CO-OPERATING WITH TAFT.

Pope's Delegate in Philippines Anxious for Peace and Prosperity.

Rome, Jan. 2.—The vatican is in re ceipt of a report on the situation in the Philippines from Mgr. Guidi, apostolic delegate. The delegate expresses the hope that as he and the governor are both animated by a desire to maintain the pacification and secure the prosper ity of the islands that they will succeed in reaching an understanding satisfactory to Rome, Washington and the Phil-

ippine people.

Mgr. Guidi gives a summary of the evidence he has collected with regard to the selling of the friar lands, the set tlement of the rentals, the damages due the church, the conveyance of titles and the administration of charitable and educational trusts. He thinks the question of withdrawal of the friars will be solved through the reorganization of the church. He also says the schism in the Roman Catholic church in the Philippines will be put down, although the separatist movement is believed to be encouraged by the people's dislike of the friars and their desire to have the Filipine church not connected with the an-cient regime.

STOCK MARKET ACTIVE.

Prices Higher Early but React on Profit-Taking and Stiffer Money Rates.

New York, Jan. 2.-Trading on the stock exchange started off with great animation this morning and something like a bulge in prices. Buyers of Tues considerable attention to the conditions in Venezuela. Secretary Hay presented the greater sufferer, since the United hand-to-mouth home demand for cotton day and Wednesday took advantage of ly by shorts, and the break in other the rise to secure profits. The prices grains had a depressing influence. May ran off under this process and the market became dull. The advance was renewed again at some points, but the snap seemed to be taken out of the market follows: and a fairly general selling movement Flour, barrels developed in the afternoon when the Wheat, bushels call money rates stiffened to 15 per cent. Corn, bushels Reading was vigorously advanced to Oats, bushels235,000 above 69 and served to steady prices, but the selling was renewed before the close, which was highly irregular. Sugar ran off a point below Wednesday.

The opening call loan rate of '0 per cent revealed a stiff demand for funds day, the quotations being reported by but caused no uneasiness. Other developments pointed to a relaxed condition in the loan market. The London market showed its usual prompt response to the turn of the year, and money and discounts made added declines under abundant offerings in the market. This was accepted as a hopeful indication of a night, indicate that the banks have gained upwards of \$3,200,000 on the regular express movement with the interior, while the sub-treasury has taken from banks \$1,429,000, indicating a net rain of about \$1,800,000 for the banks. The stiffening of the call loan rate late in the day indicates that there will be the usual delay in the return of funds to the channels of the New York money market, following the disbursement

The action of the day's market gave rise to conjectures as to whether the advance in prices halts upon the expected easing of the money rate or whether A the doubts of last month over the general situation have recurred. Amalgamated Copper continued to advance on the rise in copper, but reacted sharply. Brooklyn Transit was somewhat de pressed and affected the other local tractions. Missouri Pacific, selling exdividend, was notably strong and helped the Southwesterns generally. The closing prices are reported by Paine, Webber & Co. as follows:

Indigestion America's National Disease J

Indigestion is America's National disease. It is responsible for more sickness in America than all other causes combined. It is but one step from indigestion to dyspepsia and another to Catarrh of the Stornach. Indigestion is the all absorbing cause of Catarrh of the Stomach.

Repeated attacks of Indigestion inflames the mucous membranes lining the stomach and exposes the nerves of the stemach, thus causing the glands to secrete a poisonous solution, instead of the natural juices of digestion. This is the condition of

the stomach when it swells after eating. It causes heart-burn, headache, bad breath, sour risings and Catarrh of the Stomach.

The only way to permanently cure Catarrh of the Stomach is to remove the cause. Kodol Dyspepsia Cure cures indigestion and removes the cause of Catarrh of the Stomach forever. Stimulants or Tonics relieve for a time, because they deaden the nerves of the stomach. If they are much used the system requires them forever afterwards and they finally derange the liver and kidneys.

Tablets containing soda relieve because of their alkaline effect, but their continued use destroys the secretory power of the gastric glands.

KODOL does not only relieve, but it cures permanently because it exercises no depreciating influence upon any organ, and by reason of its digestive, assimilative and nutrient properties, it nourishes and strengthens them all.

KODOL relieves inflammation of the mucous membranes lining the stomach, protects the nerves, and enables the glands to secrete the natural juices of digestion. This is wherein KODOL digests what you eat, and enables the stomach and digestive organs to transform all of the wholesome food that may be eaten into the kind of rich, red blood that makes health, strength, tissue, brain, brawn and bone. The use of KODOL produces a condition in which all the functions of the stomach and digestive organs are exerted with regular-

No appetite, loss of strength sour stomach, nervousness, headache, constipation, bad breath, general debility, sour risings and catarrh of the stomach are all due to indigestion. Kocol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, happily combined, in a most pleasant and palatable form, with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stom-

ach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Nature is willing that perfect digestion should be maintained, and a grateful stomach sweetly responds with growing appetite to the strengthening effect of Kodol upon the digestive organs.

MAYOR STOPPED GAMBLING.

How a Montana Official Broke Up the Game in His Town.

"Speaking of gambling," said an old mer, after he had won three throws he dice, "reminds me of a little story. The legislature thought it would be good thing to stop gambling in Mor tana, and a law was enacted which meant that all games of faro, poker coulette and the like must close,

per share. The company controls 645 acres of land, located in the Black Hills, Lead City, S. D. A large force of men are developing the property, a mill is in operation and steady shipments are being made. The company has the extension of the ore bodies that have made the Homestake and Hidden Fortune properties famous and have opened them for nearly a mile. Columbus will undoubtedly prove a dividend-payer in the very near future, and stock show a tremendous advance in price. There is no reason why this property should not prove a better one than Homestake, whose stock has advanced from \$1.00 per share to \$115.00 per share, and has never missed a dividend in twenty years.

HIDDEN FORTUNE at \$1.25 per share.

located in the same general vicinity, is also an excellent purchase. The new mill is nearly completed, and as soon as same is in operation the company will be on a dividend-paying basis.

I strongly recommend the purchase of the above stocks. \$100.00 invested in Homestake shows profits of over \$10,000, besides many times your money back in dividends. The Columbus and Hidden Fortune will undoubtedly do as well. Stocks fully paid and non-assessable. Write for illustrated prospectus and full particulars. HERBERT S. SHAW.
