DAILY MINING JOURNAL,

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., SEPT. 1.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The completed registration in Alabama shows a total of 183,818 voters, of whom only 1,592 are colored.

These figures show conclusively how the suffrage restrictions in the new constitution are operating to shut the negroes out from a voice in public affairs, although color is not mentioned in these provisions.

The negro vote in Alabama has been almost eliminated. It is a matter of no little curiosity how 1,592 colored voters managed to obtain recognition.

A. D. Pettit, whose resignation of the management of the Hancock Journal was recently announced, has authoritatively declared himself as a candidate for the legislature from the southern district of Houghton county.

He informs The Mining Gazette that he has held back for some time to see if Portage township would not bring forward a candidate for the position, but, as the names which have been proposed have immediately brought out refusals to run from those concerned, he has determined to enter the field, and does so with fair promises of support.—Houghton Daily Mining Gazette.

The Iron Trade Review, speaking of the iron ore situation as viewed from Cleveland, says:

"Prices of non-Bessemer ore have advanced from 50 to 75 cents per ton and an advance in Bessemer ore is expected. Sales are not large, but there is a fair demand for this time of the year. It is expected that the shipments of ore for August will be about 4,000,000 tons. Dispatch at present is slow. The secretary of the Seamen's union has announced that beginning Sept. 1 wages will be generally advanced on vessels all over the lakes. The demands of the men will be granted. As predicted last week, the rate of 80 cents from upper lake ports has not been established by vesselmen, but the 60-cent rate from Escanaba is maintained.

It is only since 1899 that the United States has kept a specific record of the immigration of the Jews to this country. During the four years to date the immigration has amounted to 214,041, in 1900 reaching the high figure of 67,764. Austria-Hungary, the Russian empire and Finland furnish an enormous proportion of the whole. The Jewish World has kept a careful count of the Jewish arrivals into New York city since 1881 and gives the total as 627,950, of whom nearly 460,000 remained in the city. It is believed that the total Jewish population of Greater New York city at present is more than 600,000. These figures are interesting as going to show that the United States and not Palestine is the country to which the descendants of Abraham look with hope for a rehabilitation of their former fortunes. Here they are neither hated nor persecuted, forming, indeed, not only a large but a very important fraction of our 75,000,000.

The Iron Trade Review, dwelling on the great inconvenience and damage resulting from the scarcity of coke, says:

"Few of the furnace companies in the Mahoning and Shenango valleys succeeded in operating their stacks during the past two weeks, without being compelled to bank for brief periods. The coke situation is the worst the furnace operators ever had to contend with, and while deliveries have been better in the past few days there is no assurance of a large and steady forward movement of coke from the Connelville region, owing to the congested condition of the railroad yards in this district. Nor were the furnaces in the valleys the only sufferers, as nearly every stack in this district was affected to some extent, and at none are the stocks large enough to insure steady operation for even a few days, should shipments be interfered with again. The railroads are not entirely at fault, as it has been stated that the shipments west from the Connelville region have not been nearly so heavy for the past ten days as the demand requires, despite the fact that the production is heavier than at any previous time in the history of the region. The production of all grades of iron, especially Bessemer, is being greatly cur-

tailed, and operators having small lots for fourth quarter shipments are already asking \$21.50 to \$21.75 at the furnace.

The Mining Journal heartily second the following editorial suggestion of the Houghton Daily Mining Gazette:

"A gentleman who is deeply interested in the College of Mines, suggests to The Mining Gazette, in connection with the dedication of the two new buildings, that it would be well if the buildings of the college were named after men who have been prominent in furthering the interests of the institution, as Hubbell hall, Longyear hall, etc. The Mining Gazette regards the suggestion as an excellent one and would call it to the attention of the board of control. It would be most fitting that the building first erected, and now known as Science hall, should be named Hubbell hall, after Jay A. Hubbell, the father of the institution, which, second only to her great university, has spread so widely the reputation of Michigan among men of scientific attainments. Mr. Hubbell always looked upon the College of Mines as the best fruit of his public career and a fitting monument to leave behind him. By all means let his name be preserved in connection with the institution which he called into being. The second name suggested, that of John M. Longyear, would at once be placed next to that of the founder by every friend of the college. Mr. Longyear's modesty is so well known that he would undoubtedly object to the use of his name for one of the buildings during his lifetime, but it would be too long to wait if his departure from this life is to be timed by the good wishes of the people of the upper peninsula.

Negaunee, greatly favored by three days of ideal weather, deserves to be congratulated for its excellent success in entertaining the upper peninsula firemen at the eighth annual meeting of their association. The 1902 tournament will rank with the pleasantest, most interesting and orderly meetings of the association. Order appears to have been the keynote of the tourney, and although at times somewhat boisterous, perchance, the visiting firemen behaved themselves in a manner highly creditable to themselves, their home cities and the association. Negaunee seems to have provided excellent police protection. There was an absence of the house entries that were so numerous, to quote a recent example, at the Soo, when the street fair was held there, nor were there any notable exhibitions of other kinds of lawlessness. The Negaunee police department acquitted itself honorably and well. The Mining Journal wishes to congratulate it and the tournament committees on their steadfast refusal to permit organized gambling. It is a big temptation to have the knights of the cloth offer bonuses sufficient to defray a great part of the expenses of such an entertainment for the gambling privileges, but they are wise who resist it. Negaunee had the hearty co-operation of her Marquette county neighbors in making the tournament a success. The attendance from Marquette city, Ishpeming and the towns in the western end of the county was highly satisfactory.

Schoolcraft county Republicans are learning by bitter experience the perils that come to a political organization that allows itself to be rent by factional differences. Schoolcraft has been in a bad way ever since the ill-omened day when two Republican state, senatorial and congressional delegations were set up. Since then has come two factional representative nominations to intensify the disagreeable aspect of the situation and now two Republican county conventions have been called. Factional feeling runs high and it is believed it is almost an impossibility to smooth over the split this year. Regarding the probability of their being three county tickets in the field, the Manistique Pioneer-Tribune says:

"Two Republican county conventions have been called. Mr. W. C. Bronson, chairman of the regular organization has called one for Sept. 20, and O. C. Bowen, who was elected chairman by the rump convention last spring when the congressional issue was the factor, has called one for October 2.

We are informed that the men instrumental in having the last convention called will participate in the caucuses called for the first convention and if unsuccessful will have the second convention to fall back on so that they are bound to have a ticket in the field anyway.

The Democrats are also organizing for the fray and will place a ticket in the field.

From all appearances there will be three tickets in the local field.

The Manistique Courier says:

"Rule or ruin seems to be the desire of a faction of so-called Republicans headed by McNamara. Not being satisfied with making a split in the representative district they now call a Republican convention for the nomination of a full quota of county officers. With a split in the Republican party there would be a mighty good show, it would seem, for a Democratic ticket to win out, and that maybe is the intent. O. C. Bowen's name, as chairman, appears on the call which was posted Tuesday morning.

A COMMUNICATION.

Mr. Editor—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with bronchitis and could not sleep at night. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. Brockman, Bagnell, Mo. This remedy is for sale by The Stafford Drug Company.

USED FOR PNEUMONIA.

Dr. J. C. Bishop, of Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Refuse substitutes. People's Drug Store.

NEWS OF THE IRON INDUSTRY.

Notes of What is Doing in Mines of the Lake Superior District.

For the first time since it closed down over a year ago, ore is again being hoisted from the Great Western mine, says the Crystal Falls Mail. The start was made the other day when a few cages were hoisted and loaded into cars for shipment. The ore is being hoisted only from No. 2 shaft, the hauler still being in operation in No. 1 shaft, which is somewhat deeper than the former. A good number of men have already been put to work underground and the force will be increased right along until enough men have been secured.

The Castle Mining company, of Norway, has filed its articles of incorporation. The capital stock is \$10,000. Edward W. Hopkins, of Commonwealth, general manager for Ogilby, Norton & Co., of Cleveland, is president and secretary of the company. R. C. Flannigan is vice president, and Charles F. Winger, treasurer. The Castle has secured control of the Spencer properties in Sections 6 and 8, and will do some extensive exploration work thereon.

The Inter-State Land company of Rhineland, Wis., and Crystal Falls is a new corporation, with a capital stock of \$25,000.

General Manager Brown of the Pewabic company, tells the Iron Mountain Press that his company already has three exploring crews in the field and intends starting several more, all on company lands. The Pewabic company at present has three crews at work in the Iron River district—two at work with diamond drills and one sinking stopdrifts. While no well defined ore deposits have been encountered, the results obtained are not discouraging. The company will also do considerable work on its lands on the Gogebic range. Within a week a crew will commence operations near Mellen, on the Wisconsin side of the range, and others will be started later.

William James, who has been doing some prospecting for Corrigan, McKinney & Co. for the past two months, has discovered some good ore at the foot of the hill a short distance south of the Lincoln shaft, on the Lincoln property, says the Crystal Falls Mail. Prospecting has been carried on there before and it was in one of the old test pits which Mr. James sunk ten feet deep, that he made his recent find. Samples of the ore were taken to the Corrigan, McKinney & Co. laboratory at the Great Western mine, the analysis showing from 54 to 64 per cent iron.

The find of ore south of the new shaft in the Armenia mine has proved up well. A raise has been put up through the ore from the first level a distance of seventy feet, and drifts which have been run in west, north and easterly directions, show it to be a good sized body of ore.

Much of the equipment of the James exploration has been received in Crystal Falls.

The buildings at the explorations are being torn down and the lumber shipped to Crystal Falls.

The water has been pumped out of the old Volunteer shaft, which Corrigan, McKinney & Co. are preparing to explore.

Since the announcement of the sale of the properties of the Antoine Ore company—the Clifford and Traders mines, Menominee range—some additional interesting facts have come to light, says the Iron Mountain Press.

It seems that the property of the Vulcan Silica Ore company, near Vulcan, is also included in the deal, and that the properties are purchased jointly by the Republic Iron and Steel company, of which A. W. Thompson is president, and the Oliver-Snyder Steel company, of Pittsburgh, Pa., of which Henry W. Oliver, formerly of the Oliver Iron Mining company, is president.

Following is a description of the property of the Antoine Ore company: North half and southeast and northeast of southeast, section 32, town 40, range 30; the southwest of southeast and southeast of southwest, section 17, town 40, range 30; the north half of northeast and northwest, and lots 3, 4 and 5, section 20, town 40 north, range 30 west.

The description of the property of the Republic Iron and Steel company is: Northwest of northeast, northeast of northwest, southeast of northeast and southwest of northwest, section 13, town 39, range 29.

But very little work has been done on the latter property, but the existence of a large body of low grade ore has been established.

The Antoine Ore company's properties commenced operations in 1895 and to date have shipped nearly 600,000 tons. The ore will average better than 41 per cent in iron. The properties were opened by John T. Jones, but are at present being operated under the management of Ogilby, Norton & Co., with Francis Covert as superintendent.

We gather that it is the purpose of the new owners to operate the Antoine mines on a much larger scale than formerly, as the ore is needed by the companies named as a "sweetener" for their Mesaba ores. Just when the formal transfer will be made is not known, but a cash payment has been made and the papers are now in preparation. It is likely, however, that the management will remain as at present until the close of navigation, at least.

A BOY'S WILD RIDE FOR LIFE.

Wife family around expecting him to die, and a son riding for life, 18 miles, to get Dr. King's New Discovery for Consumption, Coughs and Colds. W. H. Brown of Leesville, Ind., endured death's agonies from asthma, but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of Consumption, Pneumonia, Bronchitis, Coughs, Colds and Grip prove its matchless merit for all Throat and Lung troubles. Guaranteed bottles 50c and \$1. Trial bottles free at Stafford's drug store.

Foley's Honey and Tar is peculiarly adapted for chronic throat troubles and will positively cure bronchitis, hoarseness and all bronchial diseases. Refuse substitutes. People's Drug Store.

COPPER MINING.

CONCERNING THE CHAMPION.

The Champion copper mine has had expended upon it to date about \$1,200,000 and before the four heads of its stamping mill are pounding upon its rock the total investment outside of the land will probably be \$1,500,000, or approximately the cost of the mill and development work of the Isle Royale Copper Mining company. Better results are, however, expected from the Champion than have thus far been obtained from the Isle Royale. At present the Champion is stamping through one small borrowed stamp 250 tons a day and the result has varied from sixty pounds of copper produced from a ton of rock as the average for the month, to thirty-two pounds of copper per ton of rock for a monthly average.

If the company can produce continuously thirty-five pounds of copper per ton of rock when stamping 2,000 tons of rock per day, it will be doing all that could be expected of it. If, however, the results should be a little less, the company can probably make nearly ten pounds of copper profit per ton of rock, or say \$1 profit per ton of rock, or \$2,000 per day, or \$600,000 a year. From the history of Lake Superior mining it should be some years before more than \$1,000 net per annum can be expected from this mine. In fact, \$600,000 would be a very handsome and creditable exhibit.

This result would mean earnings equivalent to more than \$2 per share upon the stock of the St. Mary's company, which owns one-half the Champion and the other half the Copper Range company, which also owns an undivided half in the Champion mine. Of course, according to some stock market mathematicians, the Copper Range company, while earning \$1 per share from the Champion mine, is going to earn a good deal more than \$1 a share from hauling the rock from the Champion mine to the Champion mill; and there is, of course, always the great possibility of Amalgamated absorbing the Copper Range to get the profit from selling the Champion copper, although as a matter of fact the Copper Range does not control the sale of Champion copper.—Boston News Bureau.

Montana Copper Situation.

The general mining condition in Butte is now improving. Nearly all the Anaconda mines are being worked, but with the reduced force which was put on a year ago. The Boston & Montana and Butte & Boston mines are all working and producing the normal amount of ore. Great restriction on the output of the Butte district has been caused by the injunction on Heinze's Minnie Healey and by another on the Speculator mine which caused that producer to close down. It is generally understood that the Amalgamated company has an interest in the Speculator. The report that the Great Falls smelter of the Boston & Montana company was to be abandoned is officially denied. The new smelter of the Washoe company at Anaconda is daily improving in its work and economy of operation. The Rarus mine, Mr. Heinze's chief producer, today looks better than it ever did and it can be made to produce almost limitless quantities of ore. There is a larger tonnage of high grade ore in sight than ever before. It is stated on authority that Heinze's company is really earning net profits in excess of \$1,500,000 a year, and that but for injunctions and litigation it could easily produce 40,000,000 pounds of copper annually. The shaft of the Speculator mine has reached a depth of more than 1,500 and was being sunk to the 1,600 when an injunction stopped work.

Copper Gossip.

The New York Times says: Notwithstanding the lack of official confirmation that the Heinze and Amalgamated copper people are getting together, the "Street" insists that in a

short time announcement will be made of a trade understanding at least, if nothing more.

The semi-annual dividend of \$2 per share just declared on Wolverine stock is payable Oct. 1 to stockholders of record Sept. 16.

The machinery at the old Wolverine mill is being dismantled and shipped to the Phoenix mill site on Eagle river. The Phoenix mill is expected to go into commission in about six weeks. Developments at the mine indicate a bright future for Phoenix.

The Montana Ore Purchasing \$2 dividend is declared to be quarterly, although action was deferred between November last year and August of the present, in view of the unsettled condition of the copper market. The two \$2 dividends declared this year put \$320,000 in the treasury of the United Copper company.

Officials of the Old Dominion Mining company say there is nothing in the condition of the company but what is satisfactory. The company is producing steadily at the rate of 800,000 pounds a month and its product is sold as soon as produced at about 3/4 cent under the price of electrolytic. There is a net profit today of from 1/4 to 1 cent a pound. The attention of the management is being directed to an enlargement of the mine's capacity and to reducing freight rates. Cost of improvements will be met by turning the matte on hand into cash.

Statistics of copper published by the New York Metal exchange show that stocks of the metal in the United States on Jan. 1 were 135,000 long tons, but that on July 1 these stocks had been reduced to 99,000 tons. The figures approximate very closely to those issued by the United States geological survey. Since July 1 a large increase in domestic production, somewhat smaller exports, and falling off in domestic consumption have resulted in an increase of stocks which, during July, amounted to about 5,000 tons, and were somewhat larger during the month of August.

FORTUNE FAVORS A TEXAN.

"Having distressing pains in head, back and stomach, and being without appetite, I began to use Dr. King's New Life Pills," writes W. P. Whitehead, of Kennedale, Tex., "and soon felt like a new man." Infallible in stomach and liver troubles. Only 25c at Stafford's drug store.

COUNTY CONVENTION CALLED. Labor Day Celebrations.

Republicans Will Meet at Hancock Sept. 18 to Name Their Ticket.

The Republican county convention will be held in the new Kerredge theatre at Hancock Sept. 18 at 2 o'clock in the afternoon. Nominees for county offices and three for representatives to the state legislature will be selected.

This far there is determined opposition for only two county offices, those of prosecuting attorney and register of deeds.

Present Prosecuting Attorney O. J. Larson will have two opponents for the nomination. They are W. J. McDonald of Calumet and Joseph Hambliter of Houghton.

John F. Hansen of Calumet will seek the nomination for register of deeds against the present incumbent, William Walls.

Several prominent Calumet lawyers are mentioned for the legislature from District No. 1. Among them are Messrs. Gaillbraith, Carey and Oates. Robert Shields will undoubtedly be the nominee from District No. 3 if he makes up his mind to accept.

Calumet Man Has Neighbor Arrested for Assault and Battery.

John Barrett of Calumet, who sometimes poses as an aeronaut (having made, it is said, several unsuccessful attempts at an ascension), has been arrested, charged with assault and battery.

John Johnson is the complainant. Barrett lives in the basement of the Blum building, on Pine street, and Johnson is a neighbor. The latter claims his wife and boy visited the Barrett family and that they were so well treated with strong drinks that they came home in an intoxicated condition.

John Johnson, who thought he would go over and see about it, claims he met with a rough reception; that he was "broomed" by three women in the Barrett house and that then Barrett capped the climax by catching hold of Johnson's long whiskers and throwing him out. Barrett pleads not guilty and his trial is set for next Saturday in Justice Jackola's court.

MINISTERIAL ASSOCIATION BIDS DRS. HUNTER AND STIRLING FAREWELL.

A meeting of the Houghton County Ministerial association was held at the Calumet hotel Saturday to give the members an opportunity to bid farewell to Rev. Dr. H. D. Hunter, pastor of the Calumet Congregational church, and Rev. J. E. Stirling, of the Laurium Baptist church, who have resigned and will leave Calumet for other charges.

Lunch was served at 2 o'clock, after which the ministers adjourned to the parlors, where a pleasant social time was spent.

Rev. Edwin More, of the Hancock Congregational church, president of the association, stated the purpose of the meeting was to voice the regret of those present at the contemplated departure of the brethren. He was followed by Rev. Addis Leeson, pastor of the Laurium M. E. church, who presented resolutions expressing the cordial feelings of the clergy toward Rev. Messrs. Hunter and Stirling.

The resolutions were prefaced by Mr. Leeson with appropriate remarks. Rev. D. Stalker, pastor of the Calumet Presbyterian church, also spoke. The resolutions were adopted by a standing vote.

As yet no successors to the two ministers have been selected. Several clergymen are in mind and the matter of selection will be given careful consideration.

DEATHS AND BIRTHS RECORD.

From reports from township and village clerks made for each month of last year, it is ascertained that the number of deaths in this county during 1901 was 886. The last of these reports have just been filed in the county clerk's office.

In the various townships there were 595 deaths reported and 291 in the villages, a total of 886. This is in comparison with 2,690 births for 1901. In the previous year, 1900, there were 960 deaths and 2,550 births.

As seen from a comparison of the two years there were more deaths and less births in 1901 and less deaths and more births in 1900.

The deaths by townships were in 1901 as follows: Calumet, 162; Torch Lake, 26; Laird, 7; Quincy, 21; Franklin, 64; Adams, 58; Osceola, 120; Schooncraft, 20; Elm River, 6; Duncan, 20; Chas. Sell, 7; Portage, 27; Hancock, 57. The reports from the village clerks are as follows: Red Jacket, 41; Laurium, 96; Lake Linden, 41; Hancock, 74; Houghton, 39.

ICE BUSINESS SLOW THIS YEAR.

So far this summer, business for the copper country ice man has not been as brisk as expected it would be. The weather has been too cool to suit him.

Copperdom is now having a few warm days, the first for a month or more, and it is not uncomfortable at that. There is no immediate danger of there being a scarcity of ice, although early in the spring it was thought there would be.

Not as much ice was harvested last winter because of the mild season and a scarcity was feared at that time. The ice man cannot complain, however, for he is doing a good business with his regular trade, which has to be supplied year in and year out.

RAIN KNOCKS FOREST FIRES.

The forest fires which have been raging here above Trap Rock valley, not far from Lake Linden, have done considerable damage to timber. The heavy rain of Saturday morning subdued the flames considerably and eased the minds of the farmers in the vicinity, who feared for their hay crops.

The smoke and heat from the fire were almost unbearable. The rain was a great blessing.

Tired Mothers. It's hard work to take care of children and to cook, sweep, wash and mend besides. Tired mothers should take Hood's Sarsaparilla—it refreshes the blood, improves the appetite, assures restful sleep, and helps in many ways.

DOLLAR BAY, 12; GARDEN BAY, 3.

Delta County Ball Team Loses in Initial Game of Tournament.

The Garden Bay baseball team was easy for Dollar Bay's fast aggregation at Athletic Park, Calumet, Saturday afternoon. It was the first game of the tournament arranged between the Calumet, Lake Linden, Dollar Bay and Garden Bay teams, the score being 12 to 3.

The visitors were not in the game at first stage and all in all it was a poor exhibition on their part. Garden Bay's pitcher threw most of the time and was given poor support. The visitors were also unable to hit McCrickett, who pitched for Dollar Bay. The game was largely uninteresting.

By winning Saturday's match Dollar Bay stands an excellent chance of winning out in the series. Three prizes are offered—\$150, \$100 and \$75. It is also understood that the teams will be given a share of the profits—if there are any.

At first the Calumet promoters who arranged the tournament thought the teams should be satisfied with the prize money, and that if there were any profits they should go to the tournament backers. The Calumet team objected, however, to that proposition. The boys refused to take chances on playing for nothing and stated that if there was any money to be made they wanted a share of it.

After much wrangling a compromise was effected by which the ball players get half of the profits, and the tournament promoters get the other half.

This morning the Lake Linden and Calumet teams will play, and in the afternoon the Dollar Bay club will meet the winner. The Garden Bay team will play the loser of the morning contest in the afternoon also. The games are creating much interest among the "fans."

OYSTER SEASON IS AT HAND. Plenty of the Bivalves Will Soon Be on the Local Market.

While Sept. 1 is always looked upon by the general public as the date of the official opening of the oyster season, it is unlikely that there will be any material shipments to the copper country until a week or two from today.

There have been in the market in the cities plenty of oysters for those who want them, but owing to the general impression that the luscious bivalve cannot be obtained until Sept. 1, there has been no great demand. About the middle of September it is said that there will be plenty in the market, although they may not be as good as those which will be received later on.

One of the business men who deal in oysters said yesterday that the reason the season will be prolonged is not on account of any lack of supply, but is on account of the close combination of the large companies in the East which control the oyster beds and own most of the boats which are engaged in the trade.

It was stated that the best of the oysters taken in September are shipped to European points and those which are left are of such a quality that they would not be salable in a large city.

Combine Controls the Market.

The further statement was made that the combination of the wholesale oyster dealers in the East is so perfect that their methods of distribution they have almost succeeded in doing away with the jobs of the retail dealers.

Attention known as preservative the oysters which are shipped from the big centers are sent in such a condition that they will keep a long time before they spoil, and so it is feasible to ship them in buckets direct to the outlying stores and markets which handle them and in this way there is but little for the jobbers in the cities to do nowadays except to take care of the retail trade.

"The situation is such in the oyster trade," said the dealer yesterday, "that we never know exactly when the season will formally open. Of course we can hold oysters which are caught here all summer. They are the Long Island oysters and are of a different grade from the Baltimore oysters. The average Baltimore oysters that are sent out the early part of the month are not of good quality, as all the best are sent abroad.

The manner in which they are shipped to us also is such that there is but little money in the business. Formerly the oysters were shipped just as they are taken out of the ocean, in a salt condition, but now the dealers see to it that they are kept in fresh water for a certain length of time, so that the boats which are engaged in the trade buy twenty-five gallons each at the other end of the line, and by the time they get here they have gone down so that there is barely twenty-two gallons. We have to stand this loss, and it takes out what little profit there is in the business.

"Prices of oysters this year will be about as they have been in the past."

COPPERDOM BREVITIES.

The Calumet & Hecla band will furnish music today for the big Labor day celebration at Baraga.

Companies E of Calumet and G of Houghton will not resume regular drill work until a week from this evening.

Members of Red Jacket Lodge, A. O. U. W., attended divine services in a body at the Calumet M. E. church yesterday morning.

Rev. Frank Haller, of Columbus, O., is a candidate for the pastorate of the Calumet Congregational church. He preached both morning and evening yesterday.

The amount of Lake Superior water consumed in the village of Red Jacket during the month of July was 1,906,876 gallons. Of pond water, 7,556,072 gallons were used. The cost was \$854.72.

Martin Ellinger, a Salt Lake mining man, who has been in copperdom for several weeks, left for the West Saturday. He succeeded in interesting copper country men in the property of the Wolverine Mining company in Utah.

Miss Sieghman, daughter of William H. Sieghman, of the Cliff mine location, was married to Richard J. Lobb of Calumet, Saturday afternoon. The ceremony was performed by Rev. Addis Leeson, pastor of the Laurium M. E. church.

Hereafter camping parties will not be allowed to pitch their tents on government land at the canal. The building of fires makes it confusing for vesselmen on the lake and besides the fires are dangerous. An order has been issued preventing trespass and campers will

WHOLE TOWN TURNED OUT.

Lake Linden Firemen Warmly Welcomed Home Saturday Night.

A great reception was tendered Saturday evening to the Lake Linden firemen's running team, which at the tournament at Neegaunee last week tied with Bessemer for first place. The celebration, which occurred directly after the arrival of the firemen at Lake Linden, was never before equalled in copperdom.

It showed that Lake Linden people appreciate the good work of their firemen, not only at the annual tournaments but at home as well.

Preparations for the reception were under way all Saturday. Electric lamps of various colors were strung along the main thoroughfare; business blocks were decorated, and old as well as young persons made ready to welcome the home-comers. A special train over the Mineral Range road was secured and a delegation of citizens, with the Lake Linden and St. Joseph's Military bands, left at 6 o'clock for Hancock for a preliminary reception there. When the train carrying the firemen pulled into the station there the bands hit up lively airs and a warm welcome was given. The entire party then took the regular train for home and upon their arrival the firemen found Lake Linden had turned out en masse.

A procession was formed. The firemen, riding in carriages, headed the line, and followed by the populace the parade wound its way from the depot to the city hall. Small boys with horns and whistles raised a great din and plenty of music was furnished by the bands. At the city hall the firemen sat down to a sumptuous banquet. President Heidekamp, of the village, delivered an address of welcome and Rev. J. B. Whitford complimented the running team on its excellent record. It was a late hour when the festivities came to an end.

FARMER BURNS AFTER MATCH.

"Farmer" Burns, the well-known wrestler, writes from Big Rock, Ia., that he is going to make a tour through the upper peninsula and would like to meet any of its wrestlers for from \$100 to \$200 a side and a reasonable percentage of the gate receipts.

At each encounter he will agree to throw "Jack" Rowett, of Ironwood, three times in one hour of actual wrestling, or if the match is to be of mixed style (catch-as-catch-can and Cornish) the man winning the fastest fall is to have the choice of the next style. If any wrestler desires to except Burns' challenge, by posting a forfeit of \$50 and notifying Burns the latter will come at one. Burns says he will wrestle any man in the world at 165 pounds, weigh in at the ring side, for from \$250 to \$500.

SOUNDINGS IN TORCH BAY.

Samuel Kent, of the government engineers' office at Houghton, and his assistants, who have been employed for a greater part of the summer taking soundings in Torch lake, have moved their headquarters from Lake Linden to Grasse Point, at the head of Torch bay. The work in Torch lake has been completed and soundings are now being taken in the cut between Torch lake and Torch bay. When the work is complete in its entirety maps will be made, showing the depth of the water at short intervals apart and giving the location of the docks, coal sheds, etc., on the lake shores.

CALUMET SCHOOL CENSUS.

Thomas Meade of Calumet, who has been at work the last few weeks taking the school census of Calumet township, completed his task Saturday. The census shows a total of 7,717 children of school age. Last year the number was 8,011, showing a decrease of 294 this year. The census by districts is as follows: Albion, 314; Blue Jacket, 333; Yellow Jacket, 439; Newtown, 183; East Raymond, 95; Raymondtown, 704; Swedetown, 270; Red Jacket, 155; Calumet and Hecla location, 1,379; Laurium, 2,003; Bollmann addition, 425; Florida, 404; and Red Jacket, 943.

OLD HANCOCK RESIDENT DIES.

Mrs. Annie M. Bates of Hancock passed away Saturday morning after a brief illness with bronchial pneumonia. She was taken sick last Wednesday and her sudden death was a shock to her family and friends. Mrs. Bates was sixty-two years of age. She came from Cornwall, England, when a young girl. She had been a resident of Hancock since 1862 and was married to Sidney M. Bates, who survives her, seventeen years ago. The funeral will be held from the Hancock M. E. church at 2 o'clock this afternoon. Rev. A. Raymond Johns will officiate.

NOT DOOMED FOR LIFE.

"I was treated for three years by good doctors," writes W. A. Greer, of McConnellsville, O., "for Piles and Fistula, but when all failed, Becken's Arma Salve cured me in two weeks." Cures Burns, Cuts, Corns, Sores, Eruptions, Salt Rheum, Piles or no pay. 25c at Stafford's drug store.

Avoid serious results of kidney or bladder disorder by taking Foley's Kidney Cure. People's Drug Store.

"Now good digestion waits on appetite, and health on both."

If it doesn't, try Burdock Blood Bitters.

A FILIPINO NATION

GOVERNOR TAFT SAYS IT MAY BE ESTABLISHED.

NATIVES TO BE EDUCATED

THEN TO HAVE CHANCE TO SETTLE DESTINY.

Moro Sultan Held as Hostage Killed While Attempting to Escape—Cholera Again Increasing—Nearly 20,000 Deaths to Date.

Manila, Aug. 31.—Governor Taft was banqueted by the American Chamber of Commerce of Manila Saturday night. In replying to a toast, he said the United States would retain the Philippines indefinitely with a view to self-government and other conditions which would enable them to decide whether they desired to become independent or be made into a state like Canada or Australia under Great Britain. Judge Taft said that he believed the relationship between the two peoples would be continued and that the Americans were here for the benefit of the Filipinos. He said the United States civil commission would again recommend that congress give the Philippine islands a gold standard currency.

The cholera is increasing. On Saturday 340 cases were reported in the provinces. The totals reported up to date are 27,929 cases and 19,640 deaths. The sultan of Hindiyang, who was held as a hostage by the Americans at Camp Vickers, island of Mindanao, attempted to escape last Thursday and was shot and killed by a sentry.

IMMIGRATION LAWS DODGED. Ruling of Gotham Judge Opens Doors to Undesirable Females.

New York, Aug. 31.—After having been pronounced by the commissioner of immigration an undesirable immigrant, Marie Burgio was permitted to land here, through a decision of Judge Lacombe. Salvatore Burgio came to this country several years ago and became a citizen. Recently he sent to Italy for his old sweetheart, Marie Lido. At Ellis island the doctor discovered that she was suffering from a disease of the eye and would not let her enter. Burgio's lawyers drew up a civil marriage contract. Burgio signed this in the city and it was taken to Ellis island and signed by Marie. Under the law this constituted a marriage. A demand then was made that as an American citizen she be released. Judge Lacombe found the point well taken and ordered her discharge. The authorities fear the decision will open the doors to many undesirable female immigrants.

A LYNCING IN ILLINOIS. Negro Is Shot to Death After Slipping a Noose and Escaping.

Sparta, Ill., Aug. 31.—Archie Wilson, a negro arrested here for criminally assaulting a young white woman, was lynched late last night. About 8 o'clock the mob took him from the jail, slipped a noose over his head and swung him up to a telegraph pole, but he slipped through the noose and fell to the street. Instantly he was on his feet and running away. He apparently escaped in the darkness but the posse pursued him and surrounded him several hours later within two blocks of the jail and shot him to death.

Georgia Posse Slays a Negro. Monticello, Ga., Aug. 31.—John Brown, a negro, who attempted to assault a little white girl near Monticello yesterday, was lynched today by a small posse.

KELLAR BABE A VAGRANT. Is Found Guilty and Turned Over to Mother on Suspended Sentence.

Keokuk, Ia., Aug. 31.—"Baby" Kellar, the eleven-month-old baby, was found guilty of vagrancy yesterday. Sentence was suspended during good behavior and the baby defendant was discharged. The case was tried with nobility in the court room except the mother and her friends, who swore out a warrant against the infant several days ago as a means of obtaining possession of the child. It had been declared to be in the legal custody of Elmer Park, secretary of the Associated Charities, on his appeal after the acquittal of the mother on a charge coming within the new law to deprive unworthy parents of their children. The mother still has the child guarded at her sister's home.

PEPPER USED BY THIEVES. Cleveland Jeweler's Sight Destroyed and Tray of Diamonds Stolen.

Cleveland, O., Aug. 31.—Unknown men entered Wildorf's jewelry store last night, threw red pepper in Wildorf's eyes and escaped with a tray of diamonds. It is believed that Wildorf's sight is totally destroyed.

KAISER DISMISSES A DUELIST. Berlin, Aug. 31.—The Berliner Tagblatt today publishes a dispatch from Gumbinnen, East Prussia, to the effect that Lieutenant Hilderbrand, the pardoned duelist, has been dismissed from the army on account of the ovation given him some time ago at Gumbinnen upon the occasion of his pardon.

ROOSEVELT IN VERMONT. Is Guest of Secretary Shaw and Dr. W. Seward Webb at Burlington.

Burlington, Vt., Aug. 31.—After having spent the night at the country residence of Secretary Shaw, on Lake Champlain, President Roosevelt today was conveyed in the steam yacht Alfreda to the Shelburne farms, the home of Dr. W. Seward Webb, where he will remain over night. His arrival at Thompson's point last night was made the occasion for a great demonstration, fully four thousand people having gathered to extend him a fitting welcome. The president in a brief address thanked the people for the greetings. Tomorrow morning the president will return to Burlington and at 10 o'clock will continue his journey.

WESTERN HORSE THE VICTOR. Savable Wins the Rich Futurity in a Sensational Finish.

New York, Aug. 31.—Savable, sired by Salvator, the most sensational race horse the American turf has ever seen, won the rich Futurity at Sheepshead Bay yesterday. John A. Drake, the western millionaire, owns him. His trainer, Enoch Ishard, is from the west, and Lyne, a western jockey, rode him to victory. August Belmont's Hastings colt, Lord of the Vale, was second, only an eyelash behind Savable. The other two runners, representatives, finished third. The time, 1:14, was better than the Futurity record over a full course, but a second and four-fifths lower than the best full six furlong two-year-old record. Fifty thousand people saw the race. There were twenty-three starters. As the horses came into the stretch in the dash down to the wire, Dazzling was in the van, but Lord of the Vale quickly sprang out to the front. He faltered but immediately recovered. The Whitney and Keene candidates were pushing him hard. In the excitement Savable was not thought of, but answering Lyne's whip and spur, the western horse came out of the bunch and inch by inch in the last sixteenth carried the rider to victory. The whip was used mercilessly on Lord of the Vale, but Savable poked his nose in front and the victory was won.

634 MILES IN 24 HOURS. New Record for Motor Cycle Made by Hanser of Minneapolis.

Chicago, Aug. 31.—A. A. Hansen, of Minneapolis, yesterday afternoon finished making a new world's record for mechanically propelled bicycles. The ride was made on the Garfield park track. The cyclist's report showed the cyclist rode 634 miles in twenty-four hours. He stopped only at the end of each hundred miles to replenish his gasoline tank and to eat. He came through without accident, although during the night he had an adventurous ride. At 11 o'clock in the evening the electric lights, which encircled the track, were turned on and from that time until daylight Hansen was forced to ride in the dark. Traveling at thirty miles an hour under such circumstances made it a risk Hansen did not care to take and he was forced to slacken his pace, thus losing, it is figured, something like a total of 100 miles. This record of Hansen's is the first of its kind in the world. Already he holds the thousand-mile motorcycle road record.

MEAT FAMINE IN GERMANY. Exclusion of Products from Abroad Steadily Lifting Prices.

Berlin, Aug. 31.—The price of meat in Germany continues to rise and town council and other bodies and the newspapers in every part of the empire are discussing what is called the "meat famine." The butchers' guilds have advanced the price of meats from 2 1/2 to 5 cents per pound. The markets are generally reported statistically as 26 per cent higher here now than in 1901, although in Rotterdam, Paris, Vienna and Buda Pest they are only 10 to 16 per cent higher. Germany's more rapid advance is attributed to the scarcity of home animals, the exclusion of foreign livestock and the prohibition of canned meats, thus suspending the large American imports of corned meats. The exclusion laws is being demanded of the government.

BASEBALL. American League. R. H. E. Chicago . . . 11 0 0 0 1 5 3 - 11 14 0 Baltimore . . . 0 0 0 0 0 0 1 1 - 2 11 5 Batteries: Callahan and McFarland; Katol and Robinson.

SEE FOE IN THE U.S.

BRITISH-AMERICAN WAR PREDICTED BY LONDON PAPER.

TWO NATIONS HATED RIVALS

ROOSEVELT'S SPEECH THE TEXT OF A BOMBASTIC ARTICLE.

English Press Generally, However, Is More Rational and With Continental Editors States No One Questions the Monroe Doctrine.

London, Aug. 31.—President Roosevelt's speeches on the Monroe doctrine have recalled Canning's forecast that resources would be created in the new world for readjusting the relations of European countries. The president's words may be misinterpreted in Vienna and Paris, but not in Berlin and London. England accepts the Monroe doctrine without reservation and Germany is equally emphatic in disclaiming any intention of offering resistance to it. There is an evidence of suspicion in the German press that the president may be hitting out at John Bull and it is openly asserted by the English journals that the German ox is gored by the Monroe doctrine. Each country accommodates itself to the traditional policy of the great commonwealth which has ample resources and power and wealth for enforcing the principle that every self-governing state in the Western hemisphere must be allowed to work out its own destiny. The new world has become so rich and powerful that its commercial exchanges are more important than friendships of monarchs and diplomatic coalitions of governments. The Monroe doctrine is not challenged, for no European country can venture to excite American resentment.

One Paper Bombastic. However, despite the general sentiment in England and on the continent, "a hated rivalry which may some day be settled by the arbitrament of the sword" seems to fairly sum up the Saturday Review's opinion of the United States. Discussing President Roosevelt's pronouncement on Monroeism, the always bitterly anti-American Saturday Review uses the president's speech as a text on which to enunciate a long sermon on "American greed and hypocrisy" and the danger threatening the British empire from the United States' future expansion. It says, in reviewing the history of the Monroe doctrine:

"It is unfortunate, if not exceptional that the United States cannot be satisfied with the plain, straightforward policy of self-interest, without attempting to explain it as a disinterested and highly moral position. It was on this basis that the war with Spain was undertaken, resulting in the Philippines being annexed and Cuba being put under the heel. "South America's natural resources are enormous, but the individual states can not act together. It is plain that they will not long remain in the position of the United States to ultimately include Canada. "The United States is commercially growing fast on its expense, and judging from its present progress, the power of the United States in wealth and numbers will soon exceed that of any rival we have, possibly excepting Russia, whose position in relation to the United States is not merely so critical. Under these circumstances it is surely clear that the power we need be most concerned about is America. "Acute territorial and commercial rivalry always results in an ultimate trial by force. It is the only final settlement. If that is so the policy of the United States must be to avoid doing anything which can increase the other's power or give it points in the struggle. On that principle the United States has steadily acted in opposing us diplomatically, never conceding a point. We, on the other hand, have usually gone out of our way to help the United States. In the matter of the isthmian canal, we lost ground and America gained."

Question Which Gets the Better. "The only balancing advantage would be such consequent and active friendship on the part of America that we might count on her as meeting us half-way by abstaining from injuring us. Of such friendship the Saturday Review has shown again and again that there is neither evidence nor likelihood. There is no question of liking or disliking the Americans. It is simply a question of which side ultimately get the better of the other side. The controlling factor make it impossible to put the position of the two countries in any other way."

The other papers are more rational and see no harm in the United States enforcing the Monroe doctrine, not in England adding to it that work if necessary. A curiously divergent view from that of the Saturday Review is expressed by The Spectator on the same topic. It says:

"We are glad in the interest of the United States and Great Britain and the peace of the rest of the world that President Roosevelt announce in such clear and unmistakable terms that the Monroe doctrine will be enforced by the United States at all costs. We hold that the maintenance of the Monroe doctrine is as good for us as for the United States."

Doctrine Accepted in Germany. President Roosevelt's fresh declaration of the Monroe doctrine has been received here with an air of wonder. The tone

generally assumed is one of surprise that the doctrine should be reaffirmed so energetically, at a moment when no European power disputes it, least of all Germany. Moreover, it asserted that Germany gave her assent to the doctrine soon after President Roosevelt's assumption of the presidency, and that the state department has abundant knowledge that Germany does not even contemplate securing coaling stations in the Western hemisphere.

Some suspicious critics suggested that something must be going on behind the diplomatic scene to occasion the president's enunciation. The foreign office, however, is satisfied and regards the disposition in some quarters to consider against Germany wholly inadmissible, because Germany, as the American government knows, never designed territorial acquisition on the American continent.

Several of the newspapers here crowd their references to the king of Italy from the chief editorial position in order to comment on President Roosevelt's speech.

No Hostility to America. The Lokal Anzeiger says: "His assertions are impregnated with an imperialistic spirit and one is disposed to connect his utterances with what is occurring in Venezuela, since Germany is the only European power, for the protection of its own interests, that might be tempted to occupy temporarily Venezuelan territory. But the unequivocal declaration has been made that the Berlin cabinet has never considered the question of annexation. The self control which our squadron maintained in the coast towns in which Germans reside is proof positive that Germany does not intend to act in a way to touch the sensibilities of the United States."

The Vossische Zeitung says: "The president's words sound like a defense from attack. But who is attacking the United States' favorite dogma? Germany and Russia, shortly after Mr. Roosevelt became president, expressly recognized the Monroe principle."

The Tagblatt discredits the British comment which scents in the president's speech a covert warning to Germany, and other organs are inclined to see no foreign but a domestic motive in Mr. Roosevelt's utterance, namely, preparation of the public mind for a further enlargement of the navy.

French Eyes Opened. Paris, Aug. 31.—President Roosevelt's definition of the Monroe doctrine has done immense good in dispelling extraordinary and absurd notions of that doctrine, which hitherto prevailed in France, many usually well-informed papers supposing the doctrine to be some sort of an aggressive instrument for the commercial and industrial conquest of the old world. The president's statement that the United States is not a colonizing power after all means merely that nations existing on the American continent must be left to work out their own destinies among themselves, is accepted as revelation to public opinion here.

The Journal Des Debats nevertheless regrets that the presidential utterances do not emphasize more the fact that the United States is a colonizing power of no European power were not more explicit. It considers that for the United States, as the champion of American nations, to actually prohibit European colonization, is highly dangerous, and declares that it is the idea of European states to discuss the question to which President Roosevelt had specially in mind.

Debats says that all European states should accept President Roosevelt's speeches as addressed to them collectively, for the world policy of the United States is fraught with such far-reaching consequences that there is no power in Europe but must be directly affected.

BANK STATEMENT FAVORABLE. Active and Higher Market in Stocks Looked for This Week.

New York, Aug. 31.—Saturday's bank statement was an extremely favorable one by comparison. The decrease of \$8,647,000 in loans was the principal feature of the statement, and while it was recognized that this was largely due to the shifting of loans, it leaves the banks in a better position to take care of the drain in funds for the moving of crops in the West. The decrease in cash holdings was materially less than had been anticipated. There was shown a loss of only \$3,068,400 for the week, while the preliminary estimates indicated a loss of nearly or quite \$6,000,000. The decrease of a little over \$12,000,000 in net deposits was perhaps heavier than they had anticipated. The reserves decreased only \$2,700,000.

The stock market was closed Saturday and the financial district was practically deserted, though the banks were all open as usual. London traded in American stocks during the day and prices ebbed over were from half to one point above Friday's closing. There was in the active issues, "Trading" man was in rather limited volume, it was almost wholly credited to orders cabled from this side. Many conservative brokers, these not including the pool operators who have been working for the advance, believe that this week will see higher prices unless there is some unfavorable development over the triple holiday.

GRAIN MARKETS FIRMER. Chicago, Aug. 31.—Fears of frosts and other weather handicaps and big export business in wheat and flour worked against the dullness of an anteholiday market in grains Saturday. Corn traded over was on tenterhooks, possible damage to green corn fields and as a result what changes were made in the somewhat dull markets were mainly on the bull side. September wheat closed 1/2¢ higher, September corn 1/4¢ up and September oats 1/4¢ lower. Provisions closed 5¢ lower, live hogs 1/2¢ higher, a small trade there was a firm undertone in wheat. September opened unchanged to 1/4¢ up at 70 1/2¢ to 70 3/4¢, sold to 71 1/2¢ and closed firm, 1/4¢ higher, at 70 1/2¢ to 70 3/4¢. December sold between 67 1/2¢ and 67 3/4¢ and closed steady 1/4¢ up, at 67 1/2¢. Local receipts were 227 cars, three of contract grade. Minneapolis and Duluth reported 367 cars, making a total for the three points of 594 cars, against 486 last week. Primary receipts were 951,000 bushels. Corn was abnormally dull, but prices held firm. Cash business was at a standstill, with no sales reported. September

sold from 57¢ to 57 1/2¢, dipped to 56 1/2¢ and, rallying to 57 1/2¢, closed steady 1/4¢ up at 57 1/2¢. December closed 1/4¢ up, at 42 1/2¢. Receipts were fifty-seven cars. Oats ruled very steady and dull. September sold to 34 1/2¢ and closed a trifle easy, 1/4¢ down at 34¢. December sold at 31¢ and closed firm 1/4¢ higher at 30 1/2¢. Receipts were 362 cars.

WILL FAR ECLIPSE CHICAGO. St. Louis World's Fair to Be the Greatest Known in History.

World's Fair, St. Louis, Aug. 31.—The surprise of an Illinois man upon seeing for the first time the great buildings and grounds of the World's Fair is typical of the experience of all strangers who come out to see the vast enterprise nearly two years in advance of the opening. A prominent resident of Lincoln, Ill., who today visited the site of the World's Fair, was impressed by the two things—the extent of the grounds and the size of the buildings. Expecting to find an exposition covering a limited amount of space and modest in scope, he was more than surprised to discover that St. Louis was not going to do things by halves, but was planning more than a rival for the greatest exposition previously known in history, the famous world's fair in Chicago. The grounds are twice as large, the size of the buildings far greater and the number of large exhibit buildings fifteen in place of Chicago's nine or ten.

At present one can see but the skeletons of the great exposition halls and palaces. There is no beauty there; the painters and decorators are not due for some time yet, but the vastness of the great lines of steel, wood and masonry are awe-inspiring. It can be safely said that St. Louis is going to have a world's fair that is a world's fair.

When the present grounds which are now masses of loose dirt, or rough land overgrown with weeds, are touched by the magic wand of the landscape gardener, a marvelous change will be wrought. The grounds afford a golden opportunity for transformation into a scene of beauty. Size, natural advantages and situation are there, and it needs but the space of time and the handiwork of man to make the grounds as beautiful as any seen at international exhibitions.

A RIVAL TO CARNEGIE. Cash Awards to the People Instead of Libraries.

Andrew Carnegie, Scotchman, American and philanthropist, has given away millions to build libraries that the people may be benefited. Up to a few months ago he stood without a peer. His philanthropy was of the peculiar kind that only a man with a fortune similar to his own could indulge. But from the serried ranks of business comes a challenge to Carnegie liberality. It is a mild bid in its way, but possesses an advantage and situation are there, and it needs but the space of time and the handiwork of man to make the grounds as beautiful as any seen at international exhibitions.

The American Cigar company has shown this, and it is adding to the mass of evidence every day. The public has no argument against this assertion. It knows the various brands of cigars the American Cigar company proudly refers to as a record of achievement in a popular field as the best and largest selling brands of cigars in the world. These various brands the American Cigar company made to satisfy the taste of every smoker seeking a high-grade smoke at five cents are the Cremo, Childs, Cubanola, Florodora, etc. There is more than five cents worth of value in every one of them.

There are a very large number of these cigars sold. There can be more sold. The American Cigar company is willing to give \$142,500 to stimulate this sale. It wants the public to think how many cigars bearing a tax of \$3 a thousand the United States will collect taxes on during the coming month of December. And it will pay 142,500 to these thinkers next January.

This is the acme of business progressiveness. To step across this line is beyond the power of any organization of business people, save that of the American Cigar company. As yet there has been no one to even share a position with this company.

There can be no doubt of the popularity of such an enterprise, for people all over the country are showing an interest in this sort of betoken good for those toward whom it is aimed. In this case the American Cigar company is the bull's eye of the target. The people, of whom there will be 35,213, will benefit handsomely by the plan, and the American Cigar company will be glad to see them prosper.

This opportunity will furnish many a man the means for establishing a library of his own, a home of his own, or the foundation of a business of his own. Andrew Carnegie, philanthropist, may find food for thought in these simple truths—From the New York World, Thursday, Aug. 21, 1902.

ANCIENT RAILROAD RELIC. Chicago, Aug. 31.—In the Illinois curio exhibit at the World's Fair, St. Louis in 1904, will be shown a railroad tie taken from the roadbed of the first railroad built in the state, in 1806, after thirty years of use. It is of red cedar and in a perfect state of preservation. The line from which it was taken is now part of the Wabash system.

If you want to be well all the year, take Rocky Mountain Tea now. Greatly reducing medicine known. 35c. The Stafford Drug Co.

Upper Peninsula.

The exceptional catch of a seven-pound small-mouth bass was made at Lake Gogebic last week, the lucky fisherman being Col. James Kilbourne of Columbus, O., recently Democratic nominee for governor of that state.

Lumber interests will be interested to hear of the consolidation of the Ross Bros. & Co.'s business with that of the Peninsular Cedar company. The two companies have had headquarters at Manistique and Spalding and by the new arrangement will become known as the Cedar River Land company. The capital stock paid up is \$500,000. The new company has heavy lumber interests all through the northern peninsula. The officers are President, W. H. Bradley; vice president, W. G. Collins, and general superintendent, G. F. Ross.

Emil Baures and Mike Dugener, both boys ten years of age, were arrested last week at Escanaba, charged with being truant and disorderly children. They were brought before Justice Glaser, who sentenced them to serve terms in the industrial school until they are eighteen years of age. The complaint was sworn out against the boys by George McCarthy, an employee of the Northwestern road. It is alleged that the two boys while playing in the vicinity of the Northwestern depot, dumped some cars of ore on the tracks, thereby causing considerable damage and blocking traffic for several hours.

Iron Mountain, in common with most upper peninsula cities, is experiencing a famine in coal. There is not a bushel of hard coal in the yards of any of the local dealers and the prospects are that there will be very little if any delivered this season. A canvass of the dealers shows that their supply was exhausted months ago. The Iron Mountain Fuel company sold its last ton in the month of March, Edward Harvey & Son disposed of their last in May and Richard Hosking had a small stock until a month ago. The highest price reached was \$8 at which all of the dealers parted with their last. Wood and soft coal will be burned this winter in Iron Mountain. The former sells at \$5 a cord and the latter from \$5 to \$6 a ton.

The harvest in Chippewa county bids fair this season to be the best in years. The crop of four years ago was larger but the wet weather prevented a good harvest and much of the grain was more or less damaged. This year's crops are abundant and in driving through the farming country now one sees in reality fields of golden grain. Wheat is the only crop that is light. This trouble is traced to the cold and late spring from which the wheat never fully recovered. The straw is light and the heads are fair but are not developing rapidly enough to insure big returns. One thing the farmers are rejoicing over more than anything else is the fact that the beetles are free from the rot that has destroyed them for the last three years. The tuber this year is an excellent sample.

Eddie Vigeant, son of a well known piano dealer of the Soo, was suddenly killed on the top of the Ashmun street bridge over the water power canal Friday evening. Death was caused by his coming in contact with live electric wire strung across the top of the arch. The unfortunate boy was playing on the bridge with boys of about his age, and a game of "follow my leader" was started. Young Vigeant was a very active boy and naturally assumed the leadership in the game. As he progressed he became bolder and he climbed to the top of the bridge. He started to walk across the top of the span on the east side of the bridge and in attempting to preserve his balance grasped the electric light wire which serves the arc lamp on the bridge. He received a voltage of about 2,000 and was probably instantly killed. When the rescuers reached the body it hung limply over the steel arch with his hand still grasping the deadly wire. The hands were terribly burned and the odor of burning flesh was very noticeable.

So political circles are all stirred up over a slight friction existing between Sheriff Swart and Deputy Treasurer Purdy. Politics have nothing to do with the case, however, but the trouble has been brewing for some time and the outcome is awaited by the close friends of each with considerable trepidation. Both gentlemen have the greatest confidence in their athletic abilities and especially in their running qualities. They talked with their other such much about the matter, that while apparently containing friendly, it was known that a rupture was bound to take place between them unless they could decidedly settle the question of superiority. The climax was reached when the sheriff challenged Purdy for a foot race to take place on the Country Club grounds for \$25 a side, and as an evidence of good faith he drew for some time long green one-dollar bills in the hands of Deputy County Clerk Parsille. Purdy was much excited when he received the challenge. He at once expressed his willingness to race, but the time and place did not meet with his favor. He wanted to race on Monday (today), the distance being twice around the court house square. He wants a crowd to witness the match while the sheriff desires no more publicity than necessary. The minor details are being arranged and it is believed that terms acceptable to both will be arrived at some time today. Sheriff Swart weighs 230 pounds while Mr. Purdy tips the scales at 130.

Just nine months ago this month John Strandberg of Iron Mountain was taken in charge by an officer, and placed in the county jail. The man was supposed to have been insane. He is still staying at the jail, and from all indications, says the Gazette, is elected to remain there the balance of his life. Although he is not locked up in the iron cages, but roams about the city during the day, he is a prisoner. Why he is kept there, and for what reason he does not know. He says he has never been sentenced by a justice, nor has he been examined by physicians as to his sanity. Sheriff Cudlip, however, says: "Strandberg was taken in custody after he had attempted to cut his own throat. Probate Judge Bergeron examined him and decided that he was not bad enough to go to Newberry, and he was turned over to Poor Commissioner Sweet, who made application to have Strandberg admitted

DR. FENNER'S KIDNEY and Backache CURE. All diseases of Kidneys, Bladder, Urinary Organs, Also Rheumatism, Backache, Headache, Dropsy, Female Troubles. Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner. He has spent a life time curing just such cases as yours. All consultations free. "Your Kidney and Backache Cure has cured two very bad cases among our customers the past year whom the doctors had given up. J. L. STILL & CO., Woodland, Ia." Druggists, 50c. 81. Ask for Cook Book—Free. ST. VITUS' DANCE. Pure Cure. Circular. Dr. Fenner, Fredonia, N.Y.

to the epileptic hospital at Lapere. This is slow work, as it takes time, patients in this county having waited eighteen months before they were admitted. Strandberg gets better food than the other prisoners, getting extra from the kitchen. The only thing that is the matter with him is the fits he has, and he cannot secure work on that account. No one will take him in to board and in consequence the county jail is the only place, we have to keep him."

Hereafter the city prisoners at Manistique will be compelled to earn their board by hard labor. It costs the city about \$1,300 a year for board and lodging of city prisoners at the county jail. Under the new plan much of the money will be saved. When the bum element ascends that an arrest in Manistique means a week or more of hard labor, or a diet of bread and water, they will give the town a wide berth. Manistique has a national reputation among lodgers for being an "easy" town. Soft beds, three square meals, electric lights, bath rooms, steam heat and no work, has given the town the reputation it enjoys. When plain food plenty of work and an absence of luxuries become the fate of the knights of the road will cut Manistique from their calling list.

WATER CURE FOR CHRONIC CONSTIPATION. Take two cups of hot water half an hour before each meal and just before going to bed, also a drink of water, hot or cold, about two hours after each meal. Take lots of outdoor exercise—walk, ride, drive. Make a regular habit of this and in many cases chronic constipation may be cured without the use of any medicine. When a purgative is required take something mild and gentle like Chamberlain's Stomach and Liver Tablets. For sale by The Stafford Drug Company.

FOR SALE. Iron mine for sale on Marquette Iron Range. For further information inquire of M. Gleason, Gladstone, Mich., or Joseph Mitchell, Beacon, Mich. (8-12-1)

Terrible plagues, those itching, pestering diseases of the skin. Put an end to misery. Doan's Ointment cures. An' any drug store.

A SAD DISAPPOINTMENT. Ineffectively liver medicine is a disappointment, but you don't want to purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and putrid matter and do it so gently that one enjoys the pleasant effects. They are a tonic to the liver. Cure biliousness, torpid liver and prevent fever. H. Harwood, Ishpeming, Stafford Drug Co., Marquette.

JOHN BOUCHER DEAD. FAMOUS INDIAN GUIDE, VOYAGEUR AND HUNTER OF THE SOO.

Ward and James Will Give It a Magnificent Production.

Ward and James will give "The Tempest," a magnificent production here Thursday night. It will be notable in that a Marquette assemblage will be able to see the scenery of an unusually complete presentation early in the season. Usually attractions of this class come in here at the end of the season, when everything, costumes and scenery, is ragged and tattered. But when Ward and James appear here they will have been on the road this season only long enough to secure an easy presentation of "The Tempest," and the settings will be new and bright. The seat sale opens this morning.

RENEWAL SECURED. Capt. Daniels Has More Time in Which to Develop Saults Head Mine.

Captain Daniels arrived home from Grand Rapids, where he went to secure the renewal of the option on the Saults' Head mine lands, Saturday. He was successful in his mission. The mine has been closed for the last few weeks on account of the approaching expiration of the old option. The stockholders will be called together some time next week for the purpose of re-organizing the syndicate on a good financial basis for the next fourteen months' work.

Robert Rohl, mayor of Centralia, Ill., is in the city visiting his father, Carl Rohl, and Marquette friends.

The auditing committee of the board of supervisors met here Saturday morning to prepare the accounts for this week's session.

The last of the series of summer assemblies will be held at Fraternity Hall Friday night. The full ideal orchestra will furnish the music.

The ladies of the Degree of Honor will hold a picnic at Presque Isle, Wednesday afternoon. All members are requested to take the 1:30 car.

Miss Rhoda concluded her engagement at Van Alsty's Saturday, giving her magical entertainments in the afternoon and evening before good crowds.

There will be a regular meeting of the park and recreation commission at the office of the secretary in the Harlow block this afternoon at 2 o'clock.

The council will meet Tuesday evening. It should regularly meet tonight, but the session is put off a day on account of this being a legal holiday.

Among the vessels in for shelter yesterday were the Hopkins and two barges, lumber laden, bound down, and the Manistique and two barges, coal laden, bound up.

Harry N. Frost, editor of the Oberlin News, Oberlin, O., is in the city for a couple of weeks. He is a heavy fever sufferer and is here in search of relief from the malarial.

County Commissioner Davis held a meeting of a part of the rural school teachers here Saturday afternoon. It was called to order in the assembly room of the city hall.

Miss Anna M. Chandler was in Marquette Saturday and yesterday, leaving last evening for Escanaba where she will act as principal of the high school for the ensuing year.

County Clerk Ross has issued marriage licenses to Frank Coday of Escanaba and Beatrice Penhale of Negaunee and Alphonse Lavigne of Negaunee and Minnie Whitford of Ishpeming.

The members of the Clerks' association are requested to meet at 9:30 o'clock at the A. O. U. W. hall to participate in the Labor day parade. It is desired that the clerks bring their badges.

William McMillan of Reno, Nevada, inspector of land offices, who spent several days last week at the Marquette land office, left the city Saturday morning, having completed his work.

The Light Infantry, which has sixty-six members, will have most of its men in line today, when it will appear in the Labor day parade. It has borrowed forty-four rifles from the Lake Superior Guards at Ishpeming, and has picked

up the additional guns necessary about the city.

Cars will run to the main entrance of the fair grounds today, the extension of the track having just been completed. There will be a fifteen minute service and it is anticipated that the crowds will be handled without difficulty.

Theo. Mueller, who has been employed by L. Grabower, has resigned his position, and will leave for lower Michigan about the middle of the week. Mr. Mueller has not yet decided where he will locate. He has several positions in view.

There was a good representation of upper peninsula friends, including men from several departments, here Saturday. They came down on the conclusion of the Negaunee tournament to pay the Queen City a visit. They spent the day visiting points of interest and driving about the city.

THE TEMPEST.

Ward and James Will Give It a Magnificent Production.

Ward and James will give "The Tempest," a magnificent production here Thursday night. It will be notable in that a Marquette assemblage will be able to see the scenery of an unusually complete presentation early in the season. Usually attractions of this class come in here at the end of the season, when everything, costumes and scenery, is ragged and tattered. But when Ward and James appear here they will have been on the road this season only long enough to secure an easy presentation of "The Tempest," and the settings will be new and bright. The seat sale opens this morning.

RENEWAL SECURED. Capt. Daniels Has More Time in Which to Develop Saults Head Mine.

Captain Daniels arrived home from Grand Rapids, where he went to secure the renewal of the option on the Saults' Head mine lands, Saturday. He was successful in his mission. The mine has been closed for the last few weeks on account of the approaching expiration of the old option. The stockholders will be called together some time next week for the purpose of re-organizing the syndicate on a good financial basis for the next fourteen months' work.

MARINE MATTERS. Soo Canal Passages.

WARM SCHOOL ELECTION. MINE FATALITY.

It Will Attract Many People to the Polls Today.

There has been some lively hustling for votes for the several candidates for school trustee during the past couple of days. There are two factions, and the contest is the most spirited that has ever taken place in connection with a school election in this city.

Two of the places to be filled are for three years, and the other two are for one. Messrs. Braastad, Johnson, Welch and Nelson are the three-year candidates. At no previous time since the opening of the schools have so many vacancies occurred on the board.

Wright Not a Candidate. B. W. Wright, who was a member of the school board for a number of years, was advised Saturday that a ticket announcing his candidacy had been printed and circulated about the city.

The Qualified Voters. There has been no little discussion the past week as to who are entitled to vote at the election today. In order that all may understand just who are qualified to cast a ballot the following, which is the section of the state law governing that question, is here printed:

Every citizen of the age of twenty-one years, who has property assessed for school taxes in any school district, and who has resided therein three months next preceding any school meeting held in said district, or who has resided three months next preceding such meeting on any territory belonging to such district at the time of holding said meeting, shall be a qualified voter in said meeting upon all questions, and all other citizens who are twenty-one years of age, and are the parents or legal guardians of any children included in the school census of the district, and who have for three months as aforesaid, been residents of said district or upon any territory belonging thereto at the time of holding any school meeting, shall be entitled to vote on all questions arising in said district, which do not directly involve the raising of money by tax.

The polls will open at 9 o'clock and will close at 5 in the afternoon. At the opening of the meeting the director will read his annual report, covering the business of the year, including a statement of all money expended.

'EAST LYNNE' TONIGHT. The Labor day attraction at the opera house will be 'East Lynne' of which the Detroit Free Press has the following to say: 'East Lynne was given by a good company at the opera house last night. The cast is headed by Inez Forman and J. F. Crosby Jr. The audience followed the unfolding of the story with unabating interest and keen delight.

For a bad taste in the mouth take Chamberlain's Stomach and Liver Tablets. For sale by The Stafford Drug Company.

M. M. DUNCAN THE VICTOR. The golf tournament Saturday was won by M. M. Duncan, he making the course in 92 without a handicap. This is the lowest two round score that has been made on the links.

Has Recovered His Reason. The Ishpeming man, Forville, who was captured while insane, after a fight with Sheriff Murphy of Marinette and a Peshigo officer, in which he was shot in the leg, at Grover, Wis., last Tuesday, and was taken to the M. & M. hospital in Marinette, has fully recovered his reason.

Mr. Newell played a fine game, making the course in 92 without a handicap. This is the lowest two round score that has been made on the links. Following are the lowest scores made without handicaps. Willie Duncan, 100; Dr. Hudson, 105; J. C. Wood, 114; Max Barbour, 119. There were about twenty-five play-

ers. Mr. Schock made the course in 121, with a handicap of 30. The second tournament will be played today at 2 o'clock. The handicaps may be changed, although this has not yet been decided.

FAVORITES COMING.

The Elmore sisters, clever performers, who were the stars with the 'Two Merry Tramps' company a few seasons ago, will be at the opera house Wednesday evening in a play written expressly for them, entitled 'A Devil's Lane.' The company is making a big hit and is playing to standing room everywhere.

ISHPEMING IN BRIEF.

Two new signs have been painted on the Sellwood block. Henry Divine is here from Houghton, where he is attending the College of Mines.

Richard Matthews left Saturday for the copper country, on a few days' visit with relatives. Miss Pearl McDonald, who teaches in the high school, arrived here Saturday from Ashland, O.

Frank Donahoe and his brother Gregory are home from the College of Mines, visiting their parents. F. P. Tillson arrived home Saturday from Milwaukee and Detroit. Mrs. Tillson will not be home for three weeks yet.

Fred Hribernig, whose house caught fire several weeks ago, is having some repairs made. A basement is also being excavated. George Voelker has 20,000 celery plants planted at his farm. He claims that celery will grow better here than at Kalamazoo.

Mrs. J. Ames, of Watertown, Wis., who has been visiting relatives, will go from here to join her husband who is now located in the west. J. T. Burke will pay a reward to anyone finding a silver plated cap, lost from his funeral car about ten days ago. The cap cannot be easily replaced.

Charles Sheny is putting an addition on his house at the corner of First and High streets. There will be four additional rooms, making seven in all. P. J. McGinty, T. J. Dundon and family, T. F. Donahoe and wife, and Mrs. Deney returned Saturday from Camp Laurier, where they had spent the week.

Mrs. Jennie McCann will be at Sellwood's grocery store for a few days, commencing tomorrow, demonstrating shredded wheat biscuits. Patrons are invited to call. The Light Guard excursion to Escanaba yesterday was well attended, seven coaches being required to carry the crowd. The city band accompanied the excursionists. The Ishpeming baseball nine went along. Escanaba was defeated in an exciting game.

J. C. Funston will leave here Wednesday for Erie, Penn., where he will spend the winter with his daughter, Mrs. A. E. Hume. Mrs. Hume and her daughter Majorie, who have been in the city visiting Mr. Funston for the past month, will return to their home with him.

F. J. Eggan and family arrived home yesterday morning from their three months' trip across the water. They were accompanied by Miss Mary Anderson, Mrs. Eggan's sister, who went over with them. Other local people who departed at the same time will be back soon.

John Wall, clerk of Iron county, who spent last week at Negaunee taking in the tournament, visited relatives in Ishpeming Saturday and Sunday. John is an enthusiastic fireman and he is one of the few upper peninsula men who has never missed a tournament. Mr. Wall spent his boyhood in Ishpeming.

F. B. Van Horn, who has been in this city for the past two weeks, collecting specimens of rocks for the United States geological survey, left Saturday for Ironwood. He will remain there several days to secure specimens from the Gogebic range, after which he will collect specimens from the Menominee range.

The first general meeting of the public school teachers will be held today at 3 o'clock. Superintendent Schreiber will be present and address the gatherings. The following teachers arrived in the city yesterday: Misses Scott, Norton, Smith, Miller, Lewis, Zimmerman, Schreyer and Gilson.

Mrs. Dave Powers of the Barnum location died Saturday at noon, after a week's illness. Mrs. Powers is survived by her husband and two little children. She was a sister of Alderman Joe Kennedy. Mrs. Powers was a member of the Ladies' auxiliary to the Hibernians. The funeral will be held Tuesday from St. John's church. Father Kehoe will officiate.

OSTEOPATHY. Hon. H. F. Pingree, ex-governor of Michigan, who signed the bill legalizing osteopathy in this state said after a thorough and careful official investigation: 'Osteopathy is a science entitled to the respect and confidence of all, as a distinct advance in medicine. I know that it is doing a vast amount of good in relieving suffering and deformity that is not amenable to benefit from drug medicine.'

For free books explaining osteopathy, address Dr. J. L. Shorey, Front and Bluff streets, Marquette, Mich. At Ishpeming Tuesdays and Fridays, 212 W. Ridge street. (8-22-1f) Portiers and Table Covers at Finnish Mercantile Association.

TOURNEY EGHOES

IRONWOOD WINS OUT IN REGULATION HOSE RACE No. 2.

PAINDALE GETS GIFT PRIZE

WINNERS OF ASSOCIATION TROPHY GIVE IT TO IRONWOOD.

Fred Kappler Resigns and Harry Barr Succeeds Him—Thomas Murphy of Baraga Chosen Second Vice President.

Tournament visitors were scarce in Negaunee yesterday, but several of the departments were represented here Saturday.

The tournament was a great success, and a number of the business men were good winners from it. The weather was perfect during the entire four days, and all the visitors seemed to have a good time.

The only objectionable feature was the lawless actions characteristic of the windup Friday night. Wednesday and Thursday evenings the fun was enjoyed, but Friday night not a few people acted disgracefully, those from Negaunee being just as bad as the outsiders.

Along towards midnight a number of men, who had been playful all through the tournament, got on their muscle and went around looking for trouble. Gentlemen who attempted to protect ladies who were not in the mix-up were assaulted and insulted.

The greater part of the decorations were destroyed as a result of the burning which was used to drag people about the streets. The big shield at the western end of Iron street was cut down and was not found until the next day. It was concealed in the Cyr block.

Ironwood Wins Saturday's Race.

Only two of the five teams eligible for the regulation hose race No. 2 appeared Saturday morning. These were Ironwood and Calumet. The race is now consisting of a run of two hundred yards to the hydrant. Three lengths of hose are then laid. The coupling is broken at the second length, the nozzle attached, and water turned on, time being taken when water leaves the spout. The pressure was weak and the time made by either team was on that account not fast.

Painesdale Gets a Gift Prize.

The first prize in the race was presented to the Painesdale team, the infant of the association. It is a handsome silver water pitcher, appropriately engraved. All the teams and spectators felt friendly to the Painesdale boys on account of their good work.

The Association Prize.

The Lake Linden and Bessemer teams being a tie for the association prize—a beautiful flag—there was no way by which they could determine who should have it except by tossing a coin. After some discussion, the teams agreed to present the flag to Ironwood.

Kappler Resigns.

Fred Kappler, who was re-elected to the first vice presidency at the convention Wednesday evening, resigned Saturday at the conclusion of the last race of the tournament. He stated that he expects to leave Lake Linden to take up his home on a farm in Wisconsin and will no longer be one of the central figures at the association's tournaments.

Thomas Murphy of Baraga, who has been an active worker for the association ever since it was organized, was elected to the office of second vice president.

In the summary of points made by each team printed in Saturday's paper, Ironwood and Ishpeming were credited with one less point than they should have. Ironwood has seven points, two seconds and one third prize, while Ishpeming won third place in three events.

Josh Westhafer, of Logansport, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm if it cost five dollars a bottle, for it saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck, sprains and rheumatic and muscular pains. It has also cured numerous cases of partial paralysis. It is for sale by The Stafford Drug Company.

CURED HEMORRHOIDS OF THE LUNGS.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." People's Drug Store.

AN EXCITING GAME.

Crystal Falls Defeated by Negaunee Yesterday by a Score of 12 to 11.

The baseball game at Union Park yesterday afternoon between Negaunee and Crystal Falls was the most exciting of the season. In the first inning the home team went to pieces and allowed the visitors to score eight runs. The Negaunee boys quickly recovered, however, and during the "tame home" the single only three more runs were made by Crystal Falls. Negaunee started its scoring in the second inning, and in the sixth inning, when with two men on bases, Crans started the trouble and made a three-base hit, sending in two runs. A single by Faul, and a three-bagger by Dyer, being in, the Negaunee team was making the tally 10 to 10. In the seventh inning Crystal Falls made another run, and the score stood 11 to 10 in favor of the visitors, remaining that way until the last half of the ninth inning. In the last inning Baraga made a single for Negaunee, stole two bases, and the game ended in a wild throw. Another run was added and the game ended amid intense excitement.

The features were the batting of Crans and Dyer for Negaunee and Ball for Crystal Falls. Crans pitched and Robert was the "tame home" for Crystal Falls. Nemecheck pitched, while Ball and Oakes did the catching.

It was an interesting game from start to finish, and not until the last half of the last inning was it finally won. This is only the second game the Crystal Falls team has lost, the other being won by the Sox. Five hundred fans saw the game, and the victory of the local team will probably have the effect of swelling the attendance at today's game between Negaunee and Ishpeming which will be one of the best of the season. Lynn and Dyer were the batting stars for Negaunee, while Negaunee will put in Crans and Roberts.

PROUD OF THE TEAM.

Lake Linden People Have Good Reason to Be—Fine Showing Here.

Lake Linden may not be able to play ball up to as high a standard as some of the upper peninsula aggregations, but she can turn out a firemen's running team that has made the teams from copperopolis metropolis and other northern Michigan cities look like third-rate teams. The Lake Linden correspondent of the Houghton Daily Mining Gazette. The laurels lost in the defeat of its ball team have been regained tenfold by the splendid record made at the firemen's association just held at Negaunee.

Though the smallest city in Houghton county and a very limited territory to draw from, Lake Linden's running team holds the fastest records made in three of the most important races since the Upper Peninsula Firemen's association was organized. The records held are in the regulation hose race, the novelty hose race and the novelty hook and ladder race.

The record of the team in the novelty hose race, made on Thursday at Negaunee, is one never equalled in the states of Michigan, Wisconsin or Minnesota. The race was run by the team from the sandy city in 41 seconds flat—five seconds lower than the time made by any other team in the association since the association was formed. With this and the other records in the regulation hose and novelty hook and ladder races, Lake Linden has good reason to feel "some proud."

PICNIC AT THE PARK.

The labor unions of Ishpeming and Negaunee will unite today in a picnic at Cleveland Park. Meals and refreshments will be served from 12 to 6 p. m. Dancing will begin at 8 o'clock, and continue all day and evening. Trombly's full orchestra will furnish the music. A game of ball at Union Park between Ishpeming and Negaunee will bring out the fans from both cities.

A PARSON'S NOBLE ACT.

"I want all the world to know," writes Rev. C. J. Bullong of Ashaway, R. I., "what a thoroughly good and reliable medicine I found in Electric Bitters. They cured me of jaundice and liver troubles that had caused me great suffering for many years. For a genuine, all-around cure they excel anything I ever saw." Electric Bitters are the surprise of all for their wonderful work in Liver, Kidney and Stomach troubles. Don't fail to try them. Only 50 cents. Satisfaction is guaranteed by Stafford Drug Company.

DOCTORS COULD NOT HELP HER.

"I had kidney trouble for years," writes Mrs. Raymond Comer of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure. People's Drug Store.

No need to fear sudden attacks of cholera infantum, dysentery, diarrhoea, summer complaint of any sort if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

A NEW JERSEY EDITOR'S TESTIMONY.

M. T. Lynch, editor of the Philadelphia, N. J., Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family, but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it." People's Drug Store.

MOTHER GRAY'S SWEET POWDERS

For children. Mother Gray, for years a nurse in the Children's Home in New York, treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children. They are harmless as milk, pleasant to take and never fail. A certain cure for feverishness, constipation, headache, teething and stomach disorders and remove worms. At all druggists, 25c. Sample sent FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

LINGERING SUMMER COLDS.

Don't let a cold run at this season. Summer colds are the hardest kind to cure and if neglected may linger along for months. A long siege like this will pull down the strongest constitution. One Minute Cough Cure will break up the attacks at once. Safe, sure, acts at once. Cures coughs, colds, croup, bronchitis, all throat and lung troubles. The children like it. H. Harwood, Ishpeming. Stafford Drug Co., Marquette.

LOCAL LAONICS.

Miss Maud Davis, who has been visiting William Evers and family, will go to Champlain for a few months' visit.

The ladies of the Presbyterian church, who served meals and lunches in the Mack building during the tournament, made \$200.

Miss Nell Glenn, Miss Mae Fogarty and Raymond Osgood, who were visiting E. B. Raymond and family, have returned home.

The canes and come-back rubber balls, had the greatest sale of any tournament novelty. Everybody had either one or the other, and a great many had both.

The school election today will be a tame affair, there being no opposition to Mayor Houle and J. W. Elliott for members of the board of trustees. The polls are open from 9 a. m. until 5 p. m.

The manager of Uno, who "eats snakes alive, actually eats them alive," folded his tent early in the evening, Friday, and left for parts unknown. He claimed to have taken in \$150 the first day of the tournament.

The farmers' band made a decided hit Friday evening. It played "Rocked in the Cradle of the Deep," with discordant variations, and wherever it went, it usually took the crowd. The members wore clothes of many colors, and their garments were made not to fit.

The Brieting was brilliantly illuminated each evening of the tournament. The piazza was crowded till a late hour by timid ones who hesitated to venture on the street. It was a good place from which to see and hear everything.

The Lake Linden boys accepted an invitation from the Ishpeming team to visit Ishpeming Saturday, and inspect the department. They feel well satisfied with the result of the tournament, having won four firsts, and three second prizes.

About 8 o'clock Friday night, some one opened the door of the Chinese laundry and threw a beer barrel into the room, striking Sing Sing on the foot, injuring him severely. The instep of his foot was laid open to the bone. Sing will be laid up for a week or more.

Considering the number of people in the city, and the freedom permitted by the city authorities, the tournament was an unusually orderly affair. Only two arrests were made during the week. This speaks well for the city police. Marshal Gribble is to be congratulated for the efficient service of his force.

The street cars did a rushing business during the tournament. One car carried one hundred and thirty people on one trip and the same car carried 1,200 during the day. It is an open car, seating only forty-five, the other eighty-five on the banner trip, being on the steps, between the seats, on the platforms, and on top of the car.

The demonstration on Iron street Friday night was a continuous performance, beginning at 8 p. m., and lasting until 1 a. m. Visiting firemen say the Negaunee tournament was the best they have ever attended. There were a number of circumstances which contributed to its success. The weather for one thing was perfect.

The electrical display on Iron street was beautiful and much credit is due Harvey Pearce of the Electric street railway company, for the effectiveness of the illumination. During Friday night, some rough firemen took the electric shield down and hid it in a nearby building, where it was found Saturday morning, in good condition.

The ladies of the Swedish Lutheran church, who served meals in the Williams' building during the tournament, are well satisfied with the result of their work. They cleared \$300. During the month of August they held socials each Saturday evening, the total receipts for the month being about \$500, of which they cleared \$400. The money will go into the church fund.

The Palmer band drove in from Palmer Friday night, on a hay wagon. The members are mostly miners. Their uniforms were miners' suits, and they wore miners' caps with lighted candles. The band paraded the streets and created a sensation. Some one set fire to the hay, but the fire was quickly extinguished. The band left for home about midnight.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure taken internally, acts directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Sold by Druggists, 75c. Hall's Family Pills are the best.

FEET SWOLLEN TO IMMENSE SIZE.

"I had kidney trouble so bad," says J. J. Coker of Valley View, Ky., "that I could not work. My feet were swollen to immense size and I was confined to my bed and physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure, which made a well man of me." People's Drug Store.

THE LAST RIVER. One of the most singular features in the scenery of the territory of Idaho is the occurrence of dark, rocky chasms, into which creeks and large streams suddenly disappear and are never more seen. The fissures are old lava channels produced by the outside of the mass cooling and forming a tube, which, when the fiery stream was exhausted, has been left empty, while the roof of the lava duct, having at some point fallen in, presents there the opening into which the river plunges and is lost. At one place along the Snake one of these rivers appears gushing from a cleft high up in basaltic walls, where it leaps a cataract into the torrent below. Where the stream has its origin or at what point it is swallowed up is absolutely unknown, although it is believed that its sources are a long way up in the north country. Besides becoming the channels of streams the lava conduits are frequently found impacted with the ice masses which never entirely melt.

MRS. MARY GREGOVICH. Of Phillipsburg, Montana, Tells How She Was Cured of Dandruff. Mrs. Mary Gregovich, of Phillipsburg, Montana, under date of Nov. 26, 1899, writes: "I had typhoid fever this summer, consequently was losing my hair terribly; and my head in places was perfectly bald. Newbro's Herpicide had just come into use in Phillipsburg, and the doctor strongly recommended it to me. After 3 or 4 applications my hair stopped falling out, and is coming in again quite thick. I used to be troubled greatly with dandruff, of which I am now quite cured." Kill the dandruff germ with Herpicide.

U. P. LAND COMPANY

IT IS A HEAVY PURCHASER OF D. M. & M. LAND.

ACQUIRES A MILLION ACRES

C. C. IRON CO. AND ITS STOCKHOLDERS BEHIND IT.

New Corporation Is the "Syndicate" of Which So Much Has Been Heard—Great Importance of the Deal.

A few days ago Lansing dispatches conveyed the news that a newly-formed syndicate had acquired 1,000,000 acres of Northern Michigan lands originally included in the grant to the D. M. & M. railroad, with a view of exploiting what ever timber wealth might remain on them and then applying them to agricultural uses. The dispatches failed to give much detail about the so-called syndicate, nor has much light been thrown on the subject since the announcement was first made. Now, however, the true inwardness of the deal can be made public, to the justification of the wise few who "reckoned" that when the facts were known the Cleveland-Cliffs company would be found at the bottom of the transaction.

The Cleveland-Cliffs company is at the bottom of the deal, and as a result of its consummation, that company will add largely to its already magnificent domain of upper peninsula timber and farming lands.

The syndicate which completed the deal for the 1,000,000 acres of D. M. & M. lands, which include practically all of that road's remaining holdings from the Soo to Marquette, is the Upper Peninsula Land company, limited, whose stockholders are the Cleveland-Cliffs Iron company and the principal stockholders of that corporation.

The Upper Peninsula Land company purchased these immense tracts with the purpose of reselling them, and the Cleveland-Cliffs company will have first pick of the 1,000,000 acres. It will be privileged to buy as much land as it wants, wherever it wants it, and its purchases will include all the land that it needs to insure a vastly increased lumber reserve for its present industries and to justify it in proceeding with those which it may have under contemplation. It is a safe guess that the Cleveland-Cliffs Iron company will not let an acre of timbered land available for any of its present or projected industries get away from it.

The Mining Journal has not figures to show what part of the 1,000,000 acres transferred to the Upper Peninsula Land company will ultimately come into the Cleveland-Cliffs company's ownership, but it is certain that the magnificent holdings of that corporation will ultimately be largely increased as a result of the deal, which will do a great deal to strengthen its position on the upper peninsula.

WHEAT DULL AND NARROW.

There Were No New York or Boston Markets Saturday.

Owing to the fact that Sunday and Monday were holidays, the Boston and New York exchanges made it three straight, and closed up for Saturday. W. H. Laidley & Co. said of the Chicago grain markets:

"The wheat market today was very dull and narrow. The opening was slightly higher and the undertone firm, the close being somewhat higher than yesterday. The receipts were rather small. The northwest receipts continue light. We believe in buying wheat on all breaks.

"Corn opened about last night's close, to a shade lower. It sold higher during the early part of the session, but eased off, closing at last night's figures. The receipts were small and the reports from the country continue to show considerable damage and apprehension of frost. We would buy corn upon all recessions.

"Oats were strong and higher, but, after early strength, eased off somewhat, closing a little lower than last night. The market will doubtless follow the other cereals, but we would advise buying for a fair turn.

"Provisions opened at about last night's close, to a shade lower, and the market continued extremely dull, the close being a trifle under last night. The receipts were somewhat higher. We look for some further recession in prices, but we would advise buying upon any decided breaks."

TWENTY-SEVEN APPOINTMENTS.

List of 1902 Normal Graduates Who Will Teach This Year.

A teacher's diploma from the Northern Normal insures a good position to the fortunate possessor. Northern Normal graduates are in a great demand with upper peninsula school boards, as their experience with the young people of this institution has been entirely satisfactory. The following list of graduates who have received appointments is incomplete, in so far as additional young people are being added right along. Misses Mary B. Deasy, Nellie R. Connor, Lucile Bell, Marquette; Norine M. Peily, Seney; Katherine M. Reidy, Elm River; Ruth Schurtz, Atlantic Mine; Therese B. Donovan, Winona; Louise Schultz, Chippewa; Charlotte M. Schuler, Kathryn Merrick, Hancock; Gertrude Saw, Matie E. Dawe, Iron Mountain; Clare C. Finley, Maud E. Lee, Escanaba; Belle McCall, Grand Marais; Beatrice B. Boyle, Gertrude A. Boase, Sault Ste. Marie; Marie J. Cartier, Stambaugh; Mae Bell, Mine Carson, National Mine; Caroline A. Sprague, Chippewa county; Sattie S. Thompson, Norway; Lillian Trudgeon, Vulcan; Annabelle Chisholm, L'Anse; Lillian Reath, Waucedah; Leonard Laughlin, Iron Mountain; Mr. Edward Yager, near National Mine.

AT WASHINGTON, D. C.

Local Post G. A. R. Will Be Represented at the National Encampment.

Albert Jackson post, G. A. R., will be represented officially at the forthcoming encampment of the national organization at Washington, D. C. E. C. Anthony, past commander, is the department commander of Michigan, and Captain C. D. Blanchard is the quarter master general. W. A. Jellison is delegate to the national encampment and John Dooley and Peter Trudell are aides-de-camp on the staff of Department Commander Anthony. Several other members of the post expect to attend the encampment, which will be held in October.

SEPTEMBER JURORS.

They Have Been Summoned For This Term of Court.

The last of the jurors who will serve during the September term of circuit court have been summoned. They are: Marquette, Patrick Ford, James Noctor, J. G. Reynolds, Henry Siegel, Nelson Cadarette, Morgan J. Millard, and E. E. MacIntosh. Ishpeming, William Manley, Joseph Billings, Joseph H. Gill, Samuel Berryman, John Cox, William Bowden, E. A. Johnson, Oscar J. Olson, Ezra C. Keith, John Ramile, Henry Johnson, John Henry Todd, Charles Dukette, Ole Johnson, Samuel Bennett and Josiah Pearce.

PUBLIC SCHOOL CATALOG.

Lake Linden Has Issued One for the Year 1902-1903.

The Mining Journal has received a neatly bound and printed catalog of the Lake Linden public schools, published from the presses of the Native Copper Times, Lake Linden. It is a representative production of the Times' job printing department, and reflects credit both on the publishers and the enterprise of the school trustees who got it out.

The catalog contains full information concerning the Lake Linden schools, including the names of the board members, directory of the teachers, the calendar for the year 1902-03, general information, courses of study in both the high school and grammar department, directions for work, supplementary reading, subjects of instruction, flag days, text books and complete lists of the graduates and the present students. Nothing of value is omitted and nothing that isn't of value is included.

NEAR CANADIAN SOO.

Rich Iron Find Said to Have Been Made Four Miles Distant From Steel Plant.

From time to time iron properties have been discovered in the country back of the Canadian Soo, but none of those discoveries have caused one-half the excitement consequent on the latest one, says the Soo Journal.

Just what it will turn out to be is a question that will have to be decided later, but from present indications and reports it is as rich as the noted Chapin mine in Michigan.

The property is situated only four miles back from the steel plant and those who have bought it are now at work sinking a shaft to see how deep the ore is. It is now down several feet and the deeper it gets the more pleased are those who are interested in it.

When the news of the find reached the Soo this week several mining men lost no time in securing rigs and driving out to the place. They all report that it is a great prospect and several have already secured options on other property in the vicinity.

COMPANY ORGANIZED.

Krieg Property at Sauk's Head Looks Well.

At the annual meeting of the company which is developing the Krieg copper and gold property in the Sauk's Head district, held at Detroit recently, officers to serve during the ensuing year were elected as follows:

President—C. A. Stringer, Detroit, formerly of Hancock.
Vice president—F. M. Moore, Marquette.
Treasurer—Charles H. Krieg, Marquette.

Secretary—John D. Krieg, Detroit.
Attorney—L. G. Younglove, Detroit.

The officers constitute the board of managers. The name of the company was changed to the Sauk's Head Copper Mining company, limited. The company is capitalized at \$2,500,000, divided into two and a half million shares of one dollar each. The stock is non-assessable.

The work at the mine is progressing satisfactorily and the showing affords great encouragement. T. A. Flockhart, a prominent insurance man of Detroit, who is a stockholder in the company, inspected the property recently and returned much pleased, and confident that a large and profitable mine will be opened. President Stringer will pay a visit of inspection to the property early in October.

A CERTAIN CURE FOR DYSENTERY AND DIARRHOEA.

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford county, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when Editor Ward, of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by The Stafford Drug Co.

CANNEL COAL.

We have just received a few cars of fresh mined Butts' Cannel coal for open fires. F. B. SPEAR & SONS. (8-27-1w)

NO ONE WILL WORK

LABOR DAY WILL BE OBSERVED WITH A BIG PICNIC.

NEGAUNEE BAND ENGAGED

FAIR GROUNDS WILL BE SCENE OF THE FESTIVITIES.

There Will Be Dancing, Sports and Music—All Are Invited—Annual Meeting and Election of School Trustees.

Labor Day will be observed here by a general suspension of all kinds of work in and about the city and, formally, by a big picnic at the fair grounds, given under the direction of the Brick Layers and Masons' International Union No. 4. As there will be nothing doing in and about the city, either in the established industries or at the various buildings and plants in process of erection, there should be a large gathering at the fair grounds, the entertainment there being the only set program for the day. People who do not attend the picnic will have to make Presque Isle, or other nearby resorts, their headquarters and amuse themselves informally.

The members of the Brick Layers and Masons' union have given no little time and have gone to no little expense to arrange a satisfactory entertainment for their guests. They have secured good music, having engaged the Negaunee Orchestra band for the day. In the morning it will lead the parade of the downtown streets, the opening feature, and in the afternoon it will furnish music at the fair grounds, where dancing will be one of the diversions.

An extensive program of sports will serve to amuse those who are interested in athletics. There will be various races and contests. The big card for the afternoon is a ball game between the carpenters and brick layers. There are a few good men on either team, and some who aren't so good. Whether the contest will result in baseball or burlesque remains to be seen, but in either event it will be equally entertaining.

The Brick Layers and Masons cordially invite all Marquette county people to unite with them in celebrating the day. There will be no admission charge to the grounds.

The observance will be concluded by the Retail Clerks' association, which has arranged to have a hop at Fraternity hall in the evening. The music will be furnished by the Ideal orchestra. There will be dancing from 9 to 1 o'clock, and tickets will be fifty cents per couple.

Official Announcements.

Following are the official announcements of the Brick Layers and Masons' Union No. 4 concerning the picnic: The parade will form on Superior street. It will move at 10:30 o'clock and will traverse the principal streets, disbanding at the city hall. The brick layers, carpenters, painters, cigar makers, longshoremen, machinists, clerks, railroad men, mail carriers, or trimmers, iron workers, molders, mason tenders, stone cutters, light infantry and drum corps, which will lead the second division, will be in line.

At the fair grounds there will be a baseball game between the brick layers and carpenters and the clerks and painters, a horse race, track and field events, a tug of war between the carpenters and the brick layers, and sack and wheel barrow races.

Annual Meeting of Board.

Another Labor Day event, which attracts a good deal of attention each year, is the annual meeting of the board of school trustees and the annual election, which will be held from 9 a. m. until 3 p. m. The annual reports of the trustees will be considered and the election of members to fill the vacancies left by the expiration of the terms of Joseph Neihart and J. E. Reau will occur.

There has been considerable discussion of school board matters during the past few days, and several gentlemen have been mentioned as being possible candidates. Both the outgoing members are in the field for re-election, and, as will be seen from his accompanying communication, Dr. Youngquist is in the field, but as yet there have been no other authentic announcements of candidates. However, all that is necessary to become a candidate is for the man cherishing the ambition to be a trustee to appear at the voting place in the city hall with slips containing his name, so it is possible that the day may bring forth more or less of a fight over the vacancies.

Any legal voter of the city of Marquette is entitled to a vote, as are also any woman who is guardian of her own or others' children and any woman holding property in her own right.

From Dr. Youngquist.

Marquette, Mich., Sept. 1, 1902. Agreeably to the urgent request of many parents of this city, I have consented to the use of my name as a candidate for the office of school trustee. In this connection, I desire to state that I am unreservedly opposed to the revival of any issue that the qualified electors may have formally disposed of in preceding school elections. I emphatically disavow any intent, or desire, to return to primitive days—if such have been—when the individuality of superintendent or teacher has been the only inspiration in school elections. My position, if elected, will be progressive, and not reactionary, and my best energies will be directed to obtain the highest efficiency in the schools, at the lowest possible cost to the taxpayers of the school district. My candidacy stands for education and business, exclusively, and to represent it otherwise would be maliciously false.

For the Marquette Daily Mining Journal. DR. O. G. YOUNGQUIST.

Mother—Now's the time to have your little ones take Rocky Mountain Tea. Keep them well all the year. Great Medicine for children. 35 cts. Stafford Drug Co.

THE MISSION AT ST. PAUL'S.

Rev. Father Powell, S. S. J. E., Gave Two Fine Addresses Yesterday.

Yesterday morning at St. Paul's cathedral, Father Powell of Boston spoke from the First Epistles, IV, 8—"But ye have not so learned Christ." The speaker stated that during the mission services to be held during the next two weeks "we will try to learn something about Christ. People sometimes imagine that it is easy to be good. They keep turning over a new leaf as the saying is, but they do not improve much and at the age of forty years are far from the heavenly goal.

"To learn Christ is as much an art, and attended with as great difficulty, as to learn anything else. We try to paint, or play, but we find there is something wrong with the eyes, or the ear, or the arm, and perhaps before long we give up and feel that out attempt was a failure. And so it is no easy thing to learn Christ.

"We must not approach God rudely, but in a proper spirit of humility. A man who doubted the real existence of the president of the United States, and who imagined that all politicians were only rogues and scoundrels—if such a man approached the White House at Washington and, kicking rudely at the door, demanded to be shown the president, he would doubtless be shown a policeman. And so the ruler of heaven, who hopes by sneering at religion to find God, will be disappointed."

In the evening Father Powell addressed a large congregation who listened attentively to a magnificent sermon. The speaker dwelt specially upon the work of the Holy Spirit in convicting the world of sin. The world has its times of apparent triumph, he said, when it imagines that Christ and His church are placed on trial. But Christ was never put on trial. It was Pilate and the Jews who were on their trial; and so today different classes of people are set up in antagonism to each other, such as the Boers and the English, the Filipinos and the Americans. But we are all on trial and God is waiting to see if there is good will, and charity, and kindness, the fruits of the spirit, being developed in us.

Each night during the week there will be a mission service at St. Paul's beginning at 8 o'clock, to which the public are cordially invited. Father Powell is a finished and forcible preacher who has the gift of saying the right thing at the right time, and the people of Marquette are fortunate in being able to hear one who will teach so clearly the truths of the gospel.

ANOTHER MESABA DEAL.

Republic I. & S. and Cambria Companies to Buy New Lands.

Another big mining deal will be consummated within a few days, says the Duluth Evening Herald.

Negotiations are about closed whereby the Republic Iron & Steel company and the Cambria Steel company jointly acquire new Mesaba properties from which experts estimate that 15,000,000 tons of ore can be mined.

The locations of these properties will not be made public till the big deal is finally closed. Practically all of the six docks are receiving ore for the steel plant, which at once proceeds to destination by rail. A large amount has been stacked there already for the expected needs before the canal is finished to the furnaces, which will not be this year.

Work has begun on the Buffalo & Squeakhamna pig iron plant, which is located between the pig and the steel plant. There is good prospect of another large iron works locating just outside of the steel plant. Every one of the six ore docks in the harbor is doing full time, unless it be the Lackawanna, which has been hurt by losing the business of the steel plant at Scranton, Pa., now the Buffalo steel plant. A regular system of reporting the ore boats has been set up, so that the work on them can be given out every morning. It is found that there are from twenty to thirty cargoes in sight every day, of which about one-third are to arrive. Owing to the fact that the pig iron plant as well as the steel plant will have its own canal, it is not likely that the inner harbor will increase its ore dock capacity.

While there is almost always a cargo waiting for every dock, the arrangement is so exact that there are no long waits and the handling is at a good rate of speed.

None other than strictly pure ice cream turned out at Heppner's. JOHN H. DESHAINE, Manager. (7-23-0)

FEMALE DISEASES

A SPECIALTY.

In this particular class of diseases osteopathy has proven a boon to women. Women are treated and cured without any exposure or pain.

ACUTE DISEASES ARE AMENABLE TO

OSTEOPATHY

Nervous diseases, which have hitherto proven so rebellious to all other methods of treatment, yield to osteopathic manipulations.

DR. J. L. SHOREY,

Osteopathic Physician,
FRONT AND BLUFF STS.,
MARQUETTE, MICH.
OFFICE HOURS: 9 a. m. to 5 p. m.
(8-19-10)

A GOOD GLASS OF WINE or beer with your dinner or luncheon not only aids digestion, but is healthful and appetizing. Doctors recommend good claret for those with weak digestion, and even the pope himself recommends good wine at dinner, when not drunk to excess. We have a splendid stock of clarets and table wines of all kinds, in either imported or domestic vintage.
