Hancock Mortgage, Loan & Surety Company Opens for Business.

W. F. MILLER'S SUCCESSOR. W. H. Mason Slated as County Agent of Corrections and Charities.

William H. Mason, a prominent citizen of Hancock, will be W. F. Miller's successor as county agent of corrections and charities. Mr. Mason will receive word of his appointment from Governor Bliss today or tomorrow. He was recommended to the governor for the place by State Senator Charles Smith of South Lake Linden. The governor desired to put an old veteran in the office and Senator Smith recommended Mr. Mason. Mr. Mason will commence his duties immediately, as Mr. Miller sent in his resignation to take effect the first of this month. Mr. Mason should make an efficient officer.

**A PRETTY WEDDING.**

Hancock is in a bad way, as far as a public dumping ground is concerned, and the council at its meeting Wednesday evening decided to take strenuous means to solve the problem. Up to a few weeks ago the council did not need to bother itself about a dumping ground as a tract of land a short distance west of town was used for that purpose. The land, however, happens to belong to the Phoenix Powder company, and a short time since it was closed to public use. The council has determined that the quickest and easiest way to solve the garbage problem is to install a garbage crematory, and consequently Dr. J. E. Scallon, the village health officer, has been instructed to look up a site, preferably upon some nearby bluff, for the new plant. The council proposes to have all garbage dumped and burned at that place.

**MONEY WELL EXPENDED.**

Portage Lake Canals Have This Year Particularly Shown Their Value.

The United States government has spent a big pile of money in improvements on the Portage Lake ship canals, also known as the waterways across Keeweenaw point, but it has been money well expended. The advantages to be derived from such a project are many. Navigation has been beneficial not only to many boat lines and corporations but also to many Lake Superior people whose business interests are dependent directly or indirectly upon the safety of freight and passenger boats bound to northern ports.

**ELECTRIC COMPANY'S OFFER.**

Lake Linden Council to Consider It in Secret Session Tomorrow.

A special executive meeting of the Lake Linden council will be held tomorrow evening to consider the propositions made by the Houghton County Electric Light company to continue furnishing light for the streets and pumping the water supply. The company made the council a very liberal offer a few weeks ago and since that time the matter has been hanging in the air. There have been reports of private capital putting in an electric light and pumping plant, but as yet the reports have not taken any definite head. The council has taken plenty of time to discuss the company's offer and it is very likely that something definite will be decided upon at tomorrow evening's meeting. The final vote on the question will not be taken until the regular meeting to be held next Thursday night.

**DIED A HOMELESS WANDERER.**

The news of the death of Nathan D. Walker, at one time clerk at the Quincy mine, was received with exceeding regret in copperdom, especially in Houghton and Hancock, where he was well known. Mr. Walker left this region five or six years ago. Mr. Walker is spoken of as a fine gentleman and a good fellow. Mr. Walker was a power politically, and during Cleveland's first administration he was a prominent candidate for the appointment of minister to Haiti. The sad thing about his death was that he died a homeless wanderer. In speaking of his demise a Louisville, Ky., dispatch says:

**GAS FRANCHISE WANTED.**

The Laurium council has again been asked by W. E. Mercer and H. Ingersoll to grant the Houghton County Gas Light company a franchise to establish a general gas plant in the village. The council will likely hold a special meeting in the next few days to consider the party desires to start work on the new plant early in the spring, provided the franchise is secured.

**SMALL-POX BANISHED.**

It is stated on good authority that small-pox has been entirely eradicated from the logging camps of the north-west. This report has been made to state health officials and is confirmed by the local loggers. Two years ago this winter the disease greatly handicapped logging operations and some of the largest timber tracts were left in the midst of the season. Conditions were much better last winter, owing to the precautions taken by the loggers working in harmony with the state health boards, but there were a few cases reported now and then during the winter. This was particularly true of Northern Wisconsin. It is understood that the strictest precautions have been taken this season.

**DULUTH TEAM COMING.**

The Y. M. C. A. basketball team of Duluth is out for a strenuous season. Seeking championship honors the men will invade North Dakota and Upper Michigan. The invasion of Upper Michigan includes games with Calumet and Hancock, and possibly the Michigan College of Mines. The Duluth team this year is lighter than any team for several seasons past, and it is also faster. The men are being trained for speed and science in scoring field goals.

**SAVED AT GRAVE'S BRINK.**

"I know I would long ago have been in my grave," writes Mrs. S. A. Heeney, of Deatur, Ala., "if it had not been for Electric Bitters." For three years he suffered untold agony from the worst forms of Indigestion, Waterbrash, Stomach and Bowel Dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily and have gained 35 pounds." For Indigestion, Loss of Appetite, Stomach, Liver and Kidney troubles Electric Bitters is a positive, guaranteed cure. Only 50c at Stafford's drug store.

**PROBABLY FATALITY HURT.**

Daniel O'Neil of Hancock Crushed Beneath a Heavy Engine.

Daniel O'Neil, an employee of the Lake Superior Iron & Metal company, was seriously and probably fatally injured while at work in the yards of the company at Hancock Wednesday evening. He was standing on a platform, weighing a wagon on which a heavy engine was loaded, when the platform gave way, throwing the engine over on him. He sustained internal injuries, which may prove serious, and he was taken to his home.

**DELAYS OPENING OF NEW LINES.**

Problem in How Railroad Extensions Will Cross the Car Tracks.

The extension of the Mineral Range road from Red Jacket to Laurium at Calumet is nearing completion and were it not for an apparently unforeseen obstacle the branch would be in operation before the first of the year. The grading is finished and the rails have been laid. Work on the new Laurium depot is well under way and the Laurium yards are being graded. Both the tracks of the Mineral Range extension to Laurium and those of the Copper Range extension cross the tracks of the street railway company just east of Alliston. It is now in violation of the railroad laws of the state to cross grade crossings and consequently there is said to be a hitch at Calumet which will likely delay the completion of both railroad extensions and delay the commencement of operations. When the street railway was built from Hancock to Calumet it was obliged to build several overhead crossings, but as its tracks were laid first into Laurium the railroad companies were able to make such crossings as they pleased. The street railway company before their extensions can be completed, the railroad companies may agree to build an overhead crossing for the street railway, but that will all be for naught unless making such an agreement; second, in getting the material, and third, in building the trestle. It would be impracticable to build two overhead crossings for the railroad companies, whose extensions cross the street railway tracks close together.

**WATER FAMINE AT END.**

The breaks in the Red Jacket water mains have been repaired and the water has been turned on, much to the satisfaction of many people who were obliged to go without water for a day or two. It was discovered that the breaks were caused by a shifting of the ground over the pipes. During the water famine an enterprising drayman filled several large tanks with Lake Superior water and had much success in selling it.

**ICE RINK OPENS TOMORROW.**

Verville & Wurm, proprietors of the West Hancock ice rink, will open their doors for business tomorrow evening. The rink will be the first in the county to open and there promises to be a grand rush for the ice. The rink has been remodeled and renovated and is in good condition for a long winter season. As the weather is cold enough the ice should be in good condition tomorrow.

**COPPERDOM BREVITIES.**

A new snow plow will be purchased for the village of Red Jacket. Work has been started on the fourth story of the new hospital going up in West Hancock for the Sisters of St. Joseph. A Haas, Dr. George McElveen and Charles Chynoweth have left for Colorado to visit the Sylvania gold mine near Idaho Springs. C. J. Johnson, the Houghton contractor, has finished up his work on the street railway extension between Calumet and Lake Linden. The Hancock firemen have decided to organize an indoor baseball team to play the teams of the Calumet and other copper country departments. The Hancock Hibernians recently initiated a class of eleven members. Social features will be a feature of the Hibernian meetings hereafter. The Driftler bowling alley prizes for November went to G. W. Ulison with a score of 252; Clarence Funkey, 244; and Fred Verville, 243. Each received five dollars. Miss Bessie Polglase, of the Atlantic location, was married to James H. Tamlyn, also of the Atlantic, at the home of her parents, Mr. and Mrs. William Polglase, Thursday evening. The Houghton Light Infantry and Calumet Light Guard indoor baseball teams will play their first game of the season next Wednesday evening. It will take place in the Calumet Armory. The Twin City Mandolin orchestra, which recently organized a saxophone quartet, has decided to join the Quincy band. The members are Frank Francis, Thomas Kitts, Ed. Heckle and Fred Kehl. Ingot tent, K. O. T. M., of Hancock, will give its annual ball at St. Patrick's hall New Year's night. The decorations, which will be new, neat and tasty, will be a feature. Another feature of the ball will be drill by the degree team of the lodge. Lake Linden lodge, I. O. O. F., has elected the following officers for the ensuing year: John Nicholls, past grand; W. J. Burgen, noble grand; Al Avery, vice grand; Roscoe Edyvean, secretary; James Cornelius, treasurer; Charles Francis, trustees for three years; Frank Francis, Thomas Kitts, Ed. Heckle and Fred Kehl. A through car to Boston, carrying about thirty passengers bound for the old country, left Hancock attached to the regular outgoing train at 10:30 o'clock Wednesday night. The car will arrive at the Boston wharf this evening. The passengers will reach their old country homes in time for the Christmas holidays. J. N. Mitchell of Hancock, who is having three new bowling alleys installed in the basement of his building on Quincey street, expects to have the alleys completed by the middle of the month. He already has two other alleys in use located in a separate apartment. He intends to keep one set of alleys in reserve for private parties. Whitney Bros' derrick scow Interstate, which was cut adrift from the tug Maxwell off Fourteen Mile Point during a severe storm on Lake Superior last Saturday, is valued at \$20,000. The craft is the best of its kind on the great lakes, and is alone in being classified as a barge. It is built on vessel lines. The Interstate, without its machinery, cost Whitney Bros. \$15,000. Its gross net tonnage is 303 tons. The scow was built in 1899, especially for Lake Superior work. RHEUMATISM CURED IN A DAY. "Mystic Cure" for Rheumatism and Neu-ralgia radically cures in one to three days. Its action upon the system is remarkable and mysterious. It is a natural cure of the cause and the disease immediately disappears. The first dose greatly benefits. Ten cents and 50c. Sold by Frank Pennell and all druggists. (10-7-3mo)

**IN DESERTED CABIN**

He Died, After Handing \$8,000 to an Utter Stranger.

The death of a tramp umbrella mender here a few days ago was attended by rather romantic and surprising developments. A feeble old man appeared at the postoffice and inquired if there was any mail for John Pierson. It was late in the afternoon, and after leaving the postoffice the old man applied at a house near by for the privilege of staying all night. He was turned away at the door, and as if discouraged, sought shelter for the night in a deserted cabin. The following morning he was found suspended through a hole in the floor. He had spent the night in that position, being unable to extricate himself. The physician was summoned, and the frail old man was told that he could live only a little while, and was asked where his relatives were. He muttered faintly that he had no relatives, then handed a small tin box to Miss Ella Foster. It was only a short time after that the old man died.

NEW RAILWAY OPENED TO THE INDIAN COUNTRY.

It is announced that the extension of the Verdigré branch of the Northwest-ern line to Bonesteel, S. D., on the edge of the Rosebud Indian Reservation, is now open for traffic. Part of the Rosebud lands are to be opened for settlement next spring and it is expected there will be a tremendous rush into this country now that the new railway is built. The line passes through some of the richest grazing lands in the world. The Rosebud lands themselves are known for their value in this regard and doubtless the opening of this public land will attract large crowds from all over the country.

HAS MANIA TO WED

GEORGE F. DUNCAN UNDER ARREST AT TOLEDO, OHIO.

IS MARRIED TO MANY WOMEN

CHICAGO POLICE THINK HIS WIVES NUMBER SIX AT LEAST.

Charge of Abandonment Made by One Leads to an Investigation With Surprising Results—Several Households at Same Time.

Chicago, Dec. 4.—George F. Duncan, alias George E. Davis, said by the police to be the husband of at least six wives, is under arrest at Toledo, Ohio.

In the meantime Detectives Kane and Qualey of the Central station are searching for his six alleged wives, two of whom they have found.

Mrs. Lilly Rudd Duncan, who lives with her sister in West Adams street near California avenue, and Mrs. Frankie Pendleton Duncan, who resides at 2650 Washington Park place, are the wives with whom the detectives are now in communication.

Duncan, according to the police, holds all records on bigamy. He is a civil engineer of ability, and a man of good education and fine presence.

Duncan's second term had no more effect on his marriage mania than the first, according to the police.

During his various courtships—and he is said to have courted while legally bound to two or three wives—Duncan represented himself as a well-to-do civil engineer.

After he disappeared Lilly Rudd Duncan began an investigation, and as a result she came near calling a convention of her husband's wives.

During his various courtships—and he is said to have courted while legally bound to two or three wives—Duncan represented himself as a well-to-do civil engineer.

A PROMINENT MEMBER OF I. O. O. F.

Threatened With Bright's Disease--Pe-ru-na Restored Him to Health.

O. FRED LINDSTROM, Past Grand Master Independent Order of Odd Fellows, Past Chancellor Twin City Lodge, No. 63, Knights of Pythias, also Past Chief Patriarch, Bigdely Encampment No. 22, writes from 1923 University Ave., St. Paul, Minn.

There is no medicine I know of which can compare with Dr. Williams' Pink Pills for Pale People. I contracted Bright's disease several years ago, which from neglect developed into urinary trouble, and threatened Bright's disease. As one of my friends was cured of Bright's disease through the use of Pe-ru-na I thought I would try it, also, and used it faithfully for three and one-half months, when my health was perfect once more. I have never had any trouble since, and therefore think it is just money.

is a decided improvement in the money situation. Toward the close the market again sold off, and closed weak at about the low figures of the day.

Walker said of the New York market: "The market opened fairly steady this morning at a fractional advance from the close. There was a paucity of orders from commission houses and the trading was of a purely professional character. The market ruled dull, with a downward tendency all day, traders selling on the slightest tendency to rally, but covering their sales on any small profit, thereby giving occasional spurts of apparent steadiness to the market. Both buying and selling appeared to us to be of a listless character and we see no reason to change our belief that for some time prices will fluctuate up and down within narrow limits, with the general tendency downward until there

is a decided improvement in the money situation. Toward the close the market again sold off, and closed weak at about the low figures of the day.

BIG CUT FOR 1903

MINOMINEE RIVER LUMBERMEN WILL BE VERY BUSY.

ALL MILLS ARE TO OPERATE.

CONCERNS ARE ACTIVE IN THE WOODS THIS WINTER.

It is Generally Reported That Labor is Hard to Get, Although the Wages Being Paid are Fairly High.

Discussing the coming year's lumbering operations in the Menominee valley, the Menominee Herald says:

There will be about 215,000,000 feet of lumber cut during the season of 1903, according to an estimate made of the Menominee mills, which are being put in this winter. The boom company sorted about 170,000,000 feet of logs during the past season, but there were fully 30,000,000 feet of timber brought in by rail and saved during the winter summer at the various mills on the river. As far as can be learned, all of the mills will be operated again next season.

It has been currently reported that the Burns & Hicks company would not operate during the summer months, but this report is without foundation, for the company is preparing for a full season's work, and what is more will have plenty of stock to supply the mill during several months of the winter season. There will be five or more mills which will run during the coming winter, and more than 25,000,000 feet of logs will be brought in by rail.

Winter Operations.

Operations for the winter will start shortly after the first of the year. The following mills will be in action a portion of the winter months: Burns & Hicks, Menominee River Shingle company, Girard Lumber company, Bay Shore Lumber company, Marinette Lumber company, Sawyer-Goodman company, and possibly some others. Hardwood and pine logs, and also hemlock, will be cut at these plants. Most of the mills on the river have been shut down for the fall season. The last of the Menominee mills, the Democrat & Connors plant, will shut down this week.

Logging operations have been in progress for nearly two months. As in the past year, Holmes & Son will get out timber for the X. Anderson company, the N. Ludington company and the Hamilton & Merryman company. Other companies have awarded contracts and some of them have started camps of their own. The work has been established early in the fall to allow a big stock of logs to be cut. Some of the logs will be brought from as far away as the Lake Superior regions.

The following is a summary of the amount of logs which the various mill plants will likely get out the coming winter:  
 Burns & Hicks, 24,000,000 feet; A. Spies, 3,000,000; Girard Lumber Co., 20,000,000; Bay Shore Lumber Co., 20,000,000; J. M. Martin, 5,000,000; Marinette Lumber Co., 20,000,000; Sawyer-Goodman Co., 26,000,000; R. C. Merryman Co., 16,000,000; Merrymann Manufacturing Co., 15,000,000; I. Stephenson Co., 20,000,000; X. Anderson Co., 20,000,000; Hamilton-Merryman Co., 20,000,000; H. Whitebeck Co., 22,000,000, and others, 8,000,000.

Good Wages Paid.

The woodsmen are being paid good wages. The prices for lumber have been steady during the past season and general prosperity has reigned in the business. No great amount of lumber for next year, but some of the larger dealers are at Menominee picking up the odds and ends of material offered at the close of this season.

"WHEN WE WERE TWENTY-ONE."

When we were Twenty-One, the bill at the theater evening was presented to a large house, with Mr. Walker and Miss Meta Rogers in the principal roles of Richard Carew and Phyllis Erickson, supported by a good company of players. When We Were Twenty-One is a drama which finds its key note in that attractive theme of the love of man for man, and it is worked

KEEPING PROMISES.

Marquette Appreciates Always When Promises are Kept.  
 Every time you read about Doan's Kidney Pills you are told they cure every form of kidney ills from backache to urinary disorders. How are our promises kept? Ask any citizen who has tried the treatment. Ask the man who makes the following statement:  
 Mr. John Brennan, of 230 McLeod ave., employed in the grocery department of the Ironwood Store Co., says: "I have no hesitating in recommending Doan's Kidney Pills as a thoroughly reliable remedy in all cases of aches and pains through the loins and kidneys. It is also a fine tonic, strengthening and regulating the general system, and was tried on and off for a long time with spells of dull heavy aching through the small of my back just all run down. I was advised to try Doan's Kidney Pills and got them at a drug store and used them. They thoroughly and effectually relieved me of all the trouble and since using the remedy I have felt splendid. In fact never felt better."

Just such emphatic endorsement can be had right here in Marquette. Drop into the Stafford Drug company and ask what their customers report. For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.  
 Remember the name, Doan's, and take no substitute.

CITY BREVITIUMS.

Today's weather: Probably snow. Stationary temperature. Increasing easterly winds.  
 Yesterday's temperature: 7 a. m., 16 degrees; noon, 19 degrees; 7 p. m., 20 degrees. Maximum, 20 degrees; minimum, 16 degrees.

INDOOR BASEBALL.

Interest in the Winter Sport Beginning to Pick Up.  
 The indoor baseball season is about to be put in full swing, and indications lead to a belief that the sport is going to be as popular as ever during the coming cold months.

The Marquette traveling men are about to get into the game. They have been making practice until the arrival of their new uniforms, which have now been received. They will get together Saturday night for the first time, and it is expected that a series of games will soon be arranged. The latter have already organized a team, and their first game is a thing of the past. The athletic rivalry between the traveling men of the two ends of the county runs high and is expected to be productive of some rare sport on the indoor diamond during the winter months.

The Mining Journal printers have a game, the Ishpeming-Negaunee "prints" having indicated their willingness to meet them at the Casino rink a week from Saturday evening. The representatives of The Mining Journal are now going through their practice stunts, and it is presumed that the same is true of the other team. The Mining Journal team has some likely material, and a good game is looked forward to. It is understood that the contestants will all be bona fide printers.

IN DEATH'S EMBRACE.

Story of the Tragic Fate of Two Large Bucks.

The other morning The Mining Journal noted that Alderman Ernie Bush was about to receive a real curiosity from the taxidermist in the shape of interlocked deer antlers, the animals which were proudly tossed them having been killed in the copper country. The Ontonagon paper has the following account of the shooting of the deer:

"Frank Walker, who lives upon the Nacmicum, had two large bucks which he had together and were engaged in a fierce battle which had evidently been waging for several hours.  
 Walker was awakened early in the morning by commotion in the woods; evidently some distance from the house. He paid no attention to it at first, but as it continued he shouldered his gun after breakfast and started in the direction of the noise. He had gone only a short distance when he discovered the cause. He found two large deer engaged in a deadly combat. Their magnificent antlers had become firmly locked together, and the pushing and pulling failed to untangle them. The ground was all torn up around them and everything showed that the fight had been going on for several hours.

"One was a little larger than the other and he evidently had the best of the struggle when Mr. Walker took a hand in the scuffle, killing both. The front legs of the smaller buck had been badly lacerated by the hoofs of the other deer. Mr. Walker brought the head of the two animals with the antlers still locked together to Robert Moore, who shipped them to Marquette. Both sets of antlers were in an amazingly fine form, each containing ten prongs, and they attracted much attention here.

STATE MAY SELL TIMBER.

Important Recommendations Will Be Made to Legislature.  
 If the recommendations which Land Commissioner Wiley will make to the session of the legislature are approved the state may sell timber of its lands, of which it has a large acreage in the two peninsulas. He will recommend that he, with the auditor general, give authority to rent, as well as sell, state lands, and to sell the timber on these lands if at any time such a procedure should be deemed more advantageous to the state. Frequently lands bring no more than the timber is worth, and the state would receive the benefits of the timber and then abandon them, to be, in course of time, bid in by the state. The plan of selling only the timber will do away with this round about way of getting possession of state lands and will greatly simplify the business of managing the state holdings.  
 Another important recommendation made by the commissioner relates to the matter of trespass agents. At present these agents have very little power to enforce collections except at the end of law suits. He recommends that the agents be given authority to seize and sell timber cut by trespassers on state property in the same way that game wardens are given power to seize and dispose of game and fish taken unlawfully. Both of these recommendations will be considered by the legislature at the coming session.

At the beginning of the fiscal year, which ended last June, the state was in possession of 419,048 acres of public lands. According to the land commissioner's report for the year this total was reduced, by the ceding to the state of 6,185 acres of tax-stand lands and the reversion to the state of 19,410 acres that had been taken up by homesteaders but not paid for. The total sales of lands during the year were 33,408 acres, 374 acres in swamp lands were licensed, 33,361 acres were taken up as homesteads, and 24,749 acres were decided by the state to actual settlers under the homestead act. At the close of the fiscal year the public domain consisted of 253,498 acres. The receipts of the state land office for the sale of land, the principal, interest and penalties received, and from all other sources were \$105,261.74.

Cut Glass. 20% DISCOUNT ALL THIS WEEK.

Select your Christmas Gifts while this lasts.  
 Our assortment of Cut Glass is complete. We have all the different pieces. De Witt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. H. Harwood, Ishpeming; Stafford Drug Co., Marquette.

Bernie Barasa was a Negaunee visitor here yesterday.

George McDonald of Negaunee was in Marquette yesterday.  
 Mr. and Mrs. T. J. Flynn were down from Negaunee yesterday.

The Methodist Ladies' Aid society will meet this afternoon at 1:30 in the church parlors.

The Woman's guild of St. Paul's church will meet with Mrs. R. C. Markham this afternoon.

Captain MacQuire left yesterday on the steamer Catalina for lower Michigan, where he intends having an operation performed.

The Young Woman's guild of St. Paul's church will meet at the residence of Mrs. C. Walker Hall, 619 Spruce street, this afternoon at 2 o'clock.

McKinley council, No. 1905, Royal Arcanum, will hold a meeting this evening at Fraternity Hall, beginning at 8:15, at which officers for the coming year will be chosen.

The meeting of the Ladies' Aid society of the Presbyterian church this afternoon will be held at the residence of Mrs. M. D. Ensminger, 347 East Hewitt avenue.

James Trembath of Negaunee and Isaac Poole attended the trial in the case of Henry Shoudie vs. the Norman McLeod estate yesterday. The latter was formerly a resident of Escanaba, Ill., is now located in Illinois.

Much more snow is needed to make good sleighing. The fall of Wednesday and yesterday morning did not suffice, although it gives a good start if more snow comes down shortly. The ground is well frozen, and there is little thawing.

The remains of Edward P. Morrison were shipped last evening to Decatur, Ill., for interment. The funeral services will be held there, there being no services here. Guy Morrison, son of the deceased, arrived yesterday and left in charge of the remains.

The lecture on "The Making of a World" which was following a service before the Men's club of the Baptist church last Friday evening was postponed and will be delivered this evening by Dr. Downing of the Normal faculty. Ladies are invited to attend.

The Upper Peninsula Land & Mining company, with a capitalization of \$750,000, has been organized by William G. Mather, president of the Cleveland-Cliffs Iron company, he holding 7,496 shares and being the principal stockholder. The company's headquarters will be in Detroit.

An attractive assortment of Christmas goods will be offered for sale in the parlors of the Baptist church tomorrow, beginning at 10 o'clock a. m. Aside from the table of fancy needle work there will be a display of new designs in pyrography. The home-made candies and the kitchen table will be a help to busy housekeepers.

Hugh Cole was released from duress yesterday, a number of his friends having settled the board claim which was being pushed against him by Landlord French of the Brunswick. He is now free from all entanglements, and can make a new start unhampered. It required about \$65 to settle Mr. French's claim and pay the costs of the proceedings.

STORM SASH. Now is the time to order. F. W. Read & Co. (10-23-11)

A COLD WAVE.  
 The forecast of sudden changes in the weather serves notice that a horse voice and a heavy cough may invade the sanctuary of health in your own home. Cautious people have a bottle of One Minute Cough Cure always at hand. E. H. Wise, Madison, Ga., writes: "I am indebted to One Minute Cough Cure for my present good health, and probably my life." It cures Coughs, Colds, La Grippe, Bronchitis, Pneumonia and all Cough and Lung troubles. One Minute Cough Cure cuts the phlegm, draws out the inflammation, heals and soothes the mucous membrane and strengthens the lungs. H. Harwood, Ishpeming; Stafford Drug Co., Marquette.

WHAT'S IN A NAME?  
 Everything is in the name when it comes to Witch Hazel Salve. E. C. De Witt & Co. of Chicago discovered some years ago how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding piles, eczema, cuts, burns, bruises and skin diseases De Witt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. H. Harwood, Ishpeming; Stafford Drug Co., Marquette.

**CALUMET**

**Baking Powder**

You are not "held up" when you buy Calumet Baking Powder. It is not made by the trust.

Trust baking powders sell for 45 or 50c per pound, and may be identified by this exorbitant price, which is an imposition on the customer and enriches the trust.

### Ishpeming and its Environs.

PEACE NOW REIGNS. COUNCILMANIC AFFAIRS. Street Committee and Mr. Andrews Have Effected a Compromise. City Dads Not Overburdened With Municipal Labors These Days.

The dispute between members of the street committee of the city council and ex-Mayor William Andrews, which had attracted no little attention since the contention started some months ago, has finally been terminated satisfactorily to all concerned. At the meeting of the council Wednesday evening the committee submitted its report, which was to the effect that a compromise had been effected with Mr. Andrews and that he had agreed to pay one-half the amount originally charged to him for the building of a new sidewalk adjoining one of his tenement houses. The amount which the ex-mayor will pay is \$33.99. The sidewalk controversy has received no little attention. It would seem that the trouble was due to a misunderstanding between Mr. Andrews and Alderman Lowery of the street committee. Many who took the trouble to ascertain the facts in the matter sided with the committee, while others maintained that Mr. Andrews was getting the worst of the deal.

### LOOKS LIKE A COAL WAR.

Losselyng Bros. Announce They Will Sell Anthracite at \$8.

A coal war would be a novelty at this time, but the indications rather point that such will be the case here. Following the announcement of the Consolidated Fuel & Lumber company yesterday that the coal it received from the country country would go at \$8.50 per ton, Losselyng Bros. advise a representative of the Mining Journal that they are going big concern one better, and that they had sold their copper country commitment of anthracite at \$8 per ton. Mr. Losselyng stated he had 100 tons sold at \$8, but did not say what he will receive after that lot is placed in the bins of the purchasers. However, if Losselyng Bros. undertake to supply the demand coal from them at \$8, they will do a rushing business, there being but very few local consumers who are not in the market for anthracite.

### 3,000 Tons on the Way.

The steamer *Meocata* is expected to arrive at Marquette Sunday night or Monday with 3,000 tons of anthracite for the Consolidated company. Manager R. P. Bronson, who has been in Ohio for the past week or more, purchased the coal. A message received from him yesterday brought the information that the boat had cleared and that it is now on the way. A portion of the coal coming from Marquette for the Consolidated will arrive here today, and another shipment is expected tomorrow. Many of the standing orders will be filled before the close of the week. With the big shipment due next week, the coal famine here will soon be a thing of the past.

### Private Parties Get Consignments.

A few carloads of anthracite arrived here yesterday from the copper country, consigned to private parties who ordered several days ago. They were assured that the local dealers would have coal.

### LIBRARIAN'S REPORT.

Mrs. Zada Fiske Submits Interesting Information to the Council.

At the regular meeting of the city council Wednesday evening Mrs. Zada Fiske, the librarian, submitted the following report, which contains information that will be of general interest:

"Believing that your esteemed assembly is deeply interested in our public library, its welfare and progress, with your kind permission I submit the following statement:

"On Sept. 1 last the library was made free to the public; that is, any one obtaining the signature of a resident taxpayer to one of our guarantors' cards, as they are called, can draw books from the library without depositing money, as heretofore. Of course, the two-dollar deposit still holds good for transients or those residents who prefer it. Many of the old subscribers have given me \$50 dollars and a number were given a sum for the purchase of books or whatever will be most needed, while some have withdrawn their money and procured guarantors' cards."

"The list of active subscribers previous to Sept. 15 numbered 263. Today, the first of December, it numbers 919.

"To give some idea of the growth of the interest in the library, note the following books drawn: In 1890, the monthly average was 467; in 1895, 725; in 1898, 875; in 1901, 1,425. At the rate books have been drawn the past two months the average for this year will be 4,700.

"In August last 1,235 books were drawn, and in October the number had jumped to 5,461. In November over 4,000 went out, so that the reason why I have been unable to do anything on the much-needed subject catalogue since August is plain. Our time, and overtime, has been fully occupied in attending to the needs of the people, old and young who daily flock to the library, with the attendant work of remarking, the labeling, repairing, classifying and getting in shape the new duplicates of the young people's books, a part of which has been ordered and have arrived. The crying need of the library is the subject catalogue, and I am anxious to bend every effort in that direction."

### LIBRARY WILL CLOSE.

On account of the increased work attendant on making the library free to patrons the library committee has considered it advisable to close the institution for a short time. Beginning next Monday, the library will be closed until Saturday, Dec. 13. If the work is sufficiently advanced by that time, the reading room will be opened each evening of the following week until Tuesday afternoon and all day Saturday, but if there is too much to be done, Tuesday afternoon and Saturday will be the only times that it will be opened. By being relieved from attending to the wants of those who draw books, the librarian and her assistants hope to be able to reclean and re-number the books and to continue the work on the subject catalogue that has been interrupted for so long.

A large consignment of Monte Carlos; first received from New York. (12-5-14)

When out for your holiday bargains, don't overlook a visit to the Finnish Mercantile association's store.

### PAY YOUR TAXES.

Taxes for Ishpeming township are now due and payable at the Miners' National Bank.

P. LYONS, Supervisor. (12-3-14)

### ISHPeming in BRIEF.

Peter Fitzpatrick is spending the week in Chicago.

Miss Julia Dobbs is now clerking at Kahn & Skud's.

A steam heating plant is being installed in the Iron store.

Born to Mr. and Mrs. Tahminen, 713 East Ridge street, yesterday, a girl.

Oscar Larson, of the firm of William Larson of Green Bay, Wis., is in town.

Miss Minnie Lavigne has been chosen to fill the position of organist at St. Joseph's church.

Timothy Hughes offers a reward for the return of the bunch of barn and warehouse keys he lost recently.

The steam fitters at the Methodist church have connected the pipes so that steam can be turned on today for the purpose of drying the plaster.

Services will be held at the Baptist church every Sunday at 10:30 a. m. and 7:30 p. m. Rev. W. H. Johnson of Escanaba is temporarily in charge.

The wood dealers of Ishpeming are enjoying a rushing business. Some of them are operating their saws over-time to meet the demand. With anthracite at hand, however, the "hurry up" wood orders will not be as numerous as they are now.

William Williams met with a painful accident at the Lake Argeline mine yesterday morning which will disable him for some time. Some ore fell on a foot and crushed one of his toes. He was taken to the hospital and is making good progress toward recovery.

D. T. Morgan, agent of the Republic mine, was in town yesterday. He said that the school at Republic had run out of fuel and it had been feared they would be obliged to close. Five tons of anthracite were on hand at the mines, which Mr. Morgan loaned to the school until a supply could be obtained.

### THE PRIDE OF HEROES.

Many soldiers in the last war wrote to say that for Scatches, Bruises, Cuts, Wounds, Corns, Sore Feet, and Stiff Joints, Buckard's Arnica Salve is the best in the world. Same for Burns, Scalds, Boils, Ulcers, Skin Eruptions and Piles. It cures or no pay. Only 25c at Stafford's drug store.

### TILDEN TOWNSHIP TAXES.

Tilden township taxes are now due and payable to A. B. Miner, deputy treasurer of said township, at the Miners' National Bank.

JOHN TREBLILOCK, Ishpeming, Dec. 5, 1902. (12-5-14)

### Upper Peninsula.

Stole a March on Friends—Hon. Judd Yelland, city attorney of Escanaba, and one of the law firm of Cumiskey & Yelland, stole a march on his friends and was married at Detroit last week to Miss Maud Graham, a well-known society young lady of that city.

Alleged Forgers Released—Jones and Shea, arrested at Bessemer on charges of forging duopoly bills, secured their release at their preliminary hearing. Friends had settled up the losses to merchants and the prosecuting witnesses not appearing, the case was dismissed.

Too Much Dime Novel Show—The Jesse James troupe, which toured the upper peninsula not long ago, ran against a snag at Appleton. The people of the Wisconsin town objected to such a "dime novel" style of play and brought enough pressure to bear on the local manager so that he arranged for a change of management before the show arrived. The company has now brought suit for damages.

Gets After the Brewery Agents—The chief of police of Iron Mountain has been instructed by the council to enforce the recent decision of the supreme court, holding the agents of brewery companies liable for the \$500 annual license fee. Four representatives of outside brewers do business in Iron Mountain. One has paid the license fee under protest, which course will likely be followed by the others.

To Build Ore Crusher at Escanaba—The Oliver Mining company will erect a large crushing plant in Escanaba. There will be, besides the crushing plant proper, a large engine and boiler house, approaches of trestle work, and various buildings. The building of the plant will be started in about a week. The location is selected near No. 5 ore dock. The Oliver Mining company, which is a part of the steel corporation, smelts its own ores, and the plant at this point is for the purpose of crushing hard ores for shipment by lake to its furnaces.

Menominee Boy's Foolhardy Stunt—Joseph Lovelle, a twelve-year-old Menominee boy, had his fingers blown off while in school. He was holding a dynamite cartridge and poking it with a pencil when it exploded. The report frightened the rest of the pupils and together they ran from the room. The explosion shattered the boy's hand, scattering bleeding flesh in all directions, many feet from where he was sitting. One thumb was found in an aisle several yards away. There was a nail of iron standing in the palm of the hand. The boy's hands were swollen and he was unable to move his fingers. The doctor said he had seen several cases of the kind, but that the case had nearly all recovered. He said that a cow would eat paint and paris green with an appetite of a girl at a soda water fountain.

Fish Growing Scarce in Green Bay—Fish are becoming less plentiful in Green Bay and the catches of the fishermen are not nearly as good as they were a few years ago. The prices are higher, but the decrease in the catch is even more in proportion than the increase in the price. Captain Henry Harkins, living about six miles north of Cedar River on the bay shore, says that the fishermen along the shores are getting very poor catches. He says where a few years ago he used to catch 1,700 packages in two nets, now he is able to catch only 1,000 packages of fish with five nets, and does not expect to get more than a thousand packages during the whole season.

Dispute Over Insurance—There is a dispute over the loss by fire suffered by C. S. Hart & Co., the wholesale cedar dealers of Stephenson, and as a result the insurance companies interested have demanded an appraisal, and also that the actual amount of damage be determined by a board of arbitrators which shall consist of three responsible, disinterested parties. Fire destroyed large quantities of cedar at the yards of Hart & Co. several months ago. The insurance adjusters insisted that the loss be determined by a board of arbitrators, but failed to make an adjustment satisfactory to the company. The dispute over the loss may result in a lawsuit. The firm asserts it lost cedar valued at \$42,000, but the insurance companies dispute this.

Logging in Ontonagon County—The Holt Lumber company of Oconto is conducting extensive logging operations in the southern part of Ontonagon county this season. The company owns a large amount of pine—something like 50,000,000 feet. The logs will be built for about five miles for that purpose. It connects with the South Shore about midway between Ewen and Bruce's Crossing. Arrangements have been made with the South Shore for hauling the logs to Stephenson, and then they will be taken over the St. Paul to their destination. A large farm is being cleared by the company at the point where the logging road intersects the main line. Over fifty acres have been cleared under cultivation and it is understood that it will be made the general headquarters of the company in the county.

To Develop Water Power—A Cleveland capitalist, interested in electric lines, was recently in Menominee looking the ground over. He kept his presence and the object of his visit a secret. There are several Cleveland parties interested in a proposed interurban line, and they intend to develop the water power of the river as soon as they think the time is ripe for the construction of the line. Several of the leading attorneys of Ishkosh, together with some Chicago capitalists, have purchased the White Rapids and expect to get control of several of the other powers. This company now owns eight miles of river front a few miles from Menominee, and will develop it as soon as they see that the best sugar and other factories are assured.

Now Lives in a Palace—Arthur W. Phipps, formerly general manager for an insurance company with headquarters at Calumet, but now connected with mines in the West, passed through the Soo a few days ago in his private car. The story of Mr. Phipps' life is one of the kind read about in books with yellow covers. A few years ago, while he was an insurance agent, he was strenuously scrapping for an existence. A company in Calumet was organized to operate a mine in the West and Mr. Phipps was given a large number of shares to go west and take charge of the business end. He was impressed with the prospects and purchased a number of shares at twenty-eight cents. The shares are now worth several dol-

Hunting Fatality Near Channing—Edward Raymond is dying in an Iron Mountain hospital as the result of a hunting accident last Sunday. The doctors hold out no hope for him and are surprised he is still alive. Raymond and his cousin, Dell Fish, who have been working in one of Wright Bros' lumber camps near Sawyer Lake, went hunting together, but later separated. Fish saw three deer spring out of a clump of bushes and fired. Hearing some movement he went forward to find a wounded deer, as he thought. What met his gaze was the sight of his cousin, Raymond, from whom he had parted a short time before, writhing on the ground, his brains oozing from a hole in his temple. He helped his cousin to his feet, and, remarkable as it may seem, Raymond walked two miles and then sank down from loss of blood. Fish hastened to Channing, secured a rig and took the wounded man the rest of the way. The bullet could not be found and the doctors say that it must have glanced off from the temple, the impact driving a piece of the skull about three and a half inches in size into the brain. The hole is an inch in diameter. The man is unconscious and it will be impossible for him to survive.

### BETTER THAN A PLASTER.

A piece of flannel dampened with Chamberlain's Pain Balm and bound on the affected parts is better than a plaster for a lame back and for pains in the side or chest. Pain Balm has no superior as a liniment for the relief of deep seated muscular and rheumatic pains. For sale by the Stafford Drug Co.

We are offering rare bargains in winter goods of all kinds. Finnish Mercantile association.

## Burlington Route

St. Louis and the South

Are conveniently and comfortably reached by our two trains a day.

The Limited, leaving Minneapolis at 7:25, St. Paul 8:00 p. m. daily, arrives in St. Louis the following afternoon. Combination of Pullman, Standard and Standard Sleepers and Reclining Chair Cars. The Seenic Express, leaving Minneapolis at 7:30, St. Paul 8:05 a. m., except Sunday, arrives in St. Louis early next morning. Sleeping Cars from Rock Island south.

This is the most direct route from Minneapolis to St. Paul to Clinton, Davenport, Rock Island and all Mississippi River cities. Passengers by either train make close connections with lines south, southeast and southwest in St. Louis Union Station.

**ASK YOUR HOME AGENT FOR TICKETS VIA THE BURLINGTON.**

## WOULD YOU INVEST \$125.00 TO MAKE \$10,000.00?

If so, buy **Hidden Fortune Stock**, of Lead, South Dakota, at \$25 per share. The property is surrounded by the mines of the Homestake Company, whose stock shows a profit in keeping with the above as it advanced from \$1.00 per share to over \$100.00 per share, pays 50 cents per share per month in dividends, and has never missed a dividend for over 20 years. The Hidden Fortune stock should do as well. This company has upwards of \$10,000,000 in sight, and will pay a dividend of 100% on the stock issued. The 100% dividend will be paid on the day that the stock is fully paid and non-assessable. SEND FOR free illustrated prospectus.

NEGAUNEE MINING MEN.

Many Men from Here Hold High Positions With Various Concerns.

For a town of its size, Negaunee has turned out a remarkable number of mining men who hold high positions that require ability of the best order. Most of them have grown to manhood here and have received the basis of their education in the city schools.

Mrs. Tupman, a prominent lady of Richmond, Va., a great sufferer with woman's troubles, tells of her cure by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—For some years I suffered with backache, severe bearing-down pains, leucorrhoea, and falling of the womb. I tried many remedies, but nothing gave any positive relief.

"I commenced taking Lydia E. Pinkham's Vegetable Compound in June, 1901. When I had taken the first half bottle, I felt a vast improvement, and have now taken ten bottles with the result that I feel like a new woman.

"When a medicine has been successful in more than a million cases, it is justice to yourself to say, without trying it, 'I do not believe it would help me'."

Surely you cannot wish to remain weak and sick and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

Mrs. W. H. Pelham, Jr., 108 E. Baker St., Richmond, Va., says: "DEAR MRS. PINKHAM:—I must say that I do not believe there is any female medicine to compare with Lydia E. Pinkham's Vegetable Compound, and I return to you my heartfelt thanks for what your medicine has done for me.

"I took only six bottles, but it has made me feel like a new person. I thank God that there is such a female helper as you."

Be it, therefore, believed by all women who are ill that Lydia E. Pinkham's Vegetable Compound is the medicine they should take.

Mrs. Pinkham, whose address is Lynn, Mass., will answer cheerfully and without cost all letters addressed to her by sick women. Perhaps she has just the knowledge that will help your case—try her to-day—it costs nothing.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

OLD IN CHRIST'S BOYHOOD.

Largest Tree in the World Found in the Sierra Nevada Mountains.

Just outside the borders of the General Grant National Park, the home of California's tree aristocracy, and barely within the boundaries of the United States forest reserve, there was discovered the other day the largest known tree in the world.

Mr. Muir describes the tree as being "well preserved, well balanced, noble and majestic," and gives the following dimensions, which he obtained by careful measurements: At one foot above the ground the circumference is 108 feet; at four feet above the ground, 98 feet; at six feet above the ground the girth is 93 feet.

The newly discovered patriarch is of the species Sequoia gigantea sempervirens, and belongs to a genus which flourished in the arctic regions, the interior of North America and in Europe centuries ago, but which was overwhelmed by the hardships of time, of change and elemental caprices, until two species survived to represent the genus, the Sequoia gigantea and the Sequoia gigantea sempervirens, both of which took up their permanent abode in California.

Take Laxative Cold in One Day. Druggists refund the money if it fails to cure. E. W. Grove's signature is on each box.

Low prices on storm sash. Consolidated Fuel & Lumber Co. (11-11-02)

OLD RESIDENT DIES.

Martin Hakenjos Was a Pioneer in Marquette County.

Martin Hakenjos, one of the pioneers of this region, died yesterday morning, after a short illness. Death was due to an attack of pneumonia. Mr. Hakenjos had lived here for forty-four years, and was sixty years old. He is survived by a wife, four sons and four daughters, all of whom live here, with the exception of Mrs. Charles Bennett of Minneapolis.

Michigan.

HE GOT A DEER. Well Known Marquette Musician the Victim of a Good Joke.

One of Marquette's prominent musicians, who went hunting with Michigan friends, will not soon forget his experience in the forest.

MASON'S ELECT OFFICERS. Negaunee lodge, No. 202, F. & A. M., met Wednesday night and elected the following officers:

COAL GOING AT \$8.50. The Consolidated Fuel company desires to advise its patrons that it will receive the first shipment of hard coal from Marquette today and that it expects more tomorrow.

BUILDING NEW HOUSES. The Bristol Mining company is building four houses, two large and two small, at the Ohio mine.

REACHED THE ZERO MARK. Michigan's reputation for being the coldest place in Marquette county will be maintained this winter.

Up All Night. This getting up every night with the baby, or some of the older children, is all wrong.

Not that the children are to blame. If he's the baby, probably his food is wrong. Vinol will help his mother stand the strain of nursing.

We have often seen whole families of older children who keep the parents awake o' nights. First one, then the other is ailing.

These children seem well enough at times; but they are white, hollow-eyed, often listless, with irregular appetites, peevish and fretful, wakeful at night and constantly taking cold.

The use of Vinol, in conjunction with Vinlax to regulate the bowels, will benefit these children almost in a day.

There is nothing in Vinol that can hurt them. It is pleasant to take. If it doesn't do the work, we will give you the money back.

IN INSTITUTE WORK

UPPER PENINSULA FARMERS DISPLAYING GREAT INTEREST.

MANY MEETINGS TO BE HELD

SUPT. GEISMAR HAS ALREADY ADDRESSED GATHERINGS.

He Reports That They Are Attended Better Than Was the Case Last Year and Feels Encouraged for the Future.

The coming months are going to see a revival of farmers' institute work on the upper peninsula. In past winters the farmers in the agricultural counties have assembled together for meetings and counsel, and at times they have exhibited considerable enthusiasm over their institutes, but the work has lacked the requisite direction, and, at best, has been spasmodic.

Many meetings have been held already in some of the agricultural counties, and others will be addressed by Mr. Geismar and prominent farmers from time to time during the next few months.

In Menominee and Chippewa counties, particularly, the revival of better sugar factory projects is responsible for the enthusiasm and interest displayed by the farmers, but throughout the north country the fillers of the soil have been quick to take heart by the increased interest being manifested in matters agricultural and the disposition to admit that they are an important element in the population.

Mr. Geismar writes: "These institutes are one of the several means calculated to bring about closer union, more effective co-operation and better organization of the farmers, who, as a class, represent the largest proportion of our population, and upon whose thrift, energy and intelligence, more than upon anything else, our national welfare depends."

It appears that if the steamers go down the lake they will have to make the trip light, as the season at the L. S. & I. dock is now ended. The captains of both craft are expecting definite orders daily.

It is also thought probable that the Pathfinder and Mecosta, due with coal, will likewise winter here.

Last Boat to Load Today. The steamers Presque Isle and Pioneer, which cleared yesterday from the upper harbor, were the last boats to take on cargo at the L. S. & I. dock and shipping operations have now been suspended for the winter.

That sealbrow taste of a canton flannel tongue speaks from the liver and tells you to take Rocky Mountain Tea at night, genuine 35 cents. Stafford Drug Co.

SOO CANAL PASSAGES. Sault Ste. Marie, Dec. 4.—(Special.)—Up—Siemens, 4:30 a. m.; Sultan, Geo. Peavey, 11:30; Victory, Constitution, 12:30 p. m.; James Hoyt, 2:30; Stephenson, 4:30.

Hard Colds—People whose blood is pure are not, more likely to take hard colds as are others. Hood's Sarsaparilla makes the blood pure; and this great medicine recovers the system after a cold as no other medicine does. Take Hood's.

PINE SLABS. Four-foot Pine Slabs delivered anywhere in city, \$2.50 per cord. Phone No. 231 or 959. South Arm Lumber Co. (11-27-4f)

farmers, though not giving to the consumer the least benefit of these short-sighted transactions. "It is not strange, therefore, and it is but the simple result of the law of compensation, if also find that where interest in institute work is lacking, the Sears-Roebuck and kindred institutions are doing the largest amount of business. At all events it is gratifying to note the rapidly growing interest which is taken in upper peninsula institute work. With hard work extending over weeks and months, I succeeded in addressing four meetings last season. Thus far, and with winter not even started, I have addressed twenty-two meetings, and over a dozen more are to be held within a short time. In three or four places I had addressed the farmers once before, and wherever at these meetings twenty-five or thirty had been present the first time, seventy-five to 120 attended this year, often staying an hour or more to ask and discuss questions after a meeting which had lasted fully three hours.

SHOULDICE VS. McLEOD ESTATE.

Wellknown Case Up for a Rerearing in Circuit Court Yesterday. The case of Henry Shouldice vs. the Norman McLeod estate was up for a rerearing in circuit court yesterday. This case was tried in March, 1901, when the jury returned a verdict for the plaintiff for the amount of \$3,000. The defendant then appealed to the supreme court, which returned the case to the circuit court for a rerearing, it wanting fuller testimony on some points in the dispute.

A THRILLING TALE.

It Is Told by Second Mate Jackson of the Steamer Hebard. The wonderful escape of the crew of the steamer Hebard and their appearance at the Soo after they had been given up for lost constitute one of the sensations of the last few dangerous weeks of navigation. Second Mate Jackson's story of the wreck of the steamer and the subsequent happenings, as detailed in person to a representative of the Soo Journal, follows:

THREE GRADES OF COAL.

They Are Represented in the Two Car-goes Now in Port. The Massachusetts will be replaced at Pickands' coal dock this morning by the Choctaw. The Massachusetts carried a cargo of stove coal, while the Choctaw's load is made up of egg and nut coal, all anthracite, however.

LODGE ELECTIONS.

Grafton lodge, A. O. U. W., last evening chose the officers who will serve it during the coming year, as follows: Master workman, John G. Stengling; foreman, James Bennett; overseer, Frank Nies; recorder, G. W. Rule; financier, James Jamerson; receiver, Charles A. Eggers; guide, C. Siegel; inside watch, T. McLean; outside watch, Jacob Kalka; trustee, three yeomen, F. Siskney; representative to grand lodge, W. E. Crowley; alternate, R. R. French.

AT DESCHAINE'S BAKERY.

Cream and Rye Bread frozen every morning. (11-14-4f)

THE MARQUETTE NATIONAL BANK MARQUETTE, MICH. CAPITAL \$100,000.00 OFFICERS: F. W. READ, Vice-President. DIRECTORS: EDGAR H. TOWAR, WALTER FITCH, DANIEL W. POWELL, DAN H. BALL. STATEMENT OF CONDITION, Condensed from Statement to the Comptroller of the Currency, November 25th, 1902.

Some dealers are over-anxious to save you money. We think you are wise enough to do your own saving. Our anxiety lies in the direction of how we could still better serve your interests—still better the quality of our merchandise. That's why we carry none of those humdrum makes of shoes that sell at 25c to 50c less in price and are of \$1.00 less in shoe value. JACOB ROSE, 304 Front St., MARQUETTE.

PITTSBURG WALL PAPERS are the most notable success of the new season. Already accepted by the best judges as most perfectly adapted to their needs. F. W. READ & CO., LUMBER GENERAL OFFICE, MARQUETTE, MICHIGAN.

GREAT CLOAK, SUIT AND MILLINERY SALE TO BE CONTINUED. GRABOWER'S BIG STORE. This week we include our entire stock of Cloaks and Millinery with the balance of the sample lines left from last week's sale. Cloak Dep't. Millinery Dep't. Everything at a Great Reduction. LOUIS GRABOWER, MGR.
