HOUSE VOTES FUND

\$50,000 APPROPRIATED FOR THE COAL STRIKE COMMISSION.

ROOSEVELT'S ACTION COMMENDED

HIGH TRIBUTE ALSO PAID TO PRESIDENT JOHN MITCHELL.

B-1 Giving Statehood to Oklahoma is Introduced in the Senate, as is a Measure Putting the Philippines on a Gold Basis.

Washington, Dec. 3.—The house today passed the bill to appropriate \$50,000 to defray the expenses of the anthracite coal strike commission and adjourned until Friday, when the London dock charge bill will be considered.

There were two hours' discussion on the commission bill, during which the president's course in creating the commission was highly commended except by Mr. Burton of Missouri, a Democrat, who contended that the commission was created without authority of law. There was some criticism of the feature of the bill allowing double salaries to the members of the commission now in the government employ, and also because the bill left the amount of compensation of the members to the president. But all amendments were voted down. The bill was passed without division.

During the discussion of the strike commission bill, Mr. McDermott of New Jersey pointed out the fact that the commission has no power behind it. He thought the commission should be given power to make the investigation and should report its findings to congress. Mr. Cannon said that if the president's action had been without authority of law or constitution, it had been taken in response to an overwhelming public sentiment coming up from the whole country of eighty million people which begets action for the express purpose of its representation larger than the Constitution.

Mr. Griffith of Indiana offered an amendment to provide for the payment of the expenses of John Mitchell, president of the United Mine Workers. He extolled the services of Mitchell in bringing the strike to an end. Mr. Cannon paid a high tribute to Mitchell, who, he said, was a fellow citizen of Illinois, but said he did not believe Mitchell would endorse such a "cheap John" proposition. The amendment was voted down. The bill was then passed without division, although there were several dissenting voices on the Democratic side. Adjournment was taken until Friday.

Senate Proceedings.

The senate began the real work today of disposing of the business before it, although the session lasted only an hour and a half. When adjournment was taken out of respect to the memory of Representative DeLoach of Michigan and Senator of Texas, a bill to amend the immigration laws was under discussion.

Early in the day, Senator Nelson, from the committee on territories, reported a substitute for the omnibus statehood bill with the recommendation that Oklahoma and the Indian territory be admitted into the union as one state under the name of Oklahoma, the claims of New Mexico and Arizona being ignored. When the immigration bill was brought up, Senator Quay precipitated a discussion over the status of the statehood bill, which was terminated by a ruling from the chair that, beginning on Dec. 10, it would be unfinished business and that at the closing hour each day it would be laid before the senate unless displaced by the vote of that body. The Alabama, which was introduced a bill to regulate the currency in the Philippines, establishing it on a gold basis.

AT WORK ON ANTI-TRUST BILLS.

Sub-Committee of the House Takes Up Consideration of the Measures.

Washington, Dec. 3.—The sub-committee of the house judiciary committee, consisting of Representatives Littlefield of Maine, Thomas of Iowa and Clayton of Alabama, today introduced a bill to anti-trust bills, devoted several hours today to consideration of the measures. One of the bills before the committee proposes an amendment to the Sherman anti-trust law and another provides for publicity. Considerable attention was devoted today to consideration of the latter. This bill requires all corporations engaged in interstate commerce to file returns with the government authorities disclosing their true financial condition and amount of the capital stock, and imposes a tax upon such as have outstanding capital stock unpaid in whole or in part.

At the request of the Spanish-American War Nurses' association, in session here, Senator Gallinger today introduced a bill to establish a corps of trained women nurses in the navy.

Wants Light on Guatemala Tragedy.

Representative William Alden Smith of Michigan presented a resolution today calling upon the secretary of state for information relative to the shooting of William Fitzgerald by Godfrey Hunter, Jr., son of Minister Hunter, at Guatemala City, Guatemala.

PRAISE FOR THE MESSAGE.

Roosevelt's Communication Excites Much Favorable Comment in Mexico.

Mexico City, Dec. 3.—President Roosevelt's message, printed here in full today, excited much favorable comment. It is regarded as an especially strong and frank document. The Herald says the message is unusual and that much of it will be quoted in after years, "for

Roosevelt do not happen along every half century. It is considered a typical American message, and the Mexican papers say no ruler in the old world could have fittingly used such words of confident forefines, except the German emperor or a man of like temperament.

COUNTERFEITERS CAUGHT.

Men Who Have Been Making Silver Dollars Arrested at Detroit.

Detroit, Dec. 3.—United States secret service men today arrested Frank MeTague, Henry E. Buzenbark and Neil Huard, on the charge of counterfeiting. The officers claim they caught Buzenbark and Huard working with the molds. It is said thousands of dollars' worth of spurious silver dollars have been circulated in the neighborhood of Detroit. Thirteen complete sets of moulds for silver dollars were found on the premises.

RECIPROCITY WITH CUBA.

Correspondent at Havana Cables Treaty Will be Signed Today.

London, Dec. 3.—According to the Times correspondent at Havana, a reciprocity treaty between the United States and Cuba will be signed tomorrow (Friday). The United States, says the correspondent, will reduce the duties on Cuban imports by 20 per cent, while the Cuban duties on American products will be reduced 20 to 25 per cent.

MINERS ARE HEARD

COAL STRIKE COMMISSION RESUMES ITS SESSIONS.

MITCHELL AND OTHERS TESTIFY

PROCEEDINGS DRAG AND INVESTIGATORS GROW RESTLESS.

Renewed Efforts to Reach an Outside Agreement Are Urged by Chairman Gray, Who Declares the Inquiry Promises Last Indefinitely.

Scranton, Pa., Dec. 3.—The hearing of the miners' side of the controversy was resumed before the anthracite coal strike commission this morning. The usual large crowd was in attendance. On the outside agreement proposition, Chairman Gray announced that the commission still entertained hope the efforts to agree would continue and that the commission would gladly lend its good offices to that end. He said that the two miners testified with reference to the wages paid and the working conditions at the collieries of Cox & Bros & Co., and independent concern, and the woman, whose husband is employed in the Cox mines, told a general story of poverty.

What Increased Wages Mean.

President Mitchell was called to the stand, and in answer to questions said a 20 per cent increase in wages would increase the labor cost less than ten cents per ton. Taking President Baer's statement as a basis, he said the increase would be about seventeen cents a ton.

The proceedings were of a desultory character. Besides Mitchell, the witnesses included two photographers, two practical miners, one of them a Hunarian, and the wife of a German miner. The photographers produced about half a hundred photographs of homes of miners in the Hazleton region, which territory was under investigation today. The two miners testified with reference to the wages paid and the working conditions at the collieries of Cox & Bros & Co., and independent concern, and the woman, whose husband is employed in the Cox mines, told a general story of poverty.

Much Interest in Due Bills.

The commissioners were at times impatient at the way the proceedings dragged, but they eagerly seized upon the due bills handed up by the Hungarian witness. Every member of the commission examined these and had questions to ask about them. One of the commissioners said today it was principally a question of wages, and that they wanted these facts as quickly as they can get them.

CATTLE EPIDEMIC IS SERIOUS.

Thousands of Animals in the Affected Herds in New England.

Washington, Dec. 3.—Dr. Salmon, chief of the bureau of animal industry, who is in New England directing the work of stamping out the foot and mouth epidemic, reports the situation very serious and that there are about three thousand cattle in herds known to be affected. New cases are constantly being found.

Providence, R. I., Dec. 3.—The spread of the foot and mouth disease among the cattle in this state is becoming alarming. Thirty-seven cattle on two farms in North Providence and Lincoln were found to be affected today. Two men attending these herds have the disease.

Conditional Exports Allowed.

Boston, Dec. 3.—Shipments of cattle may be made to Great Britain from Portland, Me., while the foot and mouth disease is being fought in New England. A cablegram from England today stated that the British government will allow cattle loaded at Portland to be landed in Great Britain if they can be got on board the ship without passing through an affected district.

CREW OF THE ALOHA IS SAFE.

Missing Schooner Is Picked Up on the Lake and Towed to Port.

Detroit, Mich., Dec. 3.—A special press dispatch states that a report from Michipicoten announces the safety of the crew of the schooner Aloha, given up for lost with all on board. The Aloha was found afloat on the lake by the steamer Ossifrage and towed to Gargangua, Ont.

OPPOSED TO THE ARMY CANTEN.

Washington, Dec. 3.—A resolution offered at the meeting of the Spanish-American War Nurses' association today, declaring in favor of the re-establishment of the army canteen, was voted down.

MILLIONAIRE GOES FREE.

Verdict of Not Guilty Ordered in St. Louis Bribery Case.

St. Louis, Dec. 3.—Henry Nicolaus, the millionaire brewer on trial on the charge of bribery in connection with the passage of the suburban bill in the city council, was today acquitted under instructions from Judge Ryan, who sustained the defense's demurrer to the state's case and ordered a verdict of not guilty.

Charles F. Kelly, former member of the house of delegates, arrived this afternoon in charge of detectives from Philadelphia, and accompanied by his wife. He gave bond for \$30,000 and he and his wife went to their home.

FAVORS NEW NAME FOR CHURCH.

Springfield Diocese Votes to Discard the Title of "Protestant Episcopal."

Springfield, Ill., Dec. 3.—After a spirited fight, the synod of the diocese of Springfield this afternoon, following the suggestions of Bishop Seymour, voted in favor of recommending to the joint committee of the general convention appointed to receive suggestions that the name of the church be changed from "Protestant Episcopal" to the American Catholic church. The vote of the clergy was 25 in favor and 5 against; the lay vote was 12 in favor and 10 against. This is the first diocese to act on this question.

Horrible Fate for Three.

Huge Ladle of Molten Iron Spills Its Contents on Heads of Men.

Sharon, Pa., Dec. 3.—Two men are dead, two are not expected to recover and one is in serious condition as a result of one of the worst accidents in the history of the South Sharon works of the Union Steel company. The dead were: Evan Roberts, arms, legs and head burned off, only the trunk remaining; John Burbon, burned about head and body. The fatally injured is Edward Lear, burned about the body and limbs. Others injured are: James Lloyd, open heart, superintendent, burned about head and hands; Thomas Ryley, hose bricklayer, burned about the body and hands. Shortly before noon one of the ladles conveying forty tons of molten iron started on its way on a traveling crane over the open hearth furnaces. The great vessel moved slowly until, when just overhead of the workmen who were awaiting the disposition of the metal, it tilted violently and emptied a portion of the contents directly upon the heads of the men below. Evan Roberts received the greater portion of the fiery deluge and hardly any semblance of a human being was left. Only the trunk of the man was found.

HEAVY SNOW IN WISCONSIN.

Worst Storm in Years Experienced in West Portion of State.

Milwaukee, Dec. 3.—Belated reports of a heavy snow storm in the western part of Wisconsin are coming in tonight. Railroad freight traffic was seriously hampered all day on account of the protracted condition of the telegraph wires.

Dodgeville, Wis., Dec. 3.—Today's is the worst snow storm in many years. Traffic is suspended. The snow is two feet deep and badly drifted and it is still snowing.

Baraboo, Wis., Dec. 3.—One of the worst blizzards in six years continued all night. Over a foot of snow fell. Like reports come from Dartford, Mayville and other points.

A Blizzard in Nebraska.

Lincoln, Dec. 3.—Nebraska was storm swept today. From every direction come reports of a heavy snow fall, high wind and lower temperature. In north and northwestern Nebraska the storm was most severe. A furious blizzard has been raging all over northern Nebraska today and shows no sign of abatement. The air is full of driving snow, and if extreme cold follows stock will suffer. Trains are behind time, but traffic is not seriously interrupted.

Snow in the Southwest.

Kansas City, Dec. 3.—Snow fell today in central Kansas and portions of Oklahoma, accompanied by a sudden drop in temperature. Stock generally is reported in good condition and it is not believed that loss from freezing will result.

MARRIAGE OFFENDS THE KAISER.

Uncle of Czar Dismissed from Honorary Command of German Regiment.

Berlin, Dec. 3.—The Russian Grand Duke Paul Alexandovitch, uncle of the czar, has been dismissed by Emperor William from the honorary coloncy of the cuirassier regiment stationed at Brandenburg because of his recent marriage to Baroness Pistoloff, who obtained a divorce from her husband in order to marry the grand duke. For his marriage to the baroness, Grand Duke Alexandovitch was dismissed from the Russian army. The czar has telegraphed Emperor William his acceptance of the vacant post.

IS CONVICTED OF PERJURY.

Eldorado, Kas., Dec. 3.—The jury today convicted J. C. Brownfield, the principal witness for the defense in the case of Jessie Morrison for the murder of Mrs. Olin Castle, who was charged with perjury. The penalty is not less than seven years in the penitentiary.

DISASTER AT DOCK

OIL TANK EXPLODES IN STEAMER AT SAN FRANCISCO.

A DOZEN MEN ARE MISSING

OTHERS ARE INJURED AND PROPERTY LOSS IS \$200,000.

Sixty Persons on Board the Craft at Time of the Accident—Are Hurlled About or Thrown Into the Water While Fire Destroys Ship.

San Francisco, Dec. 3.—While the steamer Progresso was lying at a wharf today, an explosion occurred. As a result twelve men are missing. A score of others were more or less seriously injured, and property to the value of \$200,000 was destroyed.

The missing are: First Assistant Engineer Sparks, John Rex, Charles Glenn, Howard Dowe, James Cavatt, Dan Gallagher, Joseph Maguire, F. Nelson, C. C. McGregor, Jack Strand, Harry Small and Jack Ashton. Sixty persons were aboard when the disaster occurred. A force of mechanics was changing the vessel to an oil-burning oil carrier, when one of the oil tanks blew up. Men were hurled against the steel wall and a sheet of flame swept into their faces. On the upper deck men were hurled into the air or thrown into the water. Three sailors washing paint outside the pilot house disappeared as a cloud of black smoke came up from the ship, and were seen no more.

Following the explosion the ship sagged in the center, showing she had broken in two. A stream of burning oil, running from the tanks, spread out until the ship lay on waves of fire and there was fire nearly all below deck. Fourteen oil tanks, containing about four hundred barrels of oil in all, continued to burn fiercely for hours after the explosion. Later—Harry Small has been accounted for.

Horrible Fate for Three.

Huge Ladle of Molten Iron Spills Its Contents on Heads of Men.

Sharon, Pa., Dec. 3.—Two men are dead, two are not expected to recover and one is in serious condition as a result of one of the worst accidents in the history of the South Sharon works of the Union Steel company. The dead were: Evan Roberts, arms, legs and head burned off, only the trunk remaining; John Burbon, burned about head and body. The fatally injured is Edward Lear, burned about the body and limbs. Mitch is an almost infallible sign of good health. A sick woman may force a smile or at times be moved to laughter. But when a woman is bubbling over with mirth and merriment she is surely a well woman.

Dr. Pierce's Favorite Prescription has made thousands of melancholy and miserable women cheerful and happy, by curing the painful womanly diseases which undermine a woman's health and strength.

It takes great pleasure in recommending Dr. Pierce's Favorite Prescription for female weakness, writes Mrs. Sarah Permal of Mack Store, Shelby Co., Texas. "I was troubled with bearing-down pains in my back and hips for six weeks, and I wrote to doctor Pierce for advice. I tried his Favorite Prescription and in a few bottles cured me of my ailment. Life is a burden to any one without health. I have told great many of my friends about the great medicine I took."

Accept no substitute for "Favorite Prescription." There is nothing "just as good."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Kelley Island Lime. Kelley Island Lime is conceded by all users of lime to be one-half quicker slacking out than any other brand of lime put upon the market.

The London papers are disappointed with the president's message; disappointed at its statesmanlike tone and eminent conservatism. They rather looked for red fire and sensation, and they would not have greatly cared if Mr. Roosevelt had made himself ridiculous in gratifying their expectations.

The presentation by the department and prominent navy officers, of the menace to the naval service found in the present scarcity of officers and the inadequate provisions for supplying them, has apparently made a deep impression on congress, and it is believed that during the present session some measure will be approved that in time will provide a full complement of trained officers for our ships.

The news of the escape of the crew of the steamer Hebard was received with great satisfaction, as it seemed certain that all the men had been lost, and indeed they reached land by the narrowest chance and only through the indomitable courage of the men who carried the line to shore. The Hebard, however, is a total loss and its destruction must go to swell the total of marine losses for the season of 1902.

Representative-elect John Greusel is going to make a record for himself at Lansing. He is a newspaper man who for forty years has attended the sessions of the state senate. He knows every nook and cranny of Lansing, and every crook and turn in legislative work.

That part of President Roosevelt's message which treats of trusts and monopolies is probably disappointing to the extreme opinion of the new industrial movement, but it is no less reassuring to that vast section of the population which is pleased with our present prosperity and wishes it to continue.

Conservatism is the keynote of the president's reference to trusts and their demonstrable evils. He argues, justly, that industrial progress, as well as national prosperity, is involved in the safety of these combinations to a superlative degree, and asserts that the only feasible remedy is a powerful federal control which shall eliminate dangerous watering of stocks, special privileges calculated to curtail competition and other similarly momentous evils.

No Gripe, Pain. Or discomfort, no irritation of the intestines—but gentle, prompt, thorough healthful cleansing when you take Hood's Pills.

THE SUPERIOR TRUST COMPANY, HANCOCK, MICH. CAPITAL \$150,000. SURPLUS \$30,000.

THE SUPERIOR SAVINGS BANK, HANCOCK, MICH. Capital \$50,000. Surplus \$20,000.

THE SUPERIOR TRUST COMPANY, HANCOCK, MICH. CAPITAL \$150,000. SURPLUS \$30,000.

practical means of combating the trusts, as if it were involved for this purpose, many of the greatest of the combinations would escape scotch free, while most of the evils of which there is general complaint, would go uncorrected.

The remainder of the message, which has the merit of being much shorter than presidential messages usually run, urges legislation to produce elasticity in our money system; discusses the respective rights of labor and capital; recommends again the creation of a department of commerce; urges reciprocity with Cuba and liberal treatment of the new republic; speaks of the benefit of an isthmian canal and the providing of an all-American Pacific cable; eulogizes the work of the army and endorses Secretary Root's recommendations, and commends the suggestions by the secretary of the navy, the postmaster general, the secretary of the interior and the secretary of agriculture, all of which have been given in the digests printed of their annual reports.

SOCIAL BENEFITS OF RAILROADS. Gwy Morrison Walker, in Leslie's Weekly, under the heading of "Labor's Debt to Railroads," gives many facts of great importance in connection with the world's transportation lines. The United States, of course, has not only a far larger railroad mileage than any other country, but it has a larger mileage in proportion to population.

The cost of transportation, too, is much lower in the United States than it is elsewhere. In 1900 it was a little less than 7 mills per ton per mile in this country, while it was nearly 2 cents in France and Germany, between 2 cents and 3 cents in England, Austria and Russia, 5 cents in Japan and 10 cents in China.

Railroads are growing in the United States faster than population, and every intelligent citizen knows their importance to the country. One of the reasons why commodities have been reduced in price to the consumer in the past score of years has been the decline in the cost of their transportation.

HOW'S THIS? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Proprietors, Toledo, O.

NOTICE. To the property owners, taxpayers and other persons interested in the following proposed improvement, to-wit: For the construction of a sewer in Bluff street.

Notice is hereby given that the specifications for the construction of an eight-inch tile sewer in Bluff street, from manhole in sewer in Fourth street to a point 25 feet east of the east line of Fifth street, with four-inch "Y" for lateral sewers, together with estimate on the expense of constructing said sewer and profile of the work to be done and district to be improved and assessed to pay the cost thereof, are now on file in the office of the city controller for public examination.

A MILLION VOICES. Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold had settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use Dr. King's New Discovery for Consumption.

MINING GOSSIP. Copper declined 1/2, 3d in London yesterday, closing easy in tons with 250, 10s for spot and 250, 10s, 3d for futures. At New York the market continued nominal, standard being quoted at 10 1/2 cents, Lake at 11.50 and electrolytic and casting at 11.37 1/2.

Excursion Rates for Conventions, Meetings, Etc. Michigan State Teachers Association, Saginaw, Mich., Dec. 29-31st, 1902. For the above occasion the D. S. S. & A. Ry., will sell tickets to Saginaw, Mich., and return at rate of single fare for the round trip.

MINING NEWS. A COMPACT WITH CALUMET.

Geo. L. Walker of the Opinion Amalgamated Will Bring It About. Geo. L. Walker, the well-known Boston copper authority, writes: "The fact that Amalgamated through the selling agency engaged in a campaign of destruction, the object of which is to drive the copper shares down to a point where they can be bought in at a fraction of ruling prices, is wholly wrong. Amalgamated's present fight is against Calumet & Hecla, and not against the former because of its unwillingness to enter into some kind of an equitable understanding as to the selling price of copper, and against the latter because of his dog-in-the-manger fight in the Butte camp."

Important meetings of Amalgamated interests have been held in New York this week, and there is reason to believe that Amalgamated's future policy is already marked out and fully understood by those who have in hand the work of putting it into execution.

At the Winona mine, which was the scene of so much activity during the years 1890 and 1900, operations have been greatly curtailed. At the period of maximum activity, there were upwards of 500 men employed in and about the mine, while now the entire payroll does not contain more than seventy names; and where work was being pushed simultaneously in four shafts, mining operations are at present confined to one only, No. 2. This has been the case for over a year, and consequently this shaft has attained a greater depth than any other on the property, although it was not the first to be sunk.

Both mining and exploration work are carried on at the Winona mine under several disadvantages, and the same may be said of the two immediate neighbors, the Wyandot and Elm River, which together with the Winona, constitute a group of mines lying in a district relatively unexplored geographically or mineralogically. Not only is the exact nature and trend of the underlying strata unfamiliar, but the acquisition of a more detailed knowledge regarding them is rendered an exceedingly difficult task; first, because of the anomalous contortions which occur everywhere throughout the region, making it almost an impossibility to follow a lodgeway even when it is fully located; and second, because of a phenomenally heavy overlying blanket of soil reaching at certain points a depth of almost 200 feet. This has necessitated the driving of sand pipes to great depths in order that the drills may be able to work on the ledge, and in many cases, this has been a laborious task of the most trying and discouraging character.

A MILLION VOICES. Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold had settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use Dr. King's New Discovery for Consumption.

MINING GOSSIP. Copper declined 1/2, 3d in London yesterday, closing easy in tons with 250, 10s for spot and 250, 10s, 3d for futures. At New York the market continued nominal, standard being quoted at 10 1/2 cents, Lake at 11.50 and electrolytic and casting at 11.37 1/2.

GOING INTO HOTEL BUSINESS. TESTIFIES IN HIS OWN BEHALF.

F. M. Sackrider Leases Two Floors of New Dec Block—Other Tenants.

The completion of the new Dec building, erected for James R. and Thomas S. Dee, on Sheldon street, Houghton, will see two business changes in Houghton and a new business enterprise started. It has been definitely settled as to who the tenants of the new block will be. James R. Dee announced yesterday that all that is holding back the completion of the building is the material for the interior construction. The structure should be ready for occupancy soon after the first of the year, as the delayed material will be shipped tomorrow. The large and convenient store room on the first floor will be occupied by the "One Price store," now located in the Sheldon-Dee building. Cavan & Co., the well-known confectioners, will remove to the store to be vacated by the One Price store, leaving their present stand in the Miller building. F. M. Sackrider, of the Houghton Board of Trade Cafe, will lease the entire second and third floors of the new Dec block. Harold Bros., who conducted a bowling alley in the basement of the structure before the superstructure was started last winter, still have the lease for the place but may not retain it. They are desirous of leaving Houghton and are now looking for another party to take over their lease. Mr. Sackrider, who will take the second and third floors of the building, intends to furnish the rooms for the purpose of renting them to the place in connection with the cafe. There are twelve rooms on each floor, and each will be handsomely furnished. Mr. Sackrider will fit them up with the best that money can buy and make the apartments as attractive as possible. His safe, up-to-date in every respect, is unequalled by any north of Chicago and he intends to keep the rooms on a par with it. Every two rooms are supplied with a bath. Each room will be wired for electric lights, telephones, and electric bells. A telephone exchange will be located in the office and an occupant of any of the rooms can telephone to any outside point over the long distance wire if he pleases without leaving the apartment. Each room will be steam heated. The building will be fire proof and it is doubtful whether any structure in copperland is more safe from fire than this one will be. Mr. Dee in all of his buildings has been careful to provide for danger from fire and he has not overlooked it in his new structure. Work on the building will go ahead slowly until the material for the interior construction arrives. The plumbing and most of the wiring is completed. The heat for the structure will be supplied by the Dee central plant.

GRADING NEARLY FINISHED.

The last piece of grading on the Copper Range road extension from Houghton to Lake Linden and Calumet, that between Hancock and Dollar Bay, will be finished by Carl Hall in three weeks. Mr. Hall is working a large force of men on a sub-contract from C. J. Johnson, Martinson & Jackson, who were grading near Mason, have completed their work. Mr. Jackson has taken a contract to log near Mass City for Richard Francis, the Ontonagon operator, and he will remove his outfit to that place. Most of the men who worked with him on the Copper Range extension will go in the woods for him.

Bodily pain loses its terror if you've a bottle of Dr. Thomas' Electric Oil in the house. Instant relief in cases of burns, cuts, sprains, accidents of any sort.

Messrs. Norton and Fawley own a large amount of standing timber in Ontonagon county, enough to keep a good-sized mill running for a number of years, and they are constantly adding to their holdings. Mr. Norton owns about 40,000,000 feet of pine on the Baltimore and East branch of the Ontonagon, besides other smaller tracts. He purchased recently from the Wilmont Mining company the mixed timber on 3,500 acres in the Porcupine mountain district. The pine was disposed of previously. Ontonagon will be greatly benefited by the erection of the new plant. There is timber enough to keep the mill in operation for at least twenty-five or thirty years.

HISTORIC SCHOOLHOUSE.

Pythians May Buy Structure at Eagle Harbor Where Order Was Born.

In Eagle Harbor, an obscure and almost deserted hamlet in Keweenaw county, stands the schoolhouse in which the Knights of Pythias fraternity was born. The old building is rapidly falling into decay, and a few Pythians are endeavoring to start a movement to have it preserved and converted into a museum for relics of the order, says W. R. Wright in the Chicago Inter Ocean.

This little old-fashioned schoolhouse, with its battered cupola and crumbling chimney, cannot much longer stand, unless the fraternity takes steps to guard it. Belle hunters, knowing the history of the order and of its founder, Justus H. Rathbone, are desirous of having the log cabin carrying away pieces of lumber torn from it. The Pythians who are urging the preservation of the building want immediate steps taken to prevent the curious from despoiling it further.

Made Town Historical.

To the tens of thousands of members of the order the little schoolhouse is sacred. They do not wish to see it removed from its surroundings, which mean as much to the order as does the building itself. But, on the other hand, there are none who would not gladly see the schoolhouse preserved. If the order is to be preserved, it is essential that it be kept in its original form. The inhabitants of Eagle Harbor want the building to remain as it was when it was first built. The order that made the town historical is the one that is now the Pythian ritual in the schoolhouse where he taught. Then there were more than 1,000 people here, and even today the village has a population of 300. The schoolhouse is now owned by the village is almost deserted. In the '50s the town flourished. Ten saloons and as many stores prospered on the trade of the Keweenaw coast of the Keweenaw peninsula. The village was young then. The first settlement was made by Charles Kunze in 1847. John and E. Foley and the Bawdens came in the same year. W. P. Ray's store was the first one to be built. It was taken charge of the first dock and warehouse in 1847, and in 1849 James Bawden built the first hotel. Seven years later George Griswold founded the Keweenaw Times, which flourished a brief period, and died at a tender age.

Arrival of Rathbone.

Justus H. Rathbone had heard of this growing town, and he came here in 1857 to take charge of the village school. He was a highly educated young man, eight years of age when he came to the United States. He had been to Deerfield, Oneida county, New York, he had gone to Mount Vernon boarding school, thence to Cortland academy, later to Carlisle seminary, and finally was graduated from Madison (New York) university. From the university he came direct to Eagle Harbor.

Rathbone was an amateur actor of no little ability, and while at Eagle Harbor was the active spirit in presenting a number of plays in the schoolhouse for the amusement of the copper miners. A number of the members of his little stock company are still living, and often repeat the stories Rathbone used to relate. They tell how, on the night of the first play, a favorite story of their leader regards a prank he played one evening when the company was to gather to rehearse "Hamlet." Rathbone placed in the doorway a lumby, which he called Hamlet's "and stepped aside, as he said, "to see what effect it would have upon the boarders."

While Rathbone presented a variety of plays his favorite was "Samson and Delilah." He was a perfect imitator of the character of the two that he determined to do all in his power to induce men to look to them as examples of purity and generosity. The result of his career in the schoolhouse of Pythias played upon others. A favorite story of their leader regards a prank he played one evening when the company was to gather to rehearse "Hamlet." Rathbone placed in the doorway a lumby, which he called Hamlet's "and stepped aside, as he said, "to see what effect it would have upon the boarders."

Founder's Name Revered.

But it is not because of this alone that the people of Eagle Harbor want to see the old schoolhouse guarded against destruction. The older inhabitants revere the founder's name and cherish their memories of the man who made his friends with all. He was a jovial, good-hearted fellow, always ready with a joke or a good story. In addition to his literary and dramatic talent he was a musician of rare accomplishments, which he displayed on several instruments skillfully, and for his rendition of ballads especially he is still remembered as the sweetest singer that ever lived in the copper country. Rathbone was unselfish of the principles taught by the ritual, which he formulated in the old schoolhouse at Eagle Harbor nearly half a century ago. The young man remained in Eagle Harbor until the outbreak of the Civil war in 1861. Then with others he formed a company of volunteers to join the First Michigan regiment at Detroit. The company was not accepted by the governor. The death of a young man's father in that year caused him to leave the Lake Superior region. He went to German-town, Pa., to visit his only sister, and while there received the appointment as chief clerk of the United States hospital at that place. He held that position until he entered the army, and was ordered to Washington for duty in the medical department.

Today not more than forty people live in Eagle Harbor. Here where the government spent \$200,000 on the harbor, the stores and houses and the little old schoolhouse where Justus H. Rathbone wrote the Pythian ritual, are going to decay. A few Pythians are interested in the building to have saved the one building which means so much to the fraternity. They will endeavor to interest the

WILL DOUBLE ITS CAPACITY.

Copper Range Coal Docks to Be Extended—Timber Coming from West.

C. J. Johnson, the Houghton contractor, who is to build an extension to the Copper Range coal docks at Houghton during the winter, has secured the required timber in the state of Washington. The material was shipped two weeks ago over the Northern Pacific and is due to arrive any day. The timber is the celebrated Washington fir, which, since the great scarcity of heavy timber in this section, has been used extensively here in bridge and dock construction. Mr. Johnson will start work on the dock contract just as soon as his work on the Copper Range extension from Houghton to Calumet and Lake Linden is completed. The dock is to be a mile long and a force of one hundred men or thereabouts will be put on. The dock is to be extended two hundred feet, which will double its capacity.

NEW INDUSTRY FOR ONTONAGON.

Saw Mill Plant Assured, With Prospects of Tannery and Paper Mill.

Negotiations are under way which are, the Herald declares, almost sure to result in the establishment of several new industries at Ontonagon. Of these, a large saw mill and a shingle mill are already assured. The conditions are favorable for landing the Michigan stump mill at Four Mile Rock, while there are two other industries—a tannery and a paper mill—in the range of possibilities, and if they are carried out, information neither one is as far off as some may imagine.

D. J. Norton and John Hawley are the promoters of the saw mill enterprise, and outside capital will probably be interested in the deal. Mr. Hawley has purchased of the Diamond Match company the west side mill site, a tract of fifty acres. It was occupied by the Diamond mill, which was burned in the fire of '96, since which time it has lain idle.

Messrs. Norton and Fawley own a large amount of standing timber in Ontonagon county, enough to keep a good-sized mill running for a number of years, and they are constantly adding to their holdings. Mr. Norton owns about 40,000,000 feet of pine on the Baltimore and East branch of the Ontonagon, besides other smaller tracts. He purchased recently from the Wilmont Mining company the mixed timber on 3,500 acres in the Porcupine mountain district. The pine was disposed of previously. EDWARD A. McCOPY, President, T. H. BOWLES, Mgr., Milwaukee, Wis.

supreme lodge and advise the purchase of the building. They would have the building placed in the hands of a local custodian and used as a Rathbone museum, where Pythian relics and historical documents pertaining to the order may be preserved. If the order will not buy the property and improve and repair it the interested Pythians will suggest that the building be taken to some central point and rebuilt. Liberty prison was taken to the village, the log cabin birthplaces of famous men are carried about and preserved, and the Rathbone schoolhouse could be taken from Eagle Harbor and made the shrine of Pythias elsewhere. But they claim it would be better to leave it where the surroundings lend added interest. Here Rathbone conceived the idea of the order, here he worked, and here the Pythians believe the building should stay. The old schoolhouse is now owned by the Charles Kunze estate and will soon be beyond reclamation, for the relic hunters have made it their prey. The number of pilgrims to Eagle Harbor is increasing annually, although the village is almost deserted. The whole town is going to ruin. If the old school building is preserved steps to that end must be taken soon.

WATER FAMINE AT RED JACKET.

A large part of the village of Red Jacket is without water, and the lack of it has created no end of trouble and inconvenience to enough of every ten people. It was found necessary to shut the water off Tuesday morning because of a break in the water main. The break in the main has been located and a trench is being dug to reach the pipe. The work is being done with difficulty, as the water keeps surging up even though a pump is in use. The water main burst several weeks ago, but the break was not discovered until the force with which the water came through the faucets was greatly weakened.

INITIATES A LARGE CLASS.

A resurrection of Hancock hive, L. O. T. M., took place yesterday afternoon. For an considerable time the hive has been inactive and little or nothing was done. A deputy was sent to Hancock to revive the life of the hive, and she has been very successful, a class of twenty-two candidates being initiated yesterday. From now on the ladies will endeavor to add to the growth of their branch of the order. There are two Macabee hives in Hancock, the other being Ingot hive.

JAMES MADISON HIS ANCESTOR.

A vagabond, who was picked up in a beastly state of intoxication, claimed he was a lineal descendant of James Madison, fourth president of the United States, upon being brought before Justice Jackson at Calumet the other day. He was sober enough when he made his little speech to the judge but the latter refused to swallow the story. The fellow was given a few hours to get out of town, and he got.

SAVED AT GRAVES DRINK.

"I know I would long ago have been in my grave," writes Mrs. S. H. Newry, of Deatur, Ala., "if it had not been for Electric Bitters. For three years I suffered untold agony from the worst forms of Indigestion, Waterbrash, Stomach and Bowel Dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily and have gained 25 pounds. For Indigestion, Loss of Appetite, Stomach, Liver and Kidney troubles Electric Bitters are a positive, guaranteed cure. Only 50c at Stafford's drug store.

CAUTION!

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1808 for the cure and treatment of Consumption and Throat and Lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe Coughs, Bronchitis, Croup—and especially for Consumption, when there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25 cent size has just been introduced this year. Regular size 75 cents. At Stafford Drug Co.

COPPERDOM BREVITIES.

"When We Were Twenty-One" will soon be presented at the Kerredge theatre, Hancock.

Rev. Mr. Shear, the new pastor of the Calumet Congregational church, will assume his duties Sunday.

It is again rumored that a new foundry will be built at Laurium and that several sites are being considered for the structure.

The Hancock barbers held a banquet at Joseph Neher's cafe on Quincy street last evening. Covers were laid for fifty. Joseph Wareham was toastmaster.

William J. Maturon of Detroit has arrived in Hancock to take charge of the St. Peter's and St. Paul's parochial school, which has recently been in charge of Rev. G. Traub.

Mistletoe Lodge, No. 274, Sons of St. George, of the Quincy location, has elected the following officers for the ensuing term of six months: Charles Roberts, president; Will Hosking, vice president;

Our aim is to wash clothes clean, iron shirts, collars and cuffs to your liking (we mean by that, polished or domestic finish) and generally to afford you the best satisfaction at prices commensurate with good work.

Needham Bros' Laundries, Marquette, Houghton and Ishpeming.

WOULD YOU INVEST \$125.00 TO MAKE \$10,000.00?

If so, buy Hidden Fortune Stock.

of Lead, South Dakota, at \$1.25 per share. The property is surrounded by the mines of the Homestake Company, whose stock shows a profit in keeping with the above. There is about \$200,000 worth of gold ore in over 200,000 per share, pays 50 cents per share per month in dividends, and has never missed a dividend for over 20 years. The Hidden Fortune stock should do as well. This company has upwards of \$10,000,000 in sight, and will be on a dividend paying basis just as soon as the new mill is completed, which will be some time next month. A carload of ore has just been shipped from the property, and there is no doubt that the stock will show a wonderful advance in the immediate future, as all the treasury stock will be sold at once. This investment is absolutely safe, as there is about \$200,000 worth of gold ore in sight for every share of the stock issued. The stock is fully paid for non-assessable. SEND FOR FREE Illustrated prospectus.

SECRETARY SHAW RECOMMENDS AN ELASTIC CURRENCY.

WOULD INCREASE BANK CIRCULATION

SEES NO HARM IN ISSUE BASED ON GENERAL CREDITS.

He Proposes Also an Express Provision for the Exchangeability of Gold and Silver—Figures on Foreign Trade and Federal Finances.

Washington, Dec. 3.—The annual report of the secretary of the treasury, presented to congress today, shows that the revenues of the government from all sources for the fiscal year ended June 30, 1902, were \$684,326,290. The expenditures were \$693,038,904, and the surplus \$91,287,375. Compared with the fiscal year 1901 the receipts decreased \$14,900,250 and the expenditures \$38,776,495.

Available Balance Largest in History. Inclusive of the gold reserve, the available balance on June 30, was \$362,187,361, the largest in the history of the department, for while these figures are exceeded by the records of 1879, the latter included in the account the silver held temporarily against called bonds. After allowing for subsidiary silver, silver bullion, and minor coin, not available for large payments, there remained in the treasury vaults Nov. 1 a fund of over \$56,000,000, which is slightly in excess of what is deemed a fair working balance. Both the receipts and the expenditures were in excess of the corresponding months in the year preceding.

The unparalleled volume of gold certificates outstanding is the result of the freedom with which they can be issued in consequence of the natural flow of gold from many sources into the treasury. They are issued against deposits of coin and are paid out for gold bullion and the obligations of the government. On June 27, they for the first time exceeded in volume the United States notes. The increase in the fiscal year was \$57,594,400, which was followed by another of \$16,099,000 in the next three months, bringing the total up to \$363,311,989.

Small Bills in Growing Demand. During the year ended Sept. 30, 1901, there was an addition of \$75,956,845 to the paper currency of \$20 and under, while only \$9,794,560 was added to the higher denominations. Inclusive of gold coin, the smaller denominations constituted over 80 per cent of the whole stock of money. In the next twelve months the increase of the smaller denominations was \$71,283,129, and of the higher only \$4,747,590, raising the total of the former to \$78,030,719. The demands of the people for notes of small denominations have surprised the closest students of the currency. In 1890 there were 37,965,830 pieces of government paper issued. Of this, \$15,680,000 was in paper, \$10,290,000 in gold, and the remainder in silver and minor coins. There is no record to show what has been returned.

National Bank Statistics. The number of national banks in active operation on Oct. 31, 1902, was 4,678, with authorized capital of \$713,435,695; bonds on deposit to secure circulation, \$438,352,670, and circulation outstanding secured by bonds \$335,783,189. The latest reports submitted under date of Sept. 15 show that 4,601, have individual deposits of \$3,200,278,803; United States deposits and deposits of United States disbursing officers, \$117,097,769 and \$6,846,033, respectively. Borrowed money, represented by notes and bills re-discounted and bills payable, aggregated \$33,900,888, or only 4.8 per cent of the capital stock. The total resources were \$6,112,928,212, the maximum amount reached in the history of the system. The loans and discounts were \$3,280,127,480.

The interest bearing debt outstanding at the close of business June 30, 1902, was \$351,070,240. Since then the department has purchased \$16,529,000 bonds for the sinking fund for the fiscal year 1903. The per capita supply of money outside the treasury Nov. 1, 1901, was \$28.72; Nov. 1, 1902, \$29.36.

Falling Off in Exports. The marked characteristics of the foreign commerce of the United States during the fiscal year ended June 30, 1902, were a decrease of \$109,045,590 in exports and an increase of \$89,129,783 in imports. The total exports of the year were \$1,281,719,401, of which \$1,355,481,361 was of domestic production; the total imports were \$903,320,948, making the excess of exports over imports \$478,398,453. The decrease in exports was chiefly due to the unusual home demand, to the shortage in the corn crop of 1901, and to a reduction in prices of certain great staples exported. The unusual demand of the home market for manufactures of iron and steel caused a reduction of \$187,095,758 in the domestic exports of iron and steel manufactures; the shortage in the corn supply, due to the drought of 1901, caused a reduction of \$67,361,669 in the value of corn and corn meal exported, and the fall of upwards of one cent per pound in the average price of cotton, as compared with 1901, resulted in a reduction of \$23,021,624 in the value of cotton exports, although the quantity exported in 1902 was greater than that of 1901.

Aside from these exceptional causes, the export figures of the year compare

favorably with those of preceding years. The increase in imports was chiefly due to an enlarged demand by manufacturers for raw materials for use in manufacturing, the increase in the imports of manufacturers' materials of all classes being \$69,782,221; and to this was added an increase of \$19,708,209 in articles manufactured ready for consumption, and \$11,659,750 in those included in the class of articles of voluntary use, luxuries, etc., while in articles of food there was a reduction of \$21,151,457. The increase of \$80,148,783 in imports has brought the total foreign figures of the year to a point higher than ever before, the total value of imports of 1902 being \$903,320,948, against \$866,400,922 in 1901, the highest record of preceding years.

Traffic With Insular Possessions. The receipts of merchandise from Porto Rico, Hawaii and the Philippines in 1902 were \$30,610,551, against \$20,252,563 in 1901, and total shipments to the islands in 1902 were \$34,977,914, against \$6,773,560 in 1901; while the exports to all Asia and Oceania including the Hawaiian Islands were \$117,202,118 in 1902, against \$61,927,678 in 1901. Thus the exports to the islands have increased more than four fold, and those to all Asia and Oceania nearly doubled since 1897, while the total exports have in the same time increased less than 50 per cent.

United States notes and treasury notes have been made redeemable by law in gold, but the present National Bank issue of \$380,000,000 is payable in lawful money, which includes silver worth 29 cents, and there are now outstanding 550,000,000 silver dollars worth 39 cents each in gold. The aggregate unrepaid flat at this time is there, had each bank maintained its limit of circulation. The banks could be required to redeem their circulation at reserve cities, and the government would never suffer injury or embarrassment as an insurer against ultimate loss. The lower tax suggested by anyone would far exceed any possible loss, and the government could assume responsibility to the people and still realize a profit. When thus guaranteed and primarily redeemed by the government at the expense of the bank of issue, currency in general assets, would be as acceptable and as secure as the present national bank notes based on specific assets.

"I doubt, however, the wisdom of making provision for the issuance of credit currency to the limit of what it would entail. No that I would fear unfortunate results, but in all financial legislation the greatest caution must be exercised lest the currency be suddenly and unduly inflated. A gradual increase in circulation is well-nigh imperative, but a sudden and unnecessary increase would be most unfortunate."

Opposed to Branch Banks. "I am not prepared at this time to recommend branch banks. Recent events confirm a previous opinion that the peculiar conditions of this country would not be conserved by such a policy. I think a far better course, for the present at least, would be to provide an elastic currency, available in every banking community and sufficient for the needs of that locality."

MOTHER GETS SON'S BODY. Nebraska Supreme Court Decides the Disposition of a Corpse.

Lincoln, Neb., Dec. 3.—The supreme court this evening rendered an opinion against Bishop Bonaeum and Mrs. G. S. Fitzgerald in the suit begun by Mrs. Catherine McInerney in Panell Hall tonight. During the lecture he dwelt at length on the reported adverse criticisms of labor unions by President Eliot, and particularly on his statement that "the modern strike is a good thing and the American hero." He thought President Eliot either did not mean what he said or did not grasp the importance of what he did say. Mr. Gompers said further that if the strike breaker is a hero, then all honest effort is wrong and the efforts of the whole world for social, industrial and religious liberty are wrong. "If President Eliot is right," said Gompers, "then Benedict Arnold was a patriot and Judas Iscariot a saint."

GALE SWEEPING BRITISH COAST. London, Dec. 3.—The gale continues around the northern coast of Great Britain, accompanied by a sudden fall in temperature. Several more shipping casualties resulting in some loss of life are reported.

ACTOR JOHNSTONE DYING. Philadelphia, Dec. 3.—Barry Johnstone, the actor who murdered Actress Kate Hassett Monday night and shot himself, is dying tonight. The physicians have given up hope. S. F. Beatty, representing Beckwith, husband of the actress, arrived here from Chicago tonight and took charge of Kate Hassett's body. He stated that Beckwith and the woman's father were prevented by business affairs from coming here.

A Tissue Builder, Strength Producer, Flesh Creator, Life Prolonger. Puts life and hope into the human heart. That's what Rocky Mountain Tea does. 35c. Stafford Drug Co.

great rapidly. The department exerted every influence within its authority to counteract this natural contraction. "Whenever there is a surplus of public funds in the treasury, and financial conditions make it advisable that it be released, it becomes necessary to purchase government bonds. At present there is no other way to accumulate surplus revenues promptly in circulation. The available bonds are not held by banks or by business concerns. So, whenever the government is a purchaser, the price is promptly advanced. Should the bonds falling due in the near future be permitted to mature, they can be extended at a very low rate of interest, payable on demand, and the holders thereof can no longer dictate prices to the government.

"Additional circulation will be necessary. Outstanding government bonds are inadequate to secure it even of their market value to justify their use by the banks. It is even doubtful if national bank currency based on government bonds can be made advantageous to banks. A lower tax on circulation would be counteracted very promptly by a corresponding advance in the price of bonds, and the profit would accrue to the present bondholders.

Circulation on General Credits. "I see no objection to the issuance of circulation based upon general credits, if properly safeguarded. Neither do I believe it necessary to make currency thus issued a first lien upon assets. A very small amount of circulation would be sufficient to cover any possible loss. The government actuary has demonstrated that a tax of one-eighth of one cent upon circulation, would have covered all loss from the beginning of our national banking system to the present time, had each bank maintained its limit of circulation. The banks could be required to redeem their circulation at reserve cities, and the government would never suffer injury or embarrassment as an insurer against ultimate loss. The lower tax suggested by anyone would far exceed any possible loss, and the government could assume responsibility to the people and still realize a profit. When thus guaranteed and primarily redeemed by the government at the expense of the bank of issue, currency in general assets, would be as acceptable and as secure as the present national bank notes based on specific assets.

"I doubt, however, the wisdom of making provision for the issuance of credit currency to the limit of what it would entail. No that I would fear unfortunate results, but in all financial legislation the greatest caution must be exercised lest the currency be suddenly and unduly inflated. A gradual increase in circulation is well-nigh imperative, but a sudden and unnecessary increase would be most unfortunate."

THE OLD RELIABLE ROYAL BAKING POWDER Absolutely Pure THERE IS NO SUBSTITUTE

MONEY MARKET TIGHTENS. Has Repressive Influence on Speculation and Stocks Are Dull and Lower.

New York, Dec. 3.—The prices of stocks were both above and below last night's level in today's market. The trading was in the hands of a smaller class of traders, and their operations showed increasing hesitation and uncertainty. There were occasional attempts on the part of speculative pools to put up prices, but any considerable advance met realizing sales of sufficient volume to check the rise. The pressure to sell was not at all urgent and showed relaxation at a lower level of prices.

There were no special features to the trading, although the recent speculative favorites maintained their prominence. These were the local tractions, St. Paul, Louisville, the Pacific, New York Central and several coalers. The advance in the price of refined sugar failed to diffuse the chief repressive influence on speculation was the tightening course of the money market. There was no money offered on call at less than 7 per cent at the opening. The rate subsequently declined as low as 6 per cent during the active period of the day and to be low that before the close. Time money was distinctly firmer, 6 per cent being quoted for all periods up to six months, with a commission demand for shorter periods which made the rate in some cases 7 per cent.

Range of Money Rates. Money on call, firm, at 3@7 per cent; closing at 4. Time money, strong, sixty days at 6 per cent, ninety at 6 and six months at 6. Prime mercantile paper, 6 per cent. Exchange, steady, demand at 487.20 and sixty days at 483.60. Bar silver, 47 1/2.

CUTS OFF ITS QUOTATIONS. Chicago Board of Trade Begins Fight Against the Open Board.

Chicago, Dec. 3.—This afternoon the Chicago Board of Trade commenced a fight against the open board by cutting off its quotations and causing all tickers in the open board of trade to be removed. The open board members doing business in Chicago were also deprived of their quotations. It is the intention to keep the quotations from the open board hereafter.

CHICAGO GRAIN MARKETS. Chicago, Dec. 3.—There was a fair trade in wheat today, although business was restricted by poor wire service. The feeling was rather mixed, but the market was the winner of the week, the close showing December up 3/8@1/2 and May 1/2 lower. A feature was the narrowing of the December-May spread, the former at one time selling within two cents of the latter. The opening was strong, on higher cables, decreased receipts, and unfavorable weather. Shorts were good buyers early, but when the demand from that source slackened, there was no other support to the market and a decline followed. A sudden advance in December helped the May delivery, but heavy realizing toward the end of the session caused a weak close. On the coast twenty-five boatsload were taken. Liverpool closed at 70 1/2; highest, 70 1/2; lowest, 75 1/2; closed, 75 1/2.

Corn was dull but higher early on increased receipts, extremely unfavorable weather throughout the entire corn belt, strong cables and a good cash demand. There was considerable realizing at the advance and a fair amount of short selling, causing the market to weaken. The bid decline in wheat also was a bear factor. December closed 3/8 lower and May 1/4@1/2 easier. Liverpool was 3/4 lower to 5/8 higher. May opened at 43 1/2; highest, 43 1/2; lowest, 43 1/2; closed, 43 1/2.

Oats were quiet, about the only feature being fair selling by commission houses. The market lacked the firmness which had prevailed for a few days and the tendency was toward a lower level. The heavy trade in other grains had a depressing effect. May opened at 32 1/2; highest, 32 1/2; lowest, 32 1/2; closed, 32 1/2.

The receipts and shipments were as follows: Receipts, Shipments. Flour, barrels, 29,000 18,000. Wheat, bushels, 128,000 107,000. Corn, bushels, 201,000 17,000. Oats, bushels, 400,000 311,000.

FORECAST OF THE WEATHER. Washington, Dec. 3.—The following is the weather bureau's forecast for Upper Michigan: Fair, continued cold Thursday; Friday fair, warmer; fresh north winds becoming variable.

NEW TRIAL FOR CALEB POWERS. Frankfort, Ky., Dec. 3.—The appellate court today awarded a new trial to Caleb Powers, convicted in the Gobel murder conspiracy and sentenced to life imprisonment.

IDENTIFIED BY MESSENGER. Men Jailed in Nebraska Said to Be the Burlington Train Robbers.

Lincoln, Neb., Dec. 3.—Three men arrested Monday as burglar suspects were tonight quite positively identified by Express Messenger Lupton as the men who held up the Burlington train near Lincoln last October. Two of the men give their names as Cramer and Standish. The third man refuses to give his name. The express messenger said he did not think he could be mistaken. Other members of the train crew will try to identify them tomorrow.

REWARD FOR FAITHFUL SERVICE. Atlantic Transport Company to Distribute \$50,000 Among Employees.

Baltimore, Dec. 3.—As reward for faithful service, Bernard N. Baker, former president of the Atlantic Transport company, now part of the International Mercantile Marine company, will distribute nearly half a million dollars among former employees. The distribution will affect about three hundred persons in New York, Philadelphia, Baltimore, Chicago, St. Louis and Minneapolis.

TRAIN IS WRECKED AND BURNS. Three Men Die in Fire Which Destroys Five Cars Near Chattanooga.

Chattanooga, Tenn., Dec. 3.—A passenger train on the Queen & Crescent line ran into a car blown onto the main track at Sunbright this morning. The train, express messenger and a negro tramp were cremated in a fire which destroyed the mail, baggage and express cars and two passenger coaches. No passengers were hurt. The dead trainmen were Frank Elliott, Freeman, and Richard Helm, express messenger. Seven others were hurt.

GIFT OF EMPEROR WILLIAM. Retiring Ambassador White Is Presented With a Handsome Vase.

Berlin, Dec. 3.—First Secretary Dodge has been gazetted as charge d'affaires of the United States embassy, and today had his first interview with the foreign office officials.

Mr. White, the retiring ambassador, has received Emperor William's present. It is a magnificent vase about three feet high with the emperor's portrait on one side and a representation of the old Schloss, Berlin, on the other. The only inscription is the imperial cipher.

Minister Jackson leaves Berlin Dec. 15 to take up his new post at Athens. He intended to go to Roumania and Serbia and thence to Athens, but the state department cabled him today, it is the desire to have him present at Athens on the occasion of King George's birthday on Dec. 24.

Ambassador Tower has written he will arrive here Dec. 10.

EDUCATION BILL PASSES. London, Dec. 3.—Commons passed the education bill today. Premier Balfour appealed to the public spirit of all classes to do their best to insure the working of the bill, for which, he said, no better alternative measure had been proposed. The bill was immediately sent to the house of lords, where in the presence of only three peers it was formally read for the first time.

CAPTAIN STREETER CONVICTED. Chicago, Dec. 3.—Captain Streeter, Henry Hoedtke and William McManahan, charged with the murder of John S. Kirk, were today convicted of manslaughter. The punishment is imprisonment in the penitentiary.

MEXICAN MONEY FOR UNCLE SAM. Mexico, City, Dec. 3.—Secretary of the Treasury Linnamontour has asked congress to authorize the payment of \$1,420,682, Mexican currency, to the United States and \$43,050 interest in accordance with the award of The Hague arbitration in the matter of the Pius fund.

QUICK DEFEAT FOR PETER MAHER. Philadelphia, Dec. 3.—"Kid" Carter of Brooklyn tonight knocked out Peter Maher of this city in the second round of what was to have been a six-round bout.

CARNEGIE SAILS FOR AMERICA. London, Dec. 3.—Andrew Carnegie and wife sailed for New York on the steamer Oceanic today.

There's nothing so bad for a cough as coughing! There's nothing so good for a cough as Ayer's Cherry Pectoral! A cough means a great deal to a young person, when there is a family history of weak lungs, with perhaps a case of consumption itself. Coughs weaken the tissues, congest the membranes, and prevent healing. Ayer's Cherry Pectoral controls the congestion and inflammation, and the cough disappears. Your doctor will explain, for we give all doctors the formula. J. C. Ayer Co., Lowell, Mass. "We have used Ayer's Cherry Pectoral in our family for over 25 years. For all lung troubles I am sure there is no medicine its equal."—Miss A. FOWLER, Appleton, Minn.

PREMIER SAGASTA GIVES IT UP. Madrid, Dec. 3.—Premier Sagasta has resigned. In presenting his resignation he informed the king that the opposition had treated him with distrust and discourtesy which was undeserved.

The difficulties confronting Senor Sagasta are so great it is expected he will also retire from the leadership of the Liberal party. It is understood the differences in the cabinet regarding the situation in Catalonia had much to do with the cabinet crisis. The demonstrations and disturbances continue at Barcelona and the university there has been closed.

REED'S ILLNESS SERIOUS. Washington, Dec. 3.—Former Speaker Reed's physician says he is more comfortable tonight. The physician says that all such cases must be regarded as serious, but added he could not say he saw any immediate danger to be apprehended. Reed's age, together with the fact he was not in good condition physically at the time he was taken sick, are understood to be the worse features of his case. Mrs. Reed and daughter have arrived from New York. Mr. Reed's trouble is appendicitis.

MEXICAN MONEY FOR UNCLE SAM. Mexico, City, Dec. 3.—Secretary of the Treasury Linnamontour has asked congress to authorize the payment of \$1,420,682, Mexican currency, to the United States and \$43,050 interest in accordance with the award of The Hague arbitration in the matter of the Pius fund.

QUICK DEFEAT FOR PETER MAHER. Philadelphia, Dec. 3.—"Kid" Carter of Brooklyn tonight knocked out Peter Maher of this city in the second round of what was to have been a six-round bout.

CARNEGIE SAILS FOR AMERICA. London, Dec. 3.—Andrew Carnegie and wife sailed for New York on the steamer Oceanic today.

HOTEL CLIFTON, MARQUETTE, MICH. Two Blocks From New D., S. S. & A. Depot. Rates \$2.00 and \$2.50 Per Day. DAN SULLIVAN Prop.

One Dollar Will Start Your Account IN THE SAVINGS DEPARTMENT OF THE FIRST NATIONAL BANK OF MARQUETTE. WE WANT AN ACCOUNT WITH EVERYONE IN THIS VICINITY. OFFICERS: PETER WHITE, President. L. G. KAUFMAN, Vice-Pres. CLAUDE W. CASE, Vice-Pres. EDW. S. BICE, Cashier. C. L. BRANARD, Ass't Cashier. S. B. CRARY, 2nd Ass't Cashier. DIRECTORS: PETER WHITE, S. R. KAUFMAN, N. M. KAUFMAN, L. G. BREWERS TO FIGHT

ARE STIRRED UP OVER JUDGE STONE'S RECENT DECISION.

WILL RAISE THE PRICE OF BEER

CONCERTED ACTION TO FIGHT COLLECTION OF BACK TAXES.

New Ruling Will Result in Change in Manner of Conducting Michigan Business—Number of Agencies Will Be Reduced.

It would appear that Judge Stone's now famous decision making breweries liable for a \$500 tax for each agency and depot maintained in Michigan is to result in extended litigation. It will be remembered that this decision was affirmed by the supreme court, and that it is now approved law in this commonwealth.

Some enterprising northern Michigan cities, Norway and Bessemer being examples, have seen in the decision an opportunity to fatten their treasuries at the expense of the brewers by going after the back license within the term specified in the statute of limitations, six years. It is claimed that the cities' cases are good, and that they have a first class chance of holding the brewers. In event of success at Norway or Bessemer similar actions would likely be instituted all over the state, and the brewers would stand to lose very heavily. Thus there need be little surprise at the news that they are going to fight the cases vigorously. Milwaukee, whose brewing firms are largely interested in the upper peninsula, is the seat of a concerted action against the collection of the back taxes. The Free Press of that city says in the connection:

There will be a concerted action on the part of Milwaukee brewers and the Western Shipping Brewers' association to fight the collection of back taxes at the rate of \$500 a year on each agency of the several companies in the state of Michigan. The Michigan supreme court has held valid the decision taxing each brewing agency, warehouse or depot in the state \$500 a year, and now several cities are beginning actions to recover back taxes within the statute of limitations, six years. Milwaukee brewing companies each have several agencies in the state and the sum of back taxes involved would in some cases reach large amounts.

Prepare to Fight Law.

The first action begun was that of the city of Bessemer against the Schlitz company. The company has maintained a depot there for the past two years and the city attorney thinks the city entitled to \$1,000 in consequence of the decision of the supreme court. Eugene Wunhoff, general manager of the Schlitz company, said recently:

"We have placed the matter in the hands of our attorneys and should they think that we have good grounds for contesting the collection of back taxes, we will fight the case in the courts and the supreme court of Michigan will be called upon to decide that point. Should as the taxation of the agencies. Should they think otherwise, we will pay the claims of the cities. Such action would not affect us to any great extent, however. We have but three or four agencies in Michigan, and none of them have for any great length of time. Therefore the amount we would have to pay could not be large. I have not heard from our attorneys yet, and do not know what they will decide to do. In regard to the tax of \$500 on each agency, we will simply withdraw from the smaller cities, as it would not pay us to maintain an agency under such conditions."

The Pabst company probably has more agencies than any other concern, yet it does not expect a great amount of trouble. "Their agencies, too, have been in operation but a short time, and it was stated that all but six have paid the taxes in full."

"Should any action be brought against these agencies the Pabst company will leave its defense in the hands of the Western Shipping Brewers' association," said Frederick Pabst, Jr. "We have a number of agencies, but most of them have been there but a short time and we expect but little trouble."

May Raise Price of Beer.

Ernest G. Miller of the Miller Brewing company will adopt vigorous methods of fighting the tax, as well as the collection of back taxes. "We will simply raise the price of our beer in Michigan," he said. "The consumers will have to suffer for the tax, as we cannot afford to. This company is not a member of the Western Shipping Brewers' association at the present time, and will fight its own suits should any be brought against it for the collection of back taxes in any city."

There are two agencies in Norway, but as far as is known they are not Milwaukee concerns. The city attorney has begun action there for the collection of back taxes which will amount to \$6,000 in all. At a meeting of the city council the question was raised whether back

taxes could be collected. It was referred to the city attorney, who has now reported that in his opinion the liability for a duly authorized tax is a debt, and as such the back tax can be collected within the statute of limitation. It is expected there that the brewers will contest the great action arising along the course which will be pursued by the other Milwaukee cities. Should there be any grounds for contention the Schlitz company will undoubtedly contest the case for the amount involved, for all the local companies would be large.

HARD FOR HORSES.

Five Horses Are Very Short-Lived—Not the Athletes They Seem.

The rush of a fire engine along the street is something that will cause even the most blasé citizen to stop and look. There is something inspiring in the sight of that great action, and the horses appear to be athletes of their kind and many stories have been written about them and the keen perception they have of their duties. It will surprise most persons to know that these horses are not athletes in the meaning that are always in condition and hard training, and also cause surprise that their lives are comparatively short. Jacob Durenberger, the superintendent of horses, who looks after the fire horses of the city of Buffalo, says that most of these fine-looking animals are soft as girls. The very confinement they have to undergo in being ready for a call at any moment takes them out of training, and when they are good for a short part they are never as hardened as the average old hack that is pecking around the streets all day in front of some sort of a delivery wagon. The very best horses obtainable are bought for the service and many are rejected after being a few days of training. Speaking of these animals, Supt. Durenberger said:

"It does not take long to teach the horses to discern just what is wanted of them, and many even get to know what will be expected of them. They are strong as they appear, and as they are, they are not the equine athletes many folks imagine. Down town they have many runs every month, and in the outlying districts the calls will not average a dozen in the same time. The animals in a suburban engine house have more chance for exercise than those in the heart of the city. The runs always are heart-breaking and it is queer that most of the animals first break down over the back. The big engines are very heavy, running into the thousands of pounds, and even with three horses pulling them it tells across the back in a very few years. That is how most of them go and when they are unfit for fire service they may yet be the most serviceable animals for lighter work."

"They know their business, and as far as a man can judge, take a great delight in making the runs when the gong taps. One horse will teach another, and two old timers with a new recruit will help him along and push him into place if he appears to be letting the excitement of the occasion get away with him. While the down-town runs are never very far, they are made at great speed, and the wrench, for instance, when a big engine slips from a car track is a greater strain on the horses than most people imagine. In the outlying districts the horses have much longer runs, but fewer of them, and generally the apparatus is lighter. But whether in the outlying districts or down town, all of these animals are in confinement."

"When they make a run they run hard, but they do not get enough exercise to keep their muscles hard, and they are flabby. For instance, they are taken out and ridden up and down the block for half an hour at a time, but that is scarcely as much exercise as a man in prison gets daily to keep him in any average condition. These horses have the hardest kind of pulling to do when they are called on for work and a very heavy existence in between. The result is that the strain of their pulls and runs breaks them across the back after they have been but a few years in the service. For instance, when a big engine fire horse that has been years in the service, but the chances are that he has been a giant among his kind, or that, although working in the department, he has been doing some other labor than pulling a big engine, I know that the general idea is that the fire department horses are the best athletes of their kind, but a little thinking over these facts convince any one that they are using up their vitality every time the gong is rung. Then, again, they often have to make long, cold waits when a big fire is actually in progress, and that is not good for them. If a horse is fairly intelligent he will learn his lesson in a very few days, and anything he learns he is prone to do and show off. Hence the seeming avidity of the engine horses to jump at the tap of the bell. There are horses who can tell almost before the harness has been snapped on them, whether the call is for their district or not, and the excitement will die away on them as soon as they know they will be returned to their stalls."—Buffalo Times.

Women love a clear, healthy complexion. Pure blood makes it. Burdock Blood Bitters makes pure blood.

BIG JUDGMENT AWARDED.

Kansas City, Dec. 3.—In the United States district court today, John B. Henderson, Jr., of Virginia, was given a judgment for \$551,000 against St. Clair county, Mo. The award represents the principal and interest paid for bonds issued by the county thirty years ago to build a railroad.

SAYS HE CAME TO KILL KING.

Madrid, Dec. 3.—Periz Pulgar has been arrested at Orense, armed with a dagger. He said he was an Argentine anarchist and had come to Spain to murder the king but had been unable to procure means of travel to Madrid. It is believed he is insane.

CALIFORNIA'S LARGE CLAIM.

Sacramento, Cal., Dec. 3.—W. D. Douglas, deputy state comptroller, has gone to Washington, where he will institute proceedings looking to the collection of \$4,420,881 due California by the United States for Rebellion war claims.

SUICIDE AT PHILADELPHIA.

Philadelphia, Dec. 3.—Howard T. Goodwin, treasurer of the banking and brokerage firm of Cassatt & Co., committed suicide tonight by shooting. He was found dead in the firm's office. No cause for the deed is known.

BAD BREAK IN LEVEE.

Shreveport, La., Dec. 3.—A break of over 100 feet wide in the levee near Belcher has been discovered. It is feared the entire district will be inundated and runners have been sent in every direction to warn settlers.

IshpeMING and its Environs.

HARD COAL AT \$8.50.
 The Consolidated Receives Consignment from Houghton.

Some people who have been shivering since the cold wave struck the city can derive some comfort and consolation by knowing that the empty coal bin will soon be filled. The Consolidated Lumber company has received a small consignment of anthracite from the copper country which will tide over the market till the supply from Marquette arrives here. The copper country coal will retail at \$8.50 which is considerable lower than many supposed. The early consignments would be sold for.

The Consolidated people are selling the coal at a very reasonable rate considering the expense and trouble they have taken to secure it. It was expected that they would not sell it for less than \$10.

THE PRIDE OF HEROES.

Many soldiers in the last war wrote to say that for scratches, bruises, Cuts, Wounds, Corns, Sore Feet and Stiff Joints, Bucklen's Arnica Salve is the best in the world. Same for Burns, Scalds, Boils, Ulcers, Skin Eruptions and Piles, or no pay. Only 25c at Stafford's drug store.

ISHPEMING IN BRIEF.

H. C. Work of Escanaba was here yesterday.

James McCutcheon left for Chicago Tuesday night.

H. F. Nickerson of Houghton was in the city yesterday.

F. A. Lavigne expects to leave soon for Escanaba where he has a position.

A marriage license has been granted to John Hendrickson and Miss Ellen M. Johnson.

Rev. Father J. M. Langan, formerly pastor of St. John's church, was here from Escanaba yesterday.

There were twelve deaths during the month of November. Eight was the record during the corresponding period last year.

Supervisor P. Lyons of IshpeMING township announces in this issue that taxes are due and payable at the Miners' National bank.

W. S. Nelson is in Chicago purchasing holiday goods for J. Sellwood & Co.'s dry goods store. He will be home before the end of this week.

John B. Roche is planning to give an athletic exhibition soon if he can secure the experts from outside whom he expects to assist in the exhibition.

The infant child of Andrew Polamaki, 119 North Third street, died yesterday morning. The funeral will be held from the residence this morning at 9 o'clock.

E. Folk, a Swedish missionary who has been in China since 1885, is delivering lectures at the Swedish Mission church. Mr. Folk is returning to China from a vacation in his native land.

George Sutton, the handless billiard player, who gave an exhibition here a short time ago, has received a very flattering offer to travel through Europe and give exhibitions. He will leave in the spring.

The boiler house for Needham's laundry was finished yesterday and the twenty horse power boiler will be located and connected soon. The office at Children's art gallery will be supplied with heat from the laundry.

J. Wahlman and son have been making extensive improvements on the Lossely warehouse which is occupied by the Carpenter-Cook company. A second floor is being added and outside platforms built. The work will be completed within a few days.

Ernest Carlson, of 610 North Lake street, lost his pocketbook containing \$30 in bank notes Tuesday afternoon either while on his way to Lake Hancock or after he began skating on the ice. He announces elsewhere in this issue that he will pay the finder liberally for the return of the money.

N. Jasnogrodsky, representative of the New York Mutual Life Insurance company, is in town in the interests of his company. Mr. Jasnogrodsky is a chess player of national reputation and plays a wonderful game when blindfolded. He was introduced to the members of the IshpeMING club Tuesday evening by Dr. Felch.

Workmen are engaged in strengthening the roof of Grace Episcopal church. It had sagged so much that it was feared that it would collapse and cause serious damage. Much care will be exercised to so arrange the braces as not to mar the interior decorations, and at the same time make the roof perfectly safe and firm.

Maurice Brazill leaves Monday for Orient, Col., where he has a position for the Colorado Fuel & Iron company under his brother, Timothy McNamara. Mr. McNamara has charge of two or three mines. He was formerly employed by the Oliver company on the Mesaba range and left here a few months ago for Colorado.

Winter has come at last and is making up for being behind schedule time by added severity. The ground is in a fine condition to receive the snow and two or three inches will be sufficient to provide good sleighing. The announcement of the approaching cold wave was received yesterday afternoon from Marquette and the cold wave flag was hoisted on the city building.

Miss Elizabeth O'Brien will conduct a sale of her art work at her home, 429 West Euclid street, commencing tomorrow and continuing until Christmas. Miss O'Brien's ability as an artist is so well known that it is needless to state that her display is attractive. She has been busy for several months past preparing the work she now offers for sale. She invites all who are interested to call and examine her collection.

The fuel question was generally discussed here yesterday. Many talked of trying to get hard coal from the copper country if the consignment promised the Consolidated Fuel & Lumber company did not arrive from Marquette in a few days. The announcement elsewhere in this issue that coal has arrived and that it is being sold at \$8.50 per ton will doubtless cause the worried ones to enjoy their usual rest and comfort. Advice from the Consolidated people yesterday was to the effect that the coal will be distributed among their patrons as rapidly as possible.

A few of last season's cloaks at one-half price. They are stylish and are going below cost. Finnish Mercantile association.

Don't be a failure—Learn mechanical drawing and earn good wages. International Correspondence School, P. P. Price, Mgr. (11-14-1m)

GOOD ICE IN SIGHT.

Cold Weather Without Snow Insures a Fine Product—Much Used Here.

The past few days of cold weather have been very beneficial to the ice man of view for they are insured a crop of ice of a grade that is seldom obtained here. The lakes that furnish the supply for IshpeMING are covered with a sheet of the finest, most durable kind of ice eight or ten inches thick. Usually the snow and cold come at the same time and the water is no sooner frozen over than it is covered with tons of snow which sinks the ice and makes it soft and porous and consequently of poor quality.

About 35,000 tons of ice are used here in one season. When it is taken from the lake it is measured by the cord, like wood, three or four tons being needed to make a cord. The supply is obtained from two sources, that for domestic use coming from Michigan and the rest from Teal lake. Alex. Nelson, the local dealer, has considerable of the Teal lake brand on hand and is provided with only a small amount of the better grade from Michigan.

FINE HOLIDAY STOCK.

W. J. Roberts, the Cleveland avenue jeweler, makes his holiday announcement in this issue. He recently returned from Chicago, where he spent a week at the jewelry houses. He possesses one of the most attractive lines that ever came to the upper peninsula. In making his selections, Mr. Roberts had in mind the needs of his patrons. His stock includes a very fine line of novelties, embracing all the latest things.

WILL HAVE A SPREAD.

Members of Sir Humphrey Davey lodge, Sons of St. George, will enjoy a feast tonight, when the officers elected for the ensuing term at the last regular meeting will be installed. The new officers are: Henry Phillips, past president; Joseph Hodgson, president; Samuel J. ascending the vice president; John Wallace, secretary; Albert Trebilcock, treasurer; William Trebilcock, messenger.

LARGEST GUN IN THE WORLD.

The new sixteen-inch gun recently built for the U. S. government is the largest in the world. It is the most powerful weapon devised by man, and has taken years to construct. The best and most reliable medicine ever compounded is the famous Hostetter's Stomach Bitters, introduced over fifty years ago and containing only such ingredients as will be helpful to the entire system.

Be sure to give it a trial. It has never been known to fail, and can therefore be depended on in your case. The genuine is for sale by all druggists and has our Private Stamp over the neck of the bottle.

REPUBLIC.

EXPLORING NEAR REPUBLIC.

Pioneer Writes of His Work, in This Vicinity, Back in the Sixties.

R. Pampely, who did exploring on the Marquette and Menominee ranges as early as 1867, favors the Crystal Falls Diamond Belt with a short description of his work, which will be of particular interest here because of the reference he makes to the discovery of the Republic mine.

"The earliest discoverers of iron ore in Michigan were the Indians. The next were the United States land surveyors, who noted on the plats several occurrences of iron ore and many that were such only in appearance.

"My connection with the Menominee came later, in 1867, when I had charge of the ascension of the Portage Lake and Lake Superior canal company's grant."

"In May of 1867, after sending out parties to look for the pine lands, I started down the Michigan to explore for iron lands. I took an assistant, Dr. Herman Credner, now director of the geological survey of Saxony. Among my canal men were Jack LePetre and Megqua Gierick.

"After exploring the Michigan also above Republic, I returned to the iron range further west in 46:30. I met Jack Armstrong at the falls in the northwest part of 43-31 and engaged him as assistant woodsman.

"The outlet of the Point river we examined the outcrop of hematite at the falls. I think it was indicated on the plats. On this trip, through several neighboring townships, data was gathered for locating the canal company's lands."

"From geological observations made on the lower Michigan, and on account of the outcrop noted on plats in 42-8, I decided to traverse the southern half of towns 42-28, 29 and 30."

"The night before starting for this purpose from Badwater, Armstrong told me he would like to sell the information as to a find he had made of a large

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail.

Home of Swamp-Root. All about it, including many of the thousands of testimonials, letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

COAL IN SIGHT.

Munson & Peterson and Louis Laforias expect anthracite coal from the copper country. The former ordered three carloads, while Mr. Laforias sent in an order for two. It is not known just when the coal will arrive, but it is expected at any time. The local dealers have no positive assurance that they will receive a portion of the coal that arrived at Marquette Monday, but they expect some from there. The coal coming from copperwood will be worth \$9.75 per ton, delivered.

DEBT WIPED OUT.

The ball given Thanksgiving eve under the management of the Republic baseball team was a social and financial success. The team was something like \$20 behind on the season's work, but the net receipts of the ball amounted to more than that sum.

MOY WAS A WINNER.

The old saying, "It's an ill wind, etc." was demonstrated, and in Moy Lind's favor, Thanksgiving Day. The high wind kept the number of prize winners at his turkey shoot down to six. A number of the best marksmen of the village tried

The Horrible Tortures of Rheumatism

PENDILL'S PHARMACY, Marquette, Mich. KIRKWOOD & O'DONOGHUE, DRUGGISTS Negaunee Mich

outcrop of ore similar to that of Smith Mountain (now Republic). I promised him the price asked, and he led the way to 31-42-28, now the Groveland. From this clew we quickly defined the limits of the Felch range. Then, after exploring 41-28 and 28, and partly defining what is now called the Cabinet range, I proceeded to explore the region between Twin Falls and Bequeessee Falls. I knew that Mr. Breitling had received specimens from somewhere in that neighborhood.

"If I remember rightly, we first struck the rapids in 11-19-29, and within a fortnight had defined the outlines of the ore formation and located the old sections in 19-28-29 and 21-31 for the canal company, who reserved the even sections for another purpose.

"The Breen brothers, as I learned later, were a few days before us in entering the district.

"My work was done rapidly. I did not look at all for shipping ore, which rarely crops out. My whole object was to find ore formations, define closely the areas it occupied, and take up the greatest amount of it possible on the smallest number of forties.

"But as rapidly as one worked, and even with the advantage of geological experience, I should have failed to get for the company their extensive holdings had the old sections not been withdrawn by the government from the market pending the selection, so actively were the explorers at work at the time.

"When in 1868 the general land office required to shift 20,000 acres of the first grant, I observed on the government plats some slight variation of the needle noted in the extreme west of the peninsula. These existed along a straight line, and the canal company's lands on what is now the Gogebic range, went into going to the field.

"When I visited the range in 1871 to buy an even section for myself, I took with me Mr. Breitling and in a few days we traced the ore formation from the Montreal river to near Lake Gogebic, and also found that it was really the continuation of the Penokee range of Wisconsin.

"But we saw only the leanest of ore formations, and that of an unfamiliar kind. It looked so hopeless that I took up only the two half sections on which are now the Newport, Geneva and Blue Jacket.

"The discovery of good ore was made by Nat. Moore a few years later, and just after a windfall which exposed the rich outcrop on the Colby, I think.

"I will add that there have been only four exposures of bodies of shipping ore in the whole Michigan field, and of these all but one were due to windfalls, the Jackson, Republic and Colby. The only natural exposure was that at Spurr Mountain."

PIONEER RESIDENT DIES.

Mrs. Kingstedt, wife of Gus A. Kingstedt, one of Republic's first settlers and business men, died Thanksgiving Day. She had been ailing a couple of months or more, and for three weeks before her death was confined to her bed.

The deceased was one of the village's most estimable old ladies. She was known by all the older residents of the place. She came here with her husband and family soon after the mine was opened, and her husband was her home from the day of her arrival until she died.

Mr. and Mrs. Kingstedt had planned to celebrate their golden wedding, the date of which was two days after her death. Her age was seventy-three years. In addition to her husband, three sons and one daughter survive her. Jelmer A. and Miss Anna Kingstedt of this place, Charles of Waverly, Minn., and Albin of Ann Arbor, Mich. The latter two are in the mercantile business. Both were present at the funeral, which was held last Sunday afternoon from the Swedish Lutheran church. The services were conducted by Rev. A. A. Dahlberg, the pastor.

ELECTED OFFICERS.

The local lodge of the Knights of Pythias elected the following officers at the regular meeting held Monday evening: Chancellor commander, Al Hocking; vice chancellor, Arthur Carlson; prelate, George McDonald; master of work, Cheeming Lee; keeper of records and seals, Hugo Erickson; master of finance, F. D. Verran; master of exchequer, J. A. Kingstedt; master-at-arms, Robert Uberg; inner guard, Jelmer Erickson; outer guard, Sol Lemm; trustee, J. F. Walker. The installation will take place at the first meeting in January.

TO CURE A COLD IN ONE DAY Take Laxative Bromo-Quinine Tablets. This signature, E. W. Grove, on every box. 25c.

STAFFORD DRUG CO., Marquette.

PAINLESS DENTISTRY Does not equal a passing laxative. Mr. C. L. Hizer of Lincoln, Ill., says: "I have been a sufferer from constipation for the past twelve years, with severe gripping pains in my bowels nearly every day. Since I began taking Re-Do-Tonic Laxative Syrup my bowels have moved freely without gripping. It is certainly a wonderful laxative." Sold at the People's Drug Store.

SNAP SHOTS.

Hee, McDonald came down from the copper country and spent Thanksgiving with his family.

Charles Munson and wife entertained a number of friends at their home on evening early in the week.

John Bolty, who was bartender at the New Pascoe House for a few months, is now located at Green Bay.

B. Levine is putting a basement under the building in which Jake Davidson conducts his saloon business.

The talent which will produce the comedy, "A Commercial Drummer," Dec. 19, is rehearsing at regular intervals.

A number of the principal streets of the village have been given a gravel dressing during the past week or so.

Miss Johnson, one of the local school teachers, recently gave up her position and returned to her home in Kalamaazoo.

Albert Davidson, who is in the employ of a railroad corporation at St. Paul, spent Thanksgiving with his people here.

Miss Mollie Gibson came up from Crystal Falls the latter part of last week to attend the funeral of the late Mrs. G. A. Kingstedt.

Miss Mattie Kendall and Miss Jackson, came up from the Normal and spent their Thanksgiving vacation with Miss Kendall's people here.

Miss Cordie Larue and her friend, Miss Hubbard of Newberry, were here from Escanaba, Marquette Normal during the Thanksgiving vacation.

The young people of the village enjoyed good skating on School lake for a week or more prior to Wednesday, when the snow covered the ice.

Miss Maud Gibson of Mass City, formerly of this place, who is attending the Normal at Marquette, spent Thanksgiving with friends in Republic.

Frank Virela's infant daughter died Saturday, and was buried Monday. The child's mother died three months ago, when the babe was but one month old.

Officers for the ensuing term will be chosen at the regular meeting of the local camp of the Modern Woodmen of America, to be held this Thursday evening.

Munson & Peterson are busy these days unpacking and marking their holiday goods. This year's assortment is the largest and most complete ever shown. The members of the firm announce that they intend to conduct a genuine "slaugher sale" on all holiday goods this year.

John Vogtline and E. J. Mapes, the latter of Marquette, were here early in the week looking over the Kloman property, in which they are interested. They still have hopes of disposing of the mine to good advantage and in visit to Pittsburg, with that object in view, will be made within a few weeks.

J. O. Uberg's bakery business is booming. Gust Swanson, a baker from Gladstone, took a position with Mr. Uberg early in the week. This makes a force of two bakers and one apprentice in the establishment. Mr. Uberg does not anticipate difficulty in keeping all hands employed steadily, as his business at home, as well as outside, is increasing right along.

SMOKERS! Try That Celebrated HAVANA PLANTATION CIGAR

You will discover one of the richest smokes you ever had. Sold by all the leading dealers.

Negaunee and Vicinity.

Business Men Meet. Appoint a Committee of Two to Canvass for Members—Some Opposition.

The Business Men's Association met Tuesday night and appointed a committee of two to make a canvass among the merchants of the city in an attempt to increase the membership.

The great difficulty that has always been experienced by the promoters of such associations is the lack of efficient cooperation. These who should manifest the greatest interest are often the ones who cannot or will not lay aside the spirit of rivalry that close competition breeds.

MAKING A RECORD.

Emerson McNeil, a Former Negaunee Boy, at Head of the Jordan.

Emerson McNeil, who is very well known here, is now superintendent of the Jordan mine at Hibbing, Minn., and is making a fine record.

"The many friends of Mr. Emerson McNeil in this city will be pleased to learn that he is making a record at the Jordan mine near Hibbing where he is at present located and which property he has superintended since it was opened up.

AN HONEST STATEMENT.

Mr. William Acton of 213 Fourth St. Lincoln, Ill., says: "My daughter, aged sixteen, was suffering with a severe cough and cold on her lungs.

LOCAL LACONICS.

Tim Curran of Lathrop was here Tuesday. J. Davidson was here from Champion Tuesday.

Alex McKinnon of Iron River was in town Tuesday. Miss Marie Reavis is here from Greenland, visiting relatives.

Jack Lent has accepted a position as clerk in Max Hirschowitz' store. Miss Florence Osborn leaves this morning for Boston, where she will take the Cunard liner Saxonia for Liverpool on Dec. 6.

The Consolidated Fuel & Lumber company have received a consignment of hard coal from Houghton which they will sell for \$8.50 per ton.
