#### LAST CHANCE.

To Buy Bisbee Consolidated at \$1.00 Per Share.

My right to sell Bisbee Consolidated Treasury stock at \$1.00 per share terminates April 14th. All stock ordered after April 10th will have to be telegraphed for. The recent rich strike by the Solomon Springs Copper Company which is within 1,200 feet of the Bisbee Consolidated has set the country in that district affame; consequently there is no hope of my securing an extension as the Bisbee Consolidated management intend to advance the price of the stock to \$2.50 per share as soon as my option expires which will be on the 14th inst., and they will offer but a small ock at that price.

The Solomon Springs Copper Company is like, the Copper Queen, a close corporation and is controlled by a New York syndicate. At Bisbee it is now called the "New Irish Mag" after the Calumet and Arizona's famous claim, and gives promise of developing into fully as rich a mine is any at Bisbee. The Bisbee Consolidated with her seventeen full claims compactly situated and lying close to the El Paso and South Western Railroad, her small capitalization (200,000 shares) considering the great value of her holdings and the extreme low price of her stock to those who take advantage of my option, with her capable and efficient management cannot but appeal to the investor as a property offering un-

At the present selling price of claims in the Bisbee Consolidated District her property alone is worth twice the capitalization of the company at the price I now have an option on the stock, and were her owners so disposed, they could easily sell their properties for much more in eash than they are now receiving in full payment for them in the stock of the company. They would never have sold a share of the stock and would like the Solomon Springs Copper Company have continued a close corporation had they possessed sufficient capital to develop the mine them-

Finding the machinery they now needed would cost more than they could conveniently raise they granted me the option which is about to expire and which because of the rich strike close to them I have no hope

So do not miss this opportunity to secure stock in what is now considered the best buy in the Bisbee District. Though eash must accompany my orders I will agree to accept orders upon payment of one-half the purchase price, balance to be paid when certificate arrives. I will also accept orders from persons I know to be responsible and pay for their stock myself that I might secure it before my option expires upon condition that they pay me on or before April 20.

AT A HIGH POINT. Excitement at the Recount Thursday Evening Was Intense,

"I have lived in Ishpeming for twenty ears and never, except during the hreatening excitement," said a man the surging throng that surrounded the ity hall and filled the council chamber and the corridor. " Grouped around a table in front of the mayor's desk in he council chamber the committee the board of canvassers was recounting the ballots, trying to decide beyond all nestion whether Wiliam Andrews or is opponent, Cornelius Kennedy, had been elected municipal judge. At first

he crowd kept its proper pace outside he railing, but just before adjournment vas taken at six o'clock and immediate y after the committee resumed it ork in the evening the crowd worked ts way into the small room, each one truggling to get a closer view of the able where the ballots were being ounted. It was a perfect mob of exted men, and they soon clambered over he railing and upon the long seats reserved for spectators. The committee was surrounded so closely that several times it became necessary to stop and oush back the front lines of the invading rowd. The committee was busy for nearly four hours. The air in the room was stifling hot and it seemed a wonder hat it could be endured for so long, but all were determined and did not stir from their places till the last vote was nspected and the result was announced. Meanwhile the entry and the stairs eading to the library were packed alnost as full as the council chamber. ough many were constantly passing in

sympathies of the people inclined. It was clearly "Billy Andrews or bust" with them. Mr. Andrews entered the hallway frequently and each time was surrounded by a little circle idmirers. He always had something to ay in regard to the contest that ought forth pronounced expressions of approval. The general sentiment appeared to be summed up in the remark of one man who said that he had ome "to see that Billy Andrews got fair play." Several of Mr. Kennedy's friends were received with groans and jeers when they entered the building and again when they went away. were made the target for volleys of insulting remarks and once it looked as though actual violence might be at-

CANVASSED THE VOTE.

The council held an adjourned meeting esterday afternoon and canvassed the ote of the last election. The report of Benedictus qui venit he committee that had already canvassed the vote on the municipal judgehip was adopted unanimously. Aldernen West, Swanson and Nichols were ppointed to audit the records of the lection inspectors of the various wards nd a recess was taken till they had fin shed their work. Their report agreed substantially with the figures that have dready been published. The coun il adopted the report without a dissentng vote. A good sized crowd was present in the council chamber, as an im pression prevailed that Thursday night's performance might be repeated, with ome new and interesting departures, but there was nothing spectacular to cause even the faintest ripple. On the notion of Alderman Cory a vote of hanks for the efficient service they have cendered was extended to the aldermer who will retire from the council. Alder en West, Kennedy and Lawry were the ecipients of this courtesy as the others whose terms expire were re-elected.

## A Danger Period Through Which Every Woman Must Pass.

Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms. At this period a woman indicates a tendency towards obesity or tumorous growths.

Those dreadful hot flashes, sending the blood surging to the heart

until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop forever, are only a few of the symptoms of a dangerous nervous trouble. The nerves are crying out for assistance. The cry should be heeded in time. Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life, and all women who use it pass through this trying period with comfort and safety.
