## ALLIES AGREE TO IT

PROPOSAL MADE BY PRESIDENT CASTRO IS ACCEPTED.

BLOCKADE NOW SOON TO END

GUARANTEES OFFERED BY VENEZUELA ARE SATISFACTORY.

Customs Are to Be Applied to Payment of Certain Claims and Others Will Likely Be Settled Without Reference to The Hague.

Caracas, Jan. 26.—The Associated Press correspondent has received a communication from the British naval commander at La Guaira, informing him the blockade will be relaxed next Wednesday.

Venezuelan's Proposition Satisfactory. London, Jan. 26.—It was learned today that Great Britain and Germany have informed their representatives at Washington that they consider Minister Bowen's proposals regarding Venezuela's guarantee to form a satisfactory basis for further negotiations.

Rome, Jan. 26.—The Italian government is ready to accept the proposition of United States Minister Bowen to set apart a certain percentage of the custom receipts of La Guaira and Puerto Cabello as a guarantee for the payment of the foreign claims. The government considers the guarantees offered through Mr. Bowen sufficient to warrant raising the blockade, which it is understood here will cease as soon as Germany agrees to the proposals. The foreign warships, however, will remain in Venezuelan waters.

Germany Approves the Guarantee. Berlin, Jan. 26.—The report that Germany and Great Britain had provisionally accepted the guarantee submitted by Minister Bowen for the payment of the claims reserved from arbitration is confirmed here. The guarantee offered to the powers through Mr. Bowen is a portion of the customs receipts of La Guaira and, perhaps, of several other ports. The proposal was first made to Great Britain, which provisionally accepted it, and then to Germany, which accepted it in principle on Saturday. The allies are now engaged in examining the value of the guarantees offered and are negotiating the details.

A written declaration regarding the raising of the blockade of Venezuelan ports has been exchanged between Minister Bowen and the representatives of Great Britain, Germany and Italy. In their declarations the representatives promised to consent to the immediate raising of the blockade as soon as an agreement was concluded between them and Minister Bowen embodying the conditions laid down by the powers. To meet these conditions, Venezuela offered a portion of the customs revenue of the ports of La Guaira and Puerto Cabello.

Considering Method of Collection. The question now being considered is whether the allies shall establish an international commission for receiving the customs, or whether a neutral agent shall be appointed as a receiver. If the latter course is decided upon, it is believed some American will be chosen, perhaps Minister Bowen. The proposal contemplates dividing the allies' claims into three grades, and that each be treated separately and in proportion to their validity.

It is still believed here that all matters in dispute are satisfied as arranged at Washington, without resorting to The Hague arbitration court. The German foreign office is very hopeful of an early settlement and the raising of the blockade without much further delay. Lively exchange of telegrams occurred between Germany and Great Britain on Saturday before the acceptance of Minister Bowen's propositions as cabled from Washington. It is explained that Great Britain's acceptance was forwarded to Washington first because Mr. Bowen submitted his proposal to Ambassador Herbert before seeing Count Quadt, the German charge. Italy's attitude is to accept any arrangement agreeable to Great Britain and Germany.

Raising of Blockade Ends Alliance. As soon as the guarantee for the payment of the first grade of claims is proposed, negotiations for the settlement of the remainder will proceed with each power independently. The alliance between Great Britain and Germany may be considered to be definitely ended so soon as the guarantee is signed and the consequent raising of the blockade occurs.

The German cruisers Vineta and Falke left Curacao Friday and therefore the navy department here is not in communication with Commodore Scheder, but it is understood that the German naval agent at Curacao will be kept advised of the progress of the peace negotiations.

German Fleet to Remain Permanently. Washington, Jan. 26.—Up to the close of the day formal notice of the acceptance of the proposition of Venezuela had not come to Minister Bowen from the representatives of the allies here. However, such unofficial information as has reached Mr. Bowen confirmed him in the belief that the pending controversy will be settled "soon and satisfactorily."

The lifting of the blockade will not mean the complete withdrawal from American waters of the allied fleet, and it is understood that not only will the winter quarters remain in its accustomed winter quarters in the Caribbean but that the German government will depart from its ancient policy, which has been to get along without station fleets, and

will continue its present squadron in American waters as a permanent fleet. There is no information in Washington to justify the positive statement in the Caracas dispatch that the Venezuelan blockade will be raised on Wednesday. The Italian government has cabled its commander in Venezuela to withdraw from the blockade as soon as the other fleets do so.

London Press Expresses Relief. London, Tuesday, Jan. 27.—The morning papers express the greatest relief at the prospect of a settlement of the Venezuelan trouble as enabling Great Britain to escape an embarrassing situation. The British government is frankly exhorted by its organs to learn the lesson for the future, that unnecessary alliances are almost as bad as unnecessary wars. The rumors from Washington that Great Britain will cease to act with Germany from today are discredited here.

Cuban Criticism for Germany. Havana, Jan. 26.—The arrival today of the German schooner Charlotte from Port-of-Spain, Trinidad, has brought forth some adverse newspaper comment on Germany's action in Venezuela. The government, however, will extend the same honor to the officers of the German vessel as are being shown to those of the French cruiser Tage.

PLOTTING AGAINST AMERICA. European Conspiracy Charged by Gen. MacArthur in Banquet Speech. Chicago, Tuesday, Jan. 27.—The Chronicle this morning says: "Charges of a European conspiracy to disrupt the Western hemisphere, couched by Major General Arthur MacArthur, commanding the Department of the Lakes, in diplomatic language, were made last night at the annual banquet of the Western society of the Army of the Potomac. President Gross intimated that Major General Young's absence from the function was occasioned by urgent duties at Washington relative to the South American struggle."

"A question is being propounded throughout the world," said General MacArthur, "and is being discussed with secret satisfaction in hostile cabinets, with a view, no doubt, to combined action calculated and intended to introduce discord into this hemisphere whenever a propitious moment shall arrive to encourage such interference. "That question is," he continued, "whether a self-governing nation as rich and populous as the United States will be able to resist the strain which must inevitably arise as the logical consequence of its own great prosperity. We can answer that question with calm assurance."

CHAMPIONSHIP FIGHT. Harry Forbes and Andy Tokell of England to Meet at St. Louis. Chicago, Jan. 26.—Harry Forbes, the bantamweight champion of the world, and Andy Tokell, champion of England in the same class, were matched here today to meet at St. Louis Feb. 26 in a twenty-round battle for the championship of the world.

Maher Knocked Out by Choyanski. Philadelphia, Jan. 26.—Peter Maher was knocked out by Joe Choyanski in the second round tonight. Maher was apparently afraid of his opponent and after two minutes of sparring in the second round went to the floor from a left hand swing on the jaw and was counted out.

St. Louis, Jan. 26.—Austin Rice of Connecticut received the decision over Eddie Toy of San Francisco tonight in the seventeenth round. Toy claimed a foul and quit.

ASKS GERMAN TO EXHIBIT. Kaiser's Commissioner to World's Fair Sends Out 8,000 Invitations. Berlin, Jan. 26.—Herr Lewald, world's fair commissioner of Germany, has sent invitations to exhibit at St. Louis to eight thousand selected firms, among them being those which were represented at the Chicago and Paris exhibitions. The replies must reach the commissioner by April 1. Herr Lewald and his staff have opened a special bureau, where great activity prevails.

INVESTING IN SWEDEN. Americans Said to Be Purchasing Iron and Copper Deposits. Copenhagen, Jan. 26.—A local newspaper today publishes a report to the effect that American mining speculators have made large purchases of iron and copper mines in northern Sweden and Norway, and that the Scandinavian companies generally are likely to be incorporated in "the American copper trust."

STRIKE DECLARED OFF. Employees of the Canadian Northern to Get Higher Wages. Winnipeg, Jan. 26.—The strike of the United Brotherhood of Railway Employees against the Canadian Northern Railway company, which had been on since last summer, was officially declared off tonight. Schedules of wages slightly higher than those presented last year will be accepted by the company.

WAR CLOUDS IN THE BALKANS. Russian Agent in Macedonia Hurlingly Summoned to St. Petersburg. Vienna, Jan. 26.—G. Bakmetieff, the Russian diplomatic agent at Sofia, has been hurriedly summoned to St. Petersburg to consult the foreign minister on the Macedonian situation. Bakmetieff expresses the gravest concern at the outlook in Macedonia.

YOST REMAINS AT ANN ARBOR. Ann Arbor, Mich., Jan. 26.—It is officially announced that F. H. Yost will coach the University of Michigan football team again next fall.

## STRIKES AT TRUSTS

HOUSE JUDICIARY COMMITTEE REPORTS URGING LEGISLATION.

EXPLAINS ITS PROPOSED MEASURE

LAYS BLAME FOR HIGH PRICES TO OVER-CAPITALIZATION.

Opinion Is Expressed That the Publicity Contemplated Will Do Much to Ameliorate Oppression and Correct Corporate Abuses.

Washington, Jan. 26.—The report prepared by Representative Littlefield to accompany the anti-trust bill reported to the house by the judiciary committee was presented today by Representative Overstreet of Indiana, Mr. Littlefield being in New England investigating the coal situation along the coast.

The report treats of the trust question at great length. Speaking of the bill reported, it says its "purpose is more effectively to regulate and control on conservative lines, industrial and business combinations which in their operation prove injurious to the public welfare," also that "it involves the idea of publicity and additional legislation to prevent discriminations by rebate or special privileges upon the part of the railroad companies."

Over-Capitalization the Pivot. This report reviews the provisions of the bill and discusses the reasons for their enactment into law. It seems to place the most blame for the increased prices upon over-capitalization and says that "over-capitalization involves the necessity of declaring a dividend upon over-capitalization equal to a dividend upon actual value, thus giving the stock earning capacity and creating an artificial market value."

The report says that the reduction of price to the consumer, which was said would result from the aggregation of large capital, "is in practice seldom attained." The report does not believe that "any of these corporations yet organized have ever been dominated by, or organized for, the purpose of reducing prices to the consumer. "To what extent we are now paying exorbitant prices to produce abnormal results, no one can tell," says the report, "as no reports are now made to any authority, state or national, that gives any adequate information on that point. This is one of the things this bill seeks to accomplish. It is through the facility offered for over-capitalization that the promoters of great combinations, formed from independent corporations and competing business concerns, get their enormous fees."

Hides the Immense Profits. Continuing, the report declares that "over-capitalization furnishes a convenient opportunity for concealing the profitable character of the enterprise," and says there are "instances where corporations have increased their capitalization 100 per cent in order that what was really, say a 12 per cent dividend, would appear to be only a 6 per cent dividend, and thus have avoided the danger of making their employees uneasy and restive because they were not receiving in wages a fair proportion of the earnings of the business."

Elkins Bill Favorably Reported. The senate committee on interstate commerce today unanimously agree to report the Elkins anti-trust bill, with some amendments.

MRS. DOWIE ASKS DIVORCE. Wife of the Father of the Evangelist Alleges Inhuman Treatment. Shenandoah, Ia., Jan. 26.—Mrs. E. J. North-Dowie has filed a suit asking a divorce from John Murray Dowie, father of Evangelist Dowie, of Illinois. She alleges cruelty and inhuman treatment and asks for alimony.

Mrs. Dowie was a wealthy widow at the time of her marriage with Dowie in 1900; owns large blocks of bank stock, houses and lots, and several improved farms in Iowa; has been a great church and woman's Christian temperance union worker, and is a member of the board of managers of the Benedict Home at Des Moines.

In 1900 Mrs. North-Dowie went to Chicago to investigate Dowieism, and there met the elder Dowie, to whom she was married a few weeks later. She is aged sixty-eight and her husband seventy-three. At present Mrs. Dowie is living with a son, Garfield North, in Colorado. It is understood there will be no defense to the petition for divorce.

PLAGUE AT DURBAN SERIOUS. Durban, Natal, Jan. 26.—The bubonic plague is spreading so seriously here that the natives are panic-stricken. Servants and laborers are leaving town in large numbers.

Chicago, Jan. 26.—The department store of Lederer & Co., occupying nearly an entire block in South Halsted street, was damaged today to the extent of \$90,000.

## STEAMER A TOTAL LOSS.

American Boat Goes Ashore in Gale off the Welsh Coast.

Holyhead, Wales, Tuesday, Jan. 27.—An American liner is reported ashore off Aberfoyle point. A heavy gale is raging in the St. George channel.

Later—A portion of the crew of the liner, numbering seventeen men, have come ashore in their own boats. They report the vessel a total wreck.

New York, Tuesday, Jan. 27.—It is thought improbable that any "American liner" is ashore at Aberfoyle point. It is believed that possibly the vessel is the Chesapeake & Ohio company's Shenandoah.

## NEGRO KILLED AND BURNED.

Mississippi Mob Prompt to Avenge the Murder of a Sheriff.

New Orleans, Jan. 26.—John Thomas, a negro who shot and killed Sheriff Ory of St. Charles parish today, was killed by a mob and his body burned this afternoon. Thomas shot the sheriff while the latter was attempting to arrest him and was himself wounded in the arm. He escaped, but a posse found him a mile from the scene of the murder. They immediately opened fire on the negro and fiddled his body. Then placing the body in the victim's cabin nearby, they set fire to the building, which was burned with all its contents.

## AMERICANS MASSACRED.

Three Butchered in a Fight With Bandits in the Philippines.

Manila, Jan. 26.—It is reported here that a volunteer force organized at Bolinao, province of Zambales, for the purpose of dispersing the ladrones in that vicinity has been defeated and that three Americans, including Mr. Osborne, a teacher, were killed. The ladrones outnumbered the volunteers, surrounded the latter and bolted them. The Americans died fighting. The details are meager.

## UTAH SOLONS RAISE A HOWL.

Legislature Objects to Members Being Compared to Jack Rabbits.

Salt Lake City, Utah, Jan. 26.—The lower house of the legislature today made formal objection to its members being compared to jack rabbits. The objection was in the form of a resolution severely censuring a Salt Lake paper which published an article stating that the members from San Pete county "would change places with rabbits and the legislature be strengthened by the presence of their substitutes."

## DYING FROM STRANGE DISEASE.

Mysterious Malady Killing Indians by the Score in Canadian Northwest.

Edmonton, N. W. T., Jan. 26.—News has reached here from Fort Resolution, 600 miles north, of many deaths among the Indians from some strange epidemic. Forty-eight deaths have occurred at Fort Rae, while at Providence twelve children and thirty-six Indians were buried within a few weeks.

## MURDER AT CARO, MICH.

Farmer Shoots Agent Who Came to Seize Mortgaged Team.

Caro, Mich., Jan. 26.—Roy Lester, aged twenty-five, was shot and instantly killed tonight by a farmer named Cupps. Lester had been sent by the H. P. Dearing implement company to take possession of a team on which it had a chattel mortgage. Cupps escaped.

## SHOOTS AND KILLS FATHER.

Deed of an Oklahoma Boy in Revenge for a Whipping.

Enid, Okla., Jan. 26.—Frederick Walker, aged twenty, shot and killed his father, Smith Walker, aged forty, a farmer and politician, while the latter was at dinner at his home near Jefferson today. Young Walker became infuriated because his father chastised him.

## JACKSON "DOCTOR" JAILED.

Head of a Medical Institute Arrested on Charge of Forgery.

Jackson, Mich., Jan. 26.—Dr. W. H. Hale, the head of the British Medical Institute in this city, with branches at Rochester, N. Y., and other cities, was arrested today on a charge of forgery. It is alleged he secured money on a patient's pass book.

## JUDGE DAY ACCEPTS.

Ex-Secretary of State to Succeed Supreme Justice Shiras.

Canton, Jan. 26.—Judge W. R. Day has accepted the tender from the president, made Saturday, of the appointment as associate justice of the United States supreme court.

## NEGRO PREACHER GOES TO PRISON.

Carbondale, Ills., Jan. 26.—Rev. W. P. Washington, colored, was today sentenced to an indeterminate term in the penitentiary for forgery. At the time of his arrest he was an officer of the negro church association and pastor of a negro church at Murphysboro.

## SUES FOR \$50,000 FOR LIBEL.

Minneapolis, Jan. 26.—County Attorney Boardman today entered suit for \$50,000 against the McClure Publishing company for alleged libelous statements published in the January issue of McClure's Magazine.

## PRESIDENT GOES TO CANTON.

Washington, Jan. 26.—President Roosevelt and party left tonight for Canton, Ohio, where they are to participate tomorrow in the celebration of the McKinley birthday exercises.

Gloomy thoughts become habitual to the dyspeptic. He looks on the dark side of things and every mole hill becomes a mountain. His condition affects his business judgment and mars his home relations.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the organs of digestion and nutrition. It gives buoyancy of mind as well as health of body because it removes the physical cause of mental depression.

"I was afflicted with what the doctors called nervous indigestion. Took medicine from my family physician to no avail." writes Mr. Thos. C. Lever, of Lever, Richard Co., S. C. "At night would have cold or hot feet and hands alternately. I was getting very nervous and suffered a great deal mentally, thinking that death would come at any moment."

"Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets."

Subscription Rates: Per month, by carrier, \$1.00. Per year, by mail, \$10.00. MARQUETTE, MICH., JAN. 27.

The congressman's innovation of devoting their Sundays to the memorial services for deceased members will result in the saving of much time for public business and in other ways will prove a commendable practice.

The British protest against our reciprocity treaty with Cuba is a matter of course, in view of the senate amendment, providing that there shall be no reduction of sugar duties to any other country for five years.

Representative Read has introduced a bill at Lansing which will attract considerable attention from the marine interests. It embraces a proposition to impose on steamships and vessels registered in this state, in lieu of all other taxation, a tax of three cent a ton.

The demand of the soft coal miners for increase of wages throughout Ohio, Indiana, Illinois and western Pennsylvania is a natural consequence of the outcome of the anthracite strike, and can hardly be considered unreasonable by any who sympathized with the hard coal miners.

Easy to Take Easy to Operate Hood's Pills

soft coal miners should wish to get this money back, and to share in the enormous profits of their employers. We should suppose that their demand for increase of wages would be successful.

The Mine Workers' convention displayed more conservatism than might be expected of it when it refused to give its endorsement to the proposition, now urged by many people in many quarters, that the government take over the coal mines.

Now that Henry M. Teller has been elected to another term in the national senate and the Republicans have accepted the result, the Republican members of the state legislature should proceed in the regular manner to determine whether any of the Democratic members who voted for him were holding seats to which they were not entitled.

Some students of international politics maintain that Germany's action in bombarding San Carlos is all of a piece with a carefully planned campaign to force the hand of the United States at a time with the German-English pool of interests is in full force.

THE CRUISER BROOKLYN REBUILT. Improvements costing about a half million dollars have just been made on the cruiser Brooklyn.

A SCIENTIFIC DISCOVERY. Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or overloaded.

by the coroner, calling in a physician to look after the medical duties. This remedy for existing unsatisfactory conditions is radical, but its basis is correct.

The two functions should be divorced, but as the medical function of the office is called upon more frequently than the legal side, the former, it seems, should have the preference in the divorce.

OXFORD'S DIRE NEED. The London Spectator prints and comments on special reports from the heads of the several colleges of Oxford to the vice chancery of the university.

While many of the colleges composing the university are rich, their revenues under the terms of most bequests must be rigidly applied to certain specified purposes.

BOOST IN ALLOUEZ. The recent buying of Allouez has been based upon favorable developments at the Ahmeek property, which adjoins it on the northeast and which is seeking to locate the Kearsarge lode.

MINING GOSSIP. This month's product of mass copper from the Mass mine will be at least seventy-five tons.

THE SUPERIOR TRUST COMPANY. Improvements costing about a half million dollars have just been made on the cruiser Brooklyn.

MINING NEWS

STOCKHOLDERS GET ALL. Surplus Not Added to Out of Quincy's Earnings Last Year.

The reduction of the semi-annual dividend on the Quincy Mining company's stock, announced last week, was not unexpected by the people who are familiar with the operations of the company for the past year.

AMALGAMATED FOR SECRECY. In connection with the recently announced withdrawal of the Amalgamated Copper company and its selling agent, the United Metals Selling company, from the Copper Producers' association.

BOOST IN ALLOUEZ. The recent buying of Allouez has been based upon favorable developments at the Ahmeek property, which adjoins it on the northeast and which is seeking to locate the Kearsarge lode.

MINING GOSSIP. This month's product of mass copper from the Mass mine will be at least seventy-five tons.

A SCIENTIFIC DISCOVERY. Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or overloaded.

duced the production over 5,000,000 pounds and there is no immediate prospect of resumption. Latest advices from California are that the mines will make an attempt to start up March 1 with non-union men, but as the men are in an ugly frame of mind, it is considered doubtful if operations can be resumed unless a mutually satisfactory agreement is made.

Tom W. Lawson denies that Trinity is among the "big good" coppers. The real point of a circular issued by him on the subject lies in the following clause: "Personally I am not over anxious to have Trinity join in any copper boom" at just this time.

The Mining Journal is informed that there is considerable grumbling on part of some Union Gold stockholders because of the assessment of two cents per share which has been levied by the Calumet committee to pay the expenses of the suit which has been brought against the mining company to recover \$60,000, which, it is alleged, the directors of the company misappropriated and misapplied.

Upper Peninsula.

Manistique Also an Open Harbor. The Soo papers in booming the all the year harbor at Detour, appear to lose sight of the fact that Manistique's harbor is also utilized every day in the year, observes the Pioneer-Tribune.

Little Twig Causes Serious Injury. Thomas Warren of Wells, Delta county, arrived at a Menominee hospital suffering with an acute attack of iritis, the result of an accident while at work in the woods.

Menominee Physician Honored. Dr. P. J. Noer, of Menominee, has been elected president of the Fox Valley Medical society, which convened in Green Bay last week.

Gets After Dead-Beats. The Retail Grocers' association of Menominee has decided to engage the services of a collector to collect the bad debts. The collector will be at work within a day or two and all who do not pay their grocery bills may expect a call.

Soo's Breakfast Food Factory. J. H. D. Everett, treasurer of the recently organized Superior Food company of the Soo, states that considerable of the machinery needed for the operation of the proposed plant has been ordered, and that its installation will begin as soon as it arrives.

Boy's Sleighride Fatal. John Doherty, a four-year-old St. Ignace boy, is dead. About a week ago he was playing with some other boys on the ice when he was tipped off his sleigh, coming in contact with a jagged piece of ice and causing a painful bruise on his left breast.

Traveling Man Steps Up. F. C. Comstock, of Escanaba, one of the best known traveling men on the road, who for several years has been making regular monthly trips here in the interests of the wholesale grocery house of Roundy, Peckham & Co., of Milwaukee, has been elected vice president and given a \$50,000 interest in the company, which has recently been reorganized.

Must Be Speculating in Stocks. "Business is exceedingly quiet," said a prominent Canadian \$500 business gentleman the other morning. "Not only that but money is tight. We simply cannot collect our accounts. I was out, for instance, the other day to see what I could do. I took with me accounts amounting to several hundred dollars and I could only manage to raise two."

Now Lumbering in Idaho. C. E. Bradner, a well known citizen of Powers, and George Weston of Daggett, both of Menominee county, organized the Weston-Bradner company several months ago and purchased a large tract of timber in Idaho.

Section Men's Narrow Escape. Henry Hengesh and Nels Peterson, section men on the Northwestern road, were walking on the main track at Iron Mountain about 7 o'clock the other morning. A freight was just pulling out of the side track, and the escaping steam enveloped the men. A switch engine was coming up the main track, behind the men, a fact of which they were unaware, as the passing engine made so much noise. The engineer on the switch engine did not see the men, and the result was run into them. Hengesh was thrown completely off the track, sustaining a bruise on the leg of no great consequence. Peterson, when the engine was onto them, had presence of mind enough to step onto the foot board but was thrown against the draw head, and his side seriously injured.

Home of Murderer Burns. The dwelling of George Hardwick, last week sentenced to the penitentiary for life for the murder of Andrew Peterson, has been destroyed by fire. It was located across the bay from Escanaba. At first it was thought the fire was set by some of Hardwick's enemies, but it develops that the fire started from an over heated stove while the family was absent.

Died in China. Captain W. W. Rich, consulting engineer for the China national railway commission, died of a Shanny election on Monday, January 12. Captain Rich was formerly well known in railway circles in the upper peninsula. He was connected with the Soo road and headed the engineering corps. In 1896 he went to China and had been engaged there ever since in projecting new lines under contemplation by the government.

Not for Primary Election Law. According to a Lansing dispatch the upper peninsula representatives are not at all enthusiastic when it comes to a discussion of a primary election law for the whole state. They say that conditions in their neck of the woods are different from any other part of the state owing to the many different nationalities represented. They fear that with a primary election law the leaders would be unable to hold the party organization together.

"Gov." Fuller's Message. A "ratification" meeting was held by legislators the other morning at 3:30 o'clock in a Lansing hotel, that being the hour when Governor Bliss was supposed to have crossed the state line for Illinois, and when Senator Fuller of Escanaba, as president of the senate, became governor. In the house later in the day a little farce comedy was enacted. With due solemnity a committee headed by Representative J. H. Read was appointed to inform Governor Fuller that the house was organized and waiting to receive any message from "Governor" Fuller might transmit. With equal ceremony the acting governor gave into the possession of the committee a written message, which said: "You have my permission to wait as long as you please."

His Windfall \$15,000. F. P. Conde of Batavia, Ill., who arrived in the upper peninsula last week in search of his nephew, Neal Elson, who was employed in one of the Bay Shore Lumber company's camps, returned to Menominee with his charge. The young man has through his grandfather's will fallen heir to \$15,000 instead of \$2,000 as previously stated. Old friends had some difficulty in recognizing Elson when he appeared on the streets. The fine raiment with which he celebrated his good fortune made another man of him. The two men left for Batavia. Mr. Conde stated that a fine position awaited his nephew in his native town and that he would give up the rather reckless life he has led for the next few years. Elson was in business there before he drifted into bad company and left his home.

Installing a Sprinkler System. The Richardson Shoe company of Menominee is installing a \$4,000 fire sprinkler system which will afford adequate protection in all departments of the factory and result in a reduction in the insurance premiums now being paid on the plant. The arrangement is on the "single source plan" and consists of overhead pipes containing full of water, closed by sprinkler heads which, when the temperature reaches a certain heat, melt and release the water. There are to be 355 of these heads through the building. Simultaneously with the release of the water three fire gongs will ring and the annunciator in the office indicate just where the fire is. The system covers the entire three floors of the factory, the blind attic under the leather warehouse, and there is a fire gong on each floor. The pressure obtained in the pipes is identical with the fire pressure of street hydrants.

Coal Situation at the Soo. The coal supply at the Soo is such that it is causing no uneasiness. So far as can be ascertained nearly all using coal for domestic purposes have been supplied. The hard coal in the hands of the dealers is limited, the Port Royal company reporting something over 100 tons. R. D. Perry says the Union Dock company has not a pound of anthracite for sale, and the Geo. Kemp company and Frank Perry are entirely sold out. The only soft coal in the city for sale is in the hands of the Geo. Kemp company. The stock on hand is about consumed, but arrangements have been made for a rail shipment of three cars a week for the balance of the season, and this it is believed will supply the local demand. The price will be between \$6 and \$7 per ton. The Port Royal is selling hard coal at \$9 per ton, and it is expected the price will go to \$9.50 or \$10 within the next week or two. The city came near being put into a hole, owing to the scarcity of soft coal. Last fall at the usual time for making a contract for coal for the coming station, when the board of works asked for bids, none of the dealers responded owing to the uncertainty of the market. Up to a few weeks ago the city had received its supply from Frank Perry at \$4.50 per ton, but was lately notified that the supply was exhausted. The best the city could get outside was an offer to supply Saginaw coal delivered here by rail at from \$2.25 to \$7.25 a ton. Learning that the Pittsburgh Steamship company had several hundred tons of coal

ST. LOUIS THIS WEEK.

Two Fast Hockey Games Slated for Friday and Saturday.

The St. Louis (Mo.) hockey team will come to Houghton this week to play two games with the Portage Lake seven at the Amphidrome rink. The contests will take place Friday and Saturday evenings. Like the Pittsburgh games, which will be played in February, every one has been looking forward to the games with the fast St. Louis bunch. The St. Louis team goes to Pittsburgh to play every year and has demonstrated that it is on a par with the teams of the smoky city. Some of the Portage Lake players are well acquainted with several of the St. Louis men and they say that a very strong team will be brought to Houghton, one against which the locals will have only an even chance of winning. St. Louis has long been a hockey center, just as Pittsburgh is in the East, and some of the best hockey players in the world live in the world's fair city. A photograph of the team has been received in Houghton and shows the players to be a likely looking lot. Against such an aggregation as St. Louis the Portage Lake seven will only hope to do nothing more. Each game will be a battle royal and record breaking crowds are expected.

Pittsburg and Detroit. The management of the Portage Lake Athletic club team will play in Houghton on the evenings of Feb. 23 and 24. Pittsburgh played here last season and each team took a game. In all probability the Pittsburgh Victorias, who are vying with the Pittsburgh Athletic club team for the championship of the East, will be brought here for games on the evenings of Feb. 16 and 17. So far the Victorias and Pittsburgh Athletic club seven have each won six and lost two games.

Detroit will bring a picked team to Houghton to play Portage Lake at any time convenient for the local team. Detroit's offer has been accepted. The visiting team will be comprised of players selected from the best teams in and about Detroit. Detroit writes that in the selection a team will be picked which can "skin Portage Lake to a froth."

BOSTWICK TO STAND TRIAL.

Not Released from Charge of Theft at Marinette, as Stated.

Ernest Bostwick, the actor, recently arrested at Calumet on a charge of stealing valuables from a room at the Central House and who was released because of insufficient evidence and turned over to the Marinette (Wis.) authorities, is not out of his troubles as was stated last week. He will stand trial on the charge of theft at Marinette, having a few days ago been bound over to the circuit court by Justice Bird. Bostwick is accused of stealing jewelry from a room at the Tremont House. It will be remembered that at Calumet the valuables stolen from the Central House were later recovered through the mails, coming back because of a return address on the package containing them and which Bostwick had mailed to himself at Winnipeg, Canada, where the troupe played the next week, but which city the actor did not visit because of being detained at Calumet and Marinette. At the Marinette Bostwick testified that a total stranger gave him the jewelry and asked him to pawn it. His brother sent \$10 to Opera House Manager Charles T. Greene and asked him to settle up the case, stating that he would forward the balance in monthly installments. This little arrangement didn't work, however.

It's folly to suffer from that horrible plague of the night, itching piles. Doan's Ointment cures, quickly and permanently. At any drug store, 50 cents.

HIGH SCHOOL HOCKEY.

The management of the Amphidrome rink at Houghton is taking much interest in high school hockey and is preparing to offer a prize for the best team in the county, to be determined by a series of games. The Hancock and Houghton schools have already organized and each seven is down hard to practice. Considerable rivalry exists between the two schools. The Lake Linden and Calumet schools have not yet organized teams, but it is said they intend doing so. The Amphidrome management has not yet decided what kind of a prize it will offer, but it will certainly be worth striving for and with it will go championship honors. Copperdom is developing any number of good hockey players. Every "kid" able to walk has a hockey stick and a pair of hockey skates.

BALK ON PERSONAL TAXES.

Treasurer Peter Heimlich of Calumet township is having considerable trouble in collecting personal taxes and is thinking seriously of levying on enough property in the case of each delinquent to pay for the tax. Other property taxes are being paid right up but it seems that tax-payers do not take very well to the idea of personal property taxes. Mr. Heimlich is considerably bothered by persons who protest against the size of their taxes. It is not within his province to fix the property valuations. The board of review does that, but still he has to listen to numerous "kicks" and can only explain.

David J. Ryan of Lincoln, Ill., gave Hart's Honey and Horehound to his little baby and cured it of Croup. He affirms that it is the best remedy he ever used for croup. Sold by People's Drug Store.

INDOOR BASEBALL TOURNEY.

Five or More Teams to Meet in Series of Games at Houghton.

A big baseball tournament will be held in the Amphidrome rink building at Houghton during the month of March. The local hockey season will then be at an end and the ice which now covers the floor will be soft enough to take out. Although the plans have not yet been fully made, it is the intention to have five teams from the upper peninsula and the Spauldings of Chicago take part. A series of games will be played. So far as is known the Spauldings, Houghton Light Infantry, Marquette Maccabee, and a Calumet team will enter the tournament. The others have not yet been selected, but there are a number of other strong teams in the peninsula, notably at Marquette and Escanaba. The games will cover about a week's time, and they will likely create a great deal of interest not only in this region, but throughout the peninsula as well.

BACK FROM WEST AFRICA.

Lake Linden Mining Engineer Tells of the Gold Coast.

Samuel Tregrove, of Lake Linden, is home from an extended visit after spending a year in the Sefubi district of West Africa as mining engineer for the London Gold Mining company. The property of which he was in charge is located 170 miles north of the coast and but a few miles north of the equator. The climate is intensely dry and hot, and even natives do not go out into the sun unless their heads are covered by cork helmets. The gold mine managed by Mr. Tregrove is fairly well equipped. The machinery has to be transported on the backs of natives the entire distance from the coast, and then put together at the mine. A railroad is being constructed to within four miles of the property, and as soon as it is completed heavier machinery will be brought in. The mine is reported to be very rich. Mr. Tregrove has many interesting stories to tell of the country and people. He brought back many curios. Mr. Tregrove is a graduate of the Michigan College of Mines, and for eight years previous to going to Africa was employed at the Calumet & Hecla mills at Lake Linden. He may return to Africa next summer, but is not fully decided as yet.

ARE TALKING TOURNAMENT.

Firmen of the Soo May Enter a Team at Hancock.

The announcement that the fire department at Hancock had already begun to plan for the tournament has caused some talk to be aroused among the local firemen relative to the coming event, says the Soo News-Record. The Soo last year was turned down in its aspirations to secure the tourney for this summer, chiefly on the grounds that it had not taken enough interest in the matter to send a running team to them. Now it is proposed to see what can be done in the way of organizing a team to go to Hancock. There is plenty of material here without going outside of the department; the only thing to be done is to get the boys interested. Hancock, it is believed, will outdo all others in the way of entertainment. This is the home of Archie Scott, chief of the department and the oldest fireman in service in the peninsula, and he is also president of the village. Copper country towns are famed for their hospitality and entertainment, and the Hancock meet, it is anticipated, will be the best ever.

Y. M. C. A. ATHLETIC MEET.

The events on the program of the athletic meet at the Hancock Y. M. C. A. gymnasium Wednesday evening for the Schaefer cup are as follows: Fifteen-yard dash; rope vault; standing high jump; running high jump; elephant race; three-legged race; wheelbarrow race; rope climb; high dive; high dip; physical race, and dip on parallel bars. Physical Director Cole will endeavor to lower the world's record for the last named event.

IRONED TO LAKE LINDEN.

Rapid progress is being made in laying the rails on the Copper Range extension from Houghton to Lake Linden and Calumet. The steel is down as far as Lake Linden and the big force of men will now work its way on towards Calumet. The work on the several bridges along the right-of-way is nearing completion. Copper Range officials do not yet give out any definite time for the opening of the extension.

HOTEL DEE SOON TO OPEN.

The Hotel Dee will be opened in the new DeWitt building, on Sheldon street, Houghton, on or about Feb. 15 by Sackrider & McKenzie. Meals will be served a la carte at the Board of Trade cafe.

KILL OR CURE

Killing the nerve doesn't cure the toothache; it merely stops the pain by destroying vitality. The pain can also be stopped by decapitation. Cathartics do not cure Constipation—they give temporary relief; but they weaken the bowels and really make the trouble worse.

What DOES Cure is a Gentle Laxative of a Tonic Character

THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK

RICHARD A. MCCURDY, President. BRUCE WHITNEY, Manager, Milwaukee Wis.

Mr. Sackrider leaves this week for Chicago to purchase the furniture and fixtures for the hotel. The second and third floors of the building will be utilized and it is the intention of the proprietors to equip the rooms in fine style. Each suite will have steam heat, electric lights, bath, hot and cold water and electric bells.

THE SECRET OF LONG LIFE.

Consists in keeping all the main organs of the body in healthy, regular action, and in quickly destroying deadly disease germs. Electric Bitters regulate the stomach, liver and kidneys, purify the blood, and give a splendid appetite. The work wonders in curing Kidney Troubles, Female Complaints, Nervous Diseases, Constipation, Dyspepsia, and Malaria. Vigorous health and strength always follow their use. Only 50c, guaranteed by Stafford, druggist.

COPPERDOM BREVITIES.

President A. J. Scott, of Hancock, has returned from a Milwaukee business trip.

The Houghton Knights of the Maccabees will give their annual ball at the Armory Wednesday evening. Klinghammer's orchestra will furnish the music.

At a regular meeting of Portage Lodge, A. O. U. W., of Houghton, this evening, the newly elected officers will be installed. Several candidates will also be initiated.

The guild ladies of the Episcopal church of Houghton will give a skating party in the Amphidrome rink this week, probably on Thursday evening. Good music will be provided.

Captain Parnall, of Calumet, superintendent of the Quecota Consolidated Mining company, is reported to be seriously ill. He has been ailing a long time with stomach troubles.

Quincy Lodge, F. & A. M., of Hancock, will meet this evening for work in the second degree. Gate of the Temple chapter will meet tomorrow evening for work in the seventh degree.

A party will be given in the Citizens' National bank (Hall) building, Houghton, this evening in honor of Mr. and Mrs. I. Abel, of Houghton. The couple were recently married at Chicago, the bride being Miss Hockstet, of that city.

A genuine spring thaw set in yesterday morning and it was thought for a time that it would be all off with the ice in the various copperdom rinks. The fears were dispelled, however, by the weather bureau's forecast of "snow to night and colder."

Paul Roehm, the Calumet coal dealer, announces that he has but a few hundred tons of hard coal left, and that copper country people who want any of it better get their orders in now, as he is receiving requests for coal from other towns almost daily.

The Northern Michigan General hospital is the name selected for Laurium's new institution. The hospital will be opened on March 1. Dr. G. J. Sorsen, one of the principal promoters, is in the East securing the necessary equipment, which will be of the best.

Johnnie St. Antoine, the Lake Linden runner, says he is willing to arrange a match race with James W. Troyer, the speedy skater of the Soo. St. Antoine agrees to run five laps while Troyer skates seven and one-half. He is willing to race any time and for any amount on those terms.

J. S. Stringer, of Hancock, who has expressed himself in favor of the newly organized Houghton County District Agricultural society and its purposes, makes the suggestion that township roads be opened in sections now without them. According to Mr. Stringer, it is impossible to have a farming country until roads are built.

Miss Merney James, daughter of Hugh James, of Calumet, and Archie MacAlpine, Wash., will be married at the home of the bride's parents at 8 o'clock Wednesday evening. Mr. MacAlpine, who was formerly of Calumet, is now connected with a large mercantile establishment in Spokane. The young people will be at home in Spokane after March 1.

The Houghton Infantry indoor baseball team is arranging for a game with one of the Calumet teams to be played in the Calumet armory Thursday evening. The Calumet team which went to Marquette to play the Maccabee aggregation was not the best Calumet has in the indoor baseball line, and it is hoped not. A better team will play Houghton and an interesting game may be expected.

A list of the newspapers and magazines received at the reading room of the Calumet & Hecla library shows the total number to be ninety-six. Seventy-eight are publications in the English language and the eighteen others are in German, French, Norwegian, Italian, Finnish, Austrian, Polish and Swedish. The list

ENJOINS COAL MEN

WAYNE CIRCUIT JUDGE ISSUES TEMPORARY INJUNCTION.

FORBIDS TRUST-FIXED PRICES

THIRTY DETROIT DEALERS IN COMBINE AIMED AT.

Great Excitement Caused in Iowa by Arrests Following Train Hold-Up and Seizure of Fuel and Trouble Is Expected at Trial.

Detroit, Jan. 26.—The circuit court today issued a preliminary injunction against the Detroit Coal exchange, an organization of thirty local dealers, restraining the exchange from acting as an organization to fix the minimum price at which coal shall be sold.

Thirty Jailed for Seizing Coal. Stratford, Ia., Jan. 26.—Thirty persons were arrested here yesterday for holding up a Northwestern coal train and seizing several cars of fuel. The excitement over the arrests is intense and trouble is expected when the prisoners are brought to trial.

MARKLE PRESENTS HIS CASE.

Supervisor of the Big Coal Operator Forced to Important Admissions.

Philadelphia, Jan. 26.—The attention of the strike commission was today directed to the claims and charges of independent operators, the first case presented being that of G. B. Markle & Co. The witnesses for the company were examined, the more important being Sidney Williams, general superintendent; Gertrude Martin, a professional nurse in the employ of the company, and Frank Walk, general storekeeper at Jeddo.

PRESIDENT MITCHELL REELECTED.

Miners' Union to Urge the Passage of the Anti-Injunction Bill.

Indianapolis, Jan. 26.—The result of the referendum vote on officers of the miners' union today was the reelection of President Mitchell, Vice President Lewis and Secretary Wilson. These three were elected delegates to the American Federation, together with W. D. Ryan of Illinois, John Fahy and John Dempsey of Pennsylvania and W. H. Haskins of Ohio.

EULOGIZED CIVIL WAR LEADERS.

Union and Confederate Veterans Meet at Banquet Table.

New York, Jan. 26.—The thirteenth annual banquet of the Confederate Veteran camp of New York tonight was made memorable by eloquent eulogies of great figures of the South and North during the Civil war, declared by men who themselves had fought in the armies opposing them.

NOVEL ACTION FOR DAMAGES.

Woman Injured in Ohio Sues New York Road Which Sold Ticket.

Syracuse, N. Y., Jan. 26.—Miss Mary S. Barber of Detroit, Mich., has a novel suit against the New York Central railroad for damages for injuries received when alighting from her berth in a sleeping car. Although she was injured in the state of Ohio, she claims that the Central road was responsible for her safe transportation from Syracuse, where she bought her ticket to her destination. She was riding on the Lake Shore road when she was injured. She asks \$20,000.

HAWAII'S ATTORNEY GENERAL.

Honolulu, Jan. 26.—Lorrin Andrews was today appointed attorney general by Governor Dole to succeed E. P. Dole, resigned. Mr. Andrews is a native of New York.

FIRE HORROR AT IOWA MINE.

Terre Haute, Ind., Jan. 26.—A tippie at the Harris Lankford mine burned this morning. One man was killed and four others were fatally injured. Twenty others were more or less seriously hurt.

SETTLERS GIVEN THE LAND.

Federal Supreme Court Decides Important Case Against Railroad Co.

Washington, Jan. 26.—The United States supreme court today rendered an opinion affecting the Northern Pacific railroad land grant. The case was that of Peter and Henry Nelson, who located upon unsurveyed land within the Northern Pacific grant in the then territory of Washington in 1881. This was after the railroad company had filed its general map showing its proposed line but before it had filed its map of definite location. In the opinion handed down today, it was held that the title of the settlers was better than that of the railroad and that until the definite map was filed congress had control of the lands within the grant regardless of the general map.

MAY INVALIDATE OTHER TITLES.

Justices Brewer, Brown and Shiras dissented. The chief point of dissent was that the court's decision clouds the title of all the lands granted the company. At the time the map of definite location was filed, as well as at the time the road was completed, there was not on the records of the land department a single word or mark which indicated that Nelson was on the land or claiming it, or that the title to the railroad land was other than perfect.

"Yet," continues the dissenting opinion, "because Nelson was on the land it is held that the patent of the government to the railroad conveyed to it no title, and this title by oral testimony may show the fact of his occupancy and overthrow the record of title. If such occupancy is sufficient to avoid a patent of the United States, had the company a sure title to any of its lands?"

MILES SEES SIBERIA'S WEALTH.

Returns Enthusiastic Over the Possibilities Which Railway May Develop.

Paris, Jan. 26.—General Miles has arrived in Paris from the Philippines and Russia. At the Continental Hotel he talked of his long journey and said his trip had been most interesting and pleasant. He had been in Russia before in the summer, but he found it more interesting to go there in the winter, because he could then get a better idea of Russian life.

When the general and his companions crossed Siberia they were sixteen days in railroad cars. General Miles confessed that it was rather fatiguing, but the cars were comfortable. Although the cold was at times very severe, it was not so intense as he had experienced in northwestern America.

CHINESE PROBLEM A VITAL ONE.

"The problem of the orient, especially in China," General Miles said, "is one of great moment. It not only affects that country and its government, but it is one in which nearly all the great powers of the world are interested.

"I predict a great future for Siberia. The effect of opening up Siberia by the railroads will be something like what has happened in our great western country. The headlight of the locomotive is in some respect the greatest civilization in the world. The development of a country's resources usually follows the opening of avenues of communication and commerce by means of railways. I anticipate that will be the case in Siberia.

PRAISES NATIVES OF SIBERIA.

"The natives of Siberia struck me as a strong, hardy race, both men and women—perhaps unequalled in endurance by any other people in the world. They did not seem to be extremely poor, but were suitably clad and had an abundance of wholesome food.

"Along the line of the Siberian railroad there probably are 5,000,000 people, who live mostly in villages, cultivating farms in the summer and gathering in the products of the fields the same as do the farming communities in the United States and Canada.

"I have had no experience of that Siberia represented by pictures of sledges being chased by wolves. In fact, there is little difference between traveling there and at home.

HEIRESS ELOPES WITH COACHMAN.

Daughter of Wealthy Manufacturer Weds Her Father's Driver.

Albany, N. Y., Jan. 26.—Valley Falls, a small village about ten miles north of Troy, has a sensation. Miss Mary Thompson, a beautiful young woman, eloped with her father's coachman, Edward Hines. Miss Thompson's father, James Thompson, is a wealthy manufacturer and his daughter is refined and well educated, being a graduate of a fashionable school at Troy. She is twenty-four years of age and Hines is twenty-six. The couple eloped last Tuesday and were later discovered at Granville, Washington county. Mr. Thompson and his wife went to that place and induced their daughter to return home with them. They had been married, but the daughter readily consented to go home. Hines has found a position as a coachman in Granville. Mrs. Hines is favorably known and moved in the best social circles of Troy and Albany. Her husband comes from a poor but respectable family of Valley Falls. He is a handsome young man, who might make an impression upon any young woman with a romantic turn to her nature.

LIFE TERM FOR COL. LYNCH.

London, Jan. 26.—It is now generally conceded that the death sentence passed upon Colonel Arthur Lynch, found guilty of high treason for fighting with Boers, will be commuted to penal servitude for life, subject to further consideration after a term of years.

QUAY STILL RULES

PENNSYLVANIA SENATOR AGAIN BLOCKS BUSINESS.

KEEPS STATEHOOD BILL TO FORE

STATES LEGISLATION CAN PROCEED WHEN VOTE IS HAD.

Long Secret Session Is Held, However, on Resolution by Morgan Denying Colombian Envoy's Power to Negotiate Canal Treaty.

Washington, Jan. 26.—In the senate today, Senator Quay, in charge of the omnibus statehood bill, again insisted on its consideration to the exclusion of the order of business. When Senator Platt of New York attempted to call up the committee report providing for the printing of a document, Senator Quay objected. Senator Hale thereupon declared that Senator Quay was confiscating the time of the senate. The latter replied calmly that this could be obviated by allowing a vote on the statehood bill.

A resolution was offered by Senator Morgan of Alaska, questioning the credentials of Dr. Herran, the Colombian charge d'affaires, who signed with Secretary Hay the canal treaty, and this caused the senate to go into a long executive session. At its conclusion the diplomatic and consular appropriation bill was passed. The Lodge amendment providing for a reorganization of the service was ruled out of order, and debate was thereby cut off.

HERRAN'S AUTHORITY QUESTIONED.

The resolution which Senator Morgan presented was: "That the president is requested, if not incompatible with public interests, to inform the senate as to the alleged full powers of Senator Herran, who signed the treaty with Colombia that was sent to the senate on the 23rd of January, 1903, for ratification, to negotiate and sign the same, and that he send to the senate a copy of the powers of said negotiator."

Senator Morgan spoke in support of his resolution, contending that the Colombian government is practically in the hands of a dictator. He said the Colombian congress had not been in session for three or four years and insisted that this was vital for the reason that under the constitution of Colombia no power was vested in any authority except the congress of the country to enter into a contract affecting the treasury as the canal cession does. Senators Lodge, Foraker, Cullom, Hanna and Bacon spoke briefly, most of them simply urging the reference of the question to the committee and everybody else who did not enter into a discussion of the general question at issue beyond saying that to adopt the resolutions would be to impeach the character of our own treaty-making officials and to offend the government of Colombia. A motion was made to refer the resolution to the foreign relations committee. No one except Senator Morgan opposed reference and the resolution was so referred.

AMERICANS TO BUILD CANAL.

Foreigners Barred from All Contracts by a Bill Favorably Reported.

Washington, Jan. 26.—The senate committee on intercommerce canals today authorized a favorable report on the bill prohibiting the granting of contracts in relation to the proposed Panama canal to any but American citizens.

MORE TIME FOR CUBAN TREATY.

The president today sent to the senate an agreement with Cuba extending the time for the ratification of the reciprocity treaty. Under the terms of the Cuban treaty, ratification was required by Jan. 31, and it had become apparent the time limit was too short. The president also transmitted the Canadian boundary treaty to the senate.

NEW RECORD IN THE HOUSE.

Washington, Jan. 26.—The house today set a new record in the matter of appropriation bills. The military appropriation bill was passed without a word of debate. The Indian bill, which was introduced, was not completed today, as Mr. Burton, Republican of Ohio, made a long speech on it in general criticism of the policy of the government toward Indians. A resolution was adopted calling for the postmaster general for the correspondence in the Indianola (Miss.) postoffice case.

The fortifications appropriation bill reported to the house today carries \$7,963,943, being \$205,012 less than the current law. The bill contains no new legislation.

SCORE PRESIDENT IN SOUTH.

Tennesseans Angry Over Negroes at White House Receptions.

Knoxville, Tenn., Jan. 26.—Great indignation prevails in this city against President Roosevelt on account of the report that at last Thursday's reception at the White House negro men appeared in evening dress accompanied by negro women in decolette costumes. Even among persons who upheld the president in the Booker Washington case the president is being severely criticised. His former warm adherents now predict that he will not receive the nomination in 1904. They cannot understand why the president offers "repeated insults to the southern people" by his treatment of the negro.

WILL WORK LONG HOURS.

Appleton, Wis., Jan. 26.—The International Brotherhood of Paper Makers, at a conference with the manufacturers this afternoon, yielded to the requests of the mill owners and will return to the long hours schedule. This means seventy-two hours work a week and until midnight on Saturdays.

LIVER TROUBLES.

Those troubles are always the results of indigestion and often appear before you feel anything wrong with the stomach. When your complexion is sallow, breath offensive, appetite feeble and tongue coated, it is a sure sign of indigestion and inactive liver. There is an easy way of eradicating these troubles quickly; buy a 25c bottle of Ro-Co Tonic Laxative Syrup and within twenty-four hours you will feel like a new person. Sold by People's Drug Store.

RETRACTS CHARGES

WITNESS GIVES HOUSE BRIBERY INQUIRY A QUEER TURN.

NAVAL COMMITTEE IS AMAZED

DOBLIN DECLARES HIS FORMER TESTIMONY TO BE FALSE.

Makes Specific Denial of Statement Made by Him on Saturday Connecting ex-Congressman Quigg With Alleged Corruption.

Washington, Jan. 26.—The executive committee of the National Afro-American council today passed a resolution urging confirmation by the senate of the nomination of Dr. W. D. Crum to be collector of customs at Charleston, S. C., and adopted an address to the country on the race question in general. The address makes general complaint of the conditions in the South, protests against the continuance of the present situation, and concludes with an endorsement of President Roosevelt's course toward the colored people.

TO ENFORCE PROHIBITORY LAWS.

Bill Is Reported to Meet Conditions of Supreme Court Decision.

Washington, Jan. 26.—The judiciary committee of the house today favorably reported a bill to meet the conditions brought by the original package decision of the supreme court, which decision was in effect that states in the exercise of their public powers could not interfere with the introduction of liquors in original packages. The decision prevented the enforcement of prohibitory laws in various states. The bill seeks to correct this by subjecting intoxicating liquors imported from one state into another to the jurisdiction of the laws of the state into which they are imported.

CANADA FOR TARIFF FIGHT.

Every Effort to Be Made to Block Treaty With Newfoundland.

Halifax, N. S., Jan. 26.—Canada is preparing for a bitter tariff fight with the United States and from now on the dominion government will follow a policy of open hostility.

Since the rejection of all proffers of reciprocity with Canada the pendulum has swung the other way and every effort will be made to block the Hay-Broad treaty and to keep Newfoundland into the dominion, thereby cutting off American fishermen from all trade along the Newfoundland coast. There will be no reciprocity on coal or any other product. A big effort is being made to turn the tide of export traffic between the United States and Great Britain to the dominion, and to this end discrimination will be practiced wherever possible. Events are now shaping their course so fast in this direction, in the opinion of Canadian politicians, that the coming year will be the most eventful one in the history of Canada.

GIRL CAUSES HOTEL PANIC.

Actress Rings Fire Gongs by Mistake and Alarms Many Statesmen.

Washington, Jan. 26.—One of the young women attached to a spectacular show at a local theater was the cause of a panic in the Raleigh hotel early yesterday morning. She wanted to ring for a drink, but instead touched the button that controls the fire alarm circuit of the house. Instantly twenty or more great gongs were pealing a discordant alarm.

Guests, roused from sleep, left their beds in a hurry and jumped into the halls, preparing to run for their lives. Nobody took time to put on his clothes. Senators and representatives and their families and everybody else who was under the roof of the Raleigh joined in the scramble for safety.

Half an hour elapsed before the cause of the false alarm was located and then the hotel management reassured the frightened hotel guests. The girl who touched the button was so pleased with her performance that she was willing to have her escapade written up by the newspapers.

WANTED—A SNAKE CATCHER.

Government to Hold Examination for Experts in Serpents.

Washington, Jan. 26.—The civil service commission will soon hold an examination to secure for the Smithsonian institution the services of an expert snake catcher. The pay of the position is only \$600 a year, but the applicant must be well versed in herpetology and possess a speaking acquaintance with land, marine and amphibious snakes. He must also be able not only to catch snakes, but to classify them and to stuff and mount their remains. The commission lays particular stress on the fact that men addicted to the use of strong drink will not be permitted to take the examination.

KAISER SEEKS TO AID POOR.

Asks That Money Raised for His Birthday Be Used for Charity.

Berlin, Jan. 26.—Emperor William has given notice of his desire, as he did last year on the occasion of his birthday, that in view of the depression in trade that part of the money customarily subscribed for celebrations and illuminations on that day be devoted to the poor, either directly or by providing work for them. He says: "I should feel better and happier if I knew that the poor did not starve on my birthday than if all the money was frittered away."

TODAY'S WEATHER.

Washington, Jan. 26.—The following is the weather bureau's forecast for Upper Michigan: Snow and colder, Tuesday; Wednesday, fair and colder; fresh northwest winds.

RELIEF FOR STARVING SWEDES.

Funds Being Raised in Chicago and Council Committee Will Assist.

CAPTURED IN OKLAHOMA.

Former Constable of Chicago Arrested for Murder.

Shawnee, Okla., Jan. 26.—Martin Howe, a former constable, charged with the murder of John F. Hart, was arrested here today. An officer started tonight with the prisoner for Chicago. Howe has been working in railroad shops at Springfield, Mo., and Shawnee. In his pocket was \$3,500.

STOLEN BOOTY RECOVERED.

Detectives Find Securities Worth \$100,000 Hidden in Missouri.

St. Louis, Jan. 26.—It is reported from Stanto, Mo., that securities to the amount of about \$100,000 were recovered today from the house of Frank Ludolph by a party of detectives. These securities were part of the loot of the Bank of Union, robbed two days after Christmas, when money and available paper amounting to nearly \$120,000 were taken. It is also reported that in the cistern from which \$800 in a sack was taken yesterday, \$6,000 in gold was recovered today.

TRIES MONTH TO MAKE PORT.

Bark Nile Plays the Flying Dutchman Off Boston Harbor.

Boston, Mass., Jan. 26.—The four-masted steel bark Nile, which has been playing the flying Dutchman off this port for a month, trying repeatedly and unsuccessfully to get into the harbor, made port yesterday at last, resting in the furious clutch of the worst blizzard of the winter.

Three times since Christmas the bark has sighted the coast and each time she has been caught in the teeth of an off-shore gale and dragged, plunging and fighting, far out to sea. Her crew had begun to lose hope and almost to doubt if the storm-lashed coast from which fate seemed to drag them ever seaward was more than a vision of their fading senses.

When the Nile came into the harbor she was covered with ice and her standing rigging was a mass of icicles. The crew had been chopping ice from the rigging and decks for three weeks. Captain Symons, Mate Galloway and six others of her crew were badly frost-bitten and had to be taken to hospitals.

The Nile left Java Aug. 28 and was nearly stripped of her sails in a hurricane off the Cape of Good Hope. She sighted the New England coast on Christmas day off Nantucket the next day she ran into a hurricane which carried her 400 miles to sea. Twice since then she had met with a similar experience and, although there have been many fine days, she was unable to make port until she was finally blown into the harbor at a furious pace. An ocean tug made fast to her just under Boston light.

CHARLESTON SHOCKS PUZZLE.

Scientists Unable to Explain Earthquakes on Atlantic Coast.

New York, Jan. 26.—Sixteen years, five months, and twenty-five days elapsed between the great earthquake of Charleston and that which occurred on last Friday night. The historic disturbances of 1886 embraced seven violent shocks, four of them occurring during the night of Aug. 31 and the remainder on the following day. The shock of last week, fortunately, was of moderate intensity, and only one severe shock was experienced on Friday evening. Scientists have been unable to determine how it is that violent earthquakes have occurred on this part of the American coast. Except in the neighborhood of Charleston, the eastern shores of the Western world have been comparatively exempt from earthquake disturbances.

OVERSTUDY KILLS A STUDENT.

Charles H. Orr Drops Dead in His Room at Ann Arbor.

Ann Arbor, Mich., Jan. 26.—Charles H. Orr, a needy engineering student, dropped dead yesterday from overstudy. Orr was working his way through college. His widowed mother lives in Hinsdale, Ill. As he got out of bed Orr exclaimed to his room mate: "Something's burst in the back of my head." He fell over, unconscious, and died in fifteen minutes. Dr. Cyrus Darling pronounced death due to the bursting of a blood vessel in the brain. Orr had learned the trade of barber in Chicago and worked in a barber shop several hours each week. He washed dishes to pay board. He studied until 12 o'clock every night and rose at 5 o'clock in the morning.

STOCK MARKET VERY DULL.

Feeling Is More Cheerful but With the Operations Still Limited.

New York, Jan. 26.—Professional traders were in a more cheerful frame of mind today, and expressed relief over the good prospects reported for a settlement of the Venezuelan difficulty and the lifting of the blockade. There is no doubt that the state of stagnation that has accompanied the blockade has been an influence toward depression in the financial world, but today's market did not indicate conclusively that it was that alone that withheld the people from taking commitments in securities.

The market had one or two spurts, when an appearance of considerable animation was imparted to the trading, but at other times the trading was actually stagnant. The large business in the country indicates a profitable use for money, which does not promise well for an addition to the supplies available for speculative uses. There seems so much

WHEAT TOUCHES NEW HIGH LEVEL

Market Nervous, With Armour on Both Sides, and Close Is Lower.

MARKET NERVOUS.

WHEAT TOUCHES NEW HIGH LEVEL

Chicago, Jan. 26.—A new high price for the season's crop was made today in wheat, when May sold at 82 1/2. The market was very nervous and the trading in general was only moderate. The leader of the bull campaign was on both sides of the market, but the total amount of his business was small. There was considerably selling early on the cables, and May declined to 81 1/2 after opening a shade to 81 3/4, lower, at 81 1/2. It reports that Kansas wheat is being heavily caused a quick advance to 82 1/2. After another decline the market rallied to 82 1/2, but an easier feeling developed the latter part of the session and the close was weak and 1/4 lower, at 81 3/4. The news, while of all sorts, was mainly bearish. Reports from California and India, increased offerings by Argentina and an increase in the exportable surplus combined to induce freer selling. The late weakness was on the large primary receipts, which were twice those of last year. The visible decreased 672,000 bushels, against 100,000 increase a year ago. Liverpool was 1/4 lower to 4 1/2 higher.

In corn there was a good trade and the prevailing sentiment was quite bullish, in spite of statistics, which were generally bearish. Large primary receipts had a weakening tendency, but the cash and export demand more than offset this influence. The buying was mainly by commission houses and local traders. The close was firm, with May 1 1/4 higher, at 45 1/2. The visible increased 335,000 bushels, Liverpool was unchanged to 1 1/2 lower, January closed at 46. May opened at 44 1/2, highest, 45 1/2; lowest, 44 1/2; closing, 45 1/2.

Oats were stronger, 3/4 higher early with wheat, but broke 3/4 and closed at the bottom, at a net loss of 1/4 on May and unchanged from Saturday on July. There was good buying by commission houses and selling by local traders, especially on the bulge. A weak cash situation, due to the car embargo, had a depressing effect on futures toward the close. The visible decreased 187,000 bushels, January closed at 34 1/2. May opened at 36 1/4, highest, 36 1/2; lowest, 36; closing, 36 1/4.

Receipts and shipments were as follows:

Table with 2 columns: Receipts, Shipments. Wheat, barrels 12,000 9,000; Flour, bushels 61,000 16,000; Corn, bushels 404,000 108,000; Oats, bushels 378,000 177,000.

BOSTON COPPER QUOTATIONS.

The copper stocks dealt in on the Boston exchange closed as follows yesterday, the quotations being reported by Paine, Webber & Co.:

Table with 2 columns: Adv., Ret. Adve. 154 1/2, 155; Osc. 61 1/2, 62; Arc. 45 1/2, 46; Par. 5 1/2, 5 1/2; P. 107 1/2, 108; Plomb. 5 1/2, 5 1/2; R. 24 1/2, 25; S. 24 1/2, 25; T. 24 1/2, 25; U. 24 1/2, 25; V. 24 1/2, 25; W. 24 1/2, 25; X. 24 1/2, 25; Y. 24 1/2, 25; Z. 24 1/2, 25.

BOSTON STOCK SALES.

The following were the transactions in copper stocks on the Boston exchange yesterday as furnished to The Mining Journal by Paine, Webber & Co.:

Table with 2 columns: Adventure, 377; Mohawk, 45; Arnold, 1,500; Old Colony, 50; A. H., 250; Old Dominion, 50; Arcadian, 100; Anaconda, 100; American Copper, 100; Boston, 250; Central, 100; Copper Range, 2,125; Quincy, 100; Connecticut, 100; Erie, 100; C & H, 100; Tamarack, 17; Elm River, 38; Trinity, 675; Franklin, 100; Erie, 100; Mayflower, 435; Farris, 100; W. M., 100; Isle Royal, 100; Winoona, 100; Mass., 100; Wolverine, 100; Michigan, 100; Wyanadot, 100.

Nourishes the tissues, filling out the hollow spaces, smoothes over bony places, giving a beautiful freshness to the faded skin. That's what Rocky Mountain Tea will do. The Stafford

**COPPERS SHOW GAINS.**

They Reflected Favorable News Arent Venezuelan Situation.

Paine, Webber & Co. said of the Boston market:

"Coppers displayed an exceedingly healthy symptom today by making a fairly good advance on a very small volume of transactions. It seems to prove that steady absorption of coppers is going on at the present level of prices and that the buying is better than the selling. The metal market advises continue very encouraging and the outlook favors higher prices for good copper stocks."

Hayden, Stone & Co. wired the Lippard Commission company as follows:

"The market opened somewhat higher this morning, on an improved feeling over the Venezuelan affair. While the market held, it has been extremely dull. We hear very strong talk on Amalgamated."

It has been accumulated for some time and as soon as it becomes active it should be a leader. We think well of Utah and we look for higher prices in the near future."

Chicago Markets Promise Well.

Laidley said of the Chicago markets:

"Influenced by unresponsive foreign markets, wheat opened a shade lower, but it immediately turned strong upon large buying and made a new high record. It fluctuated between 82 1/2 and 82 until near the close, when it sold off rapidly under heavy offerings, closing 3/4c under Saturday. Some wheat was reported sold to France. After the report came, this setback is only natural and should serve to put the market in a better position than at any time heretofore. We look for still higher prices than have yet been reached."

"In direct contrast to wheat, corn was strong throughout the session, opening at about Saturday's close and advancing on good buying. Toward the close it eased off somewhat, in sympathy with wheat, but it closed slightly over Saturday. We cannot see why the May option should not advance and we certainly expect it to sell much higher."

"Oats were strong and active, but met with rather heavy realizing, closing at about Saturday's figures. The receipts are somewhat more liberal, although still under the cash demand, and we continue to look for considerably higher prices in this cereal."

"Provisions opened strong and higher, upon small receipts and strong hog markets, and, although considerable realizing was met with, the close is at a fair advance over Saturday's prices. The cash demand remains about fair. We continue to advise the purchase of provisions and we think they will sell considerably higher than even at present."

**Good Day in New York.**

Dick said of the New York market:

"The market has been dull but strong today and it was favorably influenced by the better Washington news regarding the Venezuelan situation. Toward the close, an increase in commission house buying appeared, but short covering was largely responsible for the gains. The tone at the close was strong. The flower interests bought People's Gas aggressively, and made it a feature. Missouri Pacific and St. Paul were very strong. The Erie acted very well and Manhattan was well taken on its advance. Renewed buying appeared in Frisco common. Some nervousness appeared among the shorts. If, as is likely over night, news from Washington is favorable, we should have a better market tomorrow. We are told from a good source that within twenty-four hours the Venezuelan blockade will have been lifted."

**FINDS WAY TO LIVE LONG.**

The startling announcement of a Discovery that will surely lengthen life is made by Editor O. H. Downey, of Churubusco, Ind. "I wish to state," he writes, "that Dr. King's New Discovery for Consumption is the most infallible remedy that I have ever known for Coughs, Colds and Grip. It's invaluable to people with weak lungs. Having tried this wonderful medicine no one need fear Pneumonia or Consumption. Its real relief is instant and cure certain." Stafford guarantees every 50c and \$1.00 bottle, and gives trial bottles free.

**CITY BREVITIES.**

Today's weather: Threatening with snow near the lake. Colder.

Yesterday's temperature: 7 a. m., 37 degrees; noon, 35 degrees; 7 p. m., 34 degrees. Maximum, 37 degrees; minimum, 26 degrees.

Mrs. Morrow of Escanaba is visiting Mrs. LaBonte.

J. M. Edgerton was a Negaunee visitor here yesterday.

W. T. Potter of Ishpeming was a county seat visitor yesterday.

Samuel Mitchell, Jr., of insurance fame, of Negaunee, called on Marquette acquaintances yesterday.

James C. Wood of Manistique, formerly an attorney at Ishpeming, was here on legal business yesterday.

Luncheon was served The Mining Journal force last night by the clerks' union. The spread was much enjoyed.

The ladies of the Lady Victoria court of Foresters will hold a special meeting this evening at Fraternity Hall.

Chairman Walter Fitch has called a meeting of the court house building committee for Saturday afternoon at 1 o'clock.

Miss Nellie Trucky left yesterday for the copper country, where she will spend a few weeks visiting relatives and friends.

Marquette lodge, No. 101, F. & A. M., will confer the third degree in place of the second degree as previously announced.

Publisher Knox of the Soo Journal arrived last night on a business mission and will return home this afternoon. He made the Mining Journal a pleasant call.

The commissioner has confirmed the decision of the local land office in the case of Thomas Coughlin vs. John Coombe, 100 acres in Oughton vs. John

**IRON NOTES.**

Items of Interest Concerning the Great Metal Industry.

Another important discovery of iron has been made at Eveleth at the north end of Grand avenue, on an eighty owned by the Murphy, Dorr, Flinn and Fowler syndicate, who own the fees of all the other mines in that town. The eighty adjoins the townsite and a drill is in 170 feet of ore at a distance of about 400 feet from the edge at the townsite limit, about forty rods from the More hospital. It was not supposed ore would be found in that particular deposit so near the edge of the improved part of the town recall that Eveleth was opened five years ago in order to make it possible to open what is now known as the Spruce mine.

E. F. Bradt, the wellknown mining man who has been in charge of the operations at the Clergue iron mines in the special capacity of chief of the Northwestern and South Shore roads.

Mr. Bradt's new position is a much more desirable one from every standpoint than the one he resigns. The new company will open a large mine on the Mesaba range about six miles from Hibbing and will employ 100 men. Many millions of tons of ore have been proven up, and the property will be a large shipper next season. Mr. Bradt has many friends on this range and throughout the peninsula who will be pleased to note his advancement and we wish him every success in his latest venture.

A special correspondent of the Milwaukee Sentinel says of the ore discovered at Baraboo, Wis., that it is of the finest quality, and, therefore, of the greatest consequence to Sauk county, as the opening of several iron mines would mean the employment of thousands of laborers. The parties interested in the mining properties have recently purchased 120 acres of land near where the shaft has been opened, and are planning a town site. The name of the new town is La Rue, who has accomplished more in the discovery and development of the mines of the county than any other person. The shaft of the Illinois Iron Mining company is 300 feet deep, the drift is about 250 feet and the cross cut is in the 100 feet of solid ore. The limit of the ore vein has not yet been reached, but there is no longer doubt that there is iron ore in sufficient quantity, and of the best quality, to warrant mining. A number of shafts will be sunk in the near future, and a great deal of prospecting will be done by means of diamond drills. Several railroad companies have already taken preliminary steps toward building lines to the mines and to the new town site, and there is every prospect that the camp will develop importance within a few years.

It was reported at Duluth last week that the Section Thirty company, representing the Clergue syndicate, has been negotiating to take options on properties other than the one near Ely, which it is now exploring, and that one of these is the Pine Island lease controlled by Alfred Merritt.

It is learned upon good authority that representatives of the Section Thirty company have investigated the Pine Island proposition with a view of taking an option for a transfer after the lease and exploring the land. It is possible that the men were acting as individuals in the interests of the Clergues, or for the same interest as representatives of the Section Thirty company.

The report was that the Section Thirty company was to explore Pine Island, but the rumor was discredited in some usually trustworthy quarters.

The Pine Island proposition is an interesting one. The island lies in Lake Vermilion in Section 5-62-15 and is four miles north of the Tower mines. The fee of a large tract on the island is owned by Albert Kitto, a well known business man of Tower, and Alfred Merritt, of Duluth, paid him \$5,000 cash for a lease on the surface showing alone.

There is a fine outcrop on the land. In one place it is 200 feet wide and runs from 50 to 60 feet in iron, and 1,300 feet distant is another outcrop 180 feet wide and of about the same quality.

Don't fail to attend the auction sale of clothing at the Union clothing store, next to Freeman's livery, every evening this month. (1-15-15t)

Louis Grabower, C. B. Jones and J. J. Wirtz, Marquette, are authorized to take subscriptions for the Marquette & Arizona Mining Co. stock. (12-19-1f)

"Neglected colds make fat graveyards." Dr. Wood's Norway Pine Syrup helps men and women to a happy, vigorous old age.

**UNCONSCIOUS FROM CROUP.**

During a sudden and terrible attack of croup our little girl was unconscious from strangulation, says A. L. Spafford, postmaster, Chester, Mich., and a dose of One Minute Cough Cure was administered and repeated often. It reduced the swelling and inflammation, cut the mucus and shortly the child was resting easy and speedily recovered. It cures Coughs, Colds, La Grippe, and all Throat and Lung troubles. One Minute Cough Cure lingers in the throat and chest and enables the lungs to contribute pure, health-giving oxygen to the blood. H. Harwood, Ishpeming; The Stafford Drug Co., Marquette.

**DON'T WORRY.**

This is easier said than done, yet it may be of some help to consider the matter. If the cause is something over which you have no control it is obvious that worrying will not help the matter in the least. On the other hand, if within your control you have only to act. When you have a cold and fear an attack of pneumonia, buy a bottle of Chamberlain's Cough Remedy and use it judiciously and all cause for worry as to the outcome will quickly disappear. There is no danger of pneumonia when it is used. For sale by Stafford Drug Co.

**HARD COAL IN MONTANA.**

Valuable Vein of Anthracite Reported Found by Prospectors for Gold.

Helena, Mont., Jan. 26.—Prospectors for gold have discovered a four-foot vein of coal that is reported a superior anthracite. Claims are rapidly being staked out, as the discovery is regarded almost as valuable as some of the gold mines.

**WOMAN FOR STREET CLEANER.**

New Orleans Club Asks Mayor to Make Unusual Appointment.

New Orleans, Jan. 26.—The Era club, the largest and most influential woman's club in the South, has adopted resolutions calling upon Mayor Capdeville to remove one of the district superintendents in charge of the work of cleaning the streets and removing garbage and appoint a woman in his place, to prove how much better this work can be done under the management of a woman than by a man.

**NO THIRD CLUB FOR CHICAGO.**

Chicago, Jan. 26.—It is practically certain that the American association will give up the idea of transferring the St. Paul club to Chicago. It is known that the American and National leagues will oppose the placing of a third club in Chicago, and it is almost certain the majority of the American association magnates are not in favor of making the move.

**CLEVELAND EULOGIZES HEWITT.**

New York, Jan. 26.—The late Abram S. Hewitt was eulogized by former President Grover Cleveland today at a memorial meeting held at the city club. Addresses were also made by other prominent men, and a letter from President Roosevelt expressed regret at the death of Hewitt and spoke highly of the deceased's character as a citizen.

**A BANK FAILURE IN OHIO.**

Burton, O., Jan. 26.—Boughton, Ford & Co., bankers, assigned today. It is understood the assets amount to about half a million. The liabilities foot up \$300,000.

**JUDGE FENTRESS DEAD.**

Chicago, Jan. 26.—Judge James Fentress, for twenty-five years connected with the legal department of the Illinois Central road, died tonight.

**WASHINGTON STATUTE IN BERLIN.**

Louisville, Jan. 26.—The Turn German adopted a resolution tonight in favor of erecting a statue of George Washington in Berlin.

**BLAINE'S CAMPAIGN MANAGER.**

Portland, Me., Jan. 26.—Colonel Henry S. Osgoode, a friend and campaign manager of James G. Blaine, died today.

**NEW CENTURY COMFORT.**

Millions are daily finding a world of comfort in Bucklen's Arnica Salve. It kills pain from Burns, Scalds, Cuts, Bruises; conquers Ulcers and Fever Sores; cures Eruptions, Salt Rheum, Boils and Pelons; removes Corns and Warts. Best Pine cure on earth. Only 25c at Stafford's drug store.

**PINE SLABS.**

Four-foot Pine Slabs delivered anywhere in city, \$2.50 per cord. Phone No. 231 or 959. South Arm Lumber Co. (11-27-1f)

**GOING OUT OF BUSINESS.**

**ITCHING ECZEMA**

And Other Itching, Burning and Scaly Eruptions.

Instant Relief and Speedy Cure Afforded by

Cuticura Soap, Ointment and Pills

When All Else Fails.

COMPLETE TREATMENT, \$1.00.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants and the anxiety of worn-out parents, as in milk crust, tetter and salt rheum, all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures and humor remedies of the civilized world.

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, in the severer forms, take Cuticura Resolvent Pills, to cool and cleanse the blood. A single set is often sufficient to cure the most torturing, disfiguring and humbling skin, scalp and blood humors, with loss of hair, when all else fails.

**WILL CHALLENGE MARQUETTE.**

Debating Team Has Been Organized at Ishpeming High School.

An important meeting of students was held at the high school yesterday afternoon. The organization of a high school debating club was perfected and a question suggested by Professor Scribner was argued by opposing sides.

Mr. Scribner is an enthusiastic advocate of debate and oratory and has been instrumental in creating a good deal of interest among the students, the girls showing as much earnestness as the boys. A challenge to a joint debate will be sent to the Marquette, High school within a few days and in accordance with the usual rules Marquette will have the choice of sides. Professor Scribner has already received assurances from Superintendent Thompson that the challenge will be favorably considered.

There are a good many candidates for places on the debating team, which will consist of three members. No definite plan of selection has yet been adopted, but probably the same system that prevails at the universities and colleges will be followed. The usual plan is to have the candidates enter a preliminary contest on a chosen subject, governed by the same rules that will apply in the final. A certain number, determined by three judges, will be selected as the winners and these in turn will hold more debates, the number of contestants being narrowed down each time till only three are left. In this way the most satisfactory selection can be made and only those who are best fitted will get places on the team. The custom followed at Columbia University and most of the Eastern schools is to have each candidate argue a different side of the question in each of the preliminary debates. The question is thus grasped more fully and can be handled to better advantage than if only one view of it had been taken. The debate with Marquette will probably take place in the latter part of March.

Mr. Scribner has been corresponding with the various high schools of the peninsula with a view to organizing a debating league with all the schools in the north country as members. He has received favorable replies from several of the superintendents. The proposed contest is really an experiment and if it results successfully it is thought there will be no obstacle to a union of the upper peninsula schools generally in a league.

**Suffered for Over Ten Years. Cured by Dr. Iman's Ladies' Restorative**

TALMADGE, MICH.

THE IMAN MED. CO., Grand Rapids, Mich.

Dear Doctor: I have been thinking for some time that I ought to write you a few words of praise for your wonderful LADIES RESTORATIVE. It did me worlds of good. I suffered such untold agonies with my menses, and with female complaints, for over ten years, that death would have been a relief to me. I took doctors' medicine and several kinds of patent medicine, but they all availed me nothing. I am so thankful that I learned of DR. IMAN'S LADIES' RESTORATIVE that I want to recommend it to every lady that is suffering from those terrible complaints. Any one wishing to know more about it may address, MRS. L. MORSE, Talmadge, Mich.

**A NEW OFFICE.**

Wellknown Exploration Company Has Just Completed a Fine One.

The Cole & McDonald Exploration company of Virginia, Minn., a diamond drill firm well known on all the Michigan ranges, has just moved into a fine new office at the headquarters of the concern in the Mesaba range town. It is said that there is no finer office building on the Mesaba ranges. It is a two-story frame structure finished in Georgia pine. On the first floor are located the general and private offices and a large draughting room, equipped with all necessary appliances for a construction of the most elaborate drawings. Part of the basement is used as a warehouse where diamond drills are stored. In another part is a place for grading the samples. Here the diamond drill cores are carefully assorted. A portion is sent to the laboratories to be treated chemically and the remainder is placed in packages and stored away so that it can be used for reference. The building is heated throughout by the hot water system. Upstairs there is a large reading room and several bedrooms and a bathroom. The company has erected five fine buildings at Virginia during the past two years, expending over \$20,000 on them.

**JOHN GRIFFITH TONIGHT.**

In introducing John Griffith as a star in "Macbeth," Manager Aiden Benedict has made preparations for a correct production of the play. In the supporting company, costumes, illusions, scenery, electrical novelties and effects there has been much expenditure of money, time and care. The result is, it is said, that in this version of "Macbeth" the star has a medium even better than was "Faust," the play which introduced John Griffith to the theater-going public. "Macbeth" will be presented tonight at the opera house. The prices of admission will be fifty and seventy-five cents. Seats are on sale at Tillson's.

**NEARLY COMPLETED.**

The Oliver Mining company's office is fast nearing completion and it is thought it will be ready for occupancy by the middle of the coming month. Some of the parts of the vault have not yet arrived, and as soon as they come and are placed the work will be practically completed. The office force is anxious to get into the new quarters, for they are much larger and convenient than the present building.

**ISHPERING IN BRIEF.**

Rooms are for rent in M. L. Lee's modern flat.

E. D. O'Keefe of Escanaba was in the city yesterday.

Dr. C. M. Leonard left Saturday for a short visit at Birmingham.

Mrs. J. L. Bohn of Milwaukee is visiting with Mrs. James Brydon.

Mrs. J. L. Bradford will entertain this evening in honor of Mrs. Gertrude Sober.

C. Lavigne and August Nault went to Lake Independence Saturday to enjoy a week's fishing.

The fourth dance of the midwinter series will be given Friday night at Anderson's Hall.

Mrs. M. Martineau let last night for Boulder, Colo., where she will remain for about six months.

The funeral of Mrs. John Nolan will be held tomorrow morning at 9 o'clock from St. John's church.

Francesco Saranvella and Maria Frustaglia were married yesterday morning at 9 o'clock at St. John's church.

The band will play at the Crescent ice rink tonight. The price of admission will be twenty-five cents.

A. W. Myers & Co. plan to move their meat market to the building which contains the other stores about Feb. 1.

All who desire copies of the delinquent tax list can secure them without charge at the Mining Journal branch office, in the Dundon block.

After high mass at St. John's Sunday morning, J. F. Labreche and J. H. Kiefer were elected members of the church for the ensuing term.

The ladies were present at last night's meeting of the Snow Shoe club. The usual tramp was made to the clubhouse, where a turkey supper was served.

"The Moonshiner's Daughter" will be presented at the Ishpeming Opera House Thursday evening, Jan. 29. The Marinette and Menominee papers speak very highly of the performance, which pleased large audiences in both of those cities last week.

The second entertainment for the benefit of the sisters will be given at the opera house tomorrow night. The program has been entirely changed and will be even better than that of last Tuesday evening. The sale of reserved seats will begin this morning at Tillson's. The price is fifteen cents.

Captain W. H. Johnston and wife expect to leave today on a six weeks' trip in the west. They will first go to Chicago and while Mr. Johnston transacts some business at other points Mrs. Johnston will remain there. Then they will go to Colorado Springs, where Mrs. Johnston will stay until her husband returns from a visit to the mining district in Arizona, which is the chief object of the trip.

**COULDN'T LOCK THE DOOR.**

Courtly Old Virginian Wanted Privacy at His Hotel.

He was an elegant old gentleman from Virginia. Any one would have known that he came from that state without even asking. His aristocratic face and bearing, his white hair and mustache, his courtly manner and soft elision of certain syllables, all proclaimed him of a type becoming more and more rare with each ensuing year. No one was surprised when the clerk of the hotel which he had just entered addressed him as "colonel." The title certainly fitted him. The writer afterward discovered that he is a bona-fide colonel, having served through what until recently called the late unpleasantness.

"Well, colonel," said the clerk, who came from the old gentleman's town in Virginia. "You want the best in the house, of course."

"Certainly, certainly, suh," answered the colonel, to whom money mattered not. "About how much, suh, did you say per day?"

"Twelve dollars, sir."

"Very good, suh," said the Virginian. "Perfectly satisfactory, suh."

Then he was shown upstairs.

After he had been at the hotel a few days his case happened to be taken called upon the "governor" and found him in a very comfortable room, but nothing very elegant, at least not luxurious enough to be paying \$12 a day.

"I have nothing to complain of," said the colonel, "except that that stupid boy neglects to lock this door leading from my room into that of the Lord knows who. So it is that I am obliged to fasten the door by chairs and things. It's a damned thing I've served by time in the army, my boy. Who knows whether a burglar or some siren occupies that next room? I laid awake last night wondering who is in there, and whether he or she might get it into their heads to investigate this room."

"I'll speak to the clerk," said the son, but by the time he had gotten down stairs his mind was fixed on other things.

"Yes, as a free day later the colonel asked the clerk for his bill.

"And were you very comfortable, colonel?"

"Perfectly, suh."

"Oh, no. I gave you a suite, parlor bedroom and bath. What did you suppose you were paying \$12 a day for?"

Then light dawned upon the colonel and he understood all about the room that wasn't locked.

"By jove, suh," he said in telling the story on himself, "I barred myself out of my own bathroom and parlor for nearly a week."—Washington Post.

**BOTH WERE TIRED OF IT.**

"Pretty tiresome, isn't it?" remarked the first man at a reception.

"It is so," replied the other, time.

"I'd sneak out if I could, but my wife would get mad. She's a friend of the hostess."

"I'd sneak out, too, but my wife would be furious. She's the hostess."

We are selling all kinds of winter goods at greatly reduced prices. Finnish Mercantile association.

**RULES OF BUSINESS HOUSES.**

Peculiar Requirements of Great Employers.

The rules of great business houses are sometimes peculiar, and though they are not always down in black and white they are none the less binding. At one of the oldest and best known of London banks whose offices are in the Strand, and which employs a staff of 125 clerks, there is a regulation to the effect that all the employees must be clean shaven. So far as our contributor knows, this rule has never been put in writing, but no clerk in the bank in question would even dream of growing either mustache or beard.

Those who know the city well are aware that any other costume but the regulation frockcoat and silk hat is absolutely forbidden in more than one house, and the writer knows of one at least where even a white or fancy waistcoat would incur immediate censure and possible dismissal.

One rich, but old-fashioned, banking establishment will not permit a married man to enter its service, nor even allow any of its clerks to enter the bonds of matrimony. The prohibition is said to date from the time of the grandniece of the present head partner. The old gentleman was a confirmed womanhater. The result of an unhappy love affair in his youth, and he not only refused to employ married men, but even, so far as possible, to see a woman. The regulation is still adhered to, and a private detective is said to be employed to make certain that none of the men employed have secretly broken the rule.

Another firm, with a large accountancy business, has a stringent law that no man employed shall bet or gamble. Playing nap or halpenny points would be sufficient to incur the dismissal of any employee if he were caught. This firm, too, is known to make constant secret inquiries to insure that their rule does not become a dead letter.

A curious contrast to the head of the firm just mentioned is the owner of some large smelting works in South Wales. When a new hand applies there for work the very first question is, "Can you play football?" If he answers "Yes" he is at once taken on. But were he to bid him if his performance at his trial on the following Saturday afternoon be not up to the mark. He gets his week's money and goes. The owner of the works is a very keen footballer and takes the greatest pride in the team which is picked from among his men. He backs them against other teams all round the country, and if they win never fails to recompense them in a very substantial manner.

That well known United States railway company, the Pennsylvania, has recently laid down a regulation that no engine driver is to be employed of over fifteen stone in weight. The company have recently brought into use a new type of engine with a smaller cab than usual. They consider that very stout men would be cramped for room and be unable to move so rapidly as they should in case of need.

One of the largest retail shops in the world is Marshall Field and company's establishment in Chicago. They employ 8,000 people, and their turnover is £200,000 a week. One of their most stringent rules is well worthy of imitation in shops all the world over. It is that no employee shall tell anything except the exact truth about the goods he or she sells. So particular are they in this respect that there is a standing offer of a reward for any clerk who finds the slightest misstatement in one of their advertisements or in the written description of any goods.

There is a regulation in one of the greatest of British chocolate manufacturing firms where 3,600 people, mostly women, are employed. All the women have to dress in white. Perfect cleanliness is in this way easily enforced.—Tit-Bits.

You needn't keep on feeling distressed after eating, nor belching, nor experiencing nausea between meals. Hood's Sarsaparilla cures dyspepsia—it strengthens the stomach and other digestive organs for the proper performance of their functions. Take Hood's.

**THE DIMINISHING IRISH.**

Astonishing Figures from Late British Statistics.

To the old and painful story of the steady decline in the population of Ireland are added in the registrar general's return of births, marriages and deaths only two cheerful features—a marked diminution in the death-rate and in the number of emigrants, says the London Express.

Apart from these two elements, in one of which there is reason to fear the improvement is only temporary, the statistics detract nothing from the disquieting effect of the reports of the past decade.

The number of births, which in 1891 was 108,116, fell last year to 100,976, or nearly 5,000 less than the average of the ten years. Marriages, 22,564 in number, were slightly over the average, and deaths totalled 79,119, as compared with 85,999 in 1891, and 90,644 in 1892, and a decennial average of 83,604.

The number of emigrants, which ten years ago was 59,623, fell to 39,613, as compared with a ten years' average of 43,253; but the decrease in the population is nevertheless as much as 17,756, though something has to be set off against this on account of immigration, of which no official record has been obtained.

The situation will be better understood by comparing the population figures calculated to the middle of last year with those of Ireland's period of maximum population and the figures for 1824, when the collection of vital statistics was first systematized. These returns show the following results:

Year.	Male.	Female.	Total.
1824 . . .	3,471,820	3,606,320	7,078,140
1845 . . .	4,083,043	4,212,018	8,295,061
1891 . . .	2,194,716	2,250,914	4,445,630

From these figures it will be seen that the population in the middle of last year was 2,632,510 less than it was seventy-eight years ago, and if the estimated population in the middle of the present year—4,425,000—be compared with that of the maximum year, the diminution in fifty-six years will be found to reach the astonishing figure of 3,870,061.

Two or three other points in the registrar general's return are worthy of notice. The excess of births over deaths was 21,857; the loss by emigration amounted to 39,613; the number of illegitimate births was 2,593, or only 2.6 per cent of the total, as against 4 per cent in England and Wales, and 6.5 per cent in Scotland. Deaths from homicidal violence numbered only forty, and in the whole of Ireland there were but two persons hanged; while of the total of 79,119 deaths only 1,253 were attributed to insanity.

These last sets of figures satisfactorily dispose of a good many sensational statements which have been made with regard to "diminishing Ireland."

On the other hand, the returns relating to pauperism show but few hopeful features. The number of workhouse inmates is given as 42,386, an increase of 504 over the previous year, and the number in receipt of out-relief was 57,570, or 473 fewer than in 1900. Ten years ago the figures were 41,744 and 62,528 respectively. The average prices of provisions show little variation from the mean of the ten years.

**BRAIN-FOOD NONSENSE.**

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at Stafford Drug Co. Price 25c and 75c.

'Tisn't safe to be a day without Dr. Thomas' Electric Oil in the house. Never can an all-time moment an accident is going to happen.

**KODOL**

Digests What You Eat.

**Weak Hearts**

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

**KODOL**

Digests What You Eat.

**Weak Hearts**

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

MANY LOGS IN RIVER

BUT THE WATER WILL BE STEADY FROM NOW ON.

OPERATORS NOT BANKING CUTS

SUPERINTENDENT RETALIC INSPECTED STREAM SUNDAY.

Hauling Is Now in Full Swing, With Conditions About Right—Spring Drive Will Be Largest in Years.

"There is no danger of further interruption of the municipal lighting and power service." This is the verdict of Superintendent Retalic on his return from an inspection of the lay of the ground at the points where the operations of the loggers have interfered, during the past several days, with the regular flow of water in Dead river.

Superintendent Retalic visited the Reichels' camp Sunday, as well as the Ferguson camp, about a mile further up the stream, and he obtained full information concerning the conditions existing on other parts of the river.

He ascertained that the river bed in pretty well filled with logs, but that there is no danger of the timber moving before the spring freshet.

He drove out to the Reichels' camps by the way of Ishpeming. He found that the river bed in the neighborhood of those camps is fairly choked with logs for a distance of a mile. They lie in solid mass, for the most part two or three but at points even four or five deep, there being a couple of million feet in the bed of the stream.

At present there is a head of a couple of feet of water, beyond the usual level, behind the upper end of the jam, but at the time the extra supply came down from Silver lake this head was increased to several feet, necessitating a cessation of hauling by the Reichels.

Other Logs in River Bed. The Reichels are not the only offenders by the practice of dumping logs into the bed of the river, for it is pretty thoroughly blocked with timber from a point about five miles above the hoist clear up to Silver lake. Some of the tributary streams are also pretty well filled with logs.

The first point where the operators have dumped their season's cut into the river is found below the Reichel camps, about five miles above the hoist. Here an Ishpeming man, Rock, who has a sub-contract from Ferguson Bros., is operating. He has already dumped about 750,000 feet into the stream and he is putting in more daily.

Next, going up stream, is found the

Reichels' timber, in the condition described above. This is the largest jam yet to be found in the stream, it comprising in the neighborhood of 2,000,000 feet, and it is being constantly increased as the hauling progresses. The hauling is just now being carried on under considerable difficulty, as the water, backing up behind the logs, has flooded the dumping grounds. The men at this point have to work in rubber boots. About a mile and a half further up stream one of Ferguson Bros.' camps is located, and here too the logs are being rolled into the river bed. There is said to be about a million feet in the stream at this point.

Above this camp there are several other places where sub-contractors are rolling their cuts into the river without waiting for the spring freshet, with the result that a man, were he so inclined, could take a comfortable jog over solid logs on his way to Silver lake.

Conditions Good for Hauling. Superintendent Retalic states that conditions in the woods Sunday were just about right for hauling. There is enough snow and the roads are in fine condition. Good progress is being made with the work both at the Reichel and Ferguson camps, and it was reported that the hauling was well along at the points where jobbers are working on sub-contracts. There are men enough available, though, of course, the forces are much smaller than they were at the busiest time of the cutting season.

The Reichels are getting out some fine looking pine, the original growth. It is said that it will be some of the finest timber that has been brought down Dead river in years.

Ferguson Bros. are cutting for Kibby & White, and the greater part of their season's cut will be saved at the Dead river mill. They are taking down timber that was left when the districts they are lumbering were cut over for their choicest pine years ago, but they too are getting very good stuff.

The drive on Dead river, it is said, will be far the largest in recent years.

Logs Firmly Fixed. Superintendent Retalic states that the logs are firmly fixed in the river bed and that there is no danger of a movement that will threaten the commission's dam. This is likewise the opinion of the woodsmen. At present a satisfactory supply of water is being received at the lighting station, the water coming over the various jams and filtering between the logs.

The spring freshet, owing to the manner in which the water is held up behind the various jams of logs, will be a formidable affair, but all the sluice gates at the commission's dam will be opened and it will sweep by, with its myriad of logs, without doing any damage.

There seems to be some question whether the loggers have any right to dispose of their logs by dumping them in the river and thus causing interference with the lighting plant's service. Were it likely that the practice would prove a source of annoyance in the future the matter would probably be gone into thoroughly, but as logging is practically over in the Dead river district the question will likely be let go by default.

IN NEW STORE.

Werner Bros. Finished Moving Sunday, and Opened in New Stand Yesterday.

Werner Bros. were located in their new stand yesterday morning. They moved from their south Front street store Saturday and Sunday, and were pretty well settled in their new location when business hours opened. Their store was inspected by numerous visitors. The task of getting everything in appie pie order is by no means complete and it will be some days before it is finished.

EJORNE OUT ON BAIL.

Slayer of Matt Szymimaa Was Released Yesterday Afternoon.

John Bjorne of Ishpeming, the slayer of Matt Szymimaa, a countryman, in a brawl that occurred at Ishpeming a couple of weeks ago, was released on bail yesterday afternoon. Judge Stone having given him his liberty on the representations of his lawyer, W. T. Potter, and the offering of a sufficient bond. Bjorne returned to Ishpeming at once. His case will be tried at the next term of circuit court. There are extenuating circumstances which are said to make it likely that he will get off lighter than might be expected.

SENATOR MORIARTY'S BILL.

It Proposes to Put Criminals Under Care of Probation Officers.

To establish the probation system of correction for those who commit misdemeanors or crimes less than that of murder Senator Moriarty has introduced a bill authorizing the several courts of the state having jurisdiction in criminal cases to place such convicted persons, as the judge may consider amenable to correction, in the care of probation officers.

The bill provides that the probation may be legal, either before or after conviction, and provides for the appointment of the probation officers by the court and for their remuneration at the rate of \$2 for each day while engaged in caring for the offender.

Senator Burns' bill to protect citizens from carass hunters has also been introduced. It follows the provisions of the law of the state of Maine and makes it a felony, punishable by ten years' imprisonment or \$1,000 fine to injure or kill any person accidentally, if carelessness can be shown in the handling of the weapon. It goes further than the Maine law, however, and makes it incumbent upon prosecuting officers to conduct an investigation with a view to prosecution in every case of accidental injury.

It soothes the bowels, stimulates the liver, cleanses the kidneys, tones the stomach, purges the system of all poisonous germs, Rocky Mountain Tea-The Stafford Drug Co.

PINE SLABS.

Four-foot Pine Slabs delivered anywhere in city, \$2.50 per cord. Phone No. 231 or 959. South Arm Lumber Co. (11-27-4f)

IN FEBRUARY.

Manual Training Instructor Will Likely Be Here Then.

Although Superintendent Thompson has not yet succeeded in engaging a woman to instruct the local teachers in the simpler forms of manual training work which it is proposed to introduce in the schools this year, he is now corresponding with a competent instructor, at present working at Minneapolis, with whom he rather expects to come to terms. This woman is now doing at Minneapolis the kind of work it is desired to have her undertake here, and she will likely come to Marquette the latter part of February, when the instruction of the teachers will proceed forthwith. She will be employed here for a month, at the expiration of which time it is expected that the local teachers will be competent to introduce the work among the pupils.

Superintendent Thompson reports that the attendance at the schools is not suffering very much on account of the presence of varioloid and other contagious diseases in the city. Only comparatively few pupils are out. Two years ago the attendance fell off in a marked degree, and the school work was greatly interfered with. The people are acting with more wisdom this winter, evidently believing that the schools are the best places for their youngsters. In this they are undoubtedly right, as the various buildings have been put and are being kept in excellent sanitary condition.

M'KINLEY'S FAVORITE FLOWER.

Admirers of Late President Asked to Wear Pink Carnations Thursday.

The McKinley Carnation league has issued a call for all members of the society and admirers of the martyred president generally to observe the sixtieth anniversary of McKinley's birth, Thursday, Jan. 29, by wearing pink carnations, the late president's favorite flower, in the lapels of their coats. In line with this, ex-Mayor J. H. Jacobs, colonel engineer, of the Michigan brigade, requests that all members of Iron company, No. 41, Uniform Rank, Knights of Pythias, wear a carnation on that day out of respect to the memory of the Canton statesman. It is expected that many Marquette people will heed the call, and that pink carnations will be much in evidence in this city, Thursday.

ITS THIRD ALLOTMENT.

The Marquette & Arizona Mining company has placed its third allotment of treasury stock on the market. Twenty-five thousand shares will be sold at \$1.50 per share.
