### NO GENERAL STRIKE

BITUMINOUS MEN WILL NOT JOIN ANTHRACITE BROTHERS.

THREE STATES OPPOSE WALK OUT

ILLINOIS, IOWA AND OHIO SUPPORT MITCHELL.

Leader of Miners in Convention Advised Soft Coal Men to Continue Work and His Counsel Will Be Followed.

Indianapolis, July 18.—(Later)—The Iowa miners this evening decided to uphold President Mitchell. The action of the anthracite men cannot carry their point without the aid of Illinois and with that state, Iowa and Ohio against them there is no apparent manner in which the strike can be ordered. A meeting of the anthracite miners after the convention resulted in nothing but the conclusion was there was no way in which a strike could be forced. After a long debate in the caucus a vote was finally decided upon but when it was partially taken it was seen the result was so strong in favor of upholding the recommendations of President Mitchell that the vote was not concluded. While there is an element among the anthracite men that is greatly disappointed it is not likely that any fight will be attempted upon the floor of the convention.

President Mitchell said tonight: "I am greatly pleased with the outcome of the work so far and I have no doubt the policy outlined in my speech today will be carried out substantially. Some minor changes may be made but the policy as a whole will be followed by the convention, I am certain."

Indianapolis, July 17.—If the voice and influence of President Mitchell prevails there will be no general strike. The chances of such a step being taken now are very remote. In his speech in the convention this afternoon President Mitchell advised strongly against a strike and urged the bituminous miners to continue at work and their system of assessment upon members be carried into effect as the best means of affording aid and support to the striking anthracite men in the east. His recommendations, if adopted by the convention, this afternoon would have settled the entire question for which the convention was called and an immediate adjournment would have followed. The motion to adopt the suggestions of Mitchell provoked a long debate in which the general sentiment was against the ordering of the strike.

Adjournment Taken Without Action. The men from the anthracite region finally made a request that they be allowed to hold a caucus to determine upon an expression of opinion as to what they thought the convention should do and asked an adjournment for this purpose. Their request was granted and an adjournment taken. The men favoring the strike were in a decided minority. Three speeches were made by members from the anthracite districts asking the soft coal men to walk out and twice as many by the anthracite men urging the soft coal men to continue at work.

Entire Country Watching Convention. When the convention met this afternoon a motion was made and carried that the convention go at once into executive session. Reese of Iowa moved reconsideration of the vote by which the action was taken declaring that in view of the momentous issues depending upon the action of the convention, secret sessions were undesirable. "The entire United States is watching this convention" said Reese, "and we must take no chances of being placed before the country in a wrong light. If we go into executive sessions the newspapers will get it just the same. The papers always get the proceedings of a convention when it goes into executive session and they always will even if they have to buy their news from some of the gentlemen who are in favor of an executive session."

Sessions Open to Public. Reese's speech carried the day and it was decided that the meetings of the convention would be open to the public. President Mitchell then made his address in which he strongly opposed a sympathetic strike holding that the contracts entered into with the operators should be carried out and declaring that he did not know of the success of a single sympathetic strike. He urged the miners not to repeat the mistake made by others and expressed the conviction that the strike can be won without repudiating contracts. Instead of a sympathetic strike President Mitchell advocated: That the treasurer of the order be directed to appropriate \$50,000 for the relief of the anthracite miners. The unions appropriate for the same purpose as large a sum as they can afford and an assessment of \$1 per week be levied on all members of the unions. The officers of the national districts drawing a salary of \$60 a month or over to contribute 25 per cent of their salaries.

Labor and Public to Be Asked to Aid. An appeal will be made to all trade unions and citizens generally to aid the cause of the miners. An address to the American people will be issued appealing to them to bring such pressure to bear as will compel the operators to submit to arbitration.

gestions of President Mitchell be adopted. A long and animated discussion followed the majority of speakers being against a sympathetic strike and opposed to the violation of contracts. Ryan offered to withdraw action on the order to allow the anthracite miners to hold a separate session to consider the question at issue. On motion the convention adjourned until Friday morning.

Illinois and Ohio Against Strike. At a caucus of the Illinois delegation tonight it was determined to oppose a general strike. It was also decided to stand by the recommendations of President Mitchell with the exception of the one declaring in favor of an assessment of \$1 per week on the members. They favored a percentage basis. Action similar to Illinois was taken by Ohio tonight.

TOW ILLINOIS INTO HARBOR. Investigation of Accident to Battleship Begun at Christiania.

Washington, July 17.—The navy department has been informed that the official investigation to determine the cause and responsibility for the grounding of the battleship Illinois in Christiania harbor Monday was begun today. The Illinois is now floating at mean draft and divers have been at work trying temporarily to repair the hole caused by a rock piercing the vessel's bottom. She was towed into the inner harbor at Christiania today, which would seem to indicate that the injury was such as to make her incapable of proceeding under her own steam, as it was first intended she should do on the voyage to England, where she will be dry docked.

### TRAVIS DEFEATED BEST FOR CHURCH

AMATEUR GOLF CHAMPION LOSES TO E. M. BYERS.

GAME WON BY NARROW MARGIN

VICTOR WAS THOUGHT HOPELESSLY BEATEN AT START.

Result Makes Byers Chances for Winning Title the Brightest—Other Good Scores Made in Contests.

Chicago, July 17.—E. M. Byers, Yale 1901, champion of that variety in 1900 and 1901 and a member of the Allegheny club of Pittsburg, today defeated Champion Travis in the third round of the match for the amateur golf championship. It was by a narrow margin the match not being decided until the last hole was played and the quality of golf play judged by the medal scores. Byers 77, Travis, 78, six and five under Bogey, respectively. Byers won after apparently being hopelessly beaten. He was three down at the turn with Travis playing perfect golf. But he stuck to it and on the last nine holes played golf seldom exhibited even by veteran professionals. His medal score for the last nine holes was 35, or six strokes under Bogey. Travis said "the game Byers put up would have won from almost any professional in the country. It was unbeatable."

Byers' Chances Are Bright. Byers played Chandler Egan of Exmoor in the afternoon and defeated him. Byers medal score in the afternoon was 80. Thus he played thirty-six holes in 157 and tonight his chances of winning in the semi-finals tomorrow are bright. Walter Egan disposed of George Ormiston of Pittsburg in the morning round but in turn was beaten in the afternoon by F. O. Reinhart. Percy R. Pyne of Princeton, was also defeated by George H. Leslie of Skokie. Leslie was defeated in the afternoon by Dr. D. P. Fredericks, of Oil City.

Travis Defeats Ormiston. The former champion Travis, though out of the contest for the championship had the consolation of badly beating Ormiston in the play off of the tie for the gold medal given for the lowest score in the qualifying round. Ormiston's score was 93 and Travis 81.

A tremendous gallery followed the Byers-Chandler Egan match in the afternoon. Byers and Egan were even at the end of play for the thirteenth hole. Byers was short for the fourteenth hole his drive stopping two yards from the cup. He also won the fifteenth. Egan missing a three foot putt for a half. He won the match on sixteenth with a pretty fair thus winning his way to the semi-finals.

BRIGANDS DEFEAT POLICE. Guerilla Band Armed With Rifles Cause Loss of Five Men.

Manila, July 17.—A hundred ladronees armed with rifles and bolos attacked and defeated eight of the constabulary near San Mateo, Manila province, Tuesday. The losses of the constabulary were one man wounded and five men missing. The constabulary has asked for re-enforcements of 100 men to pursue the ladronees.

SYMPATHY TELEPHONE STRIKE. Milwaukee, July 17.—In sympathy with the strike of the local linemen of the Wisconsin Telephone company, which began about three weeks ago, a strike order has been extended to the members of the union throughout the state. It is estimated that 300 men are out.

### MAINE STANDS TEST.

New Battleship Maintains Speed of 18.29 Knots an Hour.

Philadelphia, July 17.—The new battleship Maine returned tonight after a satisfactory builders' trial at sea. An average speed of 18.29 knots an hour over a measured course was maintained. The contract calls for eighteen. In a preliminary run the ship attained a speed of 19.95 knots.

STORM IN CHICAGO.

Thousands of Dollars Damage Done by Wind.

Chicago, July 17.—Thousands of dollars damage was done to property in Chicago by a storm tonight. Store fronts were blown in and elevators unroofed besides other damage. Sixty-eight miles an hour was the velocity of the wind. The highest wind record heretofore so far as recalled was the Galveston storm, the velocity there was but four miles an hour greater than tonight.

SHOT BY TRAMPS.

Quarrel Amongst Knights of the Road May Result Fatally.

Des Moines, Ia., July 17.—Charles J. Feyern, of Fond du Lac, Wis., aged 22, and Rudolph Seifert, aged 29, of Austro-Hungary, were shot during a quarrel with two tramps with whom they were stealing a ride on a North-western freight near Boone today. Feyern was shot through the body and will probably die. Seifert was shot through the head and may recover. Their assailants, strangers to them, escaped.

### LA FOLLETTE IS IT

WISCONSIN'S GOVERNOR RENOMINATED AT STATE CONVENTION.

WHITEHEAD IS SNOWED UNDER

STALWARTS SWITCH TO NAME KEMPF FOR TREASURER.

Ticket With But Two Exceptions Goes Through as Figured Out in Advance—Governor La Follette Given Ovation.

Madison, Wis., July 17.—The Republican state convention finished its work tonight after nominating: For governor, Robert M. La Follette. Lieutenant governor, James O. Davidson of Milwaukee. Secretary of state, Walter L. House, of Mandan. Treasurer, John J. Kempf of Milwaukee. Attorney general, L. M. Sturdevant of Neillsville. Superintendent of public instruction, Charles Omm P. Cary of Delavan. Railroad commissioner, John W. Thomas of Chippewa. Insurance commissioner, Zeno M. Host of Milwaukee.

La Follette Given Big Majority. Robert M. La Follette is again chosen to head the Republican ticket in Wisconsin receiving the nomination over John M. Whitehead by an overwhelming majority. With two exceptions the ticket as a whole went through as figured out in advance. These exceptions were for state treasurer and railroad commissioner. John Kempf of Milwaukee won out in the contest for treasurer by the aid of the stalwart faction who switched before the ballot closed. This was the greatest surprise since in the convention as Joseph G. End of Sheboygan, was looked upon as sure of the nomination. However, when the switching commenced it continued until Kempf had a big lead and he was finally nominated by an unanimous vote. John W. Thomas of Chippewa, was nominated for railroad commissioner over Jones Swenholt in a similar way. Perhaps the most exciting contest was for superintendent of public instruction between Cary and Harvey. The numerous candidates made the work of the convention slow.

Nominee Receives Ovation. La Follette was given a great ovation on being escorted to the hall after his nomination. The delegates arose en masse and cheered vociferously. He electrified the delegates and visitors in the delivery of his speech of acceptance the feature of which was a stinging rebuke to those of the party who failed to support the principles laid down in the last platform. He also warned the members of the party against supporting any member aspiring to place in the legislature who would not agree to stand by the platform.

STAY AT COWES TILL CORONATION. King Edward Will Enjoy Ocean Breezes Until Day of Ceremony.

London, July 17.—Reports regarding King Edward's health continue to be most satisfactory. His majesty will remain on the royal yacht at Cowes, Isle of Wight, until Aug. 8 and will return to Roadstead after the coronation has been definitely decided. The British fleet will reassemble off Portsmouth for the coronation review. The Japanese squadron has been instructed to return there and it is understood other foreign squadrons will be also represented.

FOURTEEN DROWNED IN SQUALL. Wind Capsized Boat and All But Two of Yachting Party Meet Death.

Portsmouth, N. H., July 17.—A nineteen foot whale boat capsized during a squall and fourteen of the seventeen occupants were drowned. The other three were rescued by fishermen. The drowned are: Henry Farrington of Cambridge, Mass.; W. A. Alward of Frederickson, N. H.; Bertha Graham, of Danvers, Mass.; Minnie McDonald, of Cambridgeport, Mass.; Eva and May Adams, of Portsmouth, N. H.; Catherine and Elizabeth Bowes, of Saxonville, Mass.; Bessie Chase, of Malden, Mass.; Anna Sheehan, of West Medford, Mass.; Eva and May Moushon, of Hillsboro, Mass.; Isabel Kaouska, of Cambridge, Mass.; Laura Gilmore, of Exeter, N. H. Farrington and Alward were law students at Harvard. Both were good swimmers and lost their lives trying to rescue others.

TEST WELL STRIKES GOLD VEIN. Mt. Vernon, O., July 17.—While putting down a test well the Logan Natural Gas & Oil company today struck gold in quantities assaying \$5 a ton. A small vein of coal was also discovered. There was great excitement and the price of land has gone up.

GRAIN EMPZEZZLER ACQUITTED. Paris, Ill., July 17.—J. Tidmarsh arrested in Los Angeles charged with embezzling \$10,000 on grain contracts was tried here today and acquitted. The court held a person cannot embezzle on gambling contracts.

AMALGAMATED'S DIVIDEND. New York, July 17.—The directors of the Amalgamated Copper company announced today the declaration of a quarterly dividend of one-half per cent in the company's stock.

## BIG RAISE IN ASSESSMENTS.

Valuation of Street Railway and Electric Light Companies Increased.  
The state tax commission has placed a valuation on the property of the street railway company of \$577,000, a raise of forty per cent. A much greater increase was placed on the plant of the electric light company, the valuation being fixed at \$480,000 whereas before it was assessed at less than \$50,000.

Tax Commissioners Jenks, Freeman and Dust arrived in Houghton Wednesday evening and were in session at the court house at 10 o'clock yesterday morning. The assessment rolls of Hancock, Portage, Adams, Quincy, Franklin, Schoolcraft, Calumet and Torch Lake townships were gone over with the respective supervisors who were also present upon request of the commission. It was claimed by the commission that property belonging to the Peninsula Electric Light & Power company and the Houghton County Street Railway company in the townships named were not properly taxed, a state of affairs for which the supervisors were called to explain. The figures of the assessing officers were far too low according to the commission.

## GETTING GROUNDS IN SHAPE.

Workmen Are Preparing for Elks' Carnival Next Week.  
A big force of men are at work getting the grounds in West Hancock to be used for the Elks' carnival, which starts Monday morning, in shape. The work of erecting the booths is a big undertaking as there are to be forty different shows brought by the Bostock-Ferari people, besides over fifty booths for mercantile displays and booths which will be kept by different societies. Electricians also have a big job on their hands in wiring the grounds. All of the illumination will be done by means of arc and incandescent lamps. The old-time gasoline lamps will not be used and there should be no danger from fire. The Elks are personally supervising all preliminary work in order that it may be done up in proper style. The grounds will be radiant at night with thousands of incandescent lights.

## MANY BANKS GIVEN OUT.

Citizens' National Bank for New Depositors Works Successfully.  
The Citizens' National bank of Houghton has succeeded in placing 500 small savings banks throughout the county, meaning that the number of depositors has increased to that extent. Another lot of 500 has been ordered. Each person pays a dollar and takes the bank home with him. The dollar is credited to him. Whatever coin is placed in the bank can not be taken out by the owner of it. After thirty or sixty days he brings the bank to the Citizens' National bank and it is unlocked and the money taken out and deposited, credit being given. The money then draws interest. If at any time a person wants to return the bank he gets all of his money, including the dollar given for the bank in the first place, back.

## BIG DERRICK ARRIVES.

Will Be Used in Construction of Bridge Approach of Copper Range.  
Whitney Bros.' big, the F. H. Standwood, has brought the firm's big derrick leading rock on scows from Superior to Portage Lake where it will be used to pull rock for use in the crib of the Copper Range bridge approach. Four cribs will be sunk for the approach for the road's extension across the lake. One is sixteen by forty feet in size; another thirty by forty; and the other two even larger. The last one will be sunk in forty-five feet of water. The big derrick was used at the Mineral Range dock at Hancock Tuesday to unload 1,500 cedar ties from a scow for C. J. Johnson. The ties will be distributed along the line of the extension.

## BUILDING NEW MACHINE SHOP.

The Mineral Range road will build a new machine shop at Calumet at the rear of its round house. Excavating for the foundation is now under way and in a short time work on the super-structure will commence. The shop will be supplied with all necessary equipment for repairing the lighter parts of locomotives and the work done there will be similar to that carried on at the Hancock shops. The change from the round gauge locomotives to those of standard gauge made the new shop a necessity.

## TWO BOTTLES CURED HIM.

"I was troubled with kidney complaint for about two years," writes A. H. Davis, of Mt. Sterling, Ia., "but two bottles of Foley's Kidney Cure effected a permanent cure." People's Drug Store.

## SONS OF ST. GEORGE IN SESSION.

Grand Lodge began Sessions Yesterday - Band Contest Good Feature.  
The members of the grand lodge of the Sons of St. George were banqueted at the Hotel Northwestern at Hancock after their business session at the Quincy location hall last evening. Covers were laid for 150 and a very sumptuous repast was served by Proprietor Bolling. A very handsome menu card was had for the occasion. The cover was done in red, white and blue with the emblem of the American and British flags, crossed, heavily embossed in the center. The card was tied in red, white and blue ribbon. On the back of the cover the names of the officers of the executive committee were given, and the bill of fare within.

## MONEY NOT COMING VERY FAST.

Assessment for Paving Quincy Street Is Hard to Collect.  
Treasurer J. N. Mitchell of the village of Hancock whose duty it is to collect the special tax levied to cover the cost of paving Quincy street, is not meeting with very good success. The money is coming in slowly, considering that the first installment of the amount each property owner on the street is to pay is due July 26. If the first payment is not made on that day the whole amount becomes due and can be collected, where if the first installment is paid beforehand the rest of the amount will be spread on the rolls for four years.

## ORPHANS WILL ATTEND CARNIVAL.

S. C. Hallet, general manager of the Bostock-Ferari Carnival shows which will be seen at Hancock next week under the auspices of the Elks, has invited the children of the Good Will Farm to be in attendance at the carnival all one day. The orphans will be given one of the best times in their lives, and pains will be taken that they see every thing to be seen. They will stay on the grounds from morn until night.

## MACADAM LAURIUM STREETS.

A considerable number of men are getting Laurium's streets in shape for macadamizing, and in a short time the thoroughfares will be ready for the steam roller. Richetts Bros. contractors, are having the coarse rock and gravel to be used in the work. Laurium is going about the work of improving the streets in the right way and before the season is ended most of them will be in much better condition than now.

## VOTING GROWS LIVELY.

The voting is still lively for the selection of a popular young lady of the copper country for Carnival Queen at the Elks' big attraction at Hancock next week. There are several candidates and as each is receiving a large vote it is impossible to foretell the lucky one. Ballots may be secured at any store in copperdom after making a purchase.

## COPPERDOM BREVITIES.

The Calumet & Hecla library has received a consignment of new books. Catalogues are now at work on the main entrance arch to the carnival grounds at West Hancock.  
Irving Nankervis, an oiler in the Butte & Boston concentrator at Butte, is in the copper country visiting the mines.  
A party of twenty-five young people of Hancock went to the canal in Witting's launch yesterday morning for a day's outing.  
Grand President Rough of the Sons of St. George, and wife arrived at Hancock yesterday morning from Negaunee to attend the convention.

## ONE OF THE ATTRACTIONS.

Crystal Maze at Elks' Carnival Will Afford Plenty of Fun.  
One of the most magnificent amusement enterprises with the great Bostock-Ferari Midway Carnival Company is the great wondrous crystal maze, a new and novel form of the most mirth-provoking entertainment, which has just been completed at a cost of over \$40,000. Its front is a massive display of gold and silver, costly carved and splendid coloring. A military band orchestra discourses the most pleasing music while thousands of electric lights glittering and flashing reflect its effulgent magnificence in a manner that makes it the center of attraction. A great jolly crowd is always around it and where it is held, merriment and merriment reign supreme. Inside its hundreds of large French plate mirrors reflecting its myriads of bright lights hundreds of times over present a scene that is simply dazzlingly indescribable. "Go in and get lost," says the man at the door and that is just what happens when you get inside. You lose yourself and your troubles at the same time. You are reflected a hundred or more times in every direction. You stand behind yourself, beside yourself, in front of yourself, in fact you are all about yourself while everyone around you is in exactly the same predicament and yells of laughter and delight, merriment and merriment until the attendant who like a will-o'-the-wisp, apparently from a solid mirror appears and shows the visitors the way out. This marvelous and magnificent feature will be seen at Hancock during the Elks' carnival next week.

## INSPECT GOVERNMENT WORK.

General Gillespie and Staff Look Over Local Lake Improvements.  
The lighthouse tender Anamath reached Houghton Wednesday evening with a party of United States army officers of the engineering department aboard. They came to Portage Lake to inspect the improvement work, such as dredging, building revetments, etc. at the entry and canal. Included in the party are General Gillespie, chief of the corps of engineers, and his assistant, Major Lusk; also Captain Lansing Beach, chief of the harbor department, and Captain D. D. Gaillard, who is in charge of the Lake Superior district. The distinguished party is on an inspection tour of the Great Lakes.

## INSPECTED COMPANY E, CALUMET.

Colonel William Boer, assistant to General Inspector Green, inspected Company E, Calumet Light Guard at the Calumet Arsenal last evening as well as the entire equipment. General Green went to Iron Mountain, his purpose, it is said, being to muster out the company at that place. Colonel Boer considers the company E. Calumet Light Guard for a considerable time and is thoroughly versed in military work. Although an inspector has little to say after a company has been inspected it is generally thought here that he found both the Houghton and Calumet companies in good shape.

## DIES IN DALY-WEST MINE HORROR.

Word has been received in Calumet of the death of Charles Niema, formerly of Calumet, in the Daly-West mine, near Salt Lake City. Mr. Niema being one of the victims of the big explosion Wednesday morning. Niema was the son of August Niema and leaves a wife and infant child at Calumet.

## BRONCHITIS FOR TWENTY YEARS.

Mrs. Minerer Smith, of Danville, Ill., writes: "I had bronchitis for twenty years and never got relief until I used Foley's Honey and Tar which is a sure cure." People's Drug Store.

## DON'T FAIL TO TRY THIS.

It is a powerful blood purifier and a general tonic. It is a sure cure for all ailments arising from a weak or diseased blood.

TRACY AGAIN ELUDES POSSE

DESPERADO WAS SURROUNDED IN SHACK BY SHERIFF CUDIHÉE AND DEPUTIES BUT OUTWITS THEM AND ESCAPES.

Seattle, July 17.—Word has just been received from Covington that Sheriff Cudihée and a posse have surrounded a shack in which it is believed Tracy and two companions are located and that a battle is expected. It is said that when Cudihée disappeared into the brush two days ago he took with him a trust pigeon and a body of pickets. It is asserted through the efforts of the "steal pigeon" the sheriff learned of the whereabouts of Tracy.

Black Diamond, Wash., July 17.—Tracy has escaped again. The sheriff and posse returned here this afternoon. The chase from this point is abandoned.

BIG FIRE AT GUYAQUIL, ECUADOR.

Blaze Continues for Hours—Loss Estimated at \$2,000,000. Guayaquil, Ecuador, July 17.—A great fire broke out here at 9 o'clock last night and is still burning after the lapse of ten hours. The loss is roughly estimated at \$2,000,000.

BOUTWELL QUILTS PARTY.

Life Long Republican Cannot Stand for Imperialism.

Boston, Mass., July 17.—"I shall not vote for a Republican candidate for president who stands for imperialism. So far as they are anti-imperialists I am with the Democrats heart and soul." In these unequivocal sentences the venerable, life-long Republican, a member of the old famous "Old Guard" of the party, ex-Governor George S. Boutwell, declared his position tonight when asked if he would attend the Democratic league dinner July 24. His name appears on the list of invited guests among a score of Democrats of national prominence. There was not another Republican name on the list. This declaration of ex-Governor Boutwell is tantamount to a separation from the Republican party.

NEW YORK STOCK MARKET.

Aggregate of Sales Show Increase in Volume of Dealings.

New York, July 17.—The aggregate sales of stocks today show a further increase in the volume of dealings which fairly crossed the million share mark. Substantial upward progress was made and the market was broad in the sense that a large number of different securities were dealt in and the tradings were also better distributed amongst a few stocks in which the principal activity was centered. The same preference was shown for the low priced stocks today with the exception of a speculative incursion into the trunk lines and the Vanderbilts. An attempt was made to bring the speculation back into the high priced western railroads, but it will be observed that the desire to take profits on the considerable advance which these stocks have had was still too eager to allow much upward progress. United States Steel stocks renewed the struggle to advance but again met heavy sales at every stage. Some of yesterday's conspicuous low priced stocks were acutely affected by the profit taking. This was notably true of Chicago & Alton. The evidence of profit taking in this and the sudden release of over two points in Colorado Fuel after a four point advance had a decidedly chilling effect and put a sudden stop to the activity of the market, leaving it at a level which fairly averaged below last night.

The opening advance in Colorado & Southern and Kansas City & Southern was attributed to the same forces as was the Alton movement yesterday. These movements are reported to signalize the return of the western contingent from the corn market to the stock market. A tone of doubt and hesitation was shown in the market for the July corn option at Chicago and was taken as a warning for possible speculative surprises. The check thus brought about in the animation of the market was changed again by the heavy demand developed for Reading stocks and coals. This demand was undoubtedly based upon the assumption that the coal miners' convention will decide against a general strike. Although there was supposed to have been extensive speculation upon the unknown chances of the Amalgamated dividend declaration at an unchanged rate it failed to arouse that stock from the torpor in which it has rested all day. The day's activity evidently repressed

THE PROSECUTION OF THE REGULAR CAMPAIGN FOR A RISE WHICH WAS BASED TODAY UPON THE ABSENCE OF ANY UNFAVORABLE FACTORS, RATHER THAN UPON ANY NEW DEVELOPMENTS, AVOIDING HIGHER PRICES. THE CALL MONEY RATES WORKED EASIER TODAY AND THERE WAS A DIMINUTION OF THE PRESSURE FROM THE INTERIOR FOR CURRENCY.

CLOSING PRICES OF STOCKS ARE REPORTED BY PAINE, WEBBER & CO. AS FOLLOWS:

Table with columns for stock names and prices, including Union Pac., Mo. Pacific, Manhattan, etc.

RANGE OF MONEY RATES.

Money on call was easier at 2 1/2% per cent. Closing, offered at 2. Prime mercantile paper, 4 1/2% to 5%. Exchange firm. Demand at 4.87 1/2% and sixty days at 4.83 1/2%. Bar silver, 52 1/2%.

CHICAGO GRAIN MARKETS.

Features of the Day in the Wheat, Corn and Oats Pits.

Chicago, July 17.—In wheat today the close showed gains of 3/4c to 1 1/4c. July sold between 73 1/2c and 74c, closing at the latter. September sold between 71 1/2c to 72 1/2c, opening at 71 1/2c and closing at 72 1/2c. The cash sales were fifty-one boatloads reported taken at the seaboard and 50,000 bushels of No. 1 Northern at Chicago. Trade was not as large as yesterday but was of fair volume with a firm undertone. There was good buying on the Northwestern account and the Southwest covered some of the short wheat in order to get profits. One of the features of the day was the selling on the foreign account. The cables were lower. At Liverpool spot was unchanged with the futures 3/4c to 1/2c lower. The local receipts were 150 cars with one for contract.

MAJOR DELMAR WINS 2:13 EVENT.

In the first heat of the 2:13 trot Major Delmar had the pole and took the lead from the start, winning by a head from Aggie Medium. He also won the second easily. C. K. G. Billings won the 2:08 amateur pace to wagon with Hontas Crooke. Billings also won the 2:13 amateur trot to wagon with Louise Jefferson. Darwin took the 2:27 trot in straight heats, although Jurash pushed him hard, particularly in the second heat, when only McHenry's good driving kept the gray from breaking in the stretch.

WEDGEWOOD HAS HARD RACE.

In the 2:06 pace, Wedgewood won the first heat easily. In the second Dan R trailed second to the stretch, where he came very fast, forcing Wedgewood to go in 2:06. Dan R won the third heat by a nose after a hard drive. Geers whipped Wedgewood the last 200 yards but it was of no avail. In the fourth Dan R led to the five-eighths pole, where he broke, giving the heat and race to Wedgewood by four lengths.

SUMMARIES OF RACES.

Table listing race results with columns for race name, time, and winner.

BOSTON STOCK SALES.

The following were the transactions in copper stocks on the Boston exchange yesterday as furnished to The Mining Journal by Paine, Webber & Co.:

TREAT YOUR KIDNEYS FOR RHEUMATISM.

When you are suffering from rheumatism, the kidneys must be attended to at once so that they will eliminate the uric acid from the blood. Foley's Kidney Cure is the most effective remedy for this purpose. R. T. Hopkins, of Polar, Wis., says: "After unsuccessfully doctoring three years for rheumatism with the best doctors, I tried Foley's Kidney Cure and it cured me. I cannot speak too highly of this great medicine." People's Drug Store.

BASEBALL.

Following are the scores in yesterday's games and the standing of the teams to date:

Table with columns for National League, American League, and team names with their respective records.

WILHELMINA TO RETURN HOME.

Queen Restored in Health Leaves Castle Schaumburg With Husband.

CRENNAN'S CHINESE SHIP HAI CHEE DESTROYED AND 248 LIVES LOST.

Victoria, B. C., July 17.—News has been received by the steamer Empress of India of the destruction of the Chinese cruiser Hai Chee at Nanking by an explosion. The Japanese cruiser Atago arrived at Hsia Kian on June 21 and the magazine of the Hai Chee was opened to salute her. Then came the explosion. Of the crew of 250 but two escaped. The cruiser went up like a flash, the explosion being heard for five miles and showers of debris were scattered far and wide. Three small boats lying alongside were destroyed with their occupants. The United States cruiser Helena, which was in the vicinity, picked up the two survivors from the wreckage.

POPULATION OF OKLAHOMA.

Guthrie, O. T., July 17.—The commission appointed to reapportion Oklahoma has announced a total population in the territory of 600,000 with one representative for every twenty thousand people and one senator for every 45,000.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by Wm. A. Ross, Clerk of the county of Marquette, Michigan, for the building of a County Court House at Marquette, Mich. Proposals to be in the hands of the aforesaid Wm. A. Ross on or before 10 o'clock noon of the 26th day of August, 1902. Plans, specifications and instructions can be seen on and after the twenty-first day of July, 1902, at the office of the aforesaid Wm. A. Ross, Marquette, Michigan, and also at the office of the architects, Camp Building, Milwaukee, Wis., and Marquette, Michigan. The right to reject any and all bids is reserved.

ST. LOUIS WINS BY FORFEIT.

Baltimore, July 17.—The baseball game today between St. Louis and Baltimore was forfeited to the former. The St. Louis team took positions on the diamond and went through the formality of playing the game. The umpire declared the game forfeited after five minutes had elapsed. None of the Baltimore players appeared in uniform on the grounds.

SAVES A WOMAN'S LIFE.

To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured." Sufferers from Coughs, Colds, Throat and Lung Trouble need this grand remedy, for it never disappoints. Cure is guaranteed by Stafford. Price 50c and \$1.00. Trial bottles free. One of nature's remedies; cannot harm the weakest constitution; never fails to cure summer complaints of young or old. Dr. Fowler's Extract of Wild Strawberry.

WHITE OUTRAGES NEGRO.

Assault Occurred at Carbondale, Ill., Where Recent Riots Took Place.

Carbondale, Ill., July 17.—George Johnson, white, was arrested today, charged with attempting to assault a colored woman. It is the first arrest in connection with the recent trouble. There is much uneasiness and the belief is the lawless element will resume hostilities as soon as the troops are withdrawn.

CUBA IN DOUBT ABOUT LOAN.

Opposition Has Developed Among Some Members of Congress.

Havana, July 17.—Some opposition has developed among members of congress to the idea of floating a loan of \$4,000,000. In the preliminary meetings to consider the question some of the congressmen objected on the ground that a loan would be of no real assistance, as the trouble is due to the low price of sugar, which might continue next year. Others said it would be difficult, almost impossible, to arrange the distribution of the money in such a way that it would be into the hands of those really needing it.

SECRETARY OF STATE AND COLOMBIAN MINISTER REACH AGREEMENT AND SENATE WILL BE ASKED TO RATIFY THE SAME.

Washington, July 17.—Secretary Hay has practically completed the treaty with Colombia for a new canal concession. The secretary has no doubt that he will be able to submit a treaty with Colombia to the senate when it meets next December. In fact, a treaty has been agreed to by the secretary and the Colombian minister. The president of Colombia has approved that treaty. But since the passage of the Spooner act Secretary Hay has suggested certain amendments to the treaty to make it more in harmony with the spirit of the debate in congress on the canal question.

WOMEN ARE USED AS A SHIELD.

Macedonian Rebels Fire on Wives and Daughters, but Are Routed.

London, July 17.—The Vienna correspondent of the Daily Mail says official reports received describe a formidable Macedonian rising in the vilayet of Monastir, European Turkey. The rebels withstood the attack of 1,000 Turkish regulars. Finally the Turks placed the Macedonian women and children in the front as a screen and stormed the position of the rebels. Many women and children were killed by their own husbands and fathers. After dispersing the rebels the Turks massacred the population and looted and burned the houses of the inhabitants.

HAY PERFECTING CANAL TREATY.

Washington, July 17.—Secretary Hay has practically completed the treaty with Colombia for a new canal concession. The secretary has no doubt that he will be able to submit a treaty with Colombia to the senate when it meets next December. In fact, a treaty has been agreed to by the secretary and the Colombian minister. The president of Colombia has approved that treaty. But since the passage of the Spooner act Secretary Hay has suggested certain amendments to the treaty to make it more in harmony with the spirit of the debate in congress on the canal question.

SPARKS FROM THE WIRES.

Washington, July 17.—The secretary of war has published a list of those to be ordered for examination with a view to appointment as second lieutenants in the army from civil life. Among them are: Harry G. Kemp, of Wisconsin; Resolve A. Palmer of Iowa; Philip G. Wrightson and George Fleetwood of Illinois.

COMPLETE HUMOUR CURE, \$1.

Use CUTICURA SOAP, assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itching, and irritations, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTICURA SOAP in the form of baths for annoying inflammations, chafings, and excoriations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sensitive, antiseptic purposes which readily suggest themselves to women.

TODAY'S WEATHER.

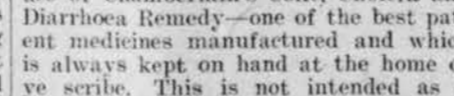

Washington, July 17.—The following is the weather bureau's forecast for Upper Michigan: Fair Friday and Saturday. Light variable winds mostly north.

CRENNAN'S LA CARINA

...AMERICAN EMPIRE... 10-Cent Cigars

E. L. KELLAN, Wholesale Grocer.

BAKING DAY

is no longer a day of dread and doubt when you have a gas range in your kitchen. Wind, weather and bad chimney then lose all terrors. You have an even, uniformly heated oven that can be regulated to an extreme nicety, baking your bread, biscuit or cake always to perfection. Gas is certainly the 20th century fuel, saving time, labor and annoyance.

E. L. KELLAN, Wholesale Grocer.

BAKING DAY

is no longer a day of dread and doubt when you have a gas range in your kitchen. Wind, weather and bad chimney then lose all terrors. You have an even, uniformly heated oven that can be regulated to an extreme nicety, baking your bread, biscuit or cake always to perfection. Gas is certainly the 20th century fuel, saving time, labor and annoyance.

Marquette Gas Light Co.

A Range Complete, Ready for Use, \$15.00

OSTEOPATHY IN MARQUETTE.

JOSEPH L. SHOREY, Osteopathic Physician. Graduate of American School of Osteopathy, under A. T. Still, the founder. COR. FRONT AND BLUFF STS. Hours: 9 a. m. to 5 p. m.

Sore Hands

Red Rough Hands Itching Palms and Painful Finger Ends.

ONE NIGHT CURE.

SOAK the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA OINTMENT, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful.

Millions of People

Use CUTICURA SOAP, assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itching, and irritations, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTICURA SOAP in the form of baths for annoying inflammations, chafings, and excoriations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sensitive, antiseptic purposes which readily suggest themselves to women.

TODAY'S WEATHER.

Washington, July 17.—The following is the weather bureau's forecast for Upper Michigan: Fair Friday and Saturday. Light variable winds mostly north.

D. 1902, at 10 o'clock p. m.

Kelley Island Lime.

Kelley Island Lime is conceded by all users of lime to be one-half quicker in setting and takes one-eighth more sand per barrel than any other brand of lime put upon the market.

KENTUCKY WELLS A SUCCESS.

Central Oil Company's Stock Sells for \$100 Per Share.

Marquette holders of stock in the Eastern Kentucky Oil Co. will be interested to learn that at Lexington, Ky., Central Oil stock sold at \$100 per share. This stock was withdrawn from the market on April 14 last and since that time there has been, with very few exceptions, no transfers.

The company has now five well machines working night and day and is bringing in one or more wells every week. The pipe line of the Standard Oil company runs within a mile of where they are working in Wayne county and a pipe line will be built into the Bath county field in the next few weeks.

The Louisville Courier-Journal has had an expert oil man accompany their reporter through the various fields of Kentucky and has devoted nearly a page of their valuable paper to each of the producing counties. They recently published a long article upon the Bath county field, in which they gave the credit of the locating of the oil deposit to Professor A. M. Miller, geologist of the State College of Kentucky.

Let us speak of man as we find him. And censure only what we see. Remembering that no one can be perfect. Unless he uses Rocky Mountain Tea - The Stafford Drug Co.

CITY BREVITIES.

Today's weather: Generally fair and cooler; winds becoming northwesterly. Yesterday's temperature: 7 a. m., 71 degrees; noon, 74 degrees; 7 p. m., 64 degrees. Maximum, 79 degrees; minimum, 64 degrees.

Miss Laura Leary of Detroit is at the Clifton. Mr. and Mrs. C. H. Kelsey returned to Houghton yesterday morning. Miss Jennie Penrose of Houghton is the guest of her cousin, Miss Ida Jackson.

Mr. and Mrs. W. R. Hilt of Waconia, Wis., are visiting Mrs. R. F. Brunner for the summer. Mrs. Wm. Berry of Chicago is the guest of her sister, Mrs. Edgar Gilbert, Washington street.

Mr. Hibbard and should be to all holders of stock in the Eastern Kentucky. There is only a small portion of the 60,000 shares it was decided to place on the market at 40 cents per share, remaining after Aug. 1 the stock will be withdrawn and its price will be advanced as the work of development warrants.

NOVEL GAMES.

Lieut. Ball Tells of a North Dakota Celebration.

Lieutenant Geo. E. Ball, who recently returned from the Philippines with his regiment and is now stationed at Fort Yates, N. D., in a letter to his mother writes interestingly of the Fourth of July celebration at that point.

"On the morning of the Fourth a great many of the chiefs of the Sioux and Blackfoot and other tribes dressed up in their plumage and paraded through the post and at nine we all drove out on the plain, about a mile or so, to where the grounds had been prepared. All of the head chiefs carried fans of eagle wings as their badge of authority.

"The 'equipment race': The contestants, soldiers, come out with their rifles, belts, haversacks, canteens, blanket rolls and leggings, which they must spread out on the ground and go back fifty yards. At the signal they run to their equipments, put on their leggings, etc., roll up the blankets and go back to the starting point where they are inspected and the man who has the neatest roll, etc., wins.

"The 'cowboy race': The horses are unsaddled and turned loose in a ring and the contestants must rope their horses, put on saddle and bridle and ride half a mile and back. This is quite exciting, as sometimes the horses break through the ring. The Indian police race was a race of half a mile by the police, each with his own horse.

"On Saturday afternoon it was very warm. About 5 o'clock we saw a rain storm coming up so we started to drive home. We had not gone more than half way when we were caught in a rain and hail storm. I was drenched in about a minute and it was so cold that I was almost blue when we reached the house. Yes, our practice march will be all in one loss of 150 miles. I received a letter from you the other day dated April 7. It had gone to the Philippines and back."

Let us speak of man as we find him. And censure only what we see. Remembering that no one can be perfect. Unless he uses Rocky Mountain Tea - The Stafford Drug Co.

Today's weather: Generally fair and cooler; winds becoming northwesterly. Yesterday's temperature: 7 a. m., 71 degrees; noon, 74 degrees; 7 p. m., 64 degrees. Maximum, 79 degrees; minimum, 64 degrees.

Miss Laura Leary of Detroit is at the Clifton. Mr. and Mrs. C. H. Kelsey returned to Houghton yesterday morning. Miss Jennie Penrose of Houghton is the guest of her cousin, Miss Ida Jackson.

Mr. and Mrs. W. R. Hilt of Waconia, Wis., are visiting Mrs. R. F. Brunner for the summer. Mrs. Wm. Berry of Chicago is the guest of her sister, Mrs. Edgar Gilbert, Washington street.

Today the jury will visit the property concerned, going up on the morning M. & S. E. train. Mr. and Mrs. F. Murdoch of St. Johns, Mich., arrived yesterday to spend some time with Mrs. Murdoch's sister, Mrs. Edwin C. Thompson, Arch street.

Wm. F. McKnight, who is extensively interested in upper peninsula lands, arrived yesterday from Grand Rapids and is the guest of Rush Culver.

Miss Mabel Noyes, who has been the guest of Miss Ruth Reed, has gone to Ishpeming to spend a few days before returning to her home at Milwaukee.

Mrs. H. J. Stevens of Minneapolis has arrived to spend several days up the cottage of her son, M. E. Asire, up the lake at the cottage of her son, M. E. Asire. She will join Mr. Stevens there this morning.

The members of St. Cecilia's court of the Catholic Order of Foresters, and their families, will participate in a basket picnic at Presque Isle on the 22nd. All are requested to be ready to take the 10 o'clock car.

Arthur S. Nester, son of Tim Nester, was born in Chicago last Monday to Miss Anne E. King. Mr. Nester, Sr., was in attendance at the nuptials and arrived here Tuesday in time to enjoy the lively doings at the initial session of the congressional convention.

The junior society of the Brotherhood of St. Andrew repeated last evening at St. James' church at Chocoye the entertainment recently given at Morgan Memorial chapel. The young folks made the trip in a bus and were greeted by a good-sized audience.

While a party of fifteen young people were enjoying an outing of the beach last evening, a "lunch grabber" suddenly made his appearance, snatched a quantity of marshmallows that were being roasted and disappeared. His partner in the prank was recognized and through him it is hoped to ascertain the identity of the guilty party.

Among the visitors in the city yesterday were the following: W. H. Dodge of Hancock, F. E. Ziegel and Wm. Moore of Munising, S. J. Beahan and wife of Houghton, John I. Bellaire of Seney, and Walter R. Hiers and Postmaster M. A. Kerns of Menominee, the latter of whom was in attendance at the congressional convention and remained over with Prosecuting Attorney Mills.

The Twentieth Century club, under the management of Messrs. Keough and Cole will give an informal "shirt-waist" ball at Fraternity Hall, Thursday evening, July 24. A full orchestra of six pieces and Joseph Hogan as prompter will be in attendance. The admission will be 50 cents per couple and all are invited. It is the wish of the club to see as many shirt waists as possible.

SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to place upon the shoulders of the young.

This treacherous disease dwells in the system and hinders the growth and development of the faculties, and the child born of blood poison, or scrofula-tainted parentage, is poorly equipped for life's duties.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood.

S. S. S. combines both purifying and tonic properties, and is guaranteed entirely vegetable, making it the ideal remedy in all scrofulous affections. It purifies the deteriorated blood, makes it rich and strong and a complete and permanent cure is soon effected.

THE F. BENDING CO. The Wholesale Liquor House. Everything good in the line of staple and fancy Wines and Whiskies. All sorts of Summer Drinks. A choice line of Cigars.

...PENINSULAR RANGES... with or without gas attachment. THEY ARE THE BEST.

Marquette Hardware Co., Front St., Opposite New Depot.

THE PEOPLE'S FAVORITE SHOE STORE! This is the truth about our Shoe Room. The reason is, the lowest of all prices are marked on our shoes.

Dry Goods Department. We will offer during this month of May Special Bargains in Dress Goods—the latest weaves, the best qualities, and noskimping in measure.

Ladies' Wraps, Suits, Skirts and Waists. A brilliant exposition of elegant garments in styles that are the season's successes.

## 1902 EDITION.

The new 1902 edition treats of Copper from all standpoints—Historical, Technical, Statistical and Descriptive. It is divided into ten chapters, as follows:

- I. History of Copper.
- II. Chemistry and Mineralogy.
- III. Metallurgy.
- IV. Glossary of Mining Terms.
- V. Copper Deposits of the World.
- VI. Copper Deposits of the United States.
- VII. Leading Foreign Mines.
- VIII. Lake Superior Mines.
- IX. American Copper Mines.
- X. Statistics of Copper.

The work is an octavo volume of 492 pages, set in Brevier type. It is the only volume printed in any language treating of the entire subject of copper, with descriptions of all principal mines, some 700 properties being listed, the descriptions ranging from a few lines to a dozen pages for each, according to importance.

The price of the Copper Handbook is \$3 in full morocco, and \$2 in buckram binding, prepaid to any address in the world. It will be

SENT ON APPROVAL

and may be returned within 30 days, if the purchaser is dissatisfied, for any reason whatever, and price paid will be refunded.

### ROUGH RIDERS WERE HERE.

Wild West Came and the Small Boy Was Pleased With Strange Sights.

Buffalo Bill was here in all his glory yesterday. With his cowboys and soldiers, the old Indian fighter gave his exhibition before one of the largest crowds that has ever assembled in this city.

The small boy was in his glory too. He was able to get a glimpse of his ideal hero, the cowboy, and to see bucking bronchos. He saw the wild man too and, with him, the great array of soldiers of every land, the old stage coach, the horses and Buffalo Bill himself.

The circus train arrived early in the morning from Marquette. The work of unloading the cars progressed rapidly and long before noon the big area of canvas was raised.

When time came for the parade, all the people in the city, together with the hundreds of visitors from neighboring towns, were on hand to see the cavalcade. Buffalo Bill headed the line in a carriage and behind him came his followers, all mounted. There were troops of gaudily painted Indians, jingling sleigh bells and bearing wampum strings and blankets, companies of American, English, German, Russian and Mexican cavalrymen, in gorgeous trappings, artillerymen in their shining helmets and resplendent uniforms, an old stage coach drawn by a team of lean, several brass bands, a file and drum corps, a herd of buffalo and other striking features.

The crowds that witnessed the two performances were large. From the mining towns west came fully 2,000 visitors. From the farming country seagons brought many more and Negaunee and Winthrop seemed to send almost their entire population.

The free performances in the morning, after the parade, drew large crowds and at the afternoon performance all of the twenty-five numbers were watched with rapt attention. The Indians, with their war-paint, feathers, and their military detachments brought forth shouts of approval. The battle of San Juan received an ovation.

### LARGE FAMILY REUNION.

Mrs. John Hooper Will Welcome No Less Than Twenty Grandchildren.

What promises to be one of the largest family reunions on record, will be held at the home of Joe Hooper, the Nelson county barber, shortly. Mr. Hooper's mother will have three brothers, with their families, here. One, Samuel Lingman, is coming all the way from Alaska to be present at the reunion. Mr. Hooper has not seen him since he left England, nearly forty years ago, prior to her coming to America. He will be accompanied by his wife and child. The other two brothers, aunts and grandchildren are assembled the total will figure up fifty or more persons.

It has not yet been decided just when the reunion will take place, but probably within a week or two all the members of the large family will have arrived in the city.

### AN UGLY CUSTOMER.

Work for the special circus day officers began early yesterday morning. At about the time of the parade, an unknown man was nabbed by William Pengelase in Billings' saloon. He became noisy and, when an attempt was made to quiet him, drew a gun on Mr. Billings, threatening to shoot. He was promptly seized and taken to the police station. There he became violent and refused to give his name or place of residence. On his person were found a fine gold watch and \$110 in money. His violence necessitated the use of the straight jacket. He finally became quiet, but he kept the day in the lockup. It is thought the fellow is partially demented.

### ISHPEMING GIRLS' SUCCESS.

Miss Alma Anderson and Miss Libbie Cox, who have been studying music in Detroit the past year, have returned to the city for the summer. While in Detroit, their services as vocalists have been constantly in demand and they have assisted at many concerts and recitals in that city and surrounding towns, besides giving several entertainments of their own. They have been asked to give an entertainment here this summer and they will be heard at the opera house Friday, August 21. Both are deserving young ladies, and their ability as entertainers is not unknown to Ishpemingites.

### WAS WELL KNOWN HERE.

Dispatches from Rhinelander, Wis., say that H. T. Young, a freight conductor on the Chicago & Northwestern, was killed at Monico by one of a trio of hoboes who were stealing a ride on his train. Mr. Young was well known to railroad men here and all through the peninsular division.

He was shot with a revolver. The ball entered his head, above the eye, and was extracted by the doctors from the other side. He died from the effects of the operation. The man who did the shooting escaped and has not been captured, although bloodhounds have been put on his track. Young was married and has a large family.

### THE BEST LINIMENT FOR STRAINS.

Mr. F. H. Wells, the merchant at Deer Park, Long Island, N. Y., says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains. I used it last winter for a severe lameness in the side, resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by the Stafford Drug Co.

The ladies are invited to call and inspect our new line of silks. All the latest. Finnish Mercantile association.

### THE BUTTE CONGRESS.

Fifth Annual Meeting in September Will Be Largely Sighted.

Several prominent mining men of the Lake Superior district contemplate attending the annual meeting of the International Mining congress, which will be held this year at Butte, Mont., commencing Sept. 1. A number of invitations have been received in this section and the program shows that this year's meeting will be one that all present will enjoy. Topics of general interest will be discussed by the brightest and best posted mining men of the country.

The main object of the congress is to encourage the growth and development of the mining industry in the different states of the union. The question of legislation is given careful consideration and much good is being accomplished in that direction.

During the session there will be an attractive display of the minerals, commercial and scientific, of Montana and adjoining states and territories. A. L. Flewelling of Crystal Falls is president of the Michigan delegation and E. N. Breiting of Marquette is secretary.

The meetings will continue for a week. Before departing from Butte the visitors will pay a visit of inspection to the more prominent mines and mills and other points of interest.

### NEW HEATING PLANTS.

The Lake Superior Steam Heating company has the contract for placing a complete system of steam heating apparatus in the Mitchell block, at the corner of Main and Division streets, occupied by H. F. Heyn, harness maker. The order has already been placed and will be filled within a few days, when work will be begun.

Mr. Heyn will also have the same company place steam heat in his house, corner of Barnum and Lake streets. He has been renovating his residence and will have the plant installed at once.

At Negaunee the trustees of St. Paul's church have given the company the contract for the work in the church edifice and parsonage. It will also put in plants at the schools of Iron Mountain and East Houghton. It has a contract for the new high and manual training schools at Marquette, and will also fit up the new court house at Munising.

### NEED MORE HELP.

Often the over-taxed organs of digestion cry out for help by Dyspepsia's pains, Nausea, Dizziness, Headaches, liver complaints, bowel disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25c at Stafford's drug store.

### ISHPEMING IN BRIEF.

The railroads had difficulty in handling the crowds yesterday. There was only standing room on all trains.

S. Voyer of Republic was in town yesterday, assisting at the Nelson Hotel during the rush occasioned by the circus.

Yesterday proved a quiet day on the police force. A few arrests of suspects were made, but the fellows were released later.

H. O. Young returned from Marquette yesterday and was around town yesterday receiving the congratulations of his friends on his nomination for congress.

Shortly before the afternoon performance of the Wild West show one of the street cars became derailed near the school grounds. Traffic was blocked for a time.

Wednesday night a special detachment of policemen patrolled the streets, and kept a sharp lookout for any crooks who might attempt to enter the city at night to get in their work in the dark.

The Kennedy players, who were at the opera house here a few weeks ago, have disbanded in Hancock. The warm weather and poor attendance were the reasons for cancelling the remainder of the dates.

Several of the delegates from the convention in Marquette were here yesterday and attended the Wild West show in a body. The sessions of the convention prevented their attendance at the former city.

In spite of rival attractions, Gideon's minstrels played to a good house last evening. The colored gentlemen stole a march on the Wild West show yesterday and gave their parade fully an hour before the big show started.

Although pickpockets were driven out of Marquette Wednesday, they profited by their experience and yesterday spent their time working the crowded excursion trains. The train coming from the west was especially unfortunate, and even the conductor was "touched" for \$30.

### DR. FENNER'S KIDNEY and Backache CURE

All diseases of Kidneys, Bladder, Urinary Organs, Also Rheumatism, Backache, Headache, Neuralgia, Dropsy, Female Troubles.

Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a life time curing just such cases as yours. All consultations free.

For years I had backache, severe pains across kidneys and scalding urine. I could not get out of bed without help. The use of Dr. Fenner's Kidney and Backache Cure restored me. G. WAGONER, Knobsville, Pa.

Druggists, Sec. H. Ask for Cook Book—Free.

ST. VITUS' DANCE Sore Cure, Circular, Dr. Fenner, Redonia, N.Y.

## Upper Peninsula.

William Thomas of Iron Mountain will spend the next two years in the Marquette prison, to which he was sentenced on pleading guilty to the charge of keeping a house of ill-fame. His wife was sentenced to one year at Detroit.

Edward Kallander, eighteen years old, son of Martin Kallander, ex-county sheriff and treasurer, who died last March, was killed early this week at the Tilden mine at Bessemer by falling in the chute. He was on his first shift as tool boy, having just started work at the mine.

Two professional divers from Escanaba arrived at Iron River a couple of days since for the purpose of looking for the body of Tony Wagner, who was drowned there on June 24 while playing on logs. After being in the water a little over an hour the divers found the body lying under logs in the bed of the river.

Mr. and Mrs. Anton Laana of Menominee received the sad news this week that their son Ephie, aged twenty, who had been a bugler in Co. E, Twenty-eighth United States infantry, had died of cholera in the Philippines. Almost at the same moment of receipt of the telegram, there came a letter, written by the hand of Ephie, and enclosing a couple of silk handkerchiefs. In his previous letter he said that the cholera had been nearly wiped out.

John Erickson, a well known resident of Menominee, died this week as a direct result of drinking too much cold water on a warm day. Last Friday Mr. Erickson drank considerable ice water and late Friday night he was taken unconscious to the St. Joseph's hospital where he was operated upon for kidney trouble. The operation did not relieve him and he died. He was one of the best known members of the local Vessel Loaders' union, in which society he had been an officer for a number of years.

Fritz Jager of Marinette was accidentally shot at Stager the other morning by George Wicker of Crystal Falls. Wicker and some companion had gone to Stager to bathe and sighted a heron on the water's edge. They did not see Jager, who was digging angle worms preparatory to fishing, just beyond where the bird was. Wicker fired twice and at each shot hit Jager, who received twenty grains of fine shot in his leg and ten in his arm. He was taken to Crystal Falls, where he was placed in the hospital.

During a gale at Menominee a few days ago, the yacht Mabel B, which with its crew, comprising Messrs. William Reinhold, Ed. Acker, Fred Crandall and John B. Davis of Sturgeon Bay and Mr. Runge of Manitowish, had set out from Menominee a short time before the advent of the storm, on the return trip to Sturgeon Bay, "turned turtle" in the big winds and its occupants suddenly found themselves floundering around in the white-capped waves. Fortunately each man was a strong swimmer and a capital sailor, and after an heroic struggle in the water they finally succeeded in righting their capsized craft, which they once more boarded, and cutting away the tangled ropes which the torn sails managed to peddle safely back to dock. The wet, bedraggled sailors sought shelter in a hotel, and after drying their saturated clothing they were able to return to the yacht which in the meanwhile had been bailed out and once more made perfectly seaworthy. Rather than take the risk of attempting to sail back to Sturgeon Bay they chartered a convenient tug which successfully towed them to their home haven.

President H. W. Ashley of the Ann Arbor railroad has returned to Menominee from his tour of inspection of the Wisconsin & Michigan line, which he took in company with Agent Allison, the Menominee representative of the Ann Arbor Company. The object of his trip was to see the facilities which the Wisconsin & Michigan line has for ore-carrying trade. The Wabash line, which recently purchased the Ann Arbor road, is contemplating going into the iron ore carrying trade in the upper peninsula and will either purchase the Wisconsin & Michigan road or will build a line of its own from Menominee to the iron mines, probably by the former. Mr. Ashley said that that was the object which his company had in view when they purchased the Ann Arbor line, and that they intend to connect directly with the Wheeling & Lake Erie line, so that they will have a direct route to the coal fields of Ohio and Pennsylvania. In case the Wabash buys the Wisconsin & Michigan road, it will mean the erection of ore docks at Menominee. Mr. Ashley says that it would cost the company less to build a road, seven miles, to Menominee, than to deepen the water way at Peshigo harbor, where the Wisconsin & Michigan line now terminates, and which port it intended to use in shipping ore.

Arthur A. Trim, a well known carpenter and builder who resided in Grand Marais for several years and who became dissatisfied with his lot and went west a year ago, writes back in strong terms to the effect that distance lends enchantment, but the west is not to be compared with old Michigan for opportunities or anything else. He continues in part: "I am not in love with this country (writing from Seattle) and I have seen it from north to south. I had lots of fun while my money lasted, but since then things have changed. I worked for a while near the border line of New Mexico and then went north to the mines of British Columbia where it was said wages were good, but as usual the wages were not as good as expected and the cost of living exorbitant. After putting in considerable time there I went to Vancouver and thence to Seattle. Of all the country I have traversed I have failed to see any part of it that would compare with the central states. The hardest working man in Grand Marais does not know what hardship is, as compared with the laborer's lot out here in the West. The Alger county farmer does not begin to do the work that his western brother does and his results are far in excess. All fruit orchards are cultivated the same as the people here cultivate their gardens; not a blade of grass and no weeds are allowed to grow therein. The soil is of such a nature that it is hard to work and involves continual labor and a big expenditure of money. If an Alger county far-

## The Way To Chicago

The Limited, leaving Minneapolis at 7:50, St. Paul at 8:25 p. m., daily, arrives in Chicago 9:20 next morning.

Breakfast is served en route in a comfortable Dining Car, beautifully decorated. The service is "a la carte"—you pay only for what you order. This is more popular with travelers than the "dollar a meal" charge.

The Scenic Express, leaving Minneapolis at 7:30, St. Paul 8:05 a. m., except Sunday, arrives in Chicago 9:35 p. m. same day. Pullman sleeper serves lunch. Dining halls at La Crosse and Savanna.

Ask Your Home Agent for Tickets via the Burlington Route.

## Coal Strike Affects Prices.

John Stanton says: "If you will tell me what is to be the outcome of this coal strike than I will tell you something about the future of the market for copper. If bituminous miners vote to strike the outlook for a heavy demand for copper is by no means bright but if the strike is brought to an end in the near future, the present uncertainty will be eliminated and buyers will not hesitate to come in the market for large quantities. At present everyone prefers to wait until the situation becomes more clear. I firmly believe that if a strike of the anthracites had not broken out the price of Lake copper would now be as high as 13 cents. Consumption of copper in this country as well as abroad is very large. The large exports during the past six months have gone into actual consumption and the visible supply steadily decreasing since Jan. 1. Consumption has increased over 25 per cent while production has increased only 5 per cent."

## Copper Gossip.

The Calumet & Hecla is stated to be receiving numerous inquiries for copper at or around quoted prices but it has been unwilling to accept the same and has made very small sales for the past thirty days.

Loss of Vitality is loss of the principle of life, and is early indicated by failing appetite and diminishing strength and endurance. Hood's Sarsaparilla is the greatest vitalizer—it acts on all the organs and functions, and builds up the whole system.

**PATTON PAINT CO.**      Sault Ste. Marie, Mich.

Gentlemen:

I've been shining now for ages  
On the paint that people use,  
And my pleasure is to spoil them;  
But methinks I've got the blues;  
For I struck a kind this morning  
That would not grow quickly faint,  
And I found by asking them  
That 'twas Patton's Sun-Proof Paint."

Why, I shone and shone upon it  
So to make the paint degrade,  
And I nearly had a sun-burst  
E'er this stuff that you have made.  
When I saw my work quite useless  
Then I called on every Saut;  
But they, too, could not affect it—  
'Twas your "Patton's Sun-Proof Paint."

And now, sirs, here's my order:  
Fifty gallons send to me,  
Of your brightest golden color,  
And please send it C. O. D.  
You see the sun needs painting!  
And I want something faint!  
So I thought I'd send an order  
For your "Patton's Sun-Proof Paint."

Yours truly,  
The Man in the Sun.

### FORMIDABLE PEST.

#### It Worries the Farmers by Attacking Their Standing Hay Grass.

Farmers who have been in town during the past few days are telling stories of a new pest with which they have to contend. As the time for haying is coming on, they have gone out to inspect their fields and in many cases have been surprised to find that, in the timothy hay, a great many of the heads have fallen off, together with the first joint of the grass. The whole upper part of many stalks has fallen and is drying on the ground. The farmers were for some time at a loss to account for this but closer inspection showed it to be the work of a small worm that takes up its abode in the sheath of green, covering the first joint of the grass. The worm is white and of small size, resembling a small ground grub. It cuts off the upper part of the grass as cleanly as if it worked with a knife. It does not appear to have lived on the grass, and seems merely to have severed the stem to enlarge its quarters in the sheath. How it came there in the first place is a mystery the farmers are now trying to solve.

Various remedies have been suggested to get rid of the pest, but none have been given sufficient trial as yet to prove their utility. Many of the farmers, rather than cut the hay crop in this condition, have plowed the grass under and are attempting to extinguish the pest in that way. Those who are now haying say that the crop will be greatly damaged this year and in many instances, will be much smaller on account of this new trouble.

### T. J. CURLEY INTERESTED.

T. J. Curley, son of Mrs. Patrick Curley and formerly of this place, is interested in a big mine suit that is pending in the courts of California. Mr. Curley and his partner, Mr. Webb, recently brought suit to recover damages against Sylvester Carlton, another mine owner at Toulumine, California. The sum involved is large. The Telegraph Line mine, which was concerned in the suit, is valued at \$30,000. The suit was appealed to the higher courts and it is now hanging fire in San Francisco, waiting the collection of additional evidence. Mr. Curley and his partner were given a judgment in the lower courts.

### LOCAL LAONICS.

Harry J. Emery of Houghton was in town Wednesday.

Mr. and Mrs. Sol Berkson were in Marquette on Wednesday.

Messrs. Goodnow and S. A. Adams were in Marquette Wednesday.

A baby daughter was born to Mr. and Mrs. Sam Goodman the first of the week.

A scrub team played the Cornish team a game of base ball on the Harris field yesterday.

The Independents will play the Marquette base ball team at Union park Sunday afternoon.

C. A. Taylor took advantage of the general holiday yesterday to make a fishing trip to Sands.

The mines at Palmer were closed all day yesterday, to allow the miners to take in the Wild West show at Ishpeming.

The Walker block will be fitted out with gas fixtures this week. The plumbing for the building will be done by J. O. Richards.

The Cleveland-Cliffs people have begun to ship from their large stock pile at the Palmer location. The Northwestern is hauling the ore.

J. O. Richards, the local plumber and gas fitter, is doing the plumbing in the Crawley and Zoberlein blocks in Ishpeming. He will complete the work next week.

The Misses Mabel and Ida Jackson are attending the Elks' reunion at Escanaba this week. They accompanied Miss Henderson and Mr. Lavigne, who have been visiting here for a few days.

The Mitchell M. E. Sunday school has decided to hold its annual picnic at Cleveland grove on the second Saturday in August. The Negaunee band will accompany the school and furnish music.

James Kessel and J. Penultima left this week for Silverthorn, Colorado, where they will accept positions in the mines. They have been here for some time and have both been members of the City band, which will greatly miss their services.

The new parts for the city crusher, recently purchased by the council, have not arrived and the start has been delayed. An effort will be made to repair the old crusher, so that it can be placed in commission until the new one is ready.

Cut this out and take it to Stafford's Drug Store and get a box of Chamberlain's Stomach and Liver Tablets. The best physic. They also correct disorders of the stomach. Price 25 cents.

### WILL RETURN HERE.

A. Croll and wife, former residents of Michigan, will soon return to the village to locate permanently. They recently purchased the Peterson dwelling on Depot street and will occupy it. Since leaving Ishpeming a couple of years ago, Mr. and Mrs. Croll have resided in the copper country in various places. They intend to spend the remainder of their days at Michigan.

### IF A MAN LIE TO YOU,

### MICHIGAMME PICK-UPS.

Will Dubard entertained a few friends with a picnic on the south shore of the lake Sunday last.

Miss Sadie Dubard is visiting friends at Iron Mountain. She will be away two or three weeks.

The Petrel is busy every Sunday taking pleasure seekers to the islands and distant shores of the lake.

Miss Sadie Brown has returned from the copper country, where she spent the past four weeks visiting friends.

A large delegation of Michigan people took in the Buffalo Bill show at Ishpeming Thursday. Most of the men employed at the mill took a day off.

A brother of Miss Gere, one of Michigan's school teachers, died a few days ago at St. Joseph, Mo. The young man had been ailing for some months and his

### SICK PIGS.

#### Chicago Health Officers Are Said to Have Sent Them to the U. P.

According to Chicago papers, a large herd of pigs has been shipped by the medical authorities of that city to some point on the upper peninsula. The pigs are afflicted with scarlet fever. It seems that the Chicago board of health is endeavoring to secure a new serum preventative of scarlet fever, and the pigs were inoculated in the Chicago laboratories for experimental purposes. It was thought that the experiments would cause great danger to the community where they were being carried on and so the pigs were packed off to some town in the upper peninsula. Just where it is not known. Should farmers learn of the whereabouts of Dr. W. K. Jaques, who has charge of the experiments, there would, without doubt, be exciting times. The disease is highly contagious, even among cattle, and there would be serious protest, if the herd were discovered.

### WHIST PARTY WEDNESDAY.

An enjoyable whist party was held at the home of Mrs. Louis Corbett Wednesday evening. Several ladies were present from Ishpeming. The Negaunee ladies present were Mrs. Alexander Maitland, Mrs. T. M. Wells, Mrs. J. M. Perkins and Mrs. J. H. Hudson. Mrs. H. O. Young was one of the Ishpeming visitors and during the evening the telephone was kept busy getting news of the Republican convention in Marquette, where her husband was a candidate for the congressional nomination. When the news of his victory came, she received the hearty congratulations of the ladies present.

### BAND GOING ALONG.

It is expected that fully one hundred members of the local lodge of Sons of St. George will leave on the excursion for the annual reunion at Hancock Saturday morning. Arrangements have been completed for the old city band to accompany the party and enliven the journey with music. On this occasion the band will be augmented by two new players, Frank Vlight and Sam Davis of Ishpeming. The train will leave the union depot at 7 o'clock.

## Michigamme.

### WOLVES GETTING SCARCE.

#### Michigamme's Well Known Trapper May Move to New Location.

William Krish, Michigamme's long-haired trapper, spent the early part of the week in town. He has made a wonderful record in the number of wild animals he has secured during the past year. Since January, he has received bounty ranging from \$2 to \$17 apiece. In Baraga county the bounty on wolves is \$15, but in Marquette it is \$17.

Krish has a wolf at his homestead. The animal has attracted a number of the wolves he has shot during the past year. At times as many as five or six come in a bunch, but it is seldom that the homesteader gets more than one of them.

The trapper will soon move some eight or ten miles further back into the woods. The wolves are getting scarce in the vicinity of the slaty and they are harder to kill than they were a year or two ago.

### DELIGHTFUL PICNIC.

About forty young people enjoyed a picnic last Sunday at one of the islands on the south side of the lake. The boat Petrel was chartered for the day. A fine lunch was served at noon and again in the evening. The hours were spent in diversions of various kinds, and before leaving the island, all agreed that another picnic would be held soon. Among the visitors from out-of-town were the Misses Clara Martin and Blanche Koob, Messrs. John Cullen, Will Hansen, Peter Fokey and Al Beal of Ishpeming.

# The largest selling brands of Cigars in the world!

death was not a surprise to his people. Miss Gere left for her home soon after the school closed. She will teach here next year.

The Michigamme baseball team expects to play the Negaunee or Ishpeming team down-town Sunday next. Arrangements for a game are pending.

Gideon's minstrels gave a good performance at the Fellows hall last Saturday evening. The attendance was not as large as the company deserved.

The Misses Lizzie Lyons and Viola Backes are visiting in Chicago. The latter will remain there until the latter part of August, when she will be home for a few days. She will teach again next year at Two Harbors, Minn.

Much interest was manifested by Michigamme men in the fight for the congressional nomination at Marquette Tuesday and Wednesday. The telephone wires were kept warm by local men, who were anxious to get the latest news.

With local applications, as they cannot reach the seat of the disease, Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

WOOD IS TABOOED

NE BEING USED FOR SIDE WALKS NOW.

CEMENT AT THE POPULAR MATERIAL OVER 7,500 FEET OF IT LAID THIS YEAR.

City's Gang, Averages 150 Feet Per Day and Suffice at Orders Are on Hand to Keep it Busy Until Fall—Paving Deal Dead.

So far this year about 7,500 feet of cement sidewalks have been put in by Street Commissioners French, and as yet there are no indications of a cessation in the work. In fact, there are orders on hand sufficient to keep the men steadily employed for practically the balance of the season, and as further illustrative of the popularity of cement it may be stated that Mr. French has still to receive his first order to lay a board walk.

The street commissioner has given considerable study and attention to the use of cement in sidewalks and has become an expert whose advice is much in demand. For over seven years, he has been testing and experimenting, and is satisfied that the walk now going in here is ideal—lasting and inexpensive. The special gang employed in laying the cement are all experienced men, trained under the eye of Mr. French, and the work they do is performed expeditiously and well. The workmen put in an average of a little over 150 feet of walk per day, and on two days recently they laid a stretch of 390 feet.

City's Charges Very Low. The cost of a cement sidewalk is 61 cents per running foot for the regulation 5 foot, 4 inch walk, and it is very doubtful whether the work is being done any cheaper anywhere in the country. The terms asked by the city also are extremely reasonable. A third of the cost is required to be paid down, with the other two-thirds payable in two years in equal annual installments. In other sections of the city, where cement is being used—although in no section is its use as extensive as here—the walks are costing considerably more—such as twenty-five cents per square foot, compared with about twelve here. Visitors from Houghton, the Soo and other places who have come incidentally to look into the cement sidewalk question have been much surprised to find the cost so low here, at which they have marveled, and also that the walks appeared so substantial and gave no evidence of wear.

The street commissioner is prepared to lay three or four kinds of cement walks, all consisting of the same material, but differing somewhat in the finish. The various classes are the rough, smooth and marble finish walks, the former being the most popular and being laid almost to the exclusion of the others. Several smooth-finished walks, corrugated by either a wood or steel trowel, however, have been put down this season.

Popularity of Slow Growth. It has required several years to educate Marquette property owners to the use of cement walks. The walk laid at the federal building gave cement a black eye and probably did more than anything to retard the progress of the now popular material. The trouble with that particular walk, however, is said to be because the best of cement was used and that neither was it laid properly as is the custom now. The crosswalk laid a year or so ago at the corner of Front and Spring has been a good advertisement of the merits of a good cement walk, and although others had been put in before that, the popularity of cement seems to date from the time that particular walk was laid. At that time it was predicted it would not pass through the winter without damage and that any way, with the great amount of travel, it would not last long. The cold weather, however, had no appreciable effect on the walk, and it shows no sign of wear.

The common council some time ago adopted an ordinance providing that no wood walk be laid in the future within a certain proscribed district, embracing portions of Front and Washington streets, but it is evident that the wheels city might just as well have been included. No plank walk is being laid, and this season none will be laid, probably in the outlying sections, and it is predicted that in two or three years a wood walk will be an extremely rare sight in this city.

Cement Curbing Now. The street commissioner is about to begin the installation of cement curbing, the exclusive use of which has been adopted by the city. There has been some delay in getting the work started, it having been necessary to manufacture a number of molds and to secure more adequate water facilities at the rock crusher, but now all is in readiness and the task of making the curbing will be started in earnest.

The curbing will be made in blocks, each four feet long, eighteen inches wide and four inches thick, and will be installed only in those streets which have been rebuilt this season or which are in good repair. The curbing will be put down about eleven inches in the ground and will be set in concrete, while in front of it will be a concrete gutter. To hold the blocks together securely, aside from the concrete setting, Mr. French has designed a novel device. The ends of each block will be semi-circular in form, being molded in that shape, so that when set into place there will be a circular hole between each section. Into this will be poured concrete, making a key, as Mr. French calls it, that he thinks will hold the blocks together as long as they will last. The curbing will be rounded on top and will have a smooth finish.

When Mr. French was asked several months ago what he thought the curb-

would cost, he figured that the expense would be about fifteen cents per foot. Last Saturday the first blocks, a sample lot of six, were turned out at a total cost of but twelve cents per foot and the street commissioner is confident that the figure will be cut down to ten when the work is begun in earnest. Two men can make about a hundred feet of the curbing per day.

Street Work Hurdled. As far as streets are concerned, the steam roller force has this season built eleven blocks to date and is now finishing up on the twelfth—on Arch, between Front and Third—an unusually long stretch. It was figured early in the year by the council that in the neighborhood of fifteen blocks would be constructed this season, but it is likely that the number will be twenty or over. The roller is being worked two shifts of eight hours each.

The method of making streets which has been adopted by Mr. French as a result of his long experience is to first lay a layer of coarsely crushed rock, then a layer of red clay and lastly two coats of finely crushed rock. All is well packed down by the heavy roller and considerable water is used in the process. The clay packs down in between the coarse rock and makes a very good binder, aside from resulting in a saving of the fine rock which formerly was used exclusively. The clay, which is rot found in every section of the peninsula, is being secured by the commissioner on Adams street, above Charapion and near the Hotel Superior, and also on the Washington street hill.

The roller is to be kept on Arch street from Front and Third will be given attention and some work will be done on the Front street hill. Spruce street between Michigan and Arch, and Washington street between Fifth and Seventh, and in other places where there is time before cold weather sets in, are also to be rebuilt this year.

Paving Project Seems Off. The project of paving Front street seems to have been abandoned, for this season at least. The proposition aroused considerable opposition on the part of the property owners, who would have to stand the great bulk of the expense, and there is little indication that the plan will be revived at an early date.

It is Predicted for New York and Will Help the Coppers. Hayden, Stone & Co. yesterday wired the Laidley Commission company: "Daily-West was the only feature today, selling up to 52. The rest of the market was dead and quiet." "The New York market is fast running into a big bull market and is sure to affect the Boston market before long. Any demand will show no stocks for sale. We strongly advise buying them around the present level on any reaction. In New York, buy the Vanderhilt stocks, New York Central, Nickel Plate, second preferred and common, and Peoria & Eastern. We believe they are bound for much higher prices."

Chicago Grains. W. H. Laidley & Co. said of the Chicago grain markets: "Wheat opened at about last night's close, remaining dull until near the close, when the strength in July and the strength in the market caused a slight advance. Short covering caused the strength in July. The cables do not fluctuate much one way or another. While there may be quite a heavy short interest that may bring some sharp rallies, these spots should be taken advantage of to sell wheat and on decided breaks it is a safe purchase for a turn. Corn opened strong and continued to advance all day. We have persistently advised the purchase of September corn and certainly think it is going much higher. The break in July will decrease the receipts being long and will help the September option. Buy it upon all recessions."

Wheat was stronger and higher, closing at an advance of 2 cents. The receipts are very much less than the requirements, and as the new crop just commenced to be received the prices advanced easily upon any kind of buying at all.

New York Stocks. Dick Bros. in a wire to Paine, Webber & Co. said of the New York stocks: "The market has broadened and been more active than any day this year. The public is coming in and buying all the low-priced stocks. Chesapeake & Ohio has been the feature. The Amalgamated Copper directors declared one-half of 1 per cent as expected. The crop news is excellent and the prospects favor an early termination of the coal strike."

The Federation of Women's clubs has extended the right of honorary membership to the men who make Rocky Mountain Tea, Women's greatest benefactor. The Stafford Drug Co.

FINE FURS AT SUMMER PRICES. Mr. C. H. Bixby, now a member of the firm of L. S. Berry & Co., manufacturer of fine furs in Chicago, will be at the Clifton House, Thursday and Friday, July 17 and 18, displaying the finest line of fur garments, in jackets, capes, scarfs and boas, ever shown in Marquette. All the latest novelties in Seal, Otter, Persian Lamb, Sables, Fox, etc.

Estimates given and orders taken for new garments and repair work of all kinds at special summer prices, for fall delivery. The ladies of Marquette are invited to see this beautiful display, even if they do not wish to buy. Thursday and Friday, July 17 and 18. (7-17-21)

Richness of the skin, horrible plague, Most everybody afflicted in one way or another. Only one safe, never failing cure. Doan's Ointment. At any drug store, 50 cents.

LEADERS OF CROOKS CORRALLED. Pickpockets Here in Force Wednesday but Were Checkmated by Police.

Marquette was the rendezvous of a host of pickpockets Wednesday, but that the light-fingered gentry succeeded in making any dips is yet to be reported. The crooks followed in the wake of the Buffalo Bill show, and that they did not operate here was due entirely to the good work of Marshal Manney and his officers. The fact that the pickpockets numbered about two scores seems almost incredible, but they were here in force and ready to duplicate the haul made at the Soo, where it is said a large number of persons, including two South Shore conductors residing here, were robbed.

On the late train arriving Tuesday night a couple of fellows alighted who aroused the suspicions of the marshal. He kept an eye on them and ascertained where they intended to lodge while in the city. Wednesday morning the officer was advised of the operations of the gang of crooks at the Soo and was furnished with a description of some of the men. The description of two of these seemed to correspond with that of the two strangers who had arrived here the night before, and the marshal decided to corral them. He found them ensconced on the rocks opposite the Summit, and after questioning them closely came to the conclusion they were the men of whom he had been warned. He then developed that the fellows were the leaders of a large gang, some of whom were already in the city and others were due in the afternoon. They were informed that they would be kept under strict surveillance, and that if in the meantime there were any reports of pickpocketing they would be held responsible and would have to suffer the consequences. The officer plainly gave them to understand that he meant business and advised them that the best thing they could do was to round up their associates and get out of town on the first train. This the men promised to do, and to all appearances they kept their word. At the 3:05 train for up the road one of the leaders appeared at the station with eighteen associates, and the other was there at 6 o'clock with another large batch. The word to all the crooks having been quickly passed with the police close at hand.

With so many "dips" in town it was thought yesterday that there might have been a few robberies before the gang was run out of town, but up to last evening the police had not been advised of a single case of the kind, the leaders making good their promise to the chief. One of the men announced to Mr. Manney that it was a fortunate thing for Marquette that at the time of the Macabee convention there were two Chicago detectives here. A big gang, he stated, was to be on the ground, but they were warned by wire by the first advance guard, who had been gathered in by the sleuths as they stepped from the train, that the officers were here and the crooks had best keep away.

Buffalo Bill has a Pinkerton man with him, but it is said he only sees that no robberies occur within the show canvas itself.

DRUMMERS WILL PLAY BALL. Game Saturday Between Marquette and Up-the-Road Teams.

There will be a hot time and all kinds of fun at the fair grounds Saturday afternoon. The attraction will be a ball game between "drummers." The challenge issued by the traveling men who make their headquarters at Ishpeming and Negaunee has been accepted by the local members of the United Commercial Travelers, a team has been organized and some little practice has been indulged in. The Marquette nine will line up as follows: Pitcher—Walter Beal. Catcher—C. A. Shelton. Shortstop—E. L. Kellau. First Base—John Jones. Second Base—Ed Enking. Third Base—James Buttrick. Left Field—Wm. Pohlmann. Center Field—C. A. Wheeler. Right Field—Will Mitchell.

There will be no admission charge and an invitation to the public generally is extended. Lester Clark has been selected as the official umpire and an ambulance and a corps of surgeons will, it is understood, be on hand.

MARINE MATTERS. Soo Canal Passages. Sault Ste. Marie, July 17.—(Special.) Up—Columbia, 8:20 last night; Berlin, Aurora, Steel King, Tyrone, 10; Lackawanna, 11; Hoffinger and Whiteback, 4:30 a. m.; Wallula, 8; Spry, Pontiac, Rappahannock, 9:20; Thomas Palmer, Wawatam, 9:40; Hutchinson, Shrigley, Shawnee, Meriden, Magiela, Hart, 10:30; Helen C, noon; Mack, Frank Peavey, 12:40 p. m.; Blanchard, Kelley, 1; Anderson, 2; Sam Jones, Neilson, Thomas and Whiteback, 4; Bradley Woolson, Brightie, 5:30; Mariska, 6:40; schooner, Dobbins, 7:20; Orinoco, Arizona, Scotia, Plymouth, Troy, 7:40; Yakima, 8.

Harbor Gossip. The propeller Nipigon has cleared for Ogdenstun, N. Y., with a cargo of 750, 000 feet of lumber.

The Canadian steamer India and consort, the Bina, arrived yesterday for cargoes of ore. Other vessels to tie up at the L. S. & I were the steamers Columbia, Pontiac and Wallula.

The steamer Continental and her consort, the schooner Grace Holland, brought in cargoes of coal for Pickands & Co. yesterday. The steamer is loaded with 1,950 tons and the barge with 1,200.

The City of Traverse is due today on her way down the lakes to Chicago; the Japan, bound for Buffalo, will be down Saturday; the Peerless, enroute for Chicago to Duluth, will be in Sunday, and on Monday the steamer China, from Buffalo, is due to arrive.

The steamer Sitka took out a cargo of ore from the South Shore docks yesterday, for Fairport. Her tow, the schooner E. A. Georger, which is bound for Toledo, was loaded at the L. S. & I. dock. The Bryon Whitaker was the only other boat to call yesterday, leaving for Ashtabula. She was loaded at Presque Isle.

various boats which are registered in their districts. The facts thus gathered will be registered in the government marine blue book. This is a new department by the Treasury department, and is regarded as an effort on the part of the officials at Washington to ascertain the true maritime strength of the country. When the statistics are complete, every sailor, and individual, in anyway connected with shipping on the lakes, rivers and seas, will be registered by the government.

KNIGHTS OF COLUMBUS. Class of About Seventy-Five Initiated here Yesterday.

The Marquette council of the Knights of Columbus, a Catholic organization which is having a phenomenal large growth throughout the country, was instituted yesterday afternoon at the A. O. U. W. hall by State Deputy George F. Monaghan of Detroit, assisted by a score of visitors from Detroit and a large number from other places. The new lodge starts off with about fifty members, and aside from these a delegation from the Soo and several other candidates from other points in the peninsula were taken into the order, the class embracing about seventy-five.

The ceremonies of initiation were started about 5 o'clock and it was nearly nine when adjournment was taken to Fraternity Hall. Here a banquet was served by the new-made Knights in honor of the visitors. About 150 gentlemen were seated about the tables, Frank C. Cooke of Detroit officiated as toastmaster, and while the Knights discussed a menu prepared and served by Land-lord Dan Sullivan of the Clifton the ideal orchestra furnished music. The list of fare was as follows:

- Cream of Chicken @lives
Planked Whitefish
Roast Young Turkey
Mashed Potatoes Creamed Peas
Chicken Salad Pineapple Glace
Assorted Cake
Cheese Crackers
Coffee

It was nearly midnight before the banquet came to an end, and then for an hour and a half the Knights sat about the tables to listen to the music. The speakers included the Rev. Fathers Buehholz of Munising, James Corcoran of Delta county, Noyes, Cullinane, and Sharpe of Pontiac; Hon. M. H. Moriarty of Crystal Falls, probably the district's next state senator; Hon. John Power of Escanaba and J. T. Lawler of Bay City. The program of toasts was:

- Mr. Frank C. Cooke, Toastmaster, Marquette; The Model Knight of Columbus
Rev. Jas. Corcoran
Our Holy Father, Leo XIII
Hon. John Power
Our Country
Rev. H. A. Buehholz
Our Future
Mr. J. T. Lawler
Song, "Holy City"
Rev. Fr. Nacey
Knights of Columbus
Mr. Geo. F. Monaghan
Unity
Rev. Fr. Cullinane
Some Pointers
Rev. Fr. Moriarty
Call for the Minute Men
America

FINE NEW BOAT. Anchor Line Building a Steamer Which Will Touch Here.

The Anchor line is building a new steel steamer, which will be known as the Tionesta, and which will enter commission between Duluth and Buffalo, touching at Marquette as a passenger and freight vessel early in the season of 1903. The hull of the steamer, which is being built at the Detroit ship yards, will be of steel to the promenade deck, divided into nine water-tight compartments by eight bulkheads. There will be a double bottom with a capacity for 900 tons of water ballast. She will have a cargo capacity of 3500 tons, with a coal bunker capacity of 350 tons. The engines are to be quadruple-expansion, of 2,500 horse power, four cylindrical boilers, using the Howden hot-draught system. The windlass, capstans and steering will be worked by steam. The dimensions of the ship are as follows: Length on keel 340 feet, length over all 360 feet, beam 45 feet, depth 28 feet.

The passenger accommodations will be located above the freight deck and forward of the machinery. The passenger entrance will be on the main deck amidship, where a space twenty feet in length, the entire width of the steamer, arranged as a lobby, with ample baggage rooms, with a wide stairway leading to the berth deck, will be located. The berth deck will have four lines of staterooms, which, with the center hall, will occupy the full width of the steamer, and will extend from the smokestack to the forward bulkhead. All of the smokestack will be quarters for the officers and crew. No passenger rooms will be located over the machinery. Each room will be provided with two berths, a cushioned sofa, porcelain lavatory, supplied with water under pressure, electric lamps and bells. On the promenade deck will be the music room, library, dining saloon, galley and mess-room. The dining saloon will be located in the center of the ship, and will have seating accommodation for 136 passengers. On the promenade deck will be located eight parlor rooms, each with private bath. The smoking room will be aft on that deck. The fittings and furnishings of the boat will be strictly up to date.

It is intended that the Tionesta will be run for the season of 1903 on a ten-day schedule, making the same ports of call as the present service.

NO FALSE CLAIMS. The proprietors of Foley's Honey and Tar do not advertise this as a "sure cure for consumption." They do not claim it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fails to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes. People's Drug Store.

WHILE JOHNNY SLEEPS

WHEN he was a tender lad his father opened for him a Savings Account. His first deposit was one dollar, but other deposits regularly followed. Johnny is now older. He is the proud owner of a handsome bank account. The account is growing as he grows and earning interest while he sleeps. There are other boys and other parents who might profit from the above.
