CABINET PLAN OUT

REMEDY FOR TRUST EVIL PROPOSED BY ADMINISTRATION.

BASED ON COMMERCE REGULATION

PENALIZES TRANSPORTATION OF COMBINE-MADE PRODUCTS.

Rebates and Discriminating Rates Declared to Constitute the Chief Restriction on Competition and These It Prevents.

Washington, Jan. 6.—In reply to a request for his views on trusts, Attorney General Knox has addressed identical letters to Senator Hoar, chairman of the senate judiciary committee, and Representative Littlefield, chairman of the sub-committee on trusts of the house judiciary committee, suggesting legislation that will take the form of penalizing the transportation of trust-made goods.

The attorney general says the federal courts should be given power to restrain such transportation, as the present law is not sufficient to meet existing conditions. The operation of any law on the subject he thinks should be limited to common carriers subject to the act to regulate commerce. He recommends a commission to aid in carrying out the present law which will give publicity to all operations of corporations and combinations.

Tonight the following abstract of the attorney general's recommendations was given out at the White House. It represents the general attitude of the administration on the subject, and was authorized by the president:

Open Competition Sought.
The people do not desire the business of the country interfered with beyond the regulation and necessary control of combinations where they act improperly and to correct any tendency toward monopoly. In this country, where money is cheap and abundant and within reach of keen and capable men, monopoly will be impossible if competition is kept free. Small enterprises have certain advantages over large combinations, and will live and thrive if assured of an open and fair field.

Rebates and discriminatory rates constitute one of the chief restrictions on competition. They unjustly swell the earnings of favored concerns and, supporting a vast volume of capital stock, contribute largely to the upbuilding of monopoly.

The situation respecting transportation discriminations and the entry of independent capital into new industries has lately been improved. It is now known that the amount of capital embarked in independent enterprises in the past two years at least equals the total capital of the great combinations formed within the previous twelve years. With assurance against predatory competition, this improvement will continue.

Individual industrial experience, with the certainty of the secure employment of capital, may be trusted to compete effectively with such selfish combinations as are not formed for sound economic reasons but merely in order to capitalize the country's prosperity for the benefit of their promoters. The existence of most of these combinations has not increased the productive capacity of the country; they have merely acquired ownership of pre-existing industries.

Legislation Recommended.
These recommendations for immediate legislation are made: That all discriminatory practices affecting interstate trade be made offenses to be enjoined and punished. Such legislation to be directed alike against those who give and those who receive illegal advantages, and to cover discrimination in prices as against competitors in particular localities resorted to for the purpose of destroying competition.

In order to reach the producers guilty of these offenses, who are, as producers merely, beyond national control, penalty should be imposed upon the interstate and foreign transportation of the goods produced by them and federal courts should be given power to restrain such transportation at the government's suit.

Such legislation is necessary because the existing interstate commerce law does not give an effective remedy in this class of cases against either shipper or carrier. The casual omission in the interstate commerce act should now be supplied by imposing penalty upon carrier and beneficiary alike, and by giving to the courts the right to restrain all such infractions of the law.

Limited to Common Carriers.
The prohibition against carriers should be limited to those subject to the act to regulate commerce. Only carriers operating a line of railroad or a rail and water line as one line are required to publish their rates and adhere to them. It is impracticable to control lines operating wholly by water. The rates of water transportation are necessarily open to the freest competition and are invariably low by comparison, and thus naturally furnish a standard of reasonableness without express regulation.

It should be made unlawful to transport traffic by carriers subject to the interstate commerce act at a less rate than the published rate, and all who participate in violation of the law should be punished.

Provision should also be made to reach incorporations which produce

wholly within a state but whose products enter interstate commerce. This provision should relate, first, to concerns which fatten on rebates, and second, to concerns which sell commodities below the general price in particular localities of which in any other ways in particular localities seek to destroy competition.

There should be a comprehensive plan to enable the government to get all the facts bearing upon the organization and practices of concerns engaged in interstate commerce, not with a view to hampering any legitimate business of such concerns, but in order to be in position to take action if necessary.

Bureau of Publicity Proposed.
To this end a commission or special bureau in the proposed department of commerce should be created whose duty it should be to investigate the operations of concerns engaged in interstate or foreign commerce, to gather information and data enabling it to make recommendations for additional legislation and to report to the president. This would be the first step in securing proper publicity.

This commission should have authority to inquire into the management of any concern doing interstate business whenever it became necessary or desirable; it should have authority to call and receive reports from them and to compel testimony from all witnesses and by the production of books, papers, etc.

These recommendations are based on the central thought that the first step should be taken by a law aimed at what are certainly known to be unreasonable practices, directly restrictive of freedom of commerce, and by a law securing some governmental supervision as outlined above.

A special act should be passed at once to speed the final decision of cases pending or to be raised under the present anti-trust law, providing for the hearing of such cases by full benches of district judges and direct appeal from circuit courts to the supreme court of the United States.

UNANIMOUS FOR ALGER.
Joint Republican Caucus Nominates the General for Senator.

Lansing, Mich., Jan. 6.—General Alger was tonight nominated by the joint Republican legislative caucuses to fill the unexpired term of the late Senator McMillan. An ovation was given General Alger when he made his speech of acceptance.

Bismarck, N. D., Jan. 6.—Senator Handshoven was tonight renominated by the Republican caucus to succeed himself in the United States senate.

Harrisburg, Pa., Jan. 6.—United States Senator Penrose was renominated by the Republican caucus tonight.

Jefferson City, Mo., Jan. 6.—Governor Dockery this evening announced positively that he would not be a candidate for senator against former Governor William J. Stone.

TORTURED BY THIEVES.
Aged Woman's Feet Burned Until She Tells of Hidden Money.

Connellsville, Pa., Jan. 6.—Levi Eicher, aged ninety, and his wife, residing in Springfield township, were tortured by masked thieves last night until they told where their money was hidden. The robbers held a lighted lamp to Mrs. Eicher's feet, which were burned until the flesh fell off before she would consent to show them where the \$225 the couple had hidden. Then they bound the victims to their bed with ropes and left them.

FOUR DIE IN CHICAGO FIRE.
Porter Smoking in Bed Held Accountable for the Loss of Life.

Chicago, Jan. 6.—Mrs. E. J. Perry and two little daughters were suffocated to death and Ethel Saunders, a niece of Mrs. Perry, jumped from a fourth story window and was killed in a fire which slightly damaged the Hotel Somerset early today. Four other inmates of the hotel were more or less injured. It is believed the fire was caused by William Clemens, the hotel porter, smoking cigarettes in bed. Clemens was arrested.

BOY TELLS OF FATHER'S MURDER.
Columbus, Neb., Jan. 6.—Johnnie Borschers, aged eight, today testified against his half brother Herman, who is also a mere lad, being tried for the murder of his father. The child said that Herman produced a gun for the purpose of killing his parent. The gun was hidden until the night of the killing, when Herman brought it out and shot his father in the back of the head while the latter was eating supper. The boy testified that Herman hauled the body to a strawstack, covered it with straw and set it on fire, and said that the hand and bones found by neighbors were those of his father.

TRAINMEN'S DEMANDS REFUSED.
St. Louis, Jan. 6.—It is stated by a railroad official high in authority, who requested the suppression of his name, that the request of the trainmen of western systems for an increase in wages of 20 per cent has been decisively refused by all the roads centering in St. Louis.

RECEIVER FOR COPPER COMPANY.
Los Angeles, Cal., Jan. 6.—A receiver was today appointed for the Copper Bell Mining company of Virginia, with headquarters at New York, capital a million. Many stockholders are Eastern people of small means.

BURNED IN VAPOR BATH.
New York, Jan. 6.—Miss Evelyn Burden, daughter of T. Townsend Burden, was seriously burned at the family residence at Madison Square today while taking a vapor bath.

BLIZZARD RAGING

FIERCER STORM KNOCKS TRAFFIC IN SOUTH DAKOTA.

GRAVE FEARS OF LOSS OF LIFE

GALE OF HURRICANE FORCE AFFECTS A WIDE AREA.

Wind Attains a Velocity of in Excess of Seventy Miles and Does Much Havoc in North Dakota, Nebraska and Iowa.

St. Paul, Jan. 6.—Meagre reports have reached St. Paul of a terrific blizzard raging tonight in South Dakota and moving rapidly eastward. Sioux Falls is almost entirely cut off, there is snow but one wire between that place and Sioux City, Ia., and this is being monopolized by the railroads for train service orders.

The storm struck Sioux City at 6 o'clock. The thermometer sank rapidly and the wind rose almost to hurricane velocity, one report putting its speed at ninety miles an hour, and before it snow was driven in great blinding sheets, making traffic of any kind almost impossible. The storm has shown no sign of abatement, and it is feared its fury may last forty-eight hours. By morning it is thought railway service will be practically at a standstill, and fears are entertained for settlers in the country.

The weather for some days has been extremely mild, and it is thought many settlers have been caught out upon the prairies. Fuel is very scarce in some sections and the cold wave which naturally will follow the blizzard will cause increased suffering.

Summit, S. D., Jan. 6.—The worst blizzard since January, 1888, is now raging.

North Dakota Capital Damaged.
Bismarck, N. D., Jan. 6.—This city is in the midst of a great midwinter hurricane. The wind has reached sixty-four miles an hour, the greatest ever recorded in January. Hardly had the legislature adjourned when both houses were struck by the wind. The heavy glass in the skylight fell into the capitol rotunda, narrowly missing several persons. A portion of the capitol roof was torn off and the cupola windows were beaten in. There has been much destruction by wind throughout the city.

Des Moines, Ia., Jan. 6.—At midnight a furious blizzard is raging. Much damage has been done. Telephone lines are down and signs have been torn off and plate glass windows broken. The temperature is falling rapidly.

Omaha, Jan. 6.—A severe wind storm struck portions of Nebraska and Iowa this afternoon and continued until late tonight. Telegraph and telephone wires are prostrated.

Sioux City, Ia., Jan. 6.—The wind in this city and vicinity reached a velocity of seventy-two miles tonight, doing great damage. It is snowing at midnight.

Council Bluffs, Ia., Jan. 6.—A high wind blew in store fronts and unroofed buildings here tonight.

URGES COMPULSORY ARBITRATION
Gov. Stone Reports Coal Strike to Have Cost the State Over \$1,000,000.

Harrisburg, Pa., Jan. 6.—The Pennsylvania legislature organized at noon today. In his message to the legislature Governor Stone devotes considerable space to the anthracite coal strike, saying the expenses incurred by the state exceed a million. He urges the passage of a compulsory arbitration law and additional legislation for the protection of children employed about the mines.

DIE IN THEIR BEDS.
Escaping Gas Kills a Family of Four at Chicago.

Chicago, Jan. 6.—An entire family, consisting of Albert Finklestein, aged fifty; his wife, fifty years; grandson, aged seven, and daughter, eighteen years, were asphyxiated last night. The tip of a gas jet was found on the floor and the gas was turned on.

THOUSANDS KILLED BY CHOLERA.
Washington, Jan. 6.—Probably the most interesting and exhaustive treatise on the Philippine Islands ever compiled was issued at the war department today in the form of appendices to the report of the Philippine commission. Cholera statistics are given prominently. From the time of the first appearance in Malolos to Sept. 1, 1902, the total number of recorded cases was 52,326, of which 37,473 resulted fatally. The report details largely with the success attending the efforts to instruct the Filipinos in American methods.

BIG COMBINE IN COAL.
Baltimore, Jan. 6.—Three of the largest coal companies of the United States today formed an alliance which, for all practical purposes, will be a combination. The companies involved are: Consolidated, Maryland; Fairmount, West Virginia; Somerset, Pennsylvania. The combined capital is \$31,750,000 and the combined output 8,500,000 tons per year.

CARNEGIE OFFERS \$1,500,000.
Philadelphia, Jan. 6.—Andrew Carnegie has offered to give Philadelphia a million and a half toward the extension of its free library system.

STRIKE HEARINGS RESUME.
Lackawanna Sheriff Testifies Coal Companies Paid for Deputies.

Philadelphia, Jan. 6.—The anthracite coal strike commenced resuming its work in this city today. The sheriff of Lackawanna county gave in detail his experiences during the strike. He said that President Mitchell had several times assisted him in preventing trouble, and admitted that he had employed fifty deputies who the coal companies had paid for.

While the rest of the day was taken up in hearing stories told of intimidation, boycotting and personal violence, the commission learned nothing new, the evidence being mostly cumulative. It was stated by a member of the commission today that it is possible the hearings of the commission may take up not above two more weeks. The lawyers for the operators met this afternoon and arranged to expedite the hearings.

STEEL TRUSTS' BIG PROFITS.
Net Earnings for Last Year Are Reported at \$122,562,000.

New York, Jan. 6.—The directors of the United States Steel Corporation today declared the regular quarterly dividend of 1 per cent on common and 1 1/2 per cent on preferred stock. A statement was issued showing net earnings for the calendar year, with December estimated, of \$132,662,000. The net earnings for the quarter ended Dec. 31 were \$31,389,613, an increase of \$1,579,700 compared with the same period of 1901.

The board approved the plan reported by the finance committee for profit-sharing and subscription to stock by employees. It was reported to the board that the plan for stock subscription was being well received by employees and that within three days six thousand shares had been subscribed for.

MAKES DEMAND ON SAN DOMINGO.
Immediate Payment of \$350,000 Claim Asked by Minister Powell.

San Domingo, Jan. 6.—United States Minister Powell made a demand on the Dominican government today for the immediate payment of \$352,000 for the Clyde line.

It was announced from San Domingo Dec. 13 that Minister Powell had formally demanded the withdrawal of a decree changing the port dues and that, failing to comply with it, the Dominican government pay the Clyde line the money due that company and recognize certain other rights claimed by the United States minister for the company. The government, it is understood, is disposed to resist the demand.

BRITAIN PROTESTS TO TURKEY.
Objects to Passage of Russian Warships Through the Dardanelles.

Constantinople, Jan. 6.—Great Britain has vigorously protested to the Turkish government against the permission granted to four unarmed Russian torpedo boat destroyers to pass through the Dardanelles into the Black sea under the commercial flag of Russia. The vessels were about to start on the trip.

Berlin, Jan. 6.—The Associated Press is informed that the German government declines to associate itself with the protest of Great Britain and Italy to the porte, concerning the passage through the Dardanelles into the Black sea of the Russian torpedo boat destroyers, and that it has informed Russia to that effect.

ROAD TO SPEND HUGE SUM.
Increase of \$200,000,000 in Capital Proposed by Pennsylvania Company.

Philadelphia, Jan. 6.—At the annual meeting of the Pennsylvania railroad company on March 10 next shareholders will be asked to authorize an increase in the capital stock to four hundred millions, nearly double the amount now outstanding. The increased capitalization is deemed necessary because of improvements contemplated. While the New York tunnel is to be built by another company, the Pennsylvania will own all the stock, and at least fifty million dollars will be used for this purpose. There will be several million dollars spent in Washington, and fifty millions on permanent improvements on the road.

GEO. S. DAVIS BANKRUPT.
Detroit Drug Man Owes \$14,000 and Has \$5,000 of Assets.

Detroit, Jan. 6.—George S. Davis, for many years a member of the drug firm of Park, Davis & Co., filed a petition of voluntary bankruptcy today. His liabilities are \$244,000 and assets \$5,000.

LOST WITH EIGHTEEN LIVES.
Port Townsend, Wash., Jan. 6.—News of the wreck of the Norwegian bark Prince Arthur and the drowning of eighteen of her crew was received today. The wreck occurred near Osette, off the coast of Washington, the night of Jan. 2. Only two of the members of the crew were saved, and they were nearly exhausted when washed ashore. The bodies of the drowned seamen were buried by ranchers and Indians living near the scene of the disaster as they came ashore.

MOORS AGAIN MEET IN BATTLE.
Ceuta, Morocco, Jan. 6.—Another battle is reported to have taken place at Tetuan between the forces of the sultan and the pretender. It is rumored the latter was victorious.

JACK MUNROE MEETS TARTAR.
Anacostia, Mont., Jan. 6.—Jack Sullivan, a local boxer, tonight stayed four rounds before Jack Munroe, the man who did the same thing with Jeffries.

LOOK OUT FOR CATARRH

The cold-wave flag means zero weather, icy, moisture-laden winds, and the beginning of winter in earnest. To Catarrh sufferers there is nothing cheering in these climatic changes...

Look out for Catarrh in winter, for cold stirs the blood and causes excessive secretion of mucus and brings to life all the slumbering poisons that make Catarrh the most abominable of all diseases...

SSS

SSS keeps the blood in such perfect order that cold waves cause no alarm and the change from the heat of summer to the rigors of winter produce no hurtful effects...

Secretary Wilson, in a recent interview, made the startling prediction that the American people will yet eat two cent sugar, the entire product being furnished by the beet sugar industry...

CURING CONSUMPTION.

When Scott's Emulsion makes the consumptive gain flesh it is curing his consumption. Exactly what goes on inside to make the consumptive gain weight when taking Scott's Emulsion is still a mystery...

Scott's Emulsion is a reliable help. Send for Free Sample. SCOTT & BOWNE, Chemists, 420 Pearl St., N. Y.

The plan of feeding stock, in order to utilize it. It will be but a short time before every ton of the pulp is utilized. A couple of years ago, when the industry was first introduced in this country...

DISLIKE THE ALLIANCE. If the British Liberals were not so hopelessly split up into fragments and without a leader of ability to organize and direct them, advantage might be taken of an apparent opportunity to make a strong fight against the party in power.

The educational bill was believed not long ago to offer such an opportunity. There was open rebellion in the government party ranks against some of the leading features of the bill.

Marquette people who have had great hopes of seeing the Marquette City & Presque Isle Street railway rejoinanted by the expenditure of \$25,000 of the stockholders' money should not take the council's action Monday evening to heart...

Secretary Wilson, in a recent interview, made the startling prediction that the American people will yet eat two cent sugar, the entire product being furnished by the beet sugar industry...

What are Humors? They are vitiated or morbid fluids coursing the veins and affecting the tissues. They are commonly due to defective digestion but are sometimes inherited.

Hood's Sarsaparilla which also builds up the system that has suffered from them. It is the best medicine for all humors.

Upper Peninsula.

Pulpwood Operators Active—The Michigan Pulp Company, operating a camp north of Newberry, has a crew of about seventy men at work and is putting in the neighborhood of 2,000 pieces daily...

He Took Leg Bail—Frank Montgomery of Baraga, awaiting trial at the next term of circuit court on the charge of highway robbery, made his escape from the county jail at L'Anse a few days ago.

A Monster Pine Tree—Casper Butler, of the Flint Steel, Ontonagon county, has a pine tree upon his homestead which will equal if not exceed in size any tree cut in the county during recent years.

Sink Hole Causing Trouble—The Chicago & Northwestern company has a crew at work filling a big sink hole that exists on the line just before entering the town of Amasa, Iron county.

Hair Not Combed for Years—Mrs. Rosa Kolsh of Menominee has been pronounced insane by the examining physicians. She will be sent to Newberry as soon as there is room for her in the asylum at that place.

Testimony in the suit in the United States court, involving the ownership of the Davis mine, two miles east of Ironwood, was taken recently before United States Commissioner Winchester.

August Janowski, an old settler residing near Cedar River, Menominee county, can thank his cat for his being alive today.

But nothing is likely to come of it. The Liberals are themselves divided on the subject, as they were on the educational bill. They have no leader capable of bringing them together on this, or apparently any other matter at present in view.

But nothing is likely to come of it. The Liberals are themselves divided on the subject, as they were on the educational bill. They have no leader capable of bringing them together on this, or apparently any other matter at present in view.

IRON NOTES.

An eastern authority contributes the following to the discussion of the question of ore prices for 1903: "From some of the merchant ore companies there has come an intimation recently that some advances is due, in view of the low price of ore in the past year compared with that of pig iron."

It would seem that the entire ore situation in the next decade will turn on the policy pursued by the United States Steel corporation in its effort to guarantee a continuous dividend-paying record. Appraising its ore reserves at \$700,000,000 indicates an expectation of a time when its control of the Lake Superior product will be more complete than now.

The new company since its assumption has greatly developed the property and over a million tons of the richest ore is now in sight. In fact, the property gives evidence of outstripping even the Big Norrie at Ironwood, hitherto considered the leading Gogebic mine.

In the early days of the Gogebic boom, '84, '85 and '86, the Davis was one of the Burton group of mines, known as the First National. Espy site boarding houses, captain's residence, etc., were then already erected, all of which, however, have been torn down and stolen, mostly for firewood, during the ten years of its abandonment.

The startling announcement of a Discovery that will surely lengthen life is made by Editor O. H. Downey, of Chubbuck, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for Consumption is the most infallible remedy that I have ever known for Coughs, Colds and Grip."

It is interesting to note that the movement of the past three years is the distinct gains made in the percentages of Mesaba ores that have gone to market. The following table shows the percentage furnished by the new range from the year 1893. The figures represent gross tons:

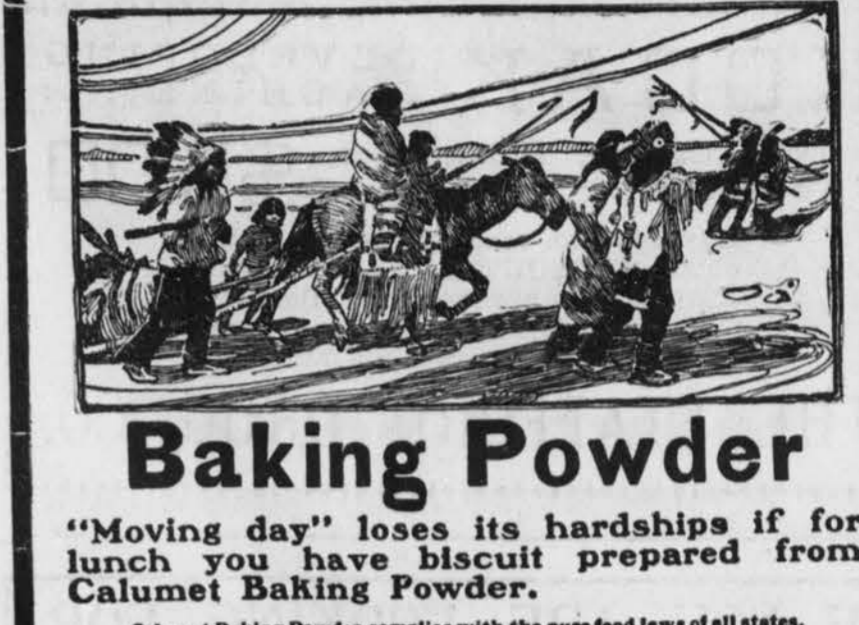

Table with 3 columns: Year, Mesaba, Total. Rows for 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902 (approx).

In the earlier years 25 per cent of Mesaba ores in a furnace mixture was the average that it was believed could be safely handled. This increased later to about one-third.

The total ore shipments of the Gogebic range, as per report just tabulated of shipping season closed, foot up 3,554,000 tons by lake and some 300,000 all rail, making a round 4,000,000 tons for the year. This exceeds any previous record and places the Gogebic second only to the Mesaba as an ore producer.

FINDS WAY TO LIVE LONG. The startling announcement of a Discovery that will surely lengthen life is made by Editor O. H. Downey, of Chubbuck, Ind.

CALUMET

"Moving day" loses its hardships if for lunch you have biscuit prepared from Calumet Baking Powder.

Calumet Baking Powder complies with the pure food laws of all states. You can take it anywhere.

He Girdled the Globe—Eugene Boucha of St. Ignace has just arrived home from the Orient, where he saw service in Uncle Sam's army. He enlisted in Company K, Ninth Regiment, U. S. regulars, at Grand Rapids, and since then has made the long journey around the world, besides participating in numerous engagements with both the Philippines and Chinese.

News of Mines and Mining in the North Country. An eastern authority contributes the following to the discussion of the question of ore prices for 1903: "From some of the merchant ore companies there has come an intimation recently that some advances is due, in view of the low price of ore in the past year compared with that of pig iron."

MARQUETTE BLUFF DOESN'T GO.
Houghton to Again Play the Macabee Ball Team—Negotiations On.

The members of the Houghton Infantry team were much amused at the challenge, published in Monday's issue of the Mining Journal, from the Marquette Macabee team for another game to be played either at Negaunee or Calumet. The printed challenge was the first intimation the boys had that Marquette wanted another game, and they wondered why the deft was not sent to the management of the Houghton team through the mails instead of being published. As yet no formal challenge has been received, but nevertheless negotiations for another game have been opened with the Marquette team.

Every player on the Houghton team is anxious to play Marquette and The Mining Journal was informed that the Marquette team would be taken on after the Duluth games which will be played in the copper country on Jan. 13, 14 and 15. Houghton is willing to play either in Marquette or Houghton, but the team sees no objection in playing at Negaunee or Calumet. The fairness of an indoor baseball contest depends on the umpire, and if the next game is played in Marquette Houghton will bring an umpire of its own, someone who has umpired before and who is fair and honest. Marquette may select the other umpire.

The Houghton team, however, prefers to have the game played in Houghton and it believes it is entitled to have the contest pulled off there. Marquette can be assured of fair treatment in Houghton and it can bring an umpire of its own. Houghton has a reputation for treating visiting teams well, as Marquette players can attest. The Marquette players who visited Houghton last season to play ball with the locals were nicely entertained and the best of feeling prevailed at the time.

HURT AT THE TRIMOUNTAIN.
Two Employees Painfully Injured, One in a Peculiar Manner.

Two Trimountain employees were painfully but not seriously injured last Saturday. Frank Mehlitz, timber foreman, was struck on the forehead by a stopping rail while removing a large rock which dislodged the steel. Several stitches were required to sew up the wound. Samuel Rowett, the second man injured, was hurt in a rather peculiar manner. He was working in the rock bin in No. 3 rock house. Men at work at the shoots below, not thinking anyone was in the bin, started letting rock down from the bin into the cars. Rowett was unable to escape and he went down with the rock. It was nearly an hour before he was released. His experience was anything but pleasant. Rowett was severely cut and bruised about the body.

THREE NEW LAW-MAKERS.
Houghton county was represented at the opening of the state legislature at Lansing on Monday by three new representatives—W. J. Galbraith, of the First district; J. C. Dunstan, Second district, and A. D. Pettit, Third district. Senator Charles Smith, of South Lake Linden, was accompanied to Lansing by his family. They will reside there during the winter while the legislature is in session. Senator Smith may be instrumental in having a bill passed which will make it possible to incorporate South Lake Linden and Tamarack into a village, something which has been long desired.

Catarrh is an excessive secretion, accompanied with chronic inflammation, from the mucous membrane. Hood's Sarsaparilla acts on the mucous membrane through the blood, reduces inflammation, establishes healthy action, and radically cures all cases of catarrh. 4

The prevention of consumption is entirely a question of commencing the proper treatment in time. Nothing is so well adapted to ward off fatal troubles as Foley's Honey and Tar. Sold by People's Drug store.

MINING NEWS

OSCEOLA COMMITTEE HAMPERED.
Has Been Unable to Procure a Complete List of Stockholders.

The executive committee in charge of the campaign being waged by the Lake stockholders in an effort to overturn the present directorship of the Osceola company is considerably handicapped in its work owing to the fact that it does not possess a complete list of the stockholders to date. The committee was unable to procure such a list and it has had to be content with the list of stockholders of record to Jan. 1 of last year, as filed in the office of the county clerk in July last. It was the only list available. The list of stockholders of record to Jan. 1 of this year will not be filed until the coming July, four months after the annual meeting of the company. Much Osceola stock changed hands during 1902 and the new holders are not known to the local committee and, moreover, there is no known way of finding out quickly and conveniently. On this account it is desired that the Osceola stockholders who have not received the "statement of facts" and proxy blanks and who wish them, apply for them through C. H. Moss of Houghton. It is not the intention to leave out any stockholder and if any have been missed so far it has been because of the reason already stated. Even though the committee is handicapped in this way, also in others, it is very well pleased with results to date. Nearly every mail brings returns in the way of signed blanks.

COPPERDORM BREVITIES.
Miss Edith Wright, of Hancock, has left for New York city to study music.

Special revival meetings are being held each evening this week at the Atlantic M. E. church.

U. S. Hayes, of the Sparrow-Kroll Lumber company, Kenton, was a Houghton visitor yesterday.

SYLVANIA GOLD MINING.

A meeting of the stockholders of the Sylvania Gold Mining company will be held in the Hartmann Hall at Houghton this evening. As much interest has been taken in the recent developments at the property, a large attendance is expected.

Christof Fox and Adolph Haas of Houghton, who recently visited the property in company with Dr. George Koenig, also of Houghton, will report on what they saw and did. Mr. Fox, who picked up a bag full of specimens at random on the vein of ore, will report on the assay as made by Dr. Koenig, of the Michigan College of Mines. Dr. Koenig completed the analysis this week. He is quoted as saying that the ore is the best of its kind (sulphide) he ever examined, and recommends that it be sent direct to the smelter from the mine instead of first being run through the mill. Dr. Koenig's assay shows that the ore runs \$7.10 in gold to the ton. Mr. Haas, who will also make a brief report, is a director in the company.

Another object of the meeting will be to talk over certain plans which the company has in mind. It is the intention to send some well-known and competent mining men to the property to make a thorough examination as to the quantity and quality of the ore, workings, etc., and to report on the same in order to satisfy every one interested.

William W. Uren, superintendent of the Trimountain stamp mill, has been selected to participate in the trip and will leave Jan. 15 if he can get away at that time.

The Sylvania property is located in Clear Creek county, Colorado. The company is capitalized for a million shares. But \$50,000 have been sold and the majority of that is held in Houghton and Ontonagon counties. Development work at the property has gone along swimmingly and already the company has a large body of ore blocked out by means of tunnels. A mill will be built at once, the company having enough money by the sale of stock to build and equip the structure without touching the treasury reserve of half a million shares. Local stockholders feel satisfied that they have a good thing in the Sylvania.

APPEARS AT HANCOCK TODAY.

The "Kitties" band will give two entertainments at the Kerdge theatre, Hancock, this afternoon and evening. The band is assured of large attendances at each performance. A special train over the Mineral Range road will be run from Lake Linden, leaving at 7 o'clock and leaving on the return trip twenty minutes after the entertainment tonight, for the accommodation of those from the Torch Lake district who wish to attend.

OLD LANDMARK DESTROYED.

A small frame structure, owned by the Bosch Brewing company, of Lake Linden and occupied by Al Witting and Charles Spencer, on the Atlantic sands west of Houghton and on the Houghton side of Portage lake, was destroyed by fire between 1 and 2 o'clock yesterday morning. Both the Houghton and Hancock departments were called out, but neither went to the scene. The Hancock company saw that the blaze was out of its jurisdiction while the Houghton firemen concluded there was no need for their services and they turned back. No other building was near the burning structure, so there was no danger of the fire spreading. A defective chimney was the cause of the blaze and had there been water available at the outset the destruction of the building could have been prevented. The loss to the brewing company is about \$300.

The fire removed one of the oldest landmarks on Portage Lake. The building was occupied up to last summer by John Harper, who conducted a ferry across the lake from Houghton to Hancock at that point. Witting and Spencer, who operated the ferry after Harper left, moved in the house and started up a small store, carrying a small stock of groceries, confectionery and notions. Mr. Witting has been unfortunate as regards fires. Last year he was burned out in the Mason block on Quincy street, Hancock, where he conducted a meat market.

APPEARS AT HANCOCK TODAY.

The "Kitties" hand will give two entertainments at the Kerdge theatre, Hancock, this afternoon and evening. The band is assured of large attendances at each performance. A special train over the Mineral Range road will be run from Lake Linden, leaving at 7 o'clock and leaving on the return trip twenty minutes after the entertainment tonight, for the accommodation of those from the Torch Lake district who wish to attend.

(3-2-11)

\$34 for futures. The New York market continued dull and unchanged at 11.37 1/2c for standard, 12.20c for Lake and 12.10c for electrolytic and castings.

The Globe copper property, which adjoins the Champion on the south, may resume development operations in the future, but just what cannot be said. Two diamond drill holes have been located the Champion vein with copper in and one place the vein is seventy-five feet wide, but the overburden is very heavy and the first shaft sunk must go down through 235 feet of overburden or drift before it strikes solid rock.

The Baltic output for 1902 of approximately 6,250,000 pounds of ingot copper stands unequaled in the history of any mine ever operated south of Portage Lake. The figures compare with 5,641,482 pounds in 1901, and the comparative increase did not commence until April 1. The Baltic yield of copper of about twenty-three pounds for every ton of rock stamped in 1902 is almost identical with that of the year previous, and compares with nineteen and one-half pounds in 1900 and seventeen pounds in 1899.

H. Z. Brock, superintendent of the Northwestern Development syndicate's gold property in British Columbia, is expected in Hancock, his former home, this week to confer with the directors of the company. A. H. Floeter, formerly mining engineer at the Phoenix copper mine in Keweenaw county, who resigned that position to go with the Northwestern syndicate, will be left in charge of the property during Mr. Brock's absence. Work on the mill and tramway is reported well under way. Two tunnels are being run on the Golden claim by electric drills, and by the middle of February it is expected the tunnels will be well into the rich vein under the outcrop. The outcrop is rich on surface.

A New York dispatch states that it is asserted that the United Metals Selling company sold nearly 500,000,000 pounds of copper in 1902. This is about the normal production of all the copper mines in the United States for one year. Inasmuch as the company does not sell for the Calumet, which probably produced 80,000,000 pounds, and some other larger producers, it will be seen that the total sales for the year have been largely in excess of a year's production. In other words, the surplus stock has been reduced, if not altogether wiped out. The copper industry has, therefore, started the new year with small stocks on hand and with production within the limits of present consumption, while any material increase in the demand from Germany or elsewhere would cause an advance in the price. This is the real bullish factor in the copper stocks, and is of far more importance than any of the deals which have been talked about.

HOAR ON TRUST EVIL

MASSACHUSETTS SENATOR DE LIVERS NOTABLE SPEECH.

EXPLAINS HIS ANTI-COMBINE BILL

SEES GRAVE PERIL IN PRESENT GROWTH OF MONOPOLY.

Attack by Vest of Missouri on Protected Industries Through Operation of the Dingley Law Also Makes Eventful the Senate Session.

Washington, Jan. 6.—The day in the senate was eventful because of a notable speech by Senator Hoar on his bill regarding trusts and an attack by Senator Vest on protected industries through the operation of the Dingley law.

Senator Hoar's utterances were listened to with marked attention. He said that nearly all thoughtful men in this country are agreed that the legislation in commerce ought to be had for the regulation and control of what are called "trusts" and of the large masses of capital accumulated by corporations or artificial persons holding property and conducting business without individual liability.

Fiery Speech by Vest.

Senator Vest used as the text for his remarks his resolution instructing the committee on Finance to prepare and report a bill removing the duty on coal.

Senator Hoar's Address.

Senator Hoar's speech was devoted entirely to the question of trusts and partly to an explanation of his recently introduced anti-trust bill.

The senator then took up the discussion of the effect of the control of vast wealth by individuals, saying that in such a system there was much to be feared for the Republic.

Peril in Corporate Wealth.

But, great as were the possibilities of the accumulation of great wealth by individuals he did not find in such accumulation the same peril that is found in corporate control of such wealth.

This is what Ayer's Hair Vigor does: Restores color to gray hair, makes the hair grow, stops falling, cures dandruff.

putation, except so far as its honor or reputation is essential to its getting money. It has no soul and no conscience. In general, the men who are most powerful in its management can, if they see fit, avoid responsibility to public opinion.

Chief Evils of the Trusts.

Mr. Hoar then took up the question of trusts as they now exist, pointing out what he conceived to be their chief evils, as follows: 1. Destruction of competition.

There is one central power alone with which the skilled workman must deal and one dominant will to which he must submit.

Pays Respects to Morgan.

Mr. Hoar said that many were of the opinion that the concentration of capital in the hands of a few men would be counterbalanced by corresponding advantages.

No Remedy in Socialism.

Mr. Hoar said that he did not agree with those who think they find an adequate remedy for the evils of the trusts in the removal of the tariff from all the trust-made articles.

This commerce he continued in the hands of great corporations and it is properly in their hands. Their work might be beneficial as well as other wise, and for this reason, congress should go slowly and carefully in devising a remedy for the ill.

CONFLICTING REPORTS FILED.

House Committee Divided on Organization of Commerce Department.

Washington, Jan. 6.—Representative Mann of Illinois today reported for the house committee on interstate and foreign commerce a substitute for the senate bill to establish the proposed new department of commerce and labor.

Florida, was filed in opposition to the transfer of the department of labor to the department of commerce as tending to subordinate and take from the former's dignity.

Outlines His Measure.

He then presented the following outline of the restrictions imposed by his bill on corporations:

First, publicity in the conduct of their business and the constitution of their organization; second, the power to stop their business altogether if they violate the laws enacted by congress; third, strict penalties on them and their officers for such violations; fourth, personal liability for all debts, obligations and wrongdoings of the directors, officers and agents unless the laws be fully complied with.

GIVES ARMY A GENERAL STAFF.

House Passes the Measure Advocated by the Administration.

Washington, Jan. 6.—The house today passed the bill for the creation of a general staff for the army by the vote of 152 to 52.

The general staff corps is to consist of one chief of staff and two general officers, all to be detailed by the president from officers of the army at large not below the grade of brigadier general.

Monastic Power is Limited.

The erection of the new bishoprics, however, is significant of the fact that in future the religious direction of these islands will be according to the western non-monastic mode.

WAIVED EXAMINATION. OUTDOOR SPORTS NEGLECTED.

Saloon Men Will Appear at Next Term of Circuit Court. Indoor Baseball Craze Has Taken Away Taste for Them.

John Nesbitt and Charles Augere, who were arrested for violations of the liquor law, waived examination when they appeared before Justice Thoren Monday morning, and their cases will come up before the circuit court at its February term. The saloonkeepers both propose to fight the case to the bitter end. The parties who instigated the prosecution say they have plenty of evidence to sustain the charges. The people who are making the liquor men toe the mark say they are not hopeful of making Negaunee a prohibition town at an early date, but they assert that they are going to camp on the trail of every man who is caught violating a single one of the liquor statutes and make him pay the penalty. If the list of such offenders is long, it is not surprising. The dealers in the wet goods say they have nothing to fear. They claim that they are obeying the liquor laws. At the time of the last upheaval, when the temperance people were busy with the result that they secured several convictions at Marquette, most of the offenders took warning and have been fighting shy of infractions of the law ever since.

So far this winter not a single car on the Ishpeming-Negaunee Street railway line has been delayed on account of a snow blockade. This is a remarkable record for this climate. "The oldest inhabitant" has searched his memory for a season that can offer a parallel for mild weather prolonged into January, and he can recall only one, that back in the early eighties. The snow is now sufficient for lumbering and the complaint that was heard from woodsmen a short time ago has not been voiced during the past few weeks.

The electric line is not going to take any chances of a continuance of the mild weather, however, and the snow is kept cleared from the tracks as carefully as when it was a number of feet deep, so that a blizzard would not cause a long suspension of traffic.

THE PRINTS TO PLAY. The Marquette and Ishpeming prints are going to meet at the rink Saturday night to finish the ten-inning game that they started at Marquette a few weeks ago. The prints are redoubtable players and run off a big edition each evening. Some of the Ishpeming men belong to the other teams that are so numerous and can put up a good game.

LOCAL LACONICS. J. Davidson was here from Champion Monday. Clyde Bashaw expects to leave soon for Crystal Falls. The professional men and the city team play tonight. Ed Sness returned to the school he is attending at Milwaukee Monday. Joe Penglass and Sam Hooper, Jr., left Monday night for Bisbee, Arizona. George LeGault came up from Escanaba and spent Sunday with his parents. Margaret Sness entertained a party of friends at a postal party Sunday night.

Miss Sena Rasmussen, one of the clerks with Rosen Bros., is taking a two weeks' vacation. Mrs. L. N. Lanthier, who has been visiting friends here, returned to her home at Wadena Monday. L. E. Adams left for Michigan Monday. He will spend some time there working for his company.

A number of the local barbers went to Marquette Monday night to attend a meeting of the Barbers' union at that place. The baseball game that was scheduled for Monday night between the Ishpeming plumbers and Dyer's team failed to materialize. It has been called off. Phil Levine is working on the books at his father's store at Republic during the absence of his brother Louis, who is in Milwaukee having his eyes treated.

Work was begun Monday on the new shaft house at the Lucy mine. The engine house and the other buildings are nearly completed. The shaft house will be built of wood and work on it will be rushed so that it will be ready for business as soon as the season opens. The Breitung House ball players and the Traveling men are doing a lot of talking about their game Friday night. These two teams are conceded to be the strongest in the association, and since the drummers lack of the Marquette men their crack has come up, a large crowd will come over from Ishpeming to witness the game.

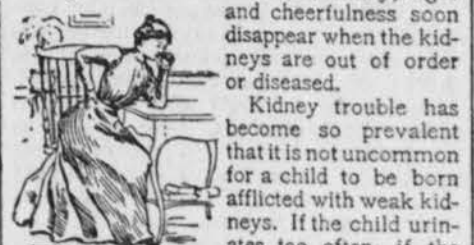

DEAFNESS CANNOT BE CURED by local appliances, as they cannot reach the diseased portion of the ear. There is only one way to cure the deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, deafness is the result, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

ESTABLISHES A NEW THRONE. Leader of Chinese Rebels With 100,000 Men Proclaims Himself Ruler.

Tacoma, Wash., Jan. 6.—The steamship Moyne brings news from Yokohama that a very unsettled state of affairs exists in Manchuria. Telegrams to Tokio papers say the Chinese commandant at Mukden has telegraphed to Pekin that Kan Hufu, who heads the insurgents in northern Manchuria, is now leader of 100,000 men and has obtained possession of the most important points in the neighborhood of Mukden. Kan Hufu has proclaimed himself sovereign and is setting up his court near Mukden. He declares that China has no means of enforcing authority and that a new ruler must reign in Manchuria if that province is to be retained from the grasp of Russia.

Shanghai, Jan. 5.—The disturbances in the interior of China are spreading. Five thousand troops have been sent to suppress the disorders in the province of Che-Kian.

DEVICE PREVENTS SNORING. Chicago Man Invents a Mouthpiece for Public Comfort.

Chicago, Jan. 6.—Persons who snore have no longer any excuse to offer for disturbing the slumbers of those who occupy berths above them in sleeping cars or rooms next to theirs in hotels. John J. Geraghty, who has supplied campaign buttons for nearly every candidate who has ever been elected to office in Chicago, has discovered a preventative for snoring. His invention is a simple one. The device consists of a tortoise shell mouthpiece, which can be adjusted to fit the mouth of any person. When the mouthpiece is placed between the teeth and the lips Mr. Geraghty declares it is impossible for anyone who wears it to snore. He says there is no danger that the person who wears the mouthpiece will swallow it and that it does not discommode the person in whose mouth it is placed.

In addition to its ability to prevent snoring the mouthpiece has other uses. It compels persons who have been making speeches or have been in warm rooms to breathe through their noses when going out into the cold air. "Doctors have told me," Mr. Geraghty said, "that my invention is an almost sure preventive for bronchial diseases. They say it is so simple they wonder no one thought of it before now. If they had hundreds of lives would have been saved."

Mr. Geraghty has been offered \$3,000 for his rights in the invention, but he cannot write a paragraph without 'the' to open it, omit.

CONVINCING EVIDENCE. In a secluded corner of one of Philadelphia's clubs the other evening a number of physicians were comfortably seated, and the talk turned to tales of their profession. One of the doctors present related the following at his own expense: "On a chilly morning last winter, as I returned to my office after several early and important visits, I asked of my servant, Thomas, did Mrs. S— get the medicine I ordered for her yesterday? 'I suppose so,' replied Thomas, 'I see all the blinds are down this morning.'"

"As the gathering recovered from their laughter one of the fraternity remarked: 'That is as good as the story of an old classmate of mine who sent in a death certificate with his name signed in the space reserved for Cause of Death.'—Philadelphia Ledger.

A TAILOR'S IDEA OF NIAGARA. Two lean, tanned men were lurching together at the Waldorf-Astoria. One was Foxhall Keene and the other was Lawrence Waterbury, the polo player, who has just been barred from the New York stock exchange for the reason that he is a somewhat reckless speculator. Mr. Keene and Mr. Waterbury were talking about Niagara. The latter said: "I think it was on my second visit to Niagara that I came upon my tailor there. He did not see me. He stood gazing at the horses in absorption. His eyes were fixed on the pale cloud of misty spray that rolled about the foot of the big waterfall and his look was awed. 'I clapped him on the back and said: "Well, sir, what do you think of that?" "He turned and answered: 'I was just

TO TEACH TEACHERS

MANUAL TRAINING INSTRUCTOR WILL BE EMPLOYED SHORTLY.

WILL BE HERE FOR A MONTH

WORK WILL BE INTRODUCED IN PRIMARY GRADES VERY SOON.

Simpler Branches Will Be Taught in Preparation for the Real Start at the New Building Next Fall.

Manual training work, in some of its elementary branches, will shortly be introduced in the grades of the Marquette schools. At a recent meeting the trustees authorized Superintendent Thompson to employ an expert primary industrial instructor who shall, for a month, give the primary teachers instruction in the proper methods of conducting the work which it is proposed to introduce here. This instruction, it is expected, will make the local teachers capable of conducting the simpler branches.

Mr. Thompson is now looking for a first class man or woman to undertake the task of instructing the Marquette teachers, and he shortly expects to engage the proper person. He will then get a supply of material and the lessons for the teachers will begin forthwith. It is likely that it will be possible to introduce the work in the lower grades in the course of six or eight weeks.

This simpler work will pave the way for the general introduction of manual training next September, when the new building of the Ridge street group will be at least partially equipped for some of the more important and complicated work, and will be in charge of a competent manual training director.

other. Addresses, orations, and music can be heard to particular advantage. The electric lights have finally been installed in Symphony hall, and its equipment is now complete. The ventilation of the Froebel group of buildings, of which there has been more or less criticism, has been pronounced satisfactory by an expert on heating and ventilation who recently visited the structures, inspecting them thoroughly. He looked over the heating plant, the big hot air fan, inspected the flues, taking measurements, and, in short, gave all three buildings a careful examination. The school officers inform The Mining Journal that he reported that the buildings were receiving, right along, more fresh air than they really need.

The equipment of the physical and chemical laboratories at the high school was largely added to during the vacation, and it is now complete enough for effective work. The laboratories are furnished with a view of facilitating study, and are nicely arranged for experiments. A device has been installed for carrying off all offensive and odoriferous gases formed during the progress of chemical experiments. This insures against annoyance or interruption of work in other parts of the building.

Schools Renovated. Head Janitor El Quarters took advantage of the holidays to renovate the various schools. They were thoroughly cleaned, floors varnished where necessary and many minor repairs made. The several buildings were in excellent condition when they were opened for the reception of the pupils Monday.

The Nestor school resumed sessions yesterday, it having been thoroughly fumigated. This measure was rendered necessary by the discovery that the janitress had had scarlet fever in her family for a couple of weeks prior to the closing of school for the holidays. She failed to inform the health officer and she managed to keep knowledge of the fact from the school officers, in the meanwhile cleaning the school regularly. Fortunately she did not spread the infection. Now, owing to the thorough fumigation it has received, the building is again absolutely safe.

The enrollment of the schools is large, and it is expected that the attendance will be big from now on to the close of the sessions. It was very satisfactory up to the holidays, being notable both for regularity and a paucity of tardy marks.

MINOR MATTERS.

Business That Came Up at Council Session Monday Evening.

Besides the all absorbing franchise extension question, a number of matters of minor business were considered at the meeting of the council Monday evening. A number of proposals on the construction of a steel bridge across the Carp river, at the point where it is crossed by the Sands road, were opened. That of the American Bridge company of New York, offering to build the bridge for \$948, was considered the most advantageous proposition, and accordingly the mayor and controller were instructed to draw up the necessary contract.

The contract for the construction of a six-inch tile sewer on Third street, between Fisher street and a point twenty feet north of the north line of Mather street, was let to Michael Lane, at the rate of forty-four cents per lineal foot, and \$1.25 for lampholes. The only other bidder was Eric Johnson, who asked fifty cents per lineal foot.

The streets and sewers committee reported in favor of giving petitioning residents of Craig street one are lamp, instead of the two for which they had asked. Petitions for additional are lights were received from residents in the neighborhood of the corners of Bluff street and Park avenue and Washington and Seventh streets. They were referred to the committee on streets and sewers.

The liquor bond of Joseph Belaire was accepted.

"LOST RIVER"

It Was Greeted by Only Fair but Appreciative House. Melodrama is not the highest type of dramatic achievement, but as long as it flourishes plays like "Lost River" will be popular. The play was presented to a fair-sized house at the theatre last evening. Its scene is laid in the Lost River country in Indiana, and several complete setting and mechanical effects are used to obtain the realism. The road company is unusually capable for the class of play, and its efforts were well received last evening. "Lost River" is melodramatic in action from beginning to end, with many humorous scenes, it being further enlivened by a male quartet. It appeared to please the house.
