PEACE IS DECLARED IN SOUTH AFRICA

Boers Sign Terms of Surrender at Pretoria at 10:40 O'Clock Saturday Night.

LONDON GREET'S ANNOUNCEMENT WITH WILDEST JOY

End of Struggle Which Has Lasted Two and One-Half Years and Has Tried Resources of Empire to Its Uttermost---President Kruger When Told of the News Declared "My God, It Is Impossible"---King Edward's Insistence That Hostilities Cease Before His Coronation Influenced the Early Agreement.

London, June 1.—An official telegram from Lord Kitchener states that a document containing the terms of surrender was signed at Pretoria at 10:40 o'clock Saturday evening by all the Boer representatives and Sir Alfred Milner and Lord Kitchener. The news of peace was announced in the churches, and by some congregations was received with applause. In all the churches prayers of thanksgiving were offered and special hymns sung.

The news Sunday afternoon took the nation by surprise, as everybody had confidently believed that the house of commons would hear the first news today. The king issued a message after midnight announcing the receipt of peace news and expressing his satisfaction. How greatly the king's insistence that peace be secured prior to his coronation influenced the agreement will probably not be known until the private memoirs of the present regime are given to the public.

According to a dispatch from Vtrecht, Holland, Kruger was informed shortly after 9 o'clock last night that peace had been declared. He had been asleep, "My God" he said, "It is impossible." Kruger and his entourage the dispatch continues, hope to be permitted to return to the Transvaal. This, however, is quite unlikely.

About 6 o'clock London awakened to the fact that the war was over, and demonstrations of joy became boisterous, continuing long after midnight.

News Was Unexpected.

The news of peace was not expected in London today. Lord Kitchener's dispatch, however, was received with much enthusiasm. Church bells were rung to acclaim the good news. A large crowd gathered at Mansion house and the Lord Mayor announced that the terms of surrender had been signed. Lord Kitchener's announcement was received at the war department at 1 o'clock and was communicated to the king and cabinet before being given to the public. Tonight, Sunday evening the calm was broken by enthusiastic singing, shouting and horn blowing. The news of peace was announced in the churches, and by some congregations was received with applause. In all the churches prayers of thanksgiving were offered and special hymns sung.

Paris, June 2.—The news of peace in South Africa was received too late to become generally known. This morning's papers' comment was mostly tinged with regrets that the Boers had failed to secure independence, and highly praised the courage and tenacity of the defeated people.

Toronto, June 1.—The news of peace was received with joy throughout the Dominion. The national anthem was sung and bands paraded the streets, which were crowded with enthusiastic people.

St. John's, N. B., June 1.—In nearly all the churches tonight Lord Kitchener's telegram was the text of sermons of thanksgiving or the keynote of

hymns of praise for the end of the war. The rejoicing is general.

Rome, June 1.—King Victor Emanuel has telegraphed King Edward his deep satisfaction at the conclusion of peace.

Washington, June 1.—The officials of the British embassy here share the jubilent feeling existing in London over the termination of the war. The official notice came from the foreign office. Nothing official reached the department from Ambassador Cheate or any other source. The impression prevails in official circles that the terms of surrender are very liberal.

Chicago, June 1.—Peter Van Vliessen, head of the Boer relief fund committee, expressed satisfaction that the war was ended. He expressed the opinion that the wisdom of the Boers in discontinuing resistance would be demonstrated. He believed the Boers had considerable voice in the settlement. "It does not take ten weeks" said he, "to bring about an unconditional surrender."

Halifax, N. S., June 1.—The news of peace caused great enthusiasm. The national anthem was sung in all the churches and fire and church bells were rung.

Ottawa, Ont., June 1.—The peace news greeted with demonstrations of joy. A great public demonstration will take place tomorrow.

Montreal, June 1.—The Associated Press news of the ending of the war was sent to all the churches and read at the evening services. The congregations sang "God Save the King" and the national anthem was played on the chimes of several churches.

ASCENDED TO TOP OF MONT PELEE

Fort de France, June 1.—Professor Angelo Heilprin ascended to the top of Mont Pelee this morning in the company of two guides and Mr. Leadbetter. While on the summit several violent explosions occurred but Professor Heilprin took careful observations. Looking down into the crater he found a huge cinder cone the crater opening in a vast expanse one hundred feet long and one hundred wide. One violent explosion which occurred covered Professor Heilprin with volcanic matter. He persisted, however, and found three separate vents. Meanwhile Mont Pelee seemed to resent the intrusion into her awful territory, and belched forth huge volumes of steam, ashes and boiling hot mud. Professor Heilprin made an important discovery that Fallis has an eruption at the same time as the summit crater and ejects precisely the same matter. Both the craters threw mud up in high columns, while heretofore it has bubbled or boiled out and flowed downward in huge streams. At the site of Lake Palmiste he found the lake completely dried up and crossed the bed,

AUTO KILLS TWO PERSONS.

Chauffeur Loses Control and Machine Runs Into Crowd of Spectators.

New York, June 1.—One man was instantly killed and four other persons were hurt at Gramercy, Staten Island, yesterday, where automobile speed tests were being made under the auspices of the Automobile club of America to break the world's record for a mile. The man killed was Andrew Featherstone, assessor of the borough of Richmond. He was run over and crushed to death. The machine was driven by W. C. Baker of Cleveland, O. Mr. Denzer, also of Cleveland, was with him. Both were thrown from the machine but were not injured. The machine was nearing the finish line after its trial over the course when the driver seemed to lose control of it and it dashed into the crowd of spectators. All the injured were cared for at an emergency tent and afterward removed to a hospital.

MEAT FAMINE STILL CONTINUES

STRIKE OF TEAMSTERS IN CHICAGO HAS NOW PRACTICALLY SHUT OFF SUPPLIES OF BEEF - PACKERS MAY CONCILIATE.

Chicago, June 1.—The Federation of Labor tonight decided to appeal to Jas. H. Eckels, a member of the National Civic Federation, to make an effort to settle the meat strike. The tie-up by the teamsters is almost complete. Conciliatory action on the part of the packers is expected tomorrow.

The packers tonight succeeded in filling all the downtown distributing points except the Fulton market. The ice and coal dealers now hold the key to the situation and it remains to be seen whether they will carry out their threat to cut off supplies in order to assist the packing house teamsters in their strike.

A HEAVY RAINFALL.

Burlington, Ia., June 1.—Six inches of rain fell this morning, damaging crops and residence property.

CHARLESTON FAIR CLOSED.

Exposition Has Been a Financial Failure and Stockholders Lose Money.

Charleston, June 1.—At midnight last night President Wagener turned off the electric lights, the buglers sounded "taps," a salute was fired and the South Carolina Interstate and West Indian exposition passed into history. The exposition opened on the 1st of December last and the six months of its existence have made a very brilliant season for Charleston. The first half of the time was not prosperous for the fair, but during the last three months great crowds have visited it. The enterprise will be a loss financially and the stockholders will receive none of their subscriptions back.

DEATH IN FLAMES.

Three Persons Lose Their Lives as Result of Fire at Rockaway Beach.

New York, June 1.—Max Kaston and Mrs. Lydia McKrow lost their lives today in a fire which destroyed twelve buildings and damaged others at Rockaway Beach. Thomas S. McKrow and his five-year-old son, Martin Hanson and Morris Kaston were injured and taken to the hospital. Several hours later young McKrow died and the father is reported dying. The buildings for the most part were frame. The loss is \$120,000. After the fire, the body of an unknown man was found in one of the buildings burned to a crisp.

UNITED STATES ARMY REDUCED.

Reorganization Is Started—Strength at Present Is 66,497.

Washington, June 1.—By direction of the president, Secretary Root has issued a general order decreasing the strength of our permanent military establishment and changing the ratio of its make-up as provided in the general order issued last May to carry out the army reorganization law. Under the general order of last May the total strength of the army was fixed at 77,287 men. The order issued yesterday reduces this figure to 66,497—a reduction of 10,790.

CRISIS IS REACHED

TODAY WILL DETERMINE THE STRENGTH OF MINERS' STRIKE.

BOTH SIDES FIGHTING TO WIN

IF ENGINEERS AND PUMPMEN GO OUT OPERATORS LOSE.

Neither Side Shows a Disposition to Yield and the Struggle Will Be to a Finish—Trouble Is Feared.

Wilkesbarre, Pa., June 1.—The eve of what is looked upon as the most important week in the Anthracite strike, finds the entire region in an apprehensive mood. The order calling out the engineers, firemen and pumpmen will go into effect tomorrow morning and no one can foretell the outcome of the move. Victory for either side will be of immense advantage and both parties are striving with all the power at their command to win. If the union succeeds in shutting down the pumps the mine properties will suffer damage that may reach into the millions. If the employers are able to keep the water out of their workings without the aid of organized labor it means that the power of the union in the anthracite region has reached a limit and that help in the effort to force the mine owners to grant the demands of 17,000 men must come from outside sources. Neither side tonight shows the slightest disposition to yield and in the words of one superintendent "it is a fight to a finish."

Trouble Is Feared.

It is feared that the coming week will witness more or less serious disturbances. Tomorrow is looked upon as the critical day, but it is not believed that any very serious trouble will occur. An army of approximately 3,000 armed coal and iron policemen is in the field tonight ready to protect the men and mining properties. There are also scattered throughout the country, it is said, about 1,000 men doing secret work for the companies.

Railway Men Agree to Help.

A joint meeting of the railway brotherhoods was held this evening. President Mitchell was one of the speakers. A resolution was adopted pledging the cooperation of all railroaders if such is necessary, in order that the miners will win the strike.

Servant Girls Strike.

Hazleton, June 1.—There was an exciting scene when the departure of special officers started for Freeland this evening. A crowd of miners was held in check by the chief of police. At the hotel where two specials stopped, the servant girls struck. The tremendous cheer from 800 men surrounding the hotel greeted the girls as they walked out.

Priests Counsel Lawfulness.

Shamokin, June 1.—The leaders of the mine workers said tonight that the engineers, firemen and pump workers will remain away from the collieries tomorrow in order to preserve peace. Whether the Hungarians and Lithuanian strikers can be controlled is a question. The priests today advised their congregations to remain lawful.

A FAKE "SURPRISE."

Under the caption, "A Surprise for Young," the Menominee Herald of Saturday had this mention of the candidacy of Hon. John W. Jochim for the congressional nomination:

"News comes of a great surprise in Marquette county, which is calculated to cause Young's forces a great deal of uneasiness and loss of sleep. Mining men who have been credited to the columns of Mr. Young's chief supporters, within the last few days have been to no pains to conceal a very friendly attitude towards Hon. John Jochim and have openly endorsed his candidacy."

There will be a strong fight put up in Marquette county by the Jochim supporters and the wise ones, politically, say that the fight is one which will subtract many votes from Mr. Young's present calculation.

Much concern is felt by the sincere and close friends of Mr. Young that he has been too content of Marquette county and they fear that in his efforts to mend his fences in helplessness counties like Menominee he has jeopardized his chances in his own county.

Jochim's friends are loyal and have not been doing during the absence and over-confidence of Mr. Young, and he will find himself in one of the stiffest political fights Marquette county has seen for years.

While Mr. Sheldon has visited every county in his district, his time has been spent in his own county to such advantage that neither Young nor Wright are seriously considered as candidates in Houghton county.

This is a Chinese surprise, there being nothing in it but noise to cover the trepidation of those who are beating tom-toms and shouting to keep their courage up and bewilder their adversaries. Mr. Jochim's candidacy has no standing in Marquette county, and there is not now, and never has been, a shadow of doubt as to where the delegation from this county will stand in the congressional convention.

Hon. H. O. Young will get a solid delegation from Marquette county, and it will be in the congressional convention to win the nomination for him if loyal support and strenuous endeavor can accomplish that.

Not only that, but the great body of the Scandinavian voters of the county will assist in giving the delegation which will represent and act for it in the nominating convention to Mr. Young. The Scandinavian voters of the county owe this service to the Republican party in the district and the county, and they also owe it to their own element among the voters of the county, and their intelligent conception of their duty as citizens. The obligation rests on them, as on the Republican voters of Marquette county generally, to give their support to the candidate put forward for the nomination by the county who is best equipped for the office of representative in congress, and they can be depended on to respect it. There are among us no more intelligent, honorable and loyal patriotic citizens than those of the class to which Mr. Jochim's candidacy might be expected to specially appeal. They do not entertain a kindly feeling for Mr. Jochim, but they are thoroughly informed regarding Mr. Young's eminent fitness for the position to which he aspires, as well as his claims on the party, and their hearty support in his home county will be given to Mr. Young "against all comers."

The Mining Journal speaks on this point from knowledge. It has positive information concerning the attitude of the leading Scandinavians of the county on the congressional question, and knows that they are favorable to Mr. Young's candidacy, as will be shown conclusively when the time comes for selecting the delegation.

The Herald may please itself with the delusion that Mr. Jochim's candidacy contains a menace to Mr. Young in this county if it finds comfort in that assumption. A delusion it is, nevertheless, and an absurdly transparent one. Marquette county is for Hon. H. O. Young for congress, and would be if the selection of the delegation should be left solely and wholly to its Scandinavian voters. In putting up the contest that he is making for the Menominee delegation Mr. Young is neglecting nothing in this county that he has occasion to give attention to, while it is obvious that he is causing some of the politicians of Menominee county to lose sleep 'nights and spend part of their time by day in constructing ineffective campaign ruses.

STOCK MARKET OUTLOOK.

In his weekly review of stock market features Henry C. W. Wall Street banker, finds conditions generally quite encouraging. He gives this analysis of the situation at the close of the week:

Aside from the strike, the most important influences on the market are the crop situation, the money market, and peace prospects in South Africa. Needless to say, the crop outlook outranks all of these influences, even the strike, which is only a passing element. Fortunately crop prospects are favorable. The old snap delayed agricultural operations somewhat, but did no serious injury. Beneficial rains have fallen over

large areas, checking drought; so that winter wheat is in improved condition and early spring wheat is doing well. A large corn acreage seems inevitable, the high prices resulting from last year's shortage having greatly stimulated planting and driving farmers "corn crazy" in some sections. A repetition of last year's deficiency would be similarly ruinous and seems beyond possibility. The wonder is that crops loose made so trifling an impression upon general business or upon the railroads, and there is every prospect that the agricultural classes will not be called upon this year to endure the losses suffered last year. Cotton crop reports are also favorable in spite of a slight reduction in acreage.

As for the money market, the outlook is more assuring. Bank reserves are rising, owing to the influx of funds from the interior and a further contraction in loans. Relief in the latter direction is most needed and most probable. The great expansion of loans during the last few months has been chiefly due to the operations of big borrowers and syndicates. Some of the deals of the latter have been completed or are approaching consummation, thus releasing large sums and explaining to a considerable degree the sharp fluctuations occasionally seen in the loan account. On March 1 loans stood at the highest point on record, \$938,000,000, and the surplus reserve at \$9,975,000. A week ago loans stood at \$70,400,000, a contraction of \$87,000,000 in three months, while surplus reserve had risen to \$14,000,000. The latter is still a rather slender margin considering the tremendous expansion of various sorts which exists, but the tendency is in the right direction and rising reserves may be expected for some weeks to come, unless a rampant speculation develops, of which at present there are no symptoms, except it be a desire for such such on the part of those who have too many stocks on hand for their own comfort and pleasure.

A good deal of interest is shown in the probable effect of the cessation of the Boer war, on the American market. In the long run it cannot help being beneficial. The first effect, however, may be for British speculation to spend considerable energy upon Kaffir shares, after which it will probably overflow into Americans. The war has been costly for England at the rate of about \$400,000,000 a year; and the release of such vast sums from destructive purposes to flow again into the legitimate channels of industry and investment cannot act as a powerful stimulant that cannot be confined to the London market. British capital is always forced to go beyond its native land, and it is not all improbable that the liking for American securities may revive in view of the wonderful records they have been making. The chief obstacle will undoubtedly be foreign prejudice against American financing.

Railroad shares are firmly held owing to good earnings and the various rumors in prospect. A feature was the advance in Canadian Pacific, attributed by some to buying for consolidation purposes, though this is not confirmed. The industrial and generally neglected markets are not so promising as they are being so. More and more of them are making unsatisfactory annual reports, notwithstanding the activity of trade; and it seems only a question of time when over-capitalization will have to be wiped out through the old-fashioned methods of liquidation and re-organization.

A vital political question ere long, the industrial can hardly be considered favorites from either the investment or speculative standpoint.

When the coal strike approaches a settlement we may look for a more active market; and if this is followed by good crop reports and easy money we may look for better prices. The market offers good trading opportunities, there being a fair division of opinions without settled tendencies in either direction. The big men are still persistent bulls on the situation, and if conditions permit they are sure to use their influence in that direction. For the present, however, the market is a sale on good rallies and a purchase only on decided breaks.

AN ABSURD PROPOSITION.

Candidate Stearns is willing to withdraw from the gubernatorial contest if Governor Bliss will do likewise. Candidate Stearns offers to pull out on the condition stated to restore "harmony" in the party.

The harmony that he desires to see restored in the ranks of the Republican party can be obtained in a much simpler way. Mr. Stearns can withdraw from the gubernatorial contest without conditions and the harmony he yearns for will follow.

The attitude of Mr. Stearns in relation to the gubernatorial nomination implies that he thinks he has some special claim to consideration in connection with that office. He is a candidate for the nomination on his own motion, just as he was two years ago. It happened that he was beaten out of the nomination by Bliss in the convention of two years ago after he had spent an enormous amount of money in the effort to secure it. Still smarting under the humiliation of that defeat, he has taken the field against Governor Bliss this year, and asks the party to break a well-established precedent to both gratify an ambition of his and enable him to satisfy his ancient grudge against Bliss.

And now that he finds the tide of sentiment in the party setting against him strongly, he proposes to withdraw as a candidate if the governor will drop out with him, and clear the way for the nomination of either of two men whom he names.

It is an absurd proposal and will not be listened to. Mr. Stearns is a very wealthy man, and has a certain power through the possession of abundant means, but his wealth invests him with no right to select for the people of Michigan their candidate for an office in their gift, or to fix limits outside of which they may not go in making their selections. He says he is "a good Republican." Let him prove it by ceasing his vicious attacks on a Republican administration and dropping his senseless

endeavor to compel the majority of the voters of the party to forego a purpose which they manifestly desire to have accomplished.

The Republicans of Michigan do not want Mr. Stearns for governor this year. Not being in a mood to cater to his eager desire to obtain that office, they are not in the least likely to work into his scheme to satisfy his grudge against Governor Bliss by demanding that the latter withdraw as a candidate for a second term. They are not going to compromise with Mr. Stearns on the lines he has laid down because they feel that he has acquired no right to make conditions affecting their political action, and that his proposition is a piece of impertinence. If they don't want Bliss for a second term they have the power to retire him and the opportunity will be afforded them in the state convention. But if they drop him it will be because they think he is not entitled to another term in the governorship and not to placate Mr. Stearns or assist him in paying off a paltry grudge.

The people of this great commonwealth are greater and more powerful collectively than any individual citizen of the state, even though the latter may be many times a millionaire. Money counts in politics, unquestionably, but it isn't the whole thing, and we much doubt that any man in the state has enough of it to enable him to have his own way in its politics to the extent of making and unmaking state administrations at will.

The consent of ex-Senator A. Maitland of Negaunee to stand as a candidate for the nomination for lieutenant governor, subject to the action of the Republican state convention, places in the field for that office a man in every respect fitted to fill it acceptably. His service in the state senate gave Mr. Maitland an experience in legislative work that would stand him in good stead should he be called on to serve the state in an office which would place him in charge of the deliberations of that branch of the legislature as its presiding officer. There are now three avowed upper peninsula candidates for the nomination, these being Chandler of Sault Ste. Marie, Dutcher of Newberry and Mr. Maitland. All three are good men; but of the three we consider Mr. Maitland rather the strongest and the most likely to secure the nomination if he goes after it vigorously. He will have no difficulty in getting the endorsement of his own county, with more than an even chance in the other iron counties and the copper district, so he is very likely to be the only candidate before the state convention from this peninsula when that body assembles.

The Delta county Republican convention to select the delegations which will represent that county in the state, congressional, senatorial and representative conventions will be held next Friday at Escanaba. In noting the issuance of the call for the convention The Journal of Escanaba gives this presentation of the sentiment prevailing in the county as to the candidates for governor, senator and representative in congress:

The sentiment hereabout is decidedly favorable to Governor Bliss and there is hardly a doubt that a solid Bliss delegation will be sent to the state convention. As Senator Fuller is a candidate for election and a resident of this county the senatorial delegates may be depended upon to support his candidacy. The only fight (if there is any fight) will be over the selection of delegates to the congressional convention. Congressman Sheldon has very strong opposition here among those who have heretofore been his most loyal supporters, and there is every indication that his opponent, H. O. Young, will have little difficulty in capturing the delegation from Delta county.

News comes that an unconquerable element among the Boers have "tricked" to new territory in South Africa, where they have established two young republics. One of these is the republic of Sangeberg, which has taken possession of a region between Bechuana and the Atlantic ocean. Piet De Villiers has been chosen president and a complete government has been organized. The community numbers but a few hundred souls as yet and the territory they have taken possession of is claimed in part by Great Britain and in part by Germany. The other republic has been established in the extreme northern portion of the Transvaal and has for its president Commandant Beyers. The withdrawal of these irreconcilables improves the prospect for peace in South Africa, but at the same time their action sows the seed of future trouble, for dissension between them and the British is sure to arise in the future.

The house has just passed a bill designed to restrict immigration that appears to be quite a sensible measure. It provides for the exclusion of criminals and persons suffering from incurable diseases, imposes a penalty on steamship companies that evade the law, and contains a clause barring illiterate immigrants above fifteen years of age and increases the efficacy of the contract labor law by broadening the word "contract" to include "offer, solicitation, or promise." While this measure will not greatly reduce immigration, it should serve to exclude many unworthy characters, and restrict a class of immigrants that is undesirable. The short time remaining of the present session of congress may prevent its consideration by the senate, but the growing tide of immigration should serve to urge the senate to immediate action.

SIMPLE RELIGIOUS FOLK.

Probably there is not a place in all the world where the simple religious faith of the fathers is observed as in Carpineto, Italy. All the ancient customs of the locality are carefully observed. For instance, at harvest time every man goes at nightfall to the parish church with a sheaf of wheat from the field on which he has toiled since sunrise, and places his offering at the foot of the Virgin's altar, while the vaulted roof resounds to the time-honored shout of praise, "Viva Maria! Viva la Madonna!"

Pope Leo XIII belongs to a most distinguished family. He had five brothers and two sisters, none of whom are living. His nearest living relative is a nephew, Giovanni Bapista, a priest, married and living in Carpineto, at the old family home.

The old historic mansion in which Pope Leo was born is in Carpineto. Its interior resembles a museum rather than a residence. Here is the little room where the pope was born, with all the things which interested him when a baby stood away from his cradle is here. Very near is the room he occupied as a boy and a young man. The narrow little bed he slept in, the table he wrote on, photographs and paintings of him at various periods of his life, and the complete furnishings, just as they were more than half a century ago, before he started out from home on his great career as priest, as monsignor, as cardinal, as camerlengo and as pope.

THERE IS HELP AT HAND.

In another column we present the glad news that our home druggists in the upper peninsula have placed on sale a positive and sure cure, to stay cured, for catarrh of the head, nose, throat, lungs or stomach; all poisons of the blood; rheumatism—acute and chronic; the itch king of the blood. This remedy is Melerine, the only treatment that cures these diseases of the blood in America today. All the other "cures" are simply "recommended." A course of the Melerine treatment is guaranteed to cure or money refunded. Drop into druggists and talk the matter over. It will not cost anything to find out.

INTERESTING TO ASTHMA SUFFERERS.

Daniel Bante of Otterville, Iowa, writes: "I have had asthma for three or four years and have tried about all the cough and asthma cures in the market and have received treatment from physicians in New York and other cities, but got very little benefit until I tried Foley's Honey and Tar, which gave me immediate relief and I will never be without it in my house. I sincerely recommend it to all." People's Drug Store.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by a heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidneys' poisons on the blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both Home of Swamp-Root, sent free by mail, Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

LICENSE IS RENEWED.

Mrs. Carrie Nichols, secretary of the Lake Linden lodge of the National Protective Legion, has been informed that State Insurance Commissioner Barry has renewed the Michigan license of the legion. The decision removes all obstacles in the way of the order and the final stand taken by the insurance commissioner is gratifying to the members.

GOES TO VULCAN MINE.

Will Crago of Iron Mountain, a student of the Michigan College of Mines, left Saturday for Norway, where he will take a position with the Oliver Mining company at the Vulcan mine as assistant mining engineer. Mr. Crago was president of the student body at the college and was very popular with the boys.

ENFORCE TRUANCY LAWS.

The Houghton school authorities are determined to enforce the truancy laws and all children who are found skipping school will be attended to at once. Three truants were brought before Justice Brand Thursday but sentence was suspended upon their promise to be good and attend school regularly.

HAPPY TIME IN OLD TOWN.

"We felt very happy," writes R. N. Beville, Old Town, Va., "when Bucklen's Arnica Salve wholly cured our daughter of a bad case of scald head." It cleanses the stomach and regulates the liver and bowels, effecting a quick and permanent cure.

COPPERDOM BRIEVITIES.

St. Ignatius church, Houghton, will not be dedicated until some time in July. A new school house is being built at Phoenix. It will be a two-story frame structure.

E. L. Nordenstein, a mining engineer of Sweden, is in the copper country to visit the mines. A special meeting of Houghton lodge, F. & A. M., for work in the first degree will be held this evening.

Rashleigh Bros. of Houghton will build a \$2,000 frame residence for Miss Kate Killian at East Houghton. Suetter live, L. O. T. M., of Houghton, will give a dancing party at the Hatmann hall Tuesday evening.

Circuit court will adjourn for the term today. The April term has been one of the longest in the history of the court. The steamer Homer Warren with four barges in tow all laden with lumber passed through Portage Lake Saturday.

The government has granted Henry Rondeau of Hancock, a veteran of the Civil war, a pension of ten dollars a month. The Michigan College of Mines students who are in the iron country visiting the mines will return to Houghton this week.

The street railway company may extend its line from Kearsarge through Allouez to the Mohawk location next summer. The students of the Michigan College of Mines will give their annual party at the Houghton armory on the evening of June 9.

Excursions to the canal are being arranged for thick and fast. The resort promises to be fully as popular as ever this season. A two-story frame structure for entertainment purposes and lodge rooms is being erected by the Modern Woodmen at Keadridge.

A band has been organized at the Phoenix mine location and it will make its first public appearance on the Fourth of July. The Modern Woodmen of the county may organize a log rolling association and hold a reunion. The Dollar Bay lodge is taking the initiative.

The will of the late Hon. T. B. Dunstan of Hancock has been filed in the probate court. The estate left to the will is valued at about \$400,000. John D. Crawford, of Hancock, secretary of the Upper Peninsula Enablers' association will attend the convention to be held at Escanaba this week.

The several excursions going to Isle Royale, Jacobsville and Keweenaw Bay, the South range and the canal were largely attended yesterday by copper country people. Arrangements are being made by the Calumet Maennerchor for the fourth annual sangerfest of the Upper Peninsula Sangerbund to be held at Calumet on June 20 and 21.

Secretary Wing of the Hancock Y. M. C. A. will soon make arrangements for the athletic meet to be held in June. He does not know as yet what the scope of it will be. The Y. M. C. A. tennis team is practicing on C. A. Wright's grounds at Hancock in preparation for tournaments which will be arranged with the Keweenaw club team of Houghton.

The White line has established a waiting room and office in the warehouse on the Popo dock at the foot of Isle Royale street, Houghton. Agent Julius Rompf is in charge. A bicycle club may be organized at the Hancock Y. M. C. A. and weekly runs into the country taken. Secretary Wing is now looking up the number of wheels owned by members of the association.

Delegates from all of the congregations of the Finnish synod will hold their annual meeting at Crystal Falls from June 3 to 5. Churches of the synod in all parts of the country will be represented. As soon as the steamer Thomas Friant which is being repaired at Dollar Bay in shape she will be taken to Marquette. The boat will make regular trips between Marquette and Huron Bay during the summer months.

The Dollar Bay baseball team has received new uniforms, consisting of green shirts with "Dollar Bay" in red letters across the breast, green pants, maroon caps, belts and stockings. August Torreano, the Sixth street wine dealer, Calumet, will build two flat buildings on Hecla street at Laurium this summer. The structures will be modern in every respect and will be very desirable for residence purposes.

A deal is pending for the purchase of the foundry of T. F. Hodge & Co., at Detroit by Detroit and Philadelphia capitalists. The company manufactures mining machinery and marine engines and does a general foundry business. Several gentlemen interested in the Jacobs Red Sandstone company visited the quarry at Jacobsville Saturday, the tug George Rogers owned by the company taking the party. Among those who made the trip were W. E. Parnall, John Duncan and J. B. Cooper.

The Houghton High school seniors who will be graduated on the evening of June 19 will hold their class day exercises at the school auditorium on Tuesday, June 17. Oscar J. Larson, prosecuting attorney, will deliver the commencement oration Thursday evening. President Casper Brand of the Upper Peninsula Enablers' association requests that all departments that have not yet sent in their donations to Treasurer M. V. Mullaly at Marquette for the Hurontown company should do so at once so that Mr. Mullaly may make out his report as soon as possible.

For biliousness use Chamberlain's Stomach & Liver Tablets. They cleanse the stomach and regulate the liver and bowels, effecting a quick and permanent cure. For sale by The Stafford Drug Co. Chronic bronchial troubles and summer coughs can be quickly relieved and cured by Foley's Honey and Tar. People's Drug Store.

WEY DIVIDENDS WERE PASSED.

Poor Results of Past Year Tell Story About Tamarack and Osceola.

Tamarack at 177, after selling at 172, demonstrated the power of inspired orators to contend with an adverse condition. Osceola reached 62 from 60 3/4 last night. In addition to other offers, Mr. Lawson bid \$5 per share to call 15,000 shares of Tamarack in blocks of 5,000 shares at \$200 each share for sixty days and \$2 per share for any part in any sized lots.

Mr. Lawson could secure enough options on Tamarack it might be easy to work up a corner in the stock. Officials of the Osceola and Tamarack Mining companies assert that there is nothing further to be said regarding the non-action of their respective directors on the dividend question. President Bigelow simply remarked to the Journal, when asked for a further explanation: "He who runs can read" — meaning, of course, that the poor results of the past year shown by the annual reports of both companies tell the whole story.

A circular letter was mailed to the stockholders of both companies last night, by way of explaining the failure to declare dividends. It is simply a statement of less than a dozen lines in which the information is given that the directors, in view of the present uncertain condition of the copper market, thought it was best to "postpone" further dividend distributions until the end of the current fiscal year—Dec. 31, 1902. This so-called "explanation" must, it would seem, effectually dispose of whatever lingering hope may have been held by disappointed shareholders that the present improving metal market would permit of a dividend payment a little later on.—Boston Journal, Friday, May 30.

Foreign Supplies Small. Emery & Tucker say: "The claim that exports of copper are not going into consumption is disproved by the exceedingly slight growth of foreign supplies. The increase in visible supplies in Europe and abroad there to since the first of the year has amounted to only 4,900 tons, or less than 8 per cent of the total exports." This increase is fully accounted for by the larger volume of copper mining. On the basis of these records we figure that approximately 300,000,000 pounds more copper will be consumed this year than last. This will wipe out the 200,000,000 pound surplus, and call for an increase of 1,000,000 pounds in this year's production." The firm also advises the purchase of Amalgamated, Quincy, Adventure and United States Mining.

Quincy and Adventure. Emery & Tucker, in position to be exceptionally well informed on Quincy mining matters say the estimated cost of Quincy copper, including construction, this year is about 8 1/2 cents, against 9 1/2 cents last year, and that Quincy should earn \$5 a share this year. They also said: "The management of this property is a valuable asset." Of Adventure, a sort of Quincy, Jr., they say the three kinds of stamps should go into commission during July and stamp 1,500 tons of rock daily; that the mine is opened for three years' stopping; that the present output should be some thirty pounds mineral to the ton and 1 1/4 per cent fine copper, to cost not far from 9 cents.

Lawson Supports Tamarack. On the failure to act on Tamarack and Osceola dividends recently, Mr. Lawson issued this bulletin: "It is a wise old saw, 'Don't conclude a tree is barren because there is no fruit on the ground.' Stockholders of both Osceola and Tamarack should not at the present time worry about their dividends, even though the directors meet a number of times without declaring them. To those who know the most about the properties they look to be excellent purchases. We will pay \$1 a share for the right to call any part of 5,000 shares of Tamarack at \$200 for sixty days. There was evidence that Mr. Lawson spoke by action, as well as word, and supported the shares in the market.

C. & H. Is Experimenting. The Calumet & Hecla company is experimenting with electric lights in the man-cars in No. 2 shaft at the Calumet branch and thus far the tests have been successful. In a very short time it is likely that candles will be done away with on the man-cars in all shafts and electric lights used, which would be a decided innovation. The big mining company uses electricity to much advantage, having electric pumps and using the third for motive power, besides the new stamp mill at Lake Linden will be run entirely by electricity.

A Find of Copper. Under the floors of the old Phoenix great mill which is being dismantled a stamp deal of copper was found caked together between the timbers of the foundation, where it had worked its way through while the mill was in operation. The copper will be worked over again. That accumulation of copper could never happen with modern stamp mill machinery. The find is a valuable one.

Cut Down Osceola's Force. Today all work in the shafts, Nos. 3 and 4, on the Osceola lode of the Osceola will stop and a small number of men will be thrown out of employment. Most of the men from the shafts will be transferred to the Kearsarge branch, where the energies of the company will be largely devoted in the future. No. 1 shaft at the North Kearsarge branch will soon be ready for production.

Copper Gossip. The Trimonant mill will not start until August 1. Franklin's No. 5 shaft has been repaired and hoisting will be resumed from it today. On account of the trouble at the shaft during which no rock was hoisted from it the Franklin product for May will be smaller than usual.

The work of sinking No. 2 shaft at the Rhode Island mill is progressing rapidly. The shaft is now down 700 feet and will be sunk 400 or 500 feet further. Extensive drifting will be done on the amygdaloid and another conglomerate pushed over to the Allouez clogment.

TO VOTE TOMORROW

SENATE WILL TAKE FINAL ACTION ON PHILIPPINE BILL.

DEBATE PRACTICALLY CONCLUDED

NICARAGUA CANAL MEASURE NEXT TO BE CALLED.

House Will Take Up Discussion of Anti-Anarchy Laws and Pacific Cable and Irrigation Questions.

Washington, June 1.—The senate will vote at 4 o'clock Tuesday on the bill providing for a government for the Philippines, and the entire intervening time will be devoted to short speeches on the bill.

The general understanding is that on Wednesday after the disposal of the Philippine bill, the Nicaragua canal bill will be called up and the debate will not be long. The Cuban reciprocity bill will not be discussed during the week, though it may be reported Tuesday or Wednesday.

The naval and District of Columbia appropriation bills, will probably be reported during the week.

During the week the house will probably act on the anti-anarchy, Pacific cable and the senate irrigation bills. The consideration of the anti-anarchy bill will begin tomorrow, but may not occupy more than two days. One day will be given to the government cable bill, the Philippines, and three to the irrigation bill.

CABINET QUILTS THIS WEEK.

French Ministry Goes Out of Office—Loubet Speaks for Peace.

Paris, June 1.—M. Loubet returned to Paris last week after an absolutely triumphant visit to Russia, where he appears to have scored a great personal success. During his formal intention to declare his collective resignation to him before the opening of parliament and not to bring up a political debate which could serve no good purpose, as on the one hand, the ministerial record has been frequently approved by the old chamber, and, on the other hand, the cabinet does not desire to enter into any contract for the future with the new chamber.

Out of deference to the president and in obedience to his request the resignation of the cabinet will not be announced officially till during the course of next week, and the chamber, which meets on Sunday will have ample time to select its officials and make preparations for the sessions. It appears likely that Mr. Bourgeois will be elected to the presidency of the chamber of deputies.

KING EDWARD DEFIED.

Salisbury Refuses His Request to Re-occupy a Man for Peacemaker.

London, June 1.—Those in touch with royal circles are busy gossiping about the reported rift between Lord Salisbury and King Edward, which is said to have arisen on account of the king's demand that the premier recommend Sir Ernest Cassel for a peerage. Last year the same request met with a refusal. This year it was again urged by the king on the ground of Sir Ernest's magnificent gift of £200,000 toward the cure of consumption. The premier absolutely refused to countenance the suggestion, and at the end of a stormy interview which occurred the day the state dinner was held at Buckingham palace, Lord Salisbury remarked: "Well, sir, I suppose I had better leave my place at tonight's banquet vacant, to which the king is said to have replied: "Yes, I think you had," and stalked out of the room. Since then, according to court gossip, King Edward and his aged prime minister have scarcely been on speaking terms.

REBEL LEADER ASSASSINATED.

Gen. Obegon, Panama Revolutionary, Done to Death by Own Soldiers.

Panama, June 1.—The government which left here recently returned last night. General Salazar says they captured about twenty sailing vessels and sunk thirty more at Pijway. General Obegon, an important revolutionary leader, was assassinated by the soldiers of his own camp.

FUNERAL OF LI HUNG CHANG.

Body of Famous Chinese Diplomat Taken to Last Resting Place.

Peking, June 1.—The funeral procession of Li Hung Chang to Tung Cho yesterday was two miles long. The coffin was borne by sixty carriers and was covered with a gorgeous embroidered pall. Many eulogistic tablets were carried in the procession and numerous high officials followed in chairs.

A CORNER IN OATS.

Chicago, June 1.—James A. Patten, mayor of Evanston and a prominent board of trade operator, yesterday brought to a successful close the corner in May oats which has dominated the oats market since early last fall. The profits credited to Mr. Patten on the deal are estimated at nearly \$1,000,000.

MANY FISHERMEN DROWNED.

Gale Catches Japanese Fishing Fleet With Severe Fatalities.

Victoria, B. C., June 1.—News has been received from Hokkaido of the drowning of 300 Japanese fishermen in a gale early in May off that coast. Off the islands of Touri and Yokishiri seventy fishing boats were lost and 220 men were drowned. From other districts wrecks are reported and the loss of life is great.

KAISER TO PLEASE POPE.

Despite Opposition He Will Establish a Cathedral at Strassburg.

Strassburg, June 1.—Baron Von Hertling has gone to Rome as the kaiser's special ambassador to complete arrangements for the establishment of a Catholic cathedral at this university—this despite the violent opposition of Professor Mommsen and other noted scientists. The kaiser says he will be only too glad to fulfill the pope's wishes in his old age.

GERMANS DECLARED DEAD.

Done to Sequester Property of Kin Living in America.

Berlin, June 1.—The Official Gazette declared the following German-Americans dead in order to sequester their inheritance: Christian, Catherine, Christine and Marguerite Schneider; also Wilhelmina, Gottlieb, Charlotte and Marguerite Elizabeth Schneider and their kith and kin, all hailing from Ottenthausen and emigrated to the United States, where they are supposed to live now.

A FAREWELL DINNER.

French Envoys Entertain on Eve of Their Departure.

Boston, June 1.—A dinner was given this afternoon by the French delegation on board the Gaulois which left for Lisbon this evening. It was attended by a special representative of the president and a number of prominent people. Felicitous speeches were made. When the Gaulois steamed out of the harbor accompanied by the Kearsarge and Olympia, she fired the national salute, which was returned by the Olympia.

WORST CORRUPTION KNOWN.

St. Louis Grand Jury Says Equal of Conditions Has Never Been Known.

St. Louis, Mo., June 1.—The April grand jury, which has been investigating municipal corruption, with the assistance of Circuit Attorney Joseph W. Polk, has made its final report to Judge Douglas. The report says that "while there may have been corruption in other cities as great as we have here, yet in no place in the world and at no time known to history has so much official corruption been uncovered."

"If the affairs of St. Louis had been properly administered for the past fifteen years, and if all officials had been honest, there would today be enough money in the treasury to put public buildings in repair, pave streets that are now unpaved, make sewers that are now unmade and build new buildings so much needed. It is in evidence before us that a former collector of the city of St. Louis, who was afterward mayor, received interest on public funds for his own private account. The sum so received was something over \$15,000, which with interest to date would amount to about \$20,000. Any possible criminal charge arising out of this condition has been barred by the statute of limitation."

Late Saturday afternoon indictments were returned against the following, who had already been arrested on bench warrants and released on bond: Fred W. Ziegenheim, secretary to former Mayor Ziegenheim; ex-Speaker of the House of Delegates Charles F. Kelley, Councilman Louis Schnell and Delegate Charles L. Geraghty.

NO AMERICAN TURNBUND ENDS.

Monominee, Mich., June 1.—The North American turnbund closed today to meet in Milwaukee next year. The biennial fest will be held in Mayville next year. The bund decided not to admit women to membership.

HOLD THE ISLANDS

PHILIPPINES MUST BE RETAINED BY U. S. SAYS BUENACAMINO.

STATEMENT MADE BY A FILIPINO

ASKS THAT NATIVES BE RECOGNIZED AS AMERICANS.

Hostility of Friars in the Archipelago to This Country Is Being Actively Fostered and Is Very Evident.

Washington, June 1.—Felipe Buenacamin, formerly secretary of state in the cabinet of Aguinaldo, was heard yesterday for the first time since his arrival by the house committee on insular affairs. Senor Buenacamin is a type of the best class of Filipino, about fifty years old, of dignified bearing, his dark hair just beginning to turn gray. He was accompanied by two other native Filipinos and by an interpreter, Frank L. Joannin, of the insular branch of the war department.

Chairman Cooper introduced the distinguished Filipino to the members of the committee, stating that he was a member of Aguinaldo's cabinet and had come direct from the Philippine islands. Mr. Cooper asked Senor Buenacamin why he had come to the United States.

In response the witness arose and, in measured terms, made a statement, speaking in the native tongue. His statement was followed with the closest interest by members of the committee. He said he was here representing the federal party and the influential elements of the insurgents and the Kalippunan society.

Americans or Filipinos?

"We would like to know what we are," he said, with emphasis. "Are we Americans or are we Filipinos? That is the question impressed upon me by the federal party and by the Filipino people."

He approved the plan of legislative assembly of the Filipino people. "But," said he, "do not call it a Filipino assembly; let the members meet as Americans and let the assembly be American."

As showing his authority, Senor Buenacamin produced a large photograph showing fifty or more Filipino leaders with himself in the center, and a large American shield above them. He also said that he spoke such insurgent leaders as General Trias and the entire general staff of General Malvar and he presented a statement from General Trias indicative of this attitude.

For Liberal Government.

"If we are to become American citizens," he proceeded, "it will be a great achievement. Our desire is to secure a just and liberal government. If congress does not grant citizenship it has not the right, but it would be responsible for the future, for we have submitted unconditionally to the will of congress."

Senor Buenacamin related the extent of the work done by the Philippine commission. He spoke of the many schools and the improved educational methods, the Filipino families not longer finding it necessary to send their children to Manila, as the local schools were ample. Instead of 1,200 American teachers, he said, there should be 6,000 and the salaries should be doubled in order to secure the best material.

Hostility of Friars Evident.

Speaking of education, he said the hostility of the friars to the American government was evident. On Palm Sunday, he asserted, the friars had the people in the confessional that cholera existed only in the minds of the Americans for the reason, he said, that the friars desired the cholera to spread in order that their fees for various attendance and ceremonies might be increased.

BELONGED TO SUICIDE CLUB.

Chicago, June 1.—A letter in the possession of L. Wachman, the traveling salesman who suicided in a Clark street saloon today, leads to the belief that he was a member of the New York suicide club.

BROKE FIVE-MILE RECORD.

Newark, N. J., June 1.—M. L. Hurley of New York, broke the world's record for the five-mile handicap bicycle race, going in 11:19.15. The former record was 11:34.45.

TODAY'S WEATHER.

Washington, June 1.—The following is the weather bureau's forecast for Upper Michigan: Showers Monday. Cooler in the northern portion. Tuesday, showers; fresh east to south winds.

NEGRO TO BECOME A PRIEST.

Second Black to Be Given Catholic Orders in America to Be Ordained.

Baltimore, June 1.—The June ordinations at the cathedral, which will take place June 21, will have an added interest from the fact that the second colored man ever ordained to the Catholic priesthood in this country will receive holy orders on that day at the hands of Cardinal Gibbons. The colored candidate is the Rev. J. Harry Dorsey. The first colored man ordained in this country was the Rev. C. R. Uncles. Father Uncles is now stationed in Delaware. Another colored priest, Father Totton, who died a few years ago in Chicago from the effects of the heat, was ordained abroad.

FRANCE HONORS AMERICANS.

Makes Sac. Peire, Col. Bingham and Rodgers Members Legion.

Washington, June 1.—The government of France has bestowed upon Assistant Secretary Peire, Colonel Bingham and Commander Rodgers the decorations of the Legion of Honor. These gentlemen constituted the committee appointed by the president to receive and entertain the Roebambeau visitors. Mr. Peire is made a commander and Colonel Bingham and Commander Rodgers are designated as officers.

FIND FELDSPAR NEAR WAUSAU.

Full Commercial Value of Deposit Has Not Yet Been Determined.

Madison, Wis., June 1.—State Geologist S. Weidman has made a report on a deposit of feldspar discovered by him near Wausau while engaged in carrying out an investigation of the geology of central Wisconsin. In 1899 27,000 tons of the mineral were mined, the value of which ranged from \$3 to \$6 per ton. The feldspar near Wausau is present in large quantities, and in veins so large that it can be readily mined and is favorably situated for transportation. The full commercial value of the deposits, however, can only be determined by a thorough test.

PURCHASE OF WHEAT ADVISED.

Good Profits to Be Made on the Long Side Says Laidley & Co.

W. H. Laidley & Co. said of Saturday's Chicago grain markets: "It looks tonight as if wheat had no bottom price, but we believe the market is very much oversold. The pressure today was entirely from shorts, and we would prefer the buying side, as the statistics favor it. The close tonight—72 3/4—is at the low price for the last few months, and if comparisons are made with other crops we think that wheat should be higher. The visible on Monday promises to be at least two millions under tonight. For three years, June has been one of increasing values and while we feel somewhat bearish, we think there are good profits on long wheat within the next few days."

WHERE PUPILS "RUN" A SCHOOL.

Said a critical visitor in an upper west side schoolhouse the other day: "I have seen as many different forms of school government as there are schools in this city, but the one I liked best was that which forcibly reminded me of the government of an American and unquestionably capable of self-government."

"In this school," he continued, "the boys are made to feel that they have a direct interest in all the property. I am told it has taken several years to bring out this feeling among the boys, but now that it is in the air there is one upon the rascal who dares even as much as make a lead pencil mark upon the wall. And what is most to the point is that the 'woe' is not meted out by the teacher or principal, but by the fellow-pupils of the offender."

"This school, by the way, is pointed out as a marvel in that it has stood the test of four years' use, while to the visitor it gives the impression of having been just opened. From the janitor to the principal all the officials are so proud of their credit for these splendid conditions. In the words of one of the teachers, the system echoes the sentiment of Lincoln's Gettysburg speech: "Government of the people, by the people, and for the people shall not perish from the earth."

"Self-government can surely be made a success in schools as well as in nations."—New York Times.

DISCIPLINE AMONG ANTS.

The region of the Amazon is overrun by an interesting species of ants known as saubas. They are represented as the curse of the country because of their social and military organization. Some observations upon the discipline maintained by them are made by C. Barrington Brown. We are greatly amused by a singular struggle going on between a soldier ant and his working fellows at the mouth of the underground nest. Some eight or ten of the workers clung to his legs and antennae and tried to drag him back as he endeavored to come out of the hole. Although he was furnished with huge mandibles he did not lose his temper nor try to bite them, and it was evident that, although they detained him by force, they never nipped him hard. During the struggle they allowed two or three other soldiers to saunter out past them and go mouning by them.

REED'S SCATHING TONGUE.

Congressman Steels, of Indiana, said that the meanest thing he ever heard of anybody in congress was Speaker Reed's remark about Deliver, of Iowa. The Maine man and some others were talking about candidates for vice president, and Reed said: "And there's Deliver, too. Now, Deliver is a vice presidential impossibility."

CHICAGO GRAIN MARKETS.

Features of the Day in the Wheat, Corn and Oats Pits.

Chicago, June 1.—Wheat was fairly active and averaged lower yesterday. July closing a fraction lower and September 3/8 lower than Thursday. The trade was mainly local and the temper was rather bearish. Smaller Argentine receipts, firm cables, reports of too much rain in the southwest were among the early strengthening influences. The early feature was the liberal buying of the elevator and selling of September by the elevator interests. The crop advances as well as the weather in the northwest were very favorable.

The corn trade was moderately active and all local, the close showing a loss of 1/2 @ 1/4. The cables were fairly steady and the receipts larger than expected. The Argentine shipments were liberal. The country offerings were small. The traders went "long" early, and in trading to liquidate later they broke the price.

Oats were excited and irregular. May was the center of animation. The latter option had every appearance of a "squeeze," being controlled by one man, who started it at 40, the closing being at 49 1/4. It is believed the previous figures on the crop. The new crop figures were heavy early, in sympathy with corn and fine weather. The prices receded, closing with a net loss of 1/8 @ 1/4. December losing most.

The leading futures ranged as follows: July wheat, 72 3/4; highest, 72 3/4; lowest, 71 1/2; closed, 72 3/4. July corn opened at 62 1/4; highest, 63 1/4; lowest, 61 1/4; closed, 61 3/4. July oats opened at 36 1/2; highest, 37; lowest, 36 1/4; closed, 36 1/2.

For three years, June has been one of increasing values and while we feel somewhat bearish, we think there are good profits on long wheat within the next few days."

"Corn opened lower, and it seemed as if the bull party were trying to dispose of their long holdings. The supplies are so very meager that we believe in much higher prices and think corn should be bought on all recessions."

"The Max deal on oats culminated today, and Patten won out exactly as he stated he would. We would prefer to be short July, as we think the prices are too high."

Said a critical visitor in an upper west side schoolhouse the other day: "I have seen as many different forms of school government as there are schools in this city, but the one I liked best was that which forcibly reminded me of the government of an American and unquestionably capable of self-government."

SEES AMERICA IN BIG WAR.

Man Who Says He Predicted McKinley's Death Has Another Vision.

Duluth, Minn., June 1.—Dr. Ecker of this city, who claims to have predicted the assassination of McKinley soon after his election the second time, writes to President Roosevelt of a spirit vision he has had foretelling war soon between America and the powers.

TEACHERS MAY NOT DANCE.

School Board of Florence, Wis., Says Gayety Spoils Work.

Iron Mountain, Mich., June 1.—The school board of Florence, Wis., across the line from here, has declared a ban on dancing. Hereafter the teachers in the town schools will not be permitted to attend dances except on nights preceding holidays or Saturdays. This has been a condition of employment and is being incorporated in the contracts. It is claimed that dancing by the teachers has in the past badly interfered with the school work.

WANTS WAR IN MINDANAO.

Colonel Baldwin Says Defiant Natives Must Be Killed.

Manila, June 1.—Colonel Frank D. Baldwin of the Fourth United States Infantry has telegraphed to Brigadier General George W. Davis, in command of the United States troops in the island of Mindanao, that he does not expect to establish satisfactory peace conditions in the Lake Lanao district until the defiant element is wiped out. The natives pretending to be friendly are urging that this be done, as their own lives are in jeopardy, "which" the colonel adds, "we are in the highest sense under obligations to protect. The defiant element," continues Colonel Baldwin, "respects nothing but power and the sword. They will destroy human souls destroyed themselves." General Davis replied that to meet the emergency in the way suggested would necessitate the capture of every fort which now admits American troops as friends, which was forbidden under existing orders.

MORE LIGHT ON FORD TRAGEDY.

Malcolm Said to Have Demanded \$25,000 Before the Shooting.

New York, June 1.—In connection with the Ford tragedy which occurred recently in this city a story, hitherto unpublished, is in circulation regarding the cause of the shooting which cost the lives of the author, Paul Leicester Ford, and his brother Malcolm, the famous athlete. It is to the effect that Malcolm, who was not provided for in his father's will, notified Paul a week before the shooting that he must have \$25,000, which he said was his due because he signed a waiver permitting the probating of the will. He is said to have declared he needed the money badly and to have become incensed when Paul replied that he did not have the sum on hand, adding that he should consult other members of the family. Malcolm is said to have replied that one of the heirs had kept the agreement, but that he would not consult the others, and departed with the declaration that he would return a week hence for the money, failing to receive which he should resort to desperate measures.

Here is a story which the late Congressman Amos J. Cummings was fond of telling: A member of congress was going home late one night when he met a young man who was satisfactorily "loaded." The congressman happened to know where the young man lived, and kindly guided him home. The congressman had no sooner pulled the bell than the door was thrown wide open and a tall, husky woman appeared. She never said a word, but grabbed the young man by the collar and shook him till she fairly loosened his teeth; then into the hall she took him and slammed the door.

The congressman was descending the steps when the door was thrown open a second time, and his friend flew out of it as if thrown by a catapult. At the foot of the stairs he landed, and the congressman picked him up. Very much frightened and considerably subdued, the young man gasped: "We don't live here; we moved last week."

Rev. Father Shea was born in January, 1872, in Marquette, where he passed his childhood. He entered the regular work of the church in Hancock as assistant priest. About a year later he went to Quinnesec, where he had charge of a parish. A little over three years ago he went to Ontonagon and started upon his labors as priest of the Holy Family church...

His life was cut short just after he had commenced a career which promised much for the elevation of mankind, but his memory lives and his kind deeds and actions in Ontonagon will be cherished for years. He made that church a place of his name, a holy family church, and no better tribute could be paid to his memory than the genuine grief which has been so universally apparent since his demise...

PLAYED TO BIG BUSINESS.

"When Reuben Comes to Town" played to a big house Saturday evening. The piece is a musical comedy, abounding in catchy songs and presented by a fair company which carries a chorus good to look at. The plot centers around a visit to New York by Uncle Reuben and presents many laughable situations. Some of the specialties were good, and of these one thoroughly enjoyed was the topical ditty, "Just Like a Scene from a Play," in which familiar stage situations were given a humorous and pantomime illustration after each verse of the song. Miss Sully's song, "There's No Love Like the Old," was rendered with excellent taste and feeling and with an unusually sweet voice. With the exception of one or two members, the cast is only mediocre but the costuming and stage settings were fairly good and the audience seemed pleased with the production despite that there were some lines which if eliminated would have better suited the more refined portion of the house.

The following letter from Robert R. Watts, of Salem, Mo., is instructive: "I have been troubled with kidney disease for the last five years. CITY BREVITIES.

Today's weather: Partly cloudy with occasional showers. Yesterday's temperature: 7 a. m., 62 degrees; noon, 64 degrees; 7 p. m., 70 degrees. Maximum, 70 degrees; minimum, 56 degrees.

Miss Leona Byrne has gone to Chicago to make a visit with relatives. Mrs. Julia and Miss Nettie Jeffs were here from Rockland Saturday. Dr. and Mrs. Stewart of Lake Nebagamon, Wis., are Marquette visitors. Tom Kilby, manager for Laidley & Co. at the Soo, spent Sunday at his old home here.

Mrs. M. E. Asire has gone to Minneapolis to spend ten days at the home of Mr. Asire's sister, Mrs. Mead. A meeting of the common council will be held this evening. It is the regular monthly session. William Stewart of "San Antonio, Tex.," was registered at the Hotel Marquette yesterday. Thomas E. Kelly of Menominee and H. G. Becker of Escanaba were numbered among the visitors in the city yesterday.

The Messrs Anna M. Chandler and Susie Heffernan returned to Escanaba last evening. They had been at their old home here since Friday evening. The park and cemetery commission will hold a session this morning at 10 o'clock at the office of the secretary in the Harbor Block.

Professor Waldo, of the Normal, left last evening for Kalamazoo on business pertaining to the school. He will be absent from the city for about a week. The alumni society of the Marquette high school is called to meet at the city hall at 7:30 o'clock Tuesday evening. For important reasons, a large attendance is hoped for.

Numbered among Saturday's visitors were President T. G. Sullivan and son of Munising, A. J. Hughtitt of Escanaba, A. J. Doser of Grand Marais and Robert Mokler of St. Ignace.

Frank Moore left last evening for Chicago, where he will be joined today by L. M. Spencer and with him will leave for San Francisco to represent Alameda Temple at the imperial council of Shriner's.

Bishop Eis went to Hancock Saturday afternoon, and yesterday morning at St. Patrick's church confirmed a class of 110 children. It was the first visit of the bishop to Hancock this year.

Architect John Chubb left last evening for Chicago, after having spent over a week in the city. Mr. Chubb inspected the site on Front street where Werner Bros. propose to erect their new business block, and he will submit preliminary plans for the structure in a short time.

Among those in the city Saturday to attend the funeral of the late Father Shea were Charles Pindley, Robert Mooney and wife, the Misses E. Nettie Herrington and Kate Allen, Mr. and Mrs. John Allen, John Allen, Jr., John Haver and C. H. O'Rourke of Ontonagon and M. J. McManis of Baraga.

The Brotherhood of Firemen's excursion to the Soo yesterday was a big success. When the train left here in the morning it had on board over two hundred persons, 150 of whom were Marquette people. The party arrived here on the return about 1:30 this morning.

THE PEOPLE'S FAVORITE SHOE STORE!

This is the truth about our Shoe Room. The reason is, the lowest of all prices are marked on our shoes. A first proof of this is in the following simple description of kinds and in the accompanying prices. The statement will be absolutely clinched if you will come and see these shoes and compare their prices with those of any other dealers in this city.

Ishpeming and its Environs.

A SWELL TURNOUT.

Was That of the Ishpeming Fire Department and City Band Yesterday.

The members of the Ishpeming fire department were out yesterday in their new uniforms for the first time. The firemen intended turning out with the Grand Army on Memorial Day, but the suits did not arrive until the day before and it was quite impossible to have them distributed among the members.

The firemen are greatly pleased with the suits. They are a dark blue, double-breasted coat, with brass buttons. The trousers are striped with black braid and the caps are lettered in gold. The members of the Ishpeming City band also wore their new suits yesterday, making it the noblest turnout the firemen have had in years.

The department was represented in the parade by its full membership. In the morning the boys attended divine services at the Presbyterian church, where a suitable sermon was preached by Rev. M. M. Allen, the pastor. The church was crowded to the doors, but the seats in front were held in reserve for the firemen.

Immediately after dinner all the members were again on hand to visit the Ishpeming cemeteries, where the graves of departed firemen were decorated with cut flowers. Those whose bodies lie there are W. O. Tislov, Martin McDonough, Will Kearney, John Jones, Jr., Ole Aagaard, A. W. Gibbs and John Quinlan. Many people visited the cemeteries, taking advantage of the beautiful weather.

At the conclusion of the ceremonies the firemen and band went to Negaunee, where they were joined by the Negaunee firemen and their band. The procession attracted many people to the streets and by the time the firemen arrived at their destination a great many had assembled at the burial grounds.

In Negaunee the Ishpeming firemen placed flowers upon the grave of Michael Hughes, who is the only member of the local organization buried there.

TO THE SONS' REUNION.

Arrangements Being Made to Attend Annual Celebration at Hancock.

The annual reunion of the members of the Sons of St. George society of Michigan promises to be unusually well attended by the Marquette county people. The grand lodge will meet at Hancock, July 17, and two days later the celebration will take place.

At the last regular meeting of Sir Humphrey Davey lodge of this city a committee was named to complete arrangements for the trip. It is understood that the society will turn out in a body and it is likely that the other branches of the order in this city and Negaunee will also attend the reunion in a body. It is estimated that no less than eight hundred persons, including men, women and their friends, will go from this city and Negaunee. The committee was instructed to ascertain what rates of fare will be given by the South Shore people and how long tickets will be good. Those comprising the committee are Harold Nichols, John T. Miners and Edward Corey.

The representatives from the local society to the grand lodge meeting will go up prepared to advocate a revision of the laws whereby the larger lodges will be given better representation. There are 348 members in good standing in Sir Humphrey Davey lodge. One delegate, this is where the injustice is done the larger lodges. It is expected that the delegates from all the larger lodges will fall in with Sir Humphrey Davey's delegates, as it will be to their interest to have a larger number of representatives.

Following are the officers of the society elected at the last regular meeting: Worthy past president, Henry Tallon; worthy president, Henry Phillips; vice president, Joseph Hodgson; treasurer, John T. Bennetts; recording secretary, Thomas Eddy; assistant secretary, John T. Miners; messengers, Samuel Jewell, trustees, John H. Williams and James H. Lavery; alternates, John H. Williams and John F. Bennetts.

GREAT ROMANTIC DRAMA.

Katherine Willard, in Edward C. White's highly successful romantic drama, "The Power Behind the Throne," is underlined for an early appearance in this city. The success of this play the past two seasons has been phenomenal. Many return dates were played, and on nearly every occasion to house capacity. The production of "The Power Behind the Throne" is costly and elaborate, and it is promised that the play will be one of the most satisfactory performances ever given in this city. Miss Willard is one of the coming great actresses in America. She has the physique, training and, above all, the temperament essential to success. Miss Willard will appear at the Ishpeming Opera House next Friday night, June 6, supported by the most excellent company that has been presenting the play the past two seasons.

WILL MANAGE BAKERY.

Christ Presthus, who has been in the employ of F. Braastad & Co. for the past fifteen years, recently resigned his place with that firm and has taken the management of the Nelson bakery, at the corner of Second and Bank streets. It is his intention to make a number of improvements at the store as well as in the bakery and he hopes to build up a much better business than has been done at that stand for some years past. Mr. Presthus is thoroughly familiar with the bakery business. He has had charge of Braastad's bakery department for several years. A larger line of goods than has heretofore been carried will be handled and a stock of the confectionery will also be put in.

Charles Holmgren, who was employed as clerk in S. Johnson & Co.'s grocery store for some years, takes the wagon from the Nelson bakery and he will visit different parts of the city at regular intervals.

INCENDIARY BLAZE.

The fire department was called out Friday night shortly before 11 o'clock to extinguish a blaze in one of the coal sheds of the Consolidated Fuel & Lumber company, located some distance east of the corporation's headquarters. That the blaze was of incendiary origin was quite evident from the manner in which it was started. The match was applied to one of the outside walls, and the blaze was detected before it had much of a start. The firemen extinguished it before much damage was done.

SAVED FROM AN AWFUL FATE.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa. "I was so low after six months of severe sickness, caused by Hay Fever and Asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was completely cured." For despatch Throat and Lung Diseases it is the safest cure in the world, and is infallible for Coughs, Colds and Bronchial Affections. Guaranteed bottles 50c and \$1.00. Trial bottles free at The Stafford Drug Co.

ISHPEMING IN BRIEF.

Miss Kate Carey of Marquette visited Ishpeming friends yesterday.

Elmer E. Clark visited relatives in the city Saturday and yesterday.

Dr. C. D. Beech, wife and daughter, were down from Beacon Saturday.

G. Marchand and wife of Beacon were visitors in Ishpeming Saturday and yesterday.

C. J. Byrnes and wife spent Saturday and Sunday in Chicago. They will be home within the next few days.

Dr. C. M. Leonard spent the latter part of the week at Ironwood. He will be home before the end of this week.

Miss Bessie R. Oliver of Calumet, who spent the greater part of last week with friends in this city, returned home Saturday.

Miss B. Sedgwick is spending a few days with her brother Al. and his family at Ironwood. She will enjoy an outing of a week or so before returning home.

Mrs. L. Vanchestine, the tailoress, is preparing to turn out children's dresses, ladies' shirt waists, etc. She is located at her old stand, corner of High and Second streets.

The families of Dr. N. D. Keane, J. M. Hayden and E. C. Cooley and Mrs. Thomas Walters and her two sons, Mrs. H. E. Heyn and Mrs. William Sedgwick, spent Memorial Day at the Country club. The outing was a pleasant one, as the weather was perfect.

A couple of young ladies of the city who have had many years experience in the dressmaking business are prepared to take orders in dressmaking or ladies' tailoring. They are located at 509 North First street, where they will be pleased to receive callers. Their prices will be reasonable.

St. John's church has not held as large a crowd in many months as assembled there yesterday morning to witness the class of over ninety children receive their first communion. The children will be confirmed next Sunday afternoon at 3 o'clock by Bishop Eis of Marquette.

Al. Carlson, a young man who spent his boyhood days in this city, spent the latter part of last week here. He has been at Calumet for a few years past, following the diamond drill business. He left on Saturday for Arizona, where he enters the employ of the Sullivan Machinery company of Chicago. His wife remains here with his folks for the present.

C. R. Tuttle and N. A. Bloom, assistant general manager and special agent, respectively, of the Continental Fire Insurance company, spent the latter part of the week in Ishpeming. They took in the Ishpeming-Negaunee baseball game at the park Friday afternoon and enjoyed the sport immensely. They said they had more real fun than they had ever had before at a ball game.

Engineer Michael Cashen of the Ishpeming fire department is having no little bother with alarm bell wires these days. It appears that a number of the firemen's homes are undergoing improvements, such as papering, etc., and the workmen have not been careful when laboring around the wires. The circuits have been grounded a number of times during the past week, and Mike has kept almost constantly on the move locating and adjusting the trouble.

BAD TIMES PROMISED.

King Edward and Emperor William Have Trouble in Store.

For this year, astrologers have made some interesting predictions with regard to the rulers of Europe. For instance, of King Edward, one of them says the planetary influence are unfavorable for his health, and he adds: "Let great care be taken of his majesty's health and person." A quiet and uneventful year is said to be shadowed for Queen Alexandra, and also for the prince of Wales; and that he must also take great care of his health.

According to star readers Kaiser William will meet with some grave misfortune during the next three years. To the czar a quiet year is promised; but on the other hand, a great calamity is said to be impending over the emperor of Austria. "The sand in the hour-glass," says one writer, "has nearly run out, and, unfortunately, with the demise of the emperor will come a great revolution in Europe." To King Alfonso of Spain and to King George of Greece the coming year, it is claimed, will bring little good or evil fortune. Some disaster, on the other hand, is said to menace the sultan of Turkey. "In the sultan's horoscope, the sun is about to meet the malefic rays of Jupiter and Saturn, and hence nothing in the shape of war, revolution, or assassination is unlikely."

Rheumatism

The liniment bottle and flannel strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old Rheumatism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with acrid, irritating matter that settles in the joints, muscles and nerves, and liniments and oils nor nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with liniments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are infected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and no remedy does this so thoroughly and promptly as S. S. S. It neutralizes the acids and sends a stream of rich, strong blood to the affected parts, and the sufferer obtains happy relief from the torturing pains.

SSS

S. S. S. contains no potash or other mineral, but is a perfect vegetable blood purifier and most exhilarating tonic. Our physicians will advise, without charge, all who write about their case, and we will send free our special book on Rheumatism and its treatment.

MAITLAND A CANDIDATE.

The Senator has Consented to Enter Race for Lieutenant Governorship.

A few weeks ago The Mining Journal stated in the course of an interview with T. M. Wells of this city, who is in the employ of the state tax commission, that Hon. Alexander Maitland of Negaunee had been prominently mentioned by leaders of the Republican party in the lower peninsula in connection with the nomination for lieutenant governor. Some time before the interview was published friends of the senator in the lower part of the state had written him, urging him to announce himself a candidate for the office. Mr. Maitland did not favor the idea at that time, but since then so many have asked him to allow his name to go before the convention that he has finally consented to do so.

Mr. Maitland has many friends in the lower peninsula who will join his army of supporters in the upper peninsula in asking the nomination for him. His record as senator of his district was in every way creditable. As senator he discharged the duties of the office acceptably, showing himself a faithful worker in the interest of his constituents and the state at large. It is because of his good work at the state capital that his friends are now laboring to secure his nomination for lieutenant governor.

In a talk with The Mining Journal representative at Negaunee, Mr. Maitland said that he would not care to go into the field for the office if any other Marquette county man is a candidate. He has not heard of anyone in the county who aspires to the office, and with the united support of the delegates from this county he would enter for the contest in the hope of winning out. Mr. Maitland has not been anxious to enter the race, as he says he thinks he has already been sufficiently honored by the Republicans of the state, and particularly of this district.

The lower peninsula Republicans practically concede the lieutenant governorship to the upper peninsula. They will work for a man from this part of the state provided he is one who would fill the office creditably. So far as The Mining Journal can judge, Mr. Maitland is just the man the lower peninsula people want.

There is perhaps no man in the upper peninsula more widely known throughout the state than is Mr. Maitland. He spent the greater part of his life here and is a business man of unquestioned ability. During his early career in this mining field he worked as an assistant to a surveyor. He advanced in his work until he was placed at the head of one of the most important mining corporations doing business on the range. He is at this time a very busy man and should be nominated and elected to the lieutenant governorship his responsibilities will be considerably increased.

There are two other upper peninsula men out for the nomination for lieutenant governor on the Republican ticket. These are S. N. Dutcher, a prominent attorney and banker of Newberry, and Mr. Chandler of Sault Ste. Marie.

THAT BALL GAME.

Local fans who have taken in ball games here for the past twenty years were very much disgusted with the outcome of Friday's contest between the Espenping and Negaunee teams. The fans who cannot blame themselves should be taken by the shoulder and marched to the gate. No one has any fault to find with the conduct of the players, but the "fresh" young men who go out looking for trouble should be taught a lesson.

There is no apparent reason why there should be such a bitter feeling between the fans of the two cities when it comes to baseball and athletics. If it is proven that either city has a better team than the other then the losers should be satisfied. If baseball cannot be conducted without "scraps" by the fellows who imagine they have muscle the officers should be invited to take a hand in the mixups.

The game Friday was the first that the leading teams of the two cities have had in seven years. However, it is hoped that it will not be such an interval before the two cities meet again. There is good material in both teams and there is no sense in the fans losing their heads when the game fails to go their way.

DAN TAYLOR IN A BAD WAY.

C. W. Taylor left Saturday evening for Chicago in response to a letter from his son Dan, who is confined in a hospital there. Up to a few days ago the physicians at the hospital had an idea they could bring Dan around all right without another operation. He had been in bed most of the time since his arrival there until early this week, when he got up and walked around a couple of days. It was then discovered that another operation will be necessary. Dan wrote his folks that he is pretty well discouraged and he is afraid the operation will go hard with him. Mr. Taylor intends to remain with the young man at least a few days.

During the year or more Dan has been suffering from his trouble this is the first time he has lost heart. His many friends here hope he will come out all right.

VIRULENT CANCER CURED.

Startling proofs of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power; blood diseases, skin eruptions, ulcers and sores vanish. GETS RAISE OF SALARY.

The School Board Gives Superintendent Orr Schurtz an Advance of \$200.

At a meeting of the Negaunee school board held Thursday evening the salary of Orr Schurtz, superintendent of the schools, was advanced from \$1500 to \$1700 a year. The raise came as a surprise to the superintendent and for this reason he feels much pleased with the action of the board. The superintendent's work has been so thoroughly satisfactory that the members of the board considered him entitled to an advance. The schools have been ably managed under his direction and the board has had no fault to find during the past year. The teachers have also done their work well under Mr. Schurtz and this fact has been noticed by the board. Some four or five of the teachers were given an advance in salary. Exceptionally good work was largely responsible for the raise in pay they received.

The schools will close a week from next Thursday, the 13th. Soon after the closing the members of the board will visit the different buildings to ascertain what repairs are needed. Most of the buildings are in very fair repair, though new floors may be needed in some of the smaller schools. It is almost certain that one will have to go as the floor in the smaller school on the board may also find it necessary to put new floors in the Rolling Mill and Cambria mine buildings.

PAY YOUR WATER TAX.

There are several water takers who have not yet paid their taxes for the last quarter. As the time is well advanced in the second quarter of the year the superintendent of the water works thinks it is about time the delinquent ones come forward and settled their accounts. The items are small in most cases and it is quite annoying to the superintendent and clerk to have the accounts drag along. Drop in and pay up, otherwise the water supply may be discontinued some of these days.

READ IT IN HIS NEWSPAPER.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkszeitung. He knows that this paper aims to advertise the best in its columns and when he saw Chamberlain's Pain Balm advertised therein for lame back he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me, 'I feel better.' The pain is small in most cases and the entire contents of the bottle no longer pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery. This valuable liniment is for sale by The Stafford Drug Co.

LOCAL LACONICS.

Christ White shook hands with friends here Saturday. Captain John Thomas of the Princeton mine was a Negaunee visitor Saturday.

Miss Minnie Tourville came down from Lake Linden Friday on a few days' visit to her people. James Steele called on his patrons here Saturday in the interest of the dry goods house he represents.

Nick Crans, pitcher of the Negaunee baseball team, played with the Soo team at the Lock City yesterday. Rev. Charles Langner and several of the sisters of St. Paul's school attended the funeral of the late Father Shea at Marquette Saturday morning.

The early train on the Chicago & Northwestern line killed a cow near the Jackson bridge Saturday. The animal's head was taken off by the wheels.

Dr. J. H. Hudson's horse fell at the head of Iron street Friday morning just as a street car was approaching. The nag was slightly injured, though no damage resulted to the vehicle.

James A. Goodman left Saturday for Norway, where he will spend a few days visiting friends. His wife has been here for the past few weeks. They will both be home the latter part of the week.

A large number of Negaunee people visited the cemeteries yesterday during the time the firman of the two places were there. The parade of the fir laddies was witnessed by many of the townspeople.

The picnic given Friday at Cleveland Park by the Negaunee Orchestra band was a success. The dancing was continued until 11 o'clock that night and the attendance during the evening was much larger than in the afternoon.

Thomas Trathen left last evening for Chicago, where he will spend a few days closing contracts for "Midway" attractions for the firman's tournament. Tom has been in correspondence with amusement managers for some time past and he has just about closed a deal for all the attractions he will need.

BEEFSTEAK TOO DEAR.

A Ham Sandwich Was the Senator's Limit.

Representative Sulzer went down into the house restaurant the other day, rather undecided as to what he should order for his lunch. He sat down at a table, picked up a menu card and glanced over it, looked on the back cover and then threw it down, much as a man would do whose appetite was on a strike and who was endeavoring to devise some plan of arbitration.

"I really don't exactly know what I do want," he said, rather indifferently, to the colored individual who stood at the back of his chair. "Have one of dem nice pootahouse steaks, Mr. Sulzer," suggested the obsequious garcon.

"What?" exclaimed the New York representative. "George, you must mistake me for J. Pierpont Morgan, or a Standard Oil magnate. I'm a poor man; only a member of congress, and I can't afford to eat beefsteak. Besides, I only \$200 with me today, and I would very much dislike to have part of the bill for my lunch charged. No, George, just bring me a ham sandwich."—Washington Times.

TRAMPS SCORED \$2 A DAY.

That but one tramp in fifty-two wants to work or will take it when it is offered him, is the discovery that has been made recently by the police of Evanston, Ill., the stopping place for those who travel between Chicago and Milwaukee. Recently the Mark Manufacturing company asked the police to send over any tramps who wanted employment. Fifty-two tramps lodged in the station were told to go and get work at \$2.16 a day. Of these, four went to the mills and promised to go to work. They left, however, "to find a boarding place, and but one returned."—Chicago Record-Herald.

HOOD FARM AUCTION SALE OF JERSEYS AND BERKSHIRES.

Hood Farm, Lowell, Mass., is so well known to the readers of this paper that it is not necessary to go into details in regard to the high quality of the stock owned at that great breeding establishment. June 11 and 12, 1902, they will sell to the highest bidder 180 head of Jersey cattle and 125 Berkshire hogs. This is the greatest sale of the kind ever held in New England. There is such a large number and many of the calves are so young, that those who do not wish to pay the high prices usually brought by registered stock will be able to get some very desirable individuals at a great bargain. Every dairyman farmer can afford to get something to enrich his herd, either a bull, a heifer or a pig. It is the opportunity of a lifetime. Those who cannot go, but have friends who will attend should commission them to use their judgment in selecting something from these famous herds. The catalogue, which Hood Farm has published, gives a great deal of information to those interested in Jerseys and Berkshires, and it is a work of art. It will be sent to all who write for it.

OVER NEW ROUTE

TRAINS MAY SOON BE RUNNING FROM MUNISING.

VIA MARQUETTE & SOUTHEASTERN

WORK OF BALLASTING IS BEING RUSHED WITH VIGOR.

Officials Desirous of Inaugurating Passenger Service in Time for the Macabee Convention and This Likely Will Be Done.

If all goes well, the people of Munising will have the opportunity of soon reaching Marquette by rail without change of cars. July 1 has heretofore been considered as the earliest date on which through train service would be inaugurated via the Munising railway and the Marquette & Southeastern, but it is now announced that it is hoped to put the new route into commission even prior to June 10.

Efforts are being made to put the roadbed in such condition that trains may be run over it with comfort and safety by the time the Macabee convention meets here. A large force of men is being employed in the task, and the work of ballasting is being pushed with all vigor. Should this be sufficiently completed—and only bad weather, it is said, can delay it—excursion trains will be run to Marquette each morning while the great camp is in session, and will return to Munising in the evening. It is likely, also, that the through service will be extended to Ishpeming at the same time.

The officials will know in a few days now whether it will be possible to establish the service at the date at present intended, and definite announcement can be expected by the Munising people soon.

PUT IN YOUR KICKS.

Board of Review Will Meet Today for Six Days.

Commencing this morning the board of review will be in session at the council chamber and all property owners who think their property isn't assessed high enough will have the privilege of going before the board and "kicking" just as hard as they know how. However, it would be safe to bet that the board will not be approached by any such arguments. In the history of the city, it is said, there has been but one instance where a certain business man went before the board and stated that he did not think his stock of merchandise was assessed high enough. When the members of the board regained consciousness they boosted the

valuation of the gentleman's stock without raising any objection. But this is one case in five thousand. The other four thousand nine hundred and ninety-nine want to have their valuation cut down to the lowest point, and a little lower if it can be done. It seems to be a trait of human nature for a taxpayer to make out that he is poorer than Job's turkey when it comes to paying his taxes. Many people would about as soon throw their money in the bay as to pay it out in this way. They seem to forget that the city, county, schools, and state could not be run if it was not for the money raised by taxation. There are, of course, instances where one is justified in objecting to valuations placed upon his property through the carelessness of assessing officers, but if you find that your assessment is reasonably correct, don't grumble. And the board of review will rise up and bless you.

STEPHEN JOBE IS DEAD.

Wellknown Citizen Expired Last Evening After a Long Illness.

A telegram last evening brought the sad news that Stephen M. Jobe was no more, death late yesterday afternoon having brought to an end a long illness. The deceased was aged fifty-three, and for about forty years he had made his home here. He was a jovial and kindly old gentleman and was well and favorably known to Marquette people generally. For eleven years, following service on the South Shore road, he had been janitor of the First National bank, resigning that position about three years ago because of failing health. For some time after that he conducted the auctioneering and fruit stand now owned by Jas. Caine, but for the past year and a half he had been unable to follow a vocation of any kind. Mr. Jobe is survived by his wife and by two daughters—Mrs. Fred Price and Mrs. H. L. Longtime. He was a member of the Macabees, and the funeral will probably be held under their auspices.

Thomas G. Gillespie, residing at 726 Washington street, died at noon yesterday. He was aged forty-seven and is survived by his wife and three children and by one sister and two brothers. For the past two years he had been an employe of F. W. Reed & Co. Announcement of the funeral will be made later.

CONVICT VOSS PAROLED.

The next day after hearing from Ottawa county Governor Bliss paroled Henry Voss, convicted of breaking and entering a store in the night time, and sentenced from Ottawa county June 15, 1897, to ten years in the Marquette prison. The parole will take effect June 15, on which date the prisoner will have served one-half his sentence.

THIRD BODY RECOVERED.

Remains of Alvin Carlson Found at Michigamme Yesterday.

The news reached the city last evening that the body of one of the two Carlson brothers who were drowned in Lake Michigamme at the time the two Levine boys lost their lives last fall, had been recovered yesterday by a searching party. The body was that of Alvin, the younger boy, and makes the third found after a search almost constantly prosecuted since the quadruple fatality of seven months ago and after the expenditure of a large sum of money. The remains still remaining in the water are those of the other Carlson boy, John Hager went up on the late train last night to prepare for burial the body found yesterday.

SAW MILL VS. POWDER MILL.

The Republic team failed to put in an appearance yesterday and in consequence there was no game of ball between that aggregation and the South Ends, as had been advertised. Instead, the Dead River Mill and Powder Mill clubs met on the diamond at the new fair grounds, the contest resulting in a victory for the saw mill boys by the score of 28 to 19. The batteries were, for the Dead River Mill team, Desormier and Butler, and for the powder mill aggregation, Jarvis and John Schwartz. The saw mill players think they can trim the moulders and would like to arrange a contest with the Lake Shore Engine works team.

CAUGHT DEER IN THE LAKE.

Steve Richardson, residing on Hewitt avenue, near the lake, caught a deer yesterday and has the animal penned up in the woods at his place of residence. Mr. Richardson saw the deer swimming in the lake, the animal having evidently been chased into the water by dogs, and he put out in a boat to attempt its capture. This did not prove a hard task, the deer being chilled by the cold water and practically exhausted, and Mr. Richardson soon had the animal on the shore. The deer was unable to stand and was carried to the place where it is now in captivity. The deer is a buck, about two years old.

WATSON DENIES IT.

Expansion Has Not Won Out the Great Record Keeper Says.

Despite the confident claims of the expansionists in the Macabee controversy Great Record Keeper Thomas Watson still insists that the authentic reports received by him from the delegates personally indicate an entirely different situation. He asserts that the statement by Major Boynton that all those opposing the expansion issue are under the influence of the supreme tent jurisdiction Knights of the Macabees, whose chief competitor the great camp would be should it expand, is made simply for the purpose of arousing prejudice in the minds of the Michigan Macabees against those opposing the expansion idea under the present system.

Under date of Port Huron, Mr. Watson last night wired The Mining Journal as follows: "The total vote of the great camp will be 2,515. Replies from 456 delegates, representing 1,455 votes, show that 727 votes will be cast against expansion, 507 are in favor and 221 are open to conviction." At this ratio, expansion, which will require a two-thirds vote, would seem to be doomed despite all said to the contrary.

FOR THE EXECUTIVE BOARD.

Traverse City tent No. 871, and Traverse Bay tent No. 136, K. O. T. M., have passed a resolution pledging their efforts to secure the appointment of Commander Alfred V. Friedrich, commander of 871 on the executive committee of the great camp, which will meet in Marquette next week. Mr. Friedrich is an earnest advocate of the expansion of the order. He is prominent in business and social circles and was mayor of Traverse City one year. He is also a leader in the Elks, Masons, Knights of Pythias and other fraternal societies. Traverse City tent 871 is the eighth largest tent in the state and the city has never had representation at the great camp.

Cheap Rates from Detroit. The Michigan Central is advertising a daylight trip to Marquette on the occasion of the Macabee convention. The notice reads: "In addition to regular service, a special train of fine coaches and lunch car will leave Detroit via Michigan Central at 7 a. m., Monday, June 9, arriving Marquette same evening, 9:30. Tickets from Detroit will be \$13.87 for round trip, and will be sold June 6 to 9, good for return until June 16."

The Iron Mountain Press says: "A rate of one fare for the round trip has been secured by the Macabee committee over the Northwestern for the Macabee convention at Marquette on June 10 provided 100 passengers are secured."
