DOUKHOBORS RESIST FIGHT WITH POLICE WHEN THEIR PILGRIMAGE IS STOPPED. FORCIBLY LOADED INTO TRAIN. DESPERATE STRUGGLE IS ENACTED FOR OVER AN HOUR. Heavily Guarded the Fanatics Are Returned to Their Homes, but the Outlook Is For Still Further Trouble.

Winnipeg, Nov. 9.—The Doukhobors arrested last night and taken by special train from Minnedosa to Yorkton were today kept in the cars, closely guarded by mounted police. Although victorious at Minnedosa, it is a question yet to be decided if the government will not be defeated in its effort to take the Doukhobors back to their villages. Minnedosa dispatches report stormy scenes during the entraining of the pilgrims there. After repeated interviews with Seikroff, leader of the fanatics, Agent Spears decided to use force, and, grabbing the leader by the shoulders, he pushed him out of the building in which the Doukhobors were and called upon the policemen to bring the rest. As they came out the fanatics locked themselves together, each man clinging to his neighbor, thus making a solid body. The citizens turned out to help the police, but it was hard work to pry the fanatics apart; it taking four or five men to pull one Doukhobor from the interlocked mass. Most of the Doukhobors fought every inch of the ground. The scene was one never equalled in Canada. One citizen's ear was nearly bitten off, a Doukhobor's ankle was broken and there were many other minor mishaps. A few went to the coaches alone, but the majority were carried bodily, dragged, pushed along, or loaded into the wagons of farmers who had gathered to see the fight.

Loaded Like Cattle. Minnedosa, Man., Nov. 9.—After one of the most exciting incidents in the history of the Northwest, the Doukhobor fanatics have been forcibly entrained, loaded in cars like cattle and are now guarded by a large detachment of mounted police, who are kept busy preventing the Russians from throwing themselves from the car windows. The train left here last night and was scheduled to arrive at Yorkton today, when the mounted police will drive the Doukhobors to their northern villages, ending perhaps the most remarkable experience in Canadian history. The Doukhobors attempted to resume their journey yesterday morning with the mercury 10 degrees below zero. The authorities held them until the military special arrived. They refused to return to their homes and their leader urged them to resist. Fifty made a rush and the police charged with them, carrying them bodily to the cars. Then the farmers, townspeople and police threw themselves on the other Doukhobors and dragged or carried them to the station. The fanatics struggled desperately and gave voice to their weird chant. The struggle continued over an hour, the ground at the station being covered with a seething, excited crowd. When the cars were reached the stalwart police handed up the kicking Russians, who were thrust into the dark, cold coaches like cattle, and the foreigners threw themselves against the windows and doors barred to prevent their escape. About twenty escaped and are on the prairie in a temperature that means death to them.

KAISER DRAWS BIG CROWDS. Large Throngs Out to See Him and the King Go to Church. Sandringham, Eng., Nov. 9.—Perfect weather brought large crowds of visitors to Sandringham today in the hope of seeing Emperor William of Germany. The approaches to the church were lined with spectators. Queen Alexandra, the Prince of Wales and Mrs. Chamberlain arrived at the church together, followed half an hour later by King Edward, Emperor William, Prime Minister Balfour, Colonial Secretary Chamberlain and other distinguished persons. The bishop of Ripon preached on the "Grand Brotherhood of Man." He referred to King Edward's recovery from his illness, to the visit of Emperor William and to the ties that have long united Germany and Great Britain. At the close of the services the two monarchs walked together through the gardens. During the day King Edward received many birthday gifts, that from Emperor William being a valuable vase. The King's birthday has been the occasion of the bestowal of numerous decorations, but no new peerages are being created.

ASHES COVER SHIP'S DECK. Steamer from Mexico Reports a Thrilling Experience Near a Volcano. San Francisco, Nov. 9.—The steamer Luxor, from Hamburg, reports an unusual experience Oct. 25 at San Benito, the lowermost port of Mexico, thirty tons of volcanic ashes from the volcano of Mount Quomad falling on her decks as she lay off shore waiting for her cargo to be lightered. The sky suddenly grew pitchy black, and ashes softly fell on the steamer's decks to a depth of several inches. The panic-stricken passengers begged the skipper to put to sea, and he finally did so. The rain of ashes continued for

twenty-four hours and the steamer's decks were covered a foot deep. When thirty miles at sea, after leaving San Benito, passengers on the Luxor heard deep detonations and felt repeated earthquake shocks. There was also a visitation of myriads of birds and butterflies. CRITICISES HAY'S NOTE. Prominent Rabbi of the East Talks of the Rumanian Jew. Philadelphia, Nov. 9.—Rabbi Joseph Krauskopf, one of the best known Hebrew clergymen in the East, today delivered a sermon entitled "Secretary Hay and the Rumanian Jew," in which he criticised the note sent by the secretary to the European powers on the question of the Rumanian Jews. Dr. Krauskopf said three months have passed since the note was issued, and the results anticipated had not yet come to pass. The secretary, Dr. Krauskopf said, would have written the name of the United States immortal on the moral history of mankind had he invited the Jewish refugees to this country and had he turned to Christian Rumania and invited it to put an end to the persecution. "Had these words been spoken," he said, "it would have shown our interest to be one of humanity, and not of self. It is the self-protective spirit of the Hay note that impairs its effectiveness."

ELECTION FRAUDS IN PORTO RICO. Senator Spooner to This Week Call President's Attention to the Matter. Madison, Wis., Nov. 9.—Senator Spooner has decided to call the president's attention to the reports of political irregularities in Porto Rico, and will probably ask that an official investigation be made. Senator Spooner left for Washington last night, having been called there by the president for a conference on his coming message to congress. He will bring the Porto Rican subject to the president's attention this week. Colonel George W. Bird of this city, father of Hobard S. Bird, publisher and editor of the San Juan News, has laid before Senator Spooner evidence tending to prove that certain prominent members of what is known as the Federal party of the island are being maliciously prosecuted for political activity. It is alleged that during the campaign that ended last Tuesday threats were made against the lives of Federalists should they attempt to vote.

TRAINS MEET IN FOG. Express Running at High Speed Crashes into Freight—Three Men Victims. Huntinghouse, W. Va., Nov. 9.—In a collision that has been a Norfolk and Western express and an extra freight train near Williamson, W. Va., Express Messenger Snyder of Plattburg, Va., was instantly killed and Engineer Jackson and Fireman Eakins were seriously hurt. The collision occurred in a heavy fog. The express train was running fifty miles an hour.

Six Persons Hurt in Missouri. Jefferson City, Mo., Nov. 9.—A Missouri Pacific passenger train ran into a switch engine here this afternoon, and six persons were injured. George P. Griffin, of Chicago, president of the Brick Layers & Stone Masons' International union, was internally hurt.

RIOTING IN FRANCE. Miners Vote to Continue the Strike and the Disorders Renew. Paris, Nov. 9.—The government is taking precautions to handle another outbreak of the striking miners in case the decision reached last night to continue the strike is followed by violence. In Lens (Pas de Calais), soldiers last night charged and dispersed fifteen thousand riotous strikers. Considerable minor damage was done. It is reported from Denain that at a meeting of two thousand miners held there today, it was voted to continue the strike. Denain is patrolled by troops and is quiet.

TO DRIVE OUT EVIL SPIRIT. Companions of an Alaskan Indian Put Him to Death by Torture. Tacoma, Wash., Nov. 9.—Adventurers from Skaguay and Juneau give today of atrocities practiced upon a Hoonah Indian by companions who, thinking him possessed of the devil because subject to epileptic fits, hacked his body frightfully and finally buried him alive in their efforts to drive out the evil spirit, his scalp being cut out inch by inch. "THE STRENUOUS LIFE." French Translation of Roosevelt's Book Arouses Interest at Paris. Paris, Nov. 9.—The translation into the French of President Roosevelt's book, "The Strenuous Life," which appeared here last week under the title of "La Vie Intense," has aroused much interest. The translation is by Princess De Fancigny Lucigne and Jean Izonlet, who declare their work was authorized by Mr. Roosevelt. GEN. WOOD ARRIVES HOME. New York, Nov. 9.—General Leonard Wood, who with Generals Corbin and Young represented this country at the German army maneuvers, arrived home today on the steamer St. Louis, accompanied by his family. BOILER EXPLOSION IS COSTLY. New York, Nov. 9.—Two men were killed and one of the pumping stations of the city water works at Queensborough was destroyed today by the explosion of a big boiler which furnished power for the pumps. FORECAST OF THE WEATHER. Washington, Nov. 9.—The following is the weather bureau's forecast for Upper Michigan: Snow and colder, Monday; Tuesday, fair.

GAME ENDS IN A TIE. NEITHER ISHPEMING NOR ESCANABA ABLE TO SCORE. BATTLE ON GRIDIRON EXCITING. DECLARED THE BEST CONTEST IN PENINSULA HISTORY. Hematite Players Have the Better of Their Opponents, but Though Within Eight Inches of the Line Are Unable to Make Touchdown. Escanaba, Mich., Nov. 9.—The Ishpeming-Escanaba football game played here Saturday is declared to have been the finest gridiron exhibition ever seen in the upper peninsula. Neither team scored, but Ishpeming carried the ball to within eight inches of Escanaba's goal, where the local team held for downs. Three or four times during the game Escanaba's goal was in danger, while the thirty-yard line was the nearest the ball ever came to Ishpeming's goal. Most of the playing was in Escanaba's territory. The weather was perfect, and upwards of 1,500 persons saw the team struggle for the championship. The Ishpeming team was accompanied by over one hundred rooters. Escanaba Football Crazy. For some years past Ishpeming has had the reputation of being the "craziest football town" in the upper peninsula, but now it is a question if that title must not be conceded to Escanaba. The local eleven has been doing such good work that the Escanaba people were satisfied it stood a good chance of taking the championship. This impression was so strong that there was a barrel of Escanaba money in sight. The sportsmen were offering even money and not a few bets were made on that basis. Even Mayor Gallup had the football fever, as shown by the following proclamation issued by him a few days before the game: "There will be a contest between the Escanaba and Ishpeming football teams at the city of Escanaba on Saturday, the 8th day of November, 1902. Football is classed as one of the foremost and manly sports in this country. The two teams represent, in a large degree, their respective cities, and it is proper that all should be given an opportunity to witness this contest. For that purpose, I therefore, in the name of the city of Escanaba, request all persons to close their places of business on the above date, from 1 o'clock p. m. until 4 o'clock p. m. of said day. Given under my hand and seal, this 6th day of November, A. D. 1902. George Gallup, mayor."

There will be a contest between the Escanaba and Ishpeming football teams at the city of Escanaba on Saturday, the 8th day of November, 1902. Football is classed as one of the foremost and manly sports in this country. The two teams represent, in a large degree, their respective cities, and it is proper that all should be given an opportunity to witness this contest. For that purpose, I therefore, in the name of the city of Escanaba, request all persons to close their places of business on the above date, from 1 o'clock p. m. until 4 o'clock p. m. of said day. Given under my hand and seal, this 6th day of November, A. D. 1902. George Gallup, mayor. Shortly after the Ishpeming delegation arrived here a hardware store where tin horns were sold was located. There was a rush that the hardware man never anticipated. The Escanaba people also got out after horns, and within an hour every "tooter" in the city had been purchased. The result was a great din at the grounds, even the brass band being completely drowned out by the horn blowers. The Ishpeming delegation was small compared with Escanaba's crowd of rooters. The blue was pretty well scattered, but it looked lost among the great mass of yellow and black. Everything passed off pleasantly and the best of feeling prevailed all day. Officials Did Good Work. The game is declared to have been the most scientific and fastest ever played in the upper peninsula, and best of all there was no occasion for disputing any of the decisions. The referee made but one error that involved a point not discovered until after the game. Ishpeming had the ball on Escanaba's ten-yard line. Two downs were played without gain. Captain Peterson attempted to kick goal from the field and an Escanaba man blocked the kick. An Ishpeming man got the ball, but the referee gave the ball to Escanaba because Ishpeming had failed to make the five yards. According to the rules, the ball should go to the team securing it, when an opponent is the first to touch the ball in blocking the kick. While this might have made some difference in the result, the Ishpeming do not blame the referee, who acted conscientiously in the matter. Arthur Redner, a student of the Michigan College of Mines, had been selected by the managers of the teams to referee. Redner hails from Bessemer. A couple of years ago he held a place on the Michigan football team. He reached Ishpeming on the 4 o'clock train Saturday morning. He went to the Nelson, where he was assigned Room 3, but by some blunder he was taken to Room 4. A call was left for Room 3. About five minutes before the train pulled out for Escanaba the man in Room 3 got up. It was then discovered that Redner was in Room 4, but it was too late to get him out in time to catch the train. Charles F. Juttner, also a former Michigan player, whose home is at Menominee, and who had been chosen as official linesman, was substituted as referee. William Takaki of Bessemer was umpire. D. D. Randall of Ishpeming and Professor Miller of Escanaba were the timekeepers.

How the Game Was Played. Ishpeming won the toss and Escanaba kicked from the center of the field in its favor. The ball was kicked to Nelson on the fifteen-yard line. He advanced ten yards, when he was downed. The ball was carried by short gains of from one to four yards to the center of

ROOSEVELT TO HUNT BEAR. Goes Into Camp Next Week in Mississippi With Three Governors. Memphis, Nov. 9.—President Roosevelt and party will hunt bear in the vicinity of Greenville, Miss., next week as the guests of Governor Longino of Mississippi, Governor Davis of Arkansas and Governor Hearns of Louisiana. They will remain in camp until the morning of the 19th, when they will return to Memphis in time to participate in the ceremonies to be given in honor of General Luke E. Wright. ACCUSES SUSPECTED CLUBMAN. Negro Jailed at Boston Declares Mason Gave Him Dead Girls' Watches. Boston, Nov. 9.—After having given out last night the confession made by the young negro, George Perry, with reference to selling watches taken from the murdered woman, Clara Morton, and Agnes McPhee, the police admitted today that Perry declares that Allan G. Mason is the man from whom he received these articles. This admission of the police was made just before Perry was taken to jail in East Cambridge, where Mason, who is a prominent Boston man, is under arrest on the charge of killing Miss Morton and is confined pending his hearing tomorrow. In the jail corridor Perry positively identified Mason as the man who had given him the two watches. Mason merely said: "I do not know this man; I never saw him before." SHOOTS HER HUSBAND DEAD. New York Woman, in Self-Defense, Kills Her Companion of Many Years. Binghamton, N. Y., Nov. 9.—Mrs. Enoch Hink shot and killed her husband, aged fifty-three, near here today. They had been married for twenty-three years. For some time Hink had been very jealous of a nephew who lived at the Hink home. Early this morning Hink came home drunk and attacked his wife with a knife, running her out of the house in her night clothes. She returned and secured a shotgun, and when the husband came back to the house and again attacked her she shot him dead. The charge entering his body just over a heart. The coroner says it seems to be a case of justifiable homicide, and Mrs. Hink has not been arrested. Iowa Boy Shoots Father. Marna, Ia., Nov. 9.—L. J. Giles, who attacked his wife at their home here today, was shot and perhaps fatally wounded by his son. Giles and his wife were divorced a number of years ago, but were recently remarried. CROWD THREATENED LYNCHING. Street Car at St. Louis Collides With a Wagon—Eight Persons Hurt. St. Louis, Nov. 9.—A wagon containing twelve persons was run into by a street car here tonight and eight persons were injured. The crowd attracted by the crash made threats of lynching the motorman and car conductor, but police interfered. Leretto Sefton, ten years of age, was injured internally and was taken to a hospital. The others received severe bruises, but were able to go to their homes. THREE DROWN NEAR ALPENA. Sailboat With Five Persons on Board Capsizes in Whitefish Bay. Alpena, Mich., Nov. 9.—By the capsizing of a sailboat today in Whitefish bay, George Millard, Alexander Cyr and Anthony Monsor were drowned. Two other occupants of the boat were saved by men who saw the accident and put out from shore in another boat in time to pick them up. The other three sank for the last time before help reached them. A VICTIM OF BURGLARS. Harry Allmang, Baseball Pitcher, Mortally Shot at Mason, W. Va. Mason, W. Va., Nov. 9.—Harry Allmang, a pitcher who had signed with the Cincinnati ball club for the coming year, was shot and mortally wounded here early this morning by burglars he found at work in the postoffice as he was returning home. The bullet entered his back and lodged in a lung. When Allmang had fallen the robbers took \$850 from him. MYSTERIOUS DEATH AT DULUTH. Body of Edward Mahoney, Deputy Sheriff, Found on Lake Shore. Duluth, Nov. 9.—Edward Mahoney, deputy sheriff and former trainer of the Duluth Boat club, was found dead on the lake shore today. No marks of violence were found upon the body, but a man and woman were seen last night near where the body was found and the police are investigating. WINTRY WEATHER IN WEST. Severe Snow Storm and a Heavy Drop in Temperature in Nebraska. Lincoln, Neb., Nov. 9.—Western Nebraska is experiencing the first severe snow storm of the season. At Beaver City, Furness county, there has been a drop of forty degrees. MORE DEADLY THAN BULLETS. Cholera Has Killed 67,000 During Present Epidemic in Philippines. Manila, Nov. 9.—The cholera continues intermittent in different parts of the archipelago. The recorded total of cases is 105,000; the deaths number 67,000. CABINET CRISIS IN SPAIN. Madrid, Nov. 9.—Premier Sagasta is to have an audience with King Alfonso tomorrow. It is believed that a crisis and a reconstruction of the ministry are imminent.

(Continued on Page Four.)

Cancerous Ulcers

At first have nothing about them to indicate their true nature. They look like ordinary sores and are usually treated as such, some simple salve, wash or powder being used in the hope of drying them up and stopping the discharge...

SSS

blood and system the ulcer heals naturally and permanently. All ulcers, even the smallest, should be looked upon with suspicion and treated promptly before they become cancerous.

DAILY MINING JOURNAL

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Complete returns on the county show a heavy falling off of the vote, although it was not as large as it was feared it might be, while the Republican majorities are gratifying.

So the reason that Sir Lipton's hopes in connection with the third Shamrock run high is that the designers are going to introduce some new wrinkles in yacht building in her construction.

There will be general regret in this country at the outbreak of the religious riots at Manila. The political phases of the situation in the Philippines are complicated enough already, and the injection of religious disturbances and bickerings into the calculations can only make the task of putting things in the new possessions on a satisfactory peace footing much more complicated.

The report of Adjutant General Henry C. Corbin will be quoted far and wide to the discomfiture of the meddlers who secured the abolition of the army canteen and the vindication of practically all the army officers, as well as a majority of the public men, who have maintained that it was a wise and beneficial institution.

The Stimulus of Pure Blood

That is what is required by every organ of the body, for the proper performance of its functions. It prevents biliousness, dyspepsia, constipation, kidney complaint, rheumatism, catarrh, nervousness, weakness, faintness, pimples, blotches, and all cutaneous eruptions.

Hood's Sarsaparilla Promises to cure and keeps the promise. Accept no substitute, but get Hood's today.

HOOD'S SARSAPARILLA. The average American who has been steeped in theories of free institutions from his birth is hardly prepared to accept Mr. Roosevelt's opening statement that "in the whole world there is no other ruler under free institutions whose power compares with those of the president."

ROOSEVELT ON "THE PRESIDENCY." The article of President Roosevelt on "The Presidency," which appears in the current number of the Youth's Companion, is provoking favorable comment in Europe as well as America.

THE SUPERIOR TRUST COMPANY HANCOCK, MICH. CAPITAL \$150,000. SURPLUS \$30,000.

The Superior Savings Bank, HANCOCK, MICH. Capital \$50,000 Surplus \$20,000.

my. General Corbin's motives in referring to the canteen question in this manner can hardly be questioned, and his testimony serves to confirm the belief that congress made a great mistake when it yielded to the importunities, foolish in this instance, of the temperance people and shut up the exchange.

The contemplated reduction by President Roosevelt of the strength of our standing army from 88,000 to a minimum of little more than 50,000 is justified by the report of Lieutenant General Miles, which shows that during the year there was but one engagement worthy of the name in which American troops were engaged, that being with the Moros in Mindanao.

Marquette county and the senatorial district of which it is a part will have an able representation at Lansing during the ensuing sessions of the legislature.

The worm will turn. The persistent persecution and sometimes prosecuted automobilist is endeavoring, with some effect, to make a case for himself.

Washington dispatches say that President Roosevelt has given his unqualified approval to a proposed measure to deprive the South of its heavily disproportionate strength in Republican national conventions.

Nothing shows the uncertainty of working for purification more strikingly than the rupture between these two eminent sons of Montana, both multi-millionaires and both using their wealth to make the people of Montana richer and consequently happier by purifying the politics in which they take part.

power compares with those of the president. But a review—under the pretence of Mr. Roosevelt—of the powers conferred by the constitution and the implied powers which go therewith, will speedily convince the thoughtful reader that this statement is really true.

Considering the immense powers of the presidential office it is refreshing to read Mr. Roosevelt's statement that we have never had a president "concerning whose personal integrity there was so much as a shadow of a suspicion."

VERY HIGH PRICED PURITY. When Senator Clark of Montana was explaining before the senate committee in the winter of 1900 how it came about that he spent nearly \$325,000 in securing his election from the Montana legislature, he said that his "motives were far higher than the motives of any other candidate—the movement was intended to control the state in the interest of pure Democracy."

The total outlay for purification in that campaign was estimated at \$1,500,000 or about \$7.50 a head for the entire population of the state. It was hoped that the work was not only complete, but permanent, but the sad truth is that it was neither.

Nothing shows the uncertainty of working for purification more strikingly than the rupture between these two eminent sons of Montana, both multi-millionaires and both using their wealth to make the people of Montana richer and consequently happier by purifying the politics in which they take part.

father to turn the control of the convention over to him (Heinze). This charge Heinze declares to be "silly," but young Clark makes affidavit to it. It certainly touched the maximum limit as a purity price.

Heinze has two newspapers, each with a corps of wonderfully gifted editors and a cartoonist, and he circulates copies free throughout the state. He charges that Clark has attempted to purify the bench by offering to two judges "bribes ranging from \$100,000 to \$250,000 to decide against Heinze certain suits that he has pending before them.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them.

The best black walnut in the United States is found in Indiana. Forty years ago there could be found in that state a crop of black walnut unequalled in quantity and quality. Today it is not to be found in such immense trees.

Nothing shows the uncertainty of working for purification more strikingly than the rupture between these two eminent sons of Montana, both multi-millionaires and both using their wealth to make the people of Montana richer and consequently happier by purifying the politics in which they take part.

Copper Country Department

DIES UNDER THE WHEELS.
Wm. E. Fagg Killed While Attempting to Alight from a Train.

William E. Fagg, clerk in the Trimountain mine office, was killed under the wheels of a Copper Range passenger train at Houghton shortly after 5 o'clock Saturday evening. The young man, who was coming to town to spend Sunday, jumped from the moving train near the Houghton roundhouse, intending to take a shortcut to the residence of C. C. Heughens of West Houghton, where he made his home while in town. His foot evidently struck a wet rail at a switch, which caused him to fall back under the wheels. The young man was instantly killed. His head was severed and the body was horribly cut and mangled. No one saw the accident, but passengers, among them Mr. Heughens, felt the jar and after the train pulled up at the depot, a few hundred feet distant, an investigation followed. Mr. Heughens took the remains in charge. The young man was a son of Marcus C. Fagg of Madison, Wis. He came to Houghton over a year ago and for a time was private secretary to President F. W. McNair, of the Michigan College of Mines. Later he took a position with the Michigan Supply company, and later went to the Trimountain mine. He was well known and highly respected in Houghton and Hancock. He usually spent his Sundays at Portage Lake and was a frequent attendant at the Hancock Congregational church. He had many friends among the Hancock Congregationalists, and Rev. Edwin More and his wife, as well as many others of that church, were greatly shocked to hear of the terrible accident. A brother of Mr. Fagg is a missionary in China and another brother is pastor of one of the largest and most influential German Lutheran churches in New York city.

MORE COAL COMING.
Copperdom Dealers Have Assurance Shipments May Soon Be Expected.

Last week two cargoes of hard coal, each of 2,500 tons, were received at the Portage Coal & Dock company's new docks for Paul P. Roehm, the Calumet coal dealer. The five thousand tons will do much to relieve the coal famine at the copperdom metropolis, but it is said four or five thousand tons more are needed. Mr. Roehm is still hopeful of getting in his full supply. Other coal dealers in the copper country have received assurances that they will receive several cargoes before the end of the month, among them J. J. Ethier & Co. of Lake Linden and South Lake Linden, who expect a cargo or two this week, and the Hancock Fuel & Supply company, Joseph Croze and Harry Northey of Houghton.

The coal dealers are besieged with orders for anthracite. A string of people filled in and out of Mr. Roehm's office at Calumet all Saturday, one man getting under an hour or so before the office opened in the morning. By evening between six and seven hundred orders were taken. Mr. Roehm's coal is loaded on cars at the docks at Hancock and shipped to Calumet via the Mineral Range road.

RHEUMATISM CURED IN A DAY.
"Mystic Cure" for Rheumatism and Neuralgia radically cures in one to three days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents and 1.50. Sold by Frank Pennell and all druggists. (10-7-3mo)

ANXIOUS MOMENTS.
Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons, it can be safely given. People's Drug Store.

IS CONVICTED OF ARSON.

Jury Out but Twenty Minutes at the Trial of John McLachlan.

The trial of John McLachlan, charged with arson, came to an end in the circuit court Saturday afternoon. It took the jury but twenty minutes to agree upon a verdict of guilty. McLachlan will be sentenced by Judge Streeter before court adjourns, perhaps this week. The outcome of the case was generally expected. The defense put up good fight, but the evidence against the defendant was strong.

The story told by William Warner, the self-confessed fire-bug, and the evidence of Albert Haas and John Meyers, who virtually caught Warner in the act of setting fire to the McLachlan store building at Stanwood, near Redbridge, convicted McLachlan, also the fact that no effort was made by James McLachlan to collect the insurance. The defense endeavored to prove that Warner was a degenerate and that by self-confession he hoped for the mercy of the court, also that he was intoxicated when he accepted the alleged offer of \$100 McLachlan to set fire to the building. Prosecuting Attorney Larson, in his address to the jury, said there was a preponderance of evidence against McLachlan. Not only had it been proved that most of the goods saved from the building were taken out before it burned, but that a door had been left open for Warner to enter at night to do his work. It was also proved that oil had been freely used to start the fire and that James McLachlan did not contest the insurance.

In his charge the judge stated that the jury should carefully weigh the testimony of Warner and that if the prosecution had proved beyond a reasonable doubt that Warner had been hired to set fire to the building, McLachlan should be found guilty. The whole case rested on that presumption, but the defendant was to be given the benefit of the doubt.

COPPERDOM BREVITIES.

Miss Augusta Busch, the young woman who was found dead with Rev. William C. Rabe, an Omaha minister, had a brother in Hancock, her only known relative, with whom she visited last summer.

Dr. P. D. MacNaughton of Calumet and Miss Rosier of Brooklyn, N. Y., were united in marriage at 150,000 at the bride's parents Saturday. The doctor and his bride will be at home to their friends in Calumet after Nov. 14.

A. H. Warren, who has been acting superintendent of the Houghton County Street Railway company for the past several weeks, has been formally tendered that position. It is a well deserved promotion. Mr. Warren is succeeded as assistant treasurer by J. W. Payne.

The funeral of Joseph Beauchamp, son of Joseph Beauchamp, of Tamarack City, will be held this morning from St. Cecilia's church at South Lake Linden. Mr. Beauchamp died Saturday morning from a complication of diseases. He was twenty-eight years of age and single.

A horse belonging to Contractor Duquette, who is operating in the woods near L'Anse, was killed the other day by three hunters who mistook the animal for a deer. Mr. Duquette valued the horse at \$250. He received \$100 in cash from the hunters and took their notes for the balance—rather expensive hunting. It was the same old story of firing at any moving thing seen through the bushes.

Kenton Catches.

Mrs. David Hope has arrived here from Detroit to spend the winter. Foreman Pat Fox, of the Sagola Lumber company, was in town Saturday. Miss McKenzie is conducting a class in music at Sidlaw. She visits that town Fridays. W. F. Eisenhart has sold his property here and will move, with his family, to West Superior. The new residence of William Faught is nearing completion and will be ready for occupancy in a few days. A. B. Parrott and wife moved to Duluth last week. Mr. Parrott having resigned his position as night operator of the South Shore. Mr. Jacques of Astoria succeeds to the place. The Sparrow-Kroll Lumber company will resume hauling logs today for the Diamond Match company from their branch to Murray's camp. Paul Francis has contracted to do the logging. Election day passed off quietly here. Very few of the woodsmen were willing to leave their work to exercise the right of citizenship. The total vote was not more than one-third as large as usual. Peter Bergin, with several head of Diamond Match company horses, passed through Kenton Friday enroute to Potosiville, near which place the Diamond Match company will do logging this winter. Messrs. Harland, chief clerk of the D. S. S. & A., and Bailey, taxidermist, of Marquette, dropped off here Saturday morning for a few days' deer hunt. They went direct to Larouche's camp, over the Kenton & Houghton line, by special engine. Mrs. A. H. Kroll returned recently from Ayon, Idaho, for a visit with friends here, after which she will spend several weeks with her parents at St. Louis, Gratiot county, before returning to Idaho. Tuesday afternoon Mrs. William Kroll entertained several of the lady's friends in her honor. Pedro was the amusement, after which dainty refreshments were served. The deer season opened with unusual briskness Saturday morning. A party from Detroit composed of T. S. Burgess, E. C. Burgess, I. A. Hopkins, Dr. Bardwell, T. S. Albertson and J. Zimmerman arrived on the early train and were taken to the Slate Quarry, where they will be the guests of Frank Arnold for three weeks. The territory they have selected for their hunt is noted for its quantity of game. It will be only a matter of bad marksmanship if the full quota of deer allowed by the licenses is not procured.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

MINING NEWS

GROUP OF CLAIMS IS RICH.
Copperdom Men Interested in British Columbia Expecting Large Returns.

A. J. Scott, president of the North-western Development company, who in company with other stockholders arrived home late last week from a visit to his corporation's property in British Columbia, said yesterday concerning the trip: "We went up the Columbia river 150 miles to Comaplex and from there took horses and went eleven miles to where our group of claims is located. I still have every reason to believe that our property is very rich. The ore will run all the way from \$12 to \$42 to the ton through all the claims. In a test made not long ago the average was \$44 to the ton. Our richest claim is the Goldfinch, which we bought last June for \$25,000. Although no development work has yet been done on the claim by Manager Brock the prospecting work shows it to be remarkably rich in gold bearing quartz. So far we have already spent about \$80,000 on the claims.

"An electrical power plant, run by water power, was installed last June and it furnishes a convenient and cheap power for operating the stamp mill and drills and lighting the location. Our ten-head stamp mill and aerial tram line 5,000 feet in length are under construction, but it is necessarily slow work in that country. A sawmill was erected last summer to supply the mine with timber and lumber. We have plenty of timber on the claim and our own mill prepares it much cheaper than it could be purchased. The mill is a great convenience. We can have lumber just when it is needed. Our stamp mill is the only one in the district.

"I don't want to be understood as saying that the Eva claim in the same district is not a good one," said Mr. Scott. "It is. We had a chance to get it but turned it down because the terms of the sale were too complicated. The whole difficulty was over the terms of the sale." Mr. Scott says the finances of the company are in the best of condition. He figures that \$225,000, realized from the sale of a block of 150,000 shares of stock at fifty cents each, another 150,000 at a dollar, will be sufficient to put the properties on a paying basis. The syndicate has owned the nine claims for about fourteen months but work was not started on them until last April. All the men now interested reside in this region, most of them in Hancock and Calumet.

At the annual meeting, recently held at Nelson, B. C., it was expected that the Rosenberger crowd would endeavor to retain partial control of the affairs of the company but the expected did not happen. The copper country men were prepared for a struggle, but the meeting was held without interference of their plans and they went ahead and did just as they pleased. A board of ten directors, all copperdom men, was elected. Aside from Mr. Scott other members of the party who visited the syndicate claims express themselves as satisfied with the trip from beginning to end. They speak in high praise of the work done by Superintendent Brock, who has worked under many difficulties. The property is now in good condition for rapid development. Work on the stamp mill has been delayed by rain and impassable roads, making it impossible to get heavy machinery to the property, but in spite of that the shareholders look forward to the successful and profitable operation of the mill by the middle of next January. Copper country interests alone will be recognized in the future management of the property. The British Columbia people are out of it, so far as anything to say goes, and hereafter all the syndicate's business will be done from the Hancock office. The next annual meeting will be held at Hancock instead of at Nelson.

It is said there is no doubt about the future of British Columbia as a mining country. It is rich in mineral resources but as yet the mineral regions are undeveloped. But little Canadian capital is represented in what work has already been done. So far the American interests predominate and much American money is being put into that country. The attention of Americans has been turned in that direction for comparatively a short time and from now on the country promises to be more or less opened up by American interests.

Many copper country people interested in the Northwestern will at least keep an eye on developments in British Columbia. Large stockholders expect to get rich out of Northwestern and they no doubt will. Mr. Scott says he does not expect any more spasmodic booms and moreover does not want any. He expects the stock to go up on its merits hereafter and believes it will rise.

MINING GOSSIP.

The annual meeting of the stockholders of the Kittle Burton Gold Mines company will be held at New Jersey, Nov. 19, for the election of a board of directors and to receive and act on the reports of the officers. The new smelter of the Calumet & Arizona at Douglas, Ariz., will go into commission next week. The machinery has been in place for some days. The plant is one of the finest in the West. It will be enlarged as fast as the needs of the property warrant. Calumet and other copper country stockholders await the smelter returns with interest. Bostonians were much surprised when they learned the extent of the so-called "lost lode," which the Calumet & Hecla company was reported to have discovered on its property and which would, it was said, bring the company into another big fortune. The "lode" from which several good specimens, well charged with copper, were secured and taken to the Calumet & Hecla barn where they were carefully guarded, is nothing more or less than a boulder lying in one of the fields in the vicinity of Calumet where it has been seen by passers-by for the last twenty years. In Boston the wildest rumors about the "lost lode" were afloat. At a dinner party given by President Aggasiz, of the Calumet & Hecla, to some of his relatives in Boston, it was said he declared that the C. & H. had found a new fortune, but of course he

(2-2-1f)

did not say it. Samuel Parnall was given the credit for the "discovery" but he, too, is blameless, as he had nothing at all to do with finding the boulder for the hundredth or more time. President Aggasiz recently went to Calumet, but nothing was said to him concerning the "new fortune."

Colonel William Coach, of Baraga, who is a well-known figure in Houghton, has a controlling interest in the Mt. Shasta Gold Mines corporation, which controls the Mt. Shasta gold mines, the United Copper, Summit & Graves, Michigan & McClure copper mines, the Bully Hill Copper Mining & Smelting company's mines, the Bully Hill smelter and the townsite of Sallee, all in Mt. Shasta county, Cal., also the Gold Mountain gold property in San Bernardino county. The colonel, in view of his large holdings, will be elected a director of the corporation at the next annual meeting of the stockholders. The proposition gives promise of being one of the greatest mining enterprises in the world, and one of the richest.

LUCK IN THIRTEEN.
By sending 12 miles Wm. Spirey, of Walton Furnace, Vt., got a box of Bucklen's Arnica Salve, that wholly cured a horrible Fever Sore on his leg. Nothing else could. Positively cures Bruises, Felons, Ulcers, Eruptions, Boils, Burns, Corns and Piles. Only 25 cents. Guaranteed by Stafford, druggist.

"HUMAN HEARTS." It Will Be Presented at the Opera House Friday Evening.

A play that portrays honest manhood and the deepest villainy, possesses more than ordinary interest as an entertainment and as a study of everyday life.

IN SYMPATHY WITH NEW YORK. Coppers Had Rather a Bad Day of It Saturday.

Paine, Webber & Co. said of the Boston market: "The New York market had another day of tremendously heavy liquidation, and coppers were dragged down somewhat with the rest."

Rather Bearish Day. W. H. Laidley said of the copper markets:

"Statistics today rather favored the bears. The receipts in the northwest were very heavy. The south also continues to receive more grain than last year."

"Oats were extremely dull, and the market was confined to very narrow range. The receipts are only fair, with a very good cash demand."

"Provisions were also rather dull, closing under last night. A little better inquiry was reported and some buying by the packers, but local operators sold. On a further decline we would buy provisions."

New York in a Bad Way. Walker said of the New York market:

"The market opened weak and nervous, the general list showing a decline from the close. From the opening it was apparent that there were large liquidating orders, and the market, assisted by professional short selling, sold off smartly."

See, young maiden, that thou takest not a substitute for the genuine Rocky Mountain Tea made by the Madison Medicine Co., if thou likest thy face fair.

WILL START THIS YEAR. F. H. Hoard has returned from a month's trip through the timber lands in the western part of the peninsula.

The company, as has been announced some time ago, is formed for the purpose of building small boats, launches and gasoline engines, diving and marine surveying as well as boat and engine repairing.

FROM AN AUCTIONEER. Col. C. H. McDonald of Greenview, Ills., in a letter May 1st, 1901, says, "I am an auctioneer and being often exposed to the weather, am seriously troubled by my throat becoming irritated and hoarseness following."

Foley's Honey and Tar always stops the cough and heals the lungs. Refuse substitutes. People's Drug Store.

NON-RESIDENT HUNTRESS. Indiana Has Sent Her to Northern Michigan Wilds.

In these modern days a deer huntress is no longer a rare curiosity. Every open season finds a half a dozen or more representatives of the gentler sex from each county in the state.

SCANDIA AID SOCIETY. There will be special meeting of the Scandia Aid society this (Monday) evening at 8 o'clock.

MARINE MATTERS. Soo Canal Passages. Sault Ste. Marie, Nov. 9.—(Special)—Saunders, 9:30 last night; Empire, City and whalback, 11:40; Tacoma, 12:30 a. m.; Ralph, Harold, Connolly Bros. 1; Penobscot, 1:30; Nimick, 2:40; Frontenac, 4; Nye, Corsica, Sultana, 4:30; Ericsson and whalback, 7:20; W. L. Brown, 7; Lagoda, 7:20; Grover, 11; Brazil, 12; Ed. Emith, 12:20 p. m.; Tilden, Saveland, Iron City, Etruria, Presley, 12:40; Orinco, Grand, 1:20; Turret Crown, 3; Northern King, 3:20; Fleetwood, Moravia, 4:30; Colgate and whalback, 8:30.

CITY BREVITIES. John Kind is out on a week's deer hunt, having left with a party Friday.

The Rochester was in port yesterday, bound up. She left a good consignment of package freight.

George N. Conklin's residence, at the corner of Arch and Cedar streets, has just been newly painted.

There will be a special meeting of the Marquette Light Infantry this evening at 7:15 at the Casino rink.

A special meeting of the Scandia Aid society, to make arrangements for the funeral of a deceased member, will be held at the A. O. U. Hall at 8 o'clock this evening.

S. R. Kaufman has just completed a number of improvements on his property on East Arch street. They add considerably to the convenience of the structure.

A. O. Smith, who is hunting in the woods near Baraga, yesterday shipped a deer to his father, Captain Smith, of the steamer Friant. The deer was a big one—a buck weighing over 200 pounds.

Dr. Faught, of the Normal faculty, is one of the fortunate hunters who brought a deer to earth Saturday. The doctor is the envy of all his associates at the Normal, who have yet, without exception, to bring down their first venison this season.

Frederick Nort, aged twenty-three, died yesterday at St. Luke's hospital after a three weeks' illness. The funeral will be held Tuesday afternoon at 2:30 o'clock from the Swedish Lutheran church to Park cemetery. The deceased is survived by a sister residing in Marquette.

The Pontiac, for Buffalo, and the Kalyuga, for Toledo, cleared yesterday from the L. S. & I. dock. The steamer Frontenac arrived there. The boats in the lower harbor are the Cadillac, Stafford, McWilliams, Curry, Saturn, Parker, Pratt and Athens, some of these being in for shelter.

Invitations are out for the Thanksgiving ball to be given by the Upper Peninsula country club at the Casino. Travelers. Tickets will be \$1.50, including refreshments. The best music will be secured, and it is expected that the ball will prove one of the banner social events of the season.

The board of education has just published a directory of the Marquette schools. It is a neat little booklet, containing the names and addresses of the trustees, the superintendent, principals, teachers and janitors.

To Colonel B. S. Kaufman probably falls the honor of bringing down the first deer killed in this vicinity this season. Colonel Kaufman was abroad in the wee sma' hours of Saturday morning, and his reward came about 8 a. m., when he brought a fine 125-pound doe to earth in the neighborhood of Forestville.

A force of carpenters is employed on a substantial addition to the home of Hon. Peter White, East Ridge street. It is being added to the southwest part of the structure, and will contain several large rooms, some of them having fine bay windows. Work is being pushed so as to get the addition enclosed before the broken weather sets in.

At the ball to be given by the Ladies' auxiliary to the A. O. H. at Fraternity Hall Wednesday night, Professor Kluge's orchestra of six pieces will furnish music. The tickets are seventy-five cents per couple. Supper will be served in the hall at twenty-five cents a plate. The ladies wish to extend a special invitation to all members of the A. O. H.

A pleasing musical matinee was given Saturday at Mile. Olivier's studio of music by her pupils, assisted by Miss Suzette Williams and Miss Barry, a pupil of Prof. Kluge. The efforts of the young people were thoroughly appreciated. The participants were the Misses M. Russell, M. Barnes, E. Greer, R. Case, F. Devonshire and George Barnes, Jr. Miss Powell played two attractive numbers, with the accompaniment of a second piano.

There was considerable interest here in the Ishpeming-Escanaba game Saturday. It was expected that the Hema-

tite lads would have a hard game, but it was generally believed that they would win out. Thus the result was in the nature of a surprise. It is hoped locally that the two teams will be brought together again. If the game should be played at Ishpeming a large Marquette delegation would attend.

A STARTLING SURPRISE. Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live.

But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year."

They regulate the Kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50 cents at Stafford's drug store.

I am prepared to take pupils in shorthand and typewriting. Call at 219 Blaker street any afternoon or evening for terms, etc. (11-4-104) MRS. L. LOWELL.

A POLICEMAN'S TESTIMONY. J. N. Patterson, night policeman of Nashua, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit."

A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." People's Drug Store.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys every three minutes.

The kidneys are your blood purifiers. They filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble.

It is used to be considered that only urinary troubles were to be traced to the kidneys.

But now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized.

It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits.

MANY NEW FARMS. ARE NOW HOISTING.

Good Progress Made During the Past Year.

The Cleveland-Cliffs Iron company has been doing an extensive business during the past year in farming lands.

Many acres of their property have been sold on great terms and the settlers have made surprising progress toward transforming the primeval wilderness into fruitful farms that repay with abundant harvests the labor expended in clearing and preparing them for cultivation.

Many people entertain an erroneous opinion in regard to the capabilities of the vast sections of untilled land surrounding Negaunee. They imagine that all the wealth that the earth is capable of yielding lies beneath the surface and if that it is ever exhausted nothing will remain and the abandoned mines will be the only evidence to the world that the great stretches of waste land were ever anything but a forsaken, unproductive wilderness.

Farming probably never will assume the importance of the mining industry, but enough progress has been made to show that the farmer has a chance to prosper in the country.

This is notably true of wheat, and when proper facilities are available for marketing and milling it is no reason why it cannot be produced as successfully as in Minnesota and Manitoba, which furnish material for the largest flouring mills in the world.

Cattle raising also offers large opportunities. The hay and potato crops of this part of the upper peninsula cannot be equaled in any section of the state.

The general opinion is that the majority of those who engaged in it have started without a dollar and have had to wage an uneven strife with poverty until their places were paid for and under cultivation.

Then, too, mining absorbs every other interest. The town were founded and are supported by it, and it is perfectly natural that an occupation that yields such comparatively meagre returns as farming under present conditions should be held in contempt.

The cost of living in this section would be more than offset by the profits of the more easily obtained. Practically every article for the table, except potatoes, is shipped in, and, as a result, the cost of board is about twice as great here as it is below the straits, or where farm products are more accessible.

LOCAL LACONICS.

W. A. Bateman of Calumet was in the city Friday.

Nathaniel Lobb, proprietor of a brick yard near Munising, was in the city Saturday.

Anthony Friedrichs of the Soo, a former resident of Negaunee, was in town Friday and Saturday.

John Stecher, Jack Chipman and Alex Bean went to Queen's creek Saturday, for a week's hunting trip.

Patrons of the municipal lighting plant are requested to call at once at the recorder's office and settle up their bills.

Henry Fenner and J. M. Perkins went to Spruce Landing Saturday, to spend a few days trying to get the worth of their deer hides.

Mrs. T. Goushon, of Little Lake, died Friday and was buried at Marquette Sunday. The funeral being held from the French Catholic church there. The deceased was about sixty-five years old, and is survived by a son and a daughter, and her husband.

The old Caple building across the track from the depot, was torn down Saturday and will be replaced by a brick veneer building to be erected at once. The old structure was in a dilapidated condition and had been an eye-sore and disfigurement to the street for years.

A. F. Mallen has rented the building on Peck street recently vacated by John Mitchell and will have it thoroughly repaired and fitted for occupancy by the 20th of this month. A bakery will be conducted by Ishpeming parties in the building, and in connection with Mr. Mallen's grocery.

The indoor baseball teams are making great preparations for the game to be played next Saturday night at the Adelphi rink between the traveling and business men. A practice game between two teams picked from the business men was played Friday night, and the regulars showed up in good form.

The Woodmen's lodge is anxious to secure a large number of members, and is possible to hear the speech of Consul Northcutt at Marquette tomorrow night and members who contemplate going down should notify the clerk of the local lodge at once. The D. S. S. & A. offers a special rate of fifty cents to all attending from this city.

Trombly's orchestra will give a hop in Anderson's Hall, Ishpeming, Wednesday night. The management repeats the previous announcement that it retains the privilege to eject or deny admission to any objectionable person, without stating its reason or motive for doing so. A special car will convey those from Negaunee home after the dance.

The concert given by the Sterling company Friday night was a great success. The receipts amounted to about \$225, and the company was so well pleased with the reception accorded them that it repeated the concert Saturday night, an open date. The church ladies were not interested in the second concert, so the attendance was not so large as on the preceding night, but the performance was fully equal to the first night's entertainment.

Some kinds of hot air only warm you to the collar button, but if you will order storm sash from the Consolidated Fuel & Lumber company you can reduce your coal bill one-fourth and still get hot air enough to keep you warm all over. (11-14)

STEEPED AGAINST A HOT STOVE.

A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Kellar, Va. Pain Balm is an antiseptic ointment and especially valuable for burns, cuts, bruises and sprains. For sale by the Stafford Drug Co.

PHYSICIANS PRESCRIBE IT.

MR. TOWAR RETIRES

MANAGEMENT OF MARQUETTE NATIONAL IN NEW HANDS.

F. J. JENNISON ASSUMES IT

HOWEVER, FORMER WILL BE PROMINENT IN BANK COUNCILS.

He Will Be Found at His Office When in the City and Will Be a Member of Board of Directors, Retaining All His Stock.

At a recent meeting of the board of directors of the Marquette National Mr. E. H. Towar relinquished the active management of the bank. Mr. Towar feels that he is approaching the time of life when wise men give up the activities of business to younger heads, and, while he is still active and vigorous and capable of performing as much hard work as when he was younger, yet, being a believer in the proverb "Old men for counsel, young men for action," he is disposed to leave the active duties of business to others and seek up well-earned rest, in fact, when he organized the Marquette National a year ago it was his intention to retire whenever the new institution had attained such a growth as to, as the saying goes, stand on its own legs.

He retains the office of president and his full interest in the stock of the bank, and in conjunction with the board of directors will shape its policy and direct its affairs as usual, while, when he is in town, he will be found at his desk a few hours each day.

The retiring president, Mr. Towar, is one of the deans of the upper peninsula banking fraternity, and he retires from the active management of the Marquette National after a singularly busy and successful career. He was born in Lyons, Wayne county, New York, on June 6, 1840. His education was pursued in the public schools and by private instruction. In his youth Mr. Towar took up the study of law, entering the office of Buel & Trowbridge, Detroit, and he was admitted to practice before the bar in this state in 1862. He did not, however, pursue the practice of his profession, on account of the unsettled conditions of business existing at that time, occasioned by the war of the Rebellion, but accepted a position in the office of Colonel Joshua Howard, then chief paymaster in the army, stationed at Detroit, remaining with him until 1864, when he moved to Cincinnati, where he was to get his introduction to the banking business.

Came to U. P. in 1872.

Mr. Towar came to the upper peninsula, of which he has since been a leading citizen, in 1872, locating at Hancock.

where he organized and opened a private bank under the name of E. H. Towar & company, having as business associates such well known men as Charles E. Holland, J. A. Hubbell and T. L. Chadbourne. From the first this banking venture was a success and its business and sphere of influence grew so rapidly that in May, 1874, Mr. Towar was led to merge the old company in a corporation which organized and opened the First National bank of Hancock, of which he was the active manager until 1889, when he received an offer from the First National of Marquette, purchased an interest in it, and came here to assume its vice-presidency and management, which he retained until he left it in October to organize the institution with which he has been associated during the past twelve months.

Mr. Towar has always been prominently identified with the industrial and mineral development of the north country, and he has given many companies and corporations, from time to time, the benefit of his mature judgment and sound financial sense. He has been pre-eminently a business man. Although taking a lively interest in public affairs, he has never participated actively in politics. His rare success in banking and business ventures can be attributed in no little degree to his ability for concentration on the affair in hand and his masterful arrangement of details and the various minutiae of a complex business proposition.

During Mr. Towar's long residence in Marquette he has always been considered among the city's leading citizens and he has always had the city's good at heart, although, by nature and inclination, he is a quiet and unostentatious worker.

F. J. Jennison Assumes Management. F. J. Jennison, who will succeed Mr. Towar in the active management of the Marquette National, needs no introduction to Marquette people, since he has now resided here over ten years, all but the last of which he was associated with the First National.

The new manager is a tireless worker, and his banking record is singularly free of mistakes, he possessing a natural instinct for the business and being master of its smallest detail. He has been closely associated with Mr. Towar during the past decade and understands thoroughly his policies and methods. The latter's retirement will be accompanied by no change in methods or administration.

The Marquette National bank commenced business on the 31st of October, 1901, and is, therefore, a few days more than a year old. Its success has been very pronounced. It has built up a large and remunerative business. The deposits are now between \$400,000 and \$500,000, and its line of discounts is large enough to make the earnings of the bank very satisfactory. Its capital stock is widely scattered; in fact, the circular issued at the time of its formation stated that the policy of the new bank then about to be organized was to be cooperative, that is that its stock was to be placed, among all business men who could contribute to its well-being and bring business to it, thus sharing in its profits. The success of this policy has been gratifying.

STORM SASH.

Now is the time to order. F. W. Read & Co. (10-23-02)

THAT CEMENT MATTER.

Misunderstanding Will Probably Be Amicably Adjusted.

It appears that F. B. Spear & Sons are the victims of circumstances in the dispute that has arisen over their cement bills of the past few months. As stated in The Mining Journal Saturday, Spear & Sons and George E. French submitted propositions last spring to furnish cement at \$2.20 per barrel for the ensuing season.

It was decided to divide the business between the two bidders, and Street Commissioner French laid the foundations for the present snarl by hitting upon a highly original manner of doing this. There being a slight difference in the colors of the cements, he determined to do all his business with Spear during the first half of his season, and then to switch to Mr. French, a plan which might have worked well enough if the price had remained stable.

The street commissioner estimated the season's demands of cement at 1,500 barrels. In accordance with this estimate, F. B. Spear & Sons arranged to furnish one-half of this amount, \$2.20 per barrel. As a matter of fact at the time Street Commissioner French decided to give George E. French his share of the business they had furnished 900 barrels.

On the 12th of August, as stated Saturday, the street commissioner called on George E. French to begin furnishing his half of the material. As the price of the cement had advanced sixty-five cents at the mills he naturally refused to do this, whereupon the street commissioner returned to Mr. Spear, but began paying a new price, \$2.50 per barrel, the firm holding that it had finished its contract with the city when it had furnished more than half the estimated demand at \$2.20 per barrel.

Here Street Commissioner French laid up a little more trouble for the future. He O.K.'d Spear & Sons' bills at the new price, without calling the council's attention to the change, and they were paid in the regular manner, the aldermen, as a body, receiving their first intimation of the advance at the meeting held Friday evening, although some 800 barrels were purchased at the new figure.

Thus it appears that F. B. Spear & Sons, if they suffer, will be innocent sufferers. However, it also appears that it is up to somebody to furnish the city with cement at \$2.20. The question of liability is somewhat involved, and lies between the two dealers and the street commissioner.

It is likely that a settlement satisfactory to all parties concerned will be reached.

SOMETHING FOR NOTHING.

If any of our readers are troubled with constipation, biliousness, sick headache or indigestion cut out this notice, and present it at the People's Drug Store and they will supply you with a sample bottle of Re-Go Tonic Laxative Syrup free. Re-Go is a sure cure for these diseases.

Live and let my brethren live. With all that's good with me. Unto the poor, some cash I give. The balance I give Rocky Mountain Tea. Stafford Drug Co.

BIG WOODMEN MEETING.

It Will Be Held at the Opera House Tomorrow Evening.

It is expected that the meeting at the opera house tomorrow evening will be one of the largest and most representative gatherings of Modern Woodmen that has ever assembled on the upper peninsula, as delegations from several outside places will be present to hear Head Consul Northcott, lieutenant governor of Illinois, speak on matters of interest pertaining to the order, particularly the various phases of the readjustment plan, with which all the Woodmen are at present greatly concerned.

The meeting was originally arranged for Fraternity Hall, but so much interest has been manifested that a couple of days ago it was deemed advisable to secure the opera house, so that there might be accommodations for all who wanted to hear the head consul. The latter auditorium was also more desirable owing to its proximity to L'Huilier's vacant store, Washington street, where the visitors will be entertained by the Marquette Woodmen at a banquet to be held subsequent to the meeting in the opera house.

Local members of the society are making great preparations for this event, and it promises to be one of the notable occasions in fraternal circles here, and a fine Marquette Woodmen at a banquet to be held subsequent to the meeting in the opera house.

The visiting party will be composed of men high in Woodmen councils and it is expected and hoped that they will be accorded a flattering reception.

BE CAREFUL. A Few Good-Rules That Every Hunter Should Observe.

As the deer-hunting season is now in swing a few words of advice given in a kindly spirit should not be out of place as if they were thoroughly and thoughtfully followed fewer hunting fatalities would result.

No hunter should travel through the brush with his gun "cocked." It takes but an instant to raise the hammer, and this time should be given to becoming certain what it is you are going to shoot at.

When hunting don't get excited if you hear a noise or see a bush move. A man can't make a noise and move a bush just as easily as can a deer. Keep quiet and if it is a deer you will soon know it. You might better lose a deer by waiting than kill a human being by being in a hurry. Don't shoot until you are sure it is a deer you see.

Don't go carelessly and hurriedly through the brush with a loaded gun. Take it easy, otherwise the chances are in favor of your stumbling and wounding yourself or companion. Serious shooting accidents seldom or never happen to old, careful, experienced hunters. If you have an accident it will be laid to your inexperience and carelessness and it would be considered criminal if a human life is snuffed out thereby.

Get a free sample of Chamberlain's Stomach and Liver Tablets at Stafford's drug store. They are easier to take and more pleasant in effect than pills. Then their use is not followed by constipation as is often the case with pills. Regular size, 25 cents per box.

Boys' Clothing Must Be Sold!

PRICE NO OBJECT.

.....AT GRABOWER'S.

THIS STORE IS FAIRLY ALIVE

.....WITH SPLENDID BARGAINS.....

in Boys' and Children's Clothes. The entire stock of Boys' and Children's high-grade clothing must be sold by January 1st. We must have the room for other lines of goods. Don't buy a dollar's worth until you have priced our Boys' Overcoats, Reefers, Boys' Suits, Children's Suits and Single Pants.

Splendid Fur Values!

We show this season some extra values in Fine Furs such as Beaver Jackets, Otter Jackets, Astrachan Jackets, Electric Seal and Near Seal Jackets; also a full line of Capes, Scarfs, Muffs and Fur Sets. We guarantee our prices will be far below prices offered by outside concerns, quality considered.

Carpets, Rugs, Linoleums and Oil Cloths.

This week we are making special values in Brussel Carpets, Velvet Carpets, Wilton Carpets, and are closing all our Rugs at a low price. Do not miss looking at our carpets if you intend purchasing now or in the future, as we certainly handle the largest and best selected line of carpets in this section, and many large city stores do not show larger lines.

ALL-WOOL INGRAINS CARPETS.

Notwithstanding that all Ingrain Carpets have had quite an advance we will not advance our price while the present stock lasts.

Van Alstyne's

OPERA BLOCK DRY GOODS HOUSE

Our OUT-OF-TOWN TRADE has assumed such large proportions that it has necessitated our opening a regular MAIL ORDER DEPARTMENT, whereby we will be able to give personal and prompt attention to the filling of all mail orders the same day that orders are received, and as an inducement to make this department grow to large proportions we will, until further notice, PREPAY all express charges on mail orders. Samples of all kinds of goods will be sent upon application, including samples of Carpets. Tailor-Made Suits and Cloaks, of which we carry an immense line, will be sent on approval.

Send for Samples of our Extensive Line of Dress Goods & Silks.

Send us your orders for Centemeri Kid Gloves at \$1.00 and \$1.50 per pair. The best kid Glove on the market. All sizes and colors. Write us about everything in Dry Goods. Only dependable goods sold, and prices are right. Anything found not satisfactory can be returned and money will be cheerfully refunded.

MARQUETTE'S GREAT RETAIL HOUSE,

A. T. VAN ALSTYNE DRY GOODS COMPANY.
