# THE TOMBOY.

### A Kind of Girl Who Became Extinct in the Last Century.

It's a far cry from the sampler-working maiden of a hundred years ago to the athletic girl of to-day. The girl of a hundred years ago did not dare to be original in thought or action, or if she did was at once stamped as eccentric and strong-minded. Her mind was formed on safe principles. She was trained to household duties, and to accept the narrow limits in which she was to move as the natural, intellectual and physical bounds of a woman's capacity. If she revolted from cup and ball early in the century, or later from the mild delight of crequet and wanted to run and romp, she was invariably set down as "a regular tomboy." That was a very familiar term only a few years ago. Now one hardly

hears it. Girls are encouraged to row and ride, to run and romp, in the inter-est of their own physical well being, and for the general advantage of the mothers of the future.

THE ONE THING NEEDFUL.

Such girls make the healthiest and happiest of women, with one provision -they must begin womanhood aright. When the womanly function is first established it should be under perfectly healthy conditions, otherwise soon or late diseases of the womanly organism will result, and this opens the door to boundless suffering. The first lesson which every girl should

learn when she comes to womanhood is that her general health is inseparable from the local womanly health; that womanly disorders and derangements known now only to herself will in time publish themselves to all her sex, in the hollow cheek, dull eye and pain-creased brow. To the young woman irregularity is only a form of physical discomfort. To the experienced it is an indication of functional derangement which calls for prompt cure. It is neglect or delay atsuch times which often leads to the

establishment of chronic diseases. WOMAN'S EEST FRIEND.

Dr. Pierce's Favorite Prescription is a medicine prepared especially for woman's use, and is designed to cure diseases peculiar to women. It is particularly adapted to the use of young women because of its great tonic and invigorating properties, and also because it contains no harmful ingredients, being entirely free from alcohol and from opium, cocaine and all

use of "Favorite Prescription."

MOTT'S

her, but it was of no use. It seemed as though nothing could reach the trouble. We tried different patent medicines, but no use. When she began to complain she was quite stout ; weighed 170, the she was quite stour, a until about the picture of good health, until about the age of fourteen, then in six months she was so run down her weight was but 120. She kept failing and I gave up, thinking there was no use, she must die. Friends all said, 'You will lose your daughter.' Members of Charles Towne Post of the I must say, doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave to-day. When she had taken one-half bottle the Today will be a holiday for nearly all the thoroughfare. he working people of Negaunee. There

WILL DECORATE THE GRAVES.

OLD PEOPLE Bo not always receive the sympathy and attention which they deserve. Their ailments are regarded as purely imaginary, or natural and unavoidable at their time of life. Disease and infirmity should not always be associated with old age. The eye of the gray haired grandsire may be as bright and the complexion as fair as any of

his younger and more vigorous companions. Good Blood is the secret of healthy old age, for it regulates and controls every part of the body, strengthens the nerves, makes the muscles elastic and supple, the bones strong and the flesh firm; but when this life fluid is polluted or poisoned and loses its nutritive, health sustaining elements, then there is a rapid decline of the vital powers, resulting in premature old age and disease. Any derangement of the blood quickly shows itself in an ulcer, sore, wart, tumor or some other troublesome growth upon the body, and theumatic and neuralgic pains become almost constant, accompanied with poor digestion and cold extremities,

SSSS in poor ingestion and cold extremities. S. S. S. being purely vegetable, is the safest and best blood-purifier for old people. It does not shock or hurt the system like the strong mineral remedies, but gently and thoroughly cleanses the blood and stimulates the debilitated organs. The blood and

ailments disappear. S. S. S. is just such a tonic as old people need to improve a weak digestion and tone up the Stomach. If there is any hereditary taint, or the remains of some disease contracted in early life, S. S. S. will search it out and remove every vestige of it from the system.

Write us fully about your case and let our physicians advise and help you. This will cost you nothing, and we will mail free our book on blood THE SWIFT SPECIFIC COMPANY, Atlanta, Ga. ' and skin diseases.

by the Finest Trains Being Run on Any of the Great Trunk Lines,

are probably not excelled in comfort or [ elegance by the finest trains now being run by any of the great trunk lines of

the country They will go into service for the first time on Sunday next, running between Duluth and the Soo in place of the pres-ent night trains, which after being thoroughly renovated in the shops here wil be put on the day ran between the straits and the copper country. Sunday evening one of the new trains will start from the head of the lake, and the othe from the Lock City. On the former train, two of the cars will be sleepers one of which will be run through to the Soo and the other will connect at Nes toria with the train for Calumet. The train leaving the Soo will have one sleeper which will be run through to Duluth, and at Nestoria it will pick up a second sleeping car which will have come down from Calumet. The fifth sleeper will be utilized as a reserve car to be used in emergency or on special occasions. The new trains, which are full vestibuled, have been named "The North Country Mail."

Description of the Sleepers.

The palace sleeping cars, which were turned out at the works of the Barney & Smith Car company of Day ton, Ohio, are much the finest even seen They are sixty-four feet, nine inches long over end sills, ten feet wide over side sills, and are about four inches higher than the standard sleeping car two inches more head room the lower and upper berths. The berth themselves are of the latest style, and when closed add much to the beauty of the interior of the car, being semi-ir cular in form, with the front of cae embellished with a lovely design i green and gold.

The cars are equipped with all mod-ern improvements for the safety and comfort of the patrons of the road. The ends are fitted with the Gould-wide vestibules, standard steel platforms, and
