A large force of men are developing the property, a mill is in operation and steady shipments are being made. The company has the extension of the ore bodies that have made the Homestake and Hidden Fortune properties famous and have opened them for nearly a mile. Columbus will undoubtedly prove a dividend-payer in the very near future, and stock show a tremendous advance in price. There is no reason why this property should not prove a better one than Homestake, whose stock has advanced from \$1.00 per share to \$115.00 per share, and has never missed a dividend in twenty years.
