Who come of a consumptive family when they begin to cough and the lungs are painful. But it is a fact beyond dispute that consumption is not and cannot be inherited. The microbe which breeds disease must absolutely be received by the individual before consumption can be developed.

Men and women who have been afflicted with chronic coughs, bronchitis, bleeding of the lungs, emaciation and weakness, have been permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures the cough, heals the lungs, and builds up the body with solid flesh.

When I commenced taking your medicine, eighteen months ago, my health was completely broken down. I was unable to do any work, and I had long trouble, and that I would never be well again. At last I concluded to try Dr. Pierce's Golden Medical Discovery, and I am now as well as ever.

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to cover expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

The 1902 Derby day upheld all the traditions of this classic event. The favorites turned back for choice bunches of grass and a long shot came in at the head of the field, to the great joy of the lucky few who blundered into backing the winning horse. The struggle was magnificent and wild enthusiasm brought the 60,000 "Derby dayers" to their feet.

According to reports the coal strike is having a disastrous effect on the iron industry in the Lehigh valley. Every furnace in the district is now either banked or blown out and a dealer is quoted as saying that there is not a pound of pig iron on the market.

With the incarceration of William M. Jones in the Marquette branch of state prison closes one of the most notable criminal cases in Michigan annals. Detroit has been greatly concerned with the case since George Hayward was found murdered near his home on April 10th.

This is state convention and coronation week and there is about as much question of Bliss' nomination as there is of the declaration of King Edward's rule over the British empire.

William Webster, postmaster of the Soo, and Chippewa county's assize boss, was in the city this week in the interest of their candidate. The people of Marquette gave them but little consolation and resented the interference of non-resident wirepullers in local politics.

SOUTH AMERICANS IN NEW TURMOIL

BRAZIL, BOLIVIA AND PERU SUSPICIOUS OF UNITED STATES AND ARE IN CONTROVERSY THAT MAY CAUSE A WAR.

Washington, June 23.—South America is in a turmoil over the prospect that a new semi-independent state is to be established within its territory. The United States is charged with responsibility for this movement, which is alleged by jealous South Americans to be the result of the aggression in the north that continues for the powerful North American republic. But this suspicion is of relatively minor importance at this time in view of the fact that a controversy between Brazil and Peru, on the one hand, and Bolivia on the other has been created which may lead to war.

FUNERAL OF KING ALBERT.

Remains of Dead Ruler Laid to Rest in Dresden, Saxony.

Dresden, Saxony, June 23.—The funeral of King Albert which took place this evening, was impressive. The coffin was covered with a row of satin pelt, and around it a vigil had been kept by the Saxons officers and dignitaries of the Saxon court since it was conveyed to the church last Saturday. At the service this evening the nave of the church was occupied by the diplomatic corps and extraordinary missions to Dresden to attend the funeral, which included Andrew D. White and Marquis de Noailles, respectively United States and French ambassadors and deputations of foreign officers. The royal mourners included King George and the Princess of Saxony, Emperor William, Emperor Francis Joseph, Grand Duke of Baden and others. The widowed Queen Karola, and the Empress of Germany, together with the Saxon princesses, occupied two pews in the church. Dr. Brendler, court chaplain, delivered the funeral oration. At the conclusion of the service the royal coffin was lowered into a vault beneath the church and as this was done volleys of cannon and musketry were fired outside the building. Emperor William and Emperor Francis Joseph left Dresden late tonight.

Berlin, June 23.—The body of the late King Albert of Saxony was brought in state to Dresden Saturday morning, the new king, George, with the princess of the royal house accompanying the remains on foot through the streets to the Catholic church of the royal court. During the procession the services the royal cortege was interrupted by cannon booming continuously, while silent crowds thronged the route, bareheaded, as the remains passed by. The queen dowager joined the mourners as the body was placed upon the bier. King George, it is stated, will follow in all respects the policy of his predecessor. He is a widower, his wife, who was a Portuguese princess, having died in 1884.

KING EDWARD ENTERTAINS.

Given Dinner to Royal Personages Who Will Attend Coronation.

London, June 23.—King Edward and Queen Alexandra gave a dinner party tonight at Buckingham Palace to seven royal personages who practically represented the sovereigns of all the monarchies of the world. The list of guests was headed by the czar and his wife, who arrived this evening, and included an imposing array of princes and princesses and all members of the British royal family. The dinner was followed by a brilliant reception which was attended by the members of the suites of all the foreign potentates now in London. Colonial Secretary and Mrs. Chamberlain received the colonial premiers and other distinguished visitors from Great Britain's colonies at their London residence this evening.

**SHORT COUNCIL SESSION.**  
City Dads Met Last Evening Before a Crowded Gallery.

At the meeting of the common council last evening, the bids for the Crescent street improvement—the construction of street and sewer between Third and Fourth streets—were laid on the table until the next session, three-quarters of the cost assessed against the property owners not having been paid in. The same action was had on the bids submitted for the construction of the Spring street sewer extension. The controller was instructed to advertise for bids for the grading, curbing and macadamizing of Superior street from Seventh street west for a distance of about 500 feet. Favorable action was taken on the petition for the construction of extensions to the Lake Shore boulevard, and the long delayed matter of opening High street from Hewitt avenue for a block north also received favorable consideration, the controller being instructed to advertise for bids for the improvement. There was a large attendance of spectators in the gallery, assembled there for the purpose of protesting against being assessed for the proposed trunk sewer running from Third and Maple streets to Fifth, but as the matter did not come up none of the protesting property owners had opportunity of being heard. The meeting was very short, lasting only about a quarter of an hour.

**A COMEDY IN FIVE ACTS.**  
Scene of Mansfield's "Beaucaire" the Celebrated Watering Place, Bath.

An event full of the largest measure of attractiveness is the appearance to-morrow evening of Richard Mansfield in his recent hit, "Beaucaire." The new play is a comedy in five acts by Booth Tarkington and Evelyn Greenleaf Sutherland. The scene is the celebrated English watering place, Bath, during the social sway of Beau Nash. It is a fascinating period for a comedy of wits. The first act discloses the pump room whether the blades and belles come for the waters. The second act shows Beaucaire's lodging the night he caught Winterset cheating. The third is Lady Mary Curle's ball room on the occasion of the introduction of the Duke of Chateaurien to Bath's beauties. A portion of the garden of Mr. Bantison's country house on the roadway near the statue of Diana is the locale of act four; and the last act of all is the superb assembly room on the occasion of Bath's learning from the Marquis de Mirepois, ambassador from the Tuileries, who is the visitor it has harbored as barber, gambler and Duke of Castle Nowhere. In the title role, Mansfield has made a hit possessing the quality of permanency. The prince, who was mistaken for a barber by the smart set of Bath when Beau Nash was impersonator, gives a wide play for humor, wit, repartee and sentiment. The jest is on Beaucaire's lip but the perfume of Lady Mary's red, red rose fills his heart and intoxicates him with a love that fashions a romance which has delighted all who have read it. Mansfield is said to have devoted anew his unique gifts for portraying the royalty of a prince, the con-

**INVESTIGATION ORDERED.**  
\$20,000 Sewer Never Paid for by Property Owners, It Is Said.

It was about twenty-five years ago that the brick sewer in Spring street, running from a point near Pickens' coal dock to a point in the vicinity of Harlow's grove, was put in. The cost was in the neighborhood of \$20,000, yet it is now contended that the city was never reimbursed for the outlay. The matter was in the courts years ago, but a settlement was never reached, it is said, and it is even reported that the special assessment roll, levying the cost of the sewer against the property owners, has been stolen. At any rate the roll is missing and has been for many years, the last ever seen of it, it is said, being in court, where it was used as an exhibit in the litigation. All these reports have been revived lately, and now the common council has instructed the city attorney to look into the matter thoroughly and make report whether the sewer has been paid for by the owners of the property benefited and, if not, how the city can proceed to enforce the payment. The question is a very interesting one, independent of the money, principal and interest, at stake, and the course of events connected with it will be watch with interest.

**EXCURSION TO CANADA.**  
South Shore Road Will Run It the Later Part of Next Month.

The South Shore's annual excursion to Canada—to the Shrine of Ste. Ann Beauspre—will be run some time next month. The territory from Duluth to as far east as Sidnaw will be catered to on the 20th and 21st. The excursion passing through here on the morning of the 21st. For the copper and iron countries and the territory east of Marquette, the date of the excursion has not yet been definitely fixed, but will be announced in due time. It is assured in advance, however, that this excursion, as was that to Detroit last Saturday, will be a big success.

**TO ISHPEMING THIS MORNING.**  
Special Train Will Be Run on a 50-Cent Round Trip Rate.

The Negaunee City band arrived on the evening train last night, and for over an hour gave a much-enjoyed open-air concert at Lake Side Park, opposite the Hotel Marquette. This morning the band will accompany the local society of St. Jean Baptiste to Ishpeming, the scene today of the big celebration of the French societies of the upper peninsula. The trip up the road will be made by special train, leaving the station here at 9:33 and arriving at Ishpeming at 10:25. The South Shore has made a rate of fifty cents for the round trip, and from all indications there will be several hundred people on board the special. The tickets will be good to return on any of the regular trains.

**AN INNOVATION IN METHOD**  
**A BASEMENT BARGAIN SALESROOM.**

Adopting a system which has been used successfully in the large Chicago stores, we will open this morning a new department in our basement, which, by the way, is one of the neatest salesrooms we use. We shall term it our "Basement Bargain Sales," and will announce such sales from time to time, as occasion demands. Toward the end of each season there is always an accumulation of odd lots, and at times an over-stock on certain seasonable goods, which must be sacrificed to move them. It is for the purpose of unloading a large amount of goods in a short time that we inaugurate this Special Sale at this time. The sale will consist of goods from every department in the store. It means a large saving in price on every article offered in this sale. It has required no little extra work to make these changes, and it would be a waste of time and money to go to this extra work and expense unless we can sell a large amount of merchandise. There is but one way to do this, and that is to mark the price on every article so low that buyers will be glad to buy what we offer.

- Suits, Jackets,
- Skirts,
- Waists,
- Dress Goods,
- Wash Goods,
- Silks, Linens,
- Towels, Crashes,
- Underwear, Hosiery,
- Trimmings, Carpets,
- Curtains,
- Draperies, Etc., Etc.

Why this seeming unnecessary bluster and changing about? Why not leave the goods where they are and reduce the price? Why compel people to go down stairs? Why?

- The scheme is supported by many reasons:
- FIRST—It separates the sale goods from the regular stock.
- SECOND—It permits the display of the sale goods, not possible when mixed with other goods.
- THIRD—Buyers have a better opportunity to examine what they are buying.
- FOURTH—It prevents those who are buying regular goods from being crowded, as has been the case at times when we have had special sales and the store has been so crowded we could hardly wait upon the people.
- FIFTH—Because it will be the greatest bargain opportunity ever offered our customers. DON'T MISS IT.
