PELEE'S LATEST ERUPTION MORE SEVERE THAN SUPPOSED.

AMONG WORLD'S GREAT CALANITIES

NUMBER OF INJURED MORE THAN FIFTEEN HUNDRED.

Wide Zone Is Devastated, the Temperature Is Almost Unbearable, and French Warships Have Been Ordered to Remove Survivors.

Paris, Sept. 2.—Hava's agency has received an undated dispatch from Fort de France, Island of Martinique, announcing that a thousand persons were killed and several hundred injured as a result of the violent eruption of Mont Pelee on Saturday.

Minister for Marine Pelletan, in view of the further eruptions of Mont Pelee, island of Martinique, has ordered warships sent immediately to the island of Guadeloupe, there to await further orders.

Scenes of Distress and Panic.

Port-a-Pierre, Island of Guadeloupe, French West Indies, Sept. 2.—The French line steamer Canada arrived here this morning from the island of Martinique. Her officers confirm the reports brought to Castries, St. Lucia, by the British steamer Corona of the eruption of Mont Pelee. The vessel's officers declare, also, that a thousand persons were killed at Martinique and many were severely wounded. The sea entered Fort de France for a distance of forty feet. The French cruisers Souhet and Tage are bringing the inhabitants of the northern part of the island to Fort de France. The previous scenes of distress and panic are being repeated.

Wide Zone Devastated.

Basse Terre, Island of Guadeloupe, French West Indies, Sept. 2.—It has been learned from gendarmes on the island of Martinique that 1,000 persons were killed and 1,500 injured during the last eruptions of Mont Pelee.

According to an official report, the eruption of Aug. 30 was one of the most severe that has been experienced. Morne Rouge and the greater part of Ajoupa Bouillon were destroyed. The zone between the river Capote and the valley of Champ Florre and Monds Marie Reine has been devastated. Mount Capote suffered severely, and the hills around Basse Pointe were burned.

The governor of the island is arranging for the evacuation of the northern parishes and the removal of the wounded. The temperature at Martinique is reported to be almost unbearable.

Nearby Islands Shaken.

Kingston, St. Vincent, B. W. I., Sept. 2.—A remarkable volcano phenomenon occurred here between nine and ten Saturday night. There was a startling series of detonations from St. La Soufriere, louder than any since the terrible eruption of May 11. Each explosion shook buildings in this town. The noises were terrific and gave the impression in every town and village on this island that the scene of the disturbance was only about two miles away.

During the period of intense anxiety which attended the explosion, two luminous circles, like rainbows, appeared in a cloudless sky to the northwest. They were, presumably, a reflection of the flames in the crater of La Soufriere. Subsequently a dense cloud of steam arose from the crater, but this soon dispersed.

Telegraphic reports have been received here from the islands of Grenada, Trinidad and Barbados, saying that loud loud detonations were heard at those respective places between nine and ten Saturday night. They were similar to those heard when Mont Pelee, on Martinique, and La Soufriere were previously in eruption. The people of Grenada were greatly alarmed at the detonations.

This phenomenon was not attended by serious results on St. Vincent, but fears are entertained here for the people on the islands of Martinique, as Mont Pelee is known to be still terribly agitated, two eruptions having occurred there in the last six days. The first eruption was witnessed Aug. 21 by passengers on the French steamer Dahome, the vessel narrowly escaping destruction while near St. Pierre.

Telegraphic communication with the islands north of here has been interrupted since July 18. The cable repair steamer Newington is working to repair the cable, but owing to bad weather and the great depth of water her efforts have not been successful. It is impossible to say definitely when the cable will be restored.

Earthquake Felt in Venezuela.

Caracas, Venezuela, Sept. 2.—A strong earthquake shock was felt at Carupano at 9 o'clock Saturday evening, accompanied by noise which was heard along the whole shore of the Caribbean sea.

MILES' DEPARTURE DELAYED.

Pressure of Work Keeps the General Busy at Washington.

Washington, Sept. 2.—Lieutenant-General Miles expected to leave tomorrow for his tour of inspection in the Philippines and to sail from San Francisco on the transport Thomas on the 10th. The pressure of work in the office at present is so great, however, that he finds he will not be able to leave Washington before next Wednesday and possibly even later in the month.

RAILROAD WRECK IN MEXICO.

El Paso, Sept. 2.—An unconfirmed dispatch from Chihuahua says a wreck occurred today on the Mexican Central near Bermejo. Many persons are reported killed or injured. The local officials cannot confirm the report.

CANADIAN GRAIN NOT WANTED.

Proof Imports Are from the United States Called for by Germany.

Hamburg, Sept. 2.—A letter published by the general customs administration today says that hereafter with all consignments of grain shipped from ports north of Philadelphia, including the great lakes, proof must be furnished that Canada is not the place of origin. The proof must be forthcoming not only in the form of an American certificate of origin given before the shipment, but in any conformity form available at Hamburg, such as shipments' papers, invoices, bills of lading, commercial correspondence, etc. Wheat, rye, oats, barley and peas come within the terms of the new regulation.

NO DANGER OF OUTBREAK.

Indian Scare in Nebraska Caused by a Drunken Carousal.

Stuart, Neb., Sept. 2.—A number of the Indians who created the excitement at Naper arrived here today. They say that several hundred Indians came over from the reservation to Naper to participate in the three days' carnival and wild west show. According to their own story, several of them secured liquor and stirred up the remainder to making a demonstration by firing of revolvers and giving war whoops. The mayor of the town feared that serious trouble was slated and asked the governor for assistance. The authorities believe all danger of a serious outbreak is passed. Everything was quiet at Naper today.

ELECTION SURPRISE FATALITY AT FORT

VERMONT UNABLE TO MAKE CHOICE FOR GOVERNOR.

MAJORITY VOTE IS REQUIRED NONE OF THE CANDIDATES POLLS ENOUGH TO WIN.

High License Nominee Cuts Heavily Into the Republican Strength and the Result Is the Legislature Will Name the Executive.

White River Junction, Vt., Sept. 2.—Election returns from 150 cities and towns out of 246 do not show a majority over all for any gubernatorial candidate. The returns include the cities of St. Albans, Barre and Vergennes, but do not include large cities and many large towns. If the remaining cities and towns give a corresponding vote, there will be no election for governor or lieutenant governor by the people.

White River Junction, Vt., Sept. 2.—There is no election by the people for governor and lieutenant governor as a result of the state election in Vermont today. At midnight, the returns indicated that Percival W. Clement, the high license option candidate, was running close to General John G. McCullough, Republican, of Bennington.

Returns from 200 cities and towns out of 246 give the following vote for governor: General John G. McCullough, Republican, 20,497; Felix W. McGettrick, Democrat, 6,112; Percival W. Clement, high license, 23,239; Joel C. Sherbourne, Prohibitionist, 2,052.

The best idea of the change-over in the votes of both the Democratic and Republican parties is shown by a comparison with the vote of the same 200 cities and towns in 1900, which gave Sticksney, Republican, 39,085; Senter, Democrat, 14,439, and all others 1,290.

Clement showed great strength in the large cities, his home town (Rutland) giving him a majority of 1,214 out of a total vote of 1,859. The returns show that General McCullough did not begin to hold the Republican vote, Clement getting strength from this defection, to which was added, it is claimed, about half of the total Democratic strength in the state. The Prohibitionist vote is heavy for that party. As a majority vote is required to elect, the choice of governor and lieutenant governor will be thrown into the general assembly, which convenes on the first Wednesday in October.

Two Republican congressmen were elected by the normal majority. The balance of the state Republican is as follows: Treasurer, John L. Bacon, Hartford; secretary of state, Fred Fleetwood, Morris-town; auditor, Horace F. Graham, Craftsbury.

BUTCHERS WIN VICTORY.

Meat Packers Concede Demands and There Will Be No Strike.

Chicago, Sept. 2.—The stock yards butchers of Chicago and other Western centres have won a strikeless victory. J. G. Ogden Armour, speaking for himself and the other packers, tonight conceded practically all the demands of the Amalgamated Meat Cutters, the butchers' association. The men are granted shorter hours and more pay.

Under the old scale, the highest pay the butchers received was forty-five cents an hour. They are now to get 47½. The lowest paid butchers, who were receiving sixteen and seventeen cents, will now earn 22½ cents an hour. Ten hours will constitute a day's work, with time and a half for overtime.

DISCHARGE CAUSES A MINE STRIKE.

Pana, Ills., Sept. 2.—Three hundred men at the Penwell mine are out on strike. The cause is said to be the discharge of J. W. Jones, a popular employee.

DISCHARGE CAUSES A MINE STRIKE.

Pana, Ills., Sept. 2.—Three hundred men at the Penwell mine are out on strike. The cause is said to be the discharge of J. W. Jones, a popular employee.

NURSE'S FATAL BLUNDER.

Chicago Girl Confesses to Causing the Death of Patient.

Chicago, Sept. 2.—Miss Emily Etheridge, a nurse in the Presbyterian hospital and a daughter of the late Dr. James H. Etheridge, one of Chicago's leading physicians, confessed to Coroner Traeger tonight that she had made a fatal mistake in administering strychnine to a patient in the hospital.

The victim of the error was Mrs. Laura Moore of Reensseler, Ind., whose sudden death a week ago today had been a mystery until Miss Etheridge made a clean breast of the matter. The confession was made to the coroner and his physician at Miss Etheridge's residence tonight.

"I gave Mrs. Moore two grains of strychnine when I should have given her only a thirtieth part of a grain," said Miss Etheridge, who is on the verge of nervous collapse from the strain which she has undergone since her own discovery of the fatal blunder.

CARDINAL GIBBONS ILL.

Operation May Be Necessary to Cure Him of His Ailment.

Baltimore, Sept. 2.—Cardinal Gibbons is suffering from an attack of kidney trouble. The attending physician stated tonight he looked for a great improvement in the patient's condition tomorrow. It is hinted, however, an operation might be necessary to permanently cure the cardinal of his ailment.

ONE MAN KILLED, TWO WOUNDED, IN FIGHT WITH FLEET.

Decisive Move Not Yet Made and the Point of Attack Is Shrouded in Mystery—Defending Forces Alert and Ready.

Fort Wright, Fisher's Island, N. Y., Sept. 2.—During an engagement with the fleet off here early this morning, a twelve-inch breech-loading rifle at the fort went off prematurely, instantly killing Edward Hoy. He was literally blown to pieces. Harry A. Davis is perhaps fatally injured and a third man—Samuel Clevenger—is severely injured. Several others suffered slight injuries. All the men were privates of the Second company, Coast artillery, of the regular army.

Defending Forces on the Alert.

New London, Conn., Sept. 2.—The defending forces in the New London district tonight are on the alert, awaiting an attack by the navy. At midnight no decisive move had been made by the fleet under Admiral Higginson. At that hour General MacArthur left the headquarters and boarded the yacht Kana-wha for the night, leaving Major Harrison in charge.

The impression prevails here that Newport is the point which will be next attacked, although the presence of three vessels, supposed to be battleships, at Gardiner's Bay, causes considerable uneasiness. They can be seen plainly from Fort Wright and searchlights are kept on them continually.

The defending force is all at sea in regard to the next move to be made by Admiral Higginson, and every possible precaution has been taken to guard against surprise. Early in the evening it was feared an attack would be made on headquarters. This was hardly expected, however, for the weather conditions are against the navy; it is believed to be impossible for safety to reach a point at which the ships could land enough men to overpower the defenders without being observed.

STREET CAR HELD UP.

Robbers at Council Bluffs Make a Haul and Wound an Officer.

Council Bluffs, Ia., Wednesday, Sept. 3.—Two men held up a street car here early this morning and, upon resisting, Officer Wyatt received a shot in the hand and was thrown from the car, sustaining a broken leg. The robbers secured \$60 and escaped.

Policeman Slain by Thieves.

Kansas City, Sept. 2.—In an attempt to rob the office of the Metropolitan Street railway at Armourdale, Kas., this morning, Policeman J. W. Morris was shot and instantly killed and Watchman Misker was slightly injured by two masked men. The would-be robbers escaped.

BUILDING OPERATIONS TIED UP.

Chicago Cement Finishers and Helpers Strike for Higher Wages.

Chicago, Sept. 2.—Eight hundred cement finishers and helpers struck today, thereby stopping work on a number of big buildings in process of construction, among which are several additions to the University of Chicago. The cause of the trouble is inability to agree on the wage scale.

Discharge Causes a Mine Strike.

Pana, Ills., Sept. 2.—Three hundred men at the Penwell mine are out on strike. The cause is said to be the discharge of J. W. Jones, a popular employee.

REPUBLICAN PARTY SCORED.

Democratic Congressional Campaign Book Makes Its Appearance.

Washington, Sept. 2.—The Democratic congressional campaign book, which made its appearance today, is a volume of 384 pages, the major portion of which is devoted to a discussion of imperialism and trusts. 240 pages being given these two topics, 115 to the former and 125 to the latter.

Upon the title page is the Democratic slogan—"equal rights to all; special privileges to none." The volume opens with the platform of 1900 and the resolutions adopted by the Democratic members of the house at the conference held on June 19, arraigning the Republican party for failure to give relief to Cuba and to enact proper anti-trust legislation. Then follows an extended criticism of the Republican campaign book, many statements contained therein being challenged as to accuracy, and especially those dealing with the trust question.

Under the head of imperialism, there is a long general review of the Philippine policy, succeeded by chapters on General Miles and the administration. The chapters on the tariff and trusts are crowded with statistics and figures, much attention being devoted to an attempt to show that the protected trusts and manufacturers get the benefit of the tariff in our markets and sell in foreign markets at greatly reduced prices. The records of the two parties on the trust question are contrasted. Reciprocity is generally denounced as a "humbug."

The remainder of the volume is devoted to a variety of subjects, including government by injunction, the ship subsidy bill, Chinese exclusion, foreign affairs, and the Schley case.

DURAND OUT OF IT

WHATEVER THE RESULT OF ILLNESS, HE WILL NOT MAKE RUN.

HIS STROKE OF PARALYSIS SEVERE

DOCTOR STATES PATIENT IS PERCEPTIBLY GROWING WEAKER.

State Central Committee to Meet Tuesday to Select a Man in the Judge's Place—Choice Is Between Helme and Sligh.

Flint, Mich., Sept. 2.—There is no decided change tonight in the condition of Judge Durand, Democratic candidate for governor, who was stricken with paralysis yesterday evening. His physicians tonight gave out the following bulletin: "Judge Durand's pulse tonight is 104; temperature, 101.4-5; respiration, 29, and regular. Beef tea and some liquid nourishment have been given in great moderation."

Dr. H. Charters said tonight that in his opinion the patient is perceptibly weaker.

Expected to Formally Withdraw.

Detroit, Sept. 2.—Whatever the outcome of Judge Durand's illness, it is realized on all sides that he will be unable to go through the approaching campaign as a candidate. At the state convention in July which nominated Judge Durand, a resolution was adopted empowering the state central committee to fill any vacancy occurring on the ticket, and the committee will meet at Grand Rapids next Tuesday to select a man to run in Judge Durand's place.

Tomorrow morning, Chairman Whiting of the central state committee, with perhaps one or two other party leaders, will hold a conference with Judge Durand at Flint, providing the patient's condition will permit it. It is expected the judge will then formally declare himself out of the race.

Either James W. Helme of Adrian or Charles R. Sligh of Grand Rapids, who stood second and third in Judge Durand in point of votes on the last ballot at the state convention, will likely be named by the committee, and the indications considerably favor Helme.

TOM L. JOHNSON ON TOP.

Ohio Convention Today Will Give His Presidential Candidacy a Boost.

Sandusky, Sept. 2.—Mayor Tom L. Johnson of Cleveland won a decisive victory today in the meetings preliminary to the Democratic state convention, which meets here tomorrow.

Ever since he was elected chairman of the convention by the state central committee, it has been the general opinion that this occasion would be made the initial public opening of his candidacy for the next Democratic nomination for the presidency. In that respect his success has been phenomenal. No Ohio candidate for the presidency ever had that unanimity of sentiment in his favor among the delegates at a state convention than was shown at the meetings tonight by congressional districts for the selection of officers and the members of the various committees.

The Johnson men were opposed only in the selection of officers and in resolutions and the members of the new state central committee. The Johnson men secured fourteen of the twenty-one state committees, with three contested, and the greater proportion on those on the committee devoted to the convention tomorrow and adopted without any minority report.

When the roll of the committee on resolutions was called, members from three districts opposed the endorsement of Bryan and the Kansas City platform and other Johnson planks, but the Johnson platform was finally carried without change and it will be reported to the convention tomorrow and adopted without any minority report.

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Subscription rates: Per month, by carrier... \$1.50

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The autocrat of all the mergers, Mr. J. Pierpont Morgan...

Insanity experts are baffled by some peculiar facts brought out by statistics in New York.

School elections were provocative of contests of real interest in at least two cities of the county this year.

Official reports from the Interstate commerce commission contain figures on railroad development...

Over six hundred millions of passengers and eleven hundred million tons of freight were carried.

Twenty-seven hundred employees were killed. Less than five thousand passengers and more than forty-one thousand employees were injured...

The gross earnings exceeded one and a half billions and the net earnings five hundred millions, an increase for the year ending June 30, 1901.

That is dyspepsia. It makes life miserable. Its sufferers eat not because they want to, but simply because they must.

They complain of a bad taste in the month, a tenderness at the pit of the stomach, an uneasy feeling of puffy fulness, headache, heartburn and what not.

The effectual remedy, proved by permanent cures of thousands of severe cases is Hood's Sarsaparilla.

Hood's Sarsaparilla HOOD'S PILLS are the best cathartic.

A significant fact is that a considerable part of the gain in gold production noted in the contiguous parts of the United States is due less to the discovery of new fields than to an improvement in the mining processes.

Senator McLaurin of South Carolina has been re-elected by the Democrats of that state and Congressman A. C. Latimer has been accepted as a candidate for the seat he has been filling during the past few years.

The gain in production which may be attributed to an improvement in methods of mining and handling quartz and ore will probably be constant as methods are improved, and we are by no means through with our discovery of valuable gold bearing fields.

Henry Clews says, in his current letter on the stock situation, that the market has been dominated by a series of conflicting influences, such as good crops, the coal strike, monetary restrictions, reduction of Reading and Southern dividends and the manipulation of specialities by a few powerful operators.

Max O'Rell, the clever and discriminating Frenchman, does not hesitate to commend the English plan for the political re-constitution of South Africa.

It is officially announced from Johannesburg that Generals Botha and De la Rey are appointed members of the legislative council of the Transvaal.

The addition of two modern buildings to the plant of the Michigan College of Mines gives that institution an admirable opportunity to enlarge its sphere of influence and increase the efficiency of its work.

It is a good sign, as it shows that the Boers under English rule will have a voice in the direction of the affairs of the new colonies. It is a step in the right direction, such a good diplomatic act as this will prove to the Boers that if the English people have deprived them of independence, they do not intend to rob them of their nationality.

The monetary situation is, of course, the situation in, of course, the crops. While the outlook in this respect is less brilliant than a month ago, it is nevertheless certain that we shall have large crops of wheat, corn, oats and hay.

The West will enjoy a season of unusual prosperity. Cotton has declined considerably in condition, but the yield still promises to be larger than last year. The coal strike continues to be a drawback to the general market.

It is a perfectly sound inference, therefore, that the real market leaders will postpone any aggressive tactics until the monetary situation improves.

There are several very bullish cliques in the market, but their leadership does not seem to attract a large following. Even prosperity brings its dangers, chief of these being over-zealous speculation and unwise financing.

Upper Peninsula. The Gogebic county agricultural society will hold its fair and exhibition this year on Sept. 10, 11, and 12, at the Iron-wood Driving park.

Some smooth individual has discovered the fact that the Canadian penny when properly plated with silver and one side defaced, makes a good imitation of a twenty-five-cent piece, and has proceeded to improve a large batch of the coins with that treatment.

Henry E. Hendricks of Newberry has been bound over to the fall term of circuit court to answer to the charge of manslaughter.

An interesting experiment—the construction of sidewalks of graphite—has been tried by a couple of Iron River men.

The second annual agricultural fair will be held at Garden, Delta county, the last week in September.

John Manning of Crystal Falls has been bound over to circuit court charged with violating the liquor law by keeping his saloon open on Sundays.

Private Ehler, Company B, Fourteenth infantry, recently apprehended at Soo Junction and brought to Fort Brady for trial, escaped from the guard house the other night by going down to the basement and going through the cellar door leading outside.

Atlantic's August product was 268 tons; Baltic produced 466 tons, and the Quincy 1,174 tons, 355 pounds.

The Baltic machine shop has received a pipe cutter and threader, having a capacity to handle pipes from four to eight inches in diameter.

The domestic exports of copper for the month of August aggregated 11,469 tons, which makes the total exported since January 1, 117,480 tons, against 68,296 tons in the same period last year.

None of the forces at the mines or mills were from west of this month, as expected in some quarters.

Another gold mining company may be organized by copper country men to develop a Montana property.

George W. Hulson of Hancock left yesterday for Montana to look over the property in question and if its showing is as good as reported it is likely that Hancock and Calumet men will secure the property.

An Associated Press dispatch to The Mining Journal from New York last evening said: The local market for copper today started off weak and lower, suffering from a demand and the usual heavy offerings.

"I want all the world to know," writes Rev. C. J. Bndlog of Ashaway, R. I. "what a thoroughly good and reliable medicine I found in Electric Bitters."

A NEW JERSEY EDITOR'S TESTIMONY. M. T. Lynch, editor of the Philadelphia, N. J., Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family, but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it."

Avoid serious results of kidney or bladder disorder by taking Foley's Kidney Cure. People's Drug Store.

COPPER MINING. A VIEW OF COPPER SITUATION.

The American Metal market quotes an authority on copper as follows: "The copper market today is apparently dominated by a spirit of distrust amongst consuming buyers, and of indifference on the part of those who earlier in the year not only expressed confidence in 14-cent copper, but supported their expressions by large purchases of the metal."

Until within a day or so an order for some two million pounds of electrolytic copper for delivery over balance of the year has been almost daily offered to producing interests on the basis of 1 1/2 cents delivered.

The demand from consumers continues good and would become active were there any confidence in the future policy of the chief American producers, both the visible and invisible stocks of copper in Europe being exceptionally small.

From January to July show a total increase in the consumption of Europe of 28,467 tons, and in the exports from England of 6,460 tons.

James Lewis & Sons of Liverpool say: "A large bearing account being now open in standard copper, and the quantity available in the public stocks being unusually limited, the market is readily influenced by moderate purchases."

Atlantic's August product was 268 tons; Baltic produced 466 tons, and the Quincy 1,174 tons, 355 pounds.

It is likely that one head at the Adventure mill will go into commission next week. The first shipment of rock from mine to mill was made Monday.

The Franklin record of production for August—377 tons—is surprising, and that in the face of adverse circumstances, although the mine was not set back to any extent by the burning of No. 5 shafthouse.

The domestic exports of copper for the month of August aggregated 11,469 tons, which makes the total exported since January 1, 117,480 tons, against 68,296 tons in the same period last year.

None of the forces at the mines or mills were from west of this month, as expected in some quarters.

TO MOTHERS. Mrs. J. H. Haskins, of Chicago, Ill., President Chicago Arcade Club, Addresses Comforting Words to Women Regarding Childbirth.

"DEAR MRS. PINKHAM:—Mothers need not dread childbearing after they know the value of Lydia E. Pinkham's Vegetable Compound and find it keeps while I loved children I dreaded the ordeal, for it left me weak and sick

for months after, and at the time I thought death was a welcome relief; but before my last child was born a good neighbor advised Lydia E. Pinkham's Vegetable Compound, and I used that, together with your Pills and Sanative Wash for four months before the child's birth—it brought me wonderful relief. I hardly had an ache or pain, and when the child was ten days old I left my bed strong in health. Every spring and fall I now take a bottle of Lydia E. Pinkham's Vegetable Compound and find it keeps me in continual excellent health."

MRS. J. H. HASKINS. Care and careful counsel is what the expectant and would-be mother needs, and this counsel she can secure without cost by writing to Mrs. Pinkham at Lynn, Mass.

PUBLIC SCHOOLS REOPEN.

Will Have Charge of Worcester & Co.'s Lumber Operations Here.

W. F. MYRLEA, MANAGER.

The public schools of the county opened for the new school year yesterday morning, all as usual equipped for excellent work.

Each copper country school has a splendid corps of teachers. Good salaries are paid and none but the best teachers are employed.

Hancock's complete list of teachers is as follows: High school, Eugene La

Rowe, superintendent; A. C. Shong, principal; E. A. Myers, science; Mae Jaeh-

Bath, English; Elsie Downer, languages; Maud Lovering, mathematics. Grades,

Misses Mary Hughes, Mabel Webb, Bridget MacMahon, Marcy Carney, Mary

Kennedy, Christiana McKay, Annie Martyn, Margaret Malherbe, Jennie McLean,

Linta Harbourne, Agnes Looney, Mabel Moore, Sigrid Hansen, Mary Wallace,

Agnes McCarthy, Kathryn Merrick, Sarah Chamberlain and Susan McDon-

ough.

Houghton teachers are as follows: High school, E. H. Comstock, principal;

W. W. Knisley, director of commercial department; Miss Clara McOmber, eng-

lish; Miss Annie G. Merrick, Latin and history; J. P. Magnus-

son, science; E. J. Ferris, assistant in commercial department; Miss Edith

Watson, supervisor of drawing and music. Kindergarten, Miss Annie M.

Nye, director; Miss Kate Romp, and Miss Myrtle Whitman, first grade;

Gertrude Greedy, eighth grade; E. M. Souce, seventh grade; Elizabeth

E. Rawson, sixth grade; Alma Cook, fifth grade; Anna Junker, fourth grade;

Bessie Osborne, second grade; Ethel A. Brown, first grade; Alice Graham, first grade;

East Houghton, Bernice Ward, first grade; Lucy Raymond, fifth grade;

Katherine B. Kennedy, fourth grade; Helen M. Temple, third grade;

Jennie V. Ball, second grade. Houghton, Miss Elizabeth Reis, third and

fourth grade; Miss Annie G. Merrick, second grade; Florence Osborne, first

grade; Gertrude Ellis, sub-primary. Pilgrim school, Maud Menzie, Otter

Lake school, William Niemi. Lake Linden and South Lake Linden

teachers are: Lake Linden High school, C. G. White, superintendent; Mrs.

C. G. White, principal; Alice Graham, Katherine M. Stewart, Alice Cummings,

Gussie M. Newton, assistants. Grammar department, Inez Hollister, grade

B; Jennie Owens, grade C; Mary McKee, grade D; Anna Steffes, grade D1.

Primary department, Maggie Daley, grade A; Ida Kowal, grade B; Linda Groat,

grade C; Mary Nester, grade D; Minnie McKenzie, grade D1; Ida M. Fisher,

grade K. Grover school, grammar department, Mary J. McDonald, principal;

Anna Pope, grades B and C; Ella M. Leary, grade D; Georgia Edwards, grade

E; Ida M. Hagen, grade B. South Lake Linden school, primary department,

Jessie McLaughlin, grade C; Cecilia Lanouette, grade C1; Rose Kauf-

man, grade D; Jessie Paull, grade D1; Gwyneth W. Wilson, grade D2; Sara

Cameron (principal), grade K. Changes in Calumet Corps.

Superintendent Kratz began regular school duties at Calumet yesterday, taking the place of Frank W. Cooley, who

retired to Evansville, Ind. Mr. Kratz has an excellent reputation as an

educator and it is believed he will ably fill the position. W. R. Bradford is the

successor to A. L. Clark at the head of the manual training department. Mr.

Clark resigning to take a position in Chicago. Professor Bradford is highly

recommended. Other noteworthy appointments in the Calumet schools are

those of D. W. MacMillan, who succeeds Professor Hadley, resigned to accept a

position in Los Angeles, Cal.; Miss Anna Herman, as supervisor of music; Miss

Ellen Fliege, as supervisor of drawing; and Miss Rosa Daniel, supervisor of the

kindergarten and primary departments. The ladies named all reside in Calumet

and their appointments have met with the endorsement of school patrons.

The annual meeting of the Chassell township school district was held at

Chassell, Mich., yesterday evening. O. D. Bevilacqua and William Craig were

elected trustees. It was voted to raise \$2,000 for school expenses for the

present school year. Robert Hennes was elected to succeed himself as trustee at the

annual meeting of school district No. 1 of Portage township, held at Houghton Monday

evening. George Ruppe and Thomas Coughlin were elected trustees. It was

voted to raise \$17,000 this year, \$16,000 for expenses and \$1,000 for a sinking

fund. Professor Bishop, of Berrien county, is the new principal of the Chassell

school. His assistants are Miss Boggs of Hancock and Miss Gertrude Benson of

Chassell. Parochial Schools in Session.

St. Patrick's parochial school, at Hancock, opened for the fall term yesterday

morning. It has a partial new list of teachers, among them being Sister

Agnes of Ishpeming and Sister Anna of Marquette.

The Holy Rosary parochial school and St. Anne's academy, at Lake Linden,

also opened yesterday morning. The former has a faculty of three teachers and

prepares pupils for entry into the higher classes in the public schools. An attendance

of over four hundred is expected at St. Anne's academy, which has ten

teachers, aside from two instructors in music. Pupils are instructed up to the

grammar grades and are fitted for high school work.

The new high school building for the Sacred Heart church society of Calumet

will not be ready for occupancy until next Monday. School was opened, never-

theless, yesterday morning, in common with all other schools in the county,

the pupils being afforded accommodations in apartments attached to the Sacred Heart

church. Promotions in all grades and the high school department will take

place this week. Two courses are afforded the pupils, the Latin and com-

mercial. Especial attention is given in the latter to render the pupils efficient

to fill positions as bookkeepers and stenographers.

"I STOOD IN A DRAUGHT with my coat on and caught this wretched cold," says the sufferer. He need not pay a heavy penalty if he follows his act of folly in hot water, soak the feet in hot water with a few teaspoonful of Perry Davis' Painkiller in it. Take a teaspoonful in hot water at bedtime and water at bed in the latter to render the pupils efficient

to fill positions as bookkeepers and stenographers.

"New good digestion waits on appetite, and health on both."

If it doesn't, try Burdock Blood Purifier.

Foley's Honey and Tar is peculiarly adapted for chronic throat troubles and will positively cure bronchitis, hoarseness and all bronchial diseases. Refuse substitutes. People's Drug Store.

STRIKERS FIRE MINE

TORCH APPLIED, FOLLOWED BY RIOT, IN WEST VIRGINIA.

TROOPS EXPECTED THERE TODAY

NO SCENES OF DISORDER REPORTED IN PENNSYLVANIA.

Operations Are Resumed at Two Additional Collieries, but Mitchell Declares There Is No Change and Men Are as Firm as Ever.

Drumwell, W. Va., Sept. 2.—The situation in the Flat Top coal field is extremely critical. There was a skirmish between strikers and guards at the Pocahontas Collieries company's mines this morning, after the firing of a mine by their side was severely injured.

Adjutant General Baker, who had been in this section for a few days, looking over the territory, left last midnight for other fields, informing the operators before he left that he thought the present outbreak was unnecessary, yet we as miners, are glad to have them. They are principally union men, in sympathy with our cause. We, therefore, ask you not to withdraw them until the strike ends.

The resolution bears the names of the officers of the miners' organizations. It is supplemented by the following: "The meeting of the local union of United Mine Workers, three hundred members petition you to send troops to Winona, on Keeney's creek, to preserve order until the strike is settled."

Collieries at Wilkesbarre Resume. Wilkesbarre, Pa., Sept. 2.—The C. D. Biss mine of the Delaware, Lackawanna & Western company at Nanticoke resumed operations today. A large quantity of coal was run through the breaker.

The company officials say they have a large number of miners cutting coal. The strikers deny this, saying the coal is some which has been accumulating in the mine. Operations were also resumed at the Pettibone colliery of the Lackawanna company. At Tamaqua, the Lehigh Coal & Navigation shops, which had been idle for two months, resumed work this morning. Major Gearhart, in charge of the troops at that place, said the situation has improved considerably.

No Change, Says Mitchell. Wilkesbarre, Sept. 2.—President Mitchell, of the United Mine Workers, returned from Philadelphia tonight. He said that as far as he was aware, there was no change in the strike situation. The miners are as determined as ever, and did not propose to work until the operators granted their demands or agreed to arbitration. Mitchell said he placed no credit in the reports that certain mines are in operation and turning out a large amount of coal for the market.

Injunction Violation Case Adjudged. Charleston, W. Va., Sept. 2.—Judge Keller today heard preliminary motions in the contempt case against the strikers arrested at Rend and adjourned the hearing of the main issue to the first day of the regular term here, on Dec. 8. The defendants are charged with violating the injunction issued by Judge Keller at the suit of the Chesapeake & Ohio Coal company. It is not likely the case will ever be heard, for the strike is ended before the court meets there will be nobody enough interested to prosecute it.

NEW RECORD IN TEAM SHOOT. New York Marksmen Win the Hilton Trophy by Big Score. Sea Girt, N. J., Sept. 2.—The record in the Hilton trophy match—a total of 1098 out of a possible 1200, established a year ago by the District of Columbia team—was surpassed by New York by thirty-nine points today, the marksmen representing the Empire state rolling up a total of 1137. New Jersey was second, with 1124, and the District of Columbia third, with 1100.

Both Hal H. Leizner of Pennsylvania and Dr. Hudson of New Jersey, broke the record for individual scores. Each attained a total of 101 out of a possible 105, but Leizner is entitled to the highest honor, having the best score at the longest ranges.

The Hilton trophy was won by New York in the years 1878, 1879, 1881 and 1883, the highest total until today being 1065 points. Every man shooting in the match fired seven shots each, at 200, 500 and 600 yards.

BLOODY RIOTS IN AUSTRIA.

Mob of Croats Rules a City for Two Days—Wrecks Great Havoc.

Vienna, Sept. 2.—The rioting which occurred at Agram on Sunday in connection with a demonstration on the part of Croatian students against the Serbian inhabitants during which the police charged with drawn swords and many persons were wounded, was renewed Sunday evening. It was only quelled Monday evening after the adoption of severe military measures. Houses were wrecked, shops were plundered and over a hundred persons were injured.

Caused by Newspaper Article. Agram, Sept. 2.—The cause of the rioting here was an anti-Croatian article published in a local Serbian newspaper. A Croatian mob, composed mostly of students, attacked the offices of the paper and the Serbian bank and burned copies of the newspaper in public. The governor of Agram and the garrison being absent at the maneuvers, the rioters had a free field.

On Monday, all the Serbian shops and cafes were completely wrecked, furniture was destroyed and goods were burned. Casks of wine and spirits were broken and thrown into the streets, and windows, doors and sign boards were destroyed. The police used their swords and revolvers to good effect, but they were soon overpowered, many being seriously wounded.

By Monday night the rioters were masters of the situation as there was only half a company of artillery in town. They wrecked the street lamps and then continued their work of destruction by torchlight, going systematically from street to street. Thirty persons are at present in hospitals as a result of the trouble; they are mostly policemen. A large number of other persons were injured.

Monday night troops arrived from Karlstadt and patrolled the streets until early this morning. The commander of the garrison and his troops returned here from the maneuvers today.

TO PRINT THE TAX LISTS. Auditor General Powers Designates the Upper Peninsula Newspapers.

Lansing, Mich., Sept. 2.—The auditor general, Perry F. Powers, today announced that the following upper peninsula newspapers have been designated to publish the delinquent tax lists for the May sale of 1903:

Alger—Munising Republican. Baraga—L'Anse Sentinel. Chippewa—So Journal. Delta—Escanaba Mirror. Dickinson—Norway Current. Gogebic—Bessemer Herald. Houghton—L'Anse Journal. Iron—Iron Reporter. Luce—Newberry News. Mackinac—St. Ignace Republican. Marquette—Marquette Mining Journal. Menominee—Menominee Herald. Ontonagon—Ontonagon Herald. Schoolcraft—Mansfield Courier.

TO SPEND WINTER IN NORTH. Baldwin Building Quarters at Tromsø for His Dogs and Ponies.

Tromsø, Sept. 2.—Evelyn B. Baldwin, of the Baldwin-Ziegler Arctic expedition, is constructing winter quarters for his ponies and dogs near this city. Part of the crew of the America will remain here to take care of the animals. The United States consul at Bergen, Victor E. Nelson, is still busily engaged in investigating the dispute between Baldwin and Captain Johannsen, of the America.

LIPTON TO TRY IT AGAIN. Is About to Issue Another Challenge for the American Cup.

Belfast, Sept. 2.—Mr. Carmichael, private secretary to Sir Thomas Lipton, is authority for the statement that Sir Thomas will immediately issue a challenge for the America cup. The challenge will be made through the Royal Ulster Yacht club.

EXTRADITED MAN DISCHARGED. Bismarck, N. D., Sept. 2.—Charles L. Fay of Portland, Ore., an insurance man, who was extradited by the Wisconsin officials and held here under a writ of habeas corpus, was discharged from custody by Judge Winchester, of the district court, today. The court held that the governor of a state could revoke a warrant for extradition and that the revocation was effective after the prisoner had been taken out of his state. This is the first time this point has been raised in the Northwest and the case aroused great interest.

JUDGE HORTON, KANSAS, DEAD. Topeka, Sept. 2.—Judge Albert H. Horton, ex-chief justice of Kansas, died tonight, aged sixty-five. He was taken ill with pneumonia eight months ago. He recovered, but the disease led to a pulmonary affection. Two weeks ago he was brought home from a sanitarium at Kenosha, Wis. Judge Horton was chief justice from 1877 to 1885. He was prominent in Republican politics and at one time came within a few votes of defeating John J. Ingalls for the United States senate.

TODAY'S WEATHER. Washington, Sept. 2.—The following is the weather bureau's forecast for Upper Michigan: Fair Wednesday, cooler at night. Thursday, fair. Light to fresh south winds, shifting to west.

NAMED FOR CONGRESS. Milwaukee, Sept. 2.—Lewis C. Baker of Milwaukee was nominated for congress tonight by the First district Democratic convention.

FIREBUG AT BARAGA

TWO BUILDINGS DESTROYED IN BUSINESS SECTION.

ANOTHER, ADJOINING, IS DAMAGED

TWO BARN VISITED LATER IN NIGHT BY INCENDIARY.

One of Them Is Burned to the Ground—Two Men Arrested on Suspicion and There Is Much Excitement at the Sawmill Town.

Baraga, Mich., Sept. 2.—Fire here at 10 o'clock last night destroyed two buildings belonging to Nast & Karger, occupied by August Tang as a saloon and residence and by Joseph Gauthier as an office, and damaged J. G. Rea's drug store, adjoining. Most of the contents of the buildings were saved. The Baraga fire department did good work in saving the Real building, which was separated from the structures destroyed only by the space of a foot. The burned and damaged buildings were insured. The origin of the fire is unknown, but it is believed the blaze was the work of an incendiary. Tramps are blamed.

About midnight a barn belonging to Axel Johnson was destroyed by fire. Another barn, situated near the Baraga Lumber company's mill, was also set on fire, but the blaze was discovered and quenched before it had time to do much damage.

Two suspicious characters were arrested on suspicion of being the incendiaries. There is much excitement in the town.

BAD FIRE EARLY TODAY. Blaze in Business Part of Bloomington, Ill., Does Damage of \$200,000.

Bloomington, Ills., Sept. 3.—At 1 o'clock this (Wednesday) morning, fire started in the south side of the public square and is still in progress, threatening the entire business district. The drug store of Ripley & Strickland has been completely destroyed, causing a loss of \$25,000. The large dry goods store of A. Livingstone Son's, adjoining where the fire originated, is a loss with a stock valued at a hundred thousand. The hardware store of the Holden-Miner company is also burning and the loss will be heavy. A number of other concerns will suffer heavy loss from water.

Later—At 2:30 a. m. the fire is practically under control. The total loss is estimated at two hundred thousand.

COMPLEXION TO COST LIFE. Two Girls of Durand, Ills., May Die from Eating Arsenic Wafers.

Rockford, Ills., Sept. 2.—Miss Ethel Feltz and Miss Effie McKimber, two young girls of Durand, were found last evening unconscious and critically ill in the home of Miss Feltz as the result of eating arsenic wafers. The poison wafers were advertised as being good for the complexion and the girls had eaten a number of them. It is doubtful whether they will recover.

BASEBALL. National League. Philadelphia, Sept. 2.—In the first game, the locals bunched their hits in the fifth and made enough runs to win. In the second contest, Menefee was hit freely. Summaries: R. H. E. Chicago... 010000000 4 7 1 Philadelphia... 000040000 4 7 1 Batteries: Williams and Kling; Berg and Douglas.

Second game: Chicago... 011000101 4 9 2 Philadelphia... 00101320 7 12 0 Batteries: Menefee and Kling; Fraser, White and Douglas.

Boston, Sept. 2.—The visitors found Pittinger quite to their liking in the first game. In the second game the locals managed to bunch enough hits in the sixth to win. Summaries: Boston... 011000000 4 7 1 Cincinnati... 010001201 5 13 1 Batteries: Pittinger and Moran; Hahn and Bergen.

Second game: Boston... 100003000 4 9 1 Cincinnati... 002000000 2 6 2 Batteries: Willis and Kittredge; Phillips and Maloney.

New York, Sept. 2.—St. Louis won out today in a sharp fielding game. Summary: St. Louis... 000010001 2 8 1 New York... 001000000 1 5 0 Batteries: M. O'Neill and J. O'Neill; McGinnity and Bowerman.

Brooklyn, Sept. 2.—The visitors won the first game by bunching their hits. In the second, Newton held the visitors down to three hits and shut them out. Summaries: Brooklyn... 001012010 5 8 2 Brooklyn... 011000010 3 11 1 Batteries: Phillips and Phelps; Hughes and Farrell.

Second game: Pittsburgh... 000000000 0 3 3 Brooklyn... 10000020 3 5 0 Batteries: Callahan and McFarland; Young and Origer.

St. Louis—No game; postponed on account of the non-arrival of the Washington club because of railroad wreck.

PRESIDENT IN MASSACHUSETTS.

Again Talks of Trusts and Defends the Army in the Philippines.

Dalton, Mass., Sept. 2.—President Roosevelt today took notice of his return visit to Massachusetts by delivering at Fitchburg, another speech on the trust question in order that he might fully express his attitude on the subject. He also today launched into a defense of the army in the Philippines, this being during his speech at Springfield. The president dwelt particularly upon the duty of American citizens to respect the soldiers fighting the warfare of the tropical jungle, subject to many temptations, taking this subject because Springfield is the home of some well-known critics of the Philippine campaign. The impression had gone forth that any views the president might express here regarding the United States, would be readily received, but the demonstrations of approval which greeted his utterances dispelled the idea.

Frequent stops were again made today, and at each place the president delivered a speech. Fitchburg's reception was enthusiastic and the president and the enthusiasm which the people displayed. In the afternoon, at Worcester, the president lunched with Senator Hoar. At Springfield, another hearty greeting was given the president. The address there followed a brief visit to the national acquisition of territory by the train the president's carriage stopped in front of the Veterans' Memorial home and he spoke a few words to the old soldiers who were drawn up in front of the house.

In the course of his tour of the New England states, the president has available complimentary references to the members of his official family. Tonight Secretary Cortelyou came in for praise. At Westfield, the scene of the boyhood days of the president's helper, a stop of half an hour was made. The applause was spontaneous and the president mentioned his secretary's name.

Governor Crane tonight has the president as his guest here. The town is beautifully illuminated.

ACCIDENT COSTS A \$10,000 RACE. Favorite Wins by a Fluke in the Charter Oak Stakes.

Hartford, Conn., Sept. 2.—Anzella trotted two slow heats in the Charter Oak \$10,000 event today, and then went in and won in three straight heats. The race was marred by a bad fluke in the last heat, when Idolita and Hawthorne came together at the three-quarter pole, both horses going down. The horses and drivers, however, were uninjured. The accident was caused by Driver Tosier fouling the wheelguard of Hudson's sulky. Idolita had won two heats and held a good position in the heat which won for Anzella the race.

In the first heat Anzella broke at the start and again in the back stretch. Metallus gave Idolita a hard drive. In the second heat Metallus led, but Idolita took the heat. The third heat was easy for Anzella. The fourth heat looked good for Hawthorne, but he broke at the wire, and though Anzella had broken twice she came in the winner. The fifth heat was an easy win for the favorite. The best time was 2:09 1/2.

Direct Hal, the favorite, won the 2:30 heats and held a good position in the heat which won for Anzella the race.

Don Riley won the 2:11 pace; best time, 2:07. The 2:16 trot went to Prince Zelma after four heats. Eula Mac, the favorite, was distanced in the fourth heat. Billy H. was the favorite in the 2:11 pace, won by Riley.

CHURCH COLLECTS \$40,000,000. Methodists Make Good Progress With Twentieth-Century Fund.

New York, Sept. 2.—The Church Economist has collected statistics showing the progress made in the collection of the twentieth century funds, which were started all over the world for a number of special objects, such as the payment of church debts, the support of conference claimants, the purchase of the London Aquarium, so that British Methodists might have headquarters, and the endowment of colleges. Already the funds have reached a total of \$40,000,000, and, although there remains \$10,000,000 to collect, there is no reason, in view of the success up to date, to apprehend any difficulty in completing the funds in the required time.

MAN HUNT IN IOWA. Whiting, Ia., Sept. 2.—The condition of Sheriff Strain of Monona county, who was shot in the abdomen while attempting to arrest Edward Carns last night, continues serious. Carns is still in hiding, though a posse of several hundred men with blood hounds has been searching for him today.

FALLS FROM TRAIN UNHURT. Carlyle, Ills., Sept. 2.—Reece Sanders, aged twelve years, while asleep last night fell out of a car window from a train running fifty miles an hour, twelve miles west of here, and was uninjured. He had fallen into a dense growth of grass and escaped save for a few scratches on the face.

AFRICAN GALE COSTLY TO LIFE. Cape Town, Sept. 2.—It is estimated that a large number of persons were drowned in Algoa bay during the storm which swept over Port Elizabeth yesterday.

Mother—Now's the time to have your little ones take Rocky Mountain Tea. Keep them well all the year. Great Medicine for children. 35 cts. Stafford Drug Co.

FEET SWOLLEN TO IMMENSE SIZE. "I had kidney trouble so bad," says J. J. Cox of Valley View, Ky., "that I could not work. My feet were swollen to immense size and I was confined to my bed and physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure, which made a well man of me." People's Drug Store.

FOOTBALL IN WEST

GAME THIS YEAR WILL BE BETTER THAN EVER BEFORE.

CHAMPIONSHIP TO BE SETTLED

SCHEDULES CALL FOR CONTESTS BETWEEN ALL COLLEGES.

Four or Five Teams Bid Fair to Be Very Evenly Matched and Will Meet Late in the Season—The Situation Sized Up.

Detroit, Mich., Sept. 2.—There will be a champion football team in the West this season. The debated supremacy of the big university elevens will be settled, for the schedules of each of the big schools includes games with the elevens of all the others and the uncertainty as to the first honors, which has held in the past years, will be removed.

Championship a Question Last Year. The football season of 1901 ended in the West as in the previous year, with the question of the championship unsettled, two teams, Michigan and Wisconsin, claiming first honors, neither of them being able to substantiate their claims in a convincing manner, but the partisan followers of each institution figuring out a championship title, each to his own satisfaction, by the use of comparative scores. Wisconsin, by defeating Minnesota and Chicago by decisive scores, was a natural claimant for the championship. Michigan disposed of her opponents in easy fashion, having had the best team in the history of the institution, and she was likewise as strong a claimant as Wisconsin, and it is to be regretted that Michigan did not meet either Minnesota or Wisconsin and thus settle the much-mooted championship question.

This fall promises to see better football in the West than for many years past. No one university team will be a star, for four or five elevens all bid fair to be strong and evenly matched and some terrific contests may be looked for. Several things unite which promise to make the season of 1902 remarkable in Western gridiron circles. Old difficulties have been patched up and a spirit of greater friendliness pervades the Western colleges than ever before.

At least on the surface the difficulties do not show. If the coming season can be finished in peace there is every hope that the big teams will be left on the same amicable footing at the season's end that they now enjoy.

Four Strong Teams Promised. Three teams, Michigan, Wisconsin and Minnesota, will have elevens to be mutually feared. Michigan and Wisconsin will meet for the first time since 1899, in the Thanksgiving day game of which year at Chicago the Badgers thrashed the Wolverines. Michigan will also meet Minnesota and this game, probably in Detroit, will be the concluding battle on Thanksgiving day. The probabilities are that the championship will lie between Wisconsin, Minnesota and Michigan, and should the husky Minnesota eleven and the Ann Arbor men come together, each with unbroken strings of victories, this Thanksgiving there will be the greatest football contest ever seen in the West.

There is another university that must be reckoned in the counting this year—North Carolina. Stagg has been silently hustling ever since last fall and now has a lot of good material to add to his veterans of last year. It would not be a great surprise to see the Midway Maroons show up strongly, for A. Alonzo Stagg's specialty is surprises. Minnesota, with Dr. Williams as coach and her big hunch candidates for the team, will be the most dangerous rival, probably, that Michigan will have. Each year this team springs a few eye-openers with veterans of three years or more football experience. Dr. Williams will doubtless make the Gophers worthy of constant watching.

Old Coaching Systems Retained. Michigan, Minnesota, Chicago, Wisconsin and Iowa will all be under the same coaching systems as last fall and the teams, therefore, can all be regarded as veteran elevens in point of style of play. And there will not be any wholesale vacancies in the ranks of the teams either. Western coaches are to be as follows: West, Michigan; Williams, Minnesota; King, Wisconsin; Smith, Illinois; Hollister, Northwestern; Knipe, Iowa; Stagg, Chicago; Booth, Nebraska.

All of these coaches are likely to teach this year, as they have in the past, a more and more open style of football. Tricks and fake plays are gradually becoming less popular as the advantages of straight playing of the old style become apparent. Each coach has his own ideas and particular styles of play, but the general run of football this fall will be toward direct play.

Along this same line it is to be noticed that the game is being played more scientifically each year by the colleges of the West, due largely to the fact that more attention is being paid to the sport and men hired to coach who have served their terms under the greatest football men of the time.

All Playing Same Style Game. In style of play used in the West during the past season, the tendency toward the straight consistent football of the old school has been very marked, and it is safe to assume that within the next few years all the large teams of the West will be playing practically the same style of game, the system of the various coaches differing only in the minor details.

Trick plays and fancy formations that work beautifully on paper have gradually been abandoned, and instead of lying awake nights figuring out new plays the tip-toe coach spends his time in perfecting the old ones and teaching each man how to play his position scientifically. This movement is certainly along the right lines, as it is placing the game

The Life of a Watch IAS BOSS Stiffened Gold Watch Cases

On a scientific basis where head work counts more than mere strength, and removes the objectionable feature of the game. It is in the development of this side of the game that the East is ahead of the West.

With plenty of money to spend for coaching, a corps of efficient graduate coaches in charge of an Eastern team with the result that each member of the eleven is thoroughly coached in all the fine points of the game by a past grand master in the sport.

Big Games Come Late. The big games in the Western schedule are practically all for November. This will bring the decisive contests late in the season after each of the big college elevens has scored a glowing list of victories over the minor colleges. All of the big teams have schedules that include all or most of the other championship aspirants.

Some Old Stars Gone. Of all the teams, Wisconsin and Michigan lose the most men, both in the line and in the back field; Larson, Cochems, Show and Curtis leaving the Badgers; and Snow, White and Shorts leaving Michigan, Snow and White from having served four years, and Shorts by sickness.

STOCKS ACTIVE AND STRONG. Entire List Moves Upward and New High Records Are Made. New York, Sept. 2.—The resumption of operations in the stock market after the triple holiday was accompanied by increased activity and strength in the entire list.

BOSTON STOCK SALES. The following were the transactions in copper stocks on the Boston exchange yesterday as furnished to The Mining Journal by Paine, Webber & Co.:

CLEANLY WOMAN. Erroneously Thinks by Scouring Her Scalp that She Cures Dandruff. Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff.

CANNEL COAL. We have just received a few cars of fresh mined Butts' Cannel coal for open fires. F. B. SPEAR & SONS (8-27-1w)

FOR SALE—
Iron mine for sale on Marquette Iron
Range. For further information in-
quire of M. Gleason, Gladstone, Mich.,
or Joseph Mitchell, Beacom, Mich.
(8-12-17)

News of That City Hints at a Possibility
of a Resumption There.

In commenting on the purchase, by F.
B. Baird of Marquette, of the Martel
stack at St. Ignace, with the purpose of
putting it in blast to operate continu-
ously, the Newberry News says:
It is also a well established fact
that there is something doing in
connection with the Newberry furnace.
For several weeks past vague rumors
have been afloat concerning the possible
resumption of active operations at the
furnace and last week these rumors as-
sumed a little more tangible form.
Mr. E. J. Burrell of Manistique accom-
panied by his attorney, Mr. W. G.
Sharp, was in town then, looking over
the furnace property. He stated to
some Newberry people that if a suffi-
ciently large tract of hardwood could
be secured at anywhere near a reason-
able figure the furnace would undoubt-
edly be repaired and put in blast. This
would also mean the erection of a wood
alcohol plant.

Two days following Mr. Burrell's visit,
Mr. Harry Brouseau, a furnace expert
in the employ of the steel trust, arrived
and spent some time in looking
over the furnace property. Mr. Brou-
seau had very little to say concerning
his mission, other than that the people
he represents were buying up all the fur-
naces they could get hold of that could
be operated profitably.

Just what these moves on the checker
board means it is hard to tell, but it
is a pretty well established fact that
parties with strong financial backing are
looking up the furnace property with
the idea of putting it into operation.
The resumption would mean much to the
business interests of Newberry and it is
earnestly hoped that the consummation
of this renewed awakening of the iron in-
dustry in this village may soon be an ac-
complished fact.

Later—it has just been learned by the
News that Charles McNeal, who owns a
tract of 16,000 acres of hardwood a few
miles north of town, has given an option
on the same to a party named Fitzger-
ald. Whether Mr. Fitzgerald represents
the furnace people is not known.

NEWBERRY FURNACE.

SEVENTEEN-YEAR-OLD BOY.

Sentenced to Serve Fifteen Years at
Hard Labor in Marquette Prison.

According to the Detroit Free Press, it
is probable that within a few days steps
will be taken to bring to the attention
of the state prison board the case of
Benjamin Sills, Detroit youth, who, a few
days ago, was sentenced by a Lapeer
judge to fifteen years' hard labor at
Marquette for attempted assault on
Mrs. Sidney Castle, residing near La-
peer. While it may not be possible to
have the sentence which Sills is now
serving shortened, although those back
of the movement hope to do so, it is con-
fidently believed that it will be possible
to secure the transfer of the prisoner
from Marquette prison to the Ionia re-
formatory, an act which the judge who
sentenced Sills refused point blank to
do when the boy's mother beseeched him.

Mrs. Hutte and Ranney Hutte of Es-
canaba, who have been spending the past
few days with Joseph Davis and family,
North Third street, left for their home
last evening.

Miss Genevieve Roberts of Lake Lin-
den, who has been spending the past
few weeks with Mr. and Mrs. Frank
LaBonte and family, left for her home
yesterday afternoon.

John Cominsky, prosecuting attor-
ney of Delta county, Judd Yelland, F. H.
Atkins and F. M. Olmstead of Escanaba
are in the city attending the present
term of the United States court.

Superintendent Thompson desires all
parents having children who should be
in attendance at the grade schools, which
are now open all over the city, to send
them around for enrollment immediately.

Miss Cecil Grylls, who is about to leave
for Chicago to make that city her place
of residence, will conduct a sale of water
colors, frames, etc., at her art studio in
the Nester block, commencing with to-
day.

The extra class of the German Luther-
an German school, which meets at 4 p.
Mondays, Wednesdays, Fridays and
Saturdays is for English pupils. The
Saturday morning class at 9 o'clock is
for German pupils.

The court house is about at the end
of its journey to the site of its tempo-
rary location. It will be in readiness for
the opening of the September term of
court, as it will be off the rollers before
the end of the week.

Mrs. H. R. Harris, Mrs. J. E. Ball, Mrs.
S. S. Ormsbee and Miss Josephine Egan
sailed yesterday on the steamer Cen-
tury for the round trip, to one of
the lower lake ports. They will be ab-
sent from the city for several days.

Edwin Walker, a prominent Chicago
attorney, is here looking after the in-
terests of the Diamond Match company
in its suit pending in United States
court. He is accompanied by his daugh-
ter, Mrs. Louise E. Kimball, also of Chi-
cago.

Yesterday in Justice Byrne's court
Isaac Makki was bound over for trial
before Judge Stone, charged with a mur-
derous assault on John Tuari, another
Finlander. The assault was committed
Sunday night, Makki using a knife on
the body of his attack. Tuari was cut
badly, although his wounds are not
serious.

Orto Muhlhauser brought a black bear
to the city yesterday morning. He shot
the animal early Sunday morning at
Eight Kilns. The bear was accompanied
by two cubs, but they both got away,
although Muhlhauser endeavored to bag
them. The big bear showed fight, com-
ing right at him, but one bullet dis-
abled the animal, it taking effect in his
head. The bear weighed 165 pounds.

There will be an attractive excursion
Sunday over the lines of the L. S. & L.
M. & S., and Munising railways from
Ishpeming, Negaunee and Marquette to
Munising, including a three hours lake
trip from Munising on the steamer Fri-
ant, which will visit Grand Island and
Picturesque Rocks. General Passenger
Agent St. John has fixed an unusually
low fare for the trip, it being \$1.25 from
Negaunee and Ishpeming, and \$1 from
Marquette, including the lake excursion.
Beach Inn is now open and will afford
ample accommodations for those desir-
ing meals at Munising.

Mr. and Mrs. J. H. Primeau were
agreeably surprised Monday evening,
on the occasion of Mr. Primeau's fifty-ninth
birthday, by a party of about seventy-
five of their friends. The visitors came
supplied with plenty of refreshments.
Dr. Z. Vadnas, in behalf of the party,
presented Mr. Primeau with a handsome
chair as a testament of the esteem in
which he is held by his friends and
neighbors. The recipient made a happy
response of thanks. Features of the
evening were dancing and vocal and in-
strumental music. A midnight celebra-
tory lunch was served. It was in the
small hours of the morning when the
jolly party dispersed.

Rocky Mountain Tea taken now will
keep the whole family well. If it fails,
bring it back and get your cash. 35 cts.
The Stafford Drug Co.

Terrific plagues, those itching, pester-
ing diseases of the skin. Put an end
to misery. Doan's Ointment cures. At

SEVENTEEN-YEAR-OLD BOY.

SEVENTEEN-YEAR-OLD BOY.

Sentenced to Serve Fifteen Years at
Hard Labor in Marquette Prison.

According to the Detroit Free Press, it
is probable that within a few days steps
will be taken to bring to the attention
of the state prison board the case of
Benjamin Sills, Detroit youth, who, a few
days ago, was sentenced by a Lapeer
judge to fifteen years' hard labor at
Marquette for attempted assault on
Mrs. Sidney Castle, residing near La-
peer. While it may not be possible to
have the sentence which Sills is now
serving shortened, although those back
of the movement hope to do so, it is con-
fidently believed that it will be possible
to secure the transfer of the prisoner
from Marquette prison to the Ionia re-
formatory, an act which the judge who
sentenced Sills refused point blank to
do when the boy's mother beseeched him.

Mrs. Hutte and Ranney Hutte of Es-
canaba, who have been spending the past
few days with Joseph Davis and family,
North Third street, left for their home
last evening.

Miss Genevieve Roberts of Lake Lin-
den, who has been spending the past
few weeks with Mr. and Mrs. Frank
LaBonte and family, left for her home
yesterday afternoon.

John Cominsky, prosecuting attor-
ney of Delta county, Judd Yelland, F. H.
Atkins and F. M. Olmstead of Escanaba
are in the city attending the present
term of the United States court.

Superintendent Thompson desires all
parents having children who should be
in attendance at the grade schools, which
are now open all over the city, to send
them around for enrollment immediately.

Miss Cecil Grylls, who is about to leave
for Chicago to make that city her place
of residence, will conduct a sale of water
colors, frames, etc., at her art studio in
the Nester block, commencing with to-
day.

The extra class of the German Luther-
an German school, which meets at 4 p.
Mondays, Wednesdays, Fridays and
Saturdays is for English pupils. The
Saturday morning class at 9 o'clock is
for German pupils.

The court house is about at the end
of its journey to the site of its tempo-
rary location. It will be in readiness for
the opening of the September term of
court, as it will be off the rollers before
the end of the week.

Mrs. H. R. Harris, Mrs. J. E. Ball, Mrs.
S. S. Ormsbee and Miss Josephine Egan
sailed yesterday on the steamer Cen-
tury for the round trip, to one of
the lower lake ports. They will be ab-
sent from the city for several days.

Edwin Walker, a prominent Chicago
attorney, is here looking after the in-
terests of the Diamond Match company
in its suit pending in United States
court. He is accompanied by his daugh-
ter, Mrs. Louise E. Kimball, also of Chi-
cago.

Yesterday in Justice Byrne's court
Isaac Makki was bound over for trial
before Judge Stone, charged with a mur-
derous assault on John Tuari, another
Finlander. The assault was committed
Sunday night, Makki using a knife on
the body of his attack. Tuari was cut
badly, although his wounds are not
serious.

Orto Muhlhauser brought a black bear
to the city yesterday morning. He shot
the animal early Sunday morning at
Eight Kilns. The bear was accompanied
by two cubs, but they both got away,
although Muhlhauser endeavored to bag
them. The big bear showed fight, com-
ing right at him, but one bullet dis-
abled the animal, it taking effect in his
head. The bear weighed 165 pounds.

There will be an attractive excursion
Sunday over the lines of the L. S. & L.
M. & S., and Munising railways from
Ishpeming, Negaunee and Marquette to
Munising, including a three hours lake
trip from Munising on the steamer Fri-
ant, which will visit Grand Island and
Picturesque Rocks. General Passenger
Agent St. John has fixed an unusually
low fare for the trip, it being \$1.25 from
Negaunee and Ishpeming, and \$1 from
Marquette, including the lake excursion.

Ishpeming and its Environs.

(Additional Ishpeming on Page Seven.)

LAKE LINDEN BOYS PLEASSED WITH THEIR ENTERTAINMENT HERE.

The Lake Linden firemen on their return from the annual tournament of the Upper Peninsula Firemen's association paid the Ishpeming fire laddies the highest tributes for the right royal reception tendered them while in the hemate city last week, says the Houghton Mining Gazette in its Lake Linden department. The Lake Linden department, as also the other departments of the copper country, were extended an invitation to visit Ishpeming on Saturday morning. The local firemen accepted the invitation and they will never forget the most pleasant manner in which they were entertained by the Ishpemingites. The visit to the Hemate City was one of the most pleasant features of the tournament of 1902 and the boys from Lake Linden will ever be grateful to their entertainers on that occasion for the very generous manner in which they were received.

BOGUS BLACK DIAMONDS.

Upper Peninsula Mining Men Said to Have Bought Them.

If, as the Duluth Tribune suggests, any upper peninsula mining men were taken in by a vendor of bogus black diamonds to be used in diamond drill work, they have made good the loss, swallowed their disappointment and said nothing. However, it is unlikely that any northern Michigan people were caught by this unique swindler, of whom the Tribune says:

A clever swindler has been working with the sale of fake black diamonds for diamond drill work. He gives the name of Ernest Smith and says that the carbons were taken out of the pockets of a Boer general who was killed in one of the engagements in South Africa during the late war there. Smith has visited Duluth, but it cannot be learned that he has succeeded in working off any of his goods here. It is reported, however, that he has sold some of the bogus carbons in upper Michigan.

"The fake carbons that this man Smith exhibited for sale looked very fine," said a Duluth mining man yesterday. "I would probably have bought some if he had not offered them at such a ridiculously low price. Henry Demert's quotations were about \$55 a karat, but this man was willing to part with his for \$25 a karat. I at first suspected that the carbons were stolen. Then I concluded that they were bogus and in the latter conclusion I was right, as I have since ascertained."

"Never mind how I know. You will never find any mining man willing to admit that he has bitten at Smith's carbon game. But I happen to know that some of the boys down in northern Michigan bought some of the imitation carbons and did not suspect the deception until they had tried them and found them worthless."

The War Story.

"The man Smith put up a romantic story. He said that he was a soldier in the English army in the South African campaign, and that he took a package from the dead body of a Boer general who had been killed in action. Of course the story was fishy. If the carbons had been genuine he could have sold them in London for twice what he was asking while peddling them about the country. Smith was shabbily dressed and very quick and nervous acting. He showed up in Duluth about two weeks ago and was not here more than a couple of days."

Henry Demert of New York who sells black diamonds for mining purposes, is at the Spalding. He was asked if he had heard of the fake diamond man and replied that he had. "I have not run across him," Mr. Demert said, "but I hear of him every little while. He must have a big package of those imitation carbons or else he is having trouble selling a few. If he has got genuine carbons to sell at the prices I have heard quoted I would like to buy all he has myself."

Mr. Demert says that the supply of carbons for diamond drill work is not equal to the demand, especially since mining explorations have been resumed in South Africa. Advice from Bahia, Brazil, he declares are discouraging as to supplies for the immediate future, and he asserts that 800 to 865 a karat is prospective.

FORTUNE FAVORS A TEXAN.

"Having distressing pains in head, back and stomach, and being without appetite, I began to use Dr. King's New Life Pills," writes W. P. Whitehead, of Kenedale, Tex., "and soon felt like a new man." Infallible in stomach and liver troubles. Only 25c at Stafford's drug store.

DOCTORS COULD NOT HELP HER.

"I had kidney trouble for years," writes Mrs. Raymond Conner of Shelton, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief and I am now cured. I cannot say too much for Foley's Kidney Cure. People's Drug Store."

LEUTENANT D. P. QUINLAN.

He Receives Flattering Mention in a California Paper.

The Nation, a paper published at San Francisco, Cal., recently gave Lieutenant Dennis P. Quinlan of this city, the following mention:

"It affords us great pleasure to present a photo of Lieutenant Quinlan, Lieutenant Quinlan belongs to the 'fighting race' and is proud of it, and in far off Luzon he fought for the Stars and Stripes as gallantly as any of our boys who crossed the Pacific to maintain the prestige of the Republic. Indeed, in the matter of tried courage his is an exceptional instance and he won his commission in the regular army by the merit of his gallant work in the field. It is not often this advancement occurs and the man who gains it sets a great example, and it is an assurance that he is no ordinary man. The soldier who rises from the ranks as Lieutenant Quinlan has risen has just reason to be very proud of his record."

To give the full story of Lieutenant Quinlan in the Philippines would take considerable space. It would be an exciting narrative all the way through, and we hope sometime to give it more at large than our space now permits. When he went there at the outbreak of hostilities with Spain he was in the full vigor of manhood, a handsome, daring young man. He already had gained some experience of the world and he benefited by it. He was well raised and well educated in Michigan, and came of good stock. He had an uncle, we believe, who fought in Canada as a true Fenian. His education was excellent, and he was in the state treasurer's office in Michigan, and afterwards with the government survey, coming out to California in business here for a time. It was at this period he met Major Fahey, and there has been a sincere friendship ever since. When war broke out he threw aside everything and enlisted just as the boys in blue did in '01; he was among the first troops in the Philippines and he took active part in the fighting. His daring soon attracted attention and promotion soon came to him. With a gift for languages he readily mastered the native tongues. Indeed he speaks several languages, including Russian. It was he who suggested the formation of the Macabebes scouts, and he was given the command of that terrible Eastern disease beriberi, and he has been a great sufferer from it. With true grit he scouted and fought right along, and when he was named for promotion to the regular army it was considered by all to be well deserved. He passed the examination in Manila very successfully.

This brought on that terrible Eastern disease beriberi, and he has been a great sufferer from it. With true grit he scouted and fought right along, and when he was named for promotion to the regular army it was considered by all to be well deserved. He passed the examination in Manila very successfully. Following this he was again advanced and is now first lieutenant in the Ninth Cavalry. A year ago he came back invalided. After a visit to Michigan he again returned to the islands. On this trip there was a very happy romance. At Lansing he became acquainted with a charming young lady years ago. He met her afterwards in Los Angeles when he came from Manila. It was a happy meeting, and they were married, and his wife made the trip to the Philippines. On February 25th they returned, and the lieutenant is now stationed at the Presidio. He is rapidly regaining his health and the future is indeed very bright before this gallant young soldier and his dear wife.

FOR THE SOO TOURNAMENT.

The following gentlemen have been selected to represent the Ishpeming Golf club at the first annual championship golf tournament to be held at the Soo, George A. Newett, Will Duncan, Dr. Hudson, H. S. Thompson and James C. Wood. One other will be chosen by the greens committee, making six in all. Some extra players will also go along. Teams will be present from Houghton, Marquette, Menominee, Ishpeming and the Soo. The tournament will be held Sept. 9, 10 and 11 on the new Soo links. There will be individual and team trophies.

LABOR DAY CELEBRATION.

The labor unions' picnic attracted a large crowd to the park Monday. The weather was rather cold for ice cream, but fine for dancing, and the dance continued until half-past ten at night. The ball game drew some of the people during the afternoon, but they returned to the grove for supper. Nearly 1,000 people were in the park during the day. About fifteen quarts of ice cream were left over, and at the meeting of the Cigar Makers union held last night, it was decided to eat it rather than allow it to go to waste.

"I NEVER KNEW PAINKILLER TO FAIL

before, what can the matter be? Where is the bottle? There, I thought so; it is not Perry Davis' Painkiller at all, but something the druggist must have made himself and I did not notice it; I have used Painkiller for years for diarrhoea, cramps and stomach aches and it never failed."

A Large variety of ready to wear

ladies' and children's hats just received at the Finnish Mercantile Association.

NEW WAGE SCALE.

The C. M. & St. P. Road is Expected to Announce It Soon.

The C. M. & St. P. road is expected to soon announce a new pay scale that will recognize the harder conditions under which the men work, says the Iron Mountain Press. As the annual meeting of the St. Paul road approaches each year the matter of a pension system becomes the topic of conversation among the employees. This year there is less heard of a distribution of the road's big surplus so that the employees will receive a share in a matter of some talk. It is understood that the pension plan as devised by John A. Hinsey, a plan that contemplated the paying in of a large part of the total by the employees, was not approved by either the employees or officials and has been dropped. Now it is expected that either a straight pension or a readjustment of the salary list will be made, more probably the latter.

Many of the men on the road do not favor a pension system and have said so to the officers. They favor either a larger pay scale or a distribution of the surplus on the profit-sharing plan. They say that pensions tend to providence on the one hand and on the other a man might work for nineteen years and then be dropped for some minor cause and thus lose his nineteenth years' rights. If the profits were divided, each man would receive the share he has earned and can care for it himself. Most of the men are now provident and accumulating property and they prefer to have this kept up in both fact and principle.

One of the old engineers, talking of this, said: "There has been much talk about pensions. I find that most of the men do not care for a pension, but want better pay as they earn it. I do not believe that there will be a pension system established this year, but I look for a new pay scale, by which the men will be paid more in accordance with the new conditions. With the increasing size of trains, of stations, of yards, of switches, of signals and of train orders, all men who have anything whatever to do with trains, and that is most of them, find their duties more exacting and the strain greater. They should be paid for this at a higher rate, as they wear out quicker. We now have engineers and conductors who have seen forty years' service. Forty years from now you will not see such a condition by fifteen years, for under these conditions a man cannot last twenty-five years. I believe that pay scales will be arranged with that side in view. In fact, such a plan is under advisement."

New Bridges.

The St. Paul road this season has inaugurated a general renewing of the bridges on the Lake Superior division of the road. Bridges at Iron Mountain, Floodwood, Amasa, Kelo Junction and Green Bay are being rebuilt, and the work is well under way. The sub-structure on the Iron Mountain bridge has been entirely completed, and that on the other Michigan bridges has progressed to the completion of the concrete piers. The bridges are being rebuilt of steel, and are intended to withstand heavier traffic.

"A DEVIL'S LANE" TONIGHT.

Patrons of the local theatre are promised a rare comedy treat this evening, when the Elmore sisters and James A. Green, all favorites, who have been seen here before, will be the principal performers. They are producing "A Devil's Lane," written specially for them and played by no other company. The stars make a big hit everywhere, and three years ago their work was received here with much favor. The girls will be seen in new specialties.

MINING INSTITUTE PICTURES.

A. J. Yungbluth has received three large group photographs of the members of the Lake Superior Mining Institute. They were taken during the recent meeting. About one hundred and sixty-six members are in the group. The photographs were taken by Crandall & Fletcher of Duluth, and are 18 by 24 inches. The features of all the persons in the picture are distinct and easily recognized. One of the photographs is a platinum print.

Two or more ladies or gentlemen can secure positions to travel. No insurance or soliciting. Apply to J. S. Clark, Urban House, Ishpeming. (9-3-02)

MISS MONIE BOWEY,
No. 38 Ferry Street, DETROIT, MICHIGAN.

A couple of winters ago I slipped on a frozen sidewalk and fell flat on my back. On being examined I found that I had sustained internal injuries which laid me up for more than two months. After that I noticed that I had pains in the back and groin which I never had before. I doctored and doctored for several months but as the pains increased instead of growing better I decided that I was not having the right treatment. Reading in the papers of the wonderful cures performed by Wine of Cardui I wrote to one of the parties and received a very satisfactory reply and I immediately sent for some. In a very short time I felt generally better and after seven weeks faithful use I was once more well and strong. I have never had a sick hour since and I daily bless your splendid medicine.

MONIE BOWEY.

WINE OF CARDUI is one medicine that should always be kept on hand in every home for immediate use when female weakness first makes its appearance. Miss Boweys' painful and dangerous accident would not have resulted so seriously had she taken Wine of Cardui promptly.

Wine of Cardui makes women more womanly by curing their weakness and making them stronger. Wine of Cardui cured Miss Boweys. As a medicine for all women in every trying period of their lives can you think of a better medicine for yourself, your sister, your daughter, or your mother? Can you think of a more acceptable present to give your friend better I decided that I was not having the right treatment. Reading in the papers of the wonderful cures performed by Wine of Cardui I wrote to one of the parties and received a very satisfactory reply and I immediately sent for some. In a very short time I felt generally better and after seven weeks faithful use I was once more well and strong. I have never had a sick hour since and I daily bless your splendid medicine.

Wine of Cardui is adapted to women at any age in any walk of life. For the working woman it gives her strength for her tasks and better treatment than a doctor for very small cost.

Your druggist will sell you a \$1.00 bottle of Wine of Cardui. Secure the medicine today. Take it in the privacy of your home. Relief will come to you as surely as you take it.

WINE OF CARDUI A million suffering women have found relief in Wine of Cardui.

SHEBA GOLD AND SILVER MINING COMPANY OF NEVADA.

The investment here offered is in a mine, not a prospect, with a productive record of over \$3,500,000. All ready equipped for operation and a forty-ton mill, compressor and hoist, all driven by water power, accessible to railway, only needing comparatively small returns from its treasury stock to make it a great dividend paying property. The mines of the company are located in Humboldt county, Nevada, only fourteen miles from Mill City, a station on the Central Pacific railway, with a down grade all the way from mines to station. It is on the same range as the noted Cromstock mines, about ninety-five miles northeast of Virginia City, and its ores are of the same class and grade. The property consists of thirty-one claims, more than 600 acres, in a compact body. The one Sheba claim of itself has earned in several single years more than the total capitalization.

THE CAPITALIZATION of this great property has been fixed at only 500,000 shares of \$1 each. It may be claimed without fear of contradiction that no property of corresponding extent and value has been capitalized at so conservative a figure in the whole mountain region. Of this 200,000 shares in Treasury provides amply for every probable requirement for development of property when taken into account with its great earning power. It is being offered in blocks, as required, at constantly advancing prices, it being the intention of the management to discontinue the sale of treasury stock the moment that the ore production, which is steadily increasing, shall warrant.

THE MANAGEMENT. The Board of Directors includes well-known citizens of Utah, whose policy is to work the mine and not the stock market, and whose personal assures to the shareholders a careful and conservative management in every respect.

The directors, five in number, are: Hon. Geo. W. Bartch, President, justice of the Utah supreme court; Hon. H. M. Wells, governor of Utah; Hon. C. O. Whitmore, ex-U. S. district attorney and leading counsel for the Salt Lake and Los Angeles Railway company; Judge J. W. Burton, vice president of King, Burton & King; Hon. H. B. Clausen.

To make of the Sheba one of the successful mines of the country, as its merits will justify, profitable to its shareholders, and a distinctive example of legitimate mining, is the definite purpose of its managers.

IT WILL BE WORTH YOUR WHILE TO SEND FOR A PROSPECTUS AND OTHER INFORMATION DESIRED TO

Negaunee and Vicinity.

A QUIET ELECTION.
Sixty-Nine Votes Were Cast for John Elliott and Mayor Houle.

The quiet school election in this city Monday was in striking contrast to the exciting time at Ishpeming. Only sixty-nine votes were cast here, while in the neighboring city 1,560 were polled. At the last school election held in Negaunee, there was a contest, and 234 votes were cast. This year there was no opposition to John Elliott and Mayor Houle.

After the election, the annual meeting of the school trustees and tax payers was held, and the report of the board was adopted. The board will meet again Friday evening, Sept. 12, to elect officers and perfect the organization.

PUBLIC SCHOOLS OPEN.
There Was No Delay in Starting the Work of the Year 1902.

The Negaunee schools opened yesterday for the year 1902, with the largest attendance in their history. Everything was in readiness, and the work of the classes began without delay. At the first general teachers meeting Monday afternoon, Superintendent Schurtz provided a temporary program for the opening session. The course will be recast, but no material alterations will be made. Miss Catherine Sullivan will teach the fourth grade at the Park street school this year, she having taught the second grade last year. Miss May has been transferred from the fifth grade to the fourth, in the same school. These are the only changes from last year.

The school census has been completed. Some additions have been made to the material for laboratory work. Negaunee has as good an outfit for physical and chemical laboratory work as is to be found on the upper peninsula. Professor Schurtz took occasion to examine the school at Calumet, while he was there last week, and he says that while it has a larger outfit for laboratory work, it is not as complete as that found here.

The superintendent's office has been refitted, and decorated. The new drawing and art room is painted in two shades of green, and is a pretty room. This year is the first time drawing and art has been taught in the high school, they having been grade studies up to this time.

COTS WILL GO TO HANCOCK.
Can Be Bought for Seventy-Five Cents from the Tournament Committee.

The 600 cots which were used during the tournament here were gathered together yesterday and stored temporarily in the basement of the bank building. The committee purchased them from the Maccebas after their convention in Marquette last spring. They have been used but two or three times, and are in good condition. The committee lent them to the residents here during the tournament, and some have been purchased. If they are not sold here, they will be disposed of to Hancock for use during the tournament next year. The committee will sell them for seventy-five cents each.

The fence at the race track was being torn down yesterday. The booths along the streets are also disappearing. The flags and bunting disappeared Friday night, saving the labor and annoyance of tearing them down.

Mrs. Al Bohrer returned to her home at Hancock Monday, after a visit of a few days with her parents, Captain and Mrs. J. H. Rough.

Robert Kronberg has accepted a position with the Metropolitan Life Insurance company, and will make his headquarters in this city.

Joe Chapman found a pair of gold rimmed nose glasses, with thick lenses, which he will return to the owner, when he proves ownership.

Miss Lottie Rough entertained a number of her young girl friends from Ishpeming at a lawn party at her home here Saturday afternoon.

George F. Grimes, of McFarland, Ill., died Sunday at his home and was buried yesterday. He was forty years old, and is survived by two children.

Mrs. William F. Ferin, who has been spending a few weeks in the city, visiting R. Kappes and family, returned to her home in Hurley, Monday.

Miss Marie Barth of Escanaba and Miss Nettie Wagner of Marquette, who have been in the city visiting R. C. Jackson's family, returned home yesterday.

The marriage of Frank Coday of Escanaba and Miss Beatrice Penhale was celebrated at the home of the bride's parents here yesterday. Rev. Mr. Gilchrist performed the ceremony.

H. J. Peterson and wife returned to the city Saturday from Chicago. Mrs. Peterson visited her sister, Mrs. F. C. Chamberlain, in Detroit, during her absence. Mr. Peterson has received his line of fall goods, and is now ready to show his patrons the latest suitings.

"Ishpeming deserves no credit for winning Monday's game," said a Negaunee fan yesterday. "Kelsey, who pitched for them, is a member of the Dollar Bay team, one of the strongest in the upper peninsula, and Garkett, who played short stop, is the star player of the Franklin team at Hancock. Had the Cleveland-Cliffs team played their own men, instead of sending out of town for players, it would have been an even thing."

Loss of Vitality is loss of the principle of life, and is early indicated by failing appetite and diminishing strength and endurance. Hood's Sarsaparilla is the greatest vitalizer—it acts on all the organs and functions, and builds up the whole system.

Diphtheria, sore throat, croup. Instant relief, permanent cure. Dr. Thomas' Electric Oil. At any drug store.

Rheumatism
of 33 years' standing Cured

For 33 years I suffered from rheumatism until I became so crippled that I could hardly feed myself. Seven physicians had tried their skill in vain. My last doctors told me that it was useless for me to take more medicines, claiming there was no cure for me. My family also discouraged me from taking more medicines, but when my church paper endorsed Gloria Tonic, I resorted to that and the systematic use of this excellent specific completely cured me. G. Jacob Saxator, Fountain City, Wis. Gloria Tonic sells at all drug stores at \$1.00 a package. Trial Box, also illustrated book on rheumatism containing many etched drawings from actual life and which explains every form of Rheumatism known to science free by sending name and address to JOHN A. SMITH, 624 Germania Bldg., Milwaukee, Wis.

Additional Ishpeming
ISHPEMING IN BRIEF.

Frank Uren of Crystal Falls was in the city yesterday.

A. W. Myers is in the city, having arrived from Milwaukee Monday.

There were only forty split tickets cast in the school election Monday.

Miss Mable Ellis has taken a position as teacher at the Princeton location.

William Hecke is having a new sidewalk laid in front of his property on Bancroft street.

The stone foundation of the new M. E. church is completed, and the building is now ready for brick.

The doctors now entertain hopes of Martin Sullivan's recovery. He was resting easier yesterday.

The St. Elmo Palmists are on Division street. They have with them "Sailor" Teddy, the tattoo artist.

A fellow who shot one of August Embury's young oxen Saturday paid a fine and costs of court, amounting to \$16.

George Wilbur leaves Thursday for Philadelphia, where he is attending the medical department of the University of Pennsylvania.

A savings bank, containing \$3, was stolen from the Nelson House desk last week. The bank belonged to the Michigan Children's Home society.

Mrs. Ben LaLonde, who formerly taught in the high school, will take Miss McKay's place until her return, which will be about the middle of the month.

Ed. Clark left yesterday for Toledo, O., and Detroit, where he will spend the next two weeks or so. While in Detroit he will purchase a line of goods for his winter trade.

William S. Fern, formerly of this city, but now of Hurley, Wis., visited relatives here Saturday and Sunday. He is the chemist at the Ashland mine, which is operated by the Cleveland-Cliffs Iron company.

C. J. Byrns returned yesterday from Dollar Bay, where he spent Monday at a Woodmen's picnic. He was the speaker of the day. The weather was so unfavorable that the exercises were held in the rink.

Joseph Hendy returned to his home at Bessemer Sunday, after spending a few days with friends here. Joe likes the Gogebic range town and he is getting along very well there. He is a great admirer of the Bessemer running team.

Matt Wasley, secretary of the local Mine Workers' union, delivered an address at the picnic given Monday at Hancock under the auspices of the organized labor unions of the Twin Cities. The picnic was well attended. Mr. Wasley returned home yesterday.

James McHale and Will Burrows, who have been at the Helen mine, Michipicoten district, the past few months, are here on a visit to relatives. They will leave within the next few days for Toronto, Canada, where they will take in the sights for a week or more, when they will return to their work.

OSTEOPATHY.

Hon. H. F. Pingree, ex-governor of Michigan, who signed the bill legalizing osteopathy in this state said after a thorough and careful official investigation:

"Osteopathy is a science entitled to the respect and confidence of all, as a distinct advance in medicine. I know that it is doing a vast amount of good in relieving suffering and deformity that is not amenable to benefit from drug medicine."

For free books explaining osteopathy, address Dr. J. L. Shore, Front and Bluff streets, Marquette, Mich. At Ishpeming Tuesdays and Fridays, 212 W. Ridge street. (8-22-1f)

LAKE AND RAIL EXCURSION

from Ishpeming, Negaunee and Marquette, via Lake Superior and Ishpeming Railway, Munising Railway and Marquette & Southeastern Railway, to Munising, Mich., and three hours lake trip from Munising to Grand Island and Pictured Rocks on the steamer "Thomas Friant," Sunday, Sept. 7, 1902. Low fare for the round trip. Includes three hours boat ride along the shore of Grand Island and trip to Pictured Rocks (weather permitting). Special train leaves Ishpeming at 8 o'clock a. m.; Negaunee, 8:10 a. m., and Marquette 9:05 a. m. Fare from Ishpeming and Negaunee will be \$1.25 and from Marquette \$1.00. Children one-half fare. Returning special train leaves Munising 6:30 p. m. Beach Inn—Munising's new hotel—was opened Monday, Sept. 1, and will have ample accommodations for those desiring meals at Munising. H. A. ST. JOHN, General Passenger Agent. (9-3-1f)

Reclining Chair Cars

Are in service on all our through passenger trains. They are the most roomy and comfortable that can be built.

The aisles are carpeted. The chairs are luxuriously upholstered. Toilet rooms are provided at each end of the car. Are lighted by gas (on the Limited by electricity), and heated by steam in cold weather.

A porter is in attendance to care for the comfort of passengers. It would seem that you could travel very comfortably in one of these cars, would it not?

A QUIET SESSION

ALDERMEN TRANSACTED ONLY ROUTINE BUSINESS LAST NIGHT.

TIFF BETWEEN WARD AND SHEA

IT WAS THE ONLY THING THAT ENLIVENED EVENING'S GRIND.

Street Committee Will Build a Couple of More Blocks This Year, but Original Program is About Finished.

The aldermen, with President Astre in the chair, held a businesslike but uneventful meeting last evening, disposing of the business that had accumulated during the month of August, the only flurry of the session occurring after Alderman Shea how much street had been built in the first ward during past years, and Alderman Shea informed Alderman Ward of the wonderful progress that street improvements have made in the seventh.

The profile for the continuation of the Lake Shore boulevard, south from Hewitt avenue to Ridge streets, a distance of four blocks, was adopted. This section of the boulevard will be built east of Walnut street. The owners of the land that will have to be used in its construction will transfer it to the city for the nominal payment of \$1.

Alderman Bush offered a motion that the city stand its pro rata share of the cost of building the Maple street trunk sewer. It was carried. This sewer, which is now in contemplation, will extend from Third street to Fifth street on Maple, turning on to the street running south on Fifth to Superior, where it will connect with the brick sewer. The city will pay for the frontage of its streets that intersect the thoroughfare on which the sewer will be laid.

Horatio Seymour petitioned the council for a rebate of \$30.15 on his 1902 taxes. In making his petition, he specifically for taxation, Mr. Seymour included twenty-five shares of Marquette National bank stock. Controller Bay failed to notice that Mr. Seymour had carried out the stock and included it in his last assessment. As the Marquette National bank also paid the assessment against the stock, it was taxed twice. The controller stated to the council that Mr. Seymour's communication was correct in every particular, and recommended the remission of the \$30.15. It was forthwith authorized by the council.

Controller Bay presented his monthly reports and bills, which were approved with the exception of a bill of George A. Green, for disinfecting a house at the order of a health officer. It was referred to the health committee.

Street Commissioner French's report showed a pay roll of \$4,039.39 for the month of August. The total expenditures for the month were \$3,897.03. The commissioner reported that from May 1 to Sept. 1, \$10,525.65 has been expended on the streets.

Controller Bay read the assessment roll for Presque Isle avenue for the first time. It was approved. Sept. 16 was named as the date of a special meeting of the council at which the roll should come up for its final reading.

In response to an inquiry, as to whether the street committee contemplated doing any work on Washington, between Front and Third, Alderman Shea said that the work outlined for the summer had about been completed, although it will probably be possible to finish up two or three more blocks this season.

Alderman Bush moved that the repair of Washington street between Front and Third be undertaken as soon as the present work is out of the way. Alderman Shea and Donovan objected to having the council interfere with the street committee's work, stating that it was endeavoring to do the best it could for the entire city. Alderman Bush disclaimed any inclination of interfering with the street committee and consented to soften his motion to a request.

At this juncture Alderman Ward and Shea became a little warm under their collars, the latter asking the former why, when he was arbiter of the street committee's work last year, when numerous requests for the repair of Washington street were made, he did not see that the work was done. Alderman Ward asserted that he has rewritten by the other members of the committee who were too busy building streets in South Marquette to pay any attention to Washington street. Alderman Shea then asserted that Ward gave his own people careful attention during his regime. This debate had been brought to no tangible issue when an adjournment was taken.

FIGURES ON IRON.

Interesting Facts Concerning Michigan's Great Industry.

Michigan's product of iron and steel manufactures has varied but little in the past two decades, according to a census bulletin just issued. The value of the product in 1900 was \$5,902,058, against \$5,829,843 in 1890 and \$4,591,613 in 1880. While the value of the product was climbing slowly upward, the number of establishments decreased, probably because of consolidations. In 1880 there were 15, in 1890, 19 and in 1900 only 10.

The amount of capital invested has changed radically, as in 1900 it was but little more than half as much as was shown in the returns for 1890. The capital of steel and iron mills in Michigan in 1900 was \$39,450, while in 1890 it was \$6,096,541, and in 1880, \$3,242,386. The number of salaried officials and clerks fell from 82 in 1890 to 72 in 1900, while their aggregate annual compensation decreased from \$139,756 to \$95,076. The number of wage-earners employed increased from 1,427 to 1,972 and their total annual wages increased from \$766,361 to \$941,091. On the other hand, miscellaneous expenses of plants decreased from \$369,163 in 1890 to \$277,827 in 1900. The cost of materials also

decreased from \$4,135,991 to \$3,770,213. While, as before stated, the value of product showed slight increase in the last decade, the bulletin also shows that there were six idle establishments in Michigan, with a capitalization of \$688,981. In the enumeration of the product of 60,000 tons and over by counties, it is shown that furnaces in Antrim county, Michigan, had an output of 69,251 tons in 1900, against 17,851 tons in 1890.

The report shows that the number of establishments in Michigan producing pig iron in 1900 was 7, against 15 in 1890. The value of product fell from \$7,982,278 in 1890 to \$2,237,153 in 1900, and the total product decreased from 203,417 tons to 141,277 tons, while the average price per ton fell from \$19.58 to \$16.46. Of the rolling mills and steel works, Michigan had 3 in 1900, against 4 in 1890, but the value of product of these mills increased. In the decade from \$1,400,000 to \$3,749,000. Among the manufactured articles produced in Michigan mills were car axles, steel ingots, wire nails and miscellaneous rolled products. The total output of the rolling mills and steel mills in the state was 80,483 tons.

THE MISSION AT ST. PAUL'S.

A Large and Appreciative Congregation Attended Last Night.

Father Powell began his address last evening at St. Paul's by announcing that he would speak in general about self-examination. He pointed out that when a man once thinks about examining his life, his conduct, he will be confronted by two great enemies—first, Satan, who hates more than anything else these three things: Self-examination, communion and confession, since by these souls are snatched from his grasp; secondly, self-love, now self-deceiving, now superficial. Nothing kills a man's better nature so quickly as this; as a result of self-love, we see dead men all around us.

The speaker alluded to the picture, in the Ancient Mariner, of dead men who steered the ship and worked the ropes—"They raised their limbs like lifeless tools."

We were a ghastly crew," And so, he went on to say, congregations of dead people meet in church, dead men say the service, dead men sing in choirs, dead men preach, dead men sit in pews. Men in our Lord's day said, "We see, we see," therefore their sin remained, because they knew not that they were dead, and cold, and blind. We must not pray, "O God, make me see my sins just as they are and wash me in the precious blood of my Saviour." We must examine ourselves by the rule of God's commandments, declared Father Powell; we must not dare to go before the great Judge with a lie upon our lips, saying, "All these things have I kept from my youth," when as a matter of fact we have only forgotten what we did.

We are surrounded, said the preacher, by respectable, but "respectable" do nothing, shall be damned for doing nothing. "These," said our Lord, "shall go away into everlasting punishment." Who are "these?" Examine the character of the ones referred to, and there is not a criminal among them. No, but they are the ones who simply spend an idle time "doing nothing" for God. These shall go away; we shall be judged for our sins of omission. In the night a man passes a house; he sees flames coming up from the basement windows; he knows that the family are quietly asleep upstairs; but he gives no alarm, raises no cry, passes on and does nothing. But is not the doing nothing a crime? Apply that to the world at large, said Father Powell. Many Christians are like that, passing through the world as idle spectators of the great tragedy of life. No wonder that Christ will sweep the "do nothings" away from Him.

The speaker closed his remarks by referring to the deaf and dumb man over whom our Lord sighed and said "Ephatha." Why did he sigh? Why did He weep when He looked at the city, which was doomed to become a cemetery? It was because in His omniscience He saw the misery sin had brought and would bring on the human race; because He saw before Him, the sentence He would bring on pronounce—"out of thine own mouth will I judge thee, thou wicked servant." He saw the lies which are told in society, the adulteration of goods, the false quantities, and all this from men who believe that "all liars shall have their portion in the lake that burneth with fire and brimstone."

Father Powell concluded by asking if there was not good cause for us to examine ourselves, so that we may lay our pitiable state before God and then come to His altar, where our tongues may be touched by Christ Himself.

Finally the Women's Bible instruction will be held at 3 o'clock, to which all women are invited. This evening another mission service will be held, beginning at 8 o'clock.

U. S. COURT.

The September Term Was Opened Here Yesterday Morning.

The September term of the United States court opened here yesterday. Judge George P. Wandy presiding. Other court officers in attendance are George C. Covell, United States district attorney; A. O. Wheeler, United States marshal; and Charles L. Fitch, clerk of district court.

The cases of Thomas P. Wickes, receiver, etc., vs. the City of Ironwood; Frank Gregory vs. H. H. Everard and William A. French, trespass on the case, and John D. Mangum, trustee, vs. Quintan R. Hess and George W. Kaufman were continued for the term. The case of the United States of America vs. The Michigan Land & Iron Company (Limited), the Sturgeon River Lumber company, the Nestor estate, et al. was also continued, to be heard later at Grand Rapids.

Yesterday the trial of the case of Louis Reidinger vs. The Diamond Match company was started before a jury. It will be on today, the court reconvening at 10 o'clock this morning. E. E. McIntosh, James W. Young and Edward M. Shepard were appointed bailiffs for this term of court.

If you want to be well all the year, take Rocky Mountain Tea now. Greatest renovating medicine known. 35cets. The Stafford Drug Co.

NOW IN NEW HOME

WESTERN HAY FEVER ASSOCIATION HAS HANDSOME PAVILION.

PROVIDED BY ST. IGNACE PEOPLE

PRESIDENT ROE RAPS MARQUETTE IN A RECENT ADDRESS.

He Says the People of This City Are Money Makers—Hay Fever Season Is in Full Swing at the Straits' City.

The Western Hay Fever association is now at home in its new pavilion, built by the good money of the people of St. Ignace. The St. Ignace Republican contains the following notice of the economics attending its presentation to the association:

In the presence of nearly a thousand people, the new pavilion was on Thursday evening formally presented to the Western Hay Fever association by the citizens of St. Ignace. Long before the opening of the exercises every available chair in the house was taken and many were compelled to stand. The stage had been arranged on the south-east side and was very prettily decorated with evergreens and bunting. The orchestra from the steamer Islander, rendered several selections that were greatly enjoyed by the audience. President Roe of the association acted as master of ceremonies, and after the invocation by Rev. S. Benson of the Presbyterian church, Attorney J. J. Brown, speaking for the mayor, and in behalf of the city, made the address of welcome. Mr. Brown is a pleasing and able speaker and in a few well chosen words extended to the officers and members of the association the exclusive use of the pavilion as their future home, and assured the visitors that the best wishes of every man, woman and child in the community accompanied the gift.

Colonel T. W. Cosgrove responded for the association, and in a feeling manner thanked the city for the most cordial welcome that had been extended them, and also for the magnificent structure that would henceforth be their home. "Man, with energy can accomplish everything, but with no energy, no matter how many millions he may possess, can accomplish nothing, and I consider this building a striking evidence of the energy shown by the people of St. Ignace, and in return for which we will make it our duty to inculcate the hospitality, generosity and true friendship of the community at large by bringing to St. Ignace hundreds of people each year of the highest type of American citizenship. We hope to increase the number each year to such an extent that in a few years we shall have filled your city to its utmost capacity."

President Roe Speaks. After musical selections and other numbers, President Roe delivered an address excerpts of which follow, one of them consisting of a hard (?) drive at Marquette, to which the Western association does not appear to be duly grateful for past favors.

Ladies and Gentlemen, Officers and Members of the Western Hay-Fever association: Scattered from the Atlantic to the Pacific, from the Sunny South to this northern Peninsula, are those who suffer from hay fever.

The disease has baffled the skill of the most eminent physicians. Scientists and specialists all give up after having racked their brains over the question. Chemists have made a special study, and expended much time and money in compounding specifics for the cure of hay fever, but the old adage— "If, at first, you don't succeed, Try, try again."

—has thus far proven a failure so far as a cure is concerned. But thanks be to those who discovered that the northern lake regions afforded immunity, and the victim, who has experienced what so many of us have in this climate, knows only what a blessed relief it is, and with what delight we hail the opportunity to come north and escape the dreaded season of hay fever.

The measure of benefits today for the active membership of our association are much more than they have been in years past. I certainly think that congratulations are in order and that we should be shaking hands with ourselves. Look back, if you please, for a short time and see what we as an association (by thorough and proper organization on a strong financial basis), have accomplished. Not long since we were a lot of wandering gypsies, and were looked upon with about as much respect. Today, how different are the conditions! Look at our surroundings; survey this grand structure; look at these beautiful grounds; behold these natural beauties created for our own use, so to speak, by that great Giver of every good and perfect gift.

I have not the least doubt, but in a measure, that the citizens of this city were prompted to do what they have done with a view to future profits, from a mercenary motive, but I do not criticize them for this as I know that it is but natural—that all mankind loves money; and I want to say right here that I want no dealings with people who do not love money. I do not care to meet such people as they do not interest me in any way. They are non-progressive. I want to meet those who are wise with my money, and will give me a square deal every time.

Raps Marquette. If you should meet any one who lives in this city who does not want your money, ask them if they ever lived in Marquette. I am sure their answer will be in the negative. If you are in a hurry and that you will find the citizens of this city ready and willing to deal rightly with you. Many of us have visited various places for relief

from the fever. This may be the first visit for some, and perhaps many, of us to this city. I trust each and every one enjoy the health-giving properties of the air, the beautiful scenery, find rest and recreation, and I am sure you will not regret having come to our new home. And now that we have at last got a home, which so many of us have wanted and hoped for for years past, let us labor to beautify it and to extend the family circle; let each member do his duty and bring someone into the ranks of membership, and let the growth of active membership be a phenomenal one for the ensuing year.

Your officers have done the best they know how to labor under the great difficulties and have met many discouragements, yet feeling a strong desire and knowing the great good to be accomplished have never given up hopes but have been steadfast in their purposes, and I hope and trust every member of our association, that like myself you are sufferers from hay fever, will stand right by them and show to them that they appreciate their efforts. Surely there are few of us who would leave our work and neglect our business to look after such a task as this were there not some incentive beyond the dollar point. I am inclined to see so many of our veterans with us tonight, and I desire to thank the officers of our association for their thoroughness of work and their most courteous treatment shown me at all times. I desire to thank you all for your attention, and trust that you will be an inmate from hay fever while here. I thank you.

Number of Mining Men Have a Good Thing on the Mesaba.

A highly important discovery of rich iron ore has been made in section 4-58-15 on the eastern Mesaba range, by Marvin Van Buskirk, of Eveleth, who, together with John McGreevy, the Eaton branch, Chas. Parson of Duluth; A. G. Jones of Mountain Iron, Mich.; D. L. Fairchild, of the U. S. Steel Co.; A. B. Coates, W. J. Moore, Jacob Stein and E. J. O'Rourke, Virginia, is financially interested in the property, says the Duluth Tribune.

The ore is found in the N½ of the SE¼ and the N½ of the SW¼ of section 4, 58-15. The ore shown up so far is on the east foot, which is about one half a mile southwest of the Meadow mine on which D. T. Adams has spent a small fortune in exploring, and two miles south of the famous Stevens mine, which is said to contain a body of 40,000,000 million tons of good merchantable ore.

The holders of the option had little faith in it at first. They thought it was too far south to amount to anything and had it not been for Mr. Van Buskirk's persistence to any extent, they would have entered the list of condemned iron lands long ere this. But this untiring veteran of many ranges firmly believes in the "nothing ventured nothing gained" theory when it comes to prospecting for iron and in this instance he had succeeded far beyond his expectations.

One of the most remarkable features of the discovery is the character of the ore. Its physical qualities are said to be far superior to any ore yet found on the range. Another remarkable feature is the uniformity of the analysis taken from different depths of the several holes. It makes the splendid average of 62 per cent, but runs somewhat high in phosphorus.

The property looks so good that the owner of the lease has already received two flattering offers. One is a cash offer and the other is based on the tonnage to be shown up when the property is fully explored.

ADAMS BLOCK, Marquette, Mich.

PITTSBURG WALL PAPERS

are the most notable success of the new season. Already accepted by the best judges as most perfectly adapted to their needs. The most attractive showing of NEW WALL PAPERS now offered. We say it with all modesty. They are the best line of wall papers shown this season. Sold in Marquette only by : : :

J. E. Trethewey, Front St., Marquette. (6-16-17)

FEMALE DISEASES

A SPECIALTY.

In this particular class of diseases osteopathy has proven a boon to women. Women are treated and cured without any exposure or pain.

ACUTE DISEASES ARE AMENABLE TO OSTEOPATHY. Nervous diseases, which have hitherto proven so rebellious to all other methods of treatment, yield to osteopathic manipulations.
