KING IS IMPROVED
CONDITION OF ENGLAND'S SOV-
EREIGN GROWS BETTER.
COMPLICATIONS HAVE NOT SET IN
RECOVERY, HOWEVER, IS BY NO
MEANS ASSURED.
Wound from Operation Is Doing Well
and Physicians Are More Hope-
ful—Police Exclude all
Callers.

London, June 25.—The following bulletin
was issued after 11 o'clock tonight:
"The king continues to make satisfac-
tory progress. He slept some hours dur-
ing the day. He complains very little
of discomfort and is more cheerful. The
wound is doing well."
Midnight—King Edward's condition
tonight is even more satisfactory than
was indicated by the last bulletin. He
has made a decided improvement and
the feeling at Buckingham palace is very
hopeful. His majesty is able to take
nourishment. He had scrambled eggs
and a little hock and soda this morning
and with his own hands opened several
telegrams.

The bulletin issued at 11 o'clock to-
night is regarded as intensely satisfac-
tory. This bulletin is generally taken
as being the first occasion upon which
the king's doctors have allowed them-
selves to express, even to a small de-
gree, the hopeful feelings they undoubt-
edly even though privately, entertain.
Thirty-six hours have elapsed since the
operation was performed and the ab-
sence of complications creates hopefulness
in all quarters, although as has been
frequently said in these dispatches sev-
eral days must pass before the possi-
bility of danger can be eliminated.

Police Exclude People from Palace.
Inside the palace all was quiet. Queen
Alexandra, who had been in the vicinity
of the sick room the entire day, dined
with a few members of the royal family.
Callers who came to the palace in the
course of the evening contented them-
selves with driving up to the outer gates
where they alighted and walked in to
enquire at the equestrian entrance for
the latest news. There they met only
liveried servants and small knots of re-
porters. With the exception of these
callers and the noblemen who have en-
tered to the court, the palace is rigidly
excluded from the palace by the police,
Lord Grey, director of the British South
Africa company, and who recently visit-
ed the United States, is among those
having entrance to the court. He said to
The Associated Press tonight that he
had had hope for the king's recovery
and was sure every Englishman was
deeply touched with the sympathy of
the United States in the present calamity.

Coronation May Be Next August.
The Times this morning says: King
Edward saw all his children yesterday
and slept comfortably during the day.
He was in good spirits and took a bright
and hopeful view of his case, a view
shared by all those around him. The
hope is expressed by those who are com-
petent to express an opinion that if the
progress hitherto made is maintained the
king will be sufficiently well for the
coronation to occur in August.

The king's physicians spent the night
at the palace. After midnight last night
it was learned by those who are com-
petent to be added to the last bulletin and that
King Edward's condition continued satisfac-
tory. The feature among the endless
expressions of anxiety concerning the
king is the extremely sympathetic tone
to the Irish Nationalists' press in ex-
pressing a fervent hope for his majesty's
recovery.

DEMAND INCREASE IN WAGES.
Freight Handlers in Chicago Issue Ulti-
matum to Railroads.
Chicago, June 25.—The freight han-
dlers and warehouse men's strike, repre-
sented by 7,000 men, made a demand today
of 10 per cent increase in wages. The
general managers of the railroads met
this afternoon. No action was taken
though a disposition to make a fight was
manifest. Another meeting will be held
Saturday. The fight would involve 10,
000 men and tie up the freight business
of the Chicago railroads.

TODAY'S WEATHER.
Washington, June 25.—The following
is the weather bureau's forecast for Fri-
day: Michigan: Fair Thursday and Fri-
day. Fresh northwest winds diminish-
ing.

FORMER SAGINAW MAN SUICIDES.
Rev. Othias Barfell, an Aged Minister,
Hangs Himself in Columbus, O.

Columbus, O., June 25.—Rev. Othias
Barfell, aged sixty-five years, commit-
ted suicide by hanging himself. His
body was found today, the knees almost
touching the ground. Despondency and
sickness are the reasons assigned. He
formerly preached at Saginaw, Mich.

THREE DROWNED AT LUDINGTON.
Boat Upset and Youth and Two Girls
Find Watery Grave.
Ludington, Mich., June 25.—A drown-
ing accident in which three young people
lost their lives occurred late last night
at Hopkins' lake, six miles from this
city. Bessie Carlson, an Mary Bystron
Ludington and William Beebe and Ed
Seymour of Summit were out for a boat
ride when the boat accidentally upset
drowning young Beebe and the girls.
Seymour swam ashore.

ORDER IS OBEYED.
Miners Lay Off Work in Order to Curtail
Coal Supply.
Wilkesbarre, Pa., June 25.—The order
of the sub-districts of the Central Penn-
sylvania bituminous district curtailing
the output of soft coal in that region
one third, went into effect today. The
miners in that territory have decided not
to work on Wednesday's or Saturday's
until further notice. How many laid
off today is not known, but the leaders
at strike headquarters say they expect
every union man to obey the order.

LOOKS LIKE BLISS
PREDICTED THE GOVERNOR WILL
BE RENOMINATED.
STEARNS, HOWEVER, IS CONFIDENT
ALEX. MAITLAND IS FAVORITE FOR
LIEUTENANT GOVERNOR.
Republican State Convention Held in
Detroit Today and Fight for First
Place on Ticket Promises to
Be Warm.

Detroit, June 25.—The re-nomination
of Governor Bliss at tomorrow's Repub-
lican convention appears tonight to be a
foregone conclusion. The Bliss victory
in this city yesterday giving him Wayne
county's vote practically insured him
the nomination. Justus H. Stearns, of
Ludington however, will remain in the
contest. He feels confident that Bliss
will not be nominated. The governor
himself expects to be nominated on the
first ballot. It is understood tonight
that John Patton, of Grand Rapids, will
be presented to the convention. William
Alden Smith, talked of as a possible can-
didate, will not permit his name to be
used.

Contests are expected for only two
other offices of lieutenant governor and
attorney general. For a number of
years the upper peninsula has been per-
mitted to name the lieutenant governor
and there are two upper peninsula can-
didates in the field, ex-State Senator Me-
Graw of Detroit is also a candidate,
but it is considered probable that the
office will again go to the upper penin-
sula. Frank H. Watson, of Orosco, and
Charles T. Blair, of Jackson, are fight-
ing for the attorney generalship and it
is the sentiment tonight that Blair will
win. The renomination of the present
members to the other state offices is
conceded. Congressman William Alden
Smith will be temporary chairman.

DEADLOCK IS BROKEN.
Democrats and Populists of Nebraska
Agree on Ticket.
Grand Island, Neb., June 25.—After
twenty-four hours almost continuous
session, the Democratic and Populist
state conventions completed a fusion
ticket with a Democrat at its head.

The Democrats nominated Governor
W. L. Thompson, of Hall county; at-
torney general, J. M. Broad, of Lancaster;
commissioner of public lands and
buildings, B. C. Brennan, of Douglas
county.
The Populists nominated: Lieutenant
governor, E. A. Gilbert, of York county;
secretary of state, John Powers, Hitch-
cock county; state auditor, Charles Q.
De France, of Jefferson county; state
treasurer, J. N. Lyman, of Adams coun-
ty; superintendent of schools, Claude
Smith, of Dawson county.
After the long contest over the gov-
ernorship was settled, the conference
committee soon arranged the other nomi-
nations and when the convention ad-
journed the utmost harmony prevailed.

TWO GIRLS DROWNED.
Bloomington, June 25.—While rowing
on Miller Park lake this afternoon two
young ladies of this city named Agnes
O'Connor and Nellie Salmon, members
of a picnicing party, were drowned by
the overturning of their boat.

AMBASSADOR CHOATE HONORED.
London, June 25.—Oxford university
today conferred the honorary degree of
doctor of civil law on Ambassador Joseph
H. Choate.
JANESVILLE, WIS., IN LUCK.
Janesville, Wis., June 25.—The Wis-
consin Sugar company has definitely de-
cided to erect a sugar beet factory in
this city at a cost of \$500,000.

DYERS WILL CONTINUE STRIKE.
Offers of Employers to Take Back Men
Is Refused.

Paterson, N. J., June 25.—The strik-
ing dyers and helpers at a meeting today
unanimously resolved to continue the
strike and to ask all the various unions
of the silk workers to declare a general
strike. The offer of the employing dy-
ers to take back the strikers at another
wage scale but refusing to grant any in-
crease was rejected.

ENDORSES ROOSEVELT.
Missouri Republicans in Convention De-
clare for Him.
Jefferson City, Mo., June 25.—The Re-
publican state convention which met
yesterday, adjourned sine die this after-
noon after nominating a ticket and
adopting a platform unreservedly en-
dorsing the administration of President
Roosevelt and declaring him the logical
candidate for 1904. The mention of
Roosevelt's name created great enthu-
siasm. The minority report, endorsing
the administration of Secretary of the
Interior Hitchcock, who is a Missourian,
was adopted as part of the platform af-
ter a warm debate. This was declared
to be a victory for State Chairman Ad-
kins over National Committeeman Ker-
ens. The latter, however, secured the
permanent organization of the conven-
tion.

The following ticket was nominated:
State superintendent of instruction,
Prof. J. U. White of Brookfield; ware-
house and railroad commissioners, W. S.
Crane of Jasper county and Barney
Fruenthal of St. Louis.

BLOW FOR CASTRO
HIS ARMY IS DEFEATED AND
SURRENDERS TO REBELS.
VICE-PRESIDENT AYALA TAKEN
FIERCE BATTLE FOUGHT AT
LAVELA LAST FRIDAY.
Chief Executive of Venezuela Appears
to Be Doomed—Revolutionists
Are Rapidly Gaining in
Power.

Willemstad, Island of Curacao, June
25.—Advices from Venezuela dated June
20, says that President Castro recently
tried to occupy Lavela, on the Gulf of
Coro. He sent General Colonias with
a large force of troops to attack the
town by sea, hoping that General Ayala
would assist by land and catch the re-
volutionists there commanded by General
Riera between two fires but for some
unknown reasons there was no assist-
ance by land and General Colonias after
three hours' fighting was com-
pelled to re-embark his troops and aban-
don the attack. During the morning of
June 20 General Riera left Lavela and
with 1,500 men attacked Coro, the cap-
ital of the state of Falcon, nine miles
distant. After five hours' battle, Gen-
eral Ayala, first vice-president of the
republic and the commander of Castro's
army and General Telleria, president of
the state of Falcon, seventeen generals
and forty-five colonels surrendered with
five guns and 1,662 men.

The moral effect of this victory is in-
calculable on the eyes of the revolution-
ists. General Ayala, first vice-president
Castro lately represented in bulletins
that General Riera was flying with only
ten followers.
PATTISON GETS NOMINATION.
Is Named for Head of State Ticket by
Pennsylvania Democrats.
Erie, Pa., June 25.—For the third time
in twenty years ex-Governor Pattison
was nominated for governor today by
the Democratic state convention, George
W. Guthrie, of Pittsburg was nomi-
nated for lieutenant governor and John
Nolan, of Reading for secretary of internal
affairs.
The platform makes no reference to
the national questions which indicates
that the campaign will be made strictly
on state issues. Pattison appeared be-
fore the convention and made a brief
speech of acceptance. The real contest
in the convention was on the question
of representation from Philadelphia.
Sixty delegates were elected, but the
state chairman William T. Cressy ruled
that the county was entitled to only
twenty-nine. The chairman's ruling was
not sustained by the credentials' commit-
tee and also by the convention. During
the debate on this question the specta-
tors in the galleries interrupted John M. Ger-
man of Luzerne with hisses and jeers.
The police were called in by the ser-
geant at arms to restore order. The Philadel-
phia delegates voted for ex-Congress-
man Kerr, of Clearfield, and left the hall
after Pattison's nomination.

MINING CAMP FIRE SWEEPED.
Mercur in Utah Wiped Out of Existence
by Flames.
Salt Lake City, Utah, June 25.—Mer-
cur, the great cyanide gold camp, and
the second largest mining town in Utah,
was practically wiped out of existence
by fire today. Forty or fifty stores were
completely destroyed and there is not
a single store left in the camp. The
people are in a destitute and pitiful
condition. At least a thousand are with-
out food and shelter. Not one business
house remains and scores of residences
are in ashes. As far as known, no loss
of life resulted. The loss is between
\$800,000 and \$1,000,000 and the insur-
ance \$350,000.

STORM IN INDIANA
TORNADO DEVASTATES NORTH
AND CENTRAL PORTIONS.
TWO KILLED AND SEVERAL INJURED
HOUSES BLOWN DOWN AND CROPS
UTTERLY DESTROYED.
Loss Will Aggregate \$2,000,000—Wire
Communication Cut Off and Com-
plete Details Cannot Be
Obtained.

Indianapolis, June 25.—The entire
north and central portion of Indiana was
visited today by one of the most dis-
astrous storms that ever swept the state.
The storm swept sections covering hun-
dreds of miles extending from Hancock
county on the northwest through the
northern portion of Marion, Hamilton
and Boone counties, and doing much
damage in Tippecanoe and adjacent
counties. Madison county also felt its
fury.
Thousands of buildings were razed and
tens of thousands of trees were uprooted
and now blockade the highway. The
railroad and traction lines and the crops
are utterly ruined, causing a loss esti-
mated at nearly \$2,000,000. Fifty per-
sons were more or less injured. But
two deaths have been reported with
authority. James Van Hoy was caught
in the ruins of a collapsed barn near
Pendleton and killed and James Bailey
was killed by flying timbers at Mc-
Cordsville.

Storm Swept Clear Across State.
The path of the storm was clear across
the state. In the ruins left behind are
many factories, churches, school houses
and frame residences. The most severe
damage was in and near Hancock coun-
ty. All wire communication between the
cities and towns in the devastated
district is cut off. Telegraph and tele-
phone poles are down for many miles
and it will require several days to es-
tablish wire service. The crew of each
incoming train brings from the north
and east stories of serious damage to
property.

At Maxwell, Hancock county, the
United States chain factory was ruined,
all the buildings being destroyed. Seven
workmen were injured in the wreck.
New Bros' flour mill and grain elevators
were totally destroyed and the Friends'
church was blown away. One house was
totally destroyed and several were
unroofed.

Funeral Services Broken Up.
At Cleveland the storm broke as the
funeral of Mrs. Mary Earle was being
held. The roof of an adjoining house
was blown away and a piece of timber
was hurled through the side of the house
of mourning, injuring several persons.
Outside, three horses were hurled by
the wind against trees and killed. The
house was demolished and the horses
harnessed to it were injured so one had
to be shot. Seven houses were de-
stroyed and the postoffice unroofed and
one side blown out. Between Cleveland
and Greenfield all the roads are blocked.
In that section a heavy hail and rain
fell after the wind had spent its fury.
The crops are ruined. Several fine tracts
of timber are laid waste.

Crops Utterly Ruined.
At Wilkison five people were seri-
ously injured, one perhaps fatally. Four
houses were destroyed. At Stringtown
and Fishers station several persons were
injured. From the latter place east
into Hancock county the whole country
is greatly damaged. Crops are ruined
and fences and farm buildings are down.
The Pennsylvania line's tracks in a sec-
tion east of Anderson are obstructed by
fallen poles and the farm houses every-
where unroofed. All the towns in that
portion of the state tell the same story
of ruin. Great patches of timber are
lovelled and much stock was killed. A
glass factory at Ingalls was blown
down. At McCordsville and Castleton
stores and other buildings were wrecked
and a number of people injured. At
Wilkison a bottle and window glass
factory was wrecked. Heavy damage
was done to property between Milton
and Richmond and many cattle were
killed. There is destruction everywhere
between Fishers' station and Noblesville.

Storm in Iowa.
Sioux City, Ia., June 25.—A storm in
eastern South Dakota and north-
western Iowa today was one of the most
terrible in the history of this section.
Its path was about fifty miles wide and
extended from Pierre, S. D., to a point
near Le Mars, Ia. Within the tract there
is not a community that has not suf-
fered. The most serious damage was
north of Sioux City within the limit
bounded by Chatsworth on the south
and Canton on the north. At Hudson,
S. D., one life was lost and the damage
to the town and vicinity will aggregate
\$50,000. The entire loss is over \$600,
000. The principal damage is to barns,
house roofs, outbuildings, crops and
stocks. The velocity of the wind was
seventy to ninety miles an hour. Not
a window is left standing in the entire
section.

Marietta, O., June 25.—A tornado
swept over Marietta, this evening de-
stroying everything in its path. The
extent of the storm cannot be learned
tonight but it is known that one person
was killed and probably twenty injured.
The property loss is estimated at \$200,
000. The plant of the Inter-Urban com-
pany was leveled, the Ohio Valley wagon
works is in ruins, the Acme Brick plant
demolished and at least fifteen houses
blown away.

THE FIRSTBORN.

Why is it that the firstborn child is so often the healthiest of a family of children? The reason seems to suggest itself. As child follows child the mother has less and less vitality; often not enough for herself and none, therefore, for her child.

Expectant mothers who use Doctor Pierce's Favorite Prescription find that it keeps them in vigorous health. They eat well, sleep well and are not nervous. When baby comes its advent is practically painless, and the mother is made happy by the birth of a healthy child.

"I will be very glad to say a few words for Dr. Pierce's Favorite Prescription," writes Mrs. P. S. Douglas, of Mansfield, Brimley Co., Quebec. "During the first four months, when I looked forward to becoming a mother, I suffered very much from nausea and vomiting, and I felt so terribly sick I could scarcely eat or drink any thing. I hated all kinds of food. At this time I wrote to Dr. Pierce and he told me to get his 'Favorite Prescription' and a bottle of 'Golden Medical Discovery.' I got a bottle of each, and when I had taken them a few days, I felt much better, and when I had taken hardly three parts of each bottle I felt that I could do anything without any one, and could do my work without any trouble (I could not do anything before). I feel very thankful to Dr. Pierce for his medicine, and I tell all who will to him that he is sick, to get these medicines, or write to Dr. Pierce."

Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, free. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

CHARTER No. 390.

SUBSCRIPTION RATES: Per month, by carrier, \$3.00. Per year, by mail, \$30.00.

MARQUETTE, MICH., JUNE 26. Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Ex-Governor Robert E. Patterson would like to lead the Democrats in the Pennsylvania gubernatorial campaign this year. He made an excellent record in the office which he now seeks again and would make a dangerous fight.

President H. M. Olyphant of the Delaware & Hudson company has commented on President Mitchell's address setting forth his contentions in the coal strike in a characteristic manner.

Mitchell's statement is misleading and unreliable as to the facts and figures. If Mitchell proposes to call out the bituminous miners and paralyze the entire industries of the country he will find that he has taken upon his shoulders a job bigger than he is able to cope with.

There threatens to be an early tie up of the Indiana coal fields, despite the fact that the strike has not yet extended to their areas. The trouble lies in the difficulty of marketing the product.

It is inconceivable that the respectable, law-abiding people of Patterson, N. J., should continue to suffer the presence of the noxious "Reds" in their city. According to the latest reports, striking anarchists have been engaged in perfecting a startling and daring plot, details of which have just been unearthed.

THE STOCK SITUATION. Henry Clews & Co. say of the general stock situation in this week's letter: Stock exchange conditions have shown during the week an improving tendency.

Henry Cabot Lodge, junior senator from Massachusetts, presented an elaborate argument against the election of senators by popular vote before the graduates of the Yale law school this week.

If successful, the proposed nomination will inevitably be followed by proportional representation in the senate, and the most radical revolution conceivable will take place in our form of government.

war for the last three years will now seek new investments; depression will disappear, and unless unforeseen disasters occur we may reasonably expect to share the benefits of such a recovery.

A NATIONAL DISASTER.

The public was in a measure prepared for the news of King Edward's critical condition by the alarming bulletins concerning the royal health issued from London from time to time during the past few weeks, but in view of the tendency to underestimate the seriousness of these reports, the tidings that his majesty had undergone a serious and dangerous operation came as a general surprise and shock.

The king's illness at this time assumes the importance of a national disaster. All the British Isles and the manifold possessions of the empire are keyed to the coronation pitch; fortunes have been invested in preparations to entertain throngs of coronation visitors; the nobility of the realm is master of its part in the pageant; a fervent preparation for the great and gorgeous ceremony has reached its climax.

injured in the anthracite mines of Pennsylvania annually than were killed or wounded during the Spanish-American war. The address also says that in the event the union is crushed, which, it adds, is not likely, a new organization would rise from its ruins.

A NATIONAL DISASTER.

The public was in a measure prepared for the news of King Edward's critical condition by the alarming bulletins concerning the royal health issued from London from time to time during the past few weeks, but in view of the tendency to underestimate the seriousness of these reports, the tidings that his majesty had undergone a serious and dangerous operation came as a general surprise and shock.

The king's illness at this time assumes the importance of a national disaster. All the British Isles and the manifold possessions of the empire are keyed to the coronation pitch; fortunes have been invested in preparations to entertain throngs of coronation visitors; the nobility of the realm is master of its part in the pageant; a fervent preparation for the great and gorgeous ceremony has reached its climax.

It is inconceivable that the respectable, law-abiding people of Patterson, N. J., should continue to suffer the presence of the noxious "Reds" in their city. According to the latest reports, striking anarchists have been engaged in perfecting a startling and daring plot, details of which have just been unearthed.

THE STOCK SITUATION. Henry Clews & Co. say of the general stock situation in this week's letter: Stock exchange conditions have shown during the week an improving tendency.

Henry Cabot Lodge, junior senator from Massachusetts, presented an elaborate argument against the election of senators by popular vote before the graduates of the Yale law school this week.

If successful, the proposed nomination will inevitably be followed by proportional representation in the senate, and the most radical revolution conceivable will take place in our form of government.

Do not gripe nor irritate the alimentary canal. They act gently yet promptly, cleanse effectually and Give Comfort Sold by all druggists, 25 cents.

OFTEN BAFLE PHYSICIANS

Old sores and running sores often baffle the skill of the best physicians. The sufferer is impelled to try every nostrum and every other "cure" which neighbors and friends may suggest, at a loss of time and with no relief from the agony.

CORONER'S JURY IN SESSION. Investigation Being Made Into Death of Cyril Bovin.

The coroner's jury called by Justice Oliver to investigate the death of Cyril Bovin, driver for the Val Blatz Brewing company, who was killed on the street railway in Hancock at 5:20 Saturday evening, assembled in Justice Oliver's court at 2 o'clock yesterday afternoon. The jury is composed as follows: J. E. O'Neill, Philias Verville, Dennis M. Coughlin, A. J. Lord, Charles E. Rouleau and John D. Crawford. Among the witnesses who will be examined are the following: John Rosenblatt, Joseph E. Kelly, E. W. Williams, M. J. Rodda, Jerry Sullivan and Robert Oshinsky. The condition of Andrew Gaffney, the second victim of the street car accident, is pronounced serious. The chances for his recovery are said to be about even. His breast was injured. He was delirious yesterday.

CAPTAIN MOORE'S STORY. Wounded Officer Writes to His Father of Battle of Moro Fort.

A letter from Captain James Moore dated May 6 at Camp Vickers in the Philippines was received yesterday by his father, Master Mechanic James Moore. It is the first Mr. Moore has had from his son since the latter was injured in the fierce fight at the Moro fort. The captain tells his father in the letter not to worry. He is getting along nicely and is in no danger. Captain Moore writes: "I am cracked on the head but am still in the ring. Lieutenant Parker and ten men were killed, four officers and fifty men were wounded. It was a pretty stiff fight and the regiment behaved finely. I will write when I get moved to Malabary."

COMMENCEMENT AT HANCOCK. St. Patrick's School Held Their Annual Exercises Tuesday Night.

The commencement exercises of St. Patrick's high school, Hancock, Tuesday night were witnessed by a large number of parents and friends of the school. All were charmed with the exercises, which were of a high order of merit. The class colors, red and white, predominated in the decorations. The class flower, the rose, was prominent. The first number on the program was the Grand March de Concert by Berg. This was finely rendered by the Misses A. McCarthy, J. Rourke, M. Conway and M. Dwyer. The theme of the essay of Miss Mary Josephine Conway was "Jean of Arc." The speaker gave a fine description of the French heroine. A mandolin and piano selection from Tobacac was beautifully rendered by the Misses A. McCarthy, A. Keough, M. Dwyer, O. Carrigan, A. Coughlin and B. Bogan on mandolins and Miss Julia Rourke on the piano. "An Ideal Girl" was the subject of the essay of Miss Anna Elizabeth Harrington. This was an excellent theme and the ideal girl presented worthy of copying. "The Old Fashioned Mother" from Oleott was then presented by John J. Stim.

EXERCISES WERE GOOD. Commencement of Atlantic Schools Held Saturday Evening.

The commencement exercises of the Atlantic high school took place at the Foresters hall last Saturday evening. Under the artistic arrangements of Prof. and Mrs. Jeffers, the stage looked beautiful, the large hall was crowded, not less than 500 persons being present. The young lady graduates looked their prettiest in white dresses. The only gentleman graduate was of course dressed in the conventional black. On the platform were the entire school board, composed of A. D. Edwards, F. McM. Stanton, L. Bree and M. Messner, together with Mr. Rees of Houghton and Rev. H. Gillingham. Where all did so well it would be invidious to make comparisons among the graduates. Each did themselves credit to a superlative degree, and at the same time reflecting great honor on their teachers. There is no school in the copper country that surpasses the Atlantic high school for work done, if indeed, there is in the state. And this efficiency is justly due to the thorough work of Mr. and Mrs. Jeffers, who have made an enviable record in their chosen profession.

ADDITION TO FIRST NATIONAL. Not many years ago, the First National bank of Lake Linden, was thoroughly remodeled and enlarged, which made it one of the best bank buildings in the country.

FUNERAL OF CYRIL BOVIN. The funeral of Cyril Bovin, who was killed on the street railway near the Baptist church Saturday evening, was held from St. Joseph's church at 9 o'clock Wednesday morning.

THIRD PROMENADE CONCERT. The third promenade concert of the Houghton Light Infantry will be given at the Armory Friday night.

TWO FINGERS SMASHED. George Pryor of Houghton, brakeman on the Copper Range construction train hauling gravel from the Atlantic sands to Greenland, missed a coupling at the latter place Tuesday afternoon and two fingers were smashed.

FOR SALE. The Pfeiffer hotel, located at Houghton, Mich., completely furnished and in good condition.

J. RANSOM BRIDGE & CO., Stock and Bond Brokers.

Members Boston Stock Exchange. 53 STATE STREET, BOSTON, MASS. COPPERS A SPECIALTY.

FINE LIST OF ATTRACTIONS. Elks' Street Carnival Will Have the Best in the Country.

If the grouping together of attractions out of the ordinary guarantees a good show, the Elks' Carnival July 21-26, will be something unusually meritorious. The Bostock-Ferari Co., which was charge of the attractions have announced that they will produce their entire wild animal arena, their beautiful Orient, German village, crystal maze, American biograph, electric theatre, Esau, the snake eater, Wild Minnie, Fair Japan, the Egyptian theatre, Chiquita, the doll lady, the Moorish palace, the barnyard, circus and the dog and monkey circus. They have also secured Spawdy, the champion high diver of the world, the Deborah brothers, triple horizontal bar performers, the Great Grant on the electrical high wire, sixty feet in the air, the famous Watson sisters on their illuminated revolving trapeze, the wonderful bowler of performing elephants, and a host of other attractions. Included in the wild animal show will be a special exhibition of trained lions, tigers, South American pumas and panthers, and various other animals by the famous Princess Delaware, Sheik Ali Ben Grant and Pauline De Voro. All animals are well known artists have been with the Barnum & Bailey, Sells and Forepaugh shows.

IN HYMEN'S BONDS. J. Harry Du Fresnoe and Miss Annie Carroll United in Marriage.

The marriage of J. Harry Du Fresnoe of Houghton and Miss Annie Carroll of Hancock was celebrated at St. Patrick's church in Hancock at 9:30 yesterday morning. Rev. Father T. J. Atfield officiating. The church was beautifully decorated for the charming event. The chancel rails were banked with palms and mountain laurel. The altars were decorated with pink roses and the pews with white flowers. There was a beautiful arch of hemlock and ferns. All of the appointments were in fine taste. The ceremony was one of the finest ever celebrated in the church and was witnessed by a large number. During the seating of the guests the Galmet & Hecla orchestra played the Intermezzo from "Cavalleria Rusticana" and "The Voice That Breathed O'er Eden."

ATTEND WHIST LEAGUE. Team From Portage Lake Club Left Yesterday for Ishpeming.

The team representing the Portage Lake Whist club took the train for Ishpeming Wednesday afternoon to attend the meeting of the Upper Peninsula Whist league Thursday and Friday. The team comprises Mrs. Sheldon, president of the Ladies' Upper Peninsula Whist league, Mrs. Frank A. Douglas, Mrs. L. A. Marsel and Mrs. W. I. McMaster, Mrs. Overfield and Mrs. Z. W. Wright will play in pair work. Others will go to Ishpeming today. A gentlemen's team from Calumet will attend the meeting. The gentlemen's team from Portage Lake will probably not be able to attend. This team took the first train at Calumet last year and comprises Messrs. Hubbard, Close, Hirok and Hodgson. Dr. Hubbard is unable to attend, therefore the team will stay at home.

EXERCISES WERE GOOD. Commencement of Atlantic Schools Held Saturday Evening.

The commencement exercises of the Atlantic high school took place at the Foresters hall last Saturday evening. Under the artistic arrangements of Prof. and Mrs. Jeffers, the stage looked beautiful, the large hall was crowded, not less than 500 persons being present. The young lady graduates looked their prettiest in white dresses. The only gentleman graduate was of course dressed in the conventional black. On the platform were the entire school board, composed of A. D. Edwards, F. McM. Stanton, L. Bree and M. Messner, together with Mr. Rees of Houghton and Rev. H. Gillingham. Where all did so well it would be invidious to make comparisons among the graduates. Each did themselves credit to a superlative degree, and at the same time reflecting great honor on their teachers. There is no school in the copper country that surpasses the Atlantic high school for work done, if indeed, there is in the state. And this efficiency is justly due to the thorough work of Mr. and Mrs. Jeffers, who have made an enviable record in their chosen profession.

LEADS THEM ALL. "One Minute Cough Cure" beats all other medicines for coughs, colds, croup and throat and lung troubles.

HORACE J. STEVENS, Houghton, Mich.

and may be returned within 30 days, if the purchaser is dissatisfied, for any reason whatever, and price paid will be refunded. Address the publisher, 3 Post Office Block, HOUGHTON, MICH.

CONFEREES AGREE

SENATE AMENDMENT SELECTING PANAMA ROUTE ACCEPTED.

SETTLES ISTHMIAN CANAL QUESTION

LAST SESSION ON MEASURE HELD YESTERDAY.

Effect of Action Eliminates All Provisions of Bill Passed by House—Final Action Will Be Taken Today.

Washington, June 25.—The conference on the isthmiian canal bill reached a complete and unanimous agreement this afternoon in favor of accepting the senate amendment which contemplates the building of the Panama canal after the president can secure a clear title to that route. The final conference lasted only half an hour before a decision was reached. Representative Hepburn on behalf of the house conferees endeavored to secure a modification of the senate amendment limiting the president to six months' time within which the title to the Panama route must be perfected. When this failed Hepburn made no further opposition and the senate amendment was concurred in exactly in the form it passed the senate. It was arranged that a brief statement should be prepared for presentation to the senate and the house and the conferees separated. Representative Hepburn intending to submit the results to the house this afternoon in order that the conference agreement might be ratified, thus bringing to a final termination legislation on this important project. Later Representative Hepburn submitted the following statement to the house: "The effect of the action of the conferees if approved by the house will be to eliminate all the provisions of the bill as passed by the house and enact into such legislation all provisions of the senate amendment." Hepburn will call up the bill for final action tomorrow.

SUPREME COURT DECISIONS.

State's Highest Tribunal Hands Down Batch of Important Decisions.

Lansing, Mich., June 25.—In the supreme court yesterday Representative Arthur L. Rich, convicted of assault in the Newaygo circuit court and sentenced to two and one-half years imprisonment at Ionia, was ordered led to jail in the sum of \$5,000. The following cases were disposed of: Albinus v. Mains vs. Webber Estate; People vs. Dudley; People vs. Rotter; Haggerty vs. Baldwin; Hehberg vs. Tomline Surety Co.; Deekerville High School District vs. School District No. 3; Briggs vs. McKinley; Thomas Iron Co. vs. Jackson Iron Co.; Clark, Mason & Co. vs. Parker, Weber & Co.; Dompier vs. Lewis; Township of Merritt vs. Harp; People's Saving Bank of Bay City vs. Hine; Freda vs. Olshchewski. Reversed—Beard vs. Hill; Anderson vs. Wirth; People vs. Shurly; Elmrich vs. Village of Highland Park; Scripps vs. Durfee; Baumgardner vs. Henry; People vs. Hulbert; Murphy vs. Northern Steamship Co.; Monroe vs. Reynolds; Furbush vs. Maryland Casualty Co.; Barney vs. Tomline Surety Co.; Borden vs. Fletcher Estate; Schmidt vs. Village of Frankfort; Bays vs. Warren Featherstone Co. Commissioner of State Land Office vs. Auditor General writ of prohibition was granted. Writs of mandamus were granted in Tempier vs. State Board of Examiners of Barbers and in Warren vs. Auditor General; and denied in Chit vs. Ionia Circuit Judge and in Wagner vs. Gladwin Circuit Judge. Rehearings were denied in McGregor vs. McGregor, Brown vs. Rapid Railway and in Greene vs. Williams. Motion to remand was granted in Guespin vs. Ames. Court adjourned until Friday next.

CUBAN RETALIATION HINTED.

Trade of Island May Be Given to England or Germany.

Washington, June 25.—The announcement from Havana that the Cuban Plantees' association has petitioned President Palma to enter into a trade treaty with England is causing the administration a good deal of concern. Advice has been received here to the effect that influential agents of England and Germany have been in Cuba several weeks preparing to take steps in the interests of the commerce of their countries in the event the United States failed to pass a reciprocity bill. It is pointed out that under the Platt amendment, which imposes a moral obligation on Cuba to give the United States the advantage in the island's trade, there is nothing to prevent the new republic from throwing it to England or Germany if the United States refuses to take advantage of the opportunity to secure it. It is hinted, too, that the Cuban congress as a retaliatory measure may enact navigation laws that will give England or Germany a monopoly of the carrying trade of the island.

RATHBONE WANTS AN INQUIRY.

Repeats Statement That He Was Not Given a Fair Trial.

Washington, June 25.—Major Estes C. Rathbone, the former director general of posts of Cuba, arrived in Washington yesterday from New York for the purpose of consulting his friends as to what course to pursue in his effort to have a thorough investigation of the charges which resulted in his conviction by the Havana court of wrongdoing in connection with the administration of posts in the island. He reiterates his former statements that he did not have a fair trial by the Cuban courts and that he is determined to have all his acts thoroughly inquired into, if this be possible. He declares that he will make an earnest effort to have this done by a congressional committee and hopes that there may yet be time during the present session to have such an inquiry initiated. He spent several hours discussing the case with Senator Hanna, through whose instrumentality he was released on bond.

WON AUBURN STAKES.

Chicago, June 25.—Flying Torpedo won the Auburn stakes at Washington Park today and Commander won the fourth race easily. It is stated that on these two races the Gates-Drake combination won close to \$100,000.

ARE NOT A CATHARTIC

30 Tablets, 25 Cents

Advertisement for Iron-Ox Tablets, describing its benefits for constipation and general health.

VENICE AFFAIR IS DISCUSSED.

Cabinet Satisfied as to How the Court's Findings Became Public.

Washington, June 25.—The cabinet yesterday had a protracted discussion of the Italian incident in which the officers of the Chicago figured, and a portion of the original papers in the case were read. The main interest centered in the manner in which the findings of the court and Admiral Crowinshield's comment thereon became public. The result of the discussion was a practical agreement that the publicity occurred through the passing of the findings aboard ship, a method by which the officers and crew of a vessel or fleet are kept informed of matters of naval interest.

MINNESOTA DEMOS NAME TICKET.

L. A. Rosing, of Cannon Falls, Secures Nomination for Governor.

Minneapolis, Minn., June 24.—The Democratic state convention today re-elected L. A. Rosing, of Cannon Falls, secretary of state; Spurgeon C. Hall, of Marshall; auditor, Albert G. Leik, of Owatonna; attorney general, Frank D. Larabee, of Little Falls; clerk of supreme court, George P. Jones, of Rock county; railroad commissioner, Major J. M. Bowles, of Minneapolis.

RUHLIN DEFEATS SHARKEY.

Ohio Man Gets Decision After Eleven Rounds of Pierce Fighting.

London, June 25.—Gus Ruhlin of Akron, O., defeated Tom Sharkey of New York in eleven rounds. Sharkey held his own in the first three rounds but after that Ruhlin seemed to have it mostly his own way. At the opening of the eighth round both were full of fight and the exchanges were rapid and vicious, Sharkey trying to get in a knockout. He was knocked down repeatedly but he wanted a lot of punishing to finish him and Ruhlin was too tired to do it. Sharkey rolled all over the ring and went down when the bell sounded and Ruhlin's seconds claimed the fight. The referee declined to allow the claim. Sharkey's seconds, however, threw up the sponge, and Ruhlin was declared the winner.

HAVE AGREED UPON FUSION.

Democrats and Populists of South Dakota Agree on One Ticket.

Huron, S. D., June 25.—The Populist and Democratic state conventions convened here yesterday for the purpose of agreeing upon fusion. At the opening of the convention the platform reaffirms the Kansas City platform; denounces the Fowler currency bill; favors the popular election of senators and government control of railroads. The remainder of the platform is devoted to state issues. The nominations: Congress, John R. Wilson, of Lawrence county; P. S. Robinson, of Brown county; John F. Martin, of Codington; Lieutenant governor, Everett Smith, of Davison; secretary of state, E. Ashley, of Clark; treasurer, Louis Chladek, of Bonhomme; attorney general, W. A. Lytle, of Lincoln; superintendent of schools, Miss Nila N. Small, of Potter; auditor Wayne Mason, of Aurora; railroad commissioner, H. B. Rouse, of Hamlin; commissioner of schools and public lands, W. H. Minahan and Chas. Mix.

QUAY IS SATISFIED

SENATE WILL ACT ON STATES BILL FIRST NEXT SESSION.

PENNSYLVANIAN WITHDRAWS MOTION

CONFERENCE REPORT ON ARMY APPROPRIATION PASSED.

House Throws Open Philippine Government Measure to Amendments and Two Important Ones Made.

Washington, June 25.—In a few minutes today the senate disposed for this session of the omnibus statehood question, which had been pending for several days. Senator Beveridge, chairman of the committee on territories announced that the report on the bill before the committee would be made on the third day of the next session. This was satisfactory to Senator Quay, of Pennsylvania, who after securing an agreement that the committee's report should be untouched business on and after December until it was disposed of, withdrew his motion to discharge the committee from further consideration of the measure.

After Senator McCumber of North Dakota had discussed the pending pure food bill, and Senator Gallinger of New Hampshire delivered an extended argument to show that the present prosperity of the country was due to the operations of the Dingley tariff law the senate took up the calendar and passed a large number of bills of minor importance. The conference report on the army appropriation bill was agreed to, thus passing the measure and eliminating the friction which has existed between the two houses over it.

AMENDMENTS TO PHILIPPINE BILL.

The Philippine government bill was thrown open to amendment in the house today. Very slow progress was made, only fifteen of the fifty pages being completed. By an amendment offered by Representative Bartlett of Georgia, the construction of the canal through the isthmus of Panama was prohibited in the islands is prohibited from holding stock in another. This was the only amendment of importance adopted. The earlier portion of the day was devoted to a consideration of the conference reports on the sundry civil, army and naval appropriation bills. The house adopted a proposition agreeable to the senate with reference to the disputed items in the army bill and by a vote of 63 to 95 refused to agree to the senate amendments to the naval bill providing for five submarine torpedo boats. Representative Hepburn, presented the conference report on the canal bill at the house and under the rule it went over until tomorrow.

CLOSING PRICES OF STOCKS AS REPORTED BY WEBBER & CO. AS FOLLOWS:

Table with columns for stock names and prices.

RANGE OF MONEY RATES.

Money on call was steady at 2 1/2 to 3 per cent. Closing bill and asked 2 1/2 to 3 per cent. Prime mercantile paper, 4 1/2 to 5 per cent. Exchange, firm. Demand at 84.87 1/2 and sixty days at 84.85 1/2. Bar silver, 52 1/2.

CHICAGO GRAIN MARKETS.

Features of the Day in the Wheat, Corn and Oats Pits.

Chicago, June 25.—In wheat today the lowest points of the day were reached late, and the market failed to show any reactionary power. The close showed net losses of 1/2 to 3/4. Long wheat came out in large quantities and the demand was heavy. The cash sales were fifteen hundred bushels at the seaboard and 75,000 bushels in Chicago. The feeling was nervous throughout the day. The strength in corn and oats was a bull help early. News from the Southwest was bearish. At Liverpool spot was 3/4 lower to unchanged. The local receipts were 154 cars.

NEW YORK STOCK MARKET.

Dealings Fell to Near the Lowest Level for the Year.

New York, June 25.—The dealings in stocks fell to near the lowest level of activity of the year again today. The movement was slow and unimportant. For the principal active stocks there was good support and the undertone of the market was rather firm, but there was no disposition to buy in view of the upward movement in the early dealings which probably came from the bear traders who sold short last evening on the apprehension that King Edward's illness might terminate fatally overnight. There was buying here for the London account prompted by the same technical cause which served to bring about a halt in the advance in sterling exchange. The local money market was also distinctly firmer in tone and encouraged the bankers to sell some of the sterling loan bills. There was nothing in the news from London as it reached Wall Street to account for any strength in the stock market as the general fear was that the illness of the king of England would terminate fatally. But the sentimental effect of yesterday's sudden announcement was somewhat dissipated. Nevertheless there is something to be apprehended from the direct financial losses involved in the abortive preparations for the coronation. Another consideration is that there has been considerable speculation upon the hope of a revival to be induced by the South African peace. The weaker speculators have been forced out since the declaration of peace, but there is an extensive class of stronger holders which has maintained the hope that the active revival would be postponed until the "gold peace" coronation. This speculation has involved not only London but the continental financial centers. If the misfortune of the king serves to obstruct the influence of the South African settlement upon the financial affairs the effort will be made by the holders of degrees, officers, students and guests were admitted and these by tickets only. No ladies were admitted inside the yard and even the students residing in the yard needed tickets for admission.

DEGREES CONFERRED ON FOUR.

The president and Governor Crane were escorted to Massachusetts hall where they were presented to President Eliot. Later a procession including the invited guests, the faculty, state dignitaries and others, proceeded to Sanders' theatre where the graduating exercises were held. After addresses by the commencement speakers the honorary degrees of doctor of laws were conferred as follows: Thomas Jefferson Coolidge, lately minister to France; Addison Brown, United States judge of New York; John Hay, "by force of just and liberal thinking, the most successful diplomatist now living." Theodore Roosevelt, "president of the United States, from his youth a member of this society of scholars, now, in his prime, a true type of the sturdy gentleman and the high-minded public servant in a democracy."

PRESIDENT REFERS TO KING'S ILLNESS.

At the commencement dinner President Roosevelt in opening his speech said: "Before I say what I had intended to speak of, let me speak for all the Americans today, when I say that we watch with deepest concern and sympathy the sick bed of the English king, and that all Americans in tendering their hearty sympathy to the people of Great Britain now remember keenly the outburst of genuine grief with which all England last fall greeted the calamity that befell us in the death of President McKinley." Speaking of the college graduates the president said that "no man has a right to arrogate to himself one particle of superiority because he has a college education, but he is bound if he is in truth a man to feel that the fact of his having a college education imposes upon him a heavier burden of responsibility; that it makes it doubly incumbent on him to do well and nobly in his life, private and public." The president cited numerous instances of college men attaining distinction and throughout spoke in favor of higher education.

USE ALLEN'S FOOT-EASE.

A powder to be shaken into the shoes. Your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. GUEST OF HARVARD

PRESIDENT ATTENDS COMMENCEMENT AT UNIVERSITY.

GIVEN DEGREE OF DOCTOR OF LAWS

SECRETARY HAY AND TWO OTHERS SIMILARLY HONORED.

Chief Executive Speaks on Responsibilities of Education and Refers Feelingly to King's Illness.

Cambridge, June 25.—Commencement at Harvard university was of unusual interest today because of the presence of President Roosevelt a guest of Harvard and a member of the class of 1880, who received the honorary degree of L. L. D. There were other notable guests who also received this degree.

DEGREES CONFERRED ON FOUR.

The president and Governor Crane were escorted to Massachusetts hall where they were presented to President Eliot. Later a procession including the invited guests, the faculty, state dignitaries and others, proceeded to Sanders' theatre where the graduating exercises were held. After addresses by the commencement speakers the honorary degrees of doctor of laws were conferred as follows: Thomas Jefferson Coolidge, lately minister to France; Addison Brown, United States judge of New York; John Hay, "by force of just and liberal thinking, the most successful diplomatist now living." Theodore Roosevelt, "president of the United States, from his youth a member of this society of scholars, now, in his prime, a true type of the sturdy gentleman and the high-minded public servant in a democracy."

LIGHT ON FILIPINO REVOLT.

Insurgent Testifies Before Board Investigating Cruelty Charges.

Manila, June 25.—The insurgent General Cailles, who surrendered to the Americans June 1, 1901, continued his testimony yesterday before the board investigating charges of cruelty brought by Major Cornelius Gardner against American officers and soldiers in Tayabas province, Luzon. Cailles testified that after Major Gardner had declared Tayabas to be the most pacified province it was still loyal to the rebel cause. Cailles took 900 insurgents from the province to Lubbak, recruited 400 more and went to Sampaloc to superintend the shooting of five industrial residents who had been guilty of crimes. Captain Merch B. Stewart of the Eighth infantry said that in August, 1901, the province of Tayabas was not pacified. Civil government will be established in the island of Mindoro and in the island of Paragua and will be reestablished in Batangas province, Luzon, July 4.

COAL FOUND IN MINNESOTA.

Supply of Bituminous Discovered in Northern Part of State.

West Superior, Wis., June 25.—Further reports of a find of coal in northern Minnesota have been received in this city from an authentic source, and although every effort is being made to keep the discovery quiet it is claimed there is every reason to believe that the find is a big one and it is without doubt of great importance to the head of the lakes if it turns out as reported at the present time. It is further reported that a test was made of some of the coal at the old Lehigh coke ovens in this city and that it was found to be a bituminous coal making as good coke as any that was ever used in the ovens since their establishment in this city. Yesterday, however, good information came to the effect that a man named Davidson discovered the coal and that it is located on his claim in the vicinity of Kelsey, Minn., on the Duluth, Missabe & Northern road.

RAILROADS IN SPAIN.

3,100 Miles to Be Built—Why They Will Be Narrow Gauge.

The Spanish cortes has just approved the new railway project under which it is proposed to construct about 3,100 miles of narrow gauge railroad at a total cost of \$850,000,000, the state guaranteeing 4 per cent interest on the capital required. This is one of the great schemes which Spanish statesmen have devised in the hope that by means of better transportation facilities, a large extension of irrigating works, sugar bounties and other sources of activity and prosperity.

IS A ONE-MAN PLAY. "Beaucaire" an Exposition of Mansfield's Great Individual Power.

Richard Mansfield gave his sumptuous performance of "Beaucaire" last night at the opera house before an audience that crowded the auditorium almost to overflowing.

The manly-pamby comedy was played well and was staged sumptuously, representing the gorgeous scenes at Bath in the Eighteenth century.

The plot of Booth Tarkington's novel, from which the play was made, has been changed materially in its secondary incidents.

The Duke of Winterset, an unscrupulous leader of society, also loves Lady Mary. Beaucaire is denounced in the pump room as a scoundrel.

But by gambling in his apartments he attracts the men of the fast set. The Duke of Winterset, walking into a trap set for him by Beaucaire, is caught cheating at cards.

When his genius is to be questioned, if this great ability is compensation for the exclusion of nearly every other supplemental feature.

Mr. Mansfield is on the stage nearly all the time. His irresistible magnetism and authority command a certain amount of interest.

While the barber-hike is of warm temperament, his love has a calculating, selfish taint. Probably this attribute is due to the care the actor has taken in exactly depicting the peculiarities of this Frenchman as actors picture him.

The company supporting Mr. Mansfield was faultless. Excepting Miss Ethel Knight-Mollison, as Lady Mary, who did excellent work in the last act.

James Baker's home has been under quarantine for the past two days or more. On Friday night last his nine-year-old son, John, died of diphtheria.

Coldwater has for several years endeavored to interest the citizens of Branch county in the erection of a soldiers' monument.

Milford Vandervoort, a Spring Lake boy, has served here after four years spent in the navy of Uncle Sam.

Hiram Atwood, a Union City farmer, does not take much stock in banks and he is in the habit of hiding his loose change in his barns and other places.

Alex. McCellan, a fifteen-year-old boy, living on Forest street, Port Huron, was the victim of a shooting affray in the northern portion of the city Sunday afternoon.

THE STR. THOMAS FRIANT, Captain Geo. W. S. H. will run between MARQUETTE and PINE ISLE EVERY SUNDAY.

Champion. COMMENCEMENT EXERCISES.

A Fine Program Was Rendered at the Town Hall Last Thursday Evening.

The commencement exercises of the class of 1902 of the Champion high school were held last Thursday evening at the town hall.

The exercises opened with a piano solo by Miss Ethel J. Mitchell which was well received.

The diplomas given to the six graduates will entitle them to admission to any of the state institutions without special examinations.

The hall was tastefully decorated for the exercises with ferns and ground pine. The colors of the class—white and green—were conspicuously displayed.

One of the features of this year's Fourth of July celebration will be the display of fireworks in the evening.

The Silverthorn Lumber company will finish work at the hoist here within the next few days, possibly by the end of this week.

THE ATHLETIC EVENTS.

Were Witnessed by a Large Crowd on Business Streets Yesterday.

The unfavorable weather yesterday morning prevented all the athletic events arranged as the last day's festivities of the St. John Baptist celebration being pulled off. The greater part of the morning program was cut out and some of the events that were scheduled for the forenoon took place in the afternoon, together with several of the most interesting numbers on the list for the afternoon.

The visitors from Canada who intended to remain over for the day departed on the early train yesterday morning. The weather was then so unfavorable that they thought there would be nothing doing during the day. The gentlemen were billed to speak from the veranda of the Nelson House and it was generally regretted that they did not remain. They spent the day at Marquette visiting C. A. Laurier.

The contests pulled off in the afternoon were quite interesting, though it was impossible for anyone to get a satisfactory view of them owing to the crowd on the street. The first event was a boys' race on Cleveland avenue. George Medlyn won first money; Herbert Johns got second and William Manley took third.

The second race was a four hundred yard dash. This was won by Matt Hocking; "Hub" Johnson took second and S. Webb was the third man across the tape.

The most interesting, and to the youngsters, the most exciting, event of the day, was a potato race. Ten boys participated. They got so badly mixed up that the judges were unable to determine who were winners. It was finally decided to give each boy a dollar and the youngsters were satisfied. The kids surrounded the judges, all claiming a victory. Some would admit that any of the others beat them.

A flag race between a team from Negaunee and one from Ishpeming was won by the former. The distance covered was about eighty yards. The Negaunee finished in 59 2-5 seconds and the Ishpeming team made the run in 61 seconds.

Joe Collick won first in the half-mile bicycle race; Matt Hocking took second, and F. Adams won third prize.

Harry Peterson of this city took first in the running broad jump. His best jump was 18 feet 4 inches; Joe Trudell of Negaunee took second in a jump of 17 feet 7 inches; Vera Walker of Negaunee captured third prize. His best jump was 17 feet 2 1/2 inches.

The Ishpeming City band furnished music during the day.

Tired Mothers, it's hard work to take care of children and to cook, sweep, wash, sew and mend besides. Tired mothers should take Hood's Sarsaparilla—it refreshes the blood, improves the appetite, assures restful sleep, and helps in many ways.

GET SEATS TOMORROW.

Photographs of the leading characters in the Indian opera, "Pochatana", in the window of Tibbon's drug store attract considerable attention. They give an excellent idea of the brilliant costuming of the piece. Reserved seat tickets will be on sale tomorrow morning at Tibbon's. They will go with a rush and all who desire certain seats should call early.

DR. FENNER'S KIDNEY and Backache CURE

All diseases of Kidneys, Bladder, Urinary Organs, Rheumatism, Backache, Heart Disease, Gravel, Dropsy, Female Troubles.

Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a life time curing just such cases as yours. All consultations Free.

"A gravel lodged in my bladder. After using a few bottles of Dr. Fenner's Kidney and Backache Cure I passed a gravel ball of large size as a marble. The medicine prevented further formations. I was cured."

NO MORE GRAVEL.

Pit From Which C. & N. W. Railway Has Received Supply is Exhausted.

The trains which have been hauling gravel from the pits, some miles west of Ishpeming, near Clowery and distributing it along the main line of the C. & N. W. railroad between this city and points below Escanaba, have gone out of commission. It is said that the big pit is about exhausted. There are other pits in that vicinity, but it would require an outlay of a large sum to reach them. Additional tracks would have to be laid and considerable grading would be necessary.

The greater part of the work on the main line has been finished. Indeed it would take but a few more train loads to complete the job through to the west end of the system. Most of the line south of here has already been given attention.

The men who have been working along the line are now located between here and Negaunee. There are about one hundred men in that vicinity. They put up in boarding cars. Then men will be busy for a few days ballasting the track between the two cities.

The roadbed of the main line has been greatly improved. In several places the grade has been lowered, so that heavier trains may be hauled. It will also be possible to make faster time between here and Escanaba.

The men who run trains over the line notice an improvement in the condition of the track. The hands have done excellent work. They understand grading thoroughly as they are almost constantly employed at it. Several such crews are kept busy, as the Northwestern company is doing much improvement work this summer at various parts of the system. The Chicago, Milwaukee & St. Paul Railway company is also improving its main line in many places. The upper peninsula end of the system is now receiving attention. The company has a large supply of gravel at Republic and a steam shovel has been busy loading trains there during the past two months or so.

HOW THE VICTORY WAS WON.

The Cleveland-Cliffs-Menominee Game Sunday Last Was One-Sided.

A Menominee paper of Monday gave the game of baseball played at that city last Sunday between the Cleveland-Cliffs and Menominee teams the following write-up:

"The Twin City baseball team defeated the Ishpeming team yesterday at the fair grounds, by a score of 15 to 5, and the game was called in the eighth inning with only one man out, on account of rain. The Menominee boys put up a much stronger game of ball, as the score indicates and at no time during the game did they let their opponents get the lead on them.

"At the end of the second inning the score stood eleven to one in favor of Menominee, a lead which could not be overcome during the rest of the game. In the second inning the Menominee boys did some good playing and six out of the eight runs which were brought in in that inning, were well earned.

"Mack, of Ishpeming, made two star catches in right field in the early part of the game. One of the features of the game was the batting of Reuz, the Ishpeming third baseman. He made one clean home run, knocking the ball into the left field and out of the five times that he was up to bat he made four hits.

"Barney of the Twin City team made a star catch of a foul ball, breaking through the crowd and falling on his back to get the ball.

"The clean hitting of Menominee in the second inning was another feature and the pitching of McLeod did much toward winning the game by such a large score. This is the first game of the season which he has pitched way through.

"The batteries were: Menominee, McLeod and Barney; Ishpeming, Linn and Smith."

THE FOXDALE MINE.

Property Gives Promise of Developing Into an Important Producer.

Editor Thomas Conlin of the Crystal Falls Diamond Drill recently made a personal examination of the Foxdale mine at Humboldt. He gave the mine a two-column write-up in his paper. He says in part:

"The work at the Foxdale so far, goes to show that it simply needs persistent and systematic exploration to show up enough of the lenses to make a large whole and for that reason all interested in that part of the Marquette range will watch with interest for results at this property.

"The Foxdale is a hard ore property and adjoins the old Barron mine on the south. The lease covers the two formations lying along the Barron line on the south and on the run of the formation. The shaft is sunk about 100 feet south of the Barron line, up against the side of the large bluff that stands out to the south of the railroad track.

"There is a surface of about 50 feet of sand, that the shaft, which is down right at this point, penetrated a small lense of ore and passed through it. The ore dips at an angle of 60 degrees and to follow it down, Captain Thomas Buzzo, Sr., changed the shaft to an underlay pitch at this point and continued it to a depth of 150 feet. A drift was run to catch the ore but a new lense was met with and the operators were content to work on what ore they had. This ore lense was worked on for a length of 50 feet and a width of about 40 feet the foot side showing a soap rock and the hanging a green rock which swung across the breast cutting out the ore lense completely. The company then operating the property surrendered the lease but in 1899 it was opened by a new concern that sank a lift of 100 feet in the shaft and worked on the back of the old stop carrying it up until it was unsafe to go further for fear of cutting through to the sand above. It was in the work in the back of this stop that the first water was met with.

"The Victoria Iron company, which was the name of the new concern, turned the property over to the Bird Iron Co. in the fall of 1901 and the new owners immediately started to equip the property with an outfit of machinery sufficient to handle the work. Two medium sized boilers were installed and a new, twelve-machine Sullivan compressor put in place. This compressor is of the latest type and was the second one turned out of the shop. Mr. Sanders speaks highly of it and says that he finds that it does every thing the Sullivan people said it would do.

"A new engine house, blacksmith shop, office and dry house were added to the property. In the construction of all of these new buildings Mr. Sanders has had especially in view the probability that the exploration developing into a mine and in such case the buildings can be added to very readily thus preserving the original building and saving the cost of its original construction from waste. The work of equipping the property was completed early in the winter of 1902 and then undivided attention was turned to proving up the mine.

"The ore is of a very fine character and clean. This stop lies to the northwest of the shaft and old stop to the southeast. The shaft seems to be in a lense of rock cutting in between the two lenses. And it looks very much as if the horse of rock is going to cut out on the next level leaving a body of ore 170 by 60 as proved today and no telling how much larger.

"The reason for believing this rock will cut out is that it is tapering as it goes down. A lump cut a few feet from the shaft, on the bottom level, is ore showing that the ore is making fast. For this reason it was thought best to change the pitch of the new lift which is now being added to the shaft to a vertical. This lift is now 54 feet below the second level, and in quartzite and black Jasper.

"A vug of water was cut the day before our visit and the pumps were drowned.

"From indications, Captain Shimmus thinks he is close to the ore and that the lift being sunk in pure stuff before the total sink of 100 feet is through with.

"A drift was started some time ago on the first level to find the new lense out on the bottom level and if they succeed in finding it there will be stopping ground enough to keep the mine going all year without more developmental work.

"About 100 tons per day are hoisted now and this output will not be increased to any great extent as the shaft is not calculated for mining purposes. "If the next level shows up as the management thinks it will, a new shaft

Groceries, Fruits, Vegetables

When you get them from us you get them good

J. SELLWOOD & Co.

will be sunk and extensive improvements made. "The ore is shipped via the D. S. S. & A. and the St. Paul to Escanaba and a ready market is found for all that can be mined. There are 2,000 tons in stock and that is being loaded and forwarded to the docks also.

"One drawback the company met with was the lack of a location but they secured the use of the houses of the Barron company and put them in repair for their employees. These houses, about twenty of them, had stood idle for twenty years and gave a desolate look to the village but since they have been repaired and occupied the aspect has changed greatly about Humboldt.

"This property in conjunction with the James at Iron River and the Bird near this city is the property of the Bird Iron company, which is, in a measure, the successor of the Huron and De Sota Iron companies, corporations created for the operating of the Columbia and Mansfield mines in this district. These mines were sold to the U. S. Steel company last spring and the stockholders of the old companies organized the Bird Iron Co. to explore the Bird. Later the Foxdale and James were acquired.

"The company is named after Second Vice President Bird of the C. M. & St. Paul Railway company. The officers of the company are: President, George V. Penwell; vice president, John Crear; secretary, Milton S. Sanders; treasurer, R. Floyd Clinch; Mining captain, Joseph Shimmus; clerk, John Combe."

PRETTY CHURCH WEDDING.

The marriage of Miss Minnie Belcher of this city and Vergil S. Hillyer, late of Iron Mountain, was solemnized at Grace church Tuesday evening at 8 o'clock. Rev. C. D. Atwell, the pastor, performed the ceremony. The church was artistically decorated for the occasion. The nuptials were witnessed by a large number of the contracting parties' friends. Indeed the church was filled. Mr. and Mrs. Hillyer will make Ishpeming their home. They will reside at Miss Belcher's former home on South Angeline street.

FILTHY TEMPLES IN INDIA.

Sacred cows often defile Indian temples, but worse yet is a body that's polluted by constipation. Don't permit it. Cleanse your system with Dr. King's New Life Pills and avoid untold misery. They give lively livers, active bowels, good digestion, fine appetite. Only 25c at The Stafford Drug Co.'s drug store.

RHEUMATISM

CAN ONLY BE CURED THROUGH THE BLOOD

Your rheumatism is just like all others, and for the same reason that they are not cured, you are not cured. There is only one Guaranteed Cure for rheumatism in the whole world today, and that is MEDERINE. Everything else sold for rheumatism is simply "recommended," while MEDERINE has an absolute, bonafide guarantee that it will do the work quickly and thoroughly and not leave a tinge of it behind. There is no mistake about this, for this company is not giving money away for nothing. MEDERINE acts directly and specifically through the blood, and the blood only. It eliminates every trace of blood impurity, goes right to the seat of the trouble and at once removes the cause. We have hundreds of testimonials on file from people who were cured by MEDERINE after paying enough for other "cures" to buy a farm. The longer you tarry with rheumatism the worse it will be for you, therefore do not delay. Write MEDERINE REMEDY CO., West Superior, Wis., for their system of treatment. All letters answered.

A TOUGH PROPOSITION. WHIST TOURNAMENT.

John Stewart Says the Goose Lake Road is the Worst Job He Ever Tackled.

The county road leading to Goose Lake will be passable within the next two or three weeks, provided the weather is such that the men can continue at work. It is impossible to do anything along the road when it is wet as the roadbed is clay.

John Stewart, who is superintending the work, says the job is absolutely the worst he has ever contracted for. In places he has had to dig trenches along either side in order to keep the water from destroying the surface. It is impossible to fill at these points as material for that purpose is not available.

The workmen have anything but a pleasant task. At times their feet are securely fastened in the clay. Occasionally they find it necessary to get out of their boots in order to extricate themselves.

Up to Tuesday evening twenty-nine culverts and bridges had been completed. There are still a few to be repaired, but the worst of the work is finished.

Mr. Stewart says the road will be in fine condition when he gets through with it, though the supervisors should allow a little more than \$800 for a first class job. He expresses the belief that the road will stand for some time without an overhauling. The clay bottom will be all right in dry weather, but the thoroughfare will be heavy when it is wet.

THEY WILL LEARN.

Three gay sports of the Palmer location parted with some of their good money in town Tuesday. They were arrested on complaint of Samuel Sims, who has charge of the Bellevue farm. The night before the circus the three fellows came to the city and filled up on "budgie." On their way home they occupied the entire road. Sims and his wife came driving along in an opposite direction and the three rowdies deliberately drove into them, upsetting their carriage. Mrs. Sims received slight injuries and was terribly frightened. Sims did not recognize the fellows at the time, but later ascertained who they were. They were arrested and fined by a local justice. They also settled with Sims.

L'ANSE GETS SHINGLE MILL.

The Worcester company of Munising will soon begin the erection of a shingle mill at L'Anse. The plant will be about as large as any shingle mill in this section and it is said that there is sufficient timber in that vicinity to keep it in operation for some years. Cedar will be the principal timber used, though some pine will also be sawed. There are a number of small tracts of cedar near L'Anse owned by farmers and others. The erection of the plant will be a good thing for timber owners as they will get a very fair price, owing to the high price of shingles at this time.

LOCAL LAONICS.

Mrs. Anthony Broad is up from Crystal Falls, spending a few days with her parents.

A few Negaunee people went to Marquette last evening to see Richard Mansfield.

Mrs. Hornbrook of Kansas City is here visiting her parents, Mr. and Mrs. James Sheehy.

J. E. Suss, J. M. Perkins and Dr. Hauke caught trout Monday. They had fairly good luck.

At the Methodist parsonage last evening, Rev. S. M. Gilchrist married Wm. J. Northey and Miss Annie Viola Jacka.

Mrs. T. H. Harris will leave today for Mass City, where she will spend a few weeks visiting her husband, who is in business there.

Thomas Trathen has placed a new bath tub in his barber shop. The improvement will be greatly appreciated by Tom's patrons.

Mrs. J. P. Miller left Tuesday for Green Bay. She was accompanied by Miss Minnie Witt of Ishpeming. They will spend a week or more with friends in the Wisconsin city.

The rough weather yesterday kept a number who planned on taking in the sport at Ishpeming at home. Members of the societies interested in the picnic held Tuesday were thankful that the weather was favorable for their outings.

About one hundred and twenty-five men who are working on the Chicago & Northwestern line arrived here Tuesday. They are en route between this city and Ishpeming. Their boarding cars are near the power house of the street railway line.

J. H. McDonald of Gladstone, for several years identified with the local schools, was a Negaunee visitor yesterday. He is out during vacation in the interest of a book concern. Mr. McDonald is located at Gladstone, where he has been at the head of the school system for some time.

George McDonald and Captain Samuel Mitchell left Tuesday evening for the lower peninsula to attend the Republican state convention, which will take place today. Dr. J. H. Hudson was also a delegate, but he did not go on account of the whist tournament to take place here today and tomorrow.

McLaren died at Big Rapids Sunday morning at the Catholic hospital and was buried Tuesday at 1 o'clock p. m. She was a sister of Mrs. Anthony Broad, formerly of Negaunee, and a daughter of Dan Manning of Negaunee. Mrs. Broad was with the deceased for three weeks before death occurred. Mrs. McLaren leaves four children, three girls and one boy, the youngest being but three months old. The cause of death was appendicitis. The deceased was twenty-eight years old.

Where to Stop When in Detroit. Hotel Metropole, Woodward Ave., opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50

CURES WEAK MEN FREE.

Insures Love and a Happy Home for All.

How any man may quickly cure himself after years of suffering from sexual weakness, loss of vitality, night losses, varicocele, etc., and enlarge small weak organs to full size and vigor. Simply send your name and address to Dr. Knapp Medical Co., 212 1/2 Hill Bldg., Detroit, Mich., and they will gladly send the free receipt with full directions so any man may easily cure himself at home. This is certainly a most generous offer, and the following extracts taken from their daily mail, show what men think of their generosity:

"Dear Sirs—Please accept my sincere thanks for yours of recent date. I have given your treatment a thorough test and the benefit has been extraordinary. It has completely traced me up. I am just as vigorous as when a boy and you cannot realize how happy I am."

"Dear Sirs—Your method worked beautifully. Results were exactly what I needed. Strength and vigor have completely returned and enlargement is entirely satisfactory."

"Dear Sirs—Yours was received and I had no trouble in making use of the receipt as directed, and can truthfully say it is a bona fide cure. I am greatly improved in size, strength and vigor."

All correspondence is strictly confidential, mailed in plain, sealed envelopes. The receipt is free for the asking and they want every man to have it.

Republic.

DEAL MAY FALL THROUGH.

Wm. Anderson's Option on Land Offered by Republican Parties Soon Expires.

William Anderson of Negaunee, who has an option on four-fifths of the mineral tract near Amasa, in which Republican parties are interested, was here early in the week. His option expires on the 29th inst. He would have been pleased to get an extension of the time, but it was not granted. He still believes that the corporation which is figuring with him for the purchase of the tract will buy it, but if the local parties do not extend his option he fears the bottom will drop out of the deal.

Mr. Anderson agreed to pay the local people a very fair price in case he sells the tract, but it is said that he cannot get a renewal of the option unless he comes up on his figures. He stated early in the week that it will be impossible for him to give an advance as the company already has his figures. He will let the matter drop entirely rather than submit a new price to the corporation.

It is said that other parties are ready to take the option as soon as Mr. Anderson's time expires. This being true, it is likely that the tract may yet be sold, but the company that Anderson is trying to do business with will not be in the deal.

One of the men concerned stated early in the week that he had been offered \$5,000 more for an option on his interest than the land before the expiration of his time.

The Pascoes did not give Anderson an option on their one-fifth interest. They are figuring, however, and will doubtless be on the right side in case a sale is consummated.

Men who have explored a part of the tract have been heard from and most favorable reports of the deposits are received. This encourages the owners to believe that they will yet get at least a fair price for their holdings.

A CREDITABLE TURNOUT.

The local St. John Baptist society had a very good turnout at the annual reunion in Ishpeming Tuesday. All the members wore light colored hats. The Champion society was the only other lodge that wore hats of a similar kind. A number of Republican people took in the celebration. Some came home on the early evening train, while others waited for the special, which left Ishpeming at 11 o'clock. At the last regular meeting of the local society the following officers were elected for the ensuing term: President, Theophile Garity; first vice president, Daniel St. Onge; second vice president, Leonard S. Onge; recording secretary, S. Onlette; financial secretary, Peter Seveigny; assistant secretary, O. Leroux; treasurer, Edmund Beignette; sergeants-at-arms, T. Demars and C. Foley.

PLAYED FAST BALL.

The fans who went to Marquette last Sunday to take in the ball game between the Republic and Marquette South Side teams were well pleased with the work of the local line. The game resulted in a victory by a score of 11 to 8 for the Republics. The Marquette team was behind the bat. Considering that the game was the first Sullivan had played in that position he did fine work. It is likely the two teams will meet on the local grounds next Sunday.

ODD FELLOWS ELECT OFFICERS.

At the last regular meeting of the Odd Fellows of this city the following officers were chosen for the ensuing term: Noble grand, William Hoeking, Jr.; vice grand, Alex. Lamtrum; secretary, Thomas Tucker; treasurer, Thomas Rowe; representatives to the grand lodge, Nick Scholtzen and Thomas Tucker. The grand lodge session will be held in October.

PENCIL POINTS.

Captain John Cowling of Amasa spent the early part of the week in town. Professor F. J. Walker and wife will spend the next few weeks with relatives at Ann Arbor.

About twenty-five Republic people took in the excursion to Menominee and Marinette Sunday last.

Miss Florence Carey is in the village spending a few days visiting friends. She is now a resident of Ely, Minn.

George Parr and wife have returned from Quinnesima and it is likely they will again take up their residence here.

The Sunday school society of the Swedish Baptist church gave a picnic Tuesday at the grove near the mine.

The hop given Monday evening by the Second ball team of the village was a pleasant affair. The attendance was

large and the team realized a neat sum, which will be used in paying for a new outfit, expected here this week.

Miss Helen Lind of Galveston, Texas, is in the village visiting her sister, Mrs. Robert Utberg. She will spend several months here.

The improvements at the Pascoe House will be completed soon. The work will make a decided change in the appearance of the property.

There was no work at the Republic mine on Tuesday, Midsummer day. Many of the workmen, and their families, went to Ishpeming and Negaunee.

The Scandinavian society made a very creditable showing at the turnout in Negaunee Tuesday. The picnic was a success and the local people had a very pleasant time.

Posters advertising the celebration on the Fourth will be distributed about the village within the next few days. A complete program of events, with the committees that will have charge of the exercises, will be given on the bills.

Republic people are manifesting much interest in the Fourth of July celebration. The program will please all. It is certain that none of the local people will leave town, as there will be as much sport here as anywhere in the county.

Members of the Woodmen and their families, as well as many others of the village, had a good time Midsummer day. The Republic camp conducted an indoor picnic at Woodmen's hall. There was dancing during the afternoon and evening and light refreshments were served.

HAPPY TIME IN OLD TOWN. "We felt very happy," writes R. N. Beville, Old Town, Va., "when Bucklen's Arnica Salve wholly cured our daughter of a bad case of scald head." It delights all who use it for Cuts, Corns, Burns, Bruises, Boils, Ulcers, Eruptions, Inflammation of Piles. Only 25c at The Stafford Drug Co.'s drug store.

PILES

Dr. Williams' Indian Pile Ointment will cure Piles, Hemorrhoids, and Rectal Piles. It absorbs the tumors, allays the itching, drives the blood to the surface, gives instant relief. It is the only OINTMENT in the world that cures Piles. Every box is warranted. Sold by druggists, or sent by mail on receipt of price, 50c and \$1.00 per box. WILLIAMS' PILE OINTMENT, STAFFORD DRUG CO., Marquette.

A MAN

becomes languid, irritable and despondent, through loss of nerve vigor. Life seems a mockery. The courage, force, vigor and action which characterize full-blooded men, are lacking.

Sexine Pills have killed the light of hope in many a man's face. They bring vigor to the weak and ambition to the despondent. They permanently check the weakening drains, feed the nerves, enrich the blood and make men over generally.

\$1.00 per box; 6 boxes \$5.00. With a \$5.00 order we issue a written guarantee to refund the money if no cure is effected. Book free.

Sexine Pills

Hold Only at PEOPLE'S DRUG STORE, Marquette.

Burlington Route

By providing the best of everything and paying close attention to details, the

Dining Cars a la carte

in service on Burlington Route trains have gained an international reputation. The "pay-for-what-you-order" plan is much more acceptable than the "dollar-a-meal" charge.

ARE BADLY BURNED

TWO HIGH SCHOOL BOYS VICTIMS OF AN INITIATION.

NITRATE OF SILVER EMPLOYED

USED TO MARK FRATERNITY LETTERS IN THE FLESH.

Dangerous Drug Makes Severe Wounds and Boys Will Be Confined to Bed for Some Time to Come—No Harm Intended.

The Eta chapter of the high school fraternity of Alpha Omega, recently organized here, promises to die a speedy death as a result of indiscretions committed by the members during the ceremonies attending the initiation of a couple of candidates Tuesday night and in the "wee sma" hours of Wednesday morning.

The unfortunate candidates are not up and about. They are in bed, nursing severe burns inflicted by the use of nitrate of silver which was employed to mark the letters of the fraternity into their flesh. The youngsters are badly injured and it is likely that they will henceforth carry lasting mementos of their experience about with them.

It goes without saying that there is a vast amount of parental indignation in the families of the two unfortunate youths. The fathers and mothers are justly incensed that the members of the Eta chapter should have been so hardy and thoughtless in their manner of initiation and they believe that the fraternity should be suppressed or that its members should be instructed to simplify their initiation ritual by striking out all "stunts" that threaten life and limb.

There was a searching inquiry into the circumstances of the ceremony yesterday, with a view of ascertaining where the blame should be placed. As is usually the case, the results were unsatisfactory, although, of course, it appeared that the fraternity boys did not knowingly plan any real initiation for their fellows. They simply did not appreciate the strength of the dangerous drug with which they proposed to brand the "candidates" and they believed that it would merely cause momentary inconvenience and not leave any permanent scars.

It is still apparent that the boys did not show the discretion that might be expected from youths of their age and that they took long chances of permanently crippling their fellows. The physician who was called to attend one of the initiators, who had concealed his burns from his parents for a number of hours, said that if there had been much further delay in summoning him, his patient would have been permanently affected as a result of the application of the drug, which was still burning when the wound first came to his attention.

The parents of the injured boys hope that other people will take warning from their experience, at least to the extent of seeing that their sons are initiated only with harmless ceremonies if they must become Alpha Omegas. The incident created no ill-feeling yesterday. There was much sympathy with the families of the boys who were unwittingly maltreated by their companions and much regret was expressed that the Eta boys, who are all well known fellows, quite above reproach, should be concerned in an affair which they appear to such poor advantage.

COPPERS DULL BUT STEADY.

Buying Better Than the Selling in Yesterday's Market.

Concerning yesterday's copper stock market, Fane, Webber & Co. wired from Boston: "The liquidation in the coppers appears to be over. There have been few stocks for sale today, and quite a few investment orders have been in to buy. On the whole, the buying has been better than the selling. The metal market is a shade lower on selling said to be for speculative account. We look for an improvement in a few days and think the best of the coppers should be bought." The Hayden, Stone & Co. wired the Laidley Commission company: "The coppers are very dull, with the prices generally on a parity with those of yesterday and some slight advance in Mohawk and Mass. We don't look for much activity in coppers for the time being."

Chicago Grains.

W. H. Laidley & Co. had this to say of the Chicago grain markets:

"Wheat opened at about last night's close to a shade lower, and was strong during the early part of the session. It turned rather weak, however, upon selling by the Southwest, closing at a loss of 3/8. The receipts were a trifle heavier and the reports of foreign crops are little more favorable. We would not be surprised to see lower prices for wheat, and the market should react at least another cent. Do not get too bearish, however."

"Corn opened slightly higher and continued strong. September did not follow the July option, only during a portion of the time. Like wheat, corn has had a good advance and we think it might be wise to take profits on the bulge."

"Oats opened strong and higher, and the trade was in rather large volume, the July option closing at a net advance of 1/8. The reports from the growing crop were not so favorable, and in a measure were responsible for the strength of the market. We rather look for lower prices for July."

New York Stocks.

Dick Bros., wiring Fane, Webber & Co., said of the New York stock market: "The market was generally strong today, chiefly on account of the covering of shorts put out yesterday. Support was given some of the leading shares, and good buying appeared in St. Paul. Good interests held Missouri Pacific

STARTS ON JULY 1ST

MARQUETTE & SOUTHEASTERN PRACTICALLY COMPLETED.

GOES INTO COMMISSION TUESDAY

TRAIN FROM MUNISING TO ISHPEMING EVERY DAY.

Will Leave in the Morning and Return in the Afternoon, Making the Distance of Seventy-Three Miles in Three Hours.

The Marquette & Southeastern road will, it is announced, go into regular commission on the first day of July. The ballasting, which has been in progress for the past few months, is practically completed and arrangements have been made for the starting of the first passenger train next Tuesday on a regular schedule. The train will be run daily as follows: Leave Marquette at 7 o'clock in the morning, arriving at Ishpeping over the L. S. & I at 10. Returning, the train will leave Ishpeping at 4:25 in the afternoon and arrive at Marquette at 7:20 o'clock. The distance between the two places is seventy-three miles, making the running time of the train about twenty-five miles per hour.

ANNA MITCHELL A BRIDE.

Popular Marquette Girl Weds George D. Sherman, Now of Missouri.

Yesterday afternoon at 2:30 o'clock, Miss Anna Mitchell of this city became the bride of George D. Sherman, formerly of Marquette but now of Elton, Mo. The ceremony was performed at the home of the bride, on Spruce street, by Rev. E. A. Elliott, pastor of the Methodist Episcopal church. The wedding was marked by charming simplicity and exquisite taste in its appointments. The happy pair stood beneath a canopy of ground pine, attended by Dr. Thos. Cunningham and Miss Pearl Powell, bridesmaids. The bride was gowned in white organdie, trimmed with thread lace and medallions. She carried bride's roses and maidenhair ferns. Miss Powell's gown was of pale blue, trimmed with butter lace, and her bouquet was pink roses.

RECORD OF LAKE FREIGHTERS.

Biggest Cargoes Carried by Boats of the Steel Trust Fleet.

The steamer Henry Steinbrenner loaded a large cargo of soft coal—6,696 net tons—at the Elsworth lake front dock, Cleveland, a few days ago, but it is not large enough to have place in the record list. The two largest coal cargoes as yet moved on the lakes—7,588 tons of anthracite and 7,388 tons of bituminous—are credited to the steel corporation steamer L. L. Elwood. The Steinbrenner was not fully loaded. She was going to Fort William where draught is limited, and with 273 tons of fuel in addition to cargo was drawing only 17 ft. 1 in. draught, 17 ft. 7 in. aft. She was loaded within twelve hours. Cargo records are as follows:

Iron ore—Steamer Wm. Eidenborn, owned by Pittsburgh Steamship company, A. B. Wolvin of Duluth, manager, 7,446 gross or 8,339 net tons. Two Harbors, to Coonauk, tow large John Smeaton, Pittsburgh Steamship company, A. B. Wolvin of Duluth, manager, 7,446 gross or 8,339 net tons, Duluth to Cleveland, draught of 18 ft. 1 in.

Grain—Steamer Simon J. Murphy, Eldy Bros. of Bay City, 269,000 bushels of corn, equal to 7,332 net tons, South Chicago to Buffalo, steamer, Douglas Houghton, Pittsburgh Steamship company, A. B. Wolvin of Duluth, manager, 308,000 bushels of clipped oats and 60,000 bushels of corn, equal to 7,520 net tons, Manitowish to Buffalo.

Coal—Steamer L. L. Elwood, owned by Pittsburgh Steamship company, A. B. Wolvin of Duluth, manager, 7,388 net tons anthracite, Buffalo to Duluth; steamer L. L. Elwood, Pittsburgh Steamship company, A. B. Wolvin of Duluth, manager, 7,388 net tons of bituminous Cleveland to Duluth.

RARE SKILL IN DRIVING.

U. S. Artillerists Will Display It at the Wild West Show.

Charioteers in the hippodrome races of ancient Rome used to display great skill in driving their lumbering vehicles, at full speed, close to obstacles without actually touching them. Nothing they ever did in that line, however, excelled or even equaled the consummate ability shown by the veteran United States artillerists with Buffalo Bill's Wild West. They drive not two horses but six at a furious gallop, hauling a caisson and heavy brass field piece—a far clumsier affair to steer than a chariot—and pass without touching between pegs set in the ground, with only an inch of room to spare on each side of the wheel tracks. Buffalo Bill will be here on July 16.

CHANGE IN HOMESTEAD LAW.

Limit in Which Proof Must Be Made Is Cut One Year.

The local land office is advised from Washington that the law recently enacted by congress, pertaining to the proving up of homesteads, has gone into effect. It provides that hereafter final proof of residence and cultivation must be made within seven years from the date of entry, before the patent is granted. The limit heretofore was eight years. As formerly, if proof is not made within the specified limit, the homestead involved will be treated as having been voluntarily abandoned and will be open for new entry.

SAVED FROM AN AWFUL FATE.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa. "I was so low after six months of severe sickness, caused by Hay Fever and Asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was completely cured. For despatch of Broch and Lung Diseases it is the safest cure in the world, and is infallible for Coughs, Colds and Bronchial Affections. Guaranteed bottles 50 c and \$1.00. Trial bottles free at The Stafford Drug Co.

MARQUETTE & SOUTHEASTERN PRACTICALLY COMPLETED.

GOES INTO COMMISSION TUESDAY

TRAIN FROM MUNISING TO ISHPEMING EVERY DAY.

Will Leave in the Morning and Return in the Afternoon, Making the Distance of Seventy-Three Miles in Three Hours.

The Marquette & Southeastern road will, it is announced, go into regular commission on the first day of July. The ballasting, which has been in progress for the past few months, is practically completed and arrangements have been made for the starting of the first passenger train next Tuesday on a regular schedule. The train will be run daily as follows: Leave Marquette at 7 o'clock in the morning, arriving at Ishpeping over the L. S. & I at 10. Returning, the train will leave Ishpeping at 4:25 in the afternoon and arrive at Marquette at 7:20 o'clock. The distance between the two places is seventy-three miles, making the running time of the train about twenty-five miles per hour.

ANNA MITCHELL A BRIDE.

Popular Marquette Girl Weds George D. Sherman, Now of Missouri.

Yesterday afternoon at 2:30 o'clock, Miss Anna Mitchell of this city became the bride of George D. Sherman, formerly of Marquette but now of Elton, Mo. The ceremony was performed at the home of the bride, on Spruce street, by Rev. E. A. Elliott, pastor of the Methodist Episcopal church. The wedding was marked by charming simplicity and exquisite taste in its appointments. The happy pair stood beneath a canopy of ground pine, attended by Dr. Thos. Cunningham and Miss Pearl Powell, bridesmaids. The bride was gowned in white organdie, trimmed with thread lace and medallions. She carried bride's roses and maidenhair ferns. Miss Powell's gown was of pale blue, trimmed with butter lace, and her bouquet was pink roses.

RECORD OF LAKE FREIGHTERS.

Biggest Cargoes Carried by Boats of the Steel Trust Fleet.

The steamer Henry Steinbrenner loaded a large cargo of soft coal—6,696 net tons—at the Elsworth lake front dock, Cleveland, a few days ago, but it is not large enough to have place in the record list. The two largest coal cargoes as yet moved on the lakes—7,588 tons of anthracite and 7,388 tons of bituminous—are credited to the steel corporation steamer L. L. Elwood. The Steinbrenner was not fully loaded. She was going to Fort William where draught is limited, and with 273 tons of fuel in addition to cargo was drawing only 17 ft. 1 in. draught, 17 ft. 7 in. aft. She was loaded within twelve hours. Cargo records are as follows:

Iron ore—Steamer Wm. Eidenborn, owned by Pittsburgh Steamship company, A. B. Wolvin of Duluth, manager, 7,446 gross or 8,339 net tons. Two Harbors, to Coonauk, tow large John Smeaton, Pittsburgh Steamship company, A. B. Wolvin of Duluth, manager, 7,446 gross or 8,339 net tons, Duluth to Cleveland, draught of 18 ft. 1 in.

Grain—Steamer Simon J. Murphy, Eldy Bros. of Bay City, 269,000 bushels of corn, equal to 7,332 net tons, South Chicago to Buffalo, steamer, Douglas Houghton, Pittsburgh Steamship company, A. B. Wolvin of Duluth, manager, 308,000 bushels of clipped oats and 60,000 bushels of corn, equal to 7,520 net tons, Manitowish to Buffalo.

Coal—Steamer L. L. Elwood, owned by Pittsburgh Steamship company, A. B. Wolvin of Duluth, manager, 7,388 net tons anthracite, Buffalo to Duluth; steamer L. L. Elwood, Pittsburgh Steamship company, A. B. Wolvin of Duluth, manager, 7,388 net tons of bituminous Cleveland to Duluth.

RARE SKILL IN DRIVING.

U. S. Artillerists Will Display It at the Wild West Show.

Charioteers in the hippodrome races of ancient Rome used to display great skill in driving their lumbering vehicles, at full speed, close to obstacles without actually touching them. Nothing they ever did in that line, however, excelled or even equaled the consummate ability shown by the veteran United States artillerists with Buffalo Bill's Wild West. They drive not two horses but six at a furious gallop, hauling a caisson and heavy brass field piece—a far clumsier affair to steer than a chariot—and pass without touching between pegs set in the ground, with only an inch of room to spare on each side of the wheel tracks. Buffalo Bill will be here on July 16.

CHANGE IN HOMESTEAD LAW.

Limit in Which Proof Must Be Made Is Cut One Year.

The local land office is advised from Washington that the law recently enacted by congress, pertaining to the proving up of homesteads, has gone into effect. It provides that hereafter final proof of residence and cultivation must be made within seven years from the date of entry, before the patent is granted. The limit heretofore was eight years. As formerly, if proof is not made within the specified limit, the homestead involved will be treated as having been voluntarily abandoned and will be open for new entry.

SAVED FROM AN AWFUL FATE.
