BISBEE CONSOLIDATED.

While at Bisbee I secured an option, for a limited time, on 75,000 shares of the treasury stock of the Bisbee Consolidated Copper company at \$1.00 per share, the par value of which is \$5.00. The Bisbee Consolidated was organized by ten of the leading mining and business men of Bisbee and it was their intention to equip and develop the mine themselves, which course they have so far pursued. However, they found that it takes considerable mone, to develop and equip a copper mine on the scale the properties in that section are now being worked and so decided to sell a limited amount of the treasury stock. Considerable of that offered was placed at Bisbee at \$2 per share, but as more money was needed at once to buy heavy machinery the Board of Directors decided to give me a ninety-day option on 75,000 shares at \$1 per share, I demanding it at that price, that I might get my friends in on the ground floor (as well as myself, for I took 10,000 shares) and assuring them that I could well as myself, for I took 10,000 shares) and assuring them that I could place the balance of the stock within one-half the given time. The Bisbee Consolidated has but 200,000 shares, which are fully paid up and non-assessable. It has seventeen full claims situated next to the big Copper Glance, only nearer to Bisbee. I have thoroughly examined the property, and know the character, ability and standing of the men in control and unhesitatingly recommend the purchas of Bisbee Consolidated stock, as I "foot-worked" the ground from Bisbee to the Mexican border and saw nothing better than the Copper Glance or the Bisbee Consolidated. saw nothing better than the Copper Glance or the Bisbee Consolidated.

A Stealthy, Insidious, Weakening Enemy to Women---Many Thousand Women Suffer Needlessly From This Cause.

MRS. EVA BARTHO.

There are a multitude of women. especially housewives, and all othe women obliged to be on their feet con stantly, who are wretched beyond de-scription, simply because their strength and vitality is sapped away by catarrhal discharges from the pelvic organs. These women get up in the morning tired, drag themselves through their daily duties tired, only to go to bed at night as tired as before.

I suffered for years with backache and dragging down pains and often had to go to bed and stay there when I was so busy that I could illy be spared. It was therefore a simple godsend to me when Peruna was brought to my notice. Every drop seemed to give me new life, and every dose made me feel much eetter, and I promised myself that if I found that it cured me I would advocate it so that other suffering women should know of it. I have been in perfect health for one year, I enjoy work and pleasure because in such fine health, and no trouble seems too heavy to bear when you are in good health, Peruna has simply been a household blessing, and I never will be without it again,"—Mrs. Kate Mann.

hundred camels.

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not suffer alike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time.

An acid, polluted condition of the blood is the cause of every form and

variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liniments and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes

the old acid blood rich, and the pain-tortured mus-cles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy. If you have Rheumatism, write us, and our physicians will furnish without charge any information desired, and we will mail free our book on
