**CUP CHALLENGER AGAIN WINS.**

Her Run to the Leeward Is Poor, However, and Disappoints.

**Weymouth, April 8.**—In a steady four-hour breeze, the *U.S.S. Albatross* defeated the old boat by five minutes and eight seconds. Only in sailing with the wind did the old boat keep pace with the challenger.

Designer Watson, in an interview this afternoon, said he certainly did not like the challenger on her first run to the leeward today, but her after-performance, he thought, made ample amends. Her windward work was already up to the point of the published report that War Minister Andre had actually begun the formation of an investigating committee. This denial is taken to strengthen the view the government is not ready to proceed, but the anti-government newspaper nevertheless asserts that plans are on foot for the rehabilitation of Dreyfus to the point of his restoration to the army.

**CUBAN HOUSE CLOSELY DIVIDED.**

Havana, April 8.—The election today of the officers of the house of representatives showed the political parties very closely divided. Senator Portuondo, Nationalist, was elected president, defeating Garcia, Republican, administration candidate, 29 to 26. Five representatives known as radicals, dissenting from the Nationalist party, voted for Portuondo, who otherwise would have defeated. The Republicans succeeded in electing Senator Cardenal, of Matanzas, vice president. The senate has an ample Republican majority.

**WILL GIVES \$250,000 TO CHARITY.**

Chicago, April 8.—The will of the late Gustavus E. Swift was filed for probate today. The estate is valued at \$12,200,000. The principal feature of the will is a bequest of \$250,000 to charity. The great remainder of the estate is divided among the widow and heirs.

Philadelphia, April 8.—As the result of the overturning of an oil stove, Mrs. Yetta Brownstein, aged thirty, and two children were burned to death today. Two other members of the family were probably fatally burned.

**PRESIDENT AT GOAL**

**HE REACHES YELLOWSTONE AND TAKES TO THE FOREST.**

**QUITS TRAIN IN HIGH SPIRITS**

**PLANS TO ENJOY TWO WEEKS OF COMPLETE REST.**

Will Be in Almost Daily Touch With Secretary Loeb, but Nothing Except of Extreme Importance Will Be Referred to Him.

Cinnabar, Mont., April 8.—President Roosevelt is in the fastness of Yellowstone park and for the next sixteen days expects to enjoy complete rest and a cessation from public duties. He will be in almost daily communication with Secretary Loeb at Cinnabar, but nothing except of the utmost importance will be referred to him. In company with John Burroughs, the naturalist, who accompanied him from Washington, he will closely study the nature of many of the wild animals inhabiting the park. The president has looked forward to this outing for some time and was in a particularly happy frame of mind when he led the cavalcade into the park. Every trail leading into the preserve is closely guarded and no one will be allowed to disturb the president's solitude. His headquarters will be at the home of Major Pitcher, superintendent of the park. A number of camps have been established in different localities and these will be occupied by the president from time to time.

**Met by Troops and Cowboys.**

The special train bearing the president and his party arrived at the Gardner entrance to the park at 12:30 o'clock this afternoon and was met by a detachment of the Third cavalry and a number of cowboys. Major Pitcher also was on hand to welcome the president. Luncheon was served in the president's car, after which the president, dressed in riding breeches and coat and a slouch hat, mounted a horse and made a brief address to the people congregated near the train. He then bade the members of the party goodbye and led the way into the park. Mr. Burroughs followed in an army wagon.

The train returned to Cinnabar, where Secretary Loeb and the remainder of the party will live in the while the president is absent. On April 24 the president will start on his trip to St. Louis and the Pacific coast. The weather here is very mild and reports from the park are to the effect there is but little snow in the vicinity of the president's headquarters.

**MORE FINE SHOOTING.**

**Gunners of the Battleship Iowa Break a World's Record.**

Panama, Fla., April 8.—The world's record is being smashed here with frequency by ships of the North Atlantic fleet. The Illinois yesterday lowered all records for accuracy with thirteen inch guns, and today the Iowa took the record with six-pounders. The vessel was firing guns of this size in the Gulf this afternoon when the gunners fired thirty shots in succession, each falling true at a range of 1,700 yards. Three gun crews participated.

**ADLAI LOSES HAIR.**

**Ex-Vice President Painfully Burned Trying to Extinguish Fire.**

Bloomington, April 8.—Adlai E. Stevenson, formerly vice president of the United States, lost his hair and mustache and received painful burns on the face, head and hands today while trying to extinguish a fire in his home. The fire started in a bedroom and when Mr. Stevenson rushed into the room the curtains were ablaze. He immediately attempted his hair and mustache caught fire and burned off and his face was blistered. He was forced to retreat to save his clothes from catching fire. The damage to the house is \$1,000.

**ALBANIAN REVOLT CALLED OFF.**

Vienna, April 8.—Advices from Mitrovitz indicate that the Albanian commission has had a satisfactory conference with the Albanian leaders, who promised to maintain order and send home the Albanians who had assembled in the neighborhood, thereby assuring temporary peace at any rate.

**COLLEGE INSTRUCTOR A SUICIDE.**

Columbus, April 8.—Professor Ernest A. Eggers, head of the department of German at Ohio University, committed suicide at his home this evening by shooting himself. It is said he was despondent from ill health. Eggers taught in several Michigan high schools before coming to Ohio.

**TO SHIP SUGAR TO ENGLAND.**

Havana, April 8.—Some of the wealthiest planters in southern Cuba are loading cargoes of sugar at Genuegotes to be sent to the English market in order to experiment whether better prices can be obtained in England than in the United States.

**PORTUGUESE TROOPS MUTINY.**

Lisbon, April 8.—One hundred and fifty men belonging to the infantry at Esparto have mutinied owing to a belief they were about to be sent to the Portuguese colonies in Africa.

**CZARINA REPORTED VERY ILL.**

Paris, April 9.—A press correspondent at St. Petersburg says it is reported the czarina is seriously ill with peritonitis.

**A HEAVY FAILURE IN DRUGS.**

Chicago, April 8.—Lord, Owen & Co., wholesale druggists, confessed insolvency today. The liabilities are about \$800,000 and the assets \$300,000.

**PASSES PRIMARY ELECTION BILL.**

Michigan House Votes, 79 to 13, in Favor of the Measure.

Lansing, Mich., April 8.—By the vote of 79 to 13, the house today passed a primary election bill providing for direct vote on all nominations, including state officers.

An interesting incident of the debate occurred when Representative Wade, in denouncing the bill, said that Congressman William Alden Smith favors the passage of the bill, announced that Mr. Smith is a candidate for the United States senate.

**HIGH SCHOOL STUDENTS STRIKE.**

Son of Superintendent Leads a Revolt at Madison, Wis.

Madison, Wis., April 8.—Led by the son of the superintendent of schools and the sons of some of the best families in Madison, 300 high school students struck today for half-day sessions. They made such a disturbance that the police were called to suppress them. As the strike is approved by the parents of a number of the students and secretly encouraged, it is said, by some teachers, it is probable considerable difficulty will be experienced in settling it.

**KANSAS SALOONS HARD HIT.**

Elections in Carrie Nation's State Strongly in Favor of Prohibition.

Topeka, Kas., April 8.—Returns from all towns in Kansas which held elections yesterday, disclose the fact that the vote in favor of enforcing the prohibition law is the most overwhelming in the history of the state. A special effort was made by the opponents of prohibition to make a good showing at this election and thus pave the way for a resubmission campaign two years hence. Only six towns of any importance in the state voted in favor of a liberal policy toward the saloons.

**STORM KILLS MANY**

**CYCLONE WREAKS HAVOC IN ALABAMA AND ARKANSAS.**

**WIDE PATH IS SWEPT CLEAN**

**OVER A SCORE OF PERSONS DEAD AND MANY MORE HURT.**

Houses Are Tossed About Like Paper Boxes and Others Are Picked Up and Carried Hundreds of Feet—Some Escapes Miraculous.

Hanceville, Ala., April 8.—A cyclone passed over Hopewell, north of here, today. Twelve persons are dead, four are fatally injured and a dozen are more or less seriously hurt, while the destruction of property is incalculable.

The dead were: Henry McCoy and three children; C. C. Oden and three children; Nate Griffin, wife and son. The fatally injured are: Two children of Henry McCoy and two children of C. C. Oden. Mrs. Oden also was killed. Mrs. McCoy is seriously hurt.

Buildings were tossed about like paper boxes and several structures were blown a hundred yards or more. The body of McCoy, who was a prominent farmer, was blown 200 yards and landed in a sand pit. The house of Mrs. John Norton was wrecked, but those of the family at home escaped by crawling under a bed. Timber and brick fell on top of the bed, but the latter held firm and saved the persons underneath. The houses of the Oden and Griffin families were smashed to splinters, and it seems miraculous that any of the occupants escaped death.

One of the first houses visited was that of Nathan Griffin. It was demolished and Griffin and son James were killed. Mrs. Griffin was so badly injured she died later. The house of John McCoy was next wrecked, but he and the family escaped with severe bruises. The home of Henry McCoy, a son of John, received the worst impact of the storm. His wife was severely injured, two children are still unconscious and may die, and he and his babe and two other children are dead. McCoy was still sleeping the baby in his arms when his body was found. The storm then struck the house of C. C. Oden. Oden was killed outright and so were his three daughters. Mrs. Oden was fatally injured. The home of Mrs. Henry Wharton was wrecked, but she was not badly injured. The home of R. G. Quick was blown to pieces and he and two children were injured.

**Casualties in Arkansas Severe.**

Little Rock, Ark., April 8.—A cyclone three miles wide passed through Cleburne and White counties today, razing everything in its path. At Little Red, eighteen miles from Judsonia, seven or eight persons in one house were killed, the survivor being an infant. Near Pangburn a man named Williams was blown off a mountain side and killed. Many persons are reported injured and it is feared the loss of life is large. Houses were picked up and carried several hundred feet.

The dead at Little Red include James and Joseph Leggett; Thomas King, wife, three children, and a school teacher, and Heber A. Williams. Mrs. A. C. Williams of Heber and Mrs. Hoyerton and children of Pangburn are probably fatally injured. At Bradford, several houses were blown down. Six residences at Pangburn were destroyed and much stock was killed.

Fifty-three residences and sixteen barns destroyed and other wreckage is the record of the damage reported up to 9 o'clock tonight.

**SUPPORTS THE LAND BILL.**

John Redmond, Irish Leader, Makes Important Speech at Dublin.

London, April 8.—John Redmond, the Irish leader, made an important speech at Dublin tonight in which he welcomed the Irish land bill, in spite of its great defects, as the first measure proposed by an English minister having the avowed object of carrying into effect the policy of Parnell and the land league. He said he did not wish to forestall the decision of the coming national convention at Dublin. The latter's acceptance of the bill would mean its amendment and certain passage into a law. Rejection of the bill by the convention would mean that both Secretary Wyndham and his bill would disappear. He believed the settlement of the land question would remove the most formidable obstacle on the road to home rule, but said the suggestion made by some Liberals that the Irish land bill should be accompanied by a measure of home rule was dangerous and was likely to wreck the bill. Redmond believed King Edward is friendly to Ireland and that on his coming visit his majesty would be welcomed with every courtesy and hospitality.

**RED CROSS LEADERS OUT.**

Clara Barton's Inner Board Suspend Prominent Washingtonians.

New York, April 8.—Walter P. Phillips, a member of Clara Barton's inner board of the Red Cross society, today issued an announcement that the executive committee of the society has suspended from membership what is known as the Washington "minority" or those members who have been trying to oust Miss Barton from the presidency. Among the Washingtonians suspended are General John M. Wilson, W. K. VanRypen (surgeon general of the navy), John W. Foster (former secretary of state), Harriet Blaine Beale (daughter of James G. Blaine), Anna Roosevelt Cowles (sister of President Roosevelt) and Hilary A. Hobart (former secretary of the navy).

**AWARD DISPUTE EXAGGERATED.**

Thought President Mitchell Will Easily Settle Troubles at Mines.

Wilkesbarre, Pa., April 8.—The reports concerning a general feeling of unrest among the mine workers in many cases are exaggerated. In this valley there is some dissatisfaction, at a few collieries, but it is believed this can be readily remedied upon the arrival of President Mitchell, who is expected here next week. The officials of the various companies admit there is some dissatisfaction among their employes, but contend that it is due to misinterpretation of the commission's award. The companies in general are ready to adhere to all the stipulations and provisions of the award.

**HURT IN BASKET BALL GAME.**

Indianapolis Girl, Senior at High School, Is at the Point of Death.

Indianapolis, April 8.—Miss Freola Pink, an eighteen-year-old senior at the Indianapolis High school and the star of the girls' basket ball team of that school, is at the point of death as the result of injuries received in a game at Crawfordsville between the Indianapolis and Crawfordsville teams. Miss Pink went down in a scrimmage in the game, which was a championship battle and was kicked in the side, receiving injuries which will terminate fatally.

**KING PROMOTES GEN. WHITE.**

Defender of Ladysmith Is Made a Field Marshal.

Gibraltar, April 8.—King Edward, who arrived today from Lisbon, was present tonight at a state banquet given by Sir George Stuart White, governor of Gibraltar and defender of Ladysmith during the South African war. During the banquet the king announced he had promoted Sir George White to the rank of field marshal.

**GALE WRECKED SAILBOAT.**

Bodies of Capt. Hartwell and Son, of Blanc Island, Found on Beach.

Mackinac Island, Mich., April 8.—The bodies of Captain Hartwell and his son, Alva, were found on the beach of Pound Island today. It is thought that while they were returning to their home on Blanc Island, their sailboat was wrecked in the fierce gale that prevailed Monday afternoon.

**SHIPS CRASH IN FOG.**

New York, April 8.—The steamer Allegheny, which arrived from Central American ports today, was badly damaged in a collision with the British steamer Merryweather during a fog in the harbor today. The crew and thirty-four passengers were taken off in a tug boat. Most of the passengers were women, and many of them, panic stricken, tried to jump overboard. The Allegheny belongs to the Atlas line, is 310 feet long and registers sixteen hundred tons net.

**HONORS FOR CAPT. GAILLARD.**

Washington, April 8.—The secretary of war today announced the names selected by the board of officers for the general staff. Included in the list is that of Captain David D. Gaillard, corps of engineers, at present in charge of government work on Lake Superior. The board made its selections from the efficiency records of 700 officers. Only forty-nine officers made application for service on the general staff.

**PREDICTS A BOXER UPRISING.**

St. Petersburg, April 8.—The French bishop of Szechuan, middle province of the western frontier of China, predicts a general "Boxer" rising throughout the province.

**STORM KILLS MANY**

DAILY MINING JOURNAL, A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED)

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MAQUETTE, MICH., APRIL 9.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

A "draw" will become a term in sporting parlance. It is one in which the other fellow gets all the money.

In the lurly burly of the strenuous life the public may have somewhat lost sight of former Lieutenant Governor James H. Tillman, the cowardly murderer of N. G. Gonzales, a South Carolina editor.

The effect of Dr. Pierce's Golden Medical Discovery upon weak lungs is to strengthen them, to enable the full oxygenation of the blood as it flows in and out of the lungs.

Some years ago I was almost a helpless victim of the dread disease—consumption," writes Mr. Chas. E. From, P. M. of Sika, Mich.

It will interest the instructors of youth in this country, who are concerned in the reform of certain spellings of the English language, to learn that a language crusade is being taken up by the London Academy against certain phrases which all the world has grown tired of seeing in print, and which have been used so often that they have become positively banal.

The new immigration law has had no effect in reducing the number of emigrants arriving in New York. Last month the arrivals were 10,000 more than in the year before and 20,000 more than in 1901.

These are distinctly unpopular and have been beaten whenever proposed. The old idea that we can take any kind of emigrants that are physically and morally fit and make good Americans of them in a short time seems still to prevail.

The London Times says of our canal treaty: Our kinsmen of the great English-speaking republic are to be congratulated on this decisive step towards the realization of a project they have long had very earnestly at heart.

Our kinsmen of the great English-speaking republic are to be congratulated on this decisive step towards the realization of a project they have long had very earnestly at heart.

MINING NEWS

Copper at London yesterday declined \$1.20 for spot and \$20.00 for futures. No change occurred in the New York market.

The Calumet & British Columbia company's Eva mine, in the Lardens district of British Columbia, is nearing the production era, which will begin as soon as the stamp mill, now on the ground, can be put into readiness.

The Quincy is now working five heads and will start two more some time this month. The mine produced over 800 tons mineral in March, a gain of 200 tons over February, and this month another handsome increase is expected.

The No. 1 Keamsarge will soon again go into commission. The shaft joins Wolverine No. 2 and will, it is thought, be just as productive. No. 3 Keamsarge is shipping to the Osceola mills daily 1,000 tons of rock.

Captain James Wilcox, of the Mass mine, and John Funkey, Sr., of Hancock, have left for Bisbee, Ariz., to plan the development work at the Fortage Lake & Bisbee Development company's property.

The officers and stockholders of the Columbus Consolidated Mining company are well pleased over recent reports from the company's property at Alta. The mill, comprising 1200 horsepower, is being divided, \$80 per ton, the values being divided between gold, silver, copper and lead.

Stock in the Arizona Hancock Consolidated Mining company, at \$10 per share, has been withdrawn. Enough money is on hand to develop the property, which consists of twenty-two mining claims, comprising the Chapman and Procter groups, the interest in which was taken over from the old Pinto Creek company. After the property has been thoroughly proven up, and if demonstrated of sufficient value, the company will be reorganized and five shares will be issued for one share of the present company. Development work is well under way and good reports are coming from the property.

William Uren, superintendent of the Trimountain stamp mill, who is also consulting engineer of the Sylvania Gold Mine, is expected to visit the mine at Colorado next week to visit the property. At the mine there is now ready for shipment 200 tons of concentrating ore from No. 2, which shows an assay value of \$25 per ton. As yet, as the mill of the American Supply & Reduction company at Idaho Springs, just three miles from the property, is in operation the Sylvania ore will be concentrated as fast as it is mined. The mill will be ready within the next two months. It will be but a short time, it is asserted, before the mine will show a good profit over and above operating expenses.

The Calumet & Hecla will entirely rebuild its old mills, beginning within the next few weeks. The mine has two wooden mills, the Calumet and the Hecla, which are being replaced by a new steel addition to the Hecla mill has six stamps. Work will be started on the north end of the Calumet mill, which is to be demolished in three sections, and rebuilt of steel, thus avoiding any stoppage or reduction of output from the work of remodeling. The Leavitt stamps will be retained, but more room will be given the wash department, and the number of Wilfrey tables will be greatly increased, and the number of jigs reduced. Chilean mills for regrinding will also be used throughout, tests having proven very satisfactory. The experimental plant built for re-working tailings has been torn down, and Todd C. Woodworth, who conducted the experiments, is now working the old sands at the Central mine, in Keweenaw county. The Calumet & Hecla people have apparently abandoned all plans for working over their old tailings, which are the most extensive in the world, and are being added to at the rate of about 6,000 tons every working day. The improvements in the mill will result in a closer extraction of the copper values than has ever been secured in the past.

A GREAT SENSATION. There was a big sensation in Leesville, Ind., when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insupportable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1.00. Guaranteed by Stafford Drug Co., druggist. Trial bottles free.

For liver troubles and constipation There's nothing better in creation Than Little Early Risers, the famous little pills. They always effect a cure and save doctor bills. Little Early Risers are different from all other pills. They do not weaken the system, but act as a tonic to the tissues, arousing the secretions and restoring the liver to the full performance of its functions naturally. H. Harwood, Indianapolis. Stafford Drug Co., Marquette.

"Little Colds." Thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds, cures big colds, cures down to the very verge of consumption.

MINING NEWS

Copper at London yesterday declined \$1.20 for spot and \$20.00 for futures. No change occurred in the New York market.

The Calumet & British Columbia company's Eva mine, in the Lardens district of British Columbia, is nearing the production era, which will begin as soon as the stamp mill, now on the ground, can be put into readiness.

The Quincy is now working five heads and will start two more some time this month. The mine produced over 800 tons mineral in March, a gain of 200 tons over February, and this month another handsome increase is expected.

The No. 1 Keamsarge will soon again go into commission. The shaft joins Wolverine No. 2 and will, it is thought, be just as productive. No. 3 Keamsarge is shipping to the Osceola mills daily 1,000 tons of rock.

CARPENTER DIES WEALTHY.

Boston Artisan, Working at Bench Daily, Leaves \$3,000,000.

Boston, Mass., April 8.—Patrick McAler, the famous millionaire carpenter of Boston, is dead, aged eighty-eight years. He came here from St. John, N. B., with \$1,000, and while working at the bench every day amassed a fortune of \$3,000,000. He never signed a contract, although he handled jobs for buildings counting up in the thousands. He always paid cash for everything, from a pound of nails to a business block worth \$250,000.

Most of his property was located in the heart of the city and included some of the oldest and most valuable pieces of real estate in Boston. His son was not allowed to remain idle, but when old age was put to work at the bench on \$15 a week.

PLAN BIG EXPRESS STRIKE.

American Company Employees, Denied Power to Join Union, Make Threat.

Sioux City, Iowa, April 8.—Local messengers, drivers and clerks for the American Express company, who have been refused the privilege of joining the Brotherhood of Railway Expressmen, declare they have assurance from the union's national officers that if the matter is not settled by May 1 the employees of the company all over the United States will be called out. Sioux City and Omaha are the only places where the company opposes the men's plan to join the union.

A "draw" will become a term in sporting parlance. It is one in which the other fellow gets all the money.

In the lurly burly of the strenuous life the public may have somewhat lost sight of former Lieutenant Governor James H. Tillman, the cowardly murderer of N. G. Gonzales, a South Carolina editor.

The effect of Dr. Pierce's Golden Medical Discovery upon weak lungs is to strengthen them, to enable the full oxygenation of the blood as it flows in and out of the lungs.

Some years ago I was almost a helpless victim of the dread disease—consumption," writes Mr. Chas. E. From, P. M. of Sika, Mich.

It will interest the instructors of youth in this country, who are concerned in the reform of certain spellings of the English language, to learn that a language crusade is being taken up by the London Academy against certain phrases which all the world has grown tired of seeing in print, and which have been used so often that they have become positively banal.

The new immigration law has had no effect in reducing the number of emigrants arriving in New York. Last month the arrivals were 10,000 more than in the year before and 20,000 more than in 1901.

These are distinctly unpopular and have been beaten whenever proposed. The old idea that we can take any kind of emigrants that are physically and morally fit and make good Americans of them in a short time seems still to prevail.

The London Times says of our canal treaty: Our kinsmen of the great English-speaking republic are to be congratulated on this decisive step towards the realization of a project they have long had very earnestly at heart.

WILL ASK COUNTY AID.

Board of Control of District Agricultural Society to Meet This Week.

A meeting of the board of control of the Houghton County Agricultural Society will be held this week to take steps to place the matter of county aid before the board of supervisors at its regular monthly meeting next Tuesday. Under the law, an agricultural society of the kind is entitled to an appropriation and to that end provision is made for a tax levy as high as a tenth of one mill on every dollar. However, the county board may use its own discretion in levying the tax insofar as the amount is concerned. A sum deemed suitable to the needs of the society is usually agreed upon and the tax is levied accordingly.

It is expected that the county board will be as liberal as possible and that a neat sum will be secured as the result of its action. The agricultural society is generally looked upon as a good thing and it is expected to do much to encourage farming in this district. It has energetic men, who are all taking deep interest in the campaign to further agriculture in this section, in its membership, and among them may be found some of the most prominent men of the county. The society has a number of good friends on the county board who recognize the need of just such an organization in Houghton county and who may be depended upon for support. The soil and climate is right for profitable farming in this region and the society proposes to further agricultural interests in every way.

It is necessary that the supervisors be asked for county aid at their regular meeting this month so that the amount to be collected with the rest of the taxes later on. It will take a year to get the money, and the tax must be spread on the rolls now.

The board of control will also confirm the action taken by the committee appointed to arrange for the first county fair in September. The board is comprised of twelve members while there are five on the fair committee.

Two Societies to Consolidate. It may not be generally known, but there is a Houghton County Agricultural society, with headquarters at Lake Linden. A year ago last fall it started preparations for a county fair at Lake Linden, but did not proceed with its plans because of the proposed organization of an agricultural society the scope of which was to be more general in every way. The new society was not organized that year, but the Houghton County District Agricultural society, organized not long ago, is partially the result of the movement for a new organization. As planned the new society was more general in its scope. Men from all parts of the county are interested and it is proposed to make Houghton and adjoining counties more of an agricultural district. Members of the Lake Linden society are identified with the Houghton County District Agricultural society and it is now proposed to consolidate the two organizations. A meeting of the Lake Linden society will soon be held, the present officers of the Houghton County District Agricultural society will be elected and then and there the Houghton County Agricultural society will go out of existence and its members will enroll as members of the larger society, which may possibly then drop the word "district" from its name.

RESIGNS BUT RECONSIDERS.

Secretary Wing of Hancock Y. M. C. A. Surprises Board of Directors.

Willard H. Wing, general secretary of the Portage Lake Y. M. C. A. of Hancock, yesterday handed in his resignation. His action came as a surprise and the directors, unprepared for it, asked Mr. Wing to reconsider. He has decided to do so and will remain with the association for the present.

Mr. Wing has tried in every manner and means to life the indebtedness of the local organization, but despite his hard and earnest work the public has failed to lend proper support. The association manages to pay current expenses and the interest on its indebtedness but it is a hard proposition even to do that. Were it not for the debts, most of which were incurred in enlarging the quarters to a size suitable to needs of the work, the branch could manage to get along very well. Money could be saved and the association could prosper and grow as it never has before.

Mr. Wing has been with the association for the past three years. The directors have promised to take steps to help the branch out of its difficulties and in case the public responds Mr. Wing will remain where he is.

SILVER STORY A CANARD.

Nothing Known at Houghton of Widow Ring and Her Alleged Fortune.

A Chicago paper printed a story in its Sunday issue of the finding of fifteen kegs of silver, in pieces varying in size from a dime to an egg, in the cellar of a house in Houghton occupied by a widow named Ring and her two daughters. It went on to relate that the husband and father, who had been a miner, had collected the silver, bringing home pieces at a time, but that during all the years he was at it had never told his family. The secret died with him. Mrs. Ring knew that the barrels were in the cellar but did not know the nature of their contents, believing them filled with some mineral refuse, the collection of which was a hobby of her husband. It was not until Mrs. Ring told a mining friend of the barrels that the investigation which followed brought the silver to light. The story says that the widow and her daughters are in poor circumstances and that the silver, the value of which is not yet known, will put them beyond each of want for a long time to come.

An investigation has failed to locate the Ring family and it would appear as if some correspondent has been ringing in a story on the paper in question.

AN INTERESTING DEBATE.

An interesting debate on an all-important subject was held at the Lake Linden Opera House last evening. The question was: "Resolved, That Socialism is Entitled to the Support of the American People." The speakers were Lake Linden and William Dunstone of South Lake Linden were the principals. Mr. Keppeler taking the affirmative and Mr. Dunstone the negative. The gentlemen spoke to an interested audience. There are many voters in Lake Linden interested in the question but they did not alone constitute the attendance as the general public was also interested. The debate was held under the auspices of the Epworth league of the Methodist church. A musical program was rendered in connection.

FINE RESIDENCE GOING UP.

Contractor Paul F. P. Mueller, of Houghton, has the contract for the erection of a \$6,000 residence on Main street, East Houghton, for Milton R. Dickens. Heretofore Mueller, the copper country manager, had the copper building which was a two-story frame structure with all modern improvements. The first story will have a reception hall, parlor, living room, dining room, bed room and kitchen, while upstairs there will be a library, three bed rooms and a bath room.

NEW BUSINESS BLOCKS.

Shand & Eastman, Calumet architects, who drew the plans for the new Harrington block to be erected in the burned district of Houghton, are preparing plans for the new Murphy and Foley business structures, which are also to go up in the burned portion. The Murphy building will be 50 by 75 feet in size, brick and stone and one story high. The Foley block will be 50 by 75 feet of stone and brick and two stories high.

ROBBED THE GRAVE.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Stafford Drug Co., drug store.

GOOD FOR CHILDREN.

The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and La Grippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-sustaining oxygen to the blood and tissues. H. Harwood, Ishpeming, Stafford Drug Co., Marquette.

Half the ills that man is heir to come from indigestion. Burdock Blood Bitters strengthens and tones the stomach; makes indigestion impossible.

STREET RAILWAY TO TRY AGAIN.

Negotiations for Privileges at Lake Linden and Laurium to Be Reopened.

W. O. Chapman, vice president of the Houghton County Street Railway company, is expected back from Boston in a few days. Negotiations will then be opened with the Lake Linden and Laurium village councils for important street railway franchises.

The present street railway line from Calumet to Lake Linden does not enter the resident or business portions of Lake Linden. The Lake Linden terminus is on the outskirts of the town and a considerable distance from the business center. When the extension from the main line at Calumet was planned and built, the company endeavored to secure permission from the authorities of Lake Linden to enter the village, but the council set its foot down upon the terms proposed. The company desired to get a right-of-way through the village on the same terms as accepted by the other villages in the county, that is, that the company should pay one-half the cost of removing the snow from the streets in which the tracks were laid. Not much difficulty was had in getting franchises on that proposition from Red Jacket, Laurium, Hancock and Houghton, but Lake Linden believed the terms to be too much in favor of the street railway people and the council refused to grant the franchise unless the company agreed to help the town pay the cost of having the snow removed. The company was not willing to accept this proposition and was compelled to abandon the idea of entering the village until some future time when both parties concerned could agree.

The street railway company now proposes another attempt to secure the desired franchise. Most Lake Linden people desire that the line be built into the village, and it appears to be the common sentiment that the council should grant the necessary permission. The present Lake Linden terminus is too far out of the way to please. The street railway to Calumet is well patronized but it is a great inconvenience for Lake Lindenites to now get to the cars. The distance is too great for most people to walk, and usually a stage has to be taken to save time and fatigue, thus increasing the expense. The company will again ask for a franchise on the terms incorporated in the first proposition. Street railway officials say that the company cannot afford to pay the whole cost of removing the snow. And if it agreed to do so in Lake Linden it would face a similar proposition, probably, in the other villages. It remains to be seen what the Lake Linden council will do.

The company also intends to again ask the Laurium council for permission to build another three hundred feet of track at the Florida location to connect the Lake Linden extension with the main line at Laurium. When the Lake Linden branch was built the company thought it would experience no difficulty in connecting the extension with the main line and application was made to the Laurium council for the necessary franchise. The council refused to give the permission unless the company agreed to pay from that time on the whole cost of removing the snow from the Laurium streets in which the tracks were laid, instead of half the cost according to the original franchise granted for the construction of the line through Laurium. The council believed it gave the company too much of a good thing in the first place by according to such terms. The company will not change its policy at Laurium, however, and it expects to get the permission to build the three hundred feet. At present, patrons of the line find it an inconvenience to change cars at the junction of the main line and the Lake Linden branch.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newell's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substances.

SIXTEEN YEARS OF CATARRH.

Well Known Massachusetts Woman Cured by Hyomeo.

How to cure catarrh has been a problem in medicine for many years that was not solved until the discovery of Hyomeo. This remarkable treatment makes it possible for any one to breathe an air at home which is almost identical with that of the Adirondacks, the Carolinas or other health resorts where the air is impregnated with healing balsams from healing giving trees and plants. Simply place a little Hyomeo in the inhaler which comes with every outfit; breathe it occasionally during the day and benefit will be seen after its use for only two or three times, while perseverance for a few days or weeks at the Hyomeo complete cure of even the worst case of catarrh.

Mr. Elvin A. Gibson, who holds a responsible position in the great dry goods store of Jordan, Marsh & Co. of Boston, wrote in April: "I had catarrh for twenty years, and the last ten years all of which time has been passed in this great establishment. I suffered terribly. One half dose of Hyomeo per day would be used. It extended to my throat, the base of my tongue was inflamed, and I began to cough in my mouth, cardamom seeds, or some such thing, would be used. I began to cough in December and in two weeks I was entirely cured, and now, after four months and no return of the disease, I can say that Hyomeo cured. The head of this firm, Mr. Jordan, endorses this statement."

The Stafford Drug Co. has sold hundreds of Hyomeo outfits, consisting of an inhaler, a medicine dropper and a bottle of Hyomeo, and with every purchase has given its personal guarantee to refund the money if Hyomeo did not cure the disease. Get the treatment on that plan and every catarrh sufferer ought to take advantage of its fair proposition. DR. HOLMES ONCE SAID: "It is better to be young at 65 than old at 35." A good way to be young at 65 is to recover your energy. Get Hyomeo at 25c. Outlets: Now, 64th year, and doing business in 25 States. Sold by: W. C. Murray, Marquette, Organized 1859. M. W. Marshall, Gen. Mgr., Marquette, Mich.

COPPERDOM BREVITIES.

It is said that the American Express company will soon establish a branch office at Calumet.

Sidway will be represented on the diamond this season. F. E. Levine is manager of the team.

Hancock Mine, Ladies of the Macca-bees, has decided to give its annual ball at St. Patrick's Hall on the evening of April 20.

Donald Grant won out for supervisor in Laird township. Leonard Gillespie was elected clerk, J. T. Drew treasurer and H. Heikonen highway commissioner.

In Alouez township, Keweenaw county, J. P. Petermann was elected supervisor. G. H. Petermann clerk, James Jackson treasurer and John Kytte commissioner of highways.

The During Swedish Ladies' quartet will entertain at the Kerredge theater, Hancock, this evening. The singers come highly recommended and they should be greeted by a large audience.

With the exception of George W. Emery, elected alderman from the First ward in the city of Hancock, the council will be comprised of new members. Mr. Emery served on the village council. The council will be comprised of nine members.

Several Hancock societies having sick benefit funds will, it is said, endow beds in the new St. Joseph's hospital now well along towards completion in West Hancock. Other organizations may follow suit.

Special services will be held in all Catholic churches in the county today, tomorrow and Saturday—Maundy Thursday, Good Friday and Holy Saturday, respectively. High mass will be celebrated and devotions held today and tomorrow. Special services will be held Easter Sunday and the churches will be appropriately decorated for the occasion.

In Greenland township, Ontonagon county, Captain James Wilcox was elected supervisor Monday. Bert Dunn was elected clerk, Samuel Goard treasurer and T. H. Gibson highway commissioner. In Ontonagon township C. H. Emmons was elected supervisor, Edward Carroll clerk, Stephen Loranger treasurer and William Anglim highway commissioner.

Mystic lodge, I. O. O. F., of Hancock, under whose auspices the county Odd Fellow celebration will be held on April 16, has selected the following committee on arrangements: N. A. Metz, J. N. Mitchell, Sidney Lang, Thomas Williams, C. H. Shultz, Samuel Williams, John Funkey, Jr., J. T. Perry, Jr., W. H. Vial, William Jeffrey, W. C. Bryant and W. H. Hoffenbacher.

The Strollers' will be presented at the Kerredge theater, Hancock, on the evening of April 16 by the Marguerite Sylva company. Portage Lake people will look forward to the attraction, which comes well heralded. Miss Sylva is well known on the American stage. She has a distinct personal charm and is a prima favorite at Milwaukee and other of the larger cities. She is supported by an excellent company.

Malcolm J. McLeod, deputy labor commissioner, is credited with saying that in the future the mines of Michigan will be thoroughly inspected as regards labor conditions, the same as are factories. The state bureau of labor will inaugurate the new practice next year, the law providing that the bureau shall inspect and collect statistics relating to all departments of labor in the state. The mining companies will not fear the inspection. The inspectors will be courteously treated and they will find the conditions ideal.

The school board of Calumet District No. 2 has selected the following teachers for the next school year: Anna Harrington, Lake View school; Elsie Thompson, Frank Junior; Hattie Pope, principal, Minnie Robinson, Blanche Silver, Amy Weirne, Centennial Heights; James Daley, principal, Libbie Warren, Libbie Grenier, Mae Mundy, Bridget Harrington, Centennial; Maggie Shea, principal, Minnie J. Wolf, Volvone; Mrs. Lillian Webster, principal, Kattie Conley, Mary Cunningham, May Webb, Keatsarge, Effie Lamont, music and drawing; Libbie A. Pope, superintendent.

For some time past the Calumet post-office employes have been bothered by the tampering of the mail boxes, especially the larger one for the reception of packages, just outside the office entrance. Several young men, who persist in making the postoffice a loafing place, are suspected and an investigation is under way. Postmaster Hosking has offered a reward of twenty-five dollars for the arrest and conviction of the guilty persons. The mail boxes have been used as cupboards; fires have been started in them, and the boxes have been tampered with generally.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

LAST CHANCE. To Buy Bisbee Consolidated at \$1.00 Per Share. My right to sell Bisbee Consolidated Treasury stock at \$1.00 per share terminates April 14th. All stock ordered after April 10th will have to be telegraphed for. The recent strike by the Solomon Springs Copper Company which is within 1,200 feet of the Bisbee Consolidated has set the country in that district aflame; consequently there is no hope of my securing an extension as the Bisbee Consolidated management intend to advance the price of the stock to \$2.50 per share as soon as my option expires which will be on the 14th inst., and they will offer but a small block at that price.

The Solomon Springs Copper Company is like the Copper Queen, a close corporation and is controlled by a New York syndicate. At Bisbee it is now called the "New Irish Mag" after the Calumet and Arizona's famous claim, and gives promise of developing into fully as rich a mine as any at Bisbee. The Bisbee Consolidated with her seventeen full claims compactly situated and lying close to the El Paso and South Western Railroad, her small capitalization (200,000 shares) considering the great value of her holdings and the extreme low price of her stock to those who take advantage of my option, with her capable and efficient management cannot but appeal to the investor as a property offering unusual advantages.

At the present selling price of claims in the Bisbee Consolidated District her property alone is worth twice the capitalization of the company at the price I now have an option on the stock, and were her owners so disposed, they could easily sell their properties for much more in cash than they are now receiving in full payment for them in the stock of the company. They would never have sold a share of the stock and would like the Solomon Springs Copper Company have continued a close corporation had they possessed sufficient capital to develop the mine themselves. Finding the machinery they now needed would cost more than they could conveniently raise they granted me the option which is about to expire and which because of the rich strike close to them I have no hope of renewing. So do not miss this opportunity to secure stock in what is now considered the best buy in the Bisbee District. Though cash must accompany my orders I will agree to accept orders upon payment of one-half the purchase price, balance to be paid when certificate arrives. I will also accept orders from persons I know to be responsible and pay for their stock myself that I might secure it before my option expires upon condition that they pay me on or before April 30.

STRIKE CRISIS IN HOLLAND.

Queen Hurries to Capital and May Declare a State of Siege.

Amsterdam, April 8.—The government has ordered all marines mobilized within twenty-four hours, and three warships will be in readiness for immediate service. Ten thousand men are idle in Amsterdam.

The Hague, April 7.—The strike situation has become so critical that the government is considering the advisability of declaring a state of siege. Queen Wilhelmina has arrived from Castle Loo in response to an urgent message from the premier. She is prepared to declare martial law. The greatest precautions were taken during the trip to this city. The royal party had ordinary first class compartments and the entire route from the castle to the capital was guarded by troops.

Food Supplies Running Short.

The alarm over the situation was increased when a proclamation was issued by the workmen's defense committee ordering all the bakers in the country to join the railway men in the strike. While some of the bakers decline to obey, the greater number complied at once. This action, combined with the fact that the transportation facilities of the country are entirely paralyzed, has aroused the fear that the food supply of the country may run short within a few days.

While there has been little disorder throughout the country since the strike was declared, government officials fear that this is merely the calm before the storm. To be prepared for any rebellion, troops are out in full force from the hook of Holland to Amsterdam. In spite of the efforts of the Socialists to postpone the discussion of the articles of the anti-strike bill is the second chamber of the states general, Article one, guaranteeing the freedom of labor against strikers, was passed today.

The workmen's defense committee has offered to call off the strike if the proposed "tyrannical" anti-strike laws are abandoned.

Strike Riots in Rome.

Rome, April 8.—Strikers by hundreds succeeded in gathering in threatening numbers on the Corso Vittorio Emanuele, almost in the center of the city, today. Troops charged the rioters, fired three times and dispersed them. About a dozen men were wounded. Order was re-established, but the city is still occupied by the military.

Berlin, April 8.—A dispatch from St. Petersburg says that thirty persons were killed and a hundred injured yesterday during labor disturbances near Nishni Novgoroda.

Peacock Ham and Bacon are unexcelled. (3-23-3m-0)

WILL TAKE PAY IN SILVER.

Secretary Hay Denies Report from Peking of Change in Policy.

Peking, April 7.—The American financial agent at Shanghai recently submitted to the international commission a silver bond for the American indemnity to be presented to the Chinese representatives for signature. The commission declined to present the silver bond, whereupon the United States agent forwarded it direct to the Chinese.

Information received from other than American sources is to the effect the United States has withdrawn the silver bond and is preparing to substitute one on a gold basis which is practically identical with the Japanese bond. There is a strong feeling among the other legations against America breaking the concert, particularly as the Chinese admitted officially, as they have always admitted privately, that the debt is on a gold basis. The American policy is intensely unpopular with all classes of Americans in China.

Later it appears that the American financial agent acted without instructions in presenting an indemnity bond providing for payment in silver taels. Under instructions from his government, he is substituting a bond providing for payment in gold dollars.

In Uncle Sam's Own Business.

Washington, April 7.—It was stated tonight by Secretary Hay that the bond submitted to the international commission at Peking follows strictly the language of the protocol and involved no change of policy on the part of the Washington government. The United States for a long time has favored the adjustment of the indemnities on a silver basis.

The instructions of the state department to its financial representative in China look to the retention of independence while faithfully carrying out the engagements entered into by the United States in the Peking agreement. Consequently, the bond which China will deliver to this agent will stipulate simply for the payment of the installments of the indemnity on the basis of the exchange at the date the agreement was signed in 1900. Whether the United States will exact payment in gold or silver concerns no other nation in our own view, and the other nations party to the agreement are permitted to likewise exercise their discretion as to the basis upon which they will settle.

TODAY'S WEATHER.

Washington, April 8.—The following is the weather bureau's forecast for Upper Michigan: Showers, Thursday, cooler in northwest portion; Friday, fair, fresh south to west winds becoming variable.

PUTS IRON HEEL OVER FINNS.

Czar Makes Governor a Dictator With Absolute Power.

Stockholm, April 8.—A dispatch from Helsingfors to the Aftonbladet says the czar on March 26 signed a decree investing Governor General Bobrikoff with dictatorial powers in Finland and declaring him to be the supreme power among all the Finnish authorities. Governor Bobrikoff already has begun the exercise of his authority by ordering the arrest and trial of a number of men who had evaded conscription.

BATTLE AT SAN DOMINGO.

Cape Haytien, April 8.—A government messenger who has arrived from Santo Domingo announces that 2,000 government troops are at the gates of San Domingo city, that they have captured the suburb of San Carlos, and that three revolutionary generals were killed, including Perico Tatin, the principal leader of the revolution.

Panama, April 8.—A despatch from Honduras announces that General Sierra abandoned Nacame yesterday and it is believed he will flee to Salvador. The town of Coray also has been captured by General Bonilla's forces, and only the Honduran capital, Tegucigalpa, now remains in the power of President Arias.

M. E. REVISION BOARD MEETS.

Chicago, April 8.—The commission appointed by the order of the last general conference of the Methodist Episcopal church to consider the advisability of revising the catechism and order of worship began its work here today. Those present were Bishop S. M. Merrill, Chicago; Revs. Jesse W. Jennings, Omaha; W. V. Kelly, New York, and S. O. Royal, Hillsboro, O.; A. W. Harris, Port Deposit, Md., and Frank Brown, Brooklyn. The commission elected Bishop Merrill chairman. A number of sessions will be held, as the commission has a year or more to complete its work.

GRAIN DEALERS' TRUST SCORED.

Springfield, Ill., April 8.—In a decision this afternoon by the state railroad and warehouse commissioners, the Illinois Grain Dealers' association is criticized for establishing a boycott against the independent grain dealers of the state. The case was an action against the Illinois Central for discrimination in furnishing cars. The commission decided against the railroad company, and orders that an equitable distribution of cars be made.

U. S. COURT HOUSE AND POSTOFFICE, MARQUETTE, MICH.

Sealed proposals will be received at this building until 2 o'clock p. m., April 15th, 1903, for furnishing fuel, lights, water, ice, miscellaneous supplies, washing towels, hauling ashes, and sprinkling streets for this building during the fiscal year ending June 30, 1904, or such portion of the year as may be deemed advisable. The right to reject any and all bids is reserved by the Treasury Department.

GAD SMITH, Custodian.

THE OLD RELIABLE

ROYAL BAKING POWDER Absolutely Pure THERE IS NO SUBSTITUTE

OVATION TO SCHLEY AT ST. PAUL.

St. Paul, April 8.—Admiral Schley was given an enthusiastic reception by the citizens of St. Paul today as he drove under military escort to the state capitol, where he briefly addressed a joint session of the two houses. A public reception was held in the governor's parlors afterwards. In the morning the admiral and party visited Hamline University and addresses were made to the students.

CANADA AFTER GRAIN TRADE.

Ottawa, Ont., April 8.—Sir Wilfrid Laurier today told a delegation from the Dominion Marine association who asked for the abolition of the canal tolls and other restrictions on navigation, that the government would carefully consider the matter. The whole question was how best to divert to the Canadian route some of the grain trade now going to Buffalo and New York.

IDLE STEEL MILLS TO RESUME.

Springfield, Ill., April 8.—The Republic Iron & Steel company's rolling mills here, which have been idle for several weeks, will resume operations in about a month. The mills will give employment to eight hundred men.

HAVE YOU USED COKE?

Whether you have or not turn to our ad and learn the best and cheapest way of using this excellent fuel. THE MARQUETTE GAS LIGHT CO.

DUE NOTICE IS SERVED.

Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. H. Harwood, Ishpeming, Stafford Drug Co., Marquette.

TELEGRAPHIC NEWS CONDENSED.

Columbia, S. C., April 8.—The case of former Governor Tillman, charged with the murder of Editor Gonzales, was today continued until next July.

Copenhagen, April 8.—King Christian today celebrated the eighty-fifth anniversary of his birth.

Leavenworth, April 8.—Fire today in the engineer's barracks at Fort Leavenworth for a time threatened the entire barracks which, with the munitions, are valued at \$400,000. The fire was extinguished with \$5,000 loss.

Washington, April 8.—The Washington Humane society has elected President Roosevelt an honorary member in consideration of his message to congress recommending the exercise of kindness toward the cavalry and artillery horses of the army.

Frankfort, Ky., April 8.—The trial of James Howard, charged with killing Governor Goebel, was begun here today. A jury has not yet been secured.

Philadelphia, April 8.—J. Howard Clemenson, former treasurer of the Pennsylvania Epileptic Hospital and Colony farm at Oakbourne, today pleaded guilty to three indictments charging embezzlement and was sentenced to eight years' imprisonment. Clemenson embezzled about \$9,000 of the hospital's funds.

Buffalo, April 8.—A new trust company has been organized under the title of "The Great Lakes Trust company." The capital is \$500,000 and surplus \$300,000.

Honolulu, April 8.—By Pacific cable to the Associated Press.—J. B. Atherton, one of the richest and most influential men in Hawaii, is dead, aged sixty-six. He was largely interested in the development of the sugar and other industries.

Naples, April 8.—The United States cruiser Albany sailed for Leghorn today. Thence she will go to Villa Franca and meet Rear Admiral Cotton, commander-in-chief of the European squadron. Later the Albany will proceed to China.

New York, April 8.—The stockholders of the Joseph Ladue Gold Mining & Development company, at a meeting at Jersey City today, voted in favor of dissolving the company and reincorporating in South Dakota.

Springfield, Ill., April 8.—Four hundred miners at Litchfield are idle owing to a strike of the drivers, whose demand for an increase in wages the company refused.

HOW TO USE COKE. For the benefit of those to whom the use of Coke is a new venture, we take the liberty of informing them of the best and most economical method of using this fuel. For Hard Coal Stoves, use Crushed Coke. For Wood Stoves, use Lump Coke. For Grates, use Lump or Crushed Coke. For All Furnaces and Boilers we recommend the use of Lump Coke. However, to obtain the most satisfactory results, enough Coke breeze (or small pieces of Coke) should be thrown on top to fill up the large cracks. This will not only save fuel, but also give most excellent satisfaction. LUMP COKE may be easily broken with a shovel. It will therefore not be necessary to order two kinds of Coke. If you have not tried Coke, let us send you a trial order TODAY. 1/2 ton, lump or crushed, delivered... \$1 50 1/4 ton, lump or crushed, delivered... 2 75 1 ton, lump or crushed, delivered... 5 50

"Saved My Life and Kept Me from Insane Asylum."

MRS. WILCOX IS NOW IN PERFECT HEALTH THROUGH NO OTHER AGENCY THAN

Paine's Celery Compound

The absolute need of an honest and genuine invigorator and health giver in the spring season is deeply impressed on the mind of every thinking and intelligent man and woman.

The happy cure of Mrs. J. E. Wilcox, of Whites, Cal., through the use of Paine's Celery Compound, created widespread astonishment and joy amongst her friends and neighbors who were exceedingly anxious regarding her condition.

The best medical treatment failed even to give Mrs. Wilcox a few days of relief from her sufferings of mind and body. At last, Paine's Celery Compound saved her from a terrible end and planted her feet firmly on the rock of health.

Read Mrs. Wilcox's letter of testimony, dear reader, and if you remain obturate and unbelieving after such an earnest and convincing confession of cure, nothing but a direct act of Providence can snatch you from the dangers and perils of your position. Mrs. Wilcox says:

"I feel it my duty to tell you what Paine's Celery Compound did for me. Some years ago my head troubled me so that it seemed I should be crazy. It was caused by over-study. I asked the advice of two doctors who gave me medicine to no effect, and I did not know what I would do. I did not want to see any one, everything seemed so strange. I had a tired, lagging feeling, my bowels were out of order, my kidneys troubled me, and I felt badly, but before I had taken half of one bottle of Paine's Celery Compound I felt like a new person. Four bottles cured me, and I would recommend it to all who feel the way I did. I can't praise it half enough, for I know it saved my life and kept me from imprisonment in an insane asylum, which is as bad as death."

BETTERS LORENZ' METHOD.

Boston, Mass., April 8.—Ralph W. Bartlett, a Boston lawyer, has just completed a mechanical appliance for treatment of congenital hip dislocation that promises to surpass Dr. Lorenz' method of bloodless surgery. The appliance has been tested in Boston hospitals and found to cure such cases even after they are over ten years old, the age limit fixed by Dr. Lorenz.

Mr. Bartlett's invention was prompted by fatherly love, for his own daughter was so afflicted. The machine is so constructed as to hold the bones while the necessary lengthening of the muscles, ligaments and tissues is gradually accomplished without the severe wrenching by the hand method. Only those parts are stretched which actually are holding the bone in its normal position.

STOCK MARKET DULL

New York, April 8.—Today's business on the stock exchange aggregated barely 300,000 shares, which is back to the low level of activity. The fact that Friday is the date for the expiration of the Southern Pacific pool strengthened the disposition to keep out of the market. The distinct easing of the money market yesterday seemed to give no relief from the pressure of liquidation.

Yesterday's weakness in the United States Steel stocks was sufficiently explained by the decrease in net earnings for the past quarter reported late yesterday. The corporation's new 5 percent bond dipped to a new low record price on the curb this morning, at 83 1/2, but a complete recovery followed. The buying of the steel stocks on the exchange was confidently attributed to the account of inside and syndicate interests, such as have not been perceptible in these stocks for a long time past. This support had a good sympathetic effect on the general market.

The heavy selling of Rock Island, which was a feature yesterday, continued today from the same sources, but there was evidence of inside support in this stock also. Amalgamated Copper was decidedly weak in connection with the violent relapse of £1 17s, 6d per ton in the London price for copper. There was some attempt to connect the selling of Amalgamated with the involved speculative condition in the coffee market.

The prospects in the money market were considerably favorable, but an advance to 7 per cent in the call loan rate late in the day somewhat chilled this confidence. Much importance is attached to the report from Philadelphia that the Pennsylvania railroad has determined to repay its \$40,000,000 six month loan, maturing in June, with the proceeds of the first installment of the subscription to its new stock.

Wide declines in the prices of dormant stocks were features again of the market. Northwestern sold at 17 3/4, compared with 27 1/4 at the high level in April, 1902.

Paine, Webber & Co. report closing quotations as follows:

Table with columns for stock names and prices. Includes Wabash, N.Y. Central, Southern Ry., etc.

BOSTON COPPER QUOTATIONS.

Hayden, Stone & Co. wired the Laidley Commission company: "Coppers have been rather weak today in sympathy with the drop in metal and the decline in copper in London. Our coppers generally follow the lead of Amalgamated and the traders have been selling them today. We hear that the drop in Amalgamated has been caused by the selling of the Lewishams, who were leaders in the bull pool. They

were also heavily interested in coffee and the drop in that hit them rather hard so they sold Amalgamated to protect their coffee speculations. We still think that with the metal at 15 cents coppers are a good purchase and will show good profits in the near future."

Paine, Webber & Co. said of the Boston market: "The general market was a shade firmer today, but there was free selling of all the stocks that rallied materially. Copper declined the equivalent of over a quarter of a cent per pound in London and was feverish and unsettled in New York. The continued weakness of the stock market is discouraging. Consumers are no longer bidding for copper for future delivery. There is nothing in the situation to encourage one to buy stocks. The Daily West Mining company has declared a regular monthly dividend of sixty cents per share. The books close April 10." Closing prices:

Table with columns for stock names and prices. Includes Adve., Arc., All., etc.

CHICAGO GRAIN MARKETS.

Chicago, April 8.—Active buying of May and July by Armour was the feature in the wheat market today and it is estimated that anywhere from two to four million bushels were taken by that concern during the session. The opening prices were strong, on higher cables, the advance abroad being due largely to confirmation of the reports of damage to the Russian crop, and May was 1 1/2 @ 1/2 higher, at 74 1/2 @ 74. After selling at 74, there was a gradual advance throughout the day, under the influence of the heavy buying by the leading long, together with the good exchange in Bradstreet's world's visible change in Bradstreet's world's visible supply figures from a decrease of nearly two millions to an increase of 300,000 bushels had a little effect on the market, as did liquidation by longs, but the reaction was only temporary, the market at no time showing weakness. At the close May sold at 75 1/4 and the final figures were 1/4 higher, at 75 1/4 @ 74. July closed 1 1/2 higher. Liverpool was steady to 3/4 higher. New York claimed forty-seven headloads accepted at the coast yesterday and thirty-eight today.

Corn was moderately active, within 1/4 @ 1/2 range. The tone was firmer and the close 1/2 better for May and 1/2 higher for July. The strength in wheat and the sailing of the grain fleet with 800,000 bushels of corn were among the "bull" influences. Selling of July by brokers supposed to be for a prominent local operator was an early feature. May was in better request and sold up to within 3/4 of July, but the latter widened to 1/2 @ 1/2. The exports were large.

At the seaboard thirty-one boatloads were taken yesterday and twenty today. Liverpool was 1/2 lower to 3/4 higher. May opened at 42 1/2 @ 1/2, highest, 43 1/2 @ 1/2; lowest, 42 1/2; closing, 43 1/2. Oats were unsettled, advancing 1/4 @ 1/4 early, breaking 1/4 @ 1/4 on selling by local professionals and rallying 1/4, with the close 1/4 @ 1/4 lower for the day. The trading was moderate. The local interest was mainly "long" and sold out, despite the strength in wheat and the large shipments due to the taking out of clearance papers by part of the fleet and the clearance of several boats. May opened at 33 1/2 @ 1/2; highest, 33 1/2; lowest, 33; closing, 33 1/2. The receipts and shipments were as follows:

Table with columns for Receipts and Shipments. Includes Flour, barrels, Wheat, bushels, etc.

Laidley said of the Chicago markets: "Wheat has ruled strong, with an advancing tendency. The shorts were nervous and covered. Good support was given the market by strong interests. The bullish incentives were higher cables. France bought cash wheat at the seaboard. The weather conditions were favorable for winter wheat and for spring wheat seeding. The immediate situation in wheat seems to be strengthening some. Close observers are watching the Paris market, where prices are relatively much higher than in many years. A further advance in May wheat will have a tendency to pull July and September along with it. Based on the crop outlook, however, these months should be sold on bulges like that of today."

"Corn ruled dull compared with wheat. The strength in the latter and a partial relief in the lake strike which permitted vessels to sail helped prices somewhat. The feature of the trading was the liberal selling of July by a prominent local professional who has been identified with the long side for some time. Pit shorts covered. The cash market was firm, with prices up slightly for the low grades."

INCREASED FACILITIES TO POLICY-HOLDERS.

The Mutual Life Insurance Company of New York, the largest, strongest and best company in the world, has established a managing agency in Marquette, Mich., for the care of its business in the peninsula of Michigan and Northern Wisconsin. Increased facilities are thus afforded to the policy holders and agents of the company. Exceptional opportunity is given to bright, energetic men to engage in the business. For particulars concerning agency contracts apply to E. M. Post, manager, Marquette, Mich.

USEFUL INFORMATION ON FUEL.

Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in Lydia E. Pinkham's Vegetable Compound.

"I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months."

"I recommend it to all young women who suffer from female weakness." — Miss ALMA PRATT, Holly, Mich. — \$5000 Profit if original of above letter proving genuineness cannot be produced.

FREE MEDICAL ADVICE TO YOUNG WOMEN.

All young girls at this period of life are earnestly invited to write to Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given; her address is Lynn, Mass.

Judging from the letters she is receiving from so many young girls Mrs. Pinkham is inclined to the belief that our girls are pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries; less learning and more health needed.

KENNEDY DEMANDS A RECOUNT.

Candidate for Municipal Judge Files Request With City Recorder.

William Andrews is not yet certain of prevailing over the municipal court. Cornelius Kennedy, his opponent in the recent election, yesterday filed with the city recorder a protest against allowing the ex-mayor to be seated on the judicial bench and demanded a recount of certain votes.

Mr. Kennedy asks a recount of the votes cast in all the wards except the Second, Fourth and Ninth on the ground that the count as announced on election night is not correct. As required by law he has deposited \$10 to cover the cost of the recount in each of the seven wards, making \$70 in all, which, should his contentions hold good and he is declared the winner, will be returned to him.

The fact of Mr. Kennedy's request came up at the special meeting of the council last evening and it was decided to meet again at 2 o'clock this afternoon. At this meeting, Messrs. Andrews and Kennedy will each appoint one representative to act on a committee of three that will examine the disputed ballots. The third man will be named by the council. All three of the committeemen must be aldermen. The council will remain in continuous session until the recount is concluded, sitting as the board of canvassers, and in all cases of dispute will settle the fate of the affected ballots.

Table with 2 columns: Kennedy, Andrews. Rows: First, Second, Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth.

The demand for the re-count has stirred up considerable feeling. Mr. Andrews' supporters naturally dislike the idea and several had considerable to say about the matter, some alleging there was a scheme on to rob Andrews of his victory.

The election inspectors reported more mistakes than usually occur, probably owing to the great number of split tickets. It is probably on this account that Mr. Kennedy thinks that a more thorough inspection of the votes may result in finding more errors in the count.

It was rumored on the street yesterday that James Lawry, the defeated candidate for supervisor in the Tenth ward, would also contest the election. Naught, his opponent, won by just one vote, getting sixty-two to sixty-one.

ARE GOOD HOUSEKEEPERS.

A member of the W. C. T. U. has called the attention of The Mining Journal to the fact that Mrs. E. H. Shaver, who captured the prize in the bread contest at the Methodist church recently, was a member of the committee of temperance women that canvassed the saloons and tobacco shops a number of weeks ago, reminding the proprietors of some of the provisions of the local laws relating to their business. It will be remembered that in an interview that appeared in this department about that time a liquor dealer said he was willing to wager that none of the women who were interesting themselves in the temperance crusade "would be capable of taking even the loopy prize in that baking contest the Methodists are talking of."

The ladies say that they are ready to bring forward any amount of proof, in addition to the testimony to Mrs. Shaver's skill as a bread maker, to show that they are capable housekeepers and that their efforts as reformers do not interfere with their duties in their homes. They also affirm that their zeal in promoting the temperance cause has not cooled in the least.

A THOUGHTFUL MAN.

M. M. Austin of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she was relieved at once and was finally cured. Only 25c. at Stafford Drug Co.'s drug store.

GRAND CLOAK AND SUIT EXHIBITION.

Rosen Bros., of Negaunee, take pleasure in inviting all ladies of Marquette county to attend their Grand Easter Suit and Cloak Opening, which takes place Tuesday, April 7, and continues until Saturday, April 11. Exquisite Easter modes in fashionable tailor made suits, skirts and jackets shown. Out of town ladies are specially invited to call and see the largest suit display in the county.

A SWEET BREATH.

is a never failing sign of a healthy stomach. When the breath is bad the stomach is out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick, of White Plains, writes: "I have been a dyspeptic for years—tried all kinds of remedies but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like." Kodol digests what you eat and makes the stomach sweet. H. Harwood, Ishpeming, Stafford Drug Co., Marquette.

COUNCIL GRANTS REQUEST.

City Will Vacate Alley in Rear of Opera House Site.

At the meeting of the common council last night, no objections were registered to the petition of property holders who asked that a portion of the alley in the rear of the site of the proposed new opera house should be vacated by the city. A theatre site of the required size is now practically secured and the opera house project, which has been lying dormant for some time, will again be taken up at once. The charter of the corporation has arrived from Lansing and a meeting of the stockholders will be called in a few days, when a permanent organization will be effected and a board of directors chosen. Further plans will be discussed at that time.

TO BUILD AN ADDITION.

J. H. Mortley has decided to have an addition built to the east side of the building that he occupies as a tailor shop, and workmen started to clear the ground yesterday. Robinson's plumbing shop, which occupies the space that will form the site of the proposed structure, will be moved close up against Trembath's paint shop. The addition will be identical in its construction to the present building. It will be of almost exactly the same size, having a twenty-foot front. Mr. Mortley intends to rent the ground floor for store purposes and the second story for offices or living apartments.

WILL IMPROVE THE PROPERTY.

The congregation of the Finnish Lutheran church intends to provide for a hall to be used for small meetings and social purposes by building a basement under the church edifice. The trustees have invited bids for contracts for the work. They announce that all applications should be made at Ristkangas' jewelry store not later than April 15. The church affairs are in very flourishing condition and large additions have been made to the membership within the past year. The church edifice will probably be enlarged soon, as it is at present inadequate to fill the needs.

NEW STAMPS ARE IMPERFECT.

Owing to an imperfection in the new two-cent stamps recently issued, they have been called in and a new design is to be adopted. Many persons suffering from stomach, liver and kidney complaints, and who have tried various remedies without obtaining relief, have also discovered that they made a mistake in the selection of a medicine to cure them. There is only one such medicine and that is Hostetter's Stomach Bitters. To all such sufferers we desire to call attention to its unequalled record of cures extending over a period of fifty years. Then surely the Bitters is the right medicine for your case. It positively cures flatulency, heartburn, dyspepsia, indigestion, liver and kidney troubles, la grippe and malaria. Try a bottle and test it for yourself.

ISHPEMING IN BRIEF.

Nels Majhamm of Michigamme was here yesterday.

There will be a meeting of the Royal Neighbors tonight.

Mrs. W. H. Johnston arrived home from Chicago yesterday.

Mrs. Horace J. Stevens of Houghton is here, the guest of friends.

President T. E. Cole of the Oliver Mining company was here from Duluth yesterday.

The A. O. U. W. will give a social hop at Anderson's Hall Thursday evening, April 18.

In a letter sent from Boston Monday, Rev. S. Polkinghorn stated that he expected to sail yesterday at 5 o'clock p. m.

Trombly's orchestra will give its first hop after Lent on Wednesday evening, April 15. It will be held at Anderson's Hall.

C. E. Sundstrom and Peter Paquin of Michigamme, H. Ericson of Republic and W. J. Gill of Champion were among the Ishpeming visitors yesterday.

In Ishpeming township, Patrick Lyons was elected supervisor, defeating Andrew Gustafson by fourteen votes. George Hocking was elected clerk.

James Martin has resigned as secretary of the Methodist Sabbath school. His successor will be chosen at a special meeting to be held next Sunday.

The pay days of the Cleveland-Cliffs company are announced as follows: Saturday, Cliffs shaft; Monday, April 13, Hard Ore and Salisbury; Tuesday, Lake.

O. C. Davidson of Iron Mountain, general manager of the steel trust mines in the Menominee range and a member of the board of control of the Marquette prison, was in the city yesterday.

Mrs. John Tohan, who has been living with her husband's parents on Euclid street for some time, left last night for South Africa to join her husband. Mr. Tohan is engaged in diamond drill work and expects to locate in South Africa permanently.

Where to Stop When in Detroit. Hotel Metropole, Woodward Ave., opp. City Hall, European plan. Rooms, \$1 per day; with bath, \$1.50.

BIDS WANTED. Bids are wanted for the completion of a basement, to be used for meeting purposes, under the Finnish church, Ishpeming. Specifications of work can be seen at E. Ristkangas' jewelry store, 111 First street. Bids must be in before the evening of April 15. (4-9-10k)

We are selling sixteen-inch pine slabs at \$3.00 per load. Consolidated Fuel & Lumber Co. (11-24-1f)

THERE IS NO DEBATE with disease, there is no dispute with death; there is no reduction in debts; there is no cancellation of liabilities. "I Grow Hair In One Night."

Famous Doctor-Chemist Has Discovered a Secret Compound That Grows Hair on Any Bald Head.

His Startling Announcement, Accompanied by Absolute Proof of Wonderful Cures, Causes Doctors to Marvel and Stand Dumbfounded.

The Discoverer Sends Free Trial Packages to All Who Write.

After half a century spent in the laboratory, crowned with high honors for his many world-famous discoveries the celebrat-

Discoverer of This Magic Compound That Grows Hair in a Single Night.

ed physician-chemist at the head of the great Altemheim Medical Dispensary has just made the startling announcement that he has produced a compound that grows hair on any bald head. The doctor makes the claim that after experiments, taking years to complete, he has at last reached the goal of his ambition. To the doctor all heads are alike. There are none which cannot be cured by this remarkable remedy. The record of the cures already made is truly marvelous and were it not for the high standing of the great physician and the convincing testimony of thousands of citizens all over the country it would seem too miraculous to be true.

There can be no doubt of the doctor's earnestness in making his claims, nor can his cures be disputed. He does not ask any man, woman or child to take his or anyone else's word for it, but he stands ready and willing to send free trial packages of this great hair restorative to anyone who writes to him for it, enclosing a 2-cent stamp to prepay postage. In a single night it has started hair to growing on heads bald for years. It has stopped falling hair in one hour. It never fails, no matter what the condition, age or sex. Old men and young women, men and children all have profited by the free use of this great new discovery. If you are bald, if your hair is falling out, or if your hair, eyebrows or eyelashes are thin or short, write the Altemheim Medical Dispensary, 915 Foss Building, Cincinnati, Ohio, enclosing a 2-cent stamp in prepay postage for a free package and in a short time you will be entirely restored.

AFTER THE ROBBERIES.

Marshal Fandrem gathered in a couple of hoboes Tuesday night. They were released yesterday morning with the warning that if they should again receive attention from the local police they would be enrolled on Sheriff Pugh's register. The marshal says he intends to make Ishpeming a very unpleasant place for the Wray Willies, so that they will shun it as they would a prospect of hard work.

"Company, Attention!"

"For recreation you will now listen to a story from headquarters." CAPT. REXALL, Adj.

The Human Locomotive.

A certain man, because he was so strong and hearty, imagined he was a locomotive. There was, he thought, no limit to his vitality.

He regarded his stomach as the firebox. All he had to do was to keep the firebox full. He followed the Mississippi steamboat plan, and crowded every old thing into his stomach.

One day when he was pulling a heavy load the firebox didn't burn right, so the Human Locomotive stopped to investigate.

He found the flues choked, the firebox full of clinkers, and so stuffed with fuel that it couldn't even show a red glimmer.

Somebody told him to keep a clean fire with a good draught, and feed it regularly, with only a certain quantity at a time.

He was further advised to use Rexall Dyspepsia Tablets for the purpose of putting himself in first-class shape.

He did as he was told, and was soon able to pull and haul as well as ever. Besides he puffed less under a heavy load.

Rexall Dyspepsia Tablets are absolutely guaranteed to cure all the distressing forms of Dyspepsia and Indigestion, or we'll pay for all the medicine you take.

Price, 25c. at Our 51c. or by Mail The Stafford Drug Company.

A MUSIC INSTRUCTOR.

Mrs. Rosa S. Marden Selected for That Position by the School Board.

At its last meeting the school board made an important addition to the corps of teachers of the public schools for next year. Mrs. Rosa S. Marden, at present instructor of music in the public schools of Dodgeville, Wis., was engaged to fill the position of Miss Helen Almendinger, who has resigned. Mrs. Marden was here last week and made a very favorable impression on the members of the board. She had been well recommended, and the superintendent and the board are satisfied that she fairly deserves all that has been presented for her. The new instructor received her musical education at Boston and has been qualified as a public school teacher by taking a special course in the Oshkosh Normal college and by practical experience in the work. She has been very successful, and the endorsement of the head of the Dodgeville schools is an excellent testimonial to her ability. She was secured for the local schools only by the offer of a larger salary than she is now receiving.

One of Mrs. Marden's qualifications that had much to do with influencing the board in her favor is her fine soprano voice. She sang several selections in the presence of the board and a number of others well fitted to pronounce judgment in musical matters, and it was the unanimous opinion that her voice is of much more than ordinary quality. Mrs. Marden will take up her duties next September, when the fall term opens.

Two vacancies on the teaching corps yet remain to be filled. At least one number next year, owing to the increase in attendance which will necessitate the opening of a new room in the Jackson school.

The question of taking up manual training is being discussed. A member of the board said a few days ago that he believed the need for such a department really exists and he thought that within a very few years such a school would be established. A new building would probably have to be erected, as the present quarters are already overcrowded. A special instructor would also be required. The school would undoubtedly be appreciated. The expense of the building and equipment would be considerable, but it could be maintained as cheaply as any other department. The question of securing the funds would be the greatest obstacle to overcome. The bonds on the high school building are not yet paid and taxpayers would probably object to being saddled with another issue.

BY ONE VOTE.

Captain John Thomas will retain his place on the board of supervisors as the representative from Sands township, but he won out by the smallest of majorities. Louis Girard was his opponent, and the vote stood 61 to 62 in Thomas' favor. The opposition had nominated G. R. Jackson, superintendent of the Austin mine, to run against Captain Thomas, but he withdrew as he had not yet acquired a legal residence. Mr. Girard was substituted. In Richmond township Mark Elliott was reelected without opposition. Mr. Elliott has served on the board of supervisors for several terms.

Abundant health is assured when there is good blood in the veins. Hood's Sarsaparilla is the medicine to make good blood. Begin taking it now. It is just what the system needs at this time and will do you great good. Sharpens the appetite, steadies the nerves.

LOCAL LACONICS.

Hugh Viden has gone to the copper country.

The council will meet tonight and canvass the city vote.

Special services will be held at St. Paul's church Thursday and Friday evenings.

Frank Smith, of the Iron Herald, left yesterday morning for West Superior, where he will take a new position.

A number of J. W. Elliott's men are engaged in decorating the interior of M. C. Quinn's house, soon to be occupied by George J. Maas.

William A. Bateman of Calumet, T. Fredrich of the Soo and James H. McDonald of Gladstone were all Negaunee visitors Tuesday.

D. McDonald has four carpenters engaged in preparing the floor of the opera house for the Easter Monday ball. It will be put in the best of condition.

There were two transfers of real estate Tuesday. Joe Curtis sold his residence on Snow street to Carter Curtis and bought the residence of Joe Andrews on the same street.

In accordance with a long established custom, most of the merchants will close their stores at noon tomorrow and for the remainder of the day. A number have not yet promised to close, but it is thought that all will be willing to do so.

Clifford Barabe has been in town for the past two days. The new residence that he is having built at Houghton will be finished in about three weeks, and he will then return to Escanaba for the purpose of shipping his household goods. He expects to become a student at the Michigan College of Mines.

It pays to have your coal stoves well cared for. Store them with T. W. Sincor, the stove man, and they will be set up like new next fall. I make a specialty of carpet cleaning and laying.

MAN STARTS INSURANCE.

So when he stops, insurance takes his place. If man starts no insurance, his earning or productive value stops when he stops. Insurance is an idea which, if carried out, protects a man's value beyond his grave. 10th Year, doing business in 25 States. Nat. Life Ins. Co. of Vt. (Mutual) Organized 1850. M. W. Marshall, Gen. Mgr., Marquette, Mich.

MUST SUPPORT THEIR FAMILIES.

Superintendent of Poor Is After Those Who Fail to Do So.

C. L. Sporley, superintendent of the poor, was in Ishpeming a few days ago looking into the case of Matt Justilia who had been accused of failing to support his family. The man was found guilty of gross neglect and is now in the county jail on a thirty day sentence. Mr. Sporley says that a number of similar cases have come to his attention here and at Ishpeming and that, unless a speedy reformation is evident in the conduct of several of the heads of large families which are in destitute circumstances, Sheriff Pentz will have several more boarders. Mr. Sporley is frequently called upon to render assistance from the public funds to needy and destitute persons, but he always makes a thorough investigation before he adds to the list of the county's dependents. If it is found that the head of the household is capable of supporting his family the requests for aid are generally refused.

Champion.

APRIL FOOL CANDY.

Commercial Man Distributed Two Boxes of "Chocolates" in Champion.

J. McLennan, representing the Kelley Hardware company of Detroit, was responsible for much amusement here April 1. He was a guest at the Beacon house and the fun started there. Later in the evening a number in attendance at the production of "The Iron Mask" partook of his chocolates.

McLennan had a couple of boxes of "fake" candy. Each piece had a Lowney mark on it and it resembled the genuine confectionery. While the guests and boarders were seated at the supper tables the generous drummer passed the candy. There was some snacking of lips, but within a minute or so the house was in an uproar. Some put their teeth into rubber, others red pepper and some got cork. One of the pretty school teachers, who is very particular as to what sort of sweets she samples, drew a mouthful of soap.

In the evening the confusion caused by the distribution of the candy interfered with the play. Some of the girls thought the commercial man mean, but the young men "tumbled" quickly and all enjoyed the joke. McLennan also introduced a rubber pointed lead pencil, which several attempted to use.

BEACON CLUB BANQUET.

Second Anniversary Was Celebrated Monday Evening at Headquarters.

Nearly one hundred members of the Beacon club attended the annual meeting of the organization at the club rooms election night. It is an event which none of the members miss if it is possible for them to be present. A special program was rendered, and, following the entertainment, a banquet was served.

The meeting was presided over by Dan Toms, the president. Toasts were responded to by M. C. Quinn, Captain Charles Champion, Thomas Carmichael and William E. Trestal. Joseph Neumann was heard in pleasing songs.

The officers elected for the ensuing year were Dan Toms, president; Alver Christianson, vice president; Ambrose Nord, secretary and treasurer.

QUIET ELECTION.

There was no election excitement in Champion Monday. The workmen took a day off, but the vote polled was lighter than expected. The light vote was due to the fact that there was no opposition to any of the candidates. A special program was rendered. Following is the complete ticket:

Supervisor—Walter Fitch, Clerk—J. S. Beatty, Treasurer—B. R. DeLorimier, Overseer of highways—Charles Champion.

Board of review—Joseph Mitchell, School inspector—Walter Fitch, School trustee—Thomas Carmichael, Constable—Charles Lavigne, Jeffrey Marchand, Alex Barkala and Richard Magor.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at Stafford Drug Co. Price 25c and 75c.

O'DONNELL WAS ENTERTAINED.

T. J. O'Donnell, for some time in the employ of the South Shore company here, was in town Sunday on a visit. Soon after his arrival a number of his "Y. M. C. A." friends planned a reception for him that evening. It was a stag affair and lasted until midnight, when Mr. O'Donnell took the train for home. A swell lunch was the feature of the meeting.

CHAMPION CHIPS.

M. C. Quinn is spending a few days in Chicago. Fred Levine spent last week at Sault Ste. Marie. A number of Champion people heard the During Swedish Ladies' Quintet at

MATT J. JOHNSON'S 6088

For Sale and Guaranteed Only By PENDILL'S PHARMACY, Marquette, Mich. KIRKWOOD & O'DONOGHUE, Druggists Negaunee, Mich.

Ishpeming Friday and Sunday evenings last. Edward Bradley is spending a few days at Duluth and on the Mesaba range.

The ladies of the Methodist church will conduct a social on Good Friday evening.

Walter Fitch arrived home Tuesday from the east, where he spent a week or so on a business mission.

The Swedish Lutheran church people held a very successful social at the Swedish hall election night.

A number of Champion young people will attend the Woodmen's annual ball at Michigan next Monday night.

R. R. Thomas and wife will spend the next few weeks at Mt. Clemens and other points in the lower peninsula.

The Misses Mollie and Gertrude Gibson are home on their Easter vacation. The former is teaching at Crystal Falls and the latter is at Amasa.

Fritchot Palm has purchased the broom manufacturing business of the late John Danielson, for whom he worked a number of years.

Miss Nellie Feeley recently gave up her position as teacher at the school here and has gone to the Marquette Normal to complete her studies. Miss Eva Ripelle succeeds her.

Miss Belland recently gave up her position as clerk with Levine & Davidson and has gone to Iron Mountain, where she will engage in the dress making business. Miss Ida Racine succeeds her at the store.

G. P. Mallon, for some time an operator at the South Shore depot here, is now a resident of Great Falls, Mont. He was a candidate for alderman on the Democratic ticket in the election held there recently.

Charles Lamore and Phil Bradley, both old residents of Champion, have gone to Bessemer, where they have taken positions at the Mikado mine, where Antoine Rivard, formerly surface captain at the Champion, has charge of the surface work.

MAKES A CLEAN SWEEP. There's nothing like doing a thing thoroughly. Of all the Salves you ever heard of, Bucklen's Arnica Salve is the best. It sweeps away and cures Burns, Sores, Bruises, Cuts, Boils, Ulcers, Skin Eruptions and Piles. It's only 25c, and guaranteed to give satisfaction by Stafford Drug Co., druggist.

GRAND CLOAK AND SUIT EXHIBITION. Rosen Bros., of Negaunee, take pleasure in inviting all ladies of Marquette county to attend their Grand Easter Suit and Cloak Opening, which takes place Tuesday, April 7, and continues until Saturday, April 11. Exquisite Easter modes in fashionable tailor made suits, skirts and jackets shown. Out of town ladies are specially invited to call and see the largest suit display in the county. (4-7-3d)

OPTICIANS CANNOT AID those persons who are so short-sighted as to neglect insurance. 5th year, and doing business in 25 States. Nat'l Life Ins. Co. of Vt. (Mutual) Organized 1850. M. W. Marshall, Gen. Mgr., Marquette, Mich.

Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Electric Oil relieves the pain instantly. Never safe without it.

SHEA BROTHERS.

# A NEW FLOTATION

## LAKE SUPERIOR GOLD MINING & MILLING COMPANY.

### WILL DEVELOP MEXICAN PROPERTIES

### ITS PROSPECTS CLAIMED TO BE AMONG THE BEST.

Company Is Officered and Directed by Well Known North Country Men— One Issue of 50,000 Shares of Stock Already Sold.

The Lake Superior Gold Mining & Milling company is one of the latest flotations in which north country people are chiefly interested. It is organized to develop gold claims in the state of Sonora, Mexico, about twelve miles northwest of Magdalena in the Guacomo mountains. Its prospects are described by its officers and directors as being exceptionally bright.

These latter are men well known throughout the upper peninsula, being as follows: President, W. H. Laidley, of Chicago; vice president, Peter W. Phelps; treasurer, F. H. Begole; secretary, George Barnes; general manager, James Hooper, Magdalena, Mex.; consulting engineer, Thomas Hooper, superintendent of the Victoria Copper Mining company, Rockland; corporation counsel, A. B. Eldredge; attorney, Frank J. Duffey, Nogales, Arizona; directors, W. H. Laidley, Peter W. Phelps, James E. Connel, George Barnes and Thomas Hooper.

The company is organized under the mining laws of Arizona with 500,000 shares of a par value of \$5 each, the stock being non-assessable and there being no personal liability of shareholders.

The first issue of stock was made several days ago, when 50,000 shares were placed on the market at fifty cents a share. They sold almost at once, being in big demand. Today an issue of a second 50,000 shares at \$1 a share will be placed on sale, and it, too, is expected to be in good demand, for the reason that the company has on its claims a mine worked to date by old Mexican methods, which is claimed to be capable of yielding \$2,000 a month, even with the present primitive facilities.

#### Two Groups of Claims.

The company controls two groups of claims. The La Fortuna group was first obtained. It consists of fifteen perturbations which form an unbroken line extending upon the trend of the vein for a distance of 7,500 feet, or nearly a mile and a quarter. Considerable work has been done on this group, and everywhere paying rock has been shown up. The gold bearing vein is a contact between lime and granite, the distance between foot and hanging walls being about 140 feet. Rich shoots of ore cut through this at a sharp angle and all the vein matter carries values uniformly outside of these highly mineralized zones, no assay yet taken giving less than \$5.80 per ton gold. The gold is very free, is often held in combination with iron pyrites, and it is estimated that 95 per cent of it can be saved by the simplest methods of stamping, centrifugal milling or rolling. It is an excellent cyaniding proposition, containing no refractory elements to interfere with ready extraction of its metallic contents. This is a feature of great value to the company, and one of the advantages the gold ores of this particular district offer as compared to many other fields where ores are so base as to give little profit after the expensive methods necessary for their treatment.

Below the shafts and surface cuts the vein is exposed in a canyon dividing the mountain, this being at a point many feet below the shaft. From the estimates readily made from these explorations and the mill tests it is claimed that it can be conservatively said that fully 6,000,000 tons of milling ore, having a value of \$5,000,000, net, have been proved, and in addition there is a large territory within the limits of the boundary lines of these claims which should give further value to the figures

already stated, the speculative value being entitled to careful consideration.

#### The La Jojoba Mine.

The La Jojoba mine was secured after the La Fortuna group was obtained largely on account of the favorable manner in which President Laidley and Treasurer Begole were impressed with the property on the occasion of a recent visit to Mexico. The Jojoba includes twenty-eight perturbations, about two and a half miles by one and a fourth.

At the time of its purchase by the Lake Superior Gold Mining and Milling company, the La Jojoba mine was being operated by Mexicans, who were running a 5-stamp mill under many difficulties, chief among which was the lack of competent mechanics to superintend and care for the machinery and mine workings. The latter could best be described as rabbit burrows, so ramblingly were they conducted. Even with these obstacles the mill was making money, this attesting to the value of the ore being treated. Formerly worked by Spanish priests during the eighteenth century, the shaft had reached a depth of only 150 feet, although rich quartz is showing in its bottom. The ores were conveyed to surface in rawhide sacks carried upon the backs of natives, who used notched poles as a means of ascending and descending through some of the connecting "holes", or winzes, and who were provided with spiral stairways in the shaft proper, this forming the ore-hoisting convenience of the present time. The most recent improvement consists of a few wheelbarrows in which the ore is handled from one drift to the shaft. Only the very rich ore shoots of the big vein could be worked, and the portion "prophesied" by the miners is a very small part of the vein proper, the latter being as yet merely scratched upon surface by the many years' operation of the Mexicans.

There is excellent ore all the way from surface to the bottom of the shaft that will give handsome returns in the mill. The latter can be placed in proper working condition by a small outlay and can easily earn \$2,000 per month on the average ore of the entire ledge. There is room for fifteen additional heads of stamps, and these will be placed in position soon. With this slight increase \$5,000 per month can be earned. This will give the company funds from the outset to carry on its development work, being a great assistance in a financial way, as well as providing the most satisfactory means of practically determining the value of new ore bodies which will surely be found outside of those already known to exist on these claims.

The ores of the La Jojoba are free milling, the geological and mineralogical characteristics being similar to those present at La Fortuna. There are immense bodies that can be cheaply stamped and sent to the mill, where increased stamping facilities will be added as rapidly as possible.

Please to Get the Hoopers. The officers of the company regard themselves as very fortunate in being able to obtain James Hooper and Thomas Hooper in the capacities of superintendent and consulting engineer, respectively. The former is now thoroughly familiar with mining conditions in the southwest. He has operated New Mexican gold properties for eight years and he speaks the Spanish language. His father, the consulting engineer, is best known to upper peninsula people as the superintendent and agent of the Victoria, where he has made a great record. His ripe experience in mining and milling in all of its phases will be at the command of his son. The Hoopers will leave for the mines in about ten days, and will immediately take up the task of mapping out the work for both groups of claims.

Magdalena will be the base of supplies. It is only an hour and a half distant from the claims, an excellent wagon road running the entire distance. Labor in the vicinity of the claims gets \$2 a day Mexican money, the equivalent of seventy-four cents American money. It is of excellent quality, if properly supervised.

Stafford Drug Co. sells Ryckman's Old Brocton Port Wine and G. W. Blaine's Grape Juice. (4-9-3mo)

AT DESCHAINES' BAKERY. Try a sample of our Cream Bread. It is strictly homemade. (2-26-14)

#### CLIMAX OF LENT.

### Good Friday Will Be Observed With Much Religious Fervor.

The climax of Lent is now passing. Today and tomorrow, Good Friday, there will be much churchgoing and prayer, particularly for members of the Catholic and Episcopal denominations. Preparations for Easter Sunday are not being overlooked in the arrangements for the more somber feasts. It will be a day of great and general rejoicing in church circles generally. The Lenten season has been observed with no little strictness here. Entertaining have been at a discount and anything resembling formal social functions have been frowned upon.

#### AT ST. PAUL'S CATHEDRAL.

### Services Today and Tomorrow, Maundy Thursday and Good Friday.

This day in holy week is the anniversary of the institution of the holy sacrament by Jesus Christ. There will be a celebration of the holy communion at St. Paul's cathedral at 7 a. m. and a second celebration at 9:30 o'clock. On Good Friday there will be morning prayer at 10 o'clock and a service in commemoration of the Lord's agony on the cross, beginning at 2 m. and lasting till 3 p. m. The instructions given at this service will be some prepared by Dr. Morgan Dix, of Trinity church, New York. In the evening the service will be held at 7:30 o'clock. A cordial invitation is extended to all to attend these services and make Good Friday a day of solemn Christian observance.

#### A POPULAR BILL.

### "The Cowboy and the Lady" to Be Presented at Theater Tomorrow Night.

"The Cowboy and the Lady", which S. Kent Miller, who played a successful engagement here last season, will present at the opera house tomorrow evening, is one of Clyde Fitch's most interesting plays. The scenes are laid in Colorado and the characters are interestingly diversified. There is no lack of the comic element, and flashes of wit illumine the dialogue, while the strong dramatic scenes hold the audience spell-bound and call for acting of a high order. An excellent company surrounds Mr. Kent, and the clever young star was never better suited to a character than he is to the role of Teddy North, the gentleman cowboy. Despite the fact that the hero is a Harvard graduate, a man of culture and polish, dressing in the height of fashion, he shows qualities of heroism and daring not ordinarily expected to be found in such a setting, and the rough platoonmen all swear by him, rallying quickly to his support when he is on trial for murder. The unique part of this murder trial is that the accused conducts his own defense. He knows he is not guilty and so do most of his friends, but naturally it is necessary to convince the judge and jury, and the arguments put forward, by turn humorous and dramatic, finally convince the rest of his innocence. No more striking scene of succession of exciting incidents has been seen on the stage in years, and the element of interest is kept up to the very last moment.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo-Quinine Tablets. This signature is on every box. See our big ad for full instructions. Read them whether you need fuel at once or not.

THE MARQUETTE GAS LIGHT CO. VALLEY OF THE ONTONAGON. A beautifully illustrated poem of copper country scenery, in colors. Size, 6 by 9 in.; cover, gold and embossed. Price 50 cents, postage prepaid. Address, Rev. W. E. Brown, St. Ignace, Mich. (2-19-1m)

HOTEL DEE HOUGHTON, MICH. (European Plan.) SACKRIDER & M'KENZIE, Proprietors.

#### CITY BREVITIES.

Today's weather: Partly cloudy, with possibly showers. Fresh to brisk southwest winds.

Yesterday's temperature: 7 a. m., 39 degrees; noon, 55 degrees; 7 p. m., 51 degrees. Maximum, 59 degrees; minimum, 34 degrees.

Peter Primeau has been in the city the past few days.

Captain W. J. Allen of Humboldt was a Marquette visitor yesterday.

The funeral of Miss Flora B. McCarthy was held yesterday morning, being attended by many friends of the deceased.

A sale of plain and fancy articles, also Easter novelties, will be held in the parlors of the Methodist church today, beginning at 9 a. m.

St. Cecilia court, C. O. F., will hold a dance at Fraternity Hall the evening of the 15th. An admission of twenty-five cents will be charged.

The entertainment it was announced would be given by the Epworth league Friday evening in the Methodist church parlors has been postponed to some date yet to be decided on.

A couple of the ore carriers in the lower harbor had steam up yesterday. They are now ready for a trip down the lakes as soon as the labor troubles are settled, and they are ordered to proceed.

Yesterday was a joy and a delight after a couple of weeks of unsettled, broken weather. The temperature had moderated greatly and the sun shone bright all day, drying up the streets to a great extent.

Mr. and Mrs. C. H. Cole, and daughter Mina, of Jackson will arrive in Marquette within a few days, to make their home here. Their household goods have already arrived. They will join their son, H. C. Cole.

There will be a service in the German Lutheran church this evening at 7:30 o'clock. Tomorrow morning at 10 o'clock there will be a service, with confession and holy communion, in the German Lutheran church at Green Garden.

Miss Bessie Louise Holmes, daughter of Mrs. Anna Holmes, formerly of Marquette, was united in marriage to A. O. Smith Monday evening at Calumet, Mich. The bride was born in Marquette and has the best wishes of her friends in this city. Mr. and Mrs. Smith will make their home in Duluth.

William H. Greene, traveling engineer of the South Shore road, won out in his race for the mayoralty in Marquette in a manner which proved that his experience in making up time had made his late entry in the race not the slightest bar. He pulled in on schedule time after a record-breaking run having made a cross between a local freight and a gravel train.—Houghton Daily Mining Gazette.

Morse Hose company's annual ball, which will mark the resumption of social activity, following the season of Lent, will be held next Monday night at the Casino rink. The ideal orchestra will furnish the music, and supper will be served at Prince's. The rink will be elaborately decorated. The freemen are counting on a record-breaking attendance, especially from up the road, and will be prepared to give their guests a royal good time. The tickets will be a dollar a couple. It is the intention of the freemen to canvass the city generally and a committee will soon wait on business men and others.

DON'T! Don't get the notion that the curative power of a medicine exists in the name. It must be in the medicine itself. You may not have heard of Re-Go Tonic Laxative Syrup. It is not made of figs because the laxative principle of figs are the seeds, yet it is as pleasant to take as figs are to eat and is a certain cure for biliousness, constipation, indigestion and stomach troubles. The name is Re-Go, which in Sanscrit means "good." The merit is all in the medicine itself. Sold by the People's Drug Store.

## Crooked River Mining & Milling Co.

OF ORO GRANDE, IDAHO.

25,000 SHARES OF STOCK FOR SALE AT \$1.00 PER SHARE UNTIL APRIL 17TH.

A 20 stamp mill now in commission, with 40 additional stamps which have already been ordered shipped, the mine will be placed on a good dividend paying basis.

Expert mining men, from all sections, who have visited the property, proclaim it a Wander and a World Beater. Recent reports from the mine could not be better.

Extracts from western papers, prospectus, maps and ores from mine can be seen at our office. Call or write.

For particulars, or ordering of stock, address,

JOS. J. WIRTZ,

Werner Block, Marquette, Mich.
