CUBANS TO CONTROL

ISLAND WILL BE TURNED OVER TO PEOPLE MAY 20.
ORDER TO GEN. WOOD MADE PUBLIC
UNITED STATES TROOPS TO BE WITHDRAWN.
Only a Small Number of Artillerymen to Remain Until the New Government is Enabled to Organize a Military Force of Its Own.

Washington, March 25.—Secretary Root this afternoon made public an order to General Wood directing him to turn over the control and government of Cuba to its people on May 20 next. The order requires that the Cuban government to assume all treaty obligations, and directs General Wood to continue a small artillery force to avoid leaving the island entirely defenseless until the Cuban government shall have an opportunity to organize its own force. General Wood is also directed to convene the Cuban congress before May 20; also to consult with President-elect Palma and substitute such persons as he shall desire for those now holding official positions in Cuba.

Treaty Must Be Respected.
General Wood is instructed to advise the president and congress of Cuba that such transfer is upon the order and express understanding and condition that the new government does thereupon, and by acceptance thereof, pursuant to the provisions of the appendix to the constitution of Cuba, adopted by the constitutional convention on the twelfth of June, 1901, assume and undertake all and the several obligations assumed by the United States with respect to the Cuban treaty between the United States and Spain.

To Convene Cuban Congress.
The order provides for the convening of the Cuban congress, counting and rectifying the electoral vote, and the promulgation of the constitution. "It is the understanding of the United States," says the order, "that the government of the island will pass to the new president and congress as a going concern, all laws promulgated by the government in occupation continuing in force and effect, and all judicial and subordinate executive and administrative officers continuing in lawful discharge of their present functions until the new government. At the same moment the responsibility of the United States for the collection and expenditure of revenues, and the proper performance of duty by the officers and employees of the insular government, will end, and the responsibility of the new government of Cuba commence."

Troops to Be Withdrawn.
The instructions to General Wood are accompanied by an order to Generals Miles and Corbin providing for the movements of the military on the island and their withdrawal. The order also directs the entire discontinuance of the military department of Cuba. Secretary Root has requested Secretary Hay to arrange for the diplomatic representation of the United States in Cuba. Provision for the consular service will also be made.

MUST RETURN TO BAVARIA.
Heinrich Herrie Will Leave to Stand Trial for Forgery in Native Land.
Cincinnati, March 25.—The United States commissioner today decided that Heinrich Herrie must return to Bavaria to stand trial for alleged forgery. It is alleged Herrie raised a 100-mark check to 100,000 and drew the money, fleeing then to America.
GENERAL OTIS RETIRED.
United States Army Officer Ends Forty Years of Service.
Chicago, March 25.—General Otis was retired today and this ends forty years of service in the United States army, he will remain here two days more and then go to Rochester, N. Y., where his family will join him.
TSILKA AGAIN ARRESTED.
London, March 25.—It is reported from Salonica, says the correspondent of the Telegraph, "that the Turkish authorities have arrested Pastor Tsilka on suspicion of complicity in the abduction of Miss Stone."
COMMERCIAL ARTISTS STRIKE.
Chicago, March 25.—Two hundred members of the Commercial Artists' association struck here today because of dissatisfaction regarding apprentices.

EMBEZZLERS WILL APPEAL.
Rathbone, Neeley and Reeves to Take Case to Cuban Supreme Court.
Washington, March 25.—Official advisers indicate that Rathbone, Neeley and Reeves, sentenced at Havana yesterday as a result of the Cuban postoffice frauds, will appeal to the supreme court of Cuba, the highest tribunal in the island.
Fines Aggregate Big Sum.
The fines aggregate \$127,536, which is stated to be the sum of the mortgages in the general account and in the surcharged stamp account. The decision of the court is understood to have been unanimous on the general charges of embezzlement and conspiracy as to all three defendants. Ex-Director General Rathbone, however, is believed to have been absolved from the charge as to "trips and general personal expenditures."
Consider Sentence Severe.
Hamilton, O., March 25.—This city is shocked at the severity of the sentence imposed in Havana on Estes G. Rathbone. It was felt here that Rathbone was culpable, principally through love of luxury, which lost him his fortune here, but that he would be wifely a criminal and that he would embezzle. A conviction and light sentence would have been generally approved by the Hamilton people, but it is felt the court's sentence is too severe.

Unable to Pay Fine.
Minnie, Ind., March 25.—If the fine imposed upon Neeley at Havana is paid he will probably have to pay it himself. Contrary to the general supposition, his relatives are said to be unable to pay the heavy fine. It is hoped here the United States will be induced to intercede if the Cuban supreme court does not modify the sentence.
ANOTHER CUBAN CONFERENCE.
Washington, March 25.—Another conference was held at the White House on Cuban reciprocity and was participated in by the president, Chairman Payne, Messrs. Dabzell and Long of Kansas, of the ways and means committee, and Mr. Cannon, chairman of the Republican caucus. The members came at the invitation of the president and remained an hour.
It was in the main an exchange of views on the general reciprocity proposition, and the positive statement was made that there were no new developments in the situation, and the program adopted by the Republican conference providing a 20 per cent reduction on Cuban imports temporarily would be carried out in the house.

HOUSE TAX CAUSES TROUBLE.
Yokohama Authorities Arouse Resentment of Foreign Residents.
Yokohama, March 25.—The authorities here have aroused the resentment of foreign residents by distraining the properties of those who refuse to pay the house tax. They have distrained the money of the Hong Kong and Shanghai bank and chartered the bank of India. Today they seized money and property at Jardine, Matheson & Co.'s, and at other places of business, and at residences. The officials refuse to accept the payment of the tax under protest. The legations are receiving numerous complaints from foreigners of the treatment the latter are subjected to.

VICTORY FOR V. W. C. A.
International Committee of Associations Enjoined from Using Name.
Chicago, March 25.—The international committee of Young Women's Christian association was today enjoined from using the name it had adopted by the application of an injunction made by the Young Women's Christian association of Chicago. The question has been in the courts for six years. The decision is that the injunction is granted because the name adopted will lead people to believe the committee really represents the association, which the latter denies.

HOME FOR DISABLED VETERANS.
Branch of the National Institution to Be Erected at Hot Springs, S. D.
Minneapolis, March 25.—Judge Torrance, commander-in-chief of the Grand Army, left tonight for Hot Springs, S. D., to look over the prospective sites for the northern branch of the National Home for Disabled Soldiers. The land will be donated by the citizens of Hot Springs, and the state is to set apart one of the springs as government property.
FITZSIMMONS' TERMS ACCEPTED.
Century Club of Los Angeles Guarantees 20 Per Cent of Receipts.
New York, March 25.—According to the World, the Century club of Los Angeles has accepted Fitzsimmons' terms to fight there. The club guarantees 70 per cent of the gross receipts and that it shall be not less than \$25,000.

LUMBER TARIFF REDUCED.
Minneapolis, March 25.—The Minneapolis & St. Louis railroad has reduced the lumber tariff to Chicago from thirteen to eight cents per hundred. Other Chicago lines will probably follow suit.
FRANCE TO TAKE PART IN EXPO.
Paris, March 25.—The chamber of deputies today unanimously adopted a bill providing for the participation of France in the St. Louis exposition.

LYNCHED A NEGRO

COLORADO CITIZENS HANG BLACK TO TELEGRAPH POLE.
BODY RIDDLED WITH BULLETS
VICTIM PROTESTS HIS INNOCENCE TO THE LAST.
Punishment Meted Out to Sleeping Car Porter Who Assaulted an Aged Woman—Sheriff Unable to Save Prisoner.

Lajunta, Colo., March 25.—W. H. Wallace, a negro sleeping car porter, was lynched at 8 o'clock tonight in the court house square, being hung to a telegraph pole by a howling mob of 4000 people who had been hunting for him all day. After the hanging the body was riddled with bullets. Wallace had been kept out of town all day by Sheriff Farr in an attempt to save him from the mob. The prisoner made no resistance to the lynching and died protesting his innocence.
Victim an Aged Woman.
Wallace was charged with criminally assaulting Mrs. Henrietta Miller of Los Angeles, aged sixty-seven. She arrived last night, and responding to an inquiry for a Denver sleeper Wallace offered to conduct her to the car. On the way he struck her on the head and choked her into insensibility. She recovered consciousness an hour later, and returning to the depot gave an account of the assault. Wallace was arrested and identified.

Took Prisoner from Sheriff.
The sheriff started for Pueblo with the prisoner, but sixteen miles away the mob took him away and returned to this place.
Here thousands of men, women and children awaited them. The crowd consented to permit the committee to try and get a confession from Wallace and they went into the court house.
When announced that the doors were locked and the committee would try to prevent a lynching an attack was made on the building. With a telegraph pole as a battering ram, the crowd broke down the doors and Wallace was taken out.
Body Riddled With Bullets.
All efforts to prevent the lynching failed. The rope was thrown over the cross bar of a telegraph pole. A hundred hands grasped the loose end and in a instant the negro was in the air. Almost at the same instant hundreds of pistols were drawn, and before the body reached the top of the pole it was riddled with bullets.
The sheriff says Wallace steadfastly maintained his innocence, but the police say they found sufficient evidence to satisfy them he was guilty.

North Carolina Negro Hanged.
Washington, N. C., March 25.—The body of James Walker, the negro who poisoned Dr. David T. Taylor's family, was found hanging to a tree just outside the town this morning. He had been lynched by a mob from Williamston some time Monday night.
NEW WARRANTS FOR ANDREWS.
Investigation of Wrecked Bank's Affairs Results in Additional Complaints.
Detroit, March 25.—New warrants were issued today for the arrest of Frank C. Andrews, vice president of the wrecked City Savings bank, and Henry R. Andrews, cashier of the bank, on complaints signed by F. W. Hayes, an expert accountant who is representing the city and county officials in the investigation of the affairs of the wrecked bank. The complaints charge them with willful misappropriation of the funds of the bank. F. C. Andrews is now in jail and H. A. Andrews is out on heavy bail.

ADMITTS HAVING THREE WIVES.
Man Arrested in San Antonio, Tex., Says Other Ten Are Myths.
St. Joseph, Mo., March 25.—Christian C. Nelson, the railroad contractor and horseman alleged to have thirteen wives, is in jail here on a charge of bigamy, having just been brought in from San Antonio, Tex., where he was arrested. Nelson, who will be tried in St. Joseph, admits having three wives, but says the other ten are myths.
READY WITH POISONED BULLETS.
Wisconsin Prisoner Says He Intended to Make Sure of McKinley's Death.
Baraboo, Wis., March 25.—Sheriff Sackhaus says his prisoner, Steilman, in addition to confessing he tied the handkerchief on Czolgosz's hand, says he stood near with revolvers loaded with poisoned bullets ready to do the work had Czolgosz failed. Steilman's home is in New Jersey.

TEN NEW TRAINS.
Chicago, March 25.—The Record-Herald says: The management of the Rock Island road practically has determined to spend \$2,000,000 to build ten new trains for the Chicago-California service through El Paso.
FIRST TO FIND GOLD.
Salt Lake, Utah, March 25.—James Brown, who was with Joseph W. Marshall when the first discovery of gold was made in California in January, 1848, died here today, aged seventy-three.

PREPARED FOR A STRIKE.
Mine Workers Were Never in a Better Position to Wage a Contest.
Indianapolis, March 25.—It is stated at the headquarters of the United Mine Workers of America that the organization never was in a better position to wage a contest should one come. The assessment for the strike fund brings in upwards of \$25,000 per month.
If there is a strike in the anthracite region all members of the organization in twenty-four states may be called out, as the many convention in Indianapolis empowered the national officers "to go to that extreme if necessary to bring about a settlement."
It has been evident for some time that the officials of the national organization were laboring under an unusual strain. They felt the critical period of their organization, the largest body of union men in the world, has arrived, and that its future status depends largely on the outcome of the present negotiations in Pennsylvania and Virginia.
Shamokin, Pa., March 25.—President Mitchell and other representatives of the miners left tonight for New York to appear before the conciliation committee of the Civic Federation.

SIX KILLED IN CAVE-IN.
Bank of Earth Gives Way and Buries Workmen.
Cleveland, March 25.—As the result of the caving in of a bank of earth at the Main street plant of the Cleveland Gas Light & Coke company this afternoon, six men are dead.
Colegrove, Amati, Guiseppe, Bergozzi, Vincenzo Lisneso, Andrew Hahn, Peter Prent and an Italian whose name has not yet been learned. Edward Lyncht was injured.
The men were working close to a bank of clay when it suddenly gave way without the slightest warning, burying them beneath a mass of earth. Fellow workmen immediately began the work of rescue and in a very short time six were taken out. Some were alive and others were dead. The living were started to hospitals but died enroute.
There were thirty-five or more at work on the excavation and as all lived nearby their wives and children, who had learned of the disaster, rushed to the place and added to the confusion by terror-stricken cries for the relatives whom they were not able to locate instantly.

TREATY OPPONENTS' LAST CARD.
May Induce Daughters of King of Denmark to Intervene.
Copenhagen, March 25.—Opponents to the sale of the Danish West Indies intend to make a desperate effort to induce Queen Alexandra and the dowager empress of Russia, daughters of the king of Denmark, to intervene and prevent the ratification of the treaty by the landing.
The dowager empress and the queen, both of whom are reported as opposed to the sale of the islands, are expected here in a day or two. The opinion in well informed circles is that any such intervention, even could it be set in motion, would prove ineffective. Confidence is felt that the landing will ultimately ratify the treaty, though it may possibly meet its death in Denmark.
The landing at a secret meeting today, arrived at no conclusion and postponed the discussion of the treaty until April 3.

POLICE FORCE RESIGNS.
Helena "Coppers" Make Sensational Charges Against Mayor.
Helena, Mont., March 25.—The entire police force of this city resigned last night as the result of orders which they claim were issued by Mayor Frank J. Edwards, who is a candidate for reelection. The Republican primaries are to be held Thursday and the fight promises to be a close one. The police assert they were personally instructed by the mayor to attend the primaries and arrest all anti-Edwards Republicans, any the resignations followed. Friends of Edwards deny the statements of the police and advance charges of bribery.
REGISTERED MAIL SYSTEM.
Order Is Issued Designed to Afford Relief to Clerks.
Washington, March 25.—A general order was issued today by railway mail clerks today announcing that a system of registered mail pouches, to be made up by postal clerks, will be inaugurated next Tuesday. This is an innovation in postal methods, as such registered pouches heretofore have been made up by postmasters instead of clerks. It is designed to afford relief to clerks in handling the constantly growing volume of hand-piece, registered matter carried on postal cars.

WILD THROW CAUSES DEATH.
While Putting Shot Iowa Athlete Kills Eight-Year-Old Boy.
Clinton, Ia., March 25.—While practicing athletics this afternoon, Tim Clark, captain of the high school football team of last year, made a wild throw while putting a shot and a twelve-pound ball struck Hugh Callahan, an eight-year-old boy, in the head, death resulting a few minutes later. The skull was fractured and the boy died without regaining consciousness.
GOEBEL WITNESS DYING.
Louisville, March 25.—It is reported here tonight that F. Wharton Golden, the star witness for the prosecution in the Goebel assassination case, is dying of consumption in New Mexico.
FOUR KILLED IN WIND STORM.
Crowley, La., March 25.—During a storm in Vermillion parish today four persons were killed, many injured, and a number of houses wrecked.

Hood's Sarsaparilla

Has won success far beyond the effect of advertising only.

The true secret of its wonderful popularity is explained entirely and only, by its unapproachable merit.

Based upon a prescription which cured people considered incurable, which accomplished wonders astonishing to the medical profession.

Hood's Sarsaparilla

Includes the concentrated values of the best-known vegetable remedies united by such an original and peculiar combination, proportion and process as to secure curative power peculiar to itself.

Its cures of mild and extreme cases of scrofula, eczema, psoriasis, and every kind and degree of humors, as well as catarrh and rheumatism—prove

Hood's Sarsaparilla

the best blood purifier ever produced. Its cures of dyspepsia, biliousness, nervousness, loss of appetite and that tired feeling make it the greatest stomach tonic, nerve-builder and strength-restorer the world has ever known.

Hood's Sarsaparilla

Is a thoroughly good medicine. Begin to take it TODAY. Get HOOD'S.

You will discover one of the richest smokes you ever had. Sold by all the leading dealers.

IS STRICTLY A Union-Made Cigar, manufactured by JAEDECKE BROS., Ishpeming, Mich.

DAILY MINING JOURNAL,

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.) Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier. \$1.50 Per month, by mail. \$1.60

MARQUETTE, MICH., MARCH 26.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

No, the esteemed Daily Gazette of Houghton isn't running an agricultural department. But it is putting up a "mining" department (in charge of "trained" reporters), that easily passes for one.

We are apparently in for an early opening of navigation this year, but the prospect isn't over-pleasing to many of the vessel owners. What they would prefer is a short season and high rates, and the unusually early opening will tend to keep rates down.

Just as we expected, the Republican members of the house who fought having any concession granted Cuba on the sugar tariff have concluded to accept the inevitable gracefully, and will make no attempt to delay action on the bill reported out by the committee when it comes up for final consideration. The beet sugar men put up a stiff bluff but it was effectually called.

They appear to have got into something of a mix-up over a postoffice appointment at Manistique, but as there is no fault found with the man who got the place it would seem that no very serious mistake was made. The main trouble with the giving out of these government jobs is that there are so many deserving patriots in the party that there are not enough of the places to go around.

"A taxpayer" writes in one of the up-the-road papers urging that the county should postpone building a new court house, badly as it is needed, because it built a poor house last year. That isn't very good logic. There isn't a county in the state of anything like equal wealth and importance that has put up with as poor a court house as ours any longer than financial conditions made that imperative. Providing a new court house has already been postponed until a couple of generations have come and gone. How long would "taxpayer" have us wait for a building in keeping with the wealth and importance of the county and adapted to the needs of its business?

TEMPER IN THE WHITE HOUSE.

It might be well for President Roosevelt to take heed of an admonition conveyed in this article, reproduced from the Chicago News.

With the outbreak of excitement occasioned by General Miles' testimony before the senate military committee it becomes necessary to call the attention of Mr. Roosevelt's advisers to one feature of the present administration which has been steadily forcing itself upon public notice and now threatens to be positively detrimental to its success. Ever since the took office the public has heard a great deal about Mr. Roosevelt's ire and the ease with which it is aroused. He was angry, it was reported, in the Selvey controversy, as in several controversies arising with some of the congressmen. Now that General Miles has given testimony strongly adverse to the army bill the president's ire, it is reported, is again inflamed. The rumor is now general that Miles is to be "disciplined" and that the administration is only waiting for a suitable pretext to place him upon the retired list.

Many of these reports, possibly, are unjustified or at least exaggerated. The opinion of the president unconsciously forming itself in the public mind as a result of them may be accepted as unfair if not wholly false. The fact remains that it is time for Mr. Roosevelt's friends to ask themselves whether something should not be done to vindicate his character as a man of peace. Right or wrong, the impression is going abroad that temper is supplanting cool judgment in the white house, and this impression has been deepened within the last few days by the sudden and general assault all along the administration line upon General Miles. Let it be admitted that that officer has been an annoyingly inquisitorial, that his attitude toward the administration has not been deferential and that his commendation of Dewey's report in the Selvey case was a breach of discipline. Let all this be admitted and the fact remains that an experienced officer with a long and creditable record is apparently threatened with retirement not for a failure in duty but for speaking too plainly about a bill supported by the administration.

His testimony regarding the bill, however, was privileged. It was delivered to a senate committee at the senate committee's request, and it is difficult to see why if General Miles thought the bill a bad one it was not his duty to criticize it.

A REMARKABLE CONVENTION.

The Citizens' convention Monday night was, in one respect at least, quite out of the common. There was before it no avowed candidate for the office of mayor, the most important one to be filled by vote of the electors of the city this spring. Not a delegate was solicited to cast his vote for or against either of the two men who had been persuaded to become passive candidates, in the sense that each had agreed to accept the nomination if it came to him, so the convention was left entirely free to act on its own best judgment.

The nomination fell to the editor of this paper, and under the promise he made his friends he is bound to accept it, and to serve as mayor for the coming year if the people see fit to ratify at the polls the action of the nominating

convention. If Mr. Mack had been chosen the selection of the convention would, perhaps, have been more wisely made. He would give the city an honest, economical and clean administration, in so far as the limited power of the mayor under our very peculiar charter enables that official to control in the conduct of the city government, and could give more time to the office than the nominee can well spare for that purpose. But the convention has made its choice, and if its nominee is elected he will have to bear the burden imposed on him as best he can, trusting to the assistance and co-operation of the common council and his associate officials to have it made as light as may be.

No money was spent to "set up" the convention in favor of a candidate for the mayoralty, nor was there any of the usual solicitation of voters to attend the caucuses in the interest of a candidate for that office. But it should not be understood from this that the nomination "went begging" this spring. Never before, we venture to say, was there a keener interest taken in the choice of a candidate for the mayoralty. This was shown by the large attendance at the caucuses and at the convention itself. At every caucus there was an unusually heavy vote polled, and the convention hall was packed to the doors from the opening of the proceedings until the last place on the ticket placed in nomination had been filled. Indeed, the absence of an unseemly struggle for the mayoralty this spring was in no small measure due to the feeling that, in view of the bright future now opening for Marquette, special care should be taken in the selection of the men to whom control of the municipal government for the next year will be given, this tending to discourage the usual scramble for places on the ticket and to leave the convention free to act on its own judgment, calmly and impartially.

The other places on the ticket were filled in much the same manner as was the first, the only real contest being over the treasurership. There was no "plugging" resorted to by candidates or their friends, either before the convention or in it, and the delegations composing the convention were fully and fairly representative of the various interests of the city and the elements composing its population.

Now the action of the convention will be regarded by the voters of the city generally after they have had time to consider it in all its bearings remains to be seen. So far, there is less talk of an opposition ticket than is usually heard just after a municipal convention, though, of course, there are those who are dissatisfied with some of the nominations. If any considerable number of the voters desire to put up a second ticket there is ample time for doing that, and the method is simple and well understood. Should a second ticket be placed in the field its supporters will be free to use the columns of The Mining Journal to set forth their reasons for supporting it, and asking support for it, despite the fact that its editor is the nominee for mayor on the ticket nominated Monday night. If the convention just held has erred in any way now is the time to move for correction of its faulty work. The ballot is a weapon with which the voters can always protect themselves against bad government, and the best government we can secure is none too good for Marquette.

DANGER OF COLDS AND LAGRIPE.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventative of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Stafford Drug Co.

ELECTION NOTICE.

To the Qualified Electors of the City of Marquette: Notice is hereby given that the annual city election will be held on the 7th day of April, A. D. 1902, at the following places in the several wards respectively: First Ward—Building corner of Lake and Garden streets. Second Ward—City road roller building, Spring street. Third Ward—Hodgkins' livery office, Pine street. Fourth Ward—City Hall, Washington street. Fifth Ward—Building at No. 416 West Washington street. Sixth Ward—Building at No. 503 North Third street. Seventh Ward—Building at No. 823 North Third street. Eighth Ward—Emanuel Moore's residence, No. 921 Pine street.

At which election the following officers of the corporation will be elected by the qualified electors of the whole city, voting in their respective wards, viz: One mayor; one recorder; one treasurer; two constables; one justice of the peace; for the full term. There will also be elected at said election, by the qualified electors of each ward: One supervisor for the term of one year; and one alderman for the full term of two years.

The polls will be opened at 7 o'clock in the forenoon, or as soon thereafter as may be, and close at 5 o'clock in the afternoon.

Given under my hand this 25th day of March, A. D. 1902.

DANIEL S. DONOVAN, Recorder.

Lower Michigan.

It is the general opinion at Saginaw that after April 1 operations in Michigan coal mines will stop. The joint convention has adjourned subject to call. The representative of the miners on the press committee, Roger Quinman, says there will be no work in the mines in this state after the termination of the existing scale, March 31, unless the operators consent to another conference. He says the miners consider the operators are seeking a reduction in the scale, and the operators think the miners are asking for an increase. The miners consider the demands of the operators as an attack upon their organization. A mine operator stated recently that to concede the demands of the miners would be simply to turn over the operation of the mines to the miners. The operators are as firm as are the miners and there is nothing in sight that indicates that anything but a cessation of coal mining in this state will be the place. April 1, the duration of it will depend upon the ability of each party to the controversy to hold out.

The Saginaw Bay Towing association, owning the tugs Traveler, Ella M. Smith, Winslow, E. M. Pierce and Robert Emmet, has been dissolved. The property was owned jointly by P. C. Smith and Benjamin Bontell, who made fortunes out of towing Canadian logs to Saginaw river mills. Their fleet at one time consisted of twenty-seven lake and harbor tugs, but since the \$2 tariff on Canadian lumber put a stop to bringing logs over from there they have sold off the tugs, some of which are now on the Atlantic coast, and by the present deal, P. C. Smith, who has been in the towing business for a quarter of a century, retires, Captain Bontell becoming sole owner of the remainder of the fleet.

The Wolverine beet sugar factory at Benton Harbor has been sold by the local company to E. H. Dyer & Co., of Cleveland. A large force of men will be set at work next week tearing down the plant, which cost \$255,000. Dyer will move it to Belpre, but where he has bargained for a large acreage of beets. The loss of the factory is deeply felt by Benton Harbor, and it is laid to the repeal of the sugar bounty. The factory employed 150 men and during last fall paid out \$85,000 for labor and beets. Dyer held a mortgage of \$114,000 on the property. Farmers there have not planted much beet sugar in the factory during the past year and have not planted many more.

The four-year-old daughter of John Bellevue, living about six miles southwest of Inlay City, was horribly scalded last Wednesday, resulting in her death Friday about 11 o'clock. Her mother had put hot water in a tub with which to do some scrubbing, and had turned to put the lid on the stove when the little one ran to her and fell in the tub. Mr. Bellevue's father, eighty-eight years old, and who was very ill, was much affected by the death of the child, and passed away in about an hour after her death. The double funeral was held at the South Attica M. E. church Sunday.

Phineas F. Blake of Lansing, brooding over marital troubles, took thirty grains of morphine some time Saturday night. The dose resulted in a fatal Sunday. Blake, who was about sixty years of age, had failed to get along satisfactorily with his wife, who was the mother of his ten children, and who left him a few months ago. Blake closed his little tailor shop Saturday night, carefully arranging the various jobs on hand, so there would be no anxiety among his customers, and afterward took the drug.

A dispatch from New York says the first statue of the late President McKinley has just been delivered in the plant to a foundry at Providence, R. I., where it will be cast in bronze at once and ready to be unveiled in Muskegon on Memorial day. The sculptor was well equipped for the undertaking, as he had made a bust of the late president and all necessary measurements, which he had made at a sitting Major McKinley gave him.

Oxford ministers are the stuff. One of them had an engagement to marry a couple at Orion at 8 o'clock the other evening, and shortly after 7 discovered that the electric cars were tied up temporarily on account of some slight accident. Instead of waiting until they should begin running again, he started off down the track, and covered the three miles between the two villages in forty-five minutes, arriving only two minutes late.

The Rev. R. W. Van Schoek of Coldwater is sorely afflicted. A few days ago his infant granddaughter died. Then he narrowly escaped death, sustaining two broken arms, a badly wounded neck and other injuries, by being thrown from his carriage. He is still helpless. His only daughter is very ill and Sunday night his wife died, aged fifty-four years.

Cadillac expended over \$4,000 last year on new cement sidewalks, but the city is just that much further away from the ability to be sued for damages for injuries sustained on defective walks than she was before. And \$4,000 wouldn't go very far in paying judgments obtained in law suits.

Mrs. Mary J. Mead of Hilldale, aged eighty, while throwing crumbs on the roof for birds fell from the second-story window Saturday. Her right arm was broken above the elbow and the bone below was split.

Sheriff Shepherd took James R. Farrington to Lehigh to Jackson Monday morning to admit his three-year-old son for killing Jesse Hooker, the man who ruined his home.

JOINTS LIKE RUSTY HINGES are among the consequences of rheumatism. The sufferer can move knees and elbows, but the effort makes him wince. He rebores and the joints gradually stiffen. Davis' Painkiller drives the stiffness out and brings the freedom of motion back. No wonder our grandfathers believed in this beneficent liniment. There is but one Painkiller, Perry Davis'.

FOLEY'S HONEY AND TAR Cures coughs and colds. Cures bronchitis and asth. a. Cures croup and whooping cough. Cures hoarseness and bronchial troubles. Cures pneumonia and la grippe. People's Drug Store.

COPPER COUNTRY NEWS

(Additional.)

MARINE MEN PLEASED.

Local marine men are pleased by the news that the senate has passed the bill authorizing the establishment of a life saving station at Eagle Harbor, Keeweenaw Point. They would rather see the station built at Eagle River, where, it is said, it is most needed, but one at Eagle Harbor is quite satisfactory. It will greatly lessen the work of the life savers at the canal who have had almost the entire point to look after during past seasons. Captain McCormick of the canal station will start the season week after next.

CONFERRED WITH FIREMEN.

Thomas Trathen, the popular tonorial artist of Negaunee, called at the Mining Journal branch office at Houghton yesterday. Mr. Trathen visited cooperation to confer with the firemen of Calumet and Houghton in regard to the best street attractions to be secured for the firemen's tournament to be held at Negaunee next summer. The firemen here have had considerable experience from past tournaments.

SCRANTON SCHOOL CAR.

The air brake and construction car of the Scranton Correspondence schools is expected by local railroad men this week. Four instructors accompany the car. They will give three lectures, each day, morning, noon, and evening, to railroad men on the subject of air brakes. Firemen are particularly interested in the coming visit of the car, as before they are allowed to become engineers an examination on air brakes is necessary.

FELL DEAD AT HOME.

Mrs. Patrick Teefe of Dollar Bay fell dead at her home late Monday afternoon, heart failure being the cause. She had finished her household duties and was seated in a chair reading when taken with the stroke. Mrs. Teefe was sixty years of age and is survived by a husband and five children. The funeral will be held this morning.

TWO BREAK THROUGH ICE.

George Hennau, of the City drug store, Hancock, while walking across the lake from his home in West Houghton Monday, broke through the ice about fifty feet from Close & Bawden's dock, Hancock, and it was with difficulty that he extricated himself. Peter Pinten of Hancock, broke through the ice near the same place shortly after, but escaped with a cold bath.

NIGHT WAS HER TERROR.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at Stafford's drug store.

RAW OR INFLAMED LUNGS

Yield rapidly to the wonderful curative and healing qualities of Foley's Honey and Tar. It prevents pneumonia and consumption from a hard cold settled on the lungs. People's Drug Store.

LADIES CAN WEAR SHOES

One size smaller after using Allen's Foot-Ease, a powder to be shaken into the shoes. It makes tight or new shoes feel easy; gives instant relief to corns and bunions. It's the greatest comfort discovery of the age. Cures and prevents swollen feet, blisters, calluses and sore spots. Allen's Foot-Ease is a certain cure for sweating, hot, aching feet. At all druggists and shoe stores. 25c. Trial package free by mail. Address, Allen S. Olmsted, Le Roy, N. Y.

DANGERS OF PNEUMONIA.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. People's Drug Store.

LOW ONE-WAY SETTLERS RATES TO THE WEST.

During the month of March and April the D. S. S. & A. Ry. will have on sale to points in North Dakota, Montana, Idaho, Washington, Oregon and British Columbia one-way settlers tickets at greatly reduced rates. For full particulars apply to station and ticket agents or to Geo. W. Hibbard, General Passenger Agent, Marquette, Mich. (2-3-4-50)

PROMPT AND FAITHFUL SERVICE is not the only good feature of Hathway's market. The very choicest meats of all kinds, beef, mutton, lamb, veal, turkeys, capons, chickens, ducks, etc., can always be had here, and everything is delivered just as ordered, in good season and in perfect condition. FRANK W. HATHWAY, PALACE MEAT MARKET.

WHEN CHILDREN SUFFER from accident or illness HINKLEY'S BONE LINIMENT FOR INTERNAL AND EXTERNAL USE brings sure relief. IT HEALS Cuts Bumps Bruises Scratches IT CURES Croup Colic Sore Throat Diphtheria and every pain that has a name. Every mother should use Hinkley's Bone Liniment. Keep a bottle in the house. Sold everywhere in 25c., 50c. and \$1.00 bottles. HINKLEY BONE LINIMENT CO., Saginaw, Mich.

D. Seidenfeld's. Spring is almost here; it is now just around the corner, and with the coming of this beautiful season we have prepared ourselves better than ever before to supply the people of Marquette and adjoining counties with their merchandise. Every incoming train brings us case after case of new up-to-date merchandise. DRESS GOODS. During the past week we have received more than 100 pieces of wool dress goods. They comprise the popular fabrics for spring wear and are culled from the products of the best manufacturers in both hemispheres. When you do not fail to give our dress goods department an inspection if you are intending to buy. LACE CURTAINS. "Lace curtains by the thousand" is the common expression used by those who have been shown the mammoth stock we have just received for our spring trade and we wish to say, right here, that never in the history of our curtain business, have there been offered such good values for so little money. CLOTHING DEPARTMENT. Men, boys and children will have satisfactory clothing if they will buy it from us. We pride ourselves in up-to-date, ready-to-wear clothing. Sweat-shop goods have no part in the making up of our stock. Everything of the best. We buy on the plan that there is nothing too good to wear, and there is nothing so worthless as shoddy. You can depend upon buying the best of goods when you patronize our store. SHOE DEPARTMENT. Once a customer of our Shoe department, always a customer. Our shoe business is transacted on the same basis as our dress goods business, hence, the wonderful increase in this department. We sell shoes to wear; we sell shoes to fit and we sell shoes made of the best leather. No shoddy or cheap workmanship goes into a single pair of shoes bought at our store. If You Buy it at D. Seidenfeld's it's Good. D. SEIDENFELD'S STORE, South Front Street, Marquette, Mich.

WANT BASS FOR LAKES.

Houghton Men to Take Steps Toward Stocking County Waters.

This week special maps showing the location of lakes suited to black bass on the South range, and lakes in other districts adjacent to Houghton, will be sent to Game and Fish Warden Grant M. Morse by officers of the Houghton County Gun and Rod club with a request that these lakes, or some of them, be stocked with black bass fry, and at least one or two of them supplied with the adult fish. The plan is a careful one and will surely have a successful outcome as considerable pressure will be brought to bear upon the game and fish warden by prominent citizens of Houghton county. The maps will be accompanied by letters from Copper Range road officials, George Williams, president of the gun and rod club, Sheriff Willis, Graham Pope, R. Skiff Sheldon and other well known men.

Mr. Morse will be asked for permission to go to some lake, well stocked with black bass, to seine the lake for the adult fish and to transport them to this county, where they will be placed in one of the lakes best suited for black bass. Bass taken early in June. If the plan is successful, and there is every reason to believe that it will be, efforts will be made to have a law passed to protect that particular lake for several years so that there will be good fishing there in time. A tank will be built in a box car, water tight, for the transportation of the fish here. The assistance of the local game warden will be secured and also that of the members of the gun and rod club.

The reason for taking this means to secure black bass is that the gun and rod club has tried to get black bass fry from both the state and government for Houghton county, but has been unsuccessful for the simple reason that there have not been enough fry to supply the demand from all parts of the state and county. An effort will also be made to get the state fish car here. The state fish commissioner will be asked to send the car. The Copper Range road has signified its willingness to transport the car over its line free and to do everything possible for the success of the movement to procure fish fry for the South range lakes.

CONGREGATIONALISTS TO MEET.

Annual Convention of Lake Superior Association to Be Held Next Month.

The twenty-eighth annual meeting of the Lake Superior Association of Congregational churches will be held at the First Congregational church, Calumet, on Tuesday and Wednesday, April 8 and 9. An unusually elaborate program has been arranged, covering a large field of work, and the prospects are that the attendance at the four sessions, taking two days, will be the largest since the first organization of the association. Representatives of all the Congregational churches in the district will be present and a number of them will take part in the program.

At the first session Tuesday afternoon, April 8, the regular business of the association will be attended to and that will be followed by addresses and discussions on subjects of interest to the church workers by Rev. John Best, E. L. Wright, Rev. Henry Harris, Rev. Mr. Brandage, Charles F. Hall, and Rev. Frederick Bagnall.

Tuesday evening Rev. Henry Appleton will deliver an address, discussion on which will be taken up by A. F. McDonald, E. T. Abrams, M. D., will also give an address. The address of Mr. Appleton will deal with one of the leading questions of the day.

NEW COAL COMPANY.

Articles of incorporation for the Portage Coal & Dock Co., comprised of Cleveland capitalists, have been filed with the secretary of state. The company intends to secure a site on the lake front at Houghton, build a dock and conduct a regular dock and coal business. It is capitalized for \$100,000. It is expected that a duplicate of the articles will soon be filed in the office of the county clerk.

LAST ENGINE SOLD.

The last narrow gauge engine, a part of the old rolling stock of the Hancock & Calumet road, has been sold. Fitzhugh Lee & Co., Chicago, purchased it. Seven engines have been disposed of to Torbed & Peckham of Chicago and the rest to Fitzhugh Lee & Co., together with other rolling stock.

The Kind of **COPPER** That Comes from the

"DOANE MINE."

100 LBS. ORE PRODUCES 40.70 LBS. COPPER

ASTONISHES YOU NO DOUBT, and perhaps you think it is unreasonable and not a true statement. It is rather unusual that's true, but that's the kind of producer the Doane mine is. It is an unusually rich producer, which makes it all the more desirable. An investment in this company now will get you great returns after the new equipment of machinery is in, and remember, too, you need not take any more for any statement, for I am prepared to prove every statement made by this company. I present the statement of rich shipments by showing the smelter returns—not assays, but statements of actual cash receipts for ore shipped to the smelters.

Many mining companies mislead buyers of their stock by making flowery statements that cannot be backed up by proof. Their "ads" read good, but they seldom publish facts. That's where we differ from most mining companies, for we publish nothing but facts and stand ready to prove all we do publish.

You will be in a legitimate company managed by reputable business men, and kept fully informed by monthly reports, as to improvements made when you become a stockholder with us. The stock is now selling at 70¢ per share—par \$1. Full paid—no assessments. Let me tell you about this most excellent opportunity to make a legitimate and profitable investment.

NEW HOTEL AT ISLE ROYALE.

Better Accommodations to Be Arranged for Tourists.

There is a prospect that additional facilities will be provided for tourists at Isle Royale this season. Improvements in this direction are proposed for both Tobin's and Washington harbors. More correctly speaking, the improvements proposed for the former point will be on the Rock Harbor channel, but from this distance Tobin's harbor is the place usually designated as the north-east end of the island.

Captain W. H. Singer is interesting parties in a project for increasing the hotel and cottage accommodations on the island. He says that the present facilities are good, but not extensive enough. Many of the hundreds of people who make the trip to Isle Royale do not stop off for a few days or weeks for the reason that during the height of the season all of the sleeping accommodations are taken, and even ordered ahead.

The proposed plans include the construction of another hotel, and perhaps a dozen or more three or four room cottages for families. The cottages will be designed for people to prepare their meals if they wish, or they may go to the hotels.

CHALLENGE FROM MARQUETTE.

Queen City Indoor Ball Players Would Meet Houghton Under Conditions.

A telegram from John Rivers, of one of the Marquette indoor baseball teams, challenging the Houghton Light Infantry team to a game at Marquette one week from this evening for the championship of the upper peninsula and a purse of \$1000, was received Monday afternoon. There was a condition mentioned, however. It was that Pitcher Murphy, of Houghton, should not be allowed to use the swing in delivering the ball. The telegram was answered, Houghton refusing to play with the pitcher's swing barred. The swing movement in delivering the ball is common and with it Houghton is ready with all kinds of money to back up its team. Marquette ball players know that the swing movement is allowable, as that has been proven, and it would appear that they want it barred because they cannot hit Murphy when he uses it.

TO BUY ARIZONA COPPER.

Calumet and Pittsburg Capitalists Will Take Claims Worth \$1,200,000.

Pittsburg, Duluth and Calumet parties interested in the Calumet & Arizona Mining company are negotiating for the purchase of the properties of the South Bisbee Mining & Townsite Improvement company, lying south of the town of Bisbee, in the Warren district of Cochise county, Arizona. Calumet capitalists are now in the West, closing the deal for the transfer of the properties. The consideration is \$1,200,000.

The properties of the South Bisbee company consist of forty-six patented and two unpatented claims, aggregating about 650 acres. About sixty men are engaged in sinking the two main shafts at the mine, one to a depth of 1200 feet. At the present time about 1,000 tons of oxide ore, averaging 10 per cent. copper, is in sight. The properties have been examined by experts for Calumet and Pittsburg capitalists, who recommended their purchase. It is likely that a stock company will be organized to work the mine, the stock being allotted to a large extent to local parties.

A MODERN CHURCH.

Bids for the erection of the new Methodist church, which is to go up at Laurium this summer, were opened at a recent meeting of the board of trustees. Of the several bids in for the work that of Nicholas Bray was the lowest. His bid, \$811,535.95, was \$4,000 lower than the highest and \$1,400 better than the next lowest. As soon as the weather will permit work on the foundation will be commenced by Dan McLeod who receives the contract for that part of the structure fast fall. Mr. Bray will commence his part of the work just as soon as the foundation is completed. His contract does not include heating, lighting, plumbing, glass or fixtures. The entire cost of the edifice will be about \$105,000. It will be a modern church in every respect. A parlor, dining room and kitchen will be fitted up in the basement for social purposes. The auditorium on the first floor will seat about 450 and will have Sunday school accommodations for 400.

TO TAKE UP HOMESTEADS.

This summer several copper country families may remove to Canada to locate in the province of Manitoba. There are thousands of acres of government land in that part of the country which will be offered gratis to immigrants. Each person is granted 160 acres of land, but must live on it at least six months in the year for three years, and each year must clear five acres and make improvements. After he fulfills the terms for the first grant 160 additional may be secured under the same conditions. The district is an excellent farming country. The summers are long and very productive.

LIFESAVERS' NEW QUARTERS.

At present the facilities for the life saving crew at the canal are very limited. Since the old station on the canal was abandoned Capt. McCormick has been without regular headquarters, and during the latter part of last summer the crew used an old shed on the shore of the lake. This summer the new station at the mouth of the canal will be built. It will be erected at the end of the pier at the place where the crew has been ordered to report for duty April 7. In past seasons the crew never started work until April 20, but this season the record for early navigation is broken.

A HORRIBLE OUTBREAK.

"Of large sores on my little daughter's head developed into a case of scald head," writes C. D. Isbill of Morganton, Tenn., but Bucklen's Arnica Salve completely cured her. It's a guaranteed cure for Eczema, Itter, Salt Rheum, Pimples, Sores, Ulcers and Piles. Only 25 cents at Stafford's.

Dr. Wood's Norway Pine Syrup seems especially adapted to the needs of the children. Pleasant to take; soothing in its influence. It is the remedy of all remedies for every form of throat and lung disease.

THAT MICHIGAN MASS.

Will Exceed Anything Ever Taken Out of a Lake Superior Mine.

An enormous mass is being uncovered in the Michigan mine which gives every indication of greatly exceeding anything that has ever been taken out of any Lake Superior mine in recent years and it may equal some of the large masses which made the old Minnesota so famous, says the Ontonagon Herald.

Through the courtesy of Captain Thomas a Herald man was given the pleasure of inspecting this mammoth chunk of copper. It is located in the east drift of the branch vein from the ninth level crosscut of "B" shaft and was first encountered at a distance of about ninety feet from the crosscut. Its size cannot be determined at this time but the part that is exposed measures over twenty-six feet in length, after a four and one-half ton chunk had been cut off from the end of it on account of its projecting out into the drift. The other end of the mass has not been uncovered, neither has the top nor bottom of it been reached, and how far it extends above and below the drift is only a matter of conjecture. At the point where the piece was cut off it is about two feet in thickness, but it rapidly increases in width.

The drift is being pushed forward as rapidly as possible and the other end may be located in a few days or it may require a week or more, but it will take considerable time before it is entirely uncovered.

RAND DRILL PARTS IN STOCK.

COPPERDOM BREVITIES.

The Hancock township caucus will be held tomorrow evening.

Special services will be held in the copperdom churches on Good Friday.

J. S. Stringer of Hancock will start up his planing mill for the season on April 1.

The Houghton and Hancock clerks will meet at Hancock Thursday evening.

Evan Payne of Hancock was operated upon for appendicitis at the Hancock hospital yesterday.

John Harrington was nominated for supervisor at the recent caucus held in Chassell township.

The Laurium Knights of Pythias will give a promenade concert at the Laurium town hall on the evening of April 4.

The ladies of the Laurium Methodist church realized over \$200 for the church fund by the annual fair held last Saturday.

There are several candidates for the office of township treasurer in Hancock. The caucus will be held Thursday evening.

A regular meeting of Gate of the Temple chapter, R. A. M., of Hancock, will be held this evening for work on the fifth degree.

C. A. Wright, Jr., of Hancock, is in Lansing attending a meeting of the Michigan Alumni association of which he is a member.

A bowling match will take place at the Miller alleys, Calumet, this evening between a Calumet team and the Hancock Y. M. C. A. team.

Henry Klessner, yardmaster for the Mineral Range road at Hancock, has left for Chicago and South Bend, Wis., for a ten days' vacation.

Funds are being solicited among the Jewish residents of the copper country for the erection of a synagogue in Hancock during the summer.

The Calumet and Osceola township precinct caucuses were held last evening. The regular nominating convention will be held Thursday evening.

The Houghton Light Infantry indoor baseball team goes to Manistique a week from tomorrow to play two games with the Manistique team.

The Epworth league of the Hancock M. E. church will hold a sunrise prayer meeting at 6 o'clock next Monday morning in the church parlors.

A special train was run from Portage Lake to Calumet last evening for the accommodation of theatre goers who attended "King Dodo" at the Calumet theatre.

The Michigan College of Mines Glen and Mandolin clubs will give a concert at the Calumet theatre on the evening of May 2, under the auspices of the high school track team.

W. A. Paine of Boston, president of the Copper Range company, who has been in Houghton for the past two weeks, has left for Hot Springs, Ark., for a two weeks' stay.

Contractor John McCullom of Laurium, has started the work of remodeling the old life saving station at the canal. When completed the building will be the

home of Harbor Master Van Patten. A new stone foundation is being put in and the house will be enlarged.

Another ticket in opposition to the regular nomination ticket in Torch Lake township has been placed in the field. It endorses David Montague for clerk and Richard Cuddihy for treasurer.

Dan Washburn will make some improvements at his summer resort at the canal this spring. He will put in a telephone next week, a convenience that his friends and patrons will appreciate.

The Portage township caucus was held at the armory, Houghton last evening. W. D. Calverly was nominated for supervisor without opposition. Clerk Brand and Treasurer Healy were re-nominated.

Railroad men from Mass City yesterday brought the news that the North-western road surveyors are still working in the vicinity of Mass City for the proposed extension of the road from Watersmeet to Mass City.

Articles of incorporation of the Lake Linden Co-operative association, increasing its capital stock from \$20,000 to \$40,000, and the Portage Coal & Dock Co. of Hancock, capital \$100,000, have been filed with the secretary of state.

Treasurer Carl Silven, of Hancock township, made his returns of taxes collected during the past year to the county treasurer yesterday. Out of \$40,907.86 on the rolls Mr. Silven returned but \$1,770 delinquent.

At the meeting of the Hancock lodge, Knights of Pythias, tonight the rank of page will be conferred. Members who recently returned from Chicago where they attended the Pythian rallies at the Coliseum will tell what they saw and heard.

A man named Smith, who was wandering about the streets of Hancock Monday evening, apparently out of his mind, was taken in custody. An examination as to his sanity will be made. Smith has been up before for disorderly conduct.

The building at the corner of Dodge and Sheldon streets, Houghton, occupied by a saloon and a Chinese laundry, is being enlarged. Another story will be added and the second floor fitted up with other rooms. The property is owned by A. Haas.

The young ladies of the Calumet Episcopal church will give a play entitled, "The Huskies' Bee," at the Calumet theatre on the evening of April 15. Rehearsals are now being held under the direction of Miss Nellie Thompson. Miss Jessie Patterson will arrange the program for the entertainment.

The membership of Harmony camp, Modern Woodmen, of Hancock, is growing rapidly. At the last meeting eight new members were taken in and applications were received for nearly forty. The members are interested in securing new members and they have been very successful since the first of the year.

Michael Harrington, aged twenty-two, died at the home of his parents, Mr. and Mrs. Peter Harrington on Calumet avenue, Calumet, Monday afternoon after a lingering illness. He was operated upon last December for an abscess from which he never recovered. Besides his parents he leaves seven sisters and four brothers.

RHEA IS UNSEATED

HOUSE DECIDES IN FAVOR OF J. MCKENZIE MOSS.

OLEO BILL ATTACKED IN SENATE

SENATOR MONEY DENOUNCES MEASURE AS DISHONEST.

Appeals to Senate on Behalf of the Working People of the Country Not to Enact the Bill Into a Law.

Washington, March 25.—The house today by a majority of ten, unseated Representative Rhea of Kentucky (Democrat) and seated in his place J. McKenzie Moss, formerly a Democrat, but who, according to his brief, is in accord with the Republican party on dominant issues.

After the vote, the house began the consideration of the army appropriation bill with the understanding that the general debate should continue ten hours.

Representative Scarborough of South Carolina discussed the southern election laws and Representative Gaines of Tennessee the Philippine situation.

The house committee on foreign affairs today completed the Chinese exclusion bill and ordered a favorable report, which will be heard Thursday.

A sharp attack on the pending oleomargarine bill was made in the senate today by Senator Money of Mississippi.

On behalf of the working people of the country, he appealed to the senate to enact the bill into a law, and declared if it could be voted on by secret ballot it would not receive a dozen votes in the senate.

Senator Hansbrough of North Dakota began an argument in support of the measure but yielded the floor until tomorrow.

St. Joseph, Mo., Men Claim Success for Machine They Have Invented.

St. Joseph, Mo., March 25.—J. W. Weldon, a clerk in the auditor's office of the Burlington road in this city, and William Caldwell, a mechanical engineer, have invented an airship, which they declare to be thoroughly practicable, and which they expect to exhibit at the St. Louis exposition in competition for the racing prize.

The ship is to be operated on what is known as the dirigible principle. The car is surmounted by a gas envelope 100 feet long and forty feet high, varying in width from twenty-five feet at the top to eight feet at the bottom.

The envelope, the inventors say, will be capable of containing 7,500 feet of hydrogen gas, will have a lifting power of 55,000 pounds, and will travel at the rate of ninety miles an hour.

FROM POORHOUSE TO RICHES. Inmate of Baltimore Institution to Receive \$120,000.

Baltimore, Md., March 25.—Joseph Zane today left Bay View, the city almshouse, for Boston, to acquire his share of about \$120,000 in an estate left by his uncle of the same name valued at \$500,000. Zane for the last ten years spent a great portion of his time at the Bay View asylum. He was a favorite with his uncle, who again and again helped him to make a fresh start in life, but the nephew never prospered.

The estate includes much valuable property in Baltimore, nearly all of which is bequeathed to Joseph, together with \$20,000 in cash and one-third of the residue after other beneficiaries are paid.

The property will, however, be held in trust and Joseph only be permitted, for the present, to spend the interest. He has a wife and daughter in Norfolk, Va., and, according to the will, when he dies the money is to go to the daughter.

Tired Out

That's nothing. Every one is tired at times. The trouble is you can't get rested. It's your impure blood that makes the disturbance. Try Ayer's Sarsaparilla. Your doctor will tell you what is in it, and why it will help you so promptly.

"I suffered terribly for 12 years. The doctors said my blood was all turning to water. At last I tried Ayer's Sarsaparilla, and was soon in the best of health again."

Mrs. J. W. Flais, Hadlyme, Conn.

TRAFFIC ARRANGEMENTS OFF.

Pacific and United States Express Companies Break Up Combination.

DE WINDT 2,000 MILES ON WAY.

American Traveler Who is Journeying Overland from Paris to New York.

London, March 25.—Dispatches received here from Yakutsk, Siberia, state that Harry De Windt, who is at the head of an expedition which left Paris to make its way overland to New York, has had a rough experience.

The expedition has accomplished 2,000 miles of the land journey since leaving the railway. During the ride over 700 horses were employed. Mr. De Windt 2,000 miles distant, by the middle of April.

BARRY AND RUSSIAN FRIENDS. Good Relations Are Restored at New Chwang.

Peking, March 25.—Satisfactory relations between the Russian administrator at New Chwang and Commander E. B. Barry, commanding the American gunboat Vicksburg, have been established. The administrator has made adequate preparation for his refusal to recognize Commander Barry all winter.

The Russians have assumed a conciliatory attitude toward all foreigners in Manchuria since the announcement of the Anglo-Japanese alliance. Pending an agreement regarding that province the Chinese are still contending that Russia set a date for the termination of her occupancy of Chinese territory.

OSHKOSH HOSPITAL MYSTERY. Failure to File Notice of Sister of Charity's Death.

Oshkosh, Wis., March 25.—An air of mystery has been thrown around the death of one of the sisters of charity conducting St. Mary's hospital. All that can be learned is that the sister died suddenly and will be buried at Marshfield, where the remains of members of the order dying in this section are interred. The mother superior absolutely refuses to give the name of the deceased or anything about her, and has not filed any notice of death with the health authorities, as prescribed by law.

The city authorities have taken up the matter, and will ask the hospital people to file the necessary certificate. Though the woman was young, it was stated by one of her companions that she died of apoplexy.

COMING TO AMERICA IN APRIL. Santos-Dumont Confirms Reports of St. Louis Exposition Plans.

London, March 25.—Santos-Dumont arrived in London yesterday, bringing the air ship with which he intends to make a voyage over London during the coronation festivities. He said he proposed to sail for the United States, to which country he goes on his own initiative, early in April, and will consult with the authorities at St. Louis on the subject of the conditions of the exhibition competitions. The aeronaut confirmed his Paris statements to the effect that he thought an aerial course should be staked out around St. Louis by means of captive balloons, and added that competitors should be required to complete the circuit within a time limit.

Santos-Dumont also endorsed his previous statement that he hopes to inaugurate an international competition in New York about the end of the current year, and that he will remain in the United States about a fortnight.

FEAR LAKE TRAGEDY. St. Joseph Residents Are Concerned Over Finding Hull of a Yacht.

St. Joseph, Mich., March 25.—Local sailors and the residents of this town generally are concerned over the wreck of a pleasure yacht off this city. It is believed here that the crew and whatever passengers there may have been aboard have perished, and the helpless, dismantled hull may be the only monument of sailors who have found a watery grave.

The yacht was discovered by the crew of the fishing tug Lloyd M. Captain Henry Mithagen and Sailor Frank Wilcox saw the object, which they at first took to be a bunch of floating trees, but on putting about and steaming up they discovered the unknown craft. It proved to be an open sloop-rigged yacht, full of water, and with the main deck appearing but a few inches above the surface.

There were no signs of life on board, and no name could be made out either at bow or stern. The yacht is fully thirty feet long and would carry about thirty people. According to Sailor Wilcox it carried twenty-five seats arranged in circular form amidships. The mast was gone, and with it the section of decking between the masthole and bow.

A fact that makes it seem improbable to local sailors that the craft had broken away from its winter moorings was that a large portion of the main-sail, fibe and broken ropes with blocks attached lay over the port bow, dragged in the water. The rudder, still in position, gave additional evidence that the craft had not been idle all winter.

The sides of the craft were uninjured by floating ice, so it is thought that the craft had been drifting about long, but had probably put to sea during the last two weeks of pleasant weather. The high southwest gale which prevailed last Sunday is thought to be the cause of the wreck.

HOW TO CURE THE GRIPPE. Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger, among the tens of thousands who have used it for the grip, not one case has ever been reported that did not recover. For sale by Stafford Drug Co.

PALMA IS HOPEFUL

TALKS ENTHUSIASTICALLY OF FUTURE OF CUBA.

PLANS OF NEW GOVERNMENT

PRESIDENT-ELECT PAYS TRIBUTE TO UNITED STATES.

Says the People Have Remembered Their Own Declaration of Independence and Have Fulfilled Their Duty to Mankind.

Washington, March 25.—President-elect Palma, having concluded his conference with President Roosevelt and other officials on matters relating to Cuba, left for New York tonight. In an interview he reviewed the situation in Cuba and expressed himself hopefully of the future of the island. He said one of the first acts of the new government would be the appointment of a minister to Washington. As soon as this was done and a representative was appointed from the United States to Cuba, steps would be taken for the drafting of a treaty embodying the features outlined in the Platt amendment, which has been made an appendix to the Cuban constitution. This will include a provision for a naval station, probably at Guantanamo, although this is not settled, and the establishment of coal stations at points to be mutually agreed upon.

An Example of Good Faith. General Palma in closing paid this tribute to the United States: "The government of the United States has shown a most beautiful example of good faith in undertaking with the weak government which it undertook to rescue from its oppressors. It has demonstrated its generosity and patriotism, and by shedding its own blood has helped Cuba to break the chain which united it with Spain. Some countries would have sought some pretext for selfish gain in undertaking the work of this character, and would have taken advantage of some technicality for their own aggrandizement, but on the contrary, a spirit has been manifested by the United States, and it has given to the world an evidence of good will seldom found. The people of the United States have remembered their own declaration of independence, and have fulfilled their duty to mankind."

WALL STREET STOCKS. Market Reflects Expectation of Coming Triple Holiday.

New York, March 25.—Today's stock market began to reflect the expectation of the coming triple holiday from Thursday until Monday. So long an interval in trading always prompts some closing out of accounts.

There is an additional incentive that the narrow resources of the money market may lead to a flurry in rates when the demand develops for loans to carry over from Thursday until Monday. An extensive shifting of loans will be necessary to meet the situation. The bankers express confidence that the steadiness of the money market will not be disturbed, but speculators on margin with borrowed money know from experience this does not necessarily mean their call loan accommodations will be undisturbed at a pinch.

There was a revival of apprehension this morning of labor troubles in the anthracite region. Reassurances on the part of those connected with the coal interests that no strike was anticipated was not wholly effective and there was some active liquidation, especially in Reading.

The issuance of injunctions against western railroads forbidding rebates and rate cutting was not expected, but the reported determination of the interstate commission to hold further and stringent inquiry into the rate question was a surprise and had a chilling influence.

Preparations for further suits in the state courts against the Northern Securities company were to be reckoned with. The testimony of the principals in the great contest for the control of the northwestern railroads was read in Wall street, not with altogether a reassuring effect on the sentiment.

There was a slump of more than seven points in Evansville & Terre Haute, Minneapolis, St. Paul & Seattle, and Erie, and a recovery of about five points in the other lines. The market closed with a small gain.

Closing prices of stocks are reported by Paine, Webber & Co. as follows: Western Pac. 42 1/2, Union Pac. 40, N. Y. Central 162 1/2, Pfd. 100, Southern Ry. 9 1/2, Mo. Pacific 100, Alton 35, Mississippi 13 1/2, Sugar 132, C. & O. 103, Rock Island 17 1/2, Southern Pac. 65, St. Paul 163 1/2, Reading 91 1/2, B. & O. 102 1/2, C. & N. Y. 103, Canadian Pac. 115 1/2, P. C. I. 70, O. & W. 32 1/2, O. G. W. 33 1/2, Illinois Central 14 1/2, Pennsylvania 15 1/2, Leather 15 1/2, L. & N. 104, U. S. W. 22 1/2, Erie 69 1/2, Peoples Gas 10 1/2, Texas Pac. 40 1/2, Atchafalaya 37 1/2, Western Union 40 1/2, Northern Pac. 37 1/2, Smelter 40 1/2.

Range of Money Rates. Money on call, firm, at 4 1/2 to 4 3/4 per cent; closed, bid and asked, 4 1/2 to 4 3/4 per cent. Prime mercantile paper, 4 1/2 to 5 per cent. Exchange, firm, demand at 4 1/2 to 4 3/4 per cent, sixty days at 4 1/2 to 4 3/4 per cent. Bar silver, 53 1/2.

CHICAGO GRAIN MARKETS. Features of the Day in the Wheat, Corn and Oats Pits.

Chicago, March 25.—The wheat trade today was more moderate in volume and the market less active, the fluctuations covering 1/2 cent range. The operations were largely local, through the South-west was again credited with selling. The feeling manifested was rather steady and the close little changed. The seaboard and foreign advices were less encouraging to holders in regards to the cash situation. Spot at Liverpool was steady, with the futures 1/4 lower. The exports were 42,000 bushels, and—eighteen hundred—were reported taken on the coast. The local receipts were eighty-one cars.

Corn was fairly active and rather unsettled, the prices being subject to frequent changes within 1/2 to 3/4 cent range. The trade was mainly local. The final figures showed 1/2 cent decline. The futures were lower. At Liverpool the cables were off 1/2 cent, with spot unchanged to 1/4 lower. The local receipts were 207 cars.

Oats ruled nervous within a fair range and closed at net loss of 1/2 cent on May and July and steadier on September. May was hard either to buy or sell and the trade was moderate. There was good buying of July and September and liberal offerings.

The leading futures ranged as follows: May wheat opened at 71 1/2 to 72; highest, 72 1/2; lowest, 71 1/2; closed, 72 1/4. May corn opened at 88 1/2 to 89; highest, 89 1/2; lowest, 88 1/2; closed, 88 3/4. May oats opened at 42 1/2 to 43; highest, 43 1/2; lowest, 42 1/2; closed, 42 1/2.

Receipts and shipments were as follows: Receipts, Shipments, Flour, barrels, 26,000 26,000 Wheat, bushels, 35,000 95,000 Corn, bushels, 134,000 37,000 Oats, bushels, 226,000 198,000

BOSTON COPPER QUOTATIONS. The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.

IRISH LAND BILL

MEASURE IS INTRODUCED IN HOUSE OF COMMONS.

LITTLE ENTHUSIASM IS EVINCED

COMPULSORY PURCHASE IS NOT PROVIDED FOR.

Commission Is Authorized to Take Over Estates Whose Owners Are Willing to Sell and Resell Property Under Conditions.

London, March 25.—Chief secretary for Ireland, George Wyndham, introduced the Irish land bill in commons today. The main provision authorizes the land commission to take over the whole or any part of an estate whose owner is willing to sell. The commission may then resell it to the tenants, but the assent of three-quarters of the number of tenants is necessary before the commission will undertake to transfer any part of an estate. A landlord may himself repurchase not exceeding one-fifth of the total area thus becoming the tenant purchaser. The bill does not provide for compulsory purchase.

Cash Provision for Purchases. The bill provides that cash, not exceeding £5,000,000 to be outstanding at any one time, may be advanced to the commission by the exchequer, thus enabling purchases to be made on vastly larger scales than ever before.

The Irish members evinced little enthusiasm for the bill. John Redmond, the Nationalist leader, reserved his judgment until he had studied the provisions of the bill carefully. He warned the government that universal compulsory purchase must be the ultimate solution of the problem as nothing else would be acceptable. T. M. Healy (Nationalist) said he believed the bill would do something towards settling the question.

Redmond Censures Gully. John Redmond, leader of the Irish Nationalists, gave notice in the house of commons today of a motion, equivalent to a vote of censure on the speaker, William Court Gully, for not having made Colonial Secretary Chamberlain withdraw his remark, "The honorable gentleman is a good judge of traitors," addressed to John Dillon in the house, March 20, which led to Dillon to retort that Chamberlain was a "damned liar."

DIES FROM EXCESSIVE TALKING. Queer Fate of Man Who Regains Voice After Being Dumb for Months. McKeesport, Pa., March 25.—Talking too much caused the death of Isaac Getting, twenty-seven years old. Getting up to a week ago Monday had been speechless and deprived of memory for eighteen months owing to a spell of sickness. When he regained his memory and speech he seemed in a fair way to recovery. The doctors ordered that he should be quiet, but the nurses were unable to keep him from talking day and night. The physicians ascribe his failure to improve to his insistence upon talking.

SUIT AGAINST ARMOUR. Chicago, March 25.—The Italy Market company of Sioux City has entered a suit against J. Ogden Armour, the surviving partner of Armour & Co., to recover \$175,000 on account of alleged unfulfilled contracts.

Upperr Peninsula. An infant child of Mr. and Mrs. John Lehr of Escanaba is dead from small-pox. Mrs. Lehr had small-pox in a mild form for a fortnight past, and the disease was communicated to the child, which was only a month old at the time of death.

W. H. O'Brien, of Chicago, president of the L'Anse-au-Loup company, was in the village last week. He went there to look after the work of reopening the quarry, which will be worked during the coming summer on an extensive scale. From fifty to seventy-five men will be employed. The quarry is located about a mile and a half from town.

Mrs. Lucy Myrick of the Soo last week celebrated the ninety-ninth anniversary of her birth. The old lady, who is now in her hundredth year, is still comparatively vigorous and healthy. Her memory being remarkably clear. She was born in 1803 and one of the events of her memory is the tour of this country made by the great Lafayette, an occasion to which it is given for but few to recall. Mrs. Myrick was married in 1823 and in 1845 removed to Chicago when the great western metropolis was not much more than a cluster of huts in a swamp. Among her early experiences she numbers a wagon trip to Niagara, driving from London, Ont., to Addison, Vermont, and taking in the falls on the way. She comes of warlike stock, two of her uncles having served through the Revolutionary war. A brother bore arms in the war of 1812 and a son saw service in the Civil war.

STRIKES A RICH FIND. "I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run-down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Stafford.

"KING DODO" THIS EVENING.

Popular Comic Opera Will Amuse Marquette Theatre Goers.

A carnival of splendor, surrounding the realms of laughter and melody, properly describes the notable musical opera, "King Dodo," which holds the boards at the opera house this evening. The book is the work of Frank Pixley, the well-known Chicago librettist, and the music has been provided by Gustav Luders, whose name has become familiar through its connection with "The Burgomaster" and many popular musical creations during the past few years. "King Dodo" was first disclosed to public view

QUEEN LILI

in Chicago last spring, and to the surprise even of the management continued to regulate residents of the Illinois metropolis for a period of five months with unintermitted success. The presentment is under the direction of Henry W. Savage, associated with high-class operatic offerings in the larger cities for some years past, and this particular effort is said to surpass in every respect, all of the important productions credited to his management. The piece abounds in the brightest sort of comedy, and is set in a musical frame of rare excellence. The complete production is promised for this city, including sixty people and a special orchestra, and the scenic adornment, which is declared to be of a very elaborate description, will all be seen here. "King Dodo" is an operatic creation of a very high order, and money has been lavished without stint upon the production. The engagement in Chicago far outstripped in success and duration of time anything recorded in that city's theatricals, and this fact should be a guarantee of the superior excellence of the attraction.

It stands alone, it towers above. There is no other, it's nature's wonder, a warming poultice to the heart of mankind. Such is Rocky Mountain Tea. 35c. Stafford Drug Co.

TODAY'S WEATHER. Washington, March 25.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy Wednesday; Thursday, showers; fresh to brisk east to south winds.

Assist nature. There are times when you should assist nature. It is now undertaking to cleanse your system—if you will take Hood's Sarsaparilla the undertaking will be successful. This great medicine purifies and builds up as nothing else does.

Assist nature. There are times when you should assist nature. It is now undertaking to cleanse your system—if you will take Hood's Sarsaparilla the undertaking will be successful. This great medicine purifies and builds up as nothing else does.

Where to Stop When in Detroit.

Hotel Metropole, Woodward Ave. Opp. City Hall. European plan Rooms, \$1 per day; with bath, \$1.50

COPPERS DULL AND SOFT.

Moderate Selling Pressure Has a Weakening Effect on Values.

Hayden, Stone & Co. yesterday advised the Laidley Commission company, as follows concerning the Boston market: "The coppers were all soft today and very dull except Centennial, which is still the center of activity. In spite of Lawson's full denial this morning in print, we believe he is the prime mover in this Centennial deal and that it is going to be put up a little later. With the cessation of the manipulation in Arcadian it has dropped and Centennial is its former condition. The market is apparently to be marked down, but we think it intrinsically cheaper than most of the others." Paine, Webber & Co. said: "There was moderate selling pressure in some of the coppers all day and the buying was largely by shorts. Copper Range was firm on favorable reports from the Lake, including the news that the Baltic lode had been located on the Globe property, which appears to mean that another great mine will be opened on the south range. There seemed to be two factions at work in Centennial, one selling and the other buying. The market was firm in London and a shade heavier in New York. We can but repeat our recommendation to buy the best of the coppers on weak spots."

Grains Held Steady.

W. H. Laidley & Co. said of the Chicago grain markets: "Wheat opened lower, upon the cables and the fine weather throughout the winter wheat belt. The market was dull and neglected, but with a firm undertone closing at practically last night's figures. The receipts here were fairly heavy, but the estimates were light. The Northwest receipts were comparatively light. The primary receipts were fair, the shipments good and the clearances fair. Bradstreet's reported a decrease in the world's visible supply of 999,000 bushels, as against an increase of 23,000 bushels last year. The buying today was better than for some time, and while we look for somewhat lower prices, we would not hesitate to purchase July wheat upon a scale from present figures." "Corn opened lower, upon the cables and considerable commission house selling. There was very good support given the market upon all weak spots, bringing a close of 1/2 cent under yesterday. The receipts here were heavy, with the estimates lighter. The primary receipts were fairly heavy and the shipments and clearances light. Bradstreet's reports a decrease of 556,000 bushels in the world's visible supply, against an increase of 506,000 last year. Corn should see somewhat lower prices, but in view of the bull news from the Southwest and the character of the buying we would advise purchases upon recessions from these prices."

New York Stocks.

Walker Bros. advised Paine, Webber & Co. as follows concerning the Wall Street stocks: "The market today was not as active as yesterday and was confined to specialties. There was some profit taking after the opening and this continued throughout the day. There was a movement in Kansas City & Southern in the afternoon and Rock Island moved up. Amalgamated was weak and there was liquidation in it all day. The market was steady at the close and traders were generally hopeful and talked bullish."

TO GET IN FORM.

Milwaukee, March 25.—Hugh Duffy, manager of the Milwaukee team of the Western league, reached Milwaukee tonight. He expects to begin practice work about April 5, starting in at Rockford, Ill., and later visiting towns in Illinois, Indiana and Missouri.

GIVING OUT.

The Struggle discourages Many a Citizen of Marquette. Around all day with an aching back. Can't rest at night. Enough to make anyone "give out." Doan's Kidney Pills will give renewed life. They will cure the backache. Cure every kidney ill. Here is Marquette proof that this is so:

Mr. Charles Parr of 118 East Jackson street, foreman of Peckham's coal dock, says: "I was bothered a good deal for a long time with backache often very severe. I let it go for a time thinking it would wear off but instead it became more persistent. I then began to look for some remedy to give me relief, and seeing Doan's Kidney Pills so highly recommended, I procured a box at the Stafford Drug Co. and began using them. I had taken but a few doses when I felt the pains were leaving me. Since I finished the treatment I have had no indications of a return of the trouble." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

NOTICE.

U. B. of Carpenters and Joiners of America, local union 958, of Marquette Mich., demand that on or after the first day of April, 1902, the minimum wage shall be thirty-one and one-half cents (31 1/2 cents) per hour and that nine hours shall constitute a day's work. Dated Feb. 7, 1902. Signed and sealed, John G. Dumond, Pres. Jas. E. Scanlan, Rec. Sec. (2-10-4-1)

COUGH SETTLED ON HER LUNGS.

"My daughter had a terrible cough which settled on her lungs," says N. Jackson, of Danville, Ill. "We tried a great many remedies without relief, until I gave her Foley's Honey and Tar which cured her." Refuse substitutes. People's Drug Store.

CITY BREVITIES.

Today's weather: Fair, stationary temperature; fresh to brisk easterly winds.

Yesterday's temperature: 7 a. m., 37; noon, 48; 7 p. m., 50. Maximum, 50; minimum, 36.

Grabower's milliner arrived home yesterday. John McRae and family of Ewen are in the city.

Superintendent Lytle, of the South Shore, left for Chicago last evening. The county board of supervisors will meet today in regular monthly session.

Miss Bessie Billings arrived on her return from Manistique yesterday afternoon.

S. N. Dutcher, the jewelry banker, and wife were Marquette visitors yesterday.

Sam Mitchell, Jr., and ex-Mayor Neely of Negaunee had business in Marquette yesterday.

M. J. Sherwood was a passenger on last evening's train, bound for Chicago and Buffalo.

A. E. Miller is at Amasa, Iron county, today on business. He left for there last evening.

The city schools will close this afternoon for the Easter vacation. The sessions will be resumed next Monday.

Mrs. A. E. Delf left for Chicago Monday evening to join Mr. Delf on his return from Kentucky. They are expected back today.

Michael H. Moriarty of Crystal Falls and John Hennes of Menominee, members of the branch prison board, were in the city yesterday on prison business.

Among the visitors in the city yesterday were R. C. Hulbert of the Soo, Ira E. Randall of Houghton, W. F. Hill of Duluth and M. E. Gibson of Republic.

Members of Morse Hose company are putting in their spare time this week, decorating the Casino rink preparatory to the big ball to be given Easter Monday night by the firemen.

Francis H. Leggett of New York has settled for the 1901 taxes on the Grace furnace property. They amounted to \$1,007, and a check for the sum has been received by the county treasurer.

Mrs. Emma Stafford, at the green house, is showing a beautiful line of flowers for Easter. The pretty blossoms comprise many varieties and a strong demand has already set in for them.

The laying of steel on the Munising Railway east branch is to be resumed in a day or two. The work was suspended about seven weeks ago because of the deep snow and will now be pushed to completion.

At the city convention Monday evening there were loud calls for Wm. A. Ross when nominations were asked for chairman of the assembly. Mr. Ross, however, was not a delegate and was therefore ineligible.

The three-months old child of Mr. and Mrs. Onesime Daigault, 409 Washington street, died from meningitis yesterday. The funeral will take place this morning at 10 o'clock from the French Catholic church, with burial in the old cemetery.

New air cylinders are being installed in the South Shore's new coaches, which ever since their arrival a few weeks ago have been standing in the yards at the passenger station. The cylinders with which the cars were equipped at the factory through some mistake proved a trifle too large, hence the change.

Robert Lyons, of the Islipening office of the Oliver Iron company, and one of the most efficient and popular of that city's mining clerks, is spending part of his vacation calling on friends in this city. He contemplates visiting the copper country and Duluth before returning to his desk in the Hematite City.

The Macabees defeated the Queen City Hotel indoor ball team last evening by the score of 25 to 15. Archie Graham tossed the ball for the hotel aggregation and was accorded very poor support. Hogan pitched well for the Macabees, who put up their usual strong game. The contest was interesting despite the large score and was fairly well attended.

Members of Superior hive, No. 217, and of Busy Queen hive, No. 558, L. O. T. M., will meet at Fraternity Hall at 1:30 o'clock this afternoon to meet Great Lady Commander Burns, who comes from Detroit in the interest of the convention to be held here in June. Mrs. Burns wishes the members to be at the hall promptly as a good deal of business will claim their attention.

What is said to have been the first picnic of the season was held at Presque Isle yesterday. Those who participated in the early outing were Mr. and Mrs. H. B. Lyons, Mr. and Mrs. Allan Cowden, Mr. and Mrs. Addison Cole and Mr. and Mrs. F. G. Cole. The temperature was none too chilly and a happy time was had. A feature of the menu was maple syrup made this year on a Marquette farm, while arbutus picked on the "island" was used to decorate the table.

Alderman John Siegel has the thanks of The Mining Journal editorial and composing room force for a bountiful lunch of good things from his new and fresh grocery stock. Judging from the quality of the catables served the boys last evening, it is no wonder that Mr. Siegel is enjoying the big patronage the people are giving him. The souvenirs, by the way, which Mr. Siegel distributed to lady callers yesterday in honor of the opening of his new store, did not last through the afternoon, the demand being much greater than the supply, despite that the stock was thought ample for all requirements.

To test the merits of The Mining Journal advertising the Marquette Steam Laundry will do up lace curtains for 35 cents a pair, former price 50 cents, until April 15. (3-19-2w)

COUGH SETTLED ON HER LUNGS. "My daughter had a terrible cough which settled on her lungs," says N. Jackson, of Danville, Ill. "We tried a great many remedies without relief, until I gave her Foley's Honey and Tar which cured her." Refuse substitutes. People's Drug Store.

SCHOOLGIRLS KNOW ITS WORTH.

PAINE'S CELERY COMPOUND

Gives Them Energy, Soap and Full Life.

It Enables Them to Attain the Blessings and Vigor of True Womanhood.

Women and girls in every station of life who have used Paine's Celery Compound know that it is a blessing that sick and run-down females cannot afford to be without.

Mrs. J. M. Delf, the peerless queen of artists, voices the sentiments of thousands of women and girls who have tested the strength making and life giving virtues of Paine's Celery Compound when she says: "I have found Paine's Celery Compound the best of all remedies for the nervous exhaustion consequent upon the arduous work of my profession." Overworked women in the home, and weak, languid schoolgirls have found in Paine's Celery Compound the health and vigor it so strongly guarantees.

Ida Malloy, of Altaville, Ill., with the view of benefitting young girls, writes as follows: "I was taken last spring with what the doctors called nervous disease and neuralgia, and three or four doctors treated me all last summer without doing me any good. My father started to travel with me, and in our travels a friend told me to try a bottle of Paine's Celery Compound. My father bought a bottle of it, and it helped me so I took two bottles more which entirely cured me. My father has nervous headaches and he has been taking Paine's Celery Compound, and says it has done him five hundred dollars worth of good. We are using the fourth bottle in our family, and we consider Paine's Celery Compound worth its weight in gold for nervous and other troubles."

EASTER EGGS should be colored with Diamond Dyes, Four colors for Easter, 10c

NOTICE!

Comfort and pleasure, time and money saved for contractors and masons. Kelley Island Lime upon the market again, which has been long washed for by contractors and masons for its unsurpassed qualities of quick slacking and the greater product of mortar of any lime manufactured. I handle the Peninsular Portland Cement, the standard of America; a guarantee is given by the Peninsular Cement Co. that there is no cement manufactured that can surpass it for gutter, cross and sidewalk purposes. Also handle Gypsum hard wall plaster; it is as cheap as lime mortar, wall tints in all colors, calcine and lamp glass, fire clay, brick, sewer pipe, beech sand, saw dust, wood of all kinds; also do teaming and contract work. Figures quoted on car lots or less on any material in my line.

(Subscribers to The Mining Journal will please remember that carrier boys are not allowed to receive money on subscription account.)

SPUR TO PICNIC GROUNDS. Street Railway Line Will be Extended to Cleveland Park and Golf Links.

The Negaunee & Ishpeming Street Railway & Electric company had some work at work yesterday on the spur extending from the main line near the Union park to the Cleveland park and the grounds of the Ishpeming Golf Club.

Work on the spur was started last season, but it was then so hard to get the material necessary that the job was not finished. The trolley was extended part of the distance and the rails were also put down to within about two hundred yards of the entrance to the golf grounds.

The improvement is one that the amusement loving people of the city will appreciate. With the cars running to within a short distance of the main portion of both grounds a trip to either place will be much more pleasant than formerly.

Some of the members of the club have been around the links already, though the playing is not yet generally indulged in.

THE JESSE MITCHELL DEAD. The Examiner Herald, in the following article, tells of the death of a former Negaunee man and gives a short sketch of his career.

Captain James Mitchell, an old resident of Bessemer and a pioneer of this range, died at his home in this city on Thursday night of chronic stomach trouble, with which he had been afflicted for many years.

SOME TALK OF SECOND TICKET. There was considerable talk yesterday of a second ticket being placed in nomination.

A HIGH CLASS ATTRACTION. Theatre goes of Negaunee should hail with delight the coming of the "Baby Baby" company, which is billed to appear at McDonald's opera house on Tuesday evening of next week.

FRANK BENEY QUITE SICK. Frank M. Beney, who has been confined to his bed the past two weeks or more, is not improving as rapidly as his friends had hoped he would.

WEDNESDAY AND THURSDAY THIS WEEK. I will be pleased to have the ladies of Negaunee and surrounding towns visit my millinery parlors on the occasion of my Easter opening on Wednesday and Thursday of this week.

EASTER OPENING. I will be pleased to receive all visitors to my millinery opening on Wednesday and Thursday of this week.

HEPNER'S ICE CREAM. Hepner's ice cream in all flavors, also Hepner's cakes and bread fresh every day and delivered to all parts of Negaunee.

Champion.

TO WORK ALL SUMMER. The Silverthorn Lumber Co. Will Keep a Force Busy All Year.

The jobbers who operated camps out from here during the winter have pulled up stakes, but the Silverthorn Lumber company is still working crews at two different points.

Work will be resumed at the camps soon after the logs are down. The Silverthorn people have at least another year's good work in the woods near here.

JAKE SELLS COWS. One day last week a teacher in one of the lower grades of the Champion school asked her pupils if any of them could tell the meaning of the word "merchant."

ENTERTAINMENT POSTPONED. The entertainment and supper which the members of the local Lodge of Odd Fellows had planned to give at the town hall on the evening of Good Friday has been indefinitely postponed.

HOP MONDAY NIGHT. The young men who will manage the hop to be given at the town hall next Monday night promise all who attend it a good time.

LA GRIPPE QUICKLY CURED. In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe.

CHARLES JOHNSON, a former resident of Negaunee, who is now located at McFarland's Hill, was a visitor in town yesterday.

ORAL LACONIC, who is painting Sam Redfern's hotel at Munising, returned to that place yesterday, after spending a few days here.

HARRY MOORE spent Sunday with friends at Sault Ste. Marie.

MRS. J. FLOYD is visiting her brother, Will Russell and family, in the copper country.

MISS BUTTERFIELD of Crystal Falls was here last week visiting at the home of Matt Gibson and family.

G. B. YOUNG of Ishpeming has taken Joe Van Dyck's place as meat cutter at the Champion Co-operative society's market.

DELPHUS LAVIGNE has had a harness maker employed at his livery barn the past few days.

CHARLES MACK, foreman for the Silverthorn Lumber company, returned Sunday from a visit to his family in the copper country.

HEPNER'S ICE CREAM. Hepner's ice cream in all flavors, also Hepner's cakes and bread fresh every day and delivered to all parts of Negaunee.

SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to place upon the shoulders of the young.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood.

S. S. S. combines both purifying and tonic properties, and is guaranteed entirely vegetable, making it the ideal remedy in all scrofulous affections.

Write us about your case and our physicians will cheerfully advise and help you in every possible way to regain your health.

Dr. Williams' Indian Pile-Ointment will cure Hemorrhoids, Bleeding, Itching Piles. It absorbs the tumors and softens the bowels, thus acting as a positive, stress reliever.

Mr. Thomas Bell, an old resident of Champion, died about noon yesterday. She was aged seventy years and is survived by three daughters.

John Lawrence, who lost both eyes and his right arm in an accident at the Champion mine a few months ago, will locate at Sault Ste. Marie, where his father and a brother reside.

It is expected that the Chicago, Milwaukee & St. Paul Railway company will soon begin building a new roundhouse here to take the place of the one destroyed by fire Friday morning of last week.

There's no rest for those tireless little workers—Dr. King's New Life Pills. Millions are always busy, curing Torpid Liver, Jaundice, Biliousness, Fever and Ague.

Burdock Blood Bitters gives a man a clear head, an active brain, a strong, vigorous body—makes him fit for the battle of life.

Two things in the treatment of nasal catarrh are now fully understood. First, the drying process is a delusion that produces more mischief than benefit.

PARDONED BY GOVERNOR BLISS

ILL AND CAN LIVE BUT A FEW WEEKS AT BEST.

Italians at Iron Mountain, including the Men Visconti Shot, joined in the Plea for the Pardon and Will Care for Him.

Occupying a cot in the baggage car of the train leaving here at 6 o'clock last evening was a poor unfortunate whose earthly career is nearly spent and who at best, it is said, can live but a few weeks. The man was Giaonei Visconti, an Italian, who has just been pardoned from the penitentiary here and who, in charge of his brother, was being taken to Iron Mountain, his old home, to die.

One night several years ago a party of Italians were celebrating in an Iron Mountain saloon. The men grew rather turbulent under the influence of the liquor they were drinking, and in the quarrel that ensued the whole crowd pitched upon Visconti. The man was driven from the saloon and, with the small mob in pursuit, sought refuge down a nearby alley but in which he was finally cornered. Visconti was badly frightened, although armed, and feared for his life. In his excitement he pulled his revolver and fired into the party. Two of the men were wounded, but not dangerously, and Visconti was arrested.

The charge against the prisoner was assault with intent to kill, and on his being found guilty in the circuit court at Iron Mountain he was sentenced to a term of twenty-five years in the penitentiary at Marquette. Since his incarceration Visconti's health had given way, his complaint being consumption, and a short time ago application for a pardon was made in his behalf. The facts in the case were considered by the state advisory board, and on its recommendation Governor Bliss a few days ago issued the documents which made Visconti a free man. The papers arrived here yesterday and in accordance with them the dying Italian was given his liberty.

A remarkable incident in connection with the pardon of Visconti was the fact that the two men he shot joined in the application for clemency, together with practically all their countrymen at Iron Mountain. The italians there have fitted up quarters for Visconti and have agreed to take care of him as long as he lives, which from all accounts will not be an extended period.

GETS VERDICT OF \$100.

Former Marquette Boy Scores Against a Railway Company.

Fred Elliott, formerly of this city and now a resident of Port Huron, who while making a trip from Detroit to Port Huron on the Rapid Railway was recently ejected from the car because he held no receipt check for the fare paid, the conductor having charged on the car, has recovered a verdict of \$100 against the road for the humiliation he was subjected to. The testimony showed that Elliott had paid the conductor taking the car out of Detroit a through fare, but was not given the customary check to be taken up by the succeeding conductor. Elliott not being familiar with this method of doing business made no demand for such voucher and the conductor who took the car at Marine City refused to accept his word that he had paid his fare. Upon refusing to make another payment he was ejected. After being put off Elliott got back on to the same car and paid his fare to this city and subsequently commenced suit. The principle involved in the case is far reaching and the case will be appealed to the circuit court and ultimately will find its way to the supreme court for final determination.

MACCABEE SCHEME.

Opponents of Major Boynton Would Tie His Hands.

The anti-expansionists and opponents of Major Boynton in the Michigan great camp, Knights of the Maccabees, are proposing to take much of the power out of Boynton's hands should he be re-elected, which, according to the present laws of the order, are now vested in the chief executive. Amendments with this object obviously in view have been noticed and are fathered by the present executive committee of the order, which is antagonistic to the doughty major. The changes proposed are making the offices of the three members of the board of auditors, now appointive by the great commander, elective and further to make their audit subject to the approval of the executive committee, the appointment of district deputies now vested exclusively in the hands of the great commander, to be appointed thereafter by and with the approval of the executive committee; and limiting the prerogative heretofore enjoyed by the great commander of granting dispensations when seen fit so that dispensations waiving the operation of any section of the laws shall not be issued except with the approval of the executive committee. An amended section is also proposed to the effect that the executive committee shall have power to do all things which, in its judgment, will redound to the best interests of the order, not inconsistent with or contrary to the laws of the state of Michigan, or of the great camp, the reference being to actions in the interim of conventions.

These propositions will be voted on at the biennial review to be held at Marquette in June and will precipitate a red hot contest between the two forces. If they should carry on the floor of the convention, and Boynton should be re-elected, he would find his hands effec-

tually tied as regards carrying forward projects antagonistic to the wish of the executive committee. Two years ago Boynton owing to his personal popularity was elected by an overwhelming majority, but he failed in carrying with him the two elective members of the executive committee and from the preparations made it would seem that a repetition of the result then brought about is in some quarters anticipated.

LOOKING AFTER HIS FENCES.

Reports of the headway H. O. Young is said to be making in his campaign for the Republican nomination for congress in the upper peninsula district have disturbed Representative Carl Sheldon. He waited impatiently for several days to have the river and harbor appropriation bill passed through the house and now that the final vote has been taken on it he has hurried home to look after his own fences. The reports that Sam Stephenson is going to help Young rather puzzles some people in Washington. When Sam was here shortly after the holidays he hounded so much with Sheldon as to create the impression that they had buried the hatchet and became chums.—Washington dispatch, Detroit Tribune.

COMING TO MARQUETTE.

William Conlin, for the past twelve years section foreman for the D. S. S. & A. railway at the Soo, has resigned his position with that company and in a few days will leave for Marquette to enter the service of the L. S. & I. railway as roadmaster. Mr. Conlin's departure from the Soo will be regretted by his associates in the railroad service and by his many friends in the city. He has been interested in public affairs here during his residence and has served one term as alderman from the First ward. He will retain his property interests in the Soo, though he changes his residence to Marquette.—Soo News-Record.

OFFICERS ELECTED.

At a meeting of the local branch—Red Cross legion, No. 209—of the National Protective Legion last evening, officers were elected to serve during the ensuing term as follows:
President—Dr. Wm. H. Morse.
Vice President—Richard Sparling.
Secretary—Fanny Hoffmacher.
Treasurer—Laura Laremie.
Chaplain—Frances Grant.
Conductor—Maggie Wentworth.
Guard—Eliza Siootte.
Sentinel—John Harris.
First Trustee—Charles Gell; second trustee, John Harris; third trustee, Emelie Christenson.
Past President—Clarentine Gosford.

U. P. MEN INTERESTED.

Excursion to Be Run to the Kentucky Oil Fields Next Week.

Michigan capitalists are very much interested in the oil producing section of Kentucky, and a large and representative party will leave Detroit Monday night, March 31, by special Pullman train for Lexington and Raglands, Ky. Raglands is in Bath county, and it is there where so many paying wells have been struck, and where already considerable Michigan money is invested. A telegram on Friday last from that district announced the opening of a five hundred barrel well that day.

Pennsylvania oil field operators declare that Kentucky promises to be the greatest oil field ever opened in the world, and a speculative proposition that has not had its equal during the past century; and to get in on the ground floor, investors should take advantage of what is offered them by the special trip referred to.

A number of prominent men from Sault Ste. Marie, Marquette, Ishpeming, Houghton, Hancock and Calumet are figuring on joining this party, which will leave Detroit Monday, the 31st inst., and it is hoped that there will be a representative party from the upper peninsula.

For rates, routes and further particulars apply to D. S. S. & A. railway ticket agents, or to Geo. W. Hibbard, general passenger agent, Marquette, Mich.

D. M. & M. LAND GRANT BONDS.

The trustee of the Detroit, Mackinac & Marquette land grant mortgage recently stated in Washington that he would shortly purchase more of the bonds out of the money derived from the increased income of the property. In November last there was purchased \$250,000 of the bonds. According to the agreement with the trustee the rate of interest paid on the bonds outstanding is increased in proportion to the income received. Since the trust was formed \$2,400,000 of the bonds have been retired, leaving the amount outstanding \$2,000,000. These bonds were retired out of the proceeds of sales of the company's lands approximating less than 200,000 acres. This leaves owned by the trust about 1,100,000 acres. The land is in Michigan and a good deal of it consists of iron ore properties, some of which are leased under profitable royalties to prominent interests, including the United States Steel corporation.

AT HEPPEKES.

Leave orders early for HOT CROSS BUNS. To be delivered Friday morning in time for breakfast.

OUR EASTER MILLINERY OPENING, TODAY, WEDNESDAY, MARCH 26, 1902.

We beg to announce the opening of our Millinery Department, which will add another attraction to our establishment. We have transformed our west room on the main floor, formerly our carpet department, into a most elegantly appointed Millinery department, equaled by no other department north of Chicago. Today you will find it filled with palms and lilies and an exclusive and extensive display of Fine Millinery, which preceeds our Semi-Annual Opening a few days. Your Presence is earnestly requested.

A. T. VAN ALSTYN DRY GOODS COMPANY.
