

Rheumatism

Rheumatic pains are the cries of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer sustain the pure and health sustaining food they require. The whole system feels the effect of this poison; and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Keil, of 727 Ninth street, N. E., Washington, D. C., writes as follows: "A few months ago I had an attack of sciatic Rheumatism in its worst form. The pain was so intense that I became completely prostrated. The attack was an unusually severe one, and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who is also a member of the faculty of a leading medical college here. He told me to continue his prescriptions and I would get well. After having it filled twelve times without receiving the slightest benefit, I declined to continue his treatment any longer. Having heard of S. S. Swift's Specific, I procured a bottle of it, and after I had taken a few bottles I was able to hobble around on crutches, and very soon thereafter had no use for them at all. S. S. S. has cured me sound and well. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health."

SSS the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to ruinous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

CHARTER No. 390.

First National Bank

Of Marquette, Mich.

Organized January 22, 1864.

CAPITAL AND SURPLUS, \$200,000

DESIGNATED DEPOSITORY OF THE UNITED STATES.

PETER WHITE, President.
 L. G. KAUFMAN, Vice-President.
 CLAUDE W. CASE, Vice-President.

DAILY MINING JOURNAL,

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.50; Per year, by mail, \$16.00.

MARQUETTE, MICH., MARCH 10.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

It is safe to put up money on the prediction that congress will not provide for the construction of an isthmian canal at this session. It has found so many other important questions of a more pressing nature to engage its attention that it has apparently forgotten all about the canal project. It is just as well. The more the isthmian canal scheme is delayed the less the probability that we will make a mistake in the selection of a route for it.

Governor Taft of the Philippine commission says the work of the commission will be completed in eighteen months more and that by the beginning of 1904 the islands of the entire archipelago will be peaceful and governed by us as are the other territories of the union. It may be remarked that 1904 is a presidential year, and that it will be quite a card for the Republican party if the conditions predicted by Governor Taft then prevail in the Philippines.

Massachusetts has sprung another innovation by the enactment of a law imposing a license tax of 50 cents on cats. It has been an almost universal custom in this country to tax dogs, but for some reason the cat has not been made a source of revenue. And yet there is no special reason why it should not be. As a disturber of the peace the cat is certainly the equal of the dog, and it causes quite as much trouble to the human by getting into trouble and calling for help. The Massachusetts system is liable to become popular.

Hon. Justus S. Stearns gave out an interview on the gubernatorial situation while in Detroit a few days since the tenor of which denotes that he is allowing something to disturb the equanimity of his temper. He paid his respects to Railroad Commissioner Osborn in a decidedly peppery fashion, and announced that he is "agin' Bliss" for keeps. We are sorry to note that Mr. Stearns allowed his irritability to get the better of him while there was a newspaper reporter about to take down his words. It is sometimes hard to avoid making other persons mad in a political rumpus, but it is always unwise to allow one's own anger to get the mastery. Governorships are not won through rapping interviews in the public prints.

Alluding to recent convictions for violations of the banking laws in this state, the Detroit Free Press has this comment:

Violating the national banking laws in the western district of Michigan must be classed by the accident insurance companies as an extra-hazardous occupation. During the few months that Judge Warty has been on the bench four esteemed citizens that tampered with the funds of national banks have managed to land themselves in penitentiaries. In no case did the judge evidence the slightest faith in the corporate integrity that a certain sanctity hedges about a violation of the banking laws. As for the case of L. K. Salisbury, if the supreme court refuses to grant him a new trial on the charge of conspiracy, there will be nothing to prevent his paying his debt to the state after he has finished paying his extra debt to the national government. There is no danger of Salisbury's running away for the next two years, and the state authorities need not worry about the amount of his bail bond. They will always know where to find him.

Allice Roosevelt will not attend the coronation of King Edward. A difficulty about having her go has arisen which serves to bring into strong relief the flammery of the whole business of formally investing the British king with the symbol of an authority which he has been exercising ever since his accession to the throne, following the death of his mother. The plan was to have the president's daughter go as the guest of a member of the special embassy which will represent the United States at the coronation ceremonies, and to receive only such attentions as might properly be extended to her as an American lady of good station. That she is the daughter of the president gives her no fixed rank here, and there would be a manifest impropriety in having it obtain for her at the coronation of King Edward a recognition only due, under the rules of etiquette prevailing at the English court, to persons of "noble" birth and established station. The managers of the coronation program sought to get around the difficulty by according to Miss Roosevelt the station of an "American princess," and had arranged to lodge her in a palace and pay her the attention which she would be entitled to receive as such. When the president heard of this he countermanded his consent to have Miss Alice go at all, and she will make a visit to Havana, where she will be the guest of General and Mrs. Wood, instead. This will be a disappointment to Miss Alice, and also to the Londoners, who had counted on making use of the opportunity her visit would give them to pay her such marked attention as would in a measure offset the effect of the visit of Prince Henry to this country, and the influence it has had to set Germany to the front in the thought and regard of the American people as

L'Anse and Baraga

Rev. John M. Shank of L'Anse is expected back from Jackson today.

A Scanlon of Bay Mills was in L'Anse yesterday looking after some timber matters.

David Levitan of L'Anse left on Monday for Chicago to buy spring goods and shake hands with Prince Henry.

Attorneys L. N. Lage of Houghton and John McLemon of Hancock were in L'Anse this week on legal business.

Mrs. R. Hathaway of L'Anse entertained the Chess club Tuesday evening. A very pleasant time was had by those present.

Douglas Boulton of Cadillac and Miss Mame Edgerton of Nostoria were married by Judge McKernan at L'Anse Tuesday last.

Miss Rose Blankenhorn of L'Anse left on Tuesday for a two weeks' visit with relatives and friends at Chicago and Milwaukee.

John Dalzell of Detroit, who has bought lumber in Baraga county ever since there was a mill in the balliwick, was in L'Anse this week looking up business.

John T. Guinness of Duluth was in L'Anse a few days this week and induced a few of the people there to take stock in a Wyoming oil prospect in which he is interested.

A trained nurse from Chicago passed through Baraga yesterday on her way to Pequaing to care for the two infant children of Mr. and Mrs. Fred Hebard, who have been ailing of late.

Chas. C. Heughens, who has been getting out some timber at Huron Bay this winter for the Tamarack Mining company, has broken camp. He left for his home at Houghton yesterday.

Herman Falk, treasurer of Baraga township, was at the county seat yesterday setting with the county treasurer. His returns show he collected four-fifths of the roll and all of the personal tax.

Repair work is being done at the mills of Chas. Hebard & Son at Pequaing. Night and day crews will be worked the coming season. The firm has an extra supply of cedar shingle timber this season, and also enough pine to run the mills a full season.

Repairs are being made at the Nester Estate saw mill at Baraga, with a view to starting the mill up as soon as the weather will permit. The estate has a lot of logs on hand at the mill which were brought in by rail this winter from the vicinity of Ewen.

Neil Daugherty, superintendent of the L'Anse Brown Stone quarry, returned this week from Chicago, where he was conferring with W. H. O'Brien, the manager, regarding work at the quarries this season. It has been decided to operate on quite an extensive scale as soon as the weather will permit. A new boarding house will be built and from fifty to seventy-five men employed.

There was but little interest taken in the village caucuses this week, there being practically no opposition to the following tickets:

L'Anse—President, John O. McKernan; trustees, R. C. Williams, George Cleland and August Menow; with H. J. Siefert to fill vacancy; clerk, Martin Voetsch; treasurer, Matt Hansen; assessor, Con D. Shea.

Baraga—President, James J. Byers; trustees, Herman Falk, Alex. Martin and Fred W. Schwalm; with Chas. J. Boyle to fill vacancy; clerk, James McMahon; treasurer, John P. Nester; assessor, Chas. E. Cameron.

Upper Peninsula.

The athletes of the Menominee High school met the other afternoon, states The Herald, and elected Dave Fairburn captain and Walter McCully manager of the track team for the coming season. Both students are good athletes on the track and gridiron and are excellent men for the officers. Although it is rather early in the season to forecast prospective results, it looks as if the team standard. Last year's team, which won the championship of the upper peninsula by a good margin, was undoubtedly one of the best that ever represented Menominee, and if the boys wish this year to keep up with the pace set by the champions they will have to hustle. It is by no means improbable that they will do so, however, as there is plenty of good athletic material. Noreness, who won the quarter mile championship of the track last year, is the only old man back this season. The Hill brothers, both of whom were good men; Brown, who won the hurdles and qualified in the dashes; Wall, the sprinter and hurdler, and Taylor, the weight man and broad jumper, are all lost to this year's team. There are, however, a number of good men to try for their places and the indications are that they will fill them with credit. Among the most promising are Matteson, Kahle and McCue for the weights; Christianson for the quarter, Patterson for the pole vault, Brooks for the jumps and Fairburn, McCully, Haggerson, Wanek, Fish, Herbst, Hutchinson and others who have not yet signified for what events they will try to qualify. There are a number of good men in the bunch and several will undoubtedly make good in two or three events. The team has begun spring training and every afternoon after school may be seen at the fair grounds practicing in the hope of securing the championship once more.

Winter navigation through the ice will be possible in a short time, even in the coldest kind of weather, if what P. D. Forsythe of Menominee says is true.

Less Than Half Price!

WITHOUT parallel in the history of educational enterprise stands the offer of The American Newspaper Association to the thousands of friends and readers of The MINING JOURNAL. Such an offer should, and doubtless will, have your careful consideration. The merits of this liberal and mammoth literary enterprise can only be judged by careful investigation. Every reader of The MINING JOURNAL, therefore, is earnestly solicited to give the attention to this offer that its importance and liberality deserve. It means that the best and heretofore most expensive Encyclopedia is now within easy reach of even the boys and girls. Parents, encourage your children in habits of economy for the noblest of all purposes—economy for the sake of education.

Just Think of It! A saving of 10 cents a day will secure you the great ENCYCLOPEDIA BRITANNICA, which covers every department of knowledge known to mankind. No man needs any other library; no man can have a better one.

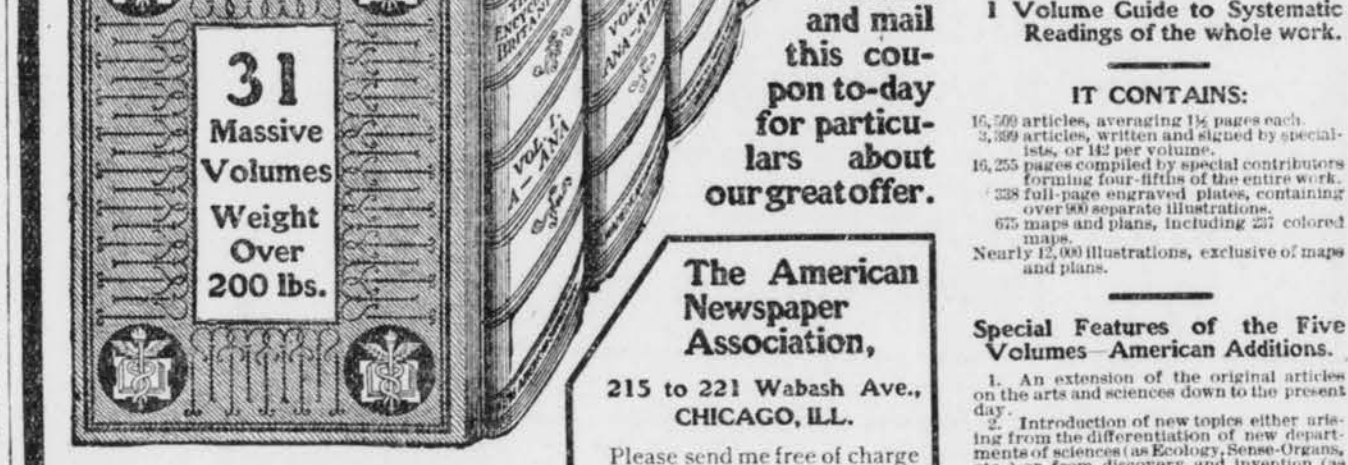

Not only are Scientific and Historical Subjects brought up to date in this new edition, but a vast fund of new information is added, relating to the material, social, industrial and educational progress of the world, together with many thousand new Biographies not in the Original Editions.

Those who act promptly can secure this great work at

Less than Half Price and on easy monthly payments amounting to only

10 Cents a Day

Fill out and mail this coupon to-day for particulars about our great offer.

31 Massive Volumes Weight Over 200 lbs.

What Is Said of It:

"I will defy anyone to buy 3,000 volumes that will give him as good a working library as is furnished in the ENCYCLOPEDIA BRITANNICA alone."—Ex-Præsitent Dwight, Yale University.

"If all other books were destroyed, the Bible excepted, the world would lose but little of its information."—Spurgeon.

The American Newspaper Association, 215 to 221 Wabash Ave., CHICAGO, ILL.

Copper Country Department

(Additional Copper County on Page 2.)

MUNICIPAL ELECTIONS TODAY.

Contests in Some Copper County Towns Promise to Be Warm.

The municipal elections today in some of the copper country towns will be decidedly warm. rival candidates for a portion of the offices are in the field in Red Jacket, Laurium, Lake Linden and Hancock. In the latter place Trustee Richard Bourke is in the field on a Citizens' ticket against Dr. William H. Dodge, the regular candidate for village trustee of the nomination caucus, in which both sought the nomination. The canvass has been very warm for the past few days and during the registration Saturday the contest became intensely heated. The adherents as well as principals have been making a thorough canvass and this resulted in a larger registration than usual.

TWO NEW SLEEPERS.

"Marquette" and "Calumet" to Be Run Between Chicago and Calumet.

Commercial Agent Vaughn of Houghton announces that "Calumet" and "Marquette" are the names of the two new sleeping cars which the Chicago, Milwaukee & St. Paul road will put on the run between Chicago and Calumet. They will go into service March 11 and 12, the first one leaving Chicago at 10:30 p. m., March 11, arriving at Calumet on the St. Paul through train March 12, and the second one leaving Chicago at 4 o'clock that afternoon. These coaches have twelve sections, a drawing room and a smoking room. The interior is finished in mahogany and they are much the handsomest and the most luxurious sleeping cars ever turned out by the Pullman company, which built the time, so she thought. The Pullman service on the St. Paul road will be discontinued when the new sleepers go into commission.

IN THE JUSTICE COURT.

Saturday was a busy day for Justice Casper Brand of Houghton. Frank Heikilo, an Atlantic saloonkeeper who was arraigned for violation of the liquor law for keeping his saloon open on Sunday, was bound over by the justice for trial in the circuit court. Alfred Heiman, charged with stabbing a saloonkeeper at the Atlantic Hotel way last Sunday evening, was assessed \$51. Henry Usitala of the Quincy ravine, charged with non-support by his wife, was found guilty. From present prospects the accused will linger in the county jail for thirty days in default of paying the costs in the case.

NEW WOODMEN CAMP.

Harmony Camp, No. 10,537, Modern Woodmen of America, instituted by M. J. McKeely, of Houghton, will meet with their charter members, will meet the first and third Fridays of each month. The following officers were elected: W. J. Dean, venerable consul; S. J. Richards, advisor; W. H. Husbend, clerk; Henry Funke, clerk; William Marchant, escort; R. J. Mitchell, secretary; Edward Blackwood, chief forester; Dr. W. H. Van Slyke and Dr. William H. Dodge, camp physicians. The work was exemplified by the Houghton degree team. Klinghammer's orchestra was present and discoursed fine music.

A "HAUNTED SWING."

A "haunted swing" will be a part of the equipment of the new Cooney Island resort now under course of preparation for Cleek Sylvester on Portage Lake near Pilgrim. The swing wherever used is quite an attraction. A structure about ten feet long will be built, the side of which will be built another hung on an axle so that it may be turned round. The seats of the swing are suspended from the axle. The seat do not turn but to those seated in the swing it appears that they too are being turned round and round with the inner house.

CASSIMER SPAHN DEAD.

Cassimer Spahn of South Lake Linden is dead. He was sixty years of age and a native of Germany. When but a young man he came to Eagle River in Keweenaw county, and resided in various portions of that county until 1894, when he came to South Lake Linden. He leaves a widow and nine children. The funeral will be from St. Cecilia's church this morning.

\$500 REWARD.

A reward of \$500 has been posted for information leading to the arrest and conviction of any person implicated in the burning of the Toplin building in Lake Linden last January.

SCROFULA.

"Scattered consumption" is a good way of describing this disease. It is in fact a real consumption of the little glands under the skin.

Scott's Emulsion cures it. Scott's Emulsion is good for all kinds of consumption but especially good for scrofula.

It heals the sores—but doesn't stop there for the weakness and loss of flesh is the worst part of scrofula.

Scott's Emulsion feeds and strengthens scrofulous children.

Send for Free Sample. SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y.

MAY BOOM REAL ESTATE.

Many Buildings to Be Erected in Twin Cities the Coming Season.

A big boom in real estate is looked for in the twin cities the coming season. Over a quarter of a million dollars will be expended in Hancock this summer for new buildings. Among the structures of a public nature which will be erected on the Hancock side are the new St. Joseph's hospital and the new church and parsonage of the First M. E. church. Twenty-five new dwellings, ranging from \$3,000 to \$15,000 in cost, are already planned at the hub. West Hancock and Quincy addition will be the scenes of busy building operations. East and West Houghton will also be greatly improved with a large number of new dwellings of the most modern type.

GARGLE AS DRESSING.

Houghton Damsal Pours Medicine on Lettuce by Mistake.

A good story is told on a very prominent Houghton young lady who is in business for herself on Sheldon street. It happens that her duties are such that she cannot go to dinner, the distance to her home in East Houghton being too far to spare the time necessary, so her mother sends down a lunch every noon. The lunch is always temptingly put up and supplied with dainties girls all like. A few days ago the lunch came down as usual and the young lady being particularly famished commenced her meal with real enjoyment. Included in the outfit was a small bottle of dressing, apparently to be used on the lettuce for an appetizer, and it struck the fancy of the diner at once. She poured it liberally over the lettuce and how she did enjoy it. The lunch was the best that her mother had put up for a long time, so she thought. She thought, "Not long after dinner the telephone rang. 'Hello, is this —?' 'Yes, it's me.' 'Well, did you gargle your throat with that medicine I sent down?' 'What medicine, I didn't see any.' 'Why, you didn't, that's strange. I put it in a small bottle and right on top of your lunch so you could see it,' said the mother.

Here a hasty explanation followed and the mother with a laugh rang off. But the young lady did not laugh. She was thinking of the overdose of vinegar, red pepper, alum and other ingredients of the gargle she had taken as a relish. That alum taste was bad. The prescription, although a home remedy, is a first rate thing for sore throat, but not for a salad dressing.

COPPERDOM BREVITIES.

The regular monthly meeting of the board of supervisors will be held tomorrow.

There were seven arrests made in Red Jacket in February and \$27 collected in fines.

Colonel John G. Mann expects to open the annex to the Douglas House to the traveling public in April.

Superintendent C. S. Fales of the Copper Range road is at Mt. Clemens taking the baths for rheumatism.

John Griffith in "A King's Rival" will be the attraction at the Calumet theatre on the evening of March 11.

McMillan Bros' saw mill at Ontonagon, which was recently partially destroyed by fire is being rebuilt.

Martin Bros., the Hurontown ice dealers, are shipping ice here from Baraga, where it is secured on Keweenaw Bay.

C. T. Wilson, a student at the Michigan College of Mines, has left for Montana to work on a government survey.

James R. Carroll of Hancock has returned from a two months' trip to the Pacific coast. He visited the principal towns in the West.

William F. Traves, monologist, humorist and impersonator, gave a fine entertainment at Quincy hall to a crowded house Saturday evening.

Charles Keifer has made the highest bowling score at the new Kettendon alleys thus far. He ran up 220, Al. Schlichting is next with 213.

Captain William Sampson of the Mesnard, who met with the misfortune to have his leg broken, will be laid up three months with the injury.

The Copper County Ministerial association will meet in Hancock this morning. Rev. Dr. Patterson of Chicago will read a paper on "The Minister's Bible."

The Calumet & Hecla band is substituting French horns for alto phones and making other changes in the instrumentation. The band now numbers thirty members.

Shields K. Wertman, a well-known copper country newspaper man, left Calumet Saturday evening for the Soo and will eventually return to his home at Toledo, O.

Under the auspices of the Twentieth Century Mandolin club of Calumet, Valentine Abt, the great mandolinist, will be heard at the Calumet theatre on the evening of March 21.

A Fanny Crosby song service was held at the Calumet Y. M. C. A. Sunday afternoon. Sketches of the life of Miss Crosby were given and a number of her songs were rendered.

The new boiler made at the Burt Boiler works for the village of Hancock is now being installed at the new pumping station. The plant will be ready in thirty days for operation.

Teams from the Hancock and Hurontown fire departments will meet on the indoor diamond at St. Patrick's hall in Hancock on Thursday evening and an interesting contest is looked for.

No new cases of small-pox have been reported of late and it is believed that from now on until next winter they will be few and far between. There are still a number of patients at the hospital.

Eight new warrants have been issued at Calumet for liquor dealers at the instance of the Civic Federation. The accused were charged with violation of the "screen" clause of the law. Frank Schroe

der & Son, Joseph Stefanie, Harry Erwit, John Tamblini, Joseph Stuckel, Ed. Metz and Charles Schenk. All furnished bonds for their appearance.

Miss Ida Verran and Charles Bettison were married by Rev. James Pascoe, pastor of the Peowabie M. E. church, at the home of the bride's parents, Mr. and Mrs. John Verran of the Quincy location.

William Tretloway, a veteran of South Lake Linden, is at the Lake Superior General hospital suffering from a chronic disease with which he has long been afflicted. It is feared he will not live.

The Lake Superior Produce & Cold Storage company of Houghton will add a wholesale grocery to the already prosperous and extensive business of the institution. The extra stock is now being placed.

Now that Hancock has a bowling station several teams will be organized and match games arranged. A regular Hancock team comprising the best bowlers in the village will be organized at a near date.

The second lodge of Modern Woodmen of America to be known as the Harmony lodge was organized in Hancock Friday evening. It starts off with a membership of twenty-five and has many applications in.

The Lady Foresters of Houghton will give a dancing party at the Armory on the evening of March 31. Music will be furnished by the Calumet & Hecla orchestra. Preparations for the event are under way.

Miss Josie Goldsworthy of the corps of teachers in the Hancock schools, was pleasantly surprised by a score of young lady friends and former school mates at her home on Hancock street Friday evening.

The examination of Peter Wafelcker, the Swain who fired on his rival while the latter was out riding with the girl for whose affections they were competitors, will be held in Justice Brand's court tomorrow.

Misses Ella and Laura Jacobs of Marquette will be guests this week of their brother, A. B. Jacobs, of Houghton's hockey team, who ask for \$35 per month, were already getting \$32 per month, or \$2 per day. It does not seem as though the average wages earned by miners could possibly be as low as has been asserted by some of the men. Where mines are worked by the contract system there are a few unfortunate every month that make small net earnings, but this is always on the average. One long-standing cause of irritation in the iron and copper districts of Lake Superior is found in the prices charged for supplies to contract miners, which must be furnished by the company, and are charged at two to four times their cost. On the face of it, this seems little less than robbery by the corporations, but the explanation given for this apparent overcharge is one that satisfies many of the longer-headed miners. The companies state that if supplies were charged at cost the miners would be careless in their use, and that much waste would follow. On the long run, the contract miners must do as well as they could do in other mining fields, or they will leave. According to the opinion of the mining companies, and their agents are a unit on this point, a reduction in the price of supplies to cost would mean a waste of powder, candles, etc., and a lower contract price paid for drifting and stoping. The supplies wanted would have to come out of the earnings of the miners or the profits of the companies, or both, and in the end a reduction in the price of supplies would do more harm than good.

The Isle Royale is third head to advantage. This was run for a time, but was shut down because it was found that rock could not be properly selected to feed three stamps.

The Mass mill has placed its second head in commission. The return from the first head, started last July, have been good, and it is thought that the mine is now sufficiently well opened to supply selected rock for both stamps. The selection of rock is a necessity, as all of the Ontonagon county mines are very lumpy, stretches of very rich ground alternating with spots that are entirely barren of mineral, or of too low grade to permit milling at a profit. While this is true of all of the mines of the Lake district, the Ontonagon county mines show greater fluctuations than are the rule elsewhere. Fortunately for the mines of the Ontonagon district, the richer patches of ground are of exceptional value, thus permitting a process of qualification necessary for the profitable operation of the mines.

Work at the Adventure is being pushed actively, both at the mine and on the new mill. When this mine begins production it will have an exceptionally large amount of ground opened, and for the reasons set forth in the preceding paragraph, it will be possible for the Adventure to "strike an average" of its ground much quicker than would be possible with a smaller amount of underground openings. Both the Adventure and Mass have one unusual advantage, in the existence of a series of parallel lodes, there being six of these at the Mass and seven on the Adventure tract, in a cross-section of about 1,000 feet. The Adventure will be able to furnish rock at a lower cost than almost any other mine in the district, for the first two or three years of operation, because the rugged country in which the mine is opened permits the removal of rock above the thin level through adits, thus doing away with heavy hoisting charges.

The option on the Belt mine, which was surrendered on March 1 by N. F. Leopold, of Chicago, was immediately renewed to J. R. Van Evert of Marquette, who now has options on both the Belt and Penn, where mining work is in charge of Captain W. A. Dunn, who opened the Belt mine in 1897. The Belt rendered a black eye nearly twenty years ago, when "worked" by an English syndicate, which was flagrantly mismanaged from start to finish, and managed to expend upwards of a million dollars without opening the mine sufficiently to feed a single stamp with selected rock. While this hasse injured the name of the mine, it did not affect the opinion of good judges of mining matters in this district, because the plan of operations, or rather, the operations without a plan, of the English company, was so notoriously bad that the mine itself was

ARCADIAN GIVES PROMISE.

Southern Shafts Are Looking Well and May Make a Profitable Mine.

The rally in Arcadian stock has led to a variety of rumors, which, boiled down to the hard facts, may be stated as follows: The southern shafts of the mine are looking well and give promise of making a profitable mine. Unfortunately these shafts are not far from the southern line of the property, though a mine of fair size could be opened, if the present promising conditions continue. The diamond drill operated by the Arcadian has recently brought up some good cores. Just how good is a matter of conjecture, but at least promising enough to hold out hopes of better things than the Arcadian has yet met with.

Grading for the railroad of the Phoenix is well along, and the one-stamp mill is to be built this season. This mill will get its power and also its wash water from the Eagle river, piped from the mine to the mill under a strong head, and as the heaviest expense of mills is for power to operate stamps, jigs and pumps, the Phoenix should be able to make a new record of low milling costs. Underground the property is looking well.

The southern shafts of the Mohawk, which at the start were not equal to those at the northern end, are now fully as good, and possibly better. The new mill of the Wolverine is well along, and most of the machinery on the ground. It is possible that the mill may be in operation early in May, though it would be a safer date to set. The Mohawk mill is about two months behind the Wolverine, of which it is a twin. The Wolverine will add about 50 per cent to its present output when in the new mill, and the Mohawk should make at least as much copper as the Wolverine, at the start, and nearly twice as much eventually, owing to its greater area.

The miners and trammers at the Franklin Junior mine are on a strike owing to a difference of opinion regarding contract wages. As usual, the stories told by the employers and workmen vary greatly. The Franklin is probably paying about as low wages as any mine in the copper district, but inasmuch as the trammers, who ask for \$35 per month, were already getting \$32 per month, or \$2 per day, it does not seem as though the average wages earned by miners could possibly be as low as has been asserted by some of the men. Where mines are worked by the contract system there are a few unfortunate every month that make small net earnings, but this is always on the average. One long-standing cause of irritation in the iron and copper districts of Lake Superior is found in the prices charged for supplies to contract miners, which must be furnished by the company, and are charged at two to four times their cost. On the face of it, this seems little less than robbery by the corporations, but the explanation given for this apparent overcharge is one that satisfies many of the longer-headed miners. The companies state that if supplies were charged at cost the miners would be careless in their use, and that much waste would follow. On the long run, the contract miners must do as well as they could do in other mining fields, or they will leave. According to the opinion of the mining companies, and their agents are a unit on this point, a reduction in the price of supplies to cost would mean a waste of powder, candles, etc., and a lower contract price paid for drifting and stoping. The supplies wanted would have to come out of the earnings of the miners or the profits of the companies, or both, and in the end a reduction in the price of supplies would do more harm than good.

The return of twenty-three pounds of refined copper per ton of rock stamped by the Baltic in 1901 is said to have disappointed eastern shareholders, but should not prove disappointing to people who are not looking for miracles. The Baltic returned seventeen pounds ingot in its first year, nineteen in its second, and twenty-three in its third, which is an unusually good showing. The making of twenty-three pounds per ton places the Baltic immediately after the Wolverine and Quincy among the amygdaloid mines of the district, which is a pretty good place for a mine only five years old. If the eastern shareholders would base their opinions on facts rather than on their desires, they would not be so subject to disappointments, which they apparently meet every time a copper mining company makes an annual report.

The Trimountain is making a surprisingly large amount of copper, but the figures of fifty pounds of mineral per ton, that have recently appeared, lack verification. The mine may be making that amount of mineral (which is the crude copper, with adhering particles of rock), but the figures so far printed are all estimates. Furthermore, the mill practice of the district varies so greatly that the amount of fine copper carried in fifty pounds of mineral ranges from twenty-eight to forty-four pounds. All that can be said of the Trimountain, with certainty, is that the rock is yielding surprisingly well in the mill, and all estimates. Furthermore, the mill practice of the district varies so greatly that the amount of fine copper carried in fifty pounds of mineral ranges from twenty-eight to forty-four pounds. All that can be said of the Trimountain, with certainty, is that the rock is yielding surprisingly well in the mill, and all estimates. Furthermore, the mill practice of the district varies so greatly that the amount of fine copper carried in fifty pounds of mineral ranges from twenty-eight to forty-four pounds. SORRY FOR WALLER

OFFICER IN PHILIPPINES HAS MANY SYMPATHIZERS.

NOT RESPONSIBLE FOR ACTIONS

SUFFERING A MENTAL STRAIN WHEN HE EXECUTED NATIVES.

Acting Governor to Start on Tour of Islands for Purpose of Observing Progress Made in Civil Government.

Manila, March 9.—Lieutenant Howland, of the Twenty-first infantry, reports that the insurgents in Rizal have been dispersed and the soldiers and constabulary are closely pursuing them. Complete harmony exists between the American soldiers and the constabulary in this district and both have done excellent work.

Colonel Forney to Preside.

Colonel James Forney, of the marine corps, will preside at the court-martial to try Major Waller and Lieutenant Day March 17 on a charge of executing natives of the island of Samar without trial. The charges specify that Major Waller and Lieutenant Day killed three native stevedores on the streets of Bazy without trial. These stevedores were among those who accompanied the disastrous expedition of Major Waller and a detachment of marines to the interior last December. It is claimed they were murdered.

Sympathy is expressed for Major Waller, who at that time was suffering from a mental and physical strain. Lieutenant Day apparently obeyed Major Waller's orders.

Support Taft's Attitude.

The citizens here generally support Governor Taft's attitude in stating that a military force of 15,000 men will be sufficient for the archipelago and asking for a 75 per cent reduction on Philippine imports into the United States and the non-exclusion of Chinese skilled labor for the islands.

Acting Governor Wright will tomorrow start on a tour of the southern islands for the purpose of personally observing the progress made in civil government and the pacification of the islands. He will also adjust certain provincial church questions.

The central committee is actively canvassing the archipelago in behalf of the McKinley memorial. The committee is receiving strong support from the natives.

The Third infantry has been ordered to Manila, preparatory to sailing for the United States. The Twelfth regiment will follow.

The military authorities report the surrender of five insurgent officers, two influential leaders and thirty-five riflemen in the province of Batangas.

President Ampil Escapes.

President Ampil of Cainta, province of Morong, who was recently kidnaped by ladrones, has escaped from his captors and has returned, accompanied by a majority of the missing members of the constabulary who went in search of him. He reports that the ladrones have dispersed and are fleeing from the completely aroused inhabitants, who are co-operating with the authorities. The temporary unrest in the province is subsiding.

OIL TO REPLACE COAL.

Elaborate Plans Being Made by Southern Pacific Railroad.

Memphis, Tenn., March 9.—The Southern Pacific is making elaborate preparations for the use of oil as fuel on its lines, and it was stated by President Harriman while passing through the city that his southern tour was in connection with this particular part of the improvement plans of the Southern Pacific. He was to be joined in New Orleans by his first assistant, Julius Kruttschnitt, who was awaiting him at that point.

The Southern Pacific intends to establish seventy-two steel tanks to hold seventy-two steel tanks of 50,000 barrels average capacity along its lines and has let the contract for this work. These tanks will have a capacity of 3,400,000 barrels, and these, together with the thirteen already constructed by the company, will give a total capacity of 4,425,000 barrels.

Mr. Kruttschnitt is authority for the statement that the Southern Pacific intends to use oil for generating power on the locomotives from one end of the line to the other and eventually to substitute oil for coal fuel on its engines, ferryboats and steamships. Already the company has converted 210 of its locomotives into oil burners and has on hand material at the Houston shops for the converting of 120 more.

Ask Him

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows the formula, so ask him if there is anything better for purifying the blood, strengthening the digestion, and building up the nerves. Follow his advice, whatever it may be.

"I have taken Ayer's Sarsaparilla every spring since 1848. As a blood-purifying and nerve-strengthening medicine it cannot be equalled."

INDEMNITY LIES IDLE.

Chinese Officials Fear Bad Results from Wrangle of Powers.

Peking, March 9.—Chinese officials fear that the refusal of the bankers commission to accept the February installment of the indemnity will render the collection of future installments more difficult. When it becomes known that the 1,820,000 taels of the February installment is lying in the Chinese bank because the foreign governments are unable to agree to terms concerning its division, the Chinese will possibly relax their efforts to meet the future installments.

Sir Robert Hart has sent letters to the ministers of the foreign powers here, calling attention to the complications likely to occur in the event that the money, which is deposited in the Chinese bank at Shanghai should be "destroyed or diverted."

The actions of General Tung Fu Hsiang are causing excitement and apprehension at the imperial court. Tung Fu Hsiang has a considerable body of foreign governments, through Yung Lu, the first grand secretary, recently wrote to the general, offering to maintain him comfortably if he would disband his followers. This Tung Fu Hsiang refused to do, intimating that he felt safer with his army around him.

The court fears that when his resources fail Tung Fu Hsiang may be compelled to resort to pillage in order to support his followers, and that this would eventually lead to rebellion.

The French legation resents the dispatches blaming the French for the orders of Marshal Su's troops in Hwangping province. The legation declares it protested against the transfer of Marshal Su and predicted that the present disorder would result. The reinstatement of Marshal Su in his old command is due to the request of the French legation.

KIPLING ON ISLAND POLICY.

He Says Uncle Sam and John Bull Are Alike Pigheaded.

London, March 9.—An interesting letter from Rudyard Kipling has been published here. Dealing with the Philippines, he replied to a Shanghai correspondent, who drew his attention to American methods in those islands, as follows:

"All you say about the Philippines, the conflict there between the Americans, military and civil, and the pig-headedness of the military and their habit of setting bulldozers to catch rabbits, is immensely cheering to me, because it is precisely what we are doing in South Africa. You cannot persuade a big country full of prosperity that it does not know everything."

"When it has lost a few thousand tons and a few thousand millions sterling, it may, if unusually enlightened, begin to understand that it has taken hold of the wrong end of the stick. But that is a great deal to hope for and probably will not come in our time."

"I am very glad to learn on your showing that the American seems to be 'constitutionally incapable of admitting himself wrong and frankly putting himself in the right,' because I did not like to think of the Americans as any more logical than ourselves. Of course, what a new country wants is a high-toned leadership of the highest powers and absolute integrity, but as America and England are both free peoples we must juggle along in the expensive, wasteful but cheery fashion that attends our methods."

DEAL IN AMERICAN STOCKS.

French Financiers Have a Big Move on Foot.

Paris, March 9.—One of the most important results of the mission of M. Weiller and other Frenchmen to the United States, with the object of studying financial, industrial and commercial conditions, is the introduction for the first time in history of American stocks, bonds and securities of all sorts on the Paris bourse. A state syndicate, including many of the best-known French financiers, is being formed to start operations on an extensive scale in the hitherto neglected Yankee values.

The organizers have already brought the matter to the attention of M. Delcasse, foreign minister, who is "not unfavorable" to the plan, since he is convinced that it will result in a business connection between the two countries of "the highest value to France." Governmental attention in other quarters has also been invited to the scheme, which is being kept secret to such an extent that it is impossible to ascertain other details.

One of the most prominent members of the syndicate says that he had his partners, whose names will shortly be announced, have been trying "unsuccessfully" during the past three years to launch the movement, which is bound to prove a rich field for French operators. It is declared that a great sensation on the bourse will follow the near announcement of the new arrangement.

WOULD TRADE WITH AMERICA.

Yankee London Exhibition Attracts Mediterranean Merchants.

London, March 9.—Evidence is accumulating that the forthcoming American exhibition at Crystal Palace will attract special attention not only in the United Kingdom but also throughout the whole of Europe. Merchants belonging to European, Asiatic and African ports of the Mediterranean are seeking information with regard to the kind of goods to be exhibited and promise to send delegations charged with the duty of establishing permanent trade relations with America.

The manufacturers at the head of the movement have sought the support of the Hamburg-American and Deutsch-Levante lines and have perfected arrangements for a joint steaming service between the United States and Levantine ports. The service is intended to carry freight and passengers, including thousands of emigrants to the United States from Greece and Syria.

The Hamburg-American Steamship company will look after the American end of the enterprise and the Deutsch-Levante will attend to the Mediterranean end. The promoters of the Crystal Palace exhibition are convinced that the fair will be of immense industrial and commercial importance.

AVOIDED THE SLUMS

HENRY DID NOT VISIT CROWDED TENEMENT DISTRICTS.

GERMAN PRESS DISAPPOINTED

THINK PRINCE SHOULD HAVE SEEN HOW MASSES LIVE.

General Tone, However, Is One of Approval and the Kaiser Is Eminently Satisfied With His Brother's Experience.

London, March 9.—While the general tone of the German press and the German public men continues to be one of approval of Prince Henry to America, there is some comment of a different character. Regret is expressed by leading Social Democrats that Prince Henry has not devoted a part of his time to a closer inspection of social conditions in the large cities of the United States, and especially in New York and Chicago.

"He comes back," says one writer, "without having seen how the masses live in America. He has seen only the bright side, polished especially for the occasion, but the crowded tenement districts, whose population is becoming more and more the great problem of America, he has not seen."

LARGEST IN THE WORLD.

Hamburg-American Line to Have a 725-Foot Steamer.

New York, March 9.—Following the announcement that the Cunard line is to build two giant steamers, to cross the ocean in four and a half days, comes a batch of stories that several other lines are contemplating similar action. The statement is made that the Hamburg-American line, which holds the over-sea record with the Deutschland, has awarded a contract for a 725-foot steamer with a guaranteed speed of twenty-five and a quarter knots, or twelve hours faster than the Deutschland. It is added that not only will the ship be the largest in the world, but it will be at least one-fourth of a knot per hour faster than anything in the passenger line now afloat, building or contemplated.

The North German Lloyd has a new liner in the Kaiser Wilhelm II., now on the ways, intended to beat the Deutschland, and the new Hamburg liner will aim to beat the Kaiser Wilhelm II.

In connection with the construction of the new Cunarders, a prominent steamship agent, not connected with that company, says that both vessels will be fitted with turbine engines and tubular boilers. This will be the first experiment with turbine engines in the trans-Atlantic passenger trade, and explains in a measure how it will be possible to get 48,000-horse power for each ship, as contemplated.

CHICAGO TO GREET FUNSTON.

Aginaldo's Capture to Be Entertained in Windy City.

Chicago, March 9.—Brigadier General Frederick Funston, coming to Chicago Tuesday morning the guest of the Marquette club. Most important of the events to be given in his honor will be the banquet by that club the night of his arrival in the city. General Funston will be the speaker of the evening in an elaborate program has been prepared.

Many federal and military officials have accepted invitations and the occasion promises to be a brilliant one. General Funston will be met Tuesday morning by a few miles from Chicago by a special committee from the club and a number of adherents.

WILL TRAIN FITZSIMMONS.

George Dawson Says Australian Is in Great Trim.

Chicago, March 9.—George Dawson of Chicago has definitely decided to spend the month of April in Bob Fitzsimmons' training camp in the East. He does this at the request of the Australian. Dawson keeps in splendid condition for the roughing he expects to undergo with the big fellow.

"I will be there to finish him off," said the retired scrapper. "I'll get you fact, continued Dawson. "I think whole lot more of Fitzsimmons' chances since I saw him here the other day. He is in better condition now than he was when he started to train for a fight after a long rest. He stripped at 150 pounds when he was here and was limber and in great shape. I expect he will go into the ring weighing about 165 pounds, which is the heaviest he ever weighed for a fight, except the one with Rubin, when he weighed in at 160 pounds on entering the ring. I think a lot of his chances."

MRS. PFEFFER DEAD.

Washington, March 9.—Mrs. Sarah Jane Pfeffer, wife of former Senator Pfeffer, of Kansas, died here yesterday at the residence of her daughter, Mrs. N. J. McIlhenny.

WILSON DENIES RUMORS.

Washington, March 9.—Secretary Wilson today denied the renewed rumors of his resignation.

E. W. GROVE.

This name must appear on every box of the genuine Laxative Bromo-Quinine Tablets. The remedy that cures a cold in one day. 25 cts.

PAUNCEFOTE TO QUIT.

British Ambassador Is Likely to Be Superseded.

London, March 9.—It is current rumor that Lord Pauncefote is to be superseded as ambassador to the United States and that Alfred Lyttelton is to be his successor. The report has not yet been confirmed, since no official circles in London have been informed.

The Yorkshire Post says it learns that Alfred Lyttelton is likely to succeed Lord Pauncefote as British ambassador at Washington.

Mr. Lyttelton is the Liberal unionist member of parliament for Leamington, Warwickshire; is a member of the inner temple, recorder of Oxford and was legal private secretary to Sir Henry James when the latter was attorney general, 1882-4.

WASHINGTON CREDITS RUMOR.

Washington, March 9.—The news from London that Lord Pauncefote is to be recalled is believed in Washington.

Lord Pauncefote's usefulness as an ambassador has been so greatly minimized since the death of the late President McKinley that his recall is regarded in diplomatic circles as a matter of course. His power and influence began to wane from the day President Roosevelt came to Washington. He ceased to be the diplomatic pet, other ambassadors who had previously been ignored began to enjoy equal rights and privileges with Lord Pauncefote.

His lordship held the confidence and respect of the late President McKinley to a remarkable extent when he reached the age limit at which officials of the diplomatic service of Great Britain are usually retired he was permitted to continue to serve his country in Washington. This was a mark of confidence seldom bestowed upon any English official.

TO ABOLISH SUGAR DUTY.

Great Britain Will Attract West Indian Product.

London, March 9.—It is learned that the British government intends to remove the half-penny a pound duty imposed on West Indian sugar. This will afford the West Indies the relief they have demanded until the Brussels convention comes in force. Between now and the end of 1903, Great Britain can take any steps she deems advisable to safeguard the industry. The abolition of the duty on West Indian sugar is tantamount to giving it preferential treatment over all other sugars, though this, of course, will cease the moment the Brussels agreement becomes operative. According to representatives of the leading sugar houses here, the immediate effect will be to bring to English ports the West Indian sugar which is now going to American markets.

CORONATION COMES HIGH.

Big Sums Paid for a Single Window to See Parade.

London, March 9.—This city is already flooded with illustrated literature pointing out the advantage of viewpoints from which the coronation parade may be witnessed. Many single windows opening on balconies, such as that in Ludgate Hill, has already been let for £42 each. Single seats in the Strand have been sold for £3 to £5. Single windows, with exceptional approaches on the Surrey side have brought £73.

Equally elaborate plans for viewing the naval parade are already in the making. The demand for high-class steamers is said to exceed the supply. These tours will include a four-day cruise about the channel. From ten to eighteen guineas are now asked for single berths.

WALL STREET STOCKS.

Interest Centers in Bank Statement—Cash Loss Nearly Nine Millions.

New York, March 9.—Considerable interest centered yesterday in the bank statement, and pending its publication the operations in the stock market were without much significance except in a few stocks. Pacific Mail was bought on expectations of a renewed agreement with the Panama Railroad company.

The publication of the bank statement showed a cash loss of nearly \$9,000,000, which more than doubled the preliminary estimates. This started a selling of the general list, but prices did not yield much. Some satisfaction was felt at the loan reduction of \$3,000,000, this being the first nearly two months.

Closing prices of stocks are reported by Paine, Webber & Co. as follows: Union Pacific, 99 1/2; N. Y. Central, 102 1/2; Erie, 35 1/2; Southern Ry., 35 1/2; No. Pacific, 43 1/2; Alton, 43 1/2; C. & O., 43 1/2; Rock Island, 39 1/2; Southern Pac., 44 1/2; Reading, 44 1/2; Metropolit., 44 1/2; B. & O., 44 1/2; B. & E., 44 1/2; T. C., 44 1/2; Canadian Pac., 113 1/2; T. C., 44 1/2; Illinois Central, 33 1/2; Pennsylvania, 132 1/2; Leather, 42 1/2; N. Y., 104 1/2; C. & N. W., 104 1/2; Erie, 35 1/2; West. Gas, 29 1/2; R. & E., 32 1/2; Atchafalaya, 32 1/2; Texas Pacific, 39 1/2; N. O. & G., 39 1/2; Western Union, 40 1/2; Northern Pac., 40 1/2; Smelter, 40 1/2; Pfd., 40 1/2.

Range of Money Rates.

Money on call was nominal. Prime mercantile paper, 4 1/2 to 4 3/4 per cent. Sterling exchange, steady, demand at 4.87 1/2, 60 days, and sixty days at 4.85 1/2 to 4.87 1/2. Bar silver, 54 1/2.

CHICAGO GRAIN MARKETS.

Features of the Day in the Wheat, Corn and Oats Pits.

Chicago, March 9.—In what yesterday the fact that some high local professionals, who generally send men into the fields at this season were good buyers, and fair orders on the buying side came from the drouth stricken sections, were the leading bulk influences.

Corn was slightly higher, closing strong, with both shorts and longs on the buying side. The country bought futures sparingly and refused to sell their cash at present prices.

Oats were slightly stronger. There was good selling of May by longs, and buying by elevator interests and exporters.

The leading futures ranged as follows: May wheat opened at 77 1/2; highest, 78; lowest, 77 1/2; closed, 77 1/2. May corn opened at 62 1/2; highest, 62 1/2; lowest, 62 1/2; closed, 62 1/2. May oats opened at 44 1/2; highest, 44 1/2; lowest, 44 1/2; closed, 44 1/2.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows Saturday, the quotations being reported by Paine, Webber & Co.:

CITY BREVITIES.
 The Lady Foresters' dance announced for April 8 has been postponed indefinitely.
 Fred Bartle and Patrick LeLoughary of Negaunee were Marquette visitors yesterday.
 General Freight Agent Walker of the South Shore was in the city from Duluth yesterday.
 Miss Marian Rose is the guest of her uncle and aunt, Mr. and Mrs. Harry Rose, at Manistique.
 J. H. Bice, who has been very ill at St. Luke's, is rapidly on the mend. He is able now to sit up for several hours daily.
 Peter Primeau, whose business necessitates his presence in the copper country much of the time, came down Saturday to spend Sunday with his family.
 William L. Campbell has been transferred from the light at Stannard Rock to the position of assistant keeper at the Marquette station, according to Washington advices.
 The Marquette Building & Loan association, through its liquidating committee, has sold to Joseph Dunkley the property known as Lot No. 39 of Harlow's addition. The consideration was \$1,000.
 The South Shore has just put a new dining car on its limited passenger train. It runs between Duluth and Thomas-ton, going out on No. 8, eastbound, in the evening, and returning on No. 7, west-bound, in the morning.
 The concert given at the city hall Saturday evening under auspices of the high school class was the enjoyable entertainment anticipated. The assemblage it attracted was very large and appreciative. Over 800 were seated.

Eighteen years of hard labor in the branch prison was the sentence given Hugh A. Matheson, found guilty at the Soo last week of murder in the second degree for killing Peter Stone at Eskonung. The man was brought up Saturday and turned over to Warden Freeman.
 The local land office has rendered a decision in the case of Thos. Wilson vs. George Willifong Wilson. The contest involved a homestead of eighty acres of land in Mackinac county and was decided in favor of Thomas Wilson. The men, although bearing the same name, are not related.
 Professor Downing of the Marquette Normal school delivered a fine lecture at the high school last night before a large and appreciative audience on "The making of a world." Mr. Downing is a fine speaker and was thoroughly com-

A MEASURE OF MERIT.
 Marquette Citizens Should Weigh Well This Evidence.
 Proof of merit lies in the evidence. Convincing evidence in Marquette is not the testimony of strangers. But the endorsement of Marquette people.
 That's the kind of proof given here. The statement of a Marquette citizen, Mr. A. Hoard of Dead River Mills, says: "There was a dull aching pain across the small of my back and in my kidneys at times so severe that I could hardly stand it, particularly if I caught cold or did any heavy lifting. I took medicines at different times but the trouble still remained as bad as ever. When I saw Doan's Kidney Pills advertised I got a box at the Stafford Drug company and used them. The treatment cured me."
 For sale by all dealers. Price 50 cents per box. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

PROMPT AND FAITHFUL SERVICE

CHILD WORTH MILLIONS.
 "My child is worth millions to me," says Mrs. Mary Bird of Harrisburg, Pa. "yet I would have lost her by croup had I not purchased a bottle of One Minute Cough Cure." One Minute Cough Cure is sure cure for coughs, croup and throat and lung troubles. An absolute safe cure which acts immediately. The youngest child can take it with safety. They all like the taste and remember how often it helped them. The Stafford Drug Co. H. N. Meloche Co., Ishpeming.

WHY HE DIDN'T JUMP.
 Pat's Wages Went Up With the Speed of the Train.
 Here is one that a young man who knows a good story when he hears it heard one railroad man tell another in a depot up the line the other day.
 "We picked up a new Irishman some-where up-country, and set him to work breaking on a construction train at three cents a mile for wages. One day when him an' me was on the train he got away on one of them mountain grades, and the first thing we knowed she was flying down the track at about 90 miles an hour, with nothing in sight but the ditch and the happy hunting ground when we come to a sharp curve. I was 'em down as hard as I could all along the tops, and then a sudden I see Mike crawlin' along toward the end of one of the cars on all fours, with his face the color of milk. I thought he was gettin' ready to jump, an' I see his finish if he did.
 "Mike! I says, for God's sake don't jump."
 "He clamps his fingers on the runnin' board, to give him a chance to turn round, and lookin' at me contemptuous, answers
 "Jump, it is! Do ye think I'd be after jumpin' an' me makin' money as fast as I am!"—Portland Oregonian.

MARQUETTE COMMON COUNCIL PROCEEDINGS.
 (Official.)
 Marquette, Mich., March 3rd, 1902.
 A regular session of the common council was called to order by the president, the Mayor, E. A. Sibley.
 Present—Aldermen Astre, Ball, Bush, Donovan, Ekstrom, Fleury, Gorman, Gustafson, J. O. N. Sibley and Ward-12.
 The records of the sessions of March 15th and 17th, approved.
 The petition of R. Peters and five others, requesting the construction of an eight-inch sewer in Crescent street, between Third and Fourth streets, was presented, and, on motion of Alderman Bush, referred to the committee on streets and sewers.
 The petition of R. Peters and five others, requesting that Crescent street, between Third and Fourth streets, be graded and macadamized, was presented, and, on motion of Alderman Bush, referred to the committee on streets and sewers.
 A communication from Samuel Redfern, land agent of Cleveland-Ciffs Iron Co., relative to right-of-way for "Saw Road" through T. N. No. 25, W. was presented, and, on motion of Alderman Jones, referred to the committee on streets and sewers.
 A communication from E. W. MacPherran, relative to right-of-way for trunk sewer through said railway company's property was presented, and, on motion of Alderman Bush, ordered placed on file.
 The resolution had been unanimously adopted by the board of supervisors of Marquette county, relative to small pox, was presented, and, on motion of Alderman Bush, referred to the committee on public health.
 The liquor bond of Joseph E. Bourassa, surety Thomas McFarland and Benjamin M. Sambrook, was presented, account of removal.
 The motion of Alderman Gorman, said bond was approved.
 The monthly reports of all the justices of the peace presented, and, on motion of Alderman Ward, ordered placed on file.
 The committee on finance and taxation, to whom had been referred the petition of Hiram Seymour, for rebate of personal taxes assessed against him for the year 1901, reported that they allow the whole amount and could not make any recommendation on same and referred said petition back to the council.
 On motion of Alderman Donovan, said petition was referred to the city attorney, he to make report on same at the next session.
 The committee on finance and taxation, to whom had been referred the list of unpaid delinquent personal taxes for the years 1901 and 1902, inclusive, recommended that all items on said list marked unpaid, be referred to the collector of Personal Taxes" account be discharged and that the collector be instructed to make the proper entries on the books and records of his office and that the balance be referred to the city attorney with instructions to take such steps as are necessary to collect. Said recommendation was, on motion, unanimously adopted.
 On motion of Alderman Donovan, the matter of purchasing a protograph was referred to the committee on purchases, salaries and wages with power to act.
 The controller read the report of the Alderman Shea moved that five hundred dollars be set apart for duty the city for the highway fund. Carried.
 The following bills and claims, having been by the controller, referred to the committee on purchases, salaries and wages, were allowed and ordered paid:

 Years—Aldermen Astre, Ball, Bush, Donovan, Ekstrom, Fleury, Gorman, Gustafson, Jones, O'Neill, Shea, Siegel and Ward-12. None.
 On motion of Alderman Donovan, supported by Alderman Bush the following was unanimously adopted:
 Whereas, The bill of John Siegel, for \$23.82, against the city of Marquette, for groceries, meat, coal, wood, etc., furnished by authority of the health officer in a certain case, has been presented to this council for audit and allowance, and
 While the bill has been duly certified by the health officer and considered by the common council,
 Resolved, That said bill is hereby allowed at the sum above specified under Section 224 of the Compiled Laws of Michigan for 1897, a check to be drawn on the treasury of Marquette, to which the person belongs on account of whose sickness said bill was contracted, and
 On motion of Alderman Donovan, supported by Alderman Gorman, the following was unanimously adopted:
 Resolved, That the following places are hereby designated as registration and polling places for the election to be held on April 7th next in the several wards in the city, respectively:
 First Ward—The building corner of Lake and Grove streets.
 Second Ward—City road roller building, Spring street.
 Third Ward—Hodgkins livery office, Pine street.
 Fourth Ward—City Hall, Washington street.
 Fifth Ward—The building at No. 503 North Third street.
 Sixth Ward—The building at No. 825 North Third street.
 Eighth Ward—Hannah Moore's residence, 22 1/2 Pine street.
 On motion of Alderman Siegel, the following was unanimously adopted:
 Resolved, That the following named electors of the city be and they are hereby designated and appointed as electors and canvassers in and for the city, viz: Francis M. Moore, Egbert J. Mapes and Joseph Fay.
 Peninsular Cement Co., that there is no cement manufactured that can surpass it for gutter, cross and sidewalk purposes. Also handle Gypsum hard wall plaster; it is as cheap as lime mortar, wall tins in all colors, calcine and land plaster, fire clay, brick, sewer pipe, beach sand, saw dust, wood of all kinds; also do tinning and contract work in all lines.

MONEY OF CHINA.
 Extension of Silver Coinage in the Provinces Favored.
 The Shen Pao advocates the extension of the silver coinage to all the provinces. Ever since the opening of Chi in 1860 a coinage instead of other means of exchange, the empire has used copper cash as currency. Formerly China used gold, silver and copper, but silver was the standard. But the ounce and touch varied endlessly in different places. This was greatly to the loss and inconvenience of the people. When foreign trade began the foreign coins gradually came into circulation in the ports. The Spanish dollar and the Mexican dollar were the coins used. These were both seventy-two in weight, but the Spanish dollar was purer silver and so exchanged for more cash. The last few years the Spanish dollar has gradually disappearing and the Mexican holds the field. The product of the Mexican silver mines is sent to the United States, where it is converted into silver bricks. It is then sent back to Mexico to be coined, whence it is exported to China. This is exceedingly profitable to Mexico. Some copper is put into these dollars. Now the Chinese officials are endeavoring to divert these profits into Chinese hands, coining the dragon dollars in weight and touch the same as the Mexican. Hence proclamations are issued, exhorting the people to use the new coins for the more orderly the officials of every province to accept for taxes and other government dues 20 per cent of dragon dollars, and to pay out in the same proportion. The writer thinks that it would be much better to allow the whole amount to be paid in dollars. For this 20 per cent in one coin and the balance in another only opens one more door for subordinates to speculate by manipulating the rate of exchange.
 If the circulation of dollars becomes universal it is evident that the mint will need to increase their output. There need be no talk, as was recently proposed, about reducing the number of mints by abolishing the Nanking mint. The edict orders Liu Kun-yi, Chang Chih-tung and Tiao Men to consult and agree upon regulations for their several mints, then they will have confidence in the new coins and their use will become universal.—Shanghai Mercury.

PROOF OF MERIT.
 Marquette Citizens Should Weigh Well This Evidence.
 Proof of merit lies in the evidence. Convincing evidence in Marquette is not the testimony of strangers. But the endorsement of Marquette people.
 That's the kind of proof given here. The statement of a Marquette citizen, Mr. A. Hoard of Dead River Mills, says: "There was a dull aching pain across the small of my back and in my kidneys at times so severe that I could hardly stand it, particularly if I caught cold or did any heavy lifting. I took medicines at different times but the trouble still remained as bad as ever. When I saw Doan's Kidney Pills advertised I got a box at the Stafford Drug company and used them. The treatment cured me."
 For sale by all dealers. Price 50 cents per box. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

WHY HE DIDN'T JUMP.
 Pat's Wages Went Up With the Speed of the Train.
 Here is one that a young man who knows a good story when he hears it heard one railroad man tell another in a depot up the line the other day.
 "We picked up a new Irishman some-where up-country, and set him to work breaking on a construction train at three cents a mile for wages. One day when him an' me was on the train he got away on one of them mountain grades, and the first thing we knowed she was flying down the track at about 90 miles an hour, with nothing in sight but the ditch and the happy hunting ground when we come to a sharp curve. I was 'em down as hard as I could all along the tops, and then a sudden I see Mike crawlin' along toward the end of one of the cars on all fours, with his face the color of milk. I thought he was gettin' ready to jump, an' I see his finish if he did.
 "Mike! I says, for God's sake don't jump."
 "He clamps his fingers on the runnin' board, to give him a chance to turn round, and lookin' at me contemptuous, answers
 "Jump, it is! Do ye think I'd be after jumpin' an' me makin' money as fast as I am!"—Portland Oregonian.

MARQUETTE COMMON COUNCIL PROCEEDINGS.
 (Official.)
 Marquette, Mich., March 3rd, 1902.
 A regular session of the common council was called to order by the president, the Mayor, E. A. Sibley.
 Present—Aldermen Astre, Ball, Bush, Donovan, Ekstrom, Fleury, Gorman, Gustafson, J. O. N. Sibley and Ward-12.
 The records of the sessions of March 15th and 17th, approved.
 The petition of R. Peters and five others, requesting the construction of an eight-inch sewer in Crescent street, between Third and Fourth streets, was presented, and, on motion of Alderman Bush, referred to the committee on streets and sewers.
 The petition of R. Peters and five others, requesting that Crescent street, between Third and Fourth streets, be graded and macadamized, was presented, and, on motion of Alderman Bush, referred to the committee on streets and sewers.
 A communication from Samuel Redfern, land agent of Cleveland-Ciffs Iron Co., relative to right-of-way for "Saw Road" through T. N. No. 25, W. was presented, and, on motion of Alderman Jones, referred to the committee on streets and sewers.
 A communication from E. W. MacPherran, relative to right-of-way for trunk sewer through said railway company's property was presented, and, on motion of Alderman Bush, ordered placed on file.
 The resolution had been unanimously adopted by the board of supervisors of Marquette county, relative to small pox, was presented, and, on motion of Alderman Bush, referred to the committee on public health.
 The liquor bond of Joseph E. Bourassa, surety Thomas McFarland and Benjamin M. Sambrook, was presented, account of removal.
 The motion of Alderman Gorman, said bond was approved.
 The monthly reports of all the justices of the peace presented, and, on motion of Alderman Ward, ordered placed on file.
 The committee on finance and taxation, to whom had been referred the petition of Hiram Seymour, for rebate of personal taxes assessed against him for the year 1901, reported that they allow the whole amount and could not make any recommendation on same and referred said petition back to the council.
 On motion of Alderman Donovan, said petition was referred to the city attorney, he to make report on same at the next session.
 The committee on finance and taxation, to whom had been referred the list of unpaid delinquent personal taxes for the years 1901 and 1902, inclusive, recommended that all items on said list marked unpaid, be referred to the collector of Personal Taxes" account be discharged and that the collector be instructed to make the proper entries on the books and records of his office and that the balance be referred to the city attorney with instructions to take such steps as are necessary to collect. Said recommendation was, on motion, unanimously adopted.
 On motion of Alderman Donovan, the matter of purchasing a protograph was referred to the committee on purchases, salaries and wages with power to act.
 The controller read the report of the Alderman Shea moved that five hundred dollars be set apart for duty the city for the highway fund. Carried.
 The following bills and claims, having been by the controller, referred to the committee on purchases, salaries and wages, were allowed and ordered paid:
 Lapsler, services at dump, February, \$36.00
 Chas. A. Eggers, blanks, 5.00
 Bigelow & Co., supplies for city officers, 2.50
 Adolphus, services at dump, 1.00
 Zepher Messier, poundmaster's fees, 4.25
 Watson & Palmer, matting for City Hall, 11.63
 Printing Journal "Co. Ltd., printing, 22.50
 Augustus, services at dump, 1.00
 Lake Shore Engine Works, labor and material, 23.84
 Robertson Bros., blacksmithing, 6.85
 Light and Power Commission, lighting at dump, 22.40
 E. J. Sink, labor and supplies at City Hall, 45.75
 T. J. Hill, services at dump, 10.50
 B. Nelhart & Co., hardware supplies, 3.70
 R. Conner's, February, 45.95
 Years—Aldermen Astre, Ball, Bush, Donovan, Ekstrom, Fleury, Gorman, Gustafson, Jones, O'Neill, Shea, Siegel and Ward-12. None.
 On motion of Alderman Donovan, supported by Alderman Bush the following was unanimously adopted:
 Whereas, The bill of John Siegel, for \$23.82, against the city of Marquette, for groceries, meat, coal, wood, etc., furnished by authority of the health officer in a certain case, has been presented to this council for audit and allowance, and
 While the bill has been duly certified by the health officer and considered by the common council,
 Resolved, That said bill is hereby allowed at the sum above specified under Section 224 of the Compiled Laws of Michigan for 1897, a check to be drawn on the treasury of Marquette, to which the person belongs on account of whose sickness said bill was contracted, and
 On motion of Alderman Donovan, supported by Alderman Gorman, the following was unanimously adopted:
 Resolved, That the following places are hereby designated as registration and polling places for the election to be held on April 7th next in the several wards in the city, respectively:
 First Ward—The building corner of Lake and Grove streets.

THE NEW UNIFORMS.

Members of the Fire Department Will Get Them Within a Short Time.

At the adjourned regular meeting of the Ishpeming fire department held a short time ago a committee was named to devise means by which money can be raised for the purchase of new uniforms for the sixty or more members. The committee met one evening last week and discussed several plans. The secretary of the committee was finally instructed to outline in writing suggestions which will be presented to the members of the department.

Meetings of the three companies have been called for this evening, when members of the uniform committee will be present to outline the plans decided on at the meeting held last week. If the proposition meets with the approval of the companies the matter will be taken before the department at a special meeting to be held Wednesday evening. If the approval of the department is obtained the committee will be at liberty to immediately complete arrangements for the uniforms. The plans decided on by the committee will not be given to the public until after the department meeting Wednesday evening.

It is the intention of the committee to purchase swell uniforms. It was stated a short time ago that the outfit will cost in the neighborhood of \$10,000. The boys intend to raise that figure from \$400 to \$500, as they have since found that it will be impossible to get as good a uniform as they desire for \$1,000.

The firemen propose to raise every dollar needed for the purchase of the uniforms without asking a donation from the city. While this may be considerable of a task the members of the department are equal to it. The new uniforms will be provided long before the tournament to be held in Negaunee early in August.

SECURED VALUABLE LANDS.

W. J. Olcott Secures the Lease of a Mineral Tract Near Virginia, Minn.

The Duluth Evening Herald of Thursday last gave the following information relative to the transfer of a lease of certain mineral lands to W. J. Olcott, a mining man who is very well known in this range:

"A mining lease running to W. J. Olcott and covering an undivided one-half of the south half of the northwest quarter of Section 4, 58-47, was filed in the register of deeds office this morning. The lease is made to W. J. Olcott and wife, of Olean, N. Y.; Clara A. H. Smith and husband, of Angelica, N. Y.; Giles Gilbert and wife, of Duluth. The lease runs for fifty years. The royalty is fixed at fifteen cents a ton for the half interest owned by the grantors, or thirty cents a ton to the owners of all interests in the fee. The minimum is 50,000 tons a year. The lease is dated Dec. 9, 1901. The property involved is situated in the section just northwest of the city of Virginia."

TAKES A BETTER JOB.

Arthur E. Hodgkins, who has held the position of assistant bookkeeper at the main office of the Cleveland-Cliffs Iron company here for the past five years, severs his connection with the corporation next Saturday. He has accepted a more responsible position, that of head bookkeeper for the Denora Mining company, with headquarters at Palmer. Mr. Hodgkins is a splendid accountant. The young man's many friends here and elsewhere in the county will wish him success. Mr. Hodgkins intends to move his family to Palmer as soon as a desirable home is made ready for them.

Strength comes from well digested and thoroughly assimilated food. Hood's Sarsaparilla tones the digestive organs, and thus builds up the strength. If you are getting "run down," begin taking Hood's at once. It gives nerve, mental and digestive strength.

Our shirt waist materials embrace all the prettiest patterns. Prices made to save you money. Call and see them. Finnish Mercantile association.

COUGH SETTLED ON HER LUNGS.

"My daughter had a terrible cough which settled on her lungs," says N. Jackson, of Danville, Ill. "We tried a great many remedies without effect until we gave her Foley's Honey and Tar which cured her." Refuse substitutes. People's Drug Store.

RALLY TONIGHT.

The Young Citizens' Political Club Will Conduct a Public Meeting.

There promises to be a large attendance at the Ishpeming Opera House this evening, when the Young Citizens' Political club, organized last week, will hold its first rally. There will be no parade, as was at first intended. The Ishpeming City band will be on hand to dispense music at intervals during the evening.

The meeting will be open to all voters of the city, though the presence of the young men is particularly desired by the officers of the club. It is expected that several of the prominent members of the club will be heard in short talks. The list of speakers was not completed last evening but the reporter was advised that several would be heard from. The meeting will be called to order at 8 o'clock, and will be presided over by Arvid Braastad, president of the club.

The proceedings of the meeting held last Thursday evening will be read. The main object of the rally tonight is to consider the advisability of putting a young men's ticket in the field. If a majority of those present vote against the proposition a ticket will not be put up. At the ward meetings held last week a number of the young men expressed themselves in favor of a ticket.

WARM GAME WEDNESDAY NIGHT.

Senior and Junior Basketball Teams of High School Will Come Together.

A game of basket ball that should prove of unusual interest will be played Wednesday evening of this week at the Ishpeming Light Guard armory between two teams chosen from the senior and junior classes of the Ishpeming high school. Most of the players were members of last year's high school football team and it is said they play as lively basket ball as they do football. This being true the contest will surely be worth witnessing. The admission fee will be ten cents and the contest will commence at 7:45 o'clock.

The senior team is composed of Harry Peterson, George Nelson, Tony Bell, Slater Bargh and Oscar Brodine. The junior five is made up of Will Gillette, "Hub" Johnson, Mike Connelly, O. Nichols and B. Brystrom. The boys are very much interested in the contest and the players in both teams are telling their friends that they will win. Twenty-minute halves will be played and Messrs. Clinton and Schacht, who are coaching all the school teams, will officiate. Those who understand basketball find much amusement in the game. There is quite as much excitement in it at times as in football, as the players do some great hustling for the ball. The rules of the game are such that the players do not have as good a chance of fouling as they have in football.

The girls' high school team went down in defeat Saturday afternoon at the Ishpeming Snowshoe club house. The team from the Ladies' Athletic club, composed of teachers, proved too strong for the girls. The score at the end of the second half was 19 to 4. The result of the contest rather surprised those who have seen the high school team play. They put up fast ball, but the teachers were too heavy for them. It was not thought that the Athletics would play so well in the first game, but it is now very evident that they have been carefully trained and all are strong players. It is understood that the two teams will come together again soon in a public exhibition. Arrangements to that end are now pending. The game will probably be played the latter part of this or first of next week.

STRIKES A RICH FIND.

"I was troubled for several years with chronic indigestion and nervous debility," writes E. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Stafford.

The ladies are invited to call and inspect our new line of wash goods. A swell assortment. Finnish Mercantile association.

MISTAKEN IDENTITY.

Pretty School Teacher Takes Will Monroe for Father of Her Pupil.

Will Monroe, one of the best known commercial men who visit the upper peninsula, has a good story he tells concerning a pretty little school teacher who is employed at one of the smaller towns of the county. It appears that the teacher had an unruly boy under her charge and that one day recently she was compelled to chastise him. The lad is the son of a foreign-born resident, and this is where Monroe thinks the funny part of the joke comes in.

Monroe boarded a South Shore train in Ishpeming, taking a seat in the first-class car. Immediately ahead of him sat the teacher, and it was not long before he noticed that the girl displayed signs of nervousness. She would steal a look at him and then a blush would come over her pretty cheeks. Finally, she turned squarely in the seat and addressed Monroe, saying:

"You will pardon me, but I really owe you an apology. However, I had to do it; he is such a troublesome boy and he is causing me so much trouble."

"Oh, that's all right," replied Monroe. "I was awfully afraid," said the girl, "that you would be angry over it."

Realizing that the young lady had mistaken him for the father of some unruly kid Monroe continued the conversation about the boy and when the girl smiled aside and whiskered in her ear that the man talking to Mr. ——— was the father of a Finnish youngster she had walloped a few days ago. She assured her friend, however, that it was all right, as she had apologized to him.

The teacher's friend happened to know Monroe and she thought the joke too good to lose, so she insisted on introducing the teacher to the bachelor traveler.

LA GRIPPE QUICKLY CURED.

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe," says F. L. Hewitt, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with Grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by Stafford Drug Co.

ISHPEMING IN BRIEF.

E. Paul of Beacon spent Sunday in the city.

Peter Dolf of Michigan was an Ishpeming visitor yesterday.

Nelson P. Hulst arrived in the city yesterday morning. He will leave today.

Leo Proulx came down from Ontonagon and spent Sunday with his people here.

Miss Clara Pascoe of Republic spent Saturday and Sunday in the city, the guest of Miss Mary Donahoe.

The funeral of the late John Friden was held yesterday afternoon from Calvary Baptist church and was well attended.

The Finnish Mercantile association is displaying a very pretty line of wash goods, which are mentioned in the association's advertising elsewhere.

The city has been supplied with a new garbage wagon. It is considerably wider than the ordinary wagon and the box will hold a great deal more than the old one.

Captain C. W. Hughes of the Amasa mine was an Ishpeming visitor Saturday. The captain was a resident of this city before taking his present position at the Amasa.

Mike Gross has purchased the dyeing, repairing and cleaning business conducted on First street for some time past by J. McPherson. Gross is located in a new place, immediately adjoining James Billings' saloon on Cleveland avenue. He will be ready for business today.

Adeler Lafrere, who has lived at Frenchtown for a number of years past, has moved to Bark River, where he recently purchased eighty acres of land. He will engage in farming. Archie Mitchell is now the owner of Lafrere's dwelling, which is located opposite the Salisbury Methodist church.

A CHANCE IN A LIFE TIME

to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it, Fifty Thousand Dollars

In development on the ledge and a complete five stamp mill, with all other necessary machinery ready to run.

The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c per share.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000.

Do not lose this opportunity. It will never come again. For further particulars, prospectus, report on mine, reference, etc., address, OZARK GOLD MINING & MILLING CO., MOSCOW, IDAHO.

GREAT DEVELOPMENT. In Florence—The Splendid Showing of the Banner and Ozark Has Stimulated All Other Mining Enterprises.

J. N. Taylor, United States Mineral Surveyor, has just come down from Florence and reports great activity in the camp and that there is more development going on at the present time than there has ever been before in central Idaho.

In an interview with The Star reporter, Mr. Taylor said: "The Banner is working sixty men in getting their mine ready to start as soon as the hundred ton mill they are putting in is completed. This property has developed into a great mine, I believe the largest free milling gold mine in the Northwest. They have twenty-seven feet of \$14.00 ore in one drift, and twenty-three feet of \$60.00 ore in another drift. This property was bought by a New York syndicate composed of Henry C. Glens, Arbuckle Bros., and others a short time ago for two hundred thousand dollars, and the value of the property today is hard to estimate as they

REV. GILCHRISTE EXPLAINS.

Says He Has Requested the Marshal to Keep Loafers From Church Corner.

The Anaconda Standard of recent date had the following, which will be read with interest by the friends and acquaintances of W. Dunstan and his family who reside here for some time prior to about six years ago: "Last evening shortly before 6 o'clock Willie Dunstan, the sixteen-year-old son of W. H. Dunstan of Meaderville, sustained serious injuries as the result of a fall down an abandoned shaft at the Sandy City mine. The fall was caused by two playmates of about his age, climbed down the shaft on the ladder. They were coming out when the accident happened. The shaft is eighty-five feet deep and the three boys on the ladder were about forty-five feet from the bottom of the shaft. The boy who was on the ladder rounds, as it all happened so suddenly that none of the others had time to think. Young Dunstan was in the middle and when he fell he tumbled over the boy beneath him, hardly touching him in his fall. He was on his head and the shaft with a third and his companions at once sought help, thinking that he had been killed. In a few minutes a hundred or more men were on the spot and with ropes the limp body of the unfortunate boy was raised to the surface.

FELL INTO A SHAFT.

Former Negaunee Boy Takes Drop and May Die as Result of Injuries.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. People's Drug Store.

WILL MEET WITH MERCHANTS.

The Clerks Want to Obtain Their Views on Early Closing.

There was a large attendance of the clerks of Negaunee at the meeting of the local union held Friday evening, and the session was of unusual interest. The question of closing at 6 o'clock on certain evenings in each week was discussed at considerable length. It seems that some of the merchants are in favor of closing early as many nights as are observed in that way at Ishpeming.

"BEST POTATO CROP EVER."

Maas Mine the Most Valuable Patch in Michigan.

In its "Michigan Topics" column, the Detroit Tribune has this to say concerning the Maas property, now being opened up by the Cleveland City company: "Last year Michigan potatoes were well worth mining, wherever they were located; but probably the most valuable potato patch was a 600-acre tract situated in the corporation limits of Negaunee, and which grew an elegant crop in the month of 1901. The productive value of this property has not just been ascertained, and from this time forward will rank among the most valuable properties. The tract, which had been bought and sold many times at its surface value, some years ago, passed from the possession of the Pioneer Iron Co. together with its mining rights, to Sydney Adams of Marquette. The Adams family is the land to settlers who wanted to make farms of it, and who, like Adams—like the Pioneer Iron Co.—lacked the perception of prophecy, the gift of divination to turn the X ray downward and behold there, deep buried, first with potatoes, then with 37 feet of dry sand, next with 73 feet of quick sand, then with 30 feet of clay, and finally with 10 feet of gravel and boulders, the hidden treasure of iron ore, stored 167 feet below the top-most potato hill. Every one knew that the land was rich enough to grow potatoes, but no one who ever owned or sold it with its mineral rights unreserved; no one who ever purchased it with its mineral rights thrown in, ever believed it rich enough to raise a disturbance—no one except George Maas of Negaunee. He, alone, looked deep into the treasury of nature and saw the ore sparkling in the imaginary glow of a subliminal sun. He had studied the trend of ore properties in that country and reasoned that it traversed the potato patch and contiguous fields of the 600-acre tract, in disposing of which many a man had "let a bird go." Maas secured options from the owners at prices which they were delighted to accept, and prospected. The drift of the surface largely pierced the treasure vault and the Cleveland-Cis Co. was glad to give Maas \$300,000, about half of which was clear profit to him. Vast mining operations are now being undertaken and those who slept and snored within vocal distance of the mine, brushing off the flies that vainly tried to tickle them in activity, now arise covered with the iron rust of indolence and unavailingly regret slumbering away a once-in-a-lifetime opportunity.

OFF FOR ENGLAND.

James Krigg, who has resided at Swanzey for the past four years, left last night for his native place in England, where he will spend at least three or four months. He is not certain that he will return to Swanzey. If he does not come back he will go to South Africa. Mr. Krigg has been deputy sheriff at Swanzey for the past five years or so. He is quite well known in Negaunee, as he has been a frequent visitor to the city.

LOCAL LACONICS.

G. V. Carpenter and James H. Cudlip, well known residents of Iron Mountain, were Negaunee visitors yesterday.

Hugh and Stephen Vodon, who have been in the copper country for some time past, are home on a visit to relatives.

James F. Foley, who has been ill and confined to his home the past few weeks, is able to be out again, much to the satisfaction of his many friends.

Matthew Chester was compelled to quit work Friday on account of an injury to one of his fingers, sustained while employed at the Maas mine.

Alexander Maitland, with his wife and two daughters, Kate and Rena, got home Saturday from Lick Springs, Ind., where they spent the past two weeks or so.

Joe Lowenstein, who has been in California for the past six weeks or more, got back Friday. He enjoyed his visit very much and says he is feeling better than when he went away.

H. J. Peterson, the local tailor, is showing a splendid line of new goods this spring. His stock is the largest he has yet carried at this season of the year. A good-sized force of tailors is employed and all work is being turned out promptly and in the latest styles.

John W. Elliott's painters, who have been employed in the office of the Breitung House for the past ten days, finished their work Saturday. The improvement is quite noticeable. The office presents a more attractive appearance as a result of their work than it ever did before.

William Madeford, who recently gave up his position with the Negaunee Co-operative society, intends to leave within the next few days for Battle, Mont., where he expects to locate permanently. He is at present visiting his parents at Swanzey. John Stanaway succeeds Madeford at the Co-operative store.

DANGERS OF PNEUMONIA.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. People's Drug Store.

Heppner's ice cream in all flavors, also Heppner's cakes and bread fresh every day and delivered to all parts of Negaunee. George Haupt, either 'phone. (12-7-11)

Yield rapidly to the wonderful curative and healing qualities of Foley's Honey and Tar. It prevents pneumonia and consumption from a hard cold settled on the lungs. People's Drug Store.

Bellevue farm butter and pasteurized cream always on hand at Haupt's. Both telephones. (1-15-11)

DANGER OF COLDS AND LA GRIPE.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia which shows conclusively that it is a certain preventative of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Stafford Drug Co.

Carpenter & Skiles bread and cakes fresh every day. From Milwaukee at Geo. Haupt's. Both telephones. (1-15-11)

SEASS QUITS FARMING.

It is not generally known outside of Negaunee that Andy Seass has quite a local reputation as a farmer. His success need not be mentioned in that line, though some of his most intimate friends here declare that he has actually raised something more than "stumps" at his farm on Section 9. Andy has sold the farm to a Finlander, who intends to make his home there. Seass is very much pleased to get out of the farming business, as he found that there was absolutely nothing in it for him, not even good "stumps."

"PNEUMONIA FOLLOWS A COLD

but never follows the use of Foley's Honey and Tar. It cures the cough, heals and strengthens the lungs and affords perfect security from an attack of pneumonia. Refuse substitutes. People's Drug Store.

New radishes, lettuce, beet greens, parsley, water cress received from the grower every day. Also a full line of fruits and vegetables at George Haupt's grocery. Both 'phones. (12-7-11)

Years of suffering relieved in a night. Itching piles yield at once to the curative properties of Doan's Ointment. Never fails. At any drug store, 30 cts.

Telephone by either line "Negaunee Greenhouses."

BIG MONEY IN IT

SUGAR BEET RAISING WOULD BE PROFITABLE HERE.

TIP FOR PENINSULA FARMERS

STATE FARM SUPERINTENDENT GIVES HIS VIEWS.

Says Golden Opportunity Is at Hand and That Agriculturists Who Grasp It Will Prosper—Facts and Figures.

In a letter to The Mining Journal, Leo M. Geismar, superintendent of the Michigan experiment station, conducted at Chatham, Alger county, under control of the state board of agriculture, says that forty to fifty large beet sugar factories could easily be supplied by the upper peninsula, even if taking into consideration only the very choicest of lands as the source of supply.

Table with 3 columns: Year (1897, 1898, 1899), County, and Sugar production (Averages for three years).

ing the rapid strides of modern industrial development. "Aside from what I have outlined in the enclosed circular," says Mr. Geismar, "will be perceived the further benefit which will accrue to every taxpayer of a community when an additional valuation of half a million dollars is added in the shape of a beet sugar factory."

The circular Mr. Geismar refers to is addressed to all upper peninsula farmers, and advises them to plant sugar beets. It says: "There are thirteen sugar factories in Michigan at present; there will be nineteen in operation next fall. It will take thirty-five factories and each one of the thirty-five will have to turn out five million pounds of sugar in order to supply the amount annually consumed in Michigan alone. It will take four such factories to supply the amount consumed every year in the upper peninsula. You have never stopped to consider what four such factories would mean for the upper peninsula. Let us do it now."

"Four of such factories would mean an investment of \$2,000,000 for buildings and machinery. It would mean employment for over four thousand people. It would mean that over \$1,000,000 each year could be kept at home, instead of being sent as now to the sugar trust in New York. "To the farmer, it would mean a crop, which after paying for all expenses for seed, labor and fertilizer, would leave a clear profit of \$25 to \$55 an acre. It would mean a crop which does not require a millstone, or which does not need to be either peddled around or stored away. It would mean a crop which for profit does not depend upon New York or Chicago gamblers, but which brings a fixed price and spot cash as soon as harvested."

"Indirectly, it would help to build up the dairy business and the cattle and sheep industries. It would mean better and cheaper factories, and woolen mills to follow soon after, and consequently would mean more than another \$1,000,000 kept at home each year instead of being sent to other states. "It would mean barrels and staves and tubs and box factories, and thus mean employment for thousands more who would be supplied with other farm produce. It would lead to better farming methods. It would increase the value of farms from \$5 to \$10 an acre in a very short time."

"To the farmer, as well as the merchant, it would mean more cash business, less credit business. It would benefit everybody, from the banks, the railroad and the insurance company, down to the toiler. It would require no bonus, no bonding, no promoters. If the farmer will raise the beets, the capitalist will be found everywhere ready to build the factory."

"The farmer alone, then, has to decide whether all these blessings shall come to him and to the surrounding communities. Nothing is required except farmers, and this means real farmers, good farmers. The pessimist cannot prophesy failure, the calamity howler cannot prophesy hot or cold, wet or dry weather. The upper peninsula has everything else, the soil, the climate, the water and the sunshine. Shall it be said that it has no good farmers?"

"Plant the beets as an answer to this question, and don't be afraid of failure. Look at the enclosed table and see what the upper peninsula can do in the way of raising sugar beets. We cannot expect the factories unless we can show that we have the farmers. Let us show, then, that we have them by making a systematic effort to have every upper peninsula farmer grow a small plot of sugar beets for a couple of years, have some samples analyzed, the results published, and if enough interest is shown by the farmers the factories are sure to come." Professor C. D. Smith, director of this station, offers to furnish the seed, have the samples analyzed and the results published, all free of charge.

"The beets, until factories are built, will make one of the most valuable feed for stock, their feeding value being from 20 to 100 per cent higher than that of any other feed crop. Are you willing to plant a small plot and induce all your neighbors to do likewise? If so, send me the names and addresses, and the seed will be mailed in time for spring planting. By sending the orders on or before the 20th of March, you will oblige."

LACE CURTAIN CAUGHT. Blaze in Thiel Residence Results in About \$75 Damage.

Fire in the residence of A. C. Thiel, 220 East Arch street, last evening did damage amounting to about \$75. The blaze was caused by a lace curtain coming in contact with a lighted gas jet, and was confined to the room in which it originated—a bed room on the second floor. For a time matters looked serious, but Mr. Thiel eventually managed to quench the flames without summoning the fire department. The loss was confined to the curtains, carpet and other furnishings and is insured.

A U. P. BALL LEAGUE.

Its Formation Being Agitated by "Fans" at the Soo.

The warm weather has been the means of agitating the minds of the baseball fans at the Soo and they will get together tomorrow evening for the purpose of arranging for the coming season.

The sentiment expressed by a number of the most enthusiastic lovers of the national game, according to the News-Record, is that a stock company should be formed and to put a club in the field that would be a pride and joy to every Soother. Several men have expressed themselves as favoring this idea and have offered to take a liberal amount of stock if the plan went. The scheme will be thoroughly discussed at tomorrow night's meeting.

MACCABEES LOST IT.

The ball game at the Casino Saturday evening resulted in a defeat for the Maccabees by the Beaver aggregation. The score was 20 to 13. The batteries were Varebrook and Rankin for the Beavers and Hogan and Trudeau for the Maccabees. Great rivalry was displayed by the opposing clubs, and at times the play was inclined to be rather rough. The contest was much enjoyed by the good-sized crowd it attracted.

Two games have been arranged to be played Wednesday and Thursday evenings between the Beavers and Maccabees and a strong club from out of town, announcement of which will be made tomorrow, when the details will have been completed.

NEW SLEEPING CARS.

St. Paul Road Will Run Own Cars Here After March 12.

The last Pullman sleeping car to be operated on any part of the Chicago, Milwaukee & St. Paul road will be retired from that system on Wednesday next, as a result of the expiration, on that date, of the last contract between the Milwaukee road and the Pullman company. This retirement of Pullman cars will be from the Superior division of the Milwaukee road, formerly the Milwaukee & Northern road. The contract under which the Pullman company operated its cars on that road, from Milwaukee to the northern Michigan peninsula, was made for a long term of years, and when the Milwaukee bought and absorbed the Milwaukee & Northern it inherited that contract.

It was about two years ago that the Milwaukee road decided to build and operate its own sleepers, and as fast as leases on certain divisions or parts of the present system expired, it declined to renew them with the Pullman company, placing in service instead hand-some sleepers of its own manufacture on such lines, thus not only handling the sleeping-car business itself, but securing uniformity of color on all its trains. The advantage of this uniformity is most noticeable in the Pioneer limited trains of this road, which are of one color—the handsome, special yellow adopted by the Milwaukee line. It was not, however, without a big legal fight that the Pullman company was displaced, on the Milwaukee system, and the last of the cases was decided in favor of the road not so many years ago. With the departure of the Pullman cars on the Superior division, no more of the dark wine-colored sleepers will be seen regularly on any part of the Milwaukee system.

Following the example of the Milwaukee road, the Duluth, South Shore & Atlantic will shortly replace Pullman sleepers with those of its own, which are now being built. Gradually the large roads of the country, in the past few years, have been putting on their own sleeping cars.

STRINGS WERE ON THE DRUM.

Two Englishmen engaged in a heated argument at a Sousa concert in London in December, one contending that there were strings in the instrumentation of the American band while the other as positively declared that the "March King's" organization was a "wind orchestra," pure and simple. The argument led to a considerable wager and at the conclusion of the concert Mr. Sousa was asked to allow the question to be definitely decided to which he readily assented. The first man made his way through the musicians who crowded the stage and picking up the snare drum he turned it over and showed the several strings that span the under head of the instrument. The argument was over, and with a laugh the "wind" champion agreed that he had lost. Sousa, by the way, brings his great band here for a single popular concert on March 14 at the opera house.

This is the time to use Rocky Mountain Tea. Keeps you well all the year. Great blood life renewer. 35 cts. Stafford Drug Co.

La grippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." People's Drug Store.

CHAMPION OF THE STATE. George Mitchell Defeated Elgin Troyer Handily at the Soo.

George Mitchell arrived last night on his return from the Soo, where Friday evening he skated against Elgin Troyer for the championship of the state. The Marquette boy won handily, crossing the finish line about three-quarters of a lap to the good. The contest was over a distance of a mile and took place at the curling rink in the presence of a large crowd of spectators. At the fourth lap Mitchell gained the lead and in the final eighth of a mile a fast start materially increased it. Troyer, who is a scotcher of the noted backward skater, is considered a very fast man and this season has won several contests with speedy Canadian and other skaters. He excels his brother in forward skating, and has as well defeated some of the copper country's speediest men. The rink Mitchell found rather awkward, but a day's practice made him master of its "curves," and the showing he made in the race won him many new friends at the Lock City.

SHOULD BE PROTECTED. Outlying Industries Entitled to Better Facilities for Fighting Fires.

To The Mining Journal: To reinforce the sentiments expressed in Friday morning's Mining Journal as to the propriety of the city's giving fire protection to its outlying industries, suggested by the occurrence at the Carp River furnace, I recall some facts that may have passed out of the minds of others.

First—That slips and gas explosions within the stack of a blast furnace are not infrequent things, and are always attended by danger of fire, if any part of the furnace construction is combustible. Second—That twenty-two years ago the Excelsior furnace at Ishpeming was totally destroyed by the fire which resulted from a slip and explosion of gas. The direct loss was \$40,000, the indirect loss, \$250,000, to the owners, and suspension of a bustling giving employment to 150 persons for nearly a year.

Third—That nearly twenty years ago the Carp River furnace was burned to the ground in consequence of just such an occurrence as has just taken place. That fire resulted in an idleness of seven years to the plant and it cost \$40,000 to rebuild it.

Fourth—For more than twenty-five years I have urged, yet begged, the city authorities to extend a main to the Carp River furnace, so as to give it fire protection.

Twelve years ago, when the furnace was rebuilt, I showed from the assessment rolls that property lying south of Hampton street had paid one-eighth of all the money raised by direct tax for the installation and extension of the water works of the city. The board of water and fire commissioners of the city at that time promised me that as soon as the new engines and pumps were installed, they would extend protection to the Carp.

It has not been done, the plea being that there were not enough probable users in that part of the city to justify the expenditure of \$3,000, necessary to lay a main from Hampton street.

The furnace company offered to become a customer, the state prison ought to be one, for I have seen its teams day after day, during the summer season, hauling water from the nearest hydrant for the domestic use of the institution. But entirely apart from the question of direct returns is the one affecting the interest of every merchant, every business and professional man, of having the operations of the manufacturing plants continue uninterrupted, thereby giving steadiness of employment and helping to uphold the city.

It will not do to say that the furnace has its own fire protection. It had its own in 1882, but it did not save the furnace. Employees are fallible, and the best planned plant gets a hole. In my judgment, there would now be no Carp River furnace had not Mr. Smith, the superintendent, faithful to his responsibility, just come into view of the furnace when the explosion took place. Others on the ground, bewildered, frightened, and the one man at the top disabled and sliding down a rope for his life, whose duty it was to turn on the hose, were for the time being helpless. The superintendent rushed through a mass of red hot coals and iron ore, where ninety-nine men out of a hundred would not have ventured. The top house ablaze, he fought the fire with hose for half an hour alone and saved the day. If anchor ice had impeded the flow of water in the intake, no efforts or means available could have saved the Carp River furnace from total destruction. I cite these facts to impress upon the community the idea that Marquette's outlying industries should not be left to fight their fires alone and single-handed.

HIRAM A. BURT.

MAY TOUCH AT KENTON.

In conversation with a gentleman from Kenton, a representative of the Crystal Falls Diamond Drill learned for a certainty that the surveyors are at work on the proposed extension of the Chicago & Northwestern railroad from Watersmeet to Mass City. The surveyors are at present working a few miles from Kenton and in conversation with one of the surveyors the information was volunteered that the Sparrow-Kroll people had made the Northwestern a very generous proposition to induce them to run the extension through Kenton instead of Trout Creek, as originally proposed. It is rumored that the proposition is to give the Northwestern four or five miles of roadbed which the Sparrow-Kroll people own and which they are now using for a logging road.

presence of the surveyors in the immediate vicinity of Kenton would indicate that a route to that place is being investigated.

HOW TO CURE THE GRIPPE.

Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger. Among the tens of thousands who have used it for the grip, not one case has ever been reported that did not recover. For sale by Stafford Drug Co.

D. Seidenfeld's. Spring is almost here; it is now just around the corner, and with the coming of this beautiful season we have prepared ourselves better than ever before to supply the people of Marquette and adjoining counties with their merchandise. Every incoming train brings us case after case of new up-to-date merchandise. DRESS GOODS. During the past week we have received more than 100 pieces of wool dress goods. They comprise the popular fabrics for spring wear and are culled from the products of the best manufacturers in both hemispheres. When out do not fail to give our dress goods department an inspection if you are intending to buy. LACE CURTAINS. "Lace curtains by the thousand" is the common expression used by those who have been shown the mammoth stock we have just received for our spring trade and we wish to say, right here, that never in the history of our curtain business, have there been offered such good values for so little money. CLOTHING DEPARTMENT. Men, boys and children will have satisfactory clothing if they will buy it from us. We pride ourselves in up-to-date, ready-to-wear clothing. Sweat-shop goods have no part in the making up of our stock. Everything of the best. We buy on the plan that there is nothing too good to wear, and there is nothing so worthless as shoddy. You can depend upon buying the best of goods when you patronize our store. SHOE DEPARTMENT. Once a customer of our Shoe department, always a customer. Our shoe business is transacted on the same basis as our dress goods business, hence, the wonderful increase in this department. We sell shoes to wear; we sell shoes to fit and we sell shoes made of the best leather. No shoddy or cheap workmanship goes into a single pair of shoes bought at our store. If You Buy it at D. Seidenfeld's it's Good. D. SEIDENFELD'S STORE, South Front Street, Marquette, Mich.
