Night Call: C. TONELLA'S RESIDENCE.

WORN OUT EXPRESSION

Every druggist ever known advertises "Pure Drugs." Of course, druggists themselves know that there is a whole lot of substitution and adulteration being done all the time, not to speak of downright buying of cheap, stale stuff and known to be so—but labeled "Pure Drugs." But the general public also knows that there's "lying" somewhere; for no class of men is perfect. When every last druggist says that he sells "Pure Drugs," there's certainly a screw loose in the honesty valve.

The question is, "Who can you believe?" Come in and let us show you our back room and down stairs, and behind our prescription counter and everywhere through the store—then judge of the quality and freshness and purity of our drugs.

"THE PEOPLE'S DRUG STORE,"

SUMMONS LEADERS

PRESIDENT CALLS FIVE SENATORS TO OYSTER BAY.

WILL MEET WITH HIM TODAY

OBJECT OF THE CONFERENCE IS NOT EXPLAINED.

Hanna, Allison, Aldrich, Spooner and Platt Will Participate and All Decline to Discuss the Matter—A Big Reception Yesterday.

New York, Sept. 15.—Much speculation was caused tonight by the presence in the city of five of the most influential members of the United States senate, who are on their way to Oyster Bay tomorrow. They are Senators Hanna, of Ohio; Allison, of Iowa; Aldrich, of Rhode Island; Spooner, of Wisconsin, and Platt, of Connecticut. The senators declined to discuss the probability of any particular question coming up at the conference with the president tomorrow. They said they knew of no specific reason for the sending of an invitation to meet the chief executive at this time.

THOUSANDS SHAKE HIS HAND. Great Reception Held by the President at Oyster Bay.

Oyster Bay, N. Y., Sept. 15.—President Roosevelt today received friends and neighbors of Nassau county and between six and seven thousand shook his hand. The reception was held at his country home on Sagamore hill.

The president met people whom he had not seen for thirty years and shook the hands of men who had known him when he was a child. He thoroughly enjoyed the affair and was as fresh when it was over as when he began. The weather was delightful. Most of all the buildings and many private houses were adorned with flags and bunting. Along the road leading from the center of the town to the road that winds up Sagamore hill, at intervals were hung large American flags which formed a canopy over the heads of the people road to the way to Sagamore hill.

Elaborate Precautions for Safety. The precautions to guard the president against possible harm were most thorough. In addition to Sheriff Johnson's three hundred special deputies, a large number of secret service men and policemen from New York in plain clothes were on the porch and about the grounds. No one was allowed to go past the president with a camera or a stick of any description. Cameras, valises, canes and umbrellas and in many cases overcoats and women's wraps were taken from their owners and piled up under the trees near the porch. The reception began at 2:45. The president stood on the porch and shook the hands of all the visitors. Those who passed off the porch, along the road leading to the side of the house, where lemonade was served, thence by another road out of the grounds.

Meets All Sorts of People. All sorts of people in all conditions of life filed by. White and black; poor and well-to-do; women with babies in arms and several accompanied by dogs; small boys and little girls—all received a pleasant smile and a shake of the hand. During the reception a number of affidavits filed by the Temple Association officers, have been made. Charges, however, have been made that a gang of tax-filers forged the receipt held by the association with a view to defrauding the county of the taxes. Several men have already been indicted for conspiracy.

METHODISTS QUERY ROOSEVELT. Want to Know if He Has Asked That Ireland Be Made a Cardinal.

Milwaukee, Sept. 15.—President Roosevelt was called upon by the Wisconsin Methodist conference today to refute the report that he has asked the Vatican at Rome to create Archbishop Ireland a cardinal. By unanimous vote, the conference decided to send the following letter to the president: "We see with pain, in the press dispatches, a rumor that the Vatican has received from President Roosevelt an intimation that he would be personally pleased to see Archbishop Ireland created a cardinal as a reward for the services he has rendered the church and state. We strongly doubt the correctness of the rumor, for it does not seem possible that a president of the United States could thus violate the spirit of the constitution of the United States, which requires complete separation of the church and state. We hope to see it authoritatively denied."

NEW GUNBOATS FOR MEXICO. Elizabethport, N. J., Sept. 15.—The Mexican gunboats Tampico and Vera Cruz were successfully launched at the Crescent ship yards here today. The Tampico was christened by Mrs. Nixon and the Vera Cruz by Senator Mercedes Godey, daughter of Senator Godey, of the Mexican legation.

CAUSED BY LOCOMOTIVE SPARK. Rock Island, Ill., Sept. 15.—Fire caused by a spark from a passing locomotive today burned over three acres of Weyerhaeuser & Denkmann's lumber yards and damaged several neighboring houses. The loss is \$80,000; insurance, \$40,500.

ENGLISH IRON MEN ORGANIZE.

Formation of a Big Steel Rail Combine Reported This Morning.

London, Tuesday, Sept. 16.—The Daily Mail this morning declares that after many secret negotiations there has been formed an association of leading British steel rail manufacturers for the purpose of controlling prices and regulating output. The firms alleged to have entered into the association have an aggregate capital estimated at sixty million dollars, not counting the large debenture issue.

In view of repeated rumors and reiterated denials, the announcement of The Daily Mail must be guardedly accepted. As an instance of the need of such an association the paper quotes "a representative of a prominent engineering firm of New York" as saying that since February he had placed orders in Europe for half a million tons of steel rails for America, of which 50,000 tons were placed in England, 300,000 in Germany and 150,000 in Belgium. The greater part of these orders would have been placed in England but for the fact that the mills here could not accept them. The Daily Mail says the representative in question added that in 1902 the purchases of steel rails in Europe for America would amount to a million tons, the major part of which would go to Germany unless England woke up.

SEVENTEEN MINERS ENTOMBED. Gas and Powder Explosion Wrecks a West Virginia Colliery.

North Fork, W. Va., Sept. 15.—A gas and powder explosion occurred in the Big Four mine of the Algoma Coal & Coke company here today, as a result of which James Lesien, engineer; John Reekie, a Hungarian miner, and fifteen colored miners are known to be imprisoned in the mine. There is hardly a chance the men will be recovered alive, as they are beyond the point where the explosion occurred. The gas and smoke are so thick that all rescuing parties have been driven back. The explosion is said to have been caused by an accumulation of gas catching fire from the lamp of a miner. This, in turn, fired six kegs of blasting powder stored back in a drift. The explosion knocked down all the brattices for a quarter of a mile back toward the mine entrance, thus cutting off all air from the men imprisoned below. Later—the seventeen bodies have been recovered from the mine. Several rescuers were overcome by gas and brought out unconscious.

OUTLAW KILLED BY INDIANS. Murderer of a Squaw Is Put to Death by His Own Tribesmen.

San Bernardino, Cal., Sept. 16.—General Bruce, a notorious Indian outlaw, who several months ago killed Victoria Maria, a young squaw, by choking her into insensibility and then burying her alive and who afterwards escaped from the officers, has been captured by Indians, members of his own tribe, in southern Nevada. A rope was fastened by a slip noose around his neck, and with the other end tied to the horn of a saddle Bruce was dragged for over a mile across a rock-strewn desert. His body, horribly lacerated, was then thrown on a huge pile of wood and burned.

INJUNCTION IN TAX SCANDAL. Court Order at Chicago Stops Sale of the Masonic Temple.

Chicago, Sept. 15.—Judge Dunne today issued an injunction restraining the collection of the taxes for 1901, amounting to over \$26,000, on the Masonic Temple. The injunction will, for a time, put a stop to the sale of the big office building for taxes. The taxes in question, according to affidavits filed by the Temple Association officers, have been made. Charges, however, have been made that a gang of tax-filers forged the receipt held by the association with a view to defrauding the county of the taxes. Several men have already been indicted for conspiracy.

GAS IS FATAL AT ANN ARBOR. Two Young Men from Posen, Mich., Found Dead in Hotel.

Ann Arbor, Mich., Sept. 15.—Two young men, John Druski and Joseph Kierzek of Posen, Mich., were found dead in a room at the Newman House here this morning. From letters in the pockets of the men it is evident that Kierzek had come to Ann Arbor to have his eyes treated. The men said when they retired that they were not accustomed to using gas light. It is supposed they got up in the night for some purpose and turned on the gas, thinking this would produce light. When found the bodies were lying on the floor and the men evidently were overcome while trying to reach the door.

BOXERS REVIVING. Armed Force Enters Provincial Capital and Fights Troops in Streets.

London, Tuesday, Sept. 16.—The Standard's correspondent at Shanghai cables: A force of armed boxers entered Cheng-Tu-Fu, capital of Szechuan province, on the 15th. Some of them were killed or captured in the streets of the city. The shops there are closed. The military is patrolling Cheng-Tu-Fu and the situation there is reported to be serious.

PAPAL DELEGATE IS NAMED. Falconio, Now in Canada, to Represent Pope in United States.

Rome, Sept. 15.—The Vatican has definitely decided, it was announced today, to send the Most Rev. Dionede Falconio to Washington as papal delegate in the United States. He is now apostolic delegate for Canada.

VAST AREA SWEPT

FOREST FIRES IN THE WEST HAVE DONE ENORMOUS HAVOC.

LIST OF FATALITIES A LONG ONE

SCORES OF PERSONS DEAD AND MANY OTHERS MISSING.

Damage to Property, Exclusive of Standing Timber, Is \$1,500,000 and Hundreds of People Are Without Food or Shelter.

Kalama, Wash., Sept. 15.—The reports from the stricken districts on Lewis river continue to grow worse. The charred bodies of thirty-eight persons have already been found, and it is believed there will be more to follow. Many settlers and an unknown number of campers from outside points are missing. The burned Lewis river district was settled by perhaps five hundred people.

Portland, Ore., Sept. 15.—Two score or more lives have been lost and it is estimated a million and a half dollars' worth of property has been destroyed during the past week by forest fires in Oregon and Washington. Many more people are missing, but it will not be known how many are dead until reports from the remote districts come in. The estimate of the property loss does not include standing timber, but covers small mills, houses, barns, shops, cordwood, and farm implements. Thousands of acres of timber have been burned over, but the destruction of great timber has not been heavy.

Relief is being hurried from Portland, Tacoma, Seattle and Vancouver to those who have lost their homes and crops. The districts where the greatest destruction has occurred are Lents, Springwater, Bridal Veil, in Oregon, and Fifty Plain, Lewis river and Elma, in Washington. In all these places it is estimated there are about a hundred people without food or shelter. The fires have nearly burned out. This morning the smoke cleared away so the sun was visible most of the afternoon.

RUSHES TROOPS TO ISTHMUS. Force of 5,000 Is Despatched by the Colombian Government.

Washington, Sept. 15.—Senor Concha, Colombian minister, received a cablegram today, dated the 12th, signed by President Marroquin, Secretary of State Jani and Secretary of War Fernandez, stating that five thousand government troops, under command of General Perdomo, had started from the Magdalena river to reinforce the government troops in the isthmus; that fifteen thousand additional government troops were held in readiness to move to the isthmus, and that the interior was quiet.

Important Rebel Surrender. The state department today received a cablegram from Minister Hart, at Bogota, Colombia, which says that the revolutionary General Carreazo, who has been operating with a strong force on the great plains east of Bogota, has surrendered. This is regarded of the utmost importance to the government authorities, who consider that it assures the pacification of the whole eastern region. The Colombian government has also announced the repulse by a government war vessel of a revolutionary attack some days ago upon Magdalena river.

Battleship Wisconsin at 'Frisco. San Francisco, Sept. 15.—The U. S. S. Wisconsin, Admiral Casey's flagship, arrived today, enroute for Panama, where she will protect American interests.

SECOND VICTORY FOR CADILLAC. Speedy Detroit Yacht Again Wins Annual Sweepstakes Race.

Detroit, Sept. 15.—The annual sweepstakes race of the Detroit Yacht club had fine weather for the fifth renewal today, with a ten-mile breeze blowing up from the south. Cadillac, the Hanley yacht, which sailed against the Detroit in the Canada's cup race at Chicago a year ago, crossed the line first today at the finish. Detroit, which also was at Chicago for the trials a year ago, was second and Minerva was third. Cadillac is the only boat that has been twice the winner of the sweepstakes, and one more victory will give the Hotel St. Claire cup to the Detroit boat club syndicate which owns her. There were fifteen entries today, from Detroit, Toledo and Sandusky. Cadillac's corrected time is 2:46:27; Detroit's 2:49:53; Minerva's 3:00:34.

WILL FACE BRIBERY CHARGE. Fugitive from Justice Surrenders to the Kansas City Police.

Kansas City, Sept. 15.—Abraham Davis, charged with jury bribing in the interest of the Metropolitan Street Railway company in a damage suit, who had been a fugitive from justice for more than a year, surrendered today. He was given a preliminary hearing, pleaded not guilty and was released on \$1,200 bond. Davis says he has been in New York ever since he left Kansas City.

YANKEE WARSHIPS AT NICE. Nice, Sept. 15.—The United States battleship Illinois and cruisers Chicago and Albany arrived at Ville Franche this afternoon. The commissioner of the ministry for the marine, representing Vice Admiral Bienaimé, chief of the marine staff, visited Rear Admiral Crowninshield on board the Illinois.

BIG CHECK FOR MRS. M'KINLEY.

Draft for \$40,000, Authorized by Congress, is Forwarded Her.

Washington, Sept. 15.—A treasury warrant for \$39,800 was forwarded today to Mrs. Ida S. McKinley, widow of the late president, for the salary which would have been due him on July 1, 1902, an appropriation for which was made at the last session of congress.

WILL PLY THE GREAT LAKES.

Three Steel Steamers from Glasgow Pass Up the St. Lawrence.

Ogdensburg, Sept. 15.—Three large steel turret steamships from Glasgow, Scotland, passed up the St. Lawrence today to engage in the grain and ore trade on the lakes. They are half straight back and half wheelback, forty-four-foot beam, 3,500 tons capacity and of fourteen-foot draft. They have been held for two months in the Lachine canal, awaiting charter orders.

VIOLENT DEATH FOR BANKER.

Nicholas Fish of New York Is Killed by Fall on Stone Step.

New York, Sept. 15.—Nicholas Fish, the banker, father of the late Hamilton Fish, of the Rough Riders, who was killed in Cuba, was found this evening lying unconscious on a sidewalk in West Thirty-Fourth street. He was carried to the Roosevelt hospital, where it was said he had sustained a fracture of the skull on a stone step. Mrs. Fish was summoned.

DEATH OF JUSTICE GRAY.

Aged Massachusetts Jurist Succumbs to a Stroke of Paralysis.

Lynn, Mass., Sept. 15.—Justice Horace Gray, who recently retired from the United States supreme bench, died at his residence at Nahant this morning from paralysis.

President Mourns Him.

Oyster Bay, N. Y., Sept. 15.—When informed of the death of former Justice Gray, of the supreme court, today, President Roosevelt said: "I had high and peculiar respect for Justice Gray. I felt he had done the greatest possible service as a justice. I deeply mourn his death."

EXPLORER PEARY FOUND.

Relief Ship Picks Up the Expedition and Is Homeward Bound.

New York, Sept. 15.—Herbert L. Bridgeman, secretary of the Peary Arctic club, received a dispatch today from Lieutenant R. E. Peary, the Arctic explorer, dated Chateau Bay, Labrador. Peary says he is on his way home on the relief ship Windward, and that all on board are well.

The explorer sailed with his expedition, bound for the North pole, on July 4, 1898. The steamer left Peary at Cape Sabine on Aug. 29, 1900. The relief ship Windward left New York in July last to find the Peary expedition, and incidentally has been successful.

LIEUT. MORRIS KILLS HIMSELF.

Second Officer of the Olympia to Commit Suicide in Five Days.

Boston, Sept. 15.—Lieutenant John R. Morris, United States navy, was found dead in a state room on the United States ship Olympia by a fellow officer today. He had committed suicide by shooting with a revolver. The Olympia was anchored off the Boston navy yard. Lieutenant Morris was engineering officer of the Olympia and began duty on the ship on Jan. 25 last. No cause is known for the act. He is the second officer of the Olympia, Admiral Dewey's flagship, to commit suicide within five days. Chaplain William F. Morrison, U. S. N., committed suicide by shooting Thursday last at the Marine hospital at Chelsea, where he had been transferred a few days before.

ST. LOUIS BOODLER BEREAVED.

Hears News in Jail of Death of Son—Is Released on Bond.

St. Louis, Sept. 15.—Charles A. Gutke, one of the five former members of the house of delegates, confined in the city jail on charges of bribery and perjury, was informed today of the death of his eleven-year-old son. The father broke down and wept at the news, but declined to go home and see the remains, in the custody of a deputy sheriff.

Delegate Edmund Bersch, out on bonds aggregating \$45,000, volunteered to go to jail in place of Gutke for a few days, in order that the latter might be at home until after the funeral of his son. Judge Douglas gave his consent to the substitute, the bonds of Bersch to be for the time being transferred to Gutke. He later, however, decided to accept Ed Butler and Henry Eyermann on Gutke's bond, and therefore Bersch will not be called upon to make the sacrifice.

The hearing of the arguments before the supreme court on a petition for a writ of habeas corpus to secure the release of the imprisoned members of the house of delegates was today postponed until Saturday.

STRIKING SHOPMEN ENJOINED.

Omaha, Sept. 15.—Judge McPherson, in the federal court today, on the application of the Union Pacific Railroad company, granted a temporary injunction restraining the striking shopmen of that road from placing pickets about the gates and grounds of the Union Pacific shops. The hearing was set for Sept. 25.

GREAT FLOODS IN INDIA.

Calcutta, Sept. 15.—Twenty-five villages have been swept away and 6,000 people have been rendered homeless by floods due to overflowing rivers in the southern part of the presidency of Bengal. Relief camps for the sufferers have been started.

Per year, by mail.....60.00

MARQUETTE, MICH., SEPT. 16.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Sickness steals more savings than the burglar. Slowly, coin by coin, the money that has been so hard earned is paid out for drugs and doctors. Sickness is the worst enemy of the working man, and the common cause of the working man's sickness is disease of the stomach often involving the heart, lungs, liver, or kidneys.

Use of Dr. Pierce's Golden Medical Discovery will stop the stealing of the savings by sickness. It cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, liver, lungs, kidneys, etc., when these diseases are caused by the diseased condition of the stomach and its allied organs.

"About ten years ago I began to have trouble with my stomach," writes Wm. Connolly, of 53 Walnut Street, Lorain, Ohio. "It got so bad I had to lay off quite often two and three days in a week. My stomach would bloat and I would belch up gas, and was in awful distress at such times. I have consulted and been treated by the best doctors in the city but got no help whatever. By some way or other I happened to get hold of a visit of your 'Pellets,' and I thought I had liver complaint, and advised the use of your 'Golden Medical Discovery.' These medicines I have taken as directed, and am very happy to state that I can now get better from the start and have not lost a day this summer on account of my stomach. I feel tipsy, and better than I have for ten years."

Accept no substitute for "Golden Medical Discovery." Nothing else is "just as good."

Dr. Pierce's Pleasant Pellets regulate the bowels.

and will shortly count thirteen of them. Fifth. Great Britain has well maintained her lead over her two most probable adversaries, and now counts twenty-nine first class battleships ready for action, against seventeen for France and Russia combined.

There is little cause for uneasiness in the statistics of exports of manufactured articles; on the contrary, good reason for gratulation. During the first seven months of the present year the exportation of that class of products was nearly \$10,000,000 greater than in the corresponding period last year. At the same time the importation of manufactured materials was nearly \$30,000,000 greater. Nearly all the principal manufactured articles exported, except iron and steel, show an increase in quantity and in most cases in value, says the report of the treasury bureau of statistics. With heavy crops added to an increasing foreign demand for manufactured articles, exports from the United States for the current fiscal year should reach the high water mark.

The state game warden should begin an education of those who go into the woods to hunt deer. There should be a primer class to impress upon the minds of these hunters the difference between a deer and a man. Every hunter securing a license should be given a little work upon "The Fools Who Go Into the Woods After Deer." Every procurer of a license should be obliged to read it, and if he cannot read should have it read to him. This pamphlet should endeavor to impress upon the mind of the hunter that it is dangerous to shoot at shadows and noises; that human life is more valuable than that of game, or that it is supposed to be; that of all the fools the fool hunter is the biggest. It should request the hunter to see clearly the object he fires at before he pulls the trigger; to take the cartridges out of his gun before going into camp, and to put no loads in until he is well away from others of his party. It should instruct a man who is shot at and not mortally hit to immediately fire back and endeavor to do his utmost to kill the fool who has shot at him. A premium should be paid for every fool so hit. As for the cowards who hit and wound a man and then go off and leave him to die alone in the woods, they should be hung. Such men are too mean to waste money on feeding them. Never mind the smokeless powder or the big calibres. They will do little damage if aimed only at game. The trees will soon stop the bullets if they miss or pass through the deer. It is the fool who doesn't know what he is shooting at who does the mischief.—Ishpeming Iron Ore.

SOFT COAL AS A SUBSTITUTE.

The despair of an early termination of the coal strike has turned attention throughout the country to the merit of soft coal as a substitute for anthracite, not only in manufacturing industries, but also for domestic uses. The New York Times, in an editorial on "Soft Coal as an Emergency Fuel," gives instructions in the management of soft coal in stoves, ranges and hot air furnaces, which are generally designed only for the use of the anthracite fuel. As there may be more or less necessity in the north country of using soft coal where the anthracite fuel was formerly employed it may not be amiss to reproduce the suggestions of the Times regarding the management of soft coal in hot air furnaces designed for the anthracite. It says: "In an anthracite-heating furnace soft coal needs to be treated very differently from anthracite, but the difference consists in the management of draughts and checks. In the feed door of every furnace there is a slide damper to admit air over the fire. When anthracite is used this is opened only if it is desired to deaden the fire and lower the temperature of the house. With soft coal it must be left open all the time. The great volume of gases evolved from it in the cooking process, which is the first stage in its combustion, calls for more air than can be had through the body of the fuel, and unless this is supplied above the fire the greatest value of the fuel is lost up the chimney in unconsumed gases. Too much air for good combustion can be admitted over the fire, but this is not likely to be the case if the slide damper in the feed door of a furnace built for anthracite is left wide open all the time. The draught opening in the ash pit door, on the other hand, needs to be less widely and continuously open than for anthracite. The householder must also remember that the check draught in the smoke pipe, which with anthracite is usually kept open in moderate weather, cannot be opened much, if any, with soft coal, or the house will fill with smoke. The best way is to leave it closed altogether. With attention to these details, which reverse the customary practice with anthracite, a furnace may be run on bituminous coal so as to keep a house entirely comfortable. It may be that before the continued cold weather sets in and navigation closes the North country will be supplied with sufficient hard coal to, with rigid economy, somewhere near take care of the demand, but this is very unlikely. A scarcity of and high price for anthracite seem inevitable, and it is already conceded that there will be an unusual consumption of wood and soft coal during the months of the forthcoming winter. Under the circumstances people will do well to learn how to make the best of the situation. For forty years Dr. Fowler's Extract of Wild Strawberry has been curing summer complaint, dysentery, diarrhoea, bloody flux, pain in the stomach, and it has never yet failed to do everything claimed for it.

Apoplexy

caused more deaths in New York City in 1901 than were occasioned by Smallpox, Typhoid Fever, Malarial Fever, and Scarlet Fever combined.

The Mutual Life Insurance Company of New York will not insure those who have apoplectic symptoms. This suggests the advisability of insuring your life while in good health.

A young man, ambitious of success, should consider these points for "Where Shall I Insure?"

THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK
T. H. BOWLES, Mgr., Milwaukee, Wis.

COPPER MINING.

Excellent progress is being made upon the dam which is being erected on the west branch of the Ontonagon river by the Victoria company, says the Ontonagon Herald. It is situated about a mile up the river from the famous Glen falls and is 300 feet in length and about fifteen feet in height. It is a concrete structure, and is substantially strengthened by large iron posts which were sunk in the solid rock in the bed of the stream four or five feet and extend to the top of the structure. These posts were placed about eight feet apart and the top will be bound with iron. The work has been going on without a hitch and the rapidity with which the structure is being completed is a source of great gratification.

The work of digging the race from the dam to the proposed power house below the falls will be commenced in a few days. It will require some time to complete this task, but like all work upon this project when it is started it will be pushed vigorously.

The magnitude and value of this water power to the Victoria and not generally understood. With its use it will not cost one cent for fuel for operating the mine, mill and all other machinery upon the property. This certainly will be a big saving, and is a big one with all the other mines in the district.

Concerning Wolverine's Dividend.

A correspondent inquires of the Boston News Bureau: "In your opinion will the Wolverine, at an increased production with the present price of copper, pay its regular dividend?" The reply, in part, is: We can best answer this question by quoting President John Stanton who says: "I see no reason why Wolverine should not continue dividends at the present rate with copper selling in the neighborhood of 12 cents." For the year ended June 30, Wolverine earned net \$241,000 and paid dividends of \$100,000, or 41 per cent. The total expenditures of \$244,477 were taken from treasury surplus, reducing the same from \$540,141 to \$276,467. The company's cost of mining for the year showed an increase of almost 1 1/2 cents per pound over the cost for the year ended June 30, 1901, excluding construction in both years. Including construction charges, Wolverine's cost per pound of copper was 14 cents against an average price received of 13.21 cents. For a series of years Wolverine's cost per pound of refined copper has been as follows: 1901-02, 13.10; 1900-01, 12.10; 1899-00, 6.88; 1898-9, 6.14; 1897-8, 6.71; 1896-7, 7.02. This table clearly shows the tendency toward increased costs, and this factor must be reckoned with in connection with the price of copper in figuring future dividend prospects. Wolverine has recently put its new mill into commission, and President Stanton expects a cost of not above 8 cents per pound. While an enlarged tonnage usually tends toward a smaller amount of copper per ton of rock, and a relatively higher cost per pound for the refined product, it is believed that Wolverine, under present conditions, will be able to continue its \$4 per share dividends to shareholders.

Copper Gossp.

The Quincy is constantly furnishing the mill with all the rock that it can stamp, the present output being about 3,000 tons every twenty-four hours. This amount will show a gradual increase as the mill improvements are finished. The concentrator of the Basin and Bay State Mining company, which Heinze has leased, is supposed to be the best concentrator in Montana, and was built at great expense, but has never been used, owing to litigation among the stockholders of the company. Since the Amalgamated company was formed Mr. Heinze's copper output has, it is claimed, increased from 1,000,000 pounds of copper per month to above 3,000,000 pounds per month, and he is planning to reach next year 6,000,000 pounds per month, and to pass the Anaconda both in output and profit. There are millions of tons of ore in sight in the Moccasin mine, one of the properties of the Anaconda company, that runs 1 1/2 per cent copper. It had been expected to work this ore through the new concentrator at Anaconda but the concentrator has not been able to handle it. Other mines of the Anaconda company have similar quantities of such low grade ore which will become valuable when some method is perfected for its concentration and smelting. The Old Dominion mine has been closed down on account of the shortage of coke. It is understood at Boston that the management may prolong the shutdown, pending some satisfactory adjustment of the rate situation with the Gila Valley, Globe & Northern railroad, which is controlled by the Southern Pa-

cific. President Smith and some of the other directors of the Old Dominion will leave for the mine about Oct. 1.

Good ground has been encountered in sinking No. 1 shaft below the eighteenth level on the conglomerate vein of Al-louva.

President H. F. Fay, of the Centennial, Trimountain and other copper country mines, is due to arrive this week on his regular fall trip of inspection.

A vertical shaft to encounter the Kearsarge lode is to be sunk at the Al-hmege property, in which Calumet men are largely interested.

A number of buying orders for Phoenix have been forwarded from the copper country the past few days, resulting in an advance of about a point in the stock. Phoenix is well thought of in the copper country, especially at Calumet.

Copper ruled easier yesterday. At London the quotations declined 2s. 6d to 25s. 9s for spot and to 25s. 13s. 9d for futures. At New York the closing prices were: Lake, 11 5/8 @ 12 1/2; standard, 11 20 @ 11 50; electrolytic, 11 70 @ 11 85; casting, 11 70 @ 11 80.

Captain Isaac Blythe of the Quincy has returned from a visit to the Ontonagon county mines. He went through the underground workings of the Adventure and Mass. In speaking of the former property he said that the mine's future is particularly bright. None but the best of rock is being hoisted and the captain looks for big mill returns when the new mill goes into commission. He says the Mass management is conducting mining operations on an economical basis.

A Prescott (Ariz.) dispatch states that the United Verde mine at Jerome, which has been closed down for some time, will probably remain closed for an indefinite period. There are less than 150 men now at work at the smelter and mine and these are being reduced daily. It is understood that the entire force, with the exception of six or seven men, will be laid off. The men have been advised to seek employment elsewhere, as there was no certainty as to when work will be resumed.

The burnt district in the St. Lawrence mine of the Anaconda property at Butte has been surrounded by a cement wall to prevent the fire from spreading further. It has been burning for thirteen years and a long time ago the scheme was evolved to fence it off since all efforts to extinguish it were unavailing. The ore has been mined clear around the entire burning district and from the 1,200 foot level to the surface. To that entire height of 1,200 feet a wall has been cemented which will effectually stop a spread of the fire beyond its present limits. If the fire is ever completely extinguished or burned out the territory will yield a tremendous supply of almost pure copper.

Judging by the shipments of copper from the smelter, the Boston & Montana is now and will be for this year the leading producer of copper in the Butte district. It is today the main asset of the Amalgamated company. It has shipped as high as 6,000,000 pounds in a single month this year, while the highest monthly shipment by Anaconda has been 5,500,000 pounds, but the Anaconda shipments this year to date have not averaged 5,000,000 pounds. The total production of all the Amalgamated mines has not averaged 12,000,000 pounds of copper per month this year. The Anaconda rock grows poorer with depth and it may soon be difficult to maintain the Anaconda as a factor in the world's copper production.

The demand for and recent advances in the price of stock in the George A. Treadwell Mining company are facts worthy of note. The claims of the company are in the Jerome mining district, Yavapai county, Arizona, and the stock is handled by Messrs. Gable & Norton of Pittsburgh, Pa. When the stock was first advertised in the Los Angeles Mining Review (last March) the price of it was \$7.50 a share. Today, owing to applications for a share and to the extent of and values in the ore bodies disclosed under development, the stock is selling at \$12.50 a share, and, as announced, will soon be advanced to \$15 a share. An advance of \$3 a share in less than five months is a big profit for those who bought it at \$7.50.—Los Angeles Review.

This from the nearly always bearish Boston News Bureau should on that account be especially pleasing to holders of copper stocks: An official of one of the largest copper selling agencies says: "The consumption of copper both in this country and abroad is phenomenal. The consumers have again taken the market out of the hands of the United Metals Selling company, as they did when the price was marked down to 11 cents. Dr. Ledoux's statement was a very great surprise to the Amalgamated Copper people. European consumption during the first six months of this year was about 77,000,000 pounds greater than that of a year ago. In England consumption is very heavy at present, and there are many indications of a coming boom in the electrical business. We have just sold 500,000 pounds of lake copper at 12 1/2 cents, and we believe that prices will go higher. Absolutely no faith should be placed in the quotations made on the New York Metal exchange, as the dealings are purely manipulation."

NOT DOOMED FOR LIFE.

"I was treated for three years by good doctors," writes W. A. Greer, McCormickville, O. "for Piles and Fistula, but when all failed, Bucklen's Arnica Salve cured me in two weeks." Cures Burns, Cuts, Corns, Sores, Eruptions, Salt Rheum, Piles or no pay. 25c at Starford's drug store.

QUEEN VICTORIA'S HAIR.

Its Profusion, at Her Age, Had Always Been a Wonder.

Over 80 years old, Queen Victoria yet had luxuriant hair, which had for years been a marvel. The court physician, following Prof. Unna's discovery, treated her Majesty's scalp with a germ destroying preparation, which had always kept secret. It is now known, however, that the remedy for dandruff, the germ destroying element, is embodied in Newbro's Herpicide, the only hair preparation on the market that does destroy the dandruff germ. Without dandruff, hair will grow profusely, and falling hair will be stopped. "Destroy the cause, you remove the effect."

COPPER COUNTRY

(Additional.)

MINING EXCHANGE LIKELY.

Copperdom People Interested in Western Stocks May Organize One.

There is some talk among Houghton men interested in Western mining stocks of organizing a mining exchange for their mutual benefit. The project is strongly favored and steps will likely be taken before many days to bring it to a successful issue. It is proposed to employ a mining expert, at a good salary, to go to the West and report upon new propositions in which the members of the exchange are interested. In that way they could work together better than at present and feel more secure in their purchases. When Western stocks are bought now, great chances are taken. It is well known that any mining proposition, no matter how rosy its prospects on paper, is in great measure a gamble and that chances in a more or less degree have to be taken. In a mining exchange, such as is proposed, would do away with much of the chance. A sufficient membership to make the organization a success is available. The salary of the mining expert and his traveling expenses would be the only cost to the members. Hundreds of thousands of dollars of copper country money is invested in new Western properties in the states of Montana, Nevada, New Mexico, Arizona, Colorado, California and in British Columbia and many of the prospects are not more than mere holes in the ground. Within the last year or two, especially since "coppers" have been dull, copperdom people have turned toward Western propositions, putting into them more or less money according to the condition of their bank accounts. If all new Western mines pan out as well as most of them are described there will eventually be many new-made millionaires in this region, but that of course is a condition which remains to be seen. It has become more and more apparent that a mining exchange would be a good thing for its members, as it would prevent in great measure attempts at swindling people out of their hard earned cash. Many of the speculators in Western stocks go into it blindly. All they know about the properties is that which comes from the brokers, the power behind the throne. It is true that much money has and will be made out of new mining ventures in the West, and that is just the reason for the wild spread speculation in other Western prospects. It is also true that much more money has been lost by numerous failures, but they are forgotten. It is only the successes that are held out to would-be speculators and it is the only thing that they think of. Thousands of dollars of copperdom money have been plied into mining ventures which have turned out to be swindles of the worst kind, still it makes no difference. The hope of becoming suddenly rich some day is the bait which catches the speculator.

COPPERDOM BREVITIES.

Miss Margaret Jones of Hancock has left for Detroit and Cleveland to visit friends.

Miss Grace McConnell of Houghton has resumed her duties at the Grasse Point school.

A night school to be conducted in connection with the public schools may be established by the Calumet school board.

Ernest Weider of Hancock has left for Lansing to enter upon his second year as a student at the Michigan Agricultural college.

A party of miners from Calumet left over the Copper Range road yesterday morning for the Baltic and other mines on the South range, where they will be employed.

Charles W. Seymour will lecture on "Frederick the Great" at the Hancock High school auditorium this afternoon. No admission will be charged. The lecture will begin at 3:45 o'clock.

The Calumet Y. M. C. A. will not conduct a night school during the coming winter, as has been the custom in past years. The association was disappointed in a plan it had mapped out and finally decided to drop the scheme altogether.

Charles E. Rowe, the popular pharmacist at the Eagle drug store, Calumet, has resigned his position, to take effect Oct. 1. He will soon after enter Northwestern University, at Evanston, Ill., to study medicine. Mr. Rowe has a large number of friends in Calumet who will be sorry to see him go.

The school census of fractional district No. 1 of Torch Lake and Schoolcraft townships has been compiled by Justice Brule, of Lake Linden. There are 2,217 children of school age in the district. Over half of the number attended the public schools of Lake Linden, and most of the remainder were pupils at St. Anne's academy. The value of school property in the district is \$43,000. The cost per capita is \$14.

When J. D. Godfrey of Calumet, manager of the Godfrey Sons company's business in that place, was a student in the University of Wisconsin he made an agreement with two fraternity friends that he would attend their weddings when those events were to take place. He recently received a letter from one of them who announced his marriage for Oct. 10 at Green Bay, Wis. Mr. Godfrey made arrangements to make the trip. A few days later he got a letter from the other friend who announced his coming marriage at Ashland on the same date. Mr. Godfrey is now trying to figure out how he is going to keep his promises.

Many new cement walks will be laid on Quincy street, now being paved with asphalt, before snow flies. Among these will be stretches in front of W. H. Roberts' three store buildings, in front of Kauth & Son's saloon and the building adjoining; in front of Richard Rourke's saloon and in front of Ruppe's store and the Bismarck restaurant. The walks in front of the Beer, Dritter and Scott blocks have already been laid. As soon as the Barber Asphalt company completes its work at the west end of the street, the school board will have a twelve-foot walk laid in front of the Central school building.

AN ANONYMOUS LETTER

A Gentle Laxative

A Nerve Tonic

New Way to Polish a Stove.

No Waste—Odor—Or Dirt.

By sprinkling Sifter Stove Polish on the stove and then rubbing with a damp rag and gently brushing with a dry cloth, a brilliant, jet black lustre is obtained. Sifter Stove Polish comes in a large box with a perforated top, through which the polish is sifted just like peppering a beefsteak. Sifter Stove Polish is made of pure powdered graphite, which is not affected by fire, produces the most brilliant polish, and when applied, won't rub off. It is odorless. It never dries up. It does not require soaking in water before using. A 10 cent can of Sifter Stove Polish will polish more stoves than three times its cost in any other polish. Get Sifter Stove Polish of any dealer at 5 cents a box, a 10 cent box contains more than twice as much. Insist on the yellow label with the hand.

DRUNKEN ROW SERIOUS.

One Trimountain Man Badly Slashed Another With a Knife.

Henry Lantala, of the Trimountain location, was severely cut by a knife in the hands of August Heckala at Trimountain Sunday night. Heckala was arrested late yesterday afternoon and was brought to Houghton for a preliminary hearing in Justice Brandt's court. He is charged with assault with intention to do great bodily harm less than the crime of murder. Heckala will likely be bound over to the next term of circuit court. Lantala's face is badly slashed, the cut extending from the forehead down past his lips. It appears that both men had been imbibing a little too freely and during a subsequent altercation the cutting was done.

AFTER ISHPERING'S SCALP.

Hancock High School Football Team Will Be Strong This Year.

The Hancock High school will have a strong football team this season. The boys are after Ishpeming's scalp. They are being coached by Patrick O'Connor, who is well up on the fine points of the game, and who believes he has the material for the development of a fast aggregation. The team practices daily on the Quiney sands and will soon be ready for the opening of the season. Hancock enthusiasts of the sport are awaiting the first clash between Ishpeming and Hancock with interest. They believe the copper country boys will give the blues one of the hardest contests of the year.

Several Other Good Teams.

Football prospects generally in copperdom are bright. The Portage Lake Y. M. C. A. team will be organized at a meeting soon to be called, and Company G, Houghton Light Infantry, will also put a team in the field. It is practically assured that Calumet will have a team. Lake Linden has not yet been heard from.

C. A. Wright, Jr., of Hancock will be the manager of the Y. M. C. A. team, which will be coached by P. O'Connor. Candidates for the positions have already started work on the Quiney sands, among them being Richards, Wagner, Belling, Nichols, Mebers, Hendrickson, O'Brien, Vogtlin, Hodge, White and McAniff. All are old players.

The proposed organization of the Houghton militia eleven was talked over at a meeting held last week. Some of the available players are Haas, Gibson, Murphy, Ames, Burkan, Conway and Curry. The team will probably be organized at the meeting of the company to be held next Monday evening.

Arthur Reddner, the famous half-back on the University of Michigan's football team last season, will enter the Michigan College of Mines this year, but it is doubtful whether he will consent to play football. A very old Michigan player, is a student of the college and he has repeatedly refused to play on account of his work. Both are two of the best football men Michigan ever had.

CLUE TO STOLEN MACHINERY.

Sheriff Wills, who has been investigating the robbery of the Bon Voyage wreck at the canal, states that he has located several persons who were implicated in the theft and has evidence against them. The wreckage taken may be settled for, but in the event that it is not warrants will be sworn out this week. The sheriff says that suspicion did lie on the crew of the barge Fern, which went down in Lake Superior last year with all on board, but there are others in the deal who are more to blame. An interesting point is likely to be raised by Captain Nicholson, who owns the wreckage of the Bon Voyage, as to whether the stolen machinery was in the boat when he paid the underwriters and whether his money should not be returned. It may be a difficult matter to prove just when the theft was committed.

A PARSON'S NOBLE ACT.

"I want all the world to know," writes Rev. C. J. Buddong of Ashaway, R. I., "what a thoroughly good and reliable medicine I found in Electric Bitters. They cured me of jaundice and liver troubles that had caused me great suffering for many years. For a genuine, all-around cure they excel anything I ever saw." Electric Bitters are the surprise of all for their wonderful work in Liver, Kidney and Stomach troubles. Don't fail to try them. Only 50 cents. Satisfaction is guaranteed by Stafford Drug Company.

TAMARACK GIVES RIGHT-OF-WAY.

Dispute With Copper Range Reported Settled at Boston.

Representatives of the Copper Range road, which has instituted condemnation proceedings against the Tamarack and Escanaba Mining companies for a right-of-way on the route of its extension to Lake Linden and Calumet, and representatives of the mining companies were present in the office of Judge of Probate Gray yesterday morning and filed their appearances. A decision in the case is yet to be rendered. The pending proceedings will not affect building operations on the new line to any extent. The Mining Journal was reliably informed yesterday that the Tamarack matter has been amicably adjusted by the officials of the mining and railroad companies and that the other difficulties soon will be.

Rails Will Soon Go Down.

Martinsen & Jackson, who have been working on a grading contract under C. J. Johnson on the extension of the Copper range road, will be through with their work the middle of this week. Their camp is located on the route between Calumet and Lake Linden. The contractors have had a force of forty men at work.

Carl Hall & Co., who have been grading about a mile and a half of the extension near the Centennial location for Mr. Johnson, will finish up the latter part of this week, and will remove their camp to a point between Hancock and Dollar Bay to start grading that portion of the road's extension from Houghton. Excellent progress is being made on the work as a whole and it will not be long before the work of laying the rails is commenced on the Calumet end.

CALUMET CAPITAL INTERESTED.

Copperdom Money Invested in New Industries at Corliss, Wis.

Considerable Calumet capital is invested in the little town of Corliss, Wis., not far from Milwaukee. Among the several ventures entered into a year or so ago by Calumet men bid well to make some of them rich before many years have passed. Calumet and Pittsburg capital is interested in the big plant of the Brown Corliss Engine Company at that place and also the Corliss Development Company. The engine works employ a large force of men and the population of Corliss is now over a thousand, while a little over twelve months ago it was nothing more than a little way station where milk cans were taken on and off the trains. The development company has done much to advertise the particular advantages of the place and is doing a good business, as is the engine company. The town is rapidly growing and it has the reputation of being one of the busiest places for its size in the Northwest. It is now proposed to build a large foundry at Corliss, the same people who are interested in the other companies being at the head of the plant. It is believed a foundry will prove a paying venture, as there is plenty of business in sight for it. Milwaukee and Chicago foundries, which get much of the copper country's orders, have been very slow in turning out the work and the need of additional foundries, where labor difficulties are at a minimum, is felt. Walter Whitson, former Superintendent of the Calumet & Hecla mine, has left Calumet for Corliss after having spent several days in copperdom's metropolis interesting Corliss investors in the foundry scheme.

TWO DEATHS AT HANCOCK.

Mrs. Ella Payne Carr, wife of Charles C. Carr of Hancock, died at the home of her father, Samuel Payne, in West Hancock, Sunday morning. She had been suffering from lung trouble for the past two months and that affliction was the cause of her demise. Mrs. Carr was twenty-two years of age. She was born and raised in Hancock and was married to Mr. Carr on Nov. 18, 1890. Besides her husband, she is survived by a three-months-old daughter. The funeral will be held this afternoon at 2 o'clock from the M. E. church. Mrs. Carr was an active member of the church and all its societies. She had been a member of the choir since childhood.

Andrew Halter, aged fifty-four years, an old resident of Hancock, died suddenly at 9:25 o'clock Sunday morning. The old gentleman had been a sufferer from lung trouble for years, but the immediate cause of death was heart failure. Mr. Halter was born in Germany. He came to this country at an early age and settled in copperdom twenty-five years ago. He located first at Copper Harbor, but later removed to Hancock. He is survived by his wife and five children. The funeral will be held at 2 o'clock this afternoon from the residence, at 725 Quiney street. Rev. Edwin More, of the Congregational church, will officiate.

\$100 REWARD, \$100.

The funeral of Walter Vial, the fourteen-year-old son of William Vial, of Franklin township, was held at 2 o'clock yesterday afternoon. Rev. James Parsons, of the Pentecost M. E. church, officiated. Interment took place in Forest Hill cemetery, Houghton.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure taken internally, acts directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address E. J. CHENEY & CO., Toledo, O. Sell by Druggists, 75c. Hall's Family Pills are the best.

BASEBALL CHAMPIONSHIP.

Rightful Possession of the Upper Peninsula Title Is Not Clear.

Although the Soo baseball team succeeded in winning the majority of the games in the recent series with Calumet, the two aggregations are well matched and, as far as the upper peninsula championship is concerned, it is not clear that either club can rightly lay claim to the title. If games won and lost only are considered, then if the championship lies between the two teams the Soos are in the lead. The Escanaba baseball team, however, would likely remonstrate against the question being decided just yet, and probably the Crystal Falls, the Newberry, Menominee and the soldiers' team at the Soo would as well. As far as Escanaba is concerned, it always did have an A1 baseball team, and judging from the line-up of this season's aggregation it has yet. The quality of ball played by Escanaba will soon be known, as the team is scheduled to play a series of games with Calumet this week.

Both the Calumet and the Soo teams have excellent records for the season. The games lost by Calumet have gone against it by narrow margins, this especially being the case in the recent series with the Soos. An unfortunate streak of luck seems to have been with the copper country team.

FOR BLIND MINERS' BENEFIT.

Game of Ball Soon Between Calumet and Another County Team.

The Calumet baseball team, the championship aggregation of ball tossers in copperdom this season, will play a game of ball with some other county team on Sept. 27 for the benefit of blind miners, formerly employes in the Calumet & Hecla mine. It is customary every year to arrange one or more ball games for the benefit of those who lost their sight by accidents while at work, and the rule will not be broken this year. It has not yet been decided just which team Calumet will meet. It will likely be Lake Linden or Dollar Bay, as their expenses will not be as high as those of outside teams. Calumet & Hecla miners will sell as many tickets as possible for the match in order to swell the fund. Calumet people will purchase them liberally and from present indications a large number of tickets will be disposed of.

SCOTT APPOINTED RECEIVER.

A number of the creditors of Powhattan, a Bolling, late proprietor of the Hotel Northwestern at Hancock, were present in the circuit court room yesterday afternoon at the hearing of the bankruptcy case conducted by B. O. Pearl of Marquette, referee in bankruptcy. A. J. Scott of Hancock, who has acted as temporary receiver, was appointed permanent receiver. No arrangements were made for reopening the hotel, and the hearing has been postponed for two weeks. At that time something definite in regard to the future course will likely be announced.

SCHOOL GYM OPENS NEXT MONTH.

The Houghton High school gymnasium will not open until next month. George Williams of Houghton, the athletic instructor, will again be at the head of the department, the school board having practically arranged for his services. Mr. Williams knows the business from A to Z and his thoroughness in the work has been well noted by the patrons of the school. Each pupil in the grades and high school will take some sort of exercise in the gymnasium and Mr. Williams will give much attention to the work. He is popular with the pupils.

PLEASANT TO THE TASTE.

One of the most important requirements in a medicine to be given to small children should be that it is pleasant to take. Bad tasting medicines disturb the stomach, destroy the appetite and it is extremely difficult to get children to take them. The pleasant flavor of Re-Go Tonic Laxative syrup, the certain cure for dyspepsia, constipation and biliousness, pleases the most sensitive persons and is the ideal laxative for young children. Sold by The People's Drug Store.

Asthma and Hay Fever Cured.

The truly marvelous cures of Asthma, which are being effected by Dr. Schiffmann's Asthma Cure certainly call for notice.

Rev. G. L. Taylor, of Washburn, Ill., says: "Some 7 years ago my wife used several packages of your Asthma Cure which resulted in a permanent cure." A Hay Fever sufferer writes: "I have been a sufferer from Hay Fever for over 20 years, and it seemed harder every year. One first night I used your Asthma Cure I was greatly relieved. It cured my cough after using a few times. I shall recommend it to all sufferers of Hay Fever." Mrs. Martha Simerson, Laingsburg, Mich. Sold by all druggists at 50c and \$1.00. Send 2c stamp to Dr. R. Schiffmann, Box 955, St. Paul, Minn., for a free trial package.

PAVING WORK HUSTLING NOW.

Good results are being secured by Foreman Baker, and the paving work on Quincy street, Hancock, is progressing very satisfactorily. The force was increased the last of the week and the concrete work will be half completed early this week. The pavement will be completed within three weeks. September 25 is the date that str. Baker has selected to begin to spread the asphalt on the surface. This means that the concrete work will proceed much faster than heretofore, which is easy to believe from the manner in which the work has been hastened lately with merely the addition of one crew. If the right kind of men can be procured, another table will be worked, increasing the number of tables on which the material is mixed to four.

The force of men putting down the concrete has completed its work on the north side of Quincy street as far east as Tezcuc street and is now busy on the south side of the street, working back west again. As soon as the cement is laid on those three blocks the work of putting down the asphalt will then be commenced. The laying of the cement on the balance of the street will then be started.

BEWARE OF THE KNIFE.

No profession has advanced more rapidly of late than surgery, but it should not be used except where absolutely necessary. In cases of piles for example, it is seldom needed. DeWitt's Witch Hazel Salve cures quickly and permanently. Unequalled for cuts, burns, bruises, wounds, skin diseases. Accept no counterfeits. "I was so troubled with bleeding piles that I lost much blood and strength," says J. C. Phillips, Paris, Ill. "DeWitt's Witch Hazel Salve cured me in a short time." Soothes and heals. H. Harwood, Ishpeming. Stafford Drug Co., Marquette.

A PERFECT MAN

has yet to be born; but immaculate linen goes a long way toward making perfection in one's apparel. No matter how fine your outer clothing, if your shirts and underwear are not well laundered you won't feel comfortable. We do that kind of work perfectly.

WANT HIGHER PAY

UNITED DEMAND LIKELY TO BE MADE BY RAILWAY MEN.

ALL WESTERN ROADS INVOLVED

TRAINMEN AND CONDUCTORS THE EMPLOYEES DISSATISFIED.

Vote on the Proposition of Asking a New Scale Is Being Taken by Lodges and Will Be Completed at Kansas City on Oct. 1.

Chicago, Sept. 15.—The lodges of the railroad trainmen and conductors west of a line drawn from Duluth to New Orleans are voting on a proposition to ask for additional compensation for services.

F. E. Clark, grand chief of the Order of Railway Conductors, and Patrick J. Merrissey, grand chief of the Brotherhood of Railroad Trainmen, stated today that owing to the vastly changed conditions, as compared with those in existence at the time the present wage scales were made, both conductors and trainmen believe they are entitled to an increase in wages.

The lodges are sending their returns to Kansas City, where joint committees will hold a meeting on Oct. 1. It should be a two-thirds vote in favor of demanding an increase in wages in any one or more railroad systems, or on railroads within the prescribed territory, the joint committees will prepare a uniform wage scale for all parallel lines, through lines, independent systems and the feeders of these.

"The talk of a widespread strike is unwarranted sensationalism," declared Grand Chief Clark, of the conductors. "No strike will occur, at least not until after all other means have been entirely exhausted, and then only upon a two-thirds vote of the members of the organizations involved."

Mr. Merrissey, for the trainmen, said: "If anything is done, it will be along orderly lines, in accordance with the long established policies of the bodies affected."

FAST TIME IN TURF EVENTS.

Empire City Trotting Races at New York Open With Good Sport.

New York, Sept. 15.—The inaugural meeting of the Empire City Trotting club began today at its fine track under favorably auspicious. The weather was perfect and the track fast.

The best feature of the day was the Bronx stake of \$5,000 for 2:00 pacers, for which Dan R was the choice in the pools at 100 to 30 for the field. Twinkle won the first heat, but Dan R won the next three and the race after an exciting contest. Best time, 2:05. "Princess Direct" was third.

For the 2:11 trot, the California mare Anzella, who has won all her races this season, was a hot choice at 50 to 1, and the talent had a heavy fall. The black mare Ozanam won the event after four heats. Anzella took second money and Hawthorne third. Best time, 2:09 1/4.

The Queter won the 2:24 trot. Hoover was second and Boreazella third. Best time, 2:18 1/4.

Wedgewood, driven by C. K. G. Billings, went a rapid mile to wagon against time, in 2:05 1/4.

In the 2:11 trotting class, to wagon, Alice Barnes won in straight heats, winning a silver cup. Best time, 2:11 1/4.

ODD FELLOWS PROSPEROUS. Have Surplus Revenue of Over Two Millions—Grand Lodge Convenes.

Des Moines, Ia., Sept. 15.—The seventy-eighth annual session of the sovereign grand lodge of the Odd Fellows opened today with over thirty thousand delegates from all parts of the country in attendance. The visitors were welcomed to the city by Governor Cummins and Mayor Brenton.

The reports of the various officers submitted today show the order in prosperous condition. The financial statement shows a surplus revenue of \$2,081,000.

KING TO VISIT AMERICA. Leopold's Tour of United States Is Fixed for Next Spring.

Brussels, Sept. 15.—King Leopold's American tour has been definitely fixed for February and March. He will visit the principal cities of the United States, including New York, Philadelphia, Baltimore, Chicago and San Francisco, returning via China and India.

MACEDONIA LEADER TAKEN. London, Tuesday, Sept. 16.—The Vienna correspondent of The Daily Chronicle says that a telegram has been received from Belgrade, Serbia, announcing the arrest of M. Saraffov, president of the revolutionary Macedonia committee, who has been in hiding for some time past.

DISASTER IN THE NORTH SEA. Calais, France, Sept. 15.—Nine vessels of the French cod fleet foundered in the North sea during the recent gales. Fifty fishermen were drowned.

ROOT BACK FROM EUROPE. New York, Sept. 15.—Secretary of War Root returned from Europe on the steamship Kronland today, and left immediately for Washington.

NO CHANGE IN STRIKE.

Nothing New Says Morgan After a Conference With Widener.

New York, Sept. 15.—P. A. B. Widener of Philadelphia was in conference this afternoon with J. P. Morgan. It is assumed the conference was in reference to the coal strike.

Mr. Morgan later was asked whether there was anything new in the strike situation.

"Nothing," he answered. "Does any significance attach to your conference with Mr. Widener?" "None, whatever."

Mr. Widener said: "There has been no conference on the strike situation today between Mr. Morgan and myself. I have no statement whatever to make."

Much Coal Coming from England. New York, Sept. 15.—Lawrence Hedger, general manager of the Newcastle-on-Tyne Colliery company, who arrived on the Philadelphia yesterday, stated today that he has come to secure orders for coal.

"Business in the coal line in England has not been as prosperous in years as it has been since the coal strike in this country," he said. "About 1,200,000 additional tons have been shipped to America since the strike and there is about as much more waiting on contracts."

Mr. Hedger said that coal is shipped from Newcastle to New York, freight included, at from 28 to 30 shillings a ton.

Urges Laws to Prevent Strikes. Milwaukee, Sept. 15.—The Wisconsin Methodist conference today formally took cognizance of the coal strike by passing resolutions to enact such laws as shall authorize the seizing of coal mines and railroads in order to prevent such strikes in the future.

Votes Aid to the Miners. Springfield, Ill., Sept. 15.—The annual convention of the Brotherhood of Coal Hoisting Engineers met here today. Resolutions were adopted providing for the levy of 1 cent on each capita, weekly, in aid of the striking anthracite miners.

BIG TIMBER INVESTMENT. Weyerhaeuser Co. Invests Another \$1,000,000 at Washington.

Hogium, Wash., Sept. 15.—The largest transaction ever recorded in Chelalis county has been filed with the county auditor. It involves an amount of over \$1,000,000. The deed was given by the Northern Pacific Railroad company to the Weyerhaeuser Timber company, and conveys to it 169,569.17 acres of timber land at \$16 per acre, the total amount being \$1,017,361.02.

The government land obtained by the railroad as aid in building the line to the coast and consisted of every odd section of land for a distance of forty miles on each side of the main line. The railroad still owns 13,113 acres of land in this county.

The total holdings of the Weyerhaeuser company in Chelalis county is 176,000 acres. If it continues to purchase in the future as it has in the past, the company will soon own as large a share of the timber land of Chelalis county as it does in Thurston county, where it is said to own three-fourths of the timber land.

BADGERS MAY GO WEST. Wisconsin Team Wanted for Football Games on the Coast.

Madison, Wis., Sept. 15.—If the consent of the board can be secured, the football team of the University of Wisconsin will meet the eleven of the University of California in San Francisco on Christmas, and that of Leland Stanford on New Year's day. Preliminary arrangements for these two games have already been made and the only thing necessary to their consummation is the approval of the faculty.

The Pacific coast people offer to pay all the expenses of the team and allow it a liberal percentage of the receipts. The management is desirous of having the eleven take the trip, as it would act as a strong incentive among the men trying for the team, and would spread Wisconsin's football fame. The faculty will probably act on the matter at an early meeting, after the opening of the institution Sept. 25.

FILIPINO BANDITS HARD PRESSED. Native Constabulary Has Killed Eighteen of Rios' Band.

Manila, Sept. 15.—The native constabulary, which has been in pursuit of the Rios band irreconcilable in Tayabas province, Luzon, has killed eighteen and captured twenty-five of the bandits. The constabulary encountered the band upon four different occasions during the chase, but suffered no losses whatever. Rios, the leader of the bandits, says he will never be captured alive.

BOILER EXPLOSION KILLS THREE. Maxwell, Ind., Sept. 15.—Two men were killed, one was probably fatally hurt and a dozen others were more or less seriously injured by the explosion of the boiler in the saw mill owned by Tremont Gant, today. The dead were: Thomas E. Sitten, engineer, and William Bailey, head Sawyer. The fatally injured is Tremont Gant.

BEVERIDGE OPENS CAMPAIGN. San Francisco, Sept. 15.—The Republican campaign in this city was opened tonight by a reception to George C. Pardee, nominee for governor, and Senator A. J. Beveridge of Indiana. Senator George C. Perkins introduced Senator Beveridge, who delivered an address of more than usual interest.

ARBITRATION AT THE HAGUE. The Hague, Sept. 15.—The hearing of the claim of the United States against Mexico growing out of the Pious fund of California was commenced here today before the international court of arbitration.

American Defeated at London. London, Sept. 15.—Eddie Connolly, the American, was defeated here tonight by Tom Woodley, English, after eleven rounds of hard fighting for a purse of \$2,000 and the 144-pound championship.

Chicago, Sept. 15.—Benny Yanger and "Young" Mowatt, the "fighting conductor," went six rounds to a draw here tonight. The fight was a rough affair from beginning to end, but neither man was damaged any great extent.

TOMMY RYAN WINS

VETERAN OF THE PRIZE RING GAINS NEW LAURELS.

DEFEATS STURDY "KID" CARTER

FIGHT, AT FORT ERIE, ONT., VIOLENT AND BRUISING.

Knockout in the Last Minute of the Sixth Round Is Clean and Decisive and a Victory for Science Over Strength.

Fort Erie, Ont., Sept. 15.—Tommy Ryan may be the veteran of the mid-1800s in the prize ring, but he is still far from being a back number. Tonight, in the arena of the Fort Erie club and in a vicious, bruising fight, he knocked out "Kid" Carter of Brooklyn in the last minute of the sixth round.

The knockout was clean and decisive and came chiefly as the result of the superior ring generalship of Ryan, which enabled him throughout to successfully evade or withstand the heavy onslaughts of his opponent.

Sturdy, and heavy hitting, proud of his endurance, full of energy, confidence and ambition, Carter was no mean opponent. In fact, he hustled Ryan throughout the fight, forcing him from corner to corner with wicked lunges which effectually destroyed any effort on Ryan's part to box prettily.

Forced to fight, Ryan finally went to the game as few can. He stung and jabbed Carter until he had him bleeding and bewildered; then several well-placed right straight jolts on the head, the husky young fellow, a bleeding mass of senseless humanity, to the ring.

Carter fought gamely and tried hard, but he suffered about all the visible punishment noted during the bout. George Siler was referee.

Technical Story of the Battle. Round 1. Carter swung left twice, and was blocked. Ryan swung a right hard on the ear and followed with a wicked left on the neck. Carter put a heavy right over Ryan's heart. Tommy swung both hands to the head. Carter put a heavy right on the body, but in the exchange Ryan got to the head heavily twice. Ryan jabbed a right to the face and put a right on the body.

Round 2. Carter, bleeding slightly at the mouth, went in with heavy swings for the head and body, and evidently hurt Ryan every time he landed. Ryan put a right on the ribs heavily. Carter seemed to be bewildered, but they clinched and fought away. Carter put a stinging left on the jaw, followed by a heavy left on the solar plexus. Ryan complained the blow was low. Carter put a heavy right to the body, Ryan swinging a heavy right on Carter's jaw, staggering the Kid. Ryan looked tired, and Carter was groggy.

Round 3. Ryan put a heavy right over the kidneys. Carter chopped Tommy on the jaw and forced Ryan, with a glancing blow to the head, nearly sent Carter down.

Round 4. Ryan began jabbing and playing for the body. Carter tore in with heavy swings. Repeatedly Ryan ducked inside blows that would have ended the fight. Tommy sent the Kid's head back with a left jab, and later slapped him twice smartly over the eye with his left. Ryan began fighting in the clinch and a right swing from Carter on the head staggered Tommy. A left to the jaw stopped Carter for a moment.

Round 5. Carter started aggressively, but in the opening scrimmage a left to the jaw staggered him. Ryan put a low left on Carter's body, but the claim of foul was not allowed. They were soon mixing hotly and Ryan's heavy smashes were blocked or ducked. Ryan opened up a cut over Carter's eye. Ryan stabbed his man fast in the face, but a heavy right to the body and a left to the head worried him considerably. Both saw heavy swings across. Carter acted tired.

Round 6. Ryan came up with a right to the stomach. Carter put a left to the face and a right and left to the head. Ryan put a heavy right over the kidneys. Carter tore in with heavy swings again. Carter was all at sea, and in the next clinch hung on till the referee separated them. Ryan put a right and a left to the head. Carter put a left to the head, but Ryan jabbed him repeatedly in the face and, catching him napping, floored him with a heavy right to the jaw. Carter got up dazed with the sound of nine. Ryan put another heavy right on his bleeding forehead and Carter fell heavily again. Once more he gamely struggled to his feet, but another heavy right to the jaw sent him flat on his back. Ryan and Siler assisted the knocked-out man to his feet and led him to his corner.

Ban on McGovern-Corbett Fight. Louisville, Ky., Sept. 15.—In his charge to the grand jury today, Judge Barker, of the circuit court, referred to the McGovern-Corbett contest scheduled to take place here on the 22nd. After quoting the Kentucky law in the case and defining a prize fight as any fight for a prize, whether a title, bet, wager or stake, he stated that the statute does not prohibit "sparring exhibitions" unless the winner takes something he would not have secured had he lost. Continuing, the judge declared that he had every confidence in the mayor and believed that he, having given his word, would see there would be no violation of the law.

Money Scare in New York. New York, Sept. 15.—Today's stock market showed itself very sensitive to the money situation and the price movements throughout were closely related to the developments in the money market.

The firm opening in the stock market was obviously due to hope that the measures of relief announced by the secretary of the treasury would result in forcing down the rate for call loans. The opening rate of 15 per cent counteracted this influence and induced a general "spilling over" of stocks all around the market.

Money lenders reported that funds were offered at 15 per cent, mostly for the account of out-of-town institutions. Several millions reported shipped from Chicago on Saturday were presumably included in these funds. In the meantime, the local banks were holding for a 20 per cent rate, which some of them got later in the day when the out-of-town supply had been absorbed.

When the demand for loans had been satisfied, some of these banks found themselves with funds still on hand, which they offered in the market and broke the rate to 6 per cent.

The maturity of the fifteen-million-dollar installment on the subscriptions to the Oregon Short Line bonds greatly aggravated the situation and necessitated considerable calling and shifting of loans. At the time the previous similar installment was paid, the funds were immediately reloaned at the stock exchange, and the presumption is thus warranted that the same thing was done today. This would account for the large supply of money which came into the market late in the day. The small requirements left unsatisfied at the time emphasized the weakness.

The sharp decline today in sterling exchange encouraged the hope that engagements of gold for import are near at hand, the rate for sterling at the close being within a small fraction of the point at which gold imports are reckoned as profitable. The low prices of the day in the stock market followed closely upon the 20 per cent rates for money and the late easing in the money rate resulted in a substantial rally which wiped out the earlier losses in a number of important stocks, but still left fractional net losses in the majority of cases.

The point is made that the recent depletion of the New York bank reserves is largely on account of the sub-treasury requirements, due to heavy customs payments, and not on account of an interior demand for money. It is pointed out, also, that the present stress for funds centres very largely about the stock exchange and is local to New York. The plan for relief devised by the treasury department will be widely scattered in respect to an increase of the government deposits. Previous experience has shown that offers to pay the government interest in advance are not largely availed of, even in periods of actual stringency. The general opinion this evening was that the best hope of relief for the money market lay in the prospects of gold imports.

The upward movement in Sugar was a slightly sustaining influence in today's weak market. The closing quotations were as follows, Paine, Webber & Co. reporting the quotations.

Wabash Pfd., 52 1/2; Mo Pacific, 39 1/2; N. Y. Central, 103 1/2; Manhattan, 134 1/2; Southern Ky., 39 1/2; C. & O., 52 1/2; St. Paul, 128 1/2; B. & O., 114 1/2; R. R. T., 98 1/2; P. G. W., 69 1/2; C. & F. I., 50 1/2; G. W., 33 1/2; Canadian Pac., 149 1/2; Pennsylvania, 107 1/2; O. W. S., 25 1/2; N. E., 33 1/2; Illinois Central, 109 1/2; Car Foundry, 34 1/2; Leather, 13 1/2; Republic Steel, 21 1/2; U. S. Steel, 40 1/2; Erie, 41 1/2; C. & N. W., 30 1/2; M. & T., 67 1/2; Peoples Gas, 103 1/2; Western Union, 94 1/2; Atchafalpa, 31 1/2; Smelter, 46 1/2; P. D., 103 1/2; Not on account of Northern Pac., 80 1/2; S. P., 114 1/2; U. P., 103 1/2; South Sh., 94 1/2; P. D., 109 1/2.

Range of Money Rates. Money on call, strong, at 5 1/2 to 20 per cent, closing offered at 6 per cent. Prime mercantile paper, 5 1/2 to 6 per cent. Exchange, weak, demand at 4.85 and sixty days at 4.82.50. Bar silver, 51 1/4.

ACTIVE DEMAND FOR WHEAT. Chicago Shorts Driven to Cover on Unusual Strength at Duluth. Chicago, Sept. 15.—In wheat today there was early strength, mainly due to the continued active cash demand at Duluth, which drove many local shorts under cover. The buying was particularly strong and the offerings were not liberal.

Two million Americans suffer the torturing pangs of dyspepsia. No need to Burdock Blood Bitters cures. At any drug store.

STARTLING RUMOR DENIED.

Malay Principality Not Occupied by British Troops, as Reported.

Saigon, French Cochinchina, Sept. 15.—Three hundred British troops have occupied the Malay principality of Kalatan at the request of its sultan. Kalatan pays tribute to Siam, so this is aggression. There is great excitement at Kalatan, for it is feared it means the extension of a British protectorate over the whole Malay peninsula.

London, Sept. 15.—The government officials here declare there is no truth in the dispatch from Saigon.

COUP BY CUBAN PRESIDENT. Havana, Cuba, Sept. 15.—The obstructive methods which, since the Cuban congress first was convened, have been resorted to by the Nationalists or military party in congress to block legislation and prevent the executive from bringing order out of the existing chaos may be said to have reached their climax when the president decided to appeal to the opposition for the support needed to put his pet administrative measures through the senate and house, and last week took prompt steps to form a strong fusionist party for government purposes from the several civic groups represented in both branches of the Cuban congress.

Prompted by H. S. Rubens, the former law partner of President Roosevelt's secretary of war, who was called to come here from the City of Mexico by Palma for consultation, the executive has succeeded, with the assistance of Mendez-Capote, in effecting a political combination whereby the civic element in both legislative chambers—Capote's own followers of the Republican right, members of the Democratic left and a few of the partisans of General Maso—has been brought to the support of the government, insuring prompt and effective factory action on all the more important measures, which the Nationalists had been holding up in the senate and house for six weeks or more. Mendez-Capote is a successful, energetic worker.

The arrival of Mr. Rubens was most timely. He was the counsel to the Cuban revolutionary junta in New York previous to the interference of the United States in Cuba's struggle for independence and was afterward retained by the war department to assist in preparing a code for Porto Rico and to aid General Brooke in organizing courts of justice in Cuba. Mr. Rubens, who enjoys the entire confidence of the Cuban executive, predicts the success of the latter's new policy, and expresses the opinion that, ere six months, Cuba will be well on the highway to prosperity.

Already the senate has confirmed the president's nomination of Don Rafael, marquis de Montoro, as Cuban envoy extraordinary and minister plenipotentiary to the court of St. James. Congress has passed the act for the encouragement of cattle-breeding in Cuba and the executive has been authorized formally by senate and house to contract the projected national loan of \$35,000,000 to encourage agricultural developments and pay or pension the veterans who fought under the flag of the Republic in the liberation of Cuba.

It is understood here that the Washington administration not only does not oppose, but on the contrary has, through Minister Squires, rather favored the loan, and President Palma believes that it can be easily placed in London and Paris, if not in New York. Indeed, the American Tobacco company, the Havemeyer sugar trust and an Anglo-American financial house represented by Michael J. Dady of Brooklyn, N. Y., as well as the North American Trust company, of which John G. Carlisle is the vice president and which maintains several branch banks in Cuba, are all anxious to secure a block of bonds, or to undertake the placing of the entire issue on commission. Mr. Rubens is reported to represent another syndicate, as yet unmentioned in connection with the projected loan, which would be glad to take the entire issue on favorable conditions.

The American whisky trust is understood to be in the field, anxious to acquire control of projected "internal revenues," which would mean the monopoly of Cuban aguardiente, or native rum, made from the sugar drippings of the great centrales. The Louisiana lottery people are also on the ground pushing their interests.

Money Scare in New York. Call Loan Rate Goes to 20, Yields to 6, and Influences Stocks.

New York, Sept. 15.—Today's stock market showed itself very sensitive to the money situation and the price movements throughout were closely related to the developments in the money market.

The firm opening in the stock market was obviously due to hope that the measures of relief announced by the secretary of the treasury would result in forcing down the rate for call loans. The opening rate of 15 per cent counteracted this influence and induced a general "spilling over" of stocks all around the market.

Money lenders reported that funds were offered at 15 per cent, mostly for the account of out-of-town institutions. Several millions reported shipped from Chicago on Saturday were presumably included in these funds. In the meantime, the local banks were holding for a 20 per cent rate, which some of them got later in the day when the out-of-town supply had been absorbed.

When the demand for loans had been satisfied, some of these banks found themselves with funds still on hand, which they offered in the market and broke the rate to 6 per cent.

The maturity of the fifteen-million-dollar installment on the subscriptions to the Oregon Short Line bonds greatly aggravated the situation and necessitated considerable calling and shifting of loans. At the time the previous similar installment was paid, the funds were immediately reloaned at the stock exchange, and the presumption is thus warranted that the same thing was done today. This would account for the large supply of money which came into the market late in the day. The small requirements left unsatisfied at the time emphasized the weakness.

The sharp decline today in sterling exchange encouraged the hope that engagements of gold for import are near at hand, the rate for sterling at the close being within a small fraction of the point at which gold imports are reckoned as profitable. The low prices of the day in the stock market followed closely upon the 20 per cent rates for money and the late easing in the money rate resulted in a substantial rally which wiped out the earlier losses in a number of important stocks, but still left fractional net losses in the majority of cases.

The point is made that the recent depletion of the New York bank reserves is largely on account of the sub-treasury requirements, due to heavy customs payments, and not on account of an interior demand for money. It is pointed out, also, that the present stress for funds centres very largely about the stock exchange and is local to New York. The plan for relief devised by the treasury department will be widely scattered in respect to an increase of the government deposits. Previous experience has shown that offers to pay the government interest in advance are not largely availed of, even in periods of actual stringency. The general opinion this evening was that the best hope of relief for the money market lay in the prospects of gold imports.

The upward movement in Sugar was a slightly sustaining influence in today's weak market. The closing quotations were as follows, Paine, Webber & Co. reporting the quotations.

Wabash Pfd., 52 1/2; Mo Pacific, 39 1/2; N. Y. Central, 103 1/2; Manhattan, 134 1/2; Southern Ky., 39 1/2; C. & O., 52 1/2; St. Paul, 128 1/2; B. & O., 114 1/2; R. R. T., 98 1/2; P. G. Range of Money Rates. Money on call, strong, at 5 1/2 to 20 per cent, closing offered at 6 per cent. Prime mercantile paper, 5 1/2 to 6 per cent. Exchange, weak, demand at 4.85 and sixty days at 4.82.50. Bar silver, 51 1/4.

ACTIVE DEMAND FOR WHEAT. Chicago Shorts Driven to Cover on Unusual Strength at Duluth. Chicago, Sept. 15.—In wheat today there was early strength, mainly due to the continued active cash demand at Duluth, which drove many local shorts under cover. The buying was particularly strong and the offerings were not liberal.

Two million Americans suffer the torturing pangs of dyspepsia. No need to Burdock Blood Bitters cures. At any drug store.

MONEY SCARE IN NEW YORK.

Call Loan Rate Goes to 20, Yields to 6, and Influences Stocks.

New York, Sept. 15.—Today's stock market showed itself very sensitive to the money situation and the price movements throughout were closely related to the developments in the money market.

The firm opening in the stock market was obviously due to hope that the measures of relief announced by the secretary of the treasury would result in forcing down the rate for call loans. The opening rate of 15 per cent counteracted this influence and induced a general "spilling over" of stocks all around the market.

Money lenders reported that funds were offered at 15 per cent, mostly for the account of out-of-town institutions. Several millions reported shipped from Chicago on Saturday were presumably included in these funds. In the meantime, the local banks were holding for a 20 per cent rate, which some of them got later in the day when the out-of-town supply had been absorbed.

When the demand for loans had been satisfied, some of these banks found themselves with funds still on hand, which they offered in the market and broke the rate to 6 per cent.

The maturity of the fifteen-million-dollar installment on the subscriptions to the Oregon Short Line bonds greatly aggravated the situation and necessitated considerable calling and shifting of loans. At the time the previous similar installment was paid, the funds were immediately reloaned at the stock exchange, and the presumption is thus warranted that the same thing was done today. This would account for the large supply of money which came into the market late in the day. The small requirements left unsatisfied at the time emphasized the weakness.

The sharp decline today in sterling exchange encouraged the hope that engagements of gold for import are near at hand, the rate for sterling at the close being within a small fraction of the point at which gold imports are reckoned as profitable. The low prices of the day in the stock market followed closely upon the 20 per cent rates for money and the late easing in the money rate resulted in a substantial rally which wiped out the earlier losses in a number of important stocks, but still left fractional net losses in the majority of cases.

The point is made that the recent depletion of the New York bank reserves is largely on account of the sub-treasury requirements, due to heavy customs payments, and not on account of an interior demand for money. It is pointed out, also, that the present stress for funds centres very largely about the stock exchange and is local to New York. The plan for relief devised by the treasury department will be widely scattered in respect to an increase of the government deposits. Previous experience has shown that offers to pay the government interest in advance are not largely availed of, even in periods of actual stringency. The general opinion this evening was that the best hope of relief for the money market lay in the prospects of gold imports.

The upward movement in Sugar was a slightly sustaining influence in today's weak market. The closing quotations were as follows, Paine, Webber & Co. reporting the quotations.

Wabash Pfd., 52 1/2; Mo Pacific, 39 1/2; N. Y. Central, 103 1/2; Manhattan, 134 1/2; Southern Ky., 39 1/2; C. & O., 52 1/2; St. Paul, 128 1/2; B. & O., 114 1/2; R. R. T., 98 1/2; P. G. W., 69 1/2; C. & F. I., 50 1/2; G. W., 33 1/2; Canadian Pac., 149 1/2; Pennsylvania, 107 1/2; O. W. S., 25 1/2; N. E., 33 1/2; Illinois Central, 109 1/2; Car Foundry, 34 1/2; Leather, 13 1/2; Republic Steel, 21 1/2; U. S. Steel, 40 1/2; Erie, 41 1/2; C. & N. USED HIS KNIFE.

Victor Kampela to Answer to Charge of Stabbing Oscar Johnson.

Victor Kampela and Oscar Johnson, who had been friends for some little time, had an altercation Sunday night about 10 o'clock. The row took place on First street. Kampela was armed with a knife and is said to have used it. At any rate, Johnson yesterday received his right arm in a sling and had his head bandaged.

The fracas in which the men participated was heard by Officers Collins and Tupon. The policemen took Kampela in charge and locked him up for the night. He was taken before Justice McIntyre yesterday morning when the time of his trial was set for the 28th. The stabbing affray created some little excitement and there was a large attendance of spectators present in the court room.

Kampela was yesterday endeavoring to settle the case out of court. It is expected that friends will come to his assistance and that the trial will be declared off. Johnson did not seem disposed to settle yesterday, but it was said that it would be a hard matter for anyone to swear positively that Kampela is the man who used the knife.

IN BED FOURTEEN YEARS.

Christ Clancey, an Old Resident of Ishpeming, Died Yesterday.

Christ Clancey, who had lived with his mother in this city for the past twenty-five years, died yesterday noon. He resided on West Barnum street.

The deceased became afflicted with a disease of the spine some fourteen years ago, and had been confined to his bed continually ever since. Despite his helpless condition, however, he managed to enjoy life as very few invalids do. He was very fond of company and good books. He spent most of the time reading, and he was exceptionally bright.

The death of Christ is a shock to his aged mother and sister, who were his constant attendants. His sister is Mrs. Ed Cronin, who resides in the house immediately in front of the one occupied by her mother.

Christ was taken with a bad spell Sunday night. A few hours later he rallied, and yesterday morning he felt as well as usual until 11 o'clock, when he was seized with a second attack and died an hour later. He was forty years of age.

The funeral will take place tomorrow morning at 9 o'clock from St. John's church.

WILL SAW HIS WOOD.

J. J. Leffer is installing a steam heating plant in his block, corner of West Division and Lake streets. Richard Barney, the plumber, is doing the work. On the vacant lot across the street Mr. Leffer will install a wood saw. The power to operate it will be furnished from the plant in his business block, the one boiler answering both purposes. The pipes leading from the building to the saw will be underground. Mr. Leffer deals considerably in wood and he finds that a sawing machine will soon pay for itself.

CHURCH FAIR.

Rev. Father Paulin, of St. Joseph's church, wishes to publicly acknowledge his appreciation of what the people of the city, particularly the business men, have already done for the fair to be given next month. The donations published in yesterday's issue as constituting the prizes in the twenty-five ticket drawing, do not cover the list. Several of the other business men have contributed liberally and their names, with the articles given, etc., will be announced in this department in due time.

BACHELORS, 9; BENEFACTORS, 7.

The ball game at Union Park Sunday was made interesting by the intense rivalry between the contesting teams. The Bachelors and Benefactors played for all there was in it, the former finally winning by the close score of 9 to 7. Olson and McCutcheon were the battery for the Benefactors; Tislov and Vivian for the Bachelors. During the game a pitched ball struck Jim Bryden in the face.

New line of handkerchiefs. All prices, including the very fine qualities. The Finnish Mercantile association.

Impossible to foresee an accident. Not impossible to be prepared for it. Dr. Thomas' Electric Oil. Menarch over pain.

SKOGLUND ENDORSED.

County Treasurer Will Have the Support of Ishpeming Scandinavians.

A mass meeting of Scandinavian voters of Ishpeming was held Sunday afternoon at the Swedish Home Hall. The attendance was large. Captain Frank Platto presided.

The unanimous sentiment was that the Scandinavian voters support Emanuel Skoglund for reelection to the county treasurership. All his countrymen are well satisfied with Mr. Skoglund's administration, and so far as can now be ascertained the Scandinavians of Ishpeming are united for him.

An executive committee was named, with Captain Platto as chairman. The other members of the committee are A. Lindberg, L. Hoyseth, A. A. Lind, F. Bayard and Charles Sundblad.

FORTUNE FAVORS A TEXAN.

"Having distressing pains in head, back and stomach, and being without appetite, I began to use Dr. King's New Life Pills," writes W. P. Whitehead, of Kennedale, Tex., "and soon felt like a new man." Infallible in stomach and liver troubles. Only 25c at Stafford's drug store.

ISHPEMING IN BRIEF.

Miss T. Lynch went to Escanaba yesterday.

George A. Newett was in Munising yesterday.

J. R. Green of Escanaba was here Sunday.

Dr. C. M. Leonard spent Sunday in Houghton.

Robert Sasse of Crystal Falls spent Sunday here.

August Lundahl arrived here from Chicago Sunday.

D. H. Ladd of Houghton was here Sunday and Monday.

Eldredge Anderson has gone to Albion to attend college.

Jim Blackney is working for the Lake Superior Heating company.

Patrick Whelan and D. J. White, of Republic were in the city Sunday.

A party of young people took supper at the golf club house Friday night.

Mrs. William Lucas of Hancock is here visiting her sister, Mrs. Otto Schadt.

T. H. Vandeventer, of Leesburg, Va., is visiting his son, Dr. V. H. Vandeventer.

Mrs. M. Goslin and daughter of Champion are the guests of Mrs. Charles Parent.

William Boaz, manager of the Carpenter Cook company, was in Marquette yesterday.

Stephen Hammel and Miss M. Pigeon, of the Deer Lake location, will be married here Monday.

W. J. Ryan of Hancock, who has been in the city for a few days, left yesterday for the copper country.

A new sewer pipe is being extended to the Jenks' block. The trouble caused by the old one has necessitated the change.

Mrs. D. D. Randall, and daughter, Florence, left for Ann Arbor yesterday. They will return the latter part of the week.

Miss Libbie Barry, who has been here visiting her father and sister for the past few weeks, left on her return to Chicago last night.

Work on the basement of the Lake Superior Iron company's office building was started yesterday. The brick are expected this week.

Douglas Anderson, who holds a position with the Nordberg Manufacturing company of Milwaukee, is here for a few days, visiting relatives.

Robert McCarthy, shipping clerk of the Cleveland-Cliffs Iron company, left on the Frontenac yesterday for a lake trip to Buffalo, to be gone ten days.

Nels Clifton left last evening for Milwaukee. He will spend a week or so there, selecting new samples before starting on another tour of his territory.

M. J. Griffin is home for a few days. He recently started ex-Marshall Farm in

the horse selling business in Wisconsin, and says that Mr. Farm is doing well.

Mrs. John Wahlstrom and daughter, Mrs. Charles Seraphine, with the latter's children, will spend the next two or three weeks in Detroit and Bay City visiting relatives.

The trowel with which the corner stone of the new M. E. church was laid, was presented to Dr. Felch. He graciously presented it to Rev. Polkinghorn, who values it very highly.

The sessions of the local lodge of Odd Fellows will be called to order at 7:30 o'clock, mining time, instead of a half hour later, commencing with the regular meeting next Friday evening.

F. Braastad and two of his employees, Victor Eman and Miss Minnie Dumpiere, left last evening for Milwaukee and Chicago, where they will spend the next few days purchasing new goods for the dry goods and furnishings departments.

Members of the golf club are not satisfied with the name they have given the organization. The name "Wawonwin," however romantic it may be, is too difficult to handle for this practical age. Neither will it do to call it the Ishpeming club, as there are a number of members from Negaunee.

"The Tale of Life," a stirring melodrama that comes well heralded, will hold the boards at the Ishpeming opera house tomorrow evening. Special scenery is carried by the company, which, judging from the many favorable press notices it has received, is above the average of those generally seen here. A feature of the play is specialties between acts.

At a meeting of the members of Camp Clark, held last week, it was decided to make some repairs on the camp, and to prepare it for the hunting season, which opens in a few weeks. A contract to raise the roof of the cook camp, and repair the sleeping camp and barn was given to a local contractor. The work will begin at once. It is expected that there will be accommodations for twenty persons at the camp this fall.

A. B. Holley, of the Lake Shore Engine works, has completed a drawing of the model of the new sand shaft device invented by Samuel Hoar. The drawing was sent to Washington Sunday, and it is expected that a patent will shortly be granted. Blue prints of the drawing will be on exhibition here this week. A well-known mining captain from the copper country was in the city Saturday, and examined the model. He said he would bet his house and lot that the invention would prove a winner.

OSTEOPATHY.

Hon. H. F. Pingree, ex-governor of Michigan, who signed the bill legalizing osteopathy in this state, said after a thorough and careful official investigation: "Osteopathy is a science entitled to the respect and confidence of all, as a distinct advance in medicine. I know that it is doing a vast amount of good in relieving suffering and deformity that is not amenable to benefit from drug medicine."

For free books explaining osteopathy, address Dr. J. L. Shorey, room 8, Harlow block, Marquette, Mich. At Ishpeming Tuesdays and Fridays, 212 W. Ridge street. (8-22-1f)

Our fall line of Dress Goods and Waist Cloths will be in stock this week. Finnish Mercantile association.

LINGERING SUMMER COLDS.

Don't let a cold run at this season. Summer colds are the hardest kind to cure and if neglected may linger along for months. A long siege like this will pull down the strongest constitution. One Minute Cough Cure will break up the attacks at once. Safe, sure, acts at once. Cures coughs, colds, croup, bronchitis, all throat and lung troubles. The children like it. H. Harwood, Ishpeming. Stafford Drug Co., Marquette.

Jackets—three-quarter lengths and Newmarkets. Large assortment at Finnish Mercantile association.

PROPOSALS FOR COAL.

Notice is hereby given that the Board of Trustees of School District No. One (1), of the city of Ishpeming will receive sealed proposals, up to and including the 22d day of September, 1902, for the purpose of supplying the schools of said district with anthracite and lump soft coal during the ensuing year. The successful bidder will be required to deliver such quantities as shall be needed from time to time, to the several school buildings of the district, on the order of the board. The right to reject any and all bids is expressly reserved. By order of the board.

Suffered for Over Ten Years. Cured by Dr. Iman's Ladies' Restorative

TALMADGE, MICH. THE IMAN MED. CO., Grand Rapids, Mich. Dear Doctor: I have been thinking for some time that I ought to write you a few words of praise for your wonderful LADIES' RESTORATIVE. It did me worlds of good. I suffered such untold agonies with my menses, and with female complaints, for over ten years, that death would have been a relief to me. I took doctors' medicine and several kinds of patent medicine, but they all availed me nothing. I am so thankful that I learned of DR. IMAN'S LADIES' RESTORATIVE to every lady that is suffering from those terrible complaints. Any one wishing to know more about it may address, MRS. L. MORSE, Talmadge, Mich.

A QUIET SUNDAY.

But the Candy Stores Were Open, and Street Cars Were Running as Usual.

The saloon keepers kept their promise Sunday. They visited one mine to see if any work was in progress, but it happened that the mine they visited was idle. The only persons noticed to buy were the pump and firemen. They noted, however, that the street cars were running, and that four or five candy stores were wide open all day. Yesterday a council was held behind closed doors. A well known Ishpeming attorney was present.

There was considerable activity among the saloon keepers, but it was decided to defer action until today, when, it is said, several warrants will be sworn out.

Police Men Temporarily Suspended.

Yesterday morning while Rev. Mr. Gilchrist and Fred Pearce were on their way to board the early train, the former for Saginaw and the latter for Marquette, they noticed that the saloon of Chris Johnson on Iron street was open. Entering the place to investigate, they were surprised to find Policemen Zimmerman and Rule in the bar room. No liquor was being served and there was no evidence, it is said, that the saloon was violating the law in that particular regard, but the fact that the two officers were found in the place was later in the day laid before the city authorities with the result that the policemen were temporarily suspended from duty pending an official investigation.

In defense of the officers, who are generally recognized as very capable men, it is stated that Zimmerman had entered the saloon to awaken Mr. Johnson, who sleeps in the place, and that Rule, passing the stand and noticing the door open, had followed to investigate. The next few minutes found Messrs. Gilchrist and Pearce on the scene. It is further stated that it has for many months been the practice of Mr. Johnson to have one of the officers call him, and that for that reason the presence of the policemen in the saloon at that hour was nothing out of the ordinary.

The suspension of the officers caused considerable of a flurry yesterday, and future developments will be awaited with much interest.

TROUBLE ON CHERRY STREET.

Over Laying of a Sidewalk on Property, Title of Which is in Dispute.

Street Commissioner Thomas, who has been laying the sidewalk on Cherry street for the past few weeks, ceased work last Thursday, at the corner of Brown avenue. The walk was to have been continued on Brown avenue and the men were ready to go on with the work, when they were informed by Charles Muck that they would have to pull out. Mr. Muck owns the lot in front of which the walk was to be laid, and he does not want to stand his share of the expense. The land is the corner of lot No. 1 belonging to Louis Corbett. He bought it from Mr. Muck ten years ago. The latter claims that when he sold the lot to Mr. Corbett, it was with the understanding that if Corbett ever disposed of it, he, Muck, was to have the option of buying it back again. But there does not appear to have been anything in the deed to that effect and Mr. Corbett says the transfer was made so long ago that he doesn't remember the circumstances.

The street commissioner consulted the mayor, and he in turn consulted the street and highway committee of the city council. They all finally decided to allow the city attorney to solve the dilemma.

NEW RESTAURANT.

Miss Viola Monroe, who came here from the copper country last week, will open a restaurant in the Williams building, Jackson street, about the 25th of the month. Miss Williams returned to the copper country Saturday. She will have her furniture shipped here at once.

\$1,000,000 FOR CHARITY.

A fortune of \$1,000,000 was recently left to a charitable institution in one of our eastern cities, and the sum can be accomplished by the careful expenditure of this sum of money, there is another agency which also deserves mention, because of the good it has done and the suffering it has relieved during the past fifty years, and that is Hostetter's Stomach Bitters. No other medicine can take its place as a cure for stomach, liver and kidney troubles, such as headache, belching, heartburn, indigestion, dyspepsia, constipation or biliousness. We would therefore urge you to give it a trial. The genuine must have our Private Stamp over the neck of the bottle. Do not accept a substitute.

THE MARQUETTE GOLD MINING & MILLING CO. IN GOOD ORE.

The following are the results of three samples taken out of the ore that is now being sorted ready for shipment from the Sussex shaft:

Sample No. 230 2.40 11 84.68 8.06 842.74
Sample No. 231 2.40 11 84.68 8.06 842.74
Sample No. 232 1.04 4.13 20.90 2.47 23.37

The above are not specimens, but are samples taken out of different parts of the ore. These samples were assayed by Mr. F. D. TOWER of Marquette.

TAKE CARE OF THE STOMACH.

The man or woman whose digestion is perfect and whose stomach performs its every function is never sick. Kodol cleanses, purifies and sweetens the stomach and cures positively and permanently all stomach troubles, indigestion and dyspepsia. It is the wonderful reconstructive tonic that is making so many sick people well and weak people strong by conveying to their bodies all of the nourishment in the food they eat. Rev. J. H. Holladay, of Holladay, Miss., writes: "Kodol has cured me. I consider it the best remedy I ever used for dyspepsia and stomach troubles. I was given up by physicians. Kodol saved my life." Take it after meals. H. Harwood, Ishpeming. Stafford Drug Co., Marquette.

LOCAL LAONICS.

Allen Tyrrell was up from Escanaba Sunday.

J. H. Winter returned yesterday from Chicago.

G. O. Clark of Palmer left for Detroit yesterday.

Louis Corbett returned from Milwaukee Saturday night.

Spurley's hardware store wants the services of a sixteen year old boy.

John Elliott and wife will go to Chicago September 20, for a week's visit.

Lawrence Arland left for Minneapolis Saturday after a week's visit with his relatives.

Florence Curran returned yesterday from New York, where he has been studying music.

Fred Bartle, who has been doing diamond drill work in Wisconsin, has returned to the city.

James Hoatson and wife came here Sunday from Calumet to attend the funeral of Mrs. Jacobson.

Captain William Piper and wife arrived home Saturday from Milwaukee, where they took in the state fair.

John Hudgins went to Detroit yesterday on the D. & C. excursion. Seven Negaunee people took the trip.

Miss Anna Raymond, who has been visiting her uncle, E. B. Raymond, and family, for the past three weeks, returned to her home in Iron Mountain Saturday night.

Joe Koester arrived home from Chicago, where he went to take a course in the cutting school, Saturday morning. He has resumed his work with H. J. Peterson, the tailor.

T. F. Cole and family, who were here attending the funeral of Mr. Cole's mother, the late Mrs. Jacobson, left Sunday night for Duluth. Will Cole and his family left for Ironwood yesterday.

Thomas Allen, who has been yard master at Palmer, has been stationed at Michiganame, where he will hold the same position in the Northwestern road. He begins his new duties today.

Ardell and Charles S. Mason were here Saturday from Hancock visiting their brother Clarence Mason. They were accompanied by Harry M. Chittenden. Charles Mason has left for Oregon, where he will locate.

L. E. Chaussee was here Sunday visiting his family. He expects to finish the tie and shingle mill at Munising this week, and will then go to Marquette, where he is building ten houses for the Pioneer Iron company.

The Negaunee schools are not yet experiencing any inconvenience on account of the lack of coal. They are using soft wood, at \$2.90 a cord, at present. Coal is never burned in the schools until winter weather sets in.

J. E. Cannon returned Saturday from a visit with relatives in Toledo and Montpelier, Ohio. He also stopped off at Ann Arbor.

Mrs. M. E. Townsend and daughter, Dorothy, are visiting the family.

The school authorities are careful about having cases of contagious diseases among the scholars reported. While there are always some cases, it is said that 75 per cent of their number are merely rash, or some other slight ailment.

George Haupt, Will Maas, Chris Hanson, Eddie Brandt and about twenty others went to Crystal Falls Saturday, with the ball team to take in the Negaunee-Crystal Falls game Sunday. Negaunee was defeated in one of the best games of the season, the score being 4 to 2.

Mrs. Wertner, whose husband, the late Henry W. Wertner, was killed at the Negaunee mine recently, has received \$1,000 insurance from the Maccapees.

Mr. Wertner was a member of the Valpas (Finnish) tent having joined the lodge only about two months previous to his death.

E. C. Anthony has shipped two Galloy bull calves, born this year, weighing 1,000 pounds each. One goes to Escanaba and the other to Sands. Mr. Anthony has one hundred head of cattle and eighty sheep on his farm. He will winter them there. He did not exhibit at the fair this year.

A BOYS WILD RIDE FOR LIFE.

With family around expecting him to die, and a son riding for life, 18 miles, to get Dr. King's New Discovery for Consumption, Coughs and Colds, W. H. Brown of Leesville, Ind., endured deathly agonies from asthma, but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of Consumption, Pneumonia, Bronchitis, Coughs, Colds and Grip prove its matchless merit for all Throat and Lung troubles. Guaranteed bottles 50c and \$1. Trial bottles free at Stafford's drug store.

A SAD DISAPPOINTMENT.

Ineffective liver medicine is a disappointment, but you don't want to purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and putrid matter and do it so gently that one enjoys the pleasant effects. They are a tonic to the liver. Cure biliousness, torpid liver and prevent fever. H. Harwood, Ishpeming. Stafford Drug Co., Marquette.

FEET SWOLLEN TO IMMENSE SIZE.

One size smaller after using Allen's Foot-Ease, a powder to be shaken into the shoes. It makes tight or new shoes feel easy; gives instant relief to corns and bunions. FINANCES OF FAIR

EXHIBITION FOR 1902 FELL SHORT OF PAYING FOR ITSELF.

COUNTY MONEY WILL SQUARE THINGS

IF WEATHER HAD BEEN FAVORABLE IT WOULD HAVE WON.

The Expenses Ran Between \$2,200 and \$2,300—Discussion Concerning the Proposed Upper Peninsula Exhibition.

With the money received from the county, the Marquette County Agricultural association will do a little better than break even on the 1902 fair. Owing to the association's characteristic lack in running into a streak of bad weather, the fair was not self-supporting by several hundred dollars. Its expenses, according to the best figures that Treasurer Wright has at hand at this date, were between \$2,200 and \$2,300, while the total receipts, gate, grandstand and concession, will only run between \$1,600 and \$1,700.

The association will have forthcoming from the county in March in the neighborhood of \$1,200, which will serve to put its balance on the right side of the ledger. The business of the 1902 fair is now being closed up on borrowed money, it being necessary to make a loan running until the county money is due.

Ordinarily the \$1,200 received last March would be available at this time to apply on the 1902 fair account, but it was all spent before the opening of last week's exhibition. It was used in squaring the accounts of the 1901 fair, and in making improvements in preparation for the last exhibition. Considerable work was done at the grounds during the past year. Fences were given attention, the grandstand enlarged, a judge's and band stand, with dressing rooms beneath, erected and minor repairs made wherever needed. The judge's and band stand was destroyed by fire during the last fair, its loss causing the association an additional expense.

The grounds, buildings, and fair plant in general are now in pretty good condition, and there is no pressing need for further improvements, although, of course, much could be done, if the necessary funds were only available, to put the grounds in better trim for fair purposes.

Will Be a Money Maker.

The annual county fair will yet prove a good money maker, and when it does the annual exhibitions will be made more and more attractive, as it is the directors' aim to give the public the

best show within their power. All that is needed to put the association on a firm and self-supporting financial basis is good weather. This year, for instance, good weather on two or three of the fair dates would have made a difference of at least \$1,500 in the total receipts. This difference would have permitted the association to pay all its bills and have \$600 or \$700 over, which, with the money coming in from the county, would embolden its officers to arrange a fair for the following year that would outshine all past efforts. When the weather hoodoo gives the association half a chance it will soon be in an enviable condition of prosperity.

There is some talk of an August fair next year. It is argued that the last week of August would be an ideal time for the exhibition, because the association would be almost certain to have at least two or three days of favorable weather. September is an unsettled and unsatisfactory month. All last week and all the week before were unpleasant and unsuited for fair purposes, and some members of the society believe there would be wisdom in a change. The only real objection to the last week in August is that it might be a little early to permit of the most satisfactory exhibits. Fruit, vegetables and grains might not be far enough advanced. However, the question is understood to be open.

That U. P. Fair.

There has been some attention paid by members and officers of the association to the revival of the project for an upper peninsula fair consequent on The Mining Journal's presentation of the Hon. Peter White's views several days ago. In the interval, the project has been treated, in the news columns and editorially, by nearly every paper on the upper peninsula, and the lower peninsula press has given it considerable space.

It possesses peculiar interest for the members of the Marquette county association because, if the proposed Upper Peninsula fair was held in Marquette, it would follow naturally that it would absorb the annual Marquette county fair.

It is said that, while they have been too busy with their own fair to give the matter much thought, the officers would be willing to co-operate for the establishment and maintenance of the proposed Upper Peninsula society. They, in fact, consider the suggestion a good one, and hope to see something come of it.

The project has been well received. It is apparent from the favorable comment it has evoked that the people of this section would accord the proposed fair hearty support. And an upper peninsula fair is coming. The present discussion may die out without result, but the fair is a logical necessity and it is only a question of time when it will be successfully organized and financed and made a Northern Michigan institution, of incalculable importance to the development of agriculture in this section.

There's no beauty in all the land, That can with her face compare, Her lips are red, her eyes are bright, She takes Rocky Mountain Tea at night. —Stafford Drug Co.

STREET RAILWAY IN HARD LUCK.

Another Generator Burns Out at the Power House.

The street railway company is in more hard luck. Last week, during the county fair rush, one of the generators at the power plant was burned out. It was replaced with a duplicate generator kept on hand for emergency, and now the other old one has given out. This leaves but one generator in service, when two are needed, and will have result today and for some time to come in the operation of two cars instead of four. However, they will so be run that a half-hour service to Presque Isle and a fifteen-minute service around the loop will be given, practically the only change being the suspension of the quarter-of-an-hour schedule between the city and the island. Yesterday one of the damaged generators was shipped to Cleveland for repairs, and today the other will likely be forwarded to Chicago. It will take probably ten days before the generators can be put into commission at the power house, and in the meantime the lone generator now in service should come to grief, something, however, which is not deemed likely, an entire suspension of operations would be necessary.

MISS ELLSLER THIS EVENING.

"When Knighthood Was in Flower" Will Be Given Elaborate Production.

Miss Elle Ellsler, after a considerable interval, will again appear before a Marquette audience this evening, when she will present her interpretation of the charming character of Mary Tudor, as portrayed in Paul Kester's dramatization of Charles Major's popular novel "When Knighthood Was in Flower". Miss Ellsler's acting in this part has been commended by critics and the press everywhere, and has also received good words from prominent members of the dramatic profession. Miss Ellsler will bring the complete Julia Marlowe production to Marquette. The advance sale has been good and it is expected that she will be greeted by a large house.

CARD OF THANKS.

I desire to express my appreciation of the many kindnesses extended to myself and family by relatives, friends and neighbors during our recent bereavement in the loss of our little daughter. They will ever be held in grateful memory. Z. GAUTHIER.

WHY SHOULD YOU ALWAYS REMAIN POOR?

When a few dollars a month invested in a good gold mining company will bring you a comfortable income within a very short time? Our gold mines are located in the well known Gold Hill mining district, Boulder county, Colorado. We have ten very valuable claims, on which we are now sinking two shafts and one tunnel, and the ore in all of them is showing very good values, assaying from \$20.25 to \$172.25 per ton according to different reports that we have had made. If you intend to invest in a safe and profitable gold mining company then you cannot do better than to buy stock in this company. At any rate, write us for prospectus and information at once, as we intend to sell only a limited amount of stock to place the mines on dividend-paying basis. The Marquette Gold Mining and Milling company, Marquette, Mich. Office, Marquette National Bank building. (9-11-100)

A Positive Cure for Old Sores and Fever Sores

Why continue to suffer from that old and running sore, which irritates you, spoils your temper, and renders you a burden to your friends? You have tried so many alleged remedies that you are discouraged. Try

PECK'S KING OF OINTMENTS. It has effected many wonderful cures when all else had failed. It is put up by a house of unquestioned high standing. Be sure you get "Peck's" King of Ointments from your druggist. If he does not sell it send 25 cents to

PECK BROTHERS, GRAND RAPIDS, MICH. for a 2 oz. glass jar. Peck's Ointment is guaranteed or your money back.

LEFT FOR THE CONFERENCE.

Rev. and Mrs. C. M. Thompson Departed for Saginaw Yesterday.

Rev. C. M. Thompson, Methodist presiding elder, accompanied by Mrs. Thompson, left yesterday afternoon for Saginaw to attend the annual session of the Detroit conference, to be held there September 17 to 22, with Bishop Cyrus D. Foss, D.D., L. L. D., of Philadelphia, Pa., presiding.

Mr. Thompson reports a very prosperous year for the Lake Superior district, which embraces the entire upper peninsula. Six new churches have been dedicated. Others have undergone extensive repairs and improvements and four additional churches are now in course of erection, three of these being structures that will cost from sixteen to twenty thousand dollars each. Four new and comfortable parsonages have been completed for the families of ministers. The membership of the church has increased by about four hundred, and the offerings of the churches for benevolent purposes have increased by about one thousand dollars. There has also been a very substantial increase in the amount paid to pastors in salaries. During the two years Mr. Thompson has been presiding elder, the pastoral charges have increased from fifty to sixty and all of them have been provided with pastors. He is now preparing to place capable men on all the pastoral charges for the next year, with the sanction of the conference. The Sunday schools of the district are in an especially prosperous condition.

Recuperation—there is not so much in the ordinary vacation as there is in a single bottle of Hood's Sarsaparilla, which refreshes the tired blood, sharpens the dulled appetite, restores the lost courage. Take Hood's Sarsaparilla this summer.

How often, after exposure, we find ourselves in the throes of a severe cold, which may be followed by pneumonia. To cure the one and prevent the other take a dose of Hart's Honey and Horhound. Sold by The People's Drug store.

TWELVE THOUSAND DOLLARS' WORTH OF DRY GOODS, CLOAKS, SUITS, UNDERWEAR, HOSIERY, ETC., ETC., TO BE SOLD REGARDLESS OF COST.

We have purchased from Mr. E. C. Bracher his entire business, including all goods, fixtures, lease of store, book accounts, etc. We do not want the goods; neither do we want to mix them up with our own well selected stock. We have, therefore, decided to sell this stock regardless of cost, and will put it on sale in our Carpet Department at the lowest prices ever made on dry goods in this city.

Sale will begin Wednesday Morning, September 17th.

We want to sell the entire stock this week, and have employed a large force of salespeople. The greater part of this stock will be found in the Basement Salesroom, but we have arranged to show some lines in our MAIN FLOOR SALESROOMS in order to accommodate the vast number of buyers that will be here.

TERMS OF SALE WILL BE CASH, AND NO GOODS WILL BE TAKEN BACK OR EXCHANGED.

SALE WILL BEGIN AT 8 O'CLOCK AND WILL CLOSE AT 6 O'CLOCK DAILY.

A. T. VAN ALSTYIN DRY GOODS COMPANY.
