POSTPONES FAIR

ST. LOUIS EXPOSITION MAY NOT BE HELD UNTIL 1904.

CHANGE WAS DECIDED YESTERDAY

CONGRESS MUST RATIFY ADJOURNMENT BEFORE IT IS SETTLED.

President Francis, of the Executive Committee, Says Additional Year Gained Will Be Used for Further Preparation.

St. Louis, May 1.—President Francis has issued a statement that practically postpones the exposition until 1904. Mr. Francis, in his statement says it was necessary that the date might be stated positively in the sundry civil bill pending before the senate and which carries upward of \$1,000,000 for the government exhibit at the exposition. Responding to a telegram from Washington to this effect, he consulted with many of the members of the executive committee as could be reached. Every one of over fifty heard from favored a postponement.

"I have therefore replied to President Carter, of the national commission, to that effect," says Mr. Francis, "and have asked that our conclusions be submitted to congress and to the president. I think there is no doubt as to the action to be taken and that it will be in favor of a postponement. An additional year of preparation will enable us to hold such an exposition as will be worthy of the great event we propose to celebrate. It will be truly international in character, and will, in my judgment, be participated in by every civilized country of the globe. We have no more time than will be needed in which to make the required preparations for the proper accommodation of the thousands of visitors who will be within our gates."

NAVAL CADETS TO GRADUATE.

A Michigan Man Stands Third in the List of Class Honors.

Annapolis, Md., May 1.—The last of the drills of the naval cadets incident to graduation took place today at an artillery drill. Henry G. S. Wallace, of Denver, Colo., heads the graduating class with a mark of 68.16. Among the other graduates and their marks are: Frank W. Sterling, of Chicago, 67.6; John W. Woodruff, of Ludington, Mich., 65.2; Ernest Adams, of Springfield, Ill., 63.4; George Julian Meyers, of Council Bluffs, Ia., 60.1; Gilbert J. Rowell, of Peoria, Ill., 57.4; Thomas Lindell Osborne, of Murphysboro, Ill., 57.4; Frank C. Martin, of Fairfield, Ill., 56.7; Frank David Hall of Milford, Ill., 56.1; Neill Ernest Nichols, of Bay City, 55.8; Julius C. Townsend, of Keokuk, Ia., 54.8; Earl P. Finney, of Winnebago, Wis., 53.8.

WELCOME TO KRUGER.

Rep. Burk Introduces a Resolution to That Effect.

Washington, May 1.—Representative Burk of Pennsylvania today introduced a resolution giving a national welcome to Kruger and requesting that the president proclaim our ports are not to be used by either of the South African belligerents for the shipment of horses or mules.

THE SILVER JUBILEE.

Imposing Ceremony Celebrated at Peoria Yesterday.

Peoria, May 1.—The silver jubilee consecration of the Right Rev. John Lancaster Spalding, bishop of the diocese of Peoria, was celebrated at St. Mary's cathedral this morning. The ceremony was the twenty-fifth anniversary of the occasion. At the cathedral Bishop Spalding celebrated a solemn pontifical high mass, and the sermon was preached by Cardinal Gibbons. Purses containing nearly \$10,000 was presented to Bishop Spalding for the establishment of a scholarship in the Spalding institute for boys. Over four hundred Catholic clergymen from all parts of the country, were present.

ROBBERS WERE BOLD.

Held Up a Kansas City Man in Front of His House and Secure \$5,000.

Kansas City, Mo., May 1.—O. H. Stevens, a pawnbroker, wife and little daughter were held up by two men to-day and robbed of \$5,000 worth of jewelry. The residence was ransacked and telephone tonight by one of the robbers, who was told that Stevens and his family had gone to an entertainment. The robbers concealed themselves near the residence and when Stevens and his companions alighted from the car robbed them directly in front of their home. The robbers returned Mrs. Stevens' ding ring.

ROBBERS FOILED.

Outwitted by the Bravery of a Railroad Engineer.

Paris, Tex., May 1.—Two men boarded the engine of the "Frisco" express last night near Seligman, Mo., and ordered the engineer to stop at a certain point. The engineer pulled the throttle wide open and was going down grade a mile a minute when the point was reached. The train could not be stopped and passed eight confederates who intended holding up the train, like a flash. The train stopped a mile beyond. The robbers aboard abused the engineer and on their order he let them off at a way station, and they escaped.

WANT ABANDONED ORDNANCE.

Havana, May 1.—Two officers representing the Spanish government have arrived at Havana for the purpose of claiming ordnance and ammunition left in the fortifications at the time of the evacuation by Spain. Military authorities here, it is understood, consider as worthless the larger portion of this war material.

FIX RATE OF SUGAR

HAVEMEYER SAYS IT WAS DONE TO CONTROL THE TRADE.

INVESTIGATION BY THE SENATE

BET SUGAR PRODUCERS ARE FORMIDABLE COMPETITORS.

For That Reason the American Company Lowered the Price and Started a Fight to the Bitter End.

Washington, May 1.—Havemeyer, during his testimony before the congressional committee today admitted that he regarded the beet sugar producers as competitors in the sugar combine. He also admitted that his organization had fixed the price of refined sugar in Missouri Valley points at 3.102 cents where the price before had been 4 1/2 cents, and the price in Atlantic coast points was still maintained at the higher figure. He also admitted that the price was kept down until they had recovered their trade.

Senator Teller Questions.

"Under these conditions," asked Senator Teller, "where are the beet sugar men to see their product?"

"I don't know. That is their business, and they won't tell me, because they know that if they did I would get at them again. I do not propose that they shall control the trade, and it is all I can do to take care of the American company's interests."

DANISH TREATY FIGHT WAS A DRAW

SECRET SESSION OF LANDSTING HELD ON PROPOSITION.

CONTEST FOR BANTAM CHAMPIONSHIP STILL UNDECIDED.

DECISION IS VERY UNPOPULAR

SPECTATORS SAY REAGAN SHOULD HAVE BEEN VICTOR.

Referee Siler Narrowly Escapes Assault at the Hands of Jack McKenna, Backer of Reagan.

St. Louis, May 1.—The twenty-round bout tonight for the bantamweight championship of the world between Harry Forbes, of Chicago, the present holder of the title, and Johnny Reagan, of Brooklyn, N. Y., was declared a draw. The decision was unpopular, the majority of the spectators being of the opinion that the New Yorker was entitled to the verdict. Jack McKenna, Reagan's manager, was so incensed that he had to be restrained by the police from doing bodily harm to Referee Siler. Reagan put up an excellent fight. His foot work and blocking and slipping of blows has never been excelled here, and he left the ring fresh and unmarked. Forbes, on the other hand, was very wild and in his delivery and throughout the fight failed to land a blow that in any way distressed Reagan.

FOR WORLD'S FAIR TERMINAL.

St. Louis, May 1.—The Rock Island railroad has paid \$225,000 for land on the north side of Forest Park to be used as a world's fair terminal.

ARCHBISHOP CORRIGAN BETTER.

New York, May 1.—Archbishop Corrigan's condition tonight is encouraging. He is sleeping quietly and pulse and temperature is normal.

GIVEN A LOVING CUP.

Rear Admiral Remy Receives Testimonial From Crew of Brooklyn.

New York, May 1.—The crew of officers and marines on the Brooklyn assembled on her deck this evening and presented a loving cup to Rear Admiral Remy. The vessel is of silver, lined with gold. It stands eighteen inches high. The presentation speech was made by John Mahoney, an apprentice boy, who thanked the admiral for his kindness to the crew. The admiral was very much affected and could say but little in reply.

AN EIGHT HOUR DAY.

Berlin Laborers Are Copying After the Americans.

Berlin, May 1.—The workmen of Berlin celebrated May day by holding forty-six meetings, at which resolutions were passed demanding an eight-hour day, labor reform legislation, and the enactment of commercial treaties in order to give the laboring population cheap food. They demanded also that the government withdraw the tariff bill.

DEFEND HIMSELF

AGUINALDO SHOULD BE ALLOWED TO SAY SENATOR CARMACK.

FILIPINO'S CHARACTER ATTACKED

INSURGENT CHIEF OUGHT TO BE GIVEN CHANCE TO EXPLAIN.

Alleged That Important Information Bearing on Philippine Question Has Been Withheld From Congress.

Washington, May 1.—Aguinaldo was the special subject of discussion in the senate today. As soon as the Philippine government bill was taken up Senator Carmack of Tennessee, resumed his criticism of the Philippine committee because of its refusal to call Aguinaldo and other Filipinos as witnesses. He maintained that as reflections by witnesses had been cast on the character of Aguinaldo he ought to be permitted "in all decency" to defend himself. Senator Carmack's contention was sharply combated by Senator Foraker, of Ohio, Comptroller of Maryland and Burton, of Kansas. Senator Culberson, of Texas, in support of the statement by Senator Carmack that the war department had suppressed information and falsified the Philippine situation, presented a letter from the secretary of war which he thought was proof of the Tennessee senator's assertion. The secretary of war stated in the letter that it was not practicable to supply the information requested because no special account was kept of the Philippine war expenses and it would require the service of a large force of clerks to work out the information desired.

SECOND BAD BLAZE.

Bettendorf Steel Axle Co. Suffers Another Big Loss by Fire.

Davenport, Ia., May 1.—A fire this evening destroyed the main portion of the Bettendorf Steel Axle company's plant. It was caused by the bursting of an oil pipe connected with the furnace in the coal boiler department. The loss is estimated at \$250,000. The company suffered \$200,000 loss by a fire last November.

TORNADO IN IOWA.

Considerable Damage Done to the Town of Bayard.

Des Moines, Ia., May 1.—A tornado struck Bayard, Ia., at 7:30 o'clock tonight. Two elevators at the Chicago, Milwaukee & St. Paul depot and a number of dwelling houses were destroyed. The agent of the railway is missing and is supposed to have been killed or injured. Telegraphic communication with Bayard is paralyzed by the storm. Details of the disaster are difficult to obtain.

THIRD NATIONAL CONFERENCE.

United Christian Party Met at Rock Island Yesterday.

Rock Island, Ills., May 1.—The third national conference of the United Christian party met today. Resolutions were adopted favoring a gradual reduction of the standing army and a settlement of international differences by arbitration. The platform of 1900 was reaffirmed and the party pledged itself to continue the efforts to make the golden rule a guide for national and state affairs. An immediate settlement of the differences with the Filipinos is urged and the war between Great Britain and the Boer republic is deplored. The international conference is to be held at St. Louis in 1903.

LABORERS ALL OVER THE COUNTRY HAVE LAID DOWN TOOLS.

WANT LESS HOURS AND MORE WAGES.

TWENTY THOUSAND WEAVERS ARE OUT AT BOSTON.

Building Operators and Other Trades Have Given an Ultimatum and the Outcome Is a Matter of Uncertainty.

Boston, May 1.—Strikes occurred today at a number of places in New England. No disturbances, however, attended. Strikes in the building trades occurred in several Connecticut towns and at a number of points in other states. One thousand teamsters are idle in Providence because the employers refused to advance wages.

The strike of the American Woolen company's weavers is extending and today 20,000 operatives are affected. Weavers in twelve of the plants of the combine are out.

Strike in Building Trades.

Bridgeport, Conn., May 1.—At Bridgeport, two hundred carpenters, plumbers and hod carriers quit, while at Hartford about 350 carpenters and joiners laid down their tools. Fifty carpenters are locked out at New Britain because the union refused to sign an agreement prohibiting the members from doing any work except for the regular contractors.

Reading, Pa., May 1.—Strike has closed the building mills, and a walkout of the hod carriers has suspended building operations.

New York, May 1.—Twelve hundred machinists and benchmen in a dozen large sawmills of the moulding mills of Hudson county, N. J., struck today for a uniform rate of wages.

Youngstown, O., May 1.—Two thousand men of the building trades struck this morning for an eight hour day and an increase in wages.

Buffalo, May 1.—Two thousand carpenters, structural iron workers and plumbers, struck today for an increase of wages.

Pittsburg, May 1.—May day was ushered in with strikes by the most of the building trades for a reduction of hours and more wages. Twelve to fifteen thousand men are out.

Other Labor Troubles.

Toronto, Ont., May 1.—Over a thousand men in various trades struck today for an increase in wages.

Rochester, May 1.—Five hundred drivers of coal wagons, members of the Drivers' union, struck today for higher wages and shorter hours.

St. Paul, May 1.—Three hundred carpenters struck today for an eight-hour day with increased wages. Other trades may be involved.

Webster City, Ia., May 1.—The yardmen at the brick and tile works struck today for an increase in wages. The works may be tied up.

West Superior, Wis., May 1.—One hundred spinners of the American Grass Twine plant struck today for an advance in wages. They declined to wait while the manager communicated with headquarters in St. Paul.

LOSING FLESH.

Are you losing flesh? If so, better consult your doctor at once. He will tell you the cause. We can provide the remedy, which is Scott's Emulsion of cod-liver oil.

A young woman in Batavia writes us she had lost twenty-five pounds in three months, and her lungs were seriously affected. She took three bottles of Scott's Emulsion and gained fifteen pounds, and was able to resume her work.

MARQUETTE, MICH., MAY 2.

Entered as mail matter of the second class at the postoffice at Marquette, Mich.

Nowadays, unless you want to be deceived by speculative stories, you will do well to decline to believe that a tremendous crop is assured because there is a day of rain, or that a ghastly deficit is certain because expected rain did not materialize, or that the acreage is vastly increased or astonishingly lessened over last year—in short you can well afford to wait for from four to six weeks before making up your mind absolutely as to whether the crop of 1902 will be above, below, or up to the average. This is a pretty big country and a right smart lot of acres are cultivated. There is a deal of climate, too, between Lake Superior and the Rio Grande.

England's fear that this country will wrest from her the maritime supremacy she has so long enjoyed is well founded. In the first place we have the traffic with nations across the ocean which will support an immense shipping interest; in the second, we are as a people possessed of an aptitude for maritime pursuits not second to that of the British themselves; in the third, we have the materials and skill at command for unlimited ship-building. But it now seems that we are not going to wait for ships to be built in order to take our place among the maritime powers in commerce. Our capitalists are acquiring vessels by purchase faster than they could be built. An American syndicate has within a short time secured six of the largest foreign lines of trans-Atlantic steamers and is negotiating for more. For the present these ships will continue to fly foreign flags, but they will be owned and managed by Americans, and in time there will no doubt be such modification of our shipping laws as will permit them to be admitted to American registry and made a part of our merchant marine by record as well as in fact. We have the money; we will get the ships, and, by Jingo, we'll have the title of "Mistress of the Seas" as well before many years go by.

NEW TREATIES NEGOTIATED.

The state department has negotiated new treaties bearing upon the proposed isthmian canal proposition with the states of Colombia and Nicaragua. This will bring the whole question before congress again in such a way that the two routes will be considered fairly and fully on their merits, respectively and in comparison, with an excellent prospect for wise action in spite of the efforts of a few senators and members of the house to force adoption of the Nicaraguan route.

Alluding to the opportunity the presentation of the new treaties will afford for obtaining consideration for the Panama route, the Chicago News remarks that the question of title has, apparently been settled definitely, and thus one of the chief objections to that route has been removed, Colombia being willing to transfer her title directly to the United States.

Both Colombia and Nicaragua ask cash concessions, but the amount in each case is the same. Nicaragua is willing to grant exclusive American control of the canal right of way and of a strip of adjacent territory. Colombia is willing to grant control so far as may be necessary for the operation and maintenance of the canal, reserving the right to exercise a measure of local government in the adjacent territory.

It is now the duty of the members of congress to brush aside all prejudices and weigh the advantages of the canals entirely on their merits as lanes of commerce. The first point to be considered is, which route is the better for the practical needs of commerce? The second question is, which can be acquired and maintained at least cost? If, as appears probable, the advantages in these regards are found to lie with the Panama route there will be no excuse for further opposition to that route. A canal bill can be and should be passed at the present session.

GOVERNMENT SHIP BUILDING.

We have before mentioned that the house committee on naval affairs has reported out a bill which contains a provision giving the secretary of the navy authority to have any or all of the war ships for whose construction provision will hereafter be made built in government ship yards, and making it mandatory on him to have at least one of the ships for which the bill makes provision built in a government yard. The secretary is known to be antagonistic to having any of our fighting ships built by the government so it may be expected that if the bill passes as agreed on by the house committee not more than one of the new ships for the construction of which this congress will make provision will be built in a government yard, the balance being given to private builders under the usual contract.

In view of the fact that the government has shipbuilding plants equipped for the work, there is no satisfactory reason that they should not be employed to their full capacity. The private yards have all the work they can attend to and during the past few years govern-

ment work has been shamefully neglected by them, penalties for non-fulfillment of contract remaining unenforced owing to loopholes in the contracts or to political "pull." With the government constructing its own ships, no contractor would be permitted to pocket profits on the labor of the workers employed in the building of the ships. Outside the material used, labor would get every cent expended. This would mean better wages and better conditions for the workers without any additional burden being imposed upon the taxpayers.

The provision for the building of one ship in a government navy yard, however, shows what may be accomplished through agitation. This concession is made as a result of the sentiment aroused by the labor organizations and the newspapers that have urged the building of warships in the government yards. The report accompanying the bill states that "in view of the fact that there is some public sentiment favorable to building ships in our government navy yards, it has been deemed advisable by the committee to insert a provision leaving it to the discretion of the secretary of the navy to build any or all ships in government yards, but making it mandatory on him to construct at least one battleship or one armored cruiser in such yard as he may designate, as an experiment." That is not enough, and congress should make mandatory the building of a sufficient number of ships in the navy yards to keep them fully employed, leaving to private yards the building of such ships as the government yards may not be in a position to handle.

SNAP SHOTS.

Mrs. John Peterson has returned from a visit to friends in the copper country.

Scholtzen & Perrault expect to have their single mill in operation within the next ten days.

Mrs. D. P. Householder was able to be around early in the week. She was ill a week or more.

William Geach has sold his farm here to a Finlander from Ishpeming. The consideration was \$850.

Mrs. George Voyer and her two youngest children are spending the week with relatives in Ishpeming.

The Chicago, Milwaukee & St. Paul Railway company is preparing to put a steam shovel at work here to load gravel for ballast.

There will be considerable trout fishing indulged in by Republic men this season. During the past week or more a number have prepared for their first outing.

R. T. Lynch left the village Monday for Butte, Mont., where he will engage in the barber business. A large number of friends congregated at the station to see him off.

Joe Labold and family have moved in with John Pascoe and family. They were obliged to quit housekeeping for the present on account of Mrs. Labold's health, which is not the best.

A traveling orchestra struck town Monday and a dance was given that night at the Woodmen's hall. The attendance was not as large as it would have been had the party been more thoroughly advertised, as the music was excellent.

Mr. and Mrs. E. S. Rowland were married thirty years on Tuesday of this week. They were tendered a surprise that evening by members of a social club to which Mrs. Rowland belongs. Gifts with pearl trimmings were presented to them. The function was a very happy one. The invitations were limited to members of the club, so that the gathering was not large.

HOLDS UP A CONGRESSMAN.

"At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed as if all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-around medicine ever sold over a druggist's counter." Overworked, run-down men and weak, sickly women gain splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by Stafford.

Had the weather been favorable many would have been turned away. The players made a big hit. Indeed the show was the talk of the town for several days after. All handled their parts in a manner that would do credit to professionals. The specialties between the acts were also very good. The performance moved along without a hitch.

On Saturday evening of this week the players will produce the drama at the town hall in Beacon. A large delegation will go over from here and all expect to have a pleasant time. Reports from Champion during the week were to the effect that a large number of reserved seat tickets have already been sold, and seating the performers that they will play to a large attendance.

Republic.

MULES UNDERGROUND.

It was a Most Difficult Task to Get Them Into the Republic Mine.

Mules, like facts, are stubborn things. The men who were entrusted with the task of getting four mules underground at the Republic mine one day this week had pretty lively work. The animals seemed to know that they were about to undergo something that they had never before experienced, and before they were landed on the cage it was necessary to tie their legs and double them up so that they were unable to move much.

The mules did some lofty kicking when the men attempted to put them on the cage. It was supposed that they would walk on and go down without making a fuss over it, but they made strenuous objection in their peculiar muleish way. For a time it was difficult to get near them; they seemed to be provoked at the treatment they were receiving and finally had to be forced into submission.

The antics of the mules attracted a large number to No. 9 shaft. The fun was greatly enjoyed by all except the men who were trying to get the stubborn animals into the mine. The men were glad when the work was finished. The mules will probably never see the light of day again. It is certain that they will remain below until they kick their last. They will be worked in tramming ore from No. 1 to No. 9, a distance of nearly half a mile. The tram was too much for the men, so that the mules or motive power became necessary to move the ore from one point to the other. Two of the animals will work by day and two by night.

TWO MARRIAGES NEXT WEEK.

The members of the town band, not the "musical" band, but the "noisy" aggregation, which wakes up the community about once a year, will be out next Wednesday evening. The band serenades only on occasions of marriages.

Usually its appearance is a surprise to the contracting parties, but this time warning has been given that "A Hot Time Will be Played" with all the variations at the members' command.

There will be two marriages in the village that evening. Miss Mae Dungey, a popular young lady of the place, will be married to Herbert A. Chandler of Marquette. The nuptial knot will be tied by Rev. Magahy, pastor of the Methodist church, at the home of the bride's parents, Mr. and Mrs. E. G. Dungey. Invitations have been issued to a number of the young couple's friends. Following the marriage there will be a reception at the home of Bengt Bengtson and Miss Alice Davidson, daughter of Aksel Davidson and wife, will be united in wedlock at 7 o'clock Wednesday evening at the Swedish Mission church. Later in the evening the young people will be tendered a reception at the home of Ole Wilson.

CRUSHER DOING GOOD WORK.

The new ore crusher at the mine has been in operation steadily during the week. A limited amount of ore was crushed at the plant last week, but on Monday considerable ore began to pass through the iron jaws. It was quite impossible to keep the chutes full so that the crusher would have all the work it could do. A switch engine and crew will be employed regularly moving ore to and from the crusher.

A NEW SCHOOL HOUSE.

Republic township will soon be provided with another school building. The authorities have decided to erect one in the southern end of the township, in the farming district. There are about thirty children down there who will attend the school. A very pretty site has been selected. It is near Munson's farm, close to the river. It is likely that the erection of the building will be started soon, though the school will not be opened until the fall term.

THEY MADE A HIT.

In spite of the very disagreeable weather on Friday night of last week, the amateurs who produced "A Night Outcast" were greeted with a packed house. Every seat was occupied and all the available standing room was taken.

COPPER COUNTRY
(Additional.)

CHEAP RATES.

Railroads Have Made a Big Reduction for Macabees Convention.

The following excursion fares for the round trip between copper country points and Marquette for the Macabees state convention to be held June 10, 11, 12 and 13 will be put in effect by the South Shore road: Calumet and Oscoda to Marquette, \$2; Hancock, \$2.00; Houghton, \$2.50; Dollar Bay, \$2.75; Mills, \$3; Lake Linden, \$3; Chassel, \$2.25; Baraga, \$2; and L'Anse, 2. Tickets at these rates will be on sale for the special train that will be scheduled to leave Calumet and Lake Linden at 6:45 on the morning of June 10. They will be valid for return passage on special trains which will leave Marquette at 9 p. m. on the same day and also valid for return on the train leaving Marquette at 7 a. m. June 11. If the holders of any of the excursion tickets desire to remain at Marquette any longer than the time specified they are to deposit their tickets with the agent at Marquette not later than June 11, receive a receipt for the same and when they are ready to return home will be given a ticket (any date prior to June 15) upon payment of the difference between the excursion fare and the rate of single fare. For instance a passenger for Calumet will pay \$1.30 while a passenger for Houghton will pay \$1.25. Special tickets will be issued for the occasion and will be supplied the agents at the several stations named not later than May 31, and the agents will be instructed to supply certain Macabees with tickets that they may see fit to issue on the date of the excursion. Bands in uniform will be carried at half of the excursion rates a party ticket being issued for the number of men in each band. Half of the excursion fares will also apply to children between five and twelve years of age. The above arrangements will be made after a conference by the committee on transportation appointed by the Macabees of the county with George W. Hibbard, general passenger agent of the road.

LIQUOR BONDS APPROVED.

The bonds of thirty-seven liquor dealers of Hancock were approved by the common council at its meeting Wednesday evening. The number is the same as last year. Two of the old saloonkeepers got out of the business but their places have been taken by two new ones.

A SEVERE NORTHEASTER.

A nor'easter storm prevailed on the big lake yesterday, setting in yesterday morning. Vessels in Portage

Lake and all local marine men were warned by the storm signals which floated from the tower above the weather bureau office at Houghton. Boats in harbor took the hint and remained inside. The storm is looked to end this morning in rain or snow.

RETURN TO BOSTON.

Representatives Wyman and Wadsworth, of the firm of Stone & Webster of Boston, which owns the Houghton county street railway and which will likely secure control of the bulk of the stock in the Peninsula Electric Light & Power Co. of Houghton, left for Boston yesterday. The gentlemen spent about two weeks in Houghton looking the plant over and securing a basis for a report that will likely decide whether or not the stock held on option by W. G. Rice of Houghton until June will be taken.

RIPLEY WILL BOOM.

The Arcadian Copper company owns in the neighborhood of seventy-five lots at Ripley opposite Houghton and Superintendent Shields has already had many inquiries about them from prospective purchasers. Ripley is fast opening up and the building of the new coal docks there by Pickands, Mather & Co. of Cleveland will serve to boom the real estate.

COPPERDOME BREVITIES.

The steamer Chicago of the Western line will arrive at Portage Lake points today.

Charles Deter of Reed City is now messenger in the weather bureau office at Houghton.

The Red Jacket council has approved the bonds of fifty-six saloonkeepers for the ensuing year.

Mrs. L. Miller of Houghton has left for a New York visit. She will spend several weeks in the East.

An enjoyable dancing party was given at the Hancock city hall last evening by the Portage Lake Dancing club.

Miss Josephine Kieker entertained thirty of her friends at her home in West Hancock Wednesday evening.

C. F. Ayers of Cleveland, representing Mark A. Hanna & Co., coal dealers, was a Hancock and Houghton visitor yesterday, calling on coal dealers for summer contracts.

The Houghton Light Infantry will give the first of a series of parties at the Army on the evening of May 9. The Calumet & Hecla orchestra will furnish the music.

William Glasson, the Quincy miner who was an inmate of the Hancock hospital nine weeks suffering from typhoid fever, left the institution entirely recovered yesterday morning.

The steamer Jay Gould, of the L. M. & S. Transportation company, arrived at Houghton yesterday. Before leaving the boat will take on 100 tons of ingot and manufactured copper at Dollar Bay.

William Carr, manager of Fuller's brokerage office at Hancock, has returned from French Lick Springs in Indiana where he stayed several weeks for the benefit of his health and Cincinnati and St. Louis.

Santry & Long's stock company will present "For Hearth and Home" at the Houghton Armory this evening for the benefit of Gus Hoarso, the well-known singer who is now at Mt. Clemens taking the baths for rheumatism.

Willie Lee, the Calumet Chinaman, who was recently arrested by Leg Post, an employee, for wages due, has settled with Leg as the court ordered, and the trouble in the Chinatown of copperdom's metropolis is now at an end.

The Haas Brewing company, of Houghton, has leased the saloon building recently occupied by Ferdinand Peltier, who left town and debts behind him, and sold the fixtures to Henry Goebelle. Mr. Goebelle will conduct the place in the future.

The Michigan College of Mines Glee and Mandolin club will give a concert at the Calumet theatre this evening for the benefit of the tract team of the Calumet High school which will compete in the athletic meet of the Upper Peninsula High schools to be held at Ishpeming on May 24.

SCIATIC RHEUMATISM CURED AFTER FOURTEEN YEARS OF SUFFERING.

"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale by The Stafford Drug Co.

WILL CURE CONSUMPTION.

A. H. Herren Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." People's Drug Store.

NERVOUS WEAKNESS
caused by brain or other excess and in advanced stages resulting in shattered nerves, weakness of body and brain, lack of all power, sleeplessness, depression, and other distressing symptoms to be cured by

They quickly and surely restore lost vitality and energy and give a man a steady business or marriage. Prevents insanity and consumption. Treats nervousness, headache, dizziness, and other ailments. They have cured thousands of cases. Write for a free trial. Each box contains 50 tablets. 50c. per box. 2 boxes for \$1.00. By mail, 2 boxes for \$1.50. The Stafford Drug Co., Chicago, Ill.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidneys will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scaling pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both free by mail. Address Dr. Kilmer & Co., Ditchampton, N. Y. When writing mention reading this generous offer in this paper.

Copper Country Department

(Additional Copper County on Page 2.) WILL PUSH OPERATIONS. E. W. Eldredge Will Start Work at the Stone Quarry.

J. H. Owens at Houghton in Interests of United States Express Company.

J. H. Owens of Milwaukee, traveling auditor of the United States Express company, arrived at Portage Lake yesterday morning to remove all the effects belonging to the company in the offices at Hancock and Houghton.

Separate offices in each town will be established independent of the Western Express company by the United States company because of the severing of all relations that have existed between the two corporations.

Mr. Owens has already established the office for the Houghton business at the Copper Range station at Houghton with Station Agent Leadbetter as the express agent.

An office will also be set up in Hancock. Wagons will be put on to cater to the express business in the two towns and strong competition in the express business at Portage Lake will hereafter be the rule between the now rival companies.

As soon as the extension of the Copper Range road to Lake Linden and Calumet is completed offices will be opened up at both places by the United States Express company which has the business over that road.

The two companies until recently have had close running connections. In the future the express of the United States Express company will reach Houghton via the St. Paul and Copper Range roads at 4 o'clock in the afternoon while that of the Western Express company which is in league with the American and all other companies opposed to the United States company will arrive at Houghton at 11:10 in the morning.

Since last September the United States Express company in the copper country and the same agents have acted for both.

GOES TO CHICAGO. Graham Pope Will Leave Today on Business Connected With New Opera House.

Graham Pope, of Houghton, will leave today for the East. He will stop off at Chicago to make a few necessary changes in the plans for the Houghton Armory and theatre to be erected this summer, remaining there two or three days.

Harvey Wright, a Chicago architect, made the plans and Mr. Pope will confer with him. Mr. Wright visited Houghton not long ago with the plans which were considerably changed by the building committee at that time.

The announcement in yesterday's issue that the opera house and armory for Houghton is now assured created a great deal of satisfaction in Houghton but not perhaps in Hancock where the new Kerredge theatre is now building.

Hancock and Houghton, each with a fine modern play house, should be well amused. One-half of the \$25,000 subscribed by various ones was paid over yesterday as stipulated in the contracts.

Were F. A. Veneay, one of the soliciting committee who worked unceasingly for the new project to remain in Houghton he would be the manager of the new house but as he will leave Houghton about May 15 it will be necessary to secure a new manager.

There is considerable speculation as to who the manager will be. Mr. Pope will return to Houghton in ten days. Bids for the structure will then be advertised for and in three weeks or a month work will be started. The new theatre is to go up on the site of the old Portage Lake Gazette building on East Sheldon street, the lot being donated by James R. Dee.

SOME IMPORTANT WORK. Supt. F. W. Cooley Will Be Busy in His New Field.

F. W. Cooley, who is to leave the superintendency of the Calumet schools at the close of this term to take charge of the schools of Evansville, Ind., will have some important work to look after in his new field, among which will be the building of a manual training school. The structure will cost about \$80,000, to be paid for by the citizens of Evansville and the school board.

Mr. Cooley was the one to interest them in the new department which will be as well equipped and as good as any in the country. Mr. Cooley has done much for Calumet's manual training school and is well versed in that part of school work.

You never heard of any one using Foley's Honey and Tar and not being satisfied. Sold by People's Drug Store.

FOR INFORMATION ON UTAH AND NEVADA Mining Stocks.

address GEORGE SLOCKETT, Sheldon block, Houghton, Mich., representing W. H. Child, member Salt Lake Stock and Mining Exchange, 424 Dooly block, Salt Lake City, Utah. Send at once for prospectus of the

Standard Oil Co. Is Putting One In at Ripley.

A new storage tank with a capacity of 25,000 gallons is being put in place by the Standard Oil company at its location at Ripley. The tank was brought to Houghton from Calumet where it was used for holding kerosene. It will be used at Ripley for the storage of gasoline. The tank was the only one at Calumet. It has been replaced by a larger one of 40,000 gallons. The company now has three tanks at Ripley, two for kerosene and one for gasoline.

The capacity of one of the larger of the kerosene tanks is 50,000 gallons and the other 50,000 gallons, making the total storage capacity with the gasoline tank 57,000 gallons. The total storage capacity at Calumet and Houghton is 615,000 gallons. This gives some idea of the amount of oil burned and used and of the Standard Oil company's business here. A tank for gasoline is something new for the Ripley station. The company is having a big demand for gasoline and it became necessary to have a special tank for it. The oil is shipped to coppermen in tank cars and pumped up into the tanks.

WHOOPING COUGH. A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it.

She says: Our three children took whooping cough last summer, our baby boy being only three months old and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy.

Our oldest little girl would call lustily for cough syrup between whoops.—Just a Pinkey Hurl, Springfield, Ala. This Remedy is for sale by The Stafford Drug Co.

EXONERATES THE DRIVER.

Coroner's Jury Says Lloyd Anderson Met Death Through Carelessness.

The verdict of the coroner's jury in the case of Lloyd Anderson, the Calumet boy who was run over and killed by a team of horses Monday afternoon, returned a verdict that the lad came to his death through carelessness. Duncan Cameron, the driver, was exonerated.

GRAY, HAIRE & STONE. John G. Stone Associates Himself With the Well Known Law Firm.

John G. Stone, of Ontonagon, son of Judge Stone of Marquette, will be W. C. Rice's successor as a member of the law firm of Gray, Haire & Rice.

The name of the firm will be changed to Gray, Haire & Stone. Mr. Stone is a young lawyer of ability, having a strike selling training in law and practice in the office of Hon. J. W. Champlin, justice of the Michigan supreme court, at Grand Rapids. Mr. Stone and family will remove to Houghton shortly.

TROUBLE SOON OVER. Carpenters Are on Strike but Matter Will Be Amicably Adjusted.

Nine-tenths of the carpenters of Houghton and Hancock, members of the Carpenters' union, went out on a strike yesterday morning. They refused to go to work on the terms offered by the contractors. The carpenters want to work nine hours instead of ten and receive no reduction in wages. The contractors will not give into the men. Just at present there is little center work in the town and it is considered a poor time for the men to strike on that account. Contractors believe that the trouble will last only two or three days. A few union men are working.

GOOD BOWLING SCORE. Clarence Funkey Wins the Prize for the Highest Average.

Clarence Funkey, of Hancock, again carried off the prize of \$5 for making the highest bowling score in ten pins at Dittler alleys during the month of April. His score was 228. Eugene Lavigne won the second prize of \$2 for scoring 72 pins out of a possible 90 in four-back. William Dittler made the highest score in the three-pin game, 45 being his record.

Other good scores in ten-pins during April were made as follows: Andy Hill, 242; Nelson Cappel, 238; Mr. Williams, 228; Will Ryan, 223; Fred Funkey, 218; Mr. Kenville, 215.

APPOINTED A DELEGATE. W. F. Miller Will Attend Conference of Charities and Corrections.

William F. Miller, of Houghton, yesterday received an appointment from Governor Bliss as a delegate to the National Conference of Charities and Corrections to be held at Detroit from May 28 to June 2. The conference has been awarded the commission to Mr. Miller. The appointment was unsolicited and came as a surprise to Mr. Miller, who was unaware that such a convention was to be held. He is well fitted to act as a delegate from this district as his office gives him a wide knowledge of the work for the past three years has brought him in close touch with work of the kind to be discussed at the conference.

IN THE CIRCUIT COURT. A Number of Saloon Cases Have Been Disposed Of.

In the circuit court yesterday morning Frank Distel, a Calumet saloonkeeper, was found guilty of violating the screen clause of the liquor laws. The jury in the case against Michael Brasso of Calumet on a similar charge was given the case shortly after dinner. The case against Peter Sachan was on call for the afternoon. In court Wednesday afternoon Arthur Tillman of Hancock was found guilty of assault and battery.

The liquor cases so far as this term of court is concerned were ended yesterday. Dan Pierce of Hancock has changed his plea from not guilty to guilty. The case against Jacob Silvermann and Nick Everts, both of Hancock, have resulted in disagreements. Both Silvermann and Everts were defended by John Power, a clever Escanaba attorney. Other criminal cases will now be taken up.

BACK TO ALASKA. Bishop P. T. Rowe Expects to Leave Today to Resume His Labors.

Rev. P. T. Rowe, Episcopal bishop of Alaska, who has been visiting his brother, S. C. Rowe, at Hancock, will leave today for Cincinnati on a two weeks' lecture tour. He will speak at St. Louis and Chicago on Episcopal missions in Alaska and will then go to San Francisco. Bishop Rowe is located at Sitka, Alaska, and has been in that country in the interests of the church for the past six years, traveling extensively during that time and establishing many missions. His missionary work has been productive of good results. He has been assisted by two young clergymen from Cincinnati. Bishop Rowe will sail from Seattle to Sitka in June and will be accompanied by Robert Rowe, his nephew, who is well known at Portage Lake as one of the best players on last season's famous hockey team. "Bobby" will spend a year at Sitka and will then go to Seattle to begin a four years' course in the University of Washington.

WHAT THIN FOLKS NEED. Is a greater power of digesting and assimilating food. For them Dr. King's New Life Pills work wonders. They tone and regulate the digestive organs, gently expel all poisons from the system, enrich the blood, improve appetite, make healthy flesh. Only 25c at Stafford's.

WHAT IS FOLEY'S KIDNEY CURE? Answer: It is made from a prescription of a leading Chicago physician, and one of the most eminent in the country. It is not a stimulant, it does not delay money can buy and are scientifically combined to get their utmost value. Sold by People's Drug Store.

AT THE WOLVERINE.

The Native Copper Times' Man Writes Entertainingly of a Recent Visit.

Last Friday morning the writer visited the Wolverine mine accompanied by Capt. Pollard. A short time sufficed for making the necessary preparations, and going to No. 2 shaft, the man car was hoisted and a few minutes later we alighted at the 11th level and then went south, some 3,000 feet, or to the limit of the property, passing Nos. 3 and 4 shaft en route. Then went down a stope to the 12th level and again traversed the drift for over half a mile. Laddered it to the 13th level, and dropped down a stope to the 14th. No stopping has been done below the 14th level, and very little in levels above noted, and then No. 3 shaft is down to the 22nd level, and No. 4 to the 18th, and the two shafts are connected to the 18th. The ladder was used for the remainder of the trip, which ended with going to the 21st level, and taking a peep at the bottom of the shaft, 100 feet below. About half the openings in the mine were gone through, and on every side was abundant evidence that we were in the Little Calumet & Hecla of the Lake district—in a mine that has openings ahead for a long time to come, and worked under the direction of an agent who will see that the reserves made each year will exceed the amount taken out, and one who has the ability of handling and manipulating the rock as cheaply, if not cheaper, than at any other mine on the Lake, and if the cost of making copper ore is to be lowered, it will be by Wolverine's neighbor—the Mohawk—and only for the reason that the ground reserves start from the grass roots, and should be hoisted at a lower cost. The Wolverine is prepared for its greater future, and a future that will be much longer than many anticipated, long enough to make its shares around \$50 one of the choicest on the investment counter. With a 12 cent copper market Wolverine will be an easy earner of \$4.00 per share, and where is the property that will do any better, if as well, and any advance in the price of the metal means as much for the Little Calumet & Hecla as it does for the Big Calumet & Hecla.

There are six 4-ton skips about completed, to replace the 2-ton skips now in use, which means that the same number of trips will bring up double the amount of rock, and the use of No. 2 shaft for sending men down and bringing them up greatly facilitates the working of the producing shafts, and is in the interest of economy.

There has been considerable delay in getting foundations, etc., for the heads, but one of the heads is now being put in, and the new mill, which will be the beginning of new history for the Wolverine will not begin pounding much if any before July 1. The Times congratulates Superintendent Fred Smith on the advancement of work at the mills, and on the immense available ground reserves in the Wolverine as well as in the Mohawk—and stopping ground that when sent to mill will yield very nearly as much copper per ton of rock as did the rock from Tamarack in 1901. At neither of these properties has there been any forcing in an attempt to produce copper but instead the Wolverine has been steadily opened ahead to meet the contemplated expansion, and the Mohawk prepared to easily supply the two heads that are now going in, with continually increasing ground reserves to care for the future. The mill that will be put in just so soon as conditions warrant, and not one month before. This, the policy of the Stanton people, is worthy of commendation, and others may wish they had done likewise ere a year or two rolls away.

From the 21st level we ascended at No. 3 shaft, to the 22nd level, and from there walked north to No. 2, and took the man car to surface, and shortly after left for home.—Native Copper Times.

AT THE BALTIC. John Stanton Is Very Optimistic Regarding the Future.

During his visit to this district last week, John Stanton made a close examination of affairs at the mine, to the ground and at the two ends of the mine. You will note on the longitudinal section, the fourth and fifth levels south of No. 3 shaft have passed the line of No. 1, or the old discovery shaft, and are in rich ground. How wide the lode is we do not know, but probably it is very large.

At the north end of the mine what is called the third level is being extended. Here the foot wall is very irregular with frequent intrusions of the underlying trap, but the lode shows good stamp rock. Here also we do not know the size of the lode, but we think it is good policy to push this drift as far as possible and determine the course of the lode (which still maintains a swing toward the west), and the proper point for locating another shaft north of No. 3.

We are opening a long stretch of productive ground, and it is demonstrated that no mistake was made in building a mill to contain four heads of stamps. The mine will furnish the rock by the time the fourth head will be available. I see no reason to change the opinion heretofore expressed that the average yield of the rock stamped will increase somewhat as we get to regular working, and as we are still stamping an undue proportion of rock from openings which must be got out of the way, and these openings should be continued if we are to use the four heads.

No. 3 shaft is now being sunk, and only the rock from sinking and drifting and cannot do more until the new hoist and large skips are in use. The Nordberg works are slow with the third head of stamps and will not promise to ship it before May 20, and therefore we cannot expect to begin stamping with this head before the middle of June. The fourth head ought to be ready in about six weeks thereafter, as the dressing machinery is now being set up, but I do not like to figure on starting this head before Sept. 1. These delays in getting machinery are exasperating, but will follow through lack of preparation, when mills and water come for the work is to be extended and carried

We Invite Your Attention

To our greatly improved service, strictly first-class and thoroughly up-to-date.

OUR DINNERS

served a la carte from 12 to 2 p. m., are proving a decided "hit." We handle all the delicacies of the season. Private dining rooms for parties of four or more persons. Special rates to regular boarders.

houses and six dwellings, and will add to these right along until we have accommodations for our entire force. The machine, carpenter and blacksmith shops are nearing completion, and an office building will be commenced shortly.

EXTENSIVE IMPROVEMENTS. An Outline of the Work Being Done at the Tonopah Mine in Nevada.

Following is a summary of the work going on, the improvements completed and under way in and about the Tonopah company's famous properties in Nevada:

The two-compartment shaft on the Valley View is down 140 feet. When the 150-foot mark is reached, cross cuts will be run and the sinking will continue. This shaft is intended to be one of the company's main deep-working shafts. The Valley View is splendidly located for extensive deep mining.

The Brougher shaft is down 300 feet, from which point there will be a cross-cut run to connect with the Valley View shaft. East and west drifts are being driven over the veins from the 300 level, and the rich body of ore encountered in the east drift in the Brougher shaft on the 250 level is now being out on the 300. The ore body mentioned in the 250 level is at present seven feet thick and averages \$500 per ton. The west drift in the Brougher shaft has been driven past the cutting ground into the Lynch & O'Meara ground. These connections are of vital importance to the working of the properties—insuring good air for the miners. The company extracts more shipping ore from the development work that is being done than the teams can haul away and as a consequence the ore dumps are increasing in size and volume.

The three-compartment shaft that is being sunk on the Mizpah ground is down 215 feet. The first station will be the 300 level. A cross-cut to the Brougher shaft from the 300 level will be started immediately that point is reached. The company has about 150 men on the pay roll at this time and new men are being added each day.

The company is fast completing its assay office. It is a four-room building, practically fire-proof, built of Nevada granite; the walls 2 1/2 feet thick, corrugated iron roof, redwood ceiling. The rooms will be used as assay office, assaying room, weighing room and drafting room. A commodious vault for the reception of maps, books, etc., appertaining to the office is a feature of the building.

The office building will be a stone structure, 30 by 40, containing a main office, manager's office, superintendent's office, stenographer's room, and a steel-lined vault for the safe keeping of the company's funds, books and papers. East of the main office building a short distance will be erected the company's buildings, consisting of quarters for the officers, spare room for visitors, etc., also stables, blacksmith and machine shops, store, compressor and ore hoists are already completed.

The initial work and improvement are, without one single exception, modern and up-to-date, and not one day's delay will follow through lack of preparation, when mills and water come for the work is to be extended and carried

on in the same practical and economical way as outlined by Manager Oldie and Superintendent Seibert.

Copper Gossip. John Stanton, who has returned to the East, says the Wolverine mill will start in July and the Mohawk in August. The Mohawk mine looks well. He is well pleased with the branch vein openings at the Michigan. Mr. Stanton says the low price of copper has resulted in increased consumption by American manufacturers amounting at least to 20 per cent more than a year ago. He believes, however, that present prices will predominate for some little time.

The Mass mine of copper vein openings at the Michigan. Mr. Stanton says the low price of copper has resulted in increased consumption by American manufacturers amounting at least to 20 per cent more than a year ago. He believes, however, that present prices will predominate for some little time.

The first train load of mining equipment and material from the Arcadian mine has been delivered to the Trimmontain. The indications are that everything will be taken from the abandoned Arcadian shaft, even to the brick and building material. It is believed that A. C. Burrage has taken this course in order to reimburse himself for amounts owed him by the Arcadian company, which were advanced to continue explorations when the funds of the company became exhausted.

A Boston broker says: "I cannot understand why 285,000 shares of Copper Range stock should sell for \$17,000,000, which is the price of the property, at \$60 per share. Allowing that the company produces 15,000,000 pounds of copper this year, and I do not believe it will, why should it sell for as much as Uscuela, Parrot and Utah combined, which have an output combined of 42,000,000 pounds of copper per annum at the present time, and are likewise going to increase their production?"

The exports of copper from the United States during April was 16,275 tons, thus making the total from Jan. 1 to date 65,765 tons, against 28,987 tons for the same period last year. The gain for this year was 36,778 tons.

The diamond drill at the Globe property has been moved from a point from which the Baltic lode will be attacked at a much greater depth. During the first operations the drill was operated to a depth of 1,920 feet.

A mass of copper weighing thirteen and one-half tons was recently encountered on the twenty-ninth level of No. 5 shaft at old Franklin property. One piece weighing four and one-half tons has already been hoisted.

The Boston News Bureau says that the Michigan is said to be considering two stamp mill sites, one at Ontonagon and the other near the Atlantic mill.

About 2,000 shares of Tonopah stock are held in Marquette county. Tonopah is one of the most popular western stocks in the copper country.

The London visible supply of copper is reported at 27,911 tons, a decrease of sixteen tons since April 15.

Foley's Honey and Tar contains nepiates and can safely be given to children. Sold by People's Drug Store.

Diphtheria, sore throat, croup. Instant relief, permanent cure. Dr. Thomas' Electric Oil. At any drug store.

CONVENTION OPENS

FEDERATION OF WOMEN'S CLUBS MET YESTERDAY.

HALL A BOWER OF LILLIES

ADDRESSES OF WELCOME MADE BY GOV. H. T. GAGE AND OTHERS.

Los Angeles Is Scene of One of the Largest Gatherings of Representative American Women Ever Witnessed.

Los Angeles, May 1.—The morning sessions of the Federation of Women's Clubs started with a meeting of the advisory council. Later the board of directors met. The convention proper opened at 2 p. m. with an invocation by Mrs. C. P. Dorland.

The Color Question.

Mrs. C. H. McMahon of Salt Lake City who was sent to the convention as a representative of P. E. O. chapter of that city, discovered that secret societies are not entitled to membership in the convention, and withdrew her claim to a seat as a delegate.

After the invocation at the opening of the convention today the addresses of welcome were delivered. Following a response by Mrs. Lowe, came the greetings of fraternal delegates.

Most was convicted of having published in his paper an article, which it was held by the court "tended to stir up the public peace."

WHITE STAR ENTERS COMBINE.

Announcement Is Made of Line's Agreement With the Ship Syndicate.

London, May 1.—The management of the White Star line (Ismay, Imrie & Co.) has issued an official announcement of an agreement with J. Pierpont Morgan's steamship syndicate.

The Morgan interests, the statement continues, gave notice to the White Star management yesterday that they would exercise their option—that is to say, the agreement would be continued.

INVESTIGATING BEEF TRUST.

St. Joseph, Mo., May 1.—Attorney General Crow, of Missouri, who arrived here this morning to investigate the status of the alleged beef trust, made a personal canvass of the retail butcher shops today.

TODAY'S WEATHER.

Washington, May 1.—The following is the weather bureau's forecast for Upper Michigan: Showers and warmer Friday; brisk to high east to southeast winds; Saturday, probably fair and cooler.

ADOPTS TOBACCO CLAUSES.

Berlin, May 1.—The tariff committee of the Reichstag today adopted the tobacco clauses, from 210 to 218 as proposed by the government.

A Wig

You don't see very many wigs nowadays. People have been educated how to care for the hair. That's one reason. Another is, Ayer's Hair Vigor makes wigs unnecessary. Nothing its equal for feeding the hair.

"For many years my hair has come out so fast every winter that I had to wear a wig. I tried Ayer's Hair Vigor. It stopped the falling, and made my hair grow so that last winter I did not use my wig at all."

Sarah F. Lewis, Pittsburg, Pa. All druggists. J. C. AYER & CO., Lowell, Mass.

PARDONS THE OFFICERS.

Riotous American Sailors Have Been Released.

WILL BE COURT MARTIALED.

Major E. F. Glenn, a Participant in the "Water Cure," Will Stand Trial.

Washington, May 1.—Following the precedent set in the case of General Smith, the president through Secretary Root, has ordered a trial by court martial of Major Edwin F. Glenn, of the Fifth infantry, one of the officers referred to as a participant in the administration of the water cure in the testimony developed before the senate Philippine committee recently.

WARING CAPTURES STAKE.

S. C. Hildreth's Entry Wins the Worth Handicap.

Chicago, May 1.—S. C. Hildreth's entry, Waring, and The Lady, ran one and two respectively today in the Worth handicap, which was the star feature of the Worth tracks opening day card. The race was at a mile and a sixteenth. The additional sum of \$2,000 was the prize that brought nine of the best horses at the track to the post. Hildreth's entries were the favorites at 15 to 10. Time of the winner, 1:46 3/5.

LABORERS REVOLTING.

Serious Uprising Announced in Russian Provinces.

Copenhagen, May 1.—A dispatch to Politiken from Russia, filed on the German frontier, announces that the labor population of the whole district between Moscow and Vladimir, in central Russia, is revolting. There have been numerous encounters between the workmen and the troops and many persons were killed or wounded.

MOST MUST GO TO PRISON.

Judge Parker Refuses to Interfere With Sentence of Anarchist.

Albany, N. Y., May 1.—The application of John Most of New York for a certificate of reasonable doubt in connection with his appeal from a judgment of conviction of violating the state laws relative to inflammatory publications, was yesterday denied by Chief Judge Parker of the court of appeals.

DEATH OF CAPT. ALBERS.

Commodore of Hamburg-American Fleet Expires of Apoplexy.

Hamburg, May 1.—Captain A. Albers, commander of the steamer Deutschland of the Hamburg-American line, fell dead in his chief officer's arms as his ship was approaching the port of Cuxhaven. Apoplexy was the cause of death, and it was surmised by the long strain put upon the captain by the loss of the ship's rudder at sea during the passage of the North sea.

CONSUL DICKEY IS REMOVED.

Louisiana Man Forfeits His Position at Callao, Peru.

Washington, May 1.—Investigation of charges made against W. B. Dickey of Louisiana has caused the state department to determine not to permit him to return to his post at Callao, Peru. He will be succeeded by Charles V. Herdlika of the District of Columbia, consul at San Juan del Norte, Nicaragua, and formerly secretary of the United States legation in Vienna.

PALMA WELCOMED BY SANTIAGO.

Santiago, May 1.—President Palma was welcomed by forty thousand people today. He was escorted by details of American cavalry and artillery and a long procession of Cubans from all parts of the province.

A COSTLY VISIT.

Chicago, May 1.—Rebates to the amount of 10 per cent. were today received by persons who contributed to the fund for the entertainment of Prince Henry when he visited Chicago in March. The total amount subscribed was \$25,000 and the expenses of the visit amounted to \$22,500. The cost of entertaining him was \$1,000 an hour.

IN FAVOR OF PEACE.

Pretoria, May 1.—Boer meetings continue to be held, chiefly in the Transvaal to receive the leaders and explanations of the British terms. It is understood that the heated discussions which have occurred have usually shown a majority were in favor of peace.

FILES BIG CLAIM.

Washington, May 1.—Through his attorneys, John Celestin Landreau has filed with the secretary of state a claim against Peru of one half interest in the reward of \$15,000,000 promised by that government to his brother, the original discoverer in 1865 of the Guano deposits. The claim is based on a contract alleged to have been made with Peru.

ARE NOT CAPABLE

FILIPINOS CAN'T GOVERN THEMSELVES SAYS AGUINALDO.

MADE STATEMENT TO MACARTHUR

CHAFFEE BELIEVES INSURGENTS WILL SOON BE PACIFIED.

A Withdrawal of the United States From the Islands Now Would Result in Chaos—Conditions Satisfactory.

Washington, May 1.—General MacArthur, before the Philippine commission today expressed the opinion that the rebellion against Spain did not have independence for its object.

Before leaving Manila General MacArthur said he had a conversation with Aguinaldo who told him he had been misinformed as to the character of the American people and the purposes of the American government.

Conditions Satisfactory.

New York, May 1.—Rear Admiral Remey, who arrived today on the Brooklyn after a tour on sea duty in the Far East, was interviewed on conditions in the Philippines. He said: "Concerning general conditions in the islands, General Chaffee told me that things were progressing satisfactorily—slowly but surely—and that pacification was only a matter of time."

PRINCE HENRY AS CANDIDATE.

Lubeck, Germany, May 1.—At a general meeting of the Lubeck branch of the Freisinnige-Party today a proposal was made and widely approved that Prince Henry should be adopted as a joint candidate at the next election of the members of the Reichstag by all the various parties representing the middle classes.

FORESTERS ELECT OFFICERS.

Los Angeles, May 1.—The supreme officers of the Independent Order of Foresters elected are: Dr. Oronhyateka, supreme chief ranger; J. M. Cameron, supreme vice chief ranger; Judge W. Wedderburn, past supreme chief ranger; John A. McGillevray, supreme secretary; Thomas Milan, supreme physician; E. C. Stevenson, supreme counselor.

GRANTS RELIGIOUS FREEDOM.

Berlin, May 1.—The Reichstag today passed the third reading of the first paragraph of the bill granting freedom of religious belief, association and public and private worship throughout the empire, limited only to the provision that this freedom shall not be used to the prejudice of civic or national duties.

C. M. & ST. P. IMPROVEMENTS.

Chicago, May 1.—The directors of the Chicago, Milwaukee & St. Paul railroad voted \$800,000 for the improvement of its shops in Milwaukee. Under two men who had been employed there and the projected improvements will give work to 1,000 more.

DETECTIVE KILLED.

Chicago, May 1.—Detective Patrick Duffy, of the stock yards' station was shot and killed this afternoon by one of two men who had created a disturbance and whom he attempted to quiet. The men escaped and at a late hour tonight were not arrested.

EPWORTH LEAGUERS MEET.

La Crosse, Wis., May 1.—The convention of the Wisconsin State Epworth league opened tonight with a reception to the delegates. A hundred delegates were present from all parts of the state and two hundred are expected tomorrow.

PROHIBITION IN KANSAS.

Topeka, Kas., May 1.—Today is the twenty-eighth anniversary of the adoption of prohibition in Kansas. Governor Stanley, in discussing the effects of prohibition expressed entire satisfaction and said it had been very beneficial to the people.

POISONED SELF AND CHILDREN.

Denver, May 1.—Mrs. John L. Kingsbury, wife of a foreman in a local laundry, poisoned her two children aged eight and twelve years, and herself this afternoon. All are dead. Despondency is given as the cause.

TRANSPORT SAILS FOR MANILA.

San Francisco, May 1.—The transport Logan sailed for Manila today with many passengers, a large quantity of mail, three thousand tons of supplies for the army and \$1,000,000 in specie to be distributed among the troops.

RECEPTION TO SCHLEY.

Jackson, Miss., May 1.—Five hundred people today gave Admiral Schley a warm welcome. There was a parade, speeches and a response by the admiral and a public reception.

SECRETARY MOODY TAKES OATH.

Washington, May 1.—William Henry Moody the new secretary of the navy took the oath of office at the navy department this morning.

ARMOUR EXPLAINS.

Kansas City Packer Tells Why Meat Prices Are High.

NEW YORK STOCK MARKET.

SEVERAL PERSONS INJURED.

St. Paul Train Collides With Street Car in Milwaukee.

IRELAND'S BIG FAIR.

Cork, May 1.—The international exhibition opened today with a brilliant street procession, in which the lord mayor and various city corporations and trade guilds, with bands and banners took part.

NOMINATED ELEVEN TIMES.

Des Moines, May 1.—Congressman D. E. Henderson was unanimously renominated for the eleventh successive time at the Third district convention at Waterloo today.

TORNADO IN CALCUTTA.

Calcutta, May 1.—A tornado has devastated the city of Dacca and adjoining towns. Four hundred and sixteen persons were killed and the crops ruined throughout the district.

REP. PRINCE RENOMINATED.

Springfield, Ill., May 1.—The Republicans of the Fifteenth district, at Galesburg, today renominated Congressman George W. Prince, of Galesburg, by acclamation.

NOMINATED FOR FIFTH TERM.

Cedar Rapids, Ia., May 1.—Congressman Cousins was nominated by acclamation for a fifth term at the Fifth district convention today.

AN AGREEMENT IS REACHED.

Pana, Ill., May 1.—An agreement between the coal mine operators and 600 employes has been signed on the same basis as last year.

THE ENGLISH NAVY.

Although the naval strength of England is equal to that of any three continental powers, it is stated they are planning several more powerful warships. They are determined to have the best and most efficient navy in the world.

CHICAGO GRAIN MARKETS.

Chicago, May 1.—In wheat today there was a fair trade, the interest increasing as the session advanced, the prices covering 15c 1/2 to 15c 3/4. The early tone was rather easy, but considerable strength developed later and the close showed 1/4 to 1/2 higher.

WANTS OTHERS TO KNOW.

"I have used DeWitt's Little Early Risers for constipation and torpid liver. They are all right. I am glad to endorse them," writes Alfred Heinze, Quincy, Ill. Never give up. Saffell Pills, Stafford Drug Co., H. N. Meloche, Ishpeming.

G. A. R. DEPARTMENT

Of Michigan, W. R. C., etc., Annual Encampment, Pontiac, Mich., June 11th-12th, 1902.

For the above occasion the D. S. S. & A. Ry will sell tickets to Pontiac, Mich., and return at single fare for the round trip.

Tickets will be on sale June 9th and 10th and will be good for return passage up to and including June 14th.

For further particulars apply to station and ticket agents, or to Geo. W. Hildbard, G. P. A., Marquette, Mich. (4-28-6-10)

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

NEW YORK STOCK MARKET.

Movement of Trade Was Uncertain Owing to a Flurry in Call Money.

SEVERAL PERSONS INJURED.

St. Paul Train Collides With Street Car in Milwaukee.

IRELAND'S BIG FAIR.

CORK, MAY 1.—The international exhibition opened today with a brilliant street procession, in which the lord mayor and various city corporations and trade guilds, with bands and banners took part.

NOMINATED ELEVEN TIMES.

Des Moines, May 1.—Congressman D. E. Henderson was unanimously renominated for the eleventh successive time at the Third district convention at Waterloo today.

TORNADO IN CALCUTTA.

Calcutta, May 1.—A tornado has devastated the city of Dacca and adjoining towns. Four hundred and sixteen persons were killed and the crops ruined throughout the district.

REP. PRINCE RENOMINATED.

Springfield, Ill., May 1.—The Republicans of the Fifteenth district, at Galesburg, today renominated Congressman George W. Prince, of Galesburg, by acclamation.

NOMINATED FOR FIFTH TERM.

Cedar Rapids, Ia., May 1.—Congressman Cousins was nominated by acclamation for a fifth term at the Fifth district convention today.

AN AGREEMENT IS REACHED.

Pana, Ill., May 1.—An agreement between the coal mine operators and 600 employes has been signed on the same basis as last year.

THE ENGLISH NAVY.

Although the naval strength of England is equal to that of any three continental powers, it is stated they are planning several more powerful warships. They are determined to have the best and most efficient navy in the world.

CHICAGO GRAIN MARKETS.

Chicago, May 1.—In wheat today there was a fair trade, the interest increasing as the session advanced, the prices covering 15c 1/2 to 15c 3/4. The early tone was rather easy, but considerable strength developed later and the close showed 1/4 to 1/2 higher.

WANTS OTHERS TO KNOW.

"I have used DeWitt's Little Early Risers for constipation and torpid liver. They are all right. I am glad to endorse them," writes Alfred Heinze, Quincy, Ill. Never give up. Saffell Pills, Stafford Drug Co., H. N. Meloche, Ishpeming.

METAL MARKET STRONGER.

No Pressure in Copper Stocks and the Prices Hold Firm.

Paine, Webber & Co. yesterday said concerning the Boston stock market: "There was practically no further realigning pressure in the copper stocks today, and the prices held firm. There are lots of bull traders here, but they are waiting at the moment, hoping to get stocks a little lower. The continued firmness of Amalgamated and the remarkable strength shown by the New York market when under pressure have reassured holders of long coppers. The copper market is stronger today. We do not expect the reaction in copper to go much lower, if any further. We believe the best coppers should be bought."

Wheat Market Very Strong. W. H. Laidley & Co. said of the Chicago grain markets: "Wheat has been strong. There were fair deliveries, two millions, but the grain went into the hands of shippers or back to the people who put it out. The clearances were large and the news from Kansas was very bullish, repeating reports of high winds and continued sand storms. Minneapolis advanced 2 1/2 cents and St. Louis showed almost as much as Minneapolis. The feature of the trade was steady Southwest buying. We believe wheat will sell some higher and would take profits on all break. Corn was very slow, with the prices up a little, almost altogether in sympathy with other grains. The so-called bull party was apparently resting, giving neither support or selling to prevent an advance. The deliveries were about 1,250,000; it was put out by elevators. There were some increases in the country offerings reported. Price Current said that corn had had a good stand south and was going in in good condition north. Corn ought to sell higher, but it is purely a manipulated market. "Patten took in all the oats of the delivery, and that fact has had some influence on the speculative mood. Shorts seemed inclined to cover all along the line. There was no great trade. Early there was a little selling of May against country purchases and later the feature was covering by floor traders. Outside of the Patten manipulation, there is nothing in the oats market."

Weakness in Wall Street.

Walker Bros., in a wire to Paine, Webber & Co., said of the Wall street stocks: "The market today was rather weak, with one or two exceptions, and there was a great deal of profit-taking all day long. The money rates were high and call money loaned as high as 15 per cent. This caused a great deal of selling. Pennsylvania was strong on the increase in dividend and this checked the selling for some little time, but late in the afternoon there was further realizing and nearly the whole list showed losses. L. & N. was bid up on a few sales. The close was barely steady with a great deal of stock for sale. Traders are inclined to take the bear side."

STRAIN TOO GREAT.

Hundreds of Marquette Readers Find It So.

The hustle and worry of business men, the hard work and stooping of workmen, the woman's household cares are too great a strain on the kidneys. Backache, headache, sidence, kidney troubles, urinary troubles, follow. Doan's Kidney Pills cure them all. Mr. John Smith of 116 Evelard Court, Menominee, a stationary dealer, says: "I had symptoms of kidney complaint for a long time and I felt that I ought to do something to better my condition. It was not serious yet it annoyed me greatly, especially when I caught cold, for it was hard for me to get down to sit in a chair and equally hard to rise. My back was weak and soon tired out and ached if I stood long or did much walking. When I saw Doan's Kidney Pills advertised to cure cases as mine I got a box at a drug store and the remedy did just what was claimed for it. In a short time all symptoms of kidney ailments were removed. Should it ever return I will look to Doan's Kidney Pills for relief. I can confidently recommend them to anyone."

Just such emphatic endorsements can be had right here in Marquette. Drop into the Stafford Drug Co., and ask them what their customers report. For sale by all dealers, price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no substitute.

Note the sleepy, tired look in your eyes. The fire of youth no longer burns. Take Rocky Mountain Tea. Brings back forgotten joys. 35 cts. Stafford Drug Co.

CONDEMNED IN MISSOURI AND CONFISCATED IN NEW YORK.

Judge Clarke of St. Louis has convicted and fined heavily a number of grocers for selling baking powders containing alum.

The week before the health department of New York seized a quantity of stuff being sold for baking powder which they found was made from alum mixed with ground rock, and dumped it into the river. The health authorities are thus taking effective means to prevent the introduction into our markets of injurious substitutes in place of wholesome baking powders. As alum costs only two cents a pound there is a great temptation for those manufacturers who make substitutes and imitation goods to use it. Alum baking powders can be detected by the health authorities by chemical analysis but the ordinary housekeeper, whose assistance in protecting the health of the people is important, cannot make a chemical examination. She may easily know the alum powders, however, from the fact that they are sold at from ten to twenty cents for a pound can, or that some prize-like a spoon, or glass, or piece of crockery, or wooden ware-is given with the powder as an inducement.

As the people continue to realize the importance of this subject and consumers insist on having baking powder of established name and character, and as the health authorities continue their vigorous crusades, the alum danger will, it is hoped, finally be driven from our homes.

CITY BRIEVITIES.

Today's weather: Thunderstorms and warmer; brisk to high northeast winds increasing.

Yesterday's temperature: 7 a. m., 38 degrees; 12 noon, 39 degrees; 7 p. m., 41 degrees; maximum, 41 degrees; minimum, 32 degrees.

Harry Pearce was here from Negaunee yesterday.

Dr. Gregory, the Menominee lumberman, is in the city.

City Attorney Brown had business in Ishpeming yesterday.

Born, to Mr. and Mrs. Joseph Vardon, South Sixth street, a son.

Mrs. M. J. Rice returned to Negaunee yesterday after a brief visit here.

President T. G. Sullivan of Monising was a Marquette visitor yesterday.

At 2:30 o'clock this afternoon the ladies of the Methodist Aid society will meet at the parlors of the church.

Miss Enid Withey has taken a position as stenographer in the office of the Michigan Telephone company here.

Persons having "Search Light" match cards can redeem them at Zerbel's grocery, getting a box of matches free.

The Young Woman's guild of St. Paul's church will meet this afternoon with Mrs. S. S. Ormsbee, Spruce street.

Miss Mazie Bryn is in Duluth, the guest of her uncle and aunt, Mr. and Mrs. L. S. Humes, formerly of this city.

The Ladies' Aid society of the A. O. H. Presbyterian church will meet in the church parlors at 3 o'clock this afternoon.

The Ladies' Aid society of the Baptist church meets this afternoon at the home of Mrs. W. W. Walker, 340 Arch street.

C. A. Eggers yesterday assumed his duties as city treasurer. W. W. Osband is assisting at the office for the time being.

The meeting of the Presbyterian Ladies' Aid society this afternoon will take place at the church parlors, beginning at 3 o'clock.

Dr. Fontaine lectured before the prisoners at the penitentiary last evening. It was a treat much enjoyed by the men behind the bars.

Alderman John Siegel, Thomas Price and W. A. Gray were among the successful fishermen yesterday. They brought back a good catch from Cherry creek.

The building committee of the board of supervisors, having in charge the construction of the new court house, will hold another meeting—the second—here Saturday.

Miss Fanny Mathews left last evening for Greenville, Tenn., to make a month's visit. She was accompanied by Mrs. A. L. Kibbey, her grandmother, who will stop off at Chicago.

Secretary Kern is sending out his semi-annual water bills. They are for water for consumption between May 1 and November 1, and if paid before the first of June will be discounted 10 per cent.

At the session of the Royal Arcanum to be held this evening, a report concerning the recent grand lodge meeting at Detroit will be made by Percy Delf, delegate. Later a banquet will be served.

John J. Thierney has sold to Jeremy Campbell of Chesley his property at the corner of Division and Jackson streets, described as Lot No. 3 of Block 6, of White's addition. The consideration was \$1,200.

Captain C. D. Blanchard has been appointed by Governor Bliss, delegate from Marquette county to the national conference of charities and corrections at

Detroit. The convention will be held from May 28 to June 3.

A meeting of the persons interested in the Saak's Head copper property will be held this evening at 8 o'clock at the office of Button & Culver. Election of a board of directors will be included in the business to be transacted.

Marriage licenses issued yesterday were granted to the following couples: William Tamblin and Beatrice Gribble, Negaunee; Emanuel Turkko and Hilja Nustala, Ishpeming; and Erick Hultgren and Hannah Hanson, Marquette.

George F. Desbro, of the G. & S. I. railway of Hattiesburg, is visiting friends in this section. He was formerly a well-known conductor on the South Shore road. Mr. Desbro is accompanied here by Captain H. Cole of New Orleans.

Percy Delf has taken the local agency for the Carpenter-Skiles Baking company of Milwaukee and is receiving fresh bread and rolls daily by express. The goods are going at Milwaukee prices and a good business has already been met with.

The trout season opened yesterday and morning found a number of followers of the gentle Isak whipping nearby streams. Some good catches were made in the harbor during the day. John Harland for one being noticed coming up the street bright and early with a string of fish.

The Ladies auxiliary to the A. O. H. will meet its state president Sunday afternoon at 2 o'clock at the A. O. H. W. hall. Addresses will be delivered and a short musical program rendered. The members of the auxiliary cordially invite all their Hibernian friends and families to attend the meeting.

A small army of children, comprising the pupils of the fourth, fifth and sixth grades at the Froebel school, boarded special cars yesterday afternoon and went up the beach near Presque Isle in search of arbutus. The merry party returned early in the evening with an abundance of the fragrant blossoms.

For the social hop to be given at Fraternity Hall Friday evening by the track team of the high school the following ladies will act as patronesses: Mrs. A. Mathews, Mrs. E. W. MacPherran, Mrs. G. P. Brown, Mrs. E. C. Thompson and Mrs. Phil Spear. The dancing will start promptly at 8:30 o'clock.

A petition from a citizen residing near the corner of Fourth and Bluff streets, asking that refuse in the yard of a neighbor be removed on the ground that it is dangerous to the public health, has been referred to the health committee of the common council, with power to act. The city attorney has been directed to assist the committee.

Isaac Yohannan, a Persian missionary, will lecture at the Swedish Methodist church on Sunday morning, and at the Swedish Lutheran church in the evening, appearing in Persian costume. Mr. Yohannan, who is the author of a book entitled, "Persia by a Persian," is in this country for the purpose of preparing himself for work among the unbelievers in Persia and Caucasus.

At 10 o'clock yesterday morning Mr. and Mrs. Jay Spear sailed from New York on the Hamburg-American line steamer Furst Bismarck, bound for Europe. They will spend several months abroad, first going to London and later making a tour of the continent. Their address while in London will be the Hotel Cecil. Mr. and Mrs. Spear will be in the English metropolises during the sum of the coronation and expect to witness the great coronation parade.

TRAVELING IS DANGEROUS. Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. H. Hanson, locomotive engineer, Lima, O., writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." People's Drug Store.

UNITED COMMERCIAL TRAVELERS Association of American, Grand Council of Michigan, Flint, Mich., May 16th-17th, 1902.

BROKERS ARE RELEASED.

Baumgartner and Bartle No Longer Prisoners at Iron Mountain Jail.

M. H. Crocker spent Wednesday at Mountain attending to the case of Bartle and Baumgartner, the Idaho stock brokers who spent the early part of the week in the jail here.

The brokers were released on the ground that the complaint on which they were arrested was irregular.

However, the Iron Mountain men did not consent to the release of the prisoners until Baumgartner assigned a large block of the stock he holds in the Great Eastern Mining company to the local director of the company for the protection of the stockholders on the range.

Secret Session Held.

The Iron Mountain stockholders held a secret session Wednesday morning to discuss the matter.

There was a meeting at the city council rooms of the holders of 'Great Eastern' mining stock. Business was conducted with secrecy and definite information was unobtainable.

When seen by a Tribune representative, Chas. A. Anderson, a director of the company, would make no statement.

The Evening Gazette of the same day makes this comment on the secret session:

This forenoon the local stockholders in the Great Eastern Mining company held a meeting in the council room.

Mr. Baumgartner, the secretary of the company, who is in jail here, for selling the stock at 20 cents a share when it was worth only four, has offered to turn over all the stock he owns in the company to those who bought stock from him at 20 cents.

The question of whether or not the officers of the company will compromise with the stockholders is yet to be determined.

A telegram came to Iron Mountain Wednesday to the effect that the officers would make good any claims the Iron Mountain people held against Baumgartner.

It is said that Baumgartner is the principal owner of the Great Eastern property and that he will have possession of a warrant for his arrest.

Among the many spectators at the hearing Wednesday evening was Jacob DoF of Marquette.

Don't Pay Big Prices for Dry Goods, Clothing, Etc.

New dry goods, clothing furnishings, millinery, etc., arriving daily. In low prices we lead. Finnish Mercantile Association.

"I had a running, itching sore on my leg. Suffered tortures. Doan's Ointment took away the burning and itching instantly, and quickly effected permanent cure." C. W. Lenhart, Bowling Green, O.

BONDS AND SALARIES.

Council Accepted Bonds and Adopted Salary List of Municipal Employees.

The business disposed of by the city council at the session held Wednesday evening consisted merely of the adoption of two reports, one from the committee on bonds and salaries and the other from the committee on salaries.

Liquor Dealers.

Thomas Simons, principal; John S. Olson and J. B. Wilber, sureties. Thomas Flannigan, principal; Thomas Hughes and John Malloy, sureties. Dominick Roti, principal; William McGinty and John Makinen, sureties.

Mike Koski, principal; Christ Olson and Joseph Govek, sureties. P. H. Donahoe, principal; J. J. Leffler and Thomas Hickey, sureties.

Rev. E. V. Isaacson, pastor of the Swedish Lutheran church, is in attendance at the annual meeting of the Illinois conference being held this week at Princeton, Ill.

Rev. Isaacson went down determined to work hard to have the name of the Northern Green Bay district changed to the Ishpeming district.

Miss Farm Gets Mention. The last issue of the Detroit Sunday News-Tribune contained a picture of Miss Tekla Farm, an Ishpeming girl who has been in the paper for the past eight months taking instructions in vocal music under Marshall Pease.

Many Teachers Will Remain. A large number of the teachers at present employed in the local schools have signified their intention of remaining here another year.

Will Visit Abroad. Fred J. Eggen, wife and four children, also Mrs. Eggen's sister, Miss Mary Anderson, will leave on the 22nd of this month for a three months' visit in Norway.

GREAT ACTRESS COMING.

Rose Coghlan, One of America's Foremost Stars, Will Be Here Wednesday.

A change of dates in another section of the country gave the manager of the Ishpeming opera house an opportunity to secure Miss Rose Coghlan for an engagement of one night.

Tall of commanding figure, sweet-voiced, and with an accurate knowledge of her art, Rose Coghlan sweeps upon the stage in "Forget Me Not" as Stephanie de Mohriart, mingling with the proudest of England's peers, prelates and dignitaries at a society function to go through three acts of a grim fight to maintain her position, using every weapon known to a desperate woman.

May Change the Name. Rev. E. V. Isaacson, pastor of the Swedish Lutheran church, is in attendance at the annual meeting of the Illinois conference being held this week at Princeton, Ill.

ISHPEMING IN BRIEF.

Captain Thomas Walters is expected home today from a business trip to the Mesaba range.

Cox Bros. have bought out the Pope saloon. They took possession of the place yesterday.

August Enblom has moved his saloon business from Second street to the Nolan building on first street.

The infant daughter of Mike Decaire died yesterday morning. The funeral will be held this afternoon from St. Joseph's church.

The Ishpeming City band's new uniforms have arrived, but the musicians will not appear in public with them until Midsummer day.

The mayor and members of the police committee of the city council went over the beats of the several police officers yesterday. Some changes may be made in the beats.

The degree team of the Finnish tent of the Maccabees has ordered thirty uniforms from M. C. Lilly & Co., of Columbus, O. They will be here before the close of the month.

Alex. Nelson is prepared to supply families with Michigan ice. He has a large supply left over from last winter. He also has other ice, which he will sell for cold storage purposes.

E. F. Bradt spent Wednesday night in Ishpeming. He was up from Sault Ste. Marie on business for the Algoma Consolidated company, of which he is the general superintendent of mines.

John Manley, who has conducted a saloon business in the Pengeha building on Main street for a number of years past, has sold out to Captain J. H. Skews, who took possession of the place yesterday.

Several Ishpeming people contemplate taking in the excursion to Republic next Sunday, when the ball teams of that place and Negaunee will play a game. The fare for the round trip will be seventy-five cents.

Mrs. John Keifer has returned from Chicago, where she attended the annual convention of the high court of the Catholic Order of Preceptors. She spent a few days with friends in Milwaukee on her way home.

John Dunstone, Jr., will leave next Monday for Loretto, where he will take a position under Captain John Wills at the Appleton mine. Mr. Dunstone has been employed at the Lake Angelina mine for some time past.

There will be a special meeting of the members of the fire department Monday evening to make arrangements for a fair to be held in Ishpeming the latter part of the month. An invitation is extended to the ladies to attend and co-operate.

The local office of the Metropolitan Life Insurance company has been moved from the Voelker brownstone block to the Dundon block, in rooms 2 and 4, which were formerly occupied by Mr. Dundon. The landlord takes room 11.

Miss Anna Lacey was given an agreeable surprise by her pupils yesterday morning. When she arrived at the school her desk was literally buried in cut flowers, potted plants, etc. The kindness of the children was very much appreciated by the teacher.

FOR SALE—One new side bar Brewster buggy, full leather top, and curtains, manufactured by Thomas Neville of Oshkosh; none better. Also one canopy top, two-seater, used one year, painted last summer, good as new; both rubber tires. Can be seen at the Nelson House barn, John F. Ostwalt.

WANTED—Two painters. Good wages. Steady work. W. J. Walters, Ishpeming. 4-24-11

Good Advice Offered by Good Women.

Womanly Counsel Which Brings Womanly Comfort.

Suffering women sympathize with each other. Even though their condition seems hopeless, there is a common bond of suffering which draws them together.

happy woman. Into such sympathy goes hope and help, good cheer and encouragement.

Suppose a woman suffering from some form of womanly disease, inflammation, ulceration, prolapsus or several diseases in complication. She is weak, worn-out, miserable.

Your neighbors recommend Doctor Pierce's Favorite Prescription for the cure of womanly diseases.

"My health is the best now that it has been for four years," writes Mrs. Fliche Morris, of Ira, Cayuga Co., N. Y., Box 52.

But the reader of this may say, "I do not know Mrs. Morris. I never heard of her. How can she be my neighbor?"

There is an ancient parable based upon this very question of neighborliness. It relates to a certain man who fell among thieves.

THE... First National Bank, NEGAUNEE, MICH. Capital... \$50,000.00 Surplus... 30,000.00

...Embalmg. ALL WORK SCIENTIFICALLY DONE Large stock of UNDERTAKER'S GOODS On hand.

Elias Dawe, Opposite Kirkwood Block. NEGAUNEE, MICH. Telephone or telephone orders have prompt attention.

PILES Dr. Williams' Indian... Piles are a common ailment... Sufferers should be careful to get the genuine.

stranger, an outcast Samaritan, to bind up the wounds of the injured man. And in answer to the question of "Who was this man's neighbor?" it was answered, "He that showed kindness unto him."

THOUSANDS OF NEIGHBORS testify to a cure of their diseases by the use of Dr. Pierce's Favorite Prescription.

"Several years ago I suffered severely from female weakness, prolapsus and menorrhagia, and used Dr. Pierce's Favorite Prescription with splendid effect," writes Fannie Shelton, of Washington, Iowa.

"I have recommended it to a number of my lady friends. I always tell them to buy a bottle and try it. They are not benefited by it if I will pay for the medicine. In every case they have spoken in praise of it."

CAN I BE CURED? At the last this question of cure comes down to a personal matter. After trying many medicines and local physicians in vain it is no wonder that some women think their case is exceptional.

There are certain medicines which contain stimulants or narcotics which make the person using them "feel good" for a time, because they dull the sense of pain, but they do not produce any lasting benefit.

Sick women are invited to consult Dr. Pierce, by letter, free, or to avoid the offensive examinations, indicate questions and obnoxious local treatments which the home physician often deems necessary.

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

FREE ON REQUEST. A 100-page book free for the asking. You get the People's Common Sense Medical Adviser, the best medical book ever published, free, by sending stamps to pay expense of mailing only.

TO INVESTORS! Our mining expert in Colorado predicted this slump in Elbert, and says now it is a good buy. Those who could not be induced to sell Isabelle at \$1.80 ought to be willing to buy now around 25c.

ROCK FOR STREET WORK.

Will Be Taken from the North Side of Teal Lake Bluff.

The Cleveland-Cliffs Iron company has given the municipal authorities permission to take rock from the north side of Teal Lake bluff for street building purposes.

Street Commissioner Thomas put several men to work yesterday drilling holes in the bluff preparatory to blasting.

The crusher will be operated to its full capacity for twenty-six days, with a view to giving it a good test. The city is privileged according to its contract with the concern to give the plant that many days' trial.

Rock from New Streets. Street Commissioner Thomas stated yesterday that there will not be a shortage of desirable rock. While the bluff could not be exhausted for perhaps generations, provided the crusher should be kept constantly in operation, there is no small amount of good rock to be obtained from new streets that will be opened up within the next few years.

There are several rock cuts to pass through in making these, and it is intended to crush all the rock taken from them and use it for dressing the streets.

GOES TO THE MAAS MINE. Christ Hansen, late superintendent of the water works, has accepted a position as pumpman at the Maas mine. He retired from his old position Wednesday evening and began work on his new job yesterday morning, so was not idle a day.

Mr. Hansen is considered one of the best pumpmen on the range. He had charge of the pumps at the Gerdens mine for some time before he was chosen by the city council to superintend the water works plant. Christ is a hard worker as well as skilled in his vocation, and will doubtless get along very nicely with his new employers.

WATER IS ALL OUT.

The water which came into the Maas mine shaft on Monday has been pumped out and a fresh start has been made on removing the sand. The sand filled in to a height of thirteen sets from the bottom. This brought it to where the pumps are stationed. The miners worked in the bottom yesterday, but the great part of the sand that came to surface was pumped out.

WILL SOON BE OPENED. Sam Redfern's new hotel at Munsing will be opened up for business very soon. Oral Lacombe, who had the painting contract, finished the job yesterday and is expected home today. It is said that the hotel is a great credit to the town. Mr. Lacombe has considerable work awaiting him here.

DEAFNESS CANNOT BE CURED

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube.

If you want swell floors put in the Parquet oak, which is tongued and grooved and blind nailed. It is the newest and best thing out, and just as cheap as other hardwood flooring. See Andrew Lindquist about it. It will pay you to get this material in preference to any other.

NO LOSS OF TIME. I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning.

TO ACCOMMODATE THOSE WHO ARE PARTIAL to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price, including the spraying tube, is 75 cents, and shipped by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character.

SAFE BLOWN OPEN.

Experts Tap One and Secure Good Boonie at Brampton on C. & N. W. Line.

A daring burglary was committed Tuesday night at the Chicago & Northwestern Railway company's depot at Brampton, a small station near Escanaba. It was reported here yesterday that between \$400 and \$500 was taken away. It was also said that about \$250 of the money belonged to H. E. Deveren, the company's agent.

The blasting of the safe did not attract any attention and the robbery was not learned of until the agent arrived in the morning. Entrance to the place was obtained through a window, from which a portion of the glass was removed. Powder was used in blowing open the door of the safe. The handle of the door was twisted off and the powder was placed in the opening.

A short time ago a man was sand-bagged and robbed of \$500 at Trombly, another small place down the line. The fellow who did the work was captured later at Sault Ste. Marie and is now serving a two-year term at the State Prison. A little over half of the money was recovered. The sandbagger spent the balance of the money in a gambling game. He would have got rid of the whole \$500 if the officers had not taken him when they did, as the money was going rapidly.

LOCAL LACONICS.

Phil Levine spent yesterday with his people in Republic.

Henry Swartzler is building a foundation under Al. Willman's dwelling.

Henry Rollus is doing considerable work in building and repairing sidewalks.

T. W. Simecox of Negaunee now has the Bell phone in his office. Just call for the stove man.

Louis Kellan has finished the foundation for his new business block in the eastern residence part of the city.

J. S. Mitchell and family moved yesterday into the house formerly occupied by his mother, the late Mrs. J. P. Mitchell.

Captain Samuel Mitchell has a swell new family carriage. It is one of the neatest vehicles of its kind in the county.

Harry Jackson has taken a position as fireman on the Lake Superior & Ishpeming line. He went down to Marquette yesterday to begin work.

Mrs. T. Morrisette has given up the management of the Montreal House and has moved to the home of her son. She has been at the hotel for some years past.

Rosen Bros. are showing a large assortment of Parisian dress patterns in their shoe department. They will be pleased to have the ladies call and see them.

John W. Elliott has taken a contract to paint Mrs. Lobb's dwelling, which is occupied by T. C. Yates and family. The painters will begin work there within the next few days.

A number of the young people of the city will accompany the baseball team to Republic Sunday. The special train should be well patronized. The fare for the round trip will be seventy-five cents.

R. G. Jackson, who has been in the lower peninsula for the past ten days on business connected with the Orphans' home which the Old Fellows' society will establish at some favorable point in Michigan, is expected home today.

Mrs. Joseph Longline left yesterday for Manchester, N. H., where she will be joined later by her husband, who remains here for the present. A. H. Knight has rented the dwelling vacated by Longline and will soon move his family over from Ishpeming.

A. H. Rolph, manager of the Upper Peninsula Rupture Institute, which was recently established at Escanaba, is spending a few days in the city working up business for the institution. Hon. O. B. Fuller is president of the company and J. C. Kirkpatrick, formerly of Palmer, is vice president.

Margaret, a daughter of Dennis Ryan, aged nine years, died yesterday morning of heart trouble. She had been ailing for some weeks past. Mr. and Mrs. Ryan are having more than their share of hard luck, about a year ago they lost a bright little son. Their many friends here deeply sympathize with them.

P. Bernard, the barber, has arranged to spend one day in each week at the hotel at Palmer. He will go out there regularly and will do a good business. He makes the trip at the request of a number at the location. Peter will pay his first visit to Palmer in the latter part of this month, when he expects to have something new in hardwood flooring. It is the parquet oak, which is tongued and grooved and goes in with the blind nails. He has a contract to put some of the flooring in Captain Samuel Mitchell's residence. It will be the first to go in here. The new material is becoming quite popular in some of the larger cities. Mr. Lindquist says it is a great improvement over any flooring he has ever seen.

NO LOSS OF TIME. I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning.

Eczema, Psoriasis, Salt Rheum, Tetter and Acne

Belong to that class of inflammatory and disfiguring skin eruptions that cause more genuine bodily discomfort and worry than all other known diseases. The impurities or sediments which collect in the system because of poor digestion, inactive kidneys and other organs of elimination are taken up by the blood, saturating the system with acid poisons and fluids that ooze out through the glands and pores of the skin, producing an indescribable itching and burning, and "I can cheerfully endorse your S. S. S. as a cure for Eczema. I was troubled with it for 25 years and tried many remedies with no good effects, but after using a few bottles of S. S. S. was entirely relieved."

SSS Write us about your case and our physicians will advise without charge. We have a handsomely illustrated book on skin diseases, which will be sent free to all who wish it. THE SWIFT SPECIFIC CO., Atlanta, Ga.

EXCURSION TO EUROPE.

Dominion Line New Twin-Screw Steamship "COMMONWEALTH" (10,000 Tons, 60 Feet Long.) THROUGH CARS TO STEAMER DOCK, BOSTON. Leave Ishpeming 4:10 a.m., Marquette 5:00 a.m., May 19. We Handle the "Best Wheels." Also Children's Wheels. COLUMBIA, HAMBLER, FEATHERSTONE, GOLF CLUBS, BALLS.

J. M. PERKINS, NEGAUNEE, MICH.

STATE OF MICHIGAN, County of Marquette. ss. At a session of the Probate Court for said county, held at the Probate Office in the city of Marquette, on the 17th day of April, in the year of our Lord one thousand nine hundred and two.

KODOL Dyspepsia Cure Digests what you eat. Artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation approaches it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gastralgia, Cramps and all other results of imperfect digestion. Prepared by E. C. DeWitt & Co., Chicago.

SLEEP SAVES LIFE. It is just as necessary as food. If you can not sleep, you can not rest your brain. And when your brain does not rest, there is a terrible draft on the nervous system. You become weak, tired and irritable. You become unfit for business and are approaching the brink of insanity.

Palmo Tablets. by resting and soothing the nerves, induce sweet, refreshing slumber, make the weak rugged, and the despondent hopeful and happy.

Old People Restored to Health. MEDERINE. Makes new blood, puts renewed strength into the whole system, strengthens the nerves, rebuilding the wasted tissues of the body.

EIGHTY LIME KILNS

THEY ARE TO BE ERECTED AT THE NEW FURNACE.

FOR MANUFACTURE OF CHARCOAL

RAILROAD TO THE SITE ALREADY STAKED OUT.

Contemplated by the Original Plans That Forty Steel Retorts Turn Out the Coal, but Kilns Are Decided to Be Better.

It is reported on reliable authority that a change has been made in the proposed plan of manufacturing charcoal at the new furnace the Pioneer Iron company is constructing near Dead river. It had been contemplated by the plans that forty steel retorts turn out the charcoal, but instead eighty kilns will do the work.

With the retorts in use, after the wood is stored away in them the steel receptacles are tightly sealed and the intense heat soon performs its mission. In a country where natural gas is the fuel used, the vents fill the bill perfectly, but in this section there was doubt whether the temperature of the ovens could be maintained as it should be, it requiring only about twenty-four hours under perfect conditions to convert the wood into charcoal, compared with several days with a system of kilns in use.

The long string of kilns will be so connected with the chemical department that the smoke and steam will not escape but will do their share in the manufacture of the wood alcohol which is to be a by-product of the plant. The kilns will be located in the strip between the furnace and the river, and the work of building a branch of the L. S. & L. into the territory has already been started. Over these tracks will be brought the material to be used in the construction of the kilns, and later the extension will be utilized for the transportation of the many cords of wood to be required as fuel.

At the Gladstone plant of the company the charcoal capacity is to be materially increased. Forty additional kilns are to be erected there.

TRADING ON SUNDAY.

Merchant Writes a Communication Urging That It Be Stopped.

To The Mining Journal: Within the last few days we have heard much discussion of the early closing movement which has, as we are all aware, met with favorable action on the part of the merchants and in consequence we have three nights each week when the stores are closed at 6 o'clock. This action, good as it is, and however much we may appreciate the early closing movement from it, should in my opinion have been made secondary to a general Sunday closing movement.

I believe that right in our city we are permitting violation of the law regarding the closing of stores on Sunday. If it be evil for the merchants and clerks of this city to insure unanimous agreement as to early closing of stores during the week, then much more is it essential that Sunday closing be observed, for if the practice of doing business on Sunday was to become general, then our hours of leisure and freedom from business cares would be seriously menaced. Again, must we not as merchants have some definite understanding regarding this matter? Are we to close on Sundays and compete in the same lines of merchandise with men who steal undue advantages, by even violating the law in their greed for trade? Will the men who open their stores on Sundays be honorable to an agreement for week night closing when they do business on Sundays contrary to law?

It is to be hoped that this question, already before the merchants' association and the clerks' union, may not cease to be agitated until by the concerted action of these two bodies, the evil of Sunday trading will be abolished.

To the twenty-three labor organizations and societies which expressed their sympathy with the clerks' petition, I for one ask that they give their moral support to the movement for the closing of stores on Sundays in accordance with the law.

MRS. M'CREA DOING THE WORK.

Mrs. A. E. McCrea, the landscape artist and gardener who has done considerable work in Marquette and at the Soo, has been engaged by the Chicago, Milwaukee & St. Paul road to take charge of the work of beautifying the station grounds of the company along the lines in the southern part of Wisconsin. Mrs. McCrea is now at work and the little station gardens at inland lake resorts are receiving attention. The company recently decided to plant hardy shrubs, roses, and other plants that would live year to year, and the work by Mrs. McCrea is the beginning of carrying out of this idea. Mrs. McCrea will also, it is understood, have in charge the work of beautifying the grounds of the passenger station here.

Headaches, dizzy spells, bad blood, rheumatism, indigestion, constipation, absolutely cured if you take Rocky Mountain Tea made by Madison Medicine Co. 35 cts. Stafford Drug Co.

SHINE YOUR BOOTS.

Gentlemen's ladies' and children's shoes shined at Rickman's barber shop, under Frei's bakery. (4-13-02)

SAD DEATH.

Mrs. Thomas W. Smith Expires After a Few Days' Illness.

The many friends of Mrs. T. W. Smith, wife of the assistant superintendent of the South Shore, were shocked and grieved to learn yesterday of her death, which occurred at the family residence, 380 North Front street, after a very brief illness.

Mrs. Smith, accompanied by her husband and their daughter, May, arrived Monday on their return from New York. Mrs. Smith had contracted a cold, and on returning home was compelled to take to her bed. Later pneumonia set in, and the patient steadily grew worse until yesterday the end came.

The deceased was about fifty years of age and was born at Piermont, N. Y. She had resided in the upper peninsula for many years, Mr. Smith having been connected with the South Shore for an extended interval in various capacities, and she was well known and highly esteemed by many throughout the district. Mr. Smith and Miss May survive. Mrs. Smith was a member of the Woman's Catholic Order of Foresters. The funeral will take place Saturday morning at 9 o'clock from St. Peter's cathedral. The interment will be in Holy Cross cemetery.

RECRUITING STATION HERE.

Captain C. G. Woodward to Open a Central Office in Marquette Today.

Captain Charles G. Woodward, United States army, arrives today to open a central recruiting station in Marquette and will remain for about a month. The office will be located in some suitable location either on Front or Washington street, due announcement of which will be made as soon as arrangements are completed.

This will now afford a good opportunity for men between the ages of twenty-one and thirty-five to enter the United States army, and the enlistments will include all branches of the service, viz: Cavalry, infantry, light and heavy artillery, hospital, engineer and signal corps, also the bands of various regiments. The term of service will be for three years and besides the monthly pay soldiers are furnished rations, clothing, bedding, hospital attendance, etc.; in fact, they have practically their entire month's salary intact save a few personal incidentals such as laundry, shaves, etc.

The captain is accompanied by Private Charles A. Norman, who is at the recruiting station, which has been here for some time on a similar errand. The best of results have been obtained by Captain Woodward in and around Menominee, from which place he will come here. Last year during the month of April there were thirty-two applications received in Marquette, of which number twenty-five were accepted, showing unusually good material in this section. The rule has been three to four rejections out of every possible five that applied elsewhere, so that Marquette has every reason to feel proud of her showing and naturally the captain has high hopes of good results on this trip. Dr. V. Youngquist will attend to the physical examinations. Details regarding the exact location of the office will be given in a day or two and in the meantime applicants can apply at the Central House, where Private Norman will gladly give all the information desired.

Captain Woodward and Mrs. Woodward will stop at the Marquette Hotel during the captain's stay here.

OBJECT TO RAISE IN RATES.

Woodmen Start Move to Defeat a Plan of the Head Camp.

It will be of interest to members of the order here to learn that Woodmen at Grand Rapids have exploded the first shell in a fight which is likely to shake the order from one end of the country to the other. As leaders in a movement for an attack on the head camp of the order they have made public a plan for thwarting the arrangement for an increase of rates which it is the idea to put into force at the coming meeting of the head camp at Indianapolis.

In brief they propose to organize the laymen of the fraternity of 700,000 delegates for the passage of an amendment to the constitution and by-laws of the national order, providing that any change in rates, per capita tax or assessments, must be accompanied by a referendum clause before passed.

ELECTRIC FLAT IRONS.

The electric light and power commission has received a consignment of electric flat irons, which are now on the market. Several have recently been disposed of here for use as experiment, and they have been found to work to perfection. Attached to the iron, which is nickel-plated and very handsome in appearance, is a long insulated cord that, attached to an electric light socket, supplies the current. It takes but four minutes to heat the iron to the right degree for ironing purposes and costs but three and a half cents per hour to operate it. There promises to be a big demand for the irons.

A LESSON IN HEALTH.

Healthy kidneys filter the impurities from the blood, and unless they do this this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. Sold by People's Drug Store.

"Use the cough and save the life." Dr. Wood's Norway Pine Syrup cures coughs and colds, down to the very verge of consumption.

LOW ONE-WAY SETTLERS RATES TO THE WEST.

During the month of March and April the D. S. & A. Ry., will have on sale to points in North Dakota, Montana, Idaho, Washington, Oregon and British Columbia one-way settlers tickets at greatly reduced rates. For full particulars apply to station and ticket agents or to Geo. W. Hibbard, General Passenger Agent, Marquette, Mich. (2-13-02)

MRS. MARY MORGAN DEAD.

Expected Home from Kansas Yesterday but Expired En Route.

Mrs. Mary Morgan, an old resident of the city and mother of Mrs. D. J. Gray, residing on North Third street, was expected home yesterday from Florence, Kansas, where she had spent the winter. Instead, a message came, chronicling the shocking news that Mrs. Morgan had died in Chicago. No details of the demise were received, nor was it known that the aged lady was ill. It is supposed, however, that Mrs. Morgan was suddenly taken sick before her train reached Chicago, or that she became ill while waiting for a northbound train, and was taken to a hospital, where the end soon came. The deceased was very well known throughout the city, and the fact that she is no more will be learned with surprise and deep regret by many persons.

PAROLED FROM PRISON.

Robt. Weaver Goes Free Providing He Stays in Marquette.

Governor Bliss has paroled Robert Weaver, sent from Grand Rapids in October, 1900, to the Marquette prison for five years for larceny. Weaver is paroled on condition that he remain in Marquette during the balance of the term for which he was sentenced, it being feared that his old companions might have a bad influence upon him if he returned to Grand Rapids.

While in a saloon, a companion dropped a roll of bills, which the loser claimed aggregated \$47. Weaver picked them up and gave each of two other companions \$5, keeping only a fiver for himself, he claimed. The loser of the roll admitted before the pardon board that the roll contained only \$15. None of the companions were prosecuted.

Weaver, who is a mulatto, will, it is understood, be employed at a local bar shop, the proprietor of which was his "first friend" in the matter of securing the parole. The released man, whose incarceration was really due to a train of unfortunate circumstances rather than to an action with criminal intent, has made a good record at the prison, and will undoubtedly make a good citizen.

SOUTH SHORE FREIGHT RATES.

Material Cut Made in the Tax on Lumber for Boston.

The freight rate men at the head of the lake will have a new subject for discussion in the new lumber tariff just published by the South Shore road. The new rate is 32 cents per hundredweight, a reduction from the former tariff of 35 cents. It is said that some lumber shippers are as follows: Class 1, 20 cents per cwt.; 2, 25 cents; 3, 30 cents; 4, 35 cents; 5, 40 cents; class A (car lots), 16 cents; B, 13 cents; C, 12 cents; D, 11 cents; E, 10 cents.

The tariff is the same as that that was published at the beginning of last season. It is to be effective until Nov. 30. The tariff was not maintained last year, because of intense competition between the all-rail and the lake lines, but it is said that everybody is going to be good this summer.

DRAYS GETTING BUSY.

Annual House Moving Movement is Under Way.

The regular spring house moving movement is under way and the draymen are beginning to get busy. There are indications on every hand, however, that there will be less moving this spring than in former seasons, for the reason that fewer houses will be vacated. Some of the houses vacated will be left by tenants who have seen the houses they occupy sold out from under them to people who will own their own homes.

WAS ON THE STEAMER PEWABIC.

To The Mining Journal—There has been so much said lately about the steamer Pewabic in The Mining Journal, that I will add a few more words to it. I was a passenger on the best from Ontonagon to Marquette on that fatal trip. It happened that I had a friend working at Collinsville at the time and as I wanted to see him I got off at Marquette. It was a fortunate thing for me, or else I would have gone down with the others. There was, in my opinion, too much fun, too much music, too much dancing on board. Someone told me that the captain of the Pewabic was arrested at Cleveland and charged with the guilt of negligence, and sentenced to two years' imprisonment, as it was his fault that the collision occurred.

PETER C. CANNON.

Negaunee, Mich.

ED ERBELDING PROSPEROUS.

Ed Erbelding, who several years ago removed from Marquette to Augusta, Ga., is enjoying a big business in the plumbing line and is kept busy looking after his contracts. As evidence of his prosperity, the following from an Augusta paper will be read with pleasure by Mr. Erbelding's many friends here: "Ed Erbelding has closed contracts for the plumbing and the installation of the heating plants at the Knoxville, Tenn. railroad station and the Dublin school at Dublin, Ga. Mr. Erbelding also has the plumbing contract of the Augusta Union station, the Georgia insane asylum at Milledgeville, Ga., and the Georgia railroad bank in this city."

WON'T FOLLOW ADVICE AFTER PAYING FOR IT.

In a recent article a prominent physician says: "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by The Stafford Drug Co. (4-12-02)

TUG PULLS ON BOURKE.

Attempt to Free the Stranded Schooner Is Made.

The big wrecking tug Favorite yesterday made its first attempt to release the stranded schooner Mary Bourke. A cable was made fast to the large, and for several hours the tug tugged away but with no very great success. Steam pumps have been installed on the Bourke and yesterday were in commission in an effort to lower the water in the hold, which still contains considerable of the lumber cargo. With the water lowered, it is understood the tug Schenck will assist the Favorite in the attempt to free the boat. The lumber taken from the Bourke is being loaded from the lighter to the large keelboat, which came down from Houghton in tow of the tug Morse.

Shoal Place Discovered.

The ore cargo of the steamer Chertaw is being lightered at the Presque Isle dock, after which the craft will proceed to the lower lakes under her own steam for repairs at drydock. It has been discovered by soundings, made by the insurance men since the mishap to the steamer, that there is a little less than eighteen feet of water at the spot where the propeller struck. The shoal place is abreast of the end of the breakwater and in line with the ore dock. It had been supposed the water was much deeper there. Next week systematic soundings will be taken in the upper harbor and at its entrance by the tug Schenck.

Later—Some three hundred tons of ore were unloaded from the Chertaw, and along toward evening the steamer returned to the lower harbor to await orders as to her departure.

Harbor Gossip.

The steamer Lansing, for Toledo, and the Ketchum and Andaste, for Ashtabula, took on cargoes of ore at the Presque Isle dock yesterday. From the South Shore docks, the Samoa cleared, being bound for Cleveland. The lighthouse tender Amaranth passed the Soo yesterday afternoon on her first trip to Lake Superior this season. She is due to stop here on the way up the lake, and is expected some time today.

The tug Major Dana owned by Whitney Bros. of Duluth, was in port yesterday undergoing an examination by the government inspectors, Captains Gooding and York.

Captain Tuttle of Milwaukee arrived in the city yesterday morning to look after the interests of the underwriters on the cargo of the wrecked barge Bourke.

The steamer Nipigon is taking on a load of lumber at the merchandise dock.

DRAYS GETTING BUSY.

Annual House Moving Movement is Under Way.

The regular spring house moving movement is under way and the draymen are beginning to get busy. There are indications on every hand, however, that there will be less moving this spring than in former seasons, for the reason that fewer houses will be vacated. Some of the houses vacated will be left by tenants who have seen the houses they occupy sold out from under them to people who will own their own homes.

There is more of a tendency this spring than usual, it is said, for people to move into better houses. Quite a number of people feel better able to pay more rent, and they are looking for more comfortable homes. On the other hand, there is quite a numerous class that have been looking for cheaper houses—no cheaper rent than they paid last year, but less than the owners are asking this year. There has been no general advance in rentals, but the advance is sufficient in some cases to cause the man of moderate income to scurry about in an effort, vain in most cases, to improve on his situation.

Another house-moving condition is furnished by the people that are renting their houses for the summer, many of them furnished. Indeed, it is said that more people will rent furnished houses this summer than ever before. These houses, however, do not go on the rental list, but are let direct to some friend of the owner.

REVEALS A GREAT SECRET.

It is often asked how such startling cures, that puzzle the best physicians, are effected by Dr. King's New Discovery for Consumption? Here's the secret. It cuts out the phlegm and germ-infected mucus, and lets the life-giving oxygen enrich and vitalize the blood. It heals the inflamed, cough-worn throat and lungs. Hard colds and stubborn coughs soon yield to Dr. King's New Discovery, the most infallible remedy for all Throat and Lung diseases. Guaranteed bottles 50c and \$1.00. Trial bottles free at Stafford's.
