not yet been deciphered, though it is thought this task will not involve special difficulty.

Around some of the buried houses were prettily designed gardens, trellises, embowered walks, the branches of the vines that had covered the trellises being still intact. The gardens were laid out on a plan that still prevails in Turkestan. Mulberry, peach, apricot and poplar trees were buried out of sight as they stood and were still perfect almost to the last twig.

These towns were apparently abandoned because of the continuous sand drifts which threatened their destruction and made it impossible to procure a sufficient water supply. The fact that the settlements were deliberately abandoned seems to be proved by the absence of all household valuables, though a number of small articles were found. It is evident that the inhabitants sought new homes and probably no long time elapsed after their departure before the sand had completely covered the villages.

OPERATIONS OF PENNSYLVANIA.

Philadelphia, March 3.—The report of the operations of the Pennsylvania railroad for 1901 was made public today. The gross earnings of all lines east and west of Pittsburg for 1901 were \$198,626,878, an increase compared with 1900 of \$23,390,524. The operating expenses were \$133,347,386, leaving net earnings of \$65,279,491, an increase over 1900 of \$10,175,414.

NEW YORK STOCK MARKET.

Recovery in Prices Is Noted but Dealings Are on a Small Scale.

New York, March 3.—There was some recovery in prices in today's stock market, but the dealings were on a very small scale and were still restricted to operations by professionals of the smaller class. The professional character of the operations was also revealed by the reaction at the close, when the traders came to take their profits. The day's gains were not all wiped out but they were considerably impaired by this movement.

The traders who bought stocks professed a feeling of encouragement over the fact that the cold weather did not extend to the winter wheat belt, now denuded of its snow covering. The significance attached to this shows that the crop prospects are now to play a part in the stock market.

Chicago & Northwestern stocks made notable advances, common rising 5 and preferred 6 1/2 on light demand, said to be for investment. Rock Island also rose 3/4 on light transactions. General Electric rose 3/4. A number of stocks both in the active and dormant list were pushed up a point, while in some cases there were sharp reactions, notably in Minneapolis, St. Paul & Sault Ste. Marie stocks, common losing 1/2 and preferred 3/4.

The market closed easy at considerable recession.

Closing prices of stocks are reported by Paine, Webber & Co. as follows:

Amalgamated	45 1/2	Union Pac.	92 1/2

STOP COMING COLOIDS

Stop colds while they start; stop them without a bit of harm and so suddenly that you'll be in doubt as to whether a cold was under way at all. The one remedy that you can depend upon is.....

LAXATIVE COLD CURE. It, like many other of the latest and most remarkable remedies, is found here only. Laxative Cold Cure will cure any cold in 24 hours if taken as soon as the cold starts. A settled cold is cured quick, but not so quick as when remedy is used earlier.

MONEY BACK IF YOU WANT IT. PRICE 25C DESJARDINS' PHARMACY, 417 North Third St. (5-12-02) Jan. 14.

Ten Years of Blessed Work and Glorious Victories.

Paine's Celery Compound

Has Brought Health and New Life to the Sick and Diseased in Every Part of the Civilized World.

For the last ten years the work of Paine's Celery Compound has been a blessed and cheering one to men and women of every rank in society. In no one case has the great medicine failed to benefit, and where it has been used promptly, it has in every case brought a cure.

The blessed results that spring from the use of Paine's Celery Compound are not confined to this land of ours. The great life giving medicine has been sent to every quarter of the civilized world, and has cured the sick, restored the weak and depressed to health and strength, and caused tens of thousands to live who failed to find health in worthless prescriptions, sarsaparillas, nervines, and pills. Paine's Celery Compound has cured when all other remedies failed.

It is the best of all medicines. Paine's Celery Compound, that we would direct the attention of every man and woman suffering from weakness, general debility, rheumatism, neuralgia, heart trouble, dyspepsia, anemia, blood diseases, liver complaint, and kidney trouble. Thousands of grateful letters have been poured in testifying to wonderful and permanent cures.

It is foolish and criminal to delay the use of such a disease banisher when others have so clearly demonstrated its value; when many of your friends and neighbors have been made well by its use. The health giving virtues are so eminently great that the ablest physicians are prescribing Paine's Celery Compound daily for the sick.

If you are weak physically, in the grip of disease, or simply feeling out-of-sorts, irritable, sleepless, or despondent, try one bottle of Paine's Celery Compound, and note well the magical effects.

FIRE INSURANCE RATES GO UP.

Companies Decide on an Advance of Twenty-Five Per Cent.

Fire insurance rates on all mercantile stocks, frame and stone buildings, manufacturing risks and special hazards are to be raised 25 per cent. This increase does not apply to this city alone, but is general throughout the United States, except in New York and on the Pacific coast. Officials of nearly all the leading insurance companies decided on this action at a meeting in New York last week.

For a long time fire losses have been heavy, and during 1901 a remarkable number of insurance companies were forced to liquidate on account of their serious losses. The Paterson and Waverly conflagrations, coming on the heels of a bad year, have forced the companies to make an emergency advance. The text of the resolution adopted by the meeting was obtained from an official source for The Chicago Record-Herald, and reads as follows:

That after considering the present condition of the country as affected by the large and numerous fires which have occurred during the past three years, rendering the business unprofitable and forcing the withdrawal of many companies, the hardship of the situation being emphasized by the conflagrations of the last few weeks, with no prospects of relief, they are of the unanimous opinion that not only the good of the companies, but the safety of the public demands that rates should be immediately and largely advanced and that unless such advance is promptly made the companies will be forced to withdraw their indemnity. They therefore agree that throughout the country rates shall be advanced on mercantile stocks in all buildings except such as are occupied as dwellings above the grade floor and on frame store buildings; also on manufacturing risks and other special hazards which have not been rated under revised and approved schedules within one year.

It was also agreed to advance the rates on all risks 25 per cent and upward, as may be equitable in each case, and that this advance shall go into effect immediately and continue until such risks can be specifically rated under proper revised and approved schedules.

It was voted that agents would not be permitted to cancel and rewrite policies while rates are being re-adjusted in order to avoid the advance.

Underwriters estimate that the advance will probably be sufficient to put the fire insurance business on a footing where it will make a profit of a loss. Since Jan. 1, 1901, thirty well-known fire insurance companies have retired altogether from large sections of the country.

Local agents have, of course, not yet received official notice of the increase in rates, but it is probable that it will not long be withheld. None of them are further informed in the matter than as to the reports of the meeting published in the papers.

NOW THEY MERELY SPEAK.

For She Knew All the Time Who It Was.

Half a dozen persons in a big downtown office building enjoyed themselves hugely the other day at the expense of a young lady with whom all of them are well acquainted, and who is located in a room adjoining the one which is the scene of their daily labors.

The leader of the six jokers went to the telephone instrument and called the phone in the next room. As was anticipated, the young lady answered.

"This is central office," announced the joker. "We are testing the wires. Will you kindly assist us?" Of course all this was said in an altered tone of voice.

"Certainly," was the sweet response. "What shall I do?"

"Kindly place your mouth about two inches to the right of the instrument," directed the joker, "and say 'hello' three times at short intervals."

The obliging creature at the other end promptly complied with the request. The joker waved his disengaged hand at his five associates and bent double in the effort to repress laughter.

"Now place your mouth one inch to the left and repeat 'hello' four times," the joker instructed.

The response proved exasperatingly funny to the man at the phone, and, although they could not hear what the young lady said, his five companions were not devoid of imagination. By this time they were holding their sides.

It required such a long time for the joker to regain control of his voice that the victim had twice inquired, "is that all?" before he could say "with your mouth just above the instrument pronounce the same word again." This was done.

The joker could keep in no longer. Though beginning to laugh, he managed to splutter:

"Now stand on your head and say 'hello'."

With a shout he slapped the earpiece on the hook and literally fell into a chair. The other five screamed.

Still giggling, the six merry men, a little later, proceeded to visit the imposed-upon dame. As they reached the doorway of her room she turned up her nose disdainfully and remarked, in chilling manner:

"Humph, I knew it was you all the time."

They speak now as they pass by, but that's about all—Washington Star.

NOTICE TO TRAINMEN.

Members of the Brotherhood of Railroad Trainmen, as well as all other railroad orders, are requested to meet at Fraternity Hall at 8 o'clock Tuesday morning for the purpose of attending the funeral of the late Dennis McCarthy. By order of W. J. HORN, Master. (3-3-17)

NOTICE.

The undersigned would respectfully announce that he has for rent the building at Nos. 113 and 115 Superior street, now occupied by himself as a saloon, and No. 119 Superior street as a hotel, with barroom in basement connected by a stairway leading from bar to office. Said hotel is well located between South Shore depot and the merchandise dock on East Superior street. By calling on the undersigned at hotel, you can get all the information necessary. Any person to whom the firm may be indebted, will please call and get their cash, and those who owe the firm will please call and settle on or before May first and oblige. The above hotel is well located for transient trade, is modern and has bath and electric lights. Possession given May first. (3-3-17) F. O'HEGAN.

THE NEW GAME.

Pingpong Is Rapidly Coming Into Favor—Similar to Lawn Tennis.

No indoor game of recent years has created such a furore as ping-pong has within the past few months. New York and Chicago have gone wild over the game, and other cities show incipient symptoms of the craze. It has been but little played in Detroit as yet, but the demand for the game is increasing and sporting goods dealers are selling a number of the sets.

Ping-pong, table tennis, pompong, whiff-whaff and gossima are some of the names by which the game is known in different parts of the country, but the first two seem to be the most popular. There is nothing in a name, however, and the British Isles, Early last fall it was introduced into this country and Canada, and inside of two months has caught the popular fancy.

Travelers returning from England tell of the wonderful vogue of the game in London. The tournaments attract large crowds and are used that there cost as high as \$75. These expensive affairs are used in silver and are made with gold and siver side posts and other costly accessories.

Play for Coin.

So far the game has not gone to such extremes on this side of the water, and outfits can be had all the way from \$2.50 to \$10. The National Sporting club of London has been forced to set aside a large room especially for the game, and some games for high stakes are played. In recent game it is said that over \$10,000 changed hands.

In this country the game has not reached this stage of popularity, but is rapidly getting there. The clubs in the eastern cities and in Chicago are putting outfits in their club rooms, and the ping-pong of the celluloid ball as it hits the racket of the players can be heard nightly.

Ping-pong is a sort of miniature lawn tennis which can be played on any medium-sized dining room table, although for special matches there are specified measurements. The ball, which is composed of celluloid, is slightly smaller than a golf ball and being made of a blown bird's egg. It is about five inches in circumference. The rackets, bats, or battledores, as they are variously termed, are light rattan affairs, covered with parchment, sheep or calfskin, according to their prices.

The Rules.

The laws of the game are as follows: 1. The game is for two players. They shall stand one at each end of the table. The player who first delivers the ball shall be called the server, and the other the striker-out.

2. The server shall stand behind the table and within the limits of the width of the table.

3. The service shall be strictly underhand and from behind the table. That is to say, at the time of striking the ball the racket may be over the table, and no part of the racket, except the handle, may be above the waist.

4. The ball must drop on the table beyond the net, and is then in play. If it drops into the net or off the table it is called a "fault" and counts to the striker-out.

5. There is no second service, except when the ball touches the net or posts in passing over the drops on the table beyond the net, when it is called a "let," and another service is allowed.

6. If the ball in play strikes any object above or around the table before it drops on the table, the stroke is accepted, it counts against the striker.

7. The server will serve a stroke if the striker-out fails to return the service or the ball in play.

8. The striker-out wins a stroke if the server serve a "fault" or fails to return the ball in play or returns the ball so that it falls off the table.

9. No volleying is allowed, whether intentional or otherwise, and if the ball shall be touched before striking the table it counts against the player touching it; should, however, a ball pass the limits of the table without dropping on it, it is dead, and counts against the striker.

10. The method of scoring shall be by points, twenty points constituting a game, the service changing after each five points scored. Should the score reach twelve all, it shall be called "game-all," and the best of nine points shall decide the game.

Special match regulations—Size of table, 9 feet by 5 feet; 2 feet 6 inches high; table to be painted dark green, with 3 1/2 inches white linen around the edges. Height of net, 6 1/2 inches.

Some players prefer to count as in lawn tennis, the points being precisely the same. At present most of the local games are singles, but by putting a line down the center of the table doubles can be played. In England the regulation sets are provided with side nets, which are several inches higher than the net itself. These are used to prevent players from returning the ball into their opponents' half of the table out of side of the posts.

Mother—Now's the time to have your little ones take Rocky Mountain Tea. Keeps them well all the year. Great Medicine for children. 35 cts. Stafford Drug Co.

MERCHANTS & MANUFACTURERS

Exchange, Detroit, Michigan, March 5th, 1902.

MYSTERIES OF DYNAMITE.

No One Can Tell When the Explosive Is Perfectly Safe.

Of dynamite, which recently asserted itself so disastrously in the subway tunnel explosion, New York city, at present, with vast constructive works in progress, is consuming 7,000 pounds a day.

No other commodity in general commercial use is probably so little understood as dynamite. It is regarded by the majority of people with abject fear. Anyone accustomed to handling dynamite will tell you that the actual danger is slight. The death rate among dynamite workers is low.

Dynamite is packed without special precautions, like so much soap. It is shipped in cartons of 25,000 pounds at a time, to all parts of the country, and usually survives even railroad collisions without mishap. It may be cut up or broken, frozen and thawed out and even burnt almost with impunity.

It is not difficult to find men to work in dynamite factories. The number of deaths in such factories is not startling. The hours are short and the pay is high.

The dynamite commonly used is formed of about 40 per cent of nitroglycerine mixed with some solid absorbent, usually some kind of earth, and with about 5 per cent of camphor added as a preservative. The most powerful dynamite contains nearly 80 per cent of nitroglycerine.

It is very unusual to lose dynamite during transportation. The cartridges, as a rule, measure an inch and a half in diameter and from six to eight inches in length. These are nailed up in ordinary soap boxes and are literally thrown about by baggage smashers with impunity. The cars are supposed to be placed in the middle of the trains, but the rule is often ignored.

There have been only two serious accidents of late to dynamite cars while in transit. In one instance a car carrying some fifteen tons of dynamite was attached to the end of a long freight train, against all rules. A locomotive crashed into the dynamite and set it on fire. This was more than the explosive could stand. Incidentally the explosion cleared the track of all wreckage for a considerable distance. In the other case the dynamite caught fire from a burning hot box, and the train men, noticing it, seemed to put out the fire, but retreated to a hill near by. The explosion threw a near-by turntable about a quarter of a mile and completely demolished a large engine house.

The exact properties of dynamite are still more of a mystery, even to those most familiar with it. Men who have spent their lives about dynamite have been killed by its apparently inexplicable action. It has been found by experiment that dynamite freezes at 45 degrees and explodes at 36 degrees Fahrenheit. It is supposed to be absolutely harmless when frozen. But these rules have some notable exceptions. Dynamite has been known to explode when apparently frozen, and with terrible results.

Under ordinary conditions dynamite will burn as readily as sugar. It gives off a reddish flame when ignited, though most observers say, not scalded to watch the results very closely. At other times a flame will explode if, no one understands exactly why. The same mystery surrounds the use of concussion for setting it off. Even a violent jarring will not explode dynamite once in a hundred times. Tons of it have crossed railroad collisions without exploding, when the car carrying it has been completely demolished.

Cartridges have been dropped from the roofs of ten-story buildings or have been hammered like putty without result. Then again, a slight shock has set off cartridges which had been packed with the greatest precaution.

One of the commonest misconceptions of the action of dynamite is that it exerts force only in one direction. People are sometimes held to assert that they are willing to hold a dynamite cartridge in their hands and set it off, since it will only explode upward. It is to be hoped that no one will try any such experiment. As a matter of fact, dynamite exerts an equal force in all directions.

Some interesting tests have been made recently to establish this fact. A large iron nut was placed upon an ordinary stove plate and the opening filled with dynamite. When ignited it blew a hole completely through the plate. The test was repeated with the plate reversed. The hole was again blown through the plate, this time in an upward direction. The same test was then tried with the plate at various angles, and always with the same result.

HOW TO CURE THE GRIPPE.

Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger. Among the tens of thousands who have used it for the grip, not one case has ever been reported that did not recover. For sale by Stafford Drug Co.

LOW ONE-WAY SETTLERS RATES TO THE WEST.

During the month of March and April the D. S. S. & A. R. Y. will have on sale to points in North Dakota, Montana, Idaho, Washington, Oregon and British Columbia one-way settlers tickets at greatly reduced rates. For full particulars apply to station and ticket agents or to Geo. W. Hubbard, General Passenger Agent, Marquette, Mich. (2-13-4-59)

Rev. Marguerite St. Omer Briggs, 35 Mount Calm Street, Detroit, Michigan, Lecturer for the W. C. T. U., recommends Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:— My professional work has for the past twenty years brought me into hundreds of homes of sickness, and I have had plenty of opportunity to witness the sufferings of wives and mothers who from want, ignorance or carelessness, are slowly but surely being dragged to death, principally with female weakness and irregularities of the sex. I believe you will be pleased to know that Lydia E. Pinkham's Vegetable Compound has cured more women than any other agency that has come under my notice. Hundreds of women owe their life and health to you to-day, and, therefore, I can conscientiously advise sick women to try it."—MARGUERITE ST. OMER BRIGGS.

\$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE.

When women are troubled with irregular or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion, and nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other medicine in the world has received such widespread and unequalled endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

TONELLA & JOHNSON, Funeral Directors and Practical Embalmers. 307 SOUTH FRONT STREET. Night Call: C. TONELLA'S RESIDENCE.

WANTED—50 Strong Young Men between the ages of 18 and 30 years to become specialists in iron molding; no previous experience in foundry work required. Cold in Chest Omega Oil

You hear a good deal of the great progress in medical science, but there hasn't been so much progress after all. The doctors have not been able to improve on many of the simple old remedies used during the last hundred years. Every mother knows that old-fashioned sweet oil is a good thing to rub on the nose, throat and chest for a cold, and a doctor can't prescribe anything better or safer except Omega Oil. This Oil does all that sweet oil can do, and besides that it contains other ingredients that check and cure a cold in a wonderfully short time. It can be used on children with perfect safety, as it does not blister. A bottle in the house all the time may save a life or a doctor's bill.

Omega Oil is good for everything a liniment ought to be good for.

Ishpeming and its Environs.

FRENCHMEN'S CELEBRATION.

Upper Peninsula Reunion Will Be Held in Ishpeming This Year.

Realizing that the entertainment of all who will attend this year's reunion of the French societies of the upper peninsula will be no small task the members of the local organization have already begun preparing for the celebration. It is anticipated that the meeting will be the largest that has ever been held by the Frenchmen of this section. The membership of the different organizations throughout the peninsula is increasing steadily and much interest is manifested in the re-unions held annually on the 24th of June. During the past few years many young men have joined and those more advanced in the society's interest than were the young men who held membership some five or six years ago.

Seventeen Societies Invited. Invitations have been issued to seventeen different societies, located at the following places: Negaunee, Marquette, Sault Ste. Marie, Champion, Republic, Houghton-Hancock, Lake Linden, Calumet, West Superior, Duluth, Iron Mountain, Norway, Ironwood, Escanaba, Menominee, Marinette, Crystal Falls, Garden Bay, Quinnesec and Cheboygan. In some of these places the societies are numerically strong and it is expected that large delegations will be present from several of the cities. Two years ago, when the celebration was held at Marquette, representatives of every society invited were present and the attendance was fully as large as expected.

Premier Laurier May Come. Premier Wilfred Laurier of Canada will be sent a very pressing invitation to come here and deliver the principal address. In case he is unable to accept the invitation he will be urged to send an able representative. The presence of a prominent man from the Dominion will add no little interest to the meeting. Should Laurier come nearly every Frenchman in the upper peninsula would be here to greet him.

Picnic at the Grove. While the parade in the morning will be a prominent feature of the celebration, the picnic during the afternoon and early hours of the evening will be the big event. An effort will be made to have the South Shore people run their excursion trains that day so as to get the visitors here not later than 10:30 a. m., in order that the parade may take place before noon. Immediately after the parade the members will go to the grove, where dinner will be served. One of the groves will be procured for the occasion. A committee composed of P. Papin, P. Tallion and P. Lemiere was recently named to secure the ground, etc.

Mr. Papin has been delegated to look after transportation matters, with instructions to report to the society as soon as he receives a schedule from the officials of the railroads. The local members expect reasonable rates of fare from the different points in view of the low rates given in years past. Negotiations are on for tents to be used in case of rain. Two or three large tents will be procured and placed on the picnic grounds. A big dancing platform will be erected and dancing will be continued throughout the day. That night there will be a ball in the Anderson hall. The Ishpeming City band has been engaged and an orchestra will be hired soon, the former for the parade and the latter for the dancing.

Local Society Largest in City. It is much to the credit of the local society in that it has a larger membership than any other in the society of the kind in Ishpeming. There are now 412 members in good standing and the officers report that there will be at least fifty more than that number enrolled by the date of the reunion. Twelve candidates were initiated at the last regular meeting and more will be added every meeting during the next few months. The society was organized just twenty-one years ago. Ever since its institution it has prospered and its records show that many of its members have been greatly benefited from time to time. A member in good standing meeting with reverses is not allowed to suffer. The society has assisted many of its members as well as the families of members in the past, and its principal aim is to continue to do work of this nature. In spite of the many thousands of dollars expended in the aid of worthy members the society has a nice bank account to its credit. Funds that were placed in the bank something like fifteen years ago are still there drawing interest. The fund has increased annually until now the organization is strong financially as well as numerically.

WILL TALK TO MEMBERS. Jacob Kaminen, who is prominent in the management of the Finnish Temperance society of this city, left Saturday evening for points along the line of the Soo road, where he will visit branches of the order with a view to arousing interest in the society. There are a number of organizations in the upper peninsula, but the members have not been active enough in their work during the past few months to suit the head officers. Mr. Kaminen will doubtless do much to stir them up, as he is a good talker and he is thoroughly posted on the aims and objects of the society. He will be absent two weeks or so, meeting each evening with a different society.

WILL FIT UP STORE ROOM. Charles Regstrom has been engaged by S. Johnson & Co. to fit up a room on the second story of the firm's block to be used for the storing of surplus goods. The room will be located immediately back of the cloak and carpet department. The firm has been crowded for some time past and the extra room will be greatly appreciated by the clerks in that particular department. Mr. Regstrom put men to work on the job yesterday and expects to have the place ready for occupancy within a week or so.

Our new line of spring goods will please the ladies. Goods are arriving daily. Finnish Co-operative association.

BASKET BALL CONTEST.

Ladies' Teams of the City Will Give an Exhibition Soon.

Basket ball is becoming considerable of a fad with the ladies of Ishpeming. There are three teams in the city, one of which meets at regular intervals at the Ishpeming Snow Shoe club house and the other two at the Ishpeming Light Guard armory, formerly the headquarters of the snow shoe club. One of the teams meeting at the latter place is composed of young ladies of the Swedish Lutheran church congregation, and the other is made up of high school girls. The third team comprises older ladies.

Practice work has been indulged in for over two months past under the tutelage of gentlemen thoroughly familiar with the points of the game. Dr. G. J. Sweetland, superintendent of the Ishpeming schools, is training the team which meets at the club house and Edgar M. Clinton and William Schacht, both identified with the schools, have the high school team in hand.

There is considerable rivalry existing between these two latter teams and negotiations are pending for one or more match games. The ladies comprising the club house team are confident they can defeat the girls, while the latter think they will have no difficulty running up a large score on their opponents. With this feeling existing, the interest in the proposed contest has grown intense on both sides. The instructors of both aggregations are urging their players to practice hard and earnestly, and as a result nearly every meeting is attended by every member of the team as well as by several substitutes. The school girls have a little advantage over the other ladies, as they are out to practice nearly every evening after school closes as well as on Saturday. The club house team does not get out more than three times a week and sometimes only twice a week.

It is likely that the date of the first contest will be decided on today. The place of meeting will also be determined. The game will be pulled off at either of the places mentioned. In the event of several contests being arranged games will take place at both houses. The clubhouse is the largest building, though it is likely that the games at the armory would attract the best attendance owing to its location in the city and easy access of the hill.

The ladies' basket ball teams at other places in the upper peninsula will be asked to come here to meet either one of the local teams, though it is the purpose of the locals to play a few match games between themselves before arranging contests with outside teams. Dr. Sweetland has trained several basket ball clubs and he states that the local teams are not inferior to many of the best aggregations he has seen. The earnestness with which the ladies have practiced has resulted in developing a series of really wonderful players. The doctor is not making any predictions as to the result of the first contest, though he will be slightly disappointed if his team does not win. His sympathy is naturally with the high school team, though he would regret to see it down the team he has trained.

Exhibitions of basket ball have never been given in Ishpeming, and there are very few persons here outside of the players who have knowledge of the game. It is thought by those interested in the sport that it will become very popular here, once the public gets an idea of what it is like.

A HORRIBLE OUTBREAK. "Of large sores on my little daughter's head developed into a case of scald head," writes C. D. Ishill of Marquette, Tenn., but Brock's America Salve completely cured her. It's a guaranteed cure for Eczema, Tetter, Salt Rheum, Pimples, Sores, Fleas and Piles. Only 25 cents at Stafford's.

ISHPEMING IN BRIEF. Louis Hoffman had business in the city yesterday. The Elks will meet this evening. Several candidates will be put through the mill. Richard Mathews and wife attended the marriage of a relative at Marquette yesterday. Miss Nellie Donahoe got home yesterday morning from a visit to relatives in Milwaukee. Austin Farrell and C. V. R. Townsend were up from Gladstone yesterday in the interest of the Cleveland-Cliffs company. Robert Mooney, an old and well known resident of Ontonagon, spent Sunday in Ishpeming, the guest of M. C. Scully.

Steve Simons did business at Michigan and Nestoria yesterday in the interest of his brother Tom, who is the Marquette county agent of the Menominee Brewing company. Mr. Simons has a splendid patronage in Ishpeming as

"YOUR MONEY IS NO GOOD" and will be refunded to you if after using half a bottle of THE FAMOUS MATT. J. JOHNSON'S 6088

RHEUMATISM and BLOOD CURE you are not satisfied with results. This is our guarantee, which goes with every bottle. For Sale and Guaranteed Only By PENDILL'S PHARMACY, 108 N. 1st St., KIRKWOOD, O'DONOGHUE, DRUGGISTS

well as at some of the neighboring towns. Mrs. I. E. Grato of Duluth arrived in the city yesterday on a visit to her sister-in-law, Mrs. P. Tallion. She will remain here ten days or two weeks. P. Tallion has taken the management of the Rock saloon in the Kennedy building on Main street. Mr. Tallion will be pleased to have his friends call and see him. Mrs. Jessie Biekle, who has been at the Phoenix mine visiting her daughter, Mrs. Charles Wilkins, for some weeks past, will be home soon, perhaps some day next week. The Trombly orchestra contemplates giving a concert in this city on the evening of the 17th inst. Well known local talent will take part and it is intended that the program to be rendered will be of unusual merit. The regular monthly meeting of the city council will be held tomorrow evening. At this session registration and polling places for the municipal election to take place on the 7th of next month will be designated. A few extra men were employed yesterday removing snow from the principal walks of the city. The street railway people also increased the track gang and all the surplus snow was shoveled from the road bed before the close of the day. The Misses Emma E. Ruez and Cora Duffy will spend the next couple of weeks in Chicago. Miss Duffy left Friday evening and Miss Ruez departed Saturday morning. Their time while away will be devoted to the inspection of the late creations in millinery, etc. The members of Gitchie Gumme tribe of the Red Men of this city will entertain friends this evening at the Swedish Home society's hall. Cards will be the order during the early hours. Later an oyster supper will be served. It is expected that in the neighborhood of 150 persons will be present and a most happy time is anticipated. James Tobin, who has been here visiting his people for the past two months, left Sunday evening for Mexico, where he will take charge of diamond drill work for the Sullivan Machinery company. Mr. Tobin has traveled extensively during the past ten years or more since he has been engaged in drill work away from this section. He is one of the best drill men in the business and he finds it difficult to get an occasional vacation. His wife and child will remain with his folks here for the present.

MOTOR CAR IMPRESSIONS. Sensations While Riding an Automobile at Full Speed. Maurice Maeterlinck, the symbolist, in Harper's for February, gives a vivid picture of his sensations while riding an automobile at full speed. "I am lost among the impassable corn-fields, whose myriad cars press forward whispering eagerly, craning to see what my next step will be, while from amongst that undulating crowd the poppies nod their red heads and burst into a thousandfold laughter. The hippogriff revives, gives its first short of life, and then departs once more, singing its song. I conquer the plains, which bow down before me. Slowly do I turn the mysterious 'advance ignition' handle, and regulate as well as I can the admission of the petrol. The pace grows faster and faster; the delicious wheel set forth a shrill and eager cry. And at first the road comes, moving towards me like a bride waving palms, rhythmical, keeping time to some melody of gladness. But soon it grows frantic, springs forward, and throws itself madly upon me, rushing under the car like a furious torrent, whose foam dashes over my face; it throws me beneath its waves; it blinds me with its breath. Oh, that wonderful breath! It is as though wings, as though myriad wings that cannot see, transparent wings of great supernatural birds that dwell on invisible mountains swept by eternal snow, have come to encircle my eyes and my brain with their vast freshness. Now the road drops sheer, and the machine speeds before it. The trees, that for so many slow-moving years have serenely dwelt on its borders shrink back in dread of disaster. They seem to be rushing one to the other, to approach their green heads, and in startled groups to debate how to bar the way of the strange apparition. But as this rushes onward a great terror seizes them; they scatter and fly, each one eagerly seeking its own habitual place; and as I pass they bend tumultuously forward and their myriad leaves, quick to the almost insensate joy of the forest that is chanting its hymn, breathe in my ears the eloquent psalm of Space, admiring and welcoming the enemy that has hitherto always been vanquished, but now is triumphant—Speed."

Humors come to the surface in the spring as in no other season. They don't run themselves all off that way, however, but mostly remain in the system. Hood's Sarsaparilla removes them, wards off danger, makes good health sure.

STYLISH MILLINERY. I wish to advise my patrons that I will spend the next two weeks in Chicago looking up late styles and purchasing new goods. My stock of millinery, including all the novelties, will surpass any I have previously shown. My store will remain closed until March 15. MRS. I. LALLERSTEDT.

Our assortment of spring goods, in dry goods, furnishings, etc., is most complete. Our prices will always be found right. Drop in and see us. Finnish Mercantile association.

"A dose in time saves lives." Dr. Wood's Norway Pine Syrup; nature's remedy for coughs, colds, pulmonary diseases of every sort. HAS MANY VIRTUES. For cuts, burns and bruises De Witt's Witch Hazel Salve is unequalled. Draws out the fire, stops the pain, soon heals the wound. Beware of dangerous counterfeits. Sure cure for piles. A CHANCE IN A LIFE TIME

To invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it.

Fifty Thousand Dollars

In development on the ledge and a complete five stamp mill, with all other necessary machinery ready to run.

The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c per share, capital stock 1,000,000 shares (par value \$1.00) each, fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth par inside of six months. This is the best investment, for the money that has ever been offered to the investing public. Do not lose this opportunity. It will never come again. For further particulars, prospectus, report on mine, reference, etc., address,

OZARK GOLD MINING & MILLING CO., MOSCOW, IDAHO.

GREAT DEVELOPMENT.

In Florence—The Splendid Showing of the Banner and Ozark Has Stimulated All Other Mining Enterprises.

J. N. Taylor, United States Mineral Surveyor, has just come down from Florence and reports great activity in the camp and that there is more development going on at the present time than there has ever been before in central Idaho. In an interview with The Star reporter, Mr. Taylor said: "The Banner is working sixty men in getting their mine ready to start as soon as the hundred ton mill they are putting in is completed. This property has developed into a great mine, I believe the largest free milling gold mine in the Northwest. They have twenty-seven feet of \$14.00 ore in one drift, and twenty-three feet of \$66.00 ore in another drift. This property was bought by a New York syndicate composed of Henry Clews, Arbuckle Bros., and others a short time ago for two hundred thousand dollars, and the value of the property today is hard to estimate as they have a million dollars worth of ore blocked out. The Ozark mine lying north of the Banner is also drifting on a twenty-four foot ledge on the 100 foot level, and there is no question but that it will develop into a great mine, as it has the richest ore in the camp and has a greater showing as far as developed than the Banner. They expect to get the mill now on the property started by the first of March and add stamps enough as soon as the roads will permit in the spring to make their capacity 100 tons per day, and with these two big mines with others that are getting ready to start, the people of Florence are looking for a great boom in the spring. The town of Florence is full of mining men looking for bonds on property where the owners are not able to do the necessary development work to put the property on a paying basis but as usual the prospectors' idea since the development of the Banner and Ozark is such that they are hard to deal with in the way of price, but the people who are looking for the property have made liberal offers since the Banner and Ozark started, and I am satisfied will pick up most of the best properties between now and spring."

VICTIM OF A TRAP

LANDLOOKER COOK WOUNDED BY A SET GUN.

BROUGHT TO HOSPITAL HERE

LEG BADLY SHATTERED AND HE MAY LOSE IT.

Shooting Occurred Near St. Ignace and Man Alleged to Be Guilty is in Jail With Prospects of a Long Sentence.

F. E. Cook, a landlooker in the employ of the Wisconsin Chair company, is lying seriously wounded at St. Mary's hospital, threatened with the amputation of the right leg at the hip. He was the victim of a trap gun, presumably set for the purpose of killing deer, and the man accused of placing the weapon where it was discharged is in jail with good prospects of spending a long term in the penitentiary.

The shooting occurred near Brevort lake, some miles to the west of St. Ignace. Cook was engaged in looking land, pacing down a section line, and did not notice the cord attached to the trigger of the gun until he had brushed against it and the weapon had been discharged. The gun was loaded with buckshot, eleven of which entered the leg from the knee to the hip, shattering the thigh and the other bones. Cook was rendered helpless and fell in the snow, frantic with pain.

Shot Answered.

But a few rods away from the scene of the tragedy was a house occupied by a man named Rosecranz, who this winter has been getting out cedar and tamarack ties. Rosecranz was at work in the woods about a mile distant, and on hearing the shot started for the spot, as also did his wife, who was busy about her work in the house. It is said that both expected to see a deer on the ground near the gun, but instead were startled to find Cook lying there in terrible agony. Rosecranz, however, made all haste to procure a team to convey the sufferer to a place where he could receive medical attention, but it was not until evening—ten hours after the shooting—that Cook arrived at St. Ignace after having been carried for some distance through the woods and then traveling a hard journey by sleigh and train. His wounds were dressed, but for better care it was decided to send the sufferer to Marquette. Cook arrived here yesterday afternoon, accompanied by Sheriff Ryerse and J. J. Race, county superintendent for the chair company, and was taken to St. Mary's, where last evening he was resting comfortably.

Immediately on word of the tragedy being received at St. Ignace, the sheriff went to the scene and made a thorough investigation with the result that he placed Rosecranz under arrest. The man was taken to the county jail at St. Ignace, and from all accounts is booked for a long term in the penitentiary whether the victim recovers or not. Sheriff Ryerse stating yesterday that the authorities were in possession of extremely damaging evidence against the man; in fact, having practically a conclusive case.

People Indignant.

The shooting of Cook was the third affair of the kind which has occurred in Mackinac county during the past few years, and much indignation has been created at St. Ignace. Whether or not Rosecranz set the gun, the guilty person must have known that it was in violation of the law and besides was very dangerous, for there were a number of men at work in the woods in the vicinity and the weapon had been placed in position on the section line, where landlookers would be sure to stumble over it if working in that neighborhood. It is to be hoped that whoever the guilty man is, he will be punished to the fullest extent of the law—and even that, it is felt at St. Ignace, would be too good for him.

Cook, it should be added, had called at the Rosecranz house, and had not been gone from there over twenty minutes before he was shot. The contents of the gun, it is expected, that he will recover, though there is some danger of blood poisoning setting in.

BALL GAME THIS EVENING.

The seventh indoor ball game of the city tonight will be played at the Casino rink this evening. The A. C. U. W. and the Queen City Hotel teams being the opposing aggregations. The workmen, since the reorganization of the club, are after the city championship with a vim, and the contest tonight will be the most interesting and a game well worth witnessing. The match will be started at 8:30 o'clock.

FIREMEN MAY HAVE A TEAM.

It is extremely probable that Morse Hosiery company will be represented by a trial team at the firemen's tournament at Negaunee this summer. The boys have the question under consideration and very likely will decide the matter favorably. There is material in the department for an excellent team.

A PROFITABLE INVESTMENT.

"I was troubled for about seven years with my stomach and in bed half my time," says E. Demick, Somerville, Ind. "I spent about \$1,000 and could get nothing to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well." Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles. The Stafford Drug Co. H. N. Meloche Co., Ishpeming.

La grippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." People's Drug Store.

PRISONERS SENTENCED.

Monon Will Serve Two Years and Paulson One, at the Penitentiary.

Yesterday in the circuit court Judge Stone sentenced Victor E. Monon to two years in the branch state prison. The prisoner is the man who was recently arrested at Escanaba on the charge of embezzlement because of having sold St. Mary's hospital tickets and applying the proceeds to his own use, and who when arraigned pleaded guilty. The amount of his embezzlement was between \$300 and \$400.

Alec Paulson, the young Finlander who was convicted of forgery on the second court in having passed a raised check on a local business house while knowing that the face of the paper had been fraudulently increased, was given a one-year term, the court taking into consideration the prisoner's youth and the fact that he had only been in this country for a few months.

Most of the time of the court yesterday was given over to taxation matters and the entering of decrees for the sale of lands on which the owners had neglected to settle with the treasurer. For today, cases No. 43, 37 and 44 are on call, these being those of F. B. Spear vs. the Davis Mining company; Pickands, Mather & Co. vs. the Davis Mining company, and the Marquette County Savings bank vs. Fred Jones. On Wednesday, No. 57 is on call and on Friday Nos. 29 and 58.

ELABORATE PRODUCTION.

Modjeska-James Troupe of Fifteen People Carries Two Cars of Scenery.

From all accounts the production of Henry VIII, in which Madame Modjeska and Mr. Louis James will appear here on Friday evening, is the most pretentious Shakespearean revival attempted on the American stage in many years. The organization comprises more than fifty people and two baggage cars are required to carry the scenic effects alone.

The role of Queen Katherine, which Madame Modjeska will assume, was one of her earlier triumphs. She played the role to the Cardinal Wolsey of Edwin Booth, and she gave a production of the play herself as late as 1892. The other critics who can recall the almost portrayals of Katherine in the last few decades are unanimous in regarding Modjeska's performance as the most eloquent embodiment of the character. Cardinal Wolsey is not a new role for Mr. James, either; he played it with Genevieve Ward, whose Katherine was one of the most notable of her time. With the exception of Mr. Booth none of his contemporary players have been as well equipped for the role as Mr. James, either in appearance, distinction or general histrionic ability, and it is therefore not surprising to hear that his present assumption of the character has been hailed as one of the best achievements on the classic stage in many years.

That these famous artists are surrounded by artists of ability may be taken for granted in view of the established reputation of Managers Wagenhals and Kemper in such matters. The Modjeska-James combination represents about all that is now left in the legitimate drama and its engagement in this city will be one of the theatrical events of the year.

BOSTON COPPERS ACTIVE.

Lawson's Trinity and Arcadian and Mass Lead in Upward Swing.

The Boston market was stronger yesterday, and in its daily letter concerning it Paine, Webber & Co. said: "The activity in the coppers has broadened considerably today. At the moment, Trinity, Arcadian and Mass are receiving the most attention. There is marked increase in the public interest and indications point to further advances. It is a good time to remember that the good stocks are always a buy and that the worthless ones should never be bought. Amalgamated no longer seems to exercise any influence over the local copper stocks. We think the best of the coppers will be higher before the end of the week."

The following was W. H. Laidley & Co.'s summary of the New York stock market: "The continuance of the interrupted wire service from the West again today operated against the volume of business, which was very light. The market, however, was firm, especially the high class dividend-payers, which were in substantial demand at increased prices. There are several influences at work which operate against a bull market, among them the absence of Mr. Morgan and the continued shipment of gold abroad. We, therefore, expect a trading market. Buy on the breaks and sell on the bulges. We believe Monon will go to 80 eventually."

Chicago, Grains and Provisions.

W. H. Laidley & Co. said of the Chicago grain markets: "Wheat, under the influence of lower cables, rather favorable weather and an increase on passage, opened slightly lower and remained dull and inactive, closing at the bottom and at a loss of 1/2 cents Saturday's closing price. The receipts here were fair, and the estimates were larger. The Northwest receipts were heavy, and the primary receipts and shipments light. The visible supply statement showed a small decrease. The government reports were rather bullish for Ohio, Indiana, Michigan and Tennessee, and bearish in Nebraska, Kansas and Oklahoma. Crop scares continue and will be the main bull features in the future, and while this is not a bear month, buy only on the breaks and do not fail to take profits on the bulges.

"Corn opened slightly lower on the cables and after a slight show of strength early, in sympathy with oats, turned weak, closing slightly under Saturday night's. The receipts were fairly heavy, with heavier estimates. The primary receipts and shipments were light, there was a slight increase on passage, and a decrease in the visible supply. We believe corn should be sold.

"Oats opened slightly over Saturday's close, but there was an entire absence of the fireworks evident on Saturday and no support. The market turned weak and closed 1/2 cent under Saturday's last price. Doubtless the prices will go higher, but use extreme caution to buy on the breaks only, and

"Provisions opened strong and

on less hope than estimated. The market remained steady until near the close, when it turned weak upon hedging by commission houses. Large receipts are expected tomorrow. Sell on the bulges."

QUIET HOME WEDDING.

Miss Emma Bice the Bride of E. B. Sutton of Duluth.

Last evening at the residence of the bride's brother, Matthew Bice, 723 North Third street, Miss Emma Bice was united in marriage to Edward B. Sutton of Duluth. The wedding, though a quiet, home affair, was a very pretty one and was attended by a number of the friends of the contracting parties from out of town. Rev. E. A. Elliott, pastor of the Methodist church, performed the ceremony, which was followed by the serving of a dainty luncheon. Later Mr. and Mrs. Sutton left on the night train for Duluth, which will be their place of residence and where Mr. Sutton is the agent of the Lehigh Valley road and its coal and marine interests. Heavy congratulations speeded the couple on their journey.

AN INNOVATION HERE.

Class Annual to Be Issued by the Seniors of the High School.

A class annual will be issued at commencement time this year, in June, by the members of the senior class of the Marquette High school. Meetings have already been held by the members of the class, an editor-in-chief has been appointed, two members of the class have been chosen to have charge of the business management of the publication, and editors for the literary and art departments have been selected. Other plans will be formulated later, and the members of the class are determined to make this the first class publication of students of the high school, a creditable and successful venture.

Harold Markham has been named as the editor-in-chief, and Louis Stickey and Mr. Markham together will have charge of the business management. The Misses May Green and Nettie Mantel will take care of the literary department, while the art department will be under the direction of the Misses Alma Bigelow and Georgia Hager.

So far there has been no appointment of a class poet, nor of a class prophet, as is often customary in connection with similar publications in schools of other cities, and none may be made. It is understood that each member of the class must contribute something for the paper, and it has been suggested that possibly offering a cash prize for the best contribution may stimulate the class members to more earnest endeavor.

No name has been selected yet for the publication, but one will be chosen within a short time at one of the class meetings. Edward Mathews, class president, is one of those taking an active interest in the plan for a class annual, and his efforts, as well as the work of those selected to be at the head of the project, are being well seconded by the entire membership of the class.

This being the first effort of the kind in the Marquette High school, the pupils feel that the people of the city and the business men ought to give their encouragement and support to the plan and do what they can to aid in making it a success.

LECTURE ON THE TRANSVAAL.

Address in the Swedish Language at the Lutheran Church Tonight.

Rev. Paul Gullander of Johannesburg, Transvaal, South Africa, will lecture in the Swedish language at the Swedish Lutheran church, Ridge street, this evening, beginning at 7:30 o'clock. All understanding the Swedish language are cordially invited. Admission will be free, but a collection for the benefit of the Scandinavian missions in the Transvaal will be taken up.

AFTER THE SOUTH SHORE.

Word comes from New York that the control of the Duluth, South Shore & Atlantic railroad is being sought by the Pennsylvania company through the purchase of the common stock. The South Shore stock has displayed considerable activity of late, and from a thoroughly reliable source it is learned that the Pennsylvania company has been a heavy buyer. The big line seems ready for an invasion of the upper peninsula. It controls the C. R. & L. road, which operates as far north as the Straits of Mackinac, and from its connection with some railroads north of the straits it would seem as though it were determined to reach the iron country.—Houghton Journal.

MITCHELL TO SKATE TROYER.

A skating race has been arranged for Wednesday (tomorrow) night at the Curling Club rink between Elgin Troyer of the Soo and George Mitchell of Marquette. The race is to be for one mile and should attract a large attendance of those interested in ice racing. Mitchell claims to be the champion of the upper peninsula, and Troyer is known to be a speedy skater. This race is an event that has been hoped for all winter by Troyer's friends.—Soo News-Record.

CARD OF THANKS.

I wish to tender my sincere thanks to the ladies of Superior High No. 217, and to Superior Tent, No. 28, and also to the officials and employees of the Lake Superior Powder Co., for the beautiful floral pieces and for the many ways in which they lightened the sorrow that came to my home in the loss of the beloved wife and mother; also to the National Protective League, the Sunday school class, the ward schools and to all who contributed in any way to alleviate the burden of our sorrow.

JOHN CLARK AND FAMILY.

Rocky Mountain Tea taken now will keep the whole family well. If it fails, bring it back and get your cash. 35 cts. Stafford Drug Co.

Vandenboom's fresh milk and Jersey creamery butter is rapidly gaining popularity with all the best housekeepers in the city. This is due to the excellent quality of the goods and careful handling. (12-25-18)

CITY BREVITIES.

Today's weather: Threatening with possibly snow flurries. Northwest winds. Yesterday's temperature: 7 a. m., 20 degrees; noon, 22 degrees; 7 p. m., 22 degrees. Maximum, 22 degrees; minimum, 20 degrees.

Miss Nettie Wagner is in Escanaba, the guest of her sister, Mrs. J. F. Carey. Mrs. James Wheatley leaves today for a visit with relatives at Lexington, Mich.

P. F. Stone of Munising and E. H. Walker of Grand Marais were Marquette visitors yesterday.

Mrs. Edgar Jilbert and daughter left last evening for a visit of several months with relatives at Chicago.

The city council held a regular monthly meeting last evening. No business of special importance was transacted.

The Social Forty and a few friends will participate this evening in another of those delightful parties at the Elks' club rooms.

The Woman's Christian Temperance union will be entertained this afternoon, beginning at 3 o'clock, by Mrs. Harvey B. Hatch, Third street.

John Maloney, who is in business at Duluth, arrived here yesterday for a short visit at the home of his brother, ex-Marshall James Maloney.

Mrs. S. S. Ormsbee and Miss Josephine Egan leave today for Chicago, enroute for Miss Egan's home at Savannah, where Mrs. Ormsbee will spend a month or more.

Tonella & Johnson are showing a fine line of parlor tables, bought on Mr. Tonella's recent purchasing trip and just received here. The articles on display are beauties.

A. G. Johnston of Soudaw greeted old friends in the city yesterday. Mr. Johnston was formerly a resident of this county and was chairman of the board of supervisors.

The teachers of the city schools are sending out reports of the standing, attendance and punctuality of the pupils of their rooms. It is requested that parents sign and return the cards.

Marshal John Farm of Ishpeming brought down a new boarder for Sheriff Penglass yesterday. The new boarder will live at the expense of the county for ten days as a result of too much booze.

C. S. Pollock, who came down from Duluth to spend Sunday with his family here, left yesterday afternoon for the copper country on Standard Oil business. He will be back here tomorrow evening.

Members of the old Marquette ball club, of which the deceased was one of the players, will act as pall bearers at the funeral of Donald McCarthy this morning. The obsequies will take place from the cathedral at 9 o'clock.

Mrs. C. S. Eastman occupied the pulpit of the Methodist church at Menominee on Sunday last, speaking in the morning on "The Value and Importance of High Ideals in Life" and in the evening on "Currents and Counter-Currents."

The Marquette whist team has been expected to come to Calumet to meet the local team. Nothing has been heard from them of late, but an attempt will be made at once to learn where the iron country's whistlers are.—Houghton Gazette.

Mr. and Mrs. Fred W. Nelson of Kenton spent the afternoon and evening in the city on their return home from Trout Lake, where Mr. Nelson has been attending to the affairs of the South Shore station during the vacation of the cashier.

Among the visitors from up the road yesterday were Walter Fitch of Bearon, C. F. Sundstrom, John E. Mercer and John Milroy of Michigamme, John Muger of Ishpeming, Alfred Isaacson of Duluth and F. A. Bell and Samuel Redfern of Negaunee.

The residence of J. F. Wallace on Hale street owned by Mrs. M. Egan of Marquette was partially destroyed by fire Thursday night, entailing a loss of \$550, partly covered by insurance. The family was absent at the time, and the origin of the fire is unknown.—Escanaba Iron Port.

Miss Kathryn Purnell, leading lady for John Griffith, who appeared last evening at Ishpeming in "The King's Rival," and who in private life is Mrs. Griffith, is well known and has many friends in Marquette. She formerly resided here, being at that time the wife of Organist Oliver of the Episcopal church and from she was divorced. The press wherever the company has appeared is loud in its praise of her histrionic talent.

The "Straight Republican" ticket placed in nomination at Munising in opposition to the ticket headed by President Sullivan, bears the name of C. E. Nishling for president. The other nominees are: Clerk, Fred Larson; treasurer, George Leiphart; assessor, Henry Haskins, and trustees, E. P. Kling, J. D. Gumsolly and A. E. Stockwell. The campaign promises to be unusually hot even in that village of torrid elections, and the feeling between the two factions runs high.

Professor E. C. Thompson, superintendent of schools, is back from Chicago, where he attended the annual meeting of the Department of Superintendence of the National Educational association. The convention was a very enthusiastic one and was largely attended, among those present being thirty state superintendents, about 400 city superintendents from Maine to California and representatives from sixty or more of the leading colleges, in addition to several hundred other educators.

The bay presented a very pretty sight yesterday. With the exception of a narrow strip several hundred feet long, there were no signs of ice anywhere, and with the sun beaming down on the water, tinting it with blue, the scene was one much admired. The harbor, too, is free of ice, and as far as that feature is concerned navigation could be opened here at any time now. It is understood, by the way, that the fishing craft will be put into commission at an earlier date this year than is usually the case at this point in fact, they would be in service now had the fishermen figured on the mild weather and the early disappearance of the ice.
