SPECTACULAR FIRE

EAST RIVER BRIDGE, NEW YORK, BADLY DAMAGED.

THREE MEN HURLED TO DEATH

CAUGHT HIGH IN AIR, ON TOP OF GREAT STEEL TOWER.

Everything Combustible Destroyed, Leaving Only the Cables Across the Stream, and It Is Feared the Work of Years Is Lost.

New York, Nov. 10.—The new East river bridge, in process of construction between New York and Brooklyn, was damaged to the amount of at least half a million dollars tonight by a fire that for four hours raged 355 feet in the air on the summit of the great steel tower on the New York side. Three men who were at work on top of the tower when the fire broke out fell into the river and were drowned.

Owing to the enormous height of the tower, it was impossible to reach the blaze with fire apparatus and the flames, after devouring all the woodwork on top of the tower, seized on the timber false work of the two foot-bridges suspended from the main cables, burning away the supports until nearly a million feet of blazing lumber fell with a mighty splash and hiss into the stream. The fall of the foot-bridges carried away scores of lighter cables and guys, which trailed in the water, rendering it necessary for the police to stop all traffic up and down the river.

The Fall river steamer Puritan and several other craft had narrow escapes while running the gauntlet of the fiery brands that fell in showers from the burning bridge. The fire was the most spectacular conflagration ever seen in New York.

Steel Beam Hits Fire Tug.

At the moment the foot-bridges fell, a Brooklyn fireboat was just below the bridge and a heavy steel beam fell on her, breaking her rudder and sending her drifting helplessly down the stream. The sound steamer and all other up-river navigation were stopped.

Daniel Brophy and his brother John, both of Montreal; A. P. McBride, and an unknown man were at work on the tower when the fire started. While they were helping the firemen to haul up the hose the framework collapsed and the Brophys and the unknown man were hurled into the river. McBride saved himself by catching a piece of projecting steelwork. While the fire was at its height a party of firemen were cut off at the base of the tower, but were rescued after several had been severely burned.

Beams from the tower set fire to the big storehouse of the Pennsylvania Steel company on the bridge. It was entirely consumed and the contents fell into the river.

Feared the Cables Are Useless.

Everything combustible on the bridge was destroyed, leaving only the steel tower and four cables stretched across the river. It is feared the cables are badly damaged. Should it be necessary to replace them, the labor of two years would be lost. To replace the two damaged tower cables will cause a delay of at least four months. The cost of the completed bridge was to be ten million dollars.

KING EDWARD DINES LABORERS.

Gives Great Feast in Celebration of Anniversary of His Birth.

Sandringham, Eng., Nov. 10.—The royal party spent a quiet day today. A shooting expedition in the morning was successful, and in the afternoon a clump of beech trees was planted on the Sandringham estate. Later in the day Emperor William and King Edward attended a dinner given by the king to the laborers on his estate to celebrate the anniversary of his birth. King Edward, inviting the company to drink to the health of the German emperor, expressed the hope he would often see Emperor William. Sandringham. The emperor did not reply to the king, but smiled his acknowledgement. Lord Lansdowne, foreign secretary, was among the guests of King Edward who arrived at Sandringham today.

CALLS THE "SCAB" A HERO.

President Eliot of Harvard Denounces Labor Unions.

Boston, Nov. 10.—Before the Economic club of Boston, at a banquet tonight President Eliot of Harvard denounced labor unions as opposed to the education of young men, and what he termed "their fight against the development of manly instincts." In closing, he characterized a strike breaker, or "scab," as he called him, "a good type of the American hero."

ADMITTS PAWNING THE WATCHES.

George Perry, Boston Negro, Held as a Witness Against Mason.

Cambridge, Mass., Nov. 10.—George L. O. Perry, the negro who admits he pawned the watches taken from Clara Morton and Agnes McPhee, who were murdered in Waverly and Somerville last month, was today ordered held as a witness against Mason, the millionaire clubman under arrest, accused of being "Jack the Sluggier."

TWO KILLED IN MILWAUKEE.

Fred and Charles Laft, Farmers, Are Struck by a Train.

Milwaukee Wis., Nov. 10.—Fred and Charles Laft, farmers, were killed on a grade crossing in this city by a Northwestern train tonight.

FATE OF MOLINEUX CHAFFEE IS HOME

IT WILL BE DETERMINED TODAY BY THE JURY.

ARGUMENTS ARE NEARLY FINISHED

STRONG PLEA IS MADE BY EX-GOVERNOR BLACK.

Declares Prosecution Has Utterly Failed to Establish Case and That the Evidence Points to Harry Cornish as the Guilty Man.

New York, Nov. 10.—The fate of Roland B. Molineux will be determined tomorrow. When court adjourned this evening, Justice Lambert announced that he would allow Assistant District Attorney Osborne two hours and a half more to finish summing up, which means that the court will deliver the charge and the case will go to the jury during the afternoon.

The court room was crowded to suffocation, when, at the opening of today's session, former Governor Black rose to sum up for the defense. After a general defense of Molineux, whom he declared the prosecution has utterly failed to connect in any way with the death of Mrs. Adams, Mr. Black passed to a scathing denunciation of Harry Cornish, to whose guilt, and not that of Molineux, he declared every circumstance indirectly pointed. More than half of Mr. Black's address, which occupied near four hours, was devoted to an analysis of Cornish's conduct and testimony and of the testimony of other witnesses in a manner to support his contention that Cornish's actions were not consistent with his innocence of the crime of which Molineux stands accused.

WINDOW GLASS JOBBERS AT ODDS.

Conference at Pittsburg as Yet Unable to Secure Peace in the Trade.

Pittsburg, Pa., Nov. 10.—The National Association of Window Glass Jobbers has been in session all day, and at midnight is still endeavoring to bring about peace in the trade.

The first question, "Shall we disband, or keep up the organization?" was decided in the affirmative after much debate by the vote of fifty-eight to forty-one.

The second question, "Will the members stop cutting prices and sell glass according to the American and Federation Glass company's plan, thereby cutting off the trade of outside concerns and curtailing production?" met an exact reversal of the first vote.

A peace committee was appointed to learn from the manufacturers what they would be willing to do toward meeting the low prices of the outside manufacturers if the jobbers would give them an order for a large amount of glass. This conference lasted until 8 p. m. with-out agreement and at 9:30 it was resumed. There seems little hope of a settlement tonight.

FAILS TO CLIP THE RECORD.

Memphis, Nov. 10.—In an attempt to lower the world's pacing record of 1:59 2/5 here today, Prince Albert (2:00) completed the circuit in 2:01 3/4.

ARRIVES AT SAN FRANCISCO AFTER A PERILOUS VOYAGE.

SHIP HIT BY A TYPHOON

SITUATION IN THE PHILIPPINES IS DECLARED SATISFACTORY.

Some Provinces Unsettled and Further Trouble May Be Expected, but in General the Outlook Is Most Cheerful.

San Francisco, Nov. 10.—The transport Sumner, with General Chaffee on board, arrived this evening from the Philippines after a stormy and perilous voyage. Shortly after leaving Yokohama the vessel encountered a typhoon. Boats were smashed, portions of the rigging were carried away and during the height of the storm a launch was torn from its fastenings and struck Mrs. Chaffee's stateroom with terrific force, the shock prostrating that lady, who was ill when she boarded the vessel.

THREATS BY MINERS

NOTICE IS SERVED BY THE HARD COAL DIGGERS.

LEADERS MUST BE GIVEN WORK

OVER 200 OFFICIALS OF UNIONS ON THE BLACK LIST.

Lehigh Company Is Notified the Men Must Be Reinstated or a General Strike Will Be Declared in the Panther Creek Valley.

Tamaqua, Pa., Nov. 10.—At a meeting of the employees of the Lehigh Coal & Navigation company today, a committee was appointed to wait upon W. D. Zehner, superintendent, and inform him that unless the 218 officials of the various local unions in the Panther Creek valley who, it is claimed, have been blacklisted, are reinstated in their old positions before the end of the week, a general strike will be ordered. The committee called at Superintendent Zehner's office today, but were informed he was not at home. The committee will endeavor to see the official before the end of the week, so as to present its report at a meeting to be held next Sunday at which President Mitchell will be present.

Washington, Nov. 10.—Carroll D. Wright, recorder of the strike commission, has received one of the replies of the coal operators to Mitchell's statement filed with the commission. The replies will not be made public until copies have been furnished Mitchell.

DOUKHOBORS AGAIN ON MARCH.

But They Are Guarded by Police and Headed for Home.

Yorkton, Manitoba, Nov. 10.—The wandering Doukhobors arrived here today and, forced by Northwest mounted police, left at once for their colonies at Seven River and The River Hill.

The Doukhobors reached a point twelve miles north of Yorkton tonight and their villages are expected to be reached tomorrow night.

Before departing for the north, Agent Speers said: "If they resist on the homeward journey, we will use force, as we did at Minnedosa, and drive them north. We realize now that we must treat these people as children and must make them obey."

Agent Speers attributes the trouble largely to the leaders, who he believes very shrewd. "Some of them," he said, "the government warned that Doukhobors that if they did not homestead their lands, they would be thrown open for settlement. The leaders objected to this and asked for concessions. Fearing they would not get them, they have been attempting to force the issue on the government by inducing their easily led countrymen to make a pilgrimage under pretense of 'looking for Jesus.' Their movements have been vague and indefinite, but there has been a method in the madness of their leaders."

ASSASSINS LURK IN STREETS.

Client and His Attorney File Sensational Affidavits in Kentucky.

Lexington, Ky., Nov. 10.—Two of the most sensational affidavits ever filed in a Kentucky court have just been filed at Jackson, Breathitt county. That county is the scene of the Hargis-Cockrill feud and within its borders thirty men have been killed this year. A number were assassinated and are credited to one or the other factions, while several men are exiles from the county because of their fear of assassination. The affidavits are by Attorney J. Markum and Moses Feltner, his client, accused of killing Jesse Fields.

"FRUIT OF THE LOOM."

Men and women of taste and judgment go into ecstasies over the wonderful patterns, textures and colors which are "the fruit of the loom."

The diseases which weaken and torment women, may in almost all cases be cured by the use of Dr. Pierce's Favorite Prescription.

"Favorite Prescription" makes weak women strong, sick women well.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

Per year, by mail, \$10.00

MARQUETTE, MICH., NOV. 11.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Porto Rico is far enough along for election frauds, and yet there are those who deny that the new possessions are capable of assimilating our institutions.

If they picked up the good with the same facility they display in acquiring the bad they would be ready for statehood in a marvelously short time.

It will probably now follow that there will be some let up in the insistence with which the Ishpeming football men have been seeking Duluth's scalp, while they apply themselves to making arrangements for a second game in which they will have an opportunity to prove their superiority to Escanaba. Saturday was a bad day for would be state champions, the tie in the all absorbing contest north of the straits having been duplicated in the lower peninsula.

The result at Escanaba rather upset calculations, and now there will be a general demand that the 0 to 0 score be played off. Both Ishpeming and Escanaba are to be congratulated on getting through such a close and exciting game without a row. The showing in that respect was admirable.

General Corbin's suggestion that more American officers should have a command of German, French and Spanish is deserving of more consideration than it is likely to receive. The American officers that spoke Spanish were of exceptional value in the late war for Cuban independence and officers who speak other languages may have opportunities for great usefulness in the future.

A knowledge of foreign languages is invaluable to an army, and ought to receive the fullest encouragement. Count d'Herisson, in his memoirs of the Franco-Prussian war, mentions the French lack of familiarity with German as one of the real weaknesses of the army. There were 100,000 Germans who could come and go in Paris, and be reasonably sure of escaping detection, by reason of their excellent speaking knowledge of French. There were only a handful of French officers who had a working knowledge of German and could speak it fluently enough for practical purposes in time of war. In every direction in which an American army may turn it is confronted with the necessity of dealing with people who speak no English. To the south it is Spanish. To the north French is no less necessary than English.

The movement to provide the Michigan College of Mines at Houghton with adequate gymnasium facilities is progressing favorably. The general committee has been organized, and the work of pushing the canvass for additions to the fund for the erection of a \$50,000 building will begin forthwith. The plan, as outlined at present, is to raise \$25,000 in Houghton county, and the other half of the requisite amount in the other counties of the upper peninsula. The Mining Journal regards this arrangement as fair, and it believes that if Houghton county, as it doubtless will, raises its portion of the total the remainder of the peninsula will hold up its end in a gratifying manner. The college of mines is it not a state institution. Indeed it is not a state institution, as it draws its student body from all over the nation and world. However, for most practical purposes, it is an upper peninsula institution. It is one of the particular prides of the people living north of the straits, who esteem its record in the past, take satisfaction in its present and are highly hopeful for its future. They have ever been enthusiastic in its support, and they will not fail it now. There is little question but that the subscriptions will flow in freely when the canvass is once commenced. The friends of the college of mines are the solid men of their respective communities and they will doubtless loosen their purse strings freely in answer to its call.

Henry Watterson believes that last week's election has eliminated Patterson of Pennsylvania, Johnson of Ohio and Hill of New York as Democratic presidential possibilities and he asserts that, in his estimation, Senator Arthur Poe Gorman of Maryland is in the most commanding position in Democratic ranks. "The Democratic party," he says, "has a clear field before it for 1904. In Mr. Gorman, at least, it has one national leader surpassing in wisdom and experience, a Democrat from the crown of his head to the soles of his feet. He will presently resume his place in the councils of the nation. His word should pass for much with every thinking Democrat. He is not only a wise man; he is upright, courageous, worth a dozen Hills, or a thousand Cleverlands. For the time being, at least, let us rally about Gorman, for, whether he leads us to victory or defeat, he will not lead us astray."

Judging from the advice from Winnipeg, the pilgrimage of the Doukhobors will result in the extermination of a good part of this strangely fanatical sect. Only the exertion of force at that city prevented them from accomplishing their end by wandering off onto the frozen prairie, and it does not appear likely that they will remain in their villages when returned there under guard. They are possessed by a religious frenzy which renders them incapable of appreciating danger, reason or kindness. The Doukhobors should have initiated their pilgrimage in the milder seasons, when their migration would have resulted less seriously for themselves and have given the Canadian government less trouble, but their natural perversity led them to do just the wrong thing at just the wrong time. The Doukhobors are violating all natural laws and the Canadian authorities are not to be envied their task of dealing with them. It is to be hoped that the fanatics will remain on the north side of the border. We have troubles enough at home.

INCREASE IN ORE TRAFFIC.

Authentic statistics on the movement of iron ore from Lake Superior show that this is the banner year in the ore traffic of the lakes. The estimates that were made earlier in the season have been largely exceeded, and unless there should be a sudden and unexpected close of the navigation season, or the blocking of the channel by serious mishap, the year's record will be not only largely in excess of that of any previous year in total amount shipped, but will also show a much larger gain over the preceding year than has ever occurred in the history of the ore carrying trade on the lakes.

Already the shipments by lake exceed the total shipments of last year's full season by about 4,000,000 tons, and unless something unexpected happens, the total shipments this season will be about 26,500,000, which will be a gain of about 6,500,000 over the total shipments of last season. This is a much larger increase than in any other year. The gain itself will be more than the entire shipments of 1893, which was a dull year in the ore trade, but which was only exceeded in volume by four of the many preceding years of the traffic. For the last few years the total annual shipments by lake have increased at a remarkable rate, each year showing heavy gains on the year preceding, until the unprecedented growth of the present year was reached.

In the last twenty years the aggregate shipments of iron ore from the Lake Superior country amount to about 198,000,000 tons. More than half of this total has been, or will be at the end of the present season, carried in the last five years of the twenty. In the last six years there will have been carried at the end of the season more than half of all the iron ore brought down the lakes since the first iron ore was discovered in the Lake Superior region. What the next year's record will be it is difficult to predict, bearing in mind the way in which each year's record for half a dozen years has outstripped calculations made at the beginning of the season. Vessel owners look for no diminution of demand for tonnage and the shipyards are working to their utmost capacity to get out the new tonnage with which their order books are filled. The fact should not be forgotten that this rapid and enormous development of the iron ore traffic with the consequent growth and prosperity of the iron manufacturing industry of the United States, is directly due to the improved facilities for water carriage. It would have been impracticable to move the product of the mines with speed and cheapness by all rail, or by such limited facilities for water carriage as existed before the work of improving the waterways was begun on a large scale. With every obstruction in the channels removed, and with every additional foot of depth obtained, larger vessels were built and the cargo volume increased. With increased tonnage in one hull came decreased rates of freight, cheaper ore at the furnaces, and cheaper iron and steel in the market. The result has been seen in the enormous development and prosperity of the manufacturing industries of the country. No investment has paid the United

States better than the money expended in the improvement of the great lakes waterways. The work is not yet completed. There are improvements yet to be made in the channels and harbors of the great lakes if the needs of the country are to be met. When congress is asked to make the necessary appropriations, the most effective way to silence objections will be to present the statistics of the ore traffic of the lakes and show how the increase was brought about and what it has done for the country.

RISE OF FOOTBALL IN WEST.

Says the Detroit Journal:

Even to the sedate citizen who considers his physical integrity of more importance than a few hours of recreation and looks upon football merely as one of the inevitable evils of youth's exuberance, there is a great deal in the football situation, from a western and a Michigan point of view, that revives youthful exhilaration. If we here in Michigan suffer from football hysteria this season, we can justify it with the claim that in two years Michigan has hope of getting the Ann Arbor team in a condition to be beaten by every high school team in the west. But western football progressed, even during that local retrogression. Last year Mr. Caspar Whitney, the fairest athletic critic in the country and the only champion that Michigan has in the east, declared Michigan superior to any college team in the country, with the possible exception of Harvard. This was proved by the fact that Michigan swept the boards clean from Los Angeles to Buffalo. To a gentleman of the name of Vost is due this credit.

There is a team at Ann Arbor this year that, by its performances, deserves to contest for the American football championship, if eastern prejudices and narrow-mindedness would permit. Despite the forceful arguments that have already been advanced, eastern critics, undergraduate managers and players will not admit that Michigan is the west's best team. It is anything but sporadic or played anywhere but on the town commons. The largest eastern teams which alone are worthy of contesting with Michigan refuse to take the chances of shattering those ideals and jarring their smug self-esteem. An opportunity for Michigan to meet these teams under fair conditions is far in the prospective. Meantime we go merrily on, cleaning up in the west and far west, buying ourselves profitably while waiting for the recognition which is our due.

RHEUMATISM CURED IN A DAY.

"Mytic Cure" for Rheumatism and Neuralgia radically cures in one to three days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents a bottle. Sold by Frank Penfold and all druggists. (10-7-2100)

SPEAKING OF SOUP.

How It Was Served in a Primitive German Hostelry.

"Speaking of soup," said a prominent musician who has traveled over a good part of the earth, to the New Orleans Times-Democrat, "reminds me of an experience I had some years ago while in one of the provinces of Germany. I had stopped over in a small town for a day or two and was at the best hotel in the place. This is not saying a great deal, for the patronage did not justify anything like gorgeousness in the matter of service or in the kind and character of the food furnished the guests. The proprietor, at any rate, was doing the best that he could, and, no doubt, I would have got along all right but for the peculiar method they employed in serving soup. I have never seen the method employed in any other place, and, to be candid about it, I have not been on the lookout for the unique way of serving the first number on the menu. The first intimation I had of the curious practice was when a big, heavy Hollander, with a husky voice, who had rushed up behind me, asked, 'Soup?' 'Yes,' I replied, and before I knew what had happened he had squirted the soup out into my plate. I was surprised and shocked and not a little puzzled at first, because I did not know how the waiter had managed to squirt soup into my plate so quickly. I had expected him to bring my soup in the usual way, in a plate. But he shot the soup over my shoulder before the echo of the 'ja' had left my lips. I watched him make the round of the table. He had the soup in a receptacle of some sort that looked like a cross between a bagpipe and something else, and it worked with a suction-rod arrangement. If a guest wanted soup he would press the rod and the liquid would squirt out into the plate. It was interesting enough, but, to save my life, I couldn't eat the soup, and, in fact, I couldn't eat anything else in the place. I suppose it was all right, but I simply couldn't stand it, and when I left the place I was nearly starved."

A STARTLING SURPRISE.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give people health. Try them. Only 50 cents at Stafford's drug store.

Keep the Cold Out.

Too much cold outside is apt to mean a cold inside the chest. And the most colds are not taken in extreme temperatures, but when the weather suddenly changes—something it is apt to do often about now. Fall colds often mean winter lung coughs and permanent long or bronchial trouble. The best defense for those who take cold easily is a good chambray vest or chest protector. We have the good kinds. The cheapest are good, the best are better. Our prices are reasonable on all. Drop in and see them.

FAGG'S DEATH EXTREMELY SAD.

Young Man Killed in Railroad Yards Was Soon to Be Married.

The inquest in the case of William K. Fagg, the young man who met his death under the wheels of a Copper Range passenger train Saturday evening, was held in Coroner Brand's office yesterday morning. The jurors rendered a verdict that "the decedent came to his death by jumping of a train in the Copper Range yards, at Houghton, in the dark." No blame was attached to the company. A brother of the young man arrived at Houghton from Madison, Wis., yesterday. He will accompany the remains, which were taken to the residence of C. C. Heughens in West Houghton, to Madison for interment. Memorial services for Mr. Fagg were held at the Hancock Congregational church Sunday afternoon and evening. His life and character were extolled by Rev. Edwin More and others during the young people's service Sunday evening, those present being deeply moved by the untimely taking away of one who had been an earnest worker among them.

Not only is the death of Mr. Fagg a great blow to his invalid mother and his other relatives, but also to another to whom he was very dear. The young man was engaged to be married to a Houghton girl and the ceremony was to have taken place next June. Mr. Fagg was to take his bride to Boston, Mass., where he was soon to have a position as private secretary to one of the well-known Trumountain mine officials. He was preparing for his new work at the Trumountain mine office and was to have left for Boston in a month or two. Mr. Fagg usually spent his Sundays in Houghton and was in the habit of jumping off the train near the Copper Range roundhouse in order to hasten to the home of his fiancée. He had been repeatedly warned, it is said, not to jump off the train in the yards, as the practice was considered very dangerous on account of the darkness of the nights and the speed of the train.

MORE TERRITORY FOR STANTON.

Newly Created Township to Be Enlarged by Incorporation of Another Strip.

The county board of supervisors will be petitioned, at its regular meeting to be held Dec. 9, by the requisite number of freeholders of Stanton and Hancock townships to detach a strip of territory from Hancock township south of Portage lake and attach it to Stanton. The supervisors will no doubt act upon the matter favorably. When Stanton township was formed out of territory taken from Hancock township, it was agreed that at some future time Stanton township should take the strip in question. The Hancock township authorities contended that the territory on the south side of the lake is of no benefit to them, and that it would be more advantageous for Stanton township to have it. Without the Stanton township land, the strip in question is a burden to Hancock township.

CURED OF PILES AFTER 40 YEARS.

Mr. C. Haney, of Geneva, Ohio, had the piles for forty years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap, worthless counterfeits. H. Harwood, Ishpeming; Stafford Drug Co., Marquette.

SUIT AGAINST TROLLEY LINE.

Claim for Heavy Damages to Be Aired in Circuit Court Tomorrow.

The trial of the cases on the criminal calendar will be finished in circuit court today. The case of Charles O. Olivier of Hancock, administrator of the estate of Cyrille Boivine, versus the Houghton County Street Railway company will be taken up tomorrow. W. A. Burritt of Hancock will appear for the plaintiff and Gray, Haire & Store for the defendants. Boivine was killed at the Hancock end of the county bridge last spring by a street car. Mr. Olivier contends Boivine's death was the result of carelessness on the part of the street railway company and sues for big damages.

WANTS ENTRY INTO LAKE LINDEN.

Street Railway Company to Renew Its Effort to Secure a Franchise.

At next Thursday's meeting of the Lake Linden village council, it is expected that the Houghton County Street Railway company will ask for a franchise authorizing the extension of its line through the village. Upon just what terms the franchise will be asked, is not known, but it is considered likely that the company will not be successful unless the provisions are very favorable to the village. It is asserted, whereby it will be compelled to pay part of the cost of removing snow from the streets. The village does not do it now, and would not after the tracks are down. In the other copper country villages, the cost of removing snow is paid by the villages, an arrangement which is now now much relished by the people.

It is understood the company is very anxious to get its line into the village, as it would undoubtedly increase its business on the extension from Calumet to Lake Linden. At present the line has been built up to the village limits. The terminus is nearer the village than was originally planned by the company, but it is still too far away to please the majority of Lake Linden residents. Next Thursday's meeting of the council promises to be very interesting. If the street railway franchise question comes up, it will likely be speedily settled if the company agrees to pay the whole cost of handling the snow and to lay its tracks on those streets designated by the village. The council is not opposed to the street railway company—the differences are those of terms.

Lighting and Pumping Question.

The council committee appointed to look into the matter of the cost of installing and operating a municipal lighting and pumping plant will likely report at next Thursday's meeting. Lake Linden is taking municipal ownership strong and it would be no surprise to hear of favorable action upon it. The committee has been carefully considering the question, and will be well prepared to give an opinion entirely sufficient for a good working basis. The proposition of the Houghton County Electric Light company to lower the rates for lighting the village and pumping water is still before the council, and it will likely be accepted if nothing comes of the municipal plant scheme. The reduction offered makes a price that is considered very reasonable.

SNOW QUESTION THE STICKLER.

The date of opening for traffic the street railway extension from Calumet to Lake Linden may be delayed for days because of the company's difficulty in securing permission from the village of Laurium to lay a track for three hundred feet along Calumet street, in the Florida location, to connect the extension with the main line. The council, in view of its own experience, wants the company to fund the whole cost of removing the snow from the street during the winter. Unless the company agrees to do so, the franchise will not be granted, the council being determined in the matter. The company has not yet decided what to do, and in the meantime the extension may be delayed for the Laurium end. The company desires that the village pay half the cost of removing the snow. Just what the outcome will be cannot be surmised, unless the company buckles down to the demands of the village.

INDOOR BALL GAME.

The Calumet Light Guard indoor baseball team and the city team, recently organized by the outdoor players, will arrange a game for some evening this week. Both aggregations are fast and good exhibitors and the game of the Light Guard team recently defeated Osceola 15 to 6. Much interest will be taken in the sport this season, and each town will be represented by one or more good teams. A better class of ball than was played in past seasons is expected.

OIL STOVE CAUSES HAVOC.

The Hancock fire department was called out Sunday evening on account of a blaze in the apartments of Burt Cummings, over the Marine saloon on Quincy street. The fire was put out, however, before even the alarm was turned in. The cause of the blaze was an oil stove which had been left lighted in the room in the afternoon while the family was out. Considerable damage was done to the apartments by the smoke from the stove. Everything in them was thickly covered by the greasy carbon. A hole was also burnt in the carpet and floor.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo-Quinine Tablets. This signature, E. W. Grove, on every box. 25c.

If you are bilious and seeking advisers, take DeWitt's Laxative Bromo-Quinine Tablets, just before going to bed. You will find on the morning, you are rid of your sorrow—That's all; just enough said.

These famous pills do not gripe, but move the bowels gently and easily, cleansing the system. They tonify and give strength to the glands, preventing a return of the disorder. H. Harwood, Ishpeming; Stafford Drug Co., Marquette.

BRUTAL DRIVER.

Runs Over a Boy and Leaves Him, Badly Hurt, Alongside Road.

Elmer Olson, a ten-year-old Osceola boy, lies in a serious condition at his home, the result of being run over by a hay wagon. The driver of the wagon, seeing the boy stealing a ride, whipped him until he fell off. The wheels passed over the small of young Olson's back and he was found a few minutes later in a very weak condition. The boy was found suffering from internal injuries. The identity of the driver, who did not stop to aid the boy after running over him, is not known.

SUDDEN DEATH AT DOLLAR BAY.

Jacob Rohlman, a prominent business man of Dollar Bay, died at 9 o'clock Sunday morning after a brief illness with Bright's disease. His death was entirely unexpected, and was a great shock to his relatives and many friends. Mr. Rohlman was thirty-eight years of age. He is survived by a wife and four children. His parents reside in Hancock. Mr. Rohlman was in the general store at Dollar Bay for ten years. He was widely known and popular not only in Dollar Bay but also in Hancock, where he was first in business.

WOODS FULL OF HUNTERS.

The woods in this region are literally filled with hunters and if hunters do not happen it will be something miraculous. Outside of the hundreds of Houghton, Ontonagon and Baraga hunters, scores of southern Michigan hunters are out after deer. The number of hunters is greater this year than ever before. Deer are reported plentiful.

WILL LOCATE IN ARIZONA.

Will P. Dolan, who has been private secretary to General Manager McKeevee of the Copper Range road, for the past three years, has resigned. He will leave this week for his home at Rutland, Vermont, for a short visit, after which he will go to Phoenix, Ariz., to reside.

COPPERDUM BREVITIES.

Neil Burgess, in the "County Fair," will be seen at the Kerredge theatre, Hancock, on the evening of Nov. 15.

The steamer Rochester, of the Union line, arrived, up bound, yesterday. The New York is due today and the Portage Thursday.

Miss Fannie Bristol has resigned her position as solicitor for the Good Will Farm of Houghton and has returned to her home in Milwaukee.

A letter from Ed. Merz, proprietor of the Arlington Hotel at Calumet, says he is enjoying himself in southern California and that he will return in two weeks.

The Uniform Rank, Knights of Pythias, of Hancock and Houghton, will give a dancing party in the hall in the Citizens' National bank building at Houghton Thanksgiving eve.

Captain Samuel B. Harris, of the Quincy mine, will remove from the Quincy location to the Quincy addition this week. He will reside with his daughter, Mrs. C. D. Hanchette.

Saturday and Sunday the steamer City of Traverse took on fifty tons of copper at the Dollar Bay smeltery, the steamer Japan, of the Anchor line, 400 tons, and the steamer Milwaukee, of the Western line, 200 tons.

Ralph Harris, son of W. M. Harris of Calumet, has been appointed sergeant major at Michigan Military academy. Will Daniel, son of Mrs. Susan Daniel, also of Calumet, was selected for color sergeant. Both are staff positions. The boys are seniors at the institution.

For the months of August and September, the bill of the Calumet & Hecla company for Lake Superior and pond water supplied to the village of Laurium amounted to \$2,041, \$1,904 for September and \$1,037 for August. About 1,600 persons are down on the list as consumers.

Calumet ministers have decided to hold a union service on Thanksgiving Day, a custom usually followed in the copper country metropolises. The service will take place at the Calumet M. E. church. Rev. Mr. Appleton, of the Red Jacket Congregational church, will conduct it.

As a result of the activity of Civic Federation members at Calumet, warrants will be sworn out this week against a number of Red Jacket saloon keepers for alleged violations of the liquor laws. The members were very busy collecting evidence Sunday. Most of the saloon men are living up to the law.

Street and other work for the year is practically finished at Laurium, and the work engaged under the street commissioner has been laid off. Many improvements were made in the village during the summer, including the instal-

ment of a new street lamp.

lution of a mile and a quarter of sewers. The sewerage system is now complete and is perfect in every detail. The rock crusher, which has been at work at the Tamarack all summer preparing rock for the streets, has been shut down and most of the men at work on the streets will be let go this week.

LUCK IN THIRTEEN.

By sending 13 miles Wm. Spirey, of Walton Furnace, Vt., got a box of Bucklen's America Salve, that wholly cured a horrible Fever Sore on his leg. Nothing else could. Positively cures Bruises, Felons, Ulcers, Eruptions, Boils, Burns, Corns and Piles. Only 25 cents. Guaranteed by Stafford, druggist.

MINING NEWS

QUINCY WELL EQUIPPED.

Its Cost of Copper Has Now Been Brought to the Minimum.

The many improvements completed at the Quincy the past several years in the way of new hoisting plants, smelting works, stamp mill, and coal hoist puts the Quincy in the front row in the matter of equipment, and will be productive in the mine making copper perhaps cheaper than any other in the lake district. The mine's saving in smelting alone, it is said, shows a saving of one-half the former rates paid. At the mills on Torch lake a complete innovation in stamping, in addition to increased efficiency, is noticeable. New improved mortar discharges, swinging grates, new tables for the treatment of tailings and other devices insuring cheap stamping have been installed. In depth, the mine is showing up better on the Mesnard and Pevabie lodes, which the retiring manager, Captain Harris, showed good judgment in acquiring and developing. The Quincy in 1901 paid on Feb. 25 \$300,000 in dividends and Aug. 15 \$600,000, reserving for machinery, \$200,000, paid from earnings. The product of the mine in refined copper was 20,540,720 pounds last year. The prospects for the future of this mine are very encouraging.

CALUMET & HECLA DIVIDEND.

The directors of the Calumet & Hecla Mining company yesterday declared a dividend of \$5 per share.

MINING GOSSIP.

Mass Consolidated stock acts as if it was getting ready for another good-sized up-turn. The liquidation of such of the stockholders who are dissatisfied with the assessment is now about completed. In making plans for the future, they will greatly benefit the property are known to have been recently shaped up by the management and will be announced in due season.—Boston Journal.

The Tamarack, Jr., property of Osceola is nearly exhausted, and the reduction of output from this source will result in a lower cost for the balance of the company's product. Osceola mill repairs are being rushed as rapidly as possible, which is considered an indication that the mine will soon be operated to its full capacity. Osceola is today considered capable of producing 1,500 tons of mineral monthly.

GEORGE GOULD'S INDUSTRY.

George Gould is an excellent example of the young man born to millions, who, in coming into his fortune, shows both the willingness to work and the ability to work effectively. It was his desire to get into working harness more than anything else that made him cut short his school days and go into the office of his father. He attacked all sorts of details which the head of a great corporation need never concern himself with. He learned telegraphy, and for years had a key and sounder on his desk, retaining them long after he was the head of the family and its properties, though the telegraphic instruments have since been displaced by the telephone. Save when on vacation or when inspecting some of his roads he puts in regular and fairly long hours at his desk and when there he works with his might and entirely without frills, sitting in his shirt sleeves in warm weather and often running his own errands instead of making

WAR ON LADRONES

ARMY NOW TO TAKE A HAND IN THE PHILIPPINES.

CONSTABULARY PROVES INADEQUATE

NATIVES IN MANY DISTRICTS TERRORIZED BY BRIGANDS.

Troops Are Being Sent to Garrison the Principal Towns, Martial Law Will Be Proclaimed and Campaign Will Be Vigorous.

Manila, Nov. 10.—The government contemplates asking the military to aid in the extermination of the ladrones in the provinces bordering on Manila.

The ladrones are active in the provinces of Rizal, Bulacan and Cavite. They have committed many depredations, levied tribute, and terrorized the people.

Garrisons Strengthened. A vigorous campaign by native volunteers that were organized in Bulacan province has driven the ladrones into Rizal province.

The army will be asked to garrison and protect the largest towns, while the constabulary take the field.

Ladronism has been quelled by the constabulary in many other parts of the islands, including the province of Tayabas, where Rizal's band has been completely broken up.

Railway Franchise Sought.

The Manila & Dagupan railway has applied for a franchise to build a branch from Guigoto to Cabanatuan.

JACK ROOT DEFEATS HART.

Chicago, Nov. 10.—Tonight at the Lyceum Athletic Club, Jack Root of Chicago was given the decision over Marvin Hart of Louisville after six rounds of hard fighting as ever witnessed in Chicago.

FIGHTING INHERITANCE TAX. Washington, Nov. 10.—A motion to advance the case of Isabella F. Blackstone vs. the Comptroller of the State of New York was filed in the United States supreme court today.

CONFESSION IN GOEBEL CASE. Frankfort, Ky., Nov. 10.—There is no question that Henry Youtsey, serving a life sentence for complicity in the murder of Governor Goebel, has made a statement concerning the affair.

VICTIMS OF GAS. New York, Nov. 10.—Sarah Frost, widow of Henry Frost; her son, and James Kiley, a boarder, were found dead from inhaling gas in their apartments in West Thirty-seventh street today.

Jim Dumps moved on the first of May. His household goods all went astray. The bread-box, teapot, frying-pan were lost within the moving van.

"What shall we eat?" wailed wife to him. "Why, 'Force,' of course," cried "Sunny Jim."

"FORCE" is queen of the May. Sweet, crisp flakes of wheat and malt.

Condon't Get Through the Day Without It. Our town is considerable "Force" Food. We think we couldn't get through the day without it. (Mrs.) E. P. Szelebold.

Force cereal advertisement text including "is queen of the May" and "Sweet, crisp flakes of wheat and malt."

NO POLITICS IN KAISER'S VISIT.

Premier Balfour Talks at the Lord Mayor's Annual Banquet.

London, Nov. 10.—The annual banquet given by the lord mayor of London was attended this evening by about one thousand persons.

Premier Balfour, replying to the toast of "His Majesty's Ministers," referred to the splendid services rendered by the colonies during the South African war.

The premier said he looked to the future of South Africa in a hopeful, but not too sanguine spirit, as every source of wealth there was practically dried up.

Mr. Balfour declared he knew nothing about the "fantastic bargains" invented by the press upon the occasion of the visit of a great and friendly sovereign to his nearest relatives.

The premier deprecated international politics of any kind, especially the anti-English feeling on the continent over the Boer war, as endangering the concert of Europe.

RURAL DELIVERY A BIG SUCCESS. Further Large Extensions Urged by the Postoffice Department.

Washington, Nov. 10.—The annual report of First Assistant Postmaster General Wynn urges that in view of the success of the rural free delivery establishment and its future necessities, a recommendation for \$12,655,800 in estimates for that purpose is reasonable.

The rural free delivery system, the report says, has become a permanent feature of the postal service and the service has increased the postal receipts and improved conditions wherever put in operation.

The extension to rural carriers of power to receive and register letters has proved so acceptable to the public that it is proposed further to increase their usefulness by adding, under proper regulations, an extension of the money order system to rural routes.

SILVERSMITHS QUIT WORK.

Forest Hill, N. J., Nov. 10.—The threatened strike of silversmiths at Tiffany & Co's plant began today, 500 men quitting work. They demand a nine-hour working day.

Strike at Packing House.

Chicago, Nov. 10.—Seven hundred employees of the Hammond Packing company struck today to compel the company to live up to its agreement for a uniform wage scale entered into some time ago.

COLD WAVE MOVING EAST.

Washington, Nov. 10.—The weather bureau today issued the following bulletin: The northwestern cold wave has extended over the upper lakes, the upper Mississippi valley and the middle western states and will overspread the middle Mississippi and Ohio valleys.

NO TRACE OF SUPT. EGAN.

Hemeta, Mont., Nov. 10.—A telegram received this afternoon says that no trace has been found of Superintendent Egan, of the Kalspell division of the Great Northern, who was lost while hunting in the mountains near Belton last week.

CONFESION IN GOEBEL CASE.

Frankfort, Ky., Nov. 10.—There is no question that Henry Youtsey, serving a life sentence for complicity in the murder of Governor Goebel, has made a statement concerning the affair.

VICTIMS OF GAS.

New York, Nov. 10.—Sarah Frost, widow of Henry Frost; her son, and James Kiley, a boarder, were found dead from inhaling gas in their apartments in West Thirty-seventh street today.

Jim Dumps moved on the first of May.

His household goods all went astray. The bread-box, teapot, frying-pan were lost within the moving van.

"What shall we eat?" wailed wife to him.

"Why, 'Force,' of course," cried "Sunny Jim."

"FORCE" is queen of the May.

Sweet, crisp flakes of wheat and malt.

Condon't Get Through the Day Without It.

PRESIDENT TO FIGHT

HAS DECLARED WAR ON THE BIG FINANCIAL POWERS.

SEEKS TO BENEFIT THE MASSES

WILL URGE RADICAL LAWS AGAINST THE TRUSTS.

Wall Street Magnates Warned of the Decision Find Roosevelt Determined and Obdurate and at Once Drop All Proposed Mergers.

Washington, Nov. 10.—President Roosevelt has cast Wall Street overboard, hook, line and sinker. He has decided to ignore the big financial interests, typified by J. P. Morgan & Co. and other similar organizations, and to advocate such policies as will benefit the people.

His plans are to be accomplished without any reduction of tariff schedules. When general tariff revision comes it must be placed on a strictly scientific basis and handled by a tariff commission.

To that end radical laws to prevent railroad combinations and against organizations formed to control food, fuel and clothing products will be recommended to congress by the president.

Every effort will be made to have laws embodying the president's recommendations passed at the coming session. In addition to requesting immediate legislation, the president will ask Attorney General Knox to institute additional suits to prevent gigantic corporations of railroad lines. The attorney general is now considering a number of combinations with the view of bringing legal action against them.

All possible pressure has been made to stay the president's hand. Representatives of Wall street, one of whom is R. B. Bacon of Morgan's firm, conferred with the president in Philadelphia last week and found him obdurate.

Frank A. Vanderlip, formerly assistant secretary of the treasury and now vice president of the National City bank of New York, in a speech delivered at Charleston a week ago, sounded a warning of what may be expected. He advised all financial institutions to prepare for monetary disturbances and shorten sail on all transactions.

Frank A. Vanderlip, formerly assistant secretary of the treasury and now vice president of the National City bank of New York, in a speech delivered at Charleston a week ago, sounded a warning of what may be expected.

Information has reached the administration that already confidentially has been abandoned. The worst is now out all along the line to suspend all combinations until the decision in the Northern Securities has been handed down.

department of agriculture, and each of the eleven principal hay-producing states reports an average yield in excess of last year and also in excess of the ten-year average.

The apple and pear crops are considerably above the ten-year average, and the grape crop is slightly below such average.

CHICAGO GRAIN MARKETS.

Chicago, Nov. 10.—Wheat had a moderate trade today and was weaker, closing 1/4c lower. The spread widened a little, to 2 1/2c, due to December liquidation.

The visible increased 3,808,000 bushels, against 767,000 a year ago. The exports were fair and thirty-five boatloads were taken on the coast.

In corn there was a fair trade, within a narrow range. The feeling was easier and the market closed 3/4c lower for December, with May little changed.

The local temper was bearish, traders fearing the effect of the government report. Local shorts added to their lines, with selling of December and buying of May by elevator interests a feature.

The visible increased 206,000 bushels; last year it decreased 259,000. On the coast twenty-seven boatloads were taken.

Oats were quiet and weaker. At their lowest the price was 1/4c, and at the close 3/4c. There was no great pressure or supporting orders of importance, and the market was influenced mainly by other grains.

The receipts and shipments were as follows: Receipts, Shipments. Flour, barrels, 22,000 24,000. Wheat, bushels, 279,000 195,000.

Corn, bushels, 151,000 226,000. Oats, bushels, 326,000 247,000.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

Table of copper stock quotations including American, All, Anaconda, and others.

BOSTON STOCK SALES.

The following were the transactions in copper stocks on the Boston exchange:

Table of Boston stock sales including American, All, Anaconda, and others.

Range of Money Rates.

Money on call, steady, at 4 1/2c per cent; closed, offered at 3. Prime mercantile paper, 5 1/2c. Exchange, steady at a decline, demand at 487-487.125 and sixty days at 483.875-484. Bar silver, 49 1/2.

BIG YIELD OF CORN.

It is Predicted by the Preliminary Estimate of Agricultural Department.

Washington, Nov. 10.—The preliminary estimate of the average yield per acre of corn, as published in the monthly report of the department of agriculture, is 26.8 bushels, compared with an average of 16.7 in 1901, 25.3 in 1900 and 18.09 and a ten-year average of 23.4.

The following shows, among states having one million acres or upward in corn, the preliminary estimate of the average yield per acre, in bushels, in 1902, with the final estimates for 1901 and the mean of the averages of the last ten years:

Table showing average yield of corn by state for 1901, 1902, and 10-year average.

The general average as to quality is 80.7 per cent, compared with 73.7 last year. It is estimated that about 1.0 per cent of the corn crop of 1901 was still in the hands of farmers on Nov. 1, 1902, compared with 4.5 per cent of the crop of 1900 in farmers' hands on Nov. 1, 1901.

Concerning Other Crops.

The average yield per acre of buckwheat is 18.1 bushels, against 18.6 in 1901 and a ten-year average of 17.2 bushels.

The yield per acre of potatoes is 65.4 bushels, against 65.5 in 1901 and a ten-year average of 75.9. Of the states having a hundred thousand acres or upward in potatoes, all except New York and Michigan report a yield per acre considerably above the ten-year average.

Ask your doctor about Ayer's Cherry Pectoral for colds, coughs, croup, asthma, bronchitis, consumption. He knows. J. C. Ayer & Co., Lowell, Mass.

Yesterday as furnished to The Mining Journal by Paine, Webber & Co.:

Table of commodity prices including Adventure, Allouez, and others.

ON THE VERGE OF ANARCHY.

Conditions in Isle of Pines Are Brought to President's Attention.

Washington, Nov. 10.—President Roosevelt has asked the secretary of war for a report on the situation regarding the Isle of Pines as it was at the time of the withdrawal of the United States from Cuba, and also on the government of that island during the time the United States was in control in Cuba.

In an interview today on the condition of affairs upon the island, T. J. Keenan of Pittsburgh, who is president of the American residents and property owners' association of the island, said the condition of affairs on the island was so bad that United States Minister Squires had virtually advised a delegation of American Pine Islanders, who recently called on him in Havana, to take matters into their own hands and establish a provisional government.

Continuing, Mr. Keenan said: "The Isle of Pines is on the verge of anarchy, having no governor, no courts or magistrates, no schools, and no revenue. All the taxes and customs dues paid by the islanders go into the Cuban treasury, and not a cent is expended for their benefit. All the property and other records are kept in Cuba, and transfers of real estate are rendered well nigh impossible by the enormous fees demanded by the Cuban officials. All elections have been suspended and American interests are absolutely unprotected, yet American citizens own nearly one-half of the island and are a majority of the tax-paying population."

CALLS ON ROOSEVELT.

Washington, Nov. 10.—Count Quadet, charge d'affaires of the German embassy, called at the White House today to introduce to the president Prince Henry of Prussia. The president received them in his office in the executive building.

The call lasted but a few moments, the visitors merely desiring to pay their respects. Prince Henry of Prussia, accompanied by Count Quadet, called at the state department after seeing President Roosevelt and paid his respects to Secretary Hay.

CRIMEAN VETERAN KILLS HIMSELF.

Elisville, Utah, Nov. 10.—William Richards, aged eighty-two, of Wellsville committed suicide today by hanging. He was a veteran of the Crimean war and participated in the siege of Sebastopol, where he was severely wounded.

SPANISH CABINET IS OUT.

Madrid, Nov. 10.—Premier Sagasta today tendered to the king the resignation of the entire cabinet. The cortes was informed of the crisis and suspended the sitting until it is solved.

CASTRO RETURNS TO HIS CAPITAL.

Caracas, Nov. 10.—President Castro made a triumphal official entry into Caracas yesterday, at the head of 3,200 troops, amid the ringing of bells and the discharge of fireworks. The flight of the forces of the revolution continues.

Women's Wealth Is Health
Paine's Celery Compound

GIVES VITALITY, VIGOR AND STRENGTH TO DEBILITATED AND RUNDOWN WOMEN.

It is maintained by many distinguished writers that the greatness of a nation depends much upon the physical condition of its women. The general conditions which contribute to health and long life are those which do not imply a rapid and unequal exhaustion of those powers by which life is maintained. While we assert that the women of our land stand peerless for beauty and the virtues that make them lovable, we cannot hide the fact that there are thousands in our midst who, owing to overwork, worry, household cares, and an unequal exhaustion of life power, have become weak, nervous, sleepless, and debilitated.

We bring to the attention of all weary, despondent, hopeless, and sickly women earth's great restorer and health-builder, Paine's Celery Compound. Thousands of healthy women around us owe their present vigor, activity, and robustness to Paine's Celery Compound. Mrs. Stephen Smith, St. Paul, Minn., tells how she was snatched from the grave; she says: "I had a bad attack of la grippe this spring and was at death's door, and no one ever expected me to recover. I was so weak that as soon as they brought me out of one faint I was in another. I could not take any nourishment, and doctors' medicines did me no good. A friend advised my husband to get me a bottle of Paine's Celery Compound which he did, but had no faith in it. The second day after taking the Compound, I began to get real hungry and took an interest in things. I had everything that money and loving care could supply, and with that and Paine's Celery Compound, I am now doing my own work, while three months ago I was almost in the grave. I know that I owe my health and strength to Paine's Celery Compound, and shall always recommend it."

There are many ways to economize, but none is so simple, entertaining, and satisfactory as the use of **DIAMOND DYES** in making pretty and practical objects for the home. Direction book and 45 dyed samples free. **DIAMOND DYES, Burlington, Vt.**

FINISHES UP THIS WEEK.

Prof. J. B. Roche Will Go from Here to Ishpeming.

Professor J. B. Roche of Grand Rapids, gymnast and physical culture expert, and Mrs. Roche, who conducts ladies' classes, are finishing up their work in Marquette, where they have been located over a month past, this week, preparatory to locating at Ishpeming, where they will organize classes similar to those conducted here.

Professor and Mrs. Roche have been successful in Marquette. They have both had good classes and their methods and the results of their treatment is highly spoken of by their pupils. They have gilt edged recommendations from many Marquette people, two of which are herewith given:
Marquette, Mich., Nov. 5, 1902.
Prof. J. B. Roche,

City.
Dear Sir:—It affords me the greatest pleasure to recommend your system of hygienic treatment.

Last winter I had an attack of pneumonia, which left me in a very debilitated condition. In fact, I could scarcely put my clothes on unassisted. Since taking your course of electric massage, deep breathing and physical culture, I feel just as strong and healthy as I did before I was taken sick and I have gained eight pounds in weight. I cannot praise your system too highly, and I cheerfully recommend it to any one in poor health and in need of physical development.
Respectfully yours,
CHARLES M. YORK.
Marquette, Mich., Nov. 7, 1902.
Prof. J. B. Roche.

To Whom It May Concern:—For the past eight years I have been treating for rheumatism. I have taken all kinds of baths. The doctors failed to give me any relief. I called on Professor Roche when he first came to our city. He examined me and told me that my trouble was from my spine, which he has proven to be the case. I have now taken four weeks' treatment in massage, electric rubbing and special exercises, and I now

feel like a new man. I gained five pounds in weight.
Yours truly,
THOMAS PRICE.

MAY RUN SHORT.

County Clerk Is Within 150 of the End of His Allotment of Licenses.

County Clerk Ross is wondering whether his present supply of deer licenses will pull him through the season and, if it runs short, whether he could succeed in getting any more. These cogitations on the part of the worthy clerk are occasioned by an unexampled demand for the licenses. Last evening he had issued some 1,450, and as the original allotment for this county was but 1,500 it may be readily seen that he is about at the end of his string. It behooves hunters who are not yet supplied to call around early if they want to be sure of having no delay when they are ready to take to the woods. Of course the greatest part of the demand for licenses is supplied before the season opens, but last year Mr. Ross dispensed some 400 of them after the first day on which deer could be legally hunted. Figuring on a similar demand this year, it appears that there will not be enough to go around unless the county clerk can secure an additional allotment.

SYMPATHETIC DECLINE.

It Was Characteristic of the Copper Market Yesterday.

Paine, Webber & Co. said of the Boston market: "Heavy pressure to sell stocks in the New York list caused the sympathetic decline in coppers today. Although Amalgamated broke nearly two points below its previous low record, there was comparatively little selling pressure in the other coppers. The New York market does not act as if the liquidation there was over yet and it may draw the coppers a little lower. If they do go any lower the best of them should be bought."

Hayden, Stone & Co. said: "Coppers were very weak this morning, with no news to account for it. It looks as if a big line has been let go by some one. Stop orders were caught, and the decline was quite sharp. The market on coppers was very narrow, and, as there were few buying orders, sales were at declining prices. Oscuro at 51 is a low point for several years."

Chicago Outlook Good.

W. H. Laidley & Co. said of the Chicago market: "The wheat market today opened slightly lower, and in the early part of the session there was rather feeble selling. Later, however, the market turned strong, closing at about Saturday's prices. The visible increased over 3,000,000. The northwest receipts were very heavy. The trade is waiting on the government report, to be issued this afternoon, and, until this is known positively, there is an inclination to even up trades. We are firm believers in higher prices for wheat and we advise its purchase on every little decline."

"Corn was very firm in the May option, and weaker in the December. The receipts were only fair. The visible increased 296,000. The cash demand continues good, and a premium over the options, and we believe in much higher prices.

"Oats continue in the same rut they have occupied for some time, the close being slightly under Saturday. The market has reached a point where it is governed almost entirely by the corn market, but it should do better.

"Provisions opened weak and lower, on the heavy receipts and continued dullness, although the market steadied in the latter part of the session. We believe in higher prices for provisions."

New York in a Bad Way.

Walker said of the New York market: "The market opened weak this morning, with a decline from Saturday night's close extending through the entire list. There was a distinctly nervous and uneasy tone, and long stocks were liquidated on a large scale. Traders were not slow to grasp the situation and offered stocks down in large blocks at every post. A special drive appeared to be made at Steel, the preferred declining to 83 and receding but little in support. There were spasmodic recoveries from time to time of a point or two, but these were induced principally by the shorts taking profits, although there were occasional evidences of good investment buying. Upon the announcement of the Western roads settlement with the Switchmen's union there was a distinct rally and the general market improved decidedly. The market closed quite steady at an advance of one to two per cent from the lowest prices. We are inclined to think that the general situation is temporarily improved, owing to the large and enforced liquidation."

CAR CRASHES INTO A STORE.

Five Persons Hurt and a Panic Created by a Peculiar Accident.

Mount Vernon, N. Y., Nov. 10.—Five persons were injured and a panic was created among thirty-five families by a trolley car jumping the track on North Fourth avenue, at Mount Vernon, and then crashing into the front of the five-story tenement at 34 North Fourth avenue.

The car was running at a rapid rate down-grade when Motorman Hoffman post, was pinned to the floor of the car had been placed on the track and before he could reverse the current the car left the track, ran a hundred feet along the pavement, jumped over the curb and sidewalk, and dashed into the plate-glass windows of a grocery store. It cut one of the big iron pillars in two and did not stop until it had passed half-way into the store.

The four upper stories are used by Italians, and they made a rush for the fire escapes when they heard the crash, as they thought an explosion had occurred. Women with babes in their arms and attired only in their night clothes were in the act of jumping, when Detective Atwell and several other officers assured them that they were safe. Motorman Hoffman, who had stuck to his seat, struck a piece of wood which lay on the iron pillar, and he was also badly cut by falling glass.

TWO ROADS.

They Will Be Built to Handle Ore from the Lake to Pittsburgh.

Instead of one new railroad being built from Pittsburgh to the lakes for the purpose of handling ore from the Lake Superior regions to the furnaces of that section, there will be two railroads, each independent of the existing lines, having a capacity of handling enormous tonnage of iron ore from the lakes and plenty of coal and coke for a return haul, says a recent dispatch. The newest line is to be backed by Henry Clay Frick and the Mellon interests. The plans of the promoters of the latest railroad have in view a feeder for the monster new furnace at Donora, Monessen, and Clairton. The new furnaces that have been built at these points are practically controlled by the Mellon interests, who are also leading factors in the Crucible Steel company, which owns the Clairton Steel company plant at Clairton; the Union Steel company, owner of the great plant at Donora, and are understood to have close relations with the Pittsburgh Steel company, which is now building three furnaces at Monessen.

The Finemery shaft at the Tobin mine has been lined and the work of making it bigger has been started. The new shaft will be 12 by 12 feet 2 inches on the outside of the timbers and will be divided into three compartments. The west half of the shaft will be used for fire feeder for the monster new furnace at Donora, Monessen, and Clairton. The new furnaces that have been built at these points are practically controlled by the Mellon interests, who are also leading factors in the Crucible Steel company, which owns the Clairton Steel company plant at Clairton; the Union Steel company, owner of the great plant at Donora, and are understood to have close relations with the Pittsburgh Steel company, which is now building three furnaces at Monessen.

"Corn was very firm in the May option, and weaker in the December. The receipts were only fair. The visible increased 296,000. The cash demand continues good, and a premium over the options, and we believe in much higher prices.

SOMETHING FOR NOTHING.

If any of our readers are troubled with constipation, biliousness, sick headache or indigestion cut out this notice, and present it at the People's Drug Store and they will supply you with a sample bottle of Re-Go Tonic Laxative Syrup free. Re-Go is a sure cure for these diseases.

FORECAST OF THE WEATHER.

Washington, Nov. 10.—The following is the weather bureau's forecast for Upper Michigan: Fair, Tuesday and Wednesday; warmer Wednesday; light variable winds, becoming fresh east.

I live and let my brethren live. With all that's good with me, Unto the poor, some cash I give. The balance I give Rocky Mountain Tea.

SPECIAL TRAIN SECURED. SERIOUS ACCIDENT.

Woodmen Will Travel to Marquette Tonight Over the L. S. & I.
At a meeting of the local lodge of the Woodmen last evening, it was decided to make the trip to Marquette this evening over the Lake Superior & Ishpeming road. A special train, going and returning, has been secured, as well as a round trip fare of five cents. The train will leave here at 7:15 o'clock, and, returning, will depart from Marquette at any time after the banquet it may be desired. It is the expectation that a large number of the members will go to Marquette to hear the address to be given by Head Consul Northcott, lieutenant-governor of Illinois, and to further the interest a committee appointed at last night's meeting will be out today to urge that all who can arrange to do so make the trip. A fifty-cent rate will also be in force over the South Shore road, the tickets being good on the regular trains.

Miner at the Cleveland Lake Has His Skull Crushed.
Mat Pesola, an employe at the Cleveland Lake Shaft, was injured yesterday by a piece of rock falling on his head and fracturing his skull. He was conveyed to the hospital and shortly after 2 o'clock the doctors performed an operation by which the surgeon sought to raise the broken pieces of bone and relieve the weight on the brain. Up till last evening the patient had not recovered consciousness and the result of the operation was uncertain. However, recovery is doubtful. Pesola is married and is the father of three children.

Outlook Not Promising.
Most of the Ishpeming High School Players Finish Up This Year.
The outlook for a strong football team here next year is not promising as most of the members of the present team will finish their school work this year. However, the Hematite City people will be quite satisfied to see Escanaba or any other worthy opponent step in and carry off the honors. But, in spite of the fact that the next team will be very light, Ishpeming will be in the running just the same.

Rev. Father Poulin to Leave.
He Has Been Assigned to the Catholic Church at Menominee.
Rev. Father Poulin of Ishpeming has been tendered the pastorate of St. Anne's church at Menominee and has formally sent notice to Bishop Eis that he will accept it.

Bishop Eis held a conference during his visit at Menominee last week on the occasion of the funeral of the late Father Bourion, but no one was apprised of his choice for the pastorate. In fact, one of the advisers of the bishop made the statement that that church dignitary had not expressed his personal choice and none of them had the least intimation as to who would be sent to Menominee. Bishop Eis upon his return to Marquette deliberated over the matter, and, finally, tendered the pastorate to Father Poulin. The new pastor will arrive at Menominee Wednesday to assume charge of the church. He will say his first mass Thursday morning. Father Poulin was formerly pastor of the Catholic church at Iron Mountain. A little over a year ago he was sent to Ishpeming. He is recognized to be one of the most able of the Catholic pastors in the diocese. He can speak several languages fluently, and is an accomplished orator. Rev. Father Golvani will remain at Menominee in the capacity of assistant pastor.

St. Anne's congregation is one of the largest in the diocese and is considered one of the best. Some of the best known and most able clergy of the upper peninsula have been pastors of the church and Rev. Father Poulin is a worthy successor of such a man as the late Father Bourion.

High School Chorus.
The Ishpeming high school girls could get some pointers in singing football songs from the Escanaba girls. Last week a certain time each day was devoted to learning the songs. The girls were on hand in large numbers at Saturday's game and every few minutes their songs could be heard above all the other voices on the side lines. The following was their favorite song, being sung to the tune of "The Tale of the Kangaroo":
We are going in to play
To win the day,
And we never will stop 'till we do;
For we just can't get it best
And can beat all the rest,
And we soon will prove it to you,
We have run up the score
As we always did of yore;
For we just couldn't help it, don't you know,
For with Riley, Pete and "Q"
We have fully proved to you,
That our team is anything but slow.
They went at it heart and soul,
Then Tyrrell kicked a goal
The crowd went wild and so did we.
So we sing for the men
Let them do it again
And our champions they surely will be.
CHORUS.
Hurrah for Escanaba!
We've got them on the run;
Just make another touchdown
To help along the fun;
Just keep a knocking harder
And make a bigger score.
We will win this game today as
We have always done before.

Keep an eye on that ball
As the men on it fall,
And watch how it goes round the end;
How they gain every down,
Is the talk of the town,
As our honor they strive to defend.

Like the Escanaba Game.
The game played at Benton Harbor last Saturday to decide the interschool championship of the lower peninsula resulted in a tie, neither the Benton Harbor or the Ann Arbor team scoring. The eleven will line up again next Saturday in an endeavor to settle the question of supremacy, playing at Ann Arbor. The winner of the game will later meet Ishpeming for the state championship. It was remarked yesterday as a peculiar coincidence that the contest between the best teams in the lower section of the state had resulted as did one match at Escanaba on the same day, between the premier eleven of the upper peninsula.

DESERVED HIS FAMILY.
August Larson, a farmer living near the Winthrop location, filled himself very full of the oil of joy one day last week, and none of his family or acquaintances have seen him since. His family are in destitute circumstances, and Mrs. Larson tells a pitiful tale of the abuse and neglect to which she and her young children have been subjected by the husband and father. She besought the aid of the city marshal in her endeavor to find her wandering spouse and the bosses of the lumber camps near here have been requested to inform the marshal if any one answering Larson's description is among the workmen. The marshal is inclined to the opinion that Larson has made way with himself while under the influence of liquor.

PEWS ORDERED.
The trustees of the Methodist church have placed the order for the pews for the new church with the Manitowish Seating company, of Manitowish, Wis. The pews are circular, are constructed of oak and will cost over \$2,000. The floor of the main auditorium is sloping and semi-circular, something like the side of a half section of a cone, and comes to a vertex at the middle of the front, where the pulpit will be located. The seating capacity is 700, but when the sliding doors that separate it from the Epworth League and the Sunday school rooms are thrown open 1,100 can be comfortably seated within view and hearing of the pulpit.

Designs for the three largest windows have also been submitted, and the committee appointed to select designs has made its choice. The windows will be over twenty feet high, and the task of putting them in will be delicate and will require skilled workmen.

The slaters who were expected to arrive here Friday have not yet come, but the work has not been greatly delayed on that account. The roof is nearly on and the brick work is practically completed. The workmen can devote their entire attention to the interior within a few days.

STARTLING, BUT TRUE.
"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turvey, Demseytown, Pa., "you'd sell all you have in a day. Two weeks' use has made a new man of me." Infallible for constipation, stomach and liver troubles. 25 cents at Stafford's drug store.

ISHPEMING IN BRIEF.
John M. Miller of Escanaba was here yesterday.

John Levi, 325 Cedar street, is the father of a girl, born Sunday.

Born to Mr. and Mrs. John Harvey, 319 South First street, yesterday, a girl.

A new steam heating plant has been placed in H. F. Heyn's saddlery by C. L. Anderson.

Mrs. M. D. Kean left Saturday for Rest Farm, Ills., where she will remain for some time undergoing medical treatment.

Mrs. Thompson of Milwaukee, who had been visiting with Mrs. James Tucker for several days, returned to her home yesterday.

Dr. C. M. Leonard returned from Camp Dewey Sunday with a fine doe that he shot Saturday. He was the first one of his party to meet with such success.

Up to date, 404 applications for deer licenses have been received by Ishpeming dealers. William Peters has taken the largest number of orders, 116. Recorder Delbridge's record is 104.

Paul Y. Albright has decided that Ishpeming is not a very lucrative place for lawyers and will leave today for his home in Philadelphia, where he hopes to find a wider field for the exercise of his abilities.

Martin Anderson and Olga Christianson were married at the manse of the Norwegian Lutheran church Saturday evening by the pastor, Rev. Mr. Fosness. Martin Olsen and Mary Olsen of Republic attended the couple.

The city is placing a railing along the edge of the sidewalk at the dangerous corner of North Pine street. Several of the citizens residing in the neighborhood had petitioned the council to change the grade of the walk at that point to the level of the street, but a counter petition was presented by other parties asking that the grade remain the same. The railing is a compromise. The walk will remain where it is, but pedestrians will be able to travel on it without falling off.

The Red Cross social given by the members of John Quayle's class of the Methodist Sunday school last night at the Ishpeming Co-operative society's hall was very successful in every way. There was a large gathering present. The drill by the girls of the class, under the direction of Captain Steve Collier, of the Lake Superior Light Guards, was a very pretty exhibition and called forth much applause. The proceeds of the entertainment will be devoted to the building fund of the new church.

ASLEEP AMID FLAMES.
Breaking into a blazing home, some firemen lately dragged the sleeping inmates from death. Fancied security, and death near. It's that way when you neglect coals and colds. Don't do it. Dr. King's New Discovery for Consumption gives perfect protection against all throat, chest and lung troubles. Keep it near, and avoid suffering, death, and doctor's bills. A teaspoonful stops a late cough, persistent use the most efficacious. Harmless and nice tasting. It's guaranteed to satisfy by Stafford. Price, 50 cents and \$1.00. Trial bottles free.

Upper Peninsula.

Attorney Fred H. Abbott of Crystal Falls has been appointed inspector of accidents for all the accident companies in the upper peninsula, his district including all the fifteen counties.

Charles Prate of Munising, while at Lockwood's camp recently, was the victim of the careless handling of firearms on the part of another. As a result of that carelessness he got a thirty-two calibre revolver bullet through his arm.

The steamer Manistique cleared from Ontonagon Saturday with hemlock lumber for Buffalo. It was the first cargo of lumber to be shipped from Ontonagon since 1896. Two more cargoes are to go forward this year. The lumber is the product of the McMillan mill.

The contest between George Gallup, Republican, and John Sourving, Union Labor, for representative from the Delta district, resulted in a tie vote at Escanaba in last week's election, the seven wards giving each 671 votes. Mr. Gallup, however, rolled up a neat majority in the outside precincts.

The Norway high school building and the school building at Carney, Menominee county, narrowly escaped destruction by fire last week. The flames, however, were by hard work confined to the basements. The children were dismissed in both instances in perfect order, thanks to the fire drill it is the practice to give them.

There is trouble in one of the Cedar River (Menominee county) school districts, and the newly elected trustee, George Haywood, has been unable to secure the keys to the building from his predecessor. As a result the school is not in session. The matter may be aired in the courts. What reason the

Chauncey Depew Says:

"One can better afford to economize on their clothes, their pleasures, their home and office expenditures than on what they take into their stomach. Purity and variety are the essentials of a good meal," and Chauncey ought to know. Enough said.

J. SELLWOOD & CO.

ex-official has for refusing to hand over the keys and books of the school district to the newly elected official is not known.

Fred Pfeiffer, night operator at the Soo depot at Manistique, fell under a freight car Wednesday morning and had one leg cut off just below the knee and the other horribly mangled above the ankle. He was taken to the Manistique hospital where the injuries were dressed, one leg being amputated at the knee and the other at the ankle. Pfeiffer was riding down the yard on top of a freight car and when watching a brakeman uncouple a car fell off. In attempting to scramble out of harm's way he was run over.

The Birch Creek (Menominee county) cheese factory, owned and operated by Michael Krick, will close next Thursday after a very successful year, considering that this has been the first season the factory has been in operation. Mr. Krick stated in an interview last week: "During the past season I have handled about 400,000 pounds of milk, and have made about 40,000 pounds of cheese. The cheese has brought about \$4,400 and the farmers are all well satisfied with the concern. Next year we expect to do about twice the business we have done this year and if the proposed beet sugar factory is built in Menominee it will be a great help to the cheese factory in several ways."

Work on St. Patrick's new Catholic church at Escanaba is progressing rapidly, and Rev. Father Langan expects to have the edifice fully completed and ready for dedication on Dec. 21. The church and parsonage complete will necessitate an expenditure of \$60,000, and of this amount \$27,000 is already in hand, having been received from subscriptions and other sources since the opening of the present year. Father Langan is confident that an additional \$33,000 will be raised before Jan. 1. He has opened a new subscription list, and wants to raise \$10,000 during 1908, after which the remaining \$20,000 indebtedness will be allowed to run for a number of years. The dedicatory service on Dec. 21 will be conducted on an elaborate scale.

Several of the mills on the Menominee river will be operated this winter. The Bay Shore Lumber company will operate day and night after the first of the year, also the Sawyer-Goodman company, the Marinette Lumber company and possibly Burns & Hicks. These companies will give employment to several hundred men. Many of the mills will shut down this week, now that the Boom company has suspended operations. The Bay Shore Lumber company will suspend operations for the season this evening, but intends to operate night and day after six days. The last of the season's stock of logs will have been saved today. The plant will then lay idle to allow repairs to be made to the machinery preparatory to operating the winter. The first of the new stock of logs will be shipped to Menominee about the first of the year. The company will have a sufficient stock to keep the mill running for several months.

Fred Colter, an engineer on the North-western road whose home is in Menominee, had a narrow escape from being killed at Escanaba last week. His engine was wrecked, and he sustained some very painful and serious injuries. Mr. Colter was at the throttle of one of the large engines used to haul ore on the iron range in the Iron Mountain district. While switching at Iron Mountain his engine lay at the bottom of a hill "dead," with ten cars being pushed down the hill. In some manner the ore cars began to move, then dashed down the hill, and before the trainmen could realize it had crashed into the locomotive in which Colter and his fireman were sitting. The cars came down with sufficient force to completely telescope the engine. Mr. Colter was thrown out and narrowly escaped instant death, as did his fireman. The locomotive was a complete wreck. Several of the ore cars were ruined, and the tracks were torn up.

WANTED.
We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of Indigestion, Dyspepsia and Liver Troubles that has not been cured—and we also mean their results, such as sour stomach, fermentation of food, habitual costiveness, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we will be correspond with you and send you one of our books free of cost. If you never tried August Flower, try a 25-cent bottle first. We have never known of its failing. If so, something more serious is the matter with you. The 25-cent size has just been introduced this year. Regular size 75 cents. At The Stafford Drug Co.

TAXES AND TAX TITLES

E. J. WRIGHT LANSING MICH. CONSULTANT ADJUSTER

WILL MOVE SLOWLY

NO MISTAKES WANTED RELATIVE TO MANUAL TRAINING.

START TO BE MADE THIS YEAR

SUPT. THOMPSON LOOKING ABOUT FOR A FIRST-CLASS MAN.

Simpler Work Will Be Introduced at First—New Department Should Be Complete by the First of September, 1903.

The new Manual Training school of the Ridge street group of buildings is now about ready for occupancy, but as yet Superintendent Thompson and the school trustees have been able to give only tentative consideration to the matter of establishing the new department in connection with the Marquette schools, so busy have they been with other concerns.

The past few weeks have seen an excellent start made with the high school work in the new Howard building, and the school officers' attention has been largely taken up with the details of getting the work in satisfactory order. This has been accomplished some time since, and everything is now moving forward satisfactorily, the conduct of the school being noticeable so far this year for efficient work and admirable discipline. From now on the officers will have some time to devote to the manual training proposition and developments in connection with the establishing of the new department here may be expected.

While it is unlikely that any pretensions start will be made immediately, still it is expected that the department will be pretty well established before the end of the present school year and that the first of September, 1903, will find it fairly complete.

Looking for the Right Man.

At present Superintendent Thompson is trying to get a line on the right man for the work of establishing and directing the department. Until such a man is found nothing will be done in connection with the manual training school, as it is desired to consult the teacher who will be placed in charge of it relative to the equipment. Ideas on manual training equipment differ as widely as do ideas on other educational propositions, and it is highly important that the man who will have the destinies of the new department here in charge should have more or less to do with the task of fitting it out in readiness for the start. Such a course will be conducive both to economy and harmony.

One thing is assured. The new department will be started out in a modest way. There are too good and sufficient reasons for this course. One is to avoid too great an expense and the other, equally important, to avoid mistakes which might seriously handicap the success of the new school. The desire of the superintendent and school trustees to move conservatively and slowly will be generally approved, as any ill-considered procedure or haste to get the school complete within too short a time might greatly impair its capacity for usefulness, as well as make it unpopular with the general public.

The simpler branches of manual training work will be taken up first, the more complex departments, with their demand for an expensive equipment, being added later.

The introduction of the manual training work will call for a general revision of the programs for the grade schools and the courses of study for the high school, a thing which, in itself, means a tremendous amount of work.

Don't think because you have taken many remedies in vain that your case is incurable. Hood's Sarsaparilla has cured many seemingly hopeless cases of scrofula, catarrh, rheumatism, kidney complaint, dyspepsia and general debility. Take Hood's.

CHURCH WEDDING.

George Perrin and Miss Emma Levasseur Married Yesterday.

George Perrin, a well-known barber of the city, and Miss Emma Levasseur were united in marriage at 6:30 o'clock yesterday morning at the French Catholic church, Rev. Father Jaques officiating. The wedding was largely attended. Following the ceremony a wedding breakfast was served the party at the residence of Maurice Levasseur, father of the bride. Third and Rock streets. Mr. and Mrs. Perrin left on the 8:20 o'clock train, enroute for St. Paul and Minneapolis to spend ten days or two weeks. They will be at home shortly after, on Division street. The young couple were the recipients of numerous gifts from relatives and friends, the presents including a piano, the gift of the parents of the bride.

AT THE OPERA HOUSE.

Big Woodmen Meeting Will Be Held There This Evening.

Marquette county Woodmen to the number of several hundred are expected to assemble at the opera house this evening to hear a presentation of the various phases of the proposed road project planned by leading men in the order, brought to the upper peninsula by State Deputy C. J. Byrns for the express purpose of discussing this important question before representatives of the northern Michigan camps.

Large delegations from Ishpeming and Negaunee, and representatives from the camps in the western end of the county will swell the number of Marquette Woodmen who will attend the meeting tonight, and it is expected that it will be one of the largest fraternal gatherings that has been held in this county for some time.

The meeting at the opera house will be followed by a banquet tendered the visitors by the Marquette camp in the vacant L'Hullier store on the south side of Washington street. Adequate preparations have been made for this affair, and it is planned that it shall be a fitting climax to a successful and interesting meeting.

METHODIST RALLY.

Today and Tomorrow to Be Observed as "Quiet Days" at Champion.

Today and tomorrow will be observed as "quiet days" at the Methodist church at Champion. Presiding Elder Thompson and all the ministers in the county, as well as several from outside points, will be in attendance at the meetings, which are for exposition, inspiration, meditation and prayer. The deepening of the spiritual life and fuller preparation for the year's service are particular objects of the gathering. The feature of the program today is prayer at 7:30 o'clock this evening. For tomorrow, the order of exercises is: 9:00 a.m. Quiet and Prayer. 9:30 a.m. The Quiet Day—Its Spirit and Purpose.—C. M. Thompson.

9:50 a.m. Meditation and Prayer. 10:00 a.m. Self Examination—Its Needs, Method and Results. 2nd Cor. 13:5.—S. Polkinghorne, J. E. Darling. 10:35 a.m. Meditation and Prayer. 11:00 a.m. Our Father's Care—Exposition and Reflections.—Psa. 23.—B. F. Lewis, J. Elford. 11:35 a.m. Meditation and Prayer. 2:00 p.m. Devotions.—R. H. Prouse. 2:15 p.m. The Holy Spirit—His Presence and Power in the Church.—E. A. Elliott, E. Bickford. 2:50 p.m. Prayer. 3:00 p.m. The Spirit-Filled Life.—D. Casler, J. W. Osborne. 3:35 p.m. Testimony. 4:00 p.m. How to Reach the Largest Spiritual Results in Church Work this Year.—H. Magahay, A. Balgooyan. 7:30 p.m. Devotional Quarter Hour. 7:45 p.m. Soul-winning.—S. M. Gilchrist. 8:10 p.m. Soul-winning.—F. Spence. 8:35 p.m. Closing Moments.

The pastors expected to attend are the Revs. Messrs. Balgooyan, Bickford, Casler, Darling, Elford, Elliott, Gilchrist, Johns, Lewis, Magahay, Osborne, Polkinghorne, Prouse and Spence. All persons will be welcome, and the Champion church will furnish entertainment to all who notify the pastor. The district stewards will meet at

1:30 Wednesday afternoon in the Champion church.

Marie, Nov. 10.—(Special).—Chicago, 11 last night; Mariposa, Thomas, Steinbocker, Luzon, 1:40 a. m.; Mataafa and whaleback, 2:30; Frick, 3:20; Helena, 4:30; Roby, Sage, Adams, 7:20; Harvard, Martha, 7:40; Neeshoto, 9; Frank Peavy, Coffinberry, Bloom, 11; Kalkaska, Oakleaf, Fryer, 11:30; Nicholas, 12:20 p. m.; Shaw, 2:20; Maritana and whaleback, 3:30; Wolvin, 4:20; Hanna, New York, 6; Jupiter, 7; Dalton, Whatworth, Savona, 7:30; Corona, Russell, Princeton, City of Genoa, 9.

CITY BREVITIES.

Today's weather: Generally fair. Slight changes in temperature. Brisk northwesterly winds. Yesterday's temperature: 7 a. m., 30 degrees; noon, 30 degrees; 7 p. m., 31 degrees. Maximum, 32 degrees; minimum, 30 degrees.

Will Finnigan is down from the head of the lakes.

Mrs. Harlow has sold Lot 25 of Harlow's addition No. 5 to John Isydore.

Mrs. D. Fred Charlton is in Chicago, where she is visiting her sister, Miss Cecel Grylls.

A deer license has been issued to Florence Saperch of Ishpeming, who is out after game.

Andrew Hartvig, Joe Mack and Joe Foley left for their camp yesterday morning, for a deer hunt.

S. W. Shaull left the latter part of last week for New Orleans, where he will attend a bankers' convention.

Mr. and Mrs. Forest Ott of Minneapolis are guests at the residence of Geo. W. W. Brown, East Hewitt avenue.

W. S. Zehring, representing the Western Mining World, the well-known mining paper published at Chicago, is in the city.

The steamer Frontenac, for Buffalo, was the only boat to clear with her yesterday. It was loaded at the L. S. & L. dock.

John Bogue, formerly of Marquette, who is now in the banking business at Rockland, has spent the past couple of days in the city.

County Clerk Ross has issued hunters' licenses to H. K. Tenny and E. A. Bancroft of Chicago, both of whom are after deer in this county.

Mr. and Mrs. Alphonse Levasseur of Ishpeming were present yesterday morning at the wedding of their niece, Miss Emma Levasseur, to George Perrin.

The Marquette Light Infantry decided at its meeting last evening to give a grand ball on Thanksgiving eve, Wednesday, Oct. 26. It will be held at the Casino rink.

An exceptionally nice line of crysanthemums is being shown at the Stafford Greenhouses this season. The flowers are in full bloom. A cordial invitation is extended the public to view the display.

James E. Trethewey has brought down one of the largest bucks that has been killed so far this season. It weighed 225 pounds. He killed it at his camp up the shore, bringing it to Marquette yesterday.

A large elevator, for passengers and freight, has been installed at Hager Bros' furniture store. It runs from the basement to the third story, and will be a great convenience both to the firm and to its patrons.

Governor Bliss has paroled John R. Maivay, a prisoner at the Marquette branch of state prison, who was received at the institution in November, 1900, having been given four years for highway robbery.

Clara, the thirteen-year-old daughter of Mrs. Ollide Clause, residing at 419 Rock street, died yesterday afternoon from typhoid fever. She was ill only since Saturday. Announcement of the funeral will be made later.

Yesterday was an ideal fall day, and an excellent one for deer hunting, a thing which the hundreds of nimrods in the surrounding woods took full advantage of. There was a sharp chill in the air, but the sun shone bright.

Joe Bice, one of the first residents of Munising, has left that city for Thessalon, Ont., where he will assume charge of the saw mill which George L. Burtis, formerly of Marquette, has just moved there from Munising. Mr. Burtis will continue to reside in Munising, and Mr. Bice will act as resident manager of his mill.

George G. Rogers, candidate for treasurer of Schoolcraft county on the Republican ticket, a brother of Rev. J. M. Rogers of Marquette, led his ticket. The Democrats elected their sheriff, George K. Moody, by a very small margin.

The board of canvassers meets today to go over the election returns and officially declare the result. The board is composed of J. E. Sherman, F. M. Moore and George A. Newett of Ishpeming. It will hold its session this afternoon at 1 o'clock. In view of the heavy Republican majorities in this county, its meeting is more or less of a formality.

The commissioner has sustained the local land office in three cases, those of George Reeh vs. John Brow, forty acres in Marquette county affected; Duncan Sinclair vs. Frank Aldrich, forty acres in Schoolcraft county and Carlo Melchioro vs. Joseph Toussaint, 100 acres in Iron county. In each instance the decision was in favor of the first named party.

Al Hager, Dr. W. H. Morse and Alfred Westlake left at an early hour Saturday for Mr. Hager's homestead, in the Salmon Trout district and forty-five miles from here. They found the road in horrible condition, their wagon broke down and the hunters did not arrive at their destination until Sunday afternoon. They will spend a week or ten days in camp.

The warrants for the officers who served during last week's election are ready at the recorder's office. Some of them were called for yesterday. It costs in the neighborhood of \$500 to hold an election in the city of Marquette. It takes \$434 to pay for the services of the registration and election officers and for the rent of the registration and voting places, and in addition there are election notices to be issued and various incidentals.

John Harland and F. H. W. Bailey arrived home yesterday morning from a couple of days' hunt in the vicinity of Kenton. Mr. Harland was successful in bringing down a deer, but Mr. Bailey has as yet made no inroads on his license tags. The gentlemen were entertained at Kenton by William Kroll, of the Sparrow-Kroll Lumber company, and they report that he left nothing undone that could add to the pleasure of their trip.

The Cleveland-Cliffs Iron company's railroad system, including the Marquette & Southeastern, the Munising and the Lake Superior & Ishpeming roads, has just issued and placed on sale with agents a 500-mileage book, which sells for \$12.50, or two and a half cents a mile. Purchasers of the book will make a saving of \$7.50 on every 500 miles traveled, and people who have occasion to use the lines of the Cleveland-Cliffs Iron company's system will find that they appreciate the corporation's action in placing it on sale.

To date the case of Captain Fred A. Benson, of Marquette, the only tug captain who lost his papers as a result of the action of the Great Lakes Towing company during the big strike, has not been heard from in an official manner since it was announced some time ago that an effort would be made to have his license restored. As the time allowed for an appeal from the local inspectors' decision at Marquette has long since expired, special action will have to be taken in order to again open up the matter, and it is understood that the tug trust is just as anxious as is Captain Benson himself to have the matter adjusted and the papers restored. Some way of getting around the red tape which surrounds government action will undoubtedly be found out of the predicament and the necessary preliminary steps are expected to be taken within about two weeks.—Detroit Free Press.

CRYSTHEMUMS. We extend to all an invitation to our crysanthemum opening. We have the finest lot of crysanthemums ever grown in this part of Michigan; also an especially nice line of cut flowers and house plants. The Stafford Greenhouses, North Third street. (11-11-tf)
