FLEET RUNS FORTS

GETS INTO NEWPORT HARBOR BEFORE DETECTION.

COUNTED AS A GREAT VICTORY

TERRIFIC CANNONADING FOLLOWS WARSHIPS' MANEUVER.

Vessels Later Theoretically Escape to Sea, With Army Claiming Its Guns and Mines Could Have Destroyed the Squadron.

Newport, Sept. 5.—Two cruisers and three battleships of Admiral Higginson's fleet ran the guns of Forts Adams and Wetherill tonight, getting with broadsides, range for all their guns before they were picked up by the searchlights of the forts. The fact that the Brooklyn reached the mouth of the harbor before it was picked up by the searchlights is considered by naval men here to be a victory for the fleet.

When aloft and ashore the cannonading was at its height the scene was one of grandeur. The gunners in the forts, after working the big guns a few minutes, had to desert them and quickly manned the secondary batteries. The rapid-fire guns made as great a din as the big ones, and if anything made the picture a livelier one. The live vessels kept in almost under Fort Adams until within short range of the torpedo station, and then they appeared to anchor. The firing stopped, and it was supposed the great battle was ended.

Idea of Escape Carried Out.

In half an hour, however, the ships suddenly steamed out of the harbor in the same order as coming in, the Brooklyn leading. The ships did not fire a gun, but Fort Adams gave them a few broadsides when the Brooklyn and Olympia were abreast of Beaver Tail light. Fort Creble opened for the first time tonight. The fleet escaped; if such was the idea, toward Block Island. During the battle the smaller craft were in squadron formation to the seaward and did not attempt to enter the harbor. The Puritan and Indiana were not seen.

As there was not time for communication between the shore and ships, the maneuvers of the fleet was mysterious. The army claims that not only would its guns have swept the ships, but its mines would have wrecked some of them in the narrow channel, so escape would have been impossible for any that reached the harbor.

REPORT OF ERUPTION ERRONEOUS

News of Loss of 3,000 Lives Relates to the Horror of Aug. 30.

Castries, Island of St. Lucia, Sept. 5.—The report brought by the Royal Mail steamer Yare, which arrived last evening from Martinique, of the loss of 2,000 lives through a recent outbreak of Mont Pelee, referred to the deaths since Aug. 30 and not to loss of life resulting from the eruption of Wednesday, Sept. 3.

The steamer Yare further reports that several more valuable plantations were destroyed at the time of the recent outbreak, in addition to the townships referred to in previous dispatches, and adds that the anxiety and dejection of the surviving population is general.

Thick Dust Miles at Sea.

The eruption of Mont Pelee on Sept. 3 was not remarkable, but there was a terrific explosion from Soufriere, in St. Vincent, on the same date. The captain of the steamer Savan, now here, confirming the report called to the Associated Press last night that she ran into dense clouds of dust when twenty miles southwest of St. Vincent at 2 o'clock Wednesday morning, adds that absolute darkness prevailed soon afterwards and he had to change his course to due west in order to avoid the ashes, which were falling thick. The first officer could not see the captain two feet away, and only knew him by his voice. They did not see the sun until 10 o'clock a. m. the same day.

Paris, Sept. 5.—The colonial minister received a cable dispatch today from Fort de France, dated Sept. 3, relating to funds placed at the disposal of the government. No mention is made of a new eruption of Mont Pelee. The ministry has not received news of any eruption of Mont Pelee since that of Aug. 30.

FILIPINO BANDITS ATTACK TOWN.

Rios and His Band Routed by Force of Native Constabulary.

Manila, Sept. 5.—Rios, the fanatical leader of the irreconcilable natives in the province of Tayabas, Luzon, attacked the town of La Guinoman on Sept. 3 at the head of thirty riflemen and 150 men armed with bolos. The band wantonly killed two women and one girl and wounded several other persons.

A detachment of native constabulary arrived unexpectedly at La Guinoman and attacked and routed the bandits, killing several of Rios' followers. Later the constabulary rounded up seven hundred men, many of whom are suspected of complicity in the attack on La Guinoman. The guilty ones will be picked out and the remainder set at liberty.

One of Rios' lieutenants captured says that Rios is a direct descendant of God and it is beyond the power of man to injure him.

The constabulary also captured one of Rios' mountain strongholds. Four detachments of the constabulary are now following the main band of outlaws.

NO CLASH AT MARCUS.

Returning Japanese Cruiser Reports All Arranged Satisfactorily.

Yokohama, Sept. 5.—The Japanese cruiser Takachihou returned here today from Marcus island. She reports Captain Rosehill at Marcus island, but that everything has been arranged satisfactorily.

DURAND CONTINUES TO GAIN.

Slight Improvement Noted in the Condition of the Nominee.

Flint, Mich., Sept. 5.—There has continued to be a very slight improvement, tonight, in the condition of Judge Geo. H. Durand, Democratic candidate for governor, who suffered a paralytic stroke Monday.

NAPLES CHURCH IS WRECKED.

Explosion of Escaping Gas Kills a Lamp Lighter and Injures Others.

Naples, Sept. 5.—The entrance of a lamp lighter into the sacristy of the church of Santa Lucia tonight was followed by a terrible explosion, caused by escaping gas. A portion of the massive roof was blown off and the lamp lighter was killed. Several persons were injured. It reported others have been killed by falling debris.

PRESIDENT IN SOUTH TRADE STILL GAINS

HE RETURNS TO WASHINGTON AND AT ONCE LEAVES AGAIN.

CHATTANOOGA THE OBJECTIVE POINT

GOES TO ATTEND THE CONVENTION OF THE B. OF L. F.

Trip Will Be a Hurried One—But Four Stops Will Be Made and the Party Will Be Back at the Capital on the 10th.

Oyster Bay, Sept. 5.—The president, accompanied by Mrs. Roosevelt and the children, left here on the Sylph at 9:25 o'clock this morning. Mrs. Roosevelt and Kermit were landed at New York and thence the Sylph proceeded to Jersey City, whence the president and his party departed for Washington at 1:14 this afternoon. The president traveled in a special car which was attached to a Pennsylvania train. On arriving at Washington the car will be switched to a Baltimore & Ohio train.

Cheered on His Departure.

Washington, Sept. 5.—Smilingly bowing in acknowledgement of the enthusiastic and prolonged cheering of the assemblage that crowded the Baltimore & Ohio station here, President Roosevelt tonight began his Southern tour, with Chattanooga, Tenn., as the objective point.

The president was in the city an hour and a half. He arrived over the Pennsylvania railroad at 6:12 o'clock this evening on a special train of two cars, made up at Philadelphia this afternoon during a brief stop there enroute from Oyster Bay. Secretary of the Interior Hitchcock, Chief Wilkie of the secret service, Assistant Secretary to the President Barnes and a number of other officials and White House attaches met him at the station. The president appeared a little disfigured as a result of the Pittsfield accident, but apparently has quite recovered from the shock. He stopped to shake the hands of those who pressed about him to congratulate him on his escape. "Poor Craig," he frequently repeated in expressing thanks to well-wishers.

Passes Through Cordon of Police.

Through a cordon of police the president was escorted to a carriage in waiting and was quickly driven to the Baltimore & Ohio station. Secretary Hitchcock, Commander Cowles, the president's brother-in-law, and Secretary Cortelyou rode in the carriage with him. A special train of seven handsomely equipped coaches was in readiness and the president immediately entered his car, merely lifting his hat in response to the greeting from the crowd. He spent most of the time between then and his departure in conversation with Civil Service Commissioner Garfield and others who entered the car. The president took dinner on the train shortly after his departure.

The Southern trip will be a somewhat hurried one and no stops will be made at points other than those announced in the itinerary already published, namely: Wheeling, W. Va.; Chattanooga and Knoxville, Tenn.; and Asheville, N. C. The immediate object of the president is to attend the convention of the Brotherhood of Locomotive Firemen, in whose work he has always shown deep interest. The president's party will reach Washington on the return trip, over the Northern Railway, on Sept. 10.

ABDUL CABLES ROOSEVELT.

Sultan Glad "Automobile" President Was Not Serious to Accident.

Washington, Sept. 5.—Additional messages of congratulations from abroad to the president upon his escape from serious injury in the accident at Pittsfield were received at the state department today. Among them was the following:

"Vivez, His Excellency, Theodore Roosevelt, President of the United States: I have learned with great sorrow of the automobile accident that has befallen you. Happily, the accident has been attended with no serious consequences to your excellency. I express

to my delight and congratulations therefor. (Signed.) Abdul Hamid." The president has also received from King Edward of England a message congratulating him upon his escape. A similar message has been received from President Diaz of Mexico.

NOT TO VISIT ISHPEMING.

President Going from Milwaukee Direct to the West.

Chicago, Sept. 5.—The itinerary of President Roosevelt on his Western trip has been arranged as follows:

Sept. 24—Milwaukee, arrive at 3 a. m., leave at midnight.

25th—La Crosse, arrive at 8:30 a. m., leave at 11: St. Paul, arrive at 2:45 p. m., train delivered to Great Northern for Minneapolis and Sioux Falls.

26th—Yankton, arrive 11:05 a. m., leave 1:20 a. m.; Sioux City, arrive 1 p. m., leave 3 p. m.; Arion, arrive 6 p. m., train delivered to Illinois Central to go to Dennison, thence to Omaha.

The Western roads have agreed to make a rate of a fare and a third for the round trip within a limited territory to the places to be visited by the president.

Sioux City, Ia., Sept. 5.—Sheriff W. E. Strain, of Monona county, shot by Ed Carns near Whiting on Monday, died this morning.

INDUSTRIAL SITUATION IS BETTER, COLLECTIONS ARE GOOD AND PRICES HOLD STEADY—AGRICULTURAL CONDITIONS NOT AS ROSEATE AS RECENTLY.

New York, Sept. 5.—R. G. Dun & Co.'s Trade Review for this week tomorrow will say:

"Steady progress is reported in trade and industry. The distribution of merchandise is heavy and a firm tone is evident. Prices are well maintained by liberal consumption, which more than neutralizes the effect of the enlarged facilities for production.

"Farm products have appreciated in value, owing to less favorable weather, and producers will be fully compensated for any decrease in quantity by higher quotations.

"The earnings of railways during August were 3.6 per cent larger than a year ago and 18.9 per cent in excess of the record in 1900.

"Better deliveries of coke and liberal receipts of foreign material have lessened the pressure in the iron and steel industry, and the situation is a little less congested while the quotations in a few lines have weakened.

"The quotations of foot wear are fully maintained at the recent advance. The advancing raw material has aroused much anxiety among purchasers of cotton goods; there are numerous inquiries for forward contracts, but the volume of business has not materially increased.

"Agricultural conditions are less satisfactory, and if the official estimate of cotton is not exaggerated the yield will not be large enough to sustain consumption at the present rate. Wheat is coming forward freely, though the receipts do not equal the abnormally heavy movement a year ago. Corn has developed strength because of fears of frost injury."

As Noted by Bradstreet's.

Bradstreet's tomorrow will say:

"It has been essentially a week of active buying in the distributive trade, and sellers have occupied an enviable position. The reports of August trade have been almost uniformly favorable, and the records of failures show that the business mortality has been confined to the low summer minimum.

"Prices show persistent strength—despite the fact that agricultural products, except corn and prime cattle, tend lower—owing to the growing strength of raw textiles and other materials for manufacture.

"Corn is not yet out of danger from frost in the northern half of the belt and this, coupled with short supplies, imparts strength to the cereals generally. Reports of cotton crop deterioration caused by hot and dry weather, have stiffened the values of raw and manufactured cotton.

"Rather less disturbance is noted in labor matters, and some strikes have been declared off. The volume of coal shipments is slowly increasing. Some wage advances are noted in widely separated lines."

"The collections in the North and West are uniformly good, but while some improvement is noted in the South room for betterment still exists.

"The wheat (including flour) exports for the week aggregate 6,276,000 bushels, against 4,406,000 in the week of last year. The exports since July 1 aggregate 44,658,000 bushels, against 61,693,000 last season. This week's corn exports aggregate 21,196 bushels, against 551,000 in the week of last year. For the fiscal year the exports are 840,000 bushels, against 10,744,000 last season. The failures for the week were 133, against 169 for the same time last year."

A statement compiled by Bradstreet's shows that the total bank clearings at the principal cities of the United States for the week were \$1,808,630,020, an increase of 20.2 per cent compared with the corresponding week of last year.

COAL FROM ABROAD

ORDERS FROM NEW YORK BEING BOOKED IN ENGLAND.

ROOSEVELT TALKS OF STRIKE

IS POSSIBLE FOR REPUBLICAN LEADERS TO END IT.

Settlement in Virginia Reported to Have Weakened the Men, but Mitchell Claims Them Remaining Firm—Fears of Renewed Rioting.

London, Sept. 5.—Anthracite coal shipments to the United States are a result of orders which have been coming in for the last fortnight. There are probably twenty or thirty thousand tons contracted for immediate shipment to New York, which demands 5,000 tons daily.

West Virginia Strikers Weakening.

Charleston, W. Va., Sept. 5.—The end of the strike in the Pocahontas region, declared off yesterday, is having a big effect in the Kanawha and New River fields. The information that there will be no "black list" will go a long way toward weakening the strike here.

Wilkesbarre, Pa., Sept. 5.—President Mitchell, of the United Mine Workers, says that seven hundred men are affected by the settlement of the strike in the Pocahontas region of Virginia. They are granted a semi-monthly pay day, which Mitchell thinks is a very important concession. About twenty thousand miners are still out in the Kanawha, New River and Fairmount districts.

President Mitchell says there is no change in the anthracite situation, the strikers remaining firm. The coal companies claim the number of applicants for work increasing every day.

CAN END THE COAL STRIKE.

Solution in Hands of the Republican Leaders Says Roosevelt.

Philadelphia, Sept. 5.—The Record tomorrow will print an interview on the coal strike with President Roosevelt, who passed through the city today on his way to Washington. The president is quoted as saying:

"I am grieved beyond measure at the difficulty in Pennsylvania and other coal-producing states over wage and kindred questions."

"What remedy is at hand?"

"There is a remedy."

"Do you mean the government of the United States can interfere, other than as a law preserving body?"

"No."

"What can be done?"

"I would refer you to the men at the head of the Republican party who are in control of affairs in Pennsylvania. I am sure their conservative consideration of the difficulties rampant would ultimately result in an amicable settlement of this great question. Of course, politics do not enter into a mining problem, yet I sincerely hope that Republican principles, which are framed alike for high and low, will level the problem to equity."

Governor Agrees to Conference.

Harrisburg, Pa., Sept. 5.—Governor Stone today fixed next Thursday as the date on which he will meet the committee appointed by the People's Alliance at Hazleton yesterday to discuss the best means of ending the coal strike. The governor said he could be glad to meet any and all persons who might want to see him on matters pertaining to the strike.

Troops to Assist Sheriff.

Harrisburg, Pa., Sept. 5.—The sheriff of Carbon county, having advised the governor of his inability to preserve order and protect life and property, and the governor being satisfied upon investigation that riot and mob violence exists, Governor Stone today ordered the detachment of troops now on duty in Schuylkill county to assist the sheriff of Carbon county in restoring and maintaining peace and order.

Mine Fire Still Raging.

Bramhall, W. Va., Sept. 5.—The fire at West Pocahontas continues. Three connecting mines on the West Virginia side are not seriously damaged and will be operated when the strikers resume work next Monday. The entrance from the Virginia side, however, is still the scene of active work in an endeavor to subdue the conflagration.

Non-Unionist's House Wrecked.

Wilkesbarre, Pa., Sept. 5.—The house of Lawrence Tarvoski, a non-union mine worker at Hazleton, was wrecked by a mob tonight. Every window in the house was broken. Tarvoski's wife, who was alone, fled in terror from the place.

LONDONERS CHEER BOER LEADERS

Botha, Dewet and Delarey Have Conference With Chamberlain.

London, Sept. 5.—A conference between the Boer Generals Botha, Dewet and Delarey and Colonial Secretary Chamberlain was held today. The generals were escorted to the colonial office by an official of that department of the government and drove there in an open carriage. They received a hearty welcome from the considerable crowd assembled at either end of the route.

ANTI-SERVIAN RIOTS SPREADING.

Vienna, Sept. 5.—The anti-Serbian disturbances are spreading over Croatia. An encounter with police occurred at Sissak today. Two persons were killed and several injured.

WHEN LIFE'S AT STAKE

The most timid man will take any chance of escape. The slender rope dropped down the precipice, the slippery log over the abyss, anything that offers a chance of life, is eagerly snatched at.

There are thousands of men and women whose lives are at stake, who are hindered from accepting the one means of safety by foolish prejudice.

CHARTER No. 390.

First National Bank

Of Marquette, Mich. Organized January 22, 1864. CAPITAL AND SURPLUS, \$200,000

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.) Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00. Per year, by mail, \$10.00. MARQUETTE, MICH., SEPT. 6.

Entered as mail matter of the second class in the postoffice at Marquette, Mich. The reform movement of the Civic federation at Duluth is not to be taken up across the bay at Superior, at least not immediately.

Much interest will attach to the announcement that the school board of Philadelphia has arranged to import coal from England to supply the schools of that city.

Judging from the following from the Iron Mountain Press the city of Iron Mountain, possibly because it has so many of them, does not believe in allowing any of its newspapers to get rich off the municipal printing.

The Iron Trade Review comments as follows on the ore situation at the lower lake ports and on the ore movements for the month of August:

As the result of no unloading work being done Sunday and Monday (labor day) the docks at Lake Erie ports are badly crowded and there is certain to be much delay before all the vessels can be unloaded.

THE PRESIDENT'S DOUBLE. If the president had been seeking a double of himself, he could not have come more closely to the mark than in the man selected for secretary of the navy, and while the resemblance may be very striking, there is no more possibility of his being taken for the executive than there is of success in palming off a substitute remedy for Hostetter's Stomach Bitters.

MASS CITY NOTES. C. P. Anderson, the postmaster, is seriously ill. The Knights of Pythias at their last regular meeting, conferred the first degree on Ernest Kusler.

What are Humors? They are vitiated or morbid fluids coursing the veins and affecting the tissues. They are commonly due to defective digestion but are sometimes inherited.

Hood's Sarsaparilla

It is the best medicine for all humors. They are vitiated or morbid fluids coursing the veins and affecting the tissues. They are commonly due to defective digestion but are sometimes inherited.

COPPER MINING.

Development Work Indicates Mine Will Be a Large Producer. The report of ore shipments from northern ports for August have not all been received, but the indications are that the total will be about as large as that for July, which slightly exceeded 4,000,000 tons.

The increased activity at the Michigan is taken as assurance that the company is well pleased at the result of the development operations and that affairs are now being shaped with a view of adding it to the list of producers at the earliest possible date, says S. J. Beahan, in the Hancock Journal.

The question of a millsite is receiving close attention, and there is good reason to believe that a selection will be made before long. The work of building the mill, however, will not begin until next summer, when the shaft and underground work will be pushed rapidly.

The Ohio Democracy was always the first to go mad and the last to recover sanity in the party's tidal waves rush from one extreme to the other. It is hardly remarkable that the state convention fully and unqualifiedly endorse Bryan and the Kansas City platform, when nearly every other state, East and West, is trying to unload both of them.

The existence of the branch vein was first noted in the eighth level crosscut, but as it did not then present any features especially attractive, beyond carrying a small amount of copper, little attention was paid to it.

Copper Gossip. The Baltic has under consideration the starting of a new shaft on the south side of the property next summer. The one head in commission in the Isle Royale mill is stamping about five hundred tons of rock every twenty-four hours.

NEW EPISCOPALIAN CHAPEL. A chapel will be built at West Hancock this fall by Trinity Episcopal parish of Houghton. The plans for the structure have been made by Architect C. Archibald Pearce of Hancock.

UNION MEN GET BOAT FINE. President Bureau, of the Lake Linden Longshoremen's union, has received word from the union at Toledo that the steamer Hayward, which refused to recognize the Lake Linden longshoremen in the unloading of a cargo at Lake Linden last season, has paid a fine imposed by the Toledo unionists before they would land her.

BULLET IN HIS BRAIN.

Louis Matson, Missing Miner, Found Dead—A Case of Suicide.

The body of a man, which was later identified from the clothing as that of Louis Matson, an Arcadian miner, was found by a Finnish woman half a mile from St. Mary's shaft, on the Arcadian property, yesterday morning. A bullet hole between the right temple and eye, and a thirty-two calibre revolver lying near the remains, told the story of the man's end. Coroner Finn summoned a jury and Undertaker Crawford went to the Arcadian to bring the body to town. After viewing the remains the jury reached the official conclusion that the man came to his death by a pistol shot fired by himself with suicidal intent. At the time the verdict was given the identity of the man was not known, the features not being recognizable. Hardly half an hour afterwards, Mrs. Louis Matson, on the Arcadian location, called at the undertaker's to look at the clothing. She identified it as that of her husband, who has been missing for two weeks. She said she knew of no reason for his suicide. Matson was twenty-four years of age and besides his wife is survived by two children. A purse, containing four silver dollars, was found on his body, also \$1.06 in change in the pockets, a red handkerchief, and an empty pint bottle.

CARGO OF ASPHALT COMES.

Mixing Plant to be Erected at Houghton by Barber Company.
The steamer China, of the Anchor Line, arrived, bound up, yesterday with 150 tons of asphalt, in barrels, for the Quincy street pavement work at Hancock. The consignment was unloaded and placed on cars at the Copper Range docks. There is but little room for a mixing plant on the Hancock side of Portage lake and the Barber Asphalt company, which has the contract for the paving work, may secure the Karkkeek dockage, on the Houghton side, near the county bridge, for the erection of a plant. There is plenty of room there, and, besides, there are sidetrack facilities. The asphalt will be mixed and prepared for the street at that place and it will then be hauled in wagons across the bridge to the Hancock side. The work of putting up a plant will commence at once, as the company has already started to lay the concrete at the western end of the street.

MINSTREL SHOW TONIGHT.

The Georgia Plantation Minstrel troupe, a local Lake Linden organization, will entertain at the Mammoth ice rink, Lake Linden, this evening for the benefit of the Great American Festival, now being conducted by the ladies of St. Joseph church. A program of unique minstrelsy will be rendered and an excellent entertainment is promised. The troupe has been preparing for the event for several weeks and is well trained.

IS AN OLD PIONEER.

Andrew Campbell, of Lake Linden, celebrated his seventy-second birthday Wednesday. The old gentleman was pleasantly surprised by a large number of his friends in the evening and several hours were delightfully spent. Mr. Campbell related many experiences of his earlier days in copperdom. He has resided in this region for over fifty years, first settling in Keweenaw county, Wis.

SOO BALL TEAM DUE TODAY.

Games With Calumet, Lake Linden and Delta Bay in Store.

The Soo baseball team will arrive in Calumet today to play a series of games with the Calumet, Lake Linden and Delta Bay teams. Thus far but one contest is scheduled, that with Calumet this afternoon. Games with the other teams will be arranged today.

GARBAGE PROBLEM SOLVED.

Houghton Village Council Decides to Purchase a Crematory at Once.

At the Houghton council meeting Thursday evening, it was decided to purchase a garbage burner. The matter was placed in the hands of the health committee, which will attend to it at once. It is proposed to procure the burner just as soon as possible and to at once put it into operation. A location for the crematory has not yet been selected. The disposal of garbage has been a serious problem in Houghton for a long time, and it was necessary to health that something be done to do away with the nuisance of depositing the refuse near the village limits.

BRILLIANT SUCCESS.

Opening of Hancock's New Theatre Draws a Crowded House.

The opening of the new Kerredge theatre at Hancock last night was a brilliant success. As Mr. Kerredge, the owner of the beautiful new structure, first announced he would build a modern new play house in Hancock, many scoffed at the idea, but he kept his word, and now the same people are praising his enterprise. Ward and James, the eminent actors, well maintained the reputation of the production of "The Tempest" last evening. The play was highly enjoyed, but not any more so than the theatre, which opened the eyes of many by the beauty of its interior decorations and arrangement. A large number of Houghton people attended the opening and Hancock citizens, who were in force, Ward and James were greeted by a packed house. Their company will be seen at the Calumet theatre this evening.

WRECKAGE OF THE TOLEDO.

Has Obstructed Canal Channel and Now is Being Removed.

The machinery from the steamer Toledo, which sunk four years ago in the channel at the upper canal, is being raised by the government. The balance of the wreckage will also be removed, as it is in the way and an obstructive to navigation. F. M. Cooper, under a contract from James Pryor of Houghton, will raise two boilers from the wreck of the steamer Bessemer, which went down in Lake Superior fifteen years ago, near the canal. The wreck lies in forty feet of water. The company which owned the boat attempted to lift the machinery eleven years ago, but made a failure of it, losing much money in the endeavor. The boilers were later sold to Mr. Pryor. Mr. Cooper has employed Adam Kiyoshik, the Indian diver, to do the necessary work under water. The boilers are being raised by one of Mr. Pryor's dredges. One of the boilers was lifted Monday. It was placed on a scow and towed to Houghton. The two boilers are valued at \$3,000. They are intact and with a little overhauling will be as good as new.

DAIRYMEN TO CONFER.

Meet Tonight to Consider Proposition of New Milk Company.

A number of Hancock and Houghton dairymen will meet this evening to discuss the proposition of furnishing milk to the Houghton Pure Milk company, recently organized by local people. The representative dairymen are willing to turn over their land of one or two milk cows and supply it daily with milk for pasteurizing purposes if a good price is paid and a long-lived contract is made. Thus far the milk company has not secured promises of a sufficient supply of milk to enable it to conduct a paying business, but it is thought there will be any trouble on that score, as satisfactory arrangements can be made with the dairymen. Several of the dealers in milk have already signed contracts with the new company and are interested in it. The dairymen will ask six cents a quart for their milk and contracts of long duration. It costs money to keep cows in this region and consequently milk is high. It will likely retail for ten cents a quart, a price which Hancock and Houghton people who are to be supplied, will gladly pay for pure, sweet milk. The work of building the new plant will soon be commenced. It is proposed to have it in operation in less than ninety days.

FIRE PROTECTION FOR FLORIDA.

The Laurium council has appointed a committee, comprised of Councilmen Donovan, Downing and Riesen, to confer with James Ramsay, of the Calumet & Hecla company, in regard to the question of fire protection for Florida location. The location is badly in need of improvement along this line. Whenever a fire breaks out now the Laurium and Calumet & Hecla departments are called out, and, on account of the lack of water the men work under great disadvantages and get no thanks for what they do. Neither Laurium nor the mining firemen are supposed to turn out to a fire in the location, as Florida residents pay no taxes for the support of either of the departments. It is said the firemen are willing to do all that can be when necessity demands it if a system is built in Florida for a water supply. At present it is necessary to stretch over two thousand feet of hose in case of a bad blaze, and in most cases more or less hose is lost by bursting from the high pressure of the water.

BRUNELLE LOSES HIS CASE.

The case instituted by C. Brunelle, of Chassel, against Archie Ruelle, also of Chassel, for alienating the affections of Mrs. Brunelle, was decided in favor of the plaintiff in the circuit court yesterday. Judge Streeter instructed the jury to bring a verdict of "not guilty," the evidence in the case not warranting the action. The case was put on trial Thursday morning, and it has been followed with much interest. Allan Rees, of Houghton, was Mr. Ruelle's attorney.

SIXTY YEARS OF POPULARITY.

is the record of Painkiller (Perry Davis'), but the shops are full of imitations made to sell upon the great reputation of the genuine. Be cautious, therefore, when you ask for a bottle to see that you get the genuine. An unfailing remedy for coughs, colds, bronchitis.

GOOD MATCH IN SIGHT.

Wrestlers Burns and Dwyer Likely to Soon Meet on the Mat.

"Farmer" Burns, the well-known wrestler, recognized as one of the best men in the business, has arrived at Calumet, ostensibly to get a match with "Sonny" Dwyer of Hancock, who recently reached home after several years' experience in the East, where he made an enviable record. Burns, although well along in years, is still in the pink of condition and is an excellent type of physical manhood. He is as clever as ever and is willing for a bout at any time. Burns has met and bested many good wrestlers and has won many ring laurels. He wrote to friends in copperdom short time ago that he would soon visit this section, and he has kept his word.

"Sonny" Dwyer will accept the challenge issued by Burns for a match, providing the bout is arranged on equal terms. Dwyer said yesterday that he would wrestle Burns at 155 pounds for a purse of \$250, mixed style (catch-as-catch-can and Cornish), the man getting the quickest fall to have the choice of the style of the third if there is one. Should Burns decide not to accept Dwyer's proposition the latter will be willing to wrestle him at 175 pounds for a purse of \$100 and any style for the gate receipts. Dwyer is willing to wrestle within ten days. The match will undoubtedly be arranged, for that is what Burns came here for, and Dwyer is very willing to go on the mat with him.

TREASURY ABOUT DEPLETED.

Hancock Has Paid Out Much Money Lately—Council Notes.

Mayor A. J. Scott of Hancock is in favor of holding a village council meeting one week, instead of once a month, while the municipal improvements are under way. There are many questions arising every day which demand the attention of the councilmen, and usually a quick answer is desired. The next meeting of the council will be held Wednesday evening. Village finances will receive attention. Hancock has paid out a big sum of money during the last few months and the treasury is about depleted. The village has been between five and six thousand dollars due on the general tax roll, which will come in very nicely just now. Bonds for paving Quincy street will soon be issued, for which the finance committee has been authorized to prepare special forms.

At the recent meeting of the council, Village Treasurer Mitchell read his monthly report. He stated that, with but one exception, all of the special assessments for the paving of Quincy street had been paid. Some have paid their entire share of the whole amount, and others have paid the first installment. The council was pleased with the report. The Barber Asphalt company will be paid in full at the completion of the work. The village will issue bonds for the amount.

New Sewer Asked For.

Franklin street property owners, from the rear of the village hall as far as Ravine street, Hancock, have petitioned the common council for a sewer, to be put down this fall. The council is in favor of having the work done right away, if the residents in question are willing to pay for it in advance, otherwise the street committee will build the sewer by special assessment. In the latter instance, a lot of red tape is necessary, and it would be impossible to have the work started until next spring. Twenty families will be benefited by the new sewer.

LOG SHIPMENT COMMENCED.

John Phillips, a Calumet contractor, has commenced the shipment of a million feet of pine logs from Traverse bay. The logs will be sent by rail to the Traverse Bay docks, there dumped into the lake and later towed in booms to the Hebard mills at Pequanung. The timber was cut by Mr. Phillips last winter. The contractor has another big contract from the Hebard mills, to take out between four and five million feet of pine in the vicinity during the coming winter.

FOUND THE SOO BOOMING.

W. D. McIntosh, agent at Houghton for the Western Express company, has returned from a visit to his old home at the Soo. He is enthusiastic over the prospects for that bustling town. Mr. McIntosh says the population of the Soo is now placed at 17,000, and that it is found that the number will be increased to between 50,000 and 60,000 within the next ten years.

OIL ORDINANCE MODIFIED.

At the meeting of the Houghton village council Thursday evening, a portion of the ordinance relative to the storage of oil was repealed. That part which read that no person can keep no more than a barrel of oil for private uses and not more than five barrels as an article of merchandise was repealed.

LADIES CAN WEAR SHOES.

One size smaller after using Allen's Foot-Ease, a powder to be shaken into the shoes. It makes tight or new shoes feel easy; gives instant relief to corns and bunions. It's the greatest comfort discoverer of the age. Cures and prevents swollen feet, blisters, callous and sore spots. Allen's Foot-Ease is a certain cure for sweating, hot, itching feet. At all druggists and shoe stores, 25c. Trial package free by mail. Address, Allen S. Olmsted, Le Roy, N. Y.

COPPERDOM BREVITIES.
The enrollment of the Osecola schools is 1,200.
Miss Helen Dunstan, of Hancock, has returned to Vassar college.
Mrs. Oakman and Mrs. Davie, of Detroit, are guests of Colonel and Mrs. A. J. Otterson, of Houghton.
Richard Repath of Lake Linden has purchased the large business block, owned by Miss M. A. Larkin, on Fourth street.
A meeting of the Portage township board was held yesterday morning, but other than allowing a grant of bills no business was done.
The steamer Portage, of the Union line, which will arrive up bound, tomorrow, has 1,000 bags of soda for the Hancock Chemical company.
Through James T. Healy of Houghton, Lute Lyons has sold his residence and lot No. 6, in Block thirteen, to John Kroll, of Houghton. The consideration was \$1,500.
The villages of Hancock, Houghton and Laurium have all extended for one month the time for the collection of taxes. This brings it up to the third Monday in October.
Quarter Master Sergeant Thomas Roberts, who has been visiting his parents, Mr. and Mrs. W. H. Roberts at Hancock, has left for Fort Liscum, Alaska, where he is attached to the regular army.
The steamer Portage, of the Union line, is due, bound up, tomorrow. The boat has been in dry dock for two weeks to allow of repairs. The steamer was severely damaged in an accident several weeks ago.
The steamer Rochester, of the Union line, left Buffalo Thursday evening, direct for Dollar Bay and Duluth. It will make no other stops and is due at Dollar Bay, where copper will be taken on Monday morning.
The work preliminary to the laying of asphalt on Quincy street, Hancock, is completed, and the actual work of paving is now progressing. The first concrete was laid at the western end of the thoroughfare yesterday.
The Trimountain firemen dedicated their new hall last evening. A dance was given for which the Painesdale orchestra furnished music. A number of visiting firemen were present. The new hall is a model one in every respect.
Contractor Nelson, who put in the concrete curbing in preparation for the paving on Quincy street, Hancock, has a contract to put in cement sidewalks in front of the Baer, Dritler and Scott blocks on that thoroughfare. He started the work Thursday morning.
President Van Orden, of Houghton, has been authorized by the council to send for an electrical expert of Chicago, one familiar with the Gamewell fire alarm system, to look over the system in Houghton with a view to having the same repaired. For a long time the alarms have not been in working order, and local electricians have been unable to set matters right.

amongst the worst ills of life. The man
irregular intervals, goes through life
bearing a load of misery and wretched-
ness that is terrible to think of.
Headaches, as a rule, result from a dis-
ordered condition of the nervous system.
Mental exertion, loss of sleep, bodily
fatigue, and disordered digestion are ex-
citing causes. When the brain becomes
tired and debilitated, the whole nervous
system is weakened, and headaches re-
sult. If the liver is sluggish, the kid-
neys inactive, and digestion deranged,
headaches invariably follow. To cure
and prevent headaches, the nervous sys-
tem must be strengthened and vitalized.
The most persistent cases of headache,
nervous feebleness and sleeplessness are
permanently cured by Paine's Celery
Compound; it is the great reconstruc-
tant of the nervous system. Mrs. Henry
Westrick, St. Clair, Mich., tells of her
release from suffering as follows:
"I have been troubled with dyspepsia
and sick headache for a number of years.
About every week I would have a bad
spell of sick headache, but since I began
using Paine's Celery Compound, my dys-
pepsia is gone, and I do not have any
more headaches. I feel better than I
have for years."

CITY BREVITIES.

Today's weather: Showers and cooler.
Increasing southerly winds becoming
brisk and possibly high; shifting west-
erly.

Yesterday's temperature: 7 a. m., 55
degrees; noon, 64 degrees; 7 p. m., 58 de-
grees. Maximum, 66 degrees; minimum,
47 degrees.

Mrs. Scott Johnson and son are at the
Soo visiting friends.

The China is due in port this morning,
bound down. She will sail at 11:30
a. m.

The steamer Fay arrived yesterday
with a cargo of soft coal for Pickands
& Co.

The street car company will run cars
to and from the fair grounds every fif-
teen minutes tomorrow.

Fred Wright of Houghton came down
from the Huron Mountain club, where he
had spent a few days, yesterday.

F. B. Spear & Sons have received a
couple of new delivery wagons, which
they are about to put into use.

Walter Fitch was down from Cham-
pion yesterday. He surveyed the pro-
gress of the work at the court house site.

J. M. Egan, Jr., left last evening for
Georgia, where she is teaching in the
high school this year, last evening.

R. W. Hall leaves Sunday for Chicago
to take a position in the general freight
department of the Illinois Central rail-
road.

Lot 1,139 in the Palmer addition No.
2, has been sold by Elizabeth M. Thurby
to H. D. Lyons. The consideration was
\$750.

Starting Monday and continuing all
week during the fair, the street cars will
run to the fair grounds every fifteen
minutes.

Mrs. Kienholtz is acting as assistant
in the eighth grade, Ely building, for the
time being. Miss Campbell is the regu-
lar assistant.

George Wilkes, senior, and wife are
guests of Mr. Wilkes' sister, Mrs. R. R.
French. Mr. Wilkes is a former resident
of Marquette.

The steamer Peerless touched here
yesterday afternoon. She was bound
down, and was several hours late when
she made this harbor.

Miss Cecil Grylls wishes to announce
to her patrons that today will be the
last day of her art sale. After today
her studio will be closed.

Dr. Lund left last evening for Los
Angeles, Cal., accompanying Sidney
Adams. The doctor will be absent from
the city until about the first of Octo-
ber.

The steamer Friant will leave at 2
o'clock this afternoon for Munising.
Passengers will be taken at fifty cents
each one way, or \$1.00 for the round
trip.

Mrs. Will Hamill left on the early
train yesterday morning for Detroit, ac-
companied by her little son. They had
been here a month, visiting relatives and
friends.

There is an unusually large attendance
of pupils in the eighth grade this year,
and it is going to be necessary to in-
crease the number of seats in the assem-
bly room at the Ely building.

Dr. Longyear, of Detroit, was a pas-
senger on the steamer Friant yesterday
morning. He came down from the
Huron Mountain club, where he had
spent some time, and was en route for
his home.

Mrs. J. A. McCarty arrived home yes-
terday from Alligan, where she had been
called by the death of her sister, Mrs.
J. E. Littell, wife of the Baptist minister
at that place. The interment took place
at Detroit.

The steamer Alcona brought in a car-
go of bluntnose cod yesterday. It is
for F. B. Spear & Sons. The schooner
Alta, consort of the Alcona, is loading
on at the South Shore docks. She was
towed up light.

The big steamers Angeline and Gram-
mar are at the Presque Isle dock. They
will clear today. The clearances yester-
day were the Ketchum and Pratt, for
Ishtabula, and the Athens, Massachu-
setts and Bacon, for Toledo.

The court house is being given gas
connections at its present location. A
trench having been dug yesterday for per-
mit of the piping. The moving is com-
pleted, and the building is now to be

settled on the ground and fixed up for
the winter. The heating plant is about
to be moved from the former site of the
court house.

Tom Hanna, state commissioner of
mineral statistics and editor of the Iron
Mountain Press, was here yesterday on
business connected with his forthcoming
report as mineral statistician. It will
be issued in the course of the next few
months.

The German school for German speak-
ing children will be in session this morn-
ing, beginning at 9 o'clock, in the base-
ment of the German Lutheran church.
The session of the school for English-
speaking children opens at the same
place at 1:15 p. m.

The last of the series of summer As-
semblies was held at Fraternity hall last
evening, with a goodly number of
dancers in attendance. The party was
highly successful, the Ideal orchestra
furnishing fine music, including a num-
ber of new selections.

If the weather is fair, many Marquette
people will take advantage of the ex-
tremely low rate on the Marquette &
Southeastern road to pay Munising and
Pictured Rocks a visit. The fare will
be \$1 for the round trip. The Friant
will be at Munising to take the ex-
cursionists to the Rocks.

The officers of the steamer Ketchum,
which took out ore from the L. S. & I.
dock yesterday, reported that Captain
Gatfield, the missing master of the ship,
has still not been heard from, nor has
any clue to his whereabouts been dis-
covered. It is still the belief that he is
dead and that his body will some day
be found in the river at Cleveland.

The next attraction at the Marquette
Opera House will be Etie Elsie in
"When Knighthood Was in Flower,"
Julia Marlowe's great success. Miss
Elsie, who, it will be remembered, op-
ened the Marquette Opera House with a
presentation of "Hazel Kirke," will be
here the evening of Sept. 16. She is
said to be well supported in her present
play.

The Northern Construction company
had a force of surveyors at work yester-
day marking out the site for the new
court house. Excavating for the founda-
tions will commence Monday. The
Northern Construction people will use
the stone in the foundations of the old
court house in putting up the new build-
ing, but it has not yet been settled whether
they will get it for nothing, for getting
it out, or whether the county will get
it out, clean it and cord it, preparatory
to selling it at the market price. How-
ever, it is likely that the former ar-
rangement will be made.

A Wilson (Ky.) dispatch tells, as fol-
lows, of a romance in which a Soo boy
is one of the principals: "The engage-
ment of Miss Marie Himes, a daughter
of Mrs. Himes, a merchant of this city,
and Lieutenant Bates Tucker, of the
United States army, is announced and
the wedding is to take place in January.
During the rush of the United States
troops to the Philippines at the out-
break of the war, Tucker, who hails
from South St. Louis, Mich., was a pri-
vate in a Michigan volunteer regiment.
While passing through Wilson the volun-
teers were greeted at the depot by a
crowd of fair Kansas maids. Tucker
dropped his card out of the car window,
and it was picked up by Miss Himes, who
wrote to Tucker at Manila. The cor-
respondence thus began. Tucker's
and on his return to the states Tucker
stopped to visit his new found sweet-
heart while homeward bound, and now
they are to be married. Tucker, after
receiving his discharge from the volun-
teer army, was appointed a second lieu-
tenant in the regular army."

Isaac Stephenson's steam yacht Bonita,
with the owner and a party of friends
aboard, had a rough time on Lake Michi-
gan Wednesday. Midway between Gull
and Poverty islands on her return from
Mackinac island, with a big sea running
from the southwest and the waves dash-
ing over her decks, one of the pipes in
the Bonita's boiler burst. The engineer,
who was back of the engine at the time,
and was required to pass in front of the
funnel to get upon the deck, had a nar-
row escape from a severe scalding. The
first attempt to mend the boiler proved
ineffectual, a crack having been discov-
ered in one of the pipe elbows. This
finally was bound with wire and the fire
was extinguished. She had at that time
about four hours to steam up or run on
shore, unless her flag of distress was
hoisted. She got up steam just off of
Manistique and was sighted by a tug
shortly before that time. There were
ten women and seven men in the party.
The bursting of the pipe was due to a
clogged upright whose connection is laid
to the use of soft coal, dealers at the
"Soo" having refused to part with hard
coal at any price. The party returned
to Menominee from Manistique by rail.
The Bonita is one of the best steam
yachts on the lakes and would probably
have had no trouble but for the break-
ing of the steam pipe in the seas.

The readers of this paper will be
pleased to learn that there is at least
one dreaded disease that science has
been able to cure in its present location,
and that is Catarrh. Hall's Catarrh Cure
is the only positive cure known to the
medical fraternity. Catarrh being a
constitutional disease, requires a constitu-
tional treatment. Hall's Catarrh
Cure taken internally, acts directly
upon the blood and mucous surfaces of
the system, thereby destroying the
foundation of the disease, and giving the
patient strength by building up the con-
stitution and assisting nature in doing
its work. The proprietors have so
much faith in its curative powers, that
they offer One Hundred Dollars for any
case that it fails to cure. Send for list
of testimonials. Address F. J. CHENEY & Co., Toledo, O.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

Upper Peninsula.

Iron Mountain's school enrollment is
2,250.

The two-year-old daughter of Mrs. se-
cure of Escanaba was run down by a
trolley car the other afternoon and in-
stantly killed. Motorman M. B. Finney
was arrested but subsequently was re-
leased, being exonerated by the coroner's
jury.

A man with a checkered suit and a
heavy mustache hired a rig at McDon-
ough & Rogers' livery at Gladstone Sat-
urday to drive to Escanaba and was to
return the same day. He has not yet
come back, and the owners are offering
a reward for the capture of the alleged
thief.

Work on the new plant of the Crystal
Falls Woodware company, at Crystal
Falls, has been commenced and the
speedy completion of the job has been
ordered. Frank E. Lucas, until recent-
ly superintendent and a large stock-
holder in the Escanaba Woodware
company, probably the largest wood-
ware manufacturing concern in the
United States, is manager of the new
concern.

Undertaker D. A. Oliver has returned
to Escanaba from Northland, Marquette
county, bringing with him the remains
of William H. Cleveland, who was killed
while at work. Cleveland met instant
death by being hit on the head by a
telephone pole which he was standing
under on the E. & L. S. tracks. In
some unknown manner the logs shifted
and before Cleveland could get away he
had been hit and instantly killed. The
deceased was a married man, about
thirty-three years of age and his wife
survives him.

Miss Rose Adelaide O'Brien, one of the
handsomest society girls in the "Soo,"
was married Wednesday to Edward
Francis Burns of Bay City, formerly
of Chicago. The ceremony was per-
formed at St. Mary's church. The
groom has been awarded high degrees
from the literary and scientific depart-
ments of Assumption college, Magill
university and Toronto university. He
is a brilliant orator and an active poli-
tician. Two years ago Mr. Burns made
a tour of Michigan under the auspices of
the Republican state central committee.

In a state of complete integration, in-
dicative of an indefinite period of de-
composition, the remains of an unknown
man were found lying on the floor of
one of the abandoned dry kilns at the
old Ludington, Wells & Van Schaick
works at Menominee a couple of days
ago. Just how long the man has been
dead is a matter of conjecture, but the
condition of the corpse would indicate
that his demise occurred several
months ago. A fedora hat, in which was
the regular union label, and a coat which
bore the makers' tag of "Robert Weeks
& Co." were on the floor but there was
not the slightest clue as to the
man's identity to be found in the
kiln. The trousers, which had not been
removed, were of a coarse, gray checked
texture, such as are generally worn by
lumbermen.

A Wilson (Ky.) dispatch tells, as fol-
lows, of a romance in which a Soo boy
is one of the principals: "The engage-
ment of Miss Marie Himes, a daughter
of Mrs. Himes, a merchant of this city,
and Lieutenant Bates Tucker, of the
United States army, is announced and
the wedding is to take place in January.
During the rush of the United States
troops to the Philippines at the out-
break of the war, Tucker, who hails
from South St. Louis, Mich., was a pri-
vate in a Michigan volunteer regiment.
While passing through Wilson the volun-
teers were greeted at the depot by a
crowd of fair Kansas maids. Tucker
dropped his card out of the car window,
and it was picked up by Miss Himes, who
wrote to Tucker at Manila. The cor-
respondence thus began. Tucker's
and on his return to the states Tucker
stopped to visit his new found sweet-
heart while homeward bound, and now
they are to be married. Tucker, after
receiving his discharge from the volun-
teer army, was appointed a second lieu-
tenant in the regular army."

Isaac Stephenson's steam yacht Bonita,
with the owner and a party of friends

Hall's Family Pills are the best.

L'Anse and Baraga.

Peter E. Ruppe of Calumet spent Labor
Day with L'Anse and Baraga friends.

J. B. Smith of L'Anse was a business
visitor to the copper country Thursday.

Attorney Ira A. Randall of Houghton
was a visitor, Wednesday, at the county
seat.

Frank E. Robson of Detroit has been
at L'Anse several days this week on
legal business.

J. S. Morrison of Calumet was in
L'Anse yesterday, looking after timber
interests there.

D. Levitan has been at Chicago the
past week, selecting a fall and winter
stock for his L'Anse store.

The public schools of L'Anse opened
Tuesday with an increased attendance
and a good corps of teachers.

Miss Aggie Brennan of L'Anse re-
turned Tuesday after a two months
visit with relatives at Detroit.

Mrs. W. C. Gibrade and daughter Mary,
of Chicago, are guests of Mr. and Mrs.
P. C. Murphy of L'Anse for a few weeks.

Miss Kate Curry has been appointed
county school examiner, to fill the vacan-
cy caused by the removal from town of
A. D. Chisholm.

Mrs. Sarah Wallace of Houghton, ac-
companied by her sister, Mrs. Wm. Olds
of Virginia, Minn., visited L'Anse friends
a few days this week.

A M. E. Indian camp meeting is being
conducted at the Pequaming grounds for
one week. There will be special ser-
mons on Sunday to which all are cordi-
ally invited.

William Aumier and Miss Elizabeth
Charon of L'Anse were united in mar-
riage on Monday last by Rev. Father
Henn. The ceremony took place at the
parsonage of Sacred Heart church.

Mrs. Bennett, wife of D. W. Bennett,
who has charge of the C. H. Worcester
cedar business at L'Anse, arrived from
Ontonagon Thursday. The couple will
reside in the Hansen residence, on Broad
street.

Mrs. Malott, mother of Nelson Malott
of L'Anse, had her right hand amputated
last Monday. The operation was per-
formed by Drs. John and Walred Trench.
Blood poisoning had set in, caused
from erysipelas.

Fred Proctor of Pequaming has leased
a flat in the Menard block and will oc-
cupy it after the mill closes this fall.
His daughters, Misses Lulu and Mable,
have already taken rooms in the flat
and are attending the high school at
L'Anse.

The Labor Day celebration at Baraga
last Monday was without doubt the best
of the kind ever held in the county. The
threatening weather in the morning kept
some people home, but the town was
thronged all day, and most of the night.
The Calumet & Hecla, Ishpeming and
Quincy bands furnished music.

At an adjourned meeting of the fourth
quarterly conference of the Methodist
church, held at Pequaming last Sat-
urday, it was unanimously decided to re-
quest that Rev. John M. Shank be re-
turned to this charge next year. The
minister was granted a four months vaca-
tion next year for the purpose of
making a tour in England, during which
time Mr. Shank will furnish a substitute.

If you want to be well all the year,
take Rocky Mountain Tea now. Great-
est renovating medicine known. 36c.
The Stafford Drug Co.

No need to fear sudden attacks of
cholera infantum, dysentery, diarrhoea,
summer complaint of any sort if you
have Dr. Fowler's Extract of Wild Straw-
berry in the medicine chest.

COPPERS FRACTIONALLY LOWER.

But Paine, Webber & Co. Insist That It
Is All Coming Out Right.

"Copper stocks were, in the most
cases, fractionally lower at the opening
this morning, but they grew firmer on
very slight dealings. It was apparent
that the buying demand was steadily in-
creasing. The public is slow in under-
standing the importance of the LeDoux
statement and the visible supply. When
it is understood, it is sure to prove a bull
point for coppers. Transactions in
copper in London yesterday and today
aggregated almost 3,000,000 pounds, and
prices secured a good advance. Lake
copper rose 1/4 cent on the New York
Metal Exchange today. We believe we
are in for a big market for coppers."

What Has a Rally.

"There has been a great deal of
strength in wheat today. Buying is
general and there was no selling pres-
sure at any time. There was a
large trade early in the day, but the
late market was inclined to dullness,
although prices held up well. Commis-
sion houses were generally good buyers.
A feature of the market was the buying
of December and the selling of September
by a large elevator concern. The close
showed an advance of about 1/8c for
both. The strength was due principally
to the prediction of frost in the north-
west tomorrow, although at present the
weather is good with a rising tempera-
ture. There was no precipitation ex-
cept in Manitoba. The receipts were
small, both local and primary, compar-
ed with last year. It looks like a sale on
this rally.

"There was a large trade early in
corn, and the market was very strong,
advancing on a general demand induced

ATTRACTIVE APPAREL

We're offering something new and exceedingly attractive this season in men's suits and overcoats. One term that expresses it is

K.N.&F.Co.

PERFECTION

When you try on a garment you can see wherein it differs from ordinary ready-to-wear things. There is hardly room for comparison. It retains its shape, and the collar and shoulders set as mediocre tailors can never make them do. That is the supreme test of clothes perfection. If you are not familiar with this make, it will pay you to get on good terms with it. Somewhat surprising how much style and quality a little money will buy here.

JOHNSON & PETERSON,

NOLEN'S BLOCK. 217 CLEVELAND AVE. (9-3-20)

Ishpeiming and its Environs.

(Additional Ishpeiming on Page Seven.)

"OLD BOYS" COME TOGETHER.

Joe Rutenberg and John Peterson Amuse a Crowd on North Street.

John Peterson was arrested yesterday, charged with assaulting Joe Rutenberg. The two men clashed yesterday morning on North street, and as a result of the fracas Peterson has since been carrying his left arm in a sling, and he says he will sue Rutenberg to recover \$5 a day during the time he is unable to work.

Rutenberg and Peterson are old men, though it is evident there is considerable fighting blood in their veins. The rum-puss occurred at Rutenberg's former home. Peterson bought the house which Rutenberg occupied. The latter was supposed to vacate some days ago, and it appears he was slow in getting out. This made Peterson angry and he put in an appearance yesterday to direct a speedy removal of the family household goods.

Peterson found the dwelling vacated, but that Rutenberg's horse was still in the stable. He ordered the junk man to remove the animal, something which Rutenberg did not seem in much of a hurry to do. Finally Peterson went into the barn to untie the nag and drive it into the street. Then Rutenberg got after him. Peterson was thrown into the street, and a punching match followed.

The neighbors congregated, the children gathered from the nearby schools, which had not yet been called for the morning session, and there was much amusement for the on-lookers. Both men talk very poor English and neither could understand what the other was saying. Rutenberg talked Hebrew and Peterson threw out Swedish at a rapid rate. No one attempted to part the old chaps, as it was considered that neither would be hurt very badly.

The assault and battery case will be tried next Thursday in Justice McGinty's court. Meanwhile Peterson will make up his mind whether or not he will sue Rutenberg to recover damages for loss of time.

TO DETROIT AND BUFFALO.

Excursions via the South Shore Railroad and the D. & C. Steamers.

The South Shore road will run four cheap excursions this month to Detroit and Buffalo, via its line and the Detroit and Cleveland steamers. They will occur Sept. 15, 17, 18 and 20. Excursion tickets will be on sale to Detroit and return at the following rates: Nestora, 88; Michigan, 87.50; Champion, 87.50; Republic, 87.50; Humboldt, 87.50; Ishpeiming, 87; Marquette, 86.50. The fare to Buffalo and return will be \$1 higher than to Detroit. All tickets will be good for return passage until the steamer leaving Buffalo at 5:30 p. m., Thursday October 9, and the steamer leaving Detroit at 9:30 a. m. Friday, October 10. The trip from St. Ignace to Detroit and return will be made on the D. & C. steamers "City of Mackinac" and "City of Alpena." The trip from Detroit to Buffalo and return will be made on the palatial steamers of the Detroit and Buffalo Steamship company.

"ON THE STROKE OF 12."

The fourth act of "On the Stroke of 12," the comedy-drama soon to appear here, contains a novel and complicated stage effect. It shows the interior and exterior of Moses Levi's pawnshop. The interior of the building is divided into three rooms—Levi's place of business, a counterfeiter's den, and an old garret where a young girl is imprisoned. The action in this act is complicated and highly thrilling, and it ends with an exciting fire scene and rescue of the young girl. The play will be at the opera house next Wednesday night. It has had three seasons of remarkable success in the East, this being its first year in the West.

FOOTBALL GAME TODAY.

The first football game of the season will be played today at Union Park. The contesting eleven will be the high school and the alumni. The high school boys expect to be defeated, as the alumni team contains some very heavy men, but it will be a good game and some snappy playing may be looked for. The game will begin at 2 o'clock. There will be no charge of admission. Following is the line up of the high school team: Broline and Nichols, centers; Gill and Peterson, tackles; Tislov, Conley, Burke or Tellesen, ends; Walters and Bargh, center; Johnson and Nelson, half backs; Talcen, quarter back; Bell, full back.

FORTUNE FAVORS A TEXAN.

"Having distressing pains in head, back and stomach, and being without appetite, I began to use Dr. King's New Life Pills," writes W. P. Whitehead, of Kennedale, Tex., "and soon felt like a new man." Infalible in stomach and liver troubles. Only 25c at Stafford's drug store.

M. J. Olson, late of the F. Myer Piano factory of Oak Park, Ills., is prepared to tune and repair pianos. Address, 327 Vine street, Ishpeiming, Marquette county, phone 317. (8-14-1m)

Shetland Floss, black, white and colors, at Finnish Mercantile association.

Terrible plagues, those itching, pestering diseases of the skin. Put an end to misery. Doan's Ointment cures. At any drug store.

LINGERING SUMMER COLDS.

Don't let a cold run at this season. Summer colds are the hardest kind to cure and if neglected may linger along for months. A long siege like this will pull down the strongest constitution. One Minute Cough Cure will break up the attacks at once. Safe, sure, acts at once. Cures coughs, colds, croup, bronchitis, all throat and lung troubles. The children like it. H. Harwood, Ishpeiming. Stafford Drug Co., Marquette.

SCHOOLS CROWDED.

Some Inconvenience Because Pupils Have to Be Transferred.

On account of the overcrowded condition of the public schools, it has been found necessary to send some of the pupils to other schools than they have been attending. In the First grade at the Cleveland street school there are seventy-four scholars, and only seats for forty-eight. In the Second grade of the High street school, there are seventy-eight scholars, and room for forty-nine. In the Sixth grade of the Division street school, where there are seventy-six scholars, there are seats for but forty-six. The Fifth grade of the Division street school is in the same crowded condition.

In some cases, additional seats have been installed in the rooms, but in others it has been found necessary to transfer the surplus pupils to the nearest school where there is room for them. This has caused considerable unpleasantness and parents have complained to Superintendent Scribner. Thursday, forty youngsters were taken out of one school and sent to another. Fifteen of them went where they were sent, and the other twenty-five came back. The parents of some of the children were very indignant.

The total enrollment for the opening day of the schools this year was 2,808, or seven more than the enrollment during the spring. The Eight grade in the high school building has 104 scholars at present, while last year at this time there were but eighty.

ISHPEMING IN BRIEF.

August Lundahl has returned from Bessemer.

L. Karger of Houghton was in the city yesterday.

Miss Nolan of Ironwood is the guest of Miss Libbie Devine.

William Holm, formerly of the Finnish Mercantile association, left Friday for the Soo.

Matt Lofberg has taken a position in the clothing department of Kahn & Skud's store.

Dr. Eldred Robbins will sing a solo at the morning services of the Episcopal church tomorrow.

John Trembath, assistant postmaster, has gone to the copper country for a ten days vacation.

A new sidewalk is being laid on Division street in front of the A. W. Myers Mercantile company's store.

Louis Erickson is having his house on Ridge street newly painted. William J. Walters is doing the work.

A bicycle found in front of Braastad's clothing store about ten days ago can be secured at the police headquarters.

A rehearsal for the minstrel show to be given at the opera house Sept. 20-22 will take place tonight at the high school auditorium.

Madam White and Mrs. Barrie, who have been spending the summer in Ishpeiming, left yesterday for their home at Evanston, Ills.

The Swedish Home Society building on Cleveland avenue is being painted. A new illuminated sign will be placed over the front door.

Miss Gloria Rogers, who taught the Seventh grade in the high school building last year, is principal of the Salisbury school this fall.

"Doc" Enblom has just received a four-months-old silver fox. This is the second one he has had; the other was killed some time ago.

Phillip Cutler, who will leave for Africa Sunday evening, entertained a number of his friends last evening. He is a diamond drill operator.

Miss S. P. Day has resumed her duties at the library as stenographer. She is preparing the subject catalogue. Two new copies of "Virginius" were received at the library this week.

William J. Walters has the contract to paint the new Methodist Episcopal church, now being erected. Mr. Walters has just finished painting the homes of Mike Nolan and Mrs. Lavigne on High street.

The Lady Foresters rallied off a few articles at their meeting Wednesday evening. Mrs. P. Hughes won a piece of battenberg, Mrs. T. J. Flynn of Negaunee a tablecloth and Nicholas Forbush a pair of pillows. The articles were purchased at the St. John's church fair last Christmas.

C. V. R. Townsend, who formerly lived in this city, but is now in the employ of the Cleveland City company at Gladstone, was registered at the Nelson House yesterday. His father, John Townsend, and his sister, Miss Pauline Townsend, of Albany, New York, were with him. The party visited the mines during the day, and met a number of former friends.

OSTEOPATHY.

Hon. H. F. Pingree, ex-governor of Michigan, who signed the bill legalizing osteopathy in this state said after a thorough and careful official investigation:

"Osteopathy is a science entitled to the respect and confidence of all, as a distinct advance in medicine. I know that it is doing a vast amount of good in relieving suffering and deformity that is not amenable to benefit from drug medicine."

For free books explaining osteopathy, address Dr. J. L. Shorey, Front and Bluff streets, Marquette, Mich. At Ishpeiming Tuesdays and Fridays, 212 W. Ridge street. (8-22-1f)

A new line of Fur Scarfs just in at the Finnish Mercantile association.

We have a 120-gallon Bowser patent oil tank and pump, in perfect condition, for sale. Had to buy a bigger one and don't need two. A. W. Myers & Co. (9-5-1d)

Large assortment of the celebrated Watson-Phummer Shoe Co.'s goods, now for sale by the Finnish Mercantile association.

E. F. STEUDE,

Fur Importer and Manufacturer, Oshkosh, Wis.

At John Shea's, Negaunee, Sept. 8 and 9.

A BAD SYMPTOM

Backache is the Forerunner of Fatal Organic Disease. Every Woman Who Has This Dreaded Symptom Needs Lydia E. Pinkham's Vegetable Compound.

Is it not true? Women suffer, feel the very life crushed out of them, grow old before their time. Each morning wake up determined to do so much before the day ends, and yet—

Before the morning is very old the dreadful BACKACHE attacks them, the brave spirit sinks back in affliction; no matter how hard they struggle, the "clutch" is upon them and they fall upon the couch crying:

"Why should I suffer so? What can I do?"

The answer is ready, your cry has been heard, and a woman is able to restore you to health and happiness.

Backache is only a symptom of more fatal trouble—heed its warning in time.

Lydia E. Pinkham's Vegetable Compound will stop your torture and restore your courage. Your pains come from unnatural menstruation or some derangement of the womb. Let those who are suffering read Mrs. Morton's letter and be guided by her experience.

Two Letters About Backache.

"DEAR MRS. PINKHAM:—I suffered for two years with my back and head. I doctored with the best doctors here but got little relief and at last thought I would try your medicine. I have found that it has done me more good than anything else I have taken. I should advise every suffering woman to take Lydia E. Pinkham's Vegetable Compound."—Mrs. FRANK BARRETT, 1st Pearl St., Springfield, Ohio. (Dec. 15, 1900.)

If you are sick write to Mrs. Pinkham for advice. Out of her vast experience she probably has the very knowledge that will make you well. It will cost you nothing.

"DEAR MRS. PINKHAM:—For a long time I suffered with the backache, was also troubled with irregular menstruation and bearing down pains in the side and abdomen. I took some medicine but it seemed to do me no good. I was in a critical condition. Lydia E. Pinkham's Vegetable Compound has done me more good than anything else I have used and I cannot praise it enough. If all suffering women would take your medicine there would be less sickness and weak women in the world."—MARGARET MAE COCHRAN, 177 E. Main St., St. Clairsville, Ohio. (July 28, 1900.)

When a medicine has been successful in restoring to health more than a million women, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free.

\$5000 REWARD.—We have deposited with the National City Bank of St. Paul, Minn., which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

THERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb.

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time."

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

Mrs. Laura S. Webb, of Toledo, Ohio, recognizes the change of life as a dangerous period and she also has faith in Wine of Cardui. She writes:

"As I had always been troubled more or less at the menstrual period, I dreaded

WINE of CARDUI A million suffering women have found relief in Wine of Cardui.

GINS Some made in Holland, like the famous DeKuyper and E. J. F. brands; some from England, both Dry and Cordial Old Tom, and some made in the U. S., like Clarke's Juniper and the Monarch.

We aim to carry a line of the best known Imported and Domestic Gins on the market. Hence, for medicinal uses, the place to buy is where you can find what you want and what you can rely on.

WILL HAVE MORE HEAT.

Council Appointed Committee to Overhaul Plant at City Building.

According to the mechanics among the city "dads", the heating plant at the city building is not in the best of repair. The attention of the council was called to the matter by Alderman Washburn at the regular meeting Thursday evening. He suggested that the matter of overhauling the plant be looked into without delay in view of the fact that the weather will soon be cold. A committee consisting of Aldermen Washburn, Jackson and Bodilly was named to examine the plant and to report concerning the work necessary to put it in first-class condition, at a special meeting of the council to be called for that purpose.

Some time ago the Consolidated Fuel & Lumber company agreed to furnish the city with coal for a certain period at a certain price per ton. In case the corporation is unable to furnish the coal, as it is needed, the city will purchase from other dealers and the difference in the cost will be charged to the Consolidated company.

The mayor advised the council that a lot for a pound has been procured from the Cleveland-Cliffs Iron company, with the understanding that the city pay the taxes on it. The proposition was accepted and the committee to which the pound matter was referred was instructed to have the place fitted up.

Alderman Washburn informed the council that the outlet at Teal Lake is filling with sand from the Maas mine and that the water being pumped from the shaft is running into the lake.

The committee on the cemetery is not satisfied with the dirt available for filling and grading purposes at the burial grounds. It will require about 7,000 yards of earth to complete the work. On motion of Alderman Johnson, the committee was instructed to do part of the filling this fall, using the best material available there without putting the city to extra expense hauling in dirt.

The committee on streets and highways submitted a satisfactory report. The work on the Palmer road and Mackenzie street is completed; work has been done on Snow street and men are breaking rock for the crusher, near the Maas mine.

The mayor advised the council that two new flags had been purchased for the city's use.

The committee on water works was granted further time to report on the petition of Dr. J. H. Hudson relative to water for his proposed hospital.

Mrs. Williams was granted water free until April 1, on recommendation of the committee on water works. A petition from Mrs. Mary Lemouris, asking a similar favor, was denied, on recommendation of the committee.

Following is the report of Clerk Mitchell, of the municipal electric lighting plant, for August:

Receipts—
44 arc lights, at \$8.00..... \$352.00
6 inc. lights for grand stand..... 3.60

Henry Lee, draying..... .25

Total..... \$465.03
Credit balance of \$228.07.
Total number of incandescent lights on circuit, 1219.
Total number of arc lights on circuit, forty-four.

DEBT LIQUIDATED.

Methodist Society Has Met All Its Financial Obligations.

The members of the Mitchell Methodist church congregation have reason to feel proud of the financial condition of their society. On the first of this month the last financial obligation standing against the church was liquidated.

The financial statement will be presented to the congregation tomorrow after the regular service. Other matters of interest will also be reviewed. The report of the trustees will show that the benevolence has increased very materially since the last quarterly report. The membership of the society is now larger than it has been at any previous time and more interest is being manifested in church affairs.

Rev. Mr. Gilchrie, the pastor, will remain at the head of the congregation another year. At a recent meeting of the members was unanimously decided that he should be invited to remain. The request will likely be honored at the annual meeting of the Detroit conference at Saginaw on the 17th inst. In the list of ministers invited to return to their present charges published one day this week that of Rev. Mr. Gilchrie was unintentionally omitted. The services at the church tomorrow morning will consist of a love feast, at 9:30, and preaching at 10:30.

FOOTBALL PRACTICE.

Fifteen high school boys were out on Blair field Thursday for the first football practice. The trappers and jacks, which were used last year, are in good condition. There are no shoes, however, and a new supply will have to be purchased. The association owns two footballs. Principal Begle coached the boys Thursday and Friday afternoons. Most of the available football material is new in the high school. Mr. Begle says that if he can get eleven boys to play Negaunee will surely have a team.

Avoid serious results of kidney or bladder disorder by taking Foley's Kidney Cure. People's Drug Store.

LOCAL LAONICS.

Will Long leaves for Chicago next week, to enter college there.

Mrs. Wesley Hicks is here from Ann Arbor, visiting her daughter, Mrs. A. W. Haidle.

Miss Mabel Carroll and Miss Lizzy Reidy will go to Ypsilanti about Oct. 1, to enter the normal school.

Mr. and Mrs. Andy Seuss are rejoicing over the advent of an eight-pound baby girl, born yesterday morning.

Leslie Maitland and Fred Pearce will leave next week for Houghton, where they will enter the College of Mines.

Mrs. Everett Sproule, who has been visiting relatives here this summer, left Thursday for her home in Chester, Pa.

William Bath is expected here today from Canada. He has been employed in a Canadian mine for several months past.

Emil C. Houle, John Larson and Austin O'Leary will go to Ann Arbor the 19th to resume their studies at the university.

Will Yates will enter the engineering department of the University of Wisconsin this fall. He leaves for Madison about the 19th.

J. G. Walker, who has been visiting his brother, Frank, for the past week, expects to leave for his home in Tiverton, Ontario, tomorrow.

The Negaunee baseball team will not play tomorrow. An effort was made to get a game with Escanaba or Menominee, but without success.

Mrs. W. H. Waters and daughter, Laura, who have been visiting Captain Mitchell and family, left yesterday for their home in St. Louis, Mo.

Mrs. A. E. Rundquist and son, who have been visiting relatives here for the past three months, left yesterday for their home in Galesburg, Ill.

Miss Alice Houle and Miss Maud Mitchell will go to Ann Arbor to attend the university, about the 19th. Both will take work in the literary department.

John Winters, who was graduated from the state university at Ann Arbor last spring, will study medicine at Johns Hopkins this fall. He leaves for Baltimore about the 15th.

Invitations are out for the marriage of Miss Lucy Green to Dr. A. E. Dryer of Detroit. The wedding will occur at the home of Miss Green's mother, Mrs. E. S. Green, Tuesday morning.

A steam heating plant is being installed in St. Paul's church by the Lake Superior Steam Heating company of Ishpeming. This concern is also putting a hot water heating plant in the church parsonage.

The wardrobes in the Park school building have been put in the basement. They were built in the walls of each room, with sliding doors, but objection was made to this arrangement, because the clothes were hung too close together.

Father Langner returned from Milwaukee Thursday morning, after an absence of three weeks, during which time he took the Knop cure at the Sanitarium, his hearing being affected. He returned looking and feeling much improved.

A meeting of the tournament executive committee will be held Monday night. Parties holding bills against the tournament should present them to the members of the committee at once, as they wish to settle the outstanding accounts without delay.

Fresh Bread, Cakes and Rolls, received daily from Heppner's, Marquette, and the finest bakeries below. Negaunee Co-Operative Society Stores. (9-6-1w)

NOT DOOMED FOR LIFE.

"I was treated for three years by good doctors," writes W. A. Greer, McCannellville, O., "for Piles and Fistula, but when all failed, Bucklen's Arnica Salve cured me in two weeks." Cures Burns, Cuts, Corns, Sores, Eruptions, Salt Rheum, Piles or no pay. 25c at Stafford's drug store.

Our new Shoe department is now open. All the good lines formerly sold by G. L. Kuhlman kept in stock. Finer goods and lower prices than ever. Negaunee Co-Operative Society Stores. (9-6-1w)

A SAD DISAPPOINTMENT.

Ineffective liver medicine is a disappointment, but you don't want to purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and putrid matter and do it so gently that one enjoys the pleasant effects. They are a tonic to the liver. Cure biliousness, torpid liver and prevent fever. H. Harwood, Ishpeming. Stafford Drug Co., Marquette.

FOUND—During tournament, a man's watch. Owner can have same by proving property and paying for this advertisement. Apply to W. J. Argall, on street car line, or at Ishpeming Electric Light Office. (9-6-1w)

Additional Ishpeming

ISHPEMING IN BRIEF.

M. J. Griffin has gone to Wisconsin to sell horses. He will be away several weeks.

Miss Elsie Johnson arrived home yesterday from a visit to her brother, Ed, at Virginia, Minn.

Richard Matthews returned from the copper country Thursday evening. Mrs. Matthews remained to spend another week or so with relatives.

A. K. Sedgwick, who practiced law at Ironwood the past year or more, has decided to locate here. He expects to open an office in the Jenks block.

E. F. Murray will leave Monday for the lower peninsula, where he will purchase a load of preserving fruit, which he intends to sell on close margin.

Miss Hannah Kennedy has returned from Chicago, where she spent the past two months studying the latest styles in millinery, and purchasing new goods for the fall trade.

C. J. Byrns, wife and two sons, Charles and Frank, left Thursday evening for Chicago and St. Paul. The boys will return to college. Mr. and Mrs. Byrns will be absent about a week.

J. C. Finston and daughter, Mrs. A. E. Hume, have departed for Erie, Pa., home of Mrs. Hume. The latter spent five or six weeks here visiting her father. The judge may remain at Erie the greater part of the winter.

Thomas Ford and family are here spending a few days with Mr. Ford's mother. Tom is a South Shore engineer and is located at a small town on the western end of the line. It is five years since his last visit here.

At Grace church tomorrow, the fifteenth Sunday after Trinity, there will be holy communion at 8 a. m.; full choral eucharist and sermon, 10:30; Sunday school, 12 m.; evening service, 7:30 p. m.

The A. W. Myers Mercantile company is rapidly getting settled in the new quarters at the corner of Main and Dixie streets. New furniture and fixtures are arriving daily and when all are in position the different departments will be conveniently arranged. In order to make room for the new goods,

"Let the GOLD DUST twins do your work."

GOLD DUST

solves the problem of easy dish washing. It cuts grease and cleans dishes better than anything else. Does its work quickly, well and economical. Made only by THE N. K. FAIRBANK COMPANY, Chicago, New York, Boston, St. Louis. Makers of OVAL FAIRY SOAP.

many articles are being set out to be sold at bargain prices. The members of the firm extend an invitation to their friends to call and see them.

The coroner's jury rendered a verdict that Nels Johnson, who was killed in the mine Wednesday night, met his death by accident. The examination was conducted by Coroner William Prinn.

A surprise party was tendered Miss Louise Lavigne last night at her home on Pine street. Thirty couples were present, some of whom were from Marquette and Negaunee. Refreshments were served.

The Lake Superior Steam Heating company is to install a hot water heating plant in the A. W. Myers Mercantile company's store. The company will also put steam heating plants into the Heyn block and Bert Treibcock's house.

John Laey, chief of the fire department, will attend the firemen's convention to be held in Detroit next month. The city council voted Thursday night to send Mr. Laey to the convention to represent this city, and also to pay his expenses.

It has been definitely decided that the ordination of Rev. John Harrington occur Monday next at Marquette. Bishop Es will be celebrant. Father Harrington will celebrate his first mass at St. John's church, in this city, Sunday, Sept. 14.

J. H. Castron went to Calumet yesterday, to make arrangements to bring his family to Ishpeming. He will take a position here with the Finnish Mercantile association. Mr. Castron will occupy one of Swend Johnson's houses on Empire street.

R. H. Ashton, assistant general manager of the Chicago & Northwestern railroad, arrived here Thursday in his private car. He was accompanied by W. E. Lindsley, superintendent of the peninsula division.

There is little prospect of a game of ball Sunday. The Cleveland-Cliffs nine endeavored to arrange a match with the Soo Leaders, but was unsuccessful, as was also the case with negotiations with the Negaunee team. The Soo will probably be here a week from Sunday.

Dr. H. N. Meloche received a telegram yesterday announcing the death of his father at Sandwich, Canada. The deceased was ill for a year. His death was caused by cancer. He was born on the same date as was Queen Victoria. He was a retired merchant and was well to do.

An Ishpeming man who went from Houghton to Port Arthur on a boat excursion early in the week purchased a souvenir spoon in Canada. His time at the store was very limited and he did not ask the clerk what was engraved on the spoon, but he supposed it was the face of some prominent Canadian. After reaching the boat he found that it contained the features of President Roosevelt. He was satisfied with his purchase and will keep it as a reminder of his trip to the Canadian shore.

General Passenger Agent.

IN GOOD CONDITION

BOARD HAS DONE MUCH WORK AT THE OLD SCHOOL BUILDINGS.

PRESENT ATTRACTIVE INTERIORS.

POLICE WILL BE TO KEEP THEM UP TO PRESENT STANDARD.

To This End Head Janitorship System Has Been Inaugurated—Big Fan Being Put In at the New Group.

The public schools of Marquette, with the exception of the high school, are now getting down to serious work. Most of the transferring and evening up has been done, although there still remains considerable adjusting of the pupil body to obtain the most satisfactory conditions.

The schools start out the year in a plant which has been put in first class condition and which, in every particular, is clean and sanitary.

A representative of The Mining Journal made a tour of all the rooms in the several buildings yesterday, also inspecting the basements, lavatories, etc., with a view of getting a line on the work done by the board during the past two years. It may be safely asserted that the school buildings were never in better condition than at the present time; that they never looked brighter or more attractive and that they were never as healthy for teachers and pupils.

Comparatively little work in the way of school improvements was done this summer and the better conditions surveyed yesterday are the result of the general campaign of repair and renovation inaugurated a year ago this spring, when several thousand dollars were spent on the plant.

Will Be Kept Up.

It will be the policy of the board to maintain the buildings in their present excellent condition and by continual attention to little repairs to avoid the necessity of the expenditure of any large appropriation for a general overhauling of the plant.

As a part of this program they have inaugurated a new janitor system, which gives the janitor work in the schools a responsible head. As has been mentioned in The Mining Journal, Ed Quarters has been appointed head janitor. He has the hiring of the janitors of the several schools and he is also capable of discharging them for cause. They are to accept orders from him and he is to inspect their schools and work at regular intervals. The board holds him responsible for the condition of the various buildings and will deal with the janitors only through him.

The head janitor will be on the pay roll the entire year. During the vacation periods he will employ his time making minor repairs, varnishing desks, painting blackboards and doing the other manifold little things incidental to the work of keeping a school system in good order.

In Good Condition.

The improvements the board has made during the past year or six months are most apparent at the old buildings, notably the Hampton, Fisher and Third street schools, which have seen two decades and more of service, and which are naturally in a more or less advanced stage of disintegration. However, notwithstanding their age and the hard usage they have received, their rooms are bright and cheery and the ventilation appears to be satisfactory.

There are new hardwood floors at the Hampton school. The building is newly painted and calcimine throughout, and it boasts a furnace plant, which has replaced the stoves. The grounds have been graded up and are provided with cement walks. Here, and at other buildings, the grounds will be planted with grass seed this fall, the lawns in some instances being minus quantities.

The Third street building is one of the hardest propositions in the Marquette system. It, too, is an old structure and it is badly arranged for school work. However, it is now in good repair.

The Fisher street school is another veteran building that, all things considered, presents a bright and attractive appearance.

These structures are as fresh, inviting and healthy as a liberal application of soap and water, paint and calcimine could make them, while good sanitary conditions have been obtained by doing away with outside closets and improving the interior lavatory equipment.

The Fourth street and Nester addition buildings were also visited. Though newer than the trio of structures mentioned above, they are also beginning to show wear and tear, but they are in good condition.

Ventilation in the majority of the rooms visited was good, although most of the buildings are without modern devices for securing it. This is a matter that rests largely with the teachers and they seem to be paying it the requisite attention.

Putting in New Fan.

The Ely building is comparatively modern, and its condition is beyond reproach, although its ventilation, which might be a little better, has to be carefully watched.

Ventilation is just now causing a little trouble at the Froebel school. The fan

which drove currents of fresh air to the several rooms last year is dismantled, as a large fan, to supply all three buildings of the new group, is being installed in the boiler house, but is not yet ready for service. However, by various expedients and with the natural supply of air from the old fan room, it is possible to work without much discomfort.

The new fan is a tremendous affair and will supply the Froebel, Manual training and high schools with copious draughts of fresh air.

The boiler plant at the new group has just been doubled by the addition of a second boiler, a duplicate of the first.

FAST UNLOADING.

Cargo of Steamer Hoyt Taken out in Four Hours' Time.

Probably the fastest handling of cargo ever done in the world has just been accomplished at the docks of the Illinois Steel company, Chicago. In four hours' working time 5,450 gross tons of iron ore were taken from the steamer, breaking all records on the Great Lakes, and nowhere else are cargoes handled as rapidly as in their ports. The nearest approach to this record was made recently by the steel trust at Conneaut, O. All the transportation heads of the United States Steel Corporation were at South Chicago and witnessed the feat of sending nearly 1,400 tons of ore an hour over the steamer's rail. The Hoyt is modern lake carriers.

MISSION AT ST. PAUL'S.

"Confession" the Subject of Father Powell's Sermon Last Night.

Last night at St. Paul's cathedral, Father Powell dealt with the subject of "Confession" as it is taught in the Bible and in the prayer book. Taking his text again from the parable of the Good Samaritan, he reminded the congregation of the man who went from Jerusalem to Jericho and fell among thieves who stripped him, leaving him half dead. He pointed out how our sins wound us and strip us of our innocence, rob us of our peace and leave us in darkness, "half dead."

Think, said the speaker, of the thieves—the crosses, "half dead," wounded by sin. The penitent thief spent a life time committing violence and robbery, plying in the face of Providence. But Jesus' tender love called forth a confession from him. Think of his humble prayer, "Lord, remember me, my innocence as a child, my efforts to reform, my desire to be better; Lord remember me," and the answer comes, "Today, shalt thou be with me in Paradise."

With regard to the teaching of confession in the prayer book, the preacher pointed out: (a) That Christ is the great and only absolver. No one has ever taught differently from this, but He has appointed and ordained ministers to declare and pronounce His absolution. (b) Only the precious blood can wash away sin, and absolution is a means by which He conveys this cleansing remedy to souls.

The teacher then went on to tell of a layman who had flung himself out of the church of England, not by the teaching of confession as it is stated in the book of common prayer, but by a lack of this teaching. He had committed many grave sins and never knew that he was a sinner, until he received absolution in the church of his baptism. He has since found out his mistake in going from the church and has returned; but he is a wreck, in middle life, in body and mind, simply because clergymen never taught him what privilege the church had to offer him.

Father Powell mentioned how in Africa today, among the Zulus and other nations of that continent, the discipline of open confession before the whole congregation is used as it was in the primitive church. If a man commits a grave sin which breaks the law of the church, and therefore the law of God, he is excommunicated by his own act and he must acknowledge his fault to the church and receive absolution, if he is an honest man, before he can be restored to communion.

The Sunday services at St. Paul's will be as usual, but there will be no Sunday school. Children's service at 3 o'clock. There will be the usual mission service this evening at 8 o'clock.

Mother—Now's the time to have your little ones take Rocky Mountain Tea. Keep them well all the year. Great Medicine for children. 35 cts. Stafford Drug Co.

FOR COLD LUNCH.

Canned chicken, tongue, beef, sardines, roast fowl mustard and pickles in bottles, at Heppner's. (7-22-o)

BEWARE OF THE KNIFE.

No profession has advanced more rapidly of late than surgery, but it should not be used except where absolutely necessary. In cases of piles for example, it is seldom needed. DeWitt's Witch Hazel Salve cures quickly and permanently. Unequaled for cuts, burns, bruises, wounds, skin diseases. Accepted by camterists. "I was so troubled with bleeding piles that I lost much blood and strength," says J. C. Phillips, Paris, Ill. "DeWitt's Witch Hazel Salve cured me in a short time." Soothe and heal. H. Harwood, Ishpeming. Stafford Drug Co., Marquette.

LAKE AND RAIL EXCURSION

from Ishpeming, Negaunee and Marquette, via Lake Superior & Ishpeming Railway, Munising Railway and Marquette & Southeastern Railway, to Munising, Mich., and three hours lake trip from Munising to Grand Island and Pictured Rocks on the steamer "Thomas Friant," Sunday, Sept. 7, 1902. Low fare for the round trip. Includes three hours boat ride along the shore of Grand Island and trip to Pictured Rocks (weather permitting). Special train leaves Ishpeming at 8 o'clock a. m.; Negaunee, 8:10 a. m., and Marquette 9:05 a. m. Fare from Ishpeming and Negaunee will be \$1.25 and from Marquette \$1.00. Children one-half fare. Returning special train leaves Munising 6:30 p. m. Beach Inn—Munising's new hotel—was opened Monday, Sept. 1, and will have ample accommodations for those desiring meals at Munising. H. A. ST. JOHN. (9-3-1f) General Passenger Agent.

OIL NEWS FROM KENTUCKY.

Extracts from Lexington Paper of Interest to Stockholders Here.

Stockholders in the Eastern Kentucky Oil company, of which General Passenger Agent G. W. Hibbard is vice president, will be interested in the following clippings taken from the Lexington Herald of Aug. 29th, 30th and 31st and Sept. 1st. They will also be interested in the fact that the Eastern Kentucky company has 310 acres in the Bath county oil field; that Chas. E. Welborn, who is to carry on immense developments in the oil district, will commence his operations in the same county where the Eastern Kentucky company is now boring its first well, and that the pipe line proposed by the Standard Oil company to serve the Pulaski, Knox, Bath and Floyd fields will bring all the leases of the Eastern Kentucky company in easy access to this great artery. The extracts from the Lexington paper concerning the above stated point, follow:

"A Salt Lick special dispatch to the Herald says: The Licking Valley Oil and Gas company brought in a new well on the M. P. Williams lease today, making the twenty-second well brought in by that company. It is reported to be fully up to the average of the wells in the Ragland field and probably above the average. Work on the tank which the Licking Valley company is erecting is progressing with great rapidity. The bottom is laid and the first rim, three feet in height, about finished. A force of men, between twenty-five and thirty, is at work and the tank will probably be finished within three weeks from this date—certainly by this time next month. When finished it will hold 37,500 barrels of oil. The work of equipping the wells so that they can all be pumped is also going forward with such rapidity that by the time the tank is finished the Licking Valley company will be able to pump the twenty-two wells it now has and the four or five wells it will probably bring in within the next month. The report in the Oil City Derrick, which is looked on as the official paper of the Standard Oil company, that a pipe line will be built by that company in the immediate future, has caused great discussion here and leads the operators in this field to believe that they will have a ready market for their oil within a very short while. There is already stored at Ragland in tanks between fifty and sixty thousand barrels, and the full capacity of the fields is believed by those who are considered the best judges, run at the very least a thousand barrels a day."

"D. D. Flanagan, a well known Kentucky oil producer and speculator, is registered at the Leland. Mr. Flanagan holds large leases in Wayne county. He was interviewed by a Herald reporter in regard to the million dollar pipe line the Standard Oil company will build from Somerset in Pulaski county to Parkersburg, W. Va., where are located the principal refineries of the South and which is connected by seaboard pipe line with Philadelphia and New York. Already pipe sufficient for laying ten miles of line has arrived in Somerset and Mr. Flanagan says that it is but a matter of a short time when the construction of the line will begin from both ends. The line will run in a northeasterly direction and will embrace the Knox and Floyd county fields and the Bath county field. Although the Bath county oil is a lubricant and the oil from the other fields is principally illuminating, Mr. Flanagan says that all the oil can be easily transmitted through the same lines, but not at the same time. The only competition the Standard Oil company has in Bath county, where the Guffey & Galey company operates, is in the Kentucky field. The company has between Bobs Bar and Somerset 240,000 barrels of oil, representing a quarter of a million dollars. The six-inch line running into Parkersburg can supply forty or fifty thousand barrels of oil per day and on a pressure 60,000 barrels. The Standard Oil company operates its own telegraph and telephone lines, and along the proposed pipe line will string its own wires for the transmission of telegraph and telephone messages. Mr. Flanagan will remain in Lexington a day or so. He holds leases in nearly all the Kentucky oil fields and is a brother of Howard Flanagan, the well known oil authority and correspondent for the Courier-Journal."

"A Pittsburg, (Pa.) special dispatch to the New York Commercial says: 'Colonel J. M. Guffey, who has been out of town, returned today. In speaking about the expenditures to be made by the Standard Oil company in the Kentucky field, in which the Guffeys are heavily interested, Colonel Guffey said: 'There is no doubt that the Standard company has appropriated \$1,000,000 for the purpose of laying a pipe line between the Kentucky fields and the West Virginia fields for the purpose of getting the Kentucky oil out of that district, and I understand, has already begun work on it. This pipe line will aid wonderfully in opening up the field.' Colonel Guffey is the senior member of the firm of Guffey & Galey, the largest producers of crude oil of any firm in America. It purchased the holdings of the Mt. Sterling Oil and Gas company in Bath county, and now has between twenty or thirty producing wells in that county, and over fifty thousand barrels of oil stored at Ragland. Colonel Guffey is, therefore, intensely interested in the question of a pipe line, and is probably in as good a position to learn the intentions of the Standard Oil company as any man in America."

A deal was consummated at Mt. Sterling which makes \$50,000 change hands. Charles E. Welborn, a financier of New York, closed a deal with the Pebble Sand, Oil and Gas company, which is said to carry with it large developments in the oil district surrounding that territory. Mr. Welborn, representing Eastern and English capitalists, purchased an interest in this company, which controls 30,000 acres of land in the oil district. The new deal will rapidly push the interests of the company,

and two car loads of drilling apparatus are now on the grounds in Morgan county. Drilling by the new company will begin Sept. 1."

SUNDAY AT THE CHURCHES.

First Church of Christ, Scientist—Service at Church Hall, 169 Spring street, at 10:30 a. m. Subject, "Substance." All are welcome.

German Lutheran, Rev. Carl Appeler, pastor—Services at 10 o'clock, followed by holy communion and Sunday school. Confession before 9:30 o'clock.

St. Margaret's mission (Episcopal), South Marquette—Sunday school at 2 p. m. At 2:30 p. m. the scholars and teachers will go to St. Paul's cathedral to take part in the children's mission service.

First Baptist church—Rev. H. E. Purinton, pastor. Public worship at 10:30 a. m. and 7:30 p. m. Morning topic, "Courage." The service will be followed by the observance of the Lord's supper. The evening service will be devoted to "the life and hymns of John Newton, once a slave trader, but who was changed by the grace of God and who became one of our best hymn writers."

U. S. COURT DOINGS.

In the United States court yesterday, the case of Annie Jones, as administratrix, vs. B. F. McMillan, Chas. V. McMillan and Geo. H. Reynolds, was decided in favor of the plaintiff. A judgment of \$1,200 was awarded her.

The case of the United States vs. Frank Stites, trespass, was given to the jury last evening. No decision had been reached at a late hour. Powhatan Bolling of Hancock petitioned the court to be declared bankrupt.

MARINE MATTERS.

IN GOOD CONDITION

BOARD HAS DONE MUCH WORK AT THE OLD SCHOOL BUILDINGS.

PRESENT ATTRACTIVE INTERIORS.

POLICY WILL BE TO KEEP THEM UP TO PRESENT STANDARD.

To This End Head Janitorship System Has Been Inaugurated—Big Fan Being Put In at the New Group.

The public schools of Marquette, with the exception of the high school, are now getting down to serious work. Most of the transferring and evening up has been done, although there still remains considerable adjusting of the pupil body to obtain the most satisfactory conditions.

The schools start out the year in a plant which has been put in first class condition and which, in every particular, is clean and sanitary.

A representative of The Mining Journal made a tour of all the rooms in the several buildings yesterday, also inspecting the basements, lavatories, etc., with a view of getting a line on the work done by the board during the past two years.

It may be safely asserted that the school buildings were never in better condition than at the present time; that they never looked brighter or more attractive and that they were never as healthy for teachers and pupils.

Comparatively little work in the way of school improvements was done this summer and the bettered conditions surveyed yesterday are the result of the general campaign of repair and renovation inaugurated a year ago this spring, when several thousand dollars were spent on the plant.

Will Be Kept Up. It will be the policy of the board to maintain the buildings in their present excellent condition and by continual attention to little repairs to avoid the necessity of the expenditure of any large appropriation for a general overhauling of the plant.

As a part of this program they have inaugurated a new janitor system, which gives the janitor work in the schools a responsible head. As has been mentioned in The Mining Journal, Ed Quarters has been appointed head janitor. He has the hiring of the janitors of the several schools and he is also capable of discharging them for cause. They are to accept orders from him and he is to inspect their schools and work at regular intervals. The board holds him responsible for the condition of the various buildings and will deal with the janitors only through him.

This businesslike arrangement is in marked contrast with the former method of handling this part of the school management. Last year the superintendent had to give considerable of his time, needed for his regular duties, to looking after the janitor work.

The head janitor will be on the pay roll the entire year. During the vacation periods he will employ his time making minor repairs, varnishing desks, painting blackboards and doing the other manifold little things incidental to the work of keeping a school system in good order.

In Good Condition. The improvements the board has made during the past year or sixteen months are most apparent at the old buildings, notably the Hampton, Fisher and Third street schools, which have seen two decades and more of service, and which are naturally in a more or less advanced stage of disintegration.

However, notwithstanding their age and the hard usage they have received, their rooms are bright and cheery and the ventilation appears to be satisfactory.

There are new hardwood floors at the Hampton school. The building is newly painted and cleaned throughout, and it boasts a furnace plant, which has replaced the stoves. The grounds have been graded up and are provided with cement walks. Here, and at other buildings, the grounds will be planted with grass seed this fall, the lawns in some instances being minus quantities.

The Third street building is one of the hardest propositions in the Marquette system. It, too, is an old structure and it is badly arranged for school work. However, it is now in good repair.

The Fisher street school is another veteran building that, all things considered, presents a bright and attractive appearance.

These structures are as fresh, inviting and healthy as a liberal application of soap and water, paint and calcimine could make them, while good sanitary conditions have been obtained by doing away with outside closets and improving the interior lavatory equipment.

The Fourth street and Nester addition buildings were also visited. Though newer than the trio of structures mentioned above, they are also beginning to show wear and tear, but they are in good condition.

Ventilation in the majority of the rooms visited was good, although most of the buildings are without modern devices for securing it. This is a matter that rests largely with the teachers and they seem to be paying it the requisite attention.

Putting in New Fan. The Ely building is comparatively modern, and its condition is beyond reproach, although its ventilation, which might be a little better, has to be carefully watched.

Ventilation is just now causing a little trouble at the Froebel school. The fan

which drove currents of fresh air to the several rooms last year is dismantled, as a large fan, to supply all three buildings of the new group, is being installed in the boiler house, but is not yet ready for service. However, by various expedients and with the natural supply of air from the old fan room, it is possible to work without much discomfort.

The new fan is a tremendous affair and will supply the Froebel, Manual training and high schools with copious draughts of fresh air.

The boiler plant at the new group has been doubled by the addition of a second boiler, a duplicate of the first.

FAST UNLOADING. Cargo of Steamer Hoyt Taken Out in Four Hours' Time.

Probably the fastest handling of cargo ever done in the world has just been accomplished on the new steamer James H. Hoyt at the docks of the Illinois Steel company, Chicago. In four hours' working time 5,450 gross tons of iron ore were taken from the steamer, breaking all records on the Great Lakes, and more rapidly as in their ports. The nearest approach to this record was made recently by the steel trust at Conneaut, O. All the transportation heads of the United States Steel Corporation were at South Chicago and witnessed the feat of sending nearly 1,400 tons of ore an hour over the steamer's rail. The Hoyt is provided with the highest development of modern lake carriers.

MISSION AT ST. PAUL'S. "Confession" the Subject of Father Powell's Sermon Last Night.

Last night at St. Paul's cathedral, Father Powell dealt with the subject of "Confession" as it is taught in the Bible and in the prayer book. Taking his text again from the parable of the Good Samaritan, he reminded the congregation of the man who went from Jerusalem to Jericho and fell among thieves who stripped him, leaving him half dead. He pointed out how our sins wound us and strip us of our innocence, rob us of our peace and leave us in darkness, "half dead."

Think, said the speaker, of the two thieves on the crosses, "half dead," wounded by sin. The penitent thief spent his life in committing violence and robbery, plying in the face of Providence. But Jesus' tender love called forth a confession from him. Think of his humble prayer, "Lord, remember me, my innocence as a child, my efforts to reform, my desire to be better; Lord remember me," and the answer comes, "Today, shalt thou be with me in Paradise."

With regard to the teaching of confession in the prayer book, the preacher pointed out: (a) That Christ is the great and only absolver. No one has ever taught differently from this, but He has appointed and ordained ministers to declare and pronounce His absolution. (b) Only the precious blood can wash away sin, and absolution is a means by which He conveys this cleansing remedy to souls.

The preacher then went on to tell of a layman who had flung himself out of the church of England, not by the teaching of confession as it is stated in the book of common prayer, but by a lack of this teaching. He had committed many grave sins and never knew that he could confess them and receive absolution in the church of his baptism. He has since found out his mistake in going from the church and has returned; but he is a wreck, in middle life, in body and mind, simply because clergyman never taught him what privilege the church had to offer him.

Father Powell mentioned how in Africa today, among the Zulus and other nations of that continent, the discipline of open confession before the whole congregation is used as it was in the primitive church. If a man commits a grave sin which breaks the law of the church, and therefore the law of God, he is excommunicated by his own act and he must acknowledge his fault to the church and receive absolution, if he is an honest man, before he can be restored to communion.

The Sunday services at St. Paul's will be as usual, but there will be no Sunday school. Children's service at 3 o'clock. There will be the usual mission service this evening at 8 o'clock.

Mother—Now's the time to have your little ones take Rocky Mountain Tea. Keep them well all the year. Great Medicine for children. 35 cts. Stafford Drug Co.

FOR COLD LUNCH. Canned chicken, tongue, beef, sardines, roast fowl mustard and pickles in bottles, at Heppner's. (7-22-o)

BEWARE OF THE KNIFE.

No profession has advanced more rapidly of late than surgery, but it should not be used except where absolutely necessary. In cases of piles for example, it is seldom needed. DeWitt's Witch Hazel Salve cures quickly and permanently. Unequalled for cuts, burns, bruises, wounds, skin diseases. Accept no counterfeits. "I was so troubled with bleeding piles that I lost much blood and strength," says J. C. Phillips, Paris, Ill. "DeWitt's Witch Hazel Salve cured me in a short time." Soothes and heals. H. Harwood, Ishpeming. Stafford Drug Co., Marquette.

from Ishpeming, Negaunee and Marquette, via Lake Superior & Ishpeming Railway, Munising Railway and Marquette & Southeastern Railway, to Munising, Mich., and three hours lake trip from Munising to Grand Island and Pictured Rocks on the steamer "Thomas Frint," Sunday, Sept. 7, 1902. Low fare for the round trip. Includes three hours boat ride along the shore of Grand Island and trip to Pictured Rocks (weather permitting). Special train leaves Ishpeming at 8 o'clock a. m.; Negaunee, 8:10 a. m., and Marquette 9:05 a. m. Fare from Ishpeming and Negaunee will be \$1.25 and from Marquette \$1.00. Children one-half fare. Returning special train leaves Munising 6:30 p. m. Beach Inn—Munising's new hotel was opened Monday, Sept. 1, and will have ample accommodations for those desiring meals at Munising.

H. A. ST. JOHN, General Passenger Agent.

OIL NEWS FROM KENTUCKY.

Extracts from Lexington Paper of Interest to Stockholders Here.

Stockholders in the Eastern Kentucky Oil company, of which General Passenger Agent G. W. Hibbard is vice president, will be interested in the following clippings taken from the Lexington Herald of Aug. 29th, 30th and 31st and Sept. 1st. They will also be interested in the fact that the Eastern Kentucky company has 310 tanks in the Bath county oil field; that Chas. E. Welborn, who is to carry on immense developments in the oil district, will commence his operations in the same county where the Eastern Kentucky company is now boring its first well, and that the pipe line proposed by the Standard Oil company to serve the Putaski, Knox, Bath and Floyd fields will bring all the leaseholds of the Eastern Kentucky company in easy access to this great artery. The extracts from the Lexington paper concerning the above stated points, follow:

"A Salt Lick special dispatch to the Herald says: The Licking Valley Oil and Gas company brought in a new well in easy access to this great artery, making the twenty-second well brought in by that company. It is reported to be fully up to the average of the wells in the Ragland field and probably above the average. Work on the tank which the Licking Valley company is erecting is progressing with great rapidity. The bottom is laid and the first rim, three feet in height, about finished. A force of men, between twenty-five and thirty, is at work and the tank will probably be finished within three weeks from this date—certainly by this time next month. When finished it will hold 35,000 barrels of oil. The work of equipping the wells so that they can all be pumped is also going forward with such rapidity that by the time the tank is finished the Licking Valley company will be able to pump the twenty-two wells it now has and the four or five wells it will probably bring in within the next month. The report in the Oil City Derrick, which is looked on as the official paper of the Standard Oil company, that a pipe line will be built by that company in the immediate future, has caused great discussion here and leads the operators in this field to believe that they will have a ready market for their oil within a very short while. There is already stored at Ragland in tanks between fifty and sixty thousand barrels, and the full capacity of the fields will, it is believed by those who are considered the best judges, run at the very least a thousand barrels a day."

"D. D. Flanagan, a well known Kentucky oil producer and speculator, is registered at the Leland. Mr. Flanagan holds large leases in Wayne county. He was interviewed by a Herald reporter in regard to the million dollar pipe line the Standard Oil company will build from Somerset in Putaski county to Parkersburg, W. Va., where are located the principal refineries of the South and which is connected by seaboard pipe line with Philadelphia and New York. Already pipe sufficient for laying ten miles of line has arrived in Somerset and Mr. Flanagan says that it is but a matter of a short time when the construction of the line will begin from both ends. The line will run in a northerly direction and will embrace the Knox and Floyd county fields and the Bath county field. Although the Bath county oil is a lubricant and the oil from the other fields is principally illuminating, Mr. Flanagan says that all the oil can be easily transmitted through the same lines, but not at the same time. The only competition the Standard Oil company has in the Bath county, where the Guffey & Galey company operates. This company produces the oil for its own refineries. The line from Somerset to Parkersburg will be about 300 miles long and there will be about six relay pumping stations en route, at each of which will be large tanks. A million dollars invested in a pipe line for Kentucky shows the faith the Standard Oil company has in the Kentucky field. The company has between Bobs Bar and Somerset 240,000 barrels of oil, representing a quarter of a million dollars. The six-inch line running into Parkersburg can supply forty or fifty thousand barrels of oil per day and on a pressure of 60,000 barrels. The Standard Oil company operates its own telephone and telegraph lines, and along the proposed pipe line will string its own wires for the transmission of telegraph and telephone messages. Mr. Flanagan will remain in Lexington a day or so. He holds leases in nearly all the Kentucky oil fields and is a brother of Howard Flanagan, the well known oil authority and correspondent for the Courier-Journal."

"A Pittsburg, (Pa.) special dispatch to the New York Commercial says: Colonel J. M. Guffey, who has been out of town, returned today. In speaking about the expenditures to be made by the Standard Oil company in the Kentucky field, in which the Guffeys are heavily interested, Colonel Guffey said: 'There is no doubt that the Standard company has appropriated \$1,000,000 for the purpose of laying a pipe line between the Kentucky fields and the West Virginia fields for the purpose of getting the Kentucky oil out of that district, and I understand, has already begun work on it. This pipe line will aid wonderfully in opening up the field.' Colonel Guffey is the senior member of the firm of Guffey & Galey, the largest producers of crude oil of any firm in America. It purchased the holdings of the Mt. Sterling Oil and Gas company in Bath county, and now has between twenty or thirty producing wells in that county, and over fifty thousand barrels of oil stored at Ragland. Colonel Guffey is, therefore, intensely interested in the question of a pipe line, and is probably in as good a position to learn the intentions of the Standard Oil company as any man in America."

A deal was consummated at Mt. Sterling which makes \$50,000 change hands. Charles E. Welborn, a financier of New York, closed a deal with the Pebble Sand, Oil and Gas company, which is said to carry with it large developments in the oil district surrounding that territory. Mr. Welborn, representing Eastern and English capitalists, purchased an interest in this company, which controls 30,000 acres of land in the oil district. The new deal will rapidly push the interests of the company,

and two car loads of drilling apparatus are now on the grounds in Morgan county. Drilling by the new company will begin Sept. 1."

SUNDAY AT THE CHURCHES.

First Church of Christ, Scientist—Service at Church Hall, 109 Spring street, at 10:30 a. m. Subject, "Substance." All are welcome.

German Lutheran, Rev. Carl Aeppeler, pastor—Services at 10 o'clock, followed by holy communion and Sunday school. Confession before 9:30 o'clock.

St. Margaret's mission (Episcopal), South Marquette—Sunday school at 2 p. m. At 2:30 p. m. the scholars and teachers will go to St. Paul's cathedral to take part in the children's mission service.

First Baptist church—Rev. H. E. Purinton, pastor. Public worship at 10:30 a. m. and 7:30 p. m. Morning topic, "Courage." The service will be followed by the observance of the Lord's supper. The evening service will be devoted to the life and hymns of John Newton, once a slave trader, but who was changed by the grace of God and who became one of our best hymn writers."

U. S. COURT DOINGS.

In the United States court yesterday, the case of Annie Jones, as administratrix, vs. B. F. McMillan, Chas. V. McMillan and Geo. H. Reynolds, was decided in favor of the plaintiff. A judgment of \$1,200 was awarded her.

The case of the United States vs. Frank Stites, trespass, was given to the jury last evening. No decision had been reached at a late hour.

Powhatan Bolling of Hancock petitioned the court to be declared bankrupt.

MARQUETTE MINING JOURNAL.

SATURDAY, SEPTEMBER 6, 1902.

County Board Proceedings.

The honorable Board of Supervisors of Marquette County met pursuant to a call duly made, at the court house, in the city of Marquette, in said county, on Wednesday, the 3d day of September, A. D. 1902, at 11 o'clock A. M.

The meeting was called to order by Walter Fitch, chairman.

The roll being called the following supervisors were found to be present:

Present—Agnew, Ayotte, Barabe, Brunengraeber, Campbell, Chase, Conators, Dalton, Elliott, Ewing, Eddy, Fay, Frei, Goodman, Hoyseth, Hodgson, June, Johnson, Lyons, Lindberg, McCarthy, Morgan, Richards, Roberts, Sharon, Jacob Smith, Richard Smith, Sundstrom, Stephens, Sink, Sundblad, Trebilcock, William Thomas, Wilson and chairman Fitch. Total 35.

Absent—Kemp, O'Donoghue, Powell, and John Thomas. Total 4.

The minutes of the previous meeting were read and upon motion approved.

The following report from the auditing committee was received and read and same adopted by the following yeas and nays vote:

Yeas—Agnew, Barabe, Brunengraeber, Campbell, Chase, Dalton, Elliott, Ewing, Eddy, Fay, Frei, Goodman, Hoyseth, Hodgson, June, Johnson, Lyons, Lindberg, McCarthy, Morgan, Richards, Roberts, Sharon, Jacob Smith, Richard Smith, Stephens, Sink, Sundblad, Trebilcock, William Thomas, Wilson and Chairman. Total 35. Nays—none.

Your committee to whom was referred the claims and accounts herein enumerated, having had the same under consideration, beg leave to report the same back to the Board, with the recommendation that the sums set down in the last column, opposite the names of the respective claimants, be allowed and ordered paid, viz:

No.	Name	What for.	Am't Claimed.	Am't Allowed.
1246	Joseph Tregonning, mileage mine inspector		15 00	15 00
1247	Pendill's Pharmacy, supplies for court house		6 60	6 60
