THE MORNING UNDERGROUND.

ANY CHANGE IN WAGES TO BE INTO EFFECT FROM TODAY.

Likely a Preliminary Report on the Principal Demands of the Men Will Be Made at an Early Date-

Union Scores a Victory.

Scranton, Pa., Oct. 31.—The anthracite vestigations deliberate; and that it died later, might be well, in order to relieve itself from pressure from any source which might cause undue haste, to inform th operators and miners that should the investigation warrant any change, such change should be from a certain date, thus enabling all parties to facilitate their calculations.

Diggers Are Seen at Work. The commissioners this morning visited the Manville colliery. The afternoon was spent in riding through the region. At the Manville they investigated the underground workings, and asked numerous questions of the men in he mine. At one place, General Wilson and Messrs, Clark and Parker crawled into a three-foot horizontal opening beween rock out of which coal was being taken. The commissioners presented a by the Moros. novel picture as they sat around with flaming lamps in their hands, listening

to a grimy digger giving his testimony.

At another place they found a miner vorking in an accumulation of water. One miner called attention to the loose rock overhead, which made a bad roofing, it often falling and compelling him to spend considerable time in improving the conditions about the breast. plying to a question as to how much got for removing the rock, he said: "We take it out for the good of our There were many similar inci-KING dents during the day,

CONCERNING COPPER RANGE.

In view of the activity and rising TAKE NO RISK ... a market price of \$18,097,500, at which the 285,000 shares are now selling, which spell binders who desire to impress their the \$1,500,000 5 per cent bonds out standing on the railroad. Assuming these bonds to have a market value of 90, the whole proposition is selling to day for \$19,447.500, or \$194.50 per share based on a capital of 100,000 shares. This narket value of \$19,447,500 is more than the present combined selling prices of Tamarack and Wolverine, which mines last year produced in all 37,900,-000 pounds of copper and paid \$30 per

share in dividends. It is doubtful if Baltie's four stamps dropping on 2,000 tons of rock per day and Champion's two stamps (the other two belonging in effect to the St. Mary's Mineral Land company) treating 1,000 suffering. It has been known to tons per day, can show a production of 25,000,000 pounds of ingot per annum, even allowing Baltic rock to average twenty-five pounds of copper per ton and Champion rock thirty pounds per ton. Copper Range enthusiasts believe that Baltic can mine, mill, smelt and sell

its copper at a cost of 7½ cents per pound, and that Champion, by reason of its richer rock, can do the same work for 61/2 cents per pound. We figured a few days ago from the annual reports of the Tamarack, Osceola, Quincy, Wolverine, Atlantic and Franklin mines for 1901 that their average cost per pound of refined copper for that year, including construction as an operating charge, was 12.8 cents per pound; excluding con struction the cost was 10.6 cents. Uness the cost of wages, supplies and materials show a very radical decline next rear from those now prevailing and there has not been a fractional decline n these costs since copper broke from 17 to 12 cents, it is difficult to see how Baltic and Champion over a series of years are to cut the average cost of these six old producers by over three cents per pound Of course the greater the percentage

of copper in a given quantity of rock. other things being equal, the less will be the cost to make a pound of copper It cost Calumet & Hecla, however, last 3 year 74 cents per pound to make its copper and it obtained from every ton of rock at least sixty pounds of ingot copper. "But," say the new copper men, "Calumet & Hecla is extravagant and spends money 'like a drunken sailor, process which unduly increases the ost of its product." The secret of it is, Calumet has no construction account has no stock to sell for betterments, and harges every expense in connection with its operation to the cost of making its copper, a policy which other mines are loth to emulate.

MINING GOSSIP.

Harvey Weed, of the United States Geological survey, has made a personal examination of the Greene Consolidated copper mine. He says that indications are that the district constitutes the largest contact deposit in the world.
With its large bodies of high grade ore, the Greene Consolidated should be able to produce copper at a lower cost than most of the large copper mines. General Manager Dodd, of the United Iron

GABLE & NORTON.

s Working to Have Duluth and Ishpem ing Play Here.

F. M. Sackrider returned to Houghton om Ishpeming Thursday evening. He says that Hematite City people favor lancock in preference to Ironwood as a eutral place at which to pull off another game between the Ishpeming and High school football teams. While at Ishpeming Mr. Sackrider called n the management of the high school leven and was informed that steps would be taken at once to get the Duluth team to assent to another game on neutral grounds, with officials from some other state other than Minnesota or Michigam. Conciliatory methods will be used with Duluth. Mr. Sackrider's freshmen are bigger and stronger fellows The Copper Range road is going after than has been characteristic of the first proposition is certainly a good one and he sees no reason why Duluth should as its extension from Houghton to Lake proportion of the boys hail from other not accept it, as well as Ishpeming. Impartial treatment can be guaranteed both teams, each of which would have plenty of supporters should the game be pulled off at Hancock. Although Ishpeming has Duluth's word that a re turn game would be played at Ishpem ing on Nov. 15, the Hematite players, Mr. Sackrider says, are perfectly willing o have the match pulled off at Han-The last report is that Duluth has decided not to meet Ishpeming again this season, but it is hoped here that the head of the lake team will not show the The Lake Linden terminus of the street railway extension from Calumet white feather so easily and that the is located a considerable distance from game will be arranged. CIFIC CABLE IS LAID.

LINE FOUND TO WORK WELL

FIRST MESSAGE TRANSMITTED IS SENT TO KING EDWARD.

New Submarine Telegraph Runs from Vancouver to Brisbane and Puts Canada in Five Minutes Communication With Australia.

Vancouver, B. C., Oct. 31.-The comwas a reality

world, has already undergone a series of structive investment." tests and proved entirely equal to exsuccess of the cable was over this enor-

minute with a Deerlove transmitter. The actual time of the transmission of a message from this city to Sydney, Australia, will be less than five minntes in case of a short commercial message, and this time will be, of course, mainly occupied in the repetition of the at Bamfield Creek, Fanning island, Norfolk island and Brisbane.

The completion of the cable was celebrated here tonight. Messages of congratulation were sent to King Edward and the government officials of the British empire in the Far East.

PLAN RAILROADS' DEFENSE. Chicago, Oct. 21 .- The executive officials of western railroads today met for the purpose of determining upon a defense against the charge of discrimination in cattle rates. It was decided to take the stand that the reduced rates on packing house products was forced Mr. Wndham said, was "frontier poliupon them by the Great Western, which placed them in a position where compet-itive traffic must be taken at a certain figure or let alone. It will also be contended that the rates on cattle, 231/2 cents for a haul of over 500 miles, are low enough. If the commission does not see the matter in this light, an appeal will be made to the courts against the commission's ruling.

HONORS FOR BRITISH OFFICERS. London, Oct. 31 .- A long list of honors and promotions in connection with the South African service was gazetted today. Lord Methuen is made a knight of the Grand Cross of the Bath, Major General Kitchener gets the order of Companion of the Bath, Major General French and Ian Hamilton are raised to the rank of lieutenant general, Colonels Kekewich and Plumer are promoted to major generals, Brigadier General Braban is appointed honorary major general, and Lieutenant Colonel Fiset and Captain McMillan, of the Canadian corps receive the decoration of Companion of the Distinguished Service Order,

ISTHMIAN EMBARGO LIFTED.

Colon, Oct. 31 .- It is understood that Admiral Casey now authorizes the transportation on the railroad across the isthmus of Colombian troops and ammunition, Last Wednesday a serious fracas all but occurred at the railroad station in Panama between the American marines on guard there and government officials and troops. The Colombians vey Hostetteler, wife of the pastor of tried to remove from the station six the Second Presbyterian church of this wagonloads of ammunition which had city, dropped dead on the streets here come in from Colon, but the marines pre- tonight while enroute to an entertain vented them from doing so. The am- ment. Mr. Hostetteler was formerly munition was subsequently delivered to moderator of the Iowa synod and later the government.

THE ILL WIND RYAN OUTPOINTS KID BROAD.

Chicago, Oct. 31.—"Buddy" Ryan of Chicago won the decision over "Kid" Broad of Cleveland in a six-round contest here tonight. Ryan won on points alone.

THE ILL WIND that blows nobody good is bent on errands of mischief in the fall and winter. It produces that most dangerous of common complaints, a bad cold. Your cold will not become bronchitis, nor consumption if you make timely use of Allen's Lung Balsam. Take it frequently until the cough and the stopped-up feeling in the chest are gone. Contains no oplum and will not disturb dispersion.

THE ILL WIND on moderately large transactions, made a maximum decline of over two points, but more than recovered this loss, making a net gain of 1%. Manhattan was the feature of the day, both in respect of activity and strength, a net gain of 2% points being registered.

The final hour developed no new feature of the day activity and strength, a net gain of 2% points being registered.

Solve 35? You look at least 60. Restore color to your gray hair. Why not? Lowell, Mass

TRADE STILL BOOMS.

Confidence in the Outlook for Next Year Is a Notable Feature.

New York, Oct. 31,-Bradstreet's will tomorrow say of the trade situation: tistics show that the edge is off of our invasion of the foreign markets. Our totals are still colossal, but the rate of increase has been checked and decreases the trade situation. The volume of or Alton. 36% Southern Pac. 71% Alton. 36% Southern ders booked for next spring's delivery is He cited the fact that while the bank large for this season of the year and is deposits in four years have increased explained partly by the exceptionally over four billion dollars, there has been good business done on fall and winter

NO LIQUOR BY EXPRESS.

Iowa Supreme Court Decides Companies Violate the Mulct Law.

Des Moines, Ia., Oct. 31.-The Iowa sureme court has struck a hard blow at he liquor traffic through express agents y reversing two cases, one from Washngton county against the United States Express company and the other from Tama county against the American. In both cases the express companies had liquors in their possession, which they district court, which decided that such a proceeding was no violation of the mulct law. The supreme court reversed both these decisions and holds that such goods are contraband and liable to seizure if found in the possession of the ompany.

RUSSIA AIMS TO SUPPLY MEAT.

Takes Advantage of High American Prices to Ship to London.

Washington, Oct. 31.-United States Consul Halstead at Birmingham, England, reports to the state department that Russia is making an effort to take 914 advantage of the high price of American neat to supply London with Russian neat. He says:

"In a recent review of British trade, the London Daily Mail states that the Russian agricultural department is reported to be making arrangements to olay an important part in supplying the London market: with beef, in opposition to the American meat exporters. It

says special steamers have been built with freezing chambers, the Russian tween a Russian port, via the Kiel canal, and London with huge cargoes of fresh meat. Libau is considered a suitable port, as from there the beef can reach London in three days or less after slaughtering."

POWER SPOKE HERE.

le Arraigned the Republican Party for Its Attitude on the Trust Question.

John Power of Escanaba, Democratic andidate for congress in the Twelfth ongressional district, addressed an udience of three hundred people in the pera house Thursday night, on the is-nes of the campaign. William Anrews presided at the meeting, and in-roduced C. F. Sundstrom of Michiamme, candidate for county treasurer, day. is the first speaker. Mr. Sundstrom reated a sensation by attacking the resent county officials, who he declared and been holding office until they have grown grey. The only way he could ee to get rid of them was to elect the emocratic ticket.

Mr. Power spoke for about two hours nd a half, the greater portion of his atention being devoted to the trust quesion and the tariff. He said the Demo ratic party had been teaching the docrine of tariff reform for the past fifty ears, and that now the Republicans hemselves were beginning to advocate same principles. The Iowa platorm of the Republican party favored a revision of the tariff wherever it favored trusts, thus upholding the truth of the Democratic teaching. In Massahusetts and Pennsylvania, Republican ongressmen have recently been nominated on platforms demanding a revision o

mpetition for trusts and combinations y keeping out foreign made goods Goods made in this country were sold cheaper abroad than here for the reason that there they were obliged to meet the competition of foreign manufacturers If the tariff were removed the domestic trust made goods would have to be sold ere as cheap as they are sold abroad.

Mr. Power said there was absolutely o truth in the contention made by the Republicans that the tariff protects Wages of labor is a commodity and is sold in the market, like goods, to the highest bidder. It is determined by the law of supply and demand. If the abor market is crowded, wages will be low; if laborers are few, wages will be The manufacturers are not in fluenced by philanthropic motives in fixing the wages of labor. That labor is not protected here is proven by the fact that 200,000 emigrants entered Castle Garden from the country of Italy alone last year. There can be no protection to labor in this country so long as the working people are obliged to compete with foreigners coming here in such numbers. Mr. Powers would not restrict immigration, but would deny absolutely the claim of the protectionists er, K. G. Dahlstrom, left for Chicago that labor could be protected by a tariff last night to take in the Michigan-Wisin view of such competition from the consin football game.

foreign laborers. The speaker referred to the recent coal strike, and gave President Roosevelt credit for the part he took in settling it. He paid a splendid tribut to John Mitchell, and declared that his-& tory recorded but few instances where man possessed with his power and authority had acquitted himself so creditably as Mitchell in the recent strike. The speaker said the coal P. Lyons, Lars Hoyseth and John Lindamine might have been averted had it berg went to Marquette yesterday to not been for the duty of 67 cents a attend a meeting of the board of suton on hard coal. He quoted from the Congressional Record, showing that the duty was placed there by the Republicans to protect the coal industries or Pennsylvania. Yet these same protected coal barons who own all the coal and in the anthracite coal regions had the nerve to ask the president for military protection for their mines, he statement that the wages of labor in young people present. the anthracite coal region, was \$30 a

The speaker referred to the Philippine uestion, which he regarded as the most mportant issue in the campaign. The ections of this government in forcing our ule on a foreign people is contrary to he spirit and purpose of a free govern-The final verdict of the Amerian people will be against the acquisttion of foreign territory, where the people are admittedly capable of govern-

TONIGHT--Ishpeming Opera House

SHAKESPEARE'S GREATEST TRAGEDY,

SWELL COSTUMES AND SCENERY.

Girls who work are particularly susceptible to female ills, especially when obliged to stand on their

Day in and day out, month in and month out, the year through, the working girl toils; she is often the bread winner of the family, and must work that others may live; whether she is sick or well, whether it rains or shines, whether it is warm or cold she must get to her place of employment and perform the

Among this class the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach; in consequence of frequent wetting of the feet monthly periods become painful and irregular, and frequently faint and dizzy spells, with loss of appetite, until life is a burden and it is hard work to drag about. All these symptoms point to a derangement of the female organism, and if taken in time can be easily and permanently cured.

A Cordial Invitation to Every Sick and Ailing Working Girl.

It is to these girls that Mrs. Pinkham holds out a helping hand, and extends a cordial invitation to correspond with her. Her unrivalled record of success in treating woman's ills makes her letters of advice of untold value to every ailing working girl, and from her wide experience and skill she quickly points the way to health. Her advice is free, and all letters are held by her in the strictest confidence. Address, Mrs. Pinkham, Lynn, Mass. Don't put off writing her until your health is wrecked.

Grateful Words from Working Girls Who Have Been Helped.

"Dear Mrs. Pinkham: — I want to thank you for what you have done for me. I was dreadfully tired, I stand over my work all day, and no one who hasn't tried it knows how it makes your back and sides I couldn't sleep, and had no appetite, but thanks to Lydia E. Pinkham's Vegetable Compound, I feel entirely different now; it is a wonderful medicine. I do not feel that my work is hard now, and I recommend your medicine to other girls who are always tired." - Miss Isabel Surgin, 293 Willis Ave., New York City.

"DEAR MRS. PINKHAM: - Lydia E. Pinkham's Vegetable Compound has done so much good for me that I wish to recommend it to all girls whose work keeps them standing on their feet all day in a hot store. The doctor said I could not live and I must give up work, and stay out of doors; he did not seem to realize that a girl cannot afford to stop working. My back ached, my appetite was poor and I could not sleep; menstruation was scanty and very painful. One day when suffering I commenced to take Lydia E. Pinkham's Vegetable Compound and it helped me, I soon found that my menstrual periods were free from pain and natural; now my health is fine, and every one is surprised at the schange in me, and I cannot be too grateful for what you have done for me."—Miss Janet Paine, 530 West 125th Street, New York City.—\$5000.00 forfeit if originals of above letters proving genuineness cannot be produced.

HOLMES HERE TONIGHT. era House.

The literary and cultured people of Marquette are delighted at the opportunity of hearing E. Burton Holmes, who will be at the opera house this evening to deliver his famous lecture on "Peking, the 'Forbidden City' of China." The sale of seats has been satisfactory and it is believed that Mr. Holmes will be greeted by a large house.

This distinguished traveler was born Thursday evening, Nov. 6th, by initiat- in Chicago, Jan. 10, 1867, inheriting a love of travel. At the age of twelve, members, with the assistance of District he had formed his life's plan, deciding to cured fifty candidates and all are hus- eler and lecturer, John L. Stoddard. As his parents were wealthy, he was thoroughly educated for the work. In 1882 when only fifteen years old, he made his Visitors from Negaunee and Ishpeming first tour of Europe and since that time has traveled incessantly for twenty years, covering over 250,000 miles and

f the earth In preparation for his travels Mr. Holmes read and consulted more than 5,000 volumes on the history, literature, art, architecture, manners, dress and cus-A Large and Appreciative Audience En- bership of the A. O. U. W. is now 445, toms of all people in all parts of the habitable globe, so that when he came to visit them later he would be familiar with just what he wished to see and know. Mr. Holmes is always accompan ied by an expert photographer, who has secured 4.000 photographs illustrating the descriptions of the most sublime scenery, historic ruins, temples, shrines, great engineering feats and peculiar people in all lands.

"Marquette, Mich., Oct. 27, 1902. This is an opportunity which none of us can afford to miss, and I am sure Mr. Holmes will be thoroughly appreciated "Copper Range was again the only by the people of this city."-D. B. Waldo. "Marquette, Oct. 27, 1902.
