**ADDICKS TO STICK**

**DELAWARE CANDIDATE DECLARES HE WILL NOT WITHDRAW.**

**MEANS RENEWAL OF DEADLOCK**

**LITTLE CHANCE SENATORIAL VACANCIES WILL BE FILLED.**

Republicans Have a Majority of One in the Legislature, but Seven of Them Strongly Oppose the Election of the Gas Magnate.

Wilmington, Del., Nov. 6.—Complete returns from Sussex county show the election of Thomas W. Jefferson, Democrat, as state senator from the Fifth district, by a plurality of seven votes over George E. Magee, an Addicks Republican, whom the earlier reports declared elected.

There are fifty-two members of the legislature. The vote on joint ballot will be twenty-seven Republicans to twenty-four Democrats. The Republicans will have a majority of one, but as seven are "regular Republicans" and opposed to Addicks, his chances of election to the United States senate are still further reduced by Jefferson's election and it is assumed there will be another deadlock without a choice to either vacancy in the United States senate.

**ADDICKS ISSUES A STATEMENT.**

Mr. Addicks, who has so long been fighting for the senatorial top in Delaware, has issued the following letter:

"Large numbers of the holding Republicans voted the straight Democratic ticket in close districts. In strong Republican districts the Democrats withdrew their candidates for the legislature and placed upon the ticket the holding Republican candidates with the intention of electing a Democratic legislature, which, it was agreed, should elect to the United States senate the immaculate Willard Saulsbury, a Democrat of the worst type, and General James H. Wilson, a laughably impotent Republican born in Illinois.

"This policy has resulted in the loss to the Republican party of enough close districts to prevent the Republicans from having a two-thirds vote in the legislature. It is practically a certainty that at least twenty-seven Republicans, being a majority of the legislature, could go into caucus and elect two Republicans to the United States senate. Humanly speaking there is no power which can induce me to withdraw as a candidate while the two vacancies are unfilled. In passing, we have taken away the temptation of federal patronage by existing from the situation Congressman Ball, who betrayed our confidence."

**CONTEST SURE IN COLORADO.**

Election of Democratic Legislature Alleged to Be Due to Frauds.

Denver, Nov. 6.—From the best reports obtainable, the legislature seems to stand on joint ballot: Democrats, 53; Republicans, 47. Of the Democratic representatives fourteen are from this (Arapahoe) county, and their seats will be contested by the Republicans on the ground of frauds in registration and at the election. The Republican leaders declare that the whole number will be unseated, thus making the legislature heavily Republican on joint ballot. It is declared by the Democrats that if this course is adopted, the Democratic senate will block the election of a senator to succeed Teller. The Republican pluralities on the state ticket will probably reach seven thousand.

**FRAUDS ALLEGED IN NEW YORK.**

Election of Attorney General and Judge Claimed by Democrats.

New York, Nov. 6.—Chairman Campbell, of the Democratic committee, issued a statement tonight claiming the election of John Cunneen as attorney general and John Clinton Gray as judge of the court of appeals. The statement also alleges that thousands of defective ballots were cast and that in certain strong Republican districts the ballots were burned by the inspectors immediately after being counted, which is contrary to the law. A committee representing the party, continues the statement, will appear before the canvassing board next Tuesday "to see that an honest count is had."

**CLOSE VOTE IN WEST VIRGINIA.**

Election of a Democratic Congressman Claimed by 25 Majority.

Wytheville, Va., Nov. 6.—The latest returns from the Ninth Virginia district indicate the re-election of Congressman Rhea by a majority of twenty-five. Up to tonight Judge Rhea was supposed to have been defeated by Colonel Stemp, Republican. Chairman Lindsey, of the Republican executive committee, has issued a statement, denying Rhea has been elected and insisting that the Democrats are endeavoring to perpetrate a steal.

**Handsome Plurality in Idaho.**

Boise, Idaho, Nov. 6.—The majority for the Republican ticket is close to seven thousand, while French, for congress, may have 8,500. In the legislature, the Republicans will have fifty on joint ballot out of a total of sixty-seven.

**Late Figures from Nebraska.**

Lincoln, Neb., Nov. 6.—The returns show that Mickey, Republican, for gov-

**ANTI-TRUST LAW UPHELD.**

Retailer Forced Out of Business in Nebraska Is Awarded Damages.

Lincoln, Neb., Nov. 6.—The Nebraska supreme court today sustained the constitutionality of the state anti-trust law, which had been attacked by the Nebraska Retail Lumber Dealers' association, as defendant in a suit for damages for forcing a retail dealer out of business. The court holds the association to be unlawful, but dismisses the suit as to the association because it is not incorporated. The members of the association are held liable for damages resulting from their acts.

**GOV. YATES SUFFERS RELAPSE.**

Is Again Delirious and Reported Worse Than at Any Time.

Springfield, Ill., Nov. 6.—Governor Yates' relapse today and his condition is said to be worse than at any time since he was taken sick. He was given food this afternoon and shortly afterwards was seized with a prolonged fit of vomiting. His fever began to rise and the patient relapsed into a delirium, from which he had been free for twenty-four hours. Late tonight he sank into a restless slumber. His highest temperature today was 103 and his pulse 104.

**KAISER SAILS FOR ENGLAND.**

Will Spend Ten Days as the Guest of King Edward.

Kiel, Nov. 6.—Emperor William left here tonight at 10 o'clock on board the imperial yacht Hohenzollern for England, where he will visit King Edward. A fleet of British torpedo boats will meet the Hohenzollern in British waters and escort her to Sheerness. It is expected the emperor will remain at Sandringham as the guest of King Edward until Nov. 16, when he will go to Lowther Castle to visit Lord Londsdale.

**CHICAGO STRIKERS WIN.**

Arbitration Board Gives Traction an Increase of Over 10 Per Cent.

Chicago, Nov. 6.—Twenty-five hundred strikers in the employ of the Union Traction and Consolidated street lines are to receive an increase in wages of more than 10 per cent, dating from Sept. 15, according to the findings of the board of arbitration, which made its report tonight after having had the demands of the street car men under consideration for nearly two months.

**TWO MEN SLAIN IN DUEL.**

Quarrel Over Election Results in Death of Both Participants.

Grandin, Mo., Nov. 6.—Joseph Farrow and Marion Dun engaged in a duel with pistols on the streets here today, resulting in the death of both men. Eleven shots were exchanged at short range, eight taking effect, each man being hit four times. The immediate cause of the duel was a quarrel over election, but blood had existed between the two for several years.

**ALASKAN GOLD OUTPUT LARGE.**

Nearly \$19,000,000 During the Last Ten Months—\$14,675,000 in 1901.

Washington, Nov. 6.—Director of the Mint Roberts today made public his final statement of the gold output of Alaska for the last ten months. These figures show the following: Klondike, \$13,801,095; Nome, \$5,068,980. In the entire year of 1901 the total output was \$14,675,073.

**STRIKE OF 75,000 MEN AVERTED.**

New York Plasterers Return to Work Pending Arbitration.

New York, Nov. 6.—All the plasterers who struck last month returned to work today at union wages, pending a settlement by arbitration. The action averts a threatened general sympathetic strike of 75,000 men in the building trades.

**SEVEN CHICAGO FIREMEN HURT.**

Hook and Ladder Truck Collides With a Freight Train.

Chicago, Nov. 6.—A hook and ladder truck and a Chicago & Northwestern freight train collided tonight at Fourteenth street and Western avenues. Seven firemen on the truck were injured. One, Thomas Fiek, will die.

**A HAVEN FOR CRIMINALS.**

Washington, Nov. 6.—By a queer oversight, the extradition treaty between the United States and Guatemala, made twelve years ago, has remained unproclaimed and so inoperative, up to the present time, that arrangements for its mutual proclamation at an early day have been made.

**CAMPAIGN OVER-WORK KILLS.**

Joplin, Mo., Nov. 6.—Judge F. M. Redburn, aged sixty-five, who on Tuesday was elected circuit judge of Jasper county, died today from over-exertion during the campaign. He was prominent in state politics for twenty-five years.

**MICHIGAN HORSE BREAKS RECORD.**

St. Louis, Nov. 6.—At the horse show tonight, the pony Kreuger, owned by D. H. Sands of Mendon, Mich., broke the world's hurdle record by jumping five feet, nine inches.

**FORECAST OF THE WEATHER.**

Washington, Nov. 6.—The following is the weather bureau's forecast for Upper Michigan: Fair, Friday; Saturday, increasing cloudiness and warmer; light to fresh northwest winds becoming southeasterly.

**LIGHT ON MYSTERY**

**BOSTON POLICE GET CLUE IN "JACK THE SLUGGER" CASE.**

**WATCHES OF DEAD GIRLS FOUND**

**TWO DISCOVERED IN PAWN IN THE SAME ESTABLISHMENT.**

Description of Man Who Presented Them Answers That of Mason, the Clubman Under Arrest and for Whom an Alibi is Claimed.

Boston, Nov. 6.—Today's developments in the case of Alan G. Mason, the well known clubman who is under arrest, charged with the murder of Miss Clara Morton, a landress at the Leona asylum, in Waverly, last Saturday night, have been of a startling nature. The victim's watch was found in a pawnshop. It had been sold by a negro. Later the pawnbroker said that on Saturday night a white man offered the same watch in pawn, but he refused to receive because it was after business hours. The watch was brought in by the negro on Monday morning. No trace of the negro can be found.

Continuing their investigation, the officers made another discovery which will have an important bearing on the case, to the effect that the watch of Miss Agnes McPhee, of Somerville, another "Jack the Slugger" victim, had been pawned at the same shop on Oct. 3, the day after her murder, by a white man whose description tallied exactly with that of the man who brought the Morton watch to the pawnbroker Saturday night. The description of these men is said by the police to agree to a striking extent with that of the suspect Mason.

**Story of the Conductor.**

Charles F. Brown, conductor of a night trolley car, voluntarily informed the police that Mason was in Waverly a few minutes after Miss Clara A. Morton was murdered last Saturday night. He said his car left Waverly for Boston at 10:20 p. m., about half an hour after Miss Morton was struck down, and that his only passenger was Mason, whom he knew well by sight as having ridden in from the suburbs frequently at night. He said that Saturday night Mason boarded his car not far from the place where Miss Morton was attacked.

Brown had heard of the assault before his car left Waverly and after he had collected his lone passenger's fare he opened conversation about the crime. Mason told him, he declared, that he thought the man who struck Miss Morton was the same who had been guilty of all the assaults on women in Cambridge, Somerville and Brookline. Mason said he thought the fellow must be a very bad and desperate man, the conductor said, and then spoke of the similarity in the various attacks. He also said he thought the man would go on committing these crimes and added: "I live in Brookline and I think we'll have him out my way next."

**Two Other Identifications.**

Two other identifications of Mason were made, both of which located him in Waverly. Robert Elder, superintendent of parks, was certain he saw him near the scene of the crime twenty minutes before the assault on the girl. The second identification was by a girl, who had been accosted on the street by a man who carried a heavy club and from whom she fled in terror.

The developments today have been most unfavorable to the prisoner, although his friends still claim he can fully establish an alibi. Mason is still in the Cambridge jail and will have his hearing next Tuesday.

**CHANGE OF FRONT BY DANES.**

Anti-Sellers Now Wishing the Treaty Had Been Passed.

Copenhagen, Nov. 6.—The smallest of the subscriptions (one-fifth of the proposed capital of about one million dollars) to the proposed Danish-West Indian company is discussed everywhere in this country. Leading promoters disagree on the subject, some insisting on the abandonment of the plan. Many former anti-sellers are wishing the island had been sold. The prospect of assisting the inhabitants of the islands is now more problematical than ever. The folketing has chosen Joergen Jensen as a member of the commission for the islands. Jensen has passed five years in the United States.

**KING OF SIAM GRATEFUL.**

Sends Thanks to Roosevelt for Honor Done the Crown Prince.

Washington, Nov. 6.—The president today received a cablegram from the king of Siam, extending earnest thanks for the kindly reception accorded the crown prince on his arrival in the United States.

**Royal Visitor in Chicago.**

Chicago, Nov. 6.—The crown prince of Siam and party arrived here today. President Harper, of the University of Chicago, entertained the party at luncheon. A dinner at the Chicago club and a visit to theatre as the guests of Melville E. Stone, of the Associated Press, completed the day.

**CANADIAN OFFICIAL JAILED.**

Toronto, Nov. 6.—Alfred McDougall, for many years collector of succession duties, was arrested today for the alleged theft of \$25,000 from the Ontario government.

**VENEZUELAN WAR STILL RAGES.**

Reports of Great Victory by Government Troops Are Declared Untrue.

Willemstad, Nov. 6.—The reports of a general victory over the insurgents spread by the government of Venezuela are incorrect. The revolutionary army simply withdrew from San Mateo, and on Friday last passed through Villa de Cura, going toward Cua, which commands the road to Los Toques, where 2,000 revolutionists are now engaging the government forces which have been protecting the executive of Venezuela. Castro's whereabouts are now unknown.

**Gunboat on Hand to Protect Consul.**

Port of Spain, Island of Trinidad, Nov. 6.—The United States gunboat Marietta arrived yesterday at Barcelona, Venezuela, in order to compel the revolutionists there to release the United States consular agent, Ignacio H. Baiz, who was arrested for refusing to subscribe to a forced loan. Baiz is the richest man in Barcelona and a man of high position. The treatment to which he has been subjected is only an incident similar to many others which have occurred in every part of Venezuela.

**Depredations in Coast Town.**

The seaport town of Higuerote, Venezuela, was occupied for three hours yesterday by forces landed from the Venezuelan gunboat Crespo. The landing party is said to have caused great damage to property owned by Spanish and French residents, and the French warship D'Estrees has left La Guaira to investigate. The Dutch cruiser Holland and Italian cruiser Giovanni Bausan have arrived at La Guaira.

**DISASTROUS STORM AT NOME.**

Many Craft Wrecked and Eight Men Reported Drowned.

Seattle, Wash., Nov. 6.—Eight men were drowned, three vessels driven ashore and practically every lighter on the Nome beach wrecked in a storm on Tuesday, Oct. 14.

The known dead were: Frank Kelly, George Robertson, George Fleuth and Sam Josephson. A dozen or more people thrown into the surf were rescued by life-saving crews.

The schooner Louise, steamer Elk and launch Fleet Wing were among the larger craft wrecked. In each instance the crews were rescued or managed to reach shore.

The storm caused the water to back up in the Snake river and Dry creek and the Dry creek bridge was washed away.

**LOST IN THE MOUNTAINS.**

Fears Supt. Egan of the Great Northern Has Perished.

Kalispell, Mont., Nov. 6.—Superintendent Egan, of the Great Northern, has been lost in the mountains since Tuesday. A large searching party is out. Severe storms have been prevailing, and it is feared he may have perished.

**Died from Hunger and Exposure.**

El Paso, Tex., Nov. 6.—After wandering three days in the desert, James Williams of El Paso died of hunger and exposure only three miles from Ysleta, El Paso county. He had wandered for fifty miles, traveling in a circle. His body was found today in sage brush by a searching party.

**RAILROAD FILES NOVEL PETITION.**

Asks Order at Omaha Permitting It to Use Another Line's Tracks.

Omaha, Neb., Nov. 6.—The Mason City & Fort Dodge company, the Omaha branch of the Chicago Great Western, today filed a bill in the federal court asking for an order permitting that road to use the tracks of the Union Pacific from Council Bluffs to South Omaha, including the Missouri river bridge and the passenger depot in this city. The bill also asks for an injunction restraining the Union Pacific from interfering with such use of its terminals. The petition says these privileges are enjoyed by certain other roads entering the city, and it asks the court to give the petitioner equal right with other lines.

**FREE TRIP TO THE UNITED STATES**

American Prisoners of War to Be Returned Home by the British.

Washington, Nov. 6.—Ambassador Choate has reported to the secretary of state, in response to instructions in relation to the repatriation of American citizens detained by the British government as prisoners of war in Persia, that Lord Lansdowne has informed him, under date of Oct. 27, that it is proposed to send the prisoners in question to the United States by the first packet, and that they will be subsisted at the expense of the British government until they reach their destination. They were sent to Ceylon from the Transvaal.

**GEN. MILES' ANNUAL REPORT.**

Washington, Nov. 6.—The annual report of Lieutenant General Miles is a brief review of the reports that have been submitted to him by other officers. He endorses the recommendation of General Brooke for a readjustment of the geographical limits of the different departments, with a view to equalizing the conditions, and calls attention to the necessity of providing quarters for the artillery along the coast. General Miles says the personnel of the army was never better.

**BAD FIRE AT OMAHA.**

Omaha, Nov. 6.—Fire today in the building occupied by Fairbanks, Morse & Co., manufacturers of scales, and the American Press, badly damaged the structure. Two firemen fell from a ladder, receiving serious injuries. One hundred and fifty country newspapers are temporarily affected by the burning of the American Press plant.

A MILD CASE

Of Contagious Blood Poison never existed. It is always had, though sometimes no external symptoms of the disease appear for a long time.

Because the disease is slow in developing does not indicate that the case is a mild one, for the poisonous virus at work in the blood and system may be spending its force upon some internal organ while you are looking for external signs.

S. S. S. is the only remedy that cures Contagious Blood Poison thoroughly and permanently. It is an antidote for the deadly virus that produces the awful eruptions, sores and ulcers, or itches the bones. Mercury and Potash dry up the skin eruptions, but in so doing drive the poison further into the system, where it smolders for a time, but comes back again with redoubled fury.

S. S. S. is a vegetable remedy that has been used successfully for years in treating this disease in all stages and forms. If you have the slightest symptoms; if you have an occasional sore mouth, or muscular aches, and the disease is liable to break out again at any time. A course of S. S. S. will remove every trace of poison and at the same time build up your general health.

Subscription Rates: Per month, by carrier, \$1.00. Per year, by mail, \$10.00.

MARQUETTE, MICH., NOV. 7.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

GOOD FOR THE BOYS!

An adjunct to the College of Mines at Houghton the need of which has long been sorely felt is all but certain to be now provided through the initiative of the students themselves, backed by the hearty and generous support given them by the faculty and the supplemental aid of the people of the copper and iron districts.

This is a suitably housed and completely equipped gymnasium. As the college has grown in strength and usefulness the attendance has steadily increased, and with its development the need for a gymnasium room has become more and more pressing.

The students met the board of control of the college at the train last evening on its arrival at Houghton and gave the members a reception indicative of their earnestness in the good work which they have so energetically started.

There is an urgent necessity for the proposed gymnasium. It will provide the young men attending the college with a place of resort where they can obtain wholesome exercise and recreation, contributing in this way to both their physical development and moral advancement.

THE REPORT OF REFORESTATION. The report of the commissioner of the general land office in regard to the reforestation of denuded areas in the forest reserves presents some encouraging facts.

THE SAMOAN AWARD.

The Grand Rapids Herald, discussing the Samoan award, says:

The text of King Oscar's decision in the matter of the Samoan claims has not been published as yet. The fact that the royal arbitrator has held in favor of the claimants has been given out.

When James E. Scripps, who was elected in the Third senatorial district, Wayne county, gets to Lansing the state will have the unique spectacle of the owner of a couple of particularly partisan Democratic newspapers helping the Republicans to frame their laws.

Reports have not been received from all the upper lake docks, but from a figure that is at hand the indications are that the movement for October was about 3,200,000 tons.

At the Cleveland Plain Dealer says of the ore shipments: Reports have not been received from all the upper lake docks, but from a figure that is at hand the indications are that the movement for October was about 3,200,000 tons.

At the Cleveland Plain Dealer says of the ore shipments: Reports have not been received from all the upper lake docks, but from a figure that is at hand the indications are that the movement for October was about 3,200,000 tons.

OUR POSSIBILITIES.

The report in Monday's issue of the Tribune regarding the agricultural development and prospects in the northern part of the lower peninsula substantiated by facts the claims that have been made from time to time in these columns.

MINING GOSSIP.

The old Wolverine mill has been dismantled and most of the machinery taken to the Phoenix mill where it will be utilized.

The directors of the Daily West Mining company yesterday declared the regular monthly dividend of 60 cents per share, payable Nov. 10.

The No. 3 rock house at the Trimon-tain went into commission last Saturday, with one crusher in operation, which is now kept busy treating from sixty to eighty skips of stamp rock every shift.

At the Franklin Junior, No. 1 shaft, to which work is confined, is sinking below the sixteenth level. Hoisting is in progress from the fifteenth level. Twenty-eight drills are in use, and the output is 940 tons of rock daily.

No. 3 and 4 shafts of the Baltic are down to the eighth level; No. 5 shaft is below the seventh. Considerable mass and barrel copper is encountered in No. 4 shaft.

The electric haulage at No. 6 shaft at the Quincy has proved to be of great saving in the cost of treating the rock. Four electric locomotives are in commission; they are operated by a current furnished by the local electric light and power company.

GYMNASIUM WANTED.  
Mining College Students and Faculty, Also Others, Subscribe to Fund.  
The Michigan College of Mines wants a gymnasium. The Michigan College of Mines usually deserves everything it wants, and usually gets it, and the gymnasium is no exception to the general rule.  
That the college is greatly in earnest over the gymnasium project appears from the developments at Houghton yesterday, when the students and faculty afforded a unique testimonial to their loyalty to the institution by holding a gymnasium mass meeting at which the large sum of \$5,000 was subscribed toward the fund necessary for the erection of a \$50,000 building.  
The mass meeting was attended by every man in the college, and there was a full representation of the faculty. The sentiment of the meeting was unanimously in favor of the gymnasium, and enthusiasm ran high, a fact attested to by the generous response to the call for subscriptions. Of the \$5,000 pledged at the mass meeting, the students gave \$3,500 and the faculty the balance. Later R. R. Goodell subscribed \$2,000 and Graham Pope gave \$1,000 and donated a site.  
The proposition is endorsed by the board of control, which at a meeting held at Houghton last night expressed its warm sympathy in the movement. The plan to secure the gymnasium is not a state proposition, although the legislature may be asked to make some appropriation for it, but will be pushed by the students and members of the faculty themselves.  
Another Parade.  
Preceding the meeting of the board of control last evening there was another "night shift" parade by the students. The boys marched, about 200 strong, from the college to Hancock, and back to the station, where they awaited the arrival of the college board members. The parade was illuminated by many torches, and it aroused great interest. College songs were sung by the marchers and the college yell was given vigorously. The board members were warmly greeted, and their subsequent endorsement of the gymnasium plan aroused great enthusiasm.

**BURIED UNDER TONS OF ROCK.**  
Henry Nimnis, a Miner, Instantly Killed at the Trimmountain.  
Henry Nimnis, a Trimmountain miner, was the victim of a premature explosion while at work underground Wednesday evening. He was buried under a great mass of rock and instantly killed. Hjalmar Ingeman, partner of Nimnis, was injured in the hand, hip and other parts of the body, but not seriously. The men were engaged in firing holes in a stope. Ingeman happened to be fifty feet away at the time, but Nimnis was not so fortunate. Ingeman found his partner almost completely buried under hundreds of tons of rock. The body was badly crushed and mangled. Nimnis recently went to the Trimmountain from Laurium. He leaves a widow and two children. The cause of the explosion was an imperfect fuse, it is said. It was the second fatal accident at the mine within a short time. Several minor accidents have resulted from the same cause, but they were not reported. The company has ordered a change of fuses.

**PROTEST BEARS FRUIT.**  
Quayle Building at West Hancock Will Be Brick Veneered.  
W. H. Roberts of West Hancock appeared before the council Wednesday evening and entered a protest against the Quayle building, the small frame structure opposite the high school, on Quincy street, which has caused so much dissatisfaction among property owners of that vicinity. Mr. Roberts said the building had been erected in violation of the fire ordinance, and he denounced it as a fire trap and dangerous to adjoining property. Mr. Roberts stated that the insurance on adjoining buildings had been raised 25 per cent on account of the Quayle structure.  
W. H. Mason, who was also in attendance, reinforced Mr. Roberts' statement. Mr. Mason thinks that after the village went to so much trouble and expense to pave the street, that nothing but substantial buildings should be erected on Quincy street, and especially in the paved district. Mr. Quayle, the owner of the building, was present. He stated that the structure was built for the winter only, and that in the spring he intended to replace it with a more substantial building. In regard to the protest, Mr. Quayle said that others had also violated the fire ordinance, mentioning the names of Messrs. McCarthy and Brock, and even Mr. Mason.

**TAKES GENEROUS ACTION.**  
Hancock Council Will Foot the Bill for Firemen's Uniforms.  
The Hancock council has done a generous thing for the village fire department, which will no doubt appreciate that body's action. At the regular meeting Wednesday evening the council decided to foot the bill for the new uniforms recently ordered by the firemen, although it had not been requested to do so. The council is of the opinion that the village has an excellent department and that it should be well treated. The firemen ruin one or more suits of clothes during the course of a year. There are sixteen paid men in the department.

**WHAT TO DO UNTIL THE DOCTOR ARRIVES.**  
"One of my children was taken with cramp colic and suffered severely," says S. B. Elzee, of Monett, Mo. "I telephoned for a doctor, then gave a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and a few minutes later a second dose. Before the doctor came the child was relieved." For sale by The Stafford Drug Co.

**BIG CHURCH ENTERTAINMENT.**  
A three nights' social session will be held at the Lake Linden Opera House Nov. 14, 15 and 17 for the benefit of St. Joseph's church. An entertainment, consisting of musical and other features, by local talent, will be given each evening. A bazaar will be held in connection with the socials and a large number of beautiful articles will be offered for sale. Wheels of fortune, fortune cards, etc., will be introduced to bring in checks for the church. Music will be furnished each evening by St. Joseph's Military band. Preparations are being made to entertain large crowds.

**LUCK IN THIRTEEN.**  
By sending 12 miles Wm. Spry, of Walton Furnace, Va. got a box of Buckle's Arnica Salve, that wholly cured a horrible Fever Sore on his leg. Nothing else could. Positively cures Bruises, Felons, Ulcers, Eruptions, Boils, Burns, Corns and Piles. Only 25 cents. Guaranteed by Stafford, druggist.

**DEER LICENSES IN DEMAND.**  
Record of Last Year Will Be Exceeded by at Least 200.  
At the rate County Clerk Richardson and his deputy, Miss Jennie Taylor, are writing out hunters' licenses, the number issued will be larger by over two hundred than that of last year. An average of one hundred a day have been issued since the first of the week. Applications are still piling in and by Saturday evening, it is estimated, the total number sent out will be nine hundred. Last year seven hundred licenses were issued. Among the licenses this year are three issued to women.  
The clerk and his deputy tell some pretty good stories in connection with the demand for hunting permits. In applying for a license the question of the color of the applicant's hair is asked. One application came in with "none" as the color of the hair. An old hunter, who came in the other day for his license, was asked the usual question. With a sudden jerk of his arm he uncovered his head and exclaimed, "Dare aint none dare." Another man who was asked his age, said, "Well, I got a license last year. You ought to know."

**GETS BACK AT COUNCIL.**  
Hercules Powder Company Closes Dumping Ground to Public Use.  
Dunbar Scott, agent of the Hercules Powder company, which was compelled to remove its powder magazines to another location other than that just west of the Hancock limits not long ago, has served notice that that portion of the company's property north of town used for a dumping ground is no longer to be utilized for the purpose. Mr. Scott states that "the privilege of dumping garbage and the indiscriminate deposit of rubbish or dead animals upon the lands of the Hercules Powder company, north of Hancock, is now forbidden. The abuse of the rights extended in the past as well as the evident menace to public health involved, is the excuse for the fence on each side of the highway, which must not be molested." The matter of securing new dumping grounds has been referred by the council to the health officer. The council will either buy or condemn a piece of land for that purpose.  
**IMPORTING CHICAGO BRICKLAYERS**  
Importing bricklayers and other labor from Chicago seems to be the caper with copper country contractors just now. They are compelled to do it, however, as both skilled and unskilled labor is very scarce in this region. Fred E. King & Co., Hancock contractors, who are building the new hospital for the Sisters of St. Joseph in West Hancock, have a force of Chicago bricklayers and stone cutters on hand. They are doing sixty cents an hour whether they work or not. They work eight hours a day and get extra for overtime. Good progress is being made on the hospital. The pressed brick is now being laid for the third story.

**PULP MILL SUGGESTED.**  
A prominent Houghton man believes Houghton needs a pulp mill and says that if one is built there would be money in it for those interested. He says there is any amount of spruce, hemlock and other pulp timber all through this region, and that a mill located on the age lake would have easy access to it by both rail and water. No difficulty would be had, it is said, in getting hold of his timber, as the owners would be glad to get rid of it at a reasonable price. A pulp mill for Portage Lake would be the thing in the line of a new business enterprise.

**MOVING MACHINE SHOPS.**  
The Mineral Range road's new machine shop at Calumet is completed and ready to receive the machinery of moving the machinery from the old shops in the Hancock yards has commenced and the latter building will be abandoned this week. The Hancock structure will be torn down to give more track room. All light repairing to locomotives and other machinery in the shops hereafter, the machinists and other employees, who have worked in the Hancock shops, will move to Calumet.

**TELLS OF ALLEGED ARSON PLOT.**  
The John McLachlan arson case is still on in the circuit court. It may go to the jury this afternoon. William Warner, who claims that McLachlan arranged with him to set fire to the McLachlan store at Stanwood, near Redridge, was on the stand yesterday morning. He told a story which did not differ from a previous confession. Much interest is being taken in the case.  
**OSCEOLA VS. CALUMET.**  
The first regular indoor baseball game of the season will be played Friday evening at the Calumet Armory by the Calumet team and the Osceola team. Both teams have practically the same line-ups as last season. A good game is expected, as the mines have been practicing for several weeks.

**WILL GO INTO TRAINING.**  
Manager Webb, of the Portage Lake hockey team, states that the boys will go into training at once. They will do light but regular work in the Hancock Y. M. C. A. gymnasium until the opening of the season, when it is expected the players will be in excellent condition.  
**BEWARE OF OINTMENTS FOR CALUMET THAT CONTAIN MERCURY.**  
As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.  
Sold by druggists, price 75 cents per bottle.  
Hall's Family Pills are the best.

MOLINEUX SCORES

IMPORTANT TESTIMONY BROUGHT OUT FOR THE DEFENSE.

EVIDENCE OF A WOMAN STIRS

PRISONER DECLARED NOT THE MAN WHO MAILED POISON.

Other Witnesses Assert Positively He Did Not Purchase the Holder, Nor Did He Write the Address on the Fatal Package.

New York, Nov. 6.—The greatest sensation in the second trial of Roland B. Molineux, the claimant on trial for the murder of Mrs. Adams, came late today when Mrs. Hannah Stephenson, wife of a Brooklyn policeman, was called to the stand by the defense and testified positively that Molineux was not the man who mailed the now famous poison package at the general postoffice.

The witness partially identified Harry Cornish, who was called to stand up in court, as the man whom she saw standing in front of her in line at the post-office and holding in his hand a package addressed to "Mr. Harry Cornish, Knickerbocker." That was all she saw.

Mrs. Stephenson's identification of Cornish was not positive. She said she looked very much like the man, but hesitated before replying affirmatively when asked if she did not think he was the man. The witness' accounts of her movements of that evening and her reasons for not appearing at the first trial were given in detail.

The prosecution on cross-examination brought out the fact that Mrs. Stephenson had suffered from attacks of nervous prostration within the last two years, and had carefully read the details of the former trial. The questions of the assistant attorney tended to show that an effort would be made to prove insanity or delusion under hysteria.

The witness, under questions by the prosecution, said there were three stamps on the package, and when shown the wrapper with five stamps on it, in two rows, said she might have overlooked the lower row. Mrs. Stephenson was on the stand when court adjourned for the day.

Other witnesses were handwriting experts who testified that Molineux did not write the address on the poison package.

A clerk in a drug store testified that he had sold bromo seltzer to Cornish; also to Mrs. Rogers.

Miss Miller, a clerk in the store where the bottle holder was purchased, testified that she sold the holder late in the evening. Her evidence was corroborated by a man who was in the store at the time. The prosecution has held that the holder was purchased early in the afternoon. Miss Miller positively swore that the man who bought the holder was not Molineux.

The trial will be continued tomorrow morning.

DIED THROUGH CARELESSNESS.

Omaha Couple Found Dead. Held Not to Have Committed Suicide.

Omaha, Nov. 6.—The coroner's jury which investigated the deaths of Rev. W. C. Rabe and Miss Augusta Busch, today returned a verdict that death resulted from asphyxiation by gas through carelessness. Nothing which could throw any new light upon the tragedy was brought out at the inquest. Mrs. Rabe will arrive from Buffalo, N. Y., Friday evening. Arrangements for the clergyman's funeral were deferred until her arrival. The only living relative of Miss Busch in this country is a brother, now living at Hancock, Mich. She left a few hundred dollars of available money, which will be used to give her a respectable burial. An immense crowd viewed the bodies today.

RECLASSIFICATION URGED.

Civil Service Commission Asks a Change to Facilitate Promotions.

Washington, Nov. 6.—In its annual report the civil service commission urges that congress provide for the reclassification of the entire departmental service. The commission says that until such reclassification is made, it does not feel justified in attempting to enforce any uniform system of regulations or promotions in the civil service. It urges that each department adopt a system of promotions of its own, including examinations where advisable, which will best meet the conditions within the department.

M. E. CHURCH EXTENSION.

Philadelphia, Nov. 6.—The general committee of church extension of the Methodist Episcopal church today began the consideration of the appointment of the funds to be asked from each conference to make up the \$250,000 which will be used next year in church extension. A portion of the session was devoted to a discussion of the question of exempting certain churches from the law of the board of church extension, which specifies that no donation shall be made to any church the maintenance of which has cost \$10,000 or over. Exemptions were made in seven instances, the churches exempted being regarded as especially deserving. They are located in Kansas, Maine, Iowa, California, Nebraska and Rhode Island.

RAILROADS ON THE CARPET.

Interstate Commerce Commission Takes Up Charge of Unfair Rates.

Chicago, Nov. 6.—The interstate commerce commission today heard the case of the Chicago Livestock association against eighteen railroads in the West and Northwest, charging discrimination with the rates on dressed and finished goods.

Secretary Tomlinson, of the livestock association, outlined his charges against the railroads. The schedules, he said, discriminated against shippers in Minnesota, Iowa, Wisconsin and Missouri, as well as livestock dealers in Chicago, and enabled the stock men in Nebraska to market their product at less cost than the stock men of these states. He said the schedules favored Kansas City against Chicago as a livestock market.

In the case the state railroad commissioners of Minnesota were granted leave to file an intervening petition, in which they set up that the present relative rates between livestock and dressed beef and packing house products are fair and equitable and should not be disturbed.

A. C. Bird, third vice president of the St. Paul road, declared the present livestock rates not reasonable because, he said, they are too low. He said also that all freight rates are too low and therefore unreasonable. He expressed surprise that the railroads did not come in to raise the rates. Mr. Bird said that cattle do not pay a just proportion of the transportation charges, and to further reduce these rates would be to make a bad situation worse. When asked what governed the scientific making of rates, he replied he had not the time in twenty-five years when rates could be made on a scientific basis. On the contrary, the rates are always based upon competition, comparison and compromise.

COAL FOUND IN MINNESOTA.

Extensive Deposit of Anthracite Reported Cut in Clay County.

Duluth, Nov. 6.—Word reaches Duluth that former United States Senator D. M. Sabin, of Duluth, has offered \$150,000 an acre for a farm in Clay county which is supposed to contain an extensive deposit of anthracite coal. Clay county is on the western side of the state and directly west of the head of the lakes. The coal vein is on the farm owned by C. E. Stone, six miles east of Barnesville and seven miles north of Pelican Rapids. The find is not far from a gas well, on the farm owned by William Brunk. The coal vein was struck by a well driller, at a depth of seventy-three feet. The drill penetrated a black, hard substance, to a depth of twelve feet. The substance looked so much like coal that samples were sent to the state geologist at St. Paul, and he in turn sent them to a Pittsburgh geologist, who pronounced them equal to the best Pennsylvania anthracite.

Telegraphic advice states that Mr. Sabin's offer of \$150 an acre for the farm was refused. It is also stated that a contract has been made with the Great Northern, whereby that company will explore the land and pay Mr. Stone fifty cents a ton for all the coal that is mined. The importance of the find, providing extensive hard coal deposits should be discovered in Minnesota later on, cannot be estimated.

THIEVES FOILED BUT ESCAPE.

Incapacitated Policeman Defeats Plan to Corral a Gang After \$100,000.

Marion, Ind., Nov. 6.—One of the largest robberies ever attempted in this city was frustrated by the police last night. The National Supply company, which furnishes all the oil well supplies to the operators in the local field, had collected \$100,000 and the money was in the safe. Evidently with knowledge of this, eight men, who are thought to compose a gang of professional robbers, arrived in the city yesterday and last night. The police were watching them and a squad of officers in citizens' clothes was stationed about the building. The officers notice the men making preparations to raid the place and were waiting for definite action when a patrolman in uniform happened to pass the store and, not knowing what was transpiring, stopped and questioned two of his fellow officers who were standing talking together. The gang realized that officers were watching them and ran. The police pursued them, but they succeeded in boarding an outgoing passenger train in the railroad yards and escaped.

ST. PIERRE FIRE INCENDIARY.

Miquelon Conflagration Caused by Men Who Fired a Church.

St. Johns, N. F., Nov. 6.—Reports today by mail show that the fire which partly destroyed the town of St. Pierre, Miquelon, last Saturday night, was one to incendiary. The fire originated in the Catholic cathedral. An unknown man was seen leaving the building by a window shortly after the fire broke out. One priest attached to the cathedral nearly perished while trying to save some sacred relics. The vessels used in the cathedral service were all destroyed. The government will shortly rebuild its destroyed establishments. The cathedral was insured for \$100,000 and was valued at \$60,000. Other church property valued at \$40,000 was destroyed.

WATERWAYS CONVENTION.

Quincy, Ills., Nov. 6.—Extensive preparations are being made for the waterways convention here on Nov. 12 and 13. All the cities in the Mississippi valley, from St. Louis to St. Paul, are naming delegates and many commercial bodies will be represented. The senators, congressmen and governors of states contiguous to the Mississippi river have been invited, and many will come. Government engineers and river men will also attend.

NOVEL PLAN IN WEST

WATERS OF A GLACIER TO BE PUT TO PRACTICAL USE.

TO BE HARNESSSED FOR POWER

BOSTON ENGINEERS SENT TO BEGIN WORK ON PROJECT.

Is Estimated the Flow Is Sufficient to Generate 50,000 Horsepower, Which It Is Proposed to Utilize at Tacoma and Seattle.

Boston, Nov. 6.—Engineers are being sent from this city to Tacoma and Seattle to begin work on a project which has for its chief aim the harnessing of the waters of the Puyallup glacier, on Mount Tacoma, Wash., for commercial purposes. It is claimed that if successful this will be the first instance where glacial waters have been used directly to provide power. The object is to provide Tacoma and Seattle with electric light and power.

The plan is to construct from the glacier a flume fourteen miles long, through which a head of water will flow sufficiently to generate fifty thousand horse power. The water in running through the flume will drop six hundred feet and, through penstocks, will be diverted into turbines connected with electric generators.

MINERS TO TESTIFY FIRST.

Strike Commissioners to Reassemble at Scranton on the 14th.

Philadelphia, Nov. 6.—When the strike commissioners meet at Scranton on the 14th inst., the hearing of the miners' side of the case will be begun. After they have concluded their case, the operators will take their defense, after which the miners will probably be again heard, in rebuttal. From Scranton, it is likely the commission will go to Pottsville and sit there for a few days, and then go to Philadelphia and New York. The commissioners have no idea when they will make their decision.

Will Use British Minutes.

London, Nov. 6.—Lord Rosebery has been given permission to accept the request of President Roosevelt's coal strike arbitration commission to be supplied with copies of the notes of the proceedings in Lord Rosebery's settlement of the British coal dispute in 1893.

Coal Roads Attacked.

Washington, Nov. 6.—The complaint of W. R. Hearst of New York against the anthracite coal-carrying railroads charging that the rate for the transportation of coal from the anthracite field to New England, New York, Maryland and the District of Columbia are unreasonable and unjust has been filed in the office of the interstate commerce commission. The commission has sent notifications of the complaint to the railroad companies named as defendants. The roads have until the 20th inst. to file their answers.

STOCKS DULL AND ERRATIC.

Speculation at a Standstill While Traders Wait New Developments.

New York, Nov. 6.—The course of stock prices was exceedingly erratic all day and the closing values were not far from last night's level. The constantly varying movement was seemingly due to groping efforts of professional operators to discover the content in the market. The result of their experiments seemed to show there was no current. Speculative sentiment has, in fact, come to a standstill and is waiting for new developments.

The stocks most active in the trading were those which have been recent favorites in speculation. There were gains of 1 to 1 1/2 points at one time in about a dozen railroad stocks, and half as many specialties. Sugar broke sharply after early strength because of fears of a further cut in prices and rumors of a rate war at the sugar river points. The colliers were under some pressure owing to reports of renewed troubles at the collieries of some independent operators, and Lackawanna suffered, in addition, on its showing of earnings for the September quarter, which revealed a reduction in net earnings compared with the corresponding period of last year of \$1,700,000.

The money rates were rather firm and foreign exchange was also firmly held. The closing of the stock market was easy and with some stocks at the lowest of the day, as follows, Paine, Webber & Co. reporting the figures:

Table with columns for stock names and prices. Includes entries for Wash. Pac., N. Y. Central, Southern Ry., etc.

Range of Money Rates.

Money on call, firm, at 5/16 per cent; closing, bid and asked, at 5/16. Prime mercantile paper, 5/16 to 6 per cent. Exchange, firm, demand at 48.875 to 48.875 and sixty days at 48.325 to 48.375. Bar silver, 49 1/2.

CHICAGO GRAIN MARKETS.

Chicago, Nov. 6.—The trade in wheat today was quiet and rather tame most of the session, the business being largely local. Considering the dullness and the absence of outside interest, the values held up fairly well, the closing being

but 1/4 to 1/2 lower. The weather was improved, the cables were steady and there was an absence of that selling pressure so pronounced of late. The demand was sufficient to absorb the offerings, and the undertone was fairly steady. Liverpool was steady to 1/4 higher. Price current reported wheat generally in fine condition. The exports were liberal, and thirty-two boats were taken on the coast. Elevator people bought December and sold May. December opened at 71 1/2; highest, 71 1/2; closing, 71 1/4.

Corn was moderately active, with the feeling a little mixed, December closing 1/2 to 3/4 lower and May a shade higher. Improved weather and irrisponsive cables caused an easier start, but the offerings were well taken. Shirts covered freely at the decline, and the market soon strengthened. At the advance prominent locals sold considerable, adding to their already good-sized short lines, and the price receded. Liverpool was steady to 1/4 higher. December was offered freely, elevator interests selling, and the trade was more general. Eight boatsloads were accepted on the coast. December opened at 51 1/2; highest, 51 1/2; lowest, 50 3/4; closing, 50 3/4.

Oats ruled slow, within 1/4 range, and closed steady to 1/4 over yesterday. December being the strongest. There was good buying of December by elevator interests, and it tended to 1/4 discount under May. There was moderate selling of May by the same interest that had been at it for several days. The feature was the improved cash situation. December opened at 29 3/4; highest, 30; lowest, 29 1/4; closing, 29 3/4.

The receipts and shipments were as follows: Receipts, Shipments. Flour, barrels, 10,000 15,000. Wheat, bushels, 110,000 4,000. Corn, bushels, 134,000 117,000. Oats, bushels, 283,000 127,000.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

Table with columns for copper stock names and prices. Includes entries for Adve., Amal., Ana., etc.

BOSTON STOCK SALES.

The following were the transactions in copper stocks on the Boston exchange yesterday as furnished to The Mining Journal by Paine, Webber & Co.:

MONUMENTS TO IOWA TROOPS.

Chattanooga, Tenn., Nov. 6.—The Iowa Lookout Mountain and Missionary Ridge Monument commission arrived here tonight. The members will spend several days selecting the sites for the three monuments which the state of Iowa will build, commemorating the service of the Iowa troops during the Civil war. The state has appropriated \$35,000 for monuments here. As the Iowa troops were divided in the engagement here, one monument will be placed on Lookout mountain and two on Missionary ridge.

IN HONOR OF ANDREW WHITE.

New York, Nov. 6.—A festival in honor of the seventieth anniversary of the birth of Andrew D. White, ambassador to Germany, was held tonight by members of the German Social-Scientific society selecting the sites for the monuments which the state of Iowa will build, commemorating the service of the Iowa troops during the Civil war.

BUSINESS CARES CAUSE SUICIDE.

Lock Haven, Pa., Nov. 6.—Thomas R. Mann, of the late Robert Mann, the ax-manufacturer, formerly treasurer of the Lock Haven Trust & Safe Deposit company and recently general manager of two mining and milling companies at Boulder, Colo., committed suicide by shooting today. Business troubles were the cause.

GEORGE VEST, JR., DEAD.

Washington, Nov. 6.—George Vest, Jr., son of ex-Senator Vest and for many years his private secretary, was found dead in his room at a hotel this morning. The cause of death was convulsions due to acute gastritis. He was aged forty and leaves a widow and children.

FOUNDERS' DAY CELEBRATED.

Pittsburg, Nov. 6.—The Founders' Day celebration in Carnegie Hall attracted an immense throng this afternoon. The speakers were Hon. Whitelaw Reid, Richard Watson Gilder and Joseph Jefferson.

BENNY YANGER DEF. TS MORAN.

St. Louis, Nov. 6.—In a boxing contest scheduled for twenty rounds, between Benny Yanger of Chicago and Tony Moran of New York, tonight, Yanger knocked Moran out in the third round by a solar plexus blow.

PRESIDENT USING NEW OFFICES.

Washington, Nov. 6.—President Roosevelt today began the transaction of business in the new executive offices adjoining the White House.

SISTERS OF CHARITY RELY ON PE-RU-NA TO FIGHT CATARRH WHEREVER LOCATED IN THE SYSTEM.

MISS BEATRIX CALLAM.

Interesting Letters from Catholic Institutions.

In every country of the civilized world the Sisters of Charity are known. Not only do they minister to the spiritual and intellectual needs of the charges committed to their care, but they also minister to their bodily needs.

From a Catholic Institution in Central Ohio comes the following recommendation from the Sister Superior.

"Some years ago a friend of our institution recommended to us Dr. Hartman's Peruna as an excellent remedy for the influenza of which we then had several cases which treated to be of a serious character.

"We began to use it and experienced such wonderful results that since then Peruna has become our favorite medicine for influenza, catarrh, cold, cough and bronchitis."

Another recommendation from a Catholic Institution of one of the Central States written by the Sister Superior reads as follows:

"I cannot say too much in praise of Peruna. Eight bottles of it cured me of catarrh of the lungs of four years' standing, and I would not have been without it for anything. It helped several Sisters of coughs and colds and I have yet to find one case of catarrh that it does not cure."—Sister Beatrix.

ADDICKS TO STICK (Continued from Page One.)

error, is elected by fifty-eight hundred. The official count will not change this three hundred either way. It is certain the Republicans have five of the six congressmen.

DEMOCRATS LOSE ON RECOUNT. Rhode Island Assembly Republican by Thirteen Majority.

PROBABLE ELECTION OF APOSTLE SMOOT IN UTAH. Salt Lake City, Utah, Nov. 6.—Late returns from the more remote counties of the state indicate that Howell, Republican, for congress, and McCarthy, Republican, for supreme court justice, are elected by majorities of at least 4,000.

REED SMOOT, APOSTLE OF THE MORMON CHURCH, IS LIKELY TO BE CHOSEN UNITED STATES SENATOR, AND IF SO A FIGHT WILL BE PRONOUNCED SIMILAR TO THAT AGAINST ROBERTS IN THE LOWER HOUSE OF CONGRESS.

ADMINISTRATION PLEASED. Result of Election Causes Joy in Government Circles.

Washington, Nov. 6.—Government officials are very much pleased over the results of the election. Assistant Secretary Taylor of the treasury department, when asked for his views on the results of the election, said:

"I regard the outcome as extremely favorable to the Republican party. It indicates beyond reasonable doubt that the Republicans will not only elect the next president but will retain control of congress for at least four years to come. The political history of the country shows that almost uniformly the 'off year' elections result adversely to the party in power.

since then we have used it with wonderful results for grip, coughs, colds and catarrhal diseases of the head and stomach.

SISTERS OF CHARITY

All Over the United States Use Pe-ru-na for Catarrh.

Dr. Hartman receives many letters from Catholic Sisters all over the United States. A recommendation recently received from a Catholic institution in the Southwest reads as follows:

"I can testify from experience to the efficiency of Peruna as one of the very best medicines, and it gives me pleasure to add my praise to that of thousands who have used it. For years I suffered with catarrh of the stomach, all remedies proving valueless for relief. Last spring I went to Colorado, hoping to be benefited by a change of climate and while there a friend advised me to try Peruna. After using two bottles I found myself very much improved. The remains of my old disease being now so slight, I consider myself cured, yet for a while I intend to continue the use of Peruna. I am now treating another patient with your medicine. She has been sick with malaria and troubled with leucorrhoea. I have not a doubt that a cure will be speedily effected."

These are samples of letters received by Dr. Hartman from the various orders of Catholic Sisters throughout the United States.

The names and addresses to these letters have been withheld from respect to the Sisters but will be furnished upon request.

One-half of the diseases which afflict mankind are due to some catarrhal derangement of the mucous membrane lining some organ or passage of the body.

A remedy that would act immediately upon the congested mucous membrane restoring it to its normal state, would consequently cure all these diseases. Catarrh is catarrh wherever located, whether it be in the head, throat, lungs, stomach, kidneys, or pelvic organs. A remedy that will cure it in one location will cure it in all locations.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

DIAMOND VALUES. Have Advanced Greatly Owing to the Stand of De Beers Syndicate.

Real, genuine, extra fine and perfect diamonds are an expensive and scarce article at the present day.

Some people attribute the advance in price to the recent war between the Boers and the English in South Africa. Others say the war has had nothing to do with the case. They assert it has been a case of "holding up" on the part of the De Beers syndicate, which controls the South African market.

Two years ago it was possible for one to purchase a pretty good diamond for about \$50 per carat. Today what is known among the trade as a gem is worth all the way from \$100 to \$1,000—the price varying according to the perfection of the stone.

Those who contemplate the purchase of diamonds should first of all acquaint themselves with the various grades. They are classified among the trade as follows: "Commercial white and perfect, fine white and perfect, very fine white and perfect, extra fine white and perfect." Each grade, of course, has its own imperfections.

Since the high prices demanded for diamonds were established it is said there are more diamonds sold than two years ago, when the prices, it is claimed, were too low.

In the selection of diamonds one cannot be guided altogether by the grade of the stone. Each grade comprises an average of from seventy-five to 100 different qualities. For instance, in many cases blue white diamonds of the very highest grade are found to be imperfect by reason of carbon spots and inclusions. An inexperienced buyer would not detect the imperfection, but to the eye of an expert the value is readily determined. It is very hard to get hold of a perfect "blue white" stone. Again, diamonds known as "Canaries," because of the yellowish hue, are sold in large quantities for reason of their color, for about \$200 per carat, and commercially, however, they are not as valuable as a pure white stone, which can be purchased for half the price.

When an inexperienced person contemplates the purchase of a diamond, it is a good plan for him to decide first upon the price he is willing to pay for the same, then to spend a day or two going from store to store studying various diamonds of this certain quality. He will then be able to form a pretty fair opinion of the value of the carat or carats desired.

The small stores, in many cases, are able to furnish a customer with just as fine grade of diamonds as the large dealers at cheaper prices.—Philadelphia Press.

THE GREAT AMERICAN CLIMATE.

On the heels of a bright mid-day comes a howling blizzard and the next thing you know the weather is spring-like again. No wonder people have colds and sore throats and stiff backs. Luckily, Perry Davis' Pain-killer is at hand to give relief. Take it internally and rub it into the aching flesh. All druggists sell it. There is but one Pain-killer, Perry Davis'.

Over 50 years ago. Doctors took right hold of it. Keep their hold yet. The oldest, best Sarsaparilla—Ayer's. J. C. Ayer Co., Lowell, Mass.

Ishpeming and its Environs.

OBJECT TO BAND STAND. Property Owners Opposed to Its Erection on the City Square.

At the October meeting of the city council the board of public works was authorized to erect a band stand on the city square, occupying a position directly in front of the fountain, the latter to be set back thirty feet. The committee on streets and alleys reported that the owners of property in that vicinity had given consent to the stand being placed there. In view of the fact that a protest was presented to the council Wednesday evening from the same taxpayers who were credited with favoring the erection of the stand it would appear that they have since changed their minds. The protest came in the form of a communication. It was suggested that in case the stand was erected there the thoroughfares in that immediate vicinity would be blocked at times when concerts are given. The matter was referred back to the street committee.

Rebate on Electric Lights. In the last three or four issues of the Peninsula Record the committee on electric light and the marshal were scored because the city had not received rebates for lights. It was intimated that the committee is neglecting its duty and favoring the light company, also that the marshal was not attending to his business.

The fact of the matter is the committee has been attending to the rebate business right along. The police officers have reported to the marshal when lights were not burning, and all these reports have been turned over to the committee on lighting.

According to Alderman Martin, chairman of the claims and accounts committee, there is an understanding existing whereby rebates covering all lights out will be given at the end of the year. The reports of the officers have been saved and the rebates can be secured at any time desired. At the close of this month all the reports received from the police officers since the first of last April were examined and a rebate of \$40 was figured out. The Negaunee & Ishpeming Electric Light & Street Railway company deducted this amount from the bill presented at Wednesday night's meeting.

The committee gives as its reason for not making these deductions monthly that they are seldom large enough to bother with. When a single light is out for a few hours it means but a few cents to the city.

Election Cost About \$900. Tuesday's election cost the city about \$900. The greater part of this is distributed among the aldermen and supervisors, who constitute the boards of registration and election in the several wards. With two days required by law for registration, an unnecessary expense of between \$200 and \$300 is forced upon the city. The work could be done just as well in one day. In one ward it cost \$27 to secure the registration of 20 voters, in some of the other wards not more than a half dozen names were recorded. The two days' session may be all right for the larger cities, but it is thought the law should be revised so to have but one day in the smaller places. This opinion has been expressed by several of the aldermen, and they are receiving money they do not earn.

The bills against the city last month amounted to \$4,019.62, all of which were allowed on the recommendation of the committee on claims and accounts. The pay rolls were as follows: Official, \$1,196.49; water, \$300.33; sewer, \$18.77; highway, \$89.47; total bills and pay rolls, \$6,624.08.

The committee on bonds and sureties reported favorably on a liquor bond of Matt Vanhala. His sureties are John Vanhala and William Anderson. The bond was accepted.

J. B. Wilburn and others petitioned the council to allow the grade of North Pine street, between Ely and High streets, to remain unchanged. The petition was laid on the table.

Edward Kennedy called the council's attention to the fact that Mr. Papagazzi had moved his saloon business from 255 Main street and that by doing so he required a new bond. Mr. Kennedy gave notice that he had withdrawn from the bond as one of Papagazzi's sureties. The communication was referred to the committee on bonds and sureties.

Mrs. Johanna Pearson, a widow, living on Wabash street, was exempted from the payment of water taxes.

DEER LICENSES STILL GOING. There is no lack of facilities for obtaining deer licenses. No less than six have been authorized to dispense them to the crowd of hopeful nimrods that is preparing to go to the woods as has already started Recorder John Delbridge, P. J. McGinty, C. Kennedy, William Peters, H. Gunderson and Robert Crab are all busy supplying the demand, which increases every day. Up till yesterday about 300 had been issued to Ishpeming men. Those who deal in the licenses say that the hunters now more forethought in providing themselves with the permits than they did when the law first went into effect. Then every applicant seemed to have the idea that it was merely a matter of paying a dollar and receiving a receipt for it, and that he was then ready to go forth and shoot deer as fast as he could get sight of them. It is well understood now that the licenses are issued only by the county clerk, and that local dealers merely forward the applications.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Broad cloths, Venetians, Coverts and other seasonable yard goods at reduced prices. The Finnish Mercantile Association.

A local firm has won a straight mark from the Recording Angel and dealt another blow to the coal baron. You can lower your coal bill one-fourth by ordering a full outfit of storm sash from the Consolidated Fuel & Lumber company.

RATE TO ESCANABA IS CUT. Northwestern Will Give a \$1.50 Fare If 300 Are Guaranteed.

The football enthusiasts who desire to attend the Ishpeming-Escanaba game tomorrow were not satisfied with the \$2.00 rate announced yesterday. Agent Malloy, however, has been successful in securing a more favorable rate, though a larger guarantee is necessary. If 200 go down a fare of \$2 for the round trip will be given, and if the guarantee is raised to 300 round trip tickets will cost \$1.50. In either case a special train will be run, leaving here at any time desired, also returning at a time agreed upon by the excursionists.

It is not clearly understood by some why the Northwestern people make a round trip rate of \$1.25 for Sunday excursions, without a guarantee of a stated number. The explanation is that the agreement existing between the various lines does not include Sunday business. Agent Malloy has kept the wires warm in an effort to secure as favorable a rate as possible.

All who intend to go down are asked to notify the high school by phone as early as possible today. If a special train is to be run the railroad people should know about it early today in order to get the coaches here. Eleven o'clock will be the leaving time. The game will be called at 2 o'clock.

It is understood that outside officials will preside at the contest. Dr. Sweetland was unable to state yesterday just who would be decided upon, but he said that no Ishpeming or Escanaba men would be chosen as referee or umpire.

After a Game With Duluth. The supporters of the local team have not yet abandoned all hope of securing another contest with the Duluth High, Superintendent Scribner and D. D. Randall spent yesterday at Duluth, endeavoring to arrange for a game. They will be home this morning. If the game is played it will most likely take place at Ironwood, as all feel certain the Duluth people would rather go there than to Hancock. Ishpeming is so anxious to get the game that Duluth will be given the choice of the two places.

There Were No Fumbles. Dr. Sweetland treated the members of the Ishpeming team to a turkey supper last evening at the Guild hall of Grace church. There were eighteen boys and the doctor in the party. It was observed by all present that none of the players were guilty of a fumble, off-side play or backward pass. There were nothing but touchdowns in sight. The doctor will be delighted if the boys make as short work of the Escanaba team tomorrow as they did of the turkey they "tackled" last evening.

RUSHING THE WORK. Yesterday afternoon George F. Stokes, contractor for the new Methodist church, has arrived from Detroit with a crew of slaters, who will begin laying the slate on the roof today. Mr. Stokes says the slating will be up and the building completely enclosed by tomorrow night, and a few days' work next week will easily complete the outside of the edifice. Four gangs of carpenters are working with might and main to accomplish this result. Carpenters have been hard to secure, and Mr. Stokes has experienced considerable difficulty on that account.

The money to meet the expense of building the new church is all in sight, and it is hoped and expected that the structure will be dedicated free from debt.

Rev. Polkinghorn and the members of the congregation have worked unceasingly in the effort to raise funds. The ladies of the church have toiled as hard as any one and the money they have contributed has aided in no small degree in swelling the building fund. The choir, the Young People's society and the Sunday school have all had a share in the work and when the congregation meets in its new house of worship it will have the satisfaction of knowing that the building stands as a monument to their self-sacrificing effort.

ISHPEMING IN BRIEF.

Sheriff Penglase was in town yesterday.

J. McCarthy of Escanaba was here yesterday.

The late reports make Young's majority nearly 12,000.

Trombly's orchestra will give a hop next Wednesday night at Anderson's Hall.

The Christian Endeavor society gives a social tonight at the residence of Rev. M. M. Allen.

The ladies of the Methodist church cleared \$290 from the dinner they served on election day.

J. R. Hubbard, traveling auditor of the Northwestern, is here auditing the accounts of Ernest Bengry.

A car will be run to Ishpeming immediately after the dance given by the Twin City club, at Cyr's Hall, Negaunee, Friday night.

Last night the Ishpeming City band serenaded H. O. Young and C. J. Byrns, the successful candidates for congress and the legislature.

John Beal and family desire to express their sincere thanks to the friends who showed them such marked kindness and consideration during their recent bereavement.

Miss Emma F. Molander, aged twenty-five, died yesterday morning. She was a victim of consumption. The funeral will be held from the residence, 517 N. Lake street, this afternoon.

TO WHOM IT MAY CONCERN. I take this means of advising the public that my wife, Ellen Uren, has left my bed and board, and that I will not be responsible for any bills contracted for by her in my name.

DAVID UREN, 101 York Street, Ishpeming, Oct. 31, 1902. (11-1-1v)

RUGS MADE OF OLD CARPET Address M. Trauson, Urban House, Ishpeming, (11-1-f)

DESTITUTION IS GENERAL.

Ishpeming Finlanders Will Aid Their Countrymen Across the Water.

Over one million people in the northern part of Finland are in destitute circumstances, as the result of a complete failure of the crops. A heavy frost, followed by floods, raised havoc all through that part of the province.

Relatives and friends of the Finnish people abroad are in receipt of letters and papers advising them of the existing conditions. Some appeal for aid, as they are left absolutely destitute. The majority of the Finnish people of this section are natives of North Finland and not a few of them are much worried over the condition of affairs at their old home. The well-to-do people of other parts of Finland are doing much to aid the sufferers, and the government has donated \$200,000 to be distributed among them. New work is being promoted by the government with a view to giving employment to some of the men.

The entire northern part of the country depends upon the farming industry. When the crops are a failure everything is down. It is now nearly forty years since the farmers of that section suffered a similar loss. During the panic which followed the poor people were obliged to make bread from the inner bark of pine trees and straw. There was no grain to be had and not a few suffered all winter. The northern part of Finland has more poor farmers, depending entirely upon their annual products, than any part of the country. Four years ago there was a light frost, which did much damage, but the people got along all winter without outside aid.

Societies Will Raise Funds. Three of the local Finnish societies have started a movement for the collection of funds. The Finnish Temperance society, the Finnish Maccabees and the Young People's society, have united and will raise all the money possible between now and Feb. 1. At meetings held this week large committees were named by each society to devise ways and means of raising money. It is proposed that a big bazaar be held the day following Christmas at the Finnish co-operative association's hall. Meanwhile contributions of cash, as well as goods to be disposed of at the bazaar, will be solicited among the Finnish people of the city.

It is anticipated that the Finlanders all over the United States will come to the relief of their suffering people. Their action should be prompt, as money is badly needed at this time. The local societies will correspond with their relatives and friends abroad, with a view of ascertaining where the money should be sent and how it will be distributed by the relief corps.

STARTLING, BUT TRUE.

"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turner, Dempsytown, Pa., "you'd sell them all in a day. Two weeks' use has made a new man of me." Infallible for constipation, stomach and liver troubles. 25 cents at Stafford's drug store.

Upper Peninsula.

Hugh Boyle, up to a year ago a resident of Escanaba, was struck by a Rock Island train at St. Paul a few days ago, and was instantly killed.

James J. Campbell, superintendent of the Menominee Water company, shot a large wildcat while hunting about twelve miles north of the city this week.

A number of Menominee young men who hired a bus Saturday night and visited Marinette to celebrate the Michigan football victory at Chicago, were pelted with eggs which had been sent better days.

H. L. Newton of the Soo this week shipped a carload of cattle to Detroit. The car contained twenty-six head of fine Chippewa county stock and will be the last car Mr. Newton will ship this season.

The customs house officials at the Soo made an important seizure the other night. A sun box containing some 700 pounds of butter, tea, coffee, sugar, prunes, etc., was seized as it was about to land on this side, having come from Canada. The goods were confiscated and are being held awaiting an investigation.

One of the finest office buildings in the peninsula is to be built at the Soo by R. N. Adams. It will have a frontage of 25 feet on Ashmun street and 110 feet on Spruce. In the front of the building of the first floor, with a corner entrance, will be located the new savings bank. The bank proper will be 25 by 70 feet in size and its appointments will be elaborate. In the rear of the bank, with Spruce frontage, will be two small stores and about midway of the building on Spruce street will be the main entrance to the offices above. The entrance to the stairway and the passenger elevator at the north end of the hall will be supported by heavy granite columns, giving the whole a substantial and palatial appearance. The building will be six stories and basement. From and including the second story the building will be constructed exclusively for office use, fitted offices being on each floor and all fitted up and so arranged as to be used en suite or single, as desired. The front part of the basement will contain a barber shop and bath rooms, which it is designed to have fitted out in a manner similar to the best shops in the eastern cities. Back of this will be the dynamo, heating plant and janitor's quarters. The building will be of steel construction, with brick, stone and terra-cotta over the frame work. All hall floors will be of tile, with marble wainscoting.

Deputy State Game Warden BeDell of Menominee this week made an important capture of an illegal hunter who attempted to ship a couple boxes of venison, marked "books," to John Rogers, Chicago. No street address was marked on the box, but Mr. Rogers was also looked up and if guilty will be prosecuted. Mr. BeDell left Menominee under instructions of State Game Warden Morse for Channing. There he went to see the station agent, who informed him that two boxes labeled "books" had been offered for shipment the night before, and a shipping bill had been sent out for them. Mr. BeDell, knowing that the sender, who had lived near there about two years, had not two boxes of his name, so nothing of two boxes of books, was satisfied that they did not

ANCIENT TORTURE

How it has Been Revived in Modern Times.

An ancient method of poisoning criminals was to force them to swallow quantities of bull's blood. Bull's blood is really no poison at all. Yet the prisoner usually died in agony, caused by the coagulation or hardening of the bull's blood in the stomach. The pressure of this solid mass on the vital organs almost always resulted fatally. That's like indigestion. If your food doesn't digest it remains in a hard lump in the stomach. Gases form which crowd other organs. Many cases of supposed heart disease are due to indigestion. This trouble is removed by the use of such a preparation as Kodol Dyspepsia Cure, which gives the stomach perfect rest by digesting what you eat without the stomach's aid. The food builds up the body. The rest restores the stomach to health. You don't have to diet. "During the last few years my stomach was in such condition that I couldn't retain the food I ate," writes Henry Williams of Bonville, Mo. "Two months ago I commenced taking Kodol Dyspepsia Cure. A few bottles have cured me entirely. I can now eat and enjoy anything I want."

Kodol Dyspepsia Cure Cures All Stomach Troubles. Prepared only by E. C. DeWitt & Co., Chicago. The 81 bottle contains 24 times the 50c. size.

ONE MINUTE COUGH CURE Cures quickly. That's what it's made for

Would You Invest \$100.00 to make \$100,000.00. If so, BUY HIDDEN FORTUNE

Stock of Lead, South Dakota, at \$1 per share. Property surrounded by the mines of the Homestake company, whose stock advanced from \$1.00 to \$100.00 per share and pays 50 cents per share monthly in dividends. Hidden fortune should do as well. They have \$2,000,000 to sight and will be on a dividend paying basis as soon as a new mill, now building, is completed. Wonderful discovery of ore running \$3,000.00 per ton just opened. Absolutely safe, as there is over \$2.00 worth of gold ore in sight for every share issued. Send for fully illustrated prospectus.

HERBERT S. SHAW, Stores H and E, Brown Palace Hotel, Denver, Colo. (Western Bank, Denver, Colo. First Nat'l Bank, International Tr Co. 10-18-1m)

THE U. S. STANDARD.

No Man Is Stronger Than His Stomach.

The man who seeks to enlist in the U. S. Army must be physically sound. There is a minimum standard of height and men under that standard, no matter how healthy, will not be accepted.

In reality indigestion or dyspepsia is the disease of all diseases. It makes other diseases possible. It involves the blood and the heart, lungs, liver, kidneys—every organ of the body.

WEAK STOMACH WEAK MAN. That a "weak" stomach causes general physical weakness may easily be understood. Food is the staff of life. The source of all physical strength is food.

WHERE STRENGTH COMES FROM. Physical strength comes from food and from food alone. If a man has enough to eat and eats enough, there's no reason why he should not have a perfectly nourished and healthy body.

Dr. Pierce's Golden Medical Discovery has restored lost health and strength to thousands of suffering men and women, because it cures diseases of the stomach and other organs of digestion and nutri-

tion, and enables the building up of the body in the only way known to nature, by the assimilation of the nutrition extracted from food.

"I had been suffering from indigestion so badly that I could not work more than half the time," writes Mr. Victor L. Hayden, of Blackstone, Nottoway Co., Va. "But now I can work every day and eat anything I want."

A CORNFIELD LESSON. The average person seems entirely unaware of the dependence of the several organs of the body upon the stomach for their health and strength.

But if a "weak" stomach makes a weak man, it is distributed among all the parts of the body. The relation of the stomach to the physical organs is like the relation of the corn to the soil in which it grows.

Dr. Pierce's Golden Medical Discovery cures diseases of organs remote from the stomach when these diseases have their origin in disease of the stomach and its allied organs of digestion and nutrition.

In numerous cases men and women who have taken "Golden Medical Discovery" to cure diseases of the stomach have been astonished to find themselves cured of diseases of heart, lungs, liver, kidneys or other organs.

"Words fail to express what I suffered for three years with cold chills, palpitation of heart, shortness of breath and low spirits," writes Mrs. A. C. Jones, of Waterboro, Colleton Co., S. C. "I could not sleep, and really thought I would soon die. Had a peculiar roaring through my head all the time. Was so emaciated and weak I could not feed myself."

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery." Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine.

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery." Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine.

Some kinds of hot air only warm you to the collar button, but if you will order storm sash from the Consolidated Fuel & Lumber company you can reduce your coal bill one-fourth and still get hot air enough to keep you warm all over.

The Problem of a Tired Mother.

The funny papers have told, time and again, how it makes a man feel to be shut up alone with the children even for a few hours.

It's no wonder that nerve troubles attack the mother for she has the children all the time. How can she help being nervous, especially while the little ones are making such constant drafts on her energy?

No woman can endure the strain of her housework and two or three little ones unless her digestive powers are of an unusual order. She can't manufacture force enough to stand the strain.

We can suggest one thing that will surely help her and it isn't a drug poison either. It is Vinol, made by a remarkable new process from that wonderful remedy, cod liver oil, a true tonic.

Money back if you don't find this true.

Michigan. MADE PARTY LOOK SAD. Fun Makers Annoyed Young Ladies, Who Were Entertaining, Halloween.

A social function to which a number of the young people of the village were invited was about the only thing thought of and talked about in Michiganamme a day or two before Halloween.

Among the refreshments to be served a prominent young man of the town had spent a week getting together. Good apples were scarce and it was necessary to send away for them.

A few minutes later the stove began to smoke and all were obliged to leave the rooms. No one knew what caused the trouble until an examination of the chimney was made.

After the smoke had been cleared and the young people had resumed their games, there was a racket at the front door. More trouble was suspected and all went out. They found a big pig attached by a long rope, struggling to release itself from a door knob to which the rope had been fastened.

In spite of the fact that it was not determined who were the most successful in the card games the ladies are pleased that the party was not broken up by the mischief makers. The jokers dispersed when the pig was released. Next day the party and the pranks was the talk of the town.

WILL RAISE OVER \$9,000. This year's tax levy in Michiganamme township is \$9,161.50, divided as follows:

State tax ..... \$1,072.50 County ..... 2,888.62 Township ..... 1,000.00 Highway ..... 1,200.00 School ..... 3,000.00 Total ..... \$9,161.15

The rate of taxation will be \$17.50 to each \$1,000 valuation, or \$1.75 to each \$100. Last year's rate was \$16.33, so that the taxes will be a little higher than they were a year ago.

A LIGHT VOTE. Only about one-half the voters of Michiganamme went to the polls Tuesday.

There was no work at the Beaufort mine Tuesday, the workmen taking a lay-off on account of the election.

C. H. Hood left Tuesday for Marquette, where he will spend the winter working for F. W. Read & Co.

HEADS OF NORMALS

THEY WILL MEET IN COUNCIL EVERY THREE MONTHS, AT LEAST.

EACH SCHOOL NOW INDEPENDENT

OLD ARRANGEMENT OF PRESIDENT FOR THE THREE GIVEN UP.

New Informal Board Was Organized Here Last Week—Will Meet in Lansing the Latter Part of the Month.

For some months past the Normals of Michigan have been working independently of each other, the old system of having a president for the three schools having been abandoned last summer, when President Leonard of Ypsilanti severed his connection with the Normals.

President Leonard, it will be remembered, was most directly concerned with the big Normal at Ypsilanti, but he was also the nominal head of the schools at Mt. Pleasant and Marquette, and he had more or less to do with their management and administration.

At present, each institution has a distinct head, whose jurisdiction is confined to the one school and whose duties cease on leaving its territory.

President L. H. Jones has charge of the Ypsilanti school. He came to Michigan from Ohio last summer, and since has conducted the main Normal with signal success. The president of the Central Michigan Normal is C. T. Grawn, who led the Marquette and Alger county teachers' institute here last week, while the executive of the Marquette institution is D. B. Waldo.

L. H. Jones was here last week, so all three Normal executives were Marquette visitors at one time.

Council Organized.

In order to provide for the co-ordination of the work of the three Normals and to secure harmony in their administration, as well as a unification of their interests, it was recently decided to form a Council, to be composed of the three executives, which should have an informal existence and which should be used as a means of furthering the interests of all the Michigan Normals.

This council was organized at a meeting, held in Marquette last week, attended by Messrs. Waldo, Jones and Grawn.

Henceforth this council will meet at least once every three months, and occasionally oftener. The first session will be held this month, the day before the state board of education holds its regular meeting. This session will be held the last week in November at Lansing, and it is expected that the three Normal executives will be present for the council.

It is anticipated by members of the state board and by the Normal officers that the new arrangement by which each of the Normals has an independent existence will work more satisfactorily than the old system of a president for the three institutions. Indeed this has already been found to be the case.

Art Catalog.

The officers of the Northern Normal will this month issue an art catalog, which will contain the titles of and other information concerning all the exhibits of pictures and statuary to be found at the institution, distributed among the several rooms.

The art department at the school has received particular attention since the Normal was first opened, thus the proposed catalog is now a necessity, there being one hundred and sixty-five framed pictures at the school, together with pieces of statuary and art portfolios.

The store of things beautiful at the Normal received a notable increase during the month of October, when \$350 worth of art goods was received to swell the already formidable list of paintings and statuary.

With this latest sum the total of the expenditures on the art account at the Normal is about \$2,500, and it is planned to continue to add to the collection right along.

The selections have been made in admirable taste, and not a dollar has been wasted.

It is freely asserted by visitors to the Normal that its art collection is already without a superior in the Normals of the northwest.

COPPERS LITTLE FIRMER.

Tone of Market Yesterday Rather More Hopeful.

Paine, Webber & Co. said of the Boston market:

"Coppers were a little firmer today, and the tone of the market was more hopeful. The fact that the Republicans will have a working majority in congress is encouraging the bull traders somewhat.

The New York market is still heavy on fear of gold exports, however, and it is held in sympathy, but the fact that the copper go off any more the best of them should be bought."

Hayden, Stone & Co. said:

"The trade was more general though the list this morning, but the undertone was not strong, and if stocks had been pressed for sale we would have had lower prices in sympathy with New York."

Higher Prices Expected.

W. H. Laidley said of the Chicago market:

"Although receipts were extremely small, the failure of the foreign markets to follow our little advance of yesterday was responsible for a slightly lower opening, but, although the market was hammered all day long and a great amount of long wheat was thrown upon it, it had an undercurrent of great strength and responded very quickly to any fair buying. The close was slightly under yesterday. We are firm believers in higher prices, and while little shake outs like that of today are bound to occur, we believe that ultimately much higher figures will be seen.

"Corn, like wheat, was influenced by better weather, and the failure of the foreign markets to follow our advance of yesterday. The feature was the strength of the May option, which closed slightly over yesterday, while the December was considerably under last night's close. This is accounted for by rather free selling upon the part of people who have been long on the December for some time. We have private advices covering Illinois, Missouri, Kansas, Nebraska and Iowa which are extremely bullish. We think the May option is the safer to buy.

"Oats were helped by the firm undertone in corn, and, as in the latter, the May option was the stronger. The receipts were small. The cash demand continues good, and, while, as we have pointed out, this market will probably follow the course of the other grains proportionately, oats have had a larger break, and should do considerably better.

"Provisions opened about at yesterday's close and remained steady throughout the session, as might have been expected after yesterday's strong advance. Shorts covered rather freely, and some profit taking was noticeable upon the advance. The continued report of cholera has had a great deal to do with the strength of the market, although packers are becoming much more free in their buying. We look for higher prices."

New York Market Barely Steady.

Walker said of the New York market:

"The market today opened barely steady and with some pressure to sell. There was little support and traders began to find weak spots. Sugar was heavily sold, and sold down easily. All the active stocks suffered losses. During the middle of the day the market was dull and the commission business was light. In the afternoon there was further liquidation and prices reached their lowest points. There were some attempts to rally, and a little short covering, but on only a little spurt plenty of stock came out. The close was firmer, and traders thought the market was a little oversold. Money stiffened up to 8 per cent during the day, but closed easier."

Has a strange mysterious influence on the human system. Brings personal influence, subtle force, will power, stamina. It charms the human mind. That's what Rocky Mountain Tea will do. Stafford Drug Co.

I am prepared to take pupils in shorthand and typewriting. Call at 219 Blaker street any afternoon or evening for terms, etc.

(11-4-104) MRS. L. LOWELL

HEAD CONSUL NORTHCOTT.

He Is Booked to Address U. P. Woodmen Here Next Tuesday.

Next Tuesday evening, Nov. 11, Head Consul W. A. Northcott will address Woodmen here on the readjustment plan. All members of the order in the upper peninsula have been invited to attend, and the local camp is making arrangements to entertain a large crowd. Low rates of fare have been made by the South Shore road from all points on the line.

EXCURSION TO THE SOO.

Morse Hose Company to Soon Run One Over the South Shore.

An excursion to the Soo will be run on Sunday, Nov. 23, under auspices of Morse Hose company. The trip will be taken in a special train which the South Shore officials have kindly agreed to furnish. A very low rate for the round trip has been made from the Marquette county towns and other points along the line. The time of the train's departure from this portion of the line and from the Soo, together with the rates of fare, will be announced in a few days. In the meantime the firemen ask their friends to remember the date, Sunday, the 23d.

SOO TRIP OFF.

Marquette Football Team Will Not Play Saturday Afternoon.

It was expected that the Marquette Highs would meet the Soo team at the latter place tomorrow afternoon, but it is now said the game will not be played. The local men are willing enough to go down, but the Soo management does not see its way clear to pay their expenses, asking that they put up a part of the necessary money themselves. This the Marquette team is naturally averse to doing. Its members regret that they cannot take the trip, as they believe they could add another victory to their credit.

It is said that it is likely that the team will disband for the season, as there are no more games in sight. It has won three and lost two games, the latter to Ishpeming and Escanaba.

CITY BRIEVITIES.

Today's weather: Generally fair.

Winds light and variable.

Yesterday's temperature: 7 a. m., 34 degrees; noon, 35 degrees; 7 p. m., 35 degrees. Maximum, 40 degrees; minimum, 33 degrees.

Dr. Drake was down from up-the-road yesterday for a few hours.

Sheriff Penglase was up the road on a business mission yesterday.

Colonel Howard arrived home yesterday from a brief visit to the Soo.

The Ladies' Aid society of the Methodist church will meet at 1:30 o'clock this afternoon in the church parlors.

The council will hold an adjourned meeting this evening. A few pressing matters will be considered by the aldermen.

L. C. Palmer has sold to N. M. Kaufman the west one-half of Lot 123, Hewitt's addition. The consideration was \$1,500.

The Young Woman's guild of St. Paul's church will meet with Mrs. Geo. N. Conklin this afternoon. It will be "hospital day."

The Ladies of the Baptist Aid society will be entertained by Mrs. A. H. Palmer, East Arch street, this afternoon, assembling at 2:30.

One of the heaviest frosts of the year fell Wednesday night. The sidewalks, trees, shrubbery and ground were white yesterday morning.

A second derrick is now in use at the new court house. It is being used to swing the cut stone into position, preparatory to setting it.

Mrs. Charles Line, who has been the guest of her sister, Mrs. L. J. LeVeque, for several weeks, returned to her home at Menominee yesterday morning.

The Angeline, for Ashtabula, cleared yesterday from the L. S. & I. dock. The Niagara, for Detroit, which had been weatherbound for a day or two, also went out.

The decision of the Marquette land office in the case of Daniel Jones vs. Fred Stetson, a tract in Cheboygan county

affected, has been sustained by the commissioner. The decision favored the first named party.

The Marquette Southeastern road is busy filling in the road between the two Carp bridges, which has been some feet below the level of the railroad track. Trains are hauling dirt, and a big force of men is distributing it. The improvement will be a notable one.

The Marquette branch of the Knights of Columbus will give an entertainment course during the winter months. They will give the same course that has been arranged for by other branches in the north country. All the numbers will be of a high order of excellence.

Bishop Eis of Marquette conducted the funeral of the Rev. Father Bourion, which occurred at Menominee Wednesday. He was assisted by Rev. Langaner of Negaunee and Rev. Langan of Escanaba, as well as by other priests. A pontifical high mass was sung. The funeral was one of the largest ever held in Menominee. It is reported that Father Bourion left a snug estate.

The press generally has erred in crediting George Shiras III, who has just been elected to congress from Pennsylvania, with being a Democrat. Although he was elected by Democratic votes, Mr. Shiras is a Republican. The Democrats, so great was the desire to get rid of the regular Republican nominee in his district, did not put a candidate in the field, but united on Mr. Shiras, the independent Republican nominee.

County Clerk Ross had received returns from all the townships except Republic yesterday afternoon, and the poll books from that precinct are expected today, when it is hoped to have the total vote for the different candidates in the county figured up. It will run 2,000 and a couple of odd hundreds majority for the Republican candidates. The returns received yesterday continued to show less than a fifty per cent vote in the townships.

The Bangor, Maine, Daily News says of Neil Burgess, who will appear in "The County Fair" at the opera house at an early date: "A big house greeted Neil Burgess and his people in 'The County Fair,' which opened at the opera house on Monday night. The favorite old play is better than ever. Mr. Burgess has exceptionally good support this season. A pleasing feature was the fine kinetoscope views of the Burlington county fair, which adds much to the production, and the great race scene was, as always, the great feature."

County Clerk Ross has already issued about a thousand deer licenses, and the demand continues brisk. It is expected that the total number of licenses issued this year will equal, if not exceed, the total last year, and that the county clerk will come near exhausting his allotment of 4,000 licenses. The prospective deer hunters are now in the throes of preparation for the woods, as the season opens Saturday to continue to the end of the month. Camps in the choice hunting grounds are being put in condition and provisioned for the open season. The influx of lower Michigan sportsmen will begin in a day or two, but, owing to a number of good and sufficient reasons, it is not expected to prove as large as has been the case in other years.

SOMETHING FOR NOTHING.

If any of our readers are troubled with constipation, biliousness, sick headache or indigestion cut out this notice, and present it at the People's Drug Store and they will supply you with a sample bottle of Re-Go Tonic Laxative Syrup free. Re-Go is a sure cure for these diseases.
