NARROW ESCAPE FOR ROOSEVELT Carriage in Which He Is Riding Is Smashed by an Electric Car. SECRET SERVICE OFFICER INSTANTLY KILLED President, Governor Crane and Secretary Cortelyou Are Thrown Into a Heap and Cut and Bruised, but Continue Their Journey After Their Hurts Are Attended To.

A tragic accident overtook the presidential party a short distance from Pittsfield, Mass., at 10 o'clock yesterday morning. After a short visit at the home of Senator Daves, the president started on the long drive to Lenox. When near the Country club, having gone but a short distance, and while crossing the tracks of the Pittsfield & Lenox street railway, an electric car going at a terrific rate of speed crashed into the vehicle, literally smashing it to pieces. The president, Governor Crane and Secretary Cortelyou were piled up in a heap. The president was cut on the right side of his chin and his face is much swollen. Governor Crane and Secretary Cortelyou are bruised, while the driver was severely hurt and Secret Service Agent Craig was killed outright. The president, with the others of the party, went to the Country club, where their wounds were dressed. In a short time the president resumed his trip, arriving at Lenox at 11:30 o'clock. Conductor Kelly and Motorman Madden were arrested and brought to Pittsfield.

Story of the Accident. Pittsfield, Mass., Sept. 3.—The president of the United States escaped a tragic death by only a few feet in a collision between his carriage and an electric street car in this city today, while one of his most trusted guards, Secret Service Agent Craig, was killed by the car. The president, Governor Crane, Secretary Cortelyou and David J. Pratt of Dalton, who was guiding the horses attached to the vehicle, was seriously injured. President Roosevelt himself was badly shaken up, but received only a slight facial bruise. Secretary Cortelyou, who occupied a seat directly opposite the president in the landau, sustained a minor wound in the back of the head, and Governor Crane, who sat beside the president, extricated himself from the wreck practically without a scratch, though bruised somewhat. The carriage was demolished by the impact of the rapidly moving car and the wheel horse on the side nearest the car was killed outright. The crew and passengers of the car escaped injury.

Witnessed by Hundreds. The president and party were driving from this city to Lenox through South street, one of the principal thoroughfares of Pittsfield, which was lined with cheering people, and the catastrophe occurred in plain view of hundreds. Thousands poured into the city in the early morning from the nearby country to see and hear the president, and his address at the city park had been loudly cheered. At the conclusion of the exercises the president made a brief call on former Senator Daves, whose house is in Elm street, but a short distance from the park, after which he returned to the city square. After a few minutes' delay, the journey to Lenox was begun. Meanwhile, a mounted escort of police officers and carriages containing the newspaper correspondents who have accompanied the president on his tour started off ahead on the road to Lenox and were some distance in advance of the president's equipage. Three or four other open carriages fell in line immediately behind the landau in which the president rode with Secretary Cortelyou and Governor Crane. Secret Service Agent Craig, who throughout the New England tour had been almost constantly at the president's elbow, was on the driver's box beside Coachman Pratt.

Car Filled With Passengers. Out through South street is a broad, smooth highway. The tracks of the Pittsfield electric street railway are laid in the center of the road, with ample room for teams on each side, and scores of vehicles of every description followed along the road behind the president's party. Shortly after he left the park, an electric car, which had been filled with passengers at that point, started toward Lenox, well behind the procession. It passed all teams and was about a mile and a half out from the city, at the beginning of Howard hill, when it was nearly up to the president's carriage, which was traveling on the west side of the highway. At the foot of Howard hill, the road bends a little, and teams are compelled to cross the street railway tracks to the east side. The railroad then continues at one side of the street, instead of in the center. Just at that point the upgrade of the hill begins, but a short distance beyond the crossing there is a narrow bridge spanning a small brook. The trolley car approached the road crossing under a good head of speed, and with gong clashing, just as the driver of the president's carriage turned the wheel to cross the tracks. On each side of the chief executive's carriage rode two mounted troopers of the local cavalry company, and the horsemen on the

JUDGE DURAND IS BETTER. Able to Stand and to Walk a Few Steps Last Evening.

Pittsfield, Mich., Sept. 3.—Judge G. H. Durand, Democratic nominee for governor, who suffered a stroke of paralysis Monday evening, is somewhat improved tonight. He managed to stand up and walk a few steps. Until today he had been unable to lie down, but tonight he is sleeping in bed.

MINE FIRE IS SPREADING. Blaze Started by Strikers Will Result in Enormous Loss.

Bramwell, W. Va., Sept. 3.—Officials of the Pocahontas Collieries company state tonight that the fire in the Pocahontas mine is now burning more fiercely than ever and is gaining headway rapidly. It is said the fire has extended to the other three mines and there is now no prospect of subduing the flames soon. The loss promises to be enormous.

CRUISER BROOKLYN INJURED. Runs Onto a Rock While Engaged in the War Maneuvers.

Newport, R. I., Sept. 3.—Word was received tonight that the cruiser Brooklyn, flagship of Rear Admiral Coghlan, on leaving New Bedford this afternoon after an attack on the forts, ran onto a rock. She came off after awhile, but it is thought she is injured. Three vessels of the fleet—the Olympia, Puritan and Mayflower—were sent on to Block Island, the naval base, while the Peoria and the Tug Layden remained with the Brooklyn. Tomorrow divers will examine the vessel's bottom.

Attack Expected Early Today. New London, Conn., Sept. 3.—All was reported quiet late tonight. It was believed the ships were concentrating at Newport and that an attack would be made there before daylight.

TUG STRIKE IS SETTLED. Union Men Win After a Struggle Since the 8th of May.

Cleveland, Sept. 3.—The strike of the licensed tugmen was brought to a close at a conference here today. The non-union men recently employed by the company will be disposed of within a reasonable time and the men who have deserted the union and have been working for the Great Lakes Towing company will be retained until Jan. 1, 1903, which will be the life of the agreement just signed. A general conference of the tugmen and tug company will be held before the 10th of February, 1903, at which all conditions of the wage question will be decided for the ensuing season. Hereafter all the engineers and captains on the Great Lakes Towing company's tugs will be members of the union. The tugmen are now affiliated with the Longshoremen, through whose hands the future negotiations will be conducted. The strike just ended was called on May 8.

AGRAM RIOT CONTINUES. Croation Mob Does More Havoc Despite Presence of Troops.

Agram, Hungary, Sept. 3.—Rioting continues here today. A state of siege has been proclaimed and troops occupy the squares and principal buildings. Rioters have sacked the houses of a number of Servians. The residence of Captain Witas, who yesterday shot a number of the mob, was destroyed and the captain and his wife was badly beaten. Many rioters have been arrested.

Massacre By Servians Rumored. London, Thursday, Sept. 4.—The Vienna correspondent of The Daily Mail gives an unconfirmed rumor that the Servians at Agram have retaliated and massacred the Croatsians.

STOP A GERMAN STEAMER. Haytien Rebels Made Seizure of Munitions Consigned to Enemy.

Cape Haytien, Sept. 3.—The German steamer Markomania, having on board arms and ammunition sent by the provisional government to Cape Haytien, was stopped yesterday by the Firmin gunboat Crete-Pierrot at the entrance to this harbor and an armed force sent on board the vessel took possession of the war munitions in spite of the protestations of her captain and the German consul.

SHOOTING AT SAN FRANCISCO. San Francisco, Sept. 3.—Thomas H. Williams, Jr., a well known horseman, president of the California Jockey club, shot and seriously wounded Frederick Marriott, publisher of the San Francisco News-Letter, tonight at Marriott's residence. Marriott's recovery is doubtful. The shooting is supposed to have grown out of articles printed by Marriott reflecting on Williams.

GOTHAM CARPENTERS ON STRIKE. New York, Sept. 3.—Seventy-five hundred out of the 12,000 carpenters connected with the New York district council of the United Brotherhood of Carpenters & Joiners struck today for an advance in wages. Thirty-five hundred of the strikers won their demands almost immediately. The Master Carpenters' association decided unanimously to refuse all demands.

TODAY'S WEATHER. Washington, Sept. 3.—The following is the weather bureau's forecast for Upper Michigan: Fair in the west, showers in the east portion, Thursday; fresh to brisk west winds, Friday, fair, with warmer in the west portion.

MILLIONS PAID IN DIVIDENDS. New York, Sept. 3.—Dividend and interest payments in this city for August will amount to over \$50,000,000. The estimate of one of the best Wall Street authorities is \$50,950,926, as against \$40,478,349 last year, \$38,062,408 in 1900 and \$23,833,427 in 1899.

PEACE PLAN FAILS

SENATOR QUAY FINDS OPERATORS IN UNYIELDING MOOD. WILL NOT ARBITRATE STRIKE

POLITICS CANNOT BE ALLOWED TO INTERFERE, IT IS STATED.

Pennsylvania Statesman Satisfied After Conference With Baer That Nothing Can Be Done—An Extra Session of the Legislature Now.

Philadelphia, Sept. 3.—United States Senators Quay and Penrose held a protracted conference today with President Baer, of the Reading railway, with reference to the miners' strike. After the conference Senator Quay said: "We went over the situation thoroughly and are now satisfied that nothing can be accomplished at the present time."

"Politics will not be allowed to interfere in this strike," was President Baer's only comment. "This is the position of the Companies. President Baer later issued a lengthy reply to the two senators. Among other things, he says: "We have concluded that our duty to ourselves and to the public will best be served by standing firmly on these propositions: "One—The wages paid in the anthracite coal regions, compared with the wages paid elsewhere in like employment, are fair and just, and men willing to work honestly can earn more money on the present basis of wages than in any other industry engaged in producing common articles of necessity in the United States."

"Two—The wages could not be increased without increasing the price of coal, and an increase in the price of coal will restrict the market and drive the public to use bituminous coal, a cheaper, more abundant fuel, and that restricted market will curtail production and result in depriving the miners of regular employment. "Three—We are not fighting labor organizations. We fully recognize the right of men to organize to protect themselves in any legitimate way. But we do oppose their unreasonable interferences with the discipline and ordinary management of our business. We will not permit them to select our employees. Neither politics, religion, nationality or membership in labor organizations shall deprive any competent man from working for us. We are fighting a battle of freedom for the individual and his right to labor on his own terms."

"Fourth—It is, by reason of the varying conditions at each mine, impracticable to adopt a uniform scale of wages for the whole region. But at each colliery every complaint and grievance will be taken up and investigation by the superintendents, and adjusted whenever it is just. I personally offered Mr. Mitchell and his district presidents to go with them and investigate any grievance. "You see, senators, none of these things can be subject to arbitration. You cannot arbitrate a question of wages when an increase will destroy business, and a decrease would be unacceptable to the workmen."

PLANS COMPULSORY ARBITRATION Governor of Pennsylvania to Call Legislature in Extra Session.

Pittsburg, Sept. 3.—"An extra session of the legislature would cost the state less money than it is costing to maintain the militia in the anthracite region to prevent and suppress riots."

In these words Governor W. A. Stone tonight indicated to a few friends during a visit here his purpose to call an extra session of the Pennsylvania legislature to try and end the anthracite strike. Governor Stone said he believed that by these means the end of the strike could be made in less than thirty days.

The plan he proposes is to enact a compulsory arbitration law. Under the scheme which he has prepared, the committee appointed under the proposed new law would arbitrate the strike whether the strikers or operators are willing or not. Ample provision would be made to compel both sides to accept the award. The scheme involves a sweeping application of the principle of injunction both against capital and labor.

Commissioner of Labor Reports. Washington, Sept. 3.—The report of Carroll D. Wright, commissioner of labor, on the anthracite coal strike was made public today. Mr. Wright finds no confidence existing between employers and employees. This, he believes, one of the chief causes of the difficulties between the operators and miners. He suggests it would be reasonable and just for the operators to concede at once a nine-hour day for a period of six months as an experiment. He suggests there should be an organized committee on conciliation, composed of representatives of the operators and a new union of anthracite employees, to which all grievances should be referred.

President Cannot Interfere. After carefully going over the commissioner's report, the president submitted it to the attorney general, who after giving it full consideration, reports that the executive has no power whatever to take action in the matter. The report was accordingly made public today.

EGLESTON, THE AUTHOR, DEAD. Madison, Ind., Sept. 3.—Edward Eggleston, the author, died late last night at Lake George, N. Y.

BARGAIN BABIES.

If babies were for sale the most inveterate bargain-hunting woman in the world would not look for a bargain baby. She would want the best baby that could be bought, regardless of price.

Every woman naturally craves a healthy, handsome child, and her craving can be gratified if she will but remember that the child's health is her own gift, and to give health she must have it give.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for the use of delicate women.

DAILY MINING JOURNAL.

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month, by carrier, \$1.50. Per year, by mail, \$15.00. MARQUETTE, MICH., SEPT. 4.

Entered as mail matter of the second class in the postoffice at Marquette, Mich. The list of the upper peninsula papers favored with the tax lists for the various counties contains The Marquette Mining Journal for Marquette county. Why not?

Pelee's latest eruption is much severer than was at first supposed and it is said that at least 1,000 people have perished on the Isle of Martinique that witnessed the complete destruction of the city of St. Pierre only a few months ago.

A 9,700,000-bale cotton crop for 1902, which is the figure at which the yield for the year is put, means lots of prosperity for the planters. The corn and wheat growers are not the only agriculturists who will be in clover this year.

William Rockefeller has recently added 6,000 acres more, including Meacham Lake, to his Adirondack holdings. This gives him a park of 90,000 acres.

Democratic hard luck in Michigan is proverbial and the tradition that nothing can go right with the party in this state is again verified by the serious illness of Judge Durand.

Democrat hard luck in Michigan is proverbial and the tradition that nothing can go right with the party in this state is again verified by the serious illness of Judge Durand.

By the general support he received from the Democrats, he being said to have polled over half of the Democratic votes in the state. Just why this should be does not appear, but it is claimed to be a true statement of the case.

But when all is said, it is apparent that General McCullough, the regular nominee, lost because he was not able to hold the Republican strength.

The New York Commercial has the following interesting information concerning the D. M. & M. bonds: A banker, who is familiar with the terms of the mortgage covering the Detroit, Mackinac & Marquette land grant, points out that the amount of money equal to 60 per cent on all outstanding bonds, which will be ready for disbursement by the close of the year, cannot be applied as part payment of the principal on all the bonds, but that the trustees, when they receive the money, must advertise for tenders and that the proceeds will be spent in accepting the lowest tenders.

That, after a full and fair discussion of all the outstanding considerations, after a thorough re-evaluation of the political situation, with its possibilities—after a free interchange of past differences, present conditions and future hopes, aims, purposes—a majority of the Kentucky Democracy could be brought to reject a man who has for thirty years led them in all their victories, and not to a single defeat, was and is inconceivable.

MEMORIAL ASSOCIATION. The Mining Journal takes satisfaction in calling the attention of its readers to the proceedings, published in another column, of the first meeting of the newly formed association for the promotion of the erection of a memorial monument on the site of old Fort Michilimackinac at the Straits of Mackinac.

Democrat hard luck in Michigan is proverbial and the tradition that nothing can go right with the party in this state is again verified by the serious illness of Judge Durand.

Everything wrong in Kentucky politics and an unfeeling friend of everything right and good. But, eventually, 'tis not to be.

DEPARTMENT OF MINING. President Shaffner, in his address at the opening of the first session of the International Mining Congress, which is assembled at Butte this week, seized the opportunity to give his endorsement to the movement having in view the addition of a department on mining to the various departments now fostered and supported by the national government.

COL. WATTERSON'S REASONS. Colonel Watterson, who has had considerable to say concerning the reasons why he declined to enter into an active canvass for nomination and election as governor of Kentucky, recently stated his position in this polished and eloquent paragraph:

That, after a full and fair discussion of all the outstanding considerations, after a thorough re-evaluation of the political situation, with its possibilities—after a free interchange of past differences, present conditions and future hopes, aims, purposes—a majority of the Kentucky Democracy could be brought to reject a man who has for thirty years led them in all their victories, and not to a single defeat, was and is inconceivable.

Champion.

Several Champion Young Ladies Will Teach School This Year. Champion is contributing its quota of teachers to the upper peninsula schools this year.

Monday evening the three latter were given a farewell surprise party by their young friends at the home of Miss Nord's parents. There were just sixty-six in attendance.

Harry Huber, who is located at Canton, Miss., is home for a few days' visit to his parents, George Huber and wife. He did not advise his people that he intended paying them a visit, so his homecoming was a surprise.

MISS ANNIE LAVIGNE. Miss Annie Lavigne, who left Champion with her parents less than two years ago, was recently married to A. E. Ford at Walker, Minn.

CHAMPION CHIPS. Antoine Hebert is painting John Mahoney's house. Juel Lamore has taken a job as bartender for Harry Davidson.

CHARLES ANDERSON LEFT MONDAY for Hot Springs, where he will spend the next few weeks. He has been in poor health for nearly a year past.

DAVE AND JOHN SULLIVAN, who were at Negaunee attending the firemen's tournament, stopped off here for a day, on their way home, to visit old friends.

LOUIS TOURVILLE has taken a position as deliveryman with Levine & Davidson. His son, Ed Tourville, succeeds him as car repairer for the Chicago, Milwaukee & St. Paul Railway company.

THE CHAMPION FOOTBALL TEAM has secured a game with the Ishpeming high school eleven for a week from next Saturday. A couple of fine players who were in the West Superior Normal line-up for several seasons are here and will play with the local eleven.

Watterworth, Fee & Wilson.

HEATING PLANT SCHEME.
Mass Meeting at Laurium This Evening to Consider It.

A mass meeting of Laurium citizens will be held in the council chamber at 8 o'clock this evening to consider John Burder's proposition to put in a central heating and lighting plant. The scheme will be carefully explained by a representative of Mr. Burder, and if the property owners acquiesce the council will grant the necessary franchises. Mr. Burder's proposition, which will also be made to the Red Jacket common council, has been much discussed in both towns and sentiment seems to be much in favor of it. It is very likely that Laurium, at least, will grant the franchises and that the council will be requested by tonight's meeting to do so.

A meeting of the council was held Tuesday evening when the terms of Mr. Burder's proposal were explained in detail by Attorney Petermann, Mr. Burder's lawyer. The councilman appeared much in favor of the plan but did not wish to make any definite decision until the property owners themselves were approached on the matter, hence the mass meeting was called. The Red Jacket council also considered the proposition, which was explained in detail by A. W. Kerr, at its meeting Tuesday evening. As two councilmen were absent President Ryan suggested that the matter be held over for a decision until the next meeting. The proposition will be given careful consideration and at a meeting tomorrow evening it will again come up for discussion. The Red Jacket council is not favoring the movement as strongly as the council of Laurium, although the heating proposition is looked upon as all right. The question of granting franchises will probably be settled definitely tomorrow evening.

WHITE LINE'S NEW SCHEDULE.

The White Line Transportation company, which owns the steamers Iroquois and Bon Ami, plying between Duluth and Houghton, has made a change in its schedule, which took effect Sept. 2. Hereafter the Iroquois will leave Hancock and Houghton as follows: Mondays, 8 a. m. for Washington Harbor, Port Arthur and Duluth; Wednesdays, 5 p. m. for Duluth direct; Fridays, 8 a. m. for Washington Harbor, Port Arthur and Duluth. The Bon Ami will leave at 5 p. m. Saturdays for Ontonagon, Ashland and Duluth.

There will be no more excursions on the Iroquois to Isle Royale and Duluth this season as the new schedule will not allow it and besides it is now the time for fall gales. The captain of the boat stated that on the last excursion the roughest weather of the season was experienced. A number of excursions may be arranged to Duluth.

COMPANY G ELECTION MONDAY.

The annual meeting of Company G, Houghton Light Infantry, will take place Monday evening. The election of company officers will be held at that time, the terms of Captain Irving Shields, First Lieutenant Sanders and Second Lieutenant Becker expiring. It is likely all will be re-elected. Captain Shields was promoted to his present rank upon the advancement of Charles Hendricksen of Houghton from captain to major in the Third regiment a year and a half ago. First Lieutenant Sanders was recently elected to his position. All three men have proven themselves efficient officers and are popular with the boys. They are veterans of the Spanish-American war.

CONCRETE BENEATH THE TRACK.

Asphalt Man Says It Is Necessary to Make a Good Job.

S. S. Saxon of Minneapolis, a manager for the Barber Asphalt company, which has the contract to pave Quincy street, Hancock; called on Mayor A. J. Scott yesterday and inquired as to why the street railway company had not been ordered to bed its ties on the street in concrete to give the pavement a firm foundation all over. He was told that the company was not in favor of doing it and that it was the opinion that concrete under the ties was not necessary. It will be remembered that this question came up before the council at a recent meeting, when it was practically decided to order the company to put in the concrete. The company objected, however, and the council finally concluded that the matter not be pushed further. The resolution, ordering the company to bed its ties in concrete, was rescinded, although the council was not unanimous in the voting.

Mr. Saxon informed Mr. Scott that in order to do a good job it would be absolutely necessary to have concrete placed under the ties, and that all the council would have to do would be to order the company to have the work done. According to the franchise granted the company it is required that the track be laid to the satisfaction of the council. If the company refuses to carry out the demand, it is said, the work can be done by the Barber Asphalt company for the village and at the cost of the same charged up to the street railway people. At a meeting of the council last evening the proposition again came up for consideration.

THE PRESIDENT'S DOUBLE.

If the president had been seeking a double of himself, he could not have come more closely to the mark than in the man selected for secretary of the navy, and while the resemblance may be very striking, there is no more possibility of his being taken for the executive than there is of success in palming off a substitute remedy for Hostetter's Stomach Bitters. It has become so well known in the East for its beneficial effects on indigestion, dyspepsia, constipation and malaria that many unscrupulous dealers will refill the bottles with a bogus article and offer it as the genuine. Beware of such counterfeits. The genuine Hostetter's Bitters has its Private Stamp unbroken over the neck of each bottle. Don't fail to try it.

COPPERMID BREVITIES.

According to the report of Red Jacket's marshal, there were but six arrests in August.

The large, "Our Son," is unloading coal for the Arcadian mine at the Mineral Range docks at Hancock.

Miss McKay of Midland and Miss Horstman of Platteville, Wis., arrived at Hancock yesterday to complete the corps of teachers in the public schools.

Miss Rosa Daniel, of Pine street, Red Jacket, who is the new supervisor of the kindergarten department of the Calumet schools, is seriously ill with typhoid fever.

A promenade concert will be given by the Calumet & Hecla orchestra, under the auspices of the Houghton Light Infantry, at the Houghton Army camp this evening.

Rev. D. Stalker, pastor of the Calumet Presbyterian church, has left for Quincy, Mass., where he will visit several weeks with Dr. Todd, formerly of Escanaba.

Daniel McDonald, formerly of Calumet, now of Los Angeles, Cal., is visiting his brother, Norman McDonald, of Fifth street, Calumet. Mr. McDonald left Calumet thirteen years ago.

The steamer Peerless, of the L. M. & L. S. T. company, is due to arrive, bound up, this morning. The Nichol, of the Union Line, arrived yesterday morning. She will take two hundred tons of copper at Lake Linden and Dollar Bay.

The Hancock school board at the end of the school year, ending Sept. 1, 1902, had \$13,328.95 in its treasury, according to Dr. J. E. Scallon's report. The total enrollment of pupils last year was 1,212, and 970 was the average daily attendance.

C. Archibald Pearce, the Hancock architect, is making plans for a six-room parsonage for the Dollar Bay Episcopal church. The residence will be built this fall. It will be supplied with all modern conveniences. Rev. Mr. Dudson is the new pastor.

St. Joseph's parochial school, at Hancock will not open until next Monday. The building has undergone extensive changes which will not be entirely completed until that time. The attic has been converted into school rooms which are about ready for occupancy.

John Funkey of Hancock, accompanied by his daughter, Miss Sophie Funkey, left yesterday for Montana. Mr. Funkey is interested in and will inspect a gold property in that state which may be purchased by Hancock men if found as rich as claimed. Miss Funkey will go with her father as far as Great Falls. She will also visit Denver, Salt Lake

COPPER MINING.

BALTIC'S GREAT RECORD.

The Baltic output for August—466 tons—is not only the largest in the history of the company, but is the biggest month's product ever secured by any mine operating on the south side of Portage lake. When it is considered, says S. J. Beahan, in the Hancock Journal, that mine did not ship on an average more than 1,000 tons of rock daily the results of last month furnish the most convincing argument that the Baltic is equaling the best expectations of those who were interested in its flotation some six years ago, when some people were so unkind as to refer to the showing at hand as a "pocket," since then two more "pockets" have been added to the dress of the South range, and the trio promise this mineral tract a prominent place in the world of copper mining during the coming generation.

Copper Gossp.

An exploratory shaft has been started on Section 28, held under option by the Wyandott company, by Captain Thomas Buzzo of Laurium.

The Trimountain mill will be ready to go into commission just as soon as the remaining parts of its big pump are received and put into place. Two heads are completed and ready for work. The intake pipe has been laid and all is in readiness for the pump.

Copper at New York yesterday was dull and weak, but not much lower standard spot, closing at 10.70@11.15, Lake at 11.30@11.60, electrolytic at 11.20@11.35 and castings at 11.20@11.35. The London price was lowered, 3s. 9d. spot closing at 251, 13s. 9d and futures at 252.

Trimountain's perpendicular sand shaft at No. 4, where the lode was recently located by means of the diamond drill, is now thought to be bottomed in the ledge at a depth of 140 feet. The rock was encountered the fore part of the week. After the lode is explored a permanent incline shaft will be sunk to correspond with the formation.

J. J. Sullivan of Calumet, who has returned from a visit to the Calumet & Arizona mine, near Bisbee, Ariz., is enthusiastic over the property. He says there is plenty of ore in sight. So last

IS READY FOR WORK

FORT MICHILMACKINAC MONUMENT ASS'N ORGANIZED.

MINUTES OF FIRST MEETING

C. T. HARVEY IS PRESIDENT—HON. PETER WHITE SECOND VICE.

Marquette National Bank Designated as Depository—Corner Stone Will Be Laid June Sixth, 1893.

Following are the minutes of the first meeting of the newly organized Fort Michilmackinac Memorial Monument Association:

At a meeting of the citizens of Mackinac City, Michigan, convened upon the call of the president of the town council and held in Chamberlain's Hall, on the 30th day of August, 1902, W. E. Robinson, president of the council, was, on motion, chosen to be chairman of the meeting and E. C. Amphlett was appointed secretary.

After discussion, the following resolutions were offered and passed unanimously:

Resolved, That this meeting proceed to create a voluntary association, to be known as the Fort Michilmackinac Memorial Monument Association, for the purpose of promoting the erection of an imposing memorial monument on the site of the fort, formerly existing within the limits of this town, where was witnessed the last example of triumphant purely savage warfare occurring in the Great Lakes region of the United States and Canada, mainly comprised in the basin of the River and Gulf of St. Lawrence, which was marked with savage cunning and ferocity to a degree never afterward equalled in this region and where, with the fort's capture, civilization unfurled its banners before the red man, and the latter, in a fit of rage, led the way, savagery ever after receded and is now obliterated on this continent from ocean to ocean.

Resolved, That as the massacre of the garrison was commenced on the 4th and continued to the 7th of June, 1763, the town corporation, to be enlarged by including premises contiguous thereto sufficient to form a public park of ample dimensions for memorial and ornamental purposes, and cause it to be dedicated, with suitable ceremonies, contemporaneously with those of laying the memorial corner stone.

Resolved, That the council cause the park to be designated as "Wawatam Park" in honor of the Indian chief who manifested noble impulses of humanity in centering to save the life of Alexander Henry, the English trader who was an eye witness to, and became the historian of, the terrible tragedy, which most distinctly marked the line of cleavage between the savage past and the civilized future of this fair land.

Resolved, That the council cause a tender to be made of the park to the state of Michigan, to be held in trust and in perpetuity for the purposes aforesaid, and all attention to the propriety of placing the same under the care of the Mackinac Island State Park commission, which has caused such notable improvement to be there made with sight of, and upon the same excellent system, most applicable to the park now proposed.

Resolved, That reference be made in the minutes of this meeting to the initial suggestion of the proposed monument which appeared in the form of a letter from Charles T. Harvey to the editor of the Marine Review published in the city of Cleveland, Ohio, and first appearing in its issue of June, 1902, a copy of which is to be entered in full on these records.

Mr. Harvey's Letter. Washington, D. C., June 11, 1902. "Editor Marine Review: On behalf of the associated signers of the latest statement sent to members of congress in relation to the proposed semi-centennial celebration of the inauguration of the Lake Superior canal, I have prepared an additional resolution intended to be annexed to the previously drafted, and which I shall endeavor to have the house committee on interstate and foreign commerce, to whom the resolutions were referred, consider with them at its next meeting, when I hope to be present. The last one was suggested upon recalling the fact to mind that both the anniversary of the signing of the canal, and the anniversary of the regular British army at the straits of Mackinac was the one success of that kind and magnitude, when only savages led the attack, recorded in the history of the Great Lakes region.

"Again the event may be used as a handy argument to prove that the human race as a whole is growing better as the centuries roll by, when the fact is considered that at that time and place bodies of slain soldiers were boiled and eaten in open day by their captors! The occasion also will be one when King Edward's representative in Canada, Governor-General Lord Minto, can, with great propriety be invited to be present and dedicate the monument to the memory of those who were sent from England to protect the then hard-pressed colonists in that part of the eighteenth

century when Washington was in the same service. If the invitation should be accepted it will undoubtedly become a historic event in the annals of the great republic and of the great dominion.

THE RESOLUTION.

The resolution is as follows: "And be it further

"Resolved, That an additional sum of \$30,000 be and is hereby appropriated to be expended under the direction of said commission for the following purposes, to-wit: "First—In the erection of a monument to perpetuate the memory of the members of the garrison of Fort Michilmackinac who were massacred by the savage natives of the great lakes region in June, 1763, during the general war waged against the advancing civilized settlements by the Indian chief, Pontiac, such monument to be located at or near the site of said fort at the straits of Mackinac in the state of Michigan, on premises to be donated, and to be dedicated with appropriate ceremonies under the supervision of said commission during the month of June, 1903, being the 140th anniversary of said event.

Resolved, That the citizens here present now proceed to organize the association mentioned in the first resolution by the election of officers and adoption of by laws to that end.

On motion the chairman was unanimously requested to appoint a committee of three to nominate officers for election and also a committee of three to propose by laws for adoption at the first meeting of the association, to be immediately convened at this place and time.

Association's Officers. The nominating committee reported as follows: For President—Charles T. Harvey of Ottawa, Ontario. For First Vice President—W. E. Robinson of Mackinac City. For Second Vice President—Hon. Peter White of Marquette, Mich.

For Treasurer—Edward S. Bies, cashier First National Bank, Marquette, Mich. For Secretary—E. C. Amphlett of Mackinac City.

For directors, the officers as named, with four additional citizens of Mackinac City, viz: S. J. Smith, S. B. Chamberlain, E. M. Sutherland and D. W. Willets, Hon. C. O'Brien, state commissioner of railways, Sault Ste. Marie, Mich. and R. D. Williams, editor of "Marine Review", Cleveland, Ohio.

The nominations were confirmed by an unanimous vote and the persons named declared duly elected to the several offices as indicated.

The By-Laws. The committee on by laws reported as follows: I. The functions of this association shall be divided into three departments to be designated as A. B. C., classified as follows: "A" General dedicatory official arrangements and proceedings. "B" Monument construction and local assembling facilities.

"C" Legislative and financial arrangements. The president and vice president shall constitute an executive committee of three, of which two shall form a quorum, and propositions requiring action can be transmitted in writing and take effect by endorsement thereon of a majority, without "visa-vis" meetings being necessary, except when ordered by a majority of the committee.

The president shall act as executive in department A affairs. The first vice president likewise in department B. The second vice president likewise in department C.

The First National Bank of Marquette shall be the depository for funds received from individuals or governments, and the membership fee shall be \$10, the amount to be included in estimates of expenses or disbursements to be returned to the contributor when provided for by municipal, state or national appropriations. Officers are to be compensated in like manner.

Provision shall be made by the executive committee for enrolling a list of honorary members who shall be considered as guests of the association at the dedicatory ceremonies and be presented with souvenir medals of the occasion when in actual attendance at the same.

Such list shall include, the president of the United States, the governor general of Canada, the secretary of state of the United States, the British ambassador at Washington, the governor of the state of Michigan and of the several states interested in the results of the Indian war led by Chief Pontiac, the lieutenant governors of the contiguous provinces in the dominion of Canada, and such other distinguished officials and persons as the executive committee may deem advisable.

Lists of members are to be furnished by the secretary to the officers and directors when called for, and only those who have paid the prescribed membership fee shall be entitled to voting rights and other privileges of the association, including the distribution of commemorative medals.

These by-laws can be amended by the approval of a majority vote of the directors to written alterations or additions to, the same, when submitted by the executive committee with a recommendation for the adoption thereof. I certify that the above minutes are a correct record of the proceedings therein mentioned. Newspapers in the lower and upper peninsulas are specially requested to publish the same. E. C. AMPHLETT, Secretary.

bad. The market was strong right up to the close, commission houses being the best buyers. The people who control the September are reported to have been free sellers today. The market was very light compared with last year. The weather will be the influencing factor for the next few days.

"Frost talk had greater effect in corn than in wheat. The buying was general and shorts covered very freely, advancing prices materially. The market held firm all day, with offerings very light. The southwest was a large buyer. Cables were higher, and the receipts show but little improvement. It will be a weather market for some time to come.

"Oats were affected to some extent by the strength of wheat and corn. Brokers were the best buyers, and shorts covered. He has never had a failure of crops from either frost or drought. This year he raised 344 bushels of seed peas which he sold at \$1.80 per bushel. His land has produced thirty-six bushels of peas, seventy bushels of barley and seventy-five bushels of oats. Last year he purchased 3,000 acres more land, and has started to develop a grain and stock farm. Last winter he had seventy head of cattle and the coming winter will have 300 or 400 head. The land in his section is all underlaid with limestone and is warm and very fertile, but can be bought for from \$5 to \$12 per acre. A sturdy, industrious lot of settlers is wanted to properly develop this promising country.

Terrific plagues, those itching, pestering diseases of the skin. Put an end to misery. Dean's Ointment cures. At any drug store.

USED FOR PNEUMONIA. Dr. J. C. Bishop, of Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Refuse substitutes. People's Drug Store.

MEMONIEE FEELS SECURE.

If Coal Is Not forthcoming, It Can Use Peat.

While the residents of Memoniee are being threatened with a coal famine, there is at present in Birch Creek an enterprising firm engaged in producing peat, the fuel which is used almost exclusively in Ireland, says the Memoniee Herald.

While this new enterprise is virtually an experiment at present, the promoters assert that in spite of their limited plant they can, should the emergency require, supply one-half of the entire population of Memoniee with sufficient fuel for the winter.

Peat, with which the soil of Memoniee county abounds, is a substance of vegetable origin, consisting of roots, moss and other ligneous stuffs in various stages of decomposition and found as a kind of turf or bog, usually in low situations, where it is always more or less saturated with water. When properly prepared for fuel it gives more than three per cent heating power over hard coal, and incidentally leaves no ashes and does not generate any smoke during its consumption.

With the prospects of coal at from \$8 to \$10 a ton, it will readily be seen that there will be a most profitable market for peat at a reasonable price.

During the past two months there have been a number of prospecting parties in Memoniee county interested in the peat enterprise, and it has been shown that this section is particularly rich in this product. Sol Frost, the well known farmer, stated to a representative of the Daily Herald, that he thought peat, if developed and mined on a large scale, could be successfully produced in Memoniee county, and he spoke of the progress now being made at Birch Creek. Mr. Frost said that he was told by the men now at work at Birch Creek, that even with their limited facilities, they could, if the conditions required, furnish enough fuel to supply half of the city of Memoniee.

It is authoritatively asserted that in Memoniee county alone the deposits of peat are more than sufficient to supply this entire section with fuel. Peat, on an average, is six feet in depth and in some spots it has been known to run as deep as twenty feet.

The result of the labors at Birch Creek thus far has shown that the business of peat production may be conducted with great profit, and it is confidently expected that a number of local capitalists will shortly become interested in the new enterprise.

There will shortly be in operation at Capac, in the lower part of the state, the plant of the American Peat & Fuel company, in which General Alger is interested. It will be developed entirely to the production of peat fuel. Fifty men are now employed on its buildings. The main structure will be 128x90 feet, built entirely of stone, with steel roof. It is nearly completed. The foundations for three other large buildings are completed. Their dimensions are 35x45, 45x90 and 110x40. In addition, another building, 800 feet long, is contemplated. An immense outlay will be made, but the company is certain that it will make a commercial success of its undertaking.

IV. Lists of members are to be furnished by the secretary to the officers and directors when called for, and only those who have paid the prescribed membership fee shall be entitled to voting rights and other privileges of the association, including the distribution of commemorative medals.

These by-laws can be amended by the approval of a majority vote of the directors to written alterations or additions to, the same, when submitted by the executive committee with a recommendation for the adoption thereof. I certify that the above minutes are a correct record of the proceedings therein mentioned. Newspapers in the lower and upper peninsulas are specially requested to publish the same. E. C. AMPHLETT, Secretary.

COMES FROM NEW YORK.

Strength of Amalgamated Not Found in the Boston Market. Hayden, Stone & Co. said of the Boston market: "The strength of Amalgamated comes entirely from New York. It has practically no sympathetic effect on local coppers. We see nothing to cause any one to take any interest in coppers for the present."

Bullish Feeling in Wheat. W. H. Laidley said of the Chicago market: "Wheat opened higher, on better cables, due to bad weather abroad. The fact that frosts were reported in the far northwest helped the bullish feeling. The quality of receipts continues very

J. S. HOUGH'S EXPERIENCE.

He Owns a Highly Productive Farm at Ozark, Mich.

J. S. Hough, who ten years ago located at Ozark, Mich., twenty-three miles west of St. Ignace, on the Duluth, South Shore & Atlantic railroad, writes an interesting description of the capabilities of the country and his agricultural experiences therein, says the Northwest Magazine. He has 2,500 acres of land practically clear of stumps, and nearly 600 acres in a good state of cultivation. Since his residence on this land he has raised thousands of bushels of the finest potatoes, oats, winter and spring wheat, barley, timothy and clover hay, and has grown hundreds of bushels of garden peas under contracts for seed houses. He has never had a failure of crops from either frost or drought. This year he raised 344 bushels of seed peas which he sold at \$1.80 per bushel. His land has produced thirty-six bushels of peas, seventy bushels of barley and seventy-five bushels of oats. Last year he purchased 3,000 acres more land, and has started to develop a grain and stock farm. Last winter he had seventy head of cattle and the coming winter will have 300 or 400 head. The land in his section is all underlaid with limestone and is warm and very fertile, but can be bought for from \$5 to \$12 per acre. A sturdy, industrious lot of settlers is wanted to properly develop this promising country.

Terrific plagues, those itching, pestering diseases of the skin. Put an end to misery. Dean's Ointment cures. At any drug store.

USED FOR PNEUMONIA. Dr. J. C. Bishop, of Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia with good results in every case." Refuse substitutes. People's Drug Store.

SCHOOL BOOKS. We have books for all the different city schools. Come to us for School Books, Tablets, Ink, Pens, Pencils, Etc.

BIGELOW & CO., Marquette, Michigan.

Easy to Polish a Stove. Easily Applied—No Odor—No Dirt. To polish a stove like pepping a beefsteak may seem odd to those who have never used Sifter Stove Polish, but nevertheless, it is the newest, easiest and most convenient method known. Sifter Stove Polish is put up in a large, round box with a perforated top similar to a pepper box. The polish never dries out and does not require soaking in water before using. There is never any waste. It is good to the last pinch. It is gently sifted on the stove, brushed with a damp cloth and lightly rubbed with a dry cloth. A brilliant, jet black luster is obtained. There is no odor, no dirty saucers or pans, no rusty boxes to cover. The Sifter box is always clean. Sifter Stove Polish is cheap. It costs 8 cents a box, will polish more stoves than three times its cost in any other polish. All dealers.

WANTED BRICKLAYERS To work on Charcoal Kiln construction. Work will commence July 1st and continue till snow flies. Wages 45c per hour. Apply to Fred Pearce, foreman, new furnace, Marquette.

PIONEER IRON CO. 6-27-11.

NOTICE. To the property owners, taxpayers and other persons interested in the following proposed improvement, to-wit: For grading and macadamizing Presque Isle avenue from Wright street to Hawley street.

Notice is hereby given that specifications for grading and macadamizing Presque Isle avenue from Wright street to Hawley street, together with estimate of the expense of making said improvement and profile of the work to be done, are now in the office of the controller for public examination.

The district to be assessed to pay for said improvement comprises all the property abutting on said portion of Presque Isle avenue on both sides thereof.

The common council of the city of Marquette will meet on Tuesday, the 16th day of September, A. D. 1902, at 8 o'clock p. m., at the council chamber in the city hall, and consider any objections to said proposed improvement and the district assessment roll prepared therefor, and for the final confirmation of said roll.

Dated, September 3, 1902. DANIEL S. DONOVAN, Recorder.

What Fine Tender Meat it always is that you get from the Palace market! Juicy, fine grained, fat and delicious. We pride ourselves on being judges of prime meats and knowing how to cut and trim them for the most critical, so that they are fit for the table of a king. You can't get better meat anywhere in town than what we serve every day to our patrons. Turkeys, Ducks, Spring Chickens and Fowls.

FRANK W. HATHWAY, PALACE MEAT MARKET.

THE PEERLESS MEAT MARKET

Is now open for business on Superior St., next to old South Shore depot.

Orders by Bell telephone promptly attended to. Deliveries made to all parts of the city. JOHN CARNEY, Proprietor. 8-29-10m

Marquette Opera House.

Opening Night, Season 1902-1903. Thursday, Sept. 4th.

ANNUAL REPORT.

That of the Director Was Accepted at the Meeting of Trustees Monday.

At the annual meeting of the school board Monday, the report of the director, A. J. Yungbluth, for the year ending Sept. 1 was adopted. It states the expenses incurred during the past year for maintaining the public schools, and the receipts, from various sources. The largest item of expense, of course, was the teachers' salaries, which amounted to \$36,122.05.

Following is the assessor's account of the receipts and expenditures for school purposes during the past year:

Table with 2 columns: Receipts, Disbursements. Lists items like Cash balance, Teachers salaries, Fuel, etc.

The following detailed statement of expenditures, is from the director's report: Teachers salaries \$36,122.05, Janitors salaries 4,801.70, Fuel 3,671.54, Manual training 1,069.66, Repairs, supplies, etc. 9,535.49, Bonds redeemed 3,900.00, Interest paid 2,604.50.

Total expenditures for year, \$61,222.94. Estimates for year commencing Sept. 1, 1902: Teachers salaries \$36,000.00, Janitors salaries 4,500.00, Fuel 4,000.00, Incidentals 13,750.00.

Total \$58,250.00. Estimated receipts from the one mill tax and the primary school fund \$12,250.00. Amount to be raised by assessments 46,000.00. Total \$58,250.00.

SCHOOLS CROWDED.

The public schools opened Tuesday, with the largest attendance in their history. In the high school building, including the eighth grade, there were 210 present. In one room of the High school there were seventy-six in attendance, and nearly a dozen rooms contained from sixty to seventy-five scholars.

There were 450 scholars present Tuesday at the opening of the Convocation school. It has eight rooms, and every one was crowded, the largest number in one room being eighty-five. This is the largest opening attendance the Convocation has ever had.

There were 450 scholars present Tuesday at the opening of the Convocation school. It has eight rooms, and every one was crowded, the largest number in one room being eighty-five. This is the largest opening attendance the Convocation has ever had.

OLD SETTLER DIES.

Mrs. Elizabeth Goodman died at an early hour yesterday morning at the home of her daughter, Mrs. Nat Rowe, 639 South Pine street. She had been ailing for over a year past, and for a couple of weeks before her death relatives had no hopes of her recovery.

Mrs. Goodman was a widow, her husband having died in this city in 1895. She was born in England sixty-five years ago. She came to this country at the age of thirty-five, locating in Kentucky, where she was married. Shortly after their union, Mr. and Mrs. Goodman moved to Ishpeming, where she had resided continuously for twenty-eight years.

Mrs. Goodman is survived by two daughters, Mrs. Rowe and Mrs. Martin Tippet. The latter resides on Angeline street.

The funeral will take place tomorrow afternoon at two o'clock. The services will be conducted by Rev. S. Folkington at the Swedish Methodist church on East Cleveland avenue.

FORTUNE FAVORS A TEXAN.

"Having distressing pains in head, back and stomach, and being without appetite, I began to use Dr. King's New Life Pills," writes W. P. Whitehead, of Kennedale, Tex., "and soon felt like a new man." Infalible in stomach and liver troubles. Only 25c at Stafford's drug store.

A large variety of ready to wear ladies' and children's hats is being carried at the Finnish Mercantile Association.

No need to fear sudden attacks of cholera infantum, dysentery, diarrhoea, summer complaint of any sort if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

M. J. Olson, late of the F. Myer Piano factory of Oak Park, Ills, is prepared to tune and repair pianos. Address, 327 Vine street, Ishpeming, Marquette county, phone 317.

THE FOOTBALL TEAM.

Dr. Sweetland Says the Boys Are Not Showing Up Well This Year.

The boys who are trying for this year's high school football team spend an hour or more in practice every afternoon after school is dismissed. Dr. G. J. Sweetland has charge of the team, and he is with the boys when they are working.

While the team will likely be made up of all but one or two of the players who composed last year's eleven, the coach is not sanguine concerning the outlook. He says the work is decidedly "raw"; indeed, he appears to be somewhat disgusted with some of the players; he states that certain boys are "swelled" over what they did last year.

Speaking of the team Dr. Sweetland said: "The boys are not working well; three or four of them are in fair form, but the others are not even good for a half-mile run. It will be some time before the team is in anything like the condition it was in last season. We have a game with the Alumni next Saturday afternoon, and I actually believe our team will be beaten. The Alumni are heavy men."

"Our boys will have to work hard if they carry off the honors again this season. We will use an entirely new lot of signals and many of our plays will be new. It takes time to teach them in their new work. During the past few months the boys forgot most of the football they ever knew. This rather surprised me as I really thought we had a good team last season, and that it would require very little coaching to get them into the game in good style again this year. It is now just like starting over again. I do not believe that the team will have many easy victories if what I hear of other teams now at work is true. We want to win, but our players must improve rapidly if we are going to make a respectable showing."

ISHPEMING IN BRIEF.

Hon. Peter White of Marquette was here Tuesday.

Miss Lorne Outwaite returned home Monday from abroad.

A son was born yesterday to A. Paris and wife of West Pearl street.

Miss Emily Collick left Monday for Ironwood, where she will spend a couple of weeks.

Miss Charlotte Nelson left Tuesday for Benton Harbor, where she will attend college.

Miss Elizabeth Ashmun of Waupaca, Wis., has returned. She is a teacher in the city schools.

Fred Larson, who had been spending a few days with his parents, left for Chicago Tuesday night.

John Egan of Crystal Falls, who was in the city visiting his sister, Miss Lena Egan, has returned home.

Dr. Subee of Deerfield, Wis., was in the city yesterday. He is looking for a location to practice medicine.

The old street roller was brought back from Negaunee yesterday. It was used on the track there during the tournament.

John S. Olson and wife and John S. Mennie and wife have gone to Bass lake, to be gone for the remainder of the week.

David Johnson, wife and family arrived home Sunday from Shellburg, Wis., where they had spent the past two weeks.

Miss Anna Mahoney returned to her home in Green Bay, Wis., Wednesday, having spent the summer in this city with J. T. Burke.

Mrs. R. D. Ewing, who has been visiting relatives in this city, leaves Friday for Denver, Col., Tuesday night. Miss Peterson has relatives there, and Mr. Nikander is going west for his health.

Miss May Cutler, cashier at the A. W. Meyer company, one left for the copper country yesterday, for a ten days vacation. Charles White will fill her place in her absence.

The slight of hand performer in Atkins' window attracted large crowds Tuesday afternoon and evening. The electric lights went out just as the evening performance began.

The Crowley block, Cleveland avenue, is completed and ready for occupancy. John Sullivan, who has charge of the property, states yesterday that he expects to rent both stores.

H. J. Keopp of Marquette, agent for the Aetna Life Insurance company, was here yesterday. He delivered a \$1,000 check to William C. Hodge in settlement of a matured endowment policy.

Harry Watson, who has been in Arizona and Colorado for his health, was advised by the doctors to return home. He has gone to his people in Canada, where he will be joined by his wife in a few days.

F. Braastad & Co. are moving the retail bakery department to the grocery department. The hardware end of the business is being transferred to the room formerly occupied by the bakery. The change improves the appearance of the grocery store.

A stone bottom is being put in the basement of the new M. E. church. Concrete will be put on top of this, and a maple floor over the concrete. Twenty

men are at work on the building, and three more will be added today. There are also three teams at work.

Preparations are being made for the annual bazaar of the Swedish Lutheran church. It will be held in the Young People's Hall. The sewing society has been preparing for the affair all year. The bazaar will last three days, and the dates will be fixed some time this month.

Miss Amy Z. Peavey has returned from the west to resume her duties as teacher. During the summer she visited the scenic portion of Colorado, and went as far west as the coast. She spent a few weeks in San Diego, Cal., and returned home via the Canadian Pacific railroad.

C. I. Smith, traveling salesman for the Carpenter-Cook company, spent the latter part of last week at his home in Green Bay. He went down to attend the marriage of his sister, Miss Bessie, to C. W. Lomas, a popular young attorney of the city. The marriage took place Friday.

There were forty-eight births in this city during August, twenty-five girls and twenty-three boys. There were twenty-one deaths, compared with fourteen for the same month last year. In July of this year there were sixteen. The large number of deaths last month is explained by the unusual mortality among children.

If the Michigan Children's Home society doesn't send a representative to remove the coal from the contribution banks in this city there will not be many left. In yesterday's paper the theft of the bank at the Nelson House was announced. Since then it has been learned that the bank at Henry Harwood's drug store was also "nipped."

For the accommodation of the Ishpeming people who attend the performance of "The Tempest" at Marquette this evening, a special train will be run to this city after the close of the production, which, it is said, will be the theatrical event of the season. The advance sale has been heavy, but there are still some good seats remaining.

Frank Trombly will leave for Milwaukee, where he expects to secure the latest dance music, Friday night. Mr. Johnson of Michigan will take Mr. Trombly's place as leader of the orchestra during his absence. The first orchestra hop of the season will be held Sept. 15. The dancing class, which will meet preceding the hop, will begin at 7:30, instead of 8 o'clock, as heretofore.

OSTEOPATHY.

Hon. H. F. Pingree, ex-governor of Michigan, who signed the bill legalizing osteopathy in this state said after a thorough and careful official investigation:

"Osteopathy is a science entitled to the respect and confidence of all, as a distinct advance in medicine. I know that it is doing a vast amount of good in relieving suffering and deformity that is not amenable to benefit from drug medicine."

For free books explaining osteopathy, address Dr. J. L. Shorey, Front and Bluff streets, Marquette, Mich. At Ishpeming Tuesdays and Fridays, 212 W. Ridge street.

QUEER ENGINE.

One of the most unique engines on the Baltimore and Ohio system, and for that matter on any of the local railroads, has been assigned to the territory of General Superintendent L. C. Haas. It was built at the Mt. Clare shops and is designed especially for inspection purposes. The queer looking machine stood in the Water street station some time yesterday before starting on its first trip and the railroad men were unable to find in all their parlance a name that would exactly suit the peculiar locomotive.

For want of a better name they have designated it as an inspection engine, but this does not cover the whole idea, for it answers the purpose of an entire train. In short, No. 622 is an engine with a small passenger coach constructed on top of the boiler, just back of the smokestack. It somewhat resembles the old inspection car of the Pennsylvania, answering the same purpose, but is different from anything ever seen in this section of the country. The boiler is heavily covered with asbestos, that with a thickness of iron and the floor with Brussels carpet. The seats in this shrouded coach are arranged in amphitheater style, so as to give every one in the car a full view of the track and the surrounding country.

The higher officials of the inspection party are supposed to sit in the rear seats, which are the most elevated. Passengers enter the car by winding stairs on each side of the front pilot of the engine. There is also a rear pilot, so the engine may be run in either direction readily. But three men are required to make up the train crew, an engineer and a fireman, who occupy the cab, located back of the coach, about the same as on an ordinary engine, and a flagman. The idea is to have a quick and convenient way for officials to make a trip over the lines without hauling an entire train. The affair devised at the Mt. Clare shops presents a peculiar sight passing over a railroad.—Pittsburg Post.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure takes internally, acts directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

FOOTBALL PROSPECTS.
Principal Begle Will Coach the Negaunee Team This Year.

The Negaunee High school will have a football team this year, and it is expected that the team should "make good." N. G. Begle, the new principal, will be the coach, and he will endeavor to be out every afternoon at the practice. Mr. Begle coached Escanaba last year, and his boys gave Ishpeming one of its hardest games. Six of last year's team are back in the Negaunee school. There are not many heavy men available, but the boys make up in enthusiasm what they lack in weight. Last year, and year before last, the Negaunee teams did not hold together long. They played one or two games, but soon lost interest and went to pieces. This season, it is said, all this will be changed. The boys will stick it out to the bitter end, for better or for worse.

ST. PAUL'S SCHOOL OPENED.

The attendance at St. Paul's parochial school at the opening session, Tuesday, was 200. This is regarded as a large number for the first day, and, as other scholars will come in right along, it is expected that the attendance this year will be greater than last. Sister Marciana has taken Sister Aubin's place in the school, the latter having gone to Sedalia, Ill.

LUTHERAN CHURCH FINANCES.

The total receipts of the Swedish Lutheran church during the month of August, from the socials and sale of refreshments in the Williams building, were \$607, of which \$450 was clear profit. The money was used to liquidate the church debt, which fifteen months ago was \$1,200, but which has all been paid off, with the exception of a small amount of \$70. During the year \$200 has been spent in repairing the parsonage. When the present pastor came here, there were sixty communicant members in the church. Now there are one hundred and forty.

LARGE SCHOOL ATTENDANCE.

About 1,400 scholars were enrolled in the public schools Thursday. This is a large number for opening day, and some of the crowded rooms will have to be evened up. An additional row of seats will probably be put in the assembly room of the high school to accommodate the increased number of scholars. The school census this year totalled 2,384, twenty-five less than last year. The decrease is probably due to the change in the school age of children, which is now from five to twenty years.

NOT DOOMED FOR LIFE.

"I was treated for three years by good doctors," writes W. A. Greer, McConvilleville, O., "for Piles and Fistula, but when all failed, Bucklen's Arnica Salve cured me in two weeks." Cures Burns, Cuts, Corns, Sores, Eruptions, Salt Rheum, Piles or no pay. 25c at Stafford's drug store.

LOCAL LACONICS.

Mrs. Joe Blair of Gladstone is visiting relatives here.
Herbert Buzo has about completed his house on Clark street.
Frank Waters will leave for Albion on the 12th to enter college.
Gordon St. Clair goes to Ann Arbor the 15th, to enter the university.
A regular monthly meeting of the city council will be held this evening.
C. E. Anderson will leave for Alma next week, to enter college there.
T. A. Olin, W. Nikander and C. Pelto went to Goose Lake for an outing yesterday.
August Anderson is building an eight-room house, on Mary street, for John Hooper.
Guy St. Clair will leave for Chicago about the 16th. He will enter Armour Institute.
John Fern, who has been visiting his aunt, Mrs. Ellis, returned to his home in Hurley Monday.
Rev. Vjuallin of Iron Mountain gave a lecture at the Swedish Mission church Tuesday night.
Howard Jochim will leave on the 9th for Fishkill on the Hudson, to enter a preparatory school.
Rev. A. E. Rundquist, of the Swedish Mission church, was at Carlshend this week on mission work.
Mrs. M. J. Rice of Milwaukee, who has been visiting her parents, Mr. and Mrs. Lemire, in this city, went Monday.
Miss Helen Hunt, of Grand Rapids, Mich., who has been spending a few days with Miss Maitland, returned home Tuesday.
Will St. Clair will go to Houghton next week to attend the College of Mines. This is his second year at that institution.
The machinery at the power house gave trouble Monday and Tuesday nights, and the electric lights were out for a while.
Charles Muck is the owner of a great Dane, which he purchased in Green Bay, Wis., last week. The dog, which is but seven months old, is unusually large.
The cots which were used during the tournament are to be sold for twenty-five cents each, instead of seventy-five cents, as stated yesterday. They can be procured from any of the tournament officers.
Water takers who have not yet paid their last quarter's taxes are asked to come around without further delay. The superintendent of the water works stated yesterday that the water will be turned off soon in all cases in which the taxes are not settled.
The board of directors of the Negaunee Co-operative store held a meeting Saturday and decided to declare a dividend of 5 per cent on trading, and 7 per cent on stock. The dividends are paid

HOMESTEADER WANTS A WIFE.
Bride Must Know How to Raise Chickens and No Dancer Need Apply.

Albert Lashway, a homesteader from Little Lake, spent yesterday in Negaunee. The object of his visit was to secure a wife. He is living alone on his homestead and he is tired of that sort of a life. He has had two women in his time, and both deserted him.
Lashway is not making "goo-goo" eyes at any of the young girls; he wants an old maid or a widow; he is not particular about the woman's age, so long as she is over forty-five. Lashway would like a woman about his own age, but would accept one a few years younger if she suited him. His other wives were young women, and he says they didn't attend to their household duties very well.
The homesteader owns 100 acres of land and he claims to be a good provider. He prides himself on his young appearance and he remarked, while talking to a representative of The Mining Journal, that he will look just as good as any of the young fellows as soon as he receives the woman of his choice.
When asked just what kind of a woman he wants Lashway said: "I won't have one who dances. My last wife was a dancer and she went to every dance in the vicinity of my place. I don't like that. I don't dance myself and I don't want my wife to dance. I want her to take care of my chickens when I am not at home. I am a good worker and I will do my share, but the woman must do her share. I have a good shanty on my place and I own the homestead."

UPPER PENINSULA.

While "Peggy," a hanger-on at a Soo saloon, was slumbering peacefully in a chair the other day, a miscreant applied about five cent worth of pepper to Peggy's moustache. The victim of the joke, after about twenty minutes of good hard sneezing, took a solemn vow never to sleep again on a chair in that vicinity.
Dick Britton, who is doing the Delmonico act for the men employed on the Brule drive, in Iron county, treated them to quite a surprise the other morning. In some mysterious manner he put Peers into the coffee pot and instead of giving the men their accustomed cup of coffee he gave them a good strong cup of extract of the tobacco.
James H. Donahue, a strong man, who gave an exhibition of his prowess with the dumb bells in one of the local resorts last week, is reported to have run against a snag at Wakefield, near Ironwood, as he was preparing to give an exhibition in that burg. He had offered \$50 to any man who would put up with two hands what he put up with one. A Finlander from one of the mines happened to come along and seeing the dumb bells on the floor, picked one of the heavier ones in one of his hands and looked at it. Donahue asked him to put it over his head and he did so with the greatest of ease. Donahue proceeded to get out of town at once and hasn't been seen around there since.

ATTENDED CUTTING SCHOOL.

H. J. Peterson, the tailor, who returned a few days ago from Chicago and other cities, spent most of his time while away attending a cutting school. Some of the finest cutters in the country are at the head of the institution, and hundreds of cutters from all parts of the United States go there for pointers. While away, Mr. Peterson purchased a large line of new goods for his fall and winter trade. As will be noticed by his advertisement elsewhere in this issue, his new line is now ready for inspection.

LAKE AND RAIL EXCURSION

from Ishpeming, Negaunee and Marquette, via Lake Superior & Ishpeming Railway, Munising Railway and Marquette & Southeastern Railway, to Munising, Mich., and three hours lake trip from Munising to Grand Island and Pictured Rocks on the steamer "Thomas Friant," Sunday, Sept. 7, 1902. Low fare for the round trip. Includes three hours boat ride along the shore of Grand Island and trip to Pictured Rocks (weather permitting). Special train leaves Ishpeming at 8 o'clock a. m.; Negaunee, 8:10 a. m.; and Marquette 9:05 a. m. Fare from Ishpeming and Negaunee will be \$1.25 and from Marquette \$1.00. Children one-half fare. Returning special train leaves Munising 6:30 p. m. Beach Inn—Munising hotel—was opened Monday, Sept. 1, and will have ample accommodations for those desiring meals at Munising.
H. A. ST. JOHN, General Passenger Agent.
(9-3-1f)

SEMI-ANNUALLY. The business of the store is in a flourishing condition. A number of new stockholders have been admitted.

Alphonse Lavigne and bride, who were married in Ishpeming Monday morning, entertained their friends in the afternoon at the home of Mr. Lavigne's parents, at the Cambria location. The bride and groom received many congratulations. Refreshments were served.
After the close of the performance of "The Tempest" at Marquette this evening, a special train will be run to this city for the accommodation of the Negaunee people who witness the elaborate production. Some excellent seats still remain.

SHEBA GOLD AND SILVER MINING COMPANY OF NEVADA.

The investment here offered is in a mine, not a prospect, with a productive record of over \$3,500,000. All ready equipped for operation and a forty-ton mill, compressor and hoist, all driven by water power, accessible to railway, only needing comparatively small returns from its treasury stock to make it a great dividend paying property. The mines of the company are located in Humboldt county, Nevada, only fourteen miles from Mill City, a station on the Central Pacific railway, with a down grade all the way from mines to station. It is on the same range as the noted Comstock mines, about ninety-five miles northeast of Virginia City, and its ores are of the same class and grade. The property consists of thirty-one claims, more than 600 acres, in a compact body. The one Sheba claim of itself has earned in several single years more than the total capitalization.

THE CAPITALIZATION
of this great property has been fixed at only 500,000 shares of \$1 each. It may be claimed without fear of contradiction that no property of corresponding extent and value has been capitalized at so conservative a figure in the whole mountain region. Of this 200,000 shares in Treasury provides amply for every probable requirement for development of property when taken into account with its great earning power. It is being offered in blocks, as required, at constantly advancing prices, it being the intention of the management to discontinue the sale of treasury stock the moment that the ore production, which is steadily increasing, shall warrant.

THE MANAGEMENT.
The Board of Directors includes well-known citizens of Utah, whose policy is to work the mine and not the stock market, and whose personnel assures to the shareholders a careful and conservative management in every respect.
The directors, five in number, are: Hon. Geo. W. Barch, President, justice of the Utah supreme court; Hon. H. M. Wells, governor of Utah; Hon. C. O. Whittemore, ex-U. S. district attorney and leading counsel for the Salt Lake and Los Angeles Railway company; Judge J. W. Burton, vice president of King, Burton & King; Hon. H. B. Clausen.
To make of the Sheba one of the successful mines of the country, as its merits will justify, profitable to its shareholders, and a distinctive example of legitimate mining, is the definite purpose of its managers.

FOUR DAYS OF FAIR

TWENTIETH ANNUAL EXHIBITION WILL BE HELD NEXT WEEK.

SEPTEMBER 9, 10, 11, AND 12.

IT WILL BE BIGGER, BETTER AND LIVELIER THAN EVER BEFORE.

Attractive List of Amusement Attractions and Good Horse Racing Will Entertain the Crowds.

Next week is Fair week, and the officers of the Marquette County association say that the twentieth annual exhibition will be bigger and better than ever.

The Fair dates this year are the 9th, 10th, 11th and 12th of the month, the exhibition being different from its immediate predecessors in that it will last four instead of three days. Another new feature this year will be the night sessions, made possible by the extension of the street car line and by the installation of electric lights.

Years ago the Marquette county fair used to be open both day and night, but for the past several seasons the officers have been content to have only day programs. The officers report constant inquiries concerning the exhibition from the farmers and they believe that the interest in the fair is going to prove even more widespread than has been the case in former years.

The premium list is substantially the same as it has been in the past, and it offers good rewards to exhibitors. Prominent farmers say that their crops and produce are so well along that they expect to be able to make excellent exhibits.

There will be no trouble on this score, and the exhibits in the other departments should show an improvement over the last fair.

Good Amusement Attractions. The upper peninsula, particularly the cities and towns of Marquette county, has been generously placarded during the past few days with posters an-

or proceed with the smoothness that will be characteristic of Wednesday, the copper country day, when the Negaunee (new) City band will be in attendance. Thursday will be Ishpeming day and evening, and the famous Ishpeming City band will attend.

The fair will be concluded Friday, with Negaunee day and evening, when the Negaunee orchestra band will furnish the music. The railroads will offer the usual special rates. The South Shore company will run special trains from the western end of the county. The Marquette & Southeastern road will afford mining people an excellent opportunity of seeing the exhibition, and it is expected that there will be a good attendance from that city.

Horse Races. The horse races will be depended on to afford Fair patrons good amusement. The speed programs will proceed, Wednesday, Thursday and Friday, \$1,500 in purses being hung up. It is known that some of the best horses on the upper peninsula will be entered.

The programs and conditions follow: Wednesday—3:00, mixed, \$250; 2:15, mixed, \$300. Thursday—2:40, mixed, \$300; 2:18, mixed, \$300. Friday—2:30, mixed, \$300; free-for-all mixed, \$400.

Five to enter, three to start. Entrance fee 5 per cent of purse. 5 per cent addition from money to winners. Money divided 50, 25, 15 and 10 per cent of purse. The horse distancing the field, or for walkovers, wins only one money. No more moneys than starters. All races 3-in-5, mile heats to harness. Usual weather clause. Rules of American Trotting association of which we are a member to govern. Stalls free to entered horses. Entries close September 9th, at noon. Joe Fay is secretary.

WARDE AND JAMES TONIGHT. Their Appearance Will Be the Big Event of the Theatrical Year.

The big event of the theatrical season of 1902-03 and the first event of the season will be co-incident and will occur this evening, when Louis James and Frederick Warde will appear in a sumptuously staged production of Shakespeare's finest and most masterful comedy, "The Tempest." There has been a big advance sale of seats and the prospects are that the presentation will be

favorable, the attendance at the mission at St. Paul's was not as large as usual. For that reason Father Powell left the subject on which he had intended speaking and took, instead, a theme that treated of the Rich Pharisee who entertained Jesus at the dinner at which the poor, degraded woman of the street came in and washed Jesus' feet with her tears and wiped them with her hair.

The speaker pointed out how this Pharisee sinner desired to entertain the peasant preacher at a banquet but failed to do him any honor or show him even the ordinary courtesies of life. The peasant preacher was a popular subject of discussion and so it was the policy of a good Pharisee to keep in touch with religion and religious persons and also to receive the smiles of the fashionable world. He therefore invited Jesus to a banquet, but he would not wash his feet, an ordinary custom of the East, or to anoint him with oil, or give him a kiss of loving welcome. It was left for a degraded sinner to come in and perform these acts for him.

Father Powell then went on to show how society and the respectable people of the twentieth century treat Christ in the same way. We join in grand and glorious services, beautiful singing, eloquent sermons; we are ready to give Jesus a great display of pomp and ceremony, but fail to give him the very thing he wants—love. We could show him love in attention to his poor, in being ready to sacrifice ourselves in some way for his sake. We could show him love by inconveniencing ourselves and rising early on the cold and rainy mornings to worship him in the eucharist. His special service. But we do not. Instead, we do the things which give us most pleasure. What Jesus wants is our love. He yearns for us to come to him, as did the woman, and give him our love.

The speaker concluded by asking the people to use the short simple prayer of St. Augustine—"O my God, I know not if I love Thee; but I want to love Thee."

MARINE MATTERS. Soo Canal Passages. Sault Ste. Marie, Mich., Sept. 3.—(Special).—Up—North Wind, 8:20 last night; Lockwood, Yukon, 11; Mohawk, 1 a. m.; Protieus, Middlesex, 1:40; Erin, Danforth, 3; Chili, 6; Pratt, Athens, 7:30; Osceola, 8:40; Algonquin, 8; Fay, Aleona, Alta, 9:30; Alberta, 2 p. m.; Monarch, 3:30.

CITY BREVITIES. Today's weather: Generally fair; cooler, with frost; brisk and high north-west winds.

Yesterday's temperature: 7 a. m., 58 degrees; 12 noon, 59 degrees; 7 p. m., 48 degrees; maximum, 64 degrees; minimum, 48 degrees.

J. H. Quinn of Ishpeming was here yesterday.

F. A. Bell of Negaunee was yesterday admitted to practice in the United States court.

A social hop will be given some time this month by the Marquette Light Infantry.

Miss Fitch, Miss M. M. Fitch and Miss Parkes of Champion were in Marquette yesterday.

Miss Pearl Smith returned from Corrine yesterday to resume her studies in the public schools here.

Charles Reindinger is in the city visiting his parents, Mr. and Mrs. Louis Reindinger. Mr. Reindinger is now located at Detroit.

The steamer Bloomer Girl, which was in this port last spring, is in the dry dock at Duluth, having suffered a broken rudder Monday.

Yesterday was a typical fall day, the first of the year. High winds prevailed and a sleety rain set in late in the afternoon, continuing persistently for several hours. The temperature was low.

Several carloads of clay were dumped on the east end of the new deep port yesterday. The South Shore

road is grading the ground up a couple of feet.

The school board will be organized for the ensuing year at a meeting to be held some time within the next few days. It is said there will be no change in the present officers.

The final Assembly of the summer series will be held at Fraternity Hall Saturday evening. The full orchestra will furnish the music. A large attendance is expected.

Mrs. John G. Stone and family, who have been visiting Mr. and Mrs. D. H. Ball here, have returned to Houghton. Mr. Stone is building a new residence, which will shortly be completed.

The South Shore road is building a high board fence from the southeast corner of its old depot on Superior street to prevent trespassing on the railroad right-of-way, which it will nearly shut out.

Frederick W. Hopkins, the five-month-old son of Phil Hopkins, 126 West Bluff street, died last evening after a brief illness with cholera infantum. The funeral arrangements will be announced later.

Miss Susan Heffernan, formerly a teacher in the high school here, who taught at Escanaba last year, has departed for Minneapolis, where she has accepted the position in one of the high schools.

TUG STRIKE SETTLED.

Captain Bowen Notified to That Effect Yesterday.

The tug strike is finally settled, according to a telegram received by Captain George H. Bowen of the Marquette harbor tug Schenck from C. H. Sinclair, general manager of the tug trust, yesterday. It read as follows: "Strike settled. All old employees will be taken care of by us."

This strike has been on since shortly after the opening of navigation and it has been responsible for more or less trouble and disturbance all along the great lakes, although this port has seen no rivalry between trust and independent tugs. At Duluth, however, the competition has been strong and lately there has been talk of putting in an independent line at the Soo. It appears from General Manager Sinclair's dispatch that the strike has been settled on terms that will be satisfactory to the old hands.

MANY INVITED TO RETURN.

U. P. Methodist Clergymen Are Popular With Their Flocks.

The following Methodist ministers in Marquette and neighboring counties have been invited to return to their present charges for the next conference year, according to Presiding Elder C. M. Thompson: Rev. E. A. Elliott, Marquette; Rev. S. Polshorn, Iron; Rev. D. Caster, Soudsburg; Rev. E. Brickford, National mine; Rev. J. M. Shank, L'Anse; Rev. A. Balgooyen, Baraga; Rev. Isaac Osborne, Sidaaw; Rev. J. W. Osborne, Lathrop; Rev. Frederick Spence, Munising; Rev. F. H. Rickard, Germask; Rev. S. M. Preston, Grand Marais; Rev. A. Crane, Newberry; Rev. H. Magahay, Republic and Rev. A. Richards of Champion. Most of these requests will likely be honored by the Detroit annual conference, which meets in Saginaw this year on Sept. 17.

HOW SOCIETY TREATS CHRIST.

Father Powell's Topic at the Mission at St. Paul's Last Night.

The weather last night being so unfavorable, the attendance at the mission at St. Paul's was not as large as usual. For that reason Father Powell left the subject on which he had intended speaking and took, instead, a theme that treated of the Rich Pharisee who entertained Jesus at the dinner at which the poor, degraded woman of the street came in and washed Jesus' feet with her tears and wiped them with her hair.

The speaker pointed out how this Pharisee sinner desired to entertain the peasant preacher at a banquet but failed to do him any honor or show him even the ordinary courtesies of life. The peasant preacher was a popular subject of discussion and so it was the policy of a good Pharisee to keep in touch with religion and religious persons and also to receive the smiles of the fashionable world.

He therefore invited Jesus to a banquet, but he would not wash his feet, an ordinary custom of the East, or to anoint him with oil, or give him a kiss of loving welcome. It was left for a degraded sinner to come in and perform these acts for him.

Father Powell then went on to show how society and the respectable people of the twentieth century treat Christ in the same way. We join in grand and glorious services, beautiful singing, eloquent sermons; we are ready to give Jesus a great display of pomp and ceremony, but fail to give him the very thing he wants—love.

We could show him love in attention to his poor, in being ready to sacrifice ourselves in some way for his sake. We could show him love by inconveniencing ourselves and rising early on the cold and rainy mornings to worship him in the eucharist. His special service. But we do not. Instead, we do the things which give us most pleasure.

What Jesus wants is our love. He yearns for us to come to him, as did the woman, and give him our love.

The speaker concluded by asking the people to use the short simple prayer of St. Augustine—"O my God, I know not if I love Thee; but I want to love Thee."

MARINE MATTERS. Soo Canal Passages. Sault Ste. Marie, Mich., Sept. 3.—(Special).—Up—North Wind, 8:20 last night; Lockwood, Yukon, 11; Mohawk, 1 a. m.; Protieus, Middlesex, 1:40; Erin, Danforth, 3; Chili, 6; Pratt, Athens, 7:30; Osceola, 8:40; Algonquin, 8; Fay, Aleona, Alta, 9:30; Alberta, 2 p. m.; Monarch, 3:30.

CITY BREVITIES. Today's weather: Generally fair; cooler, with frost; brisk and high north-west winds.

Yesterday's temperature: 7 a. m., 58 degrees; 12 noon, 59 degrees; 7 p. m., 48 degrees; maximum, 64 degrees; minimum, 48 degrees.

TUG STRIKE SETTLED.

Captain Bowen Notified to That Effect Yesterday.

The tug strike is finally settled, according to a telegram received by Captain George H. Bowen of the Marquette harbor tug Schenck from C. H. Sinclair, general manager of the tug trust, yesterday. It read as follows: "Strike settled. All old employees will be taken care of by us."

This strike has been on since shortly after the opening of navigation and it has been responsible for more or less trouble and disturbance all along the great lakes, although this port has seen no rivalry between trust and independent tugs. At Duluth, however, the competition has been strong and lately there has been talk of putting in an independent line at the Soo. It appears from General Manager Sinclair's dispatch that the strike has been settled on terms that will be satisfactory to the old hands.

MANY INVITED TO RETURN.

U. P. Methodist Clergymen Are Popular With Their Flocks.

The following Methodist ministers in Marquette and neighboring counties have been invited to return to their present charges for the next conference year, according to Presiding Elder C. M. Thompson: Rev. E. A. Elliott, Marquette; Rev. S. Polshorn, Iron; Rev. D. Caster, Soudsburg; Rev. E. Brickford, National mine; Rev. J. M. Shank, L'Anse; Rev. A. Balgooyen, Baraga; Rev. Isaac Osborne, Sidaaw; Rev. J. W. Osborne, Lathrop; Rev. Frederick Spence, Munising; Rev. F. H. Rickard, Germask; Rev. S. M. Preston, Grand Marais; Rev. A. Crane, Newberry; Rev. H. Magahay, Republic and Rev. A. Richards of Champion. Most of these requests will likely be honored by the Detroit annual conference, which meets in Saginaw this year on Sept. 17.

School Supplies

In school supplies we offer such assortment and values as should win the trade of those who buy carefully. In buying pens, pencils, tablets, ink, crayons, sponges, etc., we exercise as much care as we do in buying drugs. We believe we can do you good on nearly every article in our school supply department—either a better quality for the same price, or the standard quality for a less price. A little saving on little things is a saving worth saving.

LIONEL LEGARE

PHENOMENAL EQUILIBRIST.

ORIGINATOR & PERFORMER OF THE MOST PERILOUS, THRILLING AND DIFFICULT EXHIBITION EVER DEvised BY MAN.

THE ONLY ARTIST ACCOMPLISHING THIS APPARENTLY IMPOSSIBLE FEAT—COASTING FROM PINNACLE OF TOWER TO THE BOTTOM WHILE BALANCED ON ONE HAND ON A SMALL TRUCK.

JUGGLING FLATS AT FOOT OF TOWER.

nouncing the amusement attractions engaged for the week by Chairman W. A. Ross of the amusement committee. The program will comprise the best line of specialty and circus acts that has ever been secured for a Marquette county fair, and this is putting it strong, as the programs of the past few years have been uniformly excellent.

The most sensational attraction secured is Lionel Legare, whose performance has never been excelled in points of interest and daring on the upper peninsula. He is a spiral tower artist and will be seen in marvelous gymnastic feats performed in mid air. His tower will rise a dizzy height. One of his feats will be to roll a big ball from its top to its bottom along a spiral winding path but a few inches wide, he standing on the ball and moving it with his feet. This exhibition can be given in the night with a peculiarly attractive effect.

Then there will be the Grottesque Trio, a team of the best contortionists that Mr. Ross was able to secure. Their leading feature is the inimitable "Legman."

The Langfords, well known aerial artists, will give an exhibition of mid-air daring, the climax of which will be the aerial return act.

The slack wire performance will be given by Monsieur Perry, who will come to Marquette with the recommendations. These turns will be gone through a couple of times each day and evening. The fair management is positive in its assurance that they are fully up to the standard of past offerings.

Other Announcements. Tuesday, the first day of the fair, will be known as everybody's day. While the exhibition will be pretty well underway, it will hardly be so compet-
