## COAL.

## DISASTER ON RAILS

### PANHANDLE LIMITED IS WRECKED NEAR XENIA, OHIO.

### FIRE IN DEBRIS ADDS TO HORROR

### THREE PASSENGERS AND ENGINEER BURN TO A CRISP.

Coal Car Which Had Escaped from a Siding Responsible for the Catastrophe—Engine Struck It at High Speed.

Dayton, O., July 24.—Engineer Clark of Xenia, under his engine, burned to crisp; his fireman of Cincinnati, name unknown, head crushed, right arm broken, both legs cut off; three passengers, two women and a man, burned to death in a Pullman sleeper, and a number of other passengers injured, how many cannot at this hour be learned, is the awful story of the wrecking of the Panhandle limited, bound from St. Louis to New York, tonight at Trebin's station, near Xenia.

The engine, going at high speed, struck a loaded coal car which had escaped from a siding in Xenia and had run down the grade to the danger point, and turned over with Engineer Clark underneath. The cars following piled over the engine. The Pullmans followed and laid across the track at right angles. A gas tank exploded, setting fire to the wreck, and the cars were destroyed. Cries for help were heard coming from one of the Pullmans and helpless onlookers were compelled to see two women and one man burn to death before their eyes, unable to lend aid on account of the fierceness of the flames.

### COACH JUMPS A TRESTLE.

One Person Dead, Several Dying, the Result of Another Ohio Wreck.

McComelaville, O., July 24.—The worst railroad in the history of this valley occurred today at Douda, on the Ohio & Little Kanawha line. The rear coach jumped the track on a trestle and fell forty feet, turning completely over. The coach was completely wrecked. Of about thirty passengers, Miss Gertrude Sherwood of Pottsville, Mo., is dead, and County Commissioner W. F. Light-hiser of Meigsville, O., A. J. Rathbun of Columbus, O., and Charles Bailey of Marietta, O., are reported fatally injured. About a dozen others were more or less seriously hurt.

### Serious Wreck in Nebraska.

Omaha, Neb., July 24.—A westbound passenger train on the Rock Island was wrecked three miles west this afternoon. Fireman Erickson of Fairbury, Neb., was crushed to death beneath the engine. Engineer Porter and Express Messengers Fisher and Caldwell were seriously hurt. It is believed the accident was caused by spreading rails.

### PREACHERS VS. LAWYERS.

Novel Ball Game Played at Springfield With Governor at Referee.

Springfield, Ill., July 24.—Nine prominent expounders of the Gospel and nine disciples of Blackstone struggled for supremacy on the diamond today, and the ministers only lost by one run, the score being 17 to 16 for nine innings. Governor Yates acted as referee at the game and was appealed to from the decision of the umpire in one or two instances. He was escorted to the grounds by the Yates cadets, in full uniform, and made an address and tossed the first ball over the plate. There was a large attendance and \$400 were realized from the proceedings, which will be equally divided between the Home for the Friendless and the Home for Aged Women.

The star play was made by Rev. Alexander Allen, rector of Christ church, who in the sixth inning batted the ball over the fence, making a home run and bringing in three men who were on bases.

### AMERICANS CALL ON POPE.

Pope, July 24.—Pope Leo today received a party of Americans, headed by the Very Rev. E. H. Porille of Brooklyn, N. Y., and including a large number of other American tourists. The reception took place in Clementine hall at noon. The party aggregated two hundred persons.

When the pontiff appeared, preceded by Bishop Thomas O'Gorman of Sioux Falls, S. D., and Bishop John Shanley of Fargo, N. D., he was greeted with hearty cheers. He was carried about the hall in a sedan chair and spoke to each visitor as introduced. The pilgrims presented the pope with a \$1,000 purse.

### FAMOUS MONASTERY BURNS.

Oka, Quebec, July 24.—The celebrated monastery of the Trappists here was entirely destroyed by fire last night. The loss is \$300,000, with an insurance of a third. There were ninety-seven monks in the monastery, all of whom escaped. Ten thousand gallons of cider and 4,000 gallons of wine were destroyed.

### BIG LOSS TO FARMERS.

Springfield, Ill., July 24.—The water in the Illinois river has risen two feet the past two days and now is 19 feet, 12 inches above the low water mark at Havana. The water is pouring through the Lacey levee at two points and the Spoon river levee is also broken. Farmers covering five thousand acres are overflowed.

### IRISH DEBATE IS BITTER.

Policy of the Government Again Vigorously Scored in Commons.

London, July 24.—The debate on the Irish estimates begun yesterday in commons continued acrimoniously this afternoon.

John Dillon, Irish Nationalist, declared that the speech of the chief secretary for Ireland, Mr. Wyndham, yesterday, amounted to a declaration of war against the Irish people. The chief secretary, he said, had enforced a stringent coercion act without a shadow of justification. Dillon reviewed the case of Sergeant Sheridan and blamed the government for failing to prosecute him.

Timothy Healy, Irish Nationalist, who followed, demanded Sheridan's extradition from the United States, though he added he did not think the crown could convict him with an Irish jury.

F. L. Harris, Conservative, here interposed, saying the government was heartily tired of hearing about Sheridan. This statement was received with derisive Irish cheers and Healy continued, describing Ireland as "the sick child of the British empire."

H. H. Asquith, Liberal, former home secretary, supported the demand for Sheridan's extradition.

### BAD BLAZE AT ALBANY.

Albany, Friday, July 25.—Fire this morning destroyed a number of buildings along Beaver street. The loss may reach \$100,000.

## BIG MINE RESUMES UNEASY OVER KING

### PENNSYLVANIA COLLIERY STARTS UP WITH NON-UNION MEN.

### MOVE OF COMPANY UNEXPECTED

OTHER OPERATORS EXPECTED TO TAKE SIMILAR ACTION.

### Batch of Strikers Sentenced for Contempt by Judge Jackson in a Decision Bitterly Scoring Labor Agitators—Angers Mitchell.

Tamaqua, Pa., July 24.—The Lehigh Coal & Navigation company today resumed operations at its No. 12 mine, one of the largest collieries in the region. The move of the company was unexpected. This is the first large colliery to resume and so far the striking men have made no effort to close down the place. It believed the other companies will now make an effort to mine coal.

### Strikers Hit by Court Decision.

Parkersburg, W. Va., July 24.—Judge Jackson, in a decision today punishing for contempt certain miners and citing others on the same charge, admits the right to organize for the protection of legal rights but denies the right to coerce those who wish to continue work "merely to gratify a professional set of agitators, organizers and walking delegates, who roam all over the country as agents for some combination; who are vampires that live and fatten on the honest labor of the coal miners of the country, and who are busy bodies, creating dissatisfaction among a class of people who are quiet and well disposed and who do not want to be disturbed by the unceasing agitation of this class of people."

Judge Jackson classes the defendants in this case among the above and says the injunctions were issued not to restrain or inhibit free speech but to prevent them from coercing those satisfied with employment. Referring to "Mother Jones" recent speech, Judge Jackson says: "Her utterances were the outgrowth of the sentiments of those who believe in communism and anarchy." He suspended judgment in her case because he did not want to gratify her ambition to pose as a martyr.

Thomas Haggerty got ninety days and five others got sixty days in the Parkersburg jail. The Hungarians claimed they had not understood the injunction and were released upon promise not to violate it again. The Austro-Hungarian consul at New York was here to represent them. Including "one arrested later, there were twenty-four Hungarians released in the same manner."

While the sentences given today are considered severe, it is anticipated that Judge Jackson will deal firmly with Secretary Wilson, who has been held in contempt but who is at his headquarters at Indianapolis. District Attorney Bizzard today filed an affidavit that Wilson had violated the restraining order of June 19 by making an inflammatory speech at Clarksburg on July 7 and another at Fairmont on July 8, and asked the court for his arrest. Judge Jackson issued the order.

### Decision Angers Mitchell.

Chicago, July 24.—President John Mitchell, of the United Mine Workers of America, said today that Judge Jackson's decision would be laid before President Roosevelt at once, with protests, and the president will be asked to intercede on behalf of American citizenship. The cases will be carried to the United States supreme court. President Mitchell said: "The decision has imperiled in the courts the rights of all Americans."

President Mitchell tonight left for Wilkesbarre, Pa., where he will take charge of the miners' strike. He said he was confident of success, because the men were standing solidly for their de-

mands and not one had deserted the union as far as he was able to learn. He said the miners were ready and willing to submit their side of the contention to any board of arbitration in the country, and were not at all fearful of the outcome.

Indianapolis, July 24.—Secretary Wilson, of the Mine Workers, received a telegram this afternoon from Parkersburg, W. Va., informing him that a warrant has been issued there for his arrest on the charge of making inflammatory speeches in disregard of the court's injunction. Wilson expects that a deputy marshal will come here for the purpose of taking him before Judge Jackson, at Parkersburg.

At 11 o'clock tonight, Secretary Wilson had not yet officially been notified a warrant had been issued for his arrest by Judge Jackson. He says he is ready to go to West Virginia if wanted, as he has done no wrong. The speeches, he said, were mere peaceful appeals to the men to stand by their cause. He smiled when it was stated his speeches were referred to as inflammatory.

### Terms of Michigan Miners.

Saginaw, Mich., July 24.—The striking miners in the bituminous coal fields of Michigan have submitted a counter proposition, accepting six cents per ton less for mining on the condition the operators push the cars by machinery, or otherwise; also that the engineers and firemen above ground receive an eight-hour day.

### TO CONFER WITH PRESIDENT.

Washington, July 24.—Secretary Shaw left at midnight for a consultation with the president at Oyster Bay.

## NERVOUSNESS DISPLAYED IN ENGLISH OFFICIAL CIRCLES.

### HIS MAJESTY'S RECOVERY SLOW

MAY AGAIN BE NECESSARY TO POSTPONE THE CORONATION.

### Apprehension Also That if the Ceremony Should Occur on Aug. 9 the Severe Strain Will Prove Too Dangerous an Undertaking.

London, July 24.—J. Pierpont Morgan was the guest of honor at a banquet to night which was attended by Premier Balfour, most of the English cabinet officials and many diplomats and other prominent men.

A feeling of uneasiness prevailed the dinner with regard to King Edward's condition, even leading members of the cabinet displaying nervousness lest his majesty should be unable to fulfill his duties at the coronation ceremony.

This was due, to no little extent, to a statement of the doctors that the king is not yet allowed to talk, and to the somewhat natural apprehension that the severe strain of tonight's house will prove too dangerous an undertaking. There was not the slightest whisper that the king is worse than the bulletins indicate. The only fear was that the doctors had been possibly too optimistic in setting the date of the coronation for Aug. 9.

Mr. Balfour somewhat allayed the feeling of nervousness by explaining that the doctors had been instructed that under no consideration whatever must they decide upon the date for the coronation unless they were absolutely positive the king would not disappoint the people again. The premier pointed out that as the doctors had shown so far such splendid judgment, it would be presumptuous to doubt their judgment now, however difficult it might be for laymen to understand how a patient who could not stand up today could be crowned on Aug. 9.

There is no doubt, however, that the cabinet will follow anxiously the king's convalescence during the coming week.

### MILLIONS FOR THE SOO.

### Big Appropriations Recommended for Work in St. Mary's River.

Washington, July 24.—The chief of engineers today received annual reports from several of the officers in charge of river and harbor improvements, making estimates for the fiscal year 1904. Among them is that of Major H. W. Bixby of Detroit, Mich., on improvements connecting the great lakes, recommending the following:

St. Mary's river, at the falls, \$ 682,000  
Hay Lake and Neeshich channels, 1,000,000  
To complete above project, 4,000,000  
Detroit river, 500,000  
To complete above project, 1,250,000

### TAWNEY HAS FIGHT ON HANDS.

Minneapolis, July 24.—James A. Tawney, representing the First Minnesota district in congress, is to be opposed for re-nomination in the Republican primaries by State Senator Knatvold, who announced his candidacy today. Knatvold will make the fight on the Cuban reciprocity question, upholding President Roosevelt's position. Tawney was the leader of the "insurgents" in the house.

### TO PLEAD FOR LIFE OF SON.

Cleveland, July 24.—The mother of Dr. Russell Wilson, the Ohio physician, will leave for Bluefields, Nicaragua, tomorrow to make a plea for the life of her son under arrest at Bluefields, charged with being a member of the filibustering expedition against the Nicaraguan government.

## BIG FIGHT TONIGHT

### JEFFRIES AND FITZSIMMONS BATTLE AT SAN FRANCISCO.

### CHAMPION IS PICKED TO WIN

ODDS OF TEN TO FOUR FAVOR NO LARGE BETS MADE.

### Pugilists Are Both in Splendid Condition and Do Not See How They Can Lose—Cornishman Heavier Than in Former Contests.

San Francisco, July 24.—The eve of the heavyweight championship fight finds both principles asserting that they are in prime condition. Each one is also equally confident of getting the decision. Neither sees how he can lose. Both spent the day quietly, cutting out practically all work.

Jeffries said tonight he never felt better and was pleased to hear that Fitzsimmons was in good condition. "I hope to prove to the world that the hope story he sprung the last time was without foundation," said the champion.

Fitzsimmons spoke sneeringly of De-laney's statement that all the Cornishmen wanted was the short end. "What I want," said Fitzsimmons, "and what I am going to get, is the championship. That is everything to me."

### Champion the Big Favorite.

The odds in the betting range from 10 to 4, but up to the present time no large bets have been made.

George Dawson, who has watched over Fitzsimmons like a mother over a child, is satisfied with the condition of his charge. From now on Bob will build up in such a way that he will enter the ring heavier and stronger than he has been on any previous occasion.

Fitzsimmons has paid particular attention during his long series of training to developing modes of attack and defense applicable to an opponent who assumes the crouching position of the champion. He has had Jeffries "Hank" double up much like Jeffries when in fighting action, and has studied out ways and means to find openings to land effectively.

The champion's defense was letter perfect when he defeated Fitz at Coney island, a fact well remembered by the old fellow. He admits he fought like an amateur upon that occasion and that he "let Jeff" cheaply. He says he has been drilled by that fight with careful lines in tomorrow's fight. He knows he is going against the biggest, strongest, and heaviest man that has held the title of champion in this country, and that is why he wishes the rules strongly enforced.

### Is Full of Confidence.

"If Jeff licks me," he said yesterday, "I want him to do it with clean blows and not from exhaustion from being lugged nor from shoulder butting. I am giving away too much weight and do not want to lug that extra weight around the ring."

"I will win the fight on Friday night. If I did not think I would be able to reserve the decision awarded to Jeffries at our first meeting I never would have signed for a second. Some people think I am on the decline and they will change their minds, however, when they see me stripped for the fray, for they will then realize that I am huskier and stronger than ever. I have not done growing yet, as a comparison of my measurements with those of past events will show. I want to win back the championship and then retire, for I know the honor is one that cannot be held a great while by any one man."

"In going against Jeffries I am picking the biggest and most powerful athlete of modern times for a contest. He is the champion, and the man I will have to vanquish in order to become re-possessed of the title he now holds. If I win over him I shall have to look no further for rivals, as I have whipped all other heavyweight candidates for the championship."

### Jeffries in Fine Condition.

The big fellow also slowed down in his work today. He walked around Lake Merritt, boxed four good rounds with his trainer and worked about thirty minutes in the gymnasium. He weighed 214 pounds this morning and by cutting out vigorous exercises hopes to pick up from four to six pounds between now and the call of time.

De-laney is happy that the end is near at hand. "Jeffries is also pleased, and this morning said: "At this time, one day before the battle with Fitzsimmons for the championship of the world, I can truthfully say that I feel bigger and stronger than at any time during my career. I have trained long and faithfully for the event, and have reached a state of perfect condition. I do not think the man lives who can whip me, and I shall enter the ring fully confident that I will leave it a victor."

"I have made a study of Fitzsimmons and think I know his methods better than he does mine, for I feel that during the last three years I have improved greatly while he has but little. If I win this battle I shall then direct my attention to James J. Corbett, whom I have already promised a fight."

### A Victory for Joe Gans.

Oakland, Cal., July 24.—Joe Gans knocked out Rufus Turner of Stockton, Cal., in the fiftieth round tonight.

### TODAY'S WEATHER.

Washington, July 24.—The following is the weather bureau's forecast for Upper Michigan: Showers Friday and Saturday; fresh south winds, becoming west.

DAILY MINING JOURNAL.

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

Marquette, Mich., July 25.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Former Senator Richard Francis Pettigrew says:

Mr. Bryan will not be the candidate of the regular Democracy in 1904, but he and his friends hope that he will have much to say regarding the platform and the management of the campaign.

Democracy who feel with Pettigrew may as well begin worrying about their new party now. Bryan will not be the candidate of the regular Democracy in 1904, nor, unless all signs are at fault, will he have much to do with the framing of the platform.

It has cost Major Glenn, Fifth infantry, a month's suspension and a fine of \$50 to administer the water cure to Filipinos.

As an additional motive a contest had been inaugurated in Schoolcraft county by the Shelden's supporters without the slightest foundation for such action and with the very evident purpose of stealing the control of the preliminary organization away from Mr. Young.

The whole situation was submitted to the regular credentials committee of the convention and the Shelden delegates from the Shelden were seated. With this decision the Journal is satisfied and no more loyal supporter of the Republican ticket from top to bottom will be found than this newspaper.

However, in the future as in the past it will be found in the van of the fight for the election of the Republican ticket and the control of the Republican organization by the whole party and not by any one man.

DEMOCRATIC COUNTY CONVENTION. The Democratic convention for the county of Marquette will be held at Andrews' hall, in the city of Ishpeming, on Monday, the 28th day of July, A. D. 1902, at 1:30 o'clock p. m.

IS STRICTLY A Union-Made Cigar, manufactured by JAEDECKE BROS., Ishpeming, Mich.

Dr. Fowler's Extract of Wild Strawberry. A boon to travelers. Dr. Fowler's Extract of Wild Strawberry. Cures dysentery, diarrhoea, seasickness, nausea, Pleasant to take. Perfectly harmless.

Dr. Fowler's Extract of Wild Strawberry. Cures dysentery, diarrhoea, seasickness, nausea, Pleasant to take. Perfectly harmless.

Dr. Fowler's Extract of Wild Strawberry. Cures dysentery, diarrhoea, seasickness, nausea, Pleasant to take. Perfectly harmless.

COMPARATIVE PEACE.

Danger of any split in the Republican ranks in Chippewa county is avoided by the action of the Soo Journal in declaring its intention to support the regular Republican nominees. It will be recalled that there was a "bolt" of the "anti Shelden" men from the regular congressional county conventions, and that the "bolters" sent a contesting congressional delegation to Marquette, avowedly "anti Shelden" in its makeup.

The "anti-kissing" crusade which is now in favor with German railway authorities and with some railway authorities in the United States, gets no support from the Detroit & Cleveland Steam Navigation Co. Hon. A. A. Schantz, in discussing the matter, said, "they seem to enjoy it, so let them go ahead," thus implying the privilege of kissing, to friends and relatives, on any and all of the corporation's property.

The Journal is Republican first, last and all the time and will in this campaign and in all future campaigns support the Republican ticket from governor to coroner. At the same time the Journal has no apologies to make for its recent course in protesting against the fraud and corruption used by the Shelden men in the caucuses at which delegates were elected to the Marquette convention.

It is pleasing to notice that highly satisfactory progress is being made toward bringing the Panama canal project into a form which will permit American construction upon the work to speedily begin. The authorities at Washington, it is said, have received the best assurances from the highest official quarters that there is nothing in the corporate conditions of the so-called new Panama Canal company which prevents those who represent it from disposing of that property to the United States government.

One of the bright and particular features of the meeting of the Upper Peninsula Press association was the Peter White punch, dispensed under the direction of its creator and sponsor at the Presque Isle pavilion Wednesday. The visiting scribes differed about many things in connection with their jaunt, but they were unanimous in their verdict of the punch. They pronounced it the very quintessence of punchy perfection, and were ready to barter or beg for the secret of its composition.

Senator Burton of Kansas, who was a consistent opponent of the administration policy of reciprocity for Cuba during the recent session of congress, now says that if the people of Kansas want him to line up with the administration forces he will do so, but he adds, with characteristic assurance, that he has not found one man who does not heartily approve of his course, this in the face of the disapproval, evidenced in drastic language, of a large section of the Republican press of the Sunflower state.

The death of John W. Mackay recalls vividly the day when Nevada was discovered to have a rich share of the world's treasure of silver. In 1873, after undergoing discouragement upon discouragement, Mackay and his partners struck their bonanza. In 1874 the Virginia Consolidated's output was \$5,000,000 and in 1875 it had leaped to \$16,000,000, the production in the succeeding few years showing the same astounding rate of gain.

Uniformly the isthmian canal act is called the "Spooner bill," says the St. Paul Dispatch. Minnesota enters a protest against this transfer to Wisconsin's senator of a solution of the isthmian question originated by one of Minnesota's representatives. It was Judge Morris who conceived the idea of leaving the choice of route with the president, and he offered it in the house as a substitute for the Hepburn bill which adopted the Nicaragua route, where it received about 160 votes.

Despite the manifest impropriety of the discussion, there continues to be considerable talk of a possible annexation, at an early date, of Cuba to the United States. The opinion of the Cubans on the question is said to be divided. Some are heartily in favor of annexation, and others believe that the republic should be given a fair trial, before any change is seriously considered.

The Upper Peninsula Press association has come and gone. If its members did not thoroughly enjoy their outing, it was not the fault of the good citizens of Marquette and Munising. The business men of both cities placed the local newspaper men under heavy obligations by the hearty way in which they co-operated to help entertain the visitors, who, The Mining Journal as quite confident, left Marquette and Munising well satisfied with their reception. The Mining Journal takes this opportunity of thanking the Marquette gentlemen who so ably assisted in carrying out the local program, which was notable for the completeness of its details and the adequacy of its arrangements. The visitors were busy from the time they reached the

HIGH-PRICED FARM LANDS.

Some of the Costliest of Acres Are in the Canary Islands. Over 2,000 steamships annually visit the Canary islands which lie in the Atlantic west of the Sahara Desert. In fact most steamers traveling between European ports and South America and Africa touch at the islands of Grand Canary or Tenerife to recel. The captain of an English steamship recently said that he knew of no place where coaling might be done more expeditiously than at Santa Cruz, the port of Tenerife.

Thus the Canary islands are of considerable importance in the world's commerce. They are also of much use to Europe because they grow fruits or vegetables which Europe cannot produce or which mature in the islands before they are planted in more northern countries. The Canary islands, in fact, have much the same relation to some European countries that Bermuda with its early potatoes and onions has to our market.

There is comparatively little rainfall in the islands. The result is that all farm lands which are favorably situated for irrigation bring an enormous price. In fact the prices asked for tillable land would be regarded almost everywhere else as exorbitant. For example, all the best lands in the environs of the city of Las Palmas are planted in bananas. A well-watered hectare of banana plants yields a clear profit of \$500 a year, or about \$200 an acre. The reason is that not a hectare of the best lands situated on the port of Las Palmas at an altitude of less than 500 feet can be bought for less than \$5,000 a hectare. It is doubtful if there are many areas of cultivated lands the world over that are held at so high a price.

European countries greatly appreciate the bananas they receive from the Canary islands. The fruit is sent principally to London. One of the steamship lines which dispatches a vessel every week from Las Luz, the port of Las Palmas, carries from 10,000 to 20,000 bunches. There are other important sources of bananas in the other islands and all the steamers in the island trade are specially fitted for fruit transportation.

Another export which has had large development is tomatoes. They are shipped while still unripe, each tomato carefully wrapped in paper, and packed in little cases containing only 50 to 100. Potatoes of the very best quality are also becoming an important shipment, and the tobacco industry, which has developed considerably in the past few years, is another of the agricultural resources that is swelling the exports of the Canary islands.

The people need all the land they can irrigate because there is so large a demand for their products. They are therefore paying particular attention to irrigation. Every stream that can add to the water supplies for their farms is being carefully husbanded. A local company has for years been placing the streams and ponds under contribution and selling the water they carry to the fields at so good a profit that for several years past they have accumulated money for their business and capital from 10 to 20 per cent. This company is now nearly completing the largest irrigating enterprise yet undertaken. It began the work in May, 1898, and it will be finished this summer.

The little city of Arucas, with 12,000 inhabitants, is on the north side of the island of Grand Canary. Around it are many plantations of bananas and tomatoes, making it the most important agricultural region of the island. There is opportunity for much larger development of the farm lands if sufficient water is provided. It is expected that the large works now in progress will supply this need.

In the country some distance from the town is a range of hills down whose northern slope a great deal of water pours during the winter months. A well is building in the form of a half circle, both ends of which abut upon these hills. The wall and the hills will therefore form a complete inclosure. The wall is about 100 feet in height, 75 feet wide at the base and 13 feet at the top. With so formidable a structure it is not likely that the impounded floods will ever break it down. The capacity of the inclosure will be 800,000 cubic meters and the stone and lime used in building it have all been derived from the immediate neighborhood. More than 200 workmen have been constantly employed on the works for the past three years. It is expected with the aid of this resource to add hundreds of hectares to the cultivated lands in the north part of Grand Canary—New York Sun.

"I am using a box of Chamberlain's Stomach and Liver Tablets and find them the best thing for my stomach I ever used," says T. W. Robinson, Justice of the Peace, Loomis, Mich. These Tablets not only correct disorders of the stomach but regulate the liver and bowels. They are easy to take and pleasant in effect. Price 25 cents per box. For sale by the Stafford Drug Co.

VACATION DAYS. Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports. No remedy equals DeWitt's Witch Hazel Salve for quickly stopping pain or removing danger of serious consequences. For cuts, scalds and wounds, "I used DeWitt's Witch Hazel Salve for sores, cuts and bruises," says L. B. Johnson, Swift, Tex. "It is the best remedy on the market." Sure cure for rashes, itchy skin diseases. Beware of counterfeits. Harwood, Ishpeming; Stafford Drug Co.

Sleeplessness. You can't sleep in the stillest night, if your digestion is bad. Take Hood's Sarsaparilla—it strengthens the stomach and establishes that condition in which sleep regularly comes and is sweet and refreshing.

COMPARATIVE PEACE.

Danger of any split in the Republican ranks in Chippewa county is avoided by the action of the Soo Journal in declaring its intention to support the regular Republican nominees. It will be recalled that there was a "bolt" of the "anti Shelden" men from the regular congressional county conventions, and that the "bolters" sent a contesting congressional delegation to Marquette, avowedly "anti Shelden" in its makeup.

The "anti-kissing" crusade which is now in favor with German railway authorities and with some railway authorities in the United States, gets no support from the Detroit & Cleveland Steam Navigation Co. Hon. A. A. Schantz, in discussing the matter, said, "they seem to enjoy it, so let them go ahead," thus implying the privilege of kissing, to friends and relatives, on any and all of the corporation's property.

The Journal is Republican first, last and all the time and will in this campaign and in all future campaigns support the Republican ticket from governor to coroner. At the same time the Journal has no apologies to make for its recent course in protesting against the fraud and corruption used by the Shelden men in the caucuses at which delegates were elected to the Marquette convention.

It is pleasing to notice that highly satisfactory progress is being made toward bringing the Panama canal project into a form which will permit American construction upon the work to speedily begin. The authorities at Washington, it is said, have received the best assurances from the highest official quarters that there is nothing in the corporate conditions of the so-called new Panama Canal company which prevents those who represent it from disposing of that property to the United States government.

One of the bright and particular features of the meeting of the Upper Peninsula Press association was the Peter White punch, dispensed under the direction of its creator and sponsor at the Presque Isle pavilion Wednesday. The visiting scribes differed about many things in connection with their jaunt, but they were unanimous in their verdict of the punch. They pronounced it the very quintessence of punchy perfection, and were ready to barter or beg for the secret of its composition.

THE MARQUETTE COUNTY SAVINGS BANK, MARQUETTE, MICH. Capital Paid In, \$100,000. Surplus, \$100,000.

Receives deposits in sums from \$1 upward. Loans money on real estate and other approved security. Transacts a general banking business.

COULDN'T GET THE MATERIALS. BIG TIME AT CARNIVAL.

Contractor Seymour Gives Up His Cement Work on Quincy Street. Calumet Elks, Clerks and Others Make Merry at Hancock.

Contractor Seymour, who was given a sub-contract by the Barber Asphalt company to put in the cement curbing and gutters on Quincy street, Hancock, preparatory to the work of paving, grew disheartened at his inability to get materials and left town Wednesday evening.

The asphalt company expected Mr. Seymour to do the job up as quickly as possible and he came to Hancock from Flint, his home, for that purpose. He soon discovered that conditions are different in the copper country than they are at Flint in regard to getting the right kind of materials and getting them quick.

He was unable, it is said, to hustle up the materials and consequently gave the job up as a bad one. There is no doubt that he would have done good work, as he is an experienced man in his line and has been very successful. Down around Flint when a contractor wants material for cement work he does not have to hustle out for them, but the dealers in material get after the contractor.

J. B. Robbins, a foreman for the asphalt company arrived at Hancock a few days ago and found that nothing had been done by Mr. Seymour. The company will send another man to Hancock in a short time to do the work.

DIDN'T GET HIS FEET WARM. Pickpocket Corralled Forty Minutes After Landing at Hancock.

Sheriff Wills has taken into limbo one Richard Preston, a smooth, suave-mannered gent, who makes his living by touching up other people's pockets. Preston was apprehended by the officer at the carnival grounds at Hancock not more than forty minutes after the stranger struck town. He came by boat from Duluth.

The sheriff had been notified of Preston's coming by the Duluth police headquarters and had a very good description of him. Preston arrived at Hancock headed for the carnival grounds and scarcely had time to look around before Mr. Wills, who was on the look-out, touched him on the shoulder. Preston was very gentlemanly about it and told the sheriff he would go along without making any trouble. Later he wanted to be shipped right out of town, but he was held over a day.

Preston admitted to the sheriff that he was a gambler. He was very willing to get out of the copper country, and the program yesterday was to put him on an outgoing train last evening. Preston is about forty years of age, a nice appearing fellow, apparently modest and very polite in manner.

Sheriff Wills, speaking of the order maintained at the carnival grounds, said yesterday that it was very good considering the enormous crowds. Thus far no cases of robbery have been reported, although it is known that there is a big gang of pickpockets about. Extra police officers are on duty and every one is strictly on the lookout for suspicious characters.

GIVES \$25 PER MONTH. Good Will Farm Recipient of Mrs. Blanche Hubbell Smith's Generosity.

Mrs. Blanche Hubbell Smith, formerly of Houghton, has written a letter to Superintendent K. A. Myers, of the Good Will farm, enclosing a check for \$25 and advising him that she will donate that sum to the institution every month hereafter. The donations were unasked for and to say that the management of the home is highly pleased would be putting it mildly.

Extensive improvements are now being made on the buildings at the farm which will make the home far more pleasant for the children. Funds are being raised for the erection of the proposed new building. Considering what the institution has to contend with, its work is progressing very satisfactorily.

CONFESSES TO THE SHERIFF. William Sleeman, who was arrested Tuesday evening for defrauding William Sampson, a Hurontown merchant, made a confession to Sheriff Wills yesterday. His game, which he has been playing for some time in copperdom, is one that is bound not to work if tried again, for nearly every merchant is now on to the racket.

Two things in the treatment of nasal catarrh are now fully understood. First: the drying process is a delusion that produces more mischief than benefit. Second: science common sense and experience proclaim Ely's Cream Balm to be instant relief and final certain cure. It cleanses the diseased membranes and never makes the patient sneeze. Price 50 cents. Sold by druggists and by Ely Brothers 56 Warren Street, New York.

WHEN OTHER MEDICINES HAVE FAILED. Take Foley's Kidney Cure. It has cured when everything else has disappointed. People's Drug Store.

J. RANSOM BRIDGE & CO., Stock and Bond Brokers, Members Boston Stock Exchange, 53 STATE STREET, BOSTON, MASS. COPPERS A SPECIALTY.

THE SAME OLD STORY. J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and re-told by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by the Stafford Drug Co.

ATLANTIC'S BANNER YEAR.

The foundation of the fourth head at the Atlantic mill will not be ready for the stamp to begin operations until early in August. The foundation gave a good start in June. A carload of Georgia pine was ordered for use in rebuilding the foundation, but that has been delayed. The mine was in good shape for a record breaking product for the closing year of the company's old charter until the head gave out. The mine supplying about 1,400 tons of rock daily, and despite the mishap the output this year will break previous records.

After Tonopah Properties. The Salt Lake Tribune publishes a report to the effect that the Tonopah company, of London, has extended its campaign of American invasion into Tonopah, Nev., and that Salt Lake as well as other interests are now weighing a proposition in which they will be permitted to share the proceeds of a small mine which will be developed on the Tonopah property at Tonopah, one of those sought, is largely owned by copper country and Philadelphia men.

Smelter Is Successful. The Butte Inter-Mountain recently published a sarcastic description of the new Anaconda smelter at Butte which gives one a very poor impression of it. Other papers have printed articles to the effect that the plant was a failure. John F. Case, superintendent of the Dollar Bay smelters, has returned from Butte where he looked over the Amalgamated plant. He says the smelter is entirely successful and that reports to the contrary are untrue. Mr. Case probably knows as much about the smelting business as any man in that business.

Riches in British Columbia. H. Z. Brock, superintendent of the Northwest Development Syndicate's operations in British Columbia, acting on instructions from the board of directors which held a meeting at Hancock recently, has purchased a ten-stamp mill, a wire-rope aerial tramway and a saw mill outfit, the latter to turn the forest thereabouts into lumber and lumber. Within a very short time the properties, which are being fast developed, will be producers. There are said to be 1,000 tons of ore, which will run \$100 to a ton in sight. Hancock stockholders and others in copperdom are elated with the showing.

TAKES POSITION AT CHICAGO. A. L. Clark, supervisor of the manual training department of the Calumet schools, handed in his resignation to the board Tuesday evening. Mr. Clark has received an offer of a better position which was the cause of his resignation. He will leave Calumet in time to take charge of a manual training school in Chicago early in September. Mr. Clark came to Calumet four years ago. At that time there were thirty children in the department. There are now 420 and six branches of work.

CALUMET BUTCHERS' PICNIC. The annual picnic of the Butchers' association of Calumet will be held at Hancock, Mich., on Section 16 Park on Aug. 20. Committees have been appointed to make the arrangements. The butchers' picnic is an event always looked forward to every year. The principal feature will be a killing contest in which steers will be slaughtered and dressed. The quickest and handiest man will be awarded the prize. The usual dancing and musical features will be provided.

EXCURSIONS TO THE CANAL. The Booth line, which runs the popular steamer Argo between Duluth and Portage Lake points, has decided to give excursions to the canal every Tuesday evening. This will be good news to Houghton and Hancock people, especially to those who enjoyed the last excursion on the Argo to the canal.

A DOLLAR ADMISION. For the dedication of St. Ignatius church at Houghton, which will take place Sunday morning, Aug. 10, an admission price of one dollar will be charged. Tickets may be secured at DesRocher's drug store.

PROTECTING THE CHAPERON. Breezy Western Girl Shocks Rigid Eastern Ideas of Propriety.

The chaperon is not so much of an institution in the breezy west as she is in the east, and in some quarters there are rather hazy ideas as to her duties and responsibilities. One western girl, the freedom of whose life had made her exceptionally independent, and self-reliant, gave an excellent illustration of this at an eastern summer resort. She was under the protecting wing of an eastern matron with very strict ideas of propriety. The matron found her charge one day sitting on the hotel veranda with a strange man, and naturally she was perturbed. She took a chair reasonably near them, to give the girl a chance to present the young man, but the girl ignored her. Finally, in desperation, the matron tried to instruct the girl by signals what to do, but the latter only smiled and shook her head.

When the young man left, the matron asked who he was. "Oh, he's from Denver," answered the girl. "It is a chaperon's duty to decide who the proper acquaintances for a young girl," explained the matron. "You should have presented him to me." "Suppose so," answered the girl, nonchalantly, "but you see he hasn't a very good reputation, and so I thought it better you shouldn't meet him."

On another occasion this girl, who thought it her duty to protect the chaperon, was present when an international marriage was under discussion. "Well, she announced decisively, 'I'd never buy a husband, anyway.'"

"Oh, this wasn't that kind of a marriage," explained one of the other girls. "Of course, she's rich, but she didn't have to settle any part of her fortune on him. He is merely to have so much a year."

"Perhaps that's safer," admitted the westerner, without any effort to conceal her contempt, "but buying on the installment plan always seems to me unsatisfactory and cheap."—Boston Journal.

COPPERDOM BREVITIES.

Congressman Sheldon has gone to Chicago. The steamer Argo, of the Booth line, will give an excursion to Duluth tonight. W. C. Calverley of Houghton left for Port Arthur Wednesday on the steamer Ironquill.

Assa Stannard of Greenland was a visitor at the Elks' carnival at Hancock yesterday.

J. A. Close, Jr., and wife of Hancock have left for Isle Royale for a few days' outing.

"The Burglar and the Wait" will be the attraction at the Houghton Armory Opera House on the evening of Aug. 12.

Returns of the Jeffries-Fitzsimmons fight by rounds will be received at Sam O'Connell's saloon, Houghton, this evening.

The Epworth leagues of Calumet will run an excursion on the steamer Argo from Hancock to the Huron islands today.

George Robinson of Ontonagon was a Houghton business visitor yesterday and incidentally took in the carnival at Hancock.

The extra bill boards put up throughout the county to advertise the Buffalo Bill and Ringling Bros' shows are being taken down.

The Misses Josephine and Margaret Cummings of Bessemer are guests of their cousin, Eugene Murphy, Hancock street, Hancock.

Rev. E. M. Scott, of the Portage Lake Baptist church at Hancock, will address the young men's meeting at the Hancock Y. M. C. A. Sunday afternoon.

Owing to inadequate school facilities at Atlantic, a new structure will be erected there. C. K. Shand, a Calumet architect, is preparing the plans.

Hancock will receive \$150 revenue from liquor dealers on licenses charged up by the village. The money will be used to pay the extra policemen on duty this week.

The Calumet and Dollar Bay baseball teams will play Saturday afternoon at Calumet. Thus far each team has defeated the other twice. An exciting contest is promised for the rubber.

The remains of the late William Evans will reach Calumet this morning from Montana. The funeral will be held from the residence of Mrs. A. B. Simonsen at 2 o'clock tomorrow afternoon.

The funeral of the late Mrs. J. E. Hoekings of Hancock was held at 2 o'clock yesterday afternoon from the M. E. church. Rev. A. R. Johns officiated. Burial took place at Lake-side cemetery.

The steamer Osceola, of the L. M. & L. S. T. Co., arrived at Houghton bound up yesterday and the steamer Peerless will take on a hundred tons of copper before clearing.

Mr. Fogleson, employed at Brownorsky & Abel's liquor store at Houghton, slipped and fell down the cellar steps in the store Wednesday afternoon and broke his collar bone. He will be laid up several weeks.

Richard Thomas of Marquette is now employed in the Copper Range freight depot at Houghton. He has removed his family to Houghton. Mr. Thomas was formerly employed by the L. S. & I. road at the Queen City.

The inquest in the case of Ewing L. Jones, the Michigan College of Mines student drowned in Portage lake, was held before Coroner Brand at Houghton yesterday morning. The jury rendered a verdict of accidental drowning.

The condition of J. W. Squire, the employe of Ryan's store at Hancock, who had his back broken by the tipping over of a heavily loaded delivery wagon Tuesday afternoon, remains about the same. His recovery is doubtful.

Tony Hammos, of the Arcadian location, arrested for the larceny of \$35 from William Clark of the Arcadian, has confessed to taking the money. Hammos at present is serving fifteen days in the county jail for disorderly conduct. He will be held for the larceny charge.

A grip containing a set of tools belonging to a piano tuner of Calumet were recently seized on a street car and given to the sheriff, who started in to look for a professional safe-cracker. Meanwhile the piano tuner was looking for his tools. The mistake was finally explained and the matter made right.

Mrs. William Laity of Elbowtown, near West Hancock, died at 4:30 o'clock Wednesday afternoon after a month's illness. She was twenty-four years of age, and is survived by husband and two children. The funeral will be held at 2 o'clock this afternoon from the Hancock M. E. church, Rev. A. R. Johns officiating. Interment will take place at Forest Hill.

The next regular drill of Company G, Houghton Light Infantry, will be held Monday evening. After drill a regular business meeting will be held and a caterer for the coming encampment will be selected. Examination to fill vacancies existing in the number of corporals will be held Tuesday evening, July 28. The results of the examinations will be announced at the drill the following Thursday evening.

At a special meeting of the Red Jacket council Wednesday evening, it was decided to separate the office of village clerk and secretary of the water board. The clerk has kept both sets of books in the past, but the council has finally come to the conclusion that there was too much work for one man to do. A man to act as secretary of the water board and to look after the accounts will be selected by the council.

Michael Wise of Marysville, Mont., died at the home of his daughter, Mrs. Ed Knepper, South Lake Linden, Tuesday evening. Mr. Wise was formerly a resident of copperdom, at that time being an employe of the Quincy mine. He was well known here and was on a visit to his daughter when he was taken fatally ill. Tuberculosis was the cause of death. Mr. Wise was forty-five years of age and is survived by wife and three children. The funeral will be held this morning from St. Cecilia's church.

Foley's Kidney Cure purifies the blood by straining out impurities and tones up the whole system. Cures kidney and bladder troubles. People's Drug Store.

A FAIRISH DAY.

What Coppers, the Grains and New York Stocks Did. Paine, Webber & Co. said of the Boston market: "It looks as if the amalgamated interests got too much of a following yesterday and the day before and were trying to discourage the over-enthusiastic copper bulls."

The Chicago Grains. W. H. Laidley & Co. said of the Chicago grain market: "Wheat opened slightly lower, upon better weather and bearish reports from the northwest. The market dragged and closed 1/2 under last night. St. Louis reported heavy receipts and the indications point to an increase. Price Current is construed to be slightly bullish."

Specialties Weak. "The market at the opening was strong and steady and there was continued good buying in the active list. Rock Island and St. Paul again made record prices on very large transactions. The steel stocks were inclined to be soft, and were not very active. Sugar made a sharp advance and the shorts covered. The tone of the market all morning was good, but in the afternoon there was rather heavy profit-taking and prices sold off and lost most of their gain. Some of the specialties were very weak. The market closed a little better than the lowest. Traders seemed to think that the little shaking out would be of benefit to the market."

MARINE MATTERS. Soo Canal Passages. Sault Ste. Marie, Mich., July 24. (Special)-Up-Tempest, Uranus, Caupon, 8:20 last night; Coralia and whaleback, 10; Kesselslager, Carrington, Murphy, 10:40; Colony, 11:30; Reliance, 12; Mohagan, Mingoe, 6:20 a. m.; Rosedale, Pnobosc, 6:30; Trevor, 9; Eldenboro, Seranton, Langham, 9:30; Iron King, Iron Queen, 11:20; Shaw, 12:20 p. m.; Marina and whaleback, Cort; 12:30; Yale, 1:40; Harvard, 2:40; Midland, Queen, 3:15; Empire City, 3:30; Wm. Palmer and whaleback, Oceanic, 6; Miami, Gebhart, 6:45; Graticuk, No. 24, 7:30; Stephenson, Bell, Republic, 7:40.

Harbor Gossip. The steamer Peerless, bound for Chicago, is due to arrive this morning from Duluth, leaving again at 9 o'clock. The China, from Buffalo is expected in at 10 o'clock, enroute for Duluth. In the United States court Judge Swan has held the steamer Falcon responsible for the collision with the barge H. L. Fryer in the Sault canal in 1900 and severely censured her captain for violating the rules by running two steamers abreast through the canal. The Falcon and steamer Madagascar were moving through the canal in the same direction when they met the Fryer, in tow of the Kalkaska. The Falcon should have fallen behind the Madagascar, but instead attempted to pass, with the result that the suction threw her into collision with the Fryer. The Falcon is held for the damages caused by the Madagascar, which was made a co-defendant, was discharged from all liability. The Falcon cleared last night for Ashabula with a cargo of ore. She came up with a cargo of coal and has been here for a couple of days. She belongs to the Cleveland Cliffs fleet.

A FRIEND'S ADVICE. Will Often Help You Greatly. Read What a Marquette Citizen Says. You may hesitate to listen to the advice of strangers, but the testimony of friends or residents of Marquette is worth your most careful attention. It is an easy matter to investigate such proof as this. Then the evidence must be conclusive. Read the following: Mr. Thomas Price, of 141 W. Ridge street, employed on the S. & I. R. R. as locomotive fireman says: "For a year I was bothered off and on by a good deal with pains through the small of my back and in the kidneys. At times when I stooped I could hardly straighten again and any cold or sudden change in the weather aggravated my condition. I saw Doan's Kidney Pills advertised and went to the Stafford Drug Co. and procured a box. I soon felt they were benefiting me. I have no hesitation in saying that they did me a lot of good." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

BRONCHITIS FOR TWENTY YEARS. Mrs. Minerva Smith, of Danville, Ill., writes: "I had bronchitis for twenty years and never got relief until I used Foley's Honey and Tar which is a sure cure." People's Drug Store.

CITY BREVITIES.

Weather forecast: Partly cloudy with possibly an occasional local thunder shower. Variable winds, mostly southerly. Yesterday's temperature: 7 a. m., 67 degrees; noon, 78 degrees; 7 p. m., 73 degrees; maximum, 80 degrees; minimum, 58 degrees.

Miss Dena Knudsen of Escanaba is visiting her sister, Mrs. J. W. Sparling. Harry Braumhold of Newark, O., is the guest of his sister, Mrs. R. Swisher, North Front street. Frank Connell left for the copper country yesterday afternoon to spend several days with friends. The Ladies' Aid society of the Baptist church will hold a basket picnic at Presque Isle this afternoon. The Ladies' Aid society of the Methodist church will meet this afternoon at 2:30 p. m. at the church parlors. The Ladies' Missionary society of the Presbyterian church will meet this afternoon at 3 o'clock in the church parlors. Mrs. M. E. Aire is home from the Aire cottage at Sauk's Head, where she had been enjoying an outing for three weeks. There will be a dance on board the steamer Priant the evening of Tuesday, July 29. The admission charge will be fifty cents.

A number of Marquette people are planning to attend the funeral of the late George Hayden. The arrangements had not been completed last evening. Among the visitors in the city yesterday were E. H. Uteer of Munising, F. X. Becker of Crystal Falls, W. I. Ely of Gladstone and Webb Harmon of Menominee. Sidney Adams has sold to Dr. F. McD. Harkin lot No. 106, of Hewitt's addition. The property is located on the south side of Michigan street between Pine and Spruce. Elmer Orr of Manistich is in the city for the purpose of proving up a homestead filed on by him several years ago. He is accompanied by W. A. LeDuc and James Richardson. The Misses Grace Ross, Grace Cook and Josephine Hornby went to the copper country yesterday to attend the Rock Island and St. Paul again made record prices on very large transactions. The steel stocks were inclined to be soft, and were not very active. Sugar made a sharp advance and the shorts covered. The tone of the market all morning was good, but in the afternoon there was rather heavy profit-taking and prices sold off and lost most of their gain. Some of the specialties were very weak. The market closed a little better than the lowest. Traders seemed to think that the little shaking out would be of benefit to the market."

Marriage licenses were yesterday issued to the following couples: Joseph Roberts and Myrtle M. Uren of Ishpeming; Kalek Keiski and Alma Mattila of Negaunee, and John Johnson and Frida Erickson of Ishpeming. Theodore B. Cathin of Iron Mountain, who this week assumed the position of deputy warden at the branch of state prison, was sheriff of Dickinson county for two terms and has also served as chief of police of Iron Mountain. The rain interfered with the complete success of the Swedish Crown picnic at the Fair grounds yesterday. Nevertheless a good crowd assembled at the grounds and made the best of the situation. There were races and other amusements during the afternoon. The taking of testimony in the condemnation proceedings brought by the L. S. & I. to secure a right-of-way into the Maas mine property at Negaunee was concluded yesterday, and the arguments of the opposing attorneys followed. The verdict of the jury will likely be reached today. Mrs. G. M. Walker, one of the workers for the Good Will farm and Home Finding association for the upper peninsula, is in Marquette getting subscriptions for the philanthropy. When she returns to the copper country she will be accompanied by four children, whose care the association is about to assume. J. E. Ball experienced some of the tribulations of a chauffeur last evening. His automobile stopped on Ridge street, between High and Front, about seven o'clock and refused to go on. At last accounts darkness had fallen and Mr. Ball was laboring still, incidentally asking himself why he had forsaken horses.

An exciting runaway enlivened Front street shortly after eight o'clock last evening. A single rig, occupied by a man and woman was driving on Washington street, quietly enough, when the horse took the bit in his teeth and made a dash around the corner down Front. The occupants were thrown from the rig on the east side of the street, in front of Manhard's store. The horse then dashed up on the sidewalk in front of Stafford's and all but crashed through the plate glass windows. Fortunately no one was injured, and no particular damage was done. News of the death of George Hayden of Ishpeming was received here yesterday with general expressions of regret. It was a considerable surprise to most of his friends, although a few of his more intimate acquaintances had known for a couple of days that he was in a very critical condition. Through his business connections and his frequent visits to the city, he was about as well known in Marquette as in Ishpeming. His great ability and attainments commanded general respect here, where his unexpected end comes as a severe shock to the circle to which he was intimately known.

I'll brave the storms of Chilkoot Pass, I'll cross the plains of frozen seas, I'll leave my wife and cross the sea, Rather than be without Rocky Mountain Tea. Stafford Drug Co. Get ready for the dance, white trousers and shirt waist. (7-24-17) STIRLING & CO.

A wheelman's tool bag isn't complete without a bottle of Dr. Thomas' Electric Oil. Hoals cuts, bruises, stings, sprains. Monarch eye pain. (7-19-24) CHARLES A. EGGERS, City Treasurer.

MAY YOHE WILL SAIL FOR JAPAN.

On Promise of Return of Jewels She Stops Police Hunt for Strong. New York, July 24.-May Yohe, the former actress, is shrouding her movements in much mystery and it is believed that she is making hurried preparations, as secretly as possible, for a trip to Japan. A number of contradictions by the principals in the case occurred today. Manny Friend, May Yohe's lawyer, and Job Hedges, acting for the Strong family, both said the case was closed. Mrs. Yohe, on the other hand, asserted positively that it was not closed by any means, declaring there had been no settlement with the Strong family. Mrs. Yohe said further that she did not want her daughter to leave her any more. "The case is closed so far as I am concerned," Mr. Hedges said. "Miss Yohe has all her jewels that were pawned in New York and the matter is settled, I think. I will not say where the money that paid the pledges came from. I don't know where Strong is and I don't believe any one of the Strong family knows. I consider the case closed."

"The whole thing is closed up," Mr. Friend said, "and that's all there is to it. I will say that it is likely May Yohe will go to Japan soon, but to meet Strong there, never. I have good reason to believe that Strong is thousands of miles away in another direction and that he has no idea of going to Japan. May Yohe and Strong will not meet, for she is done with him entirely. They are separated for good." Strong, wherever he is, is safe from police interference, for May Yohe, on the promise of all her jewels being returned, has withdrawn her sworn statement against him at police headquarters and has declared herself well satisfied with the outcome of the affair. Even the jewels pawned at Yokohama and at Genoa on the trip around the world are assured her.

BASEBALL. National League. Chicago, July 24.-The locals scored three runs by bunting three hits and on an error and a questionable decision at the plate. It was a pitchers' battle. Summary: R. H. E. Chicago...000030000-3 5 2 Cincinnati...002000000-2 7 2 Batteries: Lundgren and Kling; Hahn and Bergen. Brooklyn, July 24.-Matthewson shut out the locals. THE COPPER HANDBOOK

1902 EDITION.

The new 1902 edition treats of Copper from all standpoints—Historical, Technical, Statistical and Descriptive. It is divided into ten chapters, as follows:

- I. History of Copper. II. Chemistry and Mineralogy. III. Metallurgy. IV. Glossary of Mining Terms. V. Copper Deposits of the World. VI. Copper Deposits of the United States. VII. Leading Foreign Mines. VIII. Lake Superior Mines. IX. American Copper Mines. X. Statistics of Copper.

The work is an octavo volume of 492 pages, set in Brevier type. It is the only volume printed in any language treating of the entire subject of copper, with descriptions of all principal mines, some 700 properties being listed, the descriptions ranging from a few lines to a dozen pages for each, according to importance.

GEORGE HAYDEN DEAD.

The End Came Wednesday Night at the Presbyterian Hospital, Chicago.

By the death of George Hayden, who passed away at 10 o'clock Wednesday night at the Presbyterian hospital in Chicago, Ishpeming loses one of its most prominent and influential citizens.

The announcement of Mr. Hayden's death came over the wires yesterday morning. While his friends were shocked, they were not surprised to receive the sad intelligence, as several messages Wednesday afternoon and evening gave no hopes of his recovery.

Indeed the last telegram, received about supper time, was to the effect that he could live but a few hours.

Mr. Hayden had been ailing for a month or more. About two weeks ago he took to his bed, and from that time until the end he was almost constantly attended by his physician, Dr. G. D. Beech of Beacon, a relative of the deceased, was also with him much of the time.

Dr. Beech, Dr. Felch and Beech, and Mrs. Barber, sister of Mr. Hayden, were with him when he died.

The remains will arrive here this morning at 8 o'clock in Mr. Hayden's private car, which was used to convey him from this city to Chicago.

Mr. Hayden's death will not only be mourned in Ishpeming, but also in the state. No upper peninsula lawyer was better known. Mr. Hayden resided in Michigan all his life and his extensive practice called him to all parts of this and adjoining states.

He has done much to advance the city's interests. He was kindhearted, generous, and a citizen of whom all were proud.

Mr. Hayden was born at Charlotte, Eaton county, Mich., Oct. 23, 1850. After completing his high school work, he attended the University of Michigan and on Sept. 17, 1872, was admitted to the bar at his native place.

In the spring of 1873, Mr. Hayden located at Ishpeming. His great ability and honorable methods brought him recognition and he has been continuously in practice, securing the support of large and representative clients.

During the past few years, Mr. Hayden was extensively identified with various large corporations in this section.

At the time of his death he was general attorney for the Cleveland-Cliffs Iron company and the Cleveland Iron Mining company. He was also prominently identified with the Lake Superior & Ishpeming and Marquette & Southeastern railways.

Mr. Hayden conceived and successfully brought about the building of an extensive railway system in the Indian Territory, known as the Smith & Western, and was its president. He was also president of the Sans Bois Coal company of Indian Territory.

During the past twenty or more years, Mr. Hayden has been identified with the most important litigations in this section, including several cases where millions were involved. He has practiced his profession in all the courts of Michigan, as well as the United States courts.

Mr. Hayden has held many offices of trust in his own community and county. He was prosecuting attorney of Marquette county in 1885-6. He was a city attorney for several years and had been a member of the school board at different times. At the time of his death he held a place on the board, having been elected a year ago this fall after filling an unexpired term.

The deceased was a thirty-two degree Mason and was identified with Blue Lodge of this city, also the Commandery and Mystic Shrine at Marquette and the Consistory at Grand Rapids. He was also a member of the Marquette County and Michigan Bar associations.

Mr. Hayden was married Sept. 9, 1882, to Miss Ida E. Spaulding, who died Jan. 28, 1895. Three children were born, all of whom survive. The oldest is Agnes, age seventeen. The others are George Spaulding, age fourteen, and John Elzey, age thirteen years.

YOUNG PEOPLE'S CONVENTION.

Swedish Mission Societies Will Hold Session Here, Commencing Today.

Representatives of all the Young People's societies of the Swedish Mission church of the upper peninsula will arrive in the city today to attend the annual convention at the church on Bank street.

Some seven or eight ministers are expected and all will be heard at some time during the three days the meetings will be conducted. Among the pastors will be Rev. C. Liden of Chicago, formerly of this city. Professor A. T. Erickman of Minneapolis will also be present.

The opening meeting will take place this evening at 7:30 o'clock. The public is invited to attend.

Tomorrow morning at 10 o'clock the delegates will assemble and dispose of the business for which the convention is held.

At 3 and 7:30 tomorrow there will be public meetings.

Sunday morning at 7 o'clock a prayer meeting will be held. At three in the afternoon there will be a literary meeting.

Professor Erickman will be heard Sunday evening, commencing at 7 o'clock, another public meeting will be held. Rev. Liden will talk to the young people.

On Monday at 10 o'clock the visitors and members of the local society and congregation will go to Cleveland park, where a picnic will be held. Dinner and supper will be served on the ground.

SILVER WEDDING. Mr. and Mrs. C. L. Anderson Completed Twenty-Five Years of Matrimony.

Mr. and Mrs. C. L. Anderson, old residents of this city, celebrated the twenty-fifth anniversary of their marriage at their home, corner Ridge and Maple streets, Tuesday evening.

There were seventeen guests present. They were John C. Parker of Ann Arbor, who is here visiting Douglas, oldest son of Mr. and Mrs. Anderson; Miss Sincox of Bessemer; Gunnar Norberry and wife of Sagola; Rev. M. M. Allen of the Presbyterian church and wife; Mr. and Mrs. B. W. Wright; Mr. and Mrs. J. W. W. Wright; Mr. and Mrs. Harry Harwood; Mrs. O. B. Robinson and daughters, the Misses Adele and Rosalind Robinson. All the children of the family were also in attendance.

The house was beautifully decorated with ground pine, daisies and pansies. A bounteous repast was served. There were addresses by Rev. Allen and Mr. Wright, and presentations of silverware from different members of the party.

During the evening Mr. and Mrs. Anderson received a number of congratulatory telegrams from friends at different places in the upper peninsula.

Mr. Anderson and wife were residents of Ishpeming for some time before they were married. Their union occurred in this city. A few years later they moved from Ishpeming, but eleven years ago they returned and have resided here ever since.

ISHPEMING IN BRIEF. Mrs. George E. Voyer is down from Republic on a visit to her parents, Mr. and Mrs. C. Kennedy.

Miss Ruth Skogborg of Minneapolis is visiting in the city, the guest of August Hendrickson and family.

The practice work of the fire department's running team attracts a large number to the track on Lake street every evening.

MINING CONGRESS.

Official Call Has Been Issued for the Fifth Annual International Meeting.

The official call for the fifth annual convention of the International Mining Congress to be held at Butte, Mont., Sept. 1, 2, 3, 4 and 5, has been issued. It contains a great deal of information relative to the convention, as well as the mining industry in Montana. Only a limited number of the circulars have been received in this section, so that all the mining men who contemplate attending the convention are not thoroughly posted on what will transpire during the five days of the session.

The congress invites mining men to prepare papers on mines, mining, milling, smelting, mining machinery and kindred topics, to be embraced in a program now being prepared.

The Montana State School of Mines is taking a most active interest in the mineral display, and in connection therewith will have an exhibition under the charge of Professor N. R. Leonard, president of the School of Mines, some rare models covering the workings of some of the most celebrated mines of the country, which will prove interesting to all visitors, especially the scientific man.

The congress will be in no sense partisan, the originators recognizing the same high patriotism in all Americans, believing it to be imbued with an equal loyalty to their country and its best interests.

Special rates will be given for the occasion, and all delegates and visitors are assured ample accommodations, and a most cordial welcome by the citizens of Butte and state of Montana.

Governors of states and territories, all friendly nations, mayors of cities and towns, mining exchanges, chambers of commerce, boards of trade, real estate exchanges and all commercial, trade and labor organizations, are urged to appoint representative delegates at an early date, sending their names and postoffice address of each delegate without delay to the secretary.

The representation will be: Governors of states and territories, thirty delegates each. Mayors of cities and towns, five delegates each, and one addition for each 10,000 population or fraction thereof.

Each mining bureau, five delegates each. Each mining exchange, five delegates each. Each chamber of commerce, five delegates each.

Each real estate exchange, five delegates each. Each board of trade, five delegates each. Each miners' union, five delegates each.

Each trade and labor assembly, five delegates each. And all other commercial and business organizations, five delegates each.

Governors of states and territories, members of the United States congress and ex-presidents of this congress, are ex-officio delegates, with all privileges of delegates except those of voting.

QUEER ANSWERS TO INQUIRIES. Odd Communications Which Are Received by the Government.

Of the 80,000,000 people of the United States a very small percentage have any direct dealings with the government. Those who do are usually men of affairs, or probably those who have violated its laws. The government when it goes in search of statistics or other valuable information must sometimes go direct to the people.

This frequently brings to light dense ignorance on the part of many who are more or less prominent in their respective localities. Others become exceedingly conceited when they receive through the mail requests for information from government officials, while another class think it impertinent on the part of the government.

Probably no set of inquiries develops this state of affairs more than those sent out from the Bureau of the Mint of the Treasury Department to the jewelers of the country seeking information as to the amount of the various precious metals consumed by them.

Some have an idea that the whole United States government has focused its interests upon their little shops, and being so flattered at this, make prompt replies. One man wrote to the Mint Bureau saying that he had probably consumed as much as \$4.50 worth of old metal in his business during the year.

Many replies are received apparently conveying the idea to the department that the writer is in fear lest he has violated some law of which he is ignorant, and believes perhaps the Treasury Department is surreptitiously attempting to bring about punishment for the same. The majority of these, however, write unnecessary explanations, and many find it an auspicious occasion to grind their own particular axes.

One writer said: "Would reply to you have consumed \$18,000 Spanish silver coins taken from the Spanish cruiser Cristobal Colon, sunk by the American fleet under Admiral Schley, and it is at the present time being melted into a dinner service for the brave commandant."

ORDER TODAY FOR TOMORROW'S BREAKFAST

J. SELLWOOD & CO.

WANTED—Choppers to cut hard wood. Price \$1.25 per cord. Apply at Thompson & Hodgkins' livery, Ishpeming.

FOR SALE—A team of horses; weight 2,350; ages nine and eleven years. P. J. Dunn, 111 East Pearl st., Ishpeming.

Many of the letters sent out by the department are returned unopened, the postmaster writing across the face of the envelope "dead," "gone out of business," or "removed elsewhere."

An elderly jeweler was recently murdered in Rochester, N. Y. His name, of course, was upon the list of the department, and a circular was sent him. In reply to this some one who had received the circular wrote as follows:

"Mr. B.—died Dec. 4, 1901, and has been out of business ever since."

In some cases the department is addressed as "Gentlemen of the Mint," and one wound up his letter with "Very obligingly yours respectfully." One jeweler, whose business did not seem to be very large, estimates that in the past year he has melted one dime, three pennies and two nickels, also twenty-five Canadian coins. Another reply speaks for itself:

"Yours at hand I must say we died two years ago so that ends that up."

Another writes: "Sincerely regret to inform you that we are not in the jewelry business." Another adds a postscript to his long letter informing the department that there is but one "I" in his name, that in future when communications are addressed to him he will be pleased to have his name spelled correctly.

An enterprising youth replies, saying that he has worked at mending jewelry, etc., but is not pleased with the business, and asks the Bureau of the Mint if it is not possible to get him a job as a detective, and if so he will come on immediately.

One writer has apparently mistaken the Bureau of the Mint for a matrimonial bureau, who, instead of giving the information the department requires, wishes to know if the bureau can furnish him with a wife, that he has lost two wives and has heard there are many girls in the Treasury Department who are unmarried and no doubt would like to have husbands.—Washington Times.

SAVES A WOMAN'S LIFE. To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough.

"Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured."

Sufferers from Coughs, Colds, Throat and Lung Trouble need this grand remedy, for it never disappoints. Cure is guaranteed by Stafford. Price 50c and \$1.00. Trial bottles free.

PEOPLE'S DRUG STORE, Marquette

# AN OLD SORE

Will sour the sweetest disposition and transform the most even tempered, lovable nature into a cross-grained and irritable individual.

If impatient or fault-finding are ever excessive when the body is tortured by an eating and painful sore. It is truly discouraging to find after months of diligent and faithful use of external remedies that the place remains as defiant, angry and offensive as ever. Every chronic sore, no matter on what part of the body it comes, is an evidence of some previous constitutional or organic trouble, and that the drugs of these diseases remain in the system; or, it may be that some long hidden poison—perhaps Cancer—has come to the surface and begun its destructive work.

The blood must be purified before the sore will fill up with healthy flesh and the skin regains its natural color. It is through the circulation that the acid, corrodng fluids are carried to the sore or ulcer and keep it irritated and inflamed. S. S. S. will purify and invigorate the stagnant blood when all sediment or other hurtful materials are washed out, fresh rich blood is carried to the diseased parts, new tissues form, and the decaying flesh begins to have a healthy and natural look; the discharge ceases and the sore heals.

S. S. S. is the only blood purifier that is guaranteed entirely vegetable. It builds up the blood and tones up the general system as no other medicine does. If you have a sore of any kind, write us and get the advice of experienced and skilled physicians for which no charge is made. Book on Blood and Skin Diseases free.

## Negaunee and Vicinity.

(Subscribers to The Mining Journal will please remember that carrier boys are not allowed to receive money on subscription account.)

**AT THE NEGAUNEE MINE.**

**MAY START MINING.**

**Underground Workings in Better Condition Than Before the Cave-In.**

Captain James Piper, who is in charge of operations at the Negaunee mine, is pleased with the outlook. The mine is in good condition again and, from present indications, there is no further danger of any more such cave-ins as occurred in January, when the lives of ten men were crushed out.

For some weeks after the ground went down, the mine was in treacherous condition. Then the loose ground was braced up. The greatest care was exercised in hauling, removing the waste, and doing the preliminary work during the search for the bodies. The timbers put in at that time will stand for many years.

Speaking of the mine yesterday, Captain Piper said that it will now be possible to increase the output. Just before the cave-in, some 1,400 to 1,800 tons a day. The present output is in the neighborhood of 900 tons daily. There are nearly one hundred men less on the payroll than there were at the close of last year. With the four large shafts formerly existing, and several additional ones could be mined each twenty-four hours.

It will now be possible to increase the force and employ all the men to advantage. The greater part of the dead work underground has been done within the past few months and all the bulkheading has been finished.

The United States Steel corporation's lease of the mine expires in September next year, when the property passes to the Cleveland-Cliffs Iron company. Captain Piper says the mine will be in splendid condition when the transfer takes place. During the coming year all the stopes where it is possible to mine ore to advantage will receive attention. The Cleveland-Cliffs people will benefit by the improvements. The transfer will be made without an interruption of operations.

While the underground improvements have been going on, things on surface also have been given attention. The mine was never as well equipped for rapid and economical handling of ore as it is now. The machinery is ample to raise all the ore that can be mined with double the force at present employed.

**BASEBALL SUNDAY.**

The Negaunee baseball team will go to Escanaba Sunday on the Chicago & Northwestern Railway company's excursion. A game has been arranged at the Sandy City. It is said that the Michigan game team will also go down and cross bats with Escanaba mine. With two good games in progress, the lovers of the sport from this county will be well entertained. A number of Negaunee people contemplate taking in the excursion.

**TAG RETURNED.**

The tag attached to the balloon sent up from the Savings Bank store the evening of July 3 was returned Wednesday. It was found near Clarksburg. This rather surprised the proprietors of the store, as it was not supposed that the balloon would travel that distance before burning. The tag was good for a suit of boys' clothes, which the Clarksburg man took home with him.

**CAVE-DWELLERS OF ENGLAND.**

Troglodytes Are Not Yet Extinct in the United Kingdom.

Superintendent Gaffney of the municipal lighting plant is busy extending lines to the Jackson school. An extension of about six hundred feet is being made from the corner of Ferry and Snow streets. The building has been wired. There will be twenty-two incandescents in the school.

Some of the taxpayers, who cannot be given lights, are asking for them. In places where it is possible to run the wires without much expense, the service is granted, but the wires do not extend to all parts of the city, so it is quite impossible to accommodate everyone. Then the capacity of the plant is about reached.

**LOCAL LAONICS.**

A new walk has been built in front of the property on Case street owned by the Isaac Johnson estate.

C. L. Sporely returned yesterday morning from Chicago, where he spent a few days on a business mission.

The Cleveland-Cliffs and Baraga baseball teams will come together Sunday afternoon at the Union park grounds. The game will be called at 3 o'clock.

The Misses Hanna Highland and Mary McFarland of Iron River, Mich., are in the city visiting Miss Mary Milroy. They will remain two weeks or more.

Gideon's Minstrels were greeted with a fair house last night at the local theatre. The troupe leaves the city today after spending over a week here.

Captain J. H. Rough is improving his dwelling on Peck street. A new roof is being built and the building is being painted. The dwelling is occupied by Mrs. Theodore Kruse.

Negaunee people have manifested much interest in the condemnation proceedings instituted by the Lake Superior & Ishpeming Railway company. There is quite a difference of opinion as to the value of the land in question.

The tar walks at the Case street school property are receiving a new dressing. They are being raised about six inches. For some years past the walks have been flooded in the spring, as they have been too low to admit of proper drainage.

The street commissioner and his men are doing splendid work on the walks of the city. Many new walks have been laid within the past few weeks and several have been repaired. The sidewalks have been given very little attention during the past five or six years, and a number are in bad condition.

The First National Bank employees will soon occupy one of the rooms which J. Q. Adams & Son have had for years past. The large room of the two held by the Adams' has been divided for their use. With the additional room, the bank people will have space they have needed for a long time. Louis H. Kellan is doing the masonry work and plastering.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every family. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time.—Lansing, Iowa, Journal. For sale by the Stafford Drug Co.

Women love a clear, healthy complexion. Pure blood makes it. Blood-Stock Blood Bitters makes pure blood.

## Upper Peninsula.

The common council of the Soo has sold to Agent Elder of Trowbridge, Niver & Co. of Chicago the \$200,000 of water works, sewer and general street improvement bonds, which had been on the market for several weeks. Mr. Elder's bid was par and accrued interest and \$100 to pay for printing the blank bonds. He delivers the money to the city in lots of \$50,000 or more, as soon as the bonds are delivered to the First National bank, of Chicago. The deal with Mr. Elder means more than \$4,000 to the city, on the basis of the other bids for the bonds.

John Hawley's shingle and tie mill, located in the Porepine mountains, Ontonagon county, was together with this season's output destroyed by fire last week. The loss is estimated at from \$10,000 to \$12,000, with no insurance. The fire started in the mill yard and was caused by a spark from the smoke stack. Nearly 2,000,000 cedar shingles, 10,000 poles and 4,000 ties were burned. Mr. Hawley had closed a contract for the sale of the season's output and had been waiting for nearly two weeks for the arrival at Ontonagon of a boat in which to make the shipment.

The directors of the Crystal Falls Woodworking company have decided to build a much larger plant than was at first anticipated and the capital stock has been increased from \$10,000 to \$30,000. As soon as a satisfactory site can be secured the work of putting up the necessary buildings will be commenced and completed as rapidly as possible. It is now the intention of the company to make the main building 200 by 40 feet and the rest of the buildings in proportion. This new industry will be a big help to Crystal Falls and especially to the small land owners in the vicinity as they will be able to dispose of the timber on their land.

Some days ago the little son of Julius Philian of Marquette was discovered in the back yard drinking from a can that contained a batch of potato bugs on which kerosene oil had been poured. The physician called administered an antidote and the child is doing well. Mr. Philian had knocked the bugs from the vines into a can and had poured kerosene upon the remaining life. The can had been sitting in the yard for several days and the child in its rambles discovered and proceeded to drink from it. In a very short time he was unconscious and it was necessary to pump out the stomach. But for the fact it was so soon after the dinner hour the boy would have succumbed before medical assistance could have been procured.

The Chicago & Northwestern railway has a crew of surveyors at work locating a branch line west of Beaver, a station about fifteen miles north of Escanaba. The new line will tap a finely timbered country and will extend west for about thirteen miles to the Escanaba river. The Escanaba Journal is authoritatively informed that work upon the branch line will be commenced in a short time, it being the company's intention to have it completed by fall. About two years ago the company constructed a branch line at that point running in a north-easterly direction over beyond the west branch of the Whitefish river and almost to the Munising road. A vast amount of fine timber has been taken out over this line, principally hardwood and cedar.

Daniel Nehmer & Son, of Ontonagon county, received over \$1,000 from this season's strawberry crop—a good return from three acres of ground in a county which until a few years ago was deemed almost worthless for agricultural purposes or growing fruit. Of course it has required considerable work to properly care for the plants and harvest the berries, but nevertheless a handsome profit will be realized. Over \$700 worth of berries were shipped to Houghton and the balance were disposed of in Ontonagon and nearby places. There has been a ready market for all berries; in fact it was not possible to fill the orders which were received from outside points. Nehmer & Son started in with a small patch of plants a few years ago and they have been gradually adding to the space until this year they had three acres of bearing plants and next season they will have nearly as much again.

It is believed that a timely discovery made at Ironwood last week by Night Yardmaster Kerr, of the Chicago & Northwestern, saved the city from a disastrous conflagration. Passing through the yards, he noticed a blaze in the rear end of Thomas, Healy & Co.'s warehouse on Ayer street. He broke in the door and extinguished the fire, a hole having been turned through the floor. Mr. Thomas was sent for, and an examination of the premises showed that oil-soaked waste had been taken from the journal box of a box car back of Kearney & Co.'s warehouse, and an effort made to push it under the door of that concern's building. Failing in this, the fire bug pushed it under the rear door of the Thomas, Healy & Co.'s warehouse, and then touched a match to it. Had the fire not been seen by Mr. Kerr while it was in its incipency, Ironwood's famous district, known as "commission row," would undoubtedly have been reduced to ashes. It is now believed that the Lager company's fire, the box car blazes in both the Northwestern and Wisconsin Central yards, and the recent incipient blaze in the wood pile at the rear of Davis & Fehl's store were all of incendiary origin.

**CATARRH CANNOT BE CURED.**

With local applications, as they cannot reach the seat of the disease, Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

### FREEMAN RESIGNS

HE FIRST DECIDED ON THE STEP SEVERAL WEEKS AGO.

NEW WARDEN A PROBABILITY

GOV. BLISS GAVE NEWS OUT TO NEWSPAPER MEN.

Board of Control Has Had a Hard Time On Account of the Friction at the Branch Prison.

The resignation of Warden Freeman of the Marquette branch of state prison is in the hands of the board of prison control.

This is no news to The Mining Journal. It has known of the fact for some time past, but it has regarded a pledge to refrain from giving it publicity.

Mr. Freeman's resignation is one result of the friction between himself and his deputy warden during a period of something over two years.

It is understood that Mr. Freeman's resignation is indicative of a real and pressing desire to sever his connection with the Marquette prison.

Of course the warden is now rid of Mr. Mosher, with whom he has been unable to agree lately, and has under him a deputy of his own choice.

Governor Bliss, according to the Detroit dispatches, considers it essential to the prison's welfare that Mr. Freeman now go as it was that Mr. Mosher be let out, in accordance with the warden's recommendation.

Hard on the Board. This is the condition of affairs which the board had to face last Saturday when it gave Mr. Mosher a chance to show why his services should not be dispensed with in the interest of harmony in prison administration.

It was merely a question as to whether there had been friction between the warden and his deputy. That was abundantly proven by the attitude of the two men at the hearing.

Needless to say, there will be many applicants for the office of warden when it becomes known that Mr. Freeman is to step out.

ASSEMBLY WEDNESDAY EVENING. Saturday Night Date Moved Forward a Few Days.

There will be an Assembly at Fraternity hall next Wednesday evening. It will be one of the summer series and will take the place of the one announced on the invitations for Saturday evening.

Shirt Waists, \$1.50; Duck Trousers, \$1.50. For the shirt waist dance at 7-24-11 STIRLING & CO.

### STREET CAR EXTENSION.

Passengers Will Be Carried to the Main Entrance of Fair Grounds.

The Marquette and Presque Isle Street Railway company put a force of men at work yesterday on an extension of its fair grounds spur.

Yesterday the interlocking switch, installed by the Marquette & Southeastern Railroad company at the point, near the street railway power house, where the railroad and street railway tracks cross, went into commission.

NINETEEN BAD MEN

THEY WERE RECEIVED AT THE BRANCH PRISON YESTERDAY.

TRANSFERRED FROM JACKSON

DEPUTY WARDEN FOOTE AND SEVEN GUARDS WITH THEM.

Members of Convoy Have All Made Trouble at Jackson—Were Both Handcuffed and Shackled on the Trip.

A batch of nineteen so-called "incorrigible" convicts was received yesterday afternoon at the Marquette branch of state prison.

The convicts composing the convoy, and their terms, are: Ben Buel, ten years; Walter Gray, five years; Peter Pilinski, twenty years; Lee Taylor, five years; Charles Henson, twenty years; Will Arnell, Jr., fifteen years; James J. Stewart, three years; Bert Livingston, seven years; George Morrison, five years; Albert Perovett, fifteen years; Harry Brandt, two years and six months; Charles Van Dine, four years; Marlowe Keep, seven years; Ben T. Rupert, fourteen years; Milton Kine, two years and six months; Fred Schumacher, ten years; Charles Esterling, seven years and John Smith, two years.

These men were committed to Jackson from various points in lower Michigan. Without exception, they have served some time on their sentences, although the most of them still have the greater part of their terms to look forward to.

With two exceptions, this is the largest batch of prisoners ever received from a lower Michigan institution. On two former occasions convoys of twenty-five men have come in.

A Bad Lot.

The men enumerated above compose about as bad a lot of prisoners as has ever been shifted from one place to another within the state of Michigan.

A Lansing dispatch to the Detroit Journal said of the convicts: "Those who will form the detachment from Jackson to Marquette are incorrigible. Some have refused to work, others have talked insolently to the prison officers, some have fought with fellow convicts and others have maliciously destroyed tools and machinery."

Will Be Many Applicants. Needless to say, there will be many applicants for the office of warden when it becomes known that Mr. Freeman is to step out.

ASSEMBLY WEDNESDAY EVENING. Saturday Night Date Moved Forward a Few Days.

There will be an Assembly at Fraternity hall next Wednesday evening. It will be one of the summer series and will take the place of the one announced on the invitations for Saturday evening.

Shirt Waists, \$1.50; Duck Trousers, \$1.50. For the shirt waist dance at 7-24-11 STIRLING & CO.

### LOTS OF BUSINESS.

Why Laidley Commission Co. Closed Ishpeming Branch.

The Laidley Commission Co. informs The Mining Journal that there is some misapprehension as to why it closed its Ishpeming branch.

Mr. Laidley states further that the Laidley Commission Co.'s offices along the northern wire from Chicago to Hancock and Duluth will be kept open right along.

FARMERS TO TRAVEL

NEW ROAD WILL GIVE THEM AN EXCURSION TO CHATHAM.

WILL BE COMPLIMENTARY AFFAIR

VERY FEW HAVE YET VISITED NEW EXPERIMENT STATION.

Superintendent Geismar Will Extend a Royal Welcome—He Makes Some Sage Observations on Strawberry Culture.

Marquette county farmers, according to Superintendent Leo M. Geismar, of the Upper Peninsula Experiment station, will be given a complimentary excursion along the line of the Marquette & Southeastern railroad system.

This will be the first excursion arranged particularly for the farmers to be given by the new road, and it is likely that it will be generally taken advantage of, as there is a great desire to inspect the country, of which many have been written and said since the railroad project was first conceived.

Then, too, the experiment station at Chatham is unknown, except by name, to all but a few of the farmers.

The experiment farm is reported, by all who have visited it, to be well worthy of the trip to Chatham. It is a place of great interest to the business man and city resident.

Great Strawberry Country.

Superintendent Geismar makes the following sage observations on strawberry culture in the upper peninsula in a letter received by the editor of The Mining Journal yesterday:

"In sending you a sample of our last and, consequently, smallest strawberries, I wish again to apologize for having neglected to send you some a week or ten days ago, when they were at their prime."

D. T. MORGAN HONORED. He Gets Place on U. P. Asylum Board Resigned by J. R. Van Evera.

John R. Van Evera has resigned his membership on the board of trustees for the Insane at Newberry and Governor Bliss has appointed D. T. Morgan of Republic his successor.

THE BEST LINIMENT FOR STRAINS. Mr. F. H. Wells, the merchant at Deer Park, Long Island, N. Y., says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains."

DANCE ON STEAMER FRIANT. There will be a dance on board the steamer Friant on Tuesday evening next, July 29. All are invited.

None other than strictly pure ice cream turned out at Heppner's. JOHN H. DESHAINE. Manager.

### IS 102 YEARS OLD

KAWBAWGAM WAS ENTERTAINED AT WEDNESDAY'S PICNIC.

CHIEF IS BLIND AND FEEBLE

OBJECT OF GREAT INTEREST TO VISITING NEWSPAPER MEN.

He Came to Pavilion Clad in All His Native Finery, But Partook Only Sparingly of Food and Drink.

Charles Kawbawgam, the last simon pure relic of the magnificent race of Chippewas, with slender form as straight and true as an arrow, with immobile face and set eyes, sat at the west end of the Presque Isle pavilion Wednesday afternoon.

Chief Kawbawgam was present at the festivities as the particular guest of the association and his old friend and protector, Hon. Peter White.

For this there was good reason. Kawbawgam is blind. His eyes have gone to sleep, tired with their long service of upwards of 102 years, for this, so says Peter White, is now the old patriarch's age.

What Fine, Tender Meat. It always is that you get from the Palace market. Juicy, fine grained, fat and delicious.

FRANK W. HATHWAY, PALACE MEAT MARKET.

WANTED BRICKLAYERS. To work on Charcoal Kiln construction. Work will commence July 1st and continue till snow flies.
