SHIPS ATTACK FORT

FIERCER ENGAGEMENT AT LAKE MARACAIBO, VENEZUELA.

MANY SHOTS ARE EXCHANGED

THREE GERMAN CRUISERS HURL MANY TONS OF METAL.

Gunners on Shore Answer the Fire With a Vengeance—Result Not Known but Fortifications Are Damaged and Village Is in Flames.

Maracaibo, Venezuela, Jan. 21.—Three German warships, supposed to be the Panther, Vineta and Falke, began shelling the Fort of San Carlos at 10:30 o'clock this morning. The fort returned the fire. The engagement was in progress at 1 o'clock this afternoon.

Roar of Guns Terrific. The correspondent of the Associated Press approached, in a row boat, to within three miles of the fort at noon. The roar of the guns was terrific. The Panther appeared to be not more than five hundred yards from the fort. Her guns were being fired every minute. The fort could not be seen for clouds of smoke, but it was plain the Venezuelan gunners were answering the German fire splendidly and with great rapidity.

Explosion in the Fort. At 1 o'clock an explosion occurred, apparently in the fort, and a cloud of smoke covered part of the ramparts. A number of Indian fishermen were intercepted fleeing from the direction of the fort in their dugout canoes. They reported the smoke seen was from the village of San Carlos which had been shelled by the German ships and was in flames.

Excitement in Nearby City. The shelling of San Carlos has created much excitement among the German residents at this port, who have protested against the action of the warships.

London, Thursday, Jan. 22.—The news of the second bombardment of Fort San Carlos reached London too late to be printed in the papers this morning, and they nearly all comment upon the "olive branch" which the German chancellor, Count von Bülow, is holding out to Great Britain in his speeches in the reichstag, and upon the difficulties in which the chancellor, who is obliged to defend his imperial master's acts without being responsible for them, becomes involved.

Ultimatum by Venezuela. Blockade Must Be Raised Before It Will Negotiate for Peace.

Washington, Jan. 22.—Raising the blockade is Venezuela's condition precedent to the formal institution of negotiations with the powers for the settlement of the claims. Her representative, Minister Bowen, has presented this proposition to the representatives of the allies here, and it has been cabled to the foreign officers at London, Berlin and Rome. Little progress can be made pending the receipt of the answers.

Certain to Cause Further Delay. London, Thursday, Jan. 22.—Castro's demand that the blockade be raised before the negotiations are opened, is regarded here as certain to create further delays, and belief is expressed that the second bombardment of the Maracaibo fort will greatly increase the difficulties of the situation.

La Guaira, Jan. 21.—The Dutch cruiser De Ruyter arrived this morning. The cruiser visited the islands of Los Roques, where she found the population, owing to two sloops having been seized by the blockaders, to be upon the verge of starvation. The cruiser left provisions and water for eight days.

Rebels Driven With Heavy Loss. Caracas, Jan. 21.—The revolutionary forces which attacked Coro Monday were obliged to retreat, leaving thirty dead, 115 wounded, many prisoners, and arms and ammunition. The government lost ten men killed.

It is known here that two schooners succeeded, Jan. 16, in landing arms and ammunition for the revolutionists at a point near Coro. The fact these schooners were overhauled by an Italian cruiser before they had succeeded in passing the blockade when loaded with arms and ammunition for the revolutionists is quoted in Caracas in truth of the frequent statements that the blockading powers are interested in aiding the revolution.

Berlin, Jan. 21.—The navy department here remains silent about the bombardment of Fort San Carlos, at the entrance to Lake Maracaibo, by the German cruiser Panther, availing that no report on the subject has been received.

ONE KILLED AT CHICAGO FIRE. Chicago, Jan. 21.—Fire early today destroyed the Oakwood apartment house. Mrs. Elizabeth Irwin, aged sixty, jumped from a window and was instantly killed. There were many narrow escapes from death from suffocation.

BAD FIRE ON FRENCH LINER. Havre, Jan. 21.—Fire in the French line steamer La Touraine, which arrived here Dec. 25 from New York, today destroyed the saloons and deck cabins and spread to the hold before gotten under control.

DISASTERS ON ATLANTIC COAST.

Bark and a Naval Tug Go Ashore and Four Sailors Are Dead.

Atlantic City, N. J., Jan. 21.—The bark Abiel Torpedo went aground near Ship Bottom light last night and is fast going to pieces. Five of her crew were picked up today in dying condition by life savers, but it is believed the other four were killed by falling wreckage.

Thrilling Rescue at Block Island. Washington, Jan. 21.—The navy department this afternoon received a dispatch stating that the naval tug Leydon was ashore on a rock off Block Island. The dispatch adds: "Nine men came ashore in boats, which were stove to pieces, the men landing safely; the others, twenty-four officers and men, are being taken off with breeches buoys. It is probable all will be saved. The tug is absolutely a total loss."

Block Island, R. I., Jan. 21.—The remaining officers and crew of the tug Leydon were taken off by the Shoreham life-saving crew. The Leydon is fast going to pieces. The life savers responded to a call for assistance, and after persistent efforts successfully cast a line aboard the tug. The end of a hawser 1,700 feet long was fastened to the foremast, and by means of a breeches buoy the sailors were drawn ashore.

Coast Line Steamer Wrecked. Newport, R. I., Jan. 21.—The steamer Seaboard, of the Joy line, while on a trip from New York to Boston, put into Dutch Island harbor today owing to heavy weather, and in trying to make the anchorage ran upon the rocks. She is so badly damaged she will probably be a total loss. The steamer did not carry passengers.

DISTRESS AT MAZATLAN. Mazatlan, Mexico, Jan. 21.—There were six deaths from the plague today. The number of houses burned in the effort to put a stop to the epidemic by killing the rats, is 141. Great numbers of poor people are without work, owing to the closing of business concerns and factories. An air of gloom prevails.

Mexico City, Jan. 21.—Reports received here say that the life of the poor people at Mazatlan presents many horrible features. Unable to leave the city and without employment, they daily throng the streets and watch patients being carried to hospitals. Nightly crowds of panic-stricken men and women gather in the streets to watch the burning of houses in which cases of the plague have occurred.

Yellow Jack at Vera Cruz. Vera Cruz, Mexico, Jan. 21.—Yellow fever has made its annual appearance here. Five deaths, including two Germans, are reported and there are a number of cases under treatment.

MILLIONS AT STAKE. Official Investigation of Livestock Rates Fraught With Importance.

Chicago, Jan. 21.—Livestock interests at Omaha, St. Joseph and Sioux City took turns today in telling the interstate commerce commission how in their opinion Chicago is favored in rates and train service over those cities. If the hearing results in the decision that there should be a reduction in rates from the Missouri river territory to Chicago, the railroads may be compelled to meet a number of claims for the difference between the rate decided upon and that which has been charged. These claims, if filed by all shippers who have paid or may hereafter pay the higher rate, will amount to millions of dollars.

BASEBALL PEACE A FACT. National League Magnates Ratify Agreement Early This Morning.

Cincinnati, Thursday, Jan. 22.—At 2 o'clock this morning a resolution was unanimously adopted by the National Baseball league ratifying the peace agreement between the National and American leagues. A resolution by Lobberson also was adopted, that the National league compensate the Brooklyn club in such sum as may hereafter be determined on account of the loss of Piteher Donovan.

VETOED BY MAYOR LOW. 100 Guns Not Fired at New York in Honor of Platt's Election.

New York, Jan. 21.—Mayor Low today refused to approve a resolution passed by the board of aldermen yesterday giving the Lincoln club permission to fire one hundred guns today in honor of the reelection of Senator Platt.

IMPRISONED AMERICAN FREED. Washington, Jan. 21.—A cablegram received from Consul General Jenkins, at San Salvador, announces that Spaulding, the American who was, as he claimed, illegally arrested by the local authorities there, has been released. The state department had cabled Minister Merry to see that the man had justice.

TODAY'S WEATHER.

Washington, Jan. 21.—The following is the weather bureau's forecast for Upper Michigan: Snow, with rising temperature, Thursday; Friday, snow and colder; fresh southeast winds becoming northwest.

SWEDISH PRINCE SERIOUSLY ILL. Stockholm, Jan. 21.—The court ball usually held on the birthday of King Oscar, which fell today, was countermanded because of the serious illness of Prince Eugene, the king's youngest son.

JOE GODDARD, PUGILIST, DEAD. Camden, N. J., Jan. 21.—Joe Goddard, the pugilist, died here today.

TRUST IS CHARGED

GRAND JURY INDICTS THE COAL DEALERS OF TOLEDO.

INVESTIGATION ON IN INDIANA

SHOWS THE RAILROADS HAVE GREATLY ADVANCED RATES.

Large Increase in Wages and Run-of-Mine System to Be Demanded by the Bituminous Diggers—The Strike Hearing.

Toledo, O., Jan. 21.—The jury today indicted the officers of the Toledo Coal exchange on the charge of maintaining an illegal combine to keep up the price of coal.

Investigation in Indiana. Indianapolis, Jan. 21.—The coal shortage investigation of the governor and members of the joint committee of the legislature was continued today. It was the turn of the operators and dealers.

The testimony was to the effect that owing to lack of facilities for hauling, the contract coal amounted to nearly 90 per cent of the output and 10 per cent was for general distribution. They all agreed that the coal for general distribution was this year nearly 150 per cent more than last year, and the total amount mined far in advance of any other year.

It was brought out in the discussion that freight rates had increased 30 per cent. This was in contradiction of the testimony of the railroad men, who testified the rates had been raised on one road only. Practically all the operators said they have found it difficult to get cars to haul coal from the mines. The operators all agree the railroads are doing their best to carry the coal, but are denying them for taking advantage of the situation and boosting their charges.

Negotiating for Coal in Germany. Berlin, Jan. 21.—American agents in the Ruhr district are asking terms for a hundred thousand tons of coal for shipment to the United States.

GRAY DENOUNCES TYRANNY. Chairman of Strike Commission Scores Action of a Union Leader.

Philadelphia, Jan. 21.—The sessions of the strike commission today were enlivened by some interesting testimony. A feature was Chairman Gray's rather strong remarks commenting on an incident where District President Fahy of the miners' union would not grant "permission" during the strike to a contractor to erect a boiler house at a colliery which was necessary to preserve the mine from damage. The president of the commission said he hated tyranny, no matter whether it was practiced by the operator, miner or any one else.

Good Witness for the Miners. The Lehigh Valley Coal company placed a miner on the stand to testify about what seemed a trivial matter, and on cross-examination, he proved a good witness for the miners. He said there would be trouble in the anthracite region as long as the coal companies insisted upon paying contract miners by the car instead of by weight. This opened a discussion between the counsel for both sides and the commissioners which consumed much time. The result was that the commission will devote an entire day to hearing arguments on both sides of the question.

Feed for Mine Mules Stopped. One witness said that during the strike the miners compelled a man to cease hauling feed to the mine mules. Judge Gray did not believe the statement until a letter showing that such a thing was ordered by the local union was shown.

MINERS FORMULATING DEMANDS. Material Raise in Wages to Be Asked by Soft Coal Diggers.

Indianapolis, Jan. 21.—A large number of resolutions, mostly bearing on the wage question, were introduced in the miners' convention today. The increases asked range from 15 to 25 per cent. The national wage committee began hearing arguments on the subject today.

Besides making a demand for an advance in wages, it is known the miners will ask the operators to put the run-of-mine system into effect, and grant a proportionate increase for inside and outside common labor around the mines. A smaller differential between pick and machine mined coal will also be demanded.

Today in the convention a resolution to buy a \$10,000 home in Indianapolis, as a permanent residence for President Mitchell, was not concurred in by the committee. Mitchell opposed it.

DISAPPOINTED LOVER A SUICIDE. Indianapolis, Jan. 21.—William A. Wren, whose parents live near Bloomington, Ill., killed himself today by shooting himself through the head and heart. He was formerly in the navy and served eighteen months in the Philippines. Disappointment in love was the cause of the suicide.

ASKS THAT WINES BE TABOOED. Canton, O., Jan. 21.—The local W. C. T. U. has asked the management of the dinner to be given in honor of the late President McKinley's birthday, that no wines be served on that occasion.

PASSES THE DARDANELLES.

Second Russian Warship Goes Through Despite Protest from London.

Constantinople, Jan. 21.—Another Russian torpedo boat destroyer passed through the Dardanelles today.

SWEDISH FAMINE GROWS WORSE. Intense Cold and Heavy Snow Intensifies Distress of People.

London, Thursday, Jan. 22.—In a despatch from Stockholm, a correspondent of The Mail says: "The famine in north Sweden is becoming worse because of the abnormally early winter, heavy snow falls, and intense cold."

AMERICAN PLANT FOR GERMANY. Manufacturer of Radiators to Build Foundry to Avoid the Tariff.

Berlin, Jan. 21.—The National Zeitung says an American is about to erect a foundry at Magdeburg to manufacture radiators. The paper assumes this is due to the tariff, and that many foreigners will follow the firm's example.

FIGHT PISTOL DUEL IN STREET. City Clerk of East St. Louis and Blacksmith Fatally Wounded.

East St. Louis, Jan. 21.—Matthew A. Cleary, city clerk, and Richard Buckley, a blacksmith, fought a pistol duel on Broadway tonight, and both were fatally wounded. The men had quarreled several times and when they met tonight they began shooting.

MARRIED SEVEN TIMES. Rev. Marion Lane, Mississippi Divine, Is Convicted of Bigamy.

Port Gibson, Miss., Jan. 21.—The jury in the case of Rev. Marion Lane, also known as Jean Skyles, charged with bigamy, returned a verdict of guilty today. He is one of the most learned theologians and eloquent orators in the state. The evidence showed that Skyles has been married seven times.

NEBRASKA LAW HELD ILLEGAL. Suit for \$635,000 Against Railroad Dismissed by Supreme Court.

Lincoln, Neb., Jan. 21.—The supreme court today ordered the dismissal of the suit against the Union Pacific for \$635,000 for alleged violation of the Nebraska maximum freight rate law. The court affirmed the report of the referees, which in effect declares unconstitutional the act creating the state board of transportation which assessed the penalties against the road.

MAY USE FORCE ON TURKEY. Powers to Make Demands for Reforms in Armenia and Macedonia.

Paris, Jan. 21.—In a report presented today to the chamber of deputies by the committee on foreign affairs, satisfaction is expressed that France had abstained from participating in the action of the powers against Venezuela and an international understanding by which Tangier will be declared a neutral and free port is urged. Continuing satisfaction is expressed that the situation in Armenia and Macedonia is impelling the powers to make stronger representations to the porte, and if necessary to support them by force.

PARIS HEARS POPE IS DEAD. Pontiff in Good Health, However, and Holds Several Long Audiences.

Paris, Jan. 21.—It was rumored in the chamber of deputies this evening that the pope was dead. The foreign office, however, has received no confirmation of the report.

Rome, Jan. 21.—The report the pope is dead is without foundation. The pontiff gave a number of long audiences today, and his callers included Senator Quirino Costa, vice president of Argentina, and the latter's wife and family. The pontiff talked with Senator Quirino-Costa for an hour.

MERCER VERDICT IS SUICIDE. San Francisco, Jan. 21.—"Suicide" was the verdict of the coroner's jury today in the case of Winifred Mercer, the ball player who was asphyxiated at the Occidental Hotel on Jan. 13. A rubber tube had been fastened on a gas jet and the other end was found in Mercer's mouth. Letters left by the ball player stating he intended to commit suicide were read to the jury by the coroner.

FATAL FALL INTO SHIP'S HOLD. Philadelphia, Jan. 21.—Dr. J. M. B. Ward of this city assistant quarantine physician, was tonight accidentally killed on board the Danish steamer Kurinix, which he was inspecting. While walking on deck Ward stepped into an open hatchway and fell into the hold. He died in a few minutes.

COSTLY BLAZE IN IOWA. McGregor, Ia., Jan. 21.—Fire today destroyed the Spencer Grain company's elevator and Huesting & Gilchrist's warehouse, together with 92,700 bushels of grain. Foreman Davidson, of the elevator, was probably fatally injured by the explosion of a boiler. The loss is \$100,000.

BAD WRECK ON GRAND TRUNK. Port Hope, Ont., Jan. 21.—A head-on collision between two Grand Trunk freight trains occurred three miles off here this evening and resulted in the death of Fireman Matthews and Brake-man Exvort, both of York. Twenty cars were demolished and the wreck caught fire.

Mentone, France, Jan. 21.—Andrew D. White, former United States ambassador to Germany, has arrived here.

It's So Easy

To take cold. It's so common to neglect the cold. That is one reason why there are so many people with "deep-seated," stubborn coughs, and so many more with "lung trouble."

The short, quick way to cure a cough is to use Dr. Pierce's Golden Medical Discovery. The quicker this remedy is used the quicker the cure. But even when neglect has let disease fasten on the lungs, "Golden Medical Discovery" may be relied on to cure in ninety-eight cases out of every hundred.

"I am feeling quite well," writes Miss Dorcas A. Lewis of No. 1129 24th St., Washington, D. C. "My cough is very much better, and I owe it all to Dr. Pierce's Golden Medical Discovery. I cannot say too much in praise of the medicine. I had been quite a sufferer for a long time, and after reading Doctor Pierce's Common Sense Medical Adviser I would try his Golden Medical Discovery. I commenced taking it in May, 1899. Had not been sleeping well for a long time. Took one teaspoonful of Dr. Pierce's Golden Medical Discovery and slept nearly all night without coughing, so I continued taking it. Soon in great sympathy with everybody who suffers with a cough, I had been a sufferer for more than ten years. I tried lots of different medicines and different doctors, but did not feel much better. I coughed until I commenced spitting blood, but now I feel much stronger and am entirely well. Dr. Pierce's Golden Medical Discovery is the best medicine I have ever taken. My home is in Williamsburg, Virginia."

DAILY MINING JOURNAL. A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED). Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

THE OTHER SIDE. Of late the discussion in Michigan has been mostly on the other side of the railroad taxation question. The tax commission's announcement of the railroad assessment was the sign for a general jubilation that the companies were to bear such a heavy part of the burden of supporting the state, it being concluded that the result would be a lightening of taxation for other interests and the people at large.

Now public discussion has taken a turn in the other direction. It is being reflected that the public ultimately, and often in a literal sense, "pays the freight." If the railroads are excessively burdened they will raise more revenue by increasing their demands on the people. As they cannot advance passenger tariffs the manufacturer will be called on to contribute the necessary increase in the revenue.

These and other considerations have caused a notable diminution in the enthusiasm with which high railroad taxation has been lauded. As is but natural the railroad men have been most prominent in urging these considerations, but the fact that they are being seriously discussed shows full well that there is much to them.

F. H. Prince, the newly elected president of the Pere Marquette, expressed the railroad men the other day when he said that it was his opinion that "Michigan will some day reap the whirlwind as a result of the policy of soaking the railroads by taxing them, in some instances, almost beyond their power to pay, and in almost every case more than their just proportion."

"Eastern capitalists refuse to invest money in railroad enterprises in this state. From conversations I have had with railroad managers, no more extensions will be built in Michigan and in some cases railroad officials will cut down the mileage of their roads here."

Newman Erb, chairman of the executive committee, took up the president's argument. He remarked that the railroads of the state are at the present time badly handicapped by the lack of the requisite amount of rolling stock. He said that they should even now spend \$10,000,000 on the purchase of additional cars to handle the great freight traffic.

The Boston Transcript discusses considerations connected with the presidential nomination in 1904 as follows: "That the president has but the perfunctory support of several Republican leaders is no secret whatever, but though they may desire to see another Republican candidate for 1904, not one of them is likely to take a step so hazardous to political fortunes as to antagonize his renomination with a man of entirely local reputation."

As much in proportion? It is absurd to declare that the value of the \$,000 miles of railroads in Michigan, with their terminal property, is equal to one-third of the value of all the rest of the taxable property in Michigan.

The blockade at Venezuela should be raised, pending the settlement of the dispute, by The Hague tribunal, between the Venezuelan government and the allied powers. The blockade, in the first place, was an unwarranted measure, which at least one of the allies appears to regret very much, and its continuance at this time is unnecessary, being only a source of annoyance and bad feeling.

Quay has learned high and mighty ways in Pennsylvania and every now and then he endeavors to apply them in the national senate, only to find that they do not work outside his own state. The statehood bill for which he is sponsor is a case in point. He wants it to pass, which is to his mind the best reason in the world why it should pass.

Poor Hobson must go to work or else get out of the navy. After straining every point to get himself retired, so that he can run for congress without giving up his naval pay, he has utterly failed. After shirking duty for many months pending action by congress on a bill to grant him the retirement the department refused, he has been peremptorily ordered to construction duty on Puget Sound.

Upper Peninsula. Menominee's School Children—According to the report of the superintendent, Menominee has about 2,150 children in its public schools. In the parochial schools, about 625 others are enrolled.

Another Business Block for Soo—C. A. Greely of Chicago, who already owns a number of valuable business blocks in the Soo, will erect another building as early in the spring as the weather will permit. The structure will be of brick, with a frontage of about sixty feet on Spruce street and a depth of fifty feet.

Have Rich Thing in Canada—Messrs. Maynard and Barabe, of Escanaba, who are the chief stockholders in a mining property now being developed in Canada, have received reports from an assayer in Denver, which sets them to thinking. Three shafts have been sunk, the deepest of which is thirty feet, and the assay runs from \$29 to over \$800 to the ton.

Conductors Out—The services of conductors on the street cars has been dispensed with at Marquette and hereafter the patrons of the street car line will deposit their fares in boxes. An order has been issued discharging most of the conductors, and a dozen or more men are affected by this charge in the operation of the cars.

A Novelty in Logging—Richard Francis has introduced a novelty in his logging job for the Diamond Match company on the middle branch of the Ontonagon river. Part of the logs have to be hauled up a steep pitch and down another one. There was no way of building the road to prevent it, so that Mr. Francis has secured an engine and boiler and the loads of logs are hauled up the incline by using a wire cable.

Baseball League Talk Revives—William Barbeau, who last season played third base for the Baraga baseball team, and was one of the best all-around players of the club, has written Manager Ryan from New York city for a place on the Leader team of the Soo. The question of an upper peninsula league, which was exploited last fall and which at that time met with considerable favor, has not been determined upon as yet.

Falls has its players already signed, and they will be given a salary. Other towns in the peninsula are also figuring on players for the coming season, and the town that carries off the pennant this year has got to be in the game all the time.

Desperate Battle With Wolves—Paul Breakwind, an Indian homesteader, whose place is several miles west of Baraga, had a desperate encounter with a pack of wolves the other day. The man was returning to his homestead with a load of provisions when he was set upon by the hungry animals.

Board at 02's Over Dynamo—The dynamo that is to be purchased by the city of Crystal Falls for the new power plant is causing considerable trouble. The board of public works was authorized by the council some time ago to advertise for bids for a machine.

Miners Give Him a Watch—Captain D. E. Sutherland, who resigned the captaincy of the East Nor'w mine the first of the year to accept the position of assistant superintendent of the Olive branch mine, has been presented with a watch by the miners.

FINDS WAY TO LIVE LONG.—The startling announcement of a Discovery that will surely lengthen life is made by Editor O. H. Downey, of Chubbuck, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for Consumption is the most infallible remedy that I have ever known for Coughs, Colds and Grip."

COPPERDOM BOTTLES.—The meeting of the newly organized county agricultural society will be held at Hancock this afternoon. Six new dwellings were recently completed at the Baltic mill location by Contractor Charles Gibbs of Houghton.

WE HAVE THE ONLY KNOWN CURE IN THE WORLD FOR RHEUMATISM. IF IT FAILS TO CURE YOU, IT COSTS YOU NOTHING. No Experimenting.

Price \$1 per Bottle. Six Bottles for \$5. Sent express prepaid if your druggist does not carry MEDERINE in stock.

FOR SALE AND GUARANTEED BY STARBUCK DRUG CO., Marquette, Mich.

INTERESTING TESTS AT SCHOOL.—Superintendent H. E. Kratz, of the Calumet schools, is planning to make some simple tests in the schools in regard to the hearing and sight of the pupils. When serious defects are found information will be sent to the parents and it is Mr. Kratz's hope that they will co-operate and seek to have such defects overcome.

LIBERTY BELLES' TONIGHT.—"Liberty Belles," the tuncful and pretty musical comedy that has created such a furore in Detroit and other cities, will be the attraction at the Keredge theater, at Hancock, this evening. It will be one of the principal events of the present theatrical season.

STATE SOLONS COMING.—The house and senate committees on the mining college will be here next week on their biennial junket. They will be accompanied by the committees on other upper peninsula state institutions, as well as by the ladies of the committee, and it is expected that the entire party will number seventy-five or one hundred.

MAY TOUCH AT PORTAGE LAKE.—In local marine circles it is anticipated that the Northern and North West, the palatial steamers of the Northern Steamship company, will go back on the Buffalo-Duluth route in June next. In the event the boats will make regular trips to Portage Lake, stopping at Hancock and Houghton.

FATALITY AT ARCADIAN.—An Italian trawler named Hatley San Antonio was killed while at work in the Arcadian mine Tuesday night. He was struck by falling rock in the seventh level of "D" shaft, San Antonio was aged twenty-eight and was married.

Methodists of the Baltic location intend building a church next summer and they have started a fund for that purpose. Services at present are being held in the school house. The pastor, Rev. R. Hancock, is heading the movement for the new edifice. Money will be raised by socials and entertainments.

"It was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over the body. I am very grateful." Miss Julia Filbridge, West Cornwall, Conn.

How an abscess in the Falloppian Tubes of Mrs. Hollinger was removed without a surgical operation. "I had an abscess in my side in the falloppian tube (the falloppian tube is a connection of the ovaries), which, fortunately, I did, and it has made me a stout, healthy woman. My advice is to all women who suffer with any kind of female trouble is to commence taking Lydia E. Pinkham's Vegetable Compound at once."

How an abscess in my side in the falloppian tube (the falloppian tube is a connection of the ovaries), which, fortunately, I did, and it has made me a stout, healthy woman. My advice is to all women who suffer with any kind of female trouble is to commence taking Lydia E. Pinkham's Vegetable Compound at once.

COPPER COUNTRY

INTERESTING TESTS AT SCHOOL.—Superintendent H. E. Kratz, of the Calumet schools, is planning to make some simple tests in the schools in regard to the hearing and sight of the pupils.

LIBERTY BELLES' TONIGHT.—"Liberty Belles," the tuncful and pretty musical comedy that has created such a furore in Detroit and other cities, will be the attraction at the Keredge theater, at Hancock, this evening.

STATE SOLONS COMING.—The house and senate committees on the mining college will be here next week on their biennial junket. They will be accompanied by the committees on other upper peninsula state institutions.

MAY TOUCH AT PORTAGE LAKE.—In local marine circles it is anticipated that the Northern and North West, the palatial steamers of the Northern Steamship company, will go back on the Buffalo-Duluth route in June next.

FATALITY AT ARCADIAN.—An Italian trawler named Hatley San Antonio was killed while at work in the Arcadian mine Tuesday night. He was struck by falling rock in the seventh level of "D" shaft, San Antonio was aged twenty-eight and was married.

Methodists of the Baltic location intend building a church next summer and they have started a fund for that purpose. Services at present are being held in the school house.

"It was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over the body. I am very grateful." Miss Julia Filbridge, West Cornwall, Conn.

How an abscess in the Falloppian Tubes of Mrs. Hollinger was removed without a surgical operation. "I had an abscess in my side in the falloppian tube (the falloppian tube is a connection of the ovaries), which, fortunately, I did, and it has made me a stout, healthy woman.

How an abscess in my side in the falloppian tube (the falloppian tube is a connection of the ovaries), which, fortunately, I did, and it has made me a stout, healthy woman. My advice is to all women who suffer with any kind of female trouble is to commence taking Lydia E. Pinkham's Vegetable Compound at once.

The Cure for Constipation

is not a violent cathartic, but a mild and tonic laxative—which is another way of saying IRON-OX TABLETS

Convolence after pneumonia, typhoid fever and the grip, is sometimes merely apparent, not real. To make it real and rapid, there is no other tonic so highly to be recommended as Hood's Sarsaparilla. Thousands testify, Take Hood's.

MINING NEWS

IMPROVEMENT AT ATLANTIC. Record-Breaking Output Expected to Be Turned Out This Year.

Advices from the Atlantic show the outlook for this year to be very promising. All the present indications are that it will show results materially better than those for 1902.

The lower openings of shafts "A" and "B" are at present making a better showing of rock. Experiments are now being made at the stamp mill which it is expected will effect a still further saving in the cost of treating the rock.

The "A" shaft is sinking to the eighth level, and gradually becoming an enlarged factor in production. Within a short time it will be tributary to a large extent of stopeing ground, located at the northern extremity of the old working, which heretofore was difficult of access.

The "B" shaft is down to the twenty-eighth level, while the "D" shaft sinking is under way to the thirty-fourth. The vein shows but little material change from year to year, but its present appearance is very satisfactory.

The general equipment is capable of rendering a high class service for at least ten years. The mine is operating thirty-three drills and supplying the mill with 375 tons of rock every twenty-four hours.

The company's construction account last year was the smallest for several years, and a curtailment of expenses was effected in every possible direction, but conceding all this, it is still difficult to figure net earnings for 1902.

With the metal selling at 1 1/2 cents the copper value in a ton of Atlantic rock is approximately \$1.25, and it is a common knowledge that there is not in the district another mine that is mining and milling its rock at these figures.

MORE COPPER FIGURES. Here are three estimates of the accumulated stocks of copper, or available supply, Jan. 1, 1903:

John Stanton, not over 100,000,000 Pounds. D. Mouston & Co., New York, 122,055,360 H. L. Casey 279,594,559

The Messrs. Houston and Mr. Casey's figures for 1902 compare:

Houston. Casey. 1902 224,000,000 227,201,250 Production '02 662,260,440 665,109,760 Imports 159,040,000 169,523,200

Supply 1,045,209,440 1,062,024,319 Exports 385,654,080 375,197,500 Available 659,555,360 686,826,819 Consumption 537,600,000 407,252,000

Stocks, Jan. 1, 1903 122,055,360 279,594,559 We have taken the actual December figures of United States production and corrected D. Houston & Co.'s estimate thereby, as these appeared after their estimate was made, and we also have figured the total exports figures for 1902 as made by Mr. Stanton, statistician for the American Copper Producers' association.

Practically, the Houston figures agree with the Casey estimate at the start, the stocks of copper on hand at the beginning of 1902 being near enough in both estimates to be considered the same. Mr. Casey makes it 3,000,000 pounds larger than Mr. Houston and the production of 1902 also 3,000,000 pounds more than the Stanton figures, adopted in the Houston estimate.

He also makes imports 10,500,000 pounds greater than Mr. Houston, and exports as much less than Mr. Stanton, or 27,000,000 increase in supply available for consumption over the other estimate. Consumption in America in 1902 he makes 130,500,000 pounds less—177,000,000 pounds of copper to be accounted for, as that is the difference in the conclusions.

The Stanton figures generally have been regarded as thoroughly reliable, and in adopting them as a basis the average student would give the Houston estimate the greater weight, but they cover production and exports only. As imports, where Mr. Casey's figures are 10,500,000 pounds greater than Mr. Houston's, the only reference available must be the government's figures. The December figures are not ready yet, but we have eleven months' official returns, and they show 86,458,478 pounds fine; estimating December at the November rate, the year's imports of fine copper would show 88,523 pounds.

There was some 190,000 tons of ore imported in addition, which must have yielded some 60,000,000 pounds fine by the Houston estimate, or 70,500,000 pounds by the Casey figures.

But the real trouble comes in estimating American copper consumption in 1902.

Captain J. F. Finnigan, of Ramsay, has gone to Ontonagon county to take charge of the Hamilton copper property, which has been leased by St. Louis parties, says the Bessemer Herald. The Hamilton group of mines lies next to the old Norwich and adjoins the latter property on the west. The property consists of four mines, the Hamilton, Essex, Windsor and Trap Rock, and has a combined acreage of 480 acres.

The property is owned by Dr. J. R. Moore of Ironwood. The work done on the property heretofore has only been in a speculative way with the exception of the Trap Rock, which was worked quite actively for several years. The existence of copper in paying quantities on the lands is well known, however, and offers inducements for a thorough exploration of the property, which is no doubt the intention of the people who are now preparing to continue the work of developing it.

MINING GOSSIP. It is denied that the Amalgamated company is negotiating for the control of the Clark copper properties in Montana.

The annual meeting of the stockholders of the Trimountain Mining company will be held at the company's office, 60 State street, Boston, Feb. 11, at noon.

The work of erecting the new steel engine house at the Michigan was begun a week ago, and the frame is now up and being enclosed. The structure is 48x30 feet and set on a solid cement foundation. The new hoisting plant for this building is expected to arrive next month.

A gentleman largely interested in the copper trade pertinently remarks: "I believe we are suffering from overproduction of copper statistics, not of copper, and that no good purpose is served by any comments upon the question of stocks or consumption, unless it is agreed what shall be considered stocks. The set of the figures published state the stocks on hand on Jan. 1, 1903, at about 125,000 tons, another as about 134,000 tons. These figures may be right if ore in the mines and on the dumps, and copper in vats is included.

A Shrewd Investor

will be glad to know how the greatest accumulation of trust funds in the world is invested.

A young man who is just beginning to accumulate and invest his savings will be interested in a booklet that describes the investments of The Mutual Life Insurance Company of New York.

This information is found in "A Banker's Will." Sent free on application.

This Company ranks First—in Assets, First—in Amount Paid Policy-holders, First—in Age.

THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK, RICHARD A. MCCURDY, President.

BRUCE WHITNEY, Manager, Milwaukee Wis.

1902, Mr. Houston placing it at 130,000,000 pounds greater than Mr. Casey—nearly 33-1-3 per cent higher—while the latter makes accumulated stocks of the metal at the beginning of 1903 no less than 130 per cent larger than the former—a difference so great as to show manifest error somewhere and that the most radical, involving the disposition of an amount of copper almost one-quarter of the entire American production of 1902.

As Mr. Stanton's estimate places the accumulated stocks Jan. 1 at not over 100,000,000 pounds, we are inclined to feel that the Houston figures have a semblance of approximate closeness to the facts, but with such exceedingly wide differences between experts the value of current estimates hardly can be great.—Boston Transcript.

UNION GOLD LITIGATION. Outsiders as well as stockholders of the Union Gold Mining company are taking much interest in the action which has been started against the directors of the company to recover \$20,000 alleged to have been misappropriated and misapplied.

The prominence of the men connected with the case will draw close attention to it when it comes up for trial. It is understood that the defendants in the suit are preparing to refute the charges and that they will attempt to prove when the proper time arrives that the funds of the company were neither misappropriated or misapplied. It is claimed that the company's books will show where every dollar has been used. One of the directors of the company recently said that \$75,000 was received from the sale of 150,000 shares of stock at fifty cents per share. Of this amount \$23,000 or thereabouts was spent in development work at the property.

The amount of deposit in the Detroit Savings bank at the time of its failure was \$15,000 and the balance of the money was used to pay for the property. He also said these statements will be proven when the trial is held.

The stockholders will be assessed two cents per share to push the case through the courts, that action having been taken by the committee in whose hands the matter was placed. The stockholders from all accounts are willing to put up the cash and will do so at once. In and about Calumet there are fourteen hundred Union Gold stockholders and at a recent meeting held in Bloy's hall over two-thirds of them were present to ratify all that the committee has done. The shareholders claim that they put up \$87,000 and if the suit turns out the way they think it will they expect to get back 80 per cent of the amount.

OLD MINE TO BE REOPENED. Captain J. F. Finnigan, of Ramsay, has gone to Ontonagon county to take charge of the Hamilton copper property, which has been leased by St. Louis parties, says the Bessemer Herald.

The Hamilton group of mines lies next to the old Norwich and adjoins the latter property on the west. The property consists of four mines, the Hamilton, Essex, Windsor and Trap Rock, and has a combined acreage of 480 acres. The property is owned by Dr. J. R. Moore of Ironwood. The work done on the property heretofore has only been in a speculative way with the exception of the Trap Rock, which was worked quite actively for several years.

The existence of copper in paying quantities on the lands is well known, however, and offers inducements for a thorough exploration of the property, which is no doubt the intention of the people who are now preparing to continue the work of developing it.

JUNKETERS COMING.

State Legislators Will Be in Marquette Next Week.

The session of the state legislature is always the occasion of a big junket of the senators and representatives and 1903 will be no exception to the rule. The junketers will start on their pilgrimage the latter part of this week and will be on the upper peninsula next week.

The party will not forget to give Marquette, which boasts two state institutions, a call, and it will probably spend a day here. Previous to coming to this city it will visit the Soo and Newberry, where the hatchery and northern hospital for the insane are located. It is not likely that all of the junketers will visit these places, but it is expected that the whole junketing contingent will gather in Marquette, whence it will go to the copper country to inspect the Michigan College of Mines.

Arrangements are now being made here for the reception and entertainment of the party. It is not yet known just what will be done for them while they are in the city, but some attractive program will be prepared. It is understood that the party will desire to visit both the branch of state prisons and the Normal and it is not unlikely that they will be formally entertained at the latter place.

According to the Detroit Evening News there will be about twenty-five in the party, but Lieutenant Governor Maitland telephoned a friend here Sunday night that the visitors would number upwards of 100 people. This figure likely includes both the house and senate committees that will junket to the upper peninsula. The party will include a goodly number of ladies, as many of the senators and representatives will be accompanied by their wives. The party will travel in special Pullmans and will probably return to Lansing by way of Chicago.

The purpose of the junket is the same as in former years, to give the legislators an opportunity to get acquainted with the upper peninsula institutions, their officers and their needs.

The party is expected here early in the week. The legislature will take a ten days' recess for the junkets, and the contingent that will visit the upper peninsula will leave Detroit, it is said, Sunday night.

HAS PAID 1902 TAXES.

Michigan Iron & Land Company Willing to Settle With City

The city of Marquette is a comfortable gainer as a result of winning its late suit against the Michigan Iron & Land company. Now that the supreme court has affirmed its right to tax land contracts the Michigan Iron & Land people are ready to pay up gracefully. They have already settled for the taxes levied against them on the 1902 roll and as near as can be figured out about \$3,273 of the total sum they paid in is due on the land contracts. This, with the \$1,600 assessed on the 1901 roll, collection of which was fought with the result indicated above, will make \$4,873 collected from this corporation alone on land contracts during the past two years. Furthermore the principle that land contracts are taxable assets seems firmly established, so that additional income from the same source may be looked for, unless the corporations affected devise some other means of doing business or some plan of circumventing the assessing officer.

Monday night the council allowed City Attorney Brown the interest on the \$1,000 for a term of months for compensation for his special work on the case, which he went twice to Lansing to argue. There is much satisfaction among the city officers and the aldermen concerning the outcome of the litigation.

The Michigan Iron & Land company has not yet settled for the amount of the judgment secured by the city before the supreme court, when that tribunal affirmed the decision of the local court, but it stands ready to do so at any time.

"THE LIBERTY BELLES."

New Musical Comedy at Opera House Saturday Evening.

"The Liberty Belles," a new musical comedy by Harry B. Smith, presented by Frank Hennessy's company, comes to the opera house Saturday evening. The story of Mr. Smith's comedy has its foundation in a sentimental escapade on the part of Margery Lee, a stage struck girl, engaged to Phil Fullerton, a Columbia junior, and Dorothy Grey, a fellow student, secretly married to Jack Everleigh, an Annapolis cadet. These parts are played respectively by Nevada Hefron, Gertrude Millington, Percy Leah and Harry Stuart. There are three acts, the scenes of which show a dormitory in a young women's seminary, with the pupils engaged in a clandestine midnight supper, the kitchen of the cooking school of "The Liberty Belles," and a fashionable hotel in Florida. The first act has attracted very wide attention because of its celebrated dormitory scene. There is no chorus in the production. Mr. Smith having replaced it by characters that have an actual place and definite purpose in the story. The midnight supper of the pupils is interrupted by Jack and Phil, entering the dormitory by means of the window, disguised as burglars; a scene is created, they are arrested and the girls expelled. In the next act they are running a cooking school for a living, and Mr. Smith heightens the comic interest by introducing two eccentric uncles, with opposing ideas in reference to matrimony. A comical climax naturally transfers the story and the principals to a scene in Florida, where the funny incidents are kept up at a hot pace, until a very novel finale, which brings the complications to a happy solution.

Best for your stomach, liver, kidneys, and bowels; soothes and cleanses every organ; makes a new being of you, and life worth living. Rocky Mountain Tea. The Stafford Drug Co.

Dr. C. O. Thienhaus of Milwaukee was here yesterday.

E. C. Anthony was down from Ne-gawnee yesterday.

George P. McCallum of the Soo was a Marquette visitor yesterday.

Phil Brisson left last night for St. Paul to spend two weeks with his brother.

Members of the A. O. U. W. are requested to remember that the lodge meets this evening.

The street railway company employed a force of men at the corner of Washington and Front streets yesterday removing the mess of slush that had re-accumulated from the too free use of salt.

The inmates of the county jail are earning their salt this week. Under-Sheriff Sam Bennett has them at work on the jail's woodpile and they are stacking up a considerable cordage of good stove wood.

"The Liberty Belles" was produced to a crowded house at Menominee Monday evening. The piece pleased so well that it was judged advisable to repeat it the following evening, another date having been cancelled to permit of this arrangement.

The South Shore has made a rate of \$2.50 for the round trip to Houghton from Marquette and iron country points on account of the Portage Lake-St. Paul hockey games Friday and Saturday evenings. The tickets will be on sale for the afternoon train of Friday and will be good for return until Sunday.

The annual meeting of the Marquette City & Presque Isle Street Railway company, which was called for Tuesday, was adjourned until the 23rd of February, on account of the non-representation of the majority of the stock. N. M. Kaufman was out of the city. At the February meeting officers and directors will be elected and other important business transacted.

An invitation dancing party will be given this evening at Fraternity Hall by McKinley council of the Royal Arcanum. The full ideal orchestra will furnish music. The hall has been tastefully decorated, and it is expected the hop will be one of the social events of the season. A special invitation is extended to all visiting members of the Royal Arcanum who may wish to happen to be in the city. The admission price has been placed at seventy-five cents per couple.

With the two lights which the council authorized to be put in Monday night there will be 104 in use in the city. All but four of these are on the arc circuit. The capacity of the present arc generators is 120 lights, so there is still a considerable margin, although at the rate lights have been put in of late it will not last long. Four of the lights out on Lake street are on the incandescent circuit. They appear to give as good service as the lamps on the arc circuit.

TELLS OF TONOPAH'S GLORIES.

Nevada Town That in Two Years Has Become a City.

"I'm from Tonopah, Nev." That was all H. C. Morris had to say for himself—at first. He is a stocky man, short, and short-spoken, yet very affable withal. "Mining man?" The question was natural, for Mr. Morris looked like a mining man. "Yes, just that." "And how's everything in Tonopah?" The face of Mr. Morris brightened. "It's the only mining camp on earth," he answered, with sudden enthusiasm. "It's great. You never saw anything grow like it. There are 5,000 people there now, and two years ago there were thirty. Talk about increase in population, did you ever run against anything like that?" There was but one possible response the other man never had. "I thought not. There hasn't been anything like it, and this is only half I can tell. There is going to be a continuous rush. We'll have a railroad in less than a year, and the place for mills and amalgamators and concentrating plants are something wonderful." "Any railroad?" "Not yet, but we've got one coming up. The nearest station is Soda Springs, on the Carson & Colorado railroad, sixty miles distant. That's our shipping point, but there'll be a branch road in a short time. Everything is working nicely and the road will be built; then we can ship direct to Salt Lake City without that sixty-mile drag of expensive hauling.

"The biggest company operating in the camp is called the Philade'phia company. It operates the Mizpah ledge, and is turning out the finest ore you ever saw in your life. It is gold and silver. The silver predominates, but it is rich in gold."

"Who, I?" concluded Mr. Morris in answer to a question, "Ah, I've got some prospects out there, fine ones, but I don't care to speak about them. I'm talking of the place in general, and when I tell you that it's going to boom I mean what I say, and I know what I'm talking about."—Denver Post.

THE VIRTUES OF WOMAN.

A Paris paper has been inquiring what virtues are most essential in woman. The question submitted to its readers brought many thousand answers. Faithfulness had 8,278 votes, economy 7,600, and orderliness, modesty, devotion, charity and gentleness follow in the order named. Cleanliness had 3,594 advocates, patience, maternal affection and industry had between 2,000 and 3,000 each, while courage, discretion, simplicity, wisdom, honesty and amiability were between 1,000 and 2,000. Abnegation came last in the list, with 968 votes.

DOINGS OF A WICKED CROW.

Dick is a Noted Thief and a Regular Attendant at Funerals.

Mr. Alexander Lidnum is the possessor of a tame crow which is in his way a very unique character. Dick, as he is called, notwithstanding his mischievous escapades and thieving atrocities, is a staunch favorer throughout the town, and has hosts of warm friends. One of his favorite haunts is Spring Hill cemetery, which he visits daily. Mr. Charles Seymour, the keeper of the cemetery, is one of his warmest friends, but is, nevertheless, a victim of his mischievous pranks. He has stolen from Mr. Seymour numerous roses, pencils and other articles. On one occasion he took a pipe from the pocket of his coat, and on another a gold watch from the pocket of another gentleman's vest, which he had removed from his person and laid on one of the graves nearby. Dick is also a professional mourner. He attended every funeral that takes place in Spring Hill, and, perching himself on the edge of the open grave, remains there until the funeral service is ended, or until the grave is entirely closed, when he wanders off to look for mischief.

Another of his favorite places of visitation is the carriage shops of James J. Spence, where Dick Thomas and James Dillon have to watch him constantly to prevent him from confiscating their paint brushes and numerous other small articles.

Dick always pays friendly visits to Mr. George M. Wilson's flour mill, but as yet has relieved Mr. Wilson of nothing more valuable than a lot of bugs in his wheat, which he was very glad to get rid of.

This crow is to be seen almost every morning perched somewhere along Dover street, where he is intently the work of laying new gas mains, and seems very much interested in the work. He also visits daily the site upon which the new building of the Eastern National bank is being erected, and from his apparent interest in and close watchfulness of the building to the others, one would think he was the general superintendent of the construction thereof.

The workmen have orders from the bank officials not to molest or injure him in any way. Last week he went out to Hickory Ridge farm, two miles from town, where Mr. William Just resides, went into the house, and picked a new stiff hat to pieces for that gentleman, besides tearing down a window blind and stealing a key.

Dick is a very sensitive bird, and if any one does anything to hurt him he never forgets it and will have nothing to do with them or go anywhere near them. When night begins to come on Dick will leave what he is doing and make for his home before dark.—Easton (Ind.) Correspondence of Baltimore American.

HINT FOR THE VOCALISTS.

They Should Go Out on a Farm and Try to Drive Oxen.

"Four or five years ago," said a northern Michigan farmer, who was talking to a Detroitier the other week, "a Chicago man happened to be in my neighborhood on business. It somehow came out that he had a son who had just lost his voice, and, meeting the father, I said to him: "If it's true that your son has lost his voice, you might send him up here for a few weeks."

"What for?" said he. "To find his voice," says I. "How can he do it?" "I'll set him to driving oxen." "I told him I had known of lost voices being restored that way, and after thinking it over he said he'd send the son along. The young fellow arrived the next week, and his was a bad case. He couldn't speak to be heard five feet away."

"I had a yoke of oxen that were up to all kinds of mean tricks, and nothing but yelling would make 'em pull over 100 pounds. I had the young fellow use 'em to draw up jags of wood and haul fence rails where they were wanted, and he got along all right for a week."

"Then I set him to haul some timber out of the woods, and I went into hiding to see the fun. When he started the oxen up they barely straightened the chain. He put on the gas, but it was no use. What then oxen was used to was yells and whoops and cuss-words, and he meant to have 'em or stand right there."

"That chap put on the gas and jumped up and down and threw stones and clubs, but the oxen just looked at him and chewed their cuds. He worked at 'em for a full hour, gettin' madder and madder all the time, and there were tears in his eyes and he was jumpin' on his hat, when he suddenly busted out swearin'."

"His voice came to him all of a sudden, and the way he did go was awful to hear. He called them critters a hundred bad names, and he cussed 'em from a post and he'd send a case around to the dog stopped to listen."

"The oxen were too much surprised to move for ten minutes, but all at once they heaved ahead and went off on the run with a stick of timber sixteen feet long. It was a sudden and complete cure for what ailed the young man."

"He wanted to stay for a week or two longer, to be sure that he had actually got his voice back, but I turned him off the next day. Had to do it, you see. He had a voice on him like two fog horns, and when he asked the old woman at supper time to pass the butter that was in his eyes and he was jumpin' on his hat, when he suddenly busted out swearin'."

"He wanted to stay for a week or two longer, to be sure that he had actually got his voice back, but I turned him off the next day. Had to do it, you see. He had a voice on him like two fog horns, and when he asked the old woman at supper time to pass the butter that was in his eyes and he was jumpin' on his hat, when he suddenly busted out swearin'."

IN THE CHOIR, BUT—

She—Of course you know I'm singing at your church now.
He—No.
She—But surely your sister Edith told you I have joined the choir.
He—Oh, yes, she told me that much—Philadelphia Press.

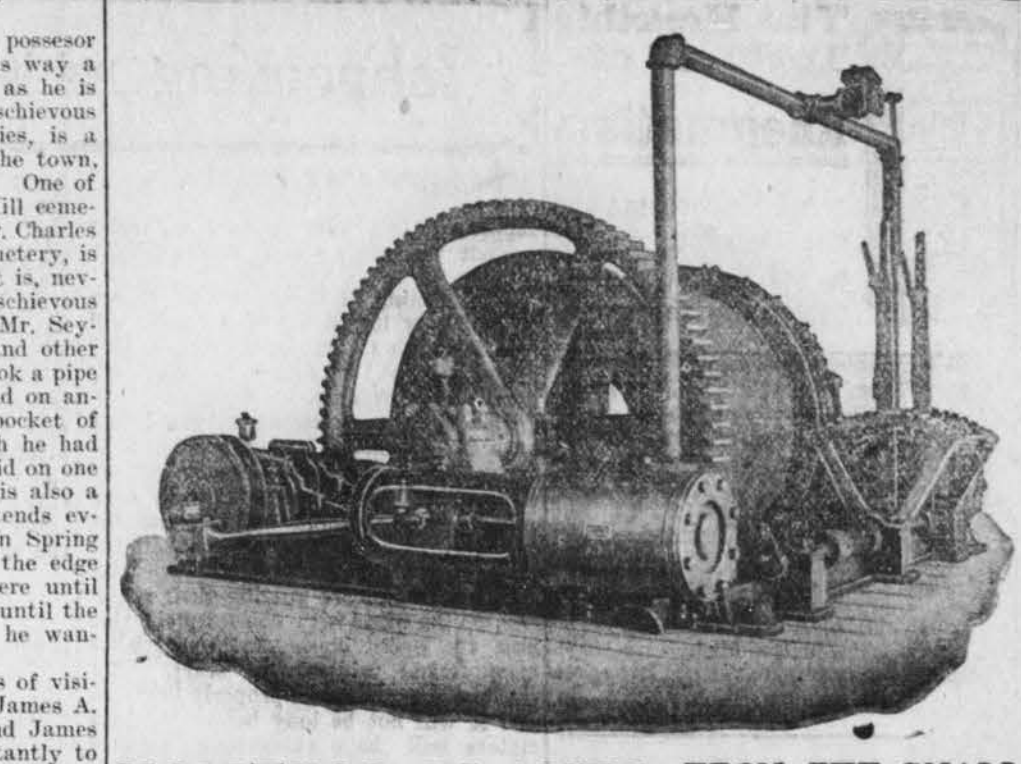

LITERALLY SO.

ST. VITUS' DANCE

She Took Our Vinol with Good Results.

INVIGORATED

HOW A WOMAN GOT HER STRENGTH BACK.

WE WANT EVERY ONE TO KNOW ABOUT IT.

READ WHAT WE HAVE TO SAY. COME AND SEE US.

We don't want any one in this city to drag themselves through life in pain and misery for the want of enough strength to feel well and happy.

If you feel listless, without ambition and run down, it is a bad sign.

You are running grave chances. You are in a condition to be attacked by most any disease.

This feeling of debility is a symptom that your system is generally demoralized. You should take a tonic.

You should take Vinol, which we know and will guarantee will restore your strength.

Following is one case where it did this. Mrs. T. H. Boyle, of 56 Chestnut St., West Newton, Mass., says:

"Last spring I used one bottle of Vinol. At that time I was all run down and sick. I find that it did me lots of good, and by its use my strength came back to me."

Vinol is a delicious preparation, containing the active curative principles that are found in cod-liver oil, dissolved in a delicate taste wine.

Vinol acts directly on the stomach, aiding digestion and at the same time creating a healthy appetite. It gives strength and vigor to every organ of the body.

We endorse Vinol, and guarantee its action, and will gladly refund to any one who is not satisfied the money which they paid for it.

Ishpeiming and its Environs.

NEW OPERA HOUSE. Ishpeiming Is Finally to Have a Theater That Will Be a Credit to the City.

The opening of the theatrical season of 1903-4, which occurs in August, will find Ishpeiming provided with a play house that will be second to no theater north of Milwaukee. The theater question has been before local citizens many times, in many different forms. Suggestions have frequently been offered from time to time by business men and others who realize the necessity of a play house here, but the present is the first concerted movement.

The project will be financed by the local lodge of Elks, which is composed of something like 125 of Ishpeiming and Negaunee's leading citizens and business men. The Elks started a movement for an opera house about a year ago, but it died aborning. The second attempt will not result in failure, as a number have already applied for large blocks of stock.

If the Elks had not taken the matter in hand, E. J. Butler, manager of the city's present theater, had arranged to tackle the project single handed. A proposition which would surely meet with favor would have been presented to the council at the next meeting. The manager was assured by members of the council and prominent citizens that a proposition would be accepted.

At the meeting of the local lodge of the Elks Tuesday evening Mr. Butler gave way to the society and will assist in promoting the enterprise. Braastad Makes Liberal Offer. The speedy action of the Elks was brought about by a most liberal proposition from F. Braastad, who has been an advocate of a new theater for some time past. Mr. Braastad outlined his plan to a couple members of the society Tuesday morning. His proposition is so reasonable that the members immediately became enthusiastic.

The world was passed around during the day and as a result there was a large attendance at the meeting Tuesday evening. Mr. Braastad has offered a site at a price to be named by a committee appointed by the lodge Tuesday evening, with instructions to close the deal at once. The latter will not ask a dollar for the site, but will take the amount of its purchase price in stock. In addition he will allow the Elks the use of a solid brick wall, seventy feet in height by one hundred in length, with out cost. He will also lead the stock list with \$1,000 in cash.

It is Mr. Braastad's intention to erect a fine three-story block, taking in the alley which he recently purchased from the city, immediately east of the clothing store. This will be seventy-five feet in width, by one hundred long, three stories in height. It is likely that the upper story will be made an Elks' lodge room. The opera house will adjoin the Braastad building, occupying the site at present taken up by the firm's crockery store. The solid wall above referred to will stand between the new block and the theater. It will be eighteen inches thick and absolutely fire proof. The space for the play house is seventy-five by one hundred feet.

Lodge Subscribes \$1,000. At the meeting Tuesday evening the Elks present voted unanimously to take \$1,000 worth of stock in the name of the society. Several members signified their intention of taking stock in amounts ranging from \$100 to \$300, so that the proposition really started in the brief time of one hour, with over \$3,000 of the capital stock subscribed for. A stock company will be organized. Stock will be sold to anyone desiring it. The lists will be solicited to subscribe and lists will be found at both banks. The sale of stock will commence within a very few days, as soon as the transfer of the site is made.

The committee named by the lodge to close the deal with Mr. Braastad and make other arrangements for giving the enterprise a proper start, is composed of A. J. Yungbluth, Ed. J. Butler, James Clancy, Arvid Braastad and A. B. Miner. At the next meeting of the society the committee will submit a complete report, covering the negotiations with Mr. Braastad, also outlining a plan for the sale of stock, etc.

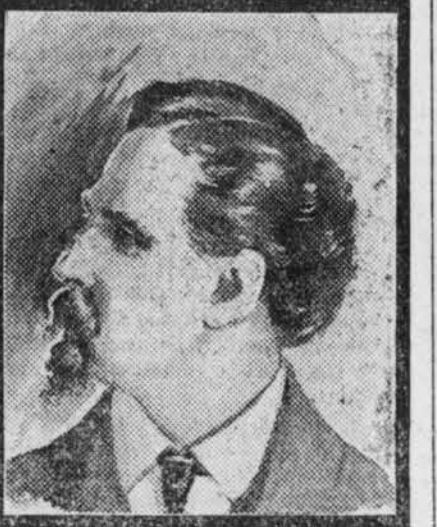

To Engage Experienced Men. The members of the committee favor engaging an experienced theater promoter and builder to push the work along. The promoter will assist in the sale of tickets for the opening night's performance and will superintend the construction work. This plan has worked successfully in many cities throughout the country and there are many things which might be said in favor of a promoter's work. He not only builds the house, when he secures the contract in competition with other builders, but he also furnishes it complete. He paints his own scenery, effecting a big saving for the promoters and the chairs and other equipment are also furnished.

The most prominent promoter in the country is prepared to come to Ishpeiming on short notice. Several other cities are after him, but the Elks have been assured their project will not be delayed on his account. The promoter is prepared to enter into a contract to have the house ready for the opening in ninety days after the ground is broken for the foundation. He will come here provided with several plans, from which the Elks can make a selection. The Elks figure on putting up a house that will cost \$25,000 to \$30,000. With experienced men in charge a fine theatre can be provided at either figure. The opera house boom is not the only

Guarantees to Cure Rupture.

A Syracuse Genius Has Discovered a Marvelous Home Cure That Quickly Heals Rupture and He Positively Guarantees This Wonderful Result.

NO CURE—NO PAY IS HIS MOTTO. Has Many Remarkable Testimonials From Those Who Were Cured, Showing Unquestionably That His Invention is Destined to Completely Revolutionize the Treatment of Rupture. There has been invented, by a Syracuse genius, a new and simple electrical appliance which has been trade-marked "Electric He"

JUDGE BARTOLETTE, of Kentucky, Cured of Double Rupture After Suffering Over 20 Years.

sends it to ruptured people with an absolute guarantee to cure or no pay. This certainly marks a new era in treating rupture and puts to flight a horde of truss vendors, quacks, specialists and dangerous operations. It combines not only the features of perfect retention but it sends into the ruptural opening a steady current of electricity that thoroughly enlivens the muscular tissue, and there is an almost instantaneous activity of nutrition and circulation that heals up the ruptural opening quickly and permanently. It is having a most remarkable success in curing rupture. Old men, ruptured for years and years, have been cured in a surprisingly short time so that they can walk or work and exercise their muscles without fear of the rupture breaking out afresh. Send your name and address to The Electric He, 462 Wood Building, Syracuse, N. Y., and they will forward free the complete details of this wonderful cure for rupture. Keep abreast of the times and learn what marvelous progress is shown in this wonderful invention.

CRESCENT ICE RINK. August Sanders Will Open It in Church Foundation on York and Third Sts.

August Sanders, who recently leased the foundation built for a Methodist church between Third and York streets, has fitted up the place for an ice rink, which will be formally opened within the next few days, possibly Saturday evening of this week. It will be known as the Crescent. Mr. Sanders has a lease covering this winter and next, so that he will engage in the business next fall if this season is profitable. The skating surface is about seventy-five feet square. There are a few pillars in the center supporting the roof, but these will not interfere with the skating. Two comfortable dressing rooms have been fitted up. The rink will be illuminated by electricity. The manager intends to open the rink six evenings a week and Saturday and Sunday afternoons. The prices of admission will be ten cents for ladies and children and fifteen for men. On band nights the latter will be charged a quarter and the ladies and children fifteen cents. Season tickets will be sold at \$2 each for men and \$1.75 for ladies. There should be at least six or seven weeks' skating before the break-up. A band will be in attendance the opening night, also one or two evenings thereafter. There will be skating from 7:30 until 10:30. On band nights, if the patrons desire it, there will be dancing after 10:30.

NIGHT SCHOOL. All who are interested in a night school and wish to take instruction are requested to meet at the high school this evening. The attendance at previous sessions has not been large enough, and the turnout and interest tonight will determine whether or not the school will be continued. Superintendent Scribner has conducted night schools with great success in all the towns in which he has been located previously and has tried very earnestly to interest people in the idea here. A night school would serve a very useful purpose in giving educational opportunities to many who were deprived of them when younger and who cannot now afford to attend school.

FUNDS FOR FAMINE SUFFERERS. A movement is on foot to organize a local committee to co-operate with a county committee for the purpose of raising funds for the famine sufferers in Sweden. The churches and some of the Scandinavian societies have already taken up collections with the same object in view, but the amounts secured in this manner do not meet the needs of the situation. The appeal will be made more particularly to Scandinavians, though all will be given an opportunity to help in the good work.

SKIER BADLY HURT. Axel Holter took a serious fall while ski riding on one of the hills near Lake Hancock yesterday morning, sustaining a compound dislocation of the ankle and a fracture of both bones of the right leg. Mr. Holter had made the descent of the hill safely and had taken the jump. He alighted all right and was going at great speed when the front end of one of his skis caught in a root and the rider was thrown violently. His injuries are very painful, and will keep him confined to the house for a long time.

"LIBERTY BELLES" PLEASSED. "Liberty Belles" deserved a far better house last evening than was accorded it. The theater was only about half filled, the patronage suffering because of the appearance a few days ago of the Jeffersons. However, "Liberty Belles" gave excellent satisfaction and proved one of the best theatrical events ever seen here. It is a pretty and tuneful musical comedy, refined in tenor, and those who failed to attend its productions suffered a treat not often accorded Ishpeiming people.

SUCCESSFUL ENTERTAINMENT. The entertainment at the opera house Tuesday night for the benefit of the convent school was most successful in every respect. The audience filled the house to its capacity, and the numbers met with a most appreciative reception. The entertainment will be repeated next week with an entire change of program.

HEADS SHOULD NEVER ACHE. Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winnie, Va.—she writes "Dr. King's New Life Pills 'holly' cured me of sick headaches I had suffered from for two years." Cure Headache, Constipation, Biliousness, 25c at Stafford's drug store.

ONE HUNDRED DOLLARS A BOX is the value H. A. Tildale, Summertown, S. C., places on DeWitt's Witch Hazel Salve. He says: "I had the piles for twenty years. I tried many doctors and medicines, but all failed except DeWitt's Witch Hazel Salve. It cured me." It is a combination of the healing properties of Witch Hazel with anti-septic and emollient; relieves and permanently cures blind, bleeding itching and protruding piles, sores, cuts, bruises, eczema, salt rheum and all skin diseases. H. Harwood, Ishpeiming; The Stafford Drug Co., Marquette.

J. Sellwood & Co

Champion.

The infant daughter of August Johnson died last Thursday and was buried Saturday. Professor Kluge of Marquette is giving instructions on the violin to a dozen or more Champion pupils. The mercantile establishments of the village have resumed closing their stores at 6 o'clock on Tuesday and Thursday evenings.

The temperature dropped to ten degrees below zero in Champion last Monday morning. With a strong wind blowing, the "snap" was the coldest of the season. Harry Davidson arrived home Tuesday morning from Milwaukee, where he spent a few days visiting Louis Levine of Republic, who is receiving treatment at a hospital there.

The ladies of the Degree of Honor of Champion will hold a neekie social and hop at the town hall Friday evening of this week. The A. O. U. W. orchestra of Marquette will furnish the music. Refreshments will be served in the hall by the ladies.

Norman Everetts, conductor in the Chicago, Milwaukee & St. Paul Railway company's dining car service has gone west to be absent two weeks or so. He will spend most of his time at Butte, Mont., where he will settle the estate of his brother, who died in that city a few weeks ago. Mr. Everetts will spend a few days in Chicago enroute to the west.

The Kendall Dramatic club was greeted by a good house last Saturday evening at the Beacon town hall. The play "A Commercial Drummer" was very capably produced. It was a bitter cold night and several of the performers and their friends, who drove over from Republic, suffered a great deal. One young man had an ear badly frozen and another had his nose nipped.

The local baseball team will be ready to meet any nine in the county within the next week or two. The boys have been granted the use of the town hall for practice, and all are enthusiastic over the sport. Three evenings a week will be given up to practice. The team is made up of out-door ball players who can be depended upon to give a good account of themselves on the indoor diamond.

Mohawk Tribe, No. 24, Improved Order of Red Men, installed the newly elected officers at the regular meeting last Monday evening. The officers are: W. J. Gill, prophet; A. J. Rich, sachem; Samuel Stevens, senior sagamore; A. George, junior sagamore; Ed Paul, keeper of wampum; William T. Mitchell, chief of records; Richard Hampton, assistant chief of records; Charles Simmons, first sannah; W. E. Trevall, first warrior; William T. Olds, guard of wigwam.

D. Belisle, the blacksmith, carriage builder and painter, is doing a fine business. He has a first class painter and some good work is being turned out. A number of important jobs have recently been taken and the working force will be kept busy for some time on carriage and wagon contracts, which will be completed by the time the snow leaves the ground. Among the jobs on hand is the overhauling of G. Marchand's omnibus, which will leave the shop looking like new.

The members of the Beacon club are manifesting much interest in bowling since the alley went into commission at the club rooms. While there are no expert bowlers in town a number have already made some fairly good scores. Raphael Thomas has a mark of 181, while William Thomas came within two of tying him Monday evening last. The former bowled in Chicago while he was a resident of that city and he knows how the balls should be handled. It is expected that several interesting matches will be pulled off before the winter closes.

The office employes of the Champion Iron company are delighted with their new quarters. The interior of the building was remodeled after it was moved to its present site. An addition was built on the east wing, enlarging the main office. The painters and paper

Nasal CATARRH. In all its stages there should be cleanliness. Ely's Cream Balm soothes and heals diseased membrane. Relieves catarrh and drives away a cold in the head quickly. Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail. Trial Size, 10 cents by mail. ELY BROTHERS, 53 Warren Street, New York.

MICHIGAN COLLEGE OF MINES. An Engineering School with unique location, giving it unusual facilities. New Mining Engineering and Hydraulic Building, also Chemical and Metallurgical Building ready for fall term, 1902. For catalogue giving list of graduates and their occupations, address F. W. McNAIR, President, (7-1-17) Houghton, Mich.

KODOL digests what you eat. KODOL cleanses, purifies, strengthens and sweetens the stomach. KODOL cures indigestion, dyspepsia, and all stomach and bowel troubles. KODOL accelerates the action of the gastric glands and gives tone to the digestive organs. KODOL relieves an overworked stomach of all nervous strain, gives to the heart a full, free and untrammelled action, nourishes the nervous system and feeds the brain. KODOL is the wonderful remedy that is making so many sick people well and weak people strong by giving to their bodies all of the nourishment that is contained in the food they eat. Your Dealer Can Supply You. Bottles only, \$1.00 Size holding 2 1/2 times the trial size, which sells for 50c. PREPARED ONLY BY E. C. DEWITT & CO., CHICAGO

NEUMENA WILL SURVIVE.

Man Injured in Brawl Not Fatally Hurt Amputation Necessary.

Matt Neumena, who sustained some very severe wounds by jumping through the glass in a saloon door Monday night, is still alive and gives evidence of recovering, but will probably be minus his right hand, as that member was too badly mutilated to be saved. If Neumena had received more prompt medical attention and had not suffered the loss of such a large quantity of blood, amputation might not have been necessary, though the torn arteries made the case a doubtful one at the best. Blood poisoning may still set in and in that event death will be practically certain. Allen's wounds are not serious and he was able to be out on the street Tuesday morning. The case when completely worked out promises some disclosure that will be very unpleasant for a number of people who were either directly or indirectly concerned in the affair. The man who did the stabbing and who was subsequently cut on the glass has been here for some time. His antecedents are rather shady and if some suspicious are confirmed not only will his name be shown to be different but the responsibility of one of two other serious offenses will be fixed upon him.

WOODSMEN ARE SCARCE.

Men in Demand and Wages Are High—Large Cut of Lumber This Winter.

Reports from various sections of Northern Michigan show that logging operations are being hampered by lack of labor, says a Menominee dispatch. Hundreds of men have been imported from adjacent states, but there is still a great scarcity and the demand for hands, experienced or not, apparently is increasing. Wages of unusually generous proportions are being offered, about \$30 per month and board being the minimum paid to green hands, while the older woodsmen are getting \$45 and even more if they demand it. As it is, the best of food and accommodations must be provided or the men will not stay at the camps, and with the scarcity of help the logging operator evidently has abundant reason for worry. The shortage in the labor department is attributed to the fact that other lumbering sections have drawn on the upper peninsula for help, that the mines are working larger forces than usual in winter and that logging operations are being carried on even more extensively than last season despite the opinion generally held outside the district that northern Michigan is practically denuded of its timber. There is still pine enough to last the mills for many years, while vast tracts of hardwood and of spruce and other varieties of soft wood have not yet been touched by the woodman's axe.

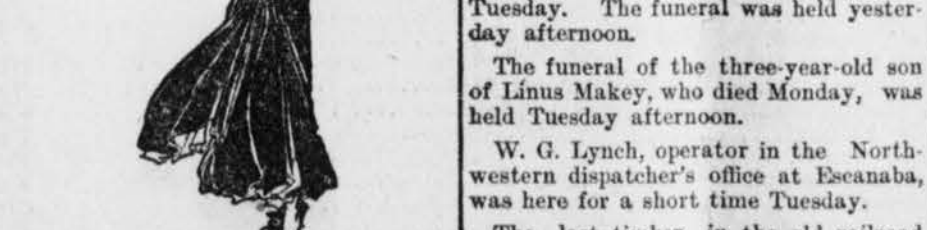

GRIFFITH IN "MACBETH."

John Griffith, the well known tragedian, is booked to appear Monday evening at McDonald's opera house. Mr. Griffith makes no introduction to Negaunee people, as he has been seen here a number of times in "Faust." His ability as an actor is fully established by years of experience on the stage, and as Macbeth he holds a place with the best of Shakespearean actors now before the public. He is well supported. The costumes and scenery and the electrical display are important adjuncts to the acting and add much to the enjoyment of the play. Seats will be placed on sale at Perkins.

Pretty, but so Thin!

"Doctor," said our clerk, as a customer went out, "that woman would be a beauty if she were not so horribly thin."
"Yes," said the doctor, "she is really ill; most thin women are ill."
Unusual thinness may mean worry, extra work, care of the sick, nervousness, dyspepsia, bowel troubles, or the first sign of a serious disease like consumption.
The best thing we have found for thin people, whatever the cause, is Vinol.
To combine the medicinal properties of cod liver oil with organic iron in such a powerful and yet well-tasting preparation, was a great discovery. If you try it and are not pleased, we pay the money back.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers. They filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches, rheumatism, come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It is used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmor's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a simple bottle by mail from Swamp-Root, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmor & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmor's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE SLUMS OF LONDON.

Terrible Crowding and the Rents Are Continually Advancing. Imagination is a thing which is rare enough in any very advanced form, and the comfortable classes may congratulate themselves upon it; for any person reading, with a full idea of its actual meaning, the evidence now being given before the Alien Immigration Commission at Westminster would have an unpleasant mental experience. A master of theory has said that if any one ever realized for a moment the full meaning of the doctrine of eternal punishment he would go mad; a realization of the conditions under which the alien immigrants in London live might at least shake one's sanity. One of the most remarkable aspects of the evidence is that given as to the raising of rents. The chief statistical officer of the London County Council said that in Spitalfields there was an average increase of 15, 14d. per week per room. In this neighborhood, he said, rent raising had gone on for four or five years. In some places the average annual increase was nearly 55 per cent. In Clark street, in cases where rents before 1902 had amounted to £1 13s, they were now £4 7s, and in most cases where the rents had been raised there had been no structural alterations to the houses. In Brick lane, Bethnal Green, sixteen rooms before 1902 had been rented at £2 6s. per week; they now fetched £3 15s, showing an increase of 63 per cent. The other day it was stated before this commission that in one case before a room was let to a man, his wife and two children, these brought brought with them seven other children, the husband's friend and the wife's cousin and aunt, and the aunt's husband. This packing of human beings into a single room reminds a correspondent of the experience which a lady visitor had in the slums of Dublin. She came upon a room in a tenement house in which there were five families "in residence"—one in each corner and one in the middle of the floor. The lady expressed her astonishment to an old woman in one of the corner locations, and wondered how in the world they were all able to find room. "Wish, ma'am," was the reply, "we were all right till the Casseys there in the middle of the flure tuk in lodgers."

TO INSTALL OFFICERS.

The Ladies' Auxiliary to the Ancient Order of Hibernians will install officers at Shea's hall tomorrow night. Miss Anna Lacey, the county president, will be present and will assist in the ceremony. After the exercises there will be an informal reception. The lodge has shown a steady growth and now has an increased membership, which is being steadily increased. The following are the officers: Nellie McAuliffe, president; Johanna Shea, vice president; Mr. Mary Foley, recording secretary; Marguerite Nolan, financial secretary; Nellie Manning, treasurer; Annie Reidy, sergeant at arms; Bessie Conroy, sentinel; Jessie E. Hassett, chairman of standing committee.

LOCAL LAONICS.

D. Teehan and mother left for Chicago Tuesday night. Miss Maude Lee is visiting friends at Michigan. Mrs. H. Segar is here visiting her mother, Mrs. C. Labeau. Phil Levine came down from Republic last night to play in the indoor base ball game. The pupils in the schools are passing through the ordeal of examinations this week. Mrs. Charles Kinsman has gone to Houghton to visit her sister, Mrs. R. C. Kellow. Miss Sena Rasmussen is back in her place at Rosen Brothers' after a two weeks vacation. The infant child of Victor Kalm died Tuesday. The funeral was held yesterday afternoon. The funeral of the three-year-old son of Linus Makey, who died Monday, was held Tuesday afternoon. W. G. Lynch, operator in the North-western dispatcher's office at Escanaba, was here for a short time Tuesday. The last timber in the old railroad trestle was taken down Monday. The work has been in progress for about six weeks and a large force of men has been employed. Some of the timber was badly decayed, but a large portion of it was in good condition and will be used again for culverts and for various other purposes. The management of the Cascade store, destroyed by fire Monday night, has secured a new stock and is doing business in the Finnish Temperance hall. A lady who has lived at the location for thirty years says that Monday night's fire was the second that has occurred in that time. There are nearly two hundred buildings at Cascade and the record of only two fires in thirty years is certainly an unusual one. Ishpeming and Negaunee fans will be well represented at the indoor ball games at Marquette this and tomorrow evenings between the Marquette Macabees team and the city aggregation of Calumet. There is great interest here in the outcome of the matches. The games will be over in plenty of time for the Ishpeming and Negaunee people to catch the night train for home.

WAR ON INSURANCE IN JAPAN.

Agent Attacked by Fanatical Natives Who Worship Fire. Through the fanaticism and religious beliefs of the Japanese, John T. Fullman, special agent of the Royal Insurance company of Liverpool, narrowly escaped assassination. Two months ago Mr. Fullman went to Japan for the purpose of establishing a fire insurance system. The government refused to allow him a grant for that purpose. When the object of his mission became known the natives were infuriated. They declare that a fire to one's abode is the visitation of the wrath of the gods, and they never attempt to extinguish the flames. It was this strange belief which led them to make an attempt on Mr. Fullman's life. "It was our intention to start a company in Japan," said Mr. Fullman. "When the government refused to consider the proposition of fire insurance I was not at all dismayed, and determined to stay there until I obtained some concessions. I went to Nagasaki with the intention of staying until the system was established. Inquiries were made by the police concerning me, and the news gradually leaked out what I had come for. I became an object of hatred to the police, but did not imagine the cause. Two of the native policemen attacked me one day on the street, and would have carried me with the small swords they carried had not two sailors from an American vessel interfered. A few days afterward another attack was made upon me, and I frightened my assailants with a pistol. I then applied to the chief of police for protection. His name was O'Brien, and he was a native of Chicago. The Japanese government employs an English-speaking chief of police. He promised to look out for me. The following night after I had applied to O'Brien an attack was made on me as I lay asleep in my house. O'Brien had placed a big, strong policeman with my door to guard me. The attacking party entered by a window, and I was awakened by the noise caused by one of them overturning an article of furniture. A struggle followed, in which I received a slight gash on the right thigh from a sword. The next minute the guard stationed outside came to my rescue and the assailants fled. That was my last experience with these trouble-makers as I could."

HIGH TRIBUTE TO THE ARMY.

After making a thorough investigation of the prevailing condition of affairs in the Philippine Islands during the past year, the inspector general of the army, in his report pays a high tribute to the courage and kindness with which military operations have been carried on. The highest tribute is also paid to the celebrated Hostetter's Stomach Bitters by people all over this broad land, because of its reliability in cases of sick headache, vomiting, heartburn, indigestion, dyspepsia, liver complaints or malaria, fever and ague. These people having once tried it and proved its value will not accept anything else. If you are a sufferer from any stomach, liver or kidney complaint, you need the Bitters at once. It will surely do you good. Your druggist will supply you with the genuine.

LIVER TROUBLES.

These troubles are always the results of indigestion and often appear before you feel anything wrong with the stomach. When your complexion is sallow, breath offensive, appetite feeble and tongue coated, it is a sure sign of indigestion and inactive liver. There is an easy way of eradicating these troubles quickly; buy a 25c bottle of Re-Go Tonic Laxative Syrup and within twenty-four hours you will feel like a new person. Sold by People's Drug Store.

TO THE LAST BRICK

J. M. LONGYEAR'S MANSION IS TO BE ENTIRELY DEMOLISHED.

WORK TO FINISH BEFORE SPRING

MUCH OF THE MATERIAL WILL GO INTO NEW BROOKLINE HOME.

Cut Sandstone Will Be Thus Used, as Will Beautiful and Valuable Interior Finishings—Step Has Been Foreseen.

The Longyear mansion is to be torn down. Mr. Longyear has instructed C. C. Van Iderstine to proceed with the work and it will be pushed with all possible speed, as Mr. Longyear desires to use much of the material contained in the building in the erection of a new home he intends to build the coming spring in Brookline, Mass.

The Marquette mansion will be razed to the ground, although but a comparatively small part of the material will be transported to Brookline. For the time being the walls surrounding the property will not be removed, as Mr. Longyear is not decided as to what disposition he will ultimately make of it.

His action in ordering the demolition of the house is prompted by his desire to make his home in the east and the fact that no purchaser for the property has appeared.

Marquette will see more or less of Mr. Longyear and his family, as he still has his comfortable home at the Ives Lake farm and his cottage at the Huron Mountain & Fishing club, where a considerable part of the summers will be spent.

Mr. Longyear states that he will use part of the Lake Superior sandstone of which his Marquette home is built in the erection of the house he will put up in Brookline. He will likewise utilize the interior finishings of the Marquette mansion, these being very valuable. The paneling of the walls is in sections so that it can be removed and shipped without great trouble or expense.

As Mr. Longyear remarks, the last part of a house reached in demolition, the foundations, is the part that is first needed in the erection of a new home, and as much of the foundations of the mansion here will be used in building the house at Brookline it becomes important that no time be lost in demolishing his Marquette property. A big force of men will be employed on the work.

It has been rumored from time to time that Mr. Longyear was about to undertake the work that he has now ordered begun in real earnest, but previous to this year all reports of this

nature have been illy grounded. However, the news will not come as a surprise to many Marquette people who have observed that the Longyear family has made its real home in the east for some years past. It has been understood for some time that the Longyear mansion was on the market, and it has been feared that, on account of its great value, its owner could not find a purchaser. Under the circumstance its demolition in the course of time has been a foregone conclusion.

There will be general regret at the news. The home has been one of the finest in the state and one of the city's show places. It has been the best private house in the state and one of the finest in the northwest. Its demolition will leave a gap in the residence section in the eastern part of the city that the people will find it hard to become accustomed to, although in course of time, if other disposition is not made of the property, it is likely that its site will be occupied by a number of handsome homes to take place of the one grand and solitary mansion.

GOOD GAME TONIGHT.

Calumet and Macabee Teams Will Meet on Indoor Diamond.

Two of the best indoor base ball teams in the north country will meet at the Casino rink this evening, also tomorrow evening, in a game that promises to be to use the phrase once more, "the best of the season." Both the Calumet team and the Macabee nine of this city have made enviable records at the indoor game and they will put their best men into the series of two games here. They will contest them hotly, and local fans really expect to see some of the best playing that has yet been offered this year. The local men are not any too confident of the outcome as they realize that the Calumet aggregation is right up to par, but they assert that they will put up the best game they are capable of and that if the visitors win they will carry off a well deserved victory. It is expected that the games will bring out a large and enthusiastic attendance.

The Macabees will line up as follows: Trudman, catcher; Hogan, pitcher; Varel, first base; Dunlavey, second base; Colden, third base; Corbett, right short; Perrin, left short; Timmins, right field; Campbell, left field; Berry and Rydholm, substitutes. In Hogan, who has shown great improvement this year, the team has a pitcher who ranks with the best in the business, and with the famed Wagner in the box for Calumet, the game tonight promises to be in great part a pitcher's battle.

The rink will be warm, coal fires having been started early this morning, and excellent arrangements for reserved seats have been made. The Macabees are under heavy expense in securing the games with Calumet, and they are counting on a big attendance. The admission will be twenty-five cents. A large delegation is expected down from Ishpeming and Negaunee.

Not a dollar need be paid until you're out. Get a package of Rocky Mountain Tea. If it fails to make you well, and keep you well, it don't cost a cent, 35 cents. The Stafford Drug Co.

RIVER IS DAMMED

WATER SUPPLY AT LIGHTING STATION INTERFERED WITH.

HEAD OF NINE FEET BEHIND LOGS

REICHEL'S CAMPS ARE FLOODED OUT FOR TIME BEING.

Superintendent Retailic Will Investigate Situation Today—It Has an Element of Danger In It.

Once more the supply of water necessary to operate the city's lighting plant has been interfered with, and this time the seat of the trouble is a point some six miles above the hoist, where a couple of million feet of logs have been dumped in the river bed, making a temporary dam behind which lies an enormous head of water.

The trouble, the cause of which was learned only yesterday, was first experienced last week, when it was observed that the flow of the river was rather lighter than usual. The latter part of the week orders were sent to the caretaker at Silver Lake to open the sluice gates twelve inches, and it was expected that this would result in restoring the accustomed supply.

Needless to say that, with the dam of logs above the hoist, the expected relief was not forthcoming, and the supply showed no increase.

The opening of the sluice gates at Silver Lake, however, had one important consequence, which put Superintendent Retailic in possession of the secret of the trouble. It caused the amount of the water behind the log jam to rise to a height that brought about the flooding of the Reichel camps, located on the lowlands close to the log dump, and a suspension of work was necessary early this week.

A man was sent to town to learn the cause of the increased flow, the people at the camps being of the opinion that the dam at Silver Lake must have gone out.

Retailic Will Visit Jam.

Superintendent Retailic will leave for the log jam this morning to inspect the lay of the ground and to see what precautions are necessary to insure a steady supply of water at the Dead river plant and to prevent the premature breaking of the jam, which might result in the destruction of the city's Dead river dam. George Reichel states that the logs are securely lodged and that there is no danger of their going out until spring, but the superintendent wants to satisfy himself on this score, as if the jam went out when

things at the dam were not ready for it, the expensive structure that provides power for the municipal plant would not hold up a minute against the enormous head of water in the river bed above the Reichel camp. It is said that the water at the dam is nine feet above the level it reached before it began accumulating behind the logs and ice.

If the logs are lodged in a manner that insures their remaining in one place until the spring freshet, the jam will not cause particular inconvenience, as the water, gradually getting a larger and larger head, will soon flow over the tangled mass of timber in the quantity that usually flows down stream.

The shortage of supply last week and this week has caused the superintendent and the men at the station no little anxiety, and they were at a loss to account for it until they were informed of the conditions that obtained at Reichel's camp. It is said that the start with the task of rolling the logs into the river bed was made two or three weeks ago and that now the course of the stream is completely choked.

The lighting plant was in idleness yesterday while enough water was being accumulated to run it through last night.

FAIR DATES FIXED.

Board of Managers Held a Meeting Yesterday.

The board of managers for the Marquette County Fair association met yesterday and transacted various business. Among other things it fixed the date for the 1903 fair, which will be held on Sept. 1, 2, 3, and 4, about a week earlier than the fair this year, which was held on the 9th, 10th, 11th and 12th of September. There will be evening entertainments on the 2nd, 3rd and 4th. The board is actuated in making the change in dates by a desire to try and locate some good weather.

E. B. Palmer was elected manager of the fair and W. A. Ross was again placed in charge of the amusement department, exclusive of the races.

The association will order tickets printed at once and as soon as they are received the campaign for more members will be commenced. E. C. Anthony will have charge of the work in Negaunee and B. W. Wright will look after it in Ishpeming. Other men will be designated for this purpose in the towns in the western end of the county.

Suffered for Over Ten Years.
Cured by Dr. Iman's Ladies' Restorative
TALMADGE, MICH.
Grand Rapids, Mich.
Dear Doctor: I have been thinking for some time that I ought to write you a few words of praise for your wonderful LADIES RESTORATIVE. It did me worlds of good. I suffered such untold agonies with my meneses, and with female complaints, for over ten years, that death would have been a relief to me. I took doctors' medicine and several kinds of patent medicine, but they all availed me nothing. I am so thankful that I learned of DR. IMAN'S LADIES' RESTORATIVE that I want to recommend it to every lady that is suffering from those terrible complaints. Any one wishing to know more about it may address,
MRS. L. MORSE,
Talmadge, Mich.
