A trial order will convince you that you don't need to send to Chicago or elsewhere for anything in our line. Don't forget the number. "Best Goods, Low Prices and Prompt Delivery," is our motto. J. W. McGuire & Co., 265 Front St., Marquette. Opposite First National Bank. (5-25-11)

A MORSEL FIT FOR LUCULLUS can be prepared by broiling a steak or chop over such a bright, clear fire as is made with our coal. It is the standby of the experienced cook, who knows just how to depend on his fire for baking, broiling and stewing purposes. Its long contained combustion, and strong, steady heat make it the coal par-excellence for cooking. JAS. PICKANDS & CO., Marquette, Mich. 309 S. Front St.

GHOULS AT WORK

BODIES OF VICTIMS OF ST. PIERRE DISASTER BEING ROBBED.

RELIEF BOATS ARRIVE AT SCENE

ERUPTION AT ST. VINCENT KILLED TWO THOUSAND PEOPLE.

Further Details of Catastrophes in the Lesser Antilles Confirm the Horrors of the Earlier Reports.

Port de France, Martinique, May 13.—The United States' government tug Potomac, which came to Martinique from San Juan, Porto Rico, cruised along the coast of this island yesterday afternoon. She encountered an inky black column of smoke which made it necessary for her to go five miles out of her course.

Words fail to describe the situation at St. Pierre. A small detachment of French troops are making efforts to inter the dead although the government seems strikingly unconcerned as to what is done in that direction. While coming to a boat containing five colored and one white man whose pockets were filled with coin and jewelry. The latter had evidently been stripped from the fingers of the dead. Lieutenant McCormick, commander of the Potomac, arrested these men and turned them over to the commander of the French cruiser Suchet for punishment. The Potomac also brought a ton of supplies to Martinique.

Very Few Corpses Found. Strange to relate, in view of the number of people swept to death, very few corpses are found. This is due to the fact that the most populous quarters of the town are buried under a thick layer of cinders and lava, which apparently entirely consumed the bodies of the victims.

When the cable repair ship, Pouyer-Quertier, started on her mission of mercy, she had to pass through clouds of burning cinders, at the risk of catching on fire, in order to reach the terror-stricken people ashore. She succeeded in bringing to this port 456 people, mainly former residents of La Precheur. Since then the steamer has succeeded in bringing many others. Sunday she rescued 923 and piloted the French cruiser Suchet and the Danish cruiser Valkyrien, who took on board fifteen hundred persons.

Path of Volcanic Torrent. The path of the volcanic torrent is marked out in a strange manner. The vicinity of the shore, where the vessels were anchored, was swept by a whirlwind of volcanic gas, which ripped, tore and shattered everything in its passage, but left a few traces of cinders behind. On the other hand, the Port, and the center and adjoining parts of St. Pierre are buried under a thick layer of cinders, which consumed everything beneath it.

The northern section of the island of Martinique is depopulated. Provisions are needed immediately for 100,000 people. Mont Pelee was still erupting smoke and fire at a late hour last night.

Two Thousand Dead. The United States tug Potomac leaves tonight for St. Vincent where conditions are reported worse. La Soufriere, on St. Vincent, was in full eruption May 10. A stream of stone and mud half a mile wide was then issuing from the volcano. Stones two inches in diameter fell twelve miles away. At Kingston, the capital of the island, the ashes are two inches deep. Seven hundred dead were reported Sunday May 11. It is estimated that the total number of deaths at St. Vincent will reach two thousand. It is authentically reported that two earthquakes occurred there. It is believed the submarine cables at St. Vincent have been broken by the disturbances. The present volcanic eruption at St. Vincent is the first since 1812.

A Nurse's Experience. Miss King, a nurse in the Stokes family, consisting of a mother, son and daughter, Margaret, tells her experience. She says that after the volcanic eruption the carpenter and Mate Scott constructed a raft. While this was being done the little boy died. Shortly after the death of the boy, Mrs. Stokes succumbed. Margaret and Miss King eventually got away on the raft and were picked up by the steamer Korona. Mate Scott also escaped. Miss King covered the face of Margaret with her dress, but the child is probably fatally burned.

Praise Consul Ayme. It was reported here yesterday from the British island of Dominica that 300 survivors of St. Pierre reached there in canoes. Every praise is given to United States Consul Ayme. He has worked indefatigably to succor the survivors. He has bandaged the limbs of the wounded and worked without sleep and without food. He is now thoroughly exhausted. The Italian consul at Barbados has recovered the body of his daughter, who was visiting in St. Pierre at the time of the disaster.

Volcano Still Active. London, May 13.—A dispatch to the Reuter Telegram company from Fort de France, says the activity of the volcano seems to be increasing. The scenes within the dead city are strange and gruesome. In the section of the city known as the Mouillee, no sign of fire is visible but everything seems to be rent and scattered as by a tornado. The iron bedsteads in the hospital are twisted,

but bear no mark of heat. Bed clothes and all the textiles in the hospital have vanished.

Mrs. Prentiss Foresaw Death. Minneapolis, May 13.—Mrs. James Smith of this city, a sister-in-law of United States Consul Louis Ayme at Guadeloupe was the guest of the family of Consul Prentiss at St. Pierre, a year ago. She says Mrs. Prentiss told her at that time that she and her husband did not expect to leave the island alive. Prentiss and Ayme had made a critical examination of the volcano and of the island and agreed that a terrible disaster was inevitable some time.

The flour millers have wired their New York representatives to ship as large consignments of flour as they think proper to the Martinique sufferers.

President Issues Appeal. Washington, May 13.—The president today issued an appeal to the public to contribute to the relief of the sufferers from the recent catastrophes in Martinique and St. Vincent. He also appointed a committee to receive funds headed by Hon. Cornelius N. Bliss of New York. The president directs all postmasters throughout the country, to collect contributions for the relief of the citizens of the French West Indies who are suffering from the volcanic disturbances.

The Red Cross society has issued an appeal for aid for the survivors of the Martinique disaster.

Red Cross Will Aid. Washington, May 13.—The executive committee of the Red Cross met at the state department today. The committee took note of what the president had done in the way of appointing a committee to receive contributions and then sent a delegation to the White House to ask the president how they might best aid in the distribution. Offers of assistance continue to pour in. Dr. Louis Klopfch, proprietor of the Christian Herald of New York, telegraphed the war department today offering to furnish fifty nurses, and one thousand barrels of flour for the stricken islands.

France Grateful to America. Paris, May 13.—The Temps this afternoon in an editorial referring to the action of congress in appropriating \$200,000 for the relief of Martinique, says: "This manifestation of American sympathy, on the eve of the Rochambeau centenary, tends to draw tighter the already close ties uniting the two republics and constitutes a guarantee of peace and fraternity between the two nations. France will never forget the spontaneous initiative of President Roosevelt or the significant generosity of congress."

Paris, May 13.—Sir Edmund J. Monahan, the British ambassador here, has officially notified M. Delesclap, the French minister of foreign affairs, that the British government has placed all the available resources, ships and otherwise, in the vicinity of Martinique, at the disposal of the French authorities.

WILL NOT RESIGN. Dr. Richey, Professor in Episcopal Seminary, Defies the Trustees.

New York, May 13.—Bishop Worthington, of Nebraska; Bishop Doane, of Albany; Dr. A. B. Revi, Dr. Morgan, Bx. of Trinity church, this city; Dean Hoffman and Bishop Seymour, of Springfield, Ill., and thirty other bishops and prominent dignitaries of the Episcopal church, forming the board of trustees of the general theological seminary, met today. The principal subject discussed was the case of Dr. Timothy Richey, professor of Ecclesiastical history, who has occupied the chair twenty years. Some time ago the board sought his resignation on account of age. He refused to resign and the board today renewed the request, finding that they could not unseat him. Dr. Richey says he has no intention of resigning.

REDUCING MILITARY STATIONS. Number in the Philippines Has Been Cut Down Considerably.

Washington, May 13.—Adjutant General Corbin has received a message from General Chaffee in which he says: "Outposts of Batangas and Sanar the 450 military stations existing May, 1901, have been reduced to 190 at the present time." The war department officials are very much gratified at the figures, as affording unmistakable proof of the improved conditions in islands in the matter of law and good order.

PROMINENT EDITOR DEAD. Louisville, May 13.—Walter N. Halldeman, president of the Louisville Courier-Journal and the Times company, died this morning as a result of injuries received Friday by being struck by a street car. He was eighty-one years of age.

WIND STORM KILLS TWO. Brazil, Ind., May 13.—A wind storm which swept the southern part of Clay county this afternoon caused the death of two men and considerable damage to the buildings in this city and surrounding territory. The dead are John Stanley and William Martin, farmers.

MADRID IN GALA ATTIRE. Madrid, May 13.—The city is gaily decorated and arrangements for the coronation are nearly completed. Immense crowds throng the streets. An incident to the coronation festivities today was the laying of the foundation stone of five free schools by the court.

EUGENE WARE TAKES OATH. Washington, May 13.—Eugene F. Ware, of Kansas, today took the oath as commissioner of pensions and tomorrow morning will assume the active charge of his new duties.

WILL MEET TODAY

CONFERENCE TO DETERMINE STATUS OF THE STRIKE.

MAJORITY FAVOR CONTINUATION

OUTCOME OF THE MEETING, HOWEVER, IS VERY DOUBTFUL.

President Mitchell Refuses to Discuss the Situation—Session Will Be Conducted Behind Closed Doors.

Hazleton, Pa., May 13.—The situation regarding the continuation of the present suspension of work in the Anthracite fields of Pennsylvania is a trifle clouded tonight. The apparent overwhelming sentiment for the strike in evidence yesterday is not quite so prominent now and predictions are freely made tonight what the delegates tomorrow will determine upon. The winning side will have only a bare majority. President Mitchell and other officials maintain silence and every attempt to get their opinion of the situation has proved futile. The indications are, however, that the delegates favoring the strike are in the majority. The convention will meet at 10 o'clock tomorrow morning and will conduct all business behind closed doors.

President Mitchell Arrives. President Mitchell arrived this evening from Scranton. He stopped off at Pottsville and was given an enthusiastic reception. Practically the entire population turned out to welcome him. He made a brief speech in which he commended the miners to act wisely. He said if the majority was for a strike every worker in the region should respect the call and stand out firmly to the end. If, however, the convention should decide otherwise, he continued, then the miners must stand by their union for only through their organization could they hope to better their conditions.

What the Miners Want. President Mitchell asked tonight for an explicit statement setting forth the miners' demands, said: "The miners ask for an eight-hour day which shall apply to all the men employed in and about the mines. It affects the miners and laborers the same, as all classes of labor work ten hours a day. It is not true that the miners work only five hours as he has a wife in the mines ten hours. The miners also ask for a 20 per cent increase in wages for men performing contract work and an eight-hour day at the present rate of wages for the men employed by the day or week. The miners also prefer an annual wage agreement. The demands are uniform and apply to all anthracite miners in the field, except the demands for weighing the coal which applies only to the Lackawanna and Wyoming and parts of the Lehigh district.

Springfield, Ill., May 13.—The operators of this district have appealed their differences to President Mitchell, of the United Mine Workers' of America.

FOUR BOYS DROWNED. They Embarked in a Leaky Canoe and It Sank.

Chicago, May 13.—At Downers Grove today, four boys embarked in a leaky canoe on the artificial lake. All were soon precipitated into the water. Fred Fowler, aged seventeen years, rescued Albert Smith, aged thirteen. Returning for Leonard Wall and Harry Morris, they seized him by the arms, and all were drowned.

PASSENGER TRAINS COLLIDE. Eight Badly Injured But None Fatally.

Greenwood, Neb., May 13.—Two Burlington passenger trains collided this morning. Eight persons are more or less injured but none fatally. Among the others was T. M. Moore, of Quincy, Ill., cook on the dining car, and J. M. Rice, of Peoria, both of whom had head and back hurt.

GERMAN STEAMER WRECKED. Valparaiso, Chile, May 13.—The German steamer Sakkarab, Captain Pfening in command, is a total loss at Chile island. The crew and passengers were saved. The cargo included \$1,500,000 in gold specie being remitted by the Chilean government. The Sakkarab left here April 21 for Hamburg.

WIDOW'S HORRIBLE DEED. Burlington, N. J., May 13.—Mrs. Helen Sharp, the widow of Harry B. Sharp who committed suicide four months ago, shot and instantly killed her fifteen-year-old son Edward last night and with a razor cut her own throat, almost severing the head. The tragedy was not discovered until late today.

CHINESE REBELS DEFEATED. Peking, May 13.—The government announces after two days' fighting that the rebels in the southern part of the province of Chi-li were completely defeated and the leaders captured.

TO RAISE THE MAINE. Washington, May 13.—Senator Mason today introduced a bill authorizing the secretary of war to invite bids for raising the Maine and authorizing negotiations with the Cuban government to that end.

FIRE AT DOLLARVILLE.

Warehouse of Dannaber & Melendy Destroyed Yesterday Afternoon.

Dollarville, Mich., May 13.—(Special.)—Fire at 5 o'clock this afternoon destroyed the warehouse of the Dannaber & Melendy Co. The building was valued at about \$3,000. The origin of the blaze is unknown but it is supposed to have started by a spark from a passing locomotive engine. The local volunteer fire department rendered efficient service confining the blaze to the warehouse building. Within five minutes of the sounding of the alarm the men had gathered and had three straws, the system on the fire. It is not known whether the company will rebuild.

MURDERER GARROTTED.

First Official Execution in the Philippines. Manila, May 13.—A man named Ricafort, convicted of murder, was executed today at Lingayen. Ricafort was the first murdered to be garrotted since American authority was established in the Philippines. The execution, which witnessed the execution, think the execution insures a quick and humane death, but such an execution is revolting to see. Within the last few days petitions against the removal of the American troops have been received from sixteen towns and villages. The reason is said to be the fear of bandits after the troops have left.

QUESTION IS DEADLOCKED.

Committee on Danish West Indies Treaty Cannot Agree. Copenhagen, May 13.—Indications are that the conference committee of the Danish parliament which is considering the West Indies' treaty, is now hopelessly deadlocked, the opposition refusing the utmost concessions which it is possible for the ministry to offer. A night session of the committee did not result in any agreement. The matter will necessarily go over until September. This will necessitate the extension of the ratification time limit which expires July 24. Considerable public indignation is aroused by the obstructive tactics of the landsting.

CONFESSES TO MURDER.

Baptist Minister Killed a Companion Without Provocation. Springfield, Ill., May 13.—John Poole, the Baptist minister, who was arrested, charged with the murder of his traveling companion, Charles Isaakson, confessed the murder today in a letter which he wrote to his father-in-law, John Walker of Jerseyville. Poole is a young man with a wife and a child. He has been a zealous evangelist and gave promise of becoming a minister of influence. He was traveling to Chicago with Isaakson when he killed the young man without provocation in a railroad yard in this city.

EX-PRESIDENT SAM LEAVES.

Fort An Prince, May 13.—Further fighting occurred in the streets here before and after midnight. Some of the leaders of the revolution have retired to the United States legation. The situation is very serious. The whole population is armed and insists on the immediate departure from the country of former President Sam.

Ex-President Sam embarked at noon today on the French steamer Olinda Rodriguez. He was accompanied to the landing place by the American, French and German ministers. At the time the former president embarked, news was received from Cape Haytien, on the North coast, to the effect that General Firmian, the late Haytian minister in Paris, had arrived there and had been proclaimed president. The dispatches added that the whole north and northwest of Hayti had declared in favor of Firmian.

TWENTY-THREE DEAD.

Sheridan Horror Monday Found That Many Victims. Pittsburg, May 13.—A careful search for the dead and injured in the Sheridan horror of yesterday reveals twenty-three dead and 232 injured. The complete list of the injured may never be known as many were able to go away without making known their identity. A conservative estimate by those thoroughly familiar with the situation places the number more or less seriously hurt at not less than 300. The scenes in and around Sheridan today were pitiful in the extreme. Practically every house in the village had one or more injured inmates and in many homes mourning families gathered about the charred and distorted remains of loved ones who were victims of the calamity. Many children were caught by flames yesterday and as a result, the two public school buildings today are almost deserted. Of the seven hundred pupils enrolled, but two hundred are in attendance today.

STEEL CORPORATION'S PROFITS.

New York, May 13.—Checks aggregating \$10,000,000 were sent out yesterday by J. P. Morgan & Co. in payment of the second distribution of profits resulting from the formation of the United States Steel corporation. In financial circles it is believed that altogether \$20,000,000 more will be distributed among the members of the syndicate, which will make 40 per cent on the \$200,000,000 underwritten and 100 per cent of the amount of cash really advanced or paid in.

CHOLERA IN MANILA.

Manila, May 13.—There have been 900 cases of cholera and 760 deaths in Manila. The provinces report 2,588 cases and 2,092 deaths.

Spring Humors of the Blood

Come to a large majority of people. Probably 75 per cent. of these are cured every year by Hood's Sarsaparilla...

HOOD'S Sarsaparilla

Will do you a wonderful amount of good. Be sure to get Hood's.

CHARTER No. 390.

First National Bank

Of Marquette, Mich. Organized January 22, 1864. CAPITAL AND SURPLUS, \$200,000.

DESIGNATED DEPOSITORY OF THE UNITED STATES.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED) Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month, by carrier, \$4.50. Per year, by mail, \$50.00. MARQUETTE, MICH., MAY 14.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Apparently the beef trust forget that there are plenty of other good things that are raised in this country when it undertook to inordinately tax the people on meat products.

A statement compiled by our consul general at Monterey, Mexico, Hon. Philip C. Hanna, shows that \$200,000,000 of American money has been invested in mining and industrial enterprises in northern Mexico during the last two years.

Some of the Democratic senators are now regretting that Tillman was not expelled from the senate when he assaulted his colleague, Senator McClaurin, a short time ago, during a session of that body.

His disgusting harangue during a debate on the Philippine question a few days since has entirely alienated the more sensible of the Democratic senators, who would be greatly pleased if they could be rid of him.

Tillman's tongue is doing the Democracy infinite harm, and there is no way of keeping him from using it offensively to the very great detriment of his party while he remains in the senate.

The people of his state might come to the aid of the party by voting to keep him at home when his present term expires, but it is doubtful if they have the good sense to do that.

A Washington dispatch has it that James J. Hill of the Great Northern is convinced that the merger scheme for operation of his railroads, which the Northern Securities company has organized to exploit, will fail, owing to the opposition of the government, and is now formulating a plan for having the three great roads involved continued under the same management in another way.

It is alleged that this plan contemplates the arrangement of a system in which the Burlington road will be the chief factor, with the other two working in close accord with it, and controlled by the same management.

This may be true, but the big financiers who undertook to operate the three great lines through the Northern Securities company have as yet given no sign that they intend to abandon their attempt to carry their original intention through, and we risk the prediction that they will finally accomplish what they set out to do on the plan they first adopted.

Those newspaper correspondents at Washington are clever guessers, but are not quite up to reading what is in the minds of men like Jim Hill and J. Pierpont Morgan.

New candidates for the second place on the Republican state ticket continue to be considered by the upper peninsula papers. Some of these appear to take it for granted that we must have that place on the ticket whether we have just the right man for it or not, lest if we let it get away from us we lose something. The Mining Journal is not of that mind. At best it is no great advantage to us to have the lieutenant governor, and none whatever unless we can place in the office a man of more than ordinary tact and ability.

Why not let that office go to the lower peninsula this time, just for a change? Some day we may want one of the state positions of more consequence to us than the lieutenant governorship, and it might be well to break the partially established precedent under which we have taken that as about all that we are entitled to ask for or receive. True, we have been twice given the attorney generalship, but we got that through an unusual turn in politics, and we hear no talk of having the party continue to let it come our way. If the lower peninsula has a good candidate for the second place on the ticket this year let it go there. We have had enough of empty honors.

THAT SPECIAL EMBASSY.

We quite agree with the Chicago News in the position taken by that paper in this article in relation to having our government formally represented at the coronation of King Edward.

In a discussion which was notably free from prejudice or partisan feeling, Senators Hear, Lodge, Allison and Spooner joined with Senator Bailey of Texas last Saturday in disapproving the proposed plan of sending a special embassy to the coronation of King Edward. It may as well be admitted that this temperate criticism faithfully reflects the actual sentiment of the mass of American people of all parties and all sections. A majority of Americans feel that it is not at all incumbent upon a republic to participate actively in a coronation program, no matter where it may be performed. The question of their sentiment regarding Great Britain does not enter into consideration one way or another. It is the institution of monarchy and not the nation or the monarch which they have in mind. They simply do not see any reason why the United States should have special am-

ASSASSINATORS AT KING EDWARD'S CORONATION

any more than Great Britain should have a special embassy at the inauguration of a president. With all due friendship to England they are unable to understand why a nation which owes its existence to its antagonism to royal government should pay gratuitous tribute to royalty.

It is now announced that the senate will not be invited to bestow the rank of ambassador on the envoys who have been selected and that no appropriation will be made for their trip. They may go, but they will not go with the official status which the senate alone can confer upon them under the constitution.

Probably most Americans would be quite as well satisfied if they went simply as private citizens. From all accounts King Edward's coronation is going to be a sumptuous affair, designed expressly for the purpose of emphasizing the tradition, the pomp and power of kings ruling by "divine right."

COPPER COUNTRY (Additional)

VICTORIA'S BRIGHT FUTURE. Decrease in Cost of Operating Expenses Will Be a Big Factor.

The Victoria will occupy a unique and at the same time an enviable place among the copper mines of the Lake Superior district, and it is safe to say the entire world, from the fact that the mine, mill and the railroad from the mine to the mill will be operated without its costing one cent for fuel, says the Ontonagon Herald.

The promoters of this mining project must have realized before operations were commenced the large sum which could be saved by the natural water power so lavishly furnished by the falls or rapids of the West Branch of the Ontonagon river, situated but three-quarters of a mile from the mine and upon the company's property, but it is not thoroughly understood by the public.

The job of harnessing this water power has been commenced and while it is an undertaking that will require considerable time it will not be very expensive. It will be built across the river at the head of the falls and a pen-stock will be driven for about 1,100 feet down the side of the river, at which point will be located the power house.

This structure will be built of stone and will be inexpensive as almost any method of good building stone can be carried in that vicinity. Besides there will be no chance of its being destroyed by fire, an essential feature as it will hold the key of furnishing the power for everything connected with the property.

Preparations are also being made for the erection of a modern stamp mill on the bank of the river a short distance below where the power house will be located. The structure will be made for a two head plant, although only one head will be put in to start with, which will have a capacity of 600 tons of rock. The water for the stock will be furnished by a pen stock which will be driven from above the dam, a distance of about 1,700 feet. This will furnish an abundant supply without the cost of pumping. The mill will be operated by compressed air, a method which is not now in vogue in the mills in the copper country.

The structure will be a wooden one, the company having a large supply of all kinds of timber, including considerable valuable pine, upon its lands. The sawmill will be moved near the mill site and what lumber and timbers are needed will be cut there.

The railroad from the mine to the mill, the right of way for which is now being cleared, will be a double track gravity system, the incline making this very feasible. An electric locomotive will be used for switching the cars, dwellings, three of which will be located at the mill site, will be erected this summer for the accommodation of the large increase in the forces which will be made shortly.

The new 125 h. p. boiler which was recently delivered at the mine will be installed at the mill. This will supply plenty of power to operate the mine until the electrical equipment will be ready for use.

The excellent condition of the mine has warranted for some time the erection of a stamp mill and the proper equipment of the mill. Now that this step has been taken the work will be pushed to completion as expeditiously as possible although it is considered that it will require about a year before the Victoria will be numbered among the producers.

No. 2 shaft is now sinking for the sixth level, with the skip-road to the fifteenth. The policy which was outlined by the management some time ago, that is to get down to a depth of 2,000 feet as fast as possible, is being followed vigorously and it is reached in a few days. The shaft will be into commission. The openings show that the lode is uniform, of exceptionally good width and that it is well charged with copper. A large amount of stopping ground—rock that will give big returns when put through a stamp mill—has already been placed upon this amount is being increased daily. It will be an easy matter to supply enough rock for one head and still increase the amount of reserve ground, while it is very probable that two heads could be kept pounding away without drawing on the reserve, but the management is content to place it upon a paying basis in place of that to have the mill crowd the mine.

Sinking will be commenced in No. 3 shaft, which is situated some 1,100 feet west of No. 2 about the first of next month. This work will progress with lightning speed as raising will be started at the same time from several of the levels which have been extended to this point from No. 2 shaft.

The Victoria has about \$65,000 in its treasury and with the \$300,000 which it will receive from its first assessment the Herald believes that it will have a sufficient amount to place it upon a paying basis considering the careful and capable manner in which it is being managed by Supt. Thomas Hooper. There is no useless expense in any of the departments nor is there likely to be in the future.

The \$3 assessment will be payable in two installments, the first of which amounting to \$2 will be due June 16 and the other one of \$1 October 16.

MICHIGAN DOING WELL. Operations Being Vigorously Prosecuted and Results Are Gratifying.

At the Michigan work is being pushed along as vigorously as ever with very gratifying results. The task of cutting down "B" shaft to the first level, a distance of 200 feet, from a two compartment to a three compartment shaft has been started. This work will be completed as soon as possible and in order that no unnecessary time will be spent upon the job three eight hour shifts of men are engaged in the work, while raising and sinking are being carried on. With the exception of the distance to the first level this shaft was winze for three compartments. Good progress is being made upon the winze which is being put down on the Banch vein from

MASS AND ADVENTURE.

Efforts Still Being Made to Effect a Consolidation.

Efforts are still being made to bring about a consolidation of the Mass and Adventure mining properties. Five copper-bearing lodes cross the two properties—the Butler and Evergreen being opened extensively on the Mass property and the Knowlton and Merchants on the Adventure. Each mine has about the same amount of openings, and date represent about the same amount of capital expended. Adventure stock is \$17 paid in and Mass \$15 paid in, although the latter has expended an additional \$100,000, or \$1 per share on the property from proceeds of copper taken out in the course of development work.

The character of the rock in the two properties is to all intents and purposes the same. Those identified with each claim that the rock will contain 25 pounds of copper to the ton including mass and barrel work. Important economies are believed to be possible through a unification of interests and dividend payments based on a 12-cent copper market.

The territory west of "B" shaft at the Mass contains much future promise. "B" shaft is sinking to the 11th level while "A" shaft is already down to the 11th level. "C" shaft is now being sunk to a depth of 185 feet. Crosscutting from the bottom to various lodes will commence immediately. The mine is stamping 13,000 tons of rock monthly. Seventy-five per cent of the rock comes from openings west of "B" shaft, from the 7th to the 10th levels inclusive.

SINK TWO NEW SHAFTS. Trimountain Mining Company Prepares for Further Exploitation.

If affords as pleasure this evening to state to our readers that the Trimountain Mining company is preparing for the sinking of two new shafts which will be known as Nos. 4 and 5 says S. J. Beahan in last evening's Hancock Journal. The matter has been given considerable attention of late, but it was not until yesterday that a final decision had been arrived at and henceforth the north end of the wonderful South Range property will present a scene of remarkable activity until it is in position to finish its quota of production.

The exact location of the shafts has not been decided upon, neither is it certain whether the north side of the property will be tapped by two shafts or three. The territory affords ample room for three shafts, but it is possible that it will be operated from two shafts. However, it is a question that will be disposed of within a brief period, and in the meantime the necessary equipment with which to begin operations will be secured. The overburden north of No. 3 shaft is estimated at about 150 feet, and in view of recent developments the early operations at Trimountain are interesting, showing how well Superintendent Cheynoweth figured on the location of the vein with the limited information at hand. Three years ago the first pit was started on the lands of the Trimountain company. Superintendent Cheynoweth selected a location from which to sink to the lode a short distance east of the site for No. 4 shaft. That his judgment was correct in the premises is shown from the fact that a strike of the lode on the property, made recently, passes over the pit which marks the site of the first operations at the Trimountain.

DIAMOND DRILL EXPLORATION. Arcadian People Prosecuting Search for Baltic Lode.

The diamond drill exploration at the Arcadian is now located at a point about 1,600 feet east of the Arcadian vein. The country east of the Arcadian has never before been explored and it is known that the Baltic and possibly other veins will be encountered by the diamond drill during the summer. The Arcadian people are going right after the Baltic lode on their territory and are confident that it can be located there. The district owned by the Arcadian east of the mine is known to be rich in mineral and if expectations in regard to the Baltic vein are not fulfilled it is almost certain some vein will be encountered that will prove up rich and yet make a name for the Arcadian. The progress of the exploratory work will be watched with much interest as much depends on the results as far as future operations are concerned. Before the summer is over the Arcadian is very likely to strike something rich and the company is determined to do so, not being just ready to say die.

IN GOOD DEMAND. The Liverpool monthly report of James Lewisohn says that copper continues in good consumptive demand and a large business has been done in man-

THE VEIN IS FULLY AS RICH AS IT HAS BEEN OPENED AS IT IS ON THE PRECEDING LEVELS.

"A" shaft is now down about 20 feet below the tenth level, and as soon as a sufficient depth is reached so that the station can be cut for this level, sink will be discontinued for the present. A crosscut has been started from the ninth level to tap the old Minnesota workings at this point. It is now in about 70 feet. A crosscut will also be pushed from the tenth level for the same purpose. It is very reasonable to suppose that some exceptionally rich ground will be encountered from these crosscuts as the old reports of the Minnesota substantiate the existence of a branch vein in that vicinity noted for its richness in mass copper and stamp rock.

The stamp mill problem is being considered by the management but no definite plans have been made in reference to it. Where it will be located is only a matter of conjecture but one thing is certain it will be built where it will be to the best interests of all the company. The work of properly equipping the mill with the necessary machinery and buildings is another subject that will receive the careful consideration of the management and it will be arranged so that when the stamp mill is ready to go into commission the mine will be in shape to supply it with plenty of rock.

Old Dominion. The report of the Old Dominion mine superintendent is expected East in a week or ten days. The report of the expert who has been examining the property for the new management will not be presented for at least one month. Since the installation of the new management expenses have been reduced on the Eastern end equivalent to one-half cent per pound on production, but it is hard to figure exactly what it is costing to produce copper at the present time owing to expenditures for improvements on the property. Last year it cost Old Dominion 12 1/2 cents per pound to produce copper. A much lower average cost is expected this year.

The Norwich Mine. The Herald is informed that Neil J. Ferguson has finished the job of unearthing the Norwich mine and that Mr. Mahoney, and a number of other capitalists of Minneapolis are expected to arrive at the mine in a few days for the purpose of carefully inspecting the property. If the result of the test is satisfactory it is anticipated that arrangements will be made to develop this property in the near future. Mining men who are familiar with this property are unanimous in their belief that it would make a good one if properly developed.—Ontonagon Herald.

Lake Copper Advances. The price of Lake copper has been advanced 1/4 cent per pound. No large amounts are offered within one-quarter of the advanced figure. The commercial situation is showing improvement. It was claimed that in the last three months the exports of copper from the United States exceeded by ten per cent the total production of the country.

Copper Gossip. The Boston & Montana company has begun the erection of another matte furnace at Black Eagle Falls, which when completed, will cost about \$50,000. At present there are four matte furnaces working at the plant, and the addition means an increase in the capacity of 25 per cent.

Shaft No. 3 at the Victoria will be equipped with a portable hoisting plant work upon which will be started immediately. At No. 2 shaft, which is now down to the 15th level, the first great electric hoist in the copper country will be installed. Glens Falls will furnish the power.

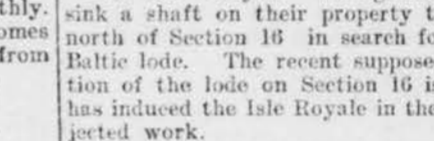

The Isle Royale management will sink a shaft on their property to the north of Section 16 in search for the Baltic lode. The recent supposed location of the lode on Section 16 is what has induced the Isle Royale in their projected work.

REVEALS A GREAT SECRET. It is often asked how such startling cures, that puzzle the best physicians, are effected by Dr. King's New Discovery for Consumption. Here's the secret. It cuts out the phlegm and germ-infected mucus, and lets the life-giving oxygen enrich and vitalize the blood. It heals the inflamed, cough-worn throat and lungs. Hard colds and stubborn coughs soon yield to Dr. King's New Discovery, the most infallible remedy for all Throat and Lung diseases. Guaranteed bottles 50c and \$1.00. Trial bottles free at Stafford's.

A LESSON IN HEALTH. Healthy kidneys filter the impurities from the blood, and unless they do this this good health is impossible. People's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. Sold by People's Drug Store.

People's Honey and Tar contains no opiates and can safely be given to children. Sold by People's Drug Store.

Two million Americans suffer the torturing pangs of dyspepsia. No need to Burdock Blood Bitters cure. At any drug store.

PALACE STEAMER City of Alpena

For Detroit, Cleveland, Toledo, Pt. Huron, Harbor Beach, Oscoda, Alpena, Cheboygan, and All Points East and South.

Leave St. Ignace Wednesday at 7:30 a. m. Saturday at 2:00 p. m.

Between Detroit and Cleveland Daily at 10:30 p. m.

Day Trips during July and August. Through tickets sold to all points. Baggage checked through to destination. Ask your agent for tickets reading D. & N. Co.

Write for illustrated pamphlet, by mail, 2c. A. A. SCHANTZ, Gen'l Pass. Agent, Detroit, Mich. (5-13-02)

D., S. S. & A. R.'s

Time - Table. In effect Nov. 17, 1901.

TRAINS LEAVE MARQUETTE. For Montreal and the east and Lower Michigan daily at 6:00 a. m.

For Houghton and the copper country daily and for Mass City, Rockland and Ontonagon daily except Sunday at 7:00 a. m.

For Negaunee and Ishpeming daily, and for Escanaba, Marquette, Menominee, Green Bay, Milwaukee and Chicago via C. & N. W. R. Y. daily except Sunday at 8:10 a. m.

For Iron Mountain, Marquette, Menominee, Green Bay and Milwaukee via Republic (through train service) and for Houghton, Hancock, Calumet, Lake Linden, Siskiwit, Hurley, Ironwood, Ashland, Duluth, and St. Paul, Minneapolis and all points west except Sunday (baggage for the copper country will not be carried on this train) at 8:20 a. m.

For Detroit and the east, daily except Sunday at 1:30 p. m. For Houghton and the copper country, daily except Sunday at 3:00 p. m.

For Chicago via Negaunee and the C. & N. W. R. Y. and Republic (through train service) and from Chicago, Minn., St. P. R. Y., daily at 6:00 p. m.

For Houghton, Hancock, Calumet, Hurley, Ironwood, Ashland, Duluth and St. Paul, Minneapolis and all points west except Sunday (baggage for the copper country will not be carried on this train) at 10:30 p. m.

TRAINS ARRIVING MARQUETTE WHICH DO NOT RUN EAST. From Chicago and Milwaukee via C. & N. W. R. Y. and Negaunee daily at 8:15 a. m.

From Chicago and Milwaukee via C. & N. W. R. Y. and Republic daily at 10:40 a. m.

From Chicago, Milwaukee, Green Bay and intermediate points via C. & N. W. R. Y. and Republic (through train service) and from Chicago, Minn., St. P. R. Y. and N. W. R. Y. via Negaunee except Sunday at 6:30 p. m.

From Duluth, Superior, Ashland, Ironwood, Ontonagon, Houghton, the copper country and intermediate points at 7:30 p. m.

Mineral Range Railroad. Change of Time in Effect Nov. 24, 1901.

Leave Calumet, Arrive Houghton. No. 1 at 8:00 am, No. 2 at 8:15 am, No. 3 at 8:30 am, No. 4 at 8:45 am, No. 5 at 9:00 am, No. 6 at 9:15 am, No. 7 at 9:30 am, No. 8 at 9:45 am, No. 9 at 10:00 am, No. 10 at 10:15 am, No. 11 at 10:30 am, No. 12 at 10:45 am, No. 13 at 11:00 am, No. 14 at 11:15 am, No. 15 at 11:30 am, No. 16 at 11:45 am, No. 17 at 12:00 pm, No. 18 at 12:15 pm, No. 19 at 12:30 pm, No. 20 at 12:45 pm, No. 21 at 1:00 pm, No. 22 at 1:15 pm, No. 23 at 1:30 pm, No. 24 at 1:45 pm, No. 25 at 2:00 pm, No. 26 at 2:15 pm, No. 27 at 2:30 pm, No. 28 at 2:45 pm, No. 29 at 3:00 pm, No. 30 at 3:15 pm, No. 31 at 3:30 pm, No. 32 at 3:45 pm, No. 33 at 4:00 pm, No. 34 at 4:15 pm, No. 35 at 4:30 pm, No. 36 at 4:45 pm, No. 37 at 5:00 pm, No. 38 at 5:15 pm, No. 39 at 5:30 pm, No. 40 at 5:45 pm, No. 41 at 6:00 pm, No. 42 at 6:15 pm, No. 43 at 6:30 pm, No. 44 at 6:45 pm, No. 45 at 7:00 pm, No.

Copper Country Department

(Additional Copper County on Page 2.)

WORK HAS COMMENCED.

Contractor Begins on Proposed Extension of Copper Range Road.

Although the map of the Copper Range extension from Houghton to Lake Linden and Calumet will not be approved until two weeks owing to several changes that have to be made work on parts of the route that are known to be satisfactory to all concerned will be pushed. Contractor Johnson has employed forces of men here and there along the right of way where heavy cuts have to be made. The road just east of the bridge where the Red Jacket will be in the vicinity of Pine street where a good site has been secured. That portion of the route where the changes will be made in order to satisfy both the South Shore and Copper Range roads is on the Hancock side of the lake. The road which will run parallel to the tracks runs. Instead of having two grade crossings at that place as was provided for there will be but one. It will necessitate the moving of the Mineral Range tracks nearer the lake in order to make room for the copper range tracks which will run parallel to the short distance on the other side of its rival's.

TAKES HIS SEAT.
F. G. Coggin, Supervisor-Elect, Begins His Official Duties.
F. G. Coggin, the newly elected supervisor from the new township of Stanton which was formed by dividing Hancock township, took his seat for the first time as a member of the county board of supervisors yesterday morning at the regular monthly meeting. Near the close of the session Mr. Coggin was called upon for a few remarks and he replied in the following terms: "I am glad to have done for the new township and expressing pleasure at his being one of them. Mr. Coggin extended a cordial invitation to the supervisors to take dinner with him at the Douglas house and most of them accepted."

RECEIVES NEW AMBULANCE.
An ambulance was received by boat yesterday for the county hospital. The conveyance was ordered by Dr. Marchette, the county physician, upon the sanction of the county board of supervisors. The ambulance will be used to take patients who are county charges to the hospital. The ambulance which is similar to the one owned by the Tamarack people was badly needed.

ITS TENTH ANNIVERSARY.
The Hancock Y. M. C. A. will appropriately observe its tenth anniversary Sunday, Sunday afternoon the men's meeting will be addressed by the new state secretary, L. E. Buell of Detroit, who planned to be present on the occasion of the anniversary. In the evening union services will be held in the auditorium of the building. Rev. J. E. Stanley of Laurium will talk.

STOCK WILL BE SOLD.
Graham Pope, of Houghton, announces that the stock in his store which was recently purchased by the Lake Superior Cold Storage & Produce Co. for a wholesale grocery is in the hands of Major A. Day of Chicago. Mr. Day has instructions from Mr. Pope to close out the entire stock and will do so regardless of cost. The store will likely be vacated by the first of the month.

HANCOCK Y. M. C. A. IN GOOD SHAPE
At the annual meeting of the Hancock Y. M. C. A. last evening the reports of the several officers for the past year were read. The association is in a flourishing condition and its report for the year shows it to be one of the best since the organization was first launched. The board of directors elected officers last evening.

COPPERDOM BREVITIES.
C. M. York and C. M. Gooding of Marquette, steam boat inspectors, made a regular trip of inspection to copperdom Monday.

Superintendent and Mrs. H. C. Krause of Pointe Mills were guests of Mr. and Mrs. J. D. Holman of West Hancock Monday evening.

The remains of Thomas Trueville, who died at the Hancock hospital Sunday evening, will be shipped to his old home in London, Ontario.

The steamer John Nichol of the Union Transit line is unloading a cargo of 1,200 tons of coal at the Mineral Range docks, Hancock, for Paul P. Roehm, the Calumet coal dealer.

Mrs. Charles Kellow and daughter of Painesdale have left for a European visit. They sail from New York for London today. Mr. Kellow accompanied them to New York.

W. B. Hoar of Houghton; Dr. Dodge of Hancock, and Attorney Hansen of Calumet, have left for Mt. Clemens to represent the local Knights of Pythias lodges at the session of the grand lodge.

The Portage township division matter was not taken up by the county supervisors yesterday morning owing to the absence of Messrs. Parnall and Duncan. Senator Charles Smith acted as chairman.

The First National Bank of Hancock has sold 400 acres of land located in Section 14, township 35-44, near Oskar to six Finnish farmers. The soil is said to be rich and all conditions are favorable for the making of fine farms.

Supervisor Nelson of Laird township, who was present at the regular meeting of the county board yesterday morning, states that Laird is having a good-sized building boom just at present, several new residences going up. Some logging is still being done there.

The funeral of Mrs. J. H. Phillips, Jr., who died at her home on Rockland street, Calumet, Sunday morning, was held yesterday afternoon from the Salvation Army barracks. She was thirty-three years of age and leaves a husband and three children.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. Sold by People's Drug Store.

NO LOSS OF TIME.
I have sold Chamberlain's Colic, Cholera, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning.—H. R. Phelps, Plymouth, Oklahoma. As will be seen by the above, the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this Remedy in your home. For sale by The Stafford Drug Co.

WHAT THIN FOLKS NEED
Is a greater power of digesting and assimilating food. For them Dr. King's New Life Pills work wonders. They tone and regulate the digestive organs, gently expel all poisons from the system, clear the blood, improve appetite, make healthy flesh. Only 25c at Stafford's.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates 400 often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs.

This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy, Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar samples. You may have a sample bottle by mail free, also pamphlet telling home of Swamp-Root.

All about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Women as Well as Men Are Made Miserable by Kidney Trouble.

DEPENDS ON TOURIST TRAVEL.

If Traffic Is Good the Iroquois Will Be Kept on Duluth-Houghton Route.

Captain W. H. Singer, of the White line, who was in Houghton Monday, stated that the steamer Iroquois, the new craft recently put in service between Duluth and Houghton, will be given a fair trial this season and if she pays as well as expected will be kept on the route. Otherwise the boat will be taken elsewhere. Captain Singer said that he was unable to tell at this early stage in the season whether the Iroquois, which is an expensive boat to run, was a paying proposition but is quite well satisfied with the business thus far.

The tourist travel is picking up and on that the boat will have to depend for its success for their is not enough local business to make her pay. No arrangements for special deck room have been made at Houghton. Captain Singer stated that freight and passengers are let off at any convenient dock. Several excursions to Isle Royale and other places with the Iroquois which may be chartered are in sight. George M. Brush, assistant general freight agent, while in Hancock Monday arranged with Rev. A. Raymond Johns, pastor of the M. E. church, for an excursion to Isle Royale on Memorial Day. It is expected that nearly 1,000 persons will go on that trip as the boat can accommodate them.

ENTER CONTRACTING FIELD.
Striking Carpenters of Portage Lake Will Retaliate on Employers.

The Houghton and Hancock carpenters who have a union have favorably considered the proposition proposed by some of their own members to go into the contracting business. The union has elected an executive committee to figure out any plans which may be presented, and estimates will be furnished. The carpenters guarantee satisfaction in every respect. The contractors are not worrying very much about what the carpenters are going to do and look upon the latest action as utter foolishness. One prominent contractor reported yesterday that six of his old men, members of the union, had returned to work and thought the so-called strike was on its last legs. The carpenters who are not now at work will be back in short order. In the meantime the contractors do not think their business will be injured to any great extent by carpenters figuring on jobs.

MASS STRIKE SETTLED.
Employers Granted Concessions and Work Resumed Monday Night.

As soon as the strikers at the Mass mine made known their terms the company readily granted the concessions, increasing the wages of the trimmers and timbermen from \$1.75 to \$2 per day and miners \$38 per month, says the Ontonagon Herald. The strikers were also allowed pay for election day as it had been promised to a part of them by some of the mining captains. Another detail of the settlement is that two miners are to work on each machine instead of one miner and a helper as heretofore. These are the concessions that the company paid previous to the time when a reduction was made some four months ago and compare very favorably with what other companies are paying in this county. With the present force the increase of wages will cost the company about \$2,700 additional each month, or \$32,400 per year. The rapidity with which the little difficulty was settled is a source of much satisfaction to everyone.

LOSES AN EAR.
Joseph Boucheau Disfigured in a Fight at Rubicon.

Joseph Boucheau is minus nearly his entire left ear as the result of a scrap in J. J. Jones' saloon in Rubicon, Tuesday evening. A warrant has been issued for the arrest of Lafayette Archie of Mass City, who is the complainant in this case. This complaint claims performed this delicate operation with his teeth and Sheriff O'Rourke is now searching for the offender.

The affair happened at about 7 o'clock in the evening. Boucheau had just got up from a table where he had been playing a game of cards when Archie, who was in an intoxicated condition, struck him on the head. Boucheau retaliated and in the scuffle which followed Boucheau went down with Archie on top and getting his opponent's ear in his mouth Archie soon had it severed from the head. Boucheau came to Ontonagon Wednesday and the wound was dressed by Dr. Swinton. Seven stitches were taken in what remained of the ear and the part which was bitten off was placed in alcohol and will be offered as evidence when Archie is brought to trial. Archie left Rubicon after the fight and it has been ascertained that he took the South Shore train in the direction of Duluth, undoubtedly realizing that he had committed an offense, punishable by a term in the state's prison. Sheriff O'Rourke is on his track and it is seldom that he returns without bringing with him the object for which he is searching.—Ontonagon Herald.

BUILDING OPERATIONS SLACK.
Although a building boom was expected at Portage Lake this spring not much is doing in that line just at present. There are a number of new buildings planned but work on them will not commence until later. A few big jobs are being completed and several residences here and there are being erected but otherwise building operations at Houghton and Hancock now are not as lively as was expected at this time. In Hancock there are about twenty-five masons out of work and they are looking for it.

LOST THEIR WAY.
A party of Hancock people who left Dan Washburn's residence at the canal at midnight Sunday did not reach home until 5 o'clock in the morning. They lost their way and drove around in a circle, passing the Washburn home two or three times, in an endeavor to find the right road. They were at last successful.

FORGER AT WORK.
Smooth Stranger Victimized Samuel Paine of West Hancock.

Samuel Paine, the West Hancock butcher, is out ten dollars on a forged check passed by a smooth stranger last Saturday. The fellow is thought to be the same one who has been operating at different places in the iron country. Mr. Paine passed a check on a Hancock bank signed "Per Long" bookkeeper for the Armstrong-Thielman Lumber company, under the firm's name which had been made by a rubber stamp. Mr. Paine did not discover the check was worthless until too late.

NEW MINING COMPANY.
Well Known Copper Country Men Organize the Mine Center Gold Co., Ltd.

At a meeting held yesterday afternoon of well known copper country men they organized a local syndicate under the Ontario laws, to be known as the Mine Center Gold Company, limited. The capitalization is a million and a half shares, of the par value of \$1. The company will work the Foley mines, a property well known in Canada. It was formerly in the hands of an English company which did little to develop the property which has a fine showing. The surface improvements at the mine inventoried at \$60,000. It has twenty stamp mills, a train line and machinery all in readiness to start work. Extensive operations will be conducted. A number of prominent men are interested.

DEATH OF FRANK LARSON.
Frank Larson, manager of the grocery department in Vertin's store, Calumet, died at the age of about fifty-five years Monday morning. Heart disease was the cause of his demise, death being rather sudden. Mr. Larson leaves a wife and eight children, six girls and two boys. The funeral will be held tomorrow afternoon with services at the Swedish Lutheran church. Mr. Larson had lived in Calumet for twenty-five years.

WILL VISIT DULUTH.
Portage Lake Merchants to Be Guests of Wholesalers of Zenith City.

The wholesalers of Duluth are arranging an excursion from the copper country to Duluth. The plans are not all completed but it is understood that a party of Calumet merchants will leave for Duluth May 27, to be joined by other delegations from Houghton, Hancock and other points in that region. Some time ago a similar excursion was given, and mutual advantage resulted. The Duluth wholesalers certainly benefited in that they bound themselves more closely to their copper country trade, learning more definitely than before what copper country merchants wanted, and the merchants themselves were given an opportunity of acquainting themselves with the Duluth market, giving them a broader view of the commercial world in general.

The excursion has yet to be arranged with the railroad people, but it has ever been the purpose of the Duluth, South Shore & Atlantic City, Day line to its power to build up its own district and to bind the different sections as closely together as possible, and there is no doubt that the road will work in harmony with the local promoters of the scheme.

ANNUAL CROP OF BEAR STORIES.
Some Exciting Tales of Encounters with Bruin Are Being Told.

Bear stories begin to come in from the bush. Edward Fox, who has returned from a sojourn in the wilds of Laird township, had an encounter with a big black bear. It was a thrilling experience in which he was aided by his dog, which managed to attract the attention of bruin while the Hancockite got a shot at the animal. In the excitement of the moment his aim was unsteady, and although the bear was wounded, the ball did not strike a vital spot, enabling bruin to make his escape into the thick bush.

The daughter of a Laird farmer was driving the family horse along the road when a large bear came out of the clearing and the steed, ordinarily gentle, became unmanageable. In the mix-up the horse jumped aside the girl, his bearship was worse frightened than the steed and fled into the woods. The girl, who was alone, was perfectly cool, and not alarmed in the least. She jumped from the rig and held the horse by the head until it became calmed, when she un hitched it and hitched the steed up again in the shafts, driving to her destination.

GUN CLUB ELECTS OFFICERS.
The newly organized Hancock Gun & Rod club has leased a stretch of land west of the village and will do blue rock shooting this summer. A Morgan trap will be purchased for the sport. The officers of the organization elected at a meeting in the parlors of the North-western hotel Monday evening are as follows: Harold Behrens, president; Peter Hendricksen, vice-president; Andrew Bram, treasurer; Arthur Finlay, secretary; and Dr. G. E. Gallun, captain of the shooting team.

DEPENDS ON TOURIST TRAVEL.

If Traffic Is Good the Iroquois Will Be Kept on Duluth-Houghton Route.

Captain W. H. Singer, of the White line, who was in Houghton Monday, stated that the steamer Iroquois, the new craft recently put in service between Duluth and Houghton, will be given a fair trial this season and if she pays as well as expected will be kept on the route. Otherwise the boat will be taken elsewhere. Captain Singer said that he was unable to tell at this early stage in the season whether the Iroquois, which is an expensive boat to run, was a paying proposition but is quite well satisfied with the business thus far.

The tourist travel is picking up and on that the boat will have to depend for its success for their is not enough local business to make her pay. No arrangements for special deck room have been made at Houghton. Captain Singer stated that freight and passengers are let off at any convenient dock. Several excursions to Isle Royale and other places with the Iroquois which may be chartered are in sight. George M. Brush, assistant general freight agent, while in Hancock Monday arranged with Rev. A. Raymond Johns, pastor of the M. E. church, for an excursion to Isle Royale on Memorial Day. It is expected that nearly 1,000 persons will go on that trip as the boat can accommodate them.

TAKES HIS SEAT.
F. G. Coggin, Supervisor-Elect, Begins His Official Duties.

F. G. Coggin, the newly elected supervisor from the new township of Stanton which was formed by dividing Hancock township, took his seat for the first time as a member of the county board of supervisors yesterday morning at the regular monthly meeting. Near the close of the session Mr. Coggin was called upon for a few remarks and he replied in the following terms: "I am glad to have done for the new township and expressing pleasure at his being one of them. Mr. Coggin extended a cordial invitation to the supervisors to take dinner with him at the Douglas house and most of them accepted."

RECEIVES NEW AMBULANCE.
An ambulance was received by boat yesterday for the county hospital. The conveyance was ordered by Dr. Marchette, the county physician, upon the sanction of the county board of supervisors. The ambulance will be used to take patients who are county charges to the hospital. The ambulance which is similar to the one owned by the Tamarack people was badly needed.

ITS TENTH ANNIVERSARY.
The Hancock Y. M. C. A. will appropriately observe its tenth anniversary Sunday, Sunday afternoon the men's meeting will be addressed by the new state secretary, L. E. Buell of Detroit, who planned to be present on the occasion of the anniversary. In the evening union services will be held in the auditorium of the building. Rev. J. E. Stanley of Laurium will talk.

STOCK WILL BE SOLD.
Graham Pope, of Houghton, announces that the stock in his store which was recently purchased by the Lake Superior Cold Storage & Produce Co. for a wholesale grocery is in the hands of Major A. Day of Chicago. Mr. Day has instructions from Mr. Pope to close out the entire stock and will do so regardless of cost. The store will likely be vacated by the first of the month.

HANCOCK Y. M. C. A. IN GOOD SHAPE
At the annual meeting of the Hancock Y. M. C. A. last evening the reports of the several officers for the past year were read. The association is in a flourishing condition and its report for the year shows it to be one of the best since the organization was first launched. The board of directors elected officers last evening.

COPPERDOM BREVITIES.
C. M. York and C. M. Gooding of Marquette, steam boat inspectors, made a regular trip of inspection to copperdom Monday.

Superintendent and Mrs. H. C. Krause of Pointe Mills were guests of Mr. and Mrs. J. D. Holman of West Hancock Monday evening.

The remains of Thomas Trueville, who died at the Hancock hospital Sunday evening, will be shipped to his old home in London, Ontario.

The steamer John Nichol of the Union Transit line is unloading a cargo of 1,200 tons of coal at the Mineral Range docks, Hancock, for Paul P. Roehm, the Calumet coal dealer.

Mrs. Charles Kellow and daughter of Painesdale have left for a European visit. They sail from New York for London today. Mr. Kellow accompanied them to New York.

W. B. Hoar of Houghton; Dr. Dodge of Hancock, and Attorney Hansen of Calumet, have left for Mt. Clemens to represent the local Knights of Pythias lodges at the session of the grand lodge.

The Portage township division matter was not taken up by the county supervisors yesterday morning owing to the absence of Messrs. Parnall and Duncan. Senator Charles Smith acted as chairman.

The First National Bank of Hancock has sold 400 acres of land located in Section 14, township 35-44, near Oskar to six Finnish farmers. The soil is said to be rich and all conditions are favorable for the making of fine farms.

Supervisor Nelson of Laird township, who was present at the regular meeting of the county board yesterday morning, states that Laird is having a good-sized building boom just at present, several new residences going up. Some logging is still being done there.

The funeral of Mrs. J. H. Phillips, Jr., who died at her home on Rockland street, Calumet, Sunday morning, was held yesterday afternoon from the Salvation Army barracks. She was thirty-three years of age and leaves a husband and three children.

Foley's Honey and Tar is peculiarly adapted for asthma, bronchitis and hoarseness. Sold by People's Drug Store.

NO LOSS OF TIME.
I have sold Chamberlain's Colic, Cholera, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning.—H. R. Phelps, Plymouth, Oklahoma. As will be seen by the above, the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this Remedy in your home. For sale by The Stafford Drug Co.

WHAT THIN FOLKS NEED
Is a greater power of digesting and assimilating food. For them Dr. King's New Life Pills work wonders. They tone and regulate the digestive organs, gently expel all poisons from the system, clear the blood, improve appetite, make healthy flesh. Only 25c at Stafford's.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates 400 often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs.

This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy, Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar samples. You may have a sample bottle by mail free, also pamphlet telling home of Swamp-Root.

All about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

RENDER MORE AID

SENATE APPROPRIATES \$300,000 FOR PEOPLE OF ST. PIERRE.

SENATOR STEWART'S WARNING NOTE

DECLARES THE MINORITY WILL SUFFER FOR ATTACK ON ARMY.

Naval Appropriation Bill Which Provides for an Increase in Our Force of Fighting Ships, Taken Up.

Washington, May 13.—An additional appropriation of \$300,000 was made by the senate today for the stricken people of the French West Indies...

The agricultural appropriation bill was passed and then Senator Stewart of Nevada, supporting the Philippines...

The bill providing for the construction of a union railway station in Washington is under discussion.

Naval Appropriation Bill. The naval appropriation bill, which provides for the purchase of two armored cruisers, two gunboats, and carries an appropriation of \$7,650,000...

The conference report on the omnibus claims bill was rejected on the ground that the claims were not considered by either branch of congress...

NEELY ASKS PALMA'S AID. Convicted Postal Official Still Seeking Liberation.

Havana, May 13.—Friends of Rathbone and Neely, convicted of postoffice frauds, have appealed to General Palma for his aid in the effort being made to secure pardon...

ANDOVER SEMINARY MAY MOVE. Chicago, May 13.—The Inter Ocean says: The Andover Theological seminary of Andover, Mass., one of the oldest Congregational theological schools...

INCREASES FRANCHISE VALUE. Frankfort, Ky., May 13.—The franchise valuation of the Louisville & Nashville Railroad company in Kentucky was fixed by the state board today at \$12,913,451, an increase of \$6,406,572 over the valuation of 1901.

OLD BOARD RE-ELECTED. Schenectady, N. Y., May 13.—At the annual meeting of the stockholders of the General Electric company today the old board of directors was re-elected.

Pure Blood. We wish you would ask your doctor what makes you so nervous, why you are so easily tired, and what makes your digestion so weak. See if he doesn't say, "Impure blood." He will probably speak about Ayer's Sarsaparilla, too.

"For two years I suffered greatly from dyspepsia and depression of spirits. I then tried Ayer's Sarsaparilla, and in one week I was a new man."

NEGROES START A RACE WAR.

Whites and Blacks in Conflict at Braggs, in Indian Territory.

Muskogee, I. T., May 13.—A race war is on at Braggs, twenty miles east of Muskogee. Five negroes and one white man have been shot and one stabbed.

Chinese Food Causes Beriberi, the Most Fatal Disease in the Orient.

Washington, May 13.—Captain Harry Littlefield, an army surgeon, on duty in one of the military prisons in Pangasinan, has discovered that beriberi, the most fatal disease of the Orient, is caused by Chinese white rice.

RUSH TO GOLD FIELDS BEGINS. Two Dozen Vessels to Sail from Puget Sound in May and June.

Tacoma, Wash., May 13.—Over two dozen vessels, including sixteen steamships, will sail from Tacoma and Seattle during May and June.

PEACE TO COME IN MAY. Believed That Boer Conference May 15 Will Have That Result.

Lisbon, May 13.—A dispatch received here from Delagoa Bay, Portuguese East Africa, says that peace in South Africa is certain to result from the conference of the Boer leaders to be held at Vereeniging, Transvaal, May 15.

SUNDAY SCHOOL WORKERS MEET. Sterling, Ills., May 13.—The forty-fourth annual state Sunday school convention opened today with 800 delegates representing seventy-six counties.

TO PRESERVE EXPORT TRADE. Chicago, May 13.—The millers of the country are engaged in what they claim to be a struggle for the preservation of the export trade.

POTTER PALMER'S WILL. Chicago, May 13.—By the terms of the will of the late Potter Palmer, his widow, succeeds him as head of the estate, conservatively estimated at \$8,000,000.

BICYCLIST KILLED. Atlantic City, N. J., May 13.—Alec McEachern, a Canadian cyclist, was killed this afternoon while racing behind a motor ridden by Boake and Thompson.

RAIN IN THE WEST. Omaha, May 13.—Western Iowa and the greater part of Nebraska received a good rain today.

BALL PLAYERS SHOCKED. St. Joseph, Mo., May 13.—Arthur Ball, short stop for the St. Joseph ball team, was shocked by a bolt of lightning in a game today and for some time was unconscious.

NEW RAILROAD COMPANY. Austin, Tex., May 13.—The charter of the Chicago, Rock Island & Gulf Railroad company was filed this afternoon.

SHOULD DO AS U. S.

DILLON SAYS PARLIAMENT OUGHT TO AID ST. PIERRE VICTIMS.

CONGRESS' ACTION AN EXAMPLE

MATTER IS UNDER CONSIDERATION BY BRITISH CABINET.

Irish Leader Believes a Vote for Relief Measures Would Be Carried Unanimously and House Concur.

London, May 13.—The magnificent appropriation, yesterday of the United States' congress for the relief of the Martinique sufferers; President Roosevelt's message recommending a vote of \$300,000 for the purpose and the action of the United States government in despatching war vessels and food supplies to Martinique, etc., were drawn attention to, in the house of commons today.

Balfour's reply was not calculated to satisfy public opinion. He said the matter was under consideration by the cabinet, but he had no statement to make.

BASEBALL SCORES. National League. Chicago, May 13.—Chicago's lone hit off Donovan, followed by a base on balls, an error and a sacrifice proved timely enough to shut the Brooklyn's out.

Cincinnati, May 13.—The locals in a decided reversal of form hit all three of the Philadelphia pitchers and won easily.

St. Louis, May 13.—The umpire presented today's game to the visitors in the ninth by declaring that Wicker was out at third when he had the base by fully a second.

American League. Cleveland, May 13.—Cleveland's lone hit off Donovan, followed by a base on balls, an error and a sacrifice proved timely enough to shut the Brooklyn's out.

Western League. Milwaukee, 0; Denver, 2. Kansas City, 5; Omaha, 3. Peoria, 3; Colorado Springs, 5. Eleven innings.

College Games. South Bend, May 13.—Notre Dame, 9; West Virginia, 5. Cambridge, May 13.—Harvard, 7; Williams, 2. Fayette, Ia., May 13.—Upper Iowa University, 7; University of Iowa, 4. Pennsylvania, 7; Brown, 1.

SCIATIC RHEUMATISM CURED AFTER FOURTEEN YEARS OF SUFFERING. "I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale by The Stafford Drug Co.

FOR SALE. One 10 x 12 Double Vertical Reversing engine, new, used a few days only, price, \$450.

One St. Louis Gang Elger in good order, with two saws (one more could be added) price, \$100.

Two single Clippers, price each, \$5.

One Bolter Saw Table with four-foot ten-inch arbor, price, \$350.

One Double Circular Saw Mill, will cut up to 42 feet, boilers, engine, steam feed, trimmer, gang edger, cut-off saws, live rolls, etc., complete, price on application.

Complete piping and fixtures for dry kiln forty thousand capacity, price \$200.

One Portable Chas. P. Willard & Co. 3 x 4 vertical steam engine and boiler in good order, price, \$75.

F. W. READ & CO., Marquette, Mich. (4-19 tf)

TAYLOR CHILD IN WANT.

Kidnapped Cincinnati Girl Is Suffering From Neglect.

Washington, May 13.—The state department having been advised that Margaret Taylor, the child kidnapped by her aunt, Clara Taylor, is suffering from neglect at Bordighera, Italy, owing to the inability of her aunt to care for her, has called United States Consul Pearson at Genoa to have her taken in charge by United States Consul Agent Ameglio at San Remo.

Cincinnati, May 11.—County Detective George W. Ryan has left for Washington to get additional papers for his trip to Italy to bring Miss Clara Taylor back to Cincinnati.

Prosecutor Hoffheimer has made requisition on the county commissioners for \$1,500 for Ryan's trip and to bear the expenses of the prosecution in case Miss Taylor resisted extradition and required a hearing of the kidnapping charges in Italy.

THE YOUNGEST SPY. A Ten-Year-Old Rebel's Four Days on Top of a Fence Post.

Henry S. Garr, now a deputy at the county jail, was one of the youngest spies in the service of either the north or the south during the war.

It was in the year that the Louisville forts were built. The order for all able-bodied men of certain ages to assist in the construction of the forts had been issued only a few weeks.

When the soldiers arrived they found a boy sitting upon a fence whistling as only some boys can. A lieutenant was in charge of the soldiers and he drew rein when he saw the boy.

The boy was about ten years old and they returned and the boy was still upon the gate post. All day the soldiers searched in the woods and all day the boy sat upon the gate post.

The following morning the soldiers returned and again the boy was upon the gate post.

"I sat there for about four days," said Mr. Garr. "My father and several neighbors and all of their negroes were hid in the woods, and by means of a signal code we were able to communicate with one another."

Two or three men were stationed in the woods to observe the public health, the calling low—the catching of rats, the boy's name is Jack—and the game. Well, it is both rodents and bounty.

The manner in which the boy, through the snake's exertions, comes in possession of the country is unique. The boy, with the reptile on his arm and gunnysack in hand, enters the court of a residence and usually, after much palaver in correct language, secures permission to begin the crusade.

With vigilance and keen eyes he inspects all about the premises, he displays training the most systematic and acute—the gamin can discover a rat hole quicker than a semi-nude savage on the firing line, hot in escape from American occupation and American soldiery.

MANIA RAT TRAPS. One Consists of a Small Boy With a Big Snake on His Arm.

Have you seen the big snake and the small boy? Well, they will be around to see you.

It is a dismaying combination, but one whose aims possess quadruple qualities—may be likened to a game of cards—high, low, jack and the game.

The mission of the boy and the snake is to conserve the country, the public health, the calling low—the catching of rats, the boy's name is Jack—and the game. Well, it is both rodents and bounty.

With vigilance and keen eyes he inspects all about the premises, he displays training the most systematic and acute—the gamin can discover a rat hole quicker than a semi-nude savage on the firing line, hot in escape from American occupation and American soldiery.

RAINS CAUSE DELAY

PLANTING IN CORN AND WHEAT BELTS HELD UP BY WEATHER.

FROSTS ALSO CAUSED MUCH DAMAGE

PRESENT CONDITION OF CROPS, HOWEVER, IS SATISFACTORY.

Weather Bureau's Weekly Summary Is a Story of Hard Luck for the Farmers But an Improvement Is Noticed.

Washington, May 13.—The weather bureau in its weekly summary of the crop conditions says that from the upper Mississippi eastward to New England and the Middle Atlantic states, it was decidedly cold and unfavorable to growth with light to heavy frosts causing much damage to fruit.

The excessive rains little or no corn as yet had been planted in Minnesota and Wisconsin and the planting has been delayed in South Dakota and Northern Iowa.

The past week has not been unfavorable to winter wheat and generally the crop has made satisfactory progress.

A decided improvement is reported from Nebraska. Owing to the continued rains, much of the spring wheat crop had yet to be sown, nor had more than half of the intended acreage been sown in South Dakota.

The oat harvest has begun in South Carolina and the crop is ripening in the Northern districts.

The generally satisfactory progress in the central valleys. Very encouraging reports respecting cotton have been received from all parts of the cotton belt, with the exception of Florida and portions of the Central districts where rain is needed.

NEW YORK STOCK MARKET. Unfavorable Report of Crop Conditions Causes Shorts to Realize.

New York, May 13.—Today's stock market was dull and narrow affair but between professional traders for the most part but a stronger tone was unmistakable.

To a large extent this was the natural recovery from yesterday's weakness. The influences which weakened the market then were alleviated or removed today and there was considerable demand from the professional short interest which sold the stocks short yesterday on the unfavorable developments.

The publication of the government's unfavorable report of crop conditions induced considerable realizing by the shorts' interest. The decline in the condition of winter wheat was hardly so great as was expected but the abandoned acreage proved larger than was supposed.

Professional shorts were disposed on the whole to take profits and they were urged to this course by the additional argument of the favorable weather since the recent distribution of the crop since the date of the government's report. Pressure against the shorts was also exerted by the circulation of rumors of a favorable turn in the Anthracite strike situation, but no information on this point was forthcoming.

The money situation was somewhat easier today although loans were made again as high as 8 per cent. The lower rate of money still ruling abroad makes it profitable for domestic buyers of American stocks to purchase in London and hold them with the money borrowed there.

Yesterday's sharp releases in some of the stocks awakened a pessimism as to the many recent rumors of the source of the recent demand for stocks, said to be for control by large interests.

But the Louisville & Nashville episode and the known character of some of the recent distribution of leading among other railroad interests keeps alive the conviction that there is a tendency towards the lodgement of stocks in strong hands for control. The state suspension of the Northern Securities case clearly does not prevent the progress of plans for control, as the question involved there is one of the method of holding the stocks after they have been secured.

A rumor circulated today, although emphatically denied, that the Northern Securities' interests intended to abandon the present plan, resulted in a drop in the stock on the part of 99, which is its first fall below parity. The market closed dull and firm.

Closing prices of stocks are reported by Paine, Webber & Co. as follows:

Table with 2 columns: Stock Name and Price. Includes Nabach Pfd., N. Y. Cent. & Hudson, Southern Ry., etc.

Range of Money Rates. Money on call was firm at 4 1/2 per cent; closing offered at 4. Prime mercantile paper 4 1/2 to 5 per cent.

CHICAGO GRAIN MARKETS. Features of the Day in the Wheat, Corn and Oats Pits.

Chicago, May 13.—In wheat today the trade was smaller in volume than is usually witnessed on the day following the government report, the range being limited to 1/4 to 1/2.

The sentiment was considerably mixed but the undertone of the whole was firm, the close showing 1/2 to 3/4 advance. The weather was looked upon as more favorable. The

SCHOOL GIRLS.

'Tis a pretty age—that time in a girl's life when she has all the beauties of womanhood without the later lines of care and worry.

But here and there even among school girls appear pale and drawn faces.

Pale blood is at the bottom of the trouble and Scott's Emulsion can cure it.

Scott's Emulsion brings back the beauty to pale girls because it is blood food.

Send for Free Sample. SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y.

manipulated condition we still think lower prices are in order.

"Oats followed the rest of the market closely, closing with a small advance over last night. This market is even more manipulated than corn and is a very hard proposition. We think a normal condition warrant lower prices."

Strength in Wall Street. Dick Bros., in a dispatch to Paine, Webber & Co., said of the New York stocks: "The market has been generally strong today and recoveries from yesterday's break were the rule. A letter supply of money and easier rates checked the liquidation, and professional and pools resumed their bullish operations. News as to the coal strike outlook was not favorable, but neither that nor the disappointing crop report received attention. The Gates interests appeared as buyers of their specialties and marked up prices. There was more or less short covering at the close."

BANKERS CONVENE. Kansas City, May 13.—The Bankers' association of Missouri, Kansas, Indian and Oklahoma Territories convened today. Aside from the annual reports presented, Thomas B. Patton, of New York, delivered an address on "The Evolution of the Banking Law." In the afternoon Horace White, editor of the New York Evening Post, delivered an address in favor of branch banks.

TRAIN ENGINEERS IN SESSION. Norfolk, Va., May 13.—Grand Chief Arthur and other officials of the Brotherhood of Locomotive Engineers arrived today to attend the fifth biennial convention which convenes tomorrow. Over 700 delegates and their wives also reached the city today.

SAW LINCOLN SHOT. Lexington, Ky., May 13.—Dr. Lyman Beecher Toad, aged seventy years died tonight. He was a first cousin of President Lincoln's wife and was present both when Lincoln was shot and at his death-bed.

FLOUR MILLS COMBINE. Minneapolis, May 13.—A re-organization of the United States Flour Milling company under the name Standard Milling company, was accomplished today with nineteen mills under its control.

LOOKS LIKE TROUBLE. London, May 13.—According to the Cairo correspondent of the Mail, Turkey has sent troops to occupy the island of Thasos, in European Turkey, which belongs to the Khedive of Egypt.

GOOD RAIN IN KANSAS. Topeka, Kas., May 13.—Rain which visited Kansas this evening was especially heavy in the wheat growing counties. Reports tonight say the rain will make the wheat crop much larger.

TODAY'S WEATHER. Washington, May 13.—The following is the weather bureau's forecast for Upper Michigan: Fair Wednesday; Thursday fair and warmer; fresh north to east winds.

AMERICAN JOCKEYS WIN. Paris, May 13.—American jockeys rode all the winners today. Milton Henry and J. Reiff won three each.

LIEUT. BALL HOME SOON.
 His Regiment About to Leave the Orient for the States.
 Lieutenant George E. Ball of this city, who has been serving in the Philippines with the Twenty-first regulars for a couple of years and who during that time has seen considerable fighting, will be home next month. His regiment's term of service in the Orient is now rapidly drawing to a close. The Twenty-first is under orders to sail for the States in a short time, and as it has been in the midst of the turbulent districts almost ever since it has been in the archipelago, the fact of the impending transfer to the States has been pleasing news to its members. In letters to his mother, Mrs. D. H. Ball, the lieutenant writes interestingly of army life and experiences in the Philippines, and they will be found very entertaining by the young soldier's many friends here. Extracts from the letters follow:
 "San Juan de Boc Boe, March 9-1 came back Tuesday evening and five days trip in the mountains, and Friday morning I was sent to Lipa with a mounted detachment to escort Mrs. Captain Hall to that place. She has gone on a two months' trip through China and Japan. The surrenders have been coming thick and fast all around here and things are beginning to assume a peaceful aspect. In Lipa they say 'Our hiking days are over,' and everything is looking much better. The Third Infantry leaves for the States March 16, and I have heard that the Seventh and Twelfth are under orders. We come next in line and it is only a question of a month or two before we pack up. Before this letter reaches you we may be under orders; at any rate, we are just waiting for the order.
 "San Juan de Boc Boe, March 11- We just received orders to sail for Manila, that is the Twenty-first will go to Manila about May 1st. The Fourth of July will see us in the States. We have only a month and a half more here, and I am feeling pretty fine over it. We will have everything in good condition by the time we start. In our immediate territory there are only seventeen guns still out; and they are scattered in ones and twos, but they are being brought in. We can call our immediate territory clean. I just came back from a five days' trip in the mountains, as I wrote you in my last letter, but beyond that nothing is going on. A storehouse of rice we didn't have much excitement. On last Friday I took Mrs. Hall to Lipa on her way to Manila, and on the way we had to pass through Rosario, a town that has been completely destroyed but around which large numbers of insurgents are still expected to have my detachment shot up before we got through, but they let us alone. I heaved a great big sigh of relief when we arrived in Lipa.
 "San Juan de Boc Boe, March 14- We will be on the way home in a very short time. The Twelfth Infantry leaves about April 1 and we are the next to go. I think now that we will be in the States by the middle of June, although there is some talk of our going by way of Suez, which is a forty-five or fifty days' trip. The colonel thinks that we will go to Plattsburg barracks, on Lake Champlain, the former station of the regiment. Practically all of our part of the country is cleaned up. Thirty-nine rifles and any quantity of revolvers and bolos have been surrendered recently. The territory immediately adjoining ours, however, is still occupied by insurgents, but they keep out of our preserves. Practically a bad habit of making holes in insurgents that come near us. We talk of nothing nowadays but our speedy return home. It is the sole topic of conversation at the table or wherever else we may be.
 "March 15- A telegram from Manila today brings the news that the Twenty-first has been ordered relieved by the Ninth Cavalry. The formal order has not reached us as yet, but our information is authentic. We will not leave here for two or three weeks yet, but the suspense is over.
 "March 18- Even if they don't celebrate the fiesta of San Patricio over here in the orthodox way, two of our little brown brothers did their best yesterday morning. One was buried this morning, the other is in the guard house and San Juan may have a hanging some day. They fought with knives—some with a pocket knife and the other with a dagger about nine inches. The man with pocket knife was out of luck. The guns continue to come in, but they are not all in yet by a thousand, at least. Our orders are still hung up, but we have lots of work to get everything in an ordered up before we leave. We expect one surrender to-day.

CITY BREVITIES.
 Today's weather: Partly cloudy; stationary temperature; fresh to brisk northeast winds.
 Yesterday's temperature: 7 a. m., 41 degrees; 12 noon, 42 degrees; 7 p. m., 42 degrees; maximum, 44 degrees; minimum, 38 degrees.
 Mr. and Mrs. Louis Kaufman left last evening for Chicago.
 The May term of the circuit court opens here next Monday.
 Mrs. Clifford Barnard of the Soo is the guest of Marquette friends.
 Archdeacon A. H. Lord was in the city yesterday from the Soo.
 Dr. R. W. Boyer is engaged in dental work at L'Anse for a few days.
 The Ladies' auxiliary to the A. O. H. will hold a meeting this evening.
 Kendrick Kaurela and Fia Antton were married yesterday by Justice Byrne.
 Mr. and Mrs. Robert Hume left last night for Calumet to attend the funeral of a niece.
 The ladies of St. Mary's guild will meet this afternoon at 2 o'clock with Miss Mamie Doherty, Superior street.
 The Unceada Pedro club will meet with Mrs. White, North Fifth street, Saturday afternoon at 2:30 sharp.
 An important special meeting of the Beavers will be held this evening at the new lodge hall in the Siegel block, on Third street.
 Rev. C. M. Thompson of this city will lecture at the L'Anse Methodist church this evening. His subject will be, "William McKinley."
 Charles Brahaney got back yesterday from Niles, where last Saturday he attended the funeral of his sister, the late Mrs. Cavanagh.
 Andrew Siegel has taken the position of depot master at the South Shore passenger station. He entered on his new duties yesterday.
 Mrs. Benton Barrett, mother of Mrs. G. P. Brown, left yesterday for Detroit and the east to spend the summer. She had been here for several months.
 At the meeting of Superior hive of the Maccabees Thursday afternoon, the ladies are requested to each bring a little lunch "for the good of the order."
 A. R. Scanton and wife were in the city yesterday from Bay Mills. Mr. Scanton is in charge of the lumber concern of Hall & Munson of Bay Mills.
 Mail is now collected from the letter boxes on Front street every evening at 7 o'clock. The service is something new, and incidentally a great accommodation to the public.
 George X. Conklin left last evening for Chicago on a rather mysterious trip. He has been subpoenaed as a witness before the grand jury, but on what case was unknown to him.
 Two theatrical attractions are looked for next week. On Wednesday evening Howard Kyrie will appear in "Nathan Hale," and on Friday evening a minstrel show will hold the boards.
 Something new in dining tables are being displayed at the furniture store of Tonnella & Johnson. It is in the extension arrangement that the novelty exists and forms a big improvement over the scheme in general use.
 A "Young club" has been organized at Manistique with a large membership. The congressional campaign will be exceedingly warm in that locality, since the turn-down of the old postmaster and the appointment of a new one.
 Among the visitors in the city yesterday were E. J. Reilly, advance agent of the "Nathan Hale" company; Ira B. Weller, An Train, W. E. Cooper, Houghton; L. E. Bush and E. J. Humphrey, Ewen, and H. J. Seifert and C. J. Blankenhorn of L'Anse.
 The "Way Down East" company leaves this morning for Menominee where the play is presented this evening. Monday night the production was put on at Calumet, and last Saturday at Duluth. A special baggage car carries the scenery.
 A gentleman down from Ewen yesterday stated that a round house and a new depot were to be built by the South Shore here, and also that an experimental farm would be established in that locality under auspices of the railroad people. In consequence, a much more cheery feeling is in evidence at Ewen.
 John Seotte and Michel L'Heullier of this city and George Rowe of Calumet, who were recently declared bankrupts on their own petition, were yesterday discharged as such. The result of the proceedings is that all their debts contracted prior to the time of the application are wiped out and they start life anew.
 John R. Gordon, a Marquette lumber man, is spending a few days at the St. Louis. Mr. Gordon is a pioneer in the Lake Superior country and is widely known. He was a member of the house in the last Michigan Legislature, and is continuing the Republican nomination for senator from the Marquette district to succeed Gad Smith.—Duluth Herald.
 A number of subscribers were received at the Marquette National bank yesterday for the Martineau sufferers.

UNTOLD INJURY.
 To Marquette People as It Is Elsewhere Throughout the Land.
 Neglect a bad lack,
 Not trying to reach the cause
 Brings untold injury to the human system.
 Following in the wake of backache are urinary disorders—Diabetes—Bright's disorders.
 Let an Ironwood citizen tell of his cure.
 Mr. John Brennan of 230 McLeod Ave. employed in the grocery department of the Ironwood Store Co. says: "I have no hesitation in recommending Doan's Kidney Pills as a thoroughly reliable remedy in all cases of aches and pains through the loins and kidneys. It is also a fine tonic, strengthening and regulating the general system. I was bothered on and off for a long time with spells of dull heavy aching through the small of my back just over the kidneys, and at times I felt all run down. I was advised to try Doan's Kidney Pills and got them at a drug store and used them. They thoroughly and effectually relieved me of all the trouble and since using the remedy I have felt splendid, in fact never felt better."
 Just such emphatic endorsement can be had right in Marquette. Drop into the Stafford Drug Company and ask what their customers report.
 For sale by all dealers. Price 50 cents. Foster-McClellan Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.

TESTIMONY VALUELESS!
 Unless You Can Reach the Writer of the Letter.
 AND HAVE STATEMENTS VERIFIED
 We Publish Testimony Which Means Something!
 We are agents for Smith's Green Mountain Renovator and from time to time the owners of this splendid remedy send us for publication copies of letters which they receive from people who have been cured by its use.
 The truth of these statements can be proved by any reader who desires to write the parties who are authors of the testimonials.
 We have just received the following remarkable letter and we believe that such words are far more convincing than anything we could say for this time-tried remedy.
 285 Lincoln Avenue,
 Cliftondale, Mass.
 April 28, 1902.
 St. Albans Remedy Co.,
 St. Albans, Vt.
 Gentlemen—I am 80 years old, and since I was 18 have been subject to bilious attacks and costiveness. At 70 I began to feel a lameness in my limbs and it kept growing worse. I began to have dizzy spells and my legs felt weak and sore. I could not walk 20 rods without resting. I saw an advertisement for Smith's Green Mountain Renovator and reading that it was especially for rheumatism, procured a bottle and took it as directed. I did not feel much relief from my rheumatism but the dizziness was gone in a part. After the second bottle I was certainly better and I continued taking it until I had used 5 bottles. I then stopped it for six months and took 3 more bottles.
 For the past year I have been free from rheumatism as I have ever been in my life and want to tell suffering people what Green Mountain Renovator has done for me and say that a trial will do the same for any one.
 Yours gratefully,
 (Signed) Ephraim Pierce.
 Write Mr. Pierce if you desire these facts verified. Enclose a stamp and the above letter and ask him if it is true. This is the kind of advertising which means something.
 We sell every bottle of the Renovator under the absolute guarantee to benefit blood diseases, rheumatism, shattered nerves, kidney and liver troubles, dyspepsia or indigestion and malaria. If you are not satisfied with its effect, we will gladly refund your money.

I did not feel much relief from my rheumatism but the dizziness was gone in a part. After the second bottle I was certainly better and I continued taking it until I had used 5 bottles. I then stopped it for six months and took 3 more bottles.
 For the past year I have been free from rheumatism as I have ever been in my life and want to tell suffering people what Green Mountain Renovator has done for me and say that a trial will do the same for any one.
 Yours gratefully,
 (Signed) Ephraim Pierce.
 Write Mr. Pierce if you desire these facts verified. Enclose a stamp and the above letter and ask him if it is true. This is the kind of advertising which means something.
 We sell every bottle of the Renovator under the absolute guarantee to benefit blood diseases, rheumatism, shattered nerves, kidney and liver troubles, dyspepsia or indigestion and malaria. If you are not satisfied with its effect, we will gladly refund your money.

TESTIMONY VALUELESS!
 Unless You Can Reach the Writer of the Letter.
 AND HAVE STATEMENTS VERIFIED
 We Publish Testimony Which Means Something!
 We are agents for Smith's Green Mountain Renovator and from time to time the owners of this splendid remedy send us for publication copies of letters which they receive from people who have been cured by its use.
 The truth of these statements can be proved by any reader who desires to write the parties who are authors of the testimonials.
 We have just received the following remarkable letter and we believe that such words are far more convincing than anything we could say for this time-tried remedy.

 St. Albans, Vt.
 Gentlemen—I am 80 years old, and since I was 18 have been subject to bilious attacks and costiveness. At 70 I began to feel a lameness in my limbs and it kept growing worse. I began to have dizzy spells and my legs felt weak and sore. I could not walk 20 rods without resting. I saw an advertisement for Smith's Green Mountain Renovator and reading that it was especially for rheumatism, procured a bottle and took it as directed. I did not feel much relief from my rheumatism but the dizziness was gone in a part. After the second bottle I was certainly better and I continued taking it until I had used 5 bottles. I then stopped it for six months and took 3 more bottles.
 For the past year I have been free from rheumatism as I have ever been in my life and want to tell suffering people what Green Mountain Renovator has done for me and say that a trial will do the same for any one.
 Yours gratefully,

Twenty Good Reasons
 Why the Shares of the
POLAND EXTENSION GOLD MINING AND MILLING COMPANY
 ARE THE
BEST INVESTMENT ON THE MARKET:
 1st. Capitalization is very low.
 2nd. Fifteen mining claims or over 300 acres.
 3rd. Large Treasury reserve.
 4th. Special Reserve Fund of 500,000 shares.
 5th. Railroad depot on the property.
 6th. Smelter within ten miles.
 7th. Company owns its own townsite.
 8th. Company owns its own water plant.
 9th. Company will own its own electric light plant.
 10th. Company will own its own mill.
 11th. Timber valued at \$100,000.
 12th. One hundred thousand dollars worth of ore already in sight.
 13th. Poland vein for over 3,000 feet already exposed.
 14th. Complete assay office and building.
 15th. Conservative and economical management.
 16th. Expert's report value property at \$1,000,000.
 17th. Working day and night with large force of men.
 18th. Property adjoins the great Poland mine.
 19th. No salaries paid until the company is on a dividend-paying basis.
 20th. Title perfect. No floating indebtedness. The first issue of the Treasury Stock is offered at 25 cents per share. Why not join us in developing a grand mining property, which under proper conditions should be on a dividend-paying basis inside of one year. The stock in our judgment will be worth par. You will have made 400 per cent. on your investment. Can you do so well anywhere else, and at the same time feel that your money is safe?
 Twenty other reasons could be given why this property will become one of the great dividend-paying gold mines of Arizona.

Our Line of SUMMER GOODS is Complete.

INSPECT OUR NEW GOODS ARRIVING DAILY. FINNISH MERCANTILE ASSOCIATION.

Ishpeiming and its Environs.

PLEDGES ARE SATISFACTORY. Solicitors for Methodist Church Fund Meeting With Good Success.

At a meeting of the members of the Division Street Methodist church congregation held last Sunday reports were received from the committees appointed a short time ago to solicit funds for the new church to be built this summer.

The total amount pledged from all sources up to Sunday was \$3,800. At the time the congregation decided to build the church persons present at the meeting promised to contribute liberally.

Several architects have been here within the past week or more looking over the site with a view to preparing plans for the proposed edifice.

The old church will likely be torn down. Arrangements will probably be made with the contractor who got the job to utilize as much of the old material as possible in the construction of the new building.

HULST-BRETT WEDDINGS. The Milwaukee Sentinel Mentions Marriage of a Popular Couple.

Harry Hulst and his bride, who were married in Milwaukee on Monday morning in this city yesterday morning.

The wedding of Miss Flora Brett and Henry Terry Hulst took place last evening at the residence of the bride's parents, Mr. and Mrs. William Deles Brett, 1829 Grand avenue.

The five-months-old son of Herman Maki, of Pine street, died yesterday. The funeral will be held today.

Mrs. V. H. Vandevanter left Saturday for Virginia, Mass., where she will visit her husband's relatives.

The Nye Theatre company will give away a set of bedroom furniture this evening to the person holding the lucky number.

An adjourned regular meeting of the city council will be held this evening. The principal business to be disposed of is a petition to close the alley adjoining the Division Street Methodist church property.

STAND LIKE A STONE WALL. Between your children and the tortures of itching and burning eczema, scaldhead or other skin diseases.

Ladies, see our large line of trimmed hats. We are selling them off cheap. Finnish Mercantile association.

ANNIVERSARY CELEBRATION. Mr. and Mrs. John Cowin Were Twenty-Five Years Married Monday.

About one hundred friends of John Cowin and wife dropped in on them at their home on New York street Monday evening. The visit of the callers was a complete surprise to the couple.

Mr. and Mrs. Cowin were wholly unprepared to receive the visitors, but they didn't count with the members of the party. They came prepared to feast and have a good time and in this they were not disappointed.

The ladies of the Golden Eagle society have removed from the old hall to the Swedish Home society's hall on Cleveland avenue.

THE SUMMER SEASON. is full of dangers particularly for the children, who not knowing the result of eating unripe fruit, induce themselves with the usual griping pains in the stomach.

ISHPEMING IN BRIEF. Trombly's orchestra gives its weekly dance tonight at Anderson's hall.

Miss Edna Newett returned from Milwaukee Monday.

Remember the moon-dog lunch to be served by the ladies of the Grace church at Guild hall Thursday.

The five-months-old son of Herman Maki, of Pine street, died yesterday.

P. H. Donahue has placed an electric sign in front of his place of business. The sign is one of the neatest of its kind in the county.

John S. Olson has left for Mt. Clemens to attend the annual grand lodge session of the Knights of Pythias.

A new sidewalk will be built on Canada street, adjoining the Nelson House property.

A force of men is at work removing the old shingles from the roof of the building owned by A. W. Myers & Co. corner of Division and Pine streets.

The fire department was called out yesterday afternoon to extinguish a small blaze in the roof of the house occupied by William Pierce on North Main street.

Mrs. V. H. Vandevanter left Saturday for Virginia, Mass., where she will visit her husband's relatives.

S. Johnson & Co. will inaugurate a big closing out sale in the dry goods and gents' furnishing goods departments, commencing tomorrow morning.

The Lake Laurie club held its annual meeting Monday evening and elected the following officers: T. W. Smith, president; John Welsh, first vice president; Robert Kyle, second vice president; P. J. McGinty, secretary and treasurer.

WHOOPIING COUGH. A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it.

Now ready to furnish ice cream in large or small quantities. H. O. Cain, Bell phone 128.

SHAFT CONTRACT. Proposals are wanted for sinking a shaft at the Foxdale mine.

Deafness cannot be cured. By local applications as they cannot reach the diseased portion of the ear.

TO CURE RHEUMATISM.

An absurd practice to try and cure Rheumatism, Gout, or Lumbago with Liniments, Electricity Belts or other external appliances.

It is an unscientific, to try and cure rheumatism by external remedies, as it is to try to cure a burn by pouring medicine in the stomach.

Doctor Quintero, a medical doctor of the University of Venezuela, to whom Gloria Tonic has been recommended by Hon. Eugene Plummer, United States Consul at Maricao, has become quite an enthusiast of Gloria Tonic and writes: I have tested Gloria Tonic on rheumatic patients and can be cured.

have found it an excellent remedy for rheumatism, also a great tonic for the blood and stomach.

Gloria Tonic has also been put to a remarkable severe test in Mendota, Ill. A resident of that city, Mr. Andrew Moore (care Black Bros.) had been a victim of inflammatory rheumatism for 15 years.

The most elaborate book ever gotten up for the relief of rheumatism, called "Rheumatism its Causes and Cure," mailed absolutely free by JOHN A. SMITH, Department 333, Germania Bldg., Milwaukee, Wis., Maker of Gloria Tonic.

WHEAT IS DOOMED.

Scientists Say the Banana Will Be the World's Food.

Science again finds a new paradox to the front. It concerns the staple food supply of half the entire human race—wheat.

Not only that, the banana is twenty-five times as nutritious as the given weight of wheat. It is forty-four times as nutritious as the average diet.

DEAFNESS CANNOT BE CURED

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies.

MOTHER GRAY'S SWEET POWDERS. For children. Mother Gray, for years a nurse in the Children's Home in New York, treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children.

Mrs. Fred Vnrath,

No. 228 Territorial Street, Benton Harbor, Mich.

"I am pleased to give my experience with Wine of Cardui as I am very grateful for its help. After my first baby was born I could not seem to regain my strength, although the doctor gave me a tonic which he considered very superior, but instead of getting better I grew weaker every day. My husband came home one evening with some Wine of Cardui and insisted that I take it for a week and see what it would do for me. As he seemed to have so much faith in it I did take the medicine and was very grateful to find my strength slowly returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very enthusiastic in its praise."

hers, as are their ambitions, triumphs and defeats. Healthy women do not suffer miscarriage nor does a woman who is healthy suffer tortures at childbirth. It is the woman who is ailing—who has female weakness—who fears the ordeal of becoming a mother. Wine of Cardui builds up the womanly in a woman. It stops all unnatural drains and strains—irregularities which are responsible for barrenness and miscarriage. It makes a woman strong and healthy and able to pass through pregnancy and childbirth with little suffering. After the ordeal is passed the Wine prepares a woman for a speedy recovery to health and activity. Wine of Cardui, in re-inforcing the organs of generation, has made mothers of women who had given up hope of ever becoming mothers. Wine of Cardui will cure almost any case of barrenness except cases of organic trouble. How can you refuse to take such a remedy that promises such relief from suffering? Wine of Cardui simply makes you a strong woman, and strong, healthy women do not suffer. They look forward to motherhood with joy.

WINE of CARDUI

DR. LYON'S French Periodical Drops

Strictly vegetable, perfectly harmless, sure to accomplish DESIRED RESULTS. Greatest known female remedy.

CAUTION: Beware of counterfeits and imitations. The bottle is put up only in paste-board cartons with the name of the manufacturer on the side of the bottle, thus: Dr. J. C. Williams Mfg. Co., Sole Agents, Cleveland, Ohio.

THE ROAD ROLLER.

It Will Not Be Tested Until the Crusher Is in Operation.

G. W. Stadler of the Kelly Manufacturing company arrived in the city Monday. He is the expert sent to unload and start the new road roller. Soon after his arrival preparations were made to unload the machine and before long it was moving on the streets with its own motive power.

The rock crusher is expected to be in operation about the fifteenth of the month. After that Street Commissioner Thomas will begin active work on the streets. The first work that will be attempted will be on the running track for the tournament races.

As nothing can be done until the crusher comes, Mr. Stadler obtained permission from the city to go to Marinette and Menominee, where he will superintend a test of similar machines.

Oscar Larson, an engineer of many years' experience, has been engaged by the city to operate the roller. He took his first lesson in the work Monday and Mr. Stadler was pleased with the way he handled the machine. He expressed the belief that Mr. Larson will make a competent operator.

"THE STAR BOARDER."

About the best thing in the farce comedy line which has been done this season is Chas. Boyle's impersonation of Chauncey Depot in "The Star Boarder," which piece has been presented with great success throughout the country during the present theatrical year. Mr. Boyle is also the author of the farce with the above clever title.

There is quite a little plot and "Stars" a plenty, with not one old joke in the whole show. There is good dancing galore, with clever fun, fast and furious from start to finish, and many genuine new jokes. Boyle has a Sousa specialty which is extravagantly funny, and with others of the company does an excellent parody on the "Old Kentucky" quartet with which the latter-day pastorals are infested. Mr. Boyle also does some comic songs in away-up fashion. He has the voice, the insinuating dandy twang and an eloquent pair of heels to assist, and reminds one of Mr. Dockstader, the celebrated negro delineator. Of the ladies in the cast Miss Sue Belle Mead as the bewildering soubrette easily takes chief place. She acts and sings delightfully, adorns herself with handsome gowns and is, in addition, very charming to look upon. The show will be here next Saturday night.

SPECIAL COUNCIL MEETING.

A special meeting of the city council was held Monday evening. The Mayor of Kelly & Nicholson, with E. C. Anthony and H. Lee as sureties, were submitted and approved. The recorder was instructed to advertise for bids on 1,000 feet of hose and two nozzles for the fire department. Business men on Iron street complained to the council that gas is escaping from the company's main. The company will be compelled to repair the leaks or put in a new main from the C. & N. W. crossing to Tobin street.

MIDSUMMER WHIST TOURNAMENT

The Negaunee Whist club has invited the Upper Peninsula Whist Association to hold its midsummer tournament in this city. In case the invitation is accepted the meeting will be held June 26th.

The Upper Peninsula Whist Association is composed of clubs at the Soo, Marquette, Houghton, Menominee and Ironwood.

LOCAL LACONICS.

John Rock left for Chicago last night. R. H. Hoskins, Jr., of Menominee, is in the city.

J. D. Campbell is spending a few days with his family.

Mrs. Alice Dodge returned Monday from Chicago, where she has spent the past month.

Nelson Goodrich, formerly of Negaunee, but now of Iron River, Wis., was in the city yesterday.

A. C. Seass and P. B. Kirkwood are spending a few days at Kirkwood's camp, Little Lake.

Mrs. F. M. Beney has purchased the house and lot formerly occupied by R. G. Quinn and family.

J. M. Perkins, F. D. Davis, Dr. A. W. Haidle and J. Stevens spent yesterday fishing at Sand.

Amos Sy and Gus Carlson left yesterday for the Meau range, where they expect to obtain employment.

George Shining of Gladstone, where he holds a position with the Cleveland-Cliffs company, was in town Monday.

The local clerks are making arrangements to give an entertainment and dance at the A. O. U. W. hall next Monday evening.

Charles B. Burke, who has been visiting his customers at Ironwood and vicinity during the past week, returned home Monday.

Professor H. C. Belmont, the palmist, who has spent several weeks in Ishpeming, is now located at the Tremont house, Jackson street.

The Cleveland-Cliffs Iron company is having the Kruse residence on Mitchell avenue painted and repaired, preparatory to its occupancy by Captain Kruse.

The tournament committee held a meeting Monday night. Reports of sub-committees were read and discussed. All the committees report that the work entrusted to them is progressing favorably.

Coughs and colds, down to the very borderland of consumption, yield to the soothing, healing influences of Dr. Wood's Norway Pine Syrup.

ODD FELLOWS HOME.

Several Cities Working Energetically to Capture It.

R. G. Jackson recently returned from a two weeks' trip in the lower part of the state, where he had been in the interests of the order of Odd Fellows. Mr. Jackson is one of the committee of seven, appointed from the order at large in the state, to select a suitable location for the proposed Odd Fellows home.

It is the intention of the grand lodge to establish a home for old and infirm members. The object is a worthy one and the committee is meeting with great encouragement from the members of the order in several of the larger cities of the state. Flint, Saginaw and Lansing are after the institution. However, a final selection will not be made until the grand lodge session, to be held at Port Huron, during the latter part of October.

MEMORIAL SERVICES.

Charles Towne post, G. A. R., is making arrangements to hold memorial services at the Presbyterian church on the morning of the twenty-fifth. The members of the post, escorted by the military companies of Ishpeming, will attend in a body.

BIG FIGURES.

300,000 bottles of Perry Davis' Painkiller sold in 1897. Just think! Nearly equal placed end to end to reach around the world. What other remedy can boast such a record of services to humanity, curing stomach and bowel complaints and the many other ailments and accidents constantly occurring even in the most careful homes. There is only one Painkiller, Perry Davis'. Beware of imitations.

Champion.

THE HORSE WOULDN'T MOVE.

A Young Couple Had a Very Trying Experience Here Sunday Last.

A young man of Republic and his Champion girl had an aggravating experience Sunday last. The young man engaged a horse at one of the livery barns here and took the girl out for a drive. They started for Michigamme and after spending several hours on the road they finally reached their destination in a buggy. The distance was covered on foot by the young man, while the girl sat in the buggy and held the reins.

The nag, it seems, was trained for a sulky and would not work with two persons in the vehicle. It is a new horse in town and even the owner was not aware that the nag would not work well in a buggy. On the way back from Michigamme the couple had a trying time. The young man was obliged to run behind the rig the greater part of the distance. Every time he got into the seat the horse refused to move, but as soon as he got out and gave the girl a reign the horse got over the ground altogether too rapidly to suit the swain was trailing along behind and had to exert himself to keep up with the procession. About a mile out of town a local man who was taking a walk saw the horse approaching at a rapid rate. He thought the girl had lost her reins and the intent was to rescue. Catching hold of the bridle he brought the outfit to a standstill. The young man came from behind the buggy, pretty well winded, but apparently good for the remainder of the distance to town.

The man who stopped the horse volunteered to walk it up to the barn, occupying a seat in the buggy. This was tried and fully half an hour was spent in the attempt, but the horse wouldn't move. Finally the young man got out and took his old position at the rear of the buggy, the girl commanded the animal to go and away it went. The next time the "domestic" man comes to Champion to see his best girl it's to one that he will bring along a horse that he can master, instead of getting one from a local liveryman.

AN OLD SETTLER DEAD.

Joseph Disho, who has resided in Champion for the past twenty-three years, died on Friday night of last week. He had been ailing for the past few years and for a year or more he had been confined to the house.

Deceased was about seventy years of age and is survived by his widow and five adult sons and daughters. A large number of his grandchildren, some great grandchildren and several other relatives live in the upper peninsula. Quite a number of his relatives reside in Champion and Michigamme.

The funeral was held Monday morning from the Catholic church under direction of the local French society, in which deceased held membership. The society turned out in a body and the attendance of friends was large. Services were conducted at the church and also at the grave by Rev. Father Girard, the pastor.

BALL FRIDAY NIGHT.

The ball to be given on Friday night of this week under the management of the football team will bring out an unusually large attendance of young people. A large number of tickets have been disposed of and the party has been quite extensively advertised throughout the county. Visitors will be here from Michigamme, Ironwood, Ishpeming, Negaunee and Marquette. The music will be furnished by the Calumet & Hecla orchestra. A concert will be given between 8 and 9 o'clock, before the dancing starts. Refreshments will be served in the hall.

EARLY CLOSING.

The two general stores, also Huber's meat market, are closed two evenings a week at 6 o'clock. This agreement was recently reached and as the three concerns do the entire business of the town in their lines it is somewhat certain that it will not be violated. The early closing is observed on Tuesday and

CANCEROUS ULCERS

develop sometimes from very trifling causes, and when and where you would least expect them. A boil, or abscess, burn, blister, wart, tumor, mole, or the simplest little pimple may be the beginning point of a malignant, frightful looking Cancerous Ulcer.

Apparently there is no difference between a Cancerous and Common Ulcer when they first make their appearance, and for this reason every ulcer, no matter how insignificant or harmless it may seem, and all slow healing sores should excite suspicion and cause alarm, particularly if any of your ancestors ever had Cancer, or you have good reason to think your blood is impure; for the sore, after all, is only the outgrowth, the external evidence of polluted blood, and nothing can check its progress until the cancer tainted, vitiated blood has been purified. All efforts to heal the ulcer by means of salves or other external remedies will result in failure, for such treatment can have no possible effect upon the deadly germs and morbid matter that form in the blood and are carried through the circulation to the sore.

MOTHER, TWO AUNTS, AND ONLY SISTER DIED OF CANCER OF THE BREAST.

I had a Cancer on my left breast, which caused me great pain for three or four years. At times the pains were deep and shooting. The ulcer discharged yellow and rather offensive matter. I had given up all hope as the doctors gave me no relief.

My mother, two aunts and an only sister died of Cancer of the breast, and I am satisfied that I would have been gone S. S. S. I felt some letter after the first bottle, and after using only seven bottles, was cured. This was several years ago but have seen no signs of the Cancer since. I would urge all who are suffering from the disease to give S. S. S. a trial. BELTON, Mo. MRS. JAMES CASSELL.

A SMALL SORE CAME ON THE INSIDE OF HIS LIP.

About the first of February, 1899, I noticed a small lump on the inside of my lower lip. It annoyed me considerably; the doctor cauterized it and in a few days it dropped off, but shortly after another came and broke into an open sore, and in spite of the large number of remedies I tried, it would not heal. I then went to another, and he gave me something to put on the sore, saying if it did not cure he would cut the sore out. I used his medicine, but received no benefit. I decided a blood purifier was what I needed, and began to take S. S. S. The ulcer was growing rapidly, with some pain and a crawling, creeping feeling. At first S. S. S. seemed to make the sore worse, but this soon changed, and after I had taken seven bottles the place healed entirely; my general health improved and I am as well now as ever and no signs of the disease have been seen since. HOLLANDS, S. C. W. P. BROWN.

WOULD SCAB OVER, BUT NOT HEAL.

Mr. Jno. Massie, Owensboro, Ky., writes: "About three years ago a blister came on the right side of my nose. It grew steadily in spite of all efforts to heal it up; the pain was not very severe at first, but increased when the sore began to inflame and discharge matter. Several times the place would scab over and appear to be getting well, but the scab would drop off, leaving a red, angry looking ulcer. I had almost despaired of ever curing the Cancer when my attention was called to S. S. S., and after taking a few bottles the Cancer began to gradually grow smaller, the discharge stopped, and I was relieved of the terrible disease."

Cancerous Ulcers can be reached only by a remedy that acts upon and through the blood system, and this is just what S. S. S. does. It goes to the fountain head of the disease, and drives out the germ producing poisons which cause the ulcer, and purifies and builds up again the deteriorated blood. This is the only true and logical treatment for sores of this character.

By the use of S. S. S. the ulcer is supplied with pure, strong blood, which quickly allays the inflammation and forces out all the irritating poisons, and allows the sore to heal naturally and permanently. S. S. S. acts also as a tonic, and where the constitution has become debilitated and weakened, it restores vitality and strengthens the nervous system, and helps the appetite and digestion. S. S. S. contains no Mercury, Potash or other minerals, but is guaranteed purely vegetable.

Those having a chronic ulcer or sore of any kind that is slow in healing, whether located upon the body or internally, will receive medical advice and such special information as they desire free of cost. Book on Cancer and Other Diseases of the Blood sent free.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

VICTIM OF PNEUMONIA.

Patrick Welsh, aged nineteen years, a young man well known in the village, died at the home of his parents here on Saturday of last week. Pneumonia was the cause of his death. He was an exemplary young man and had many friends in the village. The remains were taken to Republic Monday morning and the interment took place in the Catholic cemetery there. A number of Champion people went over to the funeral.

HOLDS UP A CONGRESSMAN.

"At the end of the campaign," writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-round medicine ever sold over a druggist's counter." Overworked, run-down men and weak, sickly women gain splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by Stafford.

CHAMPION CHITS.

Charles Anderson has taken his old position with Levine & Davidson. Levine & Davidson's new furniture and fixtures are in position in the grocery department.

Charles Palm, a high school student, has been quite ill and confined to his home the past few days.

The employees of the Champion Iron company will be paid on Thursday of this week for labor performed last month.

Miss Mary Carter came home from the Marquette Normal one day last week. She was taken ill and unable to continue her work.

Walter Kikkleson has been suffering from an attack of rheumatism the past few days. He was obliged to quit work on Friday last.

Treasurer W. E. Stone of the Champion Iron company arrived in the village on Saturday last. He spent the early part of the week at the mine here.

J. D. Campbell of Negaunee, special agent of the Chicago & Northwestern Railway company, did business in Champion Monday. He is connected with the ore traffic department.

Very few of the local men who have been out fishing this season have brought in large strings of trout. Some fair-sized batches came in Sunday last. The streams are too high for successful fishing.

Members of the local French society have been provided with new hats to be used when they come out on parade. The lodge will be largely represented at the annual reunion to be held at Ishpeming June 24.

Henry Livard has returned from the Mesaba range, where he has been engaged in diamond drill work for some time past. He will remain here for the

present at least, on account of the illness of his sister, Johanna, who has not been in the best of health for the past few weeks.

About twenty Republic people took in the baseball game between the Negaunee and Republic teams at Republic Sunday. The contest was witnessed by an unusually large gathering, over one hundred persons from down the road being present. The Republic people also turned out well. The fans from here drove over and back.

William Williams, who left here one day last week, is bound for California, where he expects to locate permanently. The reporter stated in last week's items that he had gone to Sault Ste. Marie and might locate there. That was an error. He will probably wind up at Chinese Camp, where a number of upper peninsula men have located within the past few years.

Germes of Disease should be promptly expelled from the blood. This is a time when the system is especially susceptible to them. Get rid of all impurities in the blood by taking Hood's Sarsaparilla, and thus fortify your whole body and prevent illness.

You never heard of any one using Foley's Honey and Tar and not being satisfied. Sold by People's Drug Store.

BUILDINGS NAMED

SCHOOL BOARD SELECTS TITLES FOR TWO NEW STRUCTURES.

HIGH SCHOOL CALLED 'THE HOWARD'

'MANUAL TRAINING' THE DESIGNATION OF THE OTHER.

Contractors Are Making Surprisingly Rapid Progress in the Work of Construction—Bids Asked for the Heating Apparatus.

At a meeting of the school board yesterday afternoon, names were selected for the high school and manual training buildings, the completion of which will finish up the group of three structures that will occupy the site of the old high school destroyed by fire a few years ago.

Excellent progress is being made in the construction of the two buildings, and it is likely that the contractors will be ready to turn over the structures to the school board some little time before the time specified. The high school is up to the second story, and at the manual training the ground floor is about finished.

It is probable that before the two unfinished buildings are completed and furnished, and ready to go into commission, the entire cost of the group will be \$100,000, and possibly a little more.

IN THE SUPREME COURT.

Liquor Case Recently Decided by Judge Stone Is Appealed.

A dispatch from Lansing says: "A case involving the constitutionality of the liquor law of this state which will find its way to the federal supreme court, has been argued before the state supreme court. Under the law in this state wholesalers of brewed and malt liquors are required to pay a license of \$500, while manufacturers are subject to the payment of only a \$85 license."

The case is now before the supreme court on appeal, and the question is raised that the state of Michigan has no right to discriminate against citizens of another state by charging a manufacturer of Minnesota more for a license than it does a resident of Michigan engaged in the manufacture of brewed and malt liquors.

The case is an appeal from the recent decision of Judge Stone of this circuit, and not from a ruling by the attorney general. By lawyers here it is thought the outside brewers will find it difficult to convince the higher court that they have been discriminated against, since they have the same right as the domestic brewer to engage in the manufacture of beer in the state on the payment of \$65. But when outside beer is brought into the state for sale it becomes subject to the police laws of the state, and incidentally liable to the \$500 tax.

BEAUTIFUL PLAY WELL ACTED.

'Way Down East' Very Satisfactory to Last Night's Audience.

To many in the audience at the opera house last evening, 'Way Down East' was an agreeable surprise. From its title, those not familiar with the play rather half-expected to witness a production something after the 'Uncle Josh' order; instead, they saw an exceedingly clever portrayal of a story, old in tenor but interesting and moral in its lesson, that depicted life in the hills of New Hampshire in a simple and picturesque manner which entirely pleased, particularly as the cast was unusually and uniformly good.

John E. Brennan, in the part of Hi Heller, the choir boy, made a hit. Mr. Brennan is an excellent comedian, and he possesses a laugh that is very infectious. Equally good in their roles and in eccentric characters that were sources of much amusement were C. A. Burke, as Rube Whipple, the constable; Miss Connor, as Martha Perkins, the gossiping old maid, and John C. Hickey, as Seth Holliscomb, whose love for the 'bitters' was more ready than under-standings than his liking for the village scandalmonger. Miss Grace Hopkins gave an excellent impersonation of the wronged girl Anna, and was thoroughly imbued with the spirit of her part.

Charles Riegel was a typical Yankee farmer and magistrate, hard-headed but right-hearted; and as David, his son, Thurlow Bergen was very manly and ad- mirable in the part. As the villain, Robert Gaillard was very good and suc-

ceeded in incurring the enmity of the gallery. Sara Stevens was an adorable old lady, and Miss Hull was a charming and lovable Kate. Wallace Owen, as the professor, demonstrated that he is a first-class character actor, and Charles Bradnum was an ideal village doctor. The others in the minor roles were very satisfactory and well balanced.

Quaint old sayings and comely inter- mingled with the pathos abundant in the piece, and an especially good feature was the singing of the village quartet. The selections were not particularly new, but they were splendidly rendered. The scenic embellishment was unusually artistic, and in the third act the snow the play was as well put on as it was acted. It gave good satisfaction, and proved one of the best attractions of the season.

CONFIDENCE IN THE LEGION.

District Organizer Connors Inspired It at Meeting Yesterday.

Dr. Connors of St. Ignace, district or- ganizer of the National Protective Le- gion, is in the city and yesterday after- noon at a well-attended meeting of Red Cross legion she gave an interesting and instructive talk to the members. Inciden- tally, she touched on the recent ruling of the state insurance commissioner in refusing to renew the license of the order, and her remarks on this point in- spired much confidence among her audi- tors. Mrs. Connors pointed out that the only effect of the decision was to inter- fere with new work and that in no way did it involve the present members. The speaker also was confident that the ruling of the commissioner would be over- ruled, and that a renewal of the license would soon be granted. Were there any fears among the Legion members here, they were dissipated by Mrs. Connors.

HIS RESPECTS TO MARQUETTE.

Hay Fever Association Man Paid Them at St. Ignace.

Last Saturday M. D. Goodman of Chicago, secretary and treasurer of the Hay Fever association, was at St. Ignace and held a conference with a number of leading citizens relative to the construction of the pavilion which is to be erect- ed there for the free use of the associa- tion as its headquarters. In his ad- dress before the assemblage, Mr. Good- man told of the purposes and plans of the sneezers' organization and gave a brief resume of the history of the associa- tion. Incidentally he paid his re- spects to Marquette, and his remarks on this point will be of interest here. Said Mr. Goodman:

"I come now to the decision of the as- sociation to make Marquette its head- quarters. The first season, three years ago, Marquette could not accommodate those that came, and were it not for that drawback the two seasons follow- ing would have resulted in material benefits of that city. It may strike you as singular that we should have conditions of this kind. I will en- deavor to explain. The two or three good hotels there are not large and could only accommodate the normal commercial patronage, which in Sep- tember is quite large. The only strictly tourist hotel, the Superior, is too steep in its charges to come within the reach of the purse of the aver- age hay feverite. The Normal Hotel, which nominally was the head- quarters of the association, was crowd- ed and for two weeks had to daily turn away applicants."

"Now, with the home this city (St. Ignace) promises us, we think we have the proper magnet to attract the mem- bers. From what I am told I judge the accommodations of your hotels and pri- vate houses are ample, and rates there- for are reasonable, which is the main point. We who shall come to you from all parts of the country must naturally make a stir in this town even if we do nothing more than permeabulate your streets. We come to you to be benefitted by your climate which is salu- brious, and in return we shall make ourselves felt socially. Within our midst we have sufficient talent to ar- range entertainments to which you will be cordially invited, and to which I believe you will come without much coaxing. Our entertainments were much sought after by the people of Marquette, and the last one given there last season proved the high water mark of our artistic endeavor."

Mr. Goodman might have added that this year Marquette made no bid for the association's patronage, and does not feel at all grieved that St. Ignace has been selected as the headquarters of the sneezers. From the experience here, St. Ignace will discover ere long that it has captured a "gold brick."

CONVENTION CONFERENCE.

There will be a meeting Thursday evening at the city hall of the various committees having in charge the ar- rangements of the Macabean convention. Great Record Keeper Watson will be there, and the presence of citizens and hotel and business men generally is re- quested. There is still much to do on the accommodations feature, and this will be given particular attention. The meeting will convene at 8:30.

ENTERTAINMENT AT CITY HALL.

An entertainment will be given in the assembly room at the city hall Friday evening to which the public generally is invited. Features of the program will be selections by the Mandolin club, and the rendition of a farce, entitled "Which Is Which," by the seniors of the high school. The admission will be twenty-five cents.

TIDE OF IMMIGRATION HEAVY.

Three Coach Loads of New Comers Passed Through Yesterday.

Three coaches filled with immigrants passed through here yesterday on the afternoon train for the copper country, two locomotives being required to pull the heavy train. The new comers were principally from Finland. Not in many years has the tide of immigration this way been so heavy, and in this connection it is interesting to note that ac- cording to information forwarded to the customs house here by Deputy McCal- lum of the Soo, eleven special trains loaded with immigrants were delivered at the Lock City by the Canadian Pa- cific during the month of April. The total number of passengers arriving at the Soo via the Canadian Pacific was 5,986, and of these 2,938 were immigrants. Mr. McCallum states that 1,500 people arrive daily at the American Soo on the fer- ries.

PRIMARY SCHOOL MONEY.

Marquette County's Share, With 13,681 Children, Is \$7,114.12.

The annual spring appropriation of the primary school funds of the state has just been completed by Superintend- ent of Public Instruction Fall. The total amount to be disbursed is \$378,696.24, and for every child of school age each county in the state will receive 52 cents. Marquette county with 13,681 children, will get \$7,114.12, the share of the other upper peninsula counties, to- gether with the number of children, be- ing as follows:

Table with 3 columns: County, Children, Amount. Includes Chippewa, Delta, Dickinson, Gogebie, Houghton, Iron, Keweenaw, Lapeer, Mackinac, Manistowick, Ontonagon, Schoolcraft.

CIVIL SERVICE EXAMINATION.

One for Postoffice Clerk and Carrier Set for May 31st.

The United States civil service com- mission announces that on May 31 an examination will be held in this city for the position of clerk and carrier in the postoffice service. This will offer an excellent opportunity for entering the federal service to bright, energetic young persons who are not afraid of hard work, and the commission hopes that a large number of intelligent, ac- tive persons will present themselves for examination. It may be stated that there is a wider field for advancement upon merit in the federal service than in many private employments. The nature of the examination is a test of practical, general intelligence, and of adaptability in postoffice work. The age limitations are from eighteen to forty-five years.

All persons who have been examined for the position of clerk or carrier with- in the past year and failed to pass may be re-examined upon filing new applica- tions in due time. All applicants, male and female, must have the medical cer- tificate in Form 101 executed. Male applicants must be at least 5 feet 4 inches in height, and weigh not less than 125 pounds. The names of all male eligibles will be entered on both the clerk and the carrier registers, and appointment from either register will remove the eligible's name from both registers. The examination is held to se- cure eligibles for appointment either to vacancies, or for an increase of force which it is expected will be made after July 1 next. It is open to all citizens of the United States who comply with the requirements.

Competitors will be rated without re- gard to any consideration other than the qualifications shown in their ex- amination papers, and eligibles will be certified strictly in accordance with the civil service law and rules. For appli- cation blank (Form 101), full instructions, specimen examination questions, and information relative to the duties and salaries of the different positions, application should be made to Miss Minnie Zerbel, secretary of the postal board. Applications may be filed with the secretary as late as 9 a. m. on May 31.

PYTHIAN PILGRIMAGE.

Knights from This Locality Preparing for the Frisco Convention.

One of the big movements of history will be that of the Knights of Pythias of the United States in August next, when from all directions they will ad- vance on San Francisco and California. The national convention of the order, which is held every two years, will take place in San Francisco, Aug. 10 to 20, and great times are promised all the Knights and their ladies who get there at that time. Not only the members of the order in California, but the state and city officials are up and doing, and their greeting to the visitors will be extended with hospitality that will make every one glad he is a pilgrim. All sorts of side trips are planned, inci- dentally, including sights of the orange groves and the olive and prune and almond orchards of the great Pacific state, and glimpses of Lake Tahoe, one of the highest lakes in the world, way up in the Sierra; of far-famed Yosemite; of Hotel del Monte; of the Lake Observa- tory, and hundreds of other spots worth seeing and knowing about. Just now the nation with its oriental respon- sibilities is facing west, and the Pythians are wise to go as far as they can, and see and learn about the state that forms the nation's west front. The railroads will make especially reasonable rates for the assembly, and already prospec- tive excursionists from this locality are making their railroad arrangements.

THE LITTLE RED BOOK.

Almost every one identified with lake shipping awaits more or less anxiously, the annual appearance of the "Little Red Book," the 1902 edition of which has just come from the press of the Marine Review Publishing company, Cleveland. It is purposely made small—just pocket size—but it contains a list of about 2,000 vessels of the great lakes, together with the name of master, en- gineer and owner of each. The arrange- ment is such that by simply knowing the name of a vessel, one is enabled to find not only the names of the officers and manager, or owner, but also a list of the other vessels controlled by the same interest. The value of the book as a work of reference is obvious. It is extensively used by business houses that furnish supplies to the vessels, as well as by persons desiring to send out circulars or other business communica- tions. The book sells for \$1.

See Canal Passages.

Sault Ste. Marie, Mich., May 13.— (Special.)—Up—Curry, Syracuse, 8:30 p. m.; Poe and whaleback, Fred Mercer, 11; Thos. GEORGE SHAW'S BRICK YARD.

It is an Important Industry for Alger County.

The Shaw Brick works, about four miles from Munising, which a representa- tive of the Munising News visited the other day, employ a considerable force of men and has a payroll of about \$1,000 monthly.

Everything was running along very smoothly at the works, without a hitch anywhere. At present more than twenty-five men are employed in and around the plant, and in the future thirty or more will be at work. It is expected the plant will run at least ten months in the year and ultimately be in operation the entire twelve months.

This season G. W. Shaw of Marquette, who has about \$25,000 invested in this business, has erected an engine room of brick 75 feet square, and a new shed where the brick are burned, 30x200 feet. The one drier, 30x130 feet, is not suffi- cient to take care of the product and another drier of the same dimensions is being gotten ready as rapidly as possi- ble. The engine house is 70 feet square and of brick. The boiler is supplied with water from a well, 70 feet deep, inside the building. The flow of water is abundant and the quality is of the best. A new boiler is soon to supple- ment the old one.

The clay mined gives brick of a qual- ity far above the average and the supply seems practically inexhaustible. Mr. Shaw has 100 acres of land to mine from and the clay on any part of land that has been explored seems to hold out well. The output, when the plant gets to run- ning at its full capacity will not be far from 7,000,000 bricks per year. At present a kiln of 275,000 brick is being burned. The Shaw brick-yard has the contract for furnishing the brick for the new Alger county building, one which from 100,000 to 200,000 brick will be required. The shipments of brick so far this season aggregate 500,000. Mr. Shaw's foreman is G. M. Partridge, re- cently of Moorhead, Minn. Mr. Par- tridge is a high grade man in his line and excellent effects of his work are al- ready recognized.

The kiln is close to a spur of the D. S. S. & A. road and the work of loading the brick is accomplished with greater ease and speed than would be possible otherwise. Mr. Shaw hopes, before the season is over, to have a spur of the Munising railway running into his yard. The plant is well protected from loss by fire. There is an abundance of hose and pressure sufficient to throw a good sized stream seventy-five feet high. Among other improvements made at this location the present season, are the erection of five new cottages for employees. It is also the intention of the proprietor of the works to build for his foreman a neat dwelling on one of the handsome sites on the location.

Taken in all this is one of the busiest spots in Alger county today and the season will not be far advanced before there will be a good sized community there.

OVER \$5,000 FOR THE TRIP.

Steamer Rees and Consort Took Out About 10,500 Tons of Ore.

The W. D. Rees and her big tow, the schooner D. Z. Norton, cleared for Cleveland early yesterday morning from the South Shore docks. They are among the largest boats ever to make this port. Together they took out about 10,500 tons of ore, the freight charges on which will yield the owners of the craft—the Wilson Transportation company of Cleveland—something in the neighbor- hood of \$6,300.

Harbor Gossip.

Steam will be gotten up at the new coal dock of Piekands & Co. today and a test of the blending apparatus will be made. There is no more modern or complete coal dock on the lakes than that now nearing completion here, and short work will be made of the cargoes of even the largest of the boats. A steamer like the Business, for instance, will be unloaded within eight hours.

The steamer Business, which arrived several days ago with coal for F. B. Spear & Sons, finished unloading last night and went from the lower to the upper harbor. She was loaded with ore in about two hours, and at 11 o'clock cleared for Ashabula.

The old-time steamer and barge, Con- tinental and Grace Holland, was again in port yesterday. The propeller took on a cargo of 2,000 tons at the South Shore docks, and the schooner was loaded with 1,200. The vessels will clear to- day for Buffalo.

Clearences from the L. S. & I. dock yesterday were the Alva, for Ashabula, the Spokan, for Pioneer, for Buffalo, and the Chattanooga, for Ashabula.

The steamer Sitka arrived yesterday with a cargo of coal for the L. S. & I.

TODAY, TOMORROW. The present shapes the future. What you do today concerns the things of tomorrow. If you are at all anxious about your financial future, you should quickly seize the opportunity to save money.
