KING MUCH BETTER
EDWARD IMPROVES STEADILY
AND FEARS SUBSIDE.
TAKES NOURISHMENT AND SMOKES
**PROGRESS TOWARDS RECOVERY
CAUSES REJOICING.**
London Again Discussing Coronation
—It Is Said Event Will Be Held
Without Any Elaborate
Ceremonies.

London, June 26.—Midnight—Those
around King Edward continue to be as-
tonished at his rapid recovery. The
slightly annoying symptoms mentioned
in the bulletin at 11 o'clock tonight are
quite inconsequential as compared to
the fact, which The Associated Press
learned, that his majesty again took
food tonight and was afterwards allowed
to smoke a cigar. Queen Alexandra sat
with her husband all the evening and
only left him after he had fallen into a
peaceful sleep.
The mention of the king's doctors of
the care with which the food is admin-
istered to the patient and the return
of the pain in the wound can safely be
taken as merely an earnest of their
confident intention to make public the
slightest adverse symptom, however
unimportant. The king's courage and
good temper is remarkable and today he
personally wrote several telegrams and
one or two notes. By the king's personal
desire the royal pardons of offenders in
the army will go into effect just as if
the coronation had occurred.

General Intercession Services.
The most striking feature of corona-
tion day as it is still called was the
general substitution of services of in-
tercession for those of rejoicing. These
services occurred throughout the coun-
try and on board the great fleet that
lies unreviewed in Portsmouth harbor.
Yet even these lacked pathetic and dra-
matic elements. In the face of today's
favorable bulletins the tears and hitches
are obviously out of place. The crowds
that packed the streets until midnight
evidently appreciated this and there was
a general sense of rejoicing which even
with the most unready section failed to
become inordinate. Inside the palace the
members of the royal family spent a
quiet evening and the number of callers
was smaller than any night this week.
Coronation May Be Without Ceremony.

With the favorable progress of the
king there is much discussion as to how
the coronation will eventually be ef-
fected. While nothing has in any way
been definitely settled, it appears that
the king is likely to celebrate this event
very quietly and with merely the cere-
mony that attends the opening of parlia-
ment. This consists of a drive direct
to Westminster Abbey, accompanied by
a small escort, and a special return to
Buckingham palace, at which it is rumored
no foreign princes or envoys will be
especially invited for the occasion. All
this, of course, is quite in the air but it
forms one of the chief topics of London's
conversation. Providing King Edward
maintains his present rate of improve-
ment, it is probable that he will not
celebrate his birthday and the proposed
coronation will be looked forward to as
an occasion for sedate thanksgiving,
beret of pageantry.

Improvement Causes Rejoicing.
The king's progress towards con-
valescence occasions the greatest satis-
faction in all official circles. In most of
the churches throughout the land today
services which were to commemorate the
coronation of the king occurred in the
great cathedral at places distinguished
gatherings assembled including in the
audience presses, colonial pre-
miers and many others of high official
standing.
Buckingham palace closed for the
night rather later than usual. It is un-
derstood the king's strength and prog-
ress is maintained all respects. His con-
stitutional condition is quite favorable.
The state of the wound is also satisfac-
tory.
Two o'clock p. m.—"The king's condi-
tion still remains satisfactory."
Six-fifteen p. m.—"The king passed a
good day and has taken nourish-
ment. He is less weak. His temperature
is now normal."
PLACED IN RECEIVERS' HANDS.
Washington, June 26.—Judge Hagner
appointed four receivers to take charge
of the affairs of the Standard Bettering
company, at Langdon, a suburb of Wash-
ington. The company has \$500,000 pre-
ferred stock, and the same amount com-
mon, beside \$180,000 in notes and \$30-
000 in bonds.

TODAY'S WEATHER.
Washington, June 26.—The following
is the weather bureau's forecast for Up-
per Michigan: Fair Friday and Satur-
day. Fresh west winds.

TWO REPUBLICAN TICKETS.
Factional Fights in Arkansas Causes
Two Conventions to Be Held.
Little Rock, Ark., June 26.—Two Re-
publican state conventions were held to-
day as the result of factional differenc-
es. One convention nominated Charles
D. Greaves of Hot Springs for governor.
The other convention, called regularly,
nominated Harry H. Myers of Monroe
county.

FRENCH MINISTER TO CUBA.
Edmond Bruwaert Is Reported as Slated
for That Position.
New York, June 26.—According to The
Commercial Advertiser, Jules Cambon,
the French ambassador, said today prior
to sailing for home, that it was the in-
tention of France to appoint Edmond
Bruwaert, now consul general at New
York as minister to Cuba. The prob-
able successor of Bruwaert as consul
general here is said to be Henri Merou,
the present consul general at Chicago.

REBELS WIN ANOTHER VICTORY.
Venezuelan Government Troops Defeat-
ed by General Matos.
Port of Spain, June 26.—The Venezue-
lan government forces were defeated
again near Urica, state of Cumana, by
the rear guard of General Matos' revo-
lutionary army. Deserters and fugi-
tives by hundreds are entering Cumana
and Barcelona.

Port of Spain, B. W. I., June 26.
Information from Venezuela is to the
effect that the French cruiser 'Suehet'
made a peremptory demand for the re-
lease of seven Frenchmen arbitrarily ar-
rested by the Venezuelan government.
The release was effected within an hour.

DEWEY ON STAND FAILED TO AGREE
TESTIFIES BEFORE SENATE COM-
MITTEE ON PHILIPPINES.
HE NEVER RECOGNIZED REPUBLIC
**MANILA SURRENDERED WHEN
SPANISH FLEET WAS SUNK.**
Admiral Says He First Learned Fili-
pino's Aim Was Independence in
Aguinaldo's Proclamation
July 15.

Washington, June 26.—In a statement
before the senate committee on the
Philippines today, Admiral Dewey con-
tributed an important addition to the
history of the surrender of the city of
Manila. It consisted of a positive state-
ment to the effect that the city had been
surrendered to him at the time the Span-
ish fleet was sunk and that wheathe city
did surrender it was in pursuance of a
definite understanding between himself
and the Spanish governor general.
He told about Aguinaldo's arrival,
saying he put him ashore and told him
to organize his people. Aguinaldo
came back discouraged and wanted to
return to Japan but the admiral encour-
aged him to continue his efforts. Dewey
said emphatically that he never had rec-
ognized Aguinaldo's government nor did
he salute Aguinaldo's flag. He never
called Aguinaldo "general" but ad-
dressed him as "Don Emilio."
Never Recognized Filipino Republic.

Dewey never gave the Filipino re-
public the slightest recognition and did not
consider it an organized government. He
did not believe the Filipinos could have
taken the city unaided. The admiral
said that he and not the Filipinos cap-
tured Subig bay and he had taken pos-
session because a German man-of-war
was preventing Aguinaldo from passing.
Dewey said Manila surrendered the day
the fleet was destroyed. The Spanish
flag was not taken down but white flags
were raised and if he had 5,000 troops
he could have taken the city and held
it. After Aguinaldo organized his
troops he occupied Cavite, but learning
American troops were expected soon
Dewey asked him to retire, which he
did after denouncing Dewey's first in-
tention of the Filipino aspiration for in-
dependence was in Aguinaldo's proclama-
tion July 15. Aguinaldo never told him
independence was the aim of the Fili-
pinos.

BRYAN WASN'T INVITED.
White Knight's Absence from Demo-

Lincoln, Neb., June 26.—W. J. Bryan
this evening made the announcement
that he was not invited to the Tilden
club banquet, adding that if he had been
"he would have responded," explaining
why he would not attend the political
banquet given in honor of one "who
twice opposed the Democratic ticket and
has never since announced his intention
to return to the party."

HAHN WILL BE EXTRADITED.
Governor of Ohio Grants Request of
New York Authorities.
New York, June 26.—A telegram from
Columbus, O., says that Governor Nash
had granted the extradition of William
H. Hahn, former vice president of the
insolvent Manhattan Fire Insurance
company, indicted here for grand larce-
ny. Hahn was for years a prominent
figure in Ohio state politics. He was
Republican national committeeman from
1892 to 1896 when he was succeeded by
Senator Hanna. He was for a long time
insurance commissioner of Ohio and was
chairman of the Republican committee
at the time McKinley was elected gov-
ernor. He was also president of the
Manufact National bank for many years.
Hahn was vice president of the Man-
hattan Fire Insurance company which
went into the hands of a receiver a year
ago. The company failed with liabilities
over \$600,000, while the tenable assets
were \$200,000. Just before the company
failed a statement was filed with the
state insurance department showing an
unimpaired capital stock of \$500,000 and
surplus liabilities over assets of \$40,000.
Hahn is charged with the larceny of
\$39,360.

DEWEY ON STAND FAILED TO AGREE
CONFERENCE OF MICHIGAN MINERS
AND MITCHELL FRUITLESS.
ANOTHER MEETING MAY BE CALLED
QUESTIONS IN DISPUTE ARE ON
CONDITIONS NOT WAGES.

From indications trouble in State Is
Far from Settlement—Soft Coal
Men Willing to Help An-
thracite Employes.
Wiskesharre, Pa., June 26.—The Mich-
igan delegation of miners and operators
representatives concluded a conference
with President Mitchell today without
coming to an agreement and left for
the west. The Michigan miners have
been out since April 1 because their con-
tract came to an agreement with their
employes on the wage scale. It is un-
derstood the questions in dispute are not
so much one of wages as of conditions.
All of yesterday and today was spent
in going over the various points in dis-
pute without any final agreement being
reached on the vital points at issue.
Each side will make a report to its or-
ganization and it is not unlikely that
as a result another meeting will be
called. At this time the settlement of
the strike in Michigan is not in sight.

Michigan Men Will Obey Mitchell.
District President Williams, of Michi-
gan, said today he was inclined to think
the convention at Indianapolis next
month would not take any radical step.
He says Michigan will do whatever Pres-
ident Mitchell thinks best for the organi-
zation and he will not take any radical
step. If a majority of the delegates are of
the belief that the life of the organization
is in danger, he would not be surprised
if a general strike is ordered. All the
soft coal miners want to keep their
agreements. They fought for them for
years, but if it came down to a question
of organization or agreements, the min-
ers, he said, would not hesitate to stand
by the union.

SITUATION IN HAYTI SERIOUS.
General Rising of the People Is Believed
Imminent.
Kingston, Jamaica, June 26.—Mail ad-
vices received from Hayti say the situa-
tion is most serious in that republic.
Party feeling is high. The adherents
of the presidential candidates are guard-
ing the latter's houses night. Several
men were killed in a riot at Cape Hay-
tien a couple of days ago. The provi-
sional government of Hayti is incap-
able of coping with the situation and an
extensive outbreak is imminent. Even
now a reign of terror prevails. The
salaries of the officials are four months
in arrears, and the efforts of the gov-
ernment to obtain a loan have been fu-
tile. Generals Fouchard and Pierre are
reported to be joining hands in the hope
of defeating M. Firmin, whose position
is strong.

DEMOCRATIC NOMINATIONS.
Galesburg, Ill., June 26.—The Demo-
crats of the Fifteenth district today
nominated Jonas Olson of Galva for con-
gress.
Beatur, Ill., June 26.—Wilbur B.
Minds of Mattoon was today nominated
for congress by the Democrats of the
Nineteenth district.

BLISS WINS OUT
GOVERNOR IS RENOMINATED ON
FIRST BALLOT.
GIVEN OVERWHELMING MAJORITY

**STEARNS AND FOLLOWERS COM-
PLETELY SNOWED UNDER.**
Alex. Maitland of Negaunee Secured
Second Place on Ticket—Plat-
form Advocates Primary
Election Law.

Detroit, June 26.—No surprises devel-
oped in today's state Republican con-
vention and as was expected Governor
Bliss was nominated on the first ballot.
A motion to make the nomination unani-
mous was defeated by objection of Ed-
itor Cook of Hastings, who had placed
John Patton, Jr., of Grand Rapids, in
nomination and who waged a bitter
fight against Bliss throughout the cam-
paign. The following is the ticket nomi-
nated:
Governor—Aaron T. Bliss, of Saginaw.
Lieutenant Governor—Alex. Maitland,
of Negaunee.
Secretary of State—Fred M. Warner,
of Farmington.
State Treasurer—Daniel McCoy, of
Grand Rapids.
Auditor—Perry E. Powers, of Cadillac.
Attorney General—Charles A. Blair, of
Jackson.
Commissioner of the State Land Office
—Edwin A. Willey, of Paw Paw.
Superintendent of Public Instruction—
Delos A. Fall of Albion.

Members of the State Board of Edu-
cation—Patrick H. Kelly, of Detroit,
and L. L. Wright, of Ironwood.
The convention adopted the following
platform:
Text of Platform.
The resolutions begin with an expres-
sion of sorrow at the death of McKinley
and Pingree. The platform then says:
We unreservedly pledge President Roose-
velt our sympathy and support in the
administration of the great trust which
came to him through the death of Mc-
Kinley. We realize the great problems
and serious questions of state, foreign
and domestic, with which he has had to
do and hereby express our sincere ad-
miration and approval of his ability,
integrity and the desire for justice which
he has brought to bear on public affairs.
We cordially approve the resolution of
Michigan's senators and representatives
on matters pertaining to the advance-
ment of the country's welfare and in ful-
fillment of our party's pledges, and
especially desire to note our appreciation
of their zealous and able work in behalf
of Michigan's important industries and
thank them for the services rendered.
We congratulate both the president and
congress upon the successful establish-
ment of the republic of Cuba, fulfilling
to the letter the sacred pledge of the
nation.

Denounces Attacks on Army.
We gladly express again our loyalty
to the broad principles and national pol-
icies of the party as affirmed in the plat-
form adopted at the national convention
in Philadelphia in 1900. We continue
our abiding faith in the protective tariff
and are opposed to all efforts to destroy,
emasculate, or weaken its beneficent op-
erations. We favor no plan that would
interfere with the industries of the
United States and lessen the legitimate
fruits of American labor. We denounce
all unwarranted and disgraceful attacks
upon the defenders and upholders of the
flag in the Philippines and pledge our
faithful support to the government in
its efforts to establish good government
and personal liberty in the islands.

Endorses Bliss' Administration.
The administration of Governor Bliss
is endorsed and the abolishing of tax
on mortgages favored. A safe, equitable
and effective primary election law by
which the nominations of candidates for
office will be so directly controlled by
the people as to secure absolute purity
in politics is favored and the subject
commended to the consideration of the
legislature. On the trust question the
platform says: "We realize that large com-
binations of capital may be necessary
but desire to express our condemnation
of conspiracies and combinations to re-
strict business, create monopolies, limit
the production or control the prices, and
favor such legislation as will effectively
restrict and prevent such abuse. We
cordially approve and commend the ef-
forts of President Roosevelt to enforce
laws against illegal combinations in re-
straint of trade."
Test Vote Showed Bliss in Control.
The first test of strength between Bliss
and the anti-Bliss forces came on the
report of the committee on permanent
organization and order of business but
the vote showed the Bliss forces con-
trolled the convention. After Gerrit J.
Diekmann, of Holland, was re-elected
chairman of the state committee, the
nominations for governor were called
for. George B. Horton, of Leavenworth
county, master of the state grange, ex-
Senator John Patton, Jr., of Grand
Rapids, Justus S. Stearns, of Ludington,
Bliss' chief opponent in the campaign
for the nomination, and Governor Bliss
were placed before the convention. The
first ballot gave an overwhelming major-
ity to Bliss. Following is the vote:
Bliss, 513; Stearns, 214; Horton, 40;
Patton, 22.

The nominations for the other offices
were then made, all except for Lieuten-
ant governor and the attorney general
being by acclamation. Resolutions were
read and adopted while the vote on Lie-
utenant governor was being taken.

MAQUETTE, MICH., JUNE 27.

We may now look for detailed figures on the loss occasioned by the postponement of King Edward's coronation.

Ex-Governor Patterson of Pennsylvania had things pretty much his own way at Erie Wednesday. He is probably the most dangerous gubernatorial candidate that the Democrats could have hit upon.

Colonel Arthur Lynch, late of the Boer army and a member of the British parliament, who was recently arrested for high treason because of his temerity in venturing to land in England with the purpose of proceeding to London to take his seat in parliament, is still living in a London jail.

Marquette is favored this year by being designated as the city where the Republican congressional convention for the twelfth district will be held.

If President Roosevelt can secure satisfactory titles, the interoceanic canal will be built by the Panama route.

In several of the counties of the twelfth congressional district it is an open secret that voters who heretofore have affiliated with the Democratic party gave loyal support at the Republican primaries to Sheldon delegates.

If Sheldon should be the nominee of the Republican congressional convention why should the Democrats make a nomination this year, or even go to the trouble of calling a congressional convention?

It is a peculiar condition in political matters that an office holder can gain such a wide-spread popularity with the rank and file of the opposite party and furnish a forcible illustration of the remarkable adroitness of the gentleman who represents the twelfth district of Michigan in the halls of congress and his clever lieutenants.

In the above paragraphs the Menominee Leader calls attention to an undoubted abuse, but it is an abuse that is by no means confined to the twelfth district of Michigan.

cratic interference in Republican primaries is too liable to mean Republican discord, witness Chippewa, and Republican discord should be avoided at any cost.

The Duluth Evening Herald observes: Another blow at the ship subsidy steel has been dealt by the formation of the great shipyard combine, embracing eight big concerns with \$20,000,000 of capital stock, incorporated under the laws of New Jersey.

It is assumed that Democratic editors are writing against space when they endeavor to prove that Grover Cleveland is the logical candidate of their party for president in 1904.

It will be a pity and a shame if one result of the factional fight in the Republican party of Wisconsin is a failure to return Senator Spooner to the upper house.

Reports from Cuba are not reassuring and it is becoming more apparent every day that we are imposing an enormous handicap on the new republic by compelling it to struggle without the aid that it would obtain from the tariff concessions lately refused by the national legislature.

The industrial conditions are bad and are growing worse. The big sugar plantations are doing almost nothing toward next year's crop, and this throws a large number of people out of work.

The difficulties of the new government have been increased enormously by the economic situation. President Palma is cutting down expenses by the wholesale, abolishing offices and reducing salaries, and it may be that they will be able to keep the ordinary cost of administration within their income, but that does not meet the real trouble, which is the depression in the sugar industry.

"We felt very happy," writes R. N. Beville, Old Town, Va., "when Bucklen's Arnica Salve wholly cured our daughter of a bad case of scald head." It delights all who use it for Cuts, Corns, Burns, Bruises, Blisters, Itch, Eruptions, Inflammation, etc. Only 25c at The Stafford Drug Co's drug store.

Convince yourself that Ely's Cream Balm deserves all that has been said of it as a means of quick relief and final cure in obstinate cases of nasal catarrh and hay fever. A trial size costs but ten cents. Full size, 50 cents. Sold by druggists or mailed by Ely Bros., 56 Warren street, New York.

GORILLA HUNTING.

Gorilla hunting is a distinct sensation even for the veteran hunter. This animal, which has become confused somewhat with fable, is a reality, and a decidedly unpleasant one to engage.

"I shall never forget how the first one impressed me," says the Frenchman. "For I had a bad attack of shakes. The woods had been filled some time with a harking roar, but I saw nothing until my guide checked softly and pointed to a tree, alongside which stood an immense male gorilla.

Of what does a bad taste in your mouth remind you? It indicates that your stomach is in bad condition and will remind you that there is nothing so good for such a disorder as Chamberlain's Stomach & Liver Tablets after having once used them.

REPUBLICAN CONVENTION. A convention of the Republicans of the Twelfth congressional district of the State of Michigan is hereby called to meet at the theatre in the city of Marquette on Tuesday, the 15th day of July, 1902, at 2 o'clock in the afternoon.

Excursion Rates for Conventions, Meetings, Etc. Special Excursions to Colorado, Utah and South Dakota, June 1st to September 15th, inclusive.

Annual Meeting National Educational Association, Minneapolis, Minn., July 7-11, 1902. Single Fare Plus \$2.00.

Happy Time in Old Town. "We felt very happy," writes R. N. Beville, Old Town, Va., "when Bucklen's Arnica Salve wholly cured our daughter of a bad case of scald head."

Mr. Olive, Ark., May 17, 1901. Messrs. Ely Bros.—Please send me one bottle of Cream Balm, family size. I think it is the best medicine for catarrh in the world. Very respectfully, J. M. Scholtz.

GORILLA HUNTING.

Gorilla hunting is a distinct sensation even for the veteran hunter. This animal, which has become confused somewhat with fable, is a reality, and a decidedly unpleasant one to engage.

"I shall never forget how the first one impressed me," says the Frenchman. "For I had a bad attack of shakes. The woods had been filled some time with a harking roar, but I saw nothing until my guide checked softly and pointed to a tree, alongside which stood an immense male gorilla.

Of what does a bad taste in your mouth remind you? It indicates that your stomach is in bad condition and will remind you that there is nothing so good for such a disorder as Chamberlain's Stomach & Liver Tablets after having once used them.

REPUBLICAN CONVENTION. A convention of the Republicans of the Twelfth congressional district of the State of Michigan is hereby called to meet at the theatre in the city of Marquette on Tuesday, the 15th day of July, 1902, at 2 o'clock in the afternoon.

FIXING BLAME FOR BOVIN'S DEATH

Coroner's Jury Is Examining Witnesses of Accident.

In the matter of the death of Cyril Bovin of Hancock, the driver of the Val Blatz delivery wagon, who was killed by a street car on Front street bridge Saturday evening the following witnesses were subpoenaed to appear before the coroner's jury in Justice Oliver's office Wednesday afternoon. Joseph E. Kelly, Jerry Sullivan, Frank M. Van Poplan, Charles Armstrong, James McDonald, William Collins, James McGlynn and Henry Wint. Six of these witnesses testified before the adjournment.

Joseph E. Kelly told the jury that he was standing in the middle of the bridge where the fatal accident took place. He was talking with John Rosenblatt. His attention was attracted to the clatter of the hoofs of Bovin's team at the east end of the bridge. He looked in that direction and saw the horses prancing as they were approaching. The car was coming towards them from the west and then the team was even with the car. The horses shied to the right and that showed the front of the wagon under the front of the street car and they collided. The witness stated that just as the car struck the wagon he started to cross the track to see if Bovin was hurt. The team was even with the car. He further backed to let the car pass. When he reached Bovin the latter was lying in the middle of the roadway on the north side of the track, about twenty feet from where he was struck. Bovin was facing the east. Mr. Gaffney was lying five or ten feet from where he was hit by the car. He was facing southwest.

The witness said that he could not judge how fast the car was going, but thought it was the same rapid speed they always run down that street. Kelly did not see Bovin motion to the motor man to stop. Neither did he hear the car bell ring. The motor man stood in his car and did not get out to help. Conductor McQueen helped the witness to pick Bovin up. Rigs came along and the injured men were conveyed to the hospital in the conveyance. "Mr. Bovin was unconscious when I reached him," stated Witness Kelly. "He gave no signs of life. When struck he was thrown as high as the top of the car."

Thomas Beatty, driver of the cold storage wagon, testified that he was driving about thirty feet behind the Val Blatz wagon. "The car was coming like a streak of greased lightning" said the witness. Beatty said the car was coming down the bridge at the speed of fifteen miles an hour. Mr. Bovin had no whip and kept lashing the horses with the lines in the effort to manage them. Bovin motioned to the motor man to stop, but the car sailed right on. The witness did not hear the car bell ring. His own team was unmanageable and he was obliged to drive right by after the accident.

Witness Jerry Sullivan told the jury that he was driving over the bridge with Wendell & Schulte's delivery wagon ahead of Bovin. His attention was attracted by the shouts of Bovin to the motor man, asking him to stop. Sullivan turned around and saw the car strike the wagon. The horses then ran to the corner of Reservation street, where they became freed from the wagon. He corroborated Witness Kelly's statement as to the position of the men after being struck.

The last witness examined was standing 200 feet from where the accident happened. His attention was attracted by the force of the collision. Turning he saw the body of a man flying through the air. When he reached there he found it was Mr. Bovin. All of the witnesses said the car was going very fast. The investigation was adjourned until Friday, when three of the witnesses who were called on to give their testimony will be sworn. Subpoenas have been issued for five additional witnesses, who will appear Friday.

ZERBEL-MINEAR NUPTIALS.

Popular Young Couple of Ripley Married Yesterday.

A pretty home wedding was celebrated in Ripley Wednesday evening. Fred J. Zerbel of Ripley was joined in wedlock with Miss Edith Minear, at the home of the bride's parents, Mr. and Mrs. Joseph Minear, Rev. J. E. Carzon, rector of Trinity Episcopal church, officiated. Fifty guests were present. A fine supper was served. The house was handsomely decorated by Florist York for the event. Among out of town guests were Mr. and Mrs. Zerbel of Marquette, parents of the groom. The young couple are both very popular. The groom is pattern maker at Hodges. Mr. and Mrs. Minear will live in Ripley.

Permanent Muscular Strength cannot exist where there is not blood strength. Young men giving attention to muscular development should bear this in mind. Hood's Sarsaparilla gives blood strength and builds up the whole system.

ENTERTAINED CANADIAN MASONS.

Visiting Knights Well Received by Portage Lake Brethren.

Wednesday the Masons were favored with excellent weather. About one o'clock in the afternoon a party consisting of forty Calumet people went along with the Calumet & Hecla band to Houghton where the visiting Masons from Port Arthur and Fort Williams were met and a reception tendered to them on board the boat. After the reception all boarded a special train for Calumet via Lake Linden. At this latter point nearly an hour's stop was made, and the visitors were shown the interesting sights about the C. & H. stamp mills. After the mills had been thoroughly examined all again boarded the train for Calumet, which town was finally reached without any other stop. The visitors and local Masons arrived in the metropolis at about 4:30 o'clock in the afternoon and the local people acting as hosts kept their guests busy seeing the points of interest about the great mining camp. A large number of the visitors were taken to the Superior boiler and engine house and the large engines at this place were shown to them. Others spent the time about the various shafts. After these sights had been given the visitors were taken to the Calumet Light Guard Armory, where a sumptuous banquet was spread. After having gone through the journey that the Masons had, it is to be presumed that all were in a frame of mind to enjoy an appetizing spread and the justice done to one laid by the local fraternity. After the supper the hall was cleared and from shortly after six till about nine-thirty all enjoyed dancing to the excellent program rendered by the C. & H. orchestra. At nine-thirty the dancing came to an end in order that the visitors could be able to take the train for Hancock at which point they were to board the boat for their homes.

TOO FREE WITH A GUN.

John Hammer Flourished Revolver and Threatened Mrs. Eliza Bartle.

John Hammer of Laurium will in the future probably not be so free with a gun as he has been in the past. Wednesday afternoon Mrs. Eliza Bartle, also of Laurium, appeared before Judge Trathen out of a warrant taken against Hammer on the charge of threatening her with a pistol. It appears that the Bartle and Hammer boys got into a quarrel and Mrs. Bartle, wishing to know the cause, went over to the scene of the conflict. Hammer was also present and hot words passed between them which finally resulted in Hammer pulling out a pistol and threatening the lady dire ill. When taken before Justice Trathen Hammer entered a plea of guilty and his trial was set for July 7.

MARRIED AT EAGLE HARBOR.

James Daly and Miss Libby Foley Wednesdays Morning.

A very quiet but beautiful wedding occurred at the Holy Redeemer church at Eagle Harbor Wednesday morning, when Miss Libby, daughter of Mrs. Mary Foley of Eagle Harbor was united in the holy bonds of matrimony to James Daly of Calumet. Miss Allie Foley of Hancock acted as bridesmaid, while Mike Foley took care of the groom. After the ceremony had been performed in the presence of a host of friends of the contracting parties, the bride and groom and a few intimate friends and relatives repaired to the home of the bride's mother, where a wedding breakfast was awaiting the pleasure of the party. The bride, though living at the Holy Redeemer church, is a native of the copper country, she is superintendent of the Centennial schools, is also well known locally.

WRESTLING MATCH.

Ed Blau and Bill Jones Will Contest for Honors on the Mat.

The topic of conversation among Calumet sports is the coming wrestling match between Ed Blau and Bill Jones. The match is dated to be pulled off at the Italian hall in Calumet tomorrow evening and will without doubt prove to be one of the finest exhibitions of Cornish wrestling ever seen in the copper country. Preparations are being made for the accommodation of a large crowd, as the promoters have received many requests from Portage Lake and Lake Linden lovers of this sport for seats and it is thought that the match will be a record breaker as far as attendance is concerned. The men are training ecstatically and are now in the pink of condition. As far as weight is concerned both of the contestants are very much alike and for lovers of skill the match should be an ideal one. Blau until the recent tournament at the Calumet athletic park was practically an unknown factor in the local wrestling world, but his excellent showing in this tournament made a place for him among the top notchers.

KILLED A BEAR.

Nick Evert Bags One Weighing Two Hundred and Seventy-Five Pounds.

Nick Evert and M. J. Brustmaker of Hancock returned yesterday morning from the mouth of Pike creek, near the Otter, where they fished for trout three days. They were not looking for bear but Nick shot a big black fellow weighing 275 pounds and brought the meat home. Two bears came over the opposite bank of the ravine and Mr. Evert dropped his fish pole and seized his gun. He poured three shots into one of the brutes, killing him low. At the first shot Bruin raised on his hind feet and stood up as though he meant business. Although Evert perforated the hide of the other bear with seven buckshot the brute made his escape. The incident happened seven miles from Chassel.

CELEBRATED ST. JOHN'S DAY.

Finnish residents had a fine time at the St. John's day celebration in Hancock. The event wound up with a concert in the gymnasium hall. Three singing societies participated. This included the Suomen Kaiku, the Hancock Mixed Choir and the Calumet church choir. Addresses were made by Rev. J. Beck, Rev. J. K. Nikander, president of Suomi college. Recitations were given by John Wargelin of Hancock, Mrs. Airaksinen, Miss Into, and Mrs. Wargelin. A number of Calumet visitors were present.

BIDS ALL REJECTED.

All of the bids for the construction of the foundation walls of the new M. E. church and parsonage on Quincy street, Hancock, were rejected. They were all considerably higher than the estimate and the committee concluded that the contractors must have based their figures on a mistaken conception of the work. The building committee will interview the bidders and ask them to make new estimates.

DEATH OF MRS. GUST SOLF.

Estimable Lady Expired Wednesday After Protracted Illness.

Julia, beloved wife of Gust Solf of the Quincy, died at 7 o'clock Wednesday evening at the age of twenty-four from lung troubles. Mrs. Solf had been ill for nearly a year. She was well known in the copper country, and her demise is regretted by a large circle of friends. She leaves a husband, mother, Mrs. John Shea, two sisters, Julia and Lizzie and one brother, Dennis.

WERE SEASICK OR SOMETHING.

Canadian Ball Players Could Not Deliver the Goods.

The Canadian ball players were seasick on the boat coming over from Port Arthur and didn't get over it in the game with the Portage Lake team on the Hancock driving park diamond. The Canadian pitcher lacked support. The visitors were blanked until the seventh inning, when they tallied the solitary score to their credit. Portage Lake held up sixteen tallies. The game was umpired by "Wid" Thompson in his usual urbane manner.

BALL GAME TOMORROW.

Calumet and Lake Linden Meet at Calumet in the Afternoon.

Tomorrow afternoon, if the weather is favorable, the postponed game of baseball between the Calumet and Lake Linden which was to have been played last Saturday afternoon will take place at the Calumet athletic park. Mill and Sampson will be the battery for Calumet, and the local team is doing some extra amount of practice for the game. The game means much for both teams for as it now stands each has won a game from the other and the match tomorrow will give them an inkling as to where they stand as far as the championship of Houghton county is concerned.

STUDYING FOR MINISTRY.

Isaac Yohanan, a Persian, Is Seeking Christian Orders.

Isaac Yohanan, a converted Persian, is in Hancock. He was raised in the Mohammedan religion and received his first Christian schooling in a missionary school in a small village in the north part of Persia. He came to this country six years ago and has since been studying for the ministry with the intention of returning to his native land to enlighten his countrymen. He has been taking instructions in Chicago of Rev. Dr. Adams and next fall is going to attend a theological school at Evans-ton. His future field of labors will be in Persia and Caucasia. He is now trying to secure means to pay his way in school by selling a book entitled "Darkness and Daylight" and "Persia by a Persian". He will lecture at 7:30 Sunday evening in costume at the Norwegian Lutheran church and will talk on Persian manners, habits, customs, religion and social life. The lecture is instructive and entertaining. The Persian brings excellent recommendations.

TWO EXCURSIONS PLANNED.

Last Sunday the regular monthly meeting of the St. Joseph's society was held in their hall in the basement of the Holy Rosary church in Lake Linden. At the meeting it was decided to give an excursion to Portage Entry on the 2nd of July. A moonlight excursion will also be given on Torch Lake the same evening. The St. Joseph's military band will render the music for both excursions. The pleasure barge Pilgrim has been engaged and all kinds of refreshments will be on sale on board the boat. The fare will be 50 cents for adults and 25 cents for children.

REPORT IS DENIED.

Friends of Mrs. Cyril Bovin deny that the Val Blatz company will promote the case against the Houghton county street railway company. It is true that Mrs. Bovin and family have been left destitute, but there are enough people of her nationality to look after the legal interests of the family. If there is a case against the electric company it will be prosecuted by friends of the family.

INTERESTING TO ASTHMA SUFFERERS.

Daniel Bante of Otterville, Iowa, writes: "I have had asthma for three or four years and have tried about all the cough and asthma cures in the market and have received treatment from physicians in New York and other cities, but got very little benefit until I tried Foley's Honey and Tar, which gave me immediate relief and will never be without it in my house. I sincerely recommend it to all." People's Drug Store.

FOR SALE.

The Pfeiffer hotel, located at Houghton, Mich., completely furnished and in good condition. Including bar and store rooms. This property now rents for \$275 a month. With a few alterations it could be made to rent for \$350 a month. This hotel is one of the best patronized, and one of the most widely known in the upper peninsula. Located on the main street and in the center of the business portion of the town. This is certainly the best investment offered in the copper country today for the amount of money asked. This property must be sold to settle the Pfeiffer estate. Title is perfect. For terms and conditions, apply to Ernest J. Dube, Houghton, Mich. (6-23-1w)

MOVING WRIGHT'S SAWMILL.

Z. A. Gillett of Keweenaw Bay is here moving the Wright sawmill from the Hancock side of the lake to the Atlantic coast, as the Houghton side for the Pryor company. He expects to have it set up and in operation in September. Hemlock lumber will be manufactured and about 40,000 feet a day will be turned out. It is expected that five million feet a year will be made.

PYTHIANS HOLD MEETING.

Columbia lodge, No. 144, Knights of Pythias of Houghton, held the first meeting in the elegant hall in the Citizens' National bank building last evening. The second rank was conferred on four candidates. The members then partook of a supper in the banquet hall.

FOR BILIOUSNESS USE Chamberlain's

Stomach & Liver Tablets. They cleanse the stomach and regulate the liver and bowels, effecting a quick and permanent cure. For sale by The Stafford Drug Co.

PRETTY HOME WEDDING.

Dr. George A. Conrad and Miss Edith L. Dawe Married.

Wednesday afternoon at the home of Mr. and Mrs. Peter Dawe of Red Jacket, occurred the nuptials of Miss Edith Lyle Dawe and Dr. George Andrew Conrad. Rev. H. Appleton of the Red Jacket Congregational church officiated and said the words that made the pair one. Miss Libby Dawe, sister of the bride, acted as bridesmaid while J. M. Bell looked after the interest of the groom. Miss Dawe is one of Calumet's most popular daughters and for the past few years has been employed on the teaching corps of the Calumet public schools. The groom, though not at the present time a citizen of Calumet, is also well known among the people here. For many years he was one of the physicians on the Tamarack mining corps of doctors. After the wedding ceremony had been performed, the bridal party, consisting of the happy couple and a few intimate friends and relatives, sat down to a neat wedding dinner. Dr. and Mrs. Conrad left on the afternoon train for Chicago and other western cities and after a wedding tour will locate in southern Michigan, where the doctor has a lucrative practice.

- V. Copper Deposits of the World.
- VI. Copper Deposits of the United States.
- VII. Leading Foreign Mines.
- VIII. Lake Superior Mines.
- IX. American Copper Mines.
- X. Statistics of Copper.

The work is an octavo volume of 492 pages, set in Brevier type. It is the only volume printed in any language treating of the entire subject of copper, with descriptions of all principal mines, some 700 properties being listed, the descriptions ranging from a few lines to a dozen pages for each, according to importance.

The price of the Copper Handbook is \$3 in full morocco, and \$2 in buckram binding, prepaid to any address in the world. It will be

SENT ON APPROVAL

and may be returned within 30 days, if the purchaser is dissatisfied, for any reason whatever, and price paid will be refunded.

Address the publisher,

HORACE J. STEVENS,

3 Post Office Block, HOUGHTON, MICH.

FOR SALE-Choice building lots in Nester addition for sale on lot for cash, or on time at low rate of interest. For particulars inquire at office of Peter White. (8-9-11)

ABOUT KENTUCKY OIL.

Extracts from Lexington Papers That Will Interest Upper Peninsula People.

As there are a large number of people in the upper peninsula who have invested in Kentucky oil stocks, and as the Lexington Oil & Gas company is one of the favorites, below are given extracts from this week's Lexington (Kentucky) papers concerning the developments on this wonderfully rich property which covers an area of 400,000 acres and which is located in Bath county:

L. G. Cox, president of the Licking Valley Oil & Gas company, has received the following telegram: "Sally Lick, Ky., June 21, 1902.-Finished Johnson well this morning, going four hundred and twelve feet to the sand, and drilling twenty-two feet in the sand. It made a fine showing, and is good for twenty-five barrels a day." (Signed) FRANK CRAIG.

This is the second well which the Licking Valley company has drilled, and every one of its wells has been a good producer. The field is now so extended and the territory owned by the Licking Valley company so well defined and proven, that it can drill probably sixty or seventy more wells with the absolute certainty of striking the oil sand and getting oil. The Licking Valley company also received yesterday a letter from the manager of an oil refinery, to which a barrel of its oil had been sent on June 9. The letter, which explains itself, is as follows: "Louisville, Ky., June 20, 1902.-Licking Valley Oil & Gas Company, Gentlemen: Your of the 9th to hand, and I wish to beg your pardon for not being able to answer sooner, but I was out of the city for several days, and have not had time to give your oil as full a test as I wanted to. I have, however, made a practical examination of it, and I want to assure you that unquestionably you have a very fine oil. We find it to be exceedingly rich in lubricating oils, very high in fire test, and of a good gravity. As a cylinder stock, I think it makes one of the very finest work stocks I have ever seen. It also works well in making the elastic roof paint that we put up. I am so favorably impressed with it, that I would be willing to risk a few carloads of it, if I could get it at a reasonable figure. Our trade is growing very rapidly, indeed, and I hope that you will be in a position to furnish us this oil in good quantities at an early date. I am very sorry that we have not had time to make a complete scientific test of it, so as to render you a complete analysis of it, but I was only examining it for my own satisfaction with a view of using it. However, some time when convenient I will make a complete analysis of same and will gladly send you a report. You might quote me on a carload of this goods at once." When it is remembered that this letter is from a prospective purchaser of the oil, who would not be apt to give it a higher rating than its quality demanded, it can be understood that the oil of the Licking Valley company are quite satisfied with it. It is also but one of several such letters received from large users of crude oil in the past few weeks.

Arrangements have been, it is understood, nearly completed for the building of a pipe line from Ragland to the C. & O. railroad, a distance of a little less than seven miles, and the officers of the Licking Valley company believe that they will have their oil on the market in the next sixty or ninety days. The daily production of the Licking Valley company from the wells already drilled is thought to be between three and four hundred barrels a day, and by the time the pipe line is finished it ought to be between four and six hundred barrels.

The Licking Valley company has no tankage and its wells have been resting a few days after the steel tank to hold 39,500 barrels of oil. Then the very latest pumping apparatus will be put in, and the tank filled. A pipe line from this field will be built at an early date, and this company wishes to be ready to place its oil on the market as soon as possible. It is well known that standard oil representative has been in the field lately, and it has leaked out through reliable sources that his visit was for the purpose of ascertaining the least possible price for which the oil could be purchased per barrel at the well.

An Ohio mill was sent a barrel of the oil by the Licking Valley company for a test, and after trying it on his machinery, an officer of the mill wrote that it proved entirely satisfactory and offered to make a contract with the Licking Valley people for sixty barrels of the oil a week at \$4.50 a barrel, delivered at their factory.

The Licking Valley company's Bath county property, on which these wells are located, adjoins the property of the Eastern Kentucky Oil company, which has in its leaseholds of 15,360 acres, a tract of 310 acres in Bath county. The Eastern Kentucky is the company of which Geo. W. Hibbard of this city is vice president and in which many Marquette and other upper peninsula people hold stock, now selling at 40 cents a share.

Rounds out the hollow places; smooths out lines that creep about one's face; waxes roses back to faded cheeks. That's what Rocky Mountain Tea does. 35 cts. The Stafford Drug Co.

Loss of Vitality is loss of the principle of life, and is early indicated by failing appetite and diminishing strength and endurance. Hood's Sarsaparilla is the greatest vitalizer-it acts on all the organs and functions, and builds up the whole system.

CITY BREVITIES.

Today's weather: Partly cloudy, stationary temperature, winds becoming variable.

Yesterday's temperature: 7 a. m., 52 degrees; noon, 56 degrees; 7 p. m., 52 degrees. Maximum, 60 degrees; minimum, 52 degrees.

F. M. Sackrider of Houghton was here yesterday.

George N. Conklin left yesterday afternoon for the copper country.

License to wed was yesterday granted to John Aho and Ailina Haryu of Ishpeming.

R. G. Clark, of the Peninsula Bark & Lumber company, was here yesterday from the Soo.

Mr. and Mrs. W. H. Laidley will return from Chicago on the train arriving here this morning.

A jolly little social party, tendered by the "juniors" to the "seniors," was held at Siegel's hall last evening.

Rev. C. M. Thompson, Methodist presiding elder, returned yesterday from a trip to the east end of the peninsula.

Mrs. J. L. Shorey, wife of Dr. Shorey, arrived Tuesday from the East. The doctor is now comfortably settled here.

The Ladies' Missionary society of the Presbyterian church will meet in the church parlors at 3 o'clock this afternoon.

The Lake Shore Engine works made a large shipment of hoisting machinery to the Agnew mine, at Hibbing, Minn., yesterday.

The Misses Angelina Bigraw, Stella Beals, Ida Bellinger and Elsie Rivers have returned from a few days spent at Ishpeming.

William Stewart, the well-known livestockman, is very ill with pneumonia and there is considerable apprehension over the outcome.

George P. Cook, of the editorial staff of the Soo News-Record, returned home yesterday morning. He came up to attend the Mansfield performance.

The summer term of the Normal school will open next Monday, and a very large enrollment is indicated. Over fifty students who will board at the dormitory have already sent in their names.

The social hop given at Fraternity Hall last night was productive of a happy time for the seventy-five couples in attendance. Splendid music was furnished by a portion of the Ideal orchestra-Professor Kluge, Charles Geill and Miss Freiburg.

Mrs. E. M. St. Jacques and Mrs. J. C. Maxson of Escanaba and Mr. and Mrs. Henry Deloria of Garden Bay, who have been the guests of Mr. and Mrs. A. E. Archambeau and other Marquette friends for a few days, returned home last evening.

Carl P. Moore, after a couple of days' visit at his old home here, has returned to the copper country, where he is a member of the clerical force of the Western Pacific & Iron company. He will soon leave for Duluth, however, to take a position in the office of the Oliver Mining company.

Mrs. W. B. Leveque and daughter Norma and son Earl, who have been visiting the family of Lou J. Leveque, will leave today for Iron Mountain to visit friends. From there they will return to Boulder, Colo., their home. This is Mrs. Leveque's first visit to Marquette and herself expressed herself charmed with the city, its people and the beautiful Lake Superior.

The street railway company this week received two new motors, each of twenty-five horsepower. They will for the time being be kept in reserve, for installation in case of accident to any of those now in commission. It is the intention, however, to equip more of the rolling stock as trolley cars, and many for the purpose will be ordered at an early date. Two twenty-five horsepower motors will be installed in each of the cars.

The picnic given at Presque Isle yesterday by the Lady Macabees was the largest ever held under auspices of the ladies. Although the weather was cold, nearly 300 ladies and a goodly number of children were in attendance. There was music and dancing and the tables were spread with all kinds of good things. The great success of the affair was largely due to Lady Commanders Frygoe and Salter, and to the committees.

It is evident that the cultivation of the sugar beet is to be given a good test in the upper peninsula this season. Some 600 pounds of seed have been distributed by Superintendent Geislar, of the state experimental farm at Chatham, among farmers in many of the counties of the peninsula and there was still a demand that could not be filled. The soil in the peninsula is declared excellent for the cultivation of the beet, and it is the anticipation that the creation of beet sugar factories will follow on the heels of this season's extensive experiments.

Lester Clark of this city has been appointed by Major Boynton as a member of the great auditing committee of the K. O. T. M.'s. Mr. Clark is a member of Queen City tent, No. 448, and has

A MEASURE OF MERIT. Marquette Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence. Concluding evidence in Marquette is not the testimony of strangers, but the endorsement of Marquette people.

That's the kind of proof given here. The statement of a Marquette citizen.

Mr. A. Hoard of Dead River Mills, says: "There was a dull aching pain across the small of my back and in my kidneys at times so severe that I could hardly stand it, particularly if I caught cold or did any heavy lifting. I took medicines at different times but the trouble still remained as bad as ever. When I saw Doan's Kidney Pills advertised I got a box at the Stafford Drug Company and used them. The treatment cured me."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's and take no substitute.

BASEBALL.

Following are the scores in yesterday's games and the standing of the teams to date:

ECZEMA

is due to the retention in the system of Uric Acid, or other inflammatory poisons which find their way into the blood, and are forced by the circulation through the glands and pores of the skin, causing it to burn like fire, and the incessant itching allows no rest night or day. Eczema appears in a great many different forms, beginning frequently as a mere redness of the skin, followed by little blisters or pimples, then a clear or straw colored matter oozes, forming into sores, scales or scabs; this is weeping Eczema, commonly called Salt Rheum. These acid poisons sometimes dry up the natural oils and the skin becomes hard and dry, often cracking and bleeding and causing intense pain and fearful itching. This form of Eczema is known as Tetter, and often attacks the hands and feet. Unsightly eruptions in the shape of pimples and blackheads break out upon the face, neck and shoulders as a result of polluted blood, and this humiliating disease is called Acne. Local remedies afford but scant relief. The blood and system being saturated with the poison, the disease cannot be reached with washes, salves, powders or other local applications. S. S. S. restores the deteriorated blood to its normal condition, stimulates through the proper channels. S. S. S. makes the blood rich and strong, and under its tonic and invigorating effects the general health improves, and the skin becomes soft and smooth again.

S. S. S. contains no minerals but is guaranteed purely vegetable. Write us if you need medical advice; this will cost you nothing. Illustrated book on skin diseases sent free.

Home Co-Operative Company

Pioneers in the Co-Operative Field. The Old Reliable. 300 homes matured in the first 12 months. Why pay rent or interest?

House bought for D. D. Beault, 4622 Shenandoah Ave., St. Louis, Mo. Value, \$4,000. He pays \$21.40 per month.

The membership fee and monthly dues are less with us than in any other co-operative company. We will furnish you the money to pay off your mortgage or buy a home, city or country, anywhere in the United States, and give you 15 years and 8 months to pay it back at the rate of \$5.35 per month on each thousand applied for, WITHOUT INTEREST. We are an association of people loaning money to one another. This plan is devised to help the salaried man and the wage-earner. Each subscriber pays a small amount each month. This money is collected by the company each month and the company buys as many homes each month as it has the money to buy with. All money paid before maturity is applied on the purchase price of your home. Each member gets his home in his turn. When the subscriber gets his home he pays for it at the rate of \$5.35 per month until all the money loaned him has been repaid. This company is not loaning its own money. It is the exchange of the members' money that makes it possible for each one to get the use of money without interest. GUARANTEE-We guarantee each man a home in his turn. IT IS IMPOSSIBLE TO GUARANTEE WHEN YOUR CONTRACTS WILL MATURE. THE LARGEST AND MOST RELIABLE COMPANY OF ITS KIND IN THE UNITED STATES. The more money paid in the more homes we purchase. WE GUARANTEE TO DEAL HONESTLY WITH OUR MEMBERS. Come and investigate us. We have the endorsement of thousands with whom we are doing business. If you are sick or out of employment we make your payments out of the Reserve Fund. If the husband dies we forgive the debt to the wife or heirs. Don't say it can't be done until you have heard it explained. Insurance men and mathematicians say it can't. Send 2-cent stamp for further information.

GANG WAS HERE.

Pickpocket Who Followed the Circus Arrested on a Train.

It is probably not generally known that there was a gang of pickpockets following up Ringling Bros. circus at the time the show was here. Detective Ryan, chief of the "fly cops" with the show, had them spotted, however, and the first thing he did when he struck town that morning was to post the local police officers. The fellows were closely watched and before noon they were invited to quit the city. They took the hint and left, but it seems they bobbed up at Escanaba the next day. The following from a Memorandum paper gives an account of the arrest of a sharper who was doubtless one of the same gang driven from this city:

"One of the many smooth gentlemen who frequent the passenger trains in this part of the country, trying to beat woodsmen and farmers out of their money, was arrested at a point between Powers and Iron Mountain. When the train arrived at the latter place from Powers, there was quite an exciting time at the depot.

"At Powers one of the railroad detectives, who was on the train, arrested a fellow on suspicion of being a pickpocket. The arrest was made very quietly and the prisoner's pals did not know what had happened until the train pulled into Iron Mountain. As it was entering the city one of the gang jumped through a window, making his escape, and during the excitement all but one got away.

"The man whom the detectives had turned over to the police and locked up. The officer claimed he was the fellow who was detected in picking pockets at Escanaba and he was taken there. He gave his name as Jacobson."

It is worth noting that Ringling Bros. that they never allow thieves to follow up their show. It is said that the management of the Buffalo Bill show also has special detectives out who post the local officers on crooks following them.

BOARD OF REVIEW.

It Made No Important Changes in Assessed Valuations of Property.

The board of review finished its labors yesterday after a four days' session this week and two days last week. A large number of property owners called at the council chamber and examined the roll, but very few had objections to offer to the assessed valuation of their properties. This, together with the fact that the board made no important alterations, would indicate that the work of Assessor J. H. Quinn has been very satisfactory.

GRAND ARMY REUNION.

Municipal Officers Will Assist in Entertaining the Visitors.

Mayor Felch is very much interested in the forthcoming reunion of the old soldiers of the upper peninsula, which is to be held in this city July 9 and 10, and has expressed willingness to assist the local grand army post in every way possible.

THE PASSION PLAY.

Reproduced With Moving Pictures at St. John's Church Tomorrow Evening.

The Passion play, the greatest religious spectacle of modern times, will be reproduced with large moving views and stationary pictures, taken from the original play at Horitz, Bohemia and Oberammergau, at St. John's church tomorrow evening. This presentation comes highly endorsed by both clergy and press throughout the state, as giving an accurate idea of the original play, of which so much has been said and written. The presentation commences with a series of moving pictures depicting the great crowds of visitors at the various points of interest. These scenes are followed by moving views of the play itself, beginning with the triumphant entry into Jerusalem, and ending with the resurrection and ascension into Heaven. The views are accompanied by a descriptive lecture by Mr. Walter Kilrain, whose intensely interesting treatment of his subject, renders the production one of unusual merit. The prices will be thirty-five cents for adults and fifteen for children.

ISHPEMING IN BRIEF.

Miss Maud St. Ongie of Quinnessee in the city visiting Miss Minnie Lavigne.

Mrs. A. K. Sedwick and child are in the city visiting at the home of Mr. Sedwick's parents.

Fred Kaufmann disposed of his team of white horses this week. An Escanaba man bought them.

T. Vassaw and wife of Escanaba, who have been in the city since Tuesday, will return home today.

O. E. Peterson of Escanaba, for many years a resident of this city, circulated among friends here Wednesday.

The Winthrop people expect to entertain many visitors on the Fourth. The program of events to be pulled off will be a fine one.

Over seven hundred actors take part in the Passion play, which will be reproduced in life-sized views at St. John's church tomorrow evening.

Will Betterson, head clerk at J. Sellwood & Co.'s grocery store, was out yesterday for the first time in several days. He had been confined to his home by illness.

The members of the Negamie Orchestra had here to advise their friends in Ishpeming that they will give a picnic at the Cleveland Park on Saturday, July 5. It will be the only affair of the kind in the Twin Cities, so far as at present known, and it will doubtless be well patronized. They will be dancing all afternoon and evening.

The people of the smaller towns in the western end of the county are preparing to celebrate the Fourth at home this year. There will be observances of the natal day at Champion, Michigan, Republic and Humboldt, while Ishpeming, Negamie and Marquette will not do anything in that direction. The South Shore line is advertising special rates to all points on the system.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

No one would ever be bothered with constipation if everyone knew how naturally and quickly Burdock Blood Bitters regulates the stomach and bowels.

Michigamme.

WORKING ON THE ROAD.

Michigamme Township Will Make it Possible to Drive to Huron Bay.

About a dozen men are working steadily on a road to be extended from a point near Olson's farm to the roadbed of the old Huron Bay line, which was recently dismantled. Ole Elmes, highway commissioner of Michigamme township, is superintending the improvement, which is being made by the township.

There is about seven miles of road to build, a considerable task. It will require the balance of this and part of next summer to complete the job. A part of the disagreement as to the condition for use rapidly as there is an old logging road available.

The roadbed of the Huron Bay line will not need any attention, as it is said to be ready for teaming. After this connection with the roadbed is made it will be possible to drive from Michigamme to Huron Bay, a distance of some thirty miles or more.

The road will be of inestimable value to people living in Michigamme. Sportsmen can reach a very desirable district for fishing and hunting. It is now impossible to get that region with a team during the summer months. The trip can be made in winter time over the logging roads. The new driveway will be well built so that fairly good time can be made over it.

WILL TEACH SUMMER SCHOOL.

John Dunn is down from Covington, where he has been engaged as a teacher in one of the schools of the township for the past year. He will return in a few days to take a place in the general store of V. H. Oakley for a couple of weeks, during the absence of the manager, who goes away on a vacation. As soon as the manager returns, John will go down to the Finnish settlement, where a school is to be opened. He will manage this until the opening of his own school in September. There are a number of large students at the Finnish settlement who have never attended a school of any kind and John anticipates having a most pleasant time teaching them to talk and read English. Incidentally he expects to master the Finnish language. He will at least endeavor to learn to talk it while at the settlement.

WILL CELEBRATE THE FOURTH.

At a mass meeting held Monday evening the citizens decided to celebrate the Fourth. A committee was named and several of its members began work at once. A goodly sum was raised and every dollar of it will be spent in giving the people of the village and the visitors a good time.

The athletic will be completed before Monday. It is understood that there will be athletic sports. There will also be sports on the lake, such as boating contests, log rolling, etc. A baseball game for which a liberal prize will be offered will be one of the features. There will also be a picnic for the children at the new school grounds. A band will be engaged to furnish music during the day.

THE FIREMEN'S BALL.

The members of the fire department are manifesting much interest in the ball to be given the night of July 3. It is expected that there will be a number present from Champion. The arrangements for the function are in the hands of a committee composed of Peter Dolf, William Harrington, Frank Lyburne, Fred Schwendeman and Phil Tresholt. Tickets will be \$1 each. The Michigamme orchestra will furnish the music.

INSURANCE NOT PAID.

In last week's items it was stated that the Maasebo society had paid the death claim of the late Emil Carlson and that the money had been turned over to the father, who was the young man's beneficiary. The reporter was advised this week that the money has not arrived, but that there is every reason to expect it along any day now.

MICHIGAMME PICK-UPS.

Miss Laura Gere is home from St. Joseph, Mo.

A daughter was born on the 19th to Mr. and Mrs. Horace Laetruier.

About twenty residents of this village took in the exercises on the Chicago & Northwestern line to Menominee and Marinette Sunday last.

W. J. Goodney and Peter Paquin represented Michigamme township at the Republican county convention held at Marquette last Monday afternoon.

A number of Michigamme people took in the French celebration at Ishpeming Tuesday. There is no French society here, consequently the attendance from this village was not as large as from Champion and Republic.

Rev. Father Hassenberg spent the early part of the week in Milwaukee. He went down to attend the graduating exercises at a college which his nephew attends. The young man was a member of this year's class.

Several candidates were received at a special meeting of the local lodge of the Ancient Order of United Workmen held last Monday evening. The membership of the order here has increased steadily for the past year or more.

Stetson's Uncle Tom's Cabin company had to abandon their tent here last Saturday. It rained hard all day and by evening it was quite impossible to reach the site where the company had planned to raise the canvas without the aid of a boat. The performance was given at Odd Fellows hall and the attendance was large in spite of the disagreeable weather. Uncle Tom's Cabin never fails to draw a crowd here.

My little son had an attack of whooping cough and was threatened with pneumonia, but for Chamberlain's Cough Remedy we would have had a serious time of it. It also saved him from several severe attacks of croup.

COPPER MINING.

WOLVERINE HAD GOOD YEAR.

Production Is Estimated at 5,300,000 Pounds and Is Big Increase.

S. J. Beban says in the Hancock Evening Journal: The fiscal year in the affairs of Wolverine will come to an end Monday and a handsome output is expected for the closing month. It has been stated that the figures will reach 300 tons and this would not be surprising. The Wolverine product for the year has been estimated at 5,300,000 pounds which is considerably in excess of that of the year previous. The official report giving the exact figures will be issued shortly, and it goes without saying that it will prove pleasing reading for the shareholders. Within a month or so Wolverine will strike its proper gait, when production will be at a rate of about 8,000,000 pounds annually and it is safe to say that the output will be laid down in the eastern market for less than nine cents per pound. Wolverine is about to enjoy the proud distinction of being permanently equipped in each and every department for the life of the property. In addition to this the company has a nice treasury fund and on the whole it takes rank among the very best copper investments.

AT THE MOHAWK.

Extensive Improvements Will Soon Be Made and Equipment Added.

No. 1 shaft of the Mohawk mine, the most northerly in the property, is down to the seventh level, with sinking going forward; No. 2 is 1,100 feet south of No. 1, and is sinking to the seventh level; No. 3, 1,100 feet further south, is also down to the sixth level, while No. 4, 1,300 feet south of No. 3, is down to the fifth level, and it is only recently that sinking was resumed at shafts one and two, the management devoting all time to making and blocking out ground reserves, so that sufficient ground stamps might be easily and economically supplied to the heads on the starting of the mill.

The four shafts of the Mohawk commands some 6,000 feet on the lode, and there is room for two or three more shafts to the south, as there is a length of some 10,000 feet on the strike of the lode, ample mining territory to supply four heads for very many decades—so long that few living today can hope to survive to see the end of it, and this is what one of the best posted copper brokers in Boston is pleased to call a "little" mine. It is one of the "little" mines that investors may stay with—lock its shares away and that you own Mohawk will be brought home to you at regular intervals by the handsome dividends it is sure to return stockholders.

The Mohawk will furnish about 1,000 tons of rock per day to mill, or say 25,000 tons per month, and this at a yield of say 25 pounds per ton, which is conservative, would give an output of 250 tons per month, or 3,000,000 pounds, and at a margin of four cents per pound profit, would net \$320,000. This is figuring a cost of about 12 cents per pound, and a market of 12 cents. With four heads the above would be doubled—the output 16,800,000 pounds and the cost would not be above 7 cents per pound, and on a 12 cent market the net earnings would be \$840,000, or \$8.40 per share; the Mohawk has six heads and returns would be over 50 per cent more, or fully \$1,320,000 per share. The low cost estimate is warranted from the fact that Mohawk has copper ground from the grass roots—the No. 4 shaft being in continuous run for some years, face down, the walls and hanging bristling with projections of mass and barrel copper, as also stamp rock—and then the most extended openings in shafts and drifts are fully up to the average of the mine, and when the mill starts every prediction of the Times will be more than verified.

A new rock house is being built at No. 3 shaft, and all rock for the two and 3 shafts, while No. 4 shaft is to be equipped with new shaft and rock house, a new hoist having already been ordered for this point, so as to be ready to go into commission on the putting in of the fourth head. The two heads will soon be ready for duty, and on their commencing the work of adding a third head will likely be proceeded with, and with the third in, a fourth will be added, thus completing the present mill, and under the direction of Agent Fred Smith, at the mine, who, true to his conservatism and a firm belief in legitimate and economical mining, has slowly but surely developed the Mohawk for a future that cannot out be bright and profitable to those interested, in short has given the eastern management and shareholders a mine, and will soon have a mill, when regular production will be begun, and new history will be made for a Kearsarge formation—history that will make more convincing than ever the fact that the Kearsarge is the great master amygdaloid lode of the Lake district.

Copper Gossip.

An official of the Daly West Mining Co. says: "We are preparing to start a new shaft in the Quincy mine that will

be deeper than any yet sunk. And production will be largely increased. I don't think it likely the directors will increase the dividend at the meeting but it will be done before many moons."

QUEER THINGS OUT OF CLOUDS.

Mud in New York, Brown Snow in Austria, Colored Hail in Russia.

New York's recent shower of muddy rain is one of those phenomena which, though not common, occur at long intervals in all parts of the world. Not long ago at Flume, in Austria, there was a heavy fall of half-frozen, brownish snow, and in Italy, and some parts of Germany, there was a down-pour of red rain. It was found upon investigation that the brown snow of Flume was caused by the admixture of sand which had been blown from the desert of Sahara hundreds of miles away across the Mediterranean, and the red rain was not a deluge of blood, as the peasants thought, but was due to the presence of quantities of minute infusoria, which somehow had been drawn up into the heavens and let down again when the clouds fell 's rain.

A singular phenomenon of this sort occurred in Venezuela some time ago when colored hailstones fell in the state of Zamora. There was first a heavy thunder storm with much rain, and then, after a while, the hail came down in such abundance that hundreds of bushels of hailstones might have been gathered. Some of the hailstones weighed as much as two ounces. It is well known that in the tropics hailstorms are exceedingly rare in places situated in the lowlands. But this hailstorm was particularly remarkable on account of the color of the hailstones, some of which were whitish, while others were blue, green, rose color or red.

Schvedoff, who, in his memoir on the origin of hailstorms, describes a fall of similarly colored hailstones which fell at Minsk, in Prussia, in the month of June, thinks that the colors are due to the presence of nickel and salts of cobalt, and that the phenomenon confirms his hypothesis of the cosmic origin of the rain. There have been many authenticated cases where, after a heavy rain, the ground has been found strewn with small fish which have dropped from the clouds, and even young frogs, scarcely out of their tadpole state, have been known to descend upon the wings of the wind. One theory is that all these foreign substances are carried up into the clouds by whirlwinds, and another that the least bulky of them, such as minute infusoria, are caught up in the process of evaporation.—New York Mail and Express.

OLD RESIDENT DIES.

Wife of Joseph Kirkpatrick, Jr., Passed Away Early Yesterday Morning.

The news of the death yesterday morning of Mrs. Joseph Kirkpatrick, Jr., though expected, was a shock to her many friends. The end came soon after midnight. Cancer of the stomach was the cause of her demise.

Mrs. Kirkpatrick had been confined to her bed for the past few weeks. She was a patient sufferer and she was cheerful and happy to the last. She realized that the end was coming and she met death bravely.

The deceased was born in 1854 at Alburgh, Pa. Twenty-four years ago she moved to Negaunee and she had resided here continuously ever since. She is survived by her husband and two adult children, a son and daughter.

The funeral will be held this afternoon at 2 o'clock from the family residence. Services will be conducted by Rev. Dr. Smith, pastor of the Presbyterian church.

'RAH FOR JOE FOLEY.

Under the above caption the Detroit Tribune has the following:

Joe Foley of Negaunee discovered in the Rainy Lake region, a gold mine. Joe had made a few thousands in the iron mines of the Minnesota range and he set his fortune on the east and vowed to "stand the hazard of the die." He capitalized with an English syndicate, and expensive machinery was introduced and Joe soon had in bank 51,000 shares of stock for which the monthlies of the capitalists watered to give him \$3 per share. But Foley was no such fool. He held on till his English friends worked the trick that two cents a barrel machinery for the value of a song with no encore. The mine representing \$200,000 in holdings will be operated with Foley a heavy stockholder, and he fully expects to again shake hands with his original \$30,000 and get acquainted with the touch of many times that sum.

Capable judges of the value of a mine and the mine assert that it is rich and that Foley is the only man alive with the doom of financial death upon him who could thus have risen up and wrung the neck of fate.

A STARTLING RUNAWAY.

Hugo Muck's new team of bays created no little excitement yesterday morning shortly after 8 o'clock. They were standing in front of his meat market on East Iron street, when a street car frightened them. They turned suddenly, took the sidewalk near the market, then went across the street and ran along the sidewalk in front of John Parala's place, straddling a hitching post, which went down before the wagon. In making the turn to Pioneer avenue a part of the Breitung House fence was damaged.

The climax was reached in front of George Haupt's grocery store, two blocks north of the Breitung. Haupt's team was standing in front with a load of hay on the wagon. The runaway horses smashed against the rear end of the load with such force that several bales of the hay flew to pieces. One of the Muck horses turned completely over and lay helpless on the ground. The other was fastened in such a way that it could not move. Haupt's team gave a plunge when the crash came and broke entirely away from the wagon. The horses were caught before they had gone far.

Strange to say neither of Muck's horses were injured. It was thought that the one that tumbled would surely come out much the worse for the run, but when placed upon its feet it seemed all right.

ETHER GOES TO CLEVELAND.

Offer Ether, who has been in the Duluth office of Corrigan, McKinney & Co. for some time past, has spent the past couple of days here visiting his people. The Duluth office of the corporation has been closed and Offer goes to the main office at Cleveland.

The change is a promotion as he will have a more responsible position in Cleveland. The other office hands have been transferred to the company's branch offices. One is on the Menominee range and the other is in the Minnesota field. Mr. Ether has done unusually well since entering the employ of the Cleveland concern. He started to work for the company at Crystal Falls some four or five years ago. He has taken several steps upward and with each promotion came a raise in salary. He left last night for Cleveland.

MAKING OUT THE BILLS.

City Reorden Mitchell and Superintendent Buzo of the water works system are busy making out bills for the water consumers. There are over eight hundred bills to be prepared four times a year. The superintendent is obliged to make the rounds and collect about half of the accounts. Water takers here should be obliged to pay at the office as they are in other cities and towns of less importance than Negaunee.

An Egyptian fortune teller, gives past, present and future; perfect satisfaction or no pay; can tell about business affairs, money matters, etc. At Montreal House, Negaunee, one week only. (6-25-1w) Egyptian Fortune Teller.

No good health unless the kidneys are sound. Foley's Kidney Cure makes the kidneys right. People's Drug Store.

WHIST PLAYERS ARE HERE.

Large Number of Visitors Are Attending the Summer Meeting.

The ladies and gentlemen in attendance at the summer meeting of the Upper Peninsula Whist League began to arrive Wednesday evening. Others came yesterday morning and the greater part of them returned home last evening as passengers on the noon train. The Escanaba ladies in the city are: Mesdames C. R. Williams, James A. Burns, A. Erickson, D. A. Oliver, F. L. Phillips, O. B. Fuller, J. H. McKenna and W. W. Oliver. Houghton's late delegation is composed of Mesdames C. L. Sheldon, E. A. Douglass, A. Ornduff and W. J. McMaster. They arrived Wednesday evening and are quartered at the Breitung.

A dozen or more Marquette ladies and gentlemen came up yesterday morning. Most of them returned home last evening and will be up again this morning. The Ishpeming people came over on the street cars after dinner.

The delegation expected from Sault Ste. Marie did not come. Word was received that it was impossible for some of the best players in that town to attend and it was thought best not to send a weak team. The Soo team thus forfeits its right to the trophy. All the whist players present regret the absence of the Lock City people. Calumet, Houghton, Escanaba, Marquette, Ishpeming and Negaunee are represented.

Today's program will be greatly enjoyed if the weather is favorable. At 9:30 o'clock the ladies will be taken for a drive around the Cliffs and at the same hour the gentlemen will play golf at the Links of Wawowin club.

At 2 o'clock playing for the Soo trophy will be resumed. The contest will be open to club pairs and any member can enter.

The gathering will be formally closed tonight with a reception and ball at McDonald's opera house. A limited number of tickets have been issued. Nearly all the visitors will remain over to attend the party. Tremblay's orchestra will furnish the music.

LOCAL LACONICS.

Miss Amelia Grenier has returned from Milwaukee, where she has spent the past few months.

Andy Seass came up from his camp yesterday morning. He will return again today or tomorrow.

Mrs. Andrew Buckley of Escanaba, for many years a resident of this city, is here visiting relatives and friends. Mrs. Buckley and her late husband were among Negaunee's first settlers.

Dr. Carl Moll and wife came down from Sault Wednesday and returned home yesterday. The doctor will be here again tomorrow on his way south. He will enjoy a vacation of a couple of weeks or so.

Captain C. D. Blanchard was up from Marquette yesterday looking into the case of the young boys who were arrested some weeks ago for breaking in the Pioneer Iron company's warehouse and stealing some brasses.

Mrs. Margaret Hassett, who resides on the corner of Tobin and Clark streets, is in search of a cow which left her place recently. A description of the animal is given elsewhere in this issue. A reward will be paid for its return.

A party of young people had arranged to take a sail on Teal Lake last night, winding up with a picnic on the north shore, but the weather was so chilly that the outing was postponed. Another date will be decided on within the next few days, as soon as the temperature warms up a little.

Negaunee young ladies who will assist with the production of the Indian opera, "Powhatan," at the Ishpeming opera house tomorrow and Monday, arrives a variety of confections and although the store was opened but a few weeks ago he is already receiving a nice patronage. Ice cream is sold \$1 per gallon, delivered to any part of the city. Mr. Apostle has an announcement in another column of today's paper.

The men who have been working on the Chicago & Northwestern line between Ishpeming and Escanaba will finish up tomorrow or Monday, when they will be transferred to Chicago. The "horseshoe curve" near Swanzy, which all the railroad men on the line have disliked has been straightened. It is said that the track shifted nearly three feet at one point of the curve during the past thirty years. The line is almost straight so that the trains do not reduce speed any longer.

VIROULENT CANCER CURED.

Startling proofs of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, W. Va. An old man there had long suffered with incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time, they exert a most matchless healing power; blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, 25c at The Stafford Drug Company.

It's a mistake to imagine that itching piles can't be cured; a mistake to suffer for day longer than you can help. Doan's Ointment brings instant relief and permanent cure. At any drug store, 50 cents.

COPPER COUNTRY

(Additional.)

BARAGA VS. LAKE LINDEN.

Two Teams Will Play at Former City Sunday.

Next Sunday the base ball fans of the county will have an opportunity of seeing one of the best ball games to be played this season and also an enjoyable ride on Lake Superior. The senior base ball team of Lake Linden, have chartered the steamer Ben Ami for the occasion and an orchestra to furnish music. Immediately on the arrival of the steamer at Baraga, they will cross bats with the best team that Baraga can put up. The Baragas have a very strong lineup this year and having been defeated by the Lakes last season, intend to regain lost laurels. Warner and Nagerbauer will be the battery for the Lakes and Berryman and Demouier for the Baragas. Tickets are now on sale in various places in town, and all who attend are assured of a very pleasant time.

WEARS NUMBER TWENTY SHOES.

Louis Neillanen, a Sixteen Year Old Youth Is a Veritable Giant.

Louis Neillanen, a sixteen year old boy at Boston location was in Hancock recently being measured for a pair of shoes at Ehler's. He is seven feet tall and weighs 289 pounds. He wears number twenty shoes. Mr. Ehler is building a pair of lasts to compare with the lanky boy's feet. The young fellow grows about three and a half inches a year. Two years ago he wore sixteens and last year when he was confirmed at the Finnish church the shoemaker made a pair of "eighteens" for the event. Louis can just pass through the front door of the shoe store; there is only a fraction of an inch to spare. His parents live at the Franklin Junior and are small persons. The mother is not over five feet high in height and the father is medium sized. His son is certainly a wonder. He expects to go to work in the mine.

COPPERDUM BREVITIES.

Mrs. H. Z. Brock and family have gone to the homestead in the Elm river district.

The steamer Peerless of the Chicago line arrived down at 1 o'clock Thursday afternoon.

Miss Ada Salmu of Calumet, well known in Hancock, will leave for Soudan, Minn.

Miss Anna Dugdale has been engaged as stenographer at Elks' Carnival headquarters.

Work on the new brass foundry in Ripley is progressing. The building is ready for the roof.

Miss Daisy Henwood and Miss Mabel Webb have gone to Beacon Hill to visit Mrs. George S. Goodale.

Capt. Joe Linder's Hancock Sluggers will go to South Lake Linden Sunday to play the Grover nine.

The steamer City of Traverse cleared from Chicago Wednesday night and will arrive at Portage Lake Sunday.

The steamer Bon Ami of the White line cleared for Ontonagon, Ashland and Duluth at 7:30 Wednesday evening.

Miss Madge Collins, who has been away to school for a year, returned to Atlantic from Ypsilanti Tuesday.

Miss Katherine Ellis has returned home from Olivet college where she has been attending school for the past year.

Sunday will be memorial day for the Lake Linden lodge No. 245, I. O. O. F. When appropriate services will be held.

The cooler J. B. Lozen arrived at the Mineral Range coal dock Wednesday afternoon with coal for a Calumet firm.

Albert Beakley is laying an artificial stone walk in front of the Beakley block on Quincy street in West Hancock.

Miss Lizzie Paavola, a student at Suomi college, has gone to Republic to teach a Finnish school there this summer.

Joseph Keller of West Hancock, who has been ill for several weeks, was taken to St. Joseph's hospital Thursday morning.

Dr. and Mrs. Moore and Mr. Stanton of Atlantic left on Tuesday for New York. Mr. Stanton will be away about two weeks.

John Kiskila and August and Andrew Mollanen of Calumet were visitors at the Finnish celebration of St. John's day in Hancock.

Andrew Mollanen has returned from Ethington, Ill., where he has been taking a course in photography for the past nine months.

Members of Grace M. E. church and friends went to Agate Beach on the shore of Lake Superior on an excursion by the Copper Range road yesterday.

The Arcadian M. E. Sunday school will give an excursion to the ship canal Saturday. The Arcadian band will accompany the party on the pleasure barge.

William R. Todd of New York, secretary and treasurer of the Quincy Mining company, will arrive in Hancock Saturday on the steamer India of the Anchor line.

Misses Stratton, Polkinghorn and Nagerbauer will attend the normal school at Marquette during the summer term.

Joseph Fox entertained a number of lady and gentlemen friends at his home on Quincy street Tuesday evening. Music and refreshments were the features of the evening.

Two picnic excursions went to the ship canal by pleasure barges today. The tourists were St. Patrick's school and members of St. Peter and Paul's German Lutheran church of Hancock.

The Houghton Light Infantry met for our door drill last night. The third dancing party of the season will be given at the Army tonight. The company will go on the forced march Saturday night.

Miss Kathryn Gross of Ishpeming, arrived in Calumet Wednesday evening and

FATTON PAINT CO. Seattle, Wash.

I've been thinking now for ages
On the paint that people use,
And my pleasure is to tell them
That I wish they'd get the time;
For I struck a kind this morning
That would not grow quickly faint,
And I found by making tests
That "Futton's Sun-Proof Paint."

Why, I chose and chose upon it
So to make the paint degrade,
And I surely had a sun-burn
Over this stuff that you have made.
When I saw my work quite made
That I called on every painter,
But they, too, could not affect it
"Twas your "Futton's Sun-Proof Paint."

And now, sir, here's my order:
Fifty gallons send to me,
Of your brightest golden color,
And please send it C. O. D.
To use on the Sun-Proof painting
So I thought I'd send an order
For your "Futton's Sun-Proof Paint."

Yours truly,
The Man in the Sun.

TO SHIP ORE ALLRAIL

PROPOSITION ADVANCED WHICH STIRS MARINE MEN.

IS THE PLAN OF DAN KAUFMAN

IRON FROM THE MINES DIRECT TO THE FURNACES.

Via South Shore, Manistique, the Ferris and the Pennsylvania, With the Cars Taking Coal Back—Low Rates Feasible.

A new route from lower Michigan points to Duluth, saving eighty-five miles in the length of the present shortest route, is what is claimed by Dan W. Kaufman of Marquette for his new across-lake line via Northport and Manistique.

Mr. Kaufman has given an order to the American Shipbuilding company for the first of two immense car ferries, which will be ready for service at the beginning of navigation next April. This ferry will have a capacity of thirty cars, and will be about the same as the Pere Marquette ferry, which was turned out last winter, except that it will be equipped with more powerful engines.

The new ferry will be started on the route between Northport in the lower peninsula of Michigan, and Manistique in the upper peninsula. It will form a connecting link between ports that are open all the year around, for two sections of a system of railroad that are quite important, though small.

The Manistique, Marquette & Northern extends from Manistique almost due north, having a connection with the Soo line at Manistique and with the Duluth, South Shore & Atlantic at Shingleton. This will give the road important feeders for its lines in the lower peninsula. A line is now projected between Traverse City and Northport, through Leelanau county, that is under construction and is to be known as the Traverse City, Leelanau & Manistique, which will have its lake port at Northport. At Traverse City the line connects directly with the Grand Rapids & Indiana railroad, a Pennsylvania property.

Mr. Kaufman advances a proposition which has stunned some of the marine men. He says that it is altogether possible for the road to handle ore down from Manistique, or possibly Duluth, and to handle coal back, all rail, by the use of this ferry, and thus for the first time in the history of the great lake trade bring the all-rail competition directly opposed to the boat lines into a trade that boats have hitherto monopolized. The undertaking is gigantic and almost incredible. Mr. Kaufman says, however, that he believes the rates can be operated in such a way as to make it a paying business. The route would be the South Shore from Marquette to Shingleton, the M., M. & N. to Manistique, the ferry to Northport, the new T. C. L. & M. to Traverse City, and the Pennsylvania or its connections through to the valleys or the Pittsburgh district.

BASEBALL DEFI ACCEPTED. Marquette Traveling Men Will Meet Negaunee-Islepening Team.

To the Mining Journal:—In answer to the challenge which recently appeared in the Negaunee department of your paper, will you kindly publish the fact that the Marquette commercial travellers will be pleased to meet the Negaunee and Islepening men in a match game of indoor baseball at Marquette and at any time agreed upon.

The Marquette boys are perfectly willing to let the Twin City team select their own umpire, as they are satisfied that it will be impossible to get a man with sufficient nerve to make enough unjust decisions to throw the game.

The only conditions required by the home team are the visiting players shall all be travellers and wear a uniform costume.

The Marquette boys are the champion U. T. C. players of the world and the Twin City men should certainly appreciate the honor of being allowed to play with them. Signed, C. A. WHEELER, E. F. ENKING, J. E. BURLLESS.

FINE NEW LAUNCH. Staunch Little Craft Is Added to the Fleet in This Harbor.

The local launch fleet has received a notable addition this week in a staunch little craft owned by Frank and Phil Spear and Fred Schullthes. The boat was built by the Pierson company of Duluth and has been equipped with a "twin-three" Superior gasoline engine of six horsepower. The launch is twenty-seven feet over all and has a seven-foot beam. It is of the Mackinaw type and has a mast and sails for use in emergency. It is decked over for six feet forward and four aft, and aside from presenting a very handsome appearance it is claimed for it that it is the most seaworthy small craft in the harbor and able to withstand almost any sea. The boat has a speed of between seven and eight miles an hour. The trial spin yesterday was highly satisfactory to the young gentlemen who will sail the boat.

MEETING OF MERCHANTS. Called for This Evening to Discuss the Picnic Plans.

To the Merchants of the City of Marquette: A meeting of the merchants is hereby called for this (Friday) evening at eight-thirty by the clock, to be held in the board room at the city hall. The question of date for the holding of our annual "Pie-Nic" is to come up, and a full attendance of the merchants is very much desired. This is the only notice that will be given. Don't wait to be called up by phone or have to be

sent after, but charge your mind NOW with the date, hour and place, and be on hand promptly. Friday evening; hall past eight; city hall.

MERCHANTS' ASSOCIATION. by E. B. Palmer, President.

WAS AGED OVER 78 YEARS. City Loses a Pioneer in the Death of Mrs. McCombs.

Mrs. Margaret R. McCombs, one of the very oldest Marquette residents, died at 4:15 o'clock yesterday morning at the family residence on North Front street. She was aged over seventy-eight years. Mrs. McCombs had been very ill for several weeks, and the end was not unexpected.

Mrs. Margaret (Bennington) McCombs was born near Niles, Ohio, May 28, 1824. Her early life was spent at that place, and among the young children, who attended the same district school as did Mrs. McCombs was the late President McKinley, whom she well remembered. She was married at the place of her birth to Wm. S. McCombs on May 16, 1852, and they soon after removed to Marquette. Except residing for a few years at the late Jackson Forge and at Forestville, she had been a resident of Marquette continuously since. Coming here at such an early period, she lived through the early privations incident to the settlement of a new country and saw its development in the later years. Mrs. McCombs was a member of the First Presbyterian church, and became such on Feb. 28, 1867. Four children—John C. Wm. B. Ella E. and George—all still living in Marquette, remain to honor and reverse her memory.

Having suffered several previous paralytic strokes her last sickness left her quite helpless. She remained in bed for some time of late, she remained in an almost unconscious state, but seemingly with little pain or suffering. A long life has ended leaving its blessed memory as a Christian woman and most devoted mother.

The funeral service will take place at the house, 117 N. Front street, on Saturday at 3 p. m.

MARQUETTE LADIES WIN. Victorious in Whist Tournament at Negaunee—Gentlemen Are Third.

The Marquette lady whists captured first place in the ladies' contest at the upper peninsula tournament at Negaunee yesterday, while the gentlemen were forced to be content with third honors in the games played by the men's teams. The gentlemen's contest resulted as follows:

First—Wolverine team, Calumet. Second—Calumet. Third—Marquette. Fourth—Negaunee. Fifth—Islepening.

The contest in which the ladies' teams competed ended as follows: First—Marquette. Second—Escanaba. Third—Islepening. Fourth—Negaunee. Fifth—Houghton.

Yesterday afternoon in the pairs contest, Mesdames Miner of Islepening and Matland of Negaunee won on the north and south sides, and Mesdames Oliver and Phillips of Escanaba on the east and west. In the evening the victors on the north and south side were Mrs. Sedgwick and partner of Islepening, and on the east and west Mesdames Yates and Wells of Negaunee vanquished their opponents. This afternoon the pairs contest, which is for the Soo trophy, will be concluded.

The Marquette delegation comprised Messrs. Eldredge, Button, Hill, Van Iderstine and H. Cunningham, the first four of whom constitute the team; Mesdames Ball, Ormsbee, Brown, Button, E. P. Palmer and Gillett, the team members being the first four, and Miss Biddle.

BAROMETER VERY LOW. Vesselmen Looking for a Heavy Gale on the Lake.

The captain of the steamer Nipigon, which arrived yesterday, reported that his barometer registered the lowest point it had in twenty-five years, and he looked for a fierce storm approaching a hurricane in intensity. The glass, he said, was considerably lower than at the time of the storm in which the steamer Hudson was lost last year.

Harbor Gossip.

The Chicago liner Peerless is due to arrive this morning about 6 o'clock on a down-bound trip, leaving here about nine. The steamer Indis, bound up from Buffalo, is scheduled to arrive tonight, leaving about 11 o'clock. Tomorrow morning at six, the steamer China, of the Buffalo line, is due from the head of the lake. Her leaving time is 11:30. There were no clearances from the L. S. & L. dock yesterday. From the South Shore docks, the steamer Mesaba took out a cargo for Cleveland.

The steamer Nipigon arrived yesterday from Ogdensburg, N. Y., for a cargo of lumber.

Upbound Vessel Passages.

Chronic bronchial troubles and summer coughs can be quickly relieved and cured by Foley's Honey and Tar. People's Drug Store.

CLAIMS ARE VALUABLE. M. J. Sherwood Reports Favorably on Gold Property in Colorado.

At a meeting of the board of directors of the Marquette Gold Mining & Milling company, held in this city last Tuesday, a report was read from Attorney M. J. Sherwood, who recently returned from Colorado, where he went to inspect the property which it was proposed should be acquired by the corporation. The report was highly satisfactory, and Mr. Sherwood was instructed to execute the contract for the transfer of the claims from W. B. LeVeque to the company.

These officers were elected: President, W. B. LeVeque, Boulder, Colo.; vice president, Thomas Scadden, Marquette; secretary, Joseph Wright, Marquette; treasurer, George Barnes, Marquette. All will serve for a period of one year. The president, secretary and treasurer are each required to furnish bonds in the sum of \$2,000. It was decided that the work of developing the property be started at once, and in fact, The Mining Journal is advised that miners have already been put to work on the claims. The report of Mr. Sherwood, referred to above is, in part, as follows:

The properties are situated in what is known as the Gold Hill district of Boulder county, Colo., some seven and one-half miles from the city of Boulder, and near the flourishing mining camp called "Sunshine." The properties and claims are ten in number, and all contiguous. Eight of these are mining locations for which Mr. LeVeque has United States location certificates. Two of them, the Sussex and Baltimore, are patented claims and title to these is in Mr. LeVeque. The other eight require work to be done under the United States laws before patent can issue.

Of these eight locations or claims, the work done demonstrates the existence upon each of them of strong "leads." Upon the Sussex, I found No. 1 shaft, about the center of the property, in the neighborhood of sixty feet deep, with a vein about four or five feet wide, containing value its entire width, and having a streak from four to eight inches wide of rich rock which is widest at the bottom of the shaft. This shaft is approximately at the summit of the hill over which the Sussex lode runs. I found also upon this property, at the southwest extremity, a shaft about forty feet deep of the same general character as shaft No. 1, but showing somewhat richer ore. I had blasted out for me at the bottom of No. 1 shaft a quantity of rock and also in No. 2 shaft about thirty feet. This rock I had assayed by Henry E. Wood & Co. of Denver, the results of which I give you below.

Upon the Baltimore lode I found a shaft about sixty feet deep and two tunnels, one in the side of the mountain above the shaft on the lode No. 2 about forty feet. The vein here in both places was about four to six feet wide, carrying value its entire width, and is characteristic in all these lodes, a narrow streak of from six to twelve inches of very rich rock. I had assayed by the same people mentioned above, rock blasted for me out the bottom of the shaft on this property with result as follows:

Sample No. 1 is the result of rock taken from shaft No. 1 of the "Sussex"; sample No. 2 is the result of rock taken from the shaft No. 2 of the "Sussex"; sample No. 3 is the result of rock taken from the bottom of the "Baltimore" shaft.

Table with 4 columns: Sample, Gold, Silver, Value. Sample 1: 3.60, 0.40, \$72.20. Sample 2: 8.60, 0.60, 172.30. Sample 3: 0.40, 5.40, 107.70.

Mr. LeVeque had assayed from these same shafts No. 1 and No. 3 samples taken across about eighteen inches and No. 2 sample taken clear across the vein as follows:

Table with 4 columns: Sample, Gold, Silver, Value. Sample 1: 1.28, .92, \$34.00. Sample 2: 1.08, .32, 22.04. Sample 3: 1.76, 1.24, 35.82.

The lodes in both of these properties are clearly defined, strong and persistent, and will be found, I believe, practically within the side lines of the properties for their entire length. This is demonstrated by the developments so far made upon the property. The trend of lodes in that section is northwest and southwest. To the southwest of both of these properties and in the immediate vicinity are several prosperous paying mines to wit: The Ingram, the Richmond, and the Melvina. To the northeast of the Sussex and in the immediate vicinity of the Baltimore, are several others viz., the Monongahela, White Crow, Inter Ocean, American and the Tillie Butte. That region is apparently a very rich one, and I discovered no property, and could learn of no property in the immediate vicinity of these claims that had gone to a depth of 300 feet, that had not paid large returns. I believe these properties have the making of a large and valuable mine, but it will require the sinking of shafts to depth, and persistent and intelligent mining. They are promising and in my judgment, require only development. I should advise the sinking of both the Sussex and Baltimore shafts to at least 300 or 400 feet, with sufficient drifts to demonstrate the condition of the ground. The properties, in my judgment, are certainly worth this expenditure.

It was decided by the directors to continue the sale of stock at 10 cents per share on the monthly payment plan of 10 per cent per month.

SAVED FROM AN AWFUL FATE.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa. "I was so low after six months of severe sickness, caused by Hay Fever and Asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was completely cured." For desperate Throat and Lung Diseases it is the safest cure in the world, and is infallible for Coughs, Colds and Bronchial Affections. Guaranteed bottles 50 c and \$1.00. Trial bottles free at The Stafford Drug Co.

Cures cough, sore throat, pulmonary troubles—Menarche over pain of every sort. Dr. Thomas' Electric Oil.

FEW COPPERS FOR SALE. Market Dull but Firm and Some Advantages Are Made.

Hayden, Stone & Co. yesterday wired the Laidley Commission company: "The copper market continues dull. Copper Range showed strength this morning, gaining 1/4 with only a slight reaction. United States Mining made a gain of 1/2 and was very strong. The rest of the coppers were very inactive except Mohawk, which showed a net gain of 1/4."

Paine, Webber & Co. said: "The coppers have had a decidedly firmer tone today. The revival of the buying demand found very few stocks for sale. Traders show a disposition to work on the long side of the best of the new mining properties, and it looks as if there might be a considerable advance in this class of stocks. We hear of recent sales of Lake copper at 12 1/2 cents. The metal ought to work stronger."

Purchase of Wheat Advised.

W. H. Laidley & Co. wired the Laidley Commission company: "Wheat opened lower on the fine weather, but the deferred options turned strong and with an advancing tendency. There is liquidation in July and a disposition to change over. Reports from the Northwest are very encouraging, and the reports from Kansas and Iowa Nebraska are also favorable for a big yield. Foreign reports are not quite so encouraging, and it looks as if wheat should be bought."

"Corn opened lower and was very weak, especially the July option, during the early part of the session. September turned very strong later, and the buying in this option is on a large scale. While reports of the growing crop continue to be very good, it looks as if the bull conditions would continue and the September option would not considerably over July. It is certainly a purchase for a good turn."

"Oats opened a shade higher, turning strong in sympathy with other grains and rather unfavorable crop prospects. There was heavy buying of September. The cash business was good at a considerable premium over July. It does not look as though we will see lower prices for oats until they get some of the new crop here."

Steadiness in Wall Street.

Walker Bros., wiring Paine, Webber & Co. and this to say of the New York stocks: "The market today opened steady, but with very little doing. The prices were fairly held up. Later some liquidation began and traders caught a few stops. In the morning the trading was very light. Missouri Pacific and Bullied pools and held strong all day. In the afternoon the prices sagged off a little and continued without feature until the closing."

JOHN SIEGEL'S, The Up-to-Date Grocer.

SUPPLY OF PINE. J. C. Bradley, the Well Known Lumberman, Talks of the Situation.

"I notice that there is beginning to be more or less talk among the lumbermen of the Northwest relative to the waste of white pine," remarked J. C. Bradley, a Northern Michigan lumberman who was in Duluth this week, and who was for many years interested in the white pine industry in this state.

"The fact is that you never begin to hear lumbermen talk of waste until the end of the supply begins to come in sight. As long as timber is plentiful, the lumbermen will cut right and left, often cutting down trees that were never cut, up into logs or saved. That practice is growing decidedly less nowadays and, as a rule, you will find the manufacturers everywhere cutting up into lumber pine logs that years ago they would have rejected as being too small."

"There are two sides to the argument that the close cutting of timber is a waste, for there are many cases where an attempt to cut the logs more closely or to take into market a greater proportion of logs would increase expense materially without bringing the lumberman a corresponding return."

"As a matter of fact I believe there have been many cases where the methods regarded by some as wasteful were actually economical, not taking into consideration the question of conserving and maintaining timber supplies."

"It is claimed, I believe, that wasteful methods are found more among the manufacturers of the yellow pine in the South, where they have so much timber in sight that the spirit of waste-felling is encouraged, but it seems to me that the manufacturers there should take advantage of the experience of the northern lumbermen who have stripped so great an area of the country of its pine and who can now see where with more economical business methods they could have utilized much more lumber that was left in the lot to rot."

"Aside from a few remaining white pine tracts in the upper peninsula of Michigan that are fast being cleared away, Michigan is losing the prestige she once had in lumber circles. The eyes of the trade in the East are turned more now to northern Wisconsin and Minnesota, but a few years more at the present tremendous rate of production will make a big difference in the white pine supply of the Northwest. I believe it only a question of a few years more before the west coast of the country will become the center of the white pine industry. The west coast manufacturers are already cutting into our business in spite of almost prohibitory freight rates, but the time is coming when the far West will be looked to for the supply."

"It should be remembered, however, that there is the yellow pine trade of the South to take into consideration, also. Wherever yellow pine can be used as a substitute for white pine in these days you will notice that it is being done. The Western white pine or the Southern yellow pine will never compare in quality with the white pine of northern Michigan, Wisconsin or Minnesota, but with the decreased supply and production of the latter is bound to come the increasing trade of the other pines, and the supply is an immense one."

"It should be remembered, however, that there is the yellow pine trade of the South to take into consideration, also. Wherever yellow pine can be used as a substitute for white pine in these days you will notice that it is being done. The Western white pine or the Southern yellow pine will never compare in quality with the white pine of northern Michigan, Wisconsin or Minnesota, but with the decreased supply and production of the latter is bound to come the increasing trade of the other pines, and the supply is an immense one. In the many northern lumber manufacturers that have bought up immense tracts of yellow pine in the South to which they will turn their attention as soon as they have finished their cut in the North."

TODAY, TOMORROW. The present shapes the future. What you do today concerns the things of tomorrow. If you are at all anxious about your financial future, you should quickly seize the opportunity to save money. An Account with This Bank Affords an easy way for saving money.
