NEW PANAMA PLAN SENATOR DIETRICH WOULD HOLD \$40,000,000. SUM A GUARANTEE FUND TO INSURE CONSTRUCTION OF WATERWAY FOR \$200,000,000.

Washington, March 13.—The Post-tomorrow will say that Senator Dietrich of Nebraska proposes a new plan with the Panama offer whereby \$40,000,000 shall be withheld until it is shown the canal can be constructed for \$200,000,000.

Amendments Agreed Upon. Senator Dietrich says he talked the matter over with the agent of the company and the latter thought the company was willing to accept the proposition.

It cannot be learned from any official source as yet upon what points the new protocols differ from those presented to the senate during the last session of congress, but the general sentiment is that the only alterations are those absolutely necessary to meet the points of difference between the original Hay-Panama treaties (which failed), under which they were drawn, and the treaty as finally ratified.

Will Not Press Consideration. Senator Morgan, chairman of the senate committee on inter-oceanic canals, was in conference today with members of the Republican steering committee of the senate with reference to the date for consideration of the Nicaragua canal bill.

DARING MAIL SACK ROBBERY. Robber Unlocks Wagon in Chicago and Steals Pouch.

Chicago, March 13.—One of the most daring of the recent post-office thefts committed in a crowded downtown street is now engaging the attention of the local officials.

AGREEMENT SEEMS ASSURED. Cuban Reciprocity Conference Conducted Along Harmonious Lines.

Washington, March 13.—A conference between committees of both factions of the Republican members of the house on Cuban reciprocity was held this afternoon but adjourned until tomorrow afternoon without taking final action.

EARTHQUAKE DESTROYS TOWN. Vienna, March 13.—A dispatch from Constantinople today announces that the town of Kyankari, northeast of Angora, Asia Minor, was destroyed by an earthquake.

TALMAGE GREATLY IMPROVED. New Orleans, La., March 13.—Rev. T. DeWitt Talmage is resting quietly at St. Charles hotel.

EDWARD A FIGUREHEAD. Britishers Express Contempt for Their Ruler.

London, March 13.—During a discussion before the Battersea borough council last evening, of a proposal to make an appropriation for public entertainments to the coronation of King Edward, two councillors, who strongly opposed the celebration, said the king was merely a figurehead and it did not matter to the people of Battersea what individual occupied the throne.

CONFIDENTIAL REPORTS FROM THE DANISH WEST INDIES DECLARE THERE IS INTENSE EXCITEMENT AMONG THE NEGROES OF THE ISLAND OVER THE SALE, OWING TO BELIEF IT WILL MEAN UNIVERSAL SUFFRAGE AND OFFICE HOLDING.

ROBBERS MAKE GOOD HAUL. Joliet, Ill., March 13.—Six men early this morning broke into the Exchange bank in Minoaka, nine miles west of Joliet, wrecked the safe with dynamite, secured between \$3,000 and \$3,500 and escaped.

INDIANS SIGN TREATY. Solvay, Minn., March 13.—Major McLaughlin announces that the Indians have signed a treaty to sell the government eleven townships west of the Red Lake agency for \$1,000,000.

END BOSTON STRIKE IS LEGALLY DEAD ACCORDING TO LAW FIRM YOUNGER CANNOT GET MARRIED.

WORK WILL BE RESUMED TODAY MANY WILL FIND NO VACANCIES READY FOR THEM.

Brine Transportation Company Does Not Figure in Settlement—Sentiment Against Concern as Emitter as Ever.

Boston, March 13.—Through the united efforts of representatives of the great mercantile bodies, seconded by the chief executives of the city and state, in a conference with the recognized leaders of organized labor, the great strike of freight handlers and kindred trades was settled tonight.

Governor Was Determined. The settlement was the result of the expressed determination of Governor Van Sant to enter into no contract, in the eyes of the law, is through the board which paroled him, in this case the state board of control, which board is empowered to enter into a contract for him.

STRIKE SYMPATHIZERS SHOOT. Virginia Soldier Is Wounded but Crowd Is Dispersed.

Norfolk, Va., March 13.—Strike sympathizers threw bricks and then fired a pistol shot into a street car tonight. Private Bailey of Company M, Emporia, Va., was slightly wounded.

CHLOROFORMED AND ROBBED. Minnesota Woman Is Relieved of Money and Valuables by Burglars.

Stillwater, Minn., March 13.—Mrs. Walsh was chloroformed by burglars last night and robbed of \$1,000 in cash, a gold watch and a milk coat.

TRANSPORT SHERIDAN ARRIVES. San Francisco, March 13.—The transport Sheridan arrived today from Manila, bringing ninety-seven sick, six insane and 1,189 short term men, besides the headquarters of the first and third battalions of the Twentieth infantry.

MORE INDEMNITY ACCEPTED. Peking, March 13.—The bankers' commission today accepted the February installment, amounting to 1,820,000 taels, of the Chinese indemnity, greatly to the satisfaction of the ministers of the powers.

DANISH NEGROES EXCITED. Insurrection Is Feared if Pending Treaty Is Not Ratified.

Copenhagen, March 13.—The treaty for the sale of the Danish West Indies to the United States came up for the first time in the open session of the Folketing today. The premier and foreign minister, Deuntzer, replying to several speakers, said that Denmark acted in the best interests of the islanders in negotiating the treaty.

CONFIDENTIAL REPORTS FROM THE DANISH WEST INDIES DECLARE THERE IS INTENSE EXCITEMENT AMONG THE NEGROES OF THE ISLAND OVER THE SALE, OWING TO BELIEF IT WILL MEAN UNIVERSAL SUFFRAGE AND OFFICE HOLDING.

METHUEN IS FREE BRITISH GENERAL IS BROUGHT TO KLERKSDORP.

NEWS COMES FROM LORD KITCHENER. IRISH NATIONALISTS WOULD RELEASE KRITZINGER.

Government Is Invited to Show Equal Magnanimity and Set at Liberty Boer Commandant.

London, March 13.—The following dispatch, dated Pretoria, March 13, was received today from Lord Kitchener: "General Methuen was brought to Klerksdorp today. He is doing well. Everything possible is being done for him."

Release Announced in Commons. London, March 13.—War Secretary Broderick announced in the house of commons today that he understood General Methuen, who was captured, severely wounded, by General De La Rey March 10, had been released and was expected to arrive at Klerksdorp today.

Secretary Broderick added that the exchange of General Methuen for Commandant Kritzinger had not been contemplated. The trial of the commandant was postponed because the consideration of the evidence to be presented had not been completed.

Irish Would Reciprocate. Timothy M. Healy (Irish nationalist), amid nationalist cheers, invited the government to show equal magnanimity and release Commandant Kritzinger.

Secretary Broderick said subsequently that the telegram received did not specifically say that General Methuen had been released, but from the fact that he was in the hands of a British general officer it was presumed the general had been released.

Prominent Washington Physician Charged With Inexcusable Neglect. Washington, March 13.—Dr. Charles E. Hagner, for thirty years a well known physician of this city, and a member of one of the oldest families, was today held to the grand jury as the result of an inquest over the body of a prematurely born baby of Mrs. Peter Blair, found yesterday alive and doubled up in a shoe box thrown into a garbage can in the rear of the Blair house.

At the inquest today a colored woman identified Dr. Hagner as the man whose saw placed the box in the can. The latter admitted he was the man, but said he fully believed the child was dead at the time.

A physician at the hospital, where the child was carried after being found, testified that the baby was alive when received, and the negro woman testified the child was crying when she found it. The coroner's jury in its verdict held that the "child, which was born alive and lived several hours, died from hemorrhage of the brain, and that Dr. Hagner, who attended at the birth, is guilty of inexcusable neglect."

CHARGES AGAINST MRS SOFFEL. Three Indictments Are Considered by the Grand Jury.

Pittsburg, March 13.—Indictments in three cases against Mrs. Catharine Soffel, wife of former Warden Soffel, growing out of the escape of the Biddle brothers Jan. 30, were considered by the grand jury today and true bills returned. Should Mrs. Soffel be convicted upon the three charges, the maximum aggregate sentence that could be imposed upon her would be sixteen years in prison and a fine of \$2,500.

The first charge is for aiding the criminals to escape. The other charges are separate indictments for felonious assault and battery upon Charles Reynolds and James G. McGary, jail guards. Reynolds was shot by one of the Biddle brothers, and McGary was thrown over or jumped over the railing from the cell tier and seriously hurt on the night of the escape.

It will probably be a month before Mrs. Soffel is brought to trial. LIVED IN THREE CENTURIES. Mrs. Jane Smith of Marshalltown, Ia., Died Aged 103.

Marshalltown, Ia., March 13.—Mrs. Jane Smith, one of the few centenarians of the state, died here this afternoon. If she had lived till June 11 she would have been 103. She lived in three centuries and was true daughter of the revolution, the only one known in Iowa. She remembered events of the war of 1812 as if it occurred yesterday.

ANOTHER FIGHT IN MANCHURIA. St. Petersburg, March 13.—Today the war office announced that another fight occurred March 12 between the Russian troops and 300 Tunguses in Manchuria. Two hundred Tunguses were killed, including a leader. Two Russians were wounded.

NEW BRITISH WAR SHIPS. London, March 13.—The British admiralty has contracted with various ship building companies for the construction of five first class and two third class cruisers and two battleships.

Willie Wallie Astor is a conservative candidate for a seat in the British parliament, standing for the Epsom division of Surrey. Unless King Edward has changed his opinion of this renegade American recently the influence of the throne will not be thrown in his favor.

The supreme court decision invalidating the anti-trust law of Illinois knocked out similar enactments in twelve other states. It was held in the case in which the decision was rendered that the trust involved was a combination in violation of the Sherman anti-trust law.

The Saginaw "ripper" bill has been declared unconstitutional by the supreme court. It well deserved that fate. The ripper bills passed by the last legislature did that body no credit.

Mayor Collins of Boston has appealed to Senator Mark Hanna and the Civic Federation Arbitration Commission to lend their assistance in obtaining a settlement of the strike now on in that city.

Rev. George C. Lorimer, pastor of the Madison avenue Baptist church of New York, thinks that unless we mend our ways in fifty years the Sabbath will cease to be observed in this country.

Judged by his speech at the dinner in his honor given by the Marquette club of Chicago Tuesday night, General Funston has abiding faith in the efficacy of hanging for the purpose of curing people of obnoxious opinions.

In urging tariff concessions in favor of Cuba President Roosevelt stands where his lamented predecessor did, yet a powerful combination of Republican members of congress is endeavoring to commit the country to a contrary policy in dealing with the new government of the island.

COPPER COUNTRY NEWS (Additional)

COPPERDOM BREVITIES.

Mrs. Ed Noble of Hancock has returned from a two month's visit in lower Michigan.

Montrose commandery, Knights Templar, officers will be installed at Calumet this evening.

Frank Rogers, of the Franklin, has returned from the Soo where he was employed during the winter.

This evening at the Kettelbell alleys, Lake Linden, a match will be bowled between the butchers' and brewers' teams.

The men of the Lake Linden Congregational church will serve a "Lenten supper" at the church parlors this evening.

Fred Ross of Hancock is a candidate for the office of highway commissioner for Hancock township at the April election.

The comedy club of the Houghton high school will present the play "Mr. Bob" at the school auditorium this evening.

The officials who were elected in Laurium last week celebrated their victory at a banquet at the Ferranti Hotel at Laurium last Tuesday evening.

The regular Hennes bowling team of Houghton defeated the Michigan College of Mines team at the Schuster alleys, Houghton, Wednesday evening.

Tuesday evening at the Kettelbell alleys, Lake Linden, a team of commercial men of Houghton defeated a team of Lake Linden grocers three out of five games.

Dritler's bowling alleys at Hancock are being well patronized. A bowling team will be organized this week and other teams in the county will be challenged.

Several hundred dollars were realized by the ladies of the M. E. church, Houghton, by the fair and supper given Tuesday and Wednesday evenings in the church parlors.

The ladies of the St. Patrick's church, Hancock, will serve the supper to be given at the Germania hall, Hancock, Monday evening. The proceeds will be given to the Hancock hospital.

One of J. S. Stringer's teams hauling cedar poles broke through the ice on Portage Lake at Cole's creek several days ago and it was with great difficulty that the horses were saved.

The train for Atlantic, Trimountain and Painesdale on the Copper Range road tomorrow night will be held until 12:15 at Houghton for the accommodation of those returning from the concert by Sousa's band at the Calumet theatre.

Houghton Light Infantry, Company G, has ten new members and they met with the company for the first time Wednesday evening. The "awkward squad" was drilled by Lieutenant Henry Hecker while Captain Shields drilled the regular company.

At a regular meeting of the Calumet Women's club at Bloy's hall this afternoon Mrs. O. J. Larson will read a paper on "Our Merchant Marine and that of Other Nations." A discussion on the subject of "Our Present Presidential Policies" will follow, led by Mrs. E. Thompson.

The river and harbor committee has agreed to embody in its appropriation bill \$200,000 so that the surveys may be made in various waters, including several in Michigan, among them being Ontonagon harbor, with a view to ascertaining further improvements necessary and to what extent.

John Bell, arrested for assault and battery on the Merchant of Mars, Grovnick, was tried in Justice Brand's court Wednesday and acquitted by a jury. Both principals are from Houghton.

The defendant, it was claimed, struck Mrs. Grovnick but there was not sufficient evidence to prove it.

William H. Richards of Trimountain and Miss Jessie Carter, daughter of Mr. and Mrs. Edward Carter of Calumet, were married at the home of the bride's parents on Caldonia street Wednesday evening by Rev. W. B. Coombe of the Calumet M. E. church. Mr. and Mrs. Richards will reside at Trimountain.

At a recent meeting of the board of directors of the Tamarack Co-operative association officers for the ensuing year were elected as follows: President, William E. Parnall, Sr.; vice president, William E. Daniels; treasurer, J. T. Reeder; secretary, W. M. Harris; executive committee, the president, treasurer and secretary; auditing committee, L. J. Shepard, James T. Ashton and W. M. Harris.

There are thirteen members, twelve girls and one lonely boy, in the Hancock high school graduating class this year. They are as follows: Maude Dowsell, Sadie Smart, Lena Epstein, Erna Pittman, Seecia Ruppe, Katherine Bunkle, Anna Cox, Ethel Maclean, Blanche Starrett, Mabel Fisher, Millie York, Agnes Hamel and Roy Braun.

A class meeting will soon be held, officers elected, and plans for the commencement exercises discussed.

There's no rest for those tireless little workers—Dr. King's New Life Pills. Millions are always busy, curing Torpid Liver, Jaundice, Biliousness, Fever and Ague. They banish Sick Headache, drive out Malaria. Never gripe or weaken. Small, taste nice, work wonders. Try them. 25c at Stafford's.

"I suffered for months from sore throat. Electric Oil cured me in twenty-four hours." M. S. Gist, Havesville, Ky.

MOTHER GRAY'S SWEET POWDERS

For children. Mother Gray, for years a nurse in the Children's Home in New York, treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children. They are harmless as milk, pleasant to take and never fail. A certain cure for feverishness, constipation, headache, teething and stomach disorders and remove worms. At all druggists, 25c. Sample sent FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

Your Liver

Will be roused to its natural duties and your biliousness, headache and constipation be cured if you take Hood's Pills

Sold by all druggists. 25 cents.

THIS IS SIGNIFICANT.

The Detroit Journal of Wednesday published the following statement: from B. J. Lowrey, editor of the Howard City Press and president of the Michigan Press Association, on the gubernatorial situation, which has a special significance because of the fact that Mr. Lowrey is a Stearns man, and had managed his campaign for the nomination two years ago:

I have not been actively in politics for some little time now. What I say is simply the opinion of one man who is sitting in the gallery taking no part in the game. I do not speak with any authority from anybody. I doubt very much that Mr. Stearns will decide to come into the fight this year.

Of course, there are a great many people who have been trying to force him to come out, because they want to see money begin to circulate. But Mr. Stearns knows well enough what he is doing. I do not believe that he will come into the game unless it becomes apparent that the revolt against Bliss is so strong that Bliss is going to be beaten, anyhow.

In other words, for the sake of his future, Mr. Stearns does not care to participate in a bitter fight with Bliss. Party precedent argument is pretty strong, you know, and you can't tell what the members of the party might take a notion to do to a man who upset a custom.

The whole thing is particularly hard to get at because there is nothing which Bliss has done that you can put your finger on to argue against him. I believe that he has made a very poor governor, but there is no one thing he has done on which criticism can be made. There are no scandals connected with his administration, unless it be the manner in which the governor is controlled by a small set of professional politicians. It is what the governor has not done that is most against him.

At the same time, I believe that if Governor Bliss is renominated he will be re-elected without any trouble. The Republicans of Michigan do not turn down a man after they have nominated him unless there is something pretty serious against him.

A VALUABLE WORK.

The Copper Handbook, 1902 edition. Compiled and published by Horace J. Stevens, Houghton. Pages, 416, octavo, with advertising section of 80 pages. Two dollars in buckram binding; \$3 in full morocco. Ten chapters on the history; chemistry; mineralogy and metallurgy of copper; copper deposits of the United States; leading foreign mines; Lake Superior copper mines; American copper mines, and statistics of the copper industry of the world.

This is the only work published that is devoted exclusively to copper, and the only work in any language covering the technology and statistics of the copper industry. Some 700 mines of copper, including all mines of importance in the world, are listed and described, the length of the descriptions varying from a few lines in the case of properties of little importance to a dozen pages in the case of the largest mines.

In this work Mr. Stevens has embodied an amount of information concerning the copper mines of the world that makes it a necessity on the desk or in the library of every person who wishes to have at hand a volume that will supply him whatever he may need to know relative to the great industry of which it treats. The author has in preparing and publishing this valuable book rendered an inestimable service to everyone in any manner interested in copper mining or production. It is beautifully printed and the statistical and other information it contains is so perfectly classified, and systematically arranged in order, that in consulting it for reference no time need be lost. The first volume of his "Copper Handbook" published over a year ago, attracted great attention by its wealth of statistics, accuracy, and thorough treatment of the copper mining industry in all its phases, but this is far more complete in every respect. The wonder is how Mr. Stevens has managed to cover the ground on so vast a subject so thoroughly within the covers of a single volume, but he has done it, and is entitled to unstinted credit for the achievement.

E. W. GROVE.

This name must appear on every box of the genuine Laxative Bromo-Quinine Tablets, the remedy that cures a cold in one day. 25 cents.

THE STAFFORD DRUG Co.

A CARD OF THANKS TO THE PEOPLE OF THIS CITY.

Whereas, some time ago we caused to be published in the newspapers of this city a proclamation setting forth certain statements and claims for our new tonic and reconstructor, VINOL, Wine of Cod Liver Oil.

And, whereas, we asked you, the people of this city, to investigate these claims under guarantee that we make good to you all moneys expended in prosecuting such investigation, provided it result in our failure to support them.

And, whereas, the result of said investigation brought to light proof positive that VINOL will do what we claimed for it, and amply justifies the strong statements we made concerning it.

We, therefore, do hereby express our thanks to the people of the city for the confidence they have shown in us and in VINOL, and for the readiness with which they have put our statements to the proof and testified to their truth and honesty.

It is because of this ready response that VINOL is now its own best advertisement in our city. So many of you have taken VINOL and been helped by it, and so many are telling their friends in public and private of the merits of VINOL, that we cannot but feel grateful to you for helping us in justifying our statements. We thank you, one and all.

We are just as ready as ever to guarantee VINOL. We know that you will continue to take it and recommend it to your friends. We need not tell you now that you know it so well, that VINOL is, not a patent medicine. You have seen how its ingredients have been named upon the label. You know, too, that VINOL contains all the medicinal elements found in Cod Liver Oil, but no oil or grease. You know it is as deliciously palatable as the most delicate wine. You know by experience what a blessing it is to the weak.

Therefore we ask you to depend upon it throughout the trying season which is at hand. Fortify your constitution with VINOL and sickness will pass you by.

We shall continue to recommend VINOL for the following ailments:—

Debilitated—All Tired Out.

Why drag out an existence without life or ambition. It is not natural to feel continually tired. We guarantee VINOL will bring life, strength and vigor to the debilitated. If you do not feel well try VINOL. If it does not help you your money will be refunded.

Gain Flesh—Get Strong.

You can get fat without taking disagreeable Cod Liver Oil. Fat taken into the system does not create fat. We believe VINOL will create flesh quicker than any preparation containing grease. We have proved in many cases that VINOL quickly creates strength. Try it on our guarantee.

Old People—Weak People

need a strengthening and invigorating re-builder. VINOL is of exceptional value in such cases. We guarantee it to give strength and health to those who are weak and debilitated, from disease or old age. Try it on our guarantee.

Pale Women—Pale Children

need a tonic-reconstructor that will create flesh and make pure red blood. Pale, haggard faces show that the blood is poor and thin, and also indicates imperfect digestion. VINOL will correct such troubles as sure as the sun shines. Children love VINOL, it is so delicious. Try it on our guarantee.

Nervousness—Irritability.

Diseased nerves are due to over-work, insufficient nourishment or slow breaking down of general health. We guarantee VINOL, Wine of Cod Liver Oil to permanently and effectually cure nerve affections; it actually rebuilds the entire body. Try it on our guarantee.

Chronic Colds—Hacking Cough.

Sure signs of danger ahead. One might as well commit suicide as to let them go unchecked. VINOL is the very medicine needed. Unlike other Cod Liver Oil preparations, it does not upset the stomach, and it is delicious to the taste. Try it on our guarantee.

Bronchitis—Sore Lungs.

often end fatally unless specially cared for in its early stages. There is no medicine more valuable for restoring health to the throat and lungs than VINOL, Wine of Cod Liver Oil. Try it on our guarantee.

Indigestion—Dyspepsia.

Only those who actually suffer know its terrors, for them life is robbed of all joy. It produces many serious complications and enfeebls the entire system. Relief only comes when a scientific remedy enables the stomach to properly assimilate food. There is no medicine that will do this so successfully as VINOL. Try it on our guarantee.

Nursing Mothers—Weak Mothers.

If women with nursing babies who have difficulty in keeping up their health and strength would take VINOL we know positively that the best results would be obtained. You know the life and future development of the child depends upon proper nourishment.

Try VINOL on Our Guarantee.

You will absolutely be under no obligation to us whatever, if after you have given VINOL a fair trial for any of the above ailments and have received no benefit, you have only to tell us so, and we will return the entire amount of money you have paid us.

You see our faith in VINOL, and you must admit that we know something about medicine; therefore, when we tell you that VINOL is the most valuable preparation of Cod Liver Oil we have ever known, and a wonderful tonic-reconstructor, and re-builder of strength, appetite, and health, at the same time delicious to taste, we are not unreasonable to expect you to believe us.

(Additional Copper County on Page 2.)
HANCOCK CITIZENS DETERMINED.
Will Do All in Power to Prevent Erec-
tion of Powder House.
At the meeting of the Hancock coun-
cil yesterday afternoon the recent elec-
tion was ratified and important business
discussed. The matter of most import-
ance before the councilmen was that of
the protest by citizens of West Hancock
against the building of a large powder
magazine west of the village by the
Atlantic Powder company. A number
of citizens were present to present
reasons why the structure should not be
erected. Frank Condon, of the Condon
addition to West Hancock, presented a
resolution bearing on the question which
was passed by the voters at an annual
meeting on April 7, 1884. It read as
follows:
Resolved, That the powder houses on
the shore of Portage Lake in this (Hanc-
cock) township are dangerous to life
and property; that said powder houses
be removed to some more isolated loca-
lity.
The records of the village show that
the resolution was adopted and that
it has never been repealed. But one
of the powder houses was removed, how-
ever. The citizens are determined that
the company shall not build the powder
house it intends to erect and will get
out an injunction if it attempts to do
so. Even though the company intends
to do away with the rest of its powder
houses and store all its powder in the
one large magazine to be built, the
citizens are not satisfied for they say
the house will contain enough powder
to blow up the whole town.
The paving matter was also taken up
in regard to a more accurate descrip-
tion of the property to be affected by
the paving of the main thoroughfare.
That matter is in the hands of an engi-
neer.
The annexation of several additions
was also considered, and petitions from
those wishing to be taken in received.
It is very likely that more territory west
of the village will be included in the en-
largement.

Red Jacket and Laurium Councils.
The Red Jacket and Laurium council
members held meetings last evening to
ratify the recent elections. The clerks
were instructed to notify the officers
elected that they have been selected to
serve their respective villages for one
year or two years as the case may be.
The new officials must qualify in ten
days.
The first meeting by each new coun-
cil will be held April 14 to begin the
year's work. There are several ap-
pointments to be made by the village
presidents and the councils must ratify
the selection.
In Red Jacket there will be but few
changes, but it is said that in Laurium
there will be a decided house cleaning.
It is the general opinion that there are
several appointees now in office that
may be done away with as a credit to
the village.
Meeting at Houghton.
The Houghton council met last evening
to ratify the recent election and to
instruct the clerk to notify the new of-
ficials of their election. At the next
meeting William Van Orden will occupy
the chair as president. There will be
few or no changes made in village ap-
pointments.

NO GAME WITH CANADIANS.
Portage Lake Hockey Seven Has Fin-
ished Its Season.
The Portage Lake hockey team has
nished its season and retires until next
winter with a record of which it has
cause to feel proud. During the sum-
mer and fall its members will be heard
of in other sports, such as lacrosse,
baseball and football. The hockey
team did not play the Canadian
Soo team at the Soo after the Pitts-
burg games but refuse to play without
Howell in the game. The Soo's decline
to allow Howell to play even though the
Western Ontario association secretary
has given Howell permission to do so.
Portage Lake is playing 100 per cent
better hockey than when the team last
met the Soo and it is the opinion here
that the Canadians wouldn't be in it if
the two sevens played again this sea-
son.

NEW FOUNDRY AT RIPLEY.
It is rumored that a new foundry
will be built at Ripley, opposite Houghton,
next summer. Robert Williams, a
machinist in the employ of the Hodge
foundry, is said to be at the head of the
project. Plans for the structure are
now being completed. The site is a
good one on the shore of Portage Lake.
Copper country people are interested in
the new venture.

WHY STAY PALE.
A pity to see pale girls stay
pale and dull when it is so easy
to get Scott's Emulsion.
One of the best things
Scott's Emulsion does is to
give rich blood to pale girls.
The result of regular doses
of Scott's Emulsion is an in-
crease not only in the red
color of the blood and in the
appetite but in the good looks
and bright manners which
are the real charm of per-
fect health.

SCOTT & BOWNE, Chemists, 49 Pearl St., N. Y.

WARRANTS FOR ELEVEN.

**Finnish Residents of Hancock Go After
Saloonkeepers.**
Sheriff Wills served warrants for the
arrest of eleven Hancock saloonkeepers
yesterday afternoon, the charge being
that they have violated the liquor laws
by keeping open after hours and on
Sundays. They are: Richard Bourke,
J. Silvermann, Nick Evert, Johnson &
Holtz, Burt Cummings, Dittler Bros.,
Andrew Kauth, Levy & Feldman, Louis
Saam, Joel Matson and Dan T. Pearce.
There may be others soon.
The complaints were made by four
Finnish residents of Hancock, presu-
mably members of the North Star Tem-
perance society. Most of the com-
plaints are signed by John B. Wirkin
while others are signed by Andrew
Jengstrom, Sam Saarene and Matti
Mairanen.
It is said that the Civic Federation of
Calmnet will soon serve warrants
for the arrest of several Allouez saloon-
keepers who have been spied upon of
late.

TWO FINE STEAMERS.

**Booth Line Vessels America and Argo
Which Will Stop at Copperdom.**
H. H. Brigham of Chicago, general
manager of the Booth line, and A. H.
Overman of Duluth, traveling freight
and passenger agent of the same line,
were in Houghton yesterday making
arrangements for the operation of the
company's boats to Houghton during the
coming season.
The steamer America, a fine craft,
which has been previously described in
these columns, and the Argo, the boat
that ran between Duluth and Houghton
last summer, will make regular trips to
the copper country. The America will
make regular trips between Houghton
and Isle Royale, making connections at
that place for Port Arthur, and the Argo
will make two trips a week between
Duluth and Houghton. The America is
now being fitted out with new state-
rooms and will be ready to go into com-
mission in a few weeks. The Argo was
a popular steamer on the Duluth-Houghton
run last summer and promises to be
equally if not more so this season.

DETIMENT TO NAVIGATION.
Big Vessels Have Difficulty in Passing
Through County Draw.
It has been said by those not in favor
of building a new draw to replace the
one now in use on the county bridge over
Portage Lake, that there has been no
increase in tonnage for several years ex-
cept possibly in 1891. Even though this
were true, vessels of the new draw, now
draw constructed would not consider it
any argument. It is not saying that the
tonnage will not increase.
Not until last season could the larger
boats on the lakes pass through Portage
Lake. The government has spent
hundreds of thousands of dollars in
dredging out the canal and straightening
the canal in Portage river in order to
make it convenient for the big vessels to
pass through. Now the only detriment
to navigation through the lake is the
draw on the county bridge. The openings
are about sixty-four feet wide,
which is about the width of some of
the big craft that go through. Now that
the canal and river are dredged out the
tonnage through the lake is bound to
increase but if a new draw is not built
the present one is likely to cause much
trouble to the captains of the boats, es-
pecially the big vessels.

SPALDINGS ARRIVE TODAY.
The Spalding indoor baseball team of
Chicago will arrive in Houghton at noon
today over the Northwestern road ready
for its contest with the Houghton
Light Infantry team tonight and to-
morrow night at the armory. Hough-
ton is in fine condition for the games
and expects to win. The boys have
practiced hard and regularly for these
contests and at any rate will play as
they never have before. It will be a
great feather in their caps if they can
win from the Chicago aggregation, which
is acknowledged the best team in the
city. Murphy and Croze will be
Houghton's battery and it should do
good work if given the proper sup-
port.

SPECIALS FOR SOUSA CONCERT.
Special trains will be run from all
parts of the county and Ontonagon to
Calmnet tomorrow evening for the So-
sa concert at the Calumet theatre and
special rates on all trains will prevail.
There was a great rush for seats for
both afternoon and evening concerts
when the sale opened at the box office
Wednesday afternoon. The crowd was
lined up fully a half hour before the
sale began and when the window was
opened all the seats were sold out in
thirty-five minutes. Many were ne-
cessarily disappointed. It was the quick-
est seat sale in the history of the the-
atre.

NO COMPLAINTS AGAINST DRAW.
The Detroit Free Press in a special
dispatch from Washington says:
"A. B. Eldredge of Marquette was
here today in the interests of the Du-
luth, South Shore & Atlantic railroad,
the question having been raised that
the draw in the bridge at Houghton was
too narrow. The company feared that
it might be condemned as an obstruc-
tion to navigation. But President Living-
stone, of the Lake Carriers' association,
stated that he knew of no complaints
having been made by vessel owners, so
it is considered that the bridge is all
right."
Stops the Cough and Works Off the Cold.
Laxative Bromo-Quinine Tablets cure a cold
in one day. No Gripe. No Pain. Price 25 cents.

RINKS WILL SOON CLOSE.

Season Has Been Short but Managers
Have Made Money.
The ice skating season in copperdom
will soon be brought to a close. Most
of the rinks, with the exception of the
Superior rink, Laurium, which closed
Wednesday evening, are still open to the
public. The weather turned colder
Wednesday afternoon and that evening
for the first time in several weeks there
was good ice and the rinks were all well
attended. The present season has been
the shortest in the life of the rinks for
some years. People did not begin to
enjoy the sport until after the first of
the year. Even though the season was
short the rinks have made money for
their owners. Never before were they
so well patronized as this winter. Young
and old got the skating craze and it
continued with unabating interest.
The rink managers were very success-
ful this year in securing good attrac-
tions to draw the crowds. Band con-
certs, exhibitions of fast and fancy skat-
ing by acknowledged experts, and hock-
ey games caught the people and they
willingly paid the price of admission to
take advantage of the sport.
Houghton, which has long been with-
out an ice rink promises to have one
suitable to hockey by next winter.
That the structure will be built during
the summer is now almost assured.

MICHIGAN COAL FIELD.

Seven Workable Beds Now Said to Ex-
ist in the State.
The Northern Interior of Michigan
coal field is the only one of its kind in
the drainage basin of the St. Lawrence
river. It lies, as Dr. Alfred C. Lane tells
us in Part III of the twenty-second an-
nual report of the United States geologi-
cal survey now in press, between Lake
Michigan, and Lake Huron in the center
of the lower peninsula of Michigan, and
extends from Jackson county on the
south to Rosecon county on the north,
and from Tuscola county on the east to
Kalamazoo county on the west, em-
bracing an area of about 7,500 square
miles. The coal basin is a low, flat coun-
try as compared with the surrounding
rim of higher land, which rises from 400
to 1,000 feet above lake level.
In the order of time the development
of this field began with the mines around
Jackson, dating back to 1835; next the
east Grand field, an area twenty miles
each way from Lansing, in Eaton and
Ingham counties was developed. The
Owosso district, including the mines
near Owosso and Coruna in Shiawassee
county, and near Flushing and Elk in
Genesee county, was opened somewhat
later, and last the Saginaw district, in-
cluding Saginaw county and the Verne
mine and the Bay field, including Arenac,
Bay, and Tuscola counties, and Seb-
ewing field of Huron county.
Mr. Lane believes that new areas of
coal will be found, but he gives the
warning that reports of coal near De-
troit, New Baltimore, Alpena, and west
toward Charlevoix, are usually due to
black shales, and that this region may
safely be assumed to be without com-
mercial coal.
It was formerly erroneously supposed
that there was but one workable coal
bed in Michigan. There are certainly
seven, of which three are probably much
more important than the others, but the
irregularities of the basin prevent exact
correlations. The coal does not, as a
rule, lie deep. It is all bituminous, lean-
ing to the gas-coal type. The Verne
coals can be coked, but are high in sul-
phur. As a steam fuel the coal ranks
with the Hocking Valley and below the
Pocahontas coals. It is interesting to
note that the greatest thickness of the
Saginaw coal mining dates from 1895,
and was due to the threatened de-
pendence of salt manufacture, dependent in turn
on the decadent lumber industry which
has heretofore furnished the fuel, and to
the necessity of finding some other
source of cheap fuel.
The pillar and chamber system of min-
ing is practically the only one used. The
mines are in various districts; more
than half of them are American born,
and those not native have been open
on an average sixteen years in the
United States. The workmen of the mines
around Bay City and Saginaw scatter
through the city and make no distinct
class by themselves. The miners and
operators are not admitted into the
Ohio convention, but meet in Saginaw to
arrange for the coal trade. Mine-cutting
machines are most extensively used in
the Bay City field. For tramming, mules
are used; not steam nor electricity as
yet. The land, as a rule, is leased at
about eight cents per ton royalty and
has not generally been bought outright
for mining, as it is valuable for agricul-
tural purposes.
The production of coal in 1880 was
129,953 short tons, at a value of \$4,977,
in 1890 it was \$4,475 tons, valued at over
\$1,250,000. Saginaw and Bay counties
produced more than nine-tenths of the
coal in 1890. The indications all point
to both more mines and increased output
of present mines in the immediate fu-
ture. The local markets are the most
important, but the coal is spreading into
the wheat country of Wisconsin, Min-
nesota, and the Dakotas because of the
very low rates given by railroads, which
would otherwise haul empty cars west-
ward. The Pere Marquette, the Michi-
gan Central, and the Grand Trunk are
the chief coal-carrying roads, while Sag-
inaw Bay and Saginaw river bring lake
transportation to the heart of the coal
basin.

ARRESTED PIN-SETTERS.

Calmnet's transient officer, James Wills,
always on the alert for boys who should
be in school, visited the Mills bowling
alley Wednesday afternoon and found
four boys at work setting up pins. The
youngsters were taken in custody and
the proprietor of the bowling alley was
left to hunt up pin-setters who are not
of school age. The alleys are a great
hang out for boys who are averse to
going to school and whose parents do not
care much one way or the other.

A warning to feel tired before ex-
ertion is now business—it's a sign that
the system lacks vitality, and needs
the tonic effect of Hood's Sarsaparilla.
Sufferers should not delay. Get rid of
that tired feeling by beginning to take
Hood's Sarsaparilla today.

ALLOUEZ ANNUAL REPORT.

Debt Has Been Paid and an Expiring
Option on Land Taken Up.
The annual report of the Allouez
Mining company shows that the receipts
for the year including a balance on hand
Jan. 1, 1901, of \$1,055, were \$252,471,
and the expenditures \$139,929, leaving a
cash balance on hand Jan. 1, 1902, of
\$112,542.
President H. F. Fay, in his report
says:
"The company debt has been paid off
and it has taken up an expiring option
on 120 acres of land which secured a
straight and natural boundary to the
property on the north and also greatly
increased the underlie of all its known
lodes—especially the Keatsarge. We
feel confident the purchase will prove
a valuable asset in the future, which
subject will have one consideration after
we have explored and determined upon
the character and possibilities of the
Allouez conglomerate. Work thereon
was discontinued some years ago on ac-
count of the exceptionally low price of
copper then ruling, but it has been be-
lieved by many that with a fair aver-
age price and with modern economical
methods this could now be worked to
advantage."
Superintendent Chynoweth says: "Dur-
ing the past year work has been con-
fined mainly to the Osceola lode. The
shaft has been sunk 100 feet more and
at the twelfth level a drift was opened
on the course of the lode for about five
hundred feet. Having demonstrated
the quality of the lode at that depth,
which showed the general conditions
which we expected to find, we discon-
tinued operations there this winter. We
have begun to unwater the lower open-
ings on the Allouez conglomerate lode.
The water has been brought down below
the fourteenth level and the old work-
ings of the school mine will, I think, be
drained by early summer."
At the annual meeting of the Allouez
Mining company the directors were re-
elected with the exception that W. I.
Frost succeeds Jesse Lewisohn. There
were but two stockholders present aside
from officers and directors.
At the Trimountain.
Commencing April 1, the Trimountain
will supply rock to two heads at the Ar-
cadian mill. The mine is in excellent
position to supply the rock necessary,
which will aggregate about 800 tons
daily. This is one of the evidences that
the Trimountain people intend to get
into the copper market as quickly as
possible.
We are also able to state that the
company has contracted for two heads
of stamps, delivered within five months.
The foundation work for the third and
fourth heads at the mill is progressing
rapidly. The mill will be in readiness
to operate two heads July 1, after which
the work of installing the third and
fourth heads will be pushed to an early
completion, so that the entire milling
capacity of the company as now planned
will be ready for service about Jan. 1.
With two heads in reserve for some lit-
tle time, the company will be well pro-
tected against delays caused by any mill
machinery accidents. With the snow
nearly all gone, it is surprising now to
see the amount of mass copper that was
hoisted at the Trimountain during the
past five weeks. In fact the extent of
mass copper offers as pleasing a surprise
as the mill results.
Rock is being sent to the mill from
all portions of the mine, and we are
reliably informed that the amount dis-
carded does not exceed ten per cent. The
company has been endeavoring to ar-
rive at a fair average yield of the open-
ings from north of No. 3 to south of No.
1. At the present time the richest open-
ings in the mine are immediately south
of No. 3 shaft. Advantage of the fa-
vorable weather is being taken, and al-
ready a good start has been made in
the enormous amount of surface work
that is now being done. The work of ex-
cavating the new engine house founda-
tion at No. 1 shaft is under way. A
quarry has been started from which
stone will be secured to build founda-
tions for the hoist, compressor and other
machinery recently purchased from
the Arcadian. The company will also
erect thirty dwellings.
The progress of operations thus far
has been rapid and tends to confirm our
information that the company expect
to furnish rock to four heads early in
1902.
Trimountain mineral yields a trifle
over 80 per cent of refined copper.—
Hancock Journal.

STRIKERS TO RETURN TO WORK.

It was said in Hancock yesterday
that most of the striking miners at the
Franklin Junior had signed to go back
to work on the company's terms and
that operations at the mine will be re-
sumed Saturday. It is good news to
the friends of the mine. The company
would have held out for some time, as it
was in a position to do so.

COPPER GOSSIP.

President Fay of the Centennial and
other Lake properties, just back from
his trip of inspection, is reported as
feeling very hopeful regarding the gen-
eral outlook in the Lake district.—
Boston Journal.
Morrison, Kekewich & Co. metals,
of London, say: "Copper has changed lit-
tle, but the power of control seems to be
changing and more confidence returning.
There is no doubt that consumers gen-
erally would be perfectly willing to pay
higher prices and cannot understand
why some of the Americans have sold
so low."
There is nothing doing at the Penn
property. Captain Dunn ceased work
there Tuesday night. The captain con-
ducted operations at the mine the past
six months and the outlook was en-
couraging at times. The Penn's equip-
ment is to be moved and likely to the
Belt where it is expected operations will
be conducted in the near future.

BOUND OVER TO CIRCUIT.

Justice Brand who took up the case
against Joseph Dumonties, a principal in
the recent Franklin shooting affray,
Tuesday, continued the case Wednesday
and that evening disposed of it so far
as he is concerned. The defendant was
bound over to the April term of circuit
court in \$700 bonds. Dumonties has not
yet furnished bail. He is charged with
the shooting of an Italian named Val-
lesco.

NIGHT WAS HER TERROR.

"I would cough nearly all night long,"
writes Mrs. Chas. Applegate, of Alex-
andria, Ind., "and could hardly get any
sleep. I had a block I would cough
if I walked a block I would cough
frightfully and spit blood, but when
all other medicines failed, three \$1.00
bottles of Dr. King's New Discovery
wholly cured me and I gained 55
pounds." It's absolutely guaranteed to
cure Coughs, Colds, La Grippe, Bron-
chitis and all Throat and Lung Trou-
bles. Price 50c and \$1.00. Trial bottles
free at Stafford's drug store.

COUGH SETTLED ON HER LUNGS.

"My daughter had a terrible cough
which settled on her lungs," says N.
Jackson, of Danville, Ill. "We tried a
great many remedies without relief, un-
til we gave her Foley's Honey and Tar
which cured her." Refuse substitutes.
People's Drug Store.

We Invite Your Attention

APPROACHES TO COUNTY BRIDGE.

Contract for Construction Let to Wis-
consin Bridge & Iron Co.
The Wisconsin Bridge & Iron Co., of
Milwaukee, through J. F. Jackson, its
copper country engineer and representa-
tive, has been awarded the contract to
build the approaches to the county
bridge for the extension of the Copper
Range railroad across Portage Lake
from Houghton to Hancock, and
on to Calumet. C. J. Johnson
of Houghton, the railroad con-
tractor, will build the fifteen-mile
extension. It is understood that the
work on the approaches will be com-
menced early in the summer and the
work on the entire extension will be
rushed during the summer season. The
copper Range railroad will use the draw
on the bridge in conjunction with the
Mineval Range railroad and will share
equally in the expense of keeping it in
good repair. The approaches to the
bridge and draw will have to be built
according to the contract entered into
by the two railroad companies and the
county. Men are already arriving in
Houghton to work on the extension and
camps along the proposed route will soon
be built.

THOUGHT HE WAS A REFORMER.

Letto Rock Gets Severe Treatment at
Hands of Saloonkeepers.
Letto Rock, a barber of the Tamarack
Mills, drove to Laurium last Tuesday
night with a friend who wished to at-
tend a lodge meeting. About the time
for lodge to adjourn Rock, who had
spent the time with friends, sauntered
down the street to meet his companion.
He was mistaken at a corner by a
group of men, among them Louis Erick-
sen and Armedia Marion, two saloon-
keepers, for a member of the Civic Fed-
eration and a spy of that organization.
As a result Rock was quite severely
beaten. The mistake was discovered
later by his assailants.
Wednesday morning warrants for the
arrest of the two men were sworn out.
Ericksen pleaded guilty and was fined
but Marion pleaded not guilty and de-
manded a jury trial. He will be tried
in Justice Curtis' court next Tuesday.
The feeling against the assailants is
strong in Calumet. The Civic Federa-
tion is certainly stirring up hard feel-
ing and the act may be blamed indirect-
ly to it.

HOSPITAL PATIENTS RECOVER.

William Glasson, a Quiney miner, is
recovering from a severe attack of ty-
phoid fever at the Hancock hospital;
Camilo Camallo of Calumet, who has
been at the hospital for some time also
suffering from typhoid, will soon be able
to return home; John Bland, one of
Andrew Johnson's teamsters at the
Quiney location who was kicked in the
leg by a horse several weeks ago, has
left the hospital; and Dominick Velasco,
the Italian, who was shot in the leg dur-
ing the recent Franklin location shoot-
ing affray, has also been discharged.

AFFLICTED WITH SMALL-POX.

Edward Goodfellow, residing with his
parents at the Franklin junior location,
was discovered to be suffering from
small-pox Wednesday and he was at
once removed to the county detention
hospital. He had been ill for several
days previous to the discovery. His
parents were vaccinated and the house
quarantined.

HOW'S THIS?

We offer One Hundred Dollars Reward
for any case of Catarrh that cannot be
cured by Hall's Catarrh Cure.
F. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F.
J. Cheney for the last 15 years, and be-
lieve him perfectly honorable in all busi-
ness transactions and financially able to

CITY BREVITIES.

Weather forecast: Possibly rain or snow flurries; brisk to high southwest winds. Yesterday's temperature: 7 a. m., 28 degrees; noon, 40 degrees; 7 p. m., 28 degrees; maximum, 49 degrees; minimum, 28 degrees.

Frank Spear got back yesterday from Duluth. Attorney W. S. Hill is in Chicago on a business mission. A meeting of the Hibernians will be held at 8 o'clock this evening at the hall.

The Baptist Ladies Aid society will meet this afternoon with Mrs. Wm. A. Ross, 735 Ohio street. Mr. and Mrs. V. D. Simar left last night for Hot Springs, S. D., to be gone two or three weeks.

John R. Gordon arrived yesterday afternoon on his return from a trip to Detroit and Grand Rapids. The G. I. A. to the B. L. E. will hold a special meeting at 7 o'clock Saturday evening at A. O. U. W. Hall.

Mrs. Charles Kelsey, Spruce street, will entertain the ladies of the Presbyterian church this afternoon at 2:30 o'clock. J. M. Longyear left for Houghton yesterday afternoon to attend a meeting of the board of control of the Michigan College of Mines, of which he is a member.

The meeting of the Methodist Ladies' Aid society this afternoon will be held in the church parlors, beginning at 2:30 o'clock. Mrs. Edward Fitzgerald has returned to her home at Racine, Wis., after spending two weeks here, the guest of her sister, Mrs. August Thoney.

The Young Woman's guild of St. Paul's church will be entertained by Miss Merritt, East Ridge street, at 2 o'clock this afternoon. George D. Fisher of Cleveland and Mrs. Almada L. Howard of this city were yesterday licensed to wed. They were married last evening by Rev. E. A. Elliott.

The United States circuit court will not meet here in May, as scheduled. The news death at 1 o'clock in the morning of Lillian Chisholm Robbins, wife of Arthur E. Robbins, formerly of this city but now a resident of Chicago, where the demise occurred.

F. B. Spear & Sons, local agents of the company, are advised of a change in the general freight agent of the Lake Michigan & Lake Superior—the Chicago—line. E. J. Kelly has succeeded W. L. Guthrie in the position, with headquarters, as in the past, at Chicago.

The Stafford Drug company has sold its soda fountain to the Candy Kitchen. It is a large double-compartment affair, and from now on will do service both in Marquette and at the Soo, by the attention of the new owners to ship one section to their store in the Lock City and use the other here.

A meeting of the poor committee of the board of supervisors was held yesterday at the office of Secretary Blanchard. It took place in accordance with a resolution passed by the county board and among other matters the accounts of the poor house were checked up and found as they should be.

Marshall Farm of Ishpeming yesterday brought George McGraw to the county jail to serve a three month's sentence. McGraw is the man who robbed a chicken coop and was arrested because the rooster which he was carrying under his overcoat set up a lusty crow and gave the alarm to a nearby "cop."

In the homestead contest case of William J. Cousins vs. Charles E. Dumstead, the local land office has rendered a decision in favor of the contestant, recommending that the entry be cancelled. As is usual in contests of the kind, a judgment was the claim set up. The case involved 120 acres of land in Mackinac county.

Rev. W. C. Hicks of Osceola, Mich., was the guest of Rev. E. A. Elliott yesterday. He was on his way to the copper country to visit his brother, also a clergyman, and stopped off on his way up from the Soo, where he had been for several days with his family. Mr. Hicks was formerly a member of the Lake Superior conference and filled pulpits at Iron Mountain, Houghton and the Soo.

The "Cordova" is the name of the second regular put on the Milwaukee-Marquette route by the St. Paul road. It arrived yesterday on its first trip and from now on, until new cars are put on, will arrive in Marquette every second day, alternating with the "Nunidia." Both cars are considerably longer than the ordinary coach and in the sleeping and lavatory compartments are modern than the Pullmans which have been on the run.

Dr. Ford, of the Normal school faculty, leaves for Menominee this morning to deliver a lecture, concerning which the Menominee Herald says: "The fourth and next number in the course will be given Friday night. It will be a talk on 'Life in the Far East' by Dr. R. Clyde Ford, instructor in modern languages in the Marquette Normal school. Mr. Ford lived in Malasia for two years and is well acquainted with the customs and life of the people in the Far East. He has traveled around the world and is familiar with the people and customs of nearly all nations."

W. A. Paine, of Boston, of the firm of Paine, Webber & Co., bankers and stock brokers, who have recently established an office in this city, was in the city today with W. C. Brown, who is the manager of the office here, says the Duluth Herald. They dined at the Kitchi Gammi club today with G. W. Hubbard, of Marquette, general passenger agent of the South Shore road; J. T. McKeever, of Houghton, manager of the Copper Range road, and Mr. Danaher of Sault Ste. Marie, Mich. This afternoon they were taken for a ride about the city in the street railway company's private car.

Lower Michigan.

Henry Kosemeyer, of Denmark township, Tuscola county, who was arrested a short time ago for threatening to kill his wife, and once for assault and battery on his wife, was again taken in custody Tuesday, on a charge of assault and battery on his son, aged six years. Mrs. Kosemeyer got a divorce, and the son was given to his mother. Kosemeyer met his divorced wife and little son, last Wednesday night, at Reese, on the church steps, where the alleged assault was committed. He was under \$200 bonds to keep the peace, and his bondsmen want to give him up. He pleaded not guilty and will be tried by a jury on March 25.

It has been supposed by many that the grain which went into the river during the Botsford elevator fire at Port Huron was partially responsible for the epidemic of fever in that city, as it lay but a short distance above the intake pipe of the waterworks. An investigation, however, shows that the grain which went into the river is just as clean as when it went in. W. A. Stevens bought it and has removed about 3,000 bushels by means of a scoop. It is all in good condition.

Minnie Forch, the fifteen-year-old adopted daughter of Christopher Forch, a farmer living three miles west of St. Johns, was found Tuesday night, hidden in a schoolhouse, after an absence of three days from home. She ran away last Saturday, entered a schoolhouse close by through the window, and remained curled up in a closet, without food. Her absence created considerable excitement. She is understood to have objected to the board at the Forch home.

Frank Munger, residing in Culvertown, a suburb of Portland, while on the way home Tuesday night, took hold of a wire which raises and lowers an arc light near his home that had gone out. The rope was wet and his body formed a perfect circuit. He received upward of 1,700 volts and dropped dead by the side of two companions who were with him. He was an industrious young man, twenty-three years of age, and the support of his aged father and mother.

Herbert Harrison, a motorman on the Detroit, Ypsilanti, Ann Arbor & Jackson railway, was killed Tuesday night two miles out from Chelsea by an electric shock. He was fixing one of the trolley poles when the current in some manner became short-circuited through his body. Harrison was a young man and leaves a wife. He formerly lived in Inkster, but of late had been a resident of Ann Arbor.

At Kalamazoo Tuesday Richard Tea, an old man, attempted to kill his wife by shooting her. Early in the day he purchased a cheap 32-caliber revolver and, going to the home of his daughter, Mrs. Emily Hoag, where his wife was staying, fired a shot at her. The bullet penetrated her clothing near the hip and fell to the floor. Tea, who had been drinking, was arrested and placed in jail.

The farmers of Alcona county have given up trying to raise sugar beets, after a good trial, which has proved it unprofitable. Three years ago they took to raising contract peas and the crop has proven so remunerative that eight carloads of contract seed peas have been distributed through the county for this year's planting.

The controversy over the Normal science building site at Ypsilanti was closed by the council voting to purchase a portion of the Ocean land for \$8,000, with the understanding that the state board of education will ask the next legislature for \$5,000 more to buy the rest of the 12-acre piece of land owned by Owen & Post.

Timothy Mills of Tecumseh has been notified that there is no deposit in the Bank of England, London, \$2,000,000,000 awaiting claimants, the money being the estate of a Timothy Mills, deceased, and local Timothy Mills of Tecumseh, and it is supposed to be in direct line of descent from the defunct Timothy across the pond.

Merchants as well as idle workmen at Coldwater were made happy this week by the announcement that the cement factory under control of the new company would begin manufacturing cement in two weeks and that the Quincy plant, under the same management, will begin work two weeks later.

Dr. A. Maucolet of Bay City is laid up by a severe attack of blood poisoning, resulting from attending a patient and contracting poison through a slight scratch on his hand. His arm and shoulder are swollen, and the doctor who is attending him says an operation may be necessary to save his life.

Bay City's board of trade is in communication with an Ohio manufacturing concern which desires to secure a site of five acres in that city on which to erect a rolling mill. The company has a paid-up capital of \$100,000, and would furnish employment for 100 men at the outset.

Large numbers of fish have died in many of the small lakes in Springfield township, Oakland county. Owing to the continued cold weather the lakes in many instances entirely froze over and the fish died for lack of air. This was especially true of lakes that have no inlets.

Dr. E. T. Wilson of Owosso has received an appointment as assistant surgeon in the United States army. He will be assigned to service in the Philippines and will leave for San Francisco in a few days. Dr. Wilson's rank will be captain. He has practiced in Owosso five years.

Clarence Hunt was accidentally killed Tuesday at the new electric plant at Frankfort. His team started up very suddenly, throwing him under a wagon heavily loaded with wood. The wheels passed over his head, crushing it so as to cause his death.

The Kalamazoo council has decided to submit to the council at the coming spring election a proposition to bond the city for \$100,000 to increase the city's fire protection by extending water mains and buying additional apparatus.

Secretary Baker of the state board of health has investigated two cases of alleged poisoning from vaccination in Detroit. One was the case of D. B. Green, who died in Detroit. His physician said

Michigan.

it was not vaccination but neuralgia or rheumatism of the heart that caused his death. It was proved in the second case likewise that the cause of death was not the vaccination.

A franchise has been granted for the construction and operation of an electric street railway at Cheboygan. The multipower car line which formerly existed in the city was torn up not so very long ago because it didn't pay.

The Mt. Pleasant Sugar company has just closed a contract with the National Construction company, of Detroit, to erect a 600-ton beet sugar factory in Mt. Pleasant and have it ready for the season of 1903.

NAVAL CONTINGENT FUND.

Some of the Things for Which Money Was Spent.

A naval officer recently called attention to some peculiar items in the expense account of the contingent fund of the navy for the year 1901. All but \$200 of the fund was expended. Secret service men were paid \$265 for expenses in recovering stolen naval property. It cost \$470 to transport a party of Brazilian naval officers from New York to Annapolis and back and \$74 to catch an insane sailor who jumped from a railroad train in Arizona. The bronze tablets commemorating the services of British Consul Ramsden to American naval prisoners at Santiago, made at the Washington navy yard, cost \$674. The mud dock made for the winter berth of the old Monocacy at Tong King, China, cost \$1,458 and made a big gap in the fund.

The privilege of landing the French ambassador and visiting French naval officers at Mt. Vernon cost the government \$51.75. The trip was made on the Sylph. Other items were: For subsistence of Filipino prisoners on the United States steamer Manila, \$0; entertainment on United States steamer Kentucky on occasion of presentation of silver service to ship, \$130.96; for carriage hire in making official visits abroad, \$718.14, and for official entertainment of the British North American squadron at Bar Harbor, \$38.25—Washington Star.

THE HUSBAND'S EXILE.

Curious House Built by a Pardoned Convict's Wife in Missouri.

"I read a story the other day," said a William street lawyer, "of the death in Memphis of an ex-convict who had been pardoned by the governor of another state on condition that he should never return to the state. Such incidents are not frequent, but they have occurred before.

"I recall one in which the pardoned man complied with the conditions, but in a novel manner. His family, consisting of his wife and daughter, were compelled by reason of a clause in the will of the wife's eccentric father to remain in the state in which the husband had been convicted of felony.

"The wife had money. She bought a piece of ground which lay across the boundary line of two states and erected thereon a house, one-half of which stood in one state, one-half in the other.

"In this house the pardoned man and his family lived until the husband's death. I have been assured by the wife herself that her husband never crossed the state line. The house stood in Missouri and Arkansas.

"The pardon was issued by Gov. R. M. Stewart, of Missouri, who, by the way, was a character in his day. He was a native of New York state and after his death his body was brought back to his state and rests today in an unmarked grave.

"The man who was pardoned was not a common criminal. He had been a prominent politician in Missouri. Notwithstanding his one misstep he was a man of high notions of honor. The reason why Gov. Stewart imposed exile in the pardon was due to the fact that the man had bitterly opposed Stewart's candidacy.

"It may add to the interest of the story to tell you that when the exile was taken sick he made his wife promise him that she would not have the funeral from the Missouri side of the house."—New York Sun.

Michigan.

GOOD THING FOR MICHIGAMME.

Purchase of the Huron Bay Road Bed by Marquette County Is So Regarded.

Marquette county now owns the Huron Bay road bed, clean through from Champion to the extreme west county line. The deal has been pending all winter and the purchase has finally been made by a committee of supervisors appointed some time ago for that purpose. The purchase price was \$1,600. The report of the purchase will be made to the county board at the next regular meeting.

The transfer of the road bed to Marquette county means much for Michigan, as the greater part of the road is in this township. The few Michigan people who have been advised by Supervisor C. F. Sundstrom that the deal has gone through are much pleased.

It was largely through Mr. Sundstrom and Supervisor Wm. F. Fitch of Champion that the road bed was acquired. They conceived the idea that ownership of the road would be a fine thing for the county, and particularly for the townships of Michigan and Champion. The road traverses a territory that will for very many years to come be of great assistance to both townships, there being a great deal of timber out that way.

The price paid for the road bed is considered quite reasonable. There are six large bridges along the route. It is said that the iron alone in these bridges cost more than the price paid for the road. The iron in the bridges is worth quite a sum and should the county ever undertake to erect such structures as these an expenditure of many thousands of dollars would be necessary.

Will Build Road from Michigan.

Mr. Sundstrom states that Michigan township will build a road from Brown's farm to the bed of the old railroad, a distance of about seven miles. The thoroughfare will be well constructed so that it can be used winter and summer. There is an old tote road traversing that stretch, and it has been used this winter by F. W. Read & Co. This can be used only during the winter season. In view of the work that has been done in years past on the seven-mile strip it will not require a very large outlay to put the thoroughfare in good shape for summer use.

The bed of the railway is now a splendid road. The county will not be obliged to spend a great deal to put the road in good shape. There is a great deal of timber here during the past few years have looked after it. They found the road mighty convenient and none will be better pleased than the contractors and the lumbermen generally that it has been purchased by the county.

Lands Should be in Demand.

Mr. Sundstrom predicts quite a land boom in the territory north of Michigan as soon as the fact that the road has been acquired. There is a great deal of timber for miles around there and the wide-awake men will be after the lands on that account. There is an abundance of spruce, which is coming more and more in demand every year. Pine, hemlock, cedar and maple are also plentiful out that way.

Although considerable timber has been taken from the district by F. W. Read & Co. and other operators during the past few years, there is still a great deal left between Michigan and Lake Superior. With the new piece of road Michigan township will build to connect with the Huron bay road completed there will then be a good thoroughfare from this place clear to Huron Bay.

It is said that more than \$10,000 worth of land has changed hands in that country during the past few months. It was bought up by parties who knew that the deal between the county officials and the Huron Bay company would go through. Culver and local men have cleared most of the land, but others have also disposed of some.

Much of the timber left standing is tributary to the Peshekee river. With the road kept in good condition the operators will find little difficulty in getting their timber to the stream, particularly at certain points.

It is said that the Marquette & Southeastern railway will tap the country north of here. The timber that can be procured and handled to advantage by a railroad through that district has already attracted the attention of the railway people.

Good Hunting and Fishing.

Lovers of good fishing and hunting will rejoice with the land seekers in the change of ownership of the road. With the thoroughfare in passable condition through all seasons of the year it would be one of the greatest places in the state for hunting and fishing. The streams out that way afford excellent trout fishing. Indeed there are not many places in the upper peninsula where there is as good fishing as on the Peshekee. Deer are also numerous. Much of the deer brought into the towns in this end of the county come from that direction.

The district should attract the attention of sporting men in all parts of the upper peninsula. With the road in shape the hunting and fishing grounds will be easy of access from Michigan.

During the time Mr. Sundstrom has labored to get the deal through he has had in mind the benefit Michigan and its people will derive from having ownership of the road pass to control of the county. He can see many good things in store in the years to come and he is of the belief that Michigan people will come out big winners if they go in and purchase timber lands along the route. The time is coming when the timber out there will bring a much better price than can be obtained for the stumpage at this time.

THE WOODMEN'S BALL.

Posters will be out next week advertising the ball to be given at Odd Fellows' hall on Friday evening, April 4, under auspices of Patterson camp of the Modern Woodmen of America. Tickets to the function will be \$1 per couple. This does not include the supper which the Royal Neighbors will serve at the Woodmen building. The charge for supper will be seventy-five cents per couple. The ladies intend to prepare a spread

DARK DAYS OF DYSPEPSIA

Vanish Before Hinkley's Bone Liniment. A Sure Cure for Indigestion in all its forms.

While more acute physical pain may attend some other complaints, there is, perhaps, none which so completely controls the life of the victim, as Dyspepsia. Not only the body but the mind, also suffers. All existence is rendered dark and gloomy. Discouragement follows—hopelessness and skepticism as to the power of anything to bring relief or cure.

Then a word is dropped, a well authenticated case of relief or cure is heard of, and hope revives. Such a word—such a case—is the following:

HINKLEY BONE LINIMENT CO. "I have heard of Hinkley's Bone Liniment as a medicine which gave me the relief I needed. I had been suffering from Dyspepsia for years. I think this medicine of great merit." Bay City, Mich., March 23, 1901.

Many other equally emphatic testimonials to the efficiency of Hinkley's Bone Liniment can be furnished by Hinkley Bone Liniment Co., Saginaw, Mich., who prepare it. It is sold everywhere in 25c., 50c. and \$1.00 bottles.

HOTEL CLIFTON, MARQUETTE, MICH.

Two Blocks From New D., S. S. & A. Depot. Rates \$2.00 and \$2.50 Per Day. DAN SULLIVAN Prop.

that will be worth twice the money. Music will be furnished by the complete Michigan orchestra. At a recent meeting of the camp the following committees were named to take charge of the ball:

Arrangements—G. J. Murray, William Harrington, John Dowser, Frank Goodreau and Peter Dolf.

Reception—Fred Schwendeman, John E. Conroy, Archie LaCasse, George M. Baker, M. A. Bishop, Ernest LaCasse and P. E. Paquin.

Floor—Frank Brown, C. F. Sundstrom, Charles J. Hood, Alfred Knudson, Thomas J. Goodreau and William I. Dowser.

A BOOM FOR EWEN.

A movement which promised to develop into quite a boom has been started by the leading business men of Even. A business men's association was recently organized and it is the intention of its officers and members to bring new capital and new life into the town.

Among the things talked about is the establishment of a grist mill. This is the first thing the association will undertake. It is said that the mill is already assured and it will not be long before work on that plant will be started. There are quite a number of farmers at Even and all of these are manifesting more or less interest in the proposed mill.

The live men of Even do not intend to see the town slip out. They have been successful in attracting the attention of colonizing agents. Two men who make a business of establishing colonies were in there last week and they promised to do all they can to increase the population of the town. One of the agents came from St. Paul and the other from Minneapolis.

As an inducement to settlers land is to be sold cheap. In cases where taxes have been unpaid on lands in the township the village will clear them up for settlers who go on the land to cultivate it.

It is said that there are no better farming lands anywhere than can be found around Even. All who have taken up farms there are prospering and place and E. Mink and Joe Frechette are also after it. All are strong men and the fight for the nomination promises to be warm.

John Dowser is a candidate for re-election to the office of township treasurer. He has made a very efficient officer and has a number of strong supporters who will be on hand to cast their ballots for him. John P. Sandberg is also a candidate for the treasurer'ship.

There are no less than four candidates in the field for the office of highway commissioner. The quartet is composed of E. J. Frick, Frank Brown, Louis Backus and Ole Elbes. It is conceded that this office will be worth something the coming year, as there is a new road to be built from Brown's farm to connect with the old Huron Bay roadbed.

A MEASURE OF MERIT.

Marquette Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence. Convincing evidence in Marquette is not the testimony of strangers. But the endorsement of Marquette people.

That's the kind of proof given here. The statement of a Marquette citizen. Mr. A. Hoard of Dead River Mills, says: "There was a dull aching pain across the small of my back and in my kidneys at times so severe that I could hardly stand it, particularly if I caught cold or did any heavy lifting. I took medicines at different times, but the trouble still remained as bad as ever. When I saw Doan's Kidney Pills advertised I got a box at the Stafford Drug company and used them. The treatment cured me."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

A CHANCE IN A LIFE TIME

to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it.

Fifty Thousand Dollars

in development on the ledge and a complete five stamp mill, with all other necessary machinery ready to run.

The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c per share, capital stock 1,000,000 shares (par value \$1.00) each, fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to New York syndicate for \$200,000. The Ozark will pay dividends and be worth par inside of six months. This is the best investment for the money that has ever been offered to the investing public.

Do not lose this opportunity. It will never come again.

For further particulars, prospectus, report on mine, reference, etc., address,

OZARK GOLD MINING & MILLING CO.,
MOSCOW, IDAHO.

GREAT DEVELOPMENT

In Florence—The Splendid Showing of the Banner and Ozark Has Stimulated All Other Mining Enterprises.

J. N. Taylor, United States Mineral Surveyor, has just come down from Florence and reports great activity in the camp and that there is more development going on at the present time than there has ever been before in central Idaho.

In an interview with The Star reporter, Mr. Taylor said: "The Banner is working sixty men in getting their mine ready to start as soon as the hundred ton mill they are putting in is completed. This property has developed into a great mine, I believe the largest free milling gold mine in the Northwest. They have twenty-seven feet of \$14.00 ore in one drift, and twenty-three feet of \$66.00 ore in another drift. This property was bought by a New York syndicate composed of Henry Clews, Arbuttle Bros., and others a short time ago for two hundred thousand dollars, and the value of the property today is hard to estimate as they

have a million dollars worth of ore blocked out.

"The Ozark mine lying north of the Banner is also drifting on a twenty-four foot ledge on the 100 foot level, and there is no question but that it will develop into a great mine, as it has the richest ore in the camp and has a greater showing as far as developed than the Banner. They expect to get the mill now on the property started by the first of March and add stamps as soon as the roads will permit in the spring to make their capacity 100 tons per day, and with these two big mines with others that are getting ready to start, the people of Florence are looking for a great boom in the spring. The town of Florence is full of mining men looking for bonds on property where the owners are not able to do the necessary development work to put the property on a paying basis but as usual the prospectors' idea since the development of the Banner and Ozark is such that they are hard to deal with in the way of price, but the people who are looking for the property have made liberal offers since the Banner and Ozark started, and I am satisfied will pick up most of the best properties between now and spring."

Ishpeming and its Environs.

TRAMMERS WALK OUT.
 Several Employed at the Champion Mine Gave Up Their Jobs.

A number of the trammers at the Champion mine are out of jobs. They quit work because the management asked them to stand a slight reduction in the rate being paid per car for tramping. There is no disturbance and everything is going along as usual, so far as the miners and surface hands are concerned. New men will be hired to take the places of those who quit and it is expected that all the average work in the neighborhood of \$2.90 per day. The company considered that the tramping could be done cheaper and still allow the men to make liberal wages. Hence a rate two and a half cents cheaper than the old one was made, bringing the average down to about \$2.90.

A large number of the trammers asked for their time and it was promptly given them. There was no difficulty in replacing them, as the work is performed by unskilled labor, of which there is a plentiful supply in this country. Advice from the mine yesterday was to the effect that all the miners were at work and will continue to labor as usual. As fast as new men apply for places they will be put on and all the old ones who are not satisfied with the new wage rate can go. The walk-out will cause a slight curtailment in the quantity of ore loaded for a short time only. Should there be a shortage of trammers for a week or two the miners can continue at work, as they will be privileged to pile a portion of the ore mined underground.

THE JUNIORS WON OUT.
 A Hotly Contested Game of Basket Ball Between Senior and Junior Teams.

The initial basket ball contest between the Senior and Junior class teams of the Ishpeming High school, played Wednesday evening at the Ishpeming Light Guard armory, was an unusually interesting contest. The teams were very evenly matched and by a mere run of good luck the Juniors won out by one point, the score at the close of the second half being 22 to 21.

A number of the boys playing in the teams should become experts if they continue their practice work. They showed up to excellent advantage, though a number of fouls were made on both sides. It is hard for old football players to confine themselves strictly to the rules of basket ball, and this accounted for their frequently holding the man who had the ball.

Considering that the boys have been playing the game but three weeks some good plays were made. A few of the players took some hard falls, but none of them were hurt. Should this season be continued until the football season the members of the team will be in the pink of condition at the start, as the winter is just what is needed to get men in perfect trim for the gridiron.

BIG BALL PLANNED.
 It Will Be Given by Jacques Carrier Tent of the Macabees April 7.

The committee named some time ago to make arrangements for the fifth annual ball of Jacques Carrier tent of the Macabees intends to make the function one of the most successful ever given in the city. An effort will be made to induce members of the order and their friends in the neighboring places to attend. Special pains will be taken to give the visitors a good time, so that those who come will have no reason to regret it. The music will be furnished by the complete Trombly orchestra. The ball will take place at the Anderson hall and the supper will also be served there. The supper will be in charge of the Lady Macabees. Special rates of fare will be given on the South Shore line to all from outside who wish to attend. Tickets to the ball will be \$1 per couple and the price of the supper will be only twenty-five cents a plate.

Following are the committees in charge of the party:
 Arrangements—Luke Demorese, John Charbonneau and Charles Marceau.
 Reception—E. Lioret, Fred Ongie and August Jacob.
 Floor—Charles Shaney, Charles Miller and Joseph Phanauff.

STRIKES A RICH FIND.
 "I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my liver in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Stafford.

Our shirt waist materials embrace all the prettiest patterns. Prices made to save you money. Call and see them. Finnish Mercantile Association.

For Sale—Forty acres of good farming land, house, barn, farming implements, two cows, chickens, etc., all for \$850. William Geach, Republic. (3-14-14)

RAW OR INFLAMED LUNGS
 Yield rapidly to the wonderful curative and healing qualities of Foley's Honey and Tar. It prevents pneumonia and consumption from a hard cold settled on the lungs. People's Drug Store.

LAMP DID NOT EXPLODE.
 Oil Inspector A. F. Howard Investigates Cause of Mary Bankson's Death.

A. F. Howard of Munising, deputy oil inspector for the Nineteenth district of Michigan, spent a few hours in Ishpeming yesterday in the vicinity of the cause of the death of Mary Bankson, who died as a result of burns received in a fire at her home on East Cleveland avenue.

Mr. Howard heard the story of the fatality from different members of the family and he is satisfied that the fire was not started as a result of an explosion of the lamp. One of the girl's brothers told him that his sister stated before she died that she struck the lamp against the door jam and that it dropped outside the partry. The door closed between her and the blaze and she stepped over the flames. This is how her clothes caught fire.

Mr. Howard tested the oil in the can from which that contained in the lamp was taken out and found it all right.

BYE'S WORK ON SKIS.
 A Milwaukee Paper Has a Good Account of His Record.

The following, dated at Ishpeming, relative to the record of Gustav Bye, the celebrated champion skier of America, appeared in Tuesday's Milwaukee Free Press:

"Gustav Bye, America's champion skier, gave an exhibition in this city Sunday afternoon. He jumped seventy-four feet without falling from his skis, making a new record for the local slide. Bye is by far the best jumper in the country at this time. He has a record of ninety-three feet, which he made three years ago at Selbo, Norway. With favorable weather and the slide in perfect condition, Bye says he can break his own record on the Ishpeming slide.

Shortly after his arrival here, about six weeks ago, he fell in making a jump, and he has been unable to do his best work on that account. He is a very graceful jumper and his style of work is being copied by the best riders of this country. On Sunday, Con Thompson, a young rider of this city, jumped seventy feet and retained his feet below the "hump." This is the best jump made here since the famous Hemenstedt brothers carried off the honors in a tournament ten years ago.

"Bye is a newcomer in this country, having arrived from Norway in September last. He has won many noted contests. Up to the time he left Norway there was one man in that country, it is said, who held a better record for long distance jumping than he. The championship was held by O. Tandberg, who cleared 108 feet without falling. This record was broken three weeks ago in Norway by a man who made the phenomenal jump of 117 feet.

"Last winter Bye captured second prize in the long distance race at Stockholm. This was open to the world and all the best riders of Norway and Finland participated. Bye covered twenty-two miles over a very rough course in two hours and sixteen minutes. In 1902 Bye won the king's race, which is the noted contest of the season. He still has the cup.

"Ishpeming people have had the ski craze in earnest this winter. Four tournaments have been held and more would have followed had the weather remained favorable. There are now a great many good jumpers here, most of whom clear sixty to seventy feet without difficulty. Next winter promises much sport for lovers of the ski in the several cities of the upper peninsula."

DRUGGISTS WILL CLOSE EARLY.

The proprietors of the four drug stores in Ishpeming—F. P. Tillson, Henry Harwood, L. Clement and H. N. Meloche—have agreed to close their stores every evening at 8:30 o'clock, except on Saturday nights, pay nights and evenings preceding holidays. It is the wish of the druggists that their patrons do their purchasing early, so that they can adhere to this regulation. The change will go into effect next Monday evening.

CHILD SEVERELY SCALDED.

The three-year-old daughter of Charles Nilander of Second street was severely scalded yesterday. A pan of hot starch was taken from the stove and placed on the sink. The little tot caught the can and pulled the starch over. Considerable of the stuff dropped into the front of her dress at the neck, passing down her breast. The neck was quite badly scalded as also was a part of her breast.

BUTTERICK PATTERNS FOR APRIL.
 Bolero styles in waists. Shawl and sailor collar effects in blouses. Postillion and Peplum effects in cotton jackets. The new French fit with seams to the shoulder. Our patrons are urged to visit our paper pattern department and inspect these and other varied styles. (3-14-24) S. JOHNSON & CO.

THE FIREMEN'S UNIFORMS.

Department and Three Companies Subscribe \$900 Towards Their Purchase.

The special meetings of the fire department, also the two hook and ladder and the two hose hose companies, held for the purpose of donating funds to assist in the purchase of the proposed new uniforms for the members, resulted most satisfactorily to the "laddies," as a total of \$900 was donated for the purpose.

The following report of the committee on uniforms, prepared by Secretary Henry Routhier, also the amendments to the by-laws governing the use of the suits, etc., presented at the meeting of the department Wednesday evening, will be of special interest:

"Your committee on uniforms desires to advise the department that Hose and Hook and Ladder Co. No. 1 and Hose Co. No. 3 have each contributed the sum of \$150 to the uniform fund, making a total of \$450 by the three companies, and your committee also recommends that the department donate from its treasury the sum of \$450 to the uniform fund, and that in order to raise the full amount of money necessary to pay for the uniforms the department proceeds to organize receptions, socials or entertainments for the benefit of the uniform fund and the committee to receive voluntary contributions from all sources so as to enable the department to meet their obligations when uniforms are made and accepted. Upon motion the report was adopted and recommendations granted.

"Same committee reported the following amendments to the by-laws and constitution which were read and laid on the table until next meeting as provided in Section 1 of Article 3:

"Section 16 to be added to Article 1 to read as follows:

"Any officer or fireman caught wearing his or part of his uniform outside of parades or firemen's reunion shall be reported to the chief and severely reprimanded by him at the first offense, on the second offense the chief shall expel said officer or fireman from the department and will have his name stricken from the roll without any further appeal.

"Section 17 to be added to Article 1 to read as follows:

"Any officer or fireman appearing in the parade with a soiled uniform shall be dismissed from the ranks by the chief or the commanding officer and will not be allowed to participate in the parade.

"On motion the committee on uniforms was instructed to confer with the city attorney as to the rights of ownership of the uniforms by members according to the department by-laws and constitution, and to have an ordinance drawn up, if necessary, so the department can regain the possession of the uniform of a member in case he is not entitled to it according to the department by-laws and constitution.

"On motion the committee on uniforms was granted full power to purchase uniforms for sixty-three members to its best judgment.

"Nothing further appearing, the meeting adjourned to the call of the chief."

ISHPEMING IN BRIEF.

R. Merriek of Hancock did business in Ishpeming yesterday.

C. D. Harding of Crystal Falls is in the city for a few days on a business mission.

Austin Larson of Green Bay did business here yesterday for the William Larson Commission company.

Ishpeming will be well represented this evening at the concert to be given in Marquette by Sousa's band.

Miss Ida Braastad will leave next Thursday on a trip abroad. She intends to spend a few months in Norway, Sweden and other countries on the other side of the water.

George Goodman has gone to the Ferris Industrial school at Big Rapids, where he will take a complete business course. He has attended the high school here for the past few years.

The Trombly orchestra will resume giving lessons and hops soon after Lent. The first date is April 3. The full orchestra will be in attendance and the usual prices will be charged.

Charles Steel, who has held the position of night operator at the South shore depot here for the past two months or so, has resigned to take a position at the Maas mine, Negaunee.

The meeting of the Alumni association announced for this evening at the high school has been postponed until tomorrow evening, as a number of the members will be out of the city tonight.

George McGeary, who was committed to the county jail for ninety days for stealing chickens from the coop of a poor family on West Division street, was taken to Marquette yesterday by Marshal John Farm.

Extra seats have been provided at the Marquette Opera House for Sousa's band concert this evening, and the management states it will be able to find places for all who wish to hear the famous musical organization.

The ladies of the Chancel society of Grace church will conduct a sale of home made cakes, pies, doughnuts, pasties and other good pastry tomorrow morning, commencing at 10 o'clock, at the Guild hall. Friends are invited to call.

Sam Blumenthal, for many years a resident of Ishpeming, but now in the clothing business at Lake Linden, spent Wednesday in the city calling on old friends and acquaintances. Sam is doing very nicely in the copper country town. He stopped off here on his way back from Chicago, where he spent a few days purchasing goods.

The Finnish Co-operative association will establish a millinery department at its store and a competent trimmer will be placed in charge. Commencing next week, and continuing for two weeks, there will be a special sale and display of millinery goods, shirt waist materials, etc., in the hall above the store. An unusually large line of new goods for the different departments has been received within the past week or two and it is the intention of the management to

STARVED TO DEATH.

Help That Came Too Late.

"The Carisbrooke Castle, arrived in from the West Indies, reports picking up a raft with the body of an elderly man who had evidently died of starvation. There was no clue to the man's identity, nor any marks to determine the origin of the raft."

In those few lines another clueless mystery of old ocean was disposed of. There was nothing to marvel at that a man should die of starvation. Had he lived it would have been a real marvel indeed. Or had he died of starvation surrounded by abundant food, that would have been both a marvel and a mystery to the world at large.

but the stomach is "weak" and the food cannot be digested and converted into nutrition. The body grows weak as every starved body does. And at last the life is destroyed by some common place malady, which would have been easily thrown off by a well nourished body.

depends upon the capacity to digest and assimilate food. Strength in age has the same foundation as strength in youth—food properly digested and assimilated.

What "Golden Medical Discovery" does for the diseased stomach in advanced life, does for youth and for men and women at every stage of life's progress. It makes the "weak" stomach strong. It enables the perfect digestion and assimilation of food, so that the body is made strong in the one possible way—by food properly digested and perfectly assimilated.

Acting through the stomach and blood, Dr. Pierce's Golden Medical Discovery reaches every organ of the body. It strengthens the "weak" heart—stirs up the sluggish liver, heals the inflamed lung tissues, stimulates the kidneys, and brings all the physical organs into harmonious activity.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to cover expense of mailing only. Send 21 one-cent stamps for the book in paper covers; or 51 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

various diseases of heart, liver, lungs, kidneys, blood, etc., cured by "Golden Medical Discovery," are diseases which had their origin in the disease of the stomach and other organs of digestion and nutrition.

When a medicine is offered as "blood-making" or "strengthening," ask yourself: Out of what is blood made and what is the source of physical strength? Blood may properly be said to be only digested food.

"I take time to ask you to allow me to thank you for the good your medicine has done me," writes Mrs. Francis Johnson, of Dresden, Pettis Co., Mo., Box 71.

Henry C. Crandall, Who Traveled in This Section, Commits Suicide.

The following account of the death of Henry C. Crandall, who traveled through this section for a liquor house a few years ago, taken from the Chicago American of the 9th, will be read with interest by his friends and acquaintances throughout the upper peninsula.

"With a delayed check bringing him the means to live and perhaps to retrieve his fallen fortunes lying beside him on the floor, Henry C. Crandall, once a rich and prosperous speculator of Pasadena, Cal., and uncle of Chester D. Crandall of 2821 Sheridan road, manager of the Western Electric company, yesterday breathed his last at a Curtis street lodging house in the arms of the police, after he had taken morphine.

"In his hand he held a note scribbled with a weak and trembling hand. The words read: "Please forgive me for my act, but I thought it best, and please see that I am not buried in the potter's field."

"This was addressed to his nephew, Chester D. Crandall, who complied with the dead man's request by taking charge of the body.

"Crandall was once a rich man. A few years ago he was well known along the Pacific coast as a successful commercial traveler. When he had gained a comfortable capital he began to speculate in stocks and amassed a considerable fortune. Elated with his success he played for higher stakes and every penny was swept away.

"In an attempt to retrieve his fortunes he went to Buffalo and opened the National Hotel. Failing in this enterprise, he went to the Black Hills to hunt for gold.

"Five months ago, wearied of his repeated failures, his wife took their little girl and returned to her old home in Pasadena. Crandall came to Chicago. He rented a room at 49 Curtis street and worked intermittently at a number of things. He also received remittances from California.

"Last week he asked Mrs. Henrietta Dodge, proprietress at the lodging house, if she could wait for her rent until he received a check from California. Mrs. Dodge replied that she could, but yesterday morning Crandall went to her and said that it had not yet come and talked vaguely of a letter world above.

"The check arrived in the afternoon. Mrs. Crandall, knowing that Crandall was anxious to get it, ran upstairs to give it to him and found the door locked. She burst into the room and found Crandall lying upon the floor, nearly dead, and with a box of morphine by his side.

"Mrs. Dodge summoned the police and he died in their arms a few minutes later with the letter which came too late within reach of his hand.

Negaunee and Vicinity.

(Subscribers to The Mining Journal will please remember that carrier boys are not allowed to receive money on subscription account.)

THE BODIES IDENTIFIED.

Friends of the Victims Came to the Undertaker's Rooms to See Them.

The five bodies removed from the Negaunee mine Wednesday were later identified by friends who called to see them after the undertakers had prepared the remains for the caskets. The bodies are those of William Williams, the foreman; John Sullivan the pumpman; John Pearce, John Pascoe and Louis Mattison.

The funeral of Mattison was held yesterday afternoon. Sullivan's funeral will take place this morning at 9 o'clock. Williams, Pearce and Pascoe will be buried this afternoon. It is not known just when the four bodies still remaining in the drift will be recovered.

MONEY GONE, TAKES POISON.

Henry C. Crandall, Who Traveled in This Section, Commits Suicide.

The following account of the death of Henry C. Crandall, who traveled through this section for a liquor house a few years ago, taken from the Chicago American of the 9th, will be read with interest by his friends and acquaintances throughout the upper peninsula.

"With a delayed check bringing him the means to live and perhaps to retrieve his fallen fortunes lying beside him on the floor, Henry C. Crandall, once a rich and prosperous speculator of Pasadena, Cal., and uncle of Chester D. "Mrs. Dodge summoned the police and he died in their arms a few minutes later with the letter which came too late within reach of his hand.

LOCAL LAONICS.

R. G. Quinn did business at Kenton yesterday.

Mrs. Arland, the milliner, has returned from her purchasing trip.

The hose box of the Negaunee fire department has been placed on wheels.

J. R. McDonald of Lake Linden transacted business in Negaunee yesterday.

Mayor Connors did business down the line of the Chicago & Northwestern road yesterday.

Frank M. Boney has been ill and confined to his home the past couple of days. He is suffering from the mumps.

John Corrigan of Grand Rapids, a shirt man who is well known in this section, is here calling on his patrons.

William Manley, roadmaster of the Peninsula division of the Chicago & Northwestern system, spent yesterday in Negaunee and Ishpeming.

Henry Anderson, the blacksmith, is equipping a number of buggies with rubber tires. He is the only person in Negaunee doing that kind of work.

Thomas Sullivan and his family came down from the Gogebic range Thursday to visit at his home here, the late John Sullivan, which will take place this morning at 9 o'clock.

Extra seats have been provided at the Marquette Opera House for Sousa's band concert this evening, and the management states it will be able to find places for all who wish to hear the famous musical organization.

The improvement work at the building occupied by J. M. Perkins is delayed on account of the non-arrival of some iron fittings. The fittings were received here, but they were not what the contractor ordered and he sent them back to the factory. The new pieces are expected here daily, as the manufacturers were instructed to rush them. Meanwhile the work is at a standstill and the store is not in the shape that the proprietor wishes to have it.

New radishes, lettuce, beet greens, parsley, water cress received from the grower every day. Also a full line of fruits and vegetables at George Haupt's grocery. Both 'phones. (12-74)

Upper Peninsula.

Ontonagon's fine school buildings were flooded with water one night recently and as a consequence the school for two days. All of the rooms in both buildings were given a copious bath and considerable damage was done to the books and other supplies.

The health officer of Garden township, Delta county, has notified the state board of health that he will throw up his job. He says that the other physicians of the place deride him for diagnosing certain eruptive disease as small-pox and under the circumstances he cannot do effective work.

The Pittsburg & Lake Superior Iron company of Escanaba has been doing a large cedar business this winter, employing from 600 to 800 men most of the time. Besides large stocks of poles, timbers, etc., it has been cutting considerable pine which is sold in the log to lumber companies.

It is reported at Iron Mountain that two postoffice inspectors are in the city, in fact have been there for the past few days, trying to get trace of a lost registered package. The package, it is said, contained \$3,000, and was sent from Milwaukee to Iron River and has been traced to Iron Mountain.

Rheumatism

The liniment bottle and flannel strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old Rheumatism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with irritating matter that settles in the joints, muscles and nerves, and liniments and oils no nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood.

SSS is a perfect vegetable blood purifier and most exhilarating tonic. Our physicians will advise, without charge, all who write about their case, and we will send free our special book on Rheumatism and its treatment.

IS SCIENCE HALL

NEW BUILDING AT NORMAL NEARLY FINISHED.

READY EARLY IN SPRING TERM

STRUCTURE TO BE A MODEL OF ITS KIND.

Arranged Especially for Work in Science and Will Be Equipped in the Best of Style—Details Concerning It.

The new building at the Northern Normal school is rapidly nearing completion and will be ready for occupancy early in the spring term. With the exception of a few recitation rooms to be utilized temporarily by other departments, the building will be used exclusively for the work in science.

On the north side of the basement, is the heating and ventilating plant. South of this are the rooms for chemical storage, the dark room for photographic work and the large physical laboratory. Here are being constructed the pillars and masonry supports for the delicate instruments to be installed later; and these will then be free from the vibrations of the floors.

The first floor is to be devoted to chemistry. It will have a large laboratory, well lighted and ventilated, provided with hoods, gas and electric fixtures, and carefully planned to accommodate students at work in this department. Connected with it will be the supply room and balance room. On this floor, too, is a recitation room equipped for conducting class work in chemistry. The seats are to be raised in amphitheater style, so that all students may readily see the large demonstration table, which is to be provided with pneumatic trough, gas and electric connections to carry on all experiments needed to illustrate the lectures on chemistry.

The second floor is to be devoted to biology. The large laboratory will be equipped with tables for microscopic and anatomical work, and will be provided with cases for the display of synoptic collections of animals and plants. There will open off from the laboratory a store room, supply room, and a work room. The "growing" room will project from the southeast corner. Its sides and roof are of glass, and it will be provided with extra radiators so that needed material may be kept alive all winter for work in botany and zoology. On this floor also there will be a recitation room to be equipped with charts and models for teaching the biological subjects. In the southeast corner of the building is to be used for the psychological laboratory and recitation room. Temporarily the departments of history and geography, and of mathematics will have their rooms in the new building, and these rooms will be fitted up with the needed chairs, maps and apparatus.

The several recitation rooms will be provided with electric connections so that the stereopticon can be used in them for illustrative purposes. Throughout the building is wired for electric lights and piped for fuel gas.

IN "THE MOUNTBANK"

Frederick Ward to Appear at the Opera House Wednesday.

On Wednesday, March 19, at the Marquette Opera House Frederick Ward, the well known tragedian, will present his famous play "Hephloigor, the Mountebank." It is now some forty years since the great play was pronounced one of the best acting plays of the modern stage and during that interval nothing has been produced to render this criticism less just. The time of the play occurs during the reign of the French King Louis XVII. The first act deals with the arrival of the itinerant mountebank and his family at the "Fleur-de-lis," during a fete, and shows that, while to the world he may be a buffoon, he has a heart capable of the noblest sentiments. In the second act he is the unaffected and loving husband and father in the bosom of his family. Nothing could be more amusing than the break-fast scene, or more pathetic than the ending of this act, where he learns of the flight of his wife and child. But a more forceful, if less touching, effort is reserved for the climax of the third act. Here nothing could exceed the variety of light and shade in this vivid picture of gay old France, with King XVIII restored to the throne and crowds of the nobility returning to their estates and prerogatives and plunging again into their old life. The play is full of clean comedy, deep and delicate pathos, and situations of great intensity. Mr. Ward is seen at his best as "Hephloigor" and he is surrounded by the best company he has yet had. He brings the production here complete and historically correct in every respect.

This is the time to use Rocky Mountain Tea. Keeps you well all the year. Great blood life renewer. 35 cts. Starford Drug Co.

KILLED BY THE CARS.

James McNulty, a Marquette Boy, the Victim of a Fatality.

James McNulty, formerly of this city, was killed by the cars at Proctor Knott, Minn., yesterday morning, the sad news being conveyed in a brief message received by relatives here. Other than that death had ensued two hours after the accident, no details of the fatality were given except that it had occurred at the place where previously stated in this article and that it had happened on the Duluth, Missabi & Northern road, on which line Mr. McNulty was employed either as a conductor or brakeman on an ore train. The deceased was twenty-five years of age, and left here about five years ago, going to the Minnesota iron district. Miss Agnes McNulty, of Gooding & Ormsbee's store, was a sister and the only member of the family residing here, though other relatives also live in Marquette. The remains will arrive here at 5 o'clock tomorrow morning and the funeral, which it takes place will probably be under auspices of the Truismen, in which order Mr. McNulty held membership. Aside from Miss Agnes, the deceased is survived by Mrs. Charles Heimstreet of Detroit, Mrs. E. J. Butler of Ishpeming and Miss Elizabeth McNulty of Ishpeming, sisters, and Thomas, Martin and Lee, of Duluth, John of Sault Ste. Marie, Peter of Chicago and Raymond of Ishpeming. Together, James was born in Marquette, and his parents, who have been dead for some years, are interred here.

TRAINS BLOCKADED.

Three Years Ago Yesterday Saw the Worst Blizzard in Years.

The balmy, June-like weather experienced yesterday was in striking contrast to the blizzard which occurred here three years ago. The 13th of March, 1899, came on Monday, and circuit court was in session. On Saturday, the 11th, the case of Thomas Sullivan vs. the Ross Estate was being tried before a jury, and at the close of the day the jurors residing up the road were permitted to return to their homes to spend Sunday. That day a severe blizzard—the worst in several years—set in, and raged with great fury all night and throughout Monday. The jurors on Monday attempted to get down to Marquette, but it was an impossibility. The South Shore being blockaded almost from end to end and it being out of the question to run the trains anywhere near on time. The street car line, also, it will be remembered, was snowed in so badly that it required a couple of days' hard work with an extra force of men before the traction service could be resumed. With the jurors unable to be in attendance at court, Judge Stone had of necessity to postpone the continuation of the case for one day, and it is so recorded—"adjourned for one day because of non-arrival of jurors; blockade on railroads" being the interesting entry which brings to mind the great storm. Yesterday—just three years later—was like a day in the latter part of spring, the only indications of winter being the snow scattered here and there on the sides of some streets where protected somewhat from the sun.

BUYING IS ADVISED.

Hayden, Stone & Co. See Better Market Ahead for the Coppers.

Hayden, Stone & Co., wiring the Laidley Commission company yesterday, predicted better things in the copper stock market. Its daily letter said: "We should think it a fair gamble to buy some of these coppers for a turn after these declines. There is very little pressure to sell and a fair rally is due. They are having a fine cat and dog time at the Osceola meeting. Lawson and his lawyer started asking questions and President Bigelow replied that 'this was not a court of inquiry.' No further details as yet."

Paine, Webber & Co. said: "The coppers are being depressed by the heaviness of Osceola and Tamarack and by the manipulation of Amalgamated. For a few days to come it is difficult to guess which way the market will fluctuate. Action on the Amalgamated dividend has been postponed for a month. Bear traders believe that they will be able to hold the market down until after the annual meeting of the Tamarack company is held. There was good buying of Copper this afternoon, the liquidation apparently having its run. If prices run off a little a good opportunity to pick up bargains will be presented."

New York Stocks—Gossip.

Walker Bros., wiring Paine, Webber & Co. concerning the Wall street market, said: "The market today opened steady but there was not much activity except in some of the specialties. Amalgamated Copper was very heavily sold and there was talk of a reduction in the dividend next week. Sugar also broke and the whole market became quite weak. North American was bought by insiders and advanced sharply. Manhattan took quite a jump and short covering helped the price. In the afternoon the market was more active and the prices advanced in most cases. The close was steady, but without much enthusiasm."

A Boston message stated that at the Osceola meeting President Bigelow stated no more copper was being consumed today than there was at 17 cents, and that there was no reason why the prices should have declined. He said the Osceola management had instructed the United Metals Selling company just how to make the company's sale.

Another market dispatch said: "Lawson, Arnold & Co have issued a market letter in which they offer to pay \$85 a share, or \$8,500,000, for the stock of the Osceola company and \$250 a share, or \$15,000,000, for the stock of Tamarack for the alleged purpose of proving their confidence in the value of these securities."

Wheat and Corn.

W. H. Laidley & Co, said of the Chicago grain markets: "Wheat opened slightly under last night upon the contradiction of last night's reports concerning exports. The actual facts proved to be very disappointing—fifteen boatloads instead of fifty sixty-five. After a show of strength early, the market turned weak with scarcely any recovery and closed

1 cent under last night. The receipts here were slightly above the estimates. In the Northwest they were heavy with prospects of becoming more liberal. The primary receipts were heavy and the shipments light, while the clearances were very fair. The Southwest turned heavy seller and exporters report the bids out of line. We look for still lower figures, but would buy upon good breaks.

Corn opened slightly lower, but turned strong upon reports of a better cash demand. Later the market turned weak, in sympathy with wheat, and closed at a loss of half cent for the day. The receipts and estimates here are a little heavier. Any further break will uncover stop orders, which we think means lower prices."

LOOKS LIKE A BIG MINE.

Flattering Showing Made at Sauk's Head Copper Company's Property.

An exceedingly excellent showing has been made of the copper property of the Sauk's Head Copper Mining & Development company, and it is now proposed to do considerable work there this summer with the intention of further proving up the mineral resources of the tract. The property is located about eighteen miles northwest of this city and four miles back of Sauk's Head, near the Daniels exploration. It comprises 160 acres, in Section 6, 40-26.

Already considerable work has been done, with the result of showing the existence of several copper veins and warranting an expenditure for systematic exploratory operations. Test pits have proved that the mineral formation runs through the property and a shaft started on one of the veins has found it a well-defined lode which widens and improves in richness with depth. The shaft was started at an outcrop near the base of a hill and is being sunk at an angle into it about fourteen feet of ground having been cut through when winter necessitated a temporary suspension of operations. Near the shaft the lode was about five feet in width, and at the bottom of the tunnel it is fourteen, with still no indications of the footwall.

The vein matter like that at the Daniels property, consists of a copper ore, well charged with gold and carrying also some silver. A sample was on Tuesday submitted to Chemist F. D. Tower, of the laboratory of the Pioneer Iron company, Carp River, who reports that the ore was rich enough to be mined and treated at a profit, the particular piece assayed running 1.6 per cent copper and gold to the value of \$1.77 to the ton. The sample was taken from the lode near the surface and although excellent in quality, it is being out of the property at the bottom of the shaft.

The vein matter like that at the Daniels property, consists of a copper ore, well charged with gold and carrying also some silver. A sample was on Tuesday submitted to Chemist F. D. Tower, of the laboratory of the Pioneer Iron company, Carp River, who reports that the ore was rich enough to be mined and treated at a profit, the particular piece assayed running 1.6 per cent copper and gold to the value of \$1.77 to the ton. The sample was taken from the lode near the surface and although excellent in quality, it is being out of the property at the bottom of the shaft.

It is felt that as far as the quality of the ore is concerned, especially as it has improved with depth, the company has a property that will yield handsome returns. The width of the property has a good thing, but naturally it is desired to ascertain more definitely the extent of the mineral wealth and for the purpose of procuring funds it has been decided to dispose of 5,000 shares of the stock at 25 cents per share. The King brothers of this city, who are principally interested in the company, hold 90,000 shares, the other 10,000 being owned in Detroit, where the secretary, John G. Krieg, is located at 632 Monroe avenue.

The land owned by the company is heavily covered with timber, of which birch, maple predominates. A river runs through the property, which is available for all necessary purposes and which will give, whenever necessary, ample water power.

The mineral showing certainly is highly encouraging, indicative of a large and profitable mine, and exploratory and development work should not be hampered by lack of funds.

FOR A "BANG-UP" BOAT.

Munising Men Place an Order With Lake Shore Engine Works.

C. H. Worcester, P. E. Stone, Dr. G. A. Truismen and F. S. Case of Munising have purchased what will undoubtedly be for her size the latest and naggiest gasoline launch running in these waters, reports the Munising News. The craft will be twenty-five feet long and 5 feet 7 inches wide. She was ordered of the Lake Superior Engine works and is to be propelled by a six-horsepower Superior gasoline engine and will be built by the Pearson Boat company of Duluth, claimed to be the best makers of such craft on the great lakes. This boat will be unusually staunch, being constructed of white oak and Minnesota spruce. The launch will be throughout with easy yet durable cushions and will be a model craft in every way. The contract calls for the delivery of the boat at Munising by May 15.

NEW INSURANCE AGENCY.

The Marquette National has organized a fire insurance department which will be conducted in connection with the bank with H. C. Davis as agent. The new branch will be known as "the Marquette National Bank Insurance Agency." Several first class board companies will be represented. Further details are pending and will be announced later.

A SEVERE COLD FOR THREE MONTHS.

The following letter from A. J. Nusbbaum, of Batesville, Ind., tells its own story. "I suffered for three months with a severe cold. A druggist prepared me some medicine, and a physician prescribed for me, yet I did not improve. I then tried Foley's Honey and Tar, and eight doses cured me." Refuse substitutes, People's Drug Store.

ONE CONCERT ONLY.

Impossible for Sousa to Play This Afternoon—More Seats.

Manager Bibe, of the opera house, received definite word last evening that it was impossible for Sousa's band to be here in time to give a concert this afternoon, and accordingly the evening entertainment will be the only one at which the famous musical organization will be heard.

Wednesday, when it was seen how great was the desire to attend the concert, negotiations for a matinee were instituted with the "March King's" manager at the suggestion of a number of persons who had been disappointed in procuring seats. However, developed that the itinerary of the band precluded its appearance in the afternoon and the negotiations came to naught.

The band, which is traveling in a special train, appeared last evening at Marquette, and this afternoon a concert will be given at Escanaba. Tomorrow afternoon a matinee is to be rendered at Calumet, being in addition to the regular evening concert, and from the copper country the band goes to Minneapolis. The only time for an extra concert here would be rather early Saturday forenoon, but that could not be arranged because of the schedule and arrangements for the special train service and, besides, a concert at that time of day would be inconvenient.

However, it has been arranged to accommodate more people at this evening's concert than the regular seating capacity and the reserved chairs in the parquet will accommodate. About forty or fifty chairs will be placed on the north side of the stage. Mr. Sousa having wired his permission last evening, and seats for other persons will be provided in the foyer. These, with similar arrangements to be made in the balcony, will furnish seats for about a hundred additional people, assuring that the largest house in the history of the local theatre will greet the "March King" and his musicians. The newly reserved seats will go on sale this evening at the box office. These offered yesterday morning were taken in quick order, and some people left the store disappointed.

The rush for seats for this evening's attraction has now exceeded anything of the kind ever seen here.

CALUMET WON IT.

Maccabees Defeated in the Ball Game Last Evening.

The Calumet Light Guard ball team will return to the copper country today with one victory to its credit out of two games played here. Last evening the Maccabees defeated the Calumet club by the score of 19 to 13. The game was a battling contest and greatly interested the 400 spectators who saw it.

Manist' que Team Walloped.

It will not doubt be surprising news to the ball players here to learn that the "undefeated" Manist' que team bears the distinction no longer. In a game at Manist' que last Tuesday evening, the city nine went down in defeat before the "White Sox" by the score of 12 to 14. The victorious aggregation is a new team, picked from other Manist' que clubs, and is said to be extremely fast, as the result of Tuesday night's match would go to show. It is out for the championship itself, and is ready to hear from the Marquette and the copper country teams.

BRIGHT IDEA.

Railroad Laborer Has the Railroad Crossing Shovel Patented.

Joseph Kubitski, a laborer employed by the Northwestern road at La Crosse, Wis., has shown the world a new kind of shovel that makes millions, and has acted upon the dictates of that stuff. He has patented the shovel used to clean the rails at crossings and which has been in use on the South Shore here for some time. This shovel has been in use for years, but no one thought to take out a patent on it until Mr. Kubitski applied and received the papers. He has notified companies that the use of the shovel is a violation of his rights and has offered to sell his patents for \$100,000.

IRON LANDS TRANSFERRED.

H. O. Young of Ishpeming, in whose name title to iron lands in Richmond township was recently acquired for \$100,000, has transferred the tract, consideration \$1, to the Oliver Mining company, of which he is the legal representative. The lands comprise 640 acres in Sections 27, 28, 32 and 33, 47-26, and the details of the deal were published when the sale was first made a short time ago.

Among other recent transfers of real estate filed for record here, is one involving 160 acres of land in Champlain township, the tract being purchased from E. L. Anderson by Samuel L. Smith for a consideration of \$500. The property is described as being located in Section 28, 49-28.

A HORRIBLE OUTBREAK.

"Of large sores on my little daughter's head developed into a case of scald head," writes C. D. Ishill of Morgantown, Tenn., but Bucklen's Arnica Salve completely cured her. It's a guaranteed cure for Eczema, Tetter, Salt Rheum, Pimples, Sores, Ulcers and Piles. Only 25 cents at Stafford's.

DANGERS OF PNEUMONIA.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. People's Drug Store.

Strictly fresh eggs, 20 cents per dozen. Cameron's creamery.

SPRING AND SUMMER STYLES IN

Gentlemen's Suitings

Now Ready for Your Inspection.

I have a very large stock of Imported and Domestic Woolens for the coming season and ask you to make your selections early while the assortment is complete. Call at once and get your Suit for Easter.

Fred L. Simmons, Tailor.

HAGER BROS. CO., LTD.,

ESTABLISHED IN 1878

FUNERAL DIRECTORS and PRACTICAL EMBALMERS,

118 South Front Street, MARQUETTE, MICH.

NIGHT CALLS: G. W. HAGER'S RESIDENCE: BOTH 'PHONES.

D. Seidenfeld's.

Spring is almost here; it is now just around the corner, and with the coming of this beautiful season we have prepared ourselves better than ever before to supply the people of Marquette and adjoining counties with their merchandise. Every incoming train brings us case after case of new up-to-date merchandise.

DRESS GOODS.

During the past week we have received more than 100 pieces of wool dress goods. They comprise the popular fabrics for spring wear and are culled from the products of the best manufacturers in both hemispheres. When out do not fail to give our dress goods department an inspection if you are intending to buy.

LACE CURTAINS.

"Lace curtains by the thousand" is the common expression used by those who have been shown the mammoth stock we have just received for our spring trade and we wish to say, right here, that never in the history of our curtain business, have there been offered such good values for so little money.

CLOTHING DEPARTMENT.

Men, boys and children will have satisfactory clothing if they will buy it from us. We pride ourselves in up-to-date, ready-to-wear clothing. Sweat-shop goods have no part in the making up of our stock. Everything of the best. We buy on the plan that there is nothing too good to wear, and there is nothing so worthless as shoddy. You can depend upon buying the best of goods when you patronize our store.

SHOE DEPARTMENT.

Once a customer of our Shoe department, always a customer. Our shoe business is transacted on the same basis as our dress goods business, hence, the wonderful increase in this department. We sell shoes to wear; we sell shoes to fit and we sell shoes made of the best leather. No shoddy or cheap workmanship goes into a single pair of shoes bought at our store.

If You Buy it at D. Seidenfeld's it's Good.

D. SEIDENFELD'S STORE,

South Front Street, Marquette, Mich.

PROMPT AND FAITHFUL SERVICE is not the only good feature of Hathway's market. The very choicest meats of all kinds, beef, mutton, lamb, veal, turkeys, capons, chickens, ducks, etc., can always be had here, and everything is delivered just as ordered, in good season and in perfect condition.

FRANK W. HATHWAY,
PALACE MEAT MARKET
