Senator Wellington has joined the defamers of our army in the Philippines.

This interesting dispatch from Bay City appeared in the Detroit News of Wednesday.

James Prentiss and Frank Knapp commenced suit in justice court this morning to collect their share of a \$1000 pot which they claim Alex. McEwan, Stearns' manager here, was to divide with them and three others in return for working for Stearns delegates at caucuses held here last week.

Once again the blast furnace at West Duluth has changed hands and is about to be put in operation.

A FRUITFUL FIELD. England continues to provide the irrefragable Yankee in pursuit of "easy money" with a fruitful field.

The hero of this latest commercial coup is one Chas. W. Robbins of Attleboro, Mass. He is New Englander of the old-fashioned type.

Livingston county gives its eleven delegates to Stearns, the Bliss people having made no effort to carry the convention which selected the delegation.

"Every home should have a cat," writes Russell Sage in an article for the press in which he extolls the usefulness of domestic pets as nerve regenerators.

After taking ample time to consider where it is duty and interest lay, the Menominee Herald has come out unqualifiedly in favor of having Hon. C. D. Sheldon given a fourth term in congress.

There is no disguising it, Americans are bound to be ahead, and no matter how much they may laugh to scorn the ceremonies and pageants of royalty, even the most rabidly republican of our New Englanders are not averse to turning an honest penny out of their follies, or at a loss to find a way of doing it.

RESTS ON A SOLID BASIS. An English publication of the highest standing, the Statist of London, has this comforting analysis of the factors making for continued prosperity in this country.

There is a suggestion for a few wealthy Americans in what Professor Goldwin Smith of the Toronto university says concerning the scholarships at Oxford for Americans.

AN EARLY CONVENTION. The Republican state central committee has fixed the time and place of holding the state convention of the party, which is set for June 26, at Detroit.

generally, these entertaining the belief that the sooner the state ticket is made up the less the friction over selecting the candidates will be.

We cannot but feel that the committee acted wisely in deciding to have the convention held early, as it is practically settled that the present state officers, with the exception of the attorney general and lieutenant governor, will be renominated.

At the meeting of the committee it was disclosed that among its members there are but three Stearns men, these being Cole and McGregor of Wayne and Carey of Manistee.

Copper Country Department

WILL LEAVE TODAY. RENEWS THE CONTRACT. Government Will Retain Larry Hearter as Mail Carrier.

The Hancock and Calumet High school athletes who will take part in the annual athletic meet of Upper Peninsula High schools at Ishpeming next Saturday will leave Copper Country this afternoon, arriving at the Hematite city in the evening. The teams are in fine physical condition, with the exception of Norman Burkman, a member of the Hancock team, who sprained his ankle while in practice Tuesday morning. Mr. Burkman is compelled to pull out which will cripple Hancock's chances. Nevertheless the other members of the Hancock team will go prepared to win their share of firsts and seconds. It is the opinion here that copper country athletes will make a fine showing. Each of the boys has been trained down to fine physical condition. They have had the advantage of the Calumet and Hancock Y. M. C. A. gymnasiums and have not neglected to work in them. Their training has been done carefully and systematically and all The Mining Journal has to say to those who attend the meet is to watch the work of the copper country teams as it promises to be surprising.

The Calumet athletes are Roy Braun, Emory Jones, and John Shields. Calumet's team is composed of B. Seighman, M. Anderson, M. Ellis, C. Rabey, H. Reeder and H. Vivian, captain. The team members were carefully selected. Mr. Seighman is entered in the 100-yard dash and will be pitted against some of the best high school athletes in the state. Messrs. Braun and Jones, of Hancock, will participate in the 220-yard dash as will also Mr. Seighman. The one-half mile run has been entered by Jones, Braun and Shields. Mr. Burkman was entered but of course will not appear. He was also entered in the one-mile run and the one-mile relay race, also in putting the twelve-pound shot. Mr. Anderson of Calumet will run in the one-mile; M. Ellis and H. Vivian will run in the relay; C. Rabey has entered the 120-yard hurdles, and also in the 220-yard hurdles; H. Reeder and M. Ellis will ride in the one-mile bicycle race; Seighman and Vivian will throw the discus; Braun, Jones, Seighman, Ellis and Vivian will put the twelve-pound shot; Vivian, Braun, Jones and Shields will participate in the football kicking contest; Shields and Vivian will take part in the running high jump, and Braun and Shields in the running broad jump.

LOCAL INTEREST IS AROUSED. Ringling Bros' Circus Will Be Attended by Thousands in Copperdom.

Considerable local interest has been aroused already by the announcement that Ringling Brothers' popular big circus is to exhibit in Hancock and Calumet again on June 16 and 17. The thousands of people who have witnessed the performances of the show in other years need not be told of its magnitude or high character. It is interesting to learn, however, that the show has grown considerably since its last visit to copperland and many new features will be presented for the first time this year.

The performance is largely European in its character and some of the finest acts ever imported from the old country have been secured especially for this season. The show is particularly strong in European trained animal features. These include Webb's juggling seals, a great bear act, a series of performances by dogs and ponies, and Herr Souder's acting elephants from Berlin. One of the strongest of the American acts is O'Brien's equestrian ballet. This beautiful horse display made a pronounced hit in Chicago and St. Louis, where the show recently exhibited. The menagerie is especially notable this year from the fact that it contains thirty elephants and a fine specimen of the giraffe, in addition to a hundred cages of other rare wild animals. There is a new hippodrome, and a new street parade, and everything about the show is on a most unusual scale of magnitude and grandeur.

GIVEN A HANDSOME UMBRELLA. Before his departure from Houghton Wednesday afternoon ex-Manager F. A. Venny of the Houghton Gazette was presented with a handsome umbrella by the office force as a mark of esteem. The handle of the umbrella is borne in gold in oxidized silver. Mr. Venny was quite visibly affected by the gift.

ALUMNI ELECT OFFICERS. At a recent meeting the Lake Linden High school alumni elected the following officers: William Cox, president; Miss Stewart, first vice president; Miss Telina Lanouette, second vice president; Miss Charlotte Lofay, secretary; Miss Stella Pfeiffer, treasurer.

DEAFNESS CANNOT BE CURED. By local application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. E. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

A REVELATION. If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. People's Drug Store.

ANENT THE ISLE ROYALE. Management Expects May Product to Establish New Record.

Rock is supplied regularly to three head at the Isle Royale mill, and the May product will, in our opinion, establish a new record, says the Hancock Evening Journal. A decided appearance is noted in the quantity of the rock shipped from No. 2 shaft while in the matter of heavier grades the amount of mass and better stock at the mill since May 1 compares favorably with the total from this source during April. It is a notable fact that best results at Isle Royale are secured from the lower openings. The ground south of No. 2 shaft at the sixteenth level is yielding a good stamp rock. There is absolutely no construction work under way at either the mine or mill the surface equipment for all purposes being complete in every respect. The surface force is reduced to the minimum, and the only prospective increase is for the exploratory work which the company will most certainly conduct during the summer. It is claimed, and the claim seems well founded, that a new vein has been exposed by a number of pits on the lands south adjoining the Isle Royale. The owner of the land asserts that he has three stamps at work on this point there is considerable doubt.

PRODUCTION WILL BE BIG. Calumet & Hecla's Output for 1902 May Reach 100,000,000 Pounds.

The Calumet & Hecla of today is operated in the interest of its stockholders, says S. J. Beahan in the Hancock Evening Journal. The period of unnecessary working forces has passed, pensioners are not to be seen around the mine, and in almost every department the men are being slanted with a view of securing just returns for the funds expended. Several notable improvements are under way, and already advantages have been gained that permit of greater rock output.

The output of the Calumet & Hecla for 1901 was 93,000,000 pounds of refined copper. At present it is understood that the mine is shipping 1,000 cars of rock to the mill daily, equal to 6,000 tons, which is a rate of output never heretofore maintained. Should the company continue its ratio of production there is reason to believe that the current year's output will reach 100,000,000 pounds of refined copper which would equal the entire American production of copper annually as late as 1899.

The stamp mill is rendering increased services and except for repairs there are no idle heads. Of late years the output of Calumet & Hecla has been looked upon as its maximum producing capacity owing to the inability to supply the mill with a greater amount of rock.

CALUMET & HECLA. The Company Has Paid \$78,850,000 in Dividends.

The following information of the Calumet & Hecla Copper company appears in the last issue of the United States Investor: The Calumet & Hecla Copper Co. was organized under the laws of Michigan on May 1, 1871, and reached for the first time in 1900. It has a capitalization of \$2,500,000, divided into 100,000 shares of the par value of \$25 each. The company is a consolidation of the Calumet & Hecla mining companies. The Calumet company was organized in 1865, and in 1866 the Hecla was set off as a sort of stock dividend to shareholders. Each company had 20,000 shares, and when the two were consolidated the stock was increased to 40,000 shares. A stock dividend to 10,000 shares brought the capitalization to 50,000 shares; in 1873 the number was increased to 80,000 and in 1880 to 100,000 shares, the maximum allowed mining corporations by the laws of Michigan.

The company employs upwards of 5,000 men and owns 1,200 houses. The company last year paid \$4,500,000 in dividends, or a total to Dec. 31, 1901, of \$77,350,000. In January, 1902, it declared \$10 a share, or \$1,000,000 in all, and this month it declared a \$3 dividend, or \$3,000,000, making a total to date of \$13,000,000. On Nov. 16, 1871, the stock of the Calumet & Hecla Copper company sold at 89 1/2, the lowest price Calumet & Hecla stock has ever sold at. Since that time the stock has been steadily climbing, until in 1899 it sold at \$265, highest quotation ever reached by it. The present out in the company's dividend has been due wholly to the decline in the price of copper. The company could have undoubtedly paid a larger dividend, but being a most conservative company, it saw fit not to do so.

CENTENNIAL SHOWING UP WELL. Developments on the Amalgamoid Show Good Prospects.

The shaft on the Kearsarge amalgamoid at the Centennial mine has now reached a depth of 2,000 feet, or thereabouts, a point where levels begin to lengthen out, and where levels of copper may be developed that will count when needed for production. The shaft it may be remembered was started in a corner owing to the fact that the lode outcropped just east of the boundary line of the company's land and for quite a depth the shaft continued within narrow limits, but now it is down where the ground lengths rapidly with depth and where every level will mean something when production begins in earnest. From the moment sinking was commenced splendid progress has been made there. Shaft is modern in construction, substantially timbered, of large capacity, and equal to almost any duty the management may find for it. The hoisting engine is also of the latest and most approved make, powerful and in keeping with the shaft and general surroundings.

Then developments on the lode are said to be quite satisfactory and fully up to the expectations of the management and company. In the two Kearsarge and in Wolverine, and also in the Mohawk still further north, the Kearsarge amalgamoid carries excellent copper values, and many good judges rank it as the most valuable amalgamoid belt worked in the district. Centennial management seems to consider it much

more valuable than the Osceola amalgamoid, for while that formation is practically neglected the Kearsarge amalgamoid is being vigorously developed, and with great promise for the future of the company. On that formation movements may be somewhat cramped for a time but when down a few hundred feet further the territory will be practically unlimited, as the company owns the whole unbroken section and underneath the whole of it lies embedded the Kearsarge-Wolverine lode.—Native Copper Times.

AT THE OSCEOLA. Eighteen Hundred Tons Daily Will Be Taken from Kearsarge Lode.

Within six weeks or so the Osceola should be in position to secure one-half of its rock output, about 1,800 tons daily, from the openings on the Kearsarge lode. The output from this source will be secured at an exceedingly low cost so that with 12 1/2 cent copper good results are assured. Osceola should produce to exceed 180,000 pounds of refined copper this year. A new mine may be said to be opened at the Osceola branch in the foot wall side of the lode.

The current year will witness the completion of the enormous amount of construction work at North Kearsarge and the mine will be equipped for all future needs. The future value of Osceola depends upon the price of copper, but if it does not earn good money on its present value with current market conditions the majority of copper stocks had better be let alone.—Hancock Journal.

STOP DRILLING MACHINES. Ten Drilling machines will be shipped at once in the Osceola branch of the Osceola Consolidated. The move will be taken to economize mining operations. The mine is well supplied with reserve grounds so that the stamp mills returns will not be visibly affected by the reduction in the number of men. An increased number of men will soon be worked in the Kearsarge branch.

The Wyandotte Mine. The annual report of the Wyandotte mine, which has just been issued, tells of the prospecting work that has been accomplished during the past year. On Dec. 31, 1900, there was \$119,657 in the treasury, and the expenditure for the year was \$38,298, leaving a balance of \$81,359 on hand. The prospects are of such an encouraging character that explorations will be continued.

Tamarack Dividend. It is now said that the semi-annual dividend on Tamarack will not be larger than \$3 and that there are good prospects that it will be passed altogether.

Copper Gossp. There was a decrease of 1,500 tons in the visible supply of copper abroad and about three to the first half of May, the supply may be standing at 25,530 long tons, supplies for the half month were 12,100 tons, of which 1,100 tons were Chile charters and 7,200 tons were from North America. For four months the net increase in the visible supply has been 3,490 long tons.

The management of the Baltic is encountering very heavy mass copper at the second level of No. 2 shaft.

Next week the Trimonant will begin to sink its fourth new shaft.

Receives Blow on Head in Contest Causing Concussion of Brain.

Boston, Mass., May 22.—Tommy Noonan, of Chelsea, is believed to be dying from concussion of the brain as a result of a blow received in a boxing contest with Eddie Dixon, of Chicago, tonight. Dixon gave himself up to the police.

ADOPTS CREED REVISION.

Presbyterian Assembly Settles Important Question.

New York, May 22.—The general assembly of the Presbyterian church today adopted the report of the committee on creed revision making changes in the confession of faith. This action, which was practically unanimous, was taken with little or no debate. The changes proposed will now go to various presbyteries for ratification.

ADVISORY COMMITTEE.

One Elected by Tammany Hall to Confer with Executive Board.

New York, May 22.—The executive committee of Tammany Hall today adopted a resolution advising the appointment of a sub-committee of three to constitute an advisory committee with power to act and report from time to time to the executive committee. Charles F. Murphy was elected chairman of the new committee. Thomas F. Smith, formerly secretary to Richard Croker, is secretary.

FURNITURE COMBINE.

One Formed in Chicago to Regulate Supply and Prices.

Chicago, May 22.—It was announced today that a combination was formed at the meeting here of the National Association of Chamber Suit and Case Manufacturers to control the furniture output of the United States and to regulate prices. The capital represented is \$25,000,000. The new schedule of prices to be adopted will go into effect immediately which will increase the cost of all classes of the better grade of furniture from ten to twenty per cent.

A FINANCIAL CRISIS.

Cuban Republic Has Less Than a Million Dollars in Treasury.

Havana, May 22.—The republic of Cuba faces a financial crisis at its beginning. The Treasury contains considerably less than a million dollars. Customs receipts have fallen off appreciably in the last few weeks and heroic measures must be adopted at once. It is even hinted that a temporary loan from wealthy citizens may be solicited. President Palma insists that republic must live within its income, even if salaries have to be further reduced. Increased internal revenue taxes may have to be levied. This, it is feared, will have a bad effect.

BASEBALL SCORES.

National League.

Chicago, May 22.—Chicago pulled the game out of the fire by a single, a two bagger and an error. Both pitchers were hit freely but Rhodes received the better support.

BAPTISTS IN SESSION.

Annual Report Shows the Year Just Closed Has Been a Successful One.

St. Paul, May 22.—At this afternoon's session of the Baptists, the report of the special committee on policy had most to do with the distribution of funds among the various foreign stations and proposed an appropriation of \$50,000 for new missionaries. The missionary union closed its business this afternoon. Tonight was held the seventy-eighth anniversary of the American Baptist Publication society.

The sales amounted to \$67,475, with the missionary department receipts, \$114,061. The total from all sources was \$939,981.33.

AMERICAN MUST BE DEAN.

Great Britain's Minister to Cuba Is First to Reach His Post, However.

Washington, D. C., May 22.—Great Britain has stolen a march on the United States. Her minister to Cuba is on the spot and has presented his credentials to President Palma. An unofficial telegram sent from Washington Wednesday advises President Palma not to recognize Minister Carden until after the arrival of our minister, Mr. Squiers, who was Wednesday confirmed by the senate, and who is en route to Cuba. It is considered highly fitting that the American minister should be dean of the diplomatic corps at Havana. The alertness of John Bull is considered a good joke on the Americans.

SPANIARDS LEAVE CUBA.

The Wealthiest of the Population Will Not Remain Under the Republic.

Havana, May 22.—The weather yesterday continued superb and the festivities in the city were accordingly concluded with even greater gaiety than Tuesday. During the morning there were several civic parades through the principal streets of the city and yesterday afternoon there was a great banquet. There seems to be no let-up in the joy of the people over the inauguration of their new president and they continue to display their gladness on every hand. The Americans who were leaving in large numbers, and hundreds of Spaniards, representing the wealth and culture of the island's population, are returning to Spain.

WANTS TIME EXTENDED.

Ratification of Danish West Indies Treaty May Not Be Until Next Year.

Copenhagen, May 22.—The Politiken is authority for the statement that Secretary Hay proposed an extension until July 24, 1903, of the time allowed for the ratification of the treaty for the Danish West Indies. There is little doubt but that King Christian will agree to the proposition.

Washington, May 22.—Secretary Hay has requested the Danish government to enter into a protocol, extending for one year the time allowed for the ratification of the treaty of the cession of the West Indian islands here. This was necessary to keep alive the treaty ratified by the senate until the Danish rixdollar can be finally upon it at the September session.

ATTENTION COMRADES.

All comrades of the G. A. R. and veterans of the rebellion are requested to meet at G. A. R. post room, Frei block at 9 a. m., Sunday, May 25, to attend divine service at the M. E. church. All Sons of Veterans and Spanish War Veterans are cordially invited to attend church with the old veterans.

COMMITTEE.

When doctors fail try Burdock Blood Bitters. Cures dyspepsia, constipation; invigorates the whole system.

All persons who have engaged or spoken for ground for planting potatoes, and have not yet made their selection of lots, and any others who desire ground will please meet me at the several farms as follows: Birtmore Park farm, Saturday forenoon; Kremer farm, Saturday afternoon, the 17 inst; Grove street Monday forenoon; Cinderella Tuesday. There are fifty acres of good soil as can be found in Marquette, plowed and harrowed—and more ready for planting. Terms, eight to ten dollars for half-acre lots, payable on assignment of lot. Some of this land produced at the rate of 450 bushels per acre last year.

PRETTY STUDENT AT DORMITORY TOOK SUDDEN LEAVE.

ANXIOUS TO GO ON STAGE

SLID DOWN FROM WINDOW ON IMPROVED ROPE.

Story of How Miss Florence Smyth of the "Nathan Hale" Company Began Her Career Before the Footlights.

Miss Florence Smyth, whose Alice Adams in "Nathan Hale," at the opera house Wednesday evening, was greatly admired, ran away from boarding school to go on the stage.

Her career before the footlights. Miss Smyth's show has come and gone, and this is no mere press agent's yarn, concocted solely for the purpose of supplementing the regular advertisements.

Whether the possession of inherent dramatic ability had anything to do with Miss Smyth's running away from boarding school to go on the stage cannot be proved.

Miss Smyth is the daughter of a well-known family of Santa Barbara, Cal. For three years she had pursued her studies in a boarding school at South Bend, Ind.

Miss Grace Dawson of Ishpeming is the guest of Marquette friends.

William Gowling, Sr., has arrived from Rock Island, Ill., and will probably spend the summer here.

The Summit House, recently renovated in the interior, is now receiving a much needed coating of paint.

Professor Waddo, of the Normal, left yesterday afternoon for a trip to the copper country.

Joseph Croze of Houghton, interested in a case pending in the circuit court, was in the city yesterday.

Mrs. L. S. Humes and son Harold leave this morning on their return to Duluth after a week spent at their old home here.

The Tennessee Jubilee singers last evening fulfilled the claims of merit which had preceded them by giving a splendid program of vocal music at the Baptist church. The concert was rather a fitting tribute.

A Citizen of Marquette Pays a Well-Earned Tribute.

The following public statement of a respected citizen adds one more emphatic endorsement of merit to the scores that have appeared before.

Mr. Fred Price of No. 824 Third street, says: "From the result of a strain of my back when at heavy work I was troubled a great deal with dull aching pains through my loins and kidneys. It was particularly painful if I did any stooping or lifting; at night I could not rest comfortably in any position and rose in the morning feeling tired and unrefreshed. I saw Doan's Kidney Pills highly recommended and procured them at the Stafford Drug Co. They relieved me promptly and I was soon entirely rid of the trouble."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, N. Y. Sole agents for the United States. Remember the name Doan's and take no substitute.

When daylight came there was no trace of Miss Florence. The morning breeze played mischievously with the improvised ladder that swung from the window and mutely told its own story.

The parents of the runaway girl were notified, and they were grief-stricken. Her instructors were shocked. Her classmates were wonder-struck.

The truth came out within a few days after Miss Florence's escape. It was revealed in a letter received by Mr. and Mrs. Smyth. Enclosed with it was a play bill with the name of Florence Smyth printed up on it in bold display type.

"Dear mamma and papa," the missive ran, "please forgive me, but I just couldn't help it. I am well, and, oh so happy, and hope to receive the same cheering reports about your health. Don't worry. I can take care of myself, and I feel that a bright future is in store for me. Your affectionate daughter, FLORENCE."

The letter was posted in a small Illinois town. The character of the play bill did not indicate that the venture of some young woman had jumped straight from her bedroom window to fame. The tale it told was a tale of "barnstorming"—up all sorts of hours, out in all sorts of weather, eating all sorts of food in all sorts of places, traveling daily from one small town to another, sleeping in the seat of an ordinary passenger coach, and playing a small melodramatic part to uneducated audiences.

Sometimes she almost wished herself back in the city in the tiny dormitory with its bare white walls, its peace and quiet. But that was only when business was so bad that the company went supperless to bed after their evening's

work, or had to walk the railroad ties to the next station. In the hardest school of all—the school of experience—Miss Smyth learned the lessons necessary to the beginner in theatrical work. Indeed, failure seemed to her so lamentable a thing that she resolved to succeed in spite of every obstacle. Perhaps the most serviceable lesson that she learned in those first months was the lesson in patience. Presently her patience was rewarded.

In Otis Skinner's play of "Prime Otto" there is a fetching character named Gretchen, a typical German maid with long flaxen braids behind her little pink ears, and peasant costume, including the real wooden shoes of the fatherland. Otis Skinner engaged Florence Smyth to play this part and she played it as well as being an ambitious young girl, she made the most of her opportunity—that when Howard Kyle saw her performance he straightway decided that she would make an ideal Alice Adams, sweetheart of the patriot martyr, Nathan Hale.

For the second time within a few months Miss Smyth had achieved something by an unusual method—she had patterned into popularity in a pair of funny little wooden shoes. Mr. Kyle was so impressed with her dainty ways, refinement and intelligence, that he really Miss Smyth slid from her dormitory window down a rope made of her bedclothes knotted together.

Miss Smyth's show has come and gone, and this is no mere press agent's yarn, concocted solely for the purpose of supplementing the regular advertisements. A great many people who have watched the rise of a ambitious young person on the stage thought Wednesday night that they saw in Miss Smyth the making of an admirable, not to say a great, actress. They realized that her hold on art was a trifle new, and at times uncertain; that occasionally a little of the finesse that comes from experience was missing, but they believed that she had the most native ability of anybody in the cast.

And the boarding school? Well, when the matron and faculty found that she had not returned from Houghton to Newberry with five insane patients. The party occupied a colonist car attached to the 1:15 o'clock train.

All Westlake got back yesterday from Beaumont, Tex., when he went to investigate the merits of an oil property in which a number of Marquette people are interested. He found everything as claimed and the outlook the best.

The Marquette baseball team will cross bats Sunday afternoon with the Negaunee club at the new fair grounds here. This evening the players will meet at the city hall at 7:15 o'clock to select a captain and to arrange other details of organization.

Archie Graham's pool and billiard rooms will be opened within a day or two, the tables recently ordered having been shipped from the factory. The renovation of Mr. Graham's place of business has practically been completed and has made the school the handsomest in the city. A novelty in the new furnishings is the covering on the floors—a material resembling luncheon but made of inlaid cement and cork blocks, formed in pretty designs and imported from Vienna, Austria.

W. M. Brackett, a United States internal revenue agent, yesterday paid a visit to the court house on an investigating tour. The various offices were visited, notably that of the judge of probate, with the object of ascertaining whether the different documents which the law requires shall bear revenue stamps are being properly stamped. Mr. Brackett found the officials unusually well posted on the statute concerned, and that the provisions of the law are being complied with in all details.

Yesterday was one of the hottest days in May—as the thermometer showed it—since the weather bureau was established here thirty-one years ago. At 7 o'clock in the morning the mercury was at the 63-marks; it sank three degrees and then climbed to 80 at noon and to 90 an hour or two later. Along toward evening the temperature rapidly grew cooler, and 7 o'clock found the government thermometer registering 71. At no time during the day, however, was the humidity such as to cause much discomfort and the fact that the temperature climbed within ten degrees of a hundred will probably be learned with general surprise. The range for the day was twenty-eight degrees—from 62 to 90.

A big haul by highwaymen, substitutes and others who steal the good name and fame of Rocky Mountain Tea made famous by Madison Medicine Co. 35c. Stafford Drug Co.

Marriage licenses were yesterday issued to James R. McDonald of Michigan and Margaret Freeman of Grand Marais, and to Alfred Letebvre and Emma Lecuyer of Ely township.

A. M. Slav, who is a candidate for great record keeper of the great camp of the Macebees, has been city treasurer of Battle Creek since 1898. He does not hold the position of deputy revenue collector, as stated by some papers.

The boiler-makers are anxious to try conclusions on the diamond with the maulers, who last Saturday defeated the machinists' ball team by a large score. The boiler-makers announce that they will play for money or marble.

Died, at Riverside, California, on Wednesday, May 14, 1902, Mrs. Sally H. Michener, aged thirty years four months and twenty days, wife of W. P. Michener, and daughter of Mr. and Mrs. J. H. Blandy.

William H. Greene has sold to John W. Dwyer Lot No. 15, of Block 9 of the Cleveland Iron Mining company's re-plant. The consideration was \$2,200. The property is located on Superior street, between Fourth and Fifth streets.

Sheriff Wills, deputy and two lady attendants passed through yesterday afternoon on their way from Houghton to Newberry with five insane patients. The party occupied a colonist car attached to the 1:15 o'clock train.

Anderson Hall Was Crowded the Last Evening of the Function.

The members of the Ishpeming fire department are greatly pleased with the success of the fair. The attendance the last night was the largest of the three, and when the doors of the hall were closed there was not an article of any kind left in the booths.

All the articles on the big list were raffled and the names of the winners will be announced as soon as the secretary can prepare the list.

The fair did not come to a close until after midnight. It took some time to wind up the business and during the late hours the young people were privileged to dance.

The net receipts of the fair will not be known for a few days, as all the collectors have not yet made their returns. However, it is expected that in the neighborhood of \$500 will be cleared. This will just about make up the balance necessary to pay for the uniforms.

ISHPEMING IN BRIEF.

Miss Berlie Griffin has taken a position in Buchholz Bros' store.

John Wahlman, also his son Simon, have equipped their homes with electric lights.

Albin Johnson is building a neat dwelling on the corner of North Third and Michigan streets.

Rev. Father Dassylva of Iron Mountain, formerly of this city, was a visitor here early in the week.

The poundmaster has a two-year-old bay steer locked up. He will be pleased to have the owner call and take the animal away.

J. C. W. Chipman and D. J. Siney of the Oliver Iron company spent yesterday in Duluth. They will be home this morning.

Mr. and Mrs. A. G. Bohrer of Hancock are in the city visiting at the home of Captain and Mrs. James H. Rough, parents of Mrs. Bohrer.

John Farm will pay a reward for the return of a cow which strayed from his place on Saturday last. A description of the animal can be seen in this issue.

W. M. Joffe of Escanaba will spend today in the city looking after matters pertaining to the upper peninsula athletic meet to be pulled off at Union Park tomorrow afternoon.

Urgel Lavigne, who recently retired from the saloon business to engage in the grocery line, is ready to supply the trade. He has a neat store on the corner of Pine and Pearl streets.

Lars Hoyseth has just finished making a number of improvements about his residence property at the corner of Fourth and North streets. Carpenters have been at work there for nearly a month. The house was enlarged and an addition was built to the house.

The Uniform Rank of the Maccabees will give a hop tomorrow evening at the Anderson hall. The music will be furnished by the Ishpeming City Band orchestra. Tickets are fifty cents each.

Articles on which the members of the team have been selling chances for some time past will be raffled off during the evening.

Peter Handberg, who has been engaged as bookkeeper with S. Johnson & Co. for some time past, has taken a position in the Peninsula bank, succeeding Leo Schilling, who goes with the Carpenter-Cook company. Mr. Handberg is a good accountant and he will have no difficulty handling the work he will have to do at the bank.

The St. Paul Pioneer Press of Feb. 10 said of Charles B. Hanford and his company: "The Taming of the Shrew" produced by the mastery company headed by Charles B. Hanford pleased a large audience at the Metropolitan last evening. The company possessed unusual strength. Mr. Hanford's Petruchio has an unobstructive naturalness that is admirable and his rendition of the role leaves little to be desired."

RINGLINGS HERE JUNE 18.

That is the Date on Which the "Big Show" Will be at Union Park.

W. D. Coxy, press agent for Ringling Bros' circus, spent Wednesday in Ishpeming closing contracts with the newspaper publishers for advertising space. He stated to The Mining Journal representative that June 18 is the date on which the show will be at Union Park.

The circus trains will pass through this city en route from Menominee to Calumet on the Sunday before its date here. They are expected along about 10 o'clock in the forenoon. The show will give two performances at Calumet on Monday. The following day it will be at Hancock and Wednesday here.

Mr. Coxy says there are sixty-five cars in the circus trains this year. This is five more than was required to transport the show last year. Among the new equipment is a private palace car built expressly for the Ringlings and their families.

There are many new features in this year's show. Mr. Coxy reports that all the big acts stand out as features and that as far as he can tell it is difficult to determine which is the most wonderful. Professor O'Brien has a new turn with his sixty horses. The elephants do much new work and the acrobatic feats are different from any the brothers have previously had.

The giraffe carried by the Ringlings is the only one in captivity. This animal was brought across the water a few years ago at a cost of \$20,000, exclusive of transportation charges. Mr. Coxy says he doubts very much if the Ringlings would part with the animal for three times what it cost them, as it is a big drawing card.

Mr. Coxy has been with the Ringlings for the past twelve years. He started when it required only sixteen cars to transport the show over the country. It is growing larger every year and the business is increasing right along. An enormous sum is invested in the enterprise and all the equipment is first class.

UNIQUE SOCIAL.

The young ladies of the Swedish Lutheran church managed a very unique social at the Young People's Society hall Wednesday evening. It was what they called a "big social." Each person present was provided with a small bag. The recipient was supposed to deposit in the bag a penny for every year of his or her age. Those who wished to put in a larger sum were privileged to do so.

A card containing a number went with the bag. In this way the ladies could tell about where each sack went. When they were emptied and the contents counted the ladies were very much gratified to find \$225. At this rate the aggregate number of years represented in the collection was 22,500.

A musical and literary program was rendered and refreshments were served. No charge was made for the refreshments, as the ladies considered that they had been well paid, especially by the older people, who of course had to contribute more liberally than did their young friends.

BACK FROM ITALY.

Joe Palaggi, who left here about a year ago for his native place in Italy, returned one day this week. He went home to see his father, who was reported quite sick. He arrived in time to find his father dead. The old gentleman died soon after Joe got there. The old man was ninety-nine years of age at the time of his death. Joe conducted a saloon business in this city at the corner of Pine and Pearl streets for some time before he went away. He is now preparing to again engage in that business. Aside from seeing his people Joe was not particularly pleased with his trip abroad. He says this country is good enough for him and he intends to remain here the balance of his days.

Other improvements are also to be made about the church property here. The church building will be re-shingled and all the windows repaired.

TEAM IS STRONG

MARQUETTE'S SCHOOL ATHLETES A PROMISING LOT.

WILL FIGURE IN U. P. MEET

FRIENDS PREDICTING THE CAPTURE OF FIRST HONORS.

Special Train Secured to Carry the Boys and Their Supporters to Ishpeming Saturday—Sixty Medals and a Cup.

The track and field team of the high school has made arrangements with the South Shore road whereby a special train, leaving here about 12:15 o'clock, will on Saturday afternoon convey the Marquette contingent to Union Park, where the annual athletic meet of the upper peninsula schools will take place. To secure the train, a guarantee of seventy passengers was necessary, but it is expected that over double that number will make the trip.

The Marquette team is this year very strong, and it will be a big surprise to its supporters if it fails to make the expected good showing. The boys themselves are not boasting, but that they will at least come very close to first honors is the expectation of their friends who have watched their practice work. The team has been training for several weeks, and from the showing made it is evident that those other contestants who have not been figuring the Marquette boys in the game are due for a few surprises. The Marquette entries in the various events are as follows:

- 100-yard dash—Gilbert Cooper, D. Williams.
- 220-yard dash—Gilbert Cooper, D. Williams.
- Quarter-mile run—D. Williams, George Randolph.
- Half-mile run—Louis Stickey, E. Connell.
- 1-mile run—Louis Stickey, W. Gieseler.
- 220-yard hurdles—F. Connell, R. Lewis.
- 120-yard hurdles—B. Lewis, W. Powell.
- Relay race—Williams, Cooper, E. Connell, F. Connell, Lewis, Randolph.
- Bicycle race—John Manthel.
- Putting 12-pound shot—D. Williams, W. Powell.
- Throwing 12-pound hammer—D. Williams, B. Lewis, W. Powell.
- Discus—D. Williams, B. Lewis, W. Powell.
- Pole vault—B. Lewis, E. Connell.
- High jump—W. Powell.
- Broad jump—F. Connell, E. Connell.
- Football kicking contest—F. Connell, W. Powell.

To the team winning the most points, a handsome silver cup will be given, and for the winners of the individual events medals are to be awarded. These number sixty, and are made of gold, silver and bronze; they will go to the contestants taking first, second and third places, respectively. The medals are very similar in shape to a Maltese cross, suspended from a bar by two links. On the bar are engraved the initials of the association and on the pendant are the year and the name of the event. The medals are declared the finest ever awarded at an upper peninsula athletic meet.

The contests will be started at 1 o'clock. Six high schools have sent entries, and whatever the showing made by the Marquette team the spectators from this city can be assured of an afternoon of exciting sport.

COMES TO MARQUETTE.

Soo's Big Water Power Case Transferred to This Circuit.

The important injunction suit brought at the Soo by the Chandler-Dunbar company against the Lake Superior Power company—the little canal vs. the big one—will be transferred to the Marquette circuit. Application for the transfer was made to Judge Shepard of Cheboygan by the complainants on the ground that Judge Steere of the Soo was disqualified to set in the case, having formerly been one of the complainant's advisors. Judge Shepard, in his order, says:

"After hearing the proofs and allegations of the parties touching the subject of the said application, and the arguments of counsel, and it appearing to my satisfaction that the said Joseph H. Steere, circuit judge of the Eleventh judicial circuit, is disqualified to sit in the above entitled cause, by reason of his having been consulted and given advice in the subject matter of said cause, and that the said John W. Stone, circuit judge of the Twenty-fifth judicial circuit is qualified to sit as judge on the trial or hearing thereof:

"It is ordered, that the above entitled cause be, and the same hereby is transferred from the circuit court for the county of Chippewa, in chancery, to the circuit court for the county of Marquette, in chancery. Dated at Cheboygan, Michigan, this 26th day of April, A. D. 1902."

HOLDS UP A CONGRESSMAN.

"At the end of the campaign, writes Champ Clark, Missouri's brilliant congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all-around medicine ever sold over a druggist's counter." Overworked, run-down men and weak, sickly women gain splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by Stafford.

WHAT IS FOLEY'S KIDNEY CURE?

Answer: It is made from a prescription of a leading Chicago physician, and one of the most eminent in the country. The ingredients are the purest that money can buy, and are scientifically combined to get their utmost value. Sold by People's Drug Store.

UNDER JUDGE STONE'S RULING.

Agent of Outside Brewing Company Arrested at Grand Marais.

J. R. Wheeler, the agent at Grand Marais of the Minneapolis Brewing company, was arrested last week on the charge of violation of the liquor law and was bound over to the circuit court for trial. The case will come up at the term which is now in session at AuTrain.

The case is rather interesting because of the fact that it was instituted by the authorities of Burt township in accordance with the recent decision of Judge Stone of this circuit holding that the outside brewer is subject to the tax of \$500 at every point where an agency is maintained. It is from this decision that an appeal was taken and is now before the state supreme court, the brewing company contending that a tax of \$500 is discrimination in favor of the home brewer, who is subject to a license fee of but \$65 per year.

HARD FIGHT FOR HOMESTEAD.

It Results in Affirming Mrs. Lathrop's Right to 120 Acres.

Some time ago Henry A. Preger instituted a contest against Mrs. Addie L. Lathrop, nee Cobb, station agent at Bruce's Crossing, in an endeavor to secure possession of a homestead that had been entered by the lady. The contest was based on technical grounds. Testimony in the case was taken by the officials of the land office here, Messrs. Jones and Scadden, and after a thorough review of the evidence a decision adverse to Preger was rendered. The contestant had been rather confident of winning, and, disappointed, he determined to appeal to higher authority. The case was brought before the commissioner of the general land office at Washington and he, too, passed on Preger's claims in the negative. The man, however, was still not satisfied, and through an attorney he carried the matter to the secretary of the interior himself. The secretary also decided adversely and Preger then looked to the board of appeals as the last resort. The board investigated the contest thoroughly, and in a communication which has just reached the local officials it states that it is unable to see any reason why the decision should be disturbed. Accordingly, the motion for another review of the contest is denied and the case has been ordered closed. The homestead for which Preger made such a hard and unsuccessful fight is located in Ontonagon county and is described as the west half of the southeast quarter and the southeast quarter of the southeast quarter of Section 22, Town 49, Range 39 west, comprising in all 120 acres. The tract is said to be very valuable, having some thousands of dollars' worth of pine on it, and the long series of decisions affirming Mrs. Lathrop's right to it is very popular among all conversant with the facts.

TREND OF COPPERS IS UP.

Prices Gain Some and Talk is Becoming Very Bullish.

Concerning yesterday's Boston stock market, Peine, Webber & Co. said: "There were very good advances throughout the copper share list today. The market, however, continued relatively dull. It seems that the largest speculative interests are working to get a good line of long coppers and are trying to do it without attracting too much attention to the market. The floating supply of copper stocks is relatively small. The metal market continues strong. On any slight reaction we believe all the better class of coppers should be bought for a good advance."

Metal Situation Strong.

Hayden, Stone & Co. wired the Laidley Commission company: "Copper shares are higher all around and the talk regarding the metal situation is uniformly more bullish. Consumption is exceeding production, the surplus is about all gone and advance in the price of the metal and 14-cent copper is predicted. Mohawk and United States Mining are continually absorbed and taken out of the market. Insiders are talking very bullish on Copper Range and easily mark up the price. There is much manipulation in the market. Dominion is very scarce now, being so closely held that there is very little around the brokers' offices. United Copper is in good demand at the top price of 30 1/2 and Amalgamated likewise is strong at 71."

Chicago Wheat and Corn.

W. H. Laidley & Co. said of the Chicago grain markets:

"Under the influence of lower cables, wheat opened slightly under last night's close and was inclined to be weak during the early part of the session. Later the market turned extremely dull, with very little trade, losing about 3/4 under last night. The receipts and estimates continue light and the Northwest receipts a trifle heavier, but still small as compared with last year. The primary receipts are slightly under last year and the shipments very decidedly so. The seaboard reported thirty-five boatloads of export and some little cash business was reported here, but nothing definite was confirmed so far. The market seems to have gotten weak and the feeling seems to get more and more bearish, but we would advise the purchase of wheat for a turn on all good breaks.

"Corn opened slightly under last night and continued dull and uninteresting, closing a little under last night's figures. The receipts and estimates are a little heavier, but primary receipts and shipments both light, as were the clearances. The exports seem to indicate a little freer offerings."

Wall Street Strong Early.

Dick Bros. said of the New York stocks: "The market showed much strength in the early trading and numerous advances were made. Later, however, there was considerable profit taking and the market closed down from the best prices. The unfavorable strike news affected only the coal stocks. Money was easy and generally the news was favorable. The agreement by the Washington leaders on a 20 per cent reduction in the Cuban tariff helped Sugar. Copper was quite strong on good buying. Western interests were active

EXCURSION TO THE SOO.

Locomotive Firemen to Run One a Week from Sunday.

An excursion to the Soo and return is announced like which is scheduled for June 1. It will be run under auspices of the local lodge of the Brotherhood of Locomotive Firemen, and the public generally is cordially invited to participate. The round-trip fare from Marquette will be 85, and from Ishpeming and Negaunee half a dollar more. The train will leave Ishpeming at 6:15 a. m., Negaunee at 6:30 and Marquette at 6:45 and will arrive at the Soo at noon. Returning, the train will leave the Soo at 8:30 in the evening. The schedule will give the excursionists eight and a half hours at the Lock City, ample time to see the many interesting sights or to look up friends and relatives. The trip will be an enjoyable one, and the firemen are counting on several hundred persons taking it. A week from next Sunday is the date.

FUNNY AND REFINED.

Tonight's Minstrel Show Designed to Please All Classes.

Richards & Pringle's big minstrel aggregation which appears at the opera house this evening is vastly different from any similar style of attraction that will be seen here this season. It numbers fifty of the best entertainers in colored minstrelsy, each one of them popular in their respective lines and all refreshingly original with new specialties this season.

"It is a laughing performance" from the start to the finish and is filled with bright merry ideas new to minstrelsy and of a high class order. Besides, it caters to the most refined patronage and furnishes solid enjoyment without a suggestive utterance during the whole performance. Its performers are selected from the best in the colored minstrel line, and every act presented is bright, brisk and original and sure to please the most critical.

The big street parade takes place this afternoon at 2:30 o'clock.

NEVER LOOKED BETTER.

Upper Peninsula Fruit Crop Promises to Be Unusually Large.

According to Superintendent Geismar, of the State Experiment Station, at Houghton, at the present time the fruit crop in the upper peninsula promises to be the largest in years if not the largest in the history of this peninsula. This is true of small fruits as well as of tree fruits, such as apples, cherries and plums.

Mr. Geismar has carefully examined the buds on the fruit trees and finds them in splendid shape. The recent cool and backward weather, while not favorable for crops generally, was just suited to fruit buds inasmuch as it kept them from coming out too early to be killed by frost.

Concerning Strawberries.

As to strawberries, the principal object striven for by growers in Michigan is a late ripening of the crop, which will bring them upon the market after berries have become scarce. In this respect northern Michigan presents a distinct advantage. The main crop of strawberries has always been picked after the fourth of July, and as late as the 10th or 12th.

With most farmers the desire is simply to grow a small bed for the family use. With proper methods, this may be done with very little labor. Strawberries to succeed need moisture and fertility. They do best on fairly moist soil not too easily dried out. It is best to manure the bed heavily and plow the previous fall, to guard against drought. Plants should always be procured and set early in the spring, and allowed to grow a year before procuring a crop.

By far the cheapest and most satisfactory method of laying out the bed is to plant in rows four feet apart, setting the plants two feet apart in a row. This takes 5,500 plants per acre. The runners are allowed to grow and root, and the space between the rows may be cultivated with a horse. This forms a neat row of plants by fall under good conditions. After the ground is frozen the bed is covered with two or three inches of straw or litter clean of weed seeds. This is left as long as possible the next spring, removing it in time to prevent stunting the growth of the plants. This holds back the crop, the avoiding danger of frost destroying the blossoms, and getting later berries. It is very important to let the mulch raked from the plants lie between the rows as it keeps down weeds and preserves the soil moisture, which the crop demands at the time of riping.

Many good varieties of strawberries have imperfect flowers, lacking the stamens or pollen. These are called imperfect or pistillate kinds, and if planted must be near perfect flowering plants. The latter may be planted alone and of late the perfect flowering kinds are most largely used. Of those tried with success are Bedwood, Lovett, Splendid Tide, Ridgeway and the pistillate Haverland, Warfield and Crescent.
