## TRUST BILL NEXT

HOUSE WILL PASS THE MEASURE THIS WEEK.

DEBATE IS TO BE RESTRICTED

BUSINESS MOVING SLOWLY IN THE SENATE.

No Action as Yet on Any of the Supply Bills—Hard Fight Due on the Cuban Treaty and Statehood Bill May Be Talked to Death.

Washington, Jan. 18.—The statehood bill and the Cuban reciprocity treaty will vie with each other in demanding the attention of the senate this week. The probabilities are that before the close of the week both of them will be displaced temporarily by the executive, legislative and judicial appropriation bill, which will be laid before the full senate committee tomorrow. Its consideration by the full committee will be completed at one or two sittings, and as soon as possible it will be taken up in the senate.

The appropriation bills will be taken up as rapidly as possible in order to avoid the necessity for an extra session. Senator Allison, chairman of the committee on appropriations, has given notice that he will resist all further efforts to secure an adjournment of the senate from Thursday to Monday, as all the supply bills yet remain to be passed.

Much Opposition to the Treaty. Senator Cullom, chairman of the committee on foreign relations, has given notice that he will ask the senate to go into executive session Monday to consider the Cuban treaty. The indications are the treaty will be before the senate for some time to come. Many Southern senators feel that the treaty discriminates against Southern products, and they are organizing for a determined fight. There are also some indications that while the best sugar interests may not openly antagonize the treaty as amended, they will stand ready to encourage others in opposition. The tobacco interests are dissatisfied with the agreement and are preparing to fight it vigorously.

After 2 o'clock tomorrow Senator Foraker will continue his speech in support of the omnibus statehood bill. He will be followed by Senator Burdick, in opposition, who will speak for two or three days. All efforts looking to a compromise on the statehood bill appear to have been abandoned, and both sides now claim it their purpose to fight it out on the merits already stated.

The trust question is receiving no little attention at the hands of senators, but the talk is confined largely to the cloak rooms.

House to Act This Week. The indications are that the present week will witness the passing by the house of the anti-trust measure prepared by the judiciary committee. The sub-committee which is at work on the bill expects to have it ready to report to the full committee on Tuesday, and no delay is expected in the full committee. As soon as the measure is reported, everything will be sidetracked and it will be brought into the house by a special order for its consideration will be prepared. The Democrats will desire an extended debate, but owing to the lateness of the session it is not probable that more than two days at the most will be allowed, and it is more likely to be a single day.

Appropriation bills probably will occupy the time of the house to the exclusion of everything else if the anti-trust bill does not appear in the arena.

ANOTHER CABINET PLACE. House Votes to Establish the New Department of Commerce.

Washington, Jan. 18.—At the end of a struggle which prolonged the day's session until after 6 o'clock, the house yesterday passed by a vote of 237 to 157 a bill to establish a department of commerce and labor. The vote stood 137 to 40. All the Republicans and twenty-nine Democrats voted for the bill.

In the committee of the whole, the Democrats and a sprinkling of Republicans, led by Representative Corliss of Michigan, struck out that portion of the bill providing for a bureau of insurance. By a piece of parliamentary strategy Representative Hepburn of Iowa, chairman of the interstate commerce commission, sought to have this provision restored, but the opposition stood fast and he was overcome.

The Democrats then attempted to recommit the bill with instructions to report back a separate bill for the creation of a department of labor, but the motion only commanded the support of a few Democrats. The only other substantial amendment was one to authorize the president to transfer the interstate commerce commission to the new department.

The substitute, as passed by the house, differs from the senate bill in important particulars. It leaves the lifesaving and marine corps, steamboat inspection and the bureau of navigation and shipping under the control of the treasury department, but authorizes the president, in his discretion, to transfer other bureaus for the collection of statistics and the interstate commerce commission to the new department. It places under control of the new department the national bureau of standards, the coast and geodetic survey and the bureau of immigration, including jurisdiction over Chinese immigration, and also creates a bureau of manufacturers and corporations.

## BRINGS THE DEAD TO LIFE.

Marvelous Fluid the Discovery of a Cleveland Physician.

Cleveland, O., Jan. 18.—Many Cleveland physicians consider the experiments which have been carried on by Dr. George W. Crile, of Cleveland, in the use of "adrenalin" to restore suspended animation as being very successful.

The operation leading to the discovery of the power of the new fluid was performed on a dog by Dr. Crile, assisted by several other physicians. After the dog was apparently dead for fifteen minutes from strangulation, a few drops of adrenalin were administered and artificial respiration was resorted to, and the dog was brought to comparative consciousness. Adrenalin has not yet been tried on human beings.

The fact of the discovery was announced yesterday by Dr. Crile through an article contributed to a local medical journal. In describing the method of restoring life to apparently dead bodies, the doctor said: "By the combined use of intravenous infusions of adrenalin, artificial respiration and phytanic pressure upon the throat over the heart, animals dead as long as fifteen minutes have been restored to life. Animals decapitated were made to live ten and one-half hours." Dr. Crile stated that adrenalin is an extract obtained from glands directly above the kidneys of animals.

## HIT BROKEN RAIL GOES ASHORE IN FOG

SPECIAL TRAIN ON THE GREAT WESTERN IS WRECKED.

ENGINEER DEAD; 30 OTHERS HURT

CONSIDERED A MIRACLE DEATH LIST IS NOT GREATER.

Speed Carries Train Across a Bridge on the Ties, Then It Plunges Into an Embankment and the Cars Are Piled in a Heap.

Sycamore, Ills., Jan. 18.—In a wreck near here today on the Great Western railroad, Engineer J. D. Healy of Minneapolis, was killed and thirty others were seriously injured. Of these, several may recover.

The most seriously injured are: John Bashore, Ida Grove, Ia., mail clerk; Mrs. E. H. Riggs, wife of the conductor; Mrs. I. L. Stewart, Hampton, Ia., back injured; I. L. Stewart, Hampton, editor Franklin County Record, badly bruised; Cloy C. Smith, Des Moines; Thos. D. Healy, state senator; James Finnegan, Sycamore, Ills.; Miss Narina Sanford, Sycamore.

A Des Moines and Minneapolis special, running at high speed, struck a broken rail just as the train was about to cross a bridge. The speed of the train carried it across the bridge on the ties; then the entire train pitched down a twenty-foot embankment and the cars were jumbled together in a complete wreck. It is considered miraculous that there was not great loss of life.

Five men who were not injured succeeded in pulling the other passengers through car windows. The injured were carried to a neighboring farm house. Assistance arrived in two hours and the injured passengers were brought to a Sycamore hospital.

Baltimore, Jan. 18.—Two trainmen are dead and two others are perhaps fatally injured as a result of the explosion today of a freight locomotive on the Baltimore & Ohio railroad near Monrovia.

## GUNS BOMBARD IN VENEZUELA.

German Cruiser and Fort Exchange Shots—Three Soldiers Injured.

Maracaibo, Venezuela, Jan. 18.—The German cruiser Panther shelled Fort San Carlos, at the entrance to Lake Maracaibo, yesterday for one hour. The fort returned the fire with four guns. The Panther withdrew in the direction of Curacao. General Bello, commander of the fort, says the fort was shelled without provocation and without previous notification or the delivering of an ultimatum. The fort suffered no damage, though three men were injured.

## ABRAM S. HEWITT DEAD.

Noted New York Philanthropist Expires in His 81st Year.

New York, Jan. 18.—Abram S. Hewitt, former mayor of New York and for many years a representative in congress, died this morning in his eighty-first year, having been critically ill for ten days with obstructive jaundice. His wife, three sons and three daughters were with him when the end came. The funeral will be conducted Wednesday by Bishop Potter at Calvary church, of which Mr. Hewitt was a member.

## NOVEL CHESS MATCH PLAYED.

Passengers on Ocean Liners Engage in Game by Wireless Telegraphy.

New York, Jan. 18.—A chess match by wireless telegraphy enlivened the voyage of the steamers Philadelphia and Lucania, which arrived here today. The vessels got into wireless communication on Friday when a suggestion for a chess match was flashed from the Lucania and accepted by the Philadelphia. The Philadelphia team was victorious, its opponent resigning after twelve moves.

## RIVALS THE KLONDIKE.

Rich Strike of Gold Causing Great Stampede in Alaska.

Seattle, Wash., Jan. 18.—A Dawson special dispatch to the Times tonight says:

A tremendously rich strike, the magnitude of which has never been equalled since Bob Henderson told his wonderful story of the Klondike, has been made eighteen miles north of "Point of Point," on the Tanana river, 300 miles from its source. The district is in American territory. A wild stampede of prospectors from all the surrounding country is in progress. As yet few have reached the discovery.

The original strike was made on Pedro creek, running parallel with the Tanana, about eighteen miles from the river. This creek is staked for miles. Dan McCarthy, a well-known Dawson man, has now made a discovery of gold on the main stream, a continuation of Pedro, which has proved to be the richest so far found. It yielded twenty-five cents to the pan at thirteen feet down and bedrock has not yet been reached. Seven cents to the pan is the best yield so far on Pedro creek.

## TODAY'S WEATHER.

Washington, Jan. 18.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer, Monday; Tuesday, snow.

## STEAMER LAHN IN PERIL NEAR ROCK OF GIBRALTAR.

HAS 800 PASSENGERS ABOARD

ALL ATTEMPTS TO FLOAT THE LINER UNSUCCESSFUL.

Vessel Is Bound from Mediterranean Ports to New York and Should the Wind Shift Her Position Would Be Critical.

Gibraltar, Jan. 18.—The North German Lloyd steamer Lahn, from Mediterranean ports for New York, went ashore in a fog this morning at Tumara, ten miles east of the rock of Gibraltar. On board the steamer are one hundred saloon passengers and seven hundred emigrants.

The steamer is not in great danger at present, but all attempts to float her have been unsuccessful and the passengers probably will be transferred to another steamer. All the passengers are still on board the vessel. They are safe provided the wind holds in the west. Another attempt to float the Lahn will be made with the morning tide.

Should the wind shift to the east the steamer's position would be critical.

## British Steamer Lost With Many.

London, Jan. 18.—The steamer Uppha, from Cardiff for Cork, has been missing since last Friday. Wreckage washed up on the coast near Cork leaves no doubt that the vessel foundered during a gale. She carried a crew of twenty men and had some steerage passengers.

## Missing Alaskan Steamer Safe.

Seattle, Wash., Jan. 18.—A telegram from Valdez, Alaska, announces that the long missing steamer Dawson City passed Unga island the latter part of December. The vessel was under sail, having exhausted her supply of fuel.

## GOZNALES STILL VERY LOW.

Earnest Prayers for Tillman's Victim Offered in Many Churches.

Columbia, Mo., Jan. 18.—There have been more encouraging symptoms in the condition of Editor Gonzales today than have appeared at any time since his wounding by Lieutenant Governor Tillman last Thursday, but it is impossible to give any promise as to the ultimate result of his case. The physicians say simply that he is holding his own and probably has passed the period of danger from peritonitis.

The wounds in the intestines today have shown improvement. The obstruction has been relieved and the passages have been kept open, while the wounds themselves have progressed favorably in healing. The wound in the liver is not a source of immediate danger, but serious developments may occur in the next few days. The physicians said today that if Gonzales lived until Tuesday without unfavorable developments he would likely have an even chance for recovery. This evening there was a return of nausea and more restlessness than the physicians wished to see and they are watching with considerable anxiety for relief from these disturbances.

In the churches here today there were earnest prayers for the life of the stricken editor. In all the leading churches the ministers offered special supplication and all referred in high terms to the services of the wounded man to the city and the state. There have been no developments in the affair today beyond the fluctuations in the wounded man's condition.

## All Hope Abandoned.

Columbia, Monday, Jan. 19.—At 3:10 this morning all hope of Editor Gonzales' recovery had been practically abandoned.

## GEN. BOOTH SPEAKS TO 10,000.

Cleveland, Jan. 18.—General William Booth, of the Salvation Army, spoke to ten thousand people in the Cleveland theatre today.

## MITCHELL CHEERED

OVATION GIVEN MINERS' PRESIDENT AT INDIANAPOLIS.

GREAT CROWD WELCOMES HIM

ANNUAL CONVENTION OF THE MINERS OPENS TODAY.

National Conference to Fix the Soft Coal Wage Scale Will Follow, and Many Delegates Are Present from Every Section.

Indianapolis, Jan. 18.—The fourteenth annual convention of the United Mine Workers of America will open here tomorrow morning at 10 o'clock. Following it will occur the national wage conference of soft coal operators and miners.

Every train today brought delegates from every part of the United States. President Mitchell arrived this afternoon and was taken immediately to his hotel, where he held an informal reception. Vice President Lewis and many members of the executive board are already here and those who are not will arrive tomorrow morning.

President Mitchell was met at Greenfield by the reception committee, representing the Central Labor union of Indianapolis, citizens, and Elks. A big crowd was at the depot to welcome him. When Mitchell appeared he was greeted with cheers which continued until he had left his carriage and entered his hotel. President Samuel Gompers, of the American Federation of Labor, who had been expected, did not arrive and probably will find it impossible to attend the convention at all.

After the arrival of Mitchell at the hotel, many delegates, organizers and officers called. At 6 o'clock a dinner was served at the hotel for Mitchell and the reception committee. Mitchell spoke briefly, thanking the people of Indianapolis for their cordial welcome extended to him. He declared that he thought strikes horrible, yet he believed the laboring men should never surrender the right to strike and protect themselves against organized capital. He said he did not regard the interests of capital and labor as so much opposed to each other that they cannot be reconciled.

## COAL TRUST FOUND AT WORK.

Grand Jury Investigating a Chicago to Report Many Indictments.

Chicago, Jan. 18.—Forty indictments were voted by the special grand jury investigating the shortage of coal. No names are given out. It is said that among the men against whom it is the intention to return indictments are many who stand high in the business and social world. This fact was given by State's Attorney Deneen as one of the reasons why no list of the accused men would be made public just now.

The decision to vote the indictments was reached by the jury late last night. Early in the afternoon it became evident that the jury had made up its mind that true bills should be brought, and the coal men found cause for disconsolation in these sinister facts.

On analyzing the evidence to which they had been listening for a week the jurors believed that they had found a combination covering the course of coal from the mines to the consumers. They also found outstanding existing between the operators in an attempt to govern the whole bituminous supply of Illinois and Indiana. What application the conspiracy act could have to local dealers and the operators in the face of the fact that the combination is general was a hard question for the jurors, but the attorney explained that as soon as the coal was brought into Illinois the possessor who in any way restrained trade is amenable.

Late tonight it was said that when the jury makes its report tomorrow morning, there will be thirty-nine or forty true bills returned against coal dealers. The indictments, it is said, will charge the coal dealers with violations of the anti-trust laws and with blacklisting. A conspiracy to fix prices is the charge made against the retailers, and a combination to fix prices, and blacklisting, is the charge made against the operators. The charge against the retailers are made specially, it is said, against the Retail Dealers' association of Illinois and Wisconsin.

## Toledo Crowd Plunders Coal Cars.

Toledo, O., Jan. 18.—A mob consisting of 200 men, women, boys and girls yesterday seized five cars of soft coal which had just arrived in the Wheeling & Lake Erie railroad yards consigned to the National Malleable Castings company and local oil men. There was no attempt to stop the wholesale theft, neither the police nor officials of the railway or castings company taking a hand in the affair. The fuel was carried off in wagons, sleighs, soap boxes, buckets and baskets, and nothing but slack was left in any of the cars.

## To Put Guards on Coal Trains.

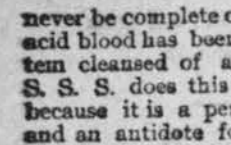

Shamokin, Pa., Jan. 18.—It is announced that the Reading and Pennsylvania companies will put guards on coal trains to prevent their being held up by people suffering from the coal famine.

## SCHWAB AT PALERMO.

Palermo, Jan. 18.—Charles M. Schwab, who arrived here yesterday on the yacht Marguerita, refuses to see visitors. He has not left the yacht, but is reported to be well.

BOUND HAND AND FOOT

With muscles drawn and throbbing with pain, and joints swollen, stiff and tender, the rheumatoid patient is as helpless and dependent as though bound hand and foot.

When the system becomes infected with Uric Acid and other like poisons they are absorbed into the blood and lodged in the muscles, joints and nerves.

It is said that the prediction that comparatively few bills would be introduced in the legislature during the present session is at fault and that the number of measures submitted has already assumed formidable proportions.

There was some difference of opinion in the senate over Angus Kerr's appointment as tax commissioner, as evidenced by the fact that the senators seriously considered a motion to refer it back to the executive committee.

The house of representatives at Lansing did well to table a resolution calling on our representative delegation at Washington to oppose Cuban reciprocity on account of harm that might possibly result to the beet sugar industry.

In a communication to the New York Herald James H. Eckels, formerly controller of the currency, and now president of one of the largest banking institutions in the country, takes a hopeful view of the business outlook.

By all means let us have a constitutional convention and a general overhauling of the badly frayed set of foundational doctrines of faith which has been doing service for more than a half century.

trust investments. There will be less undervaluing of such enterprises this year and none at all where water is an important component.

Concerning the appointment by the present administration of negroes to office there is no justifiable criticism provided the rule under which these appointments are made by the president is rigidly followed.

The Escanaba Journal contributes the following to the discussion of hunting accidents during the deer season, and the means of preventing them:

A great deal of discussion is going on about the present game laws, and as usual a great many fool plans are being proposed. One of these latter is the suggestion that the legislature enact a law prohibiting the use of the high power 30-30 rifle, which it is claimed, are extremely dangerous on account of their great range.

The work wonders in curing Kidney Troubles, Female Complaints, Nervous Diseases, Constipation, Dyspepsia, and Malaria. Vigorous health and strength always follow their use.

Charles T. Yerkes, the well known street railway magnate, now engaged in the construction of an underground railroad in London, is in this country for a short time, and the other day in a careful interview made a vigorous attack on the trusts.

By all means let us have a constitutional convention and a general overhauling of the badly frayed set of foundational doctrines of faith which has been doing service for more than a half century.

GIBSON MAY NOT PLAY.

Injury May Keep Hockey Captain Out of Games With St. Paul.

Dr. J. L. Gibson, captain of the Portage Lake hockey team, was so severely injured in a practice game at the Amphidrome rink at Houghton Friday evening that he may not be allowed to play in the games against the fast St. Paul seven next Friday and Saturday evenings.

The game in which Gibson was injured was played for the benefit of the Good Will fund of Houghton and a large crowd—fully 600 people—saw the contest. Each team comprised several Portage Lake players.

The management of the Portage Lake team has received word to the effect that the Central Hockey seven, of Duluth, will play in Houghton on the evening of Feb. 12.

Eric Johnson's residence at Dollar Bay, a two-story frame structure, was destroyed by fire Saturday evening.

NESTOR OF U. P. JOURNALISTS.

Fred Mackenzie, Editor of the Calumet News, Dies Aged 71.

Frederick Mackenzie, the veteran editor of the Copper Country Evening News, of Calumet, dropped dead at his home at 9 o'clock Saturday morning.

On only one or two days, when Mr. Mackenzie was very low, did the family feel particularly alarmed during his last attack, which covered a period of ten days.

Mr. Mackenzie was seventy-one years of age. For thirty-three years he was clerk of Calumet township, holding that office to the time of his death.

Mr. Mackenzie was born in London on Oct. 27, 1832. He received his education in the schools of that city and upon his graduation from the Metropolitan High school he took a clerical position.

Mr. Mackenzie worked as a surface man for the Pennsylvania Mining company until the spring of 1866 and then went to Hancock, where he took a position with a hardware firm.

Mr. Mackenzie was a Mason, also a member of One and All Lodge, Sons of St. George, of Calumet; a member of the Chicago Press club; a charter member of the Lake Superior Press association, and a member of the Reform club, of New York City.

Mr. Mackenzie was widely known to the newspaper fraternity throughout the state and his death will be regretted. His many copper country friends join in expressions of sympathy for the bereaved family.

NEW HARBOR OF REFUGE. Lake Carriers Want One at Keweenaw Point, and Are Working for It.

The Lake Carriers' association, through Captain George P. McKay, chairman of the committee on aids to navigation, is at work to secure a new harbor of refuge on Lake Superior at Keweenaw point.

NEW BLOCK FOR CALUMET. Dr. Sorsen, of Calumet, has purchased the lease on a piece of property on Oak street, Calumet, between Fifth and Sixth, from J. D. Kinnee, and plans will be made at once for the erection of a three-story business block.

SOME CHANCE OF RECOVERY. The condition of Mrs. Margaret Gurney, of the Allouez location, who was severely injured at the Allouez station of the Hancock & Calumet road last Thursday evening, was reported as being improved yesterday.

**PASSENGERS TO SUE**

**PERSONS ARRIVING ON ST. LOUIS TELL OF PERILOUS PASSAGE.**

**THANKFUL TO LAND BUT ANGRY**

**BLAME OFFICIALS FOR PERMITTING SHIP TO GO TO SEA.**

**Average Speed Less Than Ten Knots, Due to Disabled Boilers, and Food Supply Cut Down—Vigorous Resolutions Drafted.**

New York, Jan. 18.—The American line steamer *St. Louis* reached her pier shortly before noon yesterday, over six days behind time on her trip from Southampton and Cherbourg.

The *St. Louis* left Cherbourg Jan. 4 and was thirteen days, five hours and twenty minutes in making the passage, an average speed of 9.74 knots. The first three days the *St. Louis* made fairly good progress considering the weather, which was rough and squally, with high cross seas.

The speed then became so slow that the passengers began to discuss it, and between the rough, stormy weather and the ship's inability to make speed, they became so indignant that meetings were held. Resolutions were adopted condemning the steamship company for permitting the passengers to embark on a steamer whose condition was so pitiable.

Jan. 9 the boilers commenced to leak badly and continued to do so. On Jan. 19, when when the saloon passengers learned of the condition of the steamer's boilers and engines, they held an indignation meeting and adopted resolutions censuring the International Navigation company for sending the *St. Louis* to sea in her dangerous condition.

**Management Condemned.**  
A statement drawn up on board was issued by the passengers on the arrival of the steamer. It is as follows:  
"First, that there is satisfactory evidence that the steamer *St. Louis* entered Southampton harbor Jan. 2 last, after an easterly voyage of more than nine days in a smooth sea, in a crippled condition, and that she was sent to sea on the following day, leaving but little or no time for necessary overhauling and needed repairs.

"Second, that your committee has been credibly informed that this condition was known to the management of the company before embarking passengers.

"Third, that no accident as far as your committee is aware has occurred since leaving Southampton to impair the speed of this ship. The delay has been only such as might have been reasonably expected from the crippled condition of her boilers. Providence, indeed, has been exceedingly kind to us and we are truly grateful that through her tender mercies we have been thus spared a calamity too horrible to contemplate.

"Fourth, we cannot too severely condemn the recklessness of a management that would send such a crippled vessel loaded with human freight to contend with the storms and perils of an Atlantic winter. We believe that our lives have been put in jeopardy, and certainly our loved ones at home are being made to suffer mental anguish, not to mention the severe financial losses many of us have incurred and are now incurring.

**Appeal Made to Captain.**  
"Fifth, that on the evening of Jan. 10, 1903, the following petition was presented to Captain Passow, commanding the steamer *St. Louis*: 'The undersigned passengers of the steamer *St. Louis*, bound for New York, hereby request that in view of the crippled condition of the steamer and the consequent uncertainty of the date of her reaching that port, you hail some fast west-bound steamer for the purpose of transferring us thereto, or that the boat put into Halifax if feasible.' That in reply Captain Passow explained the difficulties and dangers attending a transfer of passengers at sea and further stated that it would be an exceedingly dangerous undertaking to attempt to take the ship in her present condition into the harbor of Halifax. He volunteered the information that he might later on enter Boston harbor and had the question then under advisement.

"Sixth, that it is a matter of keen regret that a first-class steamship, such as the *St. Louis* is reported to be, should not be supplied with the Marconi system, the absence of which has been seriously felt during this ever-to-be-remembered voyage.

**Thanks to Officers and Crew.**  
"Seventh, that the thanks of the passengers are due to the officers of the ship for their uniform courtesy under these trying circumstances in endeavoring to allay our uneasiness and excitement."

The committee consisted of A. P. Lloyd, Louis B. Bernal, the Rev. Arthur Crane, C. W. Bonnyne and Ralph Nichol.

The report of this committee was unanimously approved, and resolutions were adopted condemning the action of the management of the line as outlined in the committee's report. The second-class passengers passed similar resolutions.

After she was sighted off Nantucket Friday night the *St. Louis* made good time to New York and reached her pier two hours ahead of the time set. A large crowd gathered at the American line pier and cheered as the ship came

with her load of human beings for whose safety fears had been felt for several days. Every vantage point on the big dock had been occupied from early in the morning and when the passengers started ashore a quartermaster was placed on guard at every gangplank with orders from the deck superintendent not to allow anyone to go on board. None of the ship's officers were allowed to come ashore.

**Statements by Passengers.**  
The passengers freely expressed their feelings at the delay. A. Partlett Lloyd of Baltimore was one of the signers of the first cabin passengers' resolutions. He said:

"The speeches made at the indignation meeting were much more fiery in tone and much more bitter against the management of the company than the resolutions show. We attempted to make the resolutions as dispassionate as possible. There was no pleasure nor gory aboard the ship. Everyone was as depressed and angry as men and women first began to be rumored about the ship that the boilers were defective and leaky and we sought information from the officers and stewards we could learn nothing. Our fears were either laughed at or evasive answers made.

"But when the officers saw that we were in deadly earnest and would not be denied in our endeavor to know the truth, they changed their attitude and told us promptly what we wanted to know or told us they knew nothing about the cause of the delay. All of the first-class passengers have put their cases in the hands of myself and Mr. Bernal as their lawyers and authorized us to make such claims against the company as we saw fit and to endeavor to collect charges."

**Wilfully Misrepresented Facts.**  
Major C. Cunliffe Owen of the British army said: "The trouble was with the front boilers. Only two out of ten were in use and sometimes only one. The American line agent in London told me that the *St. Louis* would make the passage from Southampton to New York in nine days. I am firmly convinced he knew at the time of the defective condition of the boilers, and wilfully misrepresented the facts to me. On Jan. 12 Captain Passow told a passenger that there were only about 1,200 tons of coal aboard the ship, and that he was afraid that he would not have enough to last the voyage out. The engineers were using the minimum quantity daily to keep the ship going."

The Rev. Arthur Crane of Savannah, Ga., said: "Whatever we may say in condemnation of the management of this line, we should like it distinctly understood that we received nothing but courtesy and honorable treatment from the officers and crew, and we do not hold them responsible all to blame for the hardships and dangers we have had to endure."

**Option on Stock Expired.**  
Victor S. Allen of Stamford, Conn., one of the first-class passengers, said: "I was in Paris and heard that the *St. Louis* had arrived at Southampton with her boilers in a leaky and defective condition. I went to the agent of the line in Paris, told him that I had booked a passage on the ship and wanted him to tell me the exact truth. He said: 'Those reports are malicious lies.' On this representation I came over on the ship. I had an option on \$500,000 of stock, which option expired on Jan. 15. I do not know yet what my losses were, but I shall certainly sue the management of the line for the full amount of my losses."

The American line gave out the following statement later in the day: "The delayed arrival of the *St. Louis* was caused by leaving Cherbourg late and by extremely bad weather. There was nothing in the known condition of her boilers that would have prevented her from reaching here after a normal passage. The marked loss of steaming power could not have been foreseen. Even in the light of our present knowledge there is nothing in any way that affects the perfect safety of the ship. The management much regret the inconvenience caused the passengers and the anxiety caused their friends."

**Captain Explains the Delay.**  
Captain Passow said: "We have just jugged along, and did not have a great deal of trouble. We could not make fast time and that was all. I did not know that the passengers had passed any resolutions. I did know that I was called upon and I explained that it would be impossible for me to transfer them to any other vessel. I did not know resolutions had been drawn up until I was told of them in Mr. Griscom's office."

In reply to a question why his ship had not been sighted by other vessels coming over the northern track he replied: "There were some days when we drifted some ten or twelve miles out of our course. Then again we often experienced snow squalls and the weather was very thick at times. This would allow vessels on the same track to pass us without catching a sight of us. We do not travel on a railroad track, you know, and if a vessel passes another by but a few miles in thick weather the chances are that she might not see the other."

When the captain was questioned as to the boilers he said the management of the line would have to speak on that subject. He said that, of course, it was well known on board that the vessel was to be laid up for repairs after her arrival here.

**Speed Less Than Ten Knots.**  
The *St. Louis* left Cherbourg Jan. 4 at 10:06 a. m. and arrived at Sandy Hook lightship at 6:34 o'clock yesterday morning, an average speed of 9.74 knots. Her day's runs were 341, 289, 332.5, 312, 200, 196.5, 125, 130, 183, 193, 225, 219, and 279.5; total distance, 3,043 knots. The first three days the *St. Louis* made fairly good progress for her ability in

the prevailing weather, which was rough and squally, with high cross seas. Jan. 9 the steamship's boilers commenced to leak badly and continued to do so until yesterday. The *St. Louis* encountered unusually stormy weather throughout. On Jan. 11 and 12 it blew a gale from west, northwest to northwest, accompanied by violent squalls and snow-storms. On these two days the ship logged only 125 and 130 knots.

After the first week the food supply was appreciably cut down, according to the statements of passengers and crew, and eggs were taken from the breakfast menus and only a small allowance of milk was given each passenger. From subordinate officers on the ship it was learned that the diet of the crew for the last week consisted solely of oatmeal and potatoes. After the first week the running water supply was cut off and passengers could get water for toilet and bathing only in buckets, as it was brought to them by the stewards.

**CATHOLIC LEADERS MEET.**  
Executive Board of Federated Societies Hears Flattering Reports.

Cincinnati, Jan. 18.—The executive board of the American Federation of Catholic Societies has been in session here today. The morning session was devoted to a general discussion of the work of the federation and the hearing of reports.

At the afternoon session reports were heard through the secretary from organizations in thirty states and letters were read indicating many accessions. Among the letters was one from the Augustin Fathers of the Philippines. Addresses were made by Archbishop Elder and Bishops, Maes, McPaul and Messmer. Dr. Ganss followed, explaining that a uniform system now prevailed in all governmental Indian schools. Following the address Indian societies were admitted into the federation.

At the night session Bishops McPaul and Messmer and Messrs. Minahan, Mooney and Matre were appointed as a committee on arrangements for the congress of Catholic societies at Atlantic City next July. The committee on law was instructed to prepare books and any improper literature being sent through mails and bring the matter to the attention of the postoffice department at Washington.

**LOUISE LEAVES SWITZERLAND.**  
Crown Prince of Saxony Departs Secretly With M. Girou.

Brussels, Jan. 18.—A dispatch from Geneva to the Petit Bleu says the crown prince of Saxony and M. Girou left Switzerland secretly last evening. They traveled towards the south under assumed names.

**Seek a Haven in France.**  
Mentone, France, Jan. 18.—The Crown Princess of Saxony and M. Girou, with whom she eloped, have arrived here and intend to stay for two months. They have taken the name of M. and Mme. Andre Gerard.

**Legal Separation Arranged For.**  
Berlin, Jan. 18.—The legal representatives of the crown prince and princess of Saxony have arranged terms for a separation. The princess abandons all titles, rights and dignities appertaining to her through her marriage and resumes her maiden name.

**ERECTED BY CHINA.**  
Memorial Arch to Von Ketteler Is Dedicated at Peking.

Peking, Jan. 18.—The dedication of the Von Ketteler memorial arch, which occurred today, was an impressive ceremony. The arch was erected by China. Baron von Ketteler was the German minister who was killed by Boxers at the outbreak of the Boxer trouble.

The dedication took place in the presence of a brilliant assembly of diplomats, Chinese officials, military officers and civilians. Baron von Goitz, first secretary of the German legation, officiated in behalf of Germany, and Prince Chun, brother of the emperor, who was sent to Germany to apologize for the murder of the minister, represented China.

**RIVER SHIPYARD COMBINE.**  
Louisville, Ky., Jan. 18.—Within the next ten days the entire steamboat building interests of the Ohio and Mississippi valleys, from Pittsburg to New Orleans, will be consolidated and merged into one company with a capitalization of more than five million. The moving spirits in the consolidation are W. W. Hazard of Chicago and Edward Howard of Jeffersonville, Ind.

**TRIPLE TRAGEDY IN TEXAS.**  
Dallas, Tex., Jan. 18.—Reports from Fort Stockton state that J. T. Ray is in a critical condition and the Misses Lou and Amy Ray are dead from poison given them by Ray's nephew, who committed suicide after having been arrested here. No particulars have been received here.

**TURKISH REFORMER EXPIRES.**  
Brussels, Jan. 18.—Mahmud Paşa, brother-in-law of the sultan of Turkey and leader of the Turkish reform party, died here today of an illness.

**Cost Government \$100,000 and Will Be Mounted at Sandy Hook—Man Who Constructed It Killed by Worry Over Impending Trial.**

**BIG GUN A SUCCESS**

**TEST MADE OF THE NEW 16-INCH COAST DEFENSE RIFLE.**

**THREE HUGE PROJECTILES FIRED**

**GREAT PIECE OF ORDNANCE CAN CARRY TWENTY MILES.**

**Marked by Wonderful Accuracy.**  
The three tests were marked by the wonderful accuracy with which they fulfilled the mathematical calculations of the army experts. The three shots also proved that the special smokeless powder made for sixteen-inch guns had been accurately prepared.

The first shot was a sort of "warmer." The charge was 500 pounds of smokeless powder, and the velocity of the muzzle was 2,003 feet a second. For the second shot the full charge of 640 pounds of powder was used and the velocity was 2,306.

For the final shot the muzzle was elevated to 4½ degrees, increasing the range to 7,000 yards. All the shots ricocheted two or three times on the water, sending up great fountains of spray. General Crozier said the test showed the gun was an absolute success and proved that sixteen-inch guns could be furnished whenever the country wanted them. Whether any more will be built is a question. Congressman Gillette and several officers present doubted whether any more ever would be built, a number of smaller guns being considered more effective than one enormous weapon.

**Cost Government \$100,000.**  
The gun cost \$100,000. It will be mounted at Sandy Hook. While its range at its highest elevation is about twenty miles, it could be used to hit objects at a distance of only four or five miles. Objects farther away could be seen.

General Crozier made a speech just before the first shot was fired, in which he said the gun was planned sixteen years ago and was authorized by congress to ascertain if guns of that size could be built if needed. He warned those present that the gun might burst, as the charge of smokeless powder was by far the largest ever fired.

**THOUSANDS AT HIS FUNERAL.**  
Hillsboro, Ore., Jan. 18.—The funeral of Congressman Thomas H. Tongue took place here today and was attended by three thousand people, including a delegation of congressmen from Washington, the entire Oregon legislature, the governor, state officials and numerous fraternal bodies. Many special trains were run to Hillsboro that the constituents of Mr. Tongue might attend the funeral.

**MANY DEATHS FROM PLAGUE.**  
Mazatlan, Mexico, Jan. 18.—There have been 107 deaths from the plague since Jan. 1. Most of the women of the higher class have left the city. Trade is reduced to the lowest possible point.

**SCARLET FEVER AT COLLEGE.**  
Chicago, Jan. 18.—Recitations at Lake Forest college have been temporarily suspended owing to a number of cases of scarlet fever that have developed among the students. The disease has filled the college hospital with patients.

**DIRECTOR BAIRD REENGAGED.**  
Ann Arbor, Mich., Jan. 18.—Director Baird of the University of Michigan athletic board has been reappointed for a term of three years.

**WANTED.**  
We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of Indigestion, Dyspepsia and Liver Troubles that has not been cured—and we also mean their results, such as sour stomach, fermentation of food, habitual constiveness, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we wish to correspond with you and send you one of our books free of cost. If you never tried August Flower, try a 25-cent bottle first. We have never known of its failing. If so, something more serious is the matter with you. The 25-cent size has just been introduced this year. Regular size 75 cents. At The Staff-ord Drug Co.

**FIR WOOD.**  
Good dry hardwood, block or split. Dry pine slabs; dry hemlock slabs—any length required. F. W. Read & Co., Marquette. (12-19-14)

**PNEUMONIA AND LA GRIPPE.**  
Coughs cured quickly by Foley's Honey and Tar. Refuse substitutes. Sold by People's Drug store.

**PRISON FOR "CAP." STREETER.**

**Noted Chicago Character Gets an Indeterminate Sentence.**

Chicago, Jan. 18.—"Captain" George W. Streeter, Henry Hoeldtke and William McManis, recently convicted of manslaughter, were yesterday given indeterminate sentences in the penitentiary, a new trial having been denied by Judge Chetlain. A forty days' stay was granted to allow an appeal to a higher court. In the meantime the three men will remain in the county jail.

**DE BLOWITZ DEAD IN PARIS.**  
Apoplexy Kills the Noted Correspondent of the London Times.

Paris, Jan. 18.—Henri De Blowitz, aged seventy-one, for many years the correspondent of the London Times in Paris, died here this evening, the result of an attack of apoplexy a few days ago.

**Sudden Death at Washington.**  
Washington, Jan. 18.—Jacob K. Upton, aged sixty-five, chief clerk of the United States life saving service, died here suddenly tonight.

**UNION MEN ENGAGE IN RIOT.**  
Serious Conflict Marks Federation of Labor Election in Chicago.

Chicago, Jan. 18.—Fraud and violence were resorted to tonight by two factions that sought to gain control of the Chicago Federation of Labor and elect its officers. Eleven assaults were committed and a squad of police was called in to restore order. The police drove from the room 300 men who threatened the judges and clerks of election. One man was seriously injured in the fights before the police arrived and twenty others were more or less bruised.

**FAVORS FOUR MORE WARSHIPS.**  
House Committee Decides on Three Battleships and One Cruiser.

Washington, Jan. 18.—The naval affairs committee has adopted in its entirety the naval increase program provided for by the sub-committee in the naval appropriation bill. The bill, as it now stands, provides for three battleships and one cruiser of 16,000 tons each, two steel training ships and one wooden brig, the latter to be used for training purposes. Provision is made for the construction of the vessel at the government yards if it be found combinations exist.

**ERROR COSTLY TO BANK.**  
Depositor Gets Damage Because Checks Were Not Honored.

Philadelphia, Jan. 18.—In charging a jury Judge Barrett said that a depositor whose checks were dishonored, although he had funds in the bank to meet them, suffered an injury which entitled him to damages. The case on trial was that of Samuel Kurlak, a depositor in the Southwestern National bank. It was shown that while he had a little more than \$300 in the bank he drew four checks against it aggregating less than \$100. The checks were returned marked "no funds." It was discovered subsequently that a bookkeeper had missexed Kurlak's account. The bank admitted its mistake. The jury gave Kurlak a verdict of \$1,000.

**STEEL TRUST BOOSTS PRICES.**  
National Wire Official Enlightens Committee of the House.

Washington, Jan. 18.—An extended hearing was given yesterday by the house ways and means committee to representatives of various manufacturing interests favoring the passage of the bill introduced by Representative Lovering of Massachusetts, which provides that when imported materials which have paid duty are used in the manufacture or production of articles in the United States, but cannot be identified especially by the manufacturer in the production of any article, as is now required, a drawback may be allowed on the exportation of such articles.

W. H. Seaver of the National Wire company said steel billets and raw material cost about \$10 a ton less abroad than at home and in answer to a question added: "At the present time we can buy it abroad and pay the duty conditions, however, he said, are somewhat abnormal at this time.

"Is there any one company or corporation that controls the price of raw material in this country?" was asked by a member of the committee.

"I should say yes," replied Mr. Seaver, "that being the United States Steel Corporation."

"What has been its act toward raising or lowering prices?" Mr. Grosvenor asked.

"Its policy has been to retain the prices at such a high level that the independent concerns have found it very difficult to live," replied Mr. Seaver.

Replying to a question as to the average price of steel in this country and abroad Mr. Seaver said: "I know it to be a fact that in spite of the enormous demand of this country certain companies are still holding onto the export business at prices which I know are very much less than those obtained in this country."

Representative Swanson asked Mr. Seaver: "When you sell your finished product do you sell it abroad for less than you sell it at home?"

"Yes, sir," was the reply, "because we get the benefit of the drawback."

Winn Grabower, C. B. Jones and J. J. Loria, Marquette, are authorized to take subscriptions for the Marquette & Arizona Mining Co. stock. (12-19-14)

**FIR WOOD.**  
Good dry hardwood, block or split. Dry pine slabs; dry hemlock slabs—any length required. F. W. Read & Co., Marquette. (12-19-14)

**PNEUMONIA AND LA GRIPPE.**  
Coughs cured quickly by Foley's Honey and Tar. Refuse substitutes. Sold by People's Drug store.

**BIDS FOR BIG FIGHT.**

**Fort Erie Club Offers \$25,000 Purse to Jeffries and Corbett.**

Buffalo, Jan. 18.—The Fort Erie Athletic club announced tonight that it will offer a purse of \$25,000 for a twenty-round boxing contest between Jeffries and Corbett, the fight to take place in June if possible.

**Bout at Chicago Declared Off.**  
Chicago, Jan. 18.—In deference to the wishes of Governor Yates, who last week requested Sheriff Barrett to prohibit boxing contests in Cook county, the six-round contest scheduled for tomorrow night at the American Athletic club between Benny Yanger and "Young" Mottaw has been declared off by the club. An effort will be made to explain to Governor Yates the boxing situation in Chicago and have him withdraw his opposition.

**CHICAGO GRAIN MARKETS.**  
Chicago, Jan. 18.—Foreign news was again favorable to the bulls in the wheat pit yesterday and the market was very strong, May closing ½¢ higher. May corn closed ¼¢ lower, while oats were down ¼¢. May provisions closed from 2½¢ to 5¢ higher.

There was an active trade in wheat and higher prices were realized, the May delivery making a new record for the crop by selling up to 79. Realizing toward the close caused a decline, but final figures were ¼¢ higher at 78½¢. The close was from 1½¢ to 2½¢ higher. There was an active trade in wheat and higher prices were realized, the May delivery making a new record for the crop by selling up to 79. Realizing toward the close caused a decline, but final figures were ¼¢ higher at 78½¢. The close was from 1½¢ to 2½¢ higher. There was an active trade in wheat and higher prices were realized, the May delivery making a new record for the crop by selling up to 79. Realizing toward the close caused a decline, but final figures were ¼¢ higher at 78½¢. The close was from 1½¢ to 2½¢ higher.

Oats ruled weak and the market was fairly active, the offerings being liberal on reports of liberal acceptances from the country. The close was easy, with May ¼¢ lower at 35½¢, after ranging between 35¢ and 36½¢. Local receipts were 243 cars.

Receipts and shipments were as follows: Receipts, Shipments.  
Flour, barrels..... 17,100 17,500  
Wheat, bushels..... 54,000 81,000  
Corn, bushels..... 220,200 265,000  
Oats, bushels..... 403,100 229,700

**WALL STREET STOCKS.**  
New York, Jan. 18.—Although the volume of business in the stock market yesterday was only moderate, the tone continued strong. The principal bullish influence was the expectation of a very favorable bank statement and confidence in the continued easy working of money. The recent large engagements of grain for export also had a favorable influence in its relation to the discussion of the future of sterling exchange. The advices from Washington that some anti-trust measure was considered certain of passage at this session of congress had no influence on trading operations. The character of the market, however, continued professional. The publication of the weekly statement was followed by a few slight recessions, but the market closed strong though quiet. Final figures are reported by Paine, Webber & Co. as follows:

## COPPERS SPURT AGAIN.

Market Saturday Pleased Friends of the Red Metal Stocks.  
Paine, Webber & Co. said of the Boston market:  
"New York was a buyer of coppers in Boston today, and the market was stronger than at any previous time since the present upward movement began. It was reported that lake copper was stronger this morning at 12½ cents. The sharp advance in Utah was explained by a statement that H. H. Rogers has lately been a large buyer of it and has had a considerable block transferred to his name. If the statement is true, it is a further confirmation of the improved condition of the copper situation."

Hayden, Stone & Co. wired the Laidley Commission company as follows:  
"The move in coppers seems to have started again and the principal stocks are up one to two points. The coppers have been accumulated for some time. There are several pools at work and the public is becoming more interested. We look for higher prices. John Stanton says the position of metal is very strong and if there is any amount of undigested copper he does not know where it is."

### Wheat Shows Strength.

Laidley said of the Chicago markets:  
"The foreign markets hardly failed to reflect our advance yesterday, but the opening was strong and higher upon continued bullish sentiment and large cash business. The market was quiet and slightly lower during the early part of the session, but advanced rapidly over one cent per bushel, closing ¼¢ above yesterday. Reports from California continue extremely bullish, as the weather there is very dry and the stocks small. Wheat has got over into new territory now and it looks as if it should go considerably higher. Some export business was done at the seaboard."

"In direct contrast to the strength of wheat, corn opened lower and continued to sag off during the entire session. The close was ¼¢ under yesterday. The cash business done here yesterday was large and a good export demand was reported. Liquidation of long stuff was very noticeable today. With cash selling from 2 to 2½¢ a bushel higher than the May, we cannot reconcile these conditions with any lower prices, and we believe that corn should be purchased right here."

"Oats opened at about last night's close, to a shade lower, and continued to sag in sympathy with corn and upon continued free realizing by holders. It closed ¼¢ under yesterday. The cash business was extremely good and we believe this shake-out will be the best thing for the market and that higher prices will be seen next week."

"Provisions opened at about last night's close, but were rather dull and uninteresting, the last figures being slightly under yesterday. The hog market was also slightly lower, as a result of heavier receipts and a very light cash demand. Provisions are due for some little set-back, but upon the recessions buy them for a good advance."

### New York Market Strong.

Walker said of New York:  
"The market today was steady and was inclined to be strong. Traders waited for the bank statement and tried to sell a few stocks when it was published. However, they were well taken and just before the close there were signs of very good buying. The sky seems to be clear and there is nothing in the situation to cause apprehension. The money market, which is the great feature, is becoming more easy every day, and while we do not look for any immediate and rapid advance, we think the good stocks will be gradually absorbed and seek levels where they were some time ago."

### A HARD STRUGGLE.

Many a Marquette Citizen Finds the Struggle Hard.

With a back constantly aching With distressing urinary disorders Daily existence is but a struggle No need to keep it up. Doan's Kidney Pills will cure you Marquette people endorse this claim. Mrs. Wm. McLean of 433 Jackson street says: "There was a heavy aching pain across the small of my back and through the groin and a dull tired feeling all over me. The kidney secretions were irregular and highly colored I could not rest at night and unrested when I went to bed, I also suffered from spells of headache every few days, in fact was rarely free from it. Seeing Doan's Kidney Pills advertised for just such troubles I procured a box from the Stafford Drug Co. and began to use them. I felt better after a few doses and continuing the treatment I was cured."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

### NOTICE.

Marquette, Mich., Jan. 2, 1903. Notice is hereby given that the annual meeting of the stockholders of the Lake Shore Engine works, for the election of directors and the transaction of other business, will be held at its office in the city of Marquette, in the state of Michigan, on the third Monday (the 19th) of January, A. D. 1903, at 2 o'clock p. m. J. E. SHERMAN, Secretary. (1-2-3w)

### STOP IT.

A neglected cold or cough may lead to serious bronchial or lung troubles. Don't take chances when Foley's Honey and Tar affords perfect security from serious effects of a cold. People's Drug Store.

## CITY BREVITIES.

Trowbridge Johns of Houghton spent Sunday in the city.  
Dr. Gregory of Marinette has been here the past couple of days.  
R. P. Bronson of Ishpeming was a business visitor in Marquette Saturday.

Alderman John Siegel, who has been ill for the past two weeks, is again about.  
George Shaw is again able to attend to business after a severe illness of about two weeks' duration.

The "Merry club" will give a dance this evening at Fraternity Hall. The admission will be twenty-five cents. Professor Kluge will furnish the music.  
A. Hornstein and Louis Grabower arrived home yesterday morning from a twelve days' trip in the Southwest, their objective point being Bisbee, Ariz., where the property of the Marquette & Arizona is located.

The common council will assemble in special session this evening. The main business that will come before the aldermen will be the matter of the extension of the franchise of the Marquette City & Presque Isle street railway. The report of the committee will likely be presented.

The Catholic Order of Foresters will hold a grand ball in Fraternity Hall the evening of February 18th. The ideal orchestra will furnish the music. This will be the first ball held under Forester auspices and the members will be at particular pains to make it an unqualified success.

The Royal Arcanum, McKinley council, No. 905, will give an invitation dance at Fraternity Hall Thursday evening, Jan. 22. Dancing from eight to one. Invitations must be presented at the door. The members of the Ishpeming and Negaunee councils have been invited and a good time is assured all who attend.

Those who have seen the high school assembly room lighted up are delighted with its appearance. The illumination is provided for in a very artistic manner. As yet there has been no evening entertainment at the school, but the first opportunity to visit the new hall in the evening will doubtless be taken advantage of by many people.

The Marquette curlers—Messrs. Godwin, Sinclair, Art. Powell and Fred Werner—who participated in the bonspiel at the Soo have returned home and report a week of thorough enjoyment. The rink carried off second honors in the St. Paul jobbers' event, each man securing a pair of shoes as a prize. In the third round in this event the Marquette curlers defeated the crack rink of the Soo, that of which Bone is skip, by the score of 12 to 4.

### Says the Duluth Evening Herald:

"The citizens of Duluth who are interested in music will be pleased to hear that Otto Muhlbaer, who left Duluth when the Temple opera house, of which he was the musical director, burned, has decided to return and make his future home in Duluth, having accepted the directorship of Lammers' orchestra at the Metropolitan theater. He will also direct Lammers' concert band. Mr. Muhlbaer has resided in West Superior the past two years, where he directed the Grand Opera House orchestra and the Whaleback M. W. A. band, the latter aggregation having won a number of prizes throughout the country under his leadership. H. W. Lammers will continue to manage the band, and with their combined abilities Duluth will be assured of one of the best musical organizations in the Northwest."

James Dwyer, a special agent of the Marquette land office, who has been at Grand Rapids on business, made the statement there that it is frequently impossible to obtain convictions of timber thieves on the upper peninsula because the juries sympathize with the respondents. "What we have greatest need of," said Dwyer, "is a congressional enactment permitting the presentation of cases originating in one district before a grand jury in either district. Then timber cases in the upper peninsula can be brought down into the lower peninsula and presented to the grand jury here. Timber stealing up there is not regarded as so serious an offense as in the lower counties. All cases originating above the straits are presented at Marquette, and it happens that most men on juries there have themselves considerable knowledge of the practices and hesitate to hold men accused. The result is that one case has been presented three or four times before a jury can be found that will return a true bill."

### HEADS SHOULD NEVER ACHE.

Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winnie, Va.—she writes "Dr. King's New Life Pills wholly cured me of sick headaches I had suffered from for two years." Cure Headache, Constipation, Biliousness, 25c at Stafford's drug store.

Best for your stomach, liver, kidneys, and bowels; soothes and cleanses every organ; makes a new being of you, and life worth living. Rocky Mountain Tea. The Stafford Drug Co.

Very, very fine! Malted Milk Biscuit.

Don't fail to attend the auction sale of clothing at the Union clothing store next to Freeman's livery, every evening this month. (1-15-15)

Ask your grocer, Malted Milk Biscuit.

PINE SLABS.  
Four-foot Pine Slabs delivered anywhere in city; \$2.50 per cord. Phone No. 231 or 959. South Arm Lumber Co. (11-27-03)

### FREE VACCINATION.

The board of health recommends that all people not successfully vaccinated within five years should be revaccinated. All who are unable to pay for their vaccinations will be vaccinated at the expense of the city at the office of Dr. Lunn, during the regular office hours. (1-9-03)

# To the People.

# A PROCLAMATION

Be it known that we have, for the protection of the people, caused the following warrant to be printed on every package of VINOL:

THIS BOTTLE OF VINOL IS

## WARRANTED TO HELP YOU

if you take it for any of the ailments for which it is recommended. If it does not, bring it back and get the money you paid for it—it's yours and we want you to have it. We want pay only from those who are benefited by

## VINOL

We mean exactly what we say in this Warrant—without reservation or equivocation. We know VINOL is the best Cod Liver Oil preparation and general rebuilder of health known to medicine. We bank our reputation and fortune on its being a wholesome, delicious tasting and most wonderful medicine.

Don't take our word for it—try it yourself at our expense—if it does not help you we stand the loss—it costs you nothing.

# VINOL

(The Modern Preparation of Cod Liver Oil)

will cure these troubles, that is all there is about it, and it is easy for any sick person in this town to prove it.

**Debilitated—All Tired Out.**  
It is not natural to feel continually tired. We guarantee VINOL will bring life, strength and vigor to the debilitated.

**Gain Flesh—Get Strong.**  
We believe VINOL will create flesh quicker than any preparation containing grease. We have proved in many cases that VINOL quickly creates strength.

**Old People—Weak People**  
Need a strengthening and invigorating rebuilder. VINOL is of exceptional value in such cases.

**Pale Women—Pale Children.**  
Pale, haggard faces show that the blood is poor and thin, also indicates imperfect digestion. VINOL will correct such troubles as sure as the sun shines.

**Chronic Colds—Hacking Cough.**  
Sure signs of danger ahead. VINOL is the very medicine needed. Unlike Cod Liver Oil preparations, it does not upset the stomach, and is delicious to the taste.

**Nervousness—Irritability.**  
Diseased nerves are due to overwork, insufficient nourishment or slow breaking down of general health. VINOL actually rebuilds the entire body.

**Bronchitis—Sore Lungs.**  
There is no medicine more valuable for restoring health to the throat and lungs than VINOL.

**Nursing Mothers—Weak Mothers.**  
You know the life and future development of the child depends upon proper nourishment. VINOL helps nature to provide this.

ATTACK SALOONISTS. HOME FROM WEST AFRICA. Clerk Says They Are Back of a Movement to Abolish Early Closing.

The Mining Journal is in receipt of a communication in reference to an article that appeared in the paper about a week ago. It is signed "A Clerk" and contains some spicy and pointed statements in regard to the dissatisfaction that exists in some quarters in regard to the early closing of business places.

The saloon keepers are the principal instigators of the knocking and the only ones who are raising a cry about being dominated by employees.

Reference is made to the large number of deposits in the banks that have been made in the past year by people to whom a bank book used to be regarded as a luxury that they never dreamed of possessing.

The communication closes with a reiteration of the statement that all the clerks have made, that there is no conflict of interests between the clerks and their employers, that the fact is realized by the merchants and the large majority would regret to see a change to the old system of late hours every night in the week.

So far as can be learned this latter assertion is true. As regards the saloon keepers' share in the incipient effort to smash the early closing movement, no investigation has been made, so that the charge can be neither affirmed or denied.

A BAD RECORD. The following from the People's Mail of Crystal Falls refers to Matti Szymima, who was killed Wednesday night by John Bjorne.

"Szymima will be remembered as the man who was held here some time ago charged with the killing of John Johnson at Amasa, who was found dead in front of his home on Oct. 19 last, but who was released as there was no evidence to connect him of the crime.

CELEBRATED SILVER WEDDING. Friday evening about sixty guests gathered at the Cliffs cottage, President Mather's summer home, for a christening party in honor of Mr. and Mrs. Christ Peterson, who have their residence there.

WARMLY APPRECIATED. The two Jeffersons and an all-star cast, who appear here tonight in "The Rivals," are ranked as one of the best theatrical companies traveling this season.

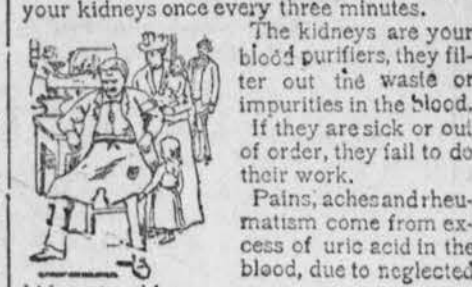

PRINTS AND FIREMEN. The local firemen found the Negaunee men such easy victims that they have decided to tackle something a little harder and have challenged the "prints."

LIVER TROUBLES. Those troubles are always the results of indigestion and often appear before you feel anything wrong with the stomach.

At a recent meeting of the stock holders of the Peninsula Bank the directors were re-elected as follows: Timothy Hughes, Robert F. Thoney, Herman Jaedecke, Robert Maxwell, William Sedgwick, Otto Eger, John P. Outhwaite, Joseph Mitchell, William F. Anderson.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

The officers of the Peninsula bank are: William Sedgwick, president; Otto Eger, vice president; E. A. Malgrem, cashier; J. G. Walsh, assistant cashier.

A large congregation assembled at the special services that were held yesterday at the Salisbury church. The edifice has been greatly improved and is much better fitted to serve as a house of worship than ever before.

BLUSHES THAT NEVER FADE. London Man Tattoos Them on the Cheeks of Beauty.

There is a tattoo man in London; not a tattooed man, which is something quite different, but an artist who makes his living by designs on the human skin.

The tattooing fad has a singular fascination for some women. Its charm is probably due to the danger that the tattooed one will wish, when it is too late, that the mark could be rubbed off.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Seltzer Tablets. All druggists refund the money if it fails to cure.

We are now selling 16-inch green hardwood at \$4.75 a load. Consolidated Fuel & Lumber Co. (11-24-tf)

In reply to inquiries we have pleasure in announcing that Ely's Liquid Cream Balm is like the solid preparation of that admirable remedy in that it cleanses and heals membranes affected by nasal catarrh.

We have received the following letter from Mr. Roy Kemp, of Angola, Ind.: "I was in bed four weeks with la grippe and I tried many remedies and spent considerable for treatment with physicians, but I received no relief until I tried Foley's Honey and Tar.

The many friends of G. H. Hausan, Engineer L. E. & W. R.R., at present living in Lima, O., will be pleased to know of his recovery from threatened kidney disease.

The directors of the Miners' National bank met Saturday afternoon and re-elected all the present officers. They are as follows: F. Braastad, president; D. McVichie, vice president; A. B. Miner, cashier; H. S. Thompson, assistant cashier. The board of directors is the same as last year.

The Colder the Weather the Deeper the Cut in Our Prices of All Long and Short Coats & Jackets

Every Garment (in our stock) MUST BE SOLD BEFORE FEB. 1st. The question is: Do you need a good, warm jacket or skirt, heavy wool underwear, rubbers, warm lined shoes or slippers, wrappers, dressing sacques, etc.?

JUST ONE-HALF OFF FOR CASH!

The goods offered are this last fall's purchases and are new, clean and up-to-date. It's CASH we want, and not the goods.

J. Sellwood & Co

THE EMPEROR OF ETHIOPIA. That is Menelik's Title and He is a Descendant of Solomon.

And who is the Emperor of Ethiopia? Those who happen to know may consider it an absurdly easy question to answer. But such is the ignorance of things most necessary to know in which our people are sunk, that only a few are aware that Menelik II of Abyssinia has borne that title since 1889.

There is a tattoo man in London; not a tattooed man, which is something quite different, but an artist who makes his living by designs on the human skin.

FRIEND CLOTHING. THE SATISFACTION OF BEING WELL DRESSED will cost you about so much at a merchant tailor's or half that price where there are clothes bearing the Friend label in the inside pocket.

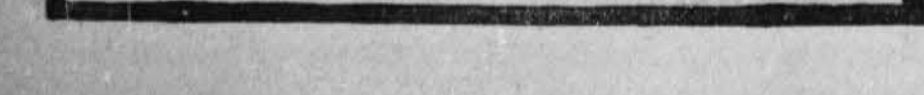

THE FRIEND GUARANTEED CLOTHING IS FOR SALE BY LEADING DEALERS, MARQUETTE.

Golden State Limited.

Electric lights are everywhere—in the roofs, on the sides of the cars, in the berths. This last feature is worthy of special note, for it not only enables one to undress in comfort, but also, in case one wishes, to read in bed. The berth lights are conveniently placed and can be turned on and off at pleasure.

The Golden State Limited leaves Chicago daily via the El Paso-Rock Island route. Less than three days to Los Angeles. Three cars to Santa Barbara and San Francisco. Compartment and standard sleepers; dining, library, and observation cars. Lowest altitudes of any line across the continent. Tickets and full information at any railroad ticket office, or by addressing Geo. F. Lee, G.A.P.D., 91 Adams St., Chicago, Ill.

DAILY EXCURSIONS TO CALIFORNIA

Through first-class and Tourist Sleeping Cars to points in California and Oregon every day in the year.

5 PERSONALLY CONDUCTED EXCURSIONS EVERY WEEK.

LOWEST RATES, SHORTEST TIME ON THE ROAD, FINEST SCENERY, VARIABLE ROUTES.

You can leave home any day in the week and travel in tourist cars on fast trains through to the coast.

**KERN'S REPORT OUT**

MARQUETTE SUFFERED VERY SLIGHT FIRE LOSS IN 1902.

EXPENDITURES OF WATER BOARD

MANY IMPROVEMENTS WERE COMPLETED DURING PAST YEAR.

Further Work of Same Description Projected for 1903—Items of Interest in Connection With Water System.

Superintendent John Kern of the board of fire and water commissioners has about finished his annual report, and it will be presented in a few days to the commissioners. The preparation of annual reports is no new thing for Mr. Kern, as he has had charge of the city's water system for twenty-two years next April, and he, more than any other man, is well acquainted with its intricacies.

Mr. Kern is an old settler in Marquette, having been employed for twenty years previous to becoming connected with the water board with the railway company. Thus he has seen the city grow from a mere hamlet, and as superintendent he has closely observed all the stages of the growth of the city's water system.

Mr. Kern's reports are in elaborate detail, and that for 1902 contains much interesting information concerning the business of pumping water and administering the fire department, the city of Marquette still persisting in the anarchism of combining these two branches of municipal administration under one management.

Total Receipts \$42,418.97.

The receipts of the board of fire and water commissioners for 1902 were \$42,418.97, and the most important single item is the income from water rates, the cost of the service to consumers, \$23,562.51. The largest other item of the total receipts is the cash on hand at the beginning of the year, \$16,716.16.

The disbursements for the twelve months of 1902 totalled \$25,113.28. As might be expected, the cost of pumping, which includes salaries, expense of maintenance of the pumping station and fuel, is the most important single item, it aggregating \$9,200.42. A charge of \$4,279.23 is made against the fire department and of \$2,002.75 against general expenses. The interest on the bonds amounted to \$4,105 and there was expended on account of the new intake \$3,228.59. Fire department equipment is charged with \$1,296.30. The other items are comparatively unimportant.

The balance on hand January 1, 1903, was \$17,305.69, a slight increase over the balance for 1902, and Superintendent Kern estimates that the net gain over expenses was \$5,104.70, mostly representing increased income resulting from the city's growth.

The balance sheet places an estimate on the value of the water system, pumping station, pumps, mains, fire hall, etc., etc., of \$193,706.48. The outstanding bonds aggregate \$105,500, the last issue of \$25,000, coming due on the first of July, 1926.

Marquette escaped with very slight fire losses for the year 1902. There were a total of forty-two fires, the majority being inconsequential. The value of the property that was placed in jeopardy by the flames was \$80,700 and the total of the insurance was \$15,800, the loss being \$9,421.

The most serious blaze of the year was that in which the Bittner warehouse was practically destroyed. The superintendent's statement places a value of \$13,000 on the property that was in jeopardy. The insurance was \$2,800 and the loss \$5,500.

The firemen put in 1,021 hours at fires, for which they were paid \$812.60. The year saw a considerable betterment of the water system, the expenditure on improvements footing up a tidy sum. Further work of this nature is contemplated for 1903 and if the present plans of the commissioners are carried out the end of the present year will find Marquette in possession of what will likely be the finest water and fire protection system to be found on the upper peninsula.

PRISON PROGRESS OUT.

Third Number Will Be on Sale Down Town Today.

The third monthly number of Prison Progress is out. It has been mailed to the subscribers and will be on sale today at the usual places downtown. Progress again shows an advance over the previous numbers, and it is quite apparent that its editors and contributors are becoming more accustomed to their work.

The January number has several interesting articles, all worthy of careful perusal. One discussion is worthy of particular attention, as it concerns a question now of public moment in Michigan. It is "The Indeterminate Versus the Fixed Sentence," an exhaustive and well written essay. Another article meriting a reading on account of its bearing on a question which is now liable to be threshed over in Michigan again is "Free Labor vs. Prison Labor."

The contents of "Progress" are original and it will be found well worth the reading. Subscriptions, fifty cents a year, should be addressed to Prison Progress, Marquette, Mich.

AT HAPPENINGS.

New ovens. New breads. Fresh Vienna buns made every afternoon. (1-16-10)

If you want to buy goods at your own price attend the auction sale every evening at the Union clothing store, next to Freeman's. (1-15-10)

REPORT READY.

Company Will Find No Fault With Proposed Changes in Franchise.

The joint committee on the matter of the extension of the franchise of the Marquette City & Presque Isle Street Railway company met yesterday afternoon and prepared a report to the council. It embodies suggestions for a few slight changes to the present franchise, but they are of a fair nature and will doubtless be acceptable to the traction people.

HAS BEEN HERE BEFORE.

"Evil Eye" Is a Good Attraction of Its Kind.

For those that like that kind of an attraction, and judging from its patronage they are many among the theatre-goers, "The Evil Eye" at the opera house tomorrow evening will be a very acceptable bill. The plot of "The Evil Eye" is but a frame work on which Mr. Ellis, the author, has builded his mirth-provoking structure and allowed opportunities for the introduction of various novelties and entertaining features, and yet it is interesting enough to hold the auditor spell-bound until the end. The audacious mischief-makers "Nid and Nod" furnish the surprising features of the performance and cause laughter to flow as merrily as a sunlight rippling stream. This season Messrs. Yale and Ellis have engaged the Great Phases Troupe of singers and dancers composed of sixteen pretty young English maidens, late of the Alhambra, London. Richard T. Brown will be the "Peleg," that globe-trotting American, and Miss Josie Sisson, the young New York widow.

MARQUETTE A CENTER.

Regarded in Life Insurance Circles as Most Important Point.

Another evidence that the people of Marquette and the people of the upper peninsula of Michigan are, in spite of the assertion that speculation is sapping the resources of the district, making careful provision for the future comes from Milwaukee in the report of the proceedings of the convention of the district agents who are at work throughout Wisconsin and northern Michigan, under the general agency of Murphy & Surles, for the Northwestern Mutual Life Insurance company. This meeting was attended by Percy G. Teple, the company's local representative, who arrived home Friday and whose strength as an agent was recognized by his election to the secretaryship of the association. He will hold office for the ensuing year. His reports are very successful and enthusiastic. His election is an acknowledgment that the Marquette agency is looked upon as a most important one, while reports for the year 1902 place his name at the head of the agents at work under the Murphy & Surles agency, he having produced more personal business than any other district agent writing Northwestern insurance in Wisconsin and northern Michigan. The past year was the most successful since the Marquette agency began work, which would indicate that it is in a most healthy condition and that Marquette and the upper peninsula afford the insurance man a resourceful field.

NEW INSPECTION DISTRICT.

It Is Proposed to Establish One, With Menominee as Headquarters.

A Washington dispatch says: "The treasury officials now have under consideration a plan for the formation of a new district in the steamboat inspection service, which will take care of the inspectors transferred from Chicago, and at the same time result in the improvement of the service. It is proposed to cut off Green Bay ports and Lake Michigan ports from Manitowish north from the present Milwaukee and Marquette districts, and with the ports at the foot of Lake Michigan, now in the Grand Haven district, to construct a new district, with headquarters at Menominee. Milwaukee now has two assistant inspectors. It is proposed that one of them be sent to the new district and the other to Chicago to take the place of the inspector there, who would be transferred by the change.

"In support of this plan it is urged that Marquette district, where 108 vessels with a tonnage of only 16,533, cost the government \$4,853, or less than \$900 as much as the district of Chicago, where 172 vessels, with a tonnage of 150,737 were inspected last year. The traveling expenses of inspectors of the Milwaukee district were \$1,803 and for the Grand Haven district \$1,184. The Grand Haven district, with less than one-third of the tonnage of the Chicago district, cost the government \$700 more.

"By bringing the various districts into a more compact shape, traveling expenses of inspectors would be cut to a fraction of what they have been and the service improved. Inspectors get 5 cents a mile when on official business and some of the present districts are over 200 miles long. "If the new district is created, the change will be made within the next thirty days."

CROUP.

The peculiar cough which indicates croup is usually, though not in all cases, lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by Stafford Drug Co.

PINE SLABS.

Four-foot Pine Slabs delivered anywhere in city, \$2.50 per cord. Phone No. 231 or 969. South Arm Lumber Co. (11-27-10)

**BURTIS IN COMPANY**

BIG BAY PEOPLE GAIN IMPORTANT AND ACTIVE RECRUIT.

OPERATIONS TO START AT ONCE

MUNISING MAN ACQUIRES BIG BLOCK OF STOCK IN CONCERN.

Long Delayed Fruition of Plans May Now Be Expected—Men to Be Put in the Woods With No Loss of Time.

Marquette people will be pleased to learn that there is to be an immediate resumption of operations at Lake Independence by the Big Bay Lumber company, a corporation organized some two years ago for the exploitation of big tracts of timber lands in that section. To date the company's schemes have not panned out as expected. A large sum of money, said to be in the neighborhood of \$75,000, was expended in putting in a village, mills and their partial equipment, but as yet no timber has been cut, and until just lately the plans of the Big Bay people have given little promise of fruition.

Now, however, it is given out that George L. Burtis, formerly of Marquette and lately a well-known Munising mill man, and his brother-in-law, W. B. Ransom, have acquired a big block of stock in the company, hence the fresh start.

Lumbering will commence forthwith on the company's land near Lake Independence and arrangements will be made to start the shingle mill, already installed, this winter. It will produce cedar and pine shingles. Among other work projected for the immediate future is the erection of a dock on the company's water frontage, an undertaking which it is expected will be finished before spring.

The saw mill will be put into commission as soon as possible, and will consume birch, maple and other hardwoods.

Munising Will Benefit.

Munising is destined to benefit as a result of the Big Bay company's renewal of its lease of life. It is the purpose to erect there a saw mill somewhat smaller than the Burtis mill, which is now being removed to Thessalon, but still large enough to make a good cut. It will contain at least one band saw, and will be fully equipped with other modern machinery. It will be erected on the site of the present Burtis mill. It is the purpose to market the product of this mill directly by rail from Munising, a plan which will demand a larger planing mill than that which has hitherto done service.

According to the terms of the agreement, the lumber trade will be carried on, as formerly, by Mr. Burtis until January 1, 1904, when it will be turned over to the Big Bay Lumber company. The main supply of the Munising mill is expected, will be hemlock logs towed down from Lake Independence, after the bark has been stripped at that point and sold to tanners.

In addition to its own timber the company will also saw any timber that may be conveniently assembled at Munising, so that it is believed the proposed mill will have a long life.

As the original plans of the Big Bay Lumber company were outlined, Lake Independence was to benefit chiefly from its incorporation. It was thought that a considerable village would spring up at that point, and that in time it might grow to be thriving community. The latest development, however, shows that Munising is to have a big share in the benefits that will accrue from the lumbering of the company's tracts. Lake Independence will undoubtedly be a busy place during the cutting season, but it will hardly be the village the original stockholder in the company had in mind.

The Big Bay company is said to own some 100,000,000 feet of cedar, hemlock and hardwoods.

H. H. Everard, the former president, will continue as the corporation's executive head. Mr. Burtis will be the secretary and treasurer. Mr. Ransom will be manager of the operations at Lake Independence, with headquarters at Marquette. The head office of the company will be at Munising.

HIGH SCHOOL NOTES.

Fencing is now the favorite amusement with the high school girls. A class has been organized under the direction of Mr. Robinson.

Bishop Williams gave an interesting and instructive talk to the high school last week. His subject was "Reminiscences of Education."

A young men's literary society has been organized in the high school. Its purpose is the practice of parliamentary law and oratory. Interesting meetings are promised.

Hon. H. R. Pattengill spent two days at the high school last week. On the occasion of his first visit he gave a very interesting address, which was so well received by the pupils that he was compelled to give a second talk the following day.

K. P. Brooks, of the high school faculty, gave a very pleasant surprise to the senior class last week. His members were asked to his home to perform an experiment in physics, which, as he said, could not be conducted in school. All gathered at his home, but to the surprise of all, it happened to be an experiment in eating. A very enjoyable time was spent.

Not a dollar need be paid until you're cured. Get a package of Rocky Mountain Tea. If it fails to make you well, and keep you well, it don't cost a cent. 35 cents. The Stafford Drug Co.

In everybody's mouth, Malted Milk Biscuit.

MARQUETTE SNOWSHOE CLUB.

It Will Hold an Old-Time Tramp and Supper Wednesday Evening.

There appears to be a desire on the part of some members of the Marquette Snow Shoe club, which has been in a dormant condition for the past two or three years, to revive the tramp feature, which was once so well patronized and from which so much enjoyment was derived.

With this in view a meeting and a walk will be held on Wednesday evening next, the 21st inst. The start will be from the old place, Hodgkins' barn, the time 6:30 sharp. The party will snowshoe to the Powder Mills, where an old fashioned supper—same as Stewart used to serve—will await the arrival of the trappers, at the same old place.

This announcement should be sufficient to cause every member, particularly those who went to Stewart's in the early days of the club, to "don his apparel," and with an old time "Hi-Hi," get into the line on Wednesday evening.

It is not intended to restrict this invitation to those who are now members, but to include those who have been, and to any other good fellow who likes this kind of exercise and desires to now join the club.

It is absolutely necessary that all who will go notify Charles McCabe Tuesday, don't wait until Wednesday; why wait until Tuesday; why not telephone now.

IN A NEW PLAY.

Blanche Walsh Will Star in Dramatization of Tolstoy's "Resurrection."

A New York dispatch conveys information that will be of interest to Marquette admirers of Miss Blanche Walsh, who was seen here New Year's eve in "The Daughter of Hamilar." Miss Walsh is to appear as Maslova in the dramatization of Tolstoy's "Resurrection," Oscar Hammerstein owns the American rights of the play and he has pooled his interests with Wagenhals & Kemper, Miss Walsh's managers. The production will be a joint affair.

Miss Walsh is now touring in "The Daughter of Hamilar," and has, it is said, been very successful in it, but when the part in the Tolstoy play was submitted to her, a few days ago, she decided to accept it, as it offered her a larger opportunity. She will terminate her tour in St. Louis on Jan. 24.

Ada Rehan was first selected to play the part, but as Maslova is almost a child in the first act, she declined. Then William Faversham wanted to play the leading role if Julie Opp could be the Maslova. This would probably have been done, but Mr. Faversham could not close his season in time for the spring production.

"Resurrection" is now being produced in London by Beerholm Tree.

During her Chicago engagement in "The Daughter of Hamilar," Blanche Walsh came right out in the papers and said a lot of caustic things about the present tendency of the stage. She said she simply couldn't see how such estimable ladies as Virginia Harned, Mrs. Pat Campbell, Olga Neherova, and Mrs. Leslie Carter could find it either in their hearts or their art to interpret the roles of women who, to say the least, were not better than they should be.

"Resurrection" is a problem play that makes "Iris" look like "Shore Acres" with the darns cut out. When Beerholm Tree decided to produce it in London he pacified the populace by deciding that he would have men at the door to see that the children could not go in or peek through the windows. That's the kind of a problem that Blanche has decided is no "perversion of her art."

RESOLUTIONS OF CONDOLENCE.

Whereas: The almighty God in His infinite wisdom has seen fit to call to His eternal reward our beloved companion and fellow socialist, Alfred A. O'Meara, and

Whereas: The nobility of his character as a socialist, a student and a friend made him universally loved, and Whereas: The brave patience and cheerfulness with which he bore his sufferings served but to show the true Christian manliness of his young life, be it

Resolved: That we, the members of the sodality, while deeply mourning our loss, recognize in it the will of the All-mighty God, and be it

Resolved: That, in appreciation of his steadfast loyalty to Mary's Sodality, we offer for the repose of his soul the usual suffrages and remember him in our prayers, and be it further

Resolved: That in order to express our sincere sympathy to his loved ones at home we forward a copy of these resolutions to them and that these resolutions be inserted in The Dial, our college paper, the Michigan Catholic and the newspapers of Marquette, Michigan. (Signed)

RODERICK E. McQUEENY, CLARENCE F. ROURKE, MATH H. CARPENTER, Committee.

RESOLUTIONS OF CONDOLENCE.

ADOPTED BY THE PHILALETHIC SOCIETY.

Whereas: it has pleased the Infinite Justice of God to take from our midst our esteemed fellow member, Alfred O'Meara, and

Whereas: he had endeared himself to all by his sterling virtues, and the unflinching performance of duty in our society, and

Whereas: his death is a great loss to his friends and to the society, be it

Resolved: That we, the members of the Philalethic society, in token of our esteem and in appreciation of his worth, tender to his bereaved parents our sincere condolences in this hour of sorrow, and be it

Resolved: That in order to express our heartfelt sympathy a copy of these resolutions be sent to his parents, and a copy placed upon the minutes of our society. (Signed)

FRANCIS E. SCHMAUSS, RODERICK E. McQUEENY, WILLIAM F. GALVIN, Committee.
