A MORSEL FIT FOR LUCULLUS
can be prepared by broiling a steak or chop
over such a bright, clear fire as is made
with our coal. It is the standby of the ex-
perienced cook, who knows just how to de-
pend on her fire for baking, broiling and
steaming purposes. Its long contained com-
bustion and strong steady heat make it the
coal par-excellence for cooking.

209 S. Front St., Marquette, Mich.

KING WILL RECOVER
EDWARD HAS GOOD DAY AND CON-
DITION IS FAVORABLE.
INTERCESSIONAL SERVICES HELD
POSTPONED FUNCTIONS ARE BE-
ING RE-ARRANGED.
Buckingham Palace Wears Gay Ap-
pearance and Is Testimony to
Feeling of Increased Con-
fidence.

London, June 29.—The
king's condition during the
day was very favorable and
his progress in every way sat-
isfactory.
Sunday has again been a day of inter-
cessional services throughout the king-
dom for the recovery of the king. In
the morning a vast crowd gathered at
St. Paul's cathedral. There were also
many representatives of official life,
Queen Alexandra, the Prince of Wales
and almost all the members of the royal
family, who were in Marlborough
house chapel. Throughout the kingdom
all religious denominations made similar
intercessions for the sovereign's recov-
ery.
Confidence Is Increasing.
Buckingham palace wore a gay ap-
pearance today than for a week, and the
constant going and coming of royals
bore testimony to the feeling of in-
creased confidence that the king would
recover. The king today was again
successfully transferred to a couch. Several
postponed functions are being re-
arranged. Lord and Lady Lansdowne
announced that their reception will be
held on July 1.
Lord Cranborne authorizes this state-
ment: "The king is rapidly getting
better and therefore it seems most ap-
propriate for his rejoicing. As
chairman of the board committee, I
suggest that the bonfires throughout the
country be lighted Monday night."

CZAR HAS NO SYMPATHY FOR KING
Edward's Illness Has Been Officially
Overlooked in Russia.
St. Petersburg, June 29.—The fact
that no representative of the monarchy
has called at the British embassy here
to offer the sympathy of Russia in the
matter of the illness of King Edward
has occasioned much comment and is
generally attributed to Russian chagrin
on account of the conclusion of peace in
South Africa. It is said upon excellent
authority that the minister of foreign
affairs, admitted that peace had upset
Russia's calculations, which were based
upon a much longer continuance of
Great Britain's difficulties in South Af-
rica.

PRECEDENT IN DEPOSING PRIARS.
U. S. Doing in Philippines What Other
Countries Have Upheld.
Rome, June 29.—Definite American
propositions about the Philippines will
be presented to the vatican. They have
been delayed because Governor Taft was
awaiting a cable message from Wash-
ington to clear up some points. Gov-
ernor Taft, it is stated, will remind the
vatican of previous withdrawals of the
priars from other countries, as desired in
the Philippines. For instance, when
France occupied Tunis, French monks,
led by Cardinal Lavergne, were substi-
tuted for the Italian friars. After Italy
occupied Erythraea the French Lazarists
there were replaced by Italian Capu-
chins with the complete approbation of
the vatican.

BEARING GIFT TO PRESIDENT.
Bishop O'Gorman Commissioned to Carry
Pope's Present.
Rome, June 29.—Right Rev. Thomas
O'Gorman, bishop of Sioux Falls, S. D.,
when he returns to the United States
will be the bearer of a letter from the
pope to President Roosevelt and will
take with him the pontiff's magnificent
gift to the American president which
consists of a view of Rome from the
vatican studio done in mosaic.
The idea of appointing Bishop O'Gor-
man apostolic delegate to the Philip-
pines appears for the present at least
to have been abandoned, although the
first suggestion of this appointment was
uttered by the pope himself when he
first received Governor Taft.

JEALOUSY'S MAD DEED.
Aged Husband Kills Wife and Then
Suicides.
Sterling, Ill., June 29.—Henry Can-
field, of Morrison, killed his wife of
whom he was jealous, last night and
then took his own life. The bodies
were not found until today. The dis-
covery was made by a daughter who en-
tered their bedroom and found them
dead on the floor side by side. The shock
produced nervous prostration and her
condition is critical. The murderer and
suicide was seventy-five years of age
and wife seventy. They had been mar-
ried fifty years and were the parents
of several children prominent here.

TODAY'S WEATHER.
Washington, June 29.—The following
is the weather bureau's forecast for Up-
per Michigan: Fair Monday and Tues-
day. Fresh northwest to north winds.

PRESIDENT SIGNS CANAL BILL.
Isthmian Waterway Measure Has Be-
come a Law.
Washington, June 29.—The president
last night signed this isthmian canal
bill.
BARGE SINKS IN LAKE ERIE.
Seven of Crew Leave Boat on Raft and
It Is Feared They Are Lost.
Sandusky, O., June 29.—The barge
George H. Dunbar sank east of Kelly's
island this morning. The captain, two
women and a sailor were saved by par-
ties from the island. Seven others left
the barge on a raft but have not been
seen and it is feared they are lost.

LAKE VESSEL SAILS TO ATLANTIC.
Schooner Linera Out of Milwaukee
Reaches New York City.
New York, June 29.—The schooner
Linera, hailing from Milwaukee arrived
today. The vessel sailed from Menom-
inee, Mich., and brought a cargo of
lumber. She left Menominee on April
28. It is seldom that a sailing vessel
from the great lakes comes to the At-
lantic.
MAY REACH AGREEMENT TODAY.
Conferees on Philippine Civil Bill Hold
Lengthy Session.
Washington, June 30.—The Republi-
can conferees on the Philippine civil
government bill were in session until
one-thirty o'clock this morning. No con-
clusion was reached but it was stated
that there was every possibility that an
agreement would be reported to congress
during today.

TRAIN IS WRECKED
ONE KILLED AND TWO ARE FATAL-
LY INJURED.
ACCIDENT ON COLORADO SOUTHERN
COACHES WERE FILLED WITH
EXCURSIONISTS.
Cars Struck Broken Rail, Rolled Down
Embankment and Smashed Cars
Into Kindling Wood—F. M.
English the Victim.
Colorado Springs, Colo., June 29.—An
excursion train on the Colorado South-
ern was wrecked this morning near Cas-
cade. Francis M. English, of Colorado
Springs, was killed. The fatally injured
are: Mary O'Rourke, aged thirteen, of
Victor and Dr. Estelle Lewis, of Cripple
Creek. Thirty-four others were more
or less injured.
The excursion train was crowded to
the utmost capacity and while coming
down the pass from Cripple Creek,
struck a broken rail and seven cars
were wrecked. The cars that left the
rails and went over the embankment
contained 371 passengers. The second
car on the train was crushed into kind-
ling wood. The third coach plunged
clear through the second. It was in the
forward end of this car that English
was killed. His neck was caught between
two seats and he was strangled before
the people could reach him.
The injured were taken to St. Francis'
hospital where all are doing as well as
can be expected. The little O'Rourke girl
is expected to die at the time and Miss
Estelle Lewis, a dentist of Cripple Creek
is in a very critical condition.

TABLET TO MCKINLEY.
Tribute by Judge Anderson to Martyred
President Unveiled.
Washington, June 29.—A small tablet
of white marble bearing in letters of
gold a brief statement of the life and
deeds of William McKinley, a tribute of
his friend Judge Anderson, a member of
the district bench, was unveiled in the
Metropolitan M. E. church here today.
The unveiling was attended with simple
ceremony. An American flag that con-
tained the tablet was drawn aside as
the congregation sang "Nearer My God
to Thee." President Roosevelt and Sec-
retary Cortelyou were present. Address-
es were made by Rev. Frank Briscoe, D.
D., Senator Fairbanks and Representa-
tives Grosvenor and Taylor.

SECOND CONGRESS OF RELIGIONS.
Plans for One to Be Held During Olymp-
ian Games in 1904.
Chicago, June 29.—A gathering of the
representatives of the religions and
creeds of the world which will rival the
congress of religions at the World's
fair, is planned for the Olympian games
in 1904 by Bishop Fellows. Every
country invited to send athletic repre-
sentatives to the games will be urged to
have its religious representatives as well.
Bishop Fellows was prominently con-
nected with the World's fair congress
of religions and he is planning to make
the religious and ethical feature of the
Olympian games a successful one.

PRINTERS' STRIKE AVERTED.
Chicago, June 29.—The threatened
strike of the Chicago job printers was
averted by the employers granting the
demands of the men. For the first time
in twenty years the job printers of
Chicago have received an increase in
pay. The scale is operative until July
1, 1903. Future differences will be set-
tled by arbitration.

RENAULT WINS AUTO RACE.
Vienna, June 29.—The Paris-Vienna
automobile race was won by Marcel Re-
nault. His average speed was fifty-one
miles an hour.

GLASS FACTORIES SHUT DOWN.
Plate and Window Manufacturers Close
and 10,000 Men Are Out.
Pittsburg, June 29.—The plate and
window glass factories of the country
are shut down tonight, throwing out ten
thousand men. This is the result of an
agreement on the part of the producers.
The complete shutdown of the plate
glass factories is a condition never be-
fore existing in this country.
TWO KILLED IN WRECK.
Train Is Derailed by Falling Boulder
Spreading the Rails.
St. Louis, June 29.—A section of pas-
senger train No. 5 of the St. Louis &
San Francisco railroad was derailed at
Minick, a few miles west of this city
this evening. Two laboring men who
were riding on the blind baggage were
killed. At the point where the wreck
occurred a boulder fell onto the track,
spreading the rails and bounding off.
When the train came along, soon after,
the engine, postal car, two baggage cars
and one coach were derailed.

A FEAT OF ENGINEERING.
Over 125 Miles of Railway Track Re-
laid Without Delaying Trains.
Medapolis, Ia., June 29.—Four hun-
dred and forty men working nine hours
in a driving rain moved both rails of
the Burlington & Western road on 125
miles of track today and thus
broke all records converting nar-
row into broad gauge track.
Twenty-eight crews of sixteen men each,
working an average of four miles each,
accomplished the feat without the aban-
donment of any regular Sunday train.

**GOVERNMENT TROOPS AND REB-
ELS HAVE FIERCE BATTLE.**
TOWN OF CAPE HAYTIEN BOMBARDED
FOREIGN CONSULS EXPOSED TO
FIRE FROM FLEET.
All Day Yesterday the Two Armies
Fought With the Revolutionists
Having the Best of the En-
gagement.
Cape Haytien, Hayti, June 29.—There
has been much fighting here today and
great excitement prevails. Admiral Kil-
lick, commander of the Haytien fleet,
disembarked a further detachment of
troops and a large quantity of ammuni-
tion this morning for the better protec-
tion of General Firmin, one of the candi-
dates for the presidency of the re-
public. Since 6 o'clock this morning
there has been several lively engage-
ments between men from the fleet and
the revolutionists from the north. Sev-
eral machine guns were set up in a com-
manding position by Firmin's forces and
an attempt was made to drive the men
from the north from their position. Not-
withstanding the fire from the machine
guns, detachments of the northern revo-
lutionists made several attacks on Fir-
min's followers and the latter were
eventually dislodged.

**MEANTIME THE VESSELS UNDER KIL-
LICK WERE BOMBARDING CAPE HAYTIEN.**
This action was made without previous
notification to the foreign consuls here.
There has been a lively rain of shots
down the streets of Cape Haytien all
day. The firing was particularly heavy
this afternoon.
At the moment of filing this dispatch
the foreign consuls, under the protection
of their flags, are with Firmin and are
about to embark on the government
gunboat. They are under a heavy fire
and in considerable danger. The foreign
residents of this port are at present ex-
posed to the lawlessness and savagery of
the combatants.

CUBAN NEGROES CLAIM EQUALITY
Blacks Hold Meeting and Discuss Amer-
ican Commercial Invasion.
Havana, June 29.—The negro element
held a meeting today. One speaker said
the negroes had no intention of rebelling
but if the people of Cuba were not uni-
ted they could not hold their own against
the Americans. The fear of the Havana
blacks was that negro laborers will be
brought from the United States by
Americans who have invested in the is-
land. Against this they must defend
themselves. Another speaker said that
today the blacks in Cuba claimed
equality with whites.

WILHELMINA STILL WEAK.
Holland's Queen Recovering Slowly and
Has to Be Carried in Chair.
Castle Schaumburg on the Lahn, June
29.—Queen Wilhelmina is recovering
very slowly, and when she takes the air
in the park a sedan chair is always
carried after her to guard against any sud-
den weakness. She is never seen to
walk by herself, her uncle, the prince of
Waldeck, usually leading her by the
arm. However, she is steadily improv-
ing.

REMAINS OF NOTED OUTLAW REINTERRED
Beside Wife at Kearney.
Kansas City, June 29.—The body of
Jesse James, buried for twenty years in
the dooryard of the James homestead
near Excelsior Springs, Mo., was disin-
terred today and buried in the cemetery
at Kearney, Mo., beside the body of his
father and wife. A funeral service was
held and the pall-bearers were the com-
rades of Jesse James when they were
members of Quantrell's band. When
the skeleton of his father was dug up,
Jesse James, Jr., picked up the skull and
pointed out the hole made by the bul-
let of Bob Ford's pistol.

FLOODS DO DAMAGE
ST. LOUIS, MO., AND VICINITY LAID
WASTE BY RAINS.
CROPS AND PROPERTY RUINED
MILES OF RAILWAY TRACKS ARE
WASHED AWAY.
Waters Undermine Foundation of Varied
Industries' Palace at World's Fair
Grounds and Walls Topple
Over.
St. Louis, June 29.—One of the most
disastrous floods in the history of Al-
ton, Ill., and vicinity, resulted today
from the heavy rains of Friday and Sat-
urday. It is estimated that ten thou-
sand acres have been covered by the over-
flow of the Wood river, now three to six
miles wide. Most of this land is either
occupied by manufacturing interests or
planted in crops.
Stoneware Plant Destroyed.
The greatest single disaster was the
destruction of the Stoneware Pipe com-
pany's plant at East Alton. The loss is
\$40,000. The water reached a kiln which
was red hot. An explosion followed.
The buildings caught fire and were soon
destroyed. In West Alton skills were
used in the principal streets. Stores
were flooded and a number of small
buildings were washed away. Burling-
ton's depot was swept away. All the
railroads except the Burlington are tied
up by the floods. Many miles of the
Big Four track were washed away and
part of the roadbed has become a tribu-
tary of the Wood river.
Six Inches of Rain Fell.
Nearly six inches of rain has fallen.
The storm extends from the Rocky
Mountains to the Alleghenies. In Kan-
sas, Iowa, Missouri, Illinois, Indiana,
Ohio and Pennsylvania, the rainfall yester-
day and today averages one to two
inches. The wind did \$250,000 damage
in this vicinity. Five hundred feet of
the north wall of the varied industries
palace on the world's fair site fell last
night as a result of the water undermin-
ing the foundations.
In Madison county and adjacent ter-
ritories, several cities and towns are
absolutely cut off from communication
with the outside world. The railroad
tracks are washed out, telegraph and
telephone lines are down, and public
highways gullied and traversed by the
torrents of surface water.

INCALCULABLE LOSS TO FARMERS.
Chicago, June 29.—Professor Cox, of
the weather bureau, said tonight that a
few days more rain would cause incal-
culable loss to the farmers. The middle
west is deluged, Illinois being one of
the chief sufferers. As far as the Ohio
river, farms are flooded and grain fields
and meadows turned into lakes. The
only hope of the farmers is in an im-
mediate change to unfavorable weather.

HOUSE HELD SUNDAY SESSION.
Representatives Meet to Listen to Eulo-
gies of Cummings and Otey.
Washington, June 29.—The house held
a session today to pay tribute to the
memories of the late Representatives
Cummings of New York and Otey of
Virginia. The eulogies were exceedingly
impressive, especially that delivered
by Representative Cannon of Illinois on
the honest character of Cummings. Eulo-
gies on Cummings were pronounced by
eleven members and on Otey by four-
teen.
This is the first time in ninety years
that Sunday was made a legislative day
and the house met on the Sabbath with
the speaker, clerks and other parapar-
nasia which accompany the actual trans-
action of legislative business. Sessions
have been held on Sunday, but were at-
ways continuances of the Saturday ses-
sion, and the journal showed no session
held on the Sabbath. In this case, how-
ever, the journal today will show a regu-
lar legislative session. After the eulo-
gies were pronounced today the house
adjourned until tomorrow.

JESSE JAMES' BODY EXHUMED.
Remains of Noted Outlaw Reinterred
Beside Wife at Kearney.
Kansas City, June 29.—The body of
Jesse James, buried for twenty years in
the dooryard of the James homestead
near Excelsior Springs, Mo., was disin-
terred today and buried in the cemetery
at Kearney, Mo., beside the body of his
father and wife. A funeral service was
held and the pall-bearers were the com-
rades of Jesse James when they were
members of Quantrell's band. When
the skeleton of his father was dug up,
Jesse James, Jr., picked up the skull and
pointed out the hole made by the bul-
let of Bob Ford's pistol.

VICTIM OF BRUTAL ASSAULT.
Mail Clerk Found With Skull Fractured
and Dies Soon After.
Council Bluffs, Ia., June 29.—Clark
Moyer, a mail clerk on the Burlington
between this city and Burlington, Ia.,
was found on the streets here this morn-
ing with his skull fractured. He died
a few hours later without regaining con-
sciousness. No cause is given for the
assault as no money was taken from
his person.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests. SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00. The gubernatorial campaign in Wisconsin seems to be resolving itself into a La Follette procession. If the Stalwarts do not soon begin to show strength, it will be a foregone conclusion that they will be nowhere when the votes are counted. The La Follette men are jubilant at their success to date and insist that La Follette will sweep the state, carrying everything before him. They have the inestimable advantage of being united and knowing just what they want, while the Stalwarts are laboring along under the burden of what is largely a negative program. The credentials committee at the state convention chose the easiest way out of the Schoolcraft county muddle. By giving the contesting delegations half votes each, protracted dispute and acrimonious feelings, resulting from a decision in favor of one or another faction, were avoided, but the task of seating one delegation was transferred to the congressional convention. Of course that is where it belongs, but this fact does not make the situation any easier to handle. All reports seem to show that the Young delegation should be seated, as it apparently represents the real Republican sentiment of the county and, withal, was fairly chosen. Still a Sheldon majority in the congressional convention would have no compunction in seating the Sheldon men. Schoolcraft is eliminated from the early and critical stages of the fight.

King Edward's condition shows constant improvement and a belief that he will completely recover from his illness and the recent operation seems justified by the bulletins issued by the court physicians. Unless unforeseen complications arise, the king will live to take up the coronation program at a later date and to rule the British empire for, at the best, the brief period of years that remain of his allotted portion. Still his illness was a great misfortune, shaking, as it has, the world's markets and occasioning tremendous losses in London through its interruption of the coronation week program. But there will be little disposition to quarrel with these trifles, if Edward lives to rule. The English people are mightily concerned in his welfare. They have had a world of trial and mourning during the last few years. The desire a breathing spell before they are plunged into another depth of national woe.

If the Democrats expected to gather any campaign material from Admiral Dewey's testimony before the senate committee on Philippine inquiry they must be grievously disappointed. The admiral has been an unusually good witness for the Republican party and administration. He said, among other interesting things, that he had never given the so-called republic any recognition; that he had never acknowledged Aguinaldo's government or saluted his flag. The whole drift of his testimony was in the direction of showing that at no time did he consider that the Filipinos had a regularly organized or responsible government. The nature of the admiral's testimony is clearly shown by the fact that he was bullied and badgered by the Democrats, while the Republicans looked smilingly on. The doughty seaman finally became huffy at one of Senator Carmack's queries and sallied out of the committee room with but scant ceremony.

It may have been impolitic but President Roosevelt's course in flying to the defense of Secretary Root, General Wood and Governor Taft of the Philippines was quite Rooseveltian and American, and it will not harm him with the people at large, although it may give his political opponents some slight advantage in their deeply planned campaign against him. Root, Wood and Taft are the president's friends, and they have given some of the best effort of their lives to advancing the program of his administration. Their work, as a whole, has been well done, although, of course, they have made their mistakes. Still, it is improbable that any trio could have been selected who would have given more satisfactory and conscientious service in their respective positions. But Root, Wood and Taft have virulent enemies who will hesitate at nothing to discredit them and who have already to some extent dimmed general appreciation of their work. Of these President Roosevelt was thinking in many of the periods of his address. Contrasting this country's methods of rewarding merit with that of other nations President Roosevelt said: When in England they get a man to do what Lord Cromer did in Egypt, when a man returns as Lord Kitchener will return from South Africa, they give him a peerage and a great sum of money. He receives large and tangible reward, and our Congress, our men of that stamp, come back to the country and if they are fortunate go back to private life with the privilege of taking up what they can find of the strings left loose when they surrendered their connections, and if they are unfortunate they are accused of maladministration in office,

not an accusation that hurts them, but an accusation that brands with infamy every man who makes it, and that reflects but ill on the country in which it is made. Stearns was a complete failure at the state convention this week in the role of defeated candidate. He positively refused to go before the body and deliver himself of the usual platitudes, thanking his friends, invoking blessings on his enemies, eulogizing the grand old party, pledging his loyal support to the successful candidate, etc., etc., etc. Some people insist that his course in this respect means that he is quite a dead bird in Michigan politics. Events may prove that Stearns is a dead bird, but The Mining Journal believes that his refusal to address Thursday's convention will have nothing to do with his death. It was altogether too trifling a circumstance to be fraught with any important results, and, if anything, it was creditable to Stearns inasmuch as it showed that he was opposed to Bliss on what he considered sufficient grounds of political rivalry. Read his words: Why did I not go before the convention? Governor Bliss was his choice. I have practically stated I believed his administration was so corrupt as to warrant proceedings for impeachment against him. Do you think I could consistently take the platform and endorse his candidacy. Stearns sensibly refuses to discuss the possibility of his contesting for the nomination two years hence. Some months will be required to show whether he has any real strength left. He says: Two years from now is too far ahead. I am a good Republican. As such I will continue the war for primary elections, for freedom from corruption rule and for purity of government. With Wayne we would have been able to crush the machine this time. I am thankful to the men who stood by me to the last ditch, and I would have had many more votes which went for Bliss and the other candidates had Wayne county given me a good chance of winning.

AN EXCELLENT NOMINATION. It exceeded on all sides that Hon. Alexander Maitland is peculiarly well qualified for the office for which he was nominated by the Republican convention at Detroit last week. His service as a member of the state senate gives him an experience and insight into state affairs, which, coupled with his aptitude for legislative work, especially fit him for the duties of the office of lieutenant governor. He is, by temperament, prudent, conservative and diplomatic, and it is the belief of The Mining Journal that he will win golden opinions from the people of Michigan in the honorable and important office to which he will be elected in November next. Much credit is due Mr. Dutcher for his generous action in withdrawing in Mr. Maitland's favor at a critical moment. When he discovered that persistence in his candidacy was likely to result in depriving the upper peninsula of the representation on the ticket to which it is fairly entitled, Mr. Dutcher explained, in stating his reasons for withdrawing, that if he had known that Mr. Maitland would accept the nomination before he had announced his own candidacy he would not have sought that place on the ticket, and he asserted that the upper peninsula had no better equipped man for the place than his Negawan competitor. Rather than jeopardize the upper peninsula's chances of furnishing the candidate for the lieutenant governorship, he sacrificed his own. It was a generous act, and one that should earn for Mr. Dutcher the admiration and gratitude of Northern Michigan Republicans.

The Mining Journal is thoroughly pleased with the work of the state convention as a whole, and with no nomination more than with that of Mr. Maitland. It is an honor to Marquette county that numbers him among its prominent and valued citizens. He will make a record as lieutenant governor that will go far toward assuring the people of lower Michigan that they need not be apprehensive of making mistakes when they come to this part of the state for candidates for important offices.

THEY'RE BRAZEN. Under the above head the Manitowish Pioneer-Tribune has the following arraignment of the methods employed by the Sheldon workers in the Schoolcraft county fight: One of the most brazen things ever attempted in the political history of Schoolcraft county, is the contest that the Sheldon forces are making. The Sheldonites throughout the district conducted this county the pivotal one and a frantic but fruitless effort was made to capture it at any cost. No less than forty Menominee men with money and a desire to place it where here all week. They were assisted by several Escanabawites, while Mangum of Marquette and Webster of the Soo, made daily visits to direct the fight. They succeeded in naming eight delegates in the outlying townships while the Young forces named seven. As the convention consisted of thirty delegates, fifteen of which were from Manitowish all the energies of the hired Hessians from Menominee, Delta, Marquette and Chippewa, supplemented by the tricky wire pullers of the city, were directed toward winning out here. The voters of the city, resenting the influx of outside heeled and bootlers in to the fight, were in full force and gave the outfit a body blow in every ward—Young delegations being elected in every case by big majorities. The only cause of crookedness occurred in the Fourth ward where a man known as a political crook dropped a bunch of twenty-seven ballots in the box hoping thereby to be able to name the chairman of the caucus. Committeeman Ekstrom

ruled that a new ballot be taken and Thomas received 99 votes to McKesson's 69. Seeing that the jig was up, Merseaux gathered a few of the faithful, numbering six and held an impromptu caucus, and adjourned in time to participate in the vote for delegates in which they were defeated by thirty-four majority. When the Sheldon contingent took a hasty inventory and ascertained that they were hopelessly defeated, Merseaux, Mangum, Mills, McNamara and Moody drove to Thompson and probably elected a contesting delegation on the bridge that spans the trout stream that flows through the town. They hurried back and Mangum arranged for ward caucuses in the city by telephone. The fight was carried into the county convention and the illegal delegates were ousted. As a result Schoolcraft county will have a dual delegation to the convention—the Young delegation representing the wishes of the people fairly expressed in the caucuses—the Sheldon delegation being conceived by postmaster from upper peninsula cities outside of the county, supplemented by a few local political dead ducks. This is the situation in a nut shell. The voters of Schoolcraft county are to be congratulated on the signal victory for decent politics as against the wiles, money and palaver of the professional politicians from Marquette, the Soo, Menominee, Escanaba and Manistique. Last week we said: When you get all the bosses, heeled, and crooked politicians in one boat it is a good plan to scuttle it. If the Republicans, home at Ironwood, do their duty the ship will be scuttled. They scuttled it, and the floundering that followed the caucuses proves that the job was done in deep water and many miles from shore.

MARQUETTE COMMON COUNCIL PROCEEDINGS. (Official.) Marquette, Mich., June 23, 1902. An adjourned regular session of the common council was called to order by the president, Alderman Anderson, at 8 o'clock. Present—Aldermen Anderson, Asse, Ball, Bush, Donovan, Fleury, Gorman, Gustafson, Mack, O'Neil, Shea, Siegel and Ward.—11. The records of the sessions of June 9th and 16th approved. The liquor bond of Joseph R. Bourassa, sureties, Thomas M. Sambrook and Eugene Lefebvre, was presented, account of removal. On motion of Alderman Bush, said bond was accepted and approved. On motion of Alderman Siegel, the committee on finance and taxation was instructed to investigate as to the advisability of adopting a new plan for checking tax collection. The committee on streets and sewers reported as follows: Your committee to whom was referred the petition of Northern Land Co. Ltd. and Jarrusell, asking that Lake Street be widened from its present width of 24 ft. to 48 ft., T. 48 N., R. 25 W., to an intersection with Pine street, produced at a public hearing and considered and would recommend that the prayer of the petitioners be granted, and that the records be amended to show that the petitioners be granted. On motion of Alderman Bush, said report was adopted. The committee on streets and sewers reported as follows: Your committee to whom was referred the petition of H. E. Allen, of Algier street, near Lee street to Fourth street, would respectfully request that the same be under consideration, and would recommend that the prayer of the petitioners be granted, and that the records be amended to show that the petitioners be granted. On motion of Alderman Bush, said report was adopted. On motion of Alderman Gorman, said report was adopted. Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. On motion of Alderman Shea, the following was unanimously adopted: Resolved, That the grade of High street, from Hewitt avenue to Crescent street, be raised and the same be established in accordance with the profile thereof made by R. E. French, city engineer, and hereto attached, and that the same be under consideration, and that the records be amended to show that the petitioners be granted. Copper Country Department

(Additional Copper Country on Page 2.)

PORTAGE LAKE TEAM WON.
Defeated the Calumet Lacrosse Club by Score of 10 to 0.

The first game of Canadian lacrosse ever played in the copper country came off at the Hancock driving park at 4 o'clock Saturday afternoon, when the Portage Lake team met the Calumets. The Portage Lakes won a signal victory, defeating their adversaries by a score of 10 to 0. The contest was witnessed by quite a number and they were so well pleased that it is safe to say that the next game on the local field will be witnessed by thousands, instead of hundreds. Although new to copper country people, the similarity to hockey put the crowd in touch with the game and many declared that it was even more interesting than hockey, with which the people in this country were carried away last winter. The visitors were outplayed from the start and it was seen at once that the Portage Lake hockey players and others on the team are star lacrosse players as well. Immediately after the first face-off Willson made another run with the rubber, but missed the net. Calumet then secured the ball and made a rush for home, but Huston made a good defense. Gibson then made a split with the sphere to Portage, where he was stopped by Northwood. Hay made a couple of successive rushes. On the last he threw the rubber to Jones, who shot it home. The second score was made in five minutes. In the next decisive play Jones dodged the ball, passing it to Gibson, who dropped it into the net. This was at the end of nine minutes play. In three minutes more Jones who shot the rubber home, making the fifth score at the end of fifteen minutes. Hay again made two good spurts and Jones dropped the ball home. At the end of the first twenty-minute half the score was, Portage Lake, 6; Calumet, 0.

In the second half after a skirmish of eight minutes Richards shot the rubber home. For the visitors Childs made several good runs. Braun of the Portage Lakes made good spurts and McNamara spurted with the sphere. Jones tossed the rubber to Richards, who fired it home, making the ninth goal. Gibson then made a fifty-yard spurt almost to the Calumet flags, but was checked by Northwood. Richards tossed the sphere to Jones, who tossed the rubber home. Stephens, Hartney and McTurnen made several clever spurts with the ball. It will be seen from the foregoing that the Portage Lake played with their usual aggressiveness and the visitors were most of the time on the defensive.

Following is the lineup:
Portage Lake—Goal, Huston; point, Stephens; cover point, Hartney; first defense, McNamara; second defense, Hay; third defense, O'Leary; centre, Braun; first home, Jones; second home, McTurnen; third home, Willson; outside home, Richards.
Calumet—Goal, Northwood; point, Reid; cover point, Graham; first defense, Davis; second defense, McCloud; third defense, Childs; centre, Childs; first home, Matheson; second home, McDonald; third home, McDonald; outside home, Griggs; inside home, McDonald; umpire, Haller; referee, Coster; manager, Portage Lake, Webb; manager Calumet, Reed.

PRESENTED WITH JEWEL.
Montrose Commandery Knights Templar Honor John Duncan.

At the drill and review of Montrose Commandery, Knights Templar, at Calumet Light Guard Armory Friday evening John Duncan, the father of Masonry at the northern end of the county, was presented with a handsome nest commandery's jewel. He was taken quite unawares, being enticed to the drill room to see the evolutions of the six knights. The presentation took place at a lunch, the presentation speech being made by Eminent Commander Morrison. Mr. Duncan responded, Messrs. Parnall, Combe and others made short addresses.

ELECTED OFFICERS.

DRAGGED TO DEATH.
Accident Which Killed Little August Walters Was a Shocking One.

The funeral of little August Walters, the nine-year-old son of Mr. and Mrs. Joseph Walters of South Side, who was dragged to death by a horse Friday evening, was from S. S. Peters and Paul's German Lutheran church in Hancock Sunday afternoon, the pastor, Rev. G. Traub, officiating, with burial at Forest Hill, Houghton. A large number of sorrowing friends shared the grief of the bereaved family. The death of this lad was strange and tragic. It shocked a great number of people.

It appears that August was sent to the woods for the cows late in the afternoon. A couple of horses were running at large in the pasture lot. A chain was fastened by a rope to the neck of one of the horses. The chain was about ten feet long, and the piece of rope was three or four feet in length. At the end of the chain, dragging on the ground was a heavy iron hook. The boy stepped on the chain to catch the horse. The animal started up and the hook caught in the boy's neck. The chain was tightened and the boy was dragged to the main road to Houghton. They passed people on the road at a gallop. A number of persons were passed before they were aware of what was going on. The lad made heroic struggles to regain his feet, but he was unable to do so. He continually shouted for help. While the lad was being whisked by numbers relate that they heard him shout: "Stop the horses," "I am going to be killed," "I am gone!"

Quite a number relate that they could have stopped the horses had they realized that the boy was attached to the chain. They perceived the situation when it was too late to render aid. The span rushed on towards Houghton at rapid speed, their flight being accelerated by the shouts of the boy in deadly peril. They dashed over the tracks of the Copper Range road. Numbers at the country bridge were horror-stricken to see the lad whisked by on Sheldon street. People were terrified all the way along. Carl D. Haller succeeded in stopping the other horse a block east of the bridge, but before he could secure the animal the boy was dragged by the front of the horse. The people started both animals up again. They ran to the corner of Huron street, where the horses turned up the hill. It was here that the life of the poor lad was beaten out on the cruel rocks in the road. At the corner of Montezuma street, near the copper bridge, the young caught against an electric light pole and the horse was stopped by Ted Ames, driver for the Houghton fire department, aided by Frank Childers.

They carried the boy to the office of Dr. Harkness, who with Dr. Wheeler saw that the life had about run. The lad gasped a few times and died. The remains were taken to Krellwitz's undertaking establishment and later to the home of the bereaved family. The doctors state the skull was fractured and the neck broken. The boy was nearly naked when released, only a shred of clothing being on his body. The skin was worn from the back and legs, but his face was unharmed. One of the shoes was picked up on Sheldon street, but the right shoe to which the iron hook was fastened, clung fast to the foot.

Max Goldman, a guest at the Douglas House, was driving in from the Atlantic when the horses dashed by him. When he saw the boy being dragged he whipped up his horse, but was unable to overtake the fleeing steeds. A farmer driving home on the road met the horses. He turned and followed them, but was outdistanced. William Metzger, who lives four houses east of the bridge on Sheldon street, saw the horses dash by and heard the boy yell, "I am going to be killed." The team escaped from Mr. Metzger. Two little girls who were near the county bridge told Officer Armstrong that they heard the boy say "I am gone." Mark Meville was standing in front of the Pfeiffer House. He states he could have stopped the horses had he known the situation. Like others he thought it was a neck-roped or a block of wood being dragged. Meville states the boy looked like a lifeless man. Dr. Harkness states that August was finely formed physically and was very shapely. The father of the dead boy works for the Haas Brewing company. He heard of the sad event immediately and reached the doctor's office within a few minutes. There are three other children in the family. The dead boy was a favorite among his acquaintances.

FINNISH CELEBRATION.
O. J. Larson made the address at the midsummer celebration of Finnish residents of Calumet Saturday. All of the local Finns were invited to the parade, which included two bands and a number of singing societies. The exercises were held in Tamarack park. The event wound up with a supper and athletic sports.

GAME WARDEN MORSE EXPECTED.
Game Warden Grant Morse of Iowa is expected at Portage Lake today to study the situation here in reference to the protection of fish and game. The state game warden has for some time contemplated a trip to copperdom in order to become familiar with the situation through a personal investigation of the local field.

TEN YEARS IN BED.
R. A. Gray, J. P., Oakville, Ind., writes: "For ten years I was confined to my bed with disease of my kidneys. It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." People's Drug Store.

FOURTH IN CALUMET.
Nation's Natal Day Will Be Observed With Especial Exercises.

Present indications the Fourth of July celebration in Calumet will far surpass any like occasion ever held here in previous years. The committees in charge of the celebration are leaving no stone unturned that will aid in the success of the celebration and up to date speaker and other features have not as yet all been arranged, but the great feature will be the parade in the morning. The parade will most probably leave the town hall at about 10 o'clock. Here it is hoped that there will be at least 1,500 children present and prepared to march. At least this number of flags have been ordered.

The parade will probably be headed by the Calumet & Hecla band and after the principal streets have been traversed they will journey to the platform that will be erected at the end of the morning exercises as far as the municipal end of it is concerned will be completed, but all present will have an opportunity of amusing themselves and passing the time away by going to the Athletic park where a grand baseball tournament will be arranged to take place. This tournament will without doubt be a great success for teams from Calumet, Lake Linden and Dollar Bay have stated that they will enter and have posted \$25 in guarantee of good faith. Portage Lake ball teams have not as yet made their money but it is thought that they will do so in a few days. At the same time that the baseball games are taking place at the Park there will be the greatest wrestling tournament ever held in the copper country taking place at Laurium on Hecla street, two lots down from the Imperial Hotel.

BASEBALL TOURNAMENT.
One Will Be Held at Calumet July Four.
The senior base ball team of Lake Linden is to play a prominent part in the base ball tournament which is to be held in Calumet next Friday, July 4. The tournament will take place at the Red Jacket athletic park, and the contests will commence in the morning, continuing during the afternoon. The gentlemen who have charge of the event, will give lovers of the national game in the copper country an opportunity of witnessing several first class exhibitions in one day. The following teams have already deposited the necessary amount of money to guarantee their appearance at the tournament:
Calumet, Lake Linden, Portage Lake and Dollar Bay. Three or more contests will be held and the team winning the first prize will receive \$100 and the team winning second, will receive \$50. There is no doubt that every team will come with the strongest nine they can put up.

ORGANIZED LOCAL BOARD.
The following local board of the Standard Savings & Loan association of Detroit has been organized at Lake Linden. President, Albert A. Brockway; treasurer, William C. Hilbert; secretary, Emil E. Prince; appraisers, Gregory Therrien and A. F. Hagen; attorney, P. H. O'Brien. The headquarters of the association at Lake Linden will be at Emil E. Prince's office on Calumet street.

DEATH OF MISS CARRIE PETERS.
Miss Carrie Peters of Lake Linden, only daughter of Mr. and Mrs. Thomas Peters, died Friday. She was born in Cornwall, England, in 1835, and came with her parents to Keeweenaw county in 1872. They became residents of Lake Linden in 1872. The funeral will be from the residence Tuesday afternoon, Rev. Whitford officiating, with interment at Forest Hill, Houghton.

PEACE CELEBRATION A SUCCESS.
Copper Country Englishmen Hold Observance of War's End.

The peace celebration at Calumet Saturday afternoon was a fine demonstration. The procession was formed a little after 2 o'clock and was headed by the Tamarack and Quincy bands. A large number of marchers were in line. The speakers and officers of the day rode in carriages. The stars and stripes and the Union Jack side by side was a spectacle that stirred the hearts of many. Considerable enthusiasm was manifested along the line of march.

The procession, which formed at Red Jacket town hall, marched through the principal streets of Red Jacket and then to Tamarack Junior park. Captain W. E. Parnall was president of the day and Captain Whittle of the Quincy vice president. Addresses were made by the following: Dr. E. T. Abrams, of Dollar Bay; Rev. W. B. Combe, of Calumet; Rev. D. Stalker, of Calumet; Rev. J. B. Whitford, of Lake Linden; Rev. Raymond Johns, of Hancock; Rev. H. A. Lesson, of Laurium; Rev. F. A. Hasold, of Lake Linden; Rev. H. Appleton, of Calumet; Rev. G. Walker, of Tamarack; W. J. Galbraith, of Calumet. A large number went to the park to hear the speeches.

INSTALLED GRAND OFFICERS.
Annual Meeting of Temple of Honor Held at Calumet Saturday.

The annual meeting of the Michigan grand lodge of Temple of Honor closed at Calumet Saturday. The convention meetings were very successful. The following grand officers were installed: Past grand temple, James T. Ashton, Calumet; grand worthy temple, John T. Harry, Calumet; grand vice temple, Thomas Lowell, Ironwood; grand worthy recorder, Abel Tallon, Ishpeming; grand worthy treasurer, Joseph Hosking, Lake Linden; grand worthy chaplain, Richard Verran, Hancock; grand worthy usher, S. H. Bryant, Calumet; grand worthy guard, James Brewer, Ishpeming; representative to supreme council which will be held at St. Johns, N. B., John Langsford, Calumet; alternate, James Hawke, Ironwood.

An invitation was extended to the supreme council to meet in Calumet next year. All of the lodges in the upper peninsula are reported to be flourishing. Delegates were present during the convention as follows: Thomas Rowell, James Hawke, James Joyce and E. B. Munk, Ironwood; Francis Medlyn, Jas. Brewer, John Nichols, Joseph Colliet, Robert Wilson, Jr., and Charles Cornish, Ishpeming; I. John Truscott, W. J. Pollard, James T. Sampson and Richard Verran, Hancock; John Taper and Joseph Hosking, Lake Linden; James T. Ashton, John T. Harry, John Langsford, S. H. Bryant, Martin Harper and Thos. Lobb, Calumet.

MOVING TO TRIMOUNTAIN.
Dr. Burnham is moving his household effects to the Trimountain, where he has been nine months for the past two years. The family will reside there hereafter. During their residence in Hancock the doctor and family have made many friendships and they will be missed among their acquaintances.

CELEBRATED FIRST HIGH MASS.
A large number were assembled at St. Patrick's church in Hancock at 9:30 Sunday morning to hear Rev. Father Sullivan celebrate his first solemn high mass. He is a native of Hancock and was recently ordained at the St. Paul seminary by Archbishop Ireland.

STATE OF OHIO, CITY OF TOLEDO,
Lucas County, ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.
FRANK J. CHENEY.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

THE COPPER HANDBOOK
1902 EDITION.
The new 1902 edition treats of Copper from all standpoints—Historical, Technical, Statistical and Descriptive. It is divided into ten chapters, as follows:
I. History of Copper.
II. Chemistry and Mineralogy.
III. Metallurgy.
IV. Glossary of Mining Terms.
V. Copper Deposits of the World.
VI. Copper Deposits of the United States.
VII. Leading Foreign Mines.
VIII. Lake Superior Mines.
IX. American Copper Mines.
X. Statistics of Copper.

The work is an octavo volume of 492 pages, set in Brevier type. It is the only volume printed in any language treating of the entire subject of copper, with descriptions of all principal mines, some 700 properties being listed, the descriptions ranging from a few lines to a dozen pages for each, according to importance.
The price of the Copper Handbook is \$3 in full morocco, and \$2 in buckram binding, prepaid to any address in the world. It will be

PRESIDENT ACTS IN COAL STRIKE

CHIEF EXECUTIVE ASKS ATTORNEY GENERAL IF OPERATORS ARE IN A TRUST AND AMENABLE UNDER THE SHERMAN LAW.

Washington, D. C., June 29.—President Roosevelt has requested Attorney General Knox to submit an opinion as to whether the combination controlling the anthracite coal output constitutes a trust within the meaning of the Sherman anti-trust act, and the decision of the United States supreme court thereon.

In making his request the president gave Attorney General Knox the report recently prepared by Carrol D. Wright, commissioner of labor, after a careful investigation of the differences existing between the coal operators and the miners, the facts forwarded by President Mitchell of the United Mine Workers' association and all other data in his possession bearing on the subject. It will be the duty of Attorney General Knox to formulate an opinion for the president making a definite declaration that the anthracite combination does or does not constitute a trust. His present instructions do not require him to go further and express an opinion as to the probability of successful prosecution under the Sherman anti-trust act. The president will, it is believed, determine upon his subsequent line of action after Attorney General Knox has returned his opinion.

GARDENER ON STAND. OFFICER WHO MADE CHARGES AGAINST COMRADES TESTIFIES IN OWN BEHALF.

Manila, June 29.—During the investigation by the court of inquiry of the charges of cruelty against American officers made by Major Cornelius Gardener, governor of Tayabas province, Major Gardener was heard in his own behalf. He devoted much attention to a defense of his military operations. Major Gardener defined his policy as governor of the province as an honest effort to interpret the wishes of the Washington government, to improve the relations between the soldiers and the natives, and to further the establishment of a civil government. He exhibited the complimentary report of General Schwan on his work, as well as a number of memorials, thanking him for acting as a peacemaker, which were signed by leading citizens. Major Gardener described the difficulties he encountered in obtaining the cooperation of the military authorities in the organization of civil institutions and in obtaining possession of school houses and government buildings.

RATHBONE ASKS INVESTIGATION. PETITION PRESENTED TO SENATE BY TELLER FOR THAT PURPOSE.

Washington, June 29.—Senator Teller of Colorado, yesterday presented to the senate a petition from Estes G. Rathbone, praying for a full investigation into his performance of duties as director of posts in Cuba during the occupation of Cuba. He maintained in his petition that he is entitled to a full, fair and impartial investigation by congress. Senator Teller said the petitioner was not now in jeopardy, but would have had had not a general amnesty been granted by the Cuban government. He stood before the world as a convicted criminal. The case was unique, but it was one which might arise at any time in the Philippines. It seemed to him that the question demanded investigation by the senate. While he did not pass upon the guilt or innocence of the petitioner, he believed there was a fair presumption of his innocence. The petition was referred to the committee on relations with Cuba.

COAL TRUST NOW AT HAND. J. PIERPONT MORGAN ASSERTED TO HAVE FORMED SYNDICATE.

Kansas City, Mo., June 29.—That initial steps in the formation of a coal trust have been taken by J. Pierpont Morgan, R. G. Rombauer of Kirksville, Mo., a large coal operator, stated today. The coal mines in Missouri are to be absorbed first and the syndicate which is to take up this work has already been formed. "An effort was made about a year ago by Mr. Morgan's Chicago representatives to organize a syndicate in Missouri," continued Mr. Rombauer. "The negotiations were not successful, but a new plan of absorbing the Missouri mines has recently been proposed and the indications now are favorable for the consolidation of the most important mines in Missouri. The Missouri operators have had so much trouble with labor unions and with railroads that many good mines can be bought for reasonable prices."

SHIP TRUST TO ECONOMIZE. OFFICES OF THE DIFFERENT STEAMSHIP LINES WILL BE CONSOLIDATED.

London, June 29.—With the departure of Clement A. Grisson, P. A. B. Widener and William L. Elkins from London to join their yachts at Southampton it became known that these three men recently attended a very important meeting of moving spirits in the transatlantic shipping syndicate. This meeting was also attended by J. Pierpont Morgan, Bruce Ismay and Alfred G. Baker of the Atlantic Transport Line. The subject of an economic administration of the companies in the combination was discussed. It was decided that the different offices should be, in more or less degree, consolidated in future, effecting a great saving in the way of office rent, clerk hire, etc.

Makes the fires of life burn with a steady glow. Renewes the golden, happy days of youth. That's what Rocky Mountain Tea does. 35 cents. The Stafford Drug Co.

A DEMOCRAT OUSTED. HOUSE OF REPRESENTATIVES DECLARES VACANT SEAT OF MR. BUTLER OF MISSOURI.

Washington, June 29.—The house yesterday adopted resolutions declaring the seat occupied by Mr. Butler (Dem.) of Missouri vacant on the ground that there had been no valid election.

NO TRACE OF TEACHERS. SEARCHING PARTIES CANNOT FIND AMERICANS WHO LEFT CEBU JUNE 10.

Manila, June 29.—The chances of the rescue of the four American school teachers who resided at Cebu, on the island of the same name, and who disappeared after a day's outing June 10, are gradually becoming less. The inspector of the constabulary, who was in charge of a force sent to rescue the teachers, killed the ladron leader who wore a watch and revolver of Louis Thomas, one of the teachers. It was reported from unofficial sources that the three other Americans, supposed to be Clyde France, Ernest Seger and John Wells, were seen in a village on the north coast.

BIG COTTON MILLS. PLANT COSTING \$10,000,000 TO BE ERECTED NEAR KANSAS CITY.

Kansas City, June 29.—The Star says: The largest cotton mill in the world will be built near Kansas City. Ten million dollars will be invested, of which over \$3,000,000 has already been subscribed. President Whaley, of the Olympia and Grandby cotton mills of Columbia, South Carolina, will be president and general manager. The mill will have five thousand spindles, twelve thousand looms and employ four thousand operatives. The pay roll will be \$2,450,000 yearly. The capacity of the mills will be a hundred and seventy thousand bales of cotton a year, with an output of seventy-five million pounds of finished cloth. The annual output will, it is estimated, amount to twelve million, seven hundred and fifty thousand pounds. There will be four buildings covering two thousand acres.

MORGAN HINTS AT BRIBERY. ASKS WHETHER PANAMA CANAL LOBBY IS TO RECEIVE PART OF \$40,000,000.

Washington, June 29.—Senator Morgan in the senate yesterday said he wanted to know whether the lobby that had been hanging about Washington was to receive any part of the \$40,000,000. He said bribes were paid to men who conducted great negotiations. Senator Mitchell (Rep.) said he could not support the Morgan resolution because it would tend to reflect on congress. He would make no reflection on congress, but insisted that there was a lobby for Panama. The Morgan Panama resolution went to the calendar without action. It will take a vote of the senate to get it up.

RYAN ASKED TO TILDEN CLUB. PRESIDENT OF ORGANIZATION SAYS TWO LETTERS WERE SENT HIM.

New York, June 29.—President Robert E. Dowling of the Tilden club says that he could not understand how William J. Bryan failed to receive the invitation sent to him to attend the opening of the club, at which ex-President Grover Cleveland and ex-Senator David Bennett Hill made speeches. According to the officers of the club two invitations were sent to Mr. Bryan. Henry D. Hotchkiss sent one by registered letter, and holds the receipt for it. Registered letters are delivered only to persons whom the postal authorities know to be authorized to receive them. Colonel Bryan was asked to attend the meeting but not to speak. "It may be," said a member of the club today, "that Colonel Bryan does not think he's invited unless he's asked to speak. But an invitation went to his address and was received there. That is all we care about."

BASEBALL. FOLLOWING ARE THE SCORES IN YESTERDAY'S GAMES AND THE STANDING OF THE TEAMS TO DATE:

Table with columns for National League and American League, listing teams like Pittsburgh, Brooklyn, Boston, Philadelphia, Cincinnati, St. Louis, New York, Chicago, St. Louis, Boston, Philadelphia, Washington, Detroit, Baltimore, Cleveland and their respective scores.

NATIONAL LEAGUE. CINCINNATI JUNE 29.—Lever, with the assistance of Bill playing by Pittsburgh, succeeded in shutting Cincinnati out.

Cincinnati . . . 000000000—0 5 1 Pittsburgh . . . 000020040—6 7 0 Batteries: Thielman and Peitz; Leever and Smith.

St. Louis-Chicago postponed on account of rain.

American League. Chicago . . . 00201001—2 10 2 Detroit . . . 001010000—2 6 1 Batteries: Callahan and McFarland; Mullin and Beelow.

St. Louis-Cleveland postponed on account of rain.

Western League. Milwaukee, 4; Colorado Springs, 3. Second game: Milwaukee, 6; Colorado Springs, 1. St. Joseph, 0; Omaha, 6. Kansas City, 0; Des Moines, 4. Second game: Kansas City, 6; Des Moines, 2. Peoria-Des Moines postponed on account of rain.

HAD BUSY SESSION. PRESENT CONGRESS ENACTED MANY LAWS.

Washington, June 29.—This session of congress has been one of exceptional activity. Many questions far reaching in general interest have engaged attention. With the exception of Cuban reciprocity, most of the larger subjects of general legislation have been enacted as laws or will become such before the session closes. Notable among these is the canal bill which consummates the efforts of half a century to link the Atlantic and Pacific. Aside from its national and international importance this bill probably involves a larger sum of money than any other single undertaking by the government outside the war expenditures.

ISTHMIAN CANAL MOST IMPORTANT. REPEAL OF WAR REVENUE ALSO PROMINENT.

Among the Measures That Failed to Pass Are Election of Senators by People and Anti-Anarchy Bill.

LIST OF IMPORTANT LAWS ENACTED.

The Philippine bill is another measure far reaching in importance, extending to our Pacific possessions a system of internal and civil government. Among the other important general laws enacted are those repealing the revenue taxes; making more effective Chinese exclusion laws; establishing tariff for goods to and from the Philippines; extending the charter of national banks twenty years; establishing permanent consular offices; restricting the sale of oleomargarine by placing a high tax on the imitation of butter, providing a consular and diplomatic service for Cuba; establishing an extensive system of irrigation of the arid sections of the west. The repeal of the war revenue tax reduced taxation, \$73,250,000 and is said to be the largest single reduction of taxation ever made in this country.

NUMBER OF BILLS FAILED TO PASS. A NUMBER OF BILLS FAILED TO PASS BOTH HOUSES.

Among these are the anti-anarchist bill; the election of senators by the people; the Pacific cable bill; the immigration bill; a bill defining conspiracy in injunction cases; the pure food bill; the Fowler banking bill and Hill's bill for the coinage of subsidiary silver. The total of appropriations made will be almost if not quite a \$1,000,000,000.

ADJOURN TUESDAY OR WEDNESDAY. CONGRESS HAS ABOUT WOUND UP ITS LABORS AND THE END ONLY AWAITS ON SETTLEMENT OF PHILIPPINE BILL.

Washington, June 29.—Nothing definite as to the adjournment of congress can be foretold until an agreement is reached on the Philippine bill but the consensus of opinion places adjournment on Tuesday, or at the latest on Wednesday. It is not believed in any quarter that either house will consume much time debating the conference report when presented, but lest the debate should run longer than expected, a resolution fixing the time of adjournment will not be brought in until the Philippine conference report shall be made to and accepted by both houses. The general deficiency and the naval appropriation bills remain to receive the finishing touches but there are none that cannot be harmonized whenever the Philippine bill is out of the way. Both houses will close the session with exceptionally clean calendars and with the feeling that it has been a session of important achievements.

WILL WALK IN BEATEN PATH. GEORGE OF SAXONY WILL FOLLOW IN FOOTSTEPS OF KING ALBERT.

Dresden, June 29.—The new king, George, has assured the Kaiser and other royal courts that he would follow strictly in King Albert's footsteps, making no changes, no concessions, and yielding nothing to the Socialists, no matter how large their number. During the last week of his life, King Albert consulted with George as often as his illness would permit, impressing upon him the necessity of continuing the policy he had pursued himself. At the same time, King Albert asked George to grant all petitions for royal pardon that he himself couldn't attend to, owing to his weakened condition.

JESSIE MORRISON GUILTY. CONVICTED THE THIRD TIME ON CHARGE OF MURDER.

Eldorado, Kan., June 29.—Jessie Morrison, on trial here for the third time for the murder of Mrs. Olin Castle, at her home in this city in June, 1900, was found guilty of murder in the second degree yesterday. The jury was out twelve hours. The case may be appealed again. The first trial resulted in a disagreement; at the second trial Miss Morrison was found guilty of manslaughter and given a five-year sentence. She spent two months in the penitentiary, being released on bond on the day her case was taken up by the state supreme court. She was granted a new trial last February.

NEW YORK STOCK MARKET. MINOR RAILROADS MADE A NUMBER OF STRIKING GAINS.

New York, June 29.—The market opened with a varying and uncertain movement of prices. Only a few stocks were dealt in and those to a small extent. There were some large takings of Missouri Pacific and a number of the Gould Southwesterns hardened in sympathy. Distilling preferred rose 1/4 and Colorado Fuel ran off 1/4. There were a number of striking gains in mining railroad stock. Standard stocks generally eased off except the Southwesterns, which were maintained by the heavy buying of Missouri Pacific. Colorado Fuel was supported and about wiped out its loss. Gas preferred regained a point of yesterday's decline. Other gains included 3/4 in Minneapolis, St. Paul & Sault Ste. Marie preferred, and 1/4 in the common and between 1 and 2 points in Chicago & Eastern Illinois, Iowa Central preferred, Louisville & Nashville, St. Louis Southwestern preferred, American Telegraph & Telephone, Consolidated Gas and Continental Tobacco preferred.

GENERAL LIST OF STOCKS AS REPORTED BY PAINE, WEBBER & CO. AS FOLLOWS:

Table listing various stocks such as Union Pac., N.Y. Central, Alton, Rock Island, etc., with their respective prices and changes.

RANGE OF MONEY RATES. MONEY ON CALL STEADY. ACTUAL TRANSACTIONS AT 3 PER CENT OFFERED 3 PER CENT. STERLING EXCHANGE STEADY.

Money on call steady. Actual transactions at 3 per cent offered 3 per cent. Sterling exchange steady, with actual business in bankers' bills at \$4.87 1/2 for demand and at \$4.85 1/2 for sixty days.

CHICAGO GRAIN MARKETS. FEATURES OF THE DAY IN THE WHEAT, CORN AND OATS PITS.

Chicago, June 29.—Wet weather and a fair bulge in Paris quotations indicating more rain in France started a bullish sentiment in grains at the opening yesterday. Prices were not English and a new record price for the year, 70c. Rains fell in most of the country and although beneficial to suffering Texas and Oklahoma cultivation over the big corn belt; July wheat opened 1/4 higher at 69 1/2, but dropped back to 69 1/4. Corn shorts kept busy most of the day covering. There was a fair demand and July closed strong and congested, 1c up at 69 1/2.

OTATS WERE STRONG EARLY IN SYMPATHY WITH THE OTHER GRAINS AND ON THE WEATHER. SHORTS COVERED IN JULY NEW AND SET THE OPENING PRICE 1/4 HIGHER AT 1 1/4.

Oats were strong early in sympathy with the other grains and on the weather. Shorts covered in July new and set the opening price 1/4 higher at 1 1/4. A later dip to 46c steadied the pit. Shorts in new July oats covered freely all session and that option closed very strong, 1 1/4 up, at 46 1/2. The leading futures ranged as follows: July wheat opened at 73 1/4; highest, 73 1/2; lowest, 72 1/2; closed, 73. July corn opened at 69 1/2; highest, 70; lowest, 69 1/4; closed, 69 1/2. July oats opened at 40 1/2; highest, 41; lowest, 40 1/2; closed, 40 1/2.

BOSTON COPPER QUOTATIONS. THE COPPER STOCKS DEALT IN ON THE BOSTON EXCHANGE CLOSED AS FOLLOWS YESTERDAY.

Table listing copper stocks such as Adve., Am. Copper, B. & C., etc., with their respective prices.

NOTICE TO CONTRACTORS. CITY CONTROLLER'S OFFICE.

Pursuant to resolution of the common council of the city of Marquette, notice is hereby given that sealed proposals will be received at my office until 8 o'clock p. m. July 7th, 1902, for furnishing all labor and material required to make the following street improvements in accordance with the profile and specifications thereon on file in my office, viz: To grade, curb and macadamize Superior street from the west line of Seventh street to a point 350 feet west. Proposals for bids and improvements must be in sealed envelopes marked "West Superior Street Improvement" and must be accompanied by a contractor's bond, with two good sureties, in a sum at least twice the amount of bid; conditioned for performance of contract, payment for labor and materials, etc., in accordance with form on file in my office. The common council reserves the right to reject any or all bids. FRANKLIN E. BAY, City Controller.

MITCHELL COMES TO MICHIGAN. PRESIDENT OF MINERS WILL ARRIVE TUESDAY TO TRY TO STRAIGHTEN OUT TROUBLES OF STRIKERS AND OPERATORS.

Chicago, June 29.—President Mitchell is here to settle matters concerning the Illinois miners. He expresses satisfaction with the progress of the strike in Pennsylvania. President Mitchell goes to Saginaw, Mich., Tuesday to meet the miners' officials and operators of that state with a view to settling the strike which has been in progress since April.

WILKESBARR, JUNE 29.—THE BEGINNING OF THE EIGHTH WEEK OF THE STRIKE SHOWS NO CHANGE IN THE SITUATION.

Wilkesbarr, June 29.—The beginning of the eighth week of the strike shows no change in the situation. At headquarters it was said tonight that the miners are as determined as ever and unless there was arbitration the strike was destined to go on. The operators seem to be a unit in saying a break in the strikers' ranks may come any time now.

ALLIANCE PROLONGED BY TREATY. GERMANY, AUSTRIA-HUNGARY AND ITALY RENEW FRIENDSHIP.

Berlin, June 29.—The treaty providing for the prolongation of the alliance between Germany, Austria-Hungary and Italy (the old alliance), was signed in Berlin yesterday morning by the imperial chancellor, Count von Buelow; the Austrian ambassador, L. von Szogyeny-March, and the Italian ambassador, Count Lanza di Busca. The alliance was renewed in its original form.

GEN. SMITH TO BE REPRIMANDED. COURT-MARTIAL DID NOT ACQUIT HIM, AS REPORTED, IT IS SAID.

Washington, June 29.—It is announced at the war department that the case of General J. H. Smith will not be acted upon finally before the end of this week at the earliest. Judge Advocate General Davis has completed his review of the proceedings of the court-martial and the papers are now in the hands of Secretary Root, who has not yet had time to give the case the attention it deserves. It has been generally understood that General Smith was acquitted by the court, but it transpired yesterday that such was not the case, the court, it is alleged, having found General Smith guilty of violating the rules of war and sentenced him to be reprimanded by the reviewing authorities, which in this case is President Roosevelt.

BUILT BY A PIRATE. HAVANA'S MOST FAMOUS THEATER WAS FOUNDED ON BLOOD MONEY.

The Tacon theater, in Havana, one of the largest and most famous in the western hemisphere, was built by an old pirate, Marti, who was a notorious pirate in his day and obtained his money for himself by betraying his comrades into the hands of the Spanish authorities. One dark and rainy night Marti slipped by the sentry guarding the palace in Havana and entered the apartments of the captain-general, who was writing a table. When the captain-general raised his eyes and saw the cloaked figure before him, he reached for the bell. "Stop, your excellency," cried the stranger, "I am here on a desperate enterprise. I have come to deliver into your hands every pirate on the Cuban coast, upon one condition, a pardon for myself. 'You shall have it,' was the answer, 'but who are you?' 'I am Marti, and I rely upon the promise you have given me.' Preparatory to this interview Marti had appointed a rendezvous for the different bands, to which he conducted the Spanish force, and every pirate was captured and righteously garroted. As for Marti, he was not only pardoned, but was given a monopoly of the sale of fish in Havana, which made him a rich, and thus an eminently respected citizen, who ended his days in the odor of sanctity. It will be remembered that another famous buccaner, the Welshman, Henry Morgan, showed such remarkable military talents that he was knighted by Charles II., and made governor of Jamaica, which he had previously captured.—Army and Navy Journal.

TWO KILLED BY TRAIN. SPRINGFIELD, ILL., JUNE 29.—CASPER Geshwiler, aged fifty-nine years, and Maurice Tobin, aged fifty-two, were struck by a Chicago & Alton freight today and killed.

LEADS THEM ALL. "ONE MINUTE COUGH CURE BEATS ALL OTHER MEDICINES FOR COUGHS, COLDS, CROUP AND THROAT AND LUNG TROUBLES," SAYS D. SCOTT CURRIE OF LOGANTON, PA.

WANTED—Boy to pass papers. Inquire of Bigelow & Co. 6-17-12

FOR SALE—Iron bed with wire springs and two mattresses and pillows; price \$18. Hager Bros. Co. (Ltd) 6-16-12

FOR SALE—45 acres on Washington St; west half Curney block, Superior st.; 330 ft. of harbor water front and two cottages, 25 and 32 E. Michigan St. M. H. Foard, Nester block. 6-17-12

SOMETHING FIERCE.

Some New Inventions for Making Noise on the Fourth.
Marquette will be struck with an awful visitation of noise about next Friday. Already ominous signs of the approaching tumult are seen and preparations for its reception are under way. Next Friday's glorions Fourth is with us once more and from the appearance of various shop windows the small boy will have this year a more golden opportunity than ever before of suffering in the cause of patriotism.

Among the fireworks displayed there are this year a number of inventions calculated to fill the heart of the small boy with glee and the hearts of everybody else with terror. The most striking of the new infernal machines is a miniature mortar. It is built solidly of cast iron and is inserted in an opening in the top of a plaster mortar. The mortar is a box of caps, or torpedoes of an explosive composition, which are to be placed singly in the bomb. Then the small boy strikes the plunger with a hammer. This machine puts forth the finest bunch of concentrated noise that ever happened.

A variation of this bomb is an explosive can, which has attached a sort of ferrule a small mortar in which the celebrator may insert a bit of the accompanying explosive compound. Then he jabs at the walk with the cane and the noise results. This will be a good agent for scaring the trees. The noise into fits. Pass them carelessly on the street job with the cane as you pass, and send for the undertaker.

Another attractive patriotic medium is the "Old Glory Salute" firecracker. The directions for operating this little bit of inferno are: "Trench a match and run like a man. If you don't get a quick start the 'Old Glory' will render valuable assistance in your locomotion. Then there is a sky rocket, which is six feet tall and the charge of which weighs three pounds. If a small patriotic kid should attempt to get tangled up in the tree, the noise which it will make a star shoot that will make the achievements of Santos-Dumont as thirty cents. There are also all sizes and shapes of crackers, torpedoes, Roman candles and toy pistols in the windows around the city. The glorious Fourth is coming and nervous ones had better take to the trees for the noise will be quite severe.

MARINE MATTERS.

Sault Ste. Marie, Mich., June 29.—(Special).—Algonquin, 8:30; Luzon, 10:20; Sauber, 9; Curry, 10; Venus, 11; Bangor, 1 a. m.; Watson, Antrim, Croshawite, Queen City, 1:40; Mariposa, 3:30; Glangary, Minnedosa, Grilling, Sanders, 4:40; Osoodook, No. 1, 6:20; Bradley, Woolson, 10; Niagara, 10:20; Geo. Peavey, 10:40; Walter Seranton, 11:20; Chisholm, noon; German and whaleback, 12:30 p. m.; Manitoba, 1:40; Houghton, Maderia, Centurion, 2; Huron City, Bay City, 4:20; Marshall, Tilden, 5; Kalkaska, Tryer, Miller, Buell, 6:30; Osoodook, Conning, Flarer, Lockwood, Mohegan, Mingo, Black Rock, H. B. Brown, Chicago, 7:20; Sheldon, Negaunee, Ioana, 8:20.

FILTHY TEMPLES IN INDI.

Sacred cows often defile Indian temples, but worse yet is a body that is polluted by constipation. Don't permit it. Cleanse your system with Dr. King's New Life Pills and avoid untold misery. They give lively livers, active bowels, good digestion, fine appetite. Only 25c at The Stafford Drug Co.'s drug store.

CITY BRIEFS.

Weather forecast: Generally fair; stationary temperature; northeast wind. Yesterday's temperature: 7 a. m., 53 degrees; noon, 58 degrees; 7 p. m., 52 degrees; minimum, 63 degrees; minimum, 32 degrees.

H. E. Heyn of Ishpeming was a business visitor here Saturday.

Mrs. Charles Hall and daughter are absent in Calumet for a short visit.

Ernest Dingman of the Soo, has arrived in the city and will locate here.

The regular monthly meeting of the board of supervisors will be held Wednesday, beginning at 11 o'clock a. m.

Very low rates of fare between all stations on its line are advertised by the South Shore road for Fourth of July.

The Ladies' auxiliary of the B. of E. T. announce their first annual ball for Thursday evening, July 3, at Fraternity hall.

Alfred Eggers, who has been visiting his parents the past week, left last evening for Duluth where he will resume his duties in the Standard Oil office.

The marriage of Howard W. French and Nellie E. Moon was celebrated at the Presbyterian parsonage on the 31st of May. Rev. J. M. Rogers officiated.

The Ladies' society of the B. of E. T. will this evening at the A. O. U. W. hall entertain at a social hop for which the Ideal orchestra will furnish music. The general public is invited.

A number of the Marquette delegates to the state Republican convention arrived home Saturday afternoon. A few of the gentlemen have not yet returned, being engaged with business missions in the lower part of the state and in Chicago.

Mr. and Mrs. Melvin P. Youngs left Saturday for Milwaukee to attend the funeral of Mr. Youngs' grandfather, who died Friday morning. The deceased had been for the past forty-five years grand lecturer of the Masonic grand lodge of Wisconsin and was an authority on national questions affecting Masonry.

Martin Rustenhoven, now in the liquor business on South Front street, between Superior and Rock, has been granted permission to remove his saloon to a stand near the street railway power house. The change will be made the first of July. Mr. Rustenhoven's present stand will be occupied by Joseph R. Bourassa, now in business on Superior street.

The steamer Thomas Friant plied between Spear's dock and Presque Isle, according to the announced schedule, yesterday. She handled a good traffic on some of the trips, despite the rather chilly weather. When it warms up, if it ever does, the Friant's Presque Isle runs will be very popular. The affair an opportunity for a refreshing lake run at nominal price.

Residents in the neighborhood of the corner of Arch and Front streets complain of the racket raised there every Sunday afternoon by the small boys. The street car company has trailers standing at this point most of the day and when the employees are away the boys swarm the cars, raising a tremendous uproar and taking dangerous risks. An occasional visit by a police officer or a street car man would abate the nuisance.

The last of the whist players returned home Saturday morning well pleased with the outcome of the tournament at Negaunee. Aside from the ladies' team of Marquette capturing first honors, two Queen City ladies were victorious in the pair contest for the Soo trophy. These were Miss Biddle and Mrs. Ball, who won seven games out of eight and tied for the other, a record that is seldom excelled. The contest was open to all players, gentlemen as well as ladies, and the competi-

Let the GOLD DUST twine do your work.

It can be shown that any postoffice employe is to blame for the loss he is obliged to pay the full value of it. It is only in case of fire, wreck, or unavoidable accidents where the blame cannot be fastened on anyone, that the indemnity limit comes into play. Then, if the value of the article exceeds the indemnity, the balance of the loss falls on the sender. In case of remittances exceeding the limit of \$25 the sender may absolutely insure himself by dividing them into two or more parts, the only additional expense being the extra registry fee.

On the risk in sending registered mail is very small. The statistics of the post-office department show the total number of registered pieces handled in 1901 to have been 17,617,278. The total number of losses reported was 1,670, and of these 1,356 were recovered or the full value was paid to the owner. Recovery was impossible in 314 cases. Out of this number forty-one pieces were official mail, and 273 were lost by the public. Forty of these were left unsealed through the carelessness of the senders. In 131 of these cases the indemnity of \$10 was paid, and in the balance of eighty-two cases there was either no proof of loss or the cases are still under investigation.

MARINE MATTERS.

tion for the prize was keen. The four Marquette ladies who won first place in the team contest were Mesdames Ball Brown, Button and Markham, and by their victory they secured possession of the cup which three years ago the Marquette ladies purchased and put up as a trophy. For the past two years it has been in possession of the Ishpeming ladies.

Commencing with tomorrow, the upper peninsula hustlers of the A. O. U. W. will inaugurate a contest for new members with the lower Michigan lodges, the latter, through Grand Master Wetmore, having accepted a challenge issued on behalf of the upper peninsula by Grand Foreman Thomas of Ironwood. The contest will continue until the last day of December, and it is the expectation that 10,000 names will be added to the membership. The upper peninsula campaign will be in charge of Deputy Jas. Hollings of Detroit.

J. E. Ball has earned the distinction of being the first Marquette man to own an automobile. The machine arrived a week ago and has been tested during the past few days. It is a stylish, compact vehicle and Mr. Ball expects that it will give satisfactory services, even on Marquette's somewhat hilly thoroughfares. His experience with the machine will be observed with considerable interest. There has been much debate of the question whether an automobile is a practical vehicle for Northern Michigan roads and Mr. Ball will get some tangible evidence on the subject. The new "auto" has already attracted considerable attention.

O ye people! have ye wasted the golden moments of never returning time in taking a substitute for the genuine Rocky Mountain Tea made by the Madison Medicine Co. The Stafford Drug Company.

JOE HOOPER APPOINTED.

Representative C. J. Byrns Laid Place for Him on State Board of Barbers.

Governor Bliss has appointed Joe Hooper, proprietor of the Nelson House barber shop, a member of the state board of barbers. C. J. Byrns, who attended the Republican state convention in Detroit last Thursday, brought the news to Joe. While in Detroit, Mr. Byrns saw the governor and he was advised that the appointment had been made and Mr. Hooper's commission had been signed.

The appointment was made entirely through the efforts of Mr. Byrns. The fight has been tedious and at times Byrns was not certain that he would land the plum for the Ishpeming man. There were several other barbers who had the job and some of them had a strong pull with prominent politicians of the state. Byrns, however, was one of the first to put a candidate in the field and the governor was true to a promise he made him some months ago, when he gave his word that Hooper would be given the place. Letters endorsing Hooper from prominent citizens were also sent to the governor.

The fight for the office was spirited. The 135 delegates to the state convention from Wayne county were supporting Charles Kieger, the retiring member of the board. They pulled some strong strings in an effort to have him reappointed, but nothing they said or done carried any weight with the governor. He had made Byrns a promise and he would not break it. The delegates from Calhoun county also had a candidate in the board. The latter was a delegate to the state convention from his county. He was elected in the interest of Stearns, but he "dipped" for Bliss, thinking the move would mean his appointment to the place on the board.

Hooper Will Be Secretary.

Hooper is named for a term of three years. During the first year he will act as secretary, with a salary of \$500 per month and all expenses. There will be four or five trips each year, each continuing perhaps a month's time. The other members of the board are F. M. Van Horn of Benton Harbor and E. I. Dushy of Hastings. The former is president and the latter treasurer. Next year Hooper will be secretary and Dushy will be secretary and Van Horn treasurer. The secretaryship is the only office which pays a salary.

The board investigates irregularities on the part of the barbers of the state. It also examines applications of all persons wishing to work as journeyman barbers. The secretary has no small amount of work, and he will be kept pretty busy during his term of office.

The barber board is self supporting, which went to the state treasurer. The barbers themselves are paying the expense incurred by the board. All applicants for certificates pay \$5 and barbers are taxed \$1 annually for renewals.

Hooper's Second Appointment.

Many doubtless remember that Mr. Hooper was appointed a member of the board nearly a year ago, but on account of an error of the clerk of the senate the bill under which he was named was rejected.

The bill was passed in both houses, largely through the efforts of Byrns, though it was drafted and introduced by Senator Spooner. The old board was dissolved and a new one created. Byrns boomed Hooper for a place. He argued that the upper peninsula was entitled to representation on the board and the governor agreed with him.

The new bill was signed and Hooper's commission was sent to him. Then it was discovered that the clerk of the senate had made an error in the title. The new board brought suit for the recovery of the books, but it was decided that the new board had no jurisdiction; that the law was illegal.

The appointee will make an excellent man for the position. He has been barbering all his life and is thoroughly posted. His many friends will be pleased at his victory over the lower peninsula candidates.

A SUCCESSFUL PRODUCTION.

Local Amateurs Score a Hit in "Powhatan" Saturday Evening.

The production of the Indian opera, "Powhatan", by members of Grace church choir and others, under direction of William A. Baker, at the Ishpeming Opera House Saturday evening, was an agreeable surprise. It was not thought possible that such a complete performance could be given, in view of the short time the amateurs had been at work. The costumes added greatly to the production, as did also the drills and dances by the sixty or more little girls of the city. Some of the scenes were strikingly attractive.

The opera abounds in comedy lines and good situations. The chorus was one of the best ever heard here. Indeed, Mr. Baker says it is the best he has worked with during the many years he has produced the opera. Nearly all the members of the Grace choir are singing. The drills and dances were exceptionally good. In the closing drill about sixty children took part and in spite of the fact that they crowded the stage every movement was executed perfectly.

Mrs. Will Watson appeared to excellent advantage as Pocahontas. Her singing captivated the audience and she was obliged to reappear at the end of every act. Her work in the duet with James Tucker, as Captain Rolfe, was particularly good. Ross Rile made a stern old king and his acting and singing were both effective. The Misses Florence Milton and Nellie Girzi did clever work, their acting being particularly strong feature of the production. Mr. Baker, the instructor, was right at home as Captain John Smith. Little Florence Olson and Harold Eger did their work well and both of the little tots made a hit. The comedy work was ably handled by Roy W. Smith and J. H. Crane.

In spite of the fact that there were over one hundred persons taking part, the performance moved without a hitch. The opera will be repeated again this evening, in that it is expected that another large audience will greet the players.

ISHPEMING IN BRIEF.

Hon. Tim Nester of Munising was an Ishpeming visitor Saturday.

Dr. N. P. Hulst spent Saturday in the city in the interest of the Oliver Iron company.

Captain W. Bodenna, formerly of this city, but now of the copper country, is here visiting relatives.

Miss Lottie Roush is visiting her sister, Mrs. Al. Holzer, at Hancock. She will be away two or three weeks.

Wanek & Fish's billiard and pool tables arrived Saturday from Ironwood. They will be put in position at once. The room will likely be opened on the Fourth.

John Morley and wife, old residents of the Lake Angelina location, who spent the winter with their sons in Chicago, have returned. They report that all the boys are doing well.

One of Vivian & Sons horses fell into an opening on Fourth street, caused by the caving of the sewer Friday evening. It took several men some minutes to get the animal out. The horse was not injured.

Gunnard Norberry, for many years a resident of this city, spent yesterday here visiting relatives. He is located at Saksan, Minn., and is now in the position with the Sagola Lumber company.

Miss Edith R. Hulst of Milwaukee is in the city visiting her brother, Harry Hulst, and wife. Miss Katharine Crombie of Milwaukee will arrive in the city tomorrow on a visit of five or six weeks to Mr. and Mrs. Hulst.

A good-sized audience witnessed the reproduction of the Passion Play at St. John's church Saturday evening. The moving pictures were the best of this famous play ever seen in this city. Mr. Kilrain's description of the play was interesting.

Ishpeming young people who gave a fine dancing party a short time ago, have completed arrangements for another hop for Wednesday night of this week at the Anderson hall. A limited number of invitations will be issued so that the hall will not be overcrowded. The complete Trombly orchestra will be in attendance.

The children of the Swedish Lutheran church Sunday school society will be given a picnic at Cleveland Park on the Fourth. There will be over three hundred children, besides a number of adults, in attendance. The members of the Swedish Baptist Sunday school society will also picnic at the park that day. All will go down on special street cars.

Thomas Conlin, W. H. Jobe and E. E. Montaigne, all well known residents of Crystal Falls, spent yesterday in the city. They came up in the morning and returned on the evening train. There were several over from Crystal Falls yesterday, but most of the strangers spent the day at Marquette. The cheap rate of fare offered every Sunday during the summer is greatly appreciated by Crystal Falls people.

SAVED FROM AN AWFUL FATE.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa. "I was so low after six months of severe sickness, caused by Hay Fever and Asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was completely cured." For desperate Throat and Lung Diseases it is the safest cure in the world, and is infallible for Coughs, Colds and Bronchitis Affections. Guaranteed bottles 50c and \$1.00. Trial bottles free at The Stafford Drug Co.

We have a large assortment of fancy white lawn waists. Prices away down. Finnish Mercantile association.

No one would ever be bothered with constipation if everyone knew how naturally and quickly Burdock Blood Bitters regulates the stomach and bowels.

MARQUETTE WINS TROPHY.

Honors in Friday's Whist Contest Went to Two Queen City Ladies.

The result of the contest for the trophy held last year by a Sault Ste. Marie whist team was so close that several recounts of the score were necessary before it was determined who were the winners. There was some doubt as to whether the trophy would go to Ne-gamoo or Marquette, but it was finally determined that Mrs. Ball and Miss Biddle of Marquette were the winners. They were just four-fifteenths of one point ahead of J. M. Perkins and Dr. L. H. Hudson of this city.

The contest was participated in by thirty pairs. Nearly all the ladies and gentlemen played. The games did not end Friday evening until about 7 o'clock. The scorers spent some time that evening and all Saturday summing up the results.

The selection of the place for the winter meeting was left to the executive committee.

WHERE INTUITION FAILED.

A prominent physician was riding out in the northwest section one day last week on a Fourteenth street car. His attention was attracted to a passenger, well groomed and apparently a business man, who had just entered the car and taken a seat in the corner immediately opposite him.

The physician is well known to the conductors on that line, and they frequently exchange pleasant words with him. On this occasion the conductor was unusually chatty, and confided to the doctor the fact that he had on board a "dead beat."

"Where?" came the query.

"Opposite you," answered the conductor. "I know them the minute they put foot on the step. See for yourself how he is acting. I have never yet failed to spot 'em, and you can put it down as a pretty safe guess that I never let 'em slip. It makes me feel good to nail 'em."

Meanwhile the suspect had his head buried in an evening paper, apparently intent on the news of the day. But the wise conductor, with a crafty wink to the physician, commenced operations. Clearing his throat and getting "cherty," he demanded, in a characteristic tone, "Fares!" The "dead beat" evidently did not hear, and in a stentorian voice the conductor bawled "Fares!"

The passenger looked up from his paper and handed out a transfer. The conductor took it with a "knock-out" look. "I guess that's one on me," he said to the doctor.—Washington Post.

Loss of Appetite is commonly gradual; one dish after another is set aside. It is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics.

Negaunee and Vicinity.

(Subscribers to The Mining Journal will please remember that carrier boys are not allowed to receive money on subscription account.)

RACE FOR A HOMESTEAD.

Will Fisher, Formerly of Negaunee, Obtained One by a Close Margin.

Will Fisher of Hancock, for many years a resident of Negaunee, did a lucky stroke of business at Marquette Friday. He was one of several who have had an eye on a certain desirable piece of land in Ontonagon county. A friend of his had a claim on the homestead, but it was open to contest. The man named McNorman, from the Ontonagon district, had papers made out and went to Marquette on the same train with Fisher and his friend to file. Fisher's friend relinquished his right to the homestead in his favor and Fisher reached the land office just a minute or two ahead of McNorman.

Fisher knew McNorman was on the train, but the latter did not know that Fisher was aboard. Both were strangers to each other, but the Hancock man was advised by wire before the train reached Marquette that the other fellow was going after the homestead. A description of McNorman was given in the message so that Fisher had no difficulty locating him in the train.

Fisher left the train before it reached the station and ran as quickly as he could to the land office. He had just signed his name to the application blank when McNorman came in. The clerk of the land office explained the case to McNorman, who confessed that he had been beaten out. He was just about two minutes too late.

Young Fisher is a son of John Fisher, who was master mechanic at the Pioneer furnace before it closed down the last time. The Mining Journal representative met him on the train Saturday, when he related his experience. His father is employed at the Quincy mills, where he holds a very desirable position. Before locating in Negaunee, Mr. Fisher was master mechanic at the Michigan mine, so he is remembered by many of the older residents of this county.

STOPPED RUNAWAY HORSE.

John Greenaway Showed His Training as a Rough Rider in Negaunee Friday.

John Greenaway, assistant superintendent of the Oliver Iron company's mines on Iron street Friday. A horse started to run away down the street. Mr. Greenaway happened to be in the vicinity and he saw the nag making tracks for town. He was on his horse at the time, and he whipped the animal up and started in pursuit of the runaway. He overtook the nag just as it turned the corner on Iron street.

Greenaway brought the horse to a stop by a clever maneuver. He rode alongside until he had a chance to reach over and catch its bridle. In doing this he took a great chance of being thrown, as the horse he was riding came up within a foot or so of the wagon, which was being tossed from one side of the street to the other. He had his own animal under perfect control and kept it at the right distance from the wagon by the use of his spur.

Greenaway obtained a good grip on the bridle, he soon brought the runaway nag to a standstill. People who stood on the street watching the performance were almost breathless. They thought Greenaway would be thrown at almost any moment. When the former Rough Rider got the runaway under control, the bystanders gave him a cheer. Greenaway was not the least nervous as a result of his daring adventure.

It is perhaps not generally known in Negaunee that Mr. Greenaway was one of President Roosevelt's Rough Riders during the Spanish-American war.

DIZZY WOMEN TAKEN IN.

The Negaunee city jail was grazed by a couple of women Friday night. The officers picked up the pair in a drunken condition and put them in the cooler to sober up. It is said that they hail from Ishpeming. They were released Saturday day after receiving the same treatment that all disorderly persons get here. They were instructed to leave the city in a hurry.

FOURTH OF JULY RATES.

Single fares for the round trip have been made by the South Shore road for the Fourth of July business. The low rate will be in effect between all stations. Tickets will be on sale on the 3d and 4th, and will be good to return until Saturday, the 5th, inclusive.

READ IT IN HIS NEWSPAPER.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkszeitung. He knows that this paper aims to advertise only the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for lame back he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He said: "After using the Pain Balm for a few days my wife said to me, 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery. This valuable liniment is for sale by The Stafford Drug Co.

A blessing alike to young and old; Dr. Fowler's Extract of Wild Strawberry; nature's specific for dysentery, diarrhoea and summer complaint.

WAS WASTING AWAY.

The following letter from Robert R. Watts, of Salem, Mo., is instructive: "I have been troubled with kidney disease for the last five years. I lost sleep and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Fowler's Kidney Cure and less than two bottles completely cured me and I am now sound and well. People's Drug Store."

LOCAL LAONICS.

About fifteen couples attended the Clerks' party Friday evening at the Boulton hall.

Miss Dolvine Tourville, who has been in Milwaukee the past two years or so, is in the city visiting her people.

Duncan McDonald spent the past couple of days with friends in Chicago. He will be back tomorrow or Wednesday.

Louis Kellan's new business block in the eastern part of the city is about completed. It is likely Mr. Kellan will engage in the mercantile business there.

Rev. A. E. Rundquist, pastor of the Swedish Mission church, who spent the past couple of weeks attending a mission at Galesburg, Ill., got home Friday.

Mesdames Norbom and Killstrom of Calumet, who spent last week here visiting William Anderson and family, returned to their home on Friday. The ladies are sisters of Mr. Anderson.

W. H. Hosking, postmaster at Calumet, was among the copper country men in attendance at the meeting of members of the Upper Peninsula Whist league held here Thursday and Friday.

Oral Lacombe is finishing up the painting at No. 1 horse house. He has had a couple of men at work there for the past week or more. The interior of the place presents a much improved appearance.

Mrs. Mark Elliott of Palmer spent the past three days in Chicago. She went down to meet her sister, Mrs. S. E. Sproule of Philadelphia, who will visit in this city and at Palmer for a few weeks.

A meeting of the local executive committee for the women's tournament will be held this evening at the usual time and place. Reports from committees which have important work in hand will be heard.

Many of the boys of the city who play baseball spend much of their leisure time at the Harris field. There is a very fair ball grounds there and a number of hot games have been played since school closed.

Rev. A. E. Monell, pastor of the Swedish Lutheran church, conducted services at the Lutheran church in Michigan Tuesday morning and evening. There were no services at the church here yesterday on account of the pastor's absence.

The building on the corner of Pioneer avenue and Peck street owned by Henry Swartz is being moved back a few feet on the lot. The owner will make a number of improvements and occupy it with his family. It was formerly a tenement house.

VIRULENT CANCER CURED.

Startling proofs of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve, experts its matchless healing power; blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, 25c at The Stafford Drug Company.

All who use atomizers in treating nasal catarrh will get the best result from Ely's Liquid Cream Balm. Price including spraying tube, 75 cts. Sold by druggists or mailed by Ely Bros., 50 Warren St., N. Y.

New Orleans, Sept. 1, 1900. Messrs. Ely Bros.—I sold two bottles of your Liquid Cream Balm to a customer, Wm. Lambertson, 1415 Delachaise St., New Orleans; he has used the two bottles, giving him wonderful and most satisfactory results. Geo. W. McDuff, Pharmacist.

INTERESTING TO ASTHMA SUFFERERS. Daniel Bante of Ottumville, Iowa, writes: "I have had asthma for three or four years and have tried about all the cough and asthma cures in the market and have received treatment from physicians in New York and other cities, but got very little benefit until I tried Fowler's Honey and Tar, which gave me immediate relief and I will never be without it in my house. I sincerely recommend it to all." People's Drug Store.

NORTH AMERICAN GYMNASIUM. Davenport, Iowa, July 5th to 15th, 1902.

For the above event, tickets will be sold via C. M. St. P. railway at one and one-third fare for the round trip. The Chicago Turner society having selected the "St. Paul" railway as the official route, (under a cordial invitation to all "North Country" Turners to join them. Special train leaves Chicago 1:30 p. m., July 5th. (6-17-31)

Michigan Mine. Supt. Sam Brady of the Michigan mine is in town, and a contract was closed this morning with an Akron firm for a deep hoist, with a capacity of 3,000 feet. Superintendent Brady says the hoist will be used in a shaft, that the mine never looked better, or its prospects more encouraging, and that although about fourteen tons have been cut off the big mass discovered in one of the shafts it is still impossible to estimate its total magnitude.—Detroit Journal.

Copper Range. The Kearsarge openings at Osceola are yielding well. No. 6 shaft on Old Osceola is operating in rich ground. The Tamarack, Jr., branch is not doing as well, but six machines are being operated at this point. Seven heads in the Osceola mill are not being operated continuously, but should in August when Kearsarge shaft No. 1 produces. Present output is about 1,000 tons of mineral monthly.

HOW TO AVOID TROUBLE. Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town in the night or in the busiest season. It is everywhere admitted to be the most successful medicine in use for bowel complaints, both for children and adults. No family can afford to be without it. For sale by The Stafford Drug Co.

At the Centennial "A" shaft is 2,000

June Output Expected to Greatly Exceed That of May.

Last month when the Isle Royale produced about 320 tons of copper there were those who were free in expressing the opinion that it was a forced output, and not secured from the regular run of ground. The truth of such statements are entirely lacking, and this will be made more manifest by the June product of the mine which will greatly exceed that of May, notwithstanding the fact that the latter month contained two more working days says S. J. Beahan in the Hancock Journal.

It is clearly apparent that an improvement is noted in the underground workings of the big property as evidenced from the fact that for June the rock will show a mineral yield of one per cent or better. This means that the average output of the mine will be 14 pounds of refined copper for every ton of rock stamped, compared with 11 1/2 pounds of refined copper per ton of rock milled last year. Probably the most notable improvement in the vein is in the openings south of No. 2 shaft where the copper content is about 1 1/2 per cent from the 8th to the 15th inclusive. In this territory the vein is regular and uniformly productive. The percentage of heavy copper has shown a proportionate increase, and has become a respectable factor in the mine's output.

During the past ten days the Isle Royale company have had a small force of men engaged in shaping affairs for a thorough exploration of the south side of Section 10, which adjoins the corner of the much discussed Section 16. Operations have begun near the Frue Hill where a number of outcrops are in evidence. Where the overburden is not heavy trenches will be extended across the mineral range, and when these operations cannot be conducted to advantage diamond drill work will be resorted to. The overburden in this territory is comparatively light, and rapid progress will be made in proving up the property.

COPPER MINING.

ISLE ROYALE'S PRODUCTION.

AT THE BALTIC.

New Hoist in Number 4 Shaft Giving Good Service.

The new hoist at the Baltic shaft No. 4 has been rendering excellent service since it went into commission Monday night. The necessary changes in the second skipway are nearing completion and within a few days hoisting from both compartments will be in progress, and it will supply ample rock to one head of stamps. The Baltic is now in position to mill about 25,000 tons of rock monthly and this amount promises to be the average output until the third head goes into commission.

The underground forces at the mine are being increased and more drills have been put to work with a view of preparing for the further increase in the output which cannot be delayed for a much greater period. The third head at the mill was installed in August, and the fourth is being installed in progress, and it will supply ample rock to one head of stamps. The Baltic is now in position to mill about 25,000 tons of rock monthly and this amount promises to be the average output until the third head goes into commission.

The Mayflower shaft is 425 feet deep and has just cut a lode 90 feet east of the one upon which the shaft was started. This lode at the surface was very steep and the shaft was started flatter than the lode, but as depth was attained, the lode flattened out to a dip approximating all the lodes in that section of the country. The shaft is, therefore, steeper than the lode today. The main lode is reached by cross-cut and shows today the same general characteristics as at the surface.

Adventure Equipment Arrives. The entire hoisting equipment for Adventure No. 3 shaft has arrived. The mill will operate one head in August. Sinking of No. 1 and No. 3 shafts is under way. Electrical tramming system is in readiness. Second and third heads at the new Quincy mill will be equipped with revolving screens and 3/4-inch grates thereby increasing the stamping capacity. The Branch Vein has been encountered at the 10th level of "A" shaft at Michigan. New hoist for this shaft will be contracted for this week. Mohawk & Wolverine railroad is being converted to standard gauge.

Copper Range. "For some time past," says the New York Commercial, "it has been evident that some interests have been seeking to depress Copper Range, but whether for accumulation or to facilitate covering of shorts is a question. Comparatively little stock has been liquidated, however, and neither object has been accomplished to any degree. It is current belief that sooner or later Copper Range will be consolidated with Trimonium and that the consolidated company will be taken into Amalgamated."

Michigan Mine. Supt. Sam Brady of the Michigan mine is in town, and a contract was closed this morning with an Akron firm for a deep hoist, with a capacity of 3,000 feet. Superintendent Brady says the hoist will be used in a shaft, that the mine never looked better, or its prospects more encouraging, and that although about fourteen tons have been cut off the big mass discovered in one of the shafts it is still impossible to estimate its total magnitude.—Detroit Journal.

Copper Gossip. The Kearsarge openings at Osceola are yielding well. No. 6 shaft on Old Osceola is operating in rich ground. The Tamarack, Jr., branch is not doing as well, but six machines are being operated at this point. Seven heads in the Osceola mill are not being operated continuously, but should in August when Kearsarge shaft No. 1 produces. Present output is about 1,000 tons of mineral monthly.

It is clearly apparent that an improvement is noted in the underground workings of the big property as evidenced from the fact that for June the rock will show a mineral yield of one per cent or better. This means that the average output of the mine will be 14 pounds of refined copper for every ton of rock stamped, compared with 11 1/2 pounds of refined copper per ton of rock milled last year. Probably the most notable improvement in the vein is in the openings south of No. 2 shaft where the copper content is about 1 1/2 per cent from the 8th to the 15th inclusive. In this territory the vein is regular and uniformly productive. The percentage of heavy copper has shown a proportionate increase, and has become a respectable factor in the mine's output.

During the past ten days the Isle Royale company have had a small force of men engaged in shaping affairs for a thorough exploration of the south side of Section 10, which adjoins the corner of the much discussed Section 16. Operations have begun near the Frue Hill where a number of outcrops are in evidence. Where the overburden is not heavy trenches will be extended across the mineral range, and when these operations cannot be conducted to advantage diamond drill work will be resorted to. The overburden in this territory is comparatively light, and rapid progress will be made in proving up the property.

At the Centennial "A" shaft is 2,000

Parents' Responsibility

Great

responsibility, and how important that no taint of disease is left in the blood to be transmitted to the helpless child, entailing the most pitiable suffering, and marking its little body with offensive sores and eruptions, catarrh of the nose and throat, weak eyes, glandular swellings, brittle bones, white swelling and deformity.

How can parents look upon such little sufferers and not reproach themselves for bringing so much misery into the world? If you have any disease lurking in your system, how can you expect well developed, healthy children? Cleanse your own blood and build up your health, and you have not only enlarged your capacity for the enjoyment of the pleasures of life, but have discharged a duty all parents owe to posterity, and made mankind healthier and happier.

There is no remedy that so surely reaches deep-seated, stubborn blood troubles as S. S. S. It searches out even hereditary poisons, and removes every taint from the blood, and builds up the general health. If weaklings are growing up around you, right the wrong by putting them on a course of S. S. S. at once. It is a purely vegetable medicine, harmless in its effects, and can be taken by both old and young without fear of any bad results.

Write us about your case, and let our physicians advise and help you. This will cost you nothing, and we will also send our book on blood and skin diseases.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

It is the right of every child to be well born, and to the parents it must look for health and happiness. How inconceivably great is the parents' responsibility, and how important that no taint of disease is left in the blood to be transmitted to the helpless child, entailing the most pitiable suffering, and marking its little body with offensive sores and eruptions, catarrh of the nose and throat, weak eyes, glandular swellings, brittle bones, white swelling and deformity.

BIG TIME ON 4TH

PICNIC OF THE MERCHANTS WILL BE A HUMMER.

LIKE OLD-TIME CELEBRATION

FAIR GROUNDS TO BE SCENE OF MERRY-MAKING.

Parade in Morning and Horse Racing, Baseball, Day Fireworks, Dancing and All Kinds of Sports and Games in Afternoon.

While it all along has been understood that Marquette was not to celebrate the Fourth this year, the decision of the Merchants' association to hold its annual picnic on that day now assures that there will be lively doings here and that nowhere in the upper peninsula will the observance of the natal day take on a larger scope.

From morning until late at night the festivities will be in progress, and instead of people going away from town to find pleasure and lively enjoyment the picnic will be on such a scale that it doubtless will attract persons from outside points. The scene of the celebration, as was the case last year, will be the new fair grounds, a location that is now, with street cars running to the main gate, decidedly more popular than at any time in the past.

Parade to the Grounds.

The program has not yet been definitely outlined, but the picnic will open with a parade in the morning. This in some respects will be in the nature of a callithumpian procession. There will also be floats in line. Bicycle riders, with decorated wheels, are invited to participate, and it is probable that prizes will be offered for the most elaborately decorated wheels, the best floats and the oddest appearing rigs and riders. The parade will be headed by a good brass band, as yet not engaged.

The procession will traverse the principal streets, and will then proceed to the fair grounds, where dinner will be served. Some of the merchants and others will, it is thought, bring their diners with them in old-time picnic style, but those who do not will not go hungry, for there will be all kinds of refreshments, except intoxicants, to be procured at the grounds at reasonable prices. The refreshment end is in the hands of two members of the association, and it is promised that there will be no fault to be found with the arrangements.

Elaborate Program of Sports.

The sports and games will be started at 1 o'clock. Horse racing will be prominent. Two hundred dollars in prizes will be awarded the winners of the turf events. Included in the races will be a

"hitch and tie contest" which is expected to be very interesting and amusing. The contestants in this, delivery rig outfits, will be lined up on the track, the horses some distance back of the wagons. At a given signal, the horses will be raced to the vehicles, hitched up and started around the course, first money going to the horse first under the wire. A slow race, in which the contestants will drive each other's horses and the last horse around will be declared the victor, is a second event that will be pulled off. The other races will consist of running, hurdle, trotting and pacing events in which the best horses in the vicinity will take part.

Between heats in the horse races, a long program of sports in which boys and young men will participate will be carried out. The prizes for these events will aggregate over \$50. As was the case last year, Joe Smith will be master of ceremonies, and he is already racking his brain to originate some new stunts that will amuse the crowds. Included in the program, however, Mr. Smith announces that there will be a chase for a greased pig, a pie-eating contest, foot, wheelbarrow, sack, potato, three-legged and other races, and the doughnut and molasses contest which created so much mirth at last year's picnic. Several bicycle races also will be pulled off.

Baseball and Day Fireworks.

A game of baseball for a prize of \$25 will also be played during the afternoon. A day fireworks display likewise will be a feature. For this, \$100 has been appropriated and the order has already been placed for the goods. There also will be dancing at the grounds, and in the evening a social hop will be held at Fraternity Hall, although not under auspices of the association.

In order to help defray expenses, it has been decided that an admission fee of twenty-five cents be charged at the grounds for both men and women. Children under twelve will be admitted free, and there will be no charge for seats in the grand stand. The various committees in charge of the picnic are as follows:

Horse Races—George French and William Dorais.
Baseball—John McGuire.
Sports—Joseph Smith.
Fireworks and Music—E. B. Palmer.
Refreshments and Decorations—John Siegel and L. J. Dousseron.

STOCKHOLDERS ATTENTION.

There will be a meeting of the stockholders of the Sauk Head Development syndicate Tuesday evening at 8 o'clock at Samuel Byrne's office in the Harlow block. Important business will be transacted and every holder of stock under the old organization is requested to bring his certificates and have them exchanged for certificates of the syndicate. The exchange is designed to simplify the business and get things on a better working basis. Stockholders who cannot attend can get their certificates under the new organization by sending their old certificates and addresses to C. F. Button. (6-30-24)

PLANTS AT REDUCED PRICES.

RICHER WITH DEPTH.

Assays of Ore from the Krieg Property Are Satisfactory.

The claim that the quality of the ore is increasing with depth at the gold-silver-copper properties in the Sauk Head district, is well borne out by the result of the assay of samples taken from the shaft at the Krieg mine exploration.

On the 28th of May, a sample taken from the lead at a depth of fifteen feet was submitted to Chemist F. D. Tower, of the laboratory of the Carp River furnace, for analysis. The assay showed the following:

Gold \$4.16
Silver 1.2 ounces
Copper 2.01 per cent
The assay was figured on the basis of 2,000 pounds to the ton. On the 20th of June, ore from a depth of twenty feet gave the following returns:

Gold \$6.13
Silver 5.16 ounces
Copper 1.18 per cent
The latest assay shows the value of the ore to be about \$13.50 to the ton at the present market price of the various metals. From the very start, the ore has been improving in richness as the shaft goes down deeper, and it is expected that when the main deposit, to which the lead now being sunk on extends, is struck, the showing will be something remarkable. As it is, the ore is considerably richer than is the rock from the mines which have made Houghton county famous. The Atlantic, for instance, has been paying dividends on rock yielding less than one per cent copper.

At the Krieg property, the copper alone assays materially more than that, and besides carries considerable gold and silver.

The money with which the exploratory work is being prosecuted is being furnished mostly by Detroit parties, and it would seem that if they will only stick to the proposition until the main deposit is reached and the mine becomes in shape to supply a smelter that they will reap large returns. The ore and richness are there, and the property, as does the Daniels mine, only needs development. Some Western mines in which upper peninsula people are putting their money have not half the showing already made in the Sauk's Head region.

ENDED IN A DISPUTE.

South Side-Republic Ball Game Yesterday Was Indecisive.

The South Side ball team journeyed to Republic yesterday to meet the nine representing that village. The visitors had a spirited contest, but did not bring home a victory, although they were spared the shame of a defeat. The game was terminated by a dispute in the last half of the ninth, when Hogan brought in a run that made the score a tie, eight to eight.

Hogan was roosting on third base. Carney was on first and took a big lead for a steal to second. The ball was thrown to the first baseman and Carney was driven into the pasture land between the two bags. While he was being run down, Hogan reached home. Carney ultimately went out, but, so the South Side assert, not until ten seconds, at least, after Hogan was safe. Engineer Millan, who did the umpiring, supported this contention. However, the squabble that arose could not be patched up and the game was dropped by mutual agreement. The South Side team expects to meet Republic again in the course of the next two or three weeks.

FOURTH OF JULY RATES.

One Fare for Round Trip Between All South Shore Stations.

Thanks to the general passenger department of the South Shore road, all persons along its line who so desire will have the opportunity of visiting with friends or relatives in outside points at very low cost on the Fourth of July. The line has made a rate of single fare for the round trip between all stations, with half of that for children between the ages of five and twelve. The tickets will be on sale Thursday and Friday, the 3d and 4th, and will be good to return until Saturday, the 5th, inclusive. It will be necessary to purchase tickets, however, to obtain the reduced rate, as on the trains full fare will be collected from passengers.

COPPERS ARE DEAD.

Hayden, Stone & Co. Saturday wired the Laidley Commission Co.: "Coppers are at a standstill. There is nothing doing and nothing to say about them."

W. H. Laidley & Co. said of the Chicago grain markets: "Wheat opened slightly higher, on wet weather. The feature was the narrowing of the spread between July and September. It is going to be a regular weather market. With two or three nice days quite a heavy crop could be looked for, but should the wet weather continue very much longer quite an advance may be expected."

"Corn opened higher and made a new record for July option. After the early buying, the market eased off, but again turned strong toward the close. Some localities are sending in good crop news, but it is a safe proposition to buy September corn for a big turn."

If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. People's Drug Store.
