## M'GOVERN PUT OUT

"YOUNG CORBETT" AGAIN DECISIVELY DEFEATS HIM.

WINS IN THE ELEVENTH ROUND

HAD THE BETTER OF THE BOUL  
ALL THE WAY THROUGH.

Decision Is Popular Despite the Claim of Terry and His Backers That It Is "the Worst Robbery in the History of the Ring."

San Francisco, March 31.—"Young Corbett" showed decisively tonight that his victory over McGovern at Hartford a year ago Thanksgiving was no fluke by defeating McGovern in the eleventh round after a fight in which there was not a second of idleness for either man. In nearly every round Corbett, fighting like a machine and never overlooking an opportunity to send home his blows, had a shade the better of the argument, and when finally in the eleventh he got the Brooklyn boy fairly going he never let up until Terry sank to the floor a badly defeated man.

George Harding, the time-keeper, stated after the fight that the blows that knocked McGovern out were left and right swings on the jaw and a right uppercut on the chin. Harding said McGovern was in a dazed condition, that when he had counted nine he motioned him to get up, but McGovern was too confused to notice and was unable to rise. At the count of ten McGovern started to rise, but it was too late and the referee awarded the fight to "Young Corbett." Harding said McGovern was completely out and that it was mercy to him he was unable to get up.

On the other hand, the men in McGovern's corner claimed the decision was an outrage; that McGovern obeyed instructions in taking the full count; that he had plenty of fight left and would have lasted the rest of the round. The referee's decision seemed to meet the approval of the majority.

Corbett after the fight explained how he won by taking advantage of McGovern's growing weakness and at the right moment landing. He declared it a great injustice to say he won the fight unaided. McGovern pronounced the decision "the greatest robbery in the history of the ring," and declared he had Corbett beaten from start to finish. He insisted it was not a knockout and believes he could have gone on and won.

Technical Story of the Battle.  
"Young Corbett" entered the ring at 9:40 and chose the northeast corner, the crowd applauding very little. McGovern appeared at 9:52 and was given an ovation. Corbett balanced the scales at 127 pounds, McGovern was several pounds under the required weight.

First round—Corbett put a left to the head. Terry bored in with a left to the ribs and got away from a left jab, McGovern ducked a left, but management later got a right on the jaw and went down for a seven count. He was evidently groggy, and Corbett put three lefts to the nose, McGovern rushed desperately and swinging his right opened a cut over Corbett's eye. The men fought furiously in the clinch. At the break McGovern sank a right into Corbett's ribs. Corbett retaliated with two lefts to the ear as the gong sounded. McGovern recovered quickly from the knockdown.

Second round—McGovern rushed like a wild bull. In an instant Corbett's eye was open, but Corbett put a right uppercut twice to Terry's chin. They exchanged rights to the jaw. Mac sent a left to the nose and got a right to the ear, and then slammed a right, a left and a right to the stomach. Corbett was groggy. As they came together, Corbett put a right to the jaw and McGovern went down and half way through a seven count. Corbett rushed as McGovern got up and put a left and a right to the head. McGovern swung a right to the head.

Third round—Corbett put five straight lefts to Terry's mouth. He repeated it, and then put a right hand to Terry's ribs. In the clinch McGovern put a right and a left to the head. Corbett swung a right to the jaw and uppercut a right to the stomach and chin. McGovern hooked two rights on the stomach and a right uppercut on the ribs. Corbett uppercut to the stomach. McGovern swung a right to Corbett's eye. Corbett hooked a left to the stomach, missed a right to the jaw and got a left in the stomach. Both swung themselves off their feet as the gong sounded. The pace was terrific. Corbett seemed the stronger.

Fourth round—Corbett put two lefts to the nose and hooked one to the jaw, getting a left to the jaw and a right to the stomach as a return. They exchanged left jabs to the face and got a left to the stomach. McGovern seemed unable to avoid Corbett's lefts. Corbett hooked a left to the eye. McGovern got in two lefts to the jaw, put a hard right over the heart and another high right to the jaw. Corbett resumed jabbing. McGovern swung a left to the jaw and put three rights to the ribs. Corbett's mouth was bleeding as he took his corner.

Fifth round—Corbett missed a right hook and got three lefts to the ribs. Corbett jabbed three lefts to the mouth. Terry rushed and planted two rights to the stomach, getting a right hook on the jaw. McGovern blocked a right uppercut and missed a right swing, nearly sending Corbett through the ropes. McGovern swung a right on the nose, bringing

blood. Corbett put a hard left to the mouth but missed the next one. Terry caught him on the jaw. McGovern got in three rights to the kidneys and Corbett bent under the punishment. Corbett put a right to the ribs and McGovern two rights to the stomach. In the rush McGovern put a left to the jaw. Sixth round—Corbett jabbed two lefts to the face and hooked a right to the stomach. McGovern put a right to the kidneys. Corbett put a right to the ear and a right to the kidneys and got two in the same place and a right in the stomach. McGovern put a left to the throat and got a right on the ear. In the clinch McGovern put a right to the stomach and ribs. Corbett broke ground, but rushed a moment later and put a left to the stomach. McGovern put a right to the ribs and got a left in the mouth twice. Rights were exchanged to the stomach. McGovern put a left to the stomach and Corbett a right to the stomach. McGovern put a right to the ribs and got a left in the mouth twice. Rights were exchanged to the stomach. McGovern put a left to the stomach and Corbett a right to the ribs.

Seventh round—Terry hooked a left to the jaw and got a hard wallop in the mouth and a right in the ribs. Corbett put a left to the eye and mouth and another to the stomach. He sent a right to the jaw and right uppercut to the jaw twice. Terry, in distress, got in a left to the jaw. He slipped down and took the count of nine on his knees. The crowd roared. Corbett swung a right to the back of the neck. McGovern put in two rights to the ribs and a left to the stomach. Corbett a left to the stomach and McGovern a right on the ribs.

Eighth round—They rushed into a clinch. McGovern sent two low rights to the stomach. Corbett's seconds claimed a foul. McGovern sent a right to the chest. Corbett got a left to the jaw. McGovern's right went to the kidneys twice. Corbett sent a right to the jaw twice. Mac put a right to the chest and eye and got a right on the jaw.

Ninth round—Referee Graney warned McGovern. Corbett hooked a right under the heart. Terry did not land. Corbett sent a right to the ribs. Getting McGovern in his own corner, he punched with right and left to the jaw and stomach. The referee had difficulty in separating them, McGovern holding on. Corbett sent a right to the chest and got two rights in the ribs. Corbett uppercut a right to the ribs and got a right to the jaw and ribs in exchange. Corbett put a left to the neck and tried a shift but it did not work. Terry forced, but Corbett coolly retreated and then came in like a flash with a right uppercut, missing the mark. The next instant he put his left to the jaw.

Tenth round—Terry rushed and put a right to the jaw and ribs. Corbett uppercut a right to the chin and sent a right to the stomach in the clinch. McGovern put a left to the stomach. Corbett was nearly gone. Terry rushed. In the clinch Terry put rights twice to the ribs and a left to the jaw. Corbett right uppercut the jaw, straightening McGovern up. They exchanged lefts to the chest. McGovern landed a right on the kidneys, and got a right uppercut on the jaw. Terry put two lefts to the kidneys. Terry was very weak as the gong sounded. Corbett was very much in distress.

Eleventh round—They clinched immediately. Corbett got a left on the ear. He uppercut heavily with a right to the stomach. McGovern forced matters. Corbett sent a terrific right to the ribs and a second later lefts to the jaw and ribs. Corbett rushed and slipped, but Corbett was nearly gone. Terry rushed. In the clinch Terry put rights twice to the ribs and a left to the jaw. Corbett right uppercut the jaw, straightening McGovern up. They exchanged lefts to the chest. McGovern landed a right on the kidneys, and got a right uppercut on the jaw. Terry put two lefts to the kidneys. Terry was very weak as the gong sounded. Corbett was very much in distress.

McGov and Root Matched.

Chicago, March 31.—"Kid" McGov and Jack Root were today matched for a ten round bout, to take place at Detroit on April 22.

MOTHER NOW MOURNS HER BOY.

Son of Engineer Greene, Escanaba, Killed in Wreck, Slain by Playmate.

Escanaba, Mich., March 31.—A year ago Mrs. Carrie Greene of this city was called upon to mourn her husband, Engineer George Greene, killed in a wreck on the Northwestern road. Today also as the result of an accident, she followed the remains of her eldest son, Vernon, a boy of nine, to the grave. The lad was shot and almost instantly killed by a companion last Saturday afternoon while the boys were shooting at a target with a 22-calibre rifle. The bullet struck him in the back, penetrated the spine and lodged near the heart. Death ensued twenty minutes later, but before the end came young Greene made a statement, exonerating his playmate from all blame and bidding those about him goodby. He maintained his composure to the last.

Boston, March 31.—Von Oden Vogt of Beloit, Wis., has been chosen general secretary of the United Society of Christian Endeavor, to succeed J. Willis Bar.

## HIT BY MOLTEN IRON

STEEL PLANT EMPLOYEES MEET A HORRIBLE FATE.

SIX KILLED; TEN OTHERS DYING

BLAST FURNACE EXPLODES WITH-OUT LEAST WARNING.

Men Are Deluged With the White Hot Metal and Bodies of Some Are Almost Consumed—Braddock, Pa., Scene of the Horror.

Pittsburg, March 30.—One man dead, seven men not expected to live, two missing and seven others so badly burned and disfigured as to be almost unrecognizable, was the terrible result of an explosion in a blast furnace at the Carnegie-Thompson Steel plant of the Carnegie company at Braddock today. The men were casting and without the least warning the big furnace suddenly blew up, throwing molten metal in all directions and covering the men in some cases from head to foot. All the men, foreigners, were terribly burned about the face and upper portions of the body. Later—Six men are now dead and ten more are in a hospital not expected to recover. Four others are slightly injured. The bodies of the fatally burned could scarcely be recognized as such. They were blackened or shredded into strips by the white hot "down-comer" dust that burned into their flesh. Many of the men had large blotches burned throughout the flesh, caused by splashes of molten iron that had struck them and burned through to the bone.

Fatality at Artillery Drill.

Washington, March 31.—The overturning of a heavy piece of artillery yesterday in the drill hall at Fort Myer, Va., during the regular drill of the Fourth battery, commanded by Captain Stephen M. Poole, caused the death of Corporal Charles J. Slavin and the injury of three men. When the accident occurred the battery detachment of four pieces was tearing at a gallop around the drill hall in a column. As the heavy guns took the turn at a corner the wheels of the leading piece struck a rut and the entire piece turned upside down. Slavin was hurled to the ground, the heavy ordnance falling squarely across his body.

GUNNERS DO GOOD WORK.

Target Practice by Caribbean Fleet Shows Steady Improvement.

Washington, March 31.—Ever since the maneuvers in the Caribbean began last winter the navy department has been watching the big gun work on the American ships and a separate sheet in the department shows exactly the results obtained from every shot fired in target practice on every ship. When the maneuvers began the practice was not very good because of the large amount of green material in the crews, but the reports show a steady increase in proficiency that is extremely gratifying to the general board here. Last week Commander Winslow brought a report of an extraordinary practice by the Massachusetts with her big turret guns, and now comes a report from the little battleship Texas, of Santiago fame, that is at least satisfactory. This shows that when engaged at target practice at 1,600 yards, the target being 21 by 17 feet (high), one man made 100 per cent of hits, another 70 per cent and many 50 per cent.

ROOSEVELT NAMES MACVEAGH.

Pittsburg Attorney to Represent America in the Venezuelan Case.

Washington, March 31.—The president has selected Wayne MacVeagh of Pittsburg, who was a member of Garfield's cabinet, to represent the United States at The Hague when the arbitration tribunal considers the question of preferential treatment as between the allied and non-allied powers, having claims against Venezuela. In view of the smallness of the claims of the non-allied powers, it is not improbable that MacVeagh may be requested also to assume charge of other interests than those of his own countrymen. Otherwise, there will be a most formidable array of legal talent to present the measures.

BAD TRAIN WRECK IN THE EAST.

Waterbury, Conn., March 30.—In a collision between a wild engine and a passenger train on the New York, New Haven & Hartford railroad at South Brooklyn today, two trainmen were killed and sixteen other persons, including a number of passengers, were injured. Both engines were demolished and their boilers were blown up. The passengers were injured by being thrown about by the shock of the collision.

WOOD NOT TO SUCCEED TAFT.

Washington, March 31.—It was stated at the war department today that General Wood is not to become governor of the Philippines as successor to Governor Taft, even should the illness of the latter cause his resignation.

TODAY'S WEATHER.

Washington, March 31.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer, Wednesday; Thursday, showers and colder; fresh southeast winds, becoming north-west.

Portland, Ore., March 31.—Ex Senator H. W. Corbett died suddenly today from heart trouble.

## PENNELLS GUILT INDICATED.

Evidence at Burdick Inquest Declared to Point Strongly Against Him.

Buffalo, March 31.—Judge Murphy, in findings in the Burdick case, declares that the identity of the murderer has not been proved. The statement is an exhaustive review of the evidence brought out during the inquest and special attention is given to the letters exchanged between Arthur R. Pennell and Mrs. Burdick, particularly the one containing the threat against Burdick's life. Concerning these, the judge says: "Altogether these facts would, in my opinion, constitute a just ground for suspicion on which a warrant could be issued were Pennell alive."

In conclusion, the judge says: "It is our duty to censure Mrs. Burdick. But, great as her wrong has been, great is her punishment."

BANK DIRECTORS SUE CASHIER.

Want Money Back They Gave Him for Returning Stolen Funds.

Berlin, March 31.—Cashier Herrmann, for twenty-seven years with the Allgemeine People's bank, went before the board of directors and confessed to having taken \$70,000. He said he had done this in revenge for not having been elected a director and declared his willingness to go to the penitentiary in response to the pleading of the directors to return the money and retain their esteem. Herrmann agreed to restore the money on condition the directors give him \$8,250 down and a pension of \$900 per year. The proposition was accepted after a long discussion, and Herrmann went to the outer office, returning with \$70,000, of which he retained \$6,250. The directors insisted the entire sum should be returned, but Herrmann refused, and now the bank has brought legal proceedings to recover the sum he retained.

NEWS FROM BALKANS GRAVE.

Gift of Guns and Warning from the Czar Cause Uneasiness.

Vienna, March 31.—The news from the Balkans is causing uneasiness in official circles here. The situation is considered graver than a few weeks ago. Two particularly significant reports were received today, the first that the czar had presented to the prince of Montenegro eight batteries of quick-firing small calibre guns, with ammunition, and, second, that Russia has addressed another warning message to Bulgaria. In his autograph letter to the prince of Montenegro, the czar writes that the gift is intended as proof of Russia's friendship for Montenegro, in whose independence all the Slav people are deeply interested. The czar's gift recalls his recent present to Serbia of fifty million cartridges.

COOKS AND WAITERS QUIT.

Strike at Denver Closes More Than Seventy Restaurants.

Denver, March 31.—Seventy-four restaurants in the city were closed today in consequence of a strike by the cooks and waiters, and thousands of the people, butchers and bakers' shops, threaten to strike in sympathy. The strike was ordered because non-union cooks and waiters had been employed in two restaurants.

Chicago Tanners Out.

Chicago, March 31.—Five hundred tanners, the majority of them employees of the American Hide & Leather company, struck today for higher wages.

CUP CHALLENGER VERY SPEEDY.

Beats Shamrock I in Trial Spin as She Never Was Before.

Gonrock, March 31.—Shamrock III had a trial spin today and showed herself superior to Shamrock I on all points of sailing on which she was tested. The trial was entirely in light winds and smooth water, but under these conditions the challenger beat Shamrock I as the latter never before was beaten on either side of the Atlantic.

MISS ROOSEVELT SAILS FOR HOME.

San Juan, Porto Rico, March 31.—Miss Alice Roosevelt sailed for New York at noon today on board the steamer Coamo. Thousands of people congregated on the wharf and in boats to witness her departure, and several brass bands gave her an enthusiastic farewell. The band of the German cruiser Panther played as the Coamo put to sea, and as the steamer passed the United States schoolship Alliance the latter saluted.

MANIAC KILLS GUARD ON TRAIN.

Jacksonville, Ills., March 31.—P. B. Campbell, deputy sheriff of McDonough county, was stabbed to death by an insane man on a Burlington train this afternoon. Campbell was bringing the man to the Central Insane hospital. After stabbing Campbell, the lunatic escaped Campbell's revolver and, thus armed, defied the whole car until overpowered.

BOLD ROBBERY IN CHICAGO.

Chicago, March 31.—With leveled pistols, three robbers this afternoon, in sight of a saloon filled with workmen, held up a robbed Alderman Bremer of \$300 in currency, took a ring from the finger of his companion, Jacob Kessler, and leaping into the victim's buggy, drove off unmolested. The alderman was on a campaign tour to saloons.

EDWARD SAILS FOR LISBON.

Portsmouth, March 31.—The royal yacht, with King Edward on board, sailed for Lisbon today.

Copenhagen, March 31.—Queen Alexandra arrived here this evening from London. She was received at the station by King Christian, the Danish empress of Russia and all the members of the Danish royal family.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It is used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

MARQUETTE, MICH., APRIL 1.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The part of Irish comedian in certain comedies now being played in the east is no sinecure in view of the movement of some patriotic Irishmen to discourage burlesques on the national character by driving the offending actors from the stage by a shower of decayed vegetable and eggs.

This rough and ready censorship was first tried in New York and it has just been repeated in Philadelphia. It is effective, but it is rather hard on the audiences who pay their money to see the show, and its very strenuousness will prevent its having any enduring results.

Yet you can't blame the Irishmen for being aroused by the monstrosities that are foisted on the public as "Irish" comedians. The Germans, the Hebrews and even the heathen Chinamen might complain with equal justice. Gross national caricature on the stage does only harm.

The export trade of the United States is rapidly resuming its normal conditions. February figures of the Bureau of Statistics show the largest exports of any February in the history of our commerce, and also show that the exports of the three months ending with February were larger than those of the corresponding period of any earlier year.

On the import side, the figures also show a continuation of the growth which has characterized the last two years, and the figures of the eight months ending with February suggest that the imports of the United States in the fiscal year 1903 may exceed a billion dollars, while the export figures seem likely to exceed one billion, four hundred millions.

In the short month of February alone, the exports amounted to \$125,502,105, which is twelve millions in excess of any preceding February. Taking the three months ending with February, 1903, the total exports are \$407,520,200, against \$215,151,471 in the three months ending with February, 1893.

Thus, considering either the month of February or the three months ending with February, 1903, the total exports are not only larger than in that period of any preceding year, but practically double those of a decade ago.

By the new rules soon to go into effect the merit system has been greatly strengthened by President Roosevelt. The civil service rules are to be so amended as to extend the classified service to all positions which, under the act, are subject to classification.

The rules will hereafter cover practically all employes who are not laborers or workmen, or the holders of places subject to confirmation by the senate. The number of excepted or exempted places is to be greatly reduced.

Most of the private secretaries and confidential clerks will have to pass examinations and be appointed on their merits, though two private secretaries are allowed to each head of a department, whom he may appoint without examination.

The temporary appointments will be restricted in number and duration. All this marks a great step in advance. The greatest abuses of recent years have been through temporary appointments, transfers and excepted positions.

President Roosevelt has done much to rid the country of these. The transfer evil has been practically stopped. The number of excepted places has been reduced. It is now to be reduced still further, and the temporary appointment evil is to be largely done away with.

These improvements, together with the great extension of the classified service, will improve the situation materially.

Colonel Watterston shows how much he loves Grover Cleveland in the following paragraphs:

"The Courier-Journal cares nothing about Mr. Cleveland as an individual man the one way or the other. It has tried to tell the truth about him as an historic character. In its opinion can contribute nothing to Democracy in 1904 except dissection. If we were not his friend, and assuredly we are not his enemy, and believed in his lofty professions, we should still count him to stand aside. We should say to him: 'Mr. Cleveland, the Democratic shipwreck came to pass whilst you were on the bridge. Pass of the crew, and some of the passengers, hold you responsible, guilty of incompetency, if not treachery. Even according to your own rating of yourself, you have done enough for your party and your country. You are an old man. Why complicate the situation, embarrassing your friends and cheating your age of its repose, by once more undertaking to seize the helm and to steer the ship?'

Of course we no more expect Mr. Cleveland to take the advice which from time to time, in a perfectly friendly spirit, we have urged upon him. Both Mr. Cleveland and Mr. Bryan are professional politicians. Both of them have been candidates for office since they came of age. Mr. Cleveland grew rich and wrecked the party which had loaded him with honors. Mr. Bryan has grown rich and apparently to justify himself, would continue the wreckage. A gleam of unselfish self-denial in either might have saved the party. A gleam in Mr. Bryan might yet save it. But we shall have nothing from Mr. Cleve-

land but the old posing for effect, Mr. Bryan but the old posing for effect; the role of the one, the sturdy patriot disdaining preferment; of the other, the sturdy patriot disdaining subterfuges and concessions; each of them an ambitious, arrogant man, playing his opportunity and working his party for all he thinks they will stand for and are worth.

LOOK A LITTLE BETTER. Coppers Showed No Little Improvement Yesterday—May Do Better.

Hayden, Stone & Co. wired the Laidley Commission company: "Our market opened quiet at about last night's closing, but, on rather large offerings, sold off a point or two throughout the list. However, as the New York market began to steady, our local traders covered short coppers and helped bid them up. Utah continues very strong and we think it and United States Mining to be the safest and surest things on the list."

Chicago Markets Quiet. Laidley & Co. wired concerning the Chicago markets: "Wheat opened slightly lower, on the failure of the foreign markets to respond to our advance of yesterday and almost perfect weather throughout the wheat belt. The market was extremely dull and, although higher during the early part of session, it sold off toward the close, which was 1/2 cent under yesterday. As we have pointed out recently, there are very small contracts stocks in Chicago and the present time offers an excellent opportunity for the big elevator interests to force the May option considerably higher. We believe that higher prices are going to be seen and that it can be safely bought upon any of the breaks.

"Corn opened strong at about last night's prices and, like wheat, during the early part of the session was strong and higher, but eased off and closed 1/4 under last night's close. The July option was relatively stronger than the May and considerable changing over was noticeable. We continue bullish and we believe higher prices are going to be seen.

"Oats were strong and higher during the early part of the session, but eased off in sympathy with wheat and corn, closing 1/4 under yesterday. The cash demand continues good, but there was some profit taking by those who had been buying oats upon the recent decline. We, however, believe that they should be bought upon this break.

"Provisions opened strong and higher upon the small receipts and higher prices for hogs at the yards. As in the grain market, however, profit taking was noticeable and prices eased off, closing slightly under yesterday. We still continue to be bullish upon provisions and we think they should be bought upon every setback."

New York Improves. Dick said of the New York market: "The market has enjoyed a smart rally today. It was irregular at the start, but later developed strength and prices were carried up by rather urgent covering of shorts. The recoveries were sharp in those stocks which have been most oversold, like Pennsylvania, St. Paul, Southern Pacific, Missouri and Union Pacific. The industrials also ran up sharply. Good buying was seen in Amalgamated and Sugar rallied, after breaking on the news of a cut in the sugar schedules. Union Pacific's very unfavorable February report did not hurt that stock any, and was attributed to special causes. Money ran up sharply and reached 12 per cent before the close. This was due entirely to the April disbursement preparations. The closing was buoyant. Higher prices for tomorrow are likely."

ROBBED THE GRAVE. A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Stafford Drug Co., drug store.

SECRETARY'S STATEMENT.

It Gives a Resume of Year's Operation of the Electric Light Plant.

Following is Secretary Sherman's resume of the year's operation of the municipal electric light plant, embodied in the controller's annual statement: The Hon. Mayor and Common Council: Gentlemen: Pursuant to law, we herewith submit our official report for the year ending this day, March 10.

The plant has operated continuously, except our usual daily half hour stop at noon and day time stop on Sundays, and no extraordinary accidents or losses have occurred.

In September last we endeavored the old flume and put the old dam flume and water wheel out of use, and substituted, as suggested by Superintendent Retaille, an additional connection by belt between new water wheel shaft and our main driving shaft. We find the arrangement works perfectly, giving us more power at much less expense than to have rebuilt the old flume and headgates. We have therefore on hand disused at present the old 300 H. P. turbine governor and main driving pulley which operated under twenty-four feet head which we may conclude to sell.

We have completed the installation of the meter system of selling current to private users, and believe our experience of about one year with it warrants us in giving this system our unqualified approval.

We have continued the necessary work of renewals upon all parts of the plant, charging the cost of same as heretofore strictly to operating expense, and the plant is in every respect in a thoroughly good condition.

The business of the year in comparison with last year is as follows: Expended on new construction \$11,347.95 \$ 5,815.58

Whole operating expense 14,479.61 14,993.31 Interest paid 3,367.50 4,750.00 Net revenue 13,955.20 13,323.06

Received from City of Marquette 7,400.35 7,921.12 Received from private customers 25,120.28 23,597.12 Total income for electric current 32,580.63 \$31,518.37

Number residences lighted 400 461 Number business places lighted 226 256 626 717

"Last year's income includes about \$800 paid in advance by the Upper Peninsula Brewing company which has been earned in this fiscal year and our earnings are really therefore this year a little larger than last year.

The rates for our electric current in force during the past year are \$75 per year each to the city for the 2,000 C. P. D. C. arc lamps on the streets, and to private users five and seven cents respectively per K. W. hour for business and residence lighting, and we figure these rates are sufficient with continued care in management, to perpetuate the plant and pay the debt now outstanding against it. The earnings from the generation and distribution of the direct current practically all come from the city for street lighting, and of the alternating current from the private users.

ing fund expenses into the two parts, dividing all the items common to both on the ratio of the income, from each for the year closing this day. The result shows a slight loss on the direct current or city side and a little profit on the alternating current or private users' side. If, as we now believe, these figures prove on further trial to be substantially correct we shall not be able to reduce the rates either to the city or to the private users. We invite your careful attention to these figures.

We have continued the necessary work of renewals upon all parts of the plant, charging the cost of same as heretofore strictly to operating expense, and the plant is in every respect in a thoroughly good condition.

DANGER OF COLDS AND GRIP.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by the Stafford Drug Co.

BREADFUL ATTACK OF WHOOPING COUGH.

Mrs. Ellen Harrison, of 300 Park Ave., Kansas City, Mo., writes as follows: "Our two children had a severe attack of whooping cough; one of them in the paroxysm of coughing would often faint and bleed at the nose. We tried everything we heard of without getting relief. We then called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. Sold by People's Drug Store.

WILL HAVE A STRONG TEAM.

Portage Lake Lacrosse Players to Meet Tonight to Talk Organization.

Portage Lake lacrosse enthusiasts will meet at the Douglass House at 8:30 o'clock this evening to talk over plans for the coming season. Houghton and Hancock will be represented by a first-class team this year and much interest is being evinced in its formation. From present indications the team will have hearty support, equal to that accorded the hockey seven throughout the winter. This evening's meeting will be largely attended.

Both Houghton and Hancock have a number of old lacrosse players. Among them are J. H. Jones, James Hartney, Joseph Stevens, Herbert Meinke, Dr. J. L. Gibson and C. E. Wescott. Both Jones and Hartney have played on teams that have held the championship of the West. They were members of the St. Paul team in 1900-01 when it held the honors. Most of the available players have been members of teams in Canada, where the game is a national sport. According to those who understand the game and who have sized up the situation there is enough expert material to make a championship team.

Lacrosse is more extensively played in the United States than hockey. Buffalo, Pittsburgh, Cleveland, Detroit, Chicago, St. Paul, Minneapolis and other cities have teams which are in the first class. The game is becoming more and more popular with the result that many new teams are about to be organized this spring. It is said that Marquette may put a team in the field. Several old players live there and they have informed copper country friends that an effort to organize a team may be made. Lacrosse was only introduced in the copper country last year, but it has a firm hold on lovers of out-door sports and this year it promises to prove even more attractive. It takes twelve to play the game.

The Portage Lake lacrosse team will have no difficulty in getting games. A challenge has already been received from the Canadian Soo and it will be an easy matter to secure games with the teams of Fort William, Port Arthur and other Canadian places, as well as with St. Paul, Minneapolis, and Chicago. It is said Calumet will also have a team this year.

TOWNSHIP NOMINATIONS.

The Torch Lake township ticket, recently placed in nomination, is as follows: Charles Smith, supervisor; T. J. Wise, clerk; George P. Pfeifer, treasurer; R. O. Davidson, school inspector; Thomas Dunstan, justice; B. F. Froney, justice, to fill vacancy; J. B. Cooper, commissioner of highways; Emil Lane-to, overseer of highways; J. R. McDonald, member board of review. The Stanton township ticket is: F. G. Goggin, supervisor; J. E. Mackey, clerk; Edward Koepfel, treasurer; George Trothevey, school inspector; J. R. Bennett, member board of review; Herman Hermanson, commissioner of highways; August Lahala, overseer of highways; William Polkinghorn, justice.

WILL MAKE COPPERDOM PORTS.

H. C. French of Buffalo, general manager of the Union Transit company, and L. R. Robinson, general agent at Duluth, were in Houghton yesterday. They came to make arrangements for the company's business at Portage and Torch Lake points during the coming summer. The Union boats will make Hancock, Houghton, Lake Linden and other ports in this locality the same as usual, reports to the contrary notwithstanding. Messrs. French and Robinson left yesterday afternoon.

BAD SMASH-UP.

Spreading Rail Wrecks a Freight Train Near Keweenaw Bay.

Freight No. 31 on the South Shore road, due at Houghton at 12:15 p. m., was wrecked at Newton, near Keweenaw Bay, at 10:30 o'clock yesterday morning. The engine and four cars went off the track. No one was injured, the engineer and fireman jumping to save themselves. A spreading rail was the cause of the mishap. The wreck made a nasty smash-up and it could not be cleared in time for either the Northwestern train, due at Houghton at 11:15, or the St. Paul, due at 12:05, back of the smash-up, to continue their journey to copperdom. Conductor Gillett was ordered at 4 o'clock in the afternoon to make up a train at Calumet to proceed to the scene of the wreck to transfer passengers, mail and baggage.

MODERN WOODMEN CONVENTION.

Delegates to the number of forty-eight from the various Modern Woodmen lodges in the county will meet at 11 o'clock this morning at Donlan's hall at Dollar Bay to select delegates to attend the state convention to be held at Owosso in June. A discussion of the readjustment question will be the principal feature of the meeting and the delegates may be instructed how to vote on the question at the state convention when delegates to the national convention at Indianapolis in June will be selected. None of the delegates who will attend the county meeting at Dollar Bay this morning have been instructed either one way or the other.

SORRY TO SEE VAUGHAN GO.

S. H. Vaughan, commercial agent for the St. Paul road at Houghton since December, 1899, who has been promoted in the company's service, as mentioned elsewhere in this issue this morning, has many friends, not only in the copper country but in the whole upper peninsula, who will be sorry to see him leave this district but who will rejoice at his advancement. His personality has made him popular with all, and he has been a very efficient agent for the company in this region. As division freight and passenger agent he succeeds W. E. Tyler, recently promoted.

COPPERDOM BREVIETIES.

The movement to continue the early closing of stores during the summer months has fallen through and beginning today the stores will remain open until 8 o'clock instead of 6.

IS FIRST IN THE STATE.

Inspector General Gives Company E, Calumet, High Praise.

The report of Inspector General Fred W. Green for the year 1902, included in Adjutant General Brown's biennial report just out, on the condition and standing of the companies in the regions of the Michigan National Guard, shows that Company E, Third Regiment, Calumet, is first in the state. Its general average is highest by from one to twenty-eight points over every other company in the three regiments. In its own regiment Company A most nearly approaches Company E's record. Company A is but two points behind. Inspector General Green's report of Company E, which is excellent in every detail, is as follows:

"I found this company in excellent condition in every respect. The quartermaster's department and the clothing lockers were models of neatness and cleanliness. The company books and records, as well as all state property, are exceedingly well kept. The officers are exceptionally well informed in every detail of the service. The discipline and drill, both close and extended, were all that could be desired. The officers and men have evidently worked hard and constantly to bring the company to a high standard of efficiency and their efforts have been very successful."

The company's markings on the details of the service are as follows: Attendance, 91 per cent; condition of arms, 95; condition of accoutrements, 95; condition of clothing, 95; condition of armory, 95; military bearing and appearance, 90; discipline, 90; officers' knowledge of drill, 90; non-commissioned officers' knowledge of drill, 85; privates' knowledge of drill, 80; officers' knowledge of guard duty, 90; non-commissioned officers' knowledge of guard duty, 85; privates' knowledge of guard duty, 80; condition of records, 90; condition of orders, 95; knowledge of general orders of sentry on post, 80; general average, 89.

Speaking of the Third regiment in general, the inspector general says: "The general average of this regiment is not as high as it should be on account of the very poor work of a few companies. Outside of these companies the regiment has made a substantial improvement. Companies A and B are among the best in the brigade, and Company H is in excellent condition. Company F was in deplorable condition but is now steadily improving. This is also true of Company L. The companies are deficient in their paper work, and they have not spent sufficient time in perfecting themselves in the detail of the drill. This regiment is steadily improving and when a few weak companies are strengthened it will maintain a high standard."

The averages of the companies in the Third regiment are as follows: Company A, 87; Company B, 78; Company C, 74; Company D, 82; Company E, 89; Company F, 61; Company G, 78; Company H, 83; Company I, 74; Company K, 80; Company L, 71; and Company M, 81.

MRS. PETER SAUER'S FUNERAL.

The funeral of Mrs. Peter Sauer, of Calumet, who died of apoplexy after a few hours' illness Saturday evening, was held from the family residence on Fifth street yesterday afternoon. Her death was a surprise to her large circle of friends, who did not know she was seriously ill. Mrs. Sauer was born in Baraboo, Wis., Oct. 21, 1828. She came to this country in 1857 with her husband, Peter Sauer, who died in 1888. She is survived by her husband, three daughters and two sons.

MINING NEWS

THAT COPPER DISCRIMINATION.

With reference to the new rule of the New York Metal exchange, excluding certain brands of Lake copper from delivery on contracts because of the arsenic contained in them, the officials of the Champion and Baltic mines state that they have never had the least difficulty in disposing of their copper at the outside market price and they are at a loss to know why the New York Metal exchange should discriminate against the product of the South range group and especially why they should have included the product of such mines as Wolverine and Mohawk, whose copper has always been in demand. The finer grades of lake copper come from the Calumet, Tamarack, Osceola, Quincy and Franklin mines and have always been held by metal brokers at a fraction of a cent a pound higher than the copper from the other like mines, but at no time when there was any demand for the metal has there been the least difficulty in selling this grade.

President Fay, of the Trimountain mine, says that copper from that mine has never been sold through the New York Metal exchange, so that their exclusion of it does not amount to anything. He says further that the Trimountain was the first to obtain 15c cents for its product and that it has sold right along on a parity with other grades of Lake copper and has given perfect satisfaction to users. The finest grades of copper are used in making wire, and the Trimountain has sold millions of pounds to the Westinghouse, General Electric and to the Roebblings, the greatest makers of copper wire in the business. Mr. Fay says he could sell 2,000,000 pounds of Trimountain copper today at 15c cents, but expects to get more for it. Copper has sold within a week in large quantities at 15c cents.

SUPERINTENDENT OUT.

H. Z. Brock is no longer superintendent of the Northwestern Development syndicate's gold property in the Lardeau district of British Columbia. It was decided to dispense with his services at a meeting of the board of directors at Hancock Monday evening. Directors Frank C. Maymorn and C. D. Hanchette tendered their resignations as a result of the action, in which they were overruled. Their resignations were accepted and their successors will be selected in a few days. Mr. Brock's successor has not been appointed, but until an election is made Justice John B. Curtis of Calumet, vice president of the company, who is now at the property, will be in charge of operations. Al Floeter, the company's mining engineer, who has returned to the copper country on a two weeks' business mission, says the outlook is most encouraging.

A. J. Scott, of Hancock, as expected, has been elected president of the Calumet & British Columbia Gold Mines company, which owns the Eva mine in the Lardeau district of British Columbia. Mr. Scott was selected for the position at a meeting of the board of directors at Nelson, B. C., last Saturday.

DECLINE IN COPPER AT LONDON.

Copper declined 11, 7/8, 6d yesterday at London, where spot and futures were quoted at £63.15s. The New York market, however, remained quiet and unchanged, with Standard quoted at 13.75, Lake and electrolytic at 14.75-15 and casting at 14.50-15.

TRAGEDY AVERTED.

"Just in the nick of time our little boy was saved," writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know, it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by Stafford Drug Co., druggist. Price 50c and \$1.00. Trial bottle free.

A CHATTANOOGA DRUGGISTS' STATEMENT.

Robt. J. Miller, Proprietor of the Read House Drug Store of Chattanooga, Tenn., writes: "There is more merit in Foley's Honey and Tar than in any other cough syrup. The calls for it multiply wonderfully and we sell more of it than all other cough syrups combined." Sold by People's Drug Store.

DR. HOLMES ONCE SAID:

"It is better to be young at 60 than old at 35." A good way to be young at 60 is to receive an Endowment taken at 35. Other ages just the same. BISBEE CONSOLIDATED.

Capital Stock 200,000 Shares. Par Value \$5 Per Share.

While at Bisbee I secured an option, for a limited time, on 75,000 shares of the treasury stock of the Bisbee Consolidated Copper company at \$1.00 per share, the par value of which is \$5.00. The Bisbee Consolidated was organized by ten of the leading mining and business men of Bisbee and it was their intention to equip and develop the mine themselves, which course they have so far pursued. However, they found that it takes considerable money, to develop and equip a copper mine on the scale the properties in that section are now being worked and so decided to sell a limited amount of the treasury stock. Considerable of that offered was placed at Bisbee at \$2 per share, but as more money was needed at once to buy heavy machinery the Board of Directors decided to give me a ninety-day option on 75,000 shares at \$1 per share, I demanding it at that price, that I might get my friends in on the ground floor (as well as myself, for I took 10,000 shares) and assuring them that I could place the balance of the stock within one-half the given time. The Bisbee Consolidated has but 200,000 shares, which are duly paid up and unassessable. It has seventeen full claims situated next to the big Copper Glance, only nearer to Bisbee. I have thoroughly examined the property, and know the character, ability and standing of the men in control and unhesitatingly recommend the purchase of Bisbee Consolidated stock, as I "foot-worked" the ground from Bisbee to the Mexican border and saw nothing better than the Copper Glance or the Bisbee Consolidated. Feb. 18th.—I have just returned from the East, where I placed most of this stock, and anyone wanting stock must order it at once, as there is but little left and my option will soon expire.

MORE PAY FOR MANY WAGES GO UP TODAY AT SOFT COAL MINES. OVER 300,000 MEN AFFECTED

ADVANCE IN SCALE IS FROM 10 TO 20 PER CENT. In Chicago, 25,000 Hands in the Building Trades Are Benefitted by Substantial Increases, Aggregating About \$1,500,000 Yearly.

Pittsburg, March 31.—The bituminous coal miners of Pennsylvania, Ohio, Indiana and Illinois and a number of other states worked their last day today under the agreement made in January last year. Tomorrow the agreement providing for advances goes into effect, and every man about the mines will get an increase of 10 per cent, and some of 20 per cent. It will effect nearly three hundred thousand men. The old wage scale will continue in effect in Tennessee, Alabama and several other states until June or July.

Advances General in Chicago. Chicago, March 31.—Beginning tomorrow morning 25,000 men in the building industry will start work at an increase in wages aggregating in round numbers \$1,500,000 a year. Practically all the agreements signed after the lock-out of 1900 expired today and with but two or three exceptions all have been renewed. The trades in which agreements have been renewed, and the increase in wages secured by each are as follows:

Table with 3 columns: Trade, Old scale, New scale. Trades include Carpenters, Bricklayers, Plumbers, Gasfitters, Plasterers, Steamfitters, etc.

The approximate number of men in each trade and the aggregate amount of the increase in each are as follows:

Table with 3 columns: Trade, Member, Yearly increase. Trades include Carpenters, Bricklayers, Plumbers, Gasfitters, etc.

Although the agreement has not yet been signed between the Master Steamfitters' association and the union, there will be no strike in that trade. The points of dispute will be submitted to arbitration. The structural ironworkers have failed to renew their agreement with the employers, and the danger of a strike in that trade has passed, although it is believed that the employers may concede the wages asked. The hoisting engineers, who are an important factor in the building trades, are asking an increase from \$4 to \$5 a day, and so far have not made an agreement, but neither the men nor the contractors expect a strike, as it is thought the men will remain at work until another agreement is made.

The increase in wages in the building trades is the largest ever granted in any one year, and covers more unions. When the building trades lockout ended most of the unions made agreements at the same rate of wages existing in the trade before the lockout was ordered. Some few made contracts providing for an increase during the last year of the agreement, but on this occasion it is general, and going into effect all at once, will add materially to the cost of building in the city.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at Stafford Drug Co. Price 25c. and 75c.

STOCK MARKET SOME BETTER.

Hope of Easier Money Brings Hesitating Tendency to Recover. New York, March 31.—The stock market showed a rather hesitating and irregular tendency to recover today. The movement seemed based upon the assumption that easier money conditions will follow the arrangement of the April settlements. The immediate money market was still under the influence of the preparations for these settlements and the call loan rates were very stiff all day.

The government's draft for \$3,000,000 was presented at the sub-treasury during the day by its fiscal agent and was paid out in cash for disbursement in relief of the distress in the Philippines. The fiscal agent, through an Oriental branch, is able to dispense with recourse to the exchange market. The effect is to benefit the New York money market and offset previous absorption by the sub-treasury. The payment over the counter of the sub-treasury, which allowed the amount to figure in the average of the reserves of the banks for one or more days than would an ordinary sub-treasury operation. The disbursement of the government interest payable on April 1 will further relieve the drain into the sub-treasury. The published opinion of a leader in the financial world expressing confidence in the duration of the prosperous conditions and faith in the soundness of the securities which remain to be digested in the market was much discussed. This proclamation of faith in the granulated grades, and Amalgamated was depressed on account of the violent break in the London copper market. Later the Washbas securities were sold on account of the proposed ten-million-dollar bond issue, but the weakness of this grade of securities was not as influential in shaping sentiment as evidence that support was offered New York Central, Pennsylvania, St. Paul and other high-grade railroad stocks. Doubtless the demand to cover shorts played part in the strength, but the cessation of the liquidation and high grade investments in stocks afforded great relief to the sentiment of depression lately prevalent in the market.

Flurries in the call money market interrupted the advance, but did not cause weakness. Call money rose to 15 per cent in the last hour, but the temporary check to the advance was followed by renewed strength and the closing was active and strong and at about the top level. The day's gains reached 2 to 2 1/2 points for St. Paul, New York Central and Union Pacific, which were the most conspicuous stocks in the trading. Gains of a point or more were numerous. Closing prices are reported by Paine, Webber & Co. as follows:

Table of stock prices for various companies including St. Paul, N.Y. Central, Union Pacific, etc.

RANGE OF MONEY RATES.

Money on call, strong, at 6 1/2 to 15 per cent; closing, 10 1/2 to 12. Time, steady, sixty and ninety days, 5 1/2 per cent; six months, 5 1/2 to 5 3/4. Prime mercantile paper, 5 1/2 to 6 per cent. Exchange, steady, sixty days at 483.50 to 483.80. Bar silver, 49 1/4.

CHICAGO GRAIN MARKETS.

Chicago, March 31.—In wheat today there was a moderate trade. After a temporary advance early the market developed weakness, and the close was near the bottom, May being about 1/4

lower and July 3/4 down.

The opening on May was 3/4 to 3/8 @ 72 1/2, influenced largely by the change made yesterday in the visible supply, together with indifferent cables and favorable weather. A good demand from commission houses soon caused an advance and the early loss was more than regained, May selling up to 73 1/2. Estimates of a large decrease in the world's visible aided in the upturn. Late in the session early buyers turned sellers and the market weakened. Inquire of P. O'Hagan, 119 E. Superior st. CANDIDATES FOR ALDERMEN IN JUST HALF THE WARDS.

Foundations for at Least Two Lively Contests Laid Last Evening—Hartvigh and Fleury Have Dangerous Men Against Them.

Mayor—William H. Greene.  
Recorder—Daniel S. Donovan.  
Treasurer—Charles A. Eggers.  
Justice of the Peace—Daniel S. Donovan.

Constables—Gus Stack, Jacob Dolf.

Ward Tickets.

First Ward—Citizens' candidates endorsed.

Second Ward—Supervisor, John Dwyer.

Alderman, Thomas Morgan.

Third Ward—No caucus.

Fourth Ward—Supervisor, Frank Frei (endorsed).

Alderman, Allen Cowden.

Fifth Ward—Supervisor, Abe Agnew (endorsed).

Alderman, James T. Gray.

Sixth Ward—Supervisor, Jacob Smith (endorsed).

Alderman, Albert Holley.

Seventh Ward—Citizens' candidates endorsed.

Eighth Ward—Citizens' candidates endorsed.

Above is the ticket placed in nomination at the People's convention and caucuses last evening. All the wards except the First and Third participated in the convention that unanimously nominated Mr. Greene for mayor. The caucuses were fairly well attended and there was a good-sized crowd assembled at the city hall to see what turned up. Mr. Greene's nomination was well received. It was not known that his friends were bent on trotting him out as a candidate until just before he was nominated, and it is with no little surprise that he was learned last evening that he was a full-fledged candidate for mayor. However, it was generally commented that he would make a very good run. He is popular and well known, particularly among the railroad men, and he is no tyro in the administration of city business.

With the exception of John Bergh for constable all the officials at the head of the Citizens' ticket were endorsed. In Mr. Bergh's place the Peo-

ple's convention named Gus Stack.

In the wards foundations were laid for at least two lively contests. In the fifth James T. Gray is expected to make a good showing against Alfred Fleury. He is already credited with service in the council and he acquitted himself in a very able manner. He has many friends in his precinct, and he is a candidate to be reckoned with. If elected he will be a useful member for his ward. In the sixth Albert Holley will keep Andrew Hartvigh, the Citizens' candidate, busy. It will be remembered that on the first ballot in the Citizens' caucus Holley had more votes than either Hartvigh or Siegel, and he was only defeated by a coalition between the forces of his two opponents. Allen Cowden, in the fourth, is an old and well-known resident, who would make a first-class alderman. He has many friends and he will receive considerable support, although just what his chances are against Alderman Bush is hard to say, in view of the limited information now at hand. In the second Thomas Morgan is up against one of the strongest aldermen on the council, and he will have hard sledding. The same may be said of John Dwyer, who is in the field for supervisor against Joe Fay. He has chosen a hard nut to crack.

Convention Details.

By half past eight, when the convention was called to order, there was a large assemblage of delegates and on-lookers in the assembly room of the city hall. Everyone wanted to know who was in the field, a thing on which no one seemed authorized to speak.

Chairman Ward, of the Peoples' organization, called the meeting to order. George Kemper was elected temporary

secretary.

On motion the chair appointed William D. Reany, R. J. Sparling and Peter Dolf a committee on credentials and August Erickson, Jacob Rose and John Robinson on permanent organization and order of business.

The former committee reported the following delegates entitled to seats in the convention, its report being approved:

First ward—No delegation.

Second ward—Herman Stenrud, D. McInnis, John Dwyer, Charles Berry and Carl Rohl.

Third ward—No representation.

Fourth ward—Allen Cowden, J. R. Hanley, Charles Cummings, William Clendenning.

Fifth ward—John Robinson, W. D. Reany, R. J. Sparling, Ignatius Shulkey and John Dolf.

Sixth ward—George Kemper, Peter Dolf, Jacob Rose, Ben Gill.

Seventh ward—August Erickson, Edward Strong, Alfred Messier, and E. A. Mortenson.

Eighth ward—Steve Lowney and J. W. McGuire.

The several nominations on the head of the ticket were made unanimously.

The following were designated as chairman of the ward committees: First, Martin Gorman; Second, Peter Kremer; Third, —; Fourth, William Clendenning; Fifth, R. J. Sparling; Sixth, Peter Dolf; Seventh, Walter Ward; Eighth, E. J. Sink. Walter Ward was named chairman of the city committee.

DEATH OF MRS. BEATLEY.

Mrs. Anna M. Beatley, widow of Henry G. Beatley, whose removal to Ithaca, N. Y., to reside with her daughter, Mrs. E. S. Stoddard, is of recent occurrence, passed away Thursday of last week of pneumonia. She had suffered a severe fall some days previous, and the fatal attack seized her only a few days before her death. The funeral was held from St. John's chapel at Ithaca Saturday morning. Mrs. Blankley, Mrs. Beatley's daughter, formerly a resident of Marquette, writes that Mrs. Stoddard is seriously ill with typhoid fever, which is now epidemic at Ithaca. Mrs. Beatley was sixty-six years of age.

**WATCH PROTECTION**

The Jas. Boss Stiffened Gold Watch Cases are an improvement on solid gold cases. They are stronger and won't bend or dent. Made of two layers of gold, with a layer of stiffening metal between, welded together into one solid sheet. The outside layer contains more gold than can be worn off a case in 25 years, the time for which a Jas. Boss Case is guaranteed.

**EXCLUSIVE EASTER EFFECTS!**

If there is one department we've more pride in than another, it's our Millinery department. The new Millinery gets first showing at our ANNUAL SPRING OPENING. The dates are April 9th, 10th and 11th.

Paris, London, Vienna and New York have contributed to this collection of Spring Headgear. Though we are not direct importers, our artists are in close touch with Europe and America's best, and make copies that would deceive the elect. Equally fine and fundamental will be the difference between our millinery and the ordinary kind. That we will show a much larger and more varied line, will surely be proven at our grand opening.

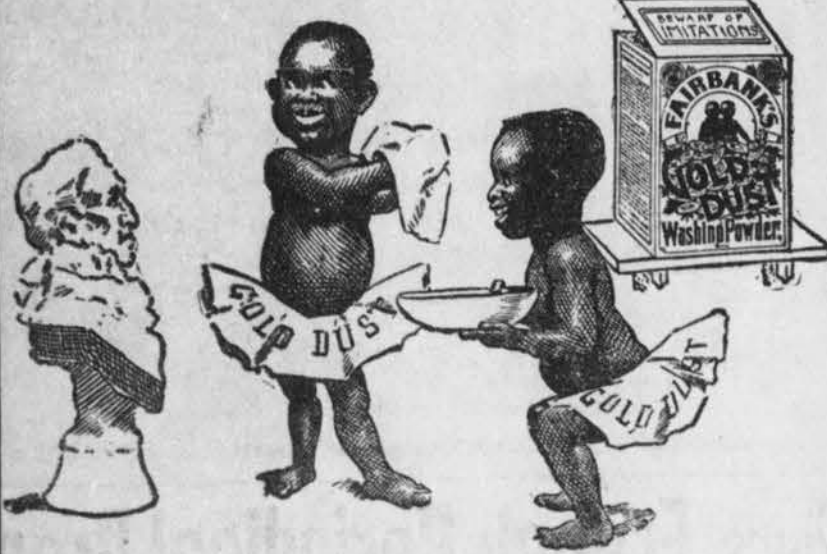

Our artists are busy working both night and day preparing exclusive and novel effects in this line which we will show, such as are seldom seen at the beginning of the season. The utmost care has been taken in choosing qualities and styles. The latest novelties are here at the very lowest prices

ERIC JOHNSON FOR MAYOR.

Wm. Andrews the People's Party Nominnee for Municipal Judge.

The People's party mass convention, held at Andrews' Hall last night, placed the following ticket in the field in opposition to that headed by Dr. Felch: Mayor—Eric Johnson. Treasurer—John Hystinen. Municipal Judge—William Andrews. School Inspector—Frank E. Dordan. All the nominations were made by acclamation. Former Mayor William Andrews presided and Editor J. D. West acted as secretary. The hall was pretty well crowded and considerable enthusiasm was displayed, particularly during the speech-making. This latter feature was participated in by Messrs. Andrews, West, Matt Wasley and Tom Danton. They hit out from the shoulder and gave addresses that at times were exceedingly torrid in tenor. The chairman and secretary were instructed to fill any vacancies on the tickets, city and ward, that may occur.

Ward Nominations.

The nominations in the various wards were made as follows: First Ward—Supervisor, Abraham Glanding; alderman, Joseph H. Lellier; constable, James H. Billings. Second Ward—Supervisor, Joseph Clairmont; alderman, William J. Andrews; constable, Howell Jacobson. Third Ward—Supervisor, Matt Wasley; alderman, Wm. J. Lynn; constable, Axel Holter. Fourth Ward—Supervisor, William Ar-gall; alderman, Edward S. Unnutt; constable, James Nugent. Fifth Ward—Supervisor, John Vivian; alderman, Thomas Heard; constable, H. A. Peterson. Sixth Ward—Supervisor, John E. Lindholm; alderman, J. D. West; constable, Samuel Perry. Seventh Ward—Supervisor, Wm. Harris; alderman, Geo. R. Persons; constable, Richard Goodman. Eighth Ward—Supervisor, A. Thompson; alderman, Wm. J. Roberts; constable, John Keskeys. Ninth Ward—Supervisor, Maurice Laughlin; alderman, John Nolan; constable, Patrick Lyons. Tenth Ward—Supervisor, George Kermod; alderman, Arson Nault; constable, Daniel Cashen.

SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I have never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." ISHPEMING IN BRIEF.

George A. Newett left for Chicago last night. John Mugfur left for Chicago Monday night. Miss Rose O'Brien, a teacher in the schools at Duluth, is here visiting her parents. A number of the employees of the board of public works have been busy reading water meters for the past few days. E. S. Allis, special agent of the Hartford Steam Boiler Insurance & Inspection company, was in town yesterday on business connected with his company. Charles Johnson has taken the contract to raise John Skoglund's building on First street, now occupied by Ohmar J. Danielson and August Lundin. The buildings will be otherwise improved. T. F. Ludlow has taken a position as traveling salesman for the Carpenter-Cook company. His territory will embrace the county and a few towns outside. Mr. Ludlow has a large acquaintance throughout the county. All work was suspended yesterday afternoon in every establishment of the Swift Paving company in all parts of the world on account of the funeral of the late G. F. Swift. The employees of the Ishpeming Beef company, a branch of the great Swift company, shared in the observance. A man at Thompson & Hodgkins camp nearly cut off a portion of his foot with an axe Monday. A handcar was secured and a number of the men brought him to town as soon as possible and took him to the hospital. The axe had made a very ugly wound, but it is thought that the injury will not prove serious. Wilfred Dompierre fell from the trestle at the Cleveland Lake mine yesterday forenoon and sustained a bad fracture of one of his legs. He was taken to the hospital. Several months ago he fell about eighty feet down the rocky side of the embankment where the ore is stocked at the Cleveland Lake mine, and nearly lost his life. The ladies of the Episcopal church will hold a market at the Guild hall Saturday forenoon. Pasties, pies, cakes and all kinds of pastry will be on sale. (4-1-44)

Foley's Honey and Tar contains no opiates, and will not constipate like nearly all other cough medicines. Refuse substitutes. Sold by People's Drug Store.

CAUSED A SURPRISE.

H. H. Mildon's Candidacy for Municipal Judge Surprised the Convention.

The feature of the Citizens' convention Monday night was the unexpected appearance of H. H. Mildon as a dark horse in the contest for the municipal judgeship. There was a general feeling of expectancy when the chairman announced that Cornelius Kennedy's name would be proposed and William Peters was expected to be his rival, but Peters' following had been transferred to Mildon and the delegates were given the choice between him and Kennedy. On the first ballot Kennedy was one vote in the lead and the second ballot brought him another, making the final vote 13 to 10. The interest culminated in the nomination of Kennedy. The selection of a nominator was made from three candidates, but Augustson won on the first ballot by a decisive majority. Mayor Felch was placed at the head of the ticket without resorting to a ballot, as he had no opponent. John Lacey, John Miner and Ted Murray were the committee on permanent organization and order of business. William Treiblock, J. T. Burke and Patrick Cronin were appointed as the committee on credentials. The wards were represented by the following delegates: First Ward—John Lacey, Jonathan Taylor. Second Ward—Luke Demerse, John C. Greenway. Third Ward—George A. Newett, John Jones, J. C. Downing, Chris Presthus. Fourth Ward—John Hennessy, Charles Bergquist, Phil Papp. Fifth Ward—Frank Platto, William Treiblock. Sixth Ward—Frank Isaacson, John Quine, J. H. Williams. Seventh Ward—George R. Persons, Charles T. Kruse. Eighth Ward—John T. Miner, John A. Peterson. Ninth—A. J. Yungbluth, J. T. Burke. Tenth Ward—Thomas Symons. W. T. Potter was elected chairman of the city convention.

A RARE TREAT.

The Cambridge, Vt. Transcript says of the Swedish Ladies' Quintette: "Those who failed to attend the first entertainment of the season, the Swedish Quintette, Wednesday evening, missed a rare treat. Their voices are something wonderful, always singing without an accompaniment, and in their quaint Swedish costumes were very attractive. The impersonator, Mr. Morse, kept the audience in an uproar. The Ladies' Quintette will appear at the opera house Friday night. Seats will be on sale at Tillson's this morning."

HURT AT THE BEAUFORT.

Matt Joki, a miner from the Beaufort, was brought to the hospital yesterday noon. The man was walking on a plank over a sump into which the exhaust steam from the pumps emptied, when it broke and he fell into the boiling water. The flesh on one side was very badly scalded. The ambulance conveyed him from the train to the hospital, where his wounds were dressed and he was made as comfortable as possible.

GREENWAY ON THE BOARD.

The council met yesterday afternoon and selected John C. Greenway to act as a member of the board of election commissioners in the place of Fred Eggh, who was nominated as supervisor of the Eighth ward Monday night. The board now consists of A. J. Yungbluth, Leo Schilling and Mr. Greenway.

CHRONIC BRONCHITIS CURED.

"For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Mr. Joseph Coffman, of Montmorenci, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and always with satisfaction." Sold by People's Drug Store.

CATARHIT CURED BY DRY AIR.

Hymel's Mucicure the Air You Breathe, Kills the Germs and Cures the Disease. Hymel's mucicure catarrh thoroughly and permanently because it reaches the smallest air passages in the throat and lungs, kills the germs causing the disease and drives it from the system. Hymel's goes to the root of the disease, destroys the cause and makes permanent cures which can be effected in no other way. Breathe it for a few minutes four times a day and benefit will be seen once. Continue this treatment for a few weeks and Hymel's will have cured you. The mucicure in the inhaler furnished with the outfit dries and sterilizes the air you breathe. It is a local and direct treatment for catarrh of the throat and lungs, the mucous membrane and tissues and in this way cures catarrh in any part of the system. Used in connection with Hymel's Balm it has been successful in curing the worst and most deep-seated cases of catarrh and deafness. W. C. Clark, Everett, Mass., writes: "I have spent a fortune on different treatments for catarrh and deafness, but Hymel's Balm cured me. After using Hymel's and Hymel's Balm for eight days I can hear as well as ever." Strongly advise every one who can be made an advertisement in the fact that the Stafford Drug Co. will give their personal guarantee with every Hymel's outfit they sell to refund the money if the purchaser can say that Hymel's has not given satisfaction.

Good Advice From Noted Michigan Editor

Col. C. V. DeLand, of the Jackson Citizen.

The prominent citizens of Michigan, the pioneers who have seen the marvelous change of wood and prairie to cultivated farms and thriving manufacturing cities, all know of Dr. Colwell's Magic Egyptian Oil, for many of them have had it setting round the house handy since childhood.

COL. C. V. DELAND, Well-Known Editor and Politician of Jackson, Mich.

Col. DeLand has resided in Michigan over 20 years and is well known as a newspaper man, a politician, farmer and soldier; he having served during the civil war from 1861 to 1865, and in all grades, as a private, captain, colonel of the 1st Michigan Sharpshooters, and as brevet brigadier-general. He is 75 years old and is hale and hearty, and attributes much of his vitality and health to the constant presence and use of Magic Egyptian Oil. He says: "Having used Dr. Colwell's Magic Egyptian Oil for 15 years, it gives me great pleasure to testify to its superior merits as a valuable medicine. I have used it for cuts, burns, scalds and bruises, and as an internal remedy for pains, colic and sciatica with success. It is equally useful for curing sores and sores upon stock and is almost invaluable as a household and farmer's remedy for numerous troubles. It is a very valuable preparation for any person to have on hand in many cases of sudden illness or emergency." Charles V. DeLand, Jackson, Mich. Dr. Colwell's Magic Egyptian Oil is for sale by all druggists at 25 cents and every one should have a bottle setting around the house handy, in case of emergency, for it cures all pains and bruises, sores and aches of the body, limbs or head; and remember, every druggist is authorized to refund the money on any bottle of Dr. Colwell's Magic Egyptian Oil that does not prove entirely satisfactory.

A BONANZA CHANCE

3,000 Shares Only at 50c. A Wonderful Strike

The GOODELL MINING AND MILLING Co. mines are located five miles southeast of the Silver King and Daly West mines of Park City, Utah, and has seven claims in one body with 3,600 lineal feet of the same apparent Contact Lode, and same character of ores as the Silver King. The mine office is located at American Fork, Utah, where the ores are brought 15 miles on down grade road to railway and only 30 miles to Salt Lake City smelters. We expect a railway to our mines within a year. The Silver King Co. has paid \$6,400,000 dividends, and now pays \$100,000 per month. We have hopes of doing half as well. Capitalization \$350,000, in shares of \$1.00 each, full paid and non-assessable, with original treasury reserve of 150,000 shares. Development, about 1,500 feet of tunnel, winzes and crosscuts. We now have a 10-foot vein of smelting ore that assays about \$90 per ton in Silver, Lead and Gold. When we had FOUR FEET of this ore a month ago, we considered it a Bonanza, from which dividends were assured. Now we are confident of a product of \$10,000 to \$20,000 per month. No stamp mill expense necessary. Last assay made March 5: Copper, 1 per cent; Lead, 42 per cent; Silver ozs, 89.9-10; Gold, \$3.72 per ton. TELEGRAM: American Fork, Utah, March 8, 1903. B. W. Goodsell, President Goodsell Mining & Milling Co., Chicago, Ill.: "My Dear Sir—I take pleasure in stating to you that I am well acquainted with the ground which your mining company controls in American Fork, Utah. Have visited same many times, and am also acquainted with the Miller mine, adjoining your property, and also the Dutchman, and I do not hesitate to say that in my opinion you have a very good property and chances for a very big mine, such as the SILVER KING, in Park City, and the DALY WEST mine. There is no question but your property is situated on the same mineral belt as these big mines above referred to, and I congratulate you on your success in securing such valuable ground. Yours very truly, P. A. H. FRANKLIN. NOTE—Dr. P. A. H. Franklin of Utah is one of the greatest mining operators in the West. He is a man of sterling qualities and his recommendation of a mining proposition would command millions in New England with investors. To have him gratuitously proffer to us the above statement makes it worth double that of a report that was made for pay. Dr. Franklin has for years been trying to obtain the Miller property adjoining ours, and his statement that we have the Silver King and Daly West lode, confirms what our company has known to be the case, and this valuable letter will be gladly received by all our stockholders. Very Respectfully, B. W. GOODSSELL, President. We need only a small amount of funds to put on machinery and extra buildings, and to carry us over until the snow is gone, and shipments made early in May. After that no more stock will be offered at less than par. This stock should be worth \$3.00 per share within a year. Last chance to buy this stock at 50 cents per share. Advertisement for Wine of Cardui. Text: A couple of winters ago I slipped on a frozen sidewalk and fell flat on my back. On being examined I found that I had sustained internal injuries which laid me up for more than two months. After that I noticed that I had pains in the back and groin which I never had before. I doctored and doctored for several months but as the pains increased instead of growing better I decided that I was not having the right treatment. Reading in the papers of the wonderful cures performed by Wine of Cardui I wrote to one of the parties and received a very satisfactory reply and I immediately sent for some. In a very short time I felt generally better and after seven weeks faithful use I was once more well and strong. I have never had a sick hour since and I daily bless your splendid medicine. MONIE BOWEY. WINE OF CARDUI is one medicine that should always be kept on hand in every home for immediate use when female weakness first makes its appearance. # A Good Beginning

If the blood is in good condition at the beginning of the warm season, you are prepared to resist disease and are not apt to be troubled with boils, pimples, blackheads and blotches, or the itching and burning skin eruptions that make one's life a veritable torment and misery.

Now is the time to begin the work of cleansing and building up the blood and strengthening the weak places in your constitution. During the cold winter months we are compelled to live indoors and breathe the impure air of badly ventilated rooms and offices. We over-work and over-eat, and get too little out-door exercise, and our systems become clogged with impurities and the blood a hot-bed of germs and humors of every kind, and warm weather is sure to bring a reaction, and the poisonous matter in the blood and system will break out in boils and pustules or scaly eruptions and red, disfiguring bumps and pimples. Make a good beginning this season by taking a course of S. S. S. in time; it will not only purify your blood and destroy the germs and poisons, but promote healthy action of the Liver and Kidneys and give you a good appetite at a time when you need it most.

### HORRIBLY AFFLICTED WITH BOILS.

I had a horrible attack of boils that broke out all over my body and from which I could get no possible relief until I began taking your medicine, and from my experience I can safely say S. S. S. is the best blood purifier in the world.

Mrs. M. P. SMYTHERS, Wytheville, Va.

### THE BEST TONIC AND APPETIZER.

While living in Sherman, Tex., I became a victim of impure, watery blood. I ran down in appetite and energy; was scarcely able to get about and had to stop off and rest occasionally. I took S. S. S. and began to improve at once, and after a thorough course became strong and well. I think S. S. S. is the best medicine I ever used as an appetizer and general tonic. J. G. SCOTTY, 511 Railroad street, Rome, Ga.

S. S. S. improves the digestion and tones up the stomach, and you are not continually haunted by the fear of indigestion every time you eat, or troubled with dizziness, nervousness and sleeplessness. There is no reason to dread the coming of warm weather if you have your system well fortified and the blood in a normal, healthy condition. It is the polluted, sluggish blood that invites disease germs, microbes and poisons of every kind and brings on a long train of spring and summer ailments, break down the constitution, and produce weakness, lassitude, and other debilitating disorders. Eczema, Acne, Nettle-rash, Poison Oak and Ivy, and other irritating skin troubles are sure to make their appearance unless the humors and poisons are antitoxed and the thin, acid blood made rich and strong before the coming of warm weather.

A course of S. S. S. now would be a safe precaution and a good beginning and enable you to pass in comfort through the hot, sultry months and escape the diseases common to spring and summer. S. S. S. is guaranteed purely vegetable and is recognized as the best blood purifier and the most invigorating and pleasant of all tonics. Write for our book on "The Blood and Its Diseases."

### AN UNEVENTFUL GATHERING.

Taxpayers' Convention Monday Night Was a Most Harmonious Affair.

The Taxpayers' convention Monday night was the all-absorbing subject of conversation yesterday morning. It was the general opinion that the municipal campaign has never started out in Negaunee so quietly, and with so little friction. The candidates, with the exception of the nominee for the township, were chosen by acclamation and without a dissenting vote. When the trial of strength between Stecher and Cushing was made the latter received only six votes out of the twenty-three that were cast on an informal ballot, and Stecher's nomination was afterward made unanimous.

Thomas Connors was chosen chairman and Louis Greenier secretary, and this organization was made permanent. Thomas Trathen, John Shea and Richard Roberts were named as the committee on credentials and recommended that the following delegates be seated: First ward, Thomas Ellis, Charles Laity, Joseph Curtis. Second ward, D. J. Callaghan, D. Shea, John Mitchell, Ed Malloney, D. Marketti. Third ward, John Mulvey, Ed Laughlin, B. K. Webber, Tim Scanlon, J. T. Burns. Fourth ward, John Shea, Louis Greenier, Louis Moll, Al. Willman, Thomas Trathen. Fifth ward, Richard Roberts, Thomas Connors, William Heggarton, Tim Gaffney, Richard Eddy.

Thomas Trathen was nominated for justice and Barnard McNally for school inspector without an opposing vote. The chairman appointed a committee of two from each ward to name candidates for constables and the convention afterward endorsed the following candidates whom the committee had selected: Joseph Curtis, Pat. Scanlon, William Wasmuth, John C. Peterson and Edmund Roy. John Shea, William Heggarton and John Wasmuth were appointed as the city committee.

In the wards the same harmony that prevailed in the convention caused everything to move along smoothly. In the Second there was a little skirmish over the supervisorship. John Hassett was up as the opponent of J. E. O'Donoghue, but one ballot settled the matter and O'Donoghue will probably represent his ward.

It is a difficult matter to discover what has become of the Citizens' ticket which was to have been nominated at a convention at the Finnish Temperance hall. No one can be found who attended either the convention or any of the caucuses. It is the general opinion that none were held. It was given out on

very good authority yesterday that the calls for both the Taxpayers' and Citizens' conventions emanated from the same source. The election will probably be a ratification of the action of the Taxpayers' convention.

### STARTING A LIBRARY.

The books for the library of the new school at Princeton came last week and are now in circulation. The pupils and patrons of the school are manifesting the greatest interest in the library and there has already been a big demand for the books. Forty dollars was raised by an entertainment held several weeks ago and the school secured special rates from publishers so that the money went a good ways further than if the usual prices had been paid. The library starts with sixty-five volumes, consisting entirely of standard works, with a number of classic books of fiction. Another entertainment will be held Saturday night for the purpose of raising more money, with which to add to the nucleus. The school has two teachers, both young ladies from Ishpeming.

### GRIP REMEDIES IN GREAT DEMAND

When colds and grip are prevalent the quickest and surest remedies are in great demand. Mr. Joseph D. Williams, of McDuff, Va., says that he was cured of a very deep and lasting attack of la grippe by using Chamberlain's Cough Remedy after trying several other preparations with no effect. For sale by the Stafford Drug Co.

### SWEDISH FOLK SONGS.

The program rendered by the During Swedish Ladies' Quintet at McDonald's opera house Saturday night will include many of the sweet old Swedish "folk songs," so dear to the hearts of all sturdy sons and daughters of the far Northland. These songs will be enjoyed quite as well by the English hearers as though they were sung in their own language, since it is the natural sweetness and marvelous harmony of their voices, rather than the mere words of the songs that constitute the greatest charm of the During Ladies' singing.

### A GREAT SENSATION.

There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c. and \$1.00. Guaranteed by Stafford Drug Co., druggist. Trial bottles free.

### LOCAL LACONICS.

A daughter was born to Mr. and Mrs. William Snow Saturday.

The infant son of Matt Pirkola died yesterday. The funeral was held yesterday.

The funeral of Miss Minnie Rasmussen was held yesterday afternoon, and was very largely attended.

Mrs. F. D. Davis, Mrs. T. D. Hall and Miss Lulu Cyr entertained the grand club at cards last evening at Cyr's hall.

Mrs. Robert G. Jackson, her youngest child and her mother, Mrs. Boyd, left Monday for a visit at Sands and Escanaba.

Seats are on sale at Perkins' for "The Man in the Iron Mask," which will be presented at McDonald's opera house tomorrow night.

Thomas Trathen, L. Greenier, James Curley and Henry Anderson are in Republic today attending the county convention of the Woodmen, as delegates of the local lodge.

The Saving Bank store has a pretty Easter window display. Easter lilies and other emblems of the season are grouped among the delicate fabrics in an artistic manner and the background is draped with different shades of bunting.

The last regular meeting of the council for the year will occur tomorrow evening. It will hold a special meeting after the election to canvass the vote and the newly elected council will meet for the first time at the call of the mayor.

### FROM AN AUCTIONEER.

Col. C. H. McDonald of Greenview, Ills., in a letter May 1st, 1901, says, "I am an auctioneer and being often exposed to the weather, am seriously troubled by my heart, becoming irritated and hoarseness following. When troubled in this way, I always use Harts' Honey and Horehound. It is the only remedy that has ever done me any good and it positively cures." Sold by the People's Drug Store.

### PUT IN A BUSY DAY

**SUPERVISORS TRANSACTED IMPORTANT BUSINESS YESTERDAY.**

### LET THREE BIG CONTRACTS

**CORNER STONE OF COURT HOUSE TO BE LAID WITH CEREMONY.**

**Hearty Vote of Thanks Tended to Chairman Fitch—Will Issue Some Bonds—Will Collect Contagious Disease Debts.**

Awarded contracts to the A. H. Andrews company, the Art Metal Construction company and the Lake Superior Steam Heating company for the furnishing of the vaults, the heating of the new court house.

Instructed the prosecuting attorney to proceed with the collection of all bills due the county on contagious disease accounts contracted within the past five years.

Thanked, by resolution, Chairman Walter Fitch, of the board and of the building committee, for his painstaking service on the latter committee and for his twenty years continuous service on the board.

Authorized the building committee to issue from time to time such parts of the court house bonds as it may see fit.

Decided that the date of the laying of the corner stone of the new court house be made a gala occasion; and Chairman Fitch named a committee of supervisors on arrangements, as well as a committee of citizens, whose co-operation is requested.

Above are some of the most important items of business transacted at yesterday's session of the board of supervisors, one of the busiest held in many months.

The building committee presented a report containing their recommendations on the various bids, and it was approved without dissenting voice.

The Andrews company, a Chicago firm, was given the contract for all the fixed and movable furniture for the sum of \$9,863. The other bidders were the Wollgast company of Milwaukee, the Robert Mitchell company of Cincinnati and the Tobey Furniture company of Chicago.

The Art Metal Construction company's bid was \$8,922.34, its competitors being the General Fireproofing company of Chicago, represented by A. G. Simonson, and the Craig Metallic Construction company, also of Chicago.

The Lake Superior Steam Heating company's bid was \$8,784, its competitor being the Charles B. Kruse Heating company of Milwaukee. The Lake Superior concern has its headquarters at Ishpeming, Charles I. Anderson being its manager.

Empowered to Issue Bonds. The supervisors approved the following resolution:

"Be it resolved, That the court house building committee be empowered and is hereby instructed to call for bids for the bonds authorized at the last general election for court house construction, or for such portion thereof as they may deem it necessary to issue from time to time, and that the chairman and clerk be instructed to prepare and execute such bonds."

It is now understood that at least some of the cost of the erection and furnishing of the new court house will be defrayed by the proceeds of the bond sale, although it is said that it is not yet known just how much of the authorized bond issue will be put forth. The tenor of the above resolution would go to show that this is the case.

A Radical Resolution. The board also approved the following resolution, which will cause a great

many people up and down Marquette county to do some tall thinking: "Be it resolved, that the county clerk furnish to the prosecuting attorney a statement of the amounts paid by the county of Marquette for any and all persons for care and maintenance in contagious disease cases for the five years last past, and that the prosecuting attorney proceed to collect such amounts from the respective persons liable therefor."

This resolution, it is given out by the supervisors and the prosecuting attorney, means what it says. There is a disposition on the part of nearly all people whose families are afflicted with contagious diseases to lay down on the county and allow the public to pay all their bills, even down to those for tobacco, for the period during which they are quarantined, notwithstanding that in many instances they are able to bear the expenses themselves. The county has been paying these bills without particular protest for the last few years, but they are still collectable, and the above resolution makes it incumbent on the prosecuting attorney to collect them, wherever possible, even if it is necessary to go to law to do so. There are thousands of dollars of these accounts on the books. Of course they are not all good, but many of them are. The county should get some of its money back, while the vigorous campaign for collection should prove an object lesson of far-reaching influence.

Well Earned Thanks. The following resolution, passed with hearty good will by the board, bears testimony to Chairman Walter Fitch's sterling work as a supervisor during his twenty years of service, and to the particularly valuable nature of his labors as chairman of the court house building committee:

"Be it resolved, That we extend to our chairman our sincere and heartfelt thanks for his courteous and impartial treatment of this board, both as a body and as individual members, and that we further thank him for his untiring efforts with relation to the building of our new court house and for the vast amount of work already done by him in that connection, and we congratulate him on having attained the distinction of twenty years continuous service, more years for his county than any other person."

It may be commented that every word of the above resolution is amply deserved. Mr. Fitch has been indefatigable in his work in connection with the new court house, and the value of the time and thought he has given to this work is quite beyond estimation. In his work he has had the hearty, loyal and zealous support of the other members. The roster of the building committee of the present board of supervisors is a veritable roll of honor.

A Gala Occasion. The ceremony of laying the corner stone for the new court house will be made a gala occasion. Yesterday the supervisors passed this resolution:

"Be it resolved by the board of supervisors for the county of Marquette that the laying of the corner stone of our new court house be accompanied by appropriate public ceremonies, and be it further,

"Resolved, That we extend to the Masonic order of the county an invitation to take charge of such ceremonies and the laying of the stone; and that the clerk forward a copy of these resolutions forthwith to the secretaries of the several lodges of such order in the county."

As a committee on arrangements from the membership of the board Chairman Fitch appointed D. W. Powell, Captain Joseph Hodgson, Mark Elliott, William S. Ewing, David T. Morgan and Joseph Fay.

In addition the chairman named the following citizens of the county and requested the clerk to ask them to cooperate with the committee of supervisors in arranging a suitable program: F. A. Bell, James Russell, John R. Van Evera, D. B. Waldo, M. M. Duncanson, Thomas Walters, W. H. Johnston, J. C. Greenway, Peter White, George J. Maas, T. C. Yates and P. B. Kirkwood.

But One Floor. The contract for the vault furniture calls for furnishing but one floor. The vaults connected with the offices of the judge of probate, county clerk, treasurer and register will be about twenty-

two feet square, and will have three floors, connected by stairways. One floor will furnish room for the care of records, papers, files, books and miscellaneous documents sufficient for ten to fifteen years to come, and it will probably be at least a decade before there is any necessity for furnishing any one of the second floor.

The contract, however, calls for putting in the two upper floors, and the connecting stairways and, in the interval that they are not furnished, they will be available for storage purposes.

The first floors of the vaults will be fitted up with the latest model filing devices from the factory of the Art Metal Construction company at Jamestown, N. Y. There will be document and letter files, and roller shelves for books, the files being enclosed, and thus dust and dirt proof. There will be standing desks in the vaults for whatever work has to be carried on in their interiors. The construction will be steel throughout, and the finish will be highly attractive. Of course the vaults will be absolutely fireproof. This will be easy as the new court house itself will be one of the most fireproof buildings in the north country. Practically the only wood used in it will be put into the finishings.

The vault finishings for which the supervisors have contracted are the best on the market, being made by the pioneer concern in art metal construction.

Court House Furniture. The Andrews company, which was given the contract for the furnishing of the court room and offices, has agreed to manufacture furniture of special design for the court room and counters of the court room, and the finishing of the court room will be in solid mahogany of great richness and attractive design. There will be an attractive piece of woodwork behind the judge's chair, ample accommodations for jury-lawyers, witnesses, etc., within the rail, and mahogany benches for the general public in the auditorium.

The furniture and finishings of the rest of the building will be quarter sawed white oak, of uniform design. There will be an ample provision of desks and chairs, the latter being alike, so that officers can borrow one from another without destroying the symmetry of their furnishings.

The furniture was carefully selected, this task being one of the main labors of the building committee during its sessions Saturday and Monday. The contract was let to the Andrews company because the members were pleased with the beauty of design and the substantial construction of its furniture. As for the furnishings as a whole, it is stated that they will be richer and more substantial than the average furniture in court houses throughout the country, although it is not believed, as far as contract prices go, they will be any more expensive.

The architects and the building committee express themselves as very well satisfied with the several contracts. They believe that they have obtained exceptionally good values.

The Heating Plant. The heating plant will consist of two fire box boilers of forty horse power each, with a radiating surface of approximately 7,200 feet. The plant was designed by the architects, Charlton, Gilbert & Kuenzi, and Pratt & Atkins, of Chicago, heating engineers, and it embodies everything that is known to be best in heating devices.

The contract calls for a system of both direct and indirect heat, the plans providing that the court room shall be furnished with an abundance of fresh warm air by an electrically driven fan. In other parts of the building steam radiators will furnish the heat, ventilation being secured by the use of patent radiators embodying the direct indirect system. The vacuum system will be used in connection with the plant, giving the most economical and efficient arrangement possible in heating. The degree of heat throughout the building will be controlled by an approved temperature regulation system.

### CITY BREVITIES.

Weather forecast: Possibly showers; stationary temperature. Yesterday's temperature: 7 a. m., 35 degrees; noon, 35 degrees; 7 p. m., 31 degrees; maximum, 44 degrees; minimum, 31 degrees.

St. Mary's guild will meet this afternoon at the usual time. The G. I. A. to the B. L. E. will meet this afternoon at the A. O. U. W. hall at 2:30 o'clock.

St. Genevieve's guild will meet this afternoon at 2 o'clock with Mrs. George Perrin, 307 Jackson street.

The Young Men's Catholic society will meet this evening at 8 o'clock in the basement of St. Peter's cathedral.

The train from the copper country was several hours late in arriving here last evening, due to a mishap to a freight train which blocked the road.

The display of storm warnings on Lakes Superior, Michigan, Huron, St. Clair, Ontario, Erie and Pelee will be resumed for the season on April 1, 1903.

Mr. and Mrs. J. H. LaRoche, accompanied by their trapper, Miss Towlesbury, have returned from their purchasing trip to the millinery centers and are busily arranging for their Easter opening.

Attention is called to the South Shore's announcement in another column. President Roosevelt will be at St. Paul and Minneapolis on the 4th, and greatly reduced excursion rates will prevail.

J. H. Primeau, Jr., leaves today for Negatane, where he has accepted a position in the land office of the Cleveland-Cliffs Iron company. Joe, since his return from Chicago, has been working in Registrar Primeau's office.

Miss Thompson and Miss Wilson, milliners at Grabower's drygoods establishment, have returned from the millinery centers, where they have been looking up the latest styles. They are now preparing for Grabower's big millinery opening.

The fishermen and teamsters will try their luck this evening on the indoor diamond at the Casino rink. The former are no tyros at the game, and the teamsters will have to do pretty fancy work if they are to win any laurels from the contest.

Johnson and Cadrette have just hung a blue print of their county map in the clerk's office. The work on the map is not finished, but is well along. They will be glad to receive suggestions from the supervisors in regard to things that might be embodied in the map. It will not be on the market for a number of weeks yet.

The board of control of the Marquette branch of state prison was to have met here yesterday, but a quorum failed to appear, John Hines of Menominee and O. C. Davidson of Iron Mountain being prevented from attending. W. D. Calverley of Houghton, the third member, was down, and he inspected the prison. The board of control will meet tomorrow.

Seats for the concert to be given at the opera house next Monday evening by the Swedish Ladies' Quintette will go on sale Friday morning at Bigelow's. Concerning a recent concert in that city, the Boston Transcript says: "The Dur- ing Swedish Ladies gave one of the most charming musical entertainments ever heard in Chickering Hall. Their voices are something wonderful. A long string of other press notices are equally as favorable."
