HENRY IN GERMANY

PRINCE ARRIVES AT CUXHAVEN ON DEUTSCHLAND.
CORDIAL GREETING OF EMPEROR
KAISER MEETS BROTHER WITH BATTLESHIP IN ROADSTEAD.
Thousands of Spectators Gather on Quay Where Landing Is Made and Royal Party Is Cheered Wildly.

Cuxhaven, March 18.—The Hamburg-American line steamer Deutschland arrived here at 6 o'clock this evening from Cherbourg, having on board Prince Henry and suite. The Deutschland was met in the roadstead by the German battleship Kaiser Wilhelm II., on board of which was Emperor William. His majesty greeted the prince cordially. The prince boarded the battleship and afterwards started for Kiel.

As the steamer drew near to Cuxhaven Prince Henry received the cordial greeting of the Associated Press in his cabin. The prince said: "I desire to send a last word through you to America to say how deeply grateful I am for the measureless kindness I received while there. I tried to say this before I left, but I want to say again that I am grateful for the cordial and generous manner in which the people and the president of the United States received me."

Concerning his speech in Philadelphia the prince said: "It seemed proper that I should make some such remarks, for there are always some undercurrents running that have to be taken into account. What I said in my Philadelphia speech was precisely the truth."

The return of Prince Henry to German soil was safely accomplished amid all the pomp and circumstance with which the prince's superior treatment has seen fit to mark the successful ending of the prince's American mission. The same good fortune of freedom from untoward incidents which characterized the trans-Atlantic journey continued until the end, and the landing occurred during a period of brilliant sunshine.

Thousands cheer the Prince. The quay was decorated with flags, and thousands of spectators who covered the roofs of the great warehouses and wide slopes overlooking the scene cheered wildly as the prince walked down the gangway from the steamer. Emperor William kissed his brother upon both cheeks and shook hands with the members of his suite, saying a few cheerful sentences to each. In the meantime the guns of the squadron saluted. After this the Marine Guard passed in review, while the band of the imperial yacht Hohenzollern played the national anthem.

his majesty and party. Prince Henry and staff and Commander Beecher boarded the tender, and amid fresh salutes, music and cheering proceeded to the battleship Kaiser Wilhelm II. Upon arriving there the crew of that vessel manned ship to receive the royal personages. Kaiser Wilhelm weighed anchor at a quarter past seven and started toward Kiel.

Before disembarking from the Deutschland, Prince Henry again thanked Captain Albers for the comfort and kindness he had experienced on board, and paid a high compliment to the ship and the seamanlike qualities shown in running her. The prince presented signed photographs of himself and scarf pins surmounted by crowns to Captain Albers, the first officer and to Chief Engineer Barends. When the last mentioned came forward to receive his token the prince said he was glad to meet him and had heard of his bravery during the Hoboken fire, and that neither Germany nor the United States would forget the chief engineer's action.

Press Extends Welcome. Berlin, March 18.—A number of papers here have published editorials welcoming Prince Henry back to Germany and sum up the results of his trip to the United States with great satisfaction. The Post expects a permanent change in the attitude of the German public toward the United States, and says: "We must now cast completely overboard the old legends about American character and civilization. We must admit that beyond the sea and almost in the sunlight of the modern times, a people has grown up, which, in its particular character, can make just claim to be recognized as an equal of the civilized countries. Henceforth our judgment of affairs should not be influenced and controlled by pictures from the wild west of the California gold fields, of New York gambling dens or of the editorial rooms of Arizona."

Political Results Satisfactory. A leading Agrarian organ, the Deutsche Tages Zeitung, admits it is satisfied to a higher degree with the political results of Prince Henry's trip than it expected to be, and says the floating down stream ablaze. The latest estimates place the total fire loss at \$1,000,000.

BIG LOSS BY FIRE

PIER OF PHOENIX LINE AT HOBOKEN, N. J., DESTROYED.
STEAMER BRITISH QUEEN BURNS
BLAZING LIGHTERS DIRECTED DOWN RIVER BY TUGS.
Property on Shore Is Greatly Endangered—Number of Lives Lost Unknown—Damage Estimated at One Million Dollars.

New York, March 18.—The pier of the Phoenix line at Hoboken was destroyed by fire tonight. The steamship British Queen was totally destroyed, several lighters were burned and it looked as though the flames would reach the Holland-American line docks.

The Maasdam, of the latter line, was towed safely into the stream. Men who were on the docks and on the British Queen when the fire started, assert many lives were lost. Some longshoremen were imprisoned in the ship and some sailors sleeping in the fore-castle of the British Queen did not get out.

CORRUPTION OPENLY CHARGED.

Debate in House of Commons Causes Acrimonious Exchange of Words.
London, March 18.—A debate this evening in the house of commons on a motion by the Liberal leader, Sir Henry Campbell-Bannerman, for the appointment of a committee to investigate the whole commercial history of the South African war, including the contracts for the purchase of 'remounts, meats and forage, and the contracts for freight and transportation, called out several acrimonious exchanges of remarks. Corruption was openly charged, bringing Lord Stanley up with an angry denials. Lambton, a Liberal unionist, engaged Stanley in a hot exchange of words, and the speaker called both to order. Norton, an advanced Liberal, declared the losses on the transport of each column in South Africa amounted to from £70,000 to £100,000.

When challenged regarding his authority for the statement, Norton said Broderick, the war secretary had ordered the departmental committee to investigate the matter and had had them the pigeon-holed evidence.

INSURGENTS ARE VICTORIOUS. Venezuela, Supported by Steamer Bolivar, Capture a Town. Port of Spain, March 18.—A force of Venezuelan insurgents, supported by the revolutionary steamer Bolivar, captured the town of Juan Griego, island of Margarita, yesterday and afterwards moved on the town of Anaco, capital of the island. The Venezuelan government troops were defeated. There is every indication that the insurgents will soon be masters of the whole island.

They have killed or captured all the mandarins and have looted the town. General Ma attacked the rebel strongholds but after an engagement of two days was forced to retreat. The rebels then established headquarters at Fang Sheng. The rebellion is spreading rapidly in the provinces of Kwang Si, Kwang Tung and Yun Nan.

Disorders incident to the human frame, of which a majority are caused or promoted by impure blood.

Take Hood's Sarsaparilla. That this medicine radically and effectively purifies the blood is known to every druggist, known to hundreds of thousands of people who themselves or by their friends have experienced its curative powers.

The worst cases of scrofula, the most agonizing sufferings from salt rheum and other viler blood diseases, are conquered by it, while those cured of boils, pimples, dyspeptic and bilious symptoms and that tired feeling are numbered by millions.

The Boer general who captured Methuen is of French Huguenot ancestry, and his name is properly spelled De la Rey.

An alarming statement concerning Chicago's "sky scrapers" was made by General William Soy Smith at an anniversary dinner of the real estate board of that city a few nights since.

An authority on metal market conditions remarks, in speaking of the prevailing activity in the steel industry, that while it shows an amazing and radical change from its state of a year ago at this time, that now existing in it is not without precedent.

Wright's qualifications, as they are well known throughout the district, and the only object in just now mentioning his name is to keep it before the public.

With so many good men to select the nominee from it is plain that the convention cannot make a mistake.

THE DISPUTE STILL ON. The controversy between Germany and England as to which country was our friend and which plotting our discomfiture when we engaged in our war with Spain is still in hot progress.

There are still in America, as there were before 1896, many persons who are convinced that between Germany and the United States friendly relations will always be possible.

It is true that under the pretext of opposing Germany the United States has for some time past pursued objects the nature of which she does not consider it opportune to declare.

It would be idle to speculate as to the complications that will result from this development, or to determine how a policy of political or economic aggression on the part of North America may influence in the course of the world's history.

A GOOD WORD FOR WRIGHT. Taking note of an article in the Iron Mountain Press warmly endorsing Mr. Young for representative in congress, the Evening News of Calumet uses it to direct attention to the fact that Mr. Charles A. Wright of Houghton county is one of the congressional possibilities.

FATALITY AT EAST MINE. Edward Nettle Falls from a Ladder and is Instantly Killed.

Edward Nettle, one of the most skilled and best known miners in the county, met instant death while at work in the "East Mine" yesterday afternoon.

The shaft has not yet been timbered, being a new one that is not yet ready to go into commission, and in falling Nettle struck the rock jutting out at various points along the sides of the hanging.

Some Have Returned to Work, Others Have Left Town. The trammers of the Champion mine who quit work one day last week rather than submit to a slight reduction in the wage schedule are pretty well scattered.

It is said that some of the trammers at the Champion have been earning unusually big pay for some time past. There were times during the past year when some of them averaged better than \$4 per day, while the average of all the trammers has been about \$2.90 for some months past.

WILL CONTINUE WORK. The Silverthorn Lumber company intends to continue operations at its camps out from Champion throughout the spring season, and possibly during the summer months.

A HORRIBLE OUTBREAK. "Head large sores on my little daughter's head developed into a case of scald head," writes C. D. Isbill of Morganton, Tenn., but Bucklen's Arnica Salve completely cured her.

A SEVERE COLD FOR THREE MONTHS. The following letter from A. J. Nusbaum, of Batesville, Ind., tells its own story.

MOTHER GRAY'S SWEET POWDERS For children. Mother Gray, for years a nurse in the Children's Home in New York, treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children.

The camp which Peter LaCrosse had charge of for F. W. Read & Co. was broken up one day last week. Some of the best looking horses seen here in some time came from LaCrosse's camps.

A box car being switched on the main line of the South Shore road here Friday last went into a hand car and completely demolished it. The brakeman who was on the car discovered after it had been given a "kick" by the locomotive that the brake was not in working order. It took nearly an hour to clear the wreck.

M. J. Ryan, superintendent of the Silverthorn Lumber company, does not expect to visit Champion as frequently hereafter as he has done during the winter. (Chas. Woodcock has been given general supervision of the company's operations here. Mr. Ryan is kept quite busy looking after the company's affairs at Rhineland.

FINAL VOTE TAKEN

PAYNE RECIPROcity PROPOSITION IS ADOPTED.

MODIFIED BY SIBLEY AMENDMENT

LIMITS REDUCTION IN RATES TO DECEMBER, 1903.

Large Pending Controversy Finally Determined So Far as the Republican Conference Is Concerned.

Washington, March 18.—The fifth meeting of the Republican members of the house to harmonize the differences on the Cuban reciprocity was held tonight.

Mr. Dick presented a resolution authorizing the president to negotiate for a commercial treaty with Cuba, providing that in consideration of a certain reduction in duties in favor of the United States, he shall agree to pay Cuba each year for three years 20 per cent of the duties paid by the island on goods imported into the United States.

Various Phases of Question Discussed. The speaking was general. Representatives Boutell of Illinois, Sibley of Pennsylvania, Morris of Minnesota, Littlefield of Maine, Burke of South Dakota, Lacey and Hepburn of Ohio, speaking on various phases of the question.

Chairman Payne closed the discussion with an earnest plea for the support of the reciprocity proposition, and moved that the previous question be ordered on all the pending questions. This brought the question to a decisive issue rather unexpectedly, and the voting began amid considerable excitement.

The previous question was ordered by a vote of 78 yeas to 56 nays, which was the first decisive test of strength between the contending elements. The next vote, on the substitute offered by Mr. Dick earlier in the evening, was defeated by 57 to 79. Quite a number of those in the minority then withdrew from the chamber.

Representative Morris of Minnesota, one of the conferees in behalf of the beet sugar interests, offered an amendment taking off the differential on refined sugar. It was defeated by a vote of 50 to 72.

Cleared Way for Final Vote. This cleared the way for a final vote on the reciprocity proposition as brought forward by Chairman Payne, modified by the amendment of Representative Sibley limiting its duration to December, 1903. The vote was taken on these two propositions as a whole, resulting: Yeas, 85; nays, 31.

Immediately following this vote the conference adjourned, and the long pending controversy over Cuban reciprocity was determined so far as the Republican conference was concerned.

GUNS TO GUARD DEAD HEROES. Toledo Will Oppose Attempt to Remove Bodies of Veterans.

Toledo, O., March 18.—An attempt to move the remains of the 600 soldiers who were slain at Fort Meigs during the Anthony Wayne campaign is opposed here, and armed resistance is threatened if the plan is carried out.

Colonel Webb Hayes, son of ex-President Hayes, is here as a government representative for the purpose of looking over the ground, locating graves, and discovering the best method of removal. The question of the purchase of the fort by private persons has died out, and the Society of Maudslayi Pioneers will not listen to a sale. The government has been slow in acting on the proposition submitted for a park and monument. Secretary Root has ordered Colonel Hayes here to look into the question of removal.

The local descendants of the dead heroes, many of whom live here, are intensely angered over this movement, and several of them were heard to say today that if any attempt were to be made, either with or without government force, to remove the remains of the heroes of Fort Meigs, it would be met with armed and desperate resistance. An effort is being made to interest President Roosevelt personally.

CHARGED WITH EMBEZZLEMENT. New York, March 18.—Max C. Mayer, confidential manager for Rathbone & Sons, brokers in this city, was arrested today charged with the embezzlement of \$100,000.

A search for evidence showed the woman had another suit for divorce pending, the defendant being Frederick Foster, also upon the charge of abandonment. Her present attorney says he is at a loss how to proceed in the matter, as a prosecution for bigamy will follow. The woman is only thirty-two years old.

TO SUCCEED RODENBURG.

Civil Service Commission May Be Tendered to H. A. Garfield. Washington, March 18.—It is understood the president has about decided to tender the civil service commissioner's place vacant by the resignation of W. A. Rodenburg to Harry A. Garfield, son of former President Garfield. There is some doubt, however, as to whether he will accept. Should he decline, the appointment may be tendered to his brother, James R. Garfield, who lives at Mentor, the old Garfield home.

AGAINST RAILROADS.

INJUNCTION PROCEEDINGS TO BE STARTED TODAY.

TO PREVENT SECRET RATES.

ACTION TAKEN BY INTERSTATE COMMERCE COMMISSION.

Proceedings Will Be Commenced at Kansas City and Eight Lines Have Been Furnished With Copy of Bill to Be Filed.

Chicago, March 18.—Injunction proceedings will be started in Kansas City tomorrow by Attorney Day of the interstate commerce commission against the following railroads operating between Kansas City, St. Louis and Chicago: Atchison, Topeka & Santa Fe; Chicago, Rock Island & Pacific; Missouri Pacific; Wabash; Chicago, Burlington & Quincy; Chicago Great Western; Chicago & Alton; Chicago, Milwaukee & St. Paul. Each road was furnished with a notice and copy of the bill to be filed.

Secret Rate Is Charged. After setting forth that the accused roads are common carriers and are subject to the provisions of the interstate commerce act, the bill recites that they have made schedules of 2 1/2 cents per hundred pounds on packing house products from Kansas City to Chicago, this being until Jan. 1 the only lawful rate.

Then it is declared the railways involved secretly made a rate of 1 1/2 cents, with corresponding reductions through to New York, and through unlawful combinations received large quantities of packing house products. Later relating to certain shippers the difference between the secret and the published rates.

Then the bill sets forth the facts disclosed at the recent investigation before the interstate commerce commission in this city.

To Stop Payment of Rebates. An injunction, supplemented by a temporary restraining order, is asked against the defendants, restraining them from carrying out any agreement to transport packing house products, dressed meats, grain and grain products, at any other than the published schedule; also to restrain them from departing from the established schedule in the future, and from paying rebates or making any concessions conflicting with the legal rates.

UNUSUAL MARITAL EXPERIENCE. Kentucky Girl, Five Times Wedded, Has Two Divorce Suits on Hand.

Lexington, Ky., March 18.—Five times married and now with two divorce suits pending in the same court and at one time, is the peculiar marital experience of Mary Fields, alias Mary Foster, of this city.

The facts were brought to light today. Under the name of Mary Fields she secured the services of Edward O. Dear, a local attorney, to procure for her a divorce from William Fields on the ground of abandonment.

A search for evidence showed the woman had another suit for divorce pending, the defendant being Frederick Foster, also upon the charge of abandonment. Her present attorney says he is at a loss how to proceed in the matter, as a prosecution for bigamy will follow. The woman is only thirty-two years old.

JENKINS IS CURIOUS

WISCONSIN SOLON ASKS QUESTIONS REGARDING CUBA.

RELATE TO POLITICAL STATUS

WANTS TO KNOW IF UNITED STATES HAS TITLE TO ISLAND.

Resolution Is Introduced Directing the House Committee to Report on the Matter—Proceedings of Senate and House.

Washington, March 18.—Representative Jenkins of Wisconsin today introduced a resolution directing the house committee to report on a number of questions relating to the political status of Cuba, viz:

Is Cuba, as far as the United States is concerned, foreign or domestic territory?

Has the United States exercised sovereignty over the island and people?

Has the United States a title to the island, and if not where does the title rest?

Numerous other questions are asked by the resolution. Mr. Jenkins holds that when the sovereignty of Spain over Cuba ended, it was vested in the United States and cannot be in a suspended condition.

Protection of the President. For three hours today the senate had under consideration the bill providing for the protection of the president, and for the punishment by the United States courts of those who commit assaults on him.

Senator Bacon of Georgia opposed the bill and Senators Ford of Massachusetts and Mason of Illinois supported it. Senator Bacon's argument followed the same line as his speech delivered ten days ago.

Senator Hoar's speech was largely legal and constitutional. He maintained the right of the government to protect itself against assaults upon its sovereignty through the president. Senator Mason made an attack upon analogy, and his methods and incidentally shared by criticized an amendment to the bill offered by Senator Bacon. He denounced it as opening the door to special pleading for the benefit of assassins of the president. This drew Senator Bacon's fire. He considered Senator Mason's criticism a personal attack on himself, and resented it with heat. An explanation by the Illinois senator cleared the atmosphere.

Earlier in the day a lively debate was precipitated by the effort of Senator Rawlins of Utah to have printed as a document some of the Philippines correspondence. Evidently the matter was ordered printed as requested.

Election of Senators by Direct Vote. The senate committee on privileges and elections today began the consideration of the house resolution providing for the election of United States senators by the direct vote of the people, but beyond hearing the views of several members of the committee made little progress. The committee decided to meet regularly hereafter on Tuesday of each week and continue the consideration of the question until a vote is reached.

The oleomargarine bill is to have the right of way in the senate and will be followed by the Chinese exclusion bill. The time for the consideration of the Nicaragua bill has not been decided upon.

Senator McMillan today introduced a bill providing that the paper currency of the United States, except bank notes, shall be in a form known as post checks. The purpose is to secure safer currency for sending through the mail.

River and Harbor Bill. The general debate on the river and harbor appropriation bill in the house was continued today by Representative Hepburn, who made his annual onslaught on the measure. Contrary to his usual custom, he found several things in the bill to commend, although some of his criticisms were quite severe.

Other speakers today were Messrs. Ball of Texas and Lawrence of Massachusetts, both members of the committee, and White of Kentucky and Thompson and Barnett of Alabama, who spoke in favor of improvements of interest to their districts. It was agreed the general debate should close tomorrow at 3 o'clock. Saturday, April 26, was set aside for memorial services on the late Representative Stokes of South Carolina and the late Representative Crump of Michigan.

The general immigration bill, accepted by the committee on immigration and naturalization, was reported to the house today with the recommendation that it be passed.

NEW SCHOOLS IN CUBA. Since the American occupation of Cuba 3,000 new schools have been opened, and many reforms have been brought about in their educational system. Some idea of their work can be obtained from their exhibit at the Pan-American exposition, for which they were awarded five gold and four silver medals. This is certainly a wonderful record, and one we should all be proud of. There is also a wonderful record behind Hostetter's Stomach Bitters, the famous American remedy for indigestion, dyspepsia, flatulency, biliousness, nervousness and insomnia. If you are troubled with any of these ailments we would urge you to try it. It is also a splendid blood purifier, and should be in every household. Our Private Stamp is over the neck of the bottle.

NEW YORK STOCK MARKET.

Recent Character of the Market Shows No Material Change.

New York, March 18.—The recent character of the stock market was not materially changed today. Speculative incursions into the field of usually important stocks were few and desultory in character. North American jumped about in a good manner at the close, and found a support after the recent heavy decline. Much of the buying was attributed to the demand from the shorts to cover. Sugar on the other hand was reactionary on account of the dispute over the reduction of the tariff on Cuban sugar. An instance of this was the Standard Oil dividend continued to be paid on the 14th of the month, and the selling of Pacific Mail on the passage of the ship subsidy bill by the senate.

The condition of the money market was quiet and there was a belief current among the speculators that the distribution of the Standard Oil dividend furnished the resources for a good deal of the buying. The payment on Friday next of the United States Steel common dividend was looked forward to with hopes of a similar influence. There was very little actual change in the condition of the money market.

The large bond redemptions forced by the treasury's notice of the suspension of its offer have given the banks a good gain from the sub-treasury operations to start the week with; but the removal of this resource in case of future stringency still to be considered.

Have you any of the following symptoms: Backache, frequent urinating, fluttering of the heart, nausea, vomiting, a dry, harsh skin, fever, coated tongue, extreme thirst, sickle appetite, acid bitter taste, deposit of mucus after urination, sour stomach, dropsical swelling, loss of memory, scalding sensations, and constipation. If you experience any of these symptoms, begin at once with Paine's Celery Compound, which will quickly put to flight all symptoms of disordered kidneys. It is nature's true remedy, the only one you can rely upon with certainty of cure.

Mr. Albert Bowers, 84 North Thirtieth St., Newark, N. J., writes: "Some two years ago I suffered from kidney disease, during which time I had two doctors, neither of whom could do me any good. It was not until I used Paine's Celery Compound that I found relief. I had no strength, energy, or ambition, and was nervous and irritable. I was all run down and lost about forty pounds. I felt that the end was near, when a friend suggested Paine's Celery Compound, and I have the great medicine to thank for my restoration to health."

INTERESTING TO LIQUOR MEN.

Retailer Cannot Sell More Than Three Gallons at a Time.

The following from the Detroit News concerning a little known statute has been called to the attention of The Mining Journal, and is republished for the information of the liquor dealers:

What is said by local retail liquor dealers to be a conflict between federal and the state law may get many of them into trouble, through alleged lack of knowledge of a change in the provisions of the matter. Complaint against a number of dealers are ready in the hands of Deputy Sheriff John Troy. The charge is that of selling liquor wholesale at a retail license. The offense arises from the fact that the federal law provides that a retailer must not sell in larger quantities at one time than four and seven-eighths gallons. The Michigan law limits the amount to three gallons, though most brands would contain the required twelve quarts. This wholesaler sold a case of the Canadian product. "Each state fixes its own liquor tax," said Deputy Troy. "None of the retailers against whom complaints on the charge of selling in wholesale quantities have been made will care to come into court and plead ignorance of the law. The present state law has been on the books for several years."

For selling spirituous or intoxicating liquors at retail or wholesale in Michigan, a tax of \$500 is exacted. For doing both a wholesale and retail business a tax of \$1,000 is required. Deputy Sheriff Troy has succeeded in getting from \$7,000 to \$10,000 into the coffers of Wayne county from dealers who had neglected to pay the extra \$300 and from concerns doing business in Detroit and paying hereof no tax at all. Among these are the Anheuser-Busch company, the Pabst company and the Walkers, of Walkerville.

LAND DECISIONS UPHELD.

The local land office is advised from Washington that the commissioners of the general land office have sustained the action of the Marquette authorities in the following homestead contests:

- John R. Thomas vs. heirs of George Oakley, involving 120 acres in Houghton county.
- Mary Kane vs. Adam Kane; 160 acres in Houghton county.
- William Johnson vs. Lovett T. Murphy; forty acres in Mackinac county.
- Thomas Hodges vs. Albert Hamrick; 100 acres in Houghton county.

In all these cases, the local officials decided in favor of the contestants, the claims of abandonment having been proven, and their recommendations are now upheld. The contest of Mary Kane vs. Adam Kane was a case of wife against husband; the latter having deserted his family, it is said.

This week the Marquette office has taken action on a case involving 160 acres in Baraga county. The tract was entered by Hedeche Pichee and contested by Frederick Lambberg. The decision was in favor of the latter.

FAMILY CARES.

This Information May Be of Value to Many a Mother in Marquette.

When there is added to the many cares inseparable from the rearing of children that affliction of weakness of the kidneys and auxiliary organs the mother's lot is far from a happy one. This condition can be quickly changed and absolutely cured by the use of Doan's Kidney Pills. When this is known the mother's burden will be lightened and her home happier.

Mrs. L. W. Bissell of 71 Park street, North Kalamazoo says: "My little brother has been troubled with a kidney and bladder weakness ever since he was a baby. The muscles of his bladder seemed to weaken and nearly every night he wet his bed. I did not know what to do for a long time but at last I decided to try Doan's Kidney Pills. I got a box at a drug store and they helped him so much that we kept on giving them to him until he had used five boxes. He gained right along and now is as strong and healthy a looking boy as one can see. Both my husband and I are much pleased with this remedy and believe it is excellent for all such ailments."

Just such emphatic endorsement can be had here in Marquette. Drop into the Stafford Drug Co. and ask what their customers report. Sold for 50 cents per box by all dealers. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

Few if Any Marquette Elks to Journey to Salt Lake.

Representatives of the various Elks' lodges of the upper peninsula will meet at Ishpeming on Friday for the purpose of making definite arrangements for attending the annual convention of the order, to be held in Salt Lake City, in August. It is proposed that the Calumet & Hecla band accompany the party. A special train would give the Elks who go to Salt Lake City an opportunity to stop at various points of interest, including Colorado Springs, Pueblo, Deadwood and Pike's Peak. As far as Marquette Elks are concerned, these things will be the scheme, but at present writing few if any are contemplating making the trip.

MINER MEETS DEATH.

Workman at the Salisbury Instantly Killed by a Fall of Ground.

Charles E. Anderson, an old resident of Ishpeming, met death at the Salisbury mine Saturday night. He was caught by falling ground, while engaged in his regular work.

Deceased was about forty years of age, married, and is survived by his widow and five children. He had resided in Ishpeming quite a long time, was industrious and a good provider. The funeral took place yesterday afternoon. The coroner's jury in the case met yesterday and returned a verdict of accidental death.

Timber Boss Has Close Call.

H. D. Harvey, an old employe of the Lake Superior Iron company, came within an ace of being killed yesterday afternoon at the company's Lake mine. He was struck and knocked down by a moving tram car, falling across the track, and was pushed along a few feet, though the weight of the car did not come upon him. The man at the brake was prompt to act and succeeded in bringing the car to a stop soon after Harvey fell. Had it not been for this he would doubtless have met death beneath the wheels.

Harvey was employed as timber boss at the mine and is one of the best known workmen in the employ of the company. His home is on South Pine street, near the mine.

ENTHUSIASTIC MEETING.

Was That Held by Ishpeming Hibernians in Honor of St. Patrick.

The joint meeting of the A. O. H. and the Ladies' auxiliary held Monday evening in Anderson's hall was the most enthusiastic gathering of Irish people that this city has witnessed in years, and has paved the way to frequent meetings of this kind in the future.

President Kennedy of the local lodge presided. Irish sentiment was mingled with Irish wit and Irish music as the different members of the A. O. H. and the Ladies' Auxiliary responded to the call of the chair. Historical Ireland and a review of that country's present condition was the chief topic and the inspiration of the speakers of the evening, each of whom emphasizing the importance of a thorough knowledge of the story of Ireland, and of encouraging the revival of Gaelic literature, customs and art that is now making such headway throughout the world.

Specifically he advocated the purchase of books showing the Gaelic matters by the A. O. H. and the Ladies' Auxiliary, to compose a local library, and from the enthusiastic manner in which this idea was indorsed it is a certainty that the matter will be acted upon. The reports of the presidents of the local lodges show the societies to be in a flourishing condition.

LODGES ARE FLOURISHING.

Jacob Kaminen, who spent a couple of weeks down the line of the Soo road in the interest of the Finnish Temperance society, reports that he found the lodges in the several places he visited, with just one exception, in a flourishing condition. The largest lodge is at Copper Cliff, Canada, where the membership is over one hundred. When it is considered that the lodges are new in most of the places he visited, the showing is very fair. Mr. Kaminen spoke to large gatherings at all the towns and enjoyed his trip very much. He was nicely entertained by his countrymen and was pleased to find that they are getting along well.

WILL PAY THE LOSSES.

Roy W. Smith, manager of the Miners' National Bank Insurance agency, will go to Ontonagon tomorrow to settle a loss caused by fire at McMillan Bros' mill, which was damaged by fire on the first of this month. This is a case where the insurance companies get the worst of the deal. Mr. Smith was at Ontonagon the day before the fire, so that the two policies he wrote were in force just one day when the fire occurred. The amount to be paid the firm is \$2,900.

WHEN THE CHIMNEY

is choked with soot, the fire languishes and goes out. When the bronchial tubes are choked with phlegm, the name of the tickers. Intelligent treatment with Allen's Lung Balsam brings up the phlegm, allays inflammation, stops the cough and puts in the chest and, in a word, overcomes those terrible colds which if neglected soon become consumption.

We will be pleased to have the ladies call and see the display of millinery goods, etc. Prices are most reasonable. Finnish Mercantile association.

STOCK COMPANY ORGANIZED.

The Consolidated Fuel & Lumber Company Is Now Doing Business.

The stockholders of the Consolidated Fuel & Lumber company, which has acquired the wood, coal and lumber business of F. W. Read & Co. and F. Braastad & Co. in this city, met Monday afternoon and elected the following directors: Fred Braastad, H. P. Bronson, George Nowitz, B. Miner, D. McVie, H. F. Heyn, H. H. Mildon, James Clancey and H. O. Young.

At the conclusion of the stockholders' meeting the directors met and elected the following officers: Fred Braastad, president; H. F. Heyn, vice president; A. B. Miner, secretary; R. P. Bronson, manager and treasurer.

The corporation is organized with a capital of \$50,000 at a par value of \$10 per share. Several of the local business men have taken stock in the corporation, though a number did not get as large blocks of it as they desired. All realize that the concern will do a very large business and it is certain that the stockholders will receive good interest on the money invested.

The business of the corporation will be conducted from the office formerly occupied by F. W. Read & Co. The enterprise begins doing business at once. All orders received at the office of F. Braastad & Co. will be turned over to the new concern.

A. W. Johnson, who has been in F. Braastad & Co's employ for some time past, goes with the Consolidated company. Fred Williams, who has had charge of F. W. Read & Co.'s affairs at Negaunee, comes here to take a place with the concern, and Robert Fox, who has been with Braastad, but formerly with the mine on contract and also supplies his workmen and their families with merchandise. The combination is one that works well and the captain will doubtless come out of the district a winner. John Wills will look after Mr. Quayle's business in this city.

ISHPEMING IN BRIEF.

W. G. Carah was down from Hancock yesterday.

A. K. Sedgwick is down from Ironwood on a business mission.

Thomas Simons, agent of the Monomine Brewing company, is supplying his patrons with hock beer.

Alex. Nelson, the ice man, is desirous of selling his residence property at the corner of North and Fifth streets. The house contains eight rooms and a couple of large halls.

J. C. Altschwager advertises in this issue for a blacksmith, one who can do all kinds of shop work. He has a steady job at big wages for the right man. Mr. Altschwager's shop is quite a busy place at this time.

Carl Muller will pay a liberal reward for the return of a watch chain he lost Sunday night, either in this city or Negaunee. It was a fob chain and was quite valuable. A description of the chain can be found elsewhere in this issue.

The ladies of Grace church will conduct a sale of cakes, pies, pasties, etc., at H. F. Heyn's store on Saturday next, commencing at 10 o'clock. They will be pleased to have their friends call. A large assortment of pastry will be sold at reasonable prices.

There will be a meeting this evening at 8 o'clock of the three representatives from each ward of the Young Citizen's Political club. The Scandinavian society's hall on Second street has been secured for the meeting. The officers of the club desire all the ward representatives to attend. The question of placing a ticket in the field at the municipal election will doubtless be taken up and disposed of definitely at this meeting.

Richard Quayle has gone to the Helen mine in Canada, where he will keep the books at the mine and store being conducted by Captain Arthur Buzzo for the Clergue syndicate. Mr. Buzzo is working the mine on contract and also supplies his workmen and their families with merchandise. The combination is one that works well and the captain will doubtless come out of the district a winner. John Wills will look after Mr. Quayle's business in this city.

CAUSE OF DEATH UNKNOWN.

The coroner's jury in the case of Alex. Dishno, the lumberman who died suddenly in a saloon here Monday afternoon, met yesterday. A number of the men who were in the place at the time the man died were called as witnesses. When all the testimony was in the jury returned its verdict, which was to the effect that Dishno met his death from an unknown cause.

The funeral of the deceased will be held this morning. Interment will take place in the Ishpeming cemetery.

CANCEROUS ULCERS

Are in many respects like other ulcers or sores, and this resemblance often proves fatal. Valuable time is lost in fruitless efforts to heal the sore with washes and salves, because the germs of Cancer that are multiplying in the blood and the new Cancer cells which are constantly developing keep up the irritation and discharge, and at last sharp shooting pains announce the approach of the eating and sloughing stage, and a hideous, sickening cancerous sore begins its destructive work.

No ulcer or sore can exist without some predisposing internal cause that has poisoned the blood, and the open discharging ulcer, or the festering sore on the lip, cheek or other part of the body will continue to spread and eat deeper into the flesh unless the blood is purified and the Cancer germs or morbid matter eliminated from the circulation.

S. S. S. cleanses the blood of all decaying effete matter. It has great antitoxic and purifying properties that soon destroy the germs and poisons and restore the blood to its natural condition. And when pure blood is carried to the ulcer or sore the healing process begins, the discharge ceases and the place heals over and new skin forms. S. S. S. is a strictly vegetable blood purifier containing no mercury or minerals of any description.

If you have an ulcer or chronic sore of any kind, write us about it, medical advice will cost you nothing. Books on Cancer and other diseases of the blood will be sent free.

SAVES LIFE

Willard, Ill., August 1, 1896.

I was in bad health this spring and could not sit up in bed for four weeks. When I was confined my child died. When I began to sit up I felt so weak and had such terrible pains in my back and hips. I had kidney trouble and falling of the womb. I was in a bad condition when I received your "Ladies' Birthday Almanac" and read the advertisement of Wine of Cardui and Theodor's Black-Draught. Since April 20th, I have taken four bottles of Wine of Cardui and three packages of Theodor's Black-Draught. I feel like a new person now. I can do all my work and can walk out to see any of my neighbors. I believe I would have been in the grave had it not been for Wine of Cardui. IT SAVED MY LIFE.

It is well that women are more patient than men. Few men could bear the bitter pains, the agony and distress that women endure. Thousands of women have come to look upon suffering as a duty of their sex. But there are many instances of this heroic fortitude which

WINE OF CARDUI

now renders unnecessary. Women need no longer suffer for modesty's sake. Wine of Cardui brings relief to modest women in the privacy of their homes. Many of the best homes in the city are never without this great medicine. It cures whites and falling of the womb and completely eradicates these dragging periodical pains. Mrs. Davis' cure shows you conclusively what you may expect if you follow her example and take Wine of Cardui. Theodor's Black-Draught aids Wine of Cardui by regulating the stomach and bowels. When you ask your druggist for these medicines, be sure you get them. It was Wine of Cardui and Theodor's Black-Draught that saved Mrs. Davis' life. Never take a substitute.

in development on the ledge and a complete five stamp mill, with all other necessary machinery ready to run.

The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c per share, paid capital stock 1,000,000 shares (par value \$1.00) each, fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth par inside of six months. This is the best investment for the money that has ever been offered to the investing public. Do not lose this opportunity. It will never come again.

GREAT DEVELOPMENT.

In Florence—The Splendid Showing of the Banner and Ozark Has Stimulated All Other Mining Enterprises.

J. N. Taylor, United States Mineral Surveyor, has just come down from Florence and reports great activity in the camp and that there is more development going on at the present time than there has ever been before in central Idaho.

In an interview with The Star reporter, Mr. Taylor said: "The Banner is working sixty men in getting their mine ready to start as soon as the hundred ton mill they are putting in is completed. This property has developed into a great mine, I believe the largest free milling gold mine in the Northwest. They have twenty-seven feet of \$14.00 ore in one drift, and twenty-three feet of \$96.00 ore in another drift. This property was bought by a New York syndicate composed of Henry Clogs, Arubuckle Bros., and others a short time ago for two hundred thousand dollars, and the value of the property today is hard to estimate as they

LITTLE POLITICAL TALK.

No One Anxious to Fill Mayor Connors' Shoes.

Candidates for the majority are not very numerous in Negaunee this spring. The leaders of the opposing factions have not yet settled on the men who will head their tickets. There will be two tickets in the field, though it is a question if two candidates can be secured to head them.

It is understood that some of the politicians will get together before the close of this week with a view to formulating plans for the campaign. Men to be named for the more prominent offices will likely be decided on at those meetings. The caucuses have not yet been called but they will probably be held next Monday evening.

The names of Robert G. Jackson and Edward C. Anthony are mentioned for the mayoralty, but it is said that neither of these gentlemen is anxious to make the run.

Mayor Connors would have no difficulty in securing the nomination on the Taxpayers' ticket if he would say that he will accept it. Mr. Connors thinks he will be quite busy enough the coming year with his office work, he says he would prefer to have some other man take the mayoralty.

The men who have the work of arranging for the firemen's tournament in hand are eager to have Connors in the executive chair the coming year. He has manifested such an interest in the event that they would like to have him continue at the head of the municipal government as he can be depended upon to push the good work he has started.

Messrs. Jackson and Anthony are also very much interested in the proposed tournament and if either succeeds Mayor Connors, tournament affairs will be given proper attention. Both are members of the tournament executive committee.

MERCHANTS AND CLERKS MEET.

Seventeen Business Men Have Agreed to Close Early.

The joint meeting of the merchants and store employees of Negaunee, held Monday evening at the A. O. U. W. hall for the purpose of discussing the o'clock closing proposition, was well attended. The representation of business men was quite as large as had been anticipated, while there was hardly a clerk absent.

The meeting was presided over by James Curley, in the absence of Louis Greenier, president of the Clerks' union. All the business men present were heard and not one of them opposed the movement. All said they favor closing at 6 o'clock two evenings a week, but should such a plan be agreed to by all the merchants it must be understood that the rule shall be adhered to strictly.

A committee of three business men was named to call on the merchants who did not sign the petition circulated a few weeks ago by a committee representing the clerks. George Haupt, Ike Rosen and Joseph Winter were named as such committee. Seventeen of the business men have placed their names on the list, so there remain but a few to be mustered into line for early closing.

Louis Greenier sent in his resignation as president of the union and it was accepted. Samuel Pearce was chosen to succeed him.

Upper Peninsula.

The Ironwood Times learns that a representative of Frank P. McClure of Chicago, the opera house promoter, was in the city recently for the purpose of ascertaining the sentiment of our people regarding the building of a modern opera house in the city. He had a short conference with a few of the business men, but nothing definite was done, and he left with the understanding that he was to return in a short time to look into the matter thoroughly. His firm has just completed arrangements for the election of an opera house at Ashland, work upon which will be begun in the early spring. It has also built a number of opera houses in surrounding cities. In their plan the promoters require the people of the city to subscribe one-third of the cost of the opera house in tickets for the opening performance at ten dollars each. For instance, the people of Ashland have subscribed for one thousand tickets at ten dollars each for the opening performance to be given in the new house, and the firm guarantees to build a house up-to-date in every way, and to cost no less than thirty thousand dollars. It also agrees to employ home labor in the construction of the same, as far as possible. The Times finds much sentiment in favor of the building of an opera house at Ironwood and believes that the scheme could be successfully carried out.

Henry Herman, as assignee of the Plankinton bank, has applied to Judge Halsey of Milwaukee for leave to sell a quantity of pine land in Gogebic and Ontonagon counties to the George E. Foster Lumber company of Merrill for \$4,200. The matter was set for argument April 7. The land in question is known in the Plankinton bank litigation as the "Michigan land." Assignee Herman found that part of the Gogebic land has been sold under foreclosure and that five years' taxes had accrued. In order to save the title he had the foreclosure sale set aside and the lands redeemed at an expense of \$1,200.

An attempt was made by Assignee Herman to surcharge the \$1,200 item against the account of Assignee William Plankinton on the ground that his negligence had made the expense necessary. Judge Siebeck decided against Assignee Herman in the case, holding that the Michigan lands were of little value; that there was slight chance that they would become valuable for some years; and that nothing had been shown warranting a charge of negligence against Mr. Plankinton in connection with them. The two tracts of land to be sold aggregate 1,180 acres, which the lumber company has agreed to purchase at the price given if a clear abstract of title can be given.

There is a move under way at Escanaba to secure a Carnegie library, and that it will prove successful there seems little room for doubt. The prime mover in the project is Mayor Murray K. Bissell, and so far advanced is the matter that it is almost safe to assert that it will reach successful consummation within a very short time. Its promoters had desired to keep the matter quiet until it was positively clinched, but The Iron Port says it is too good news to keep any longer. Mayor Bissell has been in correspondence with Andrew Carnegie for some time past, and prior to leaving for Texas received from Mr. Carnegie a blank form of questions which he requested to fill out and forward without delay to the millionaire. This was done, and the plan as devised by the mayor was fully explained. The city owns lots on Wells avenue near the Franklin school building, and it is proposed to locate the institution thereon, and provide for its maintenance through the board of education, a slight additional tax being levied for educational purposes. According to the mayor, this can be done without any illegality, and thus can Escanaba be provided with a handsome \$200,000 public library.

State Warden Brewster was in Iron Mountain the other day and made complaint against William Knapp of Chicago for violating the game law. Knapp was in the vicinity of Floodwood last November, hunting deer. He had no license, but this fact was not learned until he had returned home. He was then notified that it would be necessary to forward the \$25 fees for a hunter's license, which he did not do. He no doubt thought by sending it, it would avoid his being prosecuted. The complaint now charges Mr. Knapp with having in his possession intending to ship outside of the state venison, in violation of the game laws.

A representative of the Escanaba water works company has been in that city consulting with Superintendent Hatton relative to the proposed improvements to the system. It is the intention of the company to put in a new pump as soon as possible at an expenditure of about \$200,000. It will require five months to construct the new pump, and consequently it will not be installed in the station until next fall. The company had proposed also to lay a new intake pipe, but owing to heavy drains upon its finances of late this matter has been deferred until next winter, when the work will be done.

ALDERMAN FROM THE EIGHTH TO MAKE THE RUN.

HIS NAME RECEIVED WITH GENERAL FAVOR.

Peter White, After Further Consideration, Positively Declines to Accept a Nomination That Would Have Been Unanimous.

For the past few days it has been current report that the Hon. Peter White would not accept the mayoralty nomination, and that the race was therefore again an open one. Inquiry has developed that such is practically the case.

Since it has been whispered that Mr. White had determined to remain a private citizen, there has been a quiet canvass of available candidates, and while two or three names are mentioned popular sentiment seems to have settled upon M. E. Asire as the man who should be chosen to succeed Mayor Mangum.

Liquidation in May and buying of July was noticeable and brought a widening of the spread between these options. While some little further reaction may be expected, sell wheat on all rallies."
