BULLET IN BRAIN

A. M. ROTHSCHILD OF CHICAGO ENDS HIS OWN LIFE.

BIG DEPARTMENT STORE MAN

ACUTE INSOMNIA GIVEN AS THE CAUSE OF THE DEED.

In Temporary Fit of Insanity, and With Health Shattered in Building Up His Fortune, He Shoots Himself in Bath Room of His Home.

Chicago, July 28.—A. M. Rothschild, until two months ago head of the department store firm of A. M. Rothschild & Co., committed suicide today at his home by shooting himself in the head, causing an instant death. The cause of his self-destruction, acute insomnia, which probably caused temporary insanity, is said to be the cause. Mr. Rothschild had just returned from a six weeks' outing in Minnesota and seemed improved physically. At no time, it is said, was his mental condition such as to cause any apprehension that he contemplated self-destruction. This afternoon he entered the bath room of his home and almost immediately the servants heard the report of a revolver. Rushing to the bath room they found the merchant lying on the floor. A bullet wound in the forehead showed what had happened. Rothschild was still breathing. A physician was summoned, but could be of no service.

Nelson Morris Father-in-Law. Mr. Rothschild retired from the management of the big department store two months ago on account of ill health. His constitution, ordinarily robust, had been shattered in building up the business since its opening seven years ago. Interested with him and the principal owner of the store was Nelson Morris, his father-in-law. Mr. Rothschild was born in the German village of Norstetten, fifty-seven years ago. When five years old he came to America and while in his teens went to Davenport, Ia. With his two brothers he established a general store. In 1875 he came to Chicago and immediately began making a reputation for himself, organizing in 1885 the department store which now bears his name. Mr. Rothschild was a director of the world's fair, a former director of the National Bank of the Republic and a member of the Standard, Washington Park and Hamilton clubs. He leaves a widow and one son.

ON A MISSION OF PEACE. Japanese Warship Is Headed for the Disputed Marcus Island.

Washington, July 28.—A cablegram from Minister Buck, at Tokio, says that the Japanese minister for foreign affairs informed him that a Japanese naval vessel would leave yesterday for Marcus Island. The purpose is not to make trouble, but to prevent it.

An official of the foreign office was to go on the vessel and he would carry a letter to Captain Roschill, cabled from the state department here to Minister Buck, advising the captain not to make any disturbance or resort to violence to obtain possession of the island, with possible loss of life and involving international complications. If the captain would observe this advice, the department said, for its part it would endeavor to settle the claim to the island diplomatically.

Roschill is reported to have sailed from Honolulu for Marcus island July 11, and it is probable that he already is at the island. The letter may come into his hands late to avert trouble.

SAME PAY; SHORTER HOURS. Trainmen on Two Illinois Lines Are Granted a New Schedule.

Joliet, Ill., July 28.—The officials of the Elgin, Joliet & Eastern and the Chicago, Lake Shore & Eastern railway systems today announced a new schedule of hours for engineers, firemen, conductors and brakemen. These men recently asked for an advance in wages. It was finally agreed to maintain the old rate, with a reduction in hours from twelve to eleven.

REBELS READY TO QUIT. Governor of Panama Receives Proposition and Will Negotiate.

Panama, July 28.—The government gunboat Panama, sent to Agua Dulce with reinforcements and provisions for the forces under General Beri, returned this morning and brings the report that the revolutionary troops under General Herrera are at Santiago Veragus, in close proximity to Agua Dulce. General Salazar, governor of Panama, has received a proposal from General Herrera that the revolutionary forces of his command lay down their arms. He has decided to send tomorrow on board the British steamer Cuna a commission to negotiate with Herrera and there is a possibility Salazar's terms will be accepted by the revolutionists.

TREASURE SHIP IN PORT. Steamer Roanoke Brings a Million in Gold from Nome.

Seattle, Wash., July 28.—One million dollars in treasure was brought by the steamship Roanoke, which arrived from Nome and St. Michaels today. This is the largest shipment from the Nome diggings this season.

COLLISION ON THE BROOKLYN L. Fifteen Passengers Hurt in Wreck Caused by Misplaced Switch.

New York, July 28.—Godfrey and Henry Moore of New York were probably fatally hurt and thirteen others were more or less seriously injured in a head-on collision, caused by a misplaced switch today, between two trains on the Brooklyn elevated railroad on Adams street.

PITTSBURG HIT BY STORM. Three Persons Are Dead and Much Property Is Damaged.

Pittsburg, Pa., July 28.—A terrific storm visited this section this evening, causing three deaths and much property damage. The killed were: Mrs. Kate Walsh, Francisco Imperatoro, and Cosello Mattice. Throughout the city and suburbs the storm inflicted considerable damage. Twenty-five buildings, residences, and stables were struck by lightning in this district during the twenty-five minutes the storm prevailed.

Damage in North Dakota. Grand Forks, N. D., July 28.—A storm prevailed throughout this section all day. Reports indicate considerable damage in the country.

Springfield, Ill., July 28.—The estimated damage by floods in the vicinity of Havana is already \$250,000.

WIDE AREA SHAKEN A WIRELESS PHONE

EARTHQUAKE FELT IN NEBRASKA, SO. DAKOTA AND CALIFORNIA.

SEVERE IN THE LATTER STATE

SHOCKS SPREAD TERROR IN THE LAMPOC VALLEY.

Ground Cracks, Fissures Open, River Bed Is Changed, Houses Rocked, and the People, Panic-Stricken, Flee from Their Dwellings.

Lompoc, Cal., July 28.—The Lompoc valley experienced a severe earthquake shock at 10:35 last night. At that time a violent shock was felt which lasted fully thirty seconds and was so severe that dishes, clocks, house plants, etc., were thrown from shelves and furniture and other articles were upset. The people were stricken with terror and ran from their homes, some fearing to return as other but lighter shocks continued for several hours afterward. Heavy shocks were felt at 5 and 11 o'clock this morning. The earth has been cracked at many places and the Santa Ynez river bed is slightly changed at places.

Dry Creek Bed a Torrent.

Santa Maria, Cal., July 28.—A heavy shock of earthquake was felt here last night. The vibrations were from east to west and lasted forty-five seconds. Old-timers say it was the heaviest ever felt here. Near Los Alamos, a formerly dry creek bed was a rushing stream this afternoon.

San Luis Obispo, Cal., July 28.—Two distinct earthquake shocks were experienced here last night. The first, the heaviest, lasted three seconds.

Stream Flows from Fissure.

Santa Barbara, Cal., July 28.—Meager advices from Los Alamos, forty-five miles north, report an unusually severe shock earthquake last night, doing damage to the property of the Western Union Oil company at Garreaga Wells estimated at \$12,000 to \$15,000.

At Harris station, a fissure is reported to have opened and from it a stream of water two feet deep and eight-foot feet wide is flowing.

Nebraska Feels the Shock.

Omaha, July 28.—An earthquake shock was felt in portions of Nebraska, western Iowa and South Dakota shortly before 1 o'clock today. The Santee agency, in northern Nebraska, and Battle Creek, Neb., were shaken. In this city the shake was barely discernible and few people knew of it until the weather bureau reported it tonight.

Earth Trembles at Yankton.

Yankton, S. D., July 28.—An earthquake was felt here this afternoon, lasting about twelve seconds. The shock was accompanied by rumbling noises and moved northeast to southwest.

CUDARY DENIES IT. No Combination of Packing Houses Is Being Formed.

Omaha, July 28.—Edward A. Cudary, head of the Cudary Packing company in this city, today denied all knowledge of the reported packing house combine being formed, which would absorb the Cudary packing interests. "The whole story is a myth, pure and simple," said he.

DEAL ON FOR REPUBLIC MINE

Cleveland, Tuesday, July 29.—The Plain Dealer this morning says: The United States Steel corporation and other consumers of ore are in the market for mining property in the Lake Superior district, and several deals are on that will probably be closed during the next few weeks. A letter has been sent to the stockholders of the Republic Iron company, on the Marquette range, in which the desire is expressed for the purchase of at least a controlling interest in the company. It is said a majority of the directors favor the sale. The identity of the would-be purchaser is not given.

PERU TO ENCOURAGE SHIPPING. President and Congress See Great Benefits in Panama Canal.

Lima, Peru, July 28.—President Romano in his message to congress says the completion of the Panama canal would open a vast horizon to the commerce of Peru and that it was therefore wise to prepare for this event by granting liberal concessions to shipping. He was promised the co-operation of congress in the proposals.

TREACHEROUS MOROS. Attack an American Camp but Pay Serious Penalty.

Manila, July 28.—A party of engineers, commanded by Lieutenant Brown, who were encamped along the Matalang river were attacked by Moros at midnight Friday. The attack was repulsed without loss to the Americans. Three Moros were killed and many wounded. Friendly natives report that the sultan of Nauli personally led the attack, thinking the American camp without sentries.

FIRES IN TREASURY BUILDING.

Washington, July 28.—The burning out of an electric cable in the basement of the treasury building today caused a series of fires, but the damage is small.

BERLIN MAN'S INVENTION IS SUCCESSFULLY TESTED. VOICE CARRIED SEVEN KILOMETRES

LARGER APPARATUS IS NOW TO BE CONSTRUCTED.

Principle of the Device the Transformation of Light Waves to Sound Waves by the Use of a Searchlight and a Microphone. Berlin, July 28.—Ernest Ruhmer, the noted electrical inventor, has succeeded in telephoning seven kilometres by his wireless method. The speaking voice was perfectly and continuously audible during the experiments. Herr Ruhmer, who hitherto has used a searchlight, thirty-five centimetres in diameter, intends to construct another of between 100 and 200 centimetres, expecting to speak forty kilometres, which would be a distance sufficient to cover a modern city. It is affirmed, however, that the apparatus is too large, too expensive and too delicate to be practical commercially, but will be highly useful to warships in transmitting orders at sea. Herr Ruhmer's invention acts on the principle of the transformation of light waves to sound waves by using a searchlight and microphone.

DR. WILSON'S LIFE IS SPARED. His Sentence of Death Commuted Through Minister Corea.

Washington, July 28.—The life of Dr. Russell Wilson of Ohio, who was captured with a revolutionist party in Nicaragua, has been saved through the representations of Minister Corea of that country. The state department received the following cablegram today from Consul Donaldson at Managua, Nicaragua: "A courtesy to the United States and out of sympathy for the mother, the president will commute Wilson's death sentence."

ROOSEVELT SOON TO ACT. Bragg's Recall from Cuba or Transfer Elsewhere Expected.

Washington, July 28.—It is learned that the Cuban government want a lift further in General Bragg's case than was understood at first. It not only made an inquiry as to the accuracy of the quotation reflecting on the Cubans but complained of the consul general's criticism. The papers in the case are still before the president at Oyster Bay, but some action is expected shortly either in the way of recalling General Bragg or transferring him to some other post if a suitable one can be found.

BIG DEAL IN IRON ORE. Pennsylvania Parties Invest Two and a Quarter Millions in Utah.

Duluth, Minn., July 28.—John G. Williams has returned from Utah, where he closed the purchase for Pennsylvania parties of enormous deposits of iron ore in that state. It is one of the largest iron deals ever made in the country, the consideration being \$2,250,000. R. B. Dear of Superior and Fred Lech of Rivabik owned part of the lands and get about \$300,000 each.

CHANCE FOR LUMBERMEN. Government Wants to Sell 20,000,000 Feet of Pine in Minnesota.

Washington, July 28.—The interior department today sent out notices asking for bids for the pine timber on the Red Lake and White Earth reservations in Minnesota. The timber amounts to about twenty million feet and covers 12,000 acres.

KING'S WOUND HEALING FAST. His Majesty Now Able to Sit While in His Invalid's Chair.

Copenhagen, July 28.—An official bulletin issued today says: "The king's health continues excellent. His wound is healing rapidly. He was able to be moved from his couch to a wheeled chair for a few hours yesterday."

HORRORS IN SIBERIA

EXPLORER DE WINDT FOUND TERRIBLE CONDITIONS THERE.

FAMINE AND DEPOPULATED CITIES

RUSSIA SCORED FOR ITS TREATMENT OF THE NATIVES.

Returning Londoner Finds After His Perilous Journey That the Project for Railroad Connecting the Two Hemispheres Is Feasible.

Seattle, Wash., July 28.—After traveling for six months across the bleak steppes and frozen mountains of Siberia, Harry De Windt, of the London Express, is ready to report that a railroad practically connecting the Eastern and Western hemispheres is a feasible project. De Windt left Paris Dec. 16 last and arrived in Seattle, by way of Bering straits, the Yukon, Dawson and Skagway, this afternoon. His party encountered great perils from hunger and cold and attribute to the presence of Americans in the northern waters the fact that they are again safe in a civilized country. De Windt asserts that the overland journey was much more hazardous and difficult than he expected, and would decline the trip again. They left the trans-Siberian railway at Irkutsk. From there a course almost directly north was followed to the borders of the Arctic ocean. The country traversed was covered to a depth of several feet with snow, the road was untraveled and rough, and dangers lurked at almost every turn. In many places the natives were suffering from famine and disease. Many prosperous cities were supposed to exist along the route. When these points were reached, nothing but a few scattered huts and half a dozen wretched natives were all that remained of their greatness.

After describing the pitiable condition of the natives, he said: "I once thought the treatment of the Siberians by the Russian government was not severe, but now that I have seen, I change my opinion."

DEWET STEALS A MARCH. Arrives Unexpectedly at Cape Town and Upside Reception Plans.

Cape Town, July 28.—General Dewet proved that he could evade friends as successfully as he did enemies by arriving here unexpectedly this afternoon and upsetting the elaborate plans for his reception. He strolled through the streets, casually noticing acquaintances and occasionally speaking to a former opponent. Arrangements were quickly made by the Afrikaners to entertain the famous leader tonight at a dinner. Ovation to Botha and Delarey. In striking contrast to Dewet's return was the scene Sunday when Generals Botha and Delarey attended church. The building was packed, mainly with women, and the service was scarcely concluded when admirers stormed the pew in which the generals sat. With difficulty they retreated to the vestry. The congregation followed and both Botha and Delarey were lifted to the vestry table. The pastor warmly remonstrated, whereupon the generals were seized and carried to their carriages, where another demonstration ensued.

REGULARS TO GO IT ALONE. Lack of Funds Will Keep Militia from Participating in Maneuvers.

Washington, July 28.—According to present indications, very few if any of the National Guard organizations will participate in the proposed maneuvers with the regular army at Fort Riley, Kas., in September. Several states have already positively declined on account of lack of funds, among them Illinois, Michigan, South Dakota and North Dakota.

BRITISH SHIPOWNERS PROTEST. Men Owning Tramp Steamers Will Oppose the Proposed Subsidies.

London, July 28.—George Benwick, Conservative member of commons and a shipowner, said today that he and the other owners of tramp steamers would strongly resist the payment of huge subsidies to capitalist syndicates or the large companies contemplated by the new Canadian service.

CHANCE FOR LUMBERMEN. Government Wants to Sell 20,000,000 Feet of Pine in Minnesota.

Washington, July 28.—The interior department today sent out notices asking for bids for the pine timber on the Red Lake and White Earth reservations in Minnesota. The timber amounts to about twenty million feet and covers 12,000 acres.

KING'S WOUND HEALING FAST. His Majesty Now Able to Sit While in His Invalid's Chair.

Copenhagen, July 28.—An official bulletin issued today says: "The king's health continues excellent. His wound is healing rapidly. He was able to be moved from his couch to a wheeled chair for a few hours yesterday."

Health is a magnet which irresistibly draws the man to the woman in life's mating time. Health does more than tint the skin with beauty; it puts music into the voice and buoyancy into the step, as well as happiness into the heart.

There can be no general health for women while there is disease of the delicate womanly organism. The first step to perfect health is to cure womanly diseases by the use of Dr. Pierce's Favorite Prescription.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume.

SMOKERS! Try that Celebrated HAVANA PLANTATION CIGAR. You will discover one of the richest smokes you ever had.

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00. Per year, by mail, \$10.00.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Islepeping seems to be entering on a period of torrid journalism, after years of comparative peace. The Iron Ore and Peninsula Record, the latter now under a new management, seem to be at sixes and sevens, judging from an examination of their last issues.

There is an immediate demand for white labor in South Africa, and high wages are being offered in the hope of attracting emigrants. The result of a great influx of white would be more important than appears on the surface.

As might have been expected, "fake" is being shouted in connection with the Fitzsimmons-Jeffries mill. The Mining Journal is not surprised, as it was to be expected that the honesty of the affair would be questioned.

The American campaigns against the insurgents in the Philippines extended over 1,181 days. In this time the American troops were engaged 2,561 times, an average of two engagements a day.

The Soo Times approves of the manner in which Marquette entertained the members of the Upper Peninsula Press association during the time they were in the city last week.

Secretary of State Hay has addressed a circular communication to the governors of the several states and the presidents of a number of prominent colleges asking for suggestions as to the best way to go about taking advantage of the section of the late Cecil Rhodes' will which provides for the education of two young men from each state and territory of the union at Oxford, Rhodes' alma mater.

The Detroit Free Press comments on the new prison discipline at Jackson: The prison authorities at Jackson are making an experiment that will be watched with interest by penologists throughout the country.

The Detroit Free Press comments on the new prison discipline at Jackson: The prison authorities at Jackson are making an experiment that will be watched with interest by penologists throughout the country.

and no opportunities to corrupt the better class of convicts at Jackson. Advocates of rigid discipline may believe the authorities have gone too far in the way of smoothing the pathway of the prisoners; but it remains to be seen whether the greater liberties allowed by the board will tempt people to commit crimes in order to revel in the luxuries afforded by prolonged confinement in the penitentiary.

Many administration papers continue to point to the course of the congressional nominations in Michigan, four of the best sugar "insurgents" having failed of renomination, as an evidence of the fact that this commonwealth has seen fit to repudiate the men who tripped up the administration program and to take a stand fairly behind Roosevelt and Cuban reciprocity.

The statistics on military casualties in the Philippines disclose some interesting facts, not the least notable of which is the large proportion of death by disease and the small proportion of mortality among the officers.

Gold exports need cause no concern. We usually send more or less gold to Europe at this season, and thus far, since January 1st, we have only shipped about \$20,000,000 from this port against \$30,000,000 the same time last year.

The citizens of Marquette have earned for themselves an enviable reputation for the royally entertaining visitors and the "Queen City" is becoming the Mecca of Michigan for lodges and other organizations seeking a desirable city in which to hold summer meetings and conventions.

The Soo Times approves of the manner in which Marquette entertained the members of the Upper Peninsula Press association during the time they were in the city last week, and expresses its admiration of the manner in which guests are received here in the following paragraphs:

The Soo is more fortunately situated, has as many or more surroundings points of interest, has greater inducements to offer in a commercial way than Marquette, and would do well to follow that city's example in this regard.

It is now coming to be generally admitted that the coal strike is on the wane. The men are exhausted with the long struggle, and the fact that they have maintained order and refrained from rioting and burning renders them all the more ready to return to work.

Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports.

Upper Peninsula. F. H. Clergue has offered a free site of ten acres of the Michigan Lake Superior Power company's holdings, either at the east or west end of the Soo, for sanitary purposes.

The race at Menominee between the horses owned by W. S. Carpenter of Menominee and Fred Carney of Marinette was won by the former in three straight heats. The best time was 2:16. There had long been a dispute as to which nag was the speedier.

During the performance of the Gentry dog and pony show at Iron Mountain the other night, a crowd of boys got into some trouble with the canvassmen, with the result that one of the boys was taken to the hospital.

Owners of small boats on the lower river at the Soo have suffered lately at the hands of river pirates or other persons who disregard the rights of property when they desire to go to some point down the shore.

Miss Mayme Baldwin of the Soo has been elected queen of the carnival. A total of about 75,000 votes were cast, at a cent each, of which the winner received 50,455.

After being made the target of a shower of stone missiles, which came perilously near doing him bodily harm, Rev. Father Papon of the Menominee Polish Roman Catholic congregation, while riding his bicycle was forced in self protection to dismount and give chase to his tormentors.

Marie Anderson, an old sailor living on the bay shore, near Menominee, says that at 11 o'clock one evening last week, when scarcely a breath of wind was blowing on the bay, he saw a ship approaching from the vicinity of Green Island with the speed of a locomotive.

Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports.

There is great necessity of calm selfcontrol during the ensuing few weeks. The operators, in the flush of their success, should be careful how they treat the men. They may be conquered, but they are potentially dangerous, and they are in a none too good temper at the loss of their fight.

CLEWS ON THE MARKET. Henry Clews & Co., in their weekly market letter, note that there was considerable activity in the New York market last week, due to conspicuous manipulation in such stocks as Rock Island, St. Paul, N. Y. Central, Illinois Central and L. & N., which made new record prices.

A gradual and steady advance usually elicits considerable activity following; but erratic movement as witnessed on Wednesday and Thursday are apt to injure a real bull market. So long as these tactics are continued we can only advise realizing on such pronounced rallies.

Gold exports need cause no concern. We usually send more or less gold to Europe at this season, and thus far, since January 1st, we have only shipped about \$20,000,000 from this port against \$30,000,000 the same time last year.

The general business situation continues eminently satisfactory. There are no signs of serious reaction, and, on the contrary, there are increasing indications that we are to have a good fall trade. The best element of confidence is the crop situation.

After being made the target of a shower of stone missiles, which came perilously near doing him bodily harm, Rev. Father Papon of the Menominee Polish Roman Catholic congregation, while riding his bicycle was forced in self protection to dismount and give chase to his tormentors.

FREE SILVER TURNED DOWN. Houghton County Democrats Repudiate Bryan's Pet Issue.

The Democrats of the county held an interesting and rather sensational convention at Hancock yesterday afternoon, selecting delegates to the state, congressional and senatorial conventions.

BLAZE AT THE ARCADIAN. Boarding House Building and a Barn Licked Up by Flames.

A large building, owned by Albert Johnson, at the Arcadian location was destroyed by fire at 1 o'clock Sunday afternoon.

John Kline's general store building, which was destroyed by fire at Grosse Point Saturday night, was insured as follows: Building, \$1,400; stock, \$2,500; household furniture, \$600; barn, \$250; hay and grain, \$250.

GOES TO VICKSBURG. Electrical Engineer Brooks Accepts a Good Position in the South.

Frank Brooks, who acted as electrical engineer for the Peninsula Electric Light & Power company of Houghton before its reorganization and after control had been secured by Stone & Webster of Boston will leave this afternoon for Vicksburg, Miss.

Last week James R. Dee, the retiring general manager of the Peninsula Electric Light & Power company, was presented with a beautiful gold watch box, with a key ring attachment, by his former associates, and John B. Dee, the retiring secretary, was presented with an umbrella and cane, both having ivory tips and being handsomely mounted with sterling silver.

VETERAN LIGHTHOUSE KEEPER. Capt. Martin Benson of Dollar Bay Dies at Age of 82.

A well known and popular old resident of Dollar Bay, Captain Martin R. Benson, died at the home of his daughter, Mrs. Harry Fleet, at Dollar Bay, at 9 o'clock Sunday morning.

OLD SORES, ULCERS AND FEVER SORES. For all purposes for which an ointment may be used there is no article offered the public better than PECK'S KING OF OINTMENTS.

J. RANSOM BRIDGE & CO., Stock and Bond Brokers, 53 STATE STREET, - BOSTON, MASS. COPPERS A SPECIALTY.

HIS SKULL IS FRACTURED. Employee of the Jacobs Quarry Probably Fatally Injured.

Matt Lehtiki, an employee of the Jacobs stone quarry at Jacobsville, Portage Entry, was seriously and perhaps fatally injured by an accident at the quarry Saturday afternoon.

PIEABLE CASE. Insane Woman Who Is Blind and Deaf Goes to Newberry.

Sheriff Wilks took two insane people, a man and a woman, to Newberry yesterday morning. The woman's case is a very pitiful one.

BISHOP SUSTAINS PRIEST. Lake Linden Man Is Ousted from St. Joseph's Church.

Bishop Eis of Marquette has rendered a decision in which he finds against a member of a certain faction in the St. Joseph church at Lake Linden.

JUDGE BRAND ANTIES UP. Houghton Poundmaster Corralled the Jurist's Family Cow.

Judge Casper Brand of Houghton is in the habit of driving his cow up over the hill at the rear of his residence and out of the village limits every morning to escape the pound law which "Bud," the village poundmaster, is enforcing to the letter.

BREWING COMPANY LOSSES. The Haas Brewing company was unsuccessful in its attempt to compel Dunn Bros., Calumet saloon keepers, to vacate their stand at the corner of Elm and Sixth streets, Red Jacket.

CATARRH CANNOT BE CURED. With local applications, as they cannot reach the seat of the disease, Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies.

EX-SHERIFF IS TOUCHED. M. C. Scully Donates a Diamond to Some Clever Thief.

M. C. Scully, the well-known cigar salesman of Ishpeming, was robbed of a valuable diamond scarf pin while at Lake Linden on business a few days ago.

ROMANCE AT FINNISH COLLEGE. President Nikander and a Student Become Man and Wife.

Rev. J. K. Nikander, president of Suomi college, Hancock, and Miss Sanna Rajala, who has been a student at the institution, were quietly married at 8 o'clock Sunday evening at the college.

"HELLO, GREENLAND." Telephone System May Be Extended to the Ontonagon Range.

Negotiations are under way which will probably result in the connection of this part of Ontonagon county with the outside world by means of the long distance telephone, says the Ontonagon Herald.

This proposition was submitted to the Ontonagon Telephone company, for immediate consideration and its officers are interviewing the patrons of its lines in order to determine whether it is their desire to secure this service.

The \$2500 will not begin to pay the cost of building the line from Houghton or Atlantic to Greenland, but it is a guarantee to the Michigan people that the residents of Ontonagon county are desirous of having the connection made in the course of a few years.

LAKE EXCURSION TONIGHT. A second moonlight excursion to the canal will be given on the steamer Argo of the Booth line tonight.

A Menominee paper says: "John Adams has been chosen to run the campaign of the Third Regiment at the encouragement of the Michigan state militia, at Manistee, in August.

William Sleeman is still very ill at the county jail. He is troubled with delirium tremens, it is said. He is attacked with violent fits, and the sheriff and his deputy, August Beck, are having a hard time with him.

The Franklin baseball team was badly defeated by Lake Linden on the Hancock grounds Sunday afternoon before a large crowd. The score was 18 to 4.

Samuel Ford, of the Aurora, went to the annual reunion of the Sons of St. George at Hancock last week. He took along thirty-five dollars to pay incidental expenses, but had hardly struck the copper country town before the gentle touch of a pickpocket relieved him of the thirty-five and his return ticket.

Herbert Meike, the well known hockey player, has accepted a position as shipping clerk with the new wholesale grocery of the Lake Superior Produce & Cold Storage company at Houghton.

When we consider how short is the ordinary limit of a president's term of office, and then reflect upon all the great and stirring things of actual historical importance that have occurred in a space of time longer than that time by a mere bagatelle of weeks, we shall begin to realize into what a whirl of history-making our latter days have been plunging.

LARGEST IN NAVY

BIDS FOR CONSTRUCTION OF WAR VESSELS ARE ASKED.

TWO CRUISERS AND A BATTLESHIP

GOVERNMENT TO BUILD ANOTHER OF THE LATTER STYLE.

Each of the Four Will Cost \$5,000,000 and Will Be Bigger and More Powerful Than Any Men-of-War Ever Launched in America.

Washington, July 28.—Secretary of the Navy Moody has issued a call to the leading shipbuilders to present bids by Oct. 1 next for the construction of a first class battleship, similar to the Connecticut, which will be built by the government at the New York navy yard.

The plans for both ships have been completed and every detail agreed upon by the experts, so that the usual delay in building these vessels incident to the preparation of designs after the vessels are authorized will be avoided in this instance. The new vessels will be the largest and most powerful fighters ever undertaken by a shipyard in this country, and when in commission will exceed in displacement by several hundred tons any ship now under construction for the government.

Another circular also has been issued, asking for bids upon the two great armored cruisers of 14,500 tons displacement, and costing more, completed and in service, than the battleships. These vessels are to be built by private contract. It is provided that both must be completed in less than three years, while the limit of time allowed for the battleship is forty-two months.

Battleships to Be Speedy. Already orders have gone forth to the New York navy yard to prepare for the building of the battleship which is to be undertaken there, and, if possible, it is proposed to complete her within the same time required by the private yard to build the sister ship. Any delay beyond the contract time for completing the latter battleship will be followed by a forfeiture of \$300 a day for the first month and \$600 a day thereafter. Preference will be given the builder offering to construct the ship in the shortest time.

The new vessels are to have a speed of eighteen knots, with a penalty imposed of \$50,000 for each quarter-knot she falls below, down to seventeen knots, and \$100,000 for each quarter-knot down to sixteen and a half knots, and should she fall below that figure the secretary of the navy may reject the vessel at his discretion.

Each vessel will be 1,000 tons larger than the Georgia and other battleships of that class now building, and longer and broader by many feet than the biggest ships of the navy. Their length will be 450 feet on load water line; beam, extreme, 70 to 10 inches; mean draught, 24 feet 3 inches. In the latter respect the vessels will have less draught for their displacement than any ships designed. This is necessary in view of the many shallow harbors along the Atlantic coast into which warships must enter.

Most Powerful That Floats. In battery there are probably no war vessels in the world with equals, and in amount of metal they can throw in a broadside they will exceed some of the most formidable of the British bulldozers. The main batteries will consist of four 12-inch, eight 8-inch and 12 7-inch. Their secondary batteries will consist of twenty 3-inch rapid fire, twelve three-ton semi-automatic, and several machine guns. In addition, each will carry 200 field pieces.

The protection of these vessels will be afforded by 11-inch armor. The turrets will be 12 inches thick in front, 8 inches in the rear and 2 1/2 inches on top. All armor for the vessels is to be supplied by the government, and will consist of plates treated by the new Krupp process, which gives a face hardening superior to any armor in the world. The armored cruisers will be far larger and swifter, but will have less protection and battery power. Each battleship will cost the government nearly \$5,000,000, while the armored cruisers will cost even more.

CHICAGOANS WIN AT TENNIS.

Chicago, July 28.—Greigh Collins and L. H. Waldner, of the Kenwood club, won the Western tennis championship in the doubles today. They met Little and Alexander of Princeton, holders of the title, and defeated them, 6-1, 6-0, 6-2.

MEMORIAL ARCH TO SCHLEY.

Baltimore, July 28.—A memorial arch is to be erected here in commemoration of the deeds of Admiral Schley. The plan is to raise by popular subscription a fund sufficient to pay for a handsome arch in recognition of the services of Maryland's hero of the Spanish war.

JAS. J. CORBETT, REFEREE.

Selected to Preside in the Ring at the McGovern-Corbett Fight.

New York July 28.—At a conference here today between Sam Harris, representing Terry McGovern, and "Young Corbett," James J. Corbett, was selected as referee for the fight between the two featherweights at New London on August 29.

A Victory for Harry Forbes.

Chicago, July 28.—Harry Forbes, the bantamweight champion, defeated Mike Memick in a six-round contest here tonight. In the preliminary, Bill Stitt gained the decision over Jim Driscoll.

Kid Carter Wins in the Second.

Buffalo, July 28.—Kid Carter of Brooklyn knocked out Jimmy Handler of Newark in the second round of what was to have been a twenty-round bout, tonight.

PREACHER WITH MANY WIVES

Mississippi Divine Lands in Jail on the Charge of Bigamy.

Port Gibson, Miss., July 28.—The Rev. Jackson Skyles is in jail here on the charge of having four or five wives. On June 24, 1884 Skyles married Miss Thea W. Weston at Russellville, Ark. They went to Dallas, Tex., on their wedding tour, and there Skyles was recognized by a brother minister who knew his record. When Skyles was confronted with the accusation that he was a bigamist he went to San Antonio, Tex., and under another name, but was arrested and brought here for trial. It is alleged by the authorities that Skyles has two wives in California, two in Arkansas, two in Texas and one in Kentucky. At his preliminary hearing he entered a plea of not guilty. He declares he has influential friends at Memphis who will come to his assistance.

KIDNAPING OF MISS STONE.

Prospect for Sensational Revelations at the Macedonian Congress.

Sofia, Bulgaria, July 28.—The Macedonian committee has convened a congress for Aug. 2 to elect a new president. The ex-president of the committee, M. Saravoff, has returned after an absence of a year, as a candidate. If the government permits the congress to meet, the session promises to be an exciting one, as General Zontscheff, the actual leader of the committee, threatens to make revelations with regard to the alleged complicity of Saravoff in kidnaping Miss Stone, the American missionary, and of other compromising affairs. It is reported that Turkey has demanded the arrest of Saravoff.

BASEBALL.

National League.

New York, July 28.—The game was called on account of a thunderstorm in the fifth. Lauder hit to the left field fence in the fourth, brought in two runs and won the game for the locals. Summary: R. H. E. New York.....00020-2 4 2 Brooklyn.....00000-0 2 2 Batteries: Mathewson and Bowerman; Evans and Farrell.

American League.

Boston.....10020410-8 14 1 Detroit.....100000000-1 8 4 Batteries: Young and Criger; Yeager, Mullen and Buden. Cleveland.....50300250-15 15 15 Cleveland.....000101003-5 14 6 Batteries: Wilse and Yeager; Bernhard and Bemis. Philadelphia.....000000400-4 12 0 St. Louis.....100402200-9 17 1 Batteries: Wilse, Huston, Schreckengast and Powers; Powell and Kahoe. Washington.....1000101000-12 13 0 Chicago.....1000 01000-2 11 3 Batteries: Lee and Clarke; Callahan and McFarland.

Western League.

Milwaukee, 3; Peoria, 2. Denver, 3; Omaha, 2. Kansas City, 2; St. Joseph, 3. (Twelve innings.) Colorado Springs, 9; Des Moines, 1. Second game, Colorado Springs, 12; Des Moines, 1.

BADGER MAN RUNS AMUCK.

Jefferson, Wis., July 28.—William Mantz, a laborer, shot and nearly killed his son Edwin tonight. He also shot at his wife, but without effect. Leaving the house, Mantz discovered several boys in swimming and fired several shots at them, but the boys escaped injury by ducking their heads under the water. Mantz was captured after a hot chase. He is not in his right mind.

TRACTION FRANCHISES REVOKED.

Monroe, Mich., July 28.—The city council tonight revoked the franchises of the Toledo & Monroe railway and the Monroe Traction company on the ground the conditions under which the franchises were granted have not been fulfilled.

TODAY'S WEATHER.

Washington, July 28.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer Tuesday; Wednesday, showers and cooler. Light variable winds, becoming fresh southwest.

It excites the wonder of the world, a magic remedy, liquid electricity, that drives away suffering and disease. Rocky Mountain Tea, 35c. Stafford Drug Co.

STRIKE LEADERS ENJOINED.

West Virginia Judge Prohibits Establishment of Relief Camps.

Charleston, W. Va., July 28.—Judge Keller today issued an injunction against G. W. Purcell, a member of the national executive committee of the United Mine Workers; W. R. Wilson, national secretary; Chris. Evans, national statistician; "Mother" James and five others, at the suit of the Gauley Mountain Coal company, which charges Purcell, Evans, Wilson and the others with purchasing and distributing supplies to feed the strikers in this district.

Later—Purcell, Evans, Wilson and the others against whom the injunction was issued are not enjoined from furnishing supplies to the miners, but are enjoined from organizing camps close to the property of the complainants. They were selected as defendants because they are non-residents and because they were active in providing supplies for the miners.

Warrants were today issued for about fifteen persons, charging them with contempt of court in violating Judge Keller's injunction, covering the Flat Top coal field. The clerk declined to give the names.

Blacklisted Men Hit Back.

Wilkesbarre, Pa., July 28.—J. F. Mullahy, secretary of the Stationary Firemen's association of Pennsylvania, was arrested this afternoon, charged with libel. Twenty-five complaints have been lodged against him by men employed by coal companies in this section. It is alleged that Mullahy had printed a circular containing the names of his prosecutors. He classified them under the head "Unfair Workmen" and then, so it is claimed, posted them in conspicuous places throughout the region. Bail in the sum of \$12,500 was furnished by Mullahy's friends.

Preparations for National Relief.

Indianapolis, July 28.—The Mine Workers' headquarters have been turned into a banking room, and every preparation has been made to handle the relief funds. A number of contributions were received today. Secretary Wilson does not credit the report that the trust has over a million tons of coal in reserve.

Michigan Operators Decline to Treat.

Saginaw, Mich., July 28.—In response to the miners' suggestion of arbitration as a means of settling the strike in Michigan, the operators today replied positively, refusing to enter into the project.

FOREIGNERS IN DANGER.

Cape Haytien About to Be Attacked by the Victorious Insurgent Troops.

Cape Haytien, July 28.—General Albert Salnave entered Limba yesterday evening and this morning he was within nine miles of this city after having defeated the troops under General Nord, minister of war in the provisional government. The capitulation of Grande Riviere is expected. Cape Haytien will probably be attacked this evening. The foreigners are without protection and are in danger. The United States gunboat Machias arrived today.

A Fight Near Port au Prince.

Port au Prince, Hayti, July 28.—The army under General Jeanumeau, who supports the candidacy of Firmin for the presidency, has been repulsed by the troops under command of General Saint-Fox Collet.

Washington, July 28.—The following cablegram has been received from Minister Powell, dated at Port au Prince today: "General Colin left Port au Prince yesterday morning with 2,000 men to repel Firmin's army, which was landed from a Haytien naval vessel commanded by Admiral Killeck. After a skirmish Firmin's forces retreated to the warship. Colin returned to the city yesterday afternoon. The information is that he had twenty men killed and sixty wounded. The number killed on the other side is unknown. The Haytien vessel left last night, destination unknown, and there was much firing in the city. The Machias has arrived at Cape Haytien."

COMPANY IS EXONERATED.

Violation of the Rules Caused the Rolling Mill Mine Disaster.

Johnstown, Pa., July 28.—The coroner's jury investigating the Rolling Mill mine disaster on the 10th inst. filed its verdict this afternoon. It finds that the explosion was caused by some person or persons, to the jury unknown, taking into room No. 2, sixth right heading, where gas was known to exist, an open lamp and using the same in direct violation of the mine rules and the regulations of the Cambria Steel company.

SCHOOL SHIP IDEA ADOPTED.

Boston, July 28.—A number of wealthy men here have taken up the school ship idea of Lieutenant Commander Charles H. Harlow, and plans have been drawn for a steel school ship of 3,000 tons, and the school will be opened the first of the coming September at Newport. The vessel is to be named the "Young America," and although not yet built, 150 boys of the 250 which it will accommodate are already enrolled. The first trip will extend over 16,000 miles and fifty ports of Europe.

RIOTING AT VENICE.

Venice, July 28.—Rioting in various parts of the city has followed the success of the Clerical Moderates in the communal elections. The troops and police restored order. Similar outbreaks occurred at Padua.

MORE GOLD FOR EUROPE.

New York, July 28.—Gold bars to the amount of \$3,000,000 have been engaged for shipment to Europe this week.

BLOOD AT THE POLLS

RIOTING CHARACTERIZES NEW JERSEY PRIMARY ELECTION.

MAN DEAD; TWO MEN DYING

CAMDEN AND OTHER PLACES THE SCENE OF THE FIGHTING.

Joe Goddard, the Heavyweight Pugilist, One of the Men Seriously Wounded—Shot by a Negro Constable in Self-Defense.

Camden, N. J., July 28.—A primary election for delegates to the convention of the First congressional district was held today. Fighting occurred at several places. One man was killed in this city and "Joe" Goddard, the heavyweight pugilist of Philadelphia, was probably fatally shot.

The pugilist quarreled with a colored constable, Robert Washington, in Pensacola township, where he was electioneering. It is alleged that Goddard assaulted the constable with a baseball bat and the colored man, in self-defense, shot Goddard in the head. The constable surrendered himself and Goddard was brought to a hospital, where the physician says he may die.

During a riot in this city an unknown man was shot through the heart and a policeman was probably fatally stabbed.

PUGILISTS APPEAL TO MAYOR.

Jeffries and Fitzsimmons Ask Inquiry Into the Charge of Fake.

San Francisco, July 28.—Fitzsimmons has sent to Mayor Schmitz a letter asking him to investigate the charge made against Fitzsimmons of faking the fight Friday night and agreeing to abide by his decision. Fitzsimmons first decided to bring a libel suit but Lawyer Reuben H. Lloyd persuaded him not to, as the accusing paper could keep him in the courts for months. Lloyd suggested he appeal to Mayor Schmitz, who is the only man in authority accepting the fake theory, to settle the matter by taking testimony in regular judicial way and then deciding the question himself. Fitzsimmons drafted the letter to the mayor today and Jeffries will also send one, making the same appeal. If the mayor accepts Fitzsimmons is positive he will be acquitted. If the mayor or referees, then Fitzsimmons can declare that official is afraid to make the investigation, as he knows the charge is flimsy.

KRUPPS ARE PIQUED.

Decline to Send a Gun to the St. Louis World's Fair.

Berlin, July 28.—The Krupps refuse to exhibit at the St. Louis exposition because the United States did not purchase the great gun exhibited at Chicago. This piece, constructed specially to exhibit in the United States, and which has been in the way on the practice ground at Meppen since the close of the Chicago fair, is now outlaid. Curiously, one of the principal objections made by possible exhibitors at St. Louis is that the United States does not confer decorations, hence the exhibitors have nothing to show for their troubles. The only way the fair representatives have of getting around this objection is that Emperor William will probably recognize the best exhibitors by bestowing orders on them, and this, it is understood, he is quite willing to do. It is well known that one reason why Washington is an undesirable diplomatic appointment is owing to the impossibility of receiving decorations. One German minister refused to go to Washington for this reason before Dr. von Holleben's appointment.

WANT KING EDWARD'S CATTLE.

Effort Making to Secure Them for the St. Louis Exposition.

Washington, July 28.—Senator Harris of Kansas is here making final arrangements for his visit to Europe as a special commissioner of the St. Louis exposition to secure exhibits of foreign livestock at the exposition. One of the principal purposes of the senator's trip to England is to enter into negotiations through Ambassador Choate for the exhibition at St. Louis of the herds of cattle owned by King Edward and partly collected by the late Queen Victoria. They have been exhibited at various livestock shows in England and the senator believes that they can be brought to St. Louis, where it is the intention to have a great international livestock show, the first known in history. Senator Harris will also visit York, England; Aberdeen, Scotland; France, Holland and Switzerland for the purpose of arranging for exhibits of distinctive breeds of cattle and horses from these places. He will sail from New York next Wednesday and expects to be in Europe six weeks.

TRUST PLANK THE STICKLER.

Iowa Republicans Divided on the Make-Up of Their Platform.

Des Moines, Ia., July 28.—Delegates have arrived in large numbers tonight for the Republican state convention Wednesday. Little attention is being paid to candidates, the talk being of the platform. One element favors the retention of last year's platform and the other insists on dropping the following from the plank, dealing with trusts and combinations: "We favor any modification of the tariff schedules that may be required to prevent their affording shelter to monopoly." La Fayette Young is leading those favoring the elimination of the utterance quoted. Governor Cummins and his lieutenants insist on reaffirmation.

IS FRIEND OF THE MILLERS.

Speaker Henderson Surprised at the Hostility of the Flour Men.

Dubuque, Ia., July 28.—Speaker Henderson, in an interview today on the reports about the National Millers' Federation's grievance against him on the ground that he prevented the passage of the London dock bill, said: "I did not hear anything of it until Saturday last, when I first saw an article on the subject. I was greatly surprised to see anything of the kind from the millers, whose friend I have been all the time and whose bill I tried to get through. I got them the floor one and let it come up a second time, but the members in charge of the measure wanted it passed over as they hoped for a compromise between the friends and the enemies of the bill. This was twice that the bill's friends had an opportunity. Later I proposed again to have the bill called up by calling upon the committee, but Mr. Tawney, the author of the bill, was absent and its other friends were unwilling to have it come up in his absence, so that it is three times the bill practically had its day in court and for the reasons named failed to be disposed of; but in no instance was it any fault of mine. The bill is a good one and ought to pass, and I have no doubt it will pass at the short session. I fear there has been some very thoughtless misrepresentation about this matter, for it is not usual for men to attack their loyal friends."

VALUES OF STOCKS DECLINE.

Western Operators Long Conspicuous in the Market Are Heavy Sellers.

New York, July 28.—Speculation fattened out to a marked degree in today's stock market and in the latter part of the day offered a degree of activity scarcely above the usual midsummer dullness. Before noon there was an enormous amount of realizing accomplished which was credited to Western operators who have long been conspicuous in the market. Unless it is considered that the resources of the money market threaten to become restricted, there was no obvious cause for the weakness. It is a question of only a short time when the movement of currency to the interior will be resumed. The movement early in the month was obviously due to the requirements of the corn speculation, but the real demand for moving crops is yet to be met and all opinions agree that the money movement will be a heavy one this year in view of the large crops expected and the unusual activity of business in all departments. From outside sources today came a few isolated suggestions of financial deals, but they were without effect on prices. The slump in Rock Island to below 190 awakened some questioning about the benefit to accrue from some of the projects proposed, which provide nearly always for practically converting stocks into foreclosure liabilities, with new stock to come after with voting power but with questionable chances for dividends, thus making their holding for control cheap. Some points of strength still remained in the market, notably Norfolk & Western, Minneapolis, St. Paul & Sault Ste. Marie, Amalgamated Copper and Colorado Fuel. The market made a considerable recovery during the latter part of the day, but there was nothing like an entire revival of last week's animation.

The closing was irregular, as follows, the quotations being furnished by Paine, Webber & Co.:

Table with columns for stock names and prices. Includes Union Pac., N. Y. Central, Southern Ry., etc.

WHEAT ENDS WITH LOSS.

Selling by Early Buyer Brings Weakness at the Last.

Chicago, July 28.—Wheat today ruled lower, the close showing net losses of 3/4c. July was more stubborn than September, but both yielded sharply during the last half hour upon rather liberal selling pressure by a prominent early buyer of September. The July stubbornness was helped by the belief that new wheat would not grade satisfactorily. The cash sales

BLOOD AT THE POLLS

RIOTING CHARACTERIZES NEW JERSEY PRIMARY ELECTION.

MAN DEAD; TWO MEN DYING

CAMDEN AND OTHER PLACES THE SCENE OF THE FIGHTING.

Joe Goddard, the Heavyweight Pugilist, One of the Men Seriously Wounded—Shot by a Negro Constable in Self-Defense.

Camden, N. J., July 28.—A primary election for delegates to the convention of the First congressional district was held today. Fighting occurred at several places. One man was killed in this city and "Joe" Goddard, the heavyweight pugilist of Philadelphia, was probably fatally shot.

The pugilist quarreled with a colored constable, Robert Washington, in Pensacola township, where he was electioneering. It is alleged that Goddard assaulted the constable with a baseball bat and the colored man, in self-defense, shot Goddard in the head. The constable surrendered himself and Goddard was brought to a hospital, where the physician says he may die.

During a riot in this city an unknown man was shot through the heart and a policeman was probably fatally stabbed.

PUGILISTS APPEAL TO MAYOR.

Jeffries and Fitzsimmons Ask Inquiry Into the Charge of Fake.

San Francisco, July 28.—Fitzsimmons has sent to Mayor Schmitz a letter asking him to investigate the charge made against Fitzsimmons of faking the fight Friday night and agreeing to abide by his decision. Fitzsimmons first decided to bring a libel suit but Lawyer Reuben H. Lloyd persuaded him not to, as the accusing paper could keep him in the courts for months. Lloyd suggested he appeal to Mayor Schmitz, who is the only man in authority accepting the fake theory, to settle the matter by taking testimony in regular judicial way and then deciding the question himself. Fitzsimmons drafted the letter to the mayor today and Jeffries will also send one, making the same appeal. If the mayor accepts Fitzsimmons is positive he will be acquitted. If the mayor or referees, then Fitzsimmons can declare that official is afraid to make the investigation, as he knows the charge is flimsy.

KRUPPS ARE PIQUED.

Decline to Send a Gun to the St. Louis World's Fair.

Berlin, July 28.—The Krupps refuse to exhibit at the St. Louis exposition because the United States did not purchase the great gun exhibited at Chicago. This piece, constructed specially to exhibit in the United States, and which has been in the way on the practice ground at Meppen since the close of the Chicago fair, is now outlaid. Curiously, one of the principal objections made by possible exhibitors at St. Louis is that the United States does not confer decorations, hence the exhibitors have nothing to show for their troubles. The only way the fair representatives have of getting around this objection is that Emperor William will probably recognize the best exhibitors by bestowing orders on them, and this, it is understood, he is quite willing to do. It is well known that one reason why Washington is an undesirable diplomatic appointment is owing to the impossibility of receiving decorations. One German minister refused to go to Washington for this reason before Dr. von Holleben's appointment.

WANT KING EDWARD'S CATTLE.

Effort Making to Secure Them for the St. Louis Exposition.

Washington, July 28.—Senator Harris of Kansas is here making final arrangements for his visit to Europe as a special commissioner of the St. Louis exposition to secure exhibits of foreign livestock at the exposition. One of the principal purposes of the senator's trip to England is to enter into negotiations through Ambassador Choate for the exhibition at St. Louis of the herds of cattle owned by King Edward and partly collected by the late Queen Victoria. They have been exhibited at various livestock shows in England and the senator believes that they can be brought to St. Louis, where it is the intention to have a great international livestock show, the first known in history. Senator Harris will also visit York, England; Aberdeen, Scotland; France, Holland and Switzerland for the purpose of arranging for exhibits of distinctive breeds of cattle and horses from these places. He will sail from New York next Wednesday and expects to be in Europe six weeks.

TRUST PLANK THE STICKLER.

Iowa Republicans Divided on the Make-Up of Their Platform.

Des Moines, Ia., July 28.—Delegates have arrived in large numbers tonight for the Republican state convention Wednesday. Little attention is being paid to candidates, the talk being of the platform. One element favors the retention of last year's platform and the other insists on dropping the following from the plank, dealing with trusts and combinations: "We favor any modification of the tariff schedules that may be required to prevent their affording shelter to monopoly." La Fayette Young is leading those favoring the elimination of the utterance quoted. Governor Cummins and his lieutenants insist on reaffirmation.

IS FRIEND OF THE MILLERS.

Speaker Henderson Surprised at the Hostility of the Flour Men.

Dubuque, Ia., July 28.—Speaker Henderson, in an interview today on the reports about the National Millers' Federation's grievance against him on the ground that he prevented the passage of the London dock bill, said: "I did not hear anything of it until Saturday last, when I first saw an article on the subject. I was greatly surprised to see anything of the kind from the millers, whose friend I have been all the time and whose bill I tried to get through. I got them the floor one and let it come up a second time, but the members in charge of the measure wanted it passed over as they hoped for a compromise between the friends and the enemies of the bill. This was twice that the bill's friends had an opportunity. Later I proposed again to have the bill called up by calling upon the committee, but Mr. Tawney, the author of the bill, was absent and its other friends were unwilling to have it come up in his absence, so that it is three times the bill practically had its day in court and for the reasons named failed to be disposed of; but in no instance was it any fault of mine. The bill is a good one and ought to pass, and I have no doubt it will pass at the short session. I fear there has been some very thoughtless misrepresentation about this matter, for it is not usual for men to attack their loyal friends."

VALUES OF STOCKS DECLINE.

Western Operators Long Conspicuous in the Market Are Heavy Sellers.

New York, July 28.—Speculation fattened out to a marked degree in today's stock market and in the latter part of the day offered a degree of activity scarcely above the usual midsummer dullness. Before noon there was an enormous amount of realizing accomplished which was credited to Western operators who have long been conspicuous in the market. Unless it is considered that the resources of the money market threaten to become restricted, there was no obvious cause for the weakness. It is a question of only a short time when the movement of currency to the interior will be resumed. The movement early in the month was obviously due to the requirements of the corn speculation, but the real demand for moving crops is yet to be met and all opinions agree that the money movement will be a heavy one this year in view of the large crops expected and the unusual activity of business in all departments. From outside sources today came a few isolated suggestions of financial deals, but they were without effect on prices. The slump in Rock Island to below 190 awakened some questioning about the benefit to accrue from some of the projects proposed, which provide nearly always for practically converting stocks into foreclosure liabilities, with new stock to come after with voting power but with questionable chances for dividends, thus making their holding for control cheap. Some points of strength still remained in the market, notably Norfolk & Western, Minneapolis, St. Paul & Sault Ste. Marie, Amalgamated Copper and Colorado Fuel. The market made a considerable recovery during the latter part of the day, but there was nothing like an entire revival of last week's animation.

The closing was irregular, as follows, the quotations being furnished by Paine, Webber & Co.:

Table with columns for stock names and prices. Includes Union Pac., N. Y. Central, Southern Ry., etc.

WHEAT ENDS WITH LOSS.

Selling by Early Buyer Brings Weakness at the Last.

Chicago, July 28.—Wheat today ruled lower, the close showing net losses of 3/4c. July was more stubborn than September, but both yielded sharply during the last half hour upon rather liberal selling pressure by a prominent early buyer of September. The July stubbornness was helped by the belief that new wheat would not grade satisfactorily. The cash sales

SKIN TORTURES

And every Distressing Irritation of the Skin and Scalp Instantly Relieved by Baths with Cuticura SOAP.

There were 20,000 here and seven loads at the seaboard. September was active, and the trade was large. The foreign advices were bearish. Liverpool came 3/4c lower. In corn there was but a slight change from Saturday, July being 1/4 up. Considerable irregularity was shown for July on buying by belated shorts. The aggregate of the July trade was smaller. The selling was done principally by concerns owning actual corn and intending to deliver. The cables were lower, Liverpool coming 3/4c off. Oats were active and irregular. The weather bulletins were bullish. The weakness at the last was in sympathy with the break in wheat. The light arrivals had a good effect early. Yesterday's sellers turned buyers and the prices advanced 1/2c, the latter on new July. The advance was well held on July, but the distant months gained only 1/4c.

The leading futures ranged as follows:

Table with columns for commodity names and prices. Includes September wheat, highest, lowest, etc.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

Table with columns for copper stock names and prices. Includes Adve., All., Green Con., etc.

BOSTON STOCK SALES.

The following were the transactions in copper stocks on the Boston exchange yesterday as furnished to The Mining Journal by Paine, Webber & Co.:

Table with columns for stock names and prices. Includes Adventure, Allouez, Arnold, etc.

CHOLERA'S DEADLY RAVAGES.

St. Petersburg, July 28.—The deaths from cholera in Manchuria between July 15 and 23 numbered 106 Russians and 270 Chinese.

Cairo, Egypt, July 28.—There were thirty-five new cases of cholera and thirty-eight deaths in this city yesterday. At Moucha, ten new cases and twenty-one deaths are reported.

SPARKS FROM THE WIRES.

New York, July 28.—Chief Rabbi Jacob Joseph, of the United Jewish congregations, the highest official in the orthodox Jewish religion in the United States, died late tonight, aged eighty-two.

WANTED BRICKLAYERS

- FOR SALE**—Choice building lots in Nester addition for sale cheap for cash, or on time at low rate of interest. For particulars inquire at office of Peter Vaher. 6-2-1f

POOR PARIS GREEN. That Sold Today Is Said to Fatten the Potato Buggy.

Potato bugs are more troublesome this year than for several years past, says the Mining News. Spraying the vines with paris green appears to do no good and there is very good reason for this. According to the president Geismar of the experiment station pure paris green, or anything that approaches it, cannot be bought in Michigan today. The green potato bug poison sold in the state is highly adulterated and almost worthless. Mr. Geismar has ceased to use it on the state farm and has substituted arsenic, which he prepares by boiling. This, however, is not unattended with risk and is therefore not recommended to the general public.

MARINE MATTERS.

Soo Canal Passages.
Sault Ste. Marie, July 28.—(Special.)—Patrick Barr, 9:25 last night; Wolvin, Corlies, 9:40; Collinberry, Bloom, McGregor, Alleghany, 10:20; Troy, 10:40; John Craig, 12; Choctaw, 1 a. m.; Merrimae, George R., 1:30; Case, 2:40; Amazonas, 4; Fryer, 5:15; Nicol, 5:50; Superior, City, Ryan Mawr, Columbia, 6:20; Commercial, Holland, 7; Bangor, 8; Venezuela, Japan, L. C. Smith, 8:30; Pawnee, Orton, Young, Edwards, 10; Griffin, Malta, Hanna, 11:20; Admiral, Pathfinder, Fronteneau, noon; Christoph, 12:45; Ottawa, 1:15; Gilchrist, 1:20; Schuck, 2; North Star, Presque Isle, 2:20; Komau, 3; Hutchinson, Cadillac, 3:20; Waldo, 4; Kallyuga, 4:15; Ellwood and whiteback, Helen C., 5:40; Harvey Brown, Havana, 6:20; Madden, Noquebay, Mauteine, 6:30.

Harbor Gossip.
The Wade, for Buffalo, and the Wawatam, for Cleveland, took out cargoes from the South Shore docks yesterday. A batch of boats arrived at the Presque Isle dock, but there were no clearances.

CITY BRIEVITIES.

Today's weather: Generally fair and warmer. Variable winds mostly fresh southerly.
Yesterday's temperature: 7 a. m., 64 degrees; noon, 69 degrees; 7 p. m., 66 degrees. Maximum, 72 degrees; minimum, 59 degrees.

Miss Meehan of Milwaukee is in the city, the guest of Louis Reindinger and family.
Miss Harkins is up from her home in Canada, visiting Dr. F. McD. Harkins and family.
The W. C. T. U. will meet this afternoon at 2:30 o'clock with Mrs. James A. Pearce, 341 West Bluff street.
The Marquette and Ishpeming baseball teams will cross bats at the fair grounds Sunday afternoon. Ladies will be admitted free.
Mrs. F. J. Burtcher and daughter of Fostoria, O., are in the city, the guests of Mrs. Burtcher's parents, Mr. and Mrs. A. F. Agnew.
Mrs. Nell Cook and daughter Grace, Miss Hornby, Fourth Worth, Tex., and Miss Grace Ross have returned from a few days' visit in the copper country.
C. E. Willman left yesterday for North Vernon, Ind., on a two weeks' vacation. While he is away his duties in the South Shore yard office will be in the hands of J. Lathers.
Amil Piper, who is employed at the Lake Superior Powder company's plant, will leave Thursday of this week for Minneapolis where he will spend two weeks visiting his parents.
There will be an excursion and dance given by Captain Smith of the steamer Friant this evening. The boat will leave Spear's dock at eight o'clock. There will be good music. Tickets will be fifty cents.
A consignment of 1,000 bags of nitrate of soda was unloaded at Spear's dock last evening. The shipment was ordered by the Lake Superior Powder company. The steamer Nicol carried it. The Nicol cleared last night, bound up.
F. O. Clark arrived home yesterday from Mackinac, where he attended the conference of the boards of control of the Marquette, Ionia and Jackson penitentiaries. Warden Freeman of the Marquette institution is also home.
The passenger steamer Peersless, which cleared from this port Friday morning, was struck by lightning that night, just before getting into the Soo. The bolt knocked off the top of one of her masts. Further than this, little damage was done.
H. Blomhuber & Sons advertise in another column of today's issue for ten good farm hands. They are in the midst of their haying, and the potato crop needs a good deal of attention. All hands will be busy at the farm until the crops are harvested.
The force at the city treasurer's office is very busy with the collection of taxes. There is a constant stream of tax payers during office hours. Superintendent Kern, of the water system, helps with the books during the hours he can spend away from his own office.
The board of supervisors will meet Thursday, August 7. The auditing board will assemble at the county building the Saturday before the session, August 2. All bills against the county must be in the hands of Clerk Ross by Thursday evening, July 31.
Grabover's clearing sale of summer goods is being continued this week. So far it has been very successful. The prices quoted being an inducement not often accorded Marquette shoppers. For details, the lady readers are referred to Mr. Grabover's display ad.
Street Commissioner French is working his cement sidewalk crew in front of the Bertha block, where a new cement walk is to be put in. This will be one of the longest walks that has ever been laid here, and will be a great improvement for the south side of the street.
One of the best blocks of new street that has been put in this summer by the street building force is just being completed on Arch, between Front and Third streets. The macadam is unusually firm. The street roller and the street commissioner's men are now working a block further west on Arch, between Third and Fourth streets. It is the intention to give Blaker street, re-

cently completed between Ridge and Front streets, a little more attention. The road bed has softened in a few spots.
Under-sheriff Sam Bennett went down to Newberry yesterday with Phillipa Carne of Champion in charge. The woman was committed to the Newberry hospital for the insane yesterday morning, after her mental condition had been examined into. Mr. Bennett returned on the late train last evening.

J. A. Ermatinger, who has been with the Mining Journal as telegraph editor the past few months, left yesterday for Houghton, where he will take a similar position on the Daily Mining Gazette. Mr. Ermatinger has spent the past few days renewing old acquaintances at the Soo, where he lived before coming to Marquette.

The newly organized military company participated in a drill last evening, marching from and to the city hall about fifty strong and headed by a drummer. Despite the lack of guns, the boys displayed a martial appearance and marched with a military precision that indicated there is good material in the company.

The South Shore berry train made its first trip yesterday, leaving at 7:45 a. m. There was a goodly contingent of pickers on board and they came home with baskets and pails brimming full. The train arrives in Marquette on the return trip about six o'clock. It will continue to run until the height of the berry season is passed.

Hiram Burt yesterday received from his daughter, May, a postal card bearing date of Venice, July 14, in which she states that the Campano collapsed at 9:30 o'clock that morning. No harm, she states, was done to St. Marco or the ducal palace. There was great consternation. Not one brick of the famous structure was left standing.

The third Assembly of the summer series will be held at Fraternity hall tomorrow evening. The full ideal orchestra will furnish the music. This mid-week Assembly will take the place of the hop that, according to the invitations, was to be given the evening of August 2. The next regular Saturday evening Assembly will be held on August 16.

Realizing that the soil in that region is fertile and well adapted to agriculture, Marquette county citizens are exerting themselves in showing up their advantages as a farming, as well as mining, country. Many new farms have been improved in the west end of that county this year, the settlers being Finlanders with a good knowledge of how to till the soil, and a rapid development of that section is expected.—Soo Times.

Prof. Clinton D. Smith of the Agricultural College, who spent most of last week in Marquette and Alger counties, informed the Mining News that while in Marquette he examined the ground feed sold by most of the dealers. Instead of the ground corn and oats the dealers supposed they were offering the public, they were found to be selling a mixture of wheat middlings, oat husks and corn cobs.

The body of little August Linder, who met such a tragic fate at Skandia, will be taken to the Sweden Lutheran church tomorrow morning at 9 o'clock, and from that time until the doors of the church will be open for all friends of the family who care to review the remains. The funeral will probably be held in the afternoon, the arrangements not having been completed and so the services will be from outside points will be in attendance.

The hydrant used in the uptown South Shore yards by the car washers gave way yesterday. As the opening is three feet of an inch, from a four inch main, there was all sorts of excitement for a few minutes. Superintendent Kern was sent for, but he, through a misunderstanding of the directions, journeyed down to the South Marquette yards, before he reached the place where the trouble was located. He succeeded in making temporary repairs, so that the labors of the car cleaning crew were not interrupted.

Charles Johnson, the Ishpeming contractor who will move the old court house building to its temporary location at the northwest corner of the lot, is well along with the preparations looking toward the moving. He has nearly completed the task of tearing away the foundations and soon the structure will rest on the big beams on which it will be transferred to the new site. Mr. Johnson expects to begin moving the building about Thursday or Friday, and he hopes to have it in its new location by the latter part of the week. This is one of the biggest moving contracts that has ever been taken in Marquette county.

DROPS 100 FEET AND LIVES.

Clinton, Ia., July 28.—In the presence of 12,000 persons Peter Lind, a young man aged twenty, from Chicago, made a leap from the highest span of the high bridge here last evening into the channel of the Mississippi, a distance of 104 feet. He turned a complete somersault, striking the water on his feet. He was picked up by a skiff, none the worse for his long leap.

ELGIN BUTTER QUOTATIONS.

Elgin, Ills., July 28.—There was only one small lot of butter offered on the board of trade today, amounting to thirty-four tubs, ten of which sold at 21 cents. The official market was made firm at 20 cents, a decline of one cent. The output for the week was 72,000 pounds.

Tell us why a druggist offers you a substitute for the Madison Medicine Co.'s Rocky Mountain Tea. Does he think you or is he after the bigger profit? Love it over. Stafford Drug Co.

The Metropolitan is looking for a hustler to take charge of a section of the morning paper collecting. Fine opportunity for a man of ambition to work up in the business. Salary or commission. Call at the company's office in the Harlow block, before 9 a. m. (7-22-3d-0)

DANCE ON STEAMER FRIANT.

There will be a dance on board the steamer Friant on Tuesday evening next, July 29. All are invited. A charge of fifty cents per couple will be made. (7-25-4t)

PAIN'S CELERY COMPOUND NATURE'S SUMMER HEALTH GIVER.

It Purifies the Blood and Multiplies the Number of Vital Red Corpuscles, Feeds the Nerves and Tissues and Gives True Physical Strength.

Weak nerves, exhausted tissue, poor thin blood, impaired digestion and sleepless nights, account for much of the present existing summer misery and suffering.

Dear reader, if you are unfortunately numbered amongst the sickly and weak mortals of today, it is now time to awake to a true realization of your danger. The weakening and depressing hot weather will only add to your miseries if you are careless and indifferent.

There is absolute relief and a positive cure for you in Paine's Celery Compound. This wonder-working medicine is successfully conquering such troubles as baskets and pails brimming full of testimonials that Paine's Celery Compound makes new, pure, blood, builds up the nervous system, regulates digestion, whets the appetite and gives vigor and strength to combat the discomorts of the heated term.

Mrs. J. N. Morgan, Secretary, Md., used Paine's Celery Compound to banish nervous prostration, heart palpitation and insomnia. The great medicine quickly restored physical strength by purifying the blood, bracing the nerves and building up tissue; she says: "When I began the use of Paine's Celery Compound I was suffering with nervous prostration, had palpitation of the heart and could not sleep. When I first went to bed I would wake with a start. I would get up in the morning feeling worse than when I went to bed. Now, after using Paine's Celery Compound, I can eat and sleep well and wake up in the morning feeling refreshed and strong."

Notice to Taxpayers.
Office of the City Treasurer, Marquette, Mich., July 15, 1902.
Notice is hereby given that the general tax roll of the city of Marquette has been deposited with me, and is now in my office in the City Hall, and that the amount of taxes therein assessed and specified are due and may be paid to me at any time up to and including the 31st day of October, A. D. 1902.
No addition will be made to the taxes paid before the first day of August next; but an addition of one per centum of every unpaid tax will be made on that day, and a like addition of one per centum every month thereafter, until the first day of November, A. D. 1902.
CHARLES A. EGGERS,
City Treasurer.

"J. E. K." CIGARS

Always Reliable. The Best that Tobacco can produce. 10c. or 3 for 25c. J. E. Kenning & Co. Mfg's. Grand Rapids, Mich.

1902 EDITION.

The new 1902 edition treats of Copper from all standpoints—Historical, Technical, Statistical and Descriptive. It is divided into ten chapters, as follows:

- I. History of Copper.
- II. Chemistry and Mineralogy.
- III. Metallurgy.
- IV. Glossary of Mining Terms.
- V. Copper Deposits of the World.
- VI. Copper Deposits of the United States.
- VII. Leading Foreign Mines.
- VIII. Lake Superior Mines.
- IX. American Copper Mines.
- X. Statistics of Copper.

The work is an octavo volume of 492 pages, set in Brevier type. It is the only volume printed in any language treating of the entire subject of copper, with descriptions of all principal mines, some 700 properties being listed, the descriptions ranging from a few lines to a dozen pages for each, according to importance.

The price of the Copper Handbook is \$3 in full morocco, and \$2 in buckram binding, prepaid to any address in the world. It will be

SENT ON APPROVAL

and may be returned within 30 days, if the purchaser is dissatisfied, for any reason whatever, and price paid will be refunded.

DEMOCRATS ASSEMBLE.

Delegates Were Chosen to Three Conventions Yesterday Afternoon.

The Democratic county convention was held at Andrews' hall yesterday, in pursuance to the call theretofore published. The meeting was largely attended by leading Democrats of the county. The best of feeling prevailed and nothing occurred to mar the general harmony. It is seldom so much enthusiasm shows itself in Democratic gatherings as was witnessed. Several short but spirited addresses were made and were received with hearty expressions of approval.

T. J. Dandon called the meeting to order and was elected chairman of the convention. P. J. McGinty was chosen secretary. The usual organization was perfected in short order and the following delegations were chosen: State convention—Rush Culver, Peter Kremer, John Manning, E. A. Culver, F. M. Moore, Thomas Trathen, M. T. Murphy, C. F. Sundstrom, William Andrews, T. J. Dandon, John Vivian, Ed G. Thomas, D. H. Dalton and J. Town. Congressional convention—L. E. Heffernan, Joseph Schilling, E. A. Culver, Frank Vivian, Edward Umuth, M. C. Belhumer, Amasa Daly, Patrick Whalen, Sr., P. J. McGinty, C. F. Sundstrom, Frank Zoberlein, E. A. Gourdeau, Peter Kremer, T. J. Dandon. Senatorial convention—L. E. Heffernan, Rush Culver, Thomas Trathen, William Andrews, Joseph Schilling, William McGinty, D. H. Dalton, C. F. Sundstrom, Ed C. Thomas, John Thomas Hickey, T. Garrity, J. Hassett, Morrill Kelly, Dennis C. Calligan.

T. J. Dandon was chosen chairman and P. J. McGinty secretary of the Democratic county committee for the ensuing two years.

EXPECTS TO GO BACK.

C. J. Byrns' Confidence in His Return to Lansing Seems Justifiable.

The man who caused more trouble to the legislative committee clerks last session than all of the other statesmen combined has arrived in the city with the announcement that he expects to return to Lansing next January, says one of the Grand Rapids papers. He is Representative C. J. Byrns, of Ishpeming, practically the only full blooded Irish diplomat in the lower house, and one of the best looking men upon the floor. He is state deputy for the Michigan Woodmen and went to the legislature largely to have an office and desk room convenient to his business. Every day during the session, he received nearly a bushel of mail, and even with his own son as a house messenger employed by the state, he had hard work in keeping up with the rush of business. It was with this mass of correspondence that he made the legislative committee clerks tired of this life. As employees of the house they were supposed to extend all courtesies to its members and they could not well rebel against this extra work of the north country member, especially when they really had nothing else to do.

"Yes, I expect to go back to the house again," said Mr. Byrns cheerily. "I could have gone to the senate except for the congressional meeting in our district. I was a strong friend of H. O. Young, who defeated Congressman Sheldon, and Marquette couldn't reasonably expect the congressional and senatorial nominations. We needed iron county for Young, too, and therefore we made a deal to make Michael Moriarty, of that county senator in return for his support for Young. The slate will go through in that way, and I will remain in the house."

BIG POTATO CROP.

Joe Covio Will Take Out Over Three Thousand Bushels This Fall.

Joe Covio, who raises more potatoes than any other man in Ishpeming, is feeling jubilant over the prospects for this season's crop. Covio takes little care of his potatoes. He spends nearly all his time during the summer season at his field. The bugs never damage his plants, and he has the weeds out of the way before they injure them. When his stalks grow too rapidly he cuts them down. He has found by experience that this is a good thing to do.

Mr. Covio has over twenty acres of potatoes planted west of the Union park. Last year he took out over 1,600 bushels, which he sold at an average price of eighty cents, but this year he says he will get considerably over 3,000 bushels. He dug some of the potatoes last week and he found them in splendid condition.

Mr. Covio is doing a little experimenting this year, and if the results are what is anticipated, he will not use any more manure on his land. Last fall he read in a paper that some of the Wisconsin potato growers were using clean straw instead of manure. He tried the experiment this season and he says the straw potato patch is doing well. He is anxious to see how the potatoes from it will compare with the others. It is claimed that the straw stock is the dryer of the two. Straw is less expensive than manure, besides being much easier to handle.

COMING ON A SPECIAL TRAIN.

The members of the Marquette Travelling Men's baseball team, and the rooters, will come to this city next Saturday afternoon, leaving Marquette at 1:30. The visitors will meet the Ishpeming-Negaunee team at Union Park at 3 o'clock. A number of ladies will accompany the Marquette team. The Ishpeming-Negaunee players will be pleased if their friends turn out, as they will feel badly if the rooters for the visiting nine outdo them on their own grounds.

LOOKING OVER TIMBER.

Lumbermen Have Recently Inspected Tracts North of Ishpeming.

From present indications, there will be more work than usual in the territory north of Ishpeming during the coming winter. A number of prominent lumbermen have been out during the past few weeks, looking over the timber, with a view to purchasing or taking contracts for cutting.

Last week Bob Stephenson of Ontonagon and Thomas Kelly of Menominee, both officials of the Diamond Match company, spent some time in the district. The Diamond Match people contemplate the purchase of a tract owned by Kibby & Son. The latter bought some thirty million a short time ago from the Michigan Land & Iron company. The timber is for sale, and if it is not sold before the logging season opens it is understood that the owners will let sub-contract with a view to getting out several million this year.

Ferguson Bros., who have operated in the Dead River district for some years past, expect to take contracts again this year. If the Diamond Match company does not buy up the entire tract owned by Kibby & Son, it will not be long before the latter will let their contracts. Lumberman Foss, of Bay City, also owns some of the timber in the Dead River district. An estimate of nine millions has been placed on the tract. It is expected that he also will do something this season, but no contracts have yet been let.

The toting will be done from Ishpeming. The haul will be something like twenty-five miles. The contractors will have headquarters about fifteen miles out, but the men will have camps near their work. It is expected that no less than three hundred men will be employed out from Ishpeming the coming fall and winter.

DOING HIS BEST.

Although Poundmaster Hirwas is not corralling every cow that walks the streets, he is doing his best to keep them out of the lawns and off the principal thoroughfares. He is up every morning at day break and he keeps mowing all day and often until late in the evening. Yesterday the pound was full of cattle. He put in eight cows and two horses Sunday. With these, and a few others he locked up late last week, there was no room for other offenders. One of the horses belongs to an alderman, and it is the second time without counting the first few weeks that the city "dad" has been obliged to "plank down" a dollar for the release of his nag. The poundmaster has a great deal of territory to cover and it is only fair to state that he is doing his work as well as one man has ever succeeded in doing it.

ANOTHER RESTAURANT.

Ishpeming will have another restaurant within the next few days. Christ Holmstrom, who has conducted a restaurant at Escanaba for the past year, has rented the Robbins building on Main street, opposite the Miners' National bank, and is now fitting up the place. He is recommended as a first-class man. With the addition of the new place, there will be no less than six restaurants in the city.

SOLD HIS TIMBER.

August Huhtala, who operates a saw mill at Huhtala Siding, west of Covington on the line of the South Shore road, has sold his timber tract. He sold his season's cut, including lumber of different kinds, to the Consolidated Fuel & Lumber company. Mr. Huhtala has been operating his mill since early in the spring. He has sufficient timber on hand to keep it going until late in the fall.

HAS WRITTEN FIFTEEN PLAYS.

C. T. Dazey, author of "The Burglar and the Wait," which will be presented here Friday, Aug. 8, has written fifteen plays. The most successful are "In Old Kentucky," which made the author rich. His other racing plays, "The Suburban," and "An American King," in which James O'Neil made his first starring venture, are money makers. Mr. O'Neil's tour was interrupted by an offer to come to New York for the great Boat's Theatre Festival of "Monte Cristo," with which his name has since been connected.

In an interview with Mr. Dazey a

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers. They filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidneys.

Kidney trouble causes quick or steady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It is to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild

Swamp-Root, the great kidney remedy if soon realized, it stands the highest for its wonderful cures of the most distressing cases and is sold on its merits

by all druggists in fifty-cent and one-dollar size.

You may have a free sample bottle by mail.

Home of Swamp-Root free, also pamphlet telling you how to find out if you have kidney or bladder trouble.

Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

E. W. Grove

A PARALYTIC STROKE

How a Detroit Woman was Cured of Her Dreadful Affliction.

"I never expected to get well," said Mrs. Mary Patton, of No. 240 E. Congress street, Detroit, Mich. "but now you can see for yourself that I am. I had a stroke of paralysis some time ago and never fully recovered from it until I took Dr. Williams' Pink Pills for Pale People. It left me suffering from a numbness in my limbs and my hands and feet were always as cold as ice. It undermined my health and I felt miserable until, after reading an advertisement, I decided to take Dr. Williams' Pink Pills. My recovery was slow but sure and I kept on taking the pills till my flesh felt warm and the numbness all disappeared. It was not very long before I felt perfectly well and strong. I bless the day that I heard of Dr. Williams' Pink Pills."

The fact that Dr. Williams' Pink Pills for Pale People cured such a severe case as Mrs. Patton's is sufficient proof that they will accomplish equally wonderful results in lesser afflictions of the nervous system. They are sold at fifty cents a box or six boxes for two dollars and fifty cents, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Company, Schenectady, N. Y.

short time ago, he said that he was perfectly satisfied with the manner in which "The Burglar and the Wait" had been placed before the public, and that he did not think the production could be bettered.

DON'T FAIL TO TRY THIS.

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure will surely be effected. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. It's a wonderful tonic for run-down systems. Electric Bitters positively cures Kidney and Liver Troubles, Stomach Disorders, Nervousness, Sleeplessness, Rheumatism, Neuralgia, and expels Malaria. Satisfaction guaranteed by Stafford, Only 50 cents.

ISHPEMING IN BRIEF.

C. F. Donahoe is up from Munising on a visit to his people.

Dr. A. Deadman has a desirable milk cow which he will sell at a reasonable price.

Captain Thomas Walters left yesterday for the Mesaba range, where he will spend a few days.

Captain John Willis of the Appleton mine, Lovette, spent Sunday with his family in this city.

A new plank sidewalk is being laid on the north and east sides of the Peninsula bank building.

Mrs. J. S. Mennie will spend this week at Buffalo. She left one day last week, making the trip by boat.

Williams' citizens drew good-sized crowds yesterday afternoon and evening. Two performances will be given again today.

Mrs. I. Lallerstedt has gone to Chicago, where she will spend the next six weeks or two months. She will purchase her fall stock of millinery before returning.

Mrs. J. L. Bradford and her daughter Ethel are visiting friends at Grand Rapids. From there they will go to Quincy, Ill., where they will visit a short time.

Patrick Wade is punching tickets on Nick Debeck's run on the Chicago & Northwestern line during the latter's absence in Escanaba, where he was called on account of the death of his mother.

The Ishpeming Light Guard will run an excursion to Escanaba Sunday, Aug. 31. The Ishpeming City band will accompany the soldiers and will give a concert at the Sandy City. Although the fare for the round trip has not yet been announced, it will not be over \$1.50.

G. Besonen, Jr., has sold his furniture and undertaking business to Gust A. Saari, who will conduct it at the old stand on South First street. Mr. Besonen gives notice elsewhere in this issue that his success will assume all liabilities and pay all bills. The store will retain its old name, the "Finnish Furniture Store."

Miss Winifred Lacey returned Sunday from Minneapolis and St. Paul, where she spent the past month. She attended the National Educational association's meeting at Minneapolis and later took a primary course under Miss Phelan of the St. Paul Training school. Her sister, Miss Anna Lacey, is still in St. Paul. She is taking a special course at the Western Summer school. She will return in about a week.

TO WHOM IT MAY CONCERN.

This is to give notice that the furniture and undertaking business heretofore conducted by G. Besonen, Jr., has been sold to Gust A. Saari who will assume all liabilities and pay all bills. The store will retain its old name, the "Finnish Furniture Store."

G. BESONEN, JR. (7-29-10k)

JUSTICE MILES BEACH.

His Courtesy and Sympathy Were Never Failing.

The late Justice Miles Beach of the Supreme court was a strict observer of the niceties of etiquette and of the consideration due to others.

In the trial of the suit against the United Verde Copper company, the late Justice Miles Beach, and which his death leaves undecided, Senator William A. Clark of Montana, after giving testimony, asked that his cross examination be deferred until later in the trial, so that he could be in his place in the senate during the week's session.

"Certainly," said the justice. "I appreciate the favor," said the senator.

"It is due you as a member of the United States Senate," said the justice graciously. "This court will never so exalt itself as to permit its convenience to work inconvenience to so high a body as the senate."

The humblest litigant, however, received the same consideration at his hands. The plaintiff in a comparatively trivial suit was on the stand, and was so nervous and absent-minded that Justice Beach, leaning over, inquired if he was ill.

"No, your honor," said the man, gulping down a sob, "but my child is dying."

"The court will adjourn till Monday," said the justice quietly.

His courtesy to womankind was marked and unvarying, regardless of social condition or personal appearance. One day, when Broadway, at Houston street, was torn up during the changing of the motive power of the Broadway cars, he was crossing the narrow path which the workmen had left for pedestrians, when he met a party of East-side garment workers carrying their hand-work back to the factory, and he stepped aside into the deep, sticky mud, making way for them with as much gracefulness as a courtier would show to a countess.—New York Times.

We handle a full line of "W. B." corsets. Finnish Mercantile association.

DRESSMAKING.

Mrs. A. Hasenwinkle, 210 North Maple street, is prepared to do dressmaking of all kinds. High class work solicited. Thirty years' experience. (7-25-10)

Women love a clear, healthy complexion. Pure blood makes it. Burdock Blood Bitters makes pure blood.

BIDS FOR UNIFORMS.

Bids will be received by John Delbridge, recorder of the city of Ishpeming, for furnishing nine (9) double-breasted sack, police uniforms. Bids are to be accompanied by samples of cloth, and they must be in the hands of said John Delbridge not later than 4 o'clock p. m., on the 28th day of July, 1902. The right to reject any and all bids is reserved. (7-19-04)

MOTHER ALWAYS KEEPS IT HANDY.

"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of seventy-six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. Harwood, Ishpeming; Stafford Drug Co.

USE ALLEN'S FOOT-EASE.

A powder to be shaken into the shoes. Your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. It cools the feet, and makes walking easy. Cures swollen, sweating feet, ingrowing nails, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it today. Sold by all druggists and shoe stores for 25c. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

The Way To Chicago

The Limited, leaving Minneapolis at 7:30, St. Paul at 8:25 p. m., daily, arrives in Chicago 9:20 next morning.

Breakfast is served en route in a comfortable Dining Car, beautifully decorated. The service is "a la carte"—you pay only for what you order. This is more popular with travelers than the "dollar a meal" charge.

The Scenic Express, leaving Minneapolis at 7:30, St. Paul at 8:05 a. m., except Sunday, arrives in Chicago 9:35 p. m. same day. Pullman sleeper serves lunch. Dining halls at La Crosse and Savanna.

Ask Your Home Agent for Tickets via the Burlington Route.

Negaunee, Mich.

Only seven sovereigns of Europe have heirs of their own body to succeed them. The Emperor of Austria, the king of the Belgians and the king of Rumania will be succeeded by nephews, the emperor of Russia and the sultan of Turkey by brothers, and the presumptive successor to the king of Italy's heir is his cousin, the duke of Aosta, while the succession to the throne of the Netherlands and Serbia may be regarded as in abeyance at present. But for the Salic law, however, the crowns of Russia, Austria, Italy and Belgium would pass to direct descendants of the present ruler. In the case of Turkey the succession is regular, the sultanate passing from brother to brother and not from father to son.

NEED MORE HELP.
Often the over-taxed organs of digestion cry out for help by Dyspepsia's pains, Nausea, Dizziness, Headaches, liver complaints, bowel disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25c at Stafford's drug store.

Ten thousand demons gnawing at one's vitals couldn't be much worse than the tortures of itching piles. Yet there's a cure. Doan's Ointment never fails.

Annual Meeting Grand Lodge Benevolent and Protective Order of Elks, Salt Lake City, August 12-14, 1902. Tickets at very low rates will be on sale August 7th, 8th, 9th and 10th and will be valid for return up to and including September 30th, 1902.

For further particulars apply to station and ticket agents, or to GEO. W. HIBBARD, Gen. Pass. Agent.

Negaunee and Vicinity.

Commercial Travelers Are Practicing for Next Saturday's Contest.

The commercial men who make up of the ball teams of the three cities of this county are receiving no little attention. As a rule the traveling men do not take kindly enough to baseball to get out and tear around a diamond in the hot sun. The majority of their number prefer to sit upon the bleachers and tell professional how the game should be played. Manager Peter Trank of the Ishpeming-Negaunee team, is in receipt of a letter from a Commercial Journal, asking for pictures of some of the "best" players in his line. Pete is at a loss to tell which men to single out as "best," as he considers all the players "bad." However, he is endeavoring to get photos of Will Monroe, W. J. Crane, and a few others.

Friday morning last, shortly after 5 o'clock, the twirler of the Marquette team, who spent the previous day and night at Munising, got out of bed to practice. One of the Twin City players came along and caught him throwing the ball against the side of a building. This is only one of the instances which might be mentioned to show that the players of the two teams are interested in the proposed contest. Saturday and yesterday some of the players of the Ishpeming-Negaunee team were out practicing.

The game next Saturday will be witnessed by every commercial man in the county. The Twin City men are now telling their friends what they will do with their opponents and the other fellows are spinning similar yarns. The game will begin at 3 o'clock. There will be no admission.

ROCKY BASEBALL.
The Independent ball team and the Second nine Republic met at the Maas field Sunday afternoon. A fair crowd witnessed the contest, though all did not remain to see the finish. The runs came in so rapidly that the scorers had difficulty in keeping a correct count. At the end of the game the Independents had thirty-eight runs and the Republics had twenty. The Republics attributed their loss playing to the fact that some of their best men were absent, among the number being their twirler and the captain.

The Independents have arranged a game with the Second team of Ishpeming to take place next Sunday afternoon at the Union park grounds. On the following Sunday the boys will go to Republic to play the Second nine of that place a return game.

ILLUSTRATED NEGAUNEE.
C. O. Stiles and two or three assistants canvassed Negaunee this week and next for the sale of the illustrated publication of the Twin Cities and their environs. They finished their work in Ishpeming Saturday last, getting over 1,000 orders. Instead of ninety illustrations of the principal buildings and views of the two cities, the Iron City drive, etc., there will be over one hundred. The solicitors received such encouragement in Ishpeming that the extra views were added after the work had been started. The book will sell at seventy-five cents a copy. From here Mr. Stiles and his men will go to the Winthrop.

GEORGE BARNES RESIGNS.
George Barnes, agent of the South Shore company, has tendered his resignation to Superintendent Lytle. He has accepted a position with the New York Life Insurance company, and he is under contract to begin work very soon. He closed the deal with the New York people while in Duluth Saturday. Mr. Barnes has been with the South Shore company for the past seven years. He came here about two years ago from Republic, where he was the company's agent for about five years. Mr. Barnes will remain here, for the present at least, as he is to work in this territory.

LOCAL LAONICS.
Miss Marie Anderson of Escanaba has been visiting Negaunee friends the past few days.

Miss Amelia Grenier has returned to Milwaukee, after spending a month or so with her people here.

Michael Curley came down from Duluth the latter part of the week on a few days' visit to his folks.

Mr. and Mrs. John Barrett are happy over the advent of a son. The little stranger arrived one day last week.

Mark Elliott came up from Crystal Falls Saturday evening and remained with his family at Palmer until last night.

W. A. Knight and wife of Corunna, Mich., are here visiting their son, A. H. Knight, and family. They will remain a month or so. Mr. Knight recently disposed of his business interests and he is now taking life easy.

Rev. A. E. Rundquist, pastor of the Swedish Mission church of this city, has chosen president of the Northern Michigan Young People's society at the annual convention held Saturday last at Ishpeming. The next session of the organization will be held at Iron Mountain.

The Bessemer Herald of recent date gives Captain Peter Ramquist, formerly of this city and formerly captain of the city property, the highest charge of the underground operations at the Fayal mine at Eveleth, Minn. The property is operated by the United States Steel corporation.

Loss of Appetite is commonly gradual; one dish after another is set aside. It is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics. A boon to travelers. Dr. Fowler's Extract of Wild Strawberry. Cures dysentery, diarrhoea, a sickness, nausea. Pleasant to take. Perfectly harmless.

COPPER MINING.

CALUMET & HECLA REPORT.

Its Publication Shows It Not as Favorable as Expected.

According to the annual report of the Calumet & Hecla company, just issued, there were produced during the fiscal year ended April 30 last 39,982 tons of refined copper, comparing with 36,326 in 1901, when the production was restricted by the fire; 49,312, in 1900; 44,450 in 1899, and 45,194 in 1898. The price of copper, it is stated, has varied from 16 1/2 to 11 cents, and is now 12 1/2. During the year there were paid one dividend of \$15 and two of \$10.

President Agassiz says: "We have continued to push the openings on the conglomerate belt in the vicinity of the Red Jacket shaft. I regret to state, as noted in previous reports, that the character of the lode has not improved in depth. The machinery destined to operate the Osceola amygdaloid lode is slowly being delivered. Meanwhile it has been deemed best to discontinue underground work on the lode. During no year, perhaps, in the history of the mine has so large an equipment been added by the company as during the past year."

Commenting on the report, the Boston News Bureau says: "It is not as favorable as had been expected, showing an increase of but 7,300,000 pounds in the refined copper output over the previous year, when the fire made a very heavy reduction in the output from the 1899-1900 year. The production for the year just ended is no less than 19,000,000 pounds below the production for the year ended April 30, 1900. The production for the past four years in pounds has been as follows:

1901-2	79,964,000
1900-1	72,652,000
1899-0	98,624,000
1898-9	88,900,000

"The income of the mine does not publish an income account, except as shown by the gain in surplus in the balance sheet. Adding the increase in the surplus of \$1,400,000 to the dividends paid, \$3,500,000, we have an approximate total of \$4,900,000, which may be termed net earnings after all mining, development and construction expenditures. This is equal to \$49 per share earned, as against \$35 per share paid in dividends.

"A most important statement and one which affects Tamarack as well, is that President Agassiz wherein he says: 'I regret to state, as noted in previous reports, that the character of the lode (in the vicinity of the Red Jacket shaft) has not improved with depth.' Whether or not the discontinuance of underground operations on the Osceola amygdaloid lode is due to any unfavorable developments with respect to the copper contents of the rock or to the delay in receiving the machinery for the treatment of this rock, is not stated. All that President Agassiz says is: 'It has been deemed best to discontinue underground work upon this lode.'

TO DOUBLE ITS FORCES.
Adventure Will Need 500 Men by the First of the Year.
According to the Ontonagon Herald, the Adventure is making preparations to largely increase its forces at the mine and it is expected that it will require by the first of the year at least 500 men to carry on the operations as planned by the company. This will be nearly double the present force.

Operations at the mine are being rushed along as rapidly as possible. With the exception of a few minor details the new equipment, which is one of the best in the copper country, is ready to go into commission and the Adventure will soon start upon a career which gives every indication of being a long and profitable one.

The condition of the mine is excellent and it is opened extensively enough to furnish the required amount of rock to keep the three heads in the mill pounding away on full time. There something over four miles of openings at the present time and it is the intention of the management to continue opening ground on a scale which will keep a large amount of reserve ground blocked out. It will probably require a mill run of nearly six months to determine the average yield of copper per ton of rock. That it will show big returns is being predicted by men who are familiar with the conditions of the mine. With a yield of one and one-fourth per cent mineral, and this is a very conservative estimate, the Adventure will be able to produce copper at a fair profit at the present price of the metal.

Concerning Wolverine.
Concerning the little boost last week in the price of Wolverine stock, it is said that the advance would naturally be accounted for on the basis of a short haul.

YOU NEED NOT BE AFRAID TO USE IRON-OX TABLETS

Every day of your life, as an aid to digestion, as a gentle laxative, or as a tonic for the nerves.

Eman & Swanson, Ishpeming, Mich.
J. H. Sawbridge, Negaunee, Mich.

interest or some copper consolidation or combination in prospect. John R. Stanton, however, says that no copper combination is contemplated which will include the Wolverine and he believes the recent buying was upon the improved copper outlook.

The annual figures have just been received at Boston from the Lake, but have not yet been tabulated. They will make a very good exhibit as Wolverine was one of the mines that got the full advantage of seventeen cent copper while it lasted. Mr. Stanton says: "There are now 1,300 stockholders on the books of the company and there are not over five holders of 1,000 shares each. There is little floating stock and upon small buying orders the price rapidly advances."

Calumet & Hecla Dividend \$5.
The directors of the Calumet & Hecla Mining company yesterday declared a dividend of \$5 per share.

J. W. GATES AFTER COPPER.
Capt. Dunn Opening a Property for Him Near West Superior.
John W. Gates, the noted Chicago stock operator who is stirring things up down in New York, is engaged in opening up a new copper range in Douglas county, Wis., and those who are on the inside predict that there will be important developments.

He has been working since May 1, but the work has been kept very quiet, and but few people have known what was going on. The fee of the property on which he is working is owned by Duluth parties, who have given him an option for the purchase of the land running two years, from May 1, 1902.

It is claimed that the new copper range is a continuation of the Keweenaw point copper ranges, upon which the mines of this district are located, and developments so far are claimed to promise that mines as profitable as many of those in the older district will be developed.

The land is owned by the Mining Range Copper company, of Duluth, and nearly all of the stock of the company is owned there. The property is located in the lower part of Douglas county, sixteen miles from the village of Gordon, and it is on what is known as the "extreme range." There are three ranges in Douglas county, the South range, the St. Croix range and the extreme range. The upper ranges have been explored for copper with as yet but indifferent success. The range on which Mr. Gates is working was examined by his mineral expert, and his verdict, after a thorough exploration, was satisfactory enough to induce the Chicago financier to take an option on the property and proceed to develop it.

He has employed Captain W. A. Dunn, of Houghton, a mining man of long experience on the Michigan copper and iron ranges, to open up the property, and he has been at work with a crew of men since May 1. Captain Dunn has opened up a few mines in the copper country, including the Baltic, and he is well known in the upper peninsula regions.

The work so far has resulted in a shaft forty feet deep, from which three tons of mass copper have been taken. Preparations for increasing the working facilities are being made, and engines for hoisting and compressors have been ordered. When they are installed the work will proceed more rapidly than ever.

There is considerable evidence that the range is a continuation of the Michigan ranges. The Wisconsin state geologist has given that as his opinion and so has Captain Dunn, who says that the rocks are of the same character as those on Keweenaw point.

The news that John W. Gates has become interested in the Wisconsin range will be received with enthusiasm by all who believe that copper exists there. The explorations up to this time have been conducted by people and companies who were not overburdened with funds, and, after going down some distance, were forced to abandon their work until they could replenish their treasuries. Mr. Gates has the money to give the range a thorough exploration, and having taken hold of it, will undoubtedly do so. He will prove to his own satisfaction that copper does not exist there before he quits, and he knows well, too, that he may have to go to a great depth. Explorations for copper in the Lake Superior region are expensive, and the amount that he will put into it will be large, but to a man of his millions it will be a comparatively small venture, and with the chance of great financial reward. Mr. Gates is shown to be a man who takes long chances, and will spend his money freely where there is a large stake to be won in case of success.

THE RICHEST FOUR MILES IN THE WORLD
is along the Verde Copper Belt in Yavapai County, Arizona.
Yavapai County is said to be the richest mineral county in the world. The Verde Copper Belt is its geographic centre as well as the centre of its wealth. It is the richest four miles in this or any other county.
At its northern end and occupying about one-tenth of the whole stretch, is the world-famed United Verde Mine, which has made Senator William A. Clark perhaps the richest man in the world. Its central and southern portions belong to the
GEORGE A. TREADWELL MINING CO.
whose properties are just as rich and several times as extensive as those of the United Verde Company.
In a case recently tried in court in New York it was proved by the books of the company and the sworn testimony of the bookkeepers that the United Verde produces it.
Copper at a Cost of 3 Cents a Pound.
THE GEORGE A. TREADWELL CO. can do quite as well, for its properties are similar and similarly situated and much larger.
In no place in the world outside the Verde Copper Belt can copper be produced at less than twice this cost.
All the Verde Belt properties are rich in gold and silver as well as copper, thus still further reducing the cost of the copper. Our Brookshire Mine was successfully worked as a gold mine—the copper being thrown away—by the former owners before we acquired it, and our Iron Queen and Cliff properties—like the United Verde—have large gold and silver values in their cores. As Professor Treadwell has well said, if it comes to the survival of the fittest it will be the copper mines carrying high values in gold and silver, like those of the GEORGE A. TREADWELL CO. properties, that will survive the longest.
The capitalization of the company— notwithstanding its rich and extensive properties and its splendid prospects—is only \$3,000,000 and the par value of the shares is \$10.
The Treasury stock is for sale at \$12.50 a share until August 10th, and at \$13.50 after that date if not all sold sooner.
Make checks payable to the order of the GEORGE A. TREADWELL MINING CO.,
and send to
27 William Street, New York,
MYRA B. MARTIN,
(7-29-31-Aug 2) Secretary.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by Wm. A. Jones, Clerk of the County of Marquette, Michigan, for the building of a County Court House at Marquette, Mich. Proposals to be in the hands of the clerk in Wm. A. Jones, on or before 10 o'clock noon of the sixth day of August, 1902. Plans, specifications and instructions can be seen on and after the twenty-first day of July, 1902, at the office of the undersigned, Wm. A. Jones, Marquette, Michigan, and also at the office of the architects, Camp Building, Milwaukee, Wis., and Marquette, Michigan. The right to reject any and all bids is reserved.

Dr. Williams' Indian Pile Ointment

Dr. Williams' Indian Pile Ointment will cure Biliousness and Itching Piles. It absorbs the matter, kills the itching at once, acts as a poultice, and drives the matter out of the system. It is the only medicine that cures Piles. It is the only medicine that is safe and reliable. It is the only medicine that is pleasant to use. It is the only medicine that is effective. It is the only medicine that is cheap. It is the only medicine that is available everywhere. It is the only medicine that is the best. It is the only medicine that is the only one.

STAFFORD DRUG CO., Marquette.

BOARD ACCEPTS IT

NEW SCIENCE BUILDING NOW BELONGS TO THE STATE.

NORMAL SUMMER SCHOOL

IT HAS HAD A GRATIFYINGLY LARGE ATTENDANCE.

Members of Board of Public Instruction in the City—Prospects for the Fourth Year.

The new science building of the Northern Normal has been accepted by the state board of education. This action was taken Saturday, when the board met at the Normal for a regular session. The science building was inspected from cellar to attic and was found to be in every respect, what the contract called for. There being no criticism of the work, a motion to accept the structure was unanimously approved.

The session of the board at which this action was taken was attended by State Superintendent of Instruction Hon. De los Fall, Hon. L. L. Wright of Ironwood and James H. Thompson of Ewart. Mr. Thompson left Sunday for Ann Arbor, where he is doing summer work at the University of Michigan, but Superintendent Fall and L. L. Wright remained over yesterday. They will leave the city today. Yesterday afternoon at five o'clock they were entertained at a Faculty picnic at Presque Isle, the professors and instructors and their families being present.

Superintendent Fall and the other members of the state board inspected the Normal thoroughly during their visit, and they express themselves as well pleased with the condition of the school, as well as the attendance at and progress of the summer session.

The greater part of the work of the summer school is over. Four weeks of the six weeks of the term are behind the instructors and students, and in two weeks they will leave Marquette to enjoy their well earned vacations.

The summer school this year has been an unqualified success, the enrollment showing an increase over that of last year, being 127 young people compared to 116. A gratifying feature of the enrollment is the fact that a large majority of the cities and towns of the upper peninsula are represented, the Normal, in that respect, never having had a more representative attendance at any previous session.

The work has progressed smoothly, the efforts of most of the regular instructors being seconded by a few special teachers.

Principal Waldo says that at this

early date the prospects for the Normal's fourth year are promising. The secretary is constantly answering inquiries from young people who are figuring on attending the institution and the officials confidently expect that the enrollment will be both the largest and most representative that the school has yet had.

Other Normal Notes.

The summer school at the Normal was entertained, on assembling yesterday morning, by a short lecture from State Superintendent of Instruction De los Fall, who talked interestingly of a trip, which he made several years ago, up the Amazon river.

This morning there will be another brief lecture. This time the speaker will be Rev. Dr. Cogshall, father of Mrs. R. C. Ford, who will describe a visit to the Grand Canyon of Colorado.

A large force of men and teams is employed on the grading of the Normal grounds, and it will require a couple of weeks' work to complete the improvement. Ultimately the Northern Normal will have one of the most attractive environments to be found about any state institution in Michigan, but it is going to require the expenditure of a fair amount of money and some careful planning to beautify the spot in the manner desired.

MUST DISPLAY LIGHTS.

Small Harbor Craft Take Great Risks Night After Night.

Inspectors Gooding and York complain that people who run about the lake in the vicinity of the harbor in row boats, launches and yachts are not displaying the lights demanded by the United States statutes. There is much carelessness in this respect and it is the exception when the proper lights are displayed. The inspectors intend to give the matter some attention. They are interested in it solely in a desire to protect life. They fear that unless the proper precautions are taken there will be some serious accident. A maximum fine of \$200 can be imposed for the neglect to display the proper night signals, and one of the federal marine statutes makes it obligatory that every craft, no matter how small or how propelled, shall display such lights as are specified.

PHYSICAL AND HEALTH CULTURE

There is now being introduced into our city a system of Health and Physical Culture known as the Vital Centre System, which has created a great deal of furor in other cities in which it has been presented. This system differs from all other systems in that it deals with the vital organs as well as the muscles of the limbs. It has been demonstrated within the past few years that exercise, scientifically taken, will cure disease. The very best physicians, where the work has been presented, have endorsed the movement most heartily. Several classes have already been formed in the city and the ladies having the work in charge are located at the corner of Front and Bluff streets. (7-29-31)

FOR COLD LUNCH.

Canned chicken, tongue, beef, sardines, roast fowl mustard and pickles in bottles, at Heppner's. (7-22-0)

\$80,000 FOR MARQUETTE.

Estimates of Captain Gailliard for the Fiscal Year of 1904.

The report of Captain D. D. Gailliard, in charge of river and harbor work in the Lake Superior district, has been received at the office of the chief engineers at Washington. He recommends that \$80,000 be allowed for the extension of the concrete breakwater at Marquette, for the fiscal year of 1904. His other recommendations and estimates are as follows:

For the improvement of the Duluth-Superior harbor, including dredging and the completion of the canal piers at the Superior entry, \$670,000.

For the Ashland, Wis., harbor, \$80,000.

For the harbor of refuge at Grand Marais, \$83,401.

BULLISH FEELING IN COPPERS.

Brokers Say There Is Something Doing That Will Send Them Up.

Paine, Webber & Co. said of coppers yesterday: "For the first time since the advance in Amalgamated began, the heaviest buying in it is for the New York account. Lewisohn Bros. made a bet this morning that the local market would sell at 71 this week. An increased buying demand in the local market revealed the fact that there are almost none of the better class of coppers offered. We have advice from New York that makes up feel certain that there is something big up in coppers and we look for higher prices all along the line."

Hayden, Stone & Co. wired the Laidley Commission company: "There is no feature to the copper market, but there is rather a strong feeling all round, in sympathy with Amalgamated. We look for no particular change at present."

Grains and Provisions.

W. H. Laidley & Co. said of the Chicago markets:

"Heavy receipts, both here and in the northwest, and exceptionally large estimates for tomorrow, were responsible for a little lower opening this morning. July wheat was especially weak and it looks as if the elevator people were disposing of their holdings. A changing over from long September to December was the feature of the day, but the market continued dull and dragging, closing 3/4 under Saturday. A notable feature is the increase in receipts at northwest-ern points. For the present we can see only one side to the market and advise sales upon all bulges.

"Corn opened somewhat lower than Saturday and immediately felt the effect of heavy realizing, continuing to seek lower prices. It closed 1/4 under Saturday. As we stated Saturday we cannot see anything to bull prices on until after the first of August, but we believe that these breaks should be taken advantage of to buy September corn.

"Hats opened lower upon rather heavy receipts and fair weather, and as there were more actual cash orders for sale than for some time the July option sold off sharply, closing nine cents under Saturday. We look for September oats to see much higher prices, and they should be bought on all recessions.

"Provisions opened at about Saturday's close, to a shade lower, but, upon rather free offerings, sold off somewhat.

The close was slightly under Saturday. The demand was not as good as last week and it now looks as if prices would work somewhat lower. We would not hesitate to take profits on any further bulge, and to buy on good recessions."

A Decline and Reaction.

Walker wired Paine, Webber & Co. of the New York market: "The market opened strong, on good buying of the general list by commission houses. Toward 11 o'clock prices began to yield, the decline being helped by professional traders, who sold apparently on nothing other than the engagement of some three millions gold for export. Rock Island was sold down to 18 3/8, but upon buying by brokers representing pool interest immediately reacted to 19 1/4. The decline was but temporary and of short duration, for, at the recession, buying orders came in from all quarters, under which the market quickly rallied. The feature of the day was the strength in Norfolk and Western, which advanced two points in the face of a generally weak market. Colorado Fuel was very strong, on what was supposed to be competitive buying. The market closed steady at considerable advances from the lowest prices of the day, but the close was generally lower than on Saturday."

"FORGET-ME-NOT."

Royal Theatre Company Gave It Acceptable Presentation.

The Royal Theatre company opened an all week engagement before a crowded house last evening, presenting the well known emotional drama "Forget-Me-Not." "Forget-Me-Not" is a much stronger and better play than is usually affected by repertoire companies playing at popular prices and the fact that the Royal Theatre company was able to give it a satisfactory presentation speaks well for the ability of its members. "Forget-Me-Not's" absorbing interest held the house's attention closely. The cast only called for seven acting people, who were all equal to the demands of their roles. The leading people with the company are the well known players Willard Mack and Maude Leone, who appeared last evening in the roles of Madame LeLorne. "Forget-Me-Not" and "Six George Colby" in a very acceptable manner. The presentation was given with care and attention to detail that is sometimes lacking with much more pretentious organizations, and it apparently gave general satisfaction. The Royal Theatre comedy's bill for this evening is "The House of Mirth" and "The Comedy which has not been played in Marquette before."

IF A MAN LIE TO YOU,

And say some other salve, ointment, lotion, oil or alleged healer is as good as Buckler's Arnica Salve, tell him thirty years of marvelous cures of Piles, Burns, Boils, Corns, Felons, Ulcers, Cuts, Scalds, Bruises and Skin Eruptions prove it's the best and cheapest. 25c at Stafford's drug store.

A harmless substance that drives away all life-destroying germs that battle medical skill. An antidote for suffering humanity. Rocky Mountain Tea. 35 cents. Stafford Drug Co.

WHILE JOHNNY SLEEPS

WHEN he was a tender lad his father opened for him a Savings Account. His first deposit was one dollar, but other deposits regularly followed. Johnny is now older. He is the proud owner of a handsome bank account. The account is growing as he grows and earning interest while he sleeps. There are other boys and other parents who might profit from the above. . . .
