IS IN SMOKING RUINS

ARMOUR PACKING PLANT AT SIOUX CITY IS ENTIRELY DESTROYED.

COVERED THREE AND HALF ACRES

LOSS IS \$500,000 AND 600 MEN WILL BE IDLE ALL WINTER.

Water Pressure Is Inadequate and the Efforts of Firemen Are Fruitless, Building After Building Burning in Quick Succession.

Sioux City, Ia., Nov. 16.—The big local packing plant of Armour & Co., which occupied three and a half acres, was destroyed by fire early this morning. The fire, which started in the fertilizer building, spread rapidly until the entire plant was reduced to ashes.

The loss is estimated by Manager Lennon at \$500,000, with an insurance of \$721,500. Six hundred men will be thrown out of work all winter.

Spread With Great Rapidity.

The fire was discovered by a night watchman, and every fireman in the city was quickly called to the scene. The fertilizer building, where the flames were discovered, was quickly burned and the fire spread to the beef killing house, next to it. Almost instantaneously, the cattle chute caught, and in five minutes it had burned to the ground.

The rendering building was next to catch, and when the land began burning the fire spread to a magnificent spectacle. Next to take fire was the big beef storage house, where five hundred carcasses were hung, nearly dressed. By this time the entire plant was a lake of fire and the country for miles around was lighted up.

Suddenly there was a series of heavy explosions, the fire having reached twenty-four large ammonia drums, in which nearly three thousand pounds of ammonia were stored. These explosions almost lifted the building off its foundations. The flames then burst through the fire wall which separated the other buildings from the big hog house, the last in line and the biggest of all. The office building had been already burned, not a scrap of paper being saved from it.

Hogs Perish in Flames.

About this time the roof of the animal chute fell, a blazing mass on a lot of live hogs, and their agonized squeals added to the noise made by the engines' whistles and the noise of the exploding ammonia drums.

The main hog house, where were nearly four thousand dressed hogs and two and a half million pounds of hog products; the shops, the chicken packing plant, the ice houses, and smaller department houses burned in quick succession, the flames yielding not a particle to the efforts of the firemen.

At 4 o'clock, after nearly five hours of hard work, the firemen began to get the fire under control. It was not until 10 o'clock that the fire was completely extinguished. The fire continued burning all today and thousands of sightseers visited the scene. Another heavy explosion of ammonia drums occurred this afternoon, but no one was injured.

MORE LUCKY RAILROAD MEN.

Pittsburg & Lake Erie Announces It Will Also Raise Wages.

Pittsburg, Nov. 16.—The Pittsburg & Lake Erie company will meet the wage advance of the Pennsylvania system. Announcement to this effect was made yesterday. It has not been determined what increase will be given or what class of employees will be affected.

Traffic Is Unprecedented.

Pittsburg, Nov. 16.—The Pennsylvania railroad will have to go out of business for a week, said a high official of the road today. "Never in the history of the country has there been such a volume of business. It is so great we cannot handle it, and for that reason we will have to shut down our receiving of cars for at least a week. That will give us an opportunity to catch up and will save us thousands of dollars in damages. The business is such that perishable goods are rotting on the tracks."

The Pittsburg yards have been filling up with loaded freight cars until now there is barely room for another car, but they still keep coming. Two hundred miles of siding are jammed with cars and there are no locomotives to move them. Cattle that arrived here weeks ago bound for New York are still here. The railroad is losing much money on them, as it is required to feed them. Some were sent east by express. The Pennsylvania has borrowed as many engines as possible to handle freight and has recently rented ten from the National railroad of Mexico.

SULTAN LEADS LARGE ARMY.

Twenty-Five Thousand Moorish Troops in the Field Against the Rebels.

Tangiers, Morocco, Nov. 16.—It is reported from Fez that imperial troops have captured the pretender to the throne. The sultan is at the head of an army of twenty-five thousand which will put down the uprising of the tribesmen at Zennor.

BRILLIANT METEOR FALLS.

Norwood, O., Nov. 16.—A meteor passed over this place last evening. It illuminated the country for some sections.

Lexington, Ky., Nov. 16.—A meteor

of great brilliancy fell here last evening. The light produced was intense.

HAS BEARS' PAWS FOR DINNER.

President, With Party, Dines on Rough Table in the Open Air.

Smiles, Miss, Nov. 16.—Sunday was a quiet day at the president's hunting camp. There was no hunt, and dinner was the chief event of the day. The menu included roast bears' paws, and possum and sweet potatoes. The dinner was served on a rough pine table, in the open air. There were not enough knives and forks to go around, and the colored cook announced that he had provided them only for the "colonel," as the president is called in camp, and "the foreign gentlemen." The president is enjoying his outing very much. He has not had three days of such freedom and rest since he left Washington.

Has Not Yet Killed a Bear.

The president and guides started in pursuit of a bear early yesterday morning and did not return to camp until after dark. The president had hard luck. Twice he narrowly missed a chance for a shot. Once after a long chase the dogs passed a point where the president was waiting for the bear to come out, but the bear had gone ahead of the pack and got away. Two hours later the dogs were heard fighting a bear. The president, within a hundred yards of them, dismounted, but the bear evidently heard the hunters and succeeded in getting away again. The pursuit will be resumed Monday.

STREET CAR COLLIDES WITH TRAIN

Man Killed and Eight Persons Injured in Accident at Chicago.

Chicago, Nov. 16.—One man was killed and eight other passengers on an electric car were seriously hurt here tonight by the collision of a street car with a Chicago, Burlington & Quincy freight train at the Eighteenth street crossing.

The dead was Hugh Curran. The injured are: Joseph Deddick, side and leg hurt; Mrs. Mary Deddick, arms broken; Joseph Deddick, Jr., shoulders dislocated; Frank Deddick, badly bruised and cut; Mamie Deddick, face and body cut; E. Brown, back hurt, condition serious; Frank Gayle, motorman, badly bruised; Alexander Langford, conductor of street car, four ribs broken, and cut and bruised.

The car was crowded and that more were not hurt or killed is a mystery. The accident was caused by the mistake of the flagman at the crossing, who, not noticing that the freight train, hauled by an engine at each end, had broken in two, signalled the street car to come ahead. The car was thus caught between the two parts of the train, and though some passengers saved themselves by jumping, most of those on the car were injured in the crash which followed. The flagman and the men in charge of the street car have been arrested.

IS TOUCHED FOR HIS WAD.

English Delegate Studying Yankee Methods Learns a Thing at Cleveland.

Cleveland, O., Nov. 16.—The party of English workmen brought to this country by Sir Alfred Mosley to study American industrial conditions, spent the day in Cleveland. Tonight the party were met at the Forest Hotel by Senator Hanna, Mayor Johnson and others. Sir Alfred Mosley says that England will have a Civic Federation modeled after the American organization. Wostedman, a former member of parliament, was robbed of \$110 by a sneak thief at his hotel today. Prominent labor leaders helped ascertain the English visitors here today.

New York, Nov. 16.—Among the passengers on La Touraine, from Havre, today, was Jules Huret, of the Paris Figaro, who comes to study American social, financial and industrial conditions for his paper.

DRINKS CARBOLIC ACID.

Young Lady School Teacher of New York Ends Her Life.

New York, Nov. 16.—Miss Celia Etteson, public school teacher, aged twenty-two, committed suicide today by drinking carbolic acid. It is thought the dread of being called to account for treating one of her pupils roughly caused the suicide. Ida, Nov. 16.—R. C. Sneed, an attorney who last summer tried to kill H. V. Platt, agent of the Oregon Short Line, and for whose arrest a warrant was issued on the charge of embezzling the firm's money to the amount of \$200 was sworn out yesterday by Sneed's law partner, died here today from morphine poisoning, the circumstances indicating suicide.

WANT EX-CASHER PARDONED.

Friends of Chas. A. Johnson of Miles Will Appeal to President.

Niles, Mich., Nov. 16.—A movement has been inaugurated here with a view to petitioning President Roosevelt to pardon Charles A. Johnson, who was sentenced a year ago by Judge Wandy of the United States court to serve ten years in the Detroit house of correction. Johnson was cashier of the defunct First National bank of this place, which collapsed in March, 1901. The bank was short \$150,000, which is claimed, Johnson lost in gambling operations. Depositors have received about 70 per cent of their deposits, and another 5 per cent dividend will be paid soon.

A LYCHING IN KENTUCKY.

Man Sentenced to Life for Murder Is Hanged by a Mob.

Elizabethtown, Ky., Nov. 16.—Harlan Buckles, sentenced yesterday to life imprisonment for murder, was hanged by a mob to a tree in the courthouse yard early this morning. The mob, which consisted of about seventy-five men, had little trouble in getting Buckles from jail.

SHOOTS AT A KING

ITALIAN ANARCHIST ATTEMPTS TO KILL LEOPOLD OF BELGIUM.

HIS BULLETS DO NO HARM

AGED MONARCH ATTACKED ON HIS WAY HOME FROM CHURCH.

Crowds of Angry Citizens Come Near to Lynching the Would-Be Assassin, Who Expresses Regret He Failed in His Mission.

Brussels, Nov. 16.—Three shots were fired at Leopold, king of Belgium, yesterday morning as he was proceeding to the cathedral to attend a te deum in memory of the late Queen Marie Henriette. No one was hurt.

The shots were fired by an Italian, who, when arrested, gave his name as Rubino and admitted that he is an anarchist. One of the bullets smashed the window of the Comte d'Outremont's carriage and grazed the grand marshal's head. King Leopold appeared quite unmoved by the attempted assassination.

Makes a Full Confession.

That Rubino intended to assassinate King Leopold seemed fully established by the prisoner's confession. Rubino informed the police he came from London, where he obtained assistance from the Italian embassy and was temporarily engaged to watch the anarchists. He was dismissed, however, as the embassy officials discovered he sympathized with the anarchists. It was then that he bought a revolver and cartridges and came to Brussels.

Failing to find work Rubino said he "determined to act" and went to the cathedral with the intention of shooting the king. He did not fire at his majesty for fear of hitting the intervening soldiers. Then he proceeded to the Rue Royale, where he awaited the cortege. The carriage containing the king passed before Rubino was able to draw his revolver, hence the shots only hit the carriage following.

In Rubino's pockets were found cards bearing portraits of King Leopold, Prince Albert and Princess Elizabeth. The prisoner said he procured the cards so as to be able to recognize the members of the royal family and expressed the hope that they would be more successful than himself.

The would-be assassin said he did not regret his act and would have fired at any monarch, "at the king of Italy as readily as at the king of the Belgians, because monarchs are tyrants who cause the misery of their peoples." Finally Rubino declared he hated the socialists because they were friends of the police, and asserted he had no accomplices.

Mob Would Have Killed Him.

When the man was arrested the police had some difficulty in rescuing him from the hands of the crowd. Rubino was placed in a cab and infuriated crowds of people immediately surrounded it and attacked the vehicle with knives and sticks. The police had great difficulty in forcing a way to the police station through the crowd, which shouted alternately "Kill him!" and "Long live the king!" The cab was badly lucked with knives.

The royal cortege consisted of several carriages beside that of the king, containing the Count and Countess of Flanders, Prince and Princess Albert of Saxe-Coburg, the Princess Clementine and aides de camp and ladies of honor.

Rubino is a bookkeeper. He was born at Binardo, near Naples, in 1859.

Rome, Nov. 16.—The ministry of the interior has established the identity of the assailant of King Leopold as Cennaro Rubino. He is described as an advanced socialist. He was condemned to long imprisonment for stealing in 1893, but escaped to England.

Dispatches from Brussels say that according to some reports Rubino, in his examination before the magistrate, declared he wanted to kill King Leopold because of his majesty's inhuman conduct to his daughter, Princess Stephanie, at the time of her mother's recent death. He also wanted to show the London anarchists that while they only talked he acted. He would have killed King Edward, he added, but for the strong feeling of English people in favor of a monarchy.

GOVERNOR YATES BETTER.

Springfield, Ill., Nov. 16.—Governor Yates' physicians tonight report a change for the better in the patient's condition. His maximum temperature today was 101. The pulse was considerably lower, reaching only 94. For five hours today the temperature stood at 99.2-5, one degree above the normal.

TRAIN COLLISION COSTLY.

Rifle, Colo., Nov. 16.—In a collision today between an extra stock train and a freight train on the Colorado Midland railway, near here, Fireman Thorpe was killed and three other trainmen seriously hurt and \$100,000 damage was done to property. Much stock was killed.

FRENCH COUNT BURNS TO DEATH.

Paris, Nov. 16.—Count Frank, well-known in society here, was burned to death last night in a fire which partly destroyed his home.

FORECAST OF THE WEATHER.

Washington, Nov. 16.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer Monday and Tuesday.

HAD BUT TWO APPLES FOR FOOD.

Eight Survivors of Wreck Found on Raft Originally Containing Sixteen.

London, Monday, Nov. 17.—Eight survivors from the wreck of the British steamer Ellingamite, who were rescued by a survey steamer, went through a dreadful experience. They were on a raft only twelve feet long and seven wide and drifted sixty miles in four days before they were picked up by the steamer. There were sixteen people on the raft when it left the wreck, the only food on board being two apples. The first apple was consumed Tuesday and the second on Wednesday, each being divided into sixteen pieces. Three men died on Monday night from drinking salt water. All suffered horrible tortures from thirst and four men and the stewardess died of exhaustion before rescue came. When the survey steamer was sighted only one of the survivors was able to stand, and all were greatly emaciated.

SCORES THE "BANKERS TRUST."

Master of the National Grange Sees Danger in New Currency Plan.

Lansing, Mich., Nov. 16.—At today's session of the National Grange, Aaron Jones, master of the grange, scored what he termed the "bankers trust." He sees in the program advocated at New Orleans last week by some members of the National Bankers' association for the creation of national banking an encroachment upon the functions of rural communities of serious import. He advocates the establishment of rural loan and trust companies. Exercises were held today in memory of the members of the grange who died the past year.

BASEBALL WAR STILL ON.

Western League and American Association Again Unable to Agree.

Chicago, Nov. 16.—Representatives of the American association and Western League of Baseball Clubs met here today in an effort to settle the warfare that has existed a year between the two organizations. The trouble was caused by both leagues placing teams in Milwaukee and Kansas City. Little progress toward settlement was made today, and it looks like no settlement will be made. Both sides today agreed to leave the matter to the committee of arbitration, which will meet tomorrow to reach an agreement if possible.

FOREIGNERS PAY TRIBUTE.

Funerary of Viceroy Liu Kun Marked by Unprecedented Show of Respect.

Shanghai, Nov. 16.—The funeral of Liu Kun Y, the famous viceroy of Nankin, which took place today at Nankin, was the occasion of unprecedented demonstrations of respect by the foreign representatives in that city. Nearly a quarter of a million people lined the route of the march of the funeral cortege to the jetty, where the remains were embarked on a Chinese cruiser which will bear the body to Nanan, the dead statesman's native province.

CHOLERA AGAIN ALARMS.

Is on the Increase at Manila and Spreading in Other Sections.

Manila, Nov. 16.—The cholera is increasing in this city, there being an average of thirty new cases daily. The disease is spreading in the Marikina valley and there are fears of the water supply being infected, in which case a general epidemic is considered inevitable. The loss to the Philippine treasury on account of the depreciation of silver since January is placed at \$1,054,000 gold.

SLAIN FROM AMBUSH.

Master Mechanic of Southwestern Road Is Killed in Private Car.

Conroe, Tex., Nov. 16.—Master Mechanic Tate, of the Gulf, Colorado & Santa Fe, was shot to death this morning at Waukegan, a sawmill town near here, as he was standing in the private car of Roadmaster Maxon. The murderer shot from ambush and there is no clue to his identity, though Tom Futrell, a freight conductor, has been arrested on suspicion.

GET \$1.50 ON EACH \$5 SHARE.

Investors in Illinois Electric Vehicle Transportation Co. Badly Bitten.

Chicago, Nov. 16.—The committee having in charge the winding up of the affairs of the failed Illinois Electric Vehicle Transportation company will, it was stated today, soon return to investors \$260,000. This represents the sum realized on the assets of the company at the rate of a dollar and a half on each five-dollar share.

GRAND TRUNK BUYS RAILROAD.

Toledo, O., Nov. 16.—Inside of two weeks the title to the Detroit & Toledo Short Line railway will be vested in the Grand Trunk railway, which will pay a million and a half for it. The property consists of a line from Toledo to Trenton, Mich. The Grand Trunk will extend this line to Detroit.

SECRETARY WILSON IS ILL.

Washington, Nov. 16.—Secretary Wilson is confined to his home by a severe neuralgic cold, which he contracted during the recent political campaign, in which he took an active part.

APPENDICITIS KILLS A PRINCE.

London, Nov. 16.—Prince Edward of Saxe-Weimar died here this morning of appendicitis, aged seventy-nine.

G. A. HENTY, AUTHOR, IS DEAD.

London, Nov. 16.—G. A. Henty, the well-known author, died today.

RHEUMATISM

Tortures, Cripples and Deforms. Rheumatism does not treat all alike.

Rheumatism does not treat all alike. Some suffer torture from the very beginning, the attack being so sudden, sharp and disastrous that they are made helpless in a few days, while others feel only occasional twitches of pain in the knees, ankles, elbows and wrists, or the muscles of the legs, arms, back or neck.

THE BLOOD AND SYSTEM RULED BY ACID.

What a cold-blooded, heathenish, revolting picture is that presented in Finland by Russian dominance. Although the Finns were assured, by the most solemn conventions, of autonomy and freedom from Russian rule they are now subjects of an autocratic and military despotism that treats the decisions of their courts as if they were written in water.

SSS

Like alkali and potash remedies, but builds up and invigorates the entire system, and at the same time makes a thorough and permanent cure of Rheumatism.

MARQUETTE, MICH., NOV. 17.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

What a cold-blooded, heathenish, revolting picture is that presented in Finland by Russian dominance.

The dedication of the Nile dam at Assuan, which will occur on Dec. 10, is regarded as an event of such importance that the duke and duchess of Connaught will be present to witness the ceremony.

Complete returns from Wisconsin show that the Stalwarts got in some of their promised "bolting" on Governor LaFollette, who ran several thousand votes behind other Republican candidates on the state ticket.

The officers of the army are certainly loyal defenders of the regiment in the Philippines. General Chaffee's report is a case in point, as is also the statement of General Young.

The Small of the Back

That is where some people feel weak all the time. They are likely to be despondent and it is not unusual to find them borrowing trouble as if they hadn't enough already.

The fact is their kidneys are weak, either naturally or because of sickness, exposure, worry or other influences.

"I am thankful to say," writes J. L. Campbell, of Sycamore, Ill., "that Hood's Sarsaparilla has cured me. For many years I was troubled with backache. At times I was so bad I had to be helped from the bed or chair."

Hood's Sarsaparilla Promises to cure and keeps the promise. Begin treatment with Hood's today.

along with that of General Chaffee, is in line with what other prominent officers have had to say on the subject. He states that now that active warfare is largely at an end the men must be provided with acceptable diversions and exchanges at the posts, if excesses are to be avoided.

Governor Dole of Hawaii has been obliged to suspend and arrest another public official for embezzlement. This one resisted, like those driven out of office a few weeks ago, and there will be the usual appeal to the president.

The Washington Post discusses the proposition of filling consular positions by civil service methods in the following manner: It would be just as wise and just as useful to turn over the appointment of army and navy officers to the Civil Service commission as to transfer to that body the state department's authority over the personnel of the consular service.

It is really but one answer to this, and it is not favorable to the pretensions of the commission. Mr. Proctor and his coadjutors haven't the faintest idea as to what is best for the consular service.

SHORTAGE OF NAVAL OFFICERS.

The annual report of the chief of the bureau of navigation again calls attention to weaknesses that must be remedied if the United States navy is to be kept aloft in either fighting or cruising condition.

This, however, is not the most serious shortcoming of which the report complains. The supplying of drilled and disciplined crews, serious as the problem is, is trifling as compared with the existing scarcity of officers.

But seamen and gunners, still less officers, cannot be improved. The law already provides for the promotion of enlisted men, but, owing to the manifold requirements demanded of officers in these days of electricity and high power ordnance, the supply from that source is and must continue small.

THE SUPERIOR TRUST COMPANY HANCOCK, MICH. CAPITAL \$150,000. SURPLUS \$30,000.

The Superior Savings Bank, HANCOCK, MICH. Capital \$50,000. Surplus \$20,000.

MARQUETTE COMMON COUNCIL PROCEEDINGS.

(Official.) Marquette, Mich., Nov. 7, 1902.

An adjourned regular meeting of the common council was called to order by the mayor, the Hon. James Russell.

On motion of Alderman Donovan, supported by Alderman Ball, the prayer of the petitioner was not granted.

On motion of Alderman Donovan, supported by Alderman Gorman, a resolution was adopted, and that a warrant be drawn for the payment of said debt to the city.

CONTRACT IS AWARDED.
Prendergast & Clarkson to Build the New Ice Rink at Houghton.

The contract for the construction of the new ice rink building to be erected at Houghton was awarded yesterday by the Houghton Warehouse company to Prendergast & Clarkson, the well-known builders. The contract price is \$11,000. Construction work will be started at once by a large force of men.

TREASURER JAMES LED TICKET.
Socialistic Labor Party Also Showed Much Strength in Recent Election.

The official canvass of votes east in Houghton county at the general election of Nov. 4, has been completed by the board of county assessors. The report shows that Governor Bliss ran about even with the state ticket and in one or two instances ahead. H. O. Youngs vote for congress shows a falling off of a few votes, due to the popularity of his opponent, John Power of Escanaba, who was a former resident in this county. William L. Carpenter ran ahead of his ticket a few votes for justice of the supreme court. Senator Smith ran nearly eighty votes ahead, while all the Republican candidates for the county offices, with the exception of O. J. Larson, also ran ahead of their ticket, all the way from forty-five to 120 votes.

The Socialistic Labor party polled a much larger vote than two years ago and made, comparatively, an excellent showing. It showed up especially strong in Schoolcraft, Torch Lake, Calumet and Osceola townships. The party is especially strong in Lake Linden, South Lake Linden and Calumet, in which districts great strides have been made by its advocates during the last two years. The Lake Linden Socialists are particularly active in advocating the causes of their party and they are decidedly earnest in their conviction. The Socialist Labor vote was especially surprising in Schoolcraft township, where 117 votes were polled. In Calumet township their vote was 60; in Torch Lake township, 33; in Osceola, 16; Adams, 2; Duncan, 1; Hancock, 2; and Portage, 4. The total was 255.

On the forty-five townships, Treasurer W. Frank James has the honor of polling the largest vote. He ran about 120 votes ahead of his ticket and fourteen ahead of County Clerk Richardson, who stands second in the largest number of votes. The totals of the votes are as follows: Governor—Bliss, Republican, 3,874; Durand, Democratic, 1,279; Westernman, Prohibition, 234; Walter, Socialistic Labor, 235; Socialistic, 71. Justice of Supreme Court—Carpenter, Rep., 3,886; Brown, Dem., 1,283; Cheever, Pro., 215. Congress—Young, Rep., 3,863; Power, Dem., 1,420. Senator—Smith, Rep., 3,951; Finnegan, Dem., 1,312. Representative, First District—W. J. Galbraith, Rep., 1,549; Ed Ryan, Jr., Dem., 804. Second district, James C. Dunstan, Rep., 880; Jacob Steffen, Dem., 553. Third district, A. D. Pettit, Rep., 1,190; F. J. Bawden, Dem., 400. Sheriff—Joseph Walls, Rep., 3,921; T. D. Ryan, Dem., 1,409. County Clerk—L. H. Richardson, Rep., 3,980; A. A. Guck, Dem., 1,329. Treasurer—W. Frank James, Rep., 3,994; Ernest Dube, Dem., 1,313. Register of Deeds—William Walls, Rep., 3,964; Paul Schneller, Dem., 1,330. Prosecuting Attorney—O. J. Larson, Rep., 3,869; P. H. O'Brien, Dem., 1,456. The vote on the amendment to the constitution relative to the publication of the general laws in newspapers stood 3,199 yes and 1,374 no. The amendment relative to the indeterminate sentences stood 949 yes and 234 no.

STARTLING, BUT TRUE.
"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turner, Dempseytown, Pa., "you'd sell all you have in a day. Two weeks' use has made a new man of me." Infallible for constipation, stomach and liver troubles. 25 cents at Stafford's drug store.

THRILLING EXPERIENCE.
Houghton Nimrod Lost in the Woods and Tread by Wolves.

For two days and two nights with nothing to eat, and in danger of being torn to pieces by angry wolves, was the experience of E. C. Goodrich of Houghton, chief inspector for the Michigan Telephone company in this district, who was lost in the woods in the vicinity of King lake, below Nestoria. Mr. Goodrich after much aimless wandering finally succeeded in reaching a railroad track which gave him his bearings to return to camp. He was hunting in company with eleven other copper country men and on the day he was missed from camp he had killed a deer a considerable distance from the camp just about as it was getting dark. When he started back he took the wrong direction and was soon hopelessly lost. It was then very dark and Mr. Goodrich was without compass or matches. His situation was anything but desirable and to add to his discomfort he heard a pack of wolves not very distant. As they commenced to close in on him the unfortunate hunter took to a nearby tree, where he remained all night nearly frozen. With the dawn the wolves took to their heels and Mr. Goodrich took a chance and came down from his perch. He wandered that day and part of the next, when he happened to strike the railroad track. His friends had endeavored to find him, but after a careful search and the territory about the camp had been carefully covered, they had about given him up. It was feared that he had been mistaken for a deer and shot.

RECEIVER TAKES CHARGE.
Workmen's Co-Operative Association of Calumet in Financial Straits.

The Workmen's Mercantile Co-Operative association of Calumet is in the hands of a receiver. The company had been doing a general merchandise business for the last three years, but for some time its financial condition has not been of the best. The Lake Superior Produce & Cold Storage company and Roach & Secker, both of Houghton, are the heaviest creditors. Most of the stockholders in the association are Finns. The receiver is Michael Johnson, who hopes to get matters straightened out so the business may be continued.

TWO NEW COMPANIES FORMED.
Copperdom Men Organize and File Articles of Incorporation.

Articles of incorporation for the Wheelkate Copper Mining company and the Calumet Investment company, both organized by Houghton, were filed with the county clerk Saturday. The Wheelkate company is privileged to engage in mining, refining, melting or manufacturing copper, silver or other ores, minerals and metals, also to acquire, hold and dispose of all such real estate and personal property as may be necessary or convenient for the carrying on of its said business. The company is capitalized for \$50,000, divided into 12,000 shares at \$25 each. The whole of the capital stock has been paid in. The stockholders are: R. C. Pryor, A. P. Rees, E. M. Ingram and W. R. Thompson, all of Houghton. The Calumet Investment company was formed to acquire title to and deal in real estate of almost any description. The company will operate in Michigan, Illinois and Canada. The capital is \$30,000, divided into 3,000 shares of \$10 each. The amount paid in is \$20,000. The stockholders are: Dr. A. I. Lawbaugh, Laurium, and Frederick Roehm, Edward Ulseth and Dr. C. H. Rodi, Calumet.

COPPERDOM BREVITIES.
Houghton Lodge, F. & A. M., will hold a special meeting this evening for work in the third degree.

The Light Guard indoor baseball team and the city team of Calumet will play at the Armory tomorrow evening.

Rev. J. B. Whitford, of the Lake Linden M. E. church, will lecture on "Satan, the Martyr of Florence," at the church tomorrow evening.

The price paid for the four lots, purchased in Laurium for the new Calumet hospital, was \$3,100. They were bought from Ernest Bollmann by Dr. C. J. Sorren.

The snowball nuisance has started in copperdom with the coming of the snow. The school authorities at Calumet have taken steps to put a stop to the practice in its district.

Oliver Seibert, of Berlin, Ont., will not come to Houghton to play hockey on the Portage Lake team, as was the original intention. Mr. Seibert is a good player, but there are other candidates for the team equally as good.

Some evening this week a class of over one hundred candidates will be taken into the tent of the Finnish Ladies of the Maccabees at Calumet. The ladies are preparing for a jubilee to be held in connection. Calumet has the largest tent of Finnish Lady Maccabees in the country.

All members of Company G, Houghton Light Infantry, are ordered to report for drill this evening, and each Monday following unless otherwise notified. The rule covering dishonorable discharge will be enforced hereafter. Unexcused absence from drill will be considered disobedience and will be dealt with accordingly.

The steamer Schuykill, of the Anchor line, is due to reach Portage Lake from Detroit today or tomorrow with 937 tons of freight for the local docks. The consignment is considered unusually large, for ordinarily the Anchor line boats carry but 200 tons to the cargo for Portage Lake points. Vessels for Lake Superior ports are more heavily laden as the close of navigation approaches.

The Lake Linden fire department will give a social dance in the town hall on

BOTTLE BABIES

Bottle babies are so likely to get thin. What can be done? More milk, condensed milk, watered milk, household mixtures—try them all. Then try a little Scott's Emulsion in the bottle.

It does for babies what it does for old folks—gives new, firm flesh and strong life. You'll be pleased with the result. It takes only a little in milk to make baby fat.

We'll send you a little to try, if you like. **SCOTT & BOWNE,** 409 Pearl Street, New York.

Thanksgiving evening. A committee that will make all arrangements was appointed at a recent meeting. The Linden orchestra has been engaged to furnish the music.

Miss Margaret Sheardown, formerly supervisor of drawing in the Calumet schools, now holds a similar position in the Minneapolis public schools. It is one of the best positions of the kind in the country. Miss Sheardown resigned at Calumet at the close of the last school year. Her work in Calumet was of a high order.

Friends of Fred W. Casterlin, formerly manager of Small's laundry, now "Xenon Bros." at Houghton, have been surprised to receive announcements of his marriage. His bride was Miss Kathryn Mehan. The ceremony was performed Nov. 2. Mr. and Mrs. Casterlin will make their home at Austin, Ills. Mr. Casterlin is on the road for the American Laundry company.

It is said that most Lake Linden Woodmen do not favor the readjustment of the insurance rates of the order, as proposed. In their opinion a better plan could be devised. They believe it necessary to take some action in regard to changing the rates for the perpetuity of the order, but do not think the present plan adequate. They think the proposed rates for the older members are too high and that the arrangement made to the older members as well as the younger should be made to provide a fund to pay off insurance claims.

The Calumet school board has received many letters of inquiry lately from school boards throughout the country which are considering the advisability of establishing manual training departments in connection with their schools, asking for information. They want to know all about the work and the method of conducting the department. Calumet's manual training school, which is one of the best and most practical in the country, is fast being recognized as a model institution. The results of the work accomplished are considered highly valuable.

A well known Hancock young man, who was recently married, did not have time to get a permit for a marriage license at Houghton to get his marriage license, and so called up the clerk by 'phone. The young man, who by the way is a clerk in a store, did not talk much louder than a whisper, not wishing others about him to hear, and about all the county clerk heard was "license" and the young man's name. A day or two later the county clerk sent him a hunting license. It was not the sort of a "deer" license the young man wanted, however, and as it was shortly before the ceremony was to be performed there was a great hurrying and skurrying to set matters right by getting the necessary document.

The real work of soliciting for the Michigan College of Mines gymnasium fund has not yet been commenced by the students' committee and the committee appointed by the board of control. But few people have been seen in Houghton and Hancock, still the amount of money raised has reached \$18,000. It is believed no trouble will be had in securing contributions that will increase the sum to \$25,000, half of the required fund, in Calumet, Lake Linden and other parts of the copper country. Much of the other \$25,000 will be raised in the iron country, which, it is said, is entering heartily into the plan. The college is depending upon its many friends for aid and not upon a few. Small contributions are very acceptable. The committees will not find it necessary to explain the need of a gymnasium at the college, as most everyone in the mining regions know its necessity. The alumni of the institution is responding nicely to the call for funds.

INTAKE TUNNELS DISCUSSED.
At the meeting of the Copper Country Engineering society at the Michigan College of Mines Saturday evening the construction of intake tunnels for stamp mills on Lake Superior was the topic for discussion. A paper on the subject was read by F. W. O'Neil, of the Champion mill. He described, partly by means of blackboard drawings, the construction of the tunnel at the Champion and the various problems connected with it. At the conclusion of the reading of the paper a discussion followed. It was the consensus of opinion that the method of driving the tunnel was an extremely good one. One of the problems to be contended with in work of the kind is the construction of the inlet from the lake bottom into the tunnel in such a manner as will prevent the sand discharges from the mill blocking the inlet. That point was the principal one discussed. The meeting was a decidedly interesting one. A further discussion of the subject may be secured from Superintendent W. J. Uren, of the Trimmont mill, where the construction of the intake tunnel was especially intricate.

MAIL BOXES COME.
The mail boxes to be installed at Hancock for the free delivery system, which is to be established the first of the month, have arrived. They are neatly painted in silver and are decidedly striking. Three distribution cases for carriers have also been received. Postmas-

ter Emery has not yet heard who the successful aspirants for positions as mail carriers are, but expects to get word today or the early part of next week.

BIGAMY TRIAL LATE IN TERM.
The case against Samuel Powell, charged with bigamy, is the only one on the criminal calendar of the present term of circuit court that has not yet been tried. The case is set for the latter part of the term after most of the other business is finished. At the beginning of the term when the calendar was arranged Powell's first wife, who had been sent for from Cornwall, England, had not arrived, so the case was set for late in the term to give her time to reach this country. Mrs. Powell arrived in copperdom about a week ago and is now with friends at Painesdale. She will testify against her husband when he is brought up for trial. Powell has a daughter, aged twelve, by his first wife. Shortly after coming to Calumet from Cornwall he married again. Friends of the first Mrs. Powell were incensed over Powell's action and they raised money enough to bring Mrs. Powell No. 1 to the country to testify.

THE BEST REMEDY FOR CROUP.
[From the Atchison, Kan., Daily Globe.]
This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as live croup and tell, but some modern mothers say that Chamberlain's Cough Remedy is better and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by The Stafford Drug Co.

BIG PROFITS FOR CHAMPION.
Champion and the Amalgamated's prospects, says Geo. L. Walker, to produce and sell its copper at a profit of 100 per cent over cost. In other words, there are in each ton of rock eighteen pounds of copper for expenses and nineteen pounds for profit. The Champion is a very large property and can be developed to a point where it will supply ten or more modern stamps with rock. With such a capacity and a continued yield of 36.9 pounds per ton of rock, Champion's annual output would be 55,350,000 pounds of fine copper. The profit on this, figuring copper at twelve cents, would be \$3,431,700, which is considerably more than half as much as is being earned by the great Calumet & Hecla. Half of these profits would go to the Copper Range company and half to the St. Mary's Mineral Land company. It is anticipation of such results as these that has caused the recent advance in Copper Range, and started investors on a still hunt for stray shares of St. Mary's stock. There is a possibility, even a probability, that Champion will produce and treat its rock at a cost of less than \$2 per ton. Its mineral-bearing lode is twice as wide as those mined by the Quincy, Osceola, Wolverine and Calumet & Hecla. It is mining openings near the surface, and finds very little "lean" or barren rock. So far the Champion has done no stopping, and not more than 10 per cent of the run of the rock from shafts and drifts, encountered in development work, is being discarded. Other Lake mines treat only from 40 per cent to 70 per cent of their rock. When shafts get to rock exclusively from bluffs and drifts its average yield per ton was only nineteen pounds. It now gets twenty-five pounds to the ton. Will Champion's yield also increase twenty-five per cent when regular mining begins?

RHEUMATISM CURED IN A DAY.
"Mytic Cure" for Rheumatism and Neuralgia radically cures in one to three days. It is a new discovery, and its cause and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits, and the second cures. Sold by Frank Pentill and all druggists. (10-7-2mo)

MINING GOSSIP.
At New York, one day last week, there was offered either a put or call on 5,000 Amalgamated to the end of next March at the market for \$5 per share. The decline in Amalgamated from 130, the high point, to 55, under which the stock sold last week, represents a shrinkage in the market value of the 1,500,000 shares of over \$116,000,000.

A canvass among the leading producers shows that they are well sold up for the balance of this year and some of them into the early months of next year. The Calumet & Hecla company is said to have booked a large volume of business at 12 cents.

An Old Dominion interest says: "We are making money every month. We do not owe a dollar on the Street. All we owe, and it is being steadily reduced, is to our selling agency, and this is amply protected by copper matte. Moreover, we have \$300,000 in copper matte unpledged."

Drifts south from the shaft at the Junior branch of the Franklin mine are opening good ground. Territory from 800 to 1,000 feet from the shaft has been developed, and it is up to the average. Thirty power drills are in commission, and ground is opened over a year ahead of immediate requirements.

Discussing the subject of present consumption of copper with one of the large producers after calling his attention to many statements that had been made that consumption was not much over 15,000 tons per month, he stated that he is thoroughly convinced it is over 18,000 tons per month.

A gentleman close to the management of the Calumet & Hecla Mining company says that he knows of no reason why the copper shares should be subjected to the present heavy selling. So far as the Calumet & Hecla people are able to measure the metal situation, it remains

unchanged and the outlook for the future is just as bright as ever. He believes the pressure now being applied is wholly the result of manipulation and for-stock market purposes alone.

One of the Amalgamated's strongest competitors says: "We do not for a moment take Amalgamated's threats seriously. They have been threatening for a long time. They did their best to hold the price of copper at seventeen cents, and spent millions in the effort. They now say that they will keep the price where it is until their competitors are driven to the wall. As a matter of fact, the Amalgamated people do not control a sufficiently large percentage of the total production. They may keep the price down for a time, but after all their copper is sold at below twelve cents, there is still a demand for more. They cannot dictate the price at which this shall be sold. The low price of copper has already closed many mines, but there are many companies which can produce copper more cheaply than the Amalgamated."

MICHIGAN COLLEGE OF MINES.

FIRE AT MITCHELL

OPERATORS' ATTORNEYS BOMBARD HIM WITH QUESTIONS.

HE STANDS THE ORDEAL WELL

QUITS WITH BUT FEW SCARS AS RESULT OF THE BATTLE.

Puzzling Queries Aimed at Put Miners in Bad Light Before Commission Are Successfully Disposed of by the Union Leader.

Scranton, Pa., Nov. 16.—President Mitchell occupied the witness stand throughout both sessions of the strike commission yesterday. For four hours and a half he took the cross-fire of two of the brilliant attorneys appearing for the coal companies and ended the day with few scars as the result of the battle.

The afternoon session was the more interesting. Mr. MacVeagh's cross-examination was as a rule very keen, and while he assured Mitchell he was not radically opposed to him, he did not miss an opportunity to place Mitchell's reasons for better conditions in the anthracite field in a bad light before the commission.

He questioned Mitchell on the demand for an increase of wages, and pressed the national president hard when he asked him if he cared to carry the responsibility of increasing the living expenses of the great mass of people. Mitchell's reply in substance was that the miners could not assume the responsibility as it was a situation over which they had no control.

MacVeagh made the most of his opportunity to picture the great burden that would fall upon the people if the demands of the miners were granted. He passed to the demands for a shorter work day and the weighing of coal by the ton of 2,240 pounds, and then took up the demand for trade agreements, which practically means recognition of the union. He asked Mitchell what sort of a contract he would draw up and the latter replied he would favor the agreement as outlined in his suggestions to the commission Friday.

To a direct question whether he, as president of the union, had a right to curtail the hours of employment each day of the miners, Mitchell said he thought he had.

During Mitchell's examination by Mr. Wilcox the fact was brought out that if the increase in wages was granted it would increase the expenses of the companies \$12,000,000 a year. Mitchell, answering further questions, said he regarded as living wages for a miner not less than \$600 per annum, which would cover his actual necessities and permit him to educate his children.

On the question of the minimum age at which a boy should go on the breaker, Mitchell said he would advocate that it be put at fourteen years.

"Do you know the wages that are paid are about \$600,000,000?" Mr. Wilcox asked.

"I have read that statement," the witness answered.

"Don't you or your committee know it?" inquired Mr. Wilcox.

"No, sir, we don't," responded Mr. Mitchell.

"This is a demand of \$12,000,000 increase in the cost of production," said Mr. Wilcox.

"On that calculation, yes," replied the witness, "that would be about twelve or thirteen cents a ton."

Wishes Miners Had Asked More. In reply to another question, Mr. Mitchell said that if the miners had known at the outset that the differences would go to a board of arbitration they would have asked for more, so that while the arbitrators were settling the question they would settle it right.

Mitchell denied that his organization should perform, but said it did believe in regulating the hours of the work.

Judge Gray asked: "If I blast and throw down enough coal to employ three laborers to load and you only throw down enough to employ two, am I not to be allowed to employ the third laborer?"

Mitchell replied: "You would not be because your laborers could not all work in the same place. You should have to work at two different breasts to do that, and as you would have to comply with the law of Pennsylvania in looking after the safety of your laborers, you can only do that by being with them and working with them."

Commissioner Watkins followed by asking Mr. Mitchell if the union permitted a miner to employ three laborers.

"The organization is opposed," said Mr. Mitchell, "to miners employing more than one laborer. It is not the execution of any well defined policy. It is simply a regulation that the miners of the anthracite field find necessary to protect themselves against favoritism and against one man going out and hiring a lot of laborers and bringing them in and having them work for him."

Mitchell denied any knowledge of the organization having inaugurated a strike

because of employment of non-union men, but he had heard that local unions had suspended work on this account. He had no personal views to offer on the subject of members of the union joining the National Guard, but he felt they should exercise the same rights and privileges that everyone else does in that respect.

Hearing Will Be Prolonged.

It is expected the presentation of the miners' case will occupy all of this week. Some of the attorneys connected with the case are of the opinion that some arrangement will be agreed upon to expedite the proceedings. Each side is anxious for a speedy ending of the hearing, but this will be impossible if the present plans of the contending parties are carried out. The miners have a large number of witnesses to be heard and the attorneys for each of the coal companies are anxious to cross-examine them. After the miners have ended their case the companies will also present a long line of persons to testify, and it is the intention of the lawyers on the miners' side to cross-examine the witnesses for the companies.

The members of the commission observed the Sabbath today by refraining from all work. Most of them attended church. Bishop Spalding lectured at the Lyceum theatre on "Success."

President Mitchell, of the miners' union, will be on the witness stand again tomorrow.

KAISER PLANS MATCH FOR SON.

Has Picked Princess of Albany as Consort of Frederick William.

Berlin, Nov. 16.—One of the objects of Emperor William's visit to King Edward was to discuss the betrothal of the Crown Prince Frederick William and Princess Alice of Albany, who is a charming girl, nineteen years old. The duchess of Albany went to England on the imperial yacht Hohenzollern, and proceeded to Sandringham with the emperor.

The Princess Alice and the crown prince are second cousins, and are described as mutually sympathetic. She has been quite Prussianized by having lived in Germany the greater part of the last three years with her mother, and has been under the close observation from time to time of the emperor and empress.

A dynastic alliance, such as this is regarded, would bring Great Britain and Germany closer together and would form that standpoint be unpopular in Germany. The Princess Alice's brother, the prince of Coburg, is a thorough little German. He is now in a military school near Potsdam.

Emperor William concluded his visit to the king yesterday and started on a visit to Lord and Lady Londale.

NORTHERNMOST RAILWAY.

New Line to Connect Atlantic and Pacific Opened in Norway.

Christiania, Nov. 16.—With simple ceremonies the Ofoten railway, the most northern road in the world, the property of Norway, was opened today at Narvik. The road reaches latitude 68 degrees 30 minutes. The most northern railway in Russia is in latitude 66 degrees. The farthest north line in Alaska is in latitude 66 degrees 30 minutes. The new road extends from Narvik on the Atlantic coast through difficult and mountainous country across Sweden to Lulea on the Baltic, thence it reaches Boden, where the great Swedish forts are situated, sixty-seven miles from the Russian frontier.

There is also in process of construction a railway to connect with Boden on the Russian frontier which when finished will complete the connection between the northern Atlantic and Pacific coasts. The total distance between Narvik and the new Russian Pacific port of Dalmi is 7,912 miles. The railway will require fortifications at various points in Norway and Sweden to guard it from Russian aggression. The new line will be of immense commercial importance to Russia and Scandinavia, especially to Norwegian fisheries and Russian and Siberian corn crops, besides affording an outlet for the products of the rich Swedish iron mines.

NOTED LATINIST IS DYING.

Professor Francis W. Kelsey of Ann Arbor Submits to Operation.

Ann Arbor, Mich., Nov. 16.—Professor Francis W. Kelsey, head of the Latin department of the University of Michigan, lies at the hospital tonight in a most serious condition. "The chances are very slim for his recovery," announced his nurse this evening. Professor Kelsey was operated upon yesterday for abscess of the liver. He is one of the most noted Latin scholars and archaeologists in the United States.

When you wake up with a bad taste in your mouth, go at once to The Stafford Drug Co.'s drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. One or two doses will make you well. They also cure biliousness, sick headache and constipation.

BOY KILLS BOY IN QUARREL.

Baldwin, Wis., Nov. 16.—Jens Nelson, aged fourteen, shot and killed Albert Eker, aged seven, today, as the result of a quarrel.

Three Railroads to Unite in Building a Station at Cleveland.

PLANT WILL BE REBUILT.

Kansas City, Nov. 16.—C. W. Armour, of the Armour Packing company, said today that the plant burned at Sioux City would be rebuilt at once.

ASLEEP AMID FLAMES.

Breaking into a blazing home, some firemen lately dragged the sleeping inmates from death. Fancied security, and death near. It's that way when you neglect coughs and colds. Don't do it. Dr. King's New Discovery for Consumption gives perfect protection against all Throat, Chest and Lung Troubles. Keep it near, and avoid suffering, death, and doctor's bills. A teaspoonful stops a late cough, persistent use the most stubborn. Harmless and nice tasting, it's guaranteed to satisfy by Stafford. Price, 50 cents and \$1.00. Trial bottles free.

Chicago Markets Strong.

W. H. Laidley said of the Chicago markets:

"The cables in wheat were rather disappointing, as they failed to reflect our advance of yesterday. The opening, while a trifle lower, was firm, and the market advanced easily to a close 5/8 over yesterday. The northwest and the southwest receipts are commencing to diminish, and the market is very bullish upon wheat, as it shows no sign of a break. We advise buying on all little recessions."

"Corn was strong and higher during the early part of the session, but it was rather inactive. The close for the December option was slightly above yesterday, the same as in May. The receipts and estimates are very small. The cash demand continues good, at a premium above the options. Buy corn for a good advance."

"Oats were dull and inactive, but slightly higher. The receipts and estimates were smaller and the cash demand good. They will doubtless follow the other markets, but they do not offer much opportunity to make money as long as they remain inactive."

"Provisions opened strong and a trifle higher, but remained almost stationary, closing slightly above yesterday. The receipts and estimates were slightly smaller, and the hog market was somewhat higher. It looks as if prices had reached the bottom and should do better."

New York Shows Improvement.

Walker said of the New York market:

"The market opened slightly better, on London prices, but it did not hold and soon there was heavy liquidation and it began to sell off. There was a lack of support, and the traders continued to catch steps. Before the bank statement there was a let-up, and the market became more steady. After it was published traders began to cover and there was a sharp advance. All the active list made gains, and the buying was good. Many pool stocks rallied on the idea that the liquidation had been very thorough. The selling of the last two days will be reflected in the next week's statement, and this must be very considerable. While we do not look for any great upward movement, still we think that the worst of this large selling movement is over. The close was at the best prices on urgent short covering."

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows Saturday, the quotations being reported by Paine, Webber & Co.:

Wabash Pfd. 43 1/2 Mo Pacific 109

It is said that every bride has many friends, but in a few years they dwindle down to one. That's Rocky Mountain Tea. Makes and keeps her well. 35 cents. The Stafford Drug Co.

A POLICEMAN'S TESTIMONY.

J. N. Patterson, night policeman of Nashua, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." People's Drug Store.

CHICAGO GRAIN MARKETS.

Chicago, Nov. 16.—Inactivity prevailed Saturday in both grain and provisions, but prices were inclined to a higher level. December wheat closing 3/4 @ 1/2 higher, December corn 1/4 higher and oats 1/4 higher.

crowd were wary in their dealings, being influenced greatly by what they supposed would be the action of a prominent bull operator who has been taking on considerable May recently. The close was steady and near the top. December opened a shade lower at 72 1/2, advanced gradually to 72 3/4 and closed 1/4 @ 3/4 higher at 72 1/2. Clearances of wheat and flour were equal to 700,000 bushels.

Corn was comparatively quiet after the first half hour of the day. Shorts were again fair buyers of the December delivery and that option was firm, the offerings being extremely light. May was dull, but the strength in the nearby futures helped maintain the firm selling. December closed 1/4 higher at 53, after selling between 52 1/2 and 53 1/2. Local receipts were 175 cars, with twenty-three of contract grade.

Oats were again dull and featureless and the firmness in other grains was a bull factor. There was some covering by shorts, while commission houses were on both sides of the market. The close was steady with December 1/4 higher at 29 1/2, after ranging between 29 1/2 and 29 3/4. Local receipts were 181 cars.

COPPERS ARE BETTER.

Market Saturday Showed Considerable Improvement.

Paine, Webber & Co. said of the Boston market:

"The market acted a good deal better today. There was more snap and determination in the buying, and, though liquidation continued quite heavy, prices had a substantial recovery. Coppers advanced especially well. The market was buying of coppers during the whole period of the decline, and the outlook now is that they will be more active and considerably stronger. We would rather buy coppers than the New York stocks."

Hayden, Stone & Co. said:

"There was a better tone to the market, and it rallied easily on short covering. It looks as if we might have a little better market."

Chicago Markets Strong.

W. H. Laidley said of the Chicago markets:

"The cables in wheat were rather disappointing, as they failed to reflect our advance of yesterday. The opening, while a trifle lower, was firm, and the market advanced easily to a close 5/8 over yesterday. The northwest and the southwest receipts are commencing to diminish, and the market is very bullish upon wheat, as it shows no sign of a break. We advise buying on all little recessions."

DUST STORMS IN AUSTRALIA.

Railroads Are Blocked and Darkness Frightens the People.

Sydney, N. S. W., Nov. 16.—The southern parts of Australia have been visited by unprecedentedly violent dust storms, the dryness which has prevailed for seven years reaching its climax this year. The terribly destructive drought has destroyed the herbage in large areas, laying the land bare. A heavy gale on Nov. 13 raised immense quantities of dust from these tracts and drove vast clouds of red powdered earth far and wide. The atmosphere was oppressive and it was hardly possible to breathe. The darkness was intense while the dust clouds were passing. The inhabitants of numerous towns were badly frightened by the darkness and hid in their houses. Artificial light was necessary in the streets of Melbourne where there was also much ball lightning, which ignited several buildings. It was very dark in Sydney, and the clouds extended twelve miles seaward. The railroads in some places were blocked by heaps of dust. After the wind subsided the atmosphere was brilliantly pink and the temperature fell suddenly. The lack of rain continues.

ATHLETICS ARE AT A STANDSTILL, BUT WILL BE RESUMED LATER.

Athletics in the high school will now be at a standstill until the school work gets well under way. Then, however, there will be many interesting games of basket ball and indoor baseball. The girls are perfect looking for a place to play basket ball, and they would feel very grateful to anyone who would inform them of a place which they could get at a reasonable rent. There seems to be a difference of opinion among the high school boys as to whether basket ball or indoor baseball shall be the game this winter. In all probability there will be a team for each sport. It is hoped that the neighboring schools will take an interest in these games, so that friendly contests may be arranged.

THE O. S. U. LANTERN ADDS FOLLOWING TO THE WORK FOR THE AGES, SAYS THE MICHIGAN DAILY NEWS.

"The fall of 1902 marks the advent in our long suffering language of a new word; a word which we make bold to commend to Professor Hempel and his fellow linguists at Ann Arbor, with the suggestion that they preserve it in some sort of philological alcohol, as the time is coming when it will be extinct as a form. 'Michiganized' is the word, Michiganize, which, being interpreted, means to overcome, defeat, lick, smother, swipe or wipe up an opposing team; to beat, bang, smash, slug, grind, knee or otherwise scientifically, speedily and effectually put players out of business; to hurry, run, leap, dash, tear or fly across a gridiron; to cause to be placed upon a bulletin board scores in the interest of time best counted by tens; to exhibit the most perfect, that they preserve it in some most-abominable, astonishing, paralyzing football the west has ever seen. 'Rah for Michiganize!'"

John O'Callahan, of Sagola, was a visitor at the high school last week.

A picture of the interior of the assembly room of the new high school, with the pupils at work, was taken last week.

Two new pupils were enrolled in the high school last week. It is desired that all pupils intending to enter school do so immediately.

A male quartet has been organized, and it will practice under the direction of Miss Johnson. It is made up as follows: First tenor, Chester Thompson;

second tenor, Albert Graunstadt; first bass, Will Ross; second bass, John Erickson.

The Sophomore class has elected the following officers: President, Fred Kraft; vice president, Lottie Frei; secretary, Alfred Primeau; treasurer, Volla Richmond.

At a meeting of the Senior class Thursday afternoon, it was decided to publish the annual again this year. The following officers were elected: President, Bartlett Lewis; vice president, John Erickson; secretary, Alma Olson; treasurer, Doris Bowron.

Mr. Wilson, a graduate of the Indianapolis School for the Blind, addressed the high school pupils Thursday afternoon. He explained the method of teaching the blind, and outlined the difficulties under which the blind labor, also setting forth some of their pleasures and enjoyments. Mr. Wilson is at present earning money to pay for his higher education.

PHYSICIANS PRESCRIBE IT.

Many broad minded physicians prescribe Foley's Honey and Tar, as they have never found so safe and reliable a remedy for throat and lung troubles as this great medicine. People's Drug Store.

FOOTBALL SCORES.

Chicago, Nov. 16.—The leading football games played Saturday resulted as follows:

In the West—
Michigan, 21; Wisconsin, 0.
Minnesota, 11; Wisconsin, 0.
Northwestern, 10; Beloit, 0.
Iowa, 61; Washington, 0.
Nebraska, 6; Knox, 0.

In the East—
Yale, 12; Princeton, 5.
Dickinson, 11; Lehigh, 0.
Cornell, 28; Lafayette, 0.
Carlisle Indians, 5; Pennsylvania, 0.
West Point, 46; Syracuse, 0.
Harvard, 16; Dartmouth, 6.
Bucknell, 23; Navy, 0.

ANXIOUS MOMENTS.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons, it can be safely given. People's Drug Store.

Don't try cheap cough medicines. Get the best, pay the price. Ayer's Cherry Pectoral. 60 years of cures. J. C. Ayer Co., Lowell, Mass.

FOR SALE—Choice building lots in Nester addition for sale cheap for cash, or on time at low rate of interest. For particulars inquire at office of Peter White. (8-4-1f)

SCADDEN'S REPORT.

It Has Been Transmitted to Directors of Marquette G. M. & M. Co.

Vice President Thomas Scadden, of the Marquette Gold Mining and Smelting company, who recently visited Boulder, Colo., to inspect the company's property and the territory in which it is operating, has transmitted his report to the directors. In summing up, Mr. Scadden gives the property his unqualified personal endorsement. His report is, in part, as follows:

"The claims are located in the Gold Hill mining district, Boulder county, Colorado, and up in the mountains about seven miles from Boulder at an altitude of about 7,500 feet above sea level. Back of these mountains, or foot-hills as they are called, is situated the Great Snow Range, whose peaks pierce the sky at an altitude of from 11,000 to 14,000 feet above sea level. This range forms a natural barrier and catches approximately all of the snows, thereby sheltering the foot-hills from the direction of the prevailing storms. These snows, which are precipitated during the months of January, February and March, on the foot-hills, are soon melted away on all the southern exposures and the valleys, very rarely lasting to exceed twenty-four hours, hence mining operations can be carried on successfully during all seasons of the year, without any interruption or additional cost.

Claims and Topography.

"The property has ten claims, upon each and in the center of which is a clearly defined or true fissure vein. These are 1,500 feet long by 150 feet wide, with the exception of the Norma and Grand lodes, which are 1,025 feet and 675 feet long respectively, by 150 feet wide. The claims are named the Baltimore, Central City Star, Captain Johnson, Baltimore Star, Johanna, Sussex, Earl No. 1, Earl No. 2, Norma and Grant. These claims are all contiguous, and form a group of more than one mile in length, the northeastern end of which is situated at Sunshine and the southwestern end at Salina. The elevation through a longitudinal section of the main vein will give us about 700 feet at base of Salina gulch. Upon examination of the southwestern end of our property I am convinced that our Sussex lode, which is about six feet wide, is a continuation of the Richmond mine lode, as all indications show. Our Johanna lode, which is about five feet wide, is a continuation of the Ingram mine lode, by virtue of the fact that it is both northwest of and in close proximity to the great quartz dyke which traverses both properties. Both these mines are working in the direction of our properties and have been paying dividends to the stockholders for many years.

Mineral Formation.

"Upon examination of the northeastern end of our property I find that our Baltimore lode intersects the Central City Star lode. There is also a porphyry dyke which crosses the Baltimore lode about thirty-five feet east of the discovery shaft. This dyke where it intersects both the American and Inter-Ocean mine lodes has given them great returns, and dividends have been paid to their stockholders for a great many years. A quartz dyke also crosses the Baltimore Star and Captain Johnson lodes on the southern end of our property, and I may add, these dykes carry gold values from \$4 to \$6 per ton.

"All of our claims have true fissure veins with a clearly defined smelting ore seam which averages all the way from two inches to two feet wide. The balance of the vein is called gangue or mill rock. The smelting ore seam during the process of our developing work both at the Baltimore and Sussex shafts thus far gives us gold values at the rate of \$45.15 to the ton and the mill rock gives gold values at the rate of \$11.30 to the ton. This is arrived at by taking an average of all the samples during our developing work. I thought this would give us a more thorough idea of the value of our property than by taking a sample at the various points of operation or development. By selection, however, we can procure much greater results, and in fact we have struck a lead in the bottom of our Baltimore shaft, a sample of which assays \$244.40 to the ton. This may be considered a good omen.

Development.

"Our Baltimore discovery shaft is eighty feet deep, and the vein at this point is about five and one-half feet wide, with our smelting ore seam two feet wide. A contract is let for the sinking of this shaft to 157 feet deep. There is also a tunnel southwest of the shaft 265 feet on this same Baltimore vein, which is in about sixty-five feet. The vein at this point is about six feet wide and the smelting ore seam about two feet wide. Our Sussex deep shaft is ninety-five feet deep, and the vein at

this point is from six to seven feet wide, with our smelting ore seam about two and one-half feet wide. A contract is let for the sinking of this shaft to 150 feet deep. Our Sussex discovery shaft, which is on the boundary line, is fifty feet deep with a drift thirty feet long on the vein. Out of this shaft and drift there was taken ore enough to defray all expenses, with a surplus of \$600.

Mining.

"Owing to the physical condition of our property, and after careful consideration of the subject, both myself and William B. Le Veque, our local manager, decided that from an economical standpoint we could best subserve the interest of the stockholders by not purchasing any machinery for the development of our Sussex and adjacent lodes or veins, but instead drift a tunnel, which by the way, has been started, the entrance of which is to be on the Norma lode. This when drifted in about 300 feet will be underneath our Sussex discovery shaft; then by sinking and raising complete same both for ventilating and mining purposes. This will give us at this point a depth of 175 feet. We propose to keep drifting this tunnel on the Sussex lode, and when sufficiently ahead so as not to be interfered with, begin to raise so as to connect with our Sussex deep shaft. This will give us at this point a depth of 325 feet. Then, you will readily see, will give us a large block of stopping ground and at the minimum cost of mining. Then by the aid of cross cuts we have the further advantage of operating four lodes from the same tunnel. From the entrance of this tunnel we propose to convey our ore down the slope to the Salina gulch by the aid of a gravity plant which may be erected at a nominal cost, then by wagon either to railroad depot or stamp mill one mile distant.

"This, of course, is for the present, and we may elect to build a stamp mill of our own some time in the near future. Later on, when conditions warrant, we propose to drift in another tunnel at the foot of the Salina gulch so as to connect with the one already commenced. This tunnel will give us a depth of about 700 feet, or a fraction over.

"Our Baltimore shaft is a somewhat different proposition, owing to dyke intersection and cross veins being in such close proximity thereto that we could not get any benefits therefrom by drifting the Baltimore shaft. Hence we propose to stop drifting this tunnel to a while (and have already done so), and unite our energies in the sinking of this shaft as deep as we possibly can and as quickly as we can, which is for forty-three feet deeper than contract depth. Then drift in both directions on the lode at this depth so as to encounter the intersection of the Central City Star lode on the southwest and the cross veins and dyke on the northeast. The arrival at this decision is self-explanatory and needs no further comment.

"The subject of machinery therefore must necessarily be postponed for later consideration, owing to the fact that our development work at this time is not far enough advanced to warrant the expenditure. Later on we will be required to purchase a plant sufficient for our needs and commensurate with our findings and conditions disclosed. I know of no reason why our Sussex should not earn sufficient money with which to purchase the proper machinery equipment for the Baltimore after tunnel and discovery shaft are completed and stopping begun. The Baltimore certainly will pay for its own development after it has gone down deep enough to get through the hard surface capping and through the zinc ore.

Transportation.

"From our property at Salina gulch down to the depot at Salina on the line of the Colorado and Northwestern railroad, which is a narrow gauge, is about one mile, and from the other end, or Baltimore, one and one-half miles. This railroad then connects with the Colorado Southern and Union Pacific railroads at Boulder, thus giving us ample facilities for transportation of our high grade ore or smelting ores either to Boulder or Denver; cartage or drayage may be had from the property at Salina gulch to depot for 50 cents per ton, and from the Baltimore end of the property proportionately small. Freight rates on ore under and up to \$50 per ton, from Salina to Boulder, 50 cents per ton, and from Boulder to Denver \$1.50 per ton; and front rates in proportion. We also have two advantages of local mills for the treatment of our stamp rock."

A big haul by highwaymen, substitutes and others who steal the good name and fame of Rocky Mountain Tea made famous by Madison Medicine Co. The Stafford Drug Co.

SKELTON FOUND AT BIG BAY.

It May Possibly Be the Remains of Lightkeeper Pryor.

A man arrived in town Saturday from Big Bay with a report that a skeleton had been found there, at a point about half a mile from the light. There was a rope around the fleshless neck, it is stated, and the evidences pointed to a suicidal death of the unfortunate. It is surmised that the skeleton is the remains of Lightkeeper Pryor, who disappeared at Big Bay, it will be remembered, a few months over a year ago. Mr. Pryor wandered off in a fit of temporary insanity, and was never seen again, although diligent search was made in the vicinity by the people at Big Bay, assisted by Marquette friends of the missing man. It was feared at the time that the lightkeeper had made away with himself, a suspicion that may possibly be confirmed by the investigation of the late discovery of the skeleton. Coroner Cray went Saturday to look into the matter. He is expected down today.

FROM AN AUCTIONEER.

Col. C. H. McDonald of Greenview, Ill., in a letter May 1st, 1901, says, "I am an auctioneer and being often exposed to the weather, am seriously troubled by my throat becoming irritated and hoarseness following. When troubled in this way, I always use Harts' Honey and Horehound. It is the only remedy that has ever done me any good and it positively cures." Sold by the People's Drug Store.

ESCANABA EXPECTED TO PLAY.

Arrangements Being Made for a Game Here Saturday.

Though no positive assurance has been received by the management of the football team from Escanaba, there is a strong belief here that the much talked of contest will be held on the local gridiron next Saturday.

Plans are being arranged for a banquet and ball in honor of the visitors, if a train can be provided to take them back to Escanaba.

It has been insinuated by hostile critics that Ishpeming played to tie the score at the previous game in order to bring Escanaba up here, and triumph over them by a big margin.

Large outside delegations will probably be here to watch the sturdy warriors decide the championship and in order that up-the-line people may see the fight to a finish and have time to catch the 4 o'clock train the game will begin promptly at 1:30 o'clock.

Benton Harbor won the championship of the lower peninsula Saturday at Ann Arbor, from the team representing the high school of the university town, and chances of getting the state championship game here will be very good if next Saturday's contest ends satisfactorily.

Coach Sweetland says the team cannot hope to win Saturday if they pursue the same tactics they followed at Escanaba. There they tried to make on gains by taking hazardous chances.

Superintendent Joliffe has received another telegram from the interscholastic state board stating that unless Ishpeming agreed to play on neutral grounds, Escanaba would have to play at Ishpeming or forfeit the game.

Superintendent Joliffe has received another telegram from the interscholastic state board stating that unless Ishpeming agreed to play on neutral grounds, Escanaba would have to play at Ishpeming or forfeit the game.

NO COAL IN SIGHT.

Ishpeming People May Have to Burn Wood for Some Weeks Yet.

Local fuel dealers are not assuring their patrons that anthracite coal will be available at a near date. No encouragement is received from the people who supply the retailers.

The wood dealers are doing a much larger business this fall than they anticipated, due to the shortage of anthracite. So many people have prepared to burn wood instead of coal that the wood business will be good all winter.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it. Heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both in English and French, sent free by mail, Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

ISHPERING IN BRIEF. J. J. McCarthy was here from Escanaba Saturday.

Raymond Nolan came back from Butte, Mont., a few days ago. Samuel Blumenthal and son, Arnold, of Escanaba spent Sunday here.

Miss Ellen Cleary and Laura McEnroe spent Sunday in Marquette. Mr. and Mrs. Will Watson are visiting Dr. C. F. Moll and family, at Kenton.

Trombly's orchestra will give a hop Wednesday evening at Anderson's Hall. Miss Ada Maher returned recently from Butte, Mont., where she has been located for two months past.

Superintendent Scribner arrived from Chicago, with his wife and daughter, yesterday. The Snowshoe club will meet this evening at the club house. Refreshments will be served and there will be basket and indoor baseball.

A juvenile football team journeyed up here from Marquette Saturday and took an eleven of youngsters known as Trombly's team into camp. The score at the end of the second half showed one touchdown to the credit of the visitors.

August Larson, of the Winthrop location, who deserted his family a short time ago, did not commit suicide, as was first supposed, but has put in an appearance, safe and sound, after a short sojourn in a neighboring lumber camp.

Mrs. Jessie L. Gaynor, of St. Joseph, Mo., a singer and composer of children's songs, is expected here, with her accompanist, Dec. 2. She will sing for the children in the morning and will give a recital at the high school in the afternoon on that date. Many of Mrs. Gaynor's songs are used in the lower grades of the schools.

The members of the Alice Carey Concert company have received flattering mention from the press in every city they have visited. They appear here Wednesday evening. Seats will be on sale this morning at 9 o'clock at Tillson's drug store. Single reserved seat tickets will be thirty-five cents.

Persons who have not been asked to purchase course tickets for the Knights of Columbus' winter series can purchase them at Tillson's drug store. The price is \$1 for five first-class attractions. At other places in the northwest this same course is costing \$3, so that Ishpeming people should consider themselves fortunate in having an opportunity to get tickets at such a nominal figure. The Alice Carey Concert company, which will be at the opera house Wednesday evening, is the first entertainment of the series.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75 cents per bottle. Hall's Family Pills are the best.

TRUSTED & GESSLER - CHICAGO

Duluth Defeated.

Last Friday the Duluth boys went to St. Cloud, Minn., and met their finish, not making a single touchdown, while St. Cloud's score was 17. If Duluth wants to play a winning game the players should stay on their own gridiron and have McCormick for referee. He was met on hand Friday. A game between Ishpeming and St. Cloud now wouldn't be a bad idea and would serve to settle, as far as scores go, the question of superiority between Duluth and Ishpeming.

FELL EIGHTY FEET.

Wilfred Dompierre met with an accident Saturday night that might easily have proved fatal, and it was owing to his unusual good fortune that he did not sustain injuries that would cripple him for months, if not permanently. While going to his work at the Cleveland Lake mine Saturday evening, he lost his footing on the narrow patch that runs along the top of the hill that lies between the mine and the city, and which the miners use as a shortcut in going to and from their work. The hill shelves off almost perpendicularly and down this incline, thickly covered with jagged rocks, Dompierre fell over eighty feet. Several men who were following closely behind heard the rattle of his dinner pail, as it bounced to the bottom of the hill, and, thinking something was wrong, for it was too dark to see that the man has disappeared, they investigated, finding Dompierre lying unconscious and with bad scalp wounds. He was taken at once to the hospital, where it was found his injuries were not dangerous, but sufficient to cause several weeks' absence from work.

A PESTIFEROUS GERM.

Burrows Up the Scalp Into Dandruff and Saps the Hair's Vitality.

People who complain of falling hair as a rule do not know that it is the result of dandruff, which is caused by a pestiferous parasite burrowing up the scalp as it digs down to the sheath in which the hair is fed in the scalp. Before long the hair root is shriveled up and the hair drops out. If the work of the germ is not destroyed hair keeps thinning till baldness comes. The only way to cure dandruff is to kill the germ, and until now there has been no hair preparation that would do it; but today dandruff is easily eradicated by Newbro's Herpicide, which makes hair glossy and soft as silk.

BAD BLOOD

All Skin Eruptions and Facial Humors are Cured by the Use of

SMITH'S GREEN MOUNTAIN RENOVATOR

Mr. PETER HIRSCH, of Benton Harbor, Mich., writes as follows:

"GENTLEMEN:—Your Smith's Green Mountain Renovator, in a few weeks, cleaned out my blood and toned up my entire system. It gave me a splendid appetite and I slept at night like a child. The best feature of this medicine was the fact that it left no bad effects. When I stopped taking it I did not crave it or feel the future need of depending on it to keep me up. It does every thing that you claim it will do and is certainly a splendid remedy."

Take our advice and consider your own condition? Ask yourself the following questions: Is your blood impure? Are you subject to pimples or facial eruptions? Are you troubled with sores on any part of your body? Do you find that a cut or scratch does not heal readily? Do you fear ulcers? If you are troubled with any of these symptoms take our word for it, you are in a serious condition. You must have some impurity in your blood. If you have, check it in time by taking Smith's Green Mountain Renovator. More deaths every year can be traced directly to impure blood than to any other one cause. It makes no difference whether you have contracted some blood disease or inherited it, it is just the same. We know of thousands of cases where this is so. Every day we see sufferers whose blood is so impure that instead of conveying the elements necessary to rebuild the tissues of the body, dreadful poisons are instead infused throughout the entire system. For your own sake; for the sake of your family; for the sake of all who are interested in you do not let such a condition continue. If you will call on us we will gladly tell you more about Smith's Green Mountain Renovator. We will explain to you why we are so enthusiastic concerning this great remedy and tell you how we have obtained the agency for it in this city, stand prepared all times to refund to anyone the cost of the medicine who is not satisfied with its use.

RENOVATOR CURED Mr. PETER HIRSCH OF IMPURE BLOOD.

STAFFORD DRUG CO., 120 S. Front St., Sole Agents for this City.

STATE OF MICHIGAN, County of Marquette—ss: At a session of the Probate Court for said county, held at the probate office in the city of Marquette on the twenty-fifth day of October, in the year one thousand nine hundred and two. Present, Charles Kelsey, Judge of Probate. In the matter of the estate of Edwin C. Wead, deceased. On reading and filing the petition, duly verified, of Albert G. Wead and Mary L. Wead, mother and father of said decedent, praying that administration of said estate may be granted to Thomas Coonors or to some other suitable person. Thereupon it is ordered, that Monday, the seventeenth day of November, A. D. 1902, next, at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the next of kin and heirs-at-law of said decedent, and all other persons interested in said estate, are required to appear at a session of said court, then to be holden in the probate office, in the city of Marquette, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered, that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in The Daily Mining Journal, a newspaper printed and circulated in said county, three successive weeks previous to said day of hearing. A true copy. CHARLES KELSEY, Judge of Probate. (10-27-02)

Where to Locate? WHY IN THE TERRITORY TRAVERSED BY THE Louisville Nashville Railroad

Great Central Southern Trunk Line, IN KENTUCKY, TENNESSEE, ALABAMA, MISSISSIPPI, FLORIDA, —WHERE— Farmers, Fruit Growers, Stock Raisers, Manufacturers, Investors, Speculators, and Money Lenders will find the greatest chances in the United States to make "big money" by reason of the abundance and cheapness of Land and Farms, Timber and Stone, Iron and Coal, Labor—Everything! Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the Kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50 cents at Stafford's drug store.

Negaunee and Vicinity.

SHIPPMENTS OF 225,000 TONS. SCORE 31 TO 24. Negaunee Business Men Won Notable Victory Saturday Night.

The long anticipated game of indoor baseball was played at the Adelphi rink Saturday night. The teams both put up a plucky game but the business men were too much for the drummers, and after two hours of hard playing the score stood 24 to 31 in favor of the former.

Butler and Graham were the only members of the commercial men's team who had ever played in any kind of a game of baseball, while conditions were reversed on the local team, in which Theodore Thoren and Dr. Goodnow were the only men who had not had previous experience on the diamond. The men of the grip won the toss up and started out to pile up scores at a rate that made the drummers stare. Haupt was easy for them and the ball was batted all over the field. When the travelers were in the field Butler and Graham, as assisted by good support at second and left field, shut out the home team in the first, third, sixth and eighth innings, and held them to one run in the fourth, but in the other innings their stock was way below par and the business men ran off with them. In the third inning Haupt and Levine exchanged places, but the Ishpeming men still managed to get frequent cracks at the plate. It was necessary, of course, in order that the game might not be deprived of any of its interesting features, for the umpire to figure at times as the chief attraction. Dyer came in for most of the notoriety. Several times his decisions were appealed, but the umpire stood at once surrounded by the whole team, who used all their powers of argument to convince him that he was wrong. The decisions always stood as first announced, however. A baseball game in Negaunee without a squabble with the umpire would be like Hamlet with Hamlet left out.

The chilling atmosphere of the rink seemed to have frozen up the spirit of the crowd at first, but before the first inning was ended their interest was at white heat and they were yelling like Comanches. The business men team was in reality an Ishpeming aggregation, only two of its members hailing from Negaunee, but the crowd, though composed entirely of Negaunee people, was impartial in its applause. The star features of the game were Thoren's fine fielding and hitting, Beagle's fine work at first base and Levine's base running. Butler, the traveling men's catcher, put up the best game for his side.

The score by innings follows: Business Men, 0 11 0 12 0 7 0 *—31 Drummers, 4 0 2 0 1 0 2 7—24 The line-up was: Business Men—Haupt and Levine, pitchers; Lacombe, catcher; Beagle, first base; Levine and Haupt, second base; Trotochard, third base; Miller, shortstop; Goodnow, right field; Thoren, left field.

Traveling Men—Graham, pitcher; Butler, catcher; O'Keefe, first base; Trudell, second base; Quinn, third base; Holmo, shortstop; Bennett, right field; Kinsman, left field.

ENTERTAINED SISTER SOCIETY. Swedish Lutheran Young People Hold an Enjoyable Social. Friday night a party of sixty-six young people, representing the Bethany Young People's society of the Swedish Lutheran church at Ishpeming, came to Negaunee in a special car, and was entertained by their sister society, at the Swedish Lutheran church and the Lutheran parochial school. During their entire history this is the first time the societies have met together in this way, and so enjoyable an occasion did it prove that it was the unanimous decision to hold similar meetings during the coming winter. The Ishpeming society extended an invitation to their Negaunee friends to come to Ishpeming next month. The invitation was accepted with pleasure.

After being welcomed by Pastor Moller of the Lutheran church, the Bethany society entertained their hosts with the following program: Song, Bethany Choir. Address, Rev. E. V. Isaacson. Vocal solo, Gylling. Recitation, Ruth Isaacson. Organ solo, Prof. M. W. Broman. Recitation, Hilda Brodin. Clarinet solo, Charles Sundii.

FORMER RESIDENT HERE. E. H. Gribble, who has been engaged in diamond drill work for the Sullivan Machinery Co., of Chicago, at Hurley, Minn., is in the city on a ten days visit with friends and relatives. He expects his family will come here soon, and he may decide to purchase a home here. Mr. Gribble intends to go from here to Hennepin, Wis., where his company has a large contract for diamond drill work for the Montreal Mining company.

SATURDAY'S GAME. Much interest is manifested in the Ishpeming-Escanaba game next Saturday. Local opinion seems to be divided, and the Escanaba eleven has about as many supporters as the Hematite City team. It is reported here that the Escanaba players are being trained by four coaches.

A STARTLING SURPRISE. Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the Kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50 cents at Stafford's drug store.

There is no cough medicine so popular as Foley's Honey and Tar. It contains no opiates or poisons and never fails to cure. People's Drug Store. Low prices on storm sash. Consolidated Fuel & Lumber Co. (11-11-14) P. H. COULD HARDLY GET UP.

Mr. Astor, Esq., Dec. 6, 1902. Herpicide does not give a claim for it. It has cleaned my head from dandruff, and left my hair growing again. Charles M. Goodnow. For Sale at all First-Class Drug Stores.

Paine's Celery Compound

Never Fails to Banish Disease and Re-establish Lasting Health.

Thousands of women are kept in sickness for months and years owing to false treatment and the use of worthless medicines, and we are inclined to believe that Milton thought of this class of almost dying women when he said:—"The angelic guards ascended, and nuptial wails were heard." The common sense treatment of today for weak, rundown and suffering women, is Paine's Celery Compound. This marvelous medicine is spoken of in every part of the civilized world, and men and women of all classes derive new life from its use. M. Elizabeth Messick, Marietta, Ohio, writes about her rescue from a low condition of physical weakness; she says:—"Eight years ago I was most successfully operated on for an ovarian tumor, weighing twenty-five pounds. After the operation tonics and foods were used in vain to bring back strength. In some way Paine's Celery Compound came to the rescue, and it really seemed that four doses produced a change. I was then sixteen years old, and had three years more of school work. Your compound is the only thing I have to thank for strength during the last three years at school. Now, I am eight months of each year in the South in home missionary work among the freedmen. This last spring I would have had to give up, but one bottle of Paine's Celery Compound made me over again. My sister cured her eczema with Paine's Celery Compound. We recommend it to all."

DIAMOND DYES for children's clothes are most serviceable. They color jackets, coats, caps, ribbons, stockings, as well as dresses. No other dyes equal Diamond Dyes in variety of uses; they never disappoint. Directions book and 45¢ samples free. DIAMOND DYES, Burlington, Vt.

Dialogue. Misses Susie and Eva Nelson. Vocal solo, Miss Anderson. Original poem, C. G. Regstrom. Vocal solo, Mr. Broman. Closing remarks. Following the program refreshments were served in the parochial school. The guests received an excellent impression of the hospitality of their hosts and went away much pleased by the warm reception that had been extended to them. The Negaunee society is not an old organization and is very strong yet in numbers, but it is growing and will soon be a powerful influence in the activities of the church. The Bethany society of Ishpeming is nineteen years old, and has a membership of seventy. It has a record for liberality that would be hard to equal. It has paid for the hall it uses as a meeting place and for other property the sum of \$2,500. Last year it contributed \$500 to the local church. All this was done in addition to meeting the expenses and supporting the benevolences that usually devolve upon a religious organization of this character.

OUR GUNBOATS BUILT IN JAPAN. The United States government has ordered six gunboats to be built in Japan for coast protection in the Philippines. The receipt of an order of this kind is the best evidence of the wonderful progress made by the Japanese in the last half century. The best evidence of the progress made by Hostetter's Stomach Bitters during that time is found in the unequal record of cures back of it. Hundreds of people, including many prominent physicians, have voluntarily testified that the Bitters cured them of stomach, liver and kidney complaint when other medicines had failed. You will therefore make no mistake in trying it for heartburn, nausea, headache, indigestion, dyspepsia, constipation or biliousness. One bottle will convince you of its value.

LOCAL LACONICS. P. B. Kirkwood sent home a big buck Friday. The infant child of Napoleon Marketti died Friday. The funeral was held yesterday afternoon from St. Paul's church. Thomas Trathan is back from his expedition to the woods. The wet weather made it almost impossible to leave camp. Charles Schwartz has taken the contract for the erection of the David Caples building on Iron street, across the railroad track from the Northwestern depot. Work has been begun on the foundation. The building will be brick veneered.

Judging from the number of tickets that have already been sold, a large delegation will attend the Alice Carey concert at Ishpeming tomorrow night. Concert seat and season tickets are on sale at Kirkwood & O'Donoghue's store. The rains of last week interfered seriously with all kinds of outdoor work. Contractors complain that work on which the contracts expired last week is not half completed. Merchants say that business is disastrously slack, and everyone is praying for snow and cold weather.

You needn't keep on feeling distressed after eating, nor being, nor experiencing nausea between meals. Hood's Sarsaparilla cures dyspepsia—it strengthens the stomach and other digestive organs for the proper performance of their functions. Take Hood's.

Foley's Honey and Tar for coughs and colds; reliable, tried and tested, safe and sure. People's Drug Store.

DAINTY BREAKFAST SAUSAGE...

Sausage good enough for any American, therefore good enough for a king, at... HAUPT'S GROCERY, NEGAUNEE, MICH.

Telephone by either line "Negaunee Greenhouses." NEGAUNEE NURSERY AND GREENHOUSES. FLORAL DESIGNS A SPECIALTY. Cut Flowers and House Plants. Now is the time to order your Fruit and Shade Trees, Shrubs and bedding plants. We have everything of the best and at lowest prices. SEND FOR CATALOGUE.

FOR RENT—A desirable house on Main st. Apply to Mrs. MacKenzie, Negaunee. 11-12-19. DULUTH, SOUTH SHORE. "PRESCRIPTIONS Carefully Compounded" This is an old familiar saying; in fact, it is so old that some druggists have forgotten what it means. We have not. We believe it is the most important thing in our business. We not only do it carefully, but we do it quickly.

REX POROUS PLASTERS For aches and pains of all humankind. A Porous Plaster that is once identified by the name of REX needs no further evidence of reliability. It is a positive and quick cure for coughs, colds, aches and pains. J. M. PERKINS, JEWELRY, NEGAUNEE, MICH.

DETROIT CLEVELAND PALACE STEAMER City of Alpena. For Detroit, Cleveland, Toledo Pt. Huron, Harbor Beach, Oscoda, Alpena, Cheboygan, and All Points East and South. Leave St. Ignace Wednesday at 7:30 a.m. Saturday at 2:00 p.m. BETWEEN DETROIT and CLEVELAND Daily at 10:30 p.m.

Through tickets sold to all points. Baggage checked through to destination. Ask your agent for tickets reading D. & C. N. Co. Write for illustrated pamphlet, by mail, 2c. A. A. SCHANTZ, Gen'l Pass. Agent, Detroit, Mich.

INTERNATIONAL LIVE STOCK EXPOSITION, Chicago, Ill., Nov. 29 to Dec. 6th. For the above occasion the D. S. S. & A. Ry. will sell tickets to Chicago, Ill., and return at rate of single fare plus \$2.00 for the round trip. Tickets will be on sale Dec. 1st, 2nd and 3rd and will be good for return passage up to and including the night train leaving Chicago, Dec. 8th, 1902. For further particulars apply to station and ticket agents, or to GEO. W. HIBBARD, Gen. Pass. Agent.

Eugene Field's Views on Ambition and Dyspepsia. "Dyspepsia," wrote Eugene Field, "often incapacitates a man for endeavor and sometimes extinguishes the fire of ambition." Though great despite his complaint Field suffered from indigestion all his life. A weak, tired stomach can't digest your food. It needs rest. You can only rest it by the use of a preparation like Kodol, which relieves it of work by digesting your food. Rest soon restores it to its normal tone. Strengthening, Satisfying, Evaporating. Prepared only by E. C. DeWitt & Co., Chicago. The 5¢ bottle contains 24 times the 10¢ size.

Kelley Island Lime. Kelley Island Lime is conceded by all users of lime to be one-half quicker slacking out and takes one-eighth more sand per barrel than any other brand of lime put upon the market. Each and every barrel is guaranteed as represented. Lehigh, Portland and Natural Cement, Fire Clay, Red Brick, Sewer and Tile Pipe, Gypsum Hard Wall Plaster, as cheap as Lime Mortar, \$11 per ton. Lake Shore sand-Calcine and Lead Plaster and Plastering Hair; also cedar posts and wood of all kinds, and general teaming of all kinds. Prompt delivery made on all material. GEO. E. FRENCH, Marquette, Mich.

DESERTED VILLAGE

IT IS FOUND UP-THE-SHORE NEAR LAKE INDEPENDENCE.

BIG BAY LUMBER CO.'S PLANT

THINGS HAVE BEEN AT A STAND-STILL FOR FEW MONTHS.

There Will Be No Lumbering Operations This Winter—Values of Timber Lands Have Largely Increased in the Past Few Years.

The Big Bay Lumber company, composed of lower Michigan men who became interested in the lumber industry in this section, a couple of years ago and who have big holdings of valuable timber in the vicinity of Lake Independence, has yet to make a real start with lumbering operations, although it has built a village and partly equipped its plant at Big Bay, at a cost of upwards of \$75,000.

The village comprises many buildings of more or less pretension, but travelers from the Big Bay country report that they are practically deserted, and that the plant lacks several important essentials, including the lumber mill. A shingle mill has been erected, but the prime requisite, the saw mill, has yet to be provided, and as yet there is no dock for handling the finished product.

There is more or less machinery and equipment at the village, including an electric light plant, but it is not assembled ready for use. In fact visitors at the location report that the enterprise seems to be, for the time being, in rather chaotic condition.

Operations have practically been suspended at the village for the past several months, and no work is outlined for this winter, although the company has lots of standing timber waiting for the woodmen's axes.

There have been many inquiries from time to time in the city concerning the status of the Big Bay Lumber company's industry, and much regret has been expressed that it has not progressed more favorably, as it was hoped that by this time it would be a large employer of labor and producer of lumber, a result which, however, it is anticipated will be simply a question of time.

Values Have Largely Increased.

The timber holdings of the company, along with all other timber holdings in this county, have greatly increased in value since they were purchased a couple of years ago. Indeed, it is asserted that they are worth at least three times as much as when the southern Michigan men acquired them. They comprise little pine, but the hardwoods and other soft woods are well represented.

The increase in value of standing tim-

ber on the upper peninsula has been notable during the past few years. Lands that could have been brought for a song three, four and five years ago are now eagerly sought at what are, comparatively, fancy prices. Many holders stand to make nice winnings.

Everywhere the pine is pretty well lumbered off, and the increases in value come from a better understanding of the value of the hardwoods and prospective better markets for them, together with a realization that in the absence of pine it will soon be necessary to utilize the other soft woods, to which, as yet, little attention has been paid.

The country up-the-shore is heavily wooded, and is destined to be the scene of active lumbering operations. It was expected that the Big Bay company would be the pioneer in the field, and this may yet be the case, although there is a likelihood of other lumbering industries within a comparatively short time.

"THE COUNTY FAIR" TONIGHT.

It is the Bill Announced for the Marquette Opera House.

"The County Fair" will be presented at the opera house this evening, with Neil Burgess as Abigail Prue. There have been very few men who have been successfully able to assume female characters. So many things combine to produce this result that it is difficult to point out a particular cause for the failure, excepting that it is difficult to imagine correctly the female voice without coupling to it a disposition to exaggerate. Neil Burgess as Abigail Prue, the New England spinster in "The County Fair" has met with a degree of success which not only makes his work creditable, but also entitles him to rank as a legitimate actor of decided ability. "The County Fair" in itself is a representation of New England life, into which is thrown all the eccentricities of the average New England man and woman, Neil Burgess, Abigail Prue, is a female of mature age, whose propensity for talk is pronounced and who, after many trying experiences, is married to the man of her choice. As incidents to the development of the story, there is introduced a milking scene with a live cow, and a grand climax, a life like horse race. The staging is admirable, especially of the barn scene in the third act, and the great race scene in the last act.

Makes people prick up their ears, makes people strenuous, puts one on tip-toes of expectation. That's what Rocky Mountain Tea will do. 35c. The Stafford Drug Co.

CITY BREVITIES.

Today's weather: Snow flurries. Variable winds probably shifting to fresh southerly.

Mrs. S. L. Crocker has gone to Houghton for a two weeks' visit with friends.

The steamers Falcon and Andaste are in port with soft coal for the L. S. & I. road.

A special meeting of Our Lady of Victory court of the W. C. O. F. will be held this afternoon at 3 o'clock at Siegel's hall.

A special meeting of the Marquette Light Infantry will be held at the Casino

this evening at 7:15. The members are to assemble in citizens' clothes.

Miss Louise Dimebach has accepted a position in the Iron Mountain schools, and will assume charge of the first grade in the Ludington school at once.

The Northwestern railroad has sold some eight hundred acres of land in Turin township to the Wisconsin Lumber company, the consideration being \$88,000. The deed has just been recorded here.

The Pioneer, Chattanooga, Roman and Centurion took out ore for the lower lakes Saturday and yesterday. The arrivals were the Angeline, Kaliyuga, Grampan and Paisley.

Leo Geismar, superintendent of the state experimental farm at Chatham, was in the city yesterday, enroute home from Menominee county, where he has been conducting farmers' institutes for several days.

There was much favorable comment here Sunday on Chairman Fitch's plan for avoiding the necessity of issuing the new court house bonds. It is realized that it will effect a great saving, a result that will benefit the general tax payer, in the long run.

Friday the Lake Shore Engine works received a cablegram from a boat building firm in Copenhagen, Denmark, ordering two "Superior" engines for immediate shipment. The same firm purchased two engines early in the summer, and the assumption is that they have given such excellent satisfaction that it desires to install them in additional boats.

Yesterday being a fairly decent day, there was a considerable exodus of hunters to the neighboring woods, and many deer were brought to earth. The woods are still rather wet, but they are in good condition for hunting inasmuch as they are practically noiseless. It is reported that the deer are beginning to run again. The hunters are looking for an early snow.

A. J. Perrin of Duluth, who came down from the head of the lake Saturday, states that "The County Fair," which plays here tonight and which he witnessed both at Duluth and West Superior, is one of the best attractions seen in those cities in many months. The troupe played at Hancock's new theatre Saturday evening, and the Houghton Gazette, referring in yesterday's issue to the production, says "it was the hit of the season."

Saturday County Clerk Ross had issued a total of 1,020 deer licenses, six of them being issued to non-resident hunters. This beats last year's record by nearly 100 licenses, the total for last season being 1,530, including three non-resident licenses. The demand is by no means over yet and it is expected that the eighty licenses left of the clerk's second allotment will be disposed of before the season ends. Even if this is not the case, the sale has been large enough already to make this the greatest season for deer hunting in the county's history.

Great interest was manifested here Saturday afternoon in the football results. The score of the first half of the Michigan-College game was received early, and the figure of 10 to 0 in favor of the maize and blue was no more than was expected. The result at Minneapolis was rather a surprise, as local en-

thusiasts were inclined to think better of Wisconsin's chances. However, they are disposed to rejoice, as the outcome serves to prolong interest in the football season, making, as it does, the Thanksgiving day game the crucial contest.

WHAT TO DO UNTIL THE DOCTOR ARRIVES.

"One of my children was taken with cramp colic and suffered severely," says S. B. Elze, of Monett, Mo. "I telephoned for a doctor, then gave a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and a few minutes later a second dose. Before the doctor came the child was relieved." For sale by The Stafford Drug Co.

MARINE MATTERS.

Soo Canal Passages. Sault Ste. Marie, Nov. 16.—(Special.)—McDougall and whaleback, 12; Zenith City and whaleback, 1:20 a. m.; Pathfinder, Rome, Joliet, 5; Siberia, Zillah, Ogarta, Delaware, Kaliyuga, 7:20; Oregon, Foster, Vulcan, 8; J. F. Eddy, Pennington, 9; Brewer, 9:20; Vega, Continental, Holland, Albright, 10:40; Norwalk, C. A. Eddy, Genoa, Germanic, 2:20 p. m.; Warren, Keith, White and Fryant, 3:40; Pioneer, Chattanooga, Stewart, 4; Gould, 4:30; Rochester, 5; Turner, Maxwell, Buckhout, 5:30; Luzon, 6; Manhattan, 7; Nicholas, 9:40; Houghton and whaleback, 9.

THE GREATEST

Cloak and Millinery Sale

ever held in Marquette at the height of the season commences

Wednesday Morning at 9 O'clock

...and will last until every item is sold, at...

GRABOWER'S BIG STORE

OVER \$3,000 WORTH

—OF—

Ladies' Cloaks and Millinery

MILLINERY SAMPLES

CONSIST OF

Ostrich Plumes, Ostrich Tips,

WINGS, FANCY FEATHERS, ORNAMENTS, HATS OF EVERY DESCRIPTION, . . .

The Sample Lines of two of America's greatest houses. Mr. McCoy, representing Printz, Biederman & Co., manufacturers of Cloaks and Suits, and Mr. Keenan, representing Reed Bros. & Co., importers and jobbers of Millinery, Cleveland, sold us their entire sample lines of

Ladies' Monte Carlos, Top Coats, Children's Coats, Ladies' Suits, Dress Skirts and Walking Skirts

and many Fancy Articles that we cannot mention here. We shall include our entire stock of trimmed and untrimmed Hats in this mammoth sale. The entire stock has been bought at about one-half its original value for cash, and we intend to give the people the benefit of our purchase. Consequently it means for you to buy these goods at about one-half their original value.

WE POINT WITH PRIDE

to this sale, the greatest and grandest harvest of money-saving opportunities ever offered to the people of Marquette and vicinity. We have made our business grow, owing to the great values given here, but this week all records will be broken.

Remember, this sale commences Wednesday morning at 9 o'clock. Come in the morning, if possible, for the afternoon jam will be great.

The people of the entire county should flock to our store this week, as the saving on goods purchased from us will be great.

LOUIS GRABOWER, MGR.

REMARKABLE CLOAK DEPARTMENT.

The Assortment is Unequaled—Dependable Values.

After weeks of selling and daily receipts of **NEW GARMENTS**, we have today brought together and have in stock a most wonderful collection of **LADIES' OUTER GARMENTS**, fully double any other showing in the county.

Ask yourself "Does it pay to buy **Dependable Cloaks**? Is it worth while to buy only such garments as are Man Tailored and made from the best material? Is there any satisfaction in knowing that your Cloak or Suit will always look well no matter how long you wear them? Is there any pleasure in knowing that your Wrap is the latest and best style the market affords? Do you care if the Lining wears out in a month? Do you expect to get more than your money's worth?"

All these points are where we strive to win the patronage of a discerning public; it takes time to build up a large trade upon these lines but it will win in the end. We combine a thorough knowledge of values with our action in going twice a year to the Fountain head of supply of all that is best in Merchandising, we buy of whom and where we find the best styles and values, we are not tied up to any one house, but buy where our money will go the farthest.

Remember we have every article marked in plain figures, and we have but one price to all. Many merchants mark their goods in characters known to no one but themselves; they can then charge you whatever they wish and oftentimes as many different prices on the same article as they have customers, or will give you a discount if they think that will work best, but remember in the end you will be paying as much as you would to a store that does business open and frank and has its goods marked at one price and in plain figures.

If a merchant can change his prices when do you know that you are getting them at the **RIGHT** price? Better trade where there is no question.

If You Are Wanting to Buy a Cloak or Tailor Made Suit Look Everywhere but do not buy until you have looked through our stock; we will gladly show you and you need feel under no obligations to buy of us unless you wish to, but usually when buyers look through our line they buy or come back after seeing other lines. You owe it to yourself and to us to compare prices and qualities.

IT PAYS TO BUY GOOD GOODS—THEY COST BUT LITTLE MORE.

Just received, a New Lot of Walking Skirts, Extra Value at - - - \$ 5.00
Misses or Young Ladies' Norfolk Jacket, unequalled at - - - \$17.50
Tans, Browns, Castors, Oxblood, Greens and Blues.

NOTE—We have engaged Mrs. Rose O'Donnell to take charge of our Art Department. She will assume charge of her new position this morning. An interesting feature will be free instructions daily in Art Embroidery.

A. T. VAN ALSTYN DRY GOODS COMPANY.
