PROMPT SHIPMENT MADE.

F. B. Spear & Sons.

Lincoln, Neb., July 18.—The bottom lands of this city are flooded and a number of houses washed out and the occupants are moving out. Rain from one to five inches fell in eastern and central Nebraska.

Peoria, Ill., July 18.—The Illinois river is rising at an alarming rate and farmers along the lowlands anticipate damaging floods. Last night the city was visited by a heavy electrical storm, the worst ever known. George Weaver's residence was struck by lightning and destroyed.

Burlington, Ia., July 18.—A report is received of the breaking of the Yellow Springs dam, north of here. Fifteen hundred acres are submerged. The water is the highest in years. At Columbus, Junction, the rains sent the Iowa and Cedar rivers up again, ruining the oats being harvested and hundreds of acres of corn.

Hannibal, Mo., July 18.—Flood conditions between here and Quincy are alarming. Ten thousand acres of wheat and corn on Bay Island are entirely submerged. It is estimated the damage will reach half a million dollars. Heavy rains are reported at Dubuque and Davenport tonight and this is likely to increase the rise of the river.

St. Louis, July 18.—Only once since the flood of 1892 has the Mississippi river been so high as at present. On the Illinois shore between St. Louis and Alton many farms are under water. At the mouth of the Missouri the overflow covers an area of ten miles.

Fixes Date for Coronation.

King Edward Commands That Ceremony Be Held Aug. 9.

London, July 18.—Official notification was issued this morning that by the king's command the coronation of the king and queen will take place Aug. 9.

Whites Killed by Negro Miners

Knoxville, Tenn., July 18.—Superintendent Bradshaw of the Coal & Land company and another white man are reported killed in a fight with negro miners. Two negroes were fatally hurt and a number of others injured.

FLOODS THREATEN

MISSOURI FARMERS FACE DISASTER FROM RAINS.

RIVERS ARE RAPIDLY RISING

LEVEES ARE OVERFLOWED AND MANY CROPS RUINED.

There is No Hope That Advancing Waters Will Subside and Hundreds of Square Miles Will Be Flooded.

Keokuk, Ia., July 18.—Heavy rains in central Iowa yesterday and today are sending a flood upon Missouri farmers which will ruin many of them and cause losses aggregating at a conservative estimate \$2,000,000. The scene is no longer tonight for the country between the Mississippi river and the Missouri bluffs between Keokuk and Hannibal. Three hundred square miles, mostly of corn, are laid low with some thousands of acres of wheat in shock. The water had touched the danger line the first of the week and had begun to recede when the heavy floods started again in the Des Moines, Skunk and Iowa rivers, causing another rise which sent the water over the levees. An increased rise in the Missouri was prevented from running out freely by a rise of a foot and a half at Davenport last night, increasing and coming down rapidly. The crest of the rise is expected here Saturday.

Loss to Crops \$4,000,000.

The Egyptian levee which stood the flood just receding after strenuous efforts to hold it, including the destruction of houses to secure lumber for strengthening the dike, is only slightly above the water now and the coming flood in the Des Moines will top it certainly. This will cause the flooding of hundreds of square miles. The inhabitants of Alexandria expect the town to be flooded to a depth of several feet. The crops are in such a condition that they may be entirely destroyed and the year's work will be a total loss. The grain men say the estimate of value is too low and put the loss nearer \$4,000,000 between Keokuk and Hannibal. It is believed the Illinois levees will hold, and the damage there is not likely to exceed \$200,000 to \$300,000 between Keokuk and Quincy. Heavy rains are reported in southeastern Iowa today and tonight indicates still higher water. The Iowa farmers, the river men and weather bureau alike predict the greatest damage ever known from floods on the upper river.

Rains Continue Steadily.

Reports tonight show tremendous rains along the Des Moines river and tributaries. Six inches fell at Corydon and nearly that much at Ottumwa. There are heavy rains all over the section tonight with two inches as the general minimum, many reporting five. Late reports show that half the country between LaGrange and Hannibal is under water long before the crest of the flood arrives.

Denver, July 18.—An unusually heavy wind and rain swept this vicinity this afternoon, W. R. Swallow, a prominent merchant and postmaster of Komo, Colo., was killed there by lightning today.

Lincoln, Neb., July 18.—The bottom lands of this city are flooded and a number of houses washed out and the occupants are moving out. Rain from one to five inches fell in eastern and central Nebraska.

Peoria, Ill., July 18.—The Illinois river is rising at an alarming rate and farmers along the lowlands anticipate damaging floods. Last night the city was visited by a heavy electrical storm, the worst ever known. George Weaver's residence was struck by lightning and destroyed.

Burlington, Ia., July 18.—A report is received of the breaking of the Yellow Springs dam, north of here. Fifteen hundred acres are submerged. The water is the highest in years. At Columbus, Junction, the rains sent the Iowa and Cedar rivers up again, ruining the oats being harvested and hundreds of acres of corn.

Hannibal, Mo., July 18.—Flood conditions between here and Quincy are alarming. Ten thousand acres of wheat and corn on Bay Island are entirely submerged. It is estimated the damage will reach half a million dollars. Heavy rains are reported at Dubuque and Davenport tonight and this is likely to increase the rise of the river.

EARTHQUAKE IN NEW YORK.

Town of Malone Shook Up Early Yesterday Morning.

Malone, N. Y., July 18.—A distinct earthquake shock was felt here this morning at 5:25, lasting ten seconds. Many persons were awakened by the rumbling and the rattling of windows.

NO BULLETINS FOR AWHILE.

King Edward Has So Far Recovered That Daily Reports Will Stop.

Coves, July 18.—The following bulletin was issued this morning: "The king continues to make satisfactory progress. He is benefitting in every way from the change. He sleeps well and is able to have his couch placed upon deck the greater part of the day. The next bulletin will be issued July 21st."

WILL RETAIN PORTFOLIOS.

Chamberlain and Four Others to Continue in Cabinet.

London, July 18.—The Duke of Devonshire, president of the council; the Marquis of Lansdown, secretary of foreign affairs; Joseph Chamberlain, colonial secretary; Earl Selborne, first lord of the admiralty and the Marquis of Londonderry, postmaster general are understood to have consented to retain their present portfolios in the new cabinet. The others are likely to be changed.

LIES BETWEEN TWO

EITHER BYERS OR JAMES WILL GET GOLF HONORS.

PLAY FOR CHAMPIONSHIP TODAY

PITTSBURG MAN IS REGARDED AS FAVORITE.

Contests Yesterday Held Under Disheartening Conditions Due to Floods

But Good Scores Were Made.

Chicago, July 18.—Either E. B. Byers of the Allegheny club of Pittsburgh, or Louis James, of Glenview, Chicago, will receive the amateur golf championship laurels tomorrow night. They won their way through the semi-finals today (Byers rather easily, James after a heart disease producing game) and tomorrow will meet in the finals at thirty-six holes for the championship. If Byers and James play in the form they showed today the game will not be decided until the home green is reached though Byers on account of the marvelous golf he played yesterday when he put the Champion Travis out of the running is perhaps slightly the favorite.

Course Is Flooded.

The game will be played over the first nine holes of the Glenview course unless the players shall elect to use rowboats. The low lying lands embracing the fair greens to the tenth, eleventh, thirteenth and seventeenth greens and the greens of the latter two are covered with from two to ten inches of water as the result of last night's terrific storm while even the higher ground of the first nine holes is covered in places while the whole course is soft and treacherous. Nevertheless the United States Golf association officials say the championship contest must be finished. A steady, drizzling rain is falling tonight and the prospects are tomorrow's game will be played under conditions more suited to yachting than for championship golf.

Golf Under Trying Conditions.

The element of luck entered largely into today's games although it did not affect the ultimate results. Topped brassies that went into buckets and then jumped out again, stymies and the use of lifting irons twenty feet from holes and balls covered with mud were the features of the day's play that tried the nerves of the contestants to the utmost. Dr. Fredericks in his match with Byers had three stymies laid against him one of which he cleverly jumped and holed down. Young Reinhardt who almost invariably gets off low drives and brasses sent three of them into the bunkers. Had they stayed in the hole they would probably have been lost in every instance but each time the ball jumped out into a good lie.

Twice, however, he topped the iron shots into the duckpond, the last time with fatal results as it proved the deciding hole of the game. Against this was golf under adverse conditions that was beautiful. Reinhardt's iron shots as a rule were perfect while James and Byers especially excelled in this and he practically won in the afternoon by twice putting the gutter percha in a coup from distances of about twenty feet. Should the weather be good tomorrow it is probable that the largest gallery ever to witness championship golf will witness the play.

SHOT BECAUSE LOVE HAD WANED

Ex-Convict Kills Wife Who Had Grown Cold Toward Him.

Chicago, July 18.—Because his wife gave evidence that her love for him had waned while he spent seventeen months in state prison at Chester, Ill., William Nelson shot her dead early today. He then turned the revolver on himself in an ineffectual attempt to take his own life. He returned from prison only two weeks ago.

KILLED HUSBAND BY MISTAKE.

Wife Takes Spouse and Brother-in-Law for Burglars and Shoots Them.

Murphysboro, Ill., July 18.—Mrs. Geo. Joubert shot and killed her husband and a brother-in-law, Moses Joubert, whom she mistook for a burglar.

DARING SWINDLER ARRESTED.

George C. Carey Taken in Custody for Fraudulent Use of Mails.

New York, July 18.—By the arrest of George C. Carey in Paterson, N. Y., the postal authorities believe they have closed the career of an alleged daring swindler whose operations are alleged to extend from this country to England and France and who has stolen not less than \$500,000. Carey was arrested on the charge of using the mails for fraudulent purposes.

BAD WRECK NEAR PEMBINE.

Three Trainmen Killed in Collision on Soo Line.

Rhineland, Wis., July 18.—In a head-on collision near Pembine, on the Minneapolis, St. Paul & Sault Ste. Marie road, this afternoon, Charles Johnson and William Raymond, engineers, and J. A. Anderson, a fireman, were killed, and Frank Thorpe, a brakeman, seriously injured. Sixty cars heavily loaded went into a ditch and catching fire were consumed.

SECRETARY ROOT'S LAST LETTER PLEASES HOLY SEE.

SOLUTION OF QUESTION IN SIGHT

CHURCH WILL AID IN PACIFICATION OF ISLANDS.

Taft Is Complimented by Cardinal Rampolla on Skillful Manner in Which He Has Conducted the Negotiations.

Rome, July 18.—Governor Taft has received a letter from Rampolla, the papal secretary of state expressing the greatest satisfaction with Secretary Root's last letter and the views of the United States regarding the steps to be taken by the vatican to ameliorate the religious situation in the archipelago and to co-operate in the pacification of the people under American sovereignty. Rampolla also says the representatives of the vatican in the archipelago will at once enter into relations with the authorities in Philippines on the four points indicated by Root at the end of his cablegram. He expresses confidence in a happy solution of the pending questions "inaugurating for that noble country a new era of peace and true progress."

Taft Is Complimented.

In conclusion Rampolla says: "It is my agreeable duty in ending this letter to be able to render homage to the very great courtesy and high capacity with which you have filled the delicate mission which the government and president of the United States confided to you. Willingly I add that the favorable result of the negotiations must be attributed in a very large part to your high personal qualities." Taft was informed tonight that the pope had fixed July 21 for a farewell audience.

Pope Displeased With Cardinals.

London, July 18.—The Rome correspondent of the Chronicle says the pope is intensely displeased at the way the commission of cardinals conducted negotiations with Taft in the matter of the friars' lands. "I learn from an authoritative source," says the correspondent "that besides annulling the procedure of the commission of cardinals the pope has summarily dissolved it expressing his view that the American demands were reasonable and signifying a readiness to treat with Taft personally."

FOUR RAILROADS IN CHICAGO HAVE NOT REINSTATED OLD MEN AND FREIGHT HANDLERS MAY WALK OUT AS RESULT.

Chicago, July 18.—Another strike of the freight handlers may be called Sunday night. President Curran has issued a call for a mass meeting to take action on the refusal of four of the railroads to reinstate the old men. Curran says the agreement was that all the strikers should be taken back but the Santa Fe, Panhandle, Northwestern and Illinois Central have not done so and that unless they shall do so Sunday night another walkout will be ordered.

MUDDY TRACK AT DETROIT.

Detroit, July 18.—The grand circuit courts were postponed today on account of muddy track.

MITCHELL RULES

HIS ADVICE LIKELY TO BE ADOPTED BY MINERS' CONVENTION.

ASSESSMENT PLAN IS FAVORED

IS THE BEST WAY OF AIDING ANTHRACITE MEN.

Special Committee of Officials and Delegates Considering Recommendations of the Leader of the Strikers.

Indianapolis, July 18.—At the conclusion of a secret session which lasted the entire afternoon the recommendations of President Mitchell for the management of the anthracite strike were referred to a special committee which is to report back to the convention tomorrow morning. This committee consists of President Mitchell, Vice President Lewis, Secretary Wilson and the president of each district represented in the convention. There is little doubt but that the committee will urge the adoption of the recommendations and fixing the rate of assessment at 10 per cent or higher.

Mitchell Addresses Convention.

At the opening of the executive session Vice President Lewis delivered an energetic speech on the amendment offered by Delegate Haskins that the fund to be raised be extended to all the striking miners where their strike has been sanctioned by the general organization. Lewis favored the motion and at the same time warned the convention to so frame the recommendation as to avoid the Pennsylvania laws. President Mitchell took the floor to speak for the adoption of the recommendations made in his speech yesterday. He told the convention that the strikes in West Virginia and elsewhere were being protected by the general organization under regular assessments of the union but that the assessment which was under discussion was necessary for the support of the anthracite strike alone and should not be diverted from its purpose. "It is possible other strikes may come" he said "and then under the precedent which the general distribution of the fund to be raised would create these latter strikes could claim their share in the fund and it would be so depleted as to fail entirely in its purpose.

DAILY MINING JOURNAL.

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Subscriptions: Per month, by carrier, \$3.50; Per year, by mail, \$36.00.

MARQUETTE, MICH., JULY 19.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

A FORTUNATE RESULT.

One fortunate result of Mr. Young's nomination for congress is the complete harmonizing of Marquette county Republicans. In the past, this county has been a good deal of a storm center.

But this condition is now changed. Marquette county Republicans were all behind Mr. Young and they accorded him a magnificent support.

But single delegations do not land congressional nominations, and Mr. Young would not be "our next congressman" were it not for aggressive fighting by himself and friends in the other counties of the district.

It is not too much to say that Mr. Young owes his nomination to the steadfast support and intelligent work of his friends throughout the whole county of Marquette.

It is not too much to say that Mr. Young owes his nomination to the steadfast support and intelligent work of his friends throughout the whole county of Marquette.

It is not too much to say that Mr. Young owes his nomination to the steadfast support and intelligent work of his friends throughout the whole county of Marquette.

AFRICAN DEVELOPMENT.

The state department has just made public an interesting report on railroad development in Africa, from United States consul Ravndal at Beirut.

It says that by an agreement signed at Brussels in April by Robert Williams, with the king of the Belgians, the German route was abandoned and the railway from Cairo to the Cape is to be carried through the Congo Free State to the upper waters of the Nile.

Consul Ravndal points out that the railway project does not necessarily replace the original line through German territory, as planned by Mr. Rhodes and the German government.

He says that all maps of Africa more than six months old are obsolete, because history is being made so rapidly and is changing the face of the country so materially.

He notes that the United States is not playing an important part in opening up Africa to the influences of trade and civilization, saying that "Stanley's momentous work in the seventies has not been followed up by his quondam countrymen."

years the civilized world may be astonished by the consummation of the cherished dream of the late Cecil Rhodes, the stretching of a consecutive line of steel rails from Cape Town to Cairo.

MITCHELL IS CONSISTENT.

In an article written for the Independent about a year ago President Mitchell, of the National coal miners' organization, said:

The constitution and laws of nearly every labor organization make it an offense punishable by expulsion for any member to violate a trade agreement or even by subterfuge to evade any of its provisions. The officers of the trade organizations of the present day recognize the great responsibility resting upon them and they are few indeed who dare, even if they were so inclined, ruthlessly disregard the sacred obligations of a contract.

From all accounts, Buffalo Bill is not doing as large a business on the upper peninsula as people anticipated. The general admission price of \$1 has curtailed attendance, as the northern Michigan public objects to having the usual schedule doubled, even if they are way off the earth.

HOW THEY TAKE IT.

Hail to the victor. H. O. Young, of Ishpeming, is the Republican nominee for congress in the Twelfth district. He is therefore the News-Record's candidate and will have no cause to complain of the support he will receive from this newspaper from now until the polls close next November.

The Republicans of the twelfth district finally succeeded in nominating H. Olin Young for congress at the convention in Marquette. Mr. Young is a good Republican and is the choice of the great majority of the Michigan Republicans.

The congressional contest is now over and Mr. H. O. Young of Ishpeming has received the nomination. He emerges from one of the fiercest political fights known in the history of the upper peninsula, the undeniable choice of the people of this district.

Now that the smoke of battle has cleared away, and the returns are in, it is time to forget pre-convention predictions and "get together."

Tracy has made another of his marvelous escapes. It seems incomprehensible, here in the comparative east, that a criminal who has been so assiduously followed by hundreds of men should evade capture for such a long time.

The Iron Trade Review says: During the week there has been more than the usual number of inquiries concerning ore for this time of the year and this fact is regarded as a sign that there will be as fair a fall business this year as there was last. There is a congestion of

Rheumatism

What is the use of telling the rheumatic that he feels as if his joints were being dislocated?

He knows that his sufferings are very much like the tortures of the rack.

He knows that his sufferings are very much like the tortures of the rack. What he wants to know is what will permanently cure his disease.

vessels at both upper and lower lake harbors which has existed since July 4 and which recalls the congestion of last summer. This is due in part to the inactivity of July 4, 5, and 6, which were practically three days of rest and celebrating, and in part to inability of railroads to handle the ore, necessitating the use of vessels as places of temporary storage.

The latest addition to Father Marquette literature is an interesting and valuable biography by Reuben Gold Thwaites, secretary and superintendent of the State Historical society of Wisconsin and editor of "The Jesuit Relations and Allied Documents." There are other biographies of Marquette, but they are brief, and much has been learned about the Jesuit missions since they were written. Mr. Thwaites had at his command the latest and best information upon the subject; hence the present volume has a distinct value of its own.

From all accounts, Buffalo Bill is not doing as large a business on the upper peninsula as people anticipated. The general admission price of \$1 has curtailed attendance, as the northern Michigan public objects to having the usual schedule doubled, even if they are way off the earth.

Farming in lower Michigan, at least in some localities, is profitable enough. A Berrien county man sold his entire crop of peaches, pears, apples and plums, while the trees were yet in blossom, at an estimated price of \$30,000.

HOW THEY TAKE IT.

Hail to the victor. H. O. Young, of Ishpeming, is the Republican nominee for congress in the Twelfth district. He is therefore the News-Record's candidate and will have no cause to complain of the support he will receive from this newspaper from now until the polls close next November.

SICK MADE WELL WEAK MADE STRONG.

Marvelous Elixir of Life Discovered by Famous Doctor-Scientist That Cures Every Known Ailment.

Wonderful Cures Are Effected That Seem Like Miracles Performed—The Secret of Long Life of Olden Times Revived.

The Remedy is Free to All Who Send Name and Address.

After years of patient study, and delving into the dusty records of the past, as well as following modern experiments in the realms of medical science, Dr. James W. Kidd, 2535 Baltes building, Fort Wayne, Ind., makes the startling announcement that

DR. JAMES WILLIAM KIDD.

he has surely discovered the elixir of life. That he is able with the aid of a mysterious compound, known only to himself, produced as a result of the years he has spent in searching for this precious life-giving boon, to cure any and every disease that is known to the human body. There is no doubt of the doctor's earnestness in making his claim and the remarkable cures that he is daily effecting seem to bear him out very strongly. His theory which he advances is one of reason and based on sound experience in a medical practice of many years. It costs nothing to try his remarkable "Elixir of Life," as he calls it, for he sends it free, to anyone who is a sufferer, in sufficient quantities to convince of its ability to cure, so there is absolutely no risk to run. Some of the cures cited are very remarkable, and but for reliable witnesses would hardly be credited. The lame have thrown away crutches and walked about after two or three trials of the remedy. The sick, given up by home doctors, have been restored to their families and friends in perfect health. Rheumatism, neuralgia, stomach, heart, liver, kidney, blood and skin diseases and bladder troubles disappear as by magic. Headaches, backaches, nervousness, fevers, consumption, coughs, colds, asthma, catarrh, bronchitis and all affections of the throat, lungs or any vital organs are easily overcome in a space of time that is simply marvelous.

Partial paralysis, locomotor ataxia, dropsy, gout, serotula and piles are quickly and permanently cured. It purifies the entire system, blood and tissues, restores normal nerve power, circulation and a state of perfect health is produced at once. To the doctor all systems are alike and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State what you want to be cured of and the sure remedy for it will be sent you free by return mail.

of experience and possesses the qualifications of a creditable representative.—Hancock Evening Journal.

In nominating H. O. Young of Ishpeming as its candidate for congress, the Republican party of this district has acted wisely. Mr. Young went into the convention with as many delegates, lacking one, as Sheldon and Wright had together. It was apparent that he was the choice of a majority of the Republicans of the district, and to have accomplished his defeat under such circumstances would have been an act of great indiscretion. Mr. Young is a very able man—one who will bring credit upon the great district he will represent at Washington. The Republicans of the upper peninsula are to be congratulated on having such a candidate.—Escanaba Journal.

This name must appear on every box of the genuine Laxative Bromo-Quinine Tablets, the remedy that cures a cold in one day. 25 cts.

MOTHER ALWAYS KEEPS IT HANDY

"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of seventy-six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. Harwood, Ishpeming; Stafford Drug Co.

Nasal CATARRH

In all its stages there should be cleanliness. Ely's Cream Balm cleanses, soothes and heals nasal membrane. It cures catarrh and drives away a cold in the head quickly. Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents; at Drug stores or by mail, Trial Size, 10 cents by mail. ELY BROTHERS, 66 Warren Street, New York

GOOD FEATURES FOR TODAY.

Parade, Band Contest and Other Doings in Sons of St. George Celebration.

The features of the Sons of St. George celebration at Hancock today will be an immense parade at 10:30 o'clock, dinner and speeches at the Hancock grove, a band contest, hammer and drill contests, a tug of war and other athletic sports. Wrestling matches will also be pulled off in the Hancock ice rink and will be continued after supper. The most prominent wrestlers of Cornish style in the upper peninsula will participate. A thousand men are expected in line for the parade this morning. All members of the order are requested to assemble at the Quincy location hall for this event. The line of march will be through the principal streets of Hancock with the exception of Quincy street which is torn up for the paving work, after which all will proceed to the grove where dinner will be served and the program of the day carried out. Mistletoe lodge of Hancock and members of the grand lodge will meet visitors at the trains this morning. At the session of the grand lodge Thursday one of the most important questions that arose was that of employing a state organizer at a good salary. It was discussed at some length and will be decided upon before the close of the convention today. The present officers of the grand lodge are as follows: John Stockert, Houghton, worthy grand president; Robert Warwick, Ironwood, worthy grand vice president; Jabez Treblecock, National mine, Marquette county, worthy secretary; George Pryn, Quincy, worthy treasurer. Worthy Grand President John Stockert has selected the following appointive officers: Joseph Benny, Ishpeming, inside sentinel; William Goudge, Quincy, outside sentinel; Nathaniel White, Calumet, messenger; Henry Wills, Quincy, assistant messenger; John Nankervis, Calumet, assistant secretary. The officers nominated for the election to be held next spring are as follows: Robert Warwick, president; Nathaniel White, vice president; Jabez Treblecock and John T. Rowe, Calumet, secretary, and George Pryn, treasurer.

MINING CONGRESS DELEGATES. Governor Bliss Appoints Copper Country Men to Meeting at Butte.

Governor Bliss has appointed the following delegates to attend the international mining congress to be held at Butte, Mont., Sept. 1 to 5: C. M. Boss, Bessemer; Walter Fitch, Bessemer; J. D. Cuddihy, Joseph Hall, Calumet; Z. W. Wright, R. R. Goodell, A. F. Rees, A. R. Gray, Houghton; C. A. Wright, Hancock; J. B. Cooper, South Lake Linden; Tom A. Hanna, Iron Mountain; Dr. Geo. W. Orr, Lake Linden; E. M. Randall, F. C. Benham, Saginaw; E. B. Cross, Bay City; Charles L. L. Hibbard, Houghton; Charles Chynoweth, Calumet; Robert L. Edwards, F. J. Bawden, Houghton; W. A. Bateman, W. H. Hosking, Calumet; John E. Jones, Lake Linden; M. R. Goldsworthy, Hancock; Charles Smith, South Lake Linden; F. M. Stant, Atlantic Mine; James Cox, James MacNaughton, John Duncan, Calumet; R. H. Shields, Hancock; W. E. Parnall, Calumet.

IRON MOUNTAIN SELECTED.

Iron Mountain has been selected by the grand lodge of the Sons of St. George of the state, now in session at Hancock, as the place to hold the next convention. The claims of the Menominee range city for the honor were the strongest, besides the delegation presented promised that the visitors would be well taken care of and treated royally. The Iron Mountain delegation is one of the largest and most enthusiastic in attendance at the present convention. They will have the crack Sixth regiment band, thirty-six pieces, of Marquette, at Hancock tomorrow. The band will enter the contest at the grove in the afternoon.

THEATRE NEARING COMPLETION.

Work on the new Kerredge theatre at Hancock is rapidly going ahead. The roof of the structure is on and the laying of the brick for the veneering will commence next week. The interior is lathed and ready for the plaster. The stage of the theatre will be one of the finest north of Chicago. The scenery will be handled from above, affording more room in the rear of the stage proper. Five trap doors will be put in on the floor of the stage. The house will be opened in September by Louis James and Frederick Warde in a Shakespearean production, "The Tempest."

GRADING WORK FINISHED.

The work of grading Quincy street at Hancock in preparation for paving has been finished and the street foreman, an employee of the Barber Asphalt company, the firm which has the paving contract, has left for Minneapolis, the company's headquarters in the Northwest. The next work to be done is that of the concrete curbing and gutters. C. J. Seymour of Flint has that contract. The asphalt crew will start to pave the street about the middle of August.

EXCURSION TUESDAY NIGHT.

The excursion to be given to the canal Tuesday night by the steamer Argo of the Booth line promises to be the most delightful of its kind so far this season. The boat will leave the Portage Lake towns early in the evening so that a longer time on water may be had. At the canal a large amount of fireworks will be shot off, four or five displays among the lot. The round trip will cost but twenty-five cents each.

A CASE OF SMALL-POX.

Mrs. Peter McDonald of Lake Linden, who has been ill several days, was found by Dr. Orr Thursday evening to be suffering from a mild attack of small pox. The husband and four children have been exposed but precautions have been taken to prevent the spread of the disease to them. The house has been quarantined and a watchman stationed there.

IF A MAN LIE TO YOU,

And say some other salve, ointment, lotion, oil or alleged healer is as good as Ducken's Arnica Salve, tell him thirty cents of marvelous cures of Piles, Burns, Boils, Corns, Felons, Ulcers, Cuts, Scalds, Bruises and Skin Eruptions. It's the best and cheapest. 25c at Stafford's drug store.

BODY IS RECOVERED.

Remains of Ewing Jones Found by Means of Grappling Hooks.

The body of Ewing L. Jones, the Michigan College of Mines student, who was drowned by the overturning of a canoe in Portage Lake Thursday morning, was found under a boom of logs about 100 yards out from the Isle Royale dock at 9 o'clock yesterday morning. President McNair and Sheriff Wills, aided by a large number of students, located the body by means of grappling hooks. It was found with arms upstretched as if Jones had attempted to grasp a log in his final struggle. The remains were taken to the Krellwitz morgue at Houghton, where Coroner Brand impaled a jury comprised of the following gentlemen: John Swick, Charles Kennerly, Wick O'Connell, Elmer Campbell, Joseph McMan and Ed Hiller. The inquest was adjourned to July 24 at 10 o'clock in the morning. Ewing Jones was the only son of Dr. and Mrs. Jones of Los Angeles, Cal. A brother-in-law of the deceased arrived at Hancock yesterday to take charge of the remains, which will be shipped to Los Angeles for interment. President McNair said yesterday that the young man was an excellent swimmer, but he was inclined to think that Jones became entangled in the canoe when it tipped.

BUFFALO BILL DID WELL.

Thousands of Copper Country People Visited His Great Wild West.

Buffalo Bill with his Wild West and Congress of Rough Riders visited Hancock yesterday and the young and old alike were immensely pleased with the exhibition in every respect, just as the people of other places have been and are bound to be. It was truly Buffalo Bill day at Portage Lake for apparently little business was done by the merchants in either town. The people were out en masse to see the parade, eagerly waiting for it along the route, in the morning and the performance in the afternoon. Many visitors from all parts of the county came to Hancock to see the show, which is novel and more interesting than a circus and presenting rare attractions such as most people have read about but have never seen. The regular and special trains over the Mineral Range and Copper Range roads from all parts of the district brought in hundreds of visitors. Even though Bill goes to Calumet today, where the same scenes will be enacted, a large number of Calumet people attended the performances at Hancock yesterday on account of pay day at the Calumet mines tomorrow. Each afternoon and evening, an exhibition was attended by a record breaking crowd which manifested its enthusiasm at all times. The show was all that it was said it would be and an elaborate description will not be given here, as the write-up in the Marquette department of Thursday covered the exhibition in full.

Of the parade in the morning the same may be said. The parade was seen in both Hancock and Houghton by hundreds. It has many features of peculiar interest to the American. The Indians, scouts, cowboys, and soldiers present a glimpse of history, past and present. It suggests at once the practical value of the exhibition which Buffalo Bill presents, an aspect which has been held faithfully before the public as one of the greatest merits of the show.

THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT.

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidney troubles, and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery free, and the extra and a book that tells more about it, both sent absolutely free by mail.

Address Dr. Kilmer & Co., Home of Swamp-Root, Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

AT THE MICHIGAN. New Openings Prove Mine Has Rich Future Before It.

As the development work continues and new openings penetrate virgin ground in the Michigan mine, the fact becomes more evident every day that the property has a great future and a profitable one. In this day of "big things" a property that is quite extensively opened up with shafts and drifts, and the quality of the mineral formation tested over a considerable area, before the actual value of a mineral belt can be determined for profitable mining—and that is just exactly what is being done at the Michigan. Recent developments disclose a condition as regards mineralized formations, eminently satisfactory to the management, and to all in actual touch with the work. In years gone by the old Minnesota was renowned for its mineral wealth, but great bunches of ground have been recently discovered that will out-class anything ever mined in the old days of mass copper mining.

While the newly discovered ground is rich in mass and barrel work it also contains a liberal percentage of stamp copper. It is the ground filled in with various grades of mineral that gives the most profitable for mining. Nor has the extensiveness of those valuable bunches of new ground been yet ascertained, as their limits have not been reached by the longest drifts running into them. The breasts of the new openings reveal an excellent quality of lode, strong and robust in character and rich in mineral, and with every promise of continuing along in the same class of ground to an indefinite extent. However, enough has been opened up and developed to prove beyond a doubt that Michigan is all right. The people behind the mine are anxious to know a mine when they see it, and how to develop it for the best interests of the stockholders, and the future of the property—and that is what is going on there. It is Stanton's way, and the way that is becoming recognized as right by all Lakeites.—Native Copper Times, Lake Linden.

THREE NEW STAMP MILLS.

Wolverine, Trimumtain and Adventure to Start Next Month.

The remaining months of the current year will go a long way toward establishing the producing capacity of the Wolverine mine district. The output has increased to such an unparalleled extent during the past few years, says S. J. Beahan in the Hancock Evening Journal. The new mines in this district were started at a time when the copper market was threatened with a famine, and prices advanced as many supposed, never to recede. Few of the mines shared the benefit of seventeen cents, and now when all of them are about ready to furnish their quota of production it is difficult to see where the situation is very much better than before the boom of six years ago.

The Wolverine mine district, however, has more than the usual amount of history crowded into it, chronicling, as it will, the starting of three new stamp mills. The record has yet to be achieved in the district and will never be duplicated. These events mark the starting of a further chapter in the history of the Wolverine mine, a comparatively new mine but its worth is clearly demonstrated. Of greater importance will be the starting a month hence of the Trimumtain mine, which, during the past six months, has made a record far better than was anticipated by its most ardent adherents, and one that has demonstrated beyond a shadow of a doubt that the South Range contains the bulk of the future copper supply from the Michigan district. The Trimumtain lode is nearly three times as wide as the Calumet conglomerate, and the output of the mine during the past months milling show it to be nearly if not fully as rich. Trimumtain product will start from grass-roots, and the opinion of some eastern parties deeply interested in the mine that its copper will be secured at not to exceed seven cents per pound is not without foundation. The mill will start with two heads, and the third and fourth are expected to go into commission early next year. The Trimumtain promises to demonstrate a real value beyond its current selling price within a year. The mill results at the Wolverine mine will be the first of its kind in the first Ontonagon county property that has been thoroughly opened and equipped.

RESIGNS LAURIUM PASTORATE.

Dr. J. E. Stirling, pastor of the Baptist church at Laurium, has resigned to accept a call tendered him by the Fourteenth street Baptist church society of Detroit. He will leave for his new charge about Sept. 1. Dr. Stirling's resignation was accepted with much regret as his work in Laurium has been productive of much good.

CATARH CANNOT BE CURED.

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a reliable prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. CHESEBURY & CO., Props., Toledo, O. Sold by druggists, price 75c.

Hall's Family Pills are the best.

USE ALLEN'S FOOT-EASE.

A powder to be shaken into the shoes. Your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. It cools the feet, and makes walking easy. Cures swollen, sweating feet, ingrowing nails, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it today. Sold by all druggists and shoe stores for 25c. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

POISONING THE SYSTEM.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dullness and melancholia at first, then unsightly eruptions, and finally serious illness. A remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress.

PREPARED BY E. C. DEWITT & CO., CHICAGO. Stafford Drug Co., Houghton, Mich.

RHEUMATISM CURED.

A Case in Detroit Affords Proof Near at Hand.

"I was cured of rheumatism by Dr. Williams' Pink Pills for Pale People," says Mrs. William MacLain, of No. 244 Field Avenue, Detroit, Mich. "For more than a year I could scarcely walk. Every change in the weather affected me and on damp days it was agony to even attempt to move. The rheumatism brought on other troubles. I grew nervous and irritable, my weight was greatly reduced. I had a severe pain in the region of my heart and I despaired of ever getting well. Dr. Williams' Pink Pills for Pale People and determined at last to try them. My case was stubborn, but a faithful course with the pills soon brought about a change for the better. I continued with them till I was cured. There is no trace of the rheumatism in my system now and I am a perfectly well woman, thanks to Dr. Williams' Pink Pills for Pale People."

These wonderful vegetable pills will not only cure rheumatism, but are a positive specific for all diseases arising from impoverished blood or shattered nerves. They are sold by all dealers or will be sent postpaid on receipt of price, fifty cents a box or six boxes for two dollars and fifty cents, by addressing Dr. Williams Medicine Company, Schenectady, N. Y.

PRODUCTION COST IS LOW.

Calumet & Hecla Copper Mined at Seven Cents Giving Big Profit.

At the current rate of production it is estimated that the conglomerate lode on Calumet & Hecla will be exhausted within twenty-five years. The company is mining a greater amount of rock than at any time in its wonderful career, and it is the opinion that the output for the current year will break all records, notwithstanding the fact that the copper contents in the rock is not as rich as in years gone by. The working force of the company does not exceed 5,000 men and the economies created by the new management are said to be effecting a saving equal to ten dollars per share per annum. The cost of producing Calumet & Hecla copper, today, does not exceed seven cents per pound from which it would appear that its output is being disposed of at a profit of about five cents per pound. Calumet & Hecla has no construction account, so that the cost of making its copper represents a multiplicity of expenses. With the prevailing price of copper few believe that the coming dividend will exceed five dollars per share, which goes to show in view of the saving effected by the new management that the change made a year ago came none too soon.—Hancock Journal.

COPPER GOSSIP.

The management of the Atlantic is still operating one drill on section 16. Progress on the lode struck some weeks ago, and which it had been hoped would prove to be the Baltic lode, has not been encouraging. The drill is working in trap rock without much sign of copper.

THE DELTA MILL AT HURON BAY CLOSED.

The DelHaas mill at Huron Bay closed down Saturday, owing to a lack of logs. It may not run any more this season. Will Bauden and John Cameron of Houghton were in Laurium Thursday, looking after some lumbering interests. Miss Hope Columbus of Battle Creek and Edie Lamont and Mrs. Cal Hollinger of Calumet were visitors at the Columbus farm the past week. Two hundred tickets were sold at the Laurium depot to people who went to Hancock to see Buffalo Bill Friday. The mills at Pequaming were closed.

SMITH AND HULL, OF TRAVERSE CITY, CAME IN SATURDAY FROM A WEEK'S TRAMP IN THE WOODS IN THE VICINITY OF THE HURON RIVER, WHERE THEY HAVE A TRACT OF TIMBER LANDS WHICH THEY WERE LOOKING OVER.

CIRCUIT COURT CONVENES MONDAY NEXT.

The 21st. Judge A. T. Streeter of Houghton will preside. There are but five or six cases on the calendar, none of much importance. The term will probably last but two or three days.

THE SOUTH SHORE ROAD IS PUTTING IN A LONG SPURT FROM THE MAIN STREET OF LAURUM TO THE BALL GROUND WHICH WILL BE USED BY THE C. H. WORCESTER COMPANY AS A SUPPLY YARD FOR THEIR CEDAR POLE BUSINESS. THEY INTEND BRINGING POLES HERE FROM A RADIUS OF FIFTY MILES. THEY WILL BE ASSORTED READY FOR SHIPMENT TO THE EASTERN MARKET.

"I STOOD IN A DRAUGHT

with my coat off and caught this wretched cold," says the sufferer. He need not pay a heavy penalty if he follow his act of folly with an act of wisdom. Soak the feet in hot water with a few teaspoonful of Perry Davis' Painkiller in it. Take a teaspoonful of Painkiller in hot sweetened water at bedtime and be thankful for so simple and speedy a way to break up a cold. There is but one Painkiller, Perry Davis'.

One of nature's remedies; cannot harm the weakest constitution; never fails to cure summer complaints of young or old. Dr. Fowler's Extract of Wild Strawberry.

POISONING THE SYSTEM.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dullness and melancholia at first, then unsightly eruptions, and finally serious illness. A remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. Price 50c. and \$1. Large size contains 24 times as much. Book all about it free. Prepared by E. C. DEWITT & CO., CHICAGO. Stafford Drug Co., Houghton, Mich.

REVIEW OF TRADE

END OF LABOR TROUBLES IMPROVES INDUSTRIAL OUTLOOK.

FINANCIAL CONDITIONS SOUND

CROP PROSPECTS ARE GOOD DESPITE BAD WEATHER.

Future in All Lines Is Exceptionally Bright and an Increased Activity in Business Is Expected.

New York, July 18.—R. G. Dun & Co.'s weekly Review of Trade tomorrow will say: The settlement of numerous labor controversies and the prospect of early agreements as to other struggles have greatly improved the industrial outlook while the agricultural conditions steadily improve.

Financial conditions are sound, the mid-year dividend distributions producing no stringency and speculation has been heavy for this season both in securities and in staples.

The manufacturers of cotton goods hold the prices steady and there has been a distinct increase in the demand during the past week.

Bradstreet's Review tomorrow will say: The weather, crop and industrial developments have been largely favorable and coupled with the great ease of money, make for an optimistic feeling in trade and speculation.

The shoe trade and naturally hides and leather have begun to show a favorable side and the strength of wool and woolen goods is almost more noticeable.

Following are the scores in yesterday's games and the standing of the teams to date:

Table with columns for National League, American League, and scores for various teams like Pittsburgh, Brooklyn, Chicago, etc.

TODAY'S WEATHER.

Washington, July 18.—The following is the weather bureau's forecast for Upper Michigan: Showers Saturday, Sunday fair. Fresh north to northwest winds.

NEW YORK STOCK MARKET.

Trading Animated and Aggregate of Sales Over 1,000,000 Shares.

New York, July 18.—Today was another animated day in the stock market with the aggregate of sales over a million shares.

The strength and variety of the market has no new development to account for them.

The capital which has embarked upon the project of putting up prices and inviting the outside following pursued their operations with apparently unabated confidence.

These operators are apparently firm in the conviction that the public sentiment of the country has arrived at that stage of confidence in the success of the year's crops, and the continued prosperity in all lines of industry and the sufficiency of the money resources of the country, that an example of a vigorous upward movement of stocks is all that is needed to induce them to come into the market and buy stocks freely and boldly thus affording a medium for the liquidation of holdings which the capitalists are taking on in the rise.

The leaders today were Pennsylvania and the affiliated roads. Southern railway was bought into the movement in a way that makes it appear that relations between those now existing might be in prospect between the two properties.

The apparent determination of the coal miners' convention not to make their strike general was given a reason for the aggressive buying of Pennsylvania and the affiliated roads.

The accompanying advance in New York Central was held to signify acquiescence in the new control on the part of the Vanderbilt interests.

The banks have apparently gained in cash this week to the extent of over \$4,000,000, of which \$1,622,000 was on sub-trust operations and the rest in direct receipts by express from the interior showing the temporary nature of last week's unseasonable demand from the interior.

New York exchange at Chicago rose to a premium of 15 cents. The grangers did not share fully in the day's strength but were by no means depressed in spite of the un- welcome rains in the crop regions and one or two unfavorable weekly reports of earnings, including a decrease of \$73,000 in Missouri Pacific, \$17,000 in Chicago & Great Western, \$26,000 in Denver & Rio Grande, and \$93,000 in Chesapeake & Ohio as compared with last year's similar period.

The market closed firm but below the best except in a few cases.

CLOSING PRICES OF STOCKS AS REPORTED BY PAINE, WEBBER & CO. AS FOLLOWS:

Table listing closing prices for various stocks like Union Pac., N.Y. Central, Alton, etc.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.

Table listing copper stock quotations like Adve., Arc., Green Con., etc.

RANGE OF MONEY RATES.

Money on call was steady at 2 1/2 to 3 per cent. Closing offered at two. Prime paper, 4 1/2 to 5 per cent. Exchange firm. Demand at 4.87 1/2 and sixty days at 4.85 to 1/2. Bar silver, 52 1/2.

CHICAGO GRAIN MARKETS.

Chicago, July 18.—In wheat today there were advances of 2 1/2 for July and 1/2 for September with July at one time closed firm and steady. September ranged between 72 1/2 and 73 1/2, opening at 72 1/2 and closing at 72 1/2.

The cash sales were 50,000 bushels here and twenty-eight boatloads at the seaboard. There was a rush of buying orders at the opening, especially in July. The storm yesterday and tonight and the predictions of showers in the principal winter wheat states were the influence.

With the good demand there was an advance in prices. The selling was mainly by the longs taking profits. Trade was better than of late. The local receipts were 230 cars, seven for contract.

In corn the close showed gains. It was believed late that a bull party had sold several hundred thousand bushels of July through new brokers. The market was rather indifferent late in the face of the bad weather and the

THREE KILLED BY LIGHTNING.

St. Louis, July 18.—Fred Weichbrod, aged thirty years, and the son and daughter of Jacob P. Muskopf, aged fourteen and fifteen, respectively, were struck by lightning near Millstadt in St. Clair county, Ill., today and instantly killed. The same stroke killed two horses hitched to a wagon in which they were riding.

MINE OFFICIALS BLAMELESS.

Park City, Utah, July 18.—The coroner's jury today returned a verdict holding the officials of the Daily West mine entirely blameless for the accident by which thirty-five miners lost their lives.

NEED MORE HELP.

Often the over-taxed organs of digestion cry out for help by Dyspepsia's pains, Nausea, Dizziness, Headaches, liver complaints, bowel disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25c at Stafford's drug store.

Insanity Due to Nervous and Mental Troubles.

PAINE'S CELERY COMPOUND

The Great Tower of Safety and Rock of Health in the Hot Weather.

Nervous diseases when aggravated by mental disturbances produce more cases of insanity in the hot weather than at any other season of the year.

Nervous headache, nervous dyspepsia, sleeplessness and chronic constipation induce depression of spirits, extreme weakness, morbid fears, despondency and languor; from these, dread insanity comes slowly but surely.

Nervous sufferers have a dread of hot weather. Finding themselves deeper in the pit of misery than they were in the spring and early summer, they are in utter despair.

There is hope for you, dear reader, if you are one of the sufferers. You stand in need of Paine's Celery Compound, that great builder of the nervous system. Its vitalizing action commences with the first bottle you use.

The volume of blood immediately increases in the arteries, and the body is fully fed and nourished. Your appetite becomes regular and natural, the nerves and brain are strengthened, and you have impulses of health that cheer the soul.

This remarkable remedy will truly meet your case and give you a new life; it will lay the foundation for happiness and long years. We counsel you to try this marvelous summer health-restorer at once, and enjoy the blessings of health.

excitement in the other markets. July sold between 65 1/2 and 66, opening at the former and closing at 66. Trade in July was not large. The local receipts were 445 cars, seventy-nine for contract.

The leading futures ranged as follows: September wheat opened at 72 1/2 @ 73; highest, 72 3/4 @ 73; lowest, 72 1/2; closed, 72 1/2 @ 73. September corn opened at 61 3/4 @ 62; highest, 61 1/2; lowest, 60 1/2; closed, 61 1/2. September oats opened at 33 1/2 @ 34; highest, 33 1/2; lowest, 33; closed, 33 1/2.

Receipts and shipments were as follows: Receipts, Shipments. Flour, barrels, 9,000 11,000. Wheat, bushels, 140,000 44,000. Corn, bushels, 489,000 18,000. Oats, bushels, 18,000 21,000.

COPPERS VERY QUIET.

Transactions Almost Limited to Dealings in the Heineze Stock.

Hayden, Stone & Co. yesterday wired the Laidley Commission company: "United Copper was the only feature today, selling up to 35%. It looks very good. The rest of the market is extremely quiet."
Faine had this to say: "There was a slight improvement in the buying demand for coppers today. Traders seem to feel that with the Amalgamated dividend question out of the way, it will be easy to start the coppers along with the rest of the market. Almost every line that is being published on the copper situation is bearish. The fact that prices hold steady, in spite of all this, proves that the situation is strong."

Chicago Grains Stronger.

W. H. Laidley & Co. said of the Chicago grain markets: "Wheat, influenced by general wet weather, opened strong and higher, the feature being July. September was inclined to weakness after the early show of strength, but closed at an advance of 1/2. The receipts in the Northwest were slightly lighter, with much heavier exports. Upon any further bulges, sell or wait for good breaks to buy."
"Corn opened higher on bad weather. The market was strong early, then turning weak. There was some evidence of clique operations but not on an extensive scale. September corn should be bought on all setbacks; it will make you good money."
"Oats, under influence of bad weather, small receipts and practically no stocks, advanced 5/8 for July and 1 cent the September option. Reports from country seem to indicate very serious damage to the new crop. If these reports prove true, of course the prices are justified."

Bullish Market in Wall Street.

Rache said of the New York stocks: "The market opened with great activity and general higher prices in which all stocks participated more or less. The same underlying conditions that have prevailed during the past fortnight may be given as accounting for the buoyancy in the market. On the advance there was heavy profit-taking, but the market absorbed the sales very willingly and the reactions that occurred during the day were mostly fractional. The call money rates were easy and the expectations regarding tomorrow's bank statement are that the banks will show a gain in cash of about \$5,000,000. The dealings of the day will probably again amount to about 1,000,000 shares. Appearances indicate that speculation will continue to broaden and should no untoward event occur high prices are likely to result in the course of next week."

"I NEVER KNEW PAINKILLER TO FAIL before, what can the matter be? Where is the bottle? There, I thought so; it is not Perry Davis' Painkiller at all, but something the druggist must have made himself and I did not notice it; I have used Painkiller for years for diarrhoea, cramps and stomach aches and it never failed."

KLONDIKE IN THE U. P.

It Is the Young Forest Growing Up and Should Be Protected.

The recklessness with which the lumbermen of northern Michigan have been operating for years has resulted in the mowing down of great tracts containing millions of acres. If during the past years trees of a certain size only had been cut, and all undersize had been protected, these enormous tracts of government and railroad lands would today represent millions of dollars, where now they represent little or nothing.

W. H. Law, of Sault Ste. Marie, has written a letter to the national bureau of forestry, calling attention to the matter. "Of late years," said he in a recent interview, "the course of procedure adopted by lumbermen has been simply to clean off everything that would make a four-by-four scantling or a four-inch piece of pulp wood, and then permit the remainder to rot, without let or hindrance, to clean up what was left, and in a few days, during a dry time in the summer, vast districts have become a blackened and desolate waste. After a year or so I have noticed with interest the new growth, the striking back principle of a disposition to repair the loss, a gracious effort on the part of nature, to cover up the shame of man."

"For seventeen years I have had occasion to perform long journeys through these burnt regions, and have made mental notes of the growth of the various kinds of woods, and on different soils and with different surroundings. Tamarack, poplar and balsam poplar are the most rapid growers, and in some localities have reached a height of twenty-five and thirty feet in the last seventeen years."

"Now is the time for the government to appoint conscientious men to look after the young forest that is taking the place of the old. This new forest of every variety of wood is rising from the ashes of the old, and if protected from fire, will, within forty years, at the rate timber is increasing in value, be worth in many places considerable money for pulp wood alone. The woods used for pulp can be cut when small, and the thinning out will be really beneficial, giving other woods a chance to grow larger."

"Talk about the Klondike, why it sinks into insignificance compared with the vast wealth of the young forest growing throughout the north land and large islands in the lakes, which, in spite of their isolation, failed to escape the enterprising lumbermen."

"The public is a great, big, good-natured fellow, but indifferent and careless. Uncle Sam is a good fellow, too, even if he does prance around in his striped pants, cut six inches short, and his goatie cut long. He is all right. Uncle Sam is, but he is too good-natured and lets people impose on him. He has permitted thousands of people throughout the north to take up homesteads for farming purposes, when many of them simply took them for the timber. Innocent, good-natured Uncle Sam was victimized. These people perjured themselves, literally stole the timber and

moved it off and now millions of acres are going back to the government stripped of everything that would make a cent. It would be profitable for the government to have a small army of experienced men stationed throughout the northern regions, as forest police, to protect the timber from fires, to visit every settlement, indeed, every settler, to encourage him to do all in his power to preserve the young forest, of the value of which he has no conception.

"The rocky regions, especially, need to be guarded just now, for everywhere the spruce, pine, balsam, borch and poplar have made a splendid start, and are now covering many townships that can never be cultivated except in small patches. But with the old dead stubs falling continually, and what with the leaves and limbs of old dead tops that literally cover the ground, so that a hunter can scarcely get through, all this trash makes a good fertilizer, supports the young trees during heavy wind storms, holds the moisture during a drought, and were it not for this, a great many trees would die. But let the fire get into this kind of stuff during a dry spell, and then away it all goes into smoke and ashes. Then appears the abomination of desolation, vast stretches of waste land, sand or gravel, or what is worse, white boulders falling to the men who make Rocky Mountain Tea. Women's greatest benefactor. The Stafford Drug Co.

"Every citizen of Michigan should be interested in the preservation of the growing forests, and whatever else they may do that is foolish, they should not place any fire where there is the least danger of its running into the green timber."

Rev. Carl Aepler, of the German Lutheran church, will be in Milwaukee next week to attend the conference of the Evangelical Lutheran synod, which will be in session from the 24th to the 29th. This organization is the largest Lutheran denomination in America.

The Federation of Woman's clubs has extended the right of honorary membership to the men who make Rocky Mountain Tea. Women's greatest benefactor. The Stafford Drug Co.

NOTICE TO TAXPAYERS.

Office of the City Treasurer, Marquette, Mich., July 15, 1902.
Notice is hereby given that the general tax roll of the city of Marquette has been deposited with me, and is now in my office in the City Hall, and that the amount of taxes therein assessed and specified are due and may be paid to me any time up to and including the 31st day of October, A. D. 1902.
No addition will be made to the taxes paid before the first day of August next; but an addition of one per centum of every unpaid tax will be made on that day, and a like addition of one per centum every month thereafter, until the first day of November, A. D. 1902.
CHARLES A. EGGERS,
City Treasurer.

CITY BREVITIES.

Today's weather: Partly cloudy, stationary temperature; southerly winds.

Yesterday's temperature: 7 a. m., 60 degrees; noon, 61 degrees; 7 p. m., 61 degrees. Maximum, 64 degrees; minimum, 60 degrees.

Miss Josephine Johnson is home from Detroit.

Mrs. J. A. Waring of Ewen arrived in the city last evening.

Miss Susan Heffernan is home from Chicago, where she has been visiting friends.

Mrs. F. J. Trevillion left yesterday for Ewen, where her husband is located for a short time.

Born, yesterday morning to Mr. and Mrs. Wm. Winters, North Fourth street, a twelve-pound boy.

Sheriff John Pengelase went to the copper country yesterday morning to spend a couple of days with friends.

Mrs. Libby left last evening for Chicago after a visit at the home of her daughter, Mrs. S. R. Kaufman.

Miss L. C. Leary of Detroit is at the Clifton House with a display of fine furs from A. W. Reckmeyer & Co., Detroit.

The common council will hold a session next Monday evening. It is an adjourned meeting and for the purpose of confirming special assessment rolls.

Sidney Adams has purchased from Agnes Gannon her property at the northwest corner of Lake and Spring streets. The consideration was \$2,100.

F. W. Salsbury has been appointed district freight and passenger agent for the South Shore, Canadian Pacific and Soo line, with headquarters at Pittsburg.

Miss Morrissey, Louis Grabower's milliner, left last evening for Chicago. Mr. Grabower still has another trimmer, who will remain in Marquette all summer.

A reception to the Lake Superior Press association will be held at Fraternity Hall next Tuesday evening from eight until twelve. On Wednesday, from one until six a picnic at Presque Isle will be the feature.

A social party was given in honor of Miss Griffin of Ishpeming at the residence of Mrs. J. W. Sparling, Bluff street, Thursday evening. Music, dancing and refreshments were features of the function.

Marriage licenses were yesterday issued to the following couples: Elmer Johnson and Eliza Dunn, of Republic; Carl S. Johnson and Emma Beckman of Skandia, and Anton Peterson and Ellen Pearson of Ishpeming.

John Hennes of Menominee and Michael H. Moriarty of Crystal Falls, members of the prison board, are in the city to attend the meeting of the board this afternoon at which Governor Bliss is expected to be present. Mr.

Moriarty has been here since before the congressional convention.

Included among the visitors in Marquette yesterday were Dr. P. C. Dube, Postmaster M. J. Ryan and H. J. Bisek of Escanaba, Thomas E. Kelly of Menominee, Sheriff James H. Cudlip of Iron Mountain, D. Tolpan of Lake Linden and John E. McIntyre of Houghton.

Rev. C. M. Thompson, presiding elder, has returned from a two weeks visit to the Methodist churches in Luce and Chippewa counties. He also visited Michigan's great Chautauqua, at Bay View, for two days. This evening Mr. Thompson leaves for Republic to spend Sunday. During next week he will visit the churches in Marquette county.

Admission to the ball game at the fair grounds this afternoon, when the Marquette traveling men's team will meet an aggregation composed of Ishpeming and Negaunee drummers, will be free. An invitation to the public is extended and "all kinds of sport" are promised. The game will be started at 2:30 o'clock. A fifteen-minute street car service to and from the grounds will be provided.

The Marquette Juniors ball team will cross bats with the Negaunee Independents tomorrow at the Union Park grounds. So far this season the Juniors have lost but one game out of several played. They are very desirous of meeting some club at the diamond at the fair grounds here, but as for some reason games are not encouraged there this year the boys are obliged to confine their playing to contests out of town.

An unusually big day's business was done yesterday in the justice courts, nine men who had been arrested the day before and during the evening appearing for hearing on charges of drunkenness. Two of these failed to produce the amount of their fines and were given sentences of fifteen days; in the cases of the others, the men were either fined or sentence was suspended. All of the men were strangers in Marquette.

Special attention is called to the evening service at the Baptist church tomorrow. The meeting will be in the interest of the Anti-Saloon league, and will be addressed by Rev. T. F. Lewis of Ann Arbor, assistant state superintendent. Mr. Lewis is an earnest, eloquent and convincing speaker. He is especially desirous of acquainting the men of Marquette with the work of the Anti-Saloon league, which is now doing work for the cause of temperance in thirty-nine states.

The berry train, which is run every year by the South Shore road between Marquette and the huckleberry centers down the line, will probably be put on some time next week. Well filled pails and baskets are already being brought to town, a number being noticed yesterday, but as yet the berries on the plains are not quite ripe enough for satisfactory picking. A couple days of warm sun will do the business. Station Agent Hazen at Sand River says that the crop will be unusually large this season.

It will be of interest to his many friends here to learn that Rev. Father Langan participated in a ball game between the Fats and Leans at Escanaba the other day. The Mirror had this reference to the genial clergyman: "For the 'Fats' Father Langan was the favorite with the galleries. His jovial countenance beamed with pleasure at the applause with which his parishioners and friends greeted his appearance. Then with a 'do or die' grip on his cigar, he swiped the first ball over. After exhausting his wind in sprinting to third his irreverent lean friends caught him between third and home." The reverend gentleman attended the Knights of Columbus ceremonies here Thursday night and remained over yesterday in the city.

FUR DISPLAY

— AT THE —

NEW CLIFTON.

A. W. RECKMEYER & CO.

of Detroit, exclusively manufacturers and importers of the finer furs, will be represented by MISS L. C. LEARY at the above hotel

Today and First Part of Next Week.

The public is invited to examine stock. Estimates will be cheerfully given for remodeling and repairing furs of any kind.

Ladies and gentlemen wishing to order garments can have same advantages as by going to the city, as every one has the privilege of selecting the skins. Garments will be fitted before completed.

"J. E. K." CIGARS

Always Reliable. The Best that Tobacco can produce. 10c. or 3 for 25c. J. E. Kenning & Co., Mfg's. Grand Rapids, Mich.

1902 EDITION.

The new 1902 edition treats of Copper from all standpoints—Historical, Technical, Statistical and Descriptive. It is divided into ten chapters, as follows:

- I. History of Copper.
- II. Chemistry and Mineralogy.
- III. Metallurgy.
- IV. Glossary of Mining Terms.
- V. Copper Deposits of the World.
- VI. Copper Deposits of the United States.
- VII. Leading Foreign Mines.
- VIII. Lake Superior Mines.
- IX. American Copper Mines.
- X. Statistics of Copper.

The work is an octavo volume of 492 pages, set in Brevier type. It is the only volume printed in any language treating of the entire subject of copper, with descriptions of all principal mines, some 700 properties being listed, the descriptions ranging from a few lines to a dozen pages for each, according to importance.

The price of the Copper Handbook is \$3 in full morocco, and \$2 in buckram binding, prepaid to any address in the world. It will be

SENT ON APPROVAL

and may be returned within 30 days, if the purchaser is dissatisfied, for any reason whatever, and price paid will be refunded. Address the publisher,

BIG MINING DEAL.

Cleveland-Cliffs People Buy Property of the Itasca Company.

A mining deal, whereby the Cleveland Cliffs iron company secures possession of the property of the Itasca Mining company, has just been brought to a successful conclusion. The Itasca company has rich holdings on the famous Mesaba range. The deal has been pending for upwards of a year, and at intervals during that time it has been incorrectly reported that it was closed. Yesterday, however, local officials admitted the correctness of the report that the negotiations had been wound up, and the property transferred.

Regarding the big transfer the Duluth News-Tribune says: "One of the biggest iron ore mine deals made for some time has just been consummated, whereby the Itasca Mining company, owner of the lease, transfers all its interest in its big mine on the Western Mesaba range to the Cleveland Cliffs iron company. The consideration, it is reported, will amount to close to a million dollars.

"Members of both companies are reticent as to particulars of the deal, but word from an authentic source has reached the News-Tribune that it was sold outright on a cash basis of fully \$800,000, if not more, and a royalty of seven cents a ton on ore mined.

"The deal was closed in Chicago last week by J. E. Jopling of Marquette, and Mr. Mather, representing the Cleveland Cliffs company, and George H. Crosby and Senator E. B. Hawkins, representing the Itasca company. The purchasers took possession immediately.

"Mr. Crosby, it is understood, engineered the transfer principally for the local concern, and Mr. Jopling made the principal negotiations for the purchasers. The deal has been pending for some time, and was finally closed, after a number of meetings had been held.

"The property is composed of 100 acres, and adjoins the Hawkins mine, recently leased to the Deering Harvester people, on the north. It is a quarter of a mile northwest of the new town of Nashauk, to which settlers are rapidly flocking, and where explorations are developing many excellent prospects. The land lies in sections 31 and 32, town 57, range 22 west.

"The ore is pronounced by mining men as of excellent quality, and already 3,000,000 tons of it have been shown up by explorations, which are not completed, which means that over \$200,000 royalty is already assured.

"The mine was but recently opened, and five drills have been put to work. It will at once be made a shipper, and drills will renew operations at once to show up the ore. It is expected that the first product under the new management will be brought out within a short time.

"Terms of the deal are attracting considerable attention among mining men who have learned of the facts, owing to the royalty on the ore as explained, instead of as mined, the usual stipulation. It is believed that the figures will eventually run up much higher than now announced, and although the royalty is not the usual twenty-five per cent, it may, considering the cash bonus, amount to better terms.

"The mine was bought eighteen months ago from the Mississippi Land company, of Minneapolis. It is understood that there is a very wide difference between the purchase and sale figures, meaning a wide margin on the investment for members of the Itasca Mining company. The company is composed of Senator E. B. Hawkins, O. Kinney, George H. Crosby and Captain J. H. Pierce."

The lease, it is stated, calls for the payment to the fee owners of twenty cents per ton on all ore mined, which would lay the consideration close to three million dollars.

Loss of Appetite is commonly gradual; one dish after another is set aside. It is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics.

YOU CAN.....
SELL OR EXCHANGE ANYTHING

Thousands are seeking the article that other people have no use for. They would buy or exchange some thing you want for it. Where are they? A "Want" advertisement in

The Detroit Evening News

Michigan's greatest Sunday newspaper? Beautiful color effects, high-class miscellany, special articles, latest news, magnificent illustrations, etc.; 5 cents a copy.

PENINSULAR RECORD SOLD.

It Will Hereafter Be Conducted by a Local Stock Company.

J. D. West, editor of the Peninsular Record, has completed a deal with local business men whereby the paper will hereafter be run by a stock company. The deal has been in progress for some time and final arrangements were closed Wednesday. The organization will not be completed for some time, but the company now has charge of the paper. The capitalization will be \$5,000. Mr. West will continue to edit the paper and will look after its interests as usual. When seen yesterday he said that the name of the paper would remain unchanged and that it would continue to be published Saturdays. Following is the announcement which will appear in the Record today:

"On or about the first of the coming month The Record will merge into a stock company. By this is meant that several of our leading citizens will have an interest in the plant and its business affairs. Such a plan has been suggested by the writer for some time past. The plan finally came to a head Wednesday, when preliminary arrangements were made. Three trustees were selected to arrange necessary details and also to look after the interests of those who wish to own stock in the plant. The gentlemen who have agreed to invest themselves in the matter are well known business men and citizens of the city. They go in on the venture as a business proposition and at the same time to furnish the people with a city and county paper which will print the news. They have no axes to grind nor do they wish it understood that they go into the deal with any intent to get even or hurt anyone's feeling. The interest they take in the plant is for the purpose of realizing on their investment, and we fail to see why this cannot be accomplished. For years the writer has been at the helm, but as we desire to reach out for more business, we concluded to introduce capital in the hope that within a short time the new company will have one of the largest printing plants in the upper peninsula. The writer will continue as a stockholder and will look after the welfare of the business in the future as in the past. The stock in this company is not limited to a certain few, but may be purchased by anyone until the limit of its capitalization is reached.

"Politically, the paper will remain neutral, but if it desires to speak of the good qualities of a candidate who may desire to become a servant of the people, it will exercise that privilege. We know the gentlemen who are interested with us are not looking for political scalps.

"A few shares of stock are yet unsold, and in case any of the citizens whom we have not called upon wish to purchase them we would ask them to call at the office, No. 110 Bank street, where they may be accommodated."

YOUNG PEOPLE'S CONVENTION.

Large Assemblage Is Expected Here Next Week.

The annual convention of the Young People's societies of the Swedish Mission church for the upper peninsula will be held in Ishpeming, commencing Friday, July 25. It promises to be the largest convention the association has yet held. It was organized here four years ago.

This year an unusually good program is being arranged. There will be a number of outside speakers, among them Rev. C. Lindon of Chicago, a former pastor here, and A. E. Frickman of Minneapolis. It is expected that fully 100 delegates will be present from the various societies. Saturday evening a concert will be given in the church and Monday there will be a picnic in Cleveland park.

The Ishpeming society is in a flourishing condition and has over fifty members. The convention will last three days.

MINSTRELS AGAIN TONIGHT.

Gideon's minstrels made such a hit at the opera house Thursday night that they will repeat their performance again this evening. The show drew a house that tested the theatre's seating capacity. The company is a good minstrel organization. Sam Harris is an ideal leader. The rope walking and juggling is little short of wonderful. The choruses are well balanced and the soloists have good voices. There will be a change of program tonight.

For this performance the prices have been reduced and the general admission will be twenty cents for adults; children, ten cents. Reserved seats on the sides of the house of the house will be thirty cents and in the center fifty cents.

WATER TO BE SHUT OFF.

Superintendent of Public Works P. H. Devine has announced that the water will be shut off tomorrow from 11 a. m. until 6 p. m. Water consumers take notice.

Where to Stop When in Detroit.

Hotel Metrople, Woodward ave. opp. City Hall. European plan. Rooms, \$1 per day; with bath, \$1.50

The ladies are invited to call and inspect our new line of silks. All the latest. Finnish Mercantile association.

Itchiness of the skin, horrible plague. Most everybody afflicted in one way or another. Only one safe, never failing cure. Doan's Ointment. At any drug store, 50 cents.

ACTS IMMEDIATELY.

Colds are sometimes more troublesome in summer than in winter, it's so hard to keep from adding to them while cooling off after exercise. One Minute Cough Cure cures at once. Absolutely safe. Acts immediately. Sure cure for coughs, colds, croup, throat and lung troubles. Harwood, Ishpeming; Stafford Drug Co.

MISERY IN CLOTHES

THE EXPERIENCE OF A DRUGGIST IN SAMS VALLEY.

He Tells a Reporter the Simple Way in Which He Overcame the Difficulty.

"I have had a great many experiences," said Mr. Albert L. Gall, a druggist of Sams Valley, Ore., "but the recollection of one of them outshines them all.

"What was that?" ventured a reporter.

"Well, when I was a little fellow, about 12 or 13 years old, I began to be afflicted with an eruption of the skin, something like dimittive boils. I think the cause was an hereditary impurity of the blood. Physicians did not help me any and, in fact, their remedies seemed worse than the disease. I kept growing worse and the eruptions became so numerous that it was a misery to wear clothes. After a while my kidneys became affected."

"Your skin looks clear now," said the reporter.

"Yes, the trouble was all cured years ago. How? By Dr. Williams' Pink Pills for Pale People. I had heard of what these pills had accomplished in diseases of the blood and decided to try them. Relief came as soon as could be expected and I continued taking them until all trace of the disease had vanished. That was seven years ago and I have had no return of the trouble since."

Dr. Williams' Pink Pills for Pale People are always successful because they go to the root of the disease. Other remedies act on the symptoms—these marvelous vegetable pills remove the cause of the trouble. Not only have they cured hundreds of cases similar to Mr. Gall's, but they have proven themselves to be an unailing specific for all diseases arising from impure or impoverished blood and weakened nerves—two fruitful causes of nearly all the ills to which human kind is heir. Dr. Williams' Pink Pills for Pale People are sold in boxes at 50 cents a box or six boxes for \$2.50, and may be had by mail from Dr. Williams Medicine Co., Schenectady, N. Y.

ISHPEMING IN BRIEF.

J. J. McCarty of Escanaba was in the city yesterday.

Dr. G. D. Beech of Beacon was in the city on business yesterday.

Mrs. R. P. Bronson is visiting friends in Petoskey for a couple of weeks.

Miss Edith Langley of Michiganame is visiting Miss Anna Bronson on Fifth street.

C. H. Woodcock of Rhineland, Wisconsin, is doing business in the city for a few days.

Miss Sjolander of Ironwood is visiting her mother, Mrs. C. Sjolander on Cleveland avenue.

The woodwork of the Peninsular bank is being given a coat of paint. C. Oleson is doing the work.

The Swedish Lutheran Sunday school will hold a picnic one week from today in National mine grove.

Professor Melander preached to a large congregation of the Swedish Mission church Thursday evening.

Marriage license was issued yesterday to Miss Ellen Pearson and Mr. Anton Peterson, both of this city.

J. A. Bexell of Rock Island, Ill., was in the city yesterday working in the interests of Augustana college located there.

The Rev. Norman Hansen of Elk Rapids is visiting in the city. He will preach at Grace church tomorrow morning.

A Paris, the Pearl street saloon keeper leaves tomorrow for Canada and New York, where he will spend some time visiting.

The main offices of the Cleveland Cliffs Iron company, having given a new coat of paint, giving it a very attractive appearance.

Samuel Lingman and two brothers arrived in the city yesterday to attend the reunion of the Hooper family which takes place next week.

Mrs. Andrew Anderson of Gladstone is visiting her sister, Mrs. Skoglund in the city for several days. Mr. Anderson is now foreman of the Cleveland Cliffs furnace in Gladstone.

William Holm of Chicago has accepted a position as assistant bookkeeper at the Finnish Mercantile store. He arrived in the city yesterday and immediately entered upon his duties.

J. M. Raymond, special agent for the Continental Fire Insurance company; H. O. Benedict, of the Phoenix company and W. P. Robertson of the Niagara company were in the city yesterday on business.

A. J. Yungbluth, auditor of the Cleveland Cliffs Iron company, will shortly move into the house recently vacated by J. H. Rough and family. Mr. Yungbluth's house will be occupied by C. J. Shaddock, paymaster of the company.

Bids will be received by John Delbridge, recorder of the city of Ishpeming, for furnishing nine (9) double-breasted sack, police uniforms. Bids are to be accompanied by samples of cloth, and they must be in the hands of said John Delbridge not later than 4 o'clock p. m. on the twenty-fifth day of July, 1902.

There will be preaching services tomorrow, July 20th, in the Calvary Baptist church at 10:30 a. m. and 7:30 p. m. The morning subject will be "The Soul's Anchor." The evening subject, will be "Temptation." The choir will render special music, assisted by Miss Alma Anderson in the morning, and by Miss Libbie Cox in the evening.

Mrs. Fred Duhaime and family of Beacon are in the city for a few days. Next week they expect to leave for the woods along the lake shore, where they

5 Cents.

Upper Peninsula.

The I. Stephenson company has let a contract for the erection of a large woodenware factory at Wells, near Escanaba. The building will be 280 feet wide. It is intended to put the factory in commission during the fall.

A cave in No. 6 shaft of the Tilden mine at Bessemer has compelled a shutdown of two shafts, rendering idle about 150 men.

J. W. Wells of Escanaba, president and general manager of the Escanaba and Lake Superior railroad, which runs into Escanaba and Wells, says that the record for large cargoes of ore was broken at Wells the other day, when the largest cargo of iron ore that has ever been loaded at either of the two towns was put on the steamer John C. Gates for Ashtabula, O. The load consisted of 7,400 tons and was taken on at the St. Paul dock. It was brought in over the Escanaba and Superior road and the load was put on in seven hours.

While Buffalo Bill was at the Soo last Tuesday, members of the Wild West aggregation jumped the fence into Fort Brady at supper time and challenged the soldiers to a game of baseball. The boys took the challenge and soon a fast and furious game was in progress. After they had lined up it was noticed the show people had selected one man from each contingent and placed them as follows: Pitcher, Indian; catcher, artillery man; 1st base, Rough Rider; 2nd base, Spaniard; 3rd base, Cuban; short stop, 10th cavalryman, colored; right field, Russian Cossack; center field, U. S. cavalryman; left field, canvas man. The game was interesting and very exciting from the start. The Indian was after the soldier's scalp, and the artillery man was continually "shooting it into the enemy."

The Rough Rider was smoother than his name would indicate but none the less daring and the Spaniard would rather sneak around and steal something from the enemy. The Cuban held onto third bag as though it were filled with sugar from his native land and the 10th cavalryman went to the bases with the rush he learned at San Juan. The U. S. cavalryman couldn't roll things on the diamond as easily as he "rolls" his horse but the Cossack kept things a Russian. Of course the canvasman hoisted everything in sight and shaded the game with the hue of western splendor. Five innings were played and the attacks of the intruder were furious but the boys of the Fourteenth defended the post with the same stubbornness that kept the rebels out of Manila, the score standing 5 to 6 in their favor.

Burlington Route

The Way To Chicago

The Limited, leaving Minneapolis at 7:50, St. Paul at 8:25 p. m. daily, arrives in Chicago 9:20 next morning.

Breakfast is served en route in a comfortable Dining Car, beautifully decorated. The service is "a la carte"—you pay only for what you order. This is more popular with travelers than the "dollar a meal" charge.

The Scenic Express, leaving Minneapolis at 7:30, St. Paul at 8:05 a. m., except Sunday, arrives in Chicago 9:35 p. m. same day. Pullman sleeper serves lunch. Dining halls at La Crosse and Savanna.

Ask Your Home Agent for Tickets via the Burlington Route.

SAVES A WOMAN'S LIFE.
To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured." Sufferers from Coughs, Colds, Throat and Lung Trouble need this grand remedy, for it never disappoints. Cure is guaranteed by Stafford. Price 50c and \$1.00. Trial bottles free.

A new line of silks just in. We have corded taffetas, pleu de soie, moire and other kinds too numerous to mention. Finnish Mercantile association.

VACATION DAYS.
Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports. No remedy equals DeWitt's Witch Hazel Salve for quickly stopping pain or removing danger of serious consequences. For cuts, scalds and wounds. "I used DeWitt's Witch Hazel Salve for sores, cuts and bruises," says L. B. Johnson, Swift, Tex. "It is the best remedy on the market." Sure cure for piles and skin diseases. Beware of counterfeits. Harwood, Ishpeming; Stafford Drug Co.

This signature is on every box of the genuine **Laxative Bromo-Quinine Tablets** the remedy that cures a cold in one day.

PENINSULAR BANDIT

HOLZHAY'S CAREER RECALLED BY TRACY'S DESPERATE DEEDS.

MAN NOW A MODEL CONVICT

NO SIGNS OF INSANITY SINCE HIS SURGICAL OPERATION.

Story of "Black Bart's" Reign of Terror, His Final Capture in Republic and His Outbreak in the Penitentiary Here.

The desperate deeds of Harry Tracy, the escaped convict who has been terrorizing Oregon, bring to mind the career of Reimund Holzhay, now serving a life sentence in the penitentiary here, who by deeds not less desperate and in the opinion of many, more remarkable, kept the residents of the Gogebic iron range and the people on the Wisconsin border in a state of terror for months.

Holzhay's operations as a criminal took place in 1888 and began in the neighborhood of Shawano, Wis. He was a young man of good physique, an American by birth and a man of fair education. His first venture was the attempted holdup of a stage in Shawano county. He fired a shot at the horses when the driver failed to pull up at his demand. One horse was wounded, but not seriously, and dashed down the road, inciting the other horses to their top speed.

Holds Up a Train.

Holzhay next stopped a stage along the Wolf river and got a considerable sum of money. He followed this with the robbery of a Milwaukee & Northern train at Beaver. In this instance he walked through the entire train, compelling, in true Jesse James style, the passengers to give up their valuables at the point of a revolver. Small robberies to a large number followed, the adroit bandit falling to leave a clue in any case. He became known as "Black Bart," from his swarthy appearance and kempt beard, and all the stage and railway lines were forced to employ armed guards to protect their passengers.

At one time, when the pursuit became hot, Holzhay disappeared for over a month and was supposed to be in the west. The robbery of a Wisconsin Central train at Cadott, however, again brought him before the public. From Wisconsin, Holzhay then transferred the scene of his operations to the Gogebic range, and here his most desperate venture took place.

Kills Prominent Banker.

A stage near Lake Gogebic was stopped and the robber gave the customary demand that the passengers hold up their hands. They had arranged for resistance, however, and the bandit was met by a shower of bullets from the guards and passengers. He returned the fire with vigor, and in the battle one of the passengers, a banker named Fleishbein, of Harvey, Wis., was instantly killed by a bullet from the highway man's gun. Despite this the return fire was kept up bravely and the bandit was compelled to retire from the field.

The murder put the authorities of the two states in a furor of activity. All trains were watched, the bandit's old haunts were guarded and money furnished by the railroad companies for relatives and friends maintained a large corps of detectives in the field. A big reward was offered for his capture, dead or alive.

In spite of this tremendous activity Holzhay managed for a long time to evade the tolls he had to pay on the woods and lives on the product of his own skill as a hunter. Occasionally he would visit civilization to lay in a scant supply of provisions, disguising himself so effectually that it would not be realized until too late that he was the man wanted. A number of times his elusiveness in evading his pursuers was the skill of a hunted criminal. It was suspected but never proved that Holzhay had friends who aided him in escaping and furnished him with supplies.

Captured at Republic.

One day Holzhay, who was not known to be in the vicinity, walked into Republic, in this county, and rather distant from the scene of his operations, to lay in a lot of supplies. He was recognized on the street by Village Marshal Glode, and the officer hastily formed a plan to effect his capture. The aid of Printer Weiser, who also was a justice of the peace, was secured and the landlord of the hotel at which the bandit had stopped was taken into the scheme. The latter through a ruse persuaded Holzhay to go up stairs, and while he was there the three men stationed themselves at the door at the foot of the staircase. Then as the outlaw descended they pounced on him.

The struggle which followed was a terrible one. In spite of the overwhelming odds, Holzhay managed to get an arm loose and, snatching his revolver, was about to shoot when one of the men seized the arm with both hands and held it at the outlaw's side while another of the trio disarmed him. Black Bart was thrown to the floor with the three men on top of him and was securely bound. He was taken to the village lockup, whence he was later transferred to the county jail at Bessemer.

In the time Holzhay was tried for Fleishbein's murder. He was given every chance and over two days were spent in securing the jury. The man was convicted and Judge Williams sentenced him to the Marquette prison for life.

Terrorizes the Prison.

Holzhay began in November, 1889, to serve his sentence. For a few months he was a model convict. He had marked literary taste and the warden made him librarian of the prison. All went well until March, 1890, when a fit of suddenness seized the prisoner. He refused to pay any attention to the guards and

started to do as he pleased. Warden Thompson sent for him intending to have a talk and find out what was the matter. But when the guard approached Holzhay seized him, brandished a knife in front of his face, and on the reinforcements attracted by the guard's cries, approaching, he defied a rescue.

The officers made several attempts to shoot him, but each time he would swing his hostage around in front of him and stave off the shot. This procedure was kept up for a number of hours, when finally the warden got a chance to shoot at Holzhay's right hand, which the convict had left in view, resting on his knee, as he sat behind his human shield. There was a cloud of smoke and Holzhay's knife fell to the floor. His hand was shattered. Investigation developed that the man had secured the knife in the dining room. He had whetted it to a point on the stone floor of his cell and it had an edge like a razor.

Is Declared Insane.

Until 1893 Holzhay dropped from view. Then he came forth with a remarkable letter stating that he was insane and asking for an examination. All his criminal acts, he said, had been performed in the frenzy of a mad man, and he likened himself to the Malay. The mental process under which he labored was set forth with such startling power that, when the physicians came to examine him a few weeks later, after the unmistakable madness had become apparent, there was no hesitation in declaring him insane.

When Holzhay was removed to the asylum for criminal insane at Ionia, he was one of the most violent lunatics ever received at the institution. He was carefully watched and given the best of treatment, and finally started on the road to recovery. Then an operation for varicocele was performed on him, and after that his improvement was rapid.

He was in the asylum for about a year, when he was returned to the Marquette prison. This was in 1894. Since that time he has been entirely rational, not having the spells of insanity experienced before his treatment, and is counted among the best behaved convicts in the prison. He is still libarian and has educated himself to a high degree.

IS MADE A CORPORAL.

Soldier Louis Paige Steps Up a Notch in the Philippines.

Louis J. H. Paige, a Marquette boy serving in the army in the Philippines, has been made a non-commissioned officer and is now corporal Paige. With the 1st U. S. Infantry he has been participating in the campaign in Samar and was present when the memorable surrender which brought the fighting to a close took place. In a letter, under date of Catabogan, island of Samar, May 9, he writes his mother as follows:

"Well, everything is lovely here now. All the insurgents have surrendered and the campaign in Samar is over. On the 27th of April the surrender took place; 426 rifles were turned in, and a large number of holes. It was a fine sight to see the insurgents lay down their arms. They lined up on one side of the parade ground, with us on the other. General Grant was here; he had charge of the surrender. I do not think we will stay in this place long, as they are changing the regiments around. We are the only company of the First here now. The other three companies left today. But we will have it easy, no matter where we go, as there is no more fighting going on."

Under date of May 21, he had this to say: "We are getting our hard earned rest at last. We have been at headquarters for two months. The First is going home this year some time, and our commanding officer thinks we will either be stationed at the Soo or Fort Wayne, Detroit. So if nothing happens, I will be home to eat Christmas dinner. Don't worry about me as I am in good health. Well, how is old Marquette? Everything must be blooming there now. This is the hottest time of the year here; that is May, June, July and August. I get my mail regular here, but do not think we will be here much longer as the regiments are being moved about. The chances are we will go back to Cattaraugus, at any rate I hope so, for it is a much nicer place than this."

BIG CARGO OF ORE.

Steamer Frank W. Hart Takes Out 5,700 Tons—Is Short of the Record.

The steamer Frank W. Hart, of the Gibraltar fleet, yesterday took out 5,700 tons of ore at the South Shore docks. Her cargo is one of the largest loaded in the lower harbor this season, but it falls several hundred tons short of the cargoes carried by the steamers Angeline and Presque Isle, of the Presque Isle Transportation company, which load at the upper harbor. The Angeline as a rule takes out 6,300 tons and the Presque Isle 6,100. A rather peculiar fact in this connection is that the Presque Isle measures more in gross tonnage, but is unable to carry as much as her sister ship. The difference in carrying capacity is attributed to the difference in the weight of the material used in the construction of the boats, which are built along the same lines.

Soo Canal Passages.

Sault Ste. Marie, July 18.—(Special.)—Yakima, 8 last night; Mitchell, Chickamauga, 9; Siemens, Manda, 9:40; Republic, Panther, 11; Major, 11:40; Pioneer, Natmooga, 1:20 a. m.; Grover, 2; Pentland, 3; Northern Light, 4; Chasedy, 4:30; Roman, Corliss, 5; Wilson, Wade, 6:20; John Owen, C. Tower, Jr., Twin Sisters, Majestic, Isoco, Jeanette, 7; LaSalle and whaleback, 8; Lindsay, Interlaken, 8:40; Sackem, Oliver, 9:30; Moore, 9:40; Blanche (steel), Castalia, 11:20; Malietos, Marsala, 11:40; Sauber, London, New York, 1 p. m.; Smith, 2; Gates, Leuty, Botsford, Gardner, Case, 3; Schuykill, Lansing, Crosthwaite, Ellwood, 4; Carnegie, 6:20; Fairbairn, Krupp, 8.

Harbor Gossip.

The clearances from the L. S. & I. dock yesterday, were the India and Burma, for Deseronto, Ont.; the Columbia, for Toledo; the Pontiac, for Buffalo; the Wallula, for Ashtabula, and the Yakima, for Erie. The arrivals were the Prati and Athens, Louisiana, J. W. Moore, Twin Sisters and the Pioneer and Chattanooga.

These vessels took out cargoes from the South Shore docks yesterday: Re-

public, Hart, Wawatam, and Grover, all of which cleared for Cleveland.

GOVERNOR HERE TODAY.

Coming This Morning to Attend a Meeting of the Prison Board.

Marquette for the next couple of days will entertain the chief executive of the state, Governor Aaron T. Bliss is due to arrive in the city at 8:05 o'clock this morning, coming from Lansing via Chicago and the Northwestern road, and is expected to remain here until some time on Monday. The purpose of his visit is to attend a meeting of the board of control of the branch state prison. Ex-officio he is a member of the board, but as he has never as yet met with his associates—M. H. Moriarty of Crystal Falls, John Hennes of Menominee and F. O. Clark of this city—he has taken this opportunity, while business is slack at the state capital, to attend this month's session. The meeting, which will be held today, will take place at the prison and will be the occasion of an inspection of the institution by the governor. Mr. Bliss, it is understood, will be quartered at the Hotel Marquette while here.

CARTER HARRISON HERE.

Chicago's Mayor Comes to Spend a Vacation Up the Lake.

Mayor Carter Harrison and Mrs. Harrison of Chicago arrived on the Northwestern train yesterday morning and soon after left on board the steamer Priant for the Huron Mountain club-house, where the Harrison children have been since June 21. The mayor expects to be in Pine River for three weeks, and then he will return to Chicago to begin his preparations for killing a few grizzly bears in the far west. He declares he will not notice any other kind of game unless it forces itself upon him. Holding a marksman's medal in the Schuetzenverein, he believes there are others besides President Roosevelt entitled to the distinction of being a mighty hunter. While in Huron mountains Mayor Harrison will devote most of his time to fishing. During his absence Corporation Counsel Walker will be acting mayor.

DIDN'T WAIT FOR TRAIN TO STOP.

Charles Johnson, a Section Man, Loses a Leg at Shingleton.

Charles Johnson, a section man residing at Wetmore, met with an accident at Shingleton yesterday morning by which he lost his left leg. Johnson had boarded the morning train to get to the scene of his day's work, but on arriving there he did not wait until the train had stopped, jumping off while the cars were still in motion. The man slipped, and several of the wheels passed over his foot and leg, badly crushing the limb. Johnson was brought here on the train arriving at 2:50 in the afternoon and was taken to St. Luke's hospital, where the leg was amputated below the knee. Dr. A. W. Hornbogen performing the operation. The injured man is vigorous and hardy and there are no fears that his accident will be followed by fatal results.

TO CANADA NEXT WEEK.

The South Shore's first excursion to the Shrine of Ste. Anne de Beauspre leaves Duluth Sunday night, passing through here Monday morning. This is only for the benefit of the people residing on the west end of the road, the excursion for the copper country and iron country people leaving Gribmet Tuesday night and passing through here at 5 o'clock Wednesday morning. A large number of Marquette people will make the trip, among them Bishop Eis, who will be accompanied by several of the priests of the diocese.

MR. ROGERS MUCH IMPROVED.

Rev. J. M. Rogers, who has been undergoing treatment at St. Luke's, is very much improved but will be unable to conduct services at the Protestant church tomorrow. Mr. Rogers is suffering from blood poisoning, caused by a spider or mosquito biting one of his arms, and was compelled to undergo an operation. The arm was very badly swollen, and at one time serious consequences were feared. The pulp at the church will be filled tomorrow by Rev. W. T. Johnson of Detroit.

KNIGHTS GOING TO HANCOCK.

The Marquette Knights of Columbus will go to Hancock in a body Sunday to participate in the ceremonies incident to the institution of the new council in the copper country. The members will leave here in a private car attached to the 7 o'clock morning train and will leave for home after the exercises, probably on the train arriving here at 5 o'clock Monday morning.

SMALL BLAZE YESTERDAY.

A fire on the roof of the old Pencil building at the corner of Bluff and Front streets about 10:30 o'clock yesterday morning gave the Morse Hose company a little practice work. The blaze is supposed to have been started from a spark. The fire ate its way down into the attic and resulted in about \$25 or \$35 damage. It was quenched by the use of the chemicals and a little water.

ASSEMBLY THIS EVENING.

The second assembly of the summer season will be held at Fraternity hall this evening, with dancing from eight until twelve. It is desired that all be at the hall as soon after 8 o'clock as possible. The ideal orchestra will furnish the music. There will be one additional piece this evening.

MACHINERY FOR MINE.

A machinery plant, consisting of boiler, engine and hoist, has been secured from D. W. Powell for use at the Daniels property in the Sauk's Head district and is now being overhauled at the Lake Shore Engine works. It will be taken up the lake and installed next week.

Let us speak of man as we find him, and ensure only what we see, Remembering that no one can be perfect, Unless he uses Rocky Mountain Tea.

LUCKY "DRUMMER" BURNS.

Article in Mining Journal Tells Him He Is \$7,500 to the Good.

W. S. Burns, a traveling man who makes his headquarters at Grand Rapids and who arrived here yesterday to stay over Sunday, purchased a Mining Journal on the train while enroute here and, settling comfortably back in his seat, started to peruse the news columns. He read the telegraphic dispatches and then turned his eyes to the fifth page, where his attention was immediately directed to the leading article. He had only read a few lines of this when it was noticed by his fellow passengers that Mr. Burns' eyes were sticking out like saucers and that he seemed to be greatly flustered. He read on further, and was soon heard to remark, "Well, I'll be"—what the other word was being just then lost amid the rumble of the train.

Inquiries made by curious passengers developed that the article in which Mr. Burns was so interested was the account of the remarkable rise in the price of the stock of the Central Oil company of Kentucky, and also that Mr. Burns was the owner of seventy-five shares which had cost him but \$5 per share. He purchased the stock only a few months ago on the idea that the investment was a good gamble anyway and had almost forgotten the fact until he saw the article in yesterday's Mining Journal stating that the last transfer of the stock had been made on the basis of \$100 per share and that the issue was so closely held that there were practically none of the shares on the market. Mr. Burns' shares are thus worth \$7,500, and of course he is much elated that he did dabble in Kentucky oil shares. Last night at the Hotel Marquette he was receiving the congratulations of his fellow knights of the grip and it is hinted that many an arm was crooked at the genial Grand Rapids man's expense.

SUNDAY AT THE CHURCHES.

First Baptist church, Rev. H. E. Purinton, pastor—Morning, 10:30; sermon subject, "The Influence of the Church." In the evening, at 7:30, the pulpit will be occupied by Rev. J. F. Lewis of Ann Arbor, assistant state superintendent of the anti-saloon league. Young People's meeting at 6:30, in charge of Miss Ella Maher. All are cordially invited to these services.

German Lutheran—There will be services in the evening at 7:30, conducted by the pastor. In the morning at 10 o'clock Rev. Carl Appeler will hold services at St. Paul's church at Green Garden, with holy communion and Sunday school.

St. Paul's cathedral—Eighth Sunday after Trinity: Holy communion at 7:30 a. m.; matins and sermon, 10:30 a. m.; Sunday school, 12 m.; evensong and sermon, 7:30 p. m.

First Presbyterian—Services both morning and evening, at the usual hours, with preaching by Rev. W. T. Johnson of Detroit.

First Church of Christ, Scientist—Service at church hall, 109 Spring street, at 10:30 a. m. Subject, "Truth." All are welcome.

St. James' church, Chocoley—Evening and sermon at 3 p. m., Rev. Hugh Spencer officiating.

St. Margaret's Mission (Episcopal), South Marquette—Sunday school at 2 o'clock.

ATTENTION CARPENTERS.

All members are requested to attend the regular meeting Friday, July 18, for the purpose of installing officers; also bring card for quarterly review according to Sec. 158d of constitution.

JAS. E. SCANLAN, Recording Secretary, 149 Rock street. (7-15-34)

WHILE JOHNNY SLEEPS

WHEN he was a tender lad his father opened for him a Savings Account. His first deposit was one dollar, but other deposits regularly followed. Johnny is now older. He is the proud owner of a handsome bank account. The account is growing as he grows and earning interest while he sleeps. There are other boys and other parents who might profit from the above.
