RIOTING IN MANILA

ROMAN CATHOLICS AND DISSENTERS CLASH IN STREET.

PRIEST IS BEATEN BY WOMEN

CHURCH SEIZED BY FOLLOWERS OF "BISHOP" AGLIPAY.

Gov. Taft Succeeds in Temporarily Restoring Peace and the Trouble is Brought Into Court—Further Disorders Looked For.

Manila, Nov. 7.—Serious religious riots have taken place between the Roman Catholics and the Aglipay dissenters in the Pandacan district of Manila. Father Sorrento, a Roman Catholic padre, was attacked by forty women in the streets because he was accused of violating confessional secrets from the pulpit. The padre was beaten and scratched, and his garments were torn by the women, who were arrested on charges of disturbing the peace and of assault. They were bailed on both charges.

Later, while the padre was visiting Governor Taft and asking for protection, the women seized the church and posted a notice on the door to the effect that the edifice was the property of "Bishop" Aglipay and the "National Catholic church." When Father Sorrento returned from his visit to Governor Taft he was refused admittance and was driven from the vicinity by the women followers of Aglipay. Meantime, 300 women occupy the church, and are sleeping there and taking their meals in the edifice.

Appeal Made to Courts.

Father Sorrento has appealed to the courts to regain possession of the church. After the occupation of the edifice by the women, Senor Buencamino, the head of the Federal party, and other Filipino leaders, drafted a petition to which 3,000 signatures were attached, declaring that the church had been built on public lands by common subscription, and therefore belonged to the people who now follow Aglipay. The petition also invited the people to take possession of the church. The result was that this morning Aglipay celebrated mass for 1,500 of his followers.

Later Governor Taft and the municipal officials held a conference with Senor Buencamino and Aglipay. The latter was warned that no violence would be tolerated, and they were advised to appeal to the courts for a settlement of the trouble. Everything is quiet at present, the police being in full control of the situation. The leaders promised Governor Taft that the women would be withdrawn from the church.

Origin of Trouble.

The trouble arose over the announcement a week ago by many members of the Pandacan congregation of their intention of joining "Bishop" Aglipay's church. Father Sorrento, the pastor, in a sermon from the pulpit rebuked the dissenters. Everything is quiet at present, the police being in full control of the situation. The leaders promised Governor Taft that the women would be withdrawn from the church.

GOV. YATES IS BETTER.

His Condition Shows Improvement but the Change is Slight.

Springfield, Ill., Nov. 7.—Governor Yates is somewhat improved tonight. His fever is lower than yesterday, and his physician stated he felt the governor was doing as well as could be expected. He also said it would be a week at least before the medical change in the patient's condition. The governor was able to retain nourishment throughout the day. During the afternoon he was given water, and a vomiting spell followed. He rallied shortly, however, and the vomiting did not increase his temperature. At 10 p. m. his fever was 101.2-5, a decrease from the afternoon. His pulse was 90.

DR. R. C. KEDZIE DEAD.

For Forty Years Professor of Chemistry at Agricultural College.

Lansing, Mich., Nov. 7.—Dr. Robert C. Kedzie, for forty years professor of chemistry at the Michigan Agricultural college, but who retired from active duty last June, died tonight, aged seventy-nine. He was a member of the first graduating class of the medical department of the University of Michigan, in 1851, and in the Civil war was surgeon of the Twelfth Michigan infantry, resigning to take the chair of chemistry at the Agricultural college.

ELECTION BETS ARE PAID.

Nearly Four Hundred Thousand Changes Made in Wall Street.

New York, Nov. 7.—Election bets amounting to nearly \$400,000 were paid today in Wall street. The Democratic talk of contesting caused the delay in settling the wagers.

HANCOCK AND HOUGHTON SHAKEN

Second Severe Shock in Three Months Experienced Last Night.

Houghton, Mich., Nov. 7.—Residents of Hancock and Houghton were greatly alarmed tonight by a terrific shock. Houses rocked and windows rattled as in an earthquake. Investigation failed to discover the cause. This was the second occurrence of the kind within three months.

UNION AND TRUST AT WAR.

Strike of Rubber Workers at Chicago a Fight to the Finish.

Chicago, Nov. 7.—Seven hundred rubber workers employed by the Morgan-Wright company of this city struck today in what is regarded as a fight to the finish between union labor and the rubber trust. Recognition of the union is the objective point in the walkout. The rubber workers claim the trust is endeavoring to break up the union.

LAST SURVIVOR OF FAMOUS HOAX.

Man Who Helped Carve the "Cardiff Giant" Died at Chicago.

Chicago, Nov. 7.—John J. Sampson, the last survivor of the famous "Cardiff Giant" humbug, died here today. Sampson had no part in the exhibition of the hoax, but assisted in making the figure. He was a marble cutter and worked at his trade in carving the giant. One of his sons said today that his father always said the work was done in a barn near Lincoln Park, this city.

POSTMASTER FOR 74 YEARS.

Man Who Served Under Nineteen Presidents Is Dead.

Ithaca, N. Y., Nov. 7.—Roswell Beardsley, of North Lansing, who was the oldest postmaster in point of service in the United States, having held the position for seventy-four years, died today, aged ninety-three. Mr. Beardsley was appointed postmaster by John Quincy Adams, the sixth president of the United States, and had served continuously ever since under nineteen presidents. Recently he was notified by the post-office department to go to Washington, but his health would not permit.

CHICAGO SWITCHMEN VOTING.

To Strike or Accept Railroads' Proposition is the Question.

Chicago, Nov. 7.—Eight thousand switchmen are tonight voting to decide whether they will strike. Some time ago they asked an increase in wages of five cents an hour. The railroads tonight offered an increase of 2 1/2 cents an hour to helpers and 3 1/2 to foremen. It is upon this proposition the men are voting. The result will not be known until tomorrow.

ASSASSINS IN THE CABINET.

Path of Bulgarian Officials to Power is Stained With Blood.

Sofia, Nov. 7.—A sensation was created here today by the publication of alleged facsimiles of correspondence relating to the organization of plots against Premier Stambouloff and the government, resulting in the assassination of M. Stambouloff and two other members of his ministry on July 15, 1895. M. Ludskanoff, the present minister of the interior, is alleged to be directly responsible for the organization of the plot and holders of important posts under the Eastern Bulgarian company today granted its shop employes an increase of three cents an hour in lieu of their demand for five cents.

BONUS OF \$1,000,000 WANTED.

If Money is Raised Chicago University Will Take Rush College.

Chicago, Nov. 7.—Conditioned upon the raising of a million dollars by the trustees of Rush Medical college not later than July 1, 1903, the University of Chicago, it was announced today, has agreed to receive the medical school as an organic part of the university. The members of the college faculty are in hearty accord with the project, believing the future of the college as an institution of the highest medical teaching demands such union. The trustees of Rush are confident the money can be raised. This sum will be used for the erection of new buildings, the endowment of chairs of instruction, and the purchase of additional equipment. Rush college was founded in 1837 and is one of the oldest institutions of learning in the West.

HISTORIC HOUSE BURNS.

Konoshia, Wis., Nov. 7.—The historic Kimball homestead, one of the oldest in southern Wisconsin, burned today. The house was built in 1836. The collection of relics destroyed with the house was next in importance in the state to that of the State Historical society.

WOMAN SENTENCED IN IRELAND.

Dublin, Nov. 7.—Mrs. Annie O'Mahoney, proprietor of the Waterford Sun and who refused to furnish bail to guarantee she would cease the publication of boycott notices, was today sentenced to jail for two months. She is the first woman imprisoned under the crimes act.

TROOPS SAVE NEGRO FROM MOB.

Anniston, Ala., Nov. 7.—Troops ordered to jail to protect a negro suspected of assaulting Mrs. John Williams to-night dispersed a mob marching to jail with the intention of lynching the prisoner.

UPHOLDS CANTEEN

RESTORATION OF THE ARMY SALOON IS URGED BY CORBIN.

WOULD BETTER THE DISCIPLINE

EARLY MARRIAGE OF YOUNG OFFICERS IS OPPOSED.

They Should Have But One Allegiance, Declares the Adjutant General, and That to the Service—National Guard Needs New Arms.

Washington, Nov. 7.—The annual report of Major General Henry C. Corbin, adjutant general of the army, deals with every feature of the army and begins with a statement showing that the army is to be reduced by Dec. 1 to 60,000 men. The adjutant general has obtained the number and data of the kind of arms in the hands of the National Guard and finds less than 4,000 United States magazine rifles in its possession. Of the multitude of other types, he says: "This heterogeneous collection of obsolete arms is a very serious detriment to the efficiency of the National Guard, which, in organization drill, instruction, etc., assimilates closely to the regular army and should be armed with the same arms as the latter. If called into service under this deplorable condition, much trouble and vexatious delays are involved in providing the different kinds of ammunition required, and in urgent or unforeseen contingencies may lead to disastrous results."

1,250 Deaths During the Year.

The report shows that during the fiscal year thirty-five officers were killed in action or died of wounds and diseases, and that twenty-one resigned and sixty-eight were retired. Of the enlisted men, 1,227 were killed or died of wounds and disease; 35,806 were discharged on the expiration of their service; 4,988 were discharged for disability or dismissed by order of court-martial; 4,667 deserted; two are missing, and 293 were retired. General Corbin is of the opinion that the early marriage of officers should be discouraged. "A young officer," he says, "should have but one allegiance, and that should be to the service."

Clue to Train Robbers.

Express Envelopes That Contained \$18,000 Found at Indiana Sawmill.

CLUE TO TRAIN ROBBER.

Walsh, Ind., Nov. 7.—On a carrier of a saw mill at Treaty, this county, this afternoon, William Wodgumath found a bundle of twenty large envelopes, the sealing wax on which had been but recently broken. The envelopes were those used by express companies for shipping currency, and the messengers' and agents' marks thereon proved that they had contained about \$18,000, which had been shipped over the Burlington road between Omaha and Chicago. The date they bore was Aug. 19. It is supposed the envelopes were filled of their contents by the men who robbed the Burlington train and who gathered at Treaty to divide the spoils. It is thought the criminals entered the mill last night, as the envelopes were not on the carrier yesterday. The envelopes may furnish a clue to the robbers.

STRONG POINTS FOR MOLINEUX.

Concluding Testimony Much in Favor of the Accused Murderer.

New York, Nov. 7.—The taking of evidence in the second trial of Roland E. Molineux ended today, and court was adjourned until Monday, when the arguments will be made.

The sensational turn given the testimony for the defense yesterday, when Mrs. Anna Stephenson, wife of a Brooklyn policeman, said she thought Cornish was the man she saw mail the poison package, was continued today. Cornish was recalled to the stand and asked whether he had a brown overcoat in 1898. Mrs. Stephenson said the man she saw mail the poison package wore a brown overcoat. Cornish said today he had no overcoat at all that winter, and that General Black read from the minutes of the last trial to show that Cornish had testified at that time that he had only one overcoat, and that it was brown.

The husband of Mrs. Stephenson was called by Mr. Black to say that he never saw Cornish before yesterday, and therefore could not have pointed him out to Mrs. Stephenson. To Prosecutor Osborne, Stephenson said he had not reported his wife's story to the authorities because he "did not take any stock in it."

W. K. M. Olcott, of Molineux's counsel, testified he had purchased cyanide of mercury without difficulty at a drug store in this city, by saying he wanted it for photographic experiments. Professor Vulte, of Columbia University, gave evidence to the effect Molineux was in his company from noon until after dark the day the poison package was mailed. The package was mailed during the afternoon.

BOXERS SUFFER HEAVILY.

Chinese Imperial Troops Are Killing Them by the Hundreds.

Victoria, B. C., Nov. 7.—The mail advices from the Orient today include an official report detailing the recent Boxer outbreak there. After relating the incidents leading up to the destruction of churches and the murder of native converts, the report says that the Chinese soldiers, besides slaying two or three hundred insurgents, captured many others who were afterwards decapitated. In another battle 500 Boxers were killed.

At Chengtu, the Boxers attacked imperial troops, the battle continuing all night and between 400 and 500 rebels being slain. The others retreated and were engaged in battle at Huanano Chia Ping, where 300 Boxers were put to the sword. The defeated Boxers fled to the hills at Suihuawan, but reinforcements of imperial troops arrived and the expedition marched against the rebels in three different directions, slaying about 1,400 and capturing thirteen alive, who were beheaded on the spot.

GYMNASIUM SEEMS ASSURED.

Little Doubt the Mining Students' Project Will Be Successful. There is not much doubt now of the success of the project to secure a gymnasium at the Michigan College of Mines.

The "nightshirt" parade of the students Thursday evening was in a measure a repetition of the one indulged in a few evenings previous. However, it was characterized by a different sentiment than that which predominated in the first demonstration.

When the train from the south pulled in an hour and a half late, the boys were on hand at the station to escort Walter Fitch of Champion and William Kelley of Vulcan, board of control members, to the Douglass House.

There is no questioning the great need of an up-to-date gymnasium at the college. As it is at present, the boys get little or no exercise.

Several Calumet physicians are interested in a plan to build a new hospital at the copper country metropolis, and from present prospects the movement will be successful.

A public hospital in Calumet would fill a long felt want. It is just what is needed. Although there are two big hospitals, the Calumet & Hecla and Tamarack, in Calumet they are for employees of the Calumet & Hecla and the Bigelow group of mines only.

"Shall I ever be rid of this cold?" This is the daily question of a man racked by a cold that seems to tear his brains out.

COPPERDOM BREVITIES.

R. T. McKeever of Houghton left yesterday afternoon for Chicago.

United States Marshal Jacob Dolf of Marquette was a Hancock business visitor yesterday.

Two bowling alleys are being installed in the rooms of the Young Men's Catholic club at Laurium.

The Hancock city football team will play the Atlantic eleven at the Hancock Driving park this afternoon.

Howard Warder, of the Western Express office force of Houghton, has left for the Soo, where he will work a month in the office at that place.

Five thousand dollars additional insurance will be taken out on Hancock's new pump house and machinery. It will increase the insurance to \$10,000.

The Calumet and Lake Linden High school football teams will play this afternoon at Lake Linden. It will be Lake Linden's first game of the season.

Simon J. Beahan of Houghton left yesterday afternoon with his wife for Chicago, where Mrs. Beahan will submit to an operation performed by Dr. Murphy, the celebrated surgeon.

G. L. Perrault, a resident of Calumet for a number of years, has removed with his family to Hancock, which will be their future home.

The members of the Portage Lake hockey team have taken out memberships in the Hancock Y. M. C. A. The boys now have the privilege of using the gymnasium for training purposes.

Hereafter the men engaged in cleaning the Quincy street, basement, in Houghton, will be under the supervision of Marshal Ed Lee, who is also the street commissioner. He has been given the right by the council to do as he pleases in regard to the street work.

The McLachlan arson case was continued in circuit court yesterday. The state finished taking its testimony Thursday and witnesses for the defense were called yesterday.

Victor Johnson and Herman Thon, who had a crew of men at work near Mason, on the Copper Range road extension, have completed their work and have removed their outfit to the Victoria, where they will work on the power canal running from the dam to the Victoria's mill.

A mistake made in the printing of the ballots used in the recent election has been causing the county clerk considerable trouble and the county some expense.

The new officers of the Calumet Y. M. C. A. are as follows: G. W. Bodenborn, president; E. S. Grierson, vice president; Dr. R. P. Neil, recording secretary; and Dr. W. T. S. Gregg, treasurer.

Menominee reports a cow which jumped out of a moving freight car on the St. Paul road and escaped uninjured. The animal had been loaded into the car with some chattels to be shipped north, but when the car reached Bagley Junction the cow was missing.

Burglars with decidedly unique methods relieved D. H. Moses & Co.'s show windows at the Soo of a quantity of jewelry the other night.

There is no longer any doubt that a beet sugar factory will soon be built in Menominee. During the recent visit of Menominee capitalists to Bay City and other southern Michigan places to inspect the factories there a very wealthy capitalist of Bay City, who is interested in nearly every beet sugar factory in the state, is said to have stated to the Menominee men that if they did not build the factory he would build it himself.

He considers the advantages of Menominee, in location, quality of the soil, and every other way, about the finest in Michigan and he would like to build the plant himself as an investment.

He thinks that it could not help but be a success. The Menominee capitalists, however, did not intend to back out of the scheme in the least and informed the gentleman that they had the capital ready to put into the project at once.

Already \$500,000 of the \$600,000 necessary has been subscribed for, a partial list of the subscribers being: Hon. S. M. Stephenson, \$100,000; W. C. Carpenter, \$100,000; A. Spies, \$75,000; Leisen & Hines Brewing Co., \$50,000; Menominee River Brewing Co., \$25,000; G. A. Blesch, \$15,000; Menominee Abstract & Land association, \$10,000; Benjamin Boutell of Bay City, \$5,000; A. C. Merriam, Marinette, \$10,000; C. S. Brown, Marinette, \$10,000; Ira Curley, Ingalls, \$5,000.

The trial of an interesting test case which has been watched with considerable interest from the fact that there are other suits pending in which the same legal points are involved has been concluded in Justice Brown's court at Menominee.

The suit was brought by Philip Savoid, a former employee of the Menominee River Boom company, against the Boom company for back wages which he claimed were due him. The policy of the Boom company last spring was to pay men on the drive \$2.50 a day if they remained until the drive was completed and only \$2 if they quit before time.

Savoid quit before that time and was given only \$2 per day for his work. Sa-

Mr. Bodenborn succeeds Dr. Gregg as president. The latter declined a reelection. During the past year the association paid all current expenses and \$2,000 on old indebtedness.

Besides that, the building was repaired and improved in an extensive way. All the officers are well-known business men who are much interested in the work.

A. J. Scott of Hancock, president of the Northwest Development syndicate, which owns the Camborne group of nine gold claims in the Lardeau mining district of British Columbia, arrived home yesterday morning from his visit to the property.

Some of the members of the party of which Mr. Scott was one have not yet returned to their homes in Calumet or Hancock, having left their friends at various points to switch off in another direction for short visits.

Mr. Scott says the copper country men who took the trip are satisfied that the Northwestern property is a very good prospect.

Menominee reports a cow which jumped out of a moving freight car on the St. Paul road and escaped uninjured.

The animal had been loaded into the car with some chattels to be shipped north, but when the car reached Bagley Junction the cow was missing.

She was found on the streets at Menominee and the car had to be sent back and the animal reloaded. She had jumped out of the car door, which was open, while the train was between Menominee and Marinette.

Burglars with decidedly unique methods relieved D. H. Moses & Co.'s show windows at the Soo of a quantity of jewelry the other night.

The goods were taken in a manner that shows considerable patience and some originality. At intervals in the bottom of the window, sash holes are pierced to permit the entrance of cold air in winter, prevent the frosting of the glass.

These holes are less than an inch in diameter. The thieves extracted through the holes a number of rings and other small articles of jewelry, displayed in open boxes in the window. The instrument used was a long spike, with which the rings and jewelry were poked toward the holes and then drawn through. Clerks opening the store found several of the rings lying on the sidewalk, showing that the thieves had been frightened away in a hurry.

Further investigation showed that a part of the loot which was sent to the jail was drawn through the holes and the spike was also found in one of the holes. The loss will be considerable as the jewelry was almost entirely solid gold.

There is no longer any doubt that a beet sugar factory will soon be built in Menominee. During the recent visit of Menominee capitalists to Bay City and other southern Michigan places to inspect the factories there a very wealthy capitalist of Bay City, who is interested in nearly every beet sugar factory in the state, is said to have stated to the Menominee men that if they did not build the factory he would build it himself.

He considers the advantages of Menominee, in location, quality of the soil, and every other way, about the finest in Michigan and he would like to build the plant himself as an investment.

He thinks that it could not help but be a success. The Menominee capitalists, however, did not intend to back out of the scheme in the least and informed the gentleman that they had the capital ready to put into the project at once.

REVOLUTIONARY TACTICS ADOPTED

CONTROL OF LEGISLATURE SOUGHT BY THE RIVAL PARTIES.

On Ground of Fraud Republicans Plan to Unseat Teller Men and in Retaliation Democratic Senators Decide on Drastic Action.

Denver, Nov. 7.—The incoming legislature, according to the latest returns, will consist of: Democrats, 53; Republicans, 47. Should the Republican majority in the house unseat the fifteen Democrats from the Arapahoe district, as proposed, the legislature will stand: Republicans, 62; Democrats, 38.

At a caucus today of a number of Democratic members, it was decided that if the Republicans take revolutionary tactics to unseat Teller men in the house, the senate will not meet in joint session with the house and will deadlock the legislature so it would be impossible to elect a successor to Teller.

New Hampshire's Vote. Concord, Nov. 7.—Complete returns from New Hampshire show the following vote for governor: Batchelder, Republican, 41,908; Hollis, Democrat, 34,909; scattering, 1,725.

Helene, Mont., Nov. 7.—Nearly complete returns tonight show that the Republicans made a clean sweep in Montana for the first time in ten years.

LIVESTOCK RATE IS ARGUED.

Railroad Men Disagree at the Interstate Commerce Investigation.

Chicago, Nov. 7.—President Stickney of the Chicago Great Western, was before the interstate commerce commission today in the livestock rate case. He presented figures to show that the rate charged by his road was not unreasonable. His testimony was to the effect that while there was apparently a large disparity between the rates on livestock and the finished product, yet the conditions of transportation made the two rates almost equal.

W. B. Biddle, freight traffic manager of the Santa Fe, took issue with Stickney regarding the rates on livestock. He said the rates established by his company on packing house products are the same as those of the Great Western, while on the livestock it is 21 cents compared with 23 1/2 charged by the Great Western.

Several other railroad men testified and were followed by Secretary Thompson of the Chicago Livestock exchange, who submitted statements comparing the rates charged by the various roads.

No Increased Mileage Book.

BAD FOR ALLAN MASON.

Identification by Woman Recalls Another "Jack the Slugger" Case.

Baton, Nov. 7.—Mrs. Sayers of Watertown was today permitted at her own request to see Allan G. Mason, who is under arrest in connection with the recent mysterious murder. Mason was placed in line with other prisoners, and the woman picked him out as the man she believed had annoyed her in the library last summer.

This alleged identification adds another feature to the case, as it recalls another "Jack the Slugger" case in which John C. Soderquist was convicted of assault, with intent to kill, on Miss R. A. Roosevelt on Aug. 30 in the same library building referred to by Mrs. Sayers.

Soderquist was the janitor at the building and for the crime the man is now serving a sentence of seven years.

The belief was expressed at the time Soderquist pleaded guilty that he was responsible for the many mysterious assassinations on young women in Cambridge and Brookline who were beaten on the head with an iron weapon just as Miss Morton and Miss McHee were.

The police are investigating the story of Mrs. Sayers in connection with the more important details of the Soderquist affair.

COMPETITION FOR MEAT TRUST.

A National Slaughtering Syndicate Being Formed by Retail Butchers.

New York, Nov. 7.—If the plans launched by Henry Moore of this city are carried through a national slaughtering syndicate soon will be in the field against the beef trust on a proposition to give better meat for much less than present prices. Retail butchers in every state of the Union have been approached and many will put capital into the syndicate. Already 100 New York city dealers have agreed to go in and the number increases every day.

The plan provides for one great packing plant and stockyards adjacent, with fifty cold storage distributing plants all over the country at convenient centers.

Officers of state and local retail butchers' associations have been apprised of the plan and nearly all are in hearty accord with it.

"With our large concern," said Mr. Moore, "we can defy the trust and eventually put it out of business or force it to lower its prices to a reasonable level. The only obstacle to forming the syndicate hitherto has been the fear of discrimination in rates by the railroads in favor of the trust, but exposure has forced the railroads to stop this."

"It will be a co-operative company, with the retail butchers owning all the stock and taking all the profits. About 2,500 New York butchers are expected to buy stock and 10,000 in other parts of the country."

COAL OPERATORS YIELD.

Independents Agree to Abide by the Decision of the Arbitrators.

Washington, Nov. 7.—Recorder Wright of the anthracite strike commission received a telegram today, saying that it is understood a large part of the individual operators in the Lackawanna and Wyoming coal regions have agreed to become parties before the commission and accept its decision. There are about seventy of this class of operators.

Striking Miners Evicted.

Hazleton, Pa., Nov. 7.—Two companies of the First regiment stood resting on their arms while a squad of deputies acting under orders of Sheriff Albert Jacobs carried Mrs. Bannigan, an aged blind woman, out into the street on her bed during the eviction of several families at Jeddo. The pathetic scene took place on the property of G. B. Markle & Co., who had served notice to vacate on men whom they propose not to re-employ in the coal mines.

The notices gave the families six days to get out. The time expired Monday, but for political reasons, it is said, they were not enforced until after election.

The evictions have excited the people of Jeddo as no act of G. B. Markle & Co. has done in years. Throughout the region there is great bitterness manifested against John Markle, the head of the company, who is responsible for the order.

When the sheriff appeared the women appealed for a few hours' grace, so that they might get shelter somewhere for their goods and children, but his reply was that he could not give them five minutes. All the women in the town gathered together to witness the work and cried. Although helpless, they extended the hand of sympathy and took women and children into their homes while the goods remained in the street until nightfall. The eviction policy will be continued wherever persons who have been notified to vacate fail to comply.

MINING KING IS SENTENCED.

Des Moines, Ia., Nov. 7.—Judge Munger, in the federal court, today refused to grant Letson Balliett, known as a "mining king," a new trial and sentenced him to pay a fine of \$1,000 and serve a year in the county jail. Balliett was convicted last spring of using the United States mails for fraudulent purposes in exploiting a mining scheme.

MUST DIE ON THE GALLOWS.

Pierce, Neb., Nov. 7.—Judge Boyd this afternoon overruled a motion for a new trial in behalf of Gottlieb Neigenfind and sentenced him to be hanged on March 13. Neigenfind murdered his wife and father-in-law. He escaped at the time, but was captured a week after in a running fight, during which he was wounded.

Chicago, Nov. 7.—Wheat today opened rather quiet and easy, but later broadened perceptibly, with the feeling quite firm. The advance was fairly well maintained and the closing was 1/4 better. The easy start was attributable to favorable weather, large receipts and a dip at St. Louis, but predictions of snow changed the local sentiment. IMPORTANT ACCIDENTAL DISCOVERY MADE BY DESIGNERS.

Some Radical Departures That Affect the Whole Theory of Propulsion of Sailing Craft to Be Features of the New Challenger.

Glasgow, Nov. 7.—The Associated Press today learns that in Shamrock III will be embodied some radical departures in the matter of yacht construction which have not appeared in any previous challenger.

Those changes are said to be due to an accidental discovery made during the trials of Shamrock I and Shamrock II, which convinced Designer Watson that there had been a fundamental error in the construction of all recent challengers.

This discovery was made too late to admit of remodeling Shamrock II, but when its nature was explained to Sir Thomas Lipton it had great weight in deciding him to try for America's cup the third time.

Both Designers Fife and Watson are convinced that they possess solid data upon which they will be able to build a yacht superior to any previous competitor. They are certain they have evolved an idea which affects the whole theory of the propulsion of sailing yachts.

STATE OF THE NATION'S TRADE.

Weekly Reviews of Dun and Bradstreet Tell of Continued Prosperity.

New York, Nov. 7.—R. G. Dun & Co.'s Trade Review for this week tomorrow will say: "Trade and industry are making steady progress, reports from all sections containing evidences of wholesome development. An unusually large fall distribution has occurred and the current transactions in heavier goods are liberal, considering the mildness of the season. Complaints of slow freight movement are still heard, testifying to the enormous volume of business handled by the railways, which report earnings 5 per cent larger than last year and 14.2 per cent above 1900."

"It is an exception when manufacturing plants have not contracts assuring activity for many months, and the annual inventories will be taken with difficulty owing to importunate customers. The prices of commodities, proportioned to consumption, declined about 1 per cent during October. The decrease occurred in meats and fuel, mainly the latter."

The only developments of note in the iron and steel market has been a 10 per cent reduction in the price of tin plates, to take effect Dec. 1. Contracts run far into the future in structural material for bridges and buildings, while plates are sought by car works and ship yards.

"Business in wools is light, the chief inquiry being for samplers, but the wool is not delivered as rapidly as desired. The quotations are fully maintained for woolsens and worsteds, as might be expected in view of the continued strength of wool."

Bradstreet's Summary.

"The jobbing trade has continued active, at most markets exceeding last year; the spring sales are of good volume, indicating confidence, and enormous shipments of all classes of merchandise have congested the railroads, already fully equipped in trying to move supplies of fuel to consumers and the grain crops to market."

"The warm weather early in the week retarded the retail trade and slightly affected some collections, but the colder weather in the West later on stimulated the demand for heavy goods and gives promise of bettering the final distribution materially. The mild, open fall season has, however, been valuable to the farmer, enabling him to complete his farming preparations and insuring a satisfactory beginning to the wheat crop."

"Good collections are the rule, few exceptions to this being noted, and these only where the rapid marketing of grain has been interfered with or the retail demand for heavy goods held in abeyance."

"The wheat (including flour) exports for the week total 5,715,000 bushels, against 5,700,000 in this week of last year. Since July 1 this aggregate is 197,144,000 bushels, against 112,199,000 last season. The week's corn exports were 131,000 bushels, against 708,294 last year, and for the fiscal year 197,45,000 bushels, compared with 17,448,000 last season."

"The total bank clearings at the principal cities of the United States for the week were \$2,241,864,029, an increase of 10.9 per cent compared with the corresponding week of last year."

25,000 ROUTES TO BE ESTABLISHED WITHIN NEXT THREE YEARS.

Annual Cost of Complete System Figured at \$24,000,000, but It Is Believed the Increased Revenue Will Wipe Out Present Deficit.

Washington, Nov. 7.—The annual gross cost of complete rural free delivery throughout the United States will approximate twenty-four million dollars, according to the report of the general superintendent of the service.

The remaining 700,000 square miles not now covered will require the employment of 26,000 or 27,000 carriers, in addition to those now employed, making the entire force of carriers, when the extension of the service is completed within the next three years, forty thousand. After this extension is completed, the annual rate of increase in appropriations is expected to exceed the rate maintained in other branches of the postal service.

To extend the service 12,000 routes a year until it becomes universal, the report says, will require such largely increased appropriations that the annual postoffice deficits for the ensuing two or three years will probably reach \$8,000,000 or \$10,000,000, if not more; but once the service is completed the additional deficits to the present figures, if not entirely wipe them out.

With the amount required for routes to begin Dec. 1, the entire appropriation has been absorbed, leaving on Dec. 1 fully 1,700 routes for which there is no appropriation available. This number probably will be increased by Jan. 1 to at least 2,500.

On July 1 last the city free delivery service embraced 933 cities, with the total number of carriers 17,875, as against 16,389 the previous year. It is estimated that free delivery will be extended to seventy-two offices during the current year. It is also estimated that the expenditure will aggregate \$21,228,300 for the maintenance and extension of the city delivery service during the next fiscal year, including \$812,000 for the special delivery service. These figures show an increase over appropriations for the current year of \$1,822,850.

CIVIL WAR HEROES MEET.

Philadelphia, Nov. 7.—The Medal of Honor Legion, composed of Civil war veterans decorated by the government for conspicuous bravery in action, met today in annual convention in Independence Hall. Two hundred members are present. General Daniel E. Sickles of New York was elected commander.

If you are bilious and seeking advisers Take DeWitt's Little Early Risers, Just before going to bed. You will find on the morrow, You are rid of your sorrow. That's all; just enough said. These famous pills do not gripe, but move the bowels gently and easily, cleansing the liver. Their tonic effect gives strength to the glands, preventing a return of the disorder. H. CASTRO'S LATEST BULLETIN.

Venezuelan Censor Has the Rebels on the Run Again.

La Victoria, Venezuela, Nov. 7.—The news received here concerning the retreat of the revolutionists forces show that the revolutionists withdrew from their positions near La Victoria and San Mateo on the night of Nov. 1 because they were without ammunition. President Castro, since he discovered the retreat was due to absolute lack of ammunition, has caused the rebels to be pursued day and night by government soldiers.

The latest report issued by the government says that Generals Matos, Mendoza and Riera, and their commands, are fleeing in disorder in an effort to reach the mountains. Guerrillas in the service of the government have captured and brought to President Castro certain records and documents belonging to members of General Matos's personal staff, as well as the general's personal correspondence. The contents of these papers give evidence of the critical situation of the leaders of the revolution.

The government soldiers who are following the rebels scored their first success this morning by capturing General Ramon Luzzi, who was making his way in the direction of Alta Gracia with 300,000 rounds of ammunition and 2,000 men to reinforce the revolutionists.

PORTUGAL GAINS VAST REGION. London, Nov. 7.—The London agent of Dr. Carl Peters, the German explorer, has received a telegram from East Africa, stating that the powerful native monarch of Makombe had been defeated by the Portuguese, who have taken over the administration of his vast district south of Zambezi. This territory, though nominally belonging to the Portuguese, has been practically independent for centuries.

BIG SUGAR FIGHT IS BEGUN.

Beet Refiners and the Trust Cut Prices to Low Figure.

New York, Nov. 7.—The American Sugar Refining company has withdrawn all guarantees from its customers and a still further cut in refined sugar is expected. The beet sugar company has made another cut in its products at Missouri river sections and is now selling sugar ten points below the price maintained by the trust. This cut will be met.

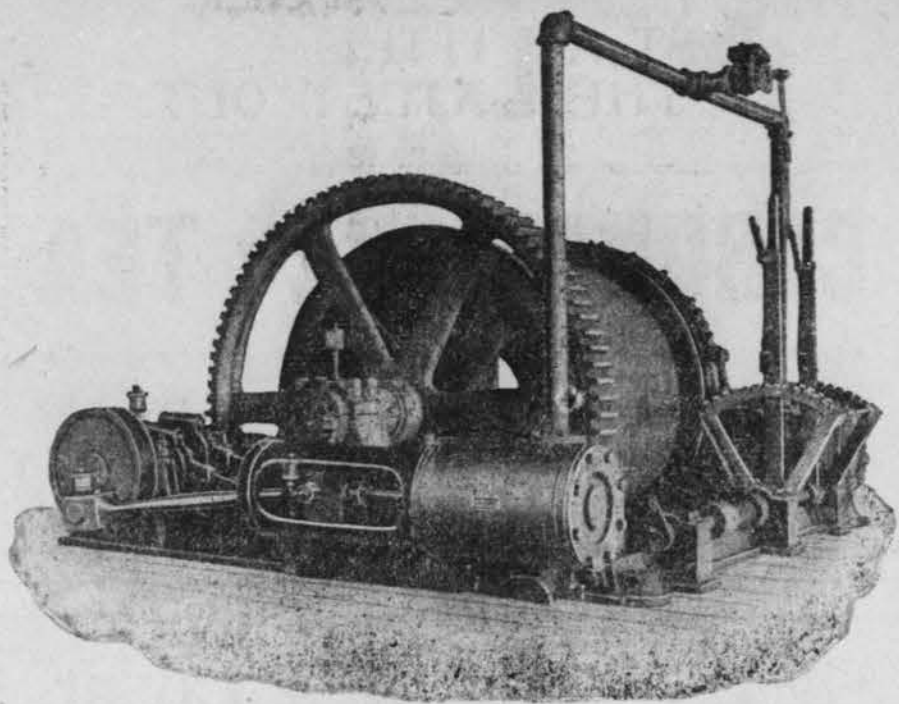

An authority in the sugar trade says he expects a big fight between the two interests. He declares that a sharp cut will be made in the local market within a few days. He also expresses the opinion that refined sugar will sell for 4c throughout the country before this fight is over. All of the Oxnard companies and the Alameda company of California are combined against the trust in this fight.

SHAW'S RELIEF ORDER RESCINDED. Washington, Nov. 7.—The treasury department has discontinued the acceptance of state and municipal bonds as security for government deposits. The transactions already initiated will be completed.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY. As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75 cents per bottle. Hall's Family Pills are the best.

COPPERS DEPRESSED.

Adverse Conditions in New York Acted as a Wet Blanket.

Paine, Webber & Co. said of the Boston market: "The unsettled conditions of the New York market, and the weakness of Sugar contributed to depress the coppers today. There was no selling pressure to speak of, however, and only a few stocks were fractionally lower. The buying of the coppers on all the reactions is of the very best and seems to indicate that plans are being made to have a better market a little later. We continue bullish on coppers and we would buy the best of them on all reactions."

Hayden, Stone & Co. said: "Coppers were again neglected. There was hardly any interest in them. There was not much change in prices. United Copper was quiet and steady at 32 1/2. The present price of Osceola has caused a good many to buy the stock. Take it up and wait for better developments."

Chicago Markets Strong.

W. H. Laidley said of the Chicago markets: "Upon rather freer receipts and continued bearish news from the southwest, wheat opened a trifle lower. The early prices, however, were the lowest, and upon very good buying, the market turned strong, closing 1/2 cent above yesterday. The receipts are comparatively small. The shipments of wheat continue large. New York reported a good demand from exporters, and twenty-two boatloads taken. The Modern Miller reports some complaint from the Hessian ship, and a scarcity of cars to meet the shipping demand. Buy wheat upon every break."

"Corn opened at about last night's close, and followed the course of the wheat market. May closing 1/2 cent over yesterday. The cash demand was much better. There is a general inclination to buy the May instead of the December option and it now looks as if this might be the best policy. It will surely sell much higher, and should be bought upon every break."

CITY BREVITIES.

Weather forecast: Partly cloudy and warmer; southerly winds, increasing in force.

The Biddle Whist club will meet this afternoon at 2:30 o'clock with Mrs. E. B. Palmer.

DeGabelle & Chiardi have just put in a line of wines and brandies from the Californian vineyards.

The children's eucharist will take place as usual today at Morgan Memorial chapel, commencing at 9 o'clock a. m.

Hon. Peter White is desirous of locating a young man named J. M. McHale. Does anybody know him or where he lives?

Mrs. Harry Vigers and daughter Nellie have returned from the copper country, where they had spent the past six weeks with friends.

J. C. Wood of Ishpeming was a Marquette visitor yesterday. Mr. Wood is about to locate in Manistique, where he will practice law.

Miss Pearl Safford, who has been visiting James Russell and family here for a couple of weeks, left for West Superior this morning.

Joe Fay and son, Harry, left for Chicago Thursday night. Harry will pursue his journey farther, being bound for the state of Arizona where he expects to locate.

Marshall Timothy Maney went down to Deerton yesterday to be in on the beginning of the big annual deer hunt. He will be out a couple of days and he expects to levy heavy toll on the antlered herd.

The steamer Republic, for Cleveland, took out a cargo from the South Shore docks yesterday. There were no clearances from the L. S. & I. The arrivals were the Parker, Waverly and Spokane, which will load at the upper harbor.

An enjoyable progressive flinch party, in honor of Miss Gene Lawton, was held last evening at the residence of John D. Williams. Forty persons were present and ten tables were played. The favors went to Mrs. S. W. Shaul and Miss Mae Richards.

The steamer Friant went up the lake yesterday with a portable sawmill consigned to J. M. Longyear's Ives Lake farm. The machinery was successfully unloaded at the Salmier Trout dock, and the boat arrived here on its return late last evening.

Among the women who have taken out licenses to hunt deer are Mrs. Orpha B. Deadman and Mrs. W. S. Shrock. It now appears that the hunters who will be out after deer this fall will include a half dozen or more representatives of the gentler sex.

Parmer Croisier, three-months-old daughter of Charles Croisier, 517 Superior street, died yesterday after a brief illness. The funeral will take place Sunday afternoon at 3:30 o'clock from the French Catholic church. The interment will be in the old Catholic cemetery.

Captain Ivey and Cadet Marshall, now in charge of the Army work here, will return to the Marquette people Sunday evening. After attending General Booth's meeting in Chicago Captain Ivey will spend a short furlough at his home in Aberdeen, S. D., before taking a new appointment. New officers will be sent to Marquette after the Chicago elections.

George Wagner, of this city, was in the Soo the other day. He is one of the lessees of the Breiting mine, twenty-three miles from the Canadian Soo on the Algoma Central, and he said at the Soo that there were 2,000 tons of ore in stock and that shipments will be made as soon as the spur leading to the mine is built. The output of the mine has been contracted for by F. H. Clergue, to be used at the big Clergue steel plant.

County Clerk Ross has issued non-resident hunters' licenses to Emil Denne, Emil Eitel, Oscar Mayer and O. L. Tossetti, all Chicagoans, who are hunting this fall, as for several seasons past, some distance out of Negaunee. These non-resident licenses cost \$25 per. The demand for licenses of the resident variety was very brisk again yesterday, as all who intend to take to the woods to try utilized the last day of grace to get fixed up with the necessary permit.

Miss L. C. Leary, representing A. W. Reckmeyer & Co., the Detroit furriers, will be at the Clifton House today and tomorrow. (11-8-19)

I am prepared to take pupils in shorthand and typewriting. Call at 219 Blaker street any afternoon or evening for terms, etc. (11-4-19) MRS. L. LOWELL

MISS MONIE BOWEY,

No. 38 Perry Street, DETROIT, MICHIGAN.

A couple of winters ago I slipped on a frozen sidewalk and fell flat on my back. On being examined I found that I had sustained internal injuries which laid me up for more than two months. After that I noticed that I had pains in the back and groin which I never had before. I doctored and doctored for several months but as the pains increased instead of growing better I decided that I was not having the right treatment.

Wine of Cardui makes women more womanly by curing their weakness and making them stronger. Wine of Cardui cured Miss Boweiy. As a medicine for all women in every trying period of their lives can you think of a better medicine for yourself, your sister, your daughter or your mother? Can you think of a more acceptable present to give your friend than a bottle of this medicine which will bring her health and happiness? You are suffering? Your duty is to rid yourself of this pain. If your daughter, mother, sister or friend is sick and in need of relief, your duty is equally great to them. Many women, now well, owe their lives to friends who brought them Wine of Cardui.

WINE OF CARDUI is one medicine that should always be kept on hand in every home for immediate use when female weakness first makes its appearance. Miss Boweiy's painful and dangerous accident would not have resulted so seriously had she taken Wine of Cardui promptly.

WINE OF CARDUI A million suffering women have found relief in Wine of Cardui.

ESCANABA EXCURSION.

Chicago & Northwestern Co. Grants a Round Trip Rate of \$2.

Ishpeming will be well represented at the Sandy City today. The high school football team will be accompanied by anywhere from 100 to 200 rosters. A list was circulated yesterday and over 100 persons agreed to go down. It is assumed that many more who were not seen will make the trip.

The excursionists will go down on the regular, but the return trip will be made on a special, leaving Escanaba at 9 o'clock. The fare for the round trip will be \$2. The regular train pulls out at 8:40 o'clock a. m.

The latest report from Escanaba is that a professional coach from one of the big colleges has been there for some days past assisting Jolliffe and Barbee in training the team. The players have been working hard and it is certain today's battle will be the game of their lives. All are said to be in fine form and the team is playing fast ball. The business places of the city will be closed while the game is on.

Will Hear from Duluth Today. Messrs. Scriber and Randall arrived home yesterday morning from Duluth, where they spent Thursday endeavoring to arrange another game with the Duluth High. The Duluth men were given the choice of three places to play, these being Ishpeming, Hancock and Ironwood. Ishpeming guarantees the expenses of the team to either place and Duluth will receive 50 per cent of the gate receipts.

Largest Number That Ever Left This City During the Hunting Season.

The deer in the woods within a radius of forty miles from here will be nearly extinct by Dec. 1, if the Ishpeming hunters, bent upon their extermination, have anything like the success they anticipate. For ten days past the officers of the license dealers have been besieged by eager sportsmen. Twenty wagonloads of men and supplies have left for the camps south of the city, where the favorite hunting grounds are located, and many more have gone in other directions. The object in starting so early is to get the deer before they begin to fatten before the opening of the season. Many say, too, that they do not care to risk their lives by passing through the hunting region when the woods are literally full of men armed with powerful rifles and sending bullets in every direction.

The campers all carry with them an abundance of food, although the life in the wilderness is very pleasant a few of the comforts of civilization in the provender line are most acceptable, and many delicacies, with a cook to help make them appetizing, are invariably included in every outfit.

The party consisting of Clark consists of William Burdick, who will officiate as cook, Fred Ongie, John Lehman, John A. Anderson, Dennis Maloney, W. C. Uren, Captain James Stevens and Richard Collick. John Lacey and J. T. Burke will join them Sunday. Last season the same party brought home six deer.

They have a very extensive layout of edibles, including turkeys, chickens, ducks and oysters. George Sedgewick and John Powers are at Camp Nine.

A party consisting of Dr. Leonard, Paul Swift of Houghton, Simon Wahlman and George A. Newberry is hunting for the deer at Camp Deerpark Sunday Joseph Gannon will join them.

Island Lake camp will be graced by the presence of W. J. Sweeney, John Stevens, Al Beeson and Guy Canfield, who leave today. J. A. Olson, Will Betterson and James Allen will go to the Dead River district today.

LOWER PRICES FOR POTATOES.

The potato dealers say that prices are about half of what they were last year at this time. The same grade of potatoes that brought seventy-five and eighty cents last fall now sell for thirty-five and forty cents. This great disparity in prices has been caused by the abundant crops in other sections of the country. The yield in this vicinity is about three-fourths of what it was one year ago but the product of Minnesota and Wisconsin, where the yield was large, can be shipped here in sufficient amount to bring the prices down to the level that prevails elsewhere. The market is liable to very sudden fluctuations that sometimes cause large dealers considerable loss and not a little chagrin. One dealer in a neighboring town said recently that he, on one occasion, had contracted to deliver two carloads, about 1,000 bushels, at thirty-five cents per bushel and before he could fill the order the wholesale price rose to forty cents and he was compelled to pay that price for both carloads, receiving the price ordinarily agreed upon, thirty-five cents.

SHE WILL HUNT DEER.

William Peters claims that he is the first dispenser of licenses in the city this season to receive an application from a member of the fair sex for a permit to hunt and kill the swift footed deer. Yesterday Mrs. O. B. Deadman appeared before him and made known the fact that she intended to try her luck as a huntress and filed an application for a license. In company with her husband, Dr. Deadman, she will spend some time in a hunting camp near Swaney.

You can give your title to the church from what you save on your coal bill if you order storm sash from the Consolidated Fuel & Lumber company. Three-fourths the usual amount will carry you through and leave you some for next August. (11-14f)

MYSTERIOUS DEATH.

Body of Michael Shea, an Old Resident, Found in a Swamp Near Republic.

The body of Michael Shea, one of Republic's oldest and best known citizens, was found in a swamp within a short distance of the St. Paul depot Thursday, shortly after noon. Philip Tronson, a lad living near the Riverside mine, discovered the body, as he was going to school.

There is considerable mystery surrounding Shea's death, and it is not known that the facts will ever be known. Foul play is not suspected, nor does anyone in the village think the man committed suicide.

Shea left home Wednesday to spend a few hours in the woods. He took a small lunch along and it was his intention to return that evening. It is supposed that he came back after dark and wandered into the swamp. It was quite dark and he was unable to see where he was going. Marks upon his body and the condition of his clothing show that he came in contact with a barb wire fence, only a few feet distant from where he lay. There was hardly six inches of water in the swamp. Shea made a desperate struggle for his life, as was evident from the condition of the mud in which he paddled. When found the body was laying face downward.

The men working on the trestle at No. 9 shafts a short distance from the swamp, heard the greater part of Wednesday night. The first noise was heard shortly after 9 o'clock. It did not occur to them that anyone was lost so near the town. It was supposed that the groans came from a sick person at one of the houses near by.

Shea is survived by his widow and several children. Two of his sons are working at the Republic mine. He was about fifty years of age. The funeral will take place Sunday from St. Augustine's church.

BARBER'S LICENSE FEE.

Agitation Started to Raise It from 50 Cents to \$1.

Local barbers are much interested in the action taken by the state convention recently held at Lansing in regard to a change in the law governing the licensing of barbers and the organization of the state board of examiners. The law as it now stands provides for a board of three examiners, appointed by the governor. These examiners hold office for three years. They are required to hold at least four examinations and as many more as are necessary at different places in the state, one meeting to be held in this peninsula. They are to examine applicants in regard to everything that a first class wielder of the razor should know and if the applicant is successful he is granted a certificate, for which he is taxed \$1. This certificate must be renewed each year at a charge of fifty cents and it is a penal offense to do business without a license.

The amendments proposed at the convention would effect a radical change in the present law. In the first place it is suggested that the board be enlarged to five members, one to be from the upper peninsula, and that the term of office be extended to five years. Each member would be obliged to pass an examination before the state board of registration in medicine to test his knowledge of the hygiene of the face and scalp; he would have to have been a resident of the state for at least three years and to have been actively engaged in the practice of the profession for at least five years.

The officers of the board would be three, president, secretary and treasurer, and would hold their positions for one year. All the members of the board would receive three dollars per day for actual time, with exception of the secretary who would devote his entire time to the work and get a yearly salary of \$1,000 and expenses amounting to \$500. The secretary and treasurer would be required to give bonds for \$5,000 and \$6,000, respectively.

That comes the proposed change that is of the most general interest. It is recommended that the examination fee be increased to \$3 and the yearly fee to \$1. No credit would be given to persons who have formerly.

HAVE YOU GOT RHEUMATISM?

A Common Sense Remedy.

The quickest, safest and altogether the best way to stop Rheumatism and Gout, drive out the impurities of the blood, is to use the famous Gloria Tonic. It is a strictly scientific discovery of nature's most wonderful blood purifying properties and goes right to the seat of the disease and removes the cause. This is the reason why it has cured so many thousands of decrepit persons, whom no other remedy would neither cure nor benefit. You know yourself that when your blood is pure, blood diseases and Rheumatism can not exist.

Immediately after this remedy has been taken the sharp shooting pain of Rheumatism, Gout, Lumbago, Sciatica will be eased. The inflammation and swollen joints are quickly reduced. Tetter, Salt Rheum, Eczema, Scrofula will disappear. There is no need of taking morphine or other sleep producing drug to dull the senses. Gloria Tonic does not dull the senses, it does better, it expels all poisons causing such ailments. Don't spend your life in bodily torture, waiting for some unknown remedy to take effect. Take a complete course of Gloria Tonic at once and you will soon have freedom of body and mind. Gloria Tonic is a common sense remedy—it removes the cause of disease, thus it is not like a liniment which only treats the symptoms.

Take it when your muscles are sore and stiff, the joints dry and painful and refuse to act, and the entire body feels like a sore. Gloria Tonic will cause nature to re-adjust herself at once.

Gloria Tonic sells at all leading drug stores at \$1.00 a package. Big illustrated book on rheumatism testimonials, etc., all mailed free. Address: JOHN N. SMITH, 621 Germania Bldg., Milwaukee, Wis.

who have served time in so-called barbers' colleges, nor would they be regarded as apprentices. Barbers would be required to sterilize all tools and utensils according to methods prescribed by the board. Apprentices who have not served the two years necessary to become full fledged barbers would be charged an annual fee of fifty cents. Power would be given to the commission to revoke licenses for any causes they deemed sufficient, among which the use of liquor to excess is mentioned. The penalty would be doubled. Fines ranging from \$10 to \$100, or imprisonment from ten to ninety days, would be the punishment visited upon those doing business without holding a license or employing any lady who does not hold one.

If the proposed amendments were enacted into a law that would be carried out in the exact spirit in which it was drafted much benefit would certainly result both to the barbers and their patrons. Incompetent men would be debarred and all who have suffered at the hands of incompetent barbers would rejoice if such a result could be brought about. But there is the danger, that at ways threatens when nice, easy jobs can be secured by political appointment, that the men of influence in political circles would be besieged by a horde of grafters who would get the offices. But, in any case, the new law would be a vast improvement over the present law, in which no experience as a practical barber is required on the part of the examiners.

WILL GIVE ANNUAL BALL.

At the regular meeting of Hematite Lodge, Brotherhood of Railway Trainmen, of this city, to be held Sunday afternoon, committees will be named to complete arrangements for the society's second annual ball, which will take place at the Anderson hall on the Monday before Ash Wednesday. This lodge gave one of the most successful parties of the year last February, and it is certain this year's function will be in keeping with the first annual.

NOTICE.

Health of Women

Health and beauty are the glories of perfect womanhood. Women who suffer constantly with weakness peculiar to their sex cannot retain their beauty. Preservation of pretty features and rounded form is a duty women owe to themselves.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound removes such troubles.

Case of this Prominent Chicago Woman Should Give Everyone Confidence in Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—It affords me great pleasure, indeed, to add my testimonial to the great number who are today praising Lydia E. Pinkham's Vegetable Compound. Three years ago I broke down from excessive physical and mental strain. I was unable to secure proper rest, also lost my appetite, and I became so nervous and irritable too that my friends trembled, and I was unable to attend to my work. Our physician prescribed for me, but as I did not seem to improve, I was advised to go away. I could neither spare the time nor money, and was very much worried when, fortunately, one of my club friends called. She told me how she had been cured of ovarian troubles, and how like my symptoms were to hers, seven bottles of your medicine cured her, and she insisted that I take some.

"I did so, and am glad that I followed her advice. Within six weeks I was a different woman, strong and robust in health, and have been so ever since.

"A number of my friends who have been troubled with ailments peculiar to our sex have taken your compound, and have also been greatly benefited."—MISS ELIZABETH DALEY, President of the St. Ruth's Court, Order of Foresters, Catholic.

What is left for the women of America, after reading such letters as we publish, but to believe. Don't some of you who are sick and miserable feel how wicked you are to remain so, making life a burden for yourself and your friends, when a cure is easily and inexpensively obtained? Don't you think it would pay to drop some of your old prejudices and "try Lydia E. Pinkham's Vegetable Compound, which is better than all the doctors for cures?" Surely the experience of hundreds of thousands of women, whom the Compound has cured, should convince all women.

Follow the record of this medicine, and remember that these cures of thousands of women whose letters are constantly printed in this paper were not brought about by "something else," but by Lydia E. Pinkham's Vegetable Compound, the great Woman's Remedy for Woman's Ills.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Moral—stick to the medicine that you know is the Best. Write to Mrs. Pinkham for advice.

\$5000 FORFEIT if we cannot forthwith produce the original letter and signature of above testimonial, which will prove its absolute genuineness.

NEW ROAD FINISHED.

Street and Highway Committee Makes Report on Cost of This Thoroughfare.

A regular monthly meeting of the city council was held Thursday evening. The business committee was disposed of rapidly and the session was one of the shortest of the year.

The committee on streets and highways reported that the cost of building the new road leading to some of the farms in the eastern part of the city was \$28,225. Of this sum, \$14,935 was for labor on the road. The next largest item, \$41, was for cutting posts and building fence. Wire staples used on the job cost \$23.18. The report was accepted.

On recommendation of the street and highway committee, a transfer of \$5,000 from the general to the street and highway fund was directed.

John Allen and others asked for an extension of the water main to their homes. The petition was referred to the committee on water works, with power to act.

On recommendation of the committee on water works, Messrs. William Stephens and Charles Peterson were exempted from the payment of water tax until April 1.

Mayor Will Hustle for Coal.

The council directed Mayor Houle to do his best to secure coal for the city building and hose houses. His honor is in the coal business, and he rather expects to have coal for his patrons before long. He has received some encouragement from the wholesalers within the past few days. He has orders for several hundred tons on his books.

The police officers are to have new caps at the expense of the city. The purchasing committee was instructed to buy them.

The committee on lighting was granted further time to report on the petition of the Gas company, asking for a thirty-year renewal of its franchise.

The cemetery committee advised the council that a new fence has been built at the cemetery. The committee was empowered to dispose of lots in the new portion of the plat.

The committee on sewers was empowered to allow Frank Koob to connect his Mitchell avenue property with the system.

The committee on streets and highways reported that the city is entitled to thirty feet along the forty line between the McDowell road and the new Goose lake road on the Cleveland-Cliffs Iron company's property.

The special assessment roll for the new sewer extending between Park and Case streets, eastward to the Baldwin Kiln road, was approved.

"JESSE JAMES, THE BANDIT KING."

The new melodrama, "Jesse James, the Bandit King," produced by Manager Jack Hoeller, comes to McDonald's Opera House Thursday, Nov. 13. The production possesses many points of superiority, chief of which are the innate excellence of its plot, the originality of its story, its thrilling situations, startling climaxes and clever comedy. Added to these are expensive scenery, mechanical effects and a large cast of capable actors and actresses.

A SPECIAL RATE.

After much negotiation a rate of \$2 has been secured from the Northwestern road for the round trip from here to Escanaba today. Tickets will be good on the 8:50 train in the morning and a special train will leave Escanaba at 9 p. m., so that ample time will be given people from Negaunee and Ishpeming to see the Ishpeming-Escanaba game.

ANOTHER WONDER OF SCIENCE.

Biology Has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam delved, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newell's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it gets the vitality; causing itching scalp, falling hair and finally baldness. Without harsh hair washes and luxuriantly. Herpicide at all druggists. It is the only destroyer of dandruff.

A CROWDED HOUSE.

It Heard the Sterling Opera and Concert Company Last Night.

The first number of the concert and lecture course arranged by the ladies of St. Paul's church was given last night before a large and well pleased audience. The Sterling Concert company was the attraction, and if every other entertainment fulfills anticipations so well as was the case with the initial number, the ladies can be assured of a most successful course. Every member of the company is possessed of a good voice which was used with true artistic feeling to interpret the parts that each assumed. They presented the second act of the opera "Martha," and the two act comic opera, "A Capital Joke," two lyrical songs, and a recitation entirely different treatment, and each member displayed rare skill in bringing out and emphasizing the delicate shades of feeling.

Miss Julia E. Van Deusen, the accompanist and reader, performed her part most acceptably. Her reading between the two operas were warmly applauded. The entertainment will be repeated at McDonald's Opera House this evening.

LARGEST GUNS Afloat.

The guns to be placed in the turrets of the new battleships Connecticut and Louisiana will be the largest and most powerful, having the advantage of increased velocity and penetrating power. With such weapons to defend us we need have no fear of foreign invasion in times of war, nor need persons suffering from stomach, liver or kidney troubles have any further fear if they will only protect their system with Hostetter's Stomach Bitters. No better medicine for insomnia, nervousness, indigestion, heartburn, dyspepsia, liver and kidney troubles, or malaria, fever and ague can be found. It is therefore deserving of a trial, especially if you wish to recover your health again. The genuine has our Private Stamp over the neck of the bottle.

LOCAL LACONICS.

H. W. Reade of Escanaba was in the city yesterday.

A daughter was born to Con Driscoll and wife Wednesday.

H. Bennett, of Lake Linden, is here for a week's visit with his son Alfred.

Bert Reed, of the Pittsburg and Lake Superior Iron company, was here Friday.

A. F. Boax of Green Bay, representative of Reed, Murdoch & Co. of Chicago, was in town yesterday.

Charles Muck, Jr., went yesterday to Norway, where he and Mrs. Muck visited their daughter, Mrs. Croll.

P. B. Kirkwood has invited a party of his friends to spend a portion of the deer season at his camp at Little Lake.

T. A. Olin and A. Boulton have gone out into the woods a few miles from town to prepare their camp for the hunting season.

Fred LaVigne is back at his old place behind the counter at Nikander's pharmacy. He has been out of town for the past month.

Louis Corbett had surveyors here from Marquette yesterday, establishing the correct boundaries of the Fassbender farm, two miles north of the city.

Dr. Paddock came here from Menominee Thursday and, together with his friend, H. Keith Maitland, went to Maitland's camp at Bass lake yesterday.

A. F. Willman, F. E. Nightengale, J. W. Gouge, Lewis Peterson and Benjamin LaLonde are going out to their camp between Swanzy and Floodwood this afternoon.

Frank, John, Peter and Henry Larson, Paddy Dowd, Peter Belstrom and Stephen Williams, with Thomas Thomas as cook, all going down in the vicinity of Swanzy, provided with deer licenses.

The Sterling Opera company, which held the boards at the opera house last evening, will repeat its entertainment tonight. A packed house greeted the company last evening and was well pleased with the production.

John Stewart, who was called to Oshkosh, Wis., ten days ago by the serious illness of his son John, returned yesterday, bringing his son with him. Mr. Stewart, Jr., is very sick with influenza.

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells absolutely free of the most distressing cases. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

HIGH SCHOOL NOTES.

Football Team Has Disbanded for the Season of 1902.

At a meeting of the high school football team, held Thursday afternoon at the close of school, the eleven, by a unanimous vote, decided to disband for the season, the reason being the large amount of school work which must be made up during the present semester.

At this meeting Superintendent Thompson gave the boys a very interesting and instructive talk on character and manhood.

Captain Lewis followed with a few well chosen words, thanking the boys for their obedience to him.

A vote was taken for next year's captain. Fred Kraft was elected by a large majority. The boys are to be congratulated upon their choice, as

evening, would appear to be embodied in the following statement:

In the spring George E. French and F. B. Spear and Sons made a price of \$2.20 a barrel on the cement to be consumed by the city during the year.

The council ordered the street commissioner to divide the business at this figure. This he intended to do, according to his statement last evening, but he took his own way of doing it.

Owing to the fact that Mr. Spear and Mr. French furnished cements of two different shades of color, he decided to buy all Spear's cement for the first half of his season and then to switch over to French.

He bought from the former at the rate of \$2.20 a barrel, until August 12, when he asked Mr. French to commence furnishing the supply.

As the price of the cement had advanced to \$2.50 per barrel simultaneously with this request, Mr. French declined to carry out his agreement by furnishing the material at \$2.20.

Thereupon the street commissioner returned to Mr. Spear as a source of supply, but he began to pay \$2.50 a barrel for the stuff, and in the intervening time some 800 barrels have been bought and paid for at that price.

This was news to the aldermen last evening, the commissioner not having called the matter to their attention, and they promptly decided that Mr. Spear was liable for the increased charge of thirty cents a barrel, they holding that he was bound by the wording of his agreement. Thus the action outlined above. The warrant in Mr. Spear's

at present a very dark and dangerous thoroughfare.

The street commissioner was instructed to have the trap door in the cement sidewalk in front of the new Werner block changed, the present door projecting above the walk and constituting a menace to the life and limb of the pedestrian public.

The police committee was notified to have the marshal warn the merchants against obstructing the sidewalks with barrels and packing boxes.

AN ENGLISH AUTHOR WROTE:

"No shade, no shine, no fruit, no flowers, no leaves—November!" Many Americans would add no freedom from catarrh, which is so aggravated during this month that it becomes constantly troublesome. There is abundant proof that catarrh is a constitutional disease. It is related to scrofula and consumption, being one of the wasting diseases. Hood's Sarsaparilla has shown that what is capable of eradicating scrofula, completely cures catarrh and taken in time prevents consumption. We cannot see how any sufferer can put off taking this medicine, in view of the widely published record of its radical and permanent cures. It is undoubtedly America's Greatest Medicine for America's Greatest Disease—Catarrh.

the ballots cast on the head of the ticket, was 4,208, divided as follows:

Bliss, 3,195; Durand, 830; Westernman, 190; Wawles, 34. Bliss' majority was 2,965, he running only 95 votes behind County Clerk Ross, who made the best showing. H. O. Young of Ishpeming ran a little further behind, his opponent, Mr. Power, being the only Democrat the total of whose vote mounted above 1,000.

In the second representative district the vote for Representative Bryns was 1,883 as against 441 for Mr. Thomas.

Both amendments to the state constitution carried. There were 2,291 ballots cast in favor of that relative to abolishing the publication of the general laws of any session in any newspaper, compared with 805 against. There were 1,764 votes in favor of the amendment providing for indeterminate sentences and but 588 against.

The total vote of Ishpeming and Negaunee is omitted from the accompanying table, as it is not footed in the official returns, being stated by wards.

FROM AN AUCTIONEER.

Col. C. H. McDonald of Greenville, Ill., in a letter May 1st, 1901, says, "I am an auctioneer and being often exposed to the weather, am seriously troubled by my throat becoming irritated and hoarseness following. When troubled in this way, I always use Hart's Honey and Horehound. It is the only remedy that has ever done me any good, and it positively cures." Sold by the People's Drug Store.

The boys then disbanded, with three cheers and a tiger for the coach and captain.

Work! Work!! Work!!! is the present high school motto.

The high school pupils are very much pleased with the new recitation seats, which were ready for use Monday morning.

President Grawn of the Mt. Pleasant Normal and President Cheever of the Milwaukee Normal visited the new high school building during the week, being much pleased with it.

At a Junior class meeting held yesterday afternoon the following officers were elected: President, Wilbur Van Egan; vice president, John Manthei; secretary, Albert Graunstadt; treasurer, Joseph Rogers. Thirty-four members are enrolled in the Junior class.

Owing to the fact that a larger and wider choice of courses has been provided in the high school an additional teacher has been added to the corps. Miss May Logeman, a graduate of the Northwestern University, has been chosen to assist in English and German.
