SLIGH VS. DURAND

GRAND RAPIDS AND FLINT MEN IN LINE FOR GOVERNOR.

DEMOCRATIC NOMINATIONS TODAY

CONVENTION DIVIDED AS BETWEEN GOLD AND SILVER.

Governor Bliss Vigorously Scored in the Temporary Chairman's Speech—Declared to Be a Hireling of the Michigan Central Magnates.

Detroit, July 30.—The Democratic state convention, called to nominate candidates for governor and state officers, convened in the Light Guard Armory this afternoon and will continue until tomorrow night. The nominations will be made tomorrow.

Several prominent Democrats have declared their unwillingness to make the race for governor, among these being D. J. Campau of Detroit, Justin R. Whiting of St. Clair and State Senator James W. Helme of Adrian. Charles K. Sligh of Grand Rapids is being boomed by his home county (Kent) and Judge George H. Durand, a gold Democrat of Flint, is supported by the Seventh, Tenth and Twelfth districts. Judge Durand, however, is opposed by State Chairman Whiting and the Silver Democrats.

Vigorous Attack on Bliss. Alfred R. Lucking, temporary chairman, at today's session made a speech in which he said, in part: "Upon Republican authority and testimony, we charge upon the part of Governor Bliss a trucking subservience to the Michigan Central railroad and its interests at this critical time, when firm and active opposition is demanded."

"A grave crisis confronts our state at this time. The Michigan Central company is about to begin a suit against the state for damages on account of the repeal of its special charter by the legislature of 1900. Under the law, the suit must be begun by Dec. 31, 1902. The railway claims \$27,000,000, according to the best information we can obtain. The people of Michigan are called upon to say whether the Michigan Central company shall have control of both sides of the case."

"During the campaign of 1900, it was repeatedly published in the state papers that the present governor was the candidate of the Michigan Central, and that the company largely contributed the money which was spent so lavishly all over Michigan to nominate him. Since his election it has been openly and continuously charged that he represented the Michigan Central and not the people."

Stearns' Letter Quoted.

"These charges were not confined to the irresponsible but were published by reputable newspapers and finally, on May 3 last, took the form of an open letter signed by Justin S. Stearns, the millionaire Republican, which was published in nearly all the newspapers of this state."

"It is a settled conviction on the part of thoughtful people that the Michigan Central did not rest content with preparing its lawsuit in the usual and ordinary method of suitors, but went to work, years back, to place under obligations to put it mildly, the state administration so that when the time comes for pressing its claims it may not only have its own counsel, its own witnesses, its own experts, but that it may have an undue and overpowering influence with those in charge of the other side of the case."

Whiting Rejected State Chairman.

Tonight's session was devoted to the election of the chairman of the state central committee, Justin R. Whiting being rejected, and to discussions of the order of business and the plan of allowing those delegates present to vote for absentees.

A movement was started to defer the election of the state chairman until after the ticket had been nominated, but D. J. Campau took the floor and gave a quietus to this proposition, which saved a revolt against the Campau-Whiting leadership. On the question of voting for absentees, it was finally decided that each delegation should cast its full vote as though all delegates were present, but that in case of a division on any question the full vote should not be a unit determined by the majority, but should be made pro rata, according to the division of the delegates present.

The resolutions committee was not ready to report tonight and the principal business of the convention thus goes over to tomorrow, when the resolutions committee will be ready to report and the ticket will be nominated.

TODAY'S WEATHER.

Washington, July 30.—The following is the weather bureau's forecast for Upper Michigan: Fair in west, showers in east portion, Thursday; Friday fair, light variable winds.

POLICE AND MOURNERS CLASH.

Funeral of Chief Rabbi Joseph at New York Attended With Rioting.

New York, July 30.—The funeral of the late Chief Rabbi Jacob Joseph was held here today. After the services the remains were taken to Brooklyn for interment. The crush on the streets was so great that police reserves had to be summoned. While the procession was passing the works of R. Hoe & Co., corner of Grand and Sheriff, some of the employes turned a stream of water on several hundred mourners, who threw stones and other missiles at the building, breaking many windows. The police charged on the crowd, using clubs freely. A number of persons are said to have been injured, and ambulances were summoned from hospitals.

READ OUT OF THE PARTY.

Stalwarts Must Bow to Will of the Majority in Wisconsin.

Madison, Wis., July 30.—Chairman Bryant, of the Republican central committee, in reply to General F. C. Winkler of Milwaukee, who asked if the stalwarts who disagreed with the platform on the primary election plank could still be considered Republicans, practically reads the dissenting stalwarts out of the party and says they must yield to the majority.

BLOODY RIOT IN MINING TOWN

Mob of Strikers Rules in Reign of Terror at Shenandoah.

TWO REGIMENTS OF TROOPS HAVE BEEN ORDERED OUT

In a Battle in Which the Police Are Dispersed, a Merchant Is Clubbed to Death, Four Officers Are Shot and Nearly Two Scores of Miners Fall.

Harrisburg, Pa., July 30.—Governor Stone has ordered the Eighth and Twelfth regiments and the Governor's troop, National Guard of Pennsylvania, in command of General J. P. S. Gobin, to proceed immediately to Shenandoah. It is expected that 1,500 soldiers will be on the ground by daybreak.

Governor Stone at once started for Harrisburg from the Adirondacks, where the telegram was sent him, and will reach here at 3 o'clock tomorrow afternoon. Should additional troops be needed, one or more additional regiments of the Third brigade will be ordered out.

General Gobin, commanding the troops, was in command of the provisional brigade during the riots at Hazleton several years ago and subsequently at Shenandoah.

Mob of Strikers Controls.

Shenandoah, Pa., July 30.—A reign of terror, compared with which the riots of 1900 seem insignificant, holds Shenandoah in its grasp tonight, with Center street, one of the principal thoroughfares, in the hands of a mob.

Two policemen have been shot, one perhaps fatally; Joseph Beddall, a merchant and cousin of Sheriff Bedall, has been brutally clubbed to death, and a score of strikers, names now unknown, have been shot by the policemen and it is expected that many deaths will result.

Sheriff Beddall's headquarters at the Ferguson Hotel are surrounded by several thousand men. He has asked Governor Stone for troops, which the governor wired would be sent if needed.

The trouble started this evening when Deputy Sheriff Beddall attempted to escort two non-union workers through the strikers' picket lines. One of the men was taken from the deputy and beaten almost to death. Beddall opened fire on the mob which had gathered and emptied his revolver, hitting one man in the leg and another in the foot.

Take Refuge in Depot.

Beddall and the other strike breaker were compelled to take refuge in the railroad depot. The depot was soon surrounded by a mob of five thousand. Joseph Beddall, a hardware merchant, and brother of the deputy sheriff, in an effort to reach his brother with a supply of ammunition was seized by the mob and beaten into insensibility. He died on the way to hospital.

The entire borough police force arrived and escorted the deputy sheriff and his men to an engine which had been backed into the depot. The mob surrounded the locomotive and the engineer was afraid to move. The police fired a volley, dispersing the crowd temporarily, and the engineer pulled out of the depot. The mob then stoned the

RIGHTS OF WOMAN AT STAKE.

High Court to Decide Whether She Can Be Barred from Buying Drinks.

Washington, July 30.—A case was docketed in the United States supreme court today by which it is intended to test the right of municipal corporations to prohibit the sale of intoxicants to females. Daniel Cronin of Denver, Col., asked for an injunction to restrain the city from closing a wine room for women he had opened. Cronin contended that as women in Colorado had been given the right of suffrage they stand on the same footing in all respects with men. The district court upheld this contention, but the finding was overruled by the state supreme court.

BOSS PLATT GUARANTEES IT.

New York Delegation Will Be Solid for Mr. Roosevelt.

Oyster Bay, July 30.—President Roosevelt will have a solid delegation from New York state in the next Republican national convention, said Senator Platt of New York after a conference with the president today at Sagamore Hill, whither he was accompanied by Colonel George W. Dunn, chairman of the New York Republican state committee. The visit to the president was by appointment. National and New York state affairs were discussed.

CORNER ENJOINED

BAN OF THE COURTS PLACED ON THE SQUEEZE IN OATS.

SHORTS TAKE NOVEL PROCEEDINGS

IS THE FIRST TIME INJUNCTION HAS BEEN RESORTED TO.

Bills Are Prohibited from Continuing the Corner and from Bidding Up Prices or Calling for Further Margins.

Chicago, July 30.—The ban of the courts has been placed on the corner in July oats. On the application of Waite, Thorburn & Co., one of the firms short on the July option, a temporary restraining order was granted today by Judge Chytrus, in the superior court prohibiting James A. Patton and his associates from continuing a corner in new July oats and from bidding up the prices or calling for further margins.

This is the first time in the history of the Chicago Board of Trade that shorts have resorted to the courts to assist them in dilemmas like the present one, and the injunction came as a decided surprise although drastic measures had been threatened to prevent heavy loss. The injunction runs against Carrington, Patton & Co., Patton Bros., and Bartlett, Frazier & Co.

Default on 3,000,000 bushels of short new July oats, lawsuits, and action by the Board of Trade are seemingly inevitable results of the granting of the restraining order. Cornered and unable to secure new July oats to meet contracts, the dealers who are short appear practically to have thrown up their hands.

Waite & Thorburn, who requested the injunction, issued a statement tonight in which they said that the attempts to squeeze the trade by corners have become so extreme and unscrupulous that it is time for some one to make a fight and find out where the trade stands.

Frank P. Frazier, of Bartlett, Frazier & Co., was inclined to treat lightly the unprecedented court action. He said: "Shorts in every instance of high prices have themselves to blame for putting the prices up. Instead of the market collapsing as a result of the adoption of the marginal price yesterday by the Board of Trade directors, July oats advanced three cents today and closed at 63."

An effort will be made to have the injunction dissolved tomorrow morning before the opening hour of the Board of Trade.

DR. ADAMS' WILL.

Fund for Fellowships at Wisconsin University Is Provided For.

Reidlands, Cal., July 30.—The will of the late President Adams, of the University of Wisconsin, makes small bequests to relatives, May Stanton and Charles Adams Stanton of Neenah, Wis., and to John C. Shedd of Colorado Springs. The bulk of the estate goes to the widow, in trust, during her life. The property will then go to the University of Wisconsin, to be maintained as a separate fund, known as the President Adams Fellowship fund. The will provides the method of investment and the creation out of the income therefrom of fifteen fellowships of \$10,000 each. No estimate of the value of the estate is made, most of the property being in Wisconsin.

AMERICANS TO FARE BETTER.

Cardinal Gotti Will Be More Liberal Than Was His Predecessor.

Rome, July 30.—The pope unconditionally approves the policy of Rampolla, the papal secretary of state, in not interfering in the disturbance in France caused by the closing of the unauthorized Catholic schools. It is generally believed that American Catholics will be dealt with under Cardinal Gotti, the new prefect of the propaganda, with greater equanimity than under his predecessor, Cardinal Ledochowski, who had the reputation of favoring the Germans and Poles to the detriment of the Irish and Americans.

NOVEL CAMPAIGN FEATURE.

Ex-Chief of Police Devery Gives Women and Children a Picnic.

New York, July 30.—About twenty thousand women and children were the guests of former Chief of Police Devery on a water picnic today. Men were excluded. Mr. Devery is a candidate for the Democratic leadership in the Ninth assembly district, and the picnic was a feature of his campaign. Refreshments were served in unlimited quantities. Thirty-seven hundred pounds of meat were consumed and also 2,500 loaves of bread and 500 gallons of ice cream.

KING PROGRESSING NICELY.

London, July 30.—King Edward's progress continues satisfactory. Today he walked the deck of the royal yacht with assistance. Queen Alexandra this evening confirmed the reports of his Majesty's splendid progress.

BOERS SAIL FOR ENGLAND.

Carriage Containing the Generals Is Drawn to the Pier by Boys.

Cape Town, July 30.—Generals Botha, De Wet and Delarey sailed for England today. Dutch school boys dragged their carriages to the steamship dock.

FIRE AT CHICAGO STOCK YARDS.

Chicago, July 30.—Fire in the plant of the Thomas J. Lipton company at the Union Stock Yards tonight caused a loss of \$255,000. The entire contents of warehouse "D" were destroyed.

RIGHT-OF-WAY ASSURED FOR LONDON'S UNDERGROUND SYSTEM.

London, July 30.—The parliamentary committee on the proposed tube railway decided today to make a report giving the Yerkes underground electric company all needed legislation for a right-of-way for the completion of its entire system. The Morgan company's bills to authorize the paralleling of the main portions of the Yerkes routes have been put over until the next session of parliament.

BOERS SAIL FOR ENGLAND.

Carriage Containing the Generals Is Drawn to the Pier by Boys.

Cape Town, July 30.—Generals Botha, De Wet and Delarey sailed for England today. Dutch school boys dragged their carriages to the steamship dock.

FIRE AT CHICAGO STOCK YARDS.

Chicago, July 30.—Fire in the plant of the Thomas J. Lipton company at the Union Stock Yards tonight caused a loss of \$255,000. The entire contents of warehouse "D" were destroyed.

DAILY MINING JOURNAL.

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

The latest reports indicate that the coronation will be carried out on Aug. 9, as planned, and that this can be done without endangering King Edward's health.

There need be no surprise at the reports of turbulence from the anthracite fields. Rarely in the history of the country has such a large body of strikers maintained order for so long a time.

Some of the newspapers of the district are still fighting the congressional battle over again. What's the use of a post mortem in this case? Rather let the dead bury the dead.

Exports from the United States to Africa in April, the latest month for which the details of our exports have been received by the treasury bureau of statistics, were greater than those to all South America, and were more than fifty per cent greater than those of April in the preceding year.

Senator Burroughs is observing the action taken by the various representative and senatorial districts of the state. The senator will not be a candidate for reelection until 1905, when the terms of the senators and representatives who will be elected this fall will have expired.

Representative Tawney of Minnesota, who has been an influential man in Republican councils during the past two terms that he has served in the house, will not be renominated this year without opposition, and the fact that his renomination is in question is attributed to his action on the Cuban reciprocity question.

Few men who had received as persistent mention as presidential possibilities as Senator Hanna of Ohio could maintain as consistent an attitude as he has thus far held. When his name was first mentioned in the connection, the senator asserted that he was not and would not be a candidate, and he has not varied one jot from this stand to the present day.

For the above occasion agents at all stations, Marquette and east, including Brimley and St. Ignace, will sell excursion book tickets to Sault Ste. Marie, at fare and one-fifth for the round trip. Tickets are to be sold every day, Aug. 4 to 9 inclusive, and are valid for return passage until Aug. 11, inclusive.

case Senator Hanna will occupy a front seat on the band wagon and The Mining Journal believes that the president will have no more enthusiastic supporter.

Cheap labor has received another black eye in the action of the Great Northern Railway company in giving up its experiment with Japanese as section men on the western division of its system. The employment of the Japanese at a less wage rate than whites, was not found as profitable as the employment of white labor, by which they will now be replaced.

Exports from the United States to Africa in April, the latest month for which the details of our exports have been received by the treasury bureau of statistics, were greater than those to all South America, and were more than fifty per cent greater than those of April in the preceding year.

Senator Burroughs is observing the action taken by the various representative and senatorial districts of the state. The senator will not be a candidate for reelection until 1905, when the terms of the senators and representatives who will be elected this fall will have expired.

Representative Tawney of Minnesota, who has been an influential man in Republican councils during the past two terms that he has served in the house, will not be renominated this year without opposition, and the fact that his renomination is in question is attributed to his action on the Cuban reciprocity question.

Few men who had received as persistent mention as presidential possibilities as Senator Hanna of Ohio could maintain as consistent an attitude as he has thus far held. When his name was first mentioned in the connection, the senator asserted that he was not and would not be a candidate, and he has not varied one jot from this stand to the present day.

try, furnishes an example of what is going on in the north. It landed in Cuba with 1,330 men, and since the war it is credited with 705 pension claims.

The Ninth Massachusetts has filed 705 claims and heads the list, it not having been as strong as the Eighth Ohio, which filed the same number.

The Seventh United States infantry, with a record of thirty-four men killed and ninety-four wounded, has only filed three-fourths as many claims as either of these volunteer regiments.

These facts speak for themselves. They illustrate a condition of affairs that is no credit to the volunteers of the Spanish-American war, or to young American manhood. They are indicative of a widespread desire to trade on patriotism. The pension bureau should take every step to discourage a continuance of this disgraceful condition.

At first glance, to people accustomed to believe that the Standard Oil company has the safest and surest monopoly on top of God's footstool, the idea of the possibility of an oil war of serious moment seems the height of absurdity, but, nevertheless, it is asserted that the Rockefeller concern is to be given a little run for its money and that its competitor is to be the "Shell" company, which transports oil, mainly from the Caspian sea, for the Australian market.

The latest reports from the pension bureau are not edifying reading, as they show an astounding number of applications for pensions from volunteer soldiers in the Spanish-American war. The applications have been coming in steadily since the cessation of hostilities, but they show no decrease in number, rather, in fact, being on the increase.

Of course the volunteers were not as well prepared to undergo the hardships of the camps and campaigns as the regulars and unquestionably suffered more, but this does not explain the vast difference in the number of claims from these bodies of soldiers, nor the great number of applications from men who only saw camp duty.

To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for Consumption and was completely cured."

Agents at the following named stations will sell special round trip tickets for date of sale: Wilmington, \$3.25; Shingletown, 3.00; Seney, 2.50; McMillan, 2.25; Dollarville, 2.00; Newberry, 2.00; St. Ignace, 2.50; Allenville, 2.25; Moran, 2.25; Soo Junction, 1.50; Eckerman, 1.25; Strongs, 1.00; Rexford, 1.00; Bay Mills, .75; Brimley, .50; Children five years of age and under twelve half rates.

COPPER MINING.

STRIKE DELAYS MILL WORK.

Mohawk Stamps Will Not Start Until After October 1. Owing to the delay in receiving foundry pieces, caused by a strike of the Nordberg foundry employees, the Mohawk mill will not be ready to go into commission until after the first of October.

Superintendent Wesley Clark of the Arnold reports mining affairs extremely quiet in Keweenaw county, aside from the Mohawk and Phoenix. A few men are working at the Copper Falls, while at the Arnold, Ashbed and Humboldt a period of idleness prevails.

There are forty-eight Lake Superior copper mining companies on which \$38,761,000 has been paid in on assessments, which have never paid any dividends and some of them are out of existence.

There have been only eleven Lake Superior companies which have ever returned profit over assessments paid in. They were only six Lake Superior companies which paid dividends in 1901—the Atlantic, Calumet & Hecla, Osceola, Quincy, Tamarrack and Wolverine.

The secretary for India was questioned concerning a concession which it was reported had been granted to the American corporation. Replying, he declared that the concession under discussion had not been granted to the Standard Oil people, and that, in fact, the Indian government had even refused to grant them a license for prospecting.

James Hines, who has been for several days among the guests of the Sheba company, out in Humboldt county, Nevada, says he has rarely examined a country that affords greater assurance of success and that the present campaign of development ought to be characterized by most substantial results.

James Copper & Sons of Liverpool, under date of July 16, say of copper: "The consumption of refined copper continues to be very large both in this country and on the continent, considerable quantities of American wire bars and cathodes having been shipped from the stock lying here to continental ports."

We have been entrusted to act as the attorneys for the trustees of the Milwaukee Road lands belonging to the Ayrer estate to protect said lands against trespass and pillage. The prompt communication to us of any information as to trespass on said lands will be esteemed a favor.

Copper Country Department

ARE ACCUSED OF FORGERY. CAR LINE SUED FOR \$20,000.

Joseph St. German and Contractor Joseph Pearce Arrested.
Sheriff Wills and Under Sheriff Beck arrested Joseph St. German, of Huron town, Tuesday evening on a charge of forgery, and yesterday morning took Joseph Pearce, a contractor who has been working for the Champion Mining company on the South range, in custody as an accomplice. Pearce is charged with larceny. It is claimed that he took a check from a trunk in Matthew Minzogh's room at the Germania Hotel at Houghton one day last week, and urged St. German to cash it, which he did at Fisher's store at Hancock after purchasing a hat and two or three other articles. The check was for \$90, Minzogh's name being forged for that amount by St. German, aided, it is claimed, by Pearce.
St. German confessed to the sheriff yesterday morning his part in the affair. He implicated Pearce in the manner stated, and in short order the contractor was placed behind the bars. Pearce declines to talk about the matter. The fact that Pearce slept in Minzogh's room the night the check was taken, Mr. Minzogh being away, and that St. German has implicated Pearce, convince the officers that he, too, is guilty.
Mr. Fisher, the Hancock merchant, who was subpoenaed by St. German, pointed St. German out to the officers who arrested him. When taken in custody the prisoner declared his innocence, but yesterday morning admitted his guilt when the hat he had purchased from Mr. Fisher was produced. St. German waived examination, and Pearce will give a hearing before Justice Brand.

RELIQS OF PREHISTORIC PEOPLE.
Collection of Copper Found at the Canal Is on Display at Hancock.
The rare collection of tempered copper relics owned by Mrs. Dan Washburn, of the canal, is on exhibition for a few days at Borrensen's jewelry store, Quincy street, Hancock. Many people were desirous of seeing the relics and Mrs. Washburn for that reason decided to put them on public display.
The story of the find was published in these columns at the time the relics were first brought to Hancock. Since that time Mrs. Washburn has been besieged with offers for the collection, but although fancy prices have been proffered her she does not yet feel inclined to part with the relics. Most of the pieces were picked up along the beach at the canal near the Washburn summer resort last year after a heavy windstorm. Mrs. Washburn is proud of her collection, and whether she will sell it is a matter yet to be decided by herself.
The collection includes about seventy-five pieces of tempered copper, relics of the lost art known to the ancients. Among them are twenty-five needles used by the aborigines to sew hides. They have sharp points, but have no eyes. The assortment includes half a dozen fish hooks, both double and single. There are arrow heads and knives of the tempered metal, and several small pieces whose uses cannot be imagined. All are corroded from being buried in the sand for ages.
The locality is rich with prehistoric relics of this kind. Many have come to light during the widening of the ship canal by the government in the past few years. Last fall two valuable copper axes were found in the sand in the big cut near the shore of Lake Superior. They were dulled and corroded with antiquity. That point seems to have been a rendezvous for the lost race, whose only trace are the mounds and relics. Isle Royale, near the north shore of Lake Superior, where the prehistoric race mined for copper, is less than fifty miles distant.
It is the theory of savants that the lost people who sought copper metal on Lake Superior came from Mexico, where the art of tempering the metal was known. Copper horseshoes were used in the land of the Montezumas. It is supposed that the navigators followed the Mississippi and Wisconsin rivers to this region in search of the metal. Their modes of mining were very primitive. The rock with the metal crops out at the surface on Isle Royale. The ancients who left traces of their primitive methods on the island built fires on the copper laden rocks on the surface, and when they became hot threw cold water on them to break them to pieces.
Some family traditions have been handed down among the Irish miners who came to the Lake Superior mining districts at an early day from the copper mines at Bearhaven, county of Cork, on the Emerald Isle, that the stone hammers of the ancients, found to this day on Isle Royale, are similar to the stone hammers found in earliest times at the Bearhaven mines on their native soil, and credited to the Phoenicians, the earliest navigators in the world's history, who mined for tin in Cornwall and for copper in Ireland and on Lake Superior, and gave their opinion that the implements were made by the same race of men. This would point to the fact that the Phoenicians were the adventurers who visited these shores in ancient times in search of the red metal.

CONTRACTORS OUT MONEY.
Installation of Lake Linden's Sewers Not a Profitable Job.
J. H. Green & Sons, the Appleton (Wis.), contractors who have been putting in the new sewerage system at Lake Linden, have about finished their work. A day or two more will finish the contract, which has not been a paying one; in fact, the contractors have lost money on the job. The work was started last fall and when it was stopped for the winter, Green & Sons were \$3,000 behind. Some of this amount was made up during the spring. The contractors, it is said, neglected to take into consideration the soft character of the ground. Each trench had to be sheathed with planks before the work could proceed, which meant extra expenditure. However, Lake Linden has today one of the best sewerage systems in the upper peninsula.

RAILROAD RUMOR.
Reported the Mineral Range Shops Will Be Removed to Tamarack.
The action of the Mineral Range road in enlarging its roundhouse at Tamarack has given rise to the report that the shops at Hancock, where all the light repairing to locomotives and other rolling stock is done, will be removed to that place. The rumor cannot be substantiated. A Hancock as no official notice of the change has been received, but an railroad circles it is believed that the change is possible. No other reason can be assigned for adding to the Tamarack roundhouse. There is a force of about twenty men at work in the Hancock shops who would have to remove to Tamarack in case the change is brought about. The talk is all in the air, of course, but it would not surprise the men if an announcement of the kind is sent out officially from Marquette.

OLD SORES, ULCERS AND FEVER SORES
For all purposes for which an ointment may be used there is no article offered the public better than PECK'S KING OF OINTMENTS. Its reputation for wonderful cures in cases of Ulcers, Fever Sores, Old and Running Sores, and Itching Piles has made
PECK'S KING OF OINTMENTS
a household necessity. Its manufacturers are people of the highest business reputation. Be sure to ask your druggist for "PECK'S KING OF OINTMENTS" and decline any substitutes. Two oz. glass jar for 25 cents. Address

POISONING THE SYSTEM.
It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dizziness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never grip or distress. Harwood, Ishpeming; Stafford Drug Co.

PARDON BOARD HERE TODAY.
Cases of Several Prisoners from This Section to Be Investigated.
A meeting of the advisory board of pardons will be held at Houghton today and tomorrow to investigate the cases of George Craig, Hadley D. Sumner, Joseph Betzler, John R. Malvey and others that may come before the board. The prisoners mentioned are all from this county, and had only one time and another for various crimes. Any person desiring to appear before the board to give information will be given an opportunity.

FINE PUMPING PLANT.
None Better Than Hancock's in Towns of the Same Size.
The Smith & Vail pump, which was removed from Hancock's old pumping station to the new building in which is located the new Allis-Chalmers pump, has again gone into commission. It is in first-class condition. The Worthington pump in the old pumping house will be left there to be used when necessary. B. B. Richardson of Milwaukee, the Allis-Chalmers employe who superintended the work of installing the new pump, has returned home, the work of the Allis-Chalmers being completed. Hancock now boasts of one of the best pumping plants for a town of its size in the country.

COPPER COUNTRY COLONY.
Calumet and Houghton People Going to Isle Royale.
More people from the copper country are taking advantage of the outing opportunities at Isle Royale each week, and Washington Harbor is becoming quite a copper country colony, says the Duluth News-Tribune. Captain Singlet of the White Line, received a telegram last evening asking regarding accommodations for Mrs. Carl Sheldon of Houghton and a party of ten who will take the Iroquois this morning at that point for Isle Royale. W. D. Calverly and another Houghton man left for Isle Royale from Duluth last evening. There is already at Washington Harbor a party of Houghton and copper country people, as guests of Mr. Goodell of Houghton, whose steam yacht Morgan is kept there at the disposal of Mr. Goodell's guests. In fact, Houghton and Calumet people have made Isle Royale the objective point of most of their summer outings this year, and Port Washington has become without dispute the most popular resort for the copper country.

WATER CONSUMERS MUST PAY.
The water board of the village of Red Jacket will today send out a man to shut off the water at all places where the consumers are three months behind in the payment of their water taxes. The village has been easy with those who have been in the arrears, but the officials think three months is long enough to wait for the money.

NOTES OF MARINE NEWS.
The steamer Japan arrived, up bound, at Portage Lake Tuesday, and the steamer India down. Both had a full list of passengers.
The barge Minnie E. Orton is unloading coal at the Mineral Range docks, Hancock. The barges J. R. Edwards and William R. Young are awaiting their turn to discharge their cargoes.
The steamer Gould, of the L. M. & L. S. T. company, will arrive up today with a full cargo of packet freight for Portage Lake points. The City of Traverse, of the same line, is due down today.
The Lord Stanley, a Canadian revenue cutter, passed through Portage Lake Tuesday afternoon, bound for Port Arthur to the Soo. The Stanley is a steel boat about the size of the cutter Morrill, which visited Houghton last week.
The steamer Mark Hopkins is due up bound either today or tomorrow with a cargo of steel rails, the first shipment, for the Copper Range extension from Houghton to Lake Linden and Laurium. The rails, which are from the Cambria Steel company, will be unloaded at the Copper Range docks.

IF A MAN LIE TO YOU,
And say some other salve, ointment, lotion, oil or alleged healer is as good as Bucklen's Arnica Salve, tell him thirty years of marvelous cures of Piles, Burns, Boils, Corns, Felons, Ulcers, Cuts, Scalds, Bruises and Skin Eruptions prove it's the best and cheapest. 25c at Stafford's drug store.

ATTENTION, R. P. O. E.
All those who expect to join the Salt Lake excursion will please notify the secretary of their lodge at once. It is in order to arrange for sleeping car accommodation. (7-30-44)

CATARRH CANNOT BE CURED.
With local applications, as they cannot reach the seat of the disease, Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

J. E. K. CIGARS: Always Reliable. The Best that Tobacco can produce. 10c. or 3 for 25c. J. E. Keuning & Co. Mfg's. Grand Rapids, Mich.

1902 EDITION.

The new 1902 edition treats of Copper from all standpoints—Historical, Technical, Statistical and Descriptive. It is divided into ten chapters, as follows: I. History of Copper. II. Chemistry and Mineralogy. III. Metallurgy. IV. Glossary of Mining Terms. V. Copper Deposits of the World. VI. Copper Deposits of the United States. VII. Leading Foreign Mines. VIII. Lake Superior Mines. IX. American Copper Mines. X. Statistics of Copper.

The work is an octavo volume of 492 pages, set in Brevier type. It is the only volume printed in any language treating of the entire subject of copper, with descriptions of all principal mines, some 700 properties being listed, the descriptions ranging from a few lines to a dozen pages for each, according to importance. The price of the Copper Handbook is \$3 in full morocco, and \$2 in buckram binding, prepaid to any address in the world. It will be SENT ON APPROVAL and may be returned within 30 days, if the purchaser is dissatisfied, for any reason whatever, and price paid will be refunded.

HORACE J. STEVENS, 3 Post Office Block, HOUGHTON, MICH.

Ishpeming and its Environs.

REGARDING OLCOTT. Former Ishpeming Man Is Moving Right Up the Ladder.

The Duluth Evening Herald has the following detailed write-up of the promotion of W. J. Olcott, which was noted geographically in The Mining Journal yesterday: Saturday W. J. Olcott became general manager of the mines of the Oliver Iron Mining company and the Minnesota Iron company, which companies have control of all of the mines of the Steel corporation in Minnesota, Wisconsin and Michigan.

Mr. Olcott has been relieved of all the railroad work, and his mining duties have been very much broadened. His position is much more prominent and important than it was before, when he was superintendent of the Mesaba mines of the steel corporation and president of the Duluth, Missabe & Northern railroad. He will retain the title of president of the railroad for the present, but the duties will be practically all assumed by Mr. McGonagle.

Mr. Cole has been president and general manager of the two companies, and while he continues as president his title of general manager passes to Mr. Olcott, who will relieve him of much of the general oversight of the mining operations of the steel corporation. Mr. Powell has had the title of agent and in that position he has had substantially all the duties that he will now have, without the title.

W. J. Olcott came to Duluth in February, 1894, to take charge of the Rockefeller mining interests with the title of superintendent. When Vice President McBride, of the Duluth, Missabe & Northern road stepped out, Mr. Olcott was made vice president of the railroad. Under the new deal by which the corporation took the Rockefeller interests, he became president of the railroad and general superintendent of the corporation's mining operations on the Mesaba range, which was his position until the recent change took place, whereby he was relieved of his railroad work and his mining operations were much enlarged. He is a prominent figure among the iron mining men of the county and his advance has been steady ever since he took up the profession. He is receiving the deserved congratulations of his many friends on his elevation to the responsible position last given him, as announced Saturday.

WOODMEN LECTURES. Two Fine Speakers Will Visit Upper Peninsula Early in August.

State Deputy C. J. Byrns of the Modern Woodmen of America has arranged to have two good speakers come to this section during August to lecture in advocacy of the re-adjustment plan. The itinerary for the upper peninsula has been arranged, but the dates have not yet been fixed.

The speakers are Judge Clark of Tompeka, Kan., and Earl J. Brown, a prominent young attorney of St. Johns, Mich. Both are thoroughly posted on the proposed plan.

Alpena will first be visited. The speakers will be there early next week, probably Monday. From there they will go to Petoskey, then to Sault Ste. Marie, then to Grand Marais. Marquette will be the next place visited. It is Mr. Byrns' wish to have the speakers at Marquette a week from next Saturday evening, that date will be satisfactory to the Marquette camp. From the Queen City they will go to Republic, then to Ontonagon and Calumet, later taking in Iron Mountain and Menominee, going from the latter place to points in the lower peninsula. The state deputy will accompany the speakers on their trip through both peninsulas.

A CHANCE FOR THE DRILLERS. William Heard and James Kitt, two well known miners of this city, authorize The Mining Journal to challenge Messrs. Johns and White to a drilling contest. The latter are also from this city, and they carried off the honors in the drilling contest at Hancock on the occasion of the Sons of St. George celebration.

Miss Ruth Skoglund, who has been in the city the past few days, visiting at the home of August Hendrickson, departed for her home yesterday. J. W. Alles, wife and son, of Detroit, are here visiting S. E. McKinney, art wife. Both families spent yesterday sight-seeing at Marquette. John Hayne has the contract to build an addition to the Consolidated Fuel & Lumber company's barn. Work was started on the job yesterday.

DR. CONKLIN MARRIED. Dr. H. R. Conklin, late of Republic, was recently married to Miss Gertrude Remington Howell of Teumseh, Mich. The bride is a daughter of Dr. George Howell of that city. Dr. Conklin and bride are now at Champion, having arrived there a few days ago. They will remain about three weeks, until Dr. G. D. Beech returns from a trip on the lakes. Dr. Conklin will locate at Teumseh.

SNAP SHOTS. Miss Esther Levine has gone to Chicago to visit friends.

B. Levine and family spent last Sunday with friends at Marquette. Miss Annie Parr returned Monday from the copper country, where she had spent two weeks with friends.

William Hoeking of Pork City was called to Calumet early in the week on account of the death of his mother.

George Voyer and family were tendered a farewell reception at the Pascoe House Monday evening. Mrs. Voyer and the children will move to Ishpeming this week.

The Catholic Athletic club will give a ball at the Anderson hall on the last night of the firemen's tournament at Negaunee. It is expected that a number of the visitors to the tournament will attend the party.

DRESSMAKING. Mrs. A. Hanson, 219 North Maple street, is prepared to do dressmaking of all kinds. High class work solicited. Thirty years' experience. (7-25-1w)

ON GREEN BAY.

Chicago & Northwestern Road May Build Summer Resort There.

According to the Ishpeming officials, the Chicago & Northwestern Railway company may build a big summer hotel near the Chautauque grounds on Green Bay.

General Passenger Agent Kniskern, of the Northwestern line, has informed the directors of the Northern Chautauque assembly of Marinette that his company will, during the coming session, have the grounds looked over, with a view of building a big summer hotel there.

The country in the vicinity of Menominee and Marinette is rapidly gaining a reputation as a fine summer resort and people in the large cities are beginning to recognize it as such.

The railroad companies are commencing to realize the year of booming the summer resorts, as they foresee a prosperous future for them.

There is no reason why a good summer hotel located near Marinette and Menominee on the shores of Green Bay, and managed in the proper manner, should not pay as well or better than one at Frankfort, and many other places where they have been built.

WILL GIVE A PICNIC. St. Humphrey Davey lodge, Sons of St. George, will give a picnic at Cleveland Park two weeks from next Saturday, Aug. 16. All the sister lodges of the county will be invited to participate.

There will be a parade in the morning before going to the grounds. The net proceeds will be given to the Methodist church society to assist in paying for the new church. Committees were named at the regular meeting of the lodge this week to complete arrangements for the outing.

THE NEW OFFICE. Plans and specifications for the new office which the Oliver Iron company will erect in this city were received a few days ago and are now in the hands of contractors, who are preparing bids on the job. The bids will be opened Aug. 11. It is assumed that the construction work will be started before the end of August.

DON'T FAIL TO TRY THIS. Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure will surely be effected. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. It's a wonderful tonic for run-down systems.

Electric Bitters positively cures Kidney and Liver Troubles, Stomach Disorders, Nervousness, Sleeplessness, Rheumatism, Neuralgia, and expels Malaria. Satisfaction guaranteed by Stafford, Only 50 cents.

ISHPEMING IN BRIEF. Miss Hilda Skoglund has gone to Gladstone on a visit to relatives.

James R. Thompson of Ironwood has been a visitor in the city the past couple of days.

P. H. Donahoe has been ill and confined to his home the greater part of the past week.

M. L. Lee is building a neat wire fence around his flat, corner of Fifth and Vine streets.

George Voyer's family will join him here tomorrow. They will keep house on Baragan street.

Tony Rose, a local cornetist, has gone with Williams' circus, playing in the band and orchestra.

Wilfred Monjeau, the barber, has been ill the past few days. He has a slight touch of pneumonia.

Mrs. McDowell's dwelling, corner North and Third streets, has been repainted by Euan & Swanson.

Andre Formis' parents are here from Germany visiting him at his home, corner Third and North streets.

Miss Ernestine Beaudoin of Montreal, is in the city visiting the family of F. Labreche, to whom she is related.

Professor A. T. Erickman of Minneapolis, who has been here for a week or so past, left yesterday for his home.

Miss Ruth Skoglund, who has been in the city the past few days, visiting at the home of August Hendrickson, departed for her home yesterday.

J. W. Alles, wife and son, of Detroit, are here visiting S. E. McKinney, art wife. Both families spent yesterday sight-seeing at Marquette.

John Hayne has the contract to build an addition to the Consolidated Fuel & Lumber company's barn. Work was started on the job yesterday.

W. H. Johnston and family and G. G. Johnston and wife are attending a reunion of the Johnston families at Lake Mills, Wis. The party is a large one.

J. Wahlman & Son are putting a plate glass front in the Eckre block, corner of Cleveland avenue and First street, occupied by Ed Clark, the dry goods merchant.

under many obligations to the captain of the boat upon which they took their excursion last Sunday. The trip was greatly enjoyed by the excursionists.

The Peninsula bank has sold to Jacob Lehtimaki part of lot No. 138, of Nelson's addition, for a consideration of \$750. Part of lot No. 40, of the same addition, has been sold by Albert Rohler to Delia Hamel for a consideration of \$700.

Rev. C. Liden of Chicago, who has been here since last week, will preach tomorrow evening at the Swedish Mission church. On Saturday he will go to Iron Mountain, where he will preach Sunday. From there the reverend gentleman will go to his home in Chicago.

The bids for erection of the Methodist church were not opened last evening. A contractor from Chicago, who is preparing a bid on the job, asked that the time limit be extended another day, as it was impossible for him to get his bid in yesterday. The bids will be opened and examined this evening.

A party of about fifteen Ishpeming people and a few others who were in attendance at the Young People's convention held last week at the Swedish Mission church here, enjoyed an outing at Presque Isle. The dinner and supper was provided by Rev. C. Anderson, pastor of the Mission church, August Hendrickson and John Skoglund.

Recuperation—there is not so much in the ordinary vacation as there is in a change of air. The dinner and supper, which refreshes the tired blood, sharpens the dulled appetite, restores the lost courage. Take Hood's Sarsaparilla this summer. (3)

Republic.

THEY WERE "TOUCHED." Two of Republic's Excursionists Relieved of Their Money Sunday.

Two well known Republic young men, who took in the excursion to Escanaba last Sunday, arrived home the following evening looking like a couple of hobos. They claim to have been "touched" for their cash, to the amount of about \$30.

They offer no explanation as to how they missed the excursion train home. However, they tell a very interesting yarn as to how they were bluffed, after they discovered that their money was gone. They were in a saloon and they suspected a man who sat near them of having taken their cash. They accused the fellow of the theft, and he naturally got excited. For a time the Republic boys thought they were in for a severe trouncing, but they got out of the place safely.

The excursion tickets were not good on Monday's trains, so the two unfortunate were obliged to either walk or steal a ride. They counted ties for about eighteen miles and then caught a freight to Negaunee. They had enough change to pay their fare from Negaunee to Republic.

GIVEN A SCARE. Republic people were given a scare a few days ago. Orders came to the mine management to stop digging ore, and everyone wondered what was in the air. It was rumored that the mine was about to change hands, but definite information was not obtainable. With shipments stopped, the crusher shut down. Fearing a general suspension, the residents of the village had reason to feel alarmed.

But on Monday another order came to resume shipping at once. The switch engine was recalled and operations were resumed with the usual forces. Even if the pending deal for the purchase of the mine is consummated it is not likely that the change will make any difference here.

BALL TEAM "ROASTED." The members of Republic's second nine have heard a great deal about the game of ball they played, or rather attempted to play, at Negaunee Sunday last, when the Independents of that city walloped them to the tune of 28 to 13.

It was the worst ball the local men have ever put up, but the team was clobbered and luck was against the men. The second nine and the Champion team will meet on the local grounds next Sunday afternoon. The Champions were defeated by the Republics two weeks ago next Sunday, and of course the boys expect to win again.

A FINE STORE. The Finnish Co-operative society has moved its stock of dry goods, groceries, etc., from the Scandinavian society's building to the Verran block. The interior has been remodeled and painted and now presents a neat appearance. The store is well equipped with the old stand and a much bigger stock will be carried. August Jarvala, the tailor, will move his shop to the Scandinavian building.

DR. CONKLIN MARRIED. Dr. H. R. Conklin, late of Republic, was recently married to Miss Gertrude Remington Howell of Teumseh, Mich. The bride is a daughter of Dr. George Howell of that city. Dr. Conklin and bride are now at Champion, having arrived there a few days ago.

They will remain about three weeks, until Dr. G. D. Beech returns from a trip on the lakes. Dr. Conklin will locate at Teumseh.

SNAP SHOTS. Miss Esther Levine has gone to Chicago to visit friends.

B. Levine and family spent last Sunday with friends at Marquette.

Miss Annie Parr returned Monday from the copper country, where she had spent two weeks with friends.

William Hoeking of Pork City was called to Calumet early in the week on account of the death of his mother.

George Voyer and family were tendered a farewell reception at the Pascoe House Monday evening. Mrs. Voyer and the children will move to Ishpeming this week.

The Catholic Athletic club will give a ball at the Anderson hall on the last night of the firemen's tournament at Negaunee. It is expected that a number of the visitors to the tournament will attend the party.

"A HANDFUL OF DIRT MAY BE A HOUSEFUL OF SHAME." CLEAN HOUSE WITH SAPOLIO

THE RICHEST FOUR MILES IN THE WORLD

is along the Verde Copper Belt in Yavapai County, Arizona.

Yavapai County is said to be the richest mineral county in the world. The Verde Copper Belt is its geographic center as well as the center of its wealth. It is the richest four miles in the world or any other county.

At its northern end occupying about one-tenth of the whole stretch, is the world-famed United Verde Mine, which has made Senator William A. Clark perhaps the richest man in the world. Its central and southern portions belong to the

GEORGE A. TREADWELL MINING CO. whose properties are just as rich and several times as extensive as those of the United Verde Company.

In a case recently tried in court in New York it was proved by the books of the company and the sworn testimony of the bookkeepers that the United Verde produces its

Copper at a Cost of 3 Cents a Pound.

THE GEORGE A. TREADWELL CO. can do quite as well, for its properties are similar and similarly situated and much larger.

In no place in the world outside the Verde Copper Belt can copper be produced at less than twice this cost.

All the Verde Belt properties are rich in gold and silver as well as copper. This still further reducing the cost of the copper. Our Brookshire Mine was successfully worked as a gold mine—the copper being thrown away—by the former owners before we acquired it, and our Iron Queen and Cliff properties—like the United Verde—have large gold and silver values in their ores. As Professor Treadwell has well said, if it comes to the survival of the fittest it will be the copper mines carrying high values in gold and silver, like those of the GEORGE A. TREADWELL CO. properties, that will survive the longest.

The capitalization of the company, notwithstanding its rich and extensive properties and its splendid prospects—is only \$3,000,000 and the par value of the shares is \$10.

The Treasury stock is for sale at \$12.50 a share until August 10th, and at \$13.50 after that date if not all sold sooner.

Make checks payable to the order of the GEORGE A. TREADWELL MINING CO., and send to:
 27 William Street, New York.
 MYRA B. MARTIN, Secretary.
 (7-29-31-Aug 2)

NOTICE TO CONTRACTORS.

Sealed proposals will be received by Wm. A. Ross, Clerk of the county of Marquette, Michigan, for the building of a County Jail, House at Marquette, Mich. Proposals to be in the hands of the aforesaid Wm. A. Ross, on or before 10 o'clock on the 31st day of August, 1922. Plans, specifications and instructions can be seen on and after the twenty-first day of July, 1922, at the office of the aforesaid Wm. A. Ross, Marquette, Michigan, and also at the office of the architect, Camp Building, Milwaukee, Wis., and Marquette, Michigan. The right to reject any and all bids is reserved.

LINDQUIST GETS CONTRACT.
 He Will Erect the Seats at the Firemen's Running Track.

Andrew Lindquist has the contract to build the seats and stands at the firemen's running track. It was awarded to him yesterday and Mr. Lindquist immediately ordered the lumber required from the Consolidated Fuel & Lumber company. The job will call for in the neighborhood of 75,000 feet of lumber. Mr. Lindquist buys the lumber outright and after the tournament he will offer it for sale at a reduced price.

The Consolidated people will fill the order within the next few days. Some of the lumber will have to be specially cut. The contractor expects to put his men to work about Monday. Ten or a dozen carpenters will be employed at the start and if this number is not sufficient to complete the work at least two days before the opening of the tournament more will be added. The seats will accommodate four thousand persons.

Top Dressing Going On.
 Work on the running track is progressing very satisfactorily. The top dressing has been given the track and the fine material is being spread. A sufficient quantity of the latter was yesterday to admit of the roller being operated. It will not take long to get the track in good trim, as the top dressing will be spread with the roller for three days. After that the roller will be kept working every day until the tournament. The track will be wet down every morning before it is rolled.

Prizes Expected Soon.
 The various houses from which the trophies to be awarded the winning teams were ordered have notified the committee that these will be shipped in due time. The committee has directed shipments to be made two weeks before the tournament so there will be no delay in their arrival. There will be over forty prizes. Special engraving is necessary on most of the trophies. A few samples have been received from the engravers and the committee is satisfied that first-class work will be done.

Large Crowd Expected.
 The tournament promises to be largely attended. Firemen and their friends will be present from every city and town in the upper peninsula. There will be more running teams participating that have attended any tournament in recent years. Teams are expected from Calumet, Lake Linden, Hancock, Hurontown, Painesdale, Ironwood, Bessemer, Sault Ste. Marie, Republic, Amasa and Ishpeming. Quarters have been assigned several of the teams.

Negaunee firemen stand neutral on the question of where the next tournament will be held. They feel that this should be settled without their interference. It would not be proper for them to work in the interest of any of the three contesting towns. The contest for the next meeting will be quite spirited and a lively convention is anticipated.

Lively Ball Game.
 Mitchell's "Fats" Downed Thoren's "Colts" in a Score of 17 to 15.

Yesterday's ball game between two nines composed of business men was captained by two of the city officials was not half bad. The running of some of the heavy weights, the coaching of the "city hall gang" for Mitchell's team, the athletic work of Joe Winter, the early retirement of Charley Johnson, the coaching of C. L. Sporely, and George Haupt, the hitting of Mitchell, the umpiring of Louie Goodrich and the "star" pitching of Tom Connors, were features that the spectators enjoyed.

The game started with Thoren's men at the bat. They didn't do a thing, but since every ball pitched. The fielders on the other side were pretty well fagged from chasing the ball before the side was retired. The postmaster was in the box and in spite of the fact that he seemed "easy" he tackled the job again in the second inning. His work was a little better, but the allow's side men to cross the plate. He was then getting warmed up and from that time until the eighth inning, when he retired to second base, he seemed to have the sluggers of the opposing nine at his mercy.

Captain Thoren was in the box for his side. He threw such a slow ball that he actually fooled the batters. In the first inning three runs were made, but in the second and third the Mitchellites were "goose-egged." In the fourth they got three runs, but still the score was all from the batting. Thoren's side had the better of the game until the last two innings. In the eighth the Mitchell team scored five runs, coming within one of tying the score. In the ninth, with two men on bases and with two runs necessary to win, Mitchell stepped up to the plate and sent the batsmen out on a home run. This won up the contest, the score being 17 to 15.

Some of the "old-timers" showed up to good advantage. Mitchell held down first base in true professional style and Charley Sporely took care of everything that came to him. Joe Winter was busier than a chicken with its head off down at second. Nearly every man up to bat paid his respects to Joe by sending him a "hot one." He was equal to the occasion and had more put-outs to his credit than any other man in the game.

After Charley Johnson quit the game he labored at the pump handle, furnishing "water" for the thirty participants. John Shea was scheduled for a place on the Thoren team, but the sun was too hot, so he assisted the city hall fellows to the stadium.

Another game will be played as soon as the players recover from the effects of yesterday's contest. Some of them who made the circuit of the bases a few times, will not be able to move with comfort for a week. The score by innings was as follows: Thoren's team . 7 3 0 2 1 0 1 1 0 —15 Mitchell's team . 3 0 0 3 1 2 0 5 3 —17

THE CHURCH CARNIVAL.
 The ladies of the Episcopal church want all their friends to forget everything but the carnival which will be held at the Adelphi rink. Much work has been done in preparation for the function and a good time is promised all who attend. The rink will be attractively decorated and the features of the "big show" will be numerous. Nearly every lady in the congregation has been busy all week preparing for the carnival and the arrangements are now quite complete. The greater part of today and tomorrow will be spent at the rink, erecting the booths, decorations, etc.

GOING TO THE WOODS.
 Many Negaunee people are spending their leisure time in the woods these days. Nearly every train going to Swanzy and other points down the line takes parties of from three to eight or ten persons. Some are at the berry fields, while others are fishing. A large crowd went down yesterday to absent a day or two. Many family picnics are held daily at the groves near the city.

LOCAL LAONICS.
 El Sealon of Hancock did business in Negaunee yesterday.
 D. Raitzel has gone to Escanaba on a few days' visit with friends.
 Mrs. H. W. McKay of Oshkosh was a Negaunee visitor yesterday.
 An adjourned regular meeting of the school board was held last evening.
 Andrew Erickson and several others went down the line for an outing yesterday.
 Mrs. H. E. Wood left yesterday morning on a visit of two or three months in New York.
 Clark Kirkpatrick came up from Escanaba yesterday. He spent most of the day with his mother at Palmer.
 Herbert Farrell and Will Yates left yesterday morning for Bass Lake, where they will spend a few days camping.
 Andrew Lindquist, the contractor, will put some men to work today on Ben Richards' house, which is to be enlarged.
 No. 1 hose company of the Negaunee fire department will hold a regular monthly meeting next Monday evening.
 No. 2 company will meet Wednesday evening.
 Among the real estate transfers made recently was the sale by Thomas Carmichael to Dennis Reidy of lot No. 1, Block 34, of the Pioneer Iron company's addition. The consideration was \$2,300.
 F. F. Moffatt, the Ishpeming painter, has about finished repainting four of Louis Corbett's tenement houses. Some carpenter work has also been done about them and they are now in good condition.
 Tom Green, the engineer who was injured in the wreck at Escanaba Tuesday morning, is reported to be quite badly hurt. He had an arm and shoulder fractured and it is said that he was injured internally. The Green brothers are having more than their share of hard luck in their railroad work. One

KALAMAZOO GIRL
 Her Case Not Unusual But Interesting, Nevertheless.

Miss Nellie Hathaway, a winsome girl of 15, living at No. 120 Portage street, Kalamazoo, Mich., was one of the many who were afflicted with grip last winter. The disease left her all run-down and her blood in a very impure condition. Her case is best stated in her own words:

"I was taken with the grip in March," she says, "and when I got over that it left me in a very poor physical condition. I was weak all over, had no ambition to do anything and when I stood up or tried to walk I became so dizzy that I had to give it up. I spent most of my time on a couch for about a month. I had no appetite and nothing that I did force myself to eat tasted good. Then I began to break out with boils and my eyes became sore and inflamed and I knew my blood was in a awfully bad condition. We had a doctor but he did me no good at all that we could see, so my mother thought that she would doctor me herself. My sister, Frankie, had taken Dr. Williams' Pink Pills for anaemia and they cured her, so I began taking them. I took about two boxes when I began to feel better and I used about eight boxes in all. Now I feel all right and well. I have not had any more boils and I am strong and healthy. We have recommended Dr. Williams' Pink Pills for Pale People to many of our friends and they have taken them with good results."
 Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent postpaid on receipt of price, fifty cents a box or six boxes for two dollars and a half, by addressing Dr. Williams Medicine Co., Schenectady, N. Y.

Upper Peninsula.
 The old time ferry boat, the steamer Fortune, is to be transferred from Detroit to the St. Mary's river, having been purchased by the International Transit company for service between the two shores.

Will R. Banname, a switchman in the Northwestern yards at Norway, has left for San Francisco. He has been given a commission as second lieutenant in the United States army, and will join his regiment in the Orient. He served in Cuba during the late war, and also in the Philippines.

Jacque Bairel, a Northwestern brakeman, is at an Iron Mountain hospital, suffering from several broken ribs and a severe shaking up. The accident happened at Quinnesse. Bairel was standing on top of a box car, when the train started up unexpectedly and he was thrown to the ground.

Mark Markosen of Iron Mountain was given a mass of string beans the other day by a friend. The beans were served for dinner, and shortly after the entire family was taken very sick, with symptoms of poisoning. The doctor summoned brought relief after considerable hard work. It is thought that the beans had in some manner been sprinkled with paris green.

The machinists of Menominee and Marinette a few days ago made a demand for ten hours' pay and nine hours' work. It was granted by the Stephens factory, Prescott Iron Works and the Marinette Iron Works, and hereafter the machinists will only have to work fifty-five hours a week, thus giving them Saturday afternoon to themselves. The new arrangement went into effect this week.

They are taking time by the forelock at Menominee. The business men of the city have started the organization of a Fourth of July club, for the purpose of providing for a big celebration next year. All the business men will be asked to join and subscribe toward the fund, and it is expected that the celebration will out rival any yet held on the river. Marinette wishes to escape short of the Menominee celebration.

It is reported that Ogilvy, Norton & Co., of Cleveland, have secured an exploring option on the six forties adjoining the Aragon mine at Norway. The option was secured from Captain Thomas J. Spencer, who has been doing some exploration on the property. It is learned that it is the purpose of the Cleveland firm to explore the property in a systematic manner. The diamond drills will be placed in operation within a few weeks. It is the expectation to locate a continuation of the Aragon formation.

The steam fire engine at St. Ignace is in commission at the wharf, pumping water into the city water mains. This procedure has been necessitated by the startling discovery that the waterworks intake pipe, extending from the ground house into deep water, or at least certain lengths of the pipe, has become so corroded and rusted as to suck in fine gravel and dirt when the pumps were being run, a discovery that means the shutting down of the plant until new pipe can be procured and an escape caused. To attempt to run the pumps would simply mean their destruction. Before shutting down the plant, the standpipe was filled and then shut off. This supply of water will be kept in reserve and for use only in case of fire. It is believed that the damage wrought to the pipes is due to electrolysis, the ground wires of the electric lighting plant entering the earth in close proximity to the pipe.

Quartermaster Sergeant Starke, of Co. C, has returned to Fort Brady at the Soo, from Canton, where forty members of that company are guarding the McKinley tomb. Sergeant Starke was released at the request of Captain Biddle, but all efforts to have the balance of the company released have been fruitless since Mrs. McKinley has expressed a desire that no change be made in the men who keep vigil over her husband's resting place. The boys are all well at Canton and, the sergeant says, are an exceptionally well behaved lot of soldiers. They have had no trouble with ghouls and state that the solemn respect of all classes and conditions of men from America and foreign lands on approaching the grave of the martyred president is a wonderful sight. The casket can be plainly seen from the road and is covered with flowers that come from all over the world and arrive daily. Mrs. McKinley visits the grave three or four times a week. She is gradually gaining in health and seems to be altogether resigned to the fate that the awful calamity brought her. She is gracious and kind to the men who keep watch and never neglects to recognize their service. The soldiers have learned to look upon her with an admiration they cannot explain. There are two sentries on each top of the tomb and one in front. Visitors from all over the earth come to visit but only Mrs. McKinley, relatives and her immediate friends are allowed to come to the vault.

"I want you to collect \$94,000.00 for me, and I want it just as soon as you can get it!" Thus spake a suave stranger, who entered the justice court of Attorney John M. Ossall at Menominee the other afternoon. At the mention of such a sum of money Justice Ossall was all attention, and, recovering from the shock, asked his visitor to be a little more explicit. Whereupon the man explained that his name was John Sackerson, that he lived in Solon, Mich., and that a Mr. Kemp was indebted to him for the sum of \$94,000.00. At first the justice did not know what to make of the case, but as the excited stranger continued his harangue, it dawned upon the expounder of the law that his visitor was apparently insane. After being assured by Justice Ossall that he could not take the case just at present, the delirium-stricken Sackerson went immediately to the court house where he told his troubles to County Treasurer Charles C. Hansen. As soon as the stranger began his absurd story, Mr. Hansen decided that it was a case of lunacy, and, humoring his visitor for a few moments, telephoned for Dr. Grignon, who arrived soon after with Chief of Police English. Sackerson was still claiming the \$94,000.00, when the officers of the law arrived. When told that he would have to be detained for a

Nasal CATARRH
 In all its stages there should be cleanliness.

Ely's Cream Balm
 soothes, cures and heals the diseased membrane, cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drugists; by mail, Trial Size, 10 cents by mail.

ELY BROTHERS, 56 Warren Street, New York.

NEED MORE HELP.
 Often the over-taxed organs of digestion cry out for help by Dyspepsia's pains, Nausea, Dizziness, Headaches, liver complaints, bowel disorders. Such troubles call for prompt use of Dr. King's New Life Pills. They are gentle, thorough and guaranteed to cure. 25c at Stafford's drug store.

ACTS IMMEDIATELY.
 Colds are sometimes more troublesome in summer than in winter, it's so hard to keep from adding to them while cooling off after exercise. One Minute Cough Cure cures at once. Absolutely safe. Acts immediately. Sure cure for coughs, colds, croup, throat and lung troubles. Harwood, Ishpeming, Stafford Drug Co.

Over-Work Weakens Your Kidneys.
 Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Fatigue, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

short while, Sackerson made no protest, and willingly gave up a bundle of papers, which, he says, proves his claim to the specific amount of \$94,000.00, and surrendering \$24.87 in currency. He was then incarcerated to await examination as to his mental condition. From the papers found in the clothing of Sackerson the fact was established that he is from Solon, and Dr. Grignon thinks that the man was at some previous time confined in the insane asylum at Traverse City.

COSTLY ARMY TAILORING.
 Officers Who Trade Insurance Policies for Uniforms.

Some of the army officers in Washington are in a state of mind over the number of changes in uniform which have been imposed upon them during the last few years. Few escape short of \$100 or \$150 expense for the latest modifications. This is a large block to take out of a salary which is not excessive at best.

The bulk of the army tailoring is done by two concerns in this city. The head one of these is a thrifty soul, who realizes the difficulty a young officer often has in making both ends meet, and the uselessness of trying to collect bills for military clothing by suits at law, especially if the debtor is somewhere on the opposite side of the globe. He has in his safe now promissory notes for more than \$20,000 owing him by lieutenants who have had to mortgage six months salary to get them a proper outfit.

This tailor has adopted a shrewd device of securing his debts by insurance policies. An officer opens an account, and then takes out a policy for \$2,000, payable to his own estate, and pledges it with the tailor as collateral security. The tailor takes his note for the balance due from time to time, charges 6 per cent. interest, and lets the thing run. If the officer inherits a legacy from his aunt, or marries a rich wife, he pays, as a rule, as promptly as possible, but if he is killed in action or dies of cholera, the creditor does not have to lay awake nights wondering where his money is coming from. Meanwhile, his investment in the officer is bringing him a cumulative income. The only person who suffers by this arrangement is the widow—Washington Intake patch in New York Evening Post.

E. W. GROVE.
 This name must appear on every box of the genuine Lacative Bromo-Quinine Tablets, the remedy that cures a cold in one day.

Ten thousand demons gnawing at one's vitals couldn't be much worse than the tortures of itching piles. Yet there's a cure. Doan's Ointment never fails.

LOST MAN IS FOUND

FEARS YESTERDAY FOR SAFETY OF A. I. McDONALD.

WAS MISSING FOR TWO DAYS

DISAPPEARS WHILE ON FISHING TRIP NEAR WHITEBECK.

Searchers from Republic Located Him Late Last Evening After Spending Day in the Woods—Party from Here Ready to Join Hunt.

A. I. McDonald, the former well known grocer, has been lost in the woods out from Republic for the past two days. Yesterday a party of Republic men, augmented by searchers from other points in the vicinity, spent the afternoon and evening in an endeavor to locate the missing man. A small party from this city went up the road last evening to join in the search. Mr. McDonald was spending a few days in the woods with Mr. and Mrs. George Higbee. The party was on a fishing trip, and were making their headquarters at a point on the Fence river, near Whitebeck. Tuesday morning Mr. McDonald started out to whip the stream, with the intention of getting back shortly after noon. In the evening, however, he had not returned to camp and Mr. Higbee became apprehensive that some harm had befallen him. A search was made until darkness put a stop to it, and early yesterday morning Mr. Higbee drove to Republic and gave the alarm. A searching party was organized there, and the news of Mr. McDonald's disappearance was telephoned to Marquette.

The officers of the local lodges of the Elks and Pythians, to both of which orders the missing man belongs, were made acquainted with the fact of the disappearance, and steps were at once taken by them to participate, through experienced land lookers and woodsmen, in the search. John Manning and Ed Culver were secured to represent the lodges, and at 6 o'clock they left for up the road, accompanied by Mr. McDonald's son and several other Marquette people. It was the intention to drive out to Whitebeck, and from that point to make an early start on the search this morning.

The country in which Mr. McDonald is lost is said to be a veritable wilderness, and one very hard for a person not acquainted with it, to keep his bearings. However, there is confidence that the experienced woodsmen who have joined in the search will succeed in locating the missing man, and that he will be found safe and sound in a few days. The news of the disappearance caused considerable of a flurry here yesterday, and as usual in such cases there were many rumors more or less alarming in circulation.

Later—Mr. McDonald was found last evening. No details could be learned beyond the fact that he had been located and was at Whitebeck none the worse for his experience. A brief message to Mrs. McDonald brought the news.

TRADE BROADENING OUT.

Prospects Good for Increased Activity in Coppers.

Paine, Webber & Co. said of coppers: "There is a slow but steady increase in the public interest in copper stocks. The trading was a little broader today and there were fewer stocks for sale. The London market for copper is stronger. Though coppers may have fluctuations, we look to see them work higher from week to week. There promises to be a good market in the coppers this fall and we believe that buyers at the present level of prices will make big profits."

Wheat Weak Again.

W. H. Laidley & Co. said of the Chicago market:

"Upon a continuation of the very bearish conditions which have prevailed for some time, the market opened weaker and broke sharply on spot orders. Later it turned stronger, upon short covering, and closed near the top. July was bid up sharply, and as tomorrow is the last day in which this option can be traded, conditions will be more natural thereafter. The market has had a good break, although it may sell some lower. We believe it to be a purchase upon any further break.

"Corn opened weak and lower, but later turned strong, closing only 1/8 under last night. The receipts are getting light. Corn has now had a big break and should be bought.

"Oats opened slightly lower, but turned strong along with the other grains and closed slightly above last night. The July option was again bid up sharply, closing 3 cents a bushel over yesterday. We would sell out upon the bulge.

Better Tone in New York.

Walker wired Paine, Webber & Co. concerning the New York market: "The market today opened with a better tone. There was some good buying in the grangers and the whole list hardened up on reports of small shipments of gold for export. Some of the specialties were again taken hold of and advanced. In the afternoon the whole market advanced and the shorts covered freely. The market continued strong until the close, which was at best prices for the day, and with talk rather bullish. The traders were buying stocks up to the close."

MANICURE.

Mrs. E. M. Darling, experienced manicure and chiropodist, Hotel Marquette until Sept. 1. Full line of finest manicure goods. Now is your opportunity. (7-31-82)

PARDON BOARD HERE.

Cases of Several Convicts Investigated at the Prison Yesterday.

The four members of the state pardon board—F. W. Shumway, of Williamson; Judge Wm. R. Kendrick, of Saginaw; Judge Russell R. Pealer, of Three Rivers, and Senator E. W. Giddings, of Macomb—were in session at the prison yesterday, looking into the cases of convicts who have made application for the commutation of their sentences. Accompanying the party is Miss Brown, a stenographer in the governor's office, who in the absence of Secretary W. E. Dozer is acting as secretary. About a dozen cases were investigated, in so far as that could be done at the prison, these including those of the several copper country men who have applied for pardons. This morning the board will leave for Houghton, where further testimony will be taken, a night session having brought the meeting here to a conclusion. It is the duty of the board to investigate the cases of such convicts as may petition for pardon, and to report to the governor the result of its deliberations, together with such recommendations as in its judgment shall seem expedient, either in respect to pardons or commutations, or the refusal of the same. The board yesterday arrived at several decisions, but as these are confidential until they have been reported to the governor the text of the recommendations, or in what cases made, could not be ascertained.

HARDLY A BEAUTY SPOT.

Lakeside Park Is in Urgent Need of More Attention.

The Mining Journal has heard, from time to time lately, much complaint about the condition of Lakeside park, South Front street, which is now owned by the city and which is, presumably, one of its beauty spots. It is asserted that the park is not receiving enough attention and it is suggested that it would be a good idea for the city to spend a little money in fixing it up and then to provide an adequate allowance for maintaining it in something approaching good condition. It is asserted that the park does not look much better now than was the case before the city obtained title to it, and an inspection of the premises about bears this out.

The sum total of the work now done at the park is watering the grass, and weeding, which are far too unimportant a swart has yet to make the acquaintance of a lawn mower, and there is a notable absence of sufficient shrubbery. Lakeside park will not amount to much until a number of shade trees of suitable variety, proper shrubbery and a few gardens are planted, the whole to be carefully maintained.

It is presumed that the present condition of the park is to be attributed to a lack of funds. But those who find fault with its appearance remark that if the city had money enough to purchase the grounds, it should certainly be able to make an appropriation large enough to make them presentable.

OPERA HOUSE WELL FILLED.

Royal Theatre Company is Giving Great Satisfaction Here.

"Mother and Son," a drama with a very interesting plot, was well put on at the opera house last evening by the Royal Theatre people. Miss Leone and Willard Mack, in the leading roles, again took their parts in a manner entirely pleasing, and they were well supported. That the troupe is proving very popular with Marquette people is shown by the attendance, which from the start has been large and increasing, last night's audience well filling the house and being the largest which has yet turned out. The company is giving great satisfaction and despite that it is playing at 10, 20 and 30 cents it is by far the best repertoire aggregation which has held the boards here. The bill this evening will be "The Honor of a Rogue." Saturday afternoon a matinee performance will be given for the especial benefit of the ladies and children.

EXCURSION TO MANISTIQUE.

South Shore Will Run It Next Sunday—\$2 for Round Trip.

The South Shore road announces that it will run an excursion to Manistique and return next Sunday. The excursionists will travel by special train of first class coaches, leaving Marquette after taking on passengers at Ishpeming, Negaunee and other points in the county, at 7:10 o'clock a. m. On the return, the train will leave Manistique at 8 o'clock in the evening, giving the excursionists ample time to get supper before going to the depot. The fare from Marquette has been placed at the low rate of \$2 for the round trip, and from Ishpeming and Negaunee it is half a dollar more. It is the expectation that a large crowd will make the trip.

At Manistique, there will be a game of ball in the afternoon between the Marquette and Manistique teams. The game announced to take place here next Sunday with the Ishpeming club having been postponed until some time in the future.

SHERIFF PENGLASE'S BOARDERS.

They Numbered 276 During the Fiscal Year Ended June 30 Last.

According to the annual report which Sheriff Penglase has compiled and sent to the secretary of state, the total number of persons incarcerated in the county jail during the year ending June 30 last was 276, of whom eleven were females. Of these prisoners, 236 were in jail for minor offenses and but nine for high crimes, and of the total number there were but nine who could neither read nor write. Of the males, who numbered 268, 89 were born in the United States, 36 in British America, 14 in England, 16 in Ireland, 4 in Scotland, 10 in Germany, 39 in Norway and Sweden and 60 in Finland. The total cost of maintaining the jail was \$4,284.54.

ARE GOOD PEOPLE

MARQUETTE SHOULD GO AFTER ADVENTISTS' SANITARIUM.

SO SAYS C. E. WILDE

HE IS ACQUAINTED WITH THEIR BATTLE CREEK WORK.

They Have Accomplished Wonders at the Latter City and Are Now the Mainstay of Its Business Interests.

"If Marquette people knew more about the Adventists and the work they have done at Battle Creek," said District Superintendent C. E. Wilde of the Michigan Telephone company to a Mining Journal representative yesterday, "they would spare no effort to secure the location of their proposed upper peninsula sanitarium in this city."

"I know where I speak," continued Mr. Wilde. "I lived in and about Battle Creek for upwards of twenty years and I had abundant opportunity to inspect their sanitarium and the associated institutions. I assure you that they have accomplished wonders. Twenty-five years ago they were housed in a little wooden building, but from the moment of their first conception of the sanitarium enterprise until the present day there has been no pause or halting. The Adventists have gone steadily forward and now they have branches all over the world, in California, South Africa, Australia, Belgium, France and other places that I do not recall.

Battle Creek the Headquarters.

"Battle Creek has remained the headquarters, as it is the parent, of all the Adventists' institutions. In that city is located, as you know, the famous sanitarium, which is patronized by people coming from all parts of the world to get its unique treatment, dietary, muscular, etc. It received over 3,000 patients last year.

"In addition to the sanitarium, Battle Creek is the seat of the Adventists' college, and it also contains the organization's main printing plant, a magnificent office, which, I venture to say, consumes more white paper than any other printing establishment in Michigan.

"Of course you recollect that the old sanitarium was destroyed by fire last winter. The loss was a blessing in disguise as it gave the Adventists an opportunity to build a new structure, one of the finest sanitariums in the world.

Attracts Best People.

"And let me tell you," Mr. Wilde went on, "the Adventists treat the best classes of people in the United States. Their patients are, for the most part, wealthy people and just the class of citizens that Marquette should be glad to have visit here. The sanitarium at Battle Creek has benefited that city very greatly by attracting desirable strangers there. I may give you an instance that will illustrate this point.

"The Adventists have always been manufacturers of health foods. Naturally they were first led into the business by a desire to establish a good dietary treatment. They found that they could best get what they wanted for this purpose by arranging to manufacture it. You know that now Battle Creek is known as the home of health foods. Naturally you suppose that the Adventists are responsible, in great part, for this. So they are, but not directly.

"As a matter of fact the man who makes the bulk of the health food sent out from Battle Creek is C. W. Post, who manufactures postum cereal, grape nuts and other commodities. Mr. Post is a man who received his first acquaintance with Battle Creek while he was a patient at the sanitarium. He had come to the city a stranger, attracted by the renown of the place as a health resort. Now he is a leading manufacturer, employing a big working force in the production of his preparations. He made his first postum cereal on a kitchen stove some eight years ago. Now he is shipping eight carloads of cereal and grape nuts from Battle Creek daily. That is the kind of people that follow in the wake of the Adventists."

Marquette an Ideal Location.

Mr. Wilde believes that Marquette is an ideal location for an Adventist sanitarium and he sincerely hopes that the people of the city will leave no effort untried to get the proposed institution here. He states that Battle Creek has not the climatic advantages that are to be found here and he believes that a resort in this city would rival any now conducted by the Adventists.

He says that the Adventists are very praiseworthy citizens. They compose in the neighborhood of thirty per cent of the population of Battle Creek and are among that city's most progressive, intelligent and life abiding people. They take kindly to an atmosphere of refinement and morality, and Mr. Wilde believes that, once established here, they would be quite satisfied with Marquette. Monetary considerations are secondary with them. They have abundant resources and their labors are for the general good of humanity. But this does not prevent them from realizing that their institutions must be established on a firm basis and conducted in accordance with sound business principles, if they are to endure. They realize this thoroughly, consequently they have no failures to look back upon and all their enterprises are today making money.

"I wish," said Mr. Wilde in conclusion yesterday, "that Marquette people knew what a chance they have to give their city a substantial lift. Then I would be sure that every thing possible would be done to bring the proposed sanitarium here."

SOO IS CONFIDENT.

The Soo is confident, to all appearances, that it will succeed in having the Adventists' sanitarium and school,

which Marquette and Petoskey are also seeking.

"It is understood that a decision will be made in regard to the location of the proposed Kellogg sanitarium as soon as F. H. Clergue names the site," says the Journal, "and it is also understood that the decision will be in favor of the Soo. The members of the Adventist church who are promoting the enterprise are anxious to have the matter settled at an early date, so that building operations can be commenced this season."

The Adventists contemplate a \$50,000 investment at the start and it is the intention to add additions and new departments, including the manual training school and pure food manufacturing plant until within a few years the institution will represent an investment of a half a million dollars. As an initial plan the church expects to raise from \$20,000 to \$40,000 and it will expect the public spirited and humanity loving people of the benefited community to contribute at least \$10,000 for the worthy enterprise. It is urged by the promoters of the institution that it is not in any sense a money making enterprise, but is to be established for the good of humanity. All of the profits will go back into the general fund of the institution and will be used to increase its efficiency.

Rev. A. F. Campbell and Rev. S. E. Wright of Charlotte, who visited Marquette last week and later left for the Soo, have now departed from that city for their home. Professor J. Grant Lamson still remains at the Soo. The Canadian Soo is also flirting with the Adventists, in the hopes of getting the proposed institution located on its side of the St. Mary's river. As an inducement, it has offered five acres of land as a site. The tract is owned by Edgar Brown and is situated but one mile from the International hotel. It is known as the Atkins farm and is on the Great Northern road. There is little probability that the Canadian Soo's offer will be taken seriously, as, if the proposed institution is to be located in that vicinity, the people of the Michigan Soo are prepared to do a great deal better by the Adventists.

RAINS HAVE BEEN HEAVY.

Rubber Boots Needed for Work in Lower Peninsula Wheat Fields.

Colonel Robert J. Bates, commanding Third infantry, returned Monday to the Soo from an official trip to Owosso, Michigan, where he attended the annual inspection of the Owosso company. Arrangements were made with the military department at Lansing for the transportation of the Third infantry to Manistee for the encampment, August 10th.

The colonel also attended the special election held in Iron Mountain Monday evening, at which Gilbert V. Carpenter was elected lieutenant, and Joseph O. Lambert, 2nd lieutenant. Lieutenant Carpenter will be remembered by the boys of '98, as hospital steward, 34th Michigan.

Colonel Bates says the weather conditions in the lower part of the state are something fierce. Continued rains have made it a hard section for the country and the damage to crops will be enormous. "It is an actual fact," remarked the colonel, "that I saw men in rubber boots cutting and binding wheat in a field and carrying it out on the high spots to dry."

ORDAINED IN BELGIUM.

Rev. W. T. Deatcher, an old Marquette Boy, is Home.

Rev. W. T. Deatcher arrived home from Belgium yesterday. He was ordained a priest in the Roman Catholic church at Louvain, Belgium, on the 13th of July and he will say his first mass at St. Peter's cathedral Sunday. Father Deatcher has been absent in Belgium for the past three years. At various times during his preparation for the priesthood he has been in Milwaukee, Duquesne, Montreal and Cincinnati. The young man is now twenty-four years of age.

MARINE MATTERS.

Soo Canal Passages.

Marie, Mich., July 30.—(Special.)—Fred Kelly, 9:30; last night; Nipigon, Melbourne, Bissell, 12; Myles, 2 a. m.; Helena, 4:20; Andaste, Whitney, St. Louis, Buckeye State 5; Elphicke (steel), 5:30; Imperial, 9:20; Vulcan, Watt, Lake Shore, 9:40; Tassalle, 10:20; Mariposa and whaleback, 10:40; Matoa, noon; Venus, 12:20 p. m.; Donnacona, 1:10; Albatross, 1:40; Astor, Marlee, 3; New York, 3:40; Bessemer, Russell, 4; Schuykill, 4:20; Rockefeller and whaleback, 6:40; Thomas, Palmer, 8 p. m.

Harbor Gossip.

The steamer Bryon Whitaker arrived in port yesterday with a cargo of 2,000 tons of coal for Pekands & Co.

The steamers Presque Isle, for Ashland; the Kalyuga, for Buffalo, and the Harvey Brown, for Cleveland, took out cargoes from the L. S. & I. dock yesterday.

The steamer India was in port yesterday on her way down the lakes. The Gould, on her way up, discharged several carloads of package freight. The next time she will be the Japan, bound down for Buffalo. She will arrive Saturday morning.

CARD OF THANKS.

We hereby wish to express our heartfelt thanks to all our friends for their kindly assistance in our late bereavement. For all the beautiful tokens of friendship and sympathy and all the work done for us so willingly and unselfishly we feel a deeper gratitude than can be told in words. These expressions of true Christian sympathy and love have been a great help in bearing the sorrow over the loss of our dear little August.

F. A. LINDER, ALMA LINDER.

FOR COLD LUNCH.

Canned chicken, tongue, beef, sardines, roast for mustard and pickles in bottles, at Heppner's. (7-22-0)

WHILE JOHNNY SLEEPS

WHEN he was a tender lad his father opened for him a Savings Account. His first deposit was one dollar, but other deposits regularly followed. Johnny is now older. He is the proud owner of a handsome bank account. The account is growing as he grows and earning interest while he sleeps. There are other boys and other parents who might profit from the above.
